6. Complete an MLS AAS online application. Submit a completed Statement of Support along with the application. A $95 non-refundable departmental application fee is also required.
7. Complete a federal background check and drug screen, if required by employer.

Once supporting documents listed above are received and reviewed, students are notified of acceptance and enrolled the following semester.

For more information about the online application requirements and process contact Ashley Wilkinson at 801-626-6120 for advising.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following required courses will fulfill both program requirements and general education requirements in the Life and Physical Sciences areas: CHEM 1110/1115, CHEM
1210/1215, HTHS 1110, MICR 1113, MICR 2054, and PHYS 1010. Remaining general education requirements can be fulfilled by taking the required 12 credit hours from each of the following areas:

- 6 credit hours Composition
- 3 credit hours Creative Arts & Humanities
- 3 credit hours Social Sciences

Some requirements may be met by ACT, CLEP, and/or AP scores as designated by the University (contact the Admissions Office for more information).

**Credit Policy**

MLS Obsolete Credit AAS: Medical Laboratory Sciences credits earned more than five (5) years prior to application or re-application to the AAS program (MLT) will not be accepted toward major requirement.

**Program Learning Outcomes**

- Knowledge Goal: Demonstrate knowledge of theory underlying laboratory testing using analytical, interpretive, and problem solving skills.
- Knowledge Goal: Apply mathematical calculations to laboratory situations.
- Laboratory Skill: Perform laboratory procedures from simple to complex, including specimen collection and processing, analysis, interpretation, and use of quality assurance procedures.
- Laboratory Skill: Correlate laboratory theory and terminology to practical laboratory work.
- Laboratory Skill: Gather additional laboratory data and apply problem solving skills to solve problems/discrepancies.
- Diagnostic Skill: Relate laboratory findings to common disease processes.
- Professionalism and Ethics: Demonstrate professional conduct and ethical behavior.
- Communication Skill: Demonstrate effective communication skills and behaviors with colleagues in the program and in a laboratory setting for the best new technologies to integrate organization's business processes.

**Major Course Requirements for AAS Degree**

**MLS Courses Required (33-34 credit hours)**

- MLS 1001 - Online Orientation for AAS Degree Credits: (1) *Online students only*
- MLS 1113 - Introduction to Medical Laboratory Practices Credits: (4)
- MLS 1114 - Principles of Hematology and Hemostasis Credits: (4)
- MLS 2210 - Principles of Immunohematology Credits: (5)
- MLS 2211 - Principles of Clinical Chemistry I Credits: (5)
- MLS 2212 - Principles of Clinical Microbiology I Credits: (4)
- MLS 2213 - Principles of Clinical Chemistry II Credits: (5)
- MLS 2214 - Principles of Clinical Microbiology II Credits: (4)
- MLS 2256 INT - Supervised Clinical Experience I Credits: (1)
- MLS 2257 INT - Supervised Clinical Experience II Credits: (1)

**Support Courses Required (24-31 credit hours)**

- CHEM 1110 PS - Elementary Chemistry Credits: (4)
- CHEM 1115 - Elementary Chemistry Lab Credits: (1)
- CHEM 1120 - Elementary Organic Bio-Chemistry Credits: (4)
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab Credits: (1)

  OR

- CHEM 1210 PS - Principles of Chemistry I Credits: (4)
- CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
• CHEM 1220 - Principles of Chemistry II Credits: (4)
• CHEM 1225 - Principles of Chemistry II Lab Credits: (1)

• HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) *
• HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4) *

• MATH 1010 - Intermediate Algebra Credits: (4-5) or
• MLS 2003 - Applied Laboratory Mathematics and Laboratory Statistics Credits: (3)

• MICR 1113 LS - Introductory Microbiology Credits: (3) or
• MICR 2054 LS - Principles of Microbiology Credits: (4)

Note:

* Equivalencies to Biomedical Core (HTHS 1110 and HTHS 1111):
  • ZOOL 2200 LS - Human Physiology (4) and
  • ZOOL 2100 - Human Anatomy (4)
    or
  • PHYS 1010 PS - Elementary Physics (3)
Technologist in Microbiology Post Baccalaureate Certificate

This Post-Bachelor's Certificate program is a partnership with the American Society of Microbiology (ASM) to prepare students to work in a clinical microbiology laboratory who lack a formal degree or certification in medical laboratory sciences (MLS). Students will progress through four online courses containing all of the clinical microbiology content included in a bachelor level MLS program, which also includes laboratory operations and an in-person clinical rotation of 160 hours minimum. After completion of this certificate program students will qualify to take the Technologist in Microbiology M(ASCP) certification exam from the American Society for Clinical Pathology (ASCP) via Route 3.

- **Program Prerequisites:** None.
- **Program Requirements:** Students must have a minimum GPA of 2.7 and have completed a baccalaureate degree from a regionally accredited college/university with a major in biological science or chemistry, or have completed a baccalaureate degree with a combination of 30 semester hours (45 quarter hours) in biology and chemistry.
- **Grade Requirements:** to receive a Technologist in Microbiology Post Baccalaureate Certificate students will need to pass each certificate course with a minimum grade of a "B-" or higher.
- **Credit Hour Requirements:** 12 credit hours.
- **Program Code:** 2082CP
- **CIPC:** 410101

Required Courses (12 credit hours)

- MLS 5201 - Technologist in Microbiology: Clinical Microbiology I Credits: (3)
- MLS 5202 - Technologist in Microbiology: Clinical Microbiology II Credits: (3)
- MLS 5203 - Technologist in Microbiology: Applied Laboratory Mathematics and Operations Credits: (3)
- MLS 5204 - Technologist in Microbiology: Supervised Clinical Experience Credits: (3)

Medical Laboratory Sciences (BS)

- **Program Prerequisite:** Completion of MLS AAS Degree requirements. Students transferring from another college or university must have a MLS/MLT AAS Degree and/or CLT/MLT certification.
- **Minor:** A minor is not required, but minors are available in chemistry and microbiology with successful completion of additional courses as specified by the department offering the minor.
- **Grade Requirements:** A grade of "B-" or better in all MLS courses, and a grade of "C" or better in all support courses.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation.
- **Program Code:** Medical Laboratory Professional (2039BS) with Lab Track (2040), or Pre-Professional Tracks (2041).
- **CIPC:** Medical Laboratory Professional (511004) with Lab Track (511004), or Pre-Professional Tracks (511102).

Advisement

All medical laboratory science students are required to meet with an advisor prior to application. Thereafter, advisement with a faculty each year is recommended. To schedule an advising appointment, call the MLS office at 801-626-6118.

Admission Requirements

Campus students:

1. Must have a minimum cumulative GPA of 3.0.
2. Must have completed WSU MLS AAS Program. Transfer students must have a MLS/MLT AAS Degree and/or CLT/MLT ASCP certification.
3. Meet with an MLS faculty advisor.
4. Apply for the BS program and include non-refundable $25 fee by April 1st for fall semester acceptance. Applications can be found online. For more information, call the MLS office at 801-626-6118.
5. Complete a federal background check and drug screen by the end of fall semester after being accepted into the program. If students have completed a background check and drug screen when accepted into the WSU MLS AAS Program, this does not need to be repeated.
6. Students for whom English is not their native language need to submit documentation of proficiency in English. Please refer to the MLS website for more details.

Online students:

1. Must have a minimum cumulative GPA of 2.7.
2. Must be currently employed by an accredited (TJC/CAP/COLA/CLIA) laboratory that can provide a multidisciplinary laboratory experience.
3. Must have a MLS/MLT AAS Degree and/or CLT/MLT certification. (Note: acceptable certification; MLT(ASCP), MT(AMT), or MT(AAB).)
4. Contact the BS MLS online advisor, Christy Achter, at 801-626-6874 for advising.
5. Have employer read and sign Statement of Support form.
6. Apply to WSU for general admissions.
7. Send all official transcripts from other institutions to the WSU admissions office.
8. Complete a MLS BS online application. Submit a completed Statement of Support along with the application. A $95 non-refundable departmental application fee is also required.
9. Complete a federal background check and drug screen, if required by employer.

For more information about the online application requirements process contact Christy Achter at 801-626-6874.

General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following required courses will fulfill both program requirements and general education requirements in the Life and Physical Sciences areas: CHEM 1110/1115, CHEM 1210/1215, HTHS 1110, MICR 1113, MICR 2054, PHYS 1010. Remaining general education requirements can be fulfilled by taking the required credit hours in the following areas:

- 6 credit hours Composition
- 3 credit hours Quantitative Literacy
- 3 credit hours American Institutions
- 9 credit hours Creative Arts & Humanities
- 5-1.0 credit hours Computer Information Literacy
- 6 credit hours Social Sciences
- 3 credit hours Diversity

Some requirements may be met by ACT, CLEP, and/or AP scores as designated by the University (contact the Admissions Office for more information).

Program Learning Outcomes

- Knowledge Goal: Demonstrate knowledge of theory underlying laboratory testing using analytical, interpretive, and problem solving skills.
- Knowledge Goal: Apply mathematical calculations to laboratory situations.
- Laboratory Skill: Perform laboratory procedures from simple to complex, including specimen collection and processing, analysis, interpretation, and use of quality assurance procedures.
- Laboratory Skill: Correlate laboratory theory and terminology to practical laboratory work.
- Laboratory Skill: Gather additional laboratory data and apply problem solving skills to solve problems/discrepancies.
- Diagnostic Skill: Relate laboratory findings to common disease processes.
- Professionalism and Ethics: Demonstrate professional conduct and ethical behavior.
- Communication Skill: Demonstrate effective communication skills and behaviors with colleagues in the program and in a laboratory setting.
Major Course Requirements for BS Degree

- MLS 3301 - Online Orientation for BS Degree Credits: (2)

Core Medical Lab Courses Required (33 credit hours)

- MLS 1113 - Introduction to Medical Laboratory Practices Credits: (4)
- MLS 1114 - Principles of Hematology and Hemostasis Credits: (4)
- MLS 2210 - Principles of Immunohematology Credits: (5)
- MLS 2211 - Principles of Clinical Chemistry I Credits: (5)
- MLS 2212 - Principles of Clinical Microbiology I Credits: (4)
- MLS 2213 - Principles of Clinical Chemistry II Credits: (5)
- MLS 2214 - Principles of Clinical Microbiology II Credits: (4)
- MLS 2256 INT - Supervised Clinical Experience I Credits: (1)
- MLS 2257 INT - Supervised Clinical Experience II Credits: (1)

Note:

Transfer students must have completed a MLS/MLT program and be MLT certified to enter the BS program.

Courses Required for Junior and Senior Curriculum

Select one of the following tracks:

Track I (Laboratory professional)

Online and Campus students

- MLS 3301 - Online Orientation for BS Degree Credits: (2)
- MLS 3302 - Biostatistics, Research Methods, and Laboratory Practices Credits: (4)
- MLS 3310 - Advanced Immunohematology Credits: (4)
- MLS 3312 - Clinical Laboratory Immunology and Virology Credits: (4)
- MLS 3313 - Advanced Hematology and Hemostasis Credits: (4)
- MLS 3314 - Advanced Clinical Chemistry Credits: (4)
- MLS 3316 - Advanced Clinical Microbiology and Molecular Diagnostics Credits: (4)
- MLS 4411 - MLS Simulated Laboratory I Credits: (3)
- MLS 4412 - MLS Simulated Laboratory II Credits: (3)
- MLS 4415 - Laboratory Teaching and Supervision Credits: (3)
- MLS 4453 INT - Supervised Clinical Experience I Credits: (1)
- MLS 4454 INT - Supervised Clinical Experience II Credits: (1)

- CHEM 1210 PS - Principles of Chemistry I Credits: (4) *
- CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
- CHEM 1220 - Principles of Chemistry II Credits: (4) *
- CHEM 1225 - Principles of Chemistry II Lab Credits: (1)
- CHEM 2310 - Organic Chemistry I Credits: (4) *
- CHEM 2315 - Organic Chemistry I Lab Credits: (1) *

or

- CHEM 1110 PS - Elementary Chemistry Credits: (4) *
- CHEM 1115 - Elementary Chemistry Lab Credits: (1)
- CHEM 1120 - Elementary Organic Bio-Chemistry Credits: (4) *
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab Credits: (1)
• HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or
• ZOOL 2200 LS - Human Physiology Credits: (4)

• HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4) or
• ZOOL 2100 - Human Anatomy Credits: (4) or
• PHYS 1010 PS - Elementary Physics Credits: (3)

• MICR 2054 LS - Principles of Microbiology Credits: (4) or
• MICR 1113 LS - Introductory Microbiology Credits: (3)

• MICR 3305 - Medical Microbiology Credits: (5) or
• MICR 3603 - Advanced Microbiology for the Health Professions Credits: (3) or
• PUBH 3200 - Epidemiology and Biostatistics Credits: (3) or
• HAS 3010 - Professionalism in Healthcare Credits: (3)

Note:

* Students seeking a BS degree are required to complete a minimum of two semesters of Chemistry to include an Organic or Biochemistry course.

Electives: (4 credit hours required)

• MLS 4409 - Clinical Correlation Credits: (1) and
• MLS 4410 - Interdisciplinary Health Care Teams Credits: (3)
  or
• MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I Credits: (2) and
• MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II Credits: (2)

Track II (Pre-professional)

Campus students only

• MLS 3302 - Biostatistics, Research Methods, and Laboratory Practices Credits: (4)
• MLS 3310 - Advanced Immunohematology Credits: (4)
• MLS 3312 - Clinical Laboratory Immunology and Virology Credits: (4)
• MLS 3313 - Advanced Hematology and Hemostasis Credits: (4)
• MLS 3314 - Advanced Clinical Chemistry Credits: (4)
• MLS 3316 - Advanced Clinical Microbiology and Molecular Diagnostics Credits: (4)
• MLS 4411 - MLS Simulated Laboratory I Credits: (3)
• MLS 4453 INT - Supervised Clinical Experience I Credits: (1)
• MLS 4454 INT - Supervised Clinical Experience II Credits: (1)

• CHEM 1210 PS - Principles of Chemistry I Credits: (4) and
• CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
• CHEM 1220 - Principles of Chemistry II Credits: (4) and
• CHEM 1225 - Principles of Chemistry II Lab Credits: (1)
• CHEM 2310 - Organic Chemistry I Credits: (4) and
• CHEM 2315 - Organic Chemistry I Lab Credits: (1)
• CHEM 2320 - Organic Chemistry II Credits: (4) and
• CHEM 2325 - Organic Chemistry II Lab Credits: (1)
  or
• CHEM 3070 - Biochemistry I Credits: (3)
- MICR 2054 LS - Principles of Microbiology Credits: (4) or
- MICR 1113 LS - Introductory Microbiology Credits: (3)

- MICR 3305 - Medical Microbiology Credits: (5) or
- MICR 3603 - Advanced Microbiology for the Health Professions Credits: (3) or
- PUBH 3200 - Epidemiology and Biostatistics Credits: (3) or
- HAS 3010 - Professionalism in Healthcare Credits: (3)

- PHYS 2010 PS - College Physics I Credits: (5)
- PHYS 2020 - College Physics II Credits: (5)
- ZOOL 2100 - Human Anatomy Credits: (4)
- ZOOL 2200 LS - Human Physiology Credits: (4)
- ZOOL 3300 - Genetics Credits: (4)

Electives: (4 credit hours required)

- MLS 4409 - Clinical Correlation Credits: (1) and
- MLS 4410 - Interdisciplinary Health Care Teams Credits: (3)
  or
- MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I Credits: (2) and
- MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II Credits: (2)

Note:

Equivalencies to Biomedical Core (HTHS 1110 and HTHS 1111)

- ZOOL 2200 LS - Human Physiology (4)
  and
- ZOOL 2100 - Human Anatomy (4) or
- PHYS 1010 PS - Elementary Physics (3)
**Medical Laboratory Sciences Clinical Laboratory Assistant (CLA) Certificate of Completion**

The Clinical Laboratory Assistant (CLA) certificate of completion is designed to teach core clinical laboratory skills to individuals from various health care professions. The curriculum will focus on basic laboratory methods in quality control, quality assurance, information recording and transfer, normal and abnormal laboratory values, and problem recognition. Students will receive basic technical instruction in laboratory safety, microscopy, phlebotomy, specimen collection and processing, and laboratory instrumentation in the areas of hematology, serology, urinalysis, clinical chemistry, and microbiology. Upon successful completion of the course, students will receive a Certificate of Completion from the Dumke College of Health Profession's Clinical Laboratory Assistant (CLA) program and are designated as CLA level assistant IV by local industry. For campus students, the CLA certificate is granted after successful completion of MLS 1113, Intro to Medical Laboratory Practices. Online students must complete MLS 1010, Core Clinical Laboratory Skills, and have the support of a clinical laboratory to fulfill the laboratory requirement. The laboratory component will address applications with a focus on point-of-care-testing (POCT). Students will be required to spend a minimum of 64 unpaid hours during the semester working on laboratory competency. If students wish to continue to further their education, MLS 1113 will be waived upon enrollment into the MLS AAS Program at WSU. Contact the AAS/MLT online academic advisor, Christy Achter, at 801-626-6874 or christyachter@weber.edu for advising.

**Program Learning Outcomes**

- **Knowledge Goal:** Demonstrate knowledge of theory underlying laboratory testing using analytical, interpretive, and problem solving skills.
- **Knowledge Goal:** Apply mathematical calculations to laboratory situations.
- **Laboratory Skill:** Perform laboratory procedures from simple to complex, including specimen collection and processing, analysis, interpretation, and use of quality assurance procedures.
- **Laboratory Skill:** Correlate laboratory theory and terminology to practical laboratory work.
- **Laboratory Skill:** Gather additional laboratory data and apply problem solving skills to solve problems/discrepancies.
- **Diagnostic Skill:** Relate laboratory findings to common disease processes. Professionalism and Ethics:
  - Demonstrate professional conduct and ethical behavior.
  - Communication Skill: Demonstrate effective communication skills and behaviors with colleagues in the program and in a laboratory setting for the best new technologies to integrate organization's business processes.
Department of Respiratory Therapy

Department Chair: Paul Eberle, PhD, RRT
Medical Director: Christopher Anderson, M.D.
Location: Marriott Allied Health Building, Rm 309
Telephone: (801) 626-7071

Professor: Paul Eberle; Associate Professor: Mich Oki; Assistant Professors: Sharri Vasas, Heidi Voorhees; Instructor: Laurel Duncan

Respiratory care professionals are actively involved, as members of the health care team, in the diagnosis, treatment, management, education, and long-term care of patients with cardiopulmonary problems. These patients may be in the newborn nursery, surgical/medical/rehabilitation units, outpatient clinics, Emergency Room, or cardiac/shock-trauma/burn/neurologic intensive care units. Respiratory Care Practitioners [RCPs] are employed in both acute and long-term care hospitals, skilled nursing facilities, and home health agencies.

Licensed RCPs perform therapeutic and diagnostic procedures under the direction of a physician. Respiratory care practitioners are competent in basic patient care and assessment, medical gas administration, aerosol and humidity therapy, medication administration, hyperinflation techniques, bronchopulmonary drainage and percussion, mechanical ventilation, airway management, advanced cardiac life support, pulmonary function studies, and blood gas sampling and analysis. Patient education, smoking cessation/nicotine intervention, and health promotion are also included in the RCP scope of practice.

The respiratory therapy program follows a career-ladder approach from the pre-professional level through a Bachelor of Science degree. The pre-professional level requires two academic years, leads to an Associate of Applied Science degree, and qualifies the student for the Respiratory Therapy Bachelor of Science program providing eligibility to national credentialing and licensure to practice respiratory care (RCP). Acceptance to the pre-professional level requires program completion through the Bachelor of Science degree level.

Licensure

Applicants who have been convicted of a felony, treated for serious mental illness or substance abuse should discuss their eligibility status with the Utah Department of Professional Licensing. Acceptance to the respiratory therapy program does not assure eligibility for a RCP license. The Utah Department of Professional Licensing makes final decisions on issuance of professional licensure. Any student that is convicted of a felony will be dismissed from the program.

Accreditation

The Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), P.O. Box 54876 Hurst, Texas 76054-4876.

To fulfill its mission, the department sets the following goals for graduates of the program: 1) To prepare graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs) and,

2) to prepare leaders for the field of respiratory care by including curricular content that includes objectives related to acquisition of skills in one or more of the following: management, education, research, advanced clinical practice (which may include an area of clinical specialization). Program credentialing, attrition, and on-time graduation outcomes may be reviewed at the following site: https://coarc.com/getattachment/Students/Programmatic-Outcome-Data/2017-RCS-Program-Outcomes.pdf.aspx?lang=en-US
Respiratory Therapy, Pre-Professional (AAS)

- **Program Prerequisites:** Completion of all prerequisite courses with a grade of "C" or better ("C-" or CR are not acceptable in prerequisite courses). In addition, students must complete an application/selection process, which requires prior completion of current CPR certification at the BLS-C level (also see Admissions Requirements below).
- **Grade Requirements:** A grade of "C" or better in each course is required by this program (a "C-" is not acceptable). CR/NC courses in this program require a "C" or better to receive CR. A cumulative GPA of 2.5 is required to enter the program.
- **Credit Hour Requirements:** A total of 60-67 credit hours is required for graduation; 38 of these are required REST courses and 18 are required general education courses.
- **Program Code:** 2022AAS
- **CIPC:** 510908

Advisement

Students may contact an advisor in the Dr. Ezekiel R. Dumke College of Health Professions' Admissions & Advisement Office (Marriott Allied Health Building, room 108, phone 801-626-6136, email healthprofessions@weber.edu) for program information and an application.

Admissions Requirements

Declare your program of study (see Enrollment Services and Information). Meet with a Dumke College of Health Professions advisor and then file a Program Application (at the Dr. Ezekiel R. Dumke College of Health Professions Admissions Office, MH 108 on or before February 1). Program selection criteria includes cumulative GPA, prerequisite GPA, completion of application process, previous healthcare experience, and formal Selection Committee interview. Complete all prerequisite courses with "C" (2.0) or better.

Admission requirements include the following:
- Graduation from high school or equivalent program
- Cumulative grade point average of 2.5
- Complete FBI criminal background check or designated background check. Any student that is convicted of a felony will be dismissed from the program.
- Admission to Weber State University
- Completed application to Associate of Applied Science Degree and payment of the $25 application fee

Prerequisite Courses

- REST 1540 - Survey of Respiratory Therapy (1)
- MATH 1010 - Intermediate Algebra (4) *(with a grade of "C" or better)* or 23 or above on the ACT
- ENGL 1010 EN1 - Introductory College Writing (3)
- COMM 1020 HU - Principles of Public Speaking (3) or COMM 2110 HU CEL - Interpersonal and Small Group Communication (3)
- PSY 1010 SS - Introductory Psychology (3) or PSY 2000 SS - The Psychology of Human Relationships (3)
- HTHS 2230 - Introductory Pathophysiology (3)
- REST 1560 - Multi-Skilled Health Care Worker (1) or CNA, military medic, or EMT course either
- HTHS 1110 LS - Integrated Human Anatomy and Physiology I (4) and
- HTHS 1111 - Integrated Human Anatomy and Physiology II (4) or introductory level courses in the three basic sciences:
CHEM 1010 PS - Introductory Chemistry (3)
MICR 1113 LS - Introductory Microbiology (3)
ZOO 2200 LS - Human Physiology (4)

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following general education courses will fulfill both general education and program requirements: PSY 1010 or PSY SS2200, ENGL 1010, COMM 1020 or COMM 2110, and either HTHS 1110/HTHS 1111 or introductory-level courses in some of the basic sciences (human biology, chemistry and microbiology). One additional course in a physical or life science is required for students taking the HTHS option.

Consult with Academic Advising or Dr. Ezekiel R. Dumke College of Health Professions Admission Advisor regarding general education guidelines.

Program Learning Outcomes

- Cognitive skills (problem solving) are facts and concepts that respiratory therapist must know and apply in practice. In didactic courses, learning objectives are evaluated in traditional methods and through face-to-face interactions or in online formats using "virtual labs" and in clinical scenarios. Learning objectives include words like discuss or explain a particular patient care concept.
- Psychomotor skills (task competency) are performance based activities encountered in laboratory and/or clinical settings. Simple re-demonstration of skills is rarely sufficient as a learning outcome but repeatedly practiced in peer-to-peer practices, instructor pass-offs, and with clinical preceptors at the bedside. Learning objectives include action words like analyze, apply, or compute data presented in patient care pathologies.
- Affective skills (attitude) are measured in attitudes or motivations of students in exhibition of favorable behavioral traits and in developing empathy for patients. These behavioral traits are evaluated by clinical preceptors for arriving "on time," being prepared and/or showing interest in activities scheduled for the day. These can be viewed as employee characteristics that include statements like, "would you hire this student" at the conclusion of a clinical day. Clinical preceptors file daily evaluations (and students evaluate clinical preceptors for reciprocity) as feedback on these performances and in achieving the stated learning objectives. Graduation satisfaction surveys are completed at the conclusion of the curriculum by graduate surveys. Additionally, cognitive, psychomotor, and affective skills are annually measured by employer surveys completed within 6 months of program completion and reported to our accreditation commission (CoARC) which remain on-file for a period of three years.

Major Course Requirements for AAS Degree

Respiratory Therapy Courses Required (38 credit hours)

- REST 1540 - Survey of Respiratory Therapy Credits: (1)
- REST 1560 - Multi-Skilled Health Care Worker Credits: (1)
- REST 2140 - Introduction to Basic Therapeutic Modalities Lab Credits: (3)
- REST 2160 - Equipment Management Lab Credits: (3)
- REST 2210 - Elementary Cardiopulmonary Anatomy and Physiology Credits: (3)
- REST 2230 - Cardiopulmonary Pathophysiology Credits: (2)
- REST 2250 - Basic Patient Assessment Credits: (2)
- REST 2270 - Application of Cardiopulmonary Diagnostics Credits: (3)
- REST 2300 - Basic Modalities in Respiratory Care I Credits: (3)
- REST 2310 - Basic Modalities in Respiratory Care II Credits: (3)
- REST 2320 - Essentials of Mechanical Ventilation Credits: (2)
- REST 2330 - Entry Level Respiratory Therapy Review Credits: (1)
- REST 2520 - Principles of Pharmacology Credits: (2)
- REST 2700 INT - Clinical Applications Credits: (4)
- REST 2710 INT - Specialty Clinical Experiences Credits: (1)
- REST 2720 INT - Clinical Applications Credits: (3)
Respiratory Therapy (BS)

- **Program Prerequisite:** Completion of Respiratory Therapy, Pre-Professional (AAS) degree or Certificate of Completion from an accredited, respiratory therapy program (R.R.T. eligible) or complete CRT SAE with cut score of 95/140 following pre-professional year.
- **Grade Requirements:** A grade of "C" or better in each course required by this program (a "C-" is not acceptable). CR/NC courses in this program require a "C" or better to receive CR. A GPA of 2.75 is required to enter the program.
- **Credit Hour Requirements:** A total of 120 credits are required for graduation (includes AAS degree requirements); 76 of these are REST credits. A total of 40 upper division credit hours are required (courses numbered 3000 and above); 38 of these are required REST credits. Departmental standards are applied to independent projects and directed readings.
- **Program Code:** 2022BS
- **CIPC:** 510908

Advisement

All respiratory therapy students are required to meet with a faculty advisor before beginning bachelor's degree courses, and at least annually after entering program, and complete an academic contract specifying major courses, approved electives, and graduation requirements. Call 801-626-7071 for more information or to schedule an appointment. During June, July and August, students may contact an advisor in the Dr. Ezekiel R. Dumke College of Health Professions' Admissions & Advisement Office (Marriott Allied Health Building, room 108, phone 801-626-6136, email healthprofessions@weber.edu) for program information and an application, if a faculty member of the Respiratory Therapy Department is not available.

Admissions Requirements

Declare your program of study (see Enrollment Services and Information). Complete Respiratory Therapy, Pre-Professional (AAS) degree requirements (or provide Certificate of Completion from an accredited, respiratory therapy program). Meet with faculty advisor and establish an academic contract.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Of the Quantitative Literacy courses [MATH 1030, MATH 1040, or MATH 1050], MATH 1030 QL - Contemporary Mathematics is the preferred course for program completion. The following general education courses will fulfill both general education and program requirements: PSY 1010 or PSY SS2200, ENGL 1010, COMM 1020 or COMM 2110, and either HTHS 1110/HTHS 1111 or introductory-level courses in some of the basic sciences (human biology, chemistry and microbiology). Consult with department advisor or Dr. Ezekiel R. Dumke College of Health Professions Admission Advisor regarding general education guidelines.

Major Course Requirements for BS Degree

Complete the requirements for the AAS degree or equivalent in addition to the courses listed below.

Respiratory Therapy Courses Required (38 credit hours minimum)

- REST 3210 - Advanced Cardiopulmonary Anatomy and Physiology Credits: (3)
- REST 3220 - Advanced Cardiopulmonary Pathophysiology Credits: (3)
- REST 3230 - Advanced Cardiopulmonary Technology Credits: (2)
- REST 3260 - Neonatal/Pediatric Respiratory Care Credits: (3)
- REST 3270 - Adult Critical Care Credits: (2)
• REST 3280 - Patient Care Continuum/ Quality Management Credits: (3)
• REST 3760 INT - Clinical Applications of Neonatal/Pediatric Respiratory Care Credits: (4)
• REST 3770 INT - Clinical Applications of Adult Critical Care Credits: (4)
• REST 3800 - Respiratory Care Certifications Credits: (3)
• REST 3780 INT - Clinical Applications Credits: (2)
• REST 4600 - Patient Education and Disease Management Credits: (3)
• REST 3900 - Clinical Simulation Seminar Credits: (1)
• REST 4610 - Advanced Patient Assessment Credits: (1-2)
• REST 4620 - Health Promotion Credits: (1-2)
• REST 4630 - Continuous Quality Improvement Credits: (1-2) or
• HIM 3300 - Introduction to Quality Improvement in Healthcare Credits: (3)
• REST 3900 - Clinical Simulation Seminar Credits: (1)
• REST 4800 - Independent Projects Credits: (1-6)
• REST 4830 - Directed Readings Credits: (1-3)
• REST 4850 - Study Abroad Credits: (1-6)
• REST 4990 - Senior Seminar Credits: (2)
• HAS 3000 - The Healthcare System Credits: (3)
• HAS 3230 - Health Communication Credits: (3)
• HAS 3260 - Healthcare Leadership and Management Credits: (3)
• HAS 4400 - Legal and Ethical Aspects of Health Administration Credits: (3)

Upper Division Electives (2 credit hours minimum)

In addition to the 38 REST credit hours required above, a minimum of 2 credit hours must be selected from the following upper division electives. Departmental standards are developed which specify content of certain projects; remaining credits are "elective" with content approved by program advisor. Other upper division credits will be considered upon approval of program advisor. A total of 40 upper division credit hours is required.

• REST 3500 - Survey of Polysomnography Credits: (1)
• REST 3501 - Anatomy and Physiology of Sleep Credits: (3)
• REST 3502 - Introduction to Sleep Disorders Credits: (2)
• REST 3503 - Instrumentation and Computers in Polysomnography Credits: (2)
• REST 3505 - Therapeutics of Managing Sleep Apnea Credits: (2)
• REST 4800 - Independent Projects Credits: (1-6)
• REST 4830 - Directed Readings Credits: (1-3)
• REST 4850 - Study Abroad Credits: (1-6)
• REST 4990 - Senior Seminar Credits: (2)
• HAS 3000 - The Healthcare System Credits: (3)
• HAS 3230 - Health Communication Credits: (3)
• HAS 3260 - Healthcare Leadership and Management Credits: (3)
• HAS 4400 - Legal and Ethical Aspects of Health Administration Credits: (3)

Respiratory Therapy (BIS)

• Grade Requirements: A grade of "C" or better in each course is required by this program (a "C-" is not acceptable). CR/NC courses in this program require a "C" or better to receive CR. A cumulative GPA of 2.57 is required for graduation.
• Credit Hour Requirements: A minimum of 18 credit hours, all upper division REST courses, are required.
• Program Code: 2022
• CIPC: 510908

Course Requirements for BIS Concentration

Select 18 credit hours of upper division REST courses in consultation with an advisor.
Refer to the Respiratory Therapy (BIS) Bachelor of Integrated Studies section of this catalog for BIS degree requirements.
Doctor of Nursing Practice

Chair: Dr. Sally Cantwell
Director: Melissa Neville-Norton, DNP, APRN, CPNP-PC
Location: Marriott Allied Health Building, Rm 438
Graduate Nursing Administrative Assistant: Cheryl Hyatt (801) 626-6137 or cherylhyatt@weber.edu
Enrollment Director: Robert Holt (801) 626-7774, prompt 6 or rholt@weber.edu

The Doctor of Nursing Practice (DNP) degree is a practice-focused terminal degree in nursing, designed for nurses who are seeking preparation and excellence at the highest level of clinical nursing practice. The DNP program of study has two emphases: a family nurse practitioner emphasis and a leadership emphasis. Both emphases focus on direct and indirect advanced nursing practice leadership and healthcare provision to influence the health outcomes of individuals and populations from a systems approach. The DNP-Family Nurse Practitioner (FNP) emphasis prepares nurses with a Bachelor of Science in Nursing (BSN) to become eligible for national FNP certification, which is an advanced practice registered nurse (APRN) and future healthcare leadership. The DNP-Leadership emphasis prepares nurses who possess a BSN and a master's degree in one of the following: nursing, public health, business, or health administration for healthcare transformation and leadership.

Graduates of the DNP program are prepared to fully evaluate, translate, and implement science for improved healthcare outcomes and healthcare systems improvement. The practice-focused DNP degree is distinctly different from a Ph.D. or research doctoral degree program. The Annie Taylor Dee School of Nursing is responsive to national APRN academic and practice mandates recommendations and community workplace demands for leadership and access to primary care in our regional health care systems.

The DNP degree at WSU ensures optimally prepared nurse practitioners and nurse leaders who achieve the university's dual mission; integrating access, learning, and community in the service of high-quality health care and favorable outcomes for regional patients, families, and communities. Nationally, the DNP degree is replacing the Master of Science in Nursing (MSN) for all APRNs as this terminal degree in the field becomes the requirement by 2025. The DNP degree is the preferred degree for advanced nursing practice for the provision of direct and indirect care (executive leadership, health policy, informatics, and population health).

Admission

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards. Applicants must apply for admission to the DNP-Leadership program. Applications may be obtained online on the Annie Taylor Dee School of Nursing website http://weber.edu/nursing.

Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the Annie Taylor Dee School of Nursing Program Admissions and Advancement Committee. Applicants are notified of committee decision by email and/or US Postal Service mail. Admission requirements are outlined on the applicant website available at http://weber.edu/nursing.

Accreditation

Effective July 7, 2020, this nursing program is a candidate for initial accreditation by the Accreditation Commission for Education in Nursing. This candidacy status expires on July 1, 2022.
Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400
Atlanta, GA 30326
(404) 975-5000
http://www.acenursing.us/candidates/candidacy.asp
Note: Upon granting of initial accreditation by the ACEN Board of Commissioners, the effective date of initial accreditation is the date on which the nursing program was approved by the ACEN as a candidate program that concluded in the Board of Commissioners granting initial accreditation.
Doctor of Nursing Practice (DNP)

The Doctor of Nursing Practice (DNP) degree is a practice-focused terminal degree in nursing, designed for nurses who are seeking preparation and excellence at the highest level of advanced nursing practice.

The DNP program of study has two emphases: including a post-BSN to DNP Family Nurse Practitioner (FNP) emphasis and post-Masters to DNP Leadership emphasis. Both emphases focus on direct and indirect advanced nursing practice leadership and healthcare provision to influence the health outcomes of individuals and populations from a systems approach. The DNP-FNP emphasis prepares nurses with a Bachelor of Science in Nursing (BSN) for an advanced practice degree (APRN) who are eligible for national FNP certification upon successful graduation from the program.

The post-master's to DNP leadership emphasis prepares nurses with a BSN and a master's degree in one of the following areas (nursing, public health, business, or health administration) for translational science, healthcare transformation, and healthcare leadership.

Graduates of the DNP program are prepared to fully evaluate, translate, and implement science for improved healthcare outcomes and healthcare systems improvement. The practice-focused DNP degree is distinctly different from a Ph.D. or research doctoral degree program. By establishing a Doctor of Nursing Practice (DNP) program, the Annie Taylor Dee School of Nursing supports the national APRN practice mandates, leadership recommendations and community workplace demands for leadership and access to primary care in our regional health care systems.

The DNP graduate meets the university's dual mission of; integrating access, learning, and community service by providing high-quality health care and favorable outcomes for regional patients, families, and communities upon graduation.

- **Grade Requirements:** To earn the DNP degree, candidates must successfully complete all DNP program courses with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or higher.
- **Program Code:** Nursing Practice (2060DNP) with Concentration/Emphasis in Family Nurse Practitioner (2062) or Leadership (2061).
- **CIPC:** 513818

**Emphases**

Select one of the following:

- Doctor of Nursing Practice (DNP), Family Nurse Practitioner Emphasis
- Doctor of Nursing Practice (DNP), Leadership Emphasis

**Admission**

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards. Applicants must apply for admission to the DNP-FNP Nursing program. Applications may be obtained online on the Annie Taylor Dee School of Nursing website http://weber.edu/nursing.

Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the Annie Taylor Dee School of Nursing Program Admissions and Advancement Committee. Applicants are notified of committee decision by email and via US postal mail. Admission requirements are outlined on the applicant website available at http://weber.edu/nursing.

**Accreditation**

Effective July 7, 2020, this nursing program is a candidate for initial accreditation by the Accreditation Commission for Education in Nursing. This candidacy status expires on July 1, 2022.

Doctor of Nursing Practice (DNP), Family Nurse Practitioner Emphasis

The Doctor of Nursing Practice (DNP) Family Nurse Practitioner (FNP) emphasis prepares the post-BSN student to complete the requirements for certification as an advanced practice registered nurse (APRN) in the role of a family nurse practitioner (FNP). The DNP is a terminal nursing degree, which prepares graduates for translational science to influence direct and indirect health outcomes not only for individuals but for populations and healthcare systems.

The DNP-FNP program utilizes a hybrid delivery format with various learning opportunities in didactic, lab, clinical, and community engaged learning experiences. The program of study consists of 75 credit hours to be completed over seven, full-time academic semesters with an optional 8th semester extension available for completion of student project and clinical. Students must complete 500 DNP practice hours, with a minimum of 500 FNP clinical practice hours. All DNP students complete a DNP project during their program of study, which includes associated practicum hours.

Grade Requirements: To earn the DNP degree, candidates must successfully complete all DNP-FNP program courses with a grade of "B-" or higher, complete all FNP clinical courses with a "B" or higher, and maintain an overall program GPA of 3.0 or higher.

Program Code: Nursing Practice (2060DNP) with Concentration/Emphasis in Family Nurse Practitioner (2062).

Required DNP-FNP Courses

DNP Core Courses (30 Credit Hours)

- NRSG 6190 - Professional Foundations for Graduate Nursing Students Credits: (1)
- NRSG 6200 - Theoretical Foundations of Nursing Administration Credits: (3)
- NRSG 7010 - Scholarly/Ethical Foundations Credits: (3)
- NRSG 7020 - Biostatistics/Epidemiology Credits: (3)
- NRSG 7030 - Information Technology to Support Evidence-Based Practice Credits: (2)
- NRSG 7040 - Systems Approach and QI Credits: (3)
- NRSG 7050 - Advanced Population Health Credits: (3)
- NRSG 7060 - DNP Leadership Credits: (3)
- NRSG 7070 - Healthcare Policy & Professionalism Credits: (2)
- NRSG 7080 - Healthcare Finance/Economics Credits: (2)
- NRSG 7801 - DNP Project I Credits: (1)
- NRSG 7802 - DNP Project II Credits: (1)
- NRSG 7803 - DNP Project III Credits: (1-2)
- NRSG 7804 - DNP Project IV Credits: (1)
- NRSG 7805 - DNP Project V Credits: (3)
- NRSG 7806 - DNP Project VI Credits: (1-2)

Family Nurse Practitioner (FNP) Core Courses (45 Credit Hours)
• NRSG 6120 - Research and Statistics Credits: (3)
• NRSG 6210 - Advanced Pathophysiology I Credits: (2)
• NRSG 6211 - Advanced Pathophysiology II and Genetics Credits: (2)
• NRSG 6215 - Advanced Pharmacology I Credits: (2)
• NRSG 6216 - Advanced Pharmacology II Credits: (2)
• NRSG 6220 - Advanced Health Assessment/Diagnostic Reasoning Credits: (3)
• NRSG 6225 - FNP Clinical Skills Credits: (1)
• NRSG 6230 - FNP Patient Care Lab Credits: (1)
• NRSG 6235 - FNP Patient Care I Credits: (3)
• NRSG 7902 - FNP Clinical I Credits: (4)
• NRSG 6240 - FNP Patient Care II Credits: (2)
• NRSG 6245 - FNP Patient Care III Credits: (3)
• NRSG 7903 - FNP Clinical II Credits: (3)
• NRSG 6250 - FNP Patient Care IV Credits: (2)
• NRSG 7001 - Transitions to Practice I Credits: (2)
• NRSG 7002 - Transitions to Practice II Credits: (3)
• NRSG 7904 INT - FNP Clinical Immersion Credits: (4)
• NRSG 6270 - Mental Health for Primary Care Credits: (3)

Recommended Course

*Nurse Practitioner students likely do not need this elective course as they have 720 clinical hours as part of the FNP coursework.

• NRSG 6860 INT - Fieldwork Practicum Credits: (1-9)
**Doctor of Nursing Practice (DNP), Leadership Emphasis**

The Doctor of Nursing Practice (DNP)-Leadership program concentration prepares post-masters nurses for high-level leadership positions in healthcare systems. Nurses applying for the program must possess a BSN with a master's in nursing (MSN), or a master's in business (MBA), or master's in health administration (MHA), or a master's in public health (MPH). The Doctor of Nursing Practice (DNP)-Leadership program is 100% online and part-time requiring 30 credit hours to be completed in five part-time academic semesters with an optional 6th-semester extension available for completion of a student project and practicum hours. Didactic course-work is online, with required practicum hours completed in a variety of courses, community, and healthcare settings. Students must complete 500 DNP practice hours and a DNP project during their program of study.

**Grade Requirements:** To earn the DNP degree, candidates must successfully complete all DNP program courses with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or higher.

**Program Code:** Nursing Practice (2060DNP) with Concentration/Emphasis in Leadership (2061).

**CIPC:** 513818

**Admission**

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards. Applicants must apply for admission to the DNP-Leadership program. Applications may be obtained online on the Annie Taylor Dee School of Nursing website http://weber.edu/nursings.

Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the Annie Taylor Dee School of Nursing Program Admissions and Advancement Committee. Applicants are notified of committee decision by email and/or US Postal Service mail. Admission requirements are outlined on the applicant website available at http://weber.edu/nursing.

**Required DNP-Leadership Courses (31 credit hours)**

- NRSG 6190 - Professional Foundations for Graduate Nursing Students Credits: (1)
- NRSG 6200 - Theoretical Foundations of Nursing Administration Credits: (3)
- NRSG 7000 - Introduction to DNP Degree Credits: (1)
- NRSG 7010 - Scholarly/Ethical Foundations Credits: (3)
- NRSG 7020 - Biostatistics/Epidemiology Credits: (3)
- NRSG 7030 - Information Technology to Support Evidence-Based Practice Credits: (2)
- NRSG 7040 - Systems Approach and QI Credits: (3)
- NRSG 7050 - Advanced Population Health Credits: (3)
- NRSG 7060 - DNP Leadership Credits: (3)
- NRSG 7070 - Healthcare Policy & Professionalism Credits: (2)
- NRSG 7080 - Healthcare Finance/Economics Credits: (2)

- NRSG 7803 - DNP Project III Credits: (1-2)
- NRSG 7804 - DNP Project IV Credits: (1)
- NRSG 7805 - DNP Project V Credits: (3)
- NRSG 7806 - DNP Project VI Credits: (1-2)

**Recommended Course:**

- NRSG 6860 INT - Fieldwork Practicum Credits: (1-9)
Master of Health Administration Program

Health Administrative Services Department Chair: Dr. Darcy Carter
Enrollment Director: Lindsay Garr, 801-626-6228
Location: Interprofessional Education Building, Rm 210
Telephone Contact: Kristi Andersen, 801-626-7242
Website: weber.edu/mha and weber.edu/emha

The Master of Health Administration (MHA) program at Weber State University is designed to meet the needs of working healthcare professionals and to prepare them for executive leadership in the healthcare industry. Firmly grounded in the development of three overarching domains: Personal, Professional, and Applied Skills, the program fosters self-development, critical thinking and life-long learning.

Full-time students can complete the MHA or the eMHA in two academic years. All courses in the campus MHA are offered in a hybrid, face-to-face/online, eight-week format on Tuesday and Thursday evenings at our WSU Davis campus. eMHA students spend 1.5 days on campus each semester with the balance of the coursework completed online. MHA and eMHA courses are taught by an optimum blend of academic professors and working healthcare executives and culminate in a real-time final project resulting in a deliverable of importance and measurable value to one of their local healthcare organizations.
Master of Health Administration (MHA)

Minimum Admission Requirements

To be considered for the MHA/eMHA programs, you must meet the following prerequisites:

- Hold a Bachelor's degree (must be completed by program start date)-no specific discipline required
- Meet a GPA requirement of 3.0 or higher on a 4.0 scale
- Two (2) or more years of supervisory experience (preferred, not required)
- GRE/GMAT test scores optional (see below)

The GRE/GMAT is not required to apply. Applicants with less than 5 years of healthcare or management experience, lower GPA, and lack of quantitative undergraduate courses, are encouraged to submit GRE or GMAT scores.

The GRE/GMAT requirement is not necessary for applicants with 5 or more years of healthcare experience or management/supervisory experience. Practicing physicians and others holding a master's, law or doctoral degree may be admitted without the GMAT/GRE or supervisory requirement.

When meeting GRE/GMAT requirements, significant weight is given to GRE aptitude (verbal and quantitative reasoning) with scores of at least 153 and 144, respectively. The GMAT aptitude score should be at least 500.

Those under the minimum requirements may still be considered.

Grade Requirements

To receive a Master of Health Administration degree, the student must complete all courses in the MHA program with a grade of "C" or higher, and maintain an overall program GPA of 3.0 or higher.

- **Program Code:** 2030MHA
- **CIPC:** 512211

Program Learning Outcomes

- Communication: The competency includes things such as executive proficiency in written and oral communication, the ability to communicate across disciplines, and to project a professional business presence both individually and as a representative of one's organization.
- Relationship Management: This competency includes things such as the ability to develop positive collaborative relationships with peers, subordinates, and superiors within and across organizations, and to lead and work with teams effectively. In addition it includes the demonstration of emotional intelligence.
- Critical and Creative Thinking: This competency includes things such as the ability to seek and use qualitative and quantitative information, developing insight, and using these to achieve the mission, vision, and goals of one's organization. In addition, it includes the ability to understand and lead transformational innovation.
- Professionalism: This competency includes things such as a sense of personal accountability and the ability to assume risk and responsibility. It also includes an orientation to the development of a life-long learning agenda and a commitment to ethical conduct and personal growth.
- Healthcare Leadership: This competency requires a deep and broad understanding of the industry; both its clinical and administrative aspects. It includes the masterful application of skills such as transparency, decision making, leading and managing change, being a role model, mentoring, and developing the talent of subordinates.
- Law, Policy, and Governance: This competency includes things such as the ability to accurately assess and work within the external political, legal, and regulatory environment. It requires an understanding of healthcare policy and its impact on the health of individuals and of populations. In addition, it includes the ability to navigate internal organizational dynamics, and to participate in governance of the organization.
- Community Awareness and Population Health: This competency requires the management of populations of people's health and includes things such as the ability to investigate population health characteristics and to participate in improving population health in the local community. It also includes attentiveness to the ecological and social factors that influence health behaviors.
- Human Resources Management: This competency includes things such as the ability to ethically lead and manage the human resources processes needed for effective staffing in the operation of a healthcare organization.
Financial Management: This competency includes things such as the ability to interpret financial and accounting documents, plan and execute budgets, make capital investment decisions, and to articulate and implement executive fiduciary responsibilities.

Information Technology: This competency includes things such as the ability to recognize critical elements of information technology and to participate in the management of the acquisition and implementation of information systems and personnel. It also includes a working knowledge of the use of data, importance of quality data, and analysis of data within the healthcare industry to support all aspects of decision making and organizational performance.

Performance Improvement and Quality Management: This competency requires a rudimentary understanding of the clinical environment and the use of an evidence based approach to care, management, and risk management. It includes things such as the ability to use quality and systems tools to measure, promote, and to implement quality improvement initiatives in clinical and administrative partnerships within healthcare organizations.

Strategic Management: This competency includes things such as the ability to conduct external and internal environmental analyses, to apply the principles of strategy formulation, implementation, and control, and to develop corporate strategy, market research, and planning.

Course Requirements for MHA

Required Courses (39 credit hours)

- MHA 6000 - Health Systems & the Healthcare Economy Credits: (3)
- MHA 6100 - Leading & Managing People in Healthcare Credits: (3)
- MHA 6200 - Population Health and Data Analytics Credits: (3)
- MHA 6240 - Human Resources Management in Healthcare Credits: (3)
- MHA 6249 - Accounting and Finance Principles for Healthcare Managers Credits: (3)
- MHA 6250 - Healthcare Finance Credits: (3)
- MHA 6300 - Quality Improvement and Risk Management in Health Services Organizations Credits: (3)
- MHA 6320 - Health Policy and Economics Credits: (3)
- MHA 6350 - Decision Making for Healthcare Leaders Credits: (3)
- MHA 6400 - Strategic Health Planning and Marketing Credits: (3)
- MHA 6440 - Health Ethics and Law Credits: (3)
- MHA 6450 - Health Informatics Credits: (3)
- MHA 6500 INT - Field Work Credits: (3)

MHA Elective Courses

Select two of the following courses

- MHA 6140 - Post Acute Care Administration Credits: (3)
- MHA 6160 - Medical Group Management Credits: (3)
- MHA 6180 - Healthcare Entrepreneurship Credits: (3)
- MHA 6360 - Comparative International Health Systems Credits: (3)
- MHA 6370 - Executive Leadership Seminars in Healthcare Credits: (3)
- MHA 6830 - Directed Study Credits: (1-3) (3 credit hours required)
- MHA 6840 - Case Study Analysis Credits: (3)
- MHA 6850 - MHA Study Abroad Credits: (3)
Master of Physician Assistant Studies

Department Chair: Sandra Stennett
Director of Clinical Education: Kenton Cummins
Clinical Coordinator: Jessica Bickley
Medical Director: Dr. Robert Bunnell
Assistant Professor: Nicholas Dean

Master of Physician Assistant Studies

The Physician Assistant Program at Weber State University is a 24-month graduate level program awarding a Master of Physician Assistant Studies (MPAS) degree upon completion. One class of 20 students is enrolled in January of each year. Applications are accepted starting in April (date established by CASPA). The WSU PA program application cycle closes July 15th at 11:59 pm ET and must be verified through CASPA by August 15th at 11:59 ET.

To achieve our desired standard of quality, meet accreditation standards, and provide students with an educational experience of exceptional caliber, Weber State University Physician Assistant Program (WSUPAP) requires the highest standards for its applicants. Requirements for being considered as an applicant to the program are outlined below.

Degree and GPA Requirements

Applicants to the WSU PA program must have been awarded a baccalaureate degree (or higher) with a minimum cumulative GPA of 3.0 and a science GPA of 3.0 (on a 4.0 scale), from a regionally accredited U.S. institution of higher education prior to enrollment. College seniors are eligible to apply, provided they will receive their baccalaureate degree prior to the month start date, have the required number of clinical hours, and have met all other prerequisites required by the program.

Pre-requisite Coursework

All applicants must complete the following prerequisite coursework at a regionally accredited U.S. institution of higher learning with a grade of B- or higher, prior to application to the program. All specified prerequisite courses are required; no substitutions for prerequisite coursework will be accepted.

Terms and Conditions for Prerequisite Coursework

- **Coursework Completion**: All prerequisite coursework must be completed at a regionally accredited four-year U.S. institution of higher learning prior to application to the program.
- **Expiration of Prerequisite Courses**: Students with prerequisite coursework taken more than seven years prior to the application deadline are required to take the PA-CAT (Physician Assistant College Admission Test). Additional information about the PA-CAT and reporting your scores is provided below.
- **Transcripts**: Prerequisite coursework must be verifiable through official transcripts. Due to the number of applications received, we are unable to review transcript content for prospective applicants. All course requirements and prerequisites are published on this website.
- **Pass/Fail, Online Courses**: Prerequisite courses must be taken for a letter grade. Online prerequisite science courses are not accepted.
  
  *Due to the COVID-19 pandemic, courses taken in the years 2020 and 2021 as pass/fail or online will be considered by the Admissions Committee on a case-by-case basis.*
- **Substitutions**: Students granted admission must fulfill all application requirements; no substitutions for prerequisite coursework will be accepted, including but not limited to the following: advanced placement, international baccalaureate (IB) courses, credit for experiential learning, courses completed as part of a professional degree, and/or college-level examination program (CLEP) test.

**Clinical Healthcare Experience**

A minimum of 500 hours of clinical healthcare experience must be accrued at the time of application and recorded as part of the official CASPA application. Experiences in inpatient settings and/or those in positions requiring autonomous, high-level, medical decision-making (as listed below) are scored highest. Hours obtained observing or shadowing, or as part of an educational program will not be counted towards the 500 hours.

Healthcare hours and clinical experience are subject to verification, and the program reserves the right to contact supervisors to confirm reported hours.

Examples of acceptable clinical healthcare experience include, but are not limited to:

<table>
<thead>
<tr>
<th>Limited Level</th>
<th>Moderate Level</th>
<th>High Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phlebotomist</td>
<td>CNA or CMA</td>
<td>Paramedic</td>
</tr>
<tr>
<td>PT Assistant</td>
<td>Dental Hygienist</td>
<td>RN</td>
</tr>
<tr>
<td>Laboratory Technician</td>
<td>Licensed Clinical Social Worker</td>
<td>Respiratory Therapist</td>
</tr>
</tbody>
</table>
To ensure students matriculate into the program with equivalent academic preparation, students whose coursework is older than seven years must either retake prerequisite courses or score, at minimum, in the 3rd quintile on the PA-CAT to demonstrate readiness for the curriculum.

- To learn more about how and where to take the exam, go to the Exam Master PA-CAT website.
- PA-CAT scores are good for two years.
- To report scores, select Weber State University PA Program in your Candidate Score Portal.
- Applicants must complete the PA-CAT by the end of June in order for scores to be reported by the program's application deadline of July 15th.
- Scheduling the PA-CAT exam may take up to three weeks; please plan accordingly.
- The Admissions Committee considers both composite and quintile scores when evaluating performance.

Competitive Candidates

The program aims to select candidates whose background and interests align with our mission, goals, and values. Only those candidates who fulfill three or more of the following criteria will receive additional review and scoring by the Admissions Committee:

Criteria include:
- WSU students, alumni, faculty, and staff
- Science GPA >3.5
- >9 credit hours or more of recommended coursework
- Graduate degree from a regionally accredited U.S. institution of higher education
- PA-CAT composite scores in the top two quintiles
- Paid clinical healthcare experience in an inpatient or hospital setting
- >100 hours of community service
- Service in a leadership role for > 8 months
- Diverse backgrounds: underrepresented minorities in medicine (Black/African American, Native American, Latinx), economically disadvantaged (Pell Grant recipient), history of military service, first-generation college students

Each of the above criteria are evaluated and weighted individually. Completion of a graduate degree, academic strength, and quality and quantity of healthcare, leadership, and community service hours will be weighted at a higher level on an ascending scale during the application screening and review process. Candidates with higher scores are more likely to be invited for an interview.

International Students

Candidates are considered for admission to the Weber State University PA Program without regard to their country of origin. For purposes of admissions and financial aid, U.S. permanent residents are considered equivalent to U.S. citizens.

DACA (Deferred Action Childhood Arrivals)

Students with DACA status are currently eligible to apply for and obtain a license to practice as a physician assistant in Utah. Prospective applicants should consult the requirements of the licensing authority in any state in which they consider practicing to
determine qualifications for licensure. Information concerning licensure in Utah can be found at the Utah Department of Professional Licensing. Information about other states can be found on the NCCPA website.

International Applicants

International applicants are welcome to apply if they meet our admissions requirements. Applicants with international medical degrees are ineligible to apply unless they also hold a qualifying degree (bachelor’s or higher) from a regionally accredited U.S. institution of higher education prior to matriculation. We do not provide waivers or exemptions for applicants without a qualifying degree.

It is the responsibility of international applicants to maintain their F-1 student status while in the United States. For more information, please refer to the current section of the WSU International Student and Scholar Center (ISSC).

TOEFL (Test of English as a Foreign Language)

Applicants for whom English is a second language must submit their TOEFL scores with their application. The test must have been taken within the two years prior to the July 15th application deadline for an applicant to be considered for an interview. Minimum required TOEFL iBT proficiency level scores must be "high-intermediate". Weber State University Educational Testing Services (ETS) code for submitting your TOEFL score to CASPA is 4941.
Master of Physician Assistant Studies (MPAS)

- **Program Description**: The Weber State University Physician Assistant (PA) Program is a two-year, full-time, intensive graduate level program that will train individuals with clinical experience and a strong academic background for careers as physician assistants and leaders in the field of medicine. Students who successfully complete each aspect of the program, including a master's project and summative competency exams (scheduled throughout the program), and achieve a cumulative minimum GPA of 3.0 are eligible for graduation. Graduates from the program will receive a Master of Physician Assistant Studies (MPAS) degree from Weber State University and are eligible for certification by the National Commission on the Certification of Physician Assistants (NCCPA). Once certified, the PA is eligible to apply for a license to practice medicine in all 50 states and the District of Columbia.

- **Credit Hour Requirement**: A total of 92 graduate credit hours are required to complete the program.
- **Program Code**: 2080MPAS
- **CIPC**: 510912

Pre-requisites and Admissions

Applicants to the WSU PA Program must hold a bachelor's degree or higher and meet all program Prerequisites and Matriculation Requirements before they are eligible to apply to the program. Interested applicants must submit a formal application and all supporting documents to the Central Application Service for the Physician Assistant (CASPA) on or before the program's published deadline. No exceptions will be made for late applications.

Accreditation

The WSU PA Program has not yet been accredited. WSU has applied for Accreditation-Provisional from the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). The WSU PA Program anticipates matriculating its first class in January 2023 pending achieving Accreditation-Provisional status at the September 2022 ARC-PA meeting. Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA Standards or when a program holding accreditation-provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. If the WSU PA Program is not granted by the ARC-PA, the WSU PA Program will not commence in January 2023 as planned. Weber State University will not be responsible for refunding fees/expenses by applicants during the application and/or interview process (e.g., CASPA fees, travel to/from interviews, etc.).

Advisement

For questions, please contact the program's Admissions Coordinator at wsupaadmissions@weber.edu.

Curriculum

Only students who are admitted to the program are eligible to take courses within the department. The curriculum is "lock step", meaning that students must complete the program by passing each exam and each course before being eligible to progress and take classes in subsequent semesters.

Year 1

The first year of training consists of classroom instruction enhanced by simulated clinical experiences designed to provide students with a foundation in medical knowledge, skills, behaviors, and attitudes required for the practice of medicine. The curriculum builds on prerequisite coursework and clinical experiences students complete prior to matriculation and utilizes an integrated systems-based approach that eliminates compartmentalized knowledge and helps students achieve clinical acumen by creating meaningful application between biomedical science, clinical science, pharmacotherapy, and professional practice.
Content synthesis is further enhanced by integrating a variety of teaching methods, including lectures, labs, team- and inquiring-based learning, and evidence-based practice.

**Didactic Curriculum - Semester 1**

- MPAS 6001 - Professional Development 1 Credits: (1)
- MPAS 6010 - Mechanisms of Health and Disease Credits: (2)
- MPAS 6020 - Introduction to History and Physical Credits: (3)
- MPAS 6030 - Introduction to Clinical Pharmacology Credits: (1)
- MPAS 6040 - Introduction to Medical Diagnostics Credits: (2)
- MPAS 6050 - Evidence-Based Practice 1 Credits: (1)
- MPAS 6060 - Eyes, Ears, Nose, and Throat Credits: (2)
- MPAS 6070 - Dermatology Credits: (1)
- MPAS 6080 - Infectious Disease Credits: (3)
- MPAS 6101 - Clinical Integration 1 Credits: (2)
- *Summative 1*

**Didactic Curriculum - Semester 2**

- MPAS 6002 - Professional Development 2 Credits: (1)
- MPAS 6100 - Hematology/Oncology Credits: (1)
- MPAS 6110 - Pulmonology Credits: (3)
- MPAS 6120 - Genitourinary (Nephrology/Urology) Credits: (3)
- MPAS 6130 - Endocrinology Credits: (3)
- MPAS 6180 - Cardiovascular Medicine Credits: (3)
- MPAS 6150 - Musculoskeletal Disorders 1 Credits: (1)
- MPAS 6102 - Clinical Integration 2 Credits: (2)
- *Summative 2*

**Didactic Curriculum - Semester 3**

- MPAS 6003 - Professional Development 3 Credits: (1)
- MPAS 6170 - Neurology Credits: (3)
- MPAS 6140 - Obstetrics and Gynecology Credits: (3)
- MPAS 6190 - Gastroenterology Credits: (3)
- MPAS 6200 - Musculoskeletal Disorders 2 Credits: (2)
- MPAS 6210 - Psychiatry Credits: (3)
- MPAS 6051 - Evidence-Based Practice 2 Credits: (1)
- MPAS 6103 - Clinical Integration 3 Credits: (2)
- *Summative 3*

**Year 2**

Following successful completion of the first year of training, students begin a year of supervised clinical practice experiences (SCPEs) in a variety of settings in multiple disciplines under the direct supervision of a clinical preceptor. In direct patient care environments, students expand and apply basic medical knowledge, practice clinical and technical skills, and participate in the team-based practice of medicine. During this clinical phase, students will return to campus periodically for testing as well as continued didactic training in medicine and professional development. The master's project will also be completed during the clinical year.

- MPAS 6004 - Professional Development 4 Credits: (1)
- MPAS 6005 - Professional Development 5 Credits: (1)
- MPAS 6006 - Professional Development 6 Credits: (1)
• MPAS 6500 - Preceptorship 1 Credits: (12)
• MPAS 6510 - Preceptorship 2 Credits: (12)
• MPAS 6520 - Preceptorship 3 Credits: (12)

Master's Project

In addition to the courses listed above, students are required to successfully complete a master's project.

Comprehensive Summative Exams

Students must undergo and pass comprehensive summative exams throughout the program used to evaluate competencies required to meet Entrustable Professional Activities, real-life, key tasks that a PA can be entrusted to perform in a given healthcare context once sufficient competence has been demonstrated.
Master of Science in Athletic Training Program

**Director:** Valerie W. Herzog, EdD, LAT, ATC  
**Location:** Room 224, Swenson Building  
**Telephone Contact:** Margarita Lopez, 801-626-8631  
**Faculty:** Valerie W. Herzog, EdD, LAT, ATC; Conrad Gabler, PhD, LAT, ATC; Matthew Donahue, PhD, LAT, ATC; Alysia Cohen, PhD, MPH, LAT, ATC; Hannah Stedge, MS, LAT, ATC

The WSU Master of Science in Athletic Training (MSAT) degree is designed to enable students with a bachelor's degree in an area other than athletic training to obtain eligibility for the Board of Certification (BOC) examination. This program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Graduates of the MSAT are eligible for the Board of Certification (BOC) examination.

The program provides students with knowledge and skills in the prevention, evaluation, treatment, and rehabilitation of musculoskeletal injuries and general medical conditions. The Master of Science in Athletic Training program is specifically designed to prepare students for a career in health care as a certified athletic trainer. Athletic trainers are currently employed in colleges and universities, public and private high schools, corporations, rehabilitation clinics, professional sports organizations, the military, factories, and hospitals (www.nata.org - National Athletic Trainers' Association).
Master of Science in Athletic Training (MS)

Minimum Admissions Requirements

- Bachelor's degree
- Admission to Weber State University (Students apply only to the MSAT and will be admitted to WSU and the MSAT concurrently. Students do NOT need to apply through the WSU general admissions process)
- GRE scores (only required if GPA is below a 3.0)
- Minimum 3.0 GPA*
- Submit Graduate Athletic Training Student Application through ATCAS (found online at: https://atcas.liaisoncas.com)
- Submit Application Essay/Personal Statement (see online application in ATCAS for details)
- Two References - at least one reference must be a college-level instructor
- Grade of C or better in all prerequisite courses (all prerequisites must have been completed within the last 10 years prior to application)**
- Documentation of at least 50 observations hours with a Certified Athletic Trainer (or similar healthcare provider for international applicants)
- Program Interview - in person or over the phone
- Completed Technical Standards Form - can be completed after admission (Form can be found at: https://www.weber.edu/msat/admission.html)
- Official Transcripts from ALL other colleges/universities attended (send directly to ATCAS)
- Proof of immunizations (completed after admission)
- Hepatitis-B vaccination (can be completed in first semester if deficient)
- Pay Application fee (paid directly to ATCAS)

* Grade point averages between 2.75 and 2.99 will be considered if GRE scores are above average.

** Students who are deficient in four or fewer prerequisite courses may be admitted on a conditional basis if the courses can be added to the schedule while still meeting the prerequisites prior to each graduate course.

Post-Admission Requirements

After formal admission to the Athletic Training Master's degree program, students are required to complete an FBI background check and drug test. The WSU Master of Science in Athletic Training Program enters into Affiliation Agreements with multiple healthcare facilities and schools throughout the state. These agreements provide WSU MSAT students and faculty authorized access to facility resources and patients. In response to stipulations contained within one or more of these Agreements, the WSU MSAT requires students admitted to the program to submit to an FBI level criminal background check as well as a urine drug test. This screening process has been mandated by the WSU MSAT in an effort to more effectively protect the safety and well-being of the patients, clients, and residents of those facilities, and is fully supported by the Department of Athletic Training and the MSAT faculty.

Both the background check and the drug test will be completed during the student's first semester. The expenses (approximately $80) will be paid for by the student.

Additional Admission Requirements for International Students

All international students and any applicants educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit an official score from the Test of English as a Foreign Language (TOEFL) which is not more than two years old and on which a minimum score of 563 (paper-based), or 85 (internet-based) with a minimum score of 17 in each section, has been earned. The MSAT Program also accepts the International English Language Testing System (IELTS) - applicants may have an
official score report sent to the MSAT Program Director which is not more than two years old and on which a minimum score of 6.5 overall, with a minimum of 6.0 in each section, has been earned.

Students who have not earned the minimum required English proficiency scores may still be admitted conditionally. Student who have at least a score of 70 on the TOEFL exam (internet-based) would be required to begin ESL and other coursework at Weber State University one semester prior to beginning MSAT coursework. During this preparatory semester, students would be required to complete, with a grade of a C+ or better, approximately 8 credits of ESL courses and complete, with a grade of C or better, approximately 6 credits of MSAT prerequisite courses.

Students who have a 61-69 score on the TOEFL exam would be required to begin ESL and other coursework at Weber State University for two semesters prior to beginning MSAT coursework. During this preparatory semester, students would be required to complete, with a grade of a C+ or better, approximately 8 credits of ESL courses per semester and complete, with a grade of C or better, approximately 6 credits of MSAT prerequisite courses per semester.

The MSAT Program Director will determine which ESL and prerequisite courses are most appropriate based on the student's undergraduate coursework and English proficiency scores.

Minimum English Proficiency scores for conditional admissions:
TOEFL (internet-based) - 70 (one semester); 61 (two semesters)
TOEFL (paper-based) - 525 (one semester); 500 (two semesters)
IELTS - 6.0 (one semester); 5.5 (two semesters)

Selection Process

1. All applications will be ranked by using a numerical scale to rate the elements of the application.
2. Students receiving the highest scores in the rating process will be invited to enter the Master of Science in Athletic Training Program. The selection committee is comprised of the MSAT faculty. The number of students chosen to enter the program each year will vary, in compliance with accreditation guidelines related to professor and preceptor-to-student ratios. Selection into the MSAT is competitive and satisfaction of the minimum requirements does not guarantee admission.
3. Applicants not invited to enter the MSAT may reapply the following year. All applicants who reapply must meet all requirements in effect at the time of reapplication. Students who choose to reapply must review the program website and/or catalog for current admission requirements at that time.
4. All students selected for the MSAT must provide evidence of being able to meet the Technical Standards for Admission of the program. Only those students who verify that they can meet those technical standards, with or without reasonable accommodations, will be allowed to enter the program. The Technical Standards can be found on the program's website at: https://www.weber.edu/msat/admission.html

Retention Requirements

1. After students are selected into the MSAT, retention in the program will be based on the following criteria:
   1. Grade "B-" or better in all required MSAT courses (includes Graduate Practicum courses).
   2. Maintain an overall Weber State University Graduate GPA of 3.0.
2. Students who fail to meet the retention criteria will be placed on probation in the MSAT program for one semester. If standards are not met by the end of the probationary period, the student will be dismissed from the program. Students who receive a grade lower than a "B-" in any required MSAT course must repeat that course and receive a grade of "B-" or higher to remain in the program. Failure to repeat the course (when offered) will result in dismissal from the program. Students who receive a grade lower than a "B-" in two or more MSAT courses will be dismissed from the program.

Early Admission for Weber State students

Students enrolled in any Bachelor's degree program at Weber State with 75 credits completed towards a degree may apply for early admissions consideration. Students applying for early admissions are still required to complete all Admissions requirements listed above. To be eligible for early admissions consideration, the following must be completed prior to application.

Students must have completed 17 credits of MSAT prerequisites as follows:

- 8 credits of Anatomy and Physiology
  - ZOOL 2100 - Human Anatomy (4) or HTHS 1110 LS - Integrated Human Anatomy and Physiology I (4); AND
Advisement

Students enrolled in the MSAT program will be assigned a faculty advisor. Students will be encouraged to meet with their faculty advisor at least once a semester and to engage in dialogue when necessary regarding academic success, clinical assignments, and/or personal or professional issues.

Transfer Credits

In compliance with the Higher Education Act, Weber State University only accepts transfer credit from regionally accredited colleges and universities. Students who have completed graduate athletic training coursework at another CAATE-accredited professional master's degree program in Athletic Training may apply for up to 9 transfer credits. The transfer of graduate credits from non-CAATE-accredited programs will be considered on a case-by-case basis. Approval of all transfer credits requires an official transcript, a copy of the course syllabus, and approval by the WSU MSAT Program Director.

- Program Code: 2057MS
- CIPC: 510913

Program Learning Outcomes

- Promoting health lifestyle behaviors with effective education and communication to enhance wellness and minimize the risk of injury and illness. (Injury and Illness Prevention and Wellness Promotion)
- Implementing systematic, evidence-based examinations and assessments to formulate valid clinical diagnoses and determine patients' plan of care. (Examination, Assessment, and Diagnosis)
- Integrating best practices in immediate and emergency care for optimal outcomes. (Immediate and Emergency Care)
- Rehabilitating and reconditioning injuries, illnesses and general medical conditions with the goal of achieving optimal activity level based on core concepts (i.e., knowledge and skillsets fundamental to all aspects of therapeutic interventions)
- Using the applications of therapeutic exercise, modality devices and manual techniques. (Therapeutic Intervention)
- Integrating best practices in policy construction and implementation, documentation and basic business practices to promote optimal patient care and employee well-being. (Healthcare Administration and Professional Responsibility)

Prerequisite Course Requirements for MS

Required Prerequisite Courses (32 credit hours)

(or equivalent courses - syllabi or catalog course description required)

- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- PUBH 3150 - Introduction to Public Health Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- PSY 1010 SS - Introductory Psychology Credits: (3)
- ZOOL 2100 - Human Anatomy Credits: (4)
- ZOOL 2200 LS - Human Physiology Credits: (4)
Course Requirements for MS

Required Courses (67-69 credit hours)

Didactic Courses

- MSAT 6080 - Research Methods I Credits: (3)
- MSAT 6085 - Research Methods II Credits: (3)
- MSAT 6090 - Research Methods III Credits: (3)
- MSAT 6100 - Advanced Emergency Care in AT Credits: (3)
- MSAT 6200 - Mental and Behavioral Health in Injury and Rehabilitation Credits: (3)
- MSAT 6300 - Orthopedic Assessment and Diagnosis I Credits: (3)
- MSAT 6301 - Orthopedic Assessment and Diagnosis II Credits: (3)
- MSAT 6350 - Assessment and Care of General Medical Conditions Credits: (3)
- MSAT 6390 - Foundations of Therapeutic Interventions Credits: (2)
- MSAT 6400 - Therapeutic Modalities for Musculoskeletal Injuries Credits: (2)
- MSAT 6401 - Innovations in Therapeutic Modalities Credits: (2)
- MSAT 6431 - Orthopedic Taping and Durable Medical Equipment Credits: (1)
- MSAT 6432 - Casting and Orthotic Fabrication Credits: (1)
- MSAT 6450 - Therapeutic Rehabilitation I Credits: (3)
- MSAT 6451 - Therapeutic Rehabilitation II Credits: (3)
- MSAT 6452 - Advanced Manual Therapy Techniques Credits: (3)
- MSAT 6480 - Advanced Principles of Evidence-Based Practice Credits: (3)
- MSAT 6500 INT - Foundations of Athletic Training Credits: (3)
- MSAT 6600 - Administration and Management in Athletic Training Credits: (3)
- MSAT 6700 - Advanced Diagnostic Imaging for the Athletic Training Profession Credits: (1)
- MSAT 6740 - Nutrition for Athletic Trainers Credits: (1)
- MSAT 6760 - Suturing, Joint Relocation and Advanced AT Skills Credits: (1)
- MSAT 6998 - Master’s Board of Certification (BOC) Exam Preparation Credits: (1)
- MSAT 6999 - Special Topics in Athletic Training Credits: (1-3)

Clinical Courses

- MSAT 6501 INT - Graduate Practicum I Credits: (3)
- MSAT 6502 INT - Graduate Practicum II Credits: (3)
- MSAT 6503 INT - Graduate Practicum III Credits: (3)
- MSAT 6504 INT - Graduate Practicum IV Credits: (3)

Optional Electives

- MSAT 6095 - Research Methods IV Credits: (1-3)
- MSAT 6750 - Evidence-Based Evaluation and Treatment of the SI Joint and Spine Credits: (2)
Master of Science in Nursing Program

Chair: Sally Cantwell, PhD, RN
Director: Melissa Neville-Norton, DNP, APRN, CPNP-PC
Location: Marriott Allied Health Building, Rm 438
Program Secretary: Cheryll Hyatt (801) 626-7833
Enrollment Director: Rob Holt (801) 626-6753

The Weber State University Annie Taylor Dee School of Nursing Master of Science in Nursing (MSN) program is designed to prepare the graduate as a nurse executive and a nurse educator with knowledge and skills to lead change, promote health, and elevate care in various roles and settings. The emphases of nursing educator and nurse executive are specifically intended for individuals who want to advance their practice and careers in these areas.

The MSN Executive and Educator degree consists of 39 credit hours beyond the earned baccalaureate degree which includes core courses (15 credits) and emphasis of nurse administrator or nurse educator (20 credits per concentration) which includes 4 credits of project hours. The WSU executive and educator graduate nursing programs are completely online. There are limited face to face experiences during Residency courses.

Certificate courses may not be concurrently applied towards the WSU MSN degree. The School of Nursing programs are nationally accredited by the Accreditation Commission for Education in Nursing (ACEN) 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia, 30326. www.acenursing.org.
The Nurse Educator Graduate Certificate is a stand-alone certificate.

- **Program Prerequisite**: Completion of an MSN degree.
- **Grade Requirements**: A minimum grade of “B-” is required in all courses and an overall program GPA of 3.0 or higher.
- **Credit Hour Requirements**: A minimum of 12 credit hours is required.
- **Program Code**: 2055GC
- **CIPC**: 513817

The certificate can be completed in two (2) semesters based on course availability and optional residency. Students may choose to register for an optional 90-hour supervised residency in the area of focus. The certificate will be awarded upon completion of all required graduate-level courses. All courses are delivered in a 100% online except for the optional 90-hour residency.

*Certificate courses may not be concurrently applied towards the WSU MSN degree.*

**Gainful Employment Disclosure**

### Course Requirements for Graduate Certificate

**Courses Required**

- NRSG 6170 - Teaching Strategies Credits: (3)
- NRSG 6520 - Curriculum Development for Nursing Educators Credits: (3)
- NRSG 6540 - Measurement of Competence and Outcomes in Nursing Education Credits: (3)
- NRSG 6150 - Advanced Pathophysiology, Pharmacology and Assessment for the Nurse Educator Credits: (3)
  
  Optional Student Residency:

- NRSG 6700 INT - Nurse Educator Residency Credits: (2) *90 hours*
Nurse Executive Graduate Certificate

- Program Prerequisite: The Graduate Nurse Executive Certificate is a stand-alone certificate: completion of an MSN degree is a prerequisite to admission to the graduate certificate program.
- Grade Requirements: A minimum grade of "B-" is required in all courses and an overall program GPA of 3.0 or higher.
- Credit Hour Requirements: A minimum of 12 credit hours is required.
- Program Code: 2054GC
- CIPC: 513802

The certificate will be awarded upon completion of all required graduate-level courses. The program can be completed in two to four semesters based on course availability. Students may choose to register for an optional 90 hour supervised residency in the area of focus. With the exception of the optional executive residency, all courses are delivered in a 100% online format. Enrollment will be capped at 5 students per track at the discretion of the MSN Program Director. Certificate courses may not be concurrently applied towards the WSU MSN degree.

Gainful Employment Disclosure

Course Requirements for Graduate Certificate

Courses Required

- NRSG 6300 - Quality Improvement, Patient Safety and Risk Issues in Patient Care Delivery Credits: (3)
- NRSG 6380 - Retaining and Developing a Competent Workforce in Nursing Credits: (2)
- NRSG 6324 - Financial Issues in Nursing Administration Credits: (2)
- MHA 6000 - Health Systems & the Healthcare Economy Credits: (3)
- Optional Student Residency;
- NRSG 6400 INT - Nurse Executive Residency Credits: (2) *90 hours
Master of Science in Nursing (MSN)

The Weber State University Annie Taylor Dee School of Nursing (ATDSN) Master of Science in Nursing (MSN) program for professional advancement and nursing leadership in academia and healthcare organizations. The accredited program offers two leadership role specialties; Nurse Educator and Nurse Executive. Graduate students will experience diverse and evidence-based learning opportunities from highly qualified graduate faculty, culminating in a community-based residency experience in nursing clinical, academia, or administrative leadership. The accelerated MSN block format includes 100% online coursework in a block format over three consecutive semesters of study. The program offers personalized advising and support from nursing faculty with years of educational, clinical, and leadership experience. The MSN Nurse Educator degree emphasis is 33 credits. The 100% online course includes curriculum design, instructional strategies, student assessment, and program evaluation. The MSN Nurse Executive degree emphasis is 30 credits. The 100% online coursework applies leadership principles such as developing and retaining a competent workforce, budgeting, staffing, and performance measurement.

For nurses who possess a current master's degree in nursing who would like to strengthen or expand their current roles, the ATDSN offers post-master's certificates in nursing education and administrative leadership. The Nurse Executive Certificate (12 credits) and the Nurse Educator Certificate (14 credits) can be completed in two semesters with an optional community-based residency experience in nursing clinical, academia, or administrative leadership.

Grade Requirements: To earn the MSN degree, candidates must successfully complete all MSN program courses with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or higher.

Accreditation

The MSN Program is accredited by:
Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326
P. 404.975.5000
F. 404.975.5020
www.acenursing.org

Admission Requirements

Enrollment Director (801) 626-6753
Criteria for admission to the WSU Annie Taylor Dee School of Nursing's MSN Program can be found on the MSN Program website (weber.edu/msn). Select the "Applications and Checklists" option. Admission is competitive; therefore, the listed criteria for admission should be considered as minimum standards. For more information, please contact the School of Nursing Enrollment Director (801) 626-6753.

Before beginning the admissions process, applicants must be currently matriculated students at Weber State University or apply for admission to the University.
The MSN Program application requirements may be requested through email to MSN@weber.edu or phone (801) 626-7774, option 6. Applications become available online at weber.edu/msn October 1 with a deadline date of March 1. Pending student enrollment, the MSN coursework begins each fall semester.
A $60 application fee must be paid at the end of the online application process. Admission applications are reviewed and evaluated by the Nursing Program Admissions and Advancement Committee.

- **Program Code:** 2031MSN with Educator emphasis (2050) or Executive emphasis (2056)
- **CIPC:** 513802 with Educator emphasis (513817) or Executive emphasis (513802)

Program Learning Outcomes

- Patient Centered Care - Design level-appropriate contemporary program outcomes and curricula that prepare graduates to function effectively in the healthcare environment with a focus on the patient.
- Teamwork & Collaboration - Participates in interdisciplinary efforts to contribute to the professional standing of nursing and address the healthcare education needs in local, national and international arenas.
• Evidence-Based Practice (EBP) - Uses evidence to support best practices in teaching andragogy as well as the development of educational experiences.
• Quality Improvement - Incorporates quality improvement strategies in the development and evaluation of educational programs.
• Patient Safety - Incorporates national patient safety resources that promote patient and provider safety in the practice arena.
• Informatics - Utilizes information technology to support educational practice and incorporates the use of informatics to improve quality healthcare and innovative teaching.

Required MSN Core Courses (17 credit hours)

MSN students are required to take foundational, core courses that emphasize research, statistics, evidence-based practice, leadership, population health, and informatics.

• NRSG 6200 - Theoretical Foundations of Nursing Administration Credits: (3)
• NRSG 6110 - Translating Research and Evidence into Practice Credits: (3)
• NRSG 6120 - Research and Statistics Credits: (3)
• NRSG 6180 - Improving Patient Care and Nursing Practice through Information Systems Credits: (2)
• NRSG 6190 - Professional Foundations for Graduate Nursing Students Credits: (1)
• NRSG 6255 - Leadership and Accountability in Advanced Nursing Credits: (2)
• NRSG 6801 - Integrating Scholarship into Practice Credits: (2)
• NRSG 6802 - Integrating Scholarship into Practice Credits: (2)
• NRSG 6140 SUS/CEL - Collaborative Approaches in Population Health Credits: (3)

Emphasis (Core) Courses Required

Select one of the following concentrations

Nurse Educator Emphasis (16 credit hours)

• NRSG 6150 - Advanced Pathophysiology, Pharmacology and Assessment for the Nurse Educator Credits: (3)
• NRSG 6170 - Teaching Strategies Credits: (3)
• NRSG 6520 - Curriculum Development for Nursing Educators Credits: (3)
• NRSG 6540 - Measurement of Competence and Outcomes in Nursing Education Credits: (3)
• NRSG 6560 - Socialization in the Role of Nursing Educator Credits: (2)
• NRSG 6700 INT - Nurse Educator Residency Credits: (2)

Nurse Executive Emphasis (13 credit hours)

• NRSG 6300 - Quality Improvement, Patient Safety and Risk Issues in Patient Care Delivery Credits: (3)
• NRSG 6324 - Financial Issues in Nursing Administration Credits: (2)
• NRSG 6360 - Scope and Practice of Nursing Administration Credits: (1)
• NRSG 6380 - Retaining and Developing a Competent Workforce in Nursing Credits: (2)
• NRSG 6400 INT - Nurse Executive Residency Credits: (2)
• MHA 6000 - Health Systems & the Healthcare Economy Credits: (3)

Note:

Please see Admission Advisors.
Master of Science in Nursing-Nurse Practitioner (MSNP) (Replaced by DNP-FNP)

Students are no longer being admitted to the MSNP. The Doctor of Nursing Practice (DNP), Family Nurse Practitioner Emphasis has replaced the MSNP. The Master of Science Nursing Family Nurse Practitioner Program is a 5 semester clinically focused program to prepare Baccalaureate RNs with 2 years or more experience for the role of nurse practitioner. The hybrid model learning experiences afforded students include: collaborative community healthcare partnerships, arrangement of required nurse practitioner program clinical hours, and collaborative community and College of Health Professions’ interdisciplinary healthcare provider skills and procedures labs. Students are prepared to complete the national nurse practitioner certification exam and to practice as independent licensed practitioners with understanding of the nurse practitioner role, new scope of practice, essentials of healthcare policy, and interdisciplinary collaborative partnerships to provide safe quality care to clients throughout the lifespan.

- **Program Code:** 2048MSNP with Nurse Practitioner Concentration (2049)
- **CIPC:** 513805

Program Learning Outcomes

- Patient Centered Care: Create and direct collaborative patient care environments that promote the development of nursing expertise that includes the patient perspective.
- Teamwork & Collaboration: Apply advanced communication strategies to support high-functioning interdisciplinary teams that support high quality, safe patient care.
- Evidence-Based Practice (EBP): Evaluate available evidence, expert opinion, and patient preferences to determine best practice. Evaluate the feasibility and appropriate evaluation methods for planned EBP interventions.
- Quality Improvement: Develop policies and processes based on identification of best practice that improve the quality and safety of nursing care provided by health care systems.
- Patient Safety: Incorporate patient safety principles into the development of comprehensive patient safety goals and safety education for nurses.
- Informatics: Formulate policies, processes, and/or educational plans that leverage information technology to optimize information management, reduce errors, and support clinical decision-making.

Required MSN Core Courses (9 credit hours)

- NRSG 6110 - Translating Research and Evidence into Practice Credits: (3)
- NRSG 6120 - Research and Statistics Credits: (3)
- NRSG 6180 - Improving Patient Care and Nursing Practice through Information Systems Credits: (2)

Required MSNP Family Nurse Practitioner Core Courses (12 credit hours)

- NRSG 6205 - Transitions to Advanced Practice Credits: (1)
- NRSG 6210 - Advanced Pathophysiology I Credits: (2)
- NRSG 6215 - Advanced Pharmacology I Credits: (2)
- NRSG 6220 - Advanced Health Assessment/Diagnostic Reasoning Credits: (3)
- NRSG 6256 - Transition to Advanced Practice II Credits: (4)

Family Nurse Practitioner Program Courses Required (23 credit hours)

- NRSG 6225 - FNP Clinical Skills Credits: (1)
- NRSG 6230 - FNP Patient Care Lab Credits: (1)
- NRSG 6235 - FNP Patient Care I Credits: (3)
- NRSG 6236 - Advanced Practice Primary Care Clinical I Credits: (3)
• NRSG 6240 - FNP Patient Care II Credits: (2)
• NRSG 6241 - Advanced Practice Primary Care Clinical II Credits: (1)
• NRSG 6245 - FNP Patient Care III Credits: (3)
• NRSG 6246 - Advanced Practice Primary Care Clinical III Credits: (2)
• NRSG 6250 - FNP Patient Care IV Credits: (2)
• NRSG 6251 - Advanced Practice Primary Care Clinical IV Credits: (1)
• NRSG 6260 - Nurse Practitioner Immersion Credits: (4)

MSN Project (4 credit hours)

• NRSG 6801 - Integrating Scholarship into Practice Credits: (2)
• NRSG 6802 - Integrating Scholarship into Practice Credits: (2)

Note:

*Please see Admission Advisors.*
Master of Science in Radiologic Sciences Program

Department Chair: Robert Walker, PhD, RT(R)(MR)(CT)(QM), FASRT
Location: Marriott Health Building, Room 363
Telephone Contact: MSRS Enrollment Manager, Cathy Wells, 801-626-8538

The Master of Science in Radiologic Sciences (MSRS) program allows you to build the program based on your educational and professional interests. Students can focus in areas of advanced practice, education, management, research, interventional cardiology, Radiology Assistant, musculoskeletal sonography, radiology nursing, and interprofessional education (IPE).

The following emphases are available:

Cardiac Specialist
The Master of Science in Radiologic Sciences (MSRS) with emphasis in Cardiac Specialist prepares students with the knowledge and clinical skills necessary for a career in the cardiac cath lab. Students will develop analytical thinking skills and research capability while studying a wide range of disciplines including coronary and structural heart disease, multimodality cardiac imaging, and interventional cardiac catheterization. Students will learn alongside a multidisciplinary team of professionals while assisting with cath lab procedures such as angiography, hemodynamic assessment, coronary stenting, and valve implantation. Upon graduation, students will be qualified to sit for the Registered Cardiovascular Invasive Specialist (RCIS) and/or the Cardiac Interventional Radiography (CI) exam.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.

Innovation and Improvement
The Master of Science in Radiologic Sciences (MSRS) with emphasis in Innovation and Improvement is focused on elevating the imaging professional and patient care by providing students with diverse and customized skills and knowledge necessary to connect their imaging practices with policy.

Imaging professions will broaden their clinical comprehension, develop their leadership and educational expertise, enhance their research ingenuity, and extend their professional versatility within the imaging industry.

Radiologist Assistant
The Master of Science in Radiologic Sciences (MSRS) with emphasis in Radiologist Assistant prepares students to work as a Registered Radiologist Assistant (RA). The role of the RA provider is to improve efficiency and patient care in imaging services by providing advanced level support to radiologists. The curriculum incorporates the RRA certification requirements as published by the American Registry of Radiologic Technologists (ARRT). Students will learn advanced patient care, safety, and procedures through academic work and clinical experience.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.
Master of Science in Radiologic Sciences (MSRS)

Areas of Emphasis

Master of Science in Radiologic Sciences (MSRS), Cardiac Specialist Emphasis: The student choosing the Cardiac Specialist emphasis will acquire the knowledge and clinical skills necessary for a career in the cardiac cath lab. The invasive cardiovascular technology student will develop analytical thinking skills and research capability while studying a wide range of disciplines, including coronary and structural heart disease, multimodality cardiac imaging, and interventional cardiac catheterization. Students will learn alongside cardiologists while assisting with cath lab procedures such as angiography, hemodynamic assessment, coronary stenting, and valve implantation. Upon graduation, students will be qualified to sit for the Registered Cardiovascular Invasive Specialist (RCIS) and/or the Cardiac - Interventional Radiography (CI) exam.

Master of Science in Radiologic Sciences (MSRS), Innovation and Improvement Emphasis: The Masters of Science of Radiologic Sciences with emphasis in Innovation and Improvement is focused on elevating the imaging professional and patient care by providing students with diverse and customized skills and knowledge necessary to connect their imaging practices with policy. Imaging professionals will broaden their clinical comprehension, develop their leadership and educational expertise, enhance their research ingenuity, and extend their professional versatility within the imaging industry.

Master of Science in Radiologic Sciences (MSRS), Radiologist Assistant Emphasis: The Masters of Science of Radiologic Sciences with emphasis on Radiologist Assistant is intended to prepare students to work as a Registered Radiologist Assistant (RA). The role of the RA provider is to improve efficiency and patient care in imaging services by providing advanced level support to radiologists. The curriculum incorporates the RRA certification requirements as published by the American Registry of Radiologic Technologists (ARRT). Students will learn advanced patient care, safety, and procedures through academic work and clinical experience.

The maximum time for completion of the degree, including thesis, will be three years if the maximum time is exceeded, the student must petition to the program for an extension.

Program Learning Outcomes

- Patient Care and Education
- Professional Development and Research
- Clinical Competency and Medical Ethics
- Procedures, Anatomy and Pathophysiology
- Instrumentation and Quality Control

Admission Requirements for All MSRS

Criteria to be considered for acceptance into the program include:
1. Admission to Weber State University and online application for the MSRS Program.
2. Payment of the MSRS program application fee.
3. Graduate of a regionally accredited baccalaureate academic program in health science (includes, but not limited to, cardiovascular technology, ultrasound, radiologic technology, respiratory therapy, or nursing)
4. Official transcripts from all institutions attended.
5. A cumulative undergraduate GPA of at least 3.0. If undergraduate GPA is below 3.0, consideration may be based on GPA calculation on the last 60 semester hours (90 quarter hours) of undergraduate work.
6. Recommendation forms (3).

Additional Requirements for International Students

- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or intladmissions@weber.edu.
• Submit an official score from the Test of English as a Foreign Language (TOEFL) of 75 overall, with a minimum of 17 in each category OR International English Language Testing System (IELTS) 6.5 overall, with a minimum of 6.0 in each category.
• Oral language proficiency assessment.
• Weber State University-accepted bachelor's degree.
  o Provide a professional transcript evaluation of course work completed outside the United States. For a list of approved agencies, click here: http://www.weber.edu/issc/credentials.html. A translated transcript is not accepted. Transcripts must be evaluated on a course-by-course format, showing U.S. semester credit and grade equivalent for each course based on a 4.0 GPA scale.
• Evaluation of foreign health imaging professional certifications by MSRS faculty.
• Graduate students must first apply and be accepted by the MSRS graduate program before the admission can be processed for Weber State University.

Application

The application is available online at www.weber.edu/msrs. An application fee is required for the application to be considered complete.

• Application for Cardiac Specialist MSRS admission should be made by May 1 for fall semester admission, however, applications will be accepted beyond this date until we reach capacity.
• Application for Innovation and Improvement MSRS admission should be made by March 1 for summer semester admission, May 1 for fall semester admission, and November 1 for spring semester admission, however, applications will be accepted beyond these dates until we reach capacity. Preceptors must be identified by July 1 or enrollment may be deferred to the following academic year.
• Application for Radiologist Assistant MSRS admission should be made by May 1 for fall semester admission, however, applications will be accepted beyond this date until we reach capacity.

Student Advisement

A program advisor will be appointed by the School of Radiologic Sciences Chair from the graduate faculty in the program. All MSRS candidates must consult the program advisor at least once a semester. The School of Radiological Sciences Chair will serve as chair of the advisement committee, which will comprise all MSRS faculty. For issues regarding registration and scheduling, students should contact the MSRS Enrollment Manager at msrs@weber.edu. Continued program evaluation and improvement will assure a high-quality program that meets the students' needs. The student's needs and success will be monitored continuously throughout the program. The Master of Science in Radiologic Sciences (MSRS) program allows you to build the program based on your educational and professional interests. Students can focus in areas of advanced practice, education, management, research, interventional cardiology, musculoskeletal sonography, radiology nursing, and interprofessional education (IPE).

Master of Science in Radiologic Sciences Core (23 credit hours)

• MSRS 6100 - Research Methods Credits: (3) or
• NRSG 6110 - Translating Research and Evidence into Practice Credits: (3)
• MSRS 6120 - Research and Statistics Credits: (3) or
• NRSG 6120 - Research and Statistics Credits: (3)
• MSRS 6200 - Population Health in Radiologic Sciences Credits: (3) or
• MHA 6200 - Population Health and Data Analytics Credits: (3)
• MSRS 6450 - Managing Health Information Credits: (3) or
• MHA 6450 - Health Informatics Credits: (3)
• MSRS 6140 - Clinical Laboratory Correlation Credits: (3)
• MSRS 6900 INT - Capstone: Clinical Fellowship & Portfolio Credits: (3)
• MSRS 6910 - Transition to Practice Credits: (2)
• MSRS 6999 - Master's Thesis in Radiologic Sciences Credits: (3) *

*The degree candidate must complete 3 hours of thesis work MSRS 6999 - Master's Thesis in Radiologic Sciences (3). The master's thesis will be a complete body of work, either accepted for publication in a peer-reviewed journal in the field or deemed publishable by the student's committee.
Master of Science in Radiologic Sciences (MSRS), Cardiac Specialist Emphasis

- **Grade Requirements:** All required courses must be completed with a grade of "B" or higher.
- **Credit Hour Requirements:** A total of 59 credit hours are required.
- **Program Code:** 2037MSRS with Emphasis in 2067
- **CIPC:** 510911

The maximum time for completion of the degree, including thesis, will be three years; if the maximum time is exceeded, the student must petition to the program for an extension.

Admission Requirements for All MSRS

- MSRS 6130 - Functional Hemodynamics Credits: (3)
- MSRS 6403 - Evaluation of the Osseous System Credits: (3)
- MSRS 6413 - Evaluation of the Chest Credits: (3)
- MSRS 6423 - Evaluation of the Abdomen and GI System Credits: (3)
- MSRS 6433 - Evaluation of the Genitourinary System Credits: (3)
- MSRS 6443 - Clinical Pathways Credits: (3)
- MSRS 6453 - Evaluation/CNS and Facial Structures Credits: (3)
- MSRS 6463 - Problem Patient Management Credits: (3)
- MSRS 6473 - Non-vascular Invasive Imaging Credits: (3)
- MSRS 6860 INT - Clinical Preceptorship I Credits: (3)
- MSRS 6861 INT - Clinical Preceptorship II Credits: (3)
- MSRS 6862 INT - Clinical Preceptorship III Credits: (3)
- MSRS 6863 - Vascular Invasive Imaging Procedures Credits: (3)
Master of Science in Respiratory Therapy

**Director:** Paul Eberle, PhD, RRT  
**Location:** Marriott Allied Health Building, Rm 309B  
**Telephone:** Administrative Assistant, Amy Heaps (801) 626-7071  
**Enrollment Director:** Alisa Kimball (801) 626-6840

The MSRT program is designed for post-professional career development and to prepare respiratory care practitioners as 1) department or clinical administrators, 2) college-level faculty and/or asthma educators, and 3) clinical researchers employed within a variety of healthcare institutions. Two of five post-professional practice credentials (Certified PFT [CPFT] or Registered PFT [RPFT], Sleep Disorders Specialist [SDS] or Registered Polysomnographic Technologist [RPsgT], Adult Critical Care Specialist [ACCS], Neonatal/Pediatric Specialist [NPS], and Asthma Educator [AE-C]) relative to practitioner expertise are required for completion of the degree. Additionally, specific concentrations/emphasis of practice will prepare students for advanced careers in respiratory care. These concentrations are specifically intended for individuals with clinical experience pursuing advanced career pathways in administration, as college faculty, or as clinical researchers or health care consultants.

Master of Science in Respiratory Therapy graduates participate in the health care arena as post-professional leaders with roles as clinical respiratory therapists prepared to provide guidance and administrative leadership to departments and to undergraduates throughout the educational processes associated with providing, managing, coordinating, and consulting in respiratory care. The MSRT degree consists of 36 credit hours beyond the earned baccalaureate degree. This includes core courses in medical writing, medical pathophysiology, and medical ethics and law (9 credits), and providing a mechanism for two post-professional practice credentials. Additionally, concentrations chosen by the student in areas of health administration, college-level faculty or asthma educator, or clinical research (9 credits per concentration) are required for emphasis. MSRT students are required to complete 6 credits as a capstone project incorporating research principles learned throughout the curriculum. The MSRT program is developed with "hybrid" educational courses. This means the majority of coursework will be online with a few scheduled classroom experiences dependent on the area of concentration/emphasis chosen.
Master of Science in Respiratory Therapy (MSRT)

- **Grade Requirements**: To earn the MSRT degree, candidates must complete all program courses with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or above.
- **Credit Hour Requirements**: A total of 36 credit hours are required.
- **Program Code**: 2047MSRT
- **CIPC**: 510908

**Admission Requirements**

- Bachelor degree from a regionally accredited institution of higher education (see below for the AS to MSRT optional admission track)
- An NBRC-issued Registered Respiratory Therapist (RRT) credential
- Minimum GPA of 3.0 on approved undergraduate/graduate coursework OR an acceptable score on Miller Analogies Test (MAT) or Graduate Record Examination (GRE)
- Research Emphasis Only: basic statistics course (MATH 1040, Intro to Statistics or equivalent)

Applicants must submit an online application to include: transcripts from every institution of higher learning, proof of the NBRC RRT credential, three recommendation forms completed by appropriate professional references, and if applicable, MAT/GRE scores. Admission requires a complete application. Applications will not be considered until a complete application has been submitted and all items requested have been received by the MSRT department. With departmental approval, an applicant may be allowed to take up to six MSRT credit hours prior to formal acceptance.

**Additional Admission Requirements for International Students**

All International students and any applicant educated outside the United States must demonstrate proficiency in English and register with the International Office in the Student Services Center. Those whose native language is not English must submit official scores from the Test of English as a Foreign Language (TOEFL) of 570 (paper-based) with a TSE-A of 50, or 83 (computer-based) with a 26 or higher on speaking. The score may not be more than two years old.

**Application**

The application is available online at https://weber.edu/msrt/admission.html. An application fee is required for the application to be considered complete. Application for admission should be made by July 1 for fall semester admission and November 1 for spring semester admission.

**Advisement**

Any questions regarding the MSRT program including academic advisement should be directed to the MSRT Program Director.

**Optional Application Track for AS to MSRT**

**Admission Requirements for AS to MSRT**

Conditional acceptance to the AS to MSRT program requires the following:
- Associate degree from a regionally accredited institution of higher education
- An NBRC-issued Registered Respiratory Therapist (RRT) credential
- Minimum GPA of 3.0 on approved undergraduate/graduate coursework OR an acceptable score on Miller Analogies Test (MAT) or Graduate Record Examination (GRE)
- Research Emphasis Only: basic statistics course (MATH 1040, Intro to Statistics or equivalent)
Applicants must submit an online application to include: transcripts from every institution of higher learning, proof of the NBRC RRT credential, three recommendation forms completed by appropriate professional references, and if applicable, MAT/GRE scores. Admission requires a complete application. Applications will not be considered until a complete application has been submitted and all items requested have been received by the MSRT department. AS to MSRT students must satisfy the degree requirements for the Bachelor of Science in Respiratory Therapy, excluding the 30 institutional residency credits, prior to matriculating into MSRT courses.

Additional Admission Requirements for International Students for AS to MSRT

All International students and any applicant educated outside the United States must demonstrate proficiency in English and register with the International Office in the Student Services Center. Those whose native language is not English must submit official scores from the Test of English as a Foreign Language (TOEFL) of 570 (paper-based) with a TSE-A of 50, or 83 (computer-based) with a 26 or higher on speaking. The score may not be more than two years old.

Application for AS to MSRT

The application is available online at https://weber.edu/msrt/admission.html. An application fee is required for the application to be considered complete. Application for admission to the AS to MSRT program can be made at any time. Matriculation into MSRT coursework will occur on an individual basis.

Advisement for AS to MSRT

All students who are interested in the conditional acceptance of AS RRT to MSRT application track are required to schedule an appointment with the MSRT Program Director prior to application. Once admitted to the program, the student will be required to complete an academic contract specifying major courses, approved electives, and graduation requirements for both the BS and MSRT degrees. All students in the AS to MSRT admission track are held to the program requirements outlined in the catalog for both the BS and MSRT degrees.

Course Requirements for MSRT Degree

Required MSRT Core Courses (9 credit hours)

- MSRT 6010 - Medical Writing, Research Methods & Design Credits: (3)
- MSRT 6020 - Medical Pathophysiology/Cardiopulmonary Case Reviews Credits: (3)
- MHA 6440 - Health Ethics and Law Credits: (3)

Post-Professional Credential Courses (6 credit hours required)

- MSRT 6410 - Certified Pulmonary Function Technologist (CPFT) Credits: (3)
- MSRT 6420 - Sleep Disorders Specialty (SDS) Credits: (3)
- MSRT 6460 - Neonatal Pediatric Specialty (NPS) Credits: (3)
- MSRT 6470 - Adult Critical Care Specialty (ACCS) Credits: (3)
- MSRT 6480 - Asthma Educator Specialty Credential (AE-C) Credits: (3)

Concentration/Emphasis Courses Required (9 credit hours)

Select one of the following concentrations:

Health Administrative Services Concentration
• MHA 6000 - Health Systems & the Healthcare Economy Credits: (3)
• MHA 6100 - Leading & Managing People in Healthcare Credits: (3)
• MHA 6240 - Human Resources Management in Healthcare Credits: (3)

Education Concentration

• MSRT 6030 - Adult Learning Theory & Simulation Strategies Credits: (3)
• MED 6050 - Curriculum Design, Evaluation & Assessment Credits: (3)
• MED 6230 - Instructional Technology for Teachers Credits: (3)

Research Concentration

• MED 6080 - Conducting Educational Research Credits: (3)
• MSRT 6130 - Evidence-based Practice Credits: (3)
• MSRT 6140 - Applied Research in Respiratory Care Credits: (3)

MSRT Capstone Project (6 credit hours)

• MSRT 6700 - Capstone Project Credits: (3)

Note:

Electives (6 credit hours) may be fulfilled with additional advanced-practice credential(s) or other concentration/emphasis courses. Additionally, proof of two advanced-practice specialty credentials are required for awarding of MSRT degree. Please see Admissions Advisors.
School of Radiologic Sciences

- **Department Chair:** Robert Walker, PhD, RT(R)(MR)(CT)(QM), FASRT
- **Location:** Marriott Health Building, Room 363
- **Telephone Contacts:**
  - AAS Radiography: Kierah McKinnie, 801-626-6329
  - BS Specialties: Emily Darby, 801-626-6057
  - Toll Free Telephone: 1-800-848-7770, Option 1
  - Independent Study Manager: Pam Berg, 801-626-6619
  - MSRS Enrollment Manager: Cathy Wells, 801-626-8538
  - Student Liaison: Crysta Herman, 801-626-8537
  - Admissions/Counseling: Eric Neff, 801-626-6128

**Professors:** Robert Walker; **Associate Professors:** Rex Christensen, Casey Neville, Tanya Nolan; **Assistant Professors:** Victor Clampitt, Laurie Coburn, Ambree Penrod, Christopher Steelman, Taylor Ward; **Instructors:** Kimberly Parkinson, Robert Ferguson; **Adjunct Faculty:** Daryn Ashby, Wynn Harrison, Julie Hawk, Ryan Hecox, Diane Kawamura, Christopher Marston, Cheryl Walczak

Radiologic Sciences is a medical field that uses ionizing radiation, sound waves and magnetic fields to produce medical images for diagnostic purposes or to treat diseases by combining medical procedures with technology.

**Radiography**

The Radiography program provides integrated didactic instruction with the utilization of on campus x-ray rooms and clinical experience in Radiology departments of the affiliated health facilities. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The student will participate in clinical education within the affiliate health facilities throughout the program.

The program is 5 continuous semesters. The student qualifies for an Associate of Applied Science degree upon completion of the general education requirements and the professional course work. Upper division elective courses completed during the program may be applied toward a baccalaureate degree.

**Diagnostic Medical Sonography**

The Diagnostic Medical Sonography program is designed as an advanced discipline of study for two-year graduates of radiography programs or equivalent as determined by the School of Radiologic Sciences. A student can complete the required courses and be eligible to sit for the national certification examination. The courses offered in Diagnostic Medical Sonography are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students who have been accepted into the Bachelor of Science program.

The program and support courses are four (4) semesters in length for the Cardiac Emphasis or the Medical Emphasis and three (3) semesters in length for the Vascular Emphasis. A competency-based evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to receive grades for the course. The clinical education courses require a minimum of 24 clock hours per calendar week in an affiliated health care facility.

**Nuclear Medicine**

The Nuclear Medicine program is designed as an advanced discipline of study for ARRT registered technologists or the acceptable equivalent. A student can complete the required courses, obtain a certificate of completion, and be eligible to sit for the national certification examination. The courses offered in the Nuclear Medicine program are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students who have been accepted into the Bachelor of Science program.

The program is three (3) full semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

**Radiation Therapy**
The Radiation Therapy program is designed as an advanced discipline of study for graduates of accredited programs. A student can complete the required courses, obtain a certificate of completion, and be eligible to sit for the national certification examination. The courses offered in the Radiation Therapy program are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students who have been accepted into the Bachelor of Science program. The program is three (3) full semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

Advanced Radiologic Science

The Advanced Radiologic Sciences program is designed as an advanced discipline of study for ARRT registered technologists or equivalent as determined by the School of Radiologic Sciences. Students in the program must select an area or combination of areas of emphasis. These areas are designed to meet your career goals in medical imaging modalities and for technical management and educational positions. The courses offered in the Advanced Radiologic Sciences are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students in the Bachelor of Science program. The programs are either three (3) or four (4) semesters in length, depending on the emphasis, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to be eligible to sit for the national certification examinations. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

The following emphases are available:
- Computed Tomography (CT)
- Interventional Radiology (IR)
- Magnetic Resonance Imaging (MRI)
- Women's Imaging

Master of Science in Radiologic Sciences

The Master of Science in Radiologic Sciences (MSRS) program allows you to build the program based on your educational and professional interests. Students can focus in areas of advanced practice, education, management, research, interventional cardiology, Radiology Assistant, musculoskeletal sonography, radiology nursing, and interprofessional education (IPE). The following emphases are available:

Cardiac Specialist

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Cardiac Specialist prepares students with the knowledge and clinical skills necessary for a career in the cardiac cath lab. Students will develop analytical thinking skills and research capability while studying a wide range of disciplines including coronary and structural heart disease, multimodality cardiac imaging, and interventional cardiac catheterization. Students will learn alongside a multidisciplinary team of professionals while assisting with cath lab procedures such as angiography, hemodynamic assessment, coronary stenting, and valve implantation. Upon graduation, students will be qualified to sit for the Registered Cardiovascular Invasive Specialist (RCIS) and/or the Cardiac Interventional Radiography (CI) exam. The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

Innovation and Improvement

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Innovation and Improvement is focused on elevating the imaging professional and patient care by providing students with diverse and customized skills and knowledge necessary to connect their imaging practices with policy. Imaging professions will broaden their clinical comprehension, develop their
leadership and educational expertise, enhance their research ingenuity, and extend their professional versatility within the imaging industry.

Radiologist Assistant

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Radiologist Assistant prepares students to work as a Registered Radiologist Assistant (RA). The role of the RA provider is to improve efficiency and patient care in imaging services by providing advanced level support to radiologists. The curriculum incorporates the RRA certification requirements as published by the American Registry of Radiologic Technologists (ARRT). Students will learn advanced patient care, safety, and procedures through academic work and clinical experience.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.
Radiography (AAS)

Radiography is a program offered under School of Radiologic Sciences. The program provides integrated didactic instruction with the utilization of on campus x-ray rooms and clinical experience in Radiology departments of the affiliated health facilities. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The student will participate in clinical education within the affiliate health facilities throughout the program. The program is 5 continuous semesters. The student qualifies for an associate of applied science degree upon completion of the general education requirements and the professional course work. Upper division elective courses completed during the program may be applied toward a baccalaureate degree.

- **Program Prerequisite:** Complete the prerequisite courses, make application and be accepted to the program. Please contact the DCHP Admissions Advisement Center at 801-626-7136/6136 for a list of specific prerequisite courses.
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.
- **Credit Hour Requirements:** The credit hours required for graduation with an AAS degree are 23-26 credit hours of prerequisite courses and 73 credit hours of didactic and clinical education courses.
- **Program Code:** 2013AAS
- **CIPC:** 510911

Advisement

Students accepted into the program should meet annually with assigned faculty advisor for course and program review.

Admission Requirements

- Be accepted to Weber State University and declare program of study as Radiography applicant.
- Apply to the Radiography Program for acceptance and follow the procedures as outlined on the program application, which is in addition to the Weber State Admissions Application. The deadline date for applications to be received is January 10 of each year. Student selection is made during Spring semester and those accepted into the program begin their professional phase of the curriculum the following fall semester.
- Pay the $25 program application fee.
- Present a satisfactory high school and/or college(s) transcript(s).
- Complete the general education courses listed below.

General Education

Refer to Degree Requirements degree requirements. The following are required:
- English ENGL 1010 (3)
- English ENGL 2010 (3) or an oral or written Communication course
- Quantitative Literacy - MATH 1010 (4)
- Computer Literacy (demonstrate literacy) no credit
- Social Sciences (Introductory Psychology) Course (3)
- Humanities (Communication) Course (3)
- Life Science (3)
- or Health Sciences (Biomed) HTHS 1110 (4) and HTHS 1111 (4)

Program Learning Outcomes

- Identify the biological effects of radiation.
- Demonstrate proper radiation protection procedures during diagnostic procedures.
- Demonstrate proper use and understanding of radiation exposure monitors and diagnostic radiation equipment.
- Demonstrate, select, accurately explain and produce diagnostic quality radiographs.
- Demonstrate repeated competency in accurately explaining the proper radiographic film radiographic image production, image processing, and digital image formation.
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of radiographic positioning, technical factors, anatomy, physiology and pathology.
- Demonstrate legal and professional responsibility.
- Demonstrate appropriate patient education, safety and comfort skills.
- Demonstrate acceptable methods of infection control and prevention.
- Demonstrate proper patient monitoring during radiographic procedures.
- Demonstrate appropriate responses to diverse patient populations.
- Demonstrate a sense of professionalism and desire to learn.
- Demonstrate working knowledge of radiographic anatomy, structural relationship and pathology

### Major Course Requirements for AAS Degree

### Courses Required (73 credit hours)

- RADT 1022 - Introduction to Radiologic Technology Credits: (2)
- RADT 1303 - Principles of Radiographic Exposure I Credits: (3)
- RADT 1502 - Radiographic Anatomy and Positioning I Credits: (2)
- RADT 1601 - Clinical Simulation I Credits: (1)
- RADT 2821 - Directed Readings & Research I Credits: (2)
- RADT 2861 INT - Clinical Education Credits: (3)
- RADT 2042 - Community-Based Patient Care I Credits: (1-2)
- RADT 1512 - Radiographic Anatomy and Positioning II Credits: (2)
- RADT 1621 - Clinical Simulation II Credits: (1)
- RADT 2043 - Specialty Based Patient Care Credits: (2)
- RADT 2272 - Basic Sectional Anatomy Credits: (2)
- RADT 2403 - Principles of Radiographic Exposure II Credits: (3)
- RADT 2822 - Directed Readings & Research II Credits: (2)
- RADT 2862 INT - Clinical Education Credits: (3)
- RADT 1522 - Radiographic Anatomy and Positioning III Credits: (2)
- RADT 1641 - Clinical Simulation III Credits: (1)
- RADT 2803 - Independent Research Credits: (1-3)
- RADT 2823 - Directed Readings & Research III Credits: (2)
- RADT 2863 INT - Clinical Education Credits: (3)
- RADT 3003 - Psycho-Social Medicine Credits: (3)
- RADT 3043 - Medical Ethics and Law Credits: (3)
- RADT 1532 - Radiographic Anatomy and Positioning IV Credits: (2)
- RADT 1661 - Clinical Simulation IV Credits: (1)
- RADT 2824 - Directed Readings & Research IV Credits: (2)
- RADT 2864 INT - Clinical Education Credits: (3)
- RADT 2942 - Transition to Clinical Practice Credits: (2)
- RADT 3403 - Radiobiology & Health Physics Credits: (3)
- RADT 3463 - Computerized Imaging Credits: (3)
- RADT 2865 INT - Clinical Education Credits: (2)
- RADT 2913 - Comprehensive Review Credits: (2)
- RADT 2825 - Directed Readings & Research V Credits: (2)
- RADT 3443 - Quality Assurance in Radiology Credits: (3)
- RADT 1542 - Radiographic Anatomy and Positioning V Credits: (2)
- RADT 1681 - Clinical Simulation V Credits: (1)
Limited Radiographer Certificate of Proficiency

The Limited Radiographer Certificate for Proficiency is a program offered under School of Radiologic Sciences. The program provides integrated didactic instruction with the utilization of clinical simulation. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The program is one semester and is offered during fall, spring and summer semesters. The student qualifies for a certificate of proficiency upon completion of the program.

- **Program Prerequisite:** None.
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.
- **Credit Hour Requirements:** The credit hours required for completion of the certificate will include the 10 credit hours (5 courses) within the Limited Radiographer program as well as the 8 credit hours of life science covering Anatomy and Physiology (HTHS 1110 LS - Integrated Human Anatomy and Physiology I (4) and HTHS 1111 - Integrated Human Anatomy and Physiology II (4)) or (ZOOL 2100 - Human Anatomy (4) and ZOOL 2200 LS - Human Physiology (4)).
- **Program Code:** 2068CP
- **CIPC:** 040901

Advisement

Students enrolled in the Limited Radiographer program will receive continuous advisement from individual instructors throughout the duration of the program. Use Grad MAPs to plan your degree

Admission Requirements

1. Be accepted to Weber State University and register for Limited Radiography Program.
2. Present a satisfactory high school and/or college(s) transcript(s).

Program Learning Outcomes

- Identify the fundamental concepts of biological effects of radiation.
- Demonstrate proper radiation protection procedures during diagnostic procedures.
- Demonstrate proper use and understanding of radiation exposure monitors and diagnostic radiation equipment.
- Demonstrate, select, accurately explain and produce diagnostic quality radiographs that fall within the scope of practice for radiology practical technicians in the state of Utah (Statute 58-54).
- Demonstrate repeated competency in accurately explaining the proper radiographic image production, image processing, and digital image formation
- Demonstrate proper evaluation and critique of radiographic positioning, technical factors, anatomy, physiology and pathology that fall within the scope of practice for radiology practical technicians in the state of Utah (Statute 58-54).
- Demonstrate legal and professional responsibility within the limited scope of practice for a radiology practical technician.
- Demonstrate appropriate patient education, safety and comfort skills.
- Demonstrate acceptable methods of infection control and prevention.
- Demonstrate proper patient monitoring during radiographic procedures.
- Demonstrate appropriate responses to diverse patient populations.
- Demonstrate a sense of professionalism and desire to learn.
- Understand the radiographic anatomy and positioning specific to the Limited Scope of Practice (Utah Statute 58-54) which only includes Chest, Extremities, Skull/Sinus, Spine, and Podiatric.

Required Courses
The program provides integrated didactic instruction with the utilization of clinical simulation. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught.

- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) and
- HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4)

OR

- ZOOL 2100 - Human Anatomy Credits: (4) and
- ZOOL 2200 LS - Human Physiology Credits: (4)

- RADT 1021 - Limited Clinical Simulation Credits: (1)
- RADT 1022 - Introduction to Radiologic Technology Credits: (2)
- RADT 1023 - Limited Radiographic Anatomy & Positioning Credits: (2)
- RADT 1024 - Limited Principles of Radiographic Exposure Credits: (3)
- RADT 1025 - Limited Patient Care and Assessment Credits: (2)
Advanced Radiologic Sciences (BS)

The Advanced Radiologic Sciences program is designed to fill the continuing education needs of registered technologists, to provide a career ladder for those who wish to obtain additional skills in a specialized area, and to provide an opportunity to earn a Bachelor of Science (BS) degree. Programs of study are designed to meet the career goals of students in medical imaging modalities and for technical, management and educational positions.

Areas of Emphasis

1. Advanced Radiologic Sciences (BS), Magnetic Resonance Imaging (MRI) Emphasis
2. Advanced Radiologic Sciences (BS), Interventional Radiology (IR) Emphasis
3. Advanced Radiologic Sciences (BS), Computed Tomography (CT) Emphasis
4. Advanced Radiologic Sciences (BS), Women's Imaging Emphasis
5. Advanced Radiologic Sciences (BS), Advanced Radiologic Sciences Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
- **Program Code:** Advanced Radiologic Science (2016BS) with Advanced Radiologic Sciences Emphasis (2073), Magnetic Resonance Imaging Emphasis (2074), Interventional Radiology Emphasis (2075), Computed Tomography Emphasis (2076), or Women's Imaging Emphasis (2077)
- **CIPC:** Advanced Radiologic Science (510911), CT (510999), MRI (510920), CIT (510901), Women's Imaging (510999), RA (510814)

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a $25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)
Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.

- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)
Advanced Radiologic Sciences (BS), Advanced Radiologic Sciences Emphasis

- **Program Prerequisite**: Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor**: Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements**: After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours**: A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
- **Program Code**: 2016BS with Emphasis 2073
- **CIPC**: 510911

**Advisement**

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

**Admission Requirements**

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a $25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

**General Education**

Refer to Degree Requirements for Bachelor of Science requirements.

**Radiologic Sciences Core (4 credit hours)**

*Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.*

- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)

**Advanced Radiologic Sciences Required Courses (10 credit hours)**

- RADT 3003 - Psycho-Social Medicine Credits: (3)
- RADT 3043 - Medical Ethics and Law Credits: (3)
- RADT 3423 - Federal Regulations Credits: (2)
- RADT 4203 - Patient Education in Radiology Credits: (2)

**Electives (25-33 credit hours)**
Select at least 25 credit hours from the following courses. Elective courses must have approval of a faculty advisor.

- RADT 3123 - Sectional Anatomy Credits: (2)
- RADT 3143 - Imaging Pathophysiology I Credits: (2)
- RADT 3144 - Imaging Pathophysiology II Credits: (2)
- RADT 3243 - Community-Based Patient Care II Credits: (2)
- RADT 3253 - Specialty-Based Patient Care II Credits: (2)
- RADT 3263 - Diagnostic Services Pharmacology Credits: (2)
- RADT 3403 - Radiobiology & Health Physics Credits: (3)
- RADT 3443 - Quality Assurance in Radiology Credits: (3)
- RADT 3463 - Computerized Imaging Credits: (3)
- RADT 3563 - Managing Clinical Information Credits: (3)
- RADT 3863 INT - Clinical Internship Credits: (2-6)
- RADT 4213 - Supervision and Staff Development Credits: (3)
- RADT 4223 - Promotional Strategies Credits: (3)
- RADT 4233 - Fiscal Analysis in Radiology Credits: (3)
- RADT 4243 - Quality Management in Radiology Credits: (3)
- RADT 4253 - Risk Management Credits: (3)
- RADT 4303 - Cardiology Credits: (3)
- RADT 4403 - Imaging Pathology Credits: (3)
- RADT 4413 - Forensic Radiology Credits: (3)
- RADT 4433 - PACS Administration Credits: (3)
- RADT 4443 - Imaging Informatics Credits: (3)
- RADT 4543 - Bone Densitometry Credits: (3)
- RADT 4572 - Advanced Breast Imaging Credits: (3)
- RADT 4573 - The Female Patient and Medical Imaging Credits: (3)
- RADT 4610 - Clinical Simulation I Credits: (1)
- RADT 4611 - Clinical Simulation II Credits: (1)
- RADT 4612 - Clinical Simulation III Credits: (1)
- RADT 4803 - Individual Research Credits: (1-3)
- RADT 4833 - Directed Readings and Research Credits: (3)
- RADT 4863 INT - Clinical Internship Credits: (2-4)
- RADT 4992 - Seminar Credits: (1-2)
Advanced Radiologic Sciences (BS), Computed Tomography (CT) Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-49 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2076
- **CIPC:** 510999

**Advisement**

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

**Admission Requirements**

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a $25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

**General Education**

Refer to Degree Requirements for Bachelor of Science requirements.

**Radiologic Sciences Core (4 credit hours)**

*Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.*

- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)

**Support Courses for CT (34 credit hours)**

- RADT 3003 - Psycho-Social Medicine Credits: (3)
- RADT 3043 - Medical Ethics and Law Credits: (3)
- RADT 3123 - Sectional Anatomy Credits: (2)
- RADT 3143 - Imaging Pathophysiology I Credits: (2)
- RADT 3144 - Imaging Pathophysiology II Credits: (2)
- RADT 3253 - Specialty-Based Patient Care II Credits: (2)
- RADT 3403 - Radiobiology & Health Physics Credits: (3)
• RADT 3563 - Managing Clinical Information Credits: (3)
• RADT 3863 INT - Clinical Internship Credits: (2-6) (6 credit hours required)
• RADT 4203 - Patient Education in Radiology Credits: (2)
• RADT 4303 - Cardiology Credits: (3)
• RADT 4863 INT - Clinical Internship Credits: (2-4) (3 credit hours required)

Computed Tomography (CT) Required Courses (11 credit hours)

• RADT 4613 - Computed Tomography of the Torso and Limbs Credits: (3)
• RADT 4653 - Computed Tomography of the Central Nervous System Credits: (3)
• RADT 4663 - Computed Tomography Physics, Instrumentation & Safety Credits: (3)
• RADT 4942 - Transition to Specialty Practice Credits: (2)
Advanced Radiologic Sciences (BS), Interventional Radiology (IR) Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2075
- **CIPC:** 510911

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a $25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)

*Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.*

- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)

Interventional Radiology Required Courses (9 credit hours)

- RADT 4313 - Visceral, Pelvic and Extremity Angiography Credits: (3)
- RADT 4333 - Head and Neck Angiography Credits: (3)
- RADT 4343 - Thoracic and Venous Procedures Credits: (3)

Support Courses for IR (32 credit hours)
• RADT 3003 - Psycho-Social Medicine Credits: (3)
• RADT 3043 - Medical Ethics and Law Credits: (3)
• RADT 3123 - Sectional Anatomy Credits: (2)
• RADT 3143 - Imaging Pathophysiology I Credits: (2)
• RADT 3144 - Imaging Pathophysiology II Credits: (2)
• RADT 3253 - Specialty-Based Patient Care II Credits: (2)
• RADT 3263 - Diagnostic Services Pharmacology Credits: (2)
• RADT 3563 - Managing Clinical Information Credits: (3)
• RADT 3863 INT - Clinical Internship Credits: (2-6) (6 credit hours required)
• RADT 4203 - Patient Education in Radiology Credits: (2)
• RADT 4303 - Cardiology Credits: (3)
• RADT 4863 INT - Clinical Internship Credits: (2-4) (3 credit hours required)
• RADT 4942 - Transition to Specialty Practice Credits: (2)
Advanced Radiologic Sciences (BS), Magnetic Resonance Imaging (MRI) Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-49 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2074
  - **CIPC:** 510920

**Advisement**

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

**Admission Requirements**

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a $25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

**General Education**

Refer to Degree Requirements for Bachelor of Science requirements.

**Radiologic Sciences Core (4 credit hours)**

*Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.*

- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)

**Support Courses for MRI (31 credit hours)**

- RADT 3003 - Psycho-Social Medicine Credits: (3)
- RADT 3043 - Medical Ethics and Law Credits: (3)
- RADT 3123 - Sectional Anatomy Credits: (2)
- RADT 3143 - Imaging Pathophysiology I Credits: (2)
- RADT 3144 - Imaging Pathophysiology II Credits: (2)
- RADT 3253 - Specialty-Based Patient Care II Credits: (2)
- RADT 3563 - Managing Clinical Information Credits: (3)
• RADT 3863 INT - Clinical Internship Credits: (2-6) (6 credit hours required)
• RADT 4203 - Patient Education in Radiology Credits: (2)
• RADT 4303 - Cardiology Credits: (3)
• RADT 4863 INT - Clinical Internship Credits: (2-4) (3 credit hours required)

Magnetic Resonance Imaging (MRI) Required Courses (14 credit hours)

• RADT 4603 - Magnetic Resonance Imaging Physics, Instrumentation & Safety Credits: (3)
• RADT 4623 - Advanced MRI Procedures Credits: (3)
• RADT 4633 - Magnetic Resonance Imaging of the Central Nervous System Credits: (3)
• RADT 4643 - Magnetic Resonance of the Torso and Limbs Credits: (3)
• RADT 4942 - Transition to Specialty Practice Credits: (2)
Advanced Radiologic Sciences (BS), Women's Imaging Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2077
- **CIPC:**

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a $25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)

*Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.*

- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)

Required Courses (27 credit hours)

- RADT 4543 - Bone Densitometry Credits: (3)
- RADT 4553 - Breast Anatomy, Physiology and Pathology Credits: (3)
- RADT 4563 - Mammographic Positioning/Imaging Techniques Credits: (3)
- RADT 4573 - The Female Patient and Medical Imaging Credits: (3)
- RADT 4572 - Advanced Breast Imaging Credits: (3)
- RADT 4583 - Mammographic Equipment and Quality Assurance Credits: (3)
- RADT 4610 - Clinical Simulation I Credits: (1)
- RADT 4863 INT - Clinical Internship Credits: (2-4) (6 credit hours required)
• RADT 4942 - Transition to Specialty Practice Credits: (2)

Support Courses (15 credit hours)

• RADT 3003 - Psycho-Social Medicine Credits: (3)
• RADT 3043 - Medical Ethics and Law Credits: (3)
• RADT 3243 - Community-Based Patient Care II Credits: (2)
• RADT 3423 - Federal Regulations Credits: (2)
• RADT 3563 - Managing Clinical Information Credits: (3)
• RADT 4203 - Patient Education in Radiology Credits: (2)
Diagnostic Medical Sonography (BS)

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to Admission Process below).
- **Minor:** The Advanced Radiologic Sciences minor is automatically satisfied by the requirements for the Diagnostic Medical Sonography major.
- **Grade Requirements:** After admittance to the program, a GPA of 2.0 or a grade of "C" is required in all professional courses.
- **Credit Hour Requirements:** Credit hours required will vary according to the chosen emphasis. Consult with a faculty member to complete an academic contract.
- **Program Code:** Major Diagnostic Medical Sonography (2069BS) with one or more of the following emphases: Cardiac (2070), Medical (2071), Vascular (2072)
- **CIPC:** Major Diagnostic Medical Sonography (510910) with one or more of the following: Cardiac (510910), Medical (510910), Vascular(510910)

Advisement

Students should meet with the admissions counselor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Process

To be eligible for admission to the Diagnostic Medical Sonography program, the following criteria must be met:
1. Application must be made to Weber State.
2. Demonstrate ability to achieve scholastically.
3. Complete an application to the desired program and pay the $25 application fee.
4. Provide the following with the application
   1. transcripts from hospital certificate program or colleges and universities;
   2. high school transcripts if no previous college experience; and
   3. copy of ARRT certification or equivalent.
5. Have all pertinent material on file January 10.
6. The Program of Study within the Diagnostic Medical Sonography emphasis area will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Demonstrate proper use of imaging equipment
- Demonstrate proper selection of technical factors to produce diagnostic images
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of diagnostic images for accuracy of technical factors, patient positioning, anatomy, contrast injection and pathology.

Major Course Requirements for BS Degree

DMS Courses Required (6 credit hours)
Radiography Courses Required (29 credit hours)

- RADT 3003 - Psycho-Social Medicine Credits: (3)
- RADT 3043 - Medical Ethics and Law Credits: (3)
- RADT 3123 - Sectional Anatomy Credits: (2)
- RADT 3143 - Imaging Pathophysiology I Credits: (2)
- RADT 3144 - Imaging Pathophysiology II Credits: (2)
- RADT 3263 - Diagnostic Services Pharmacology Credits: (2)
- RADT 3563 - Managing Clinical Information Credits: (3)
- RADT 3243 - Community-Based Patient Care II Credits: (2)
- RADT 3253 - Specialty-Based Patient Care II Credits: (2)
- RADT 4942 - Transition to Specialty Practice Credits: (2)
- RADT 4203 - Patient Education in Radiology Credits: (2)
- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)

Emphasis Requirements

Complete the courses for one of the following three emphasis areas: Cardiac Emphasis (25 credit hours), Medical Emphasis (24 credit hours), or Vascular Emphasis (16 credit hours).

Cardiac Emphasis (25 credit hours)

- DMS 4210 - Cardiac Sonography I Credits: (3)
- DMS 4220 - Cardiac Sonography II Credits: (3)
- DMS 4230 - Cardiac Sonography III Credits: (3)
- DMS 4410 - Vascular Sonography I Credits: (2)
- DMS 4420 - Vascular Sonography II Credits: (2)
- DMS 4610 - Cardiac Sonography - Clinical Simulation I Credits: (1)
- DMS 4611 - Cardiac Sonography - Clinical Simulation II Credits: (1)
- DMS 4612 - Cardiac Sonography - Clinical Simulation III Credits: (1)
- DMS 4811 INT - Cardiac Clinical I Credits: (3)
- DMS 4812 INT - Cardiac Clinical II Credits: (3)
- DMS 4813 INT - Cardiac Clinical III Credits: (3)

Medical Emphasis (24 credit hours)

- DMS 4310 - Abdominal Sonography Credits: (3)
- DMS 4320 - Superficial Structure Sonography Credits: (1)
- DMS 4330 - Gynecologic Sonography Credits: (1)
- DMS 4340 - Obstetric Sonography Credits: (3)
- DMS 4410 - Vascular Sonography I Credits: (2)
- DMS 4420 - Vascular Sonography II Credits: (2)
- DMS 4620 - Medical Sonography - Clinical Simulation I Credits: (1)
- DMS 4621 - Medical Sonography - Clinical Simulation II Credits: (1)
- DMS 4622 - Medical Sonography - Clinical Simulation III Credits: (1)
- DMS 4821 INT - Medical Clinical I Credits: (3)
- DMS 4822 INT - Medical Clinical II Credits: (3)
- DMS 4823 INT - Medical Clinical III Credits: (3)
Vascular Emphasis (16 credit hours)

- DMS 4410 - Vascular Sonography I Credits: (2)
- DMS 4420 - Vascular Sonography II Credits: (2)
- DMS 4630 - Vascular Sonography - Clinical Simulation I Credits: (1)
- DMS 4631 - Vascular Sonography - Clinical Simulation II Credits: (1)
- DMS 4632 - Vascular Sonography - Clinical Simulation III Credits: (1)
- DMS 4831 INT - Vascular Clinical I Credits: (3)
- DMS 4832 INT - Vascular Clinical II Credits: (3)
- DMS 4833 INT - Vascular Clinical III Credits: (3)
Nuclear Medicine (BS)

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Process below).
- **Minor:** The Advanced Radiologic Sciences minor is automatically satisfied by the requirements for the Nuclear Medicine major.
- **Grade Requirements:** After admittance to the program, a GPA of 2.0 is required in all professional courses.
- **Credit Hour Requirements:** A total of 52 credit hours in didactic courses and clinical education are required. The support courses or the equivalent must be completed to obtain the degree.
- **Program Code:** 2011BS
- **CIPC:** 510905

**Advisement**

Students should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

**Admission Process**

To be eligible for admission to the Nuclear Medicine program, the following criteria must be met:
1. Application and admission to Weber State University.
2. Demonstrate ability to achieve scholastically.
3. Complete an application to the desired program and pay the $25 application fee.
4. Provide the following with the application:
   1. transcripts from hospital certificate programs or colleges and universities;
   2. high school transcripts, if no previous college experience; and
   3. copy of ARRT certification or equivalent.
5. Have all pertinent material on file by January 10.
6. The Program of Study for Nuclear Medicine will be declared upon acceptance into modality.

**General Education**

Refer to Degree Requirements for Bachelor of Science requirements.

**Program Learning Outcomes**

- Demonstrate proper use of imaging equipment
- Demonstrate proper selection of radiopharmaceuticals and technical factors to produce diagnostic images
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of diagnostic images for accuracy of technical factors, patient positioning, anatomy, nuclide injection and pathology.

