- COMM 3550 - Organizational Communication Credits: (3)
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost Credits: (1-3)
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR Credits: (1-3)
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations Credits: (1-3)
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 Credits: (1-3)
- COMM 4500 - Topics in Communication Credits: (3) only when taught as “Political Communication”

Elective Courses (18 credit hours)

See department advisor for an approved list of additional non-Communication Department courses for the tracks (18 credit hours).
Communication (BS), Digital Media Emphasis

Communication Major

**Program Prerequisite:** Not required.

**Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.

**Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.

**Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.

**Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media (3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055), Social Media & Data Analytics (3109).

**CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media (090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

**Advisement**

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

**Admission Requirements**

 Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

**General Education**

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

**Program Learning Outcomes**

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.
- **Diversity:** Be sensitive to difference and discrimination in society and value diversity.
- **Career Readiness:** Be prepared to enter a professional career or graduate school.
- **Critical thinking:** Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- **Law/Ethics:** Understand communication law and ethics to enable legal and ethical communication.
- **Theory:** Understand how various communication theories have been developed, applied, and evaluated.
- **Research:** Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- **History:** Know the history of the communication discipline and its societal and professional implications.
Media: Use and produce media to communicate messages.
Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
Listening: Listen actively to acquire and analyze information.
Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas
Select one of the following emphasis areas in Communication:
- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 1130 - Media Writing Credits: (3) OR
- COMM 1140 - Writing for Workplace Communication Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- COMM 3650 - Communication Law Credits: (3)
- COMM 4890 INT - Communication Internship Credits: (1-3)
- COMM 4990 - Senior Seminar Credits: (3)

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- CHEM 1360 PS - Principles of Physical Science Credits: (3)
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life Credits: (3)
- GEO 1030 PS - Earthquakes and Volcanoes Credits: (3)
- GEO 1350 PS - Principles of Earth Science Credits: (3)
- HNRS 1500 PS - Perspectives in the Physical Sciences Credits: (3)
- PHYS 1010 PS - Elementary Physics Credits: (3)
- BTNY 1370 LS - Principles of Life Science Credits: (3)
- HNRS 1510 LS - Perspectives in the Life Sciences Credits: (3)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- HLTH 1020 LS - Science and Application of Human Nutrition Credits: (3)
Digital Media Emphasis (45 credit hours)

An emphasis in Digital Media will teach students about the importance of deadlines, budgets, and the impact their actions have on a production team. Advanced students will gain understanding about the art and power of communicating messages through video, audio, and the web.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- **Entertainment**: acquire skills in production, writing, and content development to prepare to pursue further graduate study and careers within the entertainment industry.
- **Digital Media Production**: acquire skills producing, writing, shooting, editing, directing, and distributing video content. Focused on creating and sharing institutional, educational, and commercial video productions.

**Required Courses (30 credit hours)**

- COMM 1500 - Introduction to Mass Communication Credits: (3)
- COMM 1560 - Audio Production and Performance Credits: (3)
- COMM 2200 - Multi-Camera Production and Performance Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- COMM 3740 - Writing for Screen Credits: (3)
- COMM 3750 - Advanced Cinematography and Editing Credits: (3)
- COMM 4760 - Media Management and Distribution Credits: (3)

Three of the following courses (9 credit hours)

- COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 2400 - Social Media for Communicators Credits: (3)
- COMM 2550 - Communication in Professional Settings Credits: (3)
- COMM 2730 - Digital Radio Production and Broadcast Credits: (1-3) (3 semesters at 1 credit hour each)
- COMM 2820 - Podcast Production Credits: (3)
- COMM 2890 - Introduction to Storytelling in Cinematic Virtual Reality Credits: (3)
- COMM 3060 - Listening and Interviewing Credits: (3)
- COMM 3070 - Performance Studies Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)
- COMM 3090 - Gender and Communication Credits: (3)
- COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
- COMM 3130 - News Reporting and Writing Credits: (3)
- COMM 3200 - Live Event Production Credits: (1-3)
- COMM 3220 - Editing Credits: (3)
- COMM 3350 - Visual Communication Credits: (3)
- COMM 3400 - Introduction to Public Relations Credits: (3)
- COMM 3440 - Public Relations Writing Credits: (3)
- COMM 3460 GLB - Public Relations and Social Media Credits: (3)
- COMM 3550 - Organizational Communication Credits: (3)
- COMM 3780 - Broadcast News Writing and Production Credits: (3)
- COMM 3820 - Persuasive Communication Credits: (3)
- COMM 3850 - Advertising Credits: (3)
COMM 3890 INT - Advanced Cooperative Work Experience with Signpost Credits: (1-3)
COMM 3891 INT - Advanced Cooperative Work Experience with KWCR Credits: (1-3)
COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 Credits: (1-3)
COMM 4130 - In-depth and Investigative Journalism Credits: (3)
COMM 4440 - Developing and Evaluating Health Communication Campaigns Credits: (3)
COMM 4500 - Topics in Communication Credits: (3) only when taught as digital media-related topic and with permission of instructor
COMM 4800 - Special Study and Individual Projects Credits: (1-3)

Elective Courses (15 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).
Communication (BS), Interpersonal & Family Communication Emphasis

Communication Major

**Program Prerequisite:** Not required.

**Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.

**Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.

HLTH 1020 LS - Science and Application of Human Nutrition Credits: (3)
ZOOL 1020 LS - Human Biology Credits: (3)
ZOOL 1030 LS - The Nature of Sex Credits: (3)

Interpersonal & Family Communication Emphasis (45 credit hours)

The Interpersonal & Family Communication emphasis is designed to help students understand, explain, and improve friendship, marriage, family, and other meaningful long- and short-term interpersonal relationships. Communication is the central enabling feature or framework through which we all function, create, and share meaning, sustain identities, and negotiate our relationships with each other and the rest of the world. This program of study will teach students to understand these complex, dynamic relationships.
Required Courses (24 credit hours)

- COMM 3050 - Conflict Management and Negotiation Credits: (3)
- COMM 3060 - Listening and Interviewing Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)
- COMM 3085 - Family Communication Credits: (3)
- COMM 3090 - Gender and Communication Credits: (3)
- COMM 3550 - Organizational Communication Credits: (3)

Required Outside the Department (6 credits)
- FAM 1400 - Marriage and Romantic Relationships Credits: (3) or
- CHF 2400 SS/EDI - Family Relations Credits: (3)

- WGS 1500 SS/EDI - Introduction to Women, Gender, and Queer Studies Credits: (3)

Three of the following courses (9 credit hours)

- COMM 1270 - Analysis of Argument Credits: (3)
- COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- COMM 2400 - Social Media for Communicators Credits: (3)
- COMM 2550 - Communication in Professional Settings Credits: (3)
- COMM 3070 - Performance Studies Credits: (3)
- COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
- COMM 3220 - Editing Credits: (3)
- COMM 3400 - Introduction to Public Relations Credits: (3)
- COMM 3460 GLB - Public Relations and Social Media Credits: (3)
- COMM 3820 - Persuasive Communication Credits: (3)
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations Credits: (1-3)

Elective Courses (12 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (12 credit hours).
Communication (BS), Multimedia Journalism Emphasis

Communication Major

**Program Prerequisite:** Not required.

**Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. Organizational Communication Emphasis (45 credit hours)

An Organizational Communication emphasis provides students with a foundation employers seek-effective professional communication in the workplace.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

**Generalist:** Does not specialize. The generalist has the communication skills and knowledge to lead groups and develop organizational strategies necessary for management. Rather than focus on the career areas of technical writing or training and development, the generalist combines organizational communication with expertise in a secondary subject of interest. Minors in disciplines such as Spanish, health administration, political science, psychology, or economics are a valuable combination with an Organizational Communication Generalist emphasis.
**Technical Writing:** Synthesizes technical information into messages easily understood by a given audience. Technical writers produce organizational policy and training manuals, employee newsletters, brochures, grant applications, and annual reports.

**Training & Development:** Conducts training needs assessments for diverse groups, designs workshops, writes training manuals, evaluates classroom technology and equipment needs, and evaluates training.

---

**Required Courses (27 credit hours)**

- COMM 3050 - Conflict Management and Negotiation Credits: (3)
- COMM 3060 - Listening and Interviewing Credits: (3)

- COMM 3080 - Intercultural Communication Credits: (3) or
- COMM 3090 - Gender and Communication Credits: (3)

- COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
- COMM 3350 - Visual Communication Credits: (3)
- COMM 3550 - Organizational Communication Credits: (3)

**Three of the following courses (9 credit hours)**

- COMM 1500 - Introduction to Mass Communication Credits: (3) OR
- COMM 2010 HU - Mass Media and Society Credits: (3)

- COMM 2200 - Multi-Camera Production and Performance Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- COMM 2400 - Social Media for Communicators Credits: (3)
- COMM 2550 - Communication in Professional Settings Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)

Communication (BS), Public Relations & Advertising Emphasis

Communication Major

Program Prerequisite: Not required.

Minor: Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.

Grade Requirements: A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.

Credit-Hour Requirements: A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.

Program Code: Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media (3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).

CIPC: Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media (090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

Writing: Write at a level expected of a professional communicator in a selected emphasis area.
Diversity: Be sensitive to difference and discrimination in society and value diversity.
Career Readiness: Be prepared to enter a professional career or graduate school.
Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
Theory: Understand how various communication theories have been developed, applied, and evaluated.
Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
History: Know the history of the communication discipline and its societal and professional implications.
Media: Use and produce media to communicate messages.
Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
Listening: Listen actively to acquire and analyze information.
Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas
Select one of the following emphasis areas in Communication:
- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 1130 - Media Writing Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- COMM 3650 - Communication Law Credits: (3)
- COMM 4890 INT - Communication Internship Credits: (1-3)
- COMM 4990 - Senior Seminar Credits: (3)

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- CHEM 1360 PS - Principles of Physical Science Credits: (3)
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life Credits: (3)
- GEO 1030 PS - Earthquakes and Volcanoes Credits: (3)
- GEO 1350 PS - Principles of Earth Science Credits: (3)
- HNRS 1500 PS - Perspectives in the Physical Sciences Credits: (3)
- PHYS 1010 PS - Elementary Physics Credits: (3)
- BTNY 1370 LS - Principles of Life Science Credits: (3)
- HNRS 1510 LS - Perspectives in the Life Sciences Credits: (3)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- HLTH 1020 LS - Science and Application of Human Nutrition Credits: (3)
- ZOOL 1020 LS - Human Biology Credits: (3)
- ZOOL 1030 LS - The Nature of Sex Credits: (3)
Public Relations & Advertising Emphasis (45 credit hours)

The Public Relations & Advertising emphasis provides students with theoretical and practical skills in writing, critical thinking, marketing, advertising, and communicating to influence public opinion across a range of media.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks (15 credits):

- Copywriting
- Health Care Public Relations
- International Public Relations
- Marketing
- Visual Communication

Required Courses (21 credit hours)

- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations Credits: (1-3) Must take 3 credits
  OR
- COMM 3130 - News Reporting and Writing Credits: (3)

- COMM 3350 - Visual Communication Credits: (3)
- COMM 3400 - Introduction to Public Relations Credits: (3)
- COMM 3440 - Public Relations Writing Credits: (3)
- COMM 3850 - Advertising Credits: (3)

- COMM 4400 INT - Public Relations Media and Campaigns Credits: (3) or
- COMM 4440 - Developing and Evaluating Health Communication Campaigns Credits: (3)

  Non-Communication Requirement for Major (3 credits)
  MKTG 3010 - Marketing Concepts and Practices Credits: (3)

Three of the following courses (9 credit hours)

- COMM 1500 - Introduction to Mass Communication Credits: (3)
- COMM 2200 - Multi-Camera Production and Performance Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- COMM 2400 - Social Media for Communicators Credits: (3)
- COMM 2820 - Podcast Production Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)
- COMM 3090 - Gender and Communication Credits: (3)
- COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
- COMM 3130 - News Reporting and Writing Credits: (3)
- COMM 3220 - Editing Credits: (3)
- COMM 3460 GLB - Public Relations and Social Media Credits: (3)
- COMM 3550 - Organizational Communication Credits: (3)
- COMM 3740 - Writing for Screen Credits: (3)
- COMM 3820 - Persuasive Communication Credits: (3)
- COMM 3840 - Data Visualization and Storytelling Credits: (3)
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations Credits: (1-3)
- COMM 4500 - Topics in Communication Credits: (3) only when taught as public relations/advertising-related topic and with permission of instructor

Elective Courses (15 credit hours)

Note:
See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).
Communication (BS), Social Media & Data Analytics

Communication Major

Program Prerequisite: Not required.

Minor: Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.

- HLTH 1020 LS - Science and Application of Human Nutrition Credits: (3)
- ZOOL 1020 LS - Human Biology Credits: (3)
- ZOOL 1030 LS - The Nature of Sex Credits: (3)
Social Media and Data Analytics Emphasis (45 credits)

An emphasis is Social Media and Data Analytics will provide students with an in-depth understanding of social media and how to strategically use it to communicate messages. Students will gain skills in creating social media content, analyzing social media data, and making data visualizations to communicate complex data to audiences.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Web Design: acquire skills in web design and web management
- Digital Strategy: acquire skills in digital strategy and advertising
- Audience Analytics: acquire skills in audience and consumer analysis and campaign analysis

Required for Social Media and Data Analytics Emphasis (30 credits)

- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- COMM 2400 - Social Media for Communicators Credits: (3)
- COMM 3350 - Visual Communication Credits: (3)
- COMM 3460 GLB - Public Relations and Social Media Credits: (3)
- COMM 3840 - Data Visualization and Storytelling Credits: (3)
- COMM 3880 - Audience Analysis Credits: (3)
- COMM 4880 - Social Media Metrics and Measurement Credits: (3)

Three of the following courses (9 credit hours)

- COMM 1560 - Audio Production and Performance Credits: (3)
- COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 2200 - Multi-Camera Production and Performance Credits: (3)
- COMM 2820 - Podcast Production Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)
- COMM 3090 - Gender and Communication Credits: (3)
- COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
- COMM 3120 - Advanced Public Speaking Credits: (3)
- COMM 3130 - News Reporting and Writing Credits: (3)
- COMM 3200 - Live Event Production Credits: (1-3)
- COMM 3220 - Editing Credits: (3)
- COMM 3400 - Introduction to Public Relations Credits: (3)
- COMM 3440 - Public Relations Writing Credits: (3)
- COMM 3550 - Organizational Communication Credits: (3)
- COMM 3740 - Writing for Screen Credits: (3)
- COMM 3750 - Advanced Cinematography and Editing Credits: (3)
- COMM 3820 - Persuasive Communication Credits: (3)
- COMM 3850 - Advertising Credits: (3)
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost Credits: (1-3)
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR Credits: (1-3)
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations Credits: (1-3)
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 Credits: (1-3)
- COMM 3894 - Advanced Cooperative Work Experience with Social Media and Data Analytics Lab Credits: (1-3)
- COMM 4440 - Developing and Evaluating Health Communication Campaigns Credits: (3)
- COMM 4760 - Media Management and Distribution Credits: (3)

Elective Courses (15 credit hours)

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).
Communication Teaching (BS), Communication Studies Emphasis

Communication Teaching Major (BS or BA)

**Program Prerequisite:** Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

**Minor:** Required.

**Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable).

**Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A minimum of 47-48 of these are required within the major, depending on the selected emphasis. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 24-36 of these are required within the major, depending on the selected emphasis.

**Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media (3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).

**CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media (090199), Interpersonal & Family (090901), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

**Advisement**

Communication students are required to meet with a faculty advisor at least annually for course and program advisement. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

**Admission Requirements**

Declare your program of study at the Communication Department office, Elizabeth Hall 330. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

**General Education**

Refer to Degree Requirements of this catalog for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. The following courses required for this major will also fulfill general education requirements: COMM 1020 HU or COMM 2010 HU and COMM 2110 HU CEL.

**Program Learning Outcomes**

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.
- **Diversity:** Be sensitive to difference and discrimination in society and value diversity.
- **Career Readiness:** Be prepared to enter a professional career or graduate school.
- **Critical thinking:** Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- **Law/Ethics:** Understand communication law and ethics to enable legal and ethical communication.
- **Theory:** Understand how various communication theories have been developed, applied, and evaluated.
- **Research:** Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- **History:** Know the history of the communication discipline and its societal and professional implications.
- **Media:** Use and produce media to communicate messages.
- **Interpersonal/Small Group:** Facilitate successful communication in interpersonal situations and small group settings.
- **Listening:** Listen actively to acquire and analyze information.
- **Speaking:** Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.
Emphasis Requirements

The State of Utah endorses secondary teachers in two areas of Communication: Speech and Journalism. Accordingly, the Communication Teaching major is divided into two emphasis areas: Communication Studies (Speech) and Multimedia Journalism (Journalism). All Communication Teaching majors must complete one of these two emphasis areas.

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must also complete required and elective courses from non-Communication departments.

Communication Courses Required of all Communication Teaching Majors (21 credit hours)

- COMM 1020 HU - Principles of Public Speaking Credits: (3) or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) *
- COMM 1130 - Media Writing Credits: (3)
- COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- COMM 3650 - Communication Law Credits: (3)
- COMM 4990 - Senior Seminar Credits: (3)

Note:

*Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching major, whichever is not used for Teacher Education admission requirements.

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- CHEM 1360 PS - Principles of Physical Science Credits: (3)
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life Credits: (3)
- GEO 1030 PS - Earthquakes and Volcanoes Credits: (3)
- GEO 1350 PS - Principles of Earth Science Credits: (3)
- HNRS 1500 PS - Perspectives in the Physical Sciences Credits: (3)

The following courses required for this major will also fulfill general education requirements: COMM 1020 HU or COMM 2010 HU and COMM 2110 HU CEL.

**Program Learning Outcomes**

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.
- **Diversity:** Be sensitive to difference and discrimination in society and value diversity.
- **Career Readiness:** Be prepared to enter a professional career or graduate school.
- **Critical thinking:** Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- **Law/Ethics:** Understand communication law and ethics to enable legal and ethical communication.
- **Theory:** Understand how various communication theories have been developed, applied, and evaluated.
- **Research:** Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- **History:** Know the history of the communication discipline and its societal and professional implications.
- **Media:** Use and produce media to communicate messages.
- **Interpersonal/Small Group:** Facilitate successful communication in interpersonal situations and small group settings.
- **Listening:** Listen actively to acquire and analyze information.
- **Speaking:** Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.
Emphasis Requirements
The State of Utah endorses secondary teachers in two areas of Communication: Speech and Journalism. Accordingly, the Communication Teaching major is divided into two emphasis areas: Communication Studies (Speech) and Multimedia Journalism ( Journalism). All Communication Teaching majors must complete one of these two emphasis areas.

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must also complete required and elective courses from non-Communication departments.

Communication Courses Required of all Communication Teaching Majors (21 credit hours)

- COMM 1020 HU - Principles of Public Speaking Credits: (3) or
  COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) *
- COMM 1130 - Media Writing Credits: (3)
- COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- COMM 3650 - Communication Law Credits: (3)
- COMM 4990 - Senior Seminar Credits: (3)

Note:
*Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching major, whichever is not used for Teacher Education admission requirements.

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory Credits: (3)
- COMM 3150 - Communication Research Methods Credits: (3)
- CHEM 1360 PS - Principles of Physical Science Credits: (3)
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life Credits: (3)
- GEO 1030 PS - Earthquakes and Volcanoes Credits: (3)
- GEO 1350 PS - Principles of Earth Science Credits: (3)
- HNRS 1500 PS - Perspectives in the Physical Sciences Credits: (3)
- PHYS 1010 PS - Elementary Physics Credits: (3)
- BTNY 1370 LS - Principles of Life Science Credits: (3)
- HNRS 1510 LS - Perspectives in the Life Sciences Credits: (3)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- HLTH 1020 LS - Science and Application of Human Nutrition Credits: (3)
- ZOOL 1020 LS - Human Biology Credits: (3)
- ZOOL 1030 LS - The Nature of Sex Credits: (3)
Multimedia Journalism Emphasis (26 credit hours)

Required Courses (18 credit hours)

COMM 1500 - Introduction to Mass Communication Credits: (3)

COMM 2250 HU - Essentials of Digital Media Credits: (3) OR
COMM 3740 - Writing for Screen Credits: (3)

COMM 3130 - News Reporting and Writing Credits: (3)
COMM 3220 - Editing Credits: (3)
COMM 3350 - Visual Communication Credits: (3)
COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School Credits: (3)

Electives (6 credit hours)

Select 6 credit hours of electives from the following with approval from the department's communication education advisor for the Multimedia Journalism emphasis.

COMM 1560 - Audio Production and Performance Credits: (3)
COMM 2200 - Multi-Camera Production and Performance Credits: (3)
COMM 3050 - Conflict Management and Negotiation Credits: (3)
COMM 3080 - Intercultural Communication Credits: (3)
COMM 3090 - Gender and Communication Credits: (3)
COMM 3100 - Small Group Facilitation and Leadership Credits: (3)
COMM 3440 - Public Relations Writing Credits: (3)
COMM 3550 - Organizational Communication Credits: (3)
COMM 3780 - Broadcast News Writing and Production Credits: (3)
COMM 3820 - Persuasive Communication Credits: (3)
COMM 4130 - In-depth and Investigative Journalism Credits: (3)
Emphasis Option for Bachelor of Integrated Studies

Communication (BIS)

- **Grade Requirements**: A grade of "C" or better in all courses.
- **Credit-Hour Requirements**: A minimum of 24 credit hours.
- **Program Code**: 3017
- **CIPC**: 090101

Course Requirements for BIS

Communication Courses Required (15 credit hours)

- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 1130 - Media Writing Credits: (3) or
  COMM 1140 - Writing for Workplace Communication Credits: (3)
- COMM 1500 - Introduction to Mass Communication Credits: (3) or
  COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- COMM 3000 - Communication Theory Credits: (3)

Additional Electives (9 credit hours)

*The required courses listed add up to 15 credits. The rest of your contract will consist of at least 3 elective courses you negotiate with an advisor.*
Minor

Communication Minor

**Grade Requirements:** A grade of "C" or better in all courses.
**Credit-Hour Requirements:** A minimum of 24 credit hours.
**Program Code:** 3017
**CIPC:** 090101

Course Requirements for Minor

Communication Courses Required (15 credit hours)

- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 1130 - Media Writing Credits: (3) or
- COMM 1140 - Writing for Workplace Communication Credits: (3)
- COMM 1500 - Introduction to Mass Communication Credits: (3) or
- COMM 2010 HU - Mass Media and Society Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- COMM 3000 - Communication Theory Credits: (3)

Electives (9 credit hours, including at least 6 upper-division)

Select 3 courses (9 credit hours) in consultation with and approval by your department advisor, 2 (6 credit hours) of which must be upper-division.

**Note:**

A maximum of 3 credit hours total from the following Communication courses may be counted for the minor: COMM 2210, COMM 2730, COMM 3890, COMM 3891, COMM 3892, COMM 3893, COMM 4210.
Teaching Minor

Communication Teaching Minor, Communication Studies Emphasis

Grade Requirements: A grade of "C" or better in minor courses.  
Credit-Hour Requirements: A minimum of 24 credit hours.  
Program Code: 3016  
CIPC: 131399

Students who select the Communication Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Course Requirements for Minor

Communication Studies Emphasis (24 credit hours)

Communication Courses Required (18 credit hours)

COMM 1020 HU - Principles of Public Speaking Credits: (3) or  
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) *

COMM 1130 - Media Writing Credits: (3)  
COMM 2270 - Argumentation and Debate Credits: (3)  
COMM 3000 - Communication Theory Credits: (3)  
COMM 3820 - Persuasive Communication Credits: (3)  
COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School Credits: (3)

Note:

* Students must take either COMM 1020 or COMM 2110 as a foundation course requirement for the Communication Teaching minor, whichever is not used for Teacher Education admission requirements.

Electives (6 credit hours)

Select 6 credit hours from the following in consultation with and approved by the department's communication education advisor for the Communication Studies emphasis.

COMM 2010 HU - Mass Media and Society Credits: (3)  
COMM 3050 - Conflict Management and Negotiation Credits: (3)  
COMM 3060 - Listening and Interviewing Credits: (3)  
COMM 3070 - Performance Studies Credits: (3)  
COMM 3100 - Small Group Facilitation and Leadership Credits: (3)  
COMM 3120 - Advanced Public Speaking Credits: (3)  
COMM 3550 - Organizational Communication Credits: (3)  
COMM 3650 - Communication Law Credits: (3)  
COMM 4150 - Rhetorical Theory and Criticism Credits: (3)
Communication Teaching Minor, Multimedia Journalism Emphasis

Grade Requirements: A grade of "C" or better in minor courses.
Credit-Hour Requirements: A minimum of 24 credit hours.
Program Code: 3018
CIPC: 131399

Students who select the Communication Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Course Requirements for Minor

Multimedia Journalism Emphasis (24 credit hours)

Communication Courses Required (18 credit hours)

COMM 1020 HU - Principles of Public Speaking Credits: (3) or
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) *

COMM 1130 - Media Writing Credits: (3)
COMM 1500 - Introduction to Mass Communication Credits: (3) or
COMM 2010 HU - Mass Media and Society Credits: (3)
COMM 3130 - News Reporting and Writing Credits: (3)
COMM 3650 - Communication Law Credits: (3)
COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School Credits: (3)

Note:

*Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching Minor, whichever is not used for Teacher Education Admission requirements.

Electives (6 credit hours)

Select 6 credit hours from the following in consultation with and approved by the department's Communication Education advisor for the Multimedia Journalism emphasis.

COMM 1560 - Audio Production and Performance Credits: (3)
COMM 2200 - Multi-Camera Production and Performance Credits: (3)
COMM 2250 HU - Essentials of Digital Media Credits: (3)
COMM 3220 - Editing Credits: (3)

COMM 4130 - In-depth and Investigative Journalism Credits: (3)
Department of English Language and Literature

Department Chair: Hal Crimmel
Location: Elizabeth Hall, Room 435
Telephone Contact: Emily Evensen 801-626-6251

Professors: James Russell Burrows, Hal Crimmel, Becky Jo Gesteland, Siân Griffiths, Mark LeTourneau, Karen Marguerite Moloney, Scott Rogers, John Schwiebert, Sally Bishop Shigley, Mahalingam Subbiah, Mikel Vause, Michael Wutz; Associate Professors: Jason Barrett-Fox, Christy Call, Susan McKay, Julia Panko, Ryan Ridge, Abraham Smith, Shelley Thomas; Assistant Professors: Courtney Craggett, Rebekah Cumpsty, David Hartwig, Megan McDonald Van Deventer, Emily Petersen, Chris Scheidler; Instructors: Toni Asay, Ryan Evans, Kristin Friederichs Champi, Jan Hamer, Kyra Hudson, Clint Johnson, Brooke Kelly, Becky Marchant, Sylvia Newman, José Otero, William Pollett, Debi Sheridan, Laura Stott, Sarah Vause

The Department of English Language and Literature offers a broad spectrum of language, literature and writing courses. English majors and minors, English teaching majors and minors, English majors with professional and technical writing emphasis and professional and technical writing minors, and English majors with creative writing emphasis, in consultation with English department advisors, can select programs individually designed to satisfy academic requirements. Furthermore, students preparing for careers in law, medicine, business, public relations and government service may find departmental courses highly beneficial. The English Department has also designed courses for the general student in introductory and intermediate writing and creative writing.

Students transferring to Weber State as English majors, with most of their junior and senior status completed, are required to take a minimum of 9 upper division credit hours, minors a minimum of 6 upper division credit hours. This requirement also applies to transfer graduate students.

English Composition Requirement

Students seeking the Associate of Applied Science degree must pass ENGL 1010 or ENGL 1005 with a "C" grade (2.0) or better in order to satisfy the composition requirement. Students seeking any other degree must successfully complete ENGL 2010 with a grade of "C" or higher. Students placed in developmental English courses ENGL 0900 and ENGL 0955 must also pass those courses with grades of "C" or higher. Please note that English composition courses, whether developmental or not, are sequential and can not be taken out of numerical order.

Successful completion of ENGL 2015 or ENGL 2010 with a grade of C or better satisfies the University core requirement for Composition. Entrance into ENGL 2015 or ENGL 2010 can be accomplished in the following ways: 1) passing ENGL 1005 or ENGL 1010 with a grade of C or better, 2) passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, 3) achieving an ACT English and Reading score of 29 or better, 4) a CLEP with essay test with a score of 50 or better, or 5) articulated transfer credit from another regionally accredited college or university.

English Placement

Students are placed in the English developmental/composition sequence of courses either by ACT sub-scores or by Accuplacer scores. As of 2019, there is a new version. If you took the Accuplacer test prior to 2019, contact the Department of English for details.

<table>

<td>Both Reading and Writing score 236 or below</td>
<td>ENGL 0900 or referred to the ESL office for non-native English speakers</td>
</tr>
</tbody>
</table>

*ACT scores in English and Reading expire after 4 years. ACCUPLACER scores expire after 48 months.

International students who meet the University's TOEFL and IELTS requirements for admission are cleared to register for ENGL 1005 or ENGL 1010.

International students who do not meet the University's TOEFL or IELTS requirements for admission and resident students for whom English is a second language who score 89 or below on the Accuplacer Test are required to take the LEAP Placement Test and complete appropriate ESL courses according to the test results. ESL classes fulfill foreign language credit toward a BA and AA degree or elective credit toward a BS and AS degree. Refer to the Learning English for Academic Purposes (LEAP) section of this catalog.

**Pathways for Completing your Composition Requirement**

Your placement shows where you need to begin in one of these course sequences to fulfill your English Composition requirement:

- ENGL 0900 → ENGL 0955 → ENGL 1010 → ENGL 2010 or
- ENGL 0900 → ENGL 0955 → ENGL 1010 → ENGL 2015 or
- ENGL 0900 → ENGL 1005 → ENGL 2010 or
- ENGL 0900 → ENGL 1005 → ENGL 2015

**Interdisciplinary Minors**

The English Department participates in the Asian Studies, Environmental Studies and Linguistics Minor/BIS Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

**Interdisciplinary Associate's**

The English Language and Literature Department participates in the interdisciplinary associate's degree in Workplace Communication and Writing (AS). Students who wish to enroll in this program should contact the English Language and Literature Department or one of the college advisors for the College of Arts & Humanities who will help them work out a schedule.

The English Department offers Face-to-Face (F2F), Hybrid, and Online (OL) classes.
The following definitions are intended to help faculty and students understand the differences between **Face-to-Face (F2F)**, **Hybrid**, and **Online (OL)** classes taught in the English Department.

If less than 15% of the class sessions are online, a course will be designated **Face-to-Face (F2F)**—the current default for courses.

If 30–70% of class sessions are conducted online, normally but not exclusively in Canvas, courses will be designated **Hybrid**. This is consistent with **WSU Online's** definition.

Classes that are 100% online will be defined as **Online (OL)**.

Classes will be designated as **F2F, Hybrid, or OL** prior to the time the department finalizes schedules for any given semester. The designation may not be changed once registration has opened or during the semester except in the event of extenuating circumstances such as injury, illness or university closure; Department Chair approval is required.

Within the various categories (**F2F, Hybrid, Online**) the table below illustrates how many online class sessions students can expect in each category. This number is dependent on how often a class meets: once a week (mainly evening classes), twice a week (TR or MW), and three times a week (MWF):

<table>
<thead>
<tr>
<th>Course Scheduled As:</th>
<th>How Many Sessions May Be Online?</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>F2F (up to 15% online)</strong></td>
<td><strong>Hybrid (30-70% online)</strong></td>
</tr>
<tr>
<td>1x/week: (14-15 classes/semester)</td>
<td>2 sessions, maximum</td>
</tr>
<tr>
<td>2x/week: (TR or MW: 30 classes/semester)</td>
<td>4-5 sessions, maximum</td>
</tr>
<tr>
<td>3x/week: (MWF: 42 classes/semester)</td>
<td>6 sessions, maximum</td>
</tr>
</tbody>
</table>
Associate of Arts

English (AA)

The Associate of Arts Program in the Department of English is designed for students who are passionate about reading and writing, who like being creative, and who want to develop professional skills for their careers. This program lets students earn an Associate's degree with 60 credit hours. It also forms the foundation for pursuing a Bachelor's degree in English or related fields.

Program Prerequisite: Not required.
Grade Requirements: A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.
Credit Hour Requirements: A total of 60 credit hours is required for graduation; a minimum of 18 of these must be from the program detailed below.
Program Code: 3022AA
CIP: 230101

Advisement

English students are required to meet with a faculty advisor at least annually for course and program advisement. Please contact Dr. John Schwiebert at jschwiebert@weber.edu for more information or to schedule an appointment.
For General Education advising, call 801-626-6631 or emailcahadvisor@weber.edu
Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirement is needed for this program.

General Education

Refer to Degree Requirements for Associate of Arts requirements. See Foreign Language Courses Required below to fulfill the Associate of Arts degree.
Consult with a departmental or college advisor for detailed general education guidelines.

Program Learning Outcomes

1. Writing and Editing Skills, including the inclusion of multimedia components --Includes writing, presentations made using presentation software from Microsoft and Adobe, and Document Design.
2. Creativity --In the interpretation of written and multimedia texts; in document and web design; in writing analytical papers and creative texts
3. Ability to Communicate In Writing, Orally and Visually --Includes the ability to gather, analyze, and communicate information and insights creatively and critically; Understan and apply various theoretical perspectives and discipline-specific terminology to interpretations of texts and/or analysis of data; demonstrate knowledge of research practices and application.

General Studies Requirement

Humanities HU/DV Credits: (3)

ENGL 2200 HU/EDI - Introduction to Literature Credits: (3)
Exploring English Career Areas

Take one course in each of the following areas:

Creative Writing

ENGL 2250 CA/EDI - CW: Introduction to Creative Writing Credits: (3)
ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction Credits: (3)
ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry Credits: (3)

Professional and Technical Writing

ENGL 2100 - Technical Writing Credits: (3)

English Education

ENGL 2420 - Young Adult Literature Credits: (3)

Exploring Literary Genres and Perspectives

Choose one of the following courses:

ENGL 2210 - Introduction to Film Theory and Criticism Credits: (3)
ENGL 2220 HU/EDI - Introduction to Fiction Credits: (3)
ENGL 2230 HU/EDI - Introduction to Drama Credits: (3)
ENGL 2240 HU/EDI - Introduction to Poetry Credits: (3)
ENGL 2510 HU/EDI - Masterpieces of Literature Credits: (3)
ENGL 2710 HU/EDI - Perspectives on Women's Literature Credits: (3)
ENGL 2750 HU - Topics and Ideas in the Humanities Credits: (3)

Following Your Interests in English

Choose one additional course from the following (not previously taken):

ENGL 2120 - Introduction to Writing and Document Design Credits: (3)
ENGL 2130 - Media and Technology in Texts Credits: (3)
ENGL 2140 - Introduction to Professional and Technical Editing Credits: (3)
ENGL 2150 - Gender and Culture in Workplace Writing Credits: (3)
ENGL 2160 - Introduction to Web-Based Technical Writing Credits: (3)
ENGL 2250 CA/EDI - CW: Introduction to Creative Writing Credits: (3)
ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction Credits: (3)
ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry Credits: (3)

Foreign Language: (TWO courses / total of 6 credits)

Complete two semesters of one of the following languages: French, German, Spanish, Italian, Portuguese, American Sign Language, Chinese, or Japanese.
Institutional Certificate

Professional and Technical Writing Certificate of Proficiency

**Program Prerequisite:** Concurrent or previous completion of a Bachelor's Degree from Weber State University or other regionally accredited institution.

**Grade Requirements:** A grade of "C" or better in each required course.

**Credit Hour Requirements:** A total of 18 credit hours of upper division technical writing courses.

Program Learning Outcomes

- Apply theories of technical communication in a variety of genres
- Write a variety of documents that reflect application of cognition
- Perform substantive edits
- Rhetorical approach to document design
- Construct documentation projects
- Develop a portfolio

Course Requirements for Certificate of Proficiency

**Professional and Technical Writing Courses Required (18 credit hours)**

1. Four required courses - 12 credit hours

   - ENGL 3100 - Professional and Technical Writing Credits: (3)
   - ENGL 3140 - Professional and Technical Editing Credits: (3)
   - ENGL 3190 CEL - Document Design Credits: (3)
   - ENGL 4120 CEL - Seminar and Practicum in Professional and Technical Writing Credits: (3)

2. Two of the following courses - 6 credit hours

   - ENGL 3120 - Foundations in Professional & Technical Writing Credits: (3)
   - ENGL 3130 - Digital Writing Technologies Credits: (3)
   - ENGL 3160 CEL - Grant Writing Credits: (3)
   - ENGL 4100 - Issues in Professional and Technical Writing Credits: (3)
   - ENGL 4110 - Content Management Credits: (3)
Bachelor of Arts

English (BA)

Program Prerequisite: Not required.
Minor: Required.
Grade Requirements: A 2.0 or better in all courses required for this major in addition to an overall GPA of 2.00 (C) or higher.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 39 of these must be valid English courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 27 of these must be English courses.
Program Code: 3022BA
CIPC: 230101

Advisement
English majors are required to meet with a faculty advisor at least twice annually for course and program advisement. If this requirement is not met, students may not be allowed to register for classes within their major. Call 801-626-6251 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirements are needed for this program.

General Education
Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.
Consult with a departmental advisor for detailed general education guidelines.

Program Learning Outcomes
Read, explicate & analyze texts within their cultural, historical, & critical contexts.
Research using a variety of methods & sources & document sources.
Apply relevant critical theories.
Write effectively about texts for varied purposes & audiences.
Demonstrate knowledge of writers, works, genres & periods.

Major Course Requirements for BA Degree

A minimum of 39 credit hours is required in English courses, of which at least 27 credit hours must be upper division (3000-4000 level courses). A Minor is also required.

Required English Courses (30 credit hours)
Foundation - 6 credit hours

1. **One** 2000-level course (3 credits) meeting University General Education Outcomes, excluding ENGL 2010. Those courses include the following, along with future courses bearing the HU designation:

   ENGL 2200 HU/EDI - Introduction to Literature Credits: (3)
   ENGL 2210 - Introduction to Film Theory and Criticism Credits: (3)
   ENGL 2220 HU/EDI - Introduction to Fiction Credits: (3)
   ENGL 2230 HU/EDI - Introduction to Drama Credits: (3)
   ENGL 2240 HU/EDI - Introduction to Poetry Credits: (3)
   ENGL 2510 HU/EDI - Masterpieces of Literature Credits: (3)
   ENGL 2710 HU/EDI - Perspectives on Women's Literature Credits: (3)

2. **Critical Approaches Course** (to be taken early in the major) / Prerequisite ENGL 2010:

   ENGL 3080 - Critical Approaches to Literature Credits: (3)

Core - 9 credit hours

1. **American Literature Surveys:** (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:
   ENGL 3610 - American Literature I Credits: (3)
   ENGL 3620 - American Literature II Credits: (3)

2. **British Literature Surveys:** (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:
   ENGL 3650 - British Literature I Credits: (3)
   ENGL 3660 - British Literature II Credits: (3)

3. **World Literature Surveys:** (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:
   ENGL 3510 HU/EDI - World Literature Credits: (3)

Areas of Specialization - 18 credit hours

Choose two courses each (6 credit hours) from **three of the four** areas listed below:

Area 1: American and British Literatures and Language

*Prerequisites as specified for individual courses in course catalog:

   ENGL 3030 - Structure of English Credits: (3)
   ENGL 3040 - History of the English Language Credits: (3)
   ENGL 3350 - Studies in Literary Genres Credits: (3) / Variable Title Course
   ENGL 3500 HU - Introduction to Shakespeare Credits: (3)
   ENGL 3750 HU - Topics and Ideas in Literature Credits: (3) / Variable Title Course
   ENGL 4520 - American Literature: Early and Romantic Credits: (3)
   ENGL 4530 - American Literature: Realism and Naturalism Credits: (3)
   ENGL 4540 - American Literature: Modern Credits: (3)
   ENGL 4545 - American Literature - World War II to 2001 Credits: (3)
   ENGL 4550 - American Literature: Contemporary Credits: (3)
   ENGL 4610 - British Literature: Medieval Credits: (3)
   ENGL 4620 - British Literature: Renaissance Credits: (3)
   ENGL 4630 - British Literature: Neoclassical and Romantic Credits: (3)
ENGL 4640 - British Literature: Victorian Credits: (3)
ENGL 4650 - British Literature: Modern Credits: (3)
ENGL 4655 - British Literature - World War II to 2001 Credits: (3)
ENGL 4660 - British Literature: Contemporary Credits: (3)
ENGL 4710 - Eminent Authors Credits: (3) / Variable Title Course
ENGL 4730 - Studies in Shakespeare Credits: (3)

Area 2: World Literatures and Language

Courses in this area will focus on world literatures excluding British and American literature / Prerequisites as specified for individual courses in course catalog:

ENGL 3010 - Introduction to Linguistics Credits: (3)
ENGL 3352 - Studies in World Literary Genres Credits: (3)
ENGL 3730 - Literatures of Cultures and Places Credits: (3) / Variable Title Course
ENGL 3752 - Topics and Ideas in World Literature and Language Credits: (3) / Variable Title Course
ENGL 4712 - Eminent World Authors Credits: (3) / Variable Title Course
ENGL 4760 - Irish Literature Credits: (3)

Area 3: Cultural and Media Studies

Courses in this area will focus on topics related to the study of culture and media / Prerequisites as specified for individual courses in course catalog:

ENGL 3120 - Foundations in Professional & Technical Writing Credits: (3)
ENGL 3130 - Digital Writing Technologies Credits: (3)
ENGL 3140 - Professional and Technical Editing Credits: (3)
ENGL 3190 CEL - Document Design Credits: (3)
ENGL 3300 - Children's Literature Credits: (3)
ENGL 3353 - Genres in Cultural and Media Studies Credits: (3) / Variable Title Course
ENGL 3540 - Adaptation Studies Credits: (3)
ENGL 3753 - Topics and Ideas in Cultural and Media Studies Credits: (3) / Variable Title Course
ENGL 4100 - Issues in Professional and Technical Writing Credits: (3) / Variable Title Course
ENGL 4110 - Content Management Credits: (3)
ENGL 4713 - Eminent Authors in Cultural and Media Studies Credits: (3) / Variable Title Course

Area 4: Writing and Interdisciplinary Studies

Courses in this area will focus on writing and/or the study of other disciplines as they connect with literature, language, or the craft of writing / Prerequisites as specified for individual courses in course catalog:

ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
ENGL 3100 - Professional and Technical Writing Credits: (3)
ENGL 3210 - Advanced College Writing Credits: (3)
ENGL 3250 - CW: Advanced Fiction Writing Credits: (3)
ENGL 3260 - CW: Advanced Poetry Writing Credits: (3)
ENGL 3280 - Biographical Writing Credits: (3)
ENGL 3354 - Genres in Writing and Interdisciplinary Studies Credits: (3) / Variable Title Course
ENGL 3375 - CW: Notebooks and Journals Forms and Crafts Credits: (3)
ENGL 3520 HU - Literature of the Natural World Credits: (3)
ENGL 3530 - The Literature of Business and Economics Credits: (3)
ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies Credits: (3) / Variable Title Course
ENGL 3880 - Philosophy and Literature Credits: (3)
Electives - 6 credit hours minimum

To complete the required 39 credit hours, majors in the English BA program may choose as electives any 3000 and 4000 level English courses, including those listed above, but excluding those they wish to count as language arts courses in partial fulfillment of the Bachelor of Arts requirement (see "Language Courses Required to fulfill the BA" below). / Prerequisites as specified for individual courses in course catalog.

Language Courses Required to Fulfill the BA

English majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course, but one course (3 credits) with a primary emphasis on language or writing is strongly recommended. Courses chosen for the BA language requirement cannot also be counted toward the English major.
English (BA), Creative Writing Emphasis

Program Prerequisite: Not required.
Minor: Required.
Grade Requirements: A 2.0 or better in all courses required for this major in addition to an overall GPA of 2.00 (C) or higher.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 39 of these must be English courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 30 of these must be English courses.
Program Code: 3020BA
CIPC: 231302

Advisement
English Creative Writing Emphasis majors are expected to meet with a faculty advisor at least twice annually for course and program advisement. Please call 801-626-6251 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirements are needed for this program.

General Education
Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.
Consult with a departmental advisor for detailed general education guidelines.
For CA, students must take ENGL 2250 (Intro to Creative Writing. This course will be required before you may take upper division creative writing coursework.)

Program Learning Outcomes
Experiment in writing and develop drafts into polished original work.
Show critical self-awareness.
Exhibit editorial proficiency.
Understand the professional writing environment.
Show knowledge of contemporary, canonical, and marginalized literature.

Major Course Requirements for BA Degree

A minimum of 39 credit hours is required in valid English courses, of which at least 30 credit hours must be upper division.

English Courses Required (39 credit hours)
The following courses are required. (ENGL 2200 and ENGL 2250 should be taken early in the major; ENGL 4940 should be taken in the final year)

- ENGL 2200 HU/EDI - Introduction to Literature Credits: (3)
- ENGL 2250 CA/EDI - CW: Introduction to Creative Writing Credits: (3)
- ENGL 3080 - Critical Approaches to Literature Credits: (3)
- ENGL 4560 - Contemporary Literature for Creative Writers Credits: (3)
- ENGL 4940 - CW: Senior Project Credits: (3)
Students choose two literature surveys from the five 3000-level courses

- **ENGL 3610 - American Literature I** Credits: (3)
- **ENGL 3620 - American Literature II** Credits: (3)
- **ENGL 3650 - British Literature I** Credits: (3)
- **ENGL 3660 - British Literature II** Credits: (3)
- **ENGL 3510 HU/EDI - World Literature** Credits: (3)

**Language & Literature (one of the following)**

- **ENGL 3010 - Introduction to Linguistics** Credits: (3)
- **ENGL 3030 - Structure of English** Credits: (3)
- **ENGL 3040 - History of the English Language** Credits: (3)
- Any 4000-level literature course Credits: (3)

**Introductory Writing Courses (one of the following)**

- **ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction** Credits: (3)
- **ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry** Credits: (3)
- **ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction** Credits: (3)
- **ENGL 2295 - CW: Introduction to Screenwriting** Credits: (3)

**Advanced Writing Courses (6 credits of the following)**

- **ENGL 3240 - CW: Writing Creative Nonfiction** Credits: (3)
- **ENGL 3250 - CW: Advanced Fiction Writing** Credits: (3)
- **ENGL 3260 - CW: Advanced Poetry Writing** Credits: (3)
- **ENGL 3290 - CW: Advanced Screenwriting** Credits: (3)
- **ENGL 4930 - Visiting Writing Master Class** Credits: (1) (repeatable four times)

**Forms and Craft Courses (any one of the following)**

- **ENGL 3350 - Studies in Literary Genres** Credits: (3)
- **ENGL 3355 - CW: Creative Nonfiction Forms and Craft** Credits: (3)
- **ENGL 3360 - CW: Short Story Forms and Craft** Credits: (3)
- **ENGL 3365 - CW: Novel Forms and Craft** Credits: (3)
- **ENGL 3370 - CW: Poetic Forms and Craft** Credits: (3)
- **ENGL 3375 - CW: Notebooks and Journals Forms and Crafts** Credits: (3)
- **ENGL 3380 - CW: Screenwriting Form and Craft** Credits: (3)

**Editing and Publication (3 credit hours)**

- **ENGL 3100 - Professional and Technical Writing** Credits: (3)
- **ENGL 3050 - Grammar, Style, and Usage for Advanced Writing** Credits: (3)
- **ENGL 4960 INT - Metaphor: Editing the Student Literary Journal** Credits: (3)

**Language Courses Required to fulfill the BA**

English majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course. No double dipping.
English (BA), Professional & Technical Writing Emphasis

Program Prerequisite: Not required.
Minor: Required.
Grade Requirements: A 2.0 or better in all courses required for this major in addition to an overall GPA of 2.00 (C) or higher.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 39 of these must be English courses. A total of 40 upper division credit hours is required (courses numbered 3000 or above); a minimum of 36 must be English courses.
Program Code: 3024BA
CIPC: 231303

Advisement
English majors are required to meet with a faculty advisor at least twice annually for course and program advisement. If this requirement is not met, students may not be allowed to register for classes within their major. Call 801-626-6251 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirements are needed for this program.

General Education
Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.
Consult with a departmental advisor for detailed general education guidelines.

Program Learning Outcomes
Students should apply theories of technical communication in a variety of genres demonstrating theoretical and practical foundation of the Professional and Technical Writing minor and emphasis.
Students should write a variety of documents that reflect application of sophisticated levels of cognition in addition to mastering basic concepts in the discipline.
Students should perform substantive editing in both hard copy and electronic copy. Students should demonstrate a rhetorical approach to document design by thoroughly analyzing situational audience, purpose, and context.
Students should construct documentation projects using single-sourcing and modular-writing principles.
Students should develop a portfolio of their best work containing a variety of documents created throughout the entire program; the portfolio may be in hardcopy, online, or a combination of media.

Major Course Requirements for BA Degree

A minimum of 39 credit hours is required in English courses, of which at least 36 credit hours must be upper division (3000-4000 level courses). A minor is also required.
Required English Courses (39 credit hours)

Foundation - 6 credit hours

3 credit hours

Critical Approaches Course (to be taken early in the major) / Prerequisite ENGL 2010:

- ENGL 2210 - Introduction to Film Theory and Criticism Credits: (3)
- ENGL 3080 - Critical Approaches to Literature Credits: (3)

3 credit hours

One 2000-level course (3 credits) meeting University General Education Outcomes, excluding ENGL 2010. Those courses include the following, along with future courses bearing the HU designation:

- ENGL 2200 HU/EDI - Introduction to Literature Credits: (3)
- ENGL 2210 - Introduction to Film Theory and Criticism Credits: (3)
- ENGL 2220 HU/EDI - Introduction to Fiction Credits: (3)
- ENGL 2230 HU/EDI - Introduction to Drama Credits: (3)
- ENGL 2240 HU/EDI - Introduction to Poetry Credits: (3)
- ENGL 2510 HU/EDI - Masterpieces of Literature Credits: (3)

Core - 6 credit hours

Choose two courses from the following areas.

American Literature Surveys

Prerequisite ENGL 2010:

- ENGL 3610 - American Literature I Credits: (3)
- ENGL 3620 - American Literature II Credits: (3)

British Literature Surveys

Prerequisite ENGL 2010:

- ENGL 3650 - British Literature I Credits: (3)
- ENGL 3660 - British Literature II Credits: (3)

World Literature

Prerequisite ENGL 2010:

- ENGL 3510 HU/EDI - World Literature Credits: (3)

Foundations in Professional and Technical Writing - 27 credit hours
Foundations in Professional and Technical Writing - 12 credit hours

- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3120 - Foundations in Professional & Technical Writing Credits: (3)
- ENGL 3140 - Professional and Technical Editing Credits: (3)
- ENGL 4120 CEL - Seminar and Practicum in Professional and Technical Writing Credits: (3) (senior year; must have advisor approval)

Electives in Professional and Technical Writing - 15 credit hours

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
- ENGL 3130 - Digital Writing Technologies Credits: (3)
- ENGL 3160 CEL - Grant Writing Credits: (3)
- ENGL 3190 CEL - Document Design Credits: (3)
- ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies Credits: (3)
- ENGL 4100 - Issues in Professional and Technical Writing Credits: (3)
- ENGL 4110 - Content Management Credits: (3)

Language Courses Required to Fulfill the BA

English majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course, but one course (3 credits) with a primary emphasis on language or writing is strongly recommended. Courses chosen as electives cannot also count as language arts courses.
English Teaching (BA)

Program Prerequisite: Must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

Minor: Optional. According to their career paths, some students may choose to complete a minor or teaching minor in another discipline, but it is not required to complete their English Education BA degree.

Grade Requirements: A 2.0 or better in all courses required for this major.

Credit Hour Requirements: A minimum of 120 credit hours is required for graduation; at least 39 of these must be English courses. Of those 120 credits, 40 must be upper division courses (courses numbered 3000 and above), with 36 or more upper division credits in English.

No minor is required.

Program Code: 3023BA

CIPC: 131305

Advisement
To expedite their program, English Teaching Majors should seek advisement before taking any upper division English courses. The English Teaching Methodology Block must be scheduled in coordination with both Secondary Teacher Education and Student Teaching. Call 801-626-6251 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study at the English department office, Elizabeth Hall 413. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education
Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. PSY SS1010, COMM HU1020 or COMM HU CEL2110 (take one), CHF SS/EDI1500 and one 2000 level Humanities English Literature course are recommended. Consult with a departmental advisor for other detailed general education guidelines.

Student Teaching
Student Teaching takes place during Secondary Education Student Teaching, which generally takes place during students' last semester prior to graduation. Before student teaching, English majors must have completed all required English and Education courses and completed the language requirements for the Bachelor of Art degree. Students must apply for student teaching through Teacher Education according to deadlines set by that department.

Program Learning Outcomes
Encourage Students to express their life experiences in writing a variety of genres such as journals, memoir, narrative, essay, and argument.
Secondaty Students read a wide range of literature from many periods in many genres to build an understanding of the many dimensions (e.g., philosophical, ethical, aesthetic) of human experience.
Plan a coherent curriculum based on student needs that integrate reading, writing, and language instructions guided by the Utah State Core Standards.
Demonstrate to their students how to apply knowledge of language structure, usage, and conventions to communicate effectively with a variety of audiences for different purposes.
Use appropriate formal and informal assessments to inform instruction and verify student learning.
Articulate a professional and coherent philosophy of language arts instruction based on current practices, the connections between reading and writing processes, and current research in the field of teaching English that promotes respect for physical, ethnic, gender, and cultural diversity.
Major Course Requirements for English Teaching BA Degree

Minimum of 40 credit hours in English courses of which at least 34 credit hours must be upper division (3000-4000 level courses). A minor field of study is no longer required.

Required English Courses (40 credit hours)

Foundation - 6 credit hours

1. **One** 2000-level course (3 credits) meeting University General Education Outcomes, excluding ENGL 2010. Those courses include the following, along with future courses bearing an HU designation:

   - ENGL 2200 HU/EDI - Introduction to Literature **Credits:** (3)
   - ENGL 2220 HU/EDI - Introduction to Fiction **Credits:** (3)
   - ENGL 2230 HU/EDI - Introduction to Drama **Credits:** (3)
   - ENGL 2240 HU/EDI - Introduction to Poetry **Credits:** (3)
   - ENGL 2510 HU/EDI - Masterpieces of Literature **Credits:** (3)
   - ENGL 2710 HU/EDI - Perspectives on Women's Literature **Credits:** (3)

2. **Critical Approaches Course** (to be taken early in the major) / **Prerequisite ENGL 2010:**

   - ENGL 2210 - Introduction to Film Theory and Criticism **Credits:** (3)
   - ENGL 3080 - Critical Approaches to Literature **Credits:** (3)

Core - 12 credit hours

1. **American Literature Surveys:** (both of the following) / **Prerequisite ENGL 2010:**

   - ENGL 3610 - American Literature I **Credits:** (3)
   - ENGL 3620 - American Literature II **Credits:** (3)

2. **British Literature Surveys:** (both of the following) / **Prerequisite ENGL 2010:**

   - ENGL 3650 - British Literature I **Credits:** (3)
   - ENGL 3660 - British Literature II **Credits:** (3)

Areas of Specialization - 6 credit hours

Choose **one** course each (3 credits) from **both** of the areas listed below:

World Literatures and Language

Courses in this area will focus on world literatures excluding British and American literature / **Prerequisites as specified for individual courses in course catalog:**

   - ENGL 3010 - Introduction to Linguistics **Credits:** (3)
   - ENGL 3352 - Studies in World Literary Genres **Credits:** (3)
   - ENGL 3510 HU/EDI - World Literature **Credits:** (3)
   - ENGL 3730 - Literatures of Cultures and Places **Credits:** (3) / **Variable Title Course**
   - ENGL 3752 - Topics and Ideas in World Literature and Language **Credits:** (3) / **Variable Title Course**
   - ENGL 4712 - Eminent World Authors **Credits:** (3) / **Variable Title Course**
   - ENGL 4760 - Irish Literature **Credits:** (3)
Writing and Interdisciplinary Studies

Courses in this area will focus on writing and/or the study of other disciplines as they connect with literature, language, or the craft of writing. Prerequisites as specified for individual courses in course catalog:

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: 3
- ENGL 3100 - Professional and Technical Writing Credits: 3
- ENGL 3210 - Advanced College Writing Credits: 3
- ENGL 3250 - CW: Advanced Fiction Writing Credits: 3
- ENGL 3260 - CW: Advanced Poetry Writing Credits: 3
- ENGL 3280 - Biographical Writing Credits: 3
- ENGL 4560 - Contemporary Literature for Creative Writers Credits: 3

Methodology - 13 credit hours

Take all of the following:

- ENGL 2420 - Young Adult Literature Credits: 3
- ENGL 3020 - Teaching English/Language Arts Credits: 3
- ENGL 3410 INT - The Teaching of Writing Credits: 3
- ENGL 3755 - Topics in English Teaching Credits: 3
- ENGL 4910 - Capstone in English Teaching Credits: 1

Electives (minimum of 3 credit hours)

To complete the required 40 credit hours, English Teaching majors may choose as electives any 2000, 3000, or 4000 level English courses, excluding those they wish to count as language arts courses in partial fulfillment of the Bachelor of Arts requirement (see "Language Courses Required to fulfill the BA" below). Prerequisites as specified for individual courses in course catalog.

English Teaching majors are encouraged to take either ENGL 3500 HU - Introduction to Shakespeare, or ENGL 4730 - Studies in Shakespeare.

Language Courses Required to Fulfill the BA

English Teaching majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course. Courses chosen for the BA language requirement cannot also be counted toward the English major.
Emphasis Option for Bachelor of Integrated Studies

English (BIS)

The English Department participates in the BIS degree program. For an English concentration, students should take a minimum of 18 credit hours as approved by the English Department. Students may choose either a literature concentration or a writing concentration. BIS students must meet with the English Department Chair to design their English component.

The Bachelor of Integrated Studies (BIS) best suits the student who has developed a sense of his or her educational and life goals, and who is looking for ways to express those goals through an individualized university program. The BIS Program serves the needs of the student who wants to:

- create a specific academic program
- obtain a broad liberal education
- prepare for particular career goals and/or graduate school

To accomplish these general outcomes, the BIS student completes course work in three different disciplines. As a culminating experience, the student then synthesizes the three disciplines in a capstone project. For information about the requirements of the BIS Program, look at the BIS web site at weber.edu/bis/.

Program Prerequisite: Enroll into the BIS Program with an interview with the BIS Program Coordinator. Call 626-7713 to talk with the BIS secretary and schedule an appointment.

Grade Requirements: Receive a minimum grade of "C" (2.0) in each of the courses taken for the three emphases in addition to a minimum cumulative GPA of 2.5. Classes listed on the BIS contract must be taken for a letter grade; special exams, CLEP or credit/no credit are not allowed for contract classes.

Program Code: 3022
CIPC: 230101

Program Learning Outcomes

Interdisciplinary Work-Made multiple connections across three academic disciplines.
High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
Capstone Signature Work-Synthesized and reported key research/skills/theories from academic disciplines.
Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
Academic speaking and writing-Used effective oral and written English-language skills
Post-Graduate Planning-Planned for careers and/or graduate programs.
Minor

English Minor

Grade Requirements: A grade of 2.0 or better in all courses used toward the minor.

Credit Hour Requirements: Minimum of 21 hours of English courses. ENGL 1010 and ENGL 2010 do not count toward an English minor, but ENGL 2010 is a pre-requisite for the required courses and should be taken early.

Program Code: 3022
CIPC: 230101

Course Requirements for Minor

Required English Courses (21 credit hours)

Foundation - 6 credit hours

1. One 2000-level course (3 credits) meeting University General Education Outcomes, excluding ENGL 2010. Those courses include the following, along with future courses bearing the HU designation:

   ENGL 2200 HU/EDI - Introduction to Literature Credits: (3)
   ENGL 2220 HU/EDI - Introduction to Fiction Credits: (3)
   ENGL 2230 HU/EDI - Introduction to Drama Credits: (3)
   ENGL 2240 HU/EDI - Introduction to Poetry Credits: (3)
   ENGL 2420 - Young Adult Literature Credits: (3)
   ENGL 2510 HU/EDI - Masterpieces of Literature Credits: (3)
   ENGL 2710 HU/EDI - Perspectives on Women's Literature Credits: (3)

2. Critical Approaches Course (to be taken early in the minor) / Prerequisite ENGL 2010:

   ENGL 3080 - Critical Approaches to Literature Credits: (3)

Core - 9 credit hours

1. American Literature Surveys: (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:

   ENGL 3610 - American Literature I Credits: (3)
   ENGL 3620 - American Literature II Credits: (3)

2. British Literature Surveys: (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:

   ENGL 3650 - British Literature I Credits: (3)
   ENGL 3660 - British Literature II Credits: (3)

3. World Literature Surveys: (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:

   ENGL 3510 HU/EDI - World Literature Credits: (3)

Areas of Specialization - 6 credit hours

Choose one course each (3 credit hours) from three of the four areas listed below:
Area 1: American and British Literatures and Language

Prerequisites as specified for individual courses in course catalog:

ENGL 3030 - Structure of English Credits: (3)
ENGL 3040 - History of the English Language Credits: (3)
ENGL 3350 - Studies in Literary Genres Credits: (3) / Variable Title Course
ENGL 3500 HU - Introduction to Shakespeare Credits: (3)
ENGL 3750 HU - Topics and Ideas in Literature Credits: (3) / Variable Title Course
ENGL 4520 - American Literature: Early and Romantic Credits: (3)
ENGL 4530 - American Literature: Realism and Naturalism Credits: (3)
ENGL 4540 - American Literature: Modern Credits: (3)
ENGL 4545 - American Literature - World War II to 2001 Credits: (3)
ENGL 4550 - American Literature: Contemporary Credits: (3)
ENGL 4610 - British Literature: Medieval Credits: (3)
ENGL 4620 - British Literature: Renaissance Credits: (3)
ENGL 4630 - British Literature: Neoclassical and Romantic Credits: (3)
ENGL 4640 - British Literature: Victorian Credits: (3)
ENGL 4650 - British Literature: Modern Credits: (3)
ENGL 4655 - British Literature - World War II to 2001 Credits: (3)
ENGL 4660 - British Literature: Contemporary Credits: (3)
ENGL 4710 - Eminent Authors Credits: (3) / Variable Title Course
ENGL 4730 - Studies in Shakespeare Credits: (3)

Area 2: World Literatures and Language

Courses in this area will focus on world literatures excluding British and American literature / Prerequisites as specified for individual courses in course catalog:

ENGL 3010 - Introduction to Linguistics Credits: (3)
ENGL 3352 - Studies in World Literary Genres Credits: (3)
ENGL 3730 - Literatures of Cultures and Places Credits: (3) / Variable Title Course
ENGL 3752 - Topics and Ideas in World Literature and Language Credits: (3) / Variable Title Course
ENGL 4712 - Eminent World Authors Credits: (3) / Variable Title Course
ENGL 4760 - Irish Literature Credits: (3)

Area 3: Cultural and Media Studies

Courses in this area will focus on topics related to the study of culture and media / Prerequisites as specified for individual courses in course catalog:

ENGL 3300 - Children's Literature Credits: (3)
ENGL 3353 - Genres in Cultural and Media Studies Credits: (3) / Variable Title Course
ENGL 3540 - Adaptation Studies Credits: (3)
ENGL 3753 - Topics and Ideas in Cultural and Media Studies Credits: (3) / Variable Title Course
ENGL 4713 - Eminent Authors in Cultural and Media Studies Credits: (3) / Variable Title Course
Area 4: Writing and Interdisciplinary Studies

Courses in this area will focus on writing and/or the study of other disciplines as they connect with literature, language, or the craft of writing. Prerequisites as specified for individual courses in course catalog:

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3210 - Advanced College Writing Credits: (3)
- ENGL 3250 - CW: Advanced Fiction Writing Credits: (3)
- ENGL 3260 - CW: Advanced Poetry Writing Credits: (3)
- ENGL 3280 - Biographical Writing Credits: (3)
- ENGL 3354 - Genres in Writing and Interdisciplinary Studies Credits: (3) / Variable Title Course
- ENGL 3520 HU - Literature of the Natural World Credits: (3)
- ENGL 3530 - The Literature of Business and Economics Credits: (3)
- ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies Credits: (3) / Variable Title Course
- ENGL 3880 - Philosophy and Literature Credits: (3)
- ENGL 4560 - Contemporary Literature for Creative Writers Credits: (3)
Literary Editing Minor

The minor in Literary Editing introduces students to the knowledge base, skills, and practical experience needed to work in the literary publishing industry. It offers a good choice to anyone interested in literature, writing, visual design, communication, printing, or publishing, and it is an excellent complement to a variety of majors.

Program Prerequisite: None required. However, some of the individual course options have a prerequisite or corequisite, as shown below.

Grade Requirements: A grade of 2.0 or better in all courses used toward the minor.

Credit Hour Requirements: 18 credit hours, apportioned as directed below.

Program Code: 3086
CIPC: 231302

Course Requirements for Literary Editing Minor

Students will select a course/course combination from each of the 6 areas below.

Introductory Creative Writing

Students will choose one 3-credit course from the following:

ENGL 2250 CA/EDI - CW: Introduction to Creative Writing Credits: (3)
ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction Credits: (3)
ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry Credits: (3)
ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction Credits: (3)
ENGL 2295 - CW: Introduction to Screenwriting Credits: (3)

Advanced Creative Writing

Students will choose one 3-credit course from the following:

ENGL 3240 - CW: Writing Creative Nonfiction Credits: (3)
ENGL 3250 - CW: Advanced Fiction Writing Credits: (3)
ENGL 3260 - CW: Advanced Poetry Writing Credits: (3)
ENGL 3290 - CW: Advanced Screenwriting Credits: (3)

Contemporary Creative Writing as Literature

Students will choose one 3-credit course from the following:

ENGL 3510 HU/EDI - World Literature Credits: (3)
ENGL 4550 - American Literature: Contemporary Credits: (3)
ENGL 4560 - Contemporary Literature for Creative Writers Credits: (3)
ENGL 4660 - British Literature: Contemporary Credits: (3)

Grammar and Editing

Students will choose one 3-credit course from the following:

ENGL 2140 - Introduction to Professional and Technical Editing Credits: (3)
Layout and Graphics

Students will choose one 3-credit course or a 3-credit course combination from the following:

- ART 2420A - Bitmap Imaging Credits: (1)
- ART 2420B - Vector Drawing Credits: (1)
- ART 2420C - Digital Page Composition Credits: (1)
- ART 2430 - Introduction to Graphic Design Credits: (3)
- COMM 3350 - Visual Communication Credits: (3)
- ENGL 3190 CEL - Document Design Credits: (3)

Practical Experience

Students will choose one 3-credit course from the following:

- ENGL 4900 - Internships in Literary and Textual Studies Credits: (1-3)
- ENGL 4960 INT - Metaphor: Editing the Student Literary Journal Credits: (3)
Professional and Technical Writing Minor/BIS

**Grade Requirements:** A grade point of 2.0 or better in all courses within the academic minor.

**Credit Hour Requirements:** This minor consists of 18 credit hours of upper division technical writing courses.

**Program Code:** 3024

**CIPC:** 231303

Course Requirements for Minor

Professional and Technical Writing Courses Required (18 credit hours)

1. **Four required courses - 12 credit hours**

   - ENGL 3100 - Professional and Technical Writing **Credits:** (3)
   - ENGL 3140 - Professional and Technical Editing **Credits:** (3)
   - ENGL 3190 CEL - Document Design **Credits:** (3)
   - ENGL 4120 CEL - Seminar and Practicum in Professional and Technical Writing **Credits:** (3)

2. **Two of the following courses - 6 credit hours**

   - ENGL 3120 - Foundations in Professional & Technical Writing **Credits:** (3)
   - ENGL 3130 - Digital Writing Technologies **Credits:** (3)
   - ENGL 3160 CEL - Grant Writing **Credits:** (3)
   - ENGL 4100 - Issues in Professional and Technical Writing **Credits:** (3)
   - ENGL 4110 - Content Management **Credits:** (3)
Screenwriting Minor

The Screenwriting Minor introduces students to the concepts, skills, and practical experience needed to enter the growing screenwriting industries. It offers an attractive opportunity for students interested in creative writing of any kind, film studies, theater, video game design, genre adaptation (print or stage to film), and film design or production. As such, it would complement many majors, among them English, Creative Writing, Theatre, Visual Art and Design, Communication, or Film Studies.

Program Prerequisite: None required. However, some of the individual course options have a prerequisite or corequisite.
Grade Requirements: A grade of 2.0 or better in all courses used toward the minor.
Credit Hour Requirements: 18 credit hours, apportioned as directed below.
Program Code: 3104
CIPC: 500504

Course Requirements for Screenwriting Minor

Core (12 credit hours)

Complete the following 3-credit courses:

ENGL 2210 - Introduction to Film Theory and Criticism Credits: (3)
ENGL 2295 - CW: Introduction to Screenwriting Credits: (3) or
COMM 3740 - Writing for Screen Credits: (3)
ENGL 3290 - CW: Advanced Screenwriting Credits: (3)
ENGL 3380 - CW: Screenwriting Form and Craft Credits: (3)

Introductory (3 credit hours)

Choose one 3-credit course from the following:

ENGL 2230 HU/EDI - Introduction to Drama Credits: (3)
ENGL 2250 CA/EDI - CW: Introduction to Creative Writing Credits: (3)
ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction Credits: (3)
ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry Credits: (3)
ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction Credits: (3)

Enhancement (3 credit hours)

Choose one 3-credit course from the following:

ENGL 3240 - CW: Writing Creative Nonfiction Credits: (3)
ENGL 3250 - CW: Advanced Fiction Writing Credits: (3)
ENGL 3260 - CW: Advanced Poetry Writing Credits: (3)
ENGL 3355 - CW: Creative Nonfiction Forms and Craft Credits: (3)
ENGL 3360 - CW: Short Story Forms and Craft Credits: (3)
ENGL 3365 - CW: Novel Forms and Craft Credits: (3)
ENGL 3370 - CW: Poetic Forms and Craft Credits: (3)
ENGL 3540 - Adaptation Studies Credits: (3)
Teaching Minor

English Teaching Minor

Grade Requirements: A grade of 2.0 or better in all courses used toward the minor.

Credit Hour Requirements: Minimum of 25 credit hours of English courses. ENGL 1010, ENGL 2010, and lower division HU general education literature courses do not count toward an English teaching minor.

Program Code: 3023
CIPC: 131305

Students who select the English Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Student Teaching

Student Teaching takes place during Secondary Education Student Teaching, which generally takes place during students' last semester prior to graduation. Before student teaching, English majors must have completed all required English and Education courses and completed the language requirements for the Bachelor of Art degree. Students must apply for student teaching through Teacher Education according to deadlines set by that department.

Course Requirements for Minor

Required English Courses (25 credit hours)

Foundation - 3 credit hours

Critical Approaches Course (to be taken early in the minor) / Prerequisite ENGL 2010:

ENGL 3080 - Critical Approaches to Literature Credits: (3)

Core - 6 credit hours

1. American Literature Surveys: (one of the following) / Prerequisite ENGL 2010:
   ENGL 3610 - American Literature I Credits: (3)
   ENGL 3620 - American Literature II Credits: (3)

2. British Literature Surveys: (one of the following) / Prerequisite ENGL 2010:
   ENGL 3650 - British Literature I Credits: (3)
   ENGL 3660 - British Literature II Credits: (3)

Methodology - 13 credit hours

Take all of the following:

ENGL 2420 - Young Adult Literature Credits: (3)
ENGL 3020 - Teaching English/Language Arts Credits: (3)
ENGL 3410 INT - The Teaching of Writing Credits: (3)
ENGL 3755 - Topics in English Teaching Credits: (3)
ENGL 4910 - Capstone in English Teaching Credits: (1)

Areas of Specialization - 3 credit hours

Choose one course from the area listed below:

Writing and Interdisciplinary Studies

Courses in this area will focus on writing and/or the study of other disciplines as they connect with literature, language, or the craft of writing / Prerequisites as specified for individual courses in course catalog:

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)
- ENGL 3210 - Advanced College Writing Credits: (3)
- ENGL 3250 - CW: Advanced Fiction Writing Credits: (3)
- ENGL 3260 - CW: Advanced Poetry Writing Credits: (3)
- ENGL 3280 - Biographical Writing Credits: (3)
Department of Foreign Languages

Department Chair: Isabel Asensio
Location: Elizabeth Hall, Room 434
Telephone Contact: Sandy Thomas 801-626-6183

Professors: Isabel Asensio, Diego Batista, Craig Bergeson, Thomas Mathews; Associate Professors: Electra Fielding, Aubrey Jones Kubiak, Kacy Peckenpaugh, John Trimble; Assistant Professors: Youn Soo Kim Goldstein, Cynthia Jones, Vicente Iranzo; Instructors: Tomono Adachi, Javier Berzal Rojo, Dori Huang, Andrea Schwartz

The Department of Foreign Languages promotes global awareness and intercultural understanding by providing instruction and study abroad opportunities in various languages. We prepare majors and minors to function effectively in a foreign language by offering courses in literature, culture, linguistics, pedagogy and language for professional purposes.

A bachelor of arts degree is offered. Students may select a regular major, a teaching major or a major with a commercial emphasis in French, German or Spanish. Regular and teaching minors are offered in these three languages as well. In addition, a Japanese minor is offered, and the department participates in Asian Studies, European Studies and Latin American Studies minors and in a departmental Honors Program. A language emphasis for the BIS degree requires a minimum of 18 hours, 15 of which must be upper-division course work. Courses in other languages may be offered as need and resources allow. The curriculum is based on the National Standards for measuring proficiency. Each course is designed to foster linguistic skills and to increase the student's ability to participate in the culture.

Foreign Language Requirement for the Bachelor of Arts Degree

The Bachelor of Arts degree includes a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:

- Documentation of a proficiency level of "Intermediate Low" or better through an examination administered by the WSU Foreign Language Department or through an examination by a recognized testing agency.
- Completion of WSU foreign language course ASL 2020 or CHNS 2020 or FRCH 2020 or GRMN 2020 or ITLN 2020 or JPNS 2020 or PTGS 2020 or SPAN 2020 with a grade of "C" or higher, or comparable transfer credit.
- Completion of any upper-division WSU foreign language course with a grade of "C" or higher, or comparable transfer credit.
- Students for whom English is a second language may meet the BA foreign language requirement by verifying their proficiency in their native (non-English) language in cooperation with the Foreign Language Department and verifying their proficiency in English as a Second language by passing the ESL Special Examination.
- Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at Salt Lake Community College (SLCC). The signer must "produce and maintain American Sign Language with continuity and precision."
- Completion of SLCC's American Sign Language Course ASL 1050 with a grade of "C" or higher, or comparable transfer credit.
- Completion of twelve semester-hours of foreign language.
Obtaining Foreign Language Credit for Prior Language Experience

Students with prior language experience may obtain lower-division foreign language credit by completing one of the following options:

- Students may obtain credit for 1010, 1020, 2010 and 2020 by passing a higher numbered course with a minimum grade of "C".
- Students may obtain credit for 1010, 1020, 2010 and 2021 through examination, but only in those languages in which the Department of Foreign Languages has expertise (usually limited to French, German, Japanese and Spanish). This examination is administered regularly by the department. Credit for Humanities General Education (2020) cannot be obtained through examination.

Upon payment of a nominal fee, hours earned through either option are recorded as "credit" on the transcript and do not affect the student's GPA. The department may accept results from other foreign language testing agencies as evidence of proficiency. Application for credit is to be made at the office of the Department of Foreign Languages.

Generally, students may not earn lower-division foreign language credit for proficiency in their native language. If a student's second language is English, then English may fill the BA foreign language requirement (see specific BA-major department advisors).

Interdisciplinary Minors

The Foreign Languages Department participates in the Asian Studies, European Studies, Linguistics, and Latin American Studies Minor Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Oral Proficiency Requirements

The American Council on the Teaching of Foreign Languages (ACTFL) has defined a scale for the evaluation of the language proficiency of students. The ACTFL Proficiency scale has four levels: Novice, Intermediate, Advanced and Superior. The Department of Foreign Languages requires that students achieve a determined proficiency level, depending on the students' goals. In addition, instructors assume that students entering any class have acquired the entry-level proficiency indicated for that class. (These levels are indicated in parentheses by the description of each course. N=Novice; NH=Novice High; IL=Intermediate Low; IM=Intermediate Mid; IH=Intermediate High; AL=Advanced Low.)

Novice (N)

Students at this level have no experience in the language they are studying. They begin by learning the sound and spelling system and by memorizing words and phrases. During the course, they will progress to the point of being able to create simple sentences, to ask some questions, and to initiate, sustain and conclude simple social tasks more than half of the time.

Novice High (NH)

At the Novice-High level student's progress from the ability to respond simply with learned utterances to the ability to create language face-to-face, to ask and answer simple questions, and to create sentence-level constructions.

Intermediate Low (IL)
At the Intermediate-Low level students continue to build mastery of personal social-oriented informational tasks and move to a higher level by practicing informational tasks beyond the immediate and personal. Students will move from simple-sentence to more complex sentence-level discourse. They will practice narration, description and comparison, but mastery is not expected.

**Intermediate Mid (IM)**

Students at this level build on an ability to perform informational tasks beyond immediate and personal needs while they continue to practice narration, description and comparison. In addition, students begin practice in supporting opinions and hypothesizing in the language. They move from complex sentence-level structures to paragraph-level discourse.

**Intermediate High (IH)**

At this level students can function at the Advanced level most of the time. They still need practice narrating, describing and comparing, and Linking sentences together smoothly. In addition, they encounter more tasks that require them to support opinion and to hypothesize. Student's progress from complex sentences to paragraphs to extended discourse.

**Advanced Low (AL)**

Students at this level function at the Advanced level all or almost all of the time. Students have no difficulty with extended discourse, narration in all tenses and explanation. They are able to and use language both oral and written in complex and sophisticated ways.
Associate of Arts

American Sign Language (ASL) (AA)

An Associate of Arts with an American Sign Language (ASL) major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in ASL. It will also indicate students are prepared to enroll in upper division ASL courses. The ending proficiency expectation is "Intermediate Low."

Program Code: 3050AA
CIPC: 161601

Advisement
American Sign Language (ASL) majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Describe and explain aspects of the culture(s) of the language being studied.

Required ASL Courses

ASL 1010 - First Semester ASL Credits: (3)
ASL 1020 - Second Semester ASL Credits: (3)
ASL 2010 - Third Semester ASL Credits: (3)
ASL 2020 HU - Fourth Semester ASL Credits: (3)
ASL 2030 - Second Year Language Review Credits: (3)

Elective Courses

ASL 3570 - Special Topics in Culture Credits: (3)
Chinese (AA)

An Associate of Arts with a Chinese major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in Chinese. It will also indicate students are prepared to enroll in upper division Chinese courses. The ending proficiency expectation is "Intermediate Low."

Program Code: 3074AA
CIPC: 160301

Advisement
Chinese majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.

Required Chinese Courses

CHNS 1010 - First Semester Chinese Credits: (3)
CHNS 1020 - Second Semester Chinese Credits: (3)
CHNS 2010 - Third Semester Chinese Credits: (3)
CHNS 2020 HU - Fourth Semester Chinese Credits: (3)

CHNS 2030 - Second Year Language Review Credits: (3)

OR
CHNS 1852 - Study Abroad Credits: (1-3)

OR
CHNS 2851 - Study Abroad Credits: (3) or
CHNS 2852 - Study Abroad Credits: (1-3)

OR
CHNS 3000 - Proficiency Development Credits: (3)
French (AA)

An Associate of Arts with a French major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in French. It will also indicate students are prepared to enroll in upper division French courses. The ending proficiency expectation is "Intermediate Low."

Program Code: 3026AA
CIPC: 160901

Advisement
French majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.

Required French Courses

- FRCH 1010 - First Semester French Credits: (3)
- FRCH 1020 - Second Semester French Credits: (3)
- FRCH 2010 - Third Semester French Credits: (3)
- FRCH 2020 HU - Fourth Semester French Credits: (3)
- FRCH 2030 - Second Year Language Review Credits: (3)
  OR
- FRCH 1852 - Study Abroad Credits: (1-3)
  OR
- FRCH 2851 - Study Abroad Credits: (3) or
- FRCH 2852 - Study Abroad Credits: (1-3)
  OR
- FRCH 3000 - Proficiency Development Credits: (3)
German (AA)

An Associate of Arts with a German major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in German. It will also indicate students are prepared to enroll in upper division German courses. The ending proficiency expectation is "Intermediate Low."

Program Code: 3028AA
CIPC: 160501

Advisement
German majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.

Required German Courses

GRMN 1010 - First Semester German Credits: (3)
GRMN 1020 - Second Semester German Credits: (3)
GRMN 2010 - Third Semester German Credits: (3)
GRMN 2020 HU - Fourth Semester German Credits: (3)

GRMN 2030 - Second Year Language Review Credits: (3)
OR
GRMN 1852 - Study Abroad Credits: (1-3)
OR
GRMN 2851 - Study Abroad Credits: (3) or
GRMN 2852 - Study Abroad Credits: (1-3)
OR
GRMN 3000 - Proficiency Development Credits: (3)
Japanese (AA)

WSU currently offers a minor in Japanese. Adding an Associate of Arts with a Japanese major will indicate that a student has completed all WSU AA degree requirements in addition to the core curriculum in Japanese. The ending proficiency expectation is "Intermediate Low."

Program Code: 3032AA
CIPC: 160302

Advisement
Japanese majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.

Localization (AA)

**Grade requirements**: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

**Program Code**: 3082AA  
**CIPC**: 160103

**Admissions**  
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

**Advisement**  
Localization majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

**General Education**  
Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

**Program Learning Outcomes**  
- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Explain the linguistic and cultural knowledge needed in adapting a product or service for specific locales associated with the language they are studying.
- Explain the application of localization in global technology (such as software engineering, web development, digital media, programming, etc.).
- Describe and explain aspects of the culture(s) of the language being studied.

**Course Requirements**

**FL Courses (12 credit hours)**

*Complete the following 12 credit hours (or demonstrate equivalent proficiency)*

- ASL 1010 - First Semester ASL Credits: (3)  
- ASL 1020 - Second Semester ASL Credits: (3)  
- ASL 2010 - Third Semester ASL Credits: (3)  
- ASL 2020 HU - Fourth Semester ASL Credits: (3)

Localization Course (3 credit hours)

Complete the following 3 credit hours

FL 2410 GLB - Introduction to Localization Credits: (3)

Language and Culture Elective (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following.

ANTH 1040 HU/EDI - Language and Culture Credits: (3)
ANTH 2010 SS/EDI - Peoples and Cultures of the World Credits: (3)
GEOG 1300 SUS/EDI - Global Issues: Places, People and the Planet Credits: (3)
Technology Electives (6 credit hours)

Select two courses (a minimum of 6 credit hours) from the following. Prerequisites may be specified for individual courses in the course catalog.

- ART 2430 - Introduction to Graphic Design Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- CS 1400 - Programming I Credits: (4)
- CS 2350 - Client Side Web Development Credits: (4)
- CS 2450 - Software Engineering I Credits: (4)
- MIS 2110 - Software Development I Credits: (3)
- WEB 1400 - Web Design and Usability Credits: (3)
- WEB 1430 - Client Side Programming Credits: (3)
- WEB 2500 - User Experience Design Credits: (3)
Spanish (AA)

An Associate of Arts with a Spanish major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in Spanish. It will also indicate students are prepared to enroll in upper division Spanish courses. The ending proficiency expectation is "Intermediate Low."

**Program Code:** 3030AA  
**CIPC:** 160905

Advisement
Spanish majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admissions
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.

Institutional Certificate

American Sign Language (ASL) Certificate of Proficiency

The Certificate of Proficiency in American Sign Language (ASL) will allow students and professionals to validate intermediate competency in ASL, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of communication skills for employers and associates.

Grade Requirements: A grade of "C" or better in all courses used for this certificate
Credit Hour Requirements: A total of 18 credit hours is required.
Program Code: 3050CP
CIPC: 16.1601

Program Learning Outcomes

Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles. (3000 level courses)
Write an analysis or a literary or cultural work in the language. (3000 level courses)
Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

ASL 1010 - First Semester ASL Credits: (3)
ASL 1020 - Second Semester ASL Credits: (3)
ASL 2010 - Third Semester ASL Credits: (3)
ASL 2020 HU - Fourth Semester ASL Credits: (3)

Elective Courses

6 credit hours in ASL at the 3000 level or higher.
Chinese Certificate of Proficiency

The Certificate of Proficiency in Chinese will allow students and professionals to validate intermediate competency in oral and written Chinese, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

**Grade Requirements:** A grade of "C" or better in all courses used for this certificate
**Credit Hour Requirements:** A total of 18 credit hours is required.
**Program Code:** 3074CP
**CIPC:** 16.0301

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- CHNS 1010 - First Semester Chinese **Credits:** (3)
- CHNS 1020 - Second Semester Chinese **Credits:** (3)
- CHNS 2010 - Third Semester Chinese **Credits:** (3)
- CHNS 2020 HU - Fourth Semester Chinese **Credits:** (3)

Elective Courses

6 credit hours in Chinese at the 3000 level or higher.
French Certificate of Proficiency

The Certificate of Proficiency in French will allow students and professionals to validate intermediate competency in oral and written French, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

**Grade Requirements:** A grade of "C" or better in all courses used for this certificate
**Credit Hour Requirements:** A total of 18 credit hours is required.
**Program Code:** 3026CP
**CIPC:** 16.0901

Program Learning Outcomes

Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles. (3000 level courses)
Write an analysis or a literary or cultural work in the language. (3000 level courses)
Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- **FRCH 1010 - First Semester French** Credits: (3)
- **FRCH 1020 - Second Semester French** Credits: (3)
- **FRCH 2010 - Third Semester French** Credits: (3)
- **FRCH 2020 HU - Fourth Semester French** Credits: (3)

Elective Courses

6 credit hours in French at the 3000 level or higher.
German Certificate of Proficiency

The Certificate of Proficiency in German will allow students and professionals to validate intermediate competency in oral and written German, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

Grade Requirements: A grade of "C" or better in all courses used for this certificate
Credit Hour Requirements: A total of 18 credit hours is required.
Program Code: 3028CP
CIPC: 16.0501

Program Learning Outcomes

Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles. (3000 level courses)
Write an analysis or a literary or cultural work in the language. (3000 level courses)
Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

GRMN 1010 - First Semester German Credits: (3)
GRMN 1020 - Second Semester German Credits: (3)
GRMN 2010 - Third Semester German Credits: (3)
GRMN 2020 HU - Fourth Semester German Credits: (3)

Elective Courses

6 credit hours in German at the 3000 level or higher.
Japanese Certificate of Proficiency

The Certificate of Proficiency in Japanese will allow students and professionals to validate intermediate competency in oral and written Japanese, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

**Grade Requirements:** A grade of "C" or better in all courses used for this certificate

**Credit Hour Requirements:** A total of 18 credit hours is required.

**Program Code:** 3032CP

**CIPC:** 16.0302

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- **JPNS 1010 - First Semester Japanese Credits:** (3)
- **JPNS 1020 - Second Semester Japanese Credits:** (3)
- **JPNS 2010 - Third Semester Japanese Credits:** (3)
- **JPNS 2020 HU - Fourth Semester Japanese Credits:** (3)

Elective Courses

6 credit hours in Japanese at the 3000 level or higher.
Spanish Certificate of Proficiency

The Certificate of Proficiency in Spanish will allow students and professionals to validate intermediate competency in oral and written Spanish, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

**Grade Requirements:** A grade of "C" or better in all courses used for this certificate

**Credit Hour Requirements:** A total of 18 credit hours is required.

Program Learning Outcomes

Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles. (3000 level courses)
Write an analysis or a literary or cultural work in the language. (3000 level courses)
Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

- SPAN 1010 - First Semester Spanish Credits: (3)
- SPAN 1020 - Second Semester Spanish Credits: (3)
- SPAN 2010 - Third Semester Spanish Credits: (3)
- SPAN 2020 HU - Fourth Semester Spanish Credits: (3)

Elective Courses

6 credit hours in Spanish at the 3000 level or higher.
Bachelor of Arts

French (BA)

Program Prerequisite: Completion of first and second-year courses in French or equivalent preparation.
Minor: Required.
Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 30.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
Program Code: 3026BA
CIPC: 160901

Advisement
French majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. FRCH 2020 HU will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division French course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes
- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Assessment
During their senior year, all French majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.

Major Course Requirements for BA Degree
Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French Credits: (3)
- FRCH 1020 - Second Semester French Credits: (3)
- FRCH 2010 - Third Semester French Credits: (3)
- FRCH 2020 HU - Fourth Semester French Credits: (3)

Required Courses (6.5 credit hours)

- FRCH 3060 - Grammar & Composition Credits: (3)
- FRCH 3160 - Introduction to Literature Credits: (3)
- FL 4990 - Senior Assessment Credits: (.5)

Literature Requirement (3 credit hours)

- FRCH 3610 - Literature Survey I Credits: (3)
- FRCH 3620 - Literature Survey II Credits: (3)
- FRCH 3630 - Literature Poetry Credits: (3)
- FRCH 3631 - Literature: Prose Credits: (3)
- FRCH 3632 - Literature: Drama Credits: (3)
- FRCH 3650 - Literature Periods Credits: (3)
- FRCH 3670 - Literature Authors Credits: (3)
- FRCH 3680 - Literature: Film Credits: (3)
- FRCH 3690 - Special Topics in Literature Credits: (3)
- FRCH 4620 - Survey of Literature I Credits: (3)
- FRCH 4630 - Survey of Literature II Credits: (3)

Elective Courses

Select a minimum of 21 credit hours.

To complete the required 30.5 credit hours, majors in the French BA program may choose as electives any 3000 and 4000 level French courses, including those listed above. Prerequisites may be specified for individual courses in the course catalog.

Note:

*FL 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a French major if course assignments are completed in French. Speak with the instructor before registering for this class.
French for Translation and Global Industry (BA)

Program Prerequisite: Completion of first and second-year courses in French or equivalent preparation.
Minor: Not required.
Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
Credit Hour Requirements: A total of 120 credit hours is required for graduation -- 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 46.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
Program Code: 3108BA
CIPC: 160901

Advisement
French majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. FRCH 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division French course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.
Demonstrate proficiency with technological tools and methodologies used to perform tasks within the context of a specific professional field (translation, business, or international relations).

Assessment
During their senior year, all French majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.

Major Course Requirements for BA Degree
Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency).

- FRCH 1010 - First Semester French Credits: (3)
- FRCH 1020 - Second Semester French Credits: (3)
- FRCH 2010 - Third Semester French Credits: (3)
- FRCH 2020 HU - Fourth Semester French Credits: (3)

Language and Structure Courses (6 credit hours)

Select two courses (a minimum of 6 credit hours) from the following.

- FRCH 3060 - Grammar & Composition Credits: (3)
- FRCH 3360 - Advanced Grammar Credits: (3)
- FRCH 3550 - Cultural Heritage I Credits: (3)
- FRCH 3560 - Cultural Heritage II Credits: (3)

Translation and Localization Requirements (12 credit hours)

- FL 2410 GLB - Introduction to Localization Credits: (3)
- FRCH 3740 - Translation I Credits: (3)
- FL 3430 - Translation Technology Credits: (3)

Select one course from the following.

- FRCH 3760 - Special Topics in Translation Credits: (3)
- FRCH 4740 - Translation II Credits: (3)
- FRCH 3750 - Introduction to Interpreting Credits: (3)

Global Industry Requirements (6 credit hours)

Select two courses (a minimum of 6 credit hours) from the following.

- FRCH 3710 - Business Language I Credits: (3)
- FRCH 3715 - Business Language II Credits: (3)
- FRCH 3720 - Language for Specific Purposes I Credits: (3)
- FRCH 3730 - Language for Specific Purposes II Credits: (3)

Support and Application Courses

Technology Elective (6 credit hours)

Select two courses (a minimum of 6 credit hours) from the following.

- ART 2430 - Introduction to Graphic Design Credits: (3)
- ART 3430 - Typography and Publication Design Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- CS 1400 - Programming I Credits: (4)
Writing Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following.

- ENGL 3030 - Structure of English Credits: (3)
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)

Linguistics Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following.

- FRCH 3220 - Phonetics and Phonology Credits: (3)
- FRCH 3270 - Special Topics in Linguistics Credits: (3)
- FRCH 3320 - Applied Language Studies Credits: (1-3)
- ENGL 3010 - Introduction to Linguistics Credits: (3)

Internship

Complete at least 1 credit hour in an internship; it is recommended that this be completed during the senior year. An internship may, on occasion, earn up to three credit hours.

- FL 4860 INT - Foreign Language Internship Credits: (1-3)

Senior Assessment

- FL 4990 - Senior Assessment Credits: (.5)

Elective Courses (9 credit hours)

Select three courses (a minimum of 9 credit hours) from the following.

- FRCH 3000 - Proficiency Development Credits: (3)
- FRCH 3060 - Grammar & Composition Credits: (3)
- FRCH 3116 - DLI Bridge Course I Credits: (3)
- FRCH 3117 - DLI Bridge Course II Credits: (3)
- FRCH 3118 - DLI Bridge Course III Credits: (3)
- FRCH 3160 - Introduction to Literature Credits: (3)
- FRCH 3220 - Phonetics and Phonology Credits: (3)
- FRCH 3270 - Special Topics in Linguistics Credits: (3)
- FRCH 3320 - Applied Language Studies Credits: (1-3)
- FRCH 3360 - Advanced Grammar Credits: (3)
- FRCH 3550 - Cultural Heritage I Credits: (3)
- FRCH 3560 - Cultural Heritage II Credits: (3)
- FRCH 3570 - Special Topics in Culture Credits: (3)
- FRCH 3630 - Literature Poetry Credits: (3)
- FRCH 3631 - Literature: Prose Credits: (3)
- FRCH 3632 - Literature: Drama Credits: (3)
FRCH 3650 - Literature Periods Credits: (3)
FRCH 3670 - Literature Authors Credits: (3)
FRCH 3680 - Literature: Film Credits: (3)
FRCH 3690 - Special Topics in Literature Credits: (3)
FRCH 3710 - Business Language I Credits: (3)
FRCH 3715 - Business Language II Credits: (3)
FRCH 3720 - Language for Specific Purposes I Credits: (3)
FRCH 3730 - Language for Specific Purposes II Credits: (3)
FRCH 3740 - Translation I Credits: (3)
FRCH 3750 - Introduction to Interpreting Credits: (3)
FRCH 3760 - Special Topics in Translation Credits: (3)
FRCH 3810 - Experimental Course Credits: (1-6)
FRCH 3850 - Study Abroad Credits: (1-6)
FRCH 4190 - Foreign Language Journal Credits: (3)
FRCH 4740 - Translation II Credits: (3)
FRCH 4830 - Directed Readings Credits: (1-3)
FRCH 4850 - Study Abroad Credits: (3)
FRCH 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)
FRCH 4960 - Senior Project Credits: (3)

*Note: FL 3320 - Applied Language Studies when taken as Language & Culture of Europe will only count towards a French major if course assignments are completed in French. Speak with the instructor before registering for this class.
French Teaching (BA)

**Program Prerequisite:** Completion of first and second-year courses in French or equivalent preparation. In addition, teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

**Minor:** Required.

**Grade Requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable).

**Credit Hour Requirements:** A total of 120 hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 35.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.

**Program Code:** 3027BA

**CIPC:** 131325

**Advisement**

French Teaching majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. Teaching majors are also encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269).

**Admission Requirements**

Declare your program of study (see Enrollment Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

**General Education**

Refer to Degree Requirements for Bachelor of Arts requirements. FRCH 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division French course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

**Program Learning Outcomes**

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

**Assessment**

During their senior year, all French Teaching majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.

**Major Course Requirements for BA Degree**
Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French Credits: (3)
- FRCH 1020 - Second Semester French Credits: (3)
- FRCH 2010 - Third Semester French Credits: (3)
- FRCH 2020 HU - Fourth Semester French Credits: (3)

Required Courses (11.5 credit hours)

- FRCH 3060 - Grammar & Composition Credits: (3)
- FRCH 3160 - Introduction to Literature Credits: (3)
- FL 4400 - Methods for Teaching Languages Credits: (5) *
- FL 4990 - Senior Assessment Credits: (.5)

Literature Requirement (3 credit hours)

- FRCH 3610 - Literature Survey I Credits: (3)
- FRCH 3620 - Literature Survey II Credits: (3)
- FRCH 3630 - Literature Poetry Credits: (3)
- FRCH 3631 - Literature: Prose Credits: (3)
- FRCH 3632 - Literature: Drama Credits: (3)
- FRCH 3650 - Literature Periods Credits: (3)
- FRCH 3670 - Literature Authors Credits: (3)
- FRCH 3680 - Literature: Film Credits: (3)
- FRCH 3690 - Special Topics in Literature Credits: (3)
- FRCH 4620 - Survey of Literature I Credits: (3)
- FRCH 4630 - Survey of Literature II Credits: (3)

Elective Courses

To complete the required 35.5 credit hours, majors in the French Teaching BA program may choose as electives any 3000 and 4000 level French courses, including those listed above. Prerequisites may be specified for individual courses in the course catalog.

Note:

*Students must take an ACTFL Oral Proficiency Examination prior to taking FL 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)
German (BA)

Program Prerequisite: Completion of first and second-year courses in German or equivalent preparation.
Minor: Required.
Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 30.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). **Advisement**

German Teaching majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. Teaching majors are also encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269).

**Admission Requirements**

Declare your program of study (see Enrollment Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

**General Education**

Refer to Degree Requirements for Bachelor of Arts requirements. GRMN 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division German course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

**Program Learning Outcomes**

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

**Assessment**

During their senior year, all German Teaching majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.

**Major Course Requirements for BA Degree**
Prerequisite Courses

*Complete the following 12 credit hours (or demonstrate equivalent proficiency)*

- GRMN 1010 - First Semester German Credits: (3)
- GRMN 1020 - Second Semester German Credits: (3)
- GRMN 2010 - Third Semester German Credits: (3)
- GRMN 2020 HU - Fourth Semester German Credits: (3)

Required Courses (11.5 credit hours)

- GRMN 3060 - Grammar & Composition Credits: (3)
- GRMN 3160 - Introduction to Literature Credits: (3)
- FL 4400 - Methods for Teaching Languages Credits: (5) *
- FL 4990 - Senior Assessment Credits: (.5)

Literature Requirement (3 credit hours)

- GRMN 3610 - Literature Survey I Credits: (3)
- GRMN 3620 - Literature Survey II Credits: (3)
- GRMN 3630 - Literature Poetry Credits: (3)
- GRMN 3631 - Literature: Prose Credits: (3)
- GRMN 3632 - Literature: Drama Credits: (3)
- GRMN 3650 - Literature Periods Credits: (3)
- GRMN 3670 - Literature Authors Credits: (3)
- GRMN 3680 - Literature: Film Credits: (3)
- GRMN 3690 - Special Topics in Literature Credits: (1-3)
- GRMN 4620 - Survey of Literature I Credits: (3)
- GRMN 4630 - Survey of Literature II Credits: (3)
- GRMN 4690 - Special Topics in Literature Credits: (3)

Elective Courses

To complete the required 35.5 credit hours, majors in the German Teaching BA program may choose as electives any 3000 and 4000 level German courses, including those listed above. Prerequisites may be specified for individual courses in the course catalog.

Note:

*Students must take an ACTFL Oral Proficiency Examination prior to taking FL 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*
Spanish (BA)

Program Prerequisite: Completion of first and second-year courses in Spanish or equivalent preparation.

Minor: Required.

Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 30.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.

Program Code: 3030BA
CIPC: 160905

Advisement
Spanish majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education
Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. FL 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division Spanish course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes
Demonstrate speaking and listening proficiency in the language they are studying.
Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
Demonstrate the ability to write in different styles.
Write an analysis or a literary or cultural work in the language.
Describe and explain aspects of the culture(s) of the language being studied.

Assessment
During their senior year, all Spanish majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.

Major Course Requirements for BA Degree

Prerequisite Courses
Complete the following 12 credit hours (or demonstrate equivalent proficiency)
SPAN 1010 - First Semester Spanish Credits: (3)
SPAN 1020 - Second Semester Spanish Credits: (3)
SPAN 2010 - Third Semester Spanish Credits: (3)
SPAN 2020 HU - Fourth Semester Spanish Credits: (3)
Required Courses (6.5 credit hours)

- SPAN 3060 - Grammar & Composition Credits: (3)
- SPAN 3160 - Introduction to Literature Credits: (3)
- FL 4990 - Senior Assessment Credits: (.5)

Literature Requirement (3 credit hours)

- SPAN 3610 - Literature Survey I Credits: (3)
- SPAN 3620 - Literature Survey II Credits: (3)
- SPAN 3630 - Literature Poetry Credits: (3)
- SPAN 3631 - Literature: Prose Credits: (3)
- SPAN 3650 - Literature Periods Credits: (3)
- SPAN 3670 - Literature Authors Credits: (3)
- SPAN 3680 - Literature: Film Credits: (3)
- SPAN 3690 - Special Topics in Literature Credits: (1-3)
- SPAN 4620 - Survey of Literature I Credits: (3)
- SPAN 4630 - Survey of Literature II Credits: (3)
- SPAN 4690 - Special Topics in Literature Credits: (3)

Elective Courses

Select a minimum of 21 credit hours.

To complete the required 30.5 credit hours, majors in the Spanish BA program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. Prerequisites may be specified for individual courses in the course catalog.

Note:

*FL 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a Spanish major if course assignments are completed in Spanish. Speak with the instructor before registering for this class.
Spanish for the Professions (BA)

Program Prerequisite: Completion of first and second-year courses in Spanish or equivalent preparation.

Minor: Required.

Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation -- 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 30.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.

*Students must take an ACTFL Oral Proficiency Examination prior to taking FL 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)
Spanish Translation (BA)

Program Prerequisite: Completion of first and second-year courses in Spanish or equivalent preparation.

Minor: Not Required.

Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 40 of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 52.5 upper division courses is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.

Program Code: 3077BA
CIPC: 160103

Advisement
Spanish Translation majors are encouraged to meet with Spanish faculty advisors and/or Academic Advisors for the College of Arts & Humanities at least annually for course and program advisement.
Use Grad MAPs to plan your degree

Admission Requirements
All students pursuing the Bachelor of Arts in Spanish Translation must follow the same application process for admittance to WSU. In addition, before students may declare the Spanish Translation major they will demonstrate at least Intermediate-Low proficiency in Spanish (following the ACTFL Proficiency Guidelines) by submitting:
   a recording of an autobiographical statement in the candidate's non-native language (5 minutes).
   an essay (in English or Spanish) on why the candidate wants to pursue a BA in Spanish Translation (250 words) to assess the candidate's formal language use.
   a translation of the essay.
Outstanding bilingual students in Concurrent Enrollment, in the DLI Bridge Courses or in our prerequisite Spanish sequence will be identified and encouraged to submit documents 1, 2 and 3, before they take upper-division Spanish courses.

General Education
Refer to Bachelor of Arts requirements. SPAN HU2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division Spanish course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes
   Demonstrate speaking and listening proficiency in the language they are studying.
   Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
   Demonstrate the ability to write in different styles.
   Write an analysis or a literary or cultural work in the language.
   Describe and explain aspects of the culture(s) of the language being studied.

Assessment
During their senior year, all Spanish Translation majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.
Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish Credits: (3)
- SPAN 1020 - Second Semester Spanish Credits: (3)
- SPAN 2010 - Third Semester Spanish Credits: (3)
- SPAN 2020 HU - Fourth Semester Spanish Credits: (3)

Language and Structure Courses (18 credit hours)

Complete the following courses

- SPAN 3060 - Grammar & Composition Credits: (3)
- SPAN 3160 - Introduction to Literature Credits: (3)
- SPAN 3360 - Advanced Grammar Credits: (3)
- ENGL 3030 - Structure of English Credits: (3)
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing Credits: (3)
- ENGL 3100 - Professional and Technical Writing Credits: (3)

Translation Courses (9 credit hours)

Complete the following 9 credit hours; must be taken in sequence:

- SPAN 3750 - Healthcare Interpreting Credits: (3)
- SPAN 3740 - Translation I Credits: (3)
- SPAN 4740 - Translation II Credits: (3)

Internship (1 credit hour)

Complete at least 1 credit hour in an internship; it is recommended that this be completed during the senior year. An internship may, on occasion, earn up to three credit hours.

- FL 4860 INT - Foreign Language Internship Credits: (1-3)

Support and Application Courses

1. Culture Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following

- SPAN 3550 GLB - Cultural Heritage I Credits: (3)
- SPAN 3560 - Cultural Heritage II Credits: (3)
- SPAN 3570 - Special Topics in Culture Credits: (3)
2. Linguistics Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following

- SPAN 3320 - Applied Language Studies Credits: (1-3)
- SPAN 3270 - Special Topics in Linguistics Credits: (3)

3. Business Language (6 credit hours)

Complete the following 6 credit hours

- SPAN 3710 - Business Language I Credits: (3)
- SPAN 3715 - Business Language II Credits: (3)

4. Specific Purposes (3 credit hours)

Complete one course (a minimum of 3 credit hours) from the following

- SPAN 3720 CEL - Language for Specific Purposes I Credits: (3)
- SPAN 3730 CEL - Language for Specific Purposes II Credits: (3)

Elective Courses (9 credit hours)

Complete 9 credit hours from among all upper-division SPAN courses.

Senior Assessment (.5 credit hours)

Complete FL 4990 - Senior Assessment (.5).
Emphasis Option for Bachelor of Integrated Studies

American Sign Language (BIS)

The Department of Foreign Languages participates in the BIS degree program. For an American Sign Language emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their ASL component.

Grade Requirements: Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
Credit Hour Requirements: Minimum of 18 credit hours.
Program Code: 3050

Chinese (BIS)

The Department of Foreign Languages participates in the BIS degree program. For a Chinese emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their Chinese component.

Grade Requirements: Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
Credit Hour Requirements: Minimum of 18 credit hours.
Program Code: 3074

French (BIS)

The Department of Foreign Languages participates in the BIS degree program. For a French emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their French component.

Grade Requirements: Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
Credit Hour Requirements: Minimum of 18 credit hours.
Program Code: 3026
CIPC: 160901

German (BIS)

The Department of Foreign Languages participates in the BIS degree program. For a German emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their German component.

Grade Requirements: Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
Credit Hour Requirements: Minimum of 18 credit hours.
Program Code:3028
CIPC: 160501
Japanese (BIS)

The Department of Foreign Languages participates in the BIS degree program. For a Japanese emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their Japanese component.

**Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.

**Credit Hour Requirements:** Minimum of 18 credit hours.

**Program Code:** 3032

**CIPC:** 160302

Spanish (BIS)

The Department of Foreign Languages participates in the BIS degree program. For a Spanish emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their Spanish component.

**Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.

**Credit Hour Requirements:** Minimum of 18 credit hours.

**Program Code:**

JPNS 3060 - Grammar & Composition Credits: (3)
JPNS 3160 - Introduction to Literature Credits: (3)

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the Japanese minor program may choose as electives any 3000 and 4000 level courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*
Localization Minor/BIS

Program Prerequisite: Completion of first and second-year courses in a Foreign Language or equivalent preparation.

Grade Requirements: A grade of "C" or better in courses used for this minor (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A minimum of 18 credit hours. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3082

CIPC: 16.0103

Advisement

Localization minors are encouraged to meet with faculty advisors in the Department of Foreign Languages with expertise in Localization and/or Academic Advisors for the College of Arts & Humanities at least annually for course and program advisement.

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- ASL 1010 - First Semester ASL Credits: (3)
- ASL 1020 - Second Semester ASL Credits: (3)
- ASL 2010 - Third Semester ASL Credits: (3)
- ASL 2020 HU - Fourth Semester ASL Credits: (3)

OR

- CHNS 1010 - First Semester Chinese Credits: (3)
- CHNS 1020 - Second Semester Chinese Credits: (3)
- CHNS 2010 - Third Semester Chinese Credits: (3)
- CHNS 2020 HU - Fourth Semester Chinese Credits: (3)

OR

- FRCH 1010 - First Semester French Credits: (3)
- FRCH 1020 - Second Semester French Credits: (3)
- FRCH 2010 - Third Semester French Credits: (3)
- FRCH 2020 HU - Fourth Semester French Credits: (3)

OR

- GRMN 1010 - First Semester German Credits: (3)
- GRMN 1020 - Second Semester German Credits: (3)
- GRMN 2010 - Third Semester German Credits: (3)
- GRMN 2020 HU - Fourth Semester German Credits: (3)

OR

- JPNS 1010 - First Semester Japanese Credits: (3)
JPNS 1020 - Second Semester Japanese Credits: (3)
JPNS 2010 - Third Semester Japanese Credits: (3)
JPNS 2020 HU - Fourth Semester Japanese Credits: (3)

OR
KOR 1010 - First Semester Korean Credits: (3)
KOR 1020 - Second Semester Korean Credits: (3)
KOR 2010 - Third Semester Korean Credits: (3)
KOR 2020 HU - Fourth Semester Korean Credits: (3)

SPAN 2010 - Third Semester Spanish Credits: (3)
SPAN 2020 HU - Fourth Semester Spanish Credits: (3)

Localization Core Courses (9 credit hours)

Complete the following 9 credit hours

FL 2410 GLB - Introduction to Localization Credits: (3)
FL 3420 GLB - Introduction to Translation Credits: (3)
FL 3430 - Translation Technology Credits: (3)

Capstone Course (3 credit hours)

Complete a minimum of 3 credit hours from the following

FL 4860 INT - Foreign Language Internship Credits: (1-3)

Technology Elective (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following. Prerequisites may be specified for individual courses in the course catalog.

ART 2430 - Introduction to Graphic Design Credits: (3)
COMM 2250 HU - Essentials of Digital Media Credits: (3)
CS 1400 - Programming I Credits: (4)
MIS 2110 - Software Development I Credits: (3)
WEB 1400 - Web Design and Usability Credits: (3)
Other Elective (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following (other than the course chosen for the Technology Elective). Prerequisites may be specified for individual courses in the course catalog.

- ANTH 1040 HU/EDI - Language and Culture Credits: (3)
- ANTH 2010 SS/EDI - Peoples and Cultures of the World Credits: (3)
- ART 2430 - Introduction to Graphic Design Credits: (3)
- ART 3430 - Typography and Publication Design Credits: (3)
- COMM 2250 HU - Essentials of Digital Media Credits: (3)
- COMM 3080 - Intercultural Communication Credits: (3)
- CS 1400 - Programming I Credits: (4)
- CS 2350 - Client Side Web Development Credits: (4)
- CS 2450 - Software Engineering I Credits: (4)
- ENGL 4110 - Content Management Credits: (3)
- FL 3570 - Special Topics in Culture Credits: (3)
- FL 3760 - Special Topics in Translation Credits: (3)
- GEOG 1300 SUS/EDI - Global Issues: Places, People and the Planet Credits: (3)
- MGMT 3400 - International Business Credits: (3)
- MIS 2110 - Software Development I Credits: (3)
- MKTG 3600 GLB - International Marketing Credits: (3)
- WEB 1400 - Web Design and Usability Credits: (3)
- WEB 1430 - Client Side Programming Credits: (3)
- WEB 2500 - User Experience Design Credits: (3)
Spanish for the Professions Minor

Program Prerequisite: Completion of first and second-year courses in Spanish or equivalent preparation.

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 15 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3087
CIPC: 160905

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish Credits: (3)
- SPAN 1020 - Second Semester Spanish Credits: (3)
- SPAN 2010 - Third Semester Spanish Credits: (3)
- SPAN 2020 HU - Fourth Semester Spanish Credits: (3)

Required Courses (12 credit hours)

- SPAN 3060 - Grammar & Composition Credits: (3)
- SPAN 3160 - Introduction to Literature Credits: (3)
- SPAN 3710 - Business Language I Credits: (3) and
- SPAN 3715 - Business Language II Credits: (3)

- SPAN 3740 - Translation I Credits: (3) and
- SPAN 4740 - Translation II Credits: (3)

Elective Courses (select a minimum of 3 credit hours)

- SPAN 3540 - Latin American Environment and Cultures Credits: (3)
- SPAN 3550 GLB - Cultural Heritage I Credits: (3)
- SPAN 3560 - Cultural Heritage II Credits: (3)
- SPAN 3570 - Special Topics in Culture Credits: (3)
- SPAN 3750 - Healthcare Interpreting Credits: (3)
- SPAN 3760 - Special Topics in Translation Credits: (3)
Spanish Minor

Prerequisite Courses: Completion of first and second-year courses in Spanish or equivalent preparation.
Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
Credit Hour Requirements: A minimum of 15 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3030
CIPC: 160905

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish Credits: (3)
- SPAN 1020 - Second Semester Spanish Credits: (3)
- SPAN 2010 - Third Semester Spanish Credits: (3)
- SPAN 2020 HU - Fourth Semester Spanish Credits: (3)

Required Courses (6 credit hours)

- SPAN 3060 - Grammar & Composition Credits: (3)
- SPAN 3160 - Introduction to Literature Credits: (3)

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the Spanish minor program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. Prerequisites may be specified for individual courses in the course catalog.

Note:

*FL 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a Spanish minor if course assignments are completed in Spanish. Speak with the instructor before registering for this class.
Teaching Minor

French Teaching Minor

Program Prerequisite: Completion of first and second-year courses in French or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 20 upper division hours in French. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3027
CIPC: 131325

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French Credits: (3)
- FRCH 1020 - Second Semester French Credits: (3)
- FRCH 2010 - Third Semester French Credits: (3)
- FRCH 2020 HU - Fourth Semester French Credits: (3)

Required Courses (11 credit hours)

- FRCH 3060 - Grammar & Composition Credits: (3)
- FRCH 3160 - Introduction to Literature Credits: (3)
- FL 4400 - Methods for Teaching Languages Credits: (5) *

Note:

*Students must take an ACTFL Oral Proficiency Examination prior to taking FL 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)

Elective Courses (select a minimum of 6 credit hours)

To complete the required 20 credit hours, minors in the French Teaching minor program may choose as electives any 3000 and 4000 level French courses, including those listed above. Prerequisites may be specified for individual courses in the course catalog.
German Teaching Minor

Program Prerequisite: Completion of first and second-year courses in German or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 20 upper division hours in German. At least 3 credit hours of minor courses must be completed at WSU.

Program Code: 3029
CIPC: 131326

Course Requirements for Minor

School of Performing Arts

Chair: TBD  
Location: BC 331  
Telephone: 801-626-6437  

Professors: Karen Bruestle, Tracy Callahan, Carey Campbell, Francisco de Galvez, David Feller, Mark Henderson, Thomas Priest, Amanda Sowerby, Erik Stern, Viktor Uzur, Shi-Hwa Wang, Yu-Jane Yang, Catherine Zublin;  
Associate Professors: Tamara Goldbogen, Jessica Greenberg, Daniel Jonas;  
Assistant Professors: Esther Ahn, Joseph Blake, Andrew Lewis, Cully Long;  
Visiting Assistant Professor: Kenneth Plain;  
Instructors: Samuel Bryson, Juan Carlos Claudio, Steven Henricks

The Department of Performing Arts at Weber State is based on five primary purposes: 1) to develop aesthetically aware and artistically discriminating citizens; 2) to provide opportunities for all students to participate in creative, artistic experiences and to encourage community members to participate in the performing arts; 3) to develop artistic competence and sensitivity; 4) to provide for career development in the arts through the preparation of teachers, performing artists, scholars, and technical specialists; and 5) to expose students and community to classic and contemporary works in all genres of the performing arts and to continue to provide the finest possible performances in the arts.

The department's degree programs prepare students for professional careers in teaching and performance as well as in technical specialties while providing the liberal arts background necessary for graduate study. In the department's Performing Arts Series, students and faculty participate in professionally produced dance, musical, and theatrical events.

Dance Area

The primary goals of the Dance area of the Department of Performing Arts are:

- To develop aesthetically aware and artistically discriminating citizens;
- To promote cultural understanding of ourselves and others through the study of dance;
- To encourage appreciation of dance through critical thinking;
- To engage the community in a range of dance experiences;
- To foster an understanding of and engagement in the creative process through dance performance, improvisation, choreography, pedagogical studies, technology, and collaborative endeavors;
- To provide the guidance, class work, and experience necessary to prepare teachers, performing artists, and scholars;
- To prepare students for careers or advanced study that require creativity, collaboration, and an understanding of the human experience as explored in the study of dance;
- To provide rigorous dance training.

Two majors are offered: 1) a Bachelor of Arts in Dance, with a focus on creativity in performance and choreography; and 2) a Bachelor of Arts or Bachelor of Science in Dance Education, with a focus on education and pedagogy. Dance majors follow a program based on growth beginning with foundational theory courses, technique courses appropriate to each dancer's ability, and a culminating senior project.

Dance Education majors follow a program based in the knowledge and understanding of dance education in relation to secondary education and/or studio teaching, focusing on pedagogy, choreography, history, and performance. The Dance Education major prepares students to be teachers of dance in the public sector, private sector, and non-profit environments. In addition, Education majors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program).

Two minors are offered: 1) Dance, with a focus on performance and choreography; and 2) Dance Teaching. Dance minors follow a program that provides for study in technique, creative and theoretical coursework. A minimum of eighteen (18) credit hours (GPA of 2.25 or better) must be completed in the Dance Area courses.

Dance Teaching minors must complete a minimum of eighteen (17-18) credit hours (GPA of 2.25 or better) from the Dance Area courses. This program is comprised of a dance teaching core (7-8 hours), dance history, technique in ballet and modern dance,
additional dance forms and creative work. In addition, teaching minors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program). Dance teaching minors are strongly encouraged to select teaching majors in subject areas that are needed in Utah secondary schools.

Performance Opportunities

Orchesis Dance Theatre provides performance and production opportunities for qualified students who demonstrate technical abilities in dance. The company's activities include on-campus and dance festival concerts. Its repertoire consists of traditional and experimental modern dances, contemporary ballets, and theatrical and performance works choreographed/directed by dance faculty, students, and well-known artists. Auditions are required for performances sponsored by Orchesis. WSU Moving Company is the Dance Area's outreach program, which provides further performance, production and teaching opportunities. Significant dance works and lecture demonstrations are performed; teaching residencies are implemented in the public schools and for campus and community organizations.

School of Music

The School of Music is an accredited member of the National Association of Schools of Music. Programs leading to the Bachelor of Music degree are offered for students seeking emphases in performance, keyboard pedagogy, stringed instrument pedagogy, vocal pedagogy, or music education. Additional programs include the Bachelor of Arts in music, Bachelor of Integrated Studies, Minor in Music Performance, Music Studies Minor, Sound Production/Recording Minor. Certificate of Proficiency in Jazz Studies and Certificate of Proficiency in Music Entrepreneurship.

The primary goals of the School of Music are: 1) To develop individuals who are aware, artistically discriminating, and devoted to a lifelong association with music; 2) To provide opportunities for students and community members to participate in creative musical experiences; 3) To develop musical competence, sensitivity, and purpose; 4) To expose students and community to classic and contemporary musical works, and to provide the finest possible performances; 5) To provide for career development in music through the preparation of teachers, performers, and scholars.

Policies and Procedures

The following policies are subject to change. For current information, see the latest Performing Arts | School of Music student handbook and make an appointment with a music area advisor.

Freshman Registration and the Music Core

All freshman music majors and minors entering WSU as full-time students should register for the following courses: MUSC 1006, MUSC 1110, MUSC 1130, MUSC 1150, MUSC 1901, MUSC 1681 or MUSC 1682, and large ensemble. Piano Pedagogy and Piano Performance majors do not register for MUSC 1150.

General Policies and Performance Requirements

All entering music majors and minors, including transfer students, must audition with the respective program faculty for admittance to that program.

A $445 Applied Music Fee is charged to music majors and minors for instrumental or vocal lessons. These lessons are 45 minutes in length and require attendance at a weekly master class. These lessons may be taken for one or two credit hours. There is also an option for two 45 minute lessons each week for two credit hours plus master class attendance and a research paper or project. The fee is $890.

1023
A $320 Applied Music Fee is charged to students registering as non-music majors or minors. These lessons are 30 minutes in length and may not be used as credit for music majors or minors in their primary performance area. A limited number of slots are available for students registering in this category. All music education, vocal, keyboard and string pedagogy majors should consult with the latest student handbook, and their major advisor.

Schedule for Performance Evaluations (Juries)

Performance evaluations will be regularly conducted and scheduled:
- At the end of Fall and Spring semesters.
- By special request for evaluation during the year upon agreement of the student, the teacher and the committee.
  All special requests must be scheduled through the area head.
All music majors and minors must take performance evaluations each semester. Performance evaluations are required until completion of the student's final recital as stipulated by the degree program.
Students completing a junior or senior recital are excused from that performance area's performance evaluation the semester in which the recital is completed.