**Major Course Requirements for BS Degree**

**Nuclear Medicine Courses Required (27 credit hours)**

- NUCM 4103 - Radiopharmaceuticals and Dosages Credits: (3)
- NUCM 4203 - Scanning and Imaging Procedures I Credits: (3)
• NUCM 4213 - Scanning and Imaging Procedures II Credits: (3)  
• NUCM 4223 - Nuclear Cardiology Credits: (3)  
• NUCM 4303 - Radionuclide Physics & Instrumentation Credits: (3)  
• NUCM 4333 SI - Quality Assurance Credits: (3)  
• NUCM 4861 INT - Clinical Education Credits: (3)  
• NUCM 4862 INT - Clinical Education Credits: (3)  
• NUCM 4863 INT - Clinical Education Credits: (3)  

Radiography Courses Required (25 credit hours)  

• RADT 3003 - Psycho-Social Medicine Credits: (3)  
• RADT 3263 - Diagnostic Services Pharmacology Credits: (2)  
• RADT 3143 - Imaging Pathophysiology I Credits: (2)  
• RADT 3144 - Imaging Pathophysiology II Credits: (2)  
• RADT 3253 - Specialty-Based Patient Care II Credits: (2)  
• RADT 3423 - Federal Regulations Credits: (2)  
• RADT 3563 - Managing Clinical Information Credits: (3)  
• RADT 4303 - Cardiology Credits: (3)  
• RADT 4933 - Research Methods Credits: (2)  
• RADT 4943 - Baccalaureate Thesis Credits: (2)  
• RADT 4942 - Transition to Specialty Practice Credits: (2)
Radiation Therapy (BS)

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Process below).
- **Minor:** The Advanced Radiologic Sciences minor is automatically satisfied by the requirements for the Radiation Therapy major.
- **Grade Requirements:** After admission to the program, a GPA of 2.0 or a "C" is required in the professional courses.
- **Credit Hour Requirements:** A total of 46 credit hours in didactic courses and clinical education are required. The support courses or the equivalent must be completed to obtain the degree.
- **Program Code:** 2018BS
- **CIPC:** 510907

Advisement

Students should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Process

To be eligible for admission to the Radiation Therapy program, the following criteria must be met:
1. Application and admission to Weber State University.
2. Demonstrate ability to achieve scholastically.
3. Complete an application to the desired program and pay the $25 application fee.
4. Provide the following with the application:
   1. transcripts from hospital certificate programs or colleges and universities;
   2. high school transcripts, if no previous college experience; and
   3. copy of ARRT certification or equivalent.
5. Have all pertinent material on file by January 10.
6. The Program of Study for Radiation Therapy will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Demonstrate proper use of treatment equipment
- Demonstrate proper interpretation of treatment prescriptions, treatment fields and procedures
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of treatment simulation and delivery, patient positioning and protection, anatomy, and pathology.

Major Course Requirements for BS Degree

Radiation Therapy Courses Required (33 credit hours)

- RATH 4330 - Radiation Therapy Physics Credits: (3)
- RATH 4342 - Introduction to Treatment Planning Credits: (3)
- RATH 4410 - Radiation Oncology I Credits: (3)
- RATH 4412 - Radiation Oncology II Credits: (3)
- RATH 4414 - Radiation Oncology III Credits: (3)
- RATH 4444 - Advanced Treatment Planning/Brachytherapy Credits: (3)
- RATH 4446 - Quality Assurance Credits: (3)
- RATH 4448 - New Technology in Radiation Therapy Credits: (3)
- RATH 4861 INT - Clinical Education I Credits: (3)
- RATH 4862 INT - Clinical Education II Credits: (3)
- RATH 4863 INT - Clinical Education III Credits: (3)

Radiography Courses Required (13 credit hours)

- RADT 3253 - Specialty-Based Patient Care II Credits: (2)
- RADT 3563 - Managing Clinical Information Credits: (3)
- RADT 4933 - Research Methods Credits: (2)
- RADT 4943 - Baccalaureate Thesis Credits: (2)
- RADT 4942 - Transition to Specialty Practice Credits: (2)
- RADT 4992 - Seminar Credits: (1-2)
Advanced Radiologic Sciences, Minor Emphasis

- **Grade Requirements:** A GPA of 2.0 in all courses used toward the minor.
- **Credit Hour Requirements:** 18-24 credit hours in Advanced Radiologic Sciences. An academic contract must be generated with a faculty advisor for a minimum of 18 credit hours from the RADT upper division courses. Courses required for certification cannot be used to fulfill minor requirements.
- **Program Code:** 2016
- **CIPC:** 510911

*Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract. A minor is **not** required for the Radiology Assistant (RA) program.*
John B. Goddard School of Business & Economics

Dr. Matthew Mouritsen, Dean

The John B. Goddard School of Business & Economics is a leader in preparing students for careers in business. The Goddard School attracts students from across the nation and around the world who desire a quality education. Nearly 2000 students are enrolled in undergraduate programs in accounting, finance, business administration (with an emphasis in human resource management), marketing, economics, supply chain management, and management information systems; and more than 240 students pursue degrees in the Master of Accounting and Master of Taxation programs, as well as the Master of Business Administration program. Students should note that the Goddard School is accredited by the Association to Advance Collegiate Schools of Business (AACSB) International, the premier global accrediting agency in business and accounting education.

Courses are designed to reflect the rapidly changing business environment. Dedicated faculty use innovative teaching and learning methods throughout the curriculum. The consequences of the global economic environment and international competitive advantage are addressed at the onset of the curriculum and discussed throughout the program. The key issues of technology, analytics, quality management, ethics, and entrepreneurship are applied in many contexts.

A unique feature in the curriculum is the endowed Ralph Nye Lecture Series. In this Series, business leaders visit Weber State University campus to serve as guest lecturers. A wide variety of speakers include executives who have risen to the top of corporate worlds, entrepreneurs who have nurtured an idea into a viable business, and authors and opinion leaders with special insight into the business environment. These speakers make an invaluable contribution to our educational programs.

Telephone Contact: Mary Ann Boles 801-626-7307

Associate Dean: Dr. Eric Smith
Location: Wattis Building, Room 201
Telephone Contact: Mary Ann Boles 801-626-7307

Academic Advisors: Karen Hicks, Alex Muller, Christine Moua
Telephone: 801-626-6534
Location: Wattis Building, Room 211

Director of Career Services: Brett Merrell 801-626-7914
Location: Wattis Building, Room 213

Department Chairs/Directors

Accounting and Taxation: Dr. James Hansen, 801-626-6433
Business Administration & Marketing: Dr. Jennifer Anderson, 801-621-7358
Supply Chain & Management Information Systems: Dr. Seokwoo Song, 801-626-6462
Economics: Dr. Brandon Koford, 801-626-6013

Graduate Program Directors

MAcc/MTax Programs: Dr. Ryan Pace, 801-626-7562
MBA Program: Dr. François Giraud-Carrier, 217-553-1892

Goddard Business Centers Directors

Jerry & Vickie Moyes Center for Supply Chain Excellence: Nancy Tomon, 801-626-6462
John B. Goddard School of Business & Economics

Mission

The John B. Goddard School of Business & Economics provides quality undergraduate and graduate education for developing professionals and career-oriented students. Degree programs are grounded in the university's liberal arts tradition and focused on synthesis of theory across disciplines, the application of theory to practice and the enhancement of professional skills. While we are primarily a regional institution, we seek to prepare our students to succeed in the global economy.

Three principles are central to our mission:

**Learning**
We champion continuous learning through excellent teaching, close student-faculty interaction, small class sizes, assurance of learning processes, and faculty scholarship designed to improve effective teaching.

**Research**
Our portfolio of faculty intellectual contributions is diverse including application of theory to practice, advancement within and across disciplines, and utilization of research outcomes to further learning.

**Community**
We enhance our community through the dissemination of best practices, the provision of economic information and analysis, the engagement in professional organizations and societies, and the creation of strategic relationships which expand life-long learning opportunities for our stakeholders.

Vision

We will be a leader among our peer institutions in providing undergraduate and masters level business and economics education. Through the educational experiences we create, our students will be able to transform themselves into leaders who grow their communities and positively impact the world. We will be known for our scholarship, our commitment to the communities we serve, and our ability to prepare capable graduates.

Graduation Requirements

1. **GPA Requirement:** Candidates for Goddard School minors, associate degrees, and bachelor of science degrees must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business or Economics Foundations GPA, Goddard School (major) GPA, and the overall university GPA must be 2.5 or higher.

2. **Residency Requirement:** Any student wishing to attain a certificate, minor, associate's degree, or bachelor's degree from the Goddard School must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Any student pursuing a graduate degree from the Goddard School may apply a maximum of 6 credit hours of graduate credit taken at other AACSB International accredited institutions and completed with a grade of B- or better to the Goddard School's graduate degree requirements. Furthermore, the transferred credit must be approved prior to beginning the program of study. All candidates for degrees must be registered at WSU at least one semester following the last commencement prior to graduation.

Admissions

Students intending to pursue a Bachelor of Science, Associate of Science, or minors in Accounting or Economics from the John B. Goddard School of Business & Economics must be formally admitted.
Criteria for admittance to the Goddard School:

- Formal admission to Weber State University (WSU)
- Successful completion of ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 (or their equivalent) with a "C" grade or higher
- Successful completion ("C"- grade or higher) of Business or Economics Foundations with a 2.5 or higher cumulative GPA for the seven or three foundations courses
- Successful completion of admissions course: BSAD 2899 or ECON 2899 (for non-business Economics majors only)
- Overall cumulative GPA of 2.5 or higher
- Declaration of business major, minor, emphasis or certificate

Process for admittance to the Goddard School:

1. Register for BSAD 2899 or ECON 2899 (for non-business Economics majors only) concurrent with (same semester as) or after final required Business or Economics Foundations Course. Course objectives are:
   1. Complete assignments found in Canvas.
   2. Complete online application which includes:
      - Goddard School application student information
      - Accepting to abide by the Goddard School Honor Code

   A grade of CR (credit) for 2899 equates to being admitted to the Goddard School.

   Transcripts need not be submitted unless the student is notified by the Goddard School.

2. Await Notification Email from Goddard School

Advisement

John B. Goddard School of Business & Economics majors are strongly encouraged to pursue advising opportunities in the Goddard School. Receiving timely advisement at critical junctures in an academic program will assist students in choosing the appropriate classes, in the appropriate sequence, and in preparing for employment opportunities. Advising for:

- transfer credits, general education, business foundation courses, admission into the Goddard School, major selection, major requirements, minors, second degrees, and certificates is provided by the Goddard School's Advising Team: Alex Muller, WB 211 A, Christine Moua, WB 211B, and Karen Hicks, WB 211C. (801) 626-6534 or advisebusiness@weber.edu.

- major declaration is provided by the Goddard School Advising Center online at https://weber.edu/goddard/Declare.html.

- major selection, employment preparation, including internships and resumes, and business etiquette is provided by the Goddard School Career Center, Brett Merrell, WB 213, (801) 626-7914.

Credit Policy

1. Obsolete Credit: John B. Goddard School of Business & Economics credits and certain MATH courses (MATH 1050, 1080, 1090, or 1210) earned more than ten (10) years earlier than the proposed date of graduation will not be accepted toward University or major requirements unless validated through a challenge examination or approved by the appropriate academic department chair.

2. Waiver Requests: Any exceptions to the printed Goddard School graduation requirements must be approved by the appropriate academic department chair prior to waiving, substituting, or taking the course(s) in question.

Transfer Credit Policy

1. Transfer students should submit transcripts from all institutions of higher education to the Weber State University Admissions office. Student Recruitment at (801) 626-6050 will consult with Admissions to determine which general education credits will be accepted by Weber State. Most courses with a grade of "C-" or higher are eligible for credit. However, some courses, such as the General Education MATH and ENGL Core requirements, may require a higher grade.

2. Students should establish transfer of general education work prior to meeting with the John B. Goddard School of Business & Economics Advisement Center. The Advising Center will consult with Goddard
School academic departments to determine credit toward specific Goddard School requirements and address further transfer issues.

3. The Utah System of Higher Education (USHE) Transfer Credit Guide has been established to indicate articulation of equivalent courses between the in-state public colleges and universities. Credits from business courses transferred from institutions not covered by the USHE Transfer Credit Guide are accepted only if approved by the appropriate Goddard School academic departments. Documentation which allows the Advising Center and department chairs to assess the content of courses taken may be required. This documentation may include: catalogs or bulletins; course outlines or syllabi; and transcripts. In the majority of cases, course credit which is not obsolete (see above) taken at institutions accredited by AACSB International will be accepted and applied to the Goddard School's graduation requirements.

4. The Goddard School may require validation for courses taken at other institutions before credit is applied to Goddard School requirements. This validation may consist of either: passing a challenge exam; or completing the next course in a related sequence with a grade of “C” or better. Validation may be required where upper division credit is sought for lower division course work taken at another institution.

5. Students are reminded that the Weber State catalog states, "Acceptance of credit should not be confused with its application. Transfer credit may or may not apply to Weber State's graduation requirements, regardless of the number of credits transferred. Credit other than that intended wholly to meet general education requirements, will be applied to Weber State's specific degree program requirements upon the recommendation of the appropriate department chair." This means credit that is accepted by Weber State may, or may not, apply to specific requirements within the Goddard School.

6. Students transferring credits from institutions outside the U.S. should follow the guidelines for International Students. Transfer credits should appear on the student's WSU transcript before meeting with the Goddard School Advising Center or major department chair.

Jerry & Vickie Moyes Center for Supply Chain Excellence

The Jerry & Vickie Moyes Center for Supply Chain Excellence provides outstanding educational and professional development opportunities for the Weber State Community. For instance, the Center sponsors a broad range of experiential learning activities including case competitions, international study abroad tours, field consulting studies, and mentored-student-led research. The Center also works closely with the business community to advance supply chain thinking and practice, offering development seminars on the "Whole-Brain Supply Chain". Finally, the Center funds research in the areas of supply chain collaboration, process improvement, risk, and sustainability. The Center is located in room 205 of the E.O. Wattis Business Building.

Center for Tax Education & Research

The primary mission of the Center for Tax Education & Research is to provide high quality tax education to WSU students, interested members of the community and business professionals. The Center also actively supports tax research efforts by tax faculty, works with employers to supply jobs to Master of Taxation graduates, fosters relationships with alumni, and supports student recruiting efforts. Additionally, the Center offers continuing education programs to tax professionals and engages in other tax-related activities such as providing tax return preparation assistance to qualifying members of the public at no cost through the Volunteer Income Tax Assistance (VITA) program, hosting student tax competitions, and organizing seminars to discuss contemporary issues in taxation.

Center for Leadership in Corporate Social Responsibility

The Center for Leadership in Corporate Social Responsibility is an action-research center within John B. Goddard School of Business & Economics. We work closely with academia, business, partner organizations, and students to understand and promote socially responsible decision-making and research across the 3Ps (People, Planet, Profit). The Center will inspire students and leaders to engage fully with all of the dimensions of socially responsible decision-making in the workplace.
Hall Global Entrepreneurship Center

The Hall Global Entrepreneurship Center offers a wide-range of opportunities to motivate, inspire, and provide unique resources to help students achieve their dream of starting a business, or increase their creativity and develop an entrepreneurial mindset, which is highly sought after by today's employers. Entrepreneurship students can qualify for up to $15,000 in seed funding to help launch a new business. Each year, our center also offers several full-tuition scholarships and nearly $40,000 in prize money from our various business competitions. Students can also attend our lecture series each semester and learn first-hand about the unique challenges and successes from inspirational, local entrepreneurs.

Bill Child Start-Up Center

The Bill Child Start-Up Center provides entrepreneurship students with a comfortable, collaborative space in which to work on their fledgling businesses. The Center also hosts activities for student clubs, such as the Weber Entrepreneurs Association (WEA), and the Young Subaru Entrepreneurship Lecture Series. Each week, Entrepreneurs-in-Residence hold office hours so that students can talk about their start-ups with entrepreneurs, angel investors, venture capitalists, startup lawyers and other key professionals. The Center is located in room 203 of the E.O. Wattis Building.

International Programs

The John B. Goddard School of Business & Economics offers a number of curricular programs and study opportunities designed to enhance the global expertise of our students.

- The Goddard School annually offers faculty-led study abroad programs to countries all over the world. Typical programs are 10 to 14 days in duration.
- The Goddard School is a member of the Transatlantic Business School Alliance (TABSA), an alliance that unites four European and four U.S. business schools to enable students to have cultural and educational experiences across geographic boundaries. Students may study in a two-to-four-week summer program, in a semester or year-long exchange, or in a double-degree two-year program in which students earn a degree in Business Administration from Weber State University, and a second bachelor's degree from the foreign partner university in international business. The European partners are: KEDGE Business School (Marseille, France); Bremen University of Applied Sciences (Bremen, Germany); University of Hertfordshire (Hatfield, England); and University of Valencia (Valencia, Spain). With respect to tuition, Goddard students attend foreign partner universities as pure exchange students. This means that they pay normal Weber State tuition and fees without any additional tuition charge at the partner institution.
- In addition to TABSA partners, the Goddard School has signed cooperative agreements that allow for student exchanges with universities in the following countries: Austria (IMC University of Applied Science Krems, University of Applied Sciences Upper Austria in Steyr); Argentina (Austral University); Belgium (Université Catholique de Louvain); China (Shanghai Normal University); Germany (Hof University of Applied Sciences); Japan (Konan University); South Korea (University of Seoul, Incheon National University, Sookmyung Women's University, Sangmyung University, Kyungpook National University); Poland (University of Warsaw); Spain (University of Alicante). As with TABSA partners, Goddard School students pay normal Weber State tuition without any additional tuition charge.
- The Goddard School offers an International Certificate which may be awarded with a baccalaureate degree offered by the School. This program description can be found under Institutional Certificate in the Degrees and/or Major Minor list.
Department of Business Administration and Marketing

Department Chair: Jennifer Anderson  
Location: Wattis Business Building, Room 216  
Telephone Contact: Amy Holmes, 801-626-6075  
Professors: Anthony Allred, Clinton Amos, Shaun Hansen, Michael J. Stevens; Associate Professors: Jennifer Anderson, Jesse King, David Noack, David Read, Bryant Thompson; Assistant Professors: Wendy Fox Kirk, Skyler King; Instructors: Brandon Stoddard, Matthew Thue

Business Administration

The Business Administration (BSBA) degree is a general management degree. This major has been described as an undergraduate MBA because of its emphasis on breadth of education across all of the functional areas of business. This degree would be especially appropriate for students who wish to prepare for a generalist career in management rather than a focused career in a specialized area of business such as finance or marketing. It is also a very appropriate degree for the entrepreneurial students who aspire to start or run their own business one day.

Business Administration Human Resource Management (HRM) Emphasis

The student who concentrates in Human Resource Management prepares to apply the knowledge and skills needed to design, manage and deliver key organizational HRM functions. Through this, the HRM professional aids the effective alignment of people management objectives with organizational strategy for the purpose of increasing organizational efficiency and effectiveness. In addition to the John B. Goddard School of Business & Economics core requirements, the HRM student studies organizational behavior, leadership and teamwork skills, continuous improvement, effective communication, and information technology. HRM students will also take specialized courses in employment and labor law, employee training & development, recruitment & hiring decisions, and compensation & benefits.

Marketing

This is the only marketing program on WSU’s campus. Students concentrating in marketing specialize in course work that deals with business activities involved in developing, communicating, delivering, and exchanging value for all stakeholders.  
Courses provide students with traditional and digital marketing concepts and experience in applying them. These courses prepare students to assume responsible positions in industry. Those desiring careers in marketing research or higher levels of corporate management are well prepared to enter graduate programs of their choice.
Bachelor of Science

Business Administration (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, Goddard School (major) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** https://weber.edu/goddard/Business_Administration.html
- **Program Code:** 4011BS
- **CIPC:** 520201

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Business Administration major will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Graduates will be able to demonstrate proficient communication skills.
- Graduates will exhibit knowledge of theoretical concepts, ideas, and topics taught in the areas of Business Administration & Management, Human Resource Management, Information Systems and Technology, Marketing, Finance, and Supply Chain Management.
- Graduates will become proficient in interpersonal/human relation skills while acquiring the ability to effectively work in a team environment.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum
The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

- Complete one of the following English courses:
  - ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
  - ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

- Complete one of the following Math courses:
  - MATH 1050 QL - College Algebra Credits: (4)
  - MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)
Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- **QUAN 3610 - Business Statistics II** Credits: (3)
- **BSAD 3200 - Legal Environment of Business** Credits: (3)
- **BSAD 3330 - Business Ethics & Environmental Responsibility** Credits: (3)
- **FIN 3200 - Financial Management** Credits: (3)
- **MGMT 3010 - Organizational Behavior and Management** Credits: (3)
- **SCM 3050 - Operations and Supply Chain Management** Credits: (3)
- **MKTG 3010 - Marketing Concepts and Practices** Credits: (3)
- **MIS 2020 - Introduction to Information Systems** Credits: (3)
- **BSAD 4780 - Strategic Management** Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.*

One of the following Communication courses:

- **MGMT 3200 - Managerial Communications** Credits: (3)
- **PS 3250 - Business Communication** Credits: (3)
- **SCM 4500 - Supply Chain Relational Skills** Credits: (3)
- **ENGL 3100 - Professional and Technical Writing** Credits: (3)
- **ENGL 3530 - The Literature of Business and Economics** Credits: (3)
- **ECON 4970 - Introduction to Research Methods** Credits: (1) and **ECON 4980 CRE - Research Methods** Credits: (3)

One of the following International courses:

- **ACTG 4140 - Accounting for Global and Complex Entities** Credits: (3)
- **ECON 3110 - International Trade** Credits: (3)
- **ECON 3120 - International Finance and Monetary Systems** Credits: (3)
- **ECON 4170 - Economic Development** Credits: (3)
- **MIS 3710 - Global Issues in Information Technology** Credits: (3)
- **MGMT 3400 - International Business** Credits: (3)
- **MKTG 3600 - International Marketing** Credits: (3)
- **SCM 4400 - Global Supply Chain Management** Credits: (3)

5. Major Course Requirements for BS Degree (27 credit hours)
Major Courses Required (12 credit hours)

- MGMT 3300 - Human Resource Management Credits: (3)
- MGMT 4300 - Leadership and Group Effectiveness Credits: (3)
- MGMT 4400 - Advanced Organizational Behavior Credits: (3)
- MIS 2030 - Introduction to Business Analytics Credits: (3)

Major Electives (9 credit hours)

One Marketing course

- MKTG 3100 - Consumer Behavior Credits: (3)
- MKTG 3200 - Selling and Sales Management Credits: (3)
- MKTG 3450 - Services and Sports Marketing Credits: (3)
- MKTG 3500 - Services and Sports Marketing Credits: (3)
- MKTG 4400 - Marketing Strategy Credits: (3)
- MKTG 3600 - International Marketing Credits: (3) (if not used above as International course)
- MKTG 4200 - Digital Marketing Credits: (3)
- BSAD 3500 - Introduction to Business Research Credits: (3)

One Supply Chain Management Course

- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics Credits: (3)
- SCM 4100 - Quality Management and Process Improvement Credits: (3)

One other course from Accounting/Economics/Finance

- FIN 3350 - Financial Institutions Credits: (3)
- FIN 3500 - Capital Budgeting Credits: (3)
- FIN 4400 - Financial Problems - Corporate Finance Credits: (3)
- ECON 3400 - Labor Economics Credits: (3)
- ECON 3200 - Money and Banking Credits: (3)
- ACTG 3750 - Accounting & Information Systems Credits: (3)

Two General Electives (6 credit hours) from list of approved courses

- MGMT 3350 - Employment and Labor Law Credits: (3)
- MGMT 3400 - International Business Credits: (3) (if not used above as International course)
- MGMT 3450 - Business Studies Abroad-International Management Credits: (3) (if not used above as International course)
- MGMT 3550 - The Cultural Environment of International Business Credits: (3) (if not used above as International course)
- MGMT 4310 - Compensation and Benefits Credits: (3)
- MGMT 4320 - Staffing Organizations Credits: (3)
- MGMT 4350 - Training Credits: (3)
- MGMT 4860 - Management Internship Credits: (3)
- MGMT 4865 INT - Human Resource Internship Credits: (3)
- MGMT 4650 - Negotiations Credits: (3)
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics Credits: (3) (if not used above as Supply Chain Management course)
• SCM 4100 - Quality Management and Process Improvement Credits: (3) (if not used above as Supply Chain Management course)
• BSAD 3500 - Introduction to Business Research Credits: (3) (if not used above as Marketing course)
• BSAD 3600 - [World Region] Business and Society Credits: (3) (if not used above as International course)
• BSAD 4210 - Survey of Business Law Credits: (3)
• BSAD 4500 - Entrepreneurship Credits: (3)
Business Administration (BS), Human Resource Management Emphasis

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as “Business Foundations.” (Refer to John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (major) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

- **CIPC:** 521001

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section in this catalog.

General Education

Refer to the University Degree Requirements for Bachelor of Science requirements. The following courses required for the Business Administration, Human Resource Management emphasis major (BS) will also satisfy general education requirements: ENGL 2010 EN2 or ENGL 2015 (English Composition); MATH 1050 QL or MATH 1090 (Quantitative Literacy); ECON 2010 SS or ECON 2020 SS (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Graduates will be able to demonstrate proficient communication skills.
- Graduates will exhibit knowledge of theoretical concepts, ideas, and topics taught in the areas of Business Administration & Management, Human Resource Management, Information Systems and Technology, Marketing, Finance, and Supply Chain Management.
- Graduates will become proficient in interpersonal/human relation skills while acquiring the ability to effectively work in a team environment.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern
which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:

- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

Complete one of the following Math courses:

- MATH 1050 QL - College Algebra Credits: (4)
- MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0)
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)

Admission and Major Declaration
Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
  ECON 4980 CRE - Research Methods Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
  ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

5. Major Course Requirements for BS Degree (27 credit hours)

Major Courses Required (12 credit hours)
• MGMT 3300 - Human Resource Management Credits: (3)
• MGMT 4300 - Leadership and Group Effectiveness Credits: (3)
• MGMT 4400 - Advanced Organizational Behavior Credits: (3)
• MIS 2030 - Introduction to Business Analytics Credits: (3)

Major Required for Emphasis (12 credit hours)

• MGMT 4310 - Compensation and Benefits Credits: (3)
• MGMT 4350 - Training Credits: (3)
• MGMT 3350 - Employment and Labor Law Credits: (3)
• MGMT 4320 - Staffing Organizations Credits: (3)

One General Elective (3 credit hours) from list of approved courses

• MGMT 3400 - International Business Credits: (3) (if not used above as International course)
• MGMT 3450 - Business Studies Abroad-International Management Credits: (3) (if not used above as International course)
• MGMT 3550 - The Cultural Environment of International Business Credits: (3) (if not used above as International course)

• MGMT 4860 - Management Internship Credits: (3) OR
• MGMT 4865 INT - Human Resource Internship Credits: (3)

• MGMT 4650 - Negotiations Credits: (3)
• SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics Credits: (3)
• SCM 4100 - Quality Management and Process Improvement Credits: (3)
• BSAD 3500 - Introduction to Business Research Credits: (3)
• BSAD 3600 - [World Region] Business and Society Credits: (3) (if not used above as International course)
• BSAD 4210 - Survey of Business Law Credits: (3)
• BSAD 4500 - Entrepreneurship Credits: (3)
Marketing (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, Goddard School (major) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** https://weber.edu/goddard/Marketing.html
- **Program Code:** 4044BS
- **CIPC:** 521401

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Marketing major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Understand the contribution of marketing to the business enterprise
- Identify a marketing problem and key influences on that problem, to use appropriate qualitative and quantitative analysis and market research techniques to evaluate the marketing problem, and to evaluate alternative solutions
- Use marketing terminology correctly
- Understand how elements of the marketing mix are influenced by problem/opportunity
- Describe major bases for segmenting consumer and business markets; define and be able to apply the three steps of target marketing: market segmentation, target marketing, and market positioning; understand how different situations in the competitive environment will affect choices in target marketing
- Illustrate how the international trade system, economic, political-legal, and cultural environments in a foreign country affect a company's international marketing decisions
- Identify the major ethical and social concerns associated with marketing

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum
The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

   Complete one of the following English courses:
   - ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
   - ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

   Complete one of the following Math courses:
   - MATH 1050 QL - College Algebra Credits: (4)
   - MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

   - ACTG 2010 - Survey of Accounting I Credits: (3)
   - ACTG 2020 - Survey of Accounting II Credits: (3)
   - BSAD 4620 - Executive Lectures Credits: (1)
   - ECON 2010 SS - Principles of Microeconomics Credits: (3)
   - ECON 2020 SS - Principles of Macroeconomics Credits: (3)
   - QUAN 2600 - Business Statistics I Credits: (3)
   - MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

   - BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or
   - ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)
Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
- ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

5. Major Course Requirements for BS Degree (27 credit hours)
Major Courses Required (18 credit hours)

- MKTG 3100 - Consumer Behavior Credits: (3)
- MKTG 3200 - Selling and Sales Management Credits: (3)
- BSAD 3500 - Introduction to Business Research Credits: (3)
- MKTG 3450 - Promotion Management Credits: (3)
- MKTG 4400 - Marketing Strategy Credits: (3)
- MIS 2030 - Introduction to Business Analytics Credits: (3)

Elective Courses (9 credit hours)

Select two courses from Group 1 plus one additional course from either Group 1 or Group 2.

Group 1

- MKTG 3500 - Services and Sports Marketing Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- MKTG 4200 - Digital Marketing Credits: (3)
- MKTG 4860 INT - Marketing Internship Credits: (3)

Group 2

- MGMT 4300 - Leadership and Group Effectiveness Credits: (3)
- SCM 4100 - Quality Management and Process Improvement Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)
- MGMT 4650 - Negotiations Credits: (3)
- BSAD 4210 - Survey of Business Law Credits: (3)
- COMM 3850 - Advertising Credits: (3)
Emphasis Option for Bachelor of Integrated Studies

Entrepreneurship (BIS)

- **Grade Requirements:** All classes must be passed with a C- or higher.
- **Credit Hour Requirements:** A total of 18 credit hours are required for all registered students.
- **Program Code:** 4038
- **CIPC:** 520701

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business is required.

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

Required Courses for Entrepreneurship (15):

Students must choose a minimum of 15 credit hours from any of the following courses:

- ENTR 1002 - Startup Innovation Credits: (3)
- ENTR 2002 - Marketing Strategy for Small Business Credits: (1)
- ENTR 2003 - Marketing Execution for Small Business Credits: (1)
- ENTR 2004 - Branding for Small Business Credits: (1)
- ENTR 2005 - Product to Market Credits: (1)
- ENTR 2006 - E-Commerce for Small Business Credits: (1)
- ENTR 2007 - Product Design & Prototyping for Small Business Credits: (1)
- ENTR 2008 - Legal Foundations for Small Business Credits: (1)
- ENTR 2009 - Money Management for Small Business Credits: (1)
- ENTR 2010 - Funding For Small Business Credits: (1)
- ENTR 2011 - Results-Focused Leadership Credits: (1)
- ENTR 2012 - People Management for Small Business Credits: (1)
- ENTR 3002 - Scale & Exit Credits: (3)
- ENTR 4680 - Small Business Diagnostics Credits: (3)

Minor

Business Administration for Non-Business Majors Minor/BIS

- **Grade Requirements:** A minimum GPA of 2.5 with no grade lower than a 'C-' in all courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 19 credit hours in approved courses. See the John B. Goddard School of Business & Economics advisor for requirements.
- **Program Code:** 4011
- **CIPC:** 520201

Students pursuing this business administration minor must major in a nonbusiness field.

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

Courses Requirements for Minor

Required Courses (19 credit hours)

- BSAD 1010 - Introduction to Business Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)
Students choose two from the following (6):

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3) or
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
  Students choose either BSAD 3200 or BSAD 3330

Students choose three of the following (9):

- MIS 2020 - Introduction to Information Systems Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)

Note:

All course prerequisites must also be completed.
Entrepreneurship Minor

- **Grade Requirements**: All classes must be passed with a C- or higher.
- **Credit Hour Requirements**: A total of 15 credit hours are required for all registered students.
- **Program Code**: 4038
- **CIPC**: 520701

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business is required.

*See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.*

**Required Courses for Entrepreneurship (15):**

Students must choose a minimum of 15 credit hours from any of the following courses:

- ENTR 1002 - Startup Innovation Credits: (3)
- ENTR 2002 - Marketing Strategy for Small Business Credits: (1)
- ENTR 2003 - Marketing Execution for Small Business Credits: (1)
- ENTR 2004 - Branding for Small Business Credits: (1)
- ENTR 2005 - Product to Market Credits: (1)
- ENTR 2006 - E-Commerce for Small Business Credits: (1)
- ENTR 2007 - Product Design & Prototyping for Small Business Credits: (1)
- ENTR 2008 - Legal Foundations for Small Business Credits: (1)
- ENTR 2009 - Money Management for Small Business Credits: (1)
- ENTR 2010 - Funding For Small Business Credits: (1)
- ENTR 2011 - Results-Focused Leadership Credits: (1)
- ENTR 2012 - People Management for Small Business Credits: (1)
- ENTR 3002 - Scale & Exit Credits: (3)
- ENTR 4680 - Small Business Diagnostics Credits: (3)
Leadership Minor/BIS

- **Grade Requirements:** All classes must be passed with a C- or higher.
- **Credit Hour Requirements:** A total of 18 credit hours are required for all registered students.
- **Program Code:** 4043
- **CIPC:** 521003

Required Courses for all Business Administration Majors (18):

Core Courses (12):

- MGMT 4300 - Leadership and Group Effectiveness **Credits:** (3)
- MGMT 4400 - Advanced Organizational Behavior **Credits:** (3)
- MGMT 4410 - Leadership Through Character **Credits:** (3)
- MGMT 4420 - Critical Thinking for Leaders **Credits:** (3)

Elective Courses (6):

- Students select two leadership-related courses university wide. Approval of elective courses by the Business Administration department is required. Students are responsible for understanding any pre-requisites or conditions for chosen electives.

Required Courses for all Non-Business Administration Majors (18):

Pre-requisite (3):

- COMM 3550 - Organizational Communication **Credits:** (3) or
- HAS 3260 - Healthcare Leadership and Management **Credits:** (3) or
- MGMT 3010 - Organizational Behavior and Management **Credits:** (3)

Core Courses (12):

- MGMT 4300 - Leadership and Group Effectiveness **Credits:** (3)
- MGMT 4400 - Advanced Organizational Behavior **Credits:** (3)
- MGMT 4410 - Leadership Through Character **Credits:** (3)
- MGMT 4420 - Critical Thinking for Leaders **Credits:** (3)

Elective Courses (3):

- Students select one leadership-related course university wide. Approval of elective courses by the Business Administration department is required. Students are responsible for understanding any pre-requisites or conditions for chosen electives.

Note:

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business is required. Approval of elective courses by the Business Administration department is required.

Examples of pre-approved elective courses include:
- **Business Administration**: Human Resource Management (MGMT 3300); Business Ethics & Environmental Responsibility (BSAD 3330); Management Internship (MGMT 4860); Human Resource Internship (MGMT 4865)

- **Child and Family Studies**: Early Childhood Coaching (ECED 4201, 4202, 4203)

- **Communication**: Interpersonal Communication and Conflict Management (COMM 3050), Listening and Interviewing (COMM 3060), Small Group Facilitation and Leadership (COMM 3100), Advanced Public Speaking (COMM 3120), Organizational Communication (COMM 3550)

- **Criminal Justice**: Criminal Justice Management (CJ 3020)

- **Health Administrative Services**: Health Care Administrative and Supervisory Theory (HAS 3260)

- **Honors**: Great Ideas of the West (HNRS 2110, 2120); Great Ideas of the East (HNRS 2130)

- **Military Science**: Introduction to the Army and Critical Thinking (MILS 1010); Introduction to the Profession of Arm (MILS 1020); Leadership and Decision Making (MILS 2010); Army Doctrine and Team Development (MILS 2020); Leadership Under Fire (MILS 2600)

- **Political Science and Philosophy**: Leadership and the Political Life (POLS 1520); Lobbying: Theory and Practice (POLS 3780); American Presidency (POLS 4640); Classical Political Thought (POLS 4360)

- **Professional Sales**: Developing Team Leadership Skills (PS 3702); Sales Presentation Strategies (PS 3903)

- **Psychology**: Theories of Personality (PSY 3430); Social Psychology (PSY 3460); Psychology of Human Relationships (PSY 2000)

- **Sociology**: Self & Society (SOC 3000); Organizations in Society (SOC 3550); Sociology of Globalization (SOC 4410); Sociology of Work (SOC 4550)

Courses not appearing on the list of pre-approved courses may also be considered as electives pending approval by the Business Administration Department.

*See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.*
MBA Prerequisite Minor/BIS

**Grade Requirements:** Candidates for this minor must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (minor) GPA, and the overall university GPA must be 2.5 or higher.

**Credit Hour Requirements:** A total of 25 credit hours is required. Of the 25 hours, 21 hours are required classes and the remaining class of 4 hours is a support course.

- **Program Code:** 4047
- **CIPC:** 520101

Completion of this minor will satisfy the Prerequisite Courses required for Weber State's MBA program. This program will prepare undergraduate students to move directly into an MBA program; at WSU, this will allow students to enter the 39 credit Fast Track program in the Goddard School MBA degree. Note also that neither this minor nor any of the courses within it, guarantee any student admission to WSU's MBA program, or any other MBA program.

All math and Goddard School courses expire after 10 years from the date of completion.

For advising, please contact the Goddard School Advising Center at 801-626-6534 or email advisebusiness@weber.edu

**Course Requirements for MBA Prerequisite Minor**

**Courses Required (21 credit hours)**

- BSAD 3200 - Legal Environment of Business **Credits:** (3)
- ACTG 2010 - Survey of Accounting I **Credits:** (3) *
- ACTG 2020 - Survey of Accounting II **Credits:** (3) *
- ECON 2010 SS - Principles of Microeconomics **Credits:** (3) *
- ECON 2020 SS - Principles of Macroeconomics **Credits:** (3) *
- QUAN 2600 - Business Statistics I **Credits:** (3) *
- QUAN 3610 - Business Statistics II **Credits:** (3)

**Support Courses Required (4 credit hours)**

- MATH 1050 QL - College Algebra **Credits:** (4) OR
- MATH 1090 QL - Business College Algebra **Credits:** (3)

**Note:**

*MATH 1050 or MATH 1090 can also be completed with a MATH ACT of 26 or higher, ALEKS score of 65-100, Math Accuplacer score of 70 or higher in College Level Math, or a score of 3 or higher on the MATH: Calc AB or BC AP exams.*
Department of Economics

Department Chair: Brandon Koford  
Location: Wattis Business Building, Room 226  
Telephone Contact: Alexa Jones, 801-626-6066  
Professors: Doris Geide-Stevenson, Therese Grijalva, Brandon Koford, John Mbaku, Jeff Steagall; Associate Professors: Nazneen Ahmad, Matthew Gnagey, Andrew Keinsley, Alvaro La Para-Pérez, Sandeep Rangaraju; Assistant Professor: Gavin Roberts; Visiting Assistant Professor: Alexey Yukhov

The Department of Economics offers six different degree programs. The career field selected will determine the educational goals a student must set and will be an important element in deciding which of the many avenues towards a bachelor's degree available in economics is best suited for you. Economics provides general analysis of decision making where resource constraints are present. Within the area of business, the fields of economics and finance are perhaps the most rigorous in terms of the use and application of mathematical and statistical reasoning. Students with a bachelor's degree in Business Economics are generally prepared to start their careers in any area of business, but are particularly prepared for jobs that call for data analysis, pricing, purchasing, and report writing. Business economists are often employed in private business firms in the financial, retailing, and industrial sectors. A complete career guide is available from the department chairperson. A degree in Business Economics is also regarded by graduate business schools as excellent preparation for advanced work toward an MBA, as well as advanced degrees in other business related disciplines such as human resource management, public administration, finance, and international business. Students seeking an advanced degree in economics, law, other social and behavioral sciences, urban and regional planning, actuarial science, etc., should also investigate the Economics Major.

Center for Economic Education

The Department has established a Center for Economic Education. Its basic function is to help educators in secondary and elementary schools improve their understanding and knowledge of economics. This will assist them in providing their students with the fundamental economic tools needed to evaluate complex national and international events that are a part of their daily existence.
Associate of Science

Business and Economics (AS)

- **Program Description:** The Associate of Science (AS) degree in Business and Economics provides foundational skills and knowledge in accounting, economics, statistics, management information systems, as well as other functional business areas of the students' choice. This skill- and knowledge set will make students more effective business professionals as it introduces communication and analysis tools critical in a professional business environment.
- **Grade Requirements:** Even though a minimum grade of "C-" will be accepted in courses used to satisfy the associate's degree requirements, an overall GPA of 2.5 or higher is required.
- **Credit Hour Requirements:** A total of 60 credit hours is required; a minimum of 20 of these is required in residence (for transfer students).
- **Program Code:** 4041AS
- **CIPC:** 520601

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for all business majors, minors, emphases and certificates. To be admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534.

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the Business and Economics associates will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Be numerically literate.
- Be able to use the concepts of supply and demand to analyze current economic issues.
- Be able to use the aggregate demand/aggregate supply framework.
- Understand the professional role played by accountants in society
- Effectively utilize the accounting cycle

Major Course Requirements for AS Degree

Courses Required (26 credit hours)

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 2899 - Business Foundations and Admissions Process Credits: (0)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- QUAN 2400 - Business Calculus Credits: (3) or
- MIS 2030 - Introduction to Business Analytics Credits: (3)
- Elective Credits (3)
Institutional Certificate

International Business & Economics Certificate of Proficiency

- Program Code: 4024CP
- CIPC: 520601

A student graduating with a Bachelor's Degree in Business or Economics may apply for a certificate of competency in International Business & Economics provided he or she has fulfilled the following criteria:

Program Learning Outcomes

- Recognize and Anticipate how sociocultural differences shape institutions and business decisions
- Recognize and Anticipate how political / economic forces shape institutions and Business Decisions
- Identify the Benefits and Costs of a global economy

Course Requirements for Institutional Certificate of Proficiency

Completion of a program of study approved by the International Program Advisor. This will entail a minimum of 12 credit hours of course work at a GPA of at least 2.5 from the following list of courses:

- ACTG 4801 - Individual Study Credits: (1-3)
- ACTG 4802 - Individual Study Credits: (1-3)
- ACTG 4803 - Individual Study Credits: (1-3)
- ACTG 4810 - Experimental Course Credits: (1-6)
- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- BSAD 3600 - [World Region] Business and Society Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- ECON 4800 - Independent Research Credits: (1-3)
- ECON 4810 - Experimental Course Credits: (1-6)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MIS 4801 - Individual Projects Credits: (1)
- MIS 4802 - Individual Projects Credits: (2)
- MIS 4803 - Individual Projects Credits: (3)
- MIS 4810 - Experimental Course Credits: (1-6)
- MGMT 3400 - International Business Credits: (3)
- MGMT 3550 - The Cultural Environment of International Business Credits: (3)
- MGMT 4800 - Independent Research Credits: (1-3)
- MGMT 4810 - Experimental Course Credits: (1-6)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)
International Business & Economics Certificate of Proficiency
Language Emphasis

A student graduating with a Bachelor's Degree in Business or Economics may apply for a certificate of proficiency in International Business & Economics (Language Emphasis) provided he or she has fulfilled the following criteria:

1. Satisfaction of the requirements for the Certificate in International Business (see International Business & Economics Certificate of Proficiency).
2. Testing at the "Intermediate High" level, or better, on the ACTFL (American Council on Teaching of Foreign Languages) exam, or the departmental language proficiency test, in the chosen language.
3. Completion of the appropriate language for business sequence (2 courses). If the chosen language has only one language for business course, completion of a substitute course approved by the Department of Foreign Languages.
4. Completion of CHNS 3550, FRCH 3550, GRMN 3550, JPNS 3550, PTGS 3550, or SPAN 3550.

- Program Code: 4025CP
- CIPC: 520601
Bachelor of Science

Economics (BS)

- **Program Prerequisite:** Not required.
- **Minor:** A minor taken from the College of Behavioral and Social Sciences, or other minor program approved in advance by the department chairperson is required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C-" or higher. In addition, the cumulative Foundations GPA (ECON 2010, ECON 2020, QUAN 2600), major GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** https://weber.edu/goddard/Economics.html
- **Program Code:** 4022BS
- **CIPC:** 450601

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Economics majors will be numerically literate, and possess strong written and oral communication skills.
- All Economics majors should be able to use statistical methods for problem solving (e.g., hypothesis testing, regression analysis).
- All Economics majors should be able to use the concepts of supply and demand to analyze current economic issues.
- All Economics majors should be able to use the aggregate demand/aggregate supply framework.
- All Economics majors should be able to identify the benefits and costs of a global economy.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. Non business Economics degree programs within the Goddard School follow the
same general pattern which is composed of four required elements: (1) Liberal Support Curriculum, (2) Economics Foundations Curriculum, (3) Admission and Major Declaration, and (4) Major Discipline.

1. Liberal Support Curriculum (7-8 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

- ECON 2010 SS - Principles of Microeconomics (3)
- MATH 1050 QL - College Algebra (4) or MATH 1090 QL - Business College Algebra (3)
- ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.
- MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

NOTE: Students looking at Quantitative Economics should take MATH 1050 *NOT* MATH 1090 as MATH 1090 does not meet the prerequisite requirement for MATH 1210 Calculus I.

2. Economics Foundations Curriculum (9 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the major course work required. Refer to department degree maps for assistance in course sequencing. The Economics Foundations Curriculum provides the base for all economic degree programs and should be completed early in the student's academic studies. To satisfy the Economics Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the three Economics Foundation courses.

- ECON 2010 SS - Principles of Microeconomics (3)
- ECON 2020 ECON 2020 SS - Principles of Macroeconomics (3)
- QUAN 2600 - Business Statistics I (3)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process (0) or
- ECON 2899 - Economics Foundations and Admissions Process (0) *(for non-business Economics majors only)*

4. Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

**Major Course Requirements for Economics BS Degree (31 credit hours)**

**Major Courses Required (16 credit hours)**
• ECON 4010 - Intermediate Microeconomic Theory Credits: (3)
• ECON 4020 - Intermediate Macroeconomic Theory Credits: (3)
• ECON 4970 - Introduction to Research Methods Credits: (1)
• ECON 4980 CRE - Research Methods Credits: (3)
• QUAN 2400 - Business Calculus Credits: (3)
• QUAN 3610 - Business Statistics II Credits: (3)

Upper Division Elective Courses (15 credit hours)

Select from the following
• ECON 3090 - History of Economic Thought Credits: (3)
• ECON 3110 - International Trade Credits: (3)
• ECON 3120 - International Finance and Monetary Systems Credits: (3)
• ECON 3200 - Money and Banking Credits: (3)
• ECON 3400 - Labor Economics Credits: (3)
• ECON 3410 - Women in the World Economy Credits: (3)
• ECON 4170 - Economic Development Credits: (3)
• ECON 4320 - Industrial Organization Credits: (3)
• ECON 4520 - Public Finance Credits: (3)
• ECON 4550 - Introduction to Econometrics Credits: (3)
• ECON 4560 - Mathematical Economics Credits: (3)
• ECON 4800 - Independent Research Credits: (1-3)
• ECON 4810 - Experimental Course Credits: (1-6)
• ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)
• ECON 3300 - Environmental Economics Credits: (3)
• ECON 4330 - Game Theory Credits: (3)

Minor Required (credit hours vary by minor)

A minor taken from the College of Behavioral and Social Sciences, or other minor program approved in advance by the department chairperson is required.
Economics and Legal Studies (BS)

- **Program Prerequisite:** Not required.
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C-" or higher. In addition, the cumulative Foundations GPA (ECON 2010, ECON 2020, QUAN 2600), major GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

### 3. Major Course Requirements for BS Degree (58 credit hours)

#### Required Courses (31 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory **Credits:** (3)
- ECON 4020 - Intermediate Macroeconomic Theory **Credits:** (3)
- ECON 4970 - Introduction to Research Methods **Credits:** (1)
- ECON 4980 CRE - Research Methods **Credits:** (3)
- QUAN 2400 - Business Calculus **Credits:** (3)
- QUAN 3610 - Business Statistics II **Credits:** (3)
- ENGL 3210 - Advanced College Writing **Credits:** (3)
- PHIL 1250 HU - Critical Thinking **Credits:** (3) or
- PHIL 2200 - Deductive Logic **Credits:** (3)
- MGMT 3200 - Managerial Communications **Credits:** (3) or
- PS 3250 - Business Communication **Credits:** (3) or
- ENGL 3100 - Professional and Technical Writing **Credits:** (3)
Upper Division Economics Elective Courses (6 credit hours)

Select from the following:
- ECON 3090 - History of Economic Thought Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 3200 - Money and Banking Credits: (3)
- ECON 3400 - Labor Economics Credits: (3)
- ECON 3410 - Women in the World Economy Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- ECON 4320 - Industrial Organization Credits: (3)
- ECON 4520 - Public Finance Credits: (3)
- ECON 4550 - Introduction to Econometrics Credits: (3)
- ECON 4560 - Mathematical Economics Credits: (3)
- ECON 4800 - Independent Research Credits: (1-3)
- ECON 4810 - Experimental Course Credits: (1-6)
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)
- ECON 3300 - Environmental Economics Credits: (3)
- ECON 4330 - Game Theory Credits: (3)

Law Courses (6 credit hours)

Select from the following:
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 4210 - Survey of Business Law Credits: (3)
- FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
- CJ 1330 - Criminal Law and Courts Credits: (3)
- CJ 2350 - Laws of Evidence Credits: (3)
- COMM 3650 - Communication Law Credits: (3)
- POLS 4020 - Constitutional Law: Powers Credits: (3)

Law Electives (6 credit hours)

Select from the following:
- COMM 1270 - Analysis of Argument Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
- CJ 3270 - Theories of Crime and Delinquency Credits: (3)
- HIST 3210 - U.S. Constitutional History Credits: (3)
- POLS 4360 - Classical Political Thought Credits: (3)
- POLS 4380 - Modern Political Thought Credits: (3)
- POLS 4600 - American Congress Credits: (3)
- POLS 4750 - Public Policy Analysis Credits: (3)

Note:

Due to the cross-disciplinary nature of this program, no minor is required.
Economics, Business (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, Goddard School (major) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** [https://weber.edu/goddard/Business_Economics.html](https://weber.edu/goddard/Business_Economics.html)
- **Program Code:** Business Economics (4017BS)
- **CIPC:** 520601

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Business Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Economics majors will be numerically literate, and possess strong written and oral communication skills.
- All Economics majors should be able to use statistical methods for problem solving (e.g., hypothesis testing, regression analysis).
- All Economics majors should be able to use the concepts of supply and demand to analyze current economic issues.
- All Economics majors should be able to use the aggregate demand/aggregate supply framework.
- All Economics majors should be able to identify the benefits and costs of a global economy.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.
1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:
- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

Complete one of the following Math courses:
- MATH 1050 QL - College Algebra Credits: (4)
- MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.
4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
- ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

5. Major Course Requirements for BS Degree (24-25 credit hours)

Major Courses Required (12-13 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory Credits: (3)
- ECON 4020 - Intermediate Macroeconomic Theory Credits: (3)
- QUAN 2400 - Business Calculus Credits: (3)
- ECON 4980 CRE - Research Methods Credits: (3) (Prerequisite ECON 4970 (Credits: (1)) * OR
- ECON 4860 INT - Economics Internship Credits: (1-3) (3 credit option must be used to fulfill requirement)

Note:

*ECON 4970 and 4980 will complete the communication requirement as part of the business core as well as the required business course for the Business Economics major.

Elective Courses (12 credit hours)

Select from the following:
- ECON 3090 - History of Economic Thought Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 3200 - Money and Banking Credits: (3)
- ECON 3400 - Labor Economics Credits: (3)
- ECON 3410 - Women in the World Economy Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- ECON 4320 - Industrial Organization Credits: (3)
- ECON 4520 - Public Finance Credits: (3)
- ECON 4550 - Introduction to Econometrics Credits: (3)
- ECON 4560 - Mathematical Economics Credits: (3)
- ECON 4800 - Independent Research Credits: (1-3)
- ECON 4810 - Experimental Course Credits: (1-6)
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)
- ECON 3300 - Environmental Economics Credits: (3)
- ECON 4330 - Game Theory Credits: (3)
International Business Economics (BS)

The International Business Economics program is intended for business and economics majors who are strongly interested in working for a multinational business organization or in employment outside of the United States. Apart from building strong foundations in all business disciplines, the program is designed to provide students with study abroad and professional experiences that are complemented with foreign language skills.

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations".
- **Minor:** None required.
- **Grade Requirements:** Candidates for the Bachelor of Science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (major) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** https://weber.edu/goddard/International_Business_Economics.html
- **Program Code:** 4040BS
- **CIPC:** 520601

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the International Business Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Economics majors will be numerically literate, and possess strong written and oral communication skills.
- All Economics majors should be able to use statistical methods for problem solving (e.g., hypothesis testing, regression analysis).
- All Economics majors should be able to use the concepts of supply and demand to analyze current economic issues.
- All Economics majors should be able to use the aggregate demand/aggregate supply framework.
- All Economics majors should be able to identify the benefits and costs of a global economy.

John B. Goddard School of Business & Economics Requirements
The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:
- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

Complete one of the following Math courses:
- MATH 1050 QL - College Algebra Credits: (4)
- MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)
Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
  ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

5. Major Course Requirements for BS Degree
This program of study requires students to complete a study abroad experience (at least one semester of study at an accredited university outside of the United States or participation in a minimum of 6 credits of study abroad courses) AND completion of the (Foreign) Language Requirement as defined for the Bachelor of Arts Degree (can be up to 12 credits).

**Major Courses Required (15-16 credit hours)**

</tbody>
</table>

**International Elective Courses (6 credit hours)**

Select from the following:
• ACTG 4140 - Accounting for Global and Complex Entities Credits: (3) additional pre-requisites apply
• ECON 3110 - International Trade Credits: (3) (if not chosen as an economics elective)
• ECON 3120 - International Finance and Monetary Systems Credits: (3) OR
• ECON 3150 - Business Studies Abroad-International Finance Credits: (3) (if not chosen as a required business course or economics elective)
• ECON 4170 - Economic Development Credits: (3) (if not chosen as an economics elective)
• MIS 3710 - Global Issues in Information Technology Credits: (3)
• MGMT 3400 - International Business Credits: (3) OR
• BSAD 4850 - Business Administration Study Abroad Credits: (1-3) OR
• MGMT 3450 - Business Studies Abroad-International Management Credits: (3)
• MKTG 3600 - International Marketing Credits: (3) OR
• MKTG 3700 - Business Studies Abroad - International Marketing Credits: (3)
• SCM 4400 - Global Supply Chain Management Credits: (3)
• ECON 4850 - Economics Study Abroad Credits: (1-3)
• FIN 4850 - Finance Study Abroad Credits: (1-3)
• MGMT 4850 - Management Study Abroad Credits: (1-3)
• MKTG 4850 - Marketing Study Abroad Credits: (1-3)
• ACTG 4850 - Accounting Study Abroad Credits: (1-3)
• SCM 4850 - Supply Chain Management Study Abroad Credits: (1-3)
• MIS 4850 - Information Systems & Technology Study Abroad Credits: (1-3) (if not chosen as a required business class)
International Economics (BS)

- **Program Prerequisites:** Not required.
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C-" or higher. In addition, the cumulative Foundations GPA (ECON 2010, ECON 2020, QUAN 2600), major GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** [https://weber.edu/goddard/International_Economics.html](https://weber.edu/goddard/International_Economics.html)
- **Program Code:** 4050BS
- **CIPC:** 45.0605

**Advisement**

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Use Grad MAPs to plan your degree

**General Education**

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the International Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for ECON 2010, QUAN 2400, and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

**Course Requirements for International Business Economics BS Degree**

**John B. Goddard School of Business & Economics Requirements**

**John B. Goddard School of Business & Economics Curriculum**

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. Non business Economics degree programs within the Goddard School follow the same general pattern which is composed of four required elements: (1) Liberal Support Curriculum, (2) Economics Foundations Curriculum, (3) Admission and Major Declaration, and (4) Major Discipline.

1. **Liberal Support Curriculum (7-8 credit hours)**

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.
2. Economics Foundations Curriculum (9 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the major course work required. Refer to department degree maps for assistance in course sequencing. The Economics Foundations Curriculum provides the base for all economic degree programs and should be completed early in the student's academic studies. To satisfy the Economics Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the three Economics Foundation courses.

- ECON 2010 SS - Principles of Microeconomics (3)
- ECON 2020 SS - Principles of Macroeconomics (3)
- QUAN 2600 - Business Statistics I (3)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process (0) or
- ECON 2899 - Economics Foundations and Admissions Process (0) (for non-business Economics majors only)

4. Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

3. Major Course Requirements for International Economics BS Degree (46 credit hours)

School of Business & Economics Courses Required (31)

- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0)
- ECON 4010 - Intermediate Microeconomic Theory Credits: (3)
- ECON 4020 - Intermediate Macroeconomic Theory Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1)
- ECON 4980 CRE - Research Methods Credits: (3)
- QUAN 2400 - Business Calculus Credits: (3)
Elective Courses (minimum of 15 credit hours)

Choose at least one class from each of the four groups

Economics (minimum of 3 credit hours)

- ECON 3090 - History of Economic Thought Credits: (3)
- ECON 3200 - Money and Banking Credits: (3)
- ECON 3400 - Labor Economics Credits: (3)
- ECON 3410 - Women in the World Economy Credits: (3)
- ECON 4320 - Industrial Organization Credits: (3)
- ECON 4520 - Public Finance Credits: (3)
- ECON 4550 - Introduction to Econometrics Credits: (3)
- ECON 4560 - Mathematical Economics Credits: (3)
- ECON 4800 - Independent Research Credits: (1-3)
- ECON 4810 - Experimental Course Credits: (1-6)
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)
- ECON 3300 - Environmental Economics Credits: (3)
- ECON 4330 - Game Theory Credits: (3)

Political Science/Philosophy (minimum of 3 credit hours)

- POLS 2100 SS - Introduction to International Politics Credits: (3)
- POLS 2200 SS - Introduction to Comparative Politics Credits: (3)
- POLS 2300 SS - Introduction to Political Theory Credits: (3)
- POLS 3210 - Politics in the European Union Credits: (3)
- POLS 3290 - Democratization and Political Transitions Credits: (3)
- POLS 4160 - Topics in Global Politics Credits: (3)
- POLS 4180 - International Law and Organization Credits: (3)
- POLS 4190 - Theories of International Politics Credits: (3)
- PHIL 3550 - Philosophy of Eastern Religion Credits: (3)

Geography (minimum of 3 credit hours)

- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions Credits: (3)
- GEOG 3540 - Geography of Latin America and the Caribbean Credits: (3)
- GEOG 3590 - Geography of Europe: the Land and People who Built a World Power Credits: (3)
- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment Credits: (3)
- GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change Credits: (3)

History (minimum of 3 credit hours)

- HIST 4260 - Europe in the Age of Total War Credits: (3)
• HIST 4320 CRE - Stalin and the Soviet Experiment Credits: (3)
• HIST 4340 - History of England since 1714 Credits: (3)
• HIST 4350 - Germany and the Third Reich Credits: (3)
• HIST 4370 - History of Modern France 1789-present Credits: (3)
• HIST 4410 - History of Spain and Portugal Credits: (3)
• HIST 4450 - The Warsaw Pact Credits: (3)
• HIST 4510 - Twentieth Century World Credits: (3)
• HIST 4530 - Far Eastern History Credits: (3)
• HIST 4550 - Southeast Asian History Credits: (3)
• HIST 4590 - Middle Eastern History Credits: (3)
• HIST 4610 - History of Africa Credits: (3)
• HIST 4650 - Modern Latin America Credits: (3)
• HIST 4670 - History of Mexico Credits: (3)

Note:

*Given the broad international electives required, no minor is required.*
Quantitative Economics (BS)

- **Program Prerequisite:** Not required.
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C-" or higher. In addition, the cumulative Foundations GPA (ECON 2010, ECON 2020, QUAN 2600), major GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** [https://weber.edu/goddard/QuantitativeEconomics.html](https://weber.edu/goddard/QuantitativeEconomics.html)
- **Program Code:** 4051BS
- **CIPC:** 45.0603

**Advisement**

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Use Grad MAPs to plan your degree

**General Education**

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Quantitative Economics major will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a major in Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

**Course Requirements for Quantitative Economics BS Degree**

**John B. Goddard School of Business & Economics Requirements**

**John B. Goddard School of Business & Economics Curriculum**

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. Non business Economics degree programs within the Goddard School follow the same general pattern which is composed of four required elements: (1) Liberal Support Curriculum, (2) Economics Foundations Curriculum, (3) Admission and Major Declaration, and (4) Major Discipline.

1. **Liberal Support Curriculum (7-8 credit hours)**

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal
Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

- ECON 2010 SS - Principles of Microeconomics (3)
- MATH 1050 QL - College Algebra (4) or MATH 1090 QL - Business College Algebra (3)
- ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.
- MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

NOTE: Students looking at Quantitative Economics should take MATH 1050 NOT MATH 1090 as MATH 1090 does not meet the prerequisite requirement for MATH 1210 Calculus I.

2. Economics Foundations Curriculum (9 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the major course work required. Refer to department degree maps for assistance in course sequencing. The Economics Foundations Curriculum provides the base for all economic degree programs and should be completed early in the student's academic studies. To satisfy the Economics Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the three Economics Foundation courses.

- ECON 2010 SS - Principles of Microeconomics (3)
- ECON 2020 ECON 2020 SS - Principles of Macroeconomics (3)
- QUAN 2600 - Business Statistics I (3)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process (0) or
- ECON 2899 - Economics Foundations and Admissions Process (0) (for non-business Economics majors only)

4. Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

Major Course Requirements for Quantitative Economics BS Degree (55 credit hours)

Major Courses Required (19 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory Credits: (3)
- ECON 4020 - Intermediate Macroeconomic Theory Credits: (3)
- ECON 4550 - Introduction to Econometrics Credits: (3)
- ECON 4560 - Mathematical Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1)
- ECON 4980 CRE - Research Methods Credits: (3)
• QUAN 3610 - Business Statistics II Credits: (3)

Note:

*MATH 3410 and *MATH 3420, Probability and Statistics (3 each) can substitute for QUAN 2600 & QUAN 3610.

Required Math Courses (15 or 16 credit hours)

• MATH 1210 - Calculus I Credits: (4)
• MATH 1220 - Calculus II Credits: (4)
• MATH 2210 - Calculus III Credits: (4)
• MATH 2250 - Linear Algebra and Differential Equations Credits: (4) or
• MATH 2270 - Elementary Linear Algebra Credits: (3)

Electives (12 credit hours)

Select from the following

• ACTG 2010 - Survey of Accounting I Credits: (3)
• ECON 3090 - History of Economic Thought Credits: (3)
• ECON 3110 - International Trade Credits: (3)
• ECON 3120 - International Finance and Monetary Systems Credits: (3)
• ECON 3200 - Money and Banking Credits: (3)
• ECON 3300 - Environmental Economics Credits: (3)
• ECON 3400 - Labor Economics Credits: (3)
• ECON 3410 - Women in the World Economy Credits: (3)
• ECON 4170 - Economic Development Credits: (3)
• ECON 4320 - Industrial Organization Credits: (3)
• ECON 4330 - Game Theory Credits: (3)
• ECON 4520 - Public Finance Credits: (3)
• ECON 4800 - Independent Research Credits: (1-3)
• ECON 4810 - Experimental Course Credits: (1-6)
• ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)
• MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry Credits: (3)
• MATH 3270 - Linear Algebra Credits: (3)
• MATH 3420 - Probability and Statistics II Credits: (3)
• MATH 3450 - Advanced Statistical Methods Credits: (4)
• MATH 4110 - Modern Algebra I Credits: (3)

Note:

Due to the cross-disciplinary nature of this program, no minor is required.
Minor

Economics Minor/BIS

- **Grade Requirements:** A grade of "C-" or higher in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 21 credit hours.
- **Program Code:** 4022
- **CIPC:** 450601

Course Requirements for Minor

**Required Courses (21 credit hours)**

- ECON 2899 - Economics Foundations and Admissions Process Credits: (0)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- ECON 4010 - Intermediate Microeconomic Theory Credits: (3) or
- ECON 3110 - International Trade Credits: (3) or
- ECON 3300 - Environmental Economics Credits: (3) or
- ECON 3400 - Labor Economics Credits: (3)
- ECON 4020 - Intermediate Macroeconomic Theory Credits: (3) or
- ECON 3200 - Money and Banking Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3) or
- CJ 3600 - Criminal Justice Statistics Credits: (3) or
- PSY 3600 - Statistics in Psychology Credits: (3) or
- GERT 3600 - Social Statistics Credits: (3) or
- SW 3600 - Social Statistics Credits: (3) or
- SOC 3600 - Social Statistics Credits: (3)
- Two upper-level ECON or QUAN electives (6)

**Note:**

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 with a grade of "C" or higher is a prerequisite for QUAN 2600.
Teaching Minor

Economics Teaching Minor

- GPA Requirement: A cumulative GPA of 2.5 or higher in courses used toward the minor.
- Credit Hour Requirements: Minimum of 18 credit hours.
- Program Code: 4019
- CIPC: 131303

Approval of a minor program by the Economics department chair is required. Students who select the Economics Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education). Advisement is required.

Course Requirements for Minor

Required Courses (18 credit hours)

- ECON 1010 SS - Economics as a Social Science Credit: (3)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- ECON 1740 AI - Economic History of the United States Credits: (3)
- ECON 3200 - Money and Banking Credits: (3)
- HIST 4500 - Teaching Social Studies in Grades 5-12 Credits: (3)
Department of Supply Chain & Management Information Systems

**Department Chair:** Seokwoo Song  
**Location:** Wattis Business Building, Room 205  
**Telephone Contact:** Nancy Tomon, 801-626-7368  
**Professors:** Randy Boyle, Taowen Le, Shane Schvaneveldt, Seokwoo Song; **Associate Professors:** Jeffrey Clements, Grace Zhang; **Assistant Professors:** Evan Barlow, Francois Giraud-Carrier, Alicia Ingersoll, Ben Neve

The Department of Supply Chain & Management Information Systems offers two Bachelor of Science degree programs. Supply Chain Management (SCM) provides students with the specialized skills to manage key value-added processes, inspire creative decision-making, and collaborate effectively with decision makers across the firm and around the world. The SCM program offers a whole-brain approach that incorporates relational and interpersonal skills with the technical side of logistics and operations management. Management Information Systems (MIS) prepares students to successfully navigate the business world by building technical, managerial and communication skills. The depth and breadth of technical know-how gained in the MIS program prepares students for a successful career as an Information Systems professional, helping organizations support business processes and solve business problems.

Supply Chain Management (SCM)

Supply Chain Management is "the value creation engine of every organization."

Everyone who participates in the creation and distribution of a product is part of a supply chain, and a Supply Chain Management major learns how to choreograph and manage this entire chain of activities from suppliers, manufacturers, service providers and distributors, to consumers.

With its origins dating back to 1969, Weber State University's Supply Chain Management program is one of the oldest programs in the United States. Our program covers the depth and breadth of SCM, giving our students the foundation for successful careers in logistics, purchasing, operations, and other areas of supply chain management.

Employers recognize our graduates as some of the best in the field, and the demand for Weber State University SCM graduates is strong. Traditionally, graduates from our SCM program enjoy the highest average starting salary of all business majors, and job opportunities exceed the number of graduates. Global and area companies hiring our SCM graduates include Kimberly Clark, Toyota, Ford Motor Company, Autoliv, Orbital ATK, Intermountain Healthcare, Wal-Mart, J.C. Penney Company, UPS, Northrop Grumman, and the U.S. Air Force.

The endowed Jerry & Vickie Moyes Center for Supply Chain Excellence supports opportunities in research, scholarship, and experiential learning for faculty and students. We are fortunate to enjoy an active relationship with our industry partner board which provides real-world insight for our program along with mentoring and internship opportunities for our students. In addition to many opportunities for internships, our Supply Chain Management majors frequently also receive several scholarships from professional associations and area companies as well as from the Moyes Center.

Management Information Systems (MIS)

A bachelor's degree in Management Information Systems provides students with a balanced education between business and information technologies. It provides students with a broad background in basic business knowledge, problem solving, and computer technology and skills. Graduates from this major are prepared to help organizations use computer technology to support their business processes and solve their business problems. Technologies that all MIS majors study include software development, computer architecture, database design, computer networks, and systems analysis and design. In addition, students may also elect to study advanced networks, web development and management, data analytics, information security and computer forensics. The MIS lab provides hands-on experience in the latest technologies, including 3D printing, machine learning, and AI technologies.

Management Information Systems graduates may work for a large organization, specializing in one aspect of information technology, or as one of a few people supporting all areas of a smaller firm's computer technologies. The job will involve working with people to understand how they do their jobs and where computers can be most effective, implementing computer-based solutions, training people to use computer systems, installing and troubleshooting hardware, software, or networks, and helping management understand and plan for the best new technologies to integrate in the organization's business processes.
MIS graduates are well prepared for graduate school as well, frequently accepted to top graduate programs. The MIS Advisory Board maintains strong relationships with national and local employers, ensuring our program is developing graduates with skills to meet the current and future needs of business.
Associate of Science

Management Information Systems (AS)

- **Program Prerequisite:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ENGL 2010 or ENGL 2015, MATH 1050 or equivalent, ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These nine courses are referred to collectively as "Liberal Support" and "Business Foundations." All MIS courses numbered above 3000 require Business Foundations except MIS 3210 and MIS 3610. (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Grade Requirements:** Even though a minimum grade of "C-" will be accepted in courses used to satisfy the associate's degree requirements, an overall GPA of 2.5 or higher is required.
- **Credit Hour Requirements:** A total of 60 credit hours is required; a minimum of 25 of these is required within the AS program.
- **Program Code:** 4045AS
- **CIPC:** 521201

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for students pursuing a Bachelor of Science or Associates of Science as well as students pursuing minors in Accounting or Economics. To be admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534.

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the Management Information Systems associates will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions. MIS 1100 SS - The Digital Society, is recommended to fulfill a general education requirement in Social Science.

Program Learning Outcomes

- Be able to use data to improve business decision making
- Be capable of developing and implementing information systems
- Be able to gather and organize relevant data and information to identify issues and problems to draw logical conclusions

Major Course Requirements for AS Degree

Courses Required (29 credit hours)

- ACTG 2010 - Survey of Accounting | Credits: (3)
• ACTG 2020 - Survey of Accounting II Credits: (3)
• BSAD 2899 - Business Foundations and Admissions Process Credits: (0)
• BSAD 4620 - Executive Lectures Credits: (1)
• ECON 2010 SS - Principles of Microeconomics Credits: (3)
• ECON 2020 SS - Principles of Macroeconomics Credits: (3)
• QUAN 2600 - Business Statistics I Credits: (3)
• MIS 2010 - Business Computer Skills Credits: (1)
• MIS 2020 - Introduction to Information Systems Credits: (3)
• MIS 2110 - Software Development I Credits: (3)
• MIS 3210 - Database Design and Implementation Credits: (3)
• MIS 3610 - Networks & Data Communications I Credits: (3)
Institutional Certificate

Data Analytics Essentials Certificate of Proficiency

- **Program Pre-requisite**: Applicants must have completed MATH 1040 or QUAN 2600.
- **Grade Requirements**: Students must complete all certificate courses with a grade of "C-" or higher.
- **Credit Hours Requirements**: Six credit hours of program pre-requisites and ten credit hours of MIS courses.
- Gainful Employment Disclosure
- **Program Code**: 4056CP
- **CIPC**: 307101

The Data Analytics Essentials Certificate of Proficiency is designed to provide current and future business professionals with highly desired knowledge of Python, SQL and data visualization techniques using Tableau. In addition, students will learn data wrangling and machine learning techniques. This certificate will enable business professionals to improve decisions through improved analysis and visualization of data.

This certificate will prepare students for careers in high-demand jobs in Utah such as: Computer Systems Analysts, Management Analysts, Business Intelligence Analysts, Market Research Analysts, Financial Analysts, and Operation Research Analysts.

The Data Analytics Essentials Certificate is stackable with other credentials and can be completed as a stand-alone certificate or as part of the Data Analytics Minor program. All courses will earn credit toward several B.S. degrees from the Goddard School of Business & Economics, such as a B.S. in Management Information Systems. The certificate will be awarded upon completion of 16 credit hours.

These courses will be offered in a full-semester format. Courses will be offered in a face-to-face format at our Ogden campus, with the exception of MIS 2010, which will be offered in an online format.

Advisement

- MIS Department Chair: Dr. Seokwoo Song, 801-626-6462
- MIS Department Administrative Specialist: Nancy Tomon, 801-626-7368
- Mailing Address: 1337 Edvalson St., Dept. 3805, Ogden UT 84408
- Campus Location: Ogden Campus, Wattis Building, Room 205

Course Requirements for Data Analytics Essentials Certificate of Proficiency

Program Prerequisites (6 credit hours):

- MATH 1090 QL - Business College Algebra Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)

Courses Required (10 credit hours)

- MIS 2010 - Business Computer Skills Credits: (1)
- MIS 2030 - Introduction to Business Analytics Credits: (3)
- MIS 2040 - Business Analytics with Python Credits: (3)
- MIS 3220 - Business Intelligence Credits: (3)
Bachelor of Science

Management Information Systems (BS)

- **Program Prerequisite:** MIS Associate of Science Degree, or equivalent degree or course work (which may be articulated for the MIS Associate) from an accredited AS/AA program. Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and prior completion of ACTG 2010, ACTG 2020; BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, Goddard School (major) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** https://weber.edu/goddard/Management_Information_Systems.html
- **Program Code:** 4045BS
- **CIPC:** 521201

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Management Information Systems major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions. MIS 1100, The Digital Society, is recommended to fulfill a general education requirement in Social Science.

Program Learning Outcomes

- Know how to train people to use complex computer systems
- Be able to install and troubleshoot hardware
- Be capable of implementing software and networks
- Adept at helping management understand and plan for the best new technologies to integrate organization's business processes.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum
The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:
- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

Complete one of the following Math courses:
- MATH 1050 QL - College Algebra Credits: (4)
- MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0)
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)
Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
- ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

Major Course Requirements for BS Degree (27 credit hours)
Major Courses Required (18 credit hours)

- MIS 2110 - Software Development I Credits: (3)
- MIS 2030 - Introduction to Business Analytics Credits: (3)
- MIS 3210 - Database Design and Implementation Credits: (3)
- MIS 3610 - Networks & Data Communications I Credits: (3)
- MIS 4600 - Information Security I Credits: (3)
- MIS 4730 - IT Project Management and Systems Design Credits: (3)

Concentration Elective Courses (9 credit hours)

Select 3 courses from the following:

- MIS 3220 - Business Intelligence Credits: (3)
- MIS 3230 - Data Mining for Business Credits: (3)
- MIS 3620 - Networks and Data Communications II Credits: (3)
- MIS 3700 - E-business Technologies & Web Development Credits: (3)
- MIS 3740 - Business Machine Learning Credits: (3)
- MIS 4700 - Information Security II Credits: (3)
- MIS 4710 - Enterprise Software Development Credits: (3)
- MIS 4720 - Emerging Information Technologies Credits: (3)
- MIS 4893 INT - Cooperative Work Experience Credits: (3)
Supply Chain Management (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)

- **Minor:** Not required.

- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (major) GPA, and the overall university GPA must be 2.5 or higher.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.

- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

- **Website:** https://weber.edu/goddard/Supply_Chain_Management.html

- **Program Code:** 4032BS

- **CIPC:** 520203

### Academic Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

### General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Supply Chain Management major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science), ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

### Program Learning Outcomes

- Be able to utilize data to improve business decision making
- Be able to communicate effectively (verbal and written)
- Be able to collaborate effectively with people
- Be capable of applying core supply chain functional skills

### John B. Goddard School of Business & Economics Requirements

#### John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)
The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:
- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

Complete one of the following Math courses:
- MATH 1050 QL - College Algebra Credits: (4)
- MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or
- ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)
The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
- ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

5. Major Course Requirements for BS Degree (27 credit hours)

Business Courses Required (18 credit hours)

- MIS 2030 - Introduction to Business Analytics Credits: (3)
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics Credits: (3)
- SCM 3600 - Logistics & Transportation Credits: (3)
- SCM 3700 - Purchasing & Strategic Sourcing Credits: (3)
- SCM 4100 - Quality Management and Process Improvement Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3) *
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- SCM 4550 - Strategic Supply Chain Management Credits: (3) **

Notes:

* SCM 4400 satisfies the International Course requirement under the Business Core as well as the Business Courses requirement.
** SCM 4500 satisfies the Communication course requirement under the Business Core as well as the Business Courses requirement.

Elective Courses (9 credit hours)

Select at least one course from Group A below and the remaining courses from either Group A or Group B (see an advisor for guidance in course selection).

- SCM 2400 - Fundamentals of Project Management Credits: (3)
- SCM 4700 - Supply Chain Case Analysis, Logic, and Presentation Credits: (3)
- SCM 4840 - Operations & Supply Chain Industry Projects Credits: (3)
- SCM 4850 - Supply Chain Management Study Abroad Credits: (1-3)
- SCM 4860 INT - Supply Chain Management Internship Credits: (3)

Elective Course - Group B

- MIS 3220 - Business Intelligence Credits: (3)
- MIS 2810 - Experimental Course Credits: (1-6)
- FIN 3500 - Capital Budgeting Credits: (3)
- ACTG 3300 - Cost Accounting Credits: (3)
- BSAD 3500 - Introduction to Business Research Credits: (3)
- ECON 3110 - International Trade Credits: (3)

Completion of the Entrepreneurship Minor satisfies the Elective Course - Group B requirement.

Approved 3000 level course from the College of Engineering, Applied Science and Technology satisfies the Elective Course - Group B requirement.
Emphasis Option for Bachelor of Integrated Studies

Management Information Systems (BIS)

- Program Prerequisite: Refer to Bachelor of Integrated Studies (BIS) requirements.
- Grade Requirements: Each IST class must be completed with a grade of C- or better, and the overall GPA for IST classes must be at least 2.5.
- Credit Hour Requirements: 19 hours of MIS courses selected in consultation with an IST advisor.
- Program Code: 4045
- CIPC: 521201

Course Prerequisites, Advisement and Admission Requirements

All prerequisites must be completed before upper-division enrollment. For most classes this includes the business foundations and therefore can add up to 15 credits to your program of study.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work-Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflectons from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Suggested Courses (13 credit hours)

- MIS 2010 - Business Computer Skills Credits: (1)
- MIS 2110 - Software Development I Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- MIS 3210 - Database Design and Implementation Credits: (3)
- MIS 3610 - Networks & Data Communications I Credits: (3)

Elective Courses (6 credit hours)

Select two of the following

- MIS 3620 - Networks and Data Communications II Credits: (3)
- MIS 3700 - E-business Technologies & Web Development Credits: (3)
- MIS 4600 - Information Security I Credits: (3)
- MIS 4700 - Information Security II Credits: (3)
- MIS 4710 - Enterprise Software Development Credits: (3)
- MIS 4720 - Emerging Information Technologies Credits: (3)
Minor

Data Analytics Minor/BIS

- **Grade Requirements:** All classes must be passed with a C or higher.
- **Credit Hour Requirements:** A total of a minimum 25 credit hours are required for all registered students.
- **Program Code:** 4048 and cohort DA_SC for Students in School of Computing or DA_GSBE for Students in Goddard School of Business and Economics.
- **CIPC:** 110102

Prerequisite Courses (6-10 credits)*

Students in School of Computing

- CS 1030 - Foundations of Computing Credits: (4) or
- NET 1300 - Networks and Emerging Technologies Credits: (3)
- MATH 1040 QL - Introduction to Statistics Credits: (3)

Students in Goddard School of Business and Economics

- MATH 1050 QL - College Algebra Credits: (4) or
- MATH 1090 QL - Business College Algebra Credits: (3)
- MIS 2110 - Software Development I Credits: (3) or
- MIS 2020 - Introduction to Information Systems Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)

Required Courses (a minimum of 19 credits)

Core Courses (a minimum of 13 credits)

- MIS 3210 - Database Design and Implementation Credits: (3) or
- CS 2550 - Introduction to Database Design and SQL Credits: (4)
- MIS 2030 - Introduction to Business Analytics Credits: (3)
- CS 3550 - Advanced Database Programming Credits: (4) or
- MIS 3230 - Data Mining for Business Credits: (3)
- CS 3580 - Data Science Algorithms Credits: (4)

Elective Courses (a minimum of 6 credits)

- CS 2420 - Introduction to Data Structures and Algorithms Credits: (4)
- CS 4500 - Introduction to Artificial Intelligence Credits: (4)
- MIS 3740 - Business Machine Learning Credits: (3) or
- CS 5600 - Machine Learning Credits: (3)
• SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics Credits: (3)
• MIS 3220 - Business Intelligence Credits: (3)

Note:

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business and the College of Engineering, Applied Science and Technology is required. Approval of elective courses by the Business Administration department and School of Computing is required. See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

*Students from other departments can choose either of the two paths. Students are responsible for understanding any pre-requisites or conditions for chosen electives.
Management Information Systems Minor

- **Grade Requirements:** A 2.5 GPA in the minor courses. A course grade of "C-" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** 19 semester credit hours are required for non-business majors and 15 credits are required for business majors. Approval of a minor program by the Management Information Systems department is required.
- **Program Code:** 4045
- **CIPC:** 521201

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Course Requirements for Minor

Non-Business Majors (19 credit hours)

Courses Required (13 credit hours)

- MIS 2010 - Business Computer Skills Credits: (1)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- MIS 2110 - Software Development I Credits: (3)
- MIS 3210 - Database Design and Implementation Credits: (3)
- MIS 3610 - Networks & Data Communications I Credits: (3)

Elective Courses (6 credit hours)

Select two of the following

- MIS 3620 - Networks and Data Communications II Credits: (3)
- MIS 3700 - E-business Technologies & Web Development Credits: (3)
- MIS 4600 - Information Security I Credits: (3)
- MIS 4700 - Information Security II Credits: (3)
- MIS 4710 - Enterprise Software Development Credits: (3)
- MIS 4720 - Emerging Information Technologies Credits: (3)

Business Majors (15 credit hours)

Courses Required (12 credit hours)

- MIS 2110 - Software Development I Credits: (3)
- MIS 3210 - Database Design and Implementation Credits: (3)
- MIS 3610 - Networks & Data Communications I Credits: (3)
- MIS 4600 - Information Security I Credits: (3)

Elective Courses (3 credit hours)

Select one of the following

• MIS 3620 - Networks and Data Communications II Credits: (3)
• MIS 3700 - E-business Technologies & Web Development Credits: (3)
• MIS 4700 - Information Security II Credits: (3)
• MIS 4710 - Enterprise Software Development Credits: (3)
• MIS 4720 - Emerging Information Technologies Credits: (3)
Supply Chain Management Minor/BIS

- **Grade Requirements:** Candidates for the minor must complete all required and elective courses with a grade of "C-" or higher. In addition, the John B. Goddard School of Business & Economics (minor) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** 15-18 credit hours are required for the minor.
- **Program Code:** 4032
- **CIPC:** 520203

**Academic Advisement**

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

**Admission Requirements**

Students may be admitted to this minor program without meeting other business school admission requirements if they meet the minor program prerequisites and receive approval from the Supply Chain Management Department. Students may obtain information regarding admissions to the minor from the Supply Chain Management Department, WB 205, (801) 626-7368.

**Required Courses (15 credit hours)**

- SCM 3050 - Operations and Supply Chain Management **Credits:** (3)
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits:** (3)
- SCM 3600 - Logistics & Transportation **Credits:** (3)
- SCM 3700 - Purchasing & Strategic Sourcing **Credits:** (3)
- SCM 4100 - Quality Management and Process Improvement **Credits:** (3)

*Students majoring in Engineering Technology or Engineering may substitute the three courses MSE 3850, MSE 3910, and MSE 4590 in place of SCM 4100.

Admission to SCM Minor in substitution for BSAD 2899.

**Elective Course for SCM Minor (3 credit hours)**

Select one course from the following (see an advisor for guidance in course selection)

- SCM 4400 - Global Supply Chain Management **Credits:** (3)
- SCM 4700 - Supply Chain Case Analysis, Logic, and Presentation **Credits:** (3)
- SCM 4840 - Operations & Supply Chain Industry Projects **Credits:** (3)
- SCM 4850 - Supply Chain Management Study Abroad **Credits:** (1-3)
- MIS 2030 - Introduction to Business Analytics **Credits:** (3)
- MIS 3210 - Database Design and Implementation **Credits:** (3)
- MIS 4730 - IT Project Management and Systems Design **Credits:** (3)
Master of Business Administration Program (MBA)

MBA Program Director: Dr. François Giraud-Carrier  
MBA Assistant Program Director/Enrollment Director: Andrew Wright, 801-395-3528  
MBA Department Administrative Specialist: Ruth Preece, 801-395-3519  
Location: WSU Davis- 2750 University Park Blvd., Layton

The Master of Business Administration program is intended for working adults who wish to advance in their careers. The MBA program is designed to enhance general management abilities and provides an opportunity to further develop functional business skills. Our general management graduate curriculum consists of "hybrid courses" that combine traditional classroom instruction with online educational tools.

In addition to the MBA, the following Graduate Certificates are offered:

- Aerospace Management
- Business Analytics
- Business Development
- Contract Management in Business
- Cyber Security
- Management Information Systems: Information Assurance
- Sustainability for Business
Graduate Certificate

Aerospace Management Graduate Certificate

MBA Program Director: Dr. Shaun Hansen, 425-231-9770
MBA Enrollment Director: Andrew Wright, 801-395-3528
MBA Department Administrative Specialist: Sally Taylor 801-395-3519
Location: Davis Campus - 2750 University Park Blvd., Layton

Gainful Employment Disclosure

Students earning a Graduate Certificate in Aerospace Management will become knowledgeable about strategic management, continuous process improvement, program management, supply chain management, and contract management in an aerospace context.

This graduate certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The certificate will be awarded upon completion of four graduate-level elective courses (12 credit hours) in the MBA Program. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** Twelve credit hours of MBA courses. Some prerequisites may need to be completed prior to enrollment in MBA 6150 - Operations/Supply Chain Management.
- **Program Code:** 4036GC
- **CIPC:** 520201

Courses Required for Graduate Certificate

Required Courses

- MBA 6150 - Operations/Supply Chain Management Credits: (3)
- MBA 6370 - CPI & Strategy in Aerospace Management Credits: (3)
- MBA 6360 - Aerospace Program Management Credits: (3)
- MBA 6740 - Principles of Contract Management Credits: (3)
Business Analytics Graduate Certificate

The Graduate Certificate in Business Analytics is designed to provide business professionals with the knowledge and analytical tools needed to uncover novel patterns, trends, correlations, and strategic insights. This graduate certificate will help business professionals improve business decision making using analytical skills, models, and processes. The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

MBA Program Director: Dr. Shaun Hansen, 425-231-9770
MBA Enrollment Director: Andrew Wright, 801-395-3528
MBA Department Administrative Specialist: Ruth Preece 801-395-3519
Location: Davis Campus - 2750 University Park Blvd., Layton

- Program Prerequisite: Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- Grade Requirements: Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- Credit Hours Requirements: Fifteen credit hours of MBA courses.
- Program Code: 4054GC
- CIPC: 110802

Required Courses

- MBA 6160 - Applications of Decision Models Credits: (3)
- MBA 6260 - Data Visualization Using Tableau Credits: (3)
- MBA 6620 - Data Mining for Business Credits: (3)
- MBA 6660 - Forecasting and Time Series Credits: (3)

Elective Courses

One of the following
- MBA 6310 - Information Technology in the Enterprise Credits: (3)
- MBA 6640 - Cyber Security Credits: (3)
- MBA 6670 - Cloud Computing Credits: (3)
- MBA 6680 - Graduate Consulting Project Credits: (3)
- MBA 6800 - Directed Study Credits: (1-3)
Business Development Graduate Certificate

The Graduate Certificate in Business Development is designed to provide business professionals with the knowledge and skills needed to effectively start new businesses, market products and services, sell effectively, analyze data, and make strategic business decisions.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

MBA Program Director: Dr. Shaun Hansen, 425-231-9770
MBA Enrollment Director: Andrew Wright, 801-395-3528
MBA Department Administrative Specialist: Sally Taylor 801-395-3519
Location: Davis Campus - 2750 University Park Blvd., Layton

• Program Prerequisite: Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.

• Grade Requirements: Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.

• Credit Hours Requirements: Fifteen credit hours of MBA courses.

• Program Code: 4053GC
• CIPC: 111003

Required Courses

• MBA 6560 - Business/Market Planning Using Online Resources Credits: (3)
• MBA 6660 - Forecasting and Time Series Credits: (3)

Elective Courses

Two of the following
• MBA 6160 - Applications of Decision Models Credits: (3)
• MBA 6260 - Data Visualization Using Tableau Credits: (3)
• MBA 6870 - Sales Strategy & Management Credits: (3)

One of the following
• MBA 6430 - International Marketing Credits: (3)
• MBA 6540 - Negotiations Credits: (3)
• MBA 6550 - Managing and Improving Quality Credits: (3)
• MBA 6580 - Project Management Credits: (3)
• MBA 6740 - Principles of Contract Management Credits: (3)
Contract Management in Business Graduate Certificate

MBA Program Director: Dr. Shaun Hansen, 425-231-9770
MBA Enrollment Director: Andrew Wright, 801-395-3528
MBA Department Administrative Specialist: Sally Taylor 801-395-3519
Location: Davis Campus - 2750 University Park Blvd., Layton

Gainful Employment Disclosure
Students earning a Graduate Certificate in Contract Management in Business will become knowledgeable about the practice of contract management in the federal and commercial environment and gain experience in planning, organizing and managing contracts.
The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hours Requirements:** Twelve credit hours of MBA elective courses.
- **Program Code:** 4035GC
- **CIPC:** 520202

Courses Required for Graduate Certificate

Required Courses

- MBA 6740 - Principles of Contract Management Credits: (3)
- MBA 6750 - Financial Aspects of Contract Management Credits: (3)
- MBA 6760 - Legal Aspects of Contract Management Credits: (3)

Elective Courses

Select one of the following:

- MBA 6540 - Negotiations Credits: (3)
  or
- MBA 6580 - Project Management Credits: (3)
Cyber Security Graduate Certificate

The Graduate Certificate in Cyber Security focuses on the fundamentals of cyber security, security policies, penetration testing, enterprise IT management, networking, and cloud computing. Courses in this program emphasize how to improve information security within organizations. This program allows students to quickly increase their technical capabilities in the cyber security field with hands-on applied projects, expert instruction, and advanced training environments.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

Sustainability for Business Graduate Certificate

MBA Program Director: Dr. Shaun Hansen, 425-231-9770  
MBA Enrollment Director: Andrew Wright, 801-395-3528  
MBA Department Administrative Specialist: Sally Taylor, 801-395-3519  
Location: Davis Campus - 2750 University Park Blvd., Layton

Gainful Employment Disclosure
The Graduate Certificate in Sustainability for Business is designed for graduate students to explore and evaluate how business organizations can address sustainability issues to meet societal needs and create competitive advantages. Students must complete four courses (minimum of 12 credit hours) of existing MBA elective courses in environmental sustainability in order to be awarded the Graduate Certificate in Sustainability for Business. The certificate can be completed along with the MBA Degree at the Goddard School of Business and Economics or as a stand-alone certificate.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** Twelve credit hours of existing MBA elective courses in environmental sustainability.
- **Program Code:** 4039GC  
- **CIPC:** 520101

Courses Required for Graduate Certificate

- MBA 6700 - Managing for Sustainability Credits: (3)  
- MBA 6715 - Sustainability Tools and Methods Credits: (3)  
- MBA 6720 - Business, Economics, and the Environment Credits: (3)

Elective Courses for the Graduate Certificate

- MBA 6730 - Consulting Project in Sustainability Credits: (3) Or
- Any approved MBA course Credits (3) And
- MBA 6800 - Directed Study Credits: (1-3)  
  (The subject of the directed study should build upon sustainability topics related to the approved MBA class)
Master of Business Administration

Master of Business Administration (MBA)

- **Program Prerequisite:** Applicants must have earned a bachelor's degree from a regionally accredited institution (or international equivalent) or be in the final stage of completing the undergraduate degree. If proof of completion of the bachelor's degree has not been received prior to the start of an admitted student's first semester in the MBA Program, they will not be allowed to start classes in the program until an official transcript with the posted bachelor's degree has been received by the MBA Program office. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.

- **Grade Requirements:** To earn the MBA degree, candidates must complete all MBA program courses with a grade of "C" or higher. In addition, the overall cumulative MBA Program GPA must be 3.0 or higher, excluding transfer credits from other WSU graduate programs or other institutions. An elective course in which a grade lower than "C" is earned may be repeated or another elective may be taken in its place. Failure to maintain a 3.0 grade point average after two consecutive semesters, will result in academic probation in accordance with departmental policies. Students must meet with their academic advisor after notification of academic probation. Two consecutive semesters of academic probation will result in suspension from the program. A waiver of suspension will be considered according to due process.

- **Credit Hour Requirements:** The MBA degree ordinarily requires a minimum of 36 semester hours of graduate work for persons with a recent undergraduate business degree from an AACSB-accredited business school. Individuals with business undergraduate degrees from non-AACSB-accredited schools may be required to complete additional foundations course work contingent on departmental analysis of their undergraduate transcripts. For persons with a non-business undergraduate degree, the program typically requires 54 semester hours, including foundations or leveling courses. Exemptions from foundations courses may be made based on equivalent undergraduate coursework. Specific program and course requirements are shown below.

- **Program Code:** Business Undergrade (4026MBA1), Non-Business Undergrade (4026MBA2)
- **CIPC:** 230101

**Major Field Exemption**

Students with business-related undergraduate degrees are exempted from the required MBA course in their major field of study (e.g. accounting, finance, economics, information systems, marketing, management, supply chain management, human resources) and will take an additional elective MBA course in its place.

The MBA Program Office must approve each MBA student's plan of study. The plan of study will show all courses necessary to meet the degree requirements. A formal plan of study will be filed when a student is accepted into the program.

If students deviate from their program of study without PRIOR written and documented departmental approval, those courses will NOT be counted toward graduation. Taking unapproved courses will be a costly and time intensive mistake. If you are in doubt about a course, please call or email the office and make an appointment with your advisor BEFORE starting the class.

**Non-MBA Electives**

Qualified students may take up to two MACC (Master of Accounting), MHA (Master of Health Administration), or MTAX (Master of Taxation) courses as MBA electives, counting six credit hours toward their MBA elective requirements. Four MHA courses may be counted towards MBA elective requirements for dual MBA-MHA degree students. Please contact the department to assure you meet pre-requisites for your desired elective and for assistance in getting an over ride in order to add the class to your schedule.

Qualified graduate students currently accepted into other Weber State University grad programs may cross over and take classes from the MBA. Students must meet all pre-requisites for any MBA class they may choose. An email from your graduate advisor stating that they will accept the MBA class as an elective into your program is required. Have them email staylor13@weber.edu requesting the course with the student's W number. An over ride to register will be placed in Banner and the student notified that they can add the class to their schedule.
Transfer Credits/Residency Requirements

The minimum residency requirements for the Goddard School MBA Program is two-thirds of the required number of credit hours for undergraduate business majors (the 36-hour track) and for non-business majors (the 54-hour track). Students who have completed business-related graduate course work at another AACSB-accredited institution prior to admission to the program may apply for transfer of graduate credits to satisfy their Goddard School MBA program of study, the number of transfer credits not to exceed the minimum residency requirements for the 36-hour or 54-hour program tracks (see above). Once admitted to the program, students may transfer only elective credits into the program from another AACSB-accredited institution. Required course credits may be accepted in transfer from another institution after admission to the Goddard School MBA Program only in circumstances where the student is unable to complete all required courses in residence due to relocation. All transfers are subject to program approval.

Time to Degree Completion

MBA students have a maximum of six calendar years to complete their degree completion requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this requirement may submit a letter of appeal to the MBA Program Director to request that this requirement be waived. Students who fail to enroll in MBA courses for more than six years must apply for readmission to the program.

Admission Requirements

In addition to the program prerequisites specified above, the primary criteria in determining eligibility for admission to the Goddard School MBA Program are: previous academic achievement, performance on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE), and other factors such as work experience and career progression. The ideal applicant will present a strong overall previous academic record, strong letters of recommendation, and an above average total GMAT/GRE score, including high achievement on the verbal, quantitative, and analytical writing assessments.

Applicants are exempt from the GMAT/GRE requirement under the following circumstances:
- if you have successfully completed one semester of college algebra AND;
- if you have previously earned a graduate degree from a regionally-accredited university (or international equivalent) OR;
- if your undergraduate GPA and relevant career experience match the following criteria:
  - 3.5+ GPA and 5+ years of relevant post-undergraduate career experience
  - 3.0 - 3.5 GPA and 10+ years of relevant post-undergraduate career experience

Applicants must submit a completed application form and current resume, as well as transcripts from every institution of higher education attended. Letters of recommendation from appropriate professional and/or academic references are also required. Each applicant is considered on an individual basis. The MBA program will have limited enrollment. Any applicant who is admitted while other courses or programs are still in process of completion is admitted conditionally.

Additional Admission Requirements for International Students:

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) which is not more than two years old and on which a minimum score of 550 (paper-based) or 213 (computer-based) or 80 internet based has been earned. Equivalent IELTS score also accepted in place of TOEFL. In addition to a TOEFL or IELTS score, all applicants educated outside the U.S. must submit transcripts that have been evaluated by a WSU approved foreign credentials evaluation service. For a list of approved agencies, click here: http://www.weber.edu/issc/credentials.html

A translated transcript is not accepted. Transcripts must be evaluated on a course-by-course format, showing U.S. semester credit and grade equivalent for each course based on a 4.0 GPA scale.
Students participating in WSU approved "Exchange Programs" within the Goddard School of Business and Economics must meet the following requirements:

1. Partner school must nominate student
2. Provide evidence of English proficiency by a TOEFL or IELTS score as indicated above
3. Meet all application and visa requirements as established by the International Students office. More information is available at this link: http://www.weber.edu/issc

Program Learning Outcomes

- MBA students will understand how to utilize the psychological science of trust through a focus on capability, character, and compassion.
- MBA students will be able to compare/contrast prominent leadership theories and to utilize these theories, along with their own introspection, to develop their own "theory of ethical leadership."
- MBA students will research and analyze current trends occurring in the global economy.
- MBA students will demonstrate their ability to conduct and integrate functional analysis by scoring in the 80% percentile or higher on each component of the ETS MBA exam.
- MBA students will use the appropriate tools to identify, analyze and make suggestions to improve a company's competitive strategy. Effective business analysts.
- MBA students will analyze and interpret financial data for decision making.
- MBA students will evaluate business systems and make recommendations for improvement.

MBA Program Requirements for Students with a Non-Business Undergraduate Degree

Foundations (15 credit hours)

Prerequisites: Admission to MBA program and college algebra or equivalent.

- MBA 6010 - Legal and Regulatory Environment of Business Credits: (3)
- MBA 6020 - Financial and Managerial Accounting Credits: (3)
- MBA 6040 - Managerial Economics Credits: (3)
- MBA 6050 - Quantitative Methods I Credits: (3)
- MBA 6051 - Quantitative Methods II Credits: (3)

Other Required Courses (24 credit hours)

- MBA 6110 - Fundamentals of Ethical Leadership Credits: (3)
- MBA 6120 - Organizational Behavior Credits: (3)
- MBA 6130 - Financial Management Credits: (3)
- MBA 6140 - Marketing Management Credits: (3)
- MBA 6150 - Operations/Supply Chain Management Credits: (3)
- MBA 6210 - Management Accounting and Control Credits: (3)
- MBA 6310 - Information Technology in the Enterprise Credits: (3)
- MBA 6410 - Global Macroeconomic Conditions Credits: (3)

Electives (select 12 credit hours)

- MBA 6160 - Applications of Decision Models Credits: (3)
- MBA 6170 - Corporate Communications Credits: (3)
- MBA 6360 - Aerospace Program Management Credits: (3)
- MBA 6370 - CPI & Strategy in Aerospace Management Credits: (3)
- MBA 6420 - The Economics of Industry Credits: (3)
• MBA 6430 - International Marketing Credits: (3)
• MBA 6440 - Strategic Leadership Credits: (3)
• MBA 6450 - Leadership Through People Skills Credits: (3)
• MBA 6460 - Advanced Leadership Credits: (3)
• MBA 6510 - Investment Analysis and Portfolio Management Credits: (3)
• MBA 6520 - International Business Field Studies Credits: (3)
• MBA 6530 - E-Business Credits: (3)
• MBA 6540 - Negotiations Credits: (3)
• MBA 6550 - Managing and Improving Quality Credits: (3)
• MBA 6560 - Business/Market Planning Using Online Resources Credits: (3)
• MBA 6580 - Project Management Credits: (3)
• MBA 6590 - Strategic Business Tax Planning Credits: (3)
• MBA 6630 - Networking Credits: (3)
• MBA 6640 - Cyber Security Credits: (3)
• MBA 6680 - Graduate Consulting Project Credits: (3)
• MBA 6700 - Managing for Sustainability Credits: (3)
• MBA 6710 - Accounting and Finance for Environmental Sustainability Credits: (3)
• MBA 6720 - Business, Economics, and the Environment Credits: (3)
• MBA 6730 - Consulting Project in Sustainability Credits: (3) *
• MBA 6740 - Principles of Contract Management Credits: (3)
• MBA 6760 - Legal Aspects of Contract Management Credits: (3)
• MBA 6800 - Directed Study Credits: (1-3)
• MBA 6850 - Business Development and Entrepreneurship Credits: (3)

Note:

* Students may complete either MBA 6680 or MBA 6730, but not both courses.

Capstone (3 credit hours)

• MBA 6180 - Strategic Management Credits: (3)

Fast-Track MBA Program Requirements for Students with an Undergraduate Business Degree

The Fast-Track MBA program is open only to students who have completed an undergraduate business degree from an AACSB-accredited business school within the past 10 years.

Required Courses (24 credit hours)

• MBA 6110 - Fundamentals of Ethical Leadership Credits: (3)
• MBA 6210 - Management Accounting and Control Credits: (3)
• MBA 6120 - Organizational Behavior Credits: (3)
• MBA 6130 - Financial Management Credits: (3)
• MBA 6140 - Marketing Management Credits: (3)
• MBA 6150 - Operations/Supply Chain Management Credits: (3)
• MBA 6310 - Information Technology in the Enterprise Credits: (3)
• MBA 6410 - Global Macroeconomic Conditions Credits: (3)

Electives (select 9 credit hours)
• MBA 6160 - Applications of Decision Models Credits: (3)
• MBA 6170 - Corporate Communications Credits: (3)
• MBA 6360 - Aerospace Program Management Credits: (3)
• MBA 6370 - CPI & Strategy in Aerospace Management Credits: (3)
• MBA 6420 - The Economics of Industry Credits: (3)
• MBA 6430 - International Marketing Credits: (3)
• MBA 6440 - Strategic Leadership Credits: (3)
• MBA 6450 - Leadership Through People Skills Credits: (3)
• MBA 6460 - Advanced Leadership Credits: (3)
• MBA 6510 - Investment Analysis and Portfolio Management Credits: (3)
• MBA 6520 - International Business Field Studies Credits: (3)
• MBA 6530 - E-Business Credits: (3)
• MBA 6540 - Negotiations Credits: (3)
• MBA 6550 - Managing and Improving Quality Credits: (3)
• MBA 6560 - Business/Market Planning Using Online Resources Credits: (3)
• MBA 6580 - Project Management Credits: (3)
• MBA 6590 - Strategic Business Tax Planning Credits: (3)
• MBA 6630 - Networking Credits: (3)
• MBA 6640 - Cyber Security Credits: (3)
• MBA 6680 - Graduate Consulting Project Credits: (3) *
• MBA 6700 - Managing for Sustainability Credits: (3)
• MBA 6710 - Accounting and Finance for Environmental Sustainability Credits: (3)
• MBA 6720 - Business, Economics, and the Environment Credits: (3)
• MBA 6730 - Consulting Project in Sustainability Credits: (3) *
• MBA 6740 - Principles of Contract Management Credits: (3)
• MBA 6750 - Financial Aspects of Contract Management Credits: (3)
• MBA 6760 - Legal Aspects of Contract Management Credits: (3)
• MBA 6800 - Directed Study Credits: (1-3)
• MBA 6850 - Business Development and Entrepreneurship Credits: (3)

Note:

* Students may complete either MBA 6680 or MBA 6730, but not both courses.

Capstone (3 credit hours)

• MBA 6180 - Strategic Management Credits: (3) or
• MBA 6560 - Business/Market Planning Using Online Resources Credits: (3)
Master of Accounting Program (MACC)

Program Director: Ryan Pace, 801-626-7562
Website: www.weber.edu/macc

An accounting professional in today's environment must possess a high level of technical competence, a sense of commitment to service, communication skills, analytical skills, and the ability to work well with people. To obtain the required body of knowledge and to develop the skills and abilities needed to be successful accounting professionals, serious consideration must be given to study beyond a four-year baccalaureate program. The Master of Accounting (MACC) Program provides an additional year of training for the professional accountant. In addition, the MACC satisfies the requirements of the Utah Certified Public Accountant Licensing Act for those wishing to sit for the Uniform CPA Examination. It gives the students an opportunity to increase the depth of their understanding in key areas and allows a broadening of perspective by providing course work in a variety of areas that cannot be considered in an undergraduate program due to time constraints.

Master of Accounting

Master of Accounting (MAcc)

- **Grade Requirements:** A Master of Accounting MAcc student must complete all MAcc program courses, including electives, and any leveling courses, with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in accounting.
- **Exit Survey Requirements:** The program requires all graduating students to satisfactorily complete all exit surveys as assigned by the department.
- **Program Code:** 4037MACC
- **CIPC:** 520301

Admissions Requirements

- A four year Bachelor's degree from a regionally accredited university or equivalent. If the degree is not in Accounting, leveling courses may be required for acceptance into the program.
- Minimum grade point average of at least 3.0 (3.3 preferred) in each of the following three areas:
  1. Overall GPA
  2. The last 60 credit hours of undergraduate work
  3. Accounting course work only

Applicants must submit an online application, current resume, and official transcripts from every institution of higher education attended. Two letters of recommendation are required. At least one of those letters should come from individuals who can evaluate the applicant's academic abilities. All letters should address the applicant's potential for successful graduate study. Each applicant is considered on an individual basis. Under certain circumstances, the admissions committee may require the applicant to submit an official GMAT score before an admissions decision is made.

Additional Admission Requirements for International Students:

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) which is not more than two years old. The TOEFL must have a minimum score of 80 (Internet-Based) and the IELTS must have a minimum of 6.5 with a minimum of 5.0 on each section. International
students may be required to have their foreign transcript evaluated for U.S. equivalency. Please contact the School of Accounting and Taxation to determine whether a GMAT will be required.

Application

Application for admission to the Master of Accounting Program should normally be made by August 1 (fall semester), December 1 (spring semester), and April 1 (summer semester) of the year during which admission is sought. Application for admission must include official GMAT (if required) results, official undergraduate transcripts, resume, and two letters of recommendation.

It is expected that the Master of Accounting Program will entail a minimum of two semesters of full-time study for a student with a bachelor’s degree in accounting. Students with other business-related degrees can expect to spend about two years in the program. Those with non-business related undergraduate degrees should plan to spend at least three years in the program.

Contact the School of Accounting & Taxation for a separate and detailed bulletin on the Master of Accounting Program.

Advisement

For questions concerning academic advisement, the primary source of contact will be the Master of Accounting Program Advisor or Director. For issues regarding registration and scheduling, students will contact the School of Accounting & Taxation Administrative Specialist. Career services are offered through the Goddard School of Business & Economics Career Center.

Program Learning Outcomes

- Be effective researchers and communicators
- Will understand and comply with tax laws and regulations
- Be ethically aware
- Be analytical thinkers
- Be globally informed

Course Requirements for Master of Accounting

Required

- MACC 6120 - Financial Accounting & Reporting Credits: (3)
- MACC 6130 - Governmental and Nonprofit Accounting Credits: (3)
- MACC 6160 - Financial Statement Analysis Credits: (3)
- MACC 6330 - Strategic Management Accounting Credits: (3)
- MACC 6560 - Advanced Auditing & Assurance Services Credits: (3)
- MACC 6610 - Advanced Accounting Information Systems Credits: (3)

Restricted Electives

At least one of the following (3 credit hours):

- MTAX 6400 - Tax Research & Procedure Credits: (3)
- MTAX 6405 - Accounting for Income Taxes Credits: (3)
- MTAX 6430 - Advanced Individual Taxation Credits: (3)
- MTAX 6460 - Advanced Corporate Taxation Credits: (3)
- MTAX 6470 - Advanced Partnership Taxation Credits: (3)
Other Electives

In addition to the previously listed courses, MAcc students are required to complete 9 additional hours of electives. They may select any other MAcc or MTax courses. Select MBA courses approved by the MAcc Program Director may also be used up to a maximum of 6 credit hours. Also, other program opportunities such as internships, CPA exam preparation, and study abroad upon approval of the MAcc Program Director, may be used to satisfy elective requirements for up to 6 credit hours.
Master of Taxation (MTax)

**Program Director:** Ryan Pace, 801-626-7562  
**Website:** www.weber.edu/mtax

The tax laws are vast, complex, and dynamic. Basic tax courses at the undergraduate level do not provide sufficient breadth or depth of coverage for future CPAs and tax consultants. Consequently, instruction at the graduate level is necessary. Tax law is a major branch of accounting. The Master of Taxation degree gives more recognition to a graduate as a tax specialist than does a Master of Accounting degree. The program is designed to provide students with the highly technical and demanding skills necessary to be effective tax and business consultants. Students will also acquire important tools necessary for effective research and communication in taxation.
Institutional Certificate

Taxation Graduate Certificate

- **Program Pre-requisites**: Bachelor's degree or higher.
- **Grade Requirements**: A student may earn the Taxation Graduate Certificate from the School of Accounting & Taxation by completing the following courses with an overall GPA of at least 3.0.
- **Credit Hour Requirements**: 15 credit hours total.
- **Program Code**: 4055GC
- **CIPC**: 521601

Course Requirements (12 credit hours)

- MTAX 6400 - Tax Research & Procedure **Credits**: (3)
- MTAX 6430 - Advanced Individual Taxation **Credits**: (3)
- MTAX 6460 - Advanced Corporate Taxation **Credits**: (3)
- MTAX 6470 - Advanced Partnership Taxation **Credits**: (3)

Additionally, select one of the following (3 credit hours)

- MTAX 6210 - Business Law and Legal Liability **Credits**: (3)
- MTAX 6405 - Accounting for Income Taxes **Credits**: (3)
- MTAX 6803 - Individual Study **Credits**: (3)
Master of Taxation

Master of Taxation (MTax)

- **Grade Requirements:** A Master of Taxation (MTax) student must complete all MTax program courses, including electives, and any leveling courses, with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in accounting.
- **Exit Survey Requirements:** The program requires all graduating students to satisfactorily complete all exit surveys as assigned by the department.
- **Program Code:** 4033MTAX
- **CIPC:** 521601

Admissions Requirements

- A four year Bachelor's degree from a regionally accredited university or equivalent.
- Minimum overall GPA of at least 3.0 (3.3 preferred).
- Minimum GPA of at least 3.0 (3.3 preferred) in the last 60 credit hours of undergraduate work.

Applicants must submit an online application, current resume, and official transcripts from every institution of higher education attended. Two letters of recommendation are required. At least one of those letters should come from individuals who can evaluate the applicant's academic abilities. All letters should address the applicant's potential for successful graduate study. Each applicant is considered on an individual basis. If an applicant has had minimal exposure to tax or accounting concepts, the admissions committee may require that the applicant complete some leveling courses prior to admission or during the program. Moreover, under certain circumstances, the admissions committee may require the applicant to submit an official GMAT score before an admissions decision is made.

Additional Admission Requirements for International Students:

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) which is not more than two years old. The TOEFL must have a minimum score of 80 (Internet-Based), and the IELTS must have a minimum of 6.5 with a minimum of 5.0 on each section. International students may be required to have their foreign transcripts evaluated for U.S. equivalency. Please contact the School of Accounting and Taxation to determine with a GMAT will be required.

Application

Application for admission to the Master of Taxation Program should normally be made by August 1 (fall semester), December 1 (spring semester), and April 1 (summer semester) of the year during which admission is sought. Application for admission must include official GMAT results (if required), official undergraduate transcripts, resume, and two letters of recommendation. It is expected that the Master of Taxation Program will entail a minimum of two semesters of full-time study for a student with a bachelor's degree in accounting. Students with other degrees should contact the program director to determine which leveling courses may be necessary. Contact the School of Accounting & Taxation for a separate and detailed bulletin on the Master of Taxation Program.

Advisement
For questions concerning academic advisement, the primary source of contact will be the Master of Taxation Program Advisor or Director. For issues regarding registration and scheduling, students will contact the School of Accounting & Taxation Administrative Specialist. Career services are offered through the Goddard School of Business & Economics Career Center.

**Program Learning Outcomes**

- Be effective researchers and communicators.
- Will understand and comply with tax laws and regulations.
- Be ethically aware.
- Be analytical thinkers.
- Be globally informed.

**Course Requirements for Master of Taxation**

**Required**

All MTax students are required to complete the following courses (15 credit hours):

- MTAX 6400 - Tax Research & Procedure Credits: (3)
- MTAX 6405 - Accounting for Income Taxes Credits: (3)
- MTAX 6430 - Advanced Individual Taxation Credits: (3)
- MTAX 6460 - Advanced Corporate Taxation Credits: (3)
- MTAX 6470 - Advanced Partnership Taxation Credits: (3)

**Restricted Electives**

At least one of the following (3 credit hours):

- MTAX 6410 - International Taxation Credits: (3)
- MTAX 6437 - State & Local Tax/Exempt Orgs Credits: (3)
- MTAX 6455 - Gifts, Estates, Trusts & Real Estate Taxation Credits: (3)
- MTAX 6487 - Retirement Plans Credits: (3)
- MTAX 6490 - Mergers, Acquisitions and Consolidations Credits: (3)

**Other Electives**

In addition to the previously listed courses, MTax students are required to complete 12 additional hours of electives. They may select any other MAcc or MTax courses. Select MBA courses approved by the MTax Program Director may also be used up to a maximum of 6 credit hours. Also, other program opportunities such as internships, CPA exam preparation, and study abroad, upon the approval of the MTax Program Director, may be used to satisfy elective requirements for up to 6 credit hours. If a student is part of the MTax Online Program, class selections are typically restricted to MTax courses only.
School of Accounting & Taxation

**Department Chair:** James Hansen  
**Location:** Wattis Business Building, Room 221  
**Telephone Contact:** Jeff Glover 801-626-6072  
**Professors:** Jefferson Davis, Yuhong Fan, James Hansen, David Malone, Matthew Mouritsen, Ryan Pace, Eric Smith;  
**Associate Professors:** Andrea Gouldman, Jim Turner;  
**Assistant Professors:** Valerie Chambers, Darcie Costello, Weiwei Wang;  
**Instructors:** Lisa Hopkins, Loisanne Kattelman, Terrilyn Morgan

### Accounting

The School of Accounting & Taxation creates a synergy between accounting, business, and economic theory and contemporary practice to prepare working professionals and full-time students for careers in a global, culturally diverse, information-driven economy. Three principles are central to our mission:

- **Education** - The first, and foremost, is fostering learning through excellent teaching, individual attention, and scholarship, which develops, assesses, and disseminates good practice.
- **Research** - The second is the application of theory to practice through applied research and scholarship, and the utilization of applied research to further learning in the classroom and through co-curricular activities.
- **Community** - The third is advancing contemporary practice and creating learning opportunities by contributing to the accounting profession and to business and the community.

Accounting is defined as the process of gathering, classifying, interpreting, and presenting financial and non-financial information for decision-making purposes to diversified user groups. The field of accounting encompasses the well-recognized profession of public accounting including auditing, management advisory services, and tax services; professional careers in industry such as management accounting (controllership), cost accounting, and internal auditing; careers in various governmental agencies and other accounting and business-related fields.

Certification in public accounting in Utah requires 30 semester hours beyond a baccalaureate degree. Students should take advantage of opportunities to prepare themselves to sit for one of the professional examinations (such as Certified Public Accountant, Certified Management Accountant, and/or Certified Internal Auditor) at the culmination of their accounting program.

### Finance

After studying in the School's core courses about the various functions in organizations, the student who concentrates in finance learns how to efficiently acquire, allocate, and control a firm's financial resources.

A background in finance will prepare the student to: (1) conduct detailed financial analyses; (2) relate the financial environment of an organization to the policies that organization will need for optimum returns; and (3) select and analyze investment opportunities for both individuals and organizations.
Bachelor of Science

Accounting (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These six courses are referred to collectively as "Business Foundations." All Accounting courses numbered above 3000 require admission to the Goddard School and Business Foundations except ACTG 3110 and ACTG 3400.

- **Minor:** Not required.

- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (major) GPA, and the overall university GPA must be 2.5 or higher.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.

- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

- **Exit Survey Requirements:** The program requires all graduating students to satisfactorily complete all exit surveys as assigned by the department.

- **Website:** [weber.edu/goddard/accounting.html](http://weber.edu/goddard/accounting.html)

- **Program Code:** 4001BS

- **CIPC:** 520301

**Advisement**

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

**General Education**

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Accounting major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); COMM 1020 or 2110 (Humanities); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

**Program Learning Outcomes**

- Understand the professional role played by accountants in society.
- Effectively utilize the accounting cycle.
- Understand the audit processes.
- Be proficient with accounting information systems and controls.
- Understand tax law and compliance.
- Effectively use research tools.
- Be globally informed.

**John B. Goddard School of Business & Economics Requirements**
John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:
- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)

Complete one of the following Math courses:
- MATH 1050 QL - College Algebra Credits: (4)
- MATH 1090 QL - Business College Algebra Credits: (3)

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- BSAD 4620 - Executive Lectures Credits: (1)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- QUAN 2600 - Business Statistics I Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or
• ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

• QUAN 3610 - Business Statistics II Credits: (3)
• BSAD 3200 - Legal Environment of Business Credits: (3)
• BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
• FIN 3200 - Financial Management Credits: (3)
• MGMT 3010 - Organizational Behavior and Management Credits: (3)
• SCM 3050 - Operations and Supply Chain Management Credits: (3)
• MKTG 3010 - Marketing Concepts and Practices Credits: (3)
• MIS 2020 - Introduction to Information Systems Credits: (3)
• BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

• MGMT 3200 - Managerial Communications Credits: (3)
• PS 3250 - Business Communication Credits: (3)
• SCM 4500 - Supply Chain Relational Skills Credits: (3)
• ENGL 3100 - Professional and Technical Writing Credits: (3)
• ENGL 3530 - The Literature of Business and Economics Credits: (3)
• ECON 4970 - Introduction to Research Methods Credits: (1) and
• ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

• ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
• ECON 3110 - International Trade Credits: (3)
• ECON 3120 - International Finance and Monetary Systems Credits: (3)
• ECON 4170 - Economic Development Credits: (3)
• MIS 3710 - Global Issues in Information Technology Credits: (3)
• MGMT 3400 - International Business Credits: (3)
• MKTG 3600 - International Marketing Credits: (3)
• SCM 4400 - Global Supply Chain Management Credits: (3)
5. Major Course Requirements for BS Degree (33 credit hours)

Required Major Courses (30 credit hours)

All course prerequisites must be met. Refer to the course descriptions for required prerequisites.

- ACTG 3110 - Intermediate Financial Accounting I Credits: (3)
- ACTG 3120 - Intermediate Financial Accounting II Credits: (3)
- ACTG 3130 - Accounting Data Analytics Credits: (3)
- ACTG 3300 - Cost Accounting Credits: (3)
- ACTG 3400 - Taxation of Individuals Credits: (3)
- ACTG 3750 - Accounting & Information Systems Credits: (3)
- ACTG 4510 - Auditing Credits: (3)
- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3) *
- ACTG 4440 - Taxation of Business Entities Credits: (3)
- QUAN 2400 - Business Calculus Credits: (3)

*ACTG 4140 satisfies the International requirement under the Cross-Functional Core as well as the Required Major course requirement.

Oral Communications Elective (3 credit hours)

Select one of the following:

- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- COMM 2270 - Argumentation and Debate Credits: (3)
- COMM 3070 - Performance Studies Credits: (3)
- COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
Finance (BS)

- **Program Prerequisites**: Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 4620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)

- **Minor**: Not required.

- **Grade Requirements**: Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (major) GPA, and the overall university GPA must be 2.5 or higher.

- **Credit Hour Requirements**: A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.

- **Residency Requirement**: Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

- **Website**: www.weber.edu/goddard/Finance.html

- **Program Code**: 4042BS

- **CIPC**: 520801

**Advisement**

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

**General Education**

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Finance major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

**Program Learning Outcomes**

- Understand the professional role played by finance and financial institutions in business and society.
- Graduates will exhibit knowledge of theoretical concepts, ideas, and topics of Financial Analysis, Corporate Finance, and Investments.
- Be able to perform financial analysis

**John B. Goddard School of Business & Economics Requirements**

**John B. Goddard School of Business & Economics Curriculum**

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)
The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:
- **ENGL 2010 EN2 - Intermediate College Writing Credits: (3)**
- **ENGL 2015 EN2 - Intermediate College Writing & Research Credits: (4)**

Complete one of the following Math courses:
- **MATH 1050 QL - College Algebra Credits: (4)**
- **MATH 1090 QL - Business College Algebra Credits: (3)**

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements. MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area before completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C-" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the seven Business Foundation courses.

- **ACTG 2010 - Survey of Accounting I Credits: (3)**
- **ACTG 2020 - Survey of Accounting II Credits: (3)**
- **BSAD 4620 - Executive Lectures Credits: (1)**
- **ECON 2010 SS - Principles of Microeconomics Credits: (3)**
- **ECON 2020 SS - Principles of Macroeconomics Credits: (3)**
- **QUAN 2600 - Business Statistics I Credits: (3)**
- **MIS 2010 - Business Computer Skills Credits: (1)**

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- **BSAD 2899 - Business Foundations and Admissions Process Credits: (0) or**
- **ECON 2899 - Economics Foundations and Admissions Process Credits: (0) (for non-business Economics majors only)**

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)
The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization. Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II Credits: (3)
- BSAD 3200 - Legal Environment of Business Credits: (3)
- BSAD 3330 - Business Ethics & Environmental Responsibility Credits: (3)
- FIN 3200 - Financial Management Credits: (3)
- MGMT 3010 - Organizational Behavior and Management Credits: (3)
- SCM 3050 - Operations and Supply Chain Management Credits: (3)
- MKTG 3010 - Marketing Concepts and Practices Credits: (3)
- MIS 2020 - Introduction to Information Systems Credits: (3)
- BSAD 4780 - Strategic Management Credits: (3) *

*BSAD 4780 should be taken near the conclusion of the program of study.

One of the following Communication courses:

- MGMT 3200 - Managerial Communications Credits: (3)
- PS 3250 - Business Communication Credits: (3)
- SCM 4500 - Supply Chain Relational Skills Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ECON 4970 - Introduction to Research Methods Credits: (1) and
- ECON 4980 CRE - Research Methods Credits: (3)

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ECON 3110 - International Trade Credits: (3)
- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- ECON 4170 - Economic Development Credits: (3)
- MIS 3710 - Global Issues in Information Technology Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MKTG 3600 - International Marketing Credits: (3)
- SCM 4400 - Global Supply Chain Management Credits: (3)

5. Major Course Requirements for BS Degree (30 credit hours)

Major Courses Required (21 credit hours)

All course prerequisites must be met. Refer to the course descriptions for required prerequisites.

- ECON 3120 - International Finance and Monetary Systems Credits: (3)
- FIN 3300 - Investments Credits: (3)
- FIN 3350 - Financial Institutions Credits: (3)
- FIN 3500 - Capital Budgeting Credits: (3)
• FIN 4400 - Financial Problems - Corporate Finance Credits: (3)
• FIN 4410 - Financial Problems - Investments Credits: (3)
• QUAN 2400 - Business Calculus Credits: (3)

*ECON 3120 satisfies the International Course requirement under the Business Core as well as the Major Course requirement.

Elective Courses (9 credit hours)

Select three courses:
• ACTG 3110 - Intermediate Financial Accounting I Credits: (3)
• ACTG 3120 - Intermediate Financial Accounting II Credits: (3)
• ACTG 3400 - Taxation of Individuals Credits: (3)
• BSAD 3500 - Introduction to Business Research Credits: (3)
• BSAD 4210 - Survey of Business Law Credits: (3)
• BSAD 4500 - Entrepreneurship Credits: (3)
• ECON 3200 - Money and Banking Credits: (3)
• ECON 4520 - Public Finance Credits: (3)
• FIN 3400 - Real Estate Principles and Practices Credits: (3)
• FIN 4860 INT - Finance Internship Credits: (3)
• MKTG 3200 - Selling and Sales Management Credits: (3)
• SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics Credits: (3)
• SCM 4100 - Quality Management and Process Improvement Credits: (3)
• One Additional International Course from Goddard School list
Minor

Accounting Minor/BIS

- **Grade Requirements**: Candidates for minors must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (minor) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements**: A total of 25 credit hours is required. Of the 25 hours, 15 hours are accounting classes and the remaining classes are support courses.
- **Website**: weber.edu/goddard/accountingminor.html
- **Program Code**: 4001
- **CIPC**: 520301

*For Goddard School majors other than finance, this minor includes up to nine credit hours of course work beyond requirements in major field, depending on the electives chosen. Finance majors can complete an accounting minor with no additional hours beyond the major requirements, depending on the electives chosen.*

This minor is available to all students. Business students must complete the minor requirements in addition to all major requirements. All prerequisites for required courses must be satisfied.

Course Requirements for Accounting Minor

Support Courses Required (16 credit hours)

Business Foundations:
- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)
- QUAN 2600 - Business Statistics I Credits: (3)
- BSAD 2899 - Business Foundations and Admissions Process Credits: (0)

Minor Courses Required (6 credit hours)

- ACTG 3110 - Intermediate Financial Accounting I Credits: (3)
- ACTG 3120 - Intermediate Financial Accounting II Credits: (3)

Minor Elective Courses (3 credit hours)

Choose one of the following:
- ACTG 3300 - Cost Accounting Credits: (3)
- ACTG 3400 - Taxation of Individuals Credits: (3)
- ACTG 3750 - Accounting & Information Systems Credits: (3)
- ACTG 4140 - Accounting for Global and Complex Entities Credits: (3)
- ACTG 4510 - Auditing Credits: (3)
Finance Minor

- **Grade Requirements:** Candidates for minors must complete all prerequisite and required business and economics courses with a grade of "C-" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (minor) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 35 credit hours are required for all registered students to complete the minor, including hours earned in prerequisite classes.
- **Program Code:** 4042
- **CIPC:** 520801

*For Goddard School majors other than Business Administration and Supply Chain Management, this minor includes nine credit hours of course work beyond requirements in the major field. Business Administration and Supply Chain Management majors can complete a finance minor with six additional hours beyond the major requirements, depending on the electives chosen.*

This minor is available to all students. Business students must complete the minor requirements in addition to all major requirements. All prerequisites for required courses must be satisfied.

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog. Use Grad MAPs to plan your degree.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for students pursuing a Bachelor of Science or Associates of Science as well as students pursuing minors in Accounting, Finance, or Economics. To be admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534.

Required Support Course (4 Hours)

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2600.

- MATH 1050 QL - College Algebra Credits: (4) OR
- MATH 1090 QL - Business College Algebra Credits: (3)

Business Foundations (16 Hours)

The Goddard School Business Foundations courses serve as prerequisites for the finance minor required and elective classes. Although not every required or elective class has every Business Foundations class as a prerequisite, students cannot earn the finance minor without completing all the Goddard School Business Foundations courses.

- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)
- ECON 2010 SS - Principles of Microeconomics Credits: (3)
- ECON 2020 SS - Principles of Macroeconomics Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)
- QUAN 2600 - Business Statistics I Credits: (3)
- BSAD 2899 - Business Foundations and Admissions Process Credits: (0)

Prerequisite Course From Business Core (3 Hours)
QUAN 3610 is a prerequisite for FIN 3300 and FIN 4400.

- QUAN 3610 - Business Statistics II Credits: (3)

Required Minor Courses (9 Hours)

Students must complete the courses listed below:

- FIN 3200 - Financial Management Credits: (3)
- FIN 3300 - Investments Credits: (3)
- FIN 3500 - Capital Budgeting Credits: (3)

Elective Minor Courses (3 Hours)

Students must also complete one course from the list below:

- FIN 3350 - Financial Institutions Credits: (3)
- FIN 3400 - Real Estate Principles and Practices Credits: (3)
- FIN 4400 - Financial Problems - Corporate Finance Credits: (3)
- FIN 4410 - Financial Problems - Investments Credits: (3)
Jerry and Vickie Moyes College of Education

Dr. Kristin Hadley, Dean

The College of Education is committed to developing and maintaining healthy and responsible individuals, families, and schools in a global and diverse society through roles related to the preparation and support of practitioners and educators, service to campus and community, and the discovery and advancement of knowledge.

Students completing baccalaureate programs in the College of Education will be granted the Bachelor of Science degree. The College also grants Master of Education degrees in Curriculum and Instruction and Master of Science degrees in Athletic Training.

Dean: Dr. Kristin Hadley
Location: David O. McKay Education Building, Room 228
Telephone Contact: Carol VandenAkker, 801-626-6272
Associate Dean: Dr. Chloe D. Merrill
Location: David O. McKay Education Building, Room 228
Telephone Contact: 801-626-7515

Department Chairs/Directors

Child and Family Studies: Dr. Wei Qiu 801-626-7386
Exercise and Nutrition Sciences: Dr. Jennifer Turley 801-626-6933
Graduate Certificate in Teaching: Dr. Pene'e Stewart 801-626-7402
Health, Physical Education, and Recreation: Dr. Chad Smith 801-626-7084
Master of Education: Dr. Louise Moulding 801-626-6278
Teacher Education: Dr. Clay Rasmussen 801-626-7239

Grade Appeal Procedures

The evaluation of student performance is recorded on the student's University transcript as part of the student's permanent record. The grade is determined by the faculty member responsible for the course and is based upon factors related to achievement of the course objectives. The grade is considered final unless an appropriate appeal is filed by the student. For the student who is dissatisfied with a grade and has reason to believe the grade issued is incorrect, the following appeal procedure is provided by the College and the University. Steps 1 and 2 of the process are considered informal appeals and are designed to provide an avenue for resolution without a formal hearing.

Step 1
Within fourteen (14) days of the beginning of the following term, the student shall confer with the instructor who issued the grade and outline the reason/s why he or she believes the grade to be incorrect. (If the faculty member is unavailable, the student must contact the faculty member's chairperson within this same time period to request an extension of the time allowed for this step. Such permission must be obtained in writing.) Within seven (7) days of the student-faculty conference, the faculty member shall advise the student, in writing, of the outcome of the course grade review.

If the student still considers the grade to be incorrect, the student may appeal the grade at the department level. This appeal must be in writing, must follow the procedures outlined in the College's Grade Appeal Process document, and must be filed not later than seven (7) days from the date of the completion of step one. The College Grade Appeal Process document may be picked up from the department office or the office of the dean.

Step 3
If, after completion of step 2, the student is still dissatisfied, the student should consult with the University's due process officer and may request that the case be reviewed by a Weber State University hearing committee.
Departments and Programs

Exercise and Nutrition Sciences Department

Department Chair: James Hansen  
Location: Wattis Business Building, Room 221  
Telephone Contact: Jeff Glover 801-626-6072
Professors: Jefferson Davis, Yuhong Fan, James Hansen, David Malone, Matthew Mouritsen, Ryan Pace, Eric Smith; Associate Professors: Andrea Gouldman, Jim Turner; Assistant Professors: Valerie Chambers, Darcie Costello, Weiwei Wang; Instructors: Lisa Hopkins, Loisanne Kattelman, Terrilyn Morgan

Exercise and Nutrition Sciences (ENS) in the Jerry & Vickie Moyes College of Education offers programs that teach skills and knowledge needed to maintain and enhance human performance and well-being through exercise, fitness, sport, and optimal nutrition. We offer undergraduate students exceptional educational experiences in a variety of teaching environments supported by faculty with diverse expertise. Our state-of-the-art facilities - including fully equipped laboratories (biomechanics, human performance, nutritional biochemistry, and foods), a networked computer lab, and ample indoor and outdoor fitness and activity arenas - provide outstanding areas for student instruction and research. With a curriculum designed to develop professional knowledge and skills, our graduates enter the workforce as fitness and nutrition professionals in a variety of educational, health and fitness settings, and are prepared to pursue graduate studies in their respective career fields. Through instruction, scholarship and service, our department offers Bachelor of Science degrees in Exercise and Sport Science (Fitness Professional and Exercise Science emphases) and Nutrition Education (Integrative Nutrition and Sports Nutrition emphases) and a Nutrition Education minor. We also support the efforts of undergraduates seeking the Bachelor of Integrated Studies degree, offering Exercise Science and Nutrition Education and as emphases for the BIS Program.

Mission Statement

The Department of Exercise and Nutrition Sciences (ENS) supports and enhances the mission of the University through learning, access, and community partnerships in exercise and nutrition sciences. We provide effective instruction, exploratory research, and engaged service to prepare exercise, fitness, and nutrition professionals for the workforce and graduate studies and to promote optimal health, human performance, and overall well-being.
Exercise and Sport Science (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Exercise and Sport Science with two emphasis options: Fitness Professional and Exercise Science. Students may declare one or both emphases. The Exercise and Sport Science major program prepares students for a variety of career options, several national certifications, and for entering graduate and professional schools.

Graduates will have demonstrated competence and knowledge in anatomy, physiology, fitness assessment, kinesiology, biomechanics, exercise physiology, exercise programming and implementation, exercise leadership and client education, nutrition, health, strength and conditioning, weight lifting, aerobic activities, and more.