Procedures for Performance Evaluation (Juries)

All incoming music majors and minors and all transfer students and current students who change their major or minor to music subsequent to their initial enrollment at Weber State University will enroll at the 1000 level of private instruction.
A student may be placed in a higher competency level at the completion of any evaluation. A student will not be permitted to progress to the 3000 level until they have met with their major advisor. The advisor will review the student's graduation progress and determine whether it is in the student's best interest to move to the 3000 level.
Student admittance to each competency level is granted only by general consent of the area faculty upon satisfactory completion of a performance level evaluation appropriate to that level.
Refusal by the appropriate area faculty to allow admittance to the next level may be appealed by the student provided there is consent of the private teacher.
  This appeal should be made directly to the area head, who will in turn consult with the faculty regarding a repeat performance evaluation.
  Only one appeal will be accepted at each performance evaluation.
More than three (3) semesters of study at any one competency level due to lack of improvement on the part of the student will be cause for a recommendation from the appropriate faculty that the student not continue as a music major or minor.
Failure to attend proficiency evaluations will result in a grade of "E" being given for the private lesson during that semester.

Recital Performance

All Bachelor of Music and Bachelor of Music Education students must participate in at least one general student recital or master class per semester. This should normally be a solo appearance, but this determination is left to the discretion of the applied music teacher.
All music majors except those in the Bachelor of Arts and pedagogy programs, must present a half-hour formal junior recital upon reaching the 3000 competency level. All music performance minors must present a half-hour formal junior recital upon reaching the 3000 competency level. The student must register for MUSC 3991 during the semester the recital will be presented.
All Bachelor of Music students must present a one-hour senior recital while at the 4000 competency level. The student must register for MUSC 4991 during the semester the recital will be presented.
Repertoire for the senior recital must not contain music performed on the junior recital. Completion of a senior recital will exempt a student from further proficiency level evaluations.
All students presenting a senior recital must perform that recital before a faculty review committee not less than two weeks prior to the recital date. The review committee will consist of the student's applied teacher, the appropriate area head, and one other music faculty member of the student's choice. The review committee will be present at the public performance of the senior recital and will recommend pass/fail for the recital.

All students must complete a recital approval form for junior or senior recitals. The recital form must be completed and signed by the area head and applied teacher prior to scheduling any required faculty preview performance. Failure to complete a junior or senior recital in the semester in which the student is registered for the recital will result in a grade of "E" for the recital.

Recital/Concert Attendance

All music majors and minors must attend 24 music area recitals, concerts, and/or community concert events per year while enrolled in applied music at the 1000 and 2000 level. Attendance reports are required for two years and are maintained in the music office. To receive credit for graduation, students enroll in MUSC 1006 for their first two semesters attending 12 recitals or concerts each semester and MUSC 2006 for their third and fourth semesters attending 12 recital or concerts each semester.

Music Major Foreign Language Requirement

The Bachelor of Music degree requirement is for two semesters of foreign language chosen from French, German, Italian, and Spanish. The requirement may be satisfied by taking two semesters of the same language, or one semester each of two different languages. The Bachelor of Music Education degree with a Choral Emphasis requirement is one semester of foreign language chosen from French, German, Italian, and Spanish.

For the Bachelor of Arts in Music, please see Language Courses Required to fulfill the BA listed under the major requirements.

Bachelor of Integrated Studies

Students declaring an emphasis in music as one of their three BIS concentrations must abide by all guidelines and stipulations detailed in the BIS student handbook.

Courses taken in fulfillment of the music area emphasis must total a minimum of 18 credit hours and will be determined in consultation with the music BIS. These courses should directly and demonstratively contribute to the goals set forth by the student in his/her approved BIS application.

The following courses, however, are required for all music BIS students:
MUSC 1010 CA - Introduction to Music (3) *
MUSC 1110 - Music Theory I (2)
MUSC 1130 - Sight-Singing & Aural Skills I (1)
MUSC 1120 - Music Theory II (2)
MUSC 1140 - Sight-Singing & Aural Skills II (1)

Additionally, music BIS students must take at least one of the following:
MUSC 1030 CA - Introduction to Jazz (3) *
MUSC 1033 CA - Introduction to American Music (3) *
MUSC 1035 CA - History of Rock and Roll (3) *
MUSC 1040 CA - Music of World Cultures (3) *
MUSC 1043 HU - Music, the Arts & Civilizations (3) *
MUSC 1063 CA - Music in Religion (3) *
THEA 1043 CA - Introduction to American Musical Theatre (3) *
* Please note that according to the BIS student handbook, courses taken in completion of the university General Education requirements will not count toward a BIS emphasis. In other words, "double-dipping" is not allowed.

**School of Music Advisors**

**Bachelor of Music in Performance & Pedagogy Advisors**

Keyboard Area: Dr. Yu-Jane Yang  
Keyboard Area: Dr. Ralph Van der Beek  
String Area: Dr. Shi-Hwa Wang

Winds & Percussion Area: Dr. Thomas Priest  
String Area: Dr. Thomas Priest  
Keyboard Area: Dr. Thomas Priest

**Music Minors Advisor**

Dr. Viktor Uzur

**Theatre Arts Area**

The Theatre Arts area of the Department of Performing Arts provides scholarly, creative, collaborative and practical theatre experience for students.

The objectives of the program are to: 1) Encourage participation in and appreciation of theatre and drama; 2) Foster creativity and develop technical skills in acting, directing, costuming, scenic design, script writing and theatre management; 3) Prepare students for careers or professional schooling in those fields that require strong presentational skills, creative problem solving, effective collaboration, and an understanding of human experience.

Theatre students must complete a sequence of formal course work that includes University general education, core theatre courses, and focus or specialty courses. Formal course work is complemented by a sequence of experiential learning opportunities in the theatre. Students and faculty develop individualized programs of course work and practical experience, including a junior seminar, annual juries, portfolio preparation, various practica, and opportunities for individual theatre projects.
Study of theatre provides students with useful tools to contribute to and make positive changes in society. Theatre students learn about diverse historical eras, communities and technologies. Theatre challenges students to be creative and to translate that creativity into applied processes - to think precisely, speak confidently in public, work productively with others, visualize abstract concepts and represent those concepts concretely. Theatre skills are useful in a variety of professions including, but not limited to, business, government, law, journalism, and public relations.

**Major Requirements**

The department offers a Bachelor of Arts (BA) degree in Musical Theatre, Theatre Arts, and Theatre Arts Teaching. A minimum of 62 course units (2.0 or better GPA) or courses in the combined areas of Dance, Music, and Theatre are required to qualify for the Musical Theatre Major. A minimum of 45 course units (2.0 or better) of Theatre Arts courses must be completed to qualify for either the Theatre Arts or Theatre Arts Teaching programs.

Teaching majors must also satisfy all requirements for the Licensure Program as outlined by the Department of Teacher Education.

A $350 Applied Music Fee is charged to Theatre Arts Area majors and minors enrolled in Individual Training in Stage Voice (THEA 4651). These lessons are 45 minutes in length. A limited number of slots are available for students registering for these lessons.

**Performance Opportunities**

Involvement in theatre productions is an important part of the Theatre program. The Weber State Theatre produces a full season of plays in the Austad, Allred and Eccles theatres of the state-of-the-art Val A. Browning Center for the Performing Arts. Theatre facilities include a variety of proscenium and flexible staging situations. Students are given first priority in all department productions.

The theatre season is offered by the Department of Performing Arts as part of the Performing Arts Series. Because the season is generously supported by the Associated Students of Weber State through student fees, students receive substantial discounts for performances.

In addition to performance opportunities at Weber State, theatre majors are encouraged to seek summer employment in stock or repertory companies relating to their interests.
Associate of Arts

Dance (AA)

An Associate of Arts with a Dance major will indicate that a student has completed all WSU AA degree requirements and the introductory classes required for the Bachelor of Arts in Dance. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA.

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).
Program Code: 3045AA
CIPC: 500301

Advisement
Dance majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

Degree Requirements
A minimum of 60 credit hours.
A minimum of 25 hours in residency (WSU courses).
At least a 2.0 (C) WSU grade point average (GPA).
Completion of WSU general education requirements.

- The Associate of Arts Degree must include a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:
  - Documentation of a proficiency level of "Novice High" or better through an examination administered by the WSU Foreign Language Department or through an examination by a recognized testing agency.
  - Completion of any WSU foreign language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.
  - Completion of ASL 1020 - Second Semester ASL with a grade of "C" or higher, or comparable transfer credit.
  - Documentation of three years of the same language completed in high school with a minimum grade of "B".

General Education
Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Dance (AA) Major: DANC 1010 CA EDI - Introduction to Dance (3) and NUTR 1020 LS SUS - Science and Application of Human Nutrition (3).

Program Learning Outcomes
- Students will be introduced to dance technique and kinesiology principles in order to improve as dancers and performers
- Students will be introduced to the principles of dance theory and criticism in a variety of settings
- Students will begin to encounter the creative process in a variety of settings
- Students will begin to discover, express, and gain ownership of their own point of view about dance.
Dance Courses (19 credit hours)

Appropriate level technique courses in ballet and modern dance (initially to be determined by placement class) are required every semester of residence-2 courses in Ballet and 2 courses in Contemporary Modern (total of 8 credit hours).

- DANC 1100 - Ballet I Credits: (1) 2
- DANC 1200 - Modern I Credits: (2) 2
- DANC 1310 - Music for Dance Credits: (2) 2
- DANC 1500 - Jazz I Credits: (2) 2
- DANC 1580 - Rhythm Tap I Credits: (2) 2
- DANC 2250 - Alignment and Conditioning for Dance/Pilates Credits: (1) 1
- DANC 2410 - Improvisation Credits: (2) 2
- DANC 2470 - Ballet II Credits: (2) 2
- DANC 2490 - Modern II Credits: (2) 2
- DANC 2610 - Dance and Digital Technology Credits: (2) 2
Technical Theatre (AA)

An Associate of Arts with a Technical Theatre major will indicate that a student has completed all WSU AA degree requirements and the introductory classes required for the Bachelor of Arts in Theatre with the Design/Technology/Management track. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA.

**Grade Requirements:** A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

**Program Code:** 3084AA

**CIPC:** 500502

Advisement
Theatre majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

AA Degree Requirements
A minimum of 60 credit hours.
A minimum of 20 hours in residency (WSU courses).
At least a 2.0 (C) WSU grade point average (GPA).
Completion of WSU general education requirements.

The Associate of Arts Degree must include a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:

a. Documentation of a proficiency level of "Novice High" or better through an examination administered by the WSU Foreign Language Department or through an examination by a recognized testing agency.

b. Completion of WSU foreign language course 1020 with a grade of "C" or higher, or comparable transfer credit.

c. Completion of any WSU foreign language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.

d. Documentation of three years of the same language completed in high school with a minimum grade of "B".

e. Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at SLCC. The signer must "demonstrate proficiency in temporal aspect, spatial agreement and in describing things around her/him and the deaf culture."

f. Completion of WSU American Sign Language course 1020 with a grade of "C" or higher, or comparable transfer credit.

General Education
Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Technical Theatre Major: THEA 1013 CA - Introduction to Theatre (3) and COMM 1020 HU - Principles of Public Speaking (3).

Program Learning Outcomes
Have writing skills and ability to use research tools (library, internet, etc.).
Be able to present critical thinking through verbal and written presentations regarding the theatre. Specific areas of expertise will include major works, major figures, theory, and history.
Have a practical, working knowledge of how to produce a play on stage, including all related performance, script, design, and technical considerations.
Be able to critically evaluate what they and others have created.
Develop necessary skills to be proficient in at least one area of theatre (performance, teaching, technical/design-costume, technical/design-scenery, technical/design-lighting, technical/design-sound, directing, theatre management, or playwriting), with the ability to identify, analyze and resolve specific problems pertaining to that area.
Understand the historical context of theatre, drama, and performance including plays, major figures, costumes, scenic innovations, and theoretical approaches, and how these relate to contemporary society and culture. Have experience with individual and collaborative processes needed to produce and understand theatre.

Technical Theatre Courses (21 credit hours)

Theatre Courses Required for an AA in Technical Theatre (15 credit hours)

THEA 1063 - Theatre Foundations Credits: (3)
THEA 1713 - Script Analysis Credits: (3)

Select a minimum of three of the following technical theatre classes (please note that some of these classes are prerequisites for UD classes, plan accordingly)
THEA 1223 - Stage Makeup Credits: (3)
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
THEA 2403 - Stage Management Credits: (3)
THEA 2580 - Creative Computing for Theatre Design Credits: (3)

Theatre Practicum (2 credit hours)
Select 2 credit hours from the following options
THEA 4851 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4852 INT - Design/Tech Management Practicum Credits: (1) may be repeated for credit
THEA 4853 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4854 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4855 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4856 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4857 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4858 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit
THEA 4859 INT - Design/Tech/Management Practicum Credits: (1) may be repeated for credit

Focus Area Electives (6 credit hours)
Select at least 6 credit hours from the following, see individual course descriptions for prerequisites.
THEA 2203 - Costume Technology Credits: (3)
THEA 3100 - Projection Design Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 3232 - Scenic Art and Painting Credits: (3)
THEA 3243 - Costume History Credits: (3)
THEA 3340 - Theatre Management Credits: (3)
THEA 3500 - Sound Design Credits: (3)
THEA 4120 - Collaboration in the Theatre Credits: (3)
THEA 4203 - Costume Design Credits: (3)
THEA 4890 INT - Cooperative Work Experience or Internship Credits: (1-3)
THEA 3233 - Prop Design Credits: (3)
THEA 2821 HU - Period Styles in Design Credits: (3)
MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 1820 INT - The Art and Science of Recording I Credits: (3)
MUSC 1821 INT - The Art and Science of Recording II Credits: (3)
MUSC 4820 - Pro Tools 101 Credits: (2)
MUSC 4823 - Pro Tools 110 Credits: (2)
Associate of Science

Sound Production/Recording (AS)

Sound Production/Recording is the art and science of capturing and editing music, sound, and dialog. The Associate of Science in Sound Production/Recording is a specialized two-year degree which offers students practical knowledge, training, and experience in a variety of production, recording, and performance applications.

In classes emphasizing hands-on learning with state-of-the-art equipment, students learn the skills needed to succeed as a music producer, recording technician, post-production designer, or other similar fields. Thus, students completing the degree will be well positioned to pursue a rewarding career in the vibrant and growing fields of recording, live sound, and music/post production.

Additionally, this Associate degree pairs well with a variety of majors, such as Music, Theatre, Film Studies, Communication, Creative Writing, Computer Science, and others, and serves as a valuable first degree for students continuing on to complete a Bachelor degree, as well as supporting students' own personal performance and production interests.

Credit Hour Requirements: The degree consists of a minimum of 37 credits of General Education classes and 23 hours of required sound technology courses.

Grade Requirements: A grade of C or better (grades of C- are not acceptable) is required in all courses in the Sound Production/Recording program.

Program Code: 3092AS
CIPC: 150307

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts & Humanities at least annually for course and program advisement. Email cahadvisor@weber.edu for more information or to schedule an appointment.

Students should also meet regularly with advisors in the Sound Production/Recording program as they progress through the requirements for their Associate of Science degree.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study. (See Enrollment Services and Information). A brief informal interview is required for acceptance into the program.

General Education

Refer to Degree Requirements for Associate of Science requirements.

Sound Production and Recording Courses (23 Credits)

The following 12 courses are required:

- MUSC 2820 - Pro Tools 101 Credits: (2)
- MUSC 2823 - Pro Tools 110 Credits: (2) Pre-requisite: MUSC 2820
- MUSC 1820 INT - The Art and Science of Recording I Credits: (3)
- MUSC 1821 INT - The Art and Science of Recording II Credits: (3)
- MUSC 1720 - Analog Audio Credits: (2)
MUSC 1721 INT - Live Sound in the 21st Century Credits: (2)
MUSC 1722 - History of Recording Credits: (2)

MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 1723 - Field Recording/Sound for Picture Credits: (2)
MUSC 1724 - Studio Construction Credits: (1)
MUSC 1725 - Alternative Digital Audio Workstations Credits: (2)
MUSC 1726 - Creative Lab Credits: (1) (May be repeated)
Technical Theatre (AS)

An Associate of Science with a Technical Theatre major will indicate that a student has completed all WSU AS degree requirements and the introductory classes required for the Bachelor of Arts in Theatre within the Design/Technology/Management track. Students who have completed the AS degree may continue with intermediate and advanced coursework for the BA.

**Grade Requirements:** A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

**Program Code:** 3084AS

**CIPC:** 500502

**Advisement**

Theatre majors are encouraged to meet with an advisor at least annually for course and program advisement.

**Admission Requirements**

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

**Degree Requirements**

- A minimum of 60 credit hours.
- A minimum of 20 hours in residency (WSU courses).
- At least a 2.0 (C) WSU grade point average (GPA).
- Completion of WSU general education requirements.

**General Education**

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Technical Theatre Major: COMM 1020 HU - Principles of Public Speaking (3).

**Program Learning Outcomes**

- Have writing skills and ability to use research tools (library, internet, etc.).
- Be able to present critical thinking through verbal and written presentations regarding the theatre. Specific areas of expertise will include major works, major figures, theory, and history.
- Have a practical, working knowledge of how to produce a play on stage, including all related performance, script, design, and technical considerations.
- Be able to critically evaluate what they and others have created.
- Develop necessary skills to be proficient in at least one area of theatre (performance, teaching, technical/design-costume, technical/design-scenery, technical/design-lighting, technical/design-sound, directing, theatre management, or playwriting), with the ability to identify, analyze and resolve specific problems pertaining to that area.
- Understand the historical context of theatre, drama, and performance including plays, major figures, costumes, scenic innovations, and theoretical approaches, and how these relate to contemporary society and culture.
- Have experience with individual and collaborative processes needed to produce and understand theatre.

**Technical Theatre Courses (23 credit hours)**
Theatre Courses Required for an AS in Technical Theatre (15 credit hours)

THEA 1063 - Theatre Foundations Credits: (3)
THEA 1713 - Script Analysis Credits: (3)

Select a minimum of three of the following technical theatre classes (please note that some of these classes are prerequisites for UD classes, plan accordingly)

THEA 1223 - Stage Makeup Credits: (3)

Institutional Certificate
Jazz Studies Certificate of Proficiency

The Certificate of Proficiency in Jazz Studies is a course of study for music majors or minors that focuses on all aspects of the performance of jazz music. Students will learn improvisation, arranging, pedagogical practices, and performance practices. For more information on program requirements, please contact the School of Performing Arts.

Grade Requirements: A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.
Credit Hour Requirements: A minimum of 16 credits are required.
Program Code: 3080CP
CIPC: 50.0910

Complete the Following Courses (16 credits)

MUSC 3801 - Jazz Improvisation I Credits: (2)
MUSC 3802 - Jazz Improvisation II Credits: (2)
MUSC 3803 - Jazz and Commercial Arranging Credits: (2)
MUSC 3804 - Jazz Pedagogy Credits: (1)
MUSC 3805 - Jazz Keyboard Skills Credits: (2)
MUSC 1030 CA - Introduction to Jazz Credits: (3)

Minimum 2 semesters required:
MUSC 1753 INT - Jazz Ensemble Credits: (1) or
MUSC 3753 INT - Jazz Ensemble Credits: (1)

Minimum 2 semesters required:
MUSC 1755 INT - Instrumental Chamber Ensemble Credits: (1) or
MUSC 3755 INT - Instrumental Chamber Ensemble Credits: (1)

Music Entrepreneurship Certificate of Proficiency

The Certificate of Proficiency in Music Entrepreneurship prepares music students for the complex labor market and economy of the 21st Century. Courses in this program will teach students how to market themselves, manage their finances, start their own businesses (including teaching studios), and seek funding for their projects.

Grade Requirements: A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.

Credit Hour Requirements: A minimum of 18 credits are required.

Admission Requirements: Music major or minor.

Program: 3081CP
CIPC: 501003

Required Courses

ACTG 2010 - Survey of Accounting I Credits: (3)
COMM 1020 HU - Principles of Public Speaking Credits: (3)
ENTR 1002 - Startup Innovation Credits: (3)
ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model Credits: (3)
MUSC 3701 - Music Entrepreneurship and You Credits: (3)
MUSC 4701 - Grant Writing & Non-Profits Credits: (3)
Therapeutic Dance Certificate of Proficiency
The Certificate of Proficiency in Therapeutic Dance prepares students for employment as dance movement practitioners in adolescent residential centers, elderly care facilities, detention centers, and day programs for adults with disabilities (in long-term care or rehabilitation care facilities). Therapeutic Dance has been demonstrated to increase physical and mental health through stress reduction, social engagement, improved coordination, balance, flexibility, and creative expression.

Grade Requirements: A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.
Credit Hour Requirements: A minimum of 27 credits are required.
Program Code: CIPC:

Program Learning Outcomes

Demonstrate a basic understanding of physiology and biomechanical principles of dance.
Demonstrate a baseline understanding of psychology and psychological theory.
Complete minimum hour requirements at supervised practicum sites.
Demonstrate and explain aspects of how dance can assist people of all ages and abilities through the experience of embodiment by employing a passion for creative movement in a therapeutic context.

Required Courses (27 credit hours)

GERT 1010 SS - Introduction to Gerontology Credits: (3)
NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
HLTH 1030 SS - Healthy Lifestyles Credits: (3)
DANC 1200 - Modern I Credits: (2)
DANC 2300 - Dance Kinesiology Credits: (3)
DANC 2350 - Dance for Aging Populations Credits: (2)
DANC 2410 - Improvisation Credits: (2)
PSY 2710 - Biopsychology Credits: (3)
RHS 3505 - Standardized Patient Training Credits: (3)
DANC 3640 INT - Elementary Dance Pedagogy Credits: (3)
Bachelor of Arts

Dance (BA)

The BA degree in Dance provides an awareness of the possibilities of dance: performance, choreography, community outreach and involvement, education, creative technology, social and cultural roles, and research/scholarly endeavors. The degree prepares enthusiastic and energetic graduates who will use their passion for the art form to guide their career interests and advanced study choices.

Language Requirement: Option 1 or 2
Minor: Not Required
Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of 2.50 or "C+." In addition, a grade of "B" or higher is in the 3000-level major course Contemporary Modern Dance.
Credit Hour Requirements: A total of 120 credit hours is required for graduation - a minimum of 60 of these must be Dance classes. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
Program Code: 3045BA
CIPC: 500301

Advisement
Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email josephblake@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study (see Enrollment Services and Information). There are no special admission requirements for this major.

General Education
Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. DANC 1010 CA EDI and NUTR 1020 LS SUS are prerequisites for required dance courses.

Program Learning Outcomes

- Technique/Performance - Students will apply dance technique and kinesiology principles to improve as dancers and performers.
- Theory/Criticism - Students will apply and communicate principles of dance theory and criticism in many settings.
- Creative Process - Students will engage in the evolving nature of the creative process in many settings.
- Meaning/Self-discovery - Students will discover, express and gain ownership of their own point of view about dance, to speak the language of dance

Course Requirements for BA Degree: 59 Credit Hours
Required Dance Forms (minimum of 22 credit hours)

DANC 1100 - Ballet I Credits: (1)
DANC 1200 - Modern I Credits: (2)
DANC 1560 - African Dance and Culture I Credits: (2)
DANC 1580 - Rhythm Tap I Credits: (2)
DANC 2470 - Ballet II Credits: (2)
DANC 2490 - Modern II Credits: (2)
DANC 2500 - Jazz II Credits: (2)
DANC 3450 - Special Topic: World Dance Experiences II Credits: (2)
DANC 3490 - Modern III Credits: (2)
DANC 3560 - African Dance and Culture II Credits: (2)

Creative Process and Performance (16 credit hours)

Note: The first three (3) courses must be taken in sequence.

DANC 2410 - Improvisation Credits: (2)
DANC 3500 - Choreographic Process Credits: (3)
DANC 3520 INT - Choreography Practicum Credits: (3)
DANC 3910 INT/CEL - Moving Company: Rehearsal & Development Credits: (3)
DANC 3911 INT/CEL - Moving Company: Performance Credits: (3)
DANC 4910 INT - Rehearsal and Performance Credits: (1) (take twice for a total of two credits)

Theory & Practice (16 credit hours)

DANC 3015 - Dance History Credits: (3)
DANC 1520 - Dance in World Cultures Credits: (2)
DANC 2250 - Alignment and Conditioning for Dance/Pilates Credits: (1)
DANC 2300 - Dance Kinesiology Credits: (3)
DANC 2350 - Dance for Aging Populations Credits: (2)

DANC 3320 INT - Secondary Dance Pedagogy Credits: (3) or
DANC 3640 INT - Elementary Dance Pedagogy Credits: (3)

DANC 4700 INT - Creative Synthesis in Dance Credits: (3)

Dance Production (7 credit hours)

DANC 1310 - Music for Dance Credits: (2)

Choose one of the following below:
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
FILM 2200 CA - Fundamentals of Film Credits: (3)
THEA 2403 - Stage Management Credits: (3)
MUSC 3701 - Music Entrepreneurship and You Credits: (3)

DANC 2610 - Dance and Digital Technology Credits: (2)

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Dance Majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts) --the required language arts course is: DANC 4800 - Individual Study Credits: (3) taken 2 times for a total of (6) credit hours.
Dance Education (BA)

Dance Education Major K-12

The objective of this program is to help guide and prepare students for teaching dance in public school settings (grades K-12), private studios and non-profit organizations.

Program Prerequisites: Students must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of at least 2.75.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 56 of these are within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

Program Code: 3058BA or 3058BS

CIPC: 131324

Based within the disciplinary core of the Dance program, the BA and BS Dance Education K-12 degree offerings help to guide and prepare students for teaching dance in public school settings (grades K-12), private studios, and/or non-profit environments. In addition to the core dance requirements, secondary licensure requirements are mandatory for all teaching degrees leading to eligibility for Utah State Board of Education licensure.

Advisement

Students must consult with the Dance Program advisor at least once each term. Email Joseph Blake or Amanda Sowerby for more information or to schedule an appointment. Students seeking secondary certification are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to General Requirements of this catalog for Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements.

Program Learning Outcomes

- Technique/Performance - Students will apply dance technique and kinesiology principles to improve as dancers and performers.
- Theory/Criticism - Students will apply and communicate principles of dance theory and criticism in many settings.
- Creative Process - Students will engage in the evolving nature of the creative process in many settings.
- Meaning/Self-discovery - Students will discover, express, and gain ownership of their own point of view about dance, to speak the language of dance.

CIPC: 500901

Advisement
Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements
Declare your program of study (see Enrollment Services and Information).

General Education
Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.
Refer to the Department of Performing Arts policies and procedures.

Program Learning Outcomes
Employ writing and research skills to examine and communicate ideas about music.
Demonstrate competency as performers through the preparation of repertoire and technical studies.
Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Required Core Courses (25 credit hours)

MUSC 1006 - Concert Attendance I Credits: (0) Students must take this course twice.
MUSC 2006 - Concert Attendance II Credits: (0) Students must take this course twice.
MUSC 1110 - Music Theory I Credits: (2)
MUSC 1120 - Music Theory II Credits: (2)
MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)
MUSC 1901 - Music: The First-Year Experience Credits: (1)
MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 2110 - Music Theory III Credits: (2)
MUSC 2120 - Music Theory IV Credits: (2)
MUSC 2130 - Sight Singing & Aural Skills III Credits: (1)
MUSC 2140 - Sight Singing & Aural Skills IV Credits: (1)
MUSC 3205 - Music History I: Music before 1800 Credits: (3)
MUSC 3206 - Music History II: Music after 1800 Credits: (3)
MUSC 3208 - World Music Credits: (3)
MUSC 3840 - Form and Analysis Credits: (2)
Additional Courses for the BA Music

MUSC 1150 - Class Piano I Credits: (1)
MUSC 1160 - Class Piano II Credits: (1)

MUSC 1601 - Private Instruction Credits: (1) (MUSC 1601 must be taken concurrently with MUSC 4830)
MUSC 4830 - Directed Readings Credits: (1-3)

MUSC 4900 INT - Senior Project--BA in Music Credits: (3)
MUSC 3701 - Music Entrepreneurship and You Credits: (3)

A total of four classes in one-credit private instruction in appropriate area, in addition to MUSC 1601:
MUSC 1681 - Private Instruction Credits: (1) (To be taken twice for credit)
MUSC 2681 - Private Instruction Credits: (1) (To be taken twice for credit)

A total of four classes in one-credit Large Ensemble:
(courses may be repeated for credit)
MUSC 1740 INT - Weber State Concert Choir Credits: (1)
MUSC 3740 INT - Weber State Concert Choir Credits: (1)
MUSC 1750 - Symphonic Band Credits: (1-2)
MUSC 3750 - Symphonic Band Credits: (1-2)
MUSC 1760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 3760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 1763 INT - Guitar Ensemble Credits: (1)
MUSC 3763 INT - Guitar Ensemble Credits: (1)

Music Electives (8 credits)

Music electives must have the MUSC designation and are in addition to the courses in the Music Core and Required Courses.

Free Electives (26 credits)

Language Courses Required to fulfill the BA

Six semester-hours of foreign language is required. This requirement may be satisfied by taking two semesters of the same language or one semester each of two different languages.

An additional six semester hours of foreign language or language arts is required.
Musical Theatre (BA)

Program Prerequisite: Completion of the required pre-major core courses listed under the following Course Requirements with a grade of "C" or better and an audition are required for admission to this program.

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or better.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 68-69 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.

Program Code: 3049BA with cohort MTPERF (Performance Track) or MTDIRECT (Music Direction Track)
CIPC: 500509

Advisement
Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment.

Admission Requirements
An audition is required for admission to this program after completing the pre-major core courses. Auditions will be scheduled in spring semester each year.

General Education
Refer to General Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. The following courses required for this major may also be applied to fill general education requirements: DANC 1010 CA EDI - Introduction to Dance (3), THEA 1033 CA - Introduction to Acting (3) and THEA 1043 CA - Introduction to American Musical Theatre (3).

Program Learning Outcomes
Have writing skills and ability to use research tools (library, internet, etc.).
Be able to present critical thinking through verbal and written presentations regarding the theatre. Specific areas of expertise will include major works, major figures, theory, and history.
Have a practical, working knowledge of how to produce a play on stage, including all related performance, script, design, and technical considerations.
Be able to critically evaluate what they and others have created.
Develop necessary skills to be proficient in at least one area of theatre (performance, teaching, technical/design-costume, technical/design-scenery, technical/design-lighting, technical/design-sound, directing, theatre management, or playwriting), with the ability to identify, analyze and resolve specific problems pertaining to that area.
Understand the historical context of theatre, drama, and performance including plays, major figures, costumes, scenic innovations, and theoretical approaches, and how these relate to contemporary society and culture.
Have experience with individual and collaborative processes needed to produce and understand theatre.

Major Course Requirements for BA Degree
Required Pre-Major Core Courses (15 credit hours)

Admittance to the Musical Theatre Major is contingent upon successful completion of the Pre-Major Core Courses AND by successful audition/interview. The program audition may be attempted concurrently while enrolled in the Pre-Major Core. Transfer students will be evaluated on an individual basis.

This Pre-Major Core includes 3 credit hours of Creative Arts Gen Ed, so only 12 credit hours are added to the total required hours for the degree.

THEA 1030 - Voice and Movement for the Actor Credits: (3)
THEA 1220 - Acting I Credits: (3)
THEA 1043 CA - Introduction to American Musical Theatre Credits: (3)
THEA 1063 - Theatre Foundations Credits: (3)
THEA 1075 - Class Voice for Musical Theatre Credits: (1) (repeated 2 times)

Select one of the following Dance classes
DANC 1100 - Ballet I Credits: (1)
DANC 1200 - Modern I Credits: (2)
DANC 1450 - Special Topic: World Dance Experiences I Credits: (2)
DANC 1500 - Jazz I Credits: (2)
DANC 1520 - Dance in World Cultures Credits: (2)

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Musical Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 3343 - History & Literature of Musical Theatre and either THEA 3303 - History and Literature of Theatre I (3) or THEA 3313 - History and Literature of Theatre II (3).

Required Courses for Musical Theatre, Performance Track (57 credit hours)

Dance (7 credit hours)

The following courses may be repeated for credit as approved by an advisor

DANC 1100 - Ballet I Credits: (1)
DANC 1200 - Modern I Credits: (2)
DANC 1450 - Special Topic: World Dance Experiences I Credits: (2)
DANC 1500 - Jazz I Credits: (2)
DANC 1520 - Dance in World Cultures Credits: (2)
DANC 1580 - Rhythm Tap I Credits: (2)
DANC 2470 - Ballet II Credits: (2)
DANC 2500 - Jazz II Credits: (2)
DANC 2490 - Modern II Credits: (2)
THEA 3440 - Dance for Musical Theatre Credits: (1)
DANC 3450 - Special Topic: World Dance Experiences II Credits: (2)
DANC 3470 - Ballet III Credits: (2)
DANC 3490 - Modern III Credits: (2)
DANC 3580 - Rhythm Tap II Credits: (2)
DANC 4910 INT - Rehearsal and Performance Credits: (1)

The following courses are also recommended for conditioning and training up to 2 of which may be used to fulfill the Dance requirement:

PE 1010 - Aerobics, Level I Credits: (1)
PE 1011 - Aerobics, Level II Credits: (1)
PE 1012 - Aerobics, Level III Credits: (1)
PE 1057 - Hatha Yoga, Level I Credits: (1)
PE 1080 - Strength Training, Level I Credits: (1)
PE 1081 - Strength Training, Level II Credits: (1)
PE 1082 - Strength Training, Level III Credits: (1)
PE 1155 - Fencing, Level I Credits: (1)
PE 1410 - TaiChi, Level I Credits: (1)

Musicianship (11 credit hours)

THEA 1143 - Musical Theatre Musicianship I Credits: (2)
THEA 3143 - Musical Theatre Musicianship II Credits: (3)
THEA 4651 - Individual Training in Stage Voice Credits: (1) (repeated 6 times)

Theatre (38 credit hours)

THEA 1223 - Stage Makeup Credits: (3)
THEA 1713 - Script Analysis Credits: (3)
THEA 2033 - Acting II Credits: (3)
THEA 2443 - Acting for Musical Theatre Credits: (3)
THEA 3103 INT - Directing I Credits: (3)
THEA 3343 - History & Literature of Musical Theatre Credits: (3)
THEA 3443 - Scene Study for Musical Theatre Credits: (3)
THEA 3651 - Musical Theatre Repertoire Credits: (1) (repeated twice)
THEA 3991 - Junior Seminar Credits: (1)
THEA 4143 - Directing and Choreographing for Musical Theatre Credits: (3)

Select one of the following Theatre History classes
THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)

Select two of the following Technical Theatre classes, these classes frequently serve as prerequisites for the Theatre Design classes so plan accordingly.
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2580 - Creative Computing for Theatre Design Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)

Theatre Design (3 credit hours)

Select one of the following Theatre Design classes, prerequisites may need to be met first.

THEA 3100 - Projection Design Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 3500 - Sound Design Credits: (3)
THEA 4203 - Costume Design Credits: (3)

Required Courses for Musical Theatre, Music Direction Track (57 credit hours)

Musicianship (24 credit hours)

MUSC 1110 - Music Theory I Credits: (2)
MUSC 1120 - Music Theory II Credits: (2)
MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)
MUSC 2110 - Music Theory III Credits: (2)
MUSC 2130 - Sight Singing & Aural Skills III Credits: (1)
THEA 3143 - Musical Theatre Musicianship II Credits: (3)
THEA 4250 - Music Direction Seminar Credits: (1-3)
THEA 4652 - Individual Training in Music Direction Credits: (1) (repeated 8 times)

Theatre (30 credit hours)

THEA 1223 - Stage Makeup Credits: (3)
THEA 1713 - Script Analysis Credits: (3)
THEA 2443 - Acting for Musical Theatre Credits: (3)
THEA 3343 - History & Literature of Musical Theatre Credits: (3)
THEA 3651 - Musical Theatre Repertoire Credits: (1) (repeated twice)
THEA 3991 - Junior Seminar Credits: (1)
THEA 4143 - Directing and Choreographing for Musical Theatre Credits: (3)

Select one of the following Theatre History classes
THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)

Select two of the following Technical Theatre classes, these classes frequently serve as prerequisites for the Theatre Design classes so plan accordingly.
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
THEA 2580 - Creative Computing for Theatre Design Credits: (3)

Theatre Design (3 credit hours)

Select one of the following Theatre Design classes, prerequisites may need to be met first.

THEA 3100 - Projection Design Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 3500 - Sound Design Credits: (3)
THEA 4203 - Costume Design Credits: (3)
Theatre Arts (BA)

Areas of Emphasis

Select one of the following areas of emphasis

- Theatre Arts (BA), Acting/Directing Emphasis
- Theatre Arts (BA), Design/Technical/Management Emphasis
- Theatre Arts (BA), Theatre Generalist Emphasis

Theatre Arts (BA), Acting/Directing Emphasis

Theatre Arts (BA)

Program Prerequisite: Not Required.
Minor: Required.
Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or higher.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 43-47 credit hours must be earned in Theatre Arts courses. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.
Program Code: 3046BA with one of the following emphasis codes 3105 (Generalist), 3106 (Acting/Directing), 3107 (Design/Technical/Management)
CIPC: 500501

Advisement

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)
Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

Language Courses Required to Fulfill the BA

Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 1033 CA - Introduction to Acting, and THEA 3313 - History and Literature of Theatre II).

Program Learning Outcomes

Have writing skills and ability to use research tools (library, internet, etc.).
Be able to present critical thinking through verbal and written presentations regarding the theatre. Specific areas of expertise will include major works, major figures, theory, and history.
Have a practical, working knowledge of how to produce a play on stage, including all related performance, script, design, and technical considerations.
Be able to critically evaluate what they and others have created.
Develop necessary skills to be proficient in at least one area of theatre (performance, teaching, technical/design-costume, technical/design-scenery, technical/design-lighting, technical/design-sound, directing, theatre management, or playwriting), with the ability to identify, analyze and resolve specific problems pertaining to that area.
Understand the historical context of theatre, drama, and performance including plays, major figures, costumes, scenic innovations, and theoretical approaches, and how these relate to contemporary society and culture.
Have experience with individual and collaborative processes needed to produce and understand theatre.

Acting/Directing Emphasis Requirements

Required Courses (40 credit hours)

- THEA 1030 - Voice and Movement for the Actor Credits: (3)
- THEA 1063 - Theatre Foundations Credits: (3)
- THEA 1713 - Script Analysis Credits: (3)
- THEA 1220 - Acting I Credits: (3)
- THEA 1223 - Stage Makeup Credits: (3)
- THEA 1513 - Stagecraft Credits: (3)
- THEA 2022 - Costume Fundamentals Credits: (3)
- THEA 2032 - Lighting Fundamentals Credits: (3)
- THEA 2403 - Stage Management Credits: (3)
- THEA 3103 INT - Directing I Credits: (3)
- THEA 3303 - History and Literature of Theatre I Credits: (3)
- THEA 3313 - History and Literature of Theatre II Credits: (3)
- THEA 3991 - Junior Seminar Credits: (1)
- ENGL 4730 - Studies in Shakespeare Credits: (3)

Select 6 credits from the following courses with advisor approval (6 credit hours)

- THEA 2033 - Acting II Credits: (3)
- THEA 3033 - Advanced Acting Credits: (3)
- THEA 4890 INT - Cooperative Work Experience or Internship Credits: (1-3)
- THEA 4230 - Performance Seminar Credits: (1-3)
- THEA 4002D - Special Studies in Theatre: Auditioning Credits: (2)
- THEA 4103 INT - Directing II Credits: (3)
- THEA 4143 - Directing and Choreographing for Musical Theatre Credits: (3)
- COMM 3070 - Performance Studies Credits: (3)

Theatre Design (3 credit hours)

Select one of the following theatre design courses.

- THEA 3212 - Scenic Design Credits: (3)
- THEA 3222 - Lighting Design Credits: (3)
- THEA 4203 - Costume Design Credits: (3)
- THEA 3500 - Sound Design Credits: (3)
- THEA 3100 - Projection Design Credits: (3)
Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options. These courses may be repeated for credit.

THEA 4851 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4852 INT - Design/Tech Management Practicum Credits: (1)
THEA 4853 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4854 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4855 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4856 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4857 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4858 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4859 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4861 INT - Performance Practicum Credits: (1)
THEA 4862 INT - Performance Practicum Credits: (1)
THEA 4862 INT - Performance Practicum Credits: (1)
THEA 4863 INT - Performance Practicum Credits: (1)
THEA 4864 INT - Performance Practicum Credits: (1)
THEA 4865 INT - Performance Practicum Credits: (1)
THEA 4866 INT - Performance Practicum Credits: (1)
THEA 4867 INT - Performance Practicum Credits: (1)
THEA 4868 INT - Performance Practicum Credits: (1)
THEA 4869 INT - Performance PracticumCredits: (1)
Theatre Arts (BA), Design/Technical/Management Emphasis

Theatre Arts (BA)

Program Prerequisite: Not Required.
Minor: Required.
Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or higher.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 43-47 credit hours must be earned in Theatre Arts courses. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.
Program Code: 3046BA with one of the following emphasis codes 3105 (Generalist), 3106 (Acting/Directing), 3107 (Design/Technical/Management)
CIPC: 500501

Advisement
Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)

Admission Requirements
Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

Language Courses Required to Fulfill the BA
Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts - the required language arts courses are: THEA 1033 CA - Introduction to Acting, and THEA 3313 - History and Literature of Theatre II).

Program Learning Outcomes
Have writing skills and ability to use research tools (library, internet, etc.).
Be able to present critical thinking through verbal and written presentations regarding the theatre. Specific areas of expertise will include major works, major figures, theory, and history.
Have a practical, working knowledge of how to produce a play on stage, including all related performance, script, design, and technical considerations.
Be able to critically evaluate what they and others have created.
Develop necessary skills to be proficient in at least one area of theatre (performance, teaching, technical/design-costume, technical/design-scenery, technical/design-lighting, technical/design-sound, directing, theatre management, or playwriting), with the ability to identify, analyze and resolve specific problems pertaining to that area.
Understand the historical context of theatre, drama, and performance including plays, major figures, costumes, scenic innovations, and theoretical approaches, and how these relate to contemporary society and culture.
Have experience with individual and collaborative processes needed to produce and understand theatre.

Design/Technical/Management Emphasis Requirements
Required Courses (25 credit hours)

THEA 1033 CA - Introduction to Acting Credits: (3) or
THEA 1220 - Acting I Credits: (3)

THEA 1030 - Voice and Movement for the Actor Credits: (3) or
COMM 1020 HU - Principles of Public Speaking Credits: (3)

THEA 1063 - Theatre Foundations Credits: (3)
THEA 1713 - Script Analysis Credits: (3)
THÉA 2403 - Stage Management Credits: (3)
THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)
THEA 3991 - Junior Seminar Credits: (1)

Technical Theatre Courses (9 credit hours)

Select three of the following technical theatre courses.
Note: Some of these courses are pre-requisites for UD classes. Plan accordingly.

THEA 1223 - Stage Makeup Credits: (3)
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
THEA 2580 - Creative Computing for Theatre Design Credits: (3)

Theatre Design (3 credit hours)

Select one of the following theatre design courses.

THEA 3100 - Projection Design Credits: (3)
THEA 3500 - Sound Design Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 4203 - Costume Design Credits: (3)

Design/Technical/Management Focus Area Requirements (9 credit hours)

Select at least 9 credit hours from the following courses to supplement your course of study. To propose another option, consult your academic advisor. Courses listed below as options for more than one requirement may be used to fulfill only one requirement.

THEA 2203 - Costume Technology Credits: (3)
THEA 2515 - Rendering and Modeling Credits: (3)
THEA 2581 - Adobe Suite for Theatre Design Credits: (3)
THEA 2821 HU - Period Styles in Design Credits: (3)
THEA 3100 - Projection Design Credits: (3)
THEA 3103 INT - Directing I Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 3232 - Scenic Art and Painting Credits: (3)

Required General Education Courses (6-7 credit hours)

The following general education courses are required for the Theatre Major:

- THEA 2821 HU - Period Styles in Design Credits: (3) or
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4)

- ENGL 3500 HU - Introduction to Shakespeare Credits: (3)
Theatre Arts (BA), Theatre Generalist Emphasis

Theatre Arts (BA)

Program Prerequisite: Not Required.
Minor: Required.
Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or higher.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 43-47 credit hours must be earned in Theatre Arts courses. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.
Program Code: 3046BA with one of the following emphasis codes 3105 (Generalist), 3106 (Acting/Directing), 3107 (Design/Technical/Management)
CIPC: 500501

Advisement
Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)
Use Grad MAPs to plan your degree

Admission Requirements
Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

Language Courses Required to Fulfill the BA
Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 1033 CA - Introduction to Acting, and THEA 3313 - History and Literature of Theatre II).

Program Learning Outcomes
Have writing skills and ability to use research tools (library, internet, etc.).
Be able to present critical thinking through verbal and written presentations regarding the theatre. Specific areas of expertise will include major works, major figures, theory, and history.
Have a practical, working knowledge of how to produce a play on stage, including all related performance, script, design, and technical considerations.
Be able to critically evaluate what they and others have created.
Develop necessary skills to be proficient in at least one area of theatre (performance, teaching, technical/design-costume, technical/design-scenery, technical/design-lighting, technical/design-sound, directing, theatre management, or playwriting), with the ability to identify, analyze and resolve specific problems pertaining to that area.
Understand the historical context of theatre, drama, and performance including plays, major figures, costumes, scenic innovations, and theoretical approaches, and how these relate to contemporary society and culture.
Have experience with individual and collaborative processes needed to produce and understand theatre.

Theatre Arts Generalist Emphasis Requirements
Required Courses (23 credit hours)

THEA 1063 - Theatre Foundations Credits: (3)
THEA 1713 - Script Analysis Credits: (3)
THEA 2403 - Stage Management Credits: (3)
THEA 3103 INT - Directing I Credits: (3)
THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)
THEA 3991 - Junior Seminar Credits: (1)
ENGL 4730 - Studies in Shakespeare Credits: (3)
THEA 4900 INT - Senior Project Credits: (1)

Select 21 credits from the following courses (21 credit hours)

Note: Pre-requisites may need to be met first.

THEA 1223 - Stage Makeup Credits: (3)
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
THEA 2330 - Dramaturgy and Criticism Credits: (3)
THEA 2580 - Creative Computing for Theatre Design Credits: (3)
THEA 3343 - History & Literature of Musical Theatre Credits: (3)
THEA 3505 - Playwriting Credits: (3)
THEA 4103 INT - Directing II Credits: (3)
THEA 4120 - Collaboration in the Theatre Credits: (3)
THEA 4230 - Performance Seminar Credits: (1-3)
THEA 4270 - Dramatic Theory and Analysis Credits: (3)
THEA 4860 - Advanced Playwriting Credits: (3)
THEA 4890 INT - Cooperative Work Experience or Internship Credits: (1-3)
COMM 3070 - Performance Studies Credits: (3)

Theatre Design (3 credit hours)

Select one of the following theatre design courses.

THEA 3100 - Projection Design Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 3500 - Sound Design Credits: (3)
THEA 4203 - Costume Design Credits: (3)

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options. These courses may be repeated for credit.

THEA 4851 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4852 INT - Design/Tech Management Practicum Credits: (1)
THEA 4853 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4854 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4855 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4856 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4857 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4858 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4859 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4861 INT - Performance Practicum Credits: (1)
THEA 4862 INT - Performance Practicum Credits: (1)
THEA 4863 INT - Performance Practicum Credits: (1)
THEA 4864 INT - Performance Practicum Credits: (1)
THEA 4865 INT - Performance Practicum Credits: (1)
THEA 4866 INT - Performance Practicum Credits: (1)
THEA 4867 INT - Performance Practicum Credits: (1)
THEA 4868 INT - Performance Practicum Credits: (1)
THEA 4869 INT - Performance Practicum Credits: (1)
Theatre Arts Teaching (BA)

**Program Prerequisite:** Not Required.

**Minor:** Suggested

**Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.75 or higher.

**Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 50 credit hours must be earned in Theatre Arts courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major. 24 Credits of Education Department Classes

**Program Code:** Theatre Arts Teaching (3047BA)

**CIPC:** Theatre Arts Teaching (131324)

**Advisement**

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)

Use Grad MAPs to plan your degree

THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)
THEA 3991 - Junior Seminar Credits: (1)
THEA 4143 - Directing and Choreographing for Musical Theatre Credits: (3)
ENGL 4730 - Studies in Shakespeare Credits: (3)

Theatre Design (3 credit hours)

Select one of the following theatre design classes

THEA 3100 - Projection Design Credits: (3)
THEA 3212 - Scenic Design Credits: (3)
THEA 3222 - Lighting Design Credits: (3)
THEA 3500 - Sound Design Credits: (3)
THEA 4203 - Costume Design Credits: (3)

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options, may be repeated for credit

THEA 4851 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4852 INT - Design/Tech Management Practicum Credits: (1)
THEA 4853 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4854 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4855 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4856 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4857 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4858 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4859 INT - Design/Tech/Management Practicum Credits: (1)
THEA 4861 INT - Performance Practicum Credits: (1)
THEA 4862 INT - Performance Practicum Credits: (1)
THEA 4863 INT - Performance Practicum Credits: (1)
THEA 4864 INT - Performance Practicum Credits: (1)
THEA 4865 INT - Performance Practicum Credits: (1)
THEA 4866 INT - Performance Practicum Credits: (1)
THEA 4867 INT - Performance Practicum Credits: (1)
THEA 4868 INT - Performance Practicum Credits: (1)
THEA 4869 INT - Performance Practicum Credits: (1)
General Education Courses Required (3 credit hours)

The following general education courses are required for the Theatre Major:

THEA 1043 CA - Introduction to American Musical Theatre Credits: (3)

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts - the required language arts courses are: THEA 3303 - History and Literature of Theatre I, and THEA 3313 - History and Literature of Theatre II).

Note:

Theatre teaching majors must also satisfy the Teacher Education admissions and licensure requirements.
Bachelor of Music

Music Major Performance and Pedagogy (BM)

Music Major Performance and Pedagogy (BM)

Program Prerequisite: Audition required for admission to program.

Minor: Not required.

Grade Requirement: A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.

Program Code: Performance and Pedagogy (3096BM) with one of the following emphases: Keyboard Performance (3097), Vocal Performance(3098), Instrumental Performance (3099), Keyboard Pedagogy (3100), Stringed Instrument Pedagogy (3101), Vocal Pedagogy (3102)

CIPC: Performance and Pedagogy (500903), Keyboard Performance (500903), Vocal Performance(500903), Instrumental Performance (500903), Keyboard Pedagogy (500912), Stringed Instrument Pedagogy (500912), Vocal Pedagogy (500912)

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). All students in these Bachelor of Music programs must audition with the appropriate area head prior to admission to the program.

General Education

Refer to Degree Requirements for Bachelor of Music requirements.

Program Learning Outcomes

Employ writing and research skills to examine and communicate ideas about music.

Demonstrate competency as performers through the preparation of repertoire and technical studies.

Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Policies and Procedures

Refer to the School of Music Policies and Procedures in this catalog.
School of Music Required Core Courses (25 credit hours)

MUSC 1006 - Concert Attendance I Credits: (0) Students must take this course twice.
MUSC 2006 - Concert Attendance II Credits: (0) Students must take this course twice.
MUSC 1110 - Music Theory I Credits: (2)
MUSC 1120 - Music Theory II Credits: (2)
MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)
MUSC 1901 - Music: The First-Year Experience Credits: (1)
MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 2110 - Music Theory III Credits: (2)
MUSC 2120 - Music Theory IV Credits: (2)
MUSC 2130 - Sight Singing & Aural Skills III Credits: (1)
MUSC 2140 - Sight Singing & Aural Skills IV Credits: (1)
MUSC 3205 - Music History I: Music before 1800 Credits: (3)
MUSC 3206 - Music History II: Music after 1800 Credits: (3)
MUSC 3208 - World Music Credits: (3)
MUSC 3840 - Form and Analysis Credits: (2)

Areas of Emphasis

Select one of the following areas of emphasis:

Music Major Performance and Pedagogy (BM), Instrumental Performance Emphasis
Music Major Performance and Pedagogy (BM), Keyboard Pedagogy Emphasis
Music Major Performance and Pedagogy (BM), Keyboard Performance Emphasis
Music Major Performance and Pedagogy (BM), Stringed Instrument Pedagogy Emphasis
Music Major Performance and Pedagogy (BM), Vocal Pedagogy Emphasis
Music Major Performance and Pedagogy (BM), Vocal Performance Emphasis
Music Major Performance and Pedagogy (BM), Instrumental Performance Emphasis

Music Major Performance and Pedagogy (BM)

MUSC 3822 - Instrumental Conducting I Credits: (2)
MUSC 4302 - Keyboard Pedagogy I Credits: (2)
MUSC 4312 - Keyboard Pedagogy II Credits: (2)
MUSC 4322 - Keyboard Pedagogy III Credits: (2)
MUSC 4332 - Keyboard Pedagogy IV Credits: (2)
MUSC 4860 INT - Internship in Music Credits: (1-3) (to be repeated twice for credit)
MUSC 4991 INT - Senior Recital Credits: (0)

Large Ensemble (2 credit hours)

Choose two courses from the following to be taken over two semesters:

MUSC 1740 INT - Weber State Concert Choir Credits: (1)
MUSC 1750 - Symphonic Band Credits: (1-2)
MUSC 1760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 3740 INT - Weber State Concert Choir Credits: (1)
MUSC 3750 - Symphonic Band Credits: (1-2)
MUSC 3760 INT - Weber State Symphony Orchestra Credits: (1-2)
Applied Lessons (16 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1682 - Private Instruction Credits: (2)
- MUSC 2682 - Private Instruction Credits: (2)
- MUSC 3682 - Private Instruction Credits: (2)
- MUSC 4682 - Private Instruction Credits: (2)

Other Required Support Courses (10 credit hours)

- THEA 1033 CA - Introduction to Acting Credits: (3)
- FIN 1010 - Personal Finance Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- DANC 1200 - Modern I Credits: (2) or
  DANC 1100 - Ballet I Credits: (1)

Elective Courses (6 credit hours)

Choose 6 credits from the following:

1 Foreign Language Course
- MUSC 1755 INT - Instrumental Chamber Ensemble Credits: (1) or (may be repeated twice for credit) OR
  MUSC 3755 INT - Instrumental Chamber Ensemble Credits: (1) (may be repeated twice for credit)

- ENTR 1002 - Startup Innovation Credits: (3)
- MUSC 1753 INT - Jazz Ensemble Credits: (1) (may be repeated twice for credit)

- MUSC 1601 - Private Instruction Credits: (1) in Jazz Piano (may be repeated twice for credit) OR
  MUSC 3601 - Private Instruction Credits: (1) in Jazz Piano (may be repeated twice for credit)

One of the following courses may be used toward the 6 elective credits:
- MUSC 4820 - Pro Tools 101 Credits: (2)
- MUSC 1820 INT - The Art and Science of Recording I Credits: (3)
- MUSC 1720 - Analog Audio Credits: (2)
- MUSC 1721 INT - Live Sound in the 21st Century Credits: (2)
- MUSC 1722 - History of Recording Credits: (2)
Music Major Performance and Pedagogy (BM), Keyboard Performance Emphasis

Music Major Performance and Pedagogy (BM)

**Program Prerequisite:** Audition required for admission to program.

**Minor:** Not required.

**Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

**Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.

**Program Code:** Performance and Pedagogy (3096BM) with one of the following emphases: Keyboard Performance (3097), Vocal Performance (3098), Instrumental Performance (3099), Keyboard Pedagogy (3100), Stringed Instrument Pedagogy (3101), Vocal Pedagogy (3102)

**CIPC:** Performance and Pedagogy (500903), Keyboard Performance (500903), Vocal Performance (500903), Instrumental Performance (500903), Keyboard Pedagogy (500912), Stringed Instrument Pedagogy (500912), Vocal Pedagogy (500912)

**Advisement**

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

**Admission Requirements**

Declare your program of study (see Enrollment Services and Information). All students in these Bachelor of Music programs must audition with the appropriate area head prior to admission to the program.

**General Education**

Refer to Degree Requirements for Bachelor of Music requirements.

**Program Learning Outcomes**

Employ writing and research skills to examine and communicate ideas about music.

Demonstrate competency as performers through the preparation of repertoire and technical studies.

Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

**School of Music Policies and Procedures**

Refer to the School of Music Policies and Procedures in this catalog.
School of Music Required Core Courses (25 credit hours)

MUSC 1006 - Concert Attendance I Credits: (0) Students must take this course twice.
MUSC 2006 - Concert Attendance II Credits: (0) Students must take this course twice.
MUSC 1110 - Music Theory I Credits: (2)
MUSC 1120 - Music Theory II Credits: (2)
MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)
MUSC 1901 - Music: The First-Year Experience Credits: (1)
MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 2110 - Music Theory III Credits: (2)
MUSC 2120 - Music Theory IV Credits: (2)
MUSC 2130 - Sight Singing & Aural Skills III Credits: (1)
MUSC 2140 - Sight Singing & Aural Skills IV Credits: (1)
MUSC 3205 - Music History I: Music before 1800 Credits: (3)
MUSC 3206 - Music History II: Music after 1800 Credits: (3)
MUSC 3208 - World Music Credits: (3)
MUSC 3840 - Form and Analysis Credits: (2)

Additional Required Music Courses (52 credit hours)

MUSC 2160 - Functional Piano Skills for Piano Majors/Minors Credits: (1)
MUSC 2321 - The Principles of Collaborative Piano I Credits: (1)
MUSC 2331 - The Principles of Collaborative Piano II Credits: (1)
MUSC 3302 - Keyboard Literature I Credits: (2)
MUSC 3312 - Keyboard Literature II Credits: (2)
MUSC 3872 - Choral Conducting I Credits: (2) or
MUSC 3822 - Instrumental Conducting I Credits: (2)
MUSC 3701 - Music Entrepreneurship and You Credits: (3)
MUSC 4302 - Keyboard Pedagogy I Credits: (2)
MUSC 4312 - Keyboard Pedagogy II Credits: (2)
MUSC 3991 INT - Junior Recital Credits: (0)
MUSC 4991 INT - Senior Recital Credits: (0)

Large Ensemble (2 credit hours)

Choose two courses from the following to be taken over two semesters:

MUSC 1740 INT - Weber State Concert Choir Credits: (1)
MUSC 3740 INT - Weber State Concert Choir Credits: (1)
MUSC 1750 - Symphonic Band Credits: (1-2)
MUSC 3750 - Symphonic Band Credits: (1-2)
MUSC 1760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 3760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 1753 INT - Jazz Ensemble Credits: (1)
MUSC 3753 INT - Jazz Ensemble Credits: (1)
Chamber Lessons (2 credit hours)

To be taken over two semesters for a total of 2 credits:

- MUSC 1755 INT - Instrumental Chamber Ensemble Credits: (1)
- MUSC 3755 INT - Instrumental Chamber Ensemble Credits: (1)

Applied Lessons (16 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1682 - Private Instruction Credits: (2)
- MUSC 2682 - Private Instruction Credits: (2)
- MUSC 3682 - Private Instruction Credits: (2)
- MUSC 4682 - Private Instruction Credits: (2)

Other Required Support Courses (10 credit hours)

- THEA 1033 CA - Introduction to Acting Credits: (3)
- FIN 1010 - Personal Finance Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)

- DANC 1100 - Ballet I Credits: (1) or
- DANC 1200 - Modern I Credits: (2)

Elective Courses (6 credit hours)

Choose 6 credits from the following:

- MUSC 4322 - Keyboard Pedagogy III Credits: (2)
- MUSC 4332 - Keyboard Pedagogy IV Credits: (2)
- MUSC 4860 INT - Internship in Music Credits: (1-3)
- MUSC 1601 - Private Instruction Credits: (1) in Jazz Piano (may be repeated twice for credit)
- MUSC 3601 - Private Instruction Credits: (1) in Jazz Piano (may be repeated twice for credit)

One of the following courses may be used toward the 6 elective credits:

- MUSC 4820 - Pro Tools 101 Credits: (2)
- MUSC 1820 INT - The Art and Science of Recording I Credits: (3)
- MUSC 1720 - Analog Audio Credits: (2)
- MUSC 1721 INT - Live Sound in the 21st Century Credits: (2)
- MUSC 1722 - History of Recording Credits: (2)

Foreign Language

See Foreign Language Requirements in the Music Area procedures and policies.
Music Major Performance and Pedagogy (BM), Stringed Instrument Pedagogy Emphasis

Music Major Performance and Pedagogy (BM)

Program Prerequisite: Audition required for admission to program.
Minor: Not required.
Grade Requirement: A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. MUSC 3763 INT - Guitar Ensemble Credits: (1)

Course Requirements for Licensure

Minimum of 27 credits required.

COMM 1020, COMM 2110, and CHF 1500 also fulfill University General Education requirements.

EDUC 1010 CEL - Exploring Teaching Credits: (3)
CHF 1500 SS/EDI - Human Development Credits: (3)

COMM 1020 HU - Principles of Public Speaking Credits: (3)
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

EDUC 3220 - Foundations of Diversity Credits: (2)
EDUC 3265 - The Exceptional Student Credits: (2)
EDUC 3315 - Media Integration in the Secondary School Setting Credits: (2)
EDUC 3900 - Preparing, Teaching, and Assessing Instruction Credits: (2)
EDUC 3910 INT - Secondary Education Practicum Credits: (2)
EDUC 3935 - Reading and Writing Across the Secondary Curriculum Credits: (2)
EDUC 4940A INT - Student Teaching in Secondary Education Credits: (8)
EDUC 4950 - Integrated Secondary Student Teaching Seminar Credits: (4)

Foreign Language

Three credits of Foreign Language courses. See Foreign Language Requirements in the Music Area procedures and policies.

Choral Emphasis Required Courses

MUSC 2821 - Percussion Methods I Credits: (1)
MUSC 2841 - Brass Methods I Credits: (1)
MUSC 2851 - Woodwind Methods I Credits: (1)
MUSC 2871 - String Methods Credits: (1)
MUSC 3122 - Choral Arranging Credits: (2)
MUSC 3872 - Choral Conducting I Credits: (2)
MUSC 4402 - Vocal Pedagogy I Credits: (2)
Music Education Teaching (BME), Instrumental Emphasis

Program Prerequisites: Audition required for admission to program. Must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable).

Credit Hour Requirements: A total of 123 credit hours is required for either the Choral or Instrumental Emphasis; a minimum of 64 credit hours is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 23-28 of these are required within the major.

Program Code: Music Education Teaching (3093BME) with Instrumental (3095)
CIPC: 131312

Advisement
Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements
Declare your program of study (see Enrollment Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education
Refer to Degree Requirements for Bachelor of Music requirements. LIBS 1704 will fulfill the Computer Literacy general education requirement. PSY 1010 is recommended.

Program Learning Outcomes
Employ writing and research skills to examine and communicate ideas about music.
Demonstrate competency as performers through the preparation of repertoire and technical studies.
Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Policies and Procedures
Refer to the School of Music Policies and Procedures in this catalog.

School of Music Required Core Courses (25 credit hours)

MUSC 1006 - Concert Attendance I Credits: (0) Students must take this course twice.
MUSC 2006 - Concert Attendance II Credits: (0) Students must take this course twice.
MUSC 1110 - Music Theory I Credits: (2)
MUSC 1120 - Music Theory II Credits: (2)
MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)
MUSC 1901 - Music: The First-Year Experience Credits: (1)
MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 2110 - Music Theory III Credits: (2)
MUSC 2120 - Music Theory IV Credits: (2)
MUSC 2130 - Sight Singing & Aural Skills III Credits: (1)
MUSC 2140 - Sight Singing & Aural Skills IV Credits: (1)
MUSC 3205 - Music History I: Music before 1800 Credits: (3)
MUSC 3206 - Music History II: Music after 1800 Credits: (3)
MUSC 3208 - World Music Credits: (3)
MUSC 3840 - Form and Analysis Credits: (2)

Required Courses for BME

MUSC 1150 - Class Piano I Credits: (1)
MUSC 1160 - Class Piano II Credits: (1)
MUSC 2150 - Class Piano III Credits: (1)
MUSC 2321 - The Principles of Collaborative Piano I Credits: (1)
MUSC 3924 - Music Teaching and Learning in the Elementary School Credits: (3)
MUSC 3991 INT - Junior Recital Credits: (0)
MUSC 4822 - Secondary Music Methods Credits: (3)
MUSC 4860 INT - Internship in Music Credits: (1-3) (must be taken twice for credit)

Applied Lessons

Select classes in the appropriate area. Minimum of 6 classes required, for a total of 6 credits. Courses may be repeated for credit.

MUSC 1681 - Private Instruction Credits: (1)
MUSC 2681 - Private Instruction Credits: (1)
MUSC 3681 - Private Instruction Credits: (1)
MUSC 4681 - Private Instruction Credits: (1)

Large Ensemble

Select classes in the appropriate area. Minimum of 6 classes required, for a total of 6 credits. Courses may be repeated for credit.

MUSC 1740 INT - Weber State Concert Choir Credits: (1)
MUSC 3740 INT - Weber State Concert Choir Credits: (1)
MUSC 1750 - Symphonic Band Credits: (1-2)
MUSC 3750 - Symphonic Band Credits: (1-2)
MUSC 1760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 3760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 1763 INT - Guitar Ensemble Credits: (1)
MUSC 3763 INT - Guitar Ensemble Credits: (1)

Course Requirements for Licensure

Minimum of 27 credits required.

COMM 1020, COMM 2110, and CHF 1500 also fulfill University General Education requirements.

EDUC 1010 CEL - Exploring Teaching Credits: (3)
CHF 1500 SS/EDI - Human Development Credits: (3)

COMM 1020 HU - Principles of Public Speaking Credits: (3)
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

EDUC 4950 - Integrated Secondary Student Teaching Seminar Credits: (4)

Instrumental Emphasis Required Courses

MUSC 2821 - Percussion Methods I Credits: (1)
MUSC 2841 - Brass Methods I Credits: (1)
MUSC 2851 - Woodwind Methods I Credits: (1)
MUSC 2871 - String Methods Credits: (1)
MUSC 2881 - Vocal Workshop Credits: (1)
MUSC 3112 - Orchestration Credits: (2)
MUSC 3804 - Jazz Pedagogy Credits: (1)
MUSC 3822 - Instrumental Conducting I Credits: (2)
Bachelor of Science

Dance Education (BS)

Dance Education Major K-12

The objective of this program is to help guide and prepare students for teaching dance in public school settings (grades K-12), private studios and non-profit organizations.

Program Prerequisites: Students must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of at least 2.75.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; a minimum of 56 of these are within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

Program Code: 3058BA or 3058BS

CIPC: 131324

Based within the disciplinary core of the Dance program, the BA and BS Dance Education K-12 degree offerings help to guide and prepare students for teaching dance in public school settings (grades K-12), private studios, and/or non-profit environments. In addition to the core dance requirements, secondary licensure requirements are mandatory for all teaching degrees leading to eligibility for Utah State Board of Education licensure.

Advisement

Students must consult with the Dance Program advisor at least once each term. Email Joseph Blake or Amanda Sowerby for more information or to schedule an appointment. Students seeking secondary certification are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to General Requirements of this catalog for Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements.

Program Learning Outcomes

- Technique/Performance - Students will apply dance technique and kinesiology principles to improve as dancers and performers.
- Theory/Criticism - Students will apply and communicate principles of dance theory and criticism in many settings.
- Creative Process - Students will engage in the evolving nature of the creative process in many settings.
- Meaning/Self-discovery - Students will discover, express, and gain ownership of their own point of view about dance, to speak the language of dance.

Course Requirements for BS or BA Degree in Dance Education
Required Dance Forms (minimum of 18 credit hours)

DANC 1100 - Ballet I Credits: (1)
DANC 1200 - Modern I Credits: (2)
DANC 1450 - Special Topic: World Dance Experiences I Credits: (2)
DANC 1520 - Dance in World Cultures Credits: (2)
DANC 1580 - Rhythm Tap I Credits: (2)
DANC 2490 - Modern II Credits: (2)
DANC 2500 - Jazz II Credits: (2)
DANC 3490 - Modern III Credits: (2)
DANC 3560 - African Dance and Culture II Credits: (2)

Creative Process and Performance (9 credit hours)

DANC 2410 - Improvisation Credits: (2)
DANC 3500 - Choreographic Process Credits: (3)
DANC 3520 INT - Choreography Practicum Credits: (3)
DANC 4910 INT - Rehearsal and Performance Credits: (1)

Dance Studies (10 credit hours)

DANC 1010 CA EDI - Introduction to Dance Credits: (3)
DANC 2300 - Dance Kinesiology Credits: (3)
DANC 2250 - Alignment and Conditioning for Dance/Pilates Credits: (1)
DANC 3015 - Dance History Credits: (3)

Teaching Methods (10 credit hours)

DANC 3320 INT - Secondary Dance Pedagogy Credits: (3)
EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
DANC 3640 INT - Elementary Dance Pedagogy Credits: (3)
DANC 3860 INT - Field Experience Credits: (1-3)

Dance and Production (7 credit hours)

DANC 1310 - Music for Dance Credits: (2)
DANC 2610 - Dance and Digital Technology Credits: (2)

Choose one from the following below:
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
FILM 2200 CA - Fundamentals of Film Credits: (3)
THEA 2403 - Stage Management Credits: (3)
MUSC 3701 - Music Entrepreneurship and You Credits: (3)
Health and Science Courses Required to fulfill the BS in Dance Education
(12 credit hours)

- ZOOL 1020 LS - Human Biology Credits: (3)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ZOOL 3570 - Foundations of Science Education Credits: (3)
Emphasis Option for Bachelor of Integrated Studies

Music (BIS)

Program Code: 3037
CIPC: 500901

Students declaring an emphasis in music as one of their three BIS concentrations must abide by all guidelines and stipulations detailed in the BIS student handbook.

Courses taken in fulfillment of the music area emphasis must total a minimum of 18 credit hours and will be determined in consultation with the music BIS advisor and approved by the department chair (or dean, if the advisor and chair are the same person). These courses should directly and demonstratively contribute to the goals set forth by the student in his/her approved BIS application.

Required Courses

- MUSC 1010 CA - Introduction to Music Credits: (3)
- MUSC 1110 - Music Theory I Credits: (2)
- MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
- MUSC 1120 - Music Theory II Credits: (2)
- MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)

Select at least one of the following:

- MUSC 1025 CA - History of Country Music Credits: (3)
- MUSC 1030 CA - Introduction to Jazz Credits: (3)
- MUSC 1033 CA - Introduction to American Music Credits: (3)
- MUSC 1035 CA - History of Rock and Roll Credits: (3)
- MUSC 1040 CA - Music of World Cultures Credits: (3)
- MUSC 1043 HU - Music, the Arts & Civilizations Credits: (3)
- MUSC 1063 CA - Music in Religion Credits: (3)

Note:

Please note that according to the BIS student handbook, courses taken in completion of the university General Education requirements will not count toward a BIS emphasis. In other words, "double-dipping" is not allowed.
Theatre Arts (BIS)

Program Code: 3046
CIPC: 500501
The Theatre Area participates in the BIS degree program. For a Theatre emphasis, students should take a minimum of 18 credit hours as approved by their Theatre Arts Advisor. BIS students must meet with a Theatre Arts Advisor to design their Theatre component.

Emphasis Only

Music/Fine Arts Concentration for Elementary Education

Program Prerequisite: Fulfill the Elementary Education Major requirements (see Elementary Education in the Department of Teacher Education).
Minor: Required.
Grade Requirements: Refer to the Elementary Education Major in the Department of Teacher Education
Credit Hour Requirements: A total of 9 or 18 credit hours for these concentrations. Also refer to the Elementary Education Major in the Department of Teacher Education.

Courses for 9 or 18 Hour Fine Arts Concentration

Students electing the 9 or 18 hour Fine Arts Concentration may choose from the following music courses as part of this concentration.

MUSC 1010 CA - Introduction to Music Credits: (3)
MUSC 1100 - Fundamentals of Music Credits: (2)
MUSC 3824 - Music for Elementary Teachers Credits: (4) *

Courses for 9 Hour Music Concentration

Students electing the 9 hour Music Concentration may choose from the following music courses to satisfy the concentration requirements.

MUSC 1010 CA - Introduction to Music Credits: (3)
MUSC 1040 CA - Music of World Cultures Credits: (3)
MUSC 1063 CA - Music in Religion Credits: (3)
MUSC 1100 - Fundamentals of Music Credits: (2)
MUSC 2881 - Vocal Workshop Credits: (1)
MUSC 3824 - Music for Elementary Teachers Credits: (4) *

Note:

* Required course
Minor

Dance Minor/BIS

A dance minor is available for students not wishing to specialize but who have an interest in dance and want a concentration of study in the area to complement an affiliated program of study. Coursework is individualized, with selections to be made from the following areas.

Grade Requirements: A GPA of 2.25 or better in courses used toward the minor.
Advisement: Students should meet annually, if not more often, with the faculty advisor for the course and program advisement. Email Joseph Blake (josephblake@weber.edu) for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List).
Credit Hour Requirements: Minimum of 18 credit hours, with no fewer than 3 nor more than 9 in any one of the following three areas listed.
Program Code: 3045
CIPC: 500301

Course Requirements for Minor

Select 18 credit hours from the following three areas, with no fewer than 3 or more than 9 credit hours in any one of the three areas listed. Additional coursework to total 18 credit hours may be chosen, with advisor's written approval, from remaining dance electives or in approved related areas.

Courses Required (18 credit hours)

Select 18 credit hours from each of the following, with no fewer than 3 nor more than 9 in any one of the three areas listed. Additional coursework to total 18 credit hours may be chosen, with advisor's written approval, from remaining dance electives or in approved related areas.

Area 1, Technique

Select the appropriate level from the following

Any course may be repeated once

- DANC 1100 - Ballet I Credits: (1) 2
- DANC 1200 - Modern I Credits: (2) 2
- DANC 1450 - Special Topic: World Dance Experiences I Credits: (2) 2
- DANC 1500 - Jazz I Credits: (2) 2
- DANC 1520 - Dance in World Cultures Credits: (2) 2
- DANC 1560 - African Dance and Culture I Credits: (2) 2
- DANC 1580 - Rhythm Tap I Credits: (2) 2
- DANC 2470 - Ballet II Credits: (2) 2
- DANC 2490 - Modern II Credits: (2) 2
- DANC 2500 - Jazz II Credits: (2) 2
- DANC 3470 - Ballet III Credits: (2) 2
- DANC 3490 - Modern III Credits: (2) 2
Area 2, Creative Work

DANC 2410 - Improvisation Credits: (2) 2
DANC 2610 - Dance and Digital Technology Credits: (2) 2
DANC 3500 - Choreographic Process Credits: (3)
DANC 3910 INT/CEL - Moving Company: Rehearsal & Development Credits: (3) CEL
DANC 3911 INT/CEL - Moving Company: Performance Credits: (3) CEL
DANC 4610 - Dance and Digital Technology Credits: (2) 2
DANC 4620 - Dance and Digital Technology Seminar Credits: (1) 1
DANC 4910 INT - Rehearsal and Performance Credits: (1) 1
DANC 4890 INT - Cooperative Work Experience Credits: (1-6) CEL (1-6)

Area 3, Theoretical Aspects

DANC 3015 - Dance History Credits: (3) 3
DANC 2300 - Dance Kinesiology Credits: (3) 3
DANC 2350 - Dance for Aging Populations Credits: (2) 2
DANC 1010 CA EDI - Introduction to Dance Credits: (3) 3

Minor in Music Performance

The Minor in Music Performance is a course of study for students who desire more intensive performance opportunities while experiencing music courses related to interpretation.

Program Prerequisite: Audition required for admission to the program.
Grade Requirements: A grade of C (2.00) or better in courses used toward the minor.
Credit Hour Requirements: Minimum of 23 credit hours.
Program Code: 3079
CIPC: 500901

Advisement

Music minors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Course Requirements for Minor in Music Performance

Music Courses Required
MUSC 1006 - Concert Attendance I Credits: (0) (must complete two terms)
MUSC 2006 - Concert Attendance II Credits: (0) (must complete two terms)
MUSC 1110 - Music Theory I Credits: (2)
MUSC 1120 - Music Theory II Credits: (2)
MUSC 1130 - Sight-Singing & Aural Skills I Credits: (1)
MUSC 1140 - Sight-Singing & Aural Skills II Credits: (1)
MUSC 1150 - Class Piano I Credits: (1)
MUSC 1160 - Class Piano II Credits: (1)
MUSC 1901 - Music: The First-Year Experience Credits: (1)
MUSC 3991 INT - Junior Recital Credits: (0)
Applied Music Requirement

4 credit hours minimum or until completion of the Junior Recital

MUSC 1681 - Private Instruction Credits: (1)
MUSC 2681 - Private Instruction Credits: (1)
MUSC 3681 - Private Instruction Credits: (1)
MUSC 4681 - Private Instruction Credits: (1)

Major Ensemble Requirement

4 credit hours minimum or until completion of the music minor requirements

MUSC 1740 INT - Weber State Concert Choir Credits: (1)
MUSC 3740 INT - Weber State Concert Choir Credits: (1)
MUSC 1750 - Symphonic Band Credits: (1-2)
MUSC 3750 - Symphonic Band Credits: (1-2)
MUSC 1760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 3760 INT - Weber State Symphony Orchestra Credits: (1-2)
MUSC 1763 INT - Guitar Ensemble Credits: (1)
MUSC 3763 INT - Guitar Ensemble Credits: (1)

One of the following Elective courses:

MUSC 1025 CA - History of Country Music Credits: (3)
MUSC 1030 CA - Introduction to Jazz Credits: (3)
MUSC 1033 CA - Introduction to American Music Credits: (3)
MUSC 1035 CA - History of Rock and Roll Credits: (3)
MUSC 1040 CA - Music of World Cultures Credits: (3)
MUSC 1043 HU - Music, the Arts & Civilizations Credits: (3)
MUSC 1063 CA - Music in Religion Credits: (3)
Music Studies Minor

The Minor in Music Studies is a course of study for students who wish to experience a broad survey of music courses while also continuing to be engaged in making music. For more information on program requirement, please contact the Department of Performing Arts.

Program Prerequisite: Audition required for admission to the program.
Grade Requirements: A grade of C (2.00) or better in courses used toward the minor.
Credit Hour Requirements: Minimum of 23 credit hours.
Program Code: 3083
CIPC: 500903

Courses Required (23 credit hours minimum)

Required Core Courses

- MUSC 1010 CA - Introduction to Music Credits: (3)
- MUSC 1100 - Fundamentals of Music Credits: (2)
- MUSC 1901 - Music: The First-Year Experience Credits: (1)
- MUSC 1006 - Concert Attendance I Credits: (0) (must complete two terms)
- MUSC 2006 - Concert Attendance II Credits: (0) (must complete two terms)

4 credits of Applied Lessons (courses may be repeated for credit)
- MUSC 1681 - Private Instruction Credits: (1)
- MUSC 2681 - Private Instruction Credits: (1)
- MUSC 3681 - Private Instruction Credits: (1)
- MUSC 4681 - Private Instruction Credits: (1)

4 credits of Large Ensemble (courses may be repeated for credit)
- MUSC 1740 INT - Weber State Concert Choir Credits: (1)
- MUSC 3740 INT - Weber State Concert Choir Credits: (1)
- MUSC 1750 - Symphonic Band Credits: (1-2)
- MUSC 3750 - Symphonic Band Credits: (1-2)
- MUSC 1760 INT - Weber State Symphony Orchestra Credits: (1-2)
- MUSC 3760 INT - Weber State Symphony Orchestra Credits: (1-2)
- MUSC 1763 INT - Guitar Ensemble Credits: (1)
- MUSC 3763 INT - Guitar Ensemble Credits: (1)

Electives (9 credits)

Choose three courses from the following list:

- MUSC 1030 CA - Introduction to Jazz Credits: (3)
- MUSC 1033 CA - Introduction to American Music Credits: (3)
- MUSC 1035 CA - History of Rock and Roll Credits: (3)
- MUSC 1040 CA - Music of World Cultures Credits: (3)
- MUSC 1043 HU - Music, the Arts & Civilizations Credits: (3)
- MUSC 1063 CA - Music in Religion Credits: (3)
- MUSC 1025 CA - History of Country Music Credits: (3)
Sound Production/Recording Minor or BIS

Sound Production/Recording is the art and science of capturing and editing music, sound, and dialog. This course of study will prepare the student to succeed as a music producer, recording technician, post-production designer, or other similar fields. The program emphasizes hands-on learning on state-of-the-art equipment.

Program Prerequisite: Successful interview with the program advisor
Grade Requirements: A grade of C (2.00) or better in courses used toward the minor
Credit Hour Requirements: Minimum of 24 credit hours

Program Code: 3076
CIPC: 100203

Advisement

Sound Production/Recording minors should meet with the program advisor at least once an academic year.

Course Requirements for Sound Production/Recording Minor

Required Courses (19 credit hours)

MUSC 4820 - Pro Tools 101 Credits: (2)
MUSC 4823 - Pro Tools 110 Credits: (2)
MUSC 1820 INT - The Art and Science of Recording I Credits: (3)
MUSC 1821 INT - The Art and Science of Recording II Credits: (3)
MUSC 1720 - Analog Audio Credits: (2)
MUSC 1721 INT - Live Sound in the 21st Century Credits: (2)
MUSC 4995 INT - Capstone Project Credits: (3)
MUSC 1722 - History of Recording Credits: (2)

Electives (5 credit hours minimum)

Select a minimum of 5 credit hours from the following

MUSC 1911 - Introduction to Music Technology Credits: (1)
MUSC 1723 - Field Recording/Sound for Picture Credits: (2)
MUSC 1724 - Studio Construction Credits: (1)
MUSC 1725 - Alternative Digital Audio Workstations Credits: (2)
MUSC 1726 - Creative Lab Credits: (1)

Creative Lab may be repeated but only counts toward elective fulfillment once
Theatre Arts Minor

Grade Requirements: A grade of "C" or better in courses used toward the minor.
Credit Hour Requirements: A minimum of 19 credit hours in Theatre Arts classes.
Program Code: 3046
CIPC: 500501

Course Requirements for Minor

Theatre Courses Required (21 credit hours)

THEA 1013 CA - Introduction to Theatre Credits: (3)
THEA 1713 - Script Analysis Credits: (3)
THEA 1033 CA - Introduction to Acting Credits: (3) or
THEA 1220 - Acting I Credits: (3)

Select two of the following technical theatre classes (be advised that some of these classes are pre-requisites for UD classes, plan accordingly)

THEA 1223 - Stage Makeup Credits: (3)
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)
THEA 2403 - Stage Management Credits: (3)
THEA 2580 - Creative Computing for Theatre Design Credits: (3)

Select one of the following theatre history classes (3 credit hours)

THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)
THEA 3343 - History & Literature of Musical Theatre Credits: (3)

Complete 3 credit hours of upper division Theatre Arts course work. (3 credit hours)
Teaching Minor

Dance Teaching Minor

A dance teaching minor is available for students seeking a concentration of study in dance teaching to complement an affiliated program. Students wishing the minor program must register with the Dance Program advisor.

Grade Requirements: A GPA of 2.25 or better in courses used toward the minor.
Credit Hour Requirements: Minimum of 27 credit hours.
Advisement: Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email Amanda Sowerby (asowerby@weber.edu) for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List).
Program Code: 3048
CIPC: 131324

Students who select the Dance Teaching Minor and are seeking teacher certification for the state of Utah must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Course Requirements for Minor

Dance Teaching Courses Required (27) credit hours

DANC 1100 - Ballet I Credits: (1) (2)
DANC 1200 - Modern I Credits: (2) (2)
DANC 1500 - Jazz I Credits: (2) (2)
DANC 1520 - Dance in World Cultures Credits: (2) (2)
DANC 1560 - African Dance and Culture I Credits: (2) (2)
DANC 2350 - Dance for Aging Populations Credits: (2) (2)
DANC 2410 - Improvisation Credits: (2) (2)
DANC 3015 - Dance History Credits: (3) (3)
DANC 3320 INT - Secondary Dance Pedagogy Credits: (3) (3)

DANC 4910 INT - Rehearsal and Performance Credits: (1) (1)
Theatre Arts Teaching Minor

Grade Requirements: A grade of "C" or better in courses used toward the minor.

Credit Hour Requirements: A minimum of 24 credit hours in Theatre Arts classes.

Program Code: 3047
CIPC: 131324

Students who select the Theatre Arts Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Course Requirements for Teaching Minor

Required Courses (24 credit hours exclusive of required general education courses)

THEA 1013 CA - Introduction to Theatre Credits: (3)
THEA 1030 - Voice and Movement for the Actor Credits: (3)
THEA 1220 - Acting I Credits: (3)
THEA 1713 - Script Analysis Credits: (3)
THEA 3103 INT - Directing I Credits: (3)
THEA 2713 INT - Teaching Theatre in the Secondary School Credits: (3)

Select two of the following technical theatre classes (6 credit hours)

THEA 1223 - Stage Makeup Credits: (3)
THEA 1513 - Stagecraft Credits: (3)
THEA 2022 - Costume Fundamentals Credits: (3)
THEA 2032 - Lighting Fundamentals Credits: (3)

Select one of the following theatre history classes (3 credit hours)

THEA 3303 - History and Literature of Theatre I Credits: (3)
THEA 3313 - History and Literature of Theatre II Credits: (3)
Department of Visual Art and Design

Department Chair: Paul Crow
Location: Ethel Wattis Kimball Visual Arts Center
Telephone Contact: Cynthia Kurien 801-626-6455
Professors: Matthew Choberka, Paul Crow, K Stevenson, Joshua Winegar, Stephen Wolochowicz; Associate Professors: Dianna Huxhold, Jason Manley; Assistant Professors: Jude Agboada, Micah Bauer, Maria del Mar Gonzalez, Trishelle Jeffery, Thi Nguyen; Instructors: Ivy Brenneman, Levi Jackson, Andrew Rice

Our world is partially understood through smell, taste, sound, and touch. But perhaps most of all we make sense of our environment through what we see. The art, architecture, mass media and even the furniture in our spaces bear distinct messages that influence our decisions and enrich life.

Creative processes are exciting. Students of art and design contribute new expression to the vitality of our visual environment and learn to interpret what is seen through trained observation. Innovative thinking is absolutely necessary for success and must be balanced against research and critical judgment. Emphasis is placed on writing and the critical evaluation of artistic products. Students gain experience at preparing exhibits and portfolios for eventual professional activity.

Studies in art and art history offer windows of understanding to other cultures, both past and present. This is one of our primary concerns in preparing citizens for productive relations in an increasingly multicultural society.

Seventy-eight different courses are offered by the Department of Visual Arts. These span traditional areas such as art history, art education, ceramics, drawing, small metals/jewelry, painting, photography, printmaking, sculpture, and visual communication. The department is continually expanding into emerging modes of expression involving digital video, digital photography, animation, interactive design, and sound. Classes are enhanced by public lectures, seminars, workshops and special sessions by critics, historians, and visiting artists.

Weber State University supports three Bachelor's degrees in the visual arts with specializations in most of the areas mentioned above. The Bachelor of Arts and Bachelor of Science degrees provide a broad liberal arts background, a solid base for many careers or further study. The Bachelor of Fine Arts degree is more professionally focused with high concentrations of studio art and art history. The BFA is for students who wish to move directly into professional work in art or design, or those who intend to pursue graduate study in the visual arts. Senior exhibitions are required for most Bachelor of Fine Arts majors.

The Elizabeth Dee Shaw Gallery exhibits art that exemplifies the ideas and values of the curriculum. This serves our students and the public interest as well. Exhibitions involving regional, national, and internationally recognized artists serve a vital role in the cultural life of the community. The Gallery organizes at least six exhibitions each year. All are free and open to the public.

Transfer of Credits

Transfer students must present an official transcript and a portfolio to petition course substitutions for visual arts program requirements. A minimum number of departmental residency hours is required for completion of degree programs: 19 credit hours for the BFA, 12 hours for BS and BA programs, 6 hours for minors.

The University requires students seeking a second baccalaureate degree to complete a full year in residence and a minimum of 30 total credit hours.

Studio Fees

Studio fees are required in most visual arts classes. Check the current course schedule for exact amounts.
Asian Studies Minor

The Department of Visual Arts participates in the Asian Studies Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Interdisciplinary Programs section of this catalog.)

Associate of Arts

Art (AA)

An Associate of Arts with an Art major will indicate that a student has completed all WSU AA degree requirements and the Studio Foundations curriculum required for the Bachelor of Arts in Art. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA, and are eligible to apply for admission to the Bachelor of Fine Arts degree program (Graphic Design, Photography, Art Education, 2-dimensional Media, or 3-dimensional Media).

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

Program Code: 3075AA
CIPC: 500701

Advisement

Art majors are encouraged to meet with a departmental advisor at least annually for course and program advisement. Call 801-626-6762 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information ). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements.

Studio Foundation Courses

All Art pre-majors are required to take the five Studio Foundations courses:

- ART 1040 - Orientation to Visual Studies Credits: (3)
- ART 1110 CA - Drawing I Credits: (3)
- ART 1120 - Design Concepts Credits: (3)
- ART 1130 - Approaches to Surface, Shape and Form Credits: (3)
- ART 1135 - Approaches to Materials, Space and Time Credits: (3)

Studio Electives

In addition, choose two studio elective courses at the 2000-level, for which the Studio Foundations courses serve as prerequisites. Suggested courses include:

- ART 2200 - Introduction to Printmaking Credits: (3)
- ART 2250 - Foundations of Photography: Black & White/Analog Credits: (3)

Bachelor of Arts

Art (BA)

**Program Prerequisite:** Not required.
**Minor:** Required.
**Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
**Credit Hour Requirements:** A total of 120 credit hours are required for graduation. Of this total, 48 credit hours in Visual Arts are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).

**Program Code:** 3001BA
**CIPC:** 500701

Advisement
All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Declare your program of study (see Enrollment Services and Information) with the department secretary. There are no special admission or application requirements.

General Education
Refer to Degree Requirements for Bachelor of Arts requirements. Either one of the following Foundation courses will also fulfill 3 credit hours of the General Education requirement in the Creative Arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes
- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.
Foundation Courses Required for All Art Majors (27 credit hours)

The following are required for all BS/BA/BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of ArtHistory and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

Note: For the Art History foundation course, Art Education majors must select ARTH 3040 or ARTH 3045 (prerequisite ARTH 1100).

ART 1040 - Orientation to Visual Studies Credits: (3) F, Sp
ART 1110 CA - Drawing I Credits: (3) F, Sp
ART 1120 - Design Concepts Credits: (3) F, Sp
ART 1130 - Approaches to Surface, Shape and Form Credits: (3) F, Sp
ART 1135 - Approaches to Materials, Space and Time Credits: (3) F, Sp

Choose two of the following courses

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4) F
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4) Sp
ARTH 2040 - Art and Architecture of Asia Credits: (4) F, Sp
ARTH 2050 - Visual Art in a Global Context Credits: (4) F, Sp

Choose one of the following courses

ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4) F
ARTH 3015 - Latinx Visual Art and Culture Credits: (4) Sp
ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4) Sp (o)
* ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) F
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4) Sp
* ARTH 3050 - Contemporary Art Credits: (4) Sp (e)
ARTH 3060 - The Art and Architecture of India Credits: (4) Sp (e)
ARTH 3070 - The Art and Architecture of China Credits: (4) Sp (o)
ARTH 3080 - The Art and Architecture of Japan Credits: (4) F (o)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4) F (e)
ARTH 3451 - Design History and Theory Credits: (4) F, Sp
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (o)
* Art Education majors must select either ARTH 3040 or ARTH 3050

Required Studio Distribution (9 credit hours)

Select one of the following:

ART 2200 - Introduction to Printmaking Credits: (3)
ARTH 2600 - Painting I Credits: (3)
Select one of the following:

ART 2310 - Ceramics Credits: (3)
ART 2700 - Sculpture Credits: (3)
ART 2850 - Furniture Design Credits: (3)

Select one of the following:

ART 2250 - Foundations of Photography: Black & White/Analog Credits: (3)
ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3)
ART 2750 - Foundations of Video Art Credits: (3)
ART 3430 - Typography and Publication Design Credits: (3)

Studio Electives (12 credit hours)

Select 12 credit hours of studio art coursework.

Language Courses Required to fulfill the BA

General Art majors must complete Option 1: Foreign Language (12 credit hours of a foreign language, refer to the Department of Foreign Languages section of this catalog for additional information on obtaining foreign language credit)

OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 credit hours of language arts). With this option students MUST take ENGL 3080 Critical Approaches to Literature AND one of the following: ART 1040, ARTH 3451, ART 3085, ARTH CA 1090, ARTH CA 1100, ARTH 2040, ARTH 3030, ARTH 3040, ARTH 3045, ARTH 3050, ARTH 3060, ARTH 3070, ARTH 3080, ARTH 3100, ARTH 3451, ARTH 3950. This language arts requirement is in addition to other discipline specific courses required for the BA. No double dipping.
Art Education (BA)

Art Education majors are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269) and in the Visual Arts Department (call 801-626-7273).

Program Prerequisite: Not required.
Minor: Required.
Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable).
Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 48 credit hours in Visual Arts are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).
Program Code: 3062BA
CIPC: 131302
Students who select the Art Education Major must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Advisement
All Art Education majors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
All Art Education majors must first declare a Major (program of study - see Enrollment Services and Information) with the department secretary and must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education
Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements. The following Foundation courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes
Technical Proficiency - Produce technically proficient visual work.
Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
Contemporary Professional Practices - Implement contemporary professional practices in the field.
Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.
Foundation Courses Required for All Art Majors (27 credit hours)

ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (o)
* Art Education majors must select either ARTH 3040 or ARTH 3050

Studio Distribution (9 credit hours)

Select one of the following

ART 2200 - Introduction to Printmaking Credits: (3)
ART 2600 - Painting I Credits: (3)
Select one of the following

ART 2310 - Ceramics | Credits: (3)
ART 2700 - Sculpture | Credits: (3)
ART 2850 - Furniture Design | Credits: (3)

Select one of the following

ART 2250 - Foundations of Photography: Black & White/Analog | Credits: (3)
ART 2750 - Foundations of Video Art | Credits: (3)
ART 3430 - Typography and Publication Design | Credits: (3)

Required Courses (6 credit hours)

ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] | Credits: (3)
ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] | Credits: (3)

Studio Electives (6 credit hours)

Select six credit hours of studio art coursework.

Language Courses Required to fulfill the BA

Refer to Degree and General Education Requirements in this catalog and complete Option 1 - Foreign Language listed under Requirements for Bachelor's Degrees, or Option 2 - 6 credit hours of Foreign Language, plus ENGL 3080 and ARTH 3050.
Bachelor of Fine Arts

Art (BFA)

The Bachelor of Fine Arts (BFA) degree is the professional studio-focused undergraduate degree in visual art and graphic design. The degree does not require a Minor, instead focusing on additional studio, art history, and capstone course requirements, making the BFA the preferred preparation for graduate study, and for students planning on careers as independent studio artists and designers. Select from the areas of emphasis listed below for detailed information on BFA admissions and additional program requirements.

Areas of Emphasis

Select one of the following areas of emphasis:

Four-year degree:
- Art (BFA), 2D Media Emphasis (drawing, painting, printmaking)
- Art (BFA), 3D Media Emphasis (ceramics, sculpture)
- Art (BFA), Photo/Video Emphasis
- Art (BFA), Graphic Design Emphasis (graphic design in print/interactive media)

Five-year degree:
- Art (BFA), Art Education Emphasis

Art (BFA), 2D Media Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3118BFA with 3113 (Two Dimensional Media)
CIPC: 500702 with 500706 (Two Dimensional Media)

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.
Program Learning Outcomes

Technical Proficiency - Produce technically proficient visual work.
Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
Contemporary Professional Practices - Implement contemporary professional practices in the field.
Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA

Foundation Courses Required for All Art Majors (27 credit hours)

The following are required for all BS/BA/BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

ART 1040 - Orientation to Visual Studies Credits: (3) F, Sp
ART 1110 CA - Drawing I Credits: (3) F, Sp
ART 1120 - Design Concepts Credits: (3) F, Sp
ART 1130 - Approaches to Surface, Shape and Form Credits: (3) F
ART 1135 - Approaches to Materials, Space and Time Credits: (3) Sp

Choose two of the following courses

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4) F
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4) Sp
ARTH 2040 - Art and Architecture of Asia Credits: (4) F, Sp

Choose one of the following courses

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4) Sp (o)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) F
ARTH 3050 - Contemporary Art Credits: (4) Sp (e)
ARTH 3060 - The Art and Architecture of India Credits: (4) Sp (e)
ARTH 3070 - The Art and Architecture of China Credits: (4) Sp (o)
ARTH 3080 - The Art and Architecture of Japan Credits: (4) F (o)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4) F (c)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (e)
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
Required for 2D Media Emphasis (9 credit hours)

ART 3085 - Critical Issues in Art Credits: (3)
ART 3995 - BFA Seminar Credits: (3)
ART 4990 - BFA Thesis Credits: (3)

Art History Electives (4 credit hours)

Select one of the following

ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4)
ARTH 3015 - Latinx Visual Art and Culture Credits: (4)
ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4)
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
ARTH 3050 - Contemporary Art Credits: (4)
ARTH 3055 - Special Topics in Art History Credits: (4)
ARTH 3060 - The Art and Architecture of India Credits: (4)
ARTH 3070 - The Art and Architecture of China Credits: (4)
ARTH 3080 - The Art and Architecture of Japan Credits: (4)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4)

Required Studio Distribution (9 credit hours)

ART 2200 - Introduction to Printmaking Credits: (3) or
ART 2600 - Painting I Credits: (3)

ART 2310 - Ceramics I Credits: (3) or
ART 2700 - Sculpture I Credits: (3) or
ART 2850 - Furniture Design Credits: (3)

ART 2430 - Introduction to Graphic Design Credits: (3) or
ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3) or
ART 2750 - Foundations of Video Art Credits: (3)

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.
Studio Focus Courses

Choose 26 credit hours in consultation with your faculty adviser.

Recommended Courses

ART 3120 - Figure Drawing Credits: (3)
ART 3200 - Intermediate Printmaking Credits: (3)
ART 3210 - Relief Printmaking Credits: (3)
ART 3215 - Etching Printmaking Credits: (3)
ART 3600 - Painting II Credits: (3)
* ART 4110 - Advanced Drawing Credits: (3)
* ART 4120 - Advanced Figure Drawing Credits: (3)
* ART 4200 - Advanced Printmaking Credits: (3)
* ART 4600 - Painting III Credits: (3)

Notes:

Visual arts courses that are not being used to fulfill the major requirements (studio distribution, art-history) may fulfill electives credits.

*May be repeated twice for a total of 9 credit hours.
Art (BFA), 3D Media Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3118BFA with 3114 (Three Dimensional Media)
CIPC: 500702 with 500706 (Three Dimensional Media)

Advisement
All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements
All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education
Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes
Technical Proficiency - Produce technically proficient visual work.
Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
Contemporary Professional Practices - Implement contemporary professional practices in the field.
Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA
Foundation Courses Required for All Art Majors (27 credit hours)

The following are required for all BS/BA/BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

- ART 1040 - Orientation to Visual Studies Credits: (3) F, Sp
- ART 1110 CA - Drawing I Credits: (3) F, Sp
- ART 1120 - Design Concepts Credits: (3) F, Sp
- ART 1130 - Approaches to Surface, Shape and Form Credits: (3) F
- ART 1135 - Approaches to Materials, Space and Time Credits: (3) Sp

Choose two of the following courses

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4) F
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4) Sp
- ARTH 2040 - Art and Architecture of Asia Credits: (4) F, Sp

Choose one of the following courses

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4) Sp (o)
- ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) F
- ARTH 3050 - Contemporary Art Credits: (4) Sp (e)
- ARTH 3060 - The Art and Architecture of India Credits: (4) Sp (e)
- ARTH 3070 - The Art and Architecture of China Credits: (4) Sp (o)
- ARTH 3080 - The Art and Architecture of Japan Credits: (4) F (o)
- ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4) F (e)
- ARTH 3451 - Design History and Theory Credits: (4)
- ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (e)
- ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
- ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4)
- ARTH 3015 - Latinx Visual Art and Culture Credits: (4)

Required for 3D Media Emphasis (9 credit hours)

- ART 3085 - Critical Issues in Art Credits: (3)
- ART 3995 - BFA Seminar Credits: (3)
- ART 4990 - BFA Thesis Credits: (3)

Art History Electives (4 credit hours)

Select one of the following

- ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4)
- ARTH 3015 - Latinx Visual Art and Culture Credits: (4)
- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4)
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
ARTH 3050 - Contemporary Art Credits: (4)
ARTH 3055 - Special Topics in Art History Credits: (4)
ARTH 3060 - The Art and Architecture of India Credits: (4)
ARTH 3070 - The Art and Architecture of China Credits: (4)
ARTH 3080 - The Art and Architecture of Japan Credits: (4)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4)

Required Studio Distribution (9 credit hours)

ART 2200 - Introduction to Printmaking Credits: (3) or
ART 2600 - Painting I Credits: (3)

ART 2310 - Ceramics I Credits: (3) or
ART 2700 - Sculpture I Credits: (3) or
ART 2850 - Furniture Design Credits: (3)

ART 2430 - Introduction to Graphic Design Credits: (3) or
ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3) or
ART 2750 - Foundations of Video Art Credits: (3)

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Studio Focus Courses:
Choose 26 credit hours in consultation with your faculty adviser.

Recommended Courses

ART 2310 - Ceramics I Credits: (3)
ART 2700 - Sculpture I Credits: (3)
* ART 2850 - Furniture Design Credits: (3)
ART 3310 - Ceramics II Credits: (3)
ART 3320 - Ceramic Processes Credits: (3)
ART 3700 - Sculpture II Credits: (3)
* ART 3720 - Public Art Credits: (3)
* ART 4310 - Ceramics III: Intermediate Credits: (3)
* ART 4320 - Ceramics IV: Advanced Credits: (3)
* ART 4700 - Sculpture III Credits: (3)

Notes:
Visual arts courses that are not being used to fulfill the major requirements (studio distribution, art-history) may fulfill electives credits.
*May be repeated twice for a total of 9 credit hours.
Art (BFA), Art Education Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3118BFA with 3117 (Art Education)
CIPC: 500702 with 131302 (Art Education)

Advisement
All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements
All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education
Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes
Technical Proficiency - Produce technically proficient visual work.
Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
Contemporary Professional Practices - Implement contemporary professional practices in the field.
Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA
Foundation Courses Required for All Art Majors (27 credit hours)

The following are required for all BS/BA/BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

ART 1040 - Orientation to Visual Studies Credits: (3) F, Sp
ART 1110 CA - Drawing I Credits: (3) F, Sp
ART 1120 - Design Concepts Credits: (3) F, Sp
ART 1130 - Approaches to Surface, Shape and Form Credits: (3) F
ART 1135 - Approaches to Materials, Space and Time Credits: (3) Sp

Choose two of the following courses

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4) F
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4) Sp
ARTH 2040 - Art and Architecture of Asia Credits: (4) F, Sp

Choose one of the following courses

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4) Sp (o)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) F
ARTH 3050 - Contemporary Art Credits: (4) Sp (e)
ARTH 3060 - The Art and Architecture of India Credits: (4) Sp (e)
ARTH 3070 - The Art and Architecture of China Credits: (4) Sp (o)
ARTH 3080 - The Art and Architecture of Japan Credits: (4) F (o)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4) F (e)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (e)
ARTH 3945 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
ARTH 3100 - Art and Visual Cultures of Latin America Credits: (4)
ARTH 3015 - Latinx Visual Art and Culture Credits: (4)

Note:

Art Education BFA students must also choose from either ARTH 3040 or ARTH 3050 to fulfill an additional Art History requirement listed below. Therefore, it is recommended that students consider options other than ARTH 3040 or ARTH 3050 to fulfill the above Upper Division Art History requirement, and to consult with an advisor in making this selection.

Required for Art Education Emphasis (9 credit hours)

ART 3085 - Critical Issues in Art Credits: (3)
ART 3995 - BFA Seminar Credits: (3)
ART 4990 - BFA Thesis Credits: (3)
Art History Electives (4 credit hours)

ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) or
ARTH 3050 - Contemporary Art Credits: (4)

Additional Requirements for Art Education Emphasis

ARTH 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] Credits: (3) (see note under emphasis section)
ARTH 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] Credits: (3)

Required Studio Distribution (9 credit hours)

ART 2200 - Introduction to Printmaking Credits: (3) or
ART 2600 - Painting I Credits: (3)

ART 2310 - Ceramics I Credits: (3) or
ART 2700 - Sculpture I Credits: (3) or
ART 2850 - Furniture Design Credits: (3)

ART 2430 - Introduction to Graphic Design Credits: (3) or
ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3) or
ART 2750 - Foundations of Video Art Credits: (3)

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Studio Focus Courses:

Choose 20 credit hours in consultation with your faculty adviser. Courses will depend on area of emphasis.

Note:

Prerequisites for Art Methods I (ART 3515) include ARTH 1100 CA and either ARTH 3040 or ARTH 3050.
Art (BFA), Graphic Design Emphasis

Program Prerequisite: Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).

Minor: Not required.

Grade Requirements: A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

Program Code: 3118BFA with 3116 (Graphic Design)
CIPC: 500702 with 500409 (Graphic Design)

Advisement
All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements
All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education
Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

Technical Proficiency - Produce technically proficient visual work.
Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.

ART 1135 - Approaches to Materials, Space and Time Credits: (3) Sp

Choose two of the following courses

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4) F
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4) Sp
ARTH 2040 - Art and Architecture of Asia Credits: (4) F, Sp

Choose one of the following courses

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4) Sp (o)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) F
ARTH 3050 - Contemporary Art Credits: (4) Sp (e)
ARTH 3060 - The Art and Architecture of India Credits: (4) Sp (e)
ARTH 3070 - The Art and Architecture of China Credits: (4) Sp (o)
ARTH 3080 - The Art and Architecture of Japan Credits: (4) F (o)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4) F (e)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (e)
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4)
ARTH 3015 - Latinx Visual Art and Culture Credits: (4)

Note:

ARTH 3451 is required for all Graphic Design BFA students, and this requirement is listed below under "Required Courses." Therefore, Graphic Design students must choose a different Upper Division Art History course to fulfill the above requirement. Please consult with your advisor as needed in making this choice.

Required for Graphic Design Emphasis (9 credit hours)

ART 4410 - Design Seminar Credits: (3)
Required Studio Distribution (9 credit hours)

- ART 2200 - Introduction to Printmaking Credits: (3) or
- ART 2600 - Painting Credits: (3)

- ART 2310 - Ceramics Credits: (3) or
- ART 2700 - Sculpture Credits: (3) or
- ART 2850 - Furniture Design Credits: (3)

- ART 2430 - Introduction to Graphic Design Credits: (3) or
- ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3) or
- ART 2750 - Foundations of Video Art Credits: (3)

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Studio Focus Courses (45 credit hours)

Required Courses (25 credit hours)

- ART 2430 - Introduction to Graphic Design Credits: (3)
- ART 2435 - Graphic Design Practice Credits: (3)
- ART 3410 - Design Seminar for Juniors Credits: (3)
- ART 3430 - Typography and Publication Design Credits: (3)
- ART 3435 - Experimental Typography Credits: (3)
- ART 3445 - Web Graphic Design Credits: (3)
- ART 4400 - Advanced Graphic Design Credits: (3)
- ARTH 3451 - Design History and Theory Credits: (4)

Elective Courses (20 credit hours)

- ART 2200 - Introduction to Printmaking Credits: (3)
- ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3)
- ART 3200 - Intermediate Printmaking Credits: (3)
- ART 3460 - Illustration Credits: (3)
- ART 3465 - Motion Design Credits: (3)
  * ART 4200 - Advanced Printmaking Credits: (3)
  * ART 4400 - Advanced Graphic Design Credits: (3)
- ART 4415 - Design Production Credits: (3)
  * ART 4420 - Advanced Digital Media Credits: (3)
  * ART 4440 - Interaction Design Credits: (3)
  * ART 4460 - Advanced Illustration Credits: (3)
- ART 4890 INT - Cooperative Work Experience Credits: (1-2) (by arrangement only for (1) credit)

* May be repeated for a total of 9 credit hours.
Art (BFA), Photo/Video Emphasis

**Program Prerequisite:** Completion of Foundation courses with minimum grade requirements followed by mandatory advisement (refer to the BFA Admission Requirements below).

**Minor:** Not required.

**Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

**Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).

**Program Code:** 3118BFA with 3115 (Photo/Video)

**CIPC:** 500702 with 500605 (Photo/Video)

**Advisement**
All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

**BFA Admission Requirements**
All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

_Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department)._

**General Education**
Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

**Program Learning Outcomes**
- **Technical Proficiency** - Produce technically proficient visual work.
- **Conceptual, Ethical, Critical** - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- **Learn, Adapt, Apply** - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- **Assess, Analyze, Synthesize** - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- **Writing and Oral Communication** - Communicate effectively and ethically about visual media through written or oral means.
- **Recognize and Identify** - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- **Contemporary Professional Practices** - Implement contemporary professional practices in the field.
- **Cooperation With Peers** - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- **Profession, Practice, Community** - Explain visual art and design as a profession, practice, and global community.

**Course Requirements for the BFA**
Foundation Courses Required for All Art Majors (27 credit hours)

The following are required for all BS/BA/BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

ART 1040 - Orientation to Visual Studies Credits: (3) F, Sp
ART 1110 CA - Drawing I Credits: (3) F, Sp
ART 1120 - Design Concepts Credits: (3) F, Sp
ART 1130 - Approaches to Surface, Shape and Form Credits: (3) F
ART 1135 - Approaches to Materials, Space and Time Credits: (3) Sp

Choose two of the following courses

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4) F
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4) Sp
ARTH 2040 - Art and Architecture of Asia Credits: (4) F, Sp

Choose one of the following courses

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4) Sp (o)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4) F
ARTH 3050 - Contemporary Art Credits: (4) F (e)
ARTH 3060 - The Art and Architecture of India Credits: (4) Sp (e)
ARTH 3070 - The Art and Architecture of China Credits: (4) Sp (o)
ARTH 3080 - The Art and Architecture of Japan Credits: (4) F (o)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4) F (e)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4) Sp (e)
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4)
ARTH 3015 - Latinx Visual Art and Culture Credits: (4)

Required for Photography Emphasis (9 credit hours)

ARTH 3085 - Critical Issues in Art Credits: (3)
ARTH 3995 - BFA Seminar Credits: (3)
ARTH 4990 - BFA Thesis Credits: (3)

Art History Electives (4 credit hours)

Select one of the following

ARTH 3010 - Art and Visual Cultures of Latin America Credits: (4)
ARTH 3015 - Latinx Visual Art and Culture Credits: (4)
ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present Credits: (4)
ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century Credits: (4)
ARTH 3045 - Global Modernisms: Early 20th Century to 1960 Credits: (4)
ARTH 3050 - Contemporary Art Credits: (4)
ARTH 3055 - Special Topics in Art History Credits: (4)
ARTH 3060 - The Art and Architecture of India Credits: (4)
ARTH 3070 - The Art and Architecture of China Credits: (4)
ARTH 3080 - The Art and Architecture of Japan Credits: (4)
ARTH 3100 - The Art and Architecture of the Islamic World Credits: (4)
ARTH 3451 - Design History and Theory Credits: (4)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4)

Required Studio Distribution (9 credit hours)

ART 2200 - Introduction to Printmaking Credits: (3) or
ART 2600 - Painting I Credits: (3)

ART 2310 - Ceramics I Credits: (3) or
ART 2700 - Sculpture I Credits: (3)

ART 2430 - Introduction to Graphic Design Credits: (3) or
ART 2850 - Furniture Design Credits: (3)

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Studio Focus Courses:

Required (12 credit hours)

ART 2250 - Foundations of Photography: Black & White/Analog Credits: (3)
ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3)
ART 2750 - Foundations of Video Art Credits: (3)
* ART 3150 - Intermediate Photography: Seminar Credits: (3)

*May be repeated twice for a total of 9 credit hours

Electives (minimum of 20 credit hours)

Choose 20 credit hours in consultation with your faculty adviser. Other courses may be considered.

* ART 3500 - Advanced Time-Based Media/Video Art Credits: (3)
* ART 3550 - Advanced Photography: View Camera Credits: (3)
ART 4550 - Advanced Photography: Lighting for Photo & Video Credits: (3)
* ART 4650 - Advanced Photography: Special Topics Credits: (3)
* ART 4750 - Advanced Photography: Experimental Strategies Credits: (3)
* ART 4910 INT - Advanced Photography: Internship Credits: (1-3)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4)

*May be repeated twice for a total of 9 credit hours
Minor

Art History Minor/BIS

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
Credit Hour Requirements: A minimum of 23 credit hours.
Program Code: 3011
CIPC: 500703

Course Requirements for Minor

Required Courses (15 credit hours)

ART 1040 - Orientation to Visual Studies Credits: (3)
ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4)
ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4)
ARTH 2050 - Visual Art in a Global Context Credits: (4)

Elective Course (8 credit hours)

Select two upper division art history (ARTH) courses for elective credit.

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Art History. Consult with the Department of Visual Arts Chair.
Art Minor/BIS

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 24 credit hours.

Program Code: 3003
CIPC: 500701

Course Requirements for Minor

Required Courses (15 credit hours)
- ART 1040 - Orientation to Visual Studies Credits: (3)
- ART 1110 CA - Drawing I Credits: (3)
- ART 1120 - Design Concepts Credits: (3)
- ART 1130 - Approaches to Surface, Shape and Form Credits: (3)
- ART 1135 - Approaches to Materials, Space and Time Credits: (3)

Electives Courses (9 credit hours)
Choose nine credit hours of art courses in consultation with the Department of Visual Arts Chair.

Note:
General Art, Art Education and BFA majors cannot declare an Art minor. Art History, Art Education, and Photography are the only departmental minor options for the art major. Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made. Consult with the Department of Visual Arts Chair.

Design for Digital Media Minor/BIS

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 24 credit hours.

Program Code: 3064
CIPC: 090702

Course Requirements for Minor

Core Courses Required (12 credit hours)
- ART 1110 CA - Drawing I Credits: (3)
- ART 1120 - Design Concepts Credits: (3)
- ART 1130 - Approaches to Surface, Shape and Form Credits: (3)
- ART 2430 - Introduction to Graphic Design Credits: (3)

Track Courses Required (12 credit hours)

Complete the courses for one of the following tracks

Web Design Track
- ART 2435 - Graphic Design Practice Credits: (3)
- ART 3430 - Typography and Publication Design Credits: (3)
ART 3445 - Web Graphic Design Credits: (3)
ART 4440 - Interaction Design Credits: (3)

Gaming Track

ART 3460 - Illustration Credits: (3)
ART 4420 - Advanced Digital Media Credits: (3)
ART 4440 - Interaction Design Credits: (3)
ART 4460 - Advanced Illustration Credits: (3)

Photography Minor/BIS

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
Credit Hour Requirements: A minimum of 24 credit hours.
Program Code: 3007
CIPC: 500605

Course Requirements for Minor

Required Courses (12 credit hours)

ART 1040 - Orientation to Visual Studies Credits: (3)
ART 2250 - Foundations of Photography: Black & White/Analog Credits: (3)
ART 2450 CA - Foundations of Photography: Color/Digital Credits: (3)
ART 3150 - Intermediate Photography: Seminar Credits: (3)

Electives (12 credit hours minimum)

Select a minimum of 12 credit hours from the following

ART 2750 - Foundations of Video Art Credits: (3)
ART 3550 - Advanced Photography: View Camera Credits: (3)
ART 4550 - Advanced Photography: Lighting for Photo & Video Credits: (3)
ART 4660 - Advanced Photography: Special Topics Credits: (3)
ART 4750 - Advanced Photography: Experimental Strategies Credits: (3)
ARTH 3950 - Photography: History, Theory and Criticism Credits: (4)

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Photography. Consult with the Department of Visual Arts Chair.
Teaching Minor

Art Education Minor

Grade Requirements: A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
Credit Hour Requirements: A minimum of 24 credit hours.
Program Code: 3062
CIPC: 131302

Students who select the Art Education Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Course Requirements for Minor

Required Courses (18 credit hours)

- ART 1010 CA - Introduction to the Visual Arts Credits: (3)
- ART 1110 CA - Drawing I Credits: (3)
- ART 1120 - Design Concepts Credits: (3)
- ART 1130 - Approaches to Surface, Shape and Form Credits: (3)
- ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] Credits: (3)
- ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] Credits: (3)

Elective Course (6 credit hours)

Select two courses from the following

- ART 2200 - Introduction to Printmaking Credits: (3)
- ART 2250 - Foundations of Photography: Black & White/Analog Credits: (3)
- ART 2310 - Ceramics I Credits: (3)
- ART 2350 - Small Metals/Jewelry I Credits: (3)
- ART 2600 - Painting I Credits: (3)
- ART 2700 - Sculpture I Credits: (3)
- ART 3430 - Typography and Publication Design Credits: (3)
- ART 2430 - Introduction to Graphic Design Credits: (3)
- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 Credits: (4)
- ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present Credits: (4)
- ARTH 2040 - Art and Architecture of Asia Credits: (4)

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Art Education. Consult with the Department of Visual Arts Chair.
Master of Arts in English Program

**English Department Chair:** Hal Crimmel  
**Program Director:** David Hartwig, 801-626-7461  
**Location:** Elizabeth Hall, Room 443  
**Telephone Contact:** Miranda McPherson, 801-626-7179

The Master of Arts in English program offers traditional graduate students and working adults advanced preparation in the study of English language and literature.

The curriculum is composed of 2 and 3 credit hour classes that fall into the following broad categories:

- American Literature  
- British Literature  
- Teacher Education  
- World Literature  
- Linguistics

**Post Master's Certificate**

**Rhetoric and Writing Studies Graduate Certificate**

This certificate will provide students with advanced training in Rhetoric and Writing Studies with an emphasis on the teaching of college-level composition.

**Grade Requirements:** Students must receive a grade of B or better in every course.  
**Credit Hour Requirements:** The program of study consists of 12 credit hours. This includes 9 credit hours of required courses and a minimum of 3 credit hours of electives.

**Program Code:** 3090GC  
**CIPC:** 231304

Gainful Employment Disclosure

**Admission Requirements**

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)  
- Submission of writing sample (4-8 pages)  
- Transcripts from all institutions of higher education attended  
- Three letters of recommendation from educational or professional references  
- Interview with the program director or option coordinator

**Additional Requirements for International Students**

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 550 (paper-based) or 213 (computer-based). Other appropriate tests may be used as an alternative to the TOEFL, such as IELT and the WSU LEAP Special Examination. The score may not be more than two years old.
Program Learning Outcomes

Students will demonstrate...

The ability to identify and apply the ways rhetoric and writing studies creates knowledge, solves problems, and/or generates meaningful pedagogies.
Informed research practices related to the major ideas and movements of rhetoric and writing studies.
An understanding of how differences in language and everyday lived realities are intellectually generative and fundamental to contemporary ethical practices.

Required Courses

MENG 6130 - Theories of Rhetoric and Writing Studies Credits: (3)
MENG 6140 - Foundations of Professional and Technical Writing Credits: (3)
MENG 6822 - Teaching College Writing Credits: (2)
MENG 6823 - Teaching Practicum Credits: (1)

Elective Courses

Choose one (1) of the following courses.

MENG 6110 - Writing for Teachers Credits: (3)
MENG 6330 - Literary and Rhetorical Stylistics Credits: (3)
MENG 6730 - Creative Writing Forms and Crafts Credits: (3)
MENG 6150 - Grant Writing Credits: (3)
MENG 6230 - Wasatch Range Writing Project Summer Institute Credits: (1-6)
MENG 6231 - Wasatch Range Writing Project Advanced Institute Credits: (1-6)
Master of Arts

Master of Arts in English (MA)

Areas of Emphasis

Select one of the following areas of emphasis:

- Master of Arts in English (MA), Creative Writing Emphasis
- Master of Arts in English (MA), Literature Emphasis

Master of Arts in English (MA), Creative Writing Emphasis

Admission Requirements

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)
- Submission of writing sample (6-8 pages)
- Transcripts from all institutions of higher education attended
- Three letters of recommendation from educational or professional references
- Interview with the program director or option coordinator

Additional Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 550 (paper-based) or 213 (computer-based). Other appropriate tests may be used as an alternative to the TOEFL, such as IELT and the WSU LEAP Special Examination. The score may not be more than two years old.

Transfer Credits

Transfer credit must be approved by the program director and cannot exceed 11 credit hours. Transfer classes must be at appropriate levels and fulfill the objectives of the Master of Arts in English degree at WSU. No courses for which credit was used to fulfill requirements of another degree may be used toward the Master of Arts in English degree.

Obsolete Credits

Credit earned more than ten (10) years earlier than the proposed date of graduation will not be accepted for the MA degree unless approved by the program director.