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a total of 63 credit hours for this major. Ten to 11 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required for graduation with 36-38 upper division hours possible within the required courses for this major.
- **Program Code:** 5049BS with one of the following emphasis codes Fitness Professional (5050) or Exercise Science (5051).
- **CIPC:** 310505

Advisement

All Exercise and Sport Science students are encouraged to meet with a faculty advisor or the department advisement coordinator each semester for course and program advisement. Call 801-626-6696 or email the ENS Department Advisor matthewsmith20@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Make application with the ENS Department and declare program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Apply knowledge of exercise science including kinesiology, functional anatomy, exercise physiology, nutrition, program administration, psychology, and injury prevention in the health/fitness setting.
- Perform pre-participation health screenings and fitness assessments.
- Interpret assessment results and develop exercise prescription.
- Incorporate suitable physical activities to improve functional capacity.
- Apply appropriate behavioral change techniques to effectively educate and counsel lifestyle modification.
- Create and disseminate risk management guidelines for a health/fitness facility, department or organization to reduce member, employee and business risk. OR Create an effective injury prevention program and ensure that emergency policies and procedures are in place.
- Perform duties related to fitness management, administration, and program supervision.
Major Course Requirements for BS Degree

Required Core Courses (25 credit hours, 16 UD)

- RHS 2300 - Emergency Response Credits: (3)
- ESS 2200 - Exploring Exercise Science Professions Credits: (3)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ESS 3600 - Measurement and Statistics in Exercise Science Credits: (3)
- ESS 4370 - Clinical Exercise Physiology Credits: (3)
- ESS 4990 - Senior Seminar Credits: (1)

Professional Areas of Emphasis

A student must complete the required and support courses in either the Fitness Professional or the Exercise Science Emphasis.

Fitness Professional Emphasis (38 credit hours, 20 UD possible)

Required Core (22 credit hours, 19 UD)

- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3) or
  NUTR 4420 - Nutrition and Fitness Credits: (3)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- ESS 2890 INT - Cooperative Work Experience Credits: (1-6)
- ESS 4890 INT - Cooperative Work Experience Credits: (1-6)
  (5 credit hours required)
- ESS 4320 - Special Topics Credits: (3)
- ESS 4800 - Directed Undergraduate Exercise Science Research Credits: (1-4)
- ESS 4830 - Directed Readings in Exercise Science Credits: (1-3)
- PS 3203 - Customer Service Techniques Credits: (3) or
  PS 3563 - Principles of Sales Supervision Credits: (3)

Skill Development (select 2) (2 credit hours total, 0 UD)

- PE 1010 - Aerobics, Level I Credits: (1)
- PE 1040 - Walking for Fitness, Level I Credits: (1)
- PE 1043 - Jogging, Level I Credits: (1)
- PE 1070 - Cross Training For Fitness, Level I Credits: (1)
- PE 1080 - Strength Training, Level I Credits: (1)
- PE 1300 - Swimming, Level I Credits: (1)

Required Support Courses (14 credit hours, 0 UD)
- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4)
- HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- CHEM 1010 PS - Introductory Chemistry Credits: (3)

Exercise Science Emphasis (38 credits, check requirements for UD)

Required Electives (Choose 23 credits from College and Professional Development)

College (ENS & HPER) (At least 11 credits, 6-16 UD possible)

- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3) or
  NUTR 4420 - Nutrition and Fitness Credits: (3)
- NUTR 4320 - Current Issues in Nutrition Credits: (2)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3400 - Sport Psychology for Coaches Credits: (3)
- PEP 4800 - Individual Projects Credits: (1-4)
- ESS 2890 INT - Cooperative Work Experience Credits: (1-6)
- ESS 4320 - Special Topics Credits: (3)
- ESS 4800 - Directed Undergraduate Exercise Science Research Credits: (1-4)
- ESS 4830 - Directed Readings in Exercise Science Credits: (1-3)
- ESS 4890 INT - Cooperative Work Experience Credits: (1-6)

Professional Development (3-12 credits, 3-12 UD possible)

- CHEM 1110 PS - Elementary Chemistry Credits: (4) and
  CHEM 1115 - Elementary Chemistry Lab Credits: (1)
- CHEM 1120 - Elementary Organic Bio-Chemistry Credits: (4) and
  CHEM 1125 - Elementary Organic Bio-Chemistry Lab Credits: (1)
- CHEM 1210 PS - Principles of Chemistry I Credits: (4) and
  CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
- CHEM 1220 - Principles of Chemistry II Credits: (4) and
  CHEM 1225 - Principles of Chemistry II Lab Credits: (1)
- CHEM 2310 - Organic Chemistry I Credits: (4) and
  CHEM 2315 - Organic Chemistry I Lab Credits: (1)
- MICR 2054 LS - Principles of Microbiology Credits: (4)
- MICR 3203 - The Immune System in Health & Disease Credits: (3)
- PHYS 2010 PS - College Physics I Credits: (5)
- PHYS 2020 - College Physics II Credits: (5)
- PSY 3010 - Abnormal Psychology Credits: (3)
- ZOOL 1110 LS - Principles of Zoology Credits: (4)
- ZOOL 3200 - Cell Biology Credits: (4)
- ZOOL 3300 - Genetics Credits: (4)
Required Support Courses (15 credit hours, 0 UD)

- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or  
- ZOOL 2100 - Human Anatomy Credits: (4)

- HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4) or  
- ZOOL 2200 LS - Human Physiology Credits: (4)

- MATH 1050 QL - College Algebra Credits: (4) or higher level math
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
Exercise Science (BIS)

Bachelor of Integrated Studies

- **Grade Requirements**: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
- **Credit Hour Requirements**: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

*The course of study in each discipline must be approved by the appropriate program director.*

BIS Possible Options

*These are only recommendations; many combinations and options for potential careers are possible.*

Health Education & Health Promotion Emphasis

**Program Code**: 5013  
**CIPC**: 512207  
Community Health Promotion  
Occupational Health Education  
Clinical Health Education *(See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions)*  
Family Life Health Promotion  
Gerontological Health Promotion  
Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis  
Dietary Prescription  
Nutrition Education  
Weight Management  
Nutritional Ergogenics

Exercise Science Emphasis

**Program Code**: 5019  
**CIPC**: 310505  
Coaching Sport  
Corporate Fitness  
Community Fitness  
Sports Medicine  
Sport Communication  
Commercial/Facility Management  
Sport Psychology

BIS Requirements

*Also refer to individual minor programs.*
Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Exercise Science Emphasis

Upper Division Hours 13, Total Hours Required 18

- HLTH 1300 - First Aid: Responding to Emergencies Credits: (2)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ESS 4370 - Clinical Exercise Physiology Credits: (3)
- ESS 4990 - Senior Seminar Credits: (1)
Nutrition Education (BIS)

- **Program Prerequisite**: Prior departmental approval is required.
- **Grade Requirements**: A GPA of 2.5 or better in courses used toward the minor.
- **Credit Hour Requirements**: A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).
- **Program Code**: 5015
- **CIPC**: 190504

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work-Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/ reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for BIS Emphasis

**Required Core Courses (7-9 credit hours)**

- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 4830 - Directed Readings Credits: (1-3)

**Elective Courses (9-11 credit hours)**

- NUTR 1120 - Nutrition for the Athlete Credits: (2)
- NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- NUTR 3420 - Multicultural Health & Nutrition Credits: (3)

- NUTR 3070 - Advanced Food Science Credits: (3)
- NUTR 3220 - Foundations in Diet Therapy Credits: (3)
Nutrition Education (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Nutrition Education with two emphasis options: Sports Nutrition; and Integrative Nutrition. Students may declare one or both emphases. The Nutrition Education major program prepares students for a variety of career options and for graduate school to pursue advanced degrees.

The Sport's Nutrition Educator graduate will have demonstrated competence and knowledge in chemistry, anatomy, physiology, diet analysis and design, nutrition assessment, sports and fitness nutrition, diet therapy, lifespan nutrition, research, and related exercise science topics with cultural application and sensitivity for individuals and athletes. Information is provided for typical graduate Registered Dietitian Nutritionist (RDN) program pre-requisites. The prerequisites vary somewhat from one graduate program to another and it is the student's responsibility to ensure that all pre-professional courses fulfill entrance requirements. Integrative nutrition includes nutrition as it intersects with other related fields to support health and wellbeing of individuals and groups. The Integrative Nutrition Educator graduate will have demonstrated competence and knowledge in diet analysis and design, fitness nutrition, lifespan nutrition, sustainable cooking, and related exercise science, health, child and family studies, botany, microbiology, physical education, recreation, and/or psychology topics with cultural application and sensitivity.

- **Program Prerequisites:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a total of 60 credit hours for this major. This includes 12-17 credit hours of required general education requirements. A total of 40 upper division credit hours are required for graduation with 29-30 upper division hours possible within the required courses for the major track options.
- **Program Code:** 5015BS with Integrative Nutrition Emphasis (5052) or Sports Nutrition Emphasis (5053)
- **CIPC:** 190504

Advisement

All Nutrition Education students are encouraged to meet the ENS department academic advisor at least twice a year. Call 801-626-6696 or send a message to matthewsmith20@weber.edu for more information or to schedule an appointment. Also refer to the Department Advisor Referral List.

Admissions Requirements

Make application with the ENS Department and declare the program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Knowledge & Skills to solve nutrition and health related problems.
- Integrated & Applied Expertise to educate and communicate for optimal health promotion and human performance.
- Personal and Community Responsibility to optimize healthful behaviors of individuals, families, and/or communities through the life cycle with networking, resources, and Support.
- High Impact Experiences from assimilating or engaging in research, group projects, senior capstone work, and/or community-based fieldwork.
• Diet Analysis & Design by performing accurate diet analysis and design according to dietary guidelines for Americans, for health, fitness, and/or sport performance and with comprehensive evaluation, interpretation, and application.
• Nutrient Needs & Functions by gender and activity level for various age groups and health conditions using healthy and sustainable food preparation methods.
• Nutrition Issues & Assessment across cultures and the lifespan, for fitness and sport performance, in culinary science, and for the prevention and treatment of various medical conditions.
• Human Structure and Function by understanding how nutrition intersects with living and nonliving hierarchies within the human body.

Major Course Requirements for BS Degree (60 credit hours)

Complete the Nutrition Education required core, select the Integrative Nutrition emphasis and/or Sports Nutrition emphasis and complete the required, elective, and general education and support courses in the selected emphasis.

Nutrition Education Required Core Courses (15 credit hours, 9 Upper Division credits)

• NUTR 2020 - Nutrition in the Life Cycle Credits: (3)
• NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
• NUTR 3020 - Sports Nutrition Credits: (3)
• NUTR 3420 - Multicultural Health & Nutrition Credits: (3)
• NUTR 4320 - Current Issues in Nutrition Credits: (2)
• NUTR 4990 - Senior Seminar Credits: (1)

INTEGRATIVE NUTRITION Emphasis

Required General Education Courses (14-17 credit hours, 0 Upper Division, 17 General Education)

• CHEM 1110 PS - Elementary Chemistry Credits: (4) and
• CHEM 1115 - Elementary Chemistry Lab Credits: (1)
  OR
• CHEM 1210 PS - Principles of Chemistry I Credits: (4) and
• CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
• HLTH 1030 SS - Healthy Lifestyles Credits: (3)
• NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
• PSY 1010 SS - Introductory Psychology Credits: (3) or
• CHF 1500 SS/DV - Human Development Credits: (3)
• COMM 1020 HU - Principles of Public Speaking Credits: (3) or
• COMM 1500 - Introduction to Mass Communication Credits: (3) or
• COMM 2010 HU - Mass Media and Society Credits: (3) or
• COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

Required Courses (5 credit hours, 2 Upper Division credits)

• NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
• NUTR 4860 INT - Field Experience Credits: (1-2) (2 credits required)
Electives (23 credit hours required, 23 Upper Division credits possible, check requirements for Upper Division)

- RHS 3080 - Evidence Based Practice for Rehabilitation Sciences Credits: (3)
- BTNY 2303 - Ethnobotany Credits: (3)
- BTNY 3583 - Medicinal Plants-Chemistry and Use Credits: (4)
- FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
- FAM 4400 - The Family in Stress Credits: (3)
- COMM 3820 - Persuasive Communication Credits: (3) or PS 3250 - Business Communication Credits: (3) or MGMT 3200 - Managerial Communications Credits: (3)
- HLTH 1110 - Stress Management Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 3400 - Substance Abuse Prevention Credits: (3)
- HLTH 4700 - Wellness Coaching Credits: (3)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- MICR 3203 - The Immune System in Health & Disease Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 4440 - Advanced Human Nutrition Credits: (3)
- NUTR 4520 - Directed Undergraduate Nutrition Research Credits: (1-4) (up to 6 credits allowed in degree)
- PE 1080 - Strength Training, Level I Credits: (1)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
- PSY 3000 - Child Psychology Credits: (3) or PSY 3140 - Adolescent Psychology Credits: (3) or PSY 3560 - Group Dynamics and Counseling Credits: (3)
- PSY 3255 - Conditioning, Learning, & Behavior Modification Credits: (3)
- PS 3203 - Customer Service Techniques Credits: (3) or PS 3563 - Principles of Sales Supervision Credits: (3)
- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- NUTR 3040 - Nutrition Assessment Credits: (3)
- NUTR 4830 - Directed Readings Credits: (1-3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- NUTR 3220 - Foundations in Diet Therapy Credits: (3)
- NUTR 3070 - Advanced Food Science Credits: (3)

SPORTS NUTRITION Emphasis

Required General Education and Support Courses (16 credit hours, 12 General Education, 0 Upper Division)

- CHEM 1210 PS - Principles of Chemistry I Credits: (4) and CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or ZOOL 2100 - Human Anatomy Credits: (4)
Required Courses (25 credit hours, 15 Upper Division credits)

- CHEM 1220 - Principles of Chemistry II Credits: (4)
- CHEM 1225 - Principles of Chemistry II Lab Credits: (1)
- CHEM 2310 - Organic Chemistry I Credits: (4)
- CHEM 2315 - Organic Chemistry I Lab Credits: (1)
- CHEM 3070 - Biochemistry I Credits: (3)
- NUTR 3070 - Advanced Food Science Credits: (3)
- NUTR 3040 - Nutrition Assessment Credits: (3)
- NUTR 4440 - Advanced Human Nutrition Credits: (3)
- NUTR 3220 - Foundations in Diet Therapy Credits: (3)

Electives (4 credit hours required, 4 Upper Division credits possible)

- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ESS 3600 - Measurement and Statistics in Exercise Science Credits: (3)
- ESS 4370 - Clinical Exercise Physiology Credits: (3)
- NUTR 1120 - Nutrition for the Athlete Credits: (2)
- NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
- NUTR 4520 - Directed Undergraduate Nutrition Research Credits: (1-4) (up to 6 credits allowed in degree)
- NUTR 4860 INT - Field Experience Credits: (1-2)
- PE 1080 - Strength Training, Level I Credits: (1)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3400 - Sport Psychology for Coaches Credits: (3) or
- PSY 3010 - Abnormal Psychology Credits: (3) or
- RHS 3200 - Psychology of Sport, Injury & Rehabilitation Credits: (3)
- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- NUTR 4830 - Directed Readings Credits: (1-3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- BTNY 3583 - Medicinal Plants-Chemistry and Use Credits: (4)

Additional Suggested Courses Needed for many Graduate Registered Dietitian programs (includes General Education)

- ECON 1010 SS - Economics as a Social Science Credits: (3) or
- ECON 2010 SS - Principles of Microeconomics Credits: (3) or
- SOC 1010 SS/DV - Introduction to Sociology Credits: (3) or
- PSY 1010 SS - Introductory Psychology Credits: (3)
- MATH 1040 QL - Introduction to Statistics Credits: (3)
- ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
- MATH 1050 QL - College Algebra Credits: (4)
- PHYS 1010 PS - Elementary Physics Credits: (3)
- ZOOL 1020 LS - Human Biology Credits: (3)
Nutrition Education Minor

- **Program Prerequisite:** Prior departmental approval is required.
- **Grade Requirements:** A GPA of 2.5 or better in courses used toward the minor.
- **Credit Hour Requirements:** A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).
- **Program Code:** 5015
- **CIPC:** 190504

Course Requirements for Minor

**Required Core Courses (11 credit hours)**

- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 3420 - Multicultural Health & Nutrition Credits: (3)
- NUTR 4320 - Current Issues in Nutrition Credits: (2)

**Elective Courses (7 credit hours)**

Select 7 credit hours from the following:

- NUTR 1120 - Nutrition for the Athlete Credits: (2)
- NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 3220 - Foundations in Diet Therapy Credits: (3)
- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- NUTR 4520 - Directed Undergraduate Nutrition Research Credits: (1-4)
- NUTR 4860 INT - Field Experience Credits: (1-2)
- NUTR 2020 - Nutrition in the Life Cycle Credits: (3)
- NUTR 4440 - Advanced Human Nutrition Credits: (3)
- NUTR 3040 - Nutrition Assessment Credits: (3)
- NUTR 3070 - Advanced Food Science Credits: (3)
Department of Child and Family Studies

Department Chair: Wei Qiu
Location: McKay Education Building, Room 204
Telephone Contact: Danielle Orozco 801-626-7151
Advisor: Darcy Gregg, 801-626-6411
Professors: Wei Qiu, Paul Schvaneveldt; Associate Professors: Mark Adams, Sheila Anderson, Teri Henke, Daniel Hubler, Carrie Ota; Assistant Professors: Alex Collopy, Charles Dunn, Keith Osai

The Department of Child and Family Studies offers a broad personal and professional education by providing majors in the following areas: Early Childhood (Bachelor's and Associate of Applied Science), Early Childhood Education, and Family Studies. Minors in Child Development and Family Studies are also offered. Child and Family Studies is also an area available for a Bachelor of Integrated Studies (BIS).

Learning is enhanced by the Melba S. Lehner Children's School where preschool laboratory experience is provided for practical application. Practical experience is built into all areas of study. Honors credit is available for students who desire greater depth. Preparation for graduate study can be pursued in any area represented in the department.

Child and Family Studies Department Policies

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements. The Child and Family Studies Department will only accept two non-articulated transfer courses for the major/minor. If a grade in a Child and Family Studies major/minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. The Retention & Referral Policy can be found at https://www.weber.edu/wsuiimages/chfam/CHF_Retention18.pdf.

All students with a major/minor in Child & Family Studies are strongly encouraged to contact the department academic advisor in McKay Education Building room 248 (801-626-6411) early in their academic career for advisement and declaration of a major and/or minor.

Students must undergo a background check and be fingerprinted for major and course requirements.

Early Childhood Laboratory

The Melba S. Lehner Children's School serves as an early childhood laboratory to give students practical experience in early childhood environments. Students must complete Child and Family Studies prerequisite major courses at a B- level or better and apply to the Director of the Melba S. Lehner Children's School two semesters prior to student teaching. Other practical experience can be arranged with a faculty advisor.

Double Major

Early Childhood and Elementary Education

Students wanting licensure in both Early Childhood Education and Elementary Education are encouraged to complete a double major. All course requirements must be completed for both majors, which include only one semester of student teaching EDUC 4840A INT - Student Teaching in Elementary Education and EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis. Students will complete the Early Childhood Education requirements. Please see the CHF department academic advisor for additional coursework and information.
Child and Family Studies (BIS)

- **Grade Requirements**: An overall GPA of 2.00 or C in courses used toward the emphasis. Students will receive the final grade they have earned in each course. If a grade in a Child & Family Studies major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

- **Credit Hour Requirements**: A minimum of 18 credit hours from Child and Family Studies to include 6 hours of required courses and 12 hours of electives. Two courses (6 credits) must be upper division (3000 level or above).

- **Program Code**: 5054

- **CIPC**: 190704

*All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.*

Required Courses (6 credit hours)

- CHF 1500 SS/DV - Human Development **Credits**: (3) *
- CHF 2400 SS/DV - Family Relations **Credits**: (3)

Note:

*If taken for Social Science general education credit, CHF course (3 credits) must be added.*

Electives (minimum 12 credit hours)

*Elective courses to be determined in conference with a department advisor.*

- At least six credit hours must be upper-division (courses numbered 3000 and higher).
Child Development Minor

- **Grade Requirements:** A grade of C or better in courses used toward the minor.
- **Credit Hour Requirements:** A minimum of 18 credit hours, of which at least 6 must be upper division courses (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade.
- **Program Code:** 5001
- **CIPC:** 190706

To be allowed to work with children in the Melba S. Lehner Children's School for lab practicum, students must have clearance of criminal background check approved by the Utah Department of Health, Child Care Licensing Program. Look for more information on the Weber State University Fingerprinting Office website (www.weber.edu/fingerprinting).

Course Requirements for Minor

Required Courses (12 credit hours)

- ECED 2500 - Development of the Child **Credits:** (3)
- ECED 2610 - Child Guidance **Credits:** (3) *(lab required)*
- ECED 3570 - Infants and Toddlers: Development and Practice **Credits:** (3)
- ECED 3500 - Young Children: Adversity and Resilience **Credits:** (3)

Electives (6 credit hours)

Select at least two courses from the following

- CHF 2400 SS/DV - Family Relations **Credits:** (3)
- ECED 2600 - Introduction to Early Childhood Education & Care **Credits:** (3)
- ECED 2620 - Planning Creative Experiences for Young Children **Credits:** (3) *(lab required)*
- FAM 3350 - Diverse Families **Credits:** (3)
- FAM 3550 - Parenting Education **Credits:** (3)
- ECED 3640 - Collaborating with Families of Young Children **Credits:** (3)
- ECED 4130 - Language Development and Emergent Literacy in Early Childhood **Credits:** (3)
- FAM 4300 - Latino Child and Family Development **Credits:** (3)
- FAM 4500 - Comparative Study of Childhood and Adolescent Development **Credits:** (3)
- FAM 4860 INT - Practicum **Credits:** (1-6) *(3 credit hours required)*

Note:

For students seeking the Child Development minor with a Family Studies bachelor's degree, the required courses will change. Students must have 18 credits beyond their major for a minor in Child Development. See the department advisor located in the McKay Education Building, Room 248 (801-626-6411).
Early Childhood (AAS)

- **Program Prerequisite:** Before beginning this program, a student must see the department advisor in McKay Education Building Room 248 (801-626-6411).
- **Grade Requirements:** A cumulative GPA of 2.50 and a grade of B- or better in required major courses. Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade.
- **Credit Hour Requirements:** A total of 63 credit hours is required for graduation; 28 of these are required within the major.
- **Program Code:** 5000AAS
- **CIPC:** 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Completed the program application. Meet with the department and faculty advisor. Declare your program of study (see Program of Study (Major/Minor) Declaration). Sign a Program of Study Contract with the Department of Child and Family Studies. Contact the department advisor, 801-626-6411.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. CHF 1500 will fulfill both a major and general education requirement and is prerequisite to most Child and Family Studies Department major courses.

Program Learning Outcomes

- **1. Child Development and Learning in Context**
  - 1a. Understanding of the development period of early childhood from birth through age 8 across developmental domains.
  - 1b. Understand each child as an individual with unique developmental variations.
  - 1c. Understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
  - 1d. Use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities.
- **2. Family-Teacher Partnerships and Community Connections.**
  - 2a. Know about, understand, and value the diversity of families.
  - 2b. Collaborate as partners in families in young children's development and learning through respectful, reciprocal relationships and engagement.
  - 2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.
- **3. Child Observation, Documentation, and Assessment.**
  - 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
  - 3b. Use screening and assessment tools in ways that are ethically grounded and developmentally, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child.
   o 4a. Understand and demonstrate positive, carrying, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
   o 4b. Understand use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
   o 4c. Use of a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.

5. Integration of Academic Content in the Early Childhood Curriculum
   o 5a. Understand content knowledge - the central concepts, methods and tools of inquiry, and structure - and resources for the academic disciplines.
   o 5b. Understand pedagogical content knowledge - how young children learn in each discipline - and how to use the teacher knowledge and practices described in standards 1 through 4 to support young children's learning in each content area.

6. Professionalism as an Early Childhood Educator
   o 6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
   o 6b. Know about and uphold ethical and other early childhood professional guidelines.
   o 6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
   o 6d. Engage in continuous, collaborative learning to inform practice.
   o 6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements for AAS Degree

Child & Family Studies Courses Required (minimum of 31 credit hours)

- CHF 1500 SS/DV - Human Development Credits: (3)
- CHF 2400 SS/DV - Family Relations Credits: (3)
- ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2)
- ECED 2500 - Development of the Child Credits: (3)
- ECED 2600 - Introduction to Early Childhood Education & Care Credits: (3)
- ECED 2620 - Planning Creative Experiences for Young Children Credits: (3)
- ECED 2640 - Collaborating with Families of Young Children. Credits: (3)
- ECED 2670 - STEM in Early Childhood Credits: (3)
- ECED 2610 - Child Guidance Credits: (3)
- ECED 2860 INT - Practicum Credits: (1-6) (3 credits)
- ECED 2890 INT - Internship in Early Childhood Credits: (1-6) (3 credits)
- ECED 2990A - Seminar in Early Childhood Education Credits: (1) (3 credits) Should be taken in the last semester of the program.

Electives (minimum 13 credit hours)

Select 13 additional credit hours with the approval of an advisor. Seek additional depth in Child and Family Studies and also select courses from across campus to enhance teaching competency in the areas of Art, Science, Literature, Music, Health & First Aid, etc.
Advisors will suggest specific appropriate courses. Students should work closely with an advisor if they are planning to go on for a future Early Childhood baccalaureate or a teaching certificate.
Early Childhood (BS)

The Department of Child and Family Studies offers a B.S. major in Early Childhood (EC) that is accredited by the Commission on the Accreditation of Early Childhood Higher Education Programs of the National Association for the Education of Young Children. Students preparing to work in childhood programs or agencies serving young children that do not require a teaching certificate graduate with a major in Early Childhood. Students who wish to obtain certification to teach in kindergarten through 3rd grade graduate with a major in Early Childhood Education.

- **Program Prerequisite**: Not required.
- **Minor**: Required. In lieu of a minor, a specialization of 15 credit hours may be substituted as approved by the advisor. Six of these hours must be upper division (courses numbered 3000 or above).
- **Grade Requirements**: Early Childhood students must meet minimum major course grade requirements and maintain a cumulative GPA of 2.50 or higher for all college courses. Students must receive a grade of B- or better in each major course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Program, as appropriate, to graduate with the lower grade.
- **Credit Hour Requirements**: A minimum of 120 credit hours is required for a bachelor degree; 65 of these are required within the major. A minimum of 40 credit hours must be upper division (courses numbered 3000 and above); 36 of these are required within the major core courses.
- **Program Code**: 5000BS
- **CIPC**: 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Families Studies Advising.

Admission Requirements

Contact the Child and Family Studies Department Academic Advisor located in the McKay Education Building, Room 248 (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Family Studies Advising.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Declaring Your Major or Minor under Child and Family Studies Admissions). Sign a Program of Study Contract with the Department of Child and Family Studies. Contact the department advisor, 801-626-6411, Child and Family Studies Advising.

To complete ECED 4720 Early Childhood Education Student Teaching Pre-K in the Melba S. Lehner Children’s School, students must submit an Early Childhood Student Teaching Application and obtain paperwork including clearance of criminal background and CPR/First Aid and Food Handling certifications. Look for more information on Early Childhood On-Campus Field Experience.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. CHF 1500 will satisfy a general education requirement and is prerequisite to most major courses. GEOG 1300 is recommended.

Program Learning Outcomes
• 1. Child Development and Learning in Context
  o 1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
  o 1b. Understand each child as an individual with unique developmental variations.
  o 1c. Understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
  o 1d. Use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities.

• 2. Family-Teacher Partnerships and Community Connections.
  o 2a. Know about, understand, and value the diversity of families.
  o 2b. Collaborate as partners with families in young children’s development and learning through respectful, reciprocal relationships and engagement.
  o 2c. Use community resources to support young children’s learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.

• 3. Child Observation, Documentation, and Assessment.
  o 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
  o 3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.
  o 3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child.
  o 3d. Build assessment partnerships with families and professional colleagues.

• 4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices
  o 4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
  o 4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
  o 4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.

• 5. Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum
  o 5a. Understand content knowledge—the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
  o 5b. Understand pedagogical content knowledge—how young children learn in each discipline—and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
  o 5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.

• 6. Professionalism as an Early Childhood Educator
  o 6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
  o 6b. Know about and uphold ethical and other early childhood professional guidelines.
  o 6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
  o 6d. Engage in continuous, collaborative learning to inform practice.
  o 6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements for BS Degree

Pre Core Course Required (6 credits)

- CHF 1500 SS/DV - Human Development Credits: (3) *(Satisfies General Education Requirement.)*
- CHF 2400 SS/DV - Family Relations Credits: (3)

Core Courses Required (50 credits/36 upper division)

- ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2) or
• ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2)
• ECED 2500 - Development of the Child Credits: (3)
• ECED 2600 - Introduction to Early Childhood Education & Care Credits: (3)
• ECED 2610 - Child Guidance Credits: (3)
• ECED 2620 - Planning Creative Experiences for Young Children Credits: (3)
• ECED 3500 - Young Children: Adversity and Resilience Credits: (3)
• ECED 3570 - Infants and Toddlers: Development and Practice Credits: (3)
• ECED 3640 - Collaborating with Families of Young Children Credits: (3)
• ECED 4130 - Language Development and Emergent Literacy in Early Childhood Credits: (3)
• ECED 4230 - Observing and Assessing Children in Context Credits: (3)
• ECED 4670 - STEM in Early Childhood Credits: (3)
• ECED 4710 - Advanced Guidance and Planning for Early Childhood Education Credits: (1-3) *
• ECED 4720 INT - Student Teaching in the Children's School Credits: (6) (6 credit hours required) *
• ECED 4730 - Early Childhood/Early Childhood Education Program Development Credits: (3)
• ECED 4890 - Internship in Early Childhood Credits: (1-6)
• ECED 4990A - Seminar in Child Development Credits: (3)

*ECED 4710 and ECED 4720 are taken concurrently in fall or spring semester. Check for more information on Early Childhood On-Campus Field Experience.

Major Elective Courses (9 credits)

• ECED 2910 - Children & Families: Variable Titles Credits: (1-3)
• ECED 4910 - Children & Families: Variable Titles Credits: (1-3)
• ECED 4220 - Understanding Children Beyond Behavior Credits: (3)
• FAM 4300 - Latino Child and Family Development Credits: (3)
• FAM 4450 - Children and Families in the Medical Setting Credits: (3)
• ECED 4620 - Inclusive Early Childhood Curriculum Credits: (3)
• ECED 4630 - Young Children's Play Credits: (3)
• ECED 4820 - Child Observation Seminar Credits: (1)
• ECED 4860 INT - Practicum in Early Childhood Credits: (1-6) (2 credits with ECED 4720)
Early Childhood Education (BS)

The Department of Child and Family Studies offers a B.S. major in Early Childhood Education (ECE) that is accredited by the Commission on the Accreditation of Early Childhood Higher Education Programs of the National Association for the Education of Young Children. Students completing the major are eligible to receive the Utah Educator License in the Early Childhood Area to teach Kindergarten through 3rd Grade. Students preparing to teach in a K-3 classroom of a public or private school, in a Pre-K early education setting including child care centers, Head Start, or family and home-based child care, graduate with a major in Early Childhood Education.

- **Program Prerequisite:** Provisional admission to the ECE Program (see the admission requirements described under Child and Family Studies Admissions).
- **Minor:** Students completing the program meet all requirements of the Child Development Minor.
- **Grade Requirements:** Early Childhood Education students must meet minimum major course grade requirements and maintain a cumulative GPA of 2.75 or higher, or 3.0 in the last 30 credit hours. Students must receive a grade of B- or better in CHF 1500 SS/DV - Human Development, Early Childhood Education major required and elective courses, and K-3 Utah Licensure courses. If a grade in an ECE major course does not meet the minimum requirement for graduation, the student may retake the course once. If the student retakes a course, the student will receive the grade earned in the second course attempt. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood Education Program, as appropriate, to graduate with the lower grade. Early Childhood Education majors must also achieve at least a "C" grade in MATH 2010, MATH 2015, and MATH 2020 QL.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for a bachelor's degree; 57 of these are required within the major.
- **Program Code:** 5002BS
- **CIPC:** 131210

Program Learning Outcomes

1. **Child Development and Learning in Context**
   - 1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
   - 1b. Understand each child as an individual with unique developmental variations.
   - 1c. understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
   - 1d. use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities

2. **Family-Teacher Partnerships and Community Connections.**
   - 2a. Know about, understand, and value the diversity of families.
   - 2b. Collaborate as partners with families in young children's development and learning through respectful, reciprocal relationships and engagement.
   - 2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.

3. **Child Observation, Documentation, and Assessment.**
   - 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
   - 3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.
   - 3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child. 3d: Build assessment partnerships with families and professional colleagues.

4. **Developmentally, Culturally, and Linguistically Appropriate Teaching Practices**
   - 4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
   - 4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
   - 4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.

5. **Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum**
5a. Understand content knowledge - the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
5b. Understand pedagogical content knowledge - how young children learn in each discipline-and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.

6. Professionalism as an Early Childhood Educator
6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
6b. Know about and uphold ethical and other early childhood professional guidelines.
6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
6d. Engage in continuous, collaborative learning to inform practice.
6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Advisement

Contact the Child and Family Studies Department Academic Advisor located in the McKay Education Building, Room 248 (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Family Studies Advising.

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). Early Childhood Education majors must meet the Early Childhood Education admission and licensure requirements (see the admission requirements under Child and Family Studies Admissions). The minimum GPA requirement is 2.75 or 3.0 in the last 30 credit hours (see Teacher Education Application).
To complete ECED 4720 INT - Student Teaching in the Children's School in the Melba S. Lehner Children's School, students must submit an Early Childhood Student Teaching Application and obtain paperwork including clearance of criminal background and CPR/First Aid and Food Handling certifications. Look for more information on Early Childhood On-Campus Field Experience.
To complete ECED 4721 - Student Teaching K-3 in an elementary school, students must submit a K-3 Student Teaching Application and obtain paperwork including clearance of criminal background. Look for more information on Early Childhood Off-Campus Field Experience.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. Following the suggested guidelines below will assure that both University General Education Requirements (34-41 credits) and Early Childhood Education requirements are met. Students are required to take CORE courses in Composition, Quantitative Literacy, American Institutions, Information Literacy and Diversity (~10-17 credits) and BREADTH courses in Creative Arts and Humanities (9 credits), Physical and Life Sciences (9 credits), and Social Sciences (6 credits).
The following courses required for the Early Childhood Education major will also satisfy general education requirements: COMM 1020 HU or COMM 2110 HU CEL, GEOG 1300 SUS/SS/DV, MATH 2020 QL, and CHF 1500 SS/DV. Meeting the general education science requirements may not meet education science requirements. Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be GEO 1350 PS, PHYS 1360 PS, or BTNY 1370 LS, or at least one science lab course.

Major Course Requirements for BS Degree resulting in a K-3 License
II. Support Courses Required (21-22 credits/12 general education credits)

- CHF 1500 SS/DV - Human Development Credits: (3) *
- COMM 1020 HU - Principles of Public Speaking Credits: (3) or *
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) *
- GEOG 1300 SUS/SS/DV - Global Issues: Places, People and the Planet Credits: (3) *
- MATH 2010 - Arithmetic for Elementary Teachers Credits: (3)
- MATH 2015 - Algebra for Elementary Teachers Credits: (3)
- MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) *

* Also fulfills the General Education requirements.

At least one course from the following:

- ART 1030 CA - Studio Art for the Non-Art Major Credits: (3)
- EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
- DANC 3640 INT - Teaching Creative Dance in the Elementary School Credits: (3)
- MUSC 3824 - Music for Elementary Teachers Credits: (4)
- THEA 4603 - Creative Drama Credits: (3)

III. Major Core Courses Required (42 credit hours within major/30 upper division)

- ECED 2500 - Development of the Child Credits: (3)
- ECED 2600 - Introduction to Early Childhood Education & Care Credits: (3)
- ECED 2610 - Child Guidance Credits: (3)
- ECED 2620 - Planning Creative Experiences for Young Children Credits: (3)
- ECED 3500 - Young Children: Adversity and Resilience Credits: (3)
- ECED 3570 - Infants and Toddlers: Development and Practice Credits: (3)
- ECED 3640 - Collaborating with Families of Young Children Credits: (3)
- ECED 4130 - Language Development and Emergent Literacy in Early Childhood Credits: (3)
- ECED 4230 - Observing and Assessing Children in Context Credits: (3)
- ECED 4670 - STEM in Early Childhood Credits: (3)
- ECED 4710 - Advanced Guidance and Planning for Early Childhood Education Credits: (1-3) *
- ECED 4720 INT - Student Teaching in the Children's School Credits: (6) (6 credit hours required) *
- ECED 4990A - Seminar in Child Development Credits: (3)

* ECED 4710 or ECED 4720 are taken concurrently in fall or spring semester. Check for more information on Early Childhood On-Campus Field Experience.

IV. Major Elective Courses (12 credits)

You may take the following courses for a total of 12 credit hours required for this major degree.

- ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2) or
- ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2)

- ECED 2910 - Children & Families: Variable Titles Credits: (1-3)
- ECED 4910 - Children & Families: Variable Titles Credits: (1-3)
- ECED 4220 - Understanding Children Beyond Behavior Credits: (3)
- FAM 4300 - Latino Child and Family Development Credits: (3)
- FAM 4450 - Children and Families in the Medical Setting Credits: (3)
- ECED 4620 - Inclusive Early Childhood Curriculum Credits: (3)
• ECED 4630 - Young Children's Play Credits: (3)
• ECED 4730 - Early Childhood/Early Childhood Education Program Development Credits: (3)
• ECED 4820 - Child Observation Seminar Credits: (1)
• ECED 4860 INT - Practicum in Early Childhood Credits: (1-6)
• ECED 4890 - Internship in Early Childhood Credits: (1-6)

V. K-3 Licensure Courses Required (25 credits)

Admission to the ECE K-3 licensure program is required prior to enrollment.
• EDUC 3115 - Media Integration in Elementary Education Settings Credits: (2)
• EDUC 3120 - Reading Instruction in the Primary Grades Credits: (3)
• EDUC 3205 - Culturally and Linguistically Responsive Teaching Credits: (3) *
• EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching Credits: (3) *
• EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy Credits: (2)
• EDUC 3280 - Elementary Social Studies Methods Credits: (3)
• PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers Credits: (3)
• EDUC 4345 - Elementary Integrated Arts Methods Credits: (3)
• ECED 4721 - Student Teaching K-3 Credits: (3)

* EDUC 3205 and EDUC 3270 can be substituted be ECED 4620.
Family Studies (BS)

- **Program Prerequisite:** (1) Complete the Pre-professional Core courses listed in the next column under Major Course Requirements; (2) Declare your Family Studies major with the department academic advisor; (3) Complete a background check and clearance (see Policy Notes).
- **Minor:** A minor is required.* Optional: In lieu of a minor, a specialization of 12-18 semester hours may be substituted as approved by the department advisor. Six of these hours must be upper division (courses numbered 3000 and above).
- **Grade Requirements:** A grade of C or better in courses required for this major (a grade of C- is not acceptable). Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. Also refer to the grade requirements for graduation under General Requirements.
- **Credit Hour Requirements:** A total of at least 120 credit hours is required for graduation; a minimum of 48 of these must be within the major. A total of 40 upper division credit hours is required by the University (courses numbered 3000 and above); 33 of these are required within the major.
- **Program Code:** 5003BS
- **CIPC:** 190704

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). To be eligible for acceptance into and graduation from the Family Studies Program a candidate must:

1. Complete all of the Pre-professional Core courses listed under Course Requirements.
2. Declare the Family Studies major with the department academic advisor.
3. Complete a background check and clearance (see Policy Notes).

Policy Notes

Since students majoring in Family Studies will be working with families and children, the State of Utah requires a background check and clearance. Applicants must be fingerprinted and complete a background check before being fully accepted into the program. A handout available from the department secretary explains the procedure and nominal expenses. Background checks require up to eight weeks and should be completed, or in progress, at the time Family Studies Program courses are begun. See the department secretary for further details.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

*Family Studies students may combine their major with either a minor or a dual major. Consult with an advisor when designing a dual major. Minors may be selected from department minor offerings across campus. Typical minors include Psychology, Sociology, Gerontology, Social Work, Communications, and/or Business. A minor should be designed to best support personal goals or career directions.

The Family Studies program fulfills the requirements for provisional certification as a Family Life Educator, available by application and paid fee to the National Council on Family Relations. Full certification requires two years of paid professional experience in addition to the Family Studies degree. Provisional certification allows five years to complete the two-year requirement.
Program Learning Outcomes

• Families and Individuals in Societal Contexts: An understanding of families and their relationships to other institutions, such as the educational, governmental, religious, health care, and occupational institutions in society.
• Internal Dynamics of Families: An understanding of family strengths and weaknesses and how family members relate to and interact with each other.
• Human Growth and Development Across Lifespan: An understanding of the development changes (both typical and atypical) of individuals in families across the lifespan. Based in knowledge if physical, emotional, cognitive, social, moral, and personality aspects.
• Human Sexuality Across the Lifespan: An understanding of the physiological, psychological, and social aspects of sexual development across the lifespan, to achieve healthy sexual adjustment.
• Interpersonal Relationships: An understanding of the development, maintenance, and dissolution of interpersonal relationship among friends, roommates, coworkers, neighbors, as well as family members.
• Family Resource Management: An understanding of the decisions individuals and families make about developing and allocating resources including money, time, energy, space, material, and health assets, and networks of support to meet their goals.
• Parenting Education and Guidance: An understanding of how parents teach, guide, and influence children and adolescents, as well as the changing nature, dynamics and needs of the parent-child relationship across the lifespan.
• Family Law and Public Policy: An understanding of legal issues, policies, and laws influencing the well-being of families.
• Professional Ethics and Practice: An understanding of the character and quality of human social conduct, and the ability to critically examine ethical questions and issues as they relate to professional practice.
• Family Life Education Methodology: An understanding of the general philosophy and broad principles of Family Life Education in conjunction with the ability to plan, implement, assess, and evaluate such educational programs.

Major Course Requirements for BS Degree

Pre-professional Core Course Requirements (12 credit hours)

- FAM 1400 - Marriage and Romantic Relationships Credits: (3)
- CHF 1500 SS/DV - Human Development Credits: (3)
- FAM 2100 - Family Resource Management Credits: (3)
- CHF 2400 SS/DV - Family Relations Credits: (3)

Family Studies Professional Core Block Courses Required (36 semester hours)

The course sequence is designed to allow a Family Studies major to meet all program prerequisites and complete the program in three full-time semesters without conflicting class schedules. Taking classes outside of the stated semesters will delay graduation.

Block Courses Semester 1

- FAM 2990B - Seminar in Family Studies Credits: (3)
- FAM 3850 CRE - Current Research Methods in Child and Family Studies Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)
- FAM Elective Course 1--(Choose one of the electives listed below.) Credits: (3)

Block Courses Semester 2

- FAM 3350 - Diverse Families Credits: (3)
- FAM 3550 - Parenting Education Credits: (3)
- FAM Elective Course 2--(Choose one of the electives listed below.) Credits: (3)
- FAM Elective Course 3--(Choose one of the electives listed below.) Credits: (3)
Block Courses Semester 3

- FAM 4650 - Family Life Education Methods Credits: (3)
- FAM 4860 INT - Practicum Credits: (1-6) (3 credit hours required)
- FAM 4990B - Senior Seminar in Family Studies Credits: (3)
- FAM Elective Course 4--(Choose one of the electives listed below.) Credits: (3)

Elective Courses (You may choose four of the following courses for a total of 12 credit hours required for this major degree)

- FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
- FAM 3400 - Development in Middle Adulthood Credits: (3)
- FAM 3450 - Adult Development Credits: (3)
- FAM 3650 - Family Processes Credits: (3)
- FAM 3660 - LGBTQ Families Credits: (3)
- FAM 3700 - Family Life Education and Sexuality Credits: (3)
- FAM 3820 - Organization and Leadership of Non-profit Family Services Credits: (3)
- FAM 4275 - Family Life Education Coaching Credits: (3)
- FAM 4300 - Latino Child and Family Development Credits: (3)
- FAM 4310 - Understanding the Modern United States Military Family Credits: (3)
- FAM 4350 - Religiosity and Family Life Education Credits: (3)
- FAM 4400 - The Family in Stress Credits: (3)
- FAM 4450 - Children and Families in the Medical Setting Credits: (3)
- FAM 4500 - Comparative Study of Childhood and Adolescent Development Credits: (3)
- FAM 4660 - Advanced Skills for Family Life Educators Credits: (3)

Note:

_Students who are planning to apply to a graduate program are strongly encouraged to take a statistics course. See the Department of Child and Family Studies academic advisor for a list of appropriate classes._
Family Studies Minor

- **Grade Requirements:** An overall GPA of 2.00 or C in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 18 credit hours, of which at least 6 must be upper division (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

- **Program Code:** 5003
- **CIPC:** 190704

Course Requirements for Minor

**Required Courses (9 credit hours)**

- FAM 1400 - Marriage and Romantic Relationships Credits: (3)
- CHF 1500 SS/DV - Human Development Credits: (3)
- CHF 2400 SS/DV - Family Relations Credits: (3)

**Faculty Advisor Approved Elective Courses (9 credit hours)**

Select 9 credit hours from the following with at least 6 credit hours of upper-division (courses numbered 3000 and higher)

- FAM 2100 - Family Resource Management Credits: (3)
- ECED 2500 - Development of the Child Credits: (3)
- ECED 2610 - Child Guidance Credits: (3)
- FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
- FAM 3350 - Diverse Families Credits: (3)
- FAM 3450 - Adult Development Credits: (3)
- ECED 3500 - Young Children: Adversity and Resilience Credits: (3)
- FAM 3550 - Parenting Education Credits: (3)
- ECED 3640 - Collaborating with Families of Young Children Credits: (3)
- FAM 3650 - Family Processes Credits: (3)
- FAM 3850 CRE - Current Research Methods in Child and Family Studies Credits: (3)
- FAM 4300 - Latino Child and Family Development Credits: (3)
- FAM 4400 - The Family in Stress Credits: (3)
- FAM 4500 - Comparative Study of Childhood and Adolescent Development Credits: (3)
- FAM 4650 - Family Life Education Methods Credits: (3)

Note:

For students using the Family Studies minor with an Early Childhood degree, the required courses will change. Students must have 18 credits beyond their major for a minor in Family Studies. See the department advisor located in the McKay Education Building, Room 248 (801-626-6411).
The Department of Health, Physical Education, and Recreation (HPER) in the Jerry and Vickie Moyes College of Education offers programs that promote lifelong wellness from a variety of disciplines. The teaching environment, supported by faculty with diverse expertise, creates quality learning communities that offer undergraduates exceptional educational experiences. The state-of-the-art facilities - including 6-lane swimming pool, ample indoor and outdoor recreational, fitness, sport and activity areas, and indoor climbing wall - provide an outstanding arena for student instruction. With a curriculum designed to develop professional knowledge and skills, graduates from the department are prepared to work in a variety of educational, health and recreational settings.

Through instruction, scholarship and service, the department of Health, Physical Education, and Recreation offers Bachelor of Science degrees in health promotion, outdoor and community recreation, and physical education. Minors include coaching sport, health promotion and health promotion teaching, physical education/coaching, and recreation. In addition, the department offers undergraduate and graduate programs for the department of teacher education, the master of education program, and supports Weber State University and community wellness related activities.

The department also supports the efforts of undergraduates seeking the bachelor of integrated studies degree, offering health promotion, physical education/coaching, and recreation/leisure services as emphases for the BIS Program.

Mission Statement

The Department of Health, Physical Education, and Recreation inspires future professionals by providing high quality education through an innovative, engaged learning experience.
Health Promotion (BIS)

Bachelor of Integrated Studies

- **Grade Requirements**: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
- **Credit Hour Requirements**: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

*The course of study in each discipline must be approved by the appropriate program director.*

BIS Possible Options

*These are only recommendations; many combinations and options for potential careers are possible.*

**Health Education & Health Promotion Emphasis**

Program Code: 5013  
CIPC: 512207  
Community Health Promotion  
Occupational Health Education  
Clinical Health Education (*See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)  
Family Life Health Promotion  
Gerontological Health Promotion  
Drug Abuse Prevention Education

**Nutrition Emphasis**

Dietary Analysis  
Dietary Prescription  
Nutrition Education  
Weight Management  
Nutritional Ergogenics

**Exercise Science Emphasis**

Program Code: 5019  
CIPC: 310505  
Coaching Sport  
Corporate Fitness  
Community Fitness  
Sports Medicine  
Sport Communication  
Commercial/Facility Management  
Sport Psychology

**BIS Requirements**

*Also refer to individual minor programs.*
Program Learning Outcomes

- Interdisciplinary Work: Made multiple connections across three academic disciplines.
- High Impact Educational Experience: Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work: Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection: Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing: Used effective oral and written English-language skills.
- Post-Graduate Planning: Planned for careers and/or graduate programs.

Health Promotion Emphasis

21 Credit Hours Total Required

Required Courses (13 credits)

- HLTH 1030 SS - Healthy Lifestyles Credits: (3) * OL
- HLTH 3000 - Foundations of Health Promotion Credits: (3) ** OL
- HLTH 4013 - Health Promotion Research and Assessment Credits: (3) *** OL
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs Credits: (4) *** OL

Elective Courses (8-9 credits)

- HLTH 1110 - Stress Management Credits: (3) OL & IS
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 2700 - Consumer Health Credits: (3) OL
- HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
- PUBH 3150 - Introduction to Public Health Credits: (3) IS
- HLTH 3160 - Principles of Health Behavior Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3) ***
- HLTH 3400 - Substance Abuse Prevention Credits: (3) OL
- HLTH 3500 - Human Sexuality Credits: (3) OL
- HLTH 4250 - Contemporary Health Issues of Adolescents Credits: (2) OL
- HLTH 4700 - Wellness Coaching Credits: (3)

Notes:

OL = Online option available some semesters
IS = Independent Study option available some semesters

*If this pre-requisite course is used to fulfill the Social Science General Education requirement, the three credit hours cannot be counted in the BIS Health Promotion emphasis 21 credit hour requirements.

**This course can be taken after completing the HLTH 1030 pre-requisite.

***This course can be taken after completing the HLTH 1030 and HLTH 3000 pre-requisite.
Health Promotion (BS)

- **Program Prerequisite:** Acceptance into the program (see Admission Requirements below).
- **Minor:** Not Required.
- **Grade Requirement:** A grade of "C" or better in all major coursework, in addition to a minimum cumulative GPA of 2.50.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 53-55 of these are required within the major. A total of 40 upper division credit hours is required (courses number 3000 and above); a minimum of 37 of these is required within the major.
- **Program Code:** 5013BS
- **CIPC:** 512207

Advisement

The Academic Advisor for the Department of Health, Physical Education, and Recreation (HPER), Brittni Strickland, assists HPER students with advisement prior to admission to the Health Promotion program, and through completion of their program of study. Brittni can be contacted by phone (801-626-7425), email (BrittniStrickland@weber.edu) or online (through the Department Advisor Referral List) for more information or to schedule an appointment. Students also are encouraged to meet with program faculty for additional course and program advisement.

Admission Requirements

Before a student can be considered for the Health Promotion program, the following application requirements must be met:

1. Admission to Weber State University.
2. Completion of 25 credit hours with a minimum 2.50 Weber State University GPA. Of these 25 credits, the students must demonstrate completion of: HLTH 1030, and, HTHS 1110 or ZOOL 1020.
3. Grade "C" or better in all major coursework.
4. Declare your program of study with the HPER Academic Advisor.

Retention Requirements

1. After students are selected into the Health Promotion major, retention in the program will be based on the following criteria:
   1. Grade "C" or better in all major coursework.
   2. Students must maintain a GPA of 2.5 or higher in all courses required for this major.
2. Students who fail to meet the retention criteria will be placed on probation in the Health Promotion major for one semester. If standards are not met by the end of the probationary period, the student may be dismissed from the major at the discretion of the Program Director.
   1. Students who receive any grade below a "C" in a course counting toward the Health Promotion major must repeat that course and receive a grade of "C" or higher to remain in the major.
   2. Failure to repeat the course (when offered) will result in dismissal from the program at the discretion of the Program Director.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Graduates of the program are eligible to sit for the Certified Health Education Specialist (CHES) examination with a minimum of 25 semester hours in health courses.

Program Learning Outcomes
• Responsibilities
  o Assess needs, resources, and capacity for health education/promotion
  o Plan health education/promotion
  o Implement health education promotion
  o Conduct evaluation and research related to health education/promotion
  o Administer and manage health education/promotion
  o Serve as a health education/promotion resource person
  o Communicate, promote, and advocate for health, health education/promotion, and the profession.

• Standards
  o Students will comprehend concepts related to health promotion and disease prevention to enhance health.
  o Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.
  o Students will demonstrate the ability to access valid information, products, and services to enhance health.
  o Students will demonstrate the ability to use interpersonal communication skills to enhance health or reduce health risks.
  o Students will demonstrate the ability to use decision-making skills to enhance health.
  o Students will demonstrate the ability to use goal-setting skills to enhance health.
  o Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.
  o Students will demonstrate the ability to advocate for personal, family, and community health.

**Major Course Requirements for BS Degree**

**Prerequisite Courses Required (6-7 credit hours)**

- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or
- ZOOL 1020 LS - Human Biology Credits: (3)

**Courses Required (35 credit hours)**

- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3) *
- HLTH 4013 - Health Promotion Research and Assessment Credits: (3)
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs Credits: (4)
- HLTH 4860 INT - Field Experience Credits: (1-6) (3 credit hours required)
- HLTH 4990 - Senior Seminar Credits: (1)
- HAS 3000 - The Healthcare System Credits: (3)
- PUBH 3150 - Introduction to Public Health Credits: (3)
- HAS 3190 - Cultural Diversity in Patient Education Credits: (3) or
- NUTR 3420 - Multicultural Health & Nutrition Credits: (3)
- HAS 3230 - Health Communication Credits: (3)
- PUBH 3200 - Epidemiology and Biostatistics Credits: (3)

**Professional Block**

*Minimum of 9 credit hours, must be approved by advisor. These courses may also be used as electives.*

- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 2700 - Consumer Health Credits: (3)
- HLTH 3160 - Principles of Health Behavior Credits: (3)
- HLTH 4700 - Wellness Coaching Credits: (3)
- HAS 3020 - Healthcare Marketing Credits: (3)
- HAS 3260 - Healthcare Leadership and Management Credits: (3)
- HAS 4320 - Healthcare Economics and Policy Credits: (3)

Elective Courses (15 credit hours)

- RHS 3600 - Ergonomics for Health and Safety Credits: (2)
- HLT 1110 - Stress Management Credits: (3)
- RHS 1300 - First Aid: Responding to Emergencies Credits: (2)
- RHS 2300 - Emergency Response Credits: (3)
- HLT 3050 - School Health Program Credits: (3)
- HLT 3400 - Substance Abuse Prevention Credits: (3)
- HLT 3500 - Human Sexuality Credits: (3)
- HLT 4220 - Women's Health Issues Credits: (3)
- HLT 4250 - Contemporary Health Issues of Adolescents Credits: (2)
- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- HLT 4800 - Individual Projects Credits: (1-3)
- HLT 4860 INT - Field Experience Credits: (1-6) (3 credit hours required)
- HLT 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6) (1 credit hour required)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- HAS 3240 - Human Resource Development in Healthcare Credits: (3)
- HAS 4400 - Legal and Ethical Aspects of Health Administration Credits: (3)
- HAS 4410 - Clinical Instructional Design and Evaluation Credits: (3) *
- HAS 4420 - Clinical Instructional Skills Credits: (3)
- PUB 4500 - Grant Writing Credits: (2)
- HTHS 1101 - Medical Terminology Credits: (2)
- HTHS 2230 - Introductory Pathophysiology Credits: (3)
- GERT 3000 - Death and Dying Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services Credits: (3)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)

Note:

*HAS 4410 may be substituted for HLT 3200.
Health Promotion Teaching Minor

- **Grade Requirements**: A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.
- **Credit Hours Requirements**: Minimum of 21 credit hours.
- **Program Code**: 5016
- **CIPC**: 131307

Courses Required for Minors Seeking Teaching Certification

*Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.*

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits**: (3)
- HLTH 1030 SS - Healthy Lifestyles **Credits**: (3)
- HLTH 1110 - Stress Management **Credits**: (3) or
- HLTH 2400 - Mind/Body Wellness **Credits**: (3)
- HLTH 3000 - Foundations of Health Promotion **Credits**: (3)
- HLTH 3200 - Methods in Health Education **Credits**: (3)
- HLTH 3400 - Substance Abuse Prevention **Credits**: (3)
- HLTH 3500 - Human Sexuality **Credits**: (3)

Notes:

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking RHS 1300 - First Aid: Responding to Emergencies (2), RHS 2175 - Introduction to Sports Medicine (3) (through concurrent enrollment), or RHS 2300 - Emergency Response (3). Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course. A teaching major and the Teaching Education Professional knowledge courses are required for teacher certification. Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. The minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.
Health Promotion: (Community, Worksite, Clinical, School) Minor

- **Grade Requirements:** A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.
- **Credit Hours Requirements:** Minimum of 22 credit hours.
- **Program Code:** 5013
- **CIPC:** 512207

**Required Courses (13 credit hours)**

- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 4013 - Health Promotion Research and Assessment Credits: (3)
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs Credits: (4)

**Electives**

*Select 9 credit hours from the following*

- HLTH 1110 - Stress Management Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 2700 - Consumer Health Credits: (3)
- HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
- HLTH 3160 - Principles of Health Behavior Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3)
- HLTH 3400 - Substance Abuse Prevention Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)
- HLTH 4220 - Women's Health Issues Credits: (3)
- HLTH 4250 - Contemporary Health Issues of Adolescents Credits: (2)
- HLTH 4800 - Individual Projects Credits: (1-3)
- HLTH 4860 INT - Field Experience Credits: (1-6)
- HLTH 2890 INT - Cooperative Work Experience Credits: (1-6)
- HLTH 4890 INT - Cooperative Work Experience Credits: (1-6)
- HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)

**Courses Required for Minors Seeking Teaching Certification**

*Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.*

- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- HLTH 1110 - Stress Management Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3)
- HLTH 3400 - Substance Abuse Prevention Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)

**Notes:**

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking RHS 1300 - First Aid: Responding to Emergencies (2 credits), RHS 2175 - Introduction to Sports Medicine (through concurrent enrollment), or RHS 2300 - Emergency Response (3 credits).
Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course. A teaching major and the Teaching Education Professional Knowledge courses are required for teacher certification. Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. This minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.
Outdoor and Community Recreation Education (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a total of 62 credit hours for this major. Nine to 10 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required with 36-39 upper division hours possible within the required courses for this major.
- **Program Code:** 5046BS with Emphasis 5047 (Outdoor Recreation Administration) or 5048 (Community Recreation Administration) or 5055 (Outdoor Recreation Entrepreneurship)
- **CIPC:** 310601

Advisement

All Outdoor and Community Recreation Education students are encouraged to meet with a faculty advisor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information) with the program advisor. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- **Outcome 1:** Comprehend/Recognize the historical, philosophical, and theoretical foundations within recreation services.
- **Outcome 2:** Identify and analyze contemporary professional issues and trends impacting recreation programs and services.
- **Outcome 3:** Assess elements of personal style, prejudices, projections, and habits of mind that both shape and impede opportunities for professional, personal and group growth.
- **Outcome 4:** Articulate a personal philosophy of recreation that defines how the student plans to provide recreation services.
- **Outcome 5:** Apply theory and field techniques to assess, design and evaluate outcome-based programs that address a range of relevant personal, social, economical, and/or environmental objectives.
- **Outcome 6:** Develop, practice and demonstrate effective technical, facilitation, teaching and risk management skills across a range of recreation experiences.
- **Outcome 7:** Investigate and practice essential administrative functions necessary to conduct effective and ethical recreation programs.
- **Outcome 8:** Identify and apply relevant local, state, and federal legislation and regulations, along with industry standards, to management practices necessary within recreation programs.

Major Requirements for BS Degree
Required Core Courses (42 credit hours)

- OCRE 2500 - Introduction to Outdoor Pursuits Credits: (4)
- OCRE 2890 INT - Cooperative Work Experience Credits: (1-9) 2 credits are required
- OCRE 3050 - Recreation and Leisure in Society Credits: (3)
- OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
- OCRE 3300 - Inclusive and Adaptive Recreation Credits: (3)
- OCRE 3320 - Adventure Programming Credits: (3)
- OCRE 3520 - Risk Management and Legal Issues in Recreation Services Credits: (3)
- OCRE 3600 - Administration and Management of Outdoor and Community Recreation Services Credits: (3)
- ESS 3600 - Measurement and Statistics in Exercise Science Credits: (3)
- OCRE 4300 - Trends and Ethical Issues in Recreation Services Credits: (3)
- OCRE 4890 INT - Cooperative Work Experience Credits: (1-6) 6 credits are required
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- MIS 2010 - Business Computer Skills Credits: (1)
- 2 Elective credit hours from REC
  Select 2 credit hours from courses with a REC prefix. Any REC courses will fulfill this requirement.

Professional Areas of Emphasis

A student must complete the required and support courses in one of the three emphases: Outdoor Recreation Administration, Community Recreation Administration, or Outdoor Recreation Entrepreneurship.

Outdoor Recreation Administration Emphasis

Required Courses (15 credit hours)

- OCRE 2300 - Wilderness First Responder (WFR) Credits: (3)
- OCRE 3400 - Outdoor Equipment Production and Retailing Credits: (3)
- OCRE 3450 - Adventure Travel and Sustainable Tourism Credits: (3)
- OCRE 4020 - Nature Interpretation Credits: (3)
- OCRE 4550 - Outdoor Education Philosophies & Principles Credits: (3)

Community Recreation Administration Emphasis

Required Courses (18 credit hours)

- OCRE 3500 - Community Recreation and Park Planning Credits: (3)
- OCRE 3700 - Recreation and Sports Facilities and Events Management Credits: (3)
- OCRE 4000 - Recreation Programming for Youth Development Credits: (3)
- OCRE 4500 - Grant and Proposal Writing for Recreation Professionals Credits: (3)
- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)

Outdoor Recreation Entrepreneurship Emphasis

Required Courses (18 credit hours)

- OCRE 3400 - Outdoor Equipment Production and Retailing Credits: (3)
Select a minimum of 15 credit hours from any of the following courses:

- ENTR 1002 - Startup Innovation Credits: (3)
- ENTR 2003 - Marketing Execution for Small Business Credits: (1)
- ENTR 2004 - Branding for Small Business Credits: (1)
- ENTR 2005 - Product to Market Credits: (1)
- ENTR 2006 - E-Commerce for Small Business Credits: (1)
- ENTR 2007 - Product Design & Prototyping for Small Business Credits: (1)
- ENTR 2008 - Legal Foundations for Small Business Credits: (1)
- ENTR 2009 - Money Management for Small Business Credits: (1)
- ENTR 2010 - Funding For Small Business Credits: (1)
- ENTR 2011 - Results-Focused Leadership Credits: (1)
- ENTR 2012 - People Management for Small Business Credits: (1)
- ENTR 3002 - Scale & Exit Credits: (3)
- ENTR 4680 - Small Business Diagnostics Credits: (3)
Outdoor and Community Recreation Education Minor/BIS

- **Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses used toward the minor.
- **Credit Hour Requirements:** Complete a minimum of 18 credit hours selected and approved from among the following:
  - **Program Code:** 5044
  - **CIPC:** 310601

Course Requirements for Minor

**Required Core Courses (9 credit hours)**

- OCRE 3050 - Recreation and Leisure in Society **Credits:** (3)
- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits:** (3)
- OCRE 3320 - Adventure Programming **Credits:** (3)

**Elective Courses (9 credit hours)**

Select 2 credit hours from courses with a REC prefix. Any REC courses will fulfill this requirement. Additionally, select 7 credit hours from the following OCRE courses:

- OCRE 2500 - Introduction to Outdoor Pursuits **Credits:** (4)
- OCRE 2610 - Introduction to Outdoor Living Skills I **Credits:** (2)
- OCRE 2890 INT - Cooperative Work Experience **Credits:** (1-9)
- OCRE 3230 - Wilderness Nutrition & Backcountry Cooking **Credits:** (4)
- OCRE 3300 - Inclusive and Adaptive Recreation **Credits:** (3)
- OCRE 3500 - Community Recreation and Park Planning **Credits:** (3)
- OCRE 3600 - Administration and Management of Outdoor and Community Recreation Services **Credits:** (3)
- OCRE 3700 - Recreation and Sports Facilities and Events Management **Credits:** (3)
- OCRE 3900 - Commercial Outdoor Recreation **Credits:** (3)
- OCRE 4020 - Nature Interpretation **Credits:** (3)
- OCRE 4300 - Trends and Ethical Issues in Recreation Services **Credits:** (3)
- OCRE 4550 - Outdoor Education Philosophies & Principles **Credits:** (3)
- OCRE 4800 - Individual Projects **Credits:** (1-3)
- OCRE 4890 INT - Cooperative Work Experience **Credits:** (1-6)
- OCRE 4930 - Outdoor Education Workshop **Credits:** (2)

**Outdoor Leadership (AAS)**

The Outdoor & Community Recreation Education (OCRE) program at Weber State University offers students the opportunity to develop the skills, abilities, and knowledge necessary for a career in the outdoor recreation industry. The expressed goal of the OCRE program is to prepare students to effectively utilize and leverage the recreation industry to promote personal growth, health and wellness, and economic and environmental sustainability. Upon completion of the program, students may pursue front-line and leadership positions in: outdoor retail, outdoor education and/or adventure centers; guiding/outfitting companies; not-for-profit and private camps; resorts, spas and wellness centers; state and national parks; campus recreation; therapeutic programs; youth development programs; municipal parks and recreation departments; and public and private education.

- **Prerequisite:** Before beginning this program, a student must see the department advisor in Swenson.
- **Grade Requirements:** A cumulative GPA of 2.75 and a grade of B- or better in required major courses. Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Outdoor & Community Recreation committee, as appropriate, to graduate with the lower grade.
Credit Hour Requirements: A minimum of 63 credit hours is required for an associate of applied science degree; 45 of these credits are major requirements.

Program Code: 5061AAS  
CIPC: 310601

Advisement

Students must follow the Department of Health, Physical Education and Recreation Advisement procedures. Contact the department advisor located in the Swenson building (also refer to the Department Advisor Referral List).
Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). Sign a Program of Study Contract with the Health, Physical Education and Recreation department. Contact the department advisor.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements.

Program Learning Outcomes

1. Students will identify how to effectively integrate educational components and situational variables to make and implement quality decisions in outdoor settings.
2. Students will demonstrate proficiency in specific outdoor skills that are essential to individual and group sustainability in the backcountry.
3. Students will demonstrate the knowledge, skills, and abilities to design, implement, and prepare outdoor expedition trips a minimum of 7 days long.
4. Students will demonstrate the ability to accurately self-assess as well as those essential skills concerning or involving relationships between people; the ability to effectively implement a decision.
5. Students will demonstrate a structured approach to managing actual risk, emotional risk, and perceived risk through risk assessment, utilization of management and instructional resources, and development and execution of emergency protocols.
6. Students will comprehend and identify foundational concepts that embody ecological and cultural literacy along with the cooperative planning and management skills needed to ensure the preservation of resources, through personal connections, for past, present, and future generations.
7. Students will identify foundational theories and practices related to teaching, processing, and transference in outdoor/adventure settings.

Required General Education Courses

- BTNY 1403 LS SUS - Principles of Environmental Science Credits: (3-4)
- ECON 1100 SS - Environmental Issues and Economic Policy Credits: (3)
- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

Major Course Requirements for AAS Degree (31 credits)

- GEOG 1002 - Map Reading and Land Navigation Credits: (2)
- OCRE 2300 - Wilderness First Responder (WFR) Credits: (3)
• OCRE 2500 - Introduction to Outdoor Pursuits Credits: (4)
• OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits Credits: (4)
• OCRE 2860 - Outdoor Leadership Practicum Credits: (2)
• OCRE 2890 INT - Cooperative Work Experience Credits: (1-9) 2 credits are required
• PAR 1000 INT - Emergency Medical Technician Credits: (4)
• PAR 1001 - Emergency Medical Technician Lab Credits: (2)
• REC 1241 - Mountain Biking, Level I Credits: (1)
• REC 1307 - Avalanche Level I Credits: (1)

• REC 1310 - Whitewater Paddling, Level I Credits: (1) or
• REC 1316 - Stand-Up Paddleboard Credits: (1)

• REC 1527 - Rock Climbing, Level I Credits: (1)
• REC 1535 - Leave No Trace Trainer Credits: (1)

• REC 1610 - Skiing, Level I Credits: (1) or
• REC 1620 - Snowboarding, Level I Credits: (1)

Select 5 Additional Elective credit hours from REC (5 credits)

Select 5 additional credit hours from courses with a REC prefix. Any REC courses that are not already required above will fulfill this requirement.

Suggested Electives (9 credits)

The following suggested electives are provided in order to assist students wishing to pursue an AAS degree with the Outdoor & Community Recreation Education program.

• BTNY 1203 LS - Plant Biology Credits: (3)
• BTNY 2413 - Introduction to Natural Resource Management Credits: (3)
• CHF 1500 SS/DV - Human Development Credits: (3)
• ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
• GEO 1130 PS - Introduction to Meteorology Credits: (3)

• GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life Credits: (3) and
• GEOG 1005 - Planet Earth: Local Field Studies Credits: (1)

• HLTH 1030 SS - Healthy Lifestyles Credits: (3)
• HLTH 1110 - Stress Management Credits: (3)
• HLTH 2400 - Mind/Body Wellness Credits: (3)
• PSY 2400 - Positive Psychology Credits: (3)
• WSU 1560 SS/HU - Perspectives in Social Science and Humanities Credits: (3-5)
Physical Education (BIS)

Bachelor of Integrated Studies

- **Grade Requirements**: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
- **Credit Hour Requirements**: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

*The course of study in each discipline must be approved by the appropriate program director.*

BIS Possible Options

*These are only recommendations; many combinations and options for potential careers are possible.*

Health Education & Health Promotion Emphasis

- **Program Code**: 5013
- **CIPC**: 512207

Community Health Promotion
Occupational Health Education
Clinical Health Education (*See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)

Family Life Health Promotion
Gerontological Health Promotion
Drug Abuse Prevention Education

Nutrition Emphasis

- Dietary Analysis
- Dietary Prescription
- Nutrition Education
- Weight Management
- Nutritional Ergogenics

Exercise Science Emphasis

- **Program Code**: 5019
- **CIPC**: 310505

Coaching Sport
Corporate Fitness
Community Fitness
Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

*Also refer to individual minor programs.*
Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Physical Education Emphasis

27 Credit Hours Total Required

Complete the following Required Courses (15 credit hours)

- PEP 2000 - Foundations of Physical Education Credits: (3)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
- PEP 3520 - Curriculum and Assessment Credits: (2)
- PEP 3520L - Curriculum and Assessment Lab Credits: (1)
- PEP 4990 INT - Field Experience/Senior Seminar Credits: (3) *

Note:

*May not be taken until all other requirements have been met.

In addition, four of the following courses are required. (12 Credit hours)

- PEP 3630 - Methods of Teaching Elementary School Physical Education Credits: (3)
- PEP 3660 - Adapted Physical Education Credits: (3)
- PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)
- PEP 4710 - Methods of Teaching High School Physical Education Credits: (3)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)

Admission Requirements

Students must meet with Academic Advisor to review requirements for BIS in PEP. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:
1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.
5. Student must adhere to the Health, Physical Education, and Recreation Department 'Student Conduct Policy' available online at http://www.weber.edu/wsuimages/HPER/StudentCode/HPERStudentCode.pdf

Program Retention Requirements
After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 2.85.
2. Earned grade of C- or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

General Education

Refer to Degree and General Education Requirements for Bachelor of Science requirements.
A General Education course required for all Physical Education minors is:
NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core (4)
See major and minor course prerequisites for additional General Education recommendation/requirements.
Physical Education (BS)

Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Teaching Track

Physical Education Non-teaching Track

Program Prerequisite: Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Physical Education Teaching Track requires a teaching minor.

Grade Requirements: A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.

Credit Hour Requirements: Physical Education Non-teaching Track-Total minimum credit hours required in the Major (48). Physical Education Teaching Track-Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.

Program Code:

Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)

CIPC: Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

Advisement

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

General Education
Refer to Degree Requirements for Bachelor of Science requirements.

General Education courses required for the Physical Education major are:
NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

Program Learning Outcomes

- Know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
- Are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the SHAPE K - 12 Standards.
- Plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
- Use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
- Utilize assessments and reflection to foster student learning and inform instructional decisions.
- Practice dispositions essential to becoming effective professionals.

Major Course Requirements for BS Degree

Professional Knowledge (18 credit hours)

- PEP 2000 - Foundations of Physical Education Credits: (3)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- PEP 3520 - Curriculum and Assessment Credits: (2)
- PEP 3520L - Curriculum and Assessment Lab Credits: (1)
- PEP 3660 - Adapted Physical Education Credits: (3)

Field Experience (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar Credits: (3)

Methods of Teaching Courses (15 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
- PEP 3630 - Methods of Teaching Elementary School Physical Education Credits: (3)
- PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)
- PEP 4710 - Methods of Teaching High School Physical Education Credits: (3)

Students choosing the Non-teaching Physical Education Track are required to take an additional 12 credits of the following courses:

- PEP 2100 - Introduction to Coaching Sport Credits: (3)
- PEP 2500 - Sport Pedagogy Credits: (3)
- PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
- PEP 3400 - Sport Psychology for Coaches Credits: (3)
- ESS 4620 - Leadership Concepts for Human Performance Management Credits: (3)
- PEP 4830 - Directed Readings Credits: (1-3)
- OCRE 3050 - Recreation and Leisure in Society Credits: (3)
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services Credits: (3)
- OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
Physical Education Minor

The Department of Health, Physical Education, and Recreation offers three undergraduate minors in Physical Education. The 1) Physical Education Non-teaching Minor is designed to prepare students to work in a physical activity venue. A major must also be selected. The 2) Physical Education Minor is designed to prepare students to teach physical education in a K-12 school system. The 3) Physical Education/Coaching Education Teaching Dual Minor is designed to prepare students to teach physical education and to coach in a K-12 school system. A teaching major is to be selected in addition to either of the teaching minors to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Non-teaching Minor students must meet all requirements listed below.

Physical Education Minor and Physical Education/Coaching Education Teaching Dual Teaching Minor students must meet all requirements for the Physical Education Minor or the Physical Education/Coaching Education Teaching Dual Teaching Minor and those requirements needed for Teacher Licensure (27).

- **Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the minor. No grade lower than a "C" is acceptable.
- **Credit Hour Requirements:** Physical Education Non-teaching Minor - a total of 29-30 credit hours are required. Physical Education/Coaching Education Dual Teaching Minor - a total of 46-47 credit hours are required. Physical Education Minor - a total of 27 credit hours are required. In addition to the required credit hours, Physical Education/Coaching Education Dual Teaching Minor and Physical Education Minor students must meet the requirements of their selected teaching major and the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements for Bachelor of Science requirements. A General Education course required for all Physical Education minors is:

- NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
- HTHS LS 1110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education/Coaching Education Dual Teaching Minors and Physical Education Track Minors.

Admission Requirements

Students must apply for Physical Education program admittance by November 10 or March 10 of their first semester of taking Physical Education Professional [PEP] courses. Applications are available from the Physical Education Program Director. In addition, students applying for the Teaching Track must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). In addition, students applying for the Physical Education Specialization grades 1-8 must also meet the Teacher Education admission and licensure requirements. Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4830, PEP 4860C, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

Course Requirements for the Physical Education Minor
Professional Knowledge (15 credit hours)

- PEP 2000 - Foundations of Physical Education Credits: (3)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- PEP 3520 - Curriculum and Assessment Credits: (2)
- PEP 3520L - Curriculum and Assessment Lab Credits: (1)
- PEP 3660 - Adapted Physical Education Credits: (3)

Field Experiences (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar Credits: (3)

Methods of Teaching (9 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
- PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)

Course Requirements for the Physical Education/Sport Coaching Education Dual Teaching Minor

Professional Knowledge (26 credit hours)

- PEP 2000 - Foundations of Physical Education Credits: (3)
- PEP 2100 - Introduction to Coaching Sport Credits: (3)
- PEP 2500 - Sport Pedagogy Credits: (3)
- PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- PEP 3400 - Sport Psychology for Coaches Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- PEP 3520 - Curriculum and Assessment Credits: (2)

Skill Development and Methods of Teaching (6 credit hours)

- PEP 3240 - Skill Development and Methods of Field Sports Credits: (2)
- PEP 3242 - Skill Development and Methods of Court Sports Credits: (2)
- PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)

Required Support Course (2-3 credit hours)

- HLTH 1300 - First Aid: Responding to Emergencies Credits: (2) or
- RHS 2175 - Introduction to Sports Medicine Credits: (3)
Physical Education Teaching (BS)

Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Teaching Track students must meet all requirements for the Physical Education Teaching Track and those requirements needed for Teacher Licensure (27).

Physical Education Non-teaching Track students must meet all requirements for the Physical Education Teaching Track except those needed for Teacher Licensure and an additional 12 credits listed below.

- **Program Prerequisite:** Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Minor:** Physical Education Teaching Track requires a teaching minor.
- **Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.
- **Credit Hour Requirements:** Physical Education Non-teaching Track—Total minimum credit hours required in the Major (48). Physical Education Teaching Track—Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.
- **Program Code:** Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)
- **CIPC:** Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

Advisement

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

**Admission requirements include:**

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

General Education
Refer to Degree Requirements for Bachelor of Science requirements. General Education courses required for the Physical Education major are:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

**Program Learning Outcomes**

- Know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
- Are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the SHAPE K - 12 Standards.
- Plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
- Use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
- Utilize assessments and reflection to foster student learning and inform instructional decisions.
- Practice dispositions essential to becoming effective professionals.

**Major Course Requirements for BS Degree**

• RHS 2175 - Introduction to Sports Medicine Credits: (3)
Secondary Physical Education Teachers for Elementary School Dual Certification

For individuals holding a secondary physical education certificate who desire to work in the elementary schools, dual certification is available. See the director of physical education (see Department of Health, Physical Education, and Recreation) for more information.
Sport Coaching Education (BIS)

- Program Code: 5040
- CIPC: 131314

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Department of Teacher Education

Department Chair: Clay Rasmussen  
Location: McKay Education Building, Room 234  
Telephone Contact: Lisa Karle 801-626-7171  
Advisement Contacts: Kristin Radulovich 801-626-6309; Brogan Stampick 801-626-6636  
Professors: Melina Alexander, David Byrd, Michael Cena, Kristin Hadley, Louise Moulding, Pene'e Stewart, Shernavaz Vakil, Natalie Allen Williams; Associate Professors: Vincent Bates, Shirley Dawson, DeeDee Mower, Clay Rasmussen, Sheryl Rushton; Assistant Professors: Caitlin Byrne, Ryan Cain, Dustin Grote, Andrea Martinez, Katarina Pantic, Daniel Pyle, Stephanie Speicher, Yimin Wang; Visiting Assistant Professor: Marilyn Taft; Instructor: Sara Gailey

The major purpose of the professional education programs in teacher education is to prepare candidates for teaching in elementary and secondary schools. Preparation is also provided for teachers of students with mild to moderate disabilities with the special education mild/moderate license. The department prepares students for endorsements in Mathematics, ESL (English as a Second Language), Dual Language Immersion, Basic Reading (graduate level only), and Education of the Gifted (graduate level only). All programs are accredited through the Teacher Education Accreditation Council (TEAC).

The preparation for teaching falls academically within four major categories: University General Education, support courses, subject specialization, and professional education.

1. University General Education requirements -- In selecting courses to satisfy the general education requirements, candidates should note the general education courses recommended and/or required in their major and/or professional education requirement sheets available in the Teacher Education Advisement Center (ED 230).

2. Support courses

3. Specializations are required of all elementary candidates. Elementary education majors have two track options; K-6 and 1-8. The K-6 track requires one 9 credit specialization and a 9 credit early childhood specialization while the 1-8 track requires a 18 credit specialization or a teaching minor. The professional education program outlines acceptable subject specialization areas and requirements. Special Education majors choose one 9-hour specialization or a teaching minor. Secondary candidates completing a teaching major may be required to complete a teaching minor (refer to the teaching major program requirements). The teaching major and teaching minor must be in subjects taught in Utah public secondary schools.

4. Professional Education courses help the prospective teacher learn about children, the nature of the learning process, and how to provide desirable learning experiences. To meet licensure requirements, secondary school candidates are required to complete a minimum of 24 semester hours of professional course work; 55 semester hours are required of the prospective elementary school teacher.

Professional course work in the program is organized into sequential levels. As students move through the program, they are required to demonstrate in a variety of ways the knowledge, skills and dispositions that embody the department's organizing theme and program model.

It is important that interested students contact the Teacher Education Advisement Center (ED 230) as quickly as they decide to become a teacher. Specific program admission requirements, required courses, and recommended general education course work are available.

Admission to Teacher Education

Admission to the Teacher Education Programs is a separate process from general university admission. The Teacher Education programs maintain a competitive admissions process. Applicants are provisionally admitted each semester after submitting their application materials and meeting the minimum admission criteria listed below. Students are admitted two times per year: fall semester and spring semester. Applicants are evaluated by cumulative GPA and admission interview score.

Minimum Admission Requirements

1. Formal Application submitted online by the deadline date.
2. At least 40 semester hours of general education and relevant prerequisite courses.

Those intending to teach Special Education or teach at the elementary level, please note:
The Professional Education component of the Special Education major and the Elementary Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and
have taken most of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Those intending to teach at the secondary level, please note:

The Professional Education component of the Secondary Education program requires two semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and most of the teaching major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

3. Passing the appropriate Praxis II Content test or passing the ACT with the composite score of 21 with a verbal/English score no less than 20 and a mathematics/quantitative score of no less than 19 is required for all programs. The Utah State Office of Education specifies the passing score for each test. Students will not be considered for admission if they do not meet the state specified passing score on the Praxis II or ACT.

4. Sign up for an interview in the Advisement Center when you turn in application materials (the schedule will be available approximately one (1) month prior to the interview dates).

5. Composition general education requirement completed (grade "C" or above in ENGL 2010 EN2, or equivalent).

6. Quantitative Literacy requirement completed (see General Requirements in this catalog). Note: Elementary, Special Education, and Early Childhood Education majors need MATH 1050 as prerequisite for Mathematics Education support courses.

7. Communication competency completed (grade "B-" or above in COMM 1020 or COMM 2110 or equivalent).

8. University Computer and Information Literacy competency completed (see General Requirements in this catalog).

9. EDUC 1010 Exploring Teaching or approved equivalent course completed.

10. Teacher Education also recognizes specific program and diversity needs of professional education and reserves the right to consider such factors in the admission of candidates.

11. For teacher education applicants who are English language learners, an additional requirement of 6.5 on each of the four sections of the International English Language Testing System (IELTS) test is required for admission.

Additional Notes

1. Fingerprinting/background check must be completed immediately after being admitted. Go to the following link for more information: https://weber.edu/fingerprinting

2. Students are provisionally admitted to a specific teacher education program: (1) early childhood education; (2) elementary education; (3) special education; (4) secondary education.

3. Provisional admission to a specific program is valid for a period of five years. If a student has not completed the program within the five-year period or desires to pursue a different program, he/she must seek readmission under the current admission standards and complete current course/program requirements. Changes in state licensure requirements may necessitate more immediate program changes.

4. Professional education credits older than five years at the time of program admission generally will not be counted. However, students may revalidate outdated course work by following procedures available in the Teacher Education Advisement Center, ED 230.

5. A Graduate Certificate in Teaching is also available through the Master of Education program.

6. Applicants who hold Bachelor's degrees older than five years and who have not had more recent relevant course work or work experiences related to their major and minor must take at least two courses in their major and one course in their minor as designated by the academic department.

7. Applicants with an earned graduate degree seeking initial licensure must satisfactorily complete requirements 1, 2, 4, 6, and 7. They are then placed in the pool with others seeking provisional admission.

8. Data are collected on students admitted to the Teacher Education program for the purposes of national accreditation and program improvement. No personal information is used in this process.

Early Childhood Education Major

The Departments of Child and Family Studies and Teacher Education offer a major in Early Childhood Education with licensure for teaching in programs which serve children from birth through eight years of age (Pre-K through 3rd grade). Requirements are listed under the Department of Child and Family Studies. See Room ED 248 for additional information.

Elementary Education Major
Students preparing to teach in elementary schools graduate with a major in Elementary Education. The elementary education major has a K-6 track and a 1-8 track. The Teacher Education Advisement Center and faculty advisors from the Department of Teacher Education are available to advise prospective teachers. A program requirement sheet is available from the Teacher Education Advisement Center in Room 230 in the McKay Education Building. It is to the student's advantage to begin program planning early.

**Interdisciplinary Minors**

The Teacher Education Department participates in the interdisciplinary Linguistics Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)
Basic Reading Endorsement

Level I—Basic Reading Endorsement

These courses will meet the requirement for a Level I Basic Reading Endorsement to be added to the Elementary or Secondary Education licensure. The Teacher Education Department provides the courses required for these two endorsements but does not give the endorsement. It is the teacher’s responsibility to submit application to the USOE (http://www.usoe.k12.ut.us) for the reading endorsement. The USOE does the endorsing after reviewing the student’s application and coursework.

Course Requirements for Elementary Reading Endorsement

- MED 6360 - Foundations of Literacy Credits: (3)
- MED 6320 - Content Area Literacy Instruction Credits: (3)
- MED 6330 - Using Children's Literature and Informational Text in the Classroom Credits: (2)
- MED 6340 - Reading Assessment and Instructional Interventions Credits: (3)
- MED 6350 - Reading Comprehension Instruction Credits: (3)
- MED 6352 - Early Literacy Instruction (K-6) Credits: (2)
- MENG 6110 - Writing for Teachers Credits: (3)

Course Requirements for Secondary Reading Endorsement

- MED 6360 - Foundations of Literacy Credits: (3)
- MED 6320 - Content Area Literacy Instruction Credits: (3)
- MED 6340 - Reading Assessment and Instructional Interventions Credits: (3)
- MED 6350 - Reading Comprehension Instruction Credits: (3)
- MED 6353 - Understanding and Supporting Reading Development (grades 6-12) Credits: (3)
- MENG 6110 - Writing for Teachers Credits: (3)
- MENG 6210 - Teaching Literature in the Secondary Schools Credits: (3)

Level II—Advanced Reading Endorsement

- MED 6354 - Literacy Leadership and Professional Development Credits: (2)
- MED 6355 - Research in Reading Credits: (3)
- MED 6356 INT - Internship in Reading Credits: (3)
Dual Language Immersion Endorsement

This program will meet the requirements for the Dual Language Immersion Endorsement to be added to the Elementary or Secondary Education licensure. Students must also demonstrate language proficiency at the Advanced Mid or higher Level, as determined by the Foreign Language Department. These courses taken at the graduate level may also be used as electives for the MED degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (15 credit hours)

Graduate students should contact the MED director for approved substitutions.

- EDUC 3375 - Foundations of Dual Immersion or Immersion Education Credits: (3) (MED 6375)
- EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment Credits: (3) (MED 6415)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3) (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families Credits: (1)
- FL 4400 - Methods for Teaching Languages Credits: (5)
- EDUC 5770 INT - Field Experience in ESL/Bilingual Education Credits: (2) *

Note:

* EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.

Note:

It is recommended that candidates for the Dual Language Immersion Endorsement also complete the ESL Endorsement with the following courses:

- EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3) (MED 6250)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers Credits: (3) (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices Credits: (3) (MENG 6450)
Education (AS)

The Associate of Science degree (AS) in Education is a two-year program designed to prepare students for the elementary or special education bachelors programs. Students completing this program will develop skills and get the hands-on experience necessary to be accepted into the professional courses offered at the university level. Course work will satisfy the General Education requirements for the first two years of a bachelor's degree in elementary or special education. Specific requirements for the bachelor's degrees in elementary education and special education can be found at Department of Teacher Education.

- **Credit Hour Requirements:** A total of 60 credit hours are required for graduation; 24 or these are required Education-related and support courses and 36 are required general education courses.
- **Program Code:** 5025AS
- **CIPC:** 139999

Advisement

All students should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-6309 for more information or to schedule an appointment. See weber.edu/COE/tedadvise.html

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the AS in Education will also fulfill general education requirements: CHF SS/DV 1500, COMM HU 1020 or COMM HU CEL 2110, GEOG SUS/SS/DV 1300 or GEOG SS/DV/SUS 1520, MATH QL 2020. It is recommended that students fulfill the Computer and Information Literacy Part D requirement with LIBS 2604/EDUC 2604.

Major Course Requirements for AS Degree

Required Education-related Courses (30-31 credit hours)

- EDUC 1010 CEL - Exploring Teaching Credits: (3)
- EDUC 2010 CEL - Human Exceptionality Credits: (3)
- CHF 1500 SS/DV - Human Development Credits: (3)
- COMM 1020 HU - Principles of Public Speaking Credits: (3) OR
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- ENGL 3300 - Children's Literature Credits: (3)
- GEOG 1300 SUS/SS/DV - Global Issues: Places, People and the Planet Credits: (3) OR
- GEOG 1520 SS/DV/SUS - United States and Canada: Geography, Diversity and Change Credits: (3)
- MATH 2010 - Arithmetic for Elementary Teachers Credits: (3) grade of C or above
- MATH 2015 - Algebra for Elementary Teachers Credits: (3) grade of C or above
- MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) grade of C or above

AND one of the following:

- ART 1030 CA - Studio Art for the Non-Art Major Credits: (3) Can not double count as Gen Ed
- DANC 3640 INT - Teaching Creative Dance in the Elementary School Credits: (3)
- EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
- MUSC 3824 - Music for Elementary Teachers Credits: (4)
- THEA 4603 - Creative Drama Credits: (3)

Required Support Courses (15 credit hours)
Select 6 credit hours from the following, with at least 3 from Creative Arts (don't duplicate departments):

**Humanities**
- ENGL 2200 HU/DV - Introduction to Literature Credits: (3)
- ENGL 2220 HU/DV - Introduction to Fiction Credits: (3)
- ENGL 3510 HU/DV - World Literature Credits: (3)
- MUSC 1043 HU - Music, the Arts & Civilizations Credits: (3)

**Creative Arts**
- ART 1010 CA - Introduction to the Visual Arts Credits: (3)
- ART 1030 CA - Studio Art for the Non-Art Major Credits: (3)
- DANC 1010 CA/DV - Introduction to Dance Credits: (3)
- MUSC 1040 CA/DV - Music of World Cultures Credits: (3)
- THEA 1033 CA - Introduction to Acting Credits: (3)

Select 3 credit hours from the following to satisfy the science with a lab requirement (may not duplicate departments):
- GEO 1350 PS - Principles of Earth Science Credits: (3) OR
- CHEM 1360 PS - Principles of Physical Science Credits: (3) or PHYS PS 1360 OR
- BTNY 1370 LS - Principles of Life Science Credits: (3) or MICR LS 1370 or ZOOL LS 1370

Select 6 additional credit hours from the General Education Physical Science and Life Science requirements.

**Required Track-Specific Support Courses (6 credit hours)**

Elementary and Special Education: 6 credit hours towards an area of specialization.
Education - Non-Teaching (BIS)

- Program Code: 5025
- CIPC: 130101

The Bachelor of Integrated Studies (BIS) is designed to meet the needs of students who have clear educational goals that they would like to meet through an individualized university program. The 18-credit education emphasis is for those who have prior coursework or special interest in teaching and learning. Specific courses are determined through advisement. This program does not lead to educator licensure.
Education of the Gifted Endorsement

These courses may also be used as electives for the MEd Degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (14 credit hours)

- MED 6420 - Foundations of Education of the Gifted Credits: (3)
- MED 6440 - Social and Emotional Needs of the Gifted Credits: (2)
- MED 6480 - Differentiated Curriculum for the Gifted Credits: (3)
- MED 6490 - Assessment and Evaluation in Education of the Gifted Credits: (3)
- MED 6495 - Action Research in Education of the Gifted Credits: (3)

Elective (at least 2 credit hours)

Select one of the following options:

- MED 6450 - Creativity and Applied Imagination Credits: (2)
- MED 6470 - Teaching for Thinking Credits: (2)
- Approved graduate credit through professional development course of conference
Elementary Education (BS)

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Department of Teacher Education).
- **Minor/Specialization:** One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching minor must be completed.
- **Grade Requirements:** Elementary Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work and at least a "B-" grade in each professional education course to continue in the program. Elementary Education majors must also achieve at least a "C" grade in MATH 2010, MATH 2015 and MATH 2020.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation; a minimum of 46 of these is required within the Elementary Education major. A total of 40 upper division credit hours is required (courses number 3000 and above).
- **Program Code:** 5005BS
- **CIPC:** 131202

**Admission Requirements**

Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department.

**Advisement**

All Elementary Education majors should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment.

For Elementary Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Subject Area Specialization; and IV. Professional Education Courses. Details for each of these required areas follow.

**Program Learning Outcomes**

- Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;
- Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy; and
- Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

**General Education**

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Elementary Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, GEOG SUS/SS/DV 1300 OR GEOG SS/DV/SUS 1520, MATH QL 2020 and CHF 1500. Meeting the general education science requirements may not meet elementary education science requirements. Following the suggested guidelines below will assure that both University general education and Elementary Education requirements are met.

Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be PS1350 (Principles of Earth Science), PS1360 (Principles of Physical Science), or LS1370 (Principles of Life Science), or at least one science lab course.

**Major Course Requirements for BS Degree resulting in a K-8 License**
II. Support Courses Required (or equivalent) (27-29 credit hours)

- CHF 1500 SS/DV - Human Development Credits: (3)
- COMM 1020 HU - Principles of Public Speaking Credits: (3) or
  COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- EDUC 1010 CEL - Exploring Teaching Credits: (3)
- EDUC 2010 CEL - Human Exceptionality Credits: (3)
- ENGL 3300 - Children's Literature Credits: (3)
- GEOG 1300 SUS/SS/DV - Global Issues: Places, People and the Planet Credits: (3) OR
  GEOG 1520 SS/DV/SUS - United States and Canada: Geography, Diversity and Change Credits: (3)
- MATH 2010 - Arithmetic for Elementary Teachers Credits: (3) Grade of C or above required
- MATH 2015 - Algebra for Elementary Teachers Credits: (3) Grade of C or above required
- MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) Grade of C or above required

At least one course from the following

- ART 1030 CA - Studio Art for the Non-Art Major Credits: (3)
- MUSC 3824 - Music for Elementary Teachers Credits: (4)
- EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
- DANC 3640 INT - Teaching Creative Dance in the Elementary School Credits: (3)
- THEA 4603 - Creative Drama Credits: (3)

III. Required Area of Specialization (18 credit hours)

One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching minor must be completed. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

The Professional Education component of the Elementary Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken at least some of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

- ECED 2500 - Development of the Child Credits: (3) Must be completed prior to Level 1
- ECED 2610 - Child Guidance Credits: (3) Must be completed prior to Level 1
- ECED 3620 - Curriculum Planning for Kindergarten Credits: (3) Taken with Level 1 courses

IV. Professional Education Courses Required (56 credit hours)

Admission to teacher education is required prior to enrollment in Professional Education courses.

Level 1 (14 credit hours)

Note: Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 3115 - Media Integration in Elementary Education Settings Credits: (2)
- EDUC 3120 - Reading Instruction in the Primary Grades Credits: (3)
- EDUC 3145 - Educational Psychology, Child Development, and Classroom Management Credits: (3)
- EDUC 3205 - Culturally and Linguistically Responsive Teaching Credits: (3)
- EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching Credits: (3)
Level 2 (13 credit hours)

Note: K-6 majors take an area of specialization course (3) and 1-8 majors take an a minor/endorsement course (3). Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 3130 - Curriculum, Instructional Planning, and Assessment Credits: (3)
- EDUC 3210 INT - Elementary Level II Practicum Credits: (2)
- EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy Credits: (2)
- EDUC 3240 - Reading Instruction in the Intermediate Grades Credits: (3)
- EDUC 4345 - Elementary Integrated Arts Methods Credits: (3)

Level 3 (17 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 3280 - Elementary Social Studies Methods Credits: (3)
- EDUC 4210 INT - Elementary Level III Practicum Credits: (3)
- EDUC 4320 - Elementary Language Arts Methods Credits: (3)
- EDUC 4330 - Elementary Science Methods Credits: (3)
- EDUC 4350 - Elementary Mathematics Pedagogy Credits: (2)
- PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers Credits: (3)

Level 4 (12 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 4840A INT - Student Teaching in Elementary Education Credits: (8)
- EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis Credits: (4)
Elementary Education Mathematics Endorsement

A candidate desiring to receive Elementary Education Mathematics Endorsement must fill the requirements of the Elementary Education major and complete the following courses.

Courses Required for Endorsement

Mathematics Courses Required (19 hours)

- MATH 1060 QL - Trigonometry Credits: (3)
- MATH 1210 - Calculus I Credits: (4)
- MTHE 3060 - Probability and Statistics from a Teaching Perspective Credits: (3)
- MTHE 3070 - Geometry for Grade K-8 Teachers Credits: (3)
- MTHE 3080 - Number Theory for Elementary Teachers Credits: (3)
- MTHE 4040 - Mathematical Problem Solving for Grade K-8 Teachers Credits: (3)

Note:

Elementary education majors desiring an Elementary Mathematics Endorsement should consult with the Mathematics Department Chair early in their program. The student will be assigned an advisor to help design his/her course of study.
ESL (English as a Second Language) Endorsement

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure. These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

- **Grade Requirements:** A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.
- **Credit Hour Requirements:** 17 credit hours required.
- **Program Code:** Minor 5009
- **CIPC:** 131401

*Students must satisfy the Teacher Education admission and licensure requirements.*

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

- EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3) (MED 6250)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3) (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families Credits: (1)
- EDUC 5770 INT - Field Experience in ESL/Bilingual Education Credits: (2) **
- ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual Credits: (3) * (MENG 6410)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers Credits: (3) (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices Credits: (3) (MENG 6450)

**Note:**

* FL 4400, Methods of Teaching a Foreign Language, may be substituted for ENGL 4410.
** EDUC 5770 needs to be completed with Student Teaching.

*Endorsement programs are also offered through the graduate program as electives.*
ESL (English as a Second Language) Minor

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure. These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

- **Grade Requirements:** A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.
- **Credit Hour Requirements:** 17 credit hours required.
- **Program Code:** Minor 5009
- **CIPC:** 131401

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

- EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3) (MED 6250)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3) (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families Credits: (1)
- EDUC 5770 INT - Field Experience in ESL/Bilingual Education Credits: (2) **
- ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual Credits: (3) * (MENG 6410)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers Credits: (3) (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices Credits: (3) (MENG 6450)

Note:

* FL 4400, Methods of Teaching a Foreign Language, may be substituted for ENGL 4410.
** EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.
Paraeducator Certificate of Proficiency

The Paraeducator Certification Program is a one-year program designed for those seeking employment as a paraeducator, improving their skills as an experienced paraeducator, or earning stackable degrees towards a teaching license and bachelor degree. Students are able to earn the Paraeducator Certificate as a standalone achievement or part of a continuous career plan designed to connect to a teaching career and bachelor's degree. High school students may begin taking some courses in the Career Pathway for Education. Others can begin taking courses at any time. The courses in the Paraeducator Certificate can apply to an associate degree. Eventually students are able to apply some courses in the Paraeducator Certificate Program to a bachelor's degree and a Utah Teaching License in Elementary, Secondary, or Special Education.

- **Grade Requirements**: A grade of “C” or better in all courses used for this certificate.
- **Credit Hour Requirements**: A total of 18 credit hours is required.
- **Program Code**: 5062CP
- **CIP Code**: 131501

Advisement

Students in the Paraeducator Certification Program should meet with the program advisor for course and program advisement. Call Kristin Radulovich at 801-626-6309 for more information or to schedule an appointment.

Required Courses

- EDUC 1010 CEL - Exploring Teaching Credits: (3)
- EDUC 2010 CEL - Human Exceptionality Credits: (3)
- EDUC 2800 - Instruction, Technology, Assessment, and Planning Credits: (3)
- EDUC 2820 - Creating a Learning Environment Credits: (3)
- CHF 1500 SS/DV - Human Development Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
Secondary Education Licensure

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department). Select an academic teaching major and teaching minor or composite teaching major and teaching minor that WSU offers. In many departments the teaching major and minor are different from the departmental major and minor.

- **Minor:** A teaching minor is recommended and may be required with most teaching majors (please consult your content major advisor). A teaching minor is generally not required with a composite teaching major (refer to specific composite major program requirements).

- **Grade Requirements:** Secondary Education students must meet minimum major course grade requirements and maintain a cumulative GPA of 3.00 or higher in all college work and achieve at least a "B-" grade in each professional education course to continue in the program.

- **Credit Hour Requirements:** A total of 120 semester hours is required for graduation; a minimum of 24 of these is required within the Secondary Licensure program. A total of 40 upper division credit hours is required (courses number 3000 and above).

The academic teaching major and teaching minor must consist of not less than 30 and 16 semester hours respectively, or a composite major of a minimum of 46 semester hours. The teaching major and teaching minor must be in subjects taught in **Utah public secondary schools.** Either the major or minor must be a subject which Utah secondary schools are required to teach (those marked with asterisks do not satisfy this second requirement - see the list of teaching majors and minors below).

Admission Requirements

Declare a program of study (see Enrollment Services and Information). Follow the provisional admission requirements outlined under the Teacher Education Department.

Advisement

All Secondary Education students should meet with an advisor in the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment. In addition, students should seek advisement from both their teaching major and their teaching minor program areas.

For Secondary Licensure candidates, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Teaching Major and Teaching Minors (when required) that WSU offers; and IV. Professional Education Courses. Details for each of these required areas follow.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. The following courses required for the Secondary Education Licensure Program will also satisfy general education requirements: COMM 1020 or COMM 2110 and CHF 1500.

Course Requirements for Licensure

II. Support Courses Required (or equivalent)

- EDUC 1010 CEL - Exploring Teaching **Credits:** (3)

One course from the following

- CHF 1500 SS/DV - Human Development **Credits:** (3) or
- PSY 3140 - Adolescent Psychology Credits: (3)

One course from the following

- COMM 1020 HU - Principles of Public Speaking Credits: (3) or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

III. Teaching Majors and Minors

Majors and Minors

Chemistry
Dance
French
German
Mathematics
Physics
Psychology*
Spanish
Communication*
English
Geography
History
Physical Education
Sociology*
Theatre Arts

*Subjects which Utah secondary schools are not required to teach

Minors Only

Art
Biology
Business Education
Business/Marketing Education
Computer Science
Earth Science
Economics
ESL (English as a Second Language)
Health Promotion
Physical Education/Coaching Education Dual Teaching

Licensure Programs

Special Education (Mild/Moderate)

Composite Majors

In lieu of the major and minor, a candidate may elect a composite teaching major which consists of a minimum of forty-six (46) hours of subjects in closely related fields.

Art (minor required)
Business Education
Music Education
Social Science

Biology
Earth Science
Physical Science

IV. Professional Education Courses Required (24 hours)

Secondary Teacher Education Core
• EDUC 3220 - Foundations of Diversity Credits: (2)
• EDUC 3265 - The Exceptional Student Credits: (2)
• EDUC 3315 - Media Integration in the Secondary School Setting Credits: (2)
• EDUC 3900 - Preparing, Teaching, and Assessing Instruction Credits: (2)
• EDUC 3910 INT - Secondary Education Practicum Credits: (2)
• EDUC 3935 - Reading and Writing Across the Secondary Curriculum Credits: (2)

Secondary Teacher Education Student Teaching

• EDUC 4940A INT - Student Teaching in Secondary Education Credits: (8)
• EDUC 4950 - Integrated Secondary Student Teaching Seminar Credits: (4)

Additional Information:

Provisional admission to teacher education is required prior to enrollment in 3000 level and above education classes. 
HIST 4500 is a required course for the Social & Behavioral Science Teaching Major/Teaching Minor. 
The Professional Education component of the Secondary Education program requires two semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and most of the major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.
Special Education (BS)

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department).
- **Specialization:** Required (9 or more credit hours). Students may choose any academic teaching minor (refer to department listings for specific requirements). Or, choose a specialization area (see below).
- **Grade Requirements:** A "B-" or higher is required for any upper division EDUC or MED course, in addition, Special Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation. The following are required within the program: Support Courses 21; Specialization 9; Professional Education 12; Special Education 44. A total of 40 upper division credit hours is required (courses number 3000 and above).
- **Program Code:** 5007BS
- **CIPC:** 131001

Admission Requirements

Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department. Also refer to the Department Advisor Referral List.

Advisement

All Special Education majors should meet with an advisor in the Teacher Education Advisement Center and with an assigned advisor from the Special Education faculty. Call 801-626-7694 for more information or to schedule an appointment. For Special Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Area of Specialization; and, IV. Professional Courses. Details for each of these required areas follow.

Program Learning Outcomes

- Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;
- Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy; and
- Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Special Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, MATH QL 2020, and CHF SS/DV 1500. Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be GEO PS 1350 (Principles of Earth Science), CHEM 1360 PS/PHTHYS PS 1360 (Principles of Physical Science), or BTNY LS 1370 MIRC LS 1370/ZOOL LS 1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree

II. Support Courses Required (or equivalent) (21 credits)
• EDUC 1010 CEL - Exploring Teaching Credits: (3)
• EDUC 2010 CEL - Human Exceptionality Credits: (3)
• CHF 1500 SS/DV - Human Development Credits: (3)

• COMM 1020 HU - Principles of Public Speaking Credits: (3) or
• COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

• MATH 2010 - Arithmetic for Elementary Teachers Credits: (3) Grade of C or above required
• MATH 2015 - Algebra for Elementary Teachers Credits: (3) Grade of C or above required
• MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) Grade of C or above required

And at least 6 credit hours from the following

• ENGL 3300 - Children's Literature Credits: (3)
• EDUC 3390 - Literacy in the Primary Grades Credits: (2)
• EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
• EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3)
• EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3)
• CHF 2400 SS/DV - Family Relations Credits: (3)
• ECED 2500 - Development of the Child Credits: (3)
• ECED 3640 - Collaborating with Families of Young Children Credits: (3)
• PSY 3000 - Child Psychology Credits: (3)
• PSY 3140 - Adolescent Psychology Credits: (3)
• PEP 3660 - Adapted Physical Education Credits: (3)

III. Area of Specialization options (9 credits)

In addition, complete a 9-hour specialization in one of the areas listed below. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

1. Mathematics
2. English as a Second Language
3. Early Childhood
4. Family Studies
5. Language Arts (Secondary)
6. International Education

IV. Courses Required for the Major (55 credits)

Level 1 - Foundation Education Courses (14 credits)

• EDUC 3115 - Media Integration in Elementary Education Settings Credits: (2)
• EDUC 3120 - Reading Instruction in the Primary Grades Credits: (3)
• EDUC 3145 - Educational Psychology, Child Development, and Classroom Management Credits: (3)
• EDUC 3205 - Culturally and Linguistically Responsive Teaching Credits: (3)
• EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching Credits: (3)

Level 2 - Inclusion Methods (15 credits)

• EDUC 3371 - Assistive Technology Credits: (1)
• EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers Credits: (2)
• EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings Credits: (3)
• EDUC 4521 - Practicum in Special Education A Credits: (3)
- EDUC 4535 - Strategic Plan for Disability Credits: (3)
- EDUC 4580 - Instructional and Transition Planning for Special Education Students Credits: (3)

Level 3 - Special Education Methods (16 credits)

- EDUC 3590 - Working with Students with ELA or Math Disabilities in Resource Settings Credits: (3)
- EDUC 4515 - IEP Planning and Special Education Law Credits: (4)
- EDUC 4530 - Principles and Applications of Special Education Assessment Credits: (3)
- EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis Credits: (3)
- EDUC 4582 INT - Practicum in Special Education B Credits: (3)

Student Teaching in Special Education (12 credits)

- EDUC 4680A INT - Special Education Student Teaching Credits: (8)
- EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors Credits: (4)
Graduate Certificate in Teaching

Educational Leadership Graduate Certificate

If you are seeking a teaching license, please go to the appropriate Graduate Certificate in Teaching page.

- **Grade Requirements:** Following admission to the MEd program, students must maintain an institutional GPA of 3.0. Students must earn at least a B- in all core classes. Students must earn at least a B- in all courses. If students earn a grade that is below a B-, the course must be retaken. Course grades below a C- are unacceptable and could result in removal from the program if the problem persists.

- **Credit Hour Requirements:** The 26-hour program of study consists of professional core specific to educational leadership, including an intensive internship in the K-12 setting. The graduate certificate is intended for those who already hold a master's degree. Courses listed in the Foundations section or equivalent must be on the transcript of the master's degree. If not, some of these may be required.

- **Program Code:** 5058GC
- **CIPC:** 131202

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines is January 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

1. Admission to Weber State University and application for the MEd Program.
2. Payment of the MEd program application fee.
3. Verification of a master's degree from an accredited institution based on official transcripts from all institutions attended. If foundational courses were not completed in the master's degree, additional courses may be required.
4. Overall GPA of 3.25 or 3.25 on most recent 60 semester hours; *If between 3.0 and 3.25, may take the GRE (152 verbal min and 145 quantitative min) or MAT (400 min)
5. Writing sample score with a minimum of 4 out of 6;
6. Clear a USOE fingerprint background check;
7. Hold a Professional Educator License;
8. Be deemed effective or higher by:
   - an evaluation system meeting the standards of R277-531; or
   - the LEA's equivalent on the applicant's most recent evaluation;
9. Have a recommendation from:
   - the individual's immediate administrative supervisor; or
   - an LEA-level administrator with knowledge regarding the individual's potential as an education leader; and
10. Pass an interview conducted by the program to measure the potential of the individual as an education leader (with a score of 4 out of 6).

Additional Requirements for International Students

- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.
- If the overall GPA is lower than 3.25 but better than a 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. Students with GPAs below 3.00 will not be considered for the program. All degree requirements must be completed within a six-year timeline based on the first semester of coursework.
Professional Core (26)

- MED 6040 - Politics, Policy, and Practices of Education Credits: (2)
- MED 6100 - Leadership and Organizational Theory Credits: (2)
- MED 6101 - Assessment and Program Evaluation Credits: (3)
- MED 6102 - Public Education Finance Credits: (3)
- MED 6210 - School Law Credits: (3)
- MED 6600 - Ethical Leadership Credits: (2)
- MED 6601 - Community Engagement and Advocacy Credits: (2)
- MED 6602 - Organizational Change and School Improvement Credits: (3)
- MED 6603 - Positive Academic and Behavior Supports in Schools Credits: (2)
- MED 6604 - Educational Leader Internship Credits: (4)

Foundations (10)

Only required if not previously completed as part of a master's degree.

- MED 6000 - Fundamentals of Graduate Study Credits: (2)
- MED 6010 - Advanced Historical Foundations Credits: (2)
- MED 6020 - Diversity in Education Credits: (2)
- MED 6030 - Advanced Educational Psychology Credits: (2)
- MED 6082 - Educational Inquiry Credits: (2)
Elementary Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

- Program Code: 5042GC
- CIPC: 131202

GPA Requirements for GCT in Elementary Teaching Students

Following admission to the GCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements for GCT in Elementary Teaching

The 32 credit hour program of study consists of:

- 24 hour credits hours in specific coursework.
- Practicum is a 2 credit hour which requires 60 clock hours in an elementary classroom.
- Student teaching is a 6 credit hour which requires 60 full teaching days in elementary classrooms.

Required Courses

- MED 6020 - Diversity in Education Credits: (2)
- MED 6050 - Curriculum Design, Evaluation & Assessment Credits: (3)
- MED 6110 - Introduction to Classroom Management Credits: (3)
- MED 6229 - Instructional Technology for Pre-service Teachers Credits: (2)
- MED 6265 - Foundations of Inclusive Teaching Credits: (2)
- MED 6311 - Content Instruction in the Elementary School: Science Credits: (2)
- MED 6312 - Content Instruction in the Elementary School: Mathematics Credits: (2)
- MED 6313 - Content Instruction in the Elementary School: Social Studies Credits: (2)
- MED 6314 - Reading Instruction in Elementary Schools Credits: (2)
- MED 6316 - Language Arts Instruction in Elementary Schools Credits: (2)
- MED 6317 - Arts Integration for Elementary Teachers Credits: (2)
- MED 6860 INT - Practicum in Education Credits: (2) (2 credit hours required)
- MED 6870 INT - Student Teaching and Seminar in Elementary Education for MED Students Credits: (6) (6 credit hours required)

Secondary Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

- Program Code: 5043GC
- CIPC: 131205

GPA Requirements for GCT in Secondary Teaching Students
Following admission to the GCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

**Course Requirements for GCT in Secondary Teaching**

The program of study consists of:

- 17 credit hours in specific coursework.
- Practicum is a 2 credit hour "course" which requires 60 clock hours in a secondary, subject-specific classroom.
- Student teaching is a 6 credit hour "course" which requires a minimum of 60 full teaching days in a secondary, subject-specific classroom.

**Required Courses**

- MED 6020 - Diversity in Education Credits: (2)
- MED 6050 - Curriculum Design, Evaluation & Assessment Credits: (3)
- MED 6060 - Instructional Strategies Credits: (2)
- MED 6110 - Introduction to Classroom Management Credits: (3)
- MED 6229 - Instructional Technology for Pre-service Teachers Credits: (2)
- MED 6265 - Foundations of Inclusive Teaching Credits: (2)
- MED 6320 - Content Area Literacy Instruction Credits: (3)
- MED 6860 INT - Practicum in Education Credits: (2) (2 credit hours required)
- MED 6880 INT - Student Teaching and Seminar in Secondary Education for MED Students Credits: (6) (6 credit hours required)

Some additional courses may be required for endorsement area.
Special Education Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

- **Program Code:** 5045GC
- **CIPC:** 131001

**Required Courses**

- MED 6515 - Foundations in Special Education: Law and Practice *Credits:* (3)
- MED 6530 - Principles and Applications of Special Education Assessment *Credits:* (3)
- MED 6540 - Advanced Managing Student Behavior *Credits:* (3)
- MED 6580 - Advanced Learning Strategies and Transition for Special Education Students *Credits:* (3)
- MED 6565 - Advanced Instructional Methods and Practices: English Language Arts *Credits:* (3) concurrently with
- MED 6860 INT - Practicum in Education *Credits:* (2)
- MED 6575 - Advanced Instructional Methods and Practices: Mathematics *Credits:* (3) concurrently with
- MED 6860 (1)
- MED 6890 INT - Student Teaching and Seminar in Special Education for MED Students *Credits:* (4)
- MED 6500 - Curriculum Planning and Evaluation for Special Education Students *Credits:* (3)
- MED 6529 - Assistive Technology *Credits:* (2)

The Master of Education degree (MEd) at Weber State University is a professional program intended to support educators in schools, business, industry, and higher education through advancing the theoretical and practical applications of teaching and leadership. There are multiple emphases from which candidates choose to best fit their needs: Curriculum and Instruction, Educational Leadership, Higher Education Leadership, and Family Life Education. Courses within the emphases are aligned to state and national professional standards, and may lead to advanced licensure. A Graduate Certificate in Educational Leadership is available for candidates who have a master's degree in education and are seeking the administrative/supervisory license only.
Master of Education (MEd)

Areas of Emphasis

Select one of the following areas of emphasis

- Master of Education (MEd), Curriculum & Instruction Emphasis
- Master of Education (MEd), Educational Leadership Emphasis
- Master of Education (MEd), Family Life Education Emphasis
- Master of Education (MEd), Higher Education Leadership Emphasis

Curriculum and Instruction: The Master of Education with an emphasis in Curriculum and Instruction is designed for candidates seeking more in-depth knowledge and skill for classroom instruction. In addition to foundation courses, students may select from a variety of electives including courses leading to license endorsements. Candidates will complete a classroom or school-based project as a culminating experience.

Educational Leadership: The Master of Education with an emphasis in Educational Leadership is designed for candidates seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for a School Leadership license.

Family Life Education: This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life education and family systems in general. Candidates will also integrate the best practices for theory-based program delivery, management, evaluation, and research.

Higher Education Leadership: The Master of Education with an emphasis in Higher Education Leadership is designed for candidates seeking to work in a higher education environment to gain a deep understanding of the roles, mechanisms, and policies that impact higher education. Candidates can select an intensive internship or a site-based research project as a culminating experience.

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines is January 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:
1. Admission to Weber State University and application for the MEd Program.
2. Payment of the MEd program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.25 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.

or

Minimum GPA of 3.00 to 3.24 on the last 60 semester hours (90 quarter hours) and a minimum score of either 400 on the Miller's Analogies Test (MAT) or 152 on the Verbal Reasoning and 145 on the Quantitative Reasoning portions of the Graduate Record Examination (GRE). Students with GPAs below 3.00 will not be considered for the program.

7. Writing proficiency assessment with a minimum score of 4 out of 6.
8. Interview with Master of Education faculty members with a score of 4 out of 6.

Additional Requirements for Educational Leadership Emphasis

In addition to the above, those seeking admission to the Educational Leadership emphasis must also

1. Clear a USBE fingerprint background check;
2. Hold a Professional Educator License;
3. Be deemed effective or higher by:
   an evaluation system meeting the standards of R277-531; or
   the LEA's equivalent on the applicant's most recent evaluation;
4. Have a recommendation from:
   the individual's immediate administrative supervisor; or
   an LEA-level administrator with knowledge regarding the individual's potential as an education leader.

Additional Requirements for International Students
• Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
• TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.
• Oral language proficiency assessment.
• Weber State University-accepted bachelor's degree.
• Courses evaluated into the equivalent of American credits and letter grades.
• Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.
• If the overall GPA is lower than 3.25 but better than 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. Students with GPAs below 3.00 will not be considered for the program. All degree requirements must be completed within a six-year timeline based on the first semester of coursework.

GPA Requirements for all MEd Students
Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.
• Program Code: 5056MED with Emphasis in 5057 (Curriculum and Instruction) or 5058 (Educational Leadership) or 5059 (Family Life Education) or 5060 (Higher Education Leadership).
• CIPC: 131202

Program Learning Outcomes

• knowledge of the history and philosophy of education.
• knowledge the issues related to differences among groups of people and individuals and the impact on teaching and learning.
• knowledge of important theories of learning and development and the implications for education.
• knowledge of principles of curriculum development and assessment.
• knowledge of instructional strategies and practices that facilitate effective learning.
• ability to use writing to meet scholarly and professional goals.
• ability to use highly developed verbal communication in presentations, questioning, and discussions.
• ability to analyze, critique, and summarize educational research.
• ability to find and report on a significant educational question that has usefulness and applicability in educational settings.
• ability to critically and reflectively synthesize personal and professional experiences.
Master of Education (MEd), Curriculum & Instruction Emphasis

The Master of Education with an emphasis in Curriculum and Instruction is designed for candidates seeking more in-depth knowledge and skill for classroom instruction. In addition to foundation courses, students may select from a variety of electives including courses leading to license endorsements. Candidates will complete a classroom or school-based project as a culminating experience.

- **Program Code:** 5056MED with Emphasis in 5057 (Curriculum and Instruction)
- **CIPC:** 131202

**Admission Requirements**
The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines is January 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

1. Admission to Weber State University and application for the MEd Program.
2. Payment of the MEd program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.25 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.
   or
   Minimum GPA of 3.00 to 3.24 on the last 60 semester hours (90 quarter hours) and a minimum score of either 400 on the Miller's Analogies Test (MAT) or 152 on the Verbal Reasoning and 145 on the Quantitative Reasoning portions of the Graduate Record Examination (GRE). Students with GPAs below 3.00 will not be considered for the program.
7. Writing proficiency assessment with a minimum score of 4 out of 6.
8. Interview with Master of Education faculty members (with a score of 4 out of 6).

**Additional Requirements for International Students**
- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.
- If the overall GPA is lower than 3.25 but better than a 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. **GPA Requirements for all MEd Students**
Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

**Course Requirements**

The 36 credit-hour program of study consists of 22 credit-hours professional core requirement and 14 credit hours of graduate electives. A portion of the core requirement is the completion of a Master's project.

**Foundations (12)**

- MED 6000 - Fundamentals of Graduate Study Credits: (2)
- MED 6010 - Advanced Historical Foundations Credits: (2)
- MED 6020 - Diversity in Education Credits: (2)
• MED 6030 - Advanced Educational Psychology Credits: (2)
• MED 6040 - Politics, Policy, and Practices of Education Credits: (2)
• MED 6082 - Educational Inquiry Credits: (2)

Emphasis Specific Courses (6)

• MED 6055 - Curriculum Theory Credits: (2)
• MED 6060 - Instructional Strategies Credits: (2)
• MED 6065 - Assessment and Informed Decisions in the Classroom Credits: (2)

Project (4)

• MED 6150 - Classroom- and School-Based Research Credits: (2)
• MED 6090 - Master's Project Credits: (2)

Electives (14 credit hours)

Electives must be graduate level (i.e. 6000 level credit) and may be selected from offerings in professional education, discipline areas, or specialized courses leading to endorsements. The graduate office has listings of approved elective courses and endorsement requirements.
Master of Education (MEd), Educational Leadership Emphasis

The Master of Education with an emphasis in Educational Leadership is designed for candidates seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for an administrative/supervisory license.

- **Program Code:** 5056MED with Emphasis in 5058 (Educational Leadership)
- **CIPC:** 131202

**Admission Requirements**
The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines is January 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.
The following items are required:
1. Admission to Weber State University and application for the MEd Program.
2. Payment of the MEd program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.25 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.
   or
   Minimum GPA of 3.00 to 3.24 on the last 60 semester hours (90 quarter hours) and a minimum score of either 400 on the Miller's Analogies Test (MAT) or 152 on the Verbal Reasoning and 145 on the Quantitative Reasoning portions of the Graduate Record Examination (GRE). Students with GPAs below 3.00 will not be considered for the program.
7. Writing proficiency assessment with a minimum score of 4 out of 6.
8. Interview with Master of Education faculty members (with a score of 4 out of 6).

**Additional Requirements for Educational Leadership Emphasis**
In addition to the above, those seeking admission to the Educational Leadership emphasis must also
1. Clear a USOE fingerprint background check;
2. Hold a Professional Educator License;
3. Be deemed effective or higher by:
   an evaluation system meeting the standards of R277-531; or
   the LEA's equivalent on the applicant's most recent evaluation;
   Have a recommendation from:
   the individual's immediate administrative supervisor; or
   an LEA-level administrator with knowledge regarding the individual's potential as an education leader.

**Additional Requirements for International Students**
- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.
- If the overall GPA is lower than 3.25 but better than a 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. Students with GPAs below 3.00 will not be considered for the program. All degree requirements must be completed within a six-year timeline based on the first semester of coursework.

**GPA Requirements for all MEd Students**
Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

**Course Requirements**
The 36 credit-hour program of study consists of 12 credit hours of foundation courses, 24 credit hours of professional core specific to educational leadership, including an intensive internship in the K-12 setting. Prior to recommendation for the School Leadership license, candidates must pass the Educational Leadership: Administration and Supervision Praxis Exam (5412) with a minimum score of 146.

Foundations (12)

- MED 6000 - Fundamentals of Graduate Study Credits: (2)
- MED 6010 - Advanced Historical Foundations Credits: (2)
- MED 6020 - Diversity in Education Credits: (2)
- MED 6030 - Advanced Educational Psychology Credits: (2)
- MED 6040 - Politics, Policy, and Practices of Education Credits: (2)
- MED 6082 - Educational Inquiry Credits: (2)

Professional Core (24)

- MED 6100 - Leadership and Organizational Theory Credits: (2)
- MED 6101 - Assessment and Program Evaluation Credits: (3)
- MED 6102 - Public Education Finance Credits: (3)
- MED 6210 - School Law Credits: (3)
- MED 6600 - Ethical Leadership Credits: (2)
- MED 6601 - Community Engagement and Advocacy Credits: (2)
- MED 6602 - Organizational Change and School Improvement Credits: (3)
- MED 6603 - Positive Academic and Behavior Supports in Schools Credits: (2)
- MED 6604 - Educational Leader Internship Credits: (4)
Master of Education (MEd), Family Life Education Emphasis

This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life education and family systems in general. Candidates will also integrate the best practices for theory-based program delivery, management, evaluation, and research.

- **Program Code:** 5056MED with Emphasis in 5059 (Family Life Education)
- **CIPC:** 131202

**Admission Requirements**
The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines is January 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

1. Admission to Weber State University and application for the MEd Program.
2. Payment of the MEd program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.25 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.
   or
   Minimum GPA of 3.00 to 3.24 on the last 60 semester hours (90 quarter hours) and a minimum score of either 400 on the Miller's Analogies Test (MAT) or 152 on the Verbal Reasoning and 145 on the Quantitative Reasoning portions of the Graduate Record Examination (GRE). Students with GPAs below 3.00 will not be considered for the program.
7. Writing proficiency assessment with a minimum score of 4 out of 6.
8. Interview with Master of Education faculty members (with a score of 4 out of 6).

**Additional Requirements for International Students**
- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.
- If the overall GPA is lower than 3.25 but better than a 3.0, or if the evaluated transcript cannot be calculated for the last 60 semester hours (90 quarter hours) of course work, the Graduate Record Examination must be taken with a minimum score of 145 on the Quantitative Reasoning, 152 on the Verbal Reasoning, and 4 on the Analytical Writing portions. Students with GPAs below 3.00 will not be considered for the program. All degree requirements must be completed within a six-year timeline based on the first semester of coursework.

**GPA Requirements for all MEd Students**
Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

**Course Requirements**

The 37-hour program of study consists of 12 credit hours of foundation courses, 19 credit hours of professional core specific to family life education, 6 credit hours of electives, and a culminating project.

**Foundations (12)**

- MED 6000 - Fundamentals of Graduate Study Credits: (2)
- MED 6010 - Advanced Historical Foundations Credits: (2)
• MED 6020 - Diversity in Education Credits: (2)
• MED 6030 - Advanced Educational Psychology Credits: (2)
• MED 6040 - Politics, Policy, and Practices of Education Credits: (2)
• MED 6082 - Educational Inquiry Credits: (2)

Professional Core (19)

• MED 6100 - Leadership and Organizational Theory Credits: (2)
• MED 6101 - Assessment and Program Evaluation Credits: (3)
• MED 6210 - School Law Credits: (3)
• MED 6800 - Advanced Web-based Methods for Evaluation, Research, and Practice Credits: (3)
• MED 6801 - Specialized Family and School Programs Credits: (2)
• MED 6802 - Family Theories Credits: (2)
• MED 6085 - Developing a Project Proposal Credits: (2)
• MED 6090 - Master's Project Credits: (2)

Electives (6)

Choose 3 courses (6 credit hours) from the following:

• MED 6140 - Adolescent Development Credits: (2)
• MED 6803 - Diverse Family Contexts Credits: (2)
• MED 6805 - Family Life Education Coaching Credits: (2)
• MED 6806 - Advanced Skills for Family Life Educators Credits: (2)
• MED 6807 - Parenting Credits: (2)
Master of Education (MEd), Higher Education Leadership Emphasis

The Master of Education with an emphasis in Higher Education Leadership is designed for candidates seeking to work in a higher education environment to gain a deep understanding of the roles, mechanisms, and policies that impact higher education. Candidates can select an intensive internship or a site-based research project as a culminating experience.

- **Program Code:** 5056MED with Emphasis in 5060 (Higher Education Leadership)
- **CIPC:** 131202

**Admission Requirements**
The MEd program is selective with a limited number of openings available for qualified students. Admission deadlines is January 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

• MED 6701 - Current Issues in Higher Education Credits: (2)
• MED 6702 - Organizational Change and Human Resource Management Credits: (3)
• MED 6703 - Group Dynamics Credits: (2)

Culminating Experience (4)

• MED 6704 - Higher Education Internship Credits: (2) Must be taken twice for a total of 4 credits
  Or
• MED 6085 - Developing a Project Proposal Credits: (2) and
• MED 6090 - Master's Project Credits: (2)
Engaged Learning, Honors, and Interdisciplinary Programs

Weber State University has a long history of engaging students in learning both inside and outside the classroom. Engaged learning fosters intellectual and personal growth, critical thinking, problem solving, civic engagement, and professional and career development opportunities. Students engage with faculty members in small groups or one-on-one, for an intellectually challenging experience that is enhanced by professional and real world application of knowledge.

The Office of Undergraduate Research, the Center for Community Engaged Learning, the Sustainability Practices and Research Center, and Honors Program continue to facilitate the engaged learning of WSU students by collaborating with disciplines across colleges. These programs offer engaged learning opportunities in undergraduate research, community engaged learning, and classes that provide a stimulating, creative and supportive learning environment.

Interdisciplinary programs provide students the opportunity to expand their learning across different subject areas, and contribute to a well-rounded educational experience. Students who want to individualize or create a unique academic program resulting in an interdisciplinary degree can do so through the Bachelor of Integrated Studies program.

- **Dean of Engaged Learning, Honors, and Interdisciplinary Programs**: Brenda Kowalweski

Office of Community Development (OCD)

- **Executive Director**: Bill Cook
- **Telephone Contact**: Bill Cook (801) 721-9382
- **Location**: Community Education Center, 115
- **Internet Address**: weber.edu/OgdenCAN

The Office of Community Development at Weber State University acts as a catalyst for fostering collaboration and partnerships between anchor institutions and partner organizations that address social determinants of health in education, health, housing and financial stability. The mission includes engaging residents, community leaders, political leaders, students, faculty and staff to develop and implement evidence-based interventions and systemic adaptive changes. Through the evidence-based interventions opportunities are offered to faculty and students to advance their teaching, learning and research agendas in the community (weber.edu/OgdenCAN).
The Office is responsible for developing, facilitating and maintaining critical partnerships for the university with local, regional and national partners and their networks including: The Democracy Collaborative, Coalition of Urban and Metropolitan Universities, Anchor Learning Network, Promise Partnership Regional Council and the United Partnership Council. The Office also leads the university's anchor-mission committees and coordinates with multiple areas of campus including the development of core metrics and business practice improvements related to community wealth building in the areas of hiring, purchasing and investing.

The Ogden Civic Action Network (OgdenCAN) is a program within the Office of Community Development. OgdenCAN is a consortium of anchor institutions, partners, allies and residents that is determined to create comprehensive neighborhood revitalization in the East Central Neighborhood of Ogden, Utah. This initiative is designed to remove barriers, create opportunities, align available resources and provide funding for evidence-based interventions. A Board of Directors is responsible for setting priorities and allocating funds. Weber State University serves as the fiscal agent for OgdenCAN.
Asian Studies Minor Program

Asian Studies Minor

Coordinator: Dr. Greg Lewis  
Location: Lindquist Hall, Room 252  
Telephone: 801-626-6707

Asian Studies at Weber State offers a Minor in Asian Studies, supports the Foreign Language Department's Japanese Minor, oversees courses in the Middle East Track, and cooperates with the BIS Program to offer a Bachelor's degree "BIS Asian Studies Concentration." Asian Studies courses are offered through a number of cooperating departments including History, Political Science and Philosophy, Geography, Foreign Language, English, Honors, Sociology and Anthropology, Visual Arts, Health and Physical Education, and others.

- **Grade Requirements:** A grade of "C" or above in each course used toward the Asian Studies Minor (a grade of C- is not acceptable).
- **Credit Hour Requirements:** Fifteen credit hours of courses must be taken from at least four of the areas listed under Course Requirements for Minor.
- **Program Code:** 7023
- **CIPC:** 050103

Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.

Course Requirements for Minor

Required Courses (15 credit hours)

Select 15 credit hours from at least four of the following areas

- ARTH 2040 - Art and Architecture of Asia Credits: (4)
- ARTH 3060 - The Art and Architecture of India Credits: (4)
- ARTH 3070 - The Art and Architecture of China Credits: (4)
- ARTH 3080 - The Art and Architecture of Japan Credits: (4)
- ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4)
- ENGL 3730 - Literatures of Cultures and Places Credits: (3) *
- ENGL 2710 HU/DV - Perspectives on Women's Literature Credits: (3) *
- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment Credits: (3)
- GEOG 3780 - Geographic Area Studies Credits: (1-3) *
- GEOG 4800 - Individual Research Credits: (1-3) *
- HIST 4530 - Far Eastern History Credits: (3)
- HIST 4550 - Southeast Asian History Credits: (3)
- HIST 4590 - Middle Eastern History Credits: (3)
- HIST 4730 - Special Issues and Topics in Global and Comparative History Credits: (3) *
- POLS 4830 - Directed Readings Credits: (3) *
- POLS 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6) *
- PHIL 3550 - Philosophy of Eastern Religion Credits: (3)
- PE 1410 - TaiChi, Level I Credits: (1)
- PE 1411 - TaiChi, Level II Credits: (1)
- PE 1412 - TaiChi, Level III Credits: (1)
- PE 1435 - Kempo, Level I Credits: (1)
- PE 1436 - Kempo, Level II Credits: (1)
• PE 1437 - Kempo, Level III  Credits: (1)
• PE 1445 - Tae Kwon-do, Level I  Credits: (1)
• PE 1446 - Tae Kwon-do, Level II  Credits: (1)
• PE 1447 - Tae Kwon-do, Level III  Credits: (1)
• SOC 4990 - Seminar in Sociology  Credits: (3)*
• HNRS 2130 HU/SS/DV - Intellectual Traditions: Great Ideas of the East  Credits: (3)

• WGS 2900 - Topics in Women's Studies  Credits: (1-3)
• WGS 4900 - Topics in Women's Studies  Credits: (1-3)*

*(2 credit hours required)*

• CHNS 1000 - Proficiency Development  Credits: (1-2) or
• JPNS 1000 - Proficiency Development  Credits: (1-2)

• CHNS 1010 - First Semester Chinese  Credits: (3) or
• JPNS 1010 - First Semester Japanese  Credits: (3)

• CHNS 1020 - Second Semester Chinese  Credits: (3) or
• JPNS 1020 - Second Semester Japanese  Credits: (3)

• CHNS 2010 - Third Semester Chinese  Credits: (3) or
• JPNS 2010 - Third Semester Japanese  Credits: (3)

• CHNS 2020 HU - Fourth Semester Chinese  Credits: (3) or
• JPNS 2020 HU - Fourth Semester Japanese  Credits: (3)

• CHNS 3060 - Grammar & Composition  Credits: (3) or
• JPNS 3060 - Grammar & Composition  Credits: (3)

• JPNS 3160 - Introduction to Literature  Credits: (3)
• JPNS 3220 - Phonetics and Phonology  Credits: (3)

• CHNS 3320 - Applied Language Studies  Credits: (1-3) or
• FL 3320 - Applied Language Studies  Credits: (1-3) or
• JPNS 3320 - Applied Language Studies  Credits: (1-3)

• CHNS 3550 - Cultural Heritage I  Credits: (3) or
• JPNS 3550 - Cultural Heritage I  Credits: (3)

• JPNS 3630 - Literature Poetry  Credits: (3)
• JPNS 3650 - Literature Periods  Credits: (3)
• JPNS 3670 - Literature Authors  Credits: (3)

• CHNS 3710 - Business Language I  Credits: (3) or
• JPNS 3710 - Business Language I  Credits: (3)

• JPNS 3715 - Business Language II  Credits: (3)

• CHNS 3850 - Study Abroad  Credits: (1-6) or
• JPNS 3850 - Study Abroad  Credits: (1-6)

• JPNS 4850 - Study Abroad  Credits: (3)

• FL 4400 - Methods for Teaching Languages  Credits: (5)
Note:

*Acceptable when the emphasis and/or content are basically Asian Studies/Language or Middle East Studies/Language. Should other courses relating specifically to Asia or the Middle East, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as part of the Asian Studies Minor. To be a part of the Asian Studies curriculum, a course must have two-thirds Asian content.
Bachelor of Integrated Studies (BIS) Program

Integrated Studies (BIS)

Coordinator: Dr. Susan Matt
Location: Stewart Library, Room 326
Telephone Contact: Beth Thompson 801-626-7713
Website: weber.edu/bis

The Bachelor of Integrated Studies (BIS) Program is an interdisciplinary degree program that serves the needs of students who want to create a specific academic program, obtain a broad liberal education, prepare for particular career goals, or go to graduate school. The program best suits students who have developed a sense of their educational and life goals, and who are looking for ways to express those values through an individualized university program.