Graduation Requirements

Credit hour requirements are determined within the option. A minimum of 24 credit hours at the 6000-level and a minimum of 33 total credit hours are required in the program. Students must complete all requirements in one of the options. Grades of B- or better in all courses counting toward the degree.
Students with a BS degree must show foreign language competency either by completing six hours of a foreign language class with a grade of C (or better) or by passing a prescribed foreign language reading test.

Students not completing a thesis will be required to submit a portfolio of their work to the program for assessment purposes.

**Program Code:** 3056MENG with an emphasis in Creative Writing (3110) or Literature (3111)

**CIPC:** Master of English (230101), Creative Writing (231302), Literature (231401)

**Time for Degree Completion**

MENG students must receive approval from the program director to register for more than nine (9) credit hours in a semester.

MENG students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this time limit may submit a letter of appeal to the program director to request an extension.

Students who fail to enroll in program classes for three consecutive semesters (not including summers) must apply for readmission to the program.

In order to ensure timely progress through the program, students are encouraged to consult with an advisor at least once a year.

**Program Learning Outcomes**

Students will demonstrate...

1. The ability to gather, analyze, and communicate information and insights critically.
2. The ability to closely read and analyze texts within historical contexts and critical frameworks.
3. A developed and honed voice, as evident in polished creative works.
4. An awareness of their own aesthetic practices in the continuum of literary traditions and genres.
5. Sophisticated revision and editing tactics

**Master of Arts in English (MA)**

**Admission Requirements**

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)
- Submission of writing sample (6-8 pages)
- Transcripts from all institutions of higher education attended
- Three letters of recommendation from educational or professional references
- Interview with the program director or option coordinator

**Additional Requirements for International Students**

In order to ensure timely progress through the program, students are encouraged to consult with an advisor at least once a year.

Program Learning Outcomes

Gather, analyze, and communicate information and insights critically.
Closely read and analyze texts within historical contexts and critical frameworks.
Apply theoretical and critical perspectives in their own writings.
Apply current scholarship and practice in their own writings.
Employ discipline-specific terminology and conventions in their written, oral, and/or multimodal presentations.

Course Requirements for Master of Arts in English

All MENG students will be required to complete the Core Requirements as part of their degree. In addition to the Core, a student needs to complete one of the emphasis areas.
Core Requirements

Core Research Methods

Required in the first full semester (Fall/Spring) of enrollment.

- MENG 6010 - Introduction to Graduate Studies Credits: (3)

Core Literary Studies

Select one course from the following:
(Note: These courses may be repeated for credit with different content).

- MENG 6510 - Seminar in Eminent Writers: Credits: (2-3)
- MENG 6240 - Seminar in American Literature Credits: (3)
- MENG 6250 - Seminar in British Literature Credits: (3)
- MENG 6260 - Seminar in World Literature Credits: (3)

Creative Writing Emphasis Requirements

Forms and Crafts

- MENG 6730 - Creative Writing Forms and Crafts Credits: (3)

Creative Writing Workshops

Select two courses from the following repeatable seminars (6 credit hours):

- MENG 6740 - Creative Nonfiction Writing Credits: (3)
- MENG 6750 - Fiction Writing Credits: (3)
- MENG 6760 - Poetry Writing Credits: (3)
- MENG 6770 - Screenwriting Credits: (3)

Thesis

- MENG 6950 - Creative Writing Thesis: Fiction, Nonfiction, Poetry Credits: (1-6)

Electives 15 credit hours

Elective courses must be taken to fulfill the remaining 15 credit hours to achieve the minimum 33 credit hours required to graduate. Any MENG course will count as an elective, and graduate-level courses from other programs may be counted upon consultation with the program director.
Master of Arts in English (MA), English Education Emphasis

Admission Requirements
Admission to the MA program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation. Applicants must complete an online application. Criteria for acceptance into the program include: Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred) Submission of writing sample (6-8 pages) Transcripts from all institutions of higher education attended Three letters of recommendation from educational or professional references Interview with the program director or option coordinator

English Education Emphasis Requirements

Creating Texts

Select one course from the following:

MENG 6230 - Wasatch Range Writing Project Summer Institute Credits: (1-6)
MENG 6231 - Wasatch Range Writing Project Advanced Institute Credits: (1-6)
MENG 6822 - Teaching College Writing Credits: (2)
MENG 6823 - Teaching Practicum Credits: (1)
MENG 6110 - Writing for Teachers Credits: (3)

Adolescent Literacy Development

MENG 6120 - Young Adult Literature Credits: (3)

Language and Sociolinguistics

Select one course from the following:

MENG 6310 - Language and Sociolinguistics for Teachers Credits: (3)
MENG 6210 - Teaching Literature, Literacy, and Language in the Secondary Schools Credits: (3)
Selecting and Teaching Texts, Speaking and Listening

MENG 6100 - Literary Curriculum Design Credits: (3)

Electives (15-16 Credit Hours)

Elective courses must be taken to fulfill the remaining 15-16 credit hours needed to achieve the minimum 33 credit hours required to graduate.

Students pursuing the English Education emphasis who are seeking ELA Endorsement and do NOT have undergraduate credits which will fulfill USBE competency standards must take the following elective courses...

MENG 6240/50 - Seminar in American/British Literature OR
MENG 6260 - Seminar in World Literature (this must NOT be the same course that fulfilled the Core Literature Seminar requirement).

An additional writing course that was NOT taken to fulfill the Creating Texts requirement (this could be a course from that list, or it could be any of our Creative Writing workshops: MENG 6730 - Creative Nonfiction Writing, MENG 6740 - Fiction Writing, MENG 6750 - Poetry Writing, MENG 6770 - Screenwriting). Students pursing the English Education emphasis who are seeking ELA Endorsement should consider the following preferred elective for teaching diverse learners...

MENG 6410 - Strategies and Methodology of Teaching ESL/Bilingual Students

Students pursuing the English Education emphasis who are seeking teaching licensure from the State of Utah should enroll in the Graduate Certificate of Teaching through the Moyes College of Education. You will need to apply for that program separately from the MA program, but the courses taken in that program will count as electives toward your degree.
Master of Arts in English (MA), Literature Emphasis

Master of Arts in English (MA)

**Literature Theory and Criticism**
- MENG 6030 - Studies in Literary Theory and Criticism Credits: (3)

**Seminars in Literature**
Complete three courses from the following repeatable seminars (9 credit hours): (Note: Students who take one of these courses to fulfill the Core Literary Studies requirement will also fulfill the requirement in this area).

- MENG 6240 - Seminar in American Literature Credits: (3)
- MENG 6250 - Seminar in British Literature Credits: (3)
- MENG 6260 - Seminar in World Literature Credits: (3)

**Electives**
Elective courses may be taken to fulfill the minimum 33 credit hours required to graduate.
Master of Professional Communication Program

Program Director: Dr. Sarah Steimel, 801-626-6535  
Telephone Contact: Jennifer Greenlee 801-626-7499  
E-mail Contact: mpc@weber.edu  
Location: Elizabeth Hall, north end of third floor  
Department Chair: Dr. Anne Bialowas

The Master of Professional Communication (MPC) degree emphasizes advanced communication knowledge and skills necessary to produce effective leaders, managers, and organizational members in for-profit, government or non-profit organizations. Students develop a plan of study tailored to their personal career goals through a combination of required and elective courses within the field of communication and in related fields such as business, education, and health professions. Courses in the two-year program blend classroom instruction with online educational tools to accommodate the educational needs of working professionals.

Master of Professional Communication

Master of Professional Communication (MPC)

Admission Requirements

Applicants for admission into the WSU Master of Professional Communication program must possess a bachelor's degree from an accredited institution (or be in the final stage of completing the degree) and have a minimum GPA of 3.0. Each applicant is evaluated holistically based on program admission requirements. Ideal applicants will present a strong overall academic record, positive letters of recommendation, and a record of professional accomplishment. An ideal class will consist of working professionals with a wide variety of backgrounds.

Applicants will submit:

- Completed application with personal essay
- Current resume
- Official transcripts from every institution of higher education attended (transcript must show that the bachelor's degree has been completed).
- Three letters of academic and/or professional recommendation

Additional Admission Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 550 (paper-based) or 213 (computer-based). The score may not be more than two years old. Equivalent IELTS score is also accepted in place of TOEFL.

Elective Courses from Other Universities

Related graduate-level courses from other universities may be accepted with permission of the MPC program director.
Transfer Credit

Transfer credit must be approved by the program director and cannot exceed 12 hours. Transfer classes must be at an appropriate level and fulfill the objectives of the MPC. No courses for which credit was used to fulfill requirements of another degree may be used toward the MPC degree.

Grade Requirements

To earn the MPC degree, candidates must complete all graduate courses with a grade of B- or higher. The overall program GPA must be 3.0 or higher. Failure to maintain a 3.0 grade point average, or two consecutive course sessions where a grade lower than B- has been earned, will result in academic probation in accordance with departmental policies.

Graduation Requirements

- 33 credit hours, at least 30 at the 6000-level.
- Overall GPA of at least 3.0.

Time for Degree Completion

MPC students must receive approval from the program director to register for more than nine (9) credit hours in a semester.

MPC students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered and begun taking classes. Students who exceed this requirement may submit a letter of appeal to the MPC director to request that this requirement be waived. Students who fail to enroll in MPC courses for three consecutive semesters must apply for readmission to the program unless a deferment is approved by the program director. In order to ensure timely progress through the program, students must consult with an MPC advisor every Fall Semester. Students on the thesis/project track who, for any reason, do not finish their thesis or project or program of courses within the two-year framework suggested in this program, must pay continuing enrollment and tuition the semester they defend their thesis or project.

Program Code: 3066MPC
CIPC: 090101

Program Learning Outcomes

- Write and edit at a level commensurate with a communication leader or manager in applied communication contexts.
- Present information orally and in visual form at a level commensurate with a communication leader or manager in an applied communication context.
- Demonstrate critical thinking in applied communication contexts.
- Conduct academic or applied research in communication contexts, report findings clearly and accurately, and interpret the meaning of research data.
- Demonstrate knowledge in one or more cognate areas - strategic organizational leadership, interpersonal communication and team building, new media.
Course Requirements for MPC

Foundational Courses (9 credit hours)

- MPC 6010 - Introduction to Graduate Study and Communication Theory Credits: (3)
- MPC 6150 - Writing for Professional Communicators Credits: (3)
- MPC 6210 - Presentational Speaking in the Workplace Credits: (3)

Research Methods Requirement (3 credit hours)

Choose one of the two research courses in consultation with the MPC program director.

- MPC 6700 - Qualitative Communication Research & Analysis Credits: (3)
- MPC 6710 - Communication Survey Design and Analysis Credits: (3)

Core Courses (12 credit hours)

Choose four of the six courses in consultation with the MPC program director.

- MPC 6100 - Team Building and Facilitation Credits: (3)
- MPC 6300 - New Media in Professional Communication Credits: (3)
- MPC 6350 - Visual Communication in the Workplace Credits: (3)
- MPC 6400 - Leadership Communication Credits: (3)
- MPC 6450 - Advanced Organizational Communication Credits: (3)
- MPC 6600 - Strategic Communication Credits: (3)

Electives (9 credit hours)

Students may choose the thesis track, project track, OR the coursework track.

Thesis

- MPC 6900 - Thesis/Project I Credits: (3)
- MPC 6950 - Thesis/Project II Credits: (3)

3 credit hours of master's level electives, chosen in consultation with the MPC program director.

Project Track

- MPC 6900 - Thesis/Project I Credits: (3)

6 credit hours of master's level electives, chosen in consultation with the MPC program director.

Coursework Track

Choose nine credit hours of electives in consultation with the MPC program director and submit a portfolio as evidence of this work.

Exit Portfolio Requirement: The program requires all Coursework students to complete and submit a portfolio featuring their work from their three elective courses and a synthesis paper to complete this requirement.

- At least 6 credit hours must come from elective courses at the 6000 level.
- No more than 3 credit hours of dual designated MPC courses at the 5000 level.
Elective Master's-level Courses

6000-level Electives

MPC 6250 - Interviewing Credits: (3)
MPC 6500 - Topics in Professional Communication Credits: (3)
MPC 6620 - Conflict Resolution and Mediation Credits: (3)
MPC 6840 - Data Visualization & Storytelling Credits: (3)

Note: Students may also choose 6000-level courses from the list of core required courses above to count as electives.

Elective Interdisciplinary Courses

Students may select no more than two courses (or credit hours, whichever is reached first) from the following WSU master's program courses (with the permission of the appropriate MPC graduate program advisor and/or fulfillment of prerequisite courses). Interdisciplinary electives must be approved by the MPC program director.

MBA 6140 - Marketing Management Credits: (3)
MBA 6170 - Corporate Communications Credits: (3)
MBA 6530 - E-Business Credits: (3)
MBA 6540 - Negotiations Credits: (3)
EDUC 6110 - Introduction to Classroom Management Credits: (3)
MED 6120 - Advanced Classroom Management Credits: (3)
MENG 6730 - Creative Writing Forms and Crafts Credits: (3)
MENG 6740 - Creative Nonfiction Writing Credits: (3)
MBA 6110 - Fundamentals of Ethical Leadership Credits: (3)
MBA 6120 - Organizational Behavior Credits: (3)
MBA 6440 - Strategic Leadership Credits: (3)
MBA 6450 - Leadership Through People Skills Credits: (3)
MBA 6580 - Project Management Credits: (3)
MBA 6850 - Business Development and Entrepreneurship Credits: (3)
MED 6220 - Current Problems in Education Credits: (3)
MED 6230 - Instructional Technology for Teachers Credits: (3)
MED 6380 - Values Education Credits: (3)

Dual-Designation or "Swing" Courses

The following dual designation courses are designed to fill gaps in the undergraduate preparation of students who wish to command the broadest understanding of professional communication. While the courses are accessible to students who have not taken the corresponding undergraduate courses, the graduate courses differ from undergraduate counterparts in demanding greater depth and breadth in all major aspects of each course such as reading, writing, presentation, projects, etc. Of the 9 elective credit hours in the Master of Professional Communication degree, only 3 may be 5000-level courses and must be approved by the MPC program director before registration.

MPC 5080G - Intercultural Communication Credits: (3)
MPC 5090G - Gender and Communication Credits: (3)
MPC 5220G - Editing Credits: (3)
MPC 5400G - Public Relations Media and Campaigns Credits: (3)
MPC 5500G - Topics in Communication Credits: (1-3)
MPC 5650G - Communication Law Credits: (3)
MPC 5820G - Persuasive Communication Credits: (3)
MPC 5850G - Advertising Credits: (3)
Telitha E. Lindquist College of Arts & Humanities
Interdisciplinary Programs

Associate of Arts

Workplace Communication and Writing (AA)
By pursuing coursework in English and Communication, students may earn an Associate of Arts or Associate of Science degree in Workplace Communication and Writing. Students anticipating continuing on for a bachelor's degree in English are advised to pursue the Associate of Arts degree.

Program Prerequisite: Not required.

Grade Requirements: A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.

Credit Hour Requirements: A total of 61 credit hours is required for graduation; a minimum of 24 of these must be from the programs detailed below.
Program Code: 3078AA
CIPC: 090101

Advisement
Students are encouraged to meet with the academic advisor for the College of Arts and Humanities at least annually for course and program advisement. Call 801-626-6631 or email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements
There are no special admission or application requirements for this program.

General Education
Refer to Degree Requirements for Associate of Arts requirements and for Associate of Science Requirements. See Foreign Language Courses Required below to fulfill the Associate of Arts degree.
Consult with a college advisor for detailed General Education guidelines.

General Studies Requirement

Humanities HU (3 credits): Students must take: COMM 1020 HU - Principles of Public Speaking or COMM 2110 HU CEL - Interpersonal and Small Group Communication
Humanities HU or Creative Arts CA (3 credits): Students must take one ENGL class from the following list: ENGL 2200 HU/EDI - Introduction to Literature, ENGL 2220 HU/EDI - Introduction to Fiction, ENGL 2230 HU/EDI - Introduction to Drama, ENGL 2240 HU/EDI - Introduction to Poetry, ENGL 2250 CA/EDI - CW: Introduction to Creative Writing, ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction, ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry, ENGL 2510 HU/EDI - Masterpieces of Literature, ENGL 2710 HU/EDI - Perspectives on Women's Literature, ENGL 2750 HU - Topics and Ideas in the Humanities

Required Courses: 24 credit hours from the following core areas:
Writing: 2 courses
New Technology & Digital Media: 1 course
Working in Organizations: 1 course
Workplace Skills: 1 course
Professionalizing Experience: 1 course
Foreign Language: 2 courses
Writing (Select TWO / for a total of 6 credits: one from Communication, one from English)

COMM 1130 - Media Writing Credits: (3) OR
COMM 1140 - Writing for Workplace Communication Credits: (3) OR
WSU 2350 QL/HU - Perspectives in Quantitative Literacy and Humanities Credits: (3-5) (Writing with Numbers)

ENGL 3610 - American Literature I Credits: (3) OR
ENGL 3620 - American Literature II Credits: (3)

New Technology and Digital Media (Select ONE / for a total of 3 credits)

COMM 2010 HU - Mass Media and Society Credits: (3)
COMM 2250 HU - Essentials of Digital Media Credits: (3)
ENGL 2130 - Media and Technology in Texts Credits: (3)

Working in Organizations (Select ONE / for a total of 3 credits)

COMM 2550 - Communication in Professional Settings Credits: (3)
ENGL 2150 - Gender and Culture in Workplace Writing Credits: (3)

Workplace Skills (Select ONE / for a total of 3 credits)

COMM 1020 HU - Principles of Public Speaking Credits: (3) OR
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) (whichever not counted toward General Studies requirement)

COMM 1270 - Analysis of Argument Credits: (3)

COMM 1500 - Introduction to Mass Communication Credits: (3) OR
COMM 2010 HU - Mass Media and Society Credits: (3)

COMM 1560 - Audio Production and Performance Credits: (3)
ENGL 2140 - Introduction to Professional and Technical Editing Credits: (3)
ENGL 2160 - Introduction to Web-Based Technical Writing Credits: (3)
COMM 2200 - Multi-Camera Production and Performance Credits: (3)

Professionalizing Experience (Select ONE / for a total of 3 credits)

COMM 2890 - Cooperative Work Experience for The Signpost Credits: (1-3)
COMM 2730 - Digital Radio Production and Broadcast Credits: (1-3)
ENGL 2890 - Cooperative Work Experience Credits: (1-6)
ENGL 2999 INT - Capstone in Workplace Communication and Writing Credits: (3)
COMM 2999 - Capstone in Workplace Communication and Writing Credits: (3)
Foreign Language: (TWO courses / total of 6 credits)

Complete two semesters of one of the following languages: French, German, Spanish, American Sign Language, Chinese, or Japanese.

Program Learning Outcomes

Writing: Students will demonstrate writing and editing skills appropriate for the workforce.

New Technologies and Digital Media: Students will demonstrate the principles and practices of new technologies and digital media.

Working in Organizations: Students will demonstrate knowledge of how organizations work.

Workplace Skills: Students will demonstrate the ability to effectively communicate their understanding of workplace skills in written, oral or visual format.

Internships: Students will apply workplace skills in a capstone class.
Associate of Science

Workplace Communication and Writing (AS)
By pursuing coursework in English and Communication, students may earn an Associate of Arts or Associate of Science degree in Workplace Communication and Writing. Students anticipating continuing on for a bachelor's degree in English are advised to pursue the Associate of Arts degree.
Program Prerequisite: Not required.
Grade Requirements: A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.
Credit Hour Requirements: A total of 61 credit hours is required for graduation; a minimum of 24 of these must be from the program detailed below.

Advisement
Students are encouraged to meet with the academic advisor for the College of Arts and Humanities at least annually for course and program advisement. Call 801-626-6631 or email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information ).

General Education
Refer to Degree Requirements of this catalog for Associate of Science and Associate of Arts requirements.

General Studies Requirement
Humanities HU (3 credits): Students must take: COMM 1020 HU - Principles of Public Speaking or COMM 2110 HU CEL - Interpersonal and Small Group Communication
Humanities HU or Creative Arts CA (3 credits): Students must take one ENGL class from the following list: ENGL 2200 HU/EDI - Introduction to Literature, ENGL 2220 HU/EDI - Introduction to Fiction, ENGL 2230 HU/EDI - Introduction to Drama ENGL 2230 HU/EDI - Introduction to Drama, ENGL 2240 HU/EDI - Introduction to Poetry, ENGL 2250 CA/EDI - CW: Introduction to Creative Writing, ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction, ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry, ENGL 2510 HU/EDI - Masterpieces of Literature, ENGL 2710 HU/EDI - Perspectives on Women's Literature, ENGL 2750 HU - Topics and Ideas in the Humanities

Program Learning Outcomes

**Writing:** Students will demonstrate writing and editing skills appropriate for the workforce.

**New Technologies and Digital Media:** Students will demonstrate the principles and practices of new technologies and digital media.

**Working in Organizations:** Students will demonstrate knowledge of how organizations work.

**Workplace Skills:** Students will demonstrate the ability to effectively communicate their understanding of workplace skills in written, oral or visual format.

**Professionalizing Experience:** Students will apply workplace skills in a capstone class.
Bachelor of Arts

Film Studies (BA)

**Program Prerequisite:** Not required.

**Minor:** Not required.

**Grade Requirements:** A grade of "C" or better in courses required for the major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

**Credit Hour Requirements:** A total of 120 credit hours are required for graduation. Of this total, 51 credit hours in Film Studies are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).

**Program Code:** 3085BA

**CIPC:** 500602

**Advisement**
All Film Studies majors should meet with the program's director and an advisor in the College of Arts & Humanities advisors early in their course of study. Ashkan Soltani-Stone can be reached at ashsoltanistone@weber.edu. Call 801-626-6631 or email cahadvisor@weber.edu to reach a college advisor.

**Admission Requirements**
Declare your program of study (see Enrollment Services and Information) with the college advisor. There are no special admission or application requirements.

**General Education**
Refer to Degree Requirements for Bachelor of Arts requirements. The following Film Studies courses will also fulfill 3 credit hours each of the General Education requirement in the Creative Arts (CA) and Humanities (HU) categories: FILM 2200 CA, THEA 1023 CA, THEA 1033 CA, COMM 2010 HU, COMM 2250 HU, ENGL 2210 , ENGL 2230 HU/EDI, and ENGL 2280 CA.

**Language Courses Required to fulfill the BA**
Film Studies majors must complete **Option 1**: Foreign Language (12 credit hours of a foreign language, refer to the Department of Foreign Languages section of this catalog for additional information on obtaining foreign language credit)

**OR Option 2** - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 credit hours of language arts). With this option students will fulfill the 6 credits of language arts by taking ( ENGL 2295 - CW: Introduction to Screenwriting or COMM 3740 - Writing for Screen) and ( ENGL 3290 - CW: Advanced Screenwriting or COMM 4740 - Advanced Writing for Screen and Television). These language arts courses will also count toward major requirements (see below).

**Program Learning Outcomes**
Students are expected to be proficient in each of these areas upon graduation from the Film Studies Program:
- To demonstrate understanding of film analysis, criticism, and global history.
- To work collaboratively to exchange ideas and outcomes of creative interdisciplinary research across a range of modalities.
- To understand the relationship between cinematic form and aesthetic effect.
- To employ theoretical and interdisciplinary tools in critical thinking.
- To understand trends in the film industry regarding emerging production methods and distribution models.
- To gain knowledge of diverse modes of film production, including fiction, non-fiction, and experimental.

**Major Course Requirements for Film Studies BA Degree**
# Foundation Courses (12 credit hours)

- **THEA 1023 CA - Introduction to Film** Credits: (3) or
- **ENGL 2210 - Introduction to Film Theory and Criticism** Credits: (3)

- **FILM 2200 CA - Fundamentals of Film** Credits: (3)
- **FILM 2280 - Introduction to Film Production** Credits: (3)
- **FILM 2820 - Special Topics in Film Studies** Credits: (3)

# Core Curriculum (9 credit hours)

Select 3 courses.

- **ART 2750 - Foundations of Video Art** Credits: (3)
- **COMM 2250 HU - Essentials of Digital Media** Credits: (3)

- **ENGL 2295 - CW: Introduction to Screenwriting** Credits: (3) or
- **COMM 3740 - Writing for Screen** Credits: (3)

- **COMM 3751 - Narrative Digital Filmmaking** Credits: (3)
- **FILM 3780 - Survey of Documentary Cinema** Credits: (3)
- **FL 3580 - Global Cinema** Credits: (3)
- **COMM 4770 - Digital Documentary Filmmaking** Credits: (3)
- **FILM 3200 - History of Film** Credits: (3)

# Film Studies Electives (30 credit hours)

Select 30 additional Film Studies elective credits with your advisor. At least 21 credits must be at the 3000-level or above. Choosing courses from different departments is recommended.

- **ART 1110 CA - Drawing I** Credits: (3)
- **ART 2750 - Foundations of Video Art** Credits: (3)
- **ART 2430 - Introduction to Graphic Design** Credits: (3)
- **ART 2450 CA - Foundations of Photography: Color/Digital** Credits: (3)
- **ART 4550 - Advanced Photography: Lighting for Photo & Video** Credits: (3)
- **CHNS 3680 - Literature: Film** Credits: (3)
- **COMM 2200 - Multi-Camera Production and Performance** Credits: (3)
- **COMM 2250 HU - Essentials of Digital Media** Credits: (3)
- **COMM 3070 - Performance Studies** Credits: (3)
- **COMM 3200 - Live Event Production** Credits: (1-3)
- **COMM 3350 - Visual Communication** Credits: (3)
- **COMM 3740 - Writing for Screen** Credits: (3)
- **COMM 3750 - Advanced Cinematography and Editing** Credits: (3)
- **COMM 3751 - Narrative Digital Filmmaking** Credits: (3)
- **COMM 4740 - Advanced Writing for Screen and Television** Credits: (3)
- **COMM 4751 - Advanced Narrative Digital Filmmaking** Credits: (3)
- **COMM 4760 - Media Management and Distribution** Credits: (3)
- **DANC 2610 - Dance and Digital Technology** Credits: (2)
- **DANC 4610 - Dance and Digital Technology** Credits: (2)
- **ENGL 2295 - CW: Introduction to Screenwriting** Credits: (3)
- **ENGL 3290 - CW: Advanced Screenwriting** Credits: (3)
- **ENGL 3353 - Genres in Cultural and Media Studies** Credits: (3)
ENGL 3380 - CW: Screenwriting Form and Craft Credits: (3)
ENGL 3540 - Adaptation Studies Credits: (3)
ENGL 3750 HU - Topics and Ideas in Literature Credits: (3)
FILM 2820 - Special Topics in Film Studies Credits: (3)
FILM 3200 - History of Film Credits: (3)
FILM 3780 - Survey of Documentary Cinema Credits: (3)
FILM 4700 - Film Studies Capstone Credits: (3)
FL 3580 - Global Cinema Credits: (3)
FRCH 3680 - Literature: Film Credits: (3)
GRMN 3680 - Literature: Film Credits: (3)
JPNS 3680 - Literature: Film Credits: (3)
PTGS 3680 - Literature: Film Credits: (3)
SPAN 3680 - Literature: Film Credits: (3)
MUSC 1723 - Field Recording/Sound for Picture Credits: (2)
MUSC 4820 - Pro Tools 101 Credits: (2)
MUSC 4823 - Pro Tools 110 Credits: (2)
THEA 2032 - Lighting Fundamentals Credits: (3)
THEA 2403 - Stage Management Credits: (3)
THEA 3350 - Marketing and Communication for the Arts Credits: (3)
FILM 3800 - Independent Study Credits: (1-3)
Jerry and Vickie Moyes College of Education

Dr. Kristin Hadley, Dean

The College of Education is committed to developing and maintaining healthy and responsible individuals, families, and schools in a global and diverse society through roles related to the preparation and support of practitioners and educators, service to campus and community, and the discovery and advancement of knowledge.

Students completing baccalaureate programs in the College of Education will be granted the Bachelor of Science degree. The College also grants Master of Education degrees in Curriculum and Instruction and Master of Science degrees in Athletic Training.

Grade Appeal Procedures

The evaluation of student performance is recorded on the student's University transcript as part of the student's permanent record. The grade is determined by the faculty member responsible for the course and is based upon factors related to achievement of the course objectives. The grade is considered final unless an appropriate appeal is filed by the student. For the student who is dissatisfied with a grade and has reason to believe the grade issued is incorrect, the following appeal procedure is provided by the College and the University. Steps 1 and 2 of the process are considered informal appeals and are designed to provide an avenue for resolution without a formal hearing.

Step 1 Within fourteen (14) days of the beginning of the following term, the student shall confer with the instructor who issued the grade and outline the reason/s why he or she believes the grade to be incorrect. (If the faculty member is unavailable, the student must contact the faculty member's chairperson within this same time period to request an extension of the time allowed for this step. Such permission must be obtained in writing.) Within seven (7) days of
the student-faculty conference, the faculty member shall advise the student, in writing, of the outcome of the course grade review.

Step 2: If the student still considers the grade to be incorrect, the student may appeal the grade at the department level. This appeal must be in writing, must follow the procedures outlined in the College's Grade Appeal Process document, and must be filed not later than seven (7) days from the date of the completion of step one. The College Grade Appeal Process document may be picked up from the department office or the office of the dean.

Step 3: If, after completion of step 2, the student is still dissatisfied, the student should consult with the University's due process officer and may request that the case be reviewed by a Weber State University hearing committee.

Departments and Programs

Exercise and Nutrition Sciences Department

**Department Chair:** David Aguilar-Alvarez  
**Location:** Reed K. Swenson Building, Room 302  
**Telephone Contact:** Marrisela Lopez 801-626-6741  
**Professor:** Jennifer Turley; **Associate Professor:** David Aguilar-Alvarez; **Assistant Professors:** Bryan Dowdell, Saori Hanaki, Damon Joyner, Sachini Kodithuwakku Arachchige, Stacie Wing-Gaia; **Instructors:** Samantha Hill, Jamie Stein

Exercise and Nutrition Sciences (ENS) in the Jerry & Vickie Moyes College of Education offers programs that teach skills and knowledge needed to maintain and enhance human performance and well-being through exercise, fitness, sport, and optimal nutrition. We offer undergraduate students exceptional educational experiences in a variety of teaching environments supported by faculty with diverse expertise. Our state-of-the-art facilities - including fully equipped laboratories (biomechanics, human performance, nutritional biochemistry, and foods), a networked computer lab, and ample indoor and outdoor fitness and activity arenas - provide outstanding areas for student instruction and research. With a curriculum designed to develop professional knowledge and skills, our graduates enter the workforce as fitness and nutrition professionals in a variety of educational, health and fitness settings, and are prepared to pursue graduate studies in their respective career fields.

Through instruction, scholarship and service, our department offers Bachelor of Science degrees in Exercise and Sport Science (Fitness Professional and Exercise Science emphases) and Nutrition Education (Integrative Nutrition and Sports Nutrition emphases) and a Nutrition Education minor. We also support the efforts of undergraduates seeking the Bachelor of Integrated Studies degree, offering Exercise Science and Nutrition Education and as emphases for the BIS Program.

Mission Statement

The Department of Exercise and Nutrition Sciences (ENS) supports and enhances the mission of the University through learning, access, and community partnerships in exercise and nutrition sciences. We provide effective instruction, exploratory research, and engaged service to prepare exercise, fitness, and nutrition professionals for the workforce and graduate studies and to promote optimal health, human performance, and overall well-being.
Exercise and Sport Science (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Exercise and Sport Science with two emphasis options: Fitness Professional and Exercise Science. Students may declare one or both emphases. The Exercise and Sport Science major program prepares students for a variety of career options, several national certifications, and for entering graduate and professional schools.

Graduates will have demonstrated competence and knowledge in anatomy, physiology, fitness assessment, kinesiology, biomechanics, exercise physiology, exercise programming and implementation, exercise leadership and client education, nutrition, health, strength and conditioning, weight lifting, aerobic activities, and more.

Program Prerequisite: Not required.
Minor: Not required.
Grade Requirements: A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a total of 63 credit hours for this major. Ten to 11 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required for graduation with 36-38 upper division hours possible within the required courses for this major.
Program Code: 5049BS with one of the following emphasis codes Fitness Professional (5050) or Exercise Science (5051).
CIPC: 310505

Advisement
All Exercise and Sport Science students are encouraged to meet with a faculty advisor or the department advisement coordinator each semester for course and program advisement. Call 801-626-6696 or email the ENS Department Advisor matthewsmith20@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements
Make application with the ENS Department and declare program of study (see Enrollment Services and Information).

General Education
Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes
Apply knowledge of exercise science including kinesiology, functional anatomy, exercise physiology, nutrition, program administration, psychology, and injury prevention in the health/fitness setting.
Perform pre-participation health screenings and fitness assessments.
Interpret assessment results and develop exercise prescription.
Incorporate suitable physical activities to improve functional capacity.
Apply appropriate behavioral change techniques to effectively educate and counsel lifestyle modification.
Create and disseminate risk management guidelines for a health/fitness facility, department or organization to reduce member, employee and business risk. OR Create an effective injury prevention program and ensure that emergency policies and procedures are in place.
Perform duties related to fitness management, administration, and program supervision.

Major Course Requirements for BS Degree
Required Core Courses (25 credit hours, 16 UD)

- RHS 2300 - Emergency Response Credits: (3)
- ESS 2200 - Exploring Exercise Science Professions Credits: (3)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ESS 3600 - Measurement and Statistics in Exercise Science Credits: (3)
- ESS 4370 - Clinical Exercise Physiology Credits: (3)
- ESS 4990 - Senior Seminar Credits: (1)

Professional Areas of Emphasis

A student must complete the required and support courses in either the Fitness Professional or the Exercise Science Emphasis.

Fitness Professional Emphasis (38 credit hours, 20 UD possible)

Required Core (22 credit hours, 19 UD)

- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)

- NUTR 3020 - Sports Nutrition Credits: (3) or
- NUTR 4420 - Nutrition and Fitness Credits: (3)

- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)

- ESS 2890 INT - Cooperative Work Experience Credits: (1-6)
- ESS 4890 INT - Cooperative Work Experience Credits: (1-6)

(5 credit hours required)

- ESS 4320 - Special Topics Credits: (3)
- ESS 4800 CRE - Directed Undergraduate Exercise Science Research Credits: (1-4)
- ESS 4830 - Directed Readings in Exercise Science Credits: (1-3)

- PS 3203 - Customer Service Techniques Credits: (3) or
- PS 3563 - Principles of Sales Supervision Credits: (3)

Skill Development (select 2) (2 credit hours total, 0 UD)

- PE 1010 - Aerobics, Level I Credits: (1)
- PE 1040 - Walking for Fitness, Level I Credits: (1)
- PE 1043 - Jogging, Level I Credits: (1)
- PE 1070 - Cross Training For Fitness, Level I Credits: (1)
- PE 1080 - Strength Training, Level I Credits: (1)
- PE 1300 - Swimming, Level I Credits: (1)
Required Support Courses (14 credit hours, 0 UD)

- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4)
- HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- CHEM 1010 PS - Introductory Chemistry Credits: (3)

Exercise Science Emphasis (38 credits, check requirements for UD)

Required Electives (Choose 23 credits from College and Professional Development)

College (ENS & HPER) (At least 11 credits, 6-16 UD possible)

- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3) or
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- NUTR 4320 - Current Issues in Nutrition Credits: (2)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3400 - Sport Psychology for Coaches Credits: (3)
- PEP 4800 - Individual Projects Credits: (1-4)
- ESS 2890 INT - Cooperative Work Experience Credits: (1-6)
- ESS 4320 - Special Topics Credits: (3)
- ESS 4800 CRE - Directed Undergraduate Exercise Science Research Credits: (1-4)
- ESS 4830 - Directed Readings in Exercise Science Credits: (1-3)
- ESS 4890 INT - Cooperative Work Experience Credits: (1-6)

Professional Development (3-12 credits, 3-12 UD possible)

- CHEM 1110 PS - Elementary Chemistry Credits: (4) and
- CHEM 1115 - Elementary Chemistry Lab Credits: (1)
- CHEM 1120 - Elementary Organic Bio-Chemistry Credits: (4) and
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab Credits: (1)
- CHEM 1210 PS - Principles of Chemistry I Credits: (4) and
- CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
- CHEM 1220 - Principles of Chemistry II Credits: (4) and
- CHEM 1225 - Principles of Chemistry II Lab Credits: (1)
- CHEM 2310 - Organic Chemistry I Credits: (4) and
- CHEM 2315 - Organic Chemistry I Lab Credits: (1)
- MICR 2054 LS - Principles of Microbiology Credits: (4)
- MICR 3203 - The Immune System in Health & Disease Credits: (3)
- PHYS 2010 PS - College Physics I Credits: (5)
- PHYS 2020 - College Physics II Credits: (5)
- PSY 3010 - Abnormal Psychology Credits: (3)
- ZOOL 1110 LS - Principles of Zoology Credits: (4)
ZOOL 3200 - Cell Biology Credits: (4)
ZOOL 3300 - Genetics Credits: (4)

Required Support Courses (15 credit hours, 0 UD)

HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or
ZOOL 2100 - Human Anatomy Credits: (4)

HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4) or
ZOOL 2200 LS - Human Physiology Credits: (4)

MATH 1050 QL - College Algebra Credits: (4) or higher level math
NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
Exercise Science (BIS)

Bachelor of Integrated Studies

**Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
**Credit Hour Requirements:** The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

*The course of study in each discipline must be approved by the appropriate program director.*

**BIS Possible Options**

*These are only recommendations; many combinations and options for potential careers are possible.*

**Health Education & Health Promotion Emphasis**

**Program Code:** 5013

**CIPC:** 512207

- Community Health Promotion
- Occupational Health Education
- Clinical Health Education *(See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions)*
- Family Life Health Promotion
- Gerontological Health Promotion
- Drug Abuse Prevention Education

**Nutrition Emphasis**

- Dietary Analysis
- Dietary Prescription
- Nutrition Education
- Weight Management
- Nutritional Ergogenics

**Exercise Science Emphasis**

**Program Code:** 5019

**CIPC:** 310505

- Coaching Sport
- Corporate Fitness
- Community Fitness
- Sports Medicine
- Sport Communication
- Commercial/Facility Management
- Sport Psychology
BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

Interdisciplinary Work-Made multiple connections across three academic disciplines.
High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
Capstone Signature Work - Synthesized and reported key research/skills/theories from academic disciplines.
Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
Academic speaking and writing-Used effective oral and written English-language skills
Post-Graduate Planning-Planned for careers and/or graduate programs.

Exercise Science Emphasis

Upper Division Hours 13, Total Hours Required 18

- HLTH 1300 - First Aid: Responding to Emergencies Credits: (2)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ESS 4370 - Clinical Exercise Physiology Credits: (3)
- ESS 4990 - Senior Seminar Credits: (1)

Nutrition Education (BIS)

Program Prerequisite: Prior departmental approval is required.
Grade Requirements: A GPA of 2.5 or better in courses used toward the minor.
Credit Hour Requirements: A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).
Program Code: 5015
CIPC: 190504

Program Learning Outcomes

Interdisciplinary Work-Made multiple connections across three academic disciplines.
High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
Capstone Signature Work - Synthesized and reported key research/skills/theories from academic disciplines.
Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
Academic speaking and writing-Used effective oral and written English-language skills
Post-Graduate Planning-Planned for careers and/or graduate programs.
Course Requirements for BIS Emphasis

Required Core Courses (7-9 credit hours)

NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
NUTR 4830 CRE - Directed Readings Credits: (1-3)

Elective Courses (9-11 credit hours)

NUTR 1120 - Nutrition for the Athlete Credits: (2)
NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
NUTR 3020 - Sports Nutrition Credits: (3)
NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
NUTR 3420 - Multicultural Health & Nutrition Credits: (3)
NUTR 4320 - Current Issues in Nutrition Credits: (2)
NUTR 4420 - Nutrition and Fitness Credits: (3)
NUTR 4520 CRE - Directed Undergraduate Nutrition Research Credits: (1-4)
NUTR 4860 INT - Field Experience Credits: (1-2)
NUTR 2020 - Nutrition in the Life Cycle Credits: (3)
NUTR 3040 - Nutrition Assessment Credits: (3)
NUTR 4440 - Advanced Human Nutrition Credits: (3)
NUTR 3070 - Advanced Food Science Credits: (3)
NUTR 3220 - Foundations in Diet Therapy Credits: (3)
**Nutrition Education (BS)**

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Nutrition Education with two emphasis options: Sports Nutrition; and Integrative Nutrition. Students may declare one or both emphases. The Nutrition Education major program prepares students for a variety of career options and for graduate school to pursue advanced degrees.

The Sport's Nutrition Educator graduate will have demonstrated competence and knowledge in chemistry, anatomy, physiology, diet analysis and design, nutrition assessment, sports and fitness nutrition, diet therapy, lifespan nutrition, research, and related exercise science topics with cultural application and sensitivity for individuals and athletes. Information is provided for typical graduate Registered Dietitian Nutritionist (RDN) program pre-requisites. The prerequisites vary somewhat from one graduate program to another and it is the student's responsibility to ensure that all pre-professional courses fulfill entrance requirements.

Integrative nutrition includes nutrition as it intersects with other related fields to support health and wellbeing of individuals and groups. The Integrative Nutrition Educator graduate will have demonstrated competence and knowledge in diet analysis and design, fitness nutrition, lifespan nutrition, sustainable cooking, and related exercise science, health, child and family studies, botany, microbiology, physical education, recreation, and/or psychology topics with cultural application and sensitivity.

**Program Prerequisites:** Not required.

**Minor:** Not required.

**Grade Requirements:** A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.

**Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a total of 60 credit hours for this major.

This includes 12-17 credit hours of required general education requirements. A total of 40 upper division credit hours are required for graduation with 29-30 upper division hours possible within the required courses for the major track options.

**Program Code:** 5015BS with Integrative Nutrition Emphasis (5052) or Sports Nutrition Emphasis (5053)

**CIPC:** 190504

**Advisement**

All Nutrition Education students are encouraged to meet the ENS department academic advisor at least twice a year. Call 801-626-6696 or send a message to matthewsmith20@weber.edu for more information or to schedule an appointment. Also refer to the Department Advisor Referral List.

**Admissions Requirements**

Make application with the ENS Department and declare the program of study (see Enrollment Services and Information).

**General Education**

Refer to Degree Requirements for Bachelor of Science requirements.
Program Learning Outcomes

Knowledge & Skills to solve nutrition and health related problems.
Integrated & Applied Expertise to educate and communicate for optimal health promotion and human performance.
Personal and Community Responsibility to optimize healthful behaviors of individuals, families, and/or communities through the life cycle with networking, resources, and Support.
High Impact Experiences from assimilating or engaging in research, group projects, senior capstone work, and/or community-based fieldwork.
Diet Analysis & Design by performing accurate diet analysis and design according to dietary guidelines for Americans, for health, fitness, and/or sport performance and with comprehensive evaluation, interpretation, and application.
Nutrient Needs & Functions by gender and activity level for various age groups and health conditions using healthy and sustainable food preparation methods.
Nutrition Issues & Assessment across cultures and the lifespan, for fitness and sport performance, in culinary science, and for the prevention and treatment of various medical conditions.
Human Structure and Function by understanding how nutrition intersects with living and nonliving hierarchies within the human body.

Major Course Requirements for BS Degree (60 credit hours)

Complete the Nutrition Education required core, select the Integrative Nutrition emphasis and/or Sports Nutrition emphasis and complete the required, elective, and general education and support courses in the selected emphasis.

Nutrition Education Required Core Courses (15 credit hours, 9 Upper Division credits)

- NUTR 2020 - Nutrition in the Life Cycle Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 3420 - Multicultural Health & Nutrition Credits: (3)
- NUTR 4320 - Current Issues in Nutrition Credits: (2)
- NUTR 4990 - Senior Seminar Credits: (1)

INTEGRATIVE NUTRITION Emphasis

Required General Education Courses (14-17 credit hours, 0 Upper Division, 17 General Education)

- CHEM 1110 PS - Elementary Chemistry Credits: (4) and
- CHEM 1115 - Elementary Chemistry Lab Credits: (1)
  OR
- CHEM 1210 PS - Principles of Chemistry I Credits: (4) and
- CHEM 1215 - Principles of Chemistry I Lab Credits: (1)

- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)

- PSY 1010 SS - Introductory Psychology Credits: (3) or
- CHF 1500 SS/EDI - Human Development Credits: (3)

- COMM 1020 HU - Principles of Public Speaking Credits: (3) or
- COMM 1500 - Introduction to Mass Communication Credits: (3) or
- COMM 2010 HU - Mass Media and Society Credits: (3) or
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

Required Courses (5 credit hours, 2 Upper Division credits)

NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
NUTR 4860 INT - Field Experience Credits: (1-2) (2 credits required)

Electives (23 credit hours required, 23 Upper Division credits possible, check requirements for Upper Division)

RHS 3080 - Evidence Based Practice for Rehabilitation Sciences Credits: (3)
BTNY 2303 - Ethnobotany Credits: (3)
BTNY 3583 - Medicinal Plants-Chemistry and Use Credits: (4)
FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
FAM 4400 - The Family in Stress Credits: (3)

COMM 3820 - Persuasive Communication Credits: (3) or
PS 3250 - Business Communication Credits: (3) or
MGMT 3200 - Managerial Communications Credits: (3)

HLTH 1110 - Stress Management Credits: (3)
HLTH 2400 - Mind/Body Wellness Credits: (3)
HLTH 3400 - Substance Abuse Prevention Credits: (3)
HLTH 4700 - Wellness Coaching Credits: (3)
ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
MICR 3203 - The Immune System in Health & Disease Credits: (3)
NUTR 4440 - Advanced Human Nutrition Credits: (3)
NUTR 4520 CRE - Directed Undergraduate Nutrition Research Credits: (1-4) (up to 6 credits allowed in degree)
PE 1080 - Strength Training, Level I Credits: (1)
PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)

PSY 3000 - Child Psychology Credits: (3) or
PSY 3140 - Adolescent Psychology Credits: (3) or
PSY 3560 - Group Dynamics and Counseling Credits: (3)

PSY 3255 - Conditioning, Learning, & Behavior Modification Credits: (3)

PS 3203 - Customer Service Techniques Credits: (3) or
PS 3563 - Principles of Sales Supervision Credits: (3)

NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
NUTR 3040 - Nutrition Assessment Credits: (3)
NUTR 4830 CRE - Directed Readings Credits: (1-3)
NUTR 4420 - Nutrition and Fitness Credits: (3)
NUTR 3220 - Foundations in Diet Therapy Credits: (3)
NUTR 3070 - Advanced Food Science Credits: (3)
SPORTS NUTRITION Emphasis

Required General Education and Support Courses (16 credit hours, 12 General Education, 0 Upper Division)

- CHEM 1210 PS - Principles of Chemistry I Credits: (4) and CHEM 1215 - Principles of Chemistry I Lab Credits: (1)
- HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or ZOOL 2100 - Human Anatomy Credits: (4)
- HTHS 1111 - Integrated Human Anatomy and Physiology II Credits: (4) or ZOOL 2200 LS - Human Physiology Credits: (4)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)

Required Courses (25 credit hours, 15 Upper Division credits)

- CHEM 1220 - Principles of Chemistry II Credits: (4)
- CHEM 1225 - Principles of Chemistry II Lab Credits: (1)
- CHEM 2310 - Organic Chemistry I Credits: (4)
- CHEM 2315 - Organic Chemistry I Lab Credits: (1)
- CHEM 3070 - Biochemistry I Credits: (3)
- NUTR 3070 - Advanced Food Science Credits: (3)
- NUTR 3040 - Nutrition Assessment Credits: (3)
- NUTR 4440 - Advanced Human Nutrition Credits: (3)
- NUTR 3220 - Foundations in Diet Therapy Credits: (3)

Electives (4 credit hours required, 4 Upper Division credits possible)

- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3500 - Biomechanics Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- ESS 3600 - Measurement and Statistics in Exercise Science Credits: (3)
- ESS 4370 - Clinical Exercise Physiology Credits: (3)
- NUTR 1120 - Nutrition for the Athlete Credits: (2)
- NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
- NUTR 4520 CRE - Directed Undergraduate Nutrition Research Credits: (1-4) (up to 6 credits allowed in degree)
- NUTR 4860 INT - Field Experience Credits: (1-2)
- PE 1080 - Strength Training, Level I Credits: (1)
- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)

- PEP 3400 - Sport Psychology for Coaches Credits: (3) or
- PSY 3010 - Abnormal Psychology Credits: (3) or
- RHS 3200 - Psychology of Sport, Injury & Rehabilitation Credits: (3)

- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- NUTR 4830 CRE - Directed Readings Credits: (1-3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- BTNY 3583 - Medicinal Plants-Chemistry and Use Credits: (4)
Additional Suggested Courses Needed for many Graduate Registered Dietitian programs (includes General Education)

ECON 1010 SS - Economics as a Social Science Credits: (3) or
ECON 2010 SS - Principles of Microeconomics Credits: (3) or
SOC 1010 SS/EDI - Introduction to Sociology Credits: (3) or
PSY 1010 SS - Introductory Psychology Credits: (3)

ENGL 2010 EN2 - Intermediate College Writing Credits: (3)
MATH 1040 QL - Introduction to Statistics Credits: (3)
MATH 1050 QL - College Algebra Credits: (4)
PHYS 1010 PS - Elementary Physics Credits: (3)
ZOOL 1020 LS - Human Biology Credits: (3)
Nutrition Education Minor

Program Prerequisite: Prior departmental approval is required.
Grade Requirements: A GPA of 2.5 or better in courses used toward the minor.
Credit Hour Requirements: A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).
Program Code: 5015
CIPC: 190504

Course Requirements for Minor

Required Core Courses (11 credit hours)

- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
- NUTR 3420 - Multicultural Health & Nutrition Credits: (3)
- NUTR 4320 - Current Issues in Nutrition Credits: (2)

Elective Courses (7 credit hours)

Select 7 credit hours from the following:

- NUTR 1120 - Nutrition for the Athlete Credits: (2)
- NUTR 1240 SUS - Nutrition and Sustainable Cooking Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 3220 - Foundations in Diet Therapy Credits: (3)
- NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
- NUTR 4520 CRE - Directed Undergraduate Nutrition Research Credits: (1-4)
- NUTR 4860 INT - Field Experience Credits: (1-2)
- NUTR 2020 - Nutrition in the Life Cycle Credits: (3)
- NUTR 4440 - Advanced Human Nutrition Credits: (3)
- NUTR 3040 - Nutrition Assessment Credits: (3)
- NUTR 3070 - Advanced Food Science Credits: (3)

Department of Child and Family Studies

Department Chair: Wei Qiu
Location: McKay Education Building, Room 204
Telephone Contact: Danielle Orozco 801-626-7151
Advisor: Darcy Gregg, 801-626-6411
Professors: Carrie Ota, Wei Qiu, Paul Schvaneveldt; Associate Professors: Mark Adams, Sheila Anderson, Teri Henke, Daniel Hubler; Assistant Professors: Alex Collopy, Charles Dunn, Keith Osai

The Department of Child and Family Studies offers a broad personal and professional education by providing majors in the following areas: Early Childhood (Bachelor's and Associate of Applied Science), Early Childhood Education, and Family Studies. Minors in Child Development and Family Studies are also offered. Child and Family Studies is also an area available for a Bachelor of Integrated Studies (BIS).
Learning is enhanced by the Melba S. Lehner Children's School where preschool laboratory experience is provided for practical application. Practical experience is built into all areas of study. Honors credit is available for students who desire greater depth. Preparation for graduate study can be pursued in any area represented in the department.

**Child and Family Studies Department Policies**

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

The Child and Family Studies Department will only accept two non-articulated transfer courses for the major/minor.

If a grade in a Child and Family Studies major/minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. The Retention & Referral Policy can be found at https://www.weber.edu/wsuiimages/chfam/CHF_Retention18.pdf.

All students with a major/minor in Child & Family Studies are strongly encouraged to contact the department academic advisor in McKay Education Building room 248 (801-626-6411) early in their academic career for advisement and declaration of a major and/or minor.

Students must undergo a background check and be fingerprinted for major and course requirements.

**Early Childhood Laboratory**

The Melba S. Lehner Children's School serves as an early childhood laboratory to give students practical experience in early childhood environments. Students must complete Child and Family Studies prerequisite major courses at a B- level or better and apply to the Director of the Melba S. Lehner Children's School two semesters prior to student teaching. Other practical experience can be arranged with a faculty advisor.

**Double Major**

**Early Childhood and Elementary Education**

Students wanting licensure in both Early Childhood Education and Elementary Education are encouraged to complete a double major. All course requirements must be completed for both majors, which include only one semester of student teaching EDUC 4840A INT - Student Teaching in Elementary Education and EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis. Students will complete the Early Childhood Education requirements. Please see the CHF department academic advisor for additional coursework and information.
Child and Family Studies (BIS)

**Grade Requirements:** An overall GPA of 2.00 or C in courses used toward the emphasis. Students will receive the final grade they have earned in each course. If a grade in a Child & Family Studies major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

**Credit Hour Requirements:** A minimum of 18 credit hours from Child and Family Studies to include 6 hours of required courses and 12 hours of electives. Two courses (6 credits) must be upper division (3000 level or above).

**Program Code:** 5054

**CIPC:** 190704

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

**Required Courses (6 credit hours)**

- CHF 1500 SS/EDI - Human Development Credits: (3) *
- CHF 2400 SS/EDI - Family Relations Credits: (3)

**Note:**

* If taken for Social Science general education credit, CHF course (3 credits) must be added.

**Electives (minimum 12 credit hours)**

Elective courses to be determined in conference with a department advisor.

* At least six credit hours must be upper-division (courses numbered 3000 and higher).

Child Development Minor

**Grade Requirements:** A grade of C or better in courses used toward the minor.

**Credit Hour Requirements:** A minimum of 18 credit hours, of which at least 6 must be upper division courses (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies Program or the Early Childhood/Early Childhood Education Programs, as appropriate, to graduate with the lower grade.

**Program Code:** 5001

**CIPC:** 190706

**Course Requirements for Minor**

**Required Courses (12 credit hours)**

- ECED 2500 - Development of the Child Credits: (3)
- ECED 2610 - Child Guidance Credits: (3) (lab required)
- ECED 3570 - Infants and Toddlers: Development and Practice Credits: (3)
- ECED 3500 - Young Children: Adversity and Resilience Credits: (3)
**Electives (6 credit hours)**

Select at least two courses from the following:

- CHF 2400 SS/EDI - Family Relations **Credits:** (3)
- ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children **Credits:** (2)
- ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children **Credits:** (2)
- ECED 2600 - Introduction to Early Childhood Education & Care **Credits:** (3)
- ECED 2620 - Planning Creative Experiences for Young Children **Credits:** (3) *(lab required)*
- ECED 3640 - Collaborating with Families of Young Children **Credits:** (3)
- ECED 2640 - Collaborating with Families of Young Children. **Credits:** (3)
- ECED 2670 - STEM in Early Childhood **Credits:** (3)
- ECED 4670 - STEM in Early Childhood **Credits:** (3)
- ECED 4130 - Language Development and Emergent Literacy in Early Childhood **Credits:** (3)
- ECED 4250 - Inclusive Early Childhood Intervention and Special Education **Credits:** (3)
- ECED 4260 - Inclusive Early Childhood Curriculum **Credits:** (3)
- ECED 4270 - Young Children's Play **Credits:** (3)
- ECED 4820 - Child Observation Seminar **Credits:** (1)
- FAM 3350 GLB - Diverse Families **Credits:** (3)

- FAM 4500 - Comparative Study of Childhood and Adolescent Development **Credits:** (3)
Early Childhood (AAS)

Program Prerequisite: Before beginning this program, a student must see the department advisor in McKay Education Building Room 248 (801-626-6411).

Grade Requirements: A cumulative GPA of 2.50 and a grade of B- or better in required major courses. Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Committee, as appropriate, to graduate with the lower grade.

Credit Hour Requirements: A total of 63 credit hours is required for graduation; 28 of these are required within the major.

Program Code: 5000AAS
CIPC: 190706

Advisement
Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements
Completed the program application. Meet with the department and faculty advisor. Declare your program of study (see Program of Study (Major/Minor) Declaration). Sign a Program of Study Contract with the Department of Child and Family Studies. Contact the department advisor, 801-626-6411.

General Education
Refer to Degree Requirements for Associate of Applied Science requirements. CHF 1500 will fulfill both a major and general education requirement and is prerequisite to most Child and Family Studies Department major courses. To fulfill the Math requirement, any Quantitative Literacy approved course will complete the requirement.

Program Learning Outcomes
1. Child Development and Learning in Context
   1a. Understanding of the development period of early childhood from birth through age 8 across developmental domains.
   1b. Understand each child as an individual with unique developmental variations.
   1c. Understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
   1d. Use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities.
2. Family-Teacher Partnerships and Community Connections.
   2a. Know about, understand, and value the diversity of families.
   2b. Collaborate as partners in families in young children's development and learning through respectful, reciprocal relationships and engagement.
   2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.
3. Child Observation, Documentation, and Assessment.
   3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
   3b. Use screening and assessment tools in ways that are ethically grounded and developmentally, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child.
   3c. Build assessment partnerships with families and professional colleagues.
   4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
4b. Understand use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.

4c. Use of a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.

5. Integration of Academic Content in the Early Childhood Curriculum

5a. Understand content knowledge - the central concepts, methods and tools of inquiry, and structure - and resources for the academic disciplines.

5b. Understand pedagogical content knowledge - how young children learn in each discipline - and how to use the teacher knowledge and practices described in standards 1 through 4 to support young children's learning in each content area.

6. Professionalism as an Early Childhood Educator

6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.

6b. Know about and uphold ethical and other early childhood professional guidelines.

6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.

6d. Engage in continuous, collaborative learning to inform practice.

6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements for AAS Degree

Child & Family Studies Courses Required (minimum of 31 credit hours)

- CHF 1500 SS/EDI - Human Development Credits: (3)
- CHF 2400 SS/EDI - Family Relations Credits: (3)
- ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2)
- ECED 2500 - Development of the Child Credits: (3)
- ECED 2600 - Introduction to Early Childhood Education & Care Credits: (3)
- ECED 2620 - Planning Creative Experiences for Young Children Credits: (3)
- ECED 2640 - Collaborating with Families of Young Children. Credits: (3)
- ECED 2670 - STEM in Early Childhood Credits: (3)
- ECED 2690 - Child Guidance Credits: (3)
- ECED 2860 INT - Practicum Credits: (1-6) (3 credits)
- ECED 2890 INT - Internship in Early Childhood Credits: (1-6) (3 credits)
- ECED 2990A - Seminar in Early Childhood Education Credits: (1) (3 credits) Should be taken in the last semester of the program.

Electives (minimum 13 credit hours)

Select 13 additional credit hours with the approval of an advisor. Seek additional depth in Child and Family Studies and also select courses from across campus to enhance teaching competency in the areas of Art, Science, Literature, Music, Health & First Aid, etc.

Advisors will suggest specific appropriate courses. Students should work closely with an advisor if they are planning to go on for a future Early Childhood baccalaureate or a teaching certificate.
Early Childhood (BS)

The Department of Child and Family Studies offers a B.S. major in Early Childhood (EC) that is accredited by the Commission on the Accreditation of Early Childhood Higher Education Programs of the National Association for the Education of Young Children. Students preparing to work in childhood programs or agencies serving young children that do not require a teaching certificate graduate with a major in Early Childhood. Students who wish to obtain certification to teach in kindergarten through 3rd grade graduate with a major in Early Childhood Education.

**Program Prerequisite:** Not required.

**Minor:** Required. In lieu of a minor, a specialization of 15 credit hours may be substituted as approved by the advisor. Six of these hours must be upper division (courses numbered 3000 or above).

**Grade Requirements:** Early Childhood students must meet minimum major course grade requirements and maintain a cumulative GPA of 2.50 or higher for all college courses. Students must receive a grade of B- or better in each major course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Program, as appropriate, to graduate with the lower grade.

**Credit Hour Requirements:** A minimum of 120 credit hours is required for a bachelor degree; 65 of these are required within the major. A minimum of 40 credit hours must be upper division (courses numbered 3000 and above); 36 of these are required within the major core courses.

**Program Code:** 5000BS

**CIPC:** 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building, Room 248 (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Families Studies Advising.

Admission Requirements

Contact the Child and Family Studies Department Academic Advisor located in the McKay Education Building, Room 248 (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Family Studies Advising.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Declaring Your Major or Minor under Child and Family Studies Admissions). Sign a Program of Study Contract with the Department of Child and Family Studies. Contact the department advisor, 801-626-6411, Child and Family Studies Advising.

To complete ECED 4720 Early Childhood Education Student Teaching Pre-K in the Melba S. Lehner Children's School, students must submit an Early Childhood Student Teaching Application and obtain paperwork including clearance of criminal background and CPR/First Aid and Food Handling certifications. Look for more information on Early Childhood On-Campus Field Experience.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. CHF 1500 will satisfy a general education requirement and is prerequisite to most major courses. GEOG 1300 is recommended.

Program Learning Outcomes

1. Child Development and Learning in Context
   1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
   1b. Understand each child as an individual with unique developmental variations.
1c. understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
1d. use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities

2. Family-Teacher Partnerships and Community Connections.
2a. Know about, understand, and value the diversity of families.
2b. Collaborate as partners with families in young children's development and learning through respectful, reciprocal relationships and engagement.
2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.

3. Child Observation, Documentation, and Assessment.
3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.
3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child. 3d: Build assessment partnerships with families and professional colleagues.

4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices
4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.

5. Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum
5a. Understand content knowledge- the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
5b. Understand pedagogical content knowledge-how young children learn in each discipline-and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.

6. Professionalism as an Early Childhood Educator
6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
6b. Know about and uphold ethical and other early childhood professional guidelines.
6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
6d. Engage in continuous, collaborative learning to inform practice.
6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements for BS Degree

Pre-Core Course Required (6 credits)

CHF 1500 SS/EDI - Human Development Credits: (3) (Satisfies General Education Requirement.)
CHF 2400 SS/EDI - Family Relations Credits: (3)

Core Courses Required (50 credits/36 upper division)

ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2) or
ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children Credits: (2)

ECED 2500 - Development of the Child Credits: (3)
ECED 2600 - Introduction to Early Childhood Education & Care Credits: (3)

(2 credits with ECED 4720)
Early Childhood Education (BS)

The Department of Child and Family Studies offers a B.S. major in Early Childhood Education (ECE) that is accredited by the Commission on the Accreditation of Early Childhood Higher Education Programs of the National Association for the Education of Young Children. Students completing the major are eligible to receive the Utah Educator License in the Early Childhood Area to teach Kindergarten through 3rd Grade. Students preparing to teach in a K-3 classroom of a public or private school, in a Pre-K early education setting including child care centers, Head Start, or family and home-based child care, graduate with a major in Early Childhood Education.

Program Prerequisite: Provisional admission to the ECE Program (see the admission requirements described under Child and Family Studies Admissions).

Minor: Required. In lieu of a minor, a specialization of 12 credit hours may be substituted as approved by the faculty advisor.

Grade Requirements: Early Childhood Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work and at least a "B-" grade in each ECE major required course to continue in the program. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. If the student retakes a course, the student will receive the grade earned in the second course attempt. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood Education Program, as appropriate, to graduate with the lower grade. Early Childhood Education majors must also achieve at least a "C" grade in CHF 1500 SS/EDI, MATH 2010, MATH 2015, and MATH 2020 QL.

Credit Hour Requirements: A minimum of 120 credit hours is required for a bachelor's degree; 65 of these are required within the major.

Program Code: 5002BS
CIPC: 131210

Program Learning Outcomes

1. Child Development and Learning in Context
   1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
   1b. Understand each child as an individual with unique developmental variations.
   1c. understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
   1d. use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities

2. Family-Teacher Partnerships and Community Connections.
   2a. Know about, understand, and value the diversity of families.
   2b. Collaborate as partners with families in young children's development and learning through respectful, reciprocal relationships and engagement.
   2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.

3. Child Observation, Documentation, and Assessment.
   3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
   3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.
   3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child. 3d: Build assessment partnerships with families and professional colleagues.

4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices
   4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
   4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
   4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.

5. Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum
5a. Understand content knowledge—the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
5b. Understand pedagogical content knowledge—how young children learn in each discipline—and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.

6. Professionalism as an Early Childhood Educator

6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
6b. Know about and uphold ethical and other early childhood professional guidelines.
6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
6d. Engage in continuous, collaborative learning to inform practice.
6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Admission Requirements
Declare your program of study (see Program of Study (Major/Minor) Declaration). Early Childhood Education majors must meet the Early Childhood Education admission and licensure requirements (see the admission requirements under Child and Family Studies Admissions). The minimum GPA requirement is 2.75 or 3.0 in the last 30 credit hours (see Teacher Education Application).

General Education

I. University and General Education Requirements
Refer to Degree Requirements for Bachelor of Science requirements. Following the suggested guidelines below will assure that both University General Education Requirements (34-41 credits) and Early Childhood Education requirements are met.
Students are required to take CORE courses in Composition, Quantitative Literacy, American Institutions, Information Literacy and Diversity (~10-17 credits) and BREADTH courses in Creative Arts and Humanities (9 credits), Physical and Life Sciences (9 credits), and Social Sciences (6 credits).
Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group.
The following courses required for the Early Childhood Education major will also satisfy general education requirements: COMM 1020 HU or COMM 2110 HU CEL, GEOG 1300 SUS/SS/DV, MATH 2010 QL, and CHF 1500 SS/EDI. Meeting the general education science requirements may not meet education science requirements.

Major Course Requirements for BS Degree resulting in a K-3 License

II. Support Courses Required (24-25 credit hours)

CHF 1500 SS/EDI - Human Development Credits: (3) *
EDUC 1010 CEL - Exploring Teaching Credits: (3)

COMM 1020 HU - Principles of Public Speaking Credits: (3) or *
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3) *

GEOG 1300 SUS/EDI - Global Issues: Places, People and the Planet Credits: (3) *
MATH 2010 - Arithmetic for Elementary Teachers Credits: (3)
MATH 2015 - Algebra for Elementary Teachers Credits: (3)
MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) *

* Also fulfills the General Education requirements.
At least one course from the following:

- ART 1030 CA - Studio Art for the Non-Art Major Credits: (3)
- EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
- DANC 3640 INT - Elementary Dance Pedagogy Credits: (3)
- MUSC 3824 - Music for Elementary Teachers Credits: (4)
- THEA 4603 - Creative Drama Credits: (3)

III. Major Core Courses Required (65 credit hours within major/53 upper division)

The course blocks suggested below are designed to include all ECED and Teacher Education levels courses required for the Early Childhood Education BS major without conflicting class schedules. Taking classes outside of the stated sequence might delay graduation.

ECE Pre-Block Courses (12 credits)

- ECED 2500 - Development of the Child Credits: (3)
- ECED 2600 - Introduction to Early Childhood Education & Care Credits: (3)
- ECED 2610 - Child Guidance Credits: (3)
- ECED 2620 - Planning Creative Experiences for Young Children Credits: (3)

Note: Apply to the WSU Teacher Education Program. Admission to the TED Program is required prior to enrollment in Teacher Education level courses.

ECE Block 1 (Fall) (15 credits)

- ECED 3500 - Young Children: Adversity and Resilience Credits: (3)
- ECED 4670 - STEM in Early Childhood Credits: (3)
- ECED 4861 - Practicum in K-3 Credits: (1-3)
- EDUC 3115 - Media Integration in Elementary Education Settings Credits: (2)
- EDUC 3120 - Reading Instruction in the Primary Grades Credits: (3)
- EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching Credits: (3)

ECE Block 2 (Spring) (16 credits)

- ECED 4260 - Inclusive Early Childhood Curriculum Credits: (3)
- ECED 4861 - Practicum in K-3 Credits: (1-3)
- EDUC 3240 - Reading Instruction in the Intermediate Grades Credits: (3)
- EDUC 4345 - Elementary Integrated Arts Methods Credits: (3)
- EDUC 4350 - Elementary Mathematics Pedagogy Credits: (2)
- PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers Credits: (3)

Note: Apply for K-3 Student Teaching the semester prior to enrollment in ECED 4721.

ECE Block 3 (Fall) (15 credits)

- ECED 3640 - Collaborating with Families of Young Children Credits: (3)
- ECED 4230 - Observing and Assessing Children in Context Credits: (3)
- ECED 4710 - Advanced Guidance and Planning for Early Childhood Education Credits: (1-3)
- ECED 4720 INT - Student Teaching Birth-5 Credits: (6)
ECE Block 4 (Spring) (7 credits)

ECED 4721 - Student Teaching K-3 Credits: (3)
ECED 4820 - Child Observation Seminar Credits: (1) *
ECED 4990 - Seminar in Early Childhood Education Credits: (3)

* Taken concurrently with ECED 4721 or other early childhood field experience. Can be repeatable for additional credits as needed.

IV. Major Elective Courses (12 credits)

Students are required to take at least 12 credit hours of elective courses approved by their faculty advisors. Courses that lead to additional degrees, minors, specializations, endorsements, certificates, etc. for stackable credentials are recommended. See ECE program page.
Family Studies (BS)

Program Prerequisite: (1) Complete the Pre-professional Core courses listed in the next column under Major Course Requirements; (2) Declare your Family Studies major with the department academic advisor; (3) Complete a background check and clearance (see Policy Notes).

Minor: A minor is required.* Optional: In lieu of a minor, a specialization of 12-18 semester hours may be substituted as approved by the department advisor. Six of these hours must be upper division (courses numbered 3000 and above).

Grade Requirements: A grade of C or better in courses required for this major (a grade of C- is not acceptable). Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. Also refer to the grade requirements for graduation under General Requirements.

Credit Hour Requirements: A total of at least 120 credit hours is required for graduation; a minimum of 48 of these must be within the major. A total of 40 upper division credit hours is required by the University (courses numbered 3000 and above); 33 of these are required within the major.

Program Code: 5003BS
CIPC: 190704

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in McKay Education Building, Room 248 (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). To be eligible for acceptance into and graduation from the Family Studies Program a candidate must:

- Complete all of the Pre-professional Core courses listed under Course Requirements.
- Declare the Family Studies major with the department academic advisor.
- Complete a background check and clearance (see Policy Notes).

Policy Notes

Since students majoring in Family Studies will be working with families and children, the State of Utah requires a background check and clearance. Applicants must be fingerprinted and complete a background check before being fully accepted into the program. A handout available from the department secretary explains the procedure and nominal expenses. Background checks require up to eight weeks and should be completed, or in progress, at the time Family Studies Program courses are begun. See the department secretary for further details.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

* Family Studies students may combine their major with either a minor or a dual major. Consult with an advisor when designing a dual major. Minors may be selected from department minor offerings across campus. Typical minors include Psychology, Sociology, Gerontology, Social Work, Communications, and/or Business. A minor should be designed to best support personal goals or career directions.

The Family Studies program fulfills the requirements for provisional certification as a Family Life Educator, available by application and paid fee to the National Council on Family Relations. Full certification requires two years of paid professional experience in addition to the Family Studies degree. Provisional certification allows five years to complete the two-year requirement.

Program Learning Outcomes

Families and Individuals in Societal Contexts: An understanding of families and their relationships to other institutions, such as the educational, governmental, religious, health care, and occupational institutions in society.
Internal Dynamics of Families: An understanding of family strengths and weaknesses and how family members relate to and interact with each other.

Human Growth and Development Across Lifespan: An understanding of the development changes (both typical and atypical) of individuals in families across the lifespan. Based in knowledge if physical, emotional, cognitive, social, moral, and personality aspects.

Human Sexuality Across the Lifespan: An understanding of the physiological, psychological, and social aspects of sexual development across the lifespan, to achieve healthy sexual adjustment.

Interpersonal Relationships: An understanding of the development, maintenance, and dissolution of interpersonal relationship among friends, roommates, coworkers, neighbors, as well as family members.

Family Resource Management: An understanding of the decisions individuals and families make about developing and allocating resources including money, time, energy, space, material, and health assets, and networks of support to meet their goals.

Parenting Education and Guidance: An understanding of how parents teach, guide, and influence children and adolescents, as well as the changing nature, dynamics and needs of the parent-child relationship across the lifespan.

Family Law and Public Policy: An understanding of legal issues, policies, and laws influencing the well-being of families.

Professional Ethics and Practice: An understanding of the character and quality of human social conduct, and the ability to critically examine ethical questions and issues as they relate to professional practice.

Family Life Education Methodology: An understanding of the general philosophy and broad principles of Family Life Education in conjunction with the ability to plan, implement, assess, and evaluate such educational programs.

Major Course Requirements for BS Degree

Pre-professional Core Course Requirements (12 credit hours)

- FAM 1400 - Marriage and Romantic Relationships Credits: (3)
- CHF 1500 SS/EDI - Human Development Credits: (3)
- FAM 2100 - Family Resource Management Credits: (3)
- CHF 2400 SS/EDI - Family Relations Credits: (3)

Family Studies Professional Core Block Courses Required (36 semester hours)

The course sequence is designed to allow a Family Studies major to meet all program prerequisites and complete the program in three full-time semesters without conflicting class schedules. Taking classes outside of the stated semesters will delay graduation.

Block Courses Semester 1

- FAM 2990B - Seminar in Family Studies Credits: (3)
- FAM 3850 CRE - Current Research Methods in Child and Family Studies Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)
- FAM Elective Course 1--(Choose one of the electives listed below.) Credits: (3)

Block Courses Semester 2

- FAM 3350 GLB - Diverse Families Credits: (3)
- FAM 3550 - Parenting Education Credits: (3)
- FAM Elective Course 2--(Choose one of the electives listed below.) Credits: (3)
- FAM Elective Course 3--(Choose one of the electives listed below.) Credits: (3)

Block Courses Semester 3

- FAM 4650 - Family Life Education Methods Credits: (3)
- FAM 4860 INT - Practicum Credits: (1-6) (3 credit hours required)
FAM 4990B - Senior Seminar in Family Studies Credits: (3)
FAM Elective Course 4--(Choose one of the electives listed below.) Credits: (3)

Elective Courses (You may choose four of the following courses for a total of 12 credit hours required for this major degree)

FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
FAM 3400 - Development in Middle Adulthood Credits: (3)
FAM 3450 - Adult Development Credits: (3)
FAM 3650 - Family Processes Credits: (3)
FAM 3660 - LGBTQ Families Credits: (3)
FAM 3700 - Family Life Education and Sexuality Credits: (3)
FAM 3820 - Organization and Leadership of Non-profit Family Services Credits: (3)
FAM 4275 - Family Life Education Coaching Credits: (3)
FAM 4300 - Latino Child and Family Development Credits: (3)
FAM 4310 - Understanding the Modern United States Military Family Credits: (3)
FAM 4350 - Religiosity and Family Life Education Credits: (3)
FAM 4400 - The Family in Stress Credits: (3)
FAM 4450 - Children and Families in the Medical Setting Credits: (3)
FAM 4500 - Comparative Study of Childhood and Adolescent Development Credits: (3)
FAM 4660 - Advanced Skills for Family Life Educators Credits: (3)

Note:

Students who are planning to apply to a graduate program are strongly encouraged to take a statistics course. See the Department of Child and Family Studies academic advisor for a list of appropriate classes.
Family Studies Minor

Grade Requirements: An overall GPA of 2.00 or C in courses used toward the minor.

Credit Hour Requirements: Minimum of 18 credit hours, of which at least 6 must be upper division (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.

Program Code: 5003
CIPC: 190704

Course Requirements for Minor

Required Courses (9 credit hours)

FAM 1400 - Marriage and Romantic Relationships Credits: (3)
CHF 1500 SS/EDI - Human Development Credits: (3)
CHF 2400 SS/EDI - Family Relations Credits: (3)

Faculty Advisor Approved Elective Courses (9 credit hours)

Select 9 credit hours from the following with at least 6 credit hours of upper-division (courses numbered 3000 and higher)

FAM 2100 - Family Resource Management Credits: (3)
ECED 2500 - Development of the Child Credits: (3)
ECED 2610 - Child Guidance Credits: (3)
FAM 3150 - Consumer Rights and Responsibilities Credits: (3)
FAM 3350 GLB - Diverse Families Credits: (3)
FAM 3450 - Adult Development Credits: (3)
ECED 3500 - Young Children: Adversity and Resilience Credits: (3)
FAM 3550 - Parenting Education Credits: (3)
ECED 3640 - Collaborating with Families of Young Children Credits: (3)
FAM 3650 - Family Processes Credits: (3)
FAM 3850 CRE - Current Research Methods in Child and Family Studies Credits: (3)
FAM 4300 - Latino Child and Family Development Credits: (3)
FAM 4400 - The Family in Stress Credits: (3)
FAM 4500 - Comparative Study of Childhood and Adolescent Development Credits: (3)
FAM 4650 - Family Life Education Methods Credits: (3)
Department of Health, Physical Education, and Recreation

Department Chair: Dr. Ryan Zimmerman  
Location: Reed K. Swenson Building, Room 307B  
Telephone Contact: Marcia Kawa 801-626-6691  
Professors: Chris Eisenbarth, Michael Olpin, James Zagrodnik; Associate Professors: Cass Griffith, Eddie Hill, Chad Smith, Ryan Zimmerman; Assistant Professors: Mandy King, Linnette Wong; Instructors: Christina Aguilar, Jonathan Griffith, Jeffery Kurt Ward

The Department of Health, Physical Education, and Recreation (HPER) in the Jerry and Vickie Moyes College of Education offers programs that promote lifelong wellness from a variety of disciplines. The teaching environment, supported by faculty with diverse expertise, creates quality learning communities that offer undergraduates exceptional educational experiences. The state-of-the-art facilities - including 6-lane swimming pool, ample indoor and outdoor recreational, fitness, sport and activity areas, and indoor climbing wall - provide an outstanding arena for student instruction. With a curriculum designed to develop professional knowledge and skills, graduates from the department are prepared to work in a variety of educational, health and recreational settings.

Through instruction, scholarship and service, the department of Health, Physical Education, and Recreation offers Bachelor of Science degrees in health promotion, outdoor and community recreation, and physical education. Minors include coaching sport, health promotion and health promotion teaching, physical education/coaching, and recreation. In addition, the department offers undergraduate and graduate programs for the department of teacher education, the master of education program, and supports Weber State University and community wellness related activities.

The department also supports the efforts of under graduates seeking the bachelor of integrated studies degree, offering health promotion, physical education/coaching, and recreation/leisure services as emphases for the BIS Program.

Mission Statement

The Department of Health, Physical Education, and Recreation inspires future professionals by providing high quality education through an innovative, engaged learning experience.

Health Promotion (BIS)

Bachelor of Integrated Studies

Grade Requirements: A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.

Credit Hour Requirements: The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.
Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

- Community Health Promotion
- Occupational Health Education
- Clinical Health Education (See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions)
- Family Life Health Promotion
- Gerontological Health Promotion
- Drug Abuse Prevention Education

Nutrition Emphasis

- Dietary Analysis
- Dietary Prescription
- Nutrition Education
- Weight Management
- Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

- Coaching Sport
- Corporate Fitness
- Community Fitness
- Sports Medicine
- Sport Communication
- Commercial/Facility Management
- Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

Interdisciplinary Work-Made multiple connections across three academic disciplines.
High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
Analysis and Reflection-Provided analyses/results/conclusions/ reflections from the Capstone experience.
Academic speaking and writing—Used effective oral and written English-language skills
Post-Graduate Planning—Planned for careers and/or graduate programs.

Health Promotion Emphasis

21 Credit Hours Total Required

Required Courses (13 credits)

HLTH 1030 SS - Healthy Lifestyles Credits: (3) * OL
HLTH 3000 - Foundations of Health Promotion Credits: (3) ** OL
HLTH 4013 - Health Promotion Research and Assessment Credits: (3) *** OL
HLTH 4150 - Needs Assessment & Planning Health Promotion Programs Credits: (4) *** OL

Elective Courses (8-9 credits)

HLTH 1110 - Stress Management Credits: (3) OL & IS
HLTH 2400 - Mind/Body Wellness Credits: (3)
HLTH 2700 - Consumer Health Credits: (3) OL
HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
PUBH 3150 - Introduction to Public Health Credits: (3) IS
HLTH 3160 - Principles of Health Behavior Credits: (3)
HLTH 3200 - Methods in Health Education Credits: (3) ***
HLTH 3400 - Substance Abuse Prevention Credits: (3) OL
HLTH 3500 - Human Sexuality Credits: (3) OL
HLTH 4250 - Contemporary Health Issues of Adolescents Credits: (2) OL
HLTH 4700 - Wellness Coaching Credits: (3)

Notes:

OL = Online option available some semesters
IS = Independent Study option available some semesters

*If this pre-requisite course is used to fulfill the Social Science General Education requirement, the three credit hours cannot be counted in the BIS Health Promotion emphasis 21 credit hour requirements.

**This course can be taken after completing the HLTH 1030 pre-requisite.

***This course can be taken after completing the HLTH 1030 and HLTH 3000 pre-requisite.
Health Promotion (BS)

**Program Prerequisite:** Acceptance into the program (see Admission Requirements below).

**Minor:** Not Required.

**Grade Requirement:** A grade of "C" or better in all major coursework, in addition to a minimum cumulative GPA of 2.50.

**Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 53-55 of these are required within the major. A total of 40 upper division credit hours is required (courses number 3000 and above); a minimum of 37 of these is required within the major.

**Program Code:** 5013BS

**CIPC:** 512207

**Advisement**

The Academic Advisor for the Department of Health, Physical Education, and Recreation (HPER), Brittni Strickland, assists HPER students with advisement prior to admission to the Health Promotion program, and through completion of their program of study. Brittni can be contacted by phone (801-626-7425), email (BrittniStrickland@weber.edu) or online (through the Department Advisor Referral List) for more information or to schedule an appointment. Students also are encouraged to meet with program faculty for additional course and program advisement.

**Admission Requirements**

Before a student can be considered for the Health Promotion program, the following application requirements must be met:

- Admission to Weber State University.
- Completion of 25 credit hours with a minimum 2.50 Weber State University GPA. Of these 25 credits, the students must demonstrate completion of: HLTH 1030, and, HTHS 1110 or ZOOL 1020.
- Grade "C" or better in all major coursework.
- Declare your program of study with the HPER Academic Advisor.

**Retention Requirements**

After students are selected into the Health Promotion major, retention in the program will be based on the following criteria:

- Grade "C" or better in all major coursework.
- Students must maintain a GPA of 2.5 or higher in all courses required for this major.

Students who fail to meet the retention criteria will be placed on probation in the Health Promotion major for one semester. If standards are not met by the end of the probationary period, the student may be dismissed from the major at the discretion of the Program Director.

Students who receive any grade below a "C" in a course counting toward the Health Promotion major must repeat that course and receive a grade of "C" or higher to remain in the major.

Failure to repeat the course (when offered) will result in dismissal from the program at the discretion of the Program Director.

**General Education**

Refer to Degree Requirements for Bachelor of Science requirements.

Graduates of the program are eligible to sit for the Certified Health Education Specialist (CHES) examination with a minimum of 25 semester hours in health courses.

**Program Learning Outcomes**

**Responsibilities**

- Assess needs, resources, and capacity for health education/promotion
- Plan health education/promotion
- Implement health education promotion
- Conduct evaluation and research related to health education/promotion
Administer and manage health education/promotion
Serve as a health education/promotion resource person
Communicate, promote, and advocate for health, health education/promotion, and the profession.

Standards
Students will comprehend concepts related to health promotion and disease prevention to enhance health.
Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.
Students will demonstrate the ability to access valid information, products, and services to enhance health.
Students will demonstrate the ability to use interpersonal communication skills to enhance health or reduce health risks.
Students will demonstrate the ability to use decision-making skills to enhance health.
Students will demonstrate the ability to use goal-setting skills to enhance health.
Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.
Students will demonstrate the ability to advocate for personal, family, and community health.

Major Course Requirements for BS Degree

Prerequisite Courses Required (6-7 credit hours)

HLTH 1030 SS - Healthy Lifestyles Credits: (3)

HTHS 1110 LS - Integrated Human Anatomy and Physiology I Credits: (4) or
ZOOL 1020 LS - Human Biology Credits: (3)

Courses Required (35 credit hours)

HLTH 3000 - Foundations of Health Promotion Credits: (3)
HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
HLTH 3200 - Methods in Health Education Credits: (3) *
HLTH 4013 - Health Promotion Research and Assessment Credits: (3)
HLTH 4150 - Needs Assessment & Planning Health Promotion Programs Credits: (4)
HLTH 4860 INT - Field Experience Credits: (1-6) (3 credit hours required)
HLTH 4990 - Senior Seminar Credits: (1)
HAS 3000 - The Healthcare System Credits: (3)
PUBH 3150 - Introduction to Public Health Credits: (3)

HAS 3190 - Cultural Diversity in Patient Education Credits: (3) or
NUTR 3420 - Multicultural Health & Nutrition Credits: (3)

HAS 3230 - Health Communication Credits: (3)
PUBH 3200 - Epidemiology and Biostatistics Credits: (3)

Professional Block

Minimum of 9 credit hours, must be approved by advisor. These courses may also be used as electives.

HLTH 2400 - Mind/Body Wellness Credits: (3)
HLTH 2700 - Consumer Health Credits: (3)
HLTH 3160 - Principles of Health Behavior Credits: (3)
HLTH 4700 - Wellness Coaching Credits: (3)
HAS 3020 - Healthcare Marketing Credits: (3)
HAS 3260 - Healthcare Leadership and Management Credits: (3)
HAS 4320 - Healthcare Economics and Policy Credits: (3)
Elective Courses (15 credit hours)

RHS 3600 - Ergonomics for Health and Safety Credits: (2)
HLTH 1110 - Stress Management Credits: (3)
RHS 1300 - First Aid: Responding to Emergencies Credits: (2)
RHS 2300 - Emergency Response Credits: (3)
HLTH 3050 - School Health Program Credits: (3)
HLTH 3400 - Substance Abuse Prevention Credits: (3)
HLTH 3500 - Human Sexuality Credits: (3)
HLTH 4220 - Women's Health Issues Credits: (3)
HLTH 4250 - Contemporary Health Issues of Adolescents Credits: (2)
NUTR 3320 - Health and Nutrition in the Older Adult Credits: (3)
HLTH 4800 - Individual Projects Credits: (1-3)
HLTH 4860 INT - Field Experience Credits: (1-6) (3 credit hours required)
HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6) (1 credit hour required)
NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
HAS 3240 - Human Resource Development in Healthcare Credits: (3)
HAS 4400 - Legal and Ethical Aspects of Health Administration Credits: (3)
HAS 4410 - Clinical Instructional Design and Evaluation Credits: (3) *
HAS 4420 - Clinical Instructional Skills Credits: (3)
PBH 4500 - Grant Writing Credits: (2)
HTHS 1101 - Medical Terminology Credits: (2)
HTHS 2230 - Introductory Pathophysiology Credits: (3)
GERT 3000 - Death and Dying Credits: (3)
NUTR 2320 - Food Values, Diet Design and Health Credits: (3)
NUTR 4420 - Nutrition and Fitness Credits: (3)
OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services Credits: (3)
ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)

Note:

*HAS 4410 may be substituted for HLTH 3200.
Health Promotion Teaching Minor

**Grade Requirements:** A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.

**Credit Hours Requirements:** Minimum of 21 credit hours.

**Program Code:** 5016

**CIPC:** 131307

Courses Required for Minors Seeking Teaching Certification

*Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.*

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits:** (3)
- HLTH 1030 SS - Healthy Lifestyles **Credits:** (3)

- HLTH 1110 - Stress Management **Credits:** (3) or
- HLTH 2400 - Mind/Body Wellness **Credits:** (3)

- HLTH 3000 - Foundations of Health Promotion **Credits:** (3)
- HLTH 3200 - Methods in Health Education **Credits:** (3)
- HLTH 3400 - Substance Abuse Prevention **Credits:** (3)
- HLTH 3500 - Human Sexuality **Credits:** (3)

**Notes:**

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking RHS 1300 - First Aid: Responding to Emergencies (2), RHS 2175 - Introduction to Sports Medicine (3) (through concurrent enrollment), or RHS 2300 - Emergency Response (3).

*Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course. A teaching major and the Teaching Education Professional knowledge courses are required for teacher certification. Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. The minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.*
Health Promotion: (Community, Worksite, Clinical, School) Minor

Grade Requirements: A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.

Credit Hours Requirements: Minimum of 22 credit hours.

Program Code: 5013
CIPC: 512207

Required Courses (13 credit hours)

- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 4013 - Health Promotion Research and Assessment Credits: (3)
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs Credits: (4)

Electives

Select 9 credit hours from the following

- HLTH 1110 - Stress Management Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 2700 - Consumer Health Credits: (3)
- HLTH 3100 - Applications of Technology in Health Promotion Credits: (3)
- HLTH 3160 - Principles of Health Behavior Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3)
- HLTH 3400 - Substance Abuse Prevention Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)
- HLTH 4220 - Women's Health Issues Credits: (3)
- HLTH 4250 - Contemporary Health Issues of Adolescents Credits: (2)
- HLTH 4800 - Individual Projects Credits: (1-3)
- HLTH 4860 INT - Field Experience Credits: (1-6)
- HLTH 2890 INT - Cooperative Work Experience Credits: (1-6)
- HLTH 4890 INT - Cooperative Work Experience Credits: (1-6)
- HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs Credits: (1-6)

Courses Required for Minors Seeking Teaching Certification

Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.

- NUTR 1020 LS SUS - Science and Application of Human Nutrition Credits: (3)
- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- HLTH 1110 - Stress Management Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- HLTH 3000 - Foundations of Health Promotion Credits: (3)
- HLTH 3200 - Methods in Health Education Credits: (3)
- HLTH 3400 - Substance Abuse Prevention Credits: (3)
- HLTH 3500 - Human Sexuality Credits: (3)
Notes:

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking RHS 1300 - First Aid: Responding to Emergencies (2 credits), RHS 2175 - Introduction to Sports Medicine (through concurrent enrollment), or RHS 2300 - Emergency Response (3 credits).

*Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course.*

A teaching major and the Teaching Education Professional Knowledge courses are required for teacher certification.

*Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. This minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.*
Outdoor and Community Recreation Education (BS)

Program Prerequisite: Not required.
Minor: Not required.
Grade Requirements: A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
Credit Hour Requirements: A total of 120 credit hours is required for graduation; a total of 62 credit hours for this major.
Nine to 10 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required with 36-39 upper division hours possible within the required courses for this major.
Program Code: 5046BS with Emphasis 5047 (Outdoor Recreation Administration) or 5048 (Community Recreation Administration) or 5055 (Outdoor Recreation Entrepreneurship)
CIPC: 310601

Advisement
All Outdoor and Community Recreation Education students are encouraged to meet with a faculty advisor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment.

Admission Requirements
Declare your program of study (see Enrollment Services and Information) with the program advisor. There are no special admission or application requirements.

General Education
Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes
Outcome 1: Comprehend/Recognize the historical, philosophical, and theoretical foundations within recreation services.
Outcome 2: Identify and analyze contemporary professional issues and trends impacting recreation programs and services.
Outcome 3: Assess elements of personal style, prejudices, projections, and habits of mind that both shape and impede opportunities for professional, personal and group growth.
Outcome 4: Articulate a personal philosophy of recreation that defines how the student plans to provide recreation services.
Outcome 5: Apply theory and field techniques to assess, design and evaluate outcome-based programs that address a range of relevant personal, social, economic, and/or environmental objectives.
Outcome 6: Develop, practice and demonstrate effective technical, facilitation, teaching and risk management skills across a range of recreation experiences.
Outcome 7: Investigate and practice essential administrative functions necessary to conduct effective and ethical recreation programs.
Outcome 8: Identify and apply relevant local, state, and federal legislation and regulations, along with industry standards, to management practices necessary within recreation programs.

Major Requirements for BS Degree

Required Core Courses (42 credit hours)

OCRE 2500 - Introduction to Outdoor Pursuits Credits: (4)
OCRE 2890 INT - Cooperative Work Experience Credits: (1-9) 2 credits are required
OCRE 3050 - Recreation and Leisure in Society Credits: (3)
OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
OCRE 3300 - Inclusive and Adaptive Recreation Credits: (3)
OCRE 3320 - Adventure Programming Credits: (3)
OCRE 3520 - Risk Management and Legal Issues in Recreation Services Credits: (3)
OCRE 3600 - Administration and Management of Outdoor and Community Recreation Services Credits: (3)
ESS 3600 - Measurement and Statistics in Exercise Science Credits: (3)
OCRE 4300 - Trends and Ethical Issues in Recreation Services Credits: (3)
OCRE 4890 INT - Cooperative Work Experience Credits: (1-6) 6 credits are required
COMM 2250 HU - Essentials of Digital Media Credits: (3)
MIS 2010 - Business Computer Skills Credits: (1)

2 Elective credit hours from REC
Select 2 credit hours from courses with a REC prefix. Any REC courses will fulfill this requirement.

Professional Areas of Emphasis

A student must complete the required and support courses in one of the three emphases: Outdoor Recreation Administration, Community Recreation Administration, or Outdoor Recreation Entrepreneurship.

Outdoor Recreation Administration Emphasis

Required Courses (15 credit hours)

- OCRE 2300 - Wilderness Medicine Credits: (3)
- OCRE 3400 - Outdoor Equipment Production and Retailing Credits: (3)
- OCRE 3450 - Adventure Travel and Sustainable Tourism Credits: (3)
- OCRE 4020 - Nature Interpretation Credits: (3)
- OCRE 4550 - Outdoor Education Philosophies & Principles Credits: (3)

Community Recreation Administration Emphasis

Required Courses (18 credit hours)

- OCRE 3500 - Community Recreation and Park Planning Credits: (3)
- OCRE 3700 - Recreation and Sports Facilities and Events Management Credits: (3)
- OCRE 4000 - Recreation Programming for Youth Development Credits: (3)
- OCRE 4500 - Grant and Proposal Writing for Recreation Professionals Credits: (3)
- ACTG 2010 - Survey of Accounting I Credits: (3)
- ACTG 2020 - Survey of Accounting II Credits: (3)

Outdoor Recreation Entrepreneurship Emphasis

Required Courses (18 credit hours)

- OCRE 3400 - Outdoor Equipment Production and Retailing Credits: (3)

Select a minimum of 15 credit hours from any of the following courses:
- ENTR 1002 - Startup Innovation Credits: (3)
- ENTR 2003 - Marketing Execution for Small Business Credits: (1)
- ENTR 2004 - Branding for Small Business Credits: (1)
- ENTR 2005 - Product to Market Credits: (1)
- ENTR 2006 - E-Commerce for Small Business Credits: (1)
- ENTR 2007 - Product Design & Prototyping for Small Business Credits: (1)
ENTR 2008 - Legal Foundations for Small Business Credits: (1)
ENTR 2009 - Money Management for Small Business Credits: (1)
ENTR 2010 - Funding For Small Business Credits: (1)
ENTR 2011 - Results-Focused Leadership Credits: (1)
ENTR 2012 - People Management for Small Business Credits: (1)
ENTR 3002 - Scale & Exit Credits: (3)
ENTR 4680 - Small Business Diagnostics Credits: (3)
Outdoor and Community Recreation Education Minor/BIS

Grade Requirements: A minimum grade of "C" (2.0) in each of the courses used toward the minor.
Credit Hour Requirements: Complete a minimum of 18 credit hours selected and approved from among the following:

Program Code: 5044
CIPC: 310601

Course Requirements for Minor

Required Core Courses (12 credit hours)

- OCRE 3050 - Recreation and Leisure in Society Credits: (3)
- OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
- OCRE 3300 - Inclusive and Adaptive Recreation Credits: (3)
- OCRE 3320 - Adventure Programming Credits: (3)

Elective Courses (6 credit hours)

Select 6 credit hours from the following:

2 credit hours from courses with a REC or PE prefix are allowable elective credits. Any REC or PE courses will fulfill this requirement.

- OCRE 2300 - Wilderness Medicine Credits: (3)
- OCRE 2500 - Introduction to Outdoor Pursuits Credits: (4)
- OCRE 2610 - Introduction to Outdoor Living Skills I Credits: (2)
- OCRE 2890 INT - Cooperative Work Experience Credits: (1-9)
- OCRE 3230 - Wilderness Nutrition & Backcountry Cooking Credits: (4)
- OCRE 3400 - Outdoor Equipment Production and Retailing Credits: (3)
- OCRE 3450 - Adventure Travel and Sustainable Tourism Credits: (3)
- OCRE 3500 - Community Recreation and Park Planning Credits: (3)
- OCRE 3520 - Risk Management and Legal Issues in Recreation Services Credits: (3)
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services Credits: (3)
- OCRE 3700 - Recreation and Sports Facilities and Events Management Credits: (3)
- OCRE 3900 - Commercial Outdoor Recreation Credits: (3)
- OCRE 4000 - Recreation Programming for Youth Development Credits: (3)
- OCRE 4020 - Nature Interpretation Credits: (3)
- OCRE 4300 - Trends and Ethical Issues in Recreation Services Credits: (3)
- OCRE 4500 - Grant and Proposal Writing for Recreation Professionals Credits: (3)
- OCRE 4550 - Outdoor Education Philosophies & Principles Credits: (3)
- OCRE 4800 - Individual Projects Credits: (1-3)
- OCRE 4890 INT - Cooperative Work Experience Credits: (1-6)
- OCRE 4930 - Outdoor Education Workshop Credits: (2)
- PEP 2100 - Introduction to Coaching Sport Credits: (3)
- PEP 2500 - Sport Pedagogy Credits: (3)
- PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
- PEP 3320 - Techniques for Teaching Lifeguarding Credits: (2)
- PEP 3400 - Sport Psychology for Coaches Credits: (3)
Outdoor Leadership (AAS)

The Outdoor & Community Recreation Education (OCRE) program at Weber State University offers students the opportunity to develop the skills, abilities, and knowledge necessary for a career in the outdoor recreation industry. The expressed goal of the OCRE program is to prepare students to effectively utilize and leverage the recreation industry to promote personal growth, health and wellness, and economic and environmental sustainability. Upon completion of the program, students may pursue front-line and leadership positions in: outdoor retail, outdoor education and/or adventure centers; guiding/outfitting companies; not-for-profit and private camps; resorts, spas and wellness centers; state and national parks; campus recreation; therapeutic programs; youth development programs; municipal parks and recreation departments; and public and private education.

Prerequisite: Before beginning this program, a student must see the department advisor in Swenson.
Grade Requirements: A cumulative GPA of 2.75 and a grade of B- or better in required major courses. Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Outdoor & Community Recreation committee, as appropriate, to graduate with the lower grade.
Credit Hour Requirements: A minimum of 63 credit hours is required for an associate of applied science degree; 45 of these credits are major requirements.
Program Code: 5061AAS
CIPC: 310601

Advisement
Students must follow the Department of Health, Physical Education and Recreation Advisement procedures. Contact the department advisor located in the Swenson building (also refer to the Department Advisor Referral List).
Use Grad MAPs to plan your degree

Admission Requirements
Declare your program of study (see Program of Study (Major/Minor) Declaration). Sign a Program of Study Contract with the Health, Physical Education and Recreation department. Contact the department advisor.

General Education
Refer to Degree Requirements for Associate of Applied Science requirements.

Program Learning Outcomes
1. Students will identify how to effectively integrate educational components and situational variables to make and implement quality decisions in outdoor settings.
2. Students will demonstrate proficiency in specific outdoor skills that are essential to individual and group sustainability in the backcountry.
3. Students will demonstrate the knowledge, skills, and abilities to design, implement, and prepare outdoor expedition trips a minimum of 7 days long.
4. Students will demonstrate the ability to accurately self-assess as well as those essential skills concerning or involving relationships between people; the ability to effectively implement a decision.
5. Students will demonstrate a structured approach to managing actual risk, emotional risk, and perceived risk through risk assessment, utilization of management and instructional resources, and development and execution of emergency protocols.
6. Students will comprehend and identify foundational concepts that embody ecological and cultural literacy along with the cooperative planning and management skills needed to ensure the preservation of resources, through personal connections, for past, present, and future generations.
7. Students will identify foundational theories and practices related to teaching, processing, and transference in outdoor/adventure settings.
Required General Education Courses

- BTNY 1403 LS SUS - Principles of Environmental Science Credits: (3-4)
- ECON 1100 SS - Environmental Issues and Economic Policy Credits: (3)
- COMM 1020 HU - Principles of Public Speaking Credits: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

Major Course Requirements for AAS Degree (31 credits)

- GEOG 1002 - GPS, Map Reading and Navigation Credits: (1)
- OCRE 2300 - Wilderness Medicine Credits: (3)
- OCRE 2500 - Introduction to Outdoor Pursuits Credits: (4)
- OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits Credits: (4)
- OCRE 2860 - Outdoor Leadership Practicum Credits: (2)
- OCRE 2890 INT - Cooperative Work Experience Credits: (1-9) 2 credits are required
- PAR 1000 INT - Emergency Medical Technician Credits: (4)
- PAR 1001 - Emergency Medical Technician Lab Credits: (2)
- REC 1241 - Mountain Biking, Level I Credits: (1)
- REC 1307 - Avalanche Level I Credits: (1)
- REC 1310 - Whitewater Paddling, Level I Credits: (1) or
- REC 1316 - Stand-Up Paddleboard Credits: (1)
- REC 1527 - Rock Climbing, Level I Credits: (1)
- REC 1535 - Leave No Trace Trainer Credits: (1)
- REC 1610 - Skiing, Level I Credits: (1) or
- REC 1620 - Snowboarding, Level I Credits: (1)

Select 5 Additional Elective credit hours from REC (5 credits)

Select 5 additional credit hours from courses with a REC prefix. Any REC courses that are not already required above will fulfill this requirement.

Suggested Electives (9 credits)

The following suggested electives are provided in order to assist students wishing to pursue an AAS degree with the Outdoor & Community Recreation Education program.

- BTNY 1203 LS - Plant Biology Credits: (3)
- BTNY 2413 - Introduction to Natural Resource Management Credits: (3)
- CHF 1500 SS/EDI - Human Development Credits: (3)
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription Credits: (3)
- GEO 1130 PS - Introduction to Meteorology Credits: (3)
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life Credits: (3) and
- GEOG 1005 - Planet Earth: Local Field Studies Credits: (1)
- HLTH 1030 SS - Healthy Lifestyles Credits: (3)
- HLTH 1110 - Stress Management Credits: (3)
- HLTH 2400 - Mind/Body Wellness Credits: (3)
- PSY 2400 - Positive Psychology Credits: (3)
- WSU 1560 SS/HU - Perspectives in Social Science and Humanities Credits: (3-5)
Physical Education (BIS)

Bachelor of Integrated Studies

**Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.

**Credit Hour Requirements:** The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.

*The course of study in each discipline must be approved by the appropriate program director.*

**BIS Possible Options**

*These are only recommendations; many combinations and options for potential careers are possible.*

**Health Education & Health Promotion Emphasis**

**Program Code:** 5013

**CIPC:** 512207

- Community Health Promotion
- Occupational Health Education
- Clinical Health Education *(See Department of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions)*
- Family Life Health Promotion
- Gerontological Health Promotion
- Drug Abuse Prevention Education

**Nutrition Emphasis**

- Dietary Analysis
- Dietary Prescription
- Nutrition Education
- Weight Management
- Nutritional Ergogenics

**Exercise Science Emphasis**

**Program Code:** 5019

**CIPC:** 310505

- Coaching Sport
- Corporate Fitness
- Community Fitness
- Sports Medicine
- Sport Communication
- Commercial/Facility Management
- Sport Psychology
BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

Interdisciplinary Work-Made multiple connections across three academic disciplines.

High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.

Capstone Signature Work-Synthesized and reported key research/skills/theories from academic disciplines.

Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.

Academic speaking and writing-Used effective oral and written English-language skills

Post-Graduate Planning-Planned for careers and/or graduate programs.

Physical Education Emphasis

27 Credit Hours Total Required

Complete the following Required Courses (15 credit hours)

PEP 2000 - Foundations of Physical Education Credits: (3)
PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
PEP 3520 - Curriculum and Assessment Credits: (2)
PEP 3520L - Curriculum and Assessment Lab Credits: (1)
PEP 4990 INT - Field Experience/Senior Seminar Credits: (3) *

Note:

*May not be taken until all other requirements have been met.

In addition, four of the following courses are required. (12 Credit hours)

PEP 3630 - Methods of Teaching Elementary School Physical Education Credits: (3)
PEP 3660 - Adapted Physical Education Credits: (3)
PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)
PEP 4710 - Methods of Teaching High School Physical Education Credits: (3)
PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)

Admission Requirements

Students must meet with Academic Advisor to review requirements for BIS in PEP. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.
Admission requirements include:

- Declared major or minor or BIS in a Physical Education or Coaching Education program.
- Minimum cumulative GPA of 2.75.
- Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
- Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.
- Student must adhere to the Health, Physical Education, and Recreation Department 'Student Conduct Policy' available online at http://www.weber.edu/wsuiimages/HPER/StudentCode/HPERSStudentCode.pdf

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

- Minimum cumulative GPA of 2.85.
- Earned grade of C- or above for each required course.
- Clear fingerprinting/background check.
- Retention/improvement of sport specific and fitness skills.
- Student Disposition score above 20 in each course.

General Education

Refer to Degree and General Education Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 1110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements.
Physical Education (BS)

Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Teaching Track: students must meet all requirements for the Physical Education Teaching Track and those requirements needed for Teacher Licensure (27).

Physical Education Non-teaching Track: students must meet all requirements for the Physical Education Teaching Track except those needed for Teacher Licensure and an additional 12 credits listed below.

Program Prerequisite: Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Minor: Physical Education Teaching Track requires a teaching minor.

Grade Requirements: A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.

Credit Hour Requirements: Physical Education Non-teaching Track-Total minimum credit hours required in the Major (48). Physical Education Teaching Track-Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.

Program Code: Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)
CIPC: Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

Advisement

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

Declared major or minor or BIS in a Physical Education or Coaching Education program.
Minimum cumulative GPA of 2.75.
Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:
Minimum cumulative GPA of 3.0.
Earned grade of "C" or above for each required course.
Clear fingerprinting/background check.
Retention/improvement of sport specific and fitness skills.
Student Disposition score above 20 in each course.
General Education
Refer to Degree Requirements for Bachelor of Science requirements.
General Education courses required for the Physical Education major are:
NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core
See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

Program Learning Outcomes
Know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
Are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the SHAPE K - 12 Standards.
Plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
Use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
Utilize assessments and reflection to foster student learning and inform instructional decisions.
Practice dispositions essential to becoming effective professionals.

Major Course Requirements for BS Degree

Professional Knowledge (18 credit hours)

- PEP 2000 - Foundations of Physical Education Credits: (3)
- PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
- ESS 3450 - Structural Kinesiology Credits: (3)
- ESS 3510 - Exercise Physiology Credits: (3)
- PEP 3520 - Curriculum and Assessment Credits: (2)
- PEP 3520L - Curriculum and Assessment Lab Credits: (1)
- PEP 3660 - Adapted Physical Education Credits: (3)

Field Experience (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar Credits: (3)

Methods of Teaching Courses (15 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
- PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
- PEP 3630 - Methods of Teaching Elementary School Physical Education Credits: (3)
- PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)
- PEP 4710 - Methods of Teaching High School Physical Education Credits: (3)
Students choosing the Non-teaching Physical Education Track are required to take an additional 12 credits of the following courses:

- PEP 2100 - Introduction to Coaching Sport Credits: (3)
- PEP 2500 - Sport Pedagogy Credits: (3)
- PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
- PEP 3400 - Sport Psychology for Coaches Credits: (3)
- ESS 4620 - Leadership Concepts for Human Performance Management Credits: (3)
- PEP 4830 - Directed Readings Credits: (1-3)
- OCRE 3050 - Recreation and Leisure in Society Credits: (3)
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services Credits: (3)
- OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)
- NUTR 3020 - Sports Nutrition Credits: (3)
- NUTR 4420 - Nutrition and Fitness Credits: (3)
Physical Education Minor

The Department of Health, Physical Education, and Recreation offers three undergraduate minors in Physical Education. The 1) Physical Education Non-Teaching Minor is designed to prepare students to work in a physical activity venue. A major must also be selected. The 2) Physical Education Minor is designed to prepare students to teach physical education in a K-12 school system. The 3) Physical Education/Coaching Education Teaching Dual Minor is designed to prepare students to teach physical education and to coach in a K-12 school system. A teaching major is to be selected in addition to either of the teaching minors to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Non-Teaching Minor students must meet all requirements listed below.

Physical Education Minor and Physical Education/Coaching Education Dual Teaching Minor students must meet all requirements for the Physical Education Minor or the Physical Education/Coaching Education Teaching Dual Teaching Minor and those requirements needed for Teacher Licensure (27).

Grade Requirements: A combined GPA of 3.0 is required for all courses used toward the minor. No grade lower than a "C" is acceptable.

Credit Hour Requirements: Physical Education Non-Teaching Minor - a total of 29-30 credit hours are required. Physical Education/Coaching Education Dual Teaching Minor - a total of 46-47 credit hours are required. Physical Education Minor - a total of 27 credit hours are required. In addition to the required credit hours, Physical Education/Coaching Education Dual Teaching Minor and Physical Education Minor students must meet the requirements of their selected teaching major and the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements for Bachelor of Science requirements. A General Education course required for all Physical Education minors is:
NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core (4)
See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education/Coaching Education Dual Teaching Minors and Physical Education Track Minors.

Admission Requirements

Students must apply for Physical Education program admittance by November 10 or March 10 of their first semester of taking Physical Education Professional [PEP] courses. Applications are available from the Physical Education Program Director. In addition, students applying for the Teaching Track must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). In addition, students applying for the Physical Education Specialization grades 1-8 must also meet the Teacher Education admission and licensure requirements. Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4830, PEP 4860C, or PEP 4990 until admission requirements have been met.

Admission requirements include:
- Declared major or minor or BIS in a Physical Education or Coaching Education program.
- Minimum cumulative GPA of 2.75.
- Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
- Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:
- Minimum cumulative GPA of 3.0.
- Earned grade of "C" or above for each required course.
- Clear fingerprinting/background check.
- Retention/improvement of sport specific and fitness skills.
- Student Disposition score above 20 in each course.
Course Requirements for the Physical Education Minor

Professional Knowledge (15 credit hours)

- **PEP 2000** - Foundations of Physical Education **Credits:** (3)
- **PEP 3100** - Principles of Motor Learning and Motor Development **Credits:** (3)
- **ESS 3510** - Exercise Physiology **Credits:** (3)

- **PEP 3242** - Skill Development and Methods of Court Sports **Credits:** (2)
- **PEP 3290** - Methods of Teaching Fitness for Life **Credits:** (3)

Required Support Course (2-3 credit hours)

- **HLTH 1300** - First Aid: Responding to Emergencies **Credits:** (2) or
- **RHS 2175** - Introduction to Sports Medicine **Credits:** (3)

**Physical Education Teaching (BS)**
Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-Teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

**Physical Education Teaching Track** students must meet all requirements for the Physical Education Teaching Track and those requirements needed for Teacher Licensure (27).

**Physical Education Non-Teaching Track** students must meet all requirements for the Physical Education Teaching Track except those needed for Teacher Licensure and an additional 12 credits listed below.

**Program Prerequisite:** Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

**Minor:** Physical Education Teaching Track requires a teaching minor.

**Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.

**Credit Hour Requirements:** Physical Education Non-Teaching Track-Total minimum credit hours required in the Major (48). Physical Education Teaching Track-Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.

**Program Code:** Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)

**CIPC:** Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

**Advisement**

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

**Admission Requirements**

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

**Admission requirements include:**
- Declared major or minor or BIS in a Physical Education or Coaching Education program.
- Minimum cumulative GPA of 2.75.
- Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
- Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

**Program Retention Requirements**

After admission into the Physical Education major/minor programs, students will be retained based on the following:
- Minimum cumulative GPA of 3.0.
- Earned grade of "C" or above for each required course.
- Clear fingerprinting/background check.
- Retention/improvement of sport specific and fitness skills.
- Student Disposition score above 20 in each course.
General Education
Refer to Degree Requirements for Bachelor of Science requirements.
General Education courses required for the Physical Education major are:
NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core
See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

Program Learning Outcomes
Know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
Are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the SHAPE K - 12 Standards.
Plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
Use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
Utilize assessments and reflection to foster student learning and inform instructional decisions.
Practice dispositions essential to becoming effective professionals.

Major Course Requirements for BS Degree

Professional Knowledge (18 credit hours)

PEP 2000 - Foundations of Physical Education Credits: (3)
PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
ESS 3450 - Structural Kinesiology Credits: (3)
ESS 3510 - Exercise Physiology Credits: (3)
PEP 3520 - Curriculum and Assessment Credits: (2)
PEP 3520L - Curriculum and Assessment Lab Credits: (1)
PEP 3660 - Adapted Physical Education Credits: (3)

Field Experience (3 credit hours)

PEP 4990 INT - Field Experience/Senior Seminar Credits: (3)

Methods of Teaching Courses (15 credit hours)

PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
PEP 3630 - Methods of Teaching Elementary School Physical Education Credits: (3)
PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)
PEP 4710 - Methods of Teaching High School Physical Education Credits: (3)

Students choosing the Non-teaching Physical Education Track are required to take an additional 12 credits of the following courses:

PEP 2100 - Introduction to Coaching Sport Credits: (3)
PEP 2500 - Sport Pedagogy Credits: (3)
PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
PEP 3400 - Sport Psychology for Coaches Credits: (3)
ESS 4620 - Leadership Concepts for Human Performance Management Credits: (3)
PEP 4830 - Directed Readings Credits: (1-3)
OCRE 3050 - Recreation and Leisure in Society Credits: (3)
OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services Credits: (3)
OCRE 3100 - Recreation Leadership and Group Facilitation Credits: (3)

NUTR 4420 - Nutrition and Fitness Credits: (3)
Physical Education Teaching Minor

The Department of Health, Physical Education, and Recreation offers three undergraduate minors in Physical Education. The 1) Physical Education Non-Teaching Minor is designed to prepare students to work in a physical activity venue. A major must also be selected. The 2) Physical Education Minor is designed to prepare students to teach physical education in a K-12 school system. The 3) Physical Education/Coaching Education Teaching Dual Minor is designed to prepare students to teach physical education and to coach in a K-12 school system. A teaching major is to be selected in addition to either of the teaching minors to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Non-Teaching Minor students must meet all requirements listed below.

Physical Education Minor and Physical Education/Coaching Education Dual Teaching Minor students must meet all requirements for the Physical Education Minor or the Physical Education/Coaching Education Teaching Dual Teaching Minor and those requirements needed for Teacher Licensure (27).

Grade Requirements: A combined GPA of 3.0 is required for all courses used toward the minor. No grade lower than a "C" is acceptable.

Credit Hour Requirements: Physical Education Non-Teaching Minor - a total of 29-30 credit hours are required. Physical Education/Coaching Education Dual Teaching Minor - a total of 46-47 credit hours are required. Physical Education Minor - a total of 27 credit hours are required. In addition to the required credit hours, Physical Education/Coaching Education Dual Teaching Minor and Physical Education Minor students must meet the requirements of their selected teaching major and the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Program Code: Physical Education Non-Teaching (5017), Physical Education/Coaching Education Teaching Track I (5029), Physical Education/Licensure Coaching Track II (5030)

CIPC: Physical Education Non-Teaching (310599), Physical Education/Coaching Education Teaching Track I (131314), Physical Education/Licensure Coaching Track II (131314)

General Education

Refer to Degree and General Education Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:
NUTR LS SUS 1020 Science and Application of Human Nutrition (3)
HTHS LS 1110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education/Coaching Education Dual Teaching Minors and Physical Education Track Minors.

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:
- Declared major or minor or BIS in a Physical Education or Coaching Education program.
- Minimum cumulative GPA of 2.75.
- Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
- Fingerprinting/background check must be cleared prior to admission to the program.
- Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:
- Minimum cumulative GPA of 3.0.
- Earned grade of "C" or above for each required course.
- Clear fingerprinting/background check.
Course Requirements for the Physical Education Minor

Professional Knowledge (15 credit hours)

PEP 2000 - Foundations of Physical Education Credits: (3)
PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
ESS 3510 - Exercise Physiology Credits: (3)
PEP 3520 - Curriculum and Assessment Credits: (2)
PEP 3520L - Curriculum and Assessment Lab Credits: (1)
PEP 3660 - Adapted Physical Education Credits: (3)

Field Experiences (3 credit hours)

PEP 4990 INT - Field Experience/Senior Seminar Credits: (3)

Methods of Teaching (9 credit hours)

PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
PEP 3290 - Methods of Teaching Fitness for Life Credits: (3)
PEP 4700 - Methods of Teaching Junior High School Physical Education Credits: (3)

Course Requirements for the Physical Education/Sport Coaching Education Dual Teaching Minor

Professional Knowledge (26 credit hours)

PEP 2000 - Foundations of Physical Education Credits: (3)
PEP 2100 - Introduction to Coaching Sport Credits: (3)
PEP 2500 - Sport Pedagogy Credits: (3)
PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
PEP 3100 - Principles of Motor Learning and Motor Development Credits: (3)
PEP 3400 - Sport Psychology for Coaches Credits: (3)
ESS 3510 - Exercise Physiology Credits: (3)
PEP 3520 - Curriculum and Assessment Credits: (2)
PEP 3520L - Curriculum and Assessment Lab Credits: (1)

Field Experiences (6 credit hours)

PEP 4860C INT - Field Experience Coaching Credits: (3)
PEP 4990 INT - Field Experience/Senior Seminar Credits: (3)

Skill Development and Methods of Teaching (6 credit hours)

PEP 3240 - Skill Development and Methods of Field Sports Credits: (2)
PEP 3242 - Skill Development and Methods of Court Sports Credits: (2)

Required Support Course (2-3 credit hours)

HLTH 1300 - First Aid: Responding to Emergencies Credits: (2) or
RHS 2175 - Introduction to Sports Medicine Credits: (3)
Secondary Physical Education Teachers for Elementary School Dual Certification

For individuals holding a secondary physical education certificate who desire to work in the elementary schools, dual certification is available. See the director of physical education (see Department of Health, Physical Education, and Recreation) for more information.

Sport Coaching Education (BIS)

Program Code: 5040  
CIPC: 131314

Program Learning Outcomes

Interdisciplinary Work-Made multiple connections across three academic disciplines.
High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
Academic speaking and writing-Used effective oral and written English-language skills
Post-Graduate Planning-Planned for careers and/or graduate programs.

20 credits/8 upper division

Contact-Dr. Brian McGladrey, SB 125C, 801-626-8578

RHS 2175 - Introduction to Sports Medicine Credits: (3)  
PEP 2100 - Introduction to Coaching Sport Credits: (3)  
PEP 2500 - Sport Pedagogy Credits: (3)  
PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)  
PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)  
PEP 3400 - Sport Psychology for Coaches Credits: (3)  
PEP 4860C INT - Field Experience Coaching Credits: (3)

Sport Coaching Education Minor

This minor cannot be counted as a teaching minor.

Grade Requirements: A minimum grade of "C" in each of the courses, and a minimum GPA of 3.0 for all program coursework.
Credit Hour Requirements: A total of 19-20 semester hours are required for the Sport Coaching Education minor.

Program Code: 5040  
CIPC: 131314

Course Requirements for Minor
Required Courses (19-20 credit hours)

HLTH 1300 - First Aid: Responding to Emergencies Credits: (2)
RHS 2175 - Introduction to Sports Medicine Credits: (3)

PEP 2100 - Introduction to Coaching Sport Credits: (3)
PEP 2500 - Sport Pedagogy Credits: (3)
PEP 2700 SS - Sociohistorical Aspects of Sport Credits: (3)
PEP 3280 - Methods of Teaching Strength and Conditioning Credits: (3)
PEP 3400 - Sport Psychology for Coaches Credits: (3)
PEP 4860C INT - Field Experience Coaching Credits: (3)
Department of Teacher Education

Department Chair: DeeDee Mower
Location: McKay Education Building, Room 234
Telephone Contact: Lisa Karle 801-626-7171
Advisement Contacts: Angie Collinwood 801-626-6309; Brogan Stampick 801-626-6636
Professors: Melina Alexander, Vincent Bates, David Byrd, Kristin Hadley, Louise Moulding, Pene'e Stewart, Shernavaz Vakil, Natalie Allen Williams; Associate Professors: Shirley Dawson, DeeDee Mower, Daniel Pyle, Clay Rasmussen, Sheryl Rushton; Assistant Professors: Jadelyn Abbott, Ryan Cain, Sara Gailey, Dustin Grote, Megan Hamilton, Andrea Martinez, Katarina Pantic, Stephanie Speicher

The major purpose of the professional education programs in teacher education is to prepare candidates for teaching in elementary and secondary schools. Preparation is also provided for teachers of students with mild to moderate disabilities with the special education mild/moderate license. The department prepares students for endorsements in Mathematics, ESL (English as a Second Language), Dual Language Immersion, Basic Reading (graduate level only), and Education of the Gifted (graduate level only). All programs are accredited through the Teacher Education Accreditation Council (TEAC).

The preparation for teaching falls academically within four major categories: University General Education, support courses, subject specialization, and professional education.