To accomplish these general outcomes, BIS students complete course work in three different disciplines. As a culminating experience, students then synthesize the three areas in a capstone project. The BIS degree option is available to students in good standing at Weber State University with a GPA of 2.5 or above. Students must formally apply for admittance into the BIS program, and must take 15 credit hours in the program after they are accepted.

Program Requirements

- BIS applicants must earn and maintain a 2.5 GPA to graduate with a Bachelors of Integrated Studies degree.
- The institution requires that every bachelor's degree candidate earn a total of 120 credit hours, 40 of which must be upper division hours.
- A BIS student can expect to take a minimum of 18 credit hours in each of three areas of emphasis, plus 5 hours for the capstone preparation and project, for a minimum of 59 credits in the BIS program.
- All contract and BIS courses must receive a minimum grade of "C" in order to count towards the BIS degree.
- Only graded classes can be included in the course contract (special exams, CLEP, or credit/no credit may not be included in the BIS contract).
- Courses which are used to satisfy General Education may not be used again in the BIS contract.
- Program Code: 1000BIS with three concentration codes
- CIPC: 240101

Advisement

All prospective students must meet with the BIS Coordinator to plan a course of study, and be admitted into the program. Call 801-626-7713 to schedule an appointment. For more information, see the BIS Web page (weber.edu/bis).

General Education

Refer to Degree Requirements for bachelor's degree requirements. Honors students may elect to fulfill this requirement through the Honors general education option.

Course Requirements for BIS Degree

Contract of three areas of emphasis: (54 credit hours minimum)

Every BIS student will take a minimum of 18 credit hours in three different academic departments or institutionally recognized disciplines (two of which must offer upper division credit) as approved by the department and the BIS Coordinator. Any change in the course contract must be approved by the chair of the appropriate department and the BIS coordinator.
BIS Capstone and Graduation Preparation Class (3 credit hours)

This class will prepare students to successfully complete the BIS capstone thesis project, and to prepare themselves professionally for careers and graduate school. (Required prerequisite for capstone)

- **BIS 3800 - BIS Capstone and Graduation Preparation** Credits: (2)

BIS Capstone Project: (3 credit hours)

The BIS capstone project gives students the opportunity to integrate their three areas of emphasis into a single thesis. (Required for graduation)

- **BIS 4800 - Bachelor of Integrated Studies Senior Capstone** Credits: (3)

Internship Option

Elective - BIS Internship (1-3 credit hours)

The opportunity to earn 1 to 3 credits for an internship is available to students in the BIS program. Please contact the BIS coordinator for more information.

- **BIS 3850 - BIS Internship** Credits: (1-3)

BIS Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.
Center for Community Engaged Learning (CCEL)

Executive Director: Dr. Becky Jo Gesteland  
Telephone Contact: Ella Mitchell (801) 626-7737  
Location: Center for Community Engaged Learning, Shepherd Union, 324  
Website: weber.edu/CCEL

The Center for Community Engaged Learning at Weber State University facilitates both curricular and co-curricular community engaged learning experiences. The main mission of the center is to engage students, faculty and staff members in direct service, civic engagement, and community research to promote civic participation, build community capacity, and enhance the educational process. Community engagement describes the collaboration between Weber State University and our larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity (Carnegie Foundation). Courses designated with the Community Engaged Learning (CEL) attribute are designed to provide students with a structured approach to learning and teaching that connects meaningful community experience with intellectual development, personal growth, and active citizenship. CEL enriches coursework by encouraging students to apply the knowledge and analytic tools gained in the classroom to the pressing issues affecting local communities. Therefore CEL is defined as an activity that involves a collaborative, reciprocal relationship with the community that prepares our students, faculty, staff, and alumni to be engaged citizens by strengthening their democratic values and civic responsibility as they address community issues.

Community engaged learning can be facilitated through one of our three pathways: direct service, civic engagement and community research.

Direct Service experiences often involve working directly with community residents to meet an immediate need. Examples of direct service include, but are not limited to: volunteering to serve meals at a homeless shelter, using academic knowledge to develop an electronic food-monitoring database for a food pantry, serving as a mentor or tutor in a local school or youth development program, cleaning up the banks of the Ogden River, or coaching a city youth sport.

Civic engagement experiences often involve raising awareness about issues of public concern and working more systematically through both political and non-political processes to create change. Examples of civic engagement include, but are not limited to: attending organized discussions about pollution; community organizing; writing a letter to an elected official; engaging others in the process of deliberative democracy; or producing information about community issues.

Community research experiences often involve gathering information with and for community organizations to solve a pressing community problem or create change. Examples of community research include, but are not limited to: community needs assessment survey; water quality or scientific assessment; or program evaluation for non-profit organizations.

Regardless of the type of community engaged learning experience, students are expected to acquire four CEL outcomes through their experiences: civic knowledge, civic skills, civic values, and civic action. Student learning outcomes, definitions, and measurement rubrics can be found at www.weber.edu/CCEL.

Courses

Community engaged learning is not specific to any one discipline; in fact, CEL courses exist in many disciplines across campus. For example, an Athletic Training class incorporates a service component wherein students are utilizing their knowledge and skills gleaned from class to serve patrons at a local free medical clinic.

Community Engaged Learning courses are designated with the CEL attribute and are listed in the course schedule published online each semester.
Ethnic Studies Program

Ethnic Studies Emphasis (BIS)

Coordinator: Dr. Eric Ewert
Location: Lindquist Hall, Room 316
Telephone: 801-626-6197

The Ethnic Studies Emphasis at WSU examines the construction and context of ethnicity in the United States with a primary focus on Americans of African, Asian, Latino, and Native American descent. Other ethnic foci may be developed by the student to meet his or her particular interests. As an element of American identity that cuts across disciplinary categories, ethnicity requires a mode of study that draws on the humanities, the social sciences, and other related fields. Ethnicity also must be addressed historically and comparatively, paying attention to the five centuries of North American minority experience and the perspectives of other New World societies and cultures. Above all, the program seeks to convey knowledge and understanding of ethnicity in the United States and to help students learn about the opportunities and responsibilities they have as citizens in an increasingly multicultural nation.

- **Grade Requirements:** A grade of "C-" or better is required for all courses in Ethnic Studies.
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** Composite (7024), Hispanic (7028), Native American (7029), African (7027)
- **CIPC:** Composite (050299), Hispanic (050203), Native American (050202), African (050201)

Ethnic Studies Program

Course Requirements for Emphasis

Basic Core (6 credit hours required of all students)

- ANTH 1000 SS/DV - Introduction to Anthropology Credits: (3)
- SOC 3850 - Race & Ethnicity Credits: (3)

Select one of the following options or design a comparable one:

Option I: Hispanic Studies (12 credit hours)

- HIST 3050 - History of U.S. Latinos Credits: (3)
- HIST 4110 - History of the American West to 1900 Credits: (3)
- HIST 4670 - History of Mexico Credits: (3)
- HIST 4630 - History of Ancient and Colonial Latin America Credits: (3) or
- HIST 4650 - Modern Latin America Credits: (3)

Option II: Native American Studies (12 credit hours)

- ANTH 3600 - Culture Area Studies Credits: (1-3) (3 credit hours required)
- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4)
- HIST 3010 - Native American History: 1300 to Present Credits: (3)
- HIST 4110 - History of the American West to 1900 Credits: (3)

Option III: African-American Studies (12 credit hours)

- HIST 3030 - African-American History Credits: (3)
- HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877 Credits: (3)
• HIST 4610 - History of Africa Credits: (3)
• GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change Credits: (3)

Option IV: Composite (12 credit hours)

Select a minimum of 12 credit hours from the following:
• HIST 3010 - Native American History: 1300 to Present Credits: (3)
• HIST 3030 - African-American History Credits: (3)
• HIST 3050 - History of U.S. Latinos Credits: (3)
• GEOG 3540 - Geography of Latin America and the Caribbean Credits: (3)
• GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment Credits: (3)

Note:

Should other courses relating specifically to ethnic minorities, either of an experimental or of a permanent nature be added to the curriculum, these courses will be accepted as part of the Ethnic Studies emphasis; should such courses be part of an academic area not listed, the new academic area will be added to those presently constituting the Ethnic Studies emphasis.
Ethnic Studies Emphasis

Coordinator: Dr. Eric Ewert  
Location: Lindquist Hall, Room 361  
Telephone: 801-626-6197  
The Ethnic Studies Emphasis at WSU examines the construction and context of ethnicity in the United States with a primary focus on Americans of African, Asian, Latino, and Native American descent. Other ethnic foci may be developed by the student to meet his or her particular interests. As an element of American identity that cuts across disciplinary categories, ethnicity requires a mode of study that draws on the humanities, the social sciences, and other related fields. Ethnicity also must be addressed historically and comparatively, paying attention to the five centuries of North American minority experience and the perspectives of other New World societies and cultures. Above all, the program seeks to convey knowledge and understanding of ethnicity in the United States and to help students learn about the opportunities and responsibilities they have as citizens in an increasingly multicultural nation.

- **Grade Requirements**: A grade of "C-" or better is required for all courses in Ethnic Studies.
- **Credit Hour Requirements**: A minimum of 18 credit hours.

Ethnic Studies Program

Course Requirements for Emphasis

Basic Core (6 credit hours required of all students)

- ANTH 1000 SS/DV - Introduction to Anthropology Credits: (3)  
- SOC 3850 - Race & Ethnicity Credits: (3)

Select one of the following options or design a comparable one:

Option I: Hispanic Studies (12 credit hours)

- HIST 3050 - History of U.S. Latinos Credits: (3)  
- HIST 4110 - History of the American West to 1900 Credits: (3)  
- HIST 4670 - History of Mexico Credits: (3)

- HIST 4630 - History of Ancient and Colonial Latin America Credits: (3) or  
- HIST 4650 - Modern Latin America Credits: (3)

Option II: Native American Studies (12 credit hours)

- ANTH 3600 - Culture Area Studies Credits: (1-3) (3 credit hours required)  
- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4)  
- HIST 3010 - Native American History: 1300 to Present Credits: (3)  
- HIST 4110 - History of the American West to 1900 Credits: (3)

Option III: African-American Studies (12 credit hours)

- HIST 3030 - African-American History Credits: (3)  
- HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877 Credits: (3)  
- HIST 4610 - History of Africa Credits: (3)  
- GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change Credits: (3)

Option IV: Composite (12 credit hours)
Select a minimum of 12 credit hours from the following:

- HIST 3010 - Native American History: 1300 to Present Credits: (3)
- HIST 3030 - African-American History Credits: (3)
- HIST 3050 - History of U.S. Latinos Credits: (3)
- GEOG 3540 - Geography of Latin America and the Caribbean Credits: (3)
- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment Credits: (3)

Note:

Should other courses relating specifically to ethnic minorities, either of an experimental or of a permanent nature be added to the curriculum, these courses will be accepted as part of the Ethnic Studies emphasis; should such courses be part of an academic area not listed, the new academic area will be added to those presently constituting the Ethnic Studies emphasis.
European Studies Minor Program

European Studies Minor/BIS

Coordinator: Thomas Mathews
Location: Elizabeth Hall, Room 420
Telephone: 801-626-6345

The European Studies Minor is an interdisciplinary program offered through several WSU departments. Students wishing to minor in European Studies must have their course selection approved by the program coordinator.

- Grade Requirements: A grade of "C" or better in each course used toward the minor (a grade of "C-" is not acceptable).
- Credit Hour Requirements: A minimum of 18 credit hours in addition to two years of college study (or the equivalent) of a European language. Courses taken which are part of the student's major will not count as fulfillment of the minor requirement. Of the total 18 credit hours, only six may be taken in the same department.
- Program Code: 3036
- CIPC: 050106

Advisement

All students electing the minor are required to meet with the coordinator for approval of all courses to be counted toward fulfillment of the requirements. The coordinator will ascertain that the individual courses selected are eligible to be counted, and that together they form a coherent curriculum of sufficient breadth.

Course Requirements for Minor

The following are required in addition to two years of college study in a European language other than the student's native language, or equivalent proficiency to be demonstrated by the student.

Core requirements (6 credit hours)

Two courses (six credit hours) from the following; courses may not be from the same department:

- FL 3320 - Applied Language Studies Credits: (1-3)
  Approved titles offered under FL 3320 are: European Language & Society and European Culture & Community
- HIST 4220 - History of the Middle Ages 300-1300 Credits: (3)
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 Credits: (3)
- HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 Credits: (3)
- HIST 4250 - Nineteenth-Century Europe Credits: (3)
- HIST 4260 - Europe in the Age of Total War Credits: (3)
- GEOG 3590 - Geography of Europe: the Land and People who Built a World Power Credits: (3)
- POLS 3210 - Politics in the European Union Credits: (3)

Elective requirements (12 credit hours)

Select twelve additional credit hours from the following programs and departments as approved by the program coordinator: Anthropology, Communication, English, Foreign Language, Performing Arts, Business & Economics, Geography, History, Political Science, Philosophy, Sociology, Honors. Courses selected and approved from these departments must have explicit European emphasis and content.
Environmental Studies Minor Program (see Geography)

Environmental Studies (BIS)

- Program Code: 6066
- CIPC: 030104

The Environmental Studies Minor is an interdisciplinary degree that focuses on the work of science in human activity. The curriculum is rooted in science to ground factual knowledge. However, its trunk is solidly comprised of social science and humanities courses because they teach the application of science in policy-making, business decisions and historical precedent even as they call upon the arts for their expression and upon ethics in consideration of health and social justice issues. The minor reaches across campus because all disciplines play an essential role in shaping environmental thought and action.
Honors Program

Director: Christy Call
Honors Program Coordinator: Megan Moulding, (801) 626-7591
Administrative Specialist: Mar Muster, (801) 626-6230
Location: Stewart Library, Room 324
Website: weber.edu/honors

Mission Statement

The WSU Honors Program is a home for inquisitive students of any discipline, regardless of prior GPA or academic history, looking for unconventional and supportive learning environments. Our mission is to build and maintain an inclusive community of intellectually curious and academically adventurous students, faculty and staff where together we can explore our full intellectual, academic, and cultural potential, and cultivate a lifelong love of learning and civic engagement.

Declaración de la Misión

El Programa de Honores de la Universidad Estatal de Weber es un espacio para estudiantes inquisitivos de cualquier disciplina, sin importar su promedio de calificaciones previo o su historial académico, los cuales buscan ambientes de aprendizaje no convencionales y de apoyo académico. Nuestra misión es construir y mantener una comunidad inclusiva de estudiantes, profesores y colaboradores intelectualmente curiosos y académicamente atrevidos. Esto para poder descubrir todo nuestro potencial intelectual, académico y cultural, para cultivar interés por el aprendizaje y el compromiso cívico de por vida.

Entrance and Exit Requirements

A student may enroll in the Honors Program at any time after formal acceptance by the Weber State Admissions Office and before their final semester. However, in order to take advantage of the many options available, early entrance is recommended. Students must notify their Honors advisor to finalize their Honors contract prior to the fall or spring break of anticipated graduation. Students may view Honors advisors and enroll via the Honors Portal accessible through the eWeber portal or at weber.edu/honors.

Honors Designations

The Honors Program offers three types of Honors designation: Foundation, University and Departmental Honors. Requirements for each are described below.

Foundation Honors

Foundation Honors is available to students earning an associate's or a bachelor's degree, with a GPA of 3.3 or above. For the purposes of calculating GPA for Honors designations, a student's four lowest-graded classes may be excluded. Students must successfully complete 9 credit hours of Honors classes, and 3 credit hours of classes with any of the following prefixes, attributes, or designations:

- HNRS prefix (Honors classes)
- WSU prefix
- Community Engaged Learning (CEL)
- Course-based Research Experience (CRE)
- Sustainability (SUS)
- Internship (INT)
- Global Learning (GLB)
- Wildcat Scholars classes
University Honors

University Honors is available to students earning an associate's or bachelor's degree, with a GPA of 3.3 or above. For the purposes of calculating GPA for Honors designations, a student's four lowest-graded classes may be excluded. Students must successfully complete the following:

- 12 credit hours of Honors classes (HNRS prefix)
- HNRS 4830 - Directed Readings: Senior Project Research (1 credit hour)
- HNRS 4990 - Honors Senior Project (1 credit hour)
- 4 credit hours of classes with the prefixes, attributes or other designations as listed under Foundation Honors.
- Engaged Student requirement. Students must complete two out of the following three areas: (1) Habits of Inquiry & Lifelong Learning; (2) Research & Scholarship; (3) Citizenship, Local to Global. Details on how to complete the Engaged Student requirements may be found on the Honors Program website.

Departmental Honors

Departmental Honors is available to students majoring in departments with designated Departmental Honors contracts. Specific requirements for participating departments are found in these contracts. Please see the list of current Departmental Honors contracts and Departmental Honors Advisors.

Students may pursue one, two, or all three types of Honors. Official recognition for the completion of an Honors designation is subject to timely finalization of the Honors contract as coordinated by the student and verified by the Departmental Honors advisor, and Honors Program Coordinator.

Recognition of the designation will be made on the graduating Honors student's transcript and diploma and will also be entered into the university's commencement program. In the event a student completes Departmental Honors in more than one department, notation of each will be made on the transcript, diploma, and commencement program.

Honors Program: Foundation and University Honors Requirements

Foundation and University Honors Requirements

Select Three Courses from the Following

- HNRS 1110 HU - Introduction to Honors: The Construction of Knowledge Credits: (3)
- HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities Credits: (3)
- HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts Credits: (3-6)
- HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences Credits: (3)
- HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences Credits: (3)
- HNRS 2050 SS - Exploring Key Concepts in the Disciplines: Social Science Credits: (3)
- HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era Credits: (3)
- HNRS 2130 HU/SS/DV - Intellectual Traditions: Great Ideas of the East Credits: (3)
- HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras Credits: (3)

Additional Required Courses

- HNRS 3900 - Honors Colloquium Credits: (3) – 2 classes are required
- HNRS 4990 - Honors Senior Project Credits: (1-3) - This option may also be completed through the student's major department.

Students will complete the remaining six credits required to earn University Honors with any other Honors courses.
Interdisciplinary Center for Applied Research
Latin American Studies Minor Program

Latin American Studies Minor/BIS

Coordinator: Dr. Isabel Asensio
Location: Elizabeth Hall, 230
Telephone: 801-626-6777

The Latin American Studies Minor is an interdisciplinary program offered through a number of cooperating departments and programs including Foreign Languages, History, Geography, Political Science and Philosophy, Psychology, Sociology, Anthropology, Child and Family Studies, English, and Women Studies.

- **Grade Requirements:** A grade of "C" or better in each course used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 18 credit hours in addition to two years of college Portuguese or Spanish or their equivalent.
- **Program Code:** 3000
- **CIPC:** 050107

Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.

Course Requirements for Minor in Latin American Studies

The following are required in addition to two years of college study in Portuguese or Spanish or equivalent proficiency to be demonstrated by the student. Select 18 credit hours chosen from at least three of the following departments.

**Child & Family Studies**

- FAM 4300 - Latino Child and Family Development Credits: (3)

**Foreign Languages**

- SPAN 3060 - Grammar & Composition Credits: (3) or
  - PTGS 3060 - Grammar & Composition Credits: (3)
- SPAN 3160 - Introduction to Literature Credits: (3) or
  - PTGS 3160 - Introduction to Literature Credits: (3)
- SPAN 3320 - Applied Language Studies Credits: (1-3) or
  - PTGS 3320 - Applied Language Studies Credits: (1-3)
- SPAN 3360 - Advanced Grammar Credits: (3) or
  - PTGS 3360 - Advanced Grammar Credits: (3)
- SPAN 3540 - Latin American Environment and Cultures Credits: (3) or
  - PTGS 3540 - Latin American Environment and Cultures Credits: (3)
- SPAN 3550 - Cultural Heritage I Credits: (3) or
  - PTGS 3550 - Cultural Heritage I Credits: (3)
- SPAN 3560 - Cultural Heritage II Credits: (3) or
  - PTGS 3560 - Cultural Heritage II Credits: (3)
- SPAN 3610 - Literature Survey I Credits: (3) or
• PTGS 3610 - Literature Survey I Credits: (3)
• PTGS 3620 - Literature Survey II Credits: (3) or
• SPAN 3620 - Literature Survey II Credits: (3)
• PTGS 3710 - Business Language I Credits: (3) or
• SPAN 3710 - Business Language I Credits: (3)
• PTGS 3720 - Language for Specific Purposes I Credits: (3) or
• SPAN 3720 CEL - Language for Specific Purposes I Credits: (3)
• PTGS 3730 - Language for Specific Purposes II Credits: (3) or
• SPAN 3730 CEL - Language for Specific Purposes II Credits: (3)
• PTGS 3740 - Translation I Credits: (3) or
• SPAN 3740 - Translation I Credits: (3)
• SPAN 4690 - Special Topics in Literature Credits: (3)
• PTGS 3715 - Business Language II Credits: (3) or
• SPAN 3715 - Business Language II Credits: (3)
• PTGS 4740 - Translation II Credits: (3) or
• SPAN 4740 - Translation II Credits: (3)
• PTGS 4850 - Study Abroad Credits: (3) or
• SPAN 4850 - Study Abroad Credits: (3)
• SPAN 3630 - Literature Poetry Credits: (3)
• SPAN 3650 - Literature Periods Credits: (3)
• SPAN 3670 - Literature Authors Credits: (3)
• SPAN 3690 - Literature Special Topics in Literature Credits: (1-3)
• SPAN 4620 - Survey of Literature I Credits: (3)
• SPAN 4630 - Survey of Literature II Credits: (3)
• SPAN 4830 - Directed Readings Credits: (1-3)
• PTGS 3570 - Special Topics in Culture Credits: (3)
• PTGS 3850 - Study Abroad Credits: (1-6)

English

• ENGL 3730 - Literatures of Cultures and Places Credits: (3) **

History

• HIST 3050 - History of U.S. Latinos Credits: (3)
• HIST 4410 - History of Spain and Portugal Credits: (3)
• HIST 4630 - History of Ancient and Colonial Latin America Credits: (3)
• HIST 4650 - Modern Latin America Credits: (3)
• HIST 4670 - History of Mexico Credits: (3)
• HIST 4830 - Directed Readings Credits: (1-3) **

Geography
- GEOG 3540 - Geography of Latin America and the Caribbean Credits: (3)
- GEOG 4800 - Individual Research Credits: (1-3) **
- GEOG 4950 - Advanced Regional Field Studies or Field Trips Credits: (1-3) **

Political Science

- POLS 3290 - Democratization and Political Transitions Credits: (3) **
- POLS 4830 - Directed Readings Credits: (3) **
- POLS 4990 - Senior Seminar/Senior Thesis Credits: (3) **

Anthropology

- ANTH 3600 - Culture Area Studies Credits: (1-3) **
- ANTH 4830 INT - Readings and/or Projects Credits: (1-3) **

Note:

** Acceptable when the emphasis and content are basically Latin American.

Should other courses relating specifically to Latin America, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as part of the Latin American Studies Minor Program. Should such courses be part of an academic area not listed above, the new academic area will be added to those presently constituting the Latin American Studies Minor.
Learning English for Academic Purposes (LEAP)

Chair: Dr. Debi Sheridan  
Location: Elizabeth Hall, Room 207  
Telephone Contact: Kaori Gale (801) 626-7457  
Instructors: Giana Curtis, Amy Reimann Hudson, Debi Sheridan

The Weber State University LEAP (Learning English for Academic Purposes) Department provides intensive English language courses for students in the process of acquiring English as a second language for academic use. It is the mission of the Department to prepare these students to function effectively in mainstream academic classes where English is the language of instruction. In doing so, we also seek to familiarize students with American culture and the academic atmosphere of studying in an American university.

The program curriculum includes courses that utilize an integrated skills, content-based approach. The goal of the department is to prepare non-native English speaking students to read, write and communicate effectively in academic courses taught in English.

The program consists of six levels of instruction (Novice Low through Advanced according to ACTFL guidelines available at https://www.actfl.org/publications/guidelines-and-manuals/actfl-performance-descriptors-language-learners), two levels per semester and the LEAP Bridge Classes. Each level (with the exception of LEAP Bridge Classes) is 7 weeks in length. The Bridge LEAP Classes are 15 weeks in length. Courses are competency based. Students must pass a proficiency final exam at the end of the semester and receive a grade of C+ (77%) or better in order to progress to the next level.

Total Credit Hours per Level

<table>
<thead>
<tr>
<th>Levels</th>

<th>2</th>
<th>3</th>
<th>4</th>
<th>5</th>
<th>6</th>
<th>LEAP Bridge Classes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits</td>
<td>9</td>
<td>9</td>
<td>9</td>
<td>9</td>
<td>9</td>
<td>9</td>
<td>6</td>
</tr>
</tbody>
</table>

Levels 1-3 are non-credit and do not count toward graduation. Courses in Levels 4-6 and the LEAP Bridge classes earn academic credit which can be applied to fulfill the foreign language requirement for a Bachelor of Arts degree and Associate of Arts degree or applied as elective credit toward the Bachelor of Science and Associate of Science degrees. This may be done by completing the LEAP Placement Examination and placing into ENGL 1010 or by completing LEAP 2510 and LEAP 2520 with a grade of C+ or better.

Students who pass the LEAP Placement Examination and place in ENGL 1010 or who complete LEAP 2510 and LEAP 2520 with a grade of C+ or better will be able to claim 16 hours of credit for ESL 2310, ESL 2410, ESL 2420, ESL 2430, and ESL 2441 for a nominal fee. (Inquire in the LEAP Office EH 207.)

CR/NC Sections:

CR/NC sections of each course are available. CR/NC sections do not factor into a student's GPA. Students participate in the same classes with the same teachers and are held to the same proficiency standards as graded courses. Contact the LEAP office for more information.

International Students:

International students who meet the University's TOEFL or IELTS minimum requirements for placement in academic courses are cleared to register for ENGL 1010.

International students who do not meet the University's TOEFL or IELTS minimum requirements for placement in academic courses must take the LEAP Placement Test. Students are required to complete the appropriate ESL courses according to the test results before being cleared to take academic courses on campus.

Students sponsored by the Saudi Arabian Cultural Mission (SACM) are required by SACM to complete 20 credit hours per semester.

Comments:
• The Placement Test should be taken as soon as the students arrive at the university to determine placement level for necessary ESL courses.
• All International students are also required to take the Math Accuplacer Test (see the Department of Mathematics section of this catalog).
• Students must complete Advanced (Level 6) before they can register for other university classes.

**Resident Students:**

Resident students for whom English is a second, new or additional language and who have ACT scores of 16 or below or Accuplacer scores of 89 or below are required to take the LEAP Placement Test and complete appropriate ESL courses according to the test results before registering for ENGL 1010.

Learning English for Academic Purposes (LEAP) Course Descriptions
Legal Studies Minor Program

Legal Studies Minor/BIS

Contact: Dr. Richard Price  
Office: Lindquist Hall 146  
Website: richardprice@weber.edu  
Phone: 801-626-6694

The Legal Studies Minor Program introduces students to the study of law in society from a broad, interdisciplinary perspective.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" will not be accepted).
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** 7025
- **CIPC:** 229999

Course Requirement for Minor

Core Course Required (3 credit hours)

- POLS 2400 SS - Introduction to Law and Courts Credits: (3)

Additional Courses Required (15 credit hours)

*Students must take 15 additional hours with at least two courses from each area. No more than 6 hours (excluding the core requirement) may be lower division. No more than 6 hours (excluding the core requirement) may be taken in any one discipline.*

**Area I: Contextualizing the Law**

- COMM 1020 HU - Principles of Public Speaking Credits: (3) or
- COMM 2270 - Argumentation and Debate Credits: (3)
- CJ 3270 - Theories of Crime and Delinquency Credits: (3) or
- SOC 3270 - Criminology Credits: (3)
- CJ 4000 - Critical Legal Studies Credits: (3)
- CJ 4065 - Law and Society Credits: (3) or
- POLS 4060 - Law and Society Credits: (3) or
- SOC 4270 - Sociology of Law Credits: (3)
- ECON 1010 SS - Economics as a Social Science Credits: (3)
- ENGL 3210 - Advanced College Writing Credits: (3) or
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- HIST 3210 - U.S. Constitutional History Credits: (3)
- PHIL 1250 HU - Critical Thinking Credits: (3) or
- PHIL 2200 - Deductive Logic Credits: (3)
- PHIL 3200 - Philosophy of Democracy Credits: (3)
- PHIL 4600 - Ethical Theory Credits: (3)
- POLS 1100 AI - American National Government Credits: (3)
- POLS 3330 - American Political Thought Credits: (3)
- POLS 4360 - Classical Political Thought Credits: (3)
- POLS 4380 - Modern Political Thought Credits: (3)
- POLS 4600 - American Congress Credits: (3)
- POLS 4620 - The U.S. Supreme Court Credits: (3)
- POLS 4640 - American Presidency Credits: (3)
- POLS 4750 - Public Policy Analysis Credits: (3)
- PSY 3850 - Forensic Psychology Credits: (3)
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present Credits: (3)
- HIST 3220 - History of the Bill of Rights Credits: (3)

Area 2: Law Courses

- BSAD 3200 - Legal Environment of Business Credits: (3)
- FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
- COMM 3650 - Communication Law Credits: (3)
- CJ 1330 - Criminal Law and Courts Credits: (3)
- CJ 2350 - Laws of Evidence Credits: (3)
- CJ 4165 - Constitutional Rights Credits: (3)
- CJ 4700 - International Criminal Justice Credits: (3)
- PHIL 3250 - Philosophy of Law Credits: (3)
- POLS 3400 - LGBTQ Politics Credits: (3)
- POLS 4020 - Constitutional Law: Powers Credits: (3)
- POLS 4030 - Constitutional Law: Rights Credits: (3)
- POLS 4100 - Free Speech Credits: (3)
- POLS 4180 - International Law and Organization Credits: (3)

Note:

Other courses may be approved by the program director on an individual basis.

Library Teaching & Information Services Department

- **Dean of the Library**: Wendy Holliday
- **Location**: Stewart Library, Room 108A
- **Telephone**: Cathy Christensen 801-626-6405
- **Head of Teaching and Information Services**: Nicole Beatty
- **Telephone**: 801-626-7034

**Professors**: Shaun Adamson, Wade Kotter; **Associate Professors**: Nicole Beatty, Jason Francis, Edward Hahn; **Assistant Professors**: Ernesto Hernandez, Miranda Kispert, Sarah Langsdon, Diana Meiser, Jamie Weeks

To be successful in a global information society, students must understand how to identify, locate, and critically evaluate information. The Library Teaching & Information Service Department provides instruction and assistance that enable students to effectively access and utilize digital and print information resources to meet their academic, professional and life-long learning needs.

Linguistics Minor Program

Linguistics Minor/BIS

**Coordinator**: John C. Trimble
**Location**: Elizabeth Hall, Room 422
**Telephone**: 801-626-6780

The Linguistics Minor is an interdisciplinary program that introduces students the scientific study of language as a complement to a broad range of majors.

- **Grade Requirements**: A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements**: A total of 18.5 credit hours is required for this minor.
- **Program Code**: 3057
- **CIPC**: 239999

Course Requirements for Minor

1. **Foundation Course** (3 credit hours)
   - ENGL 3010 - Introduction to Linguistics Credits: (3)

2. **Language Structures Course** (3-4 credit hours)

   **Select one of the following**
   - CS 4110 - Concepts of Formal Languages and Algorithms for Computing Credits: (4)
   - ENGL 3030 - Structure of English Credits: (3)
   - ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
   - PHIL 2200 - Deductive Logic Credits: (3)
   - FRCH 3220 - Phonetics and Phonology Credits: (3) or
   - GRMN 3220 - Phonetics and Phonology Credits: (3) or
   - JPNS 3220 - Phonetics and Phonology Credits: (3) or
   - PTGS 3220 - Phonetics and Phonology Credits: (3) or
   - SPAN 3220 - Phonetics and Phonology Credits: (3)
• FRCH 3360 - Advanced Grammar Credits: (3) or
• GRMN 3360 - Advanced Grammar Credits: (3) or
• JPNS 3360 - Advanced Grammar Credits: (3) or
• PTGS 3360 - Advanced Grammar Credits: (3) or
• SPAN 3360 - Advanced Grammar Credits: (3)

3. Sub-Disciplines and Applications of Linguistics Courses (11-12 credit hours)

Select two of the following

- ANTH 1040 HU/DV - Language and Culture Credits: (3)
- CS 4500 - Introduction to Artificial Intelligence Credits: (4)
- COMM 3000 - Communication Theory Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)
- COMM 3090 - Gender and Communication Credits: (3)
- EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3)
- ENGL 3040 - History of the English Language Credits: (3)
- ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual Credits: (3)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers Credits: (3)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices Credits: (3)
- FL 3320 - Applied Language Studies Credits: (1-3) *
- PSY 3450 - Psychology of Language Credits: (3)
- LING 4830 - Directed Readings in Linguistics Credits: (1-3)
- LING 4900 - Variable Topics in Linguistics Credits: (1-3)

Note:

* "Applied Language Studies" shall be understood to include any version of FL 3320 whose linguistic content is at least 50%.
The coordinator of the minor will make that determination in consultation with the chair of Foreign Languages and the Linguistics Minor Committee.

4. Senior Reflection (.5 credit hours)

- LING 4990 - Centering Experience Credits: (.5)

Note:

Students may take no more than eight hours with the same prefix (beyond the Foundations course).
Neuroscience Minor Program

Neuroscience Minor/BIS

Neuroscience is the interdisciplinary scientific study of the central and peripheral nervous systems in an effort to understand the biological basis of behavior, thinking, emotion, memory, and perception.

- **Credit Hour Requirements:** A minimum of 18 credit hours as described below.
- **Grade Requirements:** A grade of "C" or better in courses used toward the Minor (a grade of "C-" is not acceptable).
- **Program Code:** 7044
- **CIPC:** 261599

Advisement

For advisement, contact the Neuroscience Program Coordinator who will help you select courses which will compliment your major.

- **Coordinator:** Dr. Aminda O'Hare, 801-626-6729
- **Location:** Lindquist Hall 391
- **Telephone Contact:** Roe Schoof, 801-626-6293

Requirements

To complete the Neuroscience Minor, the student must complete a minimum of 18 credit hours as follows: a) Introduction to Neuroscience (NEUR 2950), b) one course each from the three content areas (Cognitive/Behavioral, Cellular/Molecular, and Clinical/Medical), and c) 6 credits of electives. Students are required to complete at least 2 NEUR-prefix courses (one is NEUR 2950).

Students who have not already completed ZOOL 1110 LS - Principles of Zoology as part of their major will also need to complete this course before taking the Cellular and Molecular area requirement. Thus, completion of the Neuroscience Minor may require 23 credit hours for some students. With approval of the Neuroscience Program Director and the applicable Department Chair, students may apply credits from one of the required courses of either Area 3 or Area 5 towards both their minor and major to offset the number of prerequisites necessary for courses in these areas. Only one course total may be applied to the minor and major, and only after the appropriate approvals have been received.

1. Foundation Course

   - **NEUR 2950 - Introduction to Neuroscience** Credits: (3)

2. Cognitive and Behavioral Area

   Select one of the following courses:
   - **NEUR 3750 - Cognitive and Behavioral Neuroscience** Credits: (3)
   - **PSY 3730 - Perception** Credits: (3)

3. Cellular and Molecular Area

   Select one of the following courses:
   - **CHEM 3070 - Biochemistry I** Credits: (3)
   - **CHEM 3075 - Biochemistry I Lab** Credits: (1)
   - **NEUR 3950 - Cellular and Molecular Neuroscience** Credits: (3)
   - **ZOOL 3200 - Cell Biology** Credits: (4)
   - **ZOOL 3300 - Genetics** Credits: (4)
• ZOOL 4100 - Vertebrate Embryology Credits: (4)

4. Clinical and Medical Area

Select one of the following courses:
• HTHS 2240 - Introduction to Pharmacology Credits: (3)
• HTHS 3240 - Pharmacology Principles and Clinical Applications Credits: (3)
• NEUR 3850 - Clinical Neuroscience Credits: (3)
• PSY 3740 - Neuropsychopharmacology Credits: (3)
• ZOOL 1020 LS - Human Biology Credits: (3)
• ZOOL 2200 LS - Human Physiology Credits: (4)

5. Electives

Select six (6) credit hours from the following options:
• BTNY 2600 - Laboratory Safety Credits: (1) or
• CHEM 2600 - Laboratory Safety Credits: (1) or
• GEO 2600 - Laboratory Safety Credits: (1) or
• PHYS 2600 - Laboratory Safety Credits: (1) or
• MICR 2600 - Laboratory Safety Credits: (1)
• ANTH 1020 LS/DV - Biological Anthropology Credits: (3)
• ANTH 1040 HU/DV - Language and Culture Credits: (3)
• BTNY 2303 - Ethnobotany Credits: (3)
• CHEM 1120 - Elementary Organic Bio-Chemistry Credits: (4) and
• CHEM 1125 - Elementary Organic Bio-Chemistry Lab Credits: (1)
• CHEM 1130 PS - Introduction to General, Organic & Biochemistry Credits: (4) and
• CHEM 1135 - Introduction to General, Organic & Biochemistry Lab Credits: (1)
• CHEM 2310 - Organic Chemistry I Credits: (4) and
• CHEM 2315 - Organic Chemistry I Lab Credits: (1)
• CHEM 2320 - Organic Chemistry II Credits: (4) and
• CHEM 2325 - Organic Chemistry II Lab Credits: (1)
• CHEM 3070 - Biochemistry I Credits: (3)
• CHEM 3080 - Biochemistry II Credits: (3)
• CHEM 3090 - Biochemical Techniques Credits: (1)
• CHEM 4250 CRE - Medicinal Chemistry Credits: (3)
• CS 4500 - Introduction to Artificial Intelligence Credits: (4)
• EET 1110 - Basic Electronics Credits: (2)
• EET 4040 - Signals and Systems Credits: (4)
• HTHS 1101 - Medical Terminology Credits: (2)
• HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
• HLTH 3160 - Principles of Health Behavior Credits: (3)
• HLTH 4013 - Health Promotion Research and Assessment Credits: (3)
- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4)
- HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4)
- HTHS 2230 - Introductory Pathophysiology Credits: (3)
- HTHS 2240 - Introduction to Pharmacology Credits: (3) or
- HTHS 3240 - Pharmacology Principles and Clinical Applications Credits: (3)
- MICR 3254 - Immunology Credits: (4)
- MICR 3305 - Medical Microbiology Credits: (5)
- MICR 4154 - Microbial Genetics Credits: (4)
- MICR 4252 - Cell Culture Credits: (2) (crosslisted with BTNY)
- MICR 4554 - Virology Credits: (4)
- MLS 1113 - Introduction to Medical Laboratory Practices Credits: (4)
- MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I Credits: (2)
- MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II Credits: (2)
- NEUR 4800 - Projects and Research Credits: (1-3)
- NEUR 4830 - Directed Readings Credits: (1-3)
- NEUR 4900 - Topics in Neuroscience Credits: (2-3)
- NEUR 4949 - The Neuroscience of Sex, Romance, and Sexual Orientation Credits: (3) (Crosslisted with QS)
- PHIL 3350 - Medical Ethics Credits: (3)
- PHYS 3190 - Applied Optics Credits: (3)
- PHYS 3410 - Electronics for Scientists Credits: (4)
- PHYS 3420 - Data Analysis, Statistics, and Instrumentation Credits: (3)
- PSY 2710 - Biopsychology Credits: (3)
- PSY 2830 CRE - Directed Readings Credits: (1-3) (3 credit hours required)
- PSY 3240 - The Psychology of Drug Use and Abuse Credits: (3)
- PSY 3730 - Perception Credits: (3)
- PSY 3740 - Neuropsychopharmacology Credits: (3)
- PSY 4800 INT CRE - Projects and Research Credits: (1-3) ‡
- PSY 4830 INT CRE - Directed Readings Credits: (1-3) ‡
- PSY 4900 - Selected Topics in Psychology Credits: (2-3) ‡
- PSY 4910 - Senior Thesis Credits: (3) ‡
- ZOOL 1020 LS - Human Biology Credits: (3)
- ZOOL 2100 - Human Anatomy Credits: (4)
- ZOOL 2200 LS - Human Physiology Credits: (4)
- ZOOL 3200 - Cell Biology Credits: (4)
- ZOOL 3300 - Genetics Credits: (4)
- ZOOL 3600 - Comparative Physiology Credits: (4)
- ZOOL 4050 - Comparative Vertebrate Anatomy Credits: (4)
- ZOOL 4100 - Vertebrate Embryology Credits: (4)
- ZOOL 4120 - Histology Credits: (4)
- ZOOL 4220 - Endocrinology Credits: (4)
- ZOOL 4300 - Research Applications in Genetics Credits: (4)
- ZOOL 4350 - Animal Behavior Credits: (4)
- ZOOL 4800 - Problems in Zoology Credits: (1-4) ‡
- ZOOL 4830 - Readings in Zoology Credits: (1-4) ‡
- ZOOL 4900 - Topics in Zoology Credits: (1-4) ‡
- ZOOL 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6) ‡
‡Note:

Courses denoted with ‡ must have a significant neuroscience focus in order to qualify as an elective towards the neuroscience minor. Approval by the Neuroscience Program Director is required in advance.

Area 6: Lab Requirement

Students must complete at least one science lab course (in any subject) to complete the neuroscience minor. This can be included as part of a course or as a separate lab course.

Area 7: Graduation Sign Off

Students must meet with the program director.
Office of Undergraduate Research (OUR)

**Director:** Dr. John Cavitt  
**Telephone Contact:** Erin Kendall (801) 626-8541  
**Location:** Stewart Library, 147  
**Internet Address:** weber.edu/OUR

Weber State University offers undergraduates the opportunity to work directly with faculty on projects that involve research, scholarly and creative activities. These projects are designed and implemented by students with the support and guidance of WSU faculty. Undergraduate research, and scholarly and creative activities must include:

- inquiry, study or investigation of a question or problem;
- methodology, including safety and ethical practices, appropriate to the discipline;
- relevant, meaningful, and engaging intellectual or creative contribution and/or application to the discipline which is of high-quality and which results in a tangible product (abstract, paper, performance, object) which can be shared or disseminated; and
- on-going supervision and mentoring by individuals with appropriate expertise.

Undergraduate research has long been an important part of the college experience at Weber State University. The Office of Undergraduate Research (OUR) supports students by offering grants for research and travel for dissemination of results. In addition, OUR publishes Ergo, WSU's undergraduate research journal, and sponsors an undergraduate research symposium each spring semester.
Sustainability Practices for Research Center (SPARC)

**Director:** Dr. Alice Mulder  
**Telephone Contact:** Bonnie Christiansen (801) 626-6326  
**Location:** Stewart Library 147  
**Website:** https://weber.edu/sustainability/sustainability-practices-research-center.html

### Mission Statement

The mission of the Weber State University Sustainability Practices and Research Center is to inform and educate WSU students, faculty, staff, and the local and statewide community in order to ensure the sustainability of our region and our world for future generations. The Center serves as a hub to connect campus activities, programs, departments, and community partners in order to advance a commitment to sustainability on campus and in the region. It facilitates curricular and co-curricular learning experiences related to sustainability toward the goals of both understanding and working to address the sustainability challenges of our time.

### Sustainability at WSU

Weber State is committed to sustainability education and to sustainability in its own operations and practices on its campuses. We are all global and local citizens, intricately interconnected to both natural and human systems. "Sustainability" is considered at Weber State in an inclusive, holistic sense, recognizing that environmental, social, and economic health are interdependent and interconnected in both simple and complex ways. Below is WSU's general curriculum-focused definition of sustainability (approved by the Environmental Initiatives Committee (EIC) in 2010):

*At Weber State University the goal of sustainability education is for students to gain knowledge and understanding of the intricate linkages between human and natural systems. This includes a recognition that healthy human societies (physically, socially, culturally, politically, and economically) are fundamentally dependent on healthy ecosystems and the sustainable use of natural resources, such that they are available indefinitely for future generations to meet their needs. Included in this goal is for students to learn how to achieve sustainability across these areas.*

Learning about the concepts, challenges, and potential solutions for sustainability can occur in classes and departments across the university. Many disciplines consider and address issues pertinent to sustainability such as anthropology, automotive technology, botany, construction management, earth science, economics, electrical engineering technology, English, geography, graphic arts, history, interior design, nursing, nutrition, philosophy, political science, physics, sociology, zoology, and many others.

### Sustainability Course Designation

The SUS designation on courses stands for "sustainability" and indicates that a course involves some sustainability components, which aim to both further students' understanding of and ability to address real-world sustainability challenges. As noted above, sustainability is defined in a pluralistic and inclusive way, encompassing human and ecological health, social justice, secure livelihoods, and a better world for all generations. Learning about sustainability in an array of courses across the curriculum will increase students' awareness and comprehension that healthy human societies are fostered and supported through a complex web of interconnections between their physical, social, and economic dimensions.

To see a list of courses that either focus on or include some component related to sustainability (e.g., a case study, module, readings) please visit [https://www.weber.edu/sustainability/courses](https://www.weber.edu/sustainability/courses).
Urban and Regional Planning Emphasis

Urban and Regional Planning Emphasis (BIS)

Coordinator: Dr. Bryan Dorsey
Location: Lindquist Hall 363
Telephone: 801-626-6944

This program provides a special emphasis in Urban and Regional Planning for majors in Botany, Sociology, Geography, Geosciences, Microbiology, Politics, Economics, Zoology, and related fields. The planning emphasis offers students a background in planning by adding a set of core courses to the major of their choice. This allows each student to pursue his discipline and still gain a general understanding of the field of planning.

- **Grade Requirements**: A grade of "C" or better is required for all courses in Urban and Regional Planning (a grade of "C-" is not acceptable).
- **Credit Hour Requirements**: A minimum of 18 credit hours.
- **Program Code**: 7037
- **CIPC**: 451201

Urban and Regional Planning Emphasis

Courses Required (6 credit hours)

- GEOG 4410 SUS - Sustainable Land Use Planning Credits: (3)
- GEOG 4420 - Advanced Urban and Regional Planning Credits: (3)

Electives (12 credit hours)

For students completing both a major and a minor, the requirements of the major field will be reduced by fifteen hours. They will be replaced by 12 hours of interdisciplinary courses selected outside the major field from the following.

- BTNY 1403 LS SUS - Principles of Environmental Science Credits: (3-4) (3 credit hours required)
- GEOG 4400 - Cartography and Map Design Credits: (3)
- GEOG 3210 - Urban Geography: The How and Why of Cities Credits: (3)
- GEOG 3360 - Economic Geography: Globalization, Development and Conflict Credits: (3)
- GEO 3710 - Introduction to Geographic Information Systems Credits: (4)
- MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs Credits: (3)
- POLS 3700 - Bureaucratic Politics Credits: (3)
- POLS 3750 - Urban Government and Politics Credits: (3)
- SOC 3840 - Cities and Urban Life Credits: (3)
- SOC 3850 - Race & Ethnicity Credits: (3)
- SOC 3300 - Environment and Society Credits: (3)

Note:

And a basic statistics course taken in a department of the student's choice.

For students who wish to complete the Planning Emphasis Program in lieu of a minor, GEOG 4410 and GEOG 4420 will be required as well as 12 hours of interdisciplinary courses from the above list outside the major field. Other courses related to land use planning not listed here are acceptable with approval of advisor. This includes courses transferred in from other colleges or universities and any directed reading or individual research courses in any department where the topic deals primarily with land use planning.
Urban and Regional Planning

Coordinator: Dr. Bryan Dorsey
Location: Social Science Building, Room 314
Telephone: 801-626-6944

This program provides a special emphasis in Urban and Regional Planning for majors in Botany, Sociology, Geography, Geosciences, Microbiology, Politics, Economics, Zoology, and related fields. Other courses related to land use planning not listed here are acceptable with approval of advisor. This includes courses transferred in from other colleges or universities and any directed reading or individual research courses in any department where the topic deals primarily with land use planning.
Women & Gender Studies Minor Program

Queer Studies Minor/BIS

- **Program Prerequisites**: A student's program of study for the Queer Studies Minor must be approved by the Queer Studies Coordinator.
- **Grade Requirements**: A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements**: A total of 18 credit hours is required for this minor, 9 credits from core courses and 9 from electives.
- **Program Code**: 7054
- **CIPC**: 050299

Queer Studies (QS) is a minor program, and Bachelor of Integrated Studies area of emphasis, which offers interdisciplinary, scholarly perspectives on the formation of sexuality and gender identity. Instead of conceptualizing these topics as unchangeable and only biologically driven, QS approaches these topics as they relate to the social construction of and their critical intersections with other relations of power such as race, ethnicity, class, nationality, religion, and age. Faculty and students address questions within the context of a transnational world and from different disciplines, such as, but not limited to, history, literature, sociology, communication, psychology, social work, political science, and cultural studies.

**Advisement**

Use Grad MAPs to plan your degree

**Core Courses (9 credit hours)**

- WGS 1500 SS/DV - Introduction to Women, Gender, and Queer Studies Credits: (3)
- QS 3050 - Queer Theories Credits: (3)
- QS 4150 - Research Methods in Queer Studies Credits: (3) or
- QS 4860 - Internship in Queer Studies Credits: (3)

**Elective Courses (9 credit hours)**

- FAM 3660 - LGBTQ Families Credits: (3)
- HIST 1620 AI - The LGBTQ Experience Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)
- NEUR 4949 - The Neuroscience of Sex, Romance, and Sexual Orientation Credits: (3)
- POLS 2500 SS/DV - Human Rights in the World Credits: (3)
- POLS 3400 - LGBTQ Politics Credits: (3)
- QS 2900 - Topics in Queer Studies Credits: (3)
- QS 3100 - LGBTQ America Since 1945 Credits: (3)
- QS 4630 - Directed Readings Credits: (1-3)
- QS 4900 - Topics in Queer Studies Credits: (3)
- SOC 2370 - Sociology of Gender Credits: (3)

If other courses relating specifically to Queer Studies, either of an experimental or permanent nature, are added to the curriculum, these courses will be accepted as electives for the QS Minor Program.
Women & Gender Studies Minor/BIS

Coordinator: Dr. Melina Alexander
Location: Lindquist Hall Room 336
Telephone Contact: Roe Schoof 801-626-7627

Women & Gender Studies is a minor program, and Bachelor of Integrated Studies area of emphasis, which offers interdisciplinary, scholarly perspectives on the formation of gender and its critical intersections with other relations of power such as sexuality, race, ethnicity, class, nationality, religion, and age. Faculty and students address questions within the context of a transnational world and from different disciplines, such as, but not limited to, history, literature, sociology, communication, psychology, criminal justice, social work, political sciences, and cultural studies.

- **Program Prerequisite:** A student's program of study for the Women & Gender Studies Minor must be approved by the Women & Gender Studies Coordinator.
- **Grade Requirements:** A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements:** A total of 18 credit hours is required for this minor, 12 credits from core courses and 6 from electives.
- **Program Code:** 7048
- **CIPC:** 050207

**Program Learning Outcomes**

- Students will demonstrate knowledge of foundational and contemporary research and theoretical literature in the field of Women and Gender Studies.
  - Read, understand, and evaluate feminist theories and scholarship.
  - Identify, compare, and evaluate culturally and historically specific constructions of gender.
  - Articulate the ways in which systems of power, privilege, and oppression shape our experiences as individuals and members of communities.
- Students will apply their knowledge of women and gender studies.
  - Apply knowledge of women and gender studies by analyzing current social and political situations from those perspectives.

**Course Requirements for Minor**

**Women and Gender Studies Courses Required (12 credit hours)**

- WGS 1500 SS/DV - Introduction to Women, Gender, and Queer Studies Credits: (3)
- WGS 2500 SS/DV - Human Rights in the World Credits: (3)
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present Credits: (3)
- WGS 4150 - Research Methodologies Credits: (3) or WGS 4250 INT - Community-Based Research/Internship Credits: (3)

**Electives (6 credit hours)**

*A total of 6 credit hours of electives chosen in consultation with the Women and Gender Studies Coordinator. Electives may include up to 3 credit hours of Directed Readings.*

- COMM 3090 - Gender and Communication Credits: (3)
- ENGL 2710 HU/DV - Perspectives on Women's Literature Credits: (3)
- SPAN 3670 - Literature Authors Credits: (3)
- GERT 3320 - Ethnicity and Older Women in the American Society Credits: (3)
- HIST 3070 - Women in American History: 1600 to Present Credits: (3)
• PSY 2370 - Psychology of Women and Gender Credits: (3)
• PSY 3100 - Psychology of Diversity Credits: (3)
• WGS 4170 - Gender, Power, and Global Politics Credits: (3)
• SOC 2370 - Sociology of Gender Credits: (3)
• WGS 2900 - Topics in Women’s Studies Credits: (1-3) or
  WGS 4900 - Topics in Women’s Studies Credits: (1-3)
• WGS 4830 - Directed Readings Credits: (1-3)

Note:

Should other courses relating specifically to Women or Gender Studies, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as electives for the Women and Gender Studies Minor Program.
Course Descriptions

ACTG 1010 - Practical Accounting & Taxes

Credits: (3)
Description: A pragmatic look at financial accounting and federal taxes as they relate to the individual's personal life. Designed for non-accounting majors.
Note: This course is not currently being offered.

ACTG 2010 - Survey of Accounting I

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online, 1st Blk
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Introduction to accounting information, the basic accounting cycle, and consideration of selected financial statement topics. The course emphasizes the uses and limitations of accounting information in economic decision-making, as well as problem-solving, oral and written communication skills, and computer skills.

ACTG 2020 - Survey of Accounting II

Credits: (3)
Typically Taught Summer Semester: Full Sem, 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Further consideration of selected financial statement topics. Analysis of cost behavior and the uses and limitations of accounting information in planning, controlling, and decision-making processes. Emphasizes skills in problem-solving, oral and written communication, and computer skills.
Pre-requisite(s): ACTG 2010.

ACTG 2891 - Coop Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 2892 - Coop Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 2893 - Coop Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 2921 - Short Courses, Workshops, Institutes, & Special Programs
ACTG 2922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 3110 - Intermediate Financial Accounting I

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): ACTG 2020.

ACTG 3120 - Intermediate Financial Accounting II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): BSAD 2899 and ACTG 3110.

ACTG 3130 - Accounting Data Analytics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to increase student's technical and analytical skills and at the same time provide a review of accounting topics so that as professional accountants, students will have the skills to manage data effectively in a variety of accounting positions. Software products like Microsoft Excel, Microsoft SQL, and Tableau will be utilized in this class. Specifically, this course will enhance understanding of AIS data elements and data structures, critical thinking skills, and technical skills through the use of software packages and a variety of accounting topics.
Pre-requisite(s): ACTG 3110.

ACTG 3300 - Cost Accounting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Cost determination for budgeting, product costing, process costing, cost assignment and allocation, standard
costing, and decision making in manufacturing and service organizations.
**Pre-requisite(s):** BSAD 2899 and ACTG 2020.

### ACTG 3400 - Taxation of Individuals

**Credits:** (3)
- **Typically Taught Summer Semester:** 1st Blk
- **Typically Taught Fall Semester:** Full Sem
- **Typically Taught Spring Semester:** Full Sem
- **Course Fee:** $30.00
**Description:** Basic concepts of gross income, deductions, credits, special computations, and property transactions for individual taxpayers.
**Pre-requisite(s):** ACTG 2020.

### ACTG 3500 - International Accounting

**Credits:** (3)
**Description:** This course reviews major issues in international accounting, including historical, cultural, and environmental influences that impact various national accounting systems. Harmonization of standards is also examined.
**Pre-requisite(s):** ACTG 2020.
**Note:** Course not currently being offered.

### ACTG 3750 - Accounting & Information Systems

**Credits:** (3)
- **Typically Taught Summer Semester:** Full Sem Online
- **Typically Taught Fall Semester:** Full Sem Online
- **Typically Taught Spring Semester:** Full Sem Online
- **Course Fee:** $60.00
**Course Fee Purpose:** Online software training modules for Microsoft office and other pertinent software for class assignments. Currently provided in Percipio by Skillport.
**Description:** Analysis, design, and implementation of accounting information systems with special emphasis on an understanding of accounting cycles, internal control concepts, and data flows associated with basic economic entities of the organization.
**Pre-requisite(s):** BSAD 2899 and ACTG 3110.

### ACTG 4130 - Advanced Accounting

**Credits:** (3)
**Description:** A study of business combination accounting. The course will also include an introduction to government and fund accounting.
**Pre-requisite(s):** BSAD 2899 and ACTG 3120.
**Note:** Course not currently being offered.

### ACTG 4140 - Accounting for Global and Complex Entities

**Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem
- **Typically Taught Spring Semester:** Full Sem
**Description:** Issues in international accounting not covered in Intermediate Accounting are covered in this course. The course also covers concepts related to accounting for complex entities, consolidated entities and partnerships.
**Pre-requisite(s):** ACTG 3120 and BSAD 2899.

### ACTG 4440 - Taxation of Business Entities

**Credits:** (3)
- **Typically Taught Summer Semester:** 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of the income taxation of corporations (including S corporations), limited liability companies, and partnerships.
Pre-requisite(s): BSAD 2899 and ACTG 3400.

ACTG 4510 - Auditing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Generally-accepted auditing standards, professional responsibilities, evidence, internal control, sampling, audit tests, and audit reports.
Pre-requisite(s): BSAD 2899 and (ACTG 3120 or concurrent enrollment in ACTG 3120).

ACTG 4801 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups by arrangement on special topics.
Pre-requisite(s): Instructor Approval.

ACTG 4802 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups by arrangement on special topics.
Pre-requisite(s): Instructor Approval.

ACTG 4803 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups by arrangement on special topics.
Pre-requisite(s): Instructor Approval.

ACTG 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ACTG 4850 - Accounting Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore accounting theory and practice in countries other than the U.S. Students will study international accounting as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): BSAD 2899.
Can be repeated once up to 6 credits.

ACTG 4891 - Accounting Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4892 - Accounting Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4893 INT - Accounting Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

AERO 1010 - Foundations of USAF I

Credits: (1)
Typically Taught Fall Semester: Full Sem

Description: Development, organization, and doctrine of the United States Air Force, emphasizing Strategic Force Requirements.

AERO 1010L - General Military Leadership Lab I
AERO 1011 - Foundations of USAF II

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Development and organization of United States Air Force Defensive Forces, General Purpose Forces and Tactical Air Forces.

AERO 1011L - General Military Leadership Lab II

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1110 - General Military Leadership Lab I

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 2830 - Directed Studies

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual study with a professor from Aerospace Studies (Air Force ROTC). Allows increased responsibility for GMC in an academic setting providing leadership/management skill development opportunities. May be repeated twice with a maximum of 3 credit hours.

AERO 3000 - Field Training

Credits: (1-4)
Typically Taught Fall Semester: Full Sem
Description: Four to five weeks of field training conducted at United States Air Force bases as arranged by the Professor of Aerospace Studies. Course prepares AFROTC students for entry into upper division AFROTC classes, the Professional Officer Corps, and for later commissioning into the US Air Force. The course offers a minimum of 269 hours of education and training in the areas of Officership, Air Force Orientation, Leadership, and Physical/Survival Training. May be repeated 3 times with a maximum of 4 credit hours.

AERO 3010 - Leadership Studies I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Writing, speaking, and listening as communication skills; management concepts; responsibilities and ethics for an Air Force junior officer.

AERO 3010L - POC Leadership Lab I

Credits: (0)
Typically Taught Fall Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of
AERO 3011 - Leadership Studies II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Principles of leadership, problem solving, decision, discipline, and human relations. Emphasis on career planning as an Air Force junior officer.

AERO 3011L - POC Leadership Lab II

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3110 - POC Leadership Lab I

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3111 - POC Leadership Lab II

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 4010 - National Security Affairs I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Examines the need for national security, analyzes the evolution and formulation of American defensive policy, strategy and joint doctrine. Investigates methods of managing conflict and touches on arms control and terrorism.

AERO 4010L - POC Leadership Lab III

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4011 - National Security Affairs II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Examines conflict management, arms control, military law and Air Force issues and policies.

AERO 4011L - POC Leadership Lab III
AERO 4110 - POC Leadership Lab III

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4111 - POC Leadership Lab IV

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4830 - Directed Studies

Credits: (1-5)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual study with a professor from Aerospace Studies. Provides added leadership/management skill development opportunities to develop more competitive officer candidates. May be repeated 4 times with a maximum of 5 credit hours.

ANTH 1000 SS/DV - Introduction to Anthropology

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Anthropology is the study of humankind, past and present: our origins and the development of cultural behavior and biological attributes. This course examines what it means to be human, describing and explaining human differences and similarities throughout time and across the world.

ANTH 1020 LS/DV - Biological Anthropology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Explores human origins, evolution, and contemporary biological diversity by examining genetics, the human fossil record, primatology, and human ecology from a biocultural perspective.

ANTH 1040 HU/DV - Language and Culture

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Explores the nature of human language and its role in sociocultural settings. Surveys a world sample of languages from the perspective of anthropological linguistics including language structure, social functions, geographical and historical variation, and cultural values.

ANTH 2010 SS/DV - Peoples and Cultures of the World
ANTH 2030 SS - Principles of Archaeology

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: A survey of cultures around the world, exploring their similarities and differences as observed by anthropologists.

ANTH 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ANTH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ANTH 2950 - Elementary Anthropological Field Trip

Credits: (1-3)
Typically Taught Summer Semester: 1st Blk
Description: Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.
Pre-requisite(s): Consent of instructor.
A maximum of three credit hours of ANTH 2950 can be applied toward graduation.

ANTH 2990 - Special Topics in Anthropology

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course allowing examination of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation. May be repeated 6 times with a maximum of 18 credit hours.

ANTH 3100 - Prehistory of North America
Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A general survey course concerning the archaeology of North America and an interpretation of its prehistory. The course material spans the time of initial human occupation of the continent through the early historic period, and emphasizes the three major cultural stages (Paleo Indian, Archaic, and Formative) which characterize the archaeological record of North America.

ANTH 3150 - Archaeology of the Great Basin

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course introduces students to the archaeological and ethnographic peoples of the Great Basin while exploring how the environment and specific theoretical approaches have shaped how they are understood. A portion of the course also focuses on on-going archaeological debates and current research in the region.

ANTH 3200 - Archaeology of Early Civilizations

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to survey the broad range of early civilizations worldwide as they are known archaeologically, including the variety of ways and places in which they have arisen and the great diversity of peoples who created them. It examines highly complex societies in sub-Saharan and North Africa, native North and South America, East and South Asia, the Middle East, the Aegean and Celtic Europe, discussing in detail the diverse ways of life in these civilizations and how they shaped cultural forms, practices and ideas in the modern life of these regions today.

ANTH 3300 - Archaeological Field Techniques

Credits: (3-6)
Typically Taught Summer Semester: 2nd Blk
Description: Intensive field school involving archaeological excavation and/or survey, emphasizing modern field techniques, data recordation and recovery, map interpretation and production, and the proper conduct of problem-oriented archaeology.
Pre-requisite(s): ANTH 2030, one upper division archaeology course such as ANTH 3100, 3200, or 3400, and consent of instructor.
May be repeated up to 12 credit hours.
Note: Archaeology Track, Archaeological Technician Associate's Degree, and Archaeological Technician Certificate students must complete 6 credit hours.

ANTH 3400 CRE - Archaeological Laboratory Techniques

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Emphasizes student analysis and write-up of an artifact assemblage from an archaeological site. Weekly lectures familiarize students with analyses of prehistoric and historic archaeological materials, as well as the production of text, figures, tables, maps, and bibliographies for technical reports.
Pre-requisite(s): ANTH 2030 or consent of instructor.

ANTH 3500 - Advanced Cultural Anthropology

Credits: (3)
Description: The nature of culture, its structure and function in the variety of human activities.
Pre-requisite(s): ANTH 1000 or ANTH 2010 or consent of instructor.

ANTH 3600 - Culture Area Studies

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: Full Sem
**Typically Taught Spring Semester:** *Full Sem*

**Description:** Surveys selected societies in ethnographically different cultural areas of the world, such as Africa, Asia, North American Indians, Latin America, the Middle East, the Pacific, or the modern United States. When the number is used, it will be accompanied by a descriptive title and the credit authorized, which will appear on the student transcript. Offerings of same title may not be repeated for credit toward graduation.

**Pre-requisite(s):** ANTH 1000 or ANTH 2010 or consent of instructor.

May be repeated 6 times with a maximum of 18 credit hours.

**ANTH 3700 - Sex Roles: Past, Present and Future**

Credits: (3)

**Description:** An overview of the differences and similarities in human sex roles, cross-culturally and over time, with special emphasis on the influences of biology, socialization, and ecology in their origin, perpetuation, and change.

Note: This course is not currently offered.

**ANTH 3900 - Magic, Shamanism and Religion**

Credits: (3)

**Typically Taught Fall Semester:** *Full Sem*

**Description:** A comparative study of the origins, development, and social functions of magic, shamanism, and religion within cultural systems around the world.

**ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management**

Credits: (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:** Explores means by which archaeological inferences are made to decipher the material record of past human behavior. Includes the history of recent archaeological thought from the beginnings of scientific archaeology (ca. 1960's) through the profession of cultural resource management.

**Pre-requisite(s):** ANTH 2030.

**ANTH 4150 - Technical Skills in Anthropology**

Credits: (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:** This course introduces students to visual and spatial data collection, management, and production skills through direct hands-on training and lecture. Topics include field and laboratory-based photography, manipulation and management of digital images, spatial data collection through Global Positioning Systems (GPS) and total stations, and digital map/image creation. While exercises used throughout the course focus on archaeological examples, the technical skills learned can easily be applied to all four subfields of anthropology.

**ANTH 4200 - Anthropological Theory**

Credits: (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:** Historical and theoretical development of the major anthropological schools of thought including 19th century evolutionism, historical particularism, social anthropology, symbolic analysis, neoevolutionism, and cultural ecology.

**Pre-requisite(s):** ANTH 1000 or consent of instructor.

**ANTH 4300 CRE - Anthropological Research Methods**

Credits: (3)

**Typically Taught Fall Semester:** *Full Sem*

**Description:** Students will learn and apply the scientific methods of inquiry used in anthropological research. Required for majors and recommended for minors.

**Pre-requisite(s):** ANTH 1000 or a 2000-level course; and SOC 3600, or consent of instructor.
ANTH 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ANTH 4830 INT - Readings and/or Projects

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual readings and/or projects for anthropology students.
Pre-requisite(s): ANTH 1000, permission of instructor and approval of program coordinator. Maximum of 6 hours may be applied toward graduation.

ANTH 4890 INT - Internship in Anthropology

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Anthropology majors may apply for internship opportunities that provide the student with both practical and research experiences.
Pre-requisite(s): 6 hours of upper-division anthropology courses, Anthropology major status, approval of Program Coordinator. A student may complete a total up to 6 hours of internships for credit, with a maximum of 3 hours to be applied towards the Anthropology major.

ANTH 4900 CRE - Senior Capstone Seminar

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This class is a one-semester three credit hour seminar whose main goal is integration of materials within the major (especially what you have learned in Methods and Theory). The Senior Thesis is a culminating experience focused on a theoretical issue, practical research or applied work, a historical period or theme within anthropology. Students will write an academic thesis paper which centers on a topic chosen by the student in consultation with the course instructor and, depending on the anthropological subfield, another faculty member in this department. The project requires approval of the course instructor and may include an applied or fieldwork component. Students will develop a research question, prepare a literature review, collect and analyze data, complete and present a substantial research writing project (the senior thesis) using the skills they have acquired throughout their academic career, drawing particularly upon the required theory and methods classes in crafting their research proposals. Students will be encouraged to engage deeply with a topic they care about as they produce a Senior Thesis based on original scholarship that displays a refined understanding of current literature and enduring analytical perspectives in Anthropology. In addition to the research project, this course also examines anthropology as a career through presentations, readings, and discussions that help students prepare for the process of applying to graduate programs and/or explore career opportunities in which an anthropology degree can be applied.
Pre-requisite(s): ANTH 4300.

ANTH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
ANTH 4950 - Advanced Anthropological Field Trip

Credits: (1-3)
Typically Taught Summer Semester: 1st Blk
Description: Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.
Pre-requisite(s): ANTH 1000 or ANTH 2030 and consent of instructor.
A maximum of three credit hours of Anthropology 4950 can be applied toward graduation.

ANTH 4990 - Seminar in Anthropology

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An advanced course allowing in-depth study of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title with the credit authorized, which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.
Pre-requisite(s): ANTH 1000 or consent of instructor.
May be repeated 6 times with a maximum of 18 credit hours.

ART 1010 CA - Introduction to the Visual Arts

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk, Online
Course Fee: $10.00
Course Fee Purpose: KA digital lab access, equipment, software, printing
Description: Introduction to all forms of visual art covering processes (such as demonstration of the lost-wax process of metal casting), language, responses (oral and written assignments that utilize art-related terminology), issues (such as patronage, feminism or orientalism), and ways of seeing and understanding works of art. A general education course for the non-art major.

ART 1030 CA - Studio Art for the Non-Art Major

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $20.00
Course Fee Purpose: KA digital lab access, equipment, software, printing; studio materials
Description: A general education course for non-art majors that primarily includes a series of hands-on art experiences (such as drawing and sculpture). Class discussion draws from the disciplines of art history, art criticism, and aesthetics as guides through visual presentations. For students desiring to broaden their academic background in the area of visual literacy and problem solving.

ART 1040 - Orientation to Visual Studies

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, course/studio lab materials.
Description: Orientation to the visual world including how we perceive and interpret visual messages, the impact of the visual on human relations, political exploitation of the visual and aesthetic issues in the visual arts. Topics are explored through written and
creative projects designed to establish a context for expanded study in the visual arts. Includes curriculum planning for art and design majors, introduction to programs and faculty, and professional opportunities.

ART 1110 CA - Drawing I

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, Studio lab materials & equipment.
Description: This is the foundation drawing class for art majors and minors (not a general education class). Perceptual and conceptual development stressed. Variety of materials and procedures investigated.

ART 1120 - Design Concepts

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, Studio lab materials & equipment.
Description: An introduction to visual language, design principles, and compositional approaches in two and three dimensions. Basic approaches to sketching and modeling, improving compositional structures, and using form and color to communicate will be addressed.

ART 1130 - Approaches to Surface, Shape and Form

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: An in-depth exploration of diverse approaches to communicating through form and color in two and three dimensions. In the course of the semester, students will complete three workshop-style segments across a range of media to include 3D fabrication, analog 2D composition, and digital color & composition.

ART 1135 - Approaches to Materials, Space and Time

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: An in-depth exploration of a range of approaches to communicating through material, spatial and time-based methods. In the course of the semester, students will complete three workshop-style segments across a range of media to include analog experimental media, art & design in space and time & interaction.

ART 2015 - Drawing on the Land

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Description: Introduction to visual arts media as a productive way to investigate and interpret the natural environment.
Appropriate for the art major as well as the non-art major. Participants will build a practice of observation, inquiry, and discovery via drawing and/or other media as designated by faculty. A significant portion of each course will be conducted in the field. Media focus and field location will be announced in advance. Some travel is required. Camping may be required. This course may be repeated twice with a maximum of 9 credit hours with different titles.

ART 2200 - Introduction to Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab printmaking materials, equipment, maintenance.
Description: An introduction to all printmaking classes covering the processes of intaglio, screen-printing, relief, lithography, and monotype. Students are provided with the fundamentals of each process and experience with each one. Note: This class is a prerequisite for all printmaking classes.

ART 2250 - Foundations of Photography: Black & White/Analog

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: A highly disciplined craft and concept course to help develop technical and aesthetic skills in black and white photography. Students learn the use of the camera, zone system of exposure, film, and print processing, and gain an aesthetic sense of the medium.

ART 2310 - Ceramics I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $182.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: The first course of a two-part introduction to ceramic art. Projects in hand-building and wheel-thrown objects are emphasized. Multiple surfacing and firing techniques will be explored.

ART 2350 - Small Metals/Jewelry I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio materials, printing, equipment, maintenance.
Description: Introduction to tools, materials, and basic techniques of fabrication and casting, with an emphasis on design.

ART 2420A - Bitmap Imaging

Credits: (1)
Course Fee: $23.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, studio materials, equipment, maintenance.
Description: Emphasis on the principle of bitmap imaging using industry-standard software. This course builds on studies in
basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in color photography, graphic design, illustration, web-based and other digital media. Primary software: Adobe Photoshop.

**Pre-requisite(s):** ART 1120 or consent of instructor.

### ART 2420B - Vector Drawing

**Credits:** (1)
**Typically Taught Fall Semester:** 1st Blk, 2nd Blk
**Typically Taught Spring Semester:** 1st Blk, 2nd Blk
**Course Fee:** $23.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, studio materials, equipment, maintenance.
**Description:** Emphasis on vector drawing as applied to problems in art and design. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in graphic design, animation, 3D modeling, and web design. Primary software: Adobe Illustrator.

**Pre-requisite(s):** ART 1120 or consent of instructor.

### ART 2420C - Digital Page Composition

**Credits:** (1)
**Typically Taught Fall Semester:** 1st Blk, 2nd Blk
**Typically Taught Spring Semester:** 1st Blk, 2nd Blk
**Course Fee:** $23.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, studio materials, equipment, maintenance.
**Description:** Emphasis on the principles of layout using industry-standard software tools. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in typography and graphic design. Primary software: Quark Express.

**Pre-requisite(s):** ART 1120 or consent of instructor.

### ART 2420D - Design for the Internet

**Credits:** (1)
**Typically Taught Fall Semester:** 1st Blk, 2nd Blk
**Typically Taught Spring Semester:** 1st Blk, 2nd Blk
**Course Fee:** $23.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, studio materials, equipment, maintenance.
**Description:** Emphasis on the principles of web design using industry-standard software. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in digital media and web design. Primary software: Macromedia Dreamweaver.

**Pre-requisite(s):** ART 1120 or consent of instructor.

### ART 2430 - Introduction to Graphic Design

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $95.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio materials, printing, equipment, maintenance.
**Description:** Introduction to the technical foundations of graphic design along with the elements and principles of visual language. Emphasis on the development of software skills, image and symbol development, graphic systems and design process.
**Co-Require(s):** ART 1120.

### ART 2435 - Graphic Design Practice

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
Typically Taught Spring Semester: Full Sem
Description:
Exploration of core elements and processes in the practice of graphic design. Includes project work in basic typography, image generation, visual metaphor, word/picture communication, and information design.
Pre-requisite(s): ART 2430.

ART 2450 CA - Foundations of Photography: Color/Digital

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment.
Description: A highly disciplined craft and concept course to help develop technical and aesthetic skills in color photography. Students will learn and explore the theory, practice, and aesthetics of shooting and printing color photographic materials. Using digital media and new technology as a means for creative expression and investigation in color photography will also be a main concern in this course.

ART 2600 - Painting I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab paint materials, equipment.
Description: Introduction to painting including the construction and design of paintings, investigations into the character and actions of various paints and techniques (traditional and contemporary) on a variety of surfaces.

ART 2700 - Sculpture I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance.
Description: An introduction to the essential methods and materials of sculpture including modeling, carving, casting, and construction with emphasis on contemporary activity in sculpture and with projects designed to practice concept development.

ART 2750 - Foundations of Video Art

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $117.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: This course will provide students with an introductory-level investigation of the skills and concepts used in experimental digital video making. Students will learn video recording and editing in an art context and to incorporate video into their own creative practice. Students will also be introduced to historical and contemporary aesthetic and conceptual issues surrounding video as a form of creative expression.

ART 2810 - Experimental Course

Credits: (1-6)
Experimental
Course Fee: $220.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, model fees.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ART 2830 - Directed Readings

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Course Fee: $18.00
Course Fee Purpose: KA digital lab access, equipment, software, printing
Description: Individually chosen readings on specialized topics supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated twice with a maximum of 3 credit hours.

ART 2850 - Furniture Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Furniture Design explores the intersection of Sculpture and Design through furniture and object making. The course addresses emerging and historic approaches to furniture including both functional and sculptural approaches by contemporary artists and designers. Students will develop intermediate to advanced skills in woodworking and metalworking while studying design and sculpture concepts and gaining a broad understanding of materials. Students will be introduced to CNC fabrication technology and CAD software for designing and creating functional furniture and furniture as sculpture.
May be repeated three times with a maximum of nine credit hours.

ART 2890 INT - Cooperative Work Experience

Credits: (1-2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.
Pre-requisite(s): Instructor approval (before enrollment) and previous or concurrent enrollment in art classes as specified by each area of emphasis.
May be repeated with a maximum of 6 credit hours.

ART 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $18.00
Course Fee Purpose: KA digital lab access, equipment, software, printing.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ART 3085 - Critical Issues in Art
ART 3120 - Figure Drawing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $135.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, model fees.
Description: Study of the anatomical structure of the human body. The student, by means of drawing from the model, explores literal and experimental interpretation of form.
Pre-requisite(s): ART 1110 and ART 1120; or consent of instructor.

ART 3150 - Intermediate Photography: Seminar

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: This course is designed to introduce students early to the type of intense investigation and experimentation necessary to define and execute a semester long project in photography. Emphasis will be on development of ideas, fine-tuning technique, and improving ability in critical evaluation and writing. Other topics covered will be an introduction to professional medium-format cameras, and portfolio preparation.
Pre-requisite(s): ART 2250 and ART 2450.
May be repeated twice with a maximum of 6 credit hours.

ART 3200 - Intermediate Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: An intermediate level class with emphasis on screen-printing, relief, and intaglio with further exploration into print processes that include photographic stencils and multicolor printing.
Pre-requisite(s): ART 1120 and ART 2200; or consent of instructor.

ART 3210 - Relief Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: Students will learn the basic printmaking processes and traditional techniques of carving and printing both wood and linoleum relief blocks. Contemporary approaches to relief processes through digital media experimentation will be introduced. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional
forms and processes. Safety issues will be addressed. Students will work from an introductory through an intermediate level, with a variety of progressive projects, each resulting in a small edition. The course will be administered through lecture, process demos, in class work time, and peer/individual critiques. Materials fee will cover most studio costs, excluding plates and paper. May be repeated once up to 6 credit hours.

ART 3215 - Etching Printmaking

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab printmaking materials, equipment, maintenance.
Description: Students learn basic platemaking and printing techniques used in etching while learning to incorporate their own drawing skills and points of view. Line work, aquatint, and ancillary techniques will be explored. Safety issues will be addressed. Historical and contemporary prints and printmakers are reviewed. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. The course will be administered through lecture, demos, in class work time, and formal and informal peer critiques. Materials fee to cover most supplies except for printing plates and paper.
May be repeated once up to 6 credit hours.

ART 3310 - Ceramics II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $182.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: The second class in a two-part introductory ceramics series. This course expands upon hand-building and covers wheel-thrown techniques in greater depth. Additional approaches to clay surfacing are explored. Students learn clay mixing, glaze testing and principles of kiln firing.
Pre-requisite(s): ART 2310.

ART 3320 - Ceramic Processes

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $251.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: This course focuses on specific ceramic processes, trends or concepts that are not normally taught in the regular ceramics classes. Consult department or instructor for course topic prior to enrollment.
Pre-requisite(s): ART 2310 or consent of instructor.
May be repeated 3 times with a maximum of 9 credit hours.

ART 3350 - Small Metals/Jewelry II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment
Description: Development of design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, surface enrichment.
Pre-requisite(s): ART 2350 or consent of instructor.

ART 3410 - Design Seminar for Juniors
Description: Orientation to professional Graphic Design practice for the Junior Graphic Design student. Includes art direction and work situations, client relations, portfolio and resume preparation, self-promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.

Pre-requisite(s): ART 3445 and ARTH 3451 or consent of instructor.

ART 3430 - Typography and Publication Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio materials, equipment.

Description: Orientation to typographic communications including methods and processes, aesthetics, readability, typographic systems, grids, layout, and digital page composition. Class meets 2 times/week for 3-hour sessions.

Pre-requisite(s): ART 2430 or consent of instructor.

ART 3435 - Experimental Typography

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.

Description: Investigation into experimental and expressive aspects of typographic communication. Emphasis is placed upon the historical development of letter design, letter and text as visual form, and typographical illustration.

Pre-requisite(s): ART 2430 and ART 3430 or consent of instructor.

ART 3445 - Web Graphic Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.

Description: Introduction to designing for the Internet. Emphasis on the application of visual communication principles to the creation of functioning, well designed websites. Course will include basic HTML and CSS programming, methods for organizing and understanding website content, ways and processes for working with clients and/or creating content, and ways to translate design and typographic fundamentals to the landscape of the Internet.

Pre-requisite(s): ART 3430 or consent of instructor.
May be repeated once for credit.

ART 3460 - Illustration

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.
Description: Introduction to theory, methods, tools and materials, and the professional practice of illustration. Emphasis is placed on concept development, media exploration and technique as applied to a variety of problems in pictorial communication.

Pre-requisite(s): ART 1110 and ART 1120 or consent of instructor.

ART 3465 - Motion Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.

Description: This course is an introduction to Motion Design (in relation to Graphic Design) and will cover the history and aesthetics of motion design, ways to think in time and space, techniques and methods for planning motion sequences, ways to think about and design with typography in motion, and the use of motion-specific industry-standard software and tools (Apple Motion, Adobe Flash, Adobe After Effects). This course aims to: provide historic and current perspectives regarding motion graphics and design; introduce students to categories, styles, terminology and vocabulary used in motion graphics and design; introduce students to basic techniques, methods and concepts used in motion design; work with typography and image in terms of motion; reinforce graphic design tenets and practices, and show how they extend to motion design.

Pre-requisite(s): (ART 3430 and ART 2435); or consent of instructor.
May be repeated three times for a maximum of nine credit hours.

ART 3500 - Advanced Time-Based Media/Video Art

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $117.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.

Description: A project-oriented studio course providing a more in-depth exploration of time-based media as used by contemporary artists with an emphasis on video. We will explore installation, projection and the web as environments for video art, as well as other media which allows the employment of time as a central element.

Pre-requisite(s): ART 2750.

ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I]

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment.

Description: This class prepares the art education candidate for teaching in the classroom, grades 7-12 and adaptable to K-6. Experiences will include art activities, processes, materials, tools and resources, with the development and preparation of the accompanying curricula materials, lesson plans and assessments by the candidate. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Content will focus on the foundations of art education programming, including the art elements and design principles. In addition, this class will examine classroom management strategies and practices for the beginning teacher in the contemporary classroom. Art Education majors should have completed 40 credit hours; minors must have completed 12 credit hours.

Suggested Requisite(s): Professional Core Level, College of Education, or permission of instructor. This course is required for secondary certification and is designed be taken prior to student teaching.

ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II]

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment.
Description: Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades 7-12, and adaptable to K-6. Candidate will develop and prepare materials for advanced visual arts programming. Further investigation of classroom management practices appropriate to adolescents and young adults. Collaboration, mentorship and leadership will be emphasized. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts.

Pre-requisite(s): ART 3515 or consent of instructor.
Note: This course is required for secondary certification and is designed to be taken prior to student teaching.

ART 3525 - Practicum: WSU ArtsBridge Service-Learning

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This service-learning course provides the fine arts teacher candidate with academic credit for designing and teaching an integrated arts course in a grade K-12 classroom or equivalent community education program. The candidate will work closely with a University faculty mentor, host school teacher and ArtsBridge director in implementing and assessing integrated arts curricula and producing a final project by K-12 classroom students. Course components include: curricula pre-planning and implementation, in-class teaching, student assessment, candidate self-assessment and ArtsBridge seminar components. By permission only. Fine arts education content area supervisor and successful interview with faculty mentor and/or ArtsBridge director. Content methodology course(s) complete or in progress. May be repeated once with a maximum of 12 credit hours.

ART 3530 - Art Methods and Resources for Elementary Art Teachers K-6

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment.
Description: Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades K-6. Candidate will develop and prepare materials for elementary visual arts programming, in alignment with state and national standards.
Pre-requisite(s): ART 3515.

ART 3550 - Advanced Photography: View Camera

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $163.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: The theory, aesthetics, and techniques of photographic image making with the view camera. Students will learn the operation of large format cameras, the Zone System method of negative exposure and development and methods for fine-tuning black and white photographic printing. The history of and contemporary trends in working with large format negatives will also be explored.
Pre-requisite(s): ART 3150 or consent of instructor.
May be repeated once with a maximum of 6 credit hours.

ART 3600 - Painting II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab paint materials, equipment.
Description: Consolidates and further develops material covered in Painting I. Investigations include the figure, mixed media,
and abstraction. Historical precedents are discussed through slide lecture as an aid to development.

**Pre-requisite(s):** ART 1120 and ART 2600; or consent of instructor.

**ART 3700 - Sculpture II**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $125.00  
**Course Fee Purpose:** KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance  
**Description:** An introduction to the form language of sculpture with projects designed to develop conceptual thinking skills, to learn technical skills, and to explore new areas of interest in the three-dimensional visual arts.  
**Pre-requisite(s):** ART 1130 and ART 2700; or consent of instructor.

**ART 3720 - Public Art**

**Credits:** (3)

**Typically Taught Summer Semester:** 1st Blk, 2nd Blk, Full Sem - Online  
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online  
**Course Fee:** $125.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance.  
**Description:** Public Art covers a broad range of historic and current approaches to working in the public realm, including: murals, monuments, community-based projects, ecologically-focused projects, site-specificity and environmental art. Students will learn to create 2D, 3D and/or digital renderings and models to develop public art concepts, while gaining knowledge of real-world opportunities for visual artists and designers. Students will learn professional practices, skill building for the discipline, and how to assemble a public art proposal. Students can repeat the course for additional credit a maximum for 2 times (6 credit hours total).

**ART 3800 - Travel-Study Studio**

**Credits:** (1-3)  
**Variable Title**  
**Typically Taught Summer Semester:** Full Sem  
**Description:** Studio projects will be based in response to the opportunities afforded by travel-study. These works may be a direct response to the country or region and its culture or they may be related to an event that takes place in that area while students are visiting. Instruction will be given in English.  
**Pre-requisite(s):** ART 1040 or consent of instructor.  
May be repeated up to 4 times and up to 12 credit hours.

**ART 3810 - Experimental Course**

**Credits:** (1-6)  
**Experimental**  
**Course Fee:** $118.00  
**Course Fee Purpose:** KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance.  
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ART 3995 - BFA Seminar**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing.

Description: This is a seminar/discussion and studio course that guides BFA students in the research, development, and articulation of a thematic body of work, within the context of contemporary art. Studio projects will be directed toward bringing individual vision toward full expression.

Pre-requisite(s): BFA students who have completed second-level course in their studio area only.

ART 4010 - Museum Methods

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: This course explains and demonstrates the three main areas of emphasis within the museum studies field: collections management, curation and interpretation, and arts administration. The course meets two time a week for a three hour session.

Pre-requisite(s): Consent of instructor.

ART 4110 - Advanced Drawing

Credits: (3)
Typically Taught Spring Semester: Full Sem

Course Fee: $45.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing.

Description: Continued drawing exploration in various media with emphasis on focused personal direction, independent serial work, presentation of assigned research into related contemporary work, active participation in the critique process.

Pre-requisite(s): ART 3120 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4120 - Advanced Figure Drawing

Credits: (3)
Typically Taught Fall Semester: Full Sem

Course Fee: $135.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, model fee, materials.

Description: Advanced study of the structure of the human body with a greater stress on draftsmanship, historical uses of the figure in art, and individual explorations.

Pre-requisite(s): ART 3120 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4200 - Advanced Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Course Fee: $152.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab printmaking materials, equipment, maintenance.

Description: An advanced level class in printmaking with emphasis on screen-printing, relief, intaglio, and/or lithography. Emphasis on individual portfolio production.

Pre-requisite(s): ART 3200 or consent of instructor.

May be repeated twice with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4310 - Ceramics III: Intermediate

Credits: (3)
Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Course Fee: $182.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.

Description: This course addresses intermediate issues in craftsmanship, form and content through assignments and projects. Students will conduct directed research, draft proposals, fire kilns, make clay and mix glazes.

Pre-requisite(s): ART 3310 or consent of instructor.

ART 4320 - Ceramics IV: Advanced

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $182.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.

Description: This course addresses advanced issues in craftsmanship and concepts through lecture and proposal based projects. Research assignments that explore ceramic processes and current trends in ceramic art are emphasized.

Pre-requisite(s): ART 4310 or consent of instructor.
May be repeated 4 times with a maximum of 12 credit hours.

ART 4350 - Small Metals/Jewelry III

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00

Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: Development of advanced design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, and surface enrichment.

Pre-requisite(s): ART 3350 or consent of instructor.
May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4400 - Advanced Graphic Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: Application of design theory and process to complex problems in visual communication. Emphasis is placed on research, analysis, problem definition, and the development of individual design solutions. Studio projects vary each term and will generally involve visual identity, information design, environmental graphics, publication design, and design for interactive media.

Pre-requisite(s): ART 3435, ART 3445, ARTH 3451, and BFA program admission or consent of instructor.
May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4410 - Design Seminar

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: Orientation to professional practice in visual communication including art direction and work situations, client relations, portfolio and resume preparation, self-promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.
Pre-requisite(s): ART 3410 and BFA program admission, or consent of instructor. May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4415 - Design Production

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance
Description: Technical processes and procedures for Art Major, Visual Communication emphasis. Emphasis is placed on file preparation and technical procedures for electronic media and for offset printing including proofing methods, paper, binding and other finishing processes.
Pre-requisite(s): ART 3430 and ART 3435 or consent of instructor.

ART 4420 - Advanced Digital Media

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $70.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Students will further develop personal expression in the visual arts using computer media through aesthetic problem solving and further development of digital media skills. There will be an emphasis on strengthening the students' ability to work independently while supplying the necessary feedback from the interaction of a class.
Pre-requisite(s): ART 2420A, ART 2420B, ART 2420C, ART 2420D, or consent of instructor. May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4440 - Interaction Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $70.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: This course is an introduction to the principles of interaction design as it relates to physical and digital space, with a focus on designing user-centered artifacts like interactive publications and apps for hand-held devices. Theoretical concepts like ethnography, user-testing, and the use of mapping in design will be explored. We will also explore the landscape of technology as it relates to interaction, and the use of appropriate tools and software to create prototypes and functioning digital designs.
Pre-requisite(s): ART 3445 or consent of instructor. May be repeated once for credit.

ART 4460 - Advanced Illustration

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Development of individual approaches to advanced problems in illustration. Emphasis is placed on the formulation of visual metaphor, articulation of form, and on professional practices. Studio projects vary each term and will generally involve editorial, reportorial, scientific, advertising, and instructional problems in pictorial communication.
Pre-requisite(s): ART 3460 or consent of instructor. May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4550 - Advanced Photography: Lighting for Photo & Video
ART 4600 - Painting III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials & equipment.
Description: Emphasis on developing independence in the painting student and to provide an opportunity for them to pursue their own area of interest in painting while providing the necessary feedback from the interaction of a class.
Pre-requisite(s): ART 3600 or consent of instructor.
May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4660 - Advanced Photography: Special Topics

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: A study of specific topics in photography, the subject and faculty change each time this course is offered. Example topics include "Documentary Photography," "Visual Books," "The Portrait," and "Directed Visions."
Pre-requisite(s): ART 3150 or consent of instructor.
May be repeated 2 times for credit - consult with faculty advisor.

ART 4700 - Sculpture III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Advanced individual problems in selected areas of concentration; research and development of conceptual, technical, and methodological concerns.
Pre-requisite(s): ART 3700 or consent of instructor.
May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4750 - Advanced Photography: Experimental Strategies

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, photography equipment, materials, maintenance.
Description: This course explores experimental photographic alternatives to the traditional methods of photographic image making. Emphasis will be placed on using the camera, darkroom techniques and digital and emerging technology in ways that
will give the students the mind-set and ability to push the limits of the medium.  
**Pre-requisite(s):** ART 2450 or ART 2250.  
May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

**ART 4801 - College of Arts & Humanities Leadership Lecture Series**

**Credits:** (1)  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

**ART 4810 - Experimental Course**

**Credits:** (1-6)  
**Experimental Course Fee:** $102.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, course materials, equipment and maintenance.  
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.  
May be repeated for a total maximum of 6 credit hours.

**ART 4830 - Directed Readings**

**Credits:** (1-3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing  
**Description:** Individually chosen readings on specialized topic supervised by a faculty member.  
**Pre-requisite(s):** Consent of faculty supervisor prior to registration.  
May be repeated twice with a maximum of 3 credit hours. Please consult a faculty advisor.

**ART 4890 INT - Cooperative Work Experience**

**Credits:** (1-2)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.  
**Pre-requisite(s):** By instructor approval only and previous or concurrent enrollment in art classes as specified by each area of emphasis.  
May be repeated for a maximum of 6 credit hours. Please consult a faculty advisor.

**ART 4900 - Individual Studies**

**Credits:** (1-3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $18.00  
**Course Fee Purpose:** KA digital lab access, equipment, software, printing  
**Description:** Individual studies in selected areas of emphasis. Open to juniors and seniors by instructor approval only.  
May be repeated for a maximum of 6 credit hours. Please consult a faculty advisor.

**ART 4910 INT - Advanced Photography: Internship**
Credits: (1-3)
Course Fee: $41.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing
Description: Students have the opportunity to engage in a close learning relationship with professional photographers. These opportunities include workshops, seminars, professional assistantships, and residencies. Students will be responsible for researching and proposing mentorships. Area faculty will approve proposals, help place students with mentors and review the progress of mentorships.
Pre-requisite(s): ART 3150 or consent of instructor.
May be repeated for credit. Please consult a faculty advisor.

ART 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $26.00
Course Fee Purpose: KA digital lab access, equipment, software, printing; studio materials
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ART 4930 INT - Teaching Assistantship Experience

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed for students who wish to gain teaching experience for graduate school. By observation and participation with the instructor, students will learn how a basic art course is designed and taught.
Pre-requisite(s): Student must be in the BFA program and have instructor consent.

ART 4990 - BFA Thesis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing
Description: Emphasis on portfolio preparation and professional writing skills pertinent to the completion of the BFA Thesis Exhibit and future career applications. Students work on the development and synthesis of ideas, and fine-tune relevant artistic and critical evaluation skills. During this course students will be required to produce new work for the BFA Thesis Exhibit.
Pre-requisite(s): Senior level BFA student. Completion of ART 3995 BFA Seminar. Registration by departmental approval only. Course cannot be taken during the semester immediately following BFA Seminar.
May be repeated for credit. Please consult a faculty advisor.

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000

Credits: (4)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 equipment replacement
Description: A global survey of the history of art and architecture from BC 15,000 to AD 1000. Visual art from the first artistic expressions on rocks to the art of emerging civilizations (such as Mesopotamia, Egypt, China, India, and Africa), and the monuments and small-scale artifacts of the Medieval Ages will be analyzed in its historical, social, political, and broader cultural contexts.
**ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present**

**Credits:** (4)  
**Typically Taught Summer Semester:** 2nd Blk  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $37.00  
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 equipment replacement  
**Description:** A global survey of the history of art and architecture from AD 1000 to the present. Visual art from Gothic cathedrals and Islamic book art to Renaissance Europe and the Chinese Empire, from the Age of Enlightenment to contemporary art will be analyzed in its historical, social, political, and broader cultural contexts.

**ARTH 2040 - Art and Architecture of Asia**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $37.00  
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement  
**Description:** A historical account of the architecture, sculpture, and painting of Asia (India, Nepal, Tibet, Myanmar, Sri Lanka, Thailand, Cambodia, Indonesia, China, Korea, and Japan), including the political, religious, and intellectual history informing the arts of each country.

**ARTH 2050 - Visual Art in a Global Context**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $37.00  
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement  
**Description:** This course introduces questions, debates, and developments in art history and visual studies within their broader thematic and global contexts. It provides students with critical frameworks for examining and comparing artistic production from different temporal, geographic, socio-political, and cultural perspectives.

**ARTH 3010 - Art and Visual Cultures of Latin America**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** This course introduces students to the visual culture and architecture of 20th and 21st century Latin America. Students will analyze a wide range of material from disciplines like architecture, urban planning, printmaking, photography, and painting as they relate to real and imagined definitions of “Latin America,” and corresponding notions of nation and state. The course pays particular attention to critical debates around the intersection of art and politics, and the construction of race and gender.  
**Suggested Requisite(s):** ART 1040 or ARTH 1090 or ARTH 1100 or ARTH 2050.

**ARTH 3015 - Latinx Visual Art and Culture**

**Credits:** (4)  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course explores visual art and culture of U.S. Latinos/as/x from the 1960s to the present. It examines the history and context of artistic production related to critical debates about representation, identity, gender, sexuality, class, and politics. It analyzes a wide range of media including film, photography, performance, muralism, and art exhibits as they relate to identity, feminism, collaboration, and the politics of aesthetics within Latinos/as/x in the U.S.  
**Suggested Requisite(s):** ART 1040 or ARTH 1090 or ARTH 1100 or ARTH 2050.

**ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present**
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: The history of visual art and culture from circa 1850 into the early 20th century. This course explores the European roots of Modernism, its dissemination to North America and its global manifestations. Areas of study will include Impressionism to Art Nouveau, Women Artists of the Fin-de-Siècle, Modernism in Canada and Latin America as well as Native American and Asian Modernisms. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.

ARTH 3045 - Global Modernisms: Early 20th Century to 1960

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: The history of visual art and culture from circa 1900 to the 1960s. This course explores the continuous evolution of Modernism. Areas of study will include Cubism to Vorticism, Colonialism and Modernism in Africa, Central European Avant-Gardes, International Dada and Surrealism, African-American Modernism and the crisis of Modernism in the post-colonial, post-war global community. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.

ARTH 3050 - Contemporary Art

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: Critical analysis of developments in the arts (including multimedia art, photography, performance art, installations, and feminist art) from 1960s to the present. Emphasis on post-modern currents and issues and their study in the context of broader cultural contexts.
Pre-requisite(s): ARTH 1100 or consent of instructor.

ARTH 3055 - Special Topics in Art History

Credits: (4)
Variable Title
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: This course will explore different topics and content related to art history and the contemporary practice of art; the content of the course will change as the main topic changes. Students will gain the benefit of a deep dive into a specific time period, discourse, or exploration of media.
May be repeated four times for a maximum of 12 credit hours.
**ARTH 3060 - The Art and Architecture of India**

Credits: (4)
**Typically Taught Fall Semester: Full Sem**
**Course Fee:** $37.00
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
**Description:** An historical account of the architecture, sculpture, and painting of India, including the political, religious, and intellectual history informing the arts of various regions.

**ARTH 3070 - The Art and Architecture of China**

Credits: (4)
**Typically Taught Spring Semester: Full Sem**
**Course Fee:** $37.00
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
**Description:** An historical account of the architecture, sculpture and painting of China including the political, religious, and intellectual history informing the arts of different regions.
May be repeated for a maximum of 4 credit hours. Please consult a faculty advisor.

**ARTH 3080 - The Art and Architecture of Japan**

Credits: (4)
**Typically Taught Fall Semester: Full Sem**
**Course Fee:** $37.00
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
**Description:** An historical account of the architecture, sculpture and painting of Japan, including the political, religious, and intellectual history informing the arts of different regions.
May be repeated for a maximum of 4 credit hours. Please consult a faculty advisor.

**ARTH 3100 - The Art and Architecture of the Islamic World**

Credits: (4)
**Typically Taught Spring Semester: Full Sem**
**Typically Taught Fall Semester: Full Sem**
**Course Fee:** $37.00
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
**Description:** An historical survey of the architecture, sculpture, and painting of the Islamic world, including the political, religious, and intellectual history informing the arts of different countries: Iran, Iraq, Egypt, Turkey, North Africa, India, Spain, and Indonesia.

**ARTH 3451 - Design History and Theory**

Credits: (4)
**Typically Taught Fall Semester: Full Sem**
**Typically Taught Spring Semester: Full Sem**
**Course Fee:** $37.00
**Course Fee Purpose:** KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
**Description:** An investigation of selected movements, figures and theories from the history of graphic design. Contents include intersections with art and related disciplines along with the social, political, and technical forces that have influenced visual culture over time. Topics are selected thematically according to their significance to the design profession in our current day and include the role of design research in contemporary practice.
**Pre-requisite(s):** (ART 3430 and ART 2435); or consent of instructor.
ARTH 3850 - Travel-Study Art History

Credits: (1-4)
Variable Title
Typically Taught Summer Semester: Full Sem
Description: The study of the history of art and architecture will be in direct response to a country or region and its culture or it may be related to an event that takes place in that area while students are there. Instruction will be given in English.
Pre-requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2040.

ARTH 3950 - Photography: History, Theory and Criticism

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This is a reading, writing and discussion course, which addresses historical and contemporary issues of photographic art practices. Written projects and class discussions will focus on developing a critical understanding of the readings as they relate to the historical development and contemporary practice of photography as a fine art, to the influence photography has had on the history of art and to the broader cultural impact of photography and digital media.
Pre-requisite(s): ARTH 1100 or consent of instructor.

ASL 1010 - First Semester ASL

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

ASL 1020 - Second Semester ASL

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Description: (N=Novice) Continuation of ASL 1010. Basic language skills including listening, speaking, reading, writing and culture.

ASL 2010 - Third Semester ASL

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Description: (NH=Novice High) Continuation of ASL 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

ASL 2020 HU - Fourth Semester ASL

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: *Full Sem*
Course Fee: $8.00
Description: (NH=Novice High) Continuation of ASL 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

**ASL 2021 - Second Year II**

Credits: (3)
Description: (NH=Novice High) Continuation of ASL 2010 without General Education Humanities credit. Offered through examination only.
Note: Only available through testing.

**ASL 2030 - Second Year Language Review**

Credits: (3)
Course Fee: $8.00
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

**ASL 2920 - Short Courses, Workshops, Institutes and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

**ASL 3000 - Proficiency Development**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

**ASL 3116 - DLI Bridge Course I**

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

**ASL 3117 - DLI Bridge Course II**

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.
ASL 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

ASL 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology, will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

ASL 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

ASL 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

ASL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

ASTR 1040 PS - Elementary Astronomy

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $10.00
Course Fee Purpose: Consumables and maintenance of equipment used for teaching demonstrations.
Description: A brief survey of the physical universe using the fundamental laws of physics. Topics include the history of astronomy, the solar system, the sun, the evolution of stars, pulsars, black holes, the Milky Way galaxy, galaxies, quasars, and the Big Bang.
Three hours of lecture per week.
Cross-listed with PHYS 1040.
ASTR 2040 PS - Principles of Observational Astronomy

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An introductory course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation.
Pre-requisite(s): MATH 1060 (minimum grade of C).
Cross-listed with PHYS 2040.

ASTR 2800 - Introductory Individual Research Problems

Credits: (1-3)
Description: Time and credit to be arranged. Intended for students working on a directed research project which includes physics/astronomy at the lower division level for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 2800.
May be repeated up to 10 times.

ASTR 2830 - Introductory Readings in Physics/Astronomy

Credits: (1-3)
Description: Time and credit to be arranged. Intended for students working on a directed reading project which includes physics/astronomy at the lower division level for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 2830.
May be repeated up to 10 times.

ASTR 3040 - Principles of Observational Astronomy, Advanced

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An advanced course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. This course also covers general scientific practice, data analysis, and error propagation.
Pre-requisite(s): PHYS 2710 and PHYS 3180.

ASTR 3160 - Stellar and Planetary Astrophysics

Credits: (3)
Typically Taught Spring Semester: Full Sem Odd Years
Description: Selected topics in astrophysics with a focus on stellar and planetary systems. Topics may include celestial mechanics, interaction of light and matter, stellar and planetary spectroscopy, stellar atmospheres and interiors, binary star systems, planets and planet formation, and extrasolar planets.
Pre-requisite(s): PHYS 2220.
Cross-listed with PHYS 3160.

ASTR 3170 - Galaxies and Cosmology

Credits: (3)
Typically Taught Spring Semester: Full Sem Even Years
Description: Selected topics in astrophysics, with a focus on galactic astronomy and cosmology. Topics may include gravitational dynamics, interaction of light and matter, galaxy classification, galaxy formation and evolution, the structure of the universe, cosmology, and the origin and fate of the universe.
Pre-requisite(s): PHYS 2220.
Cross-listed with PHYS 3170.
ASTR 4800 - Individual Research Problems

Credits: (1-3)
Description: Time and credit to be arranged. Open to qualified students for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 4800.
May be repeated up to 10 times.

ASTR 4830 - Readings in Physics/Astronomy

Credits: (1-3)
Description: Topics which can be studied include (but are not limited to): mechanics, thermodynamics, kinetic theory, statistical mechanics, electronics, electromagnetism, optics, solid-state physics, modern physics, nuclear physics, relativity, cosmology, and astrophysics. These courses may be taken at any time on a personalized basis. Time and credit to be arranged.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 4830.
May be repeated up to 10 times.

ATHL 1080 - Strength Training Level I

Credits: (1)
Description: -For Club Hockey Players Only
May be repeated five times for credit.

ATHL 1081 - Strength Training Level II

Credits: (1)
Description: -For Club Hockey Players Only
May be repeated five times for credit.

ATHL 1180 - Varsity Softball

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of softball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1510 - Varsity Volleyball

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of volleyball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1520 - Varsity Soccer

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of soccer at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.
ATHL 1570 - Varsity Basketball

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of basketball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play. May be repeated 7 times with up to 8 credit hours.

ATHL 1580 - Varsity Cross Country

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of cross country at the collegiate level. Students will learn techniques and participate in drills to assist with the development of competitive skills and prepare for varsity cross country meets. May be repeated 7 times with up to 8 credit hours.

ATHL 1590 - Varsity Football

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of football at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play. May be repeated 7 times with up to 8 credit hours.

ATHL 1600 - Varsity Golf

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of golf at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play. May be repeated 7 times with up to 8 credit hours.

ATHL 1630 - Varsity Tennis

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of tennis at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play. May be repeated 7 times with up to 8 credit hours.

ATHL 1640 - Varsity Track, Field, and Cross Country

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of track and field at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition. May be repeated 7 times with up to 8 credit hours.

ATHL 1680 - Varsity Indoor Track
ATHL 1760 - Spirit Squad

Credits: (1)
Typically Taught Spring Semester: Full Sem

Description: This athletic activity course is intended to engage students in the sport of indoor track at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition. May be repeated 7 times with up to 8 credit hours.

ATTC 3000 - Introduction to Automotive Technology

Credits: (1)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online

Course Fee: $10.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An introduction to the Automotive Technology program. Degree requirements and options, internship preparation, employment opportunities, required professional publications, communication, and other topics. (This course is a prerequisite for most automotive technology courses.)
Pre-requisite(s): Proof of completion of an Associate of Applied Science AAS or Associate of Science AS degree in automotive service technology or a related degree.

ATTC 3020 - Introduction to Safety Management and Hazardous Materials

Credits: (3)
Typically Taught Spring Semester: Full Sem, Full Sem Online

Course Fee: $30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An overview of the environmental issues related to the use and service of vehicles, with emphasis on air quality topics. Environmental regulations, safe practices, disposal of hazardous substances, such as paints and solvents.

ATTC 3260 - Advanced Electrical Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem

Course Fee: $90.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: A study of the advanced electrical systems in today's vehicles. Vehicle communication networks, body control systems, chassis control systems, powertrain control, hybrid control, and battery control systems.

ATTC 3280 - Advanced Painting and Refinishing

Credits: (3)

Course Fee: $120.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Preparation for insurance industry employment. Includes advanced topics in surface preparation and application of
contemporary and specialty paints. Matching, blending and complete vehicle refinishing. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.
Lab included.
Pre-requisite/Co-requisite: ATTC 3000.
Note: Course not currently being offered.

ATTC 3480 - Advanced Structural Analysis and Damage Repair

Credits: (3)
Course Fee: $90.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Preparation for insurance industry employment. Includes advanced topics in frame and unibody repair. Replacement of major panels, measuring and corrective pulling, and occupant safety systems. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.
Lab included.
Pre-requisite(s): ATTC 3280.
Note: Course not currently being offered.

ATTC 3520 - Fleet Management

Credits: (3)
Typically Taught Fall Semester: Full Sem Online
Description: Study of fleet standards, fixed operations, inventory and personnel management, financial policies and procedures. Includes financial statement analysis.

ATTC 3620 - Automotive Business Practices

Credits: (3)
Typically Taught Spring Semester: Full Sem Online
Course Fee: $30.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Study of independent shop and corporate dealership standards, fixed operations, inventory and personnel management, and industry report systems, financial policies and procedures. Includes financial statement analysis.

ATTC 3680 - Automotive Damage Analysis and Estimating

Credits: (3)
Description: Preparation for insurance industry employment. Includes an overview of vehicle damage analysis, restraint systems, mechanical and electrical systems. Topics also include industry standard terminology, procedures, and estimation software usage.
Lab included.
Pre-requisite(s): ATTC 3480.
Note: Course not currently being offered.

ATTC 3760 - Advanced Automotive Technologies

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Course Fee: $40.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: A study of current events/trends in the automotive industry, industry standard professional publications, and the latest technologies used by the automotive industry to meet current emissions, fuel economy, and safety regulations.

ATTC 3860 - Automotive Standards, Laws, and Regulations
Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of automotive industry related Society of Automotive Engineers (SAE) standards, State Regulations, U.S. Environmental Protection Agency (EPA) emissions regulations, National Highway Traffic Safety Administration (NHTSA), Federal Motor Vehicle Safety Standards (FMVSS), Corporate Average Fuel Economy (CAFE) regulations, and others.

ATTC 3880 INT - Cooperative Practicum

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Description: Supervised work experience with a sponsoring employer, designed to synthesize theory and practice. Full-time, upper division related employment and approval of faculty supervisor required.

ATTC 4380 - Advanced Non-Structural Analysis and Damage Repair

Credits: (3)
Course Fee: $90.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Preparation for insurance industry employment. Includes advanced topics in safety, welding processes, panel repair and replacement, trim application, water and wind leakage. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.
Lab included.
Pre-requisite(s): ATTC 3480.
Note: Course not currently being offered.

ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $35.00
Course Fee Purpose: This course has a fee attached. Course fees are established to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers service information subscription(s) to AllData and/or Mitchell.
Description: An in-depth look at the laws and regulations related to the high voltage safety systems used on hybrid and electric vehicles. Topics include 1. Personal protective equipment types use and care. 2. High voltage service tools and equipment. 3. Vehicle operation and characteristics. 4. Identify high voltage systems and components. 5. High voltage isolation and interlock systems. 6. Disabling and enabling the high voltage system. 7. Maintenance schedules and precautions. 8. Emergency rescue personnel information.

ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Description: An in-depth look at the different classifications of Electrified Road Vehicles. 1. The three different types of Hybrid Electric Vehicles (HEVs), 2. Multi-Mode Plug-in Hybrid Electric Vehicles (PHEVs), 3. Battery Electric Vehicles (BEVs), and 4. Hydrogen Fuel Cell Electric Vehicles (FCEVs). Topics include the theory of operation of high voltage batteries, DC to AC inverters, DC to DC converters, electric motor types, plug-In charging systems, thermal management of the high voltage systems, battery, the passenger cabin, and braking/regenerative braking systems. In addition, preparation for the ASE L3 Light-Duty hybrid/electric vehicles exam is included.

ATTC 4540 - Automated Safety and Convenience Systems
ATTC 4550 - Advanced Automotive Emissions

Credits: (3)  
Typically Taught Fall Semester: Full Sem Online  
Description: An in-depth look at the operation, diagnosis and service of the automated safety and convenience systems found on modern vehicles. Topics will include: AUTOMATED: vehicle system classifications (driver assisted, partial automated, conditional automated, high automated, and fully automated). SAFETY: advanced cruise systems, advanced steering systems, advanced suspension systems, advances parking systems. CONVENIENCE: In car WiFi, vehicle to vehicle communication, biometrics, active health monitoring, comprehensive vehicle tracking, advanced heads up displays.

ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance

Credits: (3)  
Typically Taught Fall Semester: Full Sem, Full Sem - Online  
Course Fee: $30.00  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
Description: An in-depth look at the service and maintenance procedures for 1. The three different types of Hybrid Electric Vehicles (HEV)s. 2. Multi-Mode Plug-In Hybrid Electric Vehicles (PHEV)s, 3. Battery Electric Vehicles (BEV)s, and 4. Hydrogen Fuel Cell Electric Vehicles (FCEV)s. Topics include high voltage batteries, DC to AC inverters, DC to DC converters, electric motor types, plug-In charging systems, thermal management of the high voltage systems, battery, the passenger cabin, braking/regenerative braking systems, and Atkinson cycle Internal Combustion Engines (ICE). Preparation for the ASE L3 Light-Duty hybrid/electric vehicles exam is included.

ATTC 4710 - Capstone Research Methods

Credits: (2)  
Typically Taught Fall Semester: Full Sem, Full Sem Online  
Description: This is the first course in the Capstone Project for seniors. This course will prepare students to complete the capstone project. Students will create the initial proposal and receive approval for the project. Students will start the research for the project using the standards established by the Society of Automotive Engineers (SAE).

ATTC 4720 - Capstone Research and Development

Credits: (3)  
Typically Taught Spring Semester: Full Sem, Full Sem Online  
Course Fee: $140.00  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
Description: The use of sophisticated diagnostic tools and equipment. Emphasis is on diagnosis and the development of analytical thinking as it applies to technical problems. Includes lab.  
Pre-requisite(s): ATTC 4710.

ATTC 4760 - Alternate Fuel Systems

Credits: (3)  
Typically Taught Spring Semester: Full Sem  
Course Fee: $90.00  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Equipment

**Description:** A study of alternate fuel systems including bio fuels (ethanol and bio-diesel systems), advanced diesel systems, hybrid-electric vehicles, Compressed Natural Gas (CNG) systems, hydrogen fuel cell, and other existing or emerging technologies.

**Pre-requisite(s):** ATTC 3760.

---

**ATTC 4780 - Insurance Industry Business Practices**

**Credits:** (3)

**Course Fee:** $30.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** An overview of the business practices used by the automotive insurance industry. Included is the use of industry standard software to determine insurance policy coverage, vehicle reparability (current value versus repair costs) and parts availability.

**Pre-requisite/Co-requisite:** ATTC 3680 and PS 3203.

Note: Course not currently being offered.

---

**ATTC 4830 - Directed Readings**

**Credits:** (1-3)

**Typically Taught Fall Semester:** Full Sem Online

**Typically Taught Spring Semester:** Full Sem Online

**Description:** Individual readings supervised by a faculty member.

**Pre-requisite(s):** Approval of instructor.

May be repeated twice up to 3 credit hours.

---

**ATTC 5920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offerings under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

---

**AUSV 1000 - Introduction to Automotive Service**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $21.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** An introduction to automotive shop safety, pollution prevention, hazardous waste handling, Internet-based electronic service information, diagnostic scan tools, ASE certifications, safety inspection certifications, emissions inspection certifications, developing job interview skills, and resume writing.

Note: This course is a prerequisite for all automotive service courses.

---

**AUSV 1001 - Collision Repair Fundamentals and Estimating**

**Credits:** (2)

**Description:** This course is an introduction to the collision repair industry and the construction of the modern automobile as it applies to the collision repair industry. Emphasis will be placed on locating vehicle information, basic construction of vehicles, environmental concerns and issues, and writing collision repair estimates on damaged vehicles.

Note: Course not currently being offered.

---

**AUSV 1010 - Automotive Technology Orientation**
AUSV 1020 - Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $195.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and repair of braking, steering, and suspension systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1325.
Note: (AUSV 1020 is equivalent to AUSV 1021, AUSV 1022, and AUSV 2320.)

AUSV 1021 - Automotive Braking Systems 1

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $21.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of braking systems. This is the first part of a two-part class.
Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1022 - Steering and Suspension Systems 1

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $21.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.
Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1023 - Automotive Braking Systems 2

Credits: (2)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Course Fee: $73.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of automotive braking systems. This is the second part of a two-part class.

AUSV 1025 - Steering and Suspension Systems 2
Credits: (2)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Course Fee: $73.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.

AUSV 1030 - Honda Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)
Description: Theory, operation, diagnosis, and repair of Honda braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1335.
Note: (AUSV 1030 is comprised of AUSV 1031, AUSV 1032 and AUSV 2330.) Course not currently being offered.

AUSV 1031 - Honda Braking Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of Honda braking systems.
Pre-requisite(s): AUSV 1000.
Note: (AUSV 1031 is equivalent to AUSV 1030, and AUSV 2330). Course not currently being offered.

AUSV 1032 - Honda Steering and Suspension Systems

Credits: (2)
Course Fee: $71.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of Honda steering and suspension systems.
Note: (AUSV 1031, AUSV 1032, and AUSV 2330 are equivalent to AUSV 1000, AUSV 1030.) Course not currently being offered.

AUSV 1040 - General Motors Braking, Steering, Suspension and Climate Control Systems

Credits: (8)
Course Fee: $195.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of General Motors braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1345.
Note: (AUSV 1040 is comprised of AUSV 1041, AUSV 1042 and AUSV 2340.)

AUSV 1041 - General Motors Braking Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of General Motors braking systems.
Pre-requisite(s): AUSV 1000 and AUSV 1345.
Note: (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042, and AUSV 2340).

AUSV 1042 - General Motors Steering and Suspension Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $71.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of General Motors steering and suspension systems.
Pre-requisite(s): AUSV 1000.
Note: (AUSV 1041, AUSV 1042, and AUSV 2340 are equivalent to AUSV 1000, AUSV 1040.)

AUSV 1050 - Chrysler Braking, Steering, Suspension and Climate Control Systems

Credits: (8)
Course Fee: $195.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of Chrysler braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1355.
Note: (AUSV 1050 is comprised of AUSV 1051, AUSV 1052 and AUSV 2350.) Course not currently being offered.

AUSV 1051 - Chrysler Braking Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of Chrysler braking systems.
Pre-requisite(s): AUSV 1000 and AUSV 1355.
Note: (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052, and AUSV 2350). Course not currently being offered.

AUSV 1052 - Chrysler Steering and Suspension Systems

Credits: (3)
Course Fee: $71.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of Chrysler steering and suspension systems.
Pre-requisite(s): AUSV 1000.
Note: (AUSV 1051, AUSV 1052, and AUSV 2350 are equivalent to AUSV 1000, AUSV 1050.) Course not currently being offered.

AUSV 1060 - Toyota Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)
Course Fee: $195.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of Toyota braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1365.
Note: (AUSV 1060 is comprised of AUSV 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.
AUSV 1061 - Toyota Braking Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment.
Description: Theory, operation, diagnosis, and repair of Toyota braking systems.
Pre-requisite(s): AUSV 1000 and AUSV 1365.
Note: (AUSV 1060 is equivalent to 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1062 - Toyota Steering and Suspension Systems

Credits: (3)
Course Fee: $71.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of Toyota steering and suspension systems.
Pre-requisite/Co-requisite: AUSV 1000.
Note: (AUSV 1061, AUSV 1062, and AUSV 2360 are equivalent to AUSV 1000, AUSV 1060.) Course not currently being offered.

AUSV 1071 - H D Truck Brakes

Credits: (2)
Description: Operation, diagnosis, inspection, and repair of air brake systems. Equivalent to DATC proficiency #48530, 48601.

AUSV 1072 - H D Truck Steering & Suspension

Credits: (3)
Description: Operation, diagnosis, and repair of heavy duty steering and suspension systems. Equivalent to DATC proficiency #48540, 48550.

AUSV 1080 - Non-Structural Analysis and Damage Repair 1

Credits: (4)
Course Fee: $162.40
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Safety, welding processes, panel repair and replacement, trim application, water leak and wind noise issues. Proper use of modern body fillers and repair techniques. I-CAR training modules are included.
Pre-requisite(s): AUSV 1001 or instructor approval.
Note: Course not currently being offered.

AUSV 1085 - Painting and Refinishing 1

Credits: (4)
Course Fee: $162.40
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Introductory course on modern automotive paint application processes. Emphasis will be placed on Panel and part preparation as well as spray and application techniques.
Pre-requisite(s): AUSV 1001 or instructor approval.
Note: Course not currently being offered.

AUSV 1100 - Principles of Technology I
AUSV 1120 - Automotive Engines 1

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $21.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, repair, and overhaul of automotive engines.

AUSV 1124 - Automotive Engines 2

Credits: (2)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Course Fee: $73.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, repair, and overhaul of automotive engines. This is the second part of a two-part class.

AUSV 1130 - Honda Engines

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, repair, and overhaul of Honda engines.
Pre-requisite(s): AUSV 1000.
Note: Course not currently being offered.

AUSV 1140 - General Motors Engines

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, repair, and overhaul of General Motors engines.
Pre-requisite(s): AUSV 1000.

AUSV 1150 - Chrysler Engines

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, repair, and overhaul of Chrysler engines.
Pre-requisite(s): AUSV 1000.
Note: Course not currently being offered.

**AUSV 1160 - Toyota Engines**

Credits: (4)  
Course Fee: $81.00  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
Description: Theory, operation, diagnosis, repair, and overhaul of Toyota engines.  
Pre-requisite(s): AUSV 1000.  
Note: Course not currently being offered.

**AUSV 1170 - H D Truck Engines**

Credits: (5)  
Description: Operational principles, diagnosis and complete overhaul of diesel engines. Equivalent to DATC proficiency #48140, 48141, 48142, 48143, 48160, 48162, 48163.

**AUSV 1180 - Structural Analysis and Damage Repair 1**

Credits: (4)  
Course Fee: $162.40  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
Description: Frame and unibody repair will be explored. Replacement of major structural panels and introduction to measuring and corrective pulling will be covered. Occupant safety and restraint systems will be examined. I-Car training modules are included.  
Pre-requisite(s): AUSV 1001 or instructor approval.  
Note: Course not currently being offered.

**AUSV 1200 - Principles of Technology II**

Credits: (2)  
Course Fee: $10.00  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
Description: Scientific concepts pertaining to electricity, heat, sound and light are applied to systems found in modern industry. Laboratory activities featuring measurement and instrumentation are emphasized.  
Pre-requisite(s): AUSV 1000.  
Note: Course not currently being offered.

**AUSV 1220 - Automotive Manual Drivetrain Systems**

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Course Fee: $83.00  
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
Description: Theory, operation, diagnosis, maintenance, and overhaul of manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

**AUSV 1230 - Honda Manual Drivetrain Systems**

Credits: (3)  
Course Fee: $81.00
Description: Theory, operation, diagnosis, maintenance, and overhaul of Honda manual transmissions and transaxles, drive axles and differentials, drivelines, and transfer units.
Pre-requisite(s): AUSV 1000.
Note: Course not currently being offered.

AUSV 1240 - General Motors Manual Drivetrain Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, maintenance, and overhaul of General Motors manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.
Pre-requisite(s): AUSV 1000.

AUSV 1250 - Chrysler Manual Drivetrain Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, maintenance, and overhaul of Chrysler manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.
Pre-requisite(s): AUSV 1000.
Note: Course not currently being offered.

AUSV 1260 - Toyota Manual Drivetrain Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, maintenance, and overhaul of Toyota manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.
Pre-requisite(s): AUSV 1000.
Note: Course not currently being offered.

AUSV 1270 - H D Truck Drive Mechanisms

Credits: (8)
Description: Theory, operation, diagnosis, and overhaul of the clutch, transmission, drive lines, differentials, and wheel bearings. Equivalent to DATC proficiency #48401, 48403, 48603.

AUSV 1300 - Technical Mathematics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Measurements, common and decimal fractions, square roots, surfaces, columns, capacities. Principles of algebra and geometry.

AUSV 1320 - Automotive Electronics 1
AUSV 1323 - Automotive Electronics 2

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $21.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1325 - Electrical Fundamentals 3

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is the third part of a three-part class.

AUSV 1330 - Honda Automotive Electronics

Credits: (4)
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.
Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1335 - Honda Electronics, Electrical and Body Control Systems

Credits: (7)
Course Fee: $121.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)
Note: Course not currently being offered.

AUSV 1340 - General Motors Automotive Electronics
AUSV 1345 - General Motors Electronics, Electrical and Body Control Systems

Credits: (7)
Course Fee: $121.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

AUSV 1350 - Chrysler Automotive Electronics

Credits: (4)
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

AUSV 1355 - Chrysler Electronics, Electrical and Body Control Systems

Credits: (7)
Course Fee: $121.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

Note: Course not currently being offered.

AUSV 1360 - Toyota Automotive Electronics

Credits: (4)
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)

Note: Course not currently being offered.

AUSV 1365 - Toyota Electronics, Electrical and Body Control Systems
AUSV 1400 - Automotive Fundamentals

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Operation, diagnosis and repair of selected automotive systems, as well as general auto shop orientation for beginners and non-automotive majors.

AUSV 1600 - EV1 - Intro to Hybrid & EV Safety

Credits: (2)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course will introduce students to hybrid and electric vehicles, proper safety tools and procedures, and basic high voltage components. Basic electrical theory will be explained and showcased in this course. Diagnostic theory and operation will be covered as well as service disconnect procedures and component validation testing.

AUSV 1890 - Cooperative Work Experience

Credits: (1-6)
Description: Open to all first year students in Automotive Service. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

AUSV 2020 - Engine Control Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $83.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. Including evaluation of engine condition.

AUSV 2030 - Honda Engine Control Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of Honda automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1130, AUSV 2030 are equivalent to AUSV 2635.)
Pre-requisite(s): AUSV 1000, AUSV 1335.
Note: Course not currently being offered.
AUSV 2040 - General Motors Engine Control Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of General Motors automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)
Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2050 - Chrysler Engine Control Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of Chrysler automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)
Pre-requisite(s): AUSV 1000, AUSV 1355.
Note: Course not currently being offered.

AUSV 2060 - Toyota Engine Control Systems

Credits: (6)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of Toyota automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)
Pre-requisite(s): AUSV 1000, AUSV 1365.
Note: Course not currently being offered.

AUSV 2080 - Painting and Refinishing 2

Credits: (4)
Course Fee: $162.40
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Advanced surface preparation and application of modern paint system. Color matching, blending and complete vehicle refinishing. I-CAR training modules are included.
Pre-requisite(s): AUSV 1085 or instructor approval.
Note: Course not currently being offered.

AUSV 2085 - Non-Structural Analysis and Damage Repair 2

Credits: (4)
Course Fee: $100.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: This is an advanced non-structural and welding course that expands on what has previously been learned. A great deal of time will be spent working on advanced non-structural techniques and processes. Full frame, unibody, space frames and other modern frame designs will be examined along with proper repair and replacement techniques.
Pre-requisite(s): AUSV 1080 or instructor approval.
Note: Course not currently being offered.

AUSV 2100 - Vehicle Communications
AUSV 2120 - Automotive Electrical and Body Control Systems

Description: Theory, diagnosis, and repair of vehicle communication systems and computer-controlled circuits. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized.

AUSV 2130 - Honda Electrical and Body Control Systems

Description: Theory, diagnosis, and repair of automated Heating, Ventilation, and Air Conditioning electrical control systems, lighting systems, airbags and safety systems, body power motor accessories, and various body sensors and switches that operate on a modern vehicle. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized.

AUSV 2140 - General Motors Electrical and Body Control Systems

Description: Theory, diagnosis, and repair of General Motors starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1340.

Note: Course not currently being offered.

AUSV 2150 - Chrysler Electrical and Body Control Systems

Description: Theory, diagnosis, and repair of Chrysler starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1350.

Note: Course not currently being offered.

AUSV 2160 - Toyota Electrical and Body Control Systems

Description: Theory, diagnosis, and repair of Toyota starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)
Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1360.
Note: Course not currently being offered.

AUSV 2170 - H D Truck Electrical Systems

Credits: (3)
Description: Theory, operation, diagnosis and repair of batteries, starting, charging and electrical accessories. Equivalent to DATC proficiency #48304, 48305.

AUSV 2180 - Structural Analysis and Damage Repair 2

Credits: (3)
Course Fee: $75.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Expands on techniques and skills learned in AUSV 1180. Emphasis will be placed on advanced frame and unibody repair techniques and methods.
Pre-requisite(s): AUSV 1180 or instructor approval.
Note: Course not currently being offered.

AUSV 2270 - H D Truck Engine Diagnosis

Credits: (3)
Description: Engine starting, diagnosis, fuel pump timing, compression and cylinder leakage testing, and tune-up. Equivalent to DATC proficiency #48144, 48164, 48302.

AUSV 2320 - Automotive Climate Control Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $83.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and repair of vehicle climate control systems.

AUSV 2330 - Honda Climate Control Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and repair of Honda climate control systems. (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032 and AUSV 2330.)
Pre-requisite(s): AUSV 1000, AUSV 1330.
Note: Course not currently being offered.

AUSV 2340 - General Motors Climate Control Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and repair of General Motors climate control systems. (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042 and AUSV 2340.)
Pre-requisite(s): AUSV 1000, AUSV 1340.
AUSV 2350 - Chrysler Climate Control Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and repair of Chrysler climate control systems. (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052 and AUSV 2350.)
Pre-requisite(s): AUSV 1000, AUSV 1350.
Note: Course not currently being offered.

AUSV 2360 - Toyota Climate Control Systems

Credits: (3)
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and repair of Toyota climate control systems. (AUSV 1060 is equivalent to AUSV 1061, AUSV 1062 and AUSV 2360.)
Pre-requisite(s): AUSV 1000, AUSV 1360.
Note: Course not currently being offered.

AUSV 2370 - H D Truck Air Conditioning

Credits: (2)
Description: Operation, environmental concerns, diagnosis and repair of air conditioning and heating systems and components. Equivalent to DATC proficiency #48800, 48801.

AUSV 2480 - Auto Body Business Practices

Credits: (2)
Course Fee: $10.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Estimating, scheduling work, purchasing, inventory, insurance practices and applied customer relations.
Note: Course not currently being offered.

AUSV 2520 - Automatic Transmissions

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and overhaul procedures of automatic transmissions.

AUSV 2530 - Honda Automatic Transmissions

Credits: (4)
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and overhaul procedures of Honda automatic transmissions.
Pre-requisite(s): AUSV 1000, AUSV 1335.
Note: Course not currently being offered.
AUSV 2540 - General Motors Automatic Transmissions

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and overhaul procedures of General Motors automatic transmissions.
Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2550 - Chrysler Automatic Transmissions

Credits: (4)
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and overhaul procedures of Chrysler automatic transmissions.
Pre-requisite(s): AUSV 1000, AUSV 1355.
Note: Course not currently being offered.

AUSV 2560 - Toyota Automatic Transmissions

Credits: (4)
Course Fee: $91.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis and overhaul procedures of Toyota automatic transmissions.
Pre-requisite(s): AUSV 1000, AUSV 1365.
Note: Course not currently being offered.

AUSV 2600 - EV2 - Intro to Hybrid & EV Systems

Credits: (2)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: In-depth theory and operation the low voltage and high voltage systems within hybrid and electric vehicles will be covered. High voltage component inspection, removal, disassembly, and installation will be performed. Supporting cooling systems and low voltage electrical will also be diagnosed.

AUSV 2625 - Engine Mechanical and Engine Control Systems

Credits: (6)
Course Fee: $143.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1120, AUSV 2020 are equivalent to AUSV 2625.)
Pre-requisite(s): AUSV 1000, AUSV 1325.

AUSV 2635 - Honda Engine Mechanical and Engine Control Systems

Credits: (6)
Course Fee: $143.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
**AUSV 2645 - General Motors Engine Mechanical and Engine Control Systems**

**Credits:** (6)  
**Course Fee:** $143.00  
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
**Description:** Theory, operation, diagnosis, and repair of General Motors automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)  
**Pre-requisite(s):** AUSV 1000, AUSV 1345.  
Note: Course not currently being offered.

**AUSV 2655 - Chrysler Engine Mechanical and Engine Control Systems**

**Credits:** (6)  
**Course Fee:** $143.00  
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
**Description:** Theory, operation, diagnosis, and repair of Chrysler automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)  
**Pre-requisite(s):** AUSV 1000, AUSV 1355.  
Note: Course not currently being offered.

**AUSV 2665 - Toyota Engine Mechanical and Engine Control Systems**

**Credits:** (6)  
**Course Fee:** $143.00  
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
**Description:** Theory, operation, diagnosis, and repair of Toyota automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)  
**Pre-requisite(s):** AUSV 1000, AUSV 1365.  
Note: Course not currently being offered.

**AUSV 2860 INT - Automotive Shop Practice**

**Credits:** (3-8)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $75.00  
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
**Description:** Provides an opportunity to practice skills needed by Automotive Service technicians derived from classroom and shop experience. Simulates line mechanic work.  
**Pre-requisite(s):** Instructor approval required.  
May be taken 10 times up to 30 credit hours.

**AUSV 2880 - Cooperative Practicum**
AUSV 2890 - Cooperative Work Experience

Credits: (1-6)
Description: Open to second year Automotive Service students. A continuation of AUSV 1890. Note: AUSV 2890 may be taken in lieu of AUSV 2860 when appropriate work experience is available and the student obtains departmental approval.