University General Education requirements -- In selecting courses to satisfy the general education requirements, candidates should note the general education courses recommended and/or required in their major and/or professional education requirement sheets available in the Teacher Education Advisement Center (ED 230).

Support courses
Specializations are required of all elementary candidates. Elementary education majors have two track options; K-6 and 1-8. The K-6 track requires one 9 credit specialization and a 9 credit early childhood specialization while the 1-8 track requires a 18 credit specialization or a teaching minor. The professional education program outlines acceptable subject specialization areas and requirements. Special Education majors choose one 9-hour specialization or a teaching minor. Secondary candidates completing a teaching major may be required to complete a teaching minor (refer to the teaching major program requirements). The teaching major and teaching minor must be in subjects taught in Utah public secondary schools.

Professional Education courses help the prospective teacher learn about children, the nature of the learning process, and how to provide desirable learning experiences. To meet licensure requirements, secondary school candidates are required to complete a minimum of 24 semester hours of professional course work; 55 semester hours are required of the prospective elementary school teacher.

Professional course work in the program is organized into sequential levels. As students move through the program, they are required to demonstrate in a variety of ways the knowledge, skills and dispositions that embody the department's organizing theme and program model.

It is important that interested students contact the Teacher Education Advisement Center (ED 230) as quickly as they decide to become a teacher. Specific program admission requirements, required courses, and recommended general education course work are available.

Admission to Teacher Education

Admission to the Teacher Education Programs is a separate process from general university admission. The Teacher Education programs maintain a competitive admissions process. Applicants are provisionally admitted each semester after submitting their application materials and meeting the minimum admission criteria listed below. Students are admitted two times per year: fall semester and spring semester. Applicants are evaluated by cumulative GPA and admission interview score.
Minimum Admission Requirements

Formal Application submitted online by the deadline date.
At least 40 semester hours of general education and relevant prerequisite courses.

Those intending to teach Special Education or teach at the elementary level, please note:

The Professional Education component of the Special Education major and the Elementary Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken most of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Those intending to teach at the secondary level, please note:

The Professional Education component of the Secondary Education program requires two semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and most of the teaching major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Passing the appropriate Praxis II Content test or passing the ACT with the composite score of 21 with a verbal/English score no less than 20 and a mathematics/quantitative score of no less than 19 is required for all programs. The Utah State Office of Education specifies the passing score for each test. Students will not be considered for admission if they do not meet the state specified passing score on the Praxis II or ACT.

Sign up for an interview in the Advisement Center when you turn in application materials (the schedule will be available approximately one (1) month prior to the interview dates).
Composition general education requirement completed (grade "C" or above in ENGL 2010 EN2, or equivalent).
Quantitative Literacy requirement completed (see General Requirements in this catalog).

Note: Elementary, Special Education, and Early Childhood Education majors need MATH 1050 as prerequisite for Mathematics Education support courses.

Communication competency completed (grade "B-") or above in COMM 1020 or COMM 2110 or equivalent).
University Computer and Information Literacy competency completed (see General Requirements in this catalog).
EDUC 1010 Exploring Teaching or approved equivalent course completed.
Teacher Education also recognizes specific program and diversity needs of professional education and reserves the right to consider such factors in the admission of candidates.
For teacher education applicants who are English language learners, an additional requirement of 6.5 on each of the four sections of the International English Language Testing System (IELTS) test is required for admission.

Additional Notes

Fingerprinting/background check must be completed immediately after being admitted. Go to the following link for more information: https://weber.edu/fingerprinting
Students are provisionally admitted to a specific teacher education program: (1) early childhood education; (2) elementary education; (3) special education; (4) secondary education.
 Provisional admission to a specific program is valid for a period of five years. If a student has not completed the program within the five-year period or desires to pursue a different program, he/she must seek readmission under the current admission standards and complete current course/program requirements. Changes in state licensure requirements may necessitate more immediate program changes.
Professional education credits older than five years at the time of program admission generally will not be counted.
However, students may revalidate outdated course work by following procedures available in the Teacher Education Advisement Center, ED 230.
A Graduate Certificate in Teaching is also available through the Master of Education program.
Applicants who hold Bachelor's degrees older than five years and who have not had more recent relevant course work or work experiences related to their major and minor must take at least two courses in their major and one course in their minor as designated by the academic department. Applicants with an earned graduate degree seeking initial licensure must satisfactorily complete requirements 1, 2, 4, and 5. They are then placed in the pool with others seeking provisional admission. Data are collected on students admitted to the Teacher Education program for the purposes of national accreditation and program improvement. No personal information is used in this process.

**Early Childhood Education Major**

The Departments of Child and Family Studies and Teacher Education offer a major in Early Childhood Education with licensure for teaching in programs which serve children from birth through eight years of age (Pre-K through 3rd grade). Requirements are listed under the Department of Child and Family Studies. See Room ED 248 for additional information.

**Elementary Education Major**

Students preparing to teach in elementary schools graduate with a major in Elementary Education. The elementary education major has a K-6 track and a 1-8 track.

The Teacher Education Advisement Center and faculty advisors from the Department of Teacher Education are available to advise prospective teachers. A program requirement sheet is available from the Teacher Education Advisement Center in Room 230 in the McKay Education Building. It is to the student's advantage to begin program planning early.

**Interdisciplinary Minors**

The Teacher Education Department participates in the interdisciplinary Linguistics Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

**Basic Reading Endorsement**

**Level I—Basic Reading Endorsement**

These courses will meet the requirement for a Level I Basic Reading Endorsement to be added to the Elementary or Secondary Education licensure. The Teacher Education Department provides the courses required for these two endorsements but does not give the endorsement. It is the teacher’s responsibility to submit application to the USOE (http://www.usoe.k12.ut.us) for the reading endorsement. The USOE does the endorsing after reviewing the student’s application and coursework.

**Course Requirements for Elementary Reading Endorsement**

- MED 6360 - Foundations of Literacy Credits: (3)
- EDUC 6320 - Content Area Literacy Instruction Credits: (3)
- MED 6330 - Using Children's Literature and Informational Text in the Classroom Credits: (2)
- MED 6340 - Reading Assessment and Instructional Interventions Credits: (3)
- MED 6350 - Reading Comprehension Instruction Credits: (3)
MED 6352 - Early Literacy Instruction (K-6) Credits: (2)
MENG 6110 - Writing for Teachers Credits: (3)

Course Requirements for Secondary Reading Endorsement

MED 6360 - Foundations of Literacy Credits: (3)
EDUC 6320 - Content Area Literacy Instruction Credits: (3)
MED 6340 - Reading Assessment and Instructional Interventions Credits: (3)
MED 6350 - Reading Comprehension Instruction Credits: (3)
MED 6353 - Understanding and Supporting Reading Development (grades 6-12) Credits: (3)
MENG 6110 - Writing for Teachers Credits: (3)
MENG 6210 - Teaching Literature, Literacy, and Language in the Secondary Schools Credits: (3)

Level II—Advanced Reading Endorsement

MED 6354 - Literacy Leadership and Professional Development Credits: (2)
MED 6355 - Research in Reading Credits: (3)
MED 6356 INT - Internship in Reading Credits: (3)

Dual Language Immersion Endorsement

This program will meet the requirements for the Dual Language Immersion Endorsement to be added to the Elementary or Secondary Education licensure. Students must also demonstrate language proficiency at the Advanced Mid or higher Level, as determined by the Foreign Language Department.

These courses taken at the graduate level may also be used as electives for the MED degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (15 credit hours)

Graduate students should contact the MED director for approved substitutions.

EDUC 3375 - Foundations of Dual Immersion or Immersion Education Credits: (3) (MED 6375)
EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment Credits: (3) (MED 6415)
EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3) (MED 6270)
EDUC 4740 - Building School Partnerships with ESL/Bilingual Families Credits: (1)
FL 4400 - Methods for Teaching Languages Credits: (5)
EDUC 5770 INT - Field Experience in ESL/Bilingual Education Credits: (2) *

Note:

* EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.
Note:

It is recommended that candidates for the Dual Language Immersion Endorsement also complete the ESL Endorsement with the following courses:

- EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3) (MED 6250)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers Credits: (3) (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices Credits: (3) (MENG 6450)

Education (AS)

The Associate of Science degree (AS) in Education is a two-year program designed to prepare students for the elementary or special education bachelor's programs. Students completing this program will develop skills and get the hands-on experience necessary to be accepted into the professional courses offered at the university level. Course work will satisfy the General Education requirements for the first two years of a bachelor's degree in elementary or special education. Specific requirements for the bachelor's degrees in elementary education and special education can be found at Department of Teacher Education.

Credit Hour Requirements: A total of 60 credit hours are required for graduation; 24 of these are required Education-related and support courses and 36 are required general education courses.

Program Code: 5025AS
CIPC: 139999

Advisement

All students should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-6309 for more information or to schedule an appointment. See weber.edu/COE/COEadvisement.html

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the AS in Education will also fulfill general education requirements: CHF SS/EDI 1500, COMM HU 1020 or COMM HU CEL 2110, GEOG SUS/EDI 1300 or GEOG EDI/SUS 1520, MATH QL 2020. It is recommended that students fulfill the Computer and Information Literacy Part D requirement with LIBS 2604/EDUC 2604.

Major Course Requirements for AS Degree

Required Education-related Courses (30-31 credit hours)

- EDUC 1010 CEL - Exploring Teaching Credits: (3)
- EDUC 2010 CEL - Human Exceptionality Credits: (3)
- CHF 1500 SS/EDI - Human Development Credits: (3)
- COMM 1020 HU - Principles of Public Speaking Credits: (3) OR
  COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
- ENGL 3300 - Children's Literature Credits: (3)
- GEOG 1300 SUS/EDI - Global Issues: Places, People and the Planet Credits: (3) OR
  GEOG 1520 EDI/SUS - United States and Canada: Geography, Diversity and Change Credits: (3)
- MATH 2010 - Arithmetic for Elementary Teachers Credits: (3) grade of C or above
  MATH 2015 - Algebra for Elementary Teachers Credits: (3) grade of C or above
MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) grade of C or above

AND one of the following:
ART 1030 CA - Studio Art for the Non-Art Major Credits: (3) Can not double count as Gen Ed
DANC 3640 INT - Elementary Dance Pedagogy Credits: (3)
EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
MUSC 3824 - Music for Elementary Teachers Credits: (4)
THEA 4603 - Creative Drama Credits: (3)

Required Support Courses (15 credit hours)

Select 6 credit hours from the following, with at least 3 from Creative Arts (don't duplicate departments):

Humanities
ENGL 2200 HU/EDI - Introduction to Literature Credits: (3)
ENGL 2220 HU/EDI - Introduction to Fiction Credits: (3)
ENGL 3510 HU/EDI - World Literature Credits: (3)
MUSC 1043 HU - Music, the Arts & Civilizations Credits: (3)

Creative Arts
ART 1010 CA - Introduction to the Visual Arts Credits: (3)
ART 1030 CA - Studio Art for the Non-Art Major Credits: (3)
DANC 1010 CA EDI - Introduction to Dance Credits: (3)
MUSC 1040 CA - Music of World Cultures Credits: (3)
THEA 1033 CA - Introduction to Acting Credits: (3)

Select 3 credit hours from the following to satisfy the science with a lab requirement (may not duplicate departments):
GEO 1350 PS - Principles of Earth Science Credits: (3) OR
CHEM 1360 PS - Principles of Physical Science Credits: (3) or PHYS PS 1360 OR
BTNY 1370 LS - Principles of Life Science Credits: (3) or MICR LS 1370 or ZOOL LS 1370

Select 6 additional credit hours from the General Education Physical Science and Life Science requirements.

Required Track-Specific Support Courses (6 credit hours)

Elementary and Special Education: 6 credit hours towards an area of specialization.
Education - Non-Teaching (BIS)

Program Code: 5025
CIPC: 130101

The Bachelor of Integrated Studies (BIS) is designed to meet the needs of students who have clear educational goals that they would like to meet through an individualized university program. The 18-credit education emphasis is for those who have prior coursework or special interest in teaching and learning. Specific courses are determined through advisement. This program does not lead to educator licensure.

Education of the Gifted Endorsement

These courses may also be used as electives for the MEd Degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (14 credit hours)

- MED 6420 - Foundations of Education of the Gifted Credits: (3)
- MED 6440 - Social and Emotional Needs of the Gifted Credits: (2)
- MED 6480 - Differentiated Curriculum for the Gifted Credits: (3)
- MED 6490 - Assessment and Evaluation in Education of the Gifted Credits: (3)
- MED 6495 - Action Research in Education of the Gifted Credits: (3)

Elective (at least 2 credit hours)

Select one of the following options:

- MED 6450 - Creativity and Applied Imagination Credits: (2)
- MED 6470 - Teaching for Thinking Credits: (2)

Approved graduate credit through professional development course of conference
Elementary Education (BS)

Program Prerequisite: Provisional admission to a Teacher Education Program (see the admission requirements described under the Department of Teacher Education).

Minor/Specialization: One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching minor must be completed.

Grade Requirements: Elementary Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work and at least a "B-" grade in each professional education course to continue in the program. Elementary Education majors must also achieve at least a "C" grade in MATH 2010, MATH 2015 and MATH 2020.

Credit Hour Requirements: A minimum of 120 credit hours is required for graduation; a minimum of 46 of these is required within the Elementary Education major. A total of 40 upper division credit hours is required (courses number 3000 and above).

Program Code: 5005BS
CIPC: 131202

Admission Requirements
Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department.

Advisement
All Elementary Education majors should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment.

For Elementary Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Subject Area Specialization; and IV. Professional Education Courses. Details for each of these required areas follow.

Program Learning Outcomes
Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;
Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy; and
Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

General Education

I. University and General Education Requirements
Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Elementary Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, GEOG SUS/EDI 1300 OR GEOG EDI/SUS 1520, MATH QL 2020 and CHF 1500. Meeting the general education science requirements may not meet elementary education science requirements. Following the suggested guidelines below will assure that both University general education and Elementary Education requirements are met.

Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be PS1350 (Principles of Earth Science), PS1360 (Principles of Physical Science), or LS1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree resulting in a K-8 License

II. Support Courses Required (or equivalent) (27-29 credit hours)
CHF 1500 SS/EDI - Human Development Credits: (3)

COMM 1020 HU - Principles of Public Speaking Credits: (3) or
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)
EDUC 1010 CEL - Exploring Teaching Credits: (3)
EDUC 2010 CEL - Human Exceptionality Credits: (3)
ENGL 3300 - Children's Literature Credits: (3)

GEOG 1300 SUS/EDI - Global Issues: Places, People and the Planet Credits: (3) OR
GEOG 1520 EDI/SUS - United States and Canada: Geography, Diversity and Change Credits: (3)

MATH 2010 - Arithmetic for Elementary Teachers Credits: (3) Grade of C or above required
MATH 2015 - Algebra for Elementary Teachers Credits: (3) Grade of C or above required
MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) Grade of C or above required

At least one course from the following
ART 1030 CA - Studio Art for the Non-Art Major Credits: (3)
MUSC 3824 - Music for Elementary Teachers Credits: (4)
EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
DANC 3640 INT - Elementary Dance Pedagogy Credits: (3)
THEA 4603 - Creative Drama Credits: (3)

III. Required Area of Specialization (18 credit hours)
One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching minor must be completed. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.
The Professional Education component of the Elementary Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken at least some of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

IV. Professional Education Courses Required (56 credit hours)
Admission to teacher education is required prior to enrollment in Professional Education courses.

Level 1 (14 credit hours)

Note: Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

EDUC 3115 - Media Integration in Elementary Education Settings Credits: (2)
EDUC 3120 - Reading Instruction in the Primary Grades Credits: (3)
EDUC 3145 - Educational Psychology, Child Development, and Classroom Management Credits: (3)
EDUC 3205 - Culturally and Linguistically Responsive Teaching Credits: (3)
EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching Credits: (3)

Level 2 (13 credit hours)

Note: K-6 majors take an area of specialization course (3) and 1-8 majors take an a minor/endorsement course (3). Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

EDUC 3130 - Curriculum, Instructional Planning, and Assessment Credits: (3)
EDUC 3210 INT - Elementary Level II Practicum Credits: (2)
EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy Credits: (2)
EDUC 3240 - Reading Instruction in the Intermediate Grades Credits: (3)
EDUC 4345 - Elementary Integrated Arts Methods Credits: (3)
Level 3 (17 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

EDUC 3280 - Elementary Social Studies Methods Credits: (3)
EDUC 4210 INT - Elementary Level III Practicum Credits: (3)
EDUC 4320 - Elementary Language Arts Methods Credits: (3)
EDUC 4330 - Elementary Science Methods Credits: (3)
EDUC 4350 - Elementary Mathematics Pedagogy Credits: (2)
PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers Credits: (3)

Level 4 (12 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

EDUC 4840A INT - Student Teaching in Elementary Education Credits: (8)
EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis Credits: (4)

Elementary Education Mathematics Endorsement

A candidate desiring to receive Elementary Education Mathematics Endorsement must fill the requirements of the Elementary Education major and complete the following courses.

Courses Required for Endorsement

Mathematics Courses Required (19 hours)

MATH 1060 QL - Trigonometry Credits: (3)
MATH 1210 - Calculus I Credits: (4)
MTHE 3060 - Probability and Statistics from a Teaching Perspective Credits: (3)
MTHE 3070 - Middle School Geometry from a Teaching Perspective Credits: (3)
MTHE 3080 - Number Theory for Elementary Teachers Credits: (3)
MTHE 4040 - Mathematical Problem Solving for Grade K-8 Teachers Credits: (3)

Note:

Elementary education majors desiring an Elementary Mathematics Endorsement should consult with the Mathematics Department Chair early in their program. The student will be assigned an advisor to help design his/her course of study.
ESL (English as a Second Language) Endorsement

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure.

These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

Grade Requirements: A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.
Credit Hour Requirements: 17 credit hours required.
Program Code: Minor 5009
CIPC: 131401

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3) (MED 6250)
EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3) (MED 6270)
EDUC 4740 - Building School Partnerships with ESL/Bilingual Families Credits: (1)
EDUC 5770 INT - Field Experience in ESL/Bilingual Education Credits: (2) **
ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual Credits: (3) * (MENG 6410)
ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers Credits: (3) (MENG 6420)
ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices Credits: (3) (MENG 6450)

Note:

* FL 4400, Methods of Teaching a Foreign Language, may be substituted for ENGL 4410.

** EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.
ESL (English as a Second Language) Minor

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure.

These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

Grade Requirements: A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.

Credit Hour Requirements: 17 credit hours required.

Program Code: Minor 5009
CIPC: 131401

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3) (MED 6250 )
EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3) (MED 6270 )
EDUC 4740 - Building School Partnerships with ESL/Bilingual Families Credits: (1)
EDUC 5770 INT - Field Experience in ESL/Bilingual Education Credits: (2) **

** EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.
Paraeducator Certificate of Proficiency

The Paraeducator Certification Program is a one-year program designed for those seeking employment as a paraeducator, improving their skills as an experienced paraeducator, or earning stackable degrees towards a teaching license and bachelor degree. Students are able to earn the Paraeducator Certificate as a standalone achievement or part of a continuous career plan designed to connect to a teaching career and bachelor's degree. High school students may begin taking some courses in the Career Pathway for Education. Others can begin taking courses at any time. The courses in the Paraeducator Certificate can apply to an associate degree. Eventually students are able to apply some courses in the Paraeducator Certificate Program to a bachelor's degree and a Utah Teaching License in Elementary, Secondary, or Special Education.

**Grade Requirements:** A grade of "C" or better in all courses used for this certificate.

**Credit Hour Requirements:** A total of 18 credit hours is required.

**Program Code:** 5062CP

**CIP Code:** 131501

Advisement

Students in the Paraeducator Certification Program should meet with the program advisor for course and program advisement. Call Kristin Radulovich at 801-626-6309 for more information or to schedule an appointment.

Required Courses

- EDUC 1010 CEL - Exploring Teaching: (3)
- EDUC 2010 CEL - Human Exceptionality: (3)
- EDUC 2800 - Instruction, Technology, Assessment, and Planning: (3)
- EDUC 2820 - Creating a Learning Environment: (3)
- CHF 1500 SS/EDI - Human Development: (3)
- COMM 2110 HU CEL - Interpersonal and Small Group Communication: (3)

Secondary Education Licensure

**Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department). Select an academic teaching major and teaching minor or composite teaching major and teaching minor that WSU offers. In many departments the teaching major and minor are different from the departmental major and minor.

**Minor:** A teaching minor is recommended and may be required with most teaching majors (please consult your content major advisor). A teaching minor is generally not required with a composite teaching major (refer to specific composite major program requirements).

**Grade Requirements:** Secondary Education students must meet minimum major course grade requirements and maintain a cumulative GPA of 3.00 or higher in all college work and achieve at least a "B-" grade in each professional education course to continue in the program.

**Credit Hour Requirements:** A total of 120 semester hours is required for graduation; a minimum of 24 of these is required within the Secondary Licensure program. A total of 40 upper division credit hours is required (courses number 3000 and above).

*The academic teaching major and teaching minor must consist of not less than 30 and 16 semester hours respectively, or a composite major of a minimum of 46 semester hours. The teaching major and teaching minor must be in subjects taught in Utah public secondary schools. Either the major or minor must be a subject which Utah secondary schools are required to teach (those marked with asterisks do not satisfy this second requirement - see the list of teaching majors and minors below).*

Admission Requirements

Declare a program of study (see Enrollment Services and Information). Follow the provisional admission requirements outlined under the Teacher Education Department.
Advisement
All Secondary Education students should meet with an advisor in the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment. In addition, students should seek advisement from both their teaching major and their teaching minor program areas.
For Secondary Licensure candidates, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Teaching Major and Teaching Minors (when required) that WSU offers; and IV. Professional Education Courses. Details for each of these required areas follow.

General Education

I. University and General Education Requirements
Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. The following courses required for the Secondary Education Licensure Program will also satisfy general education requirements: COMM 1020 or COMM 2110 and CHF 1500.

Course Requirements for Licensure

II. Support Courses Required (or equivalent)
EDUC 1010 CEL - Exploring Teaching Credits: (3)

One course from the following
CHF 1500 SS/EDI - Human Development Credits: (3) or
PSY 3140 - Adolescent Psychology Credits: (3)

One course from the following
COMM 1020 HU - Principles of Public Speaking Credits: (3) or
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

III. Teaching Majors and Minors

Majors and Minors
Chemistry
Dance
French
German
Mathematics
Physics
Psychology*
Spanish
Communication*
English
Geography
History
Physical Education
Political Science*
Sociology*
Theatre Arts

*Subjects which Utah secondary schools are not required to teach

Minors Only
Art
Biology
Business Education
Business/Marketing Education
Computer Science
Earth Science
Economics
ESL (English as a Second Language)
Health Promotion
Physical Education/Coaching Education Dual Teaching
Licensure Programs
Special Education (Mild/Moderate)

Composite Majors
In lieu of the major and minor, a candidate may elect a composite teaching major which consists of a minimum of forty-six (46) hours of subjects in closely related fields.

IV. Professional Education Courses Required (24 hours)

Secondary Teacher Education Core
EDUC 3220 - Foundations of Diversity Credits: (2)
EDUC 3265 - The Exceptional Student Credits: (2)
EDUC 3315 - Media Integration in the Secondary School Setting Credits: (2)
EDUC 3900 - Preparing, Teaching, and Assessing Instruction Credits: (2)
EDUC 3910 INT - Secondary Education Practicum Credits: (2)
EDUC 3935 - Reading and Writing Across the Secondary Curriculum Credits: (2)

Secondary Teacher Education Student Teaching
EDUC 4940A INT - Student Teaching in Secondary Education Credits: (8)
EDUC 4950 - Integrated Secondary Student Teaching Seminar Credits: (4)

Additional Information:
Provisional admission to teacher education is required prior to enrollment in 3000 level and above education classes. HIST 4500 is a required course for the Social & Behavioral Science Teaching Major/Teaching Minor.
The Professional Education component of the Secondary Education program requires two semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and most of the major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Special Education (BS)
Program Prerequisite: Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department).
Specialization: Required (9 or more credit hours). Students may choose any academic teaching minor (refer to department listings for specific requirements). Or, choose a specialization area (see below).
Grade Requirements: A “B-” or higher is required for any upper division EDUC or MED course, in addition, Special Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work.
Credit Hour Requirements: A minimum of 120 credit hours is required for graduation. The following are required within the program: Support Courses 21; Specialization 9; Professional Education 12; Special Education 44. A total of 40 upper division credit hours is required (courses number 3000 and above).
Program Code: 5007BS
CIPC: 131001

Admission Requirements
Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department. Also refer to the Department Advisor Referral List.)
Advisement
All Special Education majors should meet with an advisor in the Teacher Education Advisement Center and with an assigned advisor from the Special Education faculty. Call 801-626-7694 for more information or to schedule an appointment. For Special Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Area of Specialization; and, IV. Professional Courses. Details for each of these required areas follow.

Program Learning Outcomes
Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;
Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy; and
Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

General Education

I. University and General Education Requirements
Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Special Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, MATH QL 2020, and CHF SS/EDI 1500. Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be GEO PS 1350 (Principles of Earth Science), CHEM 1360 PS/PHYS PS 1360 (Principles of Physical Science), or BTNY LS 1370/MICR LS 1370/ZOOL LS 1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree

II. Support Courses Required (or equivalent) (21 credits)

EDUC 1010 CEL - Exploring Teaching Credits: (3)
EDUC 2010 CEL - Human Exceptionality Credits: (3)
CHF 1500 SS/EDI - Human Development Credits: (3)

COMM 1020 HU - Principles of Public Speaking Credits: (3) or
COMM 2110 HU CEL - Interpersonal and Small Group Communication Credits: (3)

MATH 2010 - Arithmetic for Elementary Teachers Credits: (3) Grade of C or above required
MATH 2015 - Algebra for Elementary Teachers Credits: (3) Grade of C or above required
MATH 2020 QL - Geometry for Elementary Teachers Credits: (3) Grade of C or above required

And at least 6 credit hours from the following

ENGL 3300 - Children's Literature Credits: (3)
EDUC 3390 - Literacy in the Primary Grades Credits: (2)
EDUC 3430 - Creative Processes in the Elementary School Credits: (3)
EDUC 4250 - Second Language Acquisition: Theories and Implementation Credits: (3)
EDUC 4270 - Literacy Strategies for Teaching English Language Learners Credits: (3)
CHF 2400 SS/EDI - Family Relations Credits: (3)
ECED 2500 - Development of the Child Credits: (3)
ECED 3640 - Collaborating with Families of Young Children Credits: (3)
PSY 3000 - Child Psychology Credits: (3)
PSY 3140 - Adolescent Psychology Credits: (3)
PEP 3660 - Adapted Physical Education Credits: (3)
III. Area of Specialization options (9 credits)

In addition, complete a 9-hour specialization in one of the areas listed below. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

- Mathematics
- English as a Second Language
- Early Childhood
- Family Studies
- Language Arts (Secondary)
- International Education

IV. Courses Required for the Major (55 credits)

Level 1 - Foundation Education Courses (14 credits)

- EDUC 3115 - Media Integration in Elementary Education Settings Credits: (2)
- EDUC 3120 - Reading Instruction in the Primary Grades Credits: (3)
- EDUC 3145 - Educational Psychology, Child Development, and Classroom Management Credits: (3)
- EDUC 3205 - Culturally and Linguistically Responsive Teaching Credits: (3)
- EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching Credits: (3)

Level 2 - Inclusion Methods (15 credits)

- EDUC 3371 - Assistive Technology Credits: (1)
- EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers Credits: (2)
- EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings Credits: (3)
- EDUC 4521 - Practicum in Special Education A Credits: (3)
- EDUC 4535 - Strategic Plan for Disability Credits: (3)
- EDUC 4580 - Instructional and Transition Planning for Special Education Students Credits: (3)

Level 3 - Special Education Methods (16 credits)

- EDUC 3590 - Working with Students with ELA or Math Disabilities in Resource Settings Credits: (3)
- EDUC 4515 - IEP Planning and Special Education Law Credits: (4)
- EDUC 4530 - Principles and Applications of Special Education Assessment Credits: (3)
- EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis Credits: (3)
- EDUC 4582 INT - Practicum in Special Education B Credits: (3)

Student Teaching in Special Education (12 credits)

- EDUC 4680A INT - Special Education Student Teaching Credits: (8)
- EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors Credits: (4)
Post Master's Certificate in Teaching

Elementary Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

Program Code: 5042GC
CIPC: 131202

GPA Requirements for GCT in Elementary Teaching Students

Following admission to the GCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements for GCT in Elementary Teaching

The 33 credit hour program of study consists of:

- 24 hour credits hours in specific coursework.
- Practicum is a 2 credit hour which requires 60 clock hours in an elementary classroom.
- Student teaching is a 6 credit hour which requires 60 full teaching days in elementary classrooms.

Required Courses

EDUC 6020 - Diversity in Education Credits: (2)
EDUC 6050 - Curriculum Design, Evaluation & Assessment Credits: (3)
EDUC 6110 - Introduction to Classroom Management Credits: (3)
EDUC 6229 - Instructional Technology for Pre-service Teachers Credits: (2)
EDUC 6265 - Foundations of Inclusive Teaching Credits: (2)
EDUC 6311 - Content Instruction in the Elementary School: Science Credits: (2)
EDUC 6312 - Content Instruction in the Elementary School: Mathematics Credits: (2)
EDUC 6313 - Content Instruction in the Elementary School: Social Studies Credits: (2)
EDUC 6314 - Reading Instruction in Elementary Schools Credits: (3)
EDUC 6316 - Language Arts Instruction in Elementary Schools Credits: (2)
EDUC 6317 - Arts Integration for Elementary Teachers Credits: (2)
EDUC 6860 INT - Practicum in Education Credits: (2) (2 credit hours required)
EDUC 6870 INT - Student Teaching and Seminar in Elementary Education Credits: (6) (6 credit hours required)
Secondary Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor’s degree from an accredited college or university.

Program Code: 5043GC
CIPC: 131205

GPA Requirements for GCT in Secondary Teaching Students

Following admission to the GCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements for GCT in Secondary Teaching

The program of study consists of:

- 17 credit hours in specific coursework.
- Practicum is a 2 credit hour "course" which requires 60 clock hours in a secondary, subject-specific classroom.
- Student teaching is a 6 credit hour "course" which requires a minimum of 60 full teaching days in a secondary, subject-specific classroom.

Required Courses

- EDUC 6020 - Diversity in Education Credits: (2)
- EDUC 6050 - Curriculum Design, Evaluation & Assessment Credits: (3)
- EDUC 6060 - Instructional Strategies Credits: (2)
- EDUC 6110 - Introduction to Classroom Management Credits: (3)
- EDUC 6229 - Instructional Technology for Pre-service Teachers Credits: (2)
- EDUC 6265 - Foundations of Inclusive Teaching Credits: (2)
- EDUC 6320 - Content Area Literacy Instruction Credits: (3)
- EDUC 6860 INT - Practicum in Education Credits: (2) (2 credit hours required)
- EDUC 6880 INT - Student Teaching and Seminar in Secondary Education Credits: (6) (6 credit hours required)

Some additional courses may be required for endorsement area.
Special Education Teaching Graduate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

Program Code: 5045GC
CIPC: 131001

Required Courses

EDUC 6515 - Foundations in Special Education: Law and Practice Credits: (3)
EDUC 6530 - Principles and Applications of Special Education Assessment Credits: (3)
EDUC 6540 - Advanced Managing Student Behavior Credits: (3)
EDUC 6580 - Advanced Learning Strategies and Transition for Special Education Students Credits: (3)

EDUC 6565 - Advanced Instructional Methods and Practices: English Language Arts Credits: (3) concurrently with
EDUC 6860 INT - Practicum in Education Credits: (2)

EDUC 6575 - Advanced Instructional Methods and Practices: Mathematics Credits: (3) concurrently with
EDUC 6860 INT - Practicum in Education (2)

EDUC 6890 INT - Student Teaching and Seminar in Special Education Credits: (6)
EDUC 6500 - Curriculum Planning and Evaluation for Special Education Students Credits: (3)
EDUC 6529 - Assistive Technology Credits: (2)

Graduate Studies in Education

Director: Louise Moulding
Location: Swenson Building, Room 402
Telephone Contact: Ellyn Raynor, 801-626-6278
Website: https://weber.edu/med

Areas of Emphasis

Select one of the following areas of emphasis:

Graduate Studies in Education, Educational Technology (MEd)
Graduate Studies in Education, Family Life Education (MEd)
Graduate Studies in Education, Higher Education Leadership (MEd)
Graduate Studies in Education, Sport Coaching Leadership (MEd)
Graduate Studies in Education: Curriculum & Instruction (MEd)
Graduate Studies in Education: Educational Leadership (MEd)
Graduate Studies in Education: Educational Leadership Post-Masters Certificate
Graduate Studies in Education: Inclusive Early Childhood Education and Care (MEd)

Curriculum and Instruction: The Master of Education with an emphasis in Curriculum and Instruction is designed for candidates seeking more in-depth knowledge and skill for classroom instruction. In addition to foundation courses, students may select from a variety of electives including courses leading to license endorsements. Candidates will complete a classroom or school-based project as a culminating experience.
Educational Leadership: The Master of Education with an emphasis in Educational Leadership is designed for candidates seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for a School Leadership license.

Educational Technology: The Master of Education with an emphasis in Educational Technology is designed for candidates seeking in-depth knowledge and skill in the use of educational technology for enhancing instruction and student engagement. Candidates will complete a project or thesis as a culminating experience.

Family Life Education: This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life education and family systems in general. Candidates will also integrate the best practices for theory-based program delivery, management, evaluation, and research.

Higher Education Leadership: The Master of Education with an emphasis in Higher Education Leadership is designed for candidates seeking to work in a higher education environment to gain a deep understanding of the roles, mechanisms, and policies that impact higher education. Candidates can select an intensive internship or a site-based research project as a culminating experience.

The Master of Education with an emphasis in Inclusive Early Childhood Education and Care is designed for all early childhood professionals to acquire knowledge and skills for working with diverse children, families, and communities. There is a focus on the change in systemic inequities by using emotionally responsive practices and creating learning communities in a relationship-based approach. Candidates will complete a thesis as a culminating experience.

The Master of Education with an emphasis in Sport Coaching Leadership is designed for sport coaches to acquire content knowledge, sport coaching methodologies, and enhance their individual coaching in the area of sport. Upon completion of the program, students may pursue jobs as an athletic coach, athlete development specialist, athletic director, or operations manager. Candidates will complete a project or thesis as a culminating experience.

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadline is March 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

- Admission to Weber State University and application for the MEd Program.
- Payment of the MEd program application fee.
- Verification of a bachelor's degree from an accredited institution.
- Official transcripts from all institutions attended.
- Recommendation forms (3).
- Minimum GPA of 3.00 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.
- Writing proficiency assessment with a minimum score of 4 out of 6.
- Interview with Graduate Studies in Education faculty members with a score of 4 out of 6.
Additional Requirements for Educational Leadership Emphasis/Graduate Certificate:

In addition to the above, those seeking admission to the Educational Leadership emphasis must also:

- Clear a USBE fingerprint background check;
- Hold a Professional Educator License;
- Be deemed effective or higher by: an evaluation system meeting the standards of R277-531; or the LEA's equivalent on the applicant's most recent evaluation;
- Have a recommendation from: the individual's immediate administrative supervisor; or an LEA-level administrator with knowledge regarding the individual's potential as an education leader.

Additional Requirements for International Students

Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu

- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5 or Duolingo 120.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.

GPA Requirements for all GSE Students

Following admission to the Graduate Studies in Education program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

Program Code: 5056MED with Emphasis in 5057 (Curriculum and Instruction) or 5058 (Educational Leadership) or 50XX (Educational Technology) or 5059 (Family Life Education) or 5060 (Higher Education Leadership) or 50XX (Inclusive Early Childhood Education and Care) or 50XX (Sport Coaching Leadership).

CIPC: 130101

Program Learning Outcomes

Critical Analysis -- Critically analyze key theories, issues, trends, and/or concepts affecting the education/family system. Issues, theories, and/or concerns are critically considered, clearly stated, and comprehensively described. Information is incorporated with interpretation and/or evaluation to develop a comprehensive analysis or synthesis. Viewpoints of experts are thoroughly questioned and/or analyzed. Complex issues are analyzed in-depth. Limits of the analysis, perspective, and/or thesis are acknowledged.

Research -- Design and/or implement research or evaluation related to current issues. Specific research/evaluation question(s) and/or aims of the study are clearly stated and described in the context of previous studies relevant to education. Research/evaluation design and methods for data collection and analysis are clearly explained and analyzed for their strengths and weaknesses in relation to the research question. Results/outcomes/products are clearly and accurately discussed in the context of the research/evaluation question, and limits of the study's findings are identified and discussed in relation to the question and methods.
Writing -- Model professional-level writing skills in academic and non-academic settings. The written work includes an introduction and conclusion that clearly state and explain the thesis, position, or purpose of the work. Information is organized in a logical and easy to understand format that makes effective use of transitional statements between ideas. The writing is mostly free of errors relative to effectively communicating ideas. The tone and style of writing is appropriate to a professional/academic and/or non-academic audience.

Evaluation -- Create and/or defend an evidence-based argument regarding effective models within education contexts. Evaluation of arguments contains thorough and insightful explanation, reviews logic/reason, examines feasibility of solution(s), and weighs impacts of solution(s). Proposes one or more solutions/hypotheses that indicates a deep comprehension of the problem/issue. Solution/hypotheses are sensitive to contextual factors as well as ethical, logical, and cultural dimensions of the problem/issue. Studies/reports used are appropriate to the topic and are from current and professional sources.

**GPA Requirements for all MEd Students**

Following admission to the Graduate Studies in Education program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

**Program Code:** 5056MED with Emphasis in 5057 (Curriculum and Instruction) or 5058 (Educational Leadership) or 50XX (Educational Technology) or 5059 (Family Life Education) or 5060 (Higher Education Leadership) or 50XX (Inclusive Early Childhood Education and Care) or 50XX (Sport Coaching Leadership).

**CIPC:** 130101
Program Learning Outcomes

1. Critical Analysis -- Critically analyze key theories, issues, trends, and/or concepts affecting the education/family system.
   1. Issues, theories, and/or concerns are critically considered, clearly stated, and comprehensively described.
   1. Information is incorporated with interpretation and/or evaluation to develop a comprehensive analysis or synthesis.
      Viewpoints of experts are thoroughly questioned and/or analyzed.
   1. Complex issues are analyzed in-depth. Limits of the analysis, perspective, and/or thesis are acknowledged.
2. Research -- Design and/or implement research or evaluation related to current issues.
   1. Specific research/evaluation question(s) and/or aims of the study are clearly stated and described in the context of previous studies relevant to education.
   2. Research/evaluation design and methods for data collection and analysis are clearly explained and analyzed for their strengths and weaknesses in relation to the research question.
   3. Results/outcomes/products are clearly and accurately discussed in the context of the research/evaluation question, and limits of the study's findings are identified and discussed in relation to the question and methods.
3. Writing -- Model professional-level writing skills in academic and non-academic settings.
   1. The written work includes an introduction and conclusion that clearly state and explain the thesis, position, or purpose of the work.
   2. Information is organized in a logical and easy to understand format that makes effective use of transitional statements between ideas. The writing is mostly free of errors relative to effectively communicating ideas.
   3. The tone and style of writing is appropriate to a professional/academic and/or non-academic audience.
4. Evaluation -- Create and/or defend an evidence-based argument regarding effective models within education contexts.
   1. Evaluation of arguments contains thorough and insightful explanation, reviews logic/reason, examines feasibility of solution(s), and weighs impacts of solution(s).
   2. Proposes one or more solutions/hypotheses that indicates a deep comprehension of the problem/issue.
      Solution/hypotheses are sensitive to contextual factors as well as ethical, logical, and cultural dimensions of the problem/issue.
   3. Studies/reports used are appropriate to the topic and are from current and professional sources.

Graduate Studies in Education, Educational Technology (MEd)

Educational Technology: The Master of Education with an emphasis in Educational Technology is designed for candidates seeking in-depth knowledge and skill in the use of educational technology for enhancing instruction and student engagement. Candidates will complete a project or thesis as a culminating experience.

Program Code: 5056MED with Emphasis in XXX (Educational Technology)
CIPC: 131202

Admission Requirements

The Graduate Studies in Education program is selective with a limited number of openings available for qualified students. Admission deadline is March 15 for Fall semester. For additional information contact the Graduate Studies in Education office, (801) 626-6278. The following items are required:

- Admission to Weber State University and application for the GSE Program.
- Payment of the GSE program application fee.
- Verification of a bachelor's degree from an accredited institution.
- Official transcripts from all institutions attended.
- Recommendation forms (3).
- Minimum GPA of 3.00 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate coursework.
- Writing proficiency assessment with a minimum score of 4 out of 6.
Interview with Graduate Studies in Education faculty members with a score of 4 out of 6.

Additional Requirements for International Students:

Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5.
Oral language proficiency assessment.
Weber State University-accepted bachelor's degree.
Courses evaluated into the equivalent of American credits and letter grades.
Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.

GPA Requirements for all MEd Students

Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

Course Requirements

The 36 credit-hour program of study consists of 12 credit-hours foundation requirement, 15 credit-hours professional core requirement, 3 credit hours of graduate electives, and 6 credit-hours to complete a master's project/thesis.

Foundations (12)

GSE 6000 - Fundamentals of Graduate Study Credits: (2)
EDUC 6020 - Diversity in Education Credits: (2)
GSE 6030 - Advanced Educational Psychology Credits: (2)
GSE 6080 - Conducting Educational Research Credits: (3)

Emphasis Specific Courses (15)

GSE 6501 - Introduction to K-12 Coding Credits: (3)
GSE 6502 - Advanced Educational Technology Credits: (3)
GSE 6503 - Intersections of Science, Technology and Culture Credits: (3)
GSE 6504 - Data Science with R for K-12 Education Credits: (3)

GSE 6950 - Supervised College Teaching Credits: (3)
Course Attributes

Attributes are short acronyms embedded into course titles that identify specific elements of content and/or pedagogy within a course. Content refers to a focus on agreed-upon outcomes. Pedagogy refers to a focus on use of specific types of instructional approaches or strategies.

The purpose of the attributes is to support the organizational mission by increasing:

- Advising transparency for students
  - Identify required course work such as General Education or Diversity courses.
  - Identify specific content and pedagogy that may inform appropriate course selection.
- Institutional identification by making visible engagement in specific learning outcomes and high impact practices, particularly for underrepresented students.
- Third-party recognition of University accomplishments, such as Carnegie Foundation recognition of the Center for Community Engaged Learning (CEL) attribute.
- Facilitation of interdisciplinary study and University curriculum initiatives.
- Third-party recognition of University accomplishments, such as Carnegie Foundation recognition of the Center for Community Engaged Learning (CEL) attribute.
- Leverage for graduates in applying to graduate school or for employment, by defining attributes on the back of transcripts and/or offering certificates or recognitions for completing a given number of courses. The scope of an attribute may be limited to courses within a specific department or college, or inclusive of courses across the University. A single course may not hold more than three attributes.

High Impact Educational Experiences

High Impact Educational Experiences promote student learning through curricular and co-curricular activities that are intentionally designed to foster active and integrative student engagement by utilizing multiple impact strategies.

General Education

The purpose of the Weber State University General Education program is to provide students with foundational knowledge and intellectual tools that enhance and transcend their academic program of study. The big questions posed by General Education courses address significant issues about the world. General Education courses help students apply their learning and develop
personal and social responsibility, which is demonstrated through signature assignments. More information is available in the Catalog's General Education Requirements and the General Education website.

<table>
<thead>
<tr>
<th>Attribute</th>
<th>Abbreviation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Composition</td>
<td>EN1</td>
<td>Students will develop practices of successful academic writing that will serve as a foundation for continued writing experiences across the curriculum. Students will focus on the writing process, writing for specific audiences, collaboration with peers, and on the interrelationship between reading and writing.</td>
</tr>
<tr>
<td>Composition</td>
<td>EN2</td>
<td>Students will focus on writing arguments, conducting library research, and documenting sources, practices which serve as a foundation for continued writing experiences across the curriculum. Students will further develop practices of successful academic writing introduced in EN1 courses, including the writing process, writing for specific audiences, and collaboration with peers.</td>
</tr>
<tr>
<td>American Institutions</td>
<td>AI</td>
<td>Students will demonstrate reasonable understanding of the history, principles, form of government, and economic system of the United States. Students will use primary documents, engage in a diversity of viewpoints, as well as interpret, communicate and integrate information about historical, political, and economic systems.</td>
</tr>
<tr>
<td>Quantitative Literacy</td>
<td>QL</td>
<td>Students will demonstrate quantitative reasoning skills beyond those found within required high school Mathematics courses and at an appropriate introductory university level. Students will focus on interpretation, representation, calculation, application/analysis, assumption, communication, and creation of quantitative evidence.</td>
</tr>
<tr>
<td>Information Literacy</td>
<td>IL</td>
<td>Students will learn the Library and Web research skills needed for success in college and for lifelong learning.</td>
</tr>
<tr>
<td>Equity, Diversity, and Inclusion</td>
<td>EDI</td>
<td>Students will engage with human diversity/multiculturalism that is directly relevant to present-day society in a course that is comparative in nature (multi-cultural or cross-population), treats multiple aspects of diversity and/or culture (such as race, gender, age, class, etc.) in a single area of study, or is specific to a particular group of people or culture that is not present or is under-represented in the general social-economic-political framework of the United States.</td>
</tr>
<tr>
<td>Humanities</td>
<td>HU</td>
<td>Students will derive evidence from primary sources regarding the complexities and changes in human experience through analytical reading and critical thought; describe how human experience is shaped by social, cultural, linguistic, and/or historical circumstances; demonstrate attentiveness to linguistic, visual, and/or audio texts when communicating meaning or use appropriate verbal, perceptual, or imaginative skills when organizing meanings, developing a sense of self, and balancing potentially disparate values.</td>
</tr>
<tr>
<td>Creative Arts</td>
<td>CA</td>
<td>Students will discuss the scope and variety of the fine arts; recognize the aesthetic standards used in making critical judgments in various artistic fields; analyze and articulate understanding of a range of artistic processes; participate in an introductory performance, production or design experience in the arts; or demonstrate how the creative process is informed and limited by social and historical contexts.</td>
</tr>
<tr>
<td>Social Sciences</td>
<td>SS</td>
<td>Students will demonstrate understanding of social and behavioral science methods, concepts, and theories; formulate basic questions about social behavior and phenomena through interpretive and systematic analyses; develop empirically-derived and theoretically-informed explanations of human behavior in both its individual and collective dimensions; or demonstrate a critically-reasoned understanding of social patterns and individual variation congruent with and divergent from those patterns.</td>
</tr>
<tr>
<td>Physical Sciences</td>
<td>PS</td>
<td>Students will demonstrate understanding of science as a way of knowing about the physical world, demonstrate understanding of forces in the physical world, discuss the flow of matter and energy through systems; develop evidence-based arguments regarding the effect of human activity on the Earth; or describe how the Physical Sciences have shaped and been shaped by historical, ethical, and social contexts.</td>
</tr>
<tr>
<td>Life Sciences</td>
<td>LS</td>
<td>Students will demonstrate understanding of science as a way of knowing about the natural world; demonstrate basic understanding of how organisms live, grow, respond to their environment, and reproduce; discuss the organization and flow of matter and energy through biological systems; explain from evidence patterns of inheritance, structural unity, adaptation, and diversity of life on Earth; or describe how the Life Sciences have shaped and been shaped by historical, ethical, and social contexts.</td>
</tr>
</tbody>
</table>
Course Descriptions

ACTG 1010 - Practical Accounting & Taxes

Credits: (3)
Description: A pragmatic look at financial accounting and federal taxes as they relate to the individual's personal life. Designed for non-accounting majors.
Note: This course is not currently being offered.

ACTG 2010 - Survey of Accounting I

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online, 1st Blk
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Introduction to accounting information, the basic accounting cycle, and consideration of selected financial statement topics. The course emphasizes the uses and limitations of accounting information in economic decision-making, as well as problem-solving, oral and written communication skills, and computer skills.

ACTG 2020 - Survey of Accounting II

Credits: (3)
Typically Taught Summer Semester: Full Sem, 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Further consideration of selected financial statement topics. Analysis of cost behavior and the uses and limitations of accounting information in planning, controlling, and decision-making processes. Emphasizes skills in problem-solving, oral and written communication, and computer skills.
Pre-requisite(s): ACTG 2010.

ACTG 2891 - Coop Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 2892 - Coop Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 2893 - Coop Work Experience

Credits: (1-3)
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 2921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
ACTG 3110 - Intermediate Financial Accounting I

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Pre-requisite(s): ACTG 2020.

ACTG 3120 - Intermediate Financial Accounting II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Pre-requisite(s): BSAD 2899 and ACTG 3110.

ACTG 3130 - Accounting Data Analytics

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The purpose of this course is to increase student's technical and analytical skills and at the same time provide a review of accounting topics so that as professional accountants, students will have the skills to manage data effectively in a variety of accounting positions. Software products like Microsoft Excel, Microsoft SQL, and Tableau will be utilized in this class. Specifically, this course will enhance understanding of AIS data elements and data structures, critical thinking skills, and technical skills through the use of software packages and a variety of accounting topics.

Pre-requisite(s): ACTG 3110.

ACTG 3300 - Cost Accounting

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Cost determination for budgeting, product costing, process costing, cost assignment and allocation, standard costing, and decision making in manufacturing and service organizations.

Pre-requisite(s): BSAD 2899 and ACTG 2020.

ACTG 3400 - Taxation of Individuals

Credits: (3)

Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Basic concepts of gross income, deductions, credits, special computations, and property transactions for individual taxpayers.

Pre-requisite(s): ACTG 2020.

ACTG 3500 - International Accounting

Credits: (3)

Description: This course reviews major issues in international accounting, including historical, cultural, and environmental influences that impact various national accounting systems. Harmonization of standards is also examined.

Pre-requisite(s): ACTG 2020.

Note: Course not currently being offered.

ACTG 3750 - Accounting & Information Systems

Credits: (3)

Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online

Course Fee: $60.00

Course Fee Purpose: Online software training modules for Microsoft office and other pertinent software for class assignments. Currently provided in Percipio by Skillport.

Description: Analysis, design, and implementation of accounting information systems with special emphasis on an understanding of accounting cycles, internal control concepts, and data flows associated with basic economic entities of the organization.

Pre-requisite(s): BSAD 2899 and ACTG 3110.

ACTG 4130 - Advanced Accounting

Credits: (3)

Description: A study of business combination accounting. The course will also include an introduction to government and fund accounting.

Pre-requisite(s): BSAD 2899 and ACTG 3120.

Note: Course not currently being offered.
ACTG 4140 - Accounting for Global and Complex Entities

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Issues in international accounting not covered in Intermediate Accounting are covered in this course. The course also covers concepts related to accounting for complex entities, consolidated entities and partnerships.
Pre-requisite(s): ACTG 3120 and BSAD 2899.

ACTG 4440 - Taxation of Business Entities

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of the income taxation of corporations (including S corporations), limited liability companies, and partnerships.
Pre-requisite(s): BSAD 2899 and ACTG 3400.

ACTG 4510 - Auditing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Generally-accepted auditing standards, professional responsibilities, evidence, internal control, sampling, audit tests, and audit reports.
Pre-requisite(s): BSAD 2899 and (ACTG 3120 or concurrent enrollment in ACTG 3120).

ACTG 4801 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups by arrangement on special topics.
Pre-requisite(s): Instructor Approval.

ACTG 4802 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups by arrangement on special topics.
Pre-requisite(s): Instructor Approval.

ACTG 4803 - Individual Study

Credits: (1-3)
Description: Individual work or work in small groups by arrangement on special topics.
Pre-requisite(s): Instructor Approval.

ACTG 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ACTG 4850 - Accounting Study Abroad

Credits: (1-3)
Description: This course is designed for students who wish to explore accounting theory and practice in countries other than the U.S. Students will study international accounting as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): BSAD 2899.
Can be repeated once up to 6 credits.

ACTG 4891 - Accounting Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 4892 - Accounting Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.
ACTG 4893 INT - Accounting Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): Instructor Approval.

ACTG 4921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

AERO 1010L - General Military Leadership Lab I

Credits: (0)
Typically Taught Fall Semester: Full Sem
Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1011 - Foundations of USAF II

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Development and organization of United States Air Force Defensive Forces, General Purpose Forces and Tactical Air Forces.

AERO 1011L - General Military Leadership Lab II

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1110 - General Military Leadership Lab I

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1111 - General Military Leadership Lab II

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 2010 - Airpower History I
AERO 2010L - General Military Leadership Lab III

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Development of various concepts of air power employment, emphasizing factors that have prompted research and technological change.

AERO 2011 - Airpower History II

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2011L - General Military Leadership Lab IV

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2830 - Directed Studies

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual study with a professor from Aerospace Studies (Air Force ROTC). Allows increased responsibility for GMC in an academic setting providing leadership/management skill development opportunities. May be repeated twice with a maximum of 3 credit hours.

AERO 3000 - Field Training

Credits: (1-4)
Typically Taught Fall Semester: Full Sem
Description: Four to five weeks of field training conducted at United States Air Force bases as arranged by the Professor of Aerospace Studies. Course prepares AFROTC students for entry into upper division AFROTC classes, the Professional Officer Corps, and for later commissioning into the US Air Force. The course offers a minimum of 269 hours of education and training in the areas of Officership, Air Force Orientation, Leadership, and Physical/Survival Training. May be repeated 3 times with a maximum of 4 credit hours.

AERO 3010 - Leadership Studies I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Writing, speaking, and listening as communication skills; management concepts; responsibilities and ethics for an Air Force junior officer.

AERO 3010L - POC Leadership Lab I

Credits: (0)
Typically Taught Fall Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.
AERO 3011 - Leadership Studies II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Principles of leadership, problem solving, decision, discipline, and human relations. Emphasis on career planning as an Air Force junior officer.

AERO 3011L - POC Leadership Lab II

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3110 - POC Leadership Lab I

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3111 - POC Leadership Lab II

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3010 - National Security Affairs I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Examines the need for national security, analyzes the evolution and formulation of American defensive policy, strategy and joint doctrine. Investigates methods of managing conflict and touches on arms control and terrorism.

AERO 4010L - POC Leadership Lab III

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4011 - National Security Affairs II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Examines conflict management, arms control, military law and Air Force issues and policies.

AERO 4011L - POC Leadership Lab III

Credits: (0)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4110 - POC Leadership Lab III

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4111 - POC Leadership Lab IV

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4830 - Directed Studies

Credits: (1-5)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual study with a professor from Aerospace Studies. Provides added leadership/management skill development opportunities to develop more competitive officer candidates. May be repeated 4 times with a maximum of 5 credit hours.

ANTH 1000 SS/EDI - Introduction to Anthropology

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Anthropology is the study of humankind, past and present: our origins and the development of cultural behavior and biological attributes. This course examines what it means to be human, describing and explaining human differences and similarities throughout time and across the world.

ANTH 1020 LS/SUS - Biological Anthropology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Explores human origins, evolution, and contemporary biological diversity by examining genetics, the human fossil record, primatology, and human ecology from a biocultural perspective.

ANTH 1040 HU/EDI - Language and Culture

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Explores the nature of human language and its role in sociocultural settings. Surveys a world sample of languages from the perspective of anthropological linguistics including language structure, social functions, geographical and historical variation, and cultural values.

ANTH 2010 SS/EDI - Peoples and Cultures of the World

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: A survey of cultures around the world, exploring their similarities and differences as observed by anthropologists.

ANTH 2030 SS EDI - Principles of Archaeology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Archaeology attempts to reconstruct prehistoric and early historic human life ways as well as long term cultural and biological evolutionary processes through the scientific study of material remains. This course focuses upon the history of archaeology, the ways in which archaeologists recover and analyze data, and the major theoretical perspectives used to interpret the past.

ANTH 2220 - Introduction to Forensic Anthropology

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course is an introduction to the principles of forensic anthropology, a subdiscipline of biological anthropology concerned with the identification of human skeletal remains in medico-legal contexts. Topics covered include a survey of the history of the field and the techniques used to determine age, sex, and physical characteristics of an individual from skeletonized remains, as well as methods used for positive identification, estimating time since death, and determining cause and manner of death. This course is offered in lower division format (ANTH 2220) and upper division format (ANTH 4220). Students must choose either the upper division course or the lower division course and will not receive credits for taking both courses.

ANTH 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and
credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ANTH 2920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)
**Workshop**
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ANTH 2950 - Elementary Anthropological Field Trip**

**Credits:** (1-3)
**Typically Taught Summer Semester:** 1st Blk
**Description:** Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.
**Pre-requisite(s):** Consent of instructor.
A maximum of three credit hours of ANTH 2950 can be applied toward graduation.

**ANTH 2990 - Special Topics in Anthropology**

**Credits:** (1-3)

**Variable Title**

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** A course allowing examination of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.

May be repeated 6 times with a maximum of 18 credit hours.

**ANTH 3100 - North American Archaeology**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** A general survey course concerning the archaeology of North America and an interpretation of its prehistory. The course material spans the time of initial human occupation of the continent through the early historic period, and emphasizes the three major cultural stages (Paleo Indian, Archaic, and Formative) which characterize the archaeological record of North America.

**ANTH 3150 - Archaeology of the Great Basin**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course introduces students to the archaeological and ethnohistoric peoples of the Great Basin while exploring how the environment and specific theoretical approaches have shaped how they are understood. A portion of the course also focuses on ongoing archaeological debates and current research in the region.

**ANTH 3200 - Archaeology of Early Civilizations**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course is designed to survey the broad range of early civilizations worldwide as they are known archaeologically, including the variety of ways and places in which they have arisen and the great diversity of peoples who created them. It examines highly complex societies in sub-Saharan and North Africa, native North and South America, East and South Asia, the Middle East, the Aegean and Celtic Europe, discussing in detail the diverse ways of life in these civilizations and how they shaped cultural forms, practices and ideas in the modern life of these regions today.

**ANTH 3250 - Human Osteology**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course is a detailed study of the anatomy of the human skeleton as a dynamic, living system. Consideration is given to the growth, structure, and function of bones, and to bioarchaeological and forensic skills such as the determination of ancestry, age, sex, stature, and pathology from skeletal remains. We will combine theory, its applications, and the limitation of osteological methods with laboratory analysis. Relevant techniques for the reconstruction of past populations and
the assessment of human biological variation will be introduced.

**ANTH 3300 - Archaeological Field Techniques**

**Credits:** (3-6)

**Typically Taught Summer Semester:** 2nd Blk

**Description:** Intensive field school involving archaeological excavation and/or survey, emphasizing modern field techniques, data recordation and recovery, map interpretation and production, and the proper conduct of problem-oriented archaeology.

**Pre-requisite(s):** ANTH 2030, one upper division archaeology course such as ANTH 3100, 3200, or 3400, and consent of instructor.

May be repeated up to 12 credit hours.

Note: Archaeology Track, Archaeological Technician Associate's Degree, and Archaeological Technician Certificate students must complete 6 credit hours.

**ANTH 3400 CRE - Archaeological Laboratory Techniques**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** Emphasizes student analysis and write-up of an artifact assemblage from an archaeological site. Weekly lectures familiarize students with analyses of prehistoric and historic archaeological materials, as well as the production of text, figures, tables, maps, and bibliographies for technical reports.

**Pre-requisite(s):** ANTH 2030 or consent of instructor.

**Suggested Requisite(s):** Students are strongly encouraged to take ANTH 3300 before taking ANTH 3400.

**ANTH 3500 - Advanced Cultural Anthropology**

**Credits:** (3)

**Description:** The nature of culture, its structure and function in the variety of human activities.

**Pre-requisite(s):** ANTH 1000 or ANTH 2010 or consent of instructor.

**ANTH 3600 - Culture Area Studies**

**Credits:** (1-3)

**Variable Title**

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Surveys selected societies in ethnographically different cultural areas of the world, such as Africa, Asia, North American Indians, Latin America, the Middle East, the Pacific, or the modern United States. When the number is used, it will be accompanied by a descriptive title and the credit authorized, which will appear on the student transcript. Offerings of same title may not be repeated for credit toward graduation.

**Pre-requisite(s):** ANTH 1000 or ANTH 2010 or consent of instructor.

May be repeated 6 times with a maximum of 18 credit hours.

**ANTH 3900 - Magic, Shamanism and Religion**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** A comparative study of the origins, development, and social functions of magic, shamanism, and religion within cultural systems around the world.

**ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Explores means by which archaeological inferences are made to decipher the material record of past human behavior. Includes the history of recent archaeological thought from the beginnings of scientific archaeology (ca. 1960's) through the profession of cultural resource management.

**Pre-requisite(s):** ANTH 2030.

**ANTH 4150 - Technical Skills in Anthropology**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course introduces students to visual and spatial data collection, management, and production skills through direct hands-on training and lecture. Topics include field and laboratory-based photography, manipulation and management of digital images, spatial data collection through Global Positioning Systems (GPS) and total stations, and digital map/image creation. While exercises used throughout the course focus on archaeological examples, the technical skills learned can easily be applied to all four subfields of anthropology.
ANTH 4200 - Anthropological Theory

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Historical and theoretical development of the major anthropological schools of thought including 19th century evolutionism, historical particularism, social anthropology, symbolic analysis, neoevolutionism, and cultural ecology.
Pre-requisite(s): ANTH 1000 or consent of instructor.

ANTH 4220 - Introduction to Forensic Anthropology

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This upper division course is an introduction to forensic anthropology, a subdiscipline of physical anthropology concerned with the identification of human skeletal remains in medico-legal contexts. Topics covered in this course include a survey of the history of the field and the techniques used to determine age, sex, and physical characteristics of an individual from skeletonized remains, as well as methods used for positive identification, estimating time since death, and determining cause and manner of death. Special attention will be given to Human Osteology as it is relevant in forensic contexts. This course is offered in lower division format (ANTH 2220) and upper division format (ANTH 4220). Students must choose either the upper division course or the lower division course and will not receive credits for taking both courses.
Suggested Requisite(s): ANTH 3250 - Human Osteology.

ANTH 4300 CRE - Anthropological Research Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Students will learn and apply the scientific methods of inquiry used in anthropological research. Required for majors and recommended for minors.
Pre-requisite(s): ANTH 1000 or a 2000-level course; and SOC 3600, or consent of instructor.

ANTH 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ANTH 4830 INT - Readings and/or Projects

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual readings and/or projects for anthropology students.
Pre-requisite(s): ANTH 1000, permission of instructor and approval of program coordinator.
Maximum of 6 hours may be applied toward graduation.

ANTH 4890 INT - Internship in Anthropology

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Anthropology majors may apply for internship opportunities that provide the student with both practical and research experiences.
Pre-requisite(s): 6 hours of upper-division anthropology courses, Anthropology major status, approval of Program Coordinator.
A student may complete a total up to 6 hours of internships for credit, with a maximum of 3 hours to be applied towards the Anthropology major.

ANTH 4900 CRE - Senior Capstone Seminar

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This class is a one-semester three credit hour seminar whose main goal is integration of materials within the major (especially what you have learned in Methods and Theory). The Senior Thesis is a culminating experience focused on a theoretical issue, practical research or applied work, a historical period or theme within anthropology. Students will write an academic thesis paper which centers on a topic chosen by the student in consultation with the course instructor and, depending on the anthropological subfield, another faculty member in this department. The
project requires approval of the course instructor and may include an applied or fieldwork component. Students will develop a research question, prepare a literature review, collect and analyze data, complete and present a substantial research writing project (the senior thesis) using the skills they have acquired throughout their academic career, drawing particularly upon the required theory and methods classes in crafting their research proposals. Students will be encouraged to engage deeply with a topic they care about as they produce a Senior Thesis based on original scholarship that displays a refined understanding of current literature and enduring analytical perspectives in Anthropology. In addition to the research project, this course also examines anthropology as a career through presentations, readings, and discussions that help students prepare for the process of applying to graduate programs and/or explore career opportunities in which an anthropology degree can be applied.

Pre-requisite(s): ANTH 4300.

**ANTH 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)

**Workshop**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ANTH 4950 - Advanced Anthropological Field Trip**

Credits: (1-3)

Typically Taught Summer Semester: 1st Blk

Description: Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript. A maximum of three credit hours of Anthropology 4950 can be applied toward graduation.

**ANTH 4990 - Seminar in Anthropology**

Credits: (1-3)

Typically Taught Fall Semester: Full Sem

Description: An advanced course allowing in-depth study of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title with the credit authorized, which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.

Pre-requisite(s): ANTH 1000 or consent of instructor. May be repeated 6 times with a maximum of 18 credit hours.

**ARCH 1040 CA - Introduction to Architecture**

Credits: (3)

Typically Taught Summer Semester: Full Sem - Online

Typically Taught Fall Semester: Full Sem, Full Sem - Online

Typically Taught Spring Semester: Full Sem, Full Sem - Online

Course Fee: $50.00 for FTF sections; $15 for ONL sections

Course Fee Purpose: Computer equipment, lab aid to assist in learning software, consumable paper.

Description: An introductory course to allow students to learn about the field of architectural design, and other associated careers in conjunction with Building Design & Construction. Students will research and explore the world of architecture around them, and see how they might find a place therein.

**ARCH 1350 - Architectural Design Communications I**

Credits: (3)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Course Fee: $50.00

Course Fee Purpose: Computer, paper, lab aid, for the students to use in the classroom. The lab aids are available in person as well as on zoom or the phone.

Description: This will be a course to allow students to explore the field of Residential Design and Architecture. Students will research and present precedents of great residential design. Residential Design concepts will be taught and explored within the projects. Course content will include research-based assignments and presentations, along with studio design and work critiques. Students will create and present ideas and thoughts through the use of analog, digital and oral presentations. Students will begin to understand the difference between simply building houses, and creating a great piece of residential architecture. The
class will include architectural readings, interpretation thereof, and the design and production of architectural design and construction documents.

**Pre-requisite(s):** ARCH 1040.

**Pre-requisite/Co-requisite:** CM 1310.

**ARCH 2000 - Architectural Communications II**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $60.00

**Course Fee Purpose:** Computer, paper, lab aid, Architectural Model products, Maintenance and replacement of lab equipment.

**Description:** This course will introduce students to the representation of architecture. Students will develop presentation skills by use of digital and analog means. They will gain the ability to show and represent their architectural work by use of drawing interpretation, creation and physical model building. Scale, forces of nature, and accurate representation will be part of this class. The course content will include hands on learning assignments, architectural reproductions, independent designs and presentations.

At the end of the semester, students will create architecture with a final assignment where they will display the skills that they have learned during the semester.

**Pre-requisite(s):** ARCH 1350.

**ARCH 2830 - Directed Studies**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem Online

**Typically Taught Fall Semester:** Full Sem Online

**Typically Taught Spring Semester:** Full Sem Online

**Description:** Directed readings in Building Design, & Construction.

**Pre-requisite(s):** Department approval.

Can be taken for 3 credit hours three times for a maximum of 9 credits.

**ARCH 3000 SUS - Sustainable Building Design & Codes**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, Full Sem Online

**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Course Fee:** $15.00

**Course Fee Purpose:** For lab aid wages

**Description:** An analysis of sustainability in the green built environment including certifications such as LEED, Energy Star, RESNET, and the National Green Building Standard. Course discussions will include: What is Green Building and why does it make sense, Building Science fundamentals, planning for Green from the start, Green Building Economics, and Building performance analysis.

**ARCH 3100 - Residential Design Studio**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Summer Semester:** Full Sem Online

**Typically Taught Spring Semester:** Full Sem Online

**Course Fee:** $60.00

**Course Fee Purpose:** Computer, lab aid, able to print in any of the labs to 8.5x11 and 11x17 paper. $15 to offset the costs to operate and maintain the digital fabrication lab equipment. $10 fee for materials to build architectural models.

**Description:** This will be a course to allow students to explore the field of Residential Design and Architecture. Students will research and present precedents of great residential design. Residential Design concepts will be explored and employed within the explorations and projects. Course content will include research-based assignments and presentations, along with studio design and work critics. Students will create and present ideas and thoughts through the use of analog, and digital means. Students will begin to understand the difference between just building houses, and creating a great piece of residential architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural and construction documents.

**Pre-requisite(s):** ARCH 1040, ARCH 1350, and ARCH 2000.

**ARCH 3200 - Commercial Design Studio**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $60.00

**Course Fee Purpose:** Computer, lab aid, able to print in any of the labs, lab equipment, materials to build your architectural models.

**Description:** This will be a course to allow students to explore the field of Commercial Design and Architecture. Students will research and present precedents of examples of architecture and methods of construction. Design concepts will be explored and employed within the explorations and projects. Course content will include research-based assignments and presentations, along with studio design and work critiques. Students will create and
present ideas and thoughts through the use of analog, digital, and oral presentations. Students will begin to understand the difference between just building commercial square footage, and creating a great piece of architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural and construction documents. 

Pre-requisite(s): ARCH 3100.

ARCH 3500 - Architectural Rendering & Animation Studio

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Computers, paper, lab aid.
Description: This course introduces students to the basic tools and concepts used to create photo realistic renderings and animations for the Architecture industry. 

Pre-requisite/Co-requisite: ARCH 1350 or CM 2360 or IDT 2080.

ARCH 3660 - Structure for Architects & Construction Managers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Computer replacement, paper, lab aid.
Description: An introduction to the design implications of steel, reinforced concrete, and wood using a highly visual format and real-world examples to underline the key facets of structural principles that are necessary for collaborating confidently with design and construction team members. Emerging software tools will be used to size, specify, and analyze structural members.

Pre-requisite(s): Math QL.

ARCH 4350 - BIM Management & Coordination

Credits: (3)
Typically Taught Fall Semester: Full Sem; Full Sem
Typically Taught Spring Semester: Full Sem; Full Sem
Online
Course Fee: $50.00
Course Fee Purpose: Computer replacement, paper, lab aid.
Description: An advanced BIM course dealing with BIM project management, MEP modeling, clash detection, 4D scheduling, as well as emerging technology in the Building Design & Construction industry.

Pre-requisite(s): ARCH 2000 or CM 2360.

ARCH 4600 SUS - Senior Project

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a building design & construction problem. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation.

This course may be taken twice for credit.

ARCH 4830 - Directed Studies

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Directed readings in Building Design and Construction. Must have department approval.

Can be taken for 3 credit hours three times for a maximum of 9 credits.

ARCH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.

Pre-requisite(s): Consent of instructor.

May be repeated for a total maximum of 6 credit hours.

ART 1010 CA - Introduction to the Visual Arts
ART 1030 CA - Studio Art for the Non-Art Major

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk, Online
Course Fee: $10.00
Course Fee Purpose: KA digital lab access, equipment, software, printing
Description: Introduction to all forms of visual art covering processes (such as demonstration of the lost-wax process of metal casting), language, responses (oral and written assignments that utilize art-related terminology), issues (such as patronage, feminism or orientalism), and ways of seeing and understanding works of art. A general education course for the non-art major.

ART 1040 - Orientation to Visual Studies

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials & equipment.
Description: Orientation to the visual world including how we perceive and interpret visual messages, the impact of the visual on human relations, political exploitation of the visual and aesthetic issues in the visual arts. Topics are explored through written and creative projects designed to establish a context for expanded study in the visual arts. Includes curriculum planning for art and design majors, introduction to programs and faculty, and professional opportunities.

ART 1110 CA - Drawing I

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, Studio lab materials & equipment.
Description: This is the foundation drawing class for art majors and minors (not a general education class). Perceptual and conceptual development stressed. Variety of materials and procedures investigated.

ART 1120 - Design Concepts

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, Studio lab materials & equipment.
Description: An introduction to visual language, design principles, and compositional approaches in two and three dimensions. Basic approaches to sketching and modeling, improving compositional structures, and using form and color to communicate will be addressed.

ART 1130 - Approaches to Surface, Shape and Form

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $85.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: An in-depth exploration of diverse approaches to communicating through form and color in two and three dimensions. In the course of the semester, students will complete three workshop-style segments across a range of media to include 3D fabrication, analog 2D composition, and digital color & composition.
ART 1135 - Approaches to Materials, Space and Time

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $45.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: An in-depth exploration of a range of approaches to communicating through material, spatial and time-based methods. In the course of the semester, students will complete three workshop-style segments across a range of media to include analog experimental media, art & design in space and time & interaction.

ART 2015 - Drawing on the Land

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Description: Introduction to visual arts media as a productive way to investigate and interpret the natural environment. Appropriate for the art major as well as the non-art major. Participants will build a practice of observation, inquiry, and discovery via drawing and/or other media as designated by faculty. A significant portion of each course will be conducted in the field. Media focus and field location will be announced in advance. Some travel is required. Camping may be required. This course may be repeated twice with a maximum of 9 credit hours with different titles.

ART 2200 - Introduction to Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: An introduction to all printmaking classes covering the processes of intaglio, screen-printing, relief, lithography, and monotype. Students are provided with the fundamentals of each process and experience with each one. Note: This class is a prerequisite for all printmaking classes.

ART 2250 - Foundations of Photography: Black & White/Analog

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: A highly disciplined craft and concept course to help develop technical and aesthetic skills in black and white photography. Students learn the use of the camera, zone system of exposure, film, and print processing, and gain an aesthetic sense of the medium.

ART 2310 - Ceramics I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $182.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: The first course of a two-part introduction to ceramic art. Projects in hand-building and wheel-thrown objects are emphasized. Multiple surfacing and firing techniques will be explored.

ART 2350 - Small Metals/Jewelry I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio materials, printing, equipment, maintenance.
Description: Introduction to tools, materials, and basic techniques of fabrication and casting, with an emphasis on design.

ART 2420A - Bitmap Imaging

Credits: (1)
Description: Emphasis on the principle of bitmap imaging using industry-standard software. This course builds on studies in basic two-dimensional design and provides the
conceptual and technical foundation for more advanced work in color photography, graphic design, illustration, web-based and other digital media. Primary software: Adobe Photoshop.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420B - Vector Drawing

Credits: (1)
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: Emphasis on vector drawing as applied to problems in art and design. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in graphic design, animation, 3D modeling, and web design. Primary software: Adobe Illustrator.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420C - Digital Page Composition

Credits: (1)
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: Emphasis on the principles of layout using industry-standard software tools. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in typography and graphic design. Primary software: Quark Express.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420D - Design for the Internet

Credits: (1)
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: Emphasis on the principles of web design using industry-standard software. This course builds in studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in digital media and web design. Primary software: Macromedia Dreamweaver.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2430 - Introduction to Graphic Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio materials, printing, equipment, maintenance.

Description: Introduction to the technical foundations of graphic design along with the elements and principles of visual language. Emphasis on the development of software skills, image and symbol development, graphic systems and design process.

Co-Requisite(s): ART 1120.

ART 2435 - Graphic Design Practice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description:
Exploration of core elements and processes in the practice of graphic design. Includes project work in basic typography, image generation, visual metaphor, word/picture communication, and information design.

Pre-requisite(s): ART 2430.

ART 2450 CA - Foundations of Photography: Color/Digital

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $150.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment.

Description: A highly disciplined craft and concept course to help develop technical and aesthetic skills in color photography. Students will learn and explore the theory, practice, and aesthetics of shooting and printing color photographic materials. Using digital media and new technology as a means for creative expression and investigation in color photography will also be a main concern in this course.

ART 2600 - Painting I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab paint materials, equipment.
Description: Introduction to painting including the construction and design of paintings, investigations into the character and actions of various paints and techniques (traditional and contemporary) on a variety of surfaces.

ART 2700 - Sculpture I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance.
Description: An introduction to the essential methods and materials of sculpture including modeling, carving, casting, and construction with emphasis on contemporary activity in sculpture and with projects designed to practice concept development.

ART 2750 - Foundations of Video Art

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $117.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: This course will provide students with an introductory-level investigation of the skills and concepts used in experimental digital video making. Students will learn video recording and editing in an art context and to incorporate video into their own creative practice. Students will also be introduced to historical and contemporary aesthetic and conceptual issues surrounding video as a form of creative expression.

ART 2810 - Experimental Course

Credits: (1-6)
Experimental
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, model fees.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ART 2830 - Directed Readings

Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Course Fee: $18.00
Course Fee Purpose: KA digital lab access, equipment, software, printing
Description: Individually chosen readings on specialized topics supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated twice with a maximum of 3 credit hours.

ART 2850 - Furniture Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Furniture Design explores the intersection of Sculpture and Design through furniture and object making. The course addresses emerging and historic approaches to furniture including both functional and sculptural approaches by contemporary artists and designers. Students will develop intermediate to advanced skills in woodworking and metalworking while studying design and sculpture concepts and gaining a broad understanding of materials. Students will be introduced to CNC fabrication technology and CAD software for designing and creating functional furniture and furniture as sculpture.
May be repeated three times with a maximum of nine credit hours.

ART 2890 INT - Cooperative Work Experience

Credits: (1-2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.
Pre-requisite(s): Instructor approval (before enrollment) and previous or concurrent enrollment in art classes as specified by each area of emphasis.
May be repeated with a maximum of 6 credit hours.
ART 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $18.00
Course Fee Purpose: KA digital lab access, equipment, software, printing.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ART 3085 - Critical Issues in Art

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing.
Description: This course introduces students to the history of ideas in art from the ancient Greeks to the most contemporary currents, with a focus on Modernism and Post-Modernism up to the present. The goal of this course is the creation of a critical and theoretical foundation that will allow student to locate themselves and their work within the context of critical dialogues in the contemporary art world. Class time will involve discussions of assigned readings, with images presented to supplement and inform the ideas under consideration.
Pre-requisite(s): ART 1040 or consent of instructor.

ART 3120 - Figure Drawing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $135.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, model fees.
Description: Study of the anatomical structure of the human body. The student, by means of drawing from the model, explores literal and experimental interpretation of form.
Pre-requisite(s): ART 1110 and ART 1120; or consent of instructor.

ART 3150 - Intermediate Photography: Seminar

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
Description: This course is designed to introduce students early to the type of intense investigation and experimentation necessary to define and execute a semester long project in photography. Emphasis will be on development of ideas, fine-tuning technique, and improving ability in critical evaluation and writing. Other topics covered will be an introduction to professional medium-format cameras, and portfolio preparation.
Pre-requisite(s): ART 2250 and ART 2450.
May be repeated twice with a maximum of 6 credit hours.

ART 3200 - Intermediate Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: An intermediate level class with emphasis on screen-printing, relief, and intaglio with further exploration into print processes that include photographic stencils and multicolor printing.
Pre-requisite(s): ART 1120 and ART 2200; or consent of instructor.

ART 3210 - Relief Printmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $152.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.
Description: Students will learn the basic printmaking processes and traditional techniques of carving and printing both wood and linoleum relief blocks. Contemporary approaches to relief processes through digital media experimentation will be introduced. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. Safety issues will be addressed. Students will work from an introductory through an intermediate
level, with a variety of progressive projects, each resulting in a small edition. The course will be administered through lecture, process demos, in class work time, and peer/individual critiques. Materials fee will cover most studio costs, excluding plates and paper. May be repeated once up to 6 credit hours.

**ART 3215 - Etching Printmaking**

**Credits:** (3)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $152.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab printmaking materials, equipment, maintenance.  
**Description:** Students learn basic platemaking and printing techniques used in etching while learning to incorporate their own drawing skills and points of view. Line work, aquatint, and ancillary techniques will be explored. Safety issues will be addressed. Historical and contemporary prints and printmakers are reviewed. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. The course will be administered through lecture, demos, in class work time, and formal and informal peer critiques. Materials fee to cover most supplies except for printing plates and paper. May be repeated once up to 6 credit hours.

**ART 3310 - Ceramics II**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $182.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.  
**Description:** The second class in a two-part introductory ceramics series. This course expands upon hand-building and covers wheel-thrown techniques in greater depth. Additional approaches to clay surfacing are explored. Students learn clay mixing, glaze testing and principles of kiln firing.  
**Pre-requisite(s):** ART 2310.

**ART 3320 - Ceramic Processes**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio materials, equipment, printing.  
**Description:** Development of design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, surface enrichment.  
**Pre-requisite(s):** ART 2350 or consent of instructor.

**ART 3350 - Small Metals/Jewelry II**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $125.00  
**Course Fee Purpose:** KA digital lab access, equipment, software, printing, studio lab materials, equipment.  
**Description:** This course focuses on specific ceramic processes, trends or concepts that are not normally taught in the regular ceramics classes. Consult department or instructor for course topic prior to enrollment.  
**Pre-requisite(s):** ART 2310 or consent of instructor. May be repeated 3 times with a maximum of 9 credit hours.

**ART 3410 - Design Seminar for Juniors**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $95.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio materials, equipment.  
**Description:** Orientation to professional Graphic Design practice for the Junior Graphic Design student. Includes art direction and work situations, client relations, portfolio and resume preparation, self-promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.  
**Pre-requisite(s):** ART 3445 and ARTH 3451 or consent of instructor.

**ART 3430 - Typography and Publication Design**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $95.00  
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio materials, equipment.  
**Description:** Orientation to typographic communications
including methods and processes, aesthetics, readability, typographic systems, grids, layout, and digital page composition. Class meets 2 times/week for 3-hour sessions.

**Pre-requisite(s):** ART 2430 or consent of instructor.

**ART 3435 - Experimental Typography**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $95.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.
**Description:** Investigation into experimental and expressive aspects of typographic communication. Emphasis is placed upon the historical development of letter design, letter and text as visual form, and typographical illustration.

**Pre-requisite(s):** ART 2430 and ART 3430 or consent of instructor.

**ART 3445 - Web Graphic Design**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $95.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.
**Description:** Introduction to designing for the internet. Emphasis on the graphic design techniques and theories as applied to the web. Students explore best practices in web-based graphic design which includes implementing principles of branding, typography, usability, interface design, and information architecture. Students create web interfaces and design systems, and assemble them into working prototypes in preparation for web development.

**Pre-requisite(s):** ART 3430 or consent of instructor.

May be repeated once for credit.

**ART 3460 - Illustration**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $95.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.
**Description:** Introduction to theory, methods, tools and materials, and the professional practice of illustration. Emphasis is placed on concept development, media exploration and technique as applied to a variety of problems in pictorial communication.

**Pre-requisite(s):** ART 1110 and ART 1120 or consent of instructor.

**ART 3465 - Motion Design**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $95.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, printing.
**Description:** This course is an introduction to Motion Design (in relation to Graphic Design) and will cover the history and aesthetics of motion design, ways to think in time and space, techniques and methods for planning motion sequences, ways to think about and design with typography in motion, and the use of motion-specific industry-standard software and tools (Apple Motion, Adobe Flash, Adobe After Effects). This course aims to: provide historic and current perspectives regarding motion graphics and design; introduce students to categories, styles, terminology and vocabulary used in motion graphics and design; introduce students to basic techniques, methods and concepts used in motion design; work with typography and image in terms of motion; reinforce graphic design tenets and practices, and show how they extend to motion design.

**Pre-requisite(s):** (ART 3430 and ART 2435); or consent of instructor.

May be repeated three times for a maximum of nine credit hours.

**ART 3500 - Advanced Time-Based Media/Video Art**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $117.00
**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.
**Description:** A project-oriented studio course providing a more in-depth exploration of time-based media as used by contemporary artists with an emphasis on video. We will explore installation, projection and the web as
environments for video art, as well as other media which allows the employment of time as a central element.

**Pre-requisite(s):** ART 2750.

**ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I]**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment.
Description: This class prepares the art education candidate for teaching in the classroom, grades 7-12 and adaptable to K-6. Experiences will include art activities, processes, materials, tools and resources, with the development and preparation of the accompanying curricula materials, lesson plans and assessments by the candidate. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Content will focus on the foundations of art education programming, including the art elements and design principles. In addition, this class will examine classroom management strategies and practices for the beginning teacher in the contemporary classroom. Art Education majors should have completed 40 credit hours; minors must have completed 12 credit hours.
Suggested Requisite(s): Professional Core Level, College of Education, or permission of instructor. This course is required for secondary certification and is designed to be taken prior to student teaching.

**ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II]**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment.
Description: Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades 7-12, and adaptable to K-6. Candidate will develop and prepare materials for advanced visual arts programming. Further investigation of classroom management practices appropriate to adolescents and young adults. Collaboration, mentorship and leadership will be emphasized. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Art education Majors should have completed 40 credit hours; minors must have completed 12 credit hours.
Pre-requisite(s): ART 3515 or consent of instructor.
Note: This course is required for secondary certification and is designed to be taken prior to student teaching.

**ART 3525 - Practicum: WSU ArtsBridge Service-Learning**

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This service-learning course provides the fine arts teacher candidate with academic credit for designing and teaching an integrated arts course in a grade K-12 classroom or equivalent community education program. The candidate will work closely with a University faculty mentor, host school teacher and ArtsBridge director in implementing and assessing integrated arts curricula and producing a final project by K-12 classroom students. Course components include: curricula pre-planning and implementation, in-class teaching, student assessment, candidate self-assessment and ArtsBridge seminar components. By permission only. Fine arts education content area supervisor and successful interview with faculty mentor and/or ArtsBridge director. Content methodology course(s) complete or in progress. May be repeated once with a maximum of 12 credit hours.

**ART 3530 - Art Methods and Resources for Elementary Art Teachers K-6**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment.
Description: Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades K-6. Candidate will develop and prepare materials for elementary visual arts programming, in alignment with state and national standards.
Pre-requisite(s): ART 3515.

**ART 3550 - Advanced Photography: View Camera**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $163.00
Course Fee Purpose: KA 3D studio lab equipment,
Description: The theory, aesthetics, and techniques of photographic image making with the view camera. Students will learn the operation of large format cameras, the Zone System method of negative exposure and development and methods for fine-tuning black and white photographic printing. The history of and contemporary trends in working with large format negatives will also be explored.

Pre-requisite(s): ART 3150 or consent of instructor. May be repeated once with a maximum of 6 credit hours.

ART 3600 - Painting II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab paint materials, equipment.

Description: Consolidates and further develops material covered in Painting I. Investigations include the figure, mixed media, and abstraction. Historical precedents are discussed through slide lecture as an aid to development.

Pre-requisite(s): ART 1120 and ART 2600; or consent of instructor.

ART 3700 - Sculpture II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance.

Description: An introduction to the form language of sculpture with projects designed to develop conceptual thinking skills, to learn technical skills, and to explore new areas of interest in the three-dimensional visual arts.

Pre-requisite(s): ART 1130 and ART 2700; or consent of instructor.

ART 3720 - Public Art

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online

Typically Taught Spring Semester: Full Sem, Full Sem - Online

Course Fee: $125.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab 3D materials, equipment, maintenance.

Description: Public Art covers a broad range of historic and current approaches to working in the public realm, including: murals, monuments, community-based projects, ecologically-focused projects, site-specificity and environmental art. Students will learn to create 2D, 3D and/or digital renderings and models to develop public art concepts, while gaining knowledge of real-world opportunities for visual artists and designers. Students will learn professional practices, skill building for the discipline, and how to assemble a public art proposal. Students can repeat the course for additional credit a maximum for 2 times (6 credit hours total).

ART 3800 - Travel-Study Studio

Credits: (1-3)
Variable Title

Typically Taught Summer Semester: Full Sem

Typically Taught Fall Semester: Full Sem, Full Sem - Online

Typically Taught Spring Semester: Full Sem, Full Sem - Online

Description: Studio projects will be based in response to the opportunities afforded by travel-study. These works may be a direct response to the country or region and its culture or they may be related to an event that takes place in that area while students are visiting. Instruction will be given in English.

Pre-requisite(s): ART 1040 or consent of instructor. May be repeated up to 4 times and up to 12 credit hours.

ART 3810 - Experimental Course

Credits: (1-6)
Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ART 3995 - BFA Seminar

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $25.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing.
**ART 4010 - Museum Methods**

*Credits: (3)*

**Typically Taught Spring Semester:** *Full Sem*

**Description:** This course explains and demonstrates the three main areas of emphasis within the museum studies field: collections management, curation and interpretation, and arts administration. The course meets two time a week for a three hour session.

**Pre-requisite(s):** Consent of instructor.

**ART 4110 - Advanced Drawing**

*Credits: (3)*

**Typically Taught Spring Semester:** *Full Sem*

**Course Fee:** $45.00

**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing.

**Description:** Continued drawing exploration in various media with emphasis on focused personal direction, independent serial work, presentation of assigned research into related contemporary work, active participation in the critique process.

**Pre-requisite(s):** ART 3120 or consent of instructor. May be repeated 3 times with a maximum of 9 credit hours—please consult a faculty advisor.

**ART 4120 - Advanced Figure Drawing**

*Credits: (3)*

**Typically Taught Fall Semester:** *Full Sem*

**Course Fee:** $135.00

**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, model fee, materials.

**Description:** Advanced study of the structure of the human body with a greater stress on draftsmanship, historical uses of the figure in art, and individual explorations.

**Pre-requisite(s):** ART 3120 or consent of instructor. May be repeated 3 times with a maximum of 9 credit hours—please consult a faculty advisor.

**ART 4200 - Advanced Printmaking**

*Credits: (3)*

**Typically Taught Fall Semester:** *Full Sem*

**Typically Taught Spring Semester:** *Full Sem*

**Course Fee:** $152.00

**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab printmaking materials, equipment, maintenance.

**Description:** An advanced level class in printmaking with emphasis on screen-printing, relief, intaglio, and/or lithography. Emphasis on individual portfolio production.

**Pre-requisite(s):** ART 3200 or consent of instructor. May be repeated twice with a maximum of 9 credit hours—please consult a faculty advisor.

**ART 4310 - Ceramics III: Intermediate**

*Credits: (3)*

**Typically Taught Fall Semester:** *Full Sem*

**Typically Taught Spring Semester:** *Full Sem*

**Course Fee:** $182.00

**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.

**Description:** This course addresses intermediate issues in craftsmanship, form and content through assignments and projects. Students will conduct directed research, draft proposals, fire kilns, make clay and mix glazes.

**Pre-requisite(s):** ART 3310 or consent of instructor. May be repeated 3 times with a maximum of 9 credit hours—please consult a faculty advisor.

**ART 4320 - Ceramics IV: Advanced**

*Credits: (3)*

**Typically Taught Fall Semester:** *Full Sem*

**Typically Taught Spring Semester:** *Full Sem*

**Course Fee:** $182.00

**Course Fee Purpose:** KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.

**Description:** This course addresses advanced issues in craftsmanship and concepts through lectures and proposal based projects. Research assignments that explore ceramic processes and trends in ceramic art are emphasized.

**Pre-requisite(s):** ART 4310 or consent of instructor. May be repeated 4 times with a maximum of 12 credit hours.

**ART 4350 - Small Metals/Jewelry III**
ART 4400 - Advanced Graphic Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Application of design theory and process to complex problems in visual communication. Emphasis is placed on research, analysis, problem definition, and the development of individual design solutions. Studio projects vary each term and will generally involve visual identity, information design, environmental graphics, publication design, and design for interactive media.
Pre-requisite(s): ART 3435, ART 3445, ARTH 3451, and BFA program admission or consent of instructor.
May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4410 - Design Seminar

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Orientation to professional practice in visual communication including art direction and work situations, client relations, portfolio and resume preparation, self-promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.
Pre-requisite(s): ART 3410 and BFA program admission, or consent of instructor.
May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4415 - Design Production

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Technical processes and procedures for Art Major, Visual Communication emphasis. Emphasis is placed on file preparation and technical procedures for electronic media and for offset printing including proofing methods, paper, binding and other finishing processes.
Pre-requisite(s): ART 3430 and ART 3435 or consent of instructor.

ART 4420 - Advanced Digital Media

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $70.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: Students will further develop personal expression in the visual arts using computer media through aesthetic problem solving and further development of digital media skills. There will be an emphasis on strengthening the students' ability to work independently while supplying the necessary feedback from the interaction of a class.
Pre-requisite(s): ART 2420A, ART 2420B, ART 2420C, ART 2420D, or consent of instructor.
May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4440 - Interaction Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $70.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.
Description: This course is an introduction to the principles of interaction design as it relates to physical and digital space, with a focus on designing user-centered artifacts like interactive publications and apps for handheld devices. Theoretical concepts like ethnography, user-testing, and the use of mapping in design will be explored. We will also explore the landscape of technology as it relates to interaction, and the use of appropriate tools and software to create prototypes and functioning digital designs.

Pre-requisite(s): ART 3445 or consent of instructor. May be repeated once for credit.

ART 4460 - Advanced Illustration

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: Development of individual approaches to advanced problems in illustration. Emphasis is placed on the formulation of visual metaphor, articulation of form, and on professional practices. Studio projects vary each term and will generally involve editorial, reportorial, scientific, advertising, and instructional problems in pictorial communication.

Pre-requisite(s): ART 3460 or consent of instructor. May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4550 - Advanced Photography: Lighting for Photo & Video

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: This is a practical course that enables students to better control and use light and lighting in their work. Students will be introduced to a range of artificial light sources and lighting techniques to be used as a means of creative control. Work will center in the studio where controlled conditions and a directorial approach can yield the artist's intent.

Pre-requisite(s): ART 2450. May be repeated once with a maximum of 6 credit hours.

ART 4600 - Painting III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials & equipment.

Description: Emphasis on developing independence in the painting student and to provide an opportunity for them to pursue their own area of interest in painting while providing the necessary feedback from the interaction of a class.

Pre-requisite(s): ART 3600 or consent of instructor. May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4660 - Advanced Photography: Special Topics

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: A study of specific topics in photography, the subject and faculty change each time this course is offered. Example topics include "Documentary Photography," "Visual Books," "The Portrait," and "Directed Visions."

Pre-requisite(s): ART 3150 or consent of instructor. May be repeated 2 times for credit - consult with faculty advisor.

ART 4700 - Sculpture III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $125.00
Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: Advanced individual problems in selected areas of concentration; research and development of conceptual, technical, and methodological concerns.

Pre-requisite(s): ART 3700 or consent of instructor. May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.
ART 4750 - Advanced Photography:
Experimental Strategies

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, photography equipment, materials, maintenance.
Description: This course explores experimental photographic alternatives to the traditional methods of photographic image making. Emphasis will be placed on using the camera, darkroom techniques and digital and emerging technology in ways that will give the students the mind-set and ability to push the limits of the medium.
Pre-requisite(s): ART 2450 or ART 2250.
May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities’ majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ART 4810 - Experimental Course

Credits: (1-6)
Experimental
Course Fee: $95.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, course materials, equipment and maintenance.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ART 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing.
Description: Individually chosen readings on specialized topic supervised by a faculty member.
Pre-requisite(s): Consent of faculty supervisor prior to registration.
May be repeated twice with a maximum of 3 credit hours. Please consult a faculty advisor.

ART 4890 INT - Cooperative Work Experience

Credits: (1-2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.
Pre-requisite(s): By instructor approval only and previous or concurrent enrollment in art classes as specified by each area of emphasis.
May be repeated for a maximum of 6 credit hours. Please consult a faculty advisor.

ART 4900 - Individual Studies

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $18.00
Course Fee Purpose: KA digital lab access, equipment, software, printing
Description: Individual studies in selected areas of emphasis. Open to juniors and seniors by instructor approval only.
May be repeated for a maximum of 6 credit hours. Please consult a faculty advisor.

ART 4910 INT - Advanced Photography: Internship

Credits: (1-3)
Description: Students have the opportunity to engage in a close learning relationship with professional photographers. These opportunities include workshops, seminars, professional assistantships, and residencies. Students will be responsible for researching and proposing mentorships. Area faculty will approve proposals, help place students with mentors and review the progress of mentorships.
Pre-requisite(s): ART 3150 or consent of instructor. May be repeated for credit. Please consult a faculty advisor.

ART 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $26.00
Course Fee Purpose: KA digital lab access, equipment, software, printing; studio materials
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ART 4930 INT - Teaching Assistantship Experience

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed for students who wish to gain teaching experience for graduate school. By observation and participation with the instructor, students will learn how a basic art course is designed and taught.
Pre-requisite(s): Student must be in the BFA program and have instructor consent.

ART 4990 - BFA Thesis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing
Description: Emphasis on portfolio preparation and professional writing skills pertinent to the completion of the BFA Thesis Exhibit and future career applications. Students work on the development and synthesis of ideas, and fine-tune relevant artistic and critical evaluation skills. During this course students will be required to produce new work for the BFA Thesis Exhibit.
Pre-requisite(s): Senior level BFA student. Completion of ART 3995 BFA Seminar. Registration by departmental approval only. Course cannot be taken during the semester immediately following BFA Seminar. May be repeated for credit. Please consult a faculty advisor.

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000

Credits: (4)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 equipment replacement
Description: A global survey of the history of art and architecture from BC 15,000 to AD 1000. Visual art from the first artistic expressions on rocks to the art of emerging civilizations (such as Mesopotamia, Egypt, China, India, and Africa), and the monuments and small-scale artifacts of the Medieval Ages will be analyzed in its historical, social, political, and broader cultural contexts.

ARTH 1100 CA - Art and Architecture of the World: AD 1000-Present

Credits: (4)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 equipment replacement
Description: A global survey of the history of art and architecture from AD 1000 to the present. Visual art from Gothic cathedrals and Islamic book art to Renaissance Europe and the Chinese Empire, from the Age of Enlightenment to contemporary art will be analyzed in its historical, social, political, and broader cultural contexts.

ARTH 2040 - Art and Architecture of Asia

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 equipment replacement
Description: A historical account of the architecture, sculpture, and painting of Asia (India, Nepal, Tibet, Myanmar, Sri Lanka, Thailand, Cambodia, Indonesia, China, Korea, and Japan), including the political, religious, and intellectual history informing the arts of each country.
ARTH 2050 - Visual Art in a Global Context

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course introduces questions, debates, and developments in art history and visual studies within their broader thematic and global contexts. It provides students with critical frameworks for examining and comparing artistic production from different temporal, geographic, socio-political, and cultural perspectives.

ARTH 3010 - Art and Visual Cultures of Latin America

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course introduces students to the visual culture and architecture of 20th and 21st century Latin America. Students will analyze a wide range of material from disciplines like architecture, urban planning, printmaking, photography, and painting as they relate to real and imagined definitions of "Latin America," and corresponding notions of nation and state. The course pays particular attention to critical debates around the intersection of art and politics, and the construction of race and gender.
Suggested Requisite(s): ART 1040 or ARTH 1090 or ARTH 1100 or ARTH 2050.

ARTH 3015 - Latinx Visual Art and Culture

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course explores visual art and culture of U.S. Latinos/as/x from the 1960s to the present. It examines the history and context of artistic production related to critical debates about representation, identity, gender, sexuality, class, and politics. It analyzes a wide range of media including film, photography, performance, muralism, and art exhibits as they relate to identity, feminism, collaboration, and the politics of aesthetics within Latinos/as/x in the U.S.
Suggested Requisite(s): ART 1040 or ARTH 1090 or ARTH 1100 or ARTH 2050.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present

Credits: (4)
Typically Taught Fall Semester: Full Sem odd years
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: Focuses on the arts of the Native Americans in the Southwest from their archaeological past to the present with occasional relevant explorations of Native American art in general. Study of traditional and contemporary modes of artistic expressions.

ARTH 3040 - Global Modernisms: 1850 to the Early 20th Century

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: The history of visual art and culture from circa 1850 into the early 20th century. This course explores the European roots of Modernism, its dissemination to North America and its global manifestations. Areas of study will include Impressionism to Art Nouveau, Women Artists of the Fin-de-Siècle, Modernism in Canada and Latin America as well as Native American and Asian Modernisms. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.

ARTH 3045 - Global Modernisms: Early 20th Century to 1960

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: The history of visual art and culture from circa 1900 to the 1960s. This course explores the continuous evolution of Modernism. Areas of study will include Cubism to Vorticism, Colonialism and Modernism in Africa, Central European Avant-Gardes, International Dada and Surrealism, African-American Modernism and the crisis of Modernism in the post-colonial, post-war global community. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.
ARTh 3050 - Contemporary Art

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: Critical analysis of developments in the arts (including multimedia art, photography, performance art, installations, and feminist art) from 1960s to the present. Emphasis on post-modern currents and issues and their study in the context of broader cultural contexts.
Pre-requisite(s): ARTH 1100 or consent of instructor.

ARTh 3055 - Special Topics in Art History

Credits: (4)
Variable Title
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: This course will explore different topics and content related to art history and the contemporary practice of art; the content of the course will change as the main topic changes. Students will gain the benefit of a deep dive into a specific time period, discourse, or exploration of media. May be repeated four times for a maximum of 12 credit hours.

ARTh 3060 - The Art and Architecture of India

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: An historical account of the architecture, sculpture, and painting of India, including the political, religious, and intellectual history informing the arts of various regions.

ARTh 3070 - The Art and Architecture of China

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: An historical account of the architecture, sculpture, and painting of China including the political, religious, and intellectual history informing the arts of different regions. May be repeated for a maximum of 4 credit hours. Please consult a faculty advisor.

ARTh 3080 - The Art and Architecture of Japan

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: An historical account of the architecture, sculpture and painting of Japan, including the political, religious, and intellectual history informing the arts of different regions. May be repeated for a maximum of 4 credit hours. Please consult a faculty advisor.

ARTh 3100 - The Art and Architecture of the Islamic World

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA 120 & 143 projection bulb replacement.
Description: An historical survey of the architecture, sculpture, and painting of the Islamic world, including the political, religious, and intellectual history informing the arts of different countries: Iran, Iraq, Egypt, Turkey, North Africa, India, Spain, and Indonesia.

ARTh 3451 - Design History and Theory

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: KA 120 & 143 projection bulb replacement, KA 120 & 143 equipment maintenance, KA
120 & 143 projection bulb replacement.

**Description:** An investigation of selected movements, figures and theories from the history of graphic design. Contents include intersections with art and related disciplines along with the social, political, and technical forces that have influenced visual culture over time. Topics are selected thematically according to their significance to the design profession in our current day and include the role of design research in contemporary practice.

**Pre-requisite(s):** ( ART 3430 and ART 2435); or consent of instructor.

---

**ARTH 3850 - Travel-Study Art History**

**Credits:** (1-4)

**Variable Title**

**Typically Taught Summer Semester:** Full Sem

**Description:** The study of the history of art and architecture will be in direct response to a country or region and its culture or it may be related to an event that takes place in that area while students are there. Instruction will be given in English.

**Pre-requisite(s):** ARTH 1090 or ARTH 1100 or ARTH 2040.

---

**ARTH 3950 - Photography: History, Theory and Criticism**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $37.00

**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

**Description:** This is a reading, writing and discussion course, which addresses historical and contemporary issues of photographic art practices. Written projects and class discussions will focus on developing a critical understanding of the readings as they relate to the historical development and contemporary practice of photography as a fine art, to the influence photography has had on the history of art and to the broader cultural impact of photography and digital media.

**Pre-requisite(s):** ARTH 1100 or consent of instructor.

---

**ASL 1010 - First Semester ASL**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

**Description:** (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

---

**ASL 1020 - Second Semester ASL**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

**Description:** (N=Novice) Continuation of ASL 1010. Basic language skills including listening, speaking, reading, writing and culture.

---

**ASL 2010 - Third Semester ASL**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

**Description:** (NH=Novice High) Continuation of ASL 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

---

**ASL 2020 HU - Fourth Semester ASL**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

**Description:** (NH=Novice High) Continuation of ASL 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes,
values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

**ASL 2021 - Second Year II**

Credits: (3)
Description: (NH=Novice High) Continuation of ASL 2010 without General Education Humanities credit. Offered through examination only.
Note: Only available through testing.

**ASL 2030 - Second Year Language Review**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

**ASL 2920 - Short Courses, Workshops, Institutes and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ASL 3000 - Proficiency Development**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

**ASL 3116 - DLI Bridge Course I**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

**ASL 3117 - DLI Bridge Course II**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

**ASL 3118 - DLI Bridge Course III**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

**ASL 3270 - Special Topics in Linguistics**

Credits: (3)
Variable Title
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology, will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.
ASL 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

ASL 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem - Online
Description: (Intermediate Mid) In-depth studies in history, geography, social customs, fine arts, and civilization of ASL cultures. This is a variable title course; content and emphasis may vary from semester to semester.

Pre-requisite(s): ASL 2020 or ASL 2030 or Equivalent

ASL 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times.
Note: Check with Department for course availability.

ASL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

ASTR 1040 PS - Elementary Astronomy

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Course Fee: $10.00
Course Fee Purpose: Consumables and maintenance of equipment used for teaching demonstrations.
Description: A brief survey of the physical universe using the fundamental laws of physics. Topics include the history of astronomy, the solar system, the sun, the evolution of stars, pulsars, black holes, the Milky Way galaxy, galaxies, quasars, and the Big Bang. Three hours of lecture per week.
Cross-listed with PHYS 1040.

ASTR 2040 PS - Principles of Observational Astronomy

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An introductory course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation.
Pre-requisite(s): MATH 1060 (minimum grade of C).
Cross-listed with PHYS 2040.

ASTR 2800 - Introductory Individual Research Problems

Credits: (1-3)
Description: Time and credit to be arranged. Intended for students working on a directed research project which includes physics/astronomy at the lower division level for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 2800.
May be repeated up to 10 times.

ASTR 2830 - Introductory Readings in Physics/Astronomy

Credits: (1-3)
Description: Time and credit to be arranged. Intended for students working on a directed reading project which includes physics/astronomy at the lower division level for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 2830.
May be repeated up to 10 times.
ASTR 3040 - Principles of Observational Astronomy, Advanced

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An advanced course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. This course also covers general scientific practice, data analysis, and error propagation.
Pre-requisite(s): PHYS 2710 and PHYS 3180.

ASTR 3160 - Stellar and Planetary Astrophysics

Credits: (3)
Typically Taught Spring Semester: Full Sem Odd Years
Description: Selected topics in astrophysics with a focus on stellar and planetary systems. Topics may include celestial mechanics, interaction of light and matter, stellar and planetary spectroscopy, stellar atmospheres and interiors, binary star systems, planets and planet formation, and extrasolar planets.
Pre-requisite(s): PHYS 2220.
Cross-listed with PHYS 3160.

ASTR 3170 - Galaxies and Cosmology

Credits: (3)
Typically Taught Spring Semester: Full Sem Even Years
Description: Selected topics in astrophysics, with a focus on galactic astronomy and cosmology. Topics may include gravitational dynamics, interaction of light and matter, galaxy classification, galaxy formation and evolution, the structure of the universe, cosmology, and the origin and fate of the universe.
Pre-requisite(s): PHYS 2220.
Cross-listed with PHYS 3170.

ASTR 4800 - Individual Research Problems

Credits: (1-3)
Description: Time and credit to be arranged. Open to qualified students for one or more semesters.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 4800.
May be repeated up to 10 times.

ASTR 4830 - Readings in Physics/Astronomy

Credits: (1-3)
Description: Topics which can be studied include (but are not limited to): mechanics, thermodynamics, kinetic theory, statistical mechanics, electronics, electromagnetism, optics, solid-state physics, modern physics, nuclear physics, relativity, cosmology, and astrophysics. These courses may be taken at any time on a personalized basis. Time and credit to be arranged.
Pre-requisite(s): Consent of instructor.
Cross-listed with PHYS 4830.
May be repeated up to 10 times.

ATHL 1080 - Strength Training Level I

Credits: (1)
Description: -For Club Hockey Players Only
May be repeated five times for credit.

ATHL 1081 - Strength Training Level II

Credits: (1)
Description: -For Club Hockey Players Only
May be repeated five times for credit.

ATHL 1180 - Varsity Softball

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of softball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1510 - Varsity Volleyball

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of volleyball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.
ATHL 1520 - Varsity Soccer

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of soccer at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1570 - Varsity Basketball

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of basketball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1580 - Varsity Cross Country

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of cross country at the collegiate level. Students will learn techniques and participate in drills to assist with the development of competitive skills and prepare for varsity cross country meets.
May be repeated 7 times with up to 8 credit hours.

ATHL 1590 - Varsity Football

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of football at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1600 - Varsity Golf

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of golf at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1630 - Varsity Tennis

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of tennis at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.
May be repeated 7 times with up to 8 credit hours.

ATHL 1640 - Varsity Track, Field, and Cross Country

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of track and field at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition.
May be repeated 7 times with up to 8 credit hours.

ATHL 1680 - Varsity Indoor Track

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in the sport of indoor track at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition.
May be repeated 7 times with up to 8 credit hours.

ATHL 1760 - Spirit Squad

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This athletic activity course is intended to engage students in dance/cheer for the spirit squad at the
collegiate level. Students will learn techniques to assist with the development of skills and performance. May be repeated 7 times with up to 8 credit hours.

**ATTC 3000 - Introduction to Automotive Technology**

**Credits:** (1)

**Typically Taught Summer Semester:** Full Sem Online

**Typically Taught Fall Semester:** Full Sem, Full Sem Online

**Course Fee:** $5.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** An introduction to the Automotive Technology program. Degree requirements and options, internship preparation, employment opportunities, required professional publications, communication, and other topics. (This course is a prerequisite for most automotive technology courses.)

**Pre-requisite(s):** Proof of completion of an Associate of Applied Science AAS or Associate of Science AS degree in automotive service technology or a related degree.

**ATTC 3020 - Introduction to Safety Management and Hazardous Materials**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Course Fee:** $15.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** An overview of the environmental issues related to the use and service of vehicles, with emphasis on air quality topics. Environmental regulations, safe practices, disposal of hazardous substances, such as paints and solvents.

**ATTC 3260 - Advanced Electrical Systems**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $45.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** A study of the advanced electrical systems in today's vehicles. Vehicle communication networks, body control systems, chassis control systems, powertrain control, hybrid control, and battery control systems.

**ATTC 3280 - Advanced Painting and Refinishing**

**Credits:** (3)

**Description:** Preparation for insurance industry employment. Includes advanced topics in surface preparation and application of contemporary and specialty paints. Matching, blending and complete vehicle refinishing. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included. Lab included.

**Pre-requisite/Co-requisite:** ATTC 3000.

Note: Course not currently being offered.

**ATTC 3480 - Advanced Structural Analysis and Damage Repair**

**Credits:** (3)

**Description:** Preparation for insurance industry employment. Includes advanced topics in frame and unibody repair. Replacement of major panels, measuring and corrective pulling, and occupant safety systems. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included. Lab included.

**Pre-requisite(s):** ATTC 3280.

Note: Course not currently being offered.

**ATTC 3520 - Fleet Management**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem Online

**Description:** Study of fleet standards, fixed operations, inventory and personnel management, financial policies and procedures. Includes financial statement analysis.

**ATTC 3620 - Automotive Business Practices**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem Online

**Course Fee:** $15.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** Study of independent shop and corporate dealership standards, fixed operations, inventory and personnel management, and industry report systems,
financial policies and procedures. Includes financial statement analysis.

**ATTC 3680 - Automotive Damage Analysis and Estimating**

Credits: (3)
Description: Preparation for insurance industry employment. Includes an overview of vehicle damage analysis, restraint systems, mechanical and electrical systems. Topics also include industry standard terminology, procedures, and estimation software usage.
Lab included.
Pre-requisite(s): ATTC 3480.
Note: Course not currently being offered.

**ATTC 3760 - Advanced Automotive Technologies**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Course Fee: $10.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: A study of current events/trends in the automotive industry, industry standard professional publications, and the latest technologies used by the automotive industry to meet current emissions, fuel economy, and safety regulations.

**ATTC 3860 - Automotive Standards, Laws, and Regulations**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of automotive industry related Society of Automotive Engineers (SAE) standards, State Regulations, U.S. Environmental Protection Agency (EPA) emissions regulations, National Highway Traffic Safety Administration (NHTSA), Federal Motor Vehicle Safety Standards (FMVSS), Corporate Average Fuel Economy (CAFE) regulations, and others.

**ATTC 3880 INT - Cooperative Practicum**

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Description: Supervised work experience with a sponsoring employer, designed to synthesize theory and practice. Full-time, upper division related employment and approval of faculty supervisor required.

**ATTC 4380 - Advanced Non-Structural Analysis and Damage Repair**

Credits: (3)
Description: Preparation for insurance industry employment. Includes advanced topics in safety, welding processes, panel repair and replacement, trim application, water and wind leakage. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.
Lab included.
Pre-requisite(s): ATTC 3480.
Note: Course not currently being offered.

**ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: An in-depth look at the laws and regulations related to the high voltage safety systems used on hybrid and electric vehicles. Topics include 1. Personal protective equipment types use and care. 2. High voltage service tools and equipment. 3. Vehicle operation and characteristics. 4. Identify high voltage systems and components. 5. High voltage isolation and interlock systems. 6. Disabling and enabling the high voltage system. 7. Maintenance schedules and precautions. 8. Emergency rescue personnel information.

**ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Description: An in-depth look at the different classifications of Electrified Road Vehicles. 1. The three different types of Hybrid Electric Vehicles (HEVs), 2. Multi-Mode Plug-in Hybrid Electric Vehicles (PHEVs), 3. Battery Electric Vehicles (BEVs), and 4. Hydrogen Fuel Cell Electric Vehicles (FCEVs). Topics include the theory of operation of high voltage batteries, DC to AC inverters, DC to DC converters, electric motor types, plug-In charging systems, thermal management of the high voltage systems, battery, the passenger cabin, and
braking/regenerative braking systems. In addition, preparation for the ASE L3 Light-Duty hybrid/electric vehicles exam is included.

**ATTC 4540 - Automated Safety and Convenience Systems**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem - Online
**Description:** An in-depth look at the operation, diagnosis and service of the automated safety and convenience systems found on modern vehicles. Topics will include: AUTOMATED: vehicle system classifications (driver assisted, partial automated, conditional automated, high automated, and fully automated). SAFETY: advanced cruise systems, advanced steering systems, advanced suspension systems, advances parking systems. CONVENIENCE: In car WiFi, vehicle to vehicle communication, biometrics, active health monitoring, comprehensive vehicle tracking, advanced heads up displays.

**ATTC 4550 - Advanced Automotive Emissions**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem Online
**Description:** The study and evaluation of vehicle and fuel technologies to meet current and future emissions standards. We will explore what automotive emissions are currently regulated, purpose and procedures associated with emissions testing, current and future emissions reduction technologies, and how sustainable manufacturing is being implemented in industry. The topics in this class will help you to prepare for the L1 Advanced Engine Performance test.

**ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Course Fee:** $15.00
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
**Description:** An in-depth look at the service and maintenance procedures for 1. The three different types of Hybrid Electric Vehicles (HEV)s. 2. Multi-Mode Plug-In Hybrid Electric Vehicles (PHEV)s, 3. Battery Electric Vehicles (BEV)s, and 4. Hydrogen Fuel Cell Electric Vehicles (FCEV)s. Topics include high voltage batteries, DC to AC inverters, DC to DC converters, electric motor types, plug-In charging systems, thermal management of the high voltage systems, battery, the passenger cabin, braking/regenerative braking systems, and Atkinson cycle Internal Combustion Engines (ICE). Preparation for the ASE L3 Light-Duty hybrid/electric vehicles exam is included.

**ATTC 4710 - Capstone Research Methods**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Description:** This is the first course in the Capstone Project for seniors. This course will prepare students to complete the capstone project. Students will create the initial proposal and receive approval for the project. Students will start the research for the project using the standards established by the Society of Automotive Engineers (SAE).

**ATTC 4720 - Capstone Research and Development**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem, Full Sem Online
**Course Fee:** $70.00
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
**Description:** The use of sophisticated diagnostic tools and equipment. Emphasis is on diagnosis and the development of analytical thinking as it applies to technical problems. Includes lab.
**Pre-requisite(s):** ATTC 4710.

**ATTC 4760 - Alternate Fuel Systems**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $45.00
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
**Description:** A study of alternate fuel systems including bio fuels (ethanol and bio-diesel systems), advanced diesel systems, hybrid-electric vehicles, Compressed Natural Gas (CNG) systems, hydrogen fuel cell, and other existing or emerging technologies.
ATTC 4780 - Insurance Industry Business Practices

Credits: (3)
Description: An overview of the business practices used by the automotive insurance industry. Included is the use of industry standard software to determine insurance policy coverage, vehicle reparability (current value verses repair costs) and parts availability.
Pre-requisite/Co-requisite: ATTC 3680 and PS 3203.
Note: Course not currently being offered.

ATTC 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Individual readings supervised by a faculty member.
Pre-requisite(s): Approval of instructor.
May be repeated twice up to 3 credit hours.

ATTC 5920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offerings under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

AUSV 1000 - Introduction to Automotive Service

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: An introduction to automotive shop safety, pollution prevention, hazardous waste handling, Internet-based electronic service information, diagnostic scan tools, ASE certifications, safety inspection certifications, emissions inspection certifications, developing job interview skills, and resume writing.
Note: This course is a prerequisite for all automotive service courses.

AUSV 1001 - Collision Repair Fundamentals and Estimating

Credits: (2)
Description: This course is an introduction to the collision repair industry and the construction of the modern automobile as it applies to the collision repair industry. Emphasis will be placed on locating vehicle information, basic construction of vehicles, environmental concerns and issues, and writing collision repair estimates on damaged vehicles.
Note: Course not currently being offered.

AUSV 1010 - Automotive Technology Orientation

Credits: (1)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Course Fee: $60.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: An introduction to maintenance and light repair tasks including: lube oil and filter change, basic under vehicle inspection and maintenance, basic under hood inspection and maintenance, wheel and tire service, Internet-based electronic service information, and diagnostic scan tools.
Note: This course is a prerequisite for all automotive service courses.

AUSV 1020 - Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)
Description: Theory, operation, diagnosis and repair of braking, steering, and suspension systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1325.
Note: (AUSV 1020 is equivalent to AUSV 1021, AUSV 1022, and AUSV 2320.)

AUSV 1021 - Automotive Braking Systems 1

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of braking systems. This is the first part of a two-part class.
Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1022 - Steering and Suspension Systems 1

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.
Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1023 - Automotive Braking Systems 2

Credits: (2)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Course Fee: $71.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of automotive braking systems. This is the second part of a two-part class.

AUSV 1025 - Steering and Suspension Systems 2

Credits: (2)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Course Fee: $71.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.

AUSV 1030 - Honda Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)
Description: Theory, operation, diagnosis, and repair of Honda braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1335.
Note: (AUSV 1030 is comprised of AUSV 1031, AUSV 1032 and AUSV 2330.) Course not currently being offered.

AUSV 1031 - Honda Braking Systems

Credits: (3)
Description: Theory, operation, diagnosis, and repair of Honda braking systems.
Pre-requisite(s): AUSV 1000.
Note: (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032, and AUSV 2330). Course not currently being offered.

AUSV 1032 - Honda Steering and Suspension Systems

Credits: (2)
Description: Theory, operation, diagnosis, and repair of Honda steering and suspension systems.
Note: (AUSV 1031, AUSV 1032, and AUSV 2330 are equivalent to AUSV 1000, AUSV 1030.) Course not currently being offered.

AUSV 1040 - General Motors Braking, Steering, Suspension and Climate Control Systems

Credits: (8)
Description: Theory, operation, diagnosis, and repair of General Motors braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1345.
Note: (AUSV 1040 is comprised of AUSV 1041, AUSV 1042 and AUSV 2340.)

AUSV 1041 - General Motors Braking Systems
Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Theory, operation, diagnosis, and repair of
typical General Motors braking systems.
Pre-requisite(s): AUSV 1000 and AUSV 1345.
Note: (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042, and AUSV 2340).

AUSV 1042 - General Motors Steering and Suspension Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Theory, operation, diagnosis, and repair of
General Motors steering and suspension systems.
Pre-requisite(s): AUSV 1000.
Note: (AUSV 1041, AUSV 1042, and AUSV 2340 are equivalent to AUSV 1000, AUSV 1040.)

AUSV 1050 - Chrysler Braking, Steering, Suspension and Climate Control Systems

Credits: (8)
Description: Theory, operation, diagnosis, and repair of
Chrysler braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1355.
Note: (AUSV 1050 is comprised of AUSV 1051, AUSV 1052 and AUSV 2350.) Course not currently being offered.

AUSV 1051 - Chrysler Braking Systems

Credits: (3)
Description: Theory, operation, diagnosis, and repair of
Chrysler braking systems.
Pre-requisite(s): AUSV 1000 and AUSV 1355.
Note: (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052 and AUSV 2350.) Course not currently being offered.

AUSV 1052 - Chrysler Steering and Suspension Systems

Credits: (3)
Description: Theory, operation, diagnosis, and repair of
Chrysler steering and suspension systems.
Pre-requisite(s): AUSV 1000.
Note: (AUSV 1051, AUSV 1052, and AUSV 2350 are equivalent to AUSV 1000, AUSV 1050.) Course not currently being offered.

AUSV 1060 - Toyota Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)
Description: Theory, operation, diagnosis, and repair of
Toyota braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.
Pre-requisite(s): AUSV 1000 and AUSV 1365.
Note: (AUSV 1060 is comprised of AUSV 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1061 - Toyota Braking Systems

Credits: (3)
Description: Theory, operation, diagnosis, and repair of
Toyota braking systems.
Pre-requisite(s): AUSV 1000 and AUSV 1365.
Note: (AUSV 1060 is equivalent to 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1062 - Toyota Steering and Suspension Systems

Credits: (3)
Description: Theory, operation, diagnosis, and repair of
Toyota steering and suspension systems.
Pre-requisite/Co-requisite: AUSV 1000.
Note: (AUSV 1061, AUSV 1062, and AUSV 2360 are equivalent to AUSV 1000, AUSV 1060.) Course not currently being offered.