AUSV 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

BDC 1040 CA - Introduction to Architecture (Studio 1)

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $35.00
Description: This class will be an introductory course to allow students to learn about the field of architectural design, and other associated and possible careers in conjunction with Building Design & Construction. Students will research and explore the world of architecture around them, and see how they might find a place therein. Within this course, students will come to know the difference between creating architecture vs just building space. They will also be able to research an educational direction and career path associated with and around the field of architecture and design. Course content will include research-based assignments and reports, along with studio design and work critiques. Students will begin to learn to create and present ideas and thoughts through the use of analog and digital presentations. Students will discover great architecture all around them, and understand how they can be a part of it. The class will also include introductory methods of reading, interpreting and creating beginnings of architectural and construction documents. At the end of the semester, students will create architecture with a signature assignment where they will begin to understand concept design and how to create architecture with reason and value.

BDC 1350 - Residential Design (Studio 2)

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Description: This will be a course to allow students to explore the field of Residential Design and Architecture. Students will research and present precedents of great residential design. Residential Design concepts will be taught and explored within the projects. Course content will include research-based assignments and presentations, along with studio design and work critiques. Students will create and present ideas and thoughts through the use of analog, digital and oral presentations. Students will begin to understand the difference between simply building houses, and creating a great piece of residential architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural design and construction documents.
Pre-requisite(s): BDC 1040.
Pre-requisite/Co-requisite: CMT 1310.
BDC 2000 - Commercial Design (Studio 3)

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Description: This will be a course to allow students to explore the field of Commercial Design and Architecture. Students will research and present precedents of examples architecture and methods of construction. Design concepts will be explored and employed within the explorations and projects. Course content will include research-based assignments and presentations, along with studio design and work critiques. Students will create and present ideas and thoughts through the use of analog, digital and oral presentations. Students will begin to understand the difference between just building commercial square footage, and creating a great piece of architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural and construction documents.
Pre-requisite(s): BDC 1350.

BDC 2830 - Directed Studies

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Directed readings in Building Design, & Construction.
Pre-requisite(s): Department approval.
Can be taken for 3 credit hours three times for a maximum of 9 credits.

BDC 3000 SUS - Sustainable Building Design & Codes

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $35.00
Description: An analysis of sustainability in the green built environment including certifications such as LEED, Energy Star, RESNET, and the National Green Building Standard. Course discussions will include: What is Green Building and why does it make sense, Building Science fundamentals, planning for Green from the start, Green Building Economics, and Building performance analysis.

BDC 3500 - Architectural Rendering & Animation Studio

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Description: This course introduces students to the basic tools and concepts used to create photo realistic renderings and animations for the Architecture industry.
Pre-requisite/Co-requisite: BDC 1350 or CMT 2360 or IDT 2080.

BDC 3660 - Structural Design & Detailing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $35.00
Description: Structural design and detailing for Building Designers and Construction Professionals using emerging software to visualize and analyze the structural behavior of buildings and structures. A study of common construction material properties and their connections under varying load conditions including: wood, steel, and concrete. Both 2D and 3D CAD are used to create residential and commercial engineered construction documents.
Pre-requisite(s): Math QL.
BDC 4350 - BIM Management & Coordination

Credits: (3)
Typically Taught Fall Semester: Full Sem; Full Sem Online
Typically Taught Spring Semester: Full Sem; Full Sem Online
Course Fee: $35.00
Description: An advanced BIM course dealing with BIM project management, MEP modeling, clash detection, 4D scheduling, as well as emerging technology in the Building Design & Construction industry.
Pre-requisite(s): BDC 2000 or CMT 2360.

BDC 4600 SUS - Senior Project

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a building design & construction problem. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation.
This course may be taken twice for credit.

BDC 4830 - Directed Studies

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Directed readings in Building Design and Construction. Must have department approval.
Can be taken for 3 credit hours three times for a maximum of 9 credits.

BDC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.
Pre-requisite(s): Consent of instructor.
May be repeated for a total maximum of 6 credit hours.

BIS 2800 - Foundations of Integrated Studies

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Foundations of Interdisciplinary Studies provide students with theories and methods used in interdisciplinary research. The course will introduce students to examples of interdisciplinary research, familiarize them with different disciplinary perspectives, and provide them with the intellectual tools to flourish in an interdisciplinary program of study.

BIS 3800 - BIS Capstone and Graduation Preparation

Credits: (2)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
**Description:** This course guides students as they develop a capstone proposal, and begin preliminary research on it. The course also helps them consider future career options and graduate school paths.

**Pre-requisite(s):** BIS 2800.

**BIS 3850 - BIS Internship**

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

**Description:** The Bachelor of Integrated Studies Program (BIS) offers BIS students the opportunity to earn 1 to 3 elective credits for a work internship.

**Pre-requisite(s):** For requirements and guidelines, contact the BIS office.

May be repeated three times for a maximum of three credit hours.

**BIS 4800 - Bachelor of Integrated Studies Senior Capstone**

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

**Description:** The Senior Capstone serves as the culmination of the Bachelor of Integrated Studies (BIS) interdisciplinary degree. After completing course work in three different areas of emphasis, BIS student synthesize their three disciplines in this capstone project.

**Pre-requisite(s):** BIS 3800.

**BME 1000 - Introduction to Biomedical Engineering**

Credits: (2)
Typically Taught Fall Semester: Full Sem

**Course Fee:** $40.00

**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

**Description:** An introductory course to Biomedical Engineering topics including electronic terms, numbering systems, software tools, and documentation practices.

**Suggested Requisite(s):** MATH 1050 or MATH 1060 or MATH 1080.

**BME 2000 - BME Sophomore Seminar**

Credits: (1)
Typically Taught Spring Semester: Full Sem

**Description:** An engineering seminar designed to help students plan their education and career trajectories by introducing modern topics in biomedical research and available careers. Students will be introduced to both academic and industry-oriented career fields, options for undergraduate research and the challenges of working in interdisciplinary career fields.

**Pre-requisite(s):** BME 1000 or ECE 1000.

**BME 2240 - Dynamic Systems Engineering**

Credits: (4)
Typically Taught Spring Semester: Full Sem

**Description:** An introduction to the modeling, analysis, and control of dynamic systems. Models of electrical, mechanical, electromechanical, and mass-transport systems in state-variable, input-output, and transfer function form. Topics include linear approximations of nonlinear systems, time domain and Laplace transform solutions, Block diagrams, feedback systems and large-scale linear systems analysis.

**Pre-requisite(s):** ECE 1270 and ECE 1400 and MATH 1210.

**BME 3000 - Engineering Seminar**
An engineering seminar course designed to prepare the student for professional engineering employment. Topics include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness and continuous improvement. Students will research related topics and write a paper.

**Pre-requisite(s):** BME 2000.

### BME 3090 - Project Management

**Credits:** (1)

**Typically Taught Spring Semester:** Full Sem

**Description:** An introduction to project management. The course prepares students for Senior Projects. The course will include the writing of contracts, goal setting, project leadership and team-building principles of engineering economics, teamwork, quality, statistics, and continuous improvement. Other topics include project life cycles, organization, and risk management. Project scheduling and performance will be discussed. The course will be taught as a seminar.

**Pre-requisite(s):** Permission from the department.

### BME 3130 - Microelectronics for Biomedical Engineers

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

**Description:** Topics covered are related to microelectronics including bipolar and field-effect transistors, frequency response, feedback systems, filters, signal generation, and applications of op-amp circuits.

Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of filters and advanced circuits.

**Pre-requisite(s):** ECE 2260.

### BME 3210 - Signals & Systems

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $40.00

**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

**Description:** Topics covered are related to the analysis of linear time-invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms. Lecture and lab combination. Laboratory activities include the computer simulation, analysis, and numerical modeling of biological signals and systems.

**Pre-requisite(s):** ECE 2260 and BME 2240.

### BME 3600 - Biomedical Design and Standards

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $100.00

**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

**Description:** Introduction to Computer-Aided Drafting (CAD) design and the engineering design cycle. Students will learn basic CAD skills and apply them to designing a simple biomedical device as a group. Important points on standards and considerations for devices that are used by and interface with humans will also be covered.

**Pre-requisite(s):** PHYS 2220 and BME 2000.
BME 4010 - Senior Project I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
Description: Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem-solving techniques will be emphasized. Topics include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.
Pre-requisite(s): Permission from the department. Before seeking departmental approval, students should be currently enrolled in BME 3090 and should have taken at least four 3000-level core ECE or BME courses, MATH 3410 or ECE 3430, and either ENGL 3100 or PS 3250. Exceptions to this rule are made only if a student's graduation would otherwise be delayed.
Suggested Requisite(s): BME 3090 and MATH 3410 and ENGL 3100.

BME 4020 - Senior Project II

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
Description: A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.
Pre-requisite(s): BME 4010.

BSAD 1010 - Introduction to Business

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Relation of business managers and firms to contemporary society and the global economy. Topics include human values and ethics in the workplace, multiculturalism, social responsibilities of business, business functions, and general principles of effective business operation.

BSAD 2704 - Information Resources in the Business Disciplines

Credits: (1)
Typically Taught Fall Semester: 1st Blk, Full Sem Online
Typically Taught Spring Semester: 1st Blk, Full Sem Online
Description: Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines.
Cross listed with LIBS 2704.

BSAD 2899 - Business Foundations and Admissions Process

Credits: (0)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Completion of BSAD 2899 is required of all students pursuing any major, minor, emphasis or certificate awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Business Foundation knowledge, and 2) admittance to the Goddard School. Students must have an overall GPA of 2.5 or higher and a Business
Foundation GPA of 2.5 or higher and a minimum grade of "C-" in each of the six Business Foundation courses. Credit/No credit.

**Pre-requisite/Co-requisite:** ACTG 2010, ACTG 2020, ECON 2010, ECON 2020, MIS 2010, QUAN 2600. Department registration approval is required.

**Suggested Requisite(s):** Students should register for this course concurrent with (same semester as) their last Business Foundation course (ACTG 2010, ACTG 2020, ECON 2010, ECON 2020, MIS 2010 and QUAN 2600) or after the required Business Foundation courses have been completed.

**BSAD 2920 - Short Courses, Workshops, Institutes, and Special Programs**

- **Credits:** (1-6)
- **Workshop**
- **Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
- May be repeated for a total maximum of 6 credit hours.

**BSAD 3000 - Small Business Management**

- **Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem Online
- **Typically Taught Spring Semester:** Full Sem Online
- **Description:** This course is designed for students majoring outside the John B. Goddard School of Business & Economics. It will not be counted for credit toward graduation for students majoring in the John B. Goddard School of Business & Economics. It covers the business management concepts involved in starting and/or managing a small business.

**BSAD 3200 - Legal Environment of Business**

- **Credits:** (3)
- **Typically Taught Summer Semester:** Full Sem, Full Sem Online
- **Typically Taught Fall Semester:** Full Sem, Full Sem Online
- **Typically Taught Spring Semester:** Full Sem, Full Sem Online
- **Description:** Introduction to the legal and judicial system, emphasizing the application of regulatory law (e.g., antitrust, employment discrimination, etc.) and selected common law topics (e.g., contracts, agency, etc.).

**BSAD 3330 - Business Ethics & Environmental Responsibility**

- **Credits:** (3)
- **Typically Taught Summer Semester:** Full Sem, 1st Blk
- **Typically Taught Fall Semester:** Full Sem, 1st Blk, 2nd Blk
- **Typically Taught Spring Semester:** Full Sem, 2nd Blk
- **Description:** An introduction to the rudiments of moral reasoning, concepts and principles, and their application to common ethical issues faced in business. Special attention will be given to moral issues associated with the use of the natural environment by businesses.
- **Pre-requisite(s):** BSAD 2899.

**BSAD 3500 - Introduction to Business Research**

- **Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem
- **Typically Taught Spring Semester:** Full Sem
- **Description:** Introduces students to gathering and analyzing primary and secondary data for a wide range of business applications, such as assessing customer or employee satisfaction. Students are introduced to CD ROM databases, other library resources, questionnaire development and administration, basic data analysis, and research report writing.
- **Pre-requisite(s):** BSAD 2899, QUAN 3610.

**BSAD 3600 - [World Region] Business and Society**
Credits: (3)
Description: The world region or country covered in this course varies and will be indicated in the specific course title and on
the student's transcript (e.g., European Business and Society, Japanese Business and Society, etc.). For a specified world region
or country, this course considers its historical and cultural roots, together with modern societal issues, as they relate to business;
the role of business in society; economic development, industrial policy, and trade relations; and management and business
practices, including sociocultural considerations, in the specified world region or country.
Pre-requisite(s): BSAD 2899.
Suggested Requisite(s): Prior course work in business or economics or the appropriate foreign language(s) or culture, or in-
country experience.

BSAD 4210 - Survey of Business Law

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem
Description: An overview of sales, negotiable instruments, property, and debtor/creditor relations and other selected legal
topics.
Pre-requisite(s): BSAD 2899, BSAD 3200.

BSAD 4401 - E-Commerce

Credits: (3)
Description: Technologies, strategies, and methods for an electronic approach to financial, purchasing, marketing, and order
fulfillment processes. Emphasis is on creating successful business strategies to exploit Internet and Electronic Data Interchange
(EDI) capabilities.
Pre-requisite(s): MKTG 3010 or concurrent enrollment in MKTG 3010.
Note: Course not currently being offered.

BSAD 4500 - Entrepreneurship

Credits: (3)
Description: Integration of various functional areas of business as they relate to evaluating, creating, planning, and managing
new business ventures.
Pre-requisite(s): Business Foundations; BSAD 2899; MKTG 3010; MGMT 3010, MGMT 3200.
Note: Course not currently being offered.

BSAD 4620 - Executive Lectures

Credits: (1)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: This course is designed to acquaint the students with successful executives, their personal styles and philosophies as
leaders, and the keys to their effectiveness. Credit/No credit.
The format is a series of weekly one-hour lectures delivered by guest executives.
The course may be repeated for credit to a maximum of two credit hours.

BSAD 4680 - Small Business Diagnostics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with
small businesses in the community. Students will work both individually and in teams to analyze the health of sample small
businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical
small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and
presentations are required.
Cross-listed with ENTR 4680.

**BSAD 4780 - Strategic Management**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A capstone course for seniors designed to facilitate integration of the knowledge gained in earlier courses. Focus of the course is on the total enterprise. Emphasis is on crafting well-conceived strategies and on successful strategy implementation.
Pre-requisite(s): BSAD 2899 and BSAD 3200 and SCM 3050 and FIN 3200 and MGMT 3010 and MKTG 3010 and (MGMT 3200 or PS 3250 or ENGL 3100 or ENGL 3530 or SCM 4500); senior standing.

**BSAD 4800 - Independent Research**

Credits: (1-3)
Description: Directed research and study on an individual basis.
Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

**BSAD 4850 - Business Administration Study Abroad**

Credits: (1-3)
Description: This course is designed for students who wish to explore business administration theory and practice in countries other than the U.S. Students will study international business as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): BSAD 2899.
May be repeated once up to 6 credits.

**BSAD 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

**BTNY 1010 - Plants: Apocalypse Prevention**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Plants are essential pieces in the puzzle of preventing and adapting to the environmental challenges of our time. Because plants are major players in carbon cycles, wildfire behavior, medicine, and food systems, understanding and managing plant communities is key to maintaining thriving human societies. We can learn from plant biology and use plants in strategic ways to solve the problems that our society faces and take care of ourselves in the face of turmoil.

**BTNY 1203 LS - Plant Biology**

Credits: (3)
Typically Taught Summer Semester: 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introductory course for non-majors that emphasizes unique features of plant biology. Included are discussions on: the origins of life; important plants of the world and their habitats; plant diversity, structure, function, and reproduction;
plants and environmental science; plants that changed history; practical botany; and botany as a science.
Three lecture/demonstration hours per week.

**BTNY 1303 LS - Plants and People**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem - Online, 1st Blk Online
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** This class provides a general introduction to the importance and function of plants in human affairs. It includes an overview of science as a way of knowing, plant forms and functions, plant reproduction, and use of economically and sociologically important plants. Flowering and non-flowering plants and products such as fruits, forages, grains, medicines, herbs and spices, textile fibers, lumber, algae, and foliage plants are studied. Ecological concepts as they relate to the growth and production of world food crops will also be included. The course has a strong emphasis on the historical development of exploitation of certain plants and the role plants played in exploration and international development. This class cannot be used to fulfill requirements for a Botany major or minor.
Three hours of lecture per week.

**BTNY 1370 LS - Principles of Life Science**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem

**Description:** A survey course for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized. Recommended for students intending to major in elementary education. This class cannot be used to fulfill requirements for a Botany major or minor.
Two hours of lecture and one 3-hour laboratory per week.

**BTNY 1403 LS SUS - Principles of Environmental Science**

**Credits:** (3-4)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $20.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

**Description:** Development of awareness of the consequences of the impact of modern science through technology upon our environments and how we respond to issues related to threats to our biological life-support system. A definition of a quality environment is developed, with student input, and an analysis of the existing quality of our environment is made in light of this definition which challenges our collective wisdom to identify those things which we do well and to prescribe remedies for shortcomings. This course can be taken for 3 or 4 credits with the fourth credit based on completion of the laboratory course.
Three hours of lecture per week (3 credits) or three hours of lecture and one two-hour lab per week (4 credits).

**BTNY 2104 - Plant Form and Function**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

**Description:** An introduction to the anatomy, cell biology, physiology, and genetics of the seed plants. This course is designed for science majors and is a prerequisite for upper division Botany courses.
Two hours of lecture and two 2-hour labs per week.

**Suggested Requisite(s):** Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

**BTNY 2114 - Evolutionary Survey of Plants**
Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Course fees are used to purchase consumables (seeds, greenhouse supplies, chemicals, microscope slides, etc.) and to provide a reserve fund to replace prepared slides and lab glassware and to repair or replace microscopes as needed.
Description: A study of the diversity, ecology, and reproduction of plants in the context of the evolution of life on earth. The role of plants in making life on earth possible is an important theme. This course is designed for science majors and is a prerequisite for selected upper division Botany courses.
Two hours of lecture and two 2-hour labs per week.
Pre-requisite(s): BTNY 2104.
Suggested Requisite(s): Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

BTNY 2121 - Career Planning for Botanists

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed for majors to introduce them to expected student learning outcomes, assessment of these expected outcomes, advisement and/or mentoring, keys to success in getting a job or into graduate school, career resources available, and how to start and develop the Botany Student Portfolio.
One lecture per week.
Pre-requisite/Co-requisite: BTNY 2104 or BTNY 2114.

BTNY 2203 - Home and Garden Plants

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Course fees are used to purchase consumables (seeds, soil, planting trays, etc.) and provide reserve funds to replace equipment (pruning shears, etc.) as needed.
Description: Basic principles of plant science with special reference to care of home and garden plants. Includes a general study of lighting, watering, soils, fertilizer, pruning and shaping, propagation, controlling pests, and planting designs.
Two hours of lecture and one 3-hour laboratory per week.

BTNY 2303 - Ethnobotany

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A thorough study of the scientific methodology in ethnobotanical research with opportunities for practical applications. This class includes an introduction to how plants are used by people for food, fiber, shelter, and medicine. Students will learn fundamental botanical principles, how to conduct field work and how to collect plants and prepare them for use. Ethical questions concerning conservation, biodiversity and the continued loss of indigenous plants and cultures will also be discussed.
Three lecture/demonstrations per week.

BTNY 2413 - Introduction to Natural Resource Management

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
Course Fee: $10.00
Course Fee Purpose: The course fee is used for field trip transportation.
Description: Introduces students, especially those interested in forestry and range management, to concepts and ideologies in the utilization and preservation of forests, range, soils, wildlife, water and fisheries, and the human impact on these resources.
Three hours of lecture per week.

BTNY 2600 - Laboratory Safety
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work. Class will meet once per week and will be taught in a lecture/demonstration format.

BTNY 2750 - Topics in Science and Society

Credits: (3)
Variable Title
Typically Taught Spring Semester: Full Sem
Description: An exploration of selected topics related to science and society. The specific title will appear on the student transcript.

BTNY 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

BTNY 2830 - Readings in Botany

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Cannot be repeated.

BTNY 2890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to all students in Botany programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): BTNY 2104 and BTNY 2121, and instructor's permission.
Course may be repeated for a maximum of 3 credit hours.

BTNY 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

BTNY 2950 - Elementary Field Botany

Credits: (1-2)
Description: Fundamentals of Botany as observed during field trips. Trips will be preceded by lectures and exercises designed to prepare the student for maximizing the learning experience in the field. The course involves extensive pre- and post-trip exercises
and evaluation.  
May be repeated once for a maximum of 2 credit hours.
Note: This course is not currently offered.

**BTNY 3105 - Anatomy of Vascular Plants**

**Credits:** (4)

**Typically Taught Fall Semester:** *Full Sem*

**Course Fee:** $25.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

**Description:** Anatomy of Vascular Plants explores the internal structures of higher plants. This course examines the structural organization of higher plants at all levels of organization -- from the subcellular, to cellular, to tissue, to organism level---and pays close attention to how structure begets function from the subcellular to the ecological level. Additionally, students will learn different technical methods and equipment used to study plants' internal structures.

Three hours of lecture and one 3-hour lab per week.

**Pre-requisite(s):** BTNY 2104, BTNY 2114, BTNY 2121, & (BTNY 2600 OR GEO 2600 OR MICR 2600, OR PHYS 2600, OR CHEM 2600.)

**BTNY 3153 - Biology of the Plant Cell**

**Credits:** (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:** A study of plant cell structure and function, including biogenesis and activities of organelles, signal transduction, cell-cell interactions, and the molecular processes involved in cellular development and specialization as well as cellular responses. Three hours of lecture per week.

**Pre-requisite(s):** BTNY 2104 and BTNY 2114, CHEM 1120 or CHEM 2310.

**BTNY 3204 - Plant Physiology**

**Credits:** (4)

**Typically Taught Fall Semester:** *Full Sem*

**Course Fee:** $25.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

**Description:** A study of the physiological processes of plants, including carbon metabolism, mineral assimilation, water relations, and stress responses. Two hours of lecture and two 3-hour labs per week.

**Pre-requisite(s):** BTNY 2600 and BTNY 2104, CHEM 1120 or CHEM 2310, and MATH 1040 or MATH 1050 or MATH 1080.

**BTNY 3214 - Soils**

**Credits:** (4)

**Typically Taught Spring Semester:** *Full Sem*

**Course Fee:** $25.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed and field trip transportation.

**Description:** An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management.

Three hours of lecture and one 3-hour lab per week.

**Pre-requisite(s):** (BTNY 2104 and BTNY 2114 and BTNY 2121) or (GEO 1110) and (CHEM 1110 or CHEM 1210) and (BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600).

Course is cross listed with GEO 3214.

**BTNY 3303 - Plant Genetics**
Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: The principles of heredity, population genetics, and molecular genetics as applied to plants. Three lecture hours and one 3-hour lab per week.
Pre-requisite(s): (BTNY 2104 and BTNY 2114) or MICR 2054; CHEM 1120 or (CHEM 2310 and CHEM 2315); MATH 1040 or MATH 1050 or MATH 1080; BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600.

BTNY 3454 - Plant Ecology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: The course fee is used to supply and maintain field equipment and support transportation for field trips.
Description: Nature and development of plant communities and their relations to the environmental factors controlling them. Three hours of lecture and one 3-hour lab per week.
Pre-requisite(s): BTNY 2104 and (MATH 1040 or MATH 1050 or MATH 1080).

BTNY 3473 - Plant Geography

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A study of global and regional distributions of major plant groups and communities as affected by past and present climates, biological, ecological and geomorphic factors.
Three lectures per week.
Pre-requisite(s): BTNY 2104 and BTNY 2114.

BTNY 3504 - Mycology

Credits: (4)
Typically Taught Fall Semester: Full Sem odd years
Course Fee: $25.00
Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed and offset the costs of DNA sequencing.
Description: Structure, taxonomy, biology, and physiology of the fungi.
Two hours of lecture and two 2-hour labs per week.
Pre-requisite(s): (BTNY 2104 and BTNY 2114 and BTNY 2121) or MICR 2054, and BTNY/CHEM/GEO/MICR/PHYS 2600.

BTNY 3514 - Algology

Credits: (4)
Description: A study of the biology of algae, their morphology, cytology, development, taxonomy, ecology, economic and experimental uses.
Two hours of lecture and two 2-hour labs per week.
Pre-requisite(s): BTNY 2104 and BTNY 2114, or MICR 2054, or ZOOL 4480.
Note: This course is not currently offered.

BTNY 3523 - Marine Biology

Credits: (3)
Description: A study of marine biology and ecology, relating to the plant and animal populations of the sea to their various habitats, including the pelagic environment, the sea bottom, sea shores, and estuaries.
Two hours of lecture and one 2-hour lab per week.
Pre-requisite(s): BTNY 2114, or ZOOL 1110, or MICR 2054, or GEO 3010.
Note: This course is not currently offered.

BTNY 3570 - Foundations of Science Education
Credits: (3)
**Typically Taught Spring Semester: Full Sem**

**Description:** A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

**BTNY 3583 - Medicinal Plants-Chemistry and Use**

Credits: (4)
**Typically Taught Fall Semester: Full Sem**

**Course Fee:** $30.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

**Description:** A study of plants and herbal preparations widely used in maintaining health and treating disease in traditional and modern societies. Active ingredients, modern use and side effects will be studied. In lab, students will learn to analyze plants, over-the-counter-drugs and herbal supplements for active ingredients. Students will also learn how to make extractions and preparations from plant materials. This course is especially useful for students interested in careers in Pharmacy, Ethnobotany, Natural Medicine, Nursing and Medicine.

Two hours of lecture and two 3 hour labs per week.

**Pre-requisite(s):** CHEM 1120 or (CHEM 2310 and CHEM 2315), and (MATH 1040 or MATH 1050 or MATH 1080).

**BTNY 3624 - Taxonomy of Vascular Plants**

Credits: (4)
**Typically Taught Summer Semester: 1st Blk**

**Course Fee:** $20.00

**Course Fee Purpose:** Course fees are used to purchase plant curation supplies, to cover costs of field trips for plant collecting, and to provide a reserve fund to repair or replace microscopes as needed.

**Description:** A study of the basic principles and concepts of vascular plant systematics with emphasis on the identification and classification of flowering plants.

Two hours of lecture and two 2-hour labs per week.

**Pre-requisite(s):** BTNY 2104, BTNY 2114, and BTNY/CHEM/GEO/MICR/PHYS 2600.

**BTNY 3643 - Intermountain Flora**

Credits: (3)
**Typically Taught Fall Semester: Full Sem**

**Description:** A taxonomic study of plants that are of major importance to the management of wildland resources. Students will learn to identify 300 of the most important grasses, woody plants, and marsh-aquatic plants. Considers federal laws for the regulation of rare and endangered species and habitat designation.

One hour of lecture and two 2-hour labs per week.

**Pre-requisite(s):** BTNY 3624.

**BTNY 4113 - Plant Evolution**

Credits: (3)
**Typically Taught Spring Semester: Full Sem**

**Description:** The Plant Evolution course focuses on two broad areas: 1) the patterns of evolution of plants from prokaryotes to seed plants and 2) current patterns and processes of evolution among plants. The first area will involve an examination of the evolutionary patterns of plants, with a focus on land plants, and will include tracing patterns of evolution from prokaryotes to euakaryotes to land plants to vascular plants to seed plants. This section of the course will explore patterns, evolutionary innovations, and notable taxa throughout the history of plants. The second area will involve an investigation of the current patterns and processes influencing plant evolution. This includes variation within and among populations, strategies for reproduction and breeding systems in plants, patterns of selection, speciation, macroevolution, etc. We will not only discuss these aspects of plant evolution but also delve into modern (and previous) methods for examining patterns and processes of evolution in plants.

**Pre-requisite(s):** BTNY 2104 and BTNY 2114.
Pre-requisite/Co-requisite: BTNY 2121.
Note: This course is not currently offered.

**BTNY 4252 - Cell Culture**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Basic methods and applications for culturing plant and animal cells in vitro.
Two 2-hour combined lecture and laboratory sessions per week.
Pre-requisite(s): BTNY 2104 or MICR 2054.
Crosslisted with MICR 4252.

**BTNY 4570 - Secondary School Science Teaching Methods**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.
Pre-requisite(s): Admission to the Teacher Education Program.

**BTNY 4750 - Topics in Botany**

Credits: (1-5)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An exploration of selected topics in the discipline. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): BTNY 2104 and BTNY 2114, and any specified courses selected by the instructor.
Course may be repeated up to 10 times for credit.

**BTNY 4800 - Individual Research**

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.
Course may be repeated up to 10 times for credit.

**BTNY 4830 - Readings in Botany**

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Independent readings in botany under the direction of a faculty member.
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.
May be repeated up to four times for a maximum of 6 credit hours.

**BTNY 4840 - Thesis Readings**

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Literature search and evaluation, culminating in the writing of a thesis proposal.
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of thesis advisor.
Course may be repeated once for a maximum of 4 credit hours.

**BTNY 4850 - Thesis Research**

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Independent research related to a student's approved thesis proposal.
Pre-requisite(s): BTNY 2600 and BTNY 4840 and (MATH 1040 or MATH 1050 or MATH 1080) and approval of thesis advisor.
May be repeated for a maximum of 8 credit hours.

**BTNY 4890 INT - Cooperative Work Experience**

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to all students in Botany Department programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, two upper-division Botany courses, and instructor approval.
Course may be repeated 5 times for a maximum of 6 credit hours.

**BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121 and any specified courses selected by the instructor.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

**BTNY 4950 - Advanced Field Botany**

Credits: (3-5)
Typically Taught Fall Semester: Full Sem
Description: A concentrated study of the flora and/or field methods for conducting surveys or ecological studies in a specific geographical region. This course generally involves an extended field trip conducting botanical fieldwork in addition to local fieldwork and/or study to prepare for and summarize trip results.
Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, BTNY 2600, and any specified courses selected by the instructor, and consent of the instructor.

**BTNY 4970 - Botany Thesis**

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Written report of thesis research in the form of a scientific paper.
Pre-requisite(s): BTNY 4850 and approval of instructor (thesis advisor).

**BTNY 4990 - Botany Capstone Seminar**
Credits: (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Oral presentation of an individual research, thesis research, library research, or internship project in which the student demonstrates understanding of science as a process. This course includes the final evaluation of the student's portfolio and should be taken the last semester of the senior year.

**Pre-requisite(s):** BTNY 2121 and Senior status.

**BTNY 5030G - Botany for Teachers**

Credits: (2-5)

**Description:** Science content course for teachers in MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

Course may be repeated up to 10 times.

Note: This course is offered as needed.

**CHEM 1010 PS - Introductory Chemistry**

Credits: (3)

**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** This is a lecture-demonstration class designed to introduce the subject of chemistry and requires no prior chemistry experience. This class is designed for students who will not be majoring in a discipline that requires any further chemistry coursework. This course is not intended to prepare students for any future chemistry coursework.

**CHEM 1110 PS - Elementary Chemistry**

Credits: (4)

**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** Fundamentals of inorganic chemistry and introduction to organic chemistry. The first course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.

Four hours of lecture and one 3-hour lab a week.

**Co-Requisite(s):** CHEM 1115.

**CHEM 1115 - Elementary Chemistry Lab**

Credits: (1)

**Typically Taught Summer Semester:** Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Course Fee:** $35.00

**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** CHEM 1115 is the lab course designed to accompany CHEM 1110. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry and introduction to organic chemistry. The first lab course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.

**Co-Requisite(s):** CHEM 1110.

**CHEM 1120 - Elementary Organic Bio-Chemistry**

Credits: (4)

**Typically Taught Summer Semester:** Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Elementary study of the compounds of carbon and chemical compounds and reactions of biological systems. The second course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.
Four hours of lecture and one 3-hour lab a week.
Pre-requisite(s): CHEM 1110 or equivalent.
Co-Requisite(s): CHEM 1125.

CHEM 1125 - Elementary Organic Bio-Chemistry Lab

Credits: (1)
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Students will be introduced to lab techniques associated with organic chemistry and biochemistry. This is the second lab course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.
Co-Requisite(s): CHEM 1120.

CHEM 1130 PS - Introduction to General, Organic & Biochemistry

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $35.00
Description: An introduction to general, organic and biochemistry designed primarily for students of nursing and other majors that require no more than one semester of chemistry. 4 hours of lecture per week.
Co-Requisite(s): CHEM 1135.

CHEM 1135 - Introduction to General, Organic & Biochemistry Lab

Credits: (1)
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 1135 is the lab course designed to accompany CHEM 1130. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry, organic chemistry, and biochemistry.
Co-Requisite(s): CHEM 1130.

CHEM 1200 - Preparation for College Chemistry

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: CHEM 1200 prepares students to take the CHEM 1210 -1220 chemistry series. No prior chemistry experience is necessary, however, mathematical and problem-solving competency at the level of intermediate algebra (MATH 1010) or above is expected. Students who do not plan to take Chemistry 1210-1220 series should not take this class. This course does not fulfill any general education requirements and does not apply towards hours in any major.
Three hours of lecture per week.
Pre-requisite/Co-requisite: MATH 1010, MATH 1050, MATH 1080, MATH 1210, MATH 1220, or MATH 2210.

CHEM 1210 PS - Principles of Chemistry I

Credits: (4)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This is the first course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include components of matter, stoichiometry, major classes of reactions, gases and kinetic molecular theory, thermochemistry, quantum theory and atomic structure, models of chemical bonding, shapes of molecules, intermolecular forces, and properties of mixtures. The laboratory emphasizes qualitative and quantitative methods of analysis. Four hours of lecture per week.

Pre-requisite(s): MATH 1010 or equivalent and CHEM 1200 or departmental approval.
Co-Requisite(s): CHEM 1215.
Pre-requisite/Co-requisite: MATH 1050, MATH 1080, MATH 1210, MATH 1220, MATH 2210, or equivalent.

CHEM 1215 - Principles of Chemistry I Lab

Credits: (1)
Typically Taught Summer Semester: 1st Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 1215 is the lab course designed to accompany CHEM 1210. This is the first laboratory course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. This laboratory emphasizes qualitative and quantitative methods of analysis.
Co-Requisite(s): CHEM 1210.

CHEM 1220 - Principles of Chemistry II

Credits: (4)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is the second course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include kinetics, equilibrium including aqueous solution equilibrium, thermodynamics, electrochemistry, and an introduction to inorganic, nuclear, and organic chemistry.
Four hours of lecture and one 3-hour lab a week.
Pre-requisite(s): MATH 1050 or MATH 1080 or MATH 1210 or MATH 1220 or MATH 2210 or equivalent and CHEM 1210/1215.
Co-Requisite(s): CHEM 1225.

CHEM 1225 - Principles of Chemistry II Lab

Credits: (1)
Typically Taught Summer Semester: 2nd Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 1225 is the lab course designed to accompany CHEM 1220. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry including kinetics, equilibrium, acids and bases, thermodynamics, electrochemistry, nuclear chemistry, and transition metal chemistry. The second lab course in a two-semester sequence designed primarily for science majors.
Co-Requisite(s): CHEM 1220.

CHEM 1230 - Engineering Chemistry
CHEM 1235 - Engineering Chemistry Lab

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Fees for this course are used to defray the cost of chemicals and other expendable laboratory materials, as well as for the purchase, maintenance, and repair of laboratory equipment.
Description: The lab component to foundational chemistry for engineers. By the end of class, students will:
- Determine chemical hazards.
- Perform chemical reactions and analysis safely.
- Set up reaction procedures, and calculate yields.
- Use appropriate glassware correctly, and report their properties accurately and precisely.
- Have a basic knowledge of the following instrumentation: calorimeters, pressure sensors, spectrometers.

CHEM 1360 PS - Principles of Physical Science

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: A lecture/laboratory course designed to provide an introduction to the scientific method and its application to the study of selected topics in physics and chemistry.
Two hours of lecture and one 3-hour lab per week. Recommended for Elementary Education majors.

CHEM 2310 - Organic Chemistry I

Credits: (4)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Principles of organic chemistry, including structure and reactivity of carbon based molecules. Detailed study of mechanisms, synthesis, and reactions. Alkane, alkyl halide, alkyne, alcohol, and ether families are covered.
Four hours of lecture a week.
Pre-requisite(s): CHEM 1220.
Co-Requisite(s): CHEM 2315 lab.

CHEM 2315 - Organic Chemistry I Lab

Credits: (1)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Lab course designed to be taken with CHEM 2310. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.
Pre-requisite(s): CHEM 1220.
Co-Requisite(s): CHEM 2310 lecture.

CHEM 2320 - Organic Chemistry II

Credits: (4)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Principles of organic chemistry, second semester. A continuation of structure and reactivity analysis, along with structure elucidation techniques, spectroscopy and synthetic reactions. Coverage includes aromatics, carbonyls, carboxylic acid derivatives, and sugars.
Four hours of lecture a week.
Pre-requisite(s): CHEM 2310 and CHEM 2315.
Co-Requisite(s): CHEM 2325 lab.

CHEM 2325 - Organic Chemistry II Lab

Credits: (1)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Lab course designed to be taken with CHEM 2320. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.
Pre-requisite(s): CHEM 2310 and CHEM 2315.
Co-Requisite(s): CHEM 2320 lecture.

CHEM 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.
Class will meet once per week and will be taught in a lecture/demonstration format.

CHEM 2820 - Elements of Research in the Sciences

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.
Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).
Cross-listed with GEO 2820 and PHYS 2820.

CHEM 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in the Chemistry Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times with a maximum of 6 credit hours.
Note: This course is offered as needed.

CHEM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title with the credit authorized
CHEM 2990 - Chemical Technician Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed to provide the skills necessary to enter the job market as a Chemical Technician.
One hour of lecture/discussion a week.
Pre-requisite(s): CHEM 1220.

CHEM 3000 - Quantitative Analysis

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Theory and methods of gravimetric and volumetric analysis and simple instrumentation. Includes statistical evaluation of results.
Three hours of lecture and one 3-hour lab per week.
Pre-requisite(s): CHEM 1220.
Pre-requisite/Co-requisite: CHEM 3020.

CHEM 3005 - Quantitative Analysis Lab

Credits: (1)
Course Fee: $30.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 3005 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 3005 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM 3000 lecture without the lab should petition the Chair of the Chemistry Department for permission to take this course.
Pre-requisite(s): Must have completed or currently be enrolled in CHEM 3000 lecture.
Note: This course is offered as needed.

CHEM 3020 - Computer Applications in Chemistry

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed to provide students computer skills for applications including computation and electronic data bases searches. It is required that this course be taken before or with CHEM 3000.
One hour of lecture/discussion a week.
Pre-requisite(s): CHEM 1210.

CHEM 3050 - Instrumental Analysis

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Theory and methods of modern instrumental analysis. Includes practical applications in electrochemical, spectrometric, and chromatographic techniques.
Three hours of lecture and one three hour laboratory per week.
Pre-requisite(s): CHEM 3000.
Note: This course is offered as needed.

**CHEM 3060 - Applied Analysis**

Credits: (1)
Course Fee: $5.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Applied Analysis using modern methods of analysis with an emphasis on speed and accuracy. One 3-hour lab per week.
Pre-requisite(s): CHEM 3000.
Pre-requisite/Co-requisite: CHEM 3050.
Note: This course is offered as needed.

**CHEM 3070 - Biochemistry I**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Structure and function of biomolecules including proteins, nucleic acids, fats and carbohydrates. A focus on proteins as energy transforming and catalytic devices; their role in metabolism, defense and other biochemical processes. Three lectures a week.
Pre-requisite(s): CHEM 2310 and CHEM 2315.

**CHEM 3075 - Biochemistry I Lab**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Biochemistry lab course designed to accompany Biochemistry I Lecture, CHEM 3070. Includes biochemical concept illustration using chemical and biological techniques and experimentation.
Pre-requisite/Co-requisite: CHEM 3070.

**CHEM 3080 - Biochemistry II**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A detailed study of the molecular basis of life: nucleic acids, biosynthetic pathways, molecular aspects of disease and pharmacology. Three lectures a week.
Pre-requisite(s): CHEM 2320, CHEM 2325, and CHEM 3070.

**CHEM 3090 - Biochemical Techniques**

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Advanced techniques including instrumentation for biochemistry. One 3-hour lab per week.
Pre-requisite(s): CHEM 2320, CHEM 2325, and CHEM 3070.
Pre-requisite/Co-requisite: CHEM 3080.
CHEM 3400 - Molecular Symmetry and Applied Math for Physical Chemistry

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An introduction to molecular symmetry, experimental error analysis, and physical chemistry applications of algebra, linear algebra, and differential equations.
Pre-requisite(s): MATH 1220.
Co-Requisite(s): CHEM 3410.

CHEM 3410 - Foundations in Physical Chemistry

Credits: (4)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: The one-semester foundation course in Physical Chemistry covering chemical thermodynamics, kinetics with an introduction to quantum mechanics. Three hours of lecture and one 3-hour lab a week.
Pre-requisite(s): MATH 1220, PHYS 2220, CHEM 3000, ENGL 2010.

CHEM 3510 - Environmental Chemistry

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Fees for this course are used to defray the cost of chemicals and other expendable laboratory materials, as well as for the purchase, maintenance, and repair of laboratory equipment. To help minimize lab fees, students are expected to exercise careful use of chemicals, glassware, and laboratory equipment.
Description: CHEM 3510 focuses on the chemical processes that determine how matter moves through environmental systems. The course emphasizes chemical equilibrium, mass transport, and the relative timescales of chemical, physical, and biological processes in the environment. The lab portion of this course develops students' benchtop chemistry and programming skills in the context of researching the fate of a chemical product in the environment. All laboratory data analysis and calculations will be carried out using the Python programming language.

CHEM 3570 - Foundations of Science Education

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

CHEM 3610 - Foundations in Inorganic Chemistry

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: A foundation course for chemistry majors and minors. Topics include atomic properties, bonding, molecular symmetry, solid state structures, and transition metal complexes. This class will meet for 3 hours each week with one 3 hour laboratory per week.
Pre-requisite(s): CHEM 1220, and MATH 1060 or MATH 1080.

CHEM 4150 - Nuclear Magnetic Resonance Spectroscopy
Credits: (2)
Typically Taught Fall Semester: Full Sem
Description:
NMR theory is investigated from a semi-classical standpoint and practiced on an NMR spectrometer. Pulse and Fourier transform NMR basics are developed and common one- and two-dimensional NMR experiments are described.
Pre-requisite(s): CHEM 2320, CHEM 2325, MATH 1220, and PHYS 2220 with lab.

**CHEM 4250 CRE - Medicinal Chemistry**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Medicinal chemistry is a fast-paced and important field that has direct impacts on overall world health and quality of life. This 3-credit-hour course is designed for students with an interest in chemistry, biochemistry, pharmacology, and medicine. It will provide an in-depth look at how pharmacologically active molecules are designed, how they chemically interact with their targets, and how they work molecularly to treat human diseases. Selected case studies will be used to illustrate the concepts being covered. In line with our university mission, an over-arching theme will be looking at how medicinal chemistry affects our worldwide community with emphasis on patents, drug development costs, risks, and ethics.
Pre-requisite(s): CHEM 3070.

**CHEM 4420 - Quantum Chemistry**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: The second semester course is designed for students with an interest in chemistry, biochemistry, pharmacology, and medicine. It will provide an in-depth look at how pharmacologically active molecules are designed, how they chemically interact with their targets, and how they work molecularly to treat human diseases. Selected case studies will be used to illustrate the concepts being covered. In line with our university mission, an over-arching theme will be looking at how medicinal chemistry affects our worldwide community with emphasis on patents, drug development costs, risks, and ethics.
Pre-requisite(s): CHEM 3000 and CHEM 3410 and CHEM 3610.

**CHEM 4540 - Spectrometric and Separation Methods**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Theory and practice of spectrometric and separation methods in the study of chemical systems. Three hours of lecture and one 3-hour lab per week.
Pre-requisite(s): CHEM 3050.

**CHEM 4550 - Geochemistry**

Credits: (3)
Description: The chemistry of the earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere with a synthesis of these ideas to account for the chemical evolution of the earth. Applications to mineral stability and chemical reactions, geochemical cycles, and isotope geochemistry.
Three hours of lecture a week.
Pre-requisite(s): CHEM 1220 and GEO 2050 or consent of instructor.
Note: This course is offered during even years.

**CHEM 4560 - Environmental Geochemistry**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere.
Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-world applications. Three hours of lecture and three hours of lab per week.

**Pre-requisite(s):** CHEM 1220 and GEO 3000; or consent of instructor.

---

**CHEM 4570 - Secondary School Science Teaching Methods**

*Credits: (3)*

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $15.00

**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

**Pre-requisite(s):** Admission to the Teacher Education Program.

---

**CHEM 4620 - Advanced Inorganic Chemistry**

*Credits: (4)*

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $15.00

**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** Students will learn how to use symmetry and current bonding theories to explain and predict the structure, properties and reactivity of inorganic molecules. They will explore the breadth of inorganic chemistry including organometallic chemistry, bioinorganic chemistry, and catalysis. The research-based laboratory experience focuses on the synthesis, characterization, and testing of inorganic compounds using state of the art techniques and instrumentation.

Three hours of lecture and one 3-hour lab a week.

**Pre-requisite(s):** CHEM 3610 or permission of instructor.

---

**CHEM 4630 - Materials Chemistry**

*Credits: (4)*

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $20.00

**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** Materials chemistry is the study of the synthesis, structure, properties, and applications of solid materials. Our technology-driven world is fueled by advances in materials chemistry with examples of application in areas such as nanomaterials, polymers, and energy technology. This survey course will focus on the synthesis of materials through gas, liquid, and solid phase reactions. Crystalline and molecular structure of materials will be related to electronic, optical, thermal, and mechanical properties. Some material characterization techniques including x-ray diffraction and microscopy will be covered. The accompanying lab focuses on synthesis of advanced crystalline and amorphous materials through traditional and new techniques. Analysis with scanning electron microscopy, x-ray diffraction, uv/vis spectroscopy, and IR spectroscopy is included.

Three hours of lecture and one 3-hour lab a week.

**Pre-requisite(s):** CHEM 3610.

---

**CHEM 4700 - Special Topics in Chemistry**

*Credits: (1-3)*

**Variable Title**

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Pre-requisite(s):** CHEM 4420 or permission of instructor.

This course may be repeated twice for a maximum of 3 credit hours.

---

**CHEM 4710 - Chemical Preparations**

*Credits: (1-3)*

**Course Fee:** $20.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Synthesis and determination of the properties of selected chemical compounds.
Three to nine hours of lab a week.
Pre-requisite(s): Permission of the instructor.
Note: This course is not currently being offered.

CHEM 4800 - Research and Independent Study in Chemistry

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Open to qualified students for one or more semesters.
May be repeated for credit up to 12 times with instructor approval.

CHEM 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A continuation of CHEM 2890. Open to all students.
May be repeated for credit up to 12 times with instructor approval.

CHEM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

CHEM 4990 CRE - Senior Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A seminar course where students will share their research results with fellow students and faculty in written and oral formats.
Pre-requisite(s): CHEM 4800 or permission of instructor.

CHEM 5030G - Chemistry for Teachers

Credits: (3-5)
Description: Science content course for teachers in the M. Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.
May be repeated twice with a maximum of 5 credit hours.

CHF 1500 SS/DV - Human Development

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: A survey course which addresses the developmental aspects of individuals across the lifespan. Course content encompasses the study of biological, cognitive, social, and emotional developmental changes of the healthy individual in the context of the family and society. It emphasizes and demonstrates the vital connections between theory, research, and application.

CHF 2400 SS/DV - Family Relations

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Examines dynamics of the healthy family using family theory, individual life span development, research, and active learning experiences.

CHF 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CHF 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CHNS 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles. Note: Course not currently being offered.

CHNS 1010 - First Semester Chinese

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

CHNS 1020 - Second Semester Chinese

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (N=Novice) Continuation of CHNS 1010. Basic language skills including listening, speaking, reading, writing and culture.

**CHNS 1852 - Study Abroad**

**Credits:** (1-3)

**Description:**
(N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply. May be repeated twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

**CHNS 2000 - Proficiency Development**

**Credits:** (1-2)

**Description:** (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

**CHNS 2010 - Third Semester Chinese**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (NH=Novice High) Continuation of CHNS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

**CHNS 2020 HU - Fourth Semester Chinese**

**Credits:** (3)

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (NH=Novice High) Continuation of CHNS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

**CHNS 2021 - Second Year II**

**Credits:** (3)

**Description:** (NH=Novice High) Continuation of CHNS 2010 without General Education Humanities credit. Offered through examination only.

**Pre-requisite(s):** Only available through testing.

**CHNS 2030 - Second Year Language Review**

**Credits:** (3)

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.
CHNS 2851 - Study Abroad

Credits: (3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Note: Check with Department for course availability.

CHNS 2852 - Study Abroad

Credits: (1-3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

CHNS 3000 - Proficiency Development

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

CHNS 3060 - Grammar & Composition

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

CHNS 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3118 - DLI Bridge Course III
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3320 - Applied Language Studies

Credits: (1-3)

Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

CHNS 3550 - Cultural Heritage I

Credits: (3)

Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.

CHNS 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.

CHNS 3632 - Literature: Drama

Credits: (3)

Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.

CHNS 3680 - Literature: Film

Credits: (3)

Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.

Note: Check with department for course availability.

CHNS 3710 - Business Language I
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.
Note: Check with department for course availability.

CHNS 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply.
May be repeated up to 10 times for credit.

CHNS 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

CHNS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop Description: (minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

CJ 1010 SS - Introduction to Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem, Online
Description: An introduction to the history, processes and functions of the American criminal justice system and its primary components, law enforcement, courts, and corrections.

CJ 1070 - Law Enforcement/Corrections Academy, Part I

Credits: (9)
Description: Experiential credit for students completing a State of Utah authorized SFO/BCO or SFO/LEO POST Academy. Credit is earned concurrently with CJ 1080. Register through the Department of Criminal Justice. Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.

CJ 1080 - Law Enforcement/Corrections Academy, Part II

Credits: (9)
Description: Experiential credit for students completing a State of Utah authorized SFO/BCO or SFO/LEO POST Academy. Credit is earned concurrently with CJ 1070. Register through the Department of Criminal Justice. Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.

CJ 1300 - Corrections: History, Theory and Practice
CJ 1330 - Criminal Law and Courts

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem, Online
Description: An introductory overview of the correctional system including: the historical development and societal context of corrections, contemporary correctional theory and law, jails and prisons, community corrections, treatment, juvenile corrections, and contemporary correctional issues.

CJ 1340 - Criminal Investigation

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

CJ 1350 - Introduction to Forensic Science

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: An introduction to the various types of physical evidence commonly encountered at crime scenes (e.g., fingerprints, hairs, fibers, drugs, glass, etc.), including discussion of comparison and identification techniques (i.e., optical examination/comparison, instrumental analysis, and many chemical processes) used in the analysis of such physical evidence.

CJ 2300 - Policing: History, Theory and Practice

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: This course will provide an overview of the history of policing and the role of police in modern society. Particular emphasis will be placed on problems and issues confronting police and solutions within an organizational framework.

CJ 2330 - Juvenile Justice

Credits: (3)
Typically Taught Summer Semester: Online
Description: Origin, philosophy, and development of the juvenile justice system, particularly the juvenile court. Emphasis placed upon laws, detention, adjudication, probation, after-care, foster homes, and other alternative correctional practices.

CJ 2340 - Crime Scene Investigation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** This course is designed to give students an understanding of the integration of the criminal investigative process with complex scientific application of modern technology in searching for and processing physical evidence in crime scenes. It will provide background into the theory behind Crime Scene Science and the ethical and legal challenges faced by Forensic Scientists and Crime Scene Investigators. Using modern instructional materials, students will learn of the complexity of processing and documentation of Crime Scenes with the ultimate goal of having a successful outcome in the court system.

**Pre-requisite(s):** CJ 1350.

**CJ 2350 - Laws of Evidence**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Deals with the principles and rules of law emphasizing evidentiary problems related to criminal cases.

**CJ 2360 - Juvenile Law and Procedure**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** An investigation of the juvenile justice system emphasizing Utah law and procedure. Studies differences between juvenile and adult systems, delinquent acts, juvenile treatment as adults and role and function of probation, youth corrections, family services and the community.

**CJ 2400 - Criminal Court Process**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem Online
**Typically Taught Spring Semester:** Full Sem Online

**Description:** Introduction to American criminal case processing including instruction on how a case is processed, step-by-step, from beginning to end. The motivations, cultural norms and behaviors of attorneys, judges and jurors will also be studied.

**CJ 2810 - Experimental Course**

**Credits:** (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

**CJ 2860 INT - Criminal Justice Field Experience**

**Credits:** (3)

**Description:** Field experience in an internship with city, county, and state criminal justice agencies.

May be repeated once for 6 credit hours.

**Note:** This course is not currently offered (see CJ 4860).

**CJ 2861 INT - Victim Advocacy Capstone**

**Credits:** (1-3)

**Typically Taught Summer Semester:** Full Sem, 1st Blk, 2nd Blk
**Typically Taught Fall Semester:** Full Sem, 1st Blk, 2nd Blk
**Typically Taught Spring Semester:** Full Sem, 1st Blk, 2nd Blk

**Description:** Capstone experience for students in the Victim Advocacy Certificate of Proficiency comprised of a volunteer experience with a victim advocacy agency/department; or victim advocacy training experience. Must be enrolled in the VA
Certificate to register. Variable credit course (1-3 credit hours). Credit hours determined by type and length of experience in consultation with instructor prior to beginning course.

Pre-requisite(s): Completion of certificate required and elective courses; and instructor permission.
Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.
May only be taken once for credit.

**CJ 2862 INT - Juvenile Justice Capstone**

Credits: (1-3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk
Description: Capstone experience for students in the Juvenile Justice Certificate of Proficiency comprised of a volunteer experience with a city, county or state juvenile justice agency/department. Must be enrolled in the JJ Certificate to register.
Variable credit course (1-3 credit hours). Credit hours determined by length of experience in consultation with instructor prior to beginning course. May only be taken once for credit.
Pre-requisite(s): Completion of certificate required and elective courses.
Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

**CJ 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript.
May be repeated for a total maximum of 6 credit hours.

**CJ 3020 - Criminal Justice Management**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Current command level problems and trends in criminal justice organizations and management including work environment, motivation, leadership, morale, discipline, evaluation, planning, and functioning of line and staff.

**CJ 3040 - Community Policing**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Problem solving and the development of community trust are integral to community policing. The philosophy, concepts and methods in support of identifying the issues in a community that relate to crime are outlined and studied. The goal of creating healthy neighborhoods and sustaining the quality of neighborhood life are explained in detail. Crime is pervasive in American society, but victims and criminals have identified characteristics. These characteristics impact certain neighborhoods more than others. These characteristics and issues surrounding them are explored and researched.

**CJ 3060 - Corrections in the Community**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Description: An overview of community based correctional programs focusing upon the historical origin, development, and current practices in probation, parole, the halfway house, work and educational release, as well as furlough programs.
CJ 3120 - Professional Practice for the Forensic Expert

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An in-depth analysis of critical issues for forensic experts in all fields. Topics such as evidence preservation, report writing, expert testimony and ethics are investigated. The course will focus on theory and practice through lecture, writing and practical exercises.
Two-hour lecture, three-hour lab.
Pre-requisite(s): CJ 1350 or instructor approval.

CJ 3130 - Investigation of Computer Crime

Credits: (3)
Description: Deals with the threats, vulnerabilities, and risks of unauthorized system access. Understanding the modus operandi of criminal acts associated with computer crime and how to investigate them. Cryptography and network security will be closely examined.
Note: This course is not currently offered.

CJ 3270 - Theories of Crime and Delinquency

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Study of the nature, extent, causes, and treatment of crime.
Pre-requisite(s): CJ 1010.

CJ 3300 - Victimology

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: This course is designed to review key research areas in the field of victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.
Pre-requisite(s): CJ 1010.

CJ 3340 - Crime Scene Photography

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Theory and practice behind photographic documentation of crime scenes. Practice of proper documentation methodology, injury photography, evidence photography, special lighting considerations, etc.
This hybrid course is a combination of lecture, laboratory, community workshops, and individual exercises.
Pre-requisite(s): CJ 2340 and ART 2450 and instructor approval.
Pre-requisite/Co-requisite: CJ 4115 or CJ 4125.

CJ 3344 - Advanced Forensic Photography

Credits: (3)
Typically Taught Fall Semester: Full Sem Online
Course Fee: $40.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate
instruction of forensic science techniques

**Description:** This course addresses photography and imaging issues relevant to the forensic science laboratory including examination quality physical evidence imaging, alternative lighting and exposure techniques, digital camera calibration and maintenance, and courtroom presentation of image evidence.

**Pre-requisite(s):** CJ 3340.

**CJ 3350 - The American Jail**

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Spring Semester: Full Sem

**Description:** Course critically examines the American jail with particular emphasis on history, management, operations and contemporary issues.

**CJ 3360 - Prisons - Contemporary Issues and Dilemmas**

Credits: (3)
Typically Taught Spring Semester: Full Sem

**Description:** A course which focuses upon the contemporary adult prison with a particular emphasis upon current problems, issues and dilemmas. Diversity issues such as integration of the prison workforce by women and minorities as well as the problems of elderly, women, and minority inmates will be examined.

**CJ 3400 - Drugs and Crime**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** The historic, economic, social and political roles of legal and illegal drugs; their contribution to crime of many kinds, accidents, and impacts on the criminal justice system; production and distribution systems; efforts to combat; decriminalization, prevention and treatment.

**CJ 3600 - Criminal Justice Statistics**

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

**Description:** An introduction to descriptive and inferential statistics and data analysis for use in criminal justice and the social sciences.

**Pre-requisite(s):** CJ 1010 and (MATH 1030 or MATH 1040 or MATH 1050 or MATH 1080 or QL completion)

**CJ 3610 - Research Methods in Criminal Justice**

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem

**Description:** Addresses the social scientific methodology utilized in criminal justice and criminological research. The essentials of the scientific method will be studied such as research design, probability sampling, qualitative methods and the classic experimental design. The course will familiarize the student with the methods and problems of social science research as applied to the information needs of criminologists, criminal justice agencies, and criminal justice policy-makers. Students will acquire a better sense of criminology or criminal justice research and of exactly what it is that academic researchers do.

**Pre-requisite(s):** CJ 1010, or instructor approval.

**CJ 3700 - Women & Criminal Justice**
CJ 3800 - White Collar Crime

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is an advanced undergraduate course designed to provide an overview of white collar crime. The course emphasizes defining white collar crime, describing the nature of white collar crime, and applying criminological theories to explaining the perpetration of white collar crime.

CJ 3900 - Intelligence and National Security

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Exploration of the role and structure of intelligence collection and analysis in criminal justice and national security. Course focuses on skill building in the areas of critical thinking, organization and presentation of data, and problem analysis in the scope of intelligence and security driven problems.

CJ 4000 - Critical Legal Studies

Credits: (3)
Description: Critical Legal Studies comprehends the development and application of the criminal law and criminal justice institutions in the United States from a critical perspective. The course begins with a short review of slavery and race, civil rights and civil liberties, and the transformation of legal thought in America. Readings provide a perspective for how the criminal law and justice system are used to bolster the lives of the affluent classes while remaining oblivious or acting as a detriment to the lives of disadvantaged, under-represented and marginalized members of society. The course concludes with readings that provide an understanding for the meaning of justice, the role of the law in fostering a more just society, and the legal tools available to the advocate of social change to propose changes through legal reform.
Note: This course is not currently offered.

CJ 4065 - Law and Society

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores how law operates in society and how society influences the nature of the law. Topics may include the role of race in law, legal consciousness, efficacy of legal action, and the nature of the legal profession. Students may take either POLS 4065 or CJ 4065, but may not take both courses.

CJ 4110 - Physical Methods in Forensic Science

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $55.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Physical methods for evidence analysis including microscopy, pattern based physical evidence (firearms, footwear,
etc.) pattern recovery and analysis and statistical foundations for pattern comparison.  
**Pre-requisite(s):** CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

**CJ 4115 - Friction Ridge Analysis**

**Credits:** (4)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $120.00  
**Course Fee Purpose:** Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques  
**Description:** Legal and scientific methodology behind identification, analysis and comparison of finger and palm prints including computer database methodology. 3 hours lecture, 1 hour lab.  
**Pre-requisite(s):** CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

**CJ 4116 - Friction Ridge Development**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Course Fee:** $55.00  
**Course Fee Purpose:** Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques  
**Description:** Basic and applied scientific theory and practice behind the detection, development, recovery and preservation of latent finger and palm prints. 3 hours lecture, 3 hour lab.  
**Pre-requisite(s):** CJ 4115.

**CJ 4125 - Research Methods in Forensic Science**

**Credits:** (4)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $50.00  
**Course Fee Purpose:** Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques  
**Description:** Selected topics in forensic instrumentation, trace evidence, pattern evidence, biological and chemical analysis, research methods and data analysis. 3 hours lecture, 3 hour lab.  
**Pre-requisite(s):** CJ 4110, or instructor approval.

**CJ 4165 - Constitutional Rights**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course critically examines Amendments to the United States Constitution related to criminal justice issues including the 4th, 5th, 6th, 8th, and 14th amendments. It examines citizen's rights and criminal justice agent's responsibility and liability in connection with those rights.  
**Pre-requisite(s):** CJ 1010 and CJ 1330.

**CJ 4167 - State Criminal Justice Rights**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** This course examines state supreme court decisions interpreting state constitutional provisions similar to the provisions in the U.S. Bill of Rights protecting criminal defendants. Emphasis is placed on discussing state constitutional decisions with broader constitutional interpretations than recognized by the U.S. Supreme Court. This course will focus upon state constitutional provisions analogous to the rights in the Fourth, Fifth, Sixth and Eighth Amendments, and the state supreme court decisions interpreting those state constitutional provisions.  
**Pre-requisite/Co-requisite:** CJ 4165.
CJ 4200 - Ethical Issues in Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem

Description: Critically examines selected criminal justice ethical issues such as capital punishment, official corruption, use of deadly force, discretion and deception by the police.
Pre-requisite(s): CJ 1010.

CJ 4300 - History of Law Enforcement

Credits: (3)
Description: An introduction to the history of America's law enforcement organizations, stressing the development, community issues, and organizational designs. The early leaders in policing and the early crime problems in America will be discussed and studied. From slave patrols prior to the Civil War to the U.S. Marshals of the old west, police development issues will be presented.
Note: This course is not currently offered.

CJ 4400 - Sex Crimes

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course examines sex crimes in the United States through the lens of the criminal justice system. Topics may include stereotypes and realities related to perpetrators and victims of sexual violence, how various actors in the criminal justice system respond to allegations of sexual abuse, and potential solutions to the problem of sexual violence in the United States.

CJ 4700 - International Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Compares United States criminal justice system with other international systems from throughout the world, and reviews the nature and extent of international crime.
Pre-requisite(s): CJ 1010.

CJ 4710 - Race, Crime, and Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: This course is designed to provide students with an overview of the contemporary response to race and crime. It will focus on policies, procedures, practices, and agents that make up the criminal justice system in the U.S. and how all of these factors affect race, ethnicity, and justice. Additionally, this course will explore the complex relationship that exists between the criminal justice system and the social construction of race. We will be exploring the origins, nature, structure, and functions of social capital and justice from a number of different perspectives.

CJ 4810 - Experimental Course

Credits: (1-6)
Experimental
Course Fee: $120.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
CJ 4830 - Directed Readings and Special Projects

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Assigned reading or project with evaluation by faculty member. Requires approval of the Department Chair. May be repeated for up to 6 credit hours cumulative course work. Note: May not be used as an elective to complete CJ minor or A.S.

CJ 4860 INT - Criminal Justice Internship

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Volunteer experience with city, county, and state criminal justice agencies. Pre-requisite(s): CJ 1010 and two of CJ 1300, CJ 1330, or CJ 2300; or instructor approval. Students may take this course for a combined total of six (6) credit hours.

CJ 4861 INT - CSI Internship

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Volunteer experience with city, county, or state crime scene investigation units or related forensic science organizations. Students must complete a minimum level of course work, be selected by an agency, pass a background check, and have permission from the department to register for this course. Pre-requisite(s): CJ 4110 or CJ 4115; and permission from the instructor.

CJ 4900 - Current Issues in Criminal Justice

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: In-depth study of current theoretical issues in criminal justice. Specific offering will be identified by name and will be listed on student's transcript with authorized credit. May be repeated two additional times, for a total of three such classes with different titles.

CJ 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript. May be repeated for a total maximum of 6 credit hours.

CJ 4950 - Field Trips/Travel Study

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed to provide students with access to both national and international law enforcement agencies, prisons, detention centers, courts and institutions dealing with criminals and delinquents - male and female. Field trips include 2-3 weeks
of intense instruction and then 3-5 days of on-site visits, interviews, and lectures by practitioners in the field. Course may be repeated for a total of six (6) hours of criminal justice credit. Additional hours will be counted toward 120 elective hours of study. Note: May not be used as an elective to complete CJ minor or A.S.

**CJ 4995 - Criminal Justice Senior Assessment**

Credits: (1)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Program assessment for graduating seniors combined with an exploration of selected issues and dilemmas surrounding the criminal justice field. Credit/No credit.
Pre-requisite/Co-requisite: Criminal Justice major core course requirements completed (CJ 1010, 1300, 1330, 2300, 3270, 3300, 3610, 4165, and 4200) and senior standing; or department chair approval.

**CMT 1100 - Construction Management Orientation**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: This course introduces students to careers in the construction industry and is designed to help students develop a clear focus on their educational and occupational goals.

**CMT 1150 - Construction Graphics**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course covers graphical communications as they relate to the architectural, engineering, and construction industry. Includes print reading, interpretation of graphical symbols and line types, and understanding of construction terminology.

**CMT 1210 - Residential Construction Materials and Methods**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course provides students with knowledge of residential building techniques and materials. The course will examine common construction materials, components, and systems as related to wood frame structures, including sustainable materials. The residential construction process will be analyzed from site planning to finish construction.

**CMT 1220 - Construction Contracts**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the interpretation of contract documents used in the various construction delivery methods. Includes contracts, bidding documents, bonding and insurance, conditions of the contract, general requirements, and technical specifications.

**CMT 1310 - Materials & Methods**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course covers the materials and construction methods used in buildings. Emphasis is placed on sustainable construction practices.

**CMT 1330 - Civil Materials**
Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course covers the properties of concrete, asphalt, and soils. Emphasis is placed on quality control and testing of materials.

CMT 1500 - Computer Applications in Construction

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Computer applications used in the construction field will be examined. Various software packages will be introduced and studied specifically to their application in the construction industry.
Pre-requisite(s): WEB 1700.

CMT 1550 - Construction Safety

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the Occupational Safety and Health Act (OSHA) and jobsite safety procedures and practices. Emphasis will be placed on ethics as it relates to safety.

CMT 2210 - Construction Jobsite Management

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course covers the skills necessary to manage construction projects successfully. Emphasis is placed on construction communications and documentation.
Pre-requisite(s): CMT 1100 and CMT 1220.

CMT 2260 - MEP

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to provide a basic knowledge of mechanical, electrical, and plumbing (MEP) systems used in commercial buildings. Emphasis is placed on sustainable MEP systems and analyzing life-cycle costs.
Pre-requisite(s): MATH 1010 or QL.

CMT 2340 - Civil Design and Layout

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to provide a basic knowledge of road, utility, and site design. Emphasis is placed on determining grades and surveying operations necessary for layout of civil designs, including establishing locations and elevations.
Pre-requisite(s): MATH 1010 or QL.

CMT 2360 - Commercial Design and Codes

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to provide a basic knowledge of processes used to design commercial buildings. Includes the use of building information modeling (BIM) in the design process for preparing drawings and coordinating the design of the different building trades. Emphasis is placed on how zoning regulation, building codes, and sustainability are integrated into the design.
Pre-requisite(s): MATH 1010 or QL, CMT 1150, and CMT 1310.
CMT 2410 SUS - LEED-GA Preparation

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This course will help prepare students to take the LEED-GA exam.

CMT 2640 - Quantity Survey

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the processes and methods used to develop a quantity takeoff (list of required materials) for commercial construction projects. Emphasis is placed on using spreadsheets to prepare the quantity takeoff.
Pre-requisite(s): MATH 1010 or QL, CMT 1150, and CMT 1310.

CMT 2880 - Internship

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. Ethics as it relates to construction management will be discussed.

CMT 2899 - AAS Graduation Assessment and Signoff

Credits: (0)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with an AAS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

CMT 2990 - Construction Management Seminar

Credits: (0.5)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course is designed to give students the opportunity to interact with professionals from the architecture, engineering, and construction industries and to learn of emerging trends within these industries. Students may repeat this course three times and up to 2 credits.

CMT 3115 - Construction Cost Estimating

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course covers the processes and methods for preparing estimates and bids for construction projects. Emphasis is placed on the use of computers in preparing estimates. Ethics as it relates to bidding will be discussed.
Pre-requisite(s): CMT 2640.

CMT 3130 - Construction Planning & Scheduling

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course covers the processes and methods of planning and scheduling of construction projects. Emphasis is
placed on the use of computers in the planning and scheduling process.
Pre-requisite(s): CMT 2640.

CMT 3310 - Leadership in the Construction Industry

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course explores leadership as applied to the construction industry. Emphasis is placed on the importance of professional relationships.
Pre-requisite(s): CMT 2210.

CMT 3370 - Preconstruction Services

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course covers services provided by contractors during the design of projects constructed using alternative delivery methods (e.g., design-build, CM/CG). Emphasis is placed on reducing construction risks during the design process.
Pre-requisite(s): CMT 2260, CMT 2340, CMT 2360, and CMT 3115.

CMT 3510 - Energy Management in Bldg. M&E Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course covers mechanical and electrical system design, operation and maintenance principles. Includes review of types of systems and equipment, and applications for each. Covers estimating, monitoring and managing the use of energy.

CMT 3540 - Facilities Management Administration

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
Description: Practical applications of the administrative principles and skills required of a successful facility manager focusing on administration, management, and leadership of the facility function, finance and accounting, repair, alterations and maintenance, planning, programming, budgeting and execution.

CMT 3630 - Environmental Issues in FM

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Practical application of environmental practices and procedures pertinent to preservation, protection, compliance and conservation issues related to facilities management with emphasis on the regulatory and permitting process, environmental planning, auditing and assessment, recycling, indoor air quality (IAQ) and ozone level depleting substances (OLDS), Environmental Protection Agency (EPA) programs and permitting procedures, Occupational Health and Safety Act (OSHA) programs, and sustainable practices.

CMT 3660 - Energy Management

Credits: (3)
Typically Taught Spring Semester: Full Sem even years
Description: The course addresses the methodologies of estimating annual energy consumption, undertaking energy audits, and monitoring and targeting energy consumption of fossil fuels. The material covered is for building services engineering, building engineering, and environmental engineering in facilities management.
Pre-requisite(s): CMT 3510.

CMT 3680 - Facility Management Administration and Operations
CMT 4120 - Construction Accounting and Finance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course covers the fundamental principles of construction finance, accounting, and cost control.
Pre-requisite(s): ACTG 2010.

CMT 4150 - Construction Equipment and Methods

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course covers the use of equipment used on heavy/civil construction projects. Emphasis is placed on equipment selection, production rates, and unit cost.
Pre-requisite(s): CMT 3115.

CMT 4210 - Facility Planning and Layout

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: Practical aspects of facilities planning as a function of location and design with specific application to the following facilities: manufacturing and production, warehousing, and other commercial uses.

CMT 4270 - Computer Aided FM

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course covers current computer-based technologies available to the facility manager.

CMT 4310 - Long-term Planning in Facility Management

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course covers financial and physical planning activities required to meet future needs of the successful Facility Management Organization.

CMT 4330 - Applied Structures

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course covers the processes and methods used to analyze the behavior of engineered structures. Includes the application of the properties of materials and mechanics as they relate to the structural behavior of load resisting components.
Pre-requisite(s): PHYS 2010.

CMT 4350 - Temporary Structures

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course covers basic design of temporary structures. Emphasis is placed on formwork, scaffolding, dewatering, and excavation shoring.
Pre-requisite(s): CMT 1330 and CMT 4330.
CMT 4510 - Design Charrette

Credits: (1)
Typically Taught Fall Semester: 1st Blk
Description: Students will work in multi-disciplinary teams to solve real-world construction problems.
Pre-requisite(s): CMT 3115 and CMT 3130.

CMT 4520 - ASC Student Competition

Credits: (1)
Typically Taught Fall Semester: 2nd Blk
Description: Students will work in multi-disciplinary teams to solve real-world construction problems. This course requires students to participate in the ASC Region 6 Student competition.
Pre-requisite(s): CMT 3115 and CMT 3130.

CMT 4570 - Approaches to Construction Contracting

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course covers the development of a business plan for a small construction company.
Pre-requisite(s): PS 3250, CMT 2210, and CMT 4120.

CMT 4620 - Senior Project

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a construction problem.
Pre-requisite(s): PS 3250, CMT 2210, CMT 3115, CMT 3130, CMT 3370, CMT 4120, and CMT 4330.

CMT 4650 - FM Senior Project

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The application of skills, knowledge, techniques and concepts to an actual facility's management project. Emphasis on integrating the concepts taught in the facilities management classes. Students must apply for Senior Project the semester before they plan to take CMT 4650.
Pre-requisite(s): CMT 3510, CMT 3630, CMT 3680. Senior class standing required.
Pre-requisite/Co-requisite: CMT 4270, CMT 4310.

CMT 4800 - Individual Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual research or projects in Construction Management Technology. Credit and time determined by the student and faculty advisor.
Pre-requisite(s): Junior or Senior standing and consent of instructor.
May be repeated up to 9 credit hours.

CMT 4830 - Directed Studies

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem  
**Description:** The student will receive credit for approved studies in an area not covered in the CMT program. Credit and time determined by the student and faculty advisor.  
**Pre-requisite(s):** Junior or Senior standing and consent of instructor.  
May be repeated up to 9 credit hours.

**CMT 4890 - Practicum**  
**Credits:** (2)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. This course can be used to help the student satisfy the CMT program requirement of 800 hours of approved supervised work experience. Ethics as it related to construction management will be discussed.  
**Pre-requisite(s):** CMT 2880.  
May be repeated up to 9 credit hours.

**CMT 4899 - BS Graduation Assessment and Signoff**  
**Credits:** (0)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

**CMT 4920 - Short Courses, Workshops, Institutes, and Special Programs**  
**Credits:** (.5-6)  
**Workshop**  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.  
**Pre-requisite(s):** Junior or Senior standing and consent of instructor.  
May be repeated for a total maximum of 6 credit hours.

**COMM 1020 HU - Principles of Public Speaking**  
**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem, Online  
**Typically Taught Spring Semester:** Full Sem, Online  
**Course Fee:** $10.00  
**Course Fee Purpose:** Cameras, microphones and other equipment for recording speeches, classroom equipment maintenance  
**Description:** Introduces theories and principles of effective speaking with emphasis on: audience analysis and adaptation, listening, organization, content development, use of language, and extemporaneous delivery. Designed to improve the student's ability to research, organize, develop and make presentations.

**COMM 1040 - Convocations**  
**Credits:** (1)  
**Description:** Features distinguished speakers and artists in broad fields of humanities, sciences, technology, education, national and world affairs, and specialized artists in the fine arts from specialties such as music, theatre, interpretation, ballet and art.
May be repeated 5 times up to 6 credits.
Note: Course not currently being offered.

COMM 1130 - Media Writing

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: Beginning instruction in information-gathering techniques and media writing styles that inform, entertain and/or persuade. Approach recognizes that new technology is blurring the distinctions among various media and that writers must have a broad base of knowledge and skills.
Pre-requisite(s): Proficiency in word processing.

COMM 1140 - Writing for Workplace Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: This course is designed to teach communication appropriate to the workplace with an emphasis on written forms. It covers content, organization, tone, grammar and formatting across multiple contexts: presentations, professional biographies, email, executive summary, letters of commendation and complaint, press releases and business and training proposals. It uses verbal communication such as interviewing in addition to primary and secondary research to provide substance in professional communication.

COMM 1270 - Analysis of Argument

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Students will learn to analyze, evaluate, develop and refute arguments using formal argumentation methods and research based evidence. The course is designed to increase student competence and confidence in constructing, defending and critiquing a broad range of arguments found in public discourse.

COMM 1500 - Introduction to Mass Communication

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Examines mass media development and impact upon society. Considers newspapers, magazines, film, radio, TV and multimedia. The role of media in providing information, opinion, entertainment and advertising support are considered along with the social political-economic controls which affect the media.

COMM 1560 - Audio Production and Performance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: An introductory course in audio production and performance. Training in audio console operation, use of recorders
and microphones, and audio editing. Class includes basic announcing and formatting for radio stations. Course emphasizes hands-on projects.

**COMM 2010 HU - Mass Media and Society**

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

**Description:** Media literacy course which examines the non-legal, but ethical and social problems of mass media. Discusses current media issues and explores constructive steps to improve media relationships.

**COMM 2110 HU CEL - Interpersonal and Small Group Communication**

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

**Description:** Explores the dynamics of verbal and nonverbal communication in personal relationships and small groups. The emphasis is on practical application of course content to enhance interpersonal relationships and to achieve competence as group members.

**COMM 2200 - Multi-Camera Production and Performance**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00

**Course Fee Purpose:** Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations

**Description:** An introductory course in all aspects of in-studio video production. Skills include performing for video as well as the use of cameras, switching, lighting, electronic graphics and audio equipment. In-class projects emphasize directing, writing and performing for video.

**COMM 2210 INT - Intercollegiate Debate**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** Preparation and competition on the national debate resolutions and participation in individual events.

**Pre-requisite(s):** Permission of instructor.

May be repeated 7 times up to 8 credits. However, only 6 credits may be used toward the Communication major.

**COMM 2220 INT - Intercollegiate Speech**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking.

May be repeated up to 10 times for credit.

**COMM 2250 HU - Essentials of Digital Media**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: This course introduces the basic digital communication skills necessary to be successful in today's multimedia environment. Students will learn how to produce and edit audio, stills, and video. Students will also learn to upload content for presentation on the Web and will learn to use social media to disseminate information relative to your content. Concepts will first be discussed in two lecture periods, and then put into practice in a lab.

COMM 2270 - Argumentation and Debate

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An examination of the theory and practice of argumentation with emphasis on parliamentary and policy debate formats. Emphasis also placed on making claims and inferences, research and the use of evidence, cross-examination, case construction, rebuttals and style of presentation.

COMM 2400 - Social Media for Communicators

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed for students who are interested in using social media professionally and strategically. Students will apply multiple communication perspectives to make sense of social media adoption and use. Upon completing this course, students will understand the implications of social media for a variety of social issues in personal, organizational, and societal contexts.

COMM 2550 - Communication in Professional Settings

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: This class is designed to acquaint students with many of the major theories, concepts, and research findings related to the study of organizational communication and public relations. While this class will include a theoretical component, it is designed to be a more "hands on" or "practical skills" course. The information should be of practical value since individuals spend much of their lives in organizations and other professional settings.

COMM 2730 - Digital Radio Production and Broadcast

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Broadcast equipment, events, radio licensing and services.
Description: Students meet once a week for one and two-credit options, or twice a week for the three-credit option. Students work as contributors to the Weber State student streaming radio station, KWCR. Work includes detailing the tasks of station management, announcing, content generation, production, news, sales or engineering. Two hours in the studio a week are required for single-credit registrants, four hours for two-credit registrants, and four hours in-studio work as well as a final portfolio of work for three-credit registrants. May be taken up to four times for a total of four credits.

COMM 2820 - Podcast Production

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are used to buy the equipment required to produce podcasts. Replacement equipment such as auxiliary and microphone (XLR) cables and headphones are needed.

Description: This course will acquaint students with all aspects of podcasting and help them become better storytellers. Students will learn the components of podcast production including interviewing, story development, scriptwriting, interview techniques, remote and digital audio recording, editing of sound, mixing, and final production for streaming.

Pre-requisite(s): COMM 1560 or permission of instructor.

COMM 2890 - Cooperative Work Experience for The Signpost

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Newspaper lab experience at The Signpost for those who want the experience of gathering and producing news. Students will learn facets of producing a print and/or on-line publication and promoting the content on social media. Skills include news reporting and writing, advertising, design and photography. 3 credits requires instructor approval. The 3-credit option will be used for those seeking an Associate in Workplace Communication. May be taken 3 times and up to 6 credits total.

COMM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

Note: Course is offered as needed.

COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $25.00

Description: This course will introduce students to immersive, 360-degree cinematic virtual reality storytelling. It will present a foundational understanding of the conceptualization of constructing digital media content for head-mounted displays, and present theoretical and practical applications for 360VR content. It will allow the students to explore the audio and visual production process to create engaging, compelling 360VR content specifically for head-mounted displays (HMDs), including monoscopic and stereoscopic video and ambisonic audio production, stitching, and editing.

Pre-requisite(s): COMM 2250 or permission of instructor.

COMM 2999 - Capstone in Workplace Communication and Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk

Description: This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals.

Pre-requisite(s): Permission of Instructor.

Crosslisted with ENGL 2999.

COMM 3000 - Communication Theory
COMM 3050 - Conflict Management and Negotiation

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to provide students an opportunity to explore conflict management concepts in depth. Upon successful completion of this course, students will have a greater understanding of conflict across a variety of contexts, including interpersonal, organizational, group, and cultural. Students will be provided the analytical and communication tools to understand, evaluate, and respond effectively to conflicts. Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3060 - Listening and Interviewing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course covers the purpose, structure, focus, and techniques employed in effective listening and interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing in a variety of interviewing settings. This course is designed to offer students insight into improved listening and interviewing practices. The theory and research concerning the process of listening and the practice of interviewing will form the basis for students' understanding about listening and interviewing behavior. This course then applies that knowledge to the development of listening and interviewing skills.

COMM 3070 - Performance Studies

Credits: (3)
Description: Study of aesthetic texts through performance featuring the view of text or literature as communicative event and textual meaning as response in readers and audience. A primary emphasis will be placed on the relationship between performative choices and textual understanding. Pre-requisite(s): COMM 1020 or permission of instructor. Note: Check with Department for course availability.

COMM 3080 - Intercultural Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Description: Explores theoretical perspectives in intercultural communication. Through analysis of various intercultural theories, students will become aware of cultural influences on communication in both international and domestic cultures. Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3085 - Family Communication

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: No activity is more fundamental to emotional need fulfillment, overall personal satisfaction, and the maintenance of community-social systems than family communication. It is in the recursive cycle of family communication that we learn how to relate to others. This course examines current studies in family communication research and its implications. Students will add to the scholarship of family communication by completing a research project in conjunction with this course. Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3090 - Gender and Communication
Credits: (3)
Typically Taught Spring Semester: Full Sem, Online
Description: This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts.
Cross listed in WGS 3090.

COMM 3010 - Gender and Communication

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts.
Cross listed in WGS 3090.

COMM 3100 - Small Group Facilitation and Leadership

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Theories and practical communication processes are examined and applied to develop fundamental attitudes and skills for facilitating and leading effective groups.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3110 - Communication Fundamentals

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem
Typically Taught Spring Semester: Full Sem
Description: Basic principles of communication theory and practice are examined. Emphasis is placed on understanding and applying management skills in communication, along with the role of communication in decision making and problem solving.
Pre-requisite(s): COMM 1020 or permission of instructor.

COMM 3120 - Advanced Public Speaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Enhanced speaking skills across a range of situations such as the professional workplace and via social media. Increase understanding of audience, publics, and the overall definition of "speaking" as a result of our ever-changing society.
Pre-requisite(s): COMM 1020 or permission of instructor.

COMM 3130 - News Reporting and Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: Develops journalism skills relevant to newspapers and online news services. Emphasizes news gathering, interviewing and news writing.
Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3140 - Communication Research Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for research purposes
Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3150 - Communication Research Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for research purposes
Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3160 - Communication Research Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for research purposes
Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3170 - Communication Research Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for research purposes
Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3180 - Communication Research Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintaining computer lab for research purposes
Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.
Pre-requisite(s): COMM 2110 or permission of instructor.
repairing a/v equipment and computer editing stations

**Description:** Students will learn to operate field video cameras, switchers, instant-replay and other equipment while experiencing the pressures of live-sports production. Students will be part of a crew supplying the visuals for Weber State's football and basketball scoreboards. The crew will also provide visuals necessary to fulfill production commitments. May be repeated up to 12 times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

**COMM 3220 - Editing**

**Credits:** (3)

**Typically Taught Fall Semester:** Online

**Description:** Develops editing knowledge and skills for print and online publications. Covers copy editing, content editing and page editing.

**Pre-requisite(s):** COMM 1130 or permission of instructor.

**COMM 3230 - Health Communication**

**Credits:** (3)

**Description:** A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments.

Cross-listed with HAS 3230.

Note: Check with Department for course availability.

**COMM 3350 - Visual Communication**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintaining computer labs for design course.

**Description:** Visual messages have great power to inform, educate and persuade. In all fields of communication, visual presentation of the message helps determine the success of the message. This course is designed to help students become effective and ethical visual communicators on the page or the screen. In addition to creating design projects, students will learn how to critically analyze visual designs and to understand major visual communication theories.

**Pre-requisite(s):** COMM 1130.

**COMM 3400 - Introduction to Public Relations**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Philosophy and practice of public relations in business, government, education and non-profit organizations. Case studies will be selected from a wide range of actual public relations concerns to foster decision-making skills and a mature understanding of public relations management.

**COMM 3440 - Public Relations Writing**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintaining computer lab for writing course

**Description:** Explores principles and practices of a variety of public relations writing formats ranging from news releases to
websites.

Pre-requisite(s): COMM 3400 or permission of instructor.

**COMM 3460 - Public Relations and Social Media**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: This course will combine theory and practice in teaching the principles of the new "Social Media" or "PR 2.0." Students will learn how new web technologies have expanded the practice of Public Relations beyond the traditional arena and into the fast-moving and dynamic world of public communication on the web. They will learn how to communicate with the news media and directly with the public. The course will prepare them to use the newest technology and practices effectively as they represent their companies and their clients.

**COMM 3550 - Organizational Communication**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Study of communication in organizations from various theoretical perspectives with an emphasis on the organizational culture perspective. Includes topics such as communicating with external audiences, decision-making, conflict resolution, and power relationships.

Pre-requisite(s): COMM 2110 or permission of instructor.

**COMM 3650 - Communication Law**

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: First Amendment origins, interpretations and philosophy underlying regulation of the mass media.

Pre-requisite(s): COMM 3000 or permission of instructor.

**COMM 3730 - Media Programming and Audiences**

Credits: (3)

Description: This course focuses on principles, strategies and approaches for creating and scheduling content for radio, television and the World Wide Web. The course also provides an analytical framework for understanding industry trends in media programming, and how those trends are influenced by audience research. Students create and schedule programs, apply programming strategies and philosophies, and learn relevant terminology and audience measurement techniques.

Pre-requisite(s): Permission of instructor.

Note: Check with Department for course availability.

**COMM 3740 - Writing for Screen**

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $30.00
Course Fee Purpose: Maintaining computer labs for writing course

Description: Specialized concepts and techniques required to write effectively for film, television, and other new media technologies.

**COMM 3750 - Advanced Cinematography and Editing**

Credits: (3)

Typically Taught Fall Semester: Full Sem
Description: Capstone course for audio and video production. Emphasis is placed on combining production types to produce longer and more complex programs.
Pre-requisite(s): COMM 2250.

COMM 3751 - Narrative Digital Filmmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintaining and repairing a/v equipment and computer editing stations
Description: On-location video production and performance. Skills include screenwriting, directing, producing, use of field cameras and post-production.
Pre-requisite(s): COMM 2250 or FILM 2280.

COMM 3780 - Broadcast News Writing and Production

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: Classroom instruction and practical experience in writing, reporting, performing, producing, and editing for television news. Students will produce newscasts for a local cable channel.
Pre-requisite(s): COMM 1130 and COMM 2250, or permission of instructor.

COMM 3820 - Persuasive Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Study of theories and principles of persuasion from classical to modern times. Examines persuasion as a means of influence in interpersonal communication, public speaking, public relations, advertising, politics, and other contexts.
Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3840 - Data Visualization and Storytelling

Credits: (3)
Description: Students taking this course will study the fundamentals of compelling data-driven storytelling. Students will learn how to detect and articulate the stories behind datasets and communicate data findings in visual, oral, and written contexts for various audiences and the public. Students will become familiar with associated tools.

COMM 3850 - Advertising

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A practical and theoretical study of advertising. Course is designed for students planning careers in advertising, as well as for those who are simply lifelong consumers of advertising and want to understand its role in the economic system.

COMM 3880 - Audience Analysis

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Students will focus on consumer behavior, data analysis, and media audience research in this course. Students will learn how to identify trends and patterns in media audience and translate data into stories to help companies make better decisions.
Pre-requisite(s): COMM 3150.
COMM 3890 INT - Advanced Cooperative Work Experience with Signpost

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00

Course Fee Purpose: Events with professional journalists and other activities, maintenance and updating of computers in work room

Description: Open to students who are Signpost editors and managers.

Pre-requisite(s): COMM 1130 or COMM 2890.

May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3891 INT - Advanced Cooperative Work Experience with KWCR

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00

Course Fee Purpose: Events with radio professionals and other activities, equipment replacement and upgrades

Description: Open to students who are KWCR senior staff.

Pre-requisite(s): COMM 2730 or permission of instructor.

May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00

Course Fee Purpose: Events with PR professionals, printed materials and other activities, maintenance and updating of computers in work room

Description: COMM3892 Advanced Cooperative Work Experience with Public Relations is a nontraditional, CEL-designated course that functions as Ogden Peak Communications, Weber State's student-run public relations firm. Modeling the leadership and management roles of a real-world firm, students provide public relations services to community and campus partners.

Pre-requisite(s): COMM 3400 and permission of instructor.

May be repeated six times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00

Course Fee Purpose: Events with TV and film professionals and other activities, maintenance and updating of camera and editing equipment

Description: Open to students who are members of Weber State News' crew or staff and/or crew members of other student produced television programs.

Pre-requisite(s): COMM 2250 or permission of instructor.

May be repeated six times for a maximum of 12 credit hours.
Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 4130 - In-depth and Investigative Journalism

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $30.00
Course Fee Purpose: Maintaining and updating of computer labs for writing and research
Description: Emphasizes finding and writing news stories that move from explanations of what happened to how and why something happened. Examines research techniques and discusses ways to use the law to access information.
Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 4150 - Rhetorical Theory and Criticism

Credits: (3)
Description: Studies the origins of rhetorical theory in Greece and Rome in the works of Corax, Isocrates, Plato, Protagoras, Aristotle, Cicero and Quintilian. Tensions between rhetoric and philosophy. Study and application of neo-classical standards of rhetorical criticism.
Pre-requisite(s): COMM 3820.
Note: Check with Department for course availability.

COMM 4160 - Contemporary Rhetorical and Communication Theories

Credits: (3)
Description: Study of contemporary rhetorical and communication theories.
Pre-requisite(s): COMM 3000 and COMM 4150 or permission of instructor.
Note: Check with Department for course availability.

COMM 4210 INT - Intercollegiate Debate

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation and competition on the national debate resolutions and participation in individual events.
Pre-requisite(s): COMM 2270 or permission of instructor.
May be repeated 7 times up to 8 credit hours. However, only 6 credits may be used toward the Communication major.

COMM 4220 INT - Advanced Intercollegiate Speech

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking. This is designed as an advanced course for students in their third or fourth years participating in intercollegiate speech.
Up to 10 times for credit.

COMM 4400 INT - Public Relations Media and Campaigns

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Apply communication principles to internal and external publics; research, plan and evaluate social interrelationships; study of the controlled and uncontrolled media and their role in public relations; prepare a major public
relations campaign for a selected client.

**Pre-requisite(s):** COMM 3150 and COMM 3440, or permission of instructor.

### COMM 4440 - Developing and Evaluating Health Communication Campaigns

**Credits:** (3)

**Description:** This course prepares students to understand the planning, implementation, and refinement of communication campaigns that affect individual and group level behavior changes in relation to health care issues. It will thus address public health problems. Throughout the semester, students study, practice, and apply the various stages of a health communication campaign based on real world conditions. The course content will draw from health behavior theory; formative (including pretesting); process, impact, and outcome research; and expert opinion.

**Pre-requisite(s):** COMM 3400 or permission of instructor.

*Note: Check with Department for course availability.*

### COMM 4500 - Topics in Communication

**Credits:** (3)

**Variable Title**

**Description:** The study and application of Communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in contemporary journalism, electronic mediated communication, human communication studies, and public relations in a seminar format.

**Pre-requisite(s):** COMM 3000 or permission of instructor.

*May be taken 2 times up to 6 credit hours with different designations.*

*Note: Course is offered as needed.*

### COMM 4740 - Advanced Writing for Screen and Television

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Maintaining computer labs for writing course

**Description:** This class is a workshop for students who have a screenplay in progress (Act 1 Complete) and ready to workshop pages and complete Act 2 and Act 3 (90 to 110 pages). Students will develop the ability to analyze the various elements of a feature film, including concept, character arc, dialogue, and plot devices such as suspense, surprise, dramatic irony, planting and payoff.

**Pre-requisite(s):** COMM 3740.

### COMM 4751 - Advanced Narrative Digital Filmmaking

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Maintenance and updating of camera and editing equipment

**Description:** This class is designed to teach advanced concepts, theories and skills in digital narrative film production. Students develop these skills through group production, individual performance, and repetition of production tasks and procedures from pre-production, production, to post-production.

**Pre-requisite(s):** COMM 3751.

### COMM 4760 - Media Management and Distribution

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $15.00

**Course Fee Purpose:** Maintenance and updating of camera and editing equipment

**Description:** Analysis of complex systems necessary to manage media companies. Students will develop a website and a distribution plan for a new media company.
COMM 4770 - Digital Documentary Filmmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance and updating of camera and editing equipment
Description: This course will provide an introduction to the fundamental theory and craft of non-fictional visual storytelling and familiarize students with concepts such as drama, structure, story development and visual style. Throughout the semester, students will screen and analyze various filmmaking techniques used by documentary filmmakers. Students will develop and create a short documentary from conceptualization through post production.
Pre-requisite(s): COMM 2250.

COMM 4800 - Special Study and Individual Projects

Credits: (1-3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Work with an assigned faculty member on a project of special interest.
Pre-requisite(s): COMM 3000 and permission of instructor.
May be taken 3 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.

COMM 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School

Credits: (3)
Description: Prepares students to be teachers of journalism and advisors of student media in secondary schools. Designed to confront problems involved in organizing a staff, gathering material and publishing a newspaper, yearbook and literary magazine.
Pre-requisite(s): COMM 3000 or permission of instructor.
Note: This course is offered through Independent Study only.

COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Methods and techniques for teaching speech communication in secondary schools. Techniques and practices for coaching and supervising high school speech activities such as individual events, legislative forum, and debate.
Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 4860 - Communication Co-curricular Leadership

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to teach leadership and management skills to students who have taken on leadership roles within the Communication Department co-curriculars: WSU Debate, The Signpost, KWCR, Studio 76 and Ogden Peak Communications. With instructor permission, student leaders take this class in lieu of the co-curricular course during the semester of enrollment and are expected to fulfill their co-curricular responsibilities as well as participate in monthly leadership
seminars and one-on-one mentoring sessions with their advisers.

Pre-requisite(s): Permission of instructor AND COMM 3890, COMM 3891, COMM 3892, COMM 3893 OR COMM 2210.
May be repeated up to 6 credit hours.

COMM 4880 - Social Media Metrics and Measurement

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course introduces social media analytics with the emphasis on metrics and measurement. The course aims to help students understand how to obtain, monitor, and evaluate digital traces on the online social platforms in a systematic way. The knowledge and skills learned in this course will help students use a data-driven approach to resolve future industry problems.
Pre-requisite(s): COMM 2400 and COMM 3150.

COMM 4890 INT - Communication Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An opportunity for students to receive academic credit for faculty approved on-the job learning experiences within certain communication areas of emphasis.
Pre-requisite(s): COMM 1130 or COMM 1140 and COMM 3000.
May be repeated for 5 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.
Note: Credit/No credit only.

COMM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course is offered as needed.

COMM 4990 - Senior Seminar

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A capstone course that prepares students to do a senior project and a portfolio to be used in job interviews or application to graduate school.
Pre-requisite(s): Communication major, COMM 3000 and COMM 3150.

CS 1010 CA - Introduction to Interactive Entertainment

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course examines and analyzes the history, philosophy, and impact of digital entertainment (video and computer games along with simulations) on an individual and society. Students take a critical look at the artistic, but also the cultural, economic and social aspects of this expressive medium. Students imagine and articulate their own ideas and work
through a series of projects helping them understand the creative challenges behind interactive entertainment design. Implications of certain values embedded in games will be discussed. Elements of the ethical code of conduct for a game creator will be formulated. The issue of balancing individual creativity vs. socio-cultural impact will also be discussed. Students will be required to play video games outside of the regularly scheduled class times. A lab fee is required for this class.

**CS 1022 - Software Development**

**Credits:** (4)
**Course Fee:** $30.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
**Description:** Application of the most recent implementation of a selected programming language to the solution of technical and scientific problems.
**Prerequisite(s):** CS 1030 and basic skills in Algebra.

**CS 1023 - Selected Programming Language**

**Credits:** (4)
**Course Fee:** $30.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
**Description:** Introduction and application of the most recent implementation of a selected programming language to the solution of technical and scientific problems. The language for a particular instance of this course will be based upon demand.
**Prerequisite(s):** CS 1030 and basic skills in Algebra.

**CS 1030 - Foundations of Computing**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
**Description:** Computers are an essential part of every occupation. Having a basic understanding of computers will help students become more confident users. This course is taught at an introductory level and presents a broad overview of topics in computing such as personal digital security, ethical behaviors in education and business, how computers work and communicate with one another, how data is stored and used in a computer, and how to create a website and write a computer program.

**CS 1400 - Programming I**

**Credits:** (4)
**Variable Title**
**Typically Taught Summer Semester:** Full Sem, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
**Description:** Most technology, such as airplanes, laptops, smartphones, and appliances, depends on computer programming to function. This course introduces students to computer programming using a modern programming language. Designed for students with little or no programming experience, it covers topics including logical problem solving, basic input/output, conditionals, loops, functions, arrays, classes, utilizing language libraries, development environments, and program debugging.
Students will gain a basic understanding of how to create software for all computing environments.

Pre-requisite/Co-requisite: CS 1030 or NET 1300.

**CS 1410 - Object-Oriented Programming**

Credits: (4)

Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An introduction to the C++ language. Topics will include data types, control structures, functions, pointers, arrays, I/O streams, classes, objects, encapsulation, overloading, inheritance and use of these concepts in problem solving.

Pre-requisite(s): CS 1400 or CS 2250 and ENGL 1010 or ENGL 1010.

**CS 2130 - Computational Structures**

Credits: (4)

Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include sets, functions, logic, matrices, relations, graphs, trees, regular expressions, grammars, finite state machines, and data encoding.

Pre-requisite(s): CS 1400.

**CS 2140 - Computer Systems Administration**

Credits: (4)

Description: An introduction to managing computer operating systems. Covers installation of the operating system, network, and application software. The course will cover the UNIX operating system. Topics include working with disk drives, allocation of resources, security, administering user accounts, monitoring system performance, tuning concepts, remote mounting of file systems, and setting up systems on networks.

Pre-requisite(s): CS 1400.

Note: Course not currently being offered.

**CS 2250 - Structured Computing in a Selected Language**

Credits: (4)

Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to structured problem solving using objects, data enumeration and encapsulation in a selected language. The language for a particular instance of this course will be based upon demand.

Pre-requisite(s): Basic skills in fundamental Algebra.

**CS 2335 - Introduction to User Experience Design for Web & Mobile**
Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course is designed to introduce students to the elements of user experience design for the web and mobile. The following topics will be covered: history of user experience, user centric design, agile development, user interface best practices for web and mobile applications, and analytics. Using current technologies and tools, students will create a basic web or mobile application.

**CS 2350 - Client Side Web Development**

Credits: (4)
**Typically Taught Summer Semester:** Online
**Typically Taught Fall Semester:** Full Sem, Online
**Typically Taught Spring Semester:** Full Sem, Online
**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course provides an introduction to client-side programming and Web page development. Subjects covered include responsive Web page design and dynamic Web page development. The course will explore various technologies such as HTML5, CSS3, JavaScript client-side programming, and an introduction to a JavaScript framework.

**Pre-requisite(s):** CS 1400.

**CS 2400 - Project Management**

Credits: (3)
**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Strategies and techniques for managing a project from inception to completion to meet all schedule, cost, and technical objectives. Knowledge and skills learned in this course prepare students to perform successfully the role of a project manager in any construction, engineering, health, information technology, business, or research and development project, although emphasis will be on project management applied to Software Engineering. Topics include organizational structures, project planning and evaluation, cost estimating, quantitative methods in schedule and cost management, project information systems, communication skills, and conflict resolution.

**CS 2420 - Introduction to Data Structures and Algorithms**

Credits: (4)
**Typically Taught Summer Semester:** Full Sem, Full Sem-Online
**Typically Taught Fall Semester:** Full Sem, Full Sem-Online
**Typically Taught Spring Semester:** Full Sem, Full-Sem-Online
**Course Fee:** $45.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** General principles of common data structures and design of efficient algorithms. Topics include: arrays, linked-lists, stacks, queues, trees, graphs, tables, storage and retrieval structures, searching, sorting, hashing, and algorithmic analysis. Emphasis will be on abstraction, efficiency, re-usable code, and object-oriented implementation.

**Pre-requisite(s):** CS 1410.
**Pre-requisite/Co-requisite:** MATH 1080 or MATH 1050 and MATH 1060.

**CS 2450 - Software Engineering I**
CS 2550 - Introduction to Database Design and SQL

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is an introduction to databases, specifically focusing on the relational database model, database design and modeling and the structured query language (SQL). Students will become proficient at formulating data query requests using SQL and will also gain experience in database normalization and entity-relationship modeling.

CS 2630 - Client Side Frameworks

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An introduction to current technologies of modern responsive web design techniques, combining CSS3 and Bootstrap with the popular Angular.js, jQuery and jQuery Mobile utility frameworks, to create rich web sites that adapt to a wide range of client devices. Cross listed with WEB 2630.
Pre-requisite(s): CS 2350.

CS 2705 - Network Fundamentals and Design

Credits: (4)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Provide an understanding of the basic networking terminology. This will cover the theory of networking, types of network protocols, and wide and local area networks. The student should have a good understanding of network terminology at the completion of the course.
Pre-requisite(s): CS 1030 and CS 1400.

CS 2780 - Windows Application Programming
Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides participants with a working knowledge of the Windows Operating System. The students will develop applications to run under Windows, using the C/C++ languages. Concepts of Memory Management, DLLs, Resources, and Child Window development will be emphasized. The course also introduces the student to the use of OLE controls and MFC architecture.
Pre-requisite(s): CS 1410 and basic algebra skills.
Note: Course not currently being offered.

CS 2800 - Individual Projects & Research

Credits: (1–4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.
Pre-requisite(s): CS 1410.
May be repeated 3 times up to 6 credits.
Note: Note: Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 2810 - Computer Architecture/Organization

Credits: (4)
Typically Taught Summer Semester: Full Sem-Online
Typically Taught Fall Semester: Full Sem, Full Sem-Online
Typically Taught Spring Semester: Full Sem, Full Sem-Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Computers are essential to modern life, yet most people use them with no understanding of how they accomplish everything they do. This course will explore how computers function from a technical perspective, allowing students to see why they work and are designed the way they are. The course will focus on Von Neumann computers, covering a variety of topics including logic gates, basic digital circuit concepts, number and data representation, the processor implementation, BIOS, buses, interrupts, addressing, memory management, and storage. The practical implementation of this knowledge will be examined by introducing assembly language code.
Pre-requisite(s): CS 1410 or (CS 1400 and (NET 2210 or NET 3200).

CS 2890 INT - Cooperative Work Experience

Credits: (1–4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.
Pre-requisite(s): CS 1410.
May be repeated 3 times up to 6 credits.
Note: Note: Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a
maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

**CS 2899 - Associate Degree Assessment**

**Credits:** (0)
**Description:** This course is to serve as an assessment tool whereby all AAS degree seeking students in the Department of Computer Science demonstrate core knowledge acquired from course studies in the discipline as specified in the AAS degree program. May be repeated 11 times.

**CS 2920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)
**Workshop**
**Typically Taught Summer Semester:** Full Sem
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**CS 3030 - Scripting Languages**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
**Description:** This course addresses the design of scripting languages and their applications. Scripting languages can be used to manipulate text and data using subtle and complex coding to automate many tasks. Students will learn to write simple scripts to automate system administration tasks using appropriate languages. This course explores the nature of scripting, the role of scripting languages, introduces some of the popular scripting languages and their applications, and provides skills in scripting language design.
**Pre-requisite(s):** CS 1400 and CS 2705 or CS 1400 and NET 2210.

**CS 3040 - Windows/Unix/Linux Infrastructure and Administration**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
**Description:** This is the second course for understanding Windows operating systems and the first in the Unix/Linux operating system. It includes administration in a client/server directory services environment. Taught in a networking setting, it builds upon complex issues learned in previous courses. Provides the knowledge and skills necessary to install, configure, network and administer both operating systems.
**Pre-requisite(s):** CS 2705.

**CS 3050 - Enterprise Computing**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $40.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors,
and online instructional resources.

**Description:** This course provides an integrated view of using enterprise computing systems. An overview on enterprise hardware concepts, enterprise operating systems concepts, and interactive facilities is covered. Batch applications will be developed, edited, compiled, linked, executed and debugged in enterprise operating systems environments. An introduction to emerging technologies in enterprise computing will be presented. Access to the latest enterprise systems, hands-on exercises, and online support materials are important components of this course.

**Pre-requisite(s):** CS 2420 and CS 2810.

---

**CS 3100 - Operating Systems**

**Credits:** (4)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** An overview of computer operating system from the programmer's point of view. Input-output hardware, interrupt handling, properties of external storage devices, associative memories and virtual address translation techniques, optimizing programs for performance, concurrent programming with threads, and network programming.

**Pre-requisite(s):** CS 2420 and CS 2810.

---

**CS 3210 - UNIX System Programming and Internals**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course provides hands-on experience with writing programs using UNIX system calls and inter-process Communication mechanisms, from simple file I/O and I/O management subsystems to network client and server programs. The internal design and operation of the UNIX operating systems are studied. A detailed examination of the UNIX SVR4 source code will be included in the course.

**Pre-requisite(s):** CS 2420.

---

**CS 3230 - Object Oriented User Interface Development with Java**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** An intermediate programming course that covers the "core" features of the Java programming language with the goal of preparing students to focus on specialized uses of Java. Topics include object-oriented programming and polymorphism, graphics, event handling, building graphical user interfaces with Swing, multithreading and synchronization, and error handling.

**Pre-requisite(s):** CS 2420.

---

**CS 3250 - Advanced Object Oriented Programming**

**Credits:** (4)

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Develop and expand abilities in solving lengthy, advanced problems, multiple parallel tasks, generic packages, and other object-oriented techniques using selected languages.
Pre-requisite(s): CS 2420.

CS 3260 - Mobile Development for the iPhone

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course addresses the development of applications for mobile iOS devices, specifically the iPhone using Xcode and associated tools. Students will learn the basics of the Swift programming language and use it to create applications for the iPhone family of products.
Pre-requisite(s): CS 1410, CS 2350 and CS 2550.

CS 3270 - Mobile Development for Android

Credits: (4)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Mobile devices have become an essential part of many people's lives. This course will explore the development of applications using the Android SDK and modern Android development tools while applying industry best practices. Students will develop multiple apps from start to finish, and will be prepared to develop applications on their own.
Pre-requisite(s): CS 2350, CS 2550 and CS 3230.

CS 3280 - Object Oriented Windows Application Development

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is designed to teach students how to write Windows programs in C# using the .NET environment. The student will learn how to develop programs based on Windows Applications and the .NET Framework. They will also be introduced to APIs and MFC/AFX styles of Windows programming and to become familiar with various data sharing methods and .NET services.
Pre-requisite(s): CS 2420.

CS 3540 - Database Administration

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course describes the role of the Database Administrator in managing an organization's most valuable asset - its data. Topics covered include DBMS architecture, database layout, database development, data fragmentation, rollback segments, database tuning, database security, backup and recovery, database networking, and distributed databases. Special emphasis is
given to working with current database management systems such as Oracle, SQL Server and DB2.  
Pre-requisite(s): CS 2550.

**CS 3550 - Advanced Database Programming**

**Credits:** (4)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.  
**Description:** Students will build upon the basic database knowledge and skills gained in the introductory database course. Advanced database knowledge will be gained through the design and implementation of an enterprise-level database. Students will perform database programming techniques such as stored procedures, user-defined functions, cursors, triggers, and distributed queries. Various database paradigms will be used in the course including RDBMS and NoSQL.  
**Pre-requisite(s):** CS 2550 AND (CS 1410 OR CS 3030 OR WEB 3200).

**CS 3580 - Data Science Algorithms**

**Credits:** (4)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.  
**Description:** This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.  
**Pre-requisite(s):** ((CS 1400 and CS 2550) or CS 2420) and (MATH 1040 or MATH 1120 or MATH 3410 or QUAN 2600) and (at least 60 hours of completed credits).

**CS 3610 - Introduction to Game Industry**

**Credits:** (4)  
**Typically Taught Summer Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.  
**Description:** This is course is an introduction to the game industry and the skills and best practices needed in order to become a game developer. The course will evaluate different gaming hardware, genre, skills, tools, and roles. Students will also understand the elements in creating a game including the game design document, story line, vision, virtual worlds, playfields, and the mathematics and physics that are involved with game development.  
**Pre-requisite(s):** CS 1400.

**CS 3620 - Server-Side Web Architecture**

**Credits:** (4)  
**Course Fee:** $55.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.  
**Description:** An introduction to server-side web architectures using current server-side technologies. General web development principles such as usability, reliability, maintainability, security, and scalability will be taught. Students will also learn how to architect and apply server-side technology to create both dynamic websites, and API's at scale using industry best practices.  
**Pre-requisite(s):** CS 2350 and CS 2550.
CS 3630 - Rich Internet Application Development

Credits: (4)
Course Fee: $55.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An introduction to developing and deploying rich Internet applications (RIAs) using current technologies. Students will develop engaging websites by incorporating RIAs in the web application development process.
Pre-requisite(s): CS 2350 and CS 2550.

CS 3645 - Advanced User Interface Design

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Students will learn the elements of user interface design as it applies to front-end web development and software engineering. Students will identify best practices in user interface design. The following topics will be covered: wire-framing, color palettes, typography, information architecture, contrast, uniformity, and responsive design techniques. Using current technologies and tools, students will wireframe, design, and program effective interfaces.
Pre-requisite(s): WEB 2500 or CS 2335, WEB 1400 or CS 1400, or permission of instructor.

CS 3650 - Human-Computer Interaction

Credits: (4)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course introduces the skills and concepts of Human-Computer Interaction (HCI) that enable students to design systems that effectively meet human needs. A concrete illustration of the practice of HCI, this course covers usability, user experience, and modern diverse interfaces. This course includes both theoretical and practical best practices.
Pre-requisite(s): CS 2420, CS 2450 or WEB 3500.
Cross-listed with WEB 3650.

CS 3705 - Protocol Analysis

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $70.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides an in depth look at the fundamentals of what protocols do and how they work, how addresses and routing are used to move data through the network, and how information is exchanged over the Internet. In depth analysis of network traffic packets will include normal traffic as well as protocol attack patterns. Topics include: DNS, Apache, email, Samba, PPP, DHCP, TCP, IP, and UDP troubleshooting, and security.
Pre-requisite(s): CS 2705 or NET 2435.

CS 3720 - Network Architectures and Protocols

Credits: (4)
Course Fee: $55.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including
Description: A practical applications course designed to teach the basic concepts associated with local and wide area networks and protocols. The course will concentrate on the TCP/IP and other protocols in the UNIX and Windows NT environments. Covers TCP/IP extensively, NFS, Sockets, RPC and TLI interfaces. The course also covers the use of Domain Name Servers, remote system calls, ports, services, configuration, IP addressing, and UNIX and Windows NT monitoring commands. Pre-requisite(s): CS 3705.
Note: Course not currently being offered.

CS 3730 - Client/Server Network Programming

Credits: (4)
Course Fee: $55.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Covers client/server architecture and application development using TCP/IP and other protocols. The course covers client/server operations on a single machine and across an Ethernet network to multiple machines. The course will also cover distributed processing concepts and applications. Applications include the use of STREAMS, Sockets, TLI, network listener facility, drivers, RPC, and ONC. The course will concentrate mainly on UNIX but will cover some concepts and applications using Windows NT. Pre-requisite(s): CS 2705 and CS 3210.
Note: Course not currently being offered.

CS 3750 - Software Engineering II

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: (Community Engaged Learning Designation) This course emphasizes teamwork in small groups on a substantial software engineering project that will be performed for a real customer in the community. It is the intent of the course to provide a capstone experience that integrates the material contained in the CS curriculum through work on a software project that applies this material. Projects are chosen so as to provide an interdisciplinary service learning component with project proposals being solicited from the community at large. Projects that integrate students and faculty from other disciplines are also encouraged. Lectures will be directed towards the software development lifecycle, requirements gathering and design documentation, as well as software project management. Each team member will contribute to all phases of the project as well as the development of a project prototype. Pre-requisite(s): CS 2350, CS 2450, CS 2899, CS 3550, CS 3230 or CS 3280, and ENGL 3100 or ENGL 2250 or PHIL 1250 or PS 3250.

CS 3805 - Computer and Network Security

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is designed to provide students with a solid foundation in network security including a treatment of security issues related to computers and computer networking. The primary emphasis is on developing security policies, security auditing, security models and laws related to security. Pre-requisite(s): CS 2705 and CS 2420.
CS 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CS 3830 - Writing Secure Code

Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course focuses on how to develop software systems that are robust and can withstand repeated attacks from malicious intruders. The course coverage includes the need for secure systems, basic security principles and strategies, designing secure applications, secure coding techniques, dangerous APIs, data input issues, network security problems, testing secure applications, security code reviews, secure software installation, and writing security documentation.
Pre-requisite(s): CS 2420.

CS 3840 - Computer Forensics for Security Assurance

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is a foundational course in file system analysis, digital forensics and computer media analysis. A combination of lectures and labs will give students a strong understanding of low-level file system knowledge to prepare them for involvement in digital forensic analysis, data recovery and other related tasks. Students will examine widely used file systems such as Windows NTFS and FAT32, UFS, EXT2 and UFS2. Students will also become familiar with software tools used in computer forensic work.
Pre-requisite(s): CS 2420.

CS 4110 - Concepts of Formal Languages and Algorithms for Computing

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Concepts of formal language definition, automata theory, Turing theory, and solvability, with an introduction of algorithms and computational methods used in advanced computer science courses.
Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4230 - Java Application Development

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $55.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is a continuation of CS 3230 and examines the development of Java applications intended for an enterprise environment. The course is programming intensive and concentrates on designing and implementing multi-tier and Web applications based on the Java Enterprise Edition (Java EE) specification. Topics include JavaBeans, Java Database Connectivity, client/server interactions, servlets, session tracking, JavaServer Pages, JavaServer Faces, Struts, the Model-View-Controller approach, remote method invocation, Enterprise JavaBeans, and application servers. Lab exercises will emphasize how Java Enterprise programming supports the operation of robust, distributed object architectures.

Pre-requisite(s): CS 3230, CS 3750.

CS 4250 - Design Patterns

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Introduction to fundamental principles of software development using design patterns, including structural design patterns, behavioral design patterns, SOLID principles, and agile approach; Understand and program the basic concepts and techniques for building software in an adaptive way, including dependencies and layering, interfaces, unit testing, and refactoring.
Pre-requisite(s): CS 3230 or CS 3280.

CS 4280 - Computer Graphics

Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course introduces and investigates the mathematical and programming basis for generating pictures and images using a computer. Fields impacted by visual rendering technologies include filmmaking, publishing, banking, engineering, and education. Students are introduced to the theory and practice of computer graphics, with an emphasis on designing and developing working applications using currently available graphics libraries. The course focuses on strategies for rendering geometric data (points, lines, and polygons), and the analysis of the processing stages and components of the graphics pipeline, including transformations, viewing volumes, and projections. Programming and mathematical techniques related to modeling, viewing, coordinate frames, and perspective will be primary topics for discussion and code development. The course covers the key processing steps and structures needed to appropriately map 3D geometric primitives to 2D screen positions while maintaining a realistic look, which involves hidden surface removal, proper lighting, and simulated material properties.
Pre-requisite(s): CS 2420.

CS 4350 - Advanced Internet Programming

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Capstone client/server web programming group project implemented using an advanced web framework (such as PHP (Laravel, Zend, Cake PHP) or Django, or Ruby on Rails). Includes implementation and concepts of an MVC web architecture, Web UI design and creation, data modeling and retrieval, input validation, security, and unit testing.
Pre-requisite(s): WEB 3620 or CS 3620.

CS 4450 - Advanced Software Engineering Methods

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides a capstone project experience for students interested in software engineering. While previous courses in the Computer Science curriculum provide students with the knowledge and skills necessary to begin a career as a software engineer, the end-to-end design and implementation experience offered in this course, done as part of a team, and addressing an open ended problem (as well as an open ended solution), comes much closer to the experience that software engineering professionals encounter in the workplace. The emphasis on documentation and presentation of designs and results is also valuable career preparation, and forces students to take ownership of their designs and systems as they present them to others.
Pre-requisite(s): CS 3750.

**CS 4500 - Introduction to Artificial Intelligence**

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course covers basic artificial intelligence principles from the perspective of implementing intelligent agents through software. Students will write intelligent software agents to solve a variety of problems from different application domains. Topics include search, search heuristics, adversarial search, constraint satisfaction problems, knowledge and reasoning, planning, and knowledge representation.
Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

**CS 4640 - Foundations of Game Development**

Credits: (4)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course introduces students to 2D game development using a programming language, scripting, and a gaming engine. The work includes team work project, graphical programming, GUI, and all other aspects of creating a game program associated with a game design document.
Pre-requisite(s): CS 1010 and CS 3280.

**CS 4650 - Advanced Game Development**

Credits: (4)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is a continuation of CS 4640 and covers intermediate to advanced level 3D game development using a commercial gaming engine authoring tool like Unity or Unreal. Students work in small teams and reference a game design document (which they've previously created themselves or which is selected from previously approved CS 1010 course documents) to program and fully develop a "medium-scoped" 3D video game. The game will be delivered over several iterations throughout the semester, each requiring peer review and play-test feedback. This course emphasizes several aspects of 3D game development, including but not limited to level, character, environment and world construction, scripting, 3D modeling and asset creation, user interface, scene transitions and cinematics, rudimentary AI, physics, graphical post-processing, as well as solid gameplay principles, core mechanics, scalability, and replayability. The course focuses heavily on game development and programming, assuming the game design has been previously scoped out.
Pre-requisite(s): CS 4640 and CS 3750
CS 4730 - Applied Cryptography

Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides an introduction to the principles of number theory and how they are applied to cryptographic algorithms. Different topics that will be examined are: several classic ciphers, modern cryptographic methods, symmetric encryption, public key cryptography, hash functions, key management, digital signatures, certificates, electronic mail security, steganography, and recent developments affecting security and privacy on the Internet. The focus will be on how cryptography and their application can maintain privacy and security in computer networks.
Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4760 - CS Capstone

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This CS capstone course is designed to provide real-world software engineering project opportunities for students to apply previous knowledge from the Computer Science curriculum. Students will work together as a team, along with their instructor, to solve a problem by developing a small-scale software application. Relevant software engineering skills emphasized in this course include, but are not limited to, Agile software development principles, project management, software design patterns, repository version control, data integration, security, testing, and documentation. Additional emphasis will be placed on the end user experience, as well as validation of functional requirements defined by the client. The capstone prepares students for experiences that software engineering professionals encounter in the workplace.
Pre-requisite(s): CS 3750.

CS 4790 - .NET Web Application Development

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: In this course, students will work together as a team to develop advanced ASP.NET MVC applications using the latest .NET CORE Framework tools and technologies. The focus will be on coding activities that enhance the performance and scalability of a web application in a small to medium-sized development environment. Students will create websites that separate the user interface, data access, and application logic.
Pre-requisite(s): CS 3750.

CS 4800 - Individual Projects and Research

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $7.50
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.
Pre-requisite(s): CS 2420.
May be repeated 3 times up to 4 credit hours.
Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 4820 - Compiler Design

Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.
Pre-requisite(s): CS 2420, CS 4110.

CS 4830 - Advanced Topics in Computer Science

Credits: (1-4)
Variable Title
Typically Taught Spring Semester: Full Sem
Course Fee: $12.50
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Advanced topics which are demanded by industry, are currently popular in this rapidly changing field, or which meet special needs of students in Computer Science will be offered. Individualized material will be taught on a one time basis as needed. Time and credit to be arranged.
Pre-requisite(s): Consent of instructor.
May be repeated 2 times up to 8 credit hours.

CS 4850 - Faculty Directed Research

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $7.50
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The purpose of this course is to permit Computer Science majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Computer Science. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed.
Pre-requisite(s): CS 2420.
May be repeated 3 times up to 4 credit hours.
Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850 and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 4890 INT - Cooperative Work Experience

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and
quantity of work performed.

**Pre-requisite(s):** CS 2420.

May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status

**CS 4899 - Bachelor's Degree Assessment**

**Credits:** (0)

**Description:** This course is to serve as an assessment tool whereby all BS/BA degree seeking students in the Computer Science Department demonstrate their learned knowledge in at least three areas of computer science. At present, this knowledge will be demonstrated through the use of Chi Tester exams administered through the Campus Testing Center. The course is taken during the last term prior to receiving the BS/BA degree.

**Pre-requisite/Co-requisite:** Successful completion of requirements for the Bachelor's Degree.

**CS 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Course Fee:** $20.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

**CS 5100 - Distributed Operating Systems**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications.

**Pre-requisite(s):** CS 3100.

**CS 5200 - The Internet of Things**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** The growth of the Internet of Things (IoT) is changing the way we interact with the world by saving time and resources and opening new opportunities for growth and innovation. This course explores the fundamentals of the world of IoT, including design considerations and constraints. It provides an overview of the networks and security issues related to IoT devices. Course participants will get hands-on experience using Arduino and/or Raspberry Pi hardware and software platforms, learn different communication protocols, how to harness the data from IoT devices, and review capabilities of cloud-based IoT platforms.

**Pre-requisite(s):** CS 2810 or ECE 3710.
CS 5420 - Advanced Algorithms

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.
Pre-requisite(s): CS 2420.

CS 5450 - Software Evolution and Maintenance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.
Pre-requisite(s): CS 3100.

CS 5500 - Advanced Artificial Intelligence

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course covers advanced topics in artificial intelligence from the perspective of implementing intelligent agents through software. Students are expected to have a basic understanding of search and knowledge reasoning. Topics include quantifying uncertainty, probabilistic reasoning and planning, supervised learning, reinforcement learning, natural language processing, and perception. CS 4500 - Introduction to Artificial Intelligence or a similar course is not required but may be helpful prior to taking this course.
Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 5580 - Advanced Data Science Algorithms and Visualization

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Data Science affects modern life in many ways from search engines and recommendation engines to e-commerce and the stock exchange. This course builds on the undergraduate Data Science Algorithms course concepts and introduces the student to advanced methodologies in applied machine learning, data mining, visualization concepts, feature engineering, and modern topics, such as Big Data. The goal of this course is to prepare professionals for practical hands-on experiences for the modern Data Science workplace with visualization as a significant part of the course.
Pre-requisite(s): CS 3580.

CS 5600 - Machine Learning

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.
Pre-requisite(s): CS 2420.

CS 5610 - Computer Architecture

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.
Pre-requisite(s): CS 2810 or ECE 3710.

CS 5650 - Interaction Design

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The most exciting technologies of today are immersive, interactive, solve big problems, and are even entertaining. In this course, we will study how, as software developers, we can understand our users and create innovative designs that best meet their needs and desires. Known tools and techniques from the field of human-computer interaction are reviewed. User center research and evaluation techniques will be presented and students will have the opportunity to undertake a study on user design where they apply these techniques.
Pre-requisite(s): CS 3100.

CS 5700 - Deep Learning Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Deep learning is at the heart of many life-changing applications and areas of interests including language understanding, face recognition, speech synthesis and recognition, object detection, and robotics to name a few. This course introduces the fundamental principles of deep learning and its applications, including multilayer perceptrons, backpropagation, auto-differentiation, optimizers, convolutional networks (CNNs), recurrent networks (RNNs), autoencoders (AEs), and generative adversarial networks (GANs). This course focuses on both understanding deep learning algorithms (their strengths and limitations) and getting acquainted with the current deep learning research landscape.
Pre-requisite(s): CS 5600.

CS 5705 - Applied Cloud Computing
Typically Taught Fall Semester: Full Sem

Description: Current business demands often require an amount of data that cannot reasonably process on a single computer. Even companies that work with reasonably small datasets expect rapid growth, so they prefer to use data processing solutions that scale when needed. In this course, you will gain practical, hands-on experience with modern cloud computing resources through publicly available cloud infrastructures. This course will prepare students with practical, hands-on experience in modern cloud and distributed computing paradigms and tools.

Pre-requisite(s): CS 3100.

CS 5740 - Computer Systems Security

Credits: (3)
Typically Taught Spring Semester: Full Sem

Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

Pre-requisite(s): CS 2420 and CS 3100.

CS 5820 - Compiler Design

Credits: (3)

Typically Taught Fall Semester: Full Sem

Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420 and CS 2130.

CS 5830 - Special Topics in Computer Science

Credits: (3)

Typically Taught Fall Semester: Full Sem

Description: This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.

Pre-requisite(s): CS 3100.

CS 5840 - Formal System Design

Credits: (3)

Typically Taught Fall Semester: Full Sem

Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

Pre-requisite(s): CS 2420.

CS 5850 - Parallel Programming and Architecture
In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python).

Pre-requisite(s): CS 3100.
demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and
documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed
retroactively. Students must be enrolled in CS 6011 at the time of their final thesis defense.
May be taken up to 10 times for credit.

**CS 6100 - Distributed Operating Systems**

*Credits: (3)*

*Typically Taught Fall Semester: Full Sem*

*Course Fee: $171.34*

*Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including
desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors,
and online instructional resources.*

*Description: Distributed systems or distributed computing deals with the issues encountered while running programs across a
computer network. This course will cover key topics including: models of distributed systems, timing, synchronization,
coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical
background of distributed systems as well as work on hands-on projects developing distributed systems applications.*

*Pre-requisite(s): CS 3100.*

**CS 6200 - The Internet of Things**

*Credits: (3)*

*Typically Taught Fall Semester: Full Sem*

*Typically Taught Spring Semester: Full Sem*

*Course Fee: $171.34*

*Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including
desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors,
and online instructional resources.*

*Description: The growth of the Internet of Things (IoT) is changing the way we interact with the world by saving time and
resources and opening new opportunities for growth and innovation. This course explores the fundamentals of the world of IoT,
including design considerations and constraints. It provides an overview of the networks and security issues related to IoT
devices. Course participants will get hands-on experience using Arduino and/or Raspberry Pi hardware and software platforms,
learn different communication protocols, how to harness the data from IoT devices, and review capabilities of cloud-based IoT
platforms.*

*Pre-requisite(s): CS 2810 or ECE 3710.*

**CS 6420 - Advanced Algorithms**

*Credits: (3)*

*Course Fee: $171.34*

*Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including
desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors,
and online instructional resources.*

*Description: Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-
conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs);
dynamic programming; graph algorithms; and randomized algorithms.*

*Pre-requisite(s): CS 2420.*

**CS 6450 - Software Evolution and Maintenance**

*Credits: (3)*

*Typically Taught Fall Semester: Full Sem*

*Course Fee: $146.34*

*Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including
desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors,
and online instructional resources.*

*Description: This course aims to improve student awareness of standard software engineering tools and techniques and make
them more capable team members/leaders in software development projects. In this course, students build on their software
engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or and re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

**Pre-requisite(s):** CS 3100.

**CS 6500 - Advanced Artificial Intelligence**

Credits: (3)

**Typically Taught Fall Semester: Full Sem**

**Course Fee:** $171.34

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course covers advanced topics in artificial intelligence from the perspective of implementing intelligent agents through software. Students are expected to have a basic understanding of search and knowledge reasoning. Topics include quantifying uncertainty, probabilistic reasoning and planning, supervised learning, reinforcement learning, natural language processing, and perception. CS 4500 - Introduction to Artificial Intelligence or a similar course is not required but may be helpful prior to taking this course.

**Pre-requisite(s):** CS 3100.

**CS 6550 - Advanced Database Management Systems**

Credits: (3)

**Typically Taught Spring Semester: Full Sem**

**Description:** The course covers design, management, implementation, and programming of relational database systems in a high-volume data environment. Database design principles like E-R modeling, schema design and refinement, normal forms, and constraints are introduced. Data Definition Language queries and Data Manipulation Language queries are covered to implement and query a database. Other SQL implementation topics like stored procedures, functions, triggers, and indexes are covered. Advanced database topics like big data analytics, storage management principles, query processing and optimization, transaction management, concurrency control, parallel and distributed databases are covered. The course also introduces alternatives to relational databases.

**Pre-requisite(s):** CS 2550 or equivalent.

**CS 6570 - Data Science Algorithms I**

Credits: (3)

**Typically Taught Fall Semester: Full Sem**

**Description:** This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.

**CS 6580 - Advanced Data Science Algorithms and Visualization**

Credits: (3)

**Typically Taught Fall Semester: Full Sem**

**Course Fee:** $146.34

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Data Science affects modern life in many ways from search engines and recommendation engines to e-commerce and the stock exchange. This course builds on the undergraduate Data Science Algorithms course concepts and introduces the student to advanced methodologies in applied machine learning, data mining, visualization concepts, feature engineering, and modern topics, such as Big Data. The goal of this course is to prepare professionals for practical hands-on experiences for the
modern Data Science workplace with visualization as a significant part of the course. CS 3580 (Data Science Algorithms) or a similar course is not required but will be immensely helpful prior to taking this course.

**Pre-requisite(s):** CS 3100 or CS 3580.

---

**CS 6600 - Machine Learning**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $171.34

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.

**Pre-requisite(s):** CS 3100.

---

**CS 6610 - Computer Architecture**

**Credits:** (3)

**Course Fee:** $171.34

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.

**Pre-requisite(s):** CS 2810 or ECE 3710.

---

**CS 6650 - Interaction Design**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $171.34

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** The most exciting technologies of today are immersive, interactive, solve big problems, and are even entertaining. In this course, we will study how, as software developers, we can understand our users and create innovative designs that best meet their needs and desires. Known tools and techniques from the field of human-computer interaction are reviewed. User center research and evaluation techniques will be presented and students will have the opportunity to undertake a study on user design where they apply these techniques.

**Pre-requisite(s):** CS 3100.

---

**CS 6700 - Deep Learning Theory**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Deep learning is at the heart of many life-changing applications and areas of interests including language understanding, face recognition, speech synthesis and recognition, object detection, and robotics to name a few. This course introduces the fundamental principles of deep learning and its applications, including multilayer perceptrons, backpropagation, auto-differentiation, optimizers, convolutional networks (CNNs), recurrent networks (RNNs), autoencoders (AEs), and generative adversarial networks (GANs). This course focuses on both understanding deep learning algorithms (their strengths and
limitations) and getting acquainted with the current deep learning research landscape.

Pre-requisite(s): CS 6600.

CS 6705 - Applied Cloud Computing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Current business demands often require an amount of data that cannot reasonably process on a single computer. Even companies that work with reasonably small datasets expect rapid growth, so they prefer to use data processing solutions that scale when needed. In this course, you will gain practical, hands-on experience with modern cloud computing resources through publicly available cloud infrastructures. This course will prepare students with practical, hands-on experience in modern cloud and distributed computing paradigms and tools.

CS 6740 - Computer Systems Security

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $171.34
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.
Pre-requisite(s): CS 2420 and CS 3100.

CS 6820 - Compiler Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $171.34
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.
Pre-requisite(s): CS 2420.
Suggested Requisite(s): CS 4110.

CS 6830 - Special Topics in Computer Science

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $171.34
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.
Pre-requisite(s): Instructor permission.
May be taken twice up to 6 credits.

CS 6840 - Formal System Design
Credits: (3)
Course Fee: $171.34
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

Pre-requisite(s): CS 2420.

CS 6850 - Parallel Programming and Architecture

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $171.34
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python).

Pre-requisite(s): CS 3100.

DANC 1010 CA/DV - Introduction to Dance

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $11.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: An introduction to dance providing a knowledge base from which to experience dance from a variety of viewpoints: historically, culturally, aesthetically, critically, and creatively. This course takes a close-up look at the rules, messages, and meanings embodied in dance around the world. This is a writing intensive course. Students are expected to attend dance concerts and cultural dance experiences outside regularly scheduled class time. Open to all students.

DANC 1100 - Ballet I

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Introduction to the techniques of the classical ballet including alignment, positions, port de bras, and allegro combinations. Open to all students.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1200 - Modern I

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Introduction to the movement techniques of modern dance. Open to all students. May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1310 - Music for Dance

Credits: (2)
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $4.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Study of the relationship between sound and movement, accompaniment and dance. Focus extends to creative and working relationship(s) between accompaniment/composer and teacher/choreographer with emphasis on practical applications of methods and understandings.

DANC 1450 - Special Topic Dance Form

Credits: (1)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as recreational activity. It allows for the study of changing series of dance forms, including, but not limited to African, Flamenco, Middle Eastern, Clogging, Ballroom, Renaissance, etc.
May be repeated for 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1500 - Jazz I

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Introduction to the style, technique, and rhythmic structures of jazz dance with emphasis on increasing movement capabilities and personal expression. Open to all students.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1520 - Folk & Ethnic Dance

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Dance in World Cultures explores various dance forms practiced around the world. Open to all students.
May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1580 - Rhythm Tap

Credits: (1)
Typically Taught Fall Semester: Full Sem even years
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Special training in tap dance skills and techniques.
May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 2250 - Alignment and Conditioning for Dance/Pilates
DANC 2300 - Dance Kinesiology

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Course Fee: $4.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course provides a study of anatomy and dance kinesiology with a specific focus on anatomical analysis, conditioning principles and injury prevention, with special attention given to application of information to technique class, rehearsal, choreography and individual anomalies. The course prepares the student to understand basic kinesiological analysis and fundamental concepts of somatic inquiry.
Pre-requisite/Co-requisite: Pre/Co-requisite: NUTR 1020.

DANC 2410 - Improvisation

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $4.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Guided exploration in the elements of dance for the creative development of personal movement repertoire, spontaneous group interaction, and choreographic skills.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2470 - Ballet II

Credits: (1.5)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $6.50
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets, fee supports screening of dancers for injury prevention.
Description: Technique course designed to increase skill in classical ballet.
Pre-requisite(s): DANC 1100 (2 credit hours minimum), or DANC 2470 (1 credit hour minimum), or by audition.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated 4 times for a maximum of 6 credit hours.