AUSV 1071 - H D Truck Brakes

Credits: (2)
Description: Operation, diagnosis, inspection, and repair of air brake systems. Equivalent to DATC proficiency #48350, 48601.

AUSV 1072 - H D Truck Steering & Suspension

Credits: (3)
Description: Operation, diagnosis, and repair of heavy
duty steering and suspension systems. Equivalent to DATC proficiency #48540, 48550.

**AUSV 1080 - Non-Structural Analysis and Damage Repair 1**

**Credits:** (4)

**Description:** Safety, welding processes, panel repair and replacement, trim application, water leak and wind noise issues. Proper use of modern body fillers and repair techniques. I-CAR training modules are included.

**Pre-requisite(s):** AUSV 1001 or instructor approval.

Note: Course not currently being offered.

**AUSV 1085 - Painting and Refinishing 1**

**Credits:** (4)

**Description:** Introductory course on modern automotive paint application processes. Emphasis will be placed on Panel and part preparation as well as spray and application techniques.

**Pre-requisite(s):** AUSV 1001 or instructor approval.

Note: Course not currently being offered.

**AUSV 1100 - Principles of Technology I**

**Credits:** (2)

**Description:** Scientific concepts of force, work, rate, resistance and energy are applied to mechanical and fluid systems found in modern industry. Laboratory activities featuring measurement and instrumentation are emphasized.

Note: Course not currently being offered.

**AUSV 1120 - Automotive Engines 1**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $20.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** Theory, operation, diagnosis, repair, and overhaul of automotive engines.

**AUSV 1124 - Automotive Engines 2**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem, 2nd Blk

**Typically Taught Spring Semester:** Full Sem, 2nd Blk

**Course Fee:** $20.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** Theory, operation, diagnosis, repair, and overhaul of automotive engines.

**AUSV 1130 - Honda Engines**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Theory, operation, diagnosis, repair, and overhaul of Honda engines.

**Pre-requisite(s):** AUSV 1000.

Note: Course not currently being offered.

**AUSV 1140 - General Motors Engines**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Theory, operation, diagnosis, repair, and overhaul of General Motors engines.

**Pre-requisite(s):** AUSV 1000.

**AUSV 1150 - Chrysler Engines**

**Credits:** (3)

**Description:** Theory, operation, diagnosis, repair, and overhaul of Chrysler engines.

**Pre-requisite(s):** AUSV 1000.

Note: Course not currently being offered.

**AUSV 1160 - Toyota Engines**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Description:** Theory, operation, diagnosis, repair, and overhaul of Toyota engines.

**Pre-requisite(s):** AUSV 1000.

Note: Course not currently being offered.

**AUSV 1170 - H D Truck Engines**

**Credits:** (5)

**Description:** Operational principles, diagnosis and complete overhaul of diesel engines. Equivalent to DATC proficiency #48140, 48141, 48142, 48143, 48160, 48162, 48163.

**AUSV 1180 - Structural Analysis and Damage Repair 1**
Frame and unibody repair will be explored. Replacement of major structural panels and introduction to measuring and corrective pulling will be covered. Occupant safety and restraint systems will be examined. I-Car training modules are included.

**Pre-requisite(s):** AUSV 1001 or instructor approval. Note: Course not currently being offered.

**AUSV 1200 - Principles of Technology II**

**Credits:** (2)

**Description:** Scientific concepts pertaining to electricity, heat, sound and light are applied to systems found in modern industry. Laboratory activities featuring measurement and instrumentation are emphasized.

**Pre-requisite(s):** AUSV 1000. Note: Course not currently being offered.

**AUSV 1220 - Automotive Manual Drivetrain Systems**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $81.00

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** Theory, operation, diagnosis, maintenance, and overhaul of manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

**AUSV 1230 - Honda Manual Drivetrain Systems**

**Credits:** (3)

**Description:** Theory, operation, diagnosis, maintenance, and overhaul of Honda manual transmissions and transaxles, drive axles and differentials, drivelines, and transfer units.

**Pre-requisite(s):** AUSV 1000. Note: Course not currently being offered.

**AUSV 1240 - General Motors Manual Drivetrain Systems**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $20.00

**Course Fee Purpose:** Vehicle Online Service Information, and overhaul of General Motors manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

**Pre-requisite(s):** AUSV 1000.

**AUSV 1250 - Chrysler Manual Drivetrain Systems**

**Credits:** (3)

**Description:** Theory, operation, diagnosis, maintenance, and overhaul of Chrysler manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

**Pre-requisite(s):** AUSV 1000. Note: Course not currently being offered.

**AUSV 1260 - Toyota Manual Drivetrain Systems**

**Credits:** (3)

**Description:** Theory, operation, diagnosis, maintenance, and overhaul of Toyota manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

**Pre-requisite(s):** AUSV 1000. Note: Course not currently being offered.

**AUSV 1270 - H D Truck Drive Mechanisms**

**Credits:** (8)

**Description:** Theory, operation, diagnosis, and overhaul of the clutch, transmission, drive lines, differentials, and wheel bearings. Equivalent to DATC proficiency #48401, 48403, 48603.

**AUSV 1300 - Technical Mathematics**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

**Description:** Measurements, common and decimal fractions, square roots, surfaces, columns, capacities. Principles of algebra and geometry.

**AUSV 1320 - Automotive Electronics 1**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $20.00

**Course Fee Purpose:** Vehicle Online Service Information,
Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1323 - Automotive Electronics 2

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1325 - Electrical Fundamentals 3

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $121.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of lighting, infotainment, electronic control modules. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is the third part of a three-part class.

AUSV 1330 - Honda Automotive Electronics

Credits: (4)

Description: Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1335 - Honda Electronics, Electrical and Body Control Systems

Credits: (7)

Description: Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)

Note: Course not currently being offered.

AUSV 1340 - General Motors Automotive Electronics

Credits: (4)

Typically Taught Fall Semester: Full Sem

Description: Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1345 - General Motors Electronics, Electrical and Body Control Systems

Credits: (7)

Description: Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

AUSV 1350 - Chrysler Automotive Electronics

Credits: (4)

Description: Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems. The use of Chrysler electronic
service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.
Note: Course not currently being offered.

**AUSV 1355 - Chrysler Electronics, Electrical and Body Control Systems**

Credits: (7)
Description: Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems, starting, charging, lighting, airbags, power accessories, and various body computer control systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)
Note: Course not currently being offered.

**AUSV 1360 - Toyota Automotive Electronics**

Credits: (4)
Description: Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.
Pre-requisite(s): (Recommended) AUSV 1000.
Note: Course not currently being offered.

**AUSV 1365 - Toyota Electronics, Electrical and Body Control Systems**

Credits: (7)
Description: Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems, starting, charging, lighting, airbags, power accessories, and various body computer control systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)
Note: Course not currently being offered.

**AUSV 1400 - Automotive Fundamentals**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Operation, diagnosis and repair of selected automotive systems, as well as general auto shop orientation for beginners and non-automotive majors.

**AUSV 1600 - EV1 - Intro to Hybrid & EV Safety**

Credits: (2)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course will introduce students to hybrid and electric vehicles, proper safety tools and procedures, and basic high voltage components. Basic electrical theory will be explained and showcased in this course. Diagnostic theory and operation will be covered as well as service disconnect procedures and component validation testing.

**AUSV 1890 - Cooperative Work Experience**

Credits: (1-6)
Description: Open to all first year students in Automotive Service. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

**AUSV 2020 - Engine Control Systems**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. Including evaluation of engine condition.

**AUSV 2030 - Honda Engine Control Systems**
AUSV 2040 - General Motors Engine Control Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Theory, operation, diagnosis, and repair of General Motors automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)
Pre-requisite(s): AUSV 1000, AUSV 1345.
Note: Course not currently being offered.

AUSV 2050 - Chrysler Engine Control Systems

Credits: (3)
Description: Theory, operation, diagnosis, and repair of Chrysler automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)
Pre-requisite(s): AUSV 1000, AUSV 1355.
Note: Course not currently being offered.

AUSV 2060 - Toyota Engine Control Systems

Credits: (6)
Description: Theory, operation, diagnosis, and repair of Toyota automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)
Pre-requisite(s): AUSV 1000, AUSV 1365.
Note: Course not currently being offered.

AUSV 2080 - Painting and Refinishing 2

Credits: (4)
Description: Advanced surface preparation and application of modern paint system. Color matching, blending and complete vehicle refinishing. I-CAR training modules are included.
Pre-requisite(s): AUSV 1085 or instructor approval.
Note: Course not currently being offered.

AUSV 2085 - Non-Structural Analysis and Damage Repair 2

Credits: (4)
Description: This is an advanced non-structural and welding course that expands on what has previously been learned. A great deal of time will be spent working on advanced non-structural techniques and processes. Full frame, unibody, space frames and other modern frame designs will be examined along with proper repair and replacement techniques.
Pre-requisite(s): AUSV 1080 or instructor approval.
Note: Course not currently being offered.

AUSV 2100 - Vehicle Communications

Credits: (3)
Typically Taught Fall Semester: Full Sem, 2nd Block
Typically Taught Spring Semester: Full Sem, 2nd Block
Description: Theory, diagnosis, and repair of vehicle communication systems and computer-controlled circuits. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized.

AUSV 2120 - Automotive Electrical and Body Control Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem, 2nd Block
Course Fee: $81.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: The theory, diagnosis, and repair of automated Heating, Ventilation, and Air Conditioning electrical control systems, lighting systems, airbags and safety systems, body power motor accessories, and various body sensors and switches that operate on a modern vehicle. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized.

AUSV 2130 - Honda Electrical and Body Control Systems

Credits: (3)
Description: Theory, diagnosis, and repair of Honda starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic
process, and proper diagnostic services tools are emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)

**Pre-requisite(s):** (Recommended) AUSV 1000.  
Prerequisite: AUSV 1330.  
Note: Course not currently being offered.

### AUSV 2140 - General Motors Electrical and Body Control Systems

**Credits:** (3)  
**Typically Taught Fall Semester:** **Full Sem**  
**Description:** Theory, diagnosis, and repair of General Motors starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

**Pre-requisite(s):** (Recommended) AUSV 1000.  
Prerequisite: AUSV 1340.

### AUSV 2150 - Chrysler Electrical and Body Control Systems

**Credits:** (3)  
**Description:** Theory, diagnosis, and repair of Chrysler starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

**Pre-requisite(s):** (Recommended) AUSV 1000.  
Prerequisite: AUSV 1350.  
Note: Course not currently being offered.

### AUSV 2160 - Toyota Electrical and Body Control Systems

**Credits:** (3)  
**Description:** Theory, diagnosis, and repair of Toyota starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)

**Pre-requisite(s):** (Recommended) AUSV 1000.  
Prerequisite: AUSV 1360.  
Note: Course not currently being offered.

### AUSV 2170 - H D Truck Electrical Systems

**Credits:** (3)  
**Description:** Theory, operation, diagnosis and repair of batteries, starting, charging and electrical accessories. Equivalent to DATC proficiency #48304, 48305.

### AUSV 2180 - Structural Analysis and Damage Repair 2

**Credits:** (3)  
**Description:** Expands on techniques and skills learned in AUSV 1180. Emphasis will be placed on advanced frame and unibody repair techniques and methods.  
**Pre-requisite(s):** AUSV 1180 or instructor approval.  
Note: Course not currently being offered.

### AUSV 2270 - H D Truck Engine Diagnosis

**Credits:** (3)  
**Description:** Engine starting, diagnosis, fuel pump timing, compression and cylinder leakage testing, and tune-up. Equivalent to DATC proficiency #48144, 48164, 48302.

### AUSV 2320 - Automotive Climate Control Systems

**Typically Taught Fall Semester:** **Full Sem**  
**Typically Taught Spring Semester:** **Full Sem**  
**Course Fee:** $81.00  
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment  
**Description:** Theory, operation, diagnosis and repair of vehicle climate control systems.

### AUSV 2330 - Honda Climate Control Systems

**Credits:** (3)  
**Pre-requisite(s):** AUSV 1000, AUSV 1330.  
Note: Course not currently being offered.

### AUSV 2340 - General Motors Climate Control Systems

**Credits:** (3)  
**Description:** Theory, operation, diagnosis and repair of Honda climate control systems. (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032 and AUSV 2330.)

**Pre-requisite(s):** AUSV 1000, AUSV 1330.  
Note: Course not currently being offered.
Credits: (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** Theory, operation, diagnosis and repair of General Motors climate control systems. (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042 and AUSV 2340.)
**Pre-requisite(s):** AUSV 1000, AUSV 1340.

AUSV 2350 - Chrysler Climate Control Systems

Credits: (3)
**Description:** Theory, operation, diagnosis and repair of Chrysler climate control systems. (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052 and AUSV 2350.)
**Pre-requisite(s):** AUSV 1000, AUSV 1350.
Note: Course not currently being offered.

AUSV 2360 - Toyota Climate Control Systems

Credits: (3)
**Description:** Theory, operation, diagnosis and repair of Toyota climate control systems. (AUSV 1060 is equivalent to AUSV 1061, AUSV 1062 and AUSV 2360.)
**Pre-requisite(s):** AUSV 1000, AUSV 1360.
Note: Course not currently being offered.

AUSV 2370 - H D Truck Air Conditioning

Credits: (2)
**Description:** Operation, environmental concerns, diagnosis and repair of air conditioning and heating systems and components. Equivalent to DATC proficiency #48800, 48801.

AUSV 2480 - Auto Body Business Practices

Credits: (2)
**Description:** Estimating, scheduling work, purchasing, inventory, insurance practices and applied customer relations.
Note: Course not currently being offered.

AUSV 2520 - Automatic Transmissions

Credits: (4)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $91.00
**Course Fee Purpose:** Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
**Description:** Theory, operation, diagnosis and overhaul procedures of automatic transmissions.

AUSV 2530 - Honda Automatic Transmissions

Credits: (4)
**Description:** Theory, operation, diagnosis and overhaul procedures of Honda automatic transmissions.
**Pre-requisite(s):** AUSV 1000, AUSV 1335.
Note: Course not currently being offered.

AUSV 2540 - General Motors Automatic Transmissions

Credits: (4)
**Typically Taught Fall Semester:** Full Sem
**Description:** Theory, operation, diagnosis and overhaul procedures of General Motors automatic transmissions.
**Pre-requisite(s):** AUSV 1000, AUSV 1345.

AUSV 2550 - Chrysler Automatic Transmissions

Credits: (4)
**Pre-requisite(s):** AUSV 1000, AUSV 1355.
Note: Course not currently being offered.

AUSV 2560 - Toyota Automatic Transmissions

Credits: (4)
**Pre-requisite(s):** AUSV 1000, AUSV 1365.
Note: Course not currently being offered.

AUSV 2600 - EV2 - Intro to Hybrid & EV Systems

Credits: (2)
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online
**Description:** In-depth theory and operation the low voltage
and high voltage systems within hybrid and electric vehicles will be covered. High voltage component inspection, removal, disassembly, and installation will be performed. Supporting cooling systems and low voltage electrical will also be diagnosed.

AUSV 2625 - Engine Mechanical and Engine Control Systems

Credits: (6)
Course Fee: $143.00
Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment
Description: Theory, operation, diagnosis, and repair of automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1120, AUSV 2020 are equivalent to AUSV 2625.)
Pre-requisite(s): AUSV 1000, AUSV 1325.

AUSV 2635 - Honda Engine Mechanical and Engine Control Systems

Credits: (6)
Description: Theory, operation, diagnosis, and repair of Honda automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1130, AUSV 2030 are equivalent to AUSV 2635.)
Pre-requisite(s): AUSV 1000, AUSV 1335.
Note: Course not currently being offered.

AUSV 2645 - General Motors Engine Mechanical and Engine Control Systems

Credits: (6)
Description: Theory, operation, diagnosis, and repair of General Motors automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)
Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2655 - Chrysler Engine Mechanical and Engine Control Systems

Credits: (6)
Description: Theory, operation, diagnosis, and repair of Chrysler automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)
Pre-requisite(s): AUSV 1000, AUSV 1355.
Note: Course not currently being offered.

AUSV 2665 - Toyota Engine Mechanical and Engine Control Systems

Credits: (6)
Description: Theory, operation, diagnosis, and repair of Toyota automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)
Pre-requisite(s): AUSV 1000, AUSV 1365.
Note: Course not currently being offered.

AUSV 2860 INT - Automotive Shop Practice

Credits: (3-8)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Provides an opportunity to practice skills needed by Automotive Service technicians derived from classroom and shop experience. Simulates line mechanic work.
Pre-requisite(s): Instructor approval required.
May be taken 10 times up to 30 credit hours.

AUSV 2880 - Cooperative Practicum

Credits: (3-8)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised work experience, at the sponsoring dealership, which applies directly to previous academic courses. Full-time employment and approval of faculty supervisor required.
May be taken 10 times up to 30 credit hours.

AUSV 2890 - Cooperative Work Experience
Credits: (1-6)
**Description:** Open to second year Automotive Service students. A continuation of AUSV 1890.
Note: AUSV 2890 may be taken in lieu of AUSV 2860 when appropriate work experience is available and the student obtains departmental approval.

**AUSV 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
**Workshop**
**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**BIS 2800 - Foundations of Integrated Studies**

Credits: (1)
**Typically Taught Fall Semester:** Full Sem
**Description:** Foundations of Interdisciplinary Studies provide students with theories and methods used in interdisciplinary research. The course will introduce students to examples of interdisciplinary research, familiarize them with different disciplinary perspectives, and provide them with the intellectual tools to flourish in an interdisciplinary program of study.

**BIS 3800 - BIS Capstone and Graduation Preparation**

Credits: (2)
**Typically Taught Summer Semester:** Full Sem - Online
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online
**Description:** This course guides students as they develop a capstone proposal, and begin preliminary research on it. The course also helps them consider future career options and graduate school paths.
**Pre-requisite(s):** BIS 2800.

**BIS 3850 - BIS Internship**

Credits: (1-3)
**Typically Taught Summer Semester:** Online
**Typically Taught Fall Semester:** Online
**Typically Taught Spring Semester:** Online
**Description:** The Bachelor of Integrated Studies Program (BIS) offers BIS students the opportunity to earn 1 to 3 elective credits for a work internship.
**Pre-requisite(s):** For requirements and guidelines, contact the BIS office. May be repeated three times for a maximum of three credit hours.

**BIS 4800 - Bachelor of Integrated Studies Senior Capstone**

Credits: (3)
**Typically Taught Summer Semester:** Online
**Typically Taught Fall Semester:** Online
**Typically Taught Spring Semester:** Online
**Description:** The Senior Capstone serves as the culmination of the Bachelor of Integrated Studies (BIS) interdisciplinary degree. After completing course work in three different areas of emphasis, BIS student synthesize their three disciplines in this capstone project.
**Pre-requisite(s):** BIS 3800.

**BME 1000 - Introduction to Biomedical Engineering**

Credits: (2)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $35.00
**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
**Description:** An introductory course to Biomedical Engineering topics including electronic terms, numbering systems, software tools, and documentation practices.
**Suggested Requisite(s):** MATH 1050 or MATH 1060 or MATH 1080.

**BME 2000 - BME Sophomore Seminar**

Credits: (1)
**Typically Taught Spring Semester:** Full Sem
**Description:** An engineering seminar designed to help students plan their education and career trajectories by introducing modern topics in biomedical research and available careers. Students will be introduced to both academic and industry-oriented career fields, options for undergraduate research and the challenges of working in interdisciplinary career fields.
**Pre-requisite(s):** BME 1000 or ECE 1000.

**BME 3000 - Engineering Seminar**
Credits: (1)
Typically Taught Fall Semester: Full Sem
Description:
An engineering seminar course designed to prepare the student for professional engineering employment. Topics include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness and continuous improvement. Students will research related topics and write a paper.
Pre-requisite(s): BME 2000.

BME 3090 - Project Management

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: An introduction to project management. The course prepares students for Senior Projects. The course will include the writing of contracts, goal setting, project leadership and team-building principles of engineering economics, teamwork, quality, statistics, and continuous improvement. Other topics include project life cycles, organization, and risk management. Project scheduling and performance will be discussed. The course will be taught as a seminar.
Pre-requisite(s): Permission from the department.

BME 3130 - Microelectronics for Biomedical Engineers

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
Description: Topics covered are related to microelectronics including bipolar and field-effect transistors, frequency response, feedback systems, filters, signal generation, and applications of op-amp circuits. Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of filters and advanced circuits.
Pre-requisite(s): ECE 2260.

BME 3210 - Signals & Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $35.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
Description: Topics covered are related to the analysis of linear time-invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms. Lecture and lab combination. Laboratory activities include the computer simulation, analysis, and numerical modeling of biological signals and systems.
Pre-requisite(s): ECE 2260 and ENGR 2240.

BME 3600 - Biomedical Design and Standards

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $80.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
Description: Introduction to Computer-Aided Drafting (CAD) design and the engineering design cycle. Students will learn basic CAD skills and apply them to designing a simple biomedical device as a group. Important points on standards and considerations for devices that are used by and interface with humans will also be covered.
Pre-requisite(s): PHYS 2220 and BME 2000.

BME 4010 - Senior Project I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $35.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.
Description: Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem-solving techniques will be emphasized. Topics include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.
Pre-requisite(s): Permission from the department. Before seeking departmental approval, students should be
currently enrolled in BME 3090 and should have taken at least four 3000-level core ECE or BME courses, MATH 3410 or ECE 3430, and either ENGL 3100 or PS 3250. Exceptions to this rule are made only if a student's graduation would otherwise be delayed. 

Suggested Requisite(s): BME 3090 and MATH 3410 and ENGL 3100.

BME 4020 - Senior Project II

Credits: (2)  
Typically Taught Spring Semester: Full Sem  
Course Fee: $35.00  
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials. 
Description: A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations. 
Pre-requisite(s): BME 4010.

BSAD 1010 - Introduction to Business

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Relation of business managers and firms to contemporary society and the global economy. Topics include human values and ethics in the workplace, multiculturalism, social responsibilities of business, business functions, and general principles of effective business operation.

BSAD 2620 - Executive Lectures/Career Development

Credits: (1)  
Typically Taught Summer Semester: 1st Block, 1st Blk Online  
Typically Taught Fall Semester: Full Sem, Full Sem - Online  
Typically Taught Spring Semester: Full Sem, Full Sem - Online  
Description: The purpose of this class is to expose students to a variety of different business careers through a series of lectures presented by successful business executives. Through class discussions and assignments, students will also develop the skills required to find the job and career that fits them best. Credit/No Credit

BSAD 2704 - Information Resources in the Business Disciplines

Credits: (1)  
Typically Taught Fall Semester: 1st Blk, Full Sem Online  
Typically Taught Spring Semester: 1st Blk, Full Sem Online  
Description: Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines. Cross listed with LIBS 2704.

BSAD 2899 - Business Foundations and Admissions Process

Credits: (0)  
Typically Taught Summer Semester: Full Sem - Online  
Typically Taught Fall Semester: Full Sem - Online  
Typically Taught Spring Semester: Full Sem - Online  
Description: Completion of BSAD 2899 is required of all students pursuing any major, minor, emphasis or certificate awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Business Foundation knowledge, and 2) admittance to the Goddard School. Students must have an overall GPA of 2.5 or higher and a Business Foundation GPA of 2.5 or higher and a minimum grade of "C-" or 'CR' in each of the seven Business Foundation courses plus a minimum grade of "C" in the two Liberal Support courses. Credit/No credit. 
Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS. 
Suggested Requisite(s): Students should register for this
course concurrent with (same semester as) their last Business Foundation course (ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010 and QUAN 2600) or after the required Business Foundation courses have been completed.

**BSAD 2920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1–6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**BSAD 3000 - Small Business Management**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem Online

**Typically Taught Spring Semester:** Full Sem Online

**Description:** This course is designed for students majoring outside the John B. Goddard School of Business & Economics. It will not be counted for credit toward graduation for students majoring in the John B. Goddard School of Business & Economics. It covers the business management concepts involved in starting and/or managing a small business.

**BSAD 3200 - Legal Environment of Business**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Full Sem Online

**Typically Taught Fall Semester:** Full Sem, Full Sem Online

**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** Introduction to the legal and judicial system, emphasizing the application of regulatory law (e.g., antitrust, employment discrimination, etc.) and selected common law topics (e.g., contracts, agency, etc.).

**BSAD 3330 - Business Ethics & Environmental Responsibility**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, 1st Blk

**Typically Taught Fall Semester:** Full Sem, 1st Blk, 2nd Blk

**Typically Taught Spring Semester:** Full Sem, 2nd Blk

**Description:** An introduction to the rudiments of moral reasoning, concepts and principles, and their application to common ethical issues faced in business. Special attention will be given to moral issues associated with the use of the natural environment by businesses.

**Pre-requisite(s):** BSAD 2899.

**BSAD 3500 - Introduction to Business Research**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Introduces students to gathering and analyzing primary and secondary data for a wide range of business applications, such as assessing customer or employee satisfaction. Students are introduced to CD ROM databases, other library resources, questionnaire development and administration, basic data analysis, and research report writing.

**Pre-requisite(s):** BSAD 2899, QUAN 3610.

**BSAD 3600 - [World Region] Business and Society**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** The world region or country covered in this course varies and will be indicated in the specific course title and on the student's transcript (e.g., European Business and Society, Japanese Business and Society, etc.). For a specified world region or country, this course considers its historical and cultural roots, together with modern societal issues, as they relate to business; the role of business in society; economic development, industrial policy, and trade relations; and management and business practices, including sociocultural considerations, in the specified world region or country.

**Pre-requisite(s):** BSAD 2899.

**Suggested Requisite(s):** Prior course work in business or economics or the appropriate foreign language(s) or culture, or in-country experience.

**BSAD 4210 - Survey of Business Law**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem Online

**Typically Taught Fall Semester:** Full Sem Online

**Typically Taught Spring Semester:** Full Sem

**Description:** An overview of sales, negotiable instruments,
property, and debtor/creditor relations and other selected legal topics.

**Pre-requisite(s):** BSAD 2899, BSAD 3200.

**BSAD 4401 - E-Commerce**

**Credits:** (3)

**Description:** Technologies, strategies, and methods for an electronic approach to financial, purchasing, marketing, and order fulfillment processes. Emphasis is on creating successful business strategies to exploit Internet and Electronic Data Interchange (EDI) capabilities.

**Pre-requisite(s):** BSAD 2899, BSAD 3200.

**Note:** Course not currently being offered.

**BSAD 4500 - Entrepreneurship**

**Credits:** (3)

**Description:** Integration of various functional areas of business as they relate to evaluating, creating, planning, and managing new business ventures.

**Pre-requisite(s):** BSAD 2899, BSAD 3200.

**Note:** Course not currently being offered.

**BSAD 4620 - Executive Lectures**

**Credits:** (1)

**Typically Taught Fall Semester:** Full Sem, Full Sem
**Typically Taught Spring Semester:** Full Sem, Full Sem

**Description:** This course is designed to acquaint the students with successful executives, their personal styles and philosophies as leaders, and the keys to their effectiveness. Credit/No credit.

The format is a series of weekly one-hour lectures delivered by guest executives.

The course may be repeated for credit to a maximum of two credit hours.

**BSAD 4680 - Small Business Diagnostics**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required.

**Cross-listed with ENTR 4680.**

**BSAD 4780 - Strategic Management**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** A capstone course for seniors designed to facilitate integration of the knowledge gained in earlier courses. Focus of the course is on the total enterprise. Emphasis is on crafting well-conceived strategies and on successful strategy implementation.

**Pre-requisite(s):** BSAD 2899 and BSAD 3200 and SCM 3050 and FIN 3200 and MGMT 3010 and MKTG 3010 and (MGMT 3200 or PS 3250 or ENGL 3100 or ENGL 3530 or SCM 4500); senior standing.

**BSAD 4800 - Independent Research**

**Credits:** (1-3)

**Description:** Directed research and study on an individual basis.

**Pre-requisite(s):** BSAD 2899; Senior Standing; Written Instructor Approval.

May be repeated until a total of 4 hours credit is accumulated.

**BSAD 4850 - Business Administration Study Abroad**

**Credits:** (1-3)

**Description:** This course is designed for students who wish to explore business administration theory and practice in countries other than the U.S. Students will study international business as offered through a partner university (or other university with department chair approval).

**Pre-requisite(s):** BSAD 2899.

May be repeated once up to 6 credits.

**BSAD 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

BTNY 1010 LS - Plants: Apocalypse Prevention

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Plants are essential pieces in the puzzle of preventing and adapting to the environmental challenges of our time. Because plants are major players in carbon cycles, wildfire behavior, medicine, and food systems, understanding and managing plant communities is key to maintaining thriving human societies. We can learn from plant biology and use plants in strategic ways to solve the problems that our society faces and take care of ourselves in the face of turmoil.

BTNY 1203 LS - Plant Biology

Credits: (3)
Typically Taught Summer Semester: 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: An introductory course for non-majors that emphasizes unique features of plant biology. Included are discussions on: the origins of life; important plants of the world and their habitats; plant diversity, structure, function, and reproduction; plants and environmental science; plants that changed history; practical botany; and botany as a science.

Three lecture/demonstration hours per week.

BTNY 1303 LS - Plants and People

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online, 1st Blk Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online

Description: This class provides a general introduction to the importance and function of plants in human affairs. It includes an overview of science as a way of knowing, plant forms and functions, plant reproduction, and use of economically and sociologically important plants. Flowering and non-flowering plants and products such as fruits, forages, grains, medicines, herbs and spices, textile fibers, lumber, algae, and foliage plants are studied. Ecological concepts as they relate to the growth and production of world food crops will also be included. The course has a strong emphasis on the historical development of exploitation of certain plants and the role plants played in exploration and international development. This class cannot be used to fulfill requirements for a Botany major or minor.

Three hours of lecture per week.

BTNY 1370 LS - Principles of Life Science

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: A survey course for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized. Recommended for students intending to major in elementary education. This class cannot be used to fulfill requirements for a Botany major or minor.

Two hours of lecture and one 3-hour laboratory per week.

BTNY 1403 LS SUS - Principles of Environmental Science

Credits: (3-4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $20.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: Development of awareness of the consequences of the impact of modern science through technology upon our environments and how we respond to issues related to threats to our biological life-support system. A definition of a quality environment is developed, with student input, and an analysis of the existing quality of our environment is made in light of this definition which challenges our collective wisdom to identify those things which we do well and to prescribe remedies for shortcomings. This course can be taken for 3 or 4 credits with the fourth credit based on completion of the laboratory course.

Three hours of lecture per week (3 credits) or three hours of lecture and one two-hour lab per week (4 credits).

BTNY 2104 - Plant Form and Function
BTNY 2114 - Evolutionary Survey of Plants

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Course fees are used to purchase consumables (seeds, greenhouse supplies, chemicals, microscope slides, etc.) and to provide a reserve fund to replace prepared slides and lab glassware and to repair or replace microscopes as needed.
Description: A study of the diversity, ecology, and reproduction of plants in the context of the evolution of life on earth. The role of plants in making life on earth possible is an important theme. This course is designed for science majors and is a prerequisite for selected upper division Botany courses.
Two hours of lecture and two 2-hour labs per week.
Pre-requisite(s): BTNY 2104.
Suggested Requisite(s): Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

BTNY 2121 - Career Planning for Botanists

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed for majors to introduce them to expected student learning outcomes, assessment of these expected outcomes, advisement and/or mentoring, keys to success in getting a job or into graduate school, career resources available, and how to start and develop the Botany Student Portfolio.
One lecture per week.
Pre-requisite/Co-requisite: BTNY 2104 or BTNY 2114.

BTNY 2203 - Home and Garden Plants

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Course fees are used to purchase consumables (seeds, soil, planting trays, etc.) and provide reserve funds to replace equipment (pruning shears, etc.) as needed.
Description: Basic principles of plant science with special reference to care of home and garden plants. Includes a general study of lighting, watering, soils, fertilizer, pruning and shaping, propagation, controlling pests, and planting designs.
Two hours of lecture and one 3-hour laboratory per week.

BTNY 2303 - Ethnobotany

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A thorough study of the scientific methodology in ethnobotanical research with opportunities for practical applications. This class includes an introduction to how plants are used by people for food, fiber, shelter, and medicine. Students will learn fundamental botanical principles, how to conduct field work and how to collect plants and prepare them for use. Ethical questions concerning conservation, biodiversity and the continued loss of indigenous plants and cultures will also be discussed.
Three lecture/demonstrations per week.

BTNY 2413 - Introduction to Natural Resource Management

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
Course Fee: $10.00
Course Fee Purpose: The course fee is used for field trip transportation.
Description: Introduces students, especially those interested in forestry and range management, to concepts and ideologies in the utilization and preservation of forests, range, soils, wildlife, water and fisheries, and the human impact on these resources.
Three hours of lecture per week.

BTNY 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work. Class will meet once per week and will be taught in a lecture/demonstration format. Cross-listed with BTNY, CHEM, GEO, and PHYS.

**BTNY 2750 - Topics in Science and Society**

Credits: (3)
Variable Title
Typically Taught Spring Semester: Full Sem

Description: An exploration of selected topics related to science and society. The specific title will appear on the student transcript.

**BTNY 2810 - Experimental Course**

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**BTNY 2830 - Readings in Botany**

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Cannot be repeated.

**BTNY 2890 INT - Cooperative Work Experience**

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Open to all students in Botany programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): BTNY 2104 and BTNY 2121, and instructor's permission.
Course may be repeated for a maximum of 3 credit hours.

**BTNY 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

**BTNY 2950 - Elementary Field Botany**

Credits: (3)
Course Fee: $100
Course Fee Purpose: The course fee is used to supply and maintain field equipment and cover the costs of transportation and lodging for a five day field trip.
Description: Fundamentals of Botany as observed during field trips. Trips will be preceded by lectures and exercises designed to prepare the student for maximizing the learning experience in the field. The course involves extensive pre-and post-trip exercises and evaluation.
May be repeated once for a maximum of 2 credit hours.
Note: This course is not currently offered.

**BTNY 3105 - Anatomy of Vascular Plants**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.
Description: Anatomy of Vascular Plants explores the internal structures of higher plants. This course examines the structural organization of higher plants at all levels of organization -- from the subcellular, to cellular, to tissue, to organism level---and pays close attention to how structure begets function from the subcellular to the ecological level. Additionally, students will learn different technical methods and equipment used to study plants’ internal structures.
Three hours of lecture and one 3-hour lab per week.
Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, & (BTNY 2600 OR GEO 2600 OR MICR 2600, OR PHYS 2600, OR CHEM 2600.)

**BTNY 3153 - Biology of the Plant Cell**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A study of plant cell structure and function, including biogenesis and activities of organelles, signal transduction, cell-cell interactions, and the molecular processes involved in cellular development and specialization as well as cellular responses. Three hours of lecture per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114, CHEM 1120 or CHEM 2310.

BTNY 3204 - Plant Physiology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: A study of the physiological processes of plants, including carbon metabolism, mineral assimilation, water relations, and plant hormones. Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2600 and BTNY 2104, CHEM 1120 or CHEM 2310, and MATH 1040 or MATH 1050 or MATH 1080.

BTNY 3214 - Soils

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed and field trip transportation.

Description: An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114 and (MATH 1040 or MATH 1050 or MATH 1080).

BTNY 3303 - Plant Genetics

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: The principles of heredity, population genetics, and molecular genetics as applied to plants. Three lecture hours and one 3-hour lab per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114) or MICR 2054; CHEM 1120 or (CHEM 2310 and CHEM 2315); MATH 1040 or MATH 1050 or MATH 1080; BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600.

BTNY 3454 - Plant Ecology

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $30.00

Course Fee Purpose: The course fee is used to supply and maintain field equipment and support transportation for field trips.

Description: Nature and development of plant communities and their relations to the environmental factors controlling them.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and (MATH 1040 or MATH 1050 or MATH 1080).

BTNY 3473 - Plant Geography

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: A study of global and regional distributions of major plant groups and communities as affected by past and present climates, biological, ecological and geomorphic factors.

Three lectures per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114.

BTNY 3504 - Mycology

Credits: (4)
Typically Taught Fall Semester: Full Sem odd years
Course Fee: $25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed and offset the costs of DNA sequencing.

Description: Structure, taxonomy, biology, and physiology of the fungi.
Two hours of lecture and two 2-hour labs per week.

**BTNY 3514 - Algology**

Credits: (4)
**Description:** A study of the biology of algae, their morphology, cytology, development, taxonomy, ecology, economic and experimental uses.

Two hours of lecture and two 2-hour labs per week.

**Pre-requisite(s):** BTNY 2104 and BTNY 2114, or MICR 2054, or BTNY/CHEM/GEO/MICR/PHYS 2600.

Note: This course is not currently offered.

**BTNY 3523 - Marine Biology**

Credits: (3)
**Description:** A study of marine biology and ecology, relating to the plant and animal populations of the sea to their various habitats, including the pelagic environment, the sea bottom, sea shores, and estuaries.

Two hours of lecture and one 2-hour lab per week.

**Pre-requisite(s):** BTNY 2114, or ZOOL 1110, or MICR 2054, or GEO 3010.

Note: This course is not currently offered.

**BTNY 3570 - Foundations of Science Education**

Credits: (3)
**Typically Taught Spring Semester:** Full Sem

**Description:** A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

**BTNY 3583 - Medicinal Plants-Chemistry and Use**

Credits: (4)
**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

**Description:** A study of plants and herbal preparations widely used in maintaining health and treating disease in traditional and modern societies. Active ingredients, modern use and side effects will be studied. In lab, students will learn to analyze plants, over-the-counter-drugs and herbal supplements for active ingredients. Students will also learn how to make extractions and preparations from plant materials. This course is especially useful for students interested in careers in Pharmacy, Ethnobotany, Natural Medicine, Nursing and Medicine.

Two hours of lecture and two 3 hour labs per week.

**Pre-requisite(s):** CHEM 1120 or (CHEM 2310 and CHEM 2315), and (MATH 1040 or MATH 1050 or MATH 1080).

**BTNY 3624 - Taxonomy of Vascular Plants**

Credits: (4)
**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are used to purchase herbarium curation supplies and fresh plant materials that are representative of a wide variety of plant families and to repair or replace dissecting microscopes as needed.

**Description:** A study of the basic principles and concepts of vascular plant systematics with emphasis on the identification and classification of flowering plants.

Two hours of lecture and two 2-hour labs per week.

**Pre-requisite(s):** BTNY 2104, BTNY 2114, and BTNY/CHEM/GEO/MICR/PHYS 2600.

**BTNY 3643 - Intermountain Flora**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** A taxonomic study of plants that are of major importance to the management of wildland resources. Students will learn to identify 300 of the most important grasses, woody plants, and marsh-aquatic plants. Considers federal laws for the regulation of rare and endangered species and habitat designation.

One hour of lecture and two 2-hour labs per week.

**Pre-requisite(s):** BTNY 3624.

**BTNY 3810 - Experimental Course**

Credits: (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**BTNY 4113 - Plant Evolution**
Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The Plant Evolution course focuses on two broad areas: 1) the patterns of evolution of plants from prokaryotes to seed plants and 2) current patterns and processes of evolution among plants. The first area will involve an examination of the evolutionary patterns of plants, with a focus on land plants, and will include tracing patterns of evolution from prokaryotes to eukaryotes to land plants to vascular plants to seed plants. This section of the course will explore patterns, evolutionary innovations, and notable taxa throughout the history of plants. The second area will involve an investigation of the current patterns and processes influencing plant evolution. This includes variation within and among populations, strategies for reproduction and breeding systems in plants, patterns of selection, speciation, macroevolution, etc. We will not only discuss these aspects of plant evolution but also delve into modern (and previous) methods for examining patterns and processes of evolution in plants.
Pre-requisite(s): BTNY 2104 and BTNY 2114.
Pre-requisite/Co-requisite: BTNY 2121.
Note: This course is not currently offered.

BTNY 4252 - Cell Culture
Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Basic methods and applications for culturing plant and animal cells in vitro. Two 2-hour combined lecture and laboratory sessions per week.
Pre-requisite(s): BTNY 2104 or MICR 2054.

BTNY 4570 - Secondary School Science Teaching Methods
Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.
Pre-requisite(s): Admission to the Teacher Education Program.

BTNY 4750 - Topics in Botany
Credits: (1-5)
Variable Title
Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem
Description: An exploration of selected topics in the discipline. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): BTNY 2104 and BTNY 2114, and any specified courses selected by the instructor.
Course may be repeated up to 10 times for credit.

BTNY 4800 - Individual Research
Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.
Course may be repeated up to 10 times for credit.

BTNY 4810 - Field Studies of the Utah Flora
Credits: (2)
Experimental
Course Fee: $40.00
Course Fee Purpose: The course fee is used to support transportation for field trips and cover some of the cost of herbarium supplies.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Note: May be repeated for a total maximum of 6 credit hours.

BTNY 4830 - Readings in Botany
Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.
May be repeated up to four times for a maximum of 6 credit hours.

BTNY 4840 - Thesis Readings
Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Literature search and evaluation, culminating in the writing of a thesis proposal.
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of thesis advisor.
Course may be repeated once for a maximum of 4 credit hours.

BTNY 4850 - Thesis Research

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Independent research related to a student's approved thesis proposal.
Pre-requisite(s): BTNY 2600 and BTNY 4840 and (MATH 1040 or MATH 1050 or MATH 1080) and approval of thesis advisor.
May be repeated for a maximum of 8 credit hours.

BTNY 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Open to all students in Botany Department programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, two upper-division Botany courses, and instructor approval.
Course may be repeated 5 times for a maximum of 6 credit hours.

BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121 and any specified courses selected by the instructor. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

BTNY 4950 - Advanced Field Botany

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $100

Course Fee Purpose: The course fee is used to supply and maintain field equipment and cover the costs of transportation and lodging for a five day field trip.

Description: A concentrated study of the flora and/or field methods for conducting surveys or ecological studies in a specific geographical region. This course generally involves an extended field trip conducting botanical fieldwork in addition to local fieldwork and/or study to prepare for and summarize trip results.
Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, BTNY 2600, and any specified courses selected by the instructor, and consent of the instructor.

BTNY 4970 - Botany Thesis

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Written report of thesis research in the form of a scientific paper.
Pre-requisite(s): BTNY 4850 and approval of instructor (thesis advisor).

BTNY 4990 - Botany Capstone Seminar

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem

Description: Oral presentation of an individual research, thesis research, library research, or internship project in which the student demonstrates understanding of science as a process. This course includes the final evaluation of the student's portfolio and should be taken the last semester of the senior year.
Pre-requisite(s): BTNY 2121 and Senior status.

BTNY 5030G - Botany for Teachers

Credits: (2-5)

Description: Science content course for teachers in MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.
Course may be repeated up to 10 times.
Note: This course is offered as needed.

CHEM 1010 PS - Introductory Chemistry

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: This is a lecture-demonstration class designed to introduce the subject of chemistry and requires no prior chemistry experience. This class is designed for students who will not be majoring in a discipline that requires any further chemistry coursework. This course is not intended to prepare students for any future chemistry coursework.

CHEM 1110 PS - Elementary Chemistry

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Fundamentals of inorganic chemistry and introduction to organic chemistry. The first course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.
Four hours of lecture and one 3-hour lab a week.
Co-Requisite(s): CHEM 1115.

CHEM 1115 - Elementary Chemistry Lab

Credits: (1)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 1115 is the lab course designed to accompany CHEM 1110. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry and introduction to organic chemistry. The first lab course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.
Co-Requisite(s): CHEM 1120.

CHEM 1120 - Elementary Organic Bio-Chemistry

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Elementary study of the compounds of carbon and chemical compounds and reactions of biological systems. The second course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.
Four hours of lecture and one 3-hour lab a week.
Pre-requisite(s): CHEM 1110 or equivalent.
Co-Requisite(s): CHEM 1125.

CHEM 1125 - Elementary Organic Bio-Chemistry Lab

Credits: (1)
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Students will be introduced to lab techniques associated with organic chemistry and biochemistry. This is the second lab course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.
Co-Requisite(s): CHEM 1120.

CHEM 1130 PS - Introduction to General, Organic & Biochemistry

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introduction to general, organic and biochemistry designed primarily for students of nursing and other majors that require no more than one semester of
CHEM 1135 - Introduction to General, Organic & Biochemistry Lab

Credits: (1)
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 1135 is the lab course designed to accompany CHEM 1130. Students will be introduced to lab safety and techniques associated with fundamentals of inorganic chemistry, organic chemistry, and biochemistry.

CHEM 1200 - Preparation for College Chemistry

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: CHEM 1200 prepares students to take the CHEM 1210-1220 chemistry series. No prior chemistry experience is necessary, however, mathematical and problem-solving competency at the level of intermediate algebra (MATH 1010) or above is expected. Students who do not plan to take Chemistry 1210-1220 series should not take this class. This course does not fulfill any general education requirements and does not apply towards hours in any major.
Three hours of lecture per week.
Pre-requisite/Co-requisite: MATH 1010, MATH 1050, MATH 1080, MATH 1210, MATH 1220, or MATH 2210.

CHEM 1210 PS - Principles of Chemistry I

Credits: (4)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is the first course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include kinetics, equilibrium including aqueous solution equilibrium, thermodynamics, electrochemistry, and an introduction to inorganic, nuclear, and organic chemistry.
Four hours of lecture and one 3-hour lab a week.
Pre-requisite(s): MATH 1010 or MATH 1050, MATH 1080, MATH 1210, MATH 1220, or MATH 2210.

CHEM 1215 - Principles of Chemistry I Lab

Credits: (1)
Typically Taught Summer Semester: 1st Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem Online
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: CHEM 1215 is the lab course designed to accompany CHEM 1210. This is the first laboratory course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. This laboratory emphasizes qualitative and quantitative methods of analysis.
Co-Requisite(s): CHEM 1210.

CHEM 1220 - Principles of Chemistry II

Credits: (4)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is the second course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include kinetics, equilibrium including aqueous solution equilibrium, thermodynamics, electrochemistry, and an introduction to inorganic, nuclear, and organic chemistry.
Four hours of lecture and one 3-hour lab a week.
Pre-requisite(s): MATH 1050 or MATH 1080, MATH 1210 or MATH 1220 or MATH 2210 or equivalent and CHEM 1210/1215.
Co-Requisite(s): CHEM 1225.
CHEM 1225 - Principles of Chemistry II Lab

Credits: (1)
Typically Taught Summer Semester: 2nd Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.

Description: CHEM 1225 is the lab course designed to accompany CHEM 1220. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry including kinetics, equilibrium, acids and bases, thermodynamics, electrochemistry, nuclear chemistry, and transition metal chemistry. The second lab course in a two-semester sequence designed primarily for science majors.

Co-Requisite(s): CHEM 1220.

CHEM 1230 PS - Engineering Chemistry

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.

Co-Requisite(s): CHEM 1235
Pre-requisite/Co-requisite: MATH 1050.

CHEM 1235 - Engineering Chemistry Lab

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Defray the cost of chemicals and other expendable laboratory materials, as well as for the purchase, maintenance, and repair of laboratory equipment.

Description: The lab component to foundational chemistry for engineers. By the end of class, students will:
- Determine chemical hazards.
- Perform chemical reactions and analysis safely.
- Set up reaction procedures, and calculate yields.
- Use appropriate glassware correctly, and report their properties accurately and precisely.
- Have a basic knowledge of the following instrumentation: calorimeters, pressure sensors, spectrometers.

CHEM 1360 PS - Principles of Physical Science

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A lecture/laboratory course designed to provide an introduction to the scientific method and its application to the study of selected topics in physics and chemistry.
Two hours of lecture and one 3-hour lab per week.

Recommended for Elementary Education majors.

CHEM 2310 - Organic Chemistry I

Credits: (4)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Principles of organic chemistry, including structure and reactivity of carbon based molecules. Detailed study of mechanisms, synthesis, and reactions. Alkane, alkyl halide, alkyne, alcohol, and ether families are covered.
Four hours of lecture a week.
Pre-requisite(s): CHEM 1220.
Co-Requisite(s): CHEM 2315 lab.

CHEM 2315 - Organic Chemistry I Lab

Credits: (1)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.

Description: Lab course designed to be taken with CHEM 2310. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.
Pre-requisite(s): CHEM 1220.
Co-Requisite(s): CHEM 2310 lecture.

CHEM 2320 - Organic Chemistry II

Credits: (4)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Principles of organic chemistry, second semester. A continuation of structure and reactivity analysis, along with structure elucidation techniques, spectroscopy and synthetic reactions. Coverage includes aromatics, carbonyls, carboxylic acid derivatives, and sugars.
Four hours of lecture a week.
Pre-requisite(s): CHEM 2310 and CHEM 2315.
Co-Requisite(s): CHEM 2325 lab.

**CHEM 2325 - Organic Chemistry II Lab**

Credits: (1)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Lab course designed to be taken with CHEM 2320. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.
Pre-requisite(s): CHEM 2310 and CHEM 2315.
Co-Requisite(s): CHEM 2320 lecture.

**CHEM 2600 - Laboratory Safety**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work. Class will meet once per week and will be taught in a lecture/demonstration format.
Cross-listed with BTNY, CHEM, GEO, and PHYS.

**CHEM 2820 - Elements of Research in the Sciences**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.
Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).
Cross-listed with GEO 2820 and PHYS 2820.

**CHEM 2890 INT - Cooperative Work Experience**

Credits: (1-6)
Description: Open to all students in the Chemistry Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. May be repeated 5 times with a maximum of 6 credit hours.
Note: This course is offered as needed.

**CHEM 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title with the credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

**CHEM 2990 - Chemical Technician Seminar**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed to provide the skills necessary to enter the job market as a Chemical Technician. One hour of lecture/discussion a week.
Pre-requisite(s): CHEM 1220.

**CHEM 3000 - Quantitative Analysis**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Theory and methods of gravimetric and volumetric analysis and simple instrumentation. Includes statistical evaluation of results.
Three hours of lecture and one 3-hour lab per week.
Pre-requisite(s): CHEM 1220.
Pre-requisite/Co-requisite: CHEM 3020.

**CHEM 3005 - Quantitative Analysis Lab**

Credits: (1)
Course Fee: $30.00
Course Fee Purpose: Lab related chemicals and
CHEM 3005 is a stand-alone lab course designed to accommodate transfer students from other Universities. CHEM 3005 registration will be allowed only by special permission from the Chair of Chemistry. Transfer students who have taken the CHEM 3000 lecture without the lab should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 3000 lecture.

Note: This course is offered as needed.

CHEM 3020 - Computer Applications in Chemistry

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: A course designed to provide students computer skills for applications including computation and electronic data bases searches. It is required that this course be taken before or with CHEM 3000. One hour of lecture/discussion a week.

Pre-requisite(s): CHEM 1210.

CHEM 3050 - Instrumental Analysis

Credits: (4)
Typically Taught Spring Semester: Full Sem

Course Fee: $25.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Theory and methods of modern instrumental analysis. Includes practical applications in electrochemical, spectrometric, and chromatographic techniques. Three hours of lecture and one three hour laboratory per week.

Pre-requisite(s): CHEM 3000.

Note: This course is offered as needed.

CHEM 3060 - Applied Analysis

Credits: (1)

Description: Applied Analysis using modern methods of analysis with an emphasis on speed and accuracy. One 3-hour lab per week.

Pre-requisite(s): CHEM 3000.

Pre-requisite/Co-requisite: CHEM 3050.

Note: This course is offered as needed.

CHEM 3070 - Biochemistry I

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Structure and function of biomolecules including proteins, nucleic acids, fats and carbohydrates. A focus on proteins as energy transforming and catalytic devices; their role in metabolism, defense and other biochemical processes. Three lectures a week.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

CHEM 3075 - Biochemistry I Lab

Credits: (1)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Biochemistry lab course designed to accompany Biochemistry I Lecture, CHEM 3070. Includes biochemical concept illustration using chemical and biological techniques and experimentation.

Pre-requisite/Co-requisite: CHEM 3070.

CHEM 3080 - Biochemistry II

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: A detailed study of the molecular basis of life: nucleic acids, biosynthetic pathways, molecular aspects of disease and pharmacology. Three lectures a week.

Pre-requisite(s): CHEM 2320, CHEM 2325, and CHEM 3070.

CHEM 3090 - Biochemical Techniques

Credits: (1)

Typically Taught Spring Semester: Full Sem

Course Fee: $10.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Advanced techniques including instrumentation for biochemistry. One 3-hour lab per week.

Pre-requisite(s): CHEM 2320, CHEM 2325, CHEM 3070, and CHEM 3075.

Pre-requisite/Co-requisite: CHEM 3080.

CHEM 3400 - Molecular Symmetry and Applied Math for Physical Chemistry
CHEM 3410 - Foundations in Physical Chemistry

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: The one-semester foundation course in Physical Chemistry covering chemical thermodynamics, kinetics with an introduction to quantum mechanics. Three hours of lecture and one 3-hour lab a week.
Pre-requisite(s): MATH 1220, PHYS 2220, CHEM 3000, ENGL 2100.

CHEM 3510 - Environmental Chemistry

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Fees for this course are used to defray the cost of chemicals and other expendable laboratory materials, as well as for the purchase, maintenance, and repair of laboratory equipment. To help minimize lab fees, students are expected to exercise careful use of chemicals, glassware, and laboratory equipment.
Description: CHEM 3510 focuses on the chemical processes that determine how matter moves through environmental systems. The course emphasizes chemical equilibrium, mass transport, and the relative timescales of chemical, physical, and biological processes in the environment. The lab portion of this course develops students' benchtop chemistry and programming skills in the context of researching the fate of a chemical product in the environment. All laboratory data analysis and calculations will be carried out using the Python programming language.

CHEM 3570 - Foundations of Science Education

CHEM 3610 - Foundations in Inorganic Chemistry

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: A foundation course for chemistry majors and minors. Topics include atomic properties, bonding, molecular symmetry, solid state structures, and transition metal complexes. This class will meet for 3 hours each week with one 3-hour laboratory per week.
Pre-requisite(s): CHEM 1220, and MATH 1060 or MATH 1080.

CHEM 4150 - Nuclear Magnetic Resonance Spectroscopy

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: NMR theory is investigated from a semi-classical standpoint and practiced on an NMR spectrometer. Pulse and Fourier transform NMR basics are developed and common one- and two-dimensional NMR experiments are described.
Pre-requisite(s): CHEM 2320, CHEM 2325, MATH 1220, and PHYS 2220 with lab.

CHEM 4250 CRE - Medicinal Chemistry

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Medicinal chemistry is a fast-paced and important field that has direct impacts on overall world health and quality of life. This 3-credit-hour course is designed for students with an interest in chemistry, biochemistry, pharmacology, and medicine. It will provide an in-depth look at how pharmacologically active molecules are designed, how they chemically interact with their targets, and how they work molecularly to treat human diseases.
diseases. Selected case studies will be used to illustrate the concepts being covered. In line with our university mission, an over-arching theme will be looking at how medicinal chemistry affects our worldwide community with emphasis on patents, drug development costs, risks, and ethics.

**Pre-requisite(s):** CHEM 3070.

**CHEM 4420 - Quantum Chemistry**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $15.00
**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** The second semester course of Physical Chemistry covering quantum mechanics, statistical mechanics, and chemical reaction dynamics. Three hours of lecture and one 3-hour lab a week.

**Pre-requisite(s):** CHEM 3000 and CHEM 3410 and CHEM 3610.

**CHEM 4540 - Spectrometric and Separation Methods**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $15.00
**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** Theory and practice of spectrometric and separation methods in the study of chemical systems. Three hours of lecture and one 3-hour lab per week.

**Pre-requisite(s):** CHEM 3050.

**CHEM 4550 - Geochemistry**

**Credits:** (3)

**Description:** The chemistry of the earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere with a synthesis of these ideas to account for the chemical evolution of the earth. Applications to mineral stability and chemical reactions, geochemical cycles, and isotope geochemistry. Three hours of lecture a week.

**Pre-requisite(s):** CHEM 1220 and GEO 2050 or consent of instructor.

Note: This course is offered during even years.

**CHEM 4560 - Environmental Geochemistry**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem

**Description:** Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-world applications. Three hours of lecture and three hours of lab per week.

**Pre-requisite(s):** CHEM 1220 and GEO 3000; or consent of instructor.

**CHEM 4570 - Secondary School Science Teaching Methods**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $15.00
**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

**Pre-requisite(s):** Admission to the Teacher Education Program.

**CHEM 4620 - Advanced Inorganic Chemistry**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $15.00
**Course Fee Purpose:** Lab related chemicals and consumables.

**Description:** Students will learn how to use symmetry and current bonding theories to explain and predict the structure, properties and reactivity of inorganic molecules. They will explore the breadth of inorganic chemistry including organometallic chemistry, bioinorganic chemistry, and catalysis. The research-based laboratory experience focuses on the synthesis, characterization, and testing of inorganic compounds using state of the art techniques and instrumentation. Three hours of lecture and one 3-hour lab a week.

**Pre-requisite(s):** CHEM 3610 or permission of instructor.

**CHEM 4630 - Materials Chemistry**
Materials chemistry is the study of the synthesis, structure, properties, and applications of solid materials. Our technology-driven world is fueled by advances in materials chemistry with examples of application in areas such as nanomaterials, polymers, and energy technology. This survey course will focus on the synthesis of materials through gas, liquid, and solid phase reactions. Crystalline and molecular structure of materials will be related to electronic, optical, thermal, and mechanical properties. Some material characterization techniques including x-ray diffraction and microscopy will be covered. The accompanying lab focuses on synthesis of advanced crystalline and amorphous materials through traditional and new techniques. Analysis with scanning electron microscopy, x-ray diffraction, uv/vis spectroscopy, and IR spectroscopy is included.

Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 3610.

**CHEM 4700 - Special Topics in Chemistry**

Credits: (1-3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): CHEM 4420 or permission of instructor.
This course may be repeated twice for a maximum of 3 credit hours.

**CHEM 4710 - Chemical Preparations**

Credits: (1-3)
Course Fee: $20.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Synthesis and determination of the properties of selected chemical compounds.
Three to nine hours of lab a week.
Pre-requisite(s): Permission of the instructor.
Note: This course is not currently being offered.

**CHEM 4800 - Research and Independent Study in Chemistry**

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Lab related chemicals and consumables.
Description: Open to qualified students for one or more semesters.
May be repeated for credit up to 12 times with instructor approval.

**CHEM 4890 INT - Cooperative Work Experience**

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A continuation of CHEM 2890. Open to all students.
May be repeated for credit up to 12 times with instructor approval.

**CHEM 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

**CHEM 4990 CRE - Senior Seminar**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A seminar course where students will share their research results with fellow students and faculty in written and oral formats.
Pre-requisite(s): CHEM 4800 or permission of instructor.

**CHEM 5030G - Chemistry for Teachers**

Credits: (3-5)
Description: Science content course for teachers in the M. Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing
additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program. May be repeated twice with a maximum of 5 credit hours.

**CHF 1500 SS/EDI - Human Development**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Full Sem

**Typically Taught Fall Semester:** Full Sem, Full Sem

**Typically Taught Spring Semester:** Full Sem, Full Sem

**Description:** A survey course which addresses the developmental aspects of individuals across the lifespan. Course content encompasses the study of biological, cognitive, social, and emotional developmental changes of the healthy individual in the context of the family and society. It emphasizes and demonstrates the vital connections between theory, research, and application.

**CHF 2400 SS/EDI - Family Relations**

**Credits:** (3)

**Typically Taught Summer Semester:** 1st Blk, 1st Blk

**Typically Taught Fall Semester:** Full Sem, Full Sem

**Typically Taught Spring Semester:** Full Sem, Full Sem

**Description:** Examines dynamics of the healthy family using family theory, individual life span development, research, and active learning experiences.

**CHF 2810 - Experimental Course**

**Credits:** (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**CHF 4810 - Experimental Course**

**Credits:** (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**CHNS 1000 - Proficiency Development**

**Credits:** (1-2)

**Description:** (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles. Note: Course not currently being offered.

**CHNS 1010 - First Semester Chinese**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

**CHNS 1020 - Second Semester Chinese**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (N=Novice) Continuation of CHNS 1010. Basic language skills including listening, speaking, reading, writing and culture.

**CHNS 1852 - Study Abroad**

**Credits:** (1-3)

**Description:** (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply. May be repeated twice with a maximum of 3 credit hours. Note: Check with Department for course availability.

**CHNS 2000 - Proficiency Development**
Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

CHNS 2010 - Third Semester Chinese
Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of CHNS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

CHNS 2020 HU - Fourth Semester Chinese
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of CHNS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

CHNS 2021 - Second Year II
Credits: (3)
Description: (NH=Novice High) Continuation of CHNS 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

CHNS 2030 - Second Year Language Review
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

CHNS 2851 - Study Abroad
Credits: (3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Note: Check with Department for course availability.

CHNS 2852 - Study Abroad
Credits: (1-3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

CHNS 3000 - Proficiency Development
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with department for course availability.

CHNS 3060 - Grammar & Composition
Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

CHNS 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3117 - DLI Bridge Course II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3118 - DLI Bridge Course III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

CHNS 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.

CHNS 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.

CHNS 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.

CHNS 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or
spanning several literary movements and geographical regions.

May be taken 3 times up to 9 credits under different titles. Note: Check with department for course availability.

**CHNS 3710 - Business Language I**

**Credits:** (3)  
**Course Fee:** $8.00  
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.  
**Description:** (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors. Note: Check with department for course availability.

**CHNS 3850 - Study Abroad**

**Credits:** (1-6)  
**Description:** (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

**CHNS 4830 - Directed Readings**

**Credits:** (1-3)  
**Description:** (IH=Intermediate High) Independent readings under the direction of a faculty member. May be repeated up to 10 times. Note: Check with Department for course availability.

**CHNS 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)  
**Workshop**  
**Description:** (minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: Course not currently being offered.

**CHNS 4920**

** Credits:** (1-6)  
**Workshop**  
**Description:** (minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: Course not currently being offered.

**CJ 1070 - Law Enforcement/Corrections Academy, Part I**

**Credits:** (9)  
**Description:** Experiential credit for students completing a State of Utah authorized SFO/BCO or SFO/LEO POST Academy. Credit is earned concurrently with CJ 1080. Register through the Department of Criminal Justice. Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.

**CJ 1080 - Law Enforcement/Corrections Academy, Part II**

**Credits:** (9)  
**Description:** Experiential credit for students completing a State of Utah authorized SFO/BCO or SFO/LEO POST Academy. Credit is earned concurrently with CJ 1070. Register through the Department of Criminal Justice. Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.

**CJ 1300 - Corrections: History, Theory and Practice**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem, Online  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem, Online  
**Description:** An introductory overview of the correctional system including: the historical development and societal context of corrections, contemporary correctional theory and law, jails and prisons, community corrections, treatment, juvenile corrections, and contemporary correctional issues.

**CJ 1330 - Criminal Law and Courts**

**Credits:** (3)  
**Typically Taught Summer Semester:** Online  
**Typically Taught Fall Semester:** Full Sem, Online  
**Typically Taught Spring Semester:** Full Sem

CJ 1340 - Criminal Investigation

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: This course will provide an overview of the history of policing and the role of police in modern society. Particular emphasis will be placed on problems and issues confronting police and solutions within an organizational framework.

CJ 2340 - Crime Scene Investigation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Origin, philosophy, and development of the juvenile justice system, particularly the juvenile court. Emphasis placed upon laws, detention, adjudication, probation, after-care, foster homes, and other alternative correctional practices.

CJ 1350 - Introduction to Forensic Science

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: Origin, philosophy, and development of the juvenile justice system, particularly the juvenile court. Emphasis placed upon laws, detention, adjudication, probation, after-care, foster homes, and other alternative correctional practices.

CJ 2350 - Laws of Evidence

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: An introduction to the various types of physical evidence commonly encountered at crime scenes (e.g., fingerprints, hairs, fibers, drugs, glass, etc.), including discussion of comparison and identification techniques (i.e., optical examination/comparison, instrumental analysis, and many chemical processes) used in the analysis of such physical evidence.

CJ 2300 - Policing: History, Theory and Practice

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

CJ 2360 - Juvenile Law and Procedure

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: An investigation of the juvenile justice system emphasizing Utah law and procedure. Studies differences between juvenile and adult systems, delinquent acts, juvenile treatment as adults and role and function of probation, youth corrections, family services and the community.

CJ 2330 - Juvenile Justice

Credits: (3)
Typically Taught Summer Semester: Online

Description: This course is designed to give students an understanding of the integration of the criminal investigative process with complex scientific application of modern technology in searching for and processing physical evidence in crime scenes. It will provide background into the theory behind Crime Scene Science and the ethical and legal challenges faced by Forensic Scientists and Crime Scene Investigators. Using modern instructional materials, students will learn of the complexity of processing and documentation of Crime Scenes with the ultimate goal of having a successful outcome in the court system.

Pre-requisite(s): CJ 1350.

CJ 2350 - Laws of Evidence

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Deals with the principles and rules of law emphasizing evidentiary problems related to criminal cases.

CJ 2360 - Juvenile Law and Procedure

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: An investigation of the juvenile justice system emphasizing Utah law and procedure. Studies differences between juvenile and adult systems, delinquent acts, juvenile treatment as adults and role and function of probation, youth corrections, family services and the community.
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: Introduction to American criminal case processing including instruction on how a case is processed, step-by-step, from beginning to end. The motivations, cultural norms and behaviors of attorneys, judges and jurors will also be studied.

CJ 2810 - Experimental Course

Credits: (1-6) Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CJ 2860 INT - Criminal Justice Field Experience

Credits: (3)

Description: Field experience in an internship with city, county, and state criminal justice agencies. May be repeated once for 6 credit hours. Note: This course is not currently offered (see CJ 4860).

CJ 2861 INT - Victim Advocacy Capstone

Credits: (1-3)

Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk

Description: Capstone experience for students in the Victim Advocacy Certificate of Proficiency comprised of a volunteer experience with a victim advocacy agency/department; or victim advocacy training experience. Must be enrolled in the VA Certificate to register. Variable credit course (1-3 credit hours). Credit hours determined by length of experience in consultation with instructor prior to beginning course. May only be taken once for credit.

Pre-requisite(s): Completion of certificate required and elective courses.

Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

CJ 2862 INT - Juvenile Justice Capstone

Credits: (1-3)

Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk

Description: Capstone experience for students in the Juvenile Justice Certificate of Proficiency comprised of a volunteer experience with a city, county or state juvenile justice agency/department. Must be enrolled in the JJ Certificate to register. Variable credit course (1-3 credit hours). Credit hours determined by length of experience in consultation with instructor prior to beginning course. May only be taken once for credit.

Pre-requisite(s): Completion of certificate required and elective courses.

Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

CJ 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6) Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript. May be repeated for a total maximum of 6 credit hours.

CJ 3020 - Criminal Justice Management

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Current command level problems and trends in criminal justice organizations and management including work environment, motivation, leadership, morale, discipline, evaluation, planning, and functioning of line and staff.

CJ 3040 - Community Policing

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Problem solving and the development of community trust are integral to community policing. The
philosophy, concepts and methods in support of identifying the issues in a community that relate to crime are outlined and studied. The goal of creating healthy neighborhoods and sustaining the quality of neighborhood life are explained in detail. Crime is pervasive in American society, but victims and criminals have identified characteristics. These characteristics impact certain neighborhoods more than others. These characteristics and issues surrounding them are explored and researched.

CJ 3060 - Corrections in the Community

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Description: An overview of community based correctional programs focusing upon the historical origin, development, and current practices in probation, parole, the halfway house, work and educational release, as well as furlough programs.

CJ 3120 - Professional Practice for the Forensic Expert

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An in-depth analysis of critical issues for forensic experts in all fields. Topics such as evidence preservation, report writing, expert testimony and ethics are investigated. The course will focus on theory and practice through lecture, writing and practical exercises. Two-hour lecture, three-hour lab.
Pre-requisite(s): CJ 1350 or instructor approval.

CJ 3130 - Investigation of Computer Crime

Credits: (3)
Description: Deals with the threats, vulnerabilities, and risks of unauthorized system access. Understanding the modus operandi of criminal acts associated with computer crime and how to investigate them. Cryptography and network security will be closely examined.
Note: This course is not currently offered.

CJ 3270 - Theories of Crime and Delinquency

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem

CJ 3300 - Victimology

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: This course is designed to review key research areas in the field of victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.
Pre-requisite(s): CJ 1010.

CJ 3340 - Crime Scene Photography

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Theory and practice behind photographic documentation of crime scenes. Practice of proper documentation methodology, injury photography, evidence photography, special lighting considerations, etc. This hybrid course is a combination of lecture, laboratory, community workshops, and individual exercises.
Pre-requisite(s): CJ 2340 and ART 2450 and instructor approval.
Pre-requisite/Co-requisite: CJ 4115 or CJ 4125.

CJ 3344 - Advanced Forensic Photography

Credits: (3)
Typically Taught Fall Semester: Full Sem Online
Course Fee: $40.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: This course addresses photography and imaging issues relevant to the forensic science laboratory including examination quality physical evidence imaging, alternative lighting and exposure techniques, digital camera calibration and maintenance, and courtroom presentation of image evidence.
Pre-requisite(s): CJ 3340.

CJ 3350 - The American Jail

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Spring Semester: Full Sem
Description: Course critically examines the American jail with particular emphasis on history, management, operations and contemporary issues.

CJ 3360 - Prisons - Contemporary Issues and Dilemmas

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A course which focuses upon the contemporary adult prison with a particular emphasis upon current problems, issues and dilemmas. Diversity issues such as integration of the prison work force by women and minorities as well as the problems of elderly, women, and minority inmates will be examined.

CJ 3370 - Death Penalty

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Description: Capital punishment is an interesting and pervasive topic within the field of criminal justice. This course will provide students with the opportunity to get acquainted with the history of capital punishment in the United States, introduce the social and political perspectives that surround capital punishment, explore methods and costs of capital executions, and examine the implications of using the death penalty as a form of punishment.

CJ 3400 - Drugs and Crime

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The historic, economic, social and political roles of legal and illegal drugs; their contribution to crime of many kinds, accidents, and impacts on the criminal justice system; production and distribution systems; efforts to combat; decriminalization, prevention and treatment.

CJ 3600 - Criminal Justice Statistics

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introduction to descriptive and inferential statistics and data analysis for use in criminal justice and the social sciences.
Pre-requisite(s): CJ 1010 and (MATH 1030 or MATH 1040 or MATH 1050 or MATH 1080 or QL completion)

CJ 3610 - Research Methods in Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem
Description: Addresses the social scientific methodology utilized in criminal justice and criminological research. The essentials of the scientific method will be studied such as research design, probability sampling, qualitative methods and the classic experimental design. The course will familiarize the student with the methods and problems of social science research as applied to the information needs of criminologists, criminal justice agencies, and criminal justice policy-makers. Students will acquire a better sense of criminology or criminal justice research and of exactly what it is that academic researchers do.
Pre-requisite(s): CJ 1010, or instructor approval.

CJ 3700 - Women & Criminal Justice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Course explores women within the American criminal justice system, focusing on females as the victim and perpetrator of crime as well as the various positions that they hold within the criminal justice profession (i.e. law enforcement, courts, corrections). Additional attention will be paid to the social construction of gender and how it can shape the creation and application of social control within society.
CJ 3800 - White Collar Crime

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is an advanced undergraduate course designed to provide an overview of white collar crime. The course emphasizes defining white collar crime, describing the nature of white collar crime, and applying criminological theories to explaining the perpetration of white collar crime.

CJ 3900 - Intelligence and National Security

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Exploration of the role and structure of intelligence collection and analysis in criminal justice and national security. Course focuses on skill building in the areas of critical thinking, organization and presentation of data, and problem analysis in the scope of intelligence and security driven problems.

CJ 4000 - Critical Legal Studies

Credits: (3)
Description: Critical Legal Studies comprehends the development and application of the criminal law and criminal justice institutions in the United States from a critical perspective. The course begins with a short review of slavery and race, civil rights and civil liberties, and the transformation of legal thought in America. Readings provide a perspective for how the criminal law and justice system are used to bolster the lives of the affluent classes while remaining oblivious or acting as a detriment to the lives of disadvantaged, under-represented and marginalized members of society. The course concludes with readings that provide an understanding for the meaning of justice, the role of the law in fostering a more just society, and the legal tools available to the advocate of social change to propose changes through legal reform.
Note: This course is not currently offered.

CJ 4065 - Law and Society

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores how law operates in society and how society influences the nature of the law. Topics may include the role of race in law, legal consciousness, efficacy of legal action, and the nature of the legal profession. Students may take either POLS 4065 or CJ 4065, but may not take both courses.

CJ 4110 - Physical Methods in Forensic Science

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $55.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Physical methods for evidence analysis including microscopy, pattern based physical evidence (firearms, footwear, etc.) pattern recovery and analysis and statistical foundations for pattern comparison.
Pre-requisite(s): CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

CJ 4115 - Friction Ridge Analysis

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Legal and scientific methodology behind identification, analysis and comparison of finger and palm prints including computer database methodology. 3 hours lecture, 1 hour lab.
Pre-requisite(s): CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

CJ 4116 - Friction Ridge Development

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $55.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Basic and applied scientific theory and practice behind the detection, development, recovery and preservation of latent finger and palm prints. 3 hours lecture, 3 hour lab.
Pre-requisite(s): CJ 4115.
CJ 4125 - Research Methods in Forensic Science

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques
Description: Selected topics in forensic instrumentation, trace evidence, pattern evidence, biological and chemical analysis, research methods and data analysis. 3 hours lecture, 3 hour lab.
Pre-requisite(s): CJ 4110, or instructor approval.

CJ 4165 - Constitutional Rights

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course critically examines Amendments to the United States Constitution related to criminal justice issues including the 4th, 5th, 6th, 8th, and 14th amendments. It examines citizen's rights and criminal justice agent's responsibility and liability in connection with those rights.
Pre-requisite(s): CJ 1010 and CJ 1330.

CJ 4167 - State Criminal Justice Rights

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course examines state supreme court decisions interpreting state constitutional provisions similar to the provisions in the U.S. Bill of Rights protecting criminal defendants. Emphasis is placed on discussing state constitutional decisions with broader constitutional interpretations than recognized by the U.S. Supreme Court. This course will focus upon state constitutional provisions analogous to the rights in the Fourth, Fifth, Sixth and Eighth Amendments, and the state supreme court decisions interpreting those state constitutional provisions.
Pre-requisite/Co-requisite: CJ 4165.

CJ 4200 - Ethical Issues in Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem
Description: Critically examines selected criminal justice ethical issues such as capital punishment, official corruption, use of deadly force, discretion and deception by the police.
Pre-requisite(s): CJ 1010.

CJ 4300 - History of Law Enforcement

Credits: (3)
Description: An introduction to the history of America's law enforcement organizations, stressing the development, community issues, and organizational designs. The early leaders in policing and the early crime problems in America will be discussed and studied. From slave patrols prior to the Civil War to the U.S. Marshals of the old west, police development issues will be presented.
Note: This course is not currently offered.

CJ 4400 - Sex Crimes

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course examines sex crimes in the United States through the lens of the criminal justice system. Topics may include stereotypes and realities related to perpetrators and victims of sexual violence, how various actors in the criminal justice system respond to allegations of sexual abuse, and potential solutions to the problem of sexual violence in the United States.

CJ 4700 - International Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Compares United States criminal justice system with other international systems from throughout the world, and reviews the nature and extent of international crime.
Pre-requisite(s): CJ 1010.

CJ 4710 - Race, Crime, and Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: This course is designed to provide students with an overview of the contemporary response to race and crime. It will focus on policies, procedures, practices, and agents that make up the criminal justice system in the U.S. and how all of these factors affect race, ethnicity, and justice. Additionally, this course will explore the complex
relationship that exists between the criminal justice system and the social construction of race. We will be exploring the origins, nature, structure, and functions of social capital and justice from a number of different perspectives.

CJ 4810 - Experimental Course

Credits: (1-6)
Experimental
Course Fee: $55.00
Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques.
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CJ 4830 - Directed Readings and Special Projects

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Assigned reading or project with evaluation by faculty member. Requires approval of the Department Chair.
May be repeated for up to 6 credit hours cumulative course work.
Note: May not be used as an elective to complete CJ minor or A.S.

CJ 4860 INT - Criminal Justice Internship

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Volunteer experience with city, county, or state crime scene investigation units or related forensic science organizations. Students must complete a minimum level of course work, be selected by an agency, pass a background check, and have permission from the department to register for this course.
Pre-requisite(s): CJ 4110 or CJ 4115; and permission from the instructor.

CJ 4900 - Current Issues in Criminal Justice

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: In-depth study of current theoretical issues in criminal justice. Specific offering will be identified by name and will be listed on student's transcript with authorized credit.
May be repeated two additional times, for a total of three such classes with different titles.

CJ 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript.
May be repeated for a total maximum of 6 credit hours.

CJ 4950 - Field Trips/Travel Study

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed to provide students with access to both national and international law enforcement agencies, prisons, detention centers, courts and institutions dealing with criminals and delinquents - male and female. Field trips include 2-3 weeks of intense instruction and then 3-5 days of on-site visits, interviews, and lectures by practitioners in the field.
Course may be repeated for a total of six (6) hours of criminal justice credit. Additional hours will be counted toward 120 elective hours of study.
Note: May not be used as an elective to complete CJ minor or A.S.
### CJ 4995 - Criminal Justice Senior Assessment

**Credits:** (1)  
**Typically Taught Summer Semester:** Full Sem - Online  
**Typically Taught Fall Semester:** Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem - Online  
**Description:** Program assessment for graduating seniors combined with an exploration of selected issues and dilemmas surrounding the criminal justice field. Credit/No credit.  
**Pre-requisite/Co-requisite:** Criminal Justice major core course requirements completed (CJ 1010, 1300, 1330, 2300, 3270, 3300, 3610, 4165, and 4200) and senior standing; or department chair approval.

### CM 1100 - Construction Management Orientation

**Credits:** (1)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course introduces students to careers in the construction industry and is designed to help students develop a clear focus on their educational and occupational goals.

### CM 1150 - Construction Graphics

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course covers graphical communications as they relate to the architectural, engineering, and construction industry. Includes print reading, interpretation of graphical symbols and line types, and understanding of construction terminology.

### CM 1210 - Residential Construction Materials and Methods

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** This course provides students with knowledge of residential building techniques and materials. The course will examine common construction materials, components, and systems as related to wood frame structures, including sustainable materials. The residential construction process will be analyzed from site planning to finish construction.

### CM 1220 - Construction Contracts

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course covers the interpretation of contract documents used in the various construction delivery methods. Includes contracts, bidding documents, bonding and insurance, conditions of the contract, general requirements, and technical specifications.

### CM 1310 - Materials & Methods

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course covers the materials and construction methods used in buildings. Emphasis is placed on sustainable construction practices.

### CM 1330 - Civil Materials

**Credits:** (4)  
**Course Fee:** $30.00  
**Course Fee Purpose:** Equipment maintenance and replacement, software, examinations, certifications, and supplies.  
**Description:** This course covers the properties of concrete, asphalt, and soils. Emphasis is placed on quality control and testing of materials.

### CM 1500 - Computer Applications in Construction

**Credits:** (3)  
**Typically Taught Spring Semester:** Full Sem  
**Pre-requisite(s):** WEB 1700.  
**Description:** Computer applications used in the construction field will be examined. Various software packages will be introduced and studied specifically to their application in the construction industry.

### CM 1550 - Construction Safety

**Credits:** (2)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $30.00  
**Course Fee Purpose:** The fee covers the cost from the Occupational Safety and Health Administration to provide
a "30-Hour" OSHA card to each student upon successful completion of the course.

**Description:** This course covers the Occupational Safety and Health Act (OSHA) and jobsite safety procedures and practices. Emphasis will be placed on ethics as it relates to safety.

### CM 2210 - Construction Jobsite Management

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course covers the skills necessary to manage construction projects successfully. Emphasis is placed on construction communications and documentation.  
**Pre-requisite(s):** CM 1100 and CM 1220.

### CM 2260 - MEP

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course is designed to provide a basic knowledge of mechanical, electrical, and plumbing (MEP) systems used in commercial buildings. Emphasis is placed on sustainable MEP systems and analyzing life-cycle costs.

### CM 2340 - Civil Design and Layout

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $30.00  
**Course Fee Purpose:** Survey equipment needed in order to learn the principles and also computers and software in the computer lab.  
**Description:** This course is designed to provide a basic knowledge of road, utility, and site design. Emphasis is placed on determining grades and surveying operations necessary for layout of civil designs, including establishing locations and elevations.  
**Pre-requisite(s):** MATH 1010 or QL.

### CM 2360 - Commercial Design and Codes

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $80.00  
**Course Fee Purpose:** Lab computers, and software used to teach this course  
**Description:** This course is designed to provide a basic knowledge of processes used to design commercial buildings. Includes the use of building information modeling (BIM) in the design process for preparing drawings and coordinating the design of the different building trades. Emphasis is placed on how zoning regulation, building codes, and sustainability are integrated into the design.  
**Pre-requisite(s):** CM 1150 and CM 1310.

### CM 2410 SUS - LEED-GA Preparation

**Credits:** (1)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course will help prepare students to take the LEED-GA exam.

### CM 2640 - Quantity Survey

**Credits:** (2)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course covers the processes and methods used to develop a quantity takeoff (list of required materials) for commercial construction projects. Emphasis is placed on using spreadsheets to prepare the quantity takeoff.  
**Pre-requisite(s):** MATH 1010 or QL, CM 1150, and CM 1310.

### CM 2880 - Internship

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. Ethics as it relates to construction management will be discussed.

### CM 2899 - AAS Graduation Assessment and Signoff

**Credits:** (0)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course includes final assessment (e.g.,
exit interviews) and signoff needed for graduation with an AAS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

**CM 2990 - Construction Management Seminar**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** This course is designed to give students the opportunity to interact with professionals from the architecture, engineering, and construction industries and to learn of emerging trends within these industries. Students may repeat this course three times and up to 2 credits.

**CM 3115 - Construction Cost Estimating**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Course Fee:** $20.00
**Course Fee Purpose:** Lab aid, paper.
**Description:** This course covers the processes and methods for preparing estimates and bids for construction projects. Emphasis is placed on the use of computers in preparing estimates. Ethics as it relates to bidding will be discussed.
**Pre-requisite(s):** CM 2640.

**CM 3130 - Construction Planning & Scheduling**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Lab computers and software licenses.
**Description:** This course covers the processes and methods of planning and scheduling of construction projects. Emphasis is placed on the use of computers in the planning and scheduling process.
**Pre-requisite(s):** CM 2640.

**CM 3310 - Leadership in the Construction Industry**

Credits: (2)
Typically Taught Fall Semester: Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course explores leadership as applied to the construction industry. Emphasis is placed on the importance of professional relationships.
**Pre-requisite(s):** CM 2210.

**CM 3330 - Civil Materials and Testing**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Course Fee:** $20.00
**Course Fee Purpose:** The cost of consumable materials used for testing and mixtures etc. throughout the semester so sand and gravel, Concrete Masonry Units, cement powder etc.
**Description:** This course covers the properties of concrete, asphalt, and soils. Emphasis is placed on quality control and testing of materials.

**CM 3370 - Preconstruction Services**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Course Fee:** $17.43
**Course Fee Purpose:** Pull-planning exercise used by industry partners.
**Description:** This course covers services provided by contractors during the design of projects constructed using alternative delivery methods (e.g., design-build, CM/CG). Emphasis is placed on reducing construction risks during the design process.
**Pre-requisite(s):** CM 2360 and CM 3115.

**CM 3510 - Energy Management in Bldg. M&E Systems**

Credits: (4)
Typically Taught Fall Semester: Full Sem
**Description:** This course covers mechanical and electrical system design, operation and maintenance principles. Includes review of types of systems and equipment, and applications for each. Covers estimating, monitoring and managing the use of energy.

**CM 3540 - Facilities Management Administration**

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
**Description:** Practical applications of the administrative principles and skills required of a successful facility manager focusing on administration, management, and leadership of the facility function, finance and accounting, repair, alterations and maintenance, planning, programming, budgeting and execution.

**CM 3630 - Environmental Issues in FM**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Practical application of environmental practices and procedures pertinent to preservation, protection, compliance and conservation issues related to facilities management with emphasis on the regulatory and permitting process, environmental planning, auditing and assessment, recycling, indoor air quality (IAQ) and ozone level depleting substances (ODS), Environmental Protection Agency (EPA) programs and permitting procedures, Occupational Health and Safety Act (OSHA) programs, and sustainable practices.

**CM 3660 - Energy Management**

Credits: (3)
Typically Taught Spring Semester: Full Sem even years
Description: The course addresses the methodologies of estimating annual energy consumption, undertaking energy audits, and monitoring and targeting energy consumption of fossil fuels. The material covered is for building services engineering, building engineering, and environmental engineering in facilities management.
Pre-requisite(s): CM 3510.

**CM 3680 - Facility Management Administration and Operations**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course covers operational principles and leadership skills required of a successful senior-level facility management professional.

**CM 4120 - Construction Accounting and Finance**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the fundamental principles of construction finance, accounting, and cost control.
Pre-requisite(s): ACTG 2010.

**CM 4150 - Construction Equipment and Methods**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the use of equipment used on heavy/civil construction projects. Emphasis is placed on equipment selection, production rates, and unit cost.
Pre-requisite(s): CM 3115.

**CM 4210 - Facility Planning and Layout**

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: Practical aspects of facilities planning as a function of location and design with specific application to the following facilities: manufacturing and production, warehousing, and other commercial uses.

**CM 4270 - Computer Aided FM**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course covers current computer-based technologies available to the facility manager.

**CM 4310 - Long-term Planning in Facility Management**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This course covers financial and physical planning activities required to meet future needs of the successful Facility Management Organization.

**CM 4330 - Applied Structures**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the processes and methods used to analyze the behavior of engineered structures. Includes the application of the properties of materials and mechanics as they relate to the structural behavior of load resisting components.
Pre-requisite(s): PHYS 2010.
CM 4350 - Temporary Structures

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers basic design of temporary structures. Emphasis is placed on formwork, scaffolding, dewatering, and excavation shoring.
Pre-requisite(s): CM 3330 and CM 4330.

CM 4510 - Design Charrette/CM Challenge

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Students will work in multi-disciplinary teams to solve real-world construction problems.
Pre-requisite(s): CM 3115 and CM 3130.
Students can take the course 2 times for a max of 2 credit hours.

CM 4520 - ASC Student Competition

Credits: (1)
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 1st Blk
Description: Students will work in multi-disciplinary teams to solve real-world construction problems. This course requires students to participate in the ASC Region 6 Student competition.
Pre-requisite(s): CM 4510

CM 4570 - Approaches to Construction Contracting

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the development of a business plan for a small construction company.
Pre-requisite(s): PS 3250, CM 2210, and CM 4120.

CM 4620 - Senior Project

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a construction problem.
Pre-requisite(s): PS 3250, CM 2210, CM 3115, CM 3130, CM 3370, CM 4120, and CM 4330.

CM 4650 - FM Senior Project

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The application of skills, knowledge, techniques and concepts to an actual facility's management project. Emphasis on integrating the concepts taught in the facilities management classes. Students must apply for Senior Project the semester before they plan to take CMT 4650.
Pre-requisite(s): CM 3510, CM 3630, CM 3680. Senior class standing required.
Pre-requisite/Co-requisite: CM 4270, CM 4310.

CM 4800 - Individual Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual research or projects in Construction Management Technology. Credit and time determined by the student and faculty advisor.
Pre-requisite(s): Junior or Senior standing and consent of instructor.
May be repeated up to 9 credit hours.

CM 4830 - Directed Studies

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The student will receive credit for approved studies in an area not covered in the CMT program. Credit and time determined by the student and faculty advisor.
Pre-requisite(s): Junior or Senior standing and consent of instructor.
May be repeated up to 9 credit hours.

CM 4890 - Practicum

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. This course can be used to help the student satisfy the CMT program requirement of 800 hours of approved supervised work experience. Ethics as it related to construction management will be discussed.
Pre-requisite(s): CM 2880.
May be repeated up to 9 credit hours.

CM 4899 - BS Graduation Assessment and Signoff
Credits: (0)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

CM 4920 - Short Courses, Workshops, Institutes, and Special Programs
Credits: (.5-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.
Pre-requisite(s): Junior or Senior standing and consent of instructor.
May be repeated for a total maximum of 6 credit hours.

COMM 1020 HU - Principles of Public Speaking
Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $5.00
Course Fee Purpose: Cameras, microphones and other equipment for recording speeches, classroom equipment maintenance
Description: Introduces theories and principles of effective speaking with emphasis on: audience analysis and adaptation, listening, organization, content development, use of language, and extemporaneous delivery. Designed to improve the student's ability to research, organize, develop and make presentations.

COMM 1040 - Convocations
Credits: (1)
Description: Features distinguished speakers and artists in broad fields of humanities, sciences, technology, education, national and world affairs, and specialized artists in the fine arts from specialties such as music, theatre, interpretation, ballet and art.
May be repeated 5 times up to 6 credits.
Note: Course not currently being offered.

COMM 1130 - Media Writing
Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: Beginning instruction in information-gathering techniques and media writing styles that inform, entertain and/or persuade. Approach recognizes that new technology is blurring the distinctions among various media and that writers must have a broad base of knowledge and skills.
Pre-requisite(s): Proficiency in word processing.

COMM 1140 - Writing for Workplace Communication
Credits: (3)
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: This course is designed to teach communication appropriate to the workplace with an emphasis on written forms. It covers content, organization, tone, grammar and formatting across multiple contexts: presentations, professional biographies, email, executive summary, letters of commendation and complaint, press releases and business and training proposals. It uses verbal communication such as interviewing in addition to primary and secondary research to provide substance in professional communication.
COMM 1270 - Analysis of Argument

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Students will learn to analyze, evaluate, develop and refute arguments using formal argumentation methods and research based evidence. The course is designed to increase student competence and confidence in constructing, defending and critiquing a broad range of arguments found in public discourse.

COMM 1500 - Introduction to Mass Communication

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Examines mass media development and impact upon society. Considers newspapers, magazines, film, radio, TV and multimedia. The role of media in providing information, opinion, entertainment and advertising support are considered along with the social political-economic controls which affect the media.

COMM 1560 - Audio Production and Performance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: An introductory course in audio production and performance. Training in audio console operation, use of recorders and microphones, and audio editing. Class includes basic announcing and formatting for radio stations. Course emphasizes hands-on projects.

COMM 2010 HU - Mass Media and Society

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Media literacy course which examines the non-legal, but ethical and social problems of mass media. Discusses current media issues and explores constructive steps to improve media relationships.

COMM 2110 HU CEL - Interpersonal and Small Group Communication

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Explores the dynamics of verbal and nonverbal communication in personal relationships and small groups. The emphasis is on practical application of course content to enhance interpersonal relationships and to achieve competence as group members.

COMM 2200 - Multi-Camera Production and Performance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: An introductory course in all aspects of in-studio video production. Skills include performing for video as well as the use of cameras, switching, lighting, electronic graphics and audio equipment. In-class projects emphasize directing, writing and performing for video.

COMM 2210 INT - Intercollegiate Debate

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation and competition on the national debate resolutions and participation in individual events.
Pre-requisite(s): Permission of instructor.
May be repeated 7 times up to 8 credits. However, only 6 credits may be used toward the Communication major.

COMM 2220 INT - Intercollegiate Speech

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: *Full Sem*
Description: Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking. May be repeated up to 10 times for credit.

COMM 2250 HU - Essentials of Digital Media

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $50.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: This course introduces the basic digital communication skills necessary to be successful in today's multimedia environment. Students will learn how to produce and edit audio, stills, and video. Students will also learn to upload content for presentation on the Web and will learn to use social media to disseminate information relative to your content. Concepts will first be discussed in two lecture periods, and then put into practice in a lab.

COMM 2270 - Argumentation and Debate

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: An examination of the theory and practice of argumentation with emphasis on parliamentary and policy debate formats. Emphasis also placed on making claims and inferences, research and the use of evidence, cross-examination, case construction, rebuttals and style of presentation.

COMM 2400 - Social Media for Communicators

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Description: This course is designed for students who are interested in using social media professionally and strategically. Students will apply multiple communication perspectives to make sense of social media adoption and use. Upon completing this course, students will understand the implications of social media for a variety of social issues in personal, organizational, and societal contexts.

COMM 2550 - Communication in Professional Settings

Credits: (3)
Typically Taught Fall Semester: *Full Sem, Online*
Typically Taught Spring Semester: *Full Sem, Online*
Description: This class is designed to acquaint students with many of the major theories, concepts, and research findings related to the study of organizational communication and public relations. While this class will include a theoretical component, it is designed to be a more "hands on" or "practical skills" course. The information should be of practical value since individuals spend much of their lives in organizations and other professional settings.

COMM 2730 - Digital Radio Production and Broadcast

Credits: (1-3)
Typically Taught Summer Semester: *Full Sem*
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Broadcast equipment, events, radio licensing and services.
Description: Students meet once a week for one and two-credit options, or twice a week for the three-credit option. Students work as contributors to the Weber State student streaming radio station, KWCR. Work includes detailing the tasks of station management, announcing, content generation, production, news, sales or engineering. Two hours in the studio a week are required for single-credit registrants, four hours for two-credit registrants, and four hours in-studio work as well as a final portfolio of work for three-credit registrants. May be taken up to four times for a total of four credits.

COMM 2820 - Podcast Production

Credits: (3)
Typically Taught Fall Semester: *Full Sem*
Typically Taught Spring Semester: *Full Sem*
Course Fee: $25.00
Course Fee Purpose: Course fees are used to buy the equipment required to produce podcasts. Replacement equipment such as auxiliary and microphone (XLR) cables and headphones are needed.
Description: This course will acquaint students with all
aspects of podcasting and help them become better storytellers. Students will learn the components of podcast production including interviewing, story development, scriptwriting, interview techniques, remote and digital audio recording, editing of sound, mixing, and final production for streaming.

Pre-requisite(s): COMM 1560 or permission of instructor.

COMM 2890 - Cooperative Work Experience for The Signpost

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Newspaper lab experience at The Signpost for those who want the experience of gathering and producing news. Students will learn facets of producing a print and/or on-line publication and promoting the content on social media. Skills include news reporting and writing, advertising, design and photography. 3 credits requires instructor approval. The 3-credit option will be used for those seeking an Associate in Workplace Communication. May be taken 3 times and up to 6 credits total.

COMM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

Note: Course is offered as needed.

COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fee to cover equipment, maintenance, and software needs.

Description: This course will introduce students to immersive, 360-degree cinematic virtual reality storytelling. It will present a foundational understanding of the conceptualization of constructing digital media content for head-mounted displays, and present theoretical and practical applications for 360VR content. It will allow the students to explore the audio and visual production process to create engaging, compelling 360VR content specifically for head-mounted displays (HMDs), including monoscopic and stereoscopic video and ambisonic audio production, stitching, and editing.

Pre-requisite(s): COMM 2250 or permission of instructor.

COMM 2999 - Capstone in Workplace Communication and Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk

Description: This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals.

Pre-requisite(s): Permission of Instructor.
Crosslisted with ENGL 2999.

COMM 3000 - Communication Theory

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: This course is intended to provide students with an overview of communication theory. It will give students a working knowledge of theories used to explain a wide range of communication phenomena, enabling them to build upon selected theories in other upper-division courses in their chosen communication major concentration.

COMM 3050 - Conflict Management and Negotiation

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: The purpose of this course is to provide students an opportunity to explore conflict management
concepts in depth. Upon successful completion of this course, students will have a greater understanding of conflict across a variety of contexts, including interpersonal, organizational, group, and cultural. Students will be provided the analytical and communication tools to understand, evaluate, and respond effectively to conflicts.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3060 - Listening and Interviewing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course covers the purpose, structure, focus, and techniques employed in effective listening and interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing in a variety of interviewing settings. This course is designed to offer students insight into improved listening and interviewing practices. The theory and research concerning the process of listening and the practice of interviewing will form the basis for students' understanding about listening and interviewing behavior. This course then applies that knowledge to the development of listening and interviewing skills.

COMM 3070 - Performance Studies

Credits: (3)
Description: Study of aesthetic texts through performance featuring the view of text or literature as communicative event and textual meaning as response in readers and audience. A primary emphasis will be placed on the relationship between performative choices and textual understanding.

Pre-requisite(s): COMM 1020 or permission of instructor.
Note: Check with Department for course availability.

COMM 3080 - Intercultural Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Explores theoretical perspectives in intercultural communication. Through analysis of various intercultural theories, students will become aware of cultural influences on communication in both international and domestic cultures.

COMM 3085 - Family Communication

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: No activity is more fundamental to emotional need fulfillment, overall personal satisfaction, and the maintenance of community-social systems than family communication. It is in the recursive cycle of family communication that we learn how to relate to others. This course examines current studies in family communication research and its implications. Students will add to the scholarship of family communication by completing a research project in conjunction with this course.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3090 - Gender and Communication

Credits: (3)
Typically Taught Spring Semester: Full Sem, Online
Description: This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts.

Cross listed in WGS 3090.

COMM 3100 - Small Group Facilitation and Leadership

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Theories and practical communication processes are examined and applied to develop fundamental attitudes and skills for facilitating and leading effective groups.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3120 - Advanced Public Speaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Enhanced speaking skills across a range of situations such as the professional workplace and via social media. Increase understanding of audience, publics, and the overall definition of "speaking" as a result of our ever-changing society.

Pre-requisite(s): COMM 1020 or permission of instructor.
COMM 3130 - News Reporting and Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: Develops journalism skills relevant to newspapers and online news services. Emphasizes news gathering, interviewing and news writing.
Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3150 - Communication Research Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab for research purposes
Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3200 - Live Event Production

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations
Description: Students will learn to operate field video cameras, switchers, instant-replay and other equipment while experiencing the pressures of live-sports production. Students will be part of a crew supplying the visuals for Weber State's football and basketball scoreboards. The crew will also provide visuals necessary to fulfill production commitments. May be repeated up to 12 times for a maximum of 12 credit hours.
Note: (A maximum of 6 credit hours total may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3220 - Editing

Credits: (3)
Typically Taught Fall Semester: Online
Description: Develops editing knowledge and skills for print and online publications. Covers copy editing, content editing and page editing.
Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3230 - Health Communication

Credits: (3)
Description: A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments.
Cross-listed with HAS 3230.
Note: Check with Department for course availability.

COMM 3350 - Visual Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintaining computer labs for design course.
Description: Visual messages have great power to inform, educate and persuade. In all fields of communication, visual presentation of the message helps determine the success of the message. This course is designed to help students become effective and ethical visual communicators on the page or the screen. In addition to creating design projects, students will learn how to critically analyze visual designs and to understand major visual communication theories.
Pre-requisite(s): COMM 1130.

COMM 3400 - Introduction to Public Relations
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Philosophy and practice of public relations in business, government, education and non-profit organizations. Case studies will be selected from a wide range of actual public relations concerns to foster decision-making skills and a mature understanding of public relations management.

COMM 3440 - Public Relations Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintaining computer lab for writing course
Description: Explores principles and practices of a variety of public relations writing formats ranging from news releases to websites.
Pre-requisite(s): COMM 1130

COMM 3460 GLB - Public Relations and Social Media

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: This course will combine theory and practice in teaching the principles of the new "Social Media" or "PR 2.0." Students will learn how new web technologies have expanded the practice of Public Relations beyond the traditional arena and into the fast-moving and dynamic world of public communication on the web. They will learn how to communicate with the news media and directly with the public. The course will prepare them to use the newest technology and practices effectively as they represent their companies and their clients.

COMM 3550 - Organizational Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Study of communication in organizations from various theoretical perspectives with an emphasis on the organizational culture perspective. Includes topics such as communicating with external audiences, decision-making, conflict resolution, and power relationships.
Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3650 - Communication Law

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: First Amendment origins, interpretations and philosophy underlying regulation of the mass media.
Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3730 - Media Programming and Audiences

Credits: (3)
Description: This course focuses on principles, strategies and approaches for creating and scheduling content for radio, television and the World Wide Web. The course also provides an analytical framework for understanding industry trends in media programming, and how those trends are influenced by audience research. Students create and schedule programs, apply programming strategies and philosophies, and learn relevant terminology and audience measurement techniques.
Pre-requisite(s): Permission of instructor.
Note: Check with Department for course availability.

COMM 3740 - Writing for Screen

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Maintaining computer labs for writing course
Description: Specialized concepts and techniques required to write effectively for film, television, and other new media technologies.

COMM 3750 - Advanced Cinematography and Editing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Description: Capstone course for audio and video production. Emphasis is placed on combining production
types to produce longer and more complex programs.  

Pre-requisite(s): COMM 2250.

COMM 3751 - Narrative Digital Filmmaking

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Course Fee: $50.00  
Course Fee Purpose: Maintaining and repairing a/v equipment and computer editing stations  
Description: On-location video production and performance. Skills include screenwriting, directing, producing, use of field cameras and post-production.  
Pre-requisite(s): COMM 2250 or FILM 2280.

COMM 3780 - Broadcast News Writing and Production

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Course Fee: $50.00  
Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations  
Description: Classroom instruction and practical experience in writing, reporting, performing, producing, and editing for television news. Students will produce newscasts for a local cable channel.  
Pre-requisite(s): COMM 1130 and COMM 2250, or permission of instructor.

COMM 3820 - Persuasive Communication

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Description: Study of theories and principles of persuasion from classical to modern times. Examines persuasion as a means of influence in interpersonal communication, public speaking, public relations, advertising, politics, and other contexts.  
Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3840 - Data Visualization and Storytelling

Credits: (3)  
Description: Students taking this course will study the fundamentals of compelling data-driven storytelling.

Students will learn how to detect and articulate the stories behind datasets and communicate data findings in visual, oral, and written contexts for various audiences and the public. Students will become familiar with associated tools.

COMM 3850 - Advertising

Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: A practical and theoretical study of advertising. Course is designed for students planning careers in advertising, as well as for those who are simply lifelong consumers of advertising and want to understand its role in the economic system.

COMM 3880 - Audience Analysis

Credits: (3)  
Typically Taught Spring Semester: Full Sem  
Description: Students will focus on consumer behavior, data analysis, and media audience research in this course. Students will learn how to identify trends and patterns in media audience and translate data into stories to help companies make better decisions.  
Pre-requisite(s): COMM 3150.

COMM 3890 INT - Advanced Cooperative Work Experience with Signpost

Credits: (1-3)  
Typically Taught Summer Semester: Full Sem  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Course Fee: $50.00  
Course Fee Purpose: Events with professional journalists and other activities, maintenance and updating of computers in work room  
Description: Open to students who are Signpost editors and managers.  
Pre-requisite(s): COMM 1130 or COMM 2890.  
May be repeated six times for a maximum of 12 credit hours.  
Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3891 INT - Advanced Cooperative Work Experience with KWCR
COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $55.00
Course Fee Purpose: Events with PR professionals, printed materials and other activities, maintenance and updating of computers in work room, membership in PRSSA
Description: This is a nontraditional, CEL-designated course that functions as Ogden Peak Communications, Weber State's student-run public relations firm. Modeling the leadership and management roles of a real-world firm, students provide public relations services to community and campus partners.
Pre-requisite(s): COMM 3400 and permission of instructor.
May be repeated six times for a maximum of 12 credit hours.
Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Events with TV and film professionals and other activities, maintenance and updating of camera and editing equipment
Description: Open to students who are members of Weber State News' crew or staff and/or crew members of other student produced television programs.
Pre-requisite(s): COMM 2250 or permission of instructor.
May be repeated six times for a maximum of 12 credit hours.
Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3894 Advanced Cooperative Work Experience with Social Media and Data Analytics Lab

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: COMM 3894 Advanced Cooperative Work Experiences with Social Media and Data Analytics Lab is designed for students who want hands-on practice in social media content creation and strategic planning. Students will model the leadership and management roles of a real-world social media strategy firm and provide social media services to the campus community and campus partners.
Pre-requisite(s): COMM 2400 or COMM 3460 and instructor permission
Suggested Requisite(s): Trying to say a student can have either COMM 2400 or COMM 3460, but instructor permission could be possible if the student does not have either of those two courses.

COMM 4130 - In-depth and Investigative Journalism

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $15.00
Course Fee Purpose: Maintaining and updating of computer labs for writing and research
Description: Emphasizes finding and writing news stories that move from explanations of what happened to how and why something happened. Examines research techniques and discusses ways to use the law to access information.
Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 4150 - Rhetorical Theory and Criticism
Credits: (3)
Description: Studies the origins of rhetorical theory in Greece and Rome in the works of Corax, Isocrates, Plato, Protagoras, Aristotle, Cicero and Quintilian. Tensions between rhetoric and philosophy. Study and application of neo-classical standards of rhetorical criticism.
Pre-requisite(s): COMM 3820.
Note: Check with Department for course availability.

COMM 4160 - Contemporary Rhetorical and Communication Theories

Credits: (3)
Description: Study of contemporary rhetorical and communication theories.
Pre-requisite(s): COMM 3000 and COMM 4150 or permission of instructor.
Note: Check with Department for course availability.

COMM 4210 INT - Intercollegiate Debate

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation and competition on the national debate resolutions and participation in individual events.
Pre-requisite(s): COMM 2270 or permission of instructor.
May be repeated 7 times up to 8 credit hours. However, only 6 credits may be used toward the Communication major.

COMM 4220 INT - Advanced Intercollegiate Speech

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking. This is designed as an advanced course for students in their third or fourth years participating in intercollegiate speech.
Up to 10 times for credit.

COMM 4400 INT - Public Relations Media and Campaigns

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Apply communication principles to internal and external publics; research, plan and evaluate social interrelationships; study of the controlled and uncontrolled media and their role in public relations; prepare a major public relations campaign for a selected client.
Pre-requisite(s): COMM 3150 and COMM 3440, or permission of instructor.

COMM 4440 - Developing and Evaluating Health Communication Campaigns

Credits: (3)
Description: This course prepares students to understand the planning, implementation, and refinement of communication campaigns that affect individual and group level behavior changes in relation to health care issues. It will thus address public health problems. Throughout the semester, students study, practice, and apply the various stages of a health communication campaign based on real world conditions. The course content will draw from health behavior theory; formative (including pretesting), process, impact, and outcome research; and expert opinion.
Pre-requisite(s): COMM 3400 or permission of instructor.
Note: Check with Department for course availability.

COMM 4500 - Topics in Communication

Credits: (3)
Variable Title
Description: The study and application of Communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in contemporary journalism, electronic mediated communication, human communication studies, and public relations in a seminar format.
Pre-requisite(s): COMM 3000 or permission of instructor.
May be taken 2 times up to 6 credit hours with different designations.
Note: Course is offered as needed.

COMM 4740 - Advanced Writing for Screen and Television

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintaining computer labs for writing course
Description: This class is a workshop for students who have a screenplay in progress (Act 1 Complete) and ready to workshop pages and complete Act 2 and Act 3 (90 to 110 pages). Students will develop the ability to analyze the various elements of a feature film, including concept, character arc, dialogue, and plot devices such as suspense, surprise, dramatic irony, planting and payoff.
Pre-requisite(s): COMM 3740

COMM 4751 - Advanced Narrative Digital Filmmaking

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance and updating of camera and editing equipment
Description: This class is designed to teach advanced concepts, theories and skills in digital narrative film production. Students develop these skills through group production, individual performance, and repetition of production tasks and procedures from pre-production, production, to post-production.
Pre-requisite(s): COMM 3751.

COMM 4760 - Media Management and Distribution

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Analysis of complex systems necessary to manage media companies. Students will develop a website and a distribution plan for a new media company.

COMM 4770 - Digital Documentary Filmmaking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance and updating of camera and editing equipment
Description: This course will provide an introduction to the fundamental theory and craft of non-fictional visual storytelling and familiarize students with concepts such as drama, structure, story development and visual style. Throughout the semester, students will screen and analyze various filmmaking techniques used by documentary filmmakers. Students will develop and create a short documentary from conceptualization through post production.
Pre-requisite(s): COMM 2250.

COMM 4800 - Special Study and Individual Projects

Credits: (1-3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Work with an assigned faculty member on a project of special interest.
Pre-requisite(s): COMM 3000 and permission of instructor.
May be taken 3 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.

COMM 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School

Credits: (3)
Description: Prepares students to be teachers of journalism and advisors of student media in secondary schools. Designed to confront problems involved in organizing a staff, gathering material and publishing a newspaper, yearbook and literary magazine.
Pre-requisite(s): COMM 3000 or permission of instructor.
Note: This course is offered through Independent Study only.

COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School

Credits: (3)
Description: Methods and techniques for teaching speech communication in secondary schools. Techniques and practices for coaching and supervising high school speech
activities such as individual events, legislative forum, and debate.

**Pre-requisite(s):** COMM 3000 or permission of instructor.

**COMM 4860 - Communication Co-curricular Leadership**

**Credits:** (1-3)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem

**Description:** This course is designed to teach leadership and management skills to students who have taken on leadership roles within the Communication Department co-curriculars: WSU Debate, The Signpost, KWCR, Studio 76 and Ogden Peak Communications. With instructor permission, student leaders take this class in lieu of the co-curricular course during the semester of enrollment and are expected to fulfill their co-curricular responsibilities as well as participate in monthly leadership seminars and one-on-one mentoring sessions with their advisers.

**Pre-requisite/Co-requisite:** COMM 2210, COMM 2220, COMM 3890, COMM 3891, COMM 3892, COMM 3893, and COMM 3894.

May be repeated up to 6 credit hours.

**COMM 4880 - Social Media Metrics and Measurement**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course introduces social media analytics with the emphasis on metrics and measurement. The course aims to help students understand how to obtain, monitor, and evaluate digital traces on the online social platforms in a systematic way. The knowledge and skills learned in this course will help students use a data-driven approach to resolve future industry problems.

**Pre-requisite(s):** COMM 2400 and COMM 3150.

**COMM 4890 INT - Communication Internship**

**Credits:** (1-3)

**Typically Taught Summer Semester:** 1st Blk Online  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem

**Description:** An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain communication areas of emphasis.

**Pre-requisite(s):** COMM 1130 or COMM 1140 and COMM 3000.

May be repeated for 5 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.  
**Note:** Credit/No credit only.

**COMM 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Description:** Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.  
**Note:** Course is offered as needed.

**COMM 4990 - Senior Seminar**

**Credits:** (3)

**Typically Taught Summer Semester:** 1st Blk Online  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem

**Description:** A capstone course that prepares students to do a senior project and a portfolio to be used in job interviews or application to graduate school.

**Pre-requisite(s):** COMM 3000

**CS 1010 CA - Introduction to Interactive Entertainment**

**Credits:** (3)

**Typically Taught Summer Semester:** Online  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course examines and analyzes the history, philosophy, and impact of digital entertainment (video and computer games along with simulations) on an individual and society. Students take a critical look at the artistic, but also the cultural, economic and social aspects of this expressive medium. Students imagine and articulate their own ideas and work through a series of projects helping them understand the creative challenges behind interactive entertainment design. Implications of certain values embedded in games will be discussed. Elements of the ethical code of conduct for a game creator will be
formulated. The issue of balancing individual creativity vs. socio-cultural impact will also be discussed. Students will be required to play video games outside of the regularly scheduled class times. A lab fee is required for this class.

**CS 1022 - Software Development**

Credits: (4)
Description: Application of the most recent implementation of a selected programming language to the solution of technical and scientific problems.
Pre-requisite(s): CS 1030 and basic skills in Algebra.

**CS 1023 - Selected Programming Language**

Credits: (4)
Description: Introduction and application of the most recent implementation of a selected programming language to the solution of technical and scientific problems. The language for a particular instance of this course will be based upon demand.
Pre-requisite(s): CS 1030 and basic skills in Algebra.

**CS 1030 - Foundations of Computing**

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Computers are an essential part of every occupation. Having a basic understanding of computers will help students become more confident users. This course is taught at an introductory level and presents a broad overview of topics in computing such as personal digital security, ethical behaviors in education and business, how computers work and communicate with one another, how data is stored and used in a computer, and how to create a website and write a computer program.

**CS 1400 - Programming I**

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Most technology, such as airplanes, laptops, smartphones, and appliances, depends on computer programming to function. This course introduces students to computer programming using a modern programming language. Designed for students with little or no programming experience, it covers topics including logical problem solving, basic input/output, conditionals, loops, functions, arrays, classes, utilizing language libraries, development environments, and program debugging. Students will gain a basic understanding of how to create software for all computing environments.

**CS 1410 - Object-Oriented Programming**

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An introduction to the C++ language. Topics will include data types, control structures, functions, pointers, arrays, I/O streams, classes, objects, encapsulation, overloading, inheritance and use of these concepts in problem solving.
Pre-requisite(s): (CS 1400 or ECE 1400 or CS 2250) and (ENGL 1010 or ENGL 2010).

**CS 2130 - Computational Structures**
Credits: (4)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include sets, functions, logic, matrices, relations, graphs, trees, regular expressions, grammars, finite state machines, and data encoding.
Pre-requisite(s): CS 1400.

CS 2140 - Computer Systems Administration

Credits: (4)
Description: An introduction to managing computer operating systems. Covers installation of the operating system, network, and application software. The course will cover the UNIX operating system. Topics include working with disk drives, allocation of resources, security, administering user accounts, monitoring system performance, tuning concepts, remote mounting of file systems, and setting up systems on networks.
Pre-requisite(s): CS 1400.
Note: Course not currently being offered.

CS 2250 - Structured Computing in a Selected Language

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Introduction to structured problem solving using objects, data enumeration and encapsulation in a selected language. The language for a particular instance of this course will be based upon demand.
Pre-requisite(s): Basic skills in fundamental Algebra.

CS 2335 - Introduction to User Experience Design for Web & Mobile

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed to introduce students to the elements of user experience design for the web and mobile. The following topics will be covered: history of user experience, user centric design, agile development, user interface best practices for web and mobile applications, and analytics. Using current technologies and tools, students will create a basic web or mobile application.

CS 2350 - Client Side Web Development

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides an introduction to client-side programming and Web page development. Subjects covered include responsive Web page design and dynamic Web page development. The course will explore various technologies such as HTML5, CSS3, JavaScript client-side programming, and an introduction to a JavaScript framework.
Pre-requisite(s): CS 1030 and CS 1400.

CS 2400 - Project Management

Credits: (3)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Strategies and techniques for managing a project from inception to completion to meet all schedule, cost, and technical objectives. Knowledge and skills
learned in this course prepare students to perform successfully the role of a project manager in any construction, engineering, health, information technology, business, or research and development project, although emphasis will be on project management applied to Software Engineering. Topics include organizational structures, project planning and evaluation, cost estimating, quantitative methods in schedule and cost management, project information systems, communication skills, and conflict resolution.

CS 2420 - Introduction to Data Structures and Algorithms

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: General principles of common data structures and design of efficient algorithms. Topics include: arrays, linked-lists, stacks, queues, trees, graphs, tables, storage and retrieval structures, searching, sorting, hashing, and algorithmic analysis. Emphasis will be on abstraction, efficiency, re-usable code, and object-oriented implementation.
Pre-requisite(s): CS 1410.
Pre-requisite/Co-requisite: MATH 1050 or MATH 1080 or MATH 1210.

CS 2450 - Software Engineering I

Credits: (4)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An Object Oriented Analysis and Design course which provides practical guidance on the construction of object-oriented systems. Its specific goals are to provide a sound understanding of the fundamental concepts of the Software Development Life-Cycle, to teach quality design and development style through applications of object-oriented project development within a variety of problem domains, and provide coverage of current Software Engineering models and diagramming techniques.
Pre-requisite(s): CS 1410.

CS 2550 - Introduction to Database Design and SQL

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course is an introduction to databases, specifically focusing on the relational database model, database design and modeling and the structured query language (SQL). Students will become proficient at formulating data query requests using SQL and will also gain experience in database normalization and entity-relationship modeling.

CS 2705 - Network Fundamentals and Design

Credits: (4)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Provide an understanding of the basic networking terminology. This will cover the theory of networking, types of network protocols, and wide and local
area networks. The student should have a good understanding of network terminology at the completion of the course.

**Pre-requisite(s):** CS 1030 and CS 1400.

**CS 2780 - Windows Application Programming**

**Credits:** (4)
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course provides participants with a working knowledge of the Windows Operating System. The students will develop applications to run under Windows, using the C/C++ languages. Concepts of Memory Management, DLLs, Resources, and Child Window development will be emphasized. The course also introduces the student to the use of OLE controls and MFC architecture.

**Pre-requisite(s):** CS 1410 and basic algebra skills.

*Note:* Course not currently being offered.

**CS 2800 - Individual Projects & Research**

**Credits:** (1-4)

**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

**Pre-requisite(s):** CS 1410.

May be repeated 3 times up to 6 credits.

*Note:* Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

**CS 2810 - Computer Architecture/Organization**

**Credits:** (4)

**Typically Taught Summer Semester:** Full Sem-Online
**Typically Taught Fall Semester:** Full Sem, Full Sem-Online
**Typically Taught Spring Semester:** Full Sem, Full Sem-Online

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Computers are essential to modern life, yet most people use them with no understanding of how they accomplish everything they do. This course will explore how computers function from a technical perspective, allowing students to see why they work and are designed the way they are. The course will focus on Von Neumann computers, covering a variety of topics including logic gates, basic digital circuit concepts, number and data representation, the processor implementation, BIOS, buses, interrupts, addressing, memory management, and storage. The practical implementation of this knowledge will be examined by introducing assembly language code.

**Pre-requisite(s):** CS 1410 or (CS 1400 and (NET 2210 or NET 3200).

**CS 2890 INT - Cooperative Work Experience**

**Credits:** (1-4)

**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.

**Pre-requisite(s):** CS 1410.

May be repeated 3 times up to 6 credits.

*Note:* Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

**CS 2899 - Associate Degree Assessment**
Credits: (0)
Description: This course is to serve as an assessment tool whereby all AAS degree seeking students in the Department of Computer Science demonstrate core knowledge acquired from course studies in the discipline as specified in the AAS degree program. May be repeated 11 times.

CS 2920 - Short Courses, Workshops, Institutes, and Special Programs
Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CS 3030 - Scripting Languages
Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course addresses the design of scripting languages and their applications. Scripting languages can be used to manipulate text and data using subtle and complex coding to automate many tasks. Students will learn to write simple scripts to automate system administration tasks using appropriate languages. This course explores the nature of scripting, the role of scripting languages, introduces some of the popular scripting languages and their applications, and provides skills in scripting language design.
Pre-requisite(s): CS 1400 and CS 2705 or CS 1400 and NET 2210.

CS 3040 - Windows/Unix/Linux Infrastructure and Administration
Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An overview of computer operating system from the programmer's point of view. Input-output hardware, interrupt handling, properties of external storage

CS 3050 - Enterprise Computing
Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides an integrated view of using enterprise computing systems. An overview on enterprise hardware concepts, enterprise operating systems concepts, and interactive facilities is covered. Batch applications will be developed, edited, compiled, linked, executed and debugged in enterprise operating systems environments. An introduction to emerging technologies in enterprise computing will be presented. Access to the latest enterprise systems, hands-on exercises, and online support materials are important components of this course.
Pre-requisite(s): CS 2420 and CS 2810.

CS 3100 - Operating Systems
devices, associative memories and virtual address translation techniques, optimizing programs for performance, concurrent programming with threads, and network programming.

Pre-requisite(s): CS 2420 and CS 2810.

**CS 3210 - UNIX System Programming and Internals**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course provides hands-on experience with writing programs using UNIX system calls and interprocess Communication mechanisms, from simple file I/O and I/O management subsystems to network client and server programs. The internal design and operation of the UNIX operating systems are studied. A detailed examination of the UNIX SVR4 source code will be included in the course.
Pre-requisite(s): CS 2420.

**CS 3230 - Object Oriented User Interface Development with Java**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: An intermediate programming course that covers the "core" features of the Java programming language with the goal of preparing students to focus on specialized uses of Java. Topics include object-oriented programming and polymorphism, graphics, event handling, building graphical user interfaces with Swing, multithreading and synchronization, and error handling.
Pre-requisite(s): CS 2420.

**CS 3250 - Advanced Object Oriented Programming**

Credits: (4)
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Develop and expand abilities in solving lengthy, advanced problems, multiple parallel tasks, generic packages, and other object-oriented techniques using selected languages.
Pre-requisite(s): CS 2420.

**CS 3260 - Mobile Development for the iPhone**

Credits: (4)
Typically Taught Summer Semester: Online
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: This course addresses the development of applications for mobile iOS devices, specifically the iPhone using Xcode and associated tools. Students will learn the basics of the Swift programming language and use it to create applications for the iPhone family of products.
Pre-requisite(s): CS 1410, CS 2350 and CS 2550.