DANC 2490 - Modern II

Credits: (1.5)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $6.50
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets, fee supports screening of dancers for injury prevention.
Description: Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.
Pre-requisite(s): DANC 1200 (2 credit hours minimum), or DANC 2490 (1.5 credit hour minimum), or by audition.
May be repeated for a maximum of 6 credit hours.

DANC 2500 - Jazz II
DANC 2610 - Dance and Digital Technology

Credits: (2)
Typically Taught Spring Semester: Full Sem even years
Course Fee: $20.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 2610 will introduce students to dance-videography, video editing, dissemination of work through media such as the DVD format, YouTube, Vimeo and the creation/maintenance of on-line portfolios.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

DANC 2920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: In individual cases, this course might be considered as an elective in the Dance Major.

DANC 2950 INT - Dance Festival Participation

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.
Pre-requisite(s): Audition and permission.
May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3015 - Dance History

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Study of the history and philosophy of dance from lineage-based societies through the early decades of modern dance, ballet, vernacular forms and dance as public art. Areas covered will include pre-Christian civilizations, the Middle Ages,
Renaissance and the Golden Age of Ballet, the Age of Innovation in Ballet through the Contemporary Period of history.

**Pre-requisite(s):** DANC 1010.

**DANC 3320 INT - Techniques and Materials for Teaching Modern Dance**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $4.00
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets.
**Description:** Methods, teaching techniques, accompaniment, and practical experience in teaching modern dance. This is the secondary teaching methods class.
**Pre-requisite(s):** DANC 2490.

**DANC 3440 - Dance for Musical Theatre**

**Credits:** (1)
**Typically Taught Spring Semester:** Full Sem even years
**Course Fee:** $2.00
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets.
**Description:** Dance skills and techniques taken from the repertoire of the modern musical theatre. Special emphasis on characterization and style as demonstrated by the works of the leading choreographers of this genre.
**Pre-requisite(s):** DANC 1200 and DANC 1500.
May be repeated four times for a maximum of four credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3450 - Special Topic Dance Form**

**Credits:** (1)
**Variable Title**
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $10.00
**Course Fee Purpose:** Fees support dance technology: stereo, projection, Zoom monitor and computers.
**Description:** This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as recreational activity. It allows for the study of changing series of dance forms, including, but not limited to African, Flamenco, Middle Eastern, Clogging, Ballroom, Renaissance, etc.
May be repeated up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3470 - Ballet III**

**Credits:** (1.5)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets, fee supports screening of dancers for injury prevention.
**Description:** Coordinating course designed to increase skill in classical ballet technique.
**Pre-requisite(s):** DANC 2470 (3 credit hours minimum), or DANC 3470 (1.5 credit hour minimum), or by audition.
May be repeated for a maximum of 6 credit hours.

**DANC 3490 - Modern III**

**Credits:** (1.5)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets, fee supports screening of
dancers for injury prevention.

**Description:** Exercises and activities to develop strength, flexibility, endurance, and technical dance skill.

**Pre-requisite(s):** DANC 2490 (3 credit hours minimum), or DANC 3490 (1.5 credit hour minimum), or by audition.

May be repeated for a maximum of 6 credit hours.

**DANC 3500 - Choreography I: Space & Time/Design in Dance**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $4.00

**Course Fee Purpose:** Fees support dance technology: stereo, projection, Zoom monitor and computers.

**Description:** Study of the elements of time and space as they are artistically significant in themselves and in organized forms of meaning in dance. Considering time and space design in related fields of music and art included as relevant to choreographic design and communication in dance.

**Pre-requisite(s):** DANC 2410.

May be repeated twice for up to six credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3510 - Choreography II: Process**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $6.00

**Course Fee Purpose:** Fees support dance technology: stereo, projection, Zoom monitor and computers.

**Description:** Study of and experience in various approaches to the choreographic process as related to artistic concepts and to the philosophy of art as espoused by various traditional and contemporary dance artists and as developed by the individual student.

**Pre-requisite(s):** DANC 3500.

May be repeated twice for up to 6 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3520 INT - Choreography Practicum**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Description:** Supervised experience choreographing a dance for public performance. Arranged through cooperative effort of student and supervisor.

**Pre-requisite(s):** DANC 3510 and approval of instructor.

May be repeated three times for a maximum of six credit hours.

**DANC 3525 - ArtsBridge**

**Credits:** (1-6)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a comprehensive, needs-based, integrated arts project with community organizations or area schools. The course will offer students a clear structure and process for navigating the complexities of community engagement. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of an arts integrated project.

**Pre-requisite(s):** Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.

Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

**DANC 3580 - Rhythm Tap**

**Credits:** (1)

**Typically Taught Fall Semester:** Full Sem even years

**Course Fee:** $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Intermediate/Advanced training in tap dance skills and techniques.
Pre-requisite(s): Lower Division Tap Dance (DANC 1580) and/or instructor approval.
May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3640 INT - Teaching Creative Dance in the Elementary School

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $6.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Techniques for teaching creative dance and basic dance forms. Suggested for Elementary Education majors.

DANC 3860 INT - Field Experience

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed to provide opportunities for students to gain practical experience in the field by assisting in the activities of community agencies, schools, and Weber State.
Pre-requisite(s): DANC 3320 for those who plan to teach in a middle or secondary school or DANC 3640 for those who plan to teach in an elementary school.
May be repeated twice, up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3910 INT/CEL - Moving Company: Rehearsal & Development

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: The Moving Company is designed to give students the opportunity to learn about the various aspects of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - 3910) and spring (performance - DANC 3911) semesters. This segment deals with preparation and rehearsal.
May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3911 INT/CEL - Moving Company: Performance

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: The Moving Company is designed to give students the opportunity to learn about the various aspects of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - DANC 3910) and spring (performance - 3911) semesters. This segment deals with implementation and performance.
Pre-requisite(s): DANC 3910.
May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4250 - Alignment and Conditioning for Dance/Pilates

Credits: (2)
Typically Taught Spring Semester: Full Sem even years
Course Fee: $4.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Strength and alignment for dancers, using Pilates mat exercises and Reformer. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitate ease and efficiency of movement.
Co-Requisite(s): DANC 2250.
May be repeated once up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.
DANC 4610 - Dance and Digital Technology

Credits: (2)
Typically Taught Spring Semester: Full Sem even years
Course Fee: $40.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 4610 will introduce students to dance-videography, video editing, and dissemination of work through media such as the DVD format, You Tube, Vimeo and the creation/maintenance of on-line portfolios. May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 4620 - Dance and Digital Technology Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This seminar will provide students with individual and collaborative study and research in the field of dance and the digital video medium. The course will cover artistic and technical forms, including, but not limited to capturing dance on the digital/video medium, choreographic processes through non-linear digital editing, audio/visual editing for dance, lighting, dance theory and criticism in the context of dance in the digital age.
Pre-requisite(s): DANC 2610.
May be repeated once up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4700 INT - Creative Synthesis in Dance

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $4.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Project oriented experience intended to coordinate student work. It will serve as guide in the synthesis of philosophy, experience, and understanding of dance as an art form and/or dance as education. This capstone course will include a portfolio and have an artistic or scholarly outcome.
Pre-requisite(s): Students Pursuing BA in Dance: DANC 2610, DANC 3520 and senior dance major standing. Students Pursuing BA/BS in Dance Education: DANC 2610, DANC 3860 and senior dance major standing.

DANC 4800 - Individual Study

Credits: (1-4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual work or work in small groups by arrangements in special topics not included in the announced course offerings.
Pre-requisite(s): Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major. May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4801 - A&H Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

DANC 4890 INT - Cooperative Work Experience
Credits: (1-6)
Description: Individual work or work in small groups by arrangement; in special topics not included in the announced course offerings.
Pre-requisite(s): Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major. May be repeated 3 times up to 18 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4910 INT - Rehearsal and Performance

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Preparation and rehearsal of dance composition to be presented in concert.
Pre-requisite(s): consent of instructor. May be repeated for an unlimited number of credit hours. May be repeated 11 times for credit, but use toward Major/Minor must be approved by program advisor.

DANC 4920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. This course might be considered as an elective in the Dance Major. Use toward Major/Minor must be approved by program advisor.

DANC 4950 INT - Dance Festival Participation

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.
Pre-requisite(s): Audition and permission. May be repeated 3 times up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DENT 2201 - Concepts of Community Dental Health

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: This course will present the basic concepts of planning and implementing community dental health programs. These principles include epidemiology, sociological concepts of health and illness, health behavior, public attitudes and principles of dental health education.

DENT 2205 - Head/Neck and Dental Anatomy

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Identification of major anatomical landmarks of the head and neck, their innervation, blood supply and function. Also includes instruction in the histology and embryology of head and neck development and tooth morphology.

DENT 2206 - Clinical Dental Hygiene/Radiology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $320.00
Description: Clinical application of principles of DENT 2207 and DENT 2208. Must accompany DENT 2207 and DENT 2208. Students participate in three four-hour labs each week.

DENT 2207 - Dental Hygiene I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Theory essential to performing clinical treatment, including, but not limited to armamentarium, client-operator positioning, aseptic technique, soft tissue exam, health history, principles of instrumentation and disease control therapies. Must accompany DENT 2206.

DENT 2208 - Radiology

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparatory skills for clinical dental radiology, including information on radiation safety and exposure techniques. Must accompany DENT 2206.

DENT 2211 - Oral Pathology

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The study of manifestations and identification of disease processes in the oral cavity.

DENT 2215 - Periodontology

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The study of basic periodontal structures and disease processes.

DENT 2216 INT - Clinical Dental Hygiene II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Description: Clinical application of DENT 2217. Must accompany DENT 2217. Two four-hour clinic lab sessions each week.
Pre-requisite(s): DENT 2206 and DENT 2207.

DENT 2217 - Dental Hygiene II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Continuation of DENT 2206. Didactic instruction for intermediate skills in dental hygiene treatment. Must accompany DENT 2216.
Pre-requisite(s): DENT 2207.

DENT 2219 - Dental Materials

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Identification of and laboratory experiences with materials used in dentistry and dental hygiene.

DENT 2230 - Oral Health Research & Statistics
DENT 2235 - Dental Medicine I

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The study of common medical conditions and their treatment. Emphasis is placed on oral manifestations of systemic disease and related pharmacology.

DENT 2250 - Professional Ethics

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Professional Ethics is designed to provide dental hygiene students with a foundation in the professional standards governing the dental hygiene profession and the development of ethical decision-making skills, in the context of diversity and respect for others. Throughout the course the student will be guided to explore issues of diversity, prejudices, and their responsibility to provide culturally sensitive care.

DENT 2800 - Individual Research

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Special project in a student's area of interest. May be repeated twice for a maximum of 4 credit hours.

DENT 2830 - Directed Readings, Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Limited to dental hygiene majors. A maximum of nine hours may be accumulated with this course.

DENT 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

DENT 3130 - Independent Study

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Description: Independent project in an area of interest; second year dental hygiene students only. Project approval by dental
hygiene faculty.
A maximum of nine hours may be accumulated with this course.

**DENT 3301 INT - Community Dental Health Service Learning Lab**

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This course leads the student through on-campus and off-campus field projects with selected community agencies.

**DENT 3305 - Pain Control**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The study of local anesthesia with regard to pharmacology, administration techniques, methods of pain and apprehension control and nitrous oxide sedation. Includes laboratory experiences in the administration of local anesthesia and nitrous oxide sedation.
Pre-requisite(s): DENT 2235.

**DENT 3336 INT - Clinical Dental Hygiene III**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $120.00
Description: Clinical application of DENT 3337. This course must accompany DENT 3337. Three four hour clinics each week.
Pre-requisite(s): DENT 2206 and DENT 2216.

**DENT 3337 - Dental Hygiene III**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DENT 2207, DENT 2217. Emphasis on advanced instrumentation in the care of patients with periodontal disease. Must accompany DENT 3336.
Pre-requisite(s): DENT 2207 and DENT 2217.

**DENT 3346 INT - Clinical Dental Hygiene IV**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Description: Clinical lab which must accompany DENT 3347. Twelve hours of clinic each week.
Pre-requisite(s): DENT 2206, DENT 2216, DENT 3336.

**DENT 3347 - Dental Hygiene IV**

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: Continuation of DENT 2207, DENT 2217, DENT 3337. Emphasis on expanded client care services and with client populations with special treatment needs. Must accompany DENT 3346.
Pre-requisite(s): DENT 2207, DENT 2217, DENT 3337.

**DENT 4010 - Interdisciplinary Health Care Teams**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting. Cross-listed with HTHS 4010 and NRSG 4010.

DENT 4405 INT - Dental Hygiene Clinical Teaching Practice

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised teaching in the Weber State Dental Hygiene program as an assistant to the supervising faculty.
Pre-requisite(s): Consent of the faculty member and acceptance into the BS/DH major program.

DENT 4410 - Dental Hygiene Needs of the Geriatric Client

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An overview of dental health needs of elderly clients.
Pre-requisite(s): Consent of instructor and acceptance into the BS/DH major program.

DENT 4530 INT CRE - Principles and Application of Evidence-Based Dental Hygiene Practice

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Emphasis is on the critical appraisal of scientific literature, the development of clinical problem statements and hypotheses and the formulation of a research proposal. Ethical issues inherent in the research process and the identification of appropriate hypothesis testing procedures will also be discussed.
Pre-requisite(s): Acceptance into the BS/DH program and completion of WSU Quantitative Literacy requirement.

DENT 4780 - Baccalaureate Thesis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to give dental hygiene students an opportunity to complete a thesis project in partial fulfillment of the requirements for the BS/DH major.
Pre-requisite(s): Acceptance into the BS/DH program, completion of the WSU Quantitative Literacy requirement.

DENT 4800 - Individual Research

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Special project in a student's area of interest.
May be repeated twice for a maximum of 3 credit hours.

DENT 4810 - Summer Elective Clinic

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** Summer intensive clinical course which allows the student to set personal achievement goals for clinical techniques and assists them through the process of skill development. May be repeated six times for a maximum of six credit hours.

**DENT 4830 - Directed Readings, Projects and Research**

Credits: (1-3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Limited to dental hygiene majors. A maximum of nine hours may be accumulated with this course.

**DENT 4850 - Study Abroad**

Credits: (1-6)
**Variable Title**
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience. May be repeated 5 times with a maximum of 6 credit hours.

**DENT 4890 INT - Advanced Community or Clinical Work Experience**

Credits: (2)
**Typically Taught Summer Semester:** Full Sem, Online
**Typically Taught Fall Semester:** Full Sem, Online
**Typically Taught Spring Semester:** Full Sem, Online
**Description:** This course is designed to specifically meet the interests and career goals of the Dental Hygiene Degree-completion student or the student completing the Baccalaureate degree, Dental Hygiene major prior to initial licensure as a dental hygienist. The student who is completing this course as part of their BS degree, initial entry into the profession, will participate in an advanced community or clinical work experiences under the direct supervision of program faculty. The baccalaureate degree completion student must be licensed to practice dental hygiene at the site in which the work experience will take place, have successfully completed an accredited dental hygiene program, or have a work experience site that does not have direct patient care as its community role.
**Pre-requisite(s):** Acceptance into the BS/DH Program and consent of the instructor.

**DENT 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
**Workshop**
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**DENT 4990 - Seminar**

Credits: (1-2)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Current concepts in dental hygiene for baccalaureate level dental hygiene students. May be repeated once for a maximum of 2 credit hours.
DMS 4110 - Sonography Principles & Instrumentation

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Elementary principles, propagation through tissues, transducers, pulse echo principles and instruments, images, storage and display, Doppler, image features and artifacts, bioeffects, and safety.

DMS 4120 - Quality Assurance

Credits: (3)
Typically Taught Summer Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Developing, analyzing and evaluating a quality assurance program.

DMS 4210 - Cardiac Sonography I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in cardiac sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4220 - Cardiac Sonography II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Continuation of 4203.

DMS 4230 - Cardiac Sonography III

Credits: (3)
Typically Taught Summer Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Continuation of DMS 4220.

DMS 4310 - Abdominal Sonography

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in abdominal intraperitoneal and retroperitoneal sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.
DMS 4320 - Superficial Structure Sonography

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance
Description: Concepts in superficial structure sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4330 - Gynecologic Sonography

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance
Description: Concepts in gynecologic sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4340 - Obstetric Sonography

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance
Description: Concepts in obstetric sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4410 - Vascular Sonography I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in vascular sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4420 - Vascular Sonography II

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Continuation of DMS 4410.

DMS 4510 - Breast Sonography

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in breast sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4610 - Cardiac Sonography - Clinical Simulation I
DMS 4611 - Cardiac Sonography - Clinical Simulation II

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Cardiac Sonography Labs.

DMS 4612 - Cardiac Sonography - Clinical Simulation III

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Cardiac Sonography Labs.

DMS 4620 - Medical Sonography - Clinical Simulation I

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Clinical Simulation in Medical Sonography Labs.

DMS 4621 - Medical Sonography - Clinical Simulation II

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Medical Sonography Labs.

DMS 4622 - Medical Sonography - Clinical Simulation III

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Medical Sonography Labs.

DMS 4630 - Vascular Sonography - Clinical Simulation I

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance
Description: Clinical Simulation in Vascular Sonography Labs.

DMS 4631 - Vascular Sonography - Clinical Simulation II

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Vascular Sonography Labs.

DMS 4632 - Vascular Sonography - Clinical Simulation III

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Vascular Sonography Labs

DMS 4801 - Individualized Research

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Contract with faculty advisor required. May be repeated twice with a maximum of 3 credit hours.

DMS 4811 INT - Cardiac Clinical I

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week in an active diagnostic cardiac sonography department.

DMS 4812 INT - Cardiac Clinical II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Continuation of DMS 4811.

DMS 4813 INT - Cardiac Clinical III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DMS 4812.

DMS 4821 INT - Medical Clinical I

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week in an active diagnostic medical sonography department.
DMS 4822 INT - Medical Clinical II

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Continuation of DMS 4821.

DMS 4823 INT - Medical Clinical III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DMS 4822.

DMS 4831 INT - Vascular Clinical I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A minimum of 24 hours per week in an active diagnostic vascular sonography department.

DMS 4832 INT - Vascular Clinical II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Continuation of DMS 4831.

DMS 4833 INT - Vascular Clinical III

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Continuation of DMS 4832.

DMS 4841 INT - Breast Clinical

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week performing breast sonography examinations.
Pre-requisite(s): DMS 4510 Breast Sonography.

DMS 4911 - Cardiac Comprehensive Review

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Review and requirements for advanced responsibilities of the cardiac sonographer.

DMS 4912 - Medical Comprehensive Review

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Review and requirements for advanced responsibilities of the medical sonographer.

DMS 4913 - Vascular Comprehensive Review

Credits: (1)
Typically Taught Summer Semester: Full Sem
Description: Review and requirements for advanced responsibilities of the vascular sonographer.
DMS 4921 - Workshops, Conferences and Telecourses

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
May be repeated twice with a maximum of 3 credit hours.

ECE 1000 - Introduction to Electrical Engineering

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introductory course to Electrical & Computer Engineering topics including electronic terms, numbering systems, software tools, and documentation practices.

Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.
Suggested Requisite(s): College algebra and trigonometry are strongly recommended.

ECE 1270 - Introduction to Electrical Circuits

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: The basics of analog circuits as an introduction to Electrical Engineering. Concepts of voltage, current, power, resistance capacitance and inductance. Circuit analysis techniques such as Kirchhoff's Laws, node voltages, and mesh currents. Thevenin's and Norton's equivalent circuits, sinusoidal steady state and phasors. Lecture and lab combination.

Pre-requisite(s): MATH 1210 and MATH 1220 (1220 may be taken concurrently).

ECE 1400 - Fundamentals of Engineering Computing

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Computer programming and computational tools applied to electrical and computer engineering problems. Topics include coding fundamentals, numeric libraries and debugging techniques. Lecture and lab combination.

Pre-requisite(s): MATH 1210.

ECE 2210 - Electrical Engineering for Non-majors

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Combined lecture/laboratory course as an introduction to electrical engineering for non-electrical engineers. Fundamentals of DC and AC circuits, digital circuits, and power circuits.

Pre-requisite(s): MATH 1210.

ECE 2260 - Fundamentals of Electrical Circuits
Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamental electric-circuit techniques including: time domain transient responses for 1st and 2nd order circuits, Laplace transforms, Fourier series, and filters. Lecture and lab combination.
Pre-requisite(s): ECE 1270 and MATH 1220.
Pre-requisite/Co-requisite: ECE 1400 and either MATH 2250 or MATH 2280.

ECE 2700 - Digital Circuits

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, and computer architecture. Introduction to hardware description language and programmable logic devices. Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.
Pre-requisite/Co-requisite: ECE 1000 or ENGR 1000.

ECE 3000 - Engineering Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: An engineering seminar course designed to prepare the student for professional engineering employment. Topics to include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness, and continuous improvement. The students will research related topics and write a paper.
Pre-requisite(s): ECE 1270.
Note: Admittance into the Professional Program required.

ECE 3090 - Project Management

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management. Students should take this course the semester before taking ECE 4010.
Pre-requisite(s): Permission from the department.
Note: Admittance into the Professional Program required.

ECE 3110 - Microelectronics I

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamental semiconductor device characteristics including diodes, MOSFETs and bipolar transistors; small and large signal characteristics and design of linear circuits. Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of
semiconductor circuits, amplifiers and power supplies.

**Pre-requisite(s):** ECE 1270 and MATH 1220.

Note: Admittance into the Professional Program required.

**ECE 3120 - Microelectronics II**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** Intermediate topics related to microelectronics including differential and multistage amplifiers, frequency response, feedback systems, power amplifiers, filters, and signal generation.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of filters and advanced circuits.

**Pre-requisite(s):** ECE 2260 and ECE 3110.

Note: Admittance into the Professional Program required.

**ECE 3210 - Signals and Systems**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $40.00

**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** Topics related to the analysis of linear time invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms.

Lecture and lab combination. Laboratory activities to include the computer simulation, analysis, and numerical modeling of signals and systems.

**Pre-requisite(s):** ECE 2260 and MATH 2250 or MATH 2270 and MATH 2280.

Note: Admittance into the Professional Program required.

**ECE 3310 - Electromagnetics I**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** An introduction to electrostatics, magnetostatics and Maxwell's equations with specific applications to wave propagation and transmission line theory.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of RF radar subsystems.

**Pre-requisite(s):** MATH 2210, PHYS 2220, and ECE 2260.

Note: Admittance into the Professional Program required.

**ECE 3430 - Engineering Probability and Statistics**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course covers basic concepts and techniques of probability theory with applications to statistics, machine learning, and signal processing. Topics include probabilistic modeling and analysis, confidence intervals, and statistical inference. Example problems are drawn from engineering applications and include both analytic and computational solutions.

**Pre-requisite(s):** ECE 1400 and MATH 1220.

**ECE 3510 - Power Systems**
ECE 3610 - Digital Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to microprocessor architecture, arithmetic logic units, memory systems, input/output interfaces, peripheral devices, and communication.
Lecture and lab combination. Laboratory activities to include the programming and operation of microprocessor circuits.
Pre-requisite(s): ECE 2700 and (CS 2250 or CS 1410 or ECE 1400).

ECE 3710 - Embedded Systems

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Design and implementation of a microcontroller or microprocessor embedded system including assembly language programming, interfacing to peripherals, interrupt handling and debugging techniques.
Lecture and Lab. Laboratory exercises build toward a final embedded systems project.
Pre-requisite(s): (ECE 2700 or CS 2810) and (ECE 1400 or CS 2250 or CS 1410).
Pre-requisite/Co-requisite: ENGL 3100 or PS 3250.

ECE 3890 INT - Internship

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is a core course that is required for the BS Engineering degree. The student will need department approval before being allowed to register.
Pre-requisite(s): Permission from the department.
ECE 3890 can be taken a maximum of three times for a total of three credits, but only one credit counts toward the major.
Note: Admittance into the Professional Program required.

ECE 4010 CEL - Senior Project I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and
design review presentations. Before seeking departmental approval, students should be currently enrolled in ECE 3090 and should have taken at least four 3000-level core ECE courses, MATH 3410, and either ENGL 3100 or PS 3250. Exceptions to this rule are made only if a student's graduation would otherwise be delayed.

**Pre-requisite(s):** Permission from the department.

Note: Admittance into the Professional Program required.

**ECE 4020 CEL - Senior Project II**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $40.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.

**Pre-requisite(s):** ECE 4010.

Note: Admittance into the Professional Program required.

**ECE 4100 - Control Systems**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $50.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Topics related to control theory, analysis, and testing of systems in the time domain, frequency domain and state space. Lecture and lab combination.

**Pre-requisite(s):** ECE 3110 and ECE 3210.

Note: Admittance into the Professional Program required.

**ECE 5110 - Digital VLSI Design**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $100.00
**Course Fee Purpose:** Software licensing and maintenance of laboratory equipment.
**Description:** Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

**Pre-requisite(s):** ECE 3110 and ECE 3610.

Note: Admittance into the Professional Program required.

**ECE 5120 - Analog VLSI Design**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $100.00
**Course Fee Purpose:** Software licensing and maintenance of laboratory equipment.
**Description:** Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

**Pre-requisite(s):** ECE 3120.

Note: Admittance into the Professional Program required.
ECE 5130 - Advanced Semiconductor Devices

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.
Pre-requisite(s): PHYS 2220 and ECE 3110.
Note: Admittance into the Professional Program required.

ECE 5140 - Sensors and Instrumentation

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, acoustic, and/or bio-medical. Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.
Pre-requisite(s): ECE 3110 and PHYS 2220.

ECE 5210 - Digital Signal Processing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.
Pre-requisite(s): ECE 3210.
Note: Admittance into the Professional Program required.

ECE 5220 - Image Processing

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).
Pre-requisite(s): ECE 3210.
Note: Admittance into the Professional Program required.

ECE 5230 - Engineering Applications in Deep Learning

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the
networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.

**Pre-requisite(s):** ECE 1400, ECE 3210, MATH 3410, and either MATH 2250 or MATH 2270.

---

**ECE 5310 - Electromagnetics II**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.

**Pre-requisite(s):** ECE 3310.

Note: Admittance into the Professional Program required.

---

**ECE 5320 - Antennas and Wave Propagation**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $40.00

**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

**Pre-requisite(s):** ECE 3310.

Note: Admittance into the Professional Program required.

---

**ECE 5410 - Communication Circuits and Systems**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

**Pre-requisite(s):** ECE 3210 and MATH 3410.

Note: Admittance into the Professional Program required.

---

**ECE 5420 - Digital Communication**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** This course provides an in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired, wireless data communication and the physical networking layer. Topics include QPSK, QAM, PAM, CSMA/CD, SONET, ADSL, and/or MACAW. Spread spectrum concepts such as FHSS, DSSS, OFDM, MIMO and/or cooperative communication techniques may be included. Students will develop Matlab based models to emulate the concepts. The course will include group projects as well as individual assignments. The course would be beneficial particularly to students who are interested in doing work/research in fields related to communications, networks, and signal processing.

**Pre-requisite(s):** ECE 3210 and MATH 3410.

Note: Admittance into the Professional Program required.

---

**ECE 5440 - Optical Communication Systems**

**Credits:** (3)

**Description:** This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics,
optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.

Pre-requisite(s): ECE 3310.

**ECE 5510 - Advanced Power Systems**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course will explore advanced power systems concepts.

Pre-requisite(s): ECE 3510.
Note: Admittance into the Professional Program required.

**ECE 5620 - Digital System Testing**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.

Pre-requisite(s): ECE 3610.
Note: Admittance into the Professional Program required.

**ECE 5640 - Model-based Systems Engineering**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.

Pre-requisite(s): ECE 3610.

**ECE 5710 - Real-Time Systems**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.

Pre-requisite(s): ECE 3710.
Note: Admittance into the Professional Program required.

**ECE 5730 - Robotics**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Robotic design and control principles. Topics include servo control, localization, navigation and vision. Introduction to robotic operating system software to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Validation of designs before implementation.

Pre-requisite(s): ECE 4100.
ECE 5750 - Quantum Computer Engineering

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.
Pre-requisite(s): ECE 2700, MATH 2250 or (MATH 2270 and MATH 2280), PHYS 2220, and MATH 3410.

ECE 5800 - Individual Studies

Credits: (1-4)
Description: The students will receive credit for approved studies in the Electrical & Computer Engineering programs. A maximum of four credits can count as an elective course in the Electrical & Computer Engineering programs.

May be repeated four times for a maximum of four credit hours.
Note: Admittance into the Professional Program required.

ECE 5900 - Special Topics

Credits: (1-4)
Variable Title
Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture and lab combination. Laboratory activities support the selected course topic.
May be repeated four times for a maximum of four credit hours.
Note: A maximum of four credits can be counted for the Electrical & Computer Engineering programs. Admittance into the Professional Program required.

ECE 6010 - Design Project

Credits: (2-6)
Course Fee: $40.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Students are required to complete a substantial engineering design project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in ECE 6010 at the time of their final design review. This course may be repeated.
Pre-requisite(s): Permission from the department.
May be repeated 11 times for a maximum of 20 credit hours.

ECE 6020 - Thesis

Credits: (2-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students are required to perform original research that results in a thesis under the direction of a faculty advisor. Students receive T (temporary) grades until their thesis defense, after which these grades are changed retroactively. Students must be enrolled in ECE 6020 at the time of their thesis defense.
Pre-requisite(s): Permission from the department.
This course may be taken 3 times and up to 9 credits.

ECE 6110 - Digital VLSI Design

Credits: (3)
Course Fee: $100.00
Course Fee Purpose: Software licensing and maintenance of laboratory equipment.

Description: Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

Pre-requisite(s): ECE 3110 and ECE 3610.

**ECE 6120 - Analog VLSI Design**

Credits: (3)
Course Fee: $100.00

Course Fee Purpose: Software licensing and maintenance of laboratory equipment.

Description: Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

Pre-requisite(s): ECE 3120.

**ECE 6130 - Advanced Semiconductor Devices**

Credits: (3)
Course Fee: $30.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

Pre-requisite(s): PHYS 2220 and ECE 3110.

**ECE 6140 - Sensors and Instrumentation**

Credits: (3)

Typically Taught Spring Semester: Full Sem

Course Fee: $50.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, acoustical, and/or bio-medical. Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.

Pre-requisite(s): ECE 3110.

**ECE 6210 - Digital Signal Processing**

Credits: (3)

Course Fee: $30.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

Pre-requisite(s): ECE 3210.

**ECE 6220 - Image Processing**

Credits: (3)

Course Fee: $30.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering,
enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

**Pre-requisite(s):** ECE 3210.

### ECE 6230 - Engineering Applications in Deep Learning

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.

**Pre-requisite(s):** ECE 1400, ECE 3210, MATH 3410, and either MATH 2250 or MATH 2270.

### ECE 6310 - Electromagnetics II

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.

**Pre-requisite(s):** ECE 3310.

### ECE 6320 - Antennas and Wave Propagation

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $40.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

**Pre-requisite(s):** ECE 3310.

### ECE 6410 - Communication Circuits and Systems

**Credits:** (3)
**Course Fee:** $30.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

**Pre-requisite(s):** ECE 3210 and MATH 3410.

### ECE 6420 - Digital Communication

**Credits:** (3)
**Course Fee:** $30.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** This course provides in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired and wireless data communication. Students will develop computer models to emulate the concepts. The course is particularly beneficial to students interested in doing work/research in fields related to communications and networking.

**Pre-requisite(s):** ECE 3210 and MATH 3410.

### ECE 6440 - Optical Communication Systems

**Credits:** (3)
**Description:** This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics,
optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.

**Pre-requisite(s):** ECE 3310.

**ECE 6510 - Advanced Power Systems**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $50.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** This course will explore advanced power systems concepts.
**Pre-requisite(s):** ECE 3510.

**ECE 6620 - Digital System Testing**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $50.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.
**Pre-requisite(s):** ECE 3610.

**ECE 6640 - Model-Based Systems Engineering**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.
**Pre-requisite(s):** ECE 3610.

**ECE 6710 - Real-Time Systems**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $50.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.
**Pre-requisite(s):** ECE 3710 or CS 3100.

**ECE 6730 - Robotics**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Robotic design and control principles. Topics include servo control, localization, navigation and vision. Introduction to robotic operating system software to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Validation of designs before implementation.
**Pre-requisite(s):** ECE 4100.

**ECE 6750 - Quantum Computer Engineering**
Credits: (3)
**Typically Taught Spring Semester:** Full Sem

**Description:** Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.

**Pre-requisite(s):** ECE 3610, MATH 2250 or (MATH 2270 and MATH 2280), PHYS 2220, and MATH 3410.

---

**ECE 6800 - Individual Studies**

Credits: (1-3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Students taking this course will receive credit for approved, mentored studies in the Master of Science in Electrical Engineering (MSEE) and Master of Science in Computer Engineering (MSCE) programs. A maximum of three credits may be counted toward graduation.

**Pre-requisite(s):** Permission from the department.

---

**ECE 6900 - Special Topics**

Credits: (1-4)

**Variable Title**

**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture or lecture and lab combination. Laboratory activities support the selected course topic. May be repeated 10 times and up to 12 credit hours.

---

**ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children**

Credits: (2)
**Typically Taught Fall Semester:** Full Sem

**Description:** This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

---

**ECED 2500 - Development of the Child**

Credits: (3)
**Typically Taught Summer Semester:** 1st Blk Online
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course examines contemporary theory and research of growth and development from conception through childhood, studied in the context of family, gender, culture, language, disability, socioeconomics, diversity, and society.

**Pre-requisite/Co-requisite:** CHF 1500.

---

**ECED 2600 - Introduction to Early Childhood Education & Care**

Credits: (3)
**Typically Taught Summer Semester:** Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Course Fee:** $50.00

**CourseFee Purpose:** This course fee will be used to provide coaching support for field experiences associated with this course.

**Description:** This course examines the historical philosophical, ethical and cultural roots of early childhood education of contemporary perspectives on childhood and the meaning of human difference. Students will explore ways to live out inclusive commitments and aspirations to create communities where all children and families experience a sense of belonging.
3 hours lecture per week and 12 hours field observation.

Pre-requisite(s): CHF 1500 or instructor consent.

Pre-requisite/Co-requisite: ECED 2500.

ECED 2610 - Child Guidance

Credits: (3)

Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: This course focuses on the understanding and use of developmentally, culturally, and linguistically appropriate guidance practices to make evidence-based, data-informed decisions that support each child. Students complete a minimum of 24 hours of field experience observing and practicing in an early learning setting serving diverse populations of children 0-8 years.

Pre-requisite(s): CHF 1500.

ECED 2620 - Planning Creative Experiences for Young Children

Credits: (3)

Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: Development of attitudes, materials, and skills needed to plan and teach age, individually, and culturally appropriate curriculum for young children. Students complete a minimum of 24 hours practicum arranged by the instructor.

Pre-requisite(s): CHF 1500, ECED 2500, and ECED 2610.

Co-Requisite(s): ECED 2600.

ECED 2640 - Collaborating with Families of Young Children.

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with diverse families of young children.

Pre-requisite(s): CHF 1500.

ECED 2670 - STEM in Early Childhood

Credits: (3)

Typically Taught Fall Semester: Full Sem

Course Fee: $50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.

Pre-requisite(s): ECED 2600, ECED 2610, ECED 2620.

ECED 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.
ECED 2830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individually chosen readings on specialized topics supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated up to 3 credit hours.

ECED 2850 - Child Development Associate Training

Credits: (2)
Description: Understanding child development concepts and applying them to teaching situations with young children. The Professional Resource File in preparation for National Child Development Associate Credential (CDA) is compiled during the course.
Note: This course is not currently offered.

ECED 2860 INT - Practicum

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. A practicum for 3 credits requires students complete a minimum of 135 field experience hours (45 hours/credit) supervised in an early childhood setting that must be approved by the instructor.
Pre-requisite(s): For Early Childhood majors: CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620, or consent of faculty advisor prior to registration.
May be repeated up to 6 credit hours.

ECED 2890 INT - Internship in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation for progress are including in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings. 3-credits are required for Early Childhood AAS majors.
Pre-requisite(s): ECED 2860 or consent of faculty advisor.

ECED 2910 - Children & Families: Variable Titles

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.
Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620.
ECED 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

ECED 2990A - Seminar in Early Childhood Education

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This one credit course is designed as a capstone opportunity for students completing the AAS in Early Childhood culminating in a synthesis of prior learning to articulate what it means to be an early childhood educator based on the Early Childhood Education professional standards and competencies.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Pre-requisite/Co-requisite: ECED 2860.

ECED 3145 - Educational Psychology, Child Development, and Classroom Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course examines historical and contemporary perspectives in educational psychology, child development and guidance, and classroom management for kindergarten through 8th grade, with a focus on translating theory to practice within diverse communities of learners. It is part of Elementary Education Level I and includes an integrated field experience.

ECED 3500 - Young Children: Adversity and Resilience

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course examines varying perspectives on the contexts and systems that effect the potential advantages or adversities experienced by young children in a diverse society. Students develop an awareness of opportunities and resources for children and families that support well-being and nurture resilience. Students explore current topics of interest to find their passion and voice to advocate for children and families.

ECED 3570 - Infants and Toddlers: Development and Practice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides an in-depth study of physical, cognitive, language, social, and emotional development from prenatal period through toddlerhood. Practical application and assessment play an integral part of the course. Students will be introduced to observation, early intervention, and relationship-based care in diverse settings. Students complete a minimum of 24 hours practicum arranged by the instructor.
Pre-requisite(s): CHF 1500.

ECED 3620 - Curriculum Planning for Kindergarten

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to planning curriculum in kindergarten with an emphasis on design of learning environments and curriculum that are developmentally appropriate and evidence based. Students complete a minimum of 24 hours practicum.
Student are required to complete a background check by the beginning of the semester.

**Pre-requisite(s):** CHF 1500; ECED 2500; ECED 2610.

**ECED 3640 - Collaborating with Families of Young Children**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with diverse families of young children.

**Pre-requisite(s):** CHF 1500.

**Suggested Requisite(s):** Pre-requisite: ECED 2610 and ECED 3500. Co-requisite: ECED 4710 and ECED 4720.

**ECED 3680 - Teaching Experience in the Preschool**

**Credits:** (3)

**Description:** Provides students an opportunity to be an assistant teacher, to observe and interact with children on an individual and group basis; plan, develop, and implement activities for children.

**Pre-requisite(s):** CHF 1500, ECED 2610 and ECED 2620, or consent of instructor.

*Note: This course is not currently offered.*

**ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

**ECED 4130 - Language Development and Emergent Literacy in Early Childhood**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course explores current theory, research, and evidence based practices for promoting early language and emergent literacy development (birth 8 years) in home, child care, prekindergarten, and primary education environments through collaborative practices between early childhood professionals and parents.

**Pre-requisite(s):** CHF 1500.

**ECED 4201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem odd years

**Description:** Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources and program experiences. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include interpersonal communication skills and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Coaching skills will apply to any EC/ECE curriculum or model. This is course 1 in a three course series for the Utah Coaching Credential.

**ECED 4202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice**
ECED 4203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self-analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home-based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real life experiences throughout the course. This is course 3 of a three course series for the Utah Coaching Credential.
Pre-requisite(s): ECED 4201/MED 6201 and ECED 4202/MED 6202 or instructor permission.

ECED 4220 - Understanding Children Beyond Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course provides a foundation for understanding and engaging with children's behavior and needs in school, home, and community settings, toward new and relational understandings of children, child development, and difference. While studying theories and research from fields of neuroscience, psychoanalysis, Disability Studies in Education, and critical perspectives in early childhood education, students will practice therapeutic techniques for observation and engagement with children and families.

ECED 4230 - Observing and Assessing Children in Context

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course provides students with knowledge and skills to use observation, documentation, and assessment tools to inform instruction, planning, and intervention programs for young children birth through eight years. Special attention is given to contextualized assessment practices that are responsive to children's strengths, needs, cultures, races, languages, and family experiences.
Suggested Requisite(s): Prerequisite ECED 2500, ECED 2610, ECED 2620; Corequisite ECED 4710, ECED 4720.

ECED 4510 - Contemporary Issues in Planning for Children

Credits: (1-3)
Variable Title
Description: An in-depth study of a contemporary issue in childhood. In some cases, this course may substitute for one of the minor requirements when it has received prior approval from a department advisor.
May be repeated up to 3 credit hours.
Note: This course is not currently offered.
ECED 4620 - Inclusive Early Childhood Curriculum

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: Critical issues, theories, research, and practice in curriculum for inclusive early childhood education. The goal of this course is to assist students in planning, implementing, and evaluating curriculum that is accessible and culturally sustaining for diverse children and families. Students will be challenged to develop and articulate their own philosophies on what should be taught to young children and why.

ECED 4630 - Young Children's Play

Credits: (3)
Typically Taught Summer Semester: 1st Block, 1st Block Online

Description: This course focuses on the active joyful nature of young children's play, therapeutic and educational value, and how play may vary for children experiencing diverse abilities, circumstances and cultural backgrounds. Students will gain practical strategies for supporting the play of all children.

ECED 4670 - STEM in Early Childhood

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.
Pre-requisite(s): ECED 2600, ECED 2610, ECED 2620.

ECED 4710 - Advanced Guidance and Planning for Early Childhood Education

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A synthesis of guidance and planning with an emphasis on assessment, appropriate objectives and strategies for individual and specific groups of children. Requires both lecture and lab time.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Co-Requisite(s): Students majoring in EC, ECE, or taking an early childhood specialization with their K-6 license will register for the section that is offered the first 5 weeks of the semester, and take it concurrently with ECED 4720.
Pre-requisite/Co-requisite: ECED 3640.

ECED 4720 INT - Student Teaching in the Children's School

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Experience in application of generalizations regarding growth, guidance, and development of children in the Melba S. Lehner Children's School. For juniors and seniors.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Co-Requisite(s): To be taken concurrently with ECED 4710.
Pre-requisite/Co-requisite: ECED 3640.
May be repeated 2 times up to 9 credit hours.

ECED 4721 - Student Teaching K-3
Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Student teaching provides a full-time 14-week, immersion experience for students in the early primary grades. Students are placed in one public school classroom and spend the entire semester there. The focus is the study of developmentally appropriate practices using NAEYC standards for primary grades. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the public school-early childhood classroom. Supervision provided by university supervisor and field-based professionals to meet national professional standards and support mastery of knowledge, skills, dispositions required for teacher certification concentration in Early Childhood Education (Kindergarten - grade 3).
Pre-requisite(s): ECED 2610, ECED 2620, ECED 4130, ECED 4230, ECED 4710, ECED 4720; EDUC 3115, EDUC 3120, EDUC 3230, EDUC 3280, EDUC 4345; ECED 4620 or (EDUC 3205 and EDUC 3270).

ECED 4730 - Early Childhood/Early Childhood Education Program Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course prepares students with skills specific to leadership roles in early childhood education programs including: professional ethics, ensuring the health and safety of children, ongoing quality improvement, program leadership, planning, and management. Content and skills focus on practices endorsed by the National Association for the Education of Young Children (NAEYC) and are aligned with the NAEYC Standards for Early Childhood Professional Preparation Programs.
Pre-requisite(s): ECED 2600, ECED 2610, ECED 2620, or consent of the instructor, and concurrent or prior enrollment in ECED 4710 and ECED 4720.

ECED 4800 - Individual Research

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor. May be repeated up to 6 credit hours.

ECED 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ECED 4820 - Child Observation Seminar

Credits: (1)
Typically Taught Summer Semester: 1st Block Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The Child Observation Seminar is a small group reflective practice seminar. Students meet weekly to view and discuss video clips from work with young children in school, home, or community settings. Groups are facilitated to support early childhood professionals in feeling and awareness in their subjective emotional present, toward new experiences of themselves with children, families, and fellow early childhood professionals that may transform their work.

ECED 4830 - Directed Readings
ECED 4860 INT - Practicum in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. The practicum requires 45 field experience hours for each credit hour registered. Consent of instructor or faculty advisor is required prior to registration.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620 and ECED 3640.
Suggested Requisite(s): Can be taken concurrently with ECED 4710 and ECED 4720.
May be repeated up to 6 credit hours.

ECED 4890 - Internship in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation of progress are included in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Consent of instructor or faculty advisor is required prior to registration.
Pre-requisite(s): For Early Childhood BS majors: ECED 4710 and ECED 4720, or consent of faculty supervisor.

ECED 4900 - Career Strategy Seminar

Credits: (1)
Description: Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.
Note: This course is not currently offered.

ECED 4910 - Children & Families: Variable Titles

Credits: (1-3)
Variable
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

ECED 4920 - Short Courses, Workshops, Institutes, and Special Programs
ECED 4980 - Early Childhood Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of Early Childhood/Elementary Education program of study with specific emphasis on beginning a professional career in teaching. Senior project not required.
Suggested Requisite(s): To be taken concurrently with student teaching.
Note: This course is taught as needed.

ECED 4990 - Seminar in Early Childhood Education

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is an Early Childhood Education capstone course in which students synthesize and demonstrate learning outcomes expected for all ECE professional standards and competencies.
Pre-requisite(s): ECED 2500, ECED 2600, and ECED 3500 or instructor's consent.
Pre-requisite/Co-requisite: ECED 3640, ECED 4710, and ECED 4720.

ECED 4990A - Seminar in Child Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Discussion and analysis of special topics for advanced Early Childhood and Early Childhood Education majors.
Pre-requisite(s): ECED 2500, ECED 2600, ECED 3640, and ECED 3500 (or EDUC 2010) or instructor's consent, and concurrent or prior enrollment in ECED 4710 and ECED 4720.

ECON 1010 SS - Economics as a Social Science

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to basic economic institutions and principles of economics for non-business and non-economics majors. The primary objective of the course is to provide a framework of economic approaches useful in the analysis of social problems. Topics include poverty, economic systems, crime, pollution, health, discrimination, unemployment, inflation, and the role of government in the economy.

ECON 1100 SS - Environmental Issues and Economic Policy

Credits: (3)
Description: An analysis of policies which affect environmental resources. Emphasis on economic analysis of renewable and nonrenewable resources, pollution, and public policy. This course demonstrates economic solutions to environmental problems, and the role economics plays in designing environmental policy.
Note: Check with department for course availability.

ECON 1740 AI - Economic History of the United States

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A critical study of the history of the American Economy, significant events, fundamental principles of a market economy, interactions between government and the market economy, and the evolution of fundamental economic institutions.

ECON 2010 SS - Principles of Microeconomics

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

Description: The application of economic concepts to the analysis of scarcity of individual, firm, and organizational behavior. Topic coverage includes the theories of how consumers and firms make choices, and how various rules guide their respective decisions. The course also explores the theory of market structures, such as perfect and imperfect competition, as well as monopoly.

Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2020 SS - Principles of Macroeconomics

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Analyzes human behavior and choices as they relate to the entire economy, with specific focus on national income measurement, unemployment, inflation, business cycles, global trade, and economic growth. Implications of different government policies, e.g., changes in taxation, government spending, money supply or interest rates for a stable economy and steady growth are explored.

Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2899 - Economics Foundations and Admissions Process

Credits: (0)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online

Description: Completion of ECON 2899 is required of all non-business Economics students pursuing any Bachelor of Science, Associate of Science, or minors awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Foundation knowledge, and 2) admittance to the Goddard School. Students should register for this course concurrent with (same semester as) their last required Foundation course (ECON 2010, ECON 2020, and QUAN 2600) or after the required Foundation courses have been completed. Students must have an overall GPA of 2.5 or higher and a Foundation GPA of 2.5 or higher and a minimum grade of "C-" in each of the three Foundation courses plus a minimum grade of "C" in the two Liberal Support courses. Credit/No credit.

Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

Pre-requisite/Co-requisite: (ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600.

Suggested Requisite(s): Students should register for this course concurrent with (same semester as) their last Economics Foundation course(s) (ENGL 2015 or ENGL 2015 and ECON 2010 and ECON 2020 and QUAN 2600) or after the required Economics Foundation courses have been completed.

ECON 2920 - Short Courses, Workshops, Institutes, and Special Programs
ECON 3030 - Managerial Economics

Credits: (3)
Description: This course uses the tools of differential calculus and regression theory to analyze the managerial decisions of individual firms.
Pre-requisite(s): MATH 1050, QUAN 2600, QUAN 3610.
Note: Course not currently being offered.

ECON 3090 - History of Economic Thought

Credits: (3)
Description: This course covers the major concepts and contributions of the scholars of the past in economic doctrine and interpretations.
Pre-requisite(s): ECON 2010, ECON 2020, and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 3110 - International Trade

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to the pure theory of trade, international trade agreements and negotiations (e.g., GATT, EU and NAFTA) and the institutions designed to encourage trade. Emphasis on the benefits of free trade as well as the reasons for the existence of trade barriers such as tariffs and quotas. Special topics include trade in agricultural products and international labor migration.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3120 - International Finance and Monetary Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Applications of the principle of economics to the international monetary system. Special emphasis on the way in which international monetary institutions can facilitate trade. Macroeconomic models of an open economy are used to examine the effect that international trade and financial ties have on the domestic economy. Special topics include institutions such as the World Bank and the IMF, along with regional monetary unification in Europe.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3150 - Business Studies Abroad-International Finance

Credits: (3)
Description: This course studies the globalization of financial markets and the environment in which international finance takes place, e.g., the international monetary system. With this background, a global financial strategy design for corporations will be discussed. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have
to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).

Note: Check with department for course availability.

**ECON 3200 - Money and Banking**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course presents a detailed description and economic analysis of the U.S. financial system which includes the banking industry, bond and stock markets, and the Federal Reserve system. This course serves as an extension to the material covered in an introductory macroeconomics course. The enhanced understanding of the workings of the financial system, including the determination of interest rates, will be used to trace out the channels of monetary policy as conducted by the Federal Reserve and the effect of monetary policy on financial markets, such as the stock market.

**Pre-requisite(s):** ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

**ECON 3300 - Environmental Economics**

**Credits:** (3)

**Typically Taught Spring Semester:** -Every Other - Full Sem

**Description:** Environmental Economics applies economic concepts to environmental and resource topics. We will use both standard economic and ecological analyses. Specific topics include externalities, public goods, environmental accounting, nonrenewable and renewable resource use, pollution, and climate change.

**Pre-requisite(s):** ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

**ECON 3400 - Labor Economics**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** The study of labor economics explores choices made by the two sides of the labor market, employers and workers and how these choices interact in determining wage and employment levels. Hence, an important part of the course consists of a detailed analysis of labor demand and supply. This analysis is followed by a discussion of why the labor market often does not clear, i.e., why we observe unemployment. The analysis focuses on special features of the labor market such as minimum wage, labor unions and efficiency wages. Other topics include the effect of education and training on earnings, the optimal incentive structure of an employment contract and determinants of income inequality.

**Pre-requisite(s):** ECON 2010, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

**ECON 3410 - Women in the World Economy**

**Credits:** (3)

**Description:** Applications of the principles of economics to the analysis of the economic status of women in the U.S. and elsewhere. The focus is on labor markets, income differentials, the tax system and household work. Special consideration is given to women in developing economies.

**Pre-requisite(s):** ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

**ECON 4010 - Intermediate Microeconomic Theory**
ECON 4020 - Intermediate Macroeconomic Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The building of standard models to test theories of long-run economic performance and short-term fluctuations in closed and open economies. Emphasis is placed on how fiscal and monetary policies encourage long-run growth while mitigating the negative effects of short-term fluctuations.
Pre-requisite(s): ECON 2010 and ECON 2020 and (QUAN 2400 or MATH 1210) and (BSAD 2899 or ECON 2899).

ECON 4170 - Economic Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The application of economic principles to the challenging problems of third world and developing nations including Africa, Asia, Latin America and the newly independent states of the Former Soviet Union and Eastern Europe.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4320 - Industrial Organization

Credits: (3)
Description: The theory and performance of firms and industries in the context of substantial market power and market regulation. Emphasis on oligopoly, game theory, and theory of markets within the context of global market competition.
Pre-requisite(s): QUAN 2400 or ECON 3030, ECON 2010.
Note: Course not currently being offered.

ECON 4330 - Game Theory

Credits: (3)
Typically Taught Fall Semester: Every Other - Full Sem
Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4520 - Public Finance

Credits: (3)
Description: This course covers the aspects of economic policy that arise in the operations of a public budget. Topics addressed include economic theories of bureaucracy, public expenditures, and taxation.

Pre-requisite(s): ECON 2010, ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 4550 - Introduction to Econometrics

Credits: (3)

Typically Taught Fall Semester: Full Sem

Description: Advanced Regression Analysis. Topics include ordinary least squares, generalized least squares, nonlinear regression, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively.

Pre-requisite(s): ECON 2010, ECON 2020, QUAN 2400, and QUAN 3610.

ECON 4560 - Mathematical Economics

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: Advanced application of mathematical modeling techniques to selected economic issues.

Pre-requisite(s): ECON 4010, ECON 4020, QUAN 2400 or MATH 1210, and QUAN 3610.

ECON 4800 - Independent Research

Credits: (1-3)

Description: Individual work or work in small groups, by arrangement, in special topics not included in the announced course offerings.

Pre-requisite(s): QUAN 3610 and approval of instructor.

May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

ECON 4810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

ECON 4850 - Economics Study Abroad

Credits: (1-3)

Description: This course is designed for students who will study economics at one of the international partner universities of the Goddard School of Business and Economics as part of an extended study abroad visit. Students will explore the international economic institutions, business culture, and applications of economic theory to countries outside of the US. Students will study international economics as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): ECON 2899 and BSAD 2899.

May be repeated once up to 6 credits.

Note: This course is offered as needed.

ECON 4860 INT - Economics Internship

Credits: (1-3)

Typically Taught Summer Semester: Full Sem

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies
and integrates the knowledge and skills obtained through the Business Economics or International Business Economics program courses.

**Pre-requisite(s):** BSAD 2899; Instructor approval.

### ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

*Note:* This course is offered as needed.

### ECON 4970 - Introduction to Research Methods

**Credits:** (1)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course prepares students for ECON 4980 Research Methods. Students will study the research process and the scientific method as it applies to economics. Students will have an opportunity to explore various fields and literature in order to design a thesis project for ECON 4980.

**Pre-requisite(s):** ECON 2899 or BSAD 2899.

### ECON 4980 CRE - Research Methods

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** A course designed for senior economics majors which requires the completion of an extensive thesis project. This course will focus on the formulation of hypotheses, review of relevant literature, and either theoretical or empirical analysis.

**Pre-requisite(s):** ECON 4970, BSAD 2899 or ECON 2899, QUAN 3610, ECON 4010 or ECON 4020.

### ECON 6550 - Econometrics

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** Regression Analysis. Topics include ordinary least squares, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively. By the end of the course, students will be able to: Develop a multiple regression model, understand the assumptions of multiple regression and recognize the consequences when they are not satisfied, test for statistical significance in a multiple regression setting, use dummy variables as independent and dependent variables, recognize endogenous regressors, and simulate key econometric principles.

**Pre-requisite(s):** Admission to the Master of Science in Data Science and the leveling courses associated with those requirements.

### ECON 6900 - Special Topics in Economics

**Credits:** (1-3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course explores new or otherwise relevant economics topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on students' transcripts. Course may be repeated for credit under different titles. Lecture or Lecture/Lab combination. May be taken twice up to 6 credits.

**Pre-requisite(s):** Instructor Permission.

### EDUC 1010 CEL - Exploring Teaching
EDUC 2000 - Social Studies Concepts for Elementary Teachers

Credits: (3)
Description: Fundamental concepts from the social sciences commonly found in elementary social studies curriculum. Note: This course is not currently offered.

EDUC 2010 CEL - Human Exceptionality

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the characteristics of exceptional children with emphasis on the educational and psychological implications of disabilities to the development of the child. A minimum grade of C is required in this course.

EDUC 2300 - Global Perspectives on Education and Learning

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course begins by introducing perspectives on globalization and how the globalization process impacts educational policies and practices. We will then discuss three major topics from an international and comparative perspective. These three topics are: 1) educational policies and practices; 2) pedagogies and classroom practices; 3) individual experiences of learning. Case studies will be used to demonstrate different ways to examine how schools teach, as well as how students learn, in various social contexts. Towards the end of the course, students will learn to develop age appropriate pedagogical tools by incorporating global learning perspectives that can be used in K-12 classrooms.

EDUC 2604 - Information Resources in Education

Credits: (1)
Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines. Cross-Listed with LIBS 2604.

EDUC 2800 - Instruction, Technology, Assessment, and Planning

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to prepare paraeducators with a foundation in supporting instructional planning, presenting instruction, using technology in the classroom, and using teacher selected assessment to determine student learning.

EDUC 2820 - Creating a Learning Environment

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** This course explores methods for designing positive K-12 learning environments. Students will be provided with a framework for supporting a positive learning environment including classroom spaces, and consider a wide range of strategies, techniques, and factors in supporting a positive learning environment for all learners.

**EDUC 2890 INT - Cooperative Work Experience**

Credits: (1-6)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** For students not yet accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/ background check must be completed prior to working in the schools. May be repeated up to 6 credit hours.

**EDUC 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
**Workshop**
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
**Note:** May be taken on a Credit/No Credit basis.

**EDUC 3100 - Instructional Planning & Assessment**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course introduces the basic concepts of lesson and unit design, planning and assessment based on student needs. May include field experiences that involve travel to local schools or other relevant destinations.
**Pre-requisite(s):** Completion of Elementary Education Level 1 courses with a grade of B- or better.
**Suggested Requisite(s):** This course should be taken with other courses in Elementary Education Level 2.

**EDUC 3110 - Instructional Technology**

Credits: (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $5.00
**Course Fee Purpose:** Course fees are used for consumable products and maintenance items for digital fabrication.
**Description:** This course allows students to apply existing technology literacy into educational environments to promote enhanced learning. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-8 settings. The course focuses on providing teacher licensure candidates with basic technology proficiencies for teaching with technology.
**Pre-requisite(s):** Completion of the computer and information literacy requirements.

**EDUC 3115 - Media Integration in Elementary Education Settings**

Credits: (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $5.00
**Course Fee Purpose:** Material fee 5.00
Used to pay for educative making materials that include paper circuit, 3D printing supplies and air filters for the laser cutter.
Description: This course focuses on how to create media to support and apply research-based principles for learning into educational environments. The course content is based on Utah core curriculum skills for students in the K-8 setting. The course provides students with technology proficiencies for integrating technology into teaching.

Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3117 - Media Integration in Elementary Education Settings 2

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: Course fees are used for consumable products and maintenance items for digital fabrication.
Description: This course focuses on integrating media and technology to support and apply research-based principles for learning in educational environments for traditional, blended, and online instruction. Students will continue to develop their skills and knowledge about how to incorporate technology into the curriculum to support meaningful instruction. A variety of technologies will be utilized for designing digital curriculum and developing 21st century standards. The course content is based on Utah core curriculum skills for students in the K-8 setting. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1.

EDUC 3120 - Reading Instruction in the Primary Grades

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to familiarize the teacher candidate with current knowledge and practices as they relate to teaching literacy (reading, writing, listening, and speaking) in the primary grades (K-2). The focus of this course will be how to apply current literacy research in a primary grade classroom.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3130 - Curriculum, Instructional Planning, and Assessment

Credits: (3)
Typically Taught Summer Semester: N/A
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course introduces the basic concepts of lesson and unit design, planning, and assessment based on student needs.
Pre-requisite(s): Elementary Level 1
Co-Requisite(s): Elementary Level 2
Note: Program of Study Code

EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The focus of this course is the fundamental theories and philosophies, concepts, processes, and applications related to human behavior, teaching and learning, interpersonal relationships, and classroom management.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3205, EDUC 3270, EDUC 4550.

EDUC 3145 - Educational Psychology, Child Development, and Classroom Management
EDUC 3205 - Culturally and Linguistically Responsive Teaching

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Rationales, concepts, practices provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values are also explored. Experiences are provided intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3210 INT - Elementary Level II Practicum

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on integrating the arts, healthy lifestyles, and literacy. Students are required to spend at least 40 hours in an assigned classroom.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3240, EDUC 4345, PEP 3620.

EDUC 3220 - Foundations of Diversity

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Rationales, concepts, practice provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values. Experiences intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, and EDUC 3935.

EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will focus on the study of statistics and probability in the Utah mathematics core (K-8) and appropriate mathematics teaching methods. Emphasis will also be on the developing an understanding of the Standards of Mathematical Practice. Teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations will be addressed. This course builds upon and will use content learned in MATH 2010, 2015, and 2020. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1. Should be taken with Elementary/Early Childhood Level 2 courses.

EDUC 3240 - Reading Instruction in the Intermediate Grades

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will provide theories, methods, and assessments for reading in the elementary school, Grades 3-6. Students will understand reading instruction in relation to the wider processes of literacy and language development to guide elementary students to effectively communicate through oral and written languages for different contexts, which includes text-based and digital environments. The course will also include the contemporary issues on elementary reading instruction. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken concurrently with EDUC 3100, EDUC 3210, EDUC 4345, PEP 3620.

EDUC 3265 - The Exceptional Student

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will learn about the learning and social characteristics of young people with exceptionalities—that is, disabilities (physical, mental, learning) or giftedness—and about public policy and services available to them. As future teachers, they will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3900, EDUC 3315, EDUC 3935, EDUC 3910.

EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The Individuals with Disabilities Education Improvement Act of 2004 (IDEA-04) mandates that students with disabilities be educated "to the maximum extent appropriate with children who are not disabled." The expectation is that students with disabilities will have access to, and make adequate progress in, the general curriculum. Therefore, it is essential for general educators and special educators to work collaboratively. This course is designed to provide preservice teachers with the knowledge and skills of effective inclusive teaching practices.
Pre-requisite(s): Admission to Teacher Education and EDUC 2010.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3280 - Elementary Social Studies Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on the place of social studies in the elementary school curriculum, the scope and rationale of the social studies curriculum, connections with other subject areas, teaching and assessment strategies, and building classroom community.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330.
EDUC 3300 - Introduction to International Education: Case Studies

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course uses case studies of education systems and practices from Japan, China, South Korea, Finland, Cuba, Germany, Poland, and the U.S. to demonstrate the interactions of social-cultural contexts, school policies and practices, as well as the individuals' learning processes. Theories of and perspectives on examining educational policies and practices will be introduced throughout the class along with case studies covering a diverse range of contexts. The class will be a mix of lectures, discussions, and in-class demonstrations, so students will have many opportunities to actively engage with the material in multiple ways. Students will also have opportunities to discuss educational issues with college students from China, Japan, India and Singapore via a virtual platform.

EDUC 3315 - Media Integration in the Secondary School Setting

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course focuses on how to create media to support and apply research-based principles for learning into the educational environments. The curriculum is based on Core Curriculum skills for students in grades 9-12. The course content provides teacher licensure candidates with technology proficiencies for integrating technology into teaching.

Pre-requisite(s): Admission to Teacher Education. Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935.

EDUC 3370 - Advanced Instructional Technology

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $5.00

Course Fee Purpose: Course fees are used for consumable products and maintenance items for digital fabrication.

Description: This course allows students to apply existing technology literacy into educational environments to promote advanced use of educational technology in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-6 settings. The course focuses on providing teacher licensure candidates with advanced technology proficiencies for teaching with technology.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

EDUC 3371 - Assistive Technology

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course provides students with an understanding of the use of assistive technology for students with disabilities. Students will learn to assess student assistive technology needs, identify assistive technology used to provide students access to educational opportunities, and application of assistive technology in instructional programs, career tasks, and life skills for individuals with disabilities.

EDUC 3375 - Foundations of Dual Immersion or Immersion Education

Credits: (3)

Description: The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.
EDUC 3390 - Literacy in the Primary Grades

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Analysis of developmental reading skills with emphasis on readiness for reading, phonic and structural analysis, word recognition, use of the basal reader, and reading for various purposes.

EDUC 3430 - Creative Processes in the Elementary School

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: A $15 fee is associated with this course. A ukulele will be available for you to borrow during the semester. Art supplies for projects completed in the classroom will be supplied.
Description: This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories that support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course is designed to teach teacher candidates validated classroom management strategies and level one behavioral intervention strategies. This course focuses on techniques and methods for preventative classroom student management. The course will assist candidates in writing effective classroom management plans. Candidates will be introduced to the process of Functional Behavior Assessments and Behavior Intervention Plans.
Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to teach pre-service teachers validated accommodations and supports for K-12 students with disabilities struggling in English Language Arts (ELA) and/or Math in inclusive settings, specifically focusing on reading, writing, speaking, listening, language, and math.
Pre-requisite(s): MATH 2010, successful completion of Education Level 1.

EDUC 3590 - Working with Students with ELA or Math Disabilities in Resource Settings

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to teach pre-service teachers validated evaluation and remediation strategies for K-12 students with disabilities in English Language Arts and/or math, focusing on identifying deficits and designing and disseminating evidence-based remediation plans.
Pre-requisite(s): MATH 2020, successful completion of Level 2

EDUC 3900 - Preparing, Teaching, and Assessing Instruction

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This integrated course will focus on lesson planning, teaching, and assessment through the application of the
Teacher Work Sample (TWS) using lesson plan formats taught in the content areas. A variety of instructional strategies effective for use at the secondary level will be taught and modeled.

**Pre-requisite(s):** Admission to Teacher Education.

**Suggested Requisite(s):** This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3315, EDUC 3265, EDUC 3910, and EDUC 3935.

### EDUC 3910 INT - Secondary Education Practicum

**Credits:** (2)

**Course Fee:** $18.00

**Course Fee Purpose:** Course fees are used for practicum supervisor visits.

**Description:** The purpose of this practicum is to provide students with opportunities to design and implement content-specific instruction at the secondary level. Students are required to spend at least 40 hours in an assigned classroom.

**Pre-requisite(s):** Admission to Teacher Education.

**Suggested Requisite(s):** This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3935.

### EDUC 3935 - Reading and Writing Across the Secondary Curriculum

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course will focus on assessment of reading comprehension of students, and decisions teachers make concerning methods, materials and procedures based on those assessments. Teacher candidates will integrate literacy skills (vocabulary, study skills, comprehension development and writing) within their respective content areas and teach sample lessons to secondary students.

**Pre-requisite(s):** Admission to Teacher Education.

**Suggested Requisite(s):** This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3935.

### EDUC 4210 INT - Elementary Level III Practicum

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $15.00

**Course Fee Purpose:** Course fees are used to pay for mileage of supervisors.

**Description:** The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on instruction of core subjects including language arts, mathematics, science, and social studies. Students are required to spend at least 60 hours in an assigned classroom.

**Pre-requisite(s):** Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.

**Suggested Requisite(s):** This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4300, EDUC 4320, EDUC 4330.

### EDUC 4250 - Second Language Acquisition: Theories and Implementation

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

### EDUC 4270 - Literacy Strategies for Teaching English Language Learners

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to
apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

**EDUC 4300 - Elementary Mathematics Methods**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Course Fee:** $6.00  
**Course Fee Purpose:** Course fees are used to replenish consumable and manipulatives.  
**Description:** This course includes the study of mathematics methods appropriate for elementary school curriculum with specific emphasis on developmental strategies including the concrete-representational-abstract instructional model. Connections to other subject areas, problem solving, critical thinking skills and real-life situations are stressed.  
**Pre-requisite(s):** Completion of Elementary Education Level 2 courses with a grade of B- or better.  
**Suggested Requisite(s):** This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4320, EDUC 4330.

**EDUC 4310 - Foundations of Cooperative Learning**

**Credits:** (2)  
**Description:** This course examines the rational, principles, skills and interaction strategies necessary before implementing Cooperative Learning in the classroom. Emphasis will be upon the basic components of Cooperative Learning, team building, and simple teamwork. Methods and strategies will be demonstrated and will involve active student group participation.

**EDUC 4320 - Elementary Language Arts Methods**

**Credits:** (3)  

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Description:** This course focuses on methods for language arts instruction in the elementary setting with specific emphasis on writing strategies. Particular emphasis is given to models of research-based instruction of core curriculum in language art.  
**Pre-requisite(s):** Completion of Elementary Education Level 2 courses with a grade of B- or better.  
**Suggested Requisite(s):** This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4330.

**EDUC 4330 - Elementary Science Methods**

**Credits:** (3)  

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Course Fee:** $3.00  
**Course Fee Purpose:** Course fees are used to purchase items used in science demonstrations and labs.  
**Description:** This course focuses on methods and materials for teaching hands-on guided discovery science with an emphasis on concepts included in the Utah core curriculum.  
**Pre-requisite(s):** Completion of Elementary Education Level 2 courses with a grade of B- or better.  
**Suggested Requisite(s):** This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320.

**EDUC 4345 - Elementary Integrated Arts Methods**

**Credits:** (3)  

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Course Fee:** $15.00  
**Course Fee Purpose:** A fifteen dollar fee is associated with this course in order to replenish equipment and supplies. Art and other supplies are required for some assignments and meetings. If you are completing portions of the course remotely, you may need to purchase some supplies, or you can come to campus to pick up anything that is needed (by appointment).
Description: This course is designed to prepare students to successfully teach art and music in the elementary classroom. Students are expected to design, prepare and teach lessons to engage elementary students in art and music activities. May include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3210, EDUC 3240, PEP 3620.

EDUC 4350 - Elementary Mathematics Pedagogy

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: This course has a fee that covers the purchase and replacement of mathematics manipulatives used by students.

Description: This course will focus on the study of appropriate mathematics teaching methods for the Utah core curriculum. Emphasis will be on teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations. Students will practice teaching mathematics using content from the K-8 Utah Mathematics Core.

Pre-requisite(s): EDUC 3230.

EDUC 4380A - Student Teaching in Elementary Education

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.

Description: Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.

Pre-requisite(s): EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4380B - Student Teaching in Elementary Education

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $175.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.

Description: Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.

Pre-requisite(s): EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4400 - International Education Experiences: Study Abroad

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This is a study abroad course led by two faculty members from Moyes College of Education. The class will visit various kinds of schools, interview teachers, students and parents, as well as study the socio-cultural contexts of a certain country or region. We expect the learning to occur during the lectures conducted by WSU faculty, the observations of the classes in the schools, visits to the schools and other educational/cultural sites, communications between students and school teachers and administrators in a certain country, as well as reflection sessions led by WSU faculty. The country covered by this course may
change from year to year. Examples of countries include Nordic countries (Finland, Sweden, and Estonia) or selected South Asian countries (Singapore and Vietnam).

**EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment**

**Credits:** (3)

**Description:** Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

**EDUC 4420 - Foundations of Education of the Gifted**

**Credits:** (2)

**Description:** An overview of education for the gifted and talented; historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum, and educational program options; special populations of gifted students.

Note: This course is not currently offered.

**EDUC 4450 - Creativity and Applied Imagination in the K-12 Classroom**

**Credits:** (2)

**Description:** Exploration and development of readily available personal and community resources to encourage creative thinking, classroom involvement, and transfer of learning.

Note: This course is not currently offered.

**EDUC 4470 - Teaching for Thinking**

**Credits:** (2)

**Description:** Theory and practice for teaching thinking skills in elementary, middle, and high school classrooms.

**Pre-requisite(s):** Admission to Teacher Education and EDUC 3140 or equivalent.

Note: This course is not currently offered.

**EDUC 4480 - Differentiated Curriculum for the Gifted and Talented**

**Credits:** (3)

**Description:** Curriculum theories and educational strategies for educating gifted and talented students. A practical course, with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.

Note: This course is not currently offered.

**EDUC 4490 - Assessment and Evaluation in Education of the Gifted**

**Credits:** (3)

**Description:** Principles of assessment applied to: identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.

Note: This course is not currently offered.

**EDUC 4510 - Foundations in Special Education Practice and Law**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $5.00

**Course Fee Purpose:** Course fees are used to purchase USBE rules.

**Description:** This course will introduce students to the philosophical, historical, legal and ethical foundations of special
education. Students will examine in depth the characteristics of exceptional learners.

**Pre-requisite(s):** Admission to Teacher Education, EDUC 2010.

### EDUC 4515 - IEP Planning and Special Education Law

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Description:** This course provides students with a broad knowledge and understanding of a wide range of legal issues concerning the provision of special education services to students with disabilities. A review of pertinent legislation concerning human and constitutional rights related to persons with disabilities will be addressed. Teachers' specific responsibilities and liabilities are described and related to current requirements for development of appropriate educational programs.

**Pre-requisite(s):** Completion of Special Education Level 2 courses with a grade of B- or better.

### EDUC 4520 - Collaboration, Consultation, and IEP Development

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities and techniques of collaboration and consultation.

**Pre-requisite(s):** Admission to Teacher Education.

### EDUC 4521 - Practicum in Special Education A

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $10.00
**Course Fee Purpose:** Mileage fee for supervision
**Description:** The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality inclusion strategies while working with students in special education. Teacher candidates are required to spend at least 60 hours in an assigned classroom.

**Pre-requisite(s):** Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

### EDUC 4530 - Principles and Applications of Special Education Assessment

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $20.00
**Course Fee Purpose:** This course is designed to provide students with knowledge of the basic terminology of test measurements, criterion referenced assessments, curriculum based assessments and data collection. The fees in this course are used for purchasing assessment instruments used in schools.
**Description:** Administer, score, and interpret norm-referenced assessments instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs. Requires passing Block 1 with a B- or better.

**Suggested Requisite(s):** This course is part of Special Education Block 3 courses and should be taken with EDUC 4545, EDUC 4565, EDUC 4575, EDUC 4580.

### EDUC 4535 - Strategic Plan for Disability

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course is designed to instruct students in methods to successfully facilitate the inclusion of students with disabilities in the general education classroom. Strategies will be given for how to initiate, grow, and sustain, effective collaborative educational environments, utilize specifically designed instruction, and develop targeted accommodations and modifications that can be efficiently delivered in general education environments to create meaningful access for students with disabilities.

**Pre-requisite(s):** Completion of Education Level 1 courses with a grade of B- or better.
EDUC 4540 - Managing Student Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Current issues, practices, and application of a variety of approaches for behavior change, discipline and management of the classroom environment, and the teaching of appropriate social skills.
Suggested Requisite(s): This course is part of Special Education Block 1 courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4550, EDUC 4560.

EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to teach teacher candidates validated individual behavioral intervention strategies, particularly those designed to meet the needs of students with severe behavioral and social skill deficits. This course will address the needs of those candidates using Applied Behavior Analysis. Candidates will conduct functional assessments and write and implement a function-based behavior intervention plan.
Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

EDUC 4550 - Instructional Planning and Learning Environments for Special Education Students

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3205, EDUC 3270.

EDUC 4555 - Validated Instructional Methods: Reading

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.
Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4570, EDUC 4580, EDUC 4581.

EDUC 4560 - Validated Instructional Methods: Mathematics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.
Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Special Education Block 2 Integrated Methods courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4540, EDUC 4550.

EDUC 4570 - Validated Instructional Methods: Written Expression
Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.  
Pre-requisite(s): EDUC 4530.  
Co-Requisite(s): EDUC 4581.  
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4580, EDUC 4581.

EDUC 4580 - Instructional and Transition Planning for Special Education Students

Credits: (3)  
Typically Taught Spring Semester: Full Sem  
Course Fee: $7.00  
Course Fee Purpose: The course fees in this course will be used to buy consumable assessment protocols and to purchase non-consumable assessment kits as new versions are made available.  
Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.  
Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 4581 - Pre-Student Teaching in Special Education: Assessment, Behavior Management, Instruction

Credits: (4)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: The purpose of Pre-Student Teaching is to continue field experience in a supportive and professional manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the Cooperating Teacher and the Course Instructor. This course is designed to provide students with practical experiences in the areas of: a) literacy curriculum and instruction for students K-12, and (b) planning and developing post-secondary transition plans. Practical experience in assessment and behavior management are continued.  
Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.  
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4570, EDUC 4580.

EDUC 4582 INT - Practicum in Special Education B

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Course Fee: $15.00  
Course Fee Purpose: Mileage fee for supervision  
Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality instruction while working in special education and/or general education classrooms.  
Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

EDUC 4640 - Validated Instructional Methods: Mathematics

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

EDUC 4650 - Validated Instructional Methods: Reading
EDUC 4660 - Validated Instructional Methods: Written Expression

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

EDUC 4670A - Special Education Student Teaching

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4670B - Special Education Student Teaching

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $175.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4680A INT - Special Education Student Teaching

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Supervision stipend and mileage reimbursement.
Description: Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of Special Education levels 1-3 with B- or above.
Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4680B INT - Special Education Student Teaching
EDUC 4685 - Special Education Student Teaching Seminar and Synthesis

Credits: (1)
Description: The Seminar and Synthesis will support student teaching through regular meetings.
Pre-requisite(s): Successful completion of Special Education Licensure requirements.
Co-Requisite(s): Must be taken concurrently with EDUC 4670A.
Note: This course is available to non-majors.

EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The Seminar and Synthesis will support student teaching through regular meetings on campus.
Pre-requisite(s): SPED Levels 1-3 and approval by student teaching director.

EDUC 4700 - Learning in the Schools

Credits: (2)
Description: Principles of learning and management and their application to the school situation.
Pre-requisite(s): Student teaching.

EDUC 4740 - Building School Partnerships with ESL/Bilingual Families

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course prepares students to be advocates and practitioners of family involvement in education. Goals and benefits of family involvement will be explored along with specific strategies for developing a partnership within the education system. Components of family structure, economics, cultural diversity, second-language learners, communication skills and resources are integrated into the student experience.

EDUC 4820E - Managing Diverse Classrooms

Credits: (3)
Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.
Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).
Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4840A, EDUC 4860).
Note: This course is not currently offered.

EDUC 4820S - Managing Diverse Classrooms
Credits: (3)
Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3900, and EDUC 3935). Note: This course is not currently offered.

EDUC 4830 - Individually Prescribed Program

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed primarily for individual needs. May be repeated up to 6 credit hours.

EDUC 4840A INT - Student Teaching in Elementary Education

Credits: (8)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Student teaching supervision stipend and mileage.
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): EDUC Levels 1-3 and permission of the Field Experience Director.
Suggested Requisite(s): Should be taken concurrently with EDUC 4850.

EDUC 4840B INT - Student Teaching in Elementary Education

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $350.00
Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): EDUC Levels 1-3 and permission of the Field Experience Director.
Co-Requisite(s): Should be taken concurrently with EDUC 4850.

EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will help prepare teacher candidates for student teaching and ultimately licensure with two different types of activities. First, are weekly, 3-hour collaboration and topical seminars emphasizing on-going discussions and support on classroom management, preparing the TWS and INTASC portfolio, creating your career file, and other education issues. Second, is a two-day workshop to synthesize the semester and have your INTASC portfolio assessed.
Pre-requisite(s): Satisfactory completion of Levels 1-3.
Suggested Requisite(s): Should be taken concurrently with EDUC 4840A/B

EDUC 4860 - Elementary Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of the TREC model for elementary programs with specific emphasis on beginning a professional career in teaching. Senior project is required. To be taken for CR/NC only.
Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC
Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4820E, EDUC 4840A).
Note: This course is not currently offered.

EDUC 4870 - Directed Experiences with Students

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Directed experiences with elementary and secondary school students in cooperating schools. Students may register for one unit of credit per semester for a maximum of three semester hours.

EDUC 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: For students accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/background check must be completed prior to working in the schools. May be repeated up to 6 credit hours.

EDUC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Course Fee: $40.00
Course Fee Purpose: This is a short course special topics and varies what the fees are used for.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: Available on CR/NC basis.

EDUC 4930A - Student Teaching in Secondary Education

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4930B - Student Teaching in Secondary Education

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $175.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935) and
EDUC 4940A INT - Student Teaching in Secondary Education

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 Integrated Secondary Student Teaching Seminar.

EDUC 4940B INT - Student Teaching in Secondary Education

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $350.00
Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 - Integrated Secondary Student Teaching Seminar.

EDUC 4950 - Integrated Secondary Student Teaching Seminar

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation and support for secondary clinical practice. Collaborative and topical seminars will emphasize on-going discussions and support on classroom management, ethics, preparing the TWS and INTASC portfolio, creating a career file, and secondary school issues.
Pre-requisite(s): Completion of Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with Student Teaching in Secondary Education (EDUC 4930A or EDUC 4940A).

EDUC 4960 - Secondary Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of the TREC Model for elementary and secondary programs with specific emphasis on beginning a professional career in teaching. Senior Project is required.
Suggested Requisite(s): Should be taken concurrently with EDUC 4820S and EDUC 4840A.
Note: This course is not currently offered.

EDUC 5050 - Action Research in the Classroom

Credits: (2)
Description: Students will explore effective classroom-based research techniques, complete a classroom-based case study, and promote the ongoing application of research to the improvement of teaching practice. This course is designed for cooperating teachers in the site-based teacher education program, and is graded CR/NC.
Note: This course is offered as needed.
EDUC 5060 - Effective Mentoring in the Classroom

Credits: (2)
Description: Course covers strategies for effectively mentoring student teachers and novice teachers by expert teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.
Note: This course is offered as needed.

EDUC 5110 - Advanced Multicultural/Bilingual Education

Credits: (3)
Description: Provides a knowledge base concerning the curricular issues and need for multicultural education, and explores various curriculum models and approaches for successful implementation of multicultural education across the curriculum.

EDUC 5120 - Culture and Language

Credits: (3)
Description: Examines the effects and impact of historical, political, social, and economic issues which affect teaching and learning for students from diverse cultural and ethnic groups.

EDUC 5320 - Reading in the Content Areas

Credits: (3)
Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.

EDUC 5330 - Using Children's Literature in the Classroom

Credits: (2)
Description: This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

EDUC 5340 - Assessment and Corrective Procedures in Reading

Credits: (3)
Description: Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

EDUC 5360 - Literacy in the Elementary School

Credits: (3)
Description: An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

EDUC 5770 INT - Field Experience in ESL/Bilingual Education

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will gain experience in teaching and working with ESL/bilingual students and apply what they have learned from relevant courses.

EDUC 5920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offerings under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: Available on CR/NC basis.

EDUC 5920G - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated up to 18 credit hours. Note: Available on CR/NC basis. For graduate students.

EEN 1200 - Introduction to Energy Engineering

Credits: (2)
Description: Introduction to the field of energy engineering. Energy sources, electrical power generation, renewable and non-renewable energy, environmental and economic issues, the energy future.
Pre-requisite(s): ENGR 1000 and PHYS 2210.

EEN 2600 - Engineering Economics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Emphasizes the systematic evaluation of the costs and benefits of engineering solutions. Topics include equivalence, simple and compound interest, cash flow diagrams, present worth, equivalent uniform annual worth, rate of return, payback period, depreciation, income taxes, and inflation.
Pre-requisite(s): MATH 1050 or equivalent placement.

EEN 3000 - Design, Ethics & Entrepreneurship

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Fundamentals of the engineering design process. Design modeling, simulation, documentation and communication. Engineering ethics and entrepreneurship.
Pre-requisite(s): EEN 1200.

EEN 3200 - Sustainable Energy

Credits: (3)
Description: Introduction to sustainable energy. Energy conservation and efficiency. Renewable energy systems and energy storage. Economic, societal and environmental aspects of sustainable energy.
Pre-requisite(s): EEN 1200.

EEN 4100 - Senior Project I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An energy engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.
Pre-requisite(s): Departmental permission.
EEN 4200 - Senior Project II

Credits: (3)
Description: Continuation of EEN 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.
Pre-requisite(s): EEN 4100.

EEN 4300 - Energy Auditing

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to energy auditing of buildings and industrial processes. Energy assessment, conservation, efficiency, and cost analysis of energy systems.
Pre-requisite(s): EEN 2600 and ME 4000.

EEN 4420 - Renewable Energy Systems Design I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to renewable energy systems. In-depth coverage of the analysis and design of solar and wind energy systems.
Pre-requisite(s): EEN 3200 and ME 4000.

EEN 4430 - Renewable Energy Systems Design II

Credits: (3)
Description: Follow-on course to EEN 4420. Analysis and design of hydroelectric, geothermal, marine, and biomass energy systems. Environmental and economic impacts of these renewable energy technologies.
Pre-requisite(s): EEN 4420.

EEN 4440 - Introduction to Energy Systems

Credits: (3)
Typically Taught Summer Semester: -
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to systems engineering as applied to the energy industry. Systems definition, attributes and properties. Command and control, mission modeling, verification and validation, documentation.
Pre-requisite(s): EEN 3000.

EEN 4450 - Electric Vehicles Engineering

Credits: (3)
Description: Introduction to electric and hybrid-electric vehicles. Alternative fuels, powertrains, battery technologies, vehicle dynamics, propulsion, energy management, braking and controls.
Pre-requisite(s): EEN 3200.

EEN 4460 - Energy Management

Credits: (3)
Description: Energy management design, utility rates, economic analyses, mechanical and electrical systems, safety, green
Technologies and sustainability.
Pre-requisite(s): EEN 3000.

**EEN 4470 - Energy and Environmental Issues**

Credits: (3)
Description: Environmental impacts of energy systems, fossil fuels, renewable and green technologies, nuclear energy, energy conservation and climate change.
Pre-requisite(s): EEN 3200.

**EEN 4480 - Energy and Legal Issues**

Credits: (3)
Description: Legal issues of energy systems, regulations, case law pertaining to development and implementation of energy systems, climate change, political influences.
Pre-requisite(s): EEN 3000.

**EET 1110 - Basic Electronics**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to the concepts and fundamentals of electronic devices, circuits and systems. An electronics overview course for technology majors. Topics include direct current electricity, alternating current electricity, transistors and integrated circuits, amplifiers and oscillators, transmitters and receivers, digital logic circuits, electronic memory, and computers.
Pre-requisite(s): Credit for or concurrent enrollment in MATH 1010 or higher.

**EET 1130 - Digital Systems**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, programmable logic devices, and computer architecture. Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.
Pre-requisite/Co-requisite: Prerequisite: Credit for or concurrent enrollment in MATH 1010 or equivalent or any higher math.

**EET 1140 - DC Circuits**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to DC circuit fundamentals, analysis, theorems, laws, components, measuring devices, and equipment. The introduction and use of measuring instruments and power supplies. Lecture and lab combination. Laboratory activities to include circuit design, construction, and analysis of DC circuits.
Pre-requisite/Co-requisite: Prerequisite: EET 1110 and credit for or concurrent enrollment in MATH 1060 or MATH 1080 or any higher math.

**EET 1850 - Industrial Electronics**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Industrial electronics course for Mechanical and Manufacturing Engineering Technology majors. Introduction to DC and AC circuits, machines, and power systems. Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of DC/AC circuits and machinery.
Pre-requisite(s): MATH 1010 or equivalent or any higher math.

EET 2010 - AC Circuits

Credits: (3)
Description: The course serves as an extension of circuit analysis methods taught in EET 1140 to AC networks. The introduction of complex numbers and phasor notation at the beginning of the course is followed by AC circuit analysis techniques and the determination of the frequency response for passive AC networks. The course is a combination of lecture and laboratory formats. Laboratory activities will include the design, computer simulation, validation and analysis of passive AC networks.
Pre-requisite(s): EET 1140 and credit for MATH 1060 or MATH 1080.

EET 2110 - Semiconductor Circuits

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to the design and analysis of semiconductor circuits using diodes, transistors, op-amps, field effect devices, thyristors, and regulators. Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.
Pre-requisite(s): EET 1130, EET 1140, MATH 1060 or higher.

EET 2120 - Power and Motors

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to AC and DC motors, relays, transformers, power measurements, National Electrical Code, ladder logic, wiring, and programmable logic controllers (PLCs). Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of basic power circuits and machinery configurations.
Pre-requisite(s): EET 1140, MATH 1060 or higher.

EET 2130 - PC Board Design

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to the design of printed circuit boards and packaging with emphasis on the design, simulation, analysis and packaging of circuits. Lecture and lab combination. Laboratory activities include the design, construction, and testing of prototype circuit boards. CAD programs will be used for the design and layout of circuit boards.
Pre-requisite(s): EET 2110.

EET 2140 - Communications Systems
**EET 2150 - Embedded Controllers**

**Credits:** (4)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $50.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.  
**Description:** A study of microprocessors, embedded controllers, operational characteristics, computer architecture, machine code programming, memory devices, and interfacing.  
Lecture and lab combination. Laboratory activities include the design, construction, and analysis of microprocessor based systems. Analysis techniques include the use of assemblers, cross-assemblers, and emulators.  
**Pre-requisite(s):** Credit for or Current Enrollment in EET 2110.

**EET 2160 - Troubleshooting**

**Credits:** (3)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $100.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.  
**Description:** An introduction to troubleshooting techniques and skills. Topics include the use of diagnostic electronic test equipment such as multi-meters, power supplies, signal generators, digital storage oscilloscopes, and spectrum analyzers. Students will diagnose and repair electronic circuits and systems.  
Lecture and laboratory combination.  
**Pre-requisite(s):** EET 2110, EET 2120, EET 2170.

**EET 2170 - Industrial Controls**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Course Fee:** $100.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.  
**Description:** Introduction to industrial control systems for manufacturing and automated test applications. The course will focus on LabVIEW control systems and Programmable Logic Controllers (PLCs). Students will configure, program, and troubleshoot industrial control systems.  
Lecture and lab combination.  
**Pre-requisite(s):** EET 1130, EET 1140.

**EET 2180 - Solar PV Systems**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** The purpose of this course is for each student to learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. This course discusses the limitation and the impacts of using fossil fuel energy and its possible impact on global climate change. Solar energy can provide a long term solution and minimize climate change. This course will enable students to build an essential foundation towards how to design the solar PV systems for various applications. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical...
designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 1140 or EET 1850.

EET 2190 - Solar PV Technical Assessments

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to educate each student how to be a solar electric professional with demonstrated expertise in the siting, design, analysis and performance of PV systems from site specific information, analyzes customer needs and energy usage for the purpose of advising and providing customers with the most appropriate solution for their situation. Each student will also learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components and configurations, grid-tied and battery-based systems, load analysis, qualifying the customer, site analysis, conceptual PV system design, financial costs, incentives and savings, financial benefit analysis and financing, non-financial benefit analysis, performance analysis, prepare proposals, and professional sales skills. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 1140 or EET 1850.

EET 3010 - Circuit Analysis

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Advanced calculus-based topics related to electronic circuit analysis, Laplace transforms, differential equations, Fourier series, Fourier transforms, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.

Pre-requisite(s): EET 2110, EET 2140, Credit for or Current Enrollment in in MATH 1210.

EET 3020 - Active Filters

Credits: (4)
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Continuation of Circuit Analysis, EET 3010. Topics include active and passive filters, Pole-zero analysis, stability, Bode diagrams, frequency response, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.

Pre-requisite(s): EET 3010.

EET 3030 - FPGA and ASIC Design

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to field programmable gate arrays (FPGA) and application specific integrated circuit (ASIC) design. Lecture and lab combination. Laboratory activities to include the use of computer design tools to design, model, simulate, and program gate arrays and application specific integrated circuits.

Pre-requisite(s): EET 2150.

EET 3040 - Instrumentation and Measurements
EET 3050 - Microprocessor Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to electronic data acquisition, data analysis, error analysis, signal measurement, and automatic testing techniques.
Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of measurement circuits, data acquisition circuits, instrumentation devices, and automatic testing.
Pre-requisite(s): EET 2110, EET 2170.

EET 3060 - Real-Time Embedded Controllers

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Microprocessor system development using modern software design principles and high level programming languages. Topics include peripheral interfacing, real-time operating systems and debugging techniques.
Lecture and lab combination. Laboratory activities to include design, simulation, computer programming, analysis, and troubleshooting.
Pre-requisite(s): EET 2150 and either CS 1410 or CS 2250.

EET 3070 - Engineering Technology Research

Credits: (3)
Description: Engineering problem solving using the Internet, professional journals, and human networking. Three styles of writing emphasized: technical descriptions, historical perspectives of technology, and technical defensible arguments.
Pre-requisite(s): AAS degree in CET or EET.

EET 3080 - Embedded Networks

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course provides an in-depth study of several serial communication standards and how to implement them in embedded systems. The standards addressed in this class include RS232, RS485, Controller Area Network (CAN), and Ethernet. Emphasis will be placed on utilizing the stacks and protocols for each standard. The channel bandwidth, noise, and data error rate will be addressed. Wireless methods of serial communication will be surveyed.
Pre-requisite(s): EET 2150.

EET 3090 - Project Management

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: EET 3090 Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management.

Pre-requisite(s): EET 1110, and EET 1140, and EET 2010.

EET 3100 - Renewable Energy

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The purpose of the EET 3100 Renewable Energy course is for each student to learn the fundamental knowledge and technology of various types of renewable energy including solar energy, wind power, hydroelectric, geothermal energy, biomass and ocean energy. This course discusses the limitations and the impacts of using fossil fuel energy and its possible impact on global climate change. This course will enable students to build an essential foundation towards the specific applications of renewable energy such as solar PV (Photovoltaic) systems, wind turbine systems and micro-hydro systems. Incentives, rebates and policies from federal, state and local power companies will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in the area of renewable energy.

Pre-requisite(s): EET 1110 or EET 1850.

EET 3180 - Advanced Solar PV Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The purpose of this course is for each student to learn the advanced knowledge and technology of solar PV (Photovoltaic) systems. This course will enable students to verify system design, manage project, install electrical and mechanical components, complete system installation, and conduct maintenance and troubleshooting. The topics in this course includes PV markets and applications, safety requirements, the advanced technology of solar PV systems, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting, and CAD software for PV system design. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 2180.

EET 3810 - Experimental Course

Credits: (1-6)
Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

EET 4010 - Senior Project I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.

Pre-requisite(s): EET 3090.

EET 4020 - Senior Project II
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: A continuation of EET 4010 Senior Project I. Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.
Pre-requisite(s): EET 4010.

EET 4030 - Controls & Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to automatic control theory, analysis, and testing, pole, zero, Bode plots, and frequency response. The design and application of programmable controllers using ladder logic, sequential functions charts, PID, and data highway. Lecture and lab combination. Laboratory activities to include computer simulation, servo-system construction, and analysis.
Pre-requisite(s): EET 3010, MATH 1210, PHYS 2210.

EET 4040 - Signals and Systems

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to digital signal processing, digital filters, discrete and fast Fourier transforms, quantization, introduction to adaptive filters, industrial applications, and DSP hardware. Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of digital signal processing circuits.
Pre-requisite(s): EET 3010, MATH 1210.

EET 4060 - Advanced Communications

Credits: (4)
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to satellite communications, spread spectrum techniques, digital satellite communications, antennas, small signal amplifiers, Smith charts, and "S" parameter analysis. Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation and analysis of wireless communications circuits and systems.
Pre-requisite(s): EET 3010.

EET 4090 - Systems Design and Integration

Credits: (3)
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to the fundamentals of large-scale systems. The first part deals with systems analysis, design and integration with emphasis on input/output models, transfer functions, and interface issues. The second part discusses a variety of systems design and management approaches, particularly those concerned with system requirements, interface control, evaluation, quality assurance through configuration management, audits and reviews, and the human role in systems.
Pre-requisite(s): EET 3090.

EET 4800 - Individual Studies
**EET 4890 INT - Cooperative Work Experience**

**Credits:** (2)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** The student will receive credit for approved electronics industrial experience. Professional development activities will include resume writing, goal setting, progress reports, and a supervisor's evaluation.

**Pre-requisite(s):** Permission from the department.

The course can be taken a maximum of three times for a total of 6 credits.

**EET 4900 - Special Topics**

**Credits:** (1-4)

**Typically Taught Fall Semester:** Full Sem

**Description:** A one-time special study course designed to introduce a new relevant topic that is not covered in the EET program. Lecture and lab combination. Laboratory activities to support the selected course topic.

May be repeated four times for a maximum of seven credit hours.

**Note:** A maximum of four credits can be counted for EET majors.

**ENGL 0900 ND - Fundamentals of College Reading and Writing**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** A course designed to help students develop fundamental reading, writing, and thinking skills. Students in this course work closely with Skills Enhancement Center tutors in both group and one-to-one settings. Students with ACT scores in either English or Reading of 12 and below are required to take ENGL ND0900. Students without ACT scores are also placed in this course unless they are otherwise placed by Accuplacer. Students must complete this course with a grade of C or better before enrolling in ENGL 0955.

**Note:** ND (non-degree) do not count toward hours required for graduation.

**ENGL 0955 ND - Developmental College Reading and Writing**

**Credits:** (6)

**Typically Taught Summer Semester:** Full Sem, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** A course to help students develop reading, writing, and critical thinking skills prerequisite for entry-level college courses. Students in this course are supported by the Skills Enhancement Center. Students who pass ENGL 0900 with a grade of C or better, whose ACT scores in English or Reading run from 13 to 16, or who are placed by Accuplacer are placed in ENGL ND0955. Students must complete ENGL ND0955 with a grade of C or better before enrolling in ENGL 1010.

**Note:** ND (non-degree) do not count toward hours required for graduation.

**ENGL 1000 - College Reading**

**Credits:** (1-3)

**Description:** The English department recommends this course as an excellent entry-level college course. Students in this course can expect to improve their reading comprehension, their critical thinking skills, their breadth and depth of knowledge, and their aptitude for learning.
May be repeated 4 times up to 6 credit hours.
Note: Check with Department for course availability.

**ENGL 1005 EN1 - College Reading and Introductory Writing**

**Credits:** (6)

**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** English 1005 introduces students to the habits and practices necessary for reading and writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, improving reading comprehension, and the interrelationship between reading and writing. Students who have placed into ENGL 0955 (Level 2) may choose to take this accelerated course, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010 or ENGL 2015.

**Pre-requisite(s):** Level 2 placement or ENGL 0900 with a grade of C or better.

**ENGL 1010 EN1 - Introductory College Writing**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online, 1st Block, 1st Blk Online, 2nd Block
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online, 1st Block

**Description:** Students will learn practices of successful university-level writing across multiple genres. Students will focus on the writing process, writing for specific audiences, and on the interrelationship between reading and writing.

**Pre-requisite(s):** To enter 1010 the student must have 17 or higher on both ACT English and Reading, or equivalent. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010 or ENGL 2015.

**ENGL 2010 EN2 - Intermediate College Writing**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Full Sem - Online, 1st Block, 2nd Block
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online, 1st Blk Online, 2nd Block
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online, 1st Block, 2nd Block

**Description:** This course will focus on writing researched arguments, discerning, engaging with, and documenting sources, and writing with rhetorical awareness and persuasive force. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers.

**Pre-requisite(s):** Level 4 placement, passing ENGL 1005 or ENGL 1010 with "C" grade or better, AP Language and Composition or Literature and Composition examination with a score of 3 or better, ACT English and Reading score of 29 or better, CLEP with essay test with a score of 50 or better, or articulated transfer credit from another regionally accredited college or university.

**ENGL 2015 EN2 - Intermediate College Writing & Research**

**Credits:** (4)

**Typically Taught Summer Semester:** Full Sem, Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** Intermediate College Writing & Research focuses on combining writing and research skills. It will focus on writing arguments, conducting research, and documenting sources. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning. This course will fulfill both the English Composition and the Information Literacy General Education core requirements.

**Pre-requisite(s):** Level 4 placement, passing ENGL 1005 or ENGL 1010 with a grade of "C" or better, passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, achieving an ACT English and Reading
score of 29 or better, a CLEP with essay test with a score of 50 or better, or an articulated transfer credit from another regionally accredited college or university.

**ENGL 2100 - Technical Writing**

**Credits:** (3)  
**Typically Taught Summer Semester:** Check with department for course availability.  
**Typically Taught Fall Semester:** Full Sem, Online  
**Typically Taught Spring Semester:** Full Sem, Online  
**Description:** This course prepares students for on-the-job writing and emphasizes the importance of audience analysis, graphics, and document design. Students study and practice writing and designing a variety of technical documents as they learn to write clearly, concisely, and persuasively to a specific audience for a specific purpose.  
**Pre-requisite/Co-requisite:** ENGL 1010 or ENGL 2010 or ENGL 2015.

**ENGL 2120 - Introduction to Writing and Document Design**

**Credits:** (3)  
**Typically Taught Fall Semester:** Check with department  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Through literary texts, including fiction, non-fiction and poetry as well as film and other digital mediums, this course will introduce students to the ways writing fits into various types of organizations, which are increasingly focused around knowledge work, or work that analyzes and communicates rather than manufactures products. Within the framework of writing, students will learn how organizations are networked and situated, and how collaboration, systems of power, organizational structures, and various audiences and stakeholders function.

**ENGL 2130 - Media and Technology in Texts**

**Credits:** (3)  
**Typically Taught Fall Semester:** Check with department  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Through the study of literary texts such as fiction, poetry, nonfiction, and film, students will gain an understanding of key concepts in the study of media and technology, including historical and forward-looking perspectives. These might include such topics as the impact of technology on society and culture, how new technologies shape information and how new media forms affect reading, writing and analysis.

**ENGL 2140 - Introduction to Professional and Technical Editing**

**Credits:** (3)  
**Typically Taught Fall Semester:** Check with department  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course focuses on basic editing in the workplace. We examine genres, electronic editing, version control, collaboration, synchronous and asynchronous writing/editing, and literature related to editing.

**ENGL 2150 - Gender and Culture in Workplace Writing**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Check with department for course availability.  
**Description:** Gender and culture affect professional and technical writing and an understanding of the many roles we encounter and play through gender and culture is essential for writers. This course will overview for students the many ways gender and culture can be applied to and explored in professional and technical writing and provide practice identifying and analyzing such issues through literature.

**ENGL 2160 - Introduction to Web-Based Technical Writing**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem
Typically Taught Spring Semester: Check with department for course availability.

Description: This course will first cover how organizations create and share information on the web and social media, and how the differences in reader expectation and reading behavior between printed and online texts help shape the information. The course will then focus on characteristics of good online content, analysis of audience and purpose, and strategies for writing and designing content to meet the needs and expectations of the readers. Throughout the semester, students will practice, individually and collaboratively, good writing and designing skills in learning to become effective writers of a workplace.

ENGL 2200 HU/DV - Introduction to Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introduction to three major literary genres, fiction, poetry, and drama, drawn from a diverse range of authors from various cultures and historical periods. Students will learn how to read literary texts closely and critically, and how literature--reading more generally--can have a meaningful part of their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2210 - Introduction to Film Theory and Criticism

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course introduces students to the theory and practice of critically analyzing film. We will survey the international development of film from its origins to the present. Our focus will be on the history and methods of narrative film, including the development of film and digital technology, and on the modern viewer's expected skill in "reading" film.

ENGL 2220 HU/DV - Introduction to Fiction

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: An introduction to short stories, novellas, and novels, selected from a diverse range of authors from various cultures and historical periods. Students will learn how to read fiction carefully and critically, and how fiction can have a meaningful part in their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2230 HU/DV - Introduction to Drama

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: An introduction to drama from around the globe, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze and appreciate plays and to recognize their contemporary relevance. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2240 HU/DV - Introduction to Poetry

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: An introduction to poetry written in English, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to appreciate the craft of poetry as a valid and important way of talking about human experiences. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2250 CA - CW: Introduction to Creative Writing
ENGL 2260 CA - CW: Introduction to Writing Short Fiction

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course introduces students to writing original short fiction in a workshop setting. Students will read as models a judicious sampling of stories by authors such as Edgar Allen Poe, William Faulkner, Toni Morrison, Truman Capote, and others as selected by the professor in order to build a vocabulary for analyzing aspects of storytelling such as plot, story arc, characterization, dialogue, meaningful detail, and story pacing. Using guided writing exercises and journaling, students will develop ideas from these sources to create original fiction for a series of in-class workshops. Students will critique, and be critiqued by their peers in order to revise their stories.
Pre-requisite(s): ENGL 1010, ENGL 2010, or ENGL 2015.

ENGL 2270 CA - CW: Introduction to Writing Poetry

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course introduces students to writing original poetry. Students will read as models a judicious sampling of poems by contemporary poets as selected by the professor in order to build a vocabulary for analyzing aspects of poetic craft, such as form, line, prosody, image, sound, narrative, and lyric. Using guided writing exercises and journaling, students will develop their ideas into original poems for a series of in-class writing workshops. Students will critique and be critiqued by their peers in order to revise their poems.
Pre-requisite(s): ENGL 1010, ENGL 2010, or ENGL 2015.

ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: In this introductory course, students will learn the basics of writing creative nonfiction, including how to shape personal experiences into dynamic art through study, practice, and play. Students will be introduced to a variety of narrative strategies such as braided, hybrid, and lyric essays. Ultimately, students will deepen their self-understanding while refining and expanding their storytelling skillset.
Pre-requisite(s): ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2295 - CW: Introduction to Screenwriting

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course introduces students to writing original screenplays. Students will read as models a judicious sampling of screenplays by contemporary screenwriters as selected by the professor in order to build a vocabulary for analyzing aspects of screenwriting such as structure, character, dialogue, and cinematography. Using guided writing exercises and journaling, students will develop their ideas into original screenplays for a series of in-class workshops. Students will critique, and be critiqued by the entire class in order to revise early drafts, will analyze selected texts, and will evaluate their own and others' work.
Pre-requisite(s): ENGL 1010, ENGL 2010, or ENGL 2015.
ENGL 2420 - Young Adult Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Young Adult Literature will introduce students to a variety of literary works within this popular and compelling genre. Through close reading, we will examine various features, themes, and representations of adolescence and adulthood. We will also consider different pedagogical approaches to these texts to uncover broader literary and sociocultural dimensions.
Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 2510 HU/DV - Masterpieces of Literature

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: An introduction to select masterworks, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze various genres (fiction, drama, and poetry) and to reflect on the nature of literary excellence. Course includes relevant practice in the principles of successful writing, including, drafting, revising, and editing.
Note: Check with Department for course availability.

ENGL 2710 HU/DV - Perspectives on Women's Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Check with Department
Description: The purpose of this class is to introduce students to the rich contributions of women to the field of literature. The course will cover a variety of women writers that may range from the medieval period to the present and will feature literary genres such as fiction, poetry, drama, non-fiction, and journals/diaries. In discussing and writing about these works, students will consider why women were excluded or marginalized in the canon for such a large part of literary history and how society, family, and politics impacted the way these women wrote.

ENGL 2750 HU - Topics and Ideas in the Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This variable topics course focuses on topics and ideas in the humanities. The course may consider social, political, artistic, environmental, or philosophical themes across disciplines. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion and to probe the various intentions of any act of writing.
May be taken twice for a total of 6 credits.

ENGL 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ENGL 2830 - Directed Readings**

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

Description: Individual readings supervised by a faculty member.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
May be repeated twice up to 6 credit hours.

**ENGL 2890 - Cooperative Work Experience**

Credits: (1-6)

Description: Open to all students in the English Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
May be repeated 5 times up to 6 credit hours.
Note: Check with department for current course offerings.

**ENGL 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.
May be repeated for a total maximum of 6 credit hours.
Note: Check with department for current course offerings.

**ENGL 2920S INT - Community Service**

Credits: (3)

Description: Students will receive an overview of community service and explore opportunities for service learning in the community. A weekly seminar with required readings and writings as necessary and 50 hours of community service.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
Note: Check with department for current course offerings.

**ENGL 2999 INT - Capstone in Workplace Communication and Writing**

Credits: (3)

Description: This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals. Cross-listed with COMM 2999.
Pre-requisite(s): Permission of Instructor Required.
Note: Check with Department for course availability.

**ENGL 3010 - Introduction to Linguistics**

Credits: (3)

Typically Taught Summer Semester: *Check with department for course availability.*
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course introduces students to the scientific study of language. It looks across languages to explore what they have in common, as well as what distinguishes them from one another. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be applied to other areas, such as language acquisition, language history, language and culture, language and society, language and thought, or language and literary expression.

Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
Note: Students in English, foreign languages, anthropology, philosophy, psychology, and history are encouraged to take this course.

ENGL 3020 - Teaching English/Language Arts

Credits: (3)

Typically Taught Fall Semester: Full Sem

Description: This course is designed for English teaching majors and minors. Students in the course will study a variety of literary works to better understand the ways that literature engages interest and promotes deep learning. Students in the course will study pedagogical practices that support the effective and equitable teaching of literature in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.

Pre-requisite(s): ENGL 2010, ENGL 2015 or equivalent and admitted to Secondary Education program.
Pre-requisite/Co-requisite: ENGL 2420

ENGL 3030 - Structure of English

Credits: (3)

Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course presents the major parts of speech, grammatical functions, and constructions of Standard English. Its purpose is to show that English, like any human language, is an intricate and rule-governed system. To this end, it draws on the terminology of traditional grammar and the analytical techniques of structural and transformational grammar, including contextual definitions and tree diagramming. The course is directed toward departmental English majors, teaching majors, advanced ESL students, and students majoring in foreign language teaching.

Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 3040 - History of the English Language

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course begins by introducing the elementary vocabulary and concepts of linguistic theory as these pertain to historical linguistics. It then traces the prehistory of English from its beginnings in Indo-European, through its place in the Germanic branch, to its historical phases of Old, Middle, and Early Modern English. Attention may also be given to national varieties of English and the development of English as a world language.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3050 - Grammar, Style, and Usage for Advanced Writing

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage in order to become more proficient writers. Its purpose is to offer practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is offered to all English majors and minors as a means of fulfilling the language requirement for the major, especially those in technical writing or creative writing. Students in communication, pre-law, and criminal justice may also find the class meets requirements.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
ENGL 3080 - Critical Approaches to Literature

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective. Primarily for English majors and minors. Recommended to take early in major.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
Suggested Requisite(s): ENGL 2200, ENGL 2220, ENGL 2230, or ENGL 2240.

ENGL 3100 - Professional and Technical Writing

Credits: (3)
Typically Taught Summer Semester: Full Sem Online, Check with department for course availability.
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: This course introduces students to the basic theories and practices of technical communication. Using audience, purpose, and context as their guides, students create various professional and technical documents, such as formal and informal reports, instructions, proposals, job application materials, brochures, web media, and presentations. Working both individually, and in collaboration, students analyze their rhetorical situation as they create usable and appropriate professional documents. This course provides the practical and theoretical basis for the minor and emphasis in Professional and Technical Writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3120 - Foundations in Professional & Technical Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This course provides the theoretical and rhetorical knowledge that underpins the practice of technical and professional writing. Students will learn about rhetorical theories, research methods, social justice initiatives, technological theories, and ethics. The course will prepare students for understanding why technical and professional writers make the choices they do and empower students to explain the exigence of their field of study.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3130 - Digital Writing Technologies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This course will introduce students to the tools/software that technical writers and other professionals use in the workplace. Topics include, but are not limited to, Advanced Features in MS Word (styles, macros), the Adobe Suite, Advanced Features of online collaborative tools (the Google Suite among others), the suite of Apple products. This instruction prepares students, not just English majors, for the necessary skills to enter into the workforce prepared to succeed.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3140 - Professional and Technical Editing

Credits: (3)
Typically Taught Fall Semester: Full Sem
ENGL 3100 - Technical Editing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: Building on the knowledge of technical writing genres and the writing strengths developed in ENGL 3100, this course introduces students to copyediting, comprehensive editing, and the basics of collaborative editing and document management. Technical editing is designed to strengthen students' writing, editing, and visual design skills through attention to detail and application of style, grammar, and usage principles. Additionally, this course focuses on hard copy and soft copy editing principles.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 3160 - Grant Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This class introduces you to the grant writing process and provides you with experience writing actual grant applications in collaboration with a local non-profit organization. By the end of the class you will know the basic elements of grant writing and be able to identify organizational needs; research appropriate funding sources; plan, develop, and write grant proposals.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3190 CEL - Document Design

Credits: (3)
Typically Taught Fall Semester: Full Sem - Odd Years
Typically Taught Spring Semester: Full Sem - Online Even Years
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This course teaches a rhetorical approach to document design. Using the rhetorical principles of audience, purpose, and context, students will discuss sample documents, analyze the layout of documents (both professional documents and ones students create in class), and articulate what makes an effective layout and design (regarding arrangement, emphasis, clarity, conciseness, tone, and ethos). Throughout the course, students will create (both individually and collaboratively) documents that meet client specifications thereby providing practical experience and generating material for their professional portfolios.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 3210 - Advanced College Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Basic expository techniques combined with other forms of discourse. Emphasis on originality, clarity and practical application for other courses as well as vocation.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3240 - CW: Writing Creative Nonfiction

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the craft of writing creative nonfiction, including forms such as personal essay, lyric essay, and memoir.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.
### ENGL 3250 - CW: Advanced Fiction Writing

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online  
**Description:** Students will learn advanced fiction writing skills and strategies. Whether they plan to write novels or short fiction, this class will help them develop their use of plot, character, point of view, narrative structure, setting, image, wordplay and syntax.  
**Pre-requisite(s):** ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

### ENGL 3260 - CW: Advanced Poetry Writing

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem - Online  
**Description:** Students in this course will write and revise their own original poetry. Using their drafts and/or published poems, they will improve their use of line and stanza breaks, imagery, sound and rhythm, poetic structure, and other techniques.  
**Pre-requisite(s):** ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.  
*Note:* This course is taught every other Spring.

### ENGL 3280 - Biographical Writing

**Credits:** (3)  
**Typically Taught Fall Semester:** Check with department for course availability.  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Includes autobiographical writing and is oriented strongly toward personal and familial interests. Written assignments include the personal narrative, character sketch, as told to, and conclude with a chapter or two on a projected book-length project. Extensive written and oral input on each assignment from professor and class. Strong emphasis is placed on techniques of research including interviewing, effective characterization, narration and description. Prior experience in imaginative writing and other areas of literature is recommended.  
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.

### ENGL 3290 - CW: Advanced Screenwriting

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** In this advanced course, students will enhance their understanding of screenwriting by studying produced films and workshopping their own original work. We will focus on developing complex characters through action and dialogue, studying and applying the movement of the three-act structure, and creating scenes driven by desire and the obstacles to those desires. In short, students will build on the basics that they have already begun to master and will apply those towards creating more sophisticated work.  
**Pre-requisite(s):** ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

### ENGL 3300 - Children's Literature

**Credits:** (3)  
**Typically Taught Summer Semester:** Check with department for course availability.  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Students will study the principles of literature for children with special emphasis on evaluation and selection, classroom and library use, ethnic and cultural diversity, and the development of literacy. Designed to meet the needs of teachers, those preparing to teach and those who work with children in various settings.  
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.

### ENGL 3350 - Studies in Literary Genres
ENGL 3352 - Studies in World Literary Genres

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This variable topics course introduces students to familiar and unfamiliar world literary genres, exploring their distinctive features and their interactions with the cultures and histories they represent. Genres might include poetry and prose, fiction and non-fiction, satire and fable, tragedy and ballad, biography and autobiography, and many others.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3353 - Genres in Cultural and Media Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This variable topics course introduces students to genres in cultural and media studies, their distinguishing features, and the dynamics of their development. Genres may include the novel, digital novel, film, television, social media, advertising, music, and the internet.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3354 - Genres in Writing and Interdisciplinary Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This variable topics course introduces students to interdisciplinary genres, new directions in transcending disciplinary boundaries, or issues in writing and rhetoric. Genres may include various forms of narrative as they intersect with the sciences, social sciences, arts and humanities, health professions, business and economics, applied science and technology, and others.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3355 - CW: Creative Nonfiction Forms and Craft

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: This class asks students to write a number of forms within the genre of creative nonfiction writing, experimenting with narrative shape and the effects of structural choices.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.
ENGL 3360 - CW: Short Story Forms and Craft

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Description: This class asks students to experiment with form and story structure within the genre of fiction writing, to understand how narrative shape affects the reader's experience.
Pre-requisite(s): ENGL 2250, ENGL 2260, ENGL 2270, ENGL 2280, or ENGL 2295.

ENGL 3365 - CW: Novel Forms and Craft

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem - Online
Description: This class asks students to experiment with form and structure within the genre of novel writing to understand how narrative shape affects the reader's experience.
Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3370 - CW: Poetic Forms and Craft

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This class asks students to experiment with form and structure within the genre of poetry writing to understand how line, repetition, rhyme patterns, and shape affect the reader's experience.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3375 - CW: Notebooks and Journals Forms and Crafts

Credits: (3)
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This class examines the writer's notebook, reading examples and studying possibilities. Students will keep a writer's notebook inspired by those examples.
Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, ENGL 2270.

ENGL 3380 - CW: Screenwriting Form and Craft

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This class examines screenwriting form. Students will write their own original screenplay(s) in this form.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3410 INT - The Teaching of Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed for English Teaching majors and minors. Students in the course will study pedagogical practices that support the effective and equitable teaching of writing in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent, and admitted to Secondary Education program.
Co-Requisite(s): ENGL 3020.
Pre-requisite/Co-requisite: ENGL 2420

ENGL 3500 HU - Introduction to Shakespeare
Credits: (3)
Typically Taught Fall Semester: Full Sem - Even Years, Full Sem - Online Odd Years
Description: This class is an introduction designed to foster a critical appreciation of the plays of Shakespeare. The class is intended for all who wish to gain a greater appreciation for Shakespeare and his work. Students can expect to study a varied selection of Shakespeare's plays and poems, as well as historical, cultural, critical, and performance contexts.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3510 HU/DV - World Literature

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This is a selection of masterworks from a variety of authors, regions, and eras - expressly to introduce diverse literatures other than British and American. The required readings may vary considerably from semester to semester, according to the instructors' expertise.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3520 HU - Literature of the Natural World

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Check with department for course availability.
Description: This course engages literary texts that focus on humans in relation to their natural environment. Conceived as a survey course, it attempts to delineate the various traditions of environmental concern, from the ancient past to the present, and to draw attention to the ongoing relevance of such texts. Students will learn how to read closely and carefully, and how to make such literature meaningful for their own daily lives.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3530 - The Literature of Business and Economics

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This course examines historical and contemporary issues in the world of business and economics through literature, film, and essays. The course will explore concepts such as private property, commodities and natural resources, wage labor, capital, public lands, and globalization. Students will investigate pertinent moral and ethical questions connected with these concepts from both historical and contemporary perspectives, such as the distribution of wealth and poverty, consumption and resource management, competition and conflict, and social (in)stability. The course is designed to improve writing skills, specifically the ability to express complex ideas from a variety of perspectives and to improve critical and creative thinking skills while stressing the importance of learning through writing.

ENGL 3540 - Adaptation Studies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course focuses on the process by which literary works and other texts are adapted into other forms and media, and on the product of that adaptive process. Works may include traditional text-to-film adaptations, as well as more non-traditional forms such as graphic novels, music, television, the Internet, and more.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3610 - American Literature I

Credits: (3)
Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: *Full Sem*

**Description:** This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015.

**ENGL 3620 - American Literature II**

Credits: (3)

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

**Description:** This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015.

**ENGL 3650 - British Literature I**

Credits: (3)

Typically Taught Summer Semester: *Check with Department*
Typically Taught Fall Semester: *Full Sem, Full Sem - Online Even Years*
Typically Taught Spring Semester: *Full Sem*

**Description:** This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015.

**ENGL 3660 - British Literature II**

Credits: (3)

Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*

**Description:** This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015.

**ENGL 3730 - Literatures of Cultures and Places**

Credits: (3)

Variable Title

**Description:** This variable topics course examines literatures, cultures, and nations beyond England and America. Students will be introduced to the ways in which texts are closely tied to geographical place and cultural space as well as the historical movement from which they emerge. The course may focus on a single national culture or, alternately, offer representative works from various cultures.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.

It may be repeated 3 times with different designations.

**ENGL 3750 HU - Topics and Ideas in Literature**

Credits: (3)

Variable Title

**Description:** This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.

It may be repeated 3 times with different designations.

**ENGL 3752 - Topics and Ideas in World Literature and Language**
Variable Title
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts from around the world. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Note: Check with Department for course availability.

ENGL 3753 - Topics and Ideas in Cultural and Media Studies

Variable Title
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Check with Department
Description: This variable topics course focuses on various themes in cultural and media studies. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text. It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies

Variable Title
Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Check with department for course availability.
Typically Taught Spring Semester: Full Sem
Description: This variable topics course focuses on themes manifest in the field of writing and in interdisciplinary studies. This course may focus on issues in writing, rhetoric, and other disciplines as they intersect with English. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3755 - Topics in English Teaching

Variable Title
Typically Taught Fall Semester: Full Sem
Description: This variable topics course focuses on critical ideas in the teaching of English. The course may consider social, political, artistic, environmental, or philosophical themes. Students in the class will learn to translate intellectual movements to pedagogical practices and approaches. May be taken twice for a total of 6 credits.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program.

ENGL 3810 - Experimental Course

Variable Title
Typically Taught Fall Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ENGL 3840 - Methods and Practice in Tutoring Writers
ENGL 3850 INT - Methods and Practice in Tutoring and Mentoring ESL Students

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Description: This course trains students who are native speakers of English or who are second language learners of English at native or near native levels of proficiency to work or volunteer in the ESL Program as tutors, classroom aides, mentors, and as language informants leading conversation groups.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3880 - Philosophy and Literature

Credits: (3)
Typically Taught Spring Semester: Check with Department
Description: A study of the interrelationships between ideas that shape the course of history and the poetry, prose, and/or drama of the periods that produce these ideas.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4010 - Topics in Language Study

Credits: (3)
Variable Title
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course explores areas of study such as advanced grammar, sociolinguistics, language and the law, linguistics and composition, linguistics and language acquisition, or linguistics and literature, among others, as determined by the instructor. A previous language course or consultation with the instructor is recommended before enrolling.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken more than once with different designations.
Note: Check with Department for course availability.

ENGL 4100 - Issues in Professional and Technical Writing

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This variable topics course focuses on specific issues in the ever-evolving field of professional and technical writing. Recent issues include indexing, professionalization, theoretical approaches, and discipline-specific emphases such as writing in the sciences and writing for the Web.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.
It may be taken up to four times (for a total of 12 credit hours) with different designations to fulfill electives and must be pre-approved by an advisor.

ENGL 4110 - Content Management

Credits: (3)
Typically Taught Fall Semester: Full Sem - Even Years; Full Sem - Online Odd Years
Typically Taught Spring Semester: Check with Department
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This class teaches the theory and application of content management. Students will learn how to evaluate content, divide content into reusable elements, label these elements, and then re-configure them into usable structures. Using the principles of single sourcing, modular writing, and structured authoring, students will map content for reuse, evaluate available authoring tools, implement state-of-the-art technologies, and develop project strategies.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 4120 CEL - Seminar and Practicum in Professional and Technical Writing

Credits: (3)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Odd Years
Typically Taught Spring Semester: Full Sem - Online, Even Years
Description: This course serves as a capstone for the minor and emphasis, preparing students for immediate job placement. In the seminar, students review issues and strategies of professional and technical writing and prepare portfolios for job interviews. The practicum is based on an internship or cooperative work experience in the community, with industry, or with an on-campus organization. The internship is the most time-intensive aspect of the course.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $40.00
Description: This course emphasizes practical strategies and methods of teaching ESL/Bilingual in the public school systems of this country.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)
Typically Taught Summer Semester: Odd-numbered years
Typically Taught Spring Semester: Full Sem
Description: This course provides the essential foundation for ESL/Bilingual teachers in the workings of the English language: pronunciation and spelling systems, word-forming strategies and sentence structure patterns.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)
Typically Taught Summer Semester: Full Sem - even-numbered years
Typically Taught Fall Semester: Full Sem
Description: This course explores how to effectively evaluate and implement assessment processes for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized tests and authentic assessment.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4520 - American Literature: Early and Romantic

Credits: (3)
Description: This historical survey follows waves of European immigration and chronicles the effects of those on the American natives. The class then moves through the Revolutionary War and finishes with the relatively short but intense age of American Romanticism, which occurred in the decades just before the Civil War. The diverse writers in this period include such figures as

**Pre-requisite(s):** ENGL 3080.

*Note: Check with Department for course availability.*

**ENGL 4530 - American Literature: Realism and Naturalism**

**Credits:** (3)

**Description:** This historical survey typically runs from the Civil War to WWI - emphasizing reconstruction, laissez-faire economics, growing imperialism, and universal suffrage. The diverse writers in this survey include such figures as Mark Twain, W. D. Howells, Sarah Orne Jewett, Henry James, Kate Chopin, Booker T. Washington, W. E. B. Du Bois, Stephen Crane, Jack London, Frank Norris, Theodore Dreiser, Mary Austin, and Henry Adams.

**Pre-requisite(s):** ENGL 3080.

*Note: Check with Department for course availability.*

**ENGL 4540 - American Literature: Modern**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** This historical survey focuses on the first half of the 20th century, when the United States went through a series of profound political and social changes, such as its entry into World War I and II, Prohibition, The Red Scare, Suffrage, the advent of the mass media, and Progressivism. Drawing on a variety of genres and media (including painting and film), the course will study developments in the New Negro Renaissance, Greenwich Village bohemianism, the Provincetown Players, "high" modernism, and the Lost Generation. Representative writers of the period include: Langston Hughes, Zora Neale Hurston, Nella Larsen, Edna St. Vincent Millay, Mina Loy, Eugene O'Neill, Susan Glaspell, Ezra Pound, John Dos Passos, Amy Lowell, William Carlos Williams, Gertrude Stein, Ernest Hemingway, and e.e. cummings.

**Pre-requisite(s):** ENGL 3080.

*Note: Check with Department for course availability.*

**ENGL 4545 - American Literature - World War II to 2001**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course focuses on American literature from World War II to 2001 within the context of the dramatic political and cultural changes that have shaped contemporary American culture, such as the Cold War, Vietnam, the Civil Rights movement, feminism, and multiculturalism. Like its modernist predecessor, it ranges across genres and media to survey various emergent traditions and tendencies in contemporary and postmodern US letters.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4550 - American Literature: Contemporary**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course focuses on American literature from 2001 to the present. Like its predecessor, English 4545, it ranges across genres and media to survey traditions and tendencies in contemporary US letters that continue to emerge and evolve. The literature produced during this open-ended period is often less burdened by the legacies of Euro-American literature or the politics of the late 20th century, and hence still fluid in terms of defining period markers. Often written within the wider context of 9/11, U.S. foreign policy, and the changing world order, such work often complicates the aesthetic sensibilities of high postmodernism while providing American literature with a more global set of historical and geographic referents.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4560 - Contemporary Literature for Creative Writers**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course introduces students to the work of contemporary writers. Looking at variety of projects, including collections and individual pieces, we will examine their stylistic choices and the effects of those choices.
Pre-requisite(s): ENGL 3080.

ENGL 4610 - British Literature: Medieval

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This historical survey runs from the eighth century to the end of the fifteenth century - roughly from the reign of Alfred the Great to Henry VII. Some of the more recognizable works include Beowulf, The Wanderer, Geoffrey Chaucer's Canterbury Tales, early histories of King Arthur, Thomas Malory's Le Morte D'Arthur, Julian of Norwich's Showings, Everyman, and Gawain and the Green Knight. Works written in Anglo-Saxon English and northern medieval dialects will be read in modern translations.
Pre-requisite(s): ENGL 3080.

ENGL 4620 - British Literature: Renaissance

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This historical survey runs from just before the middle of the sixteenth century to just after the middle of the seventeenth - roughly from the reign of Henry VIII, through the reign of Elizabeth Tudor, to the restoration of Charles II. Some of the more recognizable figures of this study are Christopher Marlowe, John Donne, Ben Jonson, John Milton, Anne Askew, Aemilia Lanyer, Mary Wroth, and Robert Herrick.
Pre-requisite(s): ENGL 3080.
Note: (Note: this survey does not typically try to do justice to its largest figure, Shakespeare - for whom the department has established ENGL 4730: Studies in Shakespeare.) Check with department for course availability.

ENGL 4630 - British Literature: Neoclassical and Romantic

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This historical survey links two periods: the first has frequently been referred to as the Enlightenment of the Eighteenth Century and includes such figures as Alexander Pope, Anne Finch, Mary Montagu, Jonathan Swift, and Samuel Johnson. The second period covers the relatively short but intense age of English Romanticism - popular because of such writers as William Blake, William Wordsworth, Samuel Coleridge, Lord Byron, Mary Shelley, Percy Bysshe Shelley, Mary Wollstonecraft, Sir Walter Scott, Thomas De Quincey, and John Keats.
Pre-requisite(s): ENGL 3080.

ENGL 4640 - British Literature: Victorian

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This historical survey follows the long span of Queen Victoria's life: from about 1837 when she came to the throne to 1901 when her funeral widely symbolized the passing of the age. Not merely a placid time of Victorian propriety, this era was marked by such philosophical upheavals as that which followed Darwin's Origin of Species. Some of the notable writers are Elizabeth Gaskell, George Eliot, Lord Alfred Tennyson, Robert Browning, Emily Bronte, Charles Dickens, Matthew Arnold, and Thomas Carlyle. This era is marked by the Industrial Revolution, Utilitarianism (Mill), the rise of science and evolution theory (Darwin), socialism (Marx and Engels); Psychology (Freud), resurgence of art (the Pre-Raphaelites), and imperialism (Kipling). Notable writers include: Carlyle, Tennyson, the Brownings, Arnold, Wilde, Dickens, the Brontes, Eliot, and Hardy.
Pre-requisite(s): ENGL 3080.

ENGL 4650 - British Literature: Modern
ENGL 4655 - British Literature - World War II to 2001

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course examines British and Anglo-Irish literature from World War II to 2001 as Britain metamorphoses from world power to an integral member of the European Community. The course asks what it means to be a "British" writer in an era increasingly multicultural in outlook and studies a variety of British and Anglo-Irish writers in connection with such key developments as post-war disillusion, Absurdism and Postmodernism, neo-Romanticism, magical realism, innovative historical fiction, and legacies of Empire in a postcolonial world.
Pre-requisite(s): ENGL 3080.

ENGL 4660 - British Literature: Contemporary

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on British literature from 2001 to the present. Like its predecessor, English 4655, it ranges across genres and media to survey traditions and tendencies in contemporary British and Anglo-Irish letters that continue to emerge and evolve as the UK attempts to define itself and Britishness in the wake of 9/11, a changing UK foreign and domestic policy, and Brexit.
Pre-requisite(s): ENGL 3080.
Note: Check with Department for course availability.

ENGL 4710 - Eminent Authors

Credits: (3)
Variable Title
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course features a single author or several authors. Students may study authors such as Sir Arthur Conan Doyle, Ralph Waldo Emerson, Emily Dickinson, Walt Whitman, Virginia Woolf, or Toni Morrison, in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.
Pre-requisite(s): ENGL 3080.
May be taken up to 3 times with different designations.
Note: Check with Department for course availability.

ENGL 4712 - Eminent World Authors

Credits: (3)
Variable Title
Description: This variable topics course features a single author or several authors. Students may study global anglophone writers and/or works in translation, by authors such as Derek Walcott, Arundhati Roy, Chinua Achebe, Gabriel García Márquez, Nadine Gordimer, Margaret Atwood, Mo Yan, Fyodor Dostoevsky, Naguib Mahfouz, and Umberto Eco in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.
Pre-requisite(s): ENGL 3080.
ENGL 4713 - Eminent Authors in Cultural and Media Studies

Credits: (3)
Variable Title
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course features a single author or several authors. Students may study foundational and emerging authors in this dynamic and influential field in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.
Pre-requisite(s): ENGL 3080.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 4730 - Studies in Shakespeare

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Full Sem
Description: This class is intended for English majors and minors seeking a deeper understanding of Shakespeare's work. Students can expect to do close readings of at least five plays and to study such secondary materials as literary criticism and historical background.
Pre-requisite(s): ENGL 3080.
Note: Check with Department for course availability.

ENGL 4760 - Irish Literature

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This course examines the distinctive temperament and outlook of both the Gaelic and Anglo-Irish traditions in such writers as Aogán Ó Rathaille, Eibhlin Dubh Ní Chonaill, Jonathan Swift, Lady Gregory, Oscar Wilde, John Millington Synge, William Butler Yeats, James Joyce, George Bernard Shaw, Seamus Heaney, Eavan Boland, and Nuala Ní Dhomhnaill. The first portion of the course studies the body of literature from the sixth century through 1900; the remainder of the course focuses on modern and contemporary texts. Key themes to be examined, always in the larger context of Irish history as a whole, include the Irish use of words as weapons, the place of gender in Irish writing, and the intriguing nature of Irish - particularly as opposed to English - identity.
Pre-requisite(s): ENGL 3080.

ENGL 4801 - A&H Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ENGL 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual readings supervised by a faculty member.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
May be repeated twice with a maximum of 6 credit hours.
Note: Check with Department for course availability.

**ENGL 4890 - Cooperative Work Experience**

**Credits:** (1-6)
**Description:** A continuation of ENGL 2890 Cooperative Work Experience. Open to all students.
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.
May be repeated 5 times with a maximum of 6 credit hours.
Note: Check with department for current course offerings.

**ENGL 4900 - Internships in Literary and Textual Studies**

**Credits:** (1-3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course allows students to receive academic credit for on-the-job learning in approved work environments and for approved projects. A maximum of 3 credit hours may be counted toward the major. Credit/No-Credit only.
**Pre-requisite(s):** English major with a Junior or Senior standing; ENGL 2010 or ENGL 2015, and ENGL 3080.
May be repeated for up to 6 credit hours.

**ENGL 4910 - Capstone in English Teaching**

**Credits:** (1)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course is designed to synthesize a student's knowledge and training. The course will assist students in applying their content knowledge during the required teaching field experience. The course will also serve as a bridge to future employment by instructing students in portfolios, resumes, and recommendations. The class will underscore the acquisition of dispositional traits that produce responsible and effective teaching practices.
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program, ENGL 2420, ENGL 3410, ENGL 3020, and ENGL 3755.

**ENGL 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)
**Workshop**
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
**Pre-requisite(s):** ENGL 1010 with a "C" grade or better or equivalent.
May be repeated for a total maximum of 6 credit hours.
Note: Check with Department for course availability.

**ENGL 4930 - Visiting Writing Master Class**

**Credits:** (1)
**Typically Taught Fall Semester:** 1st Blk, 2nd Blk
**Typically Taught Spring Semester:** 1st Blk, 2nd Blk
**Description:** In this class, students will study the art and craft of creative writing, studying under the guidance of a nationally recognized visiting writer who will instruct them on writing theory and/or provide a short writing workshop of work from each student. Credit/No Credit grading.
May be repeated 3 times up to 4 credit hours.

**ENGL 4940 - CW: Senior Project**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This course offers an opportunity for students to choose a writing project and workshop it with their peers under the direction of the instructor. Writing skills will be developed and honed through intensive writing projects which could include a variety of genres: nonfiction, creative nonfiction, fiction, (short story collection, novel), biography, autobiography, poetry, etc. The course is designed for students with a strong writing background.
Pre-requisite(s): ENGL 3250 or ENGL 3260 or ENGL 3280 or ENGL 3350.