**CS 3270 - Mobile Development for Android**

Credits: (4)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Mobile devices have become an essential part of many people's lives. This course will explore the development of applications using the Android SDK and modern Android development tools while applying industry best practices. Students will develop multiple apps from
start to finish, and will be prepared to develop applications on their own.

Pre-requisite(s): CS 2350, CS 2550 and CS 3230.

**CS 3280 - Object Oriented Windows Application Development**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course is designed to teach students how to write Windows programs in C# using the .NET environment. The student will learn how to develop programs based on Windows Applications and the .NET Framework. They will also be introduced to APIs and MFC/AFX styles of Windows programming and to become familiar with various data sharing methods and .NET services.

Pre-requisite(s): CS 2420.

**CS 3540 - Database Administration**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course describes the role of the Database Administrator in managing an organization’s most valuable asset - its data. Topics covered include DBMS architecture, database layout, database development, data fragmentation, rollback segments, database tuning, database security, backup and recovery, database networking, and distributed databases. Special emphasis is given to working with current database management systems such as Oracle, SQL Server and DB2.

Pre-requisite(s): CS 2550.

**CS 3550 - Advanced Database Programming**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Students will build upon the basic database knowledge and skills gained in the introductory database course. Advanced database knowledge will be gained through the design and implementation of an enterprise-level database. Students will perform database programming techniques such as stored procedures, user-defined functions, cursors, triggers, and distributed queries. Various database paradigms will be used in the course including RDBMS and NoSQL.

Pre-requisite(s): CS 2550 and (CS 1410 or CS 3030 or WEB 3200).

**CS 3580 - Data Science Algorithms**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.

Pre-requisite(s): ((CS 1400 and CS 2550) or CS 2420) and (MATH 1040 or MATH 1120 or MATH 3410 or QUAN 2600) and (at least 60 hours of completed credits).

**CS 3610 - Introduction to Game Industry**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and
**CS 3620 - Server-Side Web Architecture**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** An introduction to server-side web architectures using current server-side technologies. General web development principles such as usability, reliability, maintainability, security, and scalability will be taught. Students will also learn how to architect and apply server-side technology to create both dynamic websites, and APIs at scale using industry best practices.

**Pre-requisite(s):** CS 2550 and (CS 2350 or WEB 1430).

**CS 3630 - Rich Internet Application Development**

**Credits:** (4)

**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** An introduction to developing and deploying rich Internet applications (RIAs) using current technologies. Students will develop engaging websites by incorporating RIAs in the web application development process.

**Pre-requisite(s):** CS 2350 and CS 2550.

**CS 3645 - Advanced User Interface Design**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Students will learn the elements of user interface design as it applies to front-end web development and software engineering. Students will identify best practices in user interface design. The following topics will be covered: wire-framing, color palettes, typography, information architecture, contrast, uniformity, and responsive design techniques. Using current technologies and tools, students will wireframe, design, and program effective interfaces.

**Pre-requisite(s):** WEB 2500 or CS 2335, WEB 1400 or CS 1400, or permission of instructor.

**CS 3650 - Human-Computer Interaction**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem, Full Sem Online  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course introduces the skills and concepts of Human-Computer Interaction (HCI) that enable students to design systems that effectively meet human needs. A concrete illustration of the practice of HCI, this course covers usability, user experience, and modern diverse interfaces. This course includes both theoretical and practical best practices.

**Pre-requisite(s):** CS 2420, CS 2450 or WEB 3500. Cross-listed with WEB 3650.

**CS 3705 - Protocol Analysis**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Course fees are designed to cover
the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course provides an in depth look at the fundamentals of what protocols do and how they work, how addresses and routing are used to move data through the network, and how information is exchanged over the Internet. In depth analysis of network traffic packets will include normal traffic as well as protocol attack patterns. Topics include: DNS, Apache, email, Samba, PPP, DHCP, TCP, IP, and UDP troubleshooting, and security.

**Pre-requisite(s):** CS 2705 or NET 2435.

**CS 3720 - Network Architectures and Protocols**

**Credits:** (4)
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** A practical applications course designed to teach the basic concepts associated with local and wide area networks and protocols. The course will concentrate on the TCP/IP and other protocols in the UNIX and Windows NT environments. Covers TCP/IP extensively, NFS, Sockets, RPC and TLI interfaces. The course also covers the use of Domain Name Servers, remote system calls, ports, services, configuration, IP addressing, and UNIX and Windows NT monitoring commands.

**Pre-requisite(s):** CS 3705.

Note: Course not currently being offered.

**CS 3730 - Client/Server Network Programming**

**Credits:** (4)
**Course Fee:** $25.00
**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Covers client/server architecture and application development using TCP/IP and other protocols. The course covers client/server operations on a single machine and across an Ethernet network to multiple machines. The course will also cover distributed processing concepts and applications. Applications include the use of STREAMS, Sockets, TLI, network listener facility, drivers, RPC, and ONC. The course will concentrate mainly on UNIX but will cover some concepts and applications using Windows NT.

**Pre-requisite(s):** CS 2705 and CS 3210.

Note: Course not currently being offered.

**CS 3750 CEL - Software Engineering II**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course emphasizes teamwork in small groups on a substantial software engineering project that will be performed for a real customer in the community. It is the intent of the course to provide a capstone experience that integrates the material contained in the CS curriculum through work on a software project that applies this material. Projects are chosen so as to provide an interdisciplinary service learning component with project proposals being solicited from the community at large. Projects that integrate students and faculty from other disciplines are also encouraged. Lectures will be directed towards the software development lifecycle, requirements gathering and design documentation, as well as software project management. Each team member will contribute to all phases of the project as well as the development of a project prototype.

**Pre-requisite(s):** CS 2899, CS 3550, and (CS 3230 or CS 3280).

**CS 3805 - Computer and Network Security**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support
Description: This course is designed to provide students with a solid foundation in network security including a treatment of security issues related to computers and computer networking. The primary emphasis is on developing security policies, security auditing, security models and laws related to security.

Pre-requisite(s): CS 2705 and CS 2420.

CS 3810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

CS 3830 - Writing Secure Code

Credits: (4)

Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course focuses on how to develop software systems that are robust and can withstand repeated attacks from malicious intruders. The course coverage includes the need for secure systems, basic security principles and strategies, designing secure applications, secure coding techniques, dangerous APIs, data input issues, network security problems, testing secure applications, security code reviews, secure software installation, and writing security documentation.

Pre-requisite(s): CS 2420.

CS 3840 - Computer Forensics for Security Assurance

Credits: (4)

Typically Taught Fall Semester: Full Sem

Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is a foundational course in file system analysis, digital forensics and computer media analysis. A combination of lectures and labs will give students a strong understanding of low-level file system knowledge to prepare them for involvement in digital forensic analysis, data recovery and other related tasks. Students will examine widely used file systems such as Windows NTFS and FAT32, UFS, EXT2 and UFS2. Students will also become familiar with software tools used in computer forensic work.

Pre-requisite(s): CS 2420.

CS 4110 - Concepts of Formal Languages and Algorithms for Computing

Credits: (4)

Typically Taught Summer Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Course Fee: $25.00

Description: Concepts of formal language definition, automata theory, Turing theory, and solvability, with an introduction of algorithms and computational methods used in advanced computer science courses.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4230 - Java Application Development

Credits: (4)

Typically Taught Summer Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Course Fee: $25.00

Description: This course is a continuation of CS 3230 and examines the development of Java applications intended for an enterprise environment. The course is programming intensive and concentrates on designing and implementing multi-tier and Web applications based on the Java Enterprise Edition (Java EE) specification. Topics include JavaBeans, Java Database Connectivity, client/server...
interactions, servlets, session tracking, JavaServer Pages, JavaServer Faces, Struts, the Model-View-Controller approach, remote method invocation, Enterprise JavaBeans, and application servers. Lab exercises will emphasize how Java Enterprise programming supports the operation of robust, distributed object architectures.

**Pre-requisite(s):** CS 3230, CS 3750.

**CS 4250 - Design Patterns**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Introduction to fundamental principles of software development using design patterns, including structural design patterns, behavioral design patterns, SOLID principles, and agile approach; Understand and program the basic concepts and techniques for building software in an adaptive way, including dependencies and layering, interfaces, unit testing, and refactoring.

**Pre-requisite(s):** CS 3230 or CS 3280.

**CS 4280 - Computer Graphics**

**Credits:** (4)

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course introduces and investigates the mathematical and programming basis for generating pictures and images using a computer. Fields impacted by visual rendering technologies include filmmaking, publishing, banking, engineering, and education. Students are introduced to the theory and practice of computer graphics, with an emphasis on designing and developing working applications using currently available graphics libraries. The course focuses on strategies for rendering geometric data (points, lines, and polygons), and the analysis of the processing stages and components of the graphics pipeline, including transformations, viewing volumes, and projections. Programming and mathematical techniques related to modeling, viewing, coordinate frames, and perspective will be primary topics for discussion and code development. The course covers the key processing steps and structures needed to appropriately map 3D geometric primitives to 2D screen positions while maintaining a realistic look, which involves hidden surface removal, proper lighting, and simulated material properties.

**Pre-requisite(s):** CS 2420.

**CS 4350 - Advanced Internet Programming**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Capstone client/server web programming group project implemented using an advanced web framework (such as PHP (Laravel, Zend, Cake PHP) or Django, or Ruby on Rails). Includes implementation and concepts of an MVC web architecture, Web UI design and creation, data modeling and retrieval, input validation, security, and unit testing.

**Pre-requisite(s):** WEB 3620 or CS 3620.

**CS 4450 - Advanced Software Engineering Methods**

**Credits:** (4)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course provides a capstone project experience for students interested in software engineering. While previous courses in the Computer Science curriculum provide students with the knowledge and skills necessary to begin a career as a software engineer, the end-to-end design and implementation experience offered in this course, done as part of a team, and addressing an open ended problem (as well as an open ended solution), comes much closer to the experience that software engineering professionals encounter in the workplace. The emphasis on
documentation and presentation of designs and results is also valuable career preparation, and forces students to take ownership of their designs and systems as they present them to others.

**Pre-requisite(s):** CS 3750.

---

**CS 4500 - Introduction to Artificial Intelligence**

*Credits: (4)*  
*Typically Taught Fall Semester: Full Sem*  
*Course Fee: $25.00*  
*Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.*

**Description:** This course covers basic artificial intelligence principles from the perspective of implementing intelligent agents through software. Students will write intelligent software agents to solve a variety of problems from different application domains. Topics include search, search heuristics, adversarial search, constraint satisfaction problems, knowledge and reasoning, planning, and knowledge representation.

**Pre-requisite(s):** CS 2420 and either MATH 1630 or CS 2130.

---

**CS 4580 - Data Science Algorithms**

*Credits: (4)*  
*Typically Taught Summer Semester: Full Sem*  
*Typically Taught Fall Semester: Full Sem*  
*Typically Taught Spring Semester: Full Sem*  

**Description:** This course introduces students to practical algorithms and solutions applied to modern data science problems, utilizing the most recent tools for analyzing large datasets. The data management, storage, and manipulation common in data science are taught along with applied machine learning and statistics. Topics include, but are not limited to, the following: data wrangling, feature reduction, data visualization, descriptive and inferential statistics, applied statistical models, applied machine learning, prediction algorithms, and forecasting.

**Pre-requisite(s):** (CS 1400 and CS 2550) or CS 2420 and (MATH 1040 or MATH 1120 or MATH 3410 or QUAN 2600) and (at least 60 hours of completed credits).

---

**CS 4640 - Foundations of Game Development**

---

**CS 4650 - Advanced Game Development**

*Credits: (4)*  
*Typically Taught Spring Semester: Full Sem*  
*Course Fee: $25.00*  
*Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.*

**Description:** This course is a continuation of CS 4640 and covers intermediate to advanced level 3D game development using a commercial gaming engine authoring tool like Unity or Unreal. Students work in small teams and reference a game design document (which they've previously created themselves or which is selected from previously approved CS 1010 course documents) to program and fully develop a "medium-scoped" 3D video game. The game will be delivered over several iterations throughout the semester, each requiring peer review and play-test feedback. This course emphasizes several aspects of 3D game development, including but not limited to level, character, environment and world construction, scripting, 3D modeling and asset creation, user interface, scene transitions and cinematics, rudimentary AI, physics, graphical post-processing, as well as solid gameplay principles, core mechanics, scalability, and replayability. The course focuses heavily on game development and programming, assuming the game design has been previously scoped out.

**Pre-requisite(s):** CS 4640 and CS 3750

---

**CS 4730 - Applied Cryptography**
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides an introduction to the principles of number theory and how they are applied to cryptographic algorithms. Different topics that will be examined are: several classic ciphers, modern cryptographic methods, symmetric encryption, public key cryptography, hash functions, key management, digital signatures, certificates, electronic mail security, steganography, and recent developments affecting security and privacy on the Internet. The focus will be on how cryptography and their application can maintain privacy and security in computer networks.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4760 - CS Capstone

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This CS capstone course is designed to provide real-world software engineering project opportunities for students to apply previous knowledge from the Computer Science curriculum. Students will work together as a team, along with their instructor, to solve a problem by developing a small-scale software application. Relevant software engineering skills emphasized in this course include, but are not limited to, Agile software development principles, project management, software design patterns, repository version control, data integration, security, testing, and documentation. Additional emphasis will be placed on the end user experience, as well as validation of functional requirements defined by the client. The capstone prepares students for experiences that software engineering professionals encounter in the workplace.

Pre-requisite(s): CS 3750.

CS 4790 - .NET Web Application Development

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: In this course, students will work together as a team to develop advanced ASP.NET MVC applications using the latest .NET CORE Framework tools and technologies. The focus will be on coding activities that enhance the performance and scalability of a web application in a small to medium-sized development environment. Students will create websites that separate the user interface, data access, and application logic.

Pre-requisite(s): CS 3750.

CS 4800 - Individual Projects and Research

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

Pre-requisite(s): CS 2420.
May be repeated 3 times up to 4 credit hours.

Note: Credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

CS 4820 - Compiler Design

Credits: (4)
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
for lab aides, student tutors, and online instructional resources.

**Description:** A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

**Pre-requisite(s):** CS 2420, CS 4110.

### CS 4830 - Advanced Topics in Computer Science

**Credits:** (1-4)

**Variable Title**

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $7.50

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Advanced topics which are demanded by industry, are currently popular in this rapidly changing field, or which meet special needs of students in Computer Science will be offered. Individualized material will be taught on a one time basis as needed. Time and credit to be arranged.

**Pre-requisite(s):** Consent of instructor.

May be repeated 2 times up to 8 credit hours.

### CS 4850 - Faculty Directed Research

**Credits:** (1-4)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $7.50

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** The purpose of this course is to permit Computer Science majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Computer Science. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed.

**Pre-requisite(s):** CS 2420.

May be repeated 3 times up to 4 credit hours.

Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850 and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

### CS 4890 INT - Cooperative Work Experience

**Credits:** (1-4)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.

**Pre-requisite(s):** CS 2420.

May be repeated 3 times up to 4 credit hours.

Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

### CS 4899 - Bachelor's Degree Assessment

**Credits:** (0)

**Description:** This course is to serve as an assessment tool whereby all BS/BA degree seeking students in the Computer Science Department demonstrate their learned knowledge in at least three areas of computer science. At present, this knowledge will be demonstrated through the use of Chi Tester exams administered through the Campus Testing Center. The course is taken during the last term prior to receiving the BS/BA degree.

**Pre-requisite/Co-requisite:** Successful completion of requirements for the Bachelor's Degree.

### CS 4920 - Short Courses, Workshops, Institutes, and Special Programs

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.
CS 5100 - Distributed Operating Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications.
Pre-requisite(s): CS 3100.

CS 5200 - The Internet of Things

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: The growth of the Internet of Things (IoT) is changing the way we interact with the world by saving time and resources and opening new opportunities for growth and innovation. This course explores the fundamentals of the world of IoT, including design considerations and constraints. It provides an overview of the networks and security issues related to IoT devices. Course participants will get hands-on experience using Arduino and/or Raspberry Pi hardware and software platforms, learn different communication protocols, how to harness the data from IoT devices, and review capabilities of cloud-based IoT platforms.
Pre-requisite(s): CS 2810 or ECE 3710.

CS 5300 - Route Planning and Navigation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The course teaches advanced topics of perception, mapping, route planning and navigation concepts. In this course the students will create maps of the operational environment using SLAM. Given the map, the students would drive the vehicle autonomously to a specified destination. Topics that will be covered include camera calibration, advanced computer vision and path planning. The course will conclude with a capstone project with the expectation that the student can program the vehicle to navigate in a dynamic environment, follow road markings, and reach a specified goal; latitude and longitude.
Suggested Requisite(s): ECE 3730

CS 5420 - Advanced Algorithms

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.
Description: Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.
Pre-requisite(s): CS 2420.

CS 5450 - Software Evolution and Maintenance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or and re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and
demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

**Pre-requisite(s):** CS 3100.

**CS 5500 - Advanced Artificial Intelligence**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course covers advanced topics in artificial intelligence from the perspective of implementing intelligent agents through software. Students are expected to have a basic understanding of search and knowledge reasoning. Topics include quantifying uncertainty, probabilistic reasoning and planning, supervised learning, reinforcement learning, natural language processing, and perception. CS 4500 - Introduction to Artificial Intelligence or a similar course is not required but may be helpful prior to taking this course.

**Pre-requisite(s):** CS 2420 and either MATH 1630 or CS 2130.

**CS 5550 - Advanced Database Management Systems**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** The course covers design, management, implementation, and programming of relational database systems in a high-volume data environment. Database design principles like E-R modeling, schema design and refinement, normal forms and constraints are introduced. Data Definition Language queries and Data Manipulation Language queries are covered to implement and query a database. Other SQL implementation topics like stored procedures, functions, triggers, and indexes are covered. Advanced database topics like big data analytics, storage management principles, query processing and optimization, transaction management, concurrency control, parallel and distributed databases are covered. The course also introduces alternatives to relational databases.

**Pre-requisite(s):** CS 3550

**CS 5580 - Data Science Algorithms II**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course is the second in a two-course sequence that prepares students to apply practical solutions to modern data science problems as a professional data analyst. The intent of this course is to go further in-depth and reinforce the concepts taught in CS 4580. Students will investigate and analyze the topics of CS 4580 using advanced tools and techniques to better prepare them for the challenges associated with the data science discipline. The principles of visualization will also be emphasized as well as exposure to recommendation engines and time series forecasting and analysis.

**Pre-requisite(s):** CS 3580.

**CS 5600 - Machine Learning**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.

**Pre-requisite(s):** CS 2420.

**CS 5610 - Computer Architecture**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Investigation of high-performance computer processing architectures, including concurrent, multithreaded and parallel programming models, memory hierarchy, static and dynamic scheduling, instruction-level parallelism, including branch
prediction; graphics processing units; cache performance and analysis.

**Pre-requisite(s):** CS 2810 or ECE 3710.

## CS 5650 - Interaction Design

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, Full Sem - Online

**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** The most exciting technologies of today are immersive, interactive, solve big problems, and are even entertaining. In this course, we will study how, as software developers, we can understand our users and create innovative designs that best meet their needs and desires. Known tools and techniques from the field of human-computer interaction are reviewed. User center research and evaluation techniques will be presented and students will have the opportunity to undertake a study on user design where they apply these techniques.

**Pre-requisite(s):** CS 3100.

## CS 5700 - Deep Learning Theory

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Deep learning is at the heart of many life-changing applications and areas of interests including language understanding, face recognition, speech synthesis and recognition, object detection, and robotics to name a few. This course introduces the fundamental principles of deep learning and its applications, including multilayer perceptrons, backpropagation, auto-differentiation, optimizers, convolutional networks (CNNs), recurrent networks (RNNs), autoencoders (AEs), and generative adversarial networks (GANs). This course focuses on both understanding deep learning algorithms (their strengths and limitations) and getting acquainted with the current deep learning research landscape.

**Pre-requisite(s):** CS 5600.

## CS 5705 - Applied Cloud Computing

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Current business demands often require an amount of data that cannot reasonably process on a single computer. Even companies that work with reasonably small datasets expect rapid growth, so they prefer to use data processing solutions that scale when needed. In this course, you will gain practical, hands-on experience with modern cloud computing resources through publicly available cloud infrastructures. This course will prepare students with practical, hands-on experience in modern cloud and distributed computing paradigms and tools.

**Pre-requisite(s):** CS 3100 and CS 3580.

## CS 5720 - Program Debugging and Repair

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Introduction to software testing as a precursor of debugging and repair. Understanding the cognitive process behind debugging and an introduction to scientific debugging. Introduction to automated debugging techniques like Fault Localization and Delta Debugging. Understanding the intuition behind Automatic Program Repair (APR). Introduction to APR techniques and tools. Introduction to recent advances in program debugging and repair. Understanding challenges and opportunities associated with automated program debugging and repair.

**Pre-requisite(s):** CS 3280 or CS 3230 or Instructor Approval

## CS 5740 - Computer Systems Security

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover
the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

**Pre-requisite(s):** CS 2420 and CS 3100.

**CS 5820 - Compiler Design**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

**Pre-requisite(s):** CS 2420 and CS 2130.

**CS 5830 - Special Topics in Computer Science**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.

**Pre-requisite(s):** CS 3100.

**CS 5840 - Formal System Design**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

**Pre-requisite(s):** CS 2420.

**CS 5850 - Parallel Programming and Architecture**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python).

**Pre-requisite(s):** CS 3100.

**CS 6000 - Fundamentals of Graduate Studies**

**Credits:** (1)

**Typically Taught Fall Semester:** Full Sem
Typically Taught Spring Semester: Full Sem

Description:
The purpose of this course is to introduce students in the graduate programs in the College of Engineering, Applied Science, and Technology to the expectations of graduate study and the scholarly requirement options for their program. Students will learn the difference between a research thesis and a design project as well as how to select, narrow, and refocus a research topic. Students will explore academic electronic databases and Internet search engines, thus developing skills that allow them to critically evaluate published scholarly work. They will also be introduced to research methods and design and will develop skills in organization, effective editing, reviewing, and proofreading. This course should be taken within the first year of study to establish a program of study and support future work on a thesis or project.

CS 6010 - Design Project

Credits: (2-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students are required to complete a substantial computer science project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in CS 6010 at the time of their final design review. May be taken up to 10 times for credit.

CS 6011 - Thesis Research

Credits: (2-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students are required to complete original computer science research resulting in a thesis. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in CS 6011 at the time of their final thesis defense. May be taken up to 10 times for credit.

CS 6100 - Distributed Operating Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications.

Pre-requisite(s): CS 3100.

CS 6200 - The Internet of Things

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The growth of the Internet of Things (IoT) is changing the way we interact with the world by saving time and resources and opening new opportunities for growth and innovation. This course explores the fundamentals of the world of IoT, including design considerations and constraints. It provides an overview of the networks and security issues related to IoT devices. Course participants will get hands-on experience using Arduino and/or resources.
Raspberry Pi hardware and software platforms, learn different communication protocols, how to harness the data from IoT devices, and review capabilities of cloud-based IoT platforms.

Pre-requisite(s): CS 2810 or ECE 3710.

**CS 6300 - Route Planning and Navigation**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees for the CS major are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** The course teaches advanced topics of perception, mapping, route planning and navigation concepts. In this course the students will create maps of the operational environment using SLAM. Given the map, the students would drive the vehicle autonomously to a specified destination. Topics that will be covered include camera calibration, advanced computer vision and path planning. The course will conclude with a capstone project with the expectation that the student can program the vehicle to navigate in a dynamic environment, follow road markings, and reach a specified goal; latitude and longitude.

Suggested Requisite(s): ECE 3730

**CS 6420 - Advanced Algorithms**

Credits: (3)
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.

Pre-requisite(s): CS 2420.

**CS 6450 - Software Evolution and Maintenance**

Credits: (3)
Typically Taught Fall Semester: Full Sem

**Description:** This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

Pre-requisite(s): CS 3100.

**CS 6500 - Advanced Artificial Intelligence**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course covers advanced topics in artificial intelligence from the perspective of implementing intelligent agents through software. Students are expected to have a basic understanding of search and knowledge reasoning. Topics include quantifying uncertainty, probabilistic reasoning and planning, supervised learning, reinforcement learning, natural language processing, and perception. CS 4500 - Introduction to Artificial Intelligence or a similar course is not required but may be helpful prior to taking this course.

Pre-requisite(s): CS 3100.

**CS 6550 - Advanced Database Management Systems**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover
the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** The course covers design, management, implementation, and programming of relational database systems in a high-volume data environment. Database design principles like E-R modeling, schema design and refinement, normal forms, and constraints are introduced. Data Definition Language queries and Data Manipulation Language queries are covered to implement and query a database. Other SQL implementation topics like stored procedures, functions, triggers, and indexes are covered. Advanced database topics like big data analytics, storage management principles, query processing and optimization, transaction management, concurrency control, parallel and distributed databases are covered. The course also introduces alternatives to relational databases.

**Pre-requisite(s):** CS 2550 or equivalent.

---

**CS 6570 - Data Science Algorithms I**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.

---

**CS 6580 - Data Science Algorithms II**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course is the second in a two-course sequence that prepares students to apply practical solutions to modern data science problems as a professional data analyst. The intent of this course is to go further in-depth and reinforce the concepts taught in CS 6570. Students will investigate and analyze the topics of CS 6570 using advanced tools and techniques to better prepare them for the challenges associated with the data science discipline. The principles of visualization will also be emphasized as well as exposure to recommendation engines and time series forecasting and analysis.

**Pre-requisite(s):** CS 6570 or CS 3580.

---

**CS 6600 - Machine Learning**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.

**Pre-requisite(s):** CS 3100.

---

**CS 6610 - Computer Architecture**

**Credits:** (3)

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.

**Pre-requisite(s):** CS 2810 or ECE 3710.

---

**CS 6650 - Interaction Design**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support...
for lab aides, student tutors, and online instructional resources.

Description: The most exciting technologies of today are immersive, interactive, solve big problems, and are even entertaining. In this course, we will study how, as software developers, we can understand our users and create innovative designs that best meet their needs and desires. Known tools and techniques from the field of human-computer interaction are reviewed. User center research and evaluation techniques will be presented and students will have the opportunity to undertake a study on user design where they apply these techniques.

Pre-requisite(s): CS 3100.

CS 6700 - Deep Learning Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Deep learning is at the heart of many life-changing applications and areas of interests including language understanding, face recognition, speech synthesis and recognition, object detection, and robotics to name a few. This course introduces the fundamental principles of deep learning and its applications, including multilayer perceptrons, backpropagation, auto-differentiation, optimizers, convolutional networks (CNNs), recurrent networks (RNNs), autoencoders (AEs), and generative adversarial networks (GANs). This course focuses on both understanding deep learning algorithms (their strengths and limitations) and getting acquainted with the current deep learning research landscape.

Pre-requisite(s): CS 6600.

CS 6705 - Applied Cloud Computing

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Current business demands often require an amount of data that cannot reasonably process on a single computer. Even companies that work with reasonably small datasets expect rapid growth, so they prefer to use data processing solutions that scale when needed. In this course, you will gain practical, hands-on experience with modern cloud computing resources through publicly available cloud infrastructures. This course will prepare students with practical, hands-on experience in modern cloud and distributed computing paradigms and tools.

Pre-requisite(s): CS 6570 or CS 3580.

CS 6710 - Software Testing

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles and processes of software testing, including testing throughout the software development lifecycle, static testing, testing techniques and management; develop and apply knowledge and skills in implementing testing techniques in software development projects; including black-box and white-box testing, desktop, web, and mobile testing, testing automation, and test metrics.

CS 6720 - Programming Debugging and Repair

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to software testing as a precursor of debugging and repair. Understanding the cognitive process behind debugging and an introduction to scientific debugging. Introduction to automated debugging techniques like Fault Localization and Delta Debugging. Understanding the intuition behind Automatic Program Repair (APR). Introduction to APR techniques and tools. Introduction to recent advances in program debugging and repair. Understanding challenges and opportunities
associated with automated program debugging and repair. **Pre-requisite(s):** Graduate standing in Master of Science in Computer Science (MS).

**CS 6740 - Computer Systems Security**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

**Pre-requisite(s):** CS 2420 and CS 3100.

**CS 6820 - Compiler Design**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

**Pre-requisite(s):** CS 2420.

**Suggested Requisite:** CS 4110.

**CS 6830 - Special Topics in Computer Science**

**Credits:** (3)

**Variable Title**

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.

**Pre-requisite(s):** Instructor permission.

May be taken twice up to 6 credits.

**CS 6840 - Formal System Design**

**Credits:** (3)

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

**Pre-requisite(s):** CS 2420.

**CS 6850 - Parallel Programming and Architecture**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $25.00

**Course Fee Purpose:** Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

**Description:** In parallel programming you will learn how to utilize multiple CPUs/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In
addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python). Pre-requisite(s): CS 3100.

DANC 1010 CA EDI - Introduction to Dance

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: An introduction to dance providing a knowledge base from which to experience dance from a variety of viewpoints: historically, culturally, aesthetically, critically, and creatively. This course takes a close-up look at the rules, messages, and meanings embodied in dance around the world. This is a writing intensive course. Students are expected to attend dance concerts and cultural dance experiences outside regularly scheduled class time. Open to all students.

DANC 1100 - Ballet I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: Fees support dance technology and live accompaniment: Live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.
Description: Introduction to the techniques of the classical ballet including alignment, positions, port de bras, and allegro combinations. Open to all students. May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1200 - Contemporary/Modern I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: Fees support dance technology and live accompaniment: Live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.
Description: Introduction to the movement techniques of modern dance. Open to all students. May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1310 - Music for Dance

Credits: (2)
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $4.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Study of the relationship between sound and movement, accompaniment and dance. Focus extends to creative and working relationship(s) between accompaniment/composer and teacher/choreographer with emphasis on practical applications of methods and understandings.

DANC 1450 - Special Topic: World Dance Experiences I

Credits: (2)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem odd years
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as a recreational activity. It allows for the study of changing series of dance forms, including, but not limited to, African, Flamenco, Middle Eastern, Clogging, Ballroom, Hip Hop, Mexican Folklorico, and Aerial Dance. May be repeated for 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1500 - Jazz I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Introduction to the style, technique, and rhythmic structures of jazz dance with emphasis on increasing movement capabilities and personal expression. Open to all students. May be repeated for credit, but use toward Major/Minor
must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

**DANC 1520 - Dance in World Cultures**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Dance in World Cultures explores various dance forms practiced around the world. Open to all students. May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 1560 - African Dance and Culture I**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Dance and cultural studies of West and Central Africa with a focus on technique, style, and rhythmic acuity. The course will explore the cultural and historical significance of the various dances and rhythms.

**DANC 1580 - Rhythm Tap I**

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Special training in tap dance skills and techniques. May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 2250 - Alignment and Conditioning for Dance/Pilates**

Credits: (1)
Typically Taught Spring Semester: Full Sem even years
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Strength and alignment for dancers, using Pilates mat exercises. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitates more ease and efficiency in movement. To repeat the class a student must have the permission of the instructor. May be repeated twice for up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 2300 - Dance Kinesiology**

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Course Fee: $4.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course provides a study of anatomy and dance kinesiology with a specific focus on anatomical analysis, conditioning principles and injury prevention, with special attention given to application of information to technique class, rehearsal, choreography and individual anomalies. The course prepares the student to understand basic kinesiological analysis and fundamental concepts of somatic inquiry.
Pre-requisite/Co-requisite: NUTR 1020.

**DANC 2350 - Dance for Aging Populations**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: This course explores the latest applications of movement, dance, and creativity as a healing and somatic form of therapy. It includes lecture/discussion, student workshops in dance, laboratory experiences, and community-engaged service learning. Furthermore, it provides basic to intermediate-level mentored practices in senior centers, assisted living, and memory care communities. This course is appropriate for students of the arts and/or of health-related fields who are willing to access their creative potential and service to the community.

**DANC 2410 - Improvisation**

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $4.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Guided exploration in the elements of dance for the creative development of personal movement repertoire, spontaneous group interaction, and choreographic skills. May be repeated for credit, but use toward Major/Minor must be approved by program advisor.
DANC 2470 - Ballet II

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Technique course designed to increase skill in classical ballet.

Pre-requisite(s): DANC 1100 (2 credit hours minimum), or by audition.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated 4 times for a maximum of 6 credit hours.

DANC 2490 - Contemporary/Modern II

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $37.00
Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.

Pre-requisite(s): DANC 1200 (4 credit hours minimum), or by audition.
May be repeated for a maximum of 6 credit hours.

DANC 2500 - Jazz II

Credits: (2)
Typically Taught Spring Semester: Full Sem

Description: Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.

Pre-requisite(s): DANC 1500, or by audition.
Pre-requisite/Co-requisite: DANC 1500
May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 2610 - Dance and Digital Technology

Credits: (2)
Typically Taught Spring Semester: Full Sem even years
Course Fee: $10.00
Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands-on activities and lab / studio space maintenance.

Description: This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 2610 will introduce students to dance-videography, video editing, dissemination of work through media such as the DVD format, YouTube, Vimeo and the creation/maintenance of on-line portfolios.
May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2810 - Experimental Course

Credits: (1-6)
Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

DANC 2920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: In individual cases, this course might be considered as an elective in the Dance Major.

DANC 2950 INT - Dance Festival Participation
Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.
Pre-requisite(s): Audition and permission.
May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3015 - Dance History

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Study of the history and philosophy of dance from lineage-based societies through the early decades of modern dance, ballet, vernacular forms and dance as public art. Areas covered will include pre-Christian civilizations, the Middle Ages, the Renaissance and the Golden Age of Ballet, the Age of Innovation in Ballet through the Contemporary Period of history.
Pre-requisite(s): DANC 1010.

DANC 3320 INT - Secondary Dance Pedagogy

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $6.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Methods, teaching techniques, accompaniment, and practical experience in teaching modern dance. This is the secondary teaching methods class.
Pre-requisite(s): DANC 2490

DANC 3450 - Special Topic: World Dance Experiences II

Credits: (2)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as a recreational activity. It allows for the study of changing series of dance forms, including, but not limited to, African, Flamenco, Middle Eastern, Clogging, Ballroom, Hip Hop, Folklórico, and Aerial Dance. May be repeated up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3470 - Ballet III

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $36.00
Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.
Description: Coordinating course designed to increase skill in classical ballet technique.
Pre-requisite(s): DANC 2470 (4 credit hours minimum) or by audition.
May be repeated for a maximum of 6 credit hours.

DANC 3490 - Contemporary/Modern III

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $36.00
Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.
Description: Exercises and activities to develop strength, flexibility, endurance, and technical dance skill.
Pre-requisite(s): DANC 2490 (4 credit hours minimum), or by audition.
May be repeated for a maximum of 6 credit hours.

DANC 3500 - Choreographic Process

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $4.00
Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.
Description: Studies in the elements of time, space, and energy as they are artistically significant in the meaning of dance. Exploration of the time, space, and energetic design
in related fields of music and art included as relevant to choreographic design and communication in dance.

**Pre-requisite(s):** DANC 2410
May be repeated twice for up to six credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3520 INT - Choreography Practicum**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Supervised experience choreographing a dance for public performance. Arranged through cooperative effort of student and supervisor.  
**Pre-requisite(s):** DANC 3500  
May be repeated three times for a maximum of six credit hours.

**DANC 3525 - ArtsBridge**

**Credits:** (1-6)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a comprehensive, needs-based, integrated arts project with community organizations or area schools. The course will offer students a clear structure and process for navigating the complexities of community engagement. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of an arts integrated project.  
**Pre-requisite(s):** Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.  
Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

**DANC 3560 - African Dance and Culture II**

**Credits:** (2)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Dance and cultural studies of West and Central Africa with a focus on technique, style, and rhythmic acuity. The course will provide an in-depth exploration of the cultural and historical significance of the various dances and rhythms.  
**Pre-requisite(s):** DANC 1560 African Dance and Culture (lower division)

**DANC 3580 - Rhythm Tap II**

**Credits:** (2)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $2.00  
**Course Fee Purpose:** Fees support dance technology: stereo, projection, Zoom monitor and computers.  
**Description:** Intermediate/Advanced training in tap dance skills and techniques.  
**Pre-requisite(s):** Lower Division Tap Dance (DANC 1580) and/or instructor approval.  
May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3640 INT - Elementary Dance Pedagogy**

**Credits:** (3)  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $6.00  
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets.  
**Description:** Techniques for teaching creative dance and basic dance forms. Suggested for Elementary Education majors.

**DANC 3860 INT - Field Experience**

**Credits:** (1-3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** A course designed to provide opportunities for students to gain practical experience in the field by assisting in the activities of community agencies, schools, and Weber State.  
**Pre-requisite(s):** DANC 3320 for those who plan to teach in a middle or secondary school or DANC 3640 for those who plan to teach in an elementary school.  
May be repeated twice, up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3910 INT/CEL - Moving Company: Rehearsal & Development**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** The Moving Company is designed to give
students the opportunity to learn about the various aspects of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - 3910) and spring (performance - DANC 3911) semesters. This segment deals with preparation and rehearsal. May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 3911 INT/CEL - Moving Company: Performance**

**Credits:** (3)  
**Typically Taught Spring Semester:** Full Sem  
**Description:** The Moving Company is designed to give students the opportunity to learn about the various aspects of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - DANC 3910) and spring (performance - 3911) semesters. This segment deals with implementation and performance.  
**Pre-requisite(s):** DANC 3910. May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 4250 - Alignment and Conditioning for Dance/Pilates**

**Credits:** (2)  
**Typically Taught Spring Semester:** Full Sem even years  
**Course Fee:** $4.00  
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets.  
**Description:** Strength and alignment for dancers, using Pilates mat exercises and Reformer. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitate ease and efficiency of movement.  
**Co-Requisite(s):** DANC 2250. May be repeated once up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 4610 - Dance and Digital Technology**

**Credits:** (2)  
**Typically Taught Spring Semester:** Full Sem even years  
**Description:** This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 4610 will introduce students to dance-videography, video editing, and dissemination of work through media such as the DVD format, You Tube, Vimeo and the creation/maintenance of on-line portfolios. May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

**DANC 4620 - Dance and Digital Technology Seminar**

**Credits:** (1)  
**Typically Taught Fall Semester:** Full Sem  
**Description:** This seminar will provide students with individual and collaborative study and research in the field of dance and the digital video medium. The course will cover artistic and technical forms, including, but not limited to capturing dance on the digital/video medium, choreographic processes through non-linear digital editing, audio/visual editing for dance, lighting, dance theory and criticism in the context of dance in the digital age.  
**Pre-requisite(s):** DANC 2610. May be repeated once up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 4700 INT - Creative Synthesis in Dance**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $4.00  
**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets.  
**Description:** Project oriented experience intended to coordinate student work. It will serve as guide in the synthesis of philosophy, experience, and understanding of dance as an art form and/or dance as education. This capstone course will include a portfolio and have an artistic or scholarly outcome.  
**Pre-requisite(s):** Students Pursuing BA in Dance: DANC 2610, DANC 3520 and senior dance major standing.

**DANC 4800 - Individual Study**

**Credits:** (1-4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Individual work or work in small groups by arrangements in special topics not included in the announced course offerings.  
**Pre-requisite(s):** Approval of instructor. In individual
cases, this course might be considered as an elective in the Dance Major.
May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 4801 - A&H Leadership Lecture Series**

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

**DANC 4890 INT - Cooperative Work Experience**

Credits: (1-6)
Description: Individual work or work in small groups by arrangement; in special topics not included in the announced course offerings.
Pre-requisite(s): Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major.
May be repeated 3 times up to 18 credit hours, but use toward Major/Minor must be approved by program advisor.

**DANC 4910 INT - Rehearsal and Performance**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $2.00
Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.
Description: Preparation and rehearsal of dance composition to be presented in concert.
Pre-requisite(s): consent of instructor. May be repeated for an unlimited number of credit hours.
May be repeated 11 times for credit, but use toward Major/Minor must be approved by program advisor.

**DANC 4920 INT - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. This course might be considered as an elective in the Dance Major. Use toward Major/Minor must be approved by program advisor.

**DANC 4950 INT - Dance Festival Participation**

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.
Pre-requisite(s): Audition and permission.
May be repeated 3 times up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

**DENT 2201 - Concepts of Community Dental Health**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Course Fee: $7.00
Course Fee Purpose: Course fee is used for supplies for community dental health course and/or non-inventoried instructional materials.
Description: This course will present the basic concepts of planning and implementing community dental health programs. These principles include epidemiology, sociological concepts of health and illness, health behavior, public attitudes and principles of dental health education.

**DENT 2205 - Head/Neck and Dental Anatomy**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: Course fee is used for supplies for dental anatomy and/or non-inventoried instructional materials.
Description: Identification of major anatomical landmarks of the head and neck, their innervation, blood supply and function. Also includes instruction in the histology and
embryology of head and neck development and tooth morphology.

**DENT 2206 - Clinical Dental Hygiene/Radiology**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $320.00
**Course Fee Purpose:** Course fee is used for supplies/services for clinic/rad labs and/or non-inventoried instructional materials.
**Description:** Clinical application of principles of DENT 2207 and DENT 2208. Must accompany DENT 2207 and DENT 2208.
Students participate in three four-hour labs each week.

**DENT 2207 - Dental Hygiene I**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** Theory essential to performing clinical treatment, including, but not limited to armamentarium, client-operator positioning, aseptic technique, soft tissue exam, health history, principles of instrumentation and disease control therapies. Must accompany DENT 2206.

**DENT 2208 - Radiology**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Preparatory skills for clinical dental radiology, including information on radiation safety and exposure techniques. Must accompany DENT 2206.

**DENT 2211 - Oral Pathology**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** The study of manifestations and identification of disease processes in the oral cavity.

**DENT 2215 - Periodontology**

**Credits:** (2)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Course fee is used for supplies services for periodontology and/or non-inventoried instructional materials.
**Description:** The study of basic periodontal structures and disease processes.

**DENT 2216 INT - Clinical Dental Hygiene II**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $95.00
**Course Fee Purpose:** Course fee is used for supplies/services for clinical lab and/or non-inventoried instructional materials.
**Description:** Clinical application of DENT 2217. Must accompany DENT 2217.
Two four-hour clinic lab sessions each week.
**Pre-requisite(s):** DENT 2206 and DENT 2207.

**DENT 2217 - Dental Hygiene II**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** Continuation of DENT 2206. Didactic instruction for intermediate skills in dental hygiene treatment. Must accompany DENT 2216.
**Pre-requisite(s):** DENT 2207.

**DENT 2219 - Dental Materials**

**Credits:** (1)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $60.00
**Course Fee Purpose:** Course fee is used for supplies/services for dental materials and/or non-inventoried instructional materials.
**Description:** Identification of and laboratory experiences with materials used in dentistry and dental hygiene.

**DENT 2230 - Oral Health Research & Statistics**

**Credits:** (2)
**Typically Taught Fall Semester:** Online
**Typically Taught Spring Semester:** Online
**Description:** This course is designed to provide the student with research design and statistics principles as they apply to oral health settings and issues.
**Pre-requisite(s):** WSU Quantitative Literacy requirement.

**DENT 2235 - Dental Medicine I**
Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The study of common medical conditions and their treatment. Emphasis is placed on oral manifestations of systemic disease and related pharmacology.

DENT 2250 - Professional Ethics

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Professional Ethics is designed to provide dental hygiene students with a foundation in the professional standards governing the dental hygiene profession and the development of ethical decision-making skills, in the context of diversity and respect for others. Throughout the course the student will be guided to explore issues of diversity, prejudices, and their responsibility to provide culturally sensitive care.

DENT 2800 - Individual Research

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Special project in a student's area of interest. May be repeated twice for a maximum of 4 credit hours.

DENT 2830 - Directed Readings, Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Limited to dental hygiene majors. A maximum of nine hours may be accumulated with this course.

DENT 3130 - Independent Study

Credits: (1-3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Description: Independent project in an area of interest; second year dental hygiene students only. Project approval by dental hygiene faculty. A maximum of nine hours may be accumulated with this course.

DENT 3301 INT - Community Dental Health Service Learning Lab

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Course fee is used for supplies/services for community lab and/or non-inventoried instructional materials.
Description: This course leads the student through on-campus and off-campus field projects with selected community agencies.

DENT 3305 - Pain Control

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $75.00
Course Fee Purpose: Course fee is used for clinical supplies/services for pain control, including labs and/or non-inventoried instructional materials.
Description: The study of local anesthesia with regard to pharmacology, administration techniques, methods of pain and apprehension control and nitrous oxide sedation. Includes laboratory experiences in the administration of local anesthesia and nitrous oxide sedation.
Pre-requisite(s): DENT 2235.

DENT 3336 INT - Clinical Dental Hygiene III

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: Course fee is used for clinical supplies/services for clinical lab and/or non-inventoried instructional materials.
Description: Clinical application of DENT 3337. This course must accompany DENT 3337. Three four hour clinics each week.
Pre-requisite(s): DENT 2206 and DENT 2216.
DENT 3337 - Dental Hygiene III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DENT 2207, DENT 2217. Emphasis on advanced instrumentation in the care of patients with periodontal disease. Must accompany DENT 3336.
Pre-requisite(s): DENT 2207 and DENT 2217.

DENT 3346 INT - Clinical Dental Hygiene IV

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $120.00
Course Fee Purpose: Course fee is used for clinical supplies/services for clinical lab and/or non-inventoried instructional materials.
Description: Clinical lab which must accompany DENT 3347.
Twelve hours of clinic each week.
Pre-requisite(s): DENT 2206, DENT 2216, DENT 3336.

DENT 3347 - Dental Hygiene IV

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: Continuation of DENT 2207, DENT 2217, DENT 3337. Emphasis on expanded client care services and with client populations with special treatment needs. Must accompany DENT 3346.
Pre-requisite(s): DENT 2207, DENT 2217, DENT 3337.

DENT 4010 - Interdisciplinary Health Care Teams

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.
Cross-listed with HTHS 4010 and NRSG 4010.

DENT 4405 INT - Dental Hygiene Clinical Teaching Practice

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised teaching in the Weber State Dental Hygiene program as an assistant to the supervising faculty.
Pre-requisite(s): Consent of the faculty member and acceptance into the BS/DH major program.

DENT 4410 - Dental Hygiene Needs of the Geriatric Client

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An overview of dental health needs of elderly clients.
Pre-requisite(s): Consent of instructor and acceptance into the BS/DH major program.

DENT 4530 INT CRE - Principles and Application of Evidence-Based Dental Hygiene Practice

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Course fee is used for supplies/services for evidence-based research and/or non-inventoried instructional materials.
Description: Emphasis is on the critical appraisal of scientific literature, the development of clinical problem statements and hypotheses and the formulation of a research proposal. Ethical issues inherent in the research process and the identification of appropriate hypothesis testing procedures will also be discussed.
Pre-requisite(s): Acceptance into the BS/DH program and completion of WSU Quantitative Literacy requirement.

DENT 4780 - Baccalaureate Thesis

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to give dental hygiene students an opportunity to complete a thesis project in partial fulfillment of the requirements for the BS/DH major.
Pre-requisite(s): Acceptance into the BS/DH program, completion of the WSU Quantitative Literacy requirement.
DENT 4800 - Individual Research

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Special project in a student's area of interest. May be repeated twice for a maximum of 3 credit hours.

DENT 4810 - Summer Elective Clinic

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Summer intensive clinical course which allows the student to set personal achievement goals for clinical techniques and assists them through the process of skill development. May be repeated six times for a maximum of six credit hours.

DENT 4830 - Directed Readings, Projects and Research

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Limited to dental hygiene majors. A maximum of nine hours may be accumulated with this course.

DENT 4850 - Study Abroad

Credits: (1-6)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience. May be repeated 5 times with a maximum of 6 credit hours.

DENT 4890 INT - Advanced Community or Clinical Work Experience

Credits: (2)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online

Typically Taught Spring Semester: Full Sem, Online
Description: This course is designed to specifically meet the interests and career goals of the Dental Hygiene Degree-completion student or the student completing the Baccalaureate degree, Dental Hygiene major prior to initial licensure as a dental hygienist. The student who is completing this course as part of their BS degree, initial entry into the profession, will participate in an advanced community or clinical work experiences under the direct supervision of program faculty. The baccalaureate degree completion student must be licensed to practice dental hygiene at the site in which the work experience will take place, have successfully completed an accredited dental hygiene program, or have a work experience site that does not have direct patient care as its community role.
Pre-requisite(s): Acceptance into the BS/DH Program and consent of the instructor.

DENT 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

DENT 4990 - Seminar

Credits: (1-2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Current concepts in dental hygiene for baccalaureate level dental hygiene students. May be repeated once for a maximum of 2 credit hours.

DMS 4100 - Introduction to Sonography Principles and Instrumentation

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: The purpose of this course is to introduce basic principles of sonographic physics and instrumentation including the production and reception of sound waves and transducers.
DMS 4110 - Sonography Principles & Instrumentation

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Elementary principles, propagation through tissues, transducers, pulse echo principles and instruments, images, storage and display, Doppler, image features and artifacts, bioeffects, and safety.

DMS 4120 - Quality Assurance

Credits: (1)
Typically Taught Summer Semester: Full Sem
Course Fee: $09.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Developing, analyzing and evaluating a quality assurance program.

DMS 4210 - Cardiac Sonography I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in cardiac sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4220 - Cardiac Sonography II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Continuation of 4203.

DMS 4230 - Cardiac Sonography III

Credits: (3)
Typically Taught Summer Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Continuation of DMS 4220.

DMS 4240 - Fundamentals for Cardiac Sonography Certification

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS or CCI adult echocardiography certification.

DMS 4310 - Abdominal Sonography

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in abdominal intraperitoneal and retroperitoneal sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4320 - Superficial Structure and Special Study Sonography

Credits: (3)
Typically Taught Summer Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in superficial structure sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4330 - Gynecologic Sonography

Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.
Description: Concepts in gynecologic sonographic scanning technique and protocol to produce and evaluate diagnostic images.
paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

**DMS 4340 - Obstetric Sonography**

Credits: (3)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Concepts in obstetric sonographic scanning technique and protocol to produce and evaluate diagnostic images.

**DMS 4350 - Fundamentals for Abdominal Sonography Certification**

Credits: (2)
Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS abdominal specialty certification.

**DMS 4360 - Fundamentals for OB/GYN Sonography Certification**

Credits: (2)
Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS OB/GYN specialty certification.

**DMS 4410 - Vascular Sonography I**

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Concepts in vascular sonographic scanning technique and protocol to produce and evaluate diagnostic images.

**DMS 4420 - Vascular Sonography II**

Credits: (2)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $9.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Continuation of DMS 4410.

**DMS 4430 - Fundamentals for Vascular Sonography Certification**

Credits: (2)
Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS Vascular specialty certification.

**DMS 4510 - Breast Sonography**

Credits: (1)
Typically Taught Spring Semester: *Full Sem*
Course Fee: $3.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Concepts in breast sonographic scanning technique and protocol to produce and evaluate diagnostic images.

**DMS 4610 - Cardiac Sonography - Clinical Simulation I**

Credits: (2)
Typically Taught Fall Semester: *Full Sem*
Course Fee: $15.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Clinical Simulation in Cardiac Sonography Labs.
DMS 4620 - Medical Sonography - Clinical Simulation I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance
Description: Clinical Simulation in Medical Sonography Labs.

DMS 4621 - Medical Sonography - Clinical Simulation II

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Medical Sonography Labs.

DMS 4622 - Medical Sonography - Clinical Simulation III

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Clinical Simulation in Medical Sonography Labs.

DMS 4630 - Cardiovascular Sonography - Clinical Simulation I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance
Description: Clinical Simulation in Vascular Sonography Labs.

DMS 4801 - Individualized Research

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Contract with faculty advisor required. May be repeated twice with a maximum of 3 credit hours.

DMS 4811 INT - Cardiac Clinical I

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week in an active diagnostic cardiac sonography department.

DMS 4812 INT - Cardiac Clinical II

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Continuation of DMS 4811.

DMS 4813 INT - Cardiac Clinical III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DMS 4812.

DMS 4820 - Orientation to Clinical Education

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: The purpose of this course is to provide new sonography students with an orientation to sonography in the clinical setting prior to beginning full time clinical work in the following semesters. Students will become familiar with their clinical sites, their clinical instructors and the staff with whom they will be working in future semesters. They will gain an introduction into the various sonographic exams that they will be expected to learn and perform at the completion of their program as well as an introduction to the sonographic equipment used at their assigned clinical sites.

DMS 4821 INT - Medical Clinical I

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week in an active diagnostic medical sonography department.

DMS 4822 INT - Medical Clinical II
DMS 4823 INT - Medical Clinical III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DMS 4821.

DMS 4831 INT - Cardiovascular Clinical I

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week in an active diagnostic cardiovascular sonography department.

DMS 4832 INT - Cardiovascular Clinical II

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Continuation of DMS 4831.

DMS 4833 INT - Cardiovascular Clinical III

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Continuation of DMS 4832.

DMS 4841 INT - Breast Clinical

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A minimum of 24 hours per week performing breast sonography examinations.
Pre-requisite(s): DMS 4510 Breast Sonography.

DMS 4911 - Cardiac Comprehensive Review

Credits: (1)
Typically Taught Fall Semester: Full Sem
Description: Review and requirements for advanced responsibilities of the cardiac sonographer.

DMS 4912 - Medical Comprehensive Review

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Review and requirements for advanced responsibilities of the medical sonographer.

DMS 4913 - Vascular Comprehensive Review

Credits: (1)
Typically Taught Summer Semester: Full Sem
Description: Review and requirements for advanced responsibilities of the vascular sonographer.

DMS 4921 - Workshops, Conferences and Telecourses

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
May be repeated twice with a maximum of 3 credit hours.

ECE 1000 - Introduction to Electrical Engineering

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introductory course to Electrical & Computer Engineering topics including electronic terms, numbering systems, software tools, and documentation practices.
Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.
Suggested Requisite(s): College algebra and trigonometry are strongly recommended.

ECE 1270 - Introduction to Electrical Circuits

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: The basics of analog circuits as an introduction to Electrical Engineering. Concepts of voltage,
current, power, resistance capacitance and inductance. Circuit analysis techniques such as Kirchhoff's Laws, node voltages, and mesh currents. Thevenin's and Norton's equivalent circuits, sinusoidal steady state and phasors. (Concurrent enrollment with ENGR 1000 is not recommended.)

Lecture and lab combination.  
**Pre-requisite(s):** MATH 1210  
**Pre-requisite/Co-requisite:** MATH 1220 and either ECE 1000 or ENGR 1000.

**ECE 1400 - Fundamentals of Engineering Computing**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Computer programming and computational tools applied to electrical and computer engineering problems. Topics include coding fundamentals, numeric libraries and debugging techniques. Lecture and lab combination.  
**Pre-requisite(s):** MATH 1210.  
**Pre-requisite/Co-requisite:** ECE 1000 or ENGR 1000.

**ECE 2210 - Electrical Engineering for Non-majors**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $40.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.  
**Description:** Fundamental electric-circuit techniques including: time domain transient responses for 1st and 2nd order circuits, Laplace transforms, Fourier series, and filters. Lecture and lab combination.  
**Pre-requisite(s):** MATH 1220 and either ECE 1270 or ECE 2210.  
**Pre-requisite/Co-requisite:** ECE 1400 and either ENGR 2240, MATH 2250 or MATH 2280.

**ECE 2700 - Digital Circuits**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $25.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.  
**Description:** An introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, and computer architecture. Introduction to hardware description language and programmable logic devices. Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.  
**Pre-requisite/Co-requisite:** ECE 1000 or ENGR 1000.

**ECE 3000 - Engineering Seminar**

**Credits:** (1)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** An engineering seminar course designed to prepare the student for professional engineering employment. Topics to include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness, and continuous improvement. The students will research related topics and write a paper.  
**Pre-requisite(s):** ECE 1270.  
**Note:** Admittance into the Professional Program required.

**ECE 3090 - Project Management**

**Credits:** (1)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management. Students should take this course the semester before taking
ECE 4010.
Pre-requisite(s): Permission from the department.
Note: Admittance into the Professional Program required.

ECE 3110 - Microelectronics I

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamental semiconductor device characteristics including diodes, MOSFETs and bipolar transistors; small and large signal characteristics and design of linear circuits.
Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.
Pre-requisite(s): MATH 1220 and either ECE 1270 or ECE 2210.
Note: Admittance into the Professional Program required.

ECE 3120 - Microelectronics II

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Intermediate topics related to microelectronics including differential and multistage amplifiers, frequency response, feedback systems, power amplifiers, filters, and signal generation.
Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of filters and advanced circuits.
Pre-requisite(s): ECE 2260 and ECE 3110.

ECE 3210 - Signals and Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Topics related to the analysis of linear time invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms.
Lecture and lab combination. Laboratory activities to include the computer simulation, analysis, and numerical modeling of signals and systems.
Pre-requisite(s): ECE 2260 and either ENGR 2240, MATH 2250 or both MATH 2270 and MATH 2280.
Note: Admittance into the Professional Program required.

ECE 3310 - Electromagnetics I

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: An introduction to electrostatics, magnetostatics and Maxwell's equations with specific applications to wave propagation and transmission line theory.
Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of RF radar subsystems.
Pre-requisite(s): MATH 2210, PHYS 2220, and either ECE 1270 or ECE 2210.
Note: Admittance into the Professional Program required.

ECE 3430 - Engineering Probability and Statistics

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course covers basic concepts and techniques of probability theory with applications to statistics, machine learning, and signal processing. Topics include probabilistic modeling and analysis, confidence intervals, and statistical inference. Example problems are drawn from engineering applications and include both analytic and computational solutions.
Pre-requisite(s): ECE 1400 and MATH 1220.

ECE 3510 - Power Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: A study of AC and DC power systems and machines, including single and 3-phase power, power factor and correction, transformers, synchronous and induction machines, DC motors, power transmission lines, and analysis of power flow and faults. Lecture and Lab combination.
Pre-requisite(s): ECE 1270 or ECE 2210.
Note: Admittance into the Professional Program required.

**ECE 3610 - Digital Systems**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $50.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Introduction to microprocessor architecture, arithmetic logic units, memory systems, input/output interfaces, peripheral devices, and communication. Lecture and lab combination. Laboratory activities to include the programming and operation of microprocessor circuits.

Pre-requisite(s): ECE 2700 and (CS 2250 or CS 1410 or ECE 1400).

**ECE 3620 - Microprocessor Architecture**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course focuses on the concepts of modern computer and microprocessor architecture including pipelining, caches and branch prediction. Students will gain an understanding of the key design concepts of modern computer architecture and its implications on software and hardware design.

Pre-requisite(s): ECE 3610
Pre-requisite/Co-requisite: ECE 3710

**ECE 3710 - Embedded Systems**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $50.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Design and implementation of a microcontroller or microprocessor embedded system including assembly language programming, interfacing to peripherals, interrupt handling and debugging techniques. Lecture and Lab. Laboratory exercises build toward a final embedded systems project.

Pre-requisite(s): (ECE 2700 or CS 2810) and (ECE 1400 or CS 2250 or CS 1410).

Pre-requisite/Co-requisite: ENGL 3100 or PS 3250.

**ECE 3730 - Fundamentals of Robotics**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Course fees are used to maintain robotic equipment and other laboratory instruments.
**Description:** Fundamentals of robotic systems. Introduction to the Robot Operating System and the Gazebo simulator. Topics include reading data from sensors, localization, mapping, navigation and task planning. Students will demonstrate the ability to program a provided robotic system to navigate to a position and perform a task in both simulated and real environments.

Pre-requisite(s): ECE 1400 or CS 1410.

**ECE 3890 INT - Internship**

**Credits:** (1)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This is a core course that is required for the BS Engineering degree. The student will need department approval before being allowed to register.

Pre-requisite(s): Permission from the department.

ECE 3890 can be taken a maximum of three times for a total of three credits, but only one credit counts toward the major.

Note: Admittance into the Professional Program required.

**ECE 4010 CEL - Senior Project I**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $40.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations. Before seeking departmental approval, students should be currently enrolled in ECE 3090 and should have taken at least four 3000-level core ECE courses, MATH 3410, and either ENGL 3100 or PS 3250. Exceptions to this rule are made only if a student's
graduation would otherwise be delayed.

**Pre-requisite(s):** Permission from the department.

Note: Admittance into the Professional Program required.

---

**ECE 4020 CEL - Senior Project II**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $40.00  
**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.

**Pre-requisite(s):** ECE 4010.

Note: Admittance into the Professional Program required.

---

**ECE 4100 - Control Systems**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem  
**Course Fee:** $50.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** Topics related to control theory, analysis, and testing of systems in the time domain, frequency domain and state space.

Lecture and lab combination.

**Pre-requisite(s):** ECE 3110 and ECE 3210.

Note: Admittance into the Professional Program required.

---

**ECE 5110 - Digital VLSI Design**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem  
**Course Fee:** $100.00  
**Course Fee Purpose:** Software licensing and maintenance of laboratory equipment.

**Description:** Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

**Pre-requisite(s):** ECE 3110 and ECE 3610.

Note: Admittance into the Professional Program required.

---

**ECE 5120 - Analog VLSI Design**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $100.00  
**Course Fee Purpose:** Software licensing and maintenance of laboratory equipment.

**Description:** Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

**Pre-requisite(s):** ECE 3120.

Note: Admittance into the Professional Program required.

---

**ECE 5130 - Advanced Semiconductor Devices**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $30.00  
**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

**Pre-requisite(s):** PHYS 2220 and ECE 3110.

Note: Admittance into the Professional Program required.

---

**ECE 5140 - Sensors and Instrumentation**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $50.00  
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, coustic, and/or bio-medical.
Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.

**Pre-requisite(s):** ECE 3110 and PHYS 2220.

**ECE 5150 - Thin Film Engineering**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** Thin films are shaping the future of electronic devices. Understanding how materials are grown and characterized is vital to understanding and mitigating limitations in device design. This course focuses on the materials used to create state of the art ultra-thin device quality layers and coatings as well as how they are grown, characterized, and then used in fabrication processes for electronic devices such as transistors.

**Pre-requisite(s):** PHYS 2220 and (MATH 3410 or ECE 3430)

**ECE 5210 - Digital Signal Processing**

**Credits:** (4)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

**Pre-requisite(s):** ECE 3210.

Note: Admission into the Professional Program required.

**ECE 5220 - Image Processing**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

**Pre-requisite(s):** ECE 3210.

Note: Admission into the Professional Program required.

**ECE 5230 - Engineering Applications in Deep Learning**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.

**Pre-requisite(s):** ECE 3210, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270.

**ECE 5310 - Electromagnetics II**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $30.00
**Course Fee Purpose:** Maintenance of laboratory equipment.
**Description:** A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.

**Pre-requisite(s):** ECE 3310.

Note: Admission into the Professional Program required.

**ECE 5320 - Antennas and Wave Propagation**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $40.00
**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.
**Description:** Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

**Pre-requisite(s):** ECE 3310.

Note: Admission into the Professional Program required.

**ECE 5410 - Communication Circuits and Systems**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.
Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.
Note: Admittance into the Professional Program required.

ECE 5420 - Digital Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: This course provides an in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired, wireless data communication and the physical networking layer. Topics include QPSK, QAM, CSMA/CD, SONET, ADSL, and/or MACAW. Spread spectrum concepts such as FHSS, DSSS, OFDM, MIMO and/or cooperative communication techniques may be included. Students will develop Matlab based models to emulate the concepts. The course will include group projects as well as individual assignments. The course would be beneficial particularly to students who are interested in doing work/research in fields related to communications, networks, and signal processing.
Pre-requisite(s): ECE 3210 and ECE 3430 or MATH 3410.
Note: Admittance into the Professional Program required.

ECE 5440 - Optical Communication Systems

Credits: (3)
Description: This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics, optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.
Pre-requisite(s): ECE 3310.

ECE 5510 - Advanced Power Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: This course will explore advanced power systems concepts.
Pre-requisite(s): ECE 3510.
Note: Admittance into the Professional Program required.

ECE 5420 - Digital Communication

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.
Pre-requisite(s): ECE 3610.
Note: Admittance into the Professional Program required.

ECE 5640 - Model-based Systems Engineering

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.
Pre-requisite(s): ECE 3610.

ECE 5710 - Real-Time Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.
Pre-requisite(s): ECE 3710.
Note: Admittance into the Professional Program required.

ECE 5730 - Robotics
Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Robotic hardware design and control principles. Topics include selection and design of sensors, motor and actuator types and control, computer vision for navigation and tasks and hardware interfaces to sensors. Use of the Robot Operating System to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Use of the Gazebo simulation environment to validate designs before implementation.
Pre-requisite(s): ECE 3730 and ECE 4100.

ECE 5750 - Quantum Computer Engineering

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.
Pre-requisite(s): ECE 2700, PHYS 2220, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270.

ECE 5800 - Individual Studies

Credits: (1-4)
Description: The students will receive credit for approved studies in the Electrical & Computer Engineering programs. A maximum of four credits can count as an elective course in the Electrical & Computer Engineering programs.

May be repeated four times for a maximum of four credit hours.
Note: Admittance into the Professional Program required.

ECE 5900 - Special Topics

Credits: (1-4)
Variable Title
Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture and lab combination. Laboratory activities support the selected course topic. May be repeated four times for a maximum of four credit hours.
Note: A maximum of four credits can be counted for the Electrical & Computer Engineering programs. Admittance into the Professional Program required.

ECE 6010 - Design Project

Credits: (2-6)
Course Fee: $40.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: Students are required to complete a substantial engineering design project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in ECE 6010 at the time of their final design review. This course may be repeated.
Pre-requisite(s): Permission from the department. May be repeated 11 times for a maximum of 20 credit hours.

ECE 6020 - Thesis

Credits: (2-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students are required to perform original research that results in a thesis under the direction of a faculty advisor. Students receive T (temporary) grades until their thesis defense, after which these grades are changed retroactively. Students must be enrolled in ECE 6020 at the time of their thesis defense.
Pre-requisite(s): Permission from the department. This course may be taken 3 times and up to 9 credits.

ECE 6110 - Digital VLSI Design

Credits: (3)
Course Fee: $100.00
Course Fee Purpose: Software licensing and maintenance of laboratory equipment.
Description: Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD
tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

**Pre-requisite(s):** ECE 3110 and ECE 3610.

**ECE 6120 - Analog VLSI Design**

**Credits:** (3)

**Course Fee:** $100.00

**Course Fee Purpose:** Software licensing and maintenance of laboratory equipment.

**Description:** Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

**Pre-requisite(s):** ECE 3120.

**ECE 6130 - Advanced Semiconductor Devices**

**Credits:** (3)

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

**Pre-requisite(s):** PHYS 2220 and ECE 3110.

**ECE 6140 - Sensors and Instrumentation**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, acoustical, and/or bio-medical. Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.

**Pre-requisite(s):** ECE 3110.

**ECE 6150 - Thin Film Engineering**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Thin films are shaping the future of electronic devices. Understanding how materials are grown and characterized is vital to understanding and mitigating limitations in device design. This course focuses on the materials used to create state-of-the-art ultra-thin device quality layers and coatings as well as how they are grown, characterized, and then used in fabrication processes for electronic devices such as transistors.

**Pre-requisite(s):** PHYS 2220 and (MATH 3410 or ECE 3430)

**ECE 6210 - Digital Signal Processing**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

**Pre-requisite(s):** ECE 3210.

**ECE 6220 - Image Processing**

**Credits:** (3)

**Course Fee:** $30.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

**Pre-requisite(s):** ECE 3210.

**ECE 6230 - Engineering Applications in Deep Learning**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of
cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.

Pre-requisite(s): ECE 3210, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270.

ECE 6310 - Electromagnetics II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.
Pre-requisite(s): ECE 3310.

ECE 6320 - Antennas and Wave Propagation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.
Pre-requisite(s): ECE 3310.

ECE 6410 - Communication Circuits and Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.
Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

ECE 6420 - Digital Communication

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $30.00
Course Fee Purpose: Maintenance of laboratory equipment.
Description: This course provides in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired and wireless data communication. Students will develop computer models to emulate the concepts. The course is particularly beneficial to students interested in doing work/research in fields related to communications and networking.
Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

ECE 6440 - Optical Communication Systems

Credits: (3)
Description: This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics, optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.
Pre-requisite(s): ECE 3310.

ECE 6510 - Advanced Power Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course will explore advanced power systems concepts.
Pre-requisite(s): ECE 3510.

ECE 6620 - Digital System Testing

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault
detection.

**Pre-requisite(s):** ECE 3610.

**ECE 6640 - Model-Based Systems Engineering**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.

**Pre-requisite(s):** ECE 3610.

**ECE 6710 - Real-Time Systems**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Maintenance of laboratory equipment.

**Description:** An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.

**Pre-requisite(s):** ECE 3710 or CS 3100.

**ECE 6730 - Robotics**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee Purpose:** Lab related consumables and maintenance of laboratory equipment.

**Description:** Robotic hardware design and control principles. Topics include selection and design of sensors, motor and actuator types and control, computer vision for navigation and tasks and hardware interfaces to sensors. Use of the Robot Operating System to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Use of the Gazebo simulation environment to validate designs before implementation.

**Pre-requisite(s):** ECE 3730 and ECE 4100.

**ECE 6750 - Quantum Computer Engineering**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.

**Pre-requisite(s):** ECE 3610, ECE 2700, PHYS 2220, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270, MATH 3410.

**ECE 6800 - Individual Studies**

**Credits:** (1-3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Students taking this course will receive credit for approved, mentored studies in the Master of Science in Electrical Engineering (MSEE) and Master of Science in Computer Engineering (MSCE) programs. A maximum of three credits may be counted toward graduation.

**Pre-requisite(s):** Permission from the department.

**ECE 6900 - Special Topics**

**Credits:** (1-4)

**Variable Title**

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture or lecture and lab combination. Laboratory activities support the selected course topic.

May be repeated 10 times and up to 12 credit hours.

**ECED 2110 - Self-Compassion & Vitality for Sustaining Work with Children**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

**ECED 2500 - Development of the Child**
**ECED 2600 - Introduction to Early Childhood Education & Care**

Credits: (3)
Typically Taught Summer Semester: 1st Blk Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course examines contemporary theory and research of growth and development from conception through childhood, studied in the context of family, gender, culture, language, disability, socioeconomics, diversity, and society.

Pre-requisite/Co-requisite: CHF 1500.

**ECED 2620 - Planning Creative Experiences for Young Children**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

Course Fee: $50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: This course examines the historical philosophical, ethical and cultural roots of early childhood education of contemporary perspectives on childhood and the meaning of human difference. Students will explore ways to live out inclusive commitments and aspirations to create communities where all children and families experience a sense of belonging.

Pre-requisite(s): CHF 1500 or instructor consent.

Pre-requisite/Co-requisite: ECED 2500.

**ECED 2610 - Child Guidance**

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online

Course Fee: $50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: This course focuses on the understanding and use of developmentally, culturally, and linguistically appropriate guidance practices to make evidence-based, data-informed decisions that support each child. Students complete a minimum of 24 hours of field experience observing and practicing in an early learning setting serving diverse populations of children 0-8 years.

Pre-requisite(s): CHF 1500.

**ECED 2640 - Collaborating with Families of Young Children.**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with diverse families of young children.

Pre-requisite(s): CHF 1500.

**ECED 2670 - STEM in Early Childhood**

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online

Course Fee: $50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.
ECED 2810 - Experimental Course

Credits: (1-6)  
Experimental  
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ECED 2830 - Directed Readings

Credits: (1-3)  
Typically Taught Summer Semester: Full Sem  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Individually chosen readings on specialized topics supervised by a faculty member.  
Pre-requisite(s): Consent of faculty supervisor prior to registration. May be repeated up to 3 credit hours.

ECED 2850 - Child Development Associate Training

Credits: (2)  
Description: Understanding child development concepts and applying them to teaching situations with young children. The Professional Resource File in preparation for National Child Development Associate Credential (CDA) is compiled during the course.  
Note: This course is not currently offered.

ECED 2860 INT - Practicum

Credits: (1-6)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Course Fee: $50.00  
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.  
Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. A practicum for 3 credits requires students complete a minimum of 135 field experience hours (45 hours/credit) supervised in an early childhood setting that must be approved by the instructor.  
Pre-requisite(s): For Early Childhood majors: CHF 1500, ECED 2600, ECED 2610, ECED 2620, or consent of faculty advisor prior to registration. May be repeated up to 6 credit hours.

ECED 2890 INT - Internship in Early Childhood

Credits: (1-6)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Course Fee: $50.00  
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.  
Description: Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation for progress are including in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings. 3-credits are required for Early Childhood AAS majors.  
Pre-requisite(s): ECED 2860 or consent of faculty advisor.

ECED 2910 - Children & Families: Variable Titles

Credits: (1-3)  
Variable Title  
Typically Taught Fall Semester: Full Sem, Full Sem - Online  
Typically Taught Spring Semester: Full Sem, Full Sem - Online  
Description: An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.  
Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620.

ECED 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)  
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is taught as needed.

ECED 2990A - Seminar in Early Childhood Education

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This one credit course is designed as a capstone opportunity for students completing the AAS in Early Childhood culminating in a synthesis of prior learning to articulate what it means to be an early childhood educator based on the Early Childhood Education professional standards and competencies.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Pre-requisite/Co-requisite: ECED 2860.

ECED 3145 - Educational Psychology, Child Development, and Classroom Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course examines historical and contemporary perspectives in educational psychology, child development and guidance, and classroom management for kindergarten through 8th grade, with a focus on translating theory to practice within diverse communities of learners. It is part of Elementary Education Level I and includes an integrated field experience.

ECED 3500 - Young Children: Adversity and Resilience

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides an in-depth study of physical, cognitive, language, social, and emotional development from prenatal period through toddlerhood. It is part of Elementary Education Level I and includes an integrated field experience.
Pre-requisite(s): CHF 1500.

ECED 3570 - Infants and Toddlers: Development and Practice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides an in-depth study of physical, cognitive, language, social, and emotional development from prenatal period through toddlerhood. Practical application and assessment play an integral part of the course. Students will be introduced to observation, early intervention, and relationship-based care in diverse settings. Students complete a minimum of 24 hours practicum arranged by the instructor.
Pre-requisite(s): CHF 1500.

ECED 3620 - Curriculum Planning for Kindergarten

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to planning curriculum in kindergarten with an emphasis on design of learning environments and curriculum that are developmentally appropriate and evidence based. Students complete a minimum of 24 hours practicum. Student are required to complete a background check by the beginning of the semester.
Pre-requisite(s): CHF 1500; ECED 2500; ECED 2610.

ECED 3640 - Collaborating with Families of Young Children

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with diverse families of young children.
Pre-requisite(s): CHF 1500.
Suggested Requisite(s): Pre-requisite: ECED 2610 and ECED 3500. Co-requisite: ECED 4710 and ECED 4720.

ECED 3680 - Teaching Experience in the Preschool

Credits: (3)
Description: Provides students an opportunity to be an assistant teacher, to observe and interact with children on an individual and group basis; plan, develop, and
implement activities for children.

**Pre-requisite(s):** CHF 1500, ECED 2610 and ECED 2620, or consent of instructor.

*Note:* This course is not currently offered.

**ECED 4110 - Self-Compassion & Vitality for Sustaining Work with Children**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

**ECED 4130 - Language Development and Emergent Literacy in Early Childhood**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course explores current theory, research, and evidence based practices for promoting early language and emergent literacy development (birth 8 years) in home, child care, prekindergarten, and primary education environments through collaborative practices between early childhood professionals and parents.

**Pre-requisite(s):** CHF 1500.

**ECED 4201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem odd years

**Description:** Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources and program experiences. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include interpersonal communication skills and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Coaching skills will apply to any EC/ECE curriculum or model. This is course 1 in a three course series for the Utah Coaching Credential.

**ECED 4202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Description:** Becoming an effective coach is a result of introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self-directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course.

This is course 2 in a three course series for the Utah Coaching Credential.

**Pre-requisite(s):** ECED 4201/MED 6201 or instructor permission.

**ECED 4203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self-analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support
strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home-based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real-life experiences throughout the course. This is course 3 of a three-course series for the Utah Coaching Credential.

Pre-requisite(s): ECED 4201/MED 6201 and ECED 4202/MED 6202 or instructor permission.

ECED 4220 - Understanding Children Beyond Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course provides a foundation for understanding and engaging with children's behavior and needs in school, home, and community settings, toward new and relational understandings of children, child development, and difference. While studying theories and research from fields of neuroscience, psychoanalysis, Disability Studies in Education, and critical perspectives in early childhood education, students will practice therapeutic techniques for observation and engagement with children and families.

ECED 4230 - Observing and Assessing Children in Context

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course provides students with knowledge and skills to use observation, documentation, and assessment tools to inform instruction, planning, and intervention programs for young children birth through eight years. Special attention is given to contextualized assessment practices that are responsive to children's strengths, needs, cultures, races, languages, and family experiences.
Suggested Requisite(s): Prerequisite ECED 2500, ECED 2610, ECED 2620; Corequisite ECED 4710, ECED 4720.

ECED 4250 - Inclusive Early Childhood Intervention and Special Education

Credits: (3)
Typically Taught Summer Semester: 1st Block, 1st Block Online
Typically Taught Fall Semester: Full Sem, Full Sem -

Online
Typically Taught Spring Semester: Full Sem, Full Sem -

Description: Students will explore and apply current theory and practice in critical special education, Disability Studies in Education, and infant and child mental health for supporting young children (birth-age 8) with disabilities by supporting caregiver-child relationships in family, early childhood community and classroom environments. Students will gain an understanding of applicable history, laws and policies around inclusive education and special education service provision to effectively and equitably collaborate with children, families, and service providers in public and private settings in ways that sustain the rights and cultures of individual children and families, and of disability communities.

ECED 4260 - Inclusive Early Childhood Curriculum

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Critical issues, theories, research, and practice in curriculum for inclusive early childhood education. The goal of this course is to assist students in planning, implementing, and evaluating curriculum that is accessible and culturally sustaining for diverse children and families. Students will be challenged to develop and articulate their own philosophies on what should be taught to young children and why.

ECED 4270 - Young Children's Play

Credits: (3)
Typically Taught Summer Semester: 1st Block, 1st Block Online

Description: This course focuses on the active joyful nature of young children's play, therapeutic and educational value, and how play may vary for children experiencing diverse abilities, circumstances and cultural backgrounds. Students will gain practical strategies for supporting the play of all children.

ECED 4510 - Contemporary Issues in Planning for Children

Credits: (1-3)
Variable Title
Description: An in-depth study of a contemporary issue in childhood. In some cases, this course may substitute for one of the minor requirements when it has received prior approval from a department advisor.
May be repeated up to 3 credit hours.
Note: This course is not currently offered.

ECED 4670 - STEM in Early Childhood

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.
Pre-requisite(s): ECED 2600, ECED 2610.
Pre-requisite/Co-requisite: ECED 2620.

ECED 4710 - Advanced Guidance and Planning for Early Childhood Education

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A synthesis of guidance and planning with an emphasis on assessment, appropriate objectives and strategies for individual and specific groups of children. Requires both lecture and lab time.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Co-Requisite(s): Students majoring in EC, ECE, or taking an early childhood specialization with their K-6 license will register for the section that is offered the first 5 weeks of the semester, and take it concurrently with ECED 4720.
Pre-requisite/Co-requisite: ECED 3640.

ECED 4720 INT - Student Teaching Birth-5

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Student teaching provides a full-time 16-week, immersion experience. Students are placed in the Weber State University Melba S. Lehner Children's School or an approved off-campus pre-kindergarten classroom and spend the entire semester there. The focus is the study of developmentally appropriate practices using NAEYC professional standards for children birth to 5 years. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the pre-K early childhood classroom. Supervision is provided by university supervisor and field-based professionals.
Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.
Co-Requisite(s): To be taken concurrently with ECED 4710.
Pre-requisite/Co-requisite: ECED 3640.
Suggested Requisite(s): Search
May be repeated 2 times up to 9 credit hours.

ECED 4721 - Student Teaching K-3

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Student teaching provides a full-time 14-week, immersion experience for students in the early primary grades. Students are placed in one public school classroom and spend the entire semester there. The focus is the study of developmentally appropriate practices using NAEYC standards for primary grades. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the public school-early childhood classroom. Supervision provided by university supervisor and field-based professionals to meet national professional standards and support mastery of knowledge, skills, dispositions required for teacher certification concentration in Early Childhood Education (Kindergarten - grade 3).
Pre-requisite(s): ECED 4720; EDUC 3240.

ECED 4730 - Early Childhood/Early Childhood Education Program Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course prepares students with skills specific to leadership roles in early childhood education programs including: professional ethics, ensuring the health and safety of children, ongoing quality improvement, program leadership, planning, and management. Content and skills focus on practices endorsed by the National Association for the Education of Young Children (NAEYC) and are aligned with the NAEYC Standards for Early Childhood Professional Preparation Programs.

Pre-requisite(s): ECED 2600, ECED 2610, ECED 2620, or consent of the instructor, and concurrent or prior enrollment in ECED 4710 and ECED 4720.

ECED 4800 - Individual Research

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor. May be repeated up to 6 credit hours.

ECED 4810 - Experimental Course

Credits: (1-6)
Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ECED 4820 - Child Observation Seminar

Credits: (1)
Typically Taught Summer Semester: 1st Block Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The Child Observation Seminar is a small group reflective practice seminar. Students meet weekly to view and discuss video clips from work with young children in school, home, or community settings. Groups are facilitated to support early childhood professionals in feeling and awareness in their subjective emotional present, toward new experiences of themselves with children, families, and fellow early childhood professionals that may transform their work.

ECED 4830 - Directed Readings

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Individually chosen readings on specialized topics supervised by a faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.

Pre-requisite(s): Consent of faculty supervisor prior to registration. May be repeated up to 3 credit hours.

ECED 4860 INT - Practicum in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. The practicum requires 45 field experience hours for each credit hour registered. A background check is required for all early childhood field experiences.

Consent of instructor or faculty advisor is required prior to registration.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620 and ECED 3640.

Suggested Requisite(s): Can be taken concurrently with ECED 4710 and ECED 4720. May be repeated up to 6 credit hours.

ECED 4861 - Practicum in K-3

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the early elementary grades (K-3) working with an experienced teacher. Students will focus on integrating pedagogical approaches and discipline specific content related to the courses taken concurrently with the practicum.

Pre-requisite(s): ECED 2620 or instructor's consent.

ECED 4890 - Internship in Early Childhood

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.
Description: Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation of progress are included in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings. 3-credits are required for Early Childhood BS majors.
Pre-requisite(s): For Early Childhood BS majors: ECED 4710 and ECED 4720, or consent of faculty supervisor.

ECED 4900 - Career Strategy Seminar

Credits: (1)
Description: Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance. Note: This course is not currently offered.

ECED 4910 - Children & Families: Variable Titles

Credits: (1-3)
Variable
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

ECED 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is taught as needed.

ECED 4980 - Early Childhood Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of Early Childhood/Elementary Education program of study with specific emphasis on beginning a professional career in teaching. Senior project not required.
Suggested Requisite(s): To be taken concurrently with student teaching.
Note: This course is not currently offered.

ECED 4990 - Seminar in Early Childhood Education

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is an Early Childhood Education capstone course in which students synthesize and demonstrate learning outcomes expected for all ECE professional standards and competencies.
Pre-requisite(s): ECED 2500, ECED 2600, and ECED 3500 or instructor's consent.
Pre-requisite/Co-requisite: ECED 3640, ECED 4710, and ECED 4720.

ECED 4990A - Seminar in Child Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Discussion and analysis of special topics for advanced Early Childhood and Early Childhood Education majors.
Pre-requisite(s): ECED 2500, ECED 2600, ECED 3640, and ECED 3500 (or EDUC 2010) or instructor's consent, and concurrent or prior enrollment in ECED 4710 and ECED 4720.

ECON 1010 SS - Economics as a Social Science

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem  
Description: An introduction to basic economic institutions and principles of economics for non-business and non-economics majors. The primary objective of the course is to provide a framework of economic approaches useful in the analysis of social problems. Topics include poverty, economic systems, crime, pollution, health, discrimination, unemployment, inflation, and the role of government in the economy.

ECON 1100 SS - Environmental Issues and Economic Policy  
Credits: (3)  
Description: An analysis of policies which affect environmental resources. Emphasis on economic analysis of renewable and nonrenewable resources, pollution, and public policy. This course demonstrates economic solutions to environmental problems, and the role economics plays in designing environmental policy.  
Note: Check with department for course availability.

ECON 1740 AI - Economic History of the United States  
Credits: (3)  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: A critical study of the history of the American Economy, significant events, fundamental principles of a market economy, interactions between government and the market economy, and the evolution of fundamental economic institutions.

ECON 2010 SS - Principles of Microeconomics  
Credits: (3)  
Typically Taught Summer Semester: Full Sem - Online  
Typically Taught Fall Semester: Full Sem, Full Sem - Online  
Typically Taught Spring Semester: Full Sem, Full Sem - Online  
Description: The application of economic concepts to the analysis of scarcity of individual, firm, and organizational behavior. Topic coverage includes the theories of how consumers and firms make choices, and how various rules guide their respective decisions. The course also explores the theory of market structures, such as perfect and imperfect competition, as well as monopoly.  
Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2020 SS - Principles of Macroeconomics  
Credits: (3)  
Typically Taught Summer Semester: Full Sem  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Analyzes human behavior and choices as they relate to the entire economy, with specific focus on national income measurement, unemployment, inflation, business cycles, global trade, and economic growth. Implications of different government policies, e.g., changes in taxation, government spending, money supply or interest rates for a stable economy and steady growth are explored.  
Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2899 - Economics Foundations and Admissions Process  
Credits: (0)  
Typically Taught Summer Semester: Full Sem - Online  
Typically Taught Fall Semester: Full Sem - Online  
Typically Taught Spring Semester: Full Sem - Online  
Description: Completion of ECON 2899 is required of all non-business Economics students pursuing any Bachelor of Science, Associate of Science, or minors awarded by the John B. Goddard School of Business & Economics. The course objectives are: 1) assessment of Foundation knowledge, and 2) admittance to the Goddard School. Students should register for this course concurrent with (same semester as) their last required Foundation course (ECON 2010, ECON 2020, and QUAN 2600) or after the required Foundation courses have been completed. Students must have an overall GPA of 2.5 or higher and a Foundation GPA of 2.5 or higher and a minimum grade of "C-" in each of the three Foundation courses plus a minimum grade of "C" in the two Liberal Support courses.
Credit/No credit.

Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

Pre-requisite/Co-requisite: (ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600.

Suggested Requisite(s): Students should register for this course concurrent with (same semester as) their last Economics Foundation course(s) ((ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600) or after the required Economics Foundation courses have been completed.

ECON 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed.

ECON 3030 - Managerial Economics

Credits: (3)
Description: This course uses the tools of differential calculus and regression theory to analyze the managerial decisions of individual firms.
Pre-requisite(s): MATH 1050, QUAN 2600, QUAN 3610.
Note: Course not currently being offered.

ECON 3090 - History of Economic Thought

Credits: (3)
Description: This course covers the major concepts and contributions of the scholars of the past in economic doctrine and interpretations.
Pre-requisite(s): ECON 2010, ECON 2020, and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 3110 - International Trade

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to the pure theory of trade, international trade agreements and negotiations (e.g., GATT, EU and NAFTA) and the institutions designed to encourage trade. Emphasis on the benefits of free trade as well as the reasons for the existence of trade barriers such as tariffs and quotas. Special topics include trade in agricultural products and international labor migration.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.
ECON 3200 - Money and Banking

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course presents a detailed description and economic analysis of the U.S. financial system which includes the banking industry, bond and stock markets, and the Federal Reserve system. This course serves as an extension to the material covered in an introductory macroeconomics course. The enhanced understanding of the workings of the financial system, including the determination of interest rates, will be used to trace out the channels of monetary policy as conducted by the Federal Reserve and the effect of monetary policy on financial markets, such as the stock market.
Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3300 - Environmental Economics

Credits: (3)
Typically Taught Spring Semester: -Every Other - Full Sem
Description: Environmental Economics applies economic concepts to environmental and resource topics. We will use both standard economic and ecological analyses. Specific topics include externalities, public goods, environmental accounting, nonrenewable and renewable resource use, pollution, and climate change.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3400 - Labor Economics

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The study of labor economics explores choices made by the two sides of the labor market, employers and workers and how these choices interact in determining wage and employment levels. Hence, an important part of the course consists of a detailed analysis of labor demand and supply. This analysis is followed by a discussion of why the labor market often does not clear, i.e., why we observe unemployment. The analysis focuses on special features of the labor market such as minimum wage, labor unions and efficiency wages. Other topics include the effect of education and training on earnings, the optimal incentive structure of an employment contract and determinants of income inequality.
Pre-requisite(s): ECON 2010, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3410 - Women in the World Economy

Credits: (3)
Description: Applications of the principles of economics to the analysis of the economic status of women in the U.S. and elsewhere. The focus is on labor markets, income differentials, the tax system and household work. Special consideration is given to women in developing economies.
Pre-requisite(s): ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 4010 - Intermediate Microeconomic Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The application of economic concepts to individual and firm behavior, consumer behavior, demand analysis, economics of the firm, and price theory.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.
ECON 4020 - Intermediate Macroeconomic Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The building of standard models to test theories of long-run economic performance and short-term fluctuations in closed and open economies. Emphasis is placed on how fiscal and monetary policies encourage long-run growth while mitigating the negative effects of short-term fluctuations.
Pre-requisite(s): ECON 2010 and ECON 2020 and (QUAN 2400 or MATH 1210) and (BSAD 2899 or ECON 2899).

ECON 4170 - Economic Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The application of economic principles to the challenging problems of third world and developing nations including Africa, Asia, Latin America and the newly independent states of the Former Soviet Union and Eastern Europe.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4320 - Industrial Organization

Credits: (3)
Description: The theory and performance of firms and industries in the context of substantial market power and market regulation. Emphasis on oligopoly, game theory, and theory of markets within the context of global market competition.
Pre-requisite(s): QUAN 2400 or ECON 3030, ECON 2010.

Note: Course not currently being offered.

ECON 4330 - Game Theory

Credits: (3)
Typically Taught Fall Semester: Every Other - Full Sem
Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit.
Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4520 - Public Finance

Credits: (3)
Description: This course covers the aspects of economic policy that arise in the operations of a public budget. Topics addressed include economic theories of bureaucracy, public expenditures, and taxation.
Pre-requisite(s): ECON 2010, ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.
Note: Course not currently being offered.

ECON 4550 - Introduction to Econometrics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Advanced Regression Analysis. Topics include ordinary least squares, generalized least squares, nonlinear regression, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively.
Pre-requisite(s): ECON 2010, ECON 2020, QUAN 2400, and QUAN 3610.

ECON 4560 - Mathematical Economics
Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Advanced application of mathematical modeling techniques to selected economic issues.
Pre-requisite(s): ECON 4010, ECON 4020, QUAN 2400 or MATH 1210, and QUAN 3610.

ECON 4800 - Independent Research

Credits: (1-3)
Description: Individual work or work in small groups, by arrangement, in special topics not included in the announced course offerings.
Pre-requisite(s): QUAN 3610 and approval of instructor.
May be repeated twice with a maximum of 3 credit hours.
Note: This course is offered as needed.

ECON 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

ECON 4850 - Economics Study Abroad

Credits: (1-3)
Description: This course is designed for students who will study economics at one of the international partner universities of the Goddard School of Business and Economics as part of an extended study abroad visit. Students will explore the international economic institutions, business culture, and applications of economic theory to countries outside of the US. Students will study international economics as offered through a partner university (or other university with department chair approval).
Pre-requisite(s): ECON 2899 or BSAD 2899.
May be repeated once up to 6 credits.
Note: This course is offered as needed.

ECON 4860 INT - Economics Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Business Economics or International Business Economics program courses.
Pre-requisite(s): BSAD 2899; Instructor approval.

ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

ECON 4970 - Introduction to Research Methods

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course prepares students for ECON 4980 Research Methods. Students will study the research process and the scientific method as it applies to economics. Students will have an opportunity to explore various fields and literature in order to design a thesis project for ECON 4980.
Pre-requisite(s): ECON 2899 or BSAD 2899.

ECON 4980 CRE - Research Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed for senior economics majors which requires the completion of an extensive thesis project. This course will focus on the formulation of hypotheses, review of relevant literature, and either theoretical or empirical analysis.
Pre-requisite(s): ECON 4970, BSAD 2899 or ECON 2899, QUAN 3610, ECON 4010 or ECON 4020.

ECON 6330 - Game Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in
encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit. The graduate version of the course includes advanced readings from academic literature and other assignments for a more in-depth review of game theory concepts.

**Pre-requisite(s):** Admission to the MA in Peace, Development, and Social Transformation and the leveling requirements associated with admission to that program, and ECON 2010 Principles of Microeconomics

**ECON 6550 - Econometrics**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** Regression Analysis. Topics include ordinary least squares, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively. By the end of the course, students will be able to: Develop a multiple regression model, understand the assumptions of multiple regression and recognize the consequences when they are not satisfied, test for statistical significance in a multiple regression setting, use dummy variables as independent and dependent variables, recognize endogenous regressors, and simulate key econometric principles.

**Pre-requisite(s):** Admission to the Master of Science in Data Science and the leveling courses associated with those requirements.

**ECON 6900 - Special Topics in Economics**

**Credits:** (1-3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course explores new or otherwise relevant economics topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on students' transcripts. Course may be repeated for credit under different titles. Lecture or Lecture/Lab combination. May be taken twice up to 6 credits.

**Pre-requisite(s):** Instructor Permission.

**EDUC 1010 CEL - Exploring Teaching**

**Credits:** (3)

**Description:** Students will explore the exciting world of teaching, examine what it means to be a teacher, and participate in field observations. This course is designed to introduce students to personal and professional experiences within the educational community.

**Pre-requisite(s):** This course or an equivalent approved course is a prerequisite to all licensure programs in the Department of Teacher Education.

**EDUC 1210 - Learning and Engagement for Adult Learners**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, 1st Block

**Typically Taught Fall Semester:** Full Sem, 1st Block

**Typically Taught Spring Semester:** Full Sem, 1st Block

**Description:** This course focuses on helping teachers of adult learners create an inclusive learning environment by incorporating effective learning strategies and skills in an engaging, well-managed classroom.

**EDUC 1220 - Instructional Planning and Assessment for Adult Learners**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, 2nd Block

**Typically Taught Fall Semester:** Full Sem, 2nd Block

**Typically Taught Spring Semester:** Full Sem, 2nd Block

**Description:** This course focuses on the identification or creation of instructional learning objectives, selecting and/or designing aligned assessments, planning engaging instructional activities, and enactment and reflection of instruction to meet the needs of all adult learners.

**Pre-requisite/Co-requisite:** EDUC 1210.

**EDUC 2000 - Social Studies Concepts for Elementary Teachers**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, 2nd Block

**Typically Taught Fall Semester:** Full Sem, 2nd Block

**Typically Taught Spring Semester:** Full Sem, 2nd Block

**Description:** Fundamental concepts from the social sciences commonly found in elementary social studies curriculum.

**Note:** This course is not currently offered.

**EDUC 2010 CEL - Human Exceptionality**

**Credits:** (3)

**Typically Taught Summer Semester:** 2nd Blk

**Typically Taught Spring Semester:** Full Sem

**Description:** This course will introduce students to the characteristics of exceptional children with emphasis on the educational and psychological implications of disabilities to
EDUC 2210 - Designing Hybrid Courses for Adult Learners

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Block
Typically Taught Fall Semester: Full Sem, 1st Block
Typically Taught Spring Semester: Full Sem, 1st Block

Description: This course is on the design of hybrid courses for adult learners. Students will practice designing a course using a Learning Management System, graphic design and tools for designing instructional material. They will learn about basic principles for integrating technology and supporting interaction. Special emphasis in this course will be given to course accessibility.

EDUC 2220 - Program Planning and Evaluation

Credits: (3)
Typically Taught Summer Semester: Full Sem, 2nd Block
Typically Taught Fall Semester: Full Sem, 2nd Block
Typically Taught Spring Semester: Full Sem, 2nd Block

Description: This course focuses on the creation and evaluation of competency-based programs for adult learners including the development of program scope and sequence, program-level outcomes, program assessment plans, and program evaluation reporting.

Pre-requisite/Co-requisite: EDUC 1220.

EDUC 2300 GLB - Global Perspectives on Education and Learning

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course begins by introducing perspectives on globalization and how the globalization process impacts educational policies and practices. We will then discuss three major topics from an international and comparative perspective. These three topics are: 1) educational policies and practices; 2) pedagogies and classroom practices; 3) individual experiences of learning. Case studies will be used to demonstrate different ways to examine how schools teach, as well as how students learn, in various social contexts. Towards the end of the course, students will learn to develop age appropriate pedagogical tools by incorporating global learning perspectives that can be used in K-12 classrooms.

EDUC 2604 - Information Resources in Education

Credits: (1)

Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines.

Cross-Listed with LIBS 2604.

EDUC 2800 - Instruction, Technology, Assessment, and Planning

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The purpose of this course is to prepare paraeducators with a foundation in supporting instructional planning, presenting instruction, using technology in the classroom, and using teacher selected assessment to determine student learning.

EDUC 2820 - Creating a Learning Environment

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course explores methods for designing positive K-12 learning environments. Students will be provided with a framework for supporting a positive learning environment including classroom spaces, and consider a wide range of strategies, techniques, and factors in supporting a positive learning environment for all learners.

EDUC 2890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: For students not yet accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/ background check must be completed prior to working in the schools. May be repeated up to 6 credit hours.

EDUC 2900 - Career Planning and Exploration

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course provides a comprehensive approach to career development, planning, preparation, and selection. It is designed to assist students as they develop their future goals through assessment of personal strengths, values, interests, and abilities. Students will learn valuable decision-making skills required for choosing a major and career path. The course provides strategies for successfully entering the job market through resume creation, interview preparation, and exploration of labor market information. This class requires the completion of online career assessments for a total cost of $10. To access online course materials, please go to your student portal, log into eWeber, and click on WSU Online-Canvas.

EDUC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: May be taken on a Credit/No Credit basis.

EDUC 3100 - Instructional Planning & Assessment

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course introduces the basic concepts of lesson and unit design, planning and assessment based on student needs. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course should be taken with other courses in Elementary Education Level 2.

EDUC 3110 - Instructional Technology

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course allows students to apply existing technology literacy into educational environments to promote enhanced learning. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-8 settings. The course focuses on providing teacher licensure candidates with basic technology proficiencies for teaching with technology.
Pre-requisite(s): Completion of the computer and information literacy requirements.

EDUC 3115 - Media Integration in Elementary Education Settings

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on how to create media to support and apply research-based principles for learning into educational environments. The course content is based on Utah core curriculum skills for students in the K-8 setting. The course provides students with technology proficiencies for integrating technology into teaching.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3117 - Media Integration in Elementary Education Settings 2

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on integrating media and technology to support and apply research-based principles for learning in educational environments for traditional, blended, and online instruction. Students will continue to develop their skills and knowledge about how to
incorporate technology into the curriculum to support meaningful instruction. A variety of technologies will be utilized for designing digital curriculum and developing 21st century standards. The course content is based on Utah core curriculum skills for students in the K-8 setting. May include field experiences that involve travel to local schools or other relevant destinations.

**Pre-requisite(s):** Successful completion (B- or better) of Elementary/Early Childhood Level 1.

---

**EDUC 3120 - Reading Instruction in the Primary Grades**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Description:** This course is designed to familiarize the teacher candidate with current knowledge and practices as they relate to teaching literacy (reading, writing, listening, and speaking) in the primary grades (K-2). The focus of this course will be how to apply current literacy research in a primary grade classroom.  

**Pre-requisite(s):** Admission to Teacher Education.  
**Suggested Requisite(s):** Should be taken with other courses in Level 1.

---

**EDUC 3130 - Curriculum, Instructional Planning, and Assessment**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Description:** This course introduces the basic concepts of lesson and unit design, planning, and assessment based on student needs.  

**Pre-requisite(s):** Elementary Level 1  
**Co-Requisite(s):** Elementary Level 2  
**Note:** Program of Study Code

---

**EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Description:** The focus of this course is the fundamental theories and philosophies, concepts, processes, and applications related to human behavior, teaching and learning, interpersonal relationships, and classroom management.

**Pre-requisite(s):** Admission to Teacher Education.  
**Suggested Requisite(s):** This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3205, EDUC 3270, EDUC 4550.

---

**EDUC 3145 - Educational Psychology, Child Development, and Classroom Management**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Description:** This course examines historical and contemporary perspectives in educational psychology, child development and guidance, and classroom management for kindergarten through 8th grade, with a focus on translating theory to practice within diverse communities of learners. It is part of Elementary Level I and includes an integrated field experience.  

**Co-Requisite(s):** Elementary Level 1  
**Note:** Program of Study Code

---

**EDUC 3205 - Culturally and Linguistically Responsive Teaching**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Description:** Rationales, concepts, practices provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values are also explored. Experiences are provided intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.  

**Pre-requisite(s):** Admission to Teacher Education.  
**Suggested Requisite(s):** Should be taken with other courses in Level 1.

---

**EDUC 3210 INT - Elementary Level II Practicum**

**Credits:** (2)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  

**Course Fee:** $10.00  
**Course Fee Purpose:** Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.  

**Description:** The purpose of this practicum is to provide
students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on integrating the arts, healthy lifestyles, and literacy. Students are required to spend at least 40 hours in an assigned classroom.

**Pre-requisite(s):** Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

**Suggested Requisite(s):** This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3240, EDUC 4345, PEP 3620.

---

**EDUC 3220 - Foundations of Diversity**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Rationales, concepts, practice provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values. Experiences intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.

**Pre-requisite(s):** Admission to Teacher Education.

**Suggested Requisite(s):** This course is part of the professional core courses and should be taken with EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, and EDUC 3935.

---

**EDUC 3230 - Data Analysis for Elementary Teachers and Math Pedagogy**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course will focus on the study of statistics and probability in the Utah mathematics core (K-8) and appropriate mathematics teaching methods. Emphasis will also be on the developing an understanding of the Standards of Mathematical Practice. Teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations will be addressed. This course builds upon and will use content learned in MATH 2010, 2015, and 2020. May include field experiences that involve travel to local schools or other relevant destinations.

**Pre-requisite(s):** Successful completion (B- or better) of Elementary/Early Childhood Level 1. Should be taken with Elementary/Early Childhood Level 2 courses.

---

**EDUC 3240 - Reading Instruction in the Intermediate Grades**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course will provide theories, methods, and assessments for reading in the elementary school, Grades 3-6. Students will understand reading instruction in relation to the wider processes of literacy and language development to guide elementary students to effectively communicate through oral and written languages for different contexts, which includes text-based and digital environments. The course will also include the contemporary issues on elementary reading instruction. May include field experiences that involve travel to local schools or other relevant destinations.

**Pre-requisite(s):** Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.

**Suggested Requisite(s):** This course is part of Elementary Education Level 2 and should be taken concurrently with EDUC 3100, EDUC 3210, EDUC 4345, PEP 3620.

---

**EDUC 3265 - The Exceptional Student**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Students will learn about the learning and social characteristics of young people with exceptionalities—that is, disabilities (physical, mental, learning) or giftedness—and about public policy and services available to them. As future teachers, they will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.

**Pre-requisite(s):** Admission to Teacher Education.

**Suggested Requisite(s):** This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3900, EDUC 3315, EDUC 3935, EDUC 3910.

---

**EDUC 3270 - Differentiation and Collaboration for Inclusive Teaching**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** The Individuals with Disabilities Education
Improvement Act of 2004 (IDEA-04) mandates that students with disabilities be educated "to the maximum extent appropriate with children who are not disabled." The expectation is that students with disabilities will have access to, and make adequate progress in, the general curriculum. Therefore, it is essential for general educators and special educators to work collaboratively. This course is designed to provide preservice teachers with the knowledge and skills of effective inclusive teaching practices.

**Pre-requisite(s):** Admission to Teacher Education and EDUC 2010.

**Suggested Requisite(s):** Should be taken with other courses in Level 1.

**EDUC 3280 - Elementary Social Studies Methods**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course focuses on the place of social studies in the elementary school curriculum, the scope and rationale of the social studies curriculum, connections with other subject areas, teaching and assessment strategies, and building classroom community.

**Pre-requisite(s):** Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.

**Suggested Requisite(s):** This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935.

**EDUC 3300 - Introduction to International Education: Case Studies**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course focuses on how to create media to support and apply research-based principles for learning into the educational environments. The course content provides teacher licensure candidates with technology proficiencies for integrating technology into teaching.

**Pre-requisite(s):** Admission to Teacher Education. Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

**Suggested Requisite(s):** This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935.

**EDUC 3370 - Advanced Instructional Technology**

**Credits:** (2)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course allows students to apply existing technology literacy into educational environments to promote advanced use of educational technology in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-6 settings. The course focuses on providing teacher licensure candidates with advanced technology proficiencies for teaching with technology.

**Pre-requisite(s):** Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

**EDUC 3371 - Assistive Technology**

**Credits:** (1)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:**
This course provides students with an understanding of the use of assistive technology for students with disabilities. Students will learn to assess student assistive technology needs, identify assistive technology used to provide students access to educational opportunities, and application of assistive technology in instructional programs, career tasks, and life skills for individuals with disabilities.

**EDUC 3375 - Foundations of Dual Immersion or Immersion Education**

**Credits:** (3)
**Description:** The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

**EDUC 3390 - Literacy in the Primary Grades**

**Credits:** (2)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Analysis of developmental reading skills with emphasis on readiness for reading, phonic and structural analysis, word recognition, use of the basal reader, and reading for various purposes.

**EDUC 3430 - Creative Processes in the Elementary School**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $15.00
**Course Fee Purpose:** A $15 fee is associated with this course. A ukulele will be available for you to borrow during the semester. Art supplies for projects completed in the classroom will be supplied.
**Description:** This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories that support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

**EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers**

**Credits:** (2)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course is designed to teach teacher candidates validated classroom management strategies and level one behavioral intervention strategies. This course focuses on techniques and methods for preventative classroom student management. The course will assist candidates in writing effective classroom management plans. Candidates will be introduced to the process of Functional Behavior Assessments and Behavior Intervention Plans.
**Pre-requisite(s):** Completion of Education Level 1 courses with a grade of B- or better.

**EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course is designed to teach pre-service teachers validated accommodations and supports for K-12 students with disabilities struggling in English Language Arts (ELA) and/or Math in inclusive settings, specifically focusing on reading, writing, speaking, listening, language, and math.
**Pre-requisite(s):** MATH 2010, successful completion of Education Level 1.

**EDUC 3590 - Working with Students with ELA or Math Disabilities in Resource Settings**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course is designed to teach pre-service teachers validated evaluation and remediation strategies for K-12 students with disabilities in English Language Arts and/or math, focusing on identifying deficits and designing and disseminating evidence-based remediation plans.
**Pre-requisite(s):** MATH 2020, successful completion of Level 2

**EDUC 3900 - Preparing, Teaching, and Assessing Instruction**

1420
EDUC 3910 INT - Secondary Education Practicum

Credits: (2)
Course Fee: $10.00
Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation-supervision of the students.
Description: The purpose of this practicum is to provide students with opportunities to design and implement content-specific instruction at the secondary level. Students are required to spend at least 40 hours in an assigned classroom.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3315, EDUC 3265, EDUC 3910, and EDUC 3935.

EDUC 3935 - Reading and Writing Across the Secondary Curriculum

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will focus on assessment of reading comprehension of students, and decisions teachers make concerning methods, materials and procedures based on those assessments. Teacher candidates will integrate literacy skills (vocabulary, study skills, comprehension development and writing) within their respective content areas and teach sample lessons to secondary students.
Pre-requisite(s): Admission to Teacher Education.
Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910.

EDUC 4210 INT - Elementary Level III Practicum

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Course fees are used to pay for mileage of supervisors.
Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on instruction of core subjects including language arts, mathematics, science, and social studies. Students are required to spend at least 60 hours in an assigned classroom.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4300, EDUC 4320, EDUC 4330.

EDUC 4250 - Second Language Acquisition: Theories and Implementation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

EDUC 4270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

EDUC 4300 - Elementary Mathematics Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.
Description: This course includes the study of mathematics methods appropriate for elementary school curriculum with specific emphasis on developmental strategies including the concrete-representational-abstract instructional model. Connections to other subject areas, problem solving, critical thinking skills and real-life situations are stressed.
Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4320, EDUC 4330.

EDUC 4310 - Foundations of Cooperative Learning

Credits: (2)
Description: This course examines the rational, principles, skills and interaction strategies necessary before implementing Cooperative Learning in the classroom. Emphasis will be upon the basic components of Cooperative Learning, team building, and simple teamwork. Methods and strategies will be demonstrated and will involve active student group participation.

EDUC 4320 - Elementary Language Arts Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on methods for language arts instruction in the elementary setting with specific emphasis on writing strategies. Particular emphasis is given to models of research-based instruction of core curriculum in language art.
Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4320, EDUC 4330.

EDUC 4330 - Elementary Science Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: Course fees are used to purchase items used in science demonstrations and labs.
Description: This course focuses on methods and materials for teaching hands-on guided discovery science with an emphasis on concepts included in the Utah core curriculum.
Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320.

EDUC 4345 - Elementary Integrated Arts Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: A fifteen dollar fee is associated with this course in order to replenish equipment and supplies. Art and other supplies are required for some assignments and meetings. If you are completing portions of the course remotely, you may need to purchase some supplies, or you can come to campus to pick up anything that is needed (by appointment).
Description: This course is designed to prepare students to successfully teach art and music in the elementary classroom. Students are expected to design, prepare and teach lessons to engage elementary students in art and music activities. May include field experiences that involve travel to local schools or other relevant destinations.
Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 1 courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3210, EDUC 3240, PEP 3620.

EDUC 4350 - Elementary Mathematics Pedagogy

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $3.00
Course Fee Purpose: This course has a fee that covers the purchase and replacement of mathematics manipulatives used by students.
Description: This course will focus on the study of
appropriate mathematics teaching methods for the Utah core curriculum. Emphasis will be on teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations. Students will practice teaching mathematics using content from the K-8 Utah Mathematics Core.

**Pre-requisite(s):** EDUC 3230.

**EDUC 4380A - Student Teaching in Elementary Education**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $100.00  
**Course Fee Purpose:** The course fee pays for student teaching supervisor visits.  
**Description:** Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.  
**Pre-requisite(s):** EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.  
**Suggested Requisite(s):** Should be taken concurrently with EDUC 4950 the first time.

**EDUC 4380B - Student Teaching in Elementary Education**

**Credits:** (4)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Course Fee:** $175.00  
**Course Fee Purpose:** The course fee pays for student teaching supervisor visits.  
**Description:** Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.  
**Pre-requisite(s):** EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.  
**Suggested Requisite(s):** Should be taken concurrently with EDUC 4950 the first time.

**EDUC 4400 - International Education Experiences: Study Abroad**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This is a study abroad course led by two faculty members from Moyes College of Education. The class will visit various kinds of schools, interview teachers, students and parents, as well as study the socio-cultural contexts of a certain country or region. We expect the learning to occur during the lectures conducted by WSU faculty, the observations of the classes in the schools, visits to the schools and other educational/cultural sites, communications between students and school teachers and administrators in a certain country, as well as reflection sessions led by WSU faculty. The country covered by this course may change from year to year. Examples of countries include Nordic countries (Finland, Sweden, and Estonia) or selected South Asian countries (Singapore and Vietnam).

**EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment**

**Credits:** (3)  
**Description:** Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

**EDUC 4420 - Foundations of Education of the Gifted**

**Credits:** (2)  
**Description:** An overview of education for the gifted and talented; historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum, and educational program options; special populations of gifted students.  
**Note:** This course is not currently offered.

**EDUC 4450 - Creativity and Applied Imagination in the K-12 Classroom**

**Credits:** (2)  
**Description:** Exploration and development of readily available personal and community resources to encourage creative thinking, classroom involvement, and transfer of learning.  
**Note:** This course is not currently offered.

**EDUC 4470 - Teaching for Thinking**
EDUC 4480 - Differentiated Curriculum for the Gifted and Talented

Credits: (3)
Description: Curriculum theories and educational strategies for educating gifted and talented students. A practical course, with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.

Note: This course is not currently offered.

EDUC 4490 - Assessment and Evaluation in Education of the Gifted

Credits: (3)
Description: Principles of assessment applied to: identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.

Note: This course is not currently offered.

EDUC 4510 - Foundations in Special Education Practice and Law

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will introduce students to the philosophical, historical, legal and ethical foundations of special education. Students will examine in depth the characteristics of exceptional learners.
Pre-requisite(s): Admission to Teacher Education, EDUC 2010.

EDUC 4515 - IEP Planning and Special Education Law

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: This course provides students with a broad knowledge and understanding of a wide range of legal issues concerning the provision of special education services to students with disabilities. A review of pertinent legislation concerning human and constitutional rights related to persons with disabilities will be addressed. Teachers' specific responsibilities and liabilities are described and related to current requirements for development of appropriate educational programs.
Pre-requisite(s): Completion of Special Education Level 2 courses with a grade of B- or better.

EDUC 4520 - Collaboration, Consultation, and IEP Development

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities and techniques of collaboration and consultation.
Pre-requisite(s): Admission to Teacher Education.

EDUC 4521 - Practicum in Special Education A

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: Mileage fee for supervision
Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality inclusion strategies while working with students in special education. Teacher candidates are required to spend at least 60 hours in an assigned classroom.
Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

EDUC 4530 - Principles and Applications of Special Education Assessment

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: This course is designed to provide students with knowledge of the basic terminology of test measurements, criterion referenced assessments, curriculum based assessments and data collection. The fees in this course are used for purchasing assessment instruments used in schools.
Description: Administer, score, and interpret norm-referenced assessments instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational
programs. Requires passing Block 1 with a B- or better.

**Suggested Requisite(s):** This course is part of Special Education Block 3 courses and should be taken with EDUC 4545, EDUC 4580.

**EDUC 4535 - Strategic Plan for Disability**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:**
This course is designed to instruct students in methods to successfully facilitate the inclusion of students with disabilities in the general education classroom. Strategies will be given for how to initiate, grow, and sustain, effective collaborative educational environments, utilize specifically designed instruction, and develop targeted accommodations and modifications that can be efficiently delivered in general education environments to create meaningful access for students with disabilities.

**Pre-requisite(s):** Completion of Education Level 1 courses with a grade of B- or better.

**EDUC 4540 - Managing Student Behavior**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:**
Current issues, practices, and application of a variety of approaches for behavior change, discipline and management of the classroom environment, and the teaching of appropriate social skills.

**Suggested Requisite(s):** This course is part of Special Education Block 1 courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4550, EDUC 4560.

**EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:**
This course is designed to teach teacher candidates validated individual behavioral intervention strategies, particularly those designed to meet the needs of students with severe behavioral and social skill deficits. This course will address the needs of those candidates using Applied Behavior Analysis. Candidates will conduct functional assessments and write and implement a function-based behavior intervention plan.

**Pre-requisite(s):** Completion of Education Level 2 courses with a grade of B- or better.

**EDUC 4550 - Instructional Planning and Learning Environments for Special Education Students**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:**
Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.

**Pre-requisite(s):** Admission to Teacher Education.

**Suggested Requisite(s):** This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3205, EDUC 3270.

**EDUC 4555 - Validated Instructional Methods: Reading**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:**
This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

**Pre-requisite(s):** Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.

**Suggested Requisite(s):** This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4570, EDUC 4580, EDUC 4581.

**EDUC 4560 - Validated Instructional Methods: Mathematics**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:**
This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

**Pre-requisite(s):** Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

**Suggested Requisite(s):** This course is part of Special Education Block 2 Integrated Methods courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4540, EDUC 4550.
EDUC 4570 - Validated Instructional Methods: Written Expression

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.
Pre-requisite(s): EDUC 4530.
Co-Requisite(s): EDUC 4581.
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4570, EDUC 4580.

EDUC 4580 - Instructional and Transition Planning for Special Education Students

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $7.00
Course Fee Purpose: The course fees in this course will be used to buy consumable assessment protocols and to purchase non-consumable assessment kits as new versions are made available.
Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.
Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 4581 - Pre-Student Teaching in Special Education: Assessment, Behavior Management, Instruction

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of Pre-Student Teaching is to continue field experience in a supportive and professional manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the Cooperating Teacher and the Course Instructor. This course is designed to provide students with practical experiences in the areas of: a) literacy curriculum and instruction for students K-12, and (b) planning and developing post-secondary transition plans. Practical experience in assessment and behavior management are continued.
Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.
Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4570, EDUC 4580.

EDUC 4582 INT - Practicum in Special Education B

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Mileage fee for supervision
Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality instruction while working in special education and/or general education classrooms.
Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

EDUC 4640 - Validated Instructional Methods: Mathematics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

EDUC 4650 - Validated Instructional Methods: Reading

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

EDUC 4660 - Validated Instructional Methods: Written Expression

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

EDUC 4670A - Special Education Student Teaching

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4670B - Special Education Student Teaching

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $175.00
Course Fee Purpose: The course fee pays for student teaching supervisor visits.
Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.
Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4680A INT - Special Education Student Teaching

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Supervision stipend and mileage reimbursement.
Description: Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of Special Education levels 1-3 with B- or above.
Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4680B INT - Special Education Student Teaching

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $400.00
Course Fee Purpose: Supervisor stipend and mileage reimbursement (remote location).
Description: Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.
Pre-requisite(s): Successful completion of Special Education levels 1-3 with B- or above.
Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4685 - Special Education Student Teaching Seminar and Synthesis

Credits: (1)
Description: The Seminar and Synthesis will support student teaching through regular meetings.
Pre-requisite(s): Successful completion of Special Education Licensure requirements.
Co-Requisite(s): Must be taken concurrently with EDUC 4670A.
Note: This course is available to non-majors.

EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The Seminar and Synthesis will support student teaching through regular meetings on campus.
Pre-requisite(s): SPED Levels 1-3 and approval by student teaching director.
EDUC 4700 - Learning in the Schools

Credits: (2)
Description: Principles of learning and management and their application to the school situation.
Pre-requisite(s): Student teaching.

EDUC 4740 - Building School Partnerships with ESL/Bilingual Families

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course prepares students to be advocates and practitioners of family involvement in education. Goals and benefits of family involvement will be explored along with specific strategies for developing a partnership within the education system. Components of family structure, economics, cultural diversity, second-language learners, communication skills and resources are integrated into the student experience.

EDUC 4820E - Managing Diverse Classrooms

Credits: (3)
Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.
Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).
Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4840A, EDUC 4860).
Note: This course is not currently offered.

EDUC 4820S - Managing Diverse Classrooms

Credits: (3)
Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3900, and EDUC 3935).
Note: This course is not currently offered.

EDUC 4830 - Individually Prescribed Program

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed primarily for individual needs. May be repeated up to 6 credit hours.

EDUC 4840A INT - Student Teaching in Elementary Education

Credits: (8)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Student teaching supervision stipend and mileage.
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): EDUC Levels 1-3 and permission of the Field Experience Director.
Suggested Requisite(s): Should be taken concurrently with EDUC 4850.

EDUC 4840B INT - Student Teaching in Elementary Education

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $350.00
Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): EDUC Levels 1-3 and permission of the Field Experience Director.
Co-Requisite(s): Should be taken concurrently with EDUC 4850.

EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** This course will help prepare teacher candidates for student teaching and ultimately licensure with two different types of activities. First, are weekly, 3-hour collaboration and topical seminars emphasizing ongoing discussions and support on classroom management, preparing the TWS and INTASC portfolio, creating your career file, and other education issues. Second, is a two-day workshop to synthesize the semester and have your INTASC portfolio assessed.

**Pre-requisite(s):** Satisfactory completion of Levels 1-3.

**Suggested Requisite(s):** Should be taken concurrently with EDUC 4840A/B

**EDUC 4860 - Elementary Senior Synthesis Seminar**

**Credits:** (1)

**Description:** Synthesis of the TREC model for elementary programs with specific emphasis on beginning a professional career in teaching. Senior project is required. To be taken for CR/NC only.

**Pre-requisite(s):** Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).

**Suggested Requisite(s):** Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4820E, EDUC 4840A).

Note: This course is not currently offered.

**EDUC 4870 - Directed Experiences with Students**

**Credits:** (1)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Directed experiences with elementary and secondary school students in cooperating schools. Students may register for one unit of credit per semester for a maximum of three semester hours.

**EDUC 4890 INT - Cooperative Work Experience**

**Credits:** (1-6)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** For students accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/background check must be completed prior to working in the schools.

May be repeated up to 6 credit hours.

**EDUC 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**Note:** Available on CR/NC basis.

**EDUC 4930A - Student Teaching in Secondary Education**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $100.00

**Course Fee Purpose:** Stipend and mileage for instructor supervision.

**Description:** Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.

**Pre-requisite(s):** Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.

**Suggested Requisite(s):** Should be taken concurrently with EDUC 4950 the first time.

**EDUC 4930B - Student Teaching in Secondary Education**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $175.00

**Course Fee Purpose:** Stipend and mileage for instructor supervision.

**Description:** Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.

**Pre-requisite(s):** Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.

**Suggested Requisite(s):** Should be taken concurrently with EDUC 4950 the first time.
EDUC 4940A INT - Student Teaching in Secondary Education

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision.
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with Student Teaching in Secondary Education (EDUC 4930A or EDUC 4940A).