ENGL 4960 INT - Metaphor: Editing the Student Literary Journal

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Designed for students selected as staff for Weber State's Literary Journal, Metaphor. Therefore, it is a hands-on workshop centering on all aspects of journal production: creating an editorial policy, advertisement, selection, layout, copy editing, preparing for print, marketing, distribution, etc. The journal itself is the final product. The staff supports writing and visual arts across campus through participation in several ancillary projects.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
May be repeated twice with a maximum of 6 credit hours.

ENGR 1000 - Introduction to Engineering

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Design project parts
Description: Introduction to engineering for students in the pre-engineering program. Engineering as a profession and career opportunities. Fundamentals of engineering design and analysis using the computer.
Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.

ENGR 2010 - Statics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Vector mechanics, force and moment systems, equilibrium of particles and rigid bodies, friction and moments of inertia.
Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2030 - Dynamics

Credits: (4)
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2140 - Mechanics of Materials

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Fundamentals of stress and strain, Hooke's law, torsion, bending of beams, combined stresses and design of members.
Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.
ENGR 2160 - Materials Science and Engineering

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Replacement of lab equipment and consumable parts
Description: Combined lecture/laboratory course that introduces the fundamentals of atomic and microscopic structure of
metals, polymers, ceramics and composite materials, and how these structures affect mechanical, thermal, electrical and optical
properties.
Pre-requisite(s): CHEM 1210.
Co-Requisite(s): ENGR 2140.

ENGR 2300 - Thermodynamics

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: Thermodynamic properties, equations of state, first and second laws of thermodynamics. Analysis of open and
closed systems, availability and irreversibility, power and refrigeration cycles.
Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will
appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENTR 1001 - Principles of Entrepreneurship

Credits: (1)
Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer
against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely
upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up
Owner's Manual textbooks.
Note: This course is not currently offered.

ENTR 1002 - Startup Innovation

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course will present a broad overview of entrepreneurship and teach students how to identify and create valuable entrepreneu
rial opportunities. This is accomplished via proven process and theory designed to help ideation become customer needs driven in
stead of based on the instincts of the entrepreneur. Students will create, test and update a business model based entirely upon cust
omer feedback and customer development methodologies as described in Business Model Generation and Startup Owners Manua
l textbooks. This class will also have students spending time 'out of the classroom'-
learning about what customers want and will pay for through in-person prototype testing, iteration and feedback.

ENTR 1003 - Ideation and Customer Development: Testing Ideas with Customers

Credits: (1.5)
Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer
against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely
upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up
Owner's Manual textbooks.

Pre-requisite(s): ENTR 1001, BSAD 2899 or ECON 2899.
Note: This course is not currently offered.

ENTR 1004 - Entrepreneurial Finance: Bootstrapping, Accounting & Survival Tactics

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business start-up. Students will explore the application of corporate finance tools to new venture and private equity transactions including forecast simulations and the application of real options. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business start-up purposes.
Pre-requisite(s): ENTR 1002.

ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model

Credits: (3)
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course takes students who have successfully identified a start-up and teaches them the process of customer development, product development, business models and selling ideas to investors and customers. This includes examining a range of marketing techniques that are available for low to no cost. This course will look at alternatives to these traditional methods and students will, through hands on efforts, test these methods with real customers. By the end of the course students will be able to analyze business ideas for commercial viability.
Pre-requisite(s): ENTR 1004.

ENTR 2002 - Marketing Strategy for Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course introduces students to marketing methods used by startups and early-stage companies with a particular an emphasis on pre-launch marketing strategies. This course seeks to develop the student's understanding of delivering value, standing out from the competition, and having a compelling reason to exist. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, assignments and a final project based on the student's business idea.

ENTR 2003 - Marketing Execution for Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course introduces students to marketing methods used by startups and early-stage companies. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, and assignments to examine existing companies and how they executed various marketing tactics.

ENTR 2004 - Branding for Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Branding for Small Business takes you through the process of identifying an innovation opportunity to create a new product and/or service that can generate profitable revenue for an established organization (aka: corporate innovation or non-profit innovation). In this course, students take on the role of managers, both proposing an innovation project and evaluating other innovation projects on behalf of the organization. Managers use a disciplined approach to identify an important customer "job" that's not getting done well with existing solutions. Managers precisely and accurately define important and unsatisfied customer needs for this job and propose a new solution that can profitably satisfy those needs better than competing alternatives.

ENTR 2005 - Product to Market

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Entering this course, you will move forward with validating in the market an opportunity you have identified that you believe is a high-potential demand creation opportunity. It is expected that you have already 1) verified the customers' job priorities, 2) verified that your value proposition is compelling to those customers, 3) designed a viable business model that you believe can profitably fulfill the value proposition, 4) ascertained an exhaustive set of value targets to inform solution design and 5) determined a demand creation strategy for commercializing the proposed solution (steps 1-5 in the AVID methodology). In this course, you'll continue through the AVID cycle, moving deeper into the discovery process.

ENTR 2006 - E-Commerce for Small Business

Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course will help you establish an e-commerce foundation for your business that can be built upon as you grow. We'll learn the steps needed to help your business start selling online. From which platform to use, to a growth strategy once a foundation is built, this course will aid your journey in becoming digitally mature entrepreneurs. I'm not a traditional professor, so this class probably won't follow traditional guidelines. Innovation, experiences gained, and execution of principles taught will be more important than papers written or assignments turned in.

ENTR 2007 - Product Design & Prototyping for Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course presents the overall process of taking an idea through to a manufactured product ready for marketing and selling. Starting from the initial product idea, each lecture will cover a step in the process. Though specific skills and techniques will be covered, the goal is to understand primarily how to manage the process of design and development successfully. Students will learn to analytically vet ideas at the beginning and continually through the design and development cycle. They will also research successful products online and in-person, and understand what factors contributed to this effectiveness.

ENTR 2008 - Legal Foundations for Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course is concerned with understanding and navigating some of the top legal issues facing business today. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective business owner, and (2) leader.

ENTR 2009 - Money Management for Small Business
ENTR 2010 - Funding For Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course covers basic financial statements, creating pro-forma statements and analysis of financial statements. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup purposes.

ENTR 2011 - Results-Focused Leadership

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business startup. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup or expansion purposes.

ENTR 2012 - People Management for Small Business

Credits: (1)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course is concerned with identifying, evaluating, and supporting metrics which promote outcomes which are important for your venture. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing your: (1) results-focused analytical abilities, and (2) leadership approach in directing/promoting employee growth. It is designed to give you insight into your own attitudes, beliefs, and leadership philosophy, to provide you with assessment tools that will help you diagnose, understand, and develop more effective and influential leadership programs for your business. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ENTR 3002 - Scale & Exit

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: *Full Sem - Online*

**Description:**
The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business using actual dollars. Student teams will present their company at the beginning of the course as teams and will then use student start-up funds to launch their business. By the end of the course students will have launched a real start up business.

**ENTR 3003 - Growing the Business**

Credits: (3)

**Description:** This course helps students take their start-ups business to the next level and accelerate the pace of customer validation and acquisition. This course will focus on launching the business from a student run start-up in a university setting, to a standalone company that can operate outside the confines of a college campus.

**Pre-requisite(s):** ENTR 3002.
Note: This course is not currently offered.

**ENTR 4680 - Small Business Diagnostics**

Credits: (3)

**Typically Taught Fall Semester: Full Sem**

**Typically Taught Spring Semester: Full Sem**

**Description:** Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required. Cross-listed with BSAD 4680.

**ENTR 6810 - Experimental Course**

Credits: (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

**ENVS 4999 - Environmental Science ePortfolio**

Credits: .05

**Typically Taught Fall Semester: Full Sem**

**Typically Taught Spring Semester: Full Sem**

**Description:** This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the Environmental Science program. Students assemble ePortfolios with artifacts demonstrating achievement of each of the six program learning outcomes in Environmental Science and complete a reflection essay. Contact your major advisor to complete this requirement once your portfolio is complete or, at the latest, at the beginning of your last semester before graduation. Credit/no credit.

**ESL 0010 - Writing Level I**

Credits: (2)

**Typically Taught Summer Semester: 1st Blk**

**Typically Taught Fall Semester: 1st Blk**

**Typically Taught Spring Semester: 1st Blk**

**Description:** The focus of this novice-low course for English language learners is on writing words and sentences. Suggested co-requisites: ESL 0020, ESL 0030, ESL 0040, ESL 0050.

**Pre-requisite(s):** LEAP placement test.
ESL 0015 - Writing Level II

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: In this course, novice-mid English language learners practice writing sentences on familiar topics.
Pre-requisite(s):
ESL 0010 or LEAP placement test.
Co-Requisite(s): ESL 0025, ESL 0035, ESL 0045, ESL 0055.

ESL 0020 - Reading Level I

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: In this course for English language learners, the focus is on reading and understanding simple stories at a novice-low level.
Pre-requisite(s): LEAP Placement Test.
Co-Requisite(s): ESL 0010, ESL 0030, ESL 0040, ESL 0050

ESL 0025 - Reading Level II

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: The focus of this course for English language learners is on reading and understanding short stories at a novice-mid level. Suggested co-requisites: ESL 0015, ESL 0035, ESL 0045, ESL 0055.
Pre-requisite(s): ESL 0020 or LEAP Placement Test.

ESL 0030 - Speaking and Listening Level I

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course focuses on helping novice-low English language learners to communicate using basic words and phrases. Suggested co-requisites: ESL 0010, ESL 0020, ESL 0040, ESL 0050.
Pre-requisite(s): LEAP Placement Test.

ESL 0035 - Speaking and Listening Level II

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course focuses on helping novice-mid English language learners to communicate using basic words and phrases. Suggested co-requisites: ESL 0015, ESL 0025, ESL 0045, ESL 0055.
Pre-requisite(s): ESL 0030, or LEAP Placement Test.

ESL 0040 - Grammar Level I

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: In this course, novice-low English language learners focus on the forms and meaning of the simple present tense and other basic grammar concepts. Suggested co-requisites: ESL 0010, ESL 0020, ESL 0030, ESL 0050.
Pre-requisite(s): LEAP Placement Test.

ESL 0045 - Grammar Level II

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: The focus of this course for novice-mid English language learners is on forms and meaning of the present progressive tense and other basic grammar concepts. Suggested co-requisites: ESL 0015, ESL 0025, ESL 0035, ESL 0055.
Pre-requisite(s): ESL 0040 or LEAP Placement Test.

ESL 0050 - Pronunciation Level I

Credits: (1)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This pronunciation course for novice-low English language learners focuses on the basic components of the English sound system. Suggested co-requisites: ESL 0010, ESL 0020, ESL 0030, ESL 0040.
Pre-requisite(s): LEAP Placement Test.

ESL 0055 - Pronunciation Level II

Credits: (1)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This pronunciation course for novice-mid English language learners focuses on the basic components of the English sound system. Suggested co-requisites: ESL 0015, ESL 0025, ESL 0035, ESL 0045.
Pre-requisite(s): ESL 0050 or LEAP Placement Test.

ESL 0060 - Reading Enrichment

Credits: (1)
Description: This reading course offers additional reading practice for Novice-low English language learners. The course focuses on enlarging vocabulary and reinforcing basic sentence structures in English. Credit/no credit.

ESL 0065 - Reading Enrichment

Credits: (1)
Description: This course offers additional reading practice for Novice-mid English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 0110 - Writing Level III

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This writing course for intermediate-low English language learners focuses on writing short paragraphs.
Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better; or LEAP Placement Test.
Suggested Requisite(s): Suggested co-requisites: ESL 0120, ESL 0130, ESL 0141, ESL 0150.
ESL 0120 - Reading Level III

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This reading course focuses on developing reading skills and building vocabulary through reading and understanding non-academic fiction books that have been adapted for mid-intermediate English language learners.
Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.
Suggested Requisite(s): Suggested co-requisites: ESL 0110, ESL 0130, ESL 0141, ESL 0150.

ESL 0130 - Speaking and Listening Level III

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: The focus of this course is for intermediate-low English language learners to communicate in simple social situations.
Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better; or LEAP Placement Test.
Suggested Requisite(s): Suggested co-requisites: ESL 0110, ESL 0120, ESL 0141, ESL 0150.

ESL 0141 - Grammar Level III

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This grammar course for intermediate-low English language learners focuses on forms and meaning of the future and past tenses, as well as basic noun and article usage. Suggested co-requisites: ESL 0110, ESL 0120, ESL 0130, ESL 0150.
Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.

ESL 0150 - Pronunciation Level III

Credits: (1)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: In this course, intermediate-mid English language learners focus on pronunciation features at the word and sentence level. Suggested co-requisites: ESL 0110, ESL 0120, ESL 0130, ESL 0141.
Pre-requisite(s): Complete ESL Levels 1 & 2 at C+ or better or LEAP Placement Test.

ESL 0160 - Reading Enrichment

Credits: (1)
Description: This course offers additional reading practice for Novice-high/Intermediate-low English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 1210 - Writing Level IV

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: The focus of this intermediate-mid course for English language learners is longer paragraph development. Suggested co-requisites: ESL 1220, ESL 1230, ESL 1241, ESL 1250.
Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.
ESL 1220 - Reading Level IV

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This reading course focuses on developing academic reading skills and building academic vocabulary through reading simplified academic text adapted for intermediate-mid English language learners. Suggested co-requisites: ESL 1210, ESL 1230, ESL 1241, ESL 1250.
Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1230 - Speaking and Listening Level IV

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: The focus of this course is for intermediate-mid English language learners to communicate in simple social situations. Suggested co-requisites: ESL 1210, ESL 1220, ESL 1241, ESL 1250.
Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1241 - Grammar Level IV

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: In this course, intermediate-mid English language learners focus on modal verbs, the present perfect tense, and adjective clauses.
Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better; or LEAP Placement Test Level 1 - 3.
Suggested Requisite(s): Suggested co-requisites: ESL 1210, ESL 1220, ESL 1230, ESL 1250.

ESL 1250 - Pronunciation Level IV

Credits: (1)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course familiarizes students with rhythm, intonation, emphasis, and phrasing in spoken English. Suggested co-requisites: ESL 1210, ESL 1220, ESL 1230, ESL 1241.
Pre-requisite(s): Complete ESL Levels 1 - 3 at C+ or better or LEAP Placement Test.

ESL 1260 - Reading Enrichment

Credits: (1)
Description: This course offers additional reading practice for Intermediate-mid English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 2310 - ESL Writing Part I

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: In this course, intermediate-high level English language learners are introduced to essay writing.
Pre-requisite(s): Must pass the LEAP Department Placement Test or have a TOEFL score of 46.
Suggested Requisite(s): ESL 2320 and ESL 2341.
ESL 2320 - ESL Reading Part I

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: The focus of this course for English language learners is on reading and understanding academic texts modified to an intermediate-high level
Pre-requisite(s): Must be placed through the LEAP Department Placement test, or have a TOEFL score of 46 or above (or equivalence).
Suggested Requisite(s): ESL 2310 and ESL 2341.

ESL 2330 - Speaking and Listening Level V

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This intermediate-high speaking and listening class for English language learners focuses on building students' skills of listening, note-taking, vocabulary building, and speaking. Suggested co-requisites: ESL 2310, ESL 2320, ESL 2341, ESL 2351.
Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.

ESL 2341 - ESL Grammar Part I

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: The focus of this grammar course for high-intermediate English language learners is the meaning and usage of the past and future perfect verb tenses, the passive voice, and noun clauses.
Pre-requisite(s): Must pass the Department Placement Test or score 46 or above on TOEFL (or equivalent).
Suggested Requisite(s): ESL 2310 and ESL 2320.

ESL 2351 CEL - Community Level V

Credits: (1)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This is a community-based, project-driven course that is designed to give students the opportunity to develop English language skills with emphasis on written and oral communication, small group discussion, interaction with community members, as well as developing academic speaking and listening skills.
Pre-requisite(s): Complete ESL Levels 1 - 4 at C+ or better or LEAP Placement Test.
Suggested Requisite(s): Suggested co-requisites: ESL 2310, ESL 2320, ESL 2330, ESL 2341.

ESL 2360 - Reading Enrichment

Credits: (1)
Description: This course offers additional reading practice for Intermediate-high English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

ESL 2410 - ESL Advanced Writing

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: In this course, advanced-low English language learners focus on writing essays on academic topics.
Suggested Requisite(s): Co-requisite: ESL 2420 and ESL 2441. Pre-requisite: ESL 2310.

**ESL 2420 - ESL Advanced Reading**

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This low-advanced level reading course focuses on developing academic reading skills and building academic vocabulary through reading slightly modified academic texts
Co-Requisite(s): ESL 2410 and ESL 2441.

**ESL 2430 - Speaking and Listening Level VI**

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This speaking and listening course focuses on helping low-advanced English language learners express, defend, and support opinions. Suggested co-requisites: ESL 2410, ESL 2420, ESL 2441, ESL 2451.
Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.

**ESL 2441 - ESL Advanced Grammar**

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: The focus of this grammar course for mid-advanced English language learners is understanding the meaning and usage of gerunds and infinitives, participles, conditionals, and modal verbs, and a review of past and future perfect verbs, passive voice, and noun clauses
Suggested Requisite(s): Pre-requisite: ESL 2341 Co-requisite: ESL 2410, ESL 2420

**ESL 2451 CEL - Community Level VI**

Credits: (1)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This is a community-based, project-driven course that is designed to give students the opportunity to develop English language skills with emphasis on written and oral communication, small group discussion, interaction with community members, as well as developing academic speaking and listening skills.
Pre-requisite(s): Complete ESL Levels 1 - 5 at C+ or better or LEAP Placement Test.
Suggested Requisite(s): Suggested co-requisites: ESL 2410, ESL 2420, ESL 2430, ESL 2441.

**ESL 2460 - Reading Enrichment**

Credits: (1)
Description: This course offers additional reading practice for Advanced English language learners. Students expand their vocabulary and reading skills with high interest books adapted for this level. Credit/no credit.

**ESS 2200 - Exploring Exercise Science Professions**

Credits: (3)
Typically Taught Summer Semester: 2nd Blk Online, 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: Designed to orient and acquaint students with the goals, objectives, scope, professional preparation, career opportunities, and trends in exercise science professions.

ESS 2300 - Health/Fitness Evaluation and Exercise Prescription

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include skinfold calipers, blood pressure cuffs, online blood pressure course access, cycle ergometer maintenance, heart rate monitors, sit and reach boxes, and sanitizing supplies.
Description: Skills and competencies for prospective health fitness instructors, personal fitness trainers, and nutrition educators to deliver preventive exercise programs.
Pre-requisite(s): HLTH 1030 and NUTR 1020.

ESS 2890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to all students in Human Performance Management and Physical Education who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times up to 6 credit hours.

ESS 3450 - Structural Kinesiology

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include muscle and bone models, classroom computers, isokinetic Dynamometer, EMG equipment, goniometers, bone density tester, hand-grip dynamometers, and movement analysis tablets and apps.
Description: This course is a detailed study of muscles, nerves, bones, and joints as they are involved in the science of movement. It is designed for students to experience theoretical concepts and apply functional anatomy knowledge to the execution and improvement of human performance.
Pre-requisite(s): HTHS 1110 and Co-requisite: HTHS 1111, or Prerequisite: ZOOL 2100.

ESS 3500 - Biomechanics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include force plates,
isokinetic dynamometer, motion analysis devices and programs and EMG equipment.

**Description:** A study of the musculoskeletal bases of human movement and experience in applying that knowledge to the execution and evaluation of human performance.

**Pre-requisite(s):** ESS 3450 and MATH 1050 QL or higher.

---

**ESS 3510 - Exercise Physiology**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $50.00

**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include body composition equipment, skinfold calipers, BodPod, blood pressure cuffs, metabolic cart and equipment, ECG equipment, core temperature sensors, spirometry filters, ergometers, and lactate analyzer.

**Description:** A study of various physiological and environmental factors which affect performance of exercise and sport during acute exercise and physiological adaptations to chronic exercise.

**Pre-requisite(s):** HTHS 1110 or ZOOL 1020 or ZOOL 2200.

---

**ESS 3540 - Physiological Aspects of Human Performance**

**Credits:** (2)

**Description:** Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.

**Pre-requisite(s):** PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).

---

**ESS 3600 - Measurement and Statistics in Exercise Science**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $10.00

**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include computer lab use, body composition equipment, vertical leap device, and handgrip dynamometer.

**Description:** The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health promotion.

**Pre-requisite(s):** Meet WSU Quantitative Literacy requirement.

---

**ESS 4320 - Special Topics**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online, 1st Blk, 1st Blk Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** This course will provide undergraduate students an opportunity to learn emerging and timely topics in the areas of exercise science by critically interpreting information from various sources. The course will also allow students to engage in discussions to appreciate different perspectives on certain exercise science topics.

**Pre-requisite(s):** ESS 2300, ESS 3450, ESS 3510 or Permission of the Instructor.

---

**ESS 4370 - Clinical Exercise Physiology**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include laboratory equipment for blood cholesterol measurements, skinfold calipers, blood pressure cuffs, heart rate monitors, ECG supplies, treadmill and cycle ergometer maintenance.
Description: This course provides a comprehensive look at the clinical aspects of exercise physiology by thoroughly examining the relationship between exercise and chronic disease. It provides students with fundamental knowledge of disease-specific pathology and treatment guidelines. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.
Pre-requisite(s): ESS 2300 and ESS 3510.

ESS 4620 - Leadership Concepts for Human Performance Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will study the current philosophical leadership concepts and the principles, practices, and issues of administration.
Pre-requisite(s): ESS 2200.

ESS 4800 - Directed Undergraduate Exercise Science Research

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will provide undergraduate students an opportunity to engage in research processes and participate in ongoing research projects in the areas of exercise and sport science under the guidance of the ESS faculty.
Pre-requisite(s): ESS 2300, ESS 3450, ESS 3510 and/or Permission of the Instructor.
May be repeated for a total of up to 10 credit hours.

ESS 4830 - Directed Readings in Exercise Science

Credits: (1-3)
Typically Taught Summer Semester: Full Sem - Online, 1st Blk Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Each student is given the opportunity to do independent and directed readings, or secondary research on advanced special topics under the direction of a faculty mentor.
Pre-requisite(s): ESS 2200 and consent of faculty supervisor.

ESS 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A continuation of ESS 2890.
May be repeated 5 times up to 6 credit hours.

ESS 4990 - Senior Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: For Seniors only. Structured seminar focuses on synthesis of ideas and portfolio preparation.

**ESS 6300 - Advanced Biomechanics**

Credits: (3)
Description: Designed to expose the graduate student to appropriate research in sports biomechanics and to be involved in the analysis of movement based on selected mechanical principles such as balance, buoyancy, leverage, force, angles of rebound, projection and motion.
Note: Check with Department for course availability.

**ESS 6400 - Advanced Exercise Physiology**

Credits: (3)
Description: Understanding the physiological changes associated with exercise and training and the reasons for change are the paramount directives of this course.
Suggested Requisite(s): Concurrent with the lecture component is the practicum laboratory experience of equipment operation and individual assessment of physiological parameters.
Note: Check with Department for course availability.

**ESS 6540 - Physiological Aspects of Human Performance**

Credits: (2)
Description: Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.
Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).
Note: Check with Department for course availability.

**ETC 2001 SS/DV - Engineering Culture**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Engineering Culture describes the culture of engineering and the social and scientific practices as well as beliefs that engineers ascribe to in pursuing their profession. It also describes how culture is shaped by engineering and by the technologies that engineers make and maintain. This course examines the professional cultures that engineers inhabit as well as the way that a wider culture is shaped by engineering.

**ETM 5913G - Six Sigma Tools I**

Credits: (3)
Description: This distance learning course provides an introduction to the six sigma body of knowledge as defined by the American Society of Quality (ASQ). The course will examine the foundations of six sigma and the statistical tools used in the initial stages of the DMAIC problem solving methodology.
Pre-requisite(s): BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as MATH 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm.

**ETM 5923G - Six Sigma Tools II**

Credits: (3)
Description: This distance learning course is a follow-on to the initial six sigma course and provides additional detail on the analyze, improve and control portions of the DMAIC problem solving methodology. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.
Pre-requisite(s): ETM 5913G, Six Sigma Tools I.
ETM 5933G - Lean Tools

Credits: (3)
Description: This course teaches students lean manufacturing tools for continuous improvement in a manufacturing environment.
Pre-requisite(s): BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as Math 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm. This distance learning course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

ETM 5943G - Lean-Sigma Implementation

Credits: (3)
Description: This course introduces students to the implementation skills necessary to successfully combine and apply lean manufacturing and six sigma concepts in small to mid-sized manufacturing facilities. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.
Pre-requisite(s): ETM 5923G, ETM 5933G.

FAM 1400 - Marriage and Romantic Relationships

Credits: (3)
Typically Taught Summer Semester: 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introductory survey course which addresses individual, interpersonal, and developmental dynamics essential for sustaining interpersonal and marital relationships.

FAM 2100 - Family Resource Management

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Understanding the significance of values, goals, attitudes and planning strategies in the management of human, economic and environmental resources as they relate to increasing satisfaction and the enhancement of family relationships.

FAM 2810 - Experimental Courses

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

FAM 2830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individually chosen readings on specialized topics supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration. May be repeated up to 3 credit hours.

FAM 2860 INT - Practicum
FAM 2910 - Children & Families: Variable Titles

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.
Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620

FAM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

FAM 2990B - Seminar in Family Studies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Discussion and analysis of special topics for Family Studies majors including professional skills, professional credentials, and the development of professional ethics.

FAM 3150 - Consumer Rights and Responsibilities

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Description: The role and responsibilities of the family and its members as consumers. An exploration of marketplace fact and fraud and identification of consumer resources.

FAM 3350 - Diverse Families

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A comparative analysis of various types of ethnic families in the United States reflecting their social and political dynamics with extensive coverage of the family lifestyles, traditions and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional and current ethnic family characteristics, and changes and adaptations to the ethnic family and culture.
FAM 3400 - Development in Middle Adulthood

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The content of this course is designed to create a foundation of knowledge and understanding for the required core competency of the nationally recognized Family Life Education Content areas. Specifically addressing competency area number 3, Human Growth and Development across the Lifespan. The course will focus on normative and non-normative individual developmental processes, as well as systemic dynamics of social context surrounding and impacting middle-aged development.

FAM 3450 - Adult Development

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem
Description: Growth and development through young, middle, and late adulthood within a developmental and family system context.

FAM 3550 - Parenting Education

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed to assist in the acquisition of skills and knowledge regarding the understanding and facilitation of contemporary parents in their parenting role. Course content will include conceptualizations and strategies from both contemporary theoretical and applied perspectives.

FAM 3650 - Family Processes

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An examination of family internal dynamics and family systems for the purpose of enrichment, problem prevention and education.
Pre-requisite(s): CHF 2400.

FAM 3660 - LGBTQ Families

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is an exploration and investigation into the issues facing lesbian, gay, bisexual, transgender, and queer (LGBTQ) families. Family is defined broadly to include all relationships in which primary care-giving responsibilities are shared by individuals who are interdependent upon each other. This includes conjugal relationships (marriages and other romantic relationships) and non-conjugal relationships (parent/children, friends, siblings, grandparents/grandchildren, etc.). We will consider not only LGBTQ families, but also the social structures and systems in which they operate. We will use lectures, group discussions, films, readings and in-class activities to explore the meanings of sex, sexual orientation and sexuality, family form and function, care-giving, family-planning, marriage and parenting. We will pay particular attention to cultural, political, gender, racial, and economic dimensions of queer families. You will develop an understanding of the issues facing a wide range of LGBTQ+ family configurations.
Suggested Requisite(s): CHF 2400.

FAM 3700 - Family Life Education and Sexuality
**FAM 3820 - Organization and Leadership of Non-profit Family Services**

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem
Description: This course will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

**FAM 3850 CRE - Current Research Methods in Child and Family Studies**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to the methods and types of research used in the study of family issues and processes. Focus of the course includes the development of student knowledge and skills used in applying the scientific method in family studies contexts. Understanding, reviewing, evaluating, and interpreting the methods and conclusions reported in the professional empirically based journals will also be emphasized.
Pre-requisite(s): CHF 1500, CHF 2400.

**FAM 4275 - Family Life Education Coaching**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is to prepare students to become family life coaches. The course covers topics from the foundational theories/models of coaching (positive psychology, cognitive-behavioral coaching, and others), how to conduct coaching sessions, the delineation between counseling and coaching, and how to run a coaching business. Students will practice coaching with other students as well as with actual practice clients.

**FAM 4300 - Latino Child and Family Development**

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Online
Description: The Latino Child and Family Development course is designed as an upper division course for those who will work with, advocate for, or interact with children and families from a Latino background. The course uses a cultural constructivist approach to understand Latino children and their families. The central focus includes the study of Latino culture, parenting practices, couple and marital practices, and other family dynamics. Additionally, a major goal is to understand and deconstruct stereotypes associated with individuals within the Latino culture. The course will simultaneously focus on Latinos living within the United States as well as cultural groups throughout North America, South America, and the Caribbean.

**FAM 4310 - Understanding the Modern United States Military Family**
Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to assist you in understanding the structure and formation of each service branch as well as the experiences of families serving in the U.S. Military focusing on both Active duty and Reserve components using Family Systems Theory, Risk and Resiliency Theory and Ambiguous Loss Theory. In recent years, many changes have taken place in the military family landscape. The knowledge gained in this course should provide you with insight into the complex experiences of today's U.S. Military Families. The information provided in this course is designed to assist students to be effective in professional settings working with military personnel and their families, and is a starting foundation for those interested in pursuing professional civilian careers working with military families in a variety of settings (e.g., nonprofit organizations, the U.S. Military, and others). This course will focus on different components of family life that specifically impact military families. The course format will include (1) readings, (2) online lectures, (3) quizzes, (4) exams, and (5) online and in class discussion.
Pre-requisite(s): FAM 1400, CHF 1500, CHF 2400.

FAM 4350 - Religiosity and Family Life Education

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The Religiosity and Family Life Education course as an upper-division course that examines how various religious traditions and practices influence family dynamics and interaction. Specifically, how religious traditions and practices influence couple formation, marital dynamics, parenting practices, gender roles, intergenerational relationships, and sexuality. Furthermore, to develop an understanding and appreciation for a diversity of faith traditions (including nonbelief). Finally, how family life educators can effectively work with diverse populations in a variety of settings.

FAM 4400 - The Family in Stress

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Examining causes of stress in the family and developing strategies for coping with stress.

FAM 4450 - Children and Families in the Medical Setting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The purpose of this course is to understand and serve children and families in the medical setting and to provide basic background and knowledge of Child Life practices. This course prepares individuals who plan to complete a 600-hour volunteer internship in the field of Child Life. Passing this course is required prior to entering into an internship and taking the National Child Life Certification Examination.

The content of this course is designed to create a foundation of knowledge, both academically and practically, in the required core competencies of the Association of Child Life Professionals to achieve the nationally recognized Child Life Certification. The core competencies include the ability to assess and provide services to infants, children, youth, and families in a medical setting including stress management, coping strategies, educational preparation, age-appropriate interventions and community resource education.

FAM 4500 - Comparative Study of Childhood and Adolescent Development

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Spring Semester: Full Sem
Description: An advanced level course that addresses the understanding of the principles and theories of growth and development within and between the stages of children in childhood and adolescence. Covers the physiological, intellectual, social, emotional domains of development.

FAM 4520 - Basic Mediation Training
Credits: (3)

**Description:** A basic mediation training course addressing the theory and skills to effectively deal with conflict situations. The course leads to certification in basic theory and skills of mediation. (Supervised mediation practice is required to complete certification.)

Note: This course is taught as needed.

**FAM 4600 INT - Family Studies Field Experiences**

Credits: (1-8)

**Description:** Six to eight weeks internship, which may require off-campus residence. Credit and hours as arranged with instructor.

**Pre-requisite(s):** consent of instructor.

May be repeated up to 8 credit hours.

Note: This course is taught as needed.

**FAM 4650 - Family Life Education Methods**

Credits: (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Preparing students to be Family Life Educators by exploring philosophies, methods, and skills for teaching and working with parents and family members.

**Pre-requisite(s):** FAM 3350, FAM 3550, and FAM 3850, or consent of instructor.

**FAM 4660 - Advanced Skills for Family Life Educators**

Credits: (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This upper division course is centered on students' development of interpersonal and pedagogical skills as Family Life Educators under the direct supervision of course instructors. This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators. This includes building audience engagement and trust through the use of observational feedback, responding to nonverbal cues, and addressing common teaching challenges. This course will teach students to present specific family life education program curricula. The course training will include students reviewing and presenting the family life education materials in two contexts: 1-within the classroom among peers and faculty and 2-within the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education, and it also provides students with the experience of having presented a community education program in multiple contexts.

**FAM 4800 - Individual Research**

Credits: (1-6)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor.

May be repeated up to 6 credit hours.

**FAM 4810 - Experimental Course**

Credits: (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.
FAM 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individually chosen readings on specialized topics supervised by a faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated up to 3 credit hours.

FAM 4860 INT - Practicum

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Work or volunteer experience which applies prior academic learning in a supervised setting. Consent of faculty supervisor is required prior to registration.
Pre-requisite(s): for Family Studies Majors include FAM 2990B, FAM 3350, FAM 3550, FAM 3850, and completed background clearance.
May be repeated up to 6 credit hours.

FAM 4900 - Career Strategy Seminar

Credits: (1)
Description: Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.
Note: This course is not currently offered.

FAM 4910 - Children & Families: Variable Titles

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

FAM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

FAM 4990B - Senior Seminar in Family Studies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Discussion and analysis of special topics for seniors in Family Studies major.
Pre-requisite(s): FAM 2990B, FAM 3350, FAM 3550, FAM 3850, or consent of instructor.
FILM 2200 CA - Fundamentals of Film

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $30.00
Course Fee Purpose: Screening materials and camera and editing equipment
Description: Fundamentals of Film Studies offers film majors a more specialized analysis of formal cinematic elements, and narrative structure while introducing students to the basics of filmmaking and related technologies. It helps film students to articulate the theoretical and practical skills to recognize, analyze, and create the film as an art form. Students will also learn about the principle of "building blocks" and formal elements (narrative, mise-en-scene, cinematography, sound and editing) that constitute the fundamental principles of analysis, genre, style, performance and storytelling. We will also outline, explain, and draw connections among artistic, technological, socioeconomic forces, which have shaped and reflected in the world of cinema. We will concentrate on essential films and directors from around the world to comprehend their contribution to the evolution of film form and content. In addition to the weekly lecture, screenings, and reading and writing assignments, students will also have the opportunity to put theory to practice by producing short film projects.

FILM 2280 - Introduction to Film Production

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $30.00
Course Fee Purpose: Maintenance and purchasing of camera and editing equipment
Description: This practical and technical course explores all essential aspects of filmmaking in preparation of more advanced film production classes. Participants will acquire a fundamental grounding in all of the essential skills in film production from planning a project to producing and on toward completing the project with an overview of film festival participation and distribution. Students will also have an opportunity to gain insight into industry-standard film equipment and post-production technologies. One of the primary goals of this course is to familiarise film students with the fundamentals of cinematography, including the use of the professional camera, composition, lighting, and editing. Another goal is to examine the conceptual and unique challenges of visual-driven filmmaking: scriptwriting, pre-production, planning, continuity, and directing among them.

FILM 2820 - Special Topics in Film Studies

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: The special topic in film course may focus on an international cinema, a major filmmaker, genre, or a specific era. It may be repeated three times for credit.

FILM 3200 - History of Film

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $30.00
Course Fee Purpose: Screening materials
Description: This class is a survey of world cinema from 1893 to the present. We will examine movies as a business, a social phenomenon, a series of technological innovations, and an art form, and we will work toward a functional explanation of how each of these aspects of the movies has changed over time. Although many people associate movies with the American film industry, filmmakers in every historical period and all over the world have worked to both distinguish their work from that of Hollywood and to draw upon some approaches innovated by the Americans. The films screened in class may include silent epic blockbusters from Italy, riveting crime thrillers from Germany, explosive Hong Kong action movies, French New Wave dramas, anarchic British satires, and many other examples of exciting and innovative filmmaking from all over the world.
FILM 3780 - Survey of Documentary Cinema

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The history of documentary cinema consists of a series of experimentations in the attempt to represent reality, taking its material from the historical world we live in. As we study the forms, modes, theories, and criticism of non-fiction film in this course, we will also discover how filmmakers have chosen to represent reality, how changing technologies and sensibilities have affected the way reality is represented in documentaries, and how nonfiction films have been used for different purposes.

FILM 3900 - Sundance Film Festival Experience

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: This course is a hybrid intense first-hand experience of the world of independent filmmaking through the Sundance Film Festival. The Sundance Film Festival has launched the careers of many contemporary auteurs, including the Coen Brothers, Christopher Nolan, Wes Anderson, Lynn Ramsey, Quentin Tarantino, and Steven Soderbergh. This course provides the opportunity for film students to hone their own creative and critical visions by viewing and discussing a wide variety of world premiere films, as well as by attending talks by filmmakers, business people, scholars, and critics in the vibrant environment of Sundance.

FILM 4120 - Careers in Film and Entertainment Industry

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This introductory course for producers, directors, writers, development personnel, and aspiring film executives examines the changing business issues associated with the film industry. This course is designed to provide film students with a systematic overview of the modern-day filmed entertainment industry, not only the traditional "Hollywood System" operating out of Los Angeles but the independent film model as well. Through lectures, discussions, and case studies, instruction focuses on current business and production issues and introduces new business models to navigate content onto new distribution platforms.

FILM 4700 - Film Studies Capstone

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $30.00
Course Fee Purpose: Maintenance and purchasing of camera and editing equipment
Description: This Capstone course is designed to conclude students' experiences as film majors at the Weber State University as well as to develop students' research, writing, and/or production skills. In this course, students will analyze or produce films that pertain to the special topic of their choice. Peer review will occur throughout the writing or production process. At the end of the course, students will present their findings and/or films to the class and faculty members from the Film Studies program.

FIN 1010 - Personal Finance

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Personal and family budgeting, installment buying, borrowing money, buying a home, life and property insurance, personal investment, and retirement and estate planning.

FIN 2300 - Introduction to Investments
FIN 3200 - Financial Management

Description: Financial analysis, planning and control, working capital management, capital budgeting, and short-term and long-term financing. Student use of computers is required for the preparation of case study material used to enhance the presentation of selected topics presented in the course.

Pre-requisite(s): ACTG 2010, ECON 2010, MIS 2010, and QUAN 2600.

FIN 3300 - Investments

Description: An in-depth study of principles, concepts, and tools used in the investment field as they relate to investment opportunities, mechanics, financial statement analysis, risk, and portfolio management. Computer use is required to access the Dow-Jones market analyzer investment software and in the preparation and analysis of investment portfolios.

Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 3350 - Financial Institutions

Description: A study of the functions and significance of the major financial institutions, such as commercial savings institutions, with an emphasis on management problems, regulations, credit appraisal, and loan types.

Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 3400 - Real Estate Principles and Practices

Description: Fundamental economic aspects of real estate with emphasis on realty as a commodity of trade. The subject matter in this course is of general interest to both those desiring to enter the real estate profession and those who only intend to own real estate.

Pre-requisite(s): FIN 3200.

FIN 3500 - Capital Budgeting

Description: Capital investment decision-making procedures relative to make/buy, lease/buy, working capital, replacements, and new investment decisions. Involves use of the computer in the analysis of cash flows and capital acquisition alternatives.

Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 4400 - Financial Problems - Corporate Finance
FIN 4410 - Financial Problems - Investments

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Problems in financial management with an emphasis on corporate finance. Use of financial software and computers is an integral part of problem solutions.
Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 4410 - Financial Problems - Investments

FIN 4800 - Independent Research

Credits: (1-3)
Description: Directed research and study on an individual basis.
Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

FIN 4850 - Finance Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore financial theory and practice in countries other than the U.S. Students will study international finance as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): BSAD 2899.
May be repeated once up to 6 credits.

FIN 4860 INT - Finance Internship

Credits: (3)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through finance courses.
Pre-requisite(s): BSAD 2899; Senior Standing; Instructor approval.

FIN 4900 - Special Topics in Finance

Credits: (4)
Variable Title
Description: Special treatment of current topics in Finance. This course will involve primary and/or secondary research by class participants.
Pre-requisite(s): BSAD 2899, FIN 3200; Instructor approval.

FL 2410 - Introduction to Localization

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description:
Introduction to the field of localization. Includes the globalization of digital applications such as software, websites, videos, and video games. Addresses how to overcome both technical and cultural issues in localization and internationalization.

**FL 2600 HU - Introduction to Cultural and Literary Studies in Translation**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken.
May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

**FL 2810 - Experimental Course**

Credits: (1-6)
Experimental
**Description:** Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit.
May be repeated for a total maximum of 6 credit hours.

**FL 2851 - HU Study Abroad**

Credits: (3)
**Description:** Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

**FL 3270 - Special Topics in Linguistics**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with Department for course availability.

**FL 3320 - Applied Language Studies**

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

**FL 3420 - Introduction to Translation**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description:  
Introduction to the theory and practice of translation, with emphasis on the techniques and skills needed to translate commercial texts. Students will learn the concepts and conceptual framework for the analysis and understanding of translation as a process and a product.  
Pre-requisite(s):  
Intermediate Low proficiency in a second language (2020 or the equivalent).

**FL 3430 - Translation Technology**

Credits: (3)  
Typically Taught Fall Semester: *Full Sem*  
Typically Taught Spring Semester: *Full Sem*  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description:  
This course introduces students to the theory and practical use of translation technologies important to management, engineering and linguistic roles in translation and localization, with a primary focus on tools for linguistic roles including translation and editing.

**FL 3570 - Special Topics in Culture**

Credits: (3)  
Variable Title  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description:  
(Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.  
Note: Check with Department for course availability.

**FL 3580 - Global Cinema**

Credits: (3)  
Typically Taught Summer Semester: *1st Block, 1st Block Online, 2nd Block, 2nd Block Online*  
Typically Taught Fall Semester: *Full Sem, Full Sem - Online*  
Typically Taught Spring Semester: *Full Sem, Full Sem - Online*  
Course Fee: $8.00  
Course Fee Purpose: Course fees in FL courses are designed to cover the costs of classroom equipment maintenance and replacement including desktops, projectors and projector screens, etc. and Translation and Localization software, including audiovisual translation; consumable materials and supplies; and support for student tutors, and online instructional resources.  
Description: A survey of global cinema movements and film aesthetics. Analysis of films within the context of a variety of cultures and diverse cinematic traditions of the world.

**FL 3750 - Introduction to Interpreting**

Credits: (3)  
Typically Taught Fall Semester: *Full Sem*  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.
FL 3760 - Special Topics in Translation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation Studies and Localization.

FL 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

FL 4400 - Methods for Teaching Languages

Credits: (5)
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (AL=Advanced Low) Practical Methods, techniques and strategies for teaching foreign languages. This course will also review second language acquisition research, various assessment techniques, the ACTFL Proficiency Guidelines and the National Standards for Foreign Language Learning. Emphasis is on planning, teaching and assessment. Offered spring semester only.

FL 4500 - Methods for Teaching Languages

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

FL 4801 - A&H Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

FL 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.
FL 4860 INT - Foreign Language Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) An opportunity for students to receive academic credit for faculty-approved, on-the job learning experiences that involve foreign languages and/or cultures. Credit/No Credit grading only.
Pre-requisite(s): Instructor Approval.
May be repeated up to 6 credits.

FL 4990 - Senior Assessment

Credits: (.5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Required of all majors during their senior year. Students will assemble a portfolio with a representation of their work in the foreign language. Speaking skills will also be evaluated. Must be completed before graduation clearance.

FL 6500 - Methods for Teaching Languages

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

FRCH 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles.
Note: Course not currently being offered.

FRCH 1010 - First Semester French

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

FRCH 1020 - Second Semester French

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of FRCH 1010. Basic language skills including listening, speaking, reading, writing and culture.

FRCH 1700 - Conversational Skills

Credits: (1-3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.
Note: Course not currently being offered.

FRCH 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.
May be repeated twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

FRCH 2000 - Proficiency Development

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

FRCH 2010 - Third Semester French

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of FRCH 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

FRCH 2020 HU - Fourth Semester French

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of FRCH 1020. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

FRCH 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of FRCH 1020 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.
FRCH 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

FRCH 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken. May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

FRCH 2851 - Study Abroad

Credits: (3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Note: Check with Department for course availability.

FRCH 2852 - Study Abroad

Credits: (1-3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

FRCH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

FRCH 3000 - Proficiency Development

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.
FRCH 3060 - Grammar & Composition

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.
Note: Check with department for course availability.

FRCH 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): FRCH 2020 or AP exam with a score of 4 or better

FRCH 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): FRCH 2020 or AP exam with a score of 4 or better

FRCH 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): FRCH 2020 or AP exam with a score of 4 or better

FRCH 3160 - Introduction to Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

FRCH 3220 - Phonetics and Phonology

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

FRCH 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
FRCH 3320 - Applied Language Studies

Credits: (1-3)  
Variable Title  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.  
Note: Check with department for course availability.

FRCH 3360 - Advanced Grammar

Credits: (3)  
Variable Title  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.  
Note: Check with department for course availability.

FRCH 3550 - Cultural Heritage I

Credits: (3)  
Variable Title  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

FRCH 3560 - Cultural Heritage II

Credits: (3)  
Variable Title  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

FRCH 3570 - Special Topics in Culture

Credits: (3)  
Variable Title  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.  
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.  
Note: Check with Department for course availability.

FRCH 3610 - Literature Survey I

Credits: (3)  
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

FRCH 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

FRCH 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with FL 3160. May be repeated under different titles.

FRCH 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

FRCH 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

FRCH 3650 - Literature Periods

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.

May be taken 3 times up to 9 credits under different titles. Note: Check with department for course availability.

FRCH 3690 - Literature Special Topics in Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

FRCH 3710 - Business Language I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

FRCH 3715 - Business Language II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00

FRCH 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.
FRCH 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

FRCH 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

FRCH 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

FRCH 3760 - Special Topics in Translation

Credits: (3)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation and Translation Studies.

FRCH 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

FRCH 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

FRCH 4190 - Foreign Language Journal
FRCH 4620 - Survey of Literature I
Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

FRCH 4630 - Survey of Literature II
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FRCH 3160

FRCH 4690 - Special Topics in Literature
Credits: (3)
Variable Title
Course Fee: $8.00
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): FRCH 3160.

FRCH 4740 - Translation II
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FRCH 3740 is strongly advised, but not required.

FRCH 4830 - Directed Readings
Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

FRCH 4850 - Study Abroad
Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

FRCH 4920 - Short Courses, Workshops, Institutes, and Special Programs
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

FRCH 4960 - Senior Project
Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

GEO 1030 PS - Earthquakes and Volcanoes
Credits: (3)
Typically Taught Summer Semester: 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: The causes, distribution, and effects of earthquakes and volcanoes within the framework of global plate tectonics. Development of problem solving and analytical thinking skills are emphasized through homework assignments related to geologic processes.
Three lectures per week.

GEO 1060 PS - Environmental Geosciences
Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: The scientific study of the interaction of humans and earth systems including topics of natural hazards; soil, water, energy and mineral resources; and issues of global change.
Three lectures per week.

GEO 1065 - Environmental Geosciences Lab
Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Laboratory and field exercises involving analysis of geologic data related to environmental issues or problems. Application of the scientific method and development of basic computational and map interpretation skills will be stressed.
One three-hour lab per week.
Pre-requisite/Co-requisite: GEO 1060.

GEO 1110 PS - Dynamic Earth: Physical Geology
Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Fundamental principles of geology emphasizing physical aspects of the Earth including earth materials, plate tectonics, and the effects of water, wind and ice on the Earth's surface. Useful for all students, and recommended as the first geology course for students with majors/minors in geosciences, science teaching, archaeology, and pre-engineering.
Three lectures per week. Optional field trip to observe local geologic features.
GEO 1115 - Physical Geology Lab

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The study of minerals and rocks in hand specimens, as well as surficial processes of the Earth revealed by topographic maps and air photos.
One three-hour lab per week.
Pre-requisite/Co-requisite: GEO 1060 or GEO 1110 or GEOG 1000.

GEO 1130 PS - Introduction to Meteorology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Survey of atmospheric processes that create weather. Topics include solar radiation, temperature, moisture, pressure, wind, storm systems, weather forecasting, and air pollution. Problem solving skills and use of satellite imagery included.
Three lectures per week.

GEO 1220 - Historical Geology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The history of the Earth and the methods used to interpret this history. Short field trips required.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 1110 and GEO 1115.

GEO 1350 PS - Principles of Earth Science

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Overview of Earth's systems, including weather, climate, seasons, rocks and minerals, processes that change Earth's surface, earthquakes, volcanoes, and plate tectonics. Data collection and analysis are included.
Two lectures and one three-hour lab per week. Designed for Elementary Education majors.

GEO 1710 - Introduction to Geographic Information Systems (GIS)

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations / other equipment.
Description: This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.
Pre-requisite/Co-requisite: GEOG 1790.

GEO 1720 - Geospatial Analysis

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of equipment (e.g., GNSS instruments). The remaining funds are used to replace expendables such as printer paper and color printer cartridges used for student printing in the lab.

Description: This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis/modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become an advanced GIS user with marketable skills transforming data into information needed to address today's geospatial problems.

Pre-requisite(s): GEO 1710.

GEO 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GEO 2050 - Earth Materials

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: An introduction to the origin, classification, and identification of minerals and rocks including topics related to crystallography, mineral chemistry, petrology, and the importance of mineral and rock resources to our society.
Three lectures and one three-hour laboratory per week.
Pre-requisite(s): GEO 1115 and CHEM 1200.
Co-Requisite(s): CHEM 1210.

GEO 2200 - Geospatial Data Acquisition

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as field equipment (drones, GNSS units, tablets, etc.), annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations.
Description: This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.
Pre-requisite(s): GEO 1710.

GEO 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary, team-taught course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.
Class will meet once per week and will be taught in a lecture/demonstration format.

GEO 2820 - Elements of Research in the Sciences
Typically Taught Spring Semester: Full Sem

Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.

Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).

Cross-listed with CHEM 2820 and PHYS 2820.

GEO 2840 INT - Geospatial Internship

Credits: (1-3)

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite(s): Consent of instructor prior to registration.

Pre-requisite/Co-requisite: GEO 1720 and GEOG 2400
This is a dual-listed course with GEO 4840.
May be repeated for a maximum of three credit hours.

GEO 2850 - Geospatial Capstone

Credits: (3)

Typically Taught Spring Semester: Even Years

Course Fee: $50.00

Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

Pre-requisite/Co-requisite: GEO 1720, GEO 2200, and GEOG 2400.
This is a dual-listed course with GEO 4850.

GEO 2890 INT - Cooperative Work Experience

Credits: (1-6)

Description: Open to all students in Geosciences who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

GEO 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.
GEO 2950 - Geoscience Fieldtrips

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Application of basic Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations may be required.
Pre-requisite(s): consent of instructor.
May be repeated for a maximum of 6 credit hours.

GEO 3000 - Geoscience Methods and Careers

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: An introduction to a variety of methods and skills used by geoscientists, including geoinformation literacy, written-oral-visual communication, and basic statistical/data analysis skills, that will be used and further developed in upper-division courses. Basic field and laboratory methods used in geoscience research/investigations will be demonstrated and practiced. Geoscience career paths will be explored and students will begin planning for professional licensure. Two hours of lecture and three hours of field/laboratory per week.
Pre-requisite(s): GEO 1220 and MATH 1010.

GEO 3010 - Oceanography and Earth Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem even years
Description: Study of the world's oceans as a framework for examining the major issues in Earth system science. Topics include plate tectonics and the origin of ocean basins, atmosphere-ocean linkages and feedbacks, El Nino events, the ocean's role in biogeochemical cycles, structure and organization of marine ecosystems, and the scientific basis for understanding human impacts on marine systems.
Three lectures per week.
Pre-requisite(s): GEO 1060 or GEO 1110 or GEO 1130 or GEOG 1000.

GEO 3060 - Structural Geology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: Origin and characteristics of structural features in deformed rock. Topics include basic principles of stress, strain, and rock deformation; analysis of faults and folds; and relations to major tectonic features of Earth. Field trips required.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 2050 and either MATH 1050 or MATH 1080; or consent of instructor.

GEO 3080 - Applied Hydrology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A detailed examination of Earth's water cycle, including precipitation, surface water, groundwater, water management, and water conservation. Three hours of lecture and three hours of laboratory per week.
Pre-requisite(s): GEO 1115 and GEO 3000.

GEO 3150 - Geomorphology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: A study of landforms, surficial deposits, and geomorphic processes operating in fluvial, coastal, eolian, and glacial environments. Laboratory exercises employ maps, aerial photographs, and field analysis to understand the interactive nature of geomorphic processes and landform development.
Three lectures and one three-hour lab per week.

**Pre-requisite(s):** GEO 1220 and MATH 1050 or MATH 1080.

**GEO 3180 - Paleontology**

**Credits:** (4)

**Description:** Characteristics of important fossil groups and their geologic distribution and paleoecology. Emphasis on the invertebrate record with some treatment of vertebrates and plants.

Three lectures and one three-hour lab per week.

**Pre-requisite(s):** GEO 1220 or ZOOL 1110 or consent of instructor.

Note: This course is not currently offered.

**GEO 3210 - Quaternary Environmental Change**

**Credits:** (3)

**Description:** Overview of the geologic and paleoclimatic history of the Earth during the last 2 million years (the "Ice Age"), focusing on the interactions between geological, climatological, and biological processes and systems. Topics include the methods used to date Quaternary deposits, nature of Quaternary glaciations, use of proxy data to model past climates, causes of Quaternary climatic oscillations, history of Pleistocene Lake Bonneville, and the increasing role of humans as agents of environmental change.

Three lectures per week.

**Pre-requisite(s):** GEO 1220 or GEOG 1000 or ANTH 2030.

Note: This course is not currently offered.

**GEO 3214 - Soils**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Description:** An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management. Three hours of lecture and one 3-hour lab per week.

**Pre-requisite(s):** BTNY 2104 or GEO 1110 or GEO 1060 and CHEM 1130 or CHEM 1110 or CHEM 1210.

Course is cross listed with BTNY 3214.

**GEO 3250 - Geology of Utah**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem even years

**Description:** The study of Utah's geologic history, rocks, minerals, fossils, and landforms and their relationship to regional and global events. Field trips required.

Three lectures per week.

**Pre-requisite(s):** GEO 1220.

**GEO 3550 - Sedimentology and Stratigraphy**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Description:** The processes, origin, classification, identification, and basic petrology of sedimentary rocks and the principles, concepts, and applications of stratigraphy. Field trips required.

Three lectures and one three-hour lab per week.

**Pre-requisite(s):** GEO 1220 and GEO 2050; or consent of instructor.

**GEO 3570 - Foundations of Science Education**
Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

GEO 3710 - Introduction to Geographic Information Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations / other equipment.
Description:

This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.

GEO 3720 - Geospatial Analysis

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of equipment (e.g., GNSS instruments). The remaining funds are used replace expendables such as printer paper and color printer cartridges used for student printing in the lab.
Description: This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become a Geospatial/GIS analyst or advanced GIS user with marketable skills required in the geospatial workforce today.
Pre-requisite(s): GEO 3710.

GEO 3753 - Geomicrobiology

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Course Fee Purpose: Fees support the cost of field trips, supplies for the labs, and helps support the course based undergraduate research project
Description: Geomicrobiology is the study of the interactions between microorganisms and minerals. This course will explore 1. geological change mediated by microorganisms, 2. microbial evolution driven by geologically diverse habitats, and 3. applications of geomicrobiology, including understanding the evolution of life on earth, the study of life in extreme environments, and industrial applications of geomicrobiology. This team-taught course includes classroom discussion, laboratories, and field trips.
Pre-requisite(s): CHEM 1210 or approval of the instructor.
Cross-listed with MICR 3753.

GEO 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

GEO 3840 - Remote Sensing: Principles and Methods

Credits: (4)  
Typically Taught Fall Semester: Full Sem  
Course Fee: $50.00  
Course Fee Purpose: Fee is used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for non-expendable items such as annual software license fees for (ESRI, ArcGIS, ENVI, Trimble, etc.) and replacement of computer work-stations and other equipment.  
Description: This is an advanced geospatial course that introduces and analyzes important concepts, issues, and methods related to a variety of multispectral and other types of remotely sensed imagery (e.g., satellite and airborne platforms). The major objectives are to provide students with both a foundation in understanding different types of imagery and how to process imagery used to address geospatial problems and issues. After successful completion of this course, you will have the knowledge needed to understand different types / applications of imagery and the skills needed to process the image data and assess the accuracy of the results.  
Pre-requisite/Co-requisite: GEO 3710.

GEO 3880 - Groundwater

Credits: (4)  
Typically Taught Spring Semester: Full Sem  
Course Fee: $40.00  
Description: Origin, occurrence, behavior, and use of groundwater, with special emphasis on practical applications in Utah. Three lectures and one three hour lab per week.  
Pre-requisite(s): GEO 1115 and either MATH 1050 or MATH 1080; or consent of instructor.

GEO 4060 - Geoscience Field Methods

Credits: (4)  
Typically Taught Fall Semester: Full Sem  
Description: A capstone course in the collection and analysis of field data for various Geoscience applications. Topics include introductory surveying, geologic mapping of bedrock and surficial deposits, measuring stratigraphic sections, GPS surveying, groundwater monitoring, and analysis of geologic hazards. Results are presented in maps, computer graphics, written reports, and oral presentations. Two hours of lecture and six hours of lab/field work per week.  
Pre-requisite(s): GEO 2050, GEO 3000, and GEO 3550.

GEO 4080 - Groundwater and Environmental Assessment

Credits: (4)  
Typically Taught Spring Semester: Full Sem  
Description: A survey of groundwater hydrology, including the origin, occurrence, behavior, and use of groundwater and the transport of groundwater and soil contaminants. Environmental site assessment and groundwater remediation are also examined. Three hours of lecture and three hours of laboratory per week.  
Pre-requisite(s): GEO 3080.

GEO 4100 - Engineering Geology

Credits: (3)  
Typically Taught Spring Semester: Full Sem odd years  
Description: Introduction to basic concepts in engineering geology and geotechnical engineering; emphasizes problem solving as the primary method.
Three lectures per week.
Pre-requisite(s): GEO 1060 and GEO 1065, or GEO 2050, or consent of instructor.

GEO 4200 - Geospatial Data Acquisition

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as field equipment (drones, GNSS units, tablets, etc.), annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations.
Description: This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.
Pre-requisite(s): GEO 3710.
Crosslisted with GEO 2200.

GEO 4300 - Igneous and Metamorphic Petrology

Credits: (4)
Typically Taught Spring Semester: Full Sem even years
Description: The origin, classification, and identification of igneous and metamorphic rocks, and understanding of igneous and metamorphic processes. Laboratory includes analysis of rocks in thin section and an introduction to optical mineralogy.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 2050 and CHEM 1220; or consent of instructor.

GEO 4510 - Geology Field Camp

Credits: (4)
Typically Taught Summer Semester: 1st Blk even years
Description: Integrated approach to collecting field data and interpreting geologic processes and history. Includes geologic mapping and analysis of bedrock, surficial deposits, and geologic structures using aerial photographs, topographic maps, and surveying techniques. Results presented in written reports, maps, and graphical formats.
About forty hours of lab per week for about 4 weeks.
Pre-requisite(s): GEO 3060, GEO 3550, and GEO 4060; or consent of instructor.

GEO 4550 - Geochemistry

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: The chemical evolution of the Earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere. Applications to chemical reactions, mineral stability, aqueous solutions, geochemical cycles, and isotope geochemistry.
Three lectures per week.
Pre-requisite(s): CHEM 1220 and GEO 2050; or consent of instructor.

GEO 4560 - Environmental Geochemistry

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-
world applications.
Three hours of lecture and three hours of lab per week.

**Pre-requisite(s):** CHEM 1200 and GEO 3000; or consent of instructor.

### GEO 4570 - Secondary School Science Teaching Methods

**Credits:** (3)
**Description:** Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.
**Pre-requisite(s):** Admission to the Teacher Education Program.

Note: This course is offered as needed.

### GEO 4600 - Geophysics

**Credits:** (3)
**Description:** Principles and techniques of geophysical exploration, including gravity, magnetic, electric, and seismic methods. Course includes field collection and computer modeling of geophysical data.

Three lectures per week. Field trips required.

**Pre-requisite(s):** GEO 3060 and MATH 1220; or consent of instructor.

Note: This course is not currently offered.

### GEO 4630 - Global Tectonics

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem odd years

**Description:** Large-scale structure and dynamics of the Earth. Framework of plate tectonics including plate motion, processes at plate boundaries, and driving mechanisms. Processes of crustal deformation and evolution of orogenic belts over time, with examples from North America.

Three lectures per week. Field trips required.

**Pre-requisite(s):** GEO 2050 and GEO 3060; or consent of instructor.

### GEO 4750 - Special Topics in Geosciences

**Credits:** (1-4)
**Variable Title**

**Typically Taught Spring Semester:** Full Sem

**Description:** An opportunity to examine in depth topics in the Geosciences not regularly offered as part of the standard course offerings. The specific title and credit authorized will appear on the student transcript.

**Pre-requisite(s):** GEO 1110, GEO 1115, and any specific courses selected by the instructor.

May be repeated for a maximum of 8 credit hours.

### GEO 4800 CRE - Independent Research

**Credits:** (1-3)

**Typically Taught Summer Semester:** Offered as needed.

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Independent research under the advisement of a faculty member.

**Pre-requisite(s):** Consent of instructor prior to registration.

May be repeated for a maximum of six credit hours.

### GEO 4810 - Experimental Course

**Credits:** (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit will
appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**GEO 4830 - Directed Readings**

**Credits:** (1)

**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Directed individual readings in the general areas of geoscience and/or environmental science. Specific topics and readings selected in consultation with faculty member. Students will complete a scientific literature review and/or annotated bibliography.  
**Pre-requisite(s):** GEO 3000 and approval of instructor.  
May be repeated twice for a total of 2 credits.

**GEO 4840 INT - Geospatial Internship**

**Credits:** (1-3)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.  
**Pre-requisite(s):** Consent of instructor prior to registration.  
**Pre-requisite/Co-requisite:** GEO 3720 and GEOG 4400.  
This is a dual-listed course with GEO 2840.  
May be repeated for a maximum of three credit hours.

**GEO 4850 - Geospatial Capstone**

**Credits:** (3)  
**Typically Taught Spring Semester:** Even Years  
**Course Fee:** $50.00  
**Description:** This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.  
**Pre-requisite/Co-requisite:** GEO 3720, GEO 4200, and GEOG 4400.  
This is a dual-listed course with GEO 2850.

**GEO 4890 INT - Cooperative Work Experience**

**Credits:** (1-6)  
**Description:** A continuation of GEO 2890. Open to all students.  
May be repeated for a maximum of 6 credit hours.  
**Note:** This course is offered as needed.

**GEO 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)  
**Workshop**  
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
GEO 4950 - Advanced Geoscience Fieldtrips

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Application of Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations required.
Pre-requisite(s): consent of instructor.
May be repeated for a maximum of 6 credit hours.

GEO 4970 - Senior Thesis

Credits: (2)
Description: A thesis to be written by a student at the culmination of a period of individual field/laboratory and library research, under the direction of a specific faculty person.
Pre-requisite(s): Senior standing and departmental approval of the thesis topic.
Note: This course is offered as needed.

GEO 4990 - Geoscience and Society Seminar

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: Case studies, readings, presentations, and/or seminar-style discussions related to geologic hazards/disasters, natural resources, climate change, and applied geoscience careers.
Two hours of lecture and/or seminar discussion per week.
Pre-requisite(s): GEO 3000 and GEO 3150.

GEO 5030G - Geology for Teachers

Credits: (2-4)
Description: Science content course for teachers in the M.Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.
May be repeated once with a maximum of 4 credit hours.
Note: This course is offered as needed.

GEO 5920G - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: With a focus on interactions among air, water, land and life, this course explores the essentials of Earth's dynamic physical systems and society's profound impact upon them. When you finish this course, you will have a better understanding of
how the planet works, a deeper appreciation for the environmental changes affecting all life on earth, and a guide to the prospects for a sustainable future.

GEOG 1002 - Map Reading and Land Navigation

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Description: Orienteering and the use of maps, compasses, global positioning systems (GPS), and other navigational aids. Lecture and field work prepares course participants to apply navigational knowledge and skills in a professional setting. Weekly two-hour lab sessions for ten weeks.

GEOG 1005 - Planet Earth: Local Field Studies

Credits: (1)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: 1st Block
Typically Taught Spring Semester: 2nd Block
Description: Students conduct local field studies and measurements to explore air, water, land and life.
Pre-requisite/Co-requisite: GEOG 1000.

GEOG 1300 SUS/SS/DV - Global Issues: Places, People and the Planet

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: With an eye toward change and challenges, this course explores the planet's diverse and interdependent regions and people. Students gain a firm grounding in global economic, social and environmental issues, and how they manifest in the countries of the world. When you finish this course, you will know more about the geography of our global community and the shared and substantial challenges we all face if we are to achieve a sustainable future.

GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course examines the science behind climate change and provides an understanding of the basic physical, chemical, biological and geographical principles that explain the Earth's climate system and the human influence upon it. This course also explores the impacts of climate change, climate justice and communication, and considers feasible solutions. When you finish this course, you will be able to separate climate change myths from realities, and grasp the map to a sustainable future.

GEOG 1520 SS/DV/SUS - United States and Canada: Geography, Diversity and Change

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course explores the diverse places and people of the United States and Canada, with a focus on rapid change and sustainability. Students gain a firm grounding in a range of interconnected economic, social and environmental issues. Topics include warming climates, polarized politics, diversifying populations, growing economic inequality, all-consuming technology, natural disasters, social justice, immigration, and many more. When you finish this course, you will better understand the geography of such transformative change in the context of this multifaceted region.

GEOG 1790 - Exploring Our World Through Geospatial Technology
GEOG 2400 - Cartography and Map Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem Online
Description: This exploratory course introduces students to the fundamental concepts of Geospatial Science and how Geospatial Technology (GST) is used to measure, imagine, study, and discover our complex and ever-changing human and natural world. You will learn the basic techniques of cartography (mapping), GPS (global positioning systems), GIS (Geographic Information Systems), spatial analysis, and remote sensing (drones and satellites).

GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability

Credits: (1)
Typically Taught Fall Semester: 2nd Block
Typically Taught Spring Semester: 2nd Block
Description: This course introduces new and prospective Geography, Environment & Sustainability majors and minors to career opportunities, department faculty, options for major tracks, and real-world applications of geographic perspectives and techniques. When you finish this course, you will be able to identify a pathway through a major or minor and into a productive career.

GEOG 2840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.
Pre-requisite(s): Consent of instructor prior to registration.
Pre-requisite/Co-requisite: GEO 1720 and GEOG 2400.
May be repeated for a maximum of three credit hours.

GEOG 2850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.
Pre-requisite/Co-requisite: GEO 1720, GEO 2200, and GEOG 2400.

GEOG 2920 - Short Courses, Workshops, Institutes, and Special Programs
GEOG 2950 - Regional Field Studies or Field Trips

Credits: (1-3)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: 1st Block
Typically Taught Spring Semester: 2nd Block
Description: Travel to explore nearby National and State Parks, and urban and rural lands to make observations, collect data, perform field-based research, and report on the experience.
May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

GEOG 3050 - Weather and Climate: from daily storms to decades of drought

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course examines Earth's climate system, and the way its components interact to produce major weather and climate features. Examples include tornadoes, hurricanes, jet streams, El Niño, and the causes and consequences of climate change. When you finish this course, you will better understand our complex atmosphere, and the ways in which it affects us all.
Pre-requisite(s): GEOG 1000, or GEOG 1500, or GEO 1130, or the equivalent, or instructor's consent.

GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course explores a range of environmental issues from local to global contexts, considering their root causes, impacts, and interconnections to social and economic factors. Topics typically include air and water quality, food production, forests, consumption and waste/resource management, and the overarching issue of climate change. The course also identifies solutions to these challenges toward the creation of a more sustainable, equitable and healthy world for all. When you finish this course, you will better understand how people have transformed the environment and your own ability to contribute to solutions.
Pre-requisite(s): GEOG 1000, or BTNY 1403, or the equivalent, or consent of the instructor.

GEOG 3070 - Wetland Environments

Credits: (3)
Description: Analysis of physical properties, values, economic, and legal issues associated with wetland environments. Since wetlands in different places have many different attributes, a detailed examination is made of wetland environments in different parts of the United States.
Note: Course not currently being offered.

GEOG 3080 - Arid Lands: Resources, Landforms, and the Quest for Water

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This class explores the complexity of a desert environment using a variety of learning materials such as satellite imagery, local to global databases, literature, podcasts, and documentaries. Students will discern the natural forces responsible for creating features of desert landscapes throughout the world. The class also explores how arid environments have shaped
cultural practices and the management of resources in areas with little water and those facing climate change. Students will likely participate in brief local field work either during class time or on their own. After taking this class, students will understand why water is scarce in certain places, what forms the unique features of arid lands including those in Utah, and the delicate process of sustaining life in such environments.

**Pre-requisite(s):** GEOG 1000, GEOG 1500, or GEO 1060, or the equivalent, or consent of the instructor.

**GEOG 3090 - Arctic and Alpine Environments**

**Credits:** (3)

**Typically Taught Spring Semester: Full Sem**

**Description:** This course explores polar and high mountain physical environments, how humans interact with them, and the broader roles these places play within global-scale Earth systems. Topics include the causes and consequences of avalanches, polar climate and ozone depletion, basic glaciology, sea ice, and the responses of human physiology to high altitudes. When you finish this course, you will know more about Earth's spectacularly beautiful cold places, and why they matter to the rest of the world.

**Pre-requisite(s):** GEOG 1000, or GEOG 1500, or GEO 1060, or the equivalent, or consent of the instructor.

**GEOG 3210 - Urban Geography: The How and Why of Cities**

**Credits:** (3)

**Typically Taught Fall Semester: Full Sem**

**Description:** This course explores cities—the urban and suburban places where most of us in the world choose to live. In this course we will study the historical development of cities, the geography of how cities continue to grow and change, and how cities interact with their changing natural environments. When you finish this course, you will understand how cities work and be prepared to participate in a more sustainable urban future.

**GEOG 3300 - Historical Geography of the United States**

**Credits:** (3)

**Typically Taught Spring Semester: Full Sem**

**Description:** A geographic analysis of America's past featuring an examination of cultural development in different parts of the United States and how this has produced many distinct regional landscapes throughout the country.

**GEOG 3360 - Economic Geography: Globalization, Development and Conflict**

**Credits:** (3)

**Typically Taught Spring Semester: Full Sem**

**Description:** More than anything else, economic activity binds the world's places, resources, producers, consumers, markets, governments, technology, and citizens. This global development produces both extravagant wealth and searing poverty, and it is rapidly exhausting the planet's natural environment. This course takes students from local to global as it explores the stunning force of economic activity. When you finish this course, you will better understand the power and peril of the global economy.

**GEOG 3500 - Geography of Utah and the American West**

**Credits:** (3)

**Typically Taught Summer Semester: Full Sem - Online**

**Typically Taught Spring Semester: Full Sem, Full Sem - Online**

**Description:** This course examines the geography of the fast-growing and ever-changing state of Utah. Through explorations of public land, water, cities, tourism, environmental issues, population, and political economies this course provides a foundation for understanding Utah and how the state fits in the regional context of the American West. When you finish this course, you will be prepared to engage more thoughtfully with the challenges and opportunities of Utah and the American West.

**GEOG 3540 - Geography of Latin America and the Caribbean**

**Credits:** (3)

**Typically Taught Fall Semester: Full Sem**

**Description:** From Mayan, Aztec, and Incan beginnings to Conquest and Colonization by European powers, and later U.S.
hegemony, this region of extraordinary natural beauty and diversity has been the subject of foreign intervention and control. Its contemporary geography is a legacy of the mighty forces that created the Amazon and the Andes as well as the clash of cultures from abroad, and now rapid and transformative change. When you finish this course, you will be able to chart the influences that have shaped this fascinating region.

GEOG 3590 - Geography of Europe: the Land and People who Built a World Power

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: What is Europe? A hearth of civilization or the home of war, conquest, and global empires? An emerging superstate or a fragmented collection of nations? This course explores the geography of Europe, from its physical environments to its diverse people and historical landscapes, and the geographical origins of current issues, such as the expansion and fracturing of the European Union, the future of NATO, and tensions with nearby countries and regions. When you finish this course, you will better understand the complexities of this historic U.S. ally and trading partner.

GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Description: This course explores the diverse geographies of East Asia, South Asia, and Southeast Asia-including the powerful and populous countries of China and India. Specifically, the class investigates how each region is following different development paths, is impacted by and influences global geopolitics, and is experiencing changing populations, economies, and environments. When you finish this course, you will be better prepared to engage with a world in which many countries in the Asian region are becoming increasingly influential.

GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The geography of Africa is one of historical mystique, rapid modernization, and tremendous diversity. This course builds upon a basic understanding of Africa's physical geography and early history to examine continued neocolonial impacts and challenges facing the people of Africa today. In today's increasingly interdependent global community, understanding ethnic diversity, differences in gender, age and class is critical to resolving social, economic, political and environmental problems in both the African context, and in our own interconnected society. When you finish this course, you'll have a full appreciation of Africa's diverse geography.

GEOG 3780 - Geographic Area Studies

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Surveys different geographic areas and regions of the world. When this number is used it will be accompanied by a descriptive title and the credit authorized, which will appear on the student's transcript. May be repeated for credit up to nine hours when a different title is used.

GEOG 3790 CRE - Research Methods in Geography

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course introduces the methods used in geographic research, beginning with hypothesis formulation, review of literature, research design, gathering and analysis of data from a spatial perspective, and the analysis, interpretation and presentation of research results. Students are exposed to both quantitative and qualitative methods commonly used in geographic research, and are expected to have basic proficiency in spreadsheets, word processing and presentation software. IRBs and Grant Writing are also covered. The course is an essential prerequisite for GEOG 4990 CRE - Senior Seminar in Geography, which should be taken in the following semester.
Pre-requisite(s): One statistics class taken from any of the following: CJ 3600, SW 3600, GERT 3600, PSY 3600, SOC 3600, or
GEOG 4400 - Cartography and Map Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Cartography and Map Design is an essential component of geospatial knowledge and skills and anchors all research, presentation, publication, decision-making, and output from Geospatial Technologies. This course will cover geovisualization topics such as map components, projections, symbols, scale, grid systems, direction, coordinates, distance, relief, color, patterns, and the map design process. You can expect to work with Geographic Information Systems (GIS), though no previous experience is necessary. After finishing this course, you'll be able to study, understand, analyze, interpret, and especially construct good maps. Advanced work required for upper division credit.

GEOG 4410 SUS - Sustainable Land Use Planning

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A study of the status and tools of planning, planning office organization, the federal and state role in planning, and problems in planning. The course emphasizes concepts of sustainable land use planning such as resource conservation, air and water quality improvement, agricultural land preservation, transit oriented development, and alternatives to suburban sprawl.

GEOG 4420 - Advanced Urban and Regional Planning

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A study of the enabling legislation for planning, zoning laws and ordinances, rezoning and review processes, zoning problems, and the ramifications of urban growth. The preparation, financing, citizen participation and evaluation of land use pertaining to general plans. Class groups will prepare, critique, and present a draft urban general plan.
Pre-requisite(s): GEOG 4410.

GEOG 4600 - Geospatial Programming and Online Methods

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Increasingly, geospatial professionals count both programming and web methods among their most useful skill sets, and employers often list them as highly desirable. This course focuses on two essential components of that geographic online experience: geospatial programming and online methods. This class is conducted in the Python programming language, but no previous experience is required. The first half of the course is devoted to helping students learn Python, while the second half is focused on applications of Python in the geospatial domain, including ESRI's ArcPy, Open Source Modules, and custom web mapping solutions. With these tools, students will be able to solve geospatial problems, extend functionality, and streamline/automate GIS workflows through the creation and modification of Python scripts.
Pre-requisite/Co-requisite: GEO 4200.

GEOG 4800 - Individual Research

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A personalized course designed to foster individual research and scientific writing.
Pre-requisite(s): Instructor approval required before registering for this course.
May be repeated up to a maximum of 12 credit hours.

GEOG 4840 INT - Geospatial Internship
This structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite(s): Consent of instructor prior to registration.

Pre-requisite/Co-requisite: GEO 3720 and GEOG 4400.

May be repeated for a maximum of three credit hours.

**GEOG 4850 - Geospatial Capstone**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

This is a dual-listed course with GEOG 2850.

**GEOG 4890 INT - Cooperative Work Experience**

**Credits:** (1-6)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Open to all students in Geography who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

A maximum of six credit hours will be accepted toward a major in geography. Instructor approval required before registering for this course.

**GEOG 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student's transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

**GEOG 4950 - Advanced Regional Field Studies or Field Trips**

**Credits:** (1-3)

**Typically Taught Summer Semester:** 1st Block, 2nd Block

**Typically Taught Fall Semester:** 1st Block

**Typically Taught Spring Semester:** 2nd Block

**Description:** Travel to explore nearby National and State Parks, and urban and rural lands to make observations, collect data, perform field-based research, and report on the experience. Expectations and outcomes are more advanced than those of GEOG 2950.

**Pre-requisite(s):** A general course in Geography or consent of the instructor.

May be repeated up to a maximum of 12 credit hours.
GEOG 4990 CRE - Senior Seminar in Geography

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This capstone course builds on GEOG 3790 CRE - Research Methods in Geography. Students engage in a primary research experience that draws on the full range of skills and abilities acquired in prior semesters and classes, culminating in an original, professional-quality research report, thesis, or applied project. Students present their work in an end-of-semester forum, and will have the opportunity to present in other professional settings and/or submit their work for publication.
Pre-requisite(s): Senior standing.
Pre-requisite/Co-requisite: GEOG 3790.

GEOG 5030G - Geography for Teachers

Credits: (3)
Description: Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Course may be repeated. Contract must be approved by instructor, department chair, and Director of the Master of Education Program. Graduate.
Note: This course is offered as needed.

GERT 1010 SS - Introduction to Gerontology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of physical, psychological, social-psychological, and social dimensions of aging and the application of principles and strategies to facilitate adaptation to aging. Emphasis is placed on methods of gathering knowledge, the current knowledge base, and strategies for adaptation in the later stages of life cycle.

GERT 2220 - Introduction to Social Gerontology

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A scientific study of social and psychological aging and the application of principles and strategies to facilitate adaptation to aging. The focus is on methods and systems for gathering data, demography of aging, social theoretical perspectives, psychological effects of aging, aging and the economy, and government and the politics of aging.

GERT 2900 - Current Topics on Aging

Credits: (2-4)
Variable Title
Description: A study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit.
May be repeated once for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated up to 3 times for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 3000 - Death and Dying
GERT 3120 - Aging: Adaptation and Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An examination of the physical and psychological processes of aging. The emphasis is upon behavioral and social adaptation to these processes. Cross-listed with SW 3120.

GERT 3320 - Ethnicity and Older Women in the American Society

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The importance of special populations (ethnic, racial and women) as they relate to the aging process. Cross-listed with SW 3320.

GERT 3400 - Methods of Research: Social and Behavioral Research

Credits: (4)
Description: Focus on acquiring knowledge, developing skills, and conducting social and behavioral scientific research, utilizing single system design that includes visual and statistical assessment. The course will include both qualitative methodologies (evaluative research, historical methods, case studies, field research, ethnography studies, and grounded theory) and quantitative methodologies (experimental and survey with a special emphasis on survey).
Pre-requisite(s): It is recommended to take a Statistics course before Research.
Note: Course not currently being offered.

GERT 3500 - Social Welfare & Gerontological Policy Development and Service

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, Online

GERT 3600 - Social Statistics

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, 1st Blk, Online
Typically Taught Spring Semester: Full Sem, 2nd Blk, Online
Description: Introduction to analysis and presentation of data.
Pre-requisite(s): Meet WSU Quantitative Literacy requirement.
Cross-listed with SW 3600.

GERT 4220 - Societal Responses to Aging
GERT 4650 - Retirement: Adjustment/Planning

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented. Cross-listed with SW 4220.

GERT 4830 - Readings and/or Projects

Credits: (2-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual readings and/or projects for the senior Gerontology major (with the approval of the instructor). May be repeated once for a maximum of 4 credits.
Note: Check with department for course availability.

GERT 4860 - Introductory Field Practicum

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: The course fee for SW 4860 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also be used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: Introductory experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 1010, GERT 3320 and GERT 3500; must be a declared minor. Offered on demand.

GERT 4861 - Advanced Field Practicum

Credits: (2)
Course Fee: $10.00
Course Fee Purpose: The course fee for SW 4860 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also be used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: Advanced experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 3400, GERT 3500, GERT 4860, and must be a declared major or minor.
Note: Course not currently being offered.

GERT 4862 - Specialized Field Practicum

Credits: (2)
Course Fee: $10.00
Description: Specialized experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
**Pre-requisite(s):** GERT 3600, GERT 4861, and must be a declared major or minor.
Note: Course not currently being offered.

**GERT 4900 - Current Topics on Aging**

**Credits:** (2-4)
**Variable Title**
**Description:** An in-depth study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit. May be repeated once for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

**GERT 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)
**Workshop**
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

**GERT 4990 - Senior Seminar**

**Credits:** (2)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Preparation and discussion of gerontology concepts and topics. Information and techniques for obtaining a job and selecting a graduate school.
**Pre-requisite(s):** GERT 1010, GERT 3320, GERT 3400, GERT 3500 and GERT 3600. Offered on demand.

**GRMN 1000 - Proficiency Development**

**Credits:** (1-2)
**Description:** (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles.
Note: Course not currently being offered.

**GRMN 1010 - First Semester German**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

**GRMN 1020 - Second Semester German**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of GRMN 1010. Basic language skills including listening, speaking, reading, writing and culture.

GRMN 1700 - Conversational Skills

Credits: (1-3)
Description: Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.

GRMN 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.

May be repeated twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

GRMN 2000 - Proficiency Development

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

GRMN 2010 - Third Semester German

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of GRMN 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

GRMN 2020 HU - Fourth Semester German

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of GRMN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

Note: Check with department for course availability.

GRMN 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: Full Sem

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

GRMN 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: Full Sem

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

GRMN 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: Full Sem

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

GRMN 3160 - Introduction to Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

GRMN 3220 - Phonetics and Phonology

Credits: (3)
Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

GRMN 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title

Course Fee: $8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic
change and dialectal variation.
Note: Check with department for course availability.

GRMN 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content). May be repeated up to 10 times under different titles.

GRMN 3360 - Advanced Grammar

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

GRMN 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

GRMN 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

GRMN 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

GRMN 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.
GRMN 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

GRMN 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160. May be repeated under different titles.

GRMN 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3650 - Literature Periods

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.

GRMN 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.
GRMN 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3690 - Literature Special Topics in Literature

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.
Suggested Requisite(s): May be taken concurrently with GRMN 3160.
Note: Check with department for course availability.

GRMN 3710 - Business Language I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

GRMN 3715 - Business Language II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

GRMN 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

GRMN 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

GRMN 3740 - Translation I
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

GRMN 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

GRMN 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

GRMN 4190 - Foreign Language Journal

Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

GRMN 4620 - Survey of Literature I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

GRMN 4630 - Survey of Literature II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

GRMN 4690 - Special Topics in Literature

Credits: (3)
Variable Title
Course Fee: $8.00
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): GRMN 3160.
May be repeated up to 10 times under different titles.
GRMN 4740 - Translation II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

GRMN 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times.
Note: Check with Department for course availability.

GRMN 4850 - Study Abroad

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

GRMN 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

GRMN 4960 - Senior Project

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

HAS 3000 - The Healthcare System

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: A study of the U.S. healthcare system to help students understand the critical issues facing healthcare in its ever-changing environment and to gain a sense of the complex multidimensional nature of healthcare delivery in the United States.

HAS 3010 - Professionalism in Healthcare

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem
**Typically Taught Spring Semester:** Full Sem, Online

**Description:** This course explores a variety of topics to develop a stronger sense of professionalism for healthcare managers. Topics include business and social etiquette, self-assessment, professional deportment, networking, effective communication skills, and dressing professionally.

**HAS 3020 - Healthcare Marketing**

Credits: (3)

**Typically Taught Summer Semester:** Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** This course outlines the application of marketing principles to healthcare organizations and the public health arena. Students will apply those principles in the development of a marketing plan.

**HAS 3190 - Cultural Diversity in Patient Education**

Credits: (3)

**Typically Taught Summer Semester:** Online
**Typically Taught Fall Semester:** Online
**Typically Taught Spring Semester:** Full Sem

**Description:** This course is an introduction to patient or client education skills and theory. It also focuses on health traditions of culturally diverse clients and how those traditions must be considered during effective patient education. In particular, the course will move from the general health traditions of world populations and religions, to the more specific behaviors and expectations of U.S. populations. Gender, age, and class will all be considered in the studies.

**HAS 3230 - Health Communication**

Credits: (3)

**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments. Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem Online
Description: Review of legal responsibilities of physicians, other healthcare workers, and healthcare institutions and means by which health-related laws and regulations are developed and implemented. Issues involved in healthcare professional ethics are discussed and evaluated.
Pre-requisite(s): HAS 3000.

HAS 4410 - Clinical Instructional Design and Evaluation

Credits: (3)
Typically Taught Fall Semester: Online
Description: Designed to provide individuals with the skills necessary for the preparation, planning and evaluation of instruction. The Philosophy, theory, and effective methods and techniques of teaching the adult learner.

HAS 4420 - Clinical Instructional Skills

Credits: (3)
Typically Taught Spring Semester: Online
Description: Designed to provide individuals with skills necessary for the implementation of instruction. Presentation practice is provided with peer evaluation and feedback.

HAS 4520 - Long-Term Care Administration

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Application of health administration core curriculum to specific practice issues in the long-term care setting. Includes specific organization structures in skilled nursing care, relationships with healthcare providers, services offered, financial management issues in long-term care, and regulatory issues are investigated. Course includes a review of long-term care facility operations utilizing simulations. Teams of students make operational decisions utilizing financial statements, census reports, staffing schedules and other relevant factors. Prepares students for specific types of situations and questions encountered on the long-term care administrator licensing examination.
Pre-requisite(s): HAS 3000 and HAS 4400.

HAS 4525 - Post-Acute Care Operations

Credits: (3)
Typically Taught Spring Semester: 2nd Blk
Description: This course is designed to introduce the specific issues and body of knowledge pertaining to the healthcare management of: specialty hospitals, rehab facilities, homecare agencies, hospice and palliative care and post-acute care. Emphasis is placed on guest lectures by professionals from each of these types of provider organizations.
Pre-requisite(s): HAS 3000 and HAS 4520.

HAS 4620 - International Health and Healthcare

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This course is designed to explore health and health care systems in countries other than the United States. Emphasis will be directed toward illnesses and treatments, health promotion, environmental and economic issues, governmental infrastructures that support health, and cultural considerations. The course will be targeted to the professional interested in international health information and experiences.
HAS 4740 - Senior Seminar

Credits: (1)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis. Departmental approval required.
Pre-requisite(s): HAS 3000.

HAS 4741 - Senior Seminar Capstone

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis, competency assessment, interaction with current practitioners, individual and team projects. Students will be provided with resources to assess and enhance their competencies in the various functional areas of health administration. Departmental approval required.
Pre-requisite(s): HAS 3000.

HAS 4800 - Individual Study

Credits: (1-3)
Description: Topics in allied health education studies tailored to the particular needs and interests of the student. Class may be repeated once up to six credits with program approval.
Note: This course is offered as needed.

HAS 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience. May be repeated five times up to six credit hours.
Note: This course is offered as needed.

HAS 4860 INT - Practicum/Internship

Credits: (2-6)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Provides opportunities for observation, participation and practical application of administrative and management skills in the institutional setting. Departmental approval required.
Pre-requisite(s): HAS 3000 and HAS 3750.

HAS 4990 - Seminar

Credits: (1)
Description: Topics, issues, and trends in Health Care. May be repeated twice up to 3 credit hours with program approval.
Note: This course is offered as needed.

HIM 2000 - Introduction to Health Information Systems and Settings
Credit: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Online
Course Fee: $25.00
Course Fee Purpose: Electronic Health Record
Description: Introduction to the health information profession. Job duties, functions, and the professional organization are discussed. Health care settings, master patient indexes, health information documentation requirements, analysis, and deficiency management are presented.
Pre-requisite(s): HTHS 1101 and HTHS 1110 or ZOOL 2100.

HIM 2250 - Health Care Privacy and Security

Credit: (3)
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem
Description: The HIPAA privacy and security law, institutional review boards and human subjects research, development of policies and procedures for privacy and security, and release of information are discussed.

HIM 2300 - Diagnosis Coding

Credit: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Online
Course Fee: $20.00
Course Fee Purpose: 3M Codefinder system
Description: Coding conventions and procedure using the ICD-10-CM coding system are introduced and practiced.
Pre-requisite(s): HTHS 1110 and HTHS 1111 or ZOOL 2100 and ZOOL 2200 or equivalent.

HIM 2320 - Ambulatory and Physician Office Coding

Credit: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $20.00
Course Fee Purpose: 3M Codefinder system
Description: CPT classification, conventions and coding procedures are introduced and practiced. Abstracting medical information from health documentation for coding facility outpatients, physician and professional billing is presented, discussed and practiced.
Pre-requisite(s): HIM 2300.

HIM 2330 - Healthcare Reimbursement

Credit: (2)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Description: Discussion of issues parallel to or founded in the use of classification systems: Federal reimbursement systems, coding compliance, auditing, chargemaster maintenance, and revenue cycle management.

HIM 2410 - ICD-10-PCS Coding

Credit: (2)
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: ICD-10-PCS coding, conventions and guidelines are introduced and practiced. Students will gain exposure to procedure coding using the ICD-10-PCS system for hospital inpatient claims.
Pre-requisite(s): HIM 2300.

HIM 2500 - Healthcare Data Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Online
Course Fee: $25.00
Course Fee Purpose: Electronic Health Record access.
Description: An introduction to database monitoring, maintenance and use. Data definition, vocabularies, terminologies and dictionaries are discussed. Clinical abstracting and report writing are practiced. A working knowledge of data management is developed.

HIM 2861 INT - (2nd Year) Professional Practice Experiences

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record access.
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. The student observes in other health care settings. Projects assigned give the student expertise in technical functions, e.g., diagnostic and procedure coding systems.
Pre-requisite(s): HIM 2000.

HIM 2862 - Professional Practice Management

Credits: (2)
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. Projects assigned give the student expertise in technical functions.
Pre-requisite(s): HIM 2000.

HIM 2863 - Professional Practice Experience in Coding

Credits: (1)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Course Fee: $20.00
Course Fee Purpose: 3M Codefinder system
Description: Student's final experience in the coding setting. Skills and learning from the classroom and laboratory are reinforced and practiced in a simulated setting.
Pre-requisite(s): HIM 2300.

HIM 3000 - Health Informatics

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem
Description: A survey of the clinical, research, and administrative applications of computers in the health care industry from which health care information is currently derived. The role of this technology and of the data collected in accomplishing the
objectives and procedures of the principle functional areas in health care organizations is emphasized as are the interrelationships of the organizational units with respect to data acquisition, storage, analysis, retrieval, and use.

**HIM 3300 - Introduction to Quality Improvement in Healthcare**

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem - Online

Description: Quality assessment, disease processes, risk management, and utilization review systems are presented to the student with an emphasis upon integration. TQM/CQI processes are examined and practiced.

**HIM 3400 - Health Care Networks and Databases**

Credits: (3)
Typically Taught Fall Semester: Online
Course Fee: $20.00
Course Fee Purpose: Access to Database for course

Description: A comprehensive introduction to health care application development, including local and wide area networks, the internet and intranets, database structure, database tools, data management, and information management.

Note: This course is no longer taught.

**HIM 3450 - Healthcare Systems Analysis and Design**

Credits: (3)
Typically Taught Spring Semester: Full Sem - Online

Description: A comprehensive introduction to the planning, design, and construction of healthcare information systems, using the systems development life cycle and other appropriate design tools.

**HIM 3550 - Healthcare Data Analytics**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem - Online
Course Fee: $10.00

Description: An in depth exploration of healthcare data analytics. Application of data analytic methodologies to improve decision making, performance, healthcare quality and strategic planning will be presented and practiced. Students will become familiar with internal and external data sources in healthcare and will be able: extract data from the data source; evaluate the quality of the data; perform basic data analytics; interpret analysis; present information in a final report.

Pre-requisite(s): PUBH 3200.
Pre-requisite/Co-requisite: PUBH 3200 - Epidemiology and Biostatistics.

**HIM 3600 - Advanced Diagnosis and Procedure Coding**

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

Description: This is an advanced coding course designed for students with previous medical coding experience or previous medical coding courses. This course explores the more complex areas of ICD-10-CM, ICD-10-PCS, and CPT coding in hospital, outpatient, and physician based settings. Students will apply coding principles and guidelines related to complex diagnoses and procedures. Coding from actual patient records is emphasized. The use of coding references and coding software is integrated into the course.

Pre-requisite(s): HIM 2300, HIM 2320, HIM 2410 or instructor approval.
HIM 3610 - Advanced Principles of Revenue Cycle Management

Credits: (3)  
Typically Taught Summer Semester: Online  
Typically Taught Fall Semester: Online  
Typically Taught Spring Semester: Online  
Description: Elements of the revenue cycle are reviewed. Principles of revenue cycle management are examined including: scope and management of clinical coded data, process improvement and data quality, compliance, internal and external auditing, reporting, case-mix management, and changes in revenue cycle management.  
Pre-requisite(s): HIM 2330 or instructor approval.

HIM 3620 - Principles of Clinical Documentation Improvement

Credits: (3)  
Typically Taught Summer Semester: Online  
Typically Taught Fall Semester: Online  
Typically Taught Spring Semester: Online  
Description: Clinical documentation is the foundation of every patient health record. This course addresses the fundamentals of clinical documentation-assessing the current quality of health record documentation, development of a CDI program and process. How clinical documentation improvement impacts the revenue cycle of a healthcare organization will be reviewed.  
Pre-requisite/Co-requisite: Prerequisites/Corequisites: HIM 2300, HIM 2320, and HIM 2410 or instructor approval.

HIM 4100 - Health Information Services Management

Credits: (3)  
Typically Taught Spring Semester: Online  
Description: Management issues of health information services departments are discussed and worked through with reference to planning information services, organizing work force, procedures, and resources, staffing work units with qualified personnel, influencing information services teams performance, controlling/evaluating health information services performance and products, and resolving organizational conflict involving information issues. Background is developed to facilitate evaluation of a vended system's ability to meet health care information applications, objectives and procedural requirements. "Entrepreneurial" skill is developed to lead organizations in finding solutions to their information management problems.

HIM 4990 - Baccalaureate Thesis and Presentation

Credits: (3)  
Typically Taught Summer Semester: Full Sem  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Senior health information management students complete a research project and thesis in partial fulfillment of program requirements. By the completion of the course, the senior student will be able to specify a thesis topic, specify individual thesis learning objectives, specify individual thesis learning activities, develop a thesis project time-line, implement the thesis project, write the thesis, and present it to the Health Information Management faculty and students. Topics are chosen by the student but require approval by the Program Coordinator.  
Pre-requisite(s): PUBH 3500.

HIM 5000 - Clinical Foundations in HIM

Credits: (3)  
Description: A foundation in the language of medicine, pathophysiology and pharmacology will be discussed and developed. Note: This course is offered as needed.

HIM 5010 - Health Data Management

Credits: (3)  
Description: This course prepares students to manage and create health data elements and data sets; and to develop and maintain organizational policies, procedures and guidelines for management of health information. Compliance with health care
information laws, regulations, standards, and preparation for accreditation and licensing processes is discussed and practiced.
Note: This course is offered as needed.

**HIM 5020 - Diagnosis and Procedure Coding**

**Credits:** (3)
**Description:** Coding and classification conventions and procedures are developed and practiced. The course will also include auditing of coded data for accuracy.
Note: This course is offered as needed.

**HIM 5030 - Clinical Data Management for Quality Care & Revenue Cycle Integrity**

**Credits:** (3)
**Description:** This course prepares the student to collect, analyze, present and organize data to improve quality of patient care and revenue cycle management. The management of clinical data required in reimbursement systems and prospective payment systems in health care delivery are discussed.
Note: This course is offered as needed.

**HIM 5040 - Privacy, Security and Confidentiality in Health Care**

**Credits:** (3)
**Description:** This course prepares students to design and implement security measures to safeguard protected health information. The management, access, disclosure and use of PHI to ensure confidentiality is discussed. How to investigate and resolve health care privacy and security issues and problems are introduced.
Note: This course is offered as needed.

**HIM 5050 - Health Information Systems & Technology**

**Credits:** (3)
**Description:** A foundation of electronic health record terminology and the information systems life cycle is explored. The important basis upon which successful EHR implementation must rely - project management, strategic planning, and migrations from the current state are discussed. Skills in selecting, negotiating for, implementing and operating the electronic health record and its corresponding databases are developed. The use of data dictionary, data models, database management and design for electronic health records are introduced.

**HIM 5080 - Health Information Management Issues**

**Credits:** (3)
**Description:** Managing the HIM function including the monitoring of industry trends and organizational needs for change, strategic and operational planning, training or educational activity development, and preparation for accreditation and licensing processes are discussed.
Note: This course is offered as needed.

**HIM 5090 INT - HIM Internship**

**Credits:** (3)
**Description:** Provides opportunities for observation, participation and practical application of health information management skills in the institutional setting.
Note: This course is offered as needed.

**HIST 1000 - Introduction to the Craft of History**

**Credits:** (1)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** History 1000 is a one-credit course for newly declared history majors. It is designed to introduce students to
different subfields within history; to familiarize them with the standard modes of researching, interpreting, analyzing, and citing historical sources; and to teach them how to build an historical argument. Should be taken upon registration as a history major or history teaching major.

**HIST 1500 SS - World History to 1500 C.E.**

Credits: (3)
**Typically Taught Summer Semester:** Full Sem, 1st Blk, 2nd Blk, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

*Description:* Examines the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of world civilizations to 1500 C.E. Emphasis is global, comparative, and multi-cultural.

*Note:* Multiple Sections are offered each semester.

**HIST 1510 SS/DV - World History from 1500 C.E. to the Present**

Credits: (3)
**Typically Taught Summer Semester:** Full Sem, 1st Blk, 2nd Blk, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

*Description:* A survey of the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of Asia, Africa, the Americas, and Europe from 1500 to the present.

*Note:* Multiple Sections are offered each semester.

**HIST 1600 AI - The Black Experience**

Credits: (3)
**Typically Taught Summer Semester:** Full Sem - Online
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

*Description:* HIST 1600 is the History of Black people in the United States. We will begin by tracing the origins of Blacks and Black Americans in the New World from their origins in Africa. We will then explore the history of Black people in the United States from the Atlantic Creoles to the present day. This course will also fulfill all the requirements for American Institutions (AI) credit.

**HIST 1610 AI - The Latinx Experience**

Credits: (3)

*Description:* This course provides a general introduction to the history of Latinx in the United States from the era of Contact to the present day. Even before this country existed as a republic, people from "Hispanic" and Indo-America had been incorporated into the culture, history, and occupational fabric of what would become the United States. Yet larger society and, oftentimes, the government, have frequently perceived Latinx as racially and culturally "alien." This course will examine how people of Latin American heritage have adjusted to, been integrated by, assimilated, resisted, and adapted to these forces in the United States over past centuries, creating new identities in the process.

**HIST 1620 AI - The LGBTQ Experience**

Credits: (3)

*Description:* This course will be a survey of LGBTQ history in American history, from the colonial era to the present day. It will not only consider LGBTQ experiences, but also focus on changing views toward slavery, economics, race, gender, and nationality that inform American society. As a General Education American Institutions course, we will discuss the major principles of the United States, the operations of its institutions, and the consequences of its market economy, with a focus on the particular LGBTQ experience within that narrative.

**HIST 1700 AI - American History**
HIST 2700 - History of the United States to 1877

Credits: (3)
Typically Taught Summer Semester: Full Sem, 2nd Blk, Full Sem - Online, 1st Blk
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Description: An analysis of American history that traces social, cultural, economic, and political developments in the United States. May be taken to complete the American Institutions requirement (grade of C or better required).
Note: Multiple Sections are offered each semester.

HIST 2710 - History of the United States since 1877

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem
Description: A chronological survey of American history from the Gilded Age, 1877, to the present. Directed toward History majors, minors, and those planning to teach U.S. history.
Note: Note: Students may fulfill the American Institutions requirement by completing either HIST 1600, 1610, 1620, or 1700 or this course AND HIST 2710 with a grade of C or better.

HIST 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. No more than 6 hours will count towards a major or minor.

HIST 3010 - Native American History: 1300 to Present

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online, even years
Description: An introduction to Native American history, stressing the integrity and viability of American Indian societies, dynamic, self-directed cultural changes, and the clashes that occurred with Native American and European contacts.

HIST 3030 - African-American History

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: African-American history from African origins to the late twentieth century. This course examines the historical experiences and enduring influence of African-Americans on U.S. history.

HIST 3050 - History of U.S. Latinos

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
**Description:** Traces the historical development of the Latin Americans in the U.S. from their Indian, Spanish and African heritage to the present with special emphasis on the Mexican-American, Chicano contributions to American life.

**HIST 3070 - Women in American History: 1600 to Present**

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Examines gender as an organizing principle in United States history from the beginnings of European settlement to the present. Also explores the ways in which race, ethnicity, class, and region have shaped different female experiences.

**HIST 3090 - American Social History**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online every other year
Description: Explores American society through analyses of the public and private lives of ordinary individuals from colonial times to the present.

**HIST 3110 - American Ideas and Culture**

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: This course will look at key transformations in American cultural and intellectual history. Subjects will include the history of religion, the changing nature of political ideology, and transformations in who creates and controls entertainment, leisure and literature in American society. The course will use novels, sermons, essays, movies, museums, paintings, and music as tools for understanding American cultural life.

**HIST 3120 - American Society through Film**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores the development of society and culture of twentieth-century America as they are represented and created through the medium of film. The motion picture has had a major impact on American society and culture, and this course analyzes how movies reflected and created American social and cultural structures in history.

**HIST 3130 - U.S. Urban History**

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: Examines themes in social, economic and cultural development of American cities from the colonial era to the present. Key topics will include the process of urbanization and the ways in which various social groups and classes adapt to urban life and society. The course will also examine the transformation of urban neighborhoods and ghettos, social reform movements in the city, and the history of urban planning.

**HIST 3210 - U.S. Constitutional History**

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: The ideas and issues which resulted in the 1787 Constitution. It considers two centuries of America Constitutionalism, focusing on powers and rights, and the role of the Constitution in American culture.

**HIST 3220 - History of the Bill of Rights**

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: This course will explore the historical origins of the first Ten Amendments to the Constitution, also known as the Bill of Rights. We will explore the original intent of the Framers of the Constitution and the Bill of Rights, as well as the context
in which they were drafted and ratified. The historical significance of the Bill of Rights will be compared with their current understanding by Americans in the present.

HIST 3230 - American Foreign Relations

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: Diplomatic relations and foreign policy of the United States, with particular emphasis in the "American Century" beginning with the imperialist thrust of 1898.

HIST 3250 - Religion in American History

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A history of religion in America from the colonial period (including Native American spirituality) through the early twentieth century. This course will examine religious figures, events, and movements in U.S. history. Particular emphasis will be placed upon the influence of religion in the United States on culture, politics, education, and reform.

HIST 3270 SUS - American Environmental History

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Explores the new scholarship in American environmental history, considering the intellectual and material interaction people have had with the environment of North America, from pre-contact to the present.

HIST 3280 - American Military History from 1500 to 1890

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The course explores the multifaceted dimensions of military history to include: the international security environment; the relationship between American security policy, strategic planning, and intelligence; civil-military relations; defense legislation; the roles and missions of the armed forces; leadership; strategic thought; doctrinal developments; technological innovation; industrial mobilization; joint and combined operations; operational and tactical effectiveness; and the experience of battle.

HIST 3290 - American Military History from 1890 to the Present

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The course explores the multifaceted dimensions of military history to include: the international security environment; the relationship between American security policy, strategic planning, and intelligence; civil-military relations; defense legislation; the roles and missions of the armed forces; leadership; strategic thought; doctrinal developments; technological innovation; industrial mobilization; joint and combined operations; operational and tactical effectiveness; and the experience of battle.

HIST 3350 - History and Philosophy of Science

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The evolution and practice of Western science from origins to contemporary ideas.

HIST 3400 - Principles of Public History

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will consider the theoretical background of public history and its disciplines: historic preservation,
museum studies, archives and records administration, and documentary editing. Students will survey, research, and analyze the ways in which history is conveyed to a broad public through museums, monuments, sites, films, and other media outside the classroom or scholarly writings.

Note: (Replaces HIST 2500.)

**HIST 3500 - Historic Preservation**

Credits: (3)

**Typically Taught Fall Semester:** Full Sem, odd years

**Description:** A study of the historic preservation movement in the United States including the history and evolution of the movement, theoretical origins, current conditions and laws, organizational framework and design philosophies.

**HIST 3530 INT - History Editing**

Credits: (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Advanced principles in copyediting, scholarly publication, and preparation of material for multiple publishing venues, including journals and monographs, public displays, and online collections.

**Suggested Requisite(s):** HIST 1000 or HIST 3400.

**HIST 3550 - Archives: Principles, Practices & Preservation**

Credits: (3)

**Typically Taught Fall Semester:** Full Sem, even years

**Description:** This course provides an introduction to archival management, in which the students learn how archival institutions obtain, process and manage a variety of archival formats, and how this information is made available to the public generally and to historians in particular.

**HIST 4010 - Early North America to 1763**

Credits: (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** The history of the North American continent from pre-contact to the end of the French and Indian War. This course will study the lives of the First Nations in the countries now known as Canada, the United States, and Mexico before and after contact with Europeans. We will also investigate the imperial conquest of North America by the Spanish, French, British, and other European powers. In addition, the forced migration of Africans and their enslavement in North America as well as the enslavement of others will also be a key focus of the semester.

**HIST 4015 - History of the Atlantic World, 1400-1815**

Credits: (3)

**Typically Taught Fall Semester:** Full Sem, odd years

**Description:** Atlantic World history refers to relationships and interactions between the peoples of the Americas, Africa and Europe, from the fifteenth through the nineteenth century. Its study focuses on themes such as migration and colonialism; the African slave trade, New World slavery and its abolition; trans-oceanic commerce and the development of history's first worldwide cash economy; violence, mixing and transculturation among Europeans, Africans and indigenous Americans; negotiation of knowledge about medicine, geography and the natural world; and the evolution of imperial systems and the wars of Independence.

**HIST 4020 - Era of the American Revolution: 1763-1800**

Credits: (3)

**Typically Taught Spring Semester:** Full Sem even years

**Description:** Causes of American Revolution, including the military, diplomatic and social aspects; the formation of the Union under the Articles of Confederation; the Constitution; and the Federalist era.
HIST 4030 - New Nation: 1800-1840

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk odd years
Description: Emphasizes Jefferson's Administration, War of 1812, the Era of Good Feelings, and the Age of Jackson, including the growth of political parties, territorial expansion, sectionalism, and social reform.

HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Slavery and the causes of the Civil War with attention to the political, economic, social, and military aspects of the conflict, including the period of Reconstruction to 1877.

HIST 4050 - U.S. in the Gilded Age and Progressive Era: 1877-1919

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
Description: The transformation of the United States following the Civil War and Reconstruction into a modern urban-industrial superpower by the end of the First World War.

HIST 4060 - Twentieth-Century United States: 1919-1945

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: Developments, historical patterns and conflicts which shaped the modern United States in the Twenties, the Great Depression and the Second World War.

HIST 4065 - The United States in the Second World War

Credits: (3)
Typically Taught Summer Semester: N/A
Typically Taught Fall Semester: N/A
Typically Taught Spring Semester: Full Sem
Description: History of the United States during the Second World War. The course examines the war's origins, conduct, and consequences in distant battlefields and on the American homefront.

HIST 4070 - Twentieth-Century United States since 1945

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Description: The United States from 1945 to the present, including investigations of the Cold War, the Civil Rights Movement, the affluent society, modern politics, the Vietnam and Watergate crises and contemporary issues.

HIST 4110 - History of the American West to 1900

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Explores the history of the Trans-Mississippi West region of the United States from 1500 to the 1890s. The course considers the varied experiences of its peoples and the myth of the West in American culture.

HIST 4120 - The American West since 1900
Typically Taught Spring Semester: Full Sem
Description: Explores the history of the Trans-Mississippi West Region since 1900, to include analysis of such issues as water use and allocation, population growth, land use, exploitation of resources, conservation, the federal presence, tourism, and threats to the environment.

HIST 4130 - History of Utah

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of Utah history from its Native American beginnings to the present, emphasizing political, economic, and social developments.
Note: This course is taught online when not offered face-to-face.

HIST 4210 - Ancient History

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: The ancient Near East and Mediterranean world, including the civilizations of Greece and Rome, from approximately 3500 B.C.E. to 475 C.E. This course examines the origins of civilization and traces the development of culture, emphasizing the religious, political, and intellectual legacy of the ancient world.

HIST 4220 - History of the Middle Ages 300-1300

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
Description: A survey of Europe during the Middle Ages emphasizing the religious, political, and cultural institutions shaping this period.

HIST 4230 - Renaissance and Reformation - Europe: 1300-1660

Credits: (3)
Typically Taught Spring Semester: Full Sem even years
Description: Examines the cultural, religious, political and economic factors that affected Europe from the end of the Middle Ages to the mid-1600s. Special emphasis is given to the Renaissance and Reformation as vital forces at work during the period.

HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: Examines the political, economic, social, and cultural factors that affected Europe during the period. Special consideration is given to the Enlightenment as a cultural phenomenon and to European-wide revolution and counter-revolution in the late eighteenth century.

HIST 4250 - Nineteenth-Century Europe

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A survey of European history from the fall of Napoleon to the beginning of the First World War. The course will focus on the lingering impact of the political and economic revolutions of the late eighteenth century on the politics, culture, and social development of the nineteenth. Major consideration will be given to liberalism, romanticism, socialism, nationalism, imperialism, industrialization, science, and the rise of mass society.

HIST 4260 - Europe in the Age of Total War
**HIST 4280 - History of Christianity in Europe**

*Credits: (3)*  
*Typically Taught Spring Semester: Full Sem, even years*  
*Description:* This course on European history begins with a consideration of the causes of the First World War and concludes with an assessment of the impact of the Second World War on European politics, culture, and society. The course will examine the ways in which Europe was shaped in this period by warfare, revolution, the collapse of dynastic states, international agreements, colonial interests, labor movements, economic crises, economic modernization, the rise of totalitarian movements, genocide, and foreign occupation.

**HIST 4310 - Tsarist Russia**

*Credits: (3)*  
*Typically Taught Fall Semester: Full Sem, even years*  
*Description:* Russia's political, economic, social and cultural institutions from pre-history to 1917, emphasizing dynastic leaders, expansion, religion and other significant forces of change. Includes an analysis of both foreign and domestic policies that led to world war and revolution.

**HIST 4320 CRE - Stalin and the Soviet Experiment**

*Credits: (3)*  
*Typically Taught Spring Semester: Full Sem, odd years*  
*Description:* Analyzes the political, economic, military, diplomatic, social, and ideological problems, crises, and programs from the Russian Revolutions of 1917 to the present.

**HIST 4330 - History of England to 1485**

*Credits: (3)*  
*Typically Taught Fall Semester: Full Sem, even years*  
*Description:* A survey of English history to 1485 with special consideration given to England's cultural, political, economic and social development during the Middle Ages.

**HIST 4335 - Tudor and Stuart England**

*Credits: (3)*  
*Typically Taught Spring Semester: Full Sem, odd years*  
*Description:* A survey of English history during the Tudor and Stuart periods (1485-1714). Emphasis will be placed on the social, cultural, political, religious and economic development of England during this period.

**HIST 4340 - History of England since 1714**

*Credits: (3)*  
*Typically Taught Fall Semester: Full Sem, odd years*  
*Description:* A survey of English history from 1714 to the present. Special emphasis will be given to England's cultural, political, economic, and social development during the Industrial Revolution, the Victorian era, and the twentieth century.

**HIST 4350 - Germany and the Third Reich**
HIST 4370 - History of Modern France 1789-present

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: German social-political, economic and cultural developments from the eighteenth century to the present. Topics include the Prussians, Classicism, Revolution, the Age of Bismarck, industrialism and warfare, and the 20th Century.

HIST 4410 - History of Spain and Portugal

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A survey of the political, economic, social and cultural development of Spain and Portugal from the beginning to the present.

HIST 4440 - East European Empires

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Examines the political, economic, and social factors that have shaped the history of this region from medieval era until 1815.

HIST 4450 - The Warsaw Pact

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Examines the political, economic, and social factors that have shaped the history of this region from 1815 to the present.

HIST 4490 - Exploring the Practices and Methods of History Teaching

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will consider the methods of the professional historian necessary for integrating primary and secondary sources, and provide practice with those skills for classroom teachers.

HIST 4500 - Teaching Social Studies in Grades 5-12

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Materials and methods of teaching for skill, concept and value development in middle, junior high and senior high school social studies.
Note: (Required of all majors in Social Science area).

HIST 4510 - Twentieth Century World
Typically Taught Spring Semester: Full Sem

Description: The political, economic, and social forces of the twentieth century since World War I. Emphasis is placed on global relationships, the rise of mass society, and conflict among cultures in an era of accelerating change.

**HIST 4520 - History of Medicine**

Credits: (3)

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course will examine the history of medicine from antiquity to the present in a comparative framework. It will discuss changing ideas about the body, the nature of disease, the role of physicians, and the practice of medicine in relationship to larger cultural transformations.

**HIST 4530 - Far Eastern History**

Credits: (3)

Typically Taught Fall Semester: Full Sem

Description: A survey of the political, economic, social and cultural development of China, Japan, and Korea from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

**HIST 4550 - Southeast Asian History**

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: A survey of the political, economic, social and cultural development of Southeast Asia from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

**HIST 4570 - Islamic Civilization**

Credits: (3)

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course will examine the history of Islam from the 7th century to the present. It will discuss key theological developments, the spread of the religion and its diverse forms, and its effects on culture, art, and science.

**HIST 4590 - Middle Eastern History**

Credits: (3)

Typically Taught Fall Semester: Full Sem

Description: A survey of the political, economic, social and cultural development of the Middle East from the rise of Islam to the present with particular emphasis on the 19th and 20th centuries.

**HIST 4610 - History of Africa**

Credits: (3)

Typically Taught Spring Semester: Full Sem, odd years

Description: Africa from earliest times to the twentieth century, with emphasis on the Sub-Sahara from its ancient kingdoms through the travails of the slave trade, European colonialism, and the independence movement.

**HIST 4630 - History of Ancient and Colonial Latin America**
HIST 4650 - Modern Latin America

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: History of ancient Native Latin America through the Spanish and Portuguese takeover and colonization.

HIST 4670 - History of Mexico

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A survey from ancient Native American times, the colonial experience, and the nation including the U.S. Southwest until 1848.

HIST 4700 - The U.S. and East Asia: War, Revolution, and Modernization

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course will survey major developments involving the U.S. in East Asia in the 20th century. Wars, revolution, and modernization resulted from direct encounters with the Philippines, China, Japan, and Vietnam, making these among the consequential episodes in world history.

HIST 4710 - Special Issues and Topics in American History

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: When offered will focus on a specific and detailed subject in American History. Students may repeat this course for credit when the topic offered is substantially different than the previous class. May be repeated 3 times with a maximum of 9 credit hours.

HIST 4720 - Special Issues and Topics in European History

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Description: When offered will focus on a specific and detailed subject in European History. Students may repeat this course for credit when the topic offered is substantially different than the previous class. May be repeated 3 times with a maximum of 9 credit hours.

HIST 4730 - Special Issues and Topics in Global and Comparative History

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem odd years
Description: When offered will focus on a specific and detailed subject in global or comparative history. Students may repeat this course for credit when the topic offered is substantially different than the previous class. May be repeated 3 times with a maximum of 9 credit hours.

HIST 4810 - Experimental Course
Credits: (3)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

**HIST 4830 - Directed Readings**

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Independent reading under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed. No more than three hours will count towards a major or minor.
Pre-requisite(s): Instructor approval.

**HIST 4860 INT - Internships in Historical Studies**

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to all students. Faculty supervised off-campus internships in public history institutions. Each internship is individually established and provides students with practical experience and the opportunity to apply and learn new professional skills. Six hours of internship are required for the Public History Emphasis. No more than six hours will count towards a major or minor.
Pre-requisite(s): Junior-class standing and permission of instructor and field supervisor.
May be repeated 3 times with a maximum of 9 credit hours.

**HIST 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

**HIST 4985 - Historical Research and Methods**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course teaches research and writing skills and is designed to prepare History students for History 4990. Students will learn how to find a research topic, develop a thesis, identify primary sources, cite those sources, and prepare a research proposal. The course will expose students to models of good historical writing and argumentation which will serve as models for their own writing.

**HIST 4990 - Senior Seminar**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A seminar for History majors requiring the completion of an extensive thesis project.
Pre-requisite(s): HIST 4985.

HIST 6830 - Directed Readings

Credits: (1-3)
Description: Independent readings under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed.
Pre-requisite(s): Instructor approval.
No more than three hours will count towards a major or minor.
Note: This course is offered as needed.

HLTH 1020 LS - Science and Application of Human Nutrition

Credits: (3)
Description: (available online) Human nutrition is the platform to study the nature and integration of science across disciplines and in society through applied problem solving and data analysis. Nutritional balance and good health are explored in context of the levels of organization, metabolism and homeostasis, genetics and evolution, and ecological interactions. This course is taught Web enhanced.

HLTH 1030 SS - Healthy Lifestyles

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: A systematic approach to promote health enhancing behaviors related to the prevention of disease and achievement of optimal health. Focuses on the total person with a consideration of the mental, emotional, intellectual, social, physical, and environmental dimensions which impact human health.

HLTH 1110 - Stress Management

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: An introductory course focusing on the causes of stress, recognizing personal stressors and life change management for stress control.

HLTH 1300 - First Aid: Responding to Emergencies

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: Training the lay person to respond correctly in emergencies and act as the first link in the emergency medical service system. Course leads to American Red Cross certification in Adult, Infant and Child CPR and First Aid: Responding to Emergencies. Cross listed with Athletic Training.

HLTH 2220 - Prenatal and Infant Nutrition

Credits: (2)
Description: This course focuses on nutrition and diet as they apply to birth outcome, the maintenance of maternal health, and the growth of the infant. Breastfeeding and community programs will be discussed in support of maternal and infant health.
Pre-requisite(s): NUTR 1020 or HLTH 1020.
HLTH 2300 - Emergency Response

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Meets the needs of the non-health care professional who has a duty to respond in an emergency. Provides more skills and in-depth training than the First Aid: Responding to Emergencies course. Course leads to American Red Cross certification in Emergency Response and CPR for the Professional Rescuer.
Cross listed with RHS 2300.

HLTH 2400 - Mind/Body Wellness

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Promotion of emotional wellness and understanding the body, mind, spirit connection. Required by the Utah State Board of Education for endorsement in health education.

HLTH 2420 - Childhood and Adolescent Nutrition

Credits: (2)
Description: The effects of nutrition and diet on child growth, health and behavior are explored from toddler through adolescence. The processes of growth and puberty provide the foundations for understanding nutritional support. Common nutritionally-related problems such as obesity, anemia, and eating disorders are also addressed.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2700 - Consumer Health

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem
Description: Knowledge and skills relating to consumption of health products and services, including advertising and health, quackery, alternative health care, economics of health care, etc.

HLTH 2800 - Individual Projects

Credits: (1-3)
Description: A comprehensive study or project in the field of Health Education. Hours to be arranged.
May be repeated 2 times up to 3 credit hours.
Note: This course is offered as needed.

HLTH 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in Health who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times up to 6 credit hours.
Note: This course is offered as needed.

HLTH 2920 - Short Courses, Workshops, Institutes, and Special Programs
HLTH 3000 - Foundations of Health Promotion

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Emerging trends and roles of health education within occupational, medical, community, and school settings including history, philosophy, current practices.
Pre-requisite(s): HLTH 1030.

HLTH 3050 - School Health Program

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Designed to prepare the prospective teacher for their responsibilities in administering the functions of the School Health Program, including: health services, healthful school environment, and health education.

HLTH 3100 - Applications of Technology in Health Promotion

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is an exploration of current and future uses of technology in the health promotion fields.
Pre-requisite(s): Completion of Computer & Information Literacy requirement or permission of instructor.

HLTH 3150 - Community Health Agencies and Services

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: An overview of public and community health including history, management, prevention and epidemiology of disease. Emphasis on the role of community and government health agencies regarding health promotion and disease prevention activities.
Pre-requisite(s): HLTH 3000 or HLTH 3050.

HLTH 3160 - Principles of Health Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The course provides a comprehensive overview of theories and models that explain and modify health behaviors. The models and theories are viewed from a multidisciplinary perspective and are applied to health behaviors among both normal and special populations.
Pre-requisite(s): HLTH 3000.

HLTH 3200 - Methods in Health Education

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed to appraise and utilize the different methods and aids used in teaching health and lifestyle management in
the schools, community, worksite, and health care settings. Students develop skills in organizing, presenting, and evaluating learning experiences presented to target populations in the various settings.

**Pre-requisite(s):** HLTH 3000 or HLTH 3050 or ESS 2200.

**HLTH 3320 - Health and Nutrition in the Older Adult**

Credits: (3)

**Description:** The developmental process of late adulthood with focus on the physiological age-related changes provides the foundation for understanding physical, mental, and social health and well-being in the older adult. Nutrition and exercise assessments and prescriptions, clinical services, community and social support services, complementary and alternative medicine, and other topics are explored in the context of promoting healthy aging.

**Pre-requisite(s):** HLTH 1020.

**HLTH 3420 - Multicultural Health and Nutrition**

Credits: (3)

**Description:** The application and understanding of social, religious, economic and aesthetic qualities of foods provides the knowledge for the explorations of the food patterns of various cultures. The understanding or world food problems as they pertain to the health will also be discussed.

**Pre-requisite(s):** HLTH 1020 or HLTH 2320.

This course is taught Web enhanced.

**HLTH 4013 - Health Promotion Research and Assessment**

Credits: (3)

**Typically Taught Summer Semester:** Full Sem, Online
**Typically Taught Fall Semester:** Full Sem, Online
**Typically Taught Spring Semester:** Full Sem, Online

**Description:** Application of research methods used both in assessing individual and community needs for health education, and in assessing the effectiveness of health education programs.

**Pre-requisite(s):** HLTH 3000 and PUBH 3200.

**HLTH 4150 - Needs Assessment & Planning Health Promotion Programs**

Credits: (4)

**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Conducting needs assessment and planning health promotion programs in a community, occupational, school or
clinical setting.
Pre-requisite(s): HLTH 3000.

HLTH 4220 - Women's Health Issues

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A feminist perspective and analysis of the psychological, cultural and political health related issues that impact women throughout the life span.
Pre-requisite(s): Upper division standing or consent of instructor.
(Cross listed with Women's Studies)

HLTH 4250 - Contemporary Health Issues of Adolescents

Credits: (2)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

HLTH 4300 - Health Education in the Elementary School

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

HLTH 4700 - Wellness Coaching

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Wellness coaching provides a highly effective and focused approach towards improving people's individual health habits and involves coaching people towards achieving their personal, health, and wellness goals. Students with an interest in wellness coaching will gain a broad overview of the field including an introduction to the application of wellness coaching tools, theory, concepts and techniques.
Pre-requisite(s): HLTH 2400, HLTH 3200.

HLTH 4800 - Individual Projects

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A comprehensive study or project in the field of Health Education. Hours to be arranged for seniors only. May be repeated 2 times up to 3 credit hours.

HLTH 4860 INT - Field Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description**: Work experience which applies prior academic learning in a supervised setting.  
**Pre-requisite(s)**: HLTH 3000, HLTH 3100, HLTH 3200, HLTH 4150.  
May be repeated 5 times up to 6 credit hours.

**HLTH 4890 INT - Cooperative Work Experience**

Credits: (1-6)  
**Typically Taught Fall Semester**: Full Sem  
**Typically Taught Spring Semester**: Full Sem  
**Description**: A continuation of HLTH 2890.  
May be repeated 5 times up to 6 credit hours.  
Note: This course is offered as needed.

**HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)  
**Workshop**  
**Description**: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.  
May be repeated for a total maximum of 6 credit hours.  
Note: This course is taught as needed.

**HLTH 4990 - Senior Seminar**

Credits: (1)  
**Typically Taught Summer Semester**: Full Sem  
**Typically Taught Fall Semester**: Full Sem  
**Typically Taught Spring Semester**: Full Sem  
**Description**: This is a capstone course of Health Promotion seniors only. Summarizes the experiences of the Health Promotion Major, addresses future alternatives and prepares students for employment now and/or graduate study.

**HLTH 6250 - Contemporary Health Issues of Adolescents**

Credits: (2)  
**Typically Taught Fall Semester**: Online  
**Typically Taught Spring Semester**: Online  
**Description**: Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

**HLTH 6300 - Health Education in the Elementary School**

Credits: (2)  
**Typically Taught Fall Semester**: Full Sem  
**Typically Taught Spring Semester**: Full Sem  
**Description**: Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

**HNRS 1110 HU - Introduction to Honors: The Construction of Knowledge**

Credits: (3)  
**Typically Taught Fall Semester**: Full Sem  
**Description**: An interdisciplinary class introducing students to the different ways university disciplines see the world and construct meaning.  
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.
HNRS 1500 PS - Perspectives in the Physical Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary approach to the physical sciences. This introductory class deals with basic concepts, problems and issues of the physical sciences.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1510 LS - Perspectives in the Life Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary approach to the life sciences. This introductory class deals with basic concepts, problems and issues of the life sciences.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1520 SS - Perspectives in the Social Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary introduction to the social sciences. This introductory course deals with the basic concepts, methods, models and issues of the social sciences.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1530 CA - Perspectives in the Creative Arts

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary introduction to the creative arts. This introductory class deals with basic concepts, problems and issues of the creative arts.
A student may repeat a course number twice for a maximum of 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1540 HU - Perspectives in the Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary approach to the arts and humanities. This introductory class deals with basic concepts, problems and issues of the arts and humanities.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities
HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts

Credits: (3-6)
Variable Title

Description: This course will focus on a central concept in the Creative Arts, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences

Credits: (3)
Variable Title

Description: This course will focus on a central concept in the Physical Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences

Credits: (3)
Variable Title

Description: This course will focus on a central concept in the Life Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2050 SS - Exploring Key Concepts in the Disciplines: Social Science

Credits: (3)
Variable Title

Description: This course will focus on the history and development of a central concept in the Social Sciences, using original sources as the primary class texts.

A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A survey of influential ideas, literature and events that characterize antiquity and the middle ages in the Western world. This course is offered either for HU credit (2110A) or for SS credit (2110B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era

Credits: (3)
Variable Title

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A survey of the great ideas, literature and events that characterize Western civilization from the Renaissance to relativity. This course is offered either for HU credit (2120A) or for SS credit (2120B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2130 HU/SS/DV - Intellectual Traditions: Great Ideas of the East

Credits: (3)
Variable Title

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A survey of the great ideas, literature, religions and philosophical foundations of Asia. This course is offered either for HU credit (2130A) or for SS credit (2130B). This course also fills the Diversity requirement. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2830 - Directed Readings, Projects, and Research

Credits: (1-3)

Description: Individualized tutorial with a professor who may be selected from many possible disciplines. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2900 - Honors Colloquium

Credits: (1-3)

Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus; may be taken twice up to 3 credits with different course content: restricted to lower division credit. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

HNRS 3110 - Great Books
Credits: (3)
Description: A selection of books that embody some of the great ideas, literature, and events influential in history. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 3900 - Honors Colloquium

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4830 - Directed Readings: Senior Project Research

Credits: (1-3)
Description: This class is taken in preparation for the HNRS 4990 Honors Senior Project. Class time is TBA, but students working towards their Honors Senior Project usually meet about seven times during the semester. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4900 - Honors Colloquium

Credits: (2-4)
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

HNRS 4990 - Honors Senior Project

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course offers a capstone senior project experience for students. All students aiming to complete University Honors must take this class in its 1-credit hour form. Students interested in completing additional research with the Honors Program may register for 2-3 credit hours as appropriate. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HTHS 1005 - Current Certification in Health Care

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Certificate programs provide a foundation for many of the Allied Health Professions. This course allows students to obtain University credit for the completion of a certificate program. Students should complete their certificate program prior to or during the semester in which they are enrolled in the course. Certificates that currently qualify for this course are Certified
Nurse Assistant. Other certificates may be eligible on a case-by-case basis. Students may elect 1-3 credit hours for this course. Required assignments will match the elected credit hours.

**HTHS 1101 - Medical Terminology**

Credits: (2)

Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

**Description:** A comprehensive overview of medical language. This course takes a body-systems approach to presenting the medical terminology associated with anatomy, physiology, diseases and treatments. Designed for all students interested in health sciences or a career in medicine.

**HTHS 1103 - Introduction to Health Careers and Care in a Diverse Society**

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** This course will compare and contrast diverse health careers. Students will discuss the history, providers, and delivery models involved in Health Care. The course will explore how such factors as economic class and status in groups such as gender, age, and physical ability affect health care professionals. Students will also explore numerous fields and opportunities in the Health Care Industry.

**HTHS 1104 - Introductory Human Anatomy and Physiology**

Credits: (3)

Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

**Description:** Introductory Human Anatomy and Physiology is a single semester 3 credit-hour course that focuses on the basic structure and function of the human body. Course topics include a basic introduction to atomic, molecular, cellular, and tissue levels of organization; and the integumentary, musculoskeletal, neuroendocrine, cardiovascular, lymphatic, immune, respiratory, digestive, and genitourinary systems. Course activities will enhance your understanding of the material by providing practice in critical thinking, content application, and data analysis.

**HTHS 1108 - Biocalculations for Health Professions**

Credits: (5)

**Description:** Fundamental mathematical concepts using health professions applications. Topics include: basic arithmetic, pre-algebra, beginning algebra, geometry, and statistics applied to solutions, dosage calculations, electrolytes, acid base balance, circulatory and urinary function, pulmonary function testing and energy and metabolism. This course does not meet the University's quantitative literacy requirement.

Note: This course is offered as needed.

**HTHS 1110 LS - Integrated Human Anatomy and Physiology I**

Credits: (4)

Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

**Description:** Integrated Human Anatomy and Physiology I is the first semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the atomic and molecular levels of organization, cell biology and metabolism, microbiology, and the integumentary, skeletal and muscular body systems. Weekly integrated laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology. This course meets the life science (LS) general education learning outcomes for the university.
Suggested Requisite(s): Completion of HTHS 1101 and/or HTHS 1104 is strongly recommended.
Note: Course may only be taken three times.

HTHS 1111 - Integrated Human Anatomy and Physiology II

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Integrated Human Anatomy and Physiology II is the second semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the nervous, endocrine, cardiovascular (blood), cardiovascular (heart and blood vessels), respiratory, digestive, urinary, and reproductive body systems. Laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology.
Pre-requisite(s): HTHS 1110 with a grade of C or better.

HTHS 1120 - Case Studies in Health Sciences

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Case Studies in Health Sciences is a course designed for students wishing to explore the interdisciplinary nature of health care using case study models. Each case study focuses on a disease process. Progression through each case study involves a review of anatomy and physiology, pathophysiology, medical terminology and a study of a variety of health professionals including their educational and training requirements. Additionally, the student will explore key medical diagnostic tests (e.g. laboratory, imaging) used in patient disease diagnosis, management and prevention. The course emphasizes the importance of the team approach to patient care.
Pre-requisite(s): HTHS 1110 and HTHS 1111 or an equivalent course in anatomy and physiology. Recommended prerequisite: HTHS 1101.

HTHS 1130 - Common Medicines

Credits: (3)
Description: This is an introductory course that will provide information regarding proper drug usage for those without significant backgrounds in the Biological Sciences. The course primarily discusses over-the-counter medicines as well as prescription drug groups that are commonly used by the public. The overall objective of this course will be to provide information in such a way that individuals are able to make wise and appropriate choices, are more aware of possible drug-related problems, and will become well-informed consumers.
May be repeated twice with a maximum of 6 credit hours.
Note: This course is offered as needed.

HTHS 2230 - Introductory Pathophysiology

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introduction to the pathophysiologic disruptions of normal human body function, this course will emphasize disease mechanisms and the body's response to restore homeostasis. Units of study include foundational concepts of cellular injury, genetics, acid-base, electrolyte, fluid balance and functional alterations of the immune, hematologic, nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems.
Pre-requisite(s): Completion of HTHS 1110 and HTHS 1111, or ZOOL 2200, or an equivalent human physiology course with a grade of C or better. Concurrent enrollment in HTHS 2231 is recommended.

HTHS 2231 - Introductory Pathophysiology Laboratory
Credits: (1)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Laboratory and computer exercises involving analysis of both clinical and laboratory data. Students evaluate signs, symptoms, diagnosis, and treatment of various pathological conditions and diseases. One two-hour laboratory session per week.
Co-Requisite(s): HTHS 2230.

HTHS 2240 - Introduction to Pharmacology

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Introductory pharmacology course which covers pharmacological principles including modes of action, uses, modes of excretion, and patient side effects of various drug classes. The drugs are presented in a "system approach" with emphasis on medications utilized in diagnosing and treating diseases associated with the various body systems. Class format includes a 3 hour lecture class with students participating in oral presentations and case studies. Recommended prerequisite: HTHS 1101, HTHS 1110 and HTHS 1111.

HTHS 2830 - Health Sciences Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Directed Readings in Health Sciences areas. Must have departmental approval. May be repeated twice with a maximum of 3 credit hours.

HTHS 2904 - Information Resources in the Health Professions

Credits: (1)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences.

Cross-listed as LIBS 2904.