EDUC 4940B INT - Student Teaching in Secondary Education

Credits: (8)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $350.00
Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).
Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.
Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).
Suggested Requisite(s): Should be taken concurrently with EDUC 4950 Integrated Secondary Student Teaching Seminar.

EDUC 4950 - Integrated Secondary Student Teaching Seminar

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation and support for secondary clinical practice. Collaborative and topical seminars will emphasize on-going discussions and support on classroom management, ethics, preparing the TWS and INTASC portfolio, creating a career file, and secondary school issues.
Pre-requisite(s): Completion of Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

EDUC 4960 - Secondary Senior Synthesis Seminar

Credits: (1)
Description: Synthesis of the TREC Model for elementary and secondary programs with specific emphasis on beginning a professional career in teaching. Senior Project is required.
Suggested Requisite(s): Should be taken concurrently with EDUC 4820S and EDUC 4840A.
Note: This course is not currently offered.

EDUC 5050 - Action Research in the Classroom

Credits: (2)
Description: Students will explore effective classroom-based research techniques, complete a classroom-based case study, and promote the ongoing application of research to the improvement of teaching practice. This course is designed for cooperating teachers in the site-based teacher education program, and is graded CR/NC.
Note: This course is offered as needed.

EDUC 5060 - Effective Mentoring in the Classroom

Credits: (2)
Description: Course covers strategies for effectively mentoring student teachers and novice teachers by expert teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.
Note: This course is offered as needed.

EDUC 5110 - Advanced Multicultural/Bilingual Education

Credits: (3)
Description: Provides a knowledge base concerning the curricular issues and need for multicultural education, and explores various curriculum models and approaches for successful implementation of multicultural education across the curriculum.

EDUC 5120 - Culture and Language
EDUC 5320 - Reading in the Content Areas
Credits: (3)
Description: Examines the effects and impact of historical, political, social, and economic issues which affect teaching and learning for students from diverse cultural and ethnic groups.

EDUC 5330 - Using Children's Literature in the Classroom
Credits: (2)
Description: This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

EDUC 5340 - Assessment and Corrective Procedures in Reading
Credits: (3)
Description: Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

EDUC 5360 - Literacy in the Elementary School
Credits: (3)
Description: An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

EDUC 5770 INT - Field Experience in ESL/Bilingual Education
Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will gain experience in teaching and working with ESL/bilingual students and apply what they have learned from relevant courses.

EDUC 5920 - Short Courses, Workshops, Institutes, and Special Programs
Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offerings under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: Available on CR/NC basis.

EDUC 5920G - Short Courses, Workshops, Institutes, and Special Programs
Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated up to 18 credit hours. Note: Available on CR/NC basis. For graduate students.

EDUC 6020 - Diversity in Education
Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course is designed to integrate classical and contemporary education theory and practice as a way to understand the nature and scope of how equity manifests itself in an ever-changing society. Students will apply their understanding of equity in education as they critically reflect, empirically investigate, and apply their knowledge as skillful transformative educational leaders.

EDUC 6050 - Curriculum Design, Evaluation & Assessment
Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: An overview of the theories of curriculum development as well as a practical appraisal of curriculum design, implementation, evaluation and assessment.

EDUC 6060 - Instructional Strategies
EDUC 6110 - Introduction to Classroom Management

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course serves as an introduction to classroom management for those who have not had classroom experience or have been hired by a school district on a "letter of authorization," (hired without a license). The focus will be on current issues, methodology, and application of a variety of approaches for behavior change, discipline, and management of diverse learners in the context of classroom environments. Classroom management as a function of good teaching will be examined.

Note: This course or MED 6120 is required for licensure.

EDUC 6229 - Instructional Technology for Pre-service Teachers

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course allows students to apply existing technology literacy into educational environments to promote use of technology for teaching and instructional support in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years.

EDUC 6250 - Inclusive Early Childhood Intervention and Special Education

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online

Description: Students will explore and apply current theory and practice in critical special education, Disability Studies in Education, and infant and child mental health for supporting young children (birth-age 8) with disabilities by supporting caregiver-child relationships in family, early childhood community and classroom environments. Students will gain an understanding of applicable history, laws and policies around inclusive education and special education service provision to effectively and equitably collaborate with children, families, and service providers in public and private settings in ways that sustain the rights and cultures of individual children and families, and of disability communities.

EDUC 6265 - Foundations of Inclusive Teaching

Credits: (2)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Spring Semester: Full Sem

Description: This course, designed for non-special education teacher candidates, will introduce candidates to the legal, philosophical, historical, and ethical foundations of special education. An emphasis is placed on strategies and methods for instructing students with exceptionalities in the general education setting and the expanded roles and responsibilities of school personnel for providing appropriate educational experiences for all students.

Pre-requisite(s): Admission to the masters of education program.

EDUC 6311 - Content Instruction in the Elementary School: Science

Credits: (2)
Typically Taught Summer Semester: 1st Blk

Description: Explores new concepts in curriculum and methods of science instruction in the elementary schools.

Note: This course is required for elementary licensure.

EDUC 6312 - Content Instruction in the Elementary School: Mathematics

Credits: (2)

Description: Explores new concepts in curriculum and methods of mathematics instruction in the elementary schools.

Note: This course is required for elementary licensure.
EDUC 6313 - Content Instruction in the Elementary School: Social Studies

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Explores new concepts in curriculum and methods of social studies instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6314 - Reading Instruction in Elementary Schools

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An exploration of current research theories and their pedagogical implications related to teaching vocabulary, reading comprehension, fluency, phonics, and phonemic awareness in elementary school classrooms. The course will focus on the science of reading as defined by the Utah State Board of Education.
Note: This course is required for elementary licensure.

EDUC 6316 - Language Arts Instruction in Elementary Schools

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: Students will explore theory, instructional methodology, and activities for supporting students in developing expertise in the essential skills of communication: listening, speaking, reading, writing, viewing, and visually representing.
Note: This course is required for elementary licensure.

EDUC 6317 - Arts Integration for Elementary Teachers

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Description: This course is designed to prepare students to successfully teach the arts in the elementary classroom. Students are expected to design, prepare, and teach lessons to engage elementary students in arts and music activities. State curriculum guidelines will be reviewed and discussed.

EDUC 6320 - Content Area Literacy Instruction

Credits: (3)
Typically Taught Summer Semester: Online odd years
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.
Note: This course is required for secondary licensure.

EDUC 6500 - Curriculum Planning and Evaluation for Special Education Students

Credits: (3)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Effective teaching methods, instructional programming and modification of curriculum for students with disabilities. A direct instruction model is emphasized.

EDUC 6515 - Foundations in Special Education: Law and Practice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will introduce students to the philosophical, historical, legal, and ethical foundations of special education. Students will examine in depth the laws and practices related to special education and how those laws are influencing children with special needs today. Students will also learn about individuals with special needs as they are identified and served in our school system.

EDUC 6529 - Assistive Technology

Credits: (2)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course provides students with the knowledge and skills needed to successfully determine the assistive technology needs of students with disabilities. The curriculum is based on the Utah Effective Teaching standards addressing technology and CEC standards for teacher preparation.
EDUC 6530 - Principles and Applications of Special Education Assessment

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Administer, score, and interpret norm-referenced assessment instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs.

EDUC 6540 - Advanced Managing Student Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will address current issues, practices, and application of a variety of approaches for behavior change. It is designed to teach students validated classroom management strategies, behavioral intervention strategies and techniques for use with students who have behavioral and social skill deficits. The primary goal of this course is for each student to conduct a functional assessment and implement and evaluate a behavior intervention plan.

EDUC 6565 - Advanced Instructional Methods and Practices: English Language Arts

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to prepare teacher candidates to teach English Language Arts to elementary and secondary students. Teacher candidates learn to identify reading and writing difficulties, using evidence-based interventions. They will also learn how to implement effective instruction, using data-based instructional decision model to monitor students' ELA progress. This course is to be taken concurrently with MED 6860 Practicum in Education.
Co-Requisite(s): EDUC 6860.

EDUC 6575 - Advanced Instructional Methods and Practices: Mathematics

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to prepare teacher candidates to teach mathematics to Tier 2 and 3 students in elementary and secondary classrooms. Teacher candidates will acquire a set of skills that will enable them to determine what math concepts to teach to pupils and effective instructional methods to aid in the teaching of these concepts. This course is to be taken concurrently with MED 6860 Practicum in Education.
Co-Requisite(s): EDUC 6860.

EDUC 6580 - Advanced Learning Strategies and Transition for Special Education Students

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Effective teaching methods, strategies, and practices for secondary age level students with disabilities. A cognitive learning strategies approach is emphasized.

EDUC 6860 INT - Practicum in Education

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Mileage fees for supervision
Description: Practical synthesis and application of knowledge and skills gained in previous education courses. Students must have approval from the program director, and should follow specific graduate certificate in teaching program guidelines for prerequisites and other requirements. This course does not grant credit towards the MED degree, but is required for a teaching license in the state of Utah.

EDUC 6870 INT - Student Teaching and Seminar in Elementary Education

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision
Description: The student teaching experience is the culminating learning experience for the elementary licensure graduate certificate. Students must apply for student teaching the semester prior to registration. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED
degree but is required for a teaching license in the state of Utah.

EDUC 6880 INT - Student Teaching and Seminar in Secondary Education

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $200.00
Course Fee Purpose: Stipend and mileage for instructor supervision
Description: The student teaching experience is the culminating learning experience for the elementary licensure graduate certificate. Students must apply for student teaching the semester prior to registration. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

EDUC 6890 INT - Student Teaching and Seminar in Special Education

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $150.00
Course Fee Purpose: Supervision stipend and mileage fees
Description: The student teaching experience is the culminating learning experience for the special education licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

Pre-requisite(s): EDUC 6860.

EDUC 6920 - Workshop

Credits: (1-6)
Description: In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript. May be repeated 4 times for 6 credits.

EEN 1200 - Introduction to Energy Engineering

Credits: (2)
Description: Introduction to the field of energy engineering. Energy sources, electrical power generation, renewable and non-renewable energy, environmental and economic issues, the energy future.
Pre-requisite(s): ENGR 1000 and PHYS 2210.

EEN 2600 - Engineering Economics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Emphasizes the systematic evaluation of the costs and benefits of engineering solutions. Topics include equivalence, simple and compound interest, cash flow diagrams, present worth, equivalent uniform annual worth, rate of return, payback period, depreciation, income taxes, and inflation.
Pre-requisite(s): MATH 1050 or equivalent placement.

EEN 3000 - Design, Ethics & Entrepreneurship

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Fundamentals of the engineering design process. Design modeling, simulation, documentation and communication. Engineering ethics and entrepreneurship.
Pre-requisite(s): EEN 1200.

EEN 3200 - Sustainable Energy

Credits: (3)
Description: Introduction to sustainable energy. Energy conservation and efficiency. Renewable energy systems and energy storage. Economic, societal and environmental aspects of sustainable energy.
Pre-requisite(s): EEN 1200.
EEN 4100 - Senior Project I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An energy engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.
Pre-requisite(s): Departmental permission.

EEN 4200 - Senior Project II

Credits: (3)
Description: Continuation of EEN 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.
Pre-requisite(s): EEN 4100.

EEN 4300 - Energy Auditing

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to energy auditing of buildings and industrial processes. Energy assessment, conservation, efficiency, and cost analysis of energy systems.
Pre-requisite(s): EEN 2600 and ME 4000.

EEN 4420 - Renewable Energy Systems Design I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to renewable energy systems. In-depth coverage of the analysis and design of solar and wind energy systems.
Pre-requisite(s): EEN 3200 and ME 4000.

EEN 4430 SUS - Renewable Energy Systems Design II

Credits: (3)
Description: Follow-on course to EEN 4420. Analysis and design of hydroelectric, geothermal, marine, and biomass energy systems. Environmental and economic impacts of these renewable energy technologies.
Pre-requisite(s): EEN 4420.

EEN 4440 - Introduction to Energy Systems

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introduction to systems engineering as applied to the energy industry. Systems definition, attributes and properties. Command and control, mission modeling, verification and validation, documentation.
Pre-requisite(s): EEN 3000.

EEN 4450 - Electric Vehicles Engineering

Credits: (3)
Description: Introduction to electric and hybrid-electric vehicles. Alternative fuels, powertrains, battery technologies, vehicle dynamics, propulsion, energy management, braking and controls.
Pre-requisite(s): EEN 3200.

EEN 4460 - Energy Management

Credits: (3)
Description: Energy management design, utility rates, economic analyses, mechanical and electrical systems, safety, green technologies and sustainability.
Pre-requisite(s): EEN 3000.

EEN 4470 SUS - Energy and Environmental Issues

Credits: (3)
Description: Environmental impacts of energy systems, fossil fuels, renewable and green technologies, nuclear energy, energy conservation and climate change.
Pre-requisite(s): EEN 3200.

EEN 4480 - Energy and Legal Issues
Credits: (3)
Description: Legal issues of energy systems, regulations, case law pertaining to development and implementation of energy systems, climate change, political influences.
Pre-requisite(s): EEN 3000.

**EET 1110 - Basic Electronics**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to the concepts and fundamentals of electronic devices, circuits and systems. An electronics overview course for technology majors. Topics include direct current electricity, alternating current electricity, transistors and integrated circuits, amplifiers and oscillators, transmitters and receivers, digital logic circuits, electronic memory, and computers.
Pre-requisite(s): Credit for or concurrent enrollment in MATH 1010 or higher.

**EET 1130 - Digital Systems**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, programmable logic devices, and computer architecture. Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.
Pre-requisite/Co-requisite: Prerequisite: Credit for or concurrent enrollment in MATH 1010 or equivalent or any higher math.

**EET 1140 - DC Circuits**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to DC circuit fundamentals, analysis, theorems, laws, components, measuring devices, and equipment. The introduction and use of measuring instruments and power supplies. Lecture and lab combination. Laboratory activities to include circuit design, construction, and analysis of DC circuits.
Pre-requisite/Co-requisite: Prerequisite: EET 1110 and credit for or concurrent enrollment in MATH 1060 or MATH 1080 or any higher math.

**EET 1850 - Industrial Electronics**

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Industrial electronics course for Mechanical and Manufacturing Engineering Technology majors. Introduction to DC and AC circuits, machines, and power systems. Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of DC/AC circuits and machinery.
Pre-requisite(s): MATH 1010 or equivalent or any higher math.

**EET 2010 - AC Circuits**

Credits: (3)
Description: The course serves as an extension of circuit analysis methods taught in EET 1140 to AC networks. The introduction of complex numbers and phasor notation at the beginning of the course is followed by AC circuit analysis techniques and the determination of the frequency response for passive AC networks. The course is a combination of lecture and laboratory formats. Laboratory activities will include the design, computer simulation, validation and analysis of AC circuits.
Pre-requisite(s): EET 1140 and credit for MATH 1060 or MATH 1080.

**EET 2110 - Semiconductor Circuits**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to the design and analysis of semiconductor circuits using diodes, transistors, op-amps, field effect devices, thyristors, and regulators. Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and
analysis of semiconductor circuits, amplifiers and power supplies.
Pre-requisite(s): EET 1130, EET 1140, MATH 1060 or higher.

EET 2120 - Power and Motors

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to AC and DC motors, relays, transformers, power measurements, National Electrical Code, ladder logic, wiring, and programmable logic controllers (PLCs).
Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of basic power circuits and machinery configurations.
Pre-requisite(s): EET 1140, MATH 1060 or higher.

EET 2130 - PC Board Design

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to the design of printed circuit boards and packaging with emphasis on the design, simulation, analysis and packaging of circuits.
Lecture and lab combination. Laboratory activities include the design, construction, and testing of prototype circuit boards. CAD programs will be used for the design and layout of circuit boards.
Pre-requisite(s): EET 2110.

EET 2140 - Communications Systems

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to digital and wireless communication circuits. Topics to include radio frequency circuits, modulation, detection, transmitters, receivers, transmission lines, antennas, and measurement instruments. Digital communications topics to include parallel and serial data transmission.
Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of communication circuits.
Pre-requisite(s): EET 2110.

EET 2150 - Embedded Controllers

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: A study of microprocessors, embedded controllers, operational characteristics, computer architecture, machine code programming, memory devices, and interfacing.
Lecture and lab combination. Laboratory activities include the design, construction, and analysis of microprocessor based systems. Analysis techniques include the use of assemblers, cross-assemblers, and emulators.
Pre-requisite(s): Credit for or Current Enrollment in EET 2110.

EET 2160 - Troubleshooting

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to troubleshooting techniques and skills. Topics include the use of diagnostic electronic test equipment such as multi-meters, power supplies, signal generators, digital storage oscilloscopes, and spectrum analyzers. Students will diagnose and repair electronic circuits and systems.
Lecture and laboratory combination.
Pre-requisite(s): EET 2110, EET 2120, EET 2170.

EET 2170 - Industrial Controls

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $100.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to industrial control systems for manufacturing and automated test applications. The course will focus on LabVIEW control systems and Programmable Logic Controllers (PLCs). Students will configure, program, and troubleshoot industrial control systems.
Lecture and lab combination.
Pre-requisite(s): EET 1130, EET 1140.
EET 2180 - Solar PV Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is for each student to learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. This course discusses the limitation and the impacts of using fossil fuel energy and its possible impact on global climate change. Solar energy can provide a long term solution and minimize climate change. This course will enable students to build an essential foundation towards how to design the solar PV systems for various applications. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.
Pre-requisite(s): EET 1140 or EET 1850.

EET 2190 - Solar PV Technical Assessments

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is to educate each student how to be a solar electric professional with demonstrated expertise in the siting, design, analysis and performance of PV systems from site specific information, analyzes customer needs and energy usage for the purpose of advising and providing customers with the most appropriate solution for their situation. Each student will also learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components and configurations, grid-tied and battery-based systems, load analysis, qualifying the customer, site analysis, conceptual PV system design, financial costs, incentives and savings, financial benefit analysis and financing, non-financial benefit analysis, performance analysis, prepare proposals, and professional sales skills. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.
Pre-requisite(s): EET 1140 or EET 1850.

EET 3010 - Circuit Analysis

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Advanced calculus-based topics related to electronic circuit analysis, Laplace transforms, differential equations, Fourier series, Fourier transforms, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.
Pre-requisite(s): EET 2110, EET 2140, Credit for or Current Enrollment in in MATH 1210.

EET 3020 - Active Filters

Credits: (4)
Course Fee: $50.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Continuation of Circuit Analysis, EET 3010. Topics include active and passive filters, Pole-zero analysis, stability, Bode diagrams, frequency response, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.
Pre-requisite(s): EET 3010.

EET 3030 - FPGA and ASIC Design

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to field programmable gate arrays (FPGA) and application specific integrated circuit (ASIC) design. Lecture and lab combination. Laboratory activities to include the use of computer design tools to design, model, simulate, and program gate arrays and application specific integrated circuits.
Pre-requisite(s): EET 2150.

EET 3040 - Instrumentation and Measurements
Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to electronic data acquisition, data analysis, error analysis, signal measurement, and automatic testing techniques. Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of measurement circuits, data acquisition circuits, instrumentation devices, and automatic testing.
Pre-requisite(s): EET 2110, EET 2170.

EET 3050 - Microprocessor Systems

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Microprocessor system development using modern software design principles and high level programming languages. Topics include peripheral interfacing, real-time operating systems and debugging techniques. Lecture and lab combination. Laboratory activities to include design, simulation, computer programming, analysis, and troubleshooting.
Pre-requisite(s): EET 2150 and either CS 1410 or CS 2250.

EET 3060 - Real-Time Embedded Controllers

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: An introduction to real-time kernels and operating systems. Priority-based pre-emptive scheduling, intertask communication, and intertask synchronization will be studied. Other topics include priority inversions, semaphores, mutexes, context switches, rate monotonic analysis (RMA), various kernal services, finite state machines, and nested state machines.
Pre-requisite(s): EET 2150.

EET 3070 - Engineering Technology Research

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Engineering problem solving using the Internet, professional journals, and human networking. Three styles of writing emphasized; technical descriptions, historical perspectives of technology, and technical defensible arguments.
Pre-requisite(s): AAS degree in CET or EET.

EET 3080 - Embedded Networks

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: This course provides an in-depth study of several serial communication standards and how to implement them in embedded systems. The standards addressed in this class include RS232, RS485, Controller Area Network (CAN), and Ethernet. Emphasis will be placed on utilizing the stacks and protocols for each standard. The channel bandwidth, noise, and data error rate will be addressed. Wireless methods of serial communication will be surveyed.
Pre-requisite(s): EET 2150.

EET 3090 - Project Management

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: EET 3090 Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management.
Pre-requisite(s): EET 1110, and EET 1140, and EET 2010.

EET 3100 - Renewable Energy

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of the EET 3100 Renewable Energy course is for each student to learn the fundamental
knowledge and technology of various types of renewable energy including solar energy, wind power, hydroelectric, geothermal energy, biomass and ocean energy. This course discusses the limitations and the impacts of using fossil fuel energy and its possible impact on global climate change. This course will enable students to build an essential foundation towards the specific applications of renewable energy such as solar PV (Photovoltaic) systems, wind turbine systems and micro-hydro systems. Incentives, rebates and policies from federal, state and local power companies will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in the area of renewable energy.

Pre-requisite(s): EET 1110 or EET 1850.

EET 3180 - Advanced Solar PV Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The purpose of this course is for each student to learn the advanced knowledge and technology of solar PV (Photovoltaic) systems. This course will enable students to verify system design, manage project, install electrical and mechanical components, complete system installation, and conduct maintenance and troubleshooting. The topics in this course includes PV markets and applications, safety requirements, the advanced technology of solar PV systems, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting, and CAD software for PV system design. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.
Pre-requisite(s): EET 2180.

EET 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

EET 4010 - Senior Project I

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.
Pre-requisite(s): EET 3090.

EET 4020 - Senior Project II

Credits: (2)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: A continuation of EET 4010 Senior Project I. Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.
Pre-requisite(s): EET 4010.

EET 4030 - Controls & Systems

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.
Description: Introduction to automatic control theory, analysis, and testing, pole, zero, Bode plots, and frequency response. The design and application of programmable controllers using ladder logic, sequential functions charts, PID, and data highway. Lecture and lab combination. Laboratory activities to include computer simulation, servo-system construction, and analysis.
Pre-requisite(s): EET 3010, MATH 1210, PHYS 2210.

EET 4040 - Signals and Systems
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to digital signal processing, digital filters, discrete and fast Fourier transforms, quantization, introduction to adaptive filters, industrial applications, and DSP hardware. Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of digital signal processing circuits.

Pre-requisite(s): EET 3010, MATH 1210.

EET 4060 - Advanced Communications

Credits: (4)
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to satellite communications, spread spectrum techniques, digital satellite communications, antennas, small signal amplifiers, Smith charts, and "S" parameter analysis. Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation and analysis of wireless communications circuits and systems.

Pre-requisite(s): EET 3010.

EET 4090 - Systems Design and Integration

Credits: (3)
Course Fee: $5.00
Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to the fundamentals of large-scale systems. The first part deals with systems analysis, design and integration with emphasis on input/output models, transfer functions, and interface issues. The second part discusses a variety of systems design and management approaches, particularly those concerned with system requirements, interface control, evaluation, quality assurance through configuration management, audits and reviews, and the human role in systems.

Pre-requisite(s): EET 3090.

EET 4800 - Individual Studies

Credits: (1-4)
Typically Taught Spring Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Course fees are used for lab equipment replacement and maintenance, electronic components used in labs, lab computers, software licensing, and printer paper. Small purchases of equipment and components required for projects may be covered by course fees.

Description: The student will receive credit for approved studies in an area not covered in the EET program. A maximum of four credits can be counted as electives for EET majors.

EET 4890 INT - Cooperative Work Experience

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The student will receive credit for approved electronics industrial experience. Professional development activities will include resume writing, goal setting, progress reports, and a supervisor's evaluation.

Pre-requisite(s): Permission from the department.
The course can be taken a maximum of three times for a total of 6 credits.

EET 4900 - Special Topics

Credits: (1-4)
Variable Title
Typically Taught Fall Semester: Full Sem
Course Fee: $5.00
Course Fee Purpose: Course fees are used for lab equipment replacement and maintenance, electronic components used in labs, lab computers, software licensing, and printer paper. Small purchases of equipment and components required for projects may be covered by course fees.

Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the EET program.

Lecture and lab combination. Laboratory activities to support the selected course topic. May be repeated four times for a maximum of seven credit hours.

Note: A maximum of four credits can be counted for EET majors.

ENGL 0900 ND - Fundamentals of College Reading and Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A course designed to help students develop fundamental reading, writing, and thinking skills. Students in this course work closely with Skills Enhancement Center tutors in both group and one-to-one settings. Students with ACT scores in either English or Reading of 12 and below are required to take ENGL ND0900. Students without ACT scores are also placed in this course unless they are otherwise placed by Accuplacer. Students must complete this course with a grade of C or better before enrolling in ENGL 0955.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 0955 ND - Developmental College Reading and Writing

Credits: (6)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: A course to help students develop reading, writing, and critical thinking skills prerequisite for entry-level college courses. Students in this course are supported by the Skills Enhancement Center. Students who pass ENGL 0900 with a grade of C or better, whose ACT scores in English or Reading run from 13 to 16, or who are placed by Accuplacer are placed in ENGL ND0955. Students must complete ENGL ND0955 with a grade of C or better before enrolling in ENGL 1010.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 1000 - College Reading

Credits: (1-3)
Description: The objective of ENGL 1000 is to improve students' skills for successful college-level reading, emphasizing proven literacy strategies. This goal is accomplished by providing a variety of active reading and thinking approaches, as applied to college-level texts. May be repeated 4 times up to 6 credit hours.

Note: Check with Department for course availability.

ENGL 1001 - College Reading for Multilingual Learners

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem

Description: English 1001 is primarily designed for bilingual or multilingual learners. This course focuses on support for language acquisition, focusing on reading, understanding, and engaging with academic topics. Through a guided approach, the students will improve reading comprehension and thereby improve writing, listening, and speaking skills. The course will also include exposure to university culture and language development.

ENGL 1002 - College Reading 2

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: The objective of ENGL 1002 is to deepen students' skills for successful college-level reading, emphasizing advanced literacy strategies. This goal is accomplished by building on the foundations of ENGL 1000/ENGL 1001 using active reading and thinking approaches as applied to college-level texts.

Pre-requisite(s): ENGL 1000 or ENGL 1001 with a grade of "C" or better.

Suggested Requisite(s): ENGL 1005 or ENGL 1007.

ENGL 1005 EN1 - College Reading and Introductory Writing

Credits: (6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: English 1005 introduces students to the habits and practices necessary for reading and writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, improving reading comprehension, and the interrelationship between reading and writing. Students who have placed into ENGL 0955 (Level 2) may choose to take this accelerated course, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010 or ENGL 2015.

Pre-requisite(s): Level 2 placement or ENGL 0900 with a grade of C or better.

ENGL 1006 - College Reading and Introductory Writing, Part A

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: English 1006 introduces students to the habits and practices necessary for writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, and reading comprehension. Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete both ENGL 1006 and ENGL 1007 satisfactorily (with a grade of C or better) before enrolling in ENGL 2010 or ENGL 2015.
Pre-requisite(s): Level 2 English placement or completion of ENGL 0900 with a grade of C or better.
Suggested Requisite(s): For optimal learning, students are strongly encouraged to take this course along with either ENGL 1000 (College Reading) or ENGL 1001 (College Reading for Multilingual Learners) in the same semester.

ENGL 1007 - College Reading and Introductory Writing, Part B

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: English 1007 builds upon the foundational habits and practices necessary for writing at the college level established in ENGL 1006. Students will learn practices of successful university-level writing across multiple genres, focusing on the writing process, writing for specific audiences, collaboration with peers, the interrelationship between reading and writing, and applying literacy techniques learned to college-level texts. The course applies advanced reading comprehension practices. Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010.
Pre-requisite(s): ENGL 1006 with a grade of "C" or better.
Suggested Requisite(s): For optimal learning, students are strongly encouraged to take this course along with either ENGL 1000 (College Reading for Multilingual Learners) or ENGL 1002 (College Reading 2) in the same semester. Note: Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010.

ENGL 1010 EN1 - Introductory College Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online, 1st Block, 1st Blk Online, 2nd Block
Description: Students will learn practices of successful university-level writing across multiple genres. Students will focus on the writing process, writing for specific audiences, collaboration with peers, and on the interrelationship between reading and writing.
Pre-requisite(s): To enter 1010 the student must have 17 or higher on both ACT English and Reading, or equivalent. Students must complete ENGL 1010 satisfactorily (a grade of "C" or better) before enrolling in ENGL 2010 or ENGL 2015.

ENGL 2010 EN2 - Intermediate College Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will focus on writing researched arguments, discerning, engaging with, and documenting sources, and writing with rhetorical awareness and persuasive force. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers.
Pre-requisite(s): Level 4 placement, passing ENGL 1005 or ENGL 1006 or ENGL 1007 or ENGL 1010 with "C" grade or better. AP Language and Composition or Literature and Composition examination with a score of 3 or better, ACT English and Reading score of 29 or better, CLEP with essay test with a score of 50 or better, or articulated transfer credit from another regionally accredited college or university.

ENGL 2015 EN2 - Intermediate College Writing & Research

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Intermediate College Writing & Research focuses on combining writing and research skills. It will focus on writing arguments, conducting research, and documenting sources. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and
Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning. This course will fulfill both the English Composition and the Information Literacy General Education core requirements.

**Pre-requisite(s):** Level 4 placement, passing ENGL 1005 or ENGL 1010 or both ENGL 1006 and ENGL 1007, with a grade of "C" or better, passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, achieving an ACT English and Reading score of 29 or better, a CLEP with essay test with a score of 50 or better, or an articulated transfer credit from another regionally accredited college or university.

**ENGL 2100 - Technical Writing**

Credits: (3)
Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: This course prepares students for on-the-job writing and emphasizes the importance of audience analysis, graphics, and document design. Students study and practice writing and designing a variety of technical documents as they learn to write clearly, concisely, and persuasively to a specific audience for a specific purpose.

**ENGL 2120 - Introduction to Writing and Document Design**

Credits: (3)
Typically Taught Fall Semester: Check with department
Typically Taught Spring Semester: Full Sem
Description: Through literary texts, including fiction, nonfiction and poetry as well as film and other digital mediums, this course will introduce students to the ways writing fits into various types of organizations, which are increasingly focused around knowledge work, or work that analyzes and communicates rather than manufactures products. Within the framework of writing, students will learn how organizations are networked and situated, and how collaboration, systems of power, organizational structures, and various audiences and stakeholders function.

**ENGL 2130 - Media and Technology in Texts**

Credits: (3)
Typically Taught Fall Semester: Check with department
Typically Taught Spring Semester: Full Sem
Description: Through the study of literary texts such as fiction, poetry, nonfiction, and film, students will gain an understanding of key concepts in the study of media and technology, including historical and forward-looking perspectives. These might include such topics as the impact of technology on society and culture, how new technologies shape information and how new media forms affect reading, writing and analysis.

**ENGL 2140 - Introduction to Professional and Technical Editing**

Credits: (3)
Typically Taught Fall Semester: Check with department
Typically Taught Spring Semester: Full Sem
Description: This course focuses on basic editing in the workplace. We examine genres, electronic editing, version control, collaboration, synchronous and asynchronous writing/editing, and literature related to editing.

**ENGL 2150 - Gender and Culture in Workplace Writing**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Check with department for course availability.
Description: Gender and culture affect professional and technical writing and an understanding of the many roles we encounter and play through gender and culture is essential for writers. This course will overview for students the many ways gender and culture can be applied to and explored in professional and technical writing and provide practice identifying and analyzing such issues through literature.

**ENGL 2160 - Introduction to Web-Based Technical Writing**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Check with department for course availability.
Description: This course will first cover how organizations create and share information on the web and social media, and how the differences in reader expectation and reading behavior between printed and online texts help shape the information. The course will then focus on characteristics of good online content, analysis of audience and purpose,
and strategies for writing and designing content to meet the needs and expectations of the readers. Throughout the semester, students will practice, individually and collaboratively, good writing and designing skills in learning to become effective writers of a workplace.

**ENGL 2200 HU/EDI - Introduction to Literature**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem, Full Sem
**Typically Taught Spring Semester:** Full Sem, Full Sem

**Description:** An introduction to three major literary genres, fiction, poetry, and drama, drawn from a diverse range of authors from various cultures and historical periods. Students will learn how to read literary texts closely and critically, and how literature--reading more generally--can have a meaningful part of their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

**ENGL 2210 - Introduction to Film Theory and Criticism**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course introduces students to the theory and practice of critically analyzing film. We will survey the international development of film from its origins to the present. Our focus will be on the history and methods of narrative film, including the development of film and digital technology, and on the modern viewer's expected skill in "reading" film.

**ENGL 2220 HU/EDI - Introduction to Fiction**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** An introduction to short stories, novellas, and novels, selected from a diverse range of authors from various cultures and historical periods. Students will learn how to read fiction carefully and critically, and how fiction can have a meaningful part in their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

**ENGL 2230 HU/EDI - Introduction to Drama**

Credits: (3)
**Typically Taught Fall Semester:** Check with Department
**Typically Taught Spring Semester:** Check with Department

**Description:** An introduction to drama from around the globe, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze and appreciate plays and to recognize their contemporary relevance. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

**ENGL 2240 HU/EDI - Introduction to Poetry**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** An introduction to poetry written in English, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to appreciate the craft of poetry as a valid and important way of talking about human experiences. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

**ENGL 2250 CA/EDI - CW: Introduction to Creative Writing**

Credits: (3)
**Typically Taught Summer Semester:** Check with Department
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** In this Gen Ed course students will learn in a workshop setting to write original pieces in three genres that may include the following: short stories, poetry, creative non-fiction, and plays. As models for their own writing, students will read exemplary pieces from each genre taught from different eras and cultures, in order to build a vocabulary base. Thus, students will become familiar with aspects of storytelling such as story arc, characterization, and dialogue; and aspects of poetry such
as rhyme, rhythm, and figurative language, for use in their own writing. Through regular exercises, students will generate ideas for creating original writing such as stories, poems, plays, and creative essays, and will refine oral and communicative skills. Students will critique and be critiqued by the entire class in order to revise early drafts, will analyze selected texts, and will evaluate their own and others' work.

**Pre-requisite(s):** ENGL 1010, ENGL 2010, or ENGL 2015.

**ENGL 2260 CA/EDI - CW: Introduction to Writing Short Fiction**

**Credits:** (3)

**Typically Taught Summer Semester:** Check with Department

**Typically Taught Fall Semester:** Full Sem, Full Sem - Online

**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** This course introduces students to writing original short fiction in a workshop setting. Students will read as models a judicious sampling of stories by authors such as Edgar Allen Poe, William Faulkner, Toni Morrison, Truman Capote, and others as selected by the professor in order to build a vocabulary for analyzing aspects of storytelling such as plot, story arc, characterization, dialogue, meaningful detail, and story pacing. Using guided writing exercises and journaling, students will develop ideas from these sources to create original fiction for a series of in-class workshops. Students will critique, and be critiqued by, the entire class, in order to revise their stories.

**Pre-requisite(s):** ENGL 1010, ENGL 2010, or ENGL 2015.

**ENGL 2270 CA/EDI - CW: Introduction to Writing Poetry**

**Credits:** (3)

**Typically Taught Summer Semester:** Check with Department

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem - Online

**Description:** This course introduces students to writing original poetry. Students will read as models a judicious sampling of poems by contemporary poets as selected by the professor in order to build a vocabulary for analyzing aspects of poetic craft, such as form, line, prosody, image, sound, narrative, and lyric. Using guided writing exercises and journaling, students will develop their ideas into original poems for a series of in-class writing workshops. Students will critique and be critiqued by their peers in order to revise their poems.

**Pre-requisite(s):** ENGL 1010, ENGL 2010, or ENGL 2015.

**ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Full Sem - Online

**Typically Taught Fall Semester:** Full Sem, Full Sem - Online

**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** In this introductory course, students will learn the basics of writing creative nonfiction, including how to shape personal experiences into dynamic art through study, practice, and play. Students will be introduced to a variety of narrative strategies such as braided, hybrid, and lyric essays. Ultimately, students will deepen their self-understanding while refining and expanding their storytelling skillset.

**Pre-requisite(s):** ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

**ENGL 2295 - CW: Introduction to Screenwriting**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem, Full Sem - Online

**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** In this introductory course, students will learn the basics of screenwriting, including how to use action and dialogue to convey character and establish tension. Additionally, students will begin working with screenwriting software to develop an understanding of the formatting conventions of the genre.

**Pre-requisite(s):** ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

**ENGL 2420 - Young Adult Literature**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem
Description: Young Adult Literature will introduce students to a variety of literary works within this popular and compelling genre. Through close reading, we will examine various features, themes, and representations of adolescence and adulthood. We will also consider different pedagogical approaches to these texts to uncover broader literary and sociocultural dimensions.

Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 2510 HU/EDI - Masterpieces of Literature

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: An introduction to select masterworks, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze various genres (fiction, drama, and poetry) and to reflect on the nature of literary excellence. Course includes relevant practice in the principles of successful writing, including, drafting, revising, and editing.
Note: Check with Department for course availability.

ENGL 2710 HU/EDI - Perspectives on Women's Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Check with Department
Description: The purpose of this class is to introduce students to the rich contributions of women to the field of literature. The course will cover a variety of women writers that may range from the medieval period to the present and will feature literary genres such as fiction, poetry, drama, non-fiction, and journals/diaries. In discussing and writing about these works, students will consider why women were excluded or marginalized in the canon for such a large part of literary history and how society, family, and politics impacted the way these women wrote.

ENGL 2750 HU - Topics and Ideas in the Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem, Full Sem - Online

Description: This variable topics course focuses on topics and ideas in the humanities. The course may consider social, political, artistic, environmental, or philosophical themes across disciplines. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion and to probe the various intentions of any act of writing. May be taken twice for a total of 6 credits.

ENGL 2810 - Experimental Course

Credits: (1-6)
Experimental
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ENGL 2830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual readings supervised by a faculty member.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
May be repeated twice up to 6 credit hours.

ENGL 2890 - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in the English Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.
May be repeated 5 times up to 6 credit hours.
Note: Check with department for current course offerings.

ENGL 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the
current offering under this number. The specific title and credit authorized will appear on the student transcript.

**Pre-requisite(s):** ENGL 1010 with a "C" grade or better or equivalent.

May be repeated for a total maximum of 6 credit hours.

Note: Check with department for current course offerings.

**ENGL 2920S INT - Community Service**

**Credits:** (3)

**Description:** Students will receive an overview of community service and explore opportunities for service learning in the community. A weekly seminar with required readings and writings as necessary and 50 hours of community service.

**Pre-requisite(s):** ENGL 2010, ENGL 2015, or equivalent.

Note: Check with department for current course offerings.

**ENGL 2999 INT - Capstone in Workplace Communication and Writing**

**Credits:** (3)

**Description:** This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals. Cross-listed with COMM 2999.

**Pre-requisite(s):** Permission of Instructor Required.

Note: Check with Department for course availability.

**ENGL 3010 - Introduction to Linguistics**

**Credits:** (3)

**Typically Taught Summer Semester:** Check with department for course availability.

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course introduces students to the scientific study of language. It looks across languages to explore what they have in common, as well as what distinguishes them from one another. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be applied to other areas, such as language acquisition, language history, language and culture, language and society, language and thought, or language and literary expression.

**Pre-requisite(s):** ENGL 2010, ENGL 2015, or equivalent.

Note: Students in English, foreign languages, anthropology, philosophy, psychology, and history are encouraged to take this course.

**ENGL 3020 - Teaching English/Language Arts**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course is designed for English teaching majors and minors. Students in the course will study a variety of literary works to better understand the ways that literature engages interest and promotes deep learning. Students in the course will study pedagogical practices that support the effective and equitable teaching of literature in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.

**Pre-requisite(s):** ENGL 2010, ENGL 2015 or equivalent and admitted to Secondary Education program.

**Pre-requisite/Co-requisite:** ENGL 2420

**ENGL 3030 - Structure of English**

**Credits:** (3)

**Typically Taught Summer Semester:** Check with department for course availability.

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This course presents the major parts of speech, grammatical functions, and constructions of Standard English. Its purpose is to show that English, like any human language, is an intricate and rule-governed system. To this end, it draws on the terminology of traditional grammar and the analytical techniques of structural and transformational grammar, including contextual definitions and tree diagramming. The course is directed toward departmental English majors, teaching majors, advanced ESL students, and students majoring in foreign language teaching.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015, or equivalent.

**ENGL 3040 - History of the English Language**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course begins by introducing the elementary vocabulary and concepts of linguistic theory as these pertain to historical linguistics. It then traces the prehistory of English from its beginnings in Indo-European, through its place in the Germanic branch, to its historical phases of Old, Middle, and Early Modern English. Attention may also be given to national varieties of English and the development of English as a world language.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3050 - Grammar, Style, and Usage for Advanced Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage in order to become more proficient writers. Its purpose is to offer practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is offered to all English majors and minors as a means of fulfilling the language requirement for the major, especially those in technical writing or creative writing. Students in communication, pre-law, and criminal justice may also find the class meets requirements.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3080 - Critical Approaches to Literature

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective. Primarily for English majors and minors. Recommended to take early in major.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
Suggested Requisite(s): ENGL 2200, ENGL 2220, ENGL 2230, or ENGL 2240.

ENGL 3100 - Professional and Technical Writing

Credits: (3)
Typically Taught Summer Semester: Full Sem Online, Check with department for course availability.
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: This course introduces students to the basic theories and practices of technical communication. Using audience, purpose, and context as their guides, students create various professional and technical documents, such as formal and informal reports, instructions, proposals, job application materials, brochures, web media, and presentations. Working both individually, and in collaboration, students analyze their rhetorical situation as they create usable and appropriate professional documents. This course provides the practical and theoretical basis for the minor and emphasis in Professional and Technical Writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3120 - Foundations in Professional & Technical Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This course provides the theoretical and rhetorical knowledge that underpins the practice of technical and professional writing. Students will learn about rhetorical theories, research methods, social justice initiatives, technological theories, and ethics. The course will prepare students for understanding why technical and professional writers make the choices they do and empower students to explain the exigence of their field of study.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3130 - Digital Writing Technologies
ENGL 3140 - Professional and Technical Editing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This course will introduce students to the tools/software that technical writers and other professionals use in the workplace. Topics include, but are not limited to, Advanced Features in MS Word (styles, macros), the Adobe Suite, Advanced Features of online collaborative tools (the Google Suite among others), the suite of Apple products. This instruction prepares students, not just English majors, for the necessary skills to enter into the workforce prepared to succeed.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3190 CEL - Document Design

Credits: (3)
Typically Taught Fall Semester: Full Sem - Odd Years
Typically Taught Spring Semester: Full Sem - Online Even Years
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This course teaches a rhetorical approach to document design. Using the rhetorical principles of audience, purpose, and context, students will discuss sample documents, analyze the layout of documents (both professional documents and ones students create in class), and articulate what makes an effective layout and design (regarding arrangement, emphasis, clarity, conciseness, tone, and ethos). Throughout the course, students will create (both individually and collaboratively) documents that meet client specifications thereby providing practical experience and generating material for their professional portfolios.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 3210 - Advanced College Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Basic expository techniques combined with other forms of discourse. Emphasis on originality, clarity and practical application for other courses as well as vocation.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3240 - CW: Writing Creative Nonfiction

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the craft of writing creative nonfiction, including forms such as
personal essay, lyric essay, and memoir.  
**Pre-requisite(s):** ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

**ENGL 3250 - CW: Advanced Fiction Writing**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online  
**Description:** Students will learn advanced fiction writing skills and strategies. Whether they plan to write novels or short fiction, this class will help them develop their use of plot, character, point of view, narrative structure, setting, image, wordplay and syntax.  
**Pre-requisite(s):** ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

**ENGL 3260 - CW: Advanced Poetry Writing**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem - Online  
**Description:** Students in this course will write and revise their own original poetry. Using their drafts and/or published poems, they will improve their use of line and stanza breaks, imagery, sound and rhythm, poetic structure, and other techniques.  
**Pre-requisite(s):** ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.  
Note: This course is taught every other Spring.

**ENGL 3280 - Biographical Writing**

**Credits:** (3)  
**Typically Taught Fall Semester:** Check with department for course availability.  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Includes autobiographical writing and is oriented strongly toward personal and familial interests. Written assignments include the personal narrative, character sketch, as told to, and conclude with a chapter or two on a projected book-length project. Extensive written and oral input on each assignment from professor and class. Strong emphasis is placed on techniques of research including interviewing, effective characterization, narration and description. Prior experience in imaginative writing and other areas of literature is recommended.  
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.

**ENGL 3290 - CW: Advanced Screenwriting**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** In this advanced course, students will enhance their understanding of screenwriting by studying produced films and workshops their own original work. We will focus on developing complex characters through action and dialogue, studying and applying the movement of the three-act structure, and creating scenes driven by desire and the obstacles to those desires. In short, students will build on the basics that they have already begun to master and will apply those towards creating more sophisticated work.  
**Pre-requisite(s):** ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

**ENGL 3300 - Children's Literature**

**Credits:** (3)  
**Typically Taught Summer Semester:** Check with department for course availability.  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Students will study the principles of literature for children with special emphasis on evaluation and selection, classroom and library use, ethnic and cultural diversity, and the development of literacy. Designed to meet the needs of teachers, those preparing to teach and those who work with children in various settings.  
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.

**ENGL 3350 - Studies in Literary Genres**

**Credits:** (3)  
**Variable Title**  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This variable topics course introduces students to the historical and cultural origins of literary genres, their distinguishing features, and the dynamics of literary development. Genres may include the novel, drama, poetry, creative non-fiction, bildungsroman, the diary, biography, autobiography, satire, and others. It may be taken more than once with different designations.  
**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or
May be repeated once for a total of six credit hours.

**ENGL 3352 - Studies in World Literary Genres**

**Credits:** (3)

**Variable Title**

**Typically Taught Fall Semester: Full Sem**

**Typically Taught Spring Semester: Full Sem**

**Description:** This variable topics course introduces students to familiar and unfamiliar world literary genres, exploring their distinctive features and their interactions with the cultures and histories they represent. Genres might include poetry and prose, fiction and non-fiction, satire and fable, tragedy and ballad, biography and autobiography, and many others.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

**ENGL 3355 - CW: Creative Nonfiction Forms and Craft**

**Credits:** (3)

**Typically Taught Summer Semester: Full Sem**

**Description:** This class asks students to write a number of forms within the genre of creative nonfiction writing, experimenting with narrative shape and the effects of structural choices.

**Pre-requisite(s):** ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

**ENGL 3360 - CW: Short Story Forms and Craft**

**Credits:** (3)

**Typically Taught Fall Semester: Full Sem - Online**

**Description:** This class asks students to experiment with form and story structure within the genre of fiction writing, to understand how narrative shape affects the reader's experience.

**Pre-requisite(s):** ENGL 2250, ENGL 2260, ENGL 2270, ENGL 2280, or ENGL 2295.

**ENGL 3365 - CW: Novel Forms and Craft**

**Credits:** (3)

**Typically Taught Summer Semester:** Check with Department

**Typically Taught Fall Semester: Full Sem**

**Typically Taught Spring Semester: Full Sem - Online**

**Description:** This class asks students to experiment with form and structure within the genre of novel writing to understand how narrative shape affects the reader's experience.

**Pre-requisite(s):** Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

**ENGL 3370 - CW: Poetic Forms and Craft**
ENGL 3375 - CW: Notebooks and Journals Forms and Crafts

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This class asks students to experiment with form and structure within the genre of poetry writing to understand how line, repetition, rhyme patterns, and shape affect the reader's experience.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3380 - CW: Screenwriting Form and Craft

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This class examines screenwriting form. Students will write their own original screenplay(s) in this form.
Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3410 INT - The Teaching of Writing

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course is designed for English Teaching majors and minors. Students in the course will study pedagogical practices that support the effective and equitable teaching of writing in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent, and admitted to Secondary Education program.
Co-Requisite(s): ENGL 3020.
Pre-requisite/Co-requisite: ENGL 2420

ENGL 3500 HU - Introduction to Shakespeare

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This class is an introduction designed to foster a critical appreciation of the plays of Shakespeare. The class is intended for all who wish to gain a greater appreciation for Shakespeare and his work. Students can expect to study a varied selection of Shakespeare's plays and poems, as well as historical, cultural, critical, and performance contexts.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3510 HU/EDI - World Literature

Credits: (3)
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This is a selection of masterworks from a variety of authors, regions, and eras - expressly to introduce diverse literatures other than British and American. The required readings may vary considerably from semester to semester, according to the instructors' expertise.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3520 HU - Literature of the Natural World

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Check with department for course availability.
Description: This course engages literary texts that focus on humans in relation to their natural environment. Conceived as a survey course, it attempts to delineate the various traditions of environmental concern, from the ancient past to the present, and to draw attention to the ongoing relevance of such texts. Students will learn how to read closely and carefully, and how to make such literature meaningful for their own daily lives.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3530 - The Literature of Business and Economics
Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This course examines historical and contemporary issues in the world of business and economics through literature, film, and essays. The course will explore concepts such as private property, commodities and natural resources, wage labor, capital, public lands, and globalization. Students will investigate pertinent moral and ethical questions connected with these concepts from both historical and contemporary perspectives, such as the distribution of wealth and poverty, consumption and resource management, competition and conflict, and social (in)stability. The course is designed to improve writing skills, specifically the ability to express complex ideas from a variety of perspectives and to improve critical and creative thinking skills while stressing the importance of learning through writing.

ENGL 3540 - Adaptation Studies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on the process by which literary works and other texts are adapted into other forms and media, and on the product of that adaptive process. Works may include traditional text-to-film adaptations, as well as more non-traditional forms such as graphic novels, music, television, the Internet, and more.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3610 - American Literature I

Credits: (3)
Typically Taught Summer Semester: Check with department for course availability.
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3660 - British Literature II

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3730 - Literatures of Cultures and Places

Credits: (3)
Variable Title
Description: This variable topics course examines literatures, cultures, and nations beyond England and America. Students will be introduced to the ways in which texts are closely tied to geographical place and cultural space as well as the historical movement from which they emerge. The course may focus on a single national culture or, alternately, offer representative works from various cultures.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be repeated 3 times with different designations.
ENGL 3752 - Topics and Ideas in World Literature and Language

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be repeated 3 times with different designations.

ENGL 3753 - Topics and Ideas in Cultural and Media Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: Check with Department
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course focuses on various themes in cultural and media studies. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text. It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies

Credits: (3)
Variable Title
Typically Taught Summer Semester: Check with Department for course availability.
Typically Taught Fall Semester: Check with Department for course availability.
Typically Taught Spring Semester: Full Sem
Description: This variable topics course focuses on themes manifest in the field of writing and in interdisciplinary studies. This course may focus on issues in writing, rhetoric, and other disciplines as they intersect with English. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3755 - Topics in English Teaching

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Description: This variable topics course focuses on critical ideas in the teaching of English. The course may consider social, political, artistic, environmental, or philosophical themes. Students in the class will learn to translate intellectual movements to pedagogical practices and approaches. May be taken twice for a total of 6 credits.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program.

ENGL 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
ENGL 3840 - Methods and Practice in Tutoring Writers

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Description: Controlled experience in tutoring student writers in all disciplines. This course is only for people who are actually employed as a tutor.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3850 INT - Methods and Practice in Tutoring and Mentoring ESL Students

Credits: (1-3)
Description: This course trains students who are native speakers of English or who are second language learners of English at native or near native levels of proficiency to work or volunteer in the ESL Program as tutors, classroom aides, mentors, and as language informants leading conversation groups.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
Note: Check with Department for course availability.

ENGL 3880 - Philosophy and Literature

Credits: (3)
Typically Taught Spring Semester: Check with Department
Description: A study of the interrelationships between ideas that shape the course of history and the poetry, prose, and/or drama of the periods that produce these ideas.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4010 - Topics in Language Study

Credits: (3)
Variable Title
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course explores areas of study such as advanced grammar, sociolinguistics, language and the law, linguistics and composition, linguistics and language acquisition, or linguistics and literature, among others, as determined by the instructor. A previous language course or consultation with the instructor is recommended before enrolling.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4100 - Issues in Professional and Technical Writing

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This variable topics course focuses on specific issues in the ever-evolving field of professional and technical writing. Recent issues include indexing, professionalization, theoretical approaches, and discipline-specific emphases such as writing in the sciences and writing for the Web.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.
It may be taken up to four times (for a total of 12 credit hours) with different designations to fulfill electives and must be pre-approved by an advisor.

ENGL 4110 - Content Management

Credits: (3)
Typically Taught Fall Semester: Full Sem - Even Years; Full Sem - Online Odd Years
Typically Taught Spring Semester: Check with Department
Course Fee: $20.00
Course Fee Purpose: The course fees will be used to upgrade and replace computer equipment such as monitors, keyboards, computers, WSU's software packages, and new course content-specific software.
Description: This class teaches the theory and application of content management. Students will learn how to evaluate content, divide content into reusable elements, label these elements, and then re-configure them into usable structures. Using the principles of single sourcing, modular writing, and structured authoring, students will map content for reuse, evaluate available authoring tools, implement state-of-the-art technologies, and develop project strategies.
Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 4120 CEL - Seminar and Practicum in Professional and Technical Writing
Credits: (3)
Typically Taught Fall Semester: Full Sem - Odd Years
Typically Taught Spring Semester: Full Sem - Odd Years

Description: This course serves as a capstone for the minor and emphasis, preparing students for immediate job placement. In the seminar, students review issues and strategies of professional and technical writing and prepare portfolios for job interviews. The practicum is based on an internship or cooperative work experience in the community, with industry, or with an on-campus organization. The internship is the most time-intensive aspect of the course.

Pre-requisite(s): ENGL 2010 or ENGL 2015.
Suggested Requisite(s): ENGL 3100.

ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)
Typically Taught Spring Semester: Full Sem - Odd Years

Description: This course emphasizes practical strategies and methods of teaching ESL/Bilingual in the public school systems of this country.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)
Typically Taught Summer Semester: Odd-numbered years
Typically Taught Spring Semester: Full Sem

Description: This course provides the essential foundation for ESL/Bilingual teachers in the workings of the English language: pronunciation and spelling systems, word-forming strategies and sentence structure patterns.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)
Typically Taught Summer Semester: Full Sem - Even-numbered years
Typically Taught Fall Semester: Full Sem

Description: This course explores how to effectively evaluate and implement assessment processes for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized tests and authentic assessment.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4520 - American Literature: Early and Romantic

Credits: (3)

Description: This historical survey follows waves of European immigration and chronicles the effects of those on the American natives. The class then moves through the Revolutionary War and finishes with the relatively short but intense age of American Romanticism, which occurred in the decades just before the Civil War. The diverse writers in this period include such figures as Columbus, Washington Irving, Nathaniel Hawthorne, Edgar Allan Poe, Harriet Beecher Stowe, Henry David Thoreau, Frederick Douglass, Herman Melville, and Walt Whitman.

Pre-requisite(s): ENGL 3080.
Note: Check with Department for course availability.

ENGL 4530 - American Literature: Realism and Naturalism

Credits: (3)

Description: This historical survey typically runs from the Civil War to WWI - emphasizing reconstruction, laissez-faire economics, growing imperialism, and universal suffrage. The diverse writers in this survey include such figures as Mark Twain, W. D. Howells, Sarah Orne Jewett, Henry James, Kate Chopin, Booker T. Washington, W. E. B. Du Bois, Stephen Crane, Jack London, Frank Norris, Theodore Dreiser, Mary Austin, and Henry Adams.

Pre-requisite(s): ENGL 3080.
Note: Check with Department for course availability.

ENGL 4540 - American Literature: Modern

Credits: (3)

Description: This historical survey focuses on the first half of the 20th century, when the United States went through a series of profound political and social changes, such as its entry into World War I and II, Prohibition, The Red Scare, Suffrage, the advent of the mass media, and Progressivism. Drawing on a variety of genres and media (including painting and film), the course will study developments in the New Negro Renaissance, Greenwich Village bohemianism, the Provincetown Players, "high" modernism, and the Lost Generation. Representative
writers of the period include: Langston Hughes, Zora Neale Hurston, Nella Larsen, Edna St. Vincent Millay, Mina Loy, Eugene O'Neill, Susan Glaspell, Ezra Pound, John Dos Passos, Amy Lowell, William Carlos Williams, Gertrude Stein, Ernest Hemingway, and e.e. cummings.

**Pre-requisite(s):** ENGL 3080.

Note: Check with Department for course availability.

**ENGL 4545 - American Literature - World War II to 2001**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course focuses on American literature from World War II to 2001 within the context of the dramatic political and cultural changes that have shaped contemporary American culture, such as the Cold War, Vietnam, the Civil Rights movement, feminism, and multiculturalism. Like its modernist predecessor, it ranges across genres and media to survey various emergent traditions and tendencies in contemporary and postmodern US letters.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4550 - American Literature: Contemporary**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course focuses on American literature from 2001 to the present. Like its predecessor, English 4545, it ranges across genres and media to survey traditions and tendencies in contemporary US letters that continue to emerge and evolve. The literature produced during this open-ended period is often less burdened by the legacies of Euro-American literature or the politics of the late 20th century, and hence still fluid in terms of defining period markers. Often written within the wider context of 9/11, U.S. foreign policy, and the changing world order, such work often complicates the aesthetic sensibilities of high postmodernism while providing American literature with a more global set of historical and geographic references.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4560 - Contemporary Literature for Creative Writers**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online

**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** This course introduces students to the work of contemporary writers. Looking at variety of projects, including collections and individual pieces, we will examine their stylistic choices and the effects of those choices.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4610 - British Literature: Medieval**

**Credits:** (3)
**Typically Taught Fall Semester:** Check with Department
**Typically Taught Spring Semester:** Check with Department

**Description:** This historical survey runs from the eighth century to the end of the fifteenth century - roughly from the reign of Alfred the Great to Henry VII. Some of the more recognizable works include Beowulf, The Wanderer, Geoffrey Chaucer's Canterbury Tales, early histories of King Arthur, Thomas Malory's Le Morte D'Arthur, Julian of Norwich's Showings, Everyman, and Gawain and the Green Knight. Works written in Anglo-Saxon English and northern medieval dialects will be read in modern translations.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4620 - British Literature: Renaissance**

**Credits:** (3)
**Typically Taught Fall Semester:** Check with Department
**Typically Taught Spring Semester:** Check with Department

**Description:** This historical survey runs from just before the middle of the sixteenth century to just after the middle of the seventeenth - roughly from the reign of Henry VIII, through the reign of Elizabeth Tudor, to the restoration of Charles II. Some of the more recognizable figures of this study are Christopher Marlowe, John Donne, Ben Jonson, John Milton, Anne Askew, Aemilia Lanyer, Mary Wroth, and Robert Herrick.

**Pre-requisite(s):** ENGL 3080.

Note: (Note: this survey does not typically try to do justice to its largest figure, Shakespeare - for whom the department has established ENGL 4730: Studies in Shakespeare.) Check with department for course availability.

**ENGL 4630 - British Literature: Neoclassical and Romantic**
Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This historical survey links two periods: the first has frequently been referred to as the Enlightenment of the Eighteenth Century and includes such figures as Alexander Pope, Anne Finch, Mary Montagu, Jonathan Swift, and Samuel Johnson. The second period covers the relatively short but intense age of English Romanticism - popular because of such writers as William Blake, William Wordsworth, Samuel Coleridge, Lord Byron, Mary Shelley, Percy Bysshe Shelley, Mary Wollstonecraft, Sir Walter Scott, Thomas De Quincey, and John Keats.
Pre-requisite(s): ENGL 3080.

ENGL 4640 - British Literature: Victorian

Credits: (3)
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This historical survey follows the long span of Queen Victoria's life: from about 1837 when she came to the throne to 1901 when her funeral widely symbolized the passing of the age. Not merely a placid time of Victorian propriety, this era was marked by such philosophical upheavals as that which followed Darwin's Origin of Species. Some of the notable writers are Elizabeth Gaskell, George Eliot, Lord Alfred Tennyson, Robert Browning, Emily Bronte, Charles Dickens, Matthew Arnold, and Thomas Carlyle. This era is marked by the Industrial Revolution, Utilitarianism (Mill), the rise of science and evolution theory (Darwin), socialism (Marx and Engels); Psychology (Freud), resurgence of art (the Pre-Raphaelites), and imperialism (Kipling). Notable writers include: Carlyle, Tennyson, the Brownings, Arnold, Wilde, Dickens, the Brontes, Eliot, and Hardy.
Pre-requisite(s): ENGL 3080.

ENGL 4650 - British Literature: Modern

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Check with Department
Description: This historical survey focuses on the first half of the twentieth century, a time of great social change for Great Britain and Ireland that led to a rich outpouring of traditional and experimental writing. A variety of writers will be studied in this course in connection with such key developments as the critique of Empire (Joseph Conrad, E.M. Forster); the Abbey Theatre and the Irish Literary Renaissance (Lady Gregory, W.B. Yeats); World War I (Siegfried Sassoon, Vera Brittain); High Modernism (T.S. Eliot, James Joyce, D.H. Lawrence, Virginia Woolf, Katherine Mansfield); divergent poetic world-views (W.H. Auden, Dylan Thomas); and World War II, the collapse of Empire, and dystopian visions (Evelyn Waugh and George Orwell).
Pre-requisite(s): ENGL 3080.

ENGL 4655 - British Literature - World War II to 2001

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course examines British and Anglo-Irish literature from World War II to 2001 as Britain metamorphoses from world power to an integral member of the European Community. The course asks what it means to be a "British" writer in an era increasingly multicultural in outlook and studies a variety of British and Anglo-Irish writers in connection with such key developments as post-war disillusion. Absurdism and Postmodernism, neo-Romanticism, magical realism, innovative historical fiction, and legacies of Empire in a postcolonial world.
Pre-requisite(s): ENGL 3080.

ENGL 4660 - British Literature: Contemporary

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course focuses on British literature from 2001 to the present. Like its predecessor, English 4655, it ranges across genres and media to survey traditions and tendencies in contemporary British and Anglo-Irish letters that continue to emerge and evolve as the UK attempts to define itself and Britishness in the wake of 9/11, a changing UK foreign and domestic policy, and Brexit.
Pre-requisite(s): ENGL 3080.
Note: Check with Department for course availability.

ENGL 4710 - Eminent Authors

Credits: (3)
Variable Title
Typically Taught Fall Semester: Check with Department
Typically Taught Spring Semester: Check with Department
Description: This variable topics course features a single author or several authors. Students may study authors such
as Sir Arthur Conan Doyle, Ralph Waldo Emerson, Emily Dickinson, Walt Whitman, Virginia Woolf, or Toni Morrison, in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

**Pre-requisite(s):** ENGL 3080.
May be taken up to 3 times with different designations.
Note: Check with Department for course availability.

**ENGL 4712 - Eminent World Authors**

Credits: (3)
Variable Title
**Description:** This variable topics course features a single author or several authors. Students may study global anglophone writers and/or works in translation, by authors such as Derek Walcott, Arundhati Roy, Chinua Achebe, Gabriel García Márquez, Nadine Gordimer, Margaret Atwood, Mo Yan, Fyodor Dostoevsky, Naguib Mahfouz, and Umberto Eco in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

**Pre-requisite(s):** ENGL 3080.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Note: Check with Department for course availability.

**ENGL 4713 - Eminent Authors in Cultural and Media Studies**

Credits: (3)
Variable Title
**Typically Taught Fall Semester:** Check with Department
**Typically Taught Spring Semester:** Check with Department
**Description:** This variable topics course features a single author or several authors. Students may study foundational and emerging authors in this dynamic and influential field in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

**Pre-requisite(s):** ENGL 3080.
It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.
Note: Check with Department for course availability.

**ENGL 4730 - Studies in Shakespeare**

Credits: (3)
**Typically Taught Fall Semester:** Check with Department
**Typically Taught Spring Semester:** Full Sem
**Description:** This class is intended for English majors and minors seeking a deeper understanding of Shakespeare's work. Students can expect to do close readings of at least five plays and to study such secondary materials as literary criticism and historical background.

**Pre-requisite(s):** ENGL 3080.
Note: Check with Department for course availability.

**ENGL 4760 - Irish Literature**

Credits: (3)
**Typically Taught Fall Semester:** Check with Department
**Typically Taught Spring Semester:** Check with Department
**Description:** This course examines the distinctive temperament and outlook of both the Gaelic and Anglo-Irish traditions in such writers as Aogán Ó Rathaille, Eibhlín Dubh Ni Chonaill, Jonathan Swift, Lady Gregory, Oscar Wilde, John Millington Synge, William Butler Yeats, James Joyce, George Bernard Shaw, Samuel Beckett, Seamus Heaney, Eavan Boland, and Nuala Ni Dhomhnaill. The first portion of the course studies the body of literature from the sixth century through 1900; the remainder of the course focuses on modern and contemporary texts. Key themes to be examined, always in the larger context of Irish history as a whole, include the Irish use of words as weapons, the place of gender in Irish writing, and the intriguing nature of Irish - particularly as opposed to English - identity.

**Pre-requisite(s):** ENGL 3080.

**ENGL 4801 - A&H Leadership Lecture Series**

Credits: (1)
**Typically Taught Spring Semester:** Full Sem
**Description:** This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

**ENGL 4830 - Directed Readings**

Credits: (1-3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Individual readings supervised by a faculty member.

**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.
May be repeated twice with a maximum of 6 credit hours.
Note: Check with Department for course availability.
ENGL 4890 - Cooperative Work Experience

Credits: (1-6)
Description: A continuation of ENGL 2890 Cooperative Work Experience. Open to all students.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
May be repeated 5 times with a maximum of 6 credit hours.
Note: Check with department for current course offerings.

ENGL 4900 - Internships in Literary and Textual Studies

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course allows students to receive academic credit for on-the-job learning in approved work environments and for approved projects. A maximum of 3 credit hours may be counted toward the major. Credit/No-Credit only.
Pre-requisite(s): English major with a Junior or Senior standing; ENGL 2010 or ENGL 2015, and ENGL 3080.
May be repeated for up to 6 credit hours.

ENGL 4910 - Capstone in English Teaching

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: This course is designed to synthesize a student's knowledge and training. The course will assist students in applying their content knowledge during the required teaching field experience. The course will also serve as a bridge to future employment by instructing students in portfolios, resumes, and recommendations. The class will underscore the acquisition of dispositional traits that produce responsible and effective teaching practices.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program, ENGL 2420, ENGL 3410, ENGL 3020, and ENGL 3755.

ENGL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.
May be repeated for a total maximum of 6 credit hours.
Note: Check with Department for course availability.

ENGL 4930 - Visiting Writing Master Class

Credits: (1)
Typically Taught Fall Semester: 1st Blk, 2nd Blk
Typically Taught Spring Semester: 1st Blk, 2nd Blk
Description: In this class, students will study the art and craft of creative writing, studying under the guidance of a nationally recognized visiting writer who will instruct them on writing theory and/or provide a short writing workshop of work from each student. Credit/No Credit grading.
May be repeated 3 times up to 4 credit hours.

ENGL 4940 - CW: Senior Project

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This course offers an opportunity for students to choose a writing project and workshop it with their peers under the direction of the instructor. Writing skills will be developed and honed through intensive writing projects which could include a variety of genres: nonfiction, creative nonfiction, fiction, (short story collection, novel), biography, autobiography, poetry, etc. The course is designed for students with a strong writing background.
Pre-requisite(s): ENGL 3250 or ENGL 3260 or ENGL 3280 or ENGL 3350.

ENGL 4960 INT - Metaphor: Editing the Student Literary Journal

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Designed for students selected as staff for Weber State's Literary Journal, Metaphor. Therefore, it is a hands-on workshop centering on all aspects of journal production: creating an editorial policy, advertisement, selection, layout, copy editing, preparing for print, marketing, distribution, etc. The journal itself is the final product. The staff supports writing and visual arts across campus through participation in several ancillary projects.
Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.
May be repeated twice with a maximum of 6 credit hours.
ENGR 1000 - Introduction to Engineering

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Course fees are used to purchase design project parts
Description: ENGR 1000 (2) Introduction to Engineering is a required course in the Pre-engineering and Mechanical Engineering programs. A major part of ENGR 1000 is a design project in which the students participate on a team basis. Costs for this design project fall into one category only, consumables, which are mechanical and electrical components for their projects. The project is called a Stop-Shoot Vehicle (SSV). The components and associated costs per student per semester are summarized below:
Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or equivalent.

ENGR 2010 - Statics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Vector mechanics, force and moment systems, equilibrium of particles and rigid bodies, friction and moments of inertia.
Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2030 - Dynamics

Credits: (4)
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2140 - Mechanics of Materials

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Fundamentals of stress and strain, Hooke's law, torsion, bending of beams, combined stresses and design of members.
Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2160 - Materials Science and Engineering

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Course fee for replacement of lab equipment and consumable parts
Description: Combined lecture/laboratory course that introduces the fundamentals of atomic and microscopic structure of metals, polymers, ceramics and composite materials, and how these structures affect mechanical, thermal, electrical and optical properties. Materials Science and Engineering involves hand-on labs where students test material specimens and collect measurements related to the discipline. Meeting this course element requires the maintenance and replacement of appropriate lab equipment.
Pre-requisite(s): CHEM 1210.
Pre-requisite/Co-requisite: ENGR 2140.

ENGR 2165 - Materials Science and Engineering Laboratory

Credits: (1)
Typically Taught Spring Semester: Full Sem
Description: Laboratory course to accompany ENGR 2160 Materials Science and Engineering. Fundamenal concepts of mechanical measurement, reporting technical data, procedures for measuring material properties and measurement standards.
Co-Requisite(s): ENGR 2160.

ENGR 2240 - Dynamic Systems Engineering

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: An introduction to the modeling, analysis, and control of dynamic systems. Models of electrical, mechanical, electromechanical, and mass-transport systems in state-variable, input-output, and transfer function form. Topics include linear approximations of nonlinear systems, time domain and Laplace transform solutions, Block diagrams, feedback systems and large-scale linear systems analysis.
ENGR 2300 - Thermodynamics

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: Thermodynamic properties, equations of state, first and second laws of thermodynamics. Analysis of open and closed systems, availability and irreversibility, power and refrigeration cycles.
Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

ENTR 1001 - Principles of Entrepreneurship

Credits: (1)
Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks. Note: This course is not currently offered.

ENTR 1002 - Startup Innovation

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course will present a broad overview of entrepreneurship and teach students how to identify and create valuable entrepreneurial opportunities. This is accomplished via proven process and theory designed to help ideation become customer needs driven instead of based on the instincts of the entrepreneur. Students will create, test and update a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Startup Owners Manual textbooks. This class will also have students spending time 'out of the classroom' learning about what customers want and will pay for through in-person prototype testing, iteration and feedback.

ENTR 1003 - Ideation and Customer Development: Testing Ideas with Customers

Credits: (1.5)
Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.
Pre-requisite(s): ENTR 1001, BSAD 2899 or ECON 2899.
Note: This course is not currently offered.

ENTR 1004 - Entrepreneurial Finance: Bootstrapping, Accounting & Survival Tactics

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business start-up. Students will explore the application of corporate finance tools to new venture and private equity transactions including forecast simulations and the application of real options. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business start-up purposes.
Pre-requisite(s): ENTR 1002.
customers. This includes examining a range of marketing techniques that are available for low to no cost. This course will look at alternatives to these traditional methods and students will, through hands on efforts, test these methods with real customers. By the end of the course students will be able to analyze business ideas for commercial viability.

Pre-requisite(s): ENTR 1004.

**ENTR 2002 - Marketing Strategy for Small Business**

Credits: (1)
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** This course introduces students to marketing methods used by startups and early-stage companies with a particular an emphasis on pre-launch marketing strategies. This course seeks to develop the student's understanding of delivering value, standing out from the competition, and having a compelling reason to exist. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, assignments and a final project based on the student's business idea.

**ENTR 2003 - Marketing Execution for Small Business**

Credits: (1)
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** This course introduces students to marketing methods used by startups and early-stage companies. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, assignments and examine existing companies and how they executed various marketing tactics.

**ENTR 2004 - Branding for Small Business**

Credits: (1)
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** Branding for Small Business takes you through the process of identifying an innovation opportunity to create a new product and/or service that can generate profitable revenue for an established organization (aka: corporate innovation or non-profit innovation). In this course, students take on the role of managers, both proposing an innovation project and evaluating other innovation projects on behalf of the organization. Managers use a disciplined approach to identify an important customer "job" that's not getting done well with existing solutions. Managers precisely and accurately define important and unsatisfied customer needs for this job and propose a new solution that can profitably satisfy those needs better than competing alternatives.

**ENTR 2005 - Product to Market**

Credits: (1)
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** Entering this course, you will move forward with validating in the market an opportunity you have identified that you believe is a high-potential demand creation opportunity. It is expected that you have already 1) verified the customers' job priorities, 2) verified that your value proposition is compelling to those customers, 3) designed a viable business model that you believe can profitably fulfill the value proposition, 4) ascertained an exhaustive set of value targets to inform solution design and 5) determined a demand creation strategy for commercializing the proposed solution (steps 1-5 in the AVID methodology). In this course, you'll continue through the AVID cycle, moving deeper into the discovery process.

**ENTR 2006 - E-Commerce for Small Business**

Credits: (1)
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** This course will help you establish an e-commerce foundation for your business that can be built upon as you grow. We'll learn the steps needed to help your business start selling online. From which platform to use, to a growth strategy once a foundation is built, this course will aid your journey in becoming digitally mature entrepreneurs. I'm not a traditional professor, so this class probably won't follow traditional guidelines. Innovation, experiences gained, and execution of principles taught will be more important than papers written or assignments turned in.

**ENTR 2007 - Product Design & Prototyping for Small Business**
Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course presents the overall process of taking an idea through to a manufactured product ready for marketing and selling. Starting from the initial product idea, each lecture will cover a step in the process. Though specific skills and techniques will be covered, the goal is to understand primarily how to manage the process of design and development successfully. Students will learn to analytically vet ideas at the beginning and continually through the design and development cycle. They will also research successful products online and in-person, and understand what factors contributed to this effectiveness.

ENTR 2008 - Legal Foundations for Small Business

Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course is concerned with understanding and navigating some of the top legal issues facing business today. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective business owner, and (2) leader.

ENTR 2009 - Money Management for Small Business

Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course covers basic financial statements, creating pro-forma statements and analysis of financial statements. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup or expansion purposes.

ENTR 2010 - Funding For Small Business

Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business startup. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup or expansion purposes.

ENTR 2011 - Results-Focused Leadership

Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course is concerned with identifying, evaluating, and supporting metrics which promote outcomes which are important for your venture. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing your: (1) results-focused analytical abilities, and (2) leadership approach in directing/promoting employee growth. It is designed to give you insight into your own attitudes, beliefs, and leadership philosophy, to provide you with assessment tools that will help you diagnose, understand, and develop more effective and influential leadership programs for your business. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2012 - People Management for Small Business

Credits: (1)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This course is concerned with understanding and managing the human resources of a small business. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective manager, and (2) leader. It is designed to give you insight into your own attitudes, beliefs, and management philosophy, to provide you with analytical tools that will help you diagnose, understand, and develop solutions to management problems. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2550 - Scale & Exit

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description:
The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business.

**ENTR 2810 - Experimental Course**

*Credits: (1-6) Experimental*

*Description:* Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ENTR 3002 - Scale & Exit**

*Credits: (3)*

Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online

*Description:* The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business using actual dollars. Student teams will present their company at the beginning of the course as teams and will then use student start-up funds to launch their business. By the end of the course students will have launched a real start-up business.

**ENTR 3003 - Growing the Business**

*Credits: (3)*

*Description:* This course helps students take their start-ups business to the next level and accelerate the pace of customer validation and acquisition. This course will focus on launching the business from a student run start-up in a university setting, to a standalone company that can operate outside the confines of a college campus.

*Pre-requisite(s):* ENTR 3002.

Note: This course is not currently offered.

**ENTR 4680 - Small Business Diagnostics**

*Credits: (3)*

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

*Description:* Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required. Cross-listed with BSAD 4680.

**ENTR 6810 - Experimental Course**

*Credits: (1-6) Experimental*

*Description:* Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**ENVS 4999 - Environmental Science ePortfolio**

*Credits: (.5)*

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

*Description:* This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the Environmental Science program. Students assemble ePortfolios with artifacts demonstrating achievement of each of the six program learning outcomes in Environmental Science and complete a reflection essay. Contact your major advisor to complete this requirement once your portfolio is complete or, at the latest, at the beginning of your last semester before graduation. Credit/no credit.

**ESS 2200 - Exploring Exercise Science Professions**

*Credits: (3)*

Typically Taught Summer Semester: 2nd Blk Online, 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

*Description:* Designed to orient and acquaint students with the goals, objectives, scope, professional preparation, career opportunities, and trends in exercise science professions.

**ESS 2300 - Health/Fitness Evaluation and Exercise Prescription**
Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $35.00
Course Fee Purpose: This course has a fee attached.
Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include skinfold calipers, blood pressure cuffs, online blood pressure course access, cycle ergometer maintenance, heart rate monitors, sit and reach boxes, and sanitizing supplies.

Description: Skills and competencies for prospective health fitness instructors, personal fitness trainers, and nutrition educators to deliver preventive exercise programs.

Pre-requisite(s): HLTH 1030 and NUTR 1020.

ESS 2890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Open to all students in Human Performance Management and Physical Education who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated 5 times up to 6 credit hours.

ESS 3450 - Structural Kinesiology

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached.
Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include muscle and bone models, classroom computers, isokinetic Dynamometer, EMG equipment, goniometers, bone density tester, hand-grip dynamometers, and movement analysis tablets and apps.

Description: This course is a detailed study of muscles, nerves, bones, and joints as they are involved in the science of movement. It is designed for students to experience theoretical concepts and apply functional anatomy knowledge to the execution and improvement of human performance.

Pre-requisite(s): HTHS 1110 and Co-requisite: HTHS 1111, or Prerequisite: ZOOL 2100.

ESS 3500 - Biomechanics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: This course has a fee attached.
Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include force plates, isokinetic dynamometer, motion analysis devices and programs and EMG equipment.

Description: A study of the musculomechanical bases of human movement and experience in applying that knowledge to the execution and evaluation of human performance.

Pre-requisite(s): ESS 3450 and MATH 1050 QL or higher.

ESS 3510 - Exercise Physiology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: This course has a fee attached.
Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include body composition equipment, skinfold calipers, BodPod, blood pressure cuffs, metabolic cart and equipment, ECG equipment, core temperature sensors, spirometry filters, ergometers, and lactate analyzer.

Description: A study of various physiological and environmental factors which affect performance of exercise and sport during acute exercise and physiological adaptations to chronic exercise.

Pre-requisite(s): HTHS 1110 or ZOOL 1020 or ZOOL 2200.
ESS 3540 - Physiological Aspects of Human Performance

Credits: (2)
Description: Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.
Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).

ESS 3600 - Measurement and Statistics in Exercise Science

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include computer lab use, body composition equipment, vertical leap device, and handgrip dynamometer.
Description: The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health promotion.
Pre-requisite(s): Meet WSU Quantitative Literacy requirement.

ESS 4320 - Special Topics

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Blk, 1st Blk Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course will provide undergraduate students an opportunity to learn emerging and timely topics in the areas of exercise science by critically interpreting information from various sources. The course will also allow students to engage in discussions to appreciate different perspectives on certain exercise science topics.
Pre-requisite(s): ESS 2300, ESS 3450, ESS 3510 or Permission of the Instructor.

ESS 4370 - Clinical Exercise Physiology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include laboratory equipment for blood cholesterol measurements, skinfold calipers, blood pressure cuffs, heart rate monitors, ECG supplies, treadmill and cycle ergometer maintenance.
Description: This course provides a comprehensive look at the clinical aspects of exercise physiology by thoroughly examining the relationship between exercise and chronic disease. It provides students with fundamental knowledge of disease-specific pathology and treatment guidelines. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.
Pre-requisite(s): ESS 2300 and ESS 3510.

ESS 4620 - Leadership Concepts for Human Performance Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will study the current philosophical leadership concepts and the principles, practices, and issues of administration.
Pre-requisite(s): ESS 2200.

ESS 4800 CRE - Directed Undergraduate Exercise Science Research

Credits: (1-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will provide undergraduate students an opportunity to engage in research processes and participate in ongoing research projects in the areas of exercise and sport science under the guidance of the ESS faculty.
Pre-requisite(s): ESS 2300, ESS 3450, ESS 3510 and/or
Permission of the Instructor. May be repeated for a total of up to 10 credit hours.

**ESS 4830 - Directed Readings in Exercise Science**

**Credits:** (1-3)
**Typically Taught Summer Semester:** Full Sem - Online, 1st Blk Online
**Typically Taught Fall Semester:** Full Sem - Online
**Typically Taught Spring Semester:** Full Sem - Online

**Description:** Each student is given the opportunity to do independent and directed readings, or secondary research on advanced special topics under the direction of a faculty mentor.

**Pre-requisite(s):** ESS 2200 and consent of faculty supervisor.

**ESS 4890 INT - Cooperative Work Experience**

**Credits:** (1-6)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** A continuation of ESS 2890. May be repeated 5 times up to 6 credit hours.

**ESS 4990 - Senior Seminar**

**Credits:** (1)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** For Seniors only. Structured seminar focuses on synthesis of ideas and portfolio preparation.

**ESS 6300 - Advanced Biomechanics**

**Credits:** (3)
**Description:** Designed to expose the graduate student to appropriate research in sports biomechanics and to be involved in the analysis of movement based on selected mechanical principles such as balance, buoyancy, leverage, force, angles of rebound, projection and motion.

**Note:** Check with Department for course availability.

**ESS 6400 - Advanced Exercise Physiology**

**Credits:** (3)
**Description:** Understanding the physiological changes associated with exercise and training and the reasons for change are the paramount directives of this course.

**Suggested Requisite(s):** Concurrent with the lecture component is the practicum laboratory experience of equipment operation and individual assessment of physiological parameters.
**Note:** Check with Department for course availability.

**ESS 6540 - Physiological Aspects of Human Performance**

**Credits:** (2)
**Description:** Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.
**Pre-requisite(s):** PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).
**Note:** Check with Department for course availability.

**ETC 2001 SS/EDI - Engineering Culture**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Engineering Culture describes the culture of engineering and the social and scientific practices as well as beliefs that engineers ascribe to in pursuing their profession. It also describes how culture is shaped by engineering and by the technologies that engineers make and maintain. This course examines the professional cultures that engineers inhabit as well as the way that a wider culture is shaped by engineering.

**ETM 5913G - Six Sigma Tools I**

**Credits:** (3)
**Description:** This distance learning course provides an introduction to the six sigma body of knowledge as defined by the American Society of Quality (ASQ). The course will examine the foundations of six sigma and the statistical tools used in the initial stages of the DMAIC problem solving methodology.
**Pre-requisite(s):** BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as MATH 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm.

**ETM 5923G - Six Sigma Tools II**

**Credits:** (3)
**Description:** This distance learning course is a follow-on
to the initial six sigma course and provides additional detail on the analyze, improve and control portions of the DMAIC problem solving methodology. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

**Pre-requisite(s):** ETM 5913G, Six Sigma Tools I.

### ETM 5933G - Lean Tools

**Credits:** (3)
**Description:** This course teaches students lean manufacturing tools for continuous improvement in a manufacturing environment.

**Pre-requisite(s):** BS with three years relevant experience & an engineering statistics undergraduate course or equivalent such as Math 3410 is required, or instructor's approval. Students also must be able to work on an approved six sigma project at a firm. This distance learning course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

### ETM 5943G - Lean-Sigma Implementation

**Credits:** (3)
**Description:** This course introduces students to the implementation skills necessary to successfully combine and apply lean manufacturing and six sigma concepts in small to mid-sized manufacturing facilities. This course is required for the Institutional Certificate in Quality and Lean Manufacturing, and can be used as a technical elective for the Oklahoma State University Engineering Technology Management Master's Degree.

**Pre-requisite(s):** ETM 5923G, ETM 5933G.

### FAM 2100 - Family Resource Management

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** Understanding the significance of values, goals, attitudes and planning strategies in the management of human, economic and environmental resources as they relate to increasing satisfaction and the enhancement of family relationships.

### FAM 2810 - Experimental Courses

**Credits:** (1-6)
**Typically Taught Summer Semester:** Full Sem, Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

### FAM 2830 - Directed Readings

**Credits:** (1-3)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Individually chosen readings on specialized topics supervised by a faculty member.

**Pre-requisite(s):** Consent of faculty supervisor prior to registration.

May be repeated up to 3 credit hours.

### FAM 2860 INT - Practicum

**Credits:** (2-6)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** This course fee will be used to provide coaching support for field experiences associated with this course.

**Description:** Work experience which applies prior academic learning in a supervised setting.

**Pre-requisite(s):** For Early Childhood majors: CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620, or
consent of faculty advisor prior to registration. May be repeated up to 6 credit hours.

**FAM 2910 - Children & Families: Variable Titles**

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: Full Sem, Full Sem - Online

Typically Taught Spring Semester: Full Sem, Full Sem - Online

**Description:** An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620

**FAM 2920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)

Workshop

**Description:** Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is taught as needed.

**FAM 2990B - Seminar in Family Studies**

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** Discussion and analysis of special topics for Family Studies majors including professional skills, professional credentials, and the development of professional ethics.

**FAM 3150 - Consumer Rights and Responsibilities**

Credits: (3)

Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

**Description:** The role and responsibilities of the family and its members as consumers. An exploration of marketplace fact and fraud and identification of consumer resources.

**FAM 3350 GLB - Diverse Families**

Credits: (3)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** A comparative analysis of various types of ethnic families in the United States reflecting their social and political dynamics with extensive coverage of the family lifestyles, traditions and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional and current ethnic family characteristics, and changes and adaptations to the ethnic family and culture.

**FAM 3400 - Development in Middle Adulthood**

Credits: (3)

Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** The content of this course is designed to create a foundation of knowledge and understanding for the required core competency of the nationally recognized Family Life Education Content areas. Specifically addressing competency area number 3, Human Growth and Development across the Lifespan. The course will focus on normative and non-normative individual developmental processes, as well as systemic dynamics of social context surrounding and impacting middle-aged development.

**FAM 3450 - Adult Development**

Credits: (3)

Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem

**Description:** Growth and development through young, middle, and late adulthood within a developmental and family system context.

**FAM 3550 - Parenting Education**

Credits: (3)

Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** A course designed to assist in the acquisition of skills and knowledge regarding the understanding and facilitation of contemporary parents in their parenting role.
Course content will include conceptualizations and strategies from both contemporary theoretical and applied perspectives.

**FAM 3650 - Family Processes**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An examination of family internal dynamics and family systems for the purpose of enrichment, problem prevention and education.
Pre-requisite(s): CHF 2400.

**FAM 3660 - LGBTQ Families**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is an exploration and investigation into the issues facing lesbian, gay, bisexual, transgender, and queer (LGBTQ) families. Family is defined broadly to include all relationships in which primary care-giving responsibilities are shared by individuals who are interdependent upon each other. This includes conjugal relationships (marriages and other romantic relationships) and non-conjugal relationships (parent/children, friends, siblings, grandparents/grandchildren, etc.). We will consider not only LGBTQ families, but also the social structures and systems in which they operate. We will use lectures, group discussions, films, readings and in-class activities to explore the meanings of sex, sexual orientation and sexuality, family form and function, care-giving, family-planning, marriage and parenting. We will pay particular attention to cultural, political, gender, racial, and economic dimensions of queer families. You will develop an understanding of the issues facing a wide range of LGBTQ+ family configurations.
Suggested Requisite(s): CHF 2400.

**FAM 3700 - Family Life Education and Sexuality**

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem
Description: This course is a survey of issues and attitudes associated with Family Life Education (FLE) and sexuality. It is primarily intended for professionals who currently work with individuals or plan to in the future. Using a biopsychosocial perspective, emphasis will be placed on the social, cultural, familial and individual differences in sexual and reproductive attitudes, values, and behavior. Students will be introduced to common sex-related issues and to the particular concerns of various sexually oppressed groups. Information will also be provided about childhood sexual abuse and its relationship to the intimacy issues that clients typically present in direct practice.

**FAM 3820 - Organization and Leadership of Non-profit Family Services**

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Full Sem
Description:
This course will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

**FAM 3850 CRE - Current Research Methods in Child and Family Studies**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An introduction to the methods and types of research used in the study of family issues and processes. Focus of the course includes the development of student knowledge and skills used in applying the scientific method in family studies contexts. Understanding, reviewing, evaluating, and interpreting the methods and conclusions reported in the professional empirically based journals will also be emphasized.
Pre-requisite(s): CHF 1500, CHF 2400.

**FAM 4275 - Family Life Education Coaching**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is to prepare students to become family life coaches. The course covers topics from the foundational theories/models of coaching (positive
psychology, cognitive-behavioral coaching, and others), how to conduct coaching sessions, the delineation between counseling and coaching, and how to run a coaching business. Students will practice coaching with other students as well as with actual practice clients.

FAM 4300 - Latino Child and Family Development

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Spring Semester: Online
Description: The Latino Child and Family Development course is designed as an upper division course for those who will work with, advocate for, or interact with children and families from a Latino background. The course uses a cultural constructivist approach to understand Latino children and their families. The central focus includes the study of Latino culture, parenting practices, couple and marital practices, and other family dynamics. Additionally, a major goal is to understand and deconstruct stereotypes associated with individuals within the Latino culture. The course will simultaneously focus on Latinos living within the United States as well as cultural groups throughout North America, South America, and the Caribbean.

FAM 4310 - Understanding the Modern United States Military Family

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to assist you in understanding the structure and formation of each service branch as well as the experiences of families serving in the U.S. Military focusing on both Active duty and Reserve components using Family Systems Theory, Risk and Resiliency Theory and Ambiguous Loss Theory. In recent years, many changes have taken place in the military family landscape. The knowledge gained in this course should provide you with insight into the complex experiences of today's U.S. Military Families. The information provided in this course is designed to assist students to be effective in professional settings working with military personnel and their families, and is a starting foundation for those interested in pursuing professional civilian careers working with military families in a variety of settings (e.g., nonprofit organizations, the U.S. Military, and others). This course will focus on different components of family life that specifically impact military families. The course format will include (1) readings, (2) online lectures, (3) quizzes, (4) exams, and (5) online and in class discussion.

Pre-requisite(s): FAM 1400, CHF 1500, CHF 2400.

FAM 4350 - Religiosity and Family Life Education

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The Religiosity and Family Life Education course as an upper-division course that examines how various religious traditions and practices influence family dynamics and interaction. Specifically, how religious traditions and practices influence couple formation, martial dynamics, parenting practices, gender roles, intergenerational relationships, and sexuality. Furthermore, to develop an understanding and appreciation for a diversity of faith traditions (including nonbelief). Finally, how family life educators can effectively work with diverse populations in a variety of settings.

FAM 4400 - The Family in Stress

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: Examining causes of stress in the family and developing strategies for coping with stress.

FAM 4450 - Children and Families in the Medical Setting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The purpose of this course is to understand and serve children and families in the medical setting and to provide basic background and knowledge of Child Life practices. This course prepares individuals who plan to complete a 600-hour volunteer internship in the field of Child Life. Passing this course is required prior to entering into an internship and taking the National Child Life Certification Examination. The content of this course is designed to create a foundation of knowledge, both academically and practically, in the required core competencies of the Association of Child Life Professionals to achieve the nationally recognized Child Life Certification. The core competencies include the ability to assess and provide services to infants, children, youth, and families in a medical setting including stress management, coping strategies, educational preparation, age-appropriate interventions and community resource education.
FAM 4500 - Comparative Study of Childhood and Adolescent Development

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Spring Semester: Full Sem
Description: An advanced level course that addresses the understanding of the principles and theories of growth and development within and between the stages of children in childhood and adolescence. Covers the physiological, intellectual, social, emotional domains of development.

FAM 4520 - Basic Mediation Training

Credits: (3)
Description: A basic mediation training course addressing the theory and skills to effectively deal with conflict situations. The course leads to certification in basic theory and skills of mediation. (Supervised mediation practice is required to complete certification.)
Note: This course is taught as needed.

FAM 4600 INT - Family Studies Field Experiences

Credits: (1-8)
Description: Six to eight weeks internship, which may require off-campus residence. Credit and hours as arranged with instructor.
Pre-requisite(s): consent of instructor.
May be repeated up to 8 credit hours.
Note: This course is taught as needed.

FAM 4650 - Family Life Education Methods

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparing students to be Family Life Educators by exploring philosophies, methods, and skills for teaching and working with parents and family members.
Pre-requisite(s): FAM 3350, FAM 3550, and FAM 3850, or consent of instructor.

FAM 4660 - Advanced Skills for Family Life Educators

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This upper division course is centered on students' development of interpersonal and pedagogical skills as Family Life Educators under the direct supervision of course instructors. This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators. This includes building audience engagement and trust through the use of observational feedback, responding to nonverbal cues, and addressing common teaching challenges. This course will teach students to present specific family life education materials in two contexts: 1-within the classroom among peers and faculty and 2-within the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education, and it also provides students with the experience of having presented a community education program in multiple contexts.

FAM 4800 - Individual Research

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor. May be repeated up to 6 credit hours.

FAM 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

FAM 4830 - Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individually chosen readings on specialized topics supervised by a faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.
Pre-requisite(s): Consent of faculty supervisor prior to
registration. May be repeated up to 3 credit hours.

**FAM 4860 INT - Practicum**

**Credits:** (1-6)
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Work or volunteer experience which applies prior academic learning in a supervised setting. Consent of faculty supervisor is required prior to registration.  
**Pre-requisite(s):** for Family Studies Majors include FAM 2990B, FAM 3350, FAM 3550, FAM 3850, and completed background clearance. May be repeated up to 6 credit hours.

**FAM 4900 - Career Strategy Seminar**

**Credits:** (1)  
**Description:** Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.  
**Note:** This course is not currently offered.

**FAM 4910 - Children & Families: Variable Titles**

**Credits:** (1-3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

**FAM 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)  
**Workshop**  
**Description:** Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.  
**Note:** This course is taught as needed.

**FAM 4990B - Senior Seminar in Family Studies**

**Credits:** (3)  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Discussion and analysis of special topics for seniors in Family Studies major.  
**Pre-requisite(s):** FAM 2990B, FAM 3350, FAM 3550, FAM 3850, or consent of instructor.

**FILM 2200 CA - Fundamentals of Film**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online  
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online  
**Course Fee:** $30.00  
**Course Fee Purpose:** Screening materials and camera and editing equipment  
**Description:** Fundamentals of Film Studies offers film majors a more specialized analysis of formal cinematic elements, and narrative structure while introducing students to the basics of filmmaking and related technologies. It helps film students to articulate the theoretical and practical skills to recognize, analyze, and create the film as an art form. Students will also learn about the principle of "building blocks" and formal elements (narrative, mise-en-scene, cinematography, sound and editing) that constitute the fundamental principles of analysis, genre, style, performance and storytelling. We will also outline, explain, and draw connections among artistic, technological, socioeconomic forces, which have shaped and reflected in the world of cinema. We will concentrate on essential films and directors from around the world to comprehend their contribution to the evolution of film form and content. In addition to the weekly lecture, screenings, and reading and writing assignments, students will also have the opportunity to put theory to practice by producing short film projects.

**FILM 2280 - Introduction to Film Production**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online  
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem -
Online

Course Fee: $30.00
Course Fee Purpose: Maintenance and purchasing of camera and editing equipment

Description: This practical and technical course explores all essential aspects of filmmaking in preparation of more advanced film production classes. Participants will acquire a fundamental grounding in all of the essential skills in film production from planning a project to producing and on toward completing the project with an overview of film festival participation and distribution. Students will also have an opportunity to gain insight into industry-standard film equipment and post-production technologies. One of the primary goals of this course is to familiarise film students with the fundamentals of cinematography, including the use of the professional camera, composition, lighting, and editing. Another goal is to examine the conceptual and unique challenges of visual-driven filmmaking: scriptwriting, pre-production, planning, continuity, and directing among them.

FILM 2820 - Special Topics in Film Studies

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

Description: The special topic in film course may focus on an international cinema, a major filmmaker, genre, or a specific era. It may be repeated three times for credit.

FILM 3200 - History of Film

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online

Course Fee: $30.00
Course Fee Purpose: Screening materials

Description: This class is a survey of world cinema from 1893 to the present. We will examine movies as a business, a social phenomenon, a series of technological innovations, and an art form, and we will work toward a functional explanation of how each of these aspects of the movies has changed over time. Although many people associate movies with the American film industry, filmmakers in every historical period and all over the world have worked to both distinguish their work from that of Hollywood and to draw upon some approaches innovated by the Americans. The films screened in class may include silent epic blockbusters from Italy, riveting crime thrillers from Germany, explosive Hong Kong action movies, French New Wave dramas, anarchic British satires, and many other examples of exciting and innovative filmmaking from all over the world.

FILM 3780 - Survey of Documentary Cinema

Credits: (3)
Typically Taught Spring Semester: Full Sem

Description: The history of documentary cinema consists of a series of experimentations in the attempt to represent reality, taking its material from the historical world we live in. As we study the forms, modes, theories, and criticism of non-fiction film in this course, we will also discover how filmmakers have chosen to represent reality, how changing technologies and sensibilities have affected the way reality is represented in documentaries, and how nonfiction films have been used for different purposes.

FILM 3800 - Independent Study

Credits: (1-3)

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This Independent Study course provides an opportunity to earn academic credit for learning outside the regularly scheduled class structure. A student interested in knowing more about a topic not covered in the regular Film Studies curriculum may propose a creative or research project to any rostered department faculty member. If a student and faculty member share a sufficient interest in the subject to sustain an independent study project, an independent study contract will be created.

Pre-requisite(s): FILM 2280: Introduction to Film Production

FILM 3810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and
credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**FILM 3900 - Sundance Film Festival Experience**

**Credits:** (1-3)  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course is a hybrid intense first-hand experience of the world of independent filmmaking through the Sundance Film Festival. The Sundance Film Festival has launched the careers of many contemporary auteurs, including the Coen Brothers, Christopher Nolan, Wes Anderson, Lynn Ramsey, Quentin Tarantino, and Steven Soderbergh. This course provides the opportunity for film students to hone their own creative and critical visions by viewing and discussing a wide variety of world premiere films, as well as by attending talks by filmmakers, business people, scholars, and critics in the vibrant environment of Sundance.

**FILM 4120 - Careers in Film and Entertainment Industry**

**Credits:** (3)  
**Typically Taught Spring Semester:** Full Sem  
**Description:**  
This introductory course for producers, directors, writers, development personnel, and aspiring film executives examines the changing business issues associated with the film industry. This course is designed to provide film students with a systematic overview of the modern-day filmed entertainment industry, not only the traditional "Hollywood System" operating out of Los Angeles but the independent film model as well. Through lectures, discussions, and case studies, instruction focuses on current business and production issues and introduces new business models to navigate content onto new distribution platforms.

**FILM 4700 - Film Studies Capstone**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online  
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online  
**Course Fee:** $30.00  
**Course Fee Purpose:** Maintenance and purchasing of camera and editing equipment  
**Description:** This Capstone course is designed to conclude students' experiences as film majors at the Weber State University as well as to develop students' research, writing, and/or production skills. In this course, students will analyze or produce films that pertain to the special topic of their choice. Peer review will occur throughout the writing or production process. At the end of the course, students will present their findings and/or films to the class and faculty members from the Film Studies program.

**FILM 4890 - Film Internship**

**Credits:** (1-3)  
**Typically Taught Summer Semester:** Full Sem  
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** FILM 4890 connects the theoretical and practical understanding of film studies that students develop in the classroom to professional experience in the workplace. The course is open to Film Studies majors who have obtained internship placements working with professionals in film production, Film organizations such as Sundance Institute and Utah Film Commission, exhibition, preservation, or other film-related fields. The academic component of the course consists of reading and written work designed to provide a theoretical framework for experiential learning. Students will submit a portfolio of writing, reflections, and evaluations where they connect these readings to their on-site experiences.  
**Pre-requisite(s):** Film 2200: Fundamentals of Film; Film 2280: Introduction to Film Production

**FIN 1010 - Personal Finance**

**Credits:** (3)  
**Typically Taught Summer Semester:** Full Sem Online  
**Typically Taught Fall Semester:** Full Sem, Full Sem Online  
**Typically Taught Spring Semester:** Full Sem, Full Sem Online  
**Description:** Personal and family budgeting, installment buying, borrowing money, buying a home, life and property insurance, personal investment, and retirement and estate planning.

**FIN 2300 - Introduction to Investments**

**Credits:** (3)  
**Description:** A study of investment opportunities, mechanics, analysis, risk, and risk management at the introductory level. This course is designed for non-finance
majors and will not be accepted as a substitute for FIN 3300.
Note: Course not currently being offered.

FIN 3200 - Financial Management

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Financial analysis, planning and control, working capital management, capital budgeting, and short-term and long-term financing. Student use of computers is required for the preparation of case study material used to enhance the presentation of selected topics presented in the course.
Pre-requisite(s): ACTG 2010, ECON 2010, MIS 2010, and QUAN 2600.

FIN 3300 - Investments

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An in-depth study of principles, concepts, and tools used in the investment field as they relate to investment opportunities, mechanics, financial statement analysis, risk, and portfolio management. Computer use is required to access the Dow-Jones market analyzer investment software and in the preparation and analysis of investment portfolios.
Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 3350 - Financial Institutions

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of the functions and significance of the major financial institutions, such as commercial savings institutions, with an emphasis on management problems, regulations, credit appraisal, and loan types.
Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 3400 - Real Estate Principles and Practices

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Description: Fundamental economic aspects of real estate with emphasis on realty as a commodity of trade. The subject matter in this course is of general interest to both those desiring to enter the real estate profession and those who only intend to own real estate.
Pre-requisite(s): FIN 3200.

FIN 3500 - Capital Budgeting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Capital investment decision-making procedures relative to make/buy, lease/buy, working capital, replacements, and new investment decisions. Involves use of the computer in the analysis of cash flows and capital acquisition alternatives.
Pre-requisite(s): BSAD 2899, FIN 3200.

FIN 4400 - Financial Problems - Corporate Finance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Problems in financial management with an emphasis on corporate finance. Use of financial software and computers is an integral part of problem solutions.
Pre-requisite(s): BSAD 2899, FIN 3200, and QUAN 3610.

FIN 4410 - Financial Problems - Investments

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Problems in financial management with an emphasis on investments. Use of financial software and computers is an integral part of problem solutions.
Pre-requisite(s): BSAD 2899, FIN 3300.

FIN 4800 - Independent Research

Credits: (1-3)
Description: Directed research and study on an individual basis.
Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

FIN 4850 - Finance Study Abroad
FIN 4860 INT - Finance Internship

Credits: (3)
Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through finance courses.
Pre-requisite(s): BSAD 2899; Senior Standing; Instructor approval.

FIN 4900 - Special Topics in Finance

Credits: (4)
Variable Title
Description: Special treatment of current topics in Finance. This course will involve primary and/or secondary research by class participants.
Pre-requisite(s): BSAD 2899, FIN 3200; Instructor approval.

FL 2410 GLB - Introduction to Localization

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: Introduction to the field of localization. Includes the globalization of digital applications such as software, websites, videos, and video games. Addresses how to overcome both technical and cultural issues in localization and internationalization.

FL 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00

FL 2810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit.
May be repeated for a total maximum of 6 credit hours.

FL 2851 - HU Study Abroad

Credits: (3)
Description: Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

FL 3270 - Special Topics in Linguistics

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with Department for course availability.
FL 3320 - Applied Language Studies

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

FL 3420 GLB - Introduction to Translation

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: Introduction to the theory and practice of translation, with emphasis on the techniques and skills needed to translate commercial texts. Students will learn the concepts and conceptual framework for the analysis and understanding of translation as a process and a product.
Pre-requisite(s):
Intermediate Low proficiency in a second language (2020 or the equivalent).

FL 3430 - Translation Technology

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This course introduces students to the theory and practical use of translation technologies important to management, engineering and linguistic roles in translation and localization, with a primary focus on tools for linguistic roles including translation and editing.

FL 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

FL 3580 - Global Cinema

Credits: (3)
Typically Taught Summer Semester: 1st Block, 1st Block Online, 2nd Block, 2nd Block Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Course Fee: $8.00
Course Fee Purpose: Course fees in FL courses are designed to cover the costs of classroom equipment maintenance and replacement including desktops, projectors and projector screens, etc. and Translation and Localization software, including audiovisual translation; consumable materials and supplies; and support for student tutors, and online instructional resources.
Description: A survey of global cinema movements and film aesthetics. Analysis of films within the context of a variety of cultures and diverse cinematic traditions of the world.

FL 3590 - Special Topics in Literature

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.

FL 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers...
and modalities with which interpreters work. Ethical
decision-making models and the Code of Ethics for
interpreters are explored.

**FL 3760 - Special Topics in Translation**

**Credits:** (3)

**Variable Title**

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation Studies and Localization.

**FL 3810 - Experimental Course**

**Credits:** (1-6)

**Experimental**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**FL 4400 - Methods for Teaching Languages**

**Credits:** (5)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $15.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (AL=Advanced Low) Practical Methods, techniques and strategies for teaching foreign languages. This course will also review second language acquisition research, various assessment techniques, the ACTFL Proficiency Guidelines and the National Standards for Foreign Language Learning. Emphasis is on planning, teaching and assessment. Offered spring semester only.

**FL 4500 - Methods for Teaching Languages**

**Credits:** (4)

**Typically Taught Summer Semester:** Full Sem Online

**Typically Taught Fall Semester:** Full Sem Online

**Typically Taught Spring Semester:** Full Sem Online

**Description:** This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

**FL 4801 - A&H Leadership Lecture Series**

**Credits:** (1)

**Typically Taught Spring Semester:** Full Sem

**Description:** This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

**FL 4810 - Experimental Course**

**Credits:** (1-6)

**Experimental**

**Description:** Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

**FL 4860 INT - Foreign Language Internship**

**Credits:** (1-3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $2.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IL=Intermediate Low) An opportunity for students to receive academic credit for faculty-approved, on-the job learning experiences that involve foreign languages and/or cultures. Credit/No Credit grading only.

**Pre-requisite(s):** Instructor Approval.

May be repeated up to 6 credits.

**FL 4990 - Senior Assessment**
**Credits:** (.5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Required of all majors during their senior year. Students will assemble a portfolio with a representation of their work in the foreign language. Speaking skills will also be evaluated. Must be completed before graduation clearance.

**FL 6500 - Methods for Teaching Languages**

Credits: (4)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: This course presents theoretical premises and research on foreign language acquisition. It uses the standards for foreign language learning as the organizing principle for instructional methods; students design classroom lessons, projects and assessments based upon standards. FL 4500 is designed for students who are working toward a foreign language teaching degree or for teachers not desiring post-graduate credit. FL 6500 is designed for teachers who are seeking to recertify or to become endorsed at the graduate level.

**FRCH 1000 - Proficiency Development**

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles. Note: Course not currently being offered.

**FRCH 1010 - First Semester French**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

**FRCH 1020 - Second Semester French**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of FRCH 1010. Basic language skills including listening, speaking, reading, writing and culture.

**FRCH 1700 - Conversational Skills**

Credits: (1-3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles. Note: Course not currently being offered.

**FRCH 1852 - Study Abroad**

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply.

May be repeated twice with a maximum of 3 credit hours. Note: Check with Department for course availability.

**FRCH 2000 - Proficiency Development**

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

**FRCH 2010 - Third Semester French**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (NH=Novice High) Continuation of FRCH 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

**FRCH 2020 HU - Fourth Semester French**

**Credits:** (3)
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (NH=Novice High) Continuation of FRCH 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

**FRCH 2021 - Second Year II**

**Credits:** (3)
**Description:** (NH=Novice High) Continuation of FRCH 2010 without General Education Humanities credit. Offered through examination only.
**Pre-requisite(s):** Only available through testing.

**FRCH 2030 - Second Year Language Review**

**Credits:** (3)
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
**Note:** Check with department for course availability.

**FRCH 2600 HU - Introduction to Cultural and Literary Studies in Translation**

**Credits:** (3)
**Variable Title**
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken. May be repeated up to 10 times for credit under different titles.
**Note:** Check with Department for course availability.

**FRCH 2851 - Study Abroad**

**Credits:** (3)
**Description:** (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
**Note:** Check with Department for course availability.

**FRCH 2852 - Study Abroad**

**Credits:** (1-3)
**Description:** (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
**Note:** Check with Department for course availability.

**FRCH 2920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)
**Workshop**
**Description:** Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**FRCH 3000 - Proficiency Development**

**Credits:** (3)
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab,
EH 408, and classroom technology.

**Description:** (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

**FRCH 3060 - Grammar & Composition**

**Credits:** (3)
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

Note: Check with department for course availability.

**FRCH 3116 - DLI Bridge Course I**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

**Pre-requisite(s):** FRCH 2020 or AP exam with a score of 4 or better

**FRCH 3117 - DLI Bridge Course II**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

**Pre-requisite(s):** FRCH 2020 or AP exam with a score of 4 or better

**FRCH 3118 - DLI Bridge Course III**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

**Pre-requisite(s):** FRCH 2020 or AP exam with a score of 4 or better

**FRCH 3160 - Introduction to Literature**

**Credits:** (3)
**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.

Note: Check with department for course availability.

**FRCH 3220 - Phonetics and Phonology**

**Credits:** (3)
**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.

Note: Check with department for course availability.

**FRCH 3270 - Special Topics in Linguistics**

**Credits:** (3)

**Variable Title**

**Course Fee:** $8.00

**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.

**Description:** (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with department for course availability.

**FRCH 3320 - Applied Language Studies**
FRCH 3360 - Advanced Grammar

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure. Note: Check with department for course availability.

FRCH 3550 - Cultural Heritage I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.

FRCH 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

FRCH 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures. Note: Check with Department for course availability.

FRCH 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

FRCH 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

FRCH 3630 - Literature Poetry

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with FL 3160. May be repeated under different titles.

FRCH 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: Full Sem
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and
geographical regions. May be taken 3 times up to 9 credits under different titles.

**FRCH 3632 - Literature: Drama**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

**FRCH 3650 - Literature Periods**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

**FRCH 3670 - Literature Authors**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

**FRCH 3680 - Literature: Film**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles. Note: Check with department for course availability.

**FRCH 3690 - Special Topics in Literature**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with FRCH 3160.

**FRCH 3710 - Business Language I**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

**FRCH 3715 - Business Language II**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

**FRCH 3720 - Language for Specific Purposes I**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

**FRCH 3730 - Language for Specific Purposes II**
FRCH 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

FRCH 3750 - Introduction to Interpreting

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

FRCH 3760 - Special Topics in Translation

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation and Translation Studies.

FRCH 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Individual courses offered on an experimental basis, identified by specific name and description. The specific title will appear on student's transcript along with the authorized credit. May be repeated for a total maximum of 6 credit hours.

FRCH 3850 - Study Abroad

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

FRCH 4190 - Foreign Language Journal

Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

FRCH 4620 - Survey of Literature I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FRCH 3160

FRCH 4630 - Survey of Literature II
FRCH 4690 - Special Topics in Literature

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): FRCH 3160.

FRCH 4740 - Translation II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FRCH 3740 is strongly advised, but not required.

FRCH 4830 - Directed Readings

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

FRCH 4850 - Study Abroad

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

FRCH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

FRCH 4960 - Senior Project

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

FYE 1105 - Foundations of College Success

Credits: (3)
Typically Taught Summer Semester: 1st Blk, 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course assists incoming students in making a successful transition to college. Topics include the purpose of higher education, goal setting, time management, study and test taking skills, critical thinking, stress management, academic advisement, career and major exploration, using campus resources, and understanding student responsibilities.

FYE 3170 - First Year Experience Mentor Leadership Seminar

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** In this seminar course, FYE Peer Mentors are taught to effectively help Foundations of College Success (FYE 1105) students in making a successful transition to college. FYE Mentor requirements are available at www.weber.edu/fye/. Course enrollment limited to FYE Peer Mentors. May be repeated once for 2 more credits and additionally for zero credits.

**GEO 1030 PS - Earthquakes and Volcanoes**

**Credits:** (3)
**Typically Taught Summer Semester:** 2nd Blk, Full Sem
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** The causes, distribution, and effects of earthquakes and volcanoes within the framework of global plate tectonics. Development of problem solving and analytical thinking skills are emphasized through homework assignments related to geologic processes. Three lectures per week.

**GEO 1060 PS - Environmental Geosciences**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** The scientific study of the interaction of humans and earth systems including topics of natural hazards; soil, water, energy and mineral resources; and issues of global change. Three lectures per week.

**GEO 1065 - Environmental Geosciences Lab**

**Credits:** (1)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Laboratory and field exercises involving analysis of geologic data related to environmental issues or problems. Application of the scientific method and development of basic computational and map interpretation skills will be stressed. One three-hour lab per week.

**Pre-requisite/Co-requisite:** GEO 1060.

**GEO 1110 PS - Dynamic Earth: Physical Geology**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem, Full Sem Online
**Typically Taught Spring Semester:** Full Sem, Full Sem Online

**Description:** Fundamental principles of geology emphasizing physical aspects of the Earth including earth materials, plate tectonics, and the effects of water, wind and ice on the Earth's surface. Useful for all students, and recommended as the first geology course for students with majors/minors in geosciences, science teaching, archaeology, and pre-engineering. Three lectures per week. Optional field trip to observe local geologic features.

**GEO 1115 - Physical Geology Lab**

**Credits:** (1)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** The study of minerals and rocks in hand specimens, as well as surficial processes of the Earth revealed by topographic maps and air photos. One three-hour lab per week.

**Pre-requisite/Co-requisite:** GEO 1060 or GEO 1110 or GEOG 1000.

**GEO 1130 PS - Introduction to Meteorology**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** Survey of atmospheric processes that create weather. Topics include solar radiation, temperature, moisture, pressure, wind, storm systems, weather forecasting, and air pollution. Problem solving skills and use of satellite imagery included. Three lectures per week.

**GEO 1220 - Historical Geology**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
Typically Taught Spring Semester: Full Sem
Description: The history of the Earth and the methods used to interpret this history. Short field trips required.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 1110 and GEO 1115.

GEO 1350 PS - Principles of Earth Science

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Overview of Earth's systems, including weather, climate, seasons, rocks and minerals, processes that change Earth's surface, earthquakes, volcanoes, and plate tectonics. Data collection and analysis are included.
Two lectures and one three-hour lab per week. Designed for Elementary Education majors.

GEO 1710 - Introduction to Geographic Information Systems (GIS)

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations / other equipment.
Description: This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.
Pre-requisite/Co-requisite: GEOG 1790.

GEO 1720 - Geospatial Analysis

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are used replace expendables such as printer paper and color printer cartridges used for student printing in the lab.
Description: This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become an advanced GIS user with marketable skills transforming data into information needed to address today's geospatial problems.
Pre-requisite(s): GEO 1710.

GEO 1810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

GEO 2050 - Earth Materials

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: An introduction to the origin, classification, and identification of minerals and rocks including topics related to crystallography, mineral chemistry, petrology, and the importance of mineral and rock resources to our society.
Three lectures and one three-hour laboratory per week.
Pre-requisite(s): GEO 1115 and CHEM 1200.
Co-Requisite(s): CHEM 1210.

GEO 2200 - Geospatial Data Acquisition

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as field equipment (drones, GNSS units, tablets, etc.), annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations.
Description:
This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.

Pre-requisite(s): GEO 1710.

GEO 2600 - Laboratory Safety

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work. Class will meet once per week and will be taught in a lecture/demonstration format.
Class will meet once per week and will be taught in a lecture/demonstration format.
Cross-listed with BTNY, CHEM, GEO, and PHYS.

GEO 2820 - Elements of Research in the Sciences

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.
Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).
Cross-listed with CHEM 2820 and PHYS 2820.

GEO 2840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.
Pre-requisite(s): Consent of instructor prior to registration.
Pre-requisite/Co-requisite: GEO 1720 and GEOG 2400
This is a dual-listed course with GEO 4840.
May be repeated for a maximum of three credit hours.

GEO 2850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: Even Years
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.
Pre-requisite/Co-requisite: GEO 1720, GEO 2200, and GEOG 2400.
This is a dual-listed course with GEO 4850.

GEO 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in Geosciences who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times with a maximum of 6 credit hours.
Note: This course is offered as needed.

GEO 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and
credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed.

**GEO 2950 - Geoscience Fieldtrips**

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Application of basic Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations may be required.
Pre-requisite(s): consent of instructor.
May be repeated for a maximum of 6 credit hours.

**GEO 3000 - Geoscience Methods and Careers**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: An introduction to a variety of methods and skills used by geoscientists, including geoinformation literacy, written-oral-visual communication, and basic statistical/data analysis skills, that will be used and further developed in upper-division courses. Basic field and laboratory methods used in geoscience research/investigations will be demonstrated and practiced. Geoscience career paths will be explored and students will begin planning for professional licensure. Two hours of lecture and three hours of field/laboratory per week.
Pre-requisite(s): GEO 1220 and MATH 1010.

**GEO 3010 SUS - Oceanography and Earth Systems**

Credits: (3)
Typically Taught Spring Semester: Full Sem even years
Description: Study of the world's oceans as a framework for examining the major issues in Earth system science. Topics include plate tectonics and the origin of ocean basins, atmosphere-ocean linkages and feedbacks, El Nino events, the ocean's role in biogeochemical cycles, structure and organization of marine ecosystems, and the scientific basis for understanding human impacts on marine systems.
Three lectures per week.
Pre-requisite(s): GEO 1060 or GEO 1110 or GEO 1130 or GEOG 1000.

**GEO 3060 - Structural Geology**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: Origin and characteristics of structural features in deformed rock. Topics include basic principles of stress, strain, and rock deformation; analysis of faults and folds; and relations to major tectonic features of Earth. Field trips required.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 2050 and either MATH 1050 or MATH 1080; or consent of instructor.

**GEO 3080 - Applied Hydrology**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A detailed examination of Earth's water cycle, including precipitation, surface water, groundwater, water management, and water conservation. Three hours of lecture and three hours of laboratory per week.
Pre-requisite(s): GEO 1115 and GEO 3000.

**GEO 3150 - Geomorphology**

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: A study of landforms, surficial deposits, and geomorphic processes operating in fluvial, coastal, eolian, and glacial environments. Laboratory exercises employ maps, aerial photographs, and field analysis to understand the interactive nature of geomorphic processes and landform development.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 1220 and MATH 1050 or MATH 1080.

**GEO 3180 - Paleontology**

Credits: (4)
Description: Characteristics of important fossil groups and their geologic distribution and paleoecology. Emphasis on the invertebrate record with some treatment of vertebrates and plants.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 1220 or ZOOL 1110 or consent of instructor.
Note: This course is not currently offered.

**GEO 3210 SUS - Quaternary Environmental Change**

Credits: (3)
Description: Overview of the geologic and paleoclimatic
history of the Earth during the last 2 million years (the "Ice Age"), focusing on the interactions between geological, climatological, and biological processes and systems. Topics include the methods used to date Quaternary deposits, nature of Quaternary glaciations, use of proxy data to model past climates, causes of Quaternary climatic oscillations, history of Pleistocene Lake Bonneville, and the increasing role of humans as agents of environmental change.

Three lectures per week.

**Pre-requisite(s):** GEO 1220 or GEOG 1000 or ANTH 2030.

Note: This course is not currently offered.

**GEO 3214 - Soils**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Description:** An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management. Three hours of lecture and one 3-hour lab per week.

**Pre-requisite(s):** BTNY 2104 or GEO 1110 or GEO 1060 and CHEM 1130 or CHEM 1110 or CHEM 1210. Course is cross listed with BTNY 3214.

**GEO 3250 - Geology of Utah**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem even years

**Description:** The study of Utah's geologic history, rocks, minerals, fossils, and landforms and their relationship to regional and global events. Field trips required.

Three lectures per week.

**Pre-requisite(s):** GEO 1220.

**GEO 3550 - Sedimentology and Stratigraphy**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Description:** The processes, origin, classification, identification, and basic petrology of sedimentary rocks and the principles, concepts, and applications of stratigraphy. Field trips required.

Three lectures and one three-hour lab per week.

**Pre-requisite(s):** GEO 1220 and GEO 2050; or consent of instructor.

**GEO 3570 - Foundations of Science Education**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

**GEO 3710 - Introduction to Geographic Information Systems**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations / other equipment.

**Description:** This introductory geospatial course presents the fundamental principles and applications of Geographic Information Systems (GIS). You will learn how to evaluate and apply geospatial concepts using industry-leading GIS software to create, store, edit, evaluate, and query raster- and vector-based geospatial data. Successful completion of this course will ensure you have the critical knowledge and skills of a GIS (geospatial) technician.