HTHS 2910 IL - Health Information Literacy, Healthcare Systems & Career Exploration

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: HTHS 2910 is designed for students who are investigating healthcare systems and careers in healthcare, integrating content from both health sciences and information literacy. The course explores pathways that can lead to meaningful and rewarding careers in healthcare, and techniques useful in applying and matriculating into these educational programs. Evidence-based practice is incorporated into the research process, enabling students to identify information needs, and to select, evaluate, and ultimately utilize health information to make informed decisions. This course emphasizes critical thinking and prepares students to join conversations on important topics in healthcare as informed and responsible participants. Ultimately, this course will enable students to approach our information landscape more critically, both as a consumer and creator of information and as a practitioner in the health sciences. This course fulfills the information literacy general education core requirement.
Note: Cohort Code

HTHS 2990 - Health Sciences Seminar
Credits: (1)
Description: Presentations, group discussions and analysis of selected topics, designed to prepare the Health Science major for career opportunities in the job market and applying for Health Professions professional programs.
May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

HTHS 3240 - Pharmacology Principles and Clinical Applications

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Pharmacology Principles and Clinical Applications is an upper division course designed for students who are pursuing a career in health, health education, or the health professions. This course will focus on pharmacokinetics, pharmacodynamics, mechanisms of drug action, evidenced-based medicine, organ-systems approach to differential therapeutics, and topics of current relevancy. In addition, students will present on a pharmacology case or topic of their choice.
Pre-requisite(s): HTHS 1111 or ZOOL 2200, or an equivalent human physiology course. HTHS 2230 - Introductory Pathophysiology is also recommended.

HTHS 3328 - Pathophysiology of Cells and Tissues

Credits: (2)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Pathophysiology of Cells and Tissues is a course that will emphasize disease mechanisms and the body's response to restore homeostasis by presenting an orientation to disease as disordered physiology. This course describes the etiology, developmental considerations, pathogenesis and clinical manifestations of disease processes. Units of study focus on the interactions of cellular injury mechanisms, genetic disorders, neoplasia, and inflammatory and immune disorders. WSU Online class only.
Pre-requisite(s): HTHS 1111, ZOOL 2200, or equivalent human physiology course.
May be repeated once for credit.

HTHS 3329 - Pathophysiology of Organs and Systems

Credits: (2)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Pathophysiology of Organs and Systems is a course that will emphasize the mechanisms of disordered physiology that underlie disease conditions by analyzing the mechanism(s) of different disease states. Particular attention will be given to etiology, pathogenesis, developmental and environmental influences, and clinical manifestations. Units of study focus on the nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems. WSU Online class only.
Pre-requisite(s): HTHS 1111 or ZOOL 2200, or equivalent human physiology course.
May be repeated once for credit.

HTHS 3410 - Foundations of Health Science Technology

Credits: (3)
Description: The purpose of this course is to teach the student fundamental technological and pharmacological principles used in dental and medical equipment. It will be focused on criteria used by dental and medical personnel to make technology and pharmacology decisions.
Note: This course is offered as needed.

HTHS 3412 - Health Science Technology Applications
The purpose of this course is to teach students fundamental technological and pharmacological principles used in specific medical devices. The students will develop an understanding of different health science manufactured products and services and will receive exposure to industry representatives.

**Pre-requisite(s):** HTHS 3410.

*Note:* This course is offered as needed.

**HTHS 3997 - Digital EEG Concepts**

Credits: (3)

**Typically Taught Fall Semester:** *Full Sem*

**Description:**
This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the fall semester will be required and there is a required research paper.

**HTHS 3998 - Normal Adult EEG**

Credits: (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:**
This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

**HTHS 3999 - Artifacts in EEG**

Credits: (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:**
This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

**HTHS 4010 - Interdisciplinary Health Care Teams**

Credits: (3)

**Description:**
This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.
Cross-listed with DENT 4010 and NRSG 4010.
May be repeated twice for credit.
Note: This course is offered as needed.

**HTHS 4850 - Study Abroad**

Credits: (1-6)

**Variable Title**

**Description:**
This course provides opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.
May be repeated 5 times for 6 credit hours.

**IDT 1010 CA - Introduction to Interior Design**

Credits: (3)

**Typically Taught Summer Semester:** *Online*

**Typically Taught Fall Semester:** *Full Sem, Online*
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper, replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: Explores the interior design profession, professional certification and licensure. Students learn the various phases of the design process and develop spaces that relate to sustainability, accessibility and human factors. Study of architectural and furniture styles are explored. Students develop aesthetic judgment as they create spaces that utilize the elements and principles of design and color theory.

IDT 1020 - Presentation Techniques

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper, replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: Exploration of materials and application of methods required for visual communications with interior design presentation. Emphasis in conceptualizing and quick-sketching techniques. Introduction to oral and technical visual presentation methods such as Adobe Illustrator, InDesign and Google SketchUp are incorporated into curriculum.

IDT 1050 - Architectural Drafting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course: AutoDesk products licensure, printers, computers. Licensing fees annually
Description: Introduction to the fundamentals of drafting of architectural working drawings using hand and basic technical skills. Graphic symbols, lettering and procedures used in developing a set of residential plans, including architectural standards and building requirements are studied.

IDT 1860 - Practicum

Credits: (1-2)
Description: A course of occupational experiences in the interior design industry. A plan is created by the instructor and student to provide meaningful training in the student's career field.
Pre-requisite(s): IDT 2020, IDT 2035.
May be repeated for a maximum of 2 credit hours.
Note: This course is offered as needed.

IDT 2010 - Sustainability I: Textiles and Soft Materials

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper, replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: A study of fibers, yarns, fabric structure, codes, finishes, and sustainable manufacturing practices and products as they relate to residential and commercial interiors. Three-dimensional projects may be required as part of this course.

IDT 2020 - Computer-aided Design and Drafting

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees
annually

Description: Application of basic computer-aided drafting and design as it relates to technology in interior design. Layout, modeling, rendering, and 3-D projects are featured as part of this course.

IDT 2035 - Design Process/Space Planning

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually

Description: Experiences in programming, research development, and schematic design development. Emphasis on problem solving and space planning for residential and non-residential spaces. Design charrettes may be included as part of the course curriculum.

Pre-requisite(s): IDT 1050 or BDC 1350.

IDT 2040 - Architectural Detailing

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually

Description: This course develops interior detailing technical skills, emphasizing stairways, fireplaces, ceilings, floor systems, and millwork (built-in furniture) details for residential and commercial spaces. Accessibility standards are discussed and incorporated into construction drawings and custom millwork designs. Life safety issues in regards to door, frame and hardware specification. Preparation of construction drawings, specifications, door, window and finish schedules for use by the trade. Three-dimensional projects may be required as part of this course.

Pre-requisite(s): IDT 2020.

IDT 2050 - Codes

Credits: (2)
Typically Taught Spring Semester: Full Sem

Description: The study and application of interior building codes that insures the health, safety, and welfare of individuals who occupy the structure.

IDT 2060 - Sustainability II: Materials, Hard Surfaces, and Specifications

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)

Description: Exploration and research of interior finishes, materials, and sustainable practices. Practical application for specifying and installation of materials will be emphasized. Three-dimensional projects may be required as part of this course. An interdisciplinary design charrette is featured as part of this course.

IDT 2080 - Advanced Interior Architectural Drafting and Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

Description: This course continues the study of technical digital interior architectural drafting and design using the latest technologies for interior construction documents and interior architectural renderings.
IDT 2820 - Historical Interiors

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Historical research of interior furnishing and architecture from Egyptian through English Victorian. Oral presentations, research projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

IDT 2830 - Directed Readings

Credits: (1-3)
Description: Individually chosen readings or specialized topics supervised by a faculty member. Instructor's approval required. May be repeated up to 3 credit hours.
Note: This course is offered as needed.

IDT 2860 - Practicum

Credits: (1-2)
Typically Taught Spring Semester: Full Sem
Description: A course of occupational experiences in the interior design industry. Students are given opportunity to apply the design process to a real-life project, often with a service-learning emphasis. Instructor's approval required. This course may be listed among credits for the IDT Study Abroad program.
Pre-requisite(s): IDT 2020 and IDT 2035.
May be repeated up to 2 credit hours.

IDT 2990 - Interior Design Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Support class materials, tour fees, guest lecture materials
Description: Professional issues presented by guest lecturers, tours, and current discussions in interior design. Due to the nature of the curriculum, not all lectures, tours and experiences may be held in a traditional setting or time. This course may be listed among credits for the IDT Study Abroad program. It is encouraged that design majors enroll in this course each semester. May be taken for credit/no credit.
May be repeated for credit up to 8 times for a maximum of 9 credit hours.

IDT 3000 - Lighting Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: A study of lighting principles, lighting systems, light sources, layered lighting concepts, calculation of lighting levels. Voice and data telecommunications systems, communication of lighting design and specifications including budgetary limitations are covered. Lighting plans, switching plans and electrical plans are explored. Focus is given to life safety concerns, codes, and accessibility. Also, exploration of daylighting principles and energy efficiency is incorporated. Emphasis is placed on communicating a design solution by practical application of learned principles in project format. An interdisciplinary design charrette is featured as part of this course.
Pre-requisite(s): (IDT 1050 OR BDC 1350) and IDT 2035.

IDT 3020 - American and Modern Interiors
IDT 3025 - Professional Practice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: A study of the business aspect of Interior Design. Information will be presented regarding forms and professional practices for the Interior Designer, i.e., ethics, contracts, fees, purchase orders, letters of agreement, business formations and terminology of business practice. Job seeking skills will also be covered, along with professional licensing and certification. An interdisciplinary design charrette is featured as part of this course.

IDT 3040 - Perspective/Rendering

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Perspective drawing, sketching, and manual and computer-generated rendering techniques are explored and utilized. It is required that IDT 4830 for one credit hour be taken in conjunction with this course. An interdisciplinary design charrette is featured as part of this course.

IDT 3045 - Residential Design

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: This course focuses on projects that apply the design process to residential interiors. Kitchen and Bath curriculum and NKBA standards are introduced. 20/20 Technologies software is introduced. Design charrettes, local or national competition participation, and/or three-dimensional projects may be featured as part of this course.
Pre-requisite(s): IDT 3000 and IDT 3040.

IDT 3060 - Kitchen & Bath

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: A continuation of residential design is explored in which NKBA guidelines for kitchens and baths is applied to projects. In-depth study of the design of kitchens and baths is the focus. Kitchen and bath-specific 20/20 Software is utilized. Design charrettes and national competition participation are featured as part of this course. Prepares the student for NKBA (National Kitchen and Bath Association) certification exams.
Pre-requisite(s): IDT 3045.

IDT 4010 - Commercial Studio
IDT 4020 - Commercial Design

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Application of codes as they pertain to egress, accessibility, and fire in commercial interiors. Emphasis on NCIDQ-based commercial projects are featured in this studio course.
Pre-requisite/Co-requisite: IDT 4020.

IDT 4025 - Senior Program Development

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Applying the design process to commercial design projects is the focus of this course. Contract, hospitality, healthcare, and global projects are emphasized in which students apply codes knowledge and commercial design strategies and specification of commercial-grade finishes and furnishings. Design charrettes and national competition participation are featured as part of this course.
Pre-requisite(s): IDT 2035, IDT 2050, IDT 3000, IDT 3040.

IDT 4030 - Senior Project

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: The second of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality and healthcare design emphasis along with a research component. The design process continues in this semester including presentation of the capstone project. The senior student must take IDT 4025 in the same academic year preceding IDT 4030. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.
Pre-requisite(s): IDT 4025.
May be taken twice.

IDT 4040 - Portfolio Design

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Developing and presenting both a hard-copy and digital portfolio for job searching in the field of interior design. In addition to the portfolio, student will create a customized resume, business card, and letter of introduction to accompany both the hard-copy and digital portfolio for presentation to prospective employers and clients. Pre-requisite(s): IDT 4025 or BDC 4350.

IDT 4830 - Directed Readings

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: Individual readings supervised by a faculty member. Junior/Senior level course. Must be taken with the approval of the instructor. This course may be listed among credits for the IDT Study Abroad program. May be repeated twice for a maximum of 3 credit hours.

IDT 4860 INT - Internship for Interior Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)
Description: A structured professional-level field experience where the interior design major applies skills through work experience with a qualified interior designer, architect, or design firm. The curriculum also involves research into the field of interior design, professional practice and professional certification. Tours, activities, and field trips may be featured as part of the course curriculum in addition to the on-site experience in the design field. Internship must be approved by the instructor within the first two weeks of the semester.

ITLN 1010 - First Semester

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

ITLN 1020 - Second Semester

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of ITLN 1010. Basic language skills including listening, speaking, reading, writing and culture.

ITLN 2010 - Third Semester

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of ITLN 1020. Assumes completion of first-year or equivalent experience.
Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

**ITLN 2020 HU - Fourth Semester Italian**

**Credits:** (3)
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (NH=Novice High) Continuation of ITLN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

**ITLN 2021 - Second Year II**

**Credits:** (3)
**Description:** (NH=Novice High) Continuation of ITLN 2010 without General Education Humanities credit. Offered through examination only.
**Pre-requisite(s):** Only available through testing.

**JPNS 1000 - Proficiency Development**

**Credits:** (1-2)
**Description:** (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles.
**Note:** Course not currently being offered.

**JPNS 1010 - First Semester Japanese**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

**JPNS 1020 - Second Semester Japanese**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (N=Novice) Continuation of JPNS 1010. Basic language skills including listening, speaking, reading, writing and culture.

**JPNS 1700 - Conversational Skills**

**Credits:** (1-3)
**Description:** Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.

**JPNS 1852 - Study Abroad**
Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.
May be repeated twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

**JPNS 2010 - Third Semester Japanese**

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of JPNS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

**JPNS 2020 HU - Fourth Semester Japanese**

Credits: (3)  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of JPNS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

**JPNS 2021 - Second Year II**

Credits: (3)  
Description: (NH=Novice High) Continuation of JPNS 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

**JPNS 2030 - Second Year Language Review**

Credits: (3)  
Course Fee: $8.00  
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

**JPNS 2851 - Study Abroad**

Credits: (3)  
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Note: Check with Department for course availability.

**JPNS 2852 - Study Abroad**

Credits: (1-3)  
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

**JPNS 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
**Workshop**
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

**JPNS 3000 - Proficiency Development**

Credits: (3)
Course Fee: $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

**JPNS 3060 - Grammar & Composition**

Credits: (3)
Course Fee: $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.
Note: Check with department for course availability.

**JPNS 3116 - DLI Bridge Course I**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): JPNS 2020 or AP exam with a score of 4 or better

**JPNS 3117 - DLI Bridge Course II**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): JPNS 2020 or AP exam with a score of 4 or better

**JPNS 3118 - DLI Bridge Course III**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): JPNS 2020 or AP exam with a score of 4 or better
JPNS 3160 - Introduction to Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

JPNS 3175 - Business Language II

Credits: (3)
Typically Taught Fall Semester: Full Sem

JPNS 3220 - Phonetics and Phonology

Credits: (3)
Course Fee: $8.00
Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

JPNS 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

JPNS 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

JPNS 3360 - Advanced Grammar

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

JPNS 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

**JPNS 3560 - Cultural Heritage II**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

**JPNS 3570 - Special Topics in Culture**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

**JPNS 3610 - Literature Survey I**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

**JPNS 3620 - Literature Survey II**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

**JPNS 3630 - Literature Poetry**

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160. May be repeated under different titles.

**JPNS 3631 - Literature: Prose**
Credit: (3)

Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3632 - Literature: Drama

Credit: (3)

Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3650 - Literature Periods

Credit: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160.

JPNS 3670 - Literature Authors

Credit: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160.

JPNS 3680 - Literature: Film

Credit: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3710 - Business Language I

Credit: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

JPNS 3715 - Business Language II

Credit: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
JPNS 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

JPNS 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

JPNS 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

JPNS 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

JPNS 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

JPNS 4620 - Survey of Literature I

Credits: (3)
Course Fee: $8.00
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.
Pre-requisite(s): JPNS 3160.

JPNS 4630 - Survey of Literature II

Credits: (3)
Course Fee: $8.00
**Description:** (IH=Intermediate High) One literature course is required of regular and teaching majors.

**Pre-requisite(s):** JPNS 3160.

---

**JPNS 4690 - Special Topics in Literature**

**Credits:** (3)

**Variable Title**

**Course Fee:** $8.00

**Description:** (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.

**Pre-requisite(s):** JPNS 3160.

---

**JPNS 4740 - Translation II**

**Credits:** (3)

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

---

**JPNS 4830 - Directed Readings**

**Credits:** (1-3)

**Description:** (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times.

Note: Check with Department for course availability.

---

**JPNS 4850 - Study Abroad**

**Credits:** (3)

**Description:** (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

---

**JPNS 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Description: (NH=Novice High) Continuation of KOR 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.
Suggested Requisite(s): KOR 2010.

KOR 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

KOR 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
Note: Check with Department for course availability.

LEAP 2510 - LEAP Pathway Academic Writing

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This advanced-mid writing course for English language learners focuses on writing academic essays that incorporate outside sources
Pre-requisite(s): Placed according to the Department Placement test or a TOEFL score of 54 or above (or equivalent.)
Suggested Requisite(s): LEAP 2520.

LEAP 2520 - LEAP Pathway Academic Reading
LEAP 2750 - Special Projects and Activities for Language Learning American Culture I & II

Credits: (1-3)
Variable Title
Typically Taught Summer Semester: 1st Blk; 2nd Blk
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: Students will become more familiar with aspects of American culture.
Pre-requisite(s): Must have LEAP Department approval and LEAP Placement test.
May be repeated 3 times for up to 6 credit hours.
Note: Contact the LEAP Department for programs offered.

LEAP 2751 - Special Projects and Activities for Language Learning: Campus Activities and Events I and II

Credits: (1-3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: Students will become more familiar with American university culture and activities and with the student support services offered at Weber State University.
Pre-requisite(s): Must have LEAP Department approval and LEAP placement test.
May be repeated 3 times for up to 6 credit hours.

LEAP 2752 - Special Projects and Activities for Language Learning: Reading I and II

Credits: (1-3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: The goal of this course is to develop ESL students' English language learning through extensive reading. The reading books for this class are modern fiction, developed for adult learners of English as a second language. Typically Taught Fall Semester: Full Sem Online, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem Online, 1st Blk, 2nd Blk
Description: This exam verifies a student's information literacy competency. Review materials are available for students to study for this exam at libguides.weber.edu/LIBS1504. The exam must be completed during the block/semester registered, and may be
retaken one time within the same block/semester. The grade for this course is credit/no credit. For more information, call (801) 626-7034 or email libinstruct@weber.edu.

LIBS 1704 - Information Navigator

Credits: (1)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk, Online
Description: Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning.

LIBS 2504 - Information Resources in History

Credits: (1)
Typically Taught Spring Semester: Full Sem, Online
Description: Intended for students interested in history, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in history.

LIBS 2604 - Information Resources in Education

Credits: (1)
Typically Taught Summer Semester: 1st Blk, Online
Typically Taught Fall Semester: 1st Blk, 2nd Blk, Online
Typically Taught Spring Semester: 1st Blk, 2nd Blk, Online
Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines.
Cross-Listed with EDUC 2604.

LIBS 2704 - Information Resources in the Business Disciplines

Credits: (1)
Typically Taught Fall Semester: 1st Blk, 2nd Blk, Online
Typically Taught Spring Semester: 1st Blk, 2nd Blk, Online
Description: Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines.
Cross listed with BSAD 2704.

LIBS 2804 - Information Resources in the Social Sciences

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Intended for students interested in the social sciences, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in the social sciences.

LIBS 2904 - Information Resources in the Health Professions
LING 4830 - Directed Readings in Linguistics

Credits: (1-3)

Description: Directed readings may be undertaken in the general area of linguistics, whether theoretical or applied. Specific topics are to be selected in consultation with the instructor and the linguistics minor program coordinator. The amount of material to be read, and any written assignments based on the reading, will be at the discretion of the instructor; it will be based on the level of the topic and the degree of difficulty of the reading, consistent with existing departmental or university guidelines.

Pre-requisite(s): ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

LING 4900 - Variable Topics in Linguistics

Credits: (1-3)

Variable Title

Typically Taught Spring Semester: Full Sem

Description: This course will offer opportunities for classroom study beyond those available in the regular course offerings for the linguistics minor. Topics will vary according to the interests of students and the expertise of the instructor; for example, advanced syntax, sociolinguistics, language typology, language and the law, artificial intelligence, neurolinguistics, and language death. The course may be taken more than once with different content.

Pre-requisite(s): ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

LING 4990 - Centering Experience

Credits: (.5)

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The Centering Experience is the final requirement for the minor in linguistics at Weber State. Students will assemble a portfolio of their work in linguistics and write a reflection paper.

Note: This course is credit/no credit.

MACC 6120 - Financial Accounting & Reporting

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: In-depth coverage of financial accounting and reporting topics from a theoretical and practical standpoint through a combination of lectures, research projects, case studies, and other homework assignments. Topics include accounting for leases, income taxes, investments, consolidations, foreign currency transactions, FASB Accounting Standards Codification, etc.

MACC 6130 - Governmental and Nonprofit Accounting
MACC 6160 - Financial Statement Analysis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A study of governmental and nonprofit accounting concepts including revenue and expense recognition; asset and liability valuation; and reporting, disclosure, and financial analysis. Includes in-depth discussion of the new GASB reporting model for governments and analysis of actual government financial statements produced using the new model.

MACC 6180 - Advanced Accounting Data Analytics

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Comprehensive study of the analysis and interpretation of financial statements by external decision makers and the impact of accounting conventions and alternative standards on analytical measures.

MACC 6210 - Business Law and Legal Liability

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: A study of important business law topics accounting and taxation professionals should be familiar with including contracts, business organizations, securities, discrimination, banking, and property will be discussed. Legal liability of accounting and taxation professionals will also be addressed.

MACC 6310 - Advanced Cost Accounting

Credits: (3)
Description: Advanced cost accounting topics including cost accounting for non-manufacturing organizations, human information processing, activity resource usage, pricing, performance measurement, and non-routine decisions.
Note: This course is not currently offered.

MACC 6330 - Strategic Management Accounting

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A study and analysis of advanced managerial accounting subjects. Examines the impact of accounting information on managerial processes including planning, organizing, and controlling.

MACC 6560 - Advanced Auditing & Assurance Services

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Advanced topics of auditing and assurance services including professional and technical aspects of auditing practice, introduction to SEC, ethics and legal responsibilities, fraud, recent auditing developments, sampling techniques for decision making, internal control, and risk assessment.

MACC 6570 - Information Systems Auditing
MACC 6580 - Internal Auditing

Credits: (3)
Typically Taught: Spring Semester: Full Sem
Description: Methods, techniques, controls, and procedures used in the audit of computerized accounting systems. Note: This course is not currently offered.

MACC 6610 - Advanced Accounting Information Systems

Credits: (3)
Typically Taught: Summer Semester: Full Sem
Typically Taught: Fall Semester: Full Sem
Description: An advanced study of accounting information systems including general ledger, principles, tools, and techniques for controls, database systems, management query, and data analysis tools and systems. Course integrates projects and case studies where applicable.

MACC 6695 INT - Graduate Accounting Internship

Credits: (1-3)
Typically Taught: Various
Description: A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc/MTax courses. Pre-requisite(s): Admission to the MAcc or MTax program; approval by department chair and program director. Can be repeated once up to 6 credit hours.

MACC 6700 - CPA Examination Review: FAR

Credits: (3)
Typically Taught: Summer Semester: Full Sem
Typically Taught: Fall Semester: Full Sem
Typically Taught: Spring Semester: Full Sem
Description: This is a directed self-study course designed to help students prepare for the Financial Accounting and Reporting (FAR) section of the CPA examination. This is a review course and assumes that the student has already taken a number of financial accounting courses. A faculty member will monitor the student's progress and a grade will be determined by the student's performance on weekly quizzes and a final examination. Pre-requisite(s): The student must be admitted to the Master of Accounting (MAcc) or Master of Taxation (MTax) program.

MACC 6750 - Study Abroad

Credits: (3)
Variable Title
Description: This course integrates international travel and site visits with the study of accounting and international business practices. Through readings, assignments, discussions, and visits to important business and cultural sites, the course builds understanding and competence as it relates to the history of accounting, the global accounting profession, and the business and cultural environment in the host countries. Pre-requisite(s): The student must be admitted to the MAcc or MTax program.

MACC 6801 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings. Pre-requisite(s): Approval of Graduate Coordinator and Instructor.
MACC 6802 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.
Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6803 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, on special topics not included in the announced course offerings.
Pre-requisite(s): Approval of Graduate Coordinator and Instructor.

MACC 6991 - Lecture Seminar

Credits: (1-3)
Description: Lecture and discussion of current accounting topics by individuals from business and industry.

MACC 6992 - Lecture Seminar

Credits: (1-3)
Description: Lecture and discussion of current accounting topics by individuals from business and industry.

MACC 6993 - Lecture Seminar

Credits: (1-3)
Description: Lecture and discussion of current accounting topics by individuals from business and industry.

MATH 0810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

MATH 0810 - Math Preparation and Practice

Credits: (1)
Experimental
Description: The curriculum is tailored to the unique strengths and weaknesses of students, providing group problem solving activities, an individual assessment and study plan for mastering target material. In class, students will alternate between online math practice and mathematical tasks that will encourage students to reason proportionally, interpret data displays, look for patterns, practice operations with numbers, and practice verbalizing mathematical concepts. Progress in the online learning will be monitored by the instructor.

MATH 0950 ND - Pre-algebra

Credits: (4)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $76.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.
Description: An introduction to mathematical literacy including number sense, algebraic thinking, proportional reasoning, and math learning strategies. Topics include properties of and operations with whole numbers, integers, decimals, fractions and percent; introductory operations and applications with exponents, algebraic expressions, linear equations, and basic geometry. Course fees include math assistance from tutoring services. Does not count toward graduation. Prerequisite: none.

MATH 0970 ND - Pathway to Contemporary Mathematics

Credits: (5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.

Description: This course integrates geometry, numeracy, proportional reasoning, algebraic reasoning, and topics in statistics and functions (linear, quadratic, rational, radical, exponential and logarithmic) using modeling, problem solving, and critical thinking. The course fee for this course includes homework software and math assistance from tutoring services. This course may not be transferred to other USHE schools.
Pre-requisite(s): MATH 0950 or Level 2 placement.

MATH 0990 ND - Beginning Algebra

Credits: (4)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $76.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.

Description:
An introduction to algebraic literacy using properties of real numbers, solving linear equations and inequalities, geometry, ratio and proportion, applications, graphing, solving linear systems, exponents, scientific notation, polynomials, factoring, and solving quadratic equations. Learning strategies for mathematics success, including development of a mathematical growth mindset are integrated into the course.
Pre-requisite(s): MATH 0950 or equivalent placement.
Note: Does not count toward graduation.

MATH 1010 - Intermediate Algebra

Credits: (4-5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $76.00
Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.

Description: Inequalities (including absolute value and systems), systems of equations, applications, functions (inverse, exponential, and logarithmic), variation, factoring, rational expressions, radicals, complex numbers, quadratic equations, parabolas, circles, quadratic formula, formulas, properties and applications of logarithms. The course fee for this course includes homework software and math assistance from tutoring services.
Pre-requisite(s): MATH 0990 or Level 3 placement.

MATH 1020 - Fundamentals of Geometry

Credits: (3)
Description: An introduction to the definitions, methods, and logic of geometry.
Pre-requisite(s): MATH 0990 or placement test.
Note: This course is offered as needed.

MATH 1030 QL - Contemporary Mathematics
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: Topics from mathematics which convey to the student the beauty and utility of mathematics, and which illustrate its application to modern society. Topics include geometry, statistics, probability, and growth and form.
Pre-requisite(s): MATH 0970 or MATH 1010 or ACT Math score 21 or higher or placement test.

MATH 1035 QL - Contemporary Mathematics with Prerequisite Topics

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course will center on topics including: proportional reasoning, financial mathematics, linear and exponential modeling, geometry, probability and statistics. Material will be introduced in the form of real-life problems. Pre-requisite material will be incorporated as appropriate.
Pre-requisite(s): MATH 0950 or ALEKS score of 14 or instructor approval.

MATH 1040 QL - Introduction to Statistics

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: Basic concepts of probability and statistics including data collection and analysis, correlation and regression, probability, discrete and continuous distributions (binomial, normal and t distributions), estimation and hypothesis testing, with an emphasis on applications and understanding of the main ideas.
Pre-requisite(s): MATH 1010, Math ACT score 23 or higher, Placement Test, MATH 1050, MATH 1080, or MATH 1210 and above.

MATH 1050 QL - College Algebra

Credits: (4)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: This course covers a survey of college mathematics and is also a preparatory course for calculus. Topics from continuous mathematics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems. Topics from discrete mathematics include matrices, matrix algebra and inverses, and determinants.
Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1060 QL - Trigonometry

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course is true to its Greek title root "triangle-measure" and is a preparatory course for calculus. Topics include trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. Complex numbers, polar coordinates and vectors are also introduced.
Pre-requisite(s): MATH 1010 or MATH 1050 or Math ACT score of 23 or higher or placement test.

MATH 1080 QL - Pre-calculus

Credits: (5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This is an accelerated course that covers the main topics of College Algebra and Trigonometry. It is a single course prerequisite to calculus and is primarily for those students that need a review. Topics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems; matrices, matrix algebra and inverses, determinants, sequences and series; trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. In addition, conics and polar coordinates are also covered.

Pre-requisite(s): MATH 1010 or Math ACT score of 23 or higher or placement test.

MATH 1090 QL - Business College Algebra

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Concepts and applications of functions and graphs, polynomial and rational functions, matrices, Gaussian elimination, exponential and logarithmic functions, growth, periodic and continuously compounded interest, arithmetic and geometric series, annuities and loans. Applications mainly to business and economic problems.

Pre-requisite(s): MATH 1010 with a grade of C or better or ACT math score of at least 23, or placement test. Math prerequisites (courses and test scores) expire after 24 months (see www.weber.edu/placement/math-details.html).

MATH 1110 QL - Calculus Concepts and Applications

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A conceptual understanding of the fundamental notions of calculus (limits, continuity, differentiation and integration). Application of these ideas to economics, the social and life sciences, and natural resource modeling is central to the course.

Pre-requisite(s): MATH 1050 QL or MATH 1080 QL or placement test.

MATH 1120 QL - Foundations of Data Science

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Students will acquire the knowledge and skills used in data science at an introductory level. The course will focus on interaction between statistical and mathematical reasoning and their application to the collection, preparation, and presentation of data and underlying data management skill for such analysis. Access to a computer is required.

Pre-requisite(s): MATH 1010, or ACT math score of 23 or higher, or a placement test.

MATH 1200 - Mathematics Computer Laboratory

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Solving mathematics problems at the appropriate level for students' backgrounds using a computer algebra system.

Pre-requisite(s): MATH 1050 and MATH 1060, or MATH 1080, or MATH 1210.

Pre-requisite/Co-requisite: MATH 1210.

MATH 1210 - Calculus I

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Limits, continuity, differentiation, integration.
Pre-requisite(s): MATH 1050 and MATH 1060 or MATH 1080 or placement test.
Co-Requisite(s): The ability to use a computer algebra system.

MATH 1216 - Integral Calculus

Credits: (4)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Definite, indefinite, and improper integrals, transcendental functions, inverse functions, techniques of integration, applications of integration.
Pre-requisite(s): MATH 1210.

MATH 1220 - Calculus II

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Transcendental functions, techniques of integration, analytic geometry, infinite series.
Pre-requisite(s): MATH 1210.
Co-Requisite(s): The ability to use a computer algebra system.

MATH 1630 - Discrete Mathematics Applied to Computing

Credits: (4)
Description: An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include logic, proofs, sets, functions, counting, relations, graphs, trees, Boolean algebra, and models of computation. This course includes programming.
Pre-requisite(s): MATH 1050 or MATH 1080, and CS 1400 or ability to program in a contemporary computer language and the consent of the instructor.
Note: This course is offered as needed.

MATH 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MATH 2010 - Arithmetic for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including arithmetic, number theory, and problem solving.
Pre-requisite(s): ACT score of 23 or better, Accuplacer CLM of 50 or better, MATH 1010 with a C or better, MATH 0970 with a C or better or completion of any math course MATH 1030 or above with a C or better.

MATH 2015 - Algebra for Elementary Teachers

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including variables, expressions, equations and inequalities, and functions. This course includes recitation and hands on activities. The goal is to present mathematical concepts and effective teaching strategies in an integrated manner. Underlying goals are to stimulate variety in solution processes, provide concrete, pictorial and abstract models, develop communication, collaboration and math reading skills in an environment rich with manipulatives and technology.
Pre-requisite(s): MATH 2010.

MATH 2020 QL - Geometry for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Prospective elementary school teachers revisit mathematics topics from the elementary school curriculum and examine them from an advanced perspective including probability, statistics, geometry and measurement.
Pre-requisite(s): MATH 2015

MATH 2120 - Euclidean Geometry

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Exploration of Euclidean geometry, from basic concepts to advanced theorems.
Pre-requisite(s): MATH 1210 or consent of instructor.

MATH 2210 - Calculus III

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Vector algebra, vector valued functions, multivariable functions, partial derivatives, multiple integrals, line integrals, integration in vector fields.
Pre-requisite(s): MATH 1220.

MATH 2250 - Linear Algebra and Differential Equations

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Introduction to Linear Algebra and Differential Equations. Systems of linear equations, matrices, vector spaces, eigenvalues. First and second order differential equations and models, higher order linear equations, linear systems.
Pre-requisite(s): MATH 1220.

MATH 2270 - Elementary Linear Algebra

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Systems of linear equations, matrices, vector spaces, eigenvalues linear transformations, orthogonality.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 2280 - Ordinary Differential Equations

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Methods of solution for ordinary differential equations. Exact equations, linear equations Laplace Transforms, series solutions.

Pre-requisite(s): MATH 1220.

MATH 2410 - Foundations of Probability and Statistics

Credits: (3)
Description: An introduction to probability and statistics with special emphasis on concepts in the K-12 school curriculum.
Pre-requisite(s): MATH 1210 or MATH 1050 and consent of instructor.
Note: This course is offered as needed.

MATH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

MATH 2925 - Mathematics Monday

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A high impact mathematical educational experience through diverse topics and methods of learning.

To form a mathematical community for appreciation and dissemination of mathematics. To develop skills of independent learning, critical thinking, effective verbal and written communication skills, and working within a group.

Learning Outcomes:
1. Exposure to a variety of mathematical topics.
2. Opportunity for mathematical and interpersonal growth.
Topics not typically covered in standard mathematics courses. Topics and activities are at the discretion of the instructor.
Pre-requisite(s): MATH 1220 Calculus II with a grade of C or better.
This course may be taken three times for a total of 3 credit hours.

MATH 2990 - Seminar in Mathematics

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Joint sessions of students and faculty dedicated to the discussion of topics in mathematics and mathematics education. Students will attend seminars, participate in discussions, and write reviews of the presentations.
Pre-requisite(s): MATH 1210 and ENGL 2010, or consent of instructor.
The course may be taken 5 times and up to 6 credits.

MATH 3050 - History of Mathematics

Credits: (3)
Description: A survey of the history of mathematics and its impact on world culture with emphasis on mathematical motivations, original methods and applications.
Pre-requisite(s): MATH 1220.
Note: Check with Department for course availability.

MATH 3110 - Foundations of Algebra
Credits: (3)
TypicallyTaught Spring Semester: Full Sem
Description: An introduction to Abstract Algebra, Number Theory and Logic with an emphasis on problem solving and proof writing.
Pre-requisite(s): MATH 1210.

MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Axiomatic development of geometry; Euclidean and non-Euclidean.
Pre-requisite(s): MTHE 2120 or instructor consent.

MATH 3160 - Number Theory

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: An overview of beginning number theory including the integers, modulo arithmetic, congruencies, Fermat's theorem and Euler's theorem.
Pre-requisite(s): MATH 1210.

MATH 3270 - Linear Algebra

Credits: (3)
Typically Taught Spring Semester: Full Sem, alternate years
Description: Theory and applications of linear algebra including abstract vector spaces and canonical forms of matrices.
Pre-requisite(s): MATH 2270.

MATH 3280 - Dynamical Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem, alternate even years
Description: Linear and nonlinear systems of differential equations, qualitative behavior and stability of solutions, applications.
Pre-requisite(s): MATH 2270 and MATH 2280.

MATH 3410 - Probability and Statistics I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introductory probability theory and mathematical statistics, including applications.
Pre-requisite(s): MATH 1220.

MATH 3420 - Probability and Statistics II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A continuation of MATH 3410-Introductory probability theory and mathematical statistics, including applications.
Pre-requisite(s): MATH 2210 and MATH 3410.

MATH 3450 - Advanced Statistical Methods

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This applied statistics course discusses study design, data exploration and visualization, choosing among statistical techniques, and the interpretation of statistical results. Analyses, including T-tests, ANOVA, regression and their non-parametric
versions, will be performed on real-world data sets using statistical software.

**Pre-requisite(s):** MATH 3410 or MATH 1040 and a three credit 3000 or 4000 level course with one of the following designations: MATH, BTNY, CHEM, PHYS, GEO, MICR, ZOOL, CS, ECE, ME, FIN, ECON. Students may also enroll with permission of instructor.

**MATH 3550 - Introduction to Mathematical Modeling**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Formulation, solution and interpretation of mathematical models for problems occurring in areas of physical, biological and social science.
**Pre-requisite(s):** MATH 1200 and (MATH 2270 or MATH 2280).

**MATH 3610 - Graph Theory**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem, odd years
**Description:** Principles of Graph Theory including methods and models, special types of graphs, paths and circuits, coloring, networks, and other applications.
**Pre-requisite(s):** MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

**MATH 3620 - Enumeration**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem, even years
**Description:** Principles of Enumeration including counting principles, generating functions, recurrence relations, inclusion-exclusion, and applications.
**Pre-requisite(s):** MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

**MATH 3710 - Boundary Value Problems**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Fourier series and the method of separation of variables. Heat, wave, and potential equations, Sturm-Liouville problems, orthogonal functions, special functions.
**Pre-requisite(s):** MATH 2210 and [ MATH 2250 or MATH 2280 ].

**MATH 3810 - Experimental Course**

**Credits:** (1-6)
**Experimental**
**Typically Taught Fall Semester:** Full Sem, odd years
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

**MATH 4010 - Capstone Mathematics for High School Teachers**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Prospective high school teachers revisit mathematics topics from the secondary school curriculum and examine them from an advanced perspective. The major emphasis is on topics from algebra and geometry.
**Pre-requisite(s):** MATH 3110 and MATH 3120.

**MATH 4110 - Modern Algebra I**
MATH 4120 - Modern Algebra II

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Logic, sets, and the study of algebraic systems including groups, rings, and fields.
Pre-requisite(s): MATH 2270 and MATH 3110.

MATH 4160 - Introduction to Mathematical Cryptography

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: A continuation of MATH 4110: advanced topics from groups, rings, and fields including the Sylow theorems and Galois theory.
Pre-requisite(s): MATH 4110.
Note: This course is offered as needed.

MATH 4210 - Introductory Real Analysis I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.
Pre-requisite(s): MATH 2210, MATH 2270, and MATH 3110.

MATH 4220 - Introductory Real Analysis II

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A continuation of MATH 4210-Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier Analysis.
Pre-requisite(s): MATH 4210

MATH 4320 - Topology

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: Introduction to point-set topology, including metric and topological spaces, continuity, homeomorphisms, compact and connected spaces, and complete metric spaces. Other topics may include the Baire Category Theorem and Tietze Extension Theorem.
Pre-requisite(s): MATH 2210, MATH 2270 and MATH 3110.

MATH 4400 - Statistical Analysis of Big and Small Data

Credits: (3)
Description: This course combines and develops the knowledge and skills used in big and small data using both theory and application. The course deals with methods to analyze data with varying volume, velocity, and variety and their associated challenges. Topics such as data mining, predictive analytics, heteroskedasticity of data, and data visualization will be explored.
Pre-requisite(s): MATH 3410 or (MATH 1220 and MATH 1040),
Pre-requisite/Co-requisite: CS 1400 or CS 2550.
Note: This course is offered as needed.
MATH 4610 - Numerical Analysis I

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MATH 2270 and an ability to use a programming language

MATH 4620 - Numerical Analysis II

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A continuation of MATH 4610-Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MATH 4610

MATH 4710 - Partial Differential Equations

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: Partial differential equations. First and second order equations, characteristics and classifications, methods of solution, applications.
Pre-requisite(s): MATH 3710.

MATH 4750 - Topics in Mathematics

Credits: (2-4)
Variable Title
Description: This course will vary with the demand.
Pre-requisite(s): Consent of the instructor.
May be taken more than once for a maximum of 8 credit hours.
Note: This course is offered as needed.

MATH 4910 - Senior Research Project

Credits: (3)
Description: Mathematical research project for seniors. Students may not register for this course the last semester before they intend to graduate.
Pre-requisite(s): Instructor approval.
Note: This course is offered as needed.

MATH 4920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Note: This course is offered as needed.

MATH 4925 - Problems, Journals, and Research in Mathematics

Credits: (1)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Description: Development and demonstration of independent learning and communication skills through advanced problems solving, presenting journal articles, or undergraduate research under guidance of an advisor.
Pre-requisite/Co-requisite: MATH 2925
This course may be repeated once for a total of 2 credit hours.

MATH 6400 - Advanced Statistical Learning

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Students will learn about Statistical Learning and Data Science which are so widely used in the technology sector and beyond. You will learn about common statistical methods and algorithms used by Amazon, Facebook, and Google to make predictive models for data. This course will have an emphasis on modeling (numeric and non-numeric) data, model selection, and neural networks.
Pre-requisite(s): Admission to the Masters of Data Science program or permission of instructor.

MATH 6450 - Applied Statistics & Regression

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Students learn the knowledge and skills necessary for applied statistical analysis. These methods allow focus typically on a selection of advanced regression analysis, missing data, categorical data analysis, time series in relation to regression, colinear data, and model and variable selection. This course also focuses on Applied Statistics & Regression in the context of both a statistical and data scientist view point as this course is part of the Masters of Data Science.
Pre-requisite(s): Admission to the MSDS, permission of instructor, or one of following courses: MATH 3450 or MATH 3410 or MATH 4400 or CS 3580.

MATH 6500 - Factor and Cluster Analysis

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Students learn the methodology used in big data applications, learn how to make sense out of large data, understand how to analyze survey data with factor analysis, determine distinct groups with the data using cluster analysis, and understand relationships within data. The course will make use of statistical analysis software, and students will be expected to understand both the results of the output and theoretical considerations of the analysis.
Pre-requisite(s): Admission to the MSDS or [MATH 2270 and (MATH 3450 or MATH 3410 or MATH 4400 or CS 3580)] or permission of instructor.

MATH 6900 - Capstone in Statistics and Data Science

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students are required to complete a substantial statistical or data science project. Students must demonstrate proficiency in data analysis, presentation, solving an applied data problem. Students receive T (temporary) grades until successful completion of the project and dissemination, after which the course grade will be changed retroactively.
Pre-requisite(s): Admission to the MSDS and permission of instructor.

MATH 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Admission to the Mater of Data Science and permission of instructor.
May be repeated for a total maximum of 6 credit hours.
MBA 6010 - Legal and Regulatory Environment of Business

Credits: (3)
Typically Taught Spring Semester: 2nd Blk
Description: This course is an introduction to business law, emphasizing basic legal principles and the broad application of domestic and international public and private law. Its overriding objective is to provide a working understanding of the legal environment of business for MBA students. Its focus is on regulatory law, business organizations, and other legal topics of special importance to managers of businesses.
Note: Course offerings are subject to change.

MBA 6020 - Financial and Managerial Accounting

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Description: A general study of the use of accounting information by internal and external decision makers with emphasis on the use of accounting information by managers of an entity. Topics covered include the accounting cycle, the basic financial statements, inventories, long-term liabilities, cost concepts and behaviors, cost-volume-profit analysis, and financial statement analysis.
Note: Course offerings are subject to change.

MBA 6040 - Managerial Economics

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Description: This course develops the basic concepts and analytical tools of economics which include opportunity cost, marginal analysis, constraints, and optimizing behavior. Applications include theories of the firm, its organizational architecture, transactions costs, markets, pricing, and other managerial issues.
Note: Course offerings are subject to change.

MBA 6050 - Quantitative Methods I

Credits: (3)
Typically Taught Fall Semester: 1st Blk-Online
Course Fee: $40.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures such as tutoring for statistics (MBA 6050/6051) courses and paper/toner and small repairs in the MBA computer lab.
Description: This class will give students the opportunity to learn how to write, read, and analyze statistical data as it pertains to business and society. The basic premise of this course is to provide the student with an understanding of statistics as it is used in business and economics. This course will give special emphasis to understanding, interpreting and communicating statistics. Topics covered include descriptive statistics, probability, probability distributions, sampling distributions and hypothesis testing.
Pre-requisite(s): Additional course work in College Algebra may be required prior to course registration as per department advisement and student's program of study requirements.
Note: Course offerings subject to change.

MBA 6051 - Quantitative Methods II

Credits: (3)
Typically Taught Fall Semester: 2nd Blk
Course Fee: $40.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures such as tutoring for statistics (MBA 6050/6051) courses and paper/toner and small repairs in the MBA computer lab.
Description: This course will build on the first foundation course on descriptive statistics by emphasizing inferential statistics. This course will be application oriented and will focus on hypothesis testing and regression analysis. Students will learn how to design a survey and evaluate the data in order to test theories learned in other MBA classes. Students will also learn basic concepts and methods of optimization using elementary concepts in differential calculus. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6050, or equivalent course in statistics.
Note: Course offerings are subject to change.
MBA 6110 - Fundamentals of Ethical Leadership

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 1st Blk
Course Fee: $84.00
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MBA conference room, MBA student computer lab, and hybrid/virtual classrooms, guest speaker costs, software licenses, and program assessment materials.
Description: This course is designed to be taken at the beginning of formal course work in the MBA program. Students will explore various aspects of moral reasoning and apply these concepts to common ethical issues faced in business. Students will work individually and in groups to explore issues of personal values, self-awareness, teamwork, communication, managing differences, and career management. Students in this course will be introduced to analytical, communication, and technological tools used throughout the program.
Note: Course offerings are subject to change.

MBA 6120 - Organizational Behavior

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This is a course for graduate students who have already been exposed to the principles of management and organizational behavior and who are now seeking a more advanced preparation for the behavioral role of the manager. It offers a critical review of the factors that influence behavior within the organizational setting. Behavioral concepts are emphasized which particularly relate to group dynamics, interpersonal relations, and ultimately, organizational effectiveness. In short, this course deals with the human aspects of management—the kinds of problems most frequently experienced in day-to-day interaction with others. The format will include discussions, group and individual exercises, case studies, and student reports.
Note: Course offerings are subject to change.

MBA 6130 - Financial Management

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: Financial Management is a detailed presentation of the practices, techniques, and applications of theory in corporate finance. The focus is an understanding of how companies operate and acquire the tools necessary to analyze and evaluate corporate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues. The purpose of the course is to assist current and prospective managers in making better investment and financing decisions. The course addresses (1) the investment decision (capital budgeting) as well as (2) the financing decision. Class discussion and cases will focus on capital budgeting and specifically on the establishment of goals, development of strategy, identification of investment opportunities, evaluation of projects, implementation of projects, and the monitoring processes. Shareholder wealth maximization is the standard for determining why one decision is "better" than another. The ethical considerations of wealth maximization will also be addressed. Additional foundation course work in accounting and statistics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6020 and MBA 6050 and MBA 6051, or equivalent courses in accounting and statistics.
Note: Course offerings are subject to change.

MBA 6140 - Marketing Management

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course centers on creating customer value profitability in competitive markets. In an integrative fashion, it covers analyzing customer needs and preferences; estimating market potential; assessing market opportunities and threats in view of the focal company's and its competitors' resources and capabilities; developing market and marketing strategies; making astute product, pricing, distribution, and promotion decisions; and measuring marketing performance. Pedagogical vehicles include lectures, reading assignments, and case-based discussions and reports.
Note: Course offerings are subject to change.
MBA 6150 - Operations/Supply Chain Management

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: "Manufacturing of the future will be required to meet customer-driven demand instantaneously." The future is now! The requirements for faster response, more customer input, and greater product variety have not diminished, but instead have escalated. This course builds upon basic production and operations management knowledge to meet the needs of customers generated in today's global market. It is designed to enhance the student's understanding of how to analyze problems related to design, planning, control, and improvement of manufacturing and service operations. Topics include, but are not limited to, supply chain management, materials management, production planning and control, scheduling, capacity and facilities planning, manufacturing strategy, and global operations. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6050 and MBA 6051, or equivalent courses in statistics.
Note: Course offerings are subject to change.

MBA 6160 - Applications of Decision Models

Credits: (3)
Typically Taught Fall Semester: 2nd Blk
Description: This course presents a rigorous treatment of quantitative decision-making with emphasis on data collection, analysis, and model building. This course emphasizes experience in structuring realistic business problems, collecting data, developing an appropriate model for analysis, and interpreting and defending results. A number of cases are employed. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6050 and MBA 6051, or equivalent courses in statistics.
Note: Course offerings are subject to change.

MBA 6170 - Corporate Communications

Credits: (3)
Description: The focus of this course is to develop an integrated corporate communications program in organizations which will provide effective communication both to internal and external stakeholders. Among the topics to be discussed are corporate image and identity, corporate advertising and advocacy, media relations, marketing, communication, financial communication, community relations, corporate philanthropy, government affairs and crisis communication. Attention will also be given to effective communication internally through various methods, such as meetings, programs and publications.
Note: This course is not currently offered.

MBA 6180 - Strategic Management

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course takes a broad view of the entire organization. In some instances, the organization will have one line of business. In other cases, the organization may be a large diversified corporation with many lines of business. We will examine the strategic issues facing diversified corporations including: vertical integration, diversification into related and unrelated businesses, and operating synergies.
Pre-requisite(s): MBA 6130, MBA 6140, MBA 6150, MBA 6110.
Note: Course offerings are subject to change.

MBA 6210 - Management Accounting and Control

Credits: (3)
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 2nd Blk
Description: This course is designed to introduce the student to the concepts and procedures of managerial accounting through readings and case studies. The course emphasizes the use of accounting data in the decision-making process by internal decision-
makers (e.g., management), rather than external decision-makers (e.g., stockholders, investors, creditors, and regulatory bodies). The course topics include cost terms and concepts, job-order costing, activity-based costing, quality management, cost behavior, cost-volume-profit analysis, profit planning, relevant costs, capital budgeting, cost allocation, and pricing. Additional foundation course work in accounting may be required prior to course registration as per department advisement and student's program of study requirements.

**Pre-requisite(s):** MBA 6020, or equivalent courses in accounting.

Note: Course offerings are subject to change.

**MBA 6260 - Data Visualization Using Tableau**

**Credits:** (3)
**Typically Taught Summer Semester:** 1st Blk, 2nd Blk
**Typically Taught Fall Semester:** 1st Blk, 2nd Blk
**Typically Taught Spring Semester:** 1st Blk, 2nd Blk

**Description:**
This course will provide a solid foundational understanding of data visualization with plenty of opportunities to practice and develop visualization skills. This course aims to provide students with a foundational understanding of data visualization and enable them to think through and interact with big data. The overall goal of the course is to teach problem-solving and analysis skills that can be applied to any type of data with any of the numerous tools available.

**MBA 6310 - Information Technology in the Enterprise**

**Credits:** (3)
**Typically Taught Summer Semester:** 1st Blk
**Typically Taught Fall Semester:** 2nd Blk

**Description:** Information technology from an enterprise perspective with an orientation toward the management of technology for competitive/strategic advantage. Managers will be increasingly responsible for making decisions with respect to implementing new technology. This course will provide the background knowledge to enable managers in traditional business units to function as full participants in decisions involving the purchase and application of technology to create a business advantage.

Note: Course offerings are subject to change.

**MBA 6360 - Aerospace Program Management**

**Credits:** (3)
**Typically Taught Summer Semester:** 1st Blk

**Description:** Within the context of the aerospace industry, students will be taught how to manage change across multiple projects using program management techniques. In organizations in which multiple strategic initiatives as well as continuous improvement projects are ongoing, understanding how to successfully plan and execute is vital.

Note: Course offerings are subject to change.

**MBA 6370 - CPI & Strategy in Aerospace Management**

**Credits:** (3)
**Typically Taught Spring Semester:** 2nd Blk

**Description:** This management course is designed to teach aerospace business managers how to use the tools in Continuous Process Improvement (CPI) to attain and maintain operational excellence. The course includes relevant CPI tools such as Lean, Six Sigma, Theory of Constraints and Benchmarking. The course will also show managers how to conduct a strategic planning session with senior leadership and strategically align their organizations to maximize the use of CPI tools.

**Pre-requisite(s):** Admission to the MBA Program or approval to seek the stand-alone Graduate Certificate in Aerospace Management. This course is an elective for all MBA students, but is a required course for students seeking the Graduate Certificate in Aerospace Management. Students must complete prerequisites of MBA 6050, 6051 and MBA 6150 prior to registering for this course.

Note: Course offerings are subject to change.

**MBA 6410 - Global Macroeconomic Conditions**
MBA 6420 - The Economics of Industry

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course will focus on the impact of global macroeconomic conditions on firm decision-making. To review and analyze current macroeconomic topics, a theoretical framework is developed, from the start showing the linkages among national economies. This framework is used to analyze and forecast business cycles, interest rates, exchange rates, causes of trade deficits, short- and long-term consequences of fiscal and monetary policy decisions, and the globalization of financial markets. Examples from different countries are used to enhance knowledge of the world economy. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6040, or equivalent course in economics.
Note: Course offerings are subject to change.

MBA 6430 - International Marketing

Credits: (3)
Typically Taught Spring Semester: 1st Blk
Description: The course provides foundational knowledge and practical application of international marketing principles and practices so as to prepare participants for entry-level marketing positions in the global context.
Note: Course offerings are subject to change.

MBA 6440 - Strategic Leadership

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Description: This course will expose students to the strategic nature of leadership. Students will evaluate and discuss key principles and frameworks of leadership through the case method. Students will study leadership styles, situational leadership, personal leadership, and power & influence, as they relate to strategy.
Note: Course offerings are subject to change.

MBA 6450 - Leadership Through People Skills

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course will provide a highly applied introduction to the interpersonal dynamics of leading and motivating others. Emphasis will be placed on the development and acquisition of key behaviors, skills, techniques and mental models for influencing others through sound people skills. By means of hands-on application, role-playing and "learning-by-doing" activities, students will learn to listen for understanding and insight; gain commitment rather than compliance; manage conflict; adapt their style to different people; apply influence skills in all directions; and develop insights into their impact on others.
Note: Course offerings are subject to change.
MBA 6460 - Advanced Leadership

Credits: (3)
Typically Taught Summer Semester: 1 Blk, 2nd Blk
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2 Blk
Description: This course takes a character and values-based focus to developing students' understanding of and capacity for effective leadership. Covered concepts include: identifying and understanding one's own core values and capabilities; a deeper understanding of leadership as it pertains to power, influence and motivation; and the socio-psychological aspects of successfully leading and interacting with others. The course also includes a deeply immersive experiential component whereby students are coached through a self-guided development planning and application process focused on improving on a leadership competency that is mutually selected by the student and instructor. An in-depth personal exploration of each student's unique leadership capabilities and growth opportunities is central to the learning objectives for this course.
Pre-requisite(s): MBA 6120

MBA 6510 - Investment Analysis and Portfolio Management

Credits: (3)
Description: This course engages class participants in a detailed study of the practices, techniques, policies and applications of theory in investments. Emphasis will be on an understanding of security markets, analysis, asset allocation, portfolio management and evaluation. Students will examine and apply investment tools and evaluate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues and current topics. Course work in finance may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6130.
Note: This course is not currently offered.

MBA 6520 - International Business Field Studies

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Description: This course integrates international travel and site visits with the study of international business topics. Through readings, assignments, discussions, and visits to important business and cultural sites in the destination countries, the course builds understanding and competence in international business practices and managing across cultures. This course entails travel expenses beyond regular tuition and may be repeated when offered to a different world region.
May be repeated 3 times with a maximum of 9 credit hours.
Note: Course offerings are subject to change.

MBA 6530 - E-Business

Credits: (3)
Typically Taught Spring Semester: 2nd Blk
Description: The Internet has become an important influence in the world. Business on the internet, in terms of operations, marketing, security, etc., has increased concomitantly in influence. This course will provide a foundation for understanding the possibilities and potential pitfalls for doing e-business.
Note: Course offerings are subject to change.

MBA 6540 - Negotiations

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Description: The purpose of this course is to provide opportunities for class participants to develop their negotiating abilities for use in organizational and other settings. The course is premised on the assumption that negotiating concepts are best learned through practice which is grounded in rigorous analysis and reflection. While theoretical principles and concepts from various reference disciplines (such as social psychology, sociology, and economics) will be presented through lectures and readings, this course will focus primarily on improving practical skills. Class participants will not only learn to enhance their individual abilities in dyadic and group situations, but also to analyze contexts for the most effective application of these skills.
Note: Course offerings are subject to change.
MBA 6550 - Managing and Improving Quality

Credits: (3)
Description: This course examines how organizations can gain competitive advantage by improving the quality and productivity of their business processes, manufactured goods and service outputs. Customer-focused approaches for designing, controlling and improving processes are emphasized, together with other concepts and approaches of quality management. Specific topics include process analysis, problem-solving methods, variability and statistical process control, performance measurement, and quality management systems. Guest lectures from industry professionals, experiential learning exercises and cases from manufacturing and service industries will assist students in understanding key issues and current topics.
Pre-requisite(s): MBA 6050&nbs;& MBA 6051, or equivalent courses in statistics.
Note: Courses offered as needed.

MBA 6560 - Business/Market Planning Using Online Resources

Credits: (3)
Description: In this hands-on project-oriented course, students learn to (1) develop and write effective business/marketing plans and (2) use online resources to gather pertinent market, competitor, and environmental information. Students may develop a business/marketing plan for an existing business or for a potential start-up of interest to them. Alternatively, they may write a business/marketing plan and conduct requisite research and data analyses for a business suggested by the course instructor. Learning is facilitated primarily via practical discovery exercises, an extensive term project, and coaching. Although lectures and reading assignments serve to convey essential background knowledge, especially during the first half of the course, much class time is devoted to working on plans in teams under the instructor's guidance.
Note: This course is not currently offered.

MBA 6580 - Project Management

Credits: (3)
Typically Taught Spring Semester: 1st Blk
Description: This course is a study of topics involved with managing projects. It examines the roles and skills of the project manager and the project office. Students will study the phases of the project life cycle, specifically the activities, requirements, methodologies, and tools common in project management.
Note: Course offerings are subject to change.

MBA 6590 - Strategic Business Tax Planning

Credits: (3)
Description: This course examines tax strategy and planning topics related to making important business decisions. The course addresses business formations, operations, terminations, reorganizations, acquisitions, and divisions. The course also covers tax issues related to multi-state and multi-national business transactions. Unique issues related to executive compensation, partnerships, limited liability companies, S corporations and C corporations are also addressed.
Pre-requisite(s): MBA 6010 or equivalent course in business law; MBA 6020 or equivalent courses in accounting.
Note: This course is not currently offered.

MBA 6620 - Data Mining for Business

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk
Description: The broad availability of data, either within organization or about market trends, has led to increasing interest in the methods for extracting useful information and knowledge from data. This course will change the way you think about data and its role in organization. We will examine how data mining technologies can be used to improve decision-making. We will study the principles and techniques of data mining, and we will examine real-world examples and cases to place data-mining techniques in context, to develop data-analytic thinking, and to illustrate that proper application is as much an art as it is a science.
Pre-requisite(s): MBA 6050 & MBA 6051 or equivalent courses in statistics or instructor approval.
MBA 6630 - Networking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the role of networking technology in information systems. Through hands-on and conceptual knowledge, students will learn how data communications and networks are used to facilitate decentralized and distributed systems in support of decision making. Various aspects of networking including standards, media, network design and applications will be covered. Students will gain hands-on familiarity with a local area network and the Internet.
Pre-requisite(s): Admittance to MACC, MBA or MHA program.
Note: Course offerings are subject to change.

MBA 6640 - Cyber Security

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the basic principles and concepts in information assurance. It examines the managerial, operational, and organizational issues of securing information systems. Topics include legal and ethical issues in computer security; privacy concerns; malware; security awareness at the executive, technical and user levels; physical security, personnel security issues; policies and procedures; the need for enterprise security awareness; and the need for an enterprise security organization. Case studies and exercises in the computer lab will be used to provide examples of the need for organizations to develop security procedures and policies.
Pre-requisite(s): Admittance to MACC, MBA or MHA program.
Note: Course offerings are subject to change.

MBA 6650 - Penetration Testing

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Description: This course looks at how penetration testing can help improve information security within organizations. This course will discuss issues related to ethical hacking, scanning, enumeration, systems hacking, social engineering, malware, vulnerability analysis, session hijacking, denial of service attacks, Web attacks, IDS, cryptographic attacks, and IoT vulnerabilities.
Pre-requisite(s): MBA 6640 or instructor approval.

MBA 6660 - Forecasting and Time Series

Credits: (3)
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk
Description: This course is intended to provide students with applied interest with up to date techniques used in the forecasting of time series. These techniques will be motivated by specific practical problems and will be used in forecasting practices. Although the flavor of this course will be mainly applied, we will need to review and develop some technical background. The emphasis of the class is on practical application and computer implementation.
Pre-requisite(s): MBA 6050 & MBA 6051 or equivalent courses in statistics or instructor approval.

MBA 6670 - Cloud Computing

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Description: Cloud computing is widely used by nearly all organizations to store and process data, host applications, and scale growth effectively. This course will look at how cloud providers (AWS) operate. It will also discuss issues related to security, maintenance, scalability, cost effectiveness, service models, architecture, and deployment models.

MBA 6680 - Graduate Consulting Project
Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Graduate students are given the opportunity to consult with an existing organization, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.

Pre-requisite(s): Instructor approval.

Note: Course offerings are subject to change.

MBA 6700 - Managing for Sustainability

Credits: (3)

Description: This course explores how business organizations can address environmental issues to meet societal needs and create competitive advantages. Emphasis is placed on understanding the impacts of businesses on the natural environment; identifying the opportunities for businesses to align their strategies and practices toward more sustainable business models; and using various methods and tools for measuring and improving the environmental performance of individual business organizations and the business system as a whole. Major topics include frameworks for understanding business and environmental sustainability; innovation, design and assessment of green products/services; green marketing issues; green purchasing; environmental management systems; operations and supply chain management issues for environmental sustainability.

Pre-requisite(s): Admission to MBA program; or graduate standing with permission of the MBA program.

Note: This course is not currently offered.

MBA 6710 - Accounting and Finance for Environmental Sustainability

Credits: (3)

Description: This course will expose MBA students to contemporary accounting and finance thought on environmental sustainability. The course will be divided into accounting and finance modules. The focus of the accounting module will include measurement and reporting of the environmental sustainability of business practices. The focus of the finance module will include capital budgeting for sustainability, financial assessment of sustainable business practices, and investing in environmental sustainability.

Note: This course is not currently offered.

MBA 6715 - Sustainability Tools and Methods

Credits: (3)

Description: This hybrid 8-week course consists of weekly modules, each of which addresses key aspects of sustainability-related business practices. Weekly topics are designed to explore in more depth specific sustainability-related tools and methods as they relate and add value to various aspects of business operations, including finance, accounting, supply chain management, information technology, stakeholder relations, and strategic planning. Secondly, students will gain an overview of the tools, techniques and bodies of knowledge through which they may pursue sustainability-related projects or entrepreneurship within their organizations. The course will utilize sustainability practitioners and subject-matter experts from a variety of organizational backgrounds.

Pre-requisite(s): MBA 6700; Admission to the MBA Program or Graduate Certificate in Sustainability in Business.

Note: This course is not currently offered.

MBA 6720 - Business, Economics, and the Environment

Credits: (3)

Description: Environmental economics considers the efficient and equitable use of society's scarce environmental resources. Environmental resources include air, water, land, wildlife, biodiversity, and ecological systems. The allocation of environmental resources will be considered from different perspectives: (1) market allocations; (2) efficient allocations; (3) equitable allocations; and (4) government attempts to allocate these resources efficiently. Topics of the course include property rights, market failures, benefit-cost analysis, welfare economics, non-market valuation, environmental regulation, and sustainable development and business practices. Emphasis will be placed on the impacts on the firm resulting from environmental problems and regulations; and on sustainable business practices.

Pre-requisite(s): MBA 6040, MBA 6051 or equivalent.

Note: This course is not currently offered.
MBA 6730 - Consulting Project in Sustainability

Credits: (3)
Description: Graduate students are given the opportunity to consult with an existing organization, evaluate sustainable business practices, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.
Pre-requisite(s): Instructor approval and MBA 6700, MBA 6710, and MBA 6720.
Note: This course is not currently offered.

MBA 6740 - Principles of Contract Management

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Description: Students will gain an overview of the fundamentals of contract management from the development of acquisition requirements, solicitation/proposal, negotiation, contract formation, contract performance, and contract closeout. Learn the basics of what it takes to solicit, procure, negotiate and administer contracts and subcontracts while gaining a broad understanding of business principles to establish long-term relationships with customers, suppliers and other stakeholders. Explore an insider's view of the roles and responsibilities of contract administrators and the various interfaces with program management and other internal disciplines. Learn how to identify the basic differences between contract types and how they are selected to mitigate risk in a contractual environment, as well as exploring the key distinctions between commercial, government and international contracting processes.
Note: Course offerings are subject to change.

MBA 6750 - Financial Aspects of Contract Management

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Description: Within the context of contract management, students will learn how to structure cash flow through financial methods that include invoice timing, pricing, overhead considerations, advance payments, letters of credit and other financial sources. Gain a comprehensive knowledge of accounting systems, budgeting, reporting, auditing and settlements. Enhance the profitability of your business through prudent contracting financial practices.
Note: Course offerings are subject to change.

MBA 6760 - Legal Aspects of Contract Management

Credits: (3)
Typically Taught Fall Semester: 2nd Blk
Description: Within the context of contract management, students will gain a working knowledge of stakeholder requirements, applicable common law, Federal Acquisition Regulations (FAR), Uniform Commercial Code (UCC) and other local, state and federal regulations and law that must be adhered to throughout the contract management process. Students will learn the legal aspects of contract management with an emphasis on real world, day-to-day application. Students will explore all phases of managing an approved contract successfully through completion of performance including change management, communications, negotiations, contract types, terms and conditions, risks, defaults, terminations, claims and much more. Students will participate in projects and discussions to rapidly enhance knowledge and proficiency in contract management in order to apply classroom concepts in the workplace.
Note: Course offerings are subject to change.

MBA 6800 - Directed Study

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Directed individual study and research on special topics related to business.
Pre-requisite(s): Written approval of MBA program and instructor.
May be repeated for a cumulative total of three credits.
Note: Course offerings are subject to change.
MBA 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MBA 6850 - Business Development and Entrepreneurship

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Description: Students will learn how to effectively come up with an idea, iterate around that idea, and validate customers around their final direction so that they can learn how to successfully launch an idea into a business with low risk, low capital, and higher degrees for success. In addition, if a student is interested in learning how to be a better "intrapreneur" this course will help them use some of these same skills in a corporate or employee environment. Being innovative and creative is always valuable.
Note: Course offerings are subject to change.

MBA 6870 - Sales Strategy & Management

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk
Description: This course looks at advanced selling techniques or the skills that make a salesperson and/or business leader successful in large or complex sales. These sales differ from the simple sales because they involve high-value goods or services, a sophisticated customer or business executive, and there is a continuing relationship after the sale. This course will build managerial relationship-selling skills that can be used in many settings.

MBA 6890 - MBA Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: The Master's of Business Administration offers MBA students the opportunity to earn 1 to 3 elective credits for a work internship.
Pre-requisite(s): For requirements and guidelines, contact the MBA office.
May be repeated three times for a maximum of three credit hours.

MBA 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MCJ 6000 - Criminal Justice Statistics

Credits: (3)
Typically Taught Fall Semester: Full Sem-Online
Typically Taught Spring Semester: Full Sem-Online
Description: Criminal Justice Statistics is a focus on the role of data collection and analysis in formal, empirical research projects. The course begins with a review of statistical applications including measures of central tendency, dispersion, and hypothesis testing. The course concludes with an examination of more complex analytical tools such as MANOVA, Factor
Analysis, Path Analysis, and Logistical Regression. Students will review various styles of multivariate analysis in peer-reviewed scholarly literature as well as use computing resources to conduct their own multivariate analysis of a criminal justice dataset.

MCJ 6060 - Private Security

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Description: This course will examine the philosophical, practical, and legal basis of security. The role of security and the security of the individual in modern society, the concept of professionalism and the relationship to public law are reviewed. Personnel, physical, and administrative aspects to security are examined.

MCJ 6070 - Terrorism

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Course provides an overview of key research areas into terrorism, including the nature and conceptualization of terrorism, the individuals and groups that perpetrate terrorism, and counterterrorism and homeland security as responses to terrorism.

MCJ 6080 - Media and Crime

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This class uses a combination of criminal justice, sociology, and cultural studies to guide students as they examine the relationship between broad media (including social, movies, television, and music), and crime. Students will become familiar with the theoretical lenses used to assess media effects and cultural criminology. Crime and media construction, image, moral panics, and the impact of the internet on crime and deviance will also be explored.

MCJ 6090 - Ethics in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: Full Sem - Online
Description: An advanced course in ethics as it relates to law enforcement, courts, and corrections.

MCJ 6100 - Contemporary Criminal Justice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Course provides an analysis of the policies and practices of agencies of the criminal justice system including the police, prosecution, courts and corrections. Additionally, the latest technology and developments in the field of criminal justice will be addressed.

MCJ 6110 - Research Methods in Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Course teaches quantitative and qualitative research design, data collection and analysis techniques, and research presentation and dissemination methods. Descriptive and inferential statistics will be covered as well as basic computer applications in criminal justice.

MCJ 6120 - Theories of Crime and Delinquency
MCJ 6130 - Law and Social Control

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Course focuses on the nature of law and legal institutions and the relationships between law and social control. Concepts of law and justice from the perspectives of its effects on the American criminal justice system will be investigated as well as the public policy concerns of laws and their relationship to our society.

MCJ 6140 - Technology and Innovation in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Course explores the latest developments in technology and innovations in criminal justice. Included will be current developments in forensic science, i.e. DNA and the use of computer applications in criminal justice. Specific topics will be adjusted as new technologies arrive. Emphasis will be on impact and management rather than the strict science of the protocols.

MCJ 6150 - Diversity Issues in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Course will sensitize and educate criminal justice professionals to issues of diversity. It explores the cross-cultural contact that criminal justice professionals have with citizens, victims, suspects, and co-workers, and the influence of culture, race and gender in the criminal justice field.

MCJ 6160 - Criminal Justice Policy Analysis

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Course focuses on crime as a political issue and examines how conflicting political philosophies influence criminal justice policy. Emphasis will be placed on how decisions in politics affect criminal justice organizations and how these decisions can be influenced by executive managers.

MCJ 6170 - Juvenile Justice & Delinquency

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Course examines the origins and development of the juvenile justice system with particular emphasis on the current policies and practices of the agencies which process young offenders through the juvenile system. Course examines a variety of political initiatives designed to reduce the jurisdiction of the juvenile court, enhance the due process rights of juveniles, and create a more punitive approach in the juvenile justice system.

MCJ 6180 - Contemporary Legal Issues

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
**Description:** This course exposes students to current law impacting criminal justice professionals. Topics will change depending upon current legal developments, but will include the general areas of corrections, law enforcement, employment, civil liability and criminal procedure.

**MCJ 6190 - Legal Foundations of Criminal Justice**

Credits: (3)
Typically Taught Fall Semester: *Full Sem*

**Description:** Broad survey of foundational legal topics relevant to criminal justice, including: criminal law, search and seizure, bail, right to counsel, self-incrimination, lineups, responsibilities of courtroom legal actors, speedy trial, impartial jury, plea bargaining, double jeopardy, sentencing law, inmate rights, juvenile law, death penalty law, and basic rules of evidence.

**MCJ 6200 - Advanced Victimology**

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*

**Description:** This is a graduate-level seminar designed to provide an overview of key research areas in victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.

**MCJ 6210 - Judicial Administration**

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*

**Description:** Course exposes students to the dynamics of the American criminal courthouse. Students will examine how defense attorneys, defendants, prosecutors, judges, juries and others interact and contribute to America's version of criminal case disposition. Course also examines the mechanics of criminal case processing, as well as how the court system is supposed to work, how it really does work, and the implications for American democracy.

**MCJ 6220 - Contemporary Law Enforcement**

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*

**Description:** From the response and investigation of crimes committed, to the theory and practice involved in crime prevention, this course studies the development, theory, history and contemporary organizational structure of America's law enforcement organizations.

**MCJ 6230 - Contemporary Corrections**

Credits: (3)
Typically Taught Summer Semester: *Full Sem Online*
Typically Taught Fall Semester: *Full Sem Online*
Typically Taught Spring Semester: *Full Sem Online*

**Description:** Course provides an analysis of critical problems confronting contemporary adult corrections agencies. Course examines the problems of institutions, the effect of judicial intervention in corrections, alternatives to incarceration, and the political milieu in which this occurs.

**MCJ 6250 - Topics in Criminal Justice**

Credits: (1-3)

Variable Title
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Description: Course focuses on a special issue or topic in criminal justice. A new topic/issue will be selected each time the course is offered. May be repeated with a maximum of 10 credit hours.

MCJ 6255 - Great Thoughts in Criminal Justice

Credits: (3)
Typically Taught Fall Semester: Full Sem-Online
Description: This course explores the broader context of criminal justice studies and concepts through the writings of significant authors and thinkers. Readings will focus on subjects such as justice, punishment, law and social control. Students will be expected to read extensively and participate in analysis and discussion.

MCJ 6260 - Graduate Readings

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Course allows the student to examine the scholarly literature on a subject of special interest under the supervision of faculty. Reading list and accompanying assignments must be approved by the supervising faculty member. Periodic progress meetings will be scheduled throughout the semester. May be repeated once with a maximum of 6 credit hours.

MCJ 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed.

MCJ 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (106)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ME 3040 - Dynamic System Modeling

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Fundamentals of analysis, design and control of physical engineering systems. Analytical and numerical modeling of mechanical, electrical, fluid and thermal systems with applications. Pre-requisite(s): MATH 2250 and ENGR 2030.

ME 3050 - Machine Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
**ME 3060 - Sensors, Instrumentation and Control Systems**

*Credits: (3)*  
*Typically Taught Spring Semester: Full Sem*  
*Description:* Fundamental principles of sensors for the measurement of physical quantities. Instrumentation for processing the inputs and outputs of sensor signals. Control of mechanical, electrical and thermal systems. Lecture plus laboratory.

*Pre-requisite(s):* ME 3040 and ME 3050.

**ME 3300 - Fluid Mechanics**

*Credits: (3)*  
*Typically Taught Fall Semester: Full Sem*  
*Description:* Fundamental principles of fluid statics and dynamics. Fluid properties, flow regimes, pressure, velocity, flow rate, internal and external flow, and dimensional analysis. Applications of fluid mechanics. Lecture plus laboratory.

*Pre-requisite(s):* MATH 1220, ENGR 2030 and ENGR 2300.

**ME 3350 - Engineering Computing**

*Credits: (2)*  
*Typically Taught Fall Semester: Full Sem*  
*Description:* Introduction to engineering computing with applications to the analysis and design of engineering systems using an industry-standard software platform.

*Pre-requisite(s):* MATH 2250.

**ME 3500 - Numerical Methods for Engineering**

*Credits: (3)*  
*Typically Taught Spring Semester: Full Sem*  
*Description:* Fundamental methods for the numerical solution of engineering problems. Topics include root finding, interpolation, curve fitting, differentiation, integration, differential equations and curve fitting.

*Pre-requisite(s):* ME 3040 and ME 3350.

**ME 4000 - Heat Transfer**

*Credits: (3)*  
*Typically Taught Spring Semester: Full Sem*  
*Description:* Fundamental principles of conduction, convection and radiation. Heat transfer with phase change, heat exchangers and applications of heat transfer. Lecture plus laboratory.

*Pre-requisite(s):* MATH 2250 or MATH 2280 and ME 3300.

**ME 4100 SUS - Senior Project I**

*Credits: (3)*  
*Typically Taught Fall Semester: Full Sem*  
*Description:* A mechanical engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.

*Pre-requisite(s):* Departmental permission.

**ME 4150 - Vibrations**
ME 4200 SUS - Senior Project II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of ME 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.
Pre-requisite(s): ME 4100.

ME 4250 - Finite Element Analysis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Introduction to the finite element method. Survey of FEA theory, including element formulation, stiffness matrix operations, shape functions, etc. Application and use of commercial FEA software for engineering design and analysis.
Pre-requisite(s): MATH 2250 and ME 3050.

ME 4300 - Material Failure Analysis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A survey of material failure modes, including fatigue, fracture, wear and corrosion. Introduction to damage tolerant design methodologies. Case studies in material failure.
Pre-requisite(s): ENGR 2160 and ME 3050.

ME 4350 - Intermediate Mechanics of Materials

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Intermediate topics in mechanics of materials such as three-dimensional combined stress fields, stress concentrations, dynamic loads, torsion of non-circular members, plates and shells, stability and buckling of columns, and energy methods.
Pre-requisite(s): ENGR 2140.

ME 4400 - Aerodynamics

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Airfoil theory, lifting bodies, boundary layers, lift and drag, compressible aerodynamics.
Pre-requisite(s): ME 3300.

ME 4440 - Compressible Fluid Flow

Credits: (3)
Typically Taught Summer Semester: NA
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
tunnels.

Pre-requisite(s): ME 3300 and ME 4000.

**ME 4450 - Aerospace Propulsion**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Design and analysis of gas turbine engines and rocket motors. Liquid and solid fuel propulsion systems. Thermodynamics of flow associated with aerospace propulsion systems. Introduction to fuel combustion processes.
Pre-requisite(s): ME 4440.

**ME 4500 - Heating, Ventilating and Air-Conditioning**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Principles of heating, ventilating and air-conditioning (HVAC) of buildings. Refrigeration systems and indoor thermal environmental control system analysis and design.
Pre-requisite(s): ME 4000.

**ME 4550 - Robotics**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): ME 3040.

**ME 4600 - Intermediate Thermal-Fluids**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Intermediate topics in thermal-fluid sciences built upon knowledge from thermodynamics, fluid mechanics and heat transfer. Topics include thermodynamic cycles, psychrometrics, piping systems, boundary layers, heat transfer with phase change, radiation, and thermal design.

Lecture plus laboratory.
Pre-requisite(s): ME 4000.
Co-Requisite(s): ME 4800 - Individual Research Problems

**ME 4800 - Individual Research Problems**

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: With permission and under the direction of faculty, the student researches a specific problem in the mechanical engineering field.
Pre-requisite(s): Permission of department.

**ME 4830 - Readings in Mechanical Engineering**

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: With permission and under the direction of faculty, the student studies a topic taken from the mechanical engineering literature.
Pre-requisite(s): Permission of department.
ME 4890 - Cooperative Work Experience

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: Provides academic credit for engineering work experience. Permission of department required.
Pre-requisite(s): Permission of department.

ME 4900 - Special Topics

Credits: (1-3)
Variable Title
Typically Taught Spring Semester: Full Sem
Description: A special topic in mechanical engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.
Pre-requisite(s): Permission of department.

ME 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Permission of department.
May be repeated for a total maximum of 6 credit hours.

ME 4990 - Seminar in Mechanical Engineering

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Seminar is designed to prepare the student for professional engineering employment. Topics include resumes, interviewing techniques, engineering ethics, professionalism, patent law, social issues, lifelong learning, diversity, communication, timeliness, and continuous improvement. Lectures and presentations by faculty, staff, and guests from local engineering industry.
Pre-requisite(s): ME 4100.

MED 6000 - Fundamentals of Graduate Study

Credits: (2)
Typically Taught Fall Semester: 1st Blk
Description: This course serves as an introduction to the MED program and to scholarship in education. Students will draw from diverse fields of educational inquiry (e.g. psychology, sociology, philosophy, history) to develop and present critically informed perspectives on current topics in P16 education. Multiple approaches to scholarly writing will be addressed.

MED 6010 - Advanced Historical Foundations

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Study of the relationship of contemporary schooling issues to historical practices and philosophies.

MED 6020 - Diversity in Education
This course is designed to integrate classical and contemporary education theory and practice as a way to understand the nature and scope of how equity manifests itself in an ever-changing society. Students will apply their understanding of equity in education as they critically reflect, empirically investigate, and apply their knowledge as skillful transformative educational leaders.

MED 6030 - Advanced Educational Psychology

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk

Description: This course is designed to provide an in-depth understanding of behavioral, cognitive and brain based psychological theories. The focus will be how this knowledge can impact and inform educational decisions and practices.

MED 6040 - Politics, Policy, and Practices of Education

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk

Description: This course explores interactions among the relationship of political actions, policies, and practices in education, with particular attention to sociological concepts such as institutions, civil society, structure and agency, shared governance, neoliberal capitalism, and equal access. that develop from those actions, and the educational practices implemented in response to policy.

MED 6050 - Curriculum Design, Evaluation & Assessment

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: An overview of the theories of curriculum development as well as a practical appraisal of curriculum design, implementation, evaluation and assessment.

Pre-requisite(s): (Recommended) MED 6080.

MED 6055 - Curriculum Theory

Credits: (2)
Typically Taught Fall Semester: 2nd Blk

Description: This course will focus on advancing students' understanding of the historical and contemporary theoretical underpinnings of curriculum development in the United States. In exploring these issues, students will gain a broad perspective of curriculum, recognize historical orientations of curricular theories, and investigate the societal consequences of the implementation of individual curricular frameworks.

MED 6060 - Instructional Strategies

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 2nd Blk

Description: This methods course will include organizing and universal teaching strategies that can accommodate the variety of learning contexts and content that is taught to a diverse audience of learners.

Pre-requisite(s): (Recommended) MED 6080.

MED 6065 - Assessment and Informed Decisions in the Classroom
This course explores making ethical and practical decisions in the classroom informed by a variety of quantitative and qualitative data as well as formal and informal assessments relative to students' safety, academic achievement, and overall well-being.

**MED 6080 - Conducting Educational Research**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students learn to locate and interpret educational research, and to apply research methods to their own education issues.
Pre-requisite(s): MED 6000.
Note: (Only taught fall and spring)

**MED 6082 - Educational Inquiry**

Credits: (2)
Typically Taught Fall Semester: 1st Blk
Description: This course is a comprehensive exploration of the ways that researchers answer questions and solve problems in education based on historical, philosophical, sociological, and psychological foundations. Additionally, this course examines the epistemic limits of any method of research representation and the political and ethical implications of those limits for researchers. Students will conduct a literature review to advance their research project.
Pre-requisite(s): MED 6000.

**MED 6085 - Developing a Project Proposal**

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to help students develop a Master's project proposal that is carefully researched and professionally written.
Pre-requisite(s): MED 6082.

**MED 6090 - Master's Project**

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The student independently works with the project chair and committee to complete the master's project.
Pre-requisite(s): MED 6085 or MED 6150.

**MED 6091 - Graduate Synthesis**

Credits: (1)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A review and synthesis of the program and its course work. The course includes opportunity to work with the development of personal portfolios.
Pre-requisite(s): All core requirements completed; Master's Project Proposal committee-approved, and Master's Project Report completed or in progress. Student must have a signed proposal and program approval to register. Prerequisite: MED 6085.
MED 6100 - Leadership and Organizational Theory

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: 1st Blk
Description:
This course focuses on the multiple facets of organizational cultures, leadership styles, and organizational change for educational leaders. Students will examine how organizational theory is applied in the educational setting.

MED 6101 - Assessment and Program Evaluation

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Spring Semester: 1st Blk
Description:
This course will provide an overview of planning and decision making including assessment, strategic planning, and program evaluation and review processes. Concepts will include the gathering and use of data as well as the utilization of that data in the decision making process.

MED 6102 - Public Education Finance

Credits: (3)
Typically Taught Spring Semester: 2nd Blk
Description:
This course will examine the economics and financing of public and higher education. Course topics will include an exploration of the different funding pools and regulations for both public and higher education as well as the economic and political forces driving these concepts and processes.

MED 6110 - Introduction to Classroom Management

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course serves as an introduction to classroom management for those who have not had classroom experience or have been hired by a school district on a "letter of authorization," (hired without a license). The focus will be on current issues, methodology, and application of a variety of approaches for behavior change, discipline, and management of diverse learners in the context of classroom environments. Classroom management as a function of good teaching will be examined.
Note: This course or MED 6120 is required for licensure.

MED 6120 - Advanced Classroom Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Eclectic review of the popular teacher-pupil interaction models as they are classified into ideological camps and effect, and management and strategies for the classroom.
May be repeated up to four times.
Note: This course or MED 6110 is required for licensure.

MED 6130 - Topic in Education: (i.e., School Finance, Cooperative Learning, TRIBES, Teaching for Inquiry, etc.)

Credits: (1-3)
Typically Taught Summer Semester: 1st Blk
Description: This course explores a topic receiving current attention by educators and the public and deemed worthy of in-depth study. Credit will be determined by the nature of the topic.
May be repeated up to four times.
MED 6140 - Adolescent Development

Credits: (2)
Description: Study of physical, mental, social, and psychological characteristics of adolescents, their needs and problems, and methods of working with those who have behavior problems.

MED 6150 - Classroom- and School-Based Research

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will explore effective classroom-based research techniques, complete classroom-based research projects, and engage in ongoing application of action research for the improvement of teaching practice.
Pre-requisite(s): MED 6082, MED 6055, MED 6060.
May be repeated up to three times.

MED 6160 - Effective Mentoring in the Classroom

Credits: (2)
Description: Course will cover strategies for effectively mentoring student teachers and novice teachers by expert teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.

MED 6180 - Teaching Interpersonal Skills

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Study and application of interpersonal skills leading to the application and teaching of selected techniques and systems in the classroom.

MED 6200 - Current Trends in Early Childhood Education

Credits: (3)
variable title
Description: A variable title advanced course in Early Childhood Education (birth through age eight) based upon examination of the current trends in curriculum and instruction for young children. When this number is used it will be accompanied by a brief and specific descriptive title, i.e. literacy, math, science.
May be repeated 2 times up to 9 credit hours.

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources, program experiences, and related theory. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include theory, research, interpersonal communication skills, and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Educator coaching skills will apply to any early childhood/early childhood education curriculum or model. This is course 1 of a three course series for the Utah Coaching Credential.

MED 6202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice
Becoming an effective educator coach is a result of theoretical understanding, introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing educator coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self-directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course. This is course 2 in a three course series for the Utah Coaching Credential.

Pre-requisite(s): ECED 4201/MED 6201 or instructor permission.

MED 6203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change

The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self-analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home-based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real life experiences throughout the course. This is course 3 of a three course series for the Utah Coaching Credential.

Pre-requisite(s): ECED 4201/MED 6201 and ECED 4202/MED 6202 or instructor approval.

MED 6210 - School Law

This course considers the rights and responsibilities of students, teachers, and other educational practitioners. Relates these to school programs and operations as determined by state and federal constitutions, laws, and court decisions; specifically content from ESEA, IDEA, Section 504, and ADA.

MED 6220 - Current Problems in Education

A survey course which identifies and gives opportunity to research current problems in education at national, state, and local levels. Solutions and responses are developed from the research to address problems.

MED 6229 - Instructional Technology for Pre-service Teachers

This course allows students to apply existing technology literacy into educational environments to promote use of technology for teaching and instructional support in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years.

MED 6230 - Instructional Technology for Teachers
MED 6240 - Foundations of Teaching for Cultural and Language Differences

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Course fees are used for consumable products and maintenance items for digital fabrication.
Description: Designed for students who have had a prior introduction to technology. Topics could include classroom applications of technology, software evaluations, and technology integration.
Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years.

MED 6250 - Second Language Acquisition: Theories and Implementation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

MED 6265 - Foundations of Inclusive Teaching

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Spring Semester: Full Sem
Description: This course, designed for non-special education teacher candidates, will introduce candidates to the legal, philosophical, historical, and ethical foundations of special education. An emphasis is placed on strategies and methods for instructing students with exceptionalities in the general education setting and the expanded roles and responsibilities of school personnel for providing appropriate educational experiences for all students.
Pre-requisite(s): Admission to the masters of education program.

MED 6270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem
Description: This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

MED 6280 - Family and Community Involvement in Education

Credits: (2)
Description: Examination of methods which would facilitate the interaction between the parent/community and the teacher/school through reciprocal communication, home-based involvement, school-based involvement and decision making. Special emphasis will be given to the importance of parental involvement in the education of second language learners.

MED 6300 - Conducting Qualitative Research

Credits: (3)
Description: Designed as an introduction to the philosophy, theory, and methodology of qualitative research. This course is a companion course to MED 6080, Conducting Educational Research. Special emphasis is placed on designing qualitative research proposals for master's degree projects.
MED 6311 - Content Instruction in the Elementary School: Science

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Description: Explores new concepts in curriculum and methods of science instruction in the elementary schools.
Note: This course is required for elementary licensure.

MED 6312 - Content Instruction in the Elementary School: Mathematics

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: Explores new concepts in curriculum and methods of mathematics instruction in the elementary schools.
Note: This course is required for elementary licensure.

MED 6313 - Content Instruction in the Elementary School: Social Studies

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Explores new concepts in curriculum and methods of social studies instruction in the elementary schools.
Note: This course is required for elementary licensure.

MED 6314 - Reading Instruction in Elementary Schools

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: An exploration of current research theories and their pedagogical implications related to teaching vocabulary, reading comprehension, fluency, phonics, and phonemic awareness in elementary school classrooms.
Note: This course is required for elementary licensure.

MED 6316 - Language Arts Instruction in Elementary Schools

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: Students will explore theory, instructional methodology, and activities for supporting students in developing expertise in the essential skills of communication: listening, speaking, reading, writing, viewing, and visually representing.
Note: This course is required for elementary licensure.

MED 6317 - Arts Integration for Elementary Teachers

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Description: This course is designed to prepare students to successfully teach the arts in the elementary classroom. Students are expected to design, prepare, and teach lessons to engage elementary students in arts and music activities. State curriculum guidelines will be reviewed and discussed.

MED 6320 - Content Area Literacy Instruction

Credits: (3)
Typically Taught Summer Semester: Online odd years
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.
Note: This course is required for secondary licensure.
MED 6322 - Advanced Music Integration

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Description: This course is designed to prepare students to fully integrate the Utah State Music Core within the elementary classroom. Participants will gain an understanding of key processes for helping students develop musical skills and understanding. We will also design and participate in lessons to actively engage elementary students in experiences that integrate music with other subjects.
Pre-requisite(s): MED 6317 and MED 6340.

MED 6323 - Advanced Drama Integration

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Description: This course emphasizes credible connections between drama and core subjects and how arts integration fosters problem solving and creative agency. In addition to readings and discussions from arts integration literature, much of the course will involve students participating in existing lesson plans that connect the arts with other curricula, and analyzing their value and role in education.
Pre-requisite(s): MED 6317 and MED 6340.

MED 6324 - Advanced Dance Integration

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Description: This course emphasizes credible connections between dance and core subjects and how arts integration fosters problem solving and creative agency. In addition to readings and discussions from arts integration literature, much of the course will involve students participating in existing lesson plans that connect the arts with other curricula, and analyzing their value and role in education.
Pre-requisite(s): MED 6317 and MED 6340.

MED 6325 - Advanced Visual Arts Integration

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course explores the history, theory, and practice of what it means to be a visual pedagogue or a teacher who incorporates the visual arts within day-to-day classroom instruction. It provides an orientation to arts integration in Utah schools with and through a visual arts lens. The curriculum aligns with State of Utah's core curriculum and national standards in the visual arts.
Pre-requisite(s): MED 6317 and MED 6340.
May be repeated twice for a maximum of two credit hours.

MED 6330 - Using Children's Literature and Informational Text in the Classroom

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

MED 6340 - Reading Assessment and Instructional Interventions

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

MED 6350 - Reading Comprehension Instruction
MED 6352 - Early Literacy Instruction (K-6)

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to focus on the research on emergent and early literacy development so that teachers may construct well-designed, appropriate literacy learning environments, and experiences for young language learners. Because this is an advanced course, students will be expected to have a reading background in early literacy.
Note: Required for the Level 1 Basic Secondary Reading Endorsement.

MED 6353 - Understanding and Supporting Reading Development (grades 6-12)

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Description: This course is to help practicing secondary teachers acquire skills and strategies to support struggling readers. Specifically, this course will provide teachers with a systematic and ongoing approach to classroom intervention to prevent continued failure in reading.
Note: Required for the Level 1 Basic Secondary Reading Endorsement.

MED 6354 - Literacy Leadership and Professional Development

Credits: (2)
Description: This course is designed to increase understanding of the administration and supervision of school literacy programs. Major topics will include: professional development, school/community relations, mentoring partnerships, student diversity, curriculum evaluation and development, and assessment. This course is required for the Reading Specialist Endorsement.
Pre-requisite(s): Basic Reading Endorsement.

MED 6355 - Research in Reading

Credits: (3)
Description: This course will engage students in studying and understanding primary research documents in reading. Students will be guided to explore both classical and contemporary reading research studies. Students will also be instructed in basic research techniques in reading. This course is required for the Reading Specialist Endorsement.
Pre-requisite(s): Level 1 Basic Reading Endorsement.

MED 6356 INT - Internship in Reading

Credits: (3)
Description: This course is a field-based experience designed to give students an opportunity to work with curriculum and school leaders for improving reading instruction on a district or school level.
Pre-requisite(s): Level I Basic Reading Endorsement, MED 6354, MED 6355. The course is graded Credit/No Credit.

MED 6360 - Foundations of Literacy

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Description: An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

MED 6370 - International and Comparative Education: Case Studies
MED 6375 - Foundations of Dual Immersion or Immersion Education

Credits: (3)

Description: The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

MED 6380 - Values Education

Credits: (3)

Typically Taught Summer Semester: Hybrid

Description: Designed for teachers, administrators, parents and community leaders. Examines the developmental processes of socialization and moral development. Four separate approaches of values education are evaluated.

MED 6415 - Content-Based Second Language Curriculum, Instruction and Assessment

Credits: (3)

Description: Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

MED 6420 - Foundations of Education of the Gifted

Credits: (3)

Description: An overview of education for the gifted and talented: historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum and educational program options; special populations of gifted students.

MED 6430 - Creative Processes in the Elementary School

Credits: (3)

Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $15.00

Course Fee Purpose: This is used for consumable art supplies and repair/replacement of musical instruments.

Description: This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories which support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

MED 6440 - Social and Emotional Needs of the Gifted

1677
This course examines social and emotional developmental needs of gifted and talented children and proposes strategies for recognizing and meeting those needs in classrooms and with families.

**MED 6450 - Creativity and Applied Imagination**

Credits: (2)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** Exploration and development of readily available personal and community resources to encourage creative thinking/reasoning, classroom involvement, and transfer of learning.

**MED 6470 - Teaching for Thinking**

Credits: (2)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** Theory and practice for teaching thinking skills in elementary, middle, and high school classrooms.

**MED 6480 - Differentiated Curriculum for the Gifted**

Credits: (3)  
**Description:** Curriculum theories and educational strategies for educating gifted and talented students. A practical course with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.

**MED 6490 - Assessment and Evaluation in Education of the Gifted**

Credits: (3)  
**Description:** Principles of assessment applied to identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.

**MED 6495 - Action Research in Education of the Gifted**

Credits: (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This is a capstone course in the program leading to a Utah teaching endorsement in education of the gifted and talented and meets the USOE endorsement requirement for a field experience or practicum in education of the gifted by requiring a community-based project in which learning from previous endorsement courses is synthesized in a practical way. Students are expected to take initiative in planning, implementing, documenting, and evaluating meaningful action research projects relevant to education or the gifted and talented.  
**Pre-requisite(s):** Bachelor's degree, teaching license, and MED 6420, MED 6480, MED 6490.

**MED 6500 - Curriculum Planning and Evaluation for Special Education Students**

Credits: (3)  
**Typically Taught Summer Semester:** 1st Block, 2nd Block  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Effective teaching methods, instructional programming and modification of curriculum for students with disabilities. A direct instruction model is emphasized.

**MED 6510D - Advanced Foundations in Special Education Practice & Law (Special Education License)**
This course focuses on the learning and social characteristics of young people with exceptionalities - that is, disabilities (physical, mental, learning) or giftedness - and about public policy and services available to them. As future teachers, students will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.

Pre-requisite(s): Admission to Masters of Education.

MED 6515 - Foundations in Special Education: Law and Practice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will introduce students to the philosophical, historical, legal, and ethical foundations of special education. Students will examine in depth the laws and practices related to special education and how those laws are influencing children with special needs today. Students will also learn about individuals with special needs as they are identified and served in our school system.

MED 6520 - Collaboration, Consultation, and IEP Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities, and techniques of collaboration and consultation.

MED 6521 - Practicum in Special Education

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: This Practicum experience will focus on examining in depth the lives of students with mild to moderate disabilities in school, home, and community settings. Students will be introduced to the IEP process and will practice developing collaborative relationships within school settings.
Pre-requisite/Co-requisite: This Practicum must be taken either concurrently with, or after completion of MED 6520.

MED 6529 - Assistive Technology

Credits: (2)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides students with the knowledge and skills needed to successfully determine the assistive technology needs of students with disabilities. The curriculum is based on the Utah Effective Teaching standards addressing technology and CEC standards for teacher preparation.

MED 6530 - Principles and Applications of Special Education Assessment

Credits: (3)
Typically Taught Summer Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: This fee is used for digital fabrication materials (air filters for the laser cutter and filament for the 3D printer
Description: Administer, score, and interpret norm-referenced assessment instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs.

MED 6540 - Advanced Managing Student Behavior
MED 6550 - Advanced Instructional Planning and Learning Environments for Special Education Students

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will address current issues, practices, and application of a variety of approaches for behavior change. It is designed to teach students validated classroom management strategies, behavioral intervention strategies and techniques for use with students who have behavioral and social skill deficits. The primary goal of this course is for each student to conduct a functional assessment and implement and evaluate a behavior intervention plan.

MED 6555 - Advanced Instructional Methods and Practicum: Reading

Credits: (4)
Description: This course is designed to introduce principles and techniques for diagnosis and remediation of reading problems. The course will cover student characteristics and school setting demands which contribute to lack of success in reading classrooms. Field experience required.

MED 6560 - Advanced Instructional Methods and Practicum: Mathematics

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Assessment and diagnosis of mathematics problems and corrective procedures for remediation. This course focuses on the needs of students with learning problems or who are at-risk for school failure. Students will apply the concepts learned in an action research project in a K-12 classroom.

MED 6565 - Advanced Instructional Methods and Practices: English Language Arts

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to prepare teacher candidates to teach English Language Arts to elementary and secondary students. Teacher candidates learn to identify reading and writing difficulties, using evidence-based interventions. They will also learn how to implement effective instruction, using data-based instructional decision model to monitor students' ELA progress. This course is to be taken concurrently with MED 6860 Practicum in Education.
Co-Requisite(s): MED 6860.

MED 6570 - Advanced Instructional Methods and Practicum: Written Expression

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression. Field experience required.

MED 6575 - Advanced Instructional Methods and Practices: Mathematics

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to prepare teacher candidates to teach mathematics to Tier 2 and 3 students in elementary and secondary classrooms. Teacher candidates will acquire a set of skills that will enable them to determine what math concepts to teach to pupils and effective instructional methods to aid in the teaching of these concepts. This course is to be
taken concurrently with MED 6860 Practicum in Education.

**Co-Requisite(s):** MED 6860.

**MED 6580 - Advanced Learning Strategies and Transition for Special Education Students**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem
**Description:** Effective teaching methods, strategies, and practices for secondary age level students with disabilities. A cognitive learning strategies approach is emphasized.

**MED 6581 - Pre-Student Teaching in Special Education**

**Credits:** (4)
**Description:** The purpose of pre-student teaching is to continue field experience in a supportive and professional manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the cooperating teacher and the course instructor. This course is designed to provide students with practical experiences in the areas of: (a) assessment, (b) behavior management, (c) curriculum and instruction for students K-12, and (d) planning and developing post-secondary transition plans.

**Pre-requisite(s):** EDUC 4521/MED 6521 Practicum in Special Education, with a grade of B or better.
**Suggested Requisite(s):** Must be taken either concurrently with, or after completion of, EDUC 4530/MED 6530, EDUC 4540/MED 6540, EDUC 4550/MED 6550, and EDUC 4580/MED 6580.

**Note:** Course not currently being offered.

**MED 6600 - Ethical Leadership**

**Credits:** (2)
**Typically Taught Fall Semester:** 1st Blk
**Description:** This course will explore issues of ethical and professional conduct as a steward of school resources, student academic success and wellbeing, and faculty and staff professional development. This course will be based on the Utah Educator Professional Standards as described in Utah State School Board rule.

**MED 6601 - Community Engagement and Advocacy**

**Credits:** (2)
**Typically Taught Fall Semester:** 2nd Blk
**Typically Taught Spring Semester:** Full Sem
**Description:** This course will explore strategies effective educational leaders engage families and the community in order to create an inclusive, caring, safe, and supportive school environment to advocate for each student's academic success and well-being.

**MED 6602 - Organizational Change and School Improvement**

**Credits:** (3)
**Typically Taught Summer Semester:** 2nd Blk
**Description:**
This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

**MED 6603 - Positive Academic and Behavior Supports in Schools**

**Credits:** (2)
**Typically Taught Spring Semester:** 2nd Blk
**Description:**
This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.
MED 6604 - Educational Leader Internship

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description:
This course will provide directed and supervised leadership experiences in public education settings. Students will complete the hours required by Utah State Board Rule.

MED 6610 - Life Science for Elementary Teachers

Credits: (3)
Description: This course provides a background in concepts relating to living organisms and the interactions among them and their environment. The flexibility of these concepts is examined in light of research activities.

MED 6620 - Physical Science for Elementary Teachers

Credits: (3)
Description: Basic concepts of the physical sciences (chemistry and physics) are covered. The importance of the scientific method and the design of experiments is addressed as well as basic facts and discoveries. Hands-on laboratory activities are an important part of the course.

MED 6630 - Earth Science for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A background in basic concepts relating to the formation, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet (atmosphere, lithosphere, and hydrosphere) are investigated through laboratory activities applicable to elementary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6640 - The World As A Classroom

Credits: (1-3) variable title
Description: This course is designed to provide enrichment opportunities for those who undertake either domestic or foreign travel to participate in study tours, research, and other professional development experiences. It offers participants an opportunity to learn outside the classroom in locations available only through travel. May be repeated up to 3 credit hours.

MED 6650 - Understanding Science

Credits: (3)
Description: This course will examine the nature of science, the philosophy of science, and research in science education. Students will engage in authentic scientific research.

MED 6661 - Life Science for Secondary Teachers: Zoology

Credits: (3)
Description: This course examines basic concepts relating to living organisms, interactions among them, and relationships with their environment. Concepts of structure, function, ecology, behavior, and evolution will be investigated through laboratory activities applicable to secondary classrooms. Content relates to current areas of public concern and advances in the life sciences.

MED 6662 - Life Science for Secondary Teachers: Microbiology
MED 6663 - Life Science for Secondary Teachers: Botany

Credits: (3)
Description: This course examines basic concepts relating to living organisms, interactions among them, and relationships with their environment. Concepts of structure, function, ecology, behavior, and evolution will be investigated through laboratory activities applicable to secondary classrooms. Content relates to current areas of public concern and advances in the life sciences.

MED 6670 - Physics for Secondary Teachers

Credits: (3)
Description: A background in the basic concepts of physics is provided. Topics include laws of motion, gravity, energy, light, heat, sound, electricity, magnetism, atomic and nuclear physics, radioactivity, and relativity. Laboratories investigate concepts applicable to secondary classrooms. Activities associate science content with appropriate activities designed to develop process skills, laboratory skills, and positive attitudes toward science.

MED 6680 - Chemistry for Secondary Teachers

Credits: (3)
Description: A background in the basic concepts related to matter, its properties, and its reactions is provided. Laboratories investigate concepts applicable to secondary classrooms. Activities associate science content with appropriate activities designed to develop process skills, laboratory skills, and positive attitudes toward science.

MED 6691 - Earth Science for Secondary Teachers: Geology

Credits: (3)
Description: A background in basic concepts relating to the information, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet's lithosphere are investigated through laboratory activities applicable to secondary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6692 - Earth Science for Secondary Teachers: Meteorology

Credits: (3)
Description: A background in basic concepts relating to the information, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet's atmosphere are investigated through laboratory activities applicable to secondary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6693 - Earth Science for Secondary Teachers: Oceanography

Credits: (3)
Description: A background in basic concepts relating to the information, development, and history of the earth is provided. General concepts of the structure, composition, and modification of the planet's hydrosphere are investigated through laboratory activities applicable to secondary classrooms. Activities emphasize inquiry and appropriate activities for developing content, process skills, laboratory skills, and positive attitudes toward science.

MED 6700 - Higher Education Administration

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description:
This course provides an overview of the various types of institutions of higher education including a brief history, typical institutional organizational structures, principal administrative functions, and the philosophy of administration overall. Strategic decision making within organizations will also be discussed.

**MED 6701 - Current Issues in Higher Education**

Credits: (2)

Typically Taught Spring Semester: Full Sem

Description:
This course provides an overview of current issues and trends, challenges, research, and policies impacting higher education at the institutional, state, national, and international level.

**MED 6702 - Organizational Change and Human Resource Management**

Credits: (3)

Typically Taught Summer Semester: 1st Blk

Description:
This course will focus on financial and personnel management strategies, techniques for developing a projected budget and strategic plan, strategies for managing personnel and addressing the evaluation protocols.

**MED 6703 - Group Dynamics**

Credits: (2)

Typically Taught Summer Semester: 1st Blk

Description:
This course will provide an examination of advising other practices on campus designed to enhance and support today's college student. Concepts that will be discussed include student demographics, individualized advising approaches, emotional intelligence, and student retention theories.

**MED 6704 - Higher Education Internship**

Credits: (2)

Typically Taught Summer Semester: Full Sem

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Description:
This course will provide directed and supervised experiences in higher education administrative settings. Students will spend the required hours per semester in a structured, supervised setting.

This course can be taken 2 times for credit for a maximum of 4 credit hours.

**MED 6730 - Mathematics for Teaching K-8: Assessment and Intervention**

Credits: (3)

Description: Practicing teachers will gain a deeper understanding of the various types of assessment and their appropriate use for guiding instruction, intervention, and evaluation of student learning of mathematics content. This course is part of the Elementary Mathematics Endorsement.

**MED 6800 - Advanced Web-based Methods for Evaluation, Research, and Practice**

Credits: (3)

Typically Taught Summer Semester: 1st Blk, even years

Description: This course is designed to introduce students to the latest techniques of web-based research and experience management that can be used within the field of Family Science and Education (and other related fields of social inquiry). Students taking the course will learn and demonstrate the best practices for conducting online surveys that can be used to gather cross-sectional, longitudinal, experimental data.
MED 6801 - Specialized Family and School Programs

Credits: (2)
Typically Taught Summer Semester: 1st Blk, odd years
Description:
The Specialized Family and School Programs class is an advanced review of the theoretical foundations for established and emerging family life education programs. Furthermore, a review of best practices in disseminating and evaluating family life education programs in diverse settings and with diverse populations. Implications for policy are reviewed.

MED 6802 - Family Theories

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: 1st Blk
Description:
This course provides students with the ability to critically review and assess theories in family science. Additionally, they will learn and practice the construction and application of family theory vital for conducting research and practicing family life education.

MED 6803 - Diverse Family Contexts

Credits: (2)
Typically Taught Summer Semester: Full Sem
Description:
This class will proceed via comparative analysis of culture, ethnicity, and family life in the United States reflecting social and political dynamics with extensive coverage of the family lifestyles, traditions, and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional, and current ethnic family characteristics, and changes and adaptations to families and individuals. Emphasis will be made on how to address ethnocentrism, and serve families due to their various strengths and challenges.

MED 6805 - Family Life Education Coaching

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description:
This course is to prepare students to become family life coaches. The course covers topics from the foundational theories/models of coaching (positive psychology, cognitive behavioral coaching, and others), how to conduct coaching sessions, the delineation between counseling and coaching, and how to run a coaching business. Students will practice coaching with other students as well as with actual practice clients.

MED 6806 - Advanced Skills for Family Life Educators

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Description:
This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators by reviewing and presenting family life education materials in both the classroom and among the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education.

MED 6807 - Parenting

Credits: (2)
Typically Taught Spring Semester: 1st Blk
Description:
This course will provide students with the latest research and theory on developmentally appropriate practices for parents. Also, students will learn the theory- and research-based methods for educating parents.
MED 6810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

MED 6820 - Organization and Leadership in Non-profit Family Services

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: MED 6820 will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

MED 6860 INT - Practicum in Education

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Mileage fees for supervision
Description: Practical synthesis and application of knowledge and skills gained in previous education courses. Students must have approval from the program director, and should follow specific graduate certificate in teaching program guidelines for prerequisites and other requirements. This course does not grant credit towards the MED degree, but is required for a teaching license in the state of Utah.

MED 6870 INT - Student Teaching and Seminar in Elementary Education for MED Students

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision
Description: The student teaching experience is the culminating learning experience for the elementary licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.
Pre-requisite(s): MED 6860, MED 6110 or MED 6120, MED 6050, MED 6265, MED 6020, MED 6311, MED 6312, MED 6313, MED 6314, MED 6316.

MED 6880 INT - Student Teaching and Seminar in Secondary Education for MED Students

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision
Description: The student teaching experience is the culminating learning experience for the secondary licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards
the MED degree but is required for a teaching license in the state of Utah.

Pre-requisite(s): MED 6860, MED 6020, MED 6060, MED 6120 or MED 6110, MED 6050, MED 6320, and MED 6265.

MED 6890 INT - Student Teaching and Seminar in Special Education for MED Students

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $55.00
Course Fee Purpose: Supervision stipend and mileage fees
Description: The student teaching experience is the culminating learning experience for the special education licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.
Pre-requisite(s): MED 6050, MED 6565, MED 6575, and MED 6860.

MED 6900 - Individual Study

Credits: (1-3)
Description: Intended for the candidate who has special needs and who would benefit from an individual study program. Forms are available from Room ED 234 MEd program office and must be approved by the instructor and the director at time of registration.
May be repeated up to 3 credit hours.

MED 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Course Fee: $40.00
Course Fee Purpose: This fee pays for student teaching supervisor visits
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

MED 6990 - Continuing Graduate Advisement

Credits: (1)
Description: This course is used to fill the continuous enrollment requirement while completing the Master's project. The course is graded Credit/ No Credit.

MENG 5010G - Introduction to Linguistics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course introduces students to the scientific study of language. It explores what languages have in common, as well as what distinguishes them. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be expanded and applied to other areas, such as language acquisition, language history, language and culture, language and thought, and language and literary expression. This course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5050G - Grammar, Style, and Usage for Advanced Writing

Credits: (3)
Description: This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to
increase their control of punctuation, style, and usage to become more proficient writers. Its offers practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5080G - Critical Approaches to Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective.

MENG 5510G - World Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students in this course read texts from a variety of eras and of authors and regions outside the United States and Great Britain. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same period was applied toward an undergraduate degree.

MENG 5570G - American Literature I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

MENG 5580G - American Literature II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

MENG 5670G - British Literature I

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

MENG 5680G - British Literature II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.

MENG 5730G - Literature of Cultures and Places
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students in this course read texts focusing on a single national culture or works from various cultures. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

MENG 5920G - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript. May be repeated 5 times with a maximum of 6 credit hours.

MENG 6005 - Intercultural Classroom Discourse

Credits: (3)
Description: Students will read, discuss and experience interactive learning tools from the fields of sociolinguistics, intercultural communication, and TESOL pedagogy. Students will analyze dialects and personal/social conversational styles. Examples from literature and film will help provide a contextualized means of observing and understanding cultural identities.

MENG 6010 - Introduction to Graduate Studies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will learn research methods and methodologies that will allow them to produce publishable, sophisticated pieces of academic prose of the kind expected of professional academics. Students will compose abstracts, conference paper proposals, annotated bibliographies, and surveys of scholarship. Students will explore academic databases extensively and learn to evaluate rigorously other scholars' work. Students will be encouraged to submit their work in the class to journals, conferences, or collections of essays. Students should take this course within their first year of study and focus their research on topics that may support future work on a thesis or project. Required in first or second semester.

MENG 6030 - Studies in Literary Theory and Criticism

Credits: (3)
Variable Title
Description: Students will study influential works in literary theory--potentially ranging from Plato's REPUBLIC to Gayatri Spivak's groundbreaking feminist studies to Stephen Greenblatt's New Historicist studies to Homi Bhabha's postcolonial analyses--paying specific attention to the influence of these theories on English studies. May be repeated 10 times for credit hours with different content.

MENG 6110 - Writing for Teachers

Credits: (3)
Description: Designed primarily for in-service teachers, this course explores the most current research and theory concerning the teaching of writing and applies it to issues in the secondary classroom. Permission of instructor required to register.

MENG 6120 - Teaching Traditional and Contemporary Young Adult Literature

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course provides a broad, practical background in young adult literature, both traditional and contemporary, with emphasis on current theories and methods in literature pedagogy. Selection and evaluation of texts that appeal to young adults, reading strategies, censorship, themes and genres will be given special attention.
Pre-requisite(s): MED 6050 Curriculum Design, Evaluation, Assessment (3) must be taken prior to MENG 5210G/6120. We strongly recommend that MENG 6110 Writing for Teachers (3) or MENG 6230 Wasatch Range Writing Project Summer Institutes (3) be taken prior to MENG 5210G/6120.

Co-Requisite(s): MENG 5210G [Inactive] and MENG 6120 must be taken concurrently.

Note: Permission of instructor required to register.

MENG 6130 - Theories of Rhetoric and Writing Studies

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: This course is an intensive study of rhetoric and writing theory. Selected works of major composition and rhetorical theorists will be examined and historicized within a survey of the teaching of academic writing from antiquity to the present.

MENG 6140 - Foundations of Professional and Technical Writing

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: This course will study the theoretical foundations and scholarly practices of professional and technical writing and communication. The course will examine the major ideas of those who practice professional and technical writing and the main values and practices of the field.

MENG 6210 - Teaching Literature in the Secondary Schools

Credits: (3)

Description: Designed primarily for in-service teachers, this course explores the most current research and theory concerning the teaching of literature and applies it to issues in the secondary classroom.

MENG 6230 - Wasatch Range Writing Project Summer Institute

Credits: (1-6)
Typically Taught Summer Semester: 1st Blk, 2nd Blk

Description: This course is designed to follow the National Writing Project model. The four-week Invitational Institute is for inservice teachers nominated by their school district or their peers. It is designed to develop leadership skills in those teachers to enable them to impact the quality of writing instruction in their individual schools and district. It is also designed to develop teacher leadership for the Wasatch Range Writing Project. The One Week Open Institute is open to any inservice teacher wishing to improve writing instruction in his/her classroom. Can be repeated once up to eight (8) credit hours total.

Note: Permission of instructor required to register.

MENG 6231 - Wasatch Range Writing Project Advanced Institute

Credits: (1-6)
Variable Title

Description: This is a variable topics variable title course designed for Wasatch Range Writing Project Teacher Consultants, teachers who have taken the WRWP Summer Institute and work with WRWP providing professional development to local school districts. It allows those teachers to increase their effectiveness as teachers, add to their expertise for work with inservice teachers and research possible solutions to literacy issues facing elementary and secondary education in our region. Course titles may include: Developing Utah State Core Standards Workshops, Digital Writing, Developing Argument Writing Across the disciplines. Only six hours can be used for meeting elective requirements in the MENG program.

Pre-requisite(s): Six hours credit in MENG 6230.

May be repeated 6 times and up to 18 credit hours.

MENG 6240 - Seminar in American Literature

Credits: (3)
Variable Title

Description: This seminar explores major texts of one particular American era. The course focuses on literature which articulates
the selected period. This variable emphasis course may be repeated 10 times for credit with different content.

MENG 6250 - Seminar in British Literature

Credits: (3)
Variable Title
Description: This seminar explores major texts of one particular British era. This course focuses on the literature which articulates the selected period. This variable emphasis course may be repeated 3 times up to 6 credit hours with different subject matter. This course may be repeated four times for a maximum of 12 credit hours.

MENG 6260 - Seminar in World Literature

Credits: (3)
Variable Title
Description: This seminar explores literature other than American or British. The course focuses on the literature which articulates the selected time and place. This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6280 - TESOL Practicum

Credits: (1)
Description: TESOL practicum provides guided and supported experience in one or more of the following: tutorial, small group teaching, whole class lesson planning. Candidates will practice a variety of instructional modes for speaking, reading and writing. Note: Instructor permission is required for registration.

MENG 6310 - Language and Linguistics for Teachers

Credits: (3)
Description: Designed primarily for in-service teachers, this course explores recent research in linguistics and applies it to issues in the secondary classroom.

MENG 6320 - World Languages

Credits: (3)
Description: This course broadens students' awareness of diversity among the world's languages, thereby fostering understanding and appreciation of the nature of human language in general. Issues may include language obsolescence and maintenance, writing systems of the world, prosody and poetic forms in other languages, language history, and language families. Some prior experience in linguistics or language structures will be helpful as students study profiles of selected languages representing major language families of the world and various geographical areas.

MENG 6330 - Literary and Rhetorical Stylistics

Credits: (3)
Description: This course surveys the literature on style in linguistics, literature, and rhetoric. Some prior background in grammar will be useful as students engage in quantitative and qualitative stylistic analysis of texts from a literary period, genre, or particular author and learn how diction, syntax, and figurative language can be deployed to communicative and artistic ends.

MENG 6410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)
Typically Taught Summer Semester: 2nd Blk, Odd Years
Typically Taught Spring Semester: Full Sem
Description: This course emphasizes practical strategies and methods of teaching English as a Second Language in elementary and secondary schools.
MENG 6420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem, Odd Years
Description: This course provides the foundation for ESL/Bilingual teachers in the workings of the English language: its pronunciation and spelling systems, its word-forming strategies, and its sentence structure patterns.

MENG 6450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)
Typically Taught Summer Semester: 2nd Blk, Even Years
Typically Taught Fall Semester: Full Sem
Description: This course explores how to evaluate and implement assessment processes effectively for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized test and authentic assessment.

MENG 6510 - Seminar in Eminent Writers:

Credits: (2-3)
Variable Title
Description: This seminar examines significant works of and relevant criticism on an influential writer or a small group of writers. This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6520 - Seminar in Shakespeare

Credits: (3)
Typically Taught Summer Semester: 1st Blk, Even Years
Description: This seminar examines a range of Shakespeare's major works as well as relevant criticism.

MENG 6610 - Advanced Studies in Genre

Credits: (2-3)
Variable Title
Description: Students will analyze primary and secondary texts about one genre or sub-genre to develop a definition and understanding of the form. This variable emphasis course may be repeated 10 times for credit with different subject matter.

MENG 6710 - Variable Topics

Credits: (2-3)
Variable Title
Description: Topics will vary based on student interest and instructor expertise. This course may be repeated 10 times for credit with different subject matter.

MENG 6730 - Creative Writing Forms and Crafts

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will investigate the relationship of form and function in creative work and explore how the underlying structure affects the impact of the work. This course will examine a variety of work to examine the effect of formal choices on readers' response. The course will then put these strategies and insights to work by drafting, workshopping, and revising students' own original writing. May be repeated 2 times and up to 9 credit hours.
MENG 6740 - Creative Nonfiction Writing

Credits: (3)  
Variable Title  
Typically Taught Spring Semester: Full Sem  
Description: In this course, students will study the art and craft of writing creative nonfiction. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing. May be repeated 2 times and up to 9 credit hours.

MENG 6750 - Fiction Writing

Credits: (3)  
Variable Title  
Typically Taught Spring Semester: Full Sem  
Description: In this course, students will study the art and craft of writing fiction. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing. May be repeated 2 times and up to 9 credit hours.

MENG 6760 - Poetry Writing

Credits: (3)  
Variable Title  
Typically Taught Spring Semester: Full Sem  
Description: In this course, students will study the art and craft of writing poetry. Along with writing their own original work, students will read a variety of contemporary texts and will critique their peers' writing. May be repeated 2 times and up to 9 credit hours.

MENG 6810 - Experimental Course

Credits: (1-6)  
Experimental  
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

MENG 6821 - Teaching Developmental Reading and Writing

Credits: (2)  
Description: This course introduces first-time teachers to the theory and practice of teaching developmental reading and writing. Note: Permission of instructor required to register.

MENG 6822 - Teaching College Writing

Credits: (2)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: This course introduces first-time teachers to the theory and practice of teaching college writing. Note: Permission of instructor required to register.

MENG 6823 - Teaching Practicum

Credits: (1)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: This course supports teachers in their second semester of teaching college writing. Students will meet regularly to develop teaching strategies, enhance grading skills, resolve problems that have arisen in their classes, and plan strategies and
procedures for classes they are teaching.
Note: Permission of instructor required to register.

**MENG 6830 - Directed Readings**

**Credits:** (1-3)
**Description:** This course allows students credit for individual study with a professor, usually for further study that grows out of course work. The student and professor agree to a written contract for study which must be approved by the program director. No more than 3 credit hours of directed readings may apply toward the MA degree unless approved by the program director. This course is designed to allow students to explore in depth and/or breadth, subject matter which goes beyond the established courses in the Master's Degree Program. May be repeated 3 times with a maximum of 9 credit hours.

**MENG 6861 - Practicum in Secondary English Education**

**Credits:** (2)
**Description:** This course provides a broad, practical background in teaching young adult (YA) literature for MENG students seeking secondary school licensure. Selection, evaluation, curriculum planning, and assessment in teaching literature will receive primary emphasis. Issues concerning community values and censorship will also receive our attention.
**Pre-requisite(s):** MED 6050 Curriculum Design, Evaluation, Assessment (3) must be taken prior to MED 6120/6861. We strongly recommend that MENG 6110 Writing for Teachers (3) or MENG 6230 Wasatch Range Writing Project Summer Institutes (3) be taken prior to MENG 6120/6861. MENG 6120 and MENG 6861 must be taken concurrently.

**MENG 6920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)
**Workshop**
**Description:** Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**MENG 6940 - Masters Project**

**Credits:** (2-6)
**Description:** This course provides for the creation and execution of a project growing out of graduate study particularly as it applies to the workplace. Project credit may be taken in increments of 1-3 hours in any term. May be repeated twice up to 6 credits.

**MENG 6950 - Creative Writing Thesis: Fiction, Nonfiction, Poetry**

**Credits:** (1-6)
**Description:** The course is designed as a rigorous academic and professional mentorship for students who intend to produce a MA thesis in creative writing. The thesis will include a manuscript of original writing with a critical foreword, both of which require extensive research and substantial writing on the thesis topic. The manuscript can be a creative response to literary works or original creative poetry, fiction, and/or nonfiction. The critical introduction will situate the creative component within the literary, historical, and/or theoretical context(s) of the creative component. Minimum of 3 hours required, with a possible maximum of 6 hours with approval. Credit/No Credit grading.
**Pre-requisite(s):** MENG 6730 - Creative Writing Forms and Crafts (3), must complete at least two workshops (6 Credits), MENG 6740 - Creative Nonfiction Writing (3)*, MENG 6750 - Fiction Writing (3)*, MENG 6760 - Poetry Writing (3)*. *Repeated with different titles. May be repeated three times for a maximum of six credit hours.

**MENG 6960 - Thesis**

**Credits:** (1-6)
**Description:** Thesis credit may be taken in increments of 1-3 hours in any term. The thesis is a capstone writing course for the
Master's Degree Program.
May be repeated 5 times with a maximum of 6 credit hours.

**MENG 6990 - Extension of Thesis/Project**

Credits: (1)
**Description:** This course allows students to continue to work on their thesis/project. The course is graded credit/no credit. May be repeated up to two times for a maximum of two credit hours.

**MET 1000 - Introduction to Mechanical Engineering Technology**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Introductory course for students majoring in mechanical engineering technology. The role of mechanical engineering technology and its place in the occupational spectrum. The experimental and analytical tools used in mechanical engineering technology and fundamentals of mechanical design and problem solving. College algebra and trigonometry strongly recommended.
**Pre-requisite(s):** MATH 1010 or Math ACT score of 23 or higher or placement test.

**MET 1500 - Mechanical Design for Engineering Technology**

Credits: (3)
**Description:** This course will focus on understanding the engineering design process within the MET discipline. Students will develop problem statements and use brainstorming techniques to generate design concepts. These design concepts are evaluated and implemented for possible solutions to bring a factious engineered product to market.
**Pre-requisite(s):** (MATH 1060 or MATH 1080) and MET 1000.

**MET 1890 INT - Cooperative Work Experience**

Credits: (1-3)
**Description:** Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.
**Pre-requisite(s):** PDD 1010, MATH 1080 and Permission of Instructor.

**MET 2500 - Modern Engineering Technologies**

Credits: (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** A survey of modern engineering technologies including, but not necessarily limited to, energy generation, nano systems, smart materials, robotics, lasers, transportation systems, and bioengineering.
**Pre-requisite(s):** MET 1500.

**MET 2890 INT - Cooperative Work Experience**

Credits: (1-3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.
**Pre-requisite(s):** Credit or concurrent enrollment in MFET 2300.

**MET 3050 - Dynamics for Engineering Technology**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Fundamentals of force, mass and acceleration, work and energy, and impulse and momentum applied to particles
and rigid bodies.

Pre-requisite(s): MATH 1210 and PHYS 2210 and (MFET 2300 or MFET 2310).

**MET 3150 - Engineering Technology Materials**

Credits: (3)
Description: Material properties, processing and selection of materials for technological applications. Design parameters for material selection of metals and nonmetals. Mechanical behavior and service failures of metallic alloys and other engineering materials at high and low temperatures. Lecture plus laboratory work in materials testing.
Pre-requisite(s): CHEM 1110 and (MFET 2300 or MFET 2320).

**MET 3300 - Computer Programming Applications of Mechanical Engineering Technology**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Applications of computer programming and computer software to problems in mechanical engineering technology. Lecture plus computer-based laboratory work.
Pre-requisite(s): MFET 2300 or MFET 2310.

**MET 3400 - Machine Design for Engineering Technology**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Application of engineering technology fundamentals to machine design. Techniques involved in designing and selecting individual machine parts.
Pre-requisite(s): MFET 2300 or MFET 2320.

**MET 3500 - Mechanical Measurements and Instrumentation**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Principles of temperature, pressure, strain, flow, force, and vibration measurements. Techniques of computerized data acquisition and reduction. Students will learn how to specify instrumentation systems, take data and interpret the results. Lecture plus laboratory work in selected topics.
Pre-requisite(s): EET 1850 and (MFET 2300 or MFET 2310).

**MET 3700 - Testing and Failure Analysis**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Mechanical testing of materials, fatigue, fracture, wear, corrosion, embrittlement, failure mechanisms and analysis, case studies of failures. Lecture plus laboratory work.
Pre-requisite(s): MET 3150 and (MFET 2300 or MFET 2320).

**MET 3890 INT - Cooperative Work Experience**

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.
Pre-requisite(s): Credit or concurrent enrollment in MET 3400.

**MET 4200 - Mechanical Design with FEA**
**MET 4300 - Heating, Ventilating & Air Conditioning**

Credits: (3)  
Description: Principles of heating, ventilating and air conditioning of buildings. Refrigeration systems, air and water distribution and solar energy. Indoor thermal environmental control.  
Pre-requisite(s): Permission of instructor.

**MET 4500 - Senior Project I**

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Description: A mechanical engineering technology project will be selected for team participation. Projects will require planning, analysis, design, development, production, testing, and documentation.  
Pre-requisite(s): MET 3400; AAS or AS Degree.

**MET 4510 - Senior Project II**

Credits: (3)  
Typically Taught Spring Semester: Full Sem  
Description: A mechanical engineering technology project will be selected for team participation. Projects will require planning, analysis, design, development, production, testing and documentation.  
Pre-requisite(s): MET 4500.  
Note: MET 4500 and MET 4510 are a two-course sequence, with MET 4500 only taught in fall semester and MET 4510 only taught in spring semester. The courses must be taken back-to-back.

**MET 4650 - Thermal Science**

Credits: (3)  
Typically Taught Spring Semester: Full Sem  
Description: Fundamental principles of thermal science for mechanical engineering technology. Basic thermal science theory with an emphasis on technological applications and systems. Lecture plus laboratory work in selected thermal science topics.  
Pre-requisite(s): MATH 1210, PHYS 2210 and CHEM 1110 or CHEM 1210.

**MET 4800 - Individual Research in Mechanical Engineering Technology**

Credits: (1-3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Special individual research and development projects in mechanical engineering technology. Credit and time determined by the student and the faculty project supervisor.  
Pre-requisite(s): Permission of instructor.

**MET 4830 - Directed Readings**

Credits: (1-3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Directed individual readings in mechanical engineering technology. Topic selected in consultation with instructor.  
Pre-requisite(s): Permission of instructor.
MET 4890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. Prior consent of the department chair and the employer are required.
Pre-requisite(s): MET 3400 and Permission of instructor.

MET 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized for the particular offering will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

MET 4990 - Seminar in Mechanical Engineering Technology

Credits: (1)
Description: Guest lectures from local industry, professionalism and engineering ethics, technology and society, and employment preparation.
Pre-requisite(s): MET 4500.

MFET 1000 - Manufacturing Engineering Technology Fundamentals

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $65.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This is an introductory course for students interested in majoring in Manufacturing Engineering Technology. Students will be exposed to Manufacturing Engineering Technology through several hands-on laboratory experiences that introduce them to concepts needed for future classes. Students will gain a clear understanding of degree requirements and possible career paths.

MFET 1150 - Pre-Professional Seminar in Manufacturing

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: An introductory course for students planning to major in Manufacturing Engineering Technology. An explanation of the Manufacturing Engineering Technology curriculum and its place in the occupational spectrum. Current job functions of manufacturing engineering technologists will be discussed by manufacturing engineers and technologists from industry.

MFET 1210 - Machining Principles Lecture/Lab I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: Consumables (aluminum, steel, tools), paper, lab support, computers, software licenses, lab equipment
Description: Introduction to machining processes through theory and practice including: setup and operation of the engine lathe & milling machine, machine and tool performance, inspection techniques, basic blueprint reading, and process planning. Students will utilize lab time to complete assignments as required. One lecture per week and two 3-hour labs per week are required.
MFET 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

MFET 1820 - Manufacturing Electricity and Electronics

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to basic electrical and electronic principles and the application of these principles to AC and DC circuits. The course will give students the foundation for required manufacturing courses in welding power supplies, motor controls and automation. An integrated hands-on lab will reinforce concepts taught in the classroom
Pre-requisite(s): MATH 1010 or QL.

MFET 1890 INT - Cooperative Work Experience

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Description: Open to all first year students in Manufacturing Engineering Technology. Department approval required before registration. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

MFET 2150 - Metal Forming, Casting and Welding

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Introduction to industrial metal forming, casting and welding processes, equipment selection, design criteria, shop procedures and terminology.
Two one-hour lectures per week and one two-hour lab
Co-Requisite(s): MFET 2150L. (MFET 2150L) is required.

MFET 2150L - Metal Forming, Casting & Welding Lab

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $75.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Lab application of theories taught in MFET 2150 by use of student projects.
Co-Requisite(s): MFET 2150.

MFET 2151 - Metal Forming Lecture/Lab

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Introduction to industrial metal forming processes, equipment selection, design criteria, shop procedures and terminology.
Pre-requisite(s): Instructor Approval.
MFET 2152 - Metal Casting Lecture/Lab

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Introduction to industrial metal casting processes, equipment selection, design criteria, shop procedures and terminology.
Pre-requisite(s): Instructor Approval.

MFET 2153 - Metal Welding Lecture/Lab

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, shop supplies for casting/welding/sheet metal
Description: Introduction to industrial metal welding processes, equipment selection, design criteria, shop procedures and terminology.
Pre-requisite(s): Instructor Approval.

MFET 2300 - Statics and Strength of Materials

Credits: (5)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: Class demonstration materials, paper, lab support, computers, software licenses, lab equipment
Description: Principles of forces, moments, resultants & static equilibrium of force systems, center of gravity, friction, and free body diagram analysis. Also concept of stress and strain, shear, bending moments, torsion, bending stresses in beams and stress resolution and shear.
Five lectures per week.
Pre-requisite(s): PHYS 2010/L or PHYS 2210/L; MATH 1060 or MATH 1080 or MATH 1210.

MFET 2310 - Statics for Engineering Technology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Topics include: Principles of forces, moments, resultants & static equilibrium of force systems, center of gravity, friction, and free body diagram analysis.
Pre-requisite(s): PS PHYS 2010/L or PS PHYS 2210/L and MATH 1210 or MATH 1110.

MFET 2320 - Mechanics of Materials

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Topics include: Principles of stress and strain, shear, bending moments, torsion, and bending stresses in beams.
Pre-requisite(s): MFET 2310.

MFET 2360 - Manufacturing Processes and Materials

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Paper, lab support, computers, software licenses, lab equipment
Description: Survey of industrially important processes used to change material shape and condition for industrial use. Survey of industrially important materials and the principles of material behavior.

**MFET 2410 - Quality Concepts and Statistical Applications**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $40.00
**Course Fee Purpose:** Paper, lab support, consumables, instructor supplies, simulation materials, computers, software licenses, lab equipment
**Description:** This is the first course in a series of three designed to impart the Six Sigma body of knowledge. It integrates managerial, technological and statistical concepts across all functions of an organization to ensure that a product is fit for use. Provides a foundation in current quality paradigms and introduces students to software tools (MS Excel and Minitab) used to statistically analyze problems encountered in manufacturing firms.
Three lectures per week.
**Pre-requisite(s):** MATH 1010 or Aleks (score: 30 or above).

**MFET 2440 - Computer Numeric Control (CNC) in Manufacturing**

**Credits:** (2)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Paper, lab support, computers, software licenses, lab equipment
**Description:** This course is designed for those who have little or no experience with CNC programming, setup or operations. Manual programming, APT programming, and Mazatrol (a conversational programming language) will be taught. In addition, an introduction to CAD/CAM will also be discussed.
A three-hour lab, once a week is required.
**Pre-requisite(s):** MATH 1080 or MATH 1050 and MATH 1060; MFET 1210.
**Co-Requisite(s):** MFET 2440L.
May be repeated 3 times up to 6 credit hours.

**MFET 2440L - CNC in Manufacturing Lab**

**Credits:** (1)
**Course Fee:** $25.00
**Course Fee Purpose:** Paper, lab support, computers, software licenses, lab equipment
**Description:** Applications of the theory taught in MFET 2440. Introduction to the setup & operation of the CNC lathe and mill.
One 3-hour lab per week.
**Co-Requsite(s):** MFET 2440.

**MFET 2500 - Process Automation I**

**Credits:** (1)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Computer lab refurbishment, software, lab aide