**GEO 3720 - Geospatial Analysis**

**Credits:** (4)

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** The fees in this course are pooled with funds from other courses to help pay for nonexpendable items such as annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of equipment (e.g., GNSS instruments). The remaining funds are used replace expendables such as printer paper and color printer cartridges used for student printing in the lab.
Description: This advanced geospatial course presents geoprocessing techniques that support spatial analysis and modeling in both the vector and raster data models. The main goal of the course is to teach you the tools/methods that address spatial analysis / modeling applications used in a variety of professional fields that utilize geospatial information. After successful completion of this course, you will have the foundation necessary to become a Geospatial/GIS analyst or advanced GIS user with marketable skills required in the geospatial workforce today.

Pre-requisite(s): GEO 3710.

GEO 3753 - Geomicrobiology

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Course Fee: $30.00
Course Fee Purpose: GEO 3753: fees support the cost of field trips, supplies for the labs, and helps support the course based undergraduate research project.

Description: Geomicrobiology is the study of the interactions between microorganisms and minerals. This course will explore 1. geological change mediated by microorganisms, 2. microbial evolution driven by geologically diverse habitats, and 3. applications of geomicrobiology, including understanding the evolution of life on earth, the study of life in extreme environments, and industrial applications of geomicrobiology. This team-taught course includes classroom discussion, laboratories, and field trips.

Pre-requisite(s): CHEM 1210/CHEM 1215 or approval of the instructor.
Cross-listed with MICR 3753.

GEO 3810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

GEO 3840 - Remote Sensing: Principles and Methods

Credits: (4)
Typically Taught Fall Semester: Full Sem
Course Fee: $40.00
Course Fee Purpose: Fee is used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for non-expendable items such as annual software license fees for (ESRI, ArcGIS, ENVI, Trimble, etc.) and replacement of computer work-stations and other equipment.

Description: This is an advanced geospatial course that introduces and analyzes important concepts, issues, and methods related to a variety of multispectral and other types of remotely sensed imagery (e.g., satellite and airborne platforms). The major objectives are to provide students with both a foundation in understanding different types of imagery and how to process imagery used to address geospatial problems and issues. After successful completion of this course, you will have the knowledge needed to understand different types / applications of imagery and the skills needed to process the image data and assess the accuracy of the results.

Pre-requisite/Co-requisite: GEO 3710.

GEO 3880 - Groundwater

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $40.00
Description: Origin, occurrence, behavior, and use of groundwater, with special emphasis on practical applications in Utah.
Three lectures and one three hour lab per week.
Pre-requisite(s): GEO 1115 and either MATH 1050 or MATH 1080; or consent of instructor.
Note: This course is currently not being offered.

GEO 4060 - Geoscience Field Methods

Credits: (4)
Typically Taught Fall Semester: Full Sem
Description: A capstone course in the collection and analysis of field data for various Geoscience applications. Topics include introductory surveying, geologic mapping of bedrock and surficial deposits, measuring stratigraphic sections, GPS surveying, groundwater monitoring, and analysis of geologic hazards. Results are presented in maps, computer graphics, written reports, and oral presentations.
Two hours of lecture and six hours of lab/field work per week.
Pre-requisite(s): GEO 2050, GEO 3000, and GEO 3550.

GEO 4080 - Groundwater and Environmental Assessment

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: A survey of groundwater hydrology, including the origin, occurrence, behavior, and use of groundwater and the transport of groundwater and soil contaminants. Environmental site assessment and groundwater remediation are also examined. Three hours of lecture and three hours of laboratory per week.
Pre-requisite(s): GEO 3080.

GEO 4100 - Engineering Geology

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: Introduction to basic concepts in engineering geology and geotechnical engineering; emphasizes problem solving as the primary method.
Three lectures per week.
Pre-requisite(s): GEO 1060 and GEO 1065, or GEO 2050, or consent of instructor.

GEO 4200 - Geospatial Data Acquisition

Credits: (4)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: The fees in this course are used to purchase expendables such as printer paper and color printer cartridges used for student printing in the lab. The remaining funds are pooled with funds from other courses to help pay for nonexpendable items such as field equipment (drones, GNSS units, tablets, etc.), annual software license fees (e.g., ESRI ArcGIS, ENVI, Trimble, etc.) and replacement of computer workstations.
Description: This applied geospatial course introduces students to primary data collection methods in the field, with emphasis on GPS/GNSS, sUAS (drone), and smartphone/tablet operations. The main objective is to provide students with the knowledge and skills needed to successfully plan and execute field campaigns that result in the accurate collection and processing of geospatial data that can be used in a variety of applications. After successful completion of this course, you will know the fundamental techniques needed to effectively and accurately collect and process the most common types of geospatial field data.
Pre-requisite(s): GEO 3710.
Crosslisted with GEO 2200.

GEO 4300 - Igneous and Metamorphic Petrology

Credits: (4)
Typically Taught Spring Semester: Full Sem even years
Description: The origin, classification, and identification of igneous and metamorphic rocks, and understanding of igneous and metamorphic processes. Laboratory includes analysis of rocks in thin section and an introduction to optical mineralogy.
Three lectures and one three-hour lab per week.
Pre-requisite(s): GEO 2050 and CHEM 1220; or consent of instructor.

GEO 4510 - Geology Field Camp

Credits: (4)
Typically Taught Summer Semester: 1st Blk even years
Description: Integrated approach to collecting field data and interpreting geologic processes and history. Includes geologic mapping and analysis of bedrock, surficial deposits, and geologic structures using aerial photographs, topographic maps, and surveying techniques. Results presented in written reports, maps, and graphical formats. About forty hours of lab per week for about 4 weeks.
Pre-requisite(s): GEO 3060, GEO 3550, and GEO 4060; or consent of instructor.

GEO 4550 - Geochemistry

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: The chemical evolution of the Earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere. Applications to chemical reactions, mineral stability, aqueous solutions, geochemical cycles, and isotope geochemistry.
Three lectures per week.
Pre-requisite(s): CHEM 1220 and GEO 2050; or consent of instructor.

GEO 4560 - Environmental Geochemistry

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-world applications.
Three hours of lecture and three hours of lab per week.
Pre-requisite(s): CHEM 1220; or consent of instructor.
GEO 4570 - Secondary School Science Teaching Methods

Credits: (3)
Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.
Pre-requisite(s): Admission to the Teacher Education Program.
Note: This course is offered as needed.

GEO 4600 - Geophysics

Credits: (3)
Description: Principles and techniques of geophysical exploration, including gravity, magnetic, electric, and seismic methods. Course includes field collection and computer modeling of geophysical data.
Three lectures per week. Field trips required.
Pre-requisite(s): GEO 3060 and MATH 1220; or consent of instructor.
Note: This course is not currently offered.

GEO 4630 - Global Tectonics

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: Large-scale structure and dynamics of the Earth. Framework of plate tectonics including plate motion, processes at plate boundaries, and driving mechanisms. Processes of crustal deformation and evolution of orogenic belts over time, with examples from North America.
Three lectures per week. Field trips required.
Pre-requisite(s): GEO 2050 and GEO 3060; or consent of instructor.

GEO 4750 - Special Topics in Geosciences

Credits: (1-4)
Variable Title
Typically Taught Spring Semester: Full Sem
Description: An opportunity to examine in depth topics in the Geosciences not regularly offered as part of the standard course offerings. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): GEO 1110, GEO 1115, and any specific courses selected by the instructor.
May be repeated for a maximum of 8 credit hours.

GEO 4800 CRE - Independent Research

Credits: (1-3)
Typically Taught Summer Semester: Offered as needed.
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Independent research under the advisement of a faculty member.
Pre-requisite(s): Consent of instructor prior to registration.
May be repeated for a maximum of six credit hours.

GEO 4810 - Experimental Course

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

GEO 4830 - Directed Readings

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Directed individual readings in the general areas of geoscience and/or environmental science. Specific topics and readings selected in consultation with faculty member. Students will complete a scientific literature review and/or annotated bibliography.
Pre-requisite(s): GEO 3000 and approval of instructor.
May be repeated twice for a total of 2 credits.

GEO 4840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.
Pre-requisite(s): Consent of instructor prior to registration.
Pre-requisite/Co-requisite: GEO 3720 and GEOG 4400.
This is a dual-listed course with GEO 2840. May be repeated for a maximum of three credit hours.

GEO 4850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: Even Years
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace environment, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish. Pre-requisite/Co-requisite: GEO 3720, GEO 4200, and GEOG 4400.
This is a dual-listed course with GEO 2850.

GEO 4890 INT - Cooperative Work Experience

Credits: (1-6)
Description: A continuation of GEO 2890. Open to all students. May be repeated for a maximum of 6 credit hours.
Note: This course is offered as needed.

GEO 4970 - Senior Thesis

Pre-requisite(s): consent of instructor. May be repeated for a maximum of 6 credit hours.

GEO 4990 - Earth Science and Society Seminar

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: A thesis to be written by a student at the culmination of a period of individual field/laboratory and library research, under the direction of a specific faculty person. Pre-requisite(s): Senior standing and departmental approval of the thesis topic. Note: This course is offered as needed.

GEO 4950 - Advanced Geoscience Fieldtrips

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Application of Geoscience field methods during fieldtrips. Readings, written and oral reports, and/or examinations required.

Pre-requisite(s): consent of instructor. May be repeated for a maximum of 6 credit hours.

GEO 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed.

GEO 5030G - Geology for Teachers

Credits: (2-4)
Description: Science content course for teachers in the M.Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program. May be repeated once with a maximum of 4 credit hours. Note: This course is offered as needed.

GEO 5920G - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed.

GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life
Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: With a focus on interactions among air, water, land and life, this course explores the essentials of Earth's dynamic physical systems and society's profound impact upon them. When you finish this course, you will have a better understanding of how the planet works, a deeper appreciation for the environmental changes affecting all life on earth, and a guide to the prospects for a sustainable future.

GEOG 1002 - GPS, Map Reading and Navigation
Credits: (1)
Typically Taught Summer Semester: 1st Blk Online
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 2nd Blk
Description: Students learn how to use fundamental navigational equipment such as global positioning systems (GPS), compasses, aerial photos, and common topographic maps. Field work prepares course participants to apply these navigational skills and knowledge. With these skills you will not get lost. Weekly two-hour lab sessions for ten weeks.

GEOG 1005 - Planet Earth: Local Field Studies
Credits: (1)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: 1st Block
Typically Taught Spring Semester: 2nd Block
Description: Students conduct local field studies and measurements to explore air, water, land and life. Pre-requisite/Co-requisite: GEOG 1000.

GEOG 1300 SUS/EDI - Global Issues: Places, People and the Planet
Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: With an eye toward change and challenges, this course explores the planet's diverse and interdependent regions and people. Students gain a firm grounding in global economic, social and environmental issues, and how they manifest in the countries of the world. When you finish this course, you will know more about the geography of our global community and the shared and substantial challenges we all face if we are to achieve a sustainable future.

GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions
Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course examines the science behind climate change and provides an understanding of the basic physical, chemical, biological and geographical principles that explain the Earth's climate system and the human influence upon it. This course also explores the impacts of climate change, climate justice and communication, and considers feasible solutions. When you finish this course, you will be able to separate climate change myths from realities, and grasp the map to a sustainable future.

GEOG 1520 EDI/SUS - United States and Canada: Geography, Diversity and Change
Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem - Online, 1st Block, 2nd Block
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course explores the diverse places and people of the United States and Canada, with a focus on rapid change and sustainability. Students gain a firm grounding in a range of interconnected economic, social and environmental issues. Topics include warming climates, polarized politics, diversifying populations,
growing economic inequality, all-consuming technology, natural disasters, social justice, immigration, and many more. When you finish this course, you will better understand the geography of such transformative change in the context of this multifaceted region.

GEOG 1790 - Exploring Our World Through Geospatial Technology

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: This exploratory course introduces students to the fundamental concepts of Geospatial Science and how Geospatial Technology (GST) is used to measure, imagine, study, and discover our complex and ever-changing human and natural world. You will learn the basic techniques of cartography (mapping), GPS (global positioning systems), GIS (Geographic Information Systems), spatial analysis, and remote sensing (drones and satellites).

GEOG 2400 - Cartography and Map Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Cartography and Map Design is an essential component of geospatial knowledge and skills and anchors all research, presentation, publication, decision-making, and output from Geospatial Technologies. This course will cover geovisualization topics such as map components, projections, symbols, scale, grid systems, direction, coordinates, distance, relief, color, patterns, and the map design process. You can expect to work with Geographic Information Systems (GIS), though no previous experience is necessary. After finishing this course, you'll be able to study, understand, analyze, interpret, and especially construct good maps.

GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability

Credits: (1)
Typically Taught Fall Semester: 2nd Block
Typically Taught Spring Semester: 2nd Block
Description: This course introduces new and prospective Geography, Environment & Sustainability majors and minors to career opportunities, department faculty, options for major tracks, and real-world applications of geographic perspectives and techniques. When you finish this course, you will be able to identify a pathway through a major or minor and into a productive career.

GEOG 2840 INT - Geospatial Internship

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

Pre-requisite(s): Consent of instructor prior to registration.
Pre-requisite/Co-requisite: GEO 1720 and GEOG 2400.
May be repeated for a maximum of three credit hours.

GEOG 2850 - Geospatial Capstone

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

Pre-requisite/Co-requisite: GEO 1720, GEO 2200, and GEOG 2400.

GEOG 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the
current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed.

GEOG 2950 - Regional Field Studies or Field Trips

Credits: (1-3)
Typically Taught Summer Semester: 1st Block, 2nd Block
Typically Taught Fall Semester: 1st Block
Typically Taught Spring Semester: 2nd Block
Description: Travel to explore nearby National and State Parks, and urban and rural lands to make observations, collect data, perform field-based research, and report on the experience. May be repeated twice with a maximum of 3 credit hours. Note: This course is offered as needed.

GEOG 3050 - Weather and Climate: from daily storms to decades of drought

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course examines Earth's climate system, and the way its components interact to produce major weather and climate features. Examples include tornadoes, hurricanes, jet streams, El Niño, and the causes and consequences of climate change. When you finish this course, you will better understand our complex atmosphere, and the ways in which it affects us all.
Pre-requisite(s): GEOG 1000, or GEOG 1500, or GEO 1130, or the equivalent, or instructor's consent.

GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course explores a range of environmental issues from local to global contexts, considering their root causes, impacts, and interconnections to social and economic factors. Topics typically include air and water quality, food production, forests, consumption and waste/resource management, and the overarching issue of climate change. The course also identifies solutions to these challenges toward the creation of a more sustainable, equitable and healthy world for all. When you finish this course, you will better understand how people have transformed the environment and your own ability to contribute to solutions.
Pre-requisite(s): GEOG 1000, or BTNY 1403, or the equivalent, or consent of the instructor.

GEOG 3070 - Wetland Environments

Credits: (3)
Description: Analysis of physical properties, values, economic, and legal issues associated with wetland environments. Since wetlands in different places have many different attributes, a detailed examination is made of wetland environments in different parts of the United States. Note: Course not currently being offered.

GEOG 3080 - Arid Lands: Resources, Landforms, and the Quest for Water

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This class explores the complexity of a desert environment using a variety of learning materials such as satellite imagery, local to global databases, literature, podcasts, and documentaries. Students will discern the natural forces responsible for creating features of desert landscapes throughout the world. The class also explores how arid environments have shaped cultural practices and the management of resources in areas with little water and those facing climate change. Students will likely participate in brief local field work either during class time or on their own. After taking this class, students will understand why water is scarce in certain places, what forms the unique features of arid lands including those in Utah, and the delicate process of sustaining life in such environments.
Pre-requisite(s): GEOG 1000, GEOG 1500, or GEO 1060, or the equivalent, or consent of the instructor.

GEOG 3090 - Arctic and Alpine Environments

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course explores polar and high mountain physical environments, how humans interact with them, and the broader roles these places play within global-scale Earth systems. Topics include the causes and consequences of avalanches, polar climate and ozone depletion, basic glaciology, sea ice, and the responses of human physiology to high altitudes. When you finish this course, you will know more about Earth's spectacularly beautiful cold places, and why they matter to the rest of the world.
Pre-requisite(s): GEOG 1000, or GEOG 1500, or GEO 1060, or the equivalent, or consent of the instructor.

GEOG 3210 - Urban Geography: The How and Why of Cities

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores cities—the urban and suburban places where most of us in the world choose to live. In this course we will study the historical development of cities, the geography of how cities continue to grow and change, and how cities interact with their changing natural environments. When you finish this course, you will understand how cities work and be prepared to participate in a more sustainable urban future.

GEOG 3300 - Historical Geography of the United States

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A geographic analysis of America's past featuring an examination of cultural development in different parts of the United States and how this has produced many distinct regional landscapes throughout the country.

GEOG 3360 - Economic Geography: Globalization, Development and Conflict

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: More than anything else, economic activity binds the world's places, resources, producers, consumers, markets, governments, technology, and citizens. This global development produces both extravagant wealth and searing poverty, and it is rapidly exhausting the planet's natural environment. This course takes students from local to global as it explores the stunning force of economic activity. When you finish this course, you will better understand the power and peril of the global economy.

GEOG 3500 - Geography of Utah and the American West

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course examines the geography of the fast-growing and ever-changing state of Utah. Through explorations of public land, water, cities, tourism, environmental issues, population, and political economies this course provides a foundation for understanding Utah and how the state fits in the regional context of the American West. When you finish this course, you will be prepared to engage more thoughtfully with the challenges and opportunities of Utah and the American West.

GEOG 3540 - Geography of Latin America and the Caribbean

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: From Mayan, Aztec, and Incan beginnings to Conquest and Colonization by European powers, and later U.S. hegemony, this region of extraordinary natural beauty and diversity has been the subject of foreign intervention and control. Its contemporary geography is a legacy of the mighty forces that created the Amazon and the Andes as well as the clash of cultures from abroad, and now rapid and transformative change. When you finish this course, you will be able to chart the influences that have shaped this fascinating region.

GEOG 3590 - Geography of Europe: the Land and People who Built a World Power

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: What is Europe? A hearth of civilization or the home of war, conquest, and global empires? An emerging superstate or a fragmented collection of nations? This course explores the geography of Europe, from its physical environments to its diverse people and historical landscapes, and the geographical origins of current issues, such as the expansion and fracturing of the European Union, the future of NATO, and tensions with nearby countries and regions. When you finish this course, you will better understand the complexities of this historic U.S. ally and trading partner.

GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Description: This course explores the diverse geographies of East Asia, South Asia, and Southeast Asia—including the
powerful and populous countries of China and India. Specifically, the class investigates how each region is following different development paths, is impacted by and influences global geopolitics, and is experiencing changing populations, economies, and environments. When you finish this course, you will be better prepared to engage with a world in which many countries in the Asian region are becoming increasingly influential.

GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The geography of Africa is one of historical mystique, rapid modernization, and tremendous diversity. This course builds upon a basic understanding of Africa's physical geography and early history to examine continued neocolonial impacts and challenges facing the people of Africa today. In today's increasingly interdependent global community, understanding ethnic diversity, differences in gender, age and class is critical to resolving social, economic, political and environmental problems in both the African context, and in our own interconnected society. When you finish this course, you'll have a full appreciation of Africa's diverse geography.

GEOG 3780 - Geographic Area Studies

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Surveys different geographic areas and regions of the world. When this number is used it will be accompanied by a descriptive title and the credit authorized, which will appear on the student's transcript. May be repeated for credit up to nine hours when a different title is used.

GEOG 3790 CRE - Research Methods in Geography

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course introduces the methods used in geographic research, beginning with hypothesis formulation, review of literature, research design, gathering and analysis of data from a spatial perspective, and the analysis, interpretation and presentation of research results. Students are exposed to both quantitative and qualitative methods commonly used in geographic research, and are expected to have basic proficiency in spreadsheets, word processing and presentation software. IRBs and Grant Writing are also covered. The course is an essential prerequisite for GEOG 4990 CRE - Senior Seminar in Geography, which should be taken in the following semester.
Pre-requisite(s): One statistics class taken from any of the following: CJ 3600, SW 3600, GERT 3600, PSY 3600, SOC 3600, or MATH 1040.
Pre-requisite/Co-requisite: GEOG 2790 with a grade of C or higher.

GEOG 4400 - Cartography and Map Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Cartography and Map Design is an essential component of geospatial knowledge and skills and anchors all research, presentation, publication, decision-making, and output from Geospatial Technologies. This course will cover geovisualization topics such as map components, projections, symbols, scale, grid systems, direction, coordinates, distance, relief, color, patterns, and the map design process. You can expect to work with Geographic Information Systems (GIS), though no previous experience is necessary. After finishing this course, you'll be able to study, understand, analyze, interpret, and especially construct good maps. Advanced work required for upper division credit.

GEOG 4410 SUS - Sustainable Land Use Planning

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A study of the status and tools of planning, planning office organization, the federal and state role in planning, and problems in planning. The course emphasizes concepts of sustainable land use planning such as resource conservation, air and water quality improvement, agricultural land preservation, transit oriented development, and alternatives to suburban sprawl.

GEOG 4420 - Advanced Urban and Regional Planning

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A study of the enabling legislation for planning, zoning laws and ordinances, rezoning and review processes, zoning problems, and the ramifications of urban growth. The preparation, financing, citizen participation
and evaluation of land use pertaining to general plans. Class groups will prepare, critique, and present a draft urban general plan.

**Pre-requisite(s):** GEOG 4410.

**GEOG 4600 - Geospatial Programming and Online Methods**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Increasingly, geospatial professionals count both programming and web methods among their most useful skill sets, and employers often list them as highly desirable. This course focuses on two essential components of that geographic online experience: geospatial programming and online methods. This class is conducted in the Python programming language, but no previous experience is required. The first half of the course is devoted to helping students learn Python, while the second half is focused on applications of Python in the geospatial domain, including ESRI’s ArcPy, Open Source Modules, and custom web mapping solutions. With these tools, students will be able to solve geospatial problems, extend functionality, and streamline/automate GIS workflows through the creation and modification of Python scripts.

**Pre-requisite/Co-requisite:** GEO 4200.

**GEOG 4800 - Individual Research**

**Credits:** (1-3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** A personalized course designed to foster individual research and scientific writing. A maximum of six credit hours will be accepted toward a major in geography. **Instructor approval required before registering for this course.**

**Pre-requisite(s):** Instructor approval required before registering for this course.

May be repeated up to a maximum of 12 credit hours.

**GEOG 4840 INT - Geospatial Internship**

**Credits:** (1-3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** This summative course provides a structured work experience in a supervised setting under the direction of a geospatial employer mentor and the course instructor. The internship will give students invaluable experience with technical, professional, and ethical issues commonly faced by geospatial professionals in today's workforce. Each student will work with their supervisor/mentor and instructor to develop a set measurable Internship Learning Outcomes (ILOs) that will be used to evaluate performance and competence in a real-world job situation.

**Pre-requisite(s):** Consent of instructor prior to registration.

**Pre-requisite/Co-requisite:** GEO 3720 and GEOG 4400. May be repeated for a maximum of three credit hours.

**GEOG 4850 - Geospatial Capstone**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** This capstone course provides a summative learning experience that is a culmination of a student's geospatial education. Students apply their knowledge and skills to develop, implement, and evaluate a geospatial project that simulates a workplace experience, including collaboration as part of a team when appropriate. Students and the instructor develop a set of measurable Capstone Learning Outcomes (CLOs) that will be used to evaluate performance and competence to complete a geospatial project from start to finish.

This is a dual-listed course with GEOG 2850.

**GEOG 4890 INT - Cooperative Work Experience**

**Credits:** (1-6)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Open to all students in Geography who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department. A maximum of six credit hours will be accepted toward a major in geography. **Instructor approval required before registering for this course.**

**GEOG 4920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student's transcript. May be repeated for a total maximum of 6 credit hours.

**Note:** This course is offered as needed.
GEOG 4950 - Advanced Regional Field Studies or Field Trips

Credits: (1-3)
Typically Taught Summer Semester: Full Sem, 1st Block, 2nd Block
Typically Taught Fall Semester: 1st Block
Typically Taught Spring Semester: 2nd Block
Description: Travel to explore nearby National and State Parks, and urban and rural lands to make observations, collect data, perform field-based research, and report on the experience. Expectations and outcomes are more advanced than those of GEOG 2950.

A maximum of six credit hours will be accepted toward a major in geography.
Pre-requisite(s): A general course in Geography or consent of the instructor.
May be repeated up to a maximum of 12 credit hours.

GEOG 4990 CRE - Senior Seminar in Geography

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This capstone course builds on GEOG 3790 CRE - Research Methods in Geography. Students engage in a primary research experience that draws on the full range of skills and abilities acquired in prior semesters and classes, culminating in an original, professional-quality research report, thesis, or applied project. Students present their work in an end-of-semester forum, and will have the opportunity to present in other professional settings and/or submit their work for publication.
Pre-requisite(s): Senior standing.
Pre-requisite/Co-requisite: GEOG 3790.

GEOG 5030G - Geography for Teachers

Credits: (3)
Description: Science content course for teachers in the MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Course may be repeated. Contract must be approved by instructor, department chair, and Director of the Master of Education Program. Graduate.
Note: This course is offered as needed.

GERT 2220 - Introduction to Social Gerontology

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A scientific study of social and psychological aging and the application of principles and strategies to facilitate adaptation to aging. The focus is on methods and systems for gathering data, demography of aging, social theoretical perspectives, psychological effects of aging, aging and the economy, and government and the politics of aging.

GERT 2900 - Current Topics on Aging

Credits: (2-4)
Variable Title
Description: A study on age related topics of current interest. Specific title will appear on student's transcript along with authorized credit.
May be repeated once for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-4)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated up to 3 times for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 3000 - Death and Dying

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** An in-depth study of death, death-related issues and social institutions and practices dealing with death in American society, with special emphasis on the social processes surrounding death and constructive responses to death and dying.

Cross-listed with SW 3000.

**GERT 3120 - Aging: Adaptation and Behavior**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** An examination of the physical and psychological processes of aging. The emphasis is upon behavioral and social adaptation to these processes.

Cross-listed with SW 3120.

**GERT 3320 - Ethnicity and Older Women in the American Society**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** The importance of special populations (ethnic, racial and women) as they relate to the aging process.

Cross-listed with SW 3320.

**GERT 3400 - Methods of Research: Social and Behavioral Research**

**Credits:** (4)

**Description:** Focus on acquiring knowledge, developing skills, and conducting social and behavioral scientific research, utilizing single system design that includes visual and statistical assessment. The course will include both qualitative methodologies (evaluative research, historical methods, case studies, field research, ethnography studies, and grounded theory) and quantitative methodologies (experimental and survey with a special emphasis on survey).

**Pre-requisite(s):** It is recommended to take a Statistics course before Research.

Note: Course not currently being offered.

**GERT 3500 - Social Welfare & Gerontological Policy Development and Service**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** The history, mission, philosophy and human service aspects used in the development of social work/gerontology as a profession will be covered. Examples of social, public and social welfare policy will be identified and studied. Knowledge of local, state, and federal legislation, professional organizations, and membership organizations will assist in review of lobby, funding and implementation practices used in meeting human service needs. Methods for the political and organizational analysis of processes and policy will be covered.

**Pre-requisite(s):** SW 1010 or GERT 1010. (SW 3500/GERT 3500 must be completed before entering Field Practice).

**GERT 3600 - Social Statistics**

**Credits:** (3)
**Typically Taught Summer Semester:** Online
**Typically Taught Fall Semester:** Full Sem, 1st Blk, Online
**Typically Taught Spring Semester:** Full Sem, 2nd Blk, Online

**Description:** Introduction to analysis and presentation of data.

**Pre-requisite(s):** Meet WSU Quantitative Literacy requirement.

Cross-listed with SW 3600.

**GERT 4220 - Societal Responses to Aging**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented.

Cross-listed with SW 4220.

**GERT 4650 - Retirement: Adjustment/Planning**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem

**Description:** This course is designed to cover aspects of retirement relating to job change or discontinuance. The processes, events, social roles, and phases of life will be presented.

Cross-listed with SW 4650.

**GERT 4830 - Readings and/or Projects**
Credits: (2-4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Individual readings and/or projects for the senior Gerontology major (with the approval of the instructor).
May be repeated once for a maximum of 4 credits.
Note: Check with department for course availability.

GERT 4860 - Introductory Field Practicum

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $10.00
Course Fee Purpose: The course fee for SW 4860 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: Introductory experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 1010, GERT 3320 and GERT 3500; must be a declared minor. Offered on demand.

GERT 4861 - Advanced Field Practicum

Credits: (2)
Course Fee: $10.00
Course Fee Purpose: The course fee for SW 4860 is used to support the preparation and ongoing training of field placement supervisors. Course fee funds are also used to cover the tangible costs and materials associated with field contracts and the formal review and evaluation of student interns.
Description: Advanced experience in the world of work in a gerontology setting whereby the student might develop, test, and use knowledge derived from classroom experiences (90 hours at approved agency).
Pre-requisite(s): GERT 3400, GERT 3500, GERT 4860, and must be a declared major or minor.
Note: Course not currently being offered.

GERT 4900 - Current Topics on Aging

Credits: (2-4)
Variable Title
Description: An in-depth study on age related topics of current interest. Specific title will appear on student’s transcript along with authorized credit.
May be repeated once for a maximum of 4 credits.
Note: This course is offered as needed. Please check with the department for availability.

GERT 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed. Please check with the department for availability.

GERT 4990 - Senior Seminar

Credits: (2)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Preparation and discussion of gerontology concepts and topics. Information and techniques for obtaining a job and selecting a graduate school.
Pre-requisite(s): GERT 1010, GERT 3320, GERT 3400, GERT 3500 and GERT 3600. Offered on demand.
GRMN 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles. Note: Course not currently being offered.

GRMN 1010 - First Semester German

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

GRMN 1020 - Second Semester German

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of GRMN 1010. Basic language skills including listening, speaking, reading, writing and culture.

GRMN 1700 - Conversational Skills

Credits: (1-3)
Description: Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.

GRMN 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply. May be repeated twice with a maximum of 3 credit hours. Note: Check with Department for course availability.

GRMN 2000 - Proficiency Development

Credits: (1-2)
Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

GRMN 2010 - Third Semester German

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of GRMN 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

GRMN 2020 HU - Fourth Semester German

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of GRMN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

GRMN 2021 - Second Year II

Credits: (3)
Pre-requisite(s): Only available through testing.
GRMN 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.
Note: Check with department for course availability.

GRMN 2600 HU - Introduction to Cultural and Literary Studies in Translation

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: May be offered under any of the languages taught in the department. All Foreign Language HU2600 courses are taught in English and all texts are read in English translation in order to make some of the literature we normally would teach in a foreign language accessible to all students. These courses may introduce students to specific literary periods, literary themes or some prominent authors in specific areas of the world where languages other than English are spoken. May be repeated up to 10 times for credit under different titles.
Note: Check with Department for course availability.

GRMN 2851 - Study Abroad

Credits: (3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply. Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

GRMN 2852 - Study Abroad

Credits: (1-3)
Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.
Twice with a maximum of 3 credit hours.
Note: Check with Department for course availability.

GRMN 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

GRMN 3000 - Proficiency Development

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.
Note: Check with Department for course availability.

GRMN 3060 - Grammar & Composition

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.
Note: Check with Department for course availability.

GRMN 3116 - DLI Bridge Course I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

**GRMN 3117 - DLI Bridge Course II**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

**GRMN 3118 - DLI Bridge Course III**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.
Pre-requisite(s): GRMN 2020 or AP exam with a score of 4 or better

**GRMN 3160 - Introduction to Literature**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.
Note: Check with department for course availability.

**GRMN 3220 - Phonetics and Phonology**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.
Note: Check with department for course availability.

**GRMN 3270 - Special Topics in Linguistics**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

**GRMN 3320 - Applied Language Studies**

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

**GRMN 3360 - Advanced Grammar**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

**GRMN 3550 - Cultural Heritage I**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.
GRMN 3560 - Cultural Heritage II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization. May be repeated 3 times for other non-English speaking cultures.

GRMN 3570 - Special Topics in Culture

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization. May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

GRMN 3610 - Literature Survey I

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

GRMN 3620 - Literature Survey II

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

GRMN 3630 - Literature Poetry

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160. May be repeated under different titles.

GRMN 3631 - Literature: Prose

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3650 - Literature Periods

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.
GRMN 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with GRMN 3160.

GRMN 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

GRMN 3690 - Special Topics in Literature

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors.
Suggested Requisite(s): May be taken concurrently with GRMN 3160.
Note: Check with department for course availability.

GRMN 3710 - Business Language I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

GRMN 3715 - Business Language II

Credits: (3)
Typically Taught Fall Semester: Full Sem

GRMN 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

GRMN 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

GRMN 3740 - Translation I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

GRMN 3750 - Introduction to Interpreting
Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

**GRMN 3760 - Special Topics in Translation**

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: This is a specialized course that offers in-depth studies in selected topics, current developments or recent trends in the fields of Translation Studies and Localization.

**GRMN 3810 - Experimental Course**

Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**GRMN 3850 - Study Abroad**

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

**GRMN 4190 - Foreign Language Journal**

Credits: (3)
Course Fee: $2.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For foreign language students in the fourth year who work on publishing the foreign language literary journal. Includes selecting articles, editing and preparing journal layout.

**GRMN 4620 - Survey of Literature I**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

**GRMN 4630 - Survey of Literature II**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors. Prerequisite: FL 3160

**GRMN 4690 - Special Topics in Literature**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): GRMN 3160.
May be repeated up to 10 times under different titles.

**GRMN 4740 - Translation II**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of
non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

**GRMN 4830 - Directed Readings**

Credits: (1-3)
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

**GRMN 4850 - Study Abroad**

Credits: (3)
Description: (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

**GRMN 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
Workshop
Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

**GRMN 4960 - Senior Project**

Credits: (3)
Course Fee: $6.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) For students completing a major with Departmental Honors. Before registration in this course, students must work with a faculty advisor to define the project, create a contract and schedule, and determine the appropriate number of credit hours.

**GSE 6000 - Fundamentals of Graduate Study**

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Description: This course serves as an introduction to the MED program and to scholarship in education. Students will draw from diverse fields of educational inquiry (e.g. psychology, sociology, philosophy, history) to develop and present critically informed perspectives on current topics in P16 education. Multiple approaches to scholarly writing will be addressed.

**GSE 6010 - Advanced Historical Foundations**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Study of the relationship of contemporary schooling issues to historical practices and philosophies.

**GSE 6020 - Equity, Diversity, Inclusion, and Belonging in Education**

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is designed to provide students with the knowledge and concepts needed to develop appropriate, informed, and sensitive responses to the rich diversity found in the U.S. educational system. Content will focus on theoretical and practical issues of diversity, equity, inclusion, and belonging in educational settings.

**GSE 6030 - Advanced Educational Psychology**

Credits: (3)
Typically Taught Fall Semester: 2nd Blk
Typically Taught Spring Semester: 1st Blk
Description: This course is designed to provide an in-depth understanding of behavioral, cognitive and brain based psychological theories. The focus will be how this knowledge can impact and inform educational decisions and practices.

**GSE 6055 - Curriculum Theory**
Typically Taught Fall Semester: 2nd Blk
Description: This course will focus on advancing students' understanding of the historical and contemporary theoretical underpinnings of curriculum development in the United States. In exploring these issues, students will gain a broad perspective of curriculum, recognize historical orientations of curricular theories, and investigate the societal consequences of the implementation of individual curricular frameworks.

GSE 6065 - Assessment and Informed Decisions in the Classroom

Typically Taught Spring Semester: 1st Blk
Description: This course explores making ethical and practical decisions in the classroom informed by a variety quantitative and qualitative data as well as formal and informal assessments relative to students' safety, academic achievement, and overall well-being.

GSE 6080 - Conducting Educational Research

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students learn to locate and interpret educational research, and to apply research methods to their own education issues.
Pre-requisite(s): GSE 6000.
Note: (Only taught fall and spring)

GSE 6100 - Leadership and Organizational Theory

Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Description: This course focuses on the multiple facets of organizational cultures, leadership styles, and organizational change for educational leaders. Students will examine how organizational theory is applied in the educational setting.

GSE 6101 - Assessment and Data-Driven Decision Making

Typically Taught Summer Semester: 2nd Blk
Description: This course will provide an overview of planning and decision making including assessment, strategic planning, and program evaluation and review processes. Concepts will include the gathering and use of data as well as the utilization of that data in the decision making process.

GSE 6102 - Education Finance and Resource Management

Typically Taught Spring Semester: 2nd Blk
Description: This course will examine the economics, financing, and financial policy of public and higher education. Course topics will include an exploration of the different funding pools and regulations for both public and higher education as well as the economic and political forces driving these concepts and processes.

GSE 6130 - Topic in Education: (i.e., School Finance, Cooperative Learning, TRIBES, Teaching for Inquiry, etc.)

Typically Taught Summer Semester: 1st Blk
Description: This course explores a topic receiving current attention by educators and the public and deemed worthy of in-depth study. Credit will be determined by the nature of the topic. May be repeated up to four times.

GSE 6210 - Education Law and Policy

Typically Taught Summer Semester: 1st Blk
Description: This course considers the legal rights and responsibilities of students, teachers, faculty and other educational practitioners. Students will connect these to education systems, policies, programs, and operations as determined by state and federal constitutions, laws, and court decisions.

GSE 6215 - Critical Perspectives and Research in Inclusive Early Childhood Education and Care

Typically Taught Fall Semester: Full Sem, Full Sem - Online
Description: This course examines the historical,
philosophical, ethical, and cultural roots of contemporary perspectives and research on early childhood and inclusion. Students will explore methods of understanding the lived experience of diverse children and early childhood professionals, and how research can inform practice, leadership, and policy.

GSE 6220 - Understanding Children Beyond Behaviors

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Description: This course provides a foundation for understanding and engaging with children's behavior and needs in school, home, and community settings, toward new and relational understandings of children, child development, and difference. While studying theories and research from fields of neuroscience, psychoanalysis, Disability Studies in Education, and critical perspectives in early childhood education, students will practice therapeutic techniques for observation and engagement with children and families.

GSE 6230 - Observing and Assessing Children in Context

Credits: (3)
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course provides students with knowledge and skills to use observation, documentation, and assessment tools to inform instruction, planning, and intervention programs for young children birth through eight years. Special attention is given to contextualized assessment practices that are responsive to children's strengths, needs, cultures, races, languages, and family experiences.

GSE 6240 - Culturally Sustaining Advocacy and Collaboration with Children and Families

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Description: This course explores Culturally Sustaining ethical practice for navigating the challenges, hopes, and possibilities that early childhood professionals may experience as they collaborate and advocate with diverse children and families. Topics include the social and cultural construction of the meaning of difference, race, disability, and intrinsic difference at the intersection of identity. Historical and contemporary rights, movements, and priorities of disability and other communities (e.g., low income, immigrant, etc.) with a specific emphasis on issues of access and opportunity. Program, community and social systemic change, and self-advocacy. Students will collaborate with families, analyze the application of laws to their practice, program and social policies, and advocate to address challenges within specific sites, communities and systems.

GSE 6260 - Inclusive Early Childhood Curriculum

Credits: (3)
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: Critical issues, theories, research, and practice in curriculum for inclusive early childhood education. The goal of this course is to assist students in planning, implementing, and evaluating curriculum that is accessible and culturally sustaining for diverse children and families. Students will be challenged to develop and articulate their own philosophies on what should be taught to young children and why.

GSE 6270 - Young Children's Play

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online, 1st Block Online, 2nd Block Online
Description: This course focuses on the active joyful nature of young children's play, therapeutic and educational value, and how play may vary for children experiencing diverse abilities, circumstances and cultural backgrounds. Students will gain practical strategies for supporting the play of all children.

GSE 6280 - Student Teaching in Early Childhood Education

Credits: (3-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Practical early childhood teaching experience in the WSU early learning lab on campus.

GSE 6290 - Practicum/Internship in Early Childhood Education
GSE 6301 - Specialized Family and School Programs

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk
Description: Work experience which applies prior academic learning in a supervised early learning setting.

GSE 6302 - Advanced Family Theories

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: 1st Blk
Description: This course provides students with the ability to critically review and assess theories in family science. Additionally, they will learn and practice the construction and application of family theory vital for conducting research and practicing family life education.

GSE 6303 - Diverse Family Contexts

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: This class will proceed via comparative analysis of culture, ethnicity, and family life in the United States reflecting social and political dynamics with extensive coverage of the family lifestyles, traditions, and values. Several American ethnic groups will be examined including historical background, key ethnic cultural components, traditional, and current ethnic family characteristics, and changes and adaptations to families and individuals. Emphasis will be made on how to address ethnocentrism, and serve families due to their various strengths and challenges.

GSE 6304 - Organization and Leadership in Non-profit Family Services

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will introduce the student to theories and structures of family service organizations, best practices for planning, managing people, customer service models, working budgets and evaluating family service programs. Class discussions, case studies, and guest speakers will be used to help students understand the application of the basic concepts. Leadership styles will be examined as an overall context within which the management of family service programs occurs.

GSE 6305 - Advanced Skills for Family Life Educators

Credits: (3)
Typically Taught Summer Semester: 2nd Blk
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: 1st Blk
Description: This theory-based course will provide students with hands-on skills and experiences that are vital for today's family life educators by reviewing and presenting family life education materials in both the classroom and among the community. This course also provides students with a number of teaching tools and philosophies considered key to becoming effective in the field of Family Life Education.

GSE 6306 - Parenting Education

Credits: (3)
Typically Taught Spring Semester: 1st Blk
Description: This course will provide students with the latest research and theory on developmentally appropriate practices for parents. Also, students will learn the theory-and research-based methods for educating parents.

GSE 6400 - Principles of Coaching and Leadership

Credits: (3)
Typically Taught Fall Semester: 1st Block Online
Description: The course is designed to provide a foundation in sport coaching leadership. The course will examine theoretical underpinnings and applications of sport coaching and leadership, and strategic planning processes and management within sport organizations. The primary
goal of this course is to help current and aspiring coaching leaders gain a better understanding of effective leadership.

**GSE 6401 - Psychological Aspects of Sport Coaching**

**Credits:** (3)
**Typically Taught Fall Semester:** 2nd Block Online
**Description:** The course is designed to examine psychological knowledge and skills to address optimal performance and well-being in athletes, including interventions that are designed to assist athletes, coaches, and administrators in an array of sport settings.

**GSE 6402 - Strength & Conditioning/Injury Prevention**

**Credits:** (3)
**Typically Taught Spring Semester:** 1st Block Online
**Description:** The course is designed to provide knowledge regarding advanced strength and conditioning theory and practice, what to do when athletes get injured, and how to prevent athletes from injury. Students will explore models of safe training protocols both at a physical and mental level, and develop a periodization model in all facets of strength and conditioning when it comes to sport-specific training.

**GSE 6403 - Ethics in Sport**

**Credits:** (3)
**Typically Taught Spring Semester:** 2nd Block Online
**Description:** The course is designed to offer an introduction to ethics within the sporting context. The values promoted within sport will be examined along with academic investigation of sport within society, including drug use for performance enhancement, fair play and sportsmanship, Title IX, and many other ethical issues in sport. This course is intended to develop and foster critical thinking skills, and to learn and understand the ethical background of sport.

**GSE 6404 - Facilities and Event Management in Sport**

**Credits:** (3)
**Typically Taught Summer Semester:** 2nd Block Online
**Description:** The course is designed to help students understand the role of managing sports events and facilities. Topics including maintenance, day-to-day operations, producing events, types of facilities, financial management, and building a facility will be presented. Multiple types of recreation facilities will be examined to compare and contrast differences and learn how to improve sustainability at sport and recreation facilities and events.

**GSE 6405 - Advanced Sport Pedagogy**

**Credits:** (3)
**Typically Taught Summer Semester:** 1st Block Online
**Description:** The course is designed to increase understanding of sport pedagogy, effective coaching, and the art and science of coaching. Athlete skill development, practice and game planning, season schedules, creating drills and practice sessions, and motivating players will be presented. Students will also learn to assess and utilize apps, software, and other technology related to sport.

**GSE 6501 - Introduction to K-12 Coding**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** This course will introduce candidates to coding in K-12 classrooms. Students will practice introducing coding concepts and activities to students, while simultaneously exploring current issues in computer science education. Activities will include anything from unplugged coding activities, CS books, board games, and toys, through block programming, and some basic text-based coding with HTML and CSS.

**GSE 6502 - Advanced Educational Technology**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem - Online
**Description:** This course allows students to develop advanced educational technology skills using Adobe products, such as Photoshop, Premiere Pro, InDesign, and Illustrator. Students will practice using Adobe technology to design graphics, manipulate images, make posters for school events, and make instructional videos. Students are allowed to "choose their own adventure" as they progress through the course and work in any order that they wish.

**GSE 6503 - Intersections of Science, Technology and Culture**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** In this course, we examine scientific and technological ideas in their social and historical contexts. Students will also explore relationships between science, technology, and culture, while simultaneously exploring current issues in STEM (science, technology, engineering, and mathematics) education through the unique lens of Indigenous education.

**GSE 6504 - Data Science with R for K-12 Education**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Description:** This course provides an introduction to using the R programming language with R Studio for basic data analysis. Students will import, clean, visualize, create frequency tables, and run t-tests using R Studio.

**GSE 6505 - Educative Making in K-12 Settings**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem
**Description:** This course provides a survey of educative making from a constructionist perspective. Students will have hand-on experiences using LEGO robotics, other physical computing platforms, and use digital fabrication tools. In addition, students will design project-based, interdisciplinary mini-unit plans.

**GSE 6600 - Ethical Leadership**

**Credits:** (3)
**Typically Taught Fall Semester:** 1st Blk
**Typically Taught Spring Semester:** Full Sem
**Description:** This course will explore issues of ethical and professional conduct as a steward of school resources, student academic success and wellbeing, and faculty and staff professional development. This course will be based on the Utah Educator Professional Standards as described in Utah State School Board rule.

**GSE 6601 - Community Engagement and Advocacy**

**Credits:** (3)
**Typically Taught Fall Semester:** 2nd Blk
**Typically Taught Spring Semester:** Full Sem
**Description:** This course will explore strategies effective educational leaders engage families and the community in order to create an inclusive, caring, safe, and supportive school environment to advocate for each student's academic success and well-being.

**GSE 6602 - Organizational Change and School Improvement**

**Credits:** (3)
**Typically Taught Summer Semester:** 2nd Blk
**Description:** This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

**GSE 6603 - Positive Academic and Behavior Supports in Schools**

**Credits:** (3)
**Typically Taught Spring Semester:** 2nd Blk
**Description:** This course includes systematic processes of sustainable and continuous school and classroom improvement. Concepts include climate and culture, process of change, building teacher and leadership capacity, development of effective leadership practices, and strategic planning that supports continuous school improvement.

**GSE 6604 - Educational Leader Internship**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course will provide directed and supervised leadership experiences in public education settings. Students will complete the hours required by Utah State Board Rule.

**GSE 6700 - Higher Education Administration**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** This course provides an overview of the various types of institutions of higher education including a brief history, typical institutional organizational structures, principal administrative functions, and the philosophy of
administration overall. Strategic decision making within organizations will also be discussed.

GSE 6701 - Current Issues in Higher Education

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course provides an overview of current issues and trends, challenges, research, and policies impacting higher education at the institutional, state, national, and international level.

GSE 6702 - College Student Access and Success

Credits: (3)
Typically Taught Summer Semester: 2nd Block
Description: This course introduces students to issues of access and success in postsecondary education through a lens of equity. Students will engage in and apply research and theories on current outcomes for students in higher education institutions including issues related to racial/ethnic minoritized groups, socioeconomic status, first-generation, gender and other minoritized identities. Issues addressed include: college choice, admissions, affirmative action, community colleges, financial aid, retention, and graduation outcomes.

GSE 6704 - Higher Education Internship

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will provide directed and supervised experiences in higher education administrative settings. Students will spend the required hours per semester in a structured, supervised setting. This course can be taken 2 times for credit for a maximum of 4 credit hours.

GSE 6820 - Child Observation Seminar

Credits: (1)
Typically Taught Fall Semester: Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online

Description: The Child Observation Seminar is a small group reflective practice seminar. Students meet weekly to view and discuss video clips from work with young children in school, home, or community settings. Groups are facilitated to support early childhood professionals in feeling and awareness in their subjective emotional present, toward new experiences of themselves with children, families, and fellow early childhood professionals that may transform their work.

GSE 6900 - Individual Study

Credits: (1-3)
Description: Intended for the candidate who has special needs and who would benefit from an individual study program. Forms are available from Room ED 234 MEd program office and must be approved by the instructor and the director at time of registration. May be repeated up to 3 credit hours.

GSE 6910 - Project Development I

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is the first of three courses intended to support the development of a project proposal. Specifically, this course supports the development of the Problem Statement of the project proposal. Online modules are supported by regular consultations with the faculty chair of the student's project.
Pre-requisite/Co-requisite: GSE 6000.

GSE 6920 - Project Development II

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is the second of three courses intended to support the development of a project proposal. This course supports the development of the Literature Review of the research project proposal. Online modules are supported by regular consultations with the faculty chair of the student's project.
Pre-requisite/Co-requisite: GSE 6910.

GSE 6930 - Project Development III

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course is the third of three courses intended to support the development of a project proposal. This course supports the development of the Purpose and Method of the research project proposal. Online modules are supported by regular consultations with the faculty chair of the student's project.
Pre-requisite/Co-requisite: GSE 6910, GSE 6920.

GSE 6950 - Supervised College Teaching

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Block, 1st Block Online, 2nd Block, 2nd Block Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online, 1st Block Online, 2nd Block, 2nd Block Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online, 1st Block Online, 2nd Block, 2nd Block Online
Description: Teaching assistant experience in undergraduate courses under faculty supervision.

GSE 6970 - Master of Education Project/Thesis/Capstone

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: The student works independently and in consultation with the faculty chair and graduate committee to complete the final project/thesis/capstone.
Pre-requisite/Co-requisite: GSE 6930.

GSE 6990 - Continuing Graduate Advisement

Credits: (1)
Description: This course is used to fill the continuous enrollment requirement while completing the Master's project. The course is graded Credit/ No Credit.

HAS 3000 - The Healthcare System

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: A study of the U.S. healthcare system to help students understand the critical issues facing healthcare in its ever-changing environment and to gain a sense of the complex multidimensional nature of healthcare delivery in the United States.

HAS 3010 - Professionalism in Healthcare

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem, Online
Description: This course explores a variety of topics to develop a stronger sense of professionalism for healthcare managers. Topics include business and social etiquette, self-assessment, professional deportment, networking, effective communication skills, and dressing professionally.

HAS 3020 - Healthcare Marketing

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: This course outlines the application of marketing principles to healthcare organizations and the public health arena. Students will apply those principles in the development of a marketing plan.

HAS 3190 - Cultural Diversity in Patient Education

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem
Description: This course is an introduction to patient or client education skills and theory. It also focuses on health traditions of culturally diverse clients and how those traditions must be considered during effective patient education. In particular, the course will move from the general health traditions of world populations and religions, to the more specific behaviors and expectations of U.S. populations. Gender, age, and class will all be considered in the studies.

HAS 3230 - Health Communication

1521
Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments.
Cross-listed with COMM 3230.

HAS 3240 - Human Resource Development in Healthcare

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem

Description: Study of human resource principles and practices in healthcare facilities. The general topics include: job analysis and work flows, compensation, recruitment and selection, performance appraisals, discipline, legal environment, unions, safety and health.
Pre-requisite(s): HAS 3000.

HAS 3260 - Healthcare Leadership and Management

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem

Description: Basic theories and concepts of management. Emphasis is on individual and group behavior, interpersonal skills, decision making, leadership theory, planned change, motivation, teamwork, organizational design and culture within the context of the health care organization.
Pre-requisite(s): HAS 3000.

HAS 3700 - Public Health Finance

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Finance in the public sector is fundamentally different from business or corporate finance. This course will provide an overview of finance as directly related to public health. Basic concepts of government accounting and budgeting will be presented. The financial aspects of Medicare and Medicaid along with grant funding and funding agencies will be discussed. Students will leave the course with the ability to formulate a public health program budget as well as the background knowledge necessary to understand the financial operations of local and state departments of health.

HAS 3750 - Healthcare Financial Administration

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem

Description: This course is designed to build upon the concepts introduced in basic accounting courses and develop proficiency in applying administrative financial techniques in healthcare decision making.
Pre-requisite(s): HAS 3000, ACTG 2010, Quantitative Literacy.

HAS 3810 - Experimental Course

Credits: (1-6)
Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

HAS 3980 - Interprofessional Education

Credits: (1-3)
Variable Title

Description: Variable titled course to discuss topics related to interprofessional education. May be repeated up to 3 times for credit.

HAS 4160 - Medical Practice Management

Credits: (3)
Typically Taught Fall Semester: Full Sem

Description: Covers the fundamentals of group practice and ambulatory care management. Includes leadership,
planning, marketing, IT, business operations, physician/hospital relationships, and basic principles of management applied to the out-patient setting. This is an elective course for HAS students.

Pre-requisite(s): HAS 3000.

HAS 4320 - Healthcare Economics and Policy

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem - Online
Description: Discussion and analysis of the economic models controlling healthcare markets with subsequent investigation of the complex federal, state, and local policies and policymaking processes which result from those models in U.S. healthcare systems.

Pre-requisite(s): HAS 3000 and ECON 1010 or ECON 2010.

HAS 4400 - Legal and Ethical Aspects of Health Administration

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem Online
Description: Review of legal responsibilities of physicians, other healthcare workers, and healthcare institutions and means by which health-related laws and regulations are developed and implemented. Issues involved in healthcare professional ethics are discussed and evaluated.

Pre-requisite(s): HAS 3000.

HAS 4410 - Clinical Instructional Design and Evaluation

Credits: (3)
Typically Taught Fall Semester: Online
Description: Designed to provide individuals with the skills necessary for the preparation, planning and evaluation of instruction. The Philosophy, theory, and effective methods and techniques of teaching the adult learner.

HAS 4420 - Clinical Instructional Skills

Credits: (3)
Typically Taught Spring Semester: Online
Description: Designed to provide individuals with skills necessary for the implementation of instruction.

Presentation practice is provided with peer evaluation and feedback.

HAS 4520 - Long-Term Care Administration

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Application of health administration core curriculum to specific practice issues in the long-term care setting. Includes specific organization structures in skilled nursing care, relationships with healthcare providers, services offered, financial management issues in long-term care, and regulatory issues are investigated. Course includes a review of long-term care facility operations utilizing simulations. Teams of students make operational decisions utilizing financial statements, census reports, staffing schedules and other relevant factors. Prepares students for specific types of situations and questions encountered on the long-term care administrator licensing examination.

Pre-requisite(s): HAS 3000 and HAS 4400.

HAS 4525 - Post-Acute Care Operations

Credits: (3)
Typically Taught Spring Semester: 2nd Blk
Description: This course is designed to introduce the specific issues and body of knowledge pertaining to the healthcare management of: specialty hospitals, rehab facilities, homecare agencies, hospice and palliative care and post-acute care. Emphasis is placed on guest lectures by professionals from each of these types of provider organizations.

Pre-requisite(s): HAS 3000 and HAS 4520.

HAS 4620 - International Health and Healthcare

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem
Description: This course is designed to explore health and health care systems in countries other than the United States. Emphasis will be directed toward illnesses and treatments, health promotion, environmental and economic issues, governmental infrastructures that support health, and cultural considerations. The course will be targeted to the professional interested in international health information and experiences.

HAS 4740 - Senior Seminar
HAS 4741 - Senior Seminar Capstone

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A capstone course for seniors designed to provide integration and application of theory through the use of case study analysis, competency assessment, interaction with current practitioners, individual and team projects. Students will be provided with resources to assess and enhance their competencies in the various functional areas of health administration. Departmental approval required.
Pre-requisite(s): HAS 3000.

HAS 4800 - Individual Study

Credits: (1-3)
Description: Topics in allied health education studies tailored to the particular needs and interests of the student. Class may be repeated once up to six credits with program approval.
Note: This course is offered as needed.

HAS 4850 - Study Abroad

Credits: (1-6)
Variable Title
Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience. May be repeated five times up to six credit hours.
Note: This course is offered as needed.

HAS 4860 INT - Practicum/Internship

Credits: (2-6)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem

HAS 4990 - Seminar

Credits: (1)
Description: Topics, issues, and trends in Health Care. May be repeated twice up to 3 credit hours with program approval.
Note: This course is offered as needed.

HIM 2000 - Introduction to Health Information Systems and Settings

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Online
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record
Description: Introduction to the health information profession. Job duties, functions, and the professional organization are discussed. Health care settings, master patient indexes, health information documentation requirements, analysis, and deficiency management are presented.
Pre-requisite(s): HTHS 1101 and HTHS 1110 or ZOOL 2100.

HIM 2250 - Health Care Privacy and Security

Credits: (3)
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem
Description: The HIPAA privacy and security law, institutional review boards and human subjects research, development of policies and procedures for privacy and security, and release of information are discussed.

HIM 2300 - Diagnosis Coding

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Online
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: Coding conventions and procedure using the ICD-10-CM coding system are introduced and practiced.
Pre-requisite(s): HTHS 1110 and HTHS 1111 or ZOOL 2100 and ZOOL 2200 or equivalent.

HIM 2320 - Ambulatory and Physician Office Coding

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: CPT classification, conventions and coding procedures are introduced and practiced. Abstracting medical information from health documentation for coding facility outpatients, physician and professional billing is presented, discussed and practiced.
Pre-requisite(s): HIM 2300.

HIM 2330 - Healthcare Reimbursement

Credits: (2)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Description: Discussion of issues parallel to or founded in the use of classification systems: Federal reimbursement systems, coding compliance, auditing, chargemaster maintenance, and revenue cycle management.

HIM 2410 - ICD-10-PCS Coding

Credits: (2)
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: ICD-10-PCS coding, conventions and guidelines are introduced and practiced. Students will gain exposure to procedure coding using the ICD-10-PCS system for hospital inpatient claims.
Pre-requisite(s): HIM 2300.

HIM 2450 INT - (2nd Year) Professional Practice Experiences

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record access
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. Projects assigned give the student expertise in technical functions, e.g., diagnostic and procedure coding systems.
Pre-requisite(s): HIM 2000.

HIM 2500 - Healthcare Data Management

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Online
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record access.

HIM 2861 INT - (2nd Year) Professional Practice Experiences

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $15.00
Course Fee Purpose: Electronic Health Record access
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. Projects assigned give the student expertise in technical functions.
Pre-requisite(s): HIM 2000.

HIM 2862 - Professional Practice Management

Credits: (2)
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Student's final experience in the health care setting. Skills and learning from the classroom and laboratory are reinforced and practiced. Projects assigned give the student expertise in technical functions.
Pre-requisite(s): HIM 2000.

HIM 2863 - Professional Practice Experience in Coding

Credits: (1)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Course Fee: $10.00
Course Fee Purpose: 3M Codefinder system
Description: Student's final experience in the coding setting. Skills and learning from the classroom and laboratory are reinforced and practiced in a simulated setting.
Pre-requisite(s): HIM 2300.

HIM 3000 - Health Informatics
Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Full Sem

Description: A survey of the clinical, research, and administrative applications of computers in the health care industry from which health care information is currently derived. The role of this technology and of the data collected in accomplishing the objectives and procedures of the principle functional areas in health care organizations is emphasized as are the interrelationships of the organizational units with respect to data acquisition, storage, analysis, retrieval, and use.

HIM 3300 - Introduction to Quality Improvement in Healthcare

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem - Online

Description: Quality assessment, disease processes, risk management, and utilization review systems are presented to the student with an emphasis upon integration. TQM/CQI processes are examined and practiced.

HIM 3400 - Health Care Networks and Databases

Credits: (3)
Typically Taught Fall Semester: Online
Course Fee: $10.00
Course Fee Purpose: Access to Database for course

Description: A comprehensive introduction to health care application development, including local and wide area networks, the internet and intranets, database structure, database tools, data management, and information management.

Note: This course is no longer taught.

HIM 3450 - Healthcare Systems Analysis and Design

Credits: (3)
Typically Taught Spring Semester: Full Sem - Online

Description: A comprehensive introduction to the planning, design, and construction of healthcare information systems, using the systems development life cycle and other appropriate design tools.

HIM 3550 - Healthcare Data Analytics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem - Online

Course Fee: $10.00
Course Fee Purpose: Access to use UT Dept of Health Care Statistics to use in Tableau:

Description: An in depth exploration of healthcare data analytics. Application of data analytic methodologies to improve decision making, performance, healthcare quality and strategic planning will be presented and practiced. Students will become familiar with internal and external data sources in healthcare and will be able: extract data from the data source; evaluate the quality of the data; perform basic data analytics; interpret analysis; present information in a final report.

Pre-requisite(s): PUBH 3200.
Pre-requisite/Co-requisite: PUBH 3200 - Epidemiology and Biostatistics.

HIM 3600 - Advanced Diagnosis and Procedure Coding

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

Description: This is an advanced coding course designed for students with previous medical coding experience or previous medical coding courses. This course explores the more complex areas of ICD-10-CM, ICD-10-PCS, and CPT coding in hospital, outpatient, and physician based settings. Students will apply coding principles and guidelines related to complex diagnoses and procedures. Coding from actual patient records is emphasized. The use of coding references and coding software is integrated into the course.

Pre-requisite(s): HIM 2300, HIM 2320, HIM 2410 or instructor approval.

HIM 3610 - Advanced Principles of Revenue Cycle Management

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

Description: Elements of the revenue cycle are reviewed. Principles of revenue cycle management are examined including: scope and management of clinical coded data, process improvement and data quality, compliance, internal and external auditing, reporting, case-mix management,
and changes in revenue cycle management.
Pre-requisite(s): HIM 2330 or instructor approval.

**HIM 3620 - Principles of Clinical Documentation Improvement**

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Description: Clinical documentation is the foundation of every patient health record. This course addresses the fundamentals of clinical documentation-assessing the current quality of health record documentation, development of a CDI program and process. How clinical documentation improvement impacts the revenue cycle of a healthcare organization will be reviewed.
Pre-requisite/Co-requisite: HIM 2300, HIM 2320, and HIM 2410 or instructor approval.

**HIM 4100 - Health Information Services Management**

Credits: (3)
Typically Taught Spring Semester: Online
Description: Management issues of health information services departments are discussed and worked through with reference to planning information services, organizing work force, procedures, and resources, staffing work units with qualified personnel, influencing information services teams performance, controlling/evaluating health information services performance and products, and resolving organizational conflict involving information issues. Background is developed to facilitate evaluation of a vended system's ability to meet health care information applications, objectives and procedural requirements. "Entrepreneurial" skill is developed to lead organizations in finding solutions to their information management problems.

**HIM 4990 - Baccalaureate Thesis and Presentation**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Senior health information management students complete a research project and thesis in partial fulfillment of program requirements. By the completion of the course, the senior student will be able to specify a thesis topic, specify individual thesis learning objectives, specify individual thesis learning activities, develop a thesis project time-line, implement the thesis project, write the thesis, and present it to the Health Information Management faculty and students. Topics are chosen by the student but require approval by the Program Coordinator.
Pre-requisite(s): PUBH 3500.

**HIM 5000 - Clinical Foundations in HIM**

Credits: (3)
Description: A foundation in the language of medicine, pathophysiology and pharmacology will be discussed and developed.
Note: This course is offered as needed.

**HIM 5010 - Health Data Management**

Credits: (3)
Description: This course prepares students to manage and create health data elements and data sets; and to develop and maintain organizational policies, procedures and guidelines for management of health information. Compliance with health care information laws, regulations, standards, and preparation for accreditation and licensing processes is discussed and practiced.
Note: This course is offered as needed.

**HIM 5020 - Diagnosis and Procedure Coding**

Credits: (3)
Description: Coding and classification conventions and procedures are developed and practiced. The course will also include auditing of coded data for accuracy.
Note: This course is offered as needed.

**HIM 5030 - Clinical Data Management for Quality Care & Revenue Cycle Integrity**

Credits: (3)
Description: This course prepares the student to collect, analyze, present and organize data to improve quality of patient care and revenue cycle management. The management of clinical data required in reimbursement systems and prospective payment systems in health care delivery are discussed.
Note: This course is offered as needed.

**HIM 5040 - Privacy, Security and Confidentiality in Health Care**

1527
Credits: (3)
Description: This course prepares students to design and implement security measures to safeguard protected health information. The management, access, disclosure and use of PHI to ensure confidentiality is discussed. How to investigate and resolve health care privacy and security issues and problems are introduced.
Note: This course is offered as needed.

HIM 5050 - Health Information Systems & Technology

Credits: (3)
Description: A foundation of electronic health record terminology and the information systems life cycle is explored. The important basis upon which successful EHR implementation must rely - project management, strategic planning, and migrations from the current state are discussed. Skills in selecting, negotiating for, implementing and operating the electronic health record and its corresponding databases are developed. The use of data dictionary, data models, database management and design for electronic health records are introduced.

HIM 5080 - Health Information Management Issues

Credits: (3)
Description: Managing the HIM function including the monitoring of industry trends and organizational needs for change, strategic and operational planning, training or educational activity development, and preparation for accreditation and licensing processes are discussed.
Note: This course is offered as needed.

HIM 5090 INT - HIM Internship

Credits: (3)
Description: Provides opportunities for observation, participation and practical application of health information management skills in the institutional setting.
Note: This course is offered as needed.

HIST 1000 - Introduction to the Craft of History

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: History 1000 is a one-credit course for newly declared history majors. It is designed to introduce students to different subfields within history; to familiarize them with the standard modes of researching, interpreting, analyzing, and citing historical sources; and to teach them how to build an historical argument.
Note: This course is offered as needed.

HIST 1500 SS/EDI/GLB - World History to 1500 C.E.

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Examines the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of world civilizations to 1500 C.E. Emphasis is global, comparative, and multi-cultural.
Note: Multiple Sections are offered each semester.

HIST 1510 SS/EDI/GLB - World History from 1500 C.E. to the Present

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: A survey of the political, social, cultural, economic, religious, scientific, and intellectual influences on the development of Asia, Africa, the Americas, and Europe from 1500 to the present.
Note: Multiple Sections are offered each semester.

HIST 1600 SS/EDI - The Black Experience

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: HIST 1600 is the History of Black people in the United States. We will begin by tracing the origins of Blacks and Black Americans in the New World from their origins in Africa. We will then explore the history of Black people in the United States from the Atlantic Creoles to the present day. This course will also fulfill all the requirements for American Institutions (AI) credit.
HIST 1610 AI - The Latinx Experience

Credits: (3)
Description: This course provides a general introduction to the history of Latinx in the United States from the era of Contact to the present day. Even before this country existed as a republic, people from "Hispanic" and Indo-America had been incorporated into the culture, history, and occupational fabric of what would become the United States. Yet larger society, and oftentimes, the government, have frequently perceived Latinx as racially and culturally "alien." This course will examine how people of Latin American heritage have adjusted to, been integrated by, assimilated, resisted, and adapted to these forces in the United States over past centuries, creating new identities in the process.

HIST 1620 AI/EDI - The LGBTQ Experience

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will be a survey of LGBTQ history in American history, from the colonial era to the present day. It will not only consider LGBTQ experiences, but also focus on changing views toward slavery, economics, race, gender, and nationality that inform American society. As a General Education American Institutions course, we will discuss the major principles of the United States, the operations of its institutions, and the consequences of its market economy, with a focus on the particular LGBTQ experience within that narrative.

HIST 1700 AI - American History

Credits: (3)
Typically Taught Summer Semester: Full Sem, 2nd Blk, Full Sem - Online, 1st Blk
Typically Taught Fall Semester: Full Sem, Full Sem - Online
Typically Taught Spring Semester: Full Sem, Full Sem - Online
Description: An analysis of American history that traces social, cultural, economic, and political developments in the United States. May be taken to complete the American Institutions requirement (grade of C or better required). Note: Multiple Sections are offered each semester.

HIST 2700 - History of the United States to 1877

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A chronological survey of American history from Native American and European contacts through Reconstruction, 1877. Directed toward History majors, minors, and those planning to teach U.S. history. Note: Students may fulfill the American Institutions requirement by completing either HIST 1600, 1610, 1620, or 1700 or this course AND HIST 2710 with a grade of C or better.

HIST 2710 - History of the United States since 1877

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem
Description: A chronological survey of American history from the Gilded Age, 1877, to the present. Directed toward History majors, minors, and those planning to teach U.S. history. Note: Students may fulfill the American Institutions requirement by completing either HIST 1600, 1610, 1620, or HIST 1700, or this course AND HIST 2700 with a grade of C or better.

HIST 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours. Note: This course is offered as needed. No more than 6 hours will count towards a major or minor.

HIST 3010 - Native American History: 1300 to Present

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem - Online, even years
Description: An introduction to Native American history, stressing the integrity and viability of American Indian societies, dynamic, self-directed cultural changes, and the
clashes that occurred with Native American and European contacts.

HIST 3030 - African-American History

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: African-American history from African origins to the late twentieth century. This course examines the historical experiences and enduring influence of African-Americans on U.S. history.

HIST 3050 - History of U.S. Latinos

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: Traces the historical development of the Latin Americans in the U.S. from their Indian, Spanish and African heritage to the present with special emphasis on the Mexican-American, Chicano contributions to American life.

HIST 3070 - Women in American History: 1600 to Present

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Examines gender as an organizing principle in United States history from the beginnings of European settlement to the present. Also explores the ways in which race, ethnicity, class, and region have shaped different female experiences.

HIST 3090 - American Social History

Credits: (3)
Typically Taught Fall Semester: Full Sem, Full Sem Online every other year
Description: Explores American society through analyses of the public and private lives of ordinary individuals from colonial times to the present.

HIST 3110 - American Ideas and Culture

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: This course will look at key transformations in American cultural and intellectual history. Subjects will include the history of religion, the changing nature of political ideology, and transformations in who creates and controls entertainment, leisure and literature in American society. The course will use novels, sermons, essays, movies, museums, paintings, and music as tools for understanding American cultural life.

HIST 3120 - American Society through Film

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores the development of society and culture of twentieth-century America as they are represented and created through the medium of film. The motion picture has had a major impact on American society and culture, and this course analyzes how movies reflected and created American social and cultural structures in history.

HIST 3130 - U.S. Urban History

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: Examines themes in social, economic and cultural development of American cities from the colonial era to the present. Key topics will include the process of urbanization and the ways in which various social groups and classes adapt to urban life and society. The course will also examine the transformation of urban neighborhoods and ghettos, social reform movements in the city, and the history of urban planning.

HIST 3210 - U.S. Constitutional History

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: The ideas and issues which resulted in the 1787 Constitution. It considers two centuries of America Constitutionalism, focusing on powers and rights, and the role of the Constitution in American culture.

HIST 3220 - History of the Bill of Rights

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: This course will explore the historical origins of the first Ten Amendments to the Constitution, also known as the Bill of Rights. We will explore the original intent of the Framers of the Constitution and the Bill of Rights, as well as the context in which they were drafted and ratified. The historical significance of the Bill of Rights will be compared with their current understanding by Americans in the present.
HIST 3230 GLB - American Foreign Relations

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: Diplomatic relations and foreign policy of the United States, with particular emphasis in the "American Century" beginning with the imperialist thrust of 1898.

HIST 3250 - Religion in American History

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A history of religion in America from the colonial period (including Native American spirituality) through the early twentieth century. This course will examine religious figures, events, and movements in U.S. history. Particular emphasis will be placed upon the influence of religion in the United States on culture, politics, education, and reform.

HIST 3270 SUS - American Environmental History

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Explores the new scholarship in American environmental history, considering the intellectual and material interaction people have had with the environment of North America, from pre-contact to the present.

HIST 3280 GLB - American Military History from 1500 to 1890

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The course explores the multifaceted dimensions of military history to include: the international security environment; the relationship between American security policy, strategic planning, and intelligence; civil-military relations; defense legislation; the roles and missions of the armed forces; leadership; strategic thought; doctrinal developments; technological innovation; industrial mobilization; joint and combined operations; operational and tactical effectiveness; and the experience of battle.

HIST 3290 GLB - American Military History from 1890 to the Present

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The course explores the multifaceted dimensions of military history to include: the international security environment; the relationship between American security policy, strategic planning, and intelligence; civil-military relations; defense legislation; the roles and missions of the armed forces; leadership; strategic thought; doctrinal developments; technological innovation; industrial mobilization; joint and combined operations; operational and tactical effectiveness; and the experience of battle.

HIST 3350 - History and Philosophy of Science

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The evolution and practice of Western science from origins to contemporary ideas.

HIST 3400 - Principles of Public History

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course will consider the theoretical background of public history and its disciplines: historic preservation, museum studies, archives and records administration, and documentary editing. Students will survey, research, and analyze the ways in which history is conveyed to a broad public through museums, monuments, sites, films, and other media outside the classroom or scholarly writings.
Note: (Replaces HIST 2500.)

HIST 3500 - Historic Preservation

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A study of the historic preservation movement in the United States including the history and evolution of the movement, theoretical origins, current conditions and laws, organizational framework and design philosophies.

HIST 3530 INT - History Editing

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Advanced principles in copyediting, scholarly
publication, and preparation of material for multiple publishing venues, including journals and monographs, public displays, and online collections.

**Suggested Requisite(s):** HIST 1000 or HIST 3400.

**HIST 3550 - Archives: Principles, Practices & Preservation**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, even years

**Description:** This course provides an introduction to archival management, in which the students learn how archival institutions obtain, process and manage a variety of archival formats, and how this information is made available to the public generally and to historians in particular.

**HIST 4010 - Early North America to 1763**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** The history of the North American continent from pre-contact to the end of the French and Indian War. This course will study the lives of the First Nations in the countries now known as Canada, the United States, and Mexico before and after contact with Europeans. We will also investigate the imperial conquest of North America by the Spanish, French, British, and other European powers. In addition, the forced migration of Africans and their enslavement in North America as well as the enslavement of others will also be a key focus of the semester.

**HIST 4015 - History of the Atlantic World, 1400-1815**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, odd years

**Description:** Atlantic World history refers to relationships and interactions between the peoples of the Americas, Africa and Europe, from the fifteenth through the nineteenth century. Its study focuses on themes such as migration and colonialism; the African slave trade, New World slavery and its abolition; trans-oceanic commerce and the development of history's first worldwide cash economy; violence, mixing and transculturation among Europeans, Africans and indigenous Americans; negotiation of knowledge about medicine, geography and the natural world; and the evolution of imperial systems and the wars of Independence.

**HIST 4020 - Era of the American Revolution: 1763-1800**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem even years

**Description:** Causes of American Revolution, including the military, diplomatic and social aspects; the formation of the Union under the Articles of Confederation; the Constitution; and the Federalist era.

**HIST 4030 - New Nation: 1800-1840**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, 1st Blk odd years

**Description:** Emphasizes Jefferson's Administration, War of 1812, the Era of Good Feelings, and the Age of Jackson, including the growth of political parties, territorial expansion, sectionalism, and social reform.

**HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem

**Description:** Slavery and the causes of the Civil War with attention to the political, economic, social, and military aspects of the conflict, including the period of Reconstruction to 1877.

**HIST 4050 - U.S. in the Gilded Age and Progressive Era: 1877-1919**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem, odd years

**Description:** The transformation of the United States following the Civil War and Reconstruction into a modern urban-industrial superpower by the end of the First World War.

**HIST 4060 - Twentieth-Century United States: 1919-1945**

**Credits:** (3)

**Typically Taught Spring Semester:** Full Sem odd years

**Description:** Developments, historical patterns and conflicts which shaped the modern United States in the Twenties, the Great Depression and the Second World War.
HIST 4065 GLB - The United States in the Second World War

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: History of the United States during the Second World War. The course examines the war's origins, conduct, and consequences in distant battlefields and on the American homefront.

HIST 4070 - Twentieth-Century United States since 1945

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Description: The United States from 1945 to the present, including investigations of the Cold War, the Civil Rights Movement, the affluent society, modern politics, the Vietnam and Watergate crises and contemporary issues.

HIST 4110 - History of the American West to 1900

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Explores the history of the Trans-Mississippi West region of the United States from 1500 to the 1890s. The course considers the varied experiences of its peoples and the myth of the West in American culture.

HIST 4120 - The American West since 1900

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Explores the history of the Trans-Mississippi West region since 1900, to include analysis of such issues as water use and allocation, population growth, land use, exploitation of resources, conservation, the federal presence, tourism, and threats to the environment.

HIST 4130 - History of Utah

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A study of Utah history from its Native American beginnings to the present, emphasizing political, economic, and social developments. Note: This course is taught online when not offered face-to-face.

HIST 4210 - Ancient History

Credits: (3)
Typically Taught Spring Semester: Full Sem odd years
Description: The ancient Near East and Mediterranean world, including the civilizations of Greece and Rome, from approximately 3500 B.C.E. to 475 C.E. This course examines the origins of civilization and traces the development of culture, emphasizing the religious, political, and intellectual legacy of the ancient world.

HIST 4220 - History of the Middle Ages 300-1300

Credits: (3)
Typically Taught Fall Semester: Full Sem odd years
Description: A survey of Europe during the Middle Ages emphasizing the religious, political, and cultural institutions shaping this period.

HIST 4230 - Renaissance and Reformation - Europe: 1300-1660

Credits: (3)
Typically Taught Spring Semester: Full Sem even years
Description: Examines the cultural, religious, political and economic factors that affected Europe from the end of the Middle Ages to the mid-1600s. Special emphasis is given to the Renaissance and Reformation as vital forces at work during the period.

HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: Examines the political, economic, social, and cultural factors that affected Europe during the period. Special consideration is given to the Enlightenment as a cultural phenomenon and to European-wide revolution and counter-revolution in the late eighteenth century.

HIST 4250 - Nineteenth-Century Europe
Napoleon to the beginning of the First World War. The course will focus on the lingering impact of the political and economic revolutions of the late eighteenth century on the politics, culture, and social development of the nineteenth. Major consideration will be given to liberalism, romanticism, socialism, nationalism, imperialism, industrialization, science, and the rise of mass society.

HIST 4260 - Europe in the Age of Total War

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: This course on European history begins with a consideration of the causes of the First World War and concludes with an assessment of the impact of the Second World War on European politics, culture, and society. The course will examine the ways in which Europe was shaped in this period by warfare, revolution, the collapse of dynastic states, international agreements, colonial interests, labor movements, economic crises, economic modernization, the rise of totalitarian movements, genocide, and foreign occupation.

HIST 4280 - History of Christianity in Europe

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A history of the development and impact of Christianity within Europe through the twentieth century. This course will examine how Christianity affected European society, culture, politics, and science; and how these affected the institutions within Christianity. Particular emphasis will be placed on the early growth of Christianity, medieval changes, the Reformation, and spirituality in the industrial age.

HIST 4310 - Tsarist Russia

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: Russia's political, economic, social and cultural institutions from pre-history to 1917, emphasizing dynastic leaders, expansion, religion and other significant forces of change. Includes an analysis of both foreign and domestic policies that led to world war and revolution.

HIST 4320 CRE - Stalin and the Soviet Experiment

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: Analyzes the political, economic, military, diplomatic, social, and ideological problems, crises, and programs from the Russian Revolutions of 1917 to the present.

HIST 4330 - History of England to 1485

Credits: (3)
Typically Taught Fall Semester: Full Sem even years
Description: A survey of English history to 1485 with special consideration given to England's cultural, political, economic and social development during the Middle Ages.

HIST 4335 - Tudor and Stuart England

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A survey of English history during the Tudor and Stuart periods (1485-1714). Emphasis will be placed on the social, cultural, political, religious and economic development of England during this period.

HIST 4340 - History of England since 1714

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A survey of English history from 1714 to the present. Special emphasis will be given to England's cultural, political, economic, and social development during the Industrial Revolution, the Victorian era, and the twentieth century.

HIST 4350 - Germany and the Third Reich

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: German social-political, economic and cultural developments from the eighteenth century to the present. Topics include the Prussians, Classicism, Revolution, the Age of Bismarck, industrialism and warfare, and the 20th Century.

HIST 4370 - History of Modern France 1789-present

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: Examines the political, social, and cultural
history of France from the outbreak of the French Revolution to the present. Attention will focus on political ideologies, religious and philosophical movements, artistic and literary expression, and changes in the social environment. The course will also attend to the impact of France and French culture on the world and to recent challenges presented to French national identity by globalization.

HIST 4410 - History of Spain and Portugal

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A survey of the political, economic, social and cultural development of Spain and Portugal from the beginning to the present.

HIST 4440 SUS - East European Empires

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Examines the political, economic, and social factors that have shaped the history of this region from medieval era until 1815.

HIST 4450 - The Warsaw Pact

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Examines the political, economic, and social factors that have shaped the history of this region from 1815 to the present.

HIST 4490 - Exploring the Practices and Methods of History Teaching

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will consider the methods of the professional historian necessary for integrating primary and secondary sources, and provide practice with those skills for classroom teachers.

HIST 4500 - Teaching Social Studies in Grades 5-12

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem
Description: Materials and methods of teaching for skill, concept and value development in middle, junior high and senior high school social studies.
Note: (Required of all majors in Social Science area).

HIST 4510 GLB - Twentieth Century World

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: The political, economic, and social forces of the twentieth century since World War I. Emphasis is placed on global relationships, the rise of mass society, and conflict among cultures in an era of accelerating change.

HIST 4520 - History of Medicine

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will examine the history of medicine from antiquity to the present in a comparative framework. It will discuss changing ideas about the body, the nature of disease, the role of physicians, and the practice of medicine in relationship to larger cultural transformations.

HIST 4530 - Far Eastern History

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A survey of the political, economic, social and cultural development of China, Japan, and Korea from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

HIST 4550 - Southeast Asian History

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A survey of the political, economic, social and cultural development of Southeast Asia from the pre-modern era to the present, with particular emphasis given to the 19th and 20th centuries.

HIST 4570 - Islamic Civilization

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will examine the history of Islam from the 7th century to the present. It will discuss key theological developments, the spread of the religion and its diverse forms, and its effects on culture, art, and science.

HIST 4590 GLB - Middle Eastern History

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A survey of the political, economic, social and cultural development of the Middle East from the rise of Islam to the present with particular emphasis on the 19th and 20th centuries.

HIST 4610 GLB - History of Africa

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: Africa from earliest times to the twentieth century, with emphasis on the Sub-Sahara from its ancient kingdoms through the travails of the slave trade, European colonialism, and the independence movement.

HIST 4630 - History of Ancient and Colonial Latin America

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: History of ancient Native Latin America through the Spanish and Portuguese takeover and colonization.

HIST 4650 - Modern Latin America

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: A survey of the political, economic, social and cultural developments of the Latin American nations to the present.

HIST 4670 - History of Mexico

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: A survey from ancient Native American times, the colonial experience, and the nation including the U.S. Southwest until 1848.

HIST 4700 GLB - The U.S. and East Asia: War, Revolution, and Modernization

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course will survey major developments involving the U.S. in East Asia in the 20th century. Wars, revolution, and modernization resulted from direct encounters with the Philippines, China, Japan, and Vietnam, making these among the consequential episodes in world history.

HIST 4710 - Special Issues and Topics in American History

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: When offered will focus on a specific and detailed subject in American History. Students may repeat this course for credit when the topic offered is substantially different than the previous class.
May be repeated 3 times with a maximum of 9 credit hours.

HIST 4720 - Special Issues and Topics in European History

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Description: When offered will focus on a specific and detailed subject in European History. Students may repeat this course for credit when the topic offered is substantially different than the previous class.
May be repeated 3 times with a maximum of 9 credit hours.

HIST 4730 - Special Issues and Topics in Global and Comparative History

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem odd years
Description: When offered will focus on a specific and detailed subject in global or comparative history. Students may repeat this course for credit when the topic offered is substantially different than the previous class.
May be repeated 3 times with a maximum of 9 credit hours.

HIST 4810 - Experimental Course
HIST 4830 - Directed Readings

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Independent reading under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed. No more than three hours will count towards a major or minor.
Pre-requisite(s): Instructor approval.

HIST 4860 INT - Internships in Historical Studies

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Open to all students. Faculty supervised off-campus internships in public history institutions. Each internship is individually established and provides students with practical experience and the opportunity to apply and learn new professional skills. Six hours of internship are required for the Public History Emphasis. No more than six hours will count towards a major or minor.
Pre-requisite(s): Junior-class standing and permission of instructor and field supervisor.
May be repeated 3 times with a maximum of 9 credit hours.

HIST 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is offered as needed.

HIST 4985 - Historical Research and Methods

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course teaches research and writing skills and is designed to prepare History students for History 4990. Students will learn how to find a research topic, develop a thesis, identify primary sources, cite those sources, and prepare a research proposal. The course will expose students to models of good historical writing and argumentation which will serve as models for their own writing.

HIST 4990 - Senior Seminar

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A seminar for History majors requiring the completion of an extensive thesis project.
Pre-requisite(s): HIST 4985.

HIST 6830 - Directed Readings

Credits: (1-3)
Description: Independent readings under the supervision of a department member on special topics in History. For each hour of credit approximately 1500 pages of material will be read. A written assignment on this material will also be completed.
Pre-requisite(s): Instructor approval.
No more than three hours will count towards a major or minor.
Note: This course is offered as needed.

HLTH 1020 LS - Science and Application of Human Nutrition

Credits: (3)
Description: (available online) Human nutrition is the platform to study the nature and integration of science across disciplines and in society through applied problem solving and data analysis. Nutritional balance and good health are explored in context of the levels of organization, metabolism and homeostasis, genetics and evolution, and ecological interactions.
This course is taught Web enhanced.
HLTH 1030 SS - Healthy Lifestyles

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: A systematic approach to promote health enhancing behaviors related to the prevention of disease and achievement of optimal health. Focuses on the total person with a consideration of the mental, emotional, intellectual, social, physical, and environmental dimensions which impact human health.

HLTH 1110 - Stress Management

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: An introductory course focusing on the causes of stress, recognizing personal stressors and life change management for stress control.

HLTH 1300 - First Aid: Responding to Emergencies

Credits: (2)
Typically Taught Summer Semester: 1st Blk
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: Training the lay person to respond correctly in emergencies and act as the first link in the emergency medical service system. Course leads to American Red Cross certification in Adult, Infant and Child CPR and First Aid: Responding to Emergencies. Cross listed with Athletic Training.

HLTH 2220 - Prenatal and Infant Nutrition

Credits: (2)
Description: This course focuses on nutrition and diet as they apply to birth outcome, the maintenance of maternal health, and the growth of the infant. Breastfeeding and community programs will be discussed in support of maternal and infant health.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2300 - Emergency Response

Credits: (3)
Typically Taught Summer Semester: 2nd Blk

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Meets the needs of the non-health care professional who has a duty to respond in an emergency. Provides more skills and in-depth training than the First Aid: Responding to Emergencies course. Course leads to American Red Cross certification in Emergency Response and CPR for the Professional Rescuer. Cross listed with RHS 2300.

HLTH 2400 - Mind/Body Wellness

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Promotion of emotional wellness and understanding the body, mind, spirit connection. Required by the Utah State Board of Education for endorsement in health education.

HLTH 2420 - Childhood and Adolescent Nutrition

Credits: (2)
Description: The effects of nutrition and diet on child growth, health and behavior are explored from toddler through adolescence. The processes of growth and puberty provide the foundations for understanding nutritional support. Common nutritionally-related problems such as obesity, anemia, and eating disorders are also addressed.
Pre-requisite(s): NUTR 1020 or HLTH 1020.

HLTH 2700 - Consumer Health

Credits: (3)
Typically Taught Summer Semester: Full Sem, 1st Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem
Description: Knowledge and skills relating to consumption of health products and services, including advertising and health, quackery, alternative health care, economics of health care, etc.

HLTH 2800 - Individual Projects

Credits: (1-3)
Description: A comprehensive study or project in the field of Health Education. Hours to be arranged.
May be repeated 2 times up to 3 credit hours.
Note: This course is offered as needed.
HLTH 2890 INT - Cooperative Work Experience

Credits: (1-6)
Description: Open to all students in Health who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.
May be repeated 5 times up to 6 credit hours.
Note: This course is offered as needed.

HLTH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

HLTH 3000 - Foundations of Health Promotion

Credits: (3)
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Emerging trends and roles of health education within occupational, medical, community, and school settings including history, philosophy, current practices.
Pre-requisite(s): HLTH 1030.

HLTH 3050 - School Health Program

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Designed to prepare the prospective teacher for their responsibilities in administering the functions of the School Health Program, including: health services, healthful school environment, and health education.

HLTH 3100 - Applications of Technology in Health Promotion

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is an exploration of current and future uses of technology in the health promotion fields.
Pre-requisite(s): Completion of Computer & Information Literacy requirement or permission of instructor.

HLTH 3150 - Community Health Agencies and Services

Credits: (3)
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Description: An overview of public and community health including history, management, prevention and epidemiology of disease. Emphasis on the role of community and government health agencies regarding health promotion and disease prevention activities.
Pre-requisite(s): HLTH 3000 or HLTH 3050.

HLTH 3160 - Principles of Health Behavior

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: The course provides a comprehensive overview of theories and models that explain and modify health behaviors. The models and theories are viewed from a multidisciplinary perspective and are applied to health behaviors among both normal and special populations.
Pre-requisite(s): HLTH 3000.

HLTH 3200 - Methods in Health Education

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Designed to appraise and utilize the different methods and aids used in teaching health and lifestyle management in the schools, community, worksite, and health care settings. Students develop skills in organizing, presenting, and evaluating learning experiences presented to target populations in the various settings.
Pre-requisite(s): HLTH 3000 or HLTH 3050 or ESS 2200.

HLTH 3320 - Health and Nutrition in the Older Adult

Credits: (3)
Description: The developmental process of late adulthood with focus on the physiological age-related changes provides the foundation for understanding physical, mental,
and social health and well-being in the older adult. Nutrition and exercise assessments and prescriptions, clinical services, community and social support services, complementary and alternative medicine, and other topics are explored in the context of promoting healthy aging.

**Pre-requisite(s):** NUTR 1020 or HLTH 1020.

**HLTH 3400 - Substance Abuse Prevention**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Online

**Typically Taught Fall Semester:** Full Sem, Online

**Typically Taught Spring Semester:** Full Sem, Online

**Description:** Study of legal and illegal drugs from a pharmacological, historical, psychosocial, and behavioral perspective. Emphasis on primary prevention concepts and responsible consumerism. Education students can receive “Substance Abuse Certification” from the Utah State Office of Education.

**HLTH 3420 - Multicultural Health and Nutrition**

**Credits:** (3)

**Description:** The application and understanding of social, religious, economic and aesthetic qualities of foods provides the knowledge for the explorations of the food patterns of various cultures. The understanding or world food problems as they pertain to the health will also be discussed.

**Pre-requisite(s):** NUTR 1020 or HLTH 1020 and NUTR 2320.

This course is taught Web enhanced.

**HLTH 3500 - Human Sexuality**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Online

**Typically Taught Fall Semester:** Full Sem, Online

**Typically Taught Spring Semester:** Full Sem, Online

**Description:** A feminist perspective and analysis of the psychological, cultural and political health related issues that impact women throughout the life span.

**Pre-requisite(s):** Upper division standing or consent of instructor.

(Cross listed with Women's Studies)

**HLTH 4013 - Health Promotion Research and Assessment**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem, Online

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Application of research methods used both in assessing individual and community needs for health education, and in assessing the effectiveness of health education programs.

**Pre-requisite(s):** HLTH 3000 and PUBH 3200.

**HLTH 4150 - Needs Assessment & Planning Health Promotion Programs**

**Credits:** (4)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Conducting needs assessment and planning health promotion programs in a community, occupational, school or clinical setting.

**Pre-requisite(s):** HLTH 3000.

**HLTH 4220 - Women's Health Issues**

**Credits:** (3)

**Typically Taught Summer Semester:** Full Sem

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Description:** Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

**Pre-requisite(s):** Upper division standing or consent of instructor.

(Cross listed with Women's Studies)

**HLTH 4250 - Contemporary Health Issues of Adolescents**

**Credits:** (2)

**Typically Taught Summer Semester:** Full Sem, Online

**Typically Taught Fall Semester:** Full Sem, Online

**Typically Taught Spring Semester:** Full Sem, Online

**Description:** Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.
HLTH 4700 - Wellness Coaching

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Wellness coaching provides a highly effective and focused approach towards improving people's individual health habits and involves coaching people towards achieving their personal, health, and wellness goals. Students with an interest in wellness coaching will gain a broad overview of the field including an introduction to the application of wellness coaching tools, theory, concepts and techniques.
Pre-requisite(s): HLTH 2400, HLTH 3200.

HLTH 4800 - Individual Projects

Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A comprehensive study or project in the field of Health Education. Hours to be arranged for seniors only. May be repeated 2 times up to 3 credit hours.

HLTH 4860 INT - Field Experience

Credits: (1-6)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Work experience which applies prior academic learning in a supervised setting.
Pre-requisite(s): HLTH 3000, HLTH 3100, HLTH 3200, HLTH 4150.
May be repeated 5 times up to 6 credit hours.

HLTH 4890 INT - Cooperative Work Experience

Credits: (1-6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A continuation of HLTH 2890.
May be repeated 5 times up to 6 credit hours.
Note: This course is offered as needed.

HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.
Note: This course is taught as needed.

HLTH 4990 - Senior Seminar

Credits: (1)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This is a capstone course of Health Promotion seniors only. Summarizes the experiences of the Health Promotion Major, addresses future alternatives and prepares students for employment now and/or graduate study.

HLTH 6250 - Contemporary Health Issues of Adolescents

Credits: (2)
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online
Description: Provides professionals who work with adolescents an overview of both the school health program and health issues prevalent among teens.

HLTH 6300 - Health Education in the Elementary School

Credits: (2)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Provides elementary school teachers the resources and skills needed to teach the Utah Healthy Lifestyles curriculum.

HNRS 1110 HU - Introduction to Honors: The Construction of Knowledge

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: An interdisciplinary class introducing students to the different ways university disciplines see the world and construct meaning.
A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.
HNRS 1500 PS - Perspectives in the Physical Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary approach to the physical sciences. This introductory class deals with basic concepts, problems and issues of the physical sciences. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1510 LS - Perspectives in the Life Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary approach to the life sciences. This introductory class deals with basic concepts, problems and issues of the life sciences. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1520 SS - Perspectives in the Social Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary introduction to the social sciences. This introductory course deals with the basic concepts, methods, models and issues of the social sciences. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1530 CA - Perspectives in the Creative Arts

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary introduction to the creative arts. This introductory class deals with basic concepts, problems and issues of the creative arts. A student may repeat a course number twice for a maximum of 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 1540 HU - Perspectives in the Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: An interdisciplinary approach to the arts and humanities. This introductory class deals with basic concepts, problems and issues of the arts and humanities. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will focus on the history and development of a central concept in the Humanities, using original sources as the primary class texts. Pre-requisite(s): Prior to taking this course students are strongly advised to take HNRS 1110 HU and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts

Credits: (3-6)
Variable Title
Description: This course will focus on a central concept in the Creative Arts, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.
HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences

Credits: (3)
Variable Title
Description: This course will focus on a central concept in the Physical Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course will focus on a central concept in the Life Sciences, using original sources as the primary class texts. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2050 SS - Exploring Key Concepts in the Disciplines: Social Science

Credits: (3)
Variable Title
Description: This course will focus on the history and development of a central concept in the Social Sciences, using original sources as the primary class texts. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A survey of influential ideas, literature and events that characterize antiquity and the middle ages in the Western world. This course is offered either for HU credit (2110A) or for SS credit (2110B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A survey of the great ideas, literature and events that characterize Western civilization from the Renaissance to relativity. This course is offered either for HU credit (2120A) or for SS credit (2120B). Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East

Credits: (3)
Variable Title
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: A survey of the great ideas, literature, religions and philosophical foundations of Asia. This course is offered either for HU credit (2130A) or for SS credit (2130B). This course also fills the Diversity requirement. Prior to taking this course students are strongly advised to take HNRS 1110 and a 1000-level HNRS "Perspectives" General Education course. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2830 - Directed Readings, Projects, and Research
HNRS 2900 - Honors Colloquium
Credits: (1-3)
Description: Individualized tutorial with a professor who may be selected from many possible disciplines. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 2920 - Short Courses, Workshops, Institutes, and Special Programs
Credits: (1-6)
Workshop
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

HNRS 3110 - Great Books
Credits: (3)
Description: A selection of books that embody some of the great ideas, literature, and events influential in history. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 3900 - Honors Colloquium
Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4830 - Directed Readings: Senior Project Research
Credits: (1-3)
Description: This class is taken in preparation for the HNRS 4990 Honors Senior Project. Class time is TBA, but students working towards their Honors Senior Project usually meet about seven times during the semester. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4900 - Honors Colloquium
Credits: (2-4)
Description: Varied topics as described in the semester schedule; topics will be drawn from disciplines across the entire campus. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HNRS 4920 - Short Courses, Workshops, Institutes, and Special Programs
Credits: (1-6)
Workshop
Description: Consult the semester class schedule for current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

HNRS 4990 - Honors Senior Project
Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course offers a capstone senior project experience for students. All students aiming to complete University Honors must take this class in its 1-credit hour form. Students interested in completing additional research with the Honors Program may register for 2-3 credit hours as appropriate. A student may repeat a course number for up to 6 credits if the course name, course syllabus, and faculty/instructor teaching the course is different.

HTHS 1005 - Current Certification in Health Care
Credits: (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
**Description:** Certificate programs provide a foundation for many of the Allied Health Professions. This course allows students to obtain University credit for the completion of a certificate program. Students should complete their certificate program prior to or during the semester in which they are enrolled in the course. Certificates that currently qualify for this course are Certified Nurse Assistant. Other certificates may be eligible on a case-by-case basis. Students may elect 1-3 credit hours for this course. Required assignments will match the elected credit hours.

**HTHS 1101 - Medical Terminology**

**Credits:** (2)
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** A comprehensive overview of medical language. This course takes a body-systems approach to presenting the medical terminology associated with anatomy, physiology, diseases and treatments. Designed for all students interested in health sciences or a career in medicine.

**HTHS 1103 - Introduction to Health Careers and Care in a Diverse Society**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course will compare and contrast diverse health careers. Students will discuss the history, providers, and delivery models involved in Health Care. The course will explore how such factors as economic class and status in groups such as gender, age, and physical ability affect health care professionals. Students will also explore numerous fields and opportunities in the Health Care Industry.

**HTHS 1104 - Introductory Human Anatomy and Physiology**

**Credits:** (3)
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** Introductory Human Anatomy and Physiology is a single semester 3 credit-hour course that focuses on the basic structure and function of the human body. Course topics include a basic introduction to atomic, molecular, cellular, and tissue levels of organization; and the integumentary, musculoskeletal, neuroendocrine, cardiovascular, lymphatic, immune, respiratory, digestive, and genitourinary systems. Course activities will enhance your understanding of the material by providing practice in critical thinking, content application, and data analysis.

**HTHS 1108 - Biocalculations for Health Professions**

**Credits:** (5)
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** Fundamental mathematical concepts using health professions applications. Topics include: basic arithmetic, pre-algebra, beginning algebra, geometry, and statistics applied to solutions, dosage calculations, electrolytes, acid base balance, circulatory and urinary function, pulmonary function testing and energy and metabolism. This course does not meet the University's quantitative literacy requirement.

Note: This course is offered as needed.

**HTHS 1110 LS - Integrated Human Anatomy and Physiology I**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem, Full Sem - Online
**Typically Taught Fall Semester:** Full Sem, Full Sem - Online
**Typically Taught Spring Semester:** Full Sem, Full Sem - Online

**Description:** Integrated Human Anatomy and Physiology I is the first semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the atomic and molecular levels of organization, cell biology and metabolism, microbiology, and the integumentary, skeletal and muscular body systems. Weekly integrated laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology. This course meets the life science (LS) general education learning outcomes for the university.

**Suggested Requisite(s):** Completion of HTHS 1101 and/or HTHS 1104 is strongly recommended.

Note: Course may only be taken three times.
HTHS 1111 - Integrated Human Anatomy and Physiology II

Credits: (4)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Integrated Human Anatomy and Physiology II is the second semester of a two-semester anatomy and physiology sequence that focuses on the structure and function of the human body. Course module topics include: the nervous, endocrine, cardiovascular (blood), cardiovascular (heart and blood vessels), respiratory, digestive, urinary, and reproductive body systems. Laboratory sessions serve to enhance the lectures through discussions, data analysis, hands-on activities, and activities utilizing cadaver specimens and interactive digital cadaver technology.
Pre-requisite(s): HTHS 1110 with a grade of C or better.

HTHS 1120 - Case Studies in Health Sciences

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Case Studies in Health Sciences is a course designed for students wishing to explore the interdisciplinary nature of health care using case study models. Each case study focuses on a disease process. Progression through each case study involves a review of anatomy and physiology, pathophysiology, medical terminology and a study of a variety of health professionals including their educational and training requirements. Additionally, the student will explore key medical diagnostic tests (e.g. laboratory, imaging) used in patient disease diagnosis, management and prevention. The course emphasizes the importance of the team approach to patient care.
Pre-requisite(s): HTHS 1110 and HTHS 1111 or an equivalent course in anatomy and physiology. Recommended prerequisite: HTHS 1101.

HTHS 1130 - Common Medicines

Credits: (3)
Description: This is an introductory course that will provide information regarding proper drug usage for those without significant backgrounds in the Biological Sciences. The course primarily discusses over-the-counter medicines as well as prescription drug groups that are commonly used by the public. The overall objective of this course will be to provide information in such a way that individuals are able to make wise and appropriate choices, are more aware of possible drug-related problems, and will become well-informed consumers. May be repeated twice with a maximum of 6 credit hours.
Note: This course is offered as needed.

HTHS 2230 - Introductory Pathophysiology

Credits: (3)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: An introduction to the pathophysiologic disruptions of normal human body function, this course will emphasize disease mechanisms and the body's response to restore homeostasis. Units of study include foundational concepts of cellular injury, genetics, acid-base, electrolyte, fluid balance and functional alterations of the immune, hematologic, nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems.
Pre-requisite(s): Completion of HTHS 1110 and HTHS 1111, or ZOOL 2200, or an equivalent human physiology course with a grade of C or better. Concurrent enrollment in HTHS 2231 is recommended.

HTHS 2231 - Introductory Pathophysiology Laboratory

Credits: (1)
Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online
Description: Laboratory and computer exercises involving analysis of both clinical and laboratory data. Students evaluate signs, symptoms, diagnosis, and treatment of various pathological conditions and diseases.
One two-hour laboratory session per week.

Co-require(s): HTHS 2230.

HTHS 2240 - Introduction to Pharmacology

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: Introductory pharmacology course which covers pharmacological principles including modes of action, uses, modes of excretion, and patient side effects of various drug classes. The drugs are presented in a "system approach" with emphasis on medications utilized in diagnosing and treating diseases associated with the various body systems. Class format includes a 3 hour lecture class with students participating in oral presentations and case studies. Recommended prerequisite: HTHS 1101, HTHS 1110 and HTHS 1111.

HTHS 2830 - Health Sciences Directed Readings

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Directed Readings in Health Sciences areas. Must have departmental approval. May be repeated twice with a maximum of 3 credit hours.

HTHS 2904 - Information Resources in the Health Professions

Credits: (1)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online

Description: Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences. Cross-listed as LIBS 2904.

HTHS 2910 IL - Health Information Literacy, Healthcare Systems & Career Exploration

Credits: (4)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: HTHS 2910 is designed for students who are investigating healthcare systems and careers in healthcare, integrating content from both health sciences and information literacy. The course explores pathways that can lead to meaningful and rewarding careers in healthcare, and techniques useful in applying and matriculating into these educational programs. Evidence-based practice is incorporated into the research process, enabling students to identify information needs, and to select, evaluate, and ultimately utilize health information to make informed decisions. This course emphasizes critical thinking and prepares students to join conversations on important topics in healthcare as informed and responsible participants. Ultimately, this course will enable students to approach our information landscape more critically, both as a consumer and creator of information and as a practitioner in the health sciences. This course fulfills the information literacy general education core requirement.

Note: Cohort Code

HTHS 2990 - Health Sciences Seminar

Credits: (1)

Description: Presentations, group discussions and analysis of selected topics, designed to prepare the Health Science major for career opportunities in the job market and applying for Health Professions professional programs. May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

HTHS 3240 - Pharmacology Principles and Clinical Applications

Credits: (3)

Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online

Description: Pharmacology Principles and Clinical Applications is an upper division course designed for students who are pursuing a career in health, health education, or the health professions. This course will focus on pharmacokinetics, pharmacodynamics, mechanisms of drug action, evidenced-based medicine, organ-systems
approach to differential therapeutics, and topics of current relevancy. In addition, students will present on a pharmacology case or topic of their choice.

**Pre-requisite(s):** HTHS 1111 or ZOOL 2200, or an equivalent human physiology course. HTHS 2230 - Introductory Pathophysiology is also recommended.

**HTHS 3328 - Pathophysiology of Cells and Tissues**

**Credits:** (2)
**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem Online
**Typically Taught Spring Semester:** Full Sem Online

**Description:** Pathophysiology of Cells and Tissues is a course that will emphasize disease mechanisms and the body's response to restore homeostasis by presenting an orientation to disease as disordered physiology. This course describes the etiology, developmental considerations, pathogenesis and clinical manifestations of disease processes. Units of study focus on the interactions of cellular injury mechanisms, genetic disorders, neoplasia, and inflammatory and immune disorders. WSU Online class only.

**Pre-requisite(s):** HTHS 1111, ZOOL 2200, or equivalent human physiology course.

May be repeated once for credit.

**HTHS 3329 - Pathophysiology of Organs and Systems**

**Credits:** (2)
**Typically Taught Summer Semester:** Full Sem Online
**Typically Taught Fall Semester:** Full Sem Online
**Typically Taught Spring Semester:** Full Sem Online

**Description:** Pathophysiology of Organs and Systems is a course that will emphasize the mechanisms of disordered physiology that underlie disease conditions by analyzing the mechanism(s) of different disease states. Particular attention will be given to etiology, pathogenesis, developmental and environmental influences, and clinical manifestations. Units of study focus on the nervous, endocrine, cardiovascular, respiratory, urinary, musculoskeletal, and reproductive systems. WSU Online class only.

**Pre-requisite(s):** HTHS 1111 or ZOOL 2200, or equivalent human physiology course.

May be repeated once for credit.

**HTHS 3410 - Foundations of Health Science Technology**

**Credits:** (3)
**Description:** The purpose of this course is to teach the student fundamental technological and pharmacological principles used in dental and medical equipment. It will be focused on criteria used by dental and medical personnel to make technology and pharmacology decisions.

Note: This course is offered as needed.

**HTHS 3412 - Health Science Technology Applications**

**Credits:** (3)
**Description:** The purpose of this course is to teach students fundamental technological and pharmacological principles used in specific medical devices. The students will develop an understanding of different health science manufactured products and services and will receive exposure to industry representatives.

**Pre-requisite(s):** HTHS 3410.

Note: This course is offered as needed.

**HTHS 3997 - Digital EEG Concepts**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the fall semester will be required and there is a required research paper.

**HTHS 3998 - Normal Adult EEG**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem

**Description:** This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

**HTHS 3999 - Artifacts in EEG**

**Credits:** (3)
**Typically Taught Spring Semester:** Full Sem

**Description:** This course is part of the Bachelor of Integrated Studies in Electroneurodiagnostics (END), a partnership between Weber State University and the END
program at the University of Utah. Students will complete lecture and lab hours primarily at the University of Utah. In addition, five meetings during the spring semester will be required and there is a required research paper.

**HTHS 4010 - Interdisciplinary Health Care Teams**

**Credits:** (3)

**Description:** This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting. Cross-listed with DENT 4010 and NRSG 4010. May be repeated twice for credit.

Note: This course is offered as needed.

**HTHS 4850 - Study Abroad**

**Credits:** (1-6)

**Variable Title**

**Description:** This course provides opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

May be repeated 5 times for 6 credit hours.

**HUMA 1010 HU - Introduction to Humanities**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Description:** This course examines the world by learning about humanistic disciplines including philosophy, art, literature, and history. In considering how the humanities help us understand what makes us human, we will explore questions about individual identity and our roles in our communities. Europeans in the Renaissance thought that the study of the humanities would make people better citizens. We will ask ourselves if we agree with that sentiment and reflect on what the arts and humanities mean to us as individuals and as a society in the twenty-first century.

**IDT 1010 CA - Introduction to Interior Design**

**Credits:** (3)

**Typically Taught Summer Semester:** Online

**Typically Taught Fall Semester:** Full Sem, Online

**Typically Taught Spring Semester:** Full Sem, Online

**Course Fee:** $20.00

**Course Fee Purpose:** Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)

**Description:** Explores the interior design profession, professional certification and licensure. Students learn the various phases of the design process and develop spaces that relate to sustainability, accessibility and human factors. Study of architectural and furniture styles are explored. Students develop aesthetic judgment as they create spaces that utilize the elements and principles of design and color theory.

**IDT 1020 - Presentation Techniques**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Typically Taught Spring Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)

**Description:** Exploration of materials and application of methods required for visual communications with interior design presentation. Emphasis in conceptualizing and quick-sketching techniques. Introduction to oral and technical visual presentation methods such as Adobe Illustrator, InDesign and Google SketchUp are incorporated into curriculum.

**IDT 1050 - Architectural Drafting**

**Credits:** (3)

**Typically Taught Fall Semester:** Full Sem

**Course Fee:** $50.00

**Course Fee Purpose:** Specialized software used in this course: AutoDesk products licensure, printers, computers. Licensing fees annually

**Description:** Introduction to the fundamentals of drafting of architectural working drawings using hand and basic technical skills. Graphic symbols, lettering and procedures used in developing a set of residential plans, including architectural standards and building requirements are studied.
IDT 1860 - Practicum

Credits: (1-2)
Description: A course of occupational experiences in the interior design industry. A plan is created by the instructor and student to provide meaningful training in the student's career field.
Pre-requisite(s): IDT 2020, IDT 2035.
May be repeated for a maximum of 2 credit hours.
Note: This course is offered as needed.

IDT 2010 SUS - Sustainability I: Textiles and Soft Materials

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper, replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access).
Description: A study of fibers, yarns, fabric structure, codes, finishes, and sustainable manufacturing practices and products as they relate to residential and commercial interiors. Three-dimensional projects may be required as part of this course.

IDT 2020 - Computer-aided Design and Drafting

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Application of basic computer-aided drafting and design as it relates to technology in interior design. Layout, modeling, rendering, and 3-D projects are featured as part of this course.

IDT 2035 - Design Process/Space Planning

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually.
Description: Experiences in programming, research development, and schematic design development. Emphasis on problem solving and space planning for residential and non-residential spaces. Design charrettes may be included as part of the course curriculum.
Pre-requisite(s): IDT 1050 or ARCH 1350.

IDT 2040 - Architectural Detailing

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course AutoDesk products licensure, printers, computers. Licensing fees annually
Description: This course develops interior detailing technical skills, emphasizing stairways, fireplaces, ceilings, floor systems, and millwork (built-in furniture) details for residential and commercial spaces. Accessibility standards are discussed and incorporated into construction drawings and custom millwork designs. Life safety issues in regards to door, frame and hardware specification. Preparation of construction drawings, specifications, door, window and finish schedules for use by the trade. Three-dimensional projects may be required as part of this course.
Pre-requisite(s): IDT 2020.

IDT 2050 - Codes

Credits: (2)
Typically Taught Spring Semester: Full Sem
Description: The study and application of interior building codes that insures the health, safety, and welfare of individuals who occupy the structure.

IDT 2060 SUS - Sustainability II: Materials, Hard Surfaces, and Specifications

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper, replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access).
Description: Exploration and research of interior finishes, materials, and sustainable practices. Practical application for specifying and installation of materials will be emphasized. Three-dimensional projects may be required.
as part of this course. An interdisciplinary design charrette is featured as part of this course.

IDT 2080 - Advanced Interior Architectural Drafting and Design

Credits: (3)
 Typically Taught Fall Semester: Full Sem
 Course Fee: $50.00
 Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
 Description: This course continues the study of technical digital interior architectural drafting and design using the latest technologies for interior construction documents and interior architectural renderings.

IDT 2820 - Historical Interiors

Credits: (3)
 Typically Taught Spring Semester: Full Sem
 Course Fee: $20.00
 Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
 Description: Historical research of interior furnishing and architecture from Egyptian through English Victorian. Oral presentations, research projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

IDT 2830 - Directed Readings

Credits: (1-3)
 Description: Individually chosen readings or specialized topics supervised by a faculty member. Instructor's approval required.
 May be repeated up to 3 credit hours.
 Note: This course is offered as needed.

IDT 2860 - Practicum

Credits: (1-2)
 Typically Taught Spring Semester: Full Sem
 Description: A course of occupational experiences in the interior design industry. Students are given opportunity to apply the design process to a real-life project, often with a service-learning emphasis. Instructor's approval required. This course may be listed among credits for the IDT Study Abroad program.

Pre-requisite(s): IDT 2020 and IDT 2035. May be repeated up to 2 credit hours.

IDT 2990 - Interior Design Seminar

Credits: (1)
 Typically Taught Fall Semester: Full Sem
 Typically Taught Spring Semester: Full Sem
 Course Fee: $20.00
 Course Fee Purpose: Support class materials, tour fees, guest lecture materials
 Description Purpose: Professional issues presented by guest lecturers, tours, and current discussions in interior design. Due to the nature of the curriculum, not all lectures, tours and experiences may be held in a traditional setting or time. This course may be listed among credits for the IDT Study Abroad program. It is encouraged that design majors enroll in this course each semester. May be taken for credit/no credit.
 May be repeated for credit up to 8 times for a maximum of 9 credit hours.

IDT 3000 - Lighting Design

Credits: (3)
 Typically Taught Fall Semester: Full Sem
 Course Fee: $50.00
 Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.
 Description: A study of lighting principles, lighting systems, light sources, layered lighting concepts, calculation of lighting levels. Voice and data telecommunications systems, communication of lighting design and specifications including budgetary limitations are covered. Lighting plans, switching plans and electrical plans are explored. Focus is given to life safety concerns, codes, and accessibility. Also, exploration of daylighting principles and energy efficiency is incorporated. Emphasis is placed on communicating a design solution by practical application of learned principles in project format. An interdisciplinary design charrette is featured as part of this course.
 Pre-requisite(s): (IDT 1050 OR ARCH 1350) and IDT 2035.

IDT 3020 - American and Modern Interiors

Credits: (3)
 Typically Taught Fall Semester: Full Sem
 Course Fee: $20.00
**Course Fee Purpose:** Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)

**Description:** Historical survey and research of interiors, furnishings, and architecture from the 1880's to the present. Application of modern design in today's interior including oral presentations, research projects and/or three-dimensional projects may be required as part of this course. This course may be listed among credits for the IDT Study Abroad program.

**IDT 3025 - Professional Practice**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $20.00
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)

**Description:** A study of the business aspect of Interior Design. Information will be presented regarding forms and professional practices for the Interior Designer, i.e., ethics, contracts, fees, purchase orders, letters of agreement, business formations and terminology of business practice. Job seeking skills will also be covered, along with professional licensing and certification. An interdisciplinary design charrette is featured as part of this course.

**IDT 3040 - Perspective/Rendering**

Credits: (2)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** Perspective drawing, sketching, and manual and computer-generated rendering techniques are explored and utilized. It is required that IDT 4830 for one credit hour be taken in conjunction with this course. An interdisciplinary design charrette is featured as part of this course.

**IDT 3045 - Residential Design**

Credits: (3)
Typically Taught Spring Semester: Full Sem

**Description:** This course focuses on projects that apply the design process to residential interiors. Kitchen and Bath curriculum and NKBA standards are introduced. 20/20 Technologies software is introduced. Design charrettes, local or national competition participation, and/or three-dimensional projects may be featured as part of this course.

Pre-requisite(s): IDT 3000 and IDT 3040.

**IDT 3060 - Kitchen & Bath**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** A continuation of residential design is explored in which NKBA guidelines for kitchens and baths is applied to projects. In-depth study of the design of kitchens and baths is the focus. Kitchen and bath-specific 20/20 Software is utilized. Design charrettes and national competition participation are featured as part of this course. Prepares the student for NKBA (National Kitchen and Bath Association) certification exams.

Pre-requisite(s): IDT 3045.

**IDT 4010 - Commercial Studio**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** Application of codes as they pertain to egress, accessibility, and fire in commercial interiors. Emphasis on NCIDQ-based commercial projects are featured in this studio course.

Pre-requisite/Co-requisite: IDT 4020.

**IDT 4020 - Commercial Design**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $50.00
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** Applying the design process to commercial design projects is the focus of this course. Contract, hospitality, healthcare, and global projects are emphasized in which students apply codes knowledge and commercial
design strategies and specification of commercial-grade finishes and furnishings. Design charrettes and national competition participation are featured as part of this course.

**Pre-requisite(s):** IDT 2035, IDT 2050, IDT 3000, IDT 3040.

### IDT 4025 - Senior Program Development

**Credits:** (2)

Typically Taught Fall Semester: **Full Sem**  
Course Fee: $50.00  
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** The first of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality and healthcare design emphasis along with a research component. The first four phases of the design process are embarked upon in this semester. The senior student must take IDT 4025 in the same academic year following completion of IDT 4025. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.

**Pre-requisite(s):** IDT 4020.

### IDT 4030 - Senior Project

**Credits:** (3)

Typically Taught Spring Semester: **Full Sem**  
Course Fee: $50.00  
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** The second of a two-part series for the senior student that produces a comprehensive project that features residential, contract, hospitality and healthcare design emphasis along with a research component. The design process continues in this semester including presentation of the capstone project. The senior student must take IDT 4025 in the same academic year preceding completion of IDT 4025. Local and national competition participation are featured as part of this course. Instructor approval required for registration for this course.

**Pre-requisite(s):** IDT 4025.

May be taken twice.

### IDT 4040 - Portfolio Design

**Credits:** (2)

**Typically Taught Spring Semester: Full Sem**  
Course Fee: $50.00  
Course Fee Purpose: Specialized software used in this course Adobe, AutoDesk products licensure, printers, computers. Licensing fees annually.

**Description:** Developing and presenting both a hard-copy and digital portfolio for job searching in the field of interior design. In addition to the portfolio, student will create a customized resume, business card, and letter of introduction to accompany both the hard-copy and digital portfolio for presentation to prospective employers and clients. Adobe Creative Suite software is used extensively in this course. Local and national competitions are featured as part of this course.

**Pre-requisite(s):** IDT 4025 or ARCH 4350.

### IDT 4830 - Directed Readings

**Credits:** (1-3)

Typically Taught Spring Semester: **Full Sem**

**Description:** Individual readings supervised by a faculty member. Junior/Senior level course. Must be taken with the approval of the instructor. This course may be listed among credits for the IDT Study Abroad program. May be repeated twice for a maximum of 3 credit hours.

### IDT 4860 INT - Internship for Interior Design

**Credits:** (3)

Typically Taught Fall Semester: **Full Sem**  
Typically Taught Spring Semester: **Full Sem**  
Course Fee: $20.00  
Course Fee Purpose: Computer lab/studio equipment including but not limited to computers, printers, print cartridges, paper. replaced as needed. Basic computer software needed for this course (Microsoft Office, internet access)

**Description:** A structured professional-level field experience where the interior design major applies skills through work experience with a qualified interior designer, architect, or design firm. The curriculum also involves research into the field of interior design, professional practice and professional certification. Tours, activities, and field trips may be featured as part of the course curriculum in addition to the on-site experience in the design field. Internship must be approved by the instructor within the first two weeks of the semester.

### ITLN 1010 - First Semester

**Credits:** (3)

Typically Taught Fall Semester: **Full Sem**

Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

ITLN 1020 - Second Semester

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of ITLN 1010. Basic language skills including listening, speaking, reading, writing and culture.

ITLN 2010 - Third Semester

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of ITLN 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

ITLN 2020 HU - Fourth Semester Italian

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of ITLN 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

ITLN 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of ITLN 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

JPNS 1000 - Proficiency Development

Credits: (1-2)
Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc. May be repeated for credit under different titles. Note: Course not currently being offered.

JPNS 1010 - First Semester Japanese

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

JPNS 1020 - Second Semester Japanese

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (N=Novice) Continuation of JPNS 1010. Basic language skills including listening, speaking, reading, writing and culture.

JPNS 1700 - Conversational Skills

Credits: (1-3)
Description: Specific vocabulary and speaking skills in one semester (e.g., nursing, law enforcement, medical, tourism, family language courses, etc.). May be repeated for credit under different titles.
JPNS 1852 - Study Abroad

Credits: (1-3)
Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply. May be repeated twice with a maximum of 3 credit hours. Note: Check with Department for course availability.

JPNS 2010 - Third Semester Japanese

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of JPNS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

JPNS 2020 HU - Fourth Semester Japanese

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (NH=Novice High) Continuation of JPNS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

JPNS 2021 - Second Year II

Credits: (3)
Description: (NH=Novice High) Continuation of JPNS 2010 without General Education Humanities credit. Offered through examination only.
Pre-requisite(s): Only available through testing.

JPNS 2030 - Second Year Language Review

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of
techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

**JPNS 3060 - Grammar & Composition**

- **Credits:** (3)
- **Course Fee:** $8.00
- **Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
- **Description:** (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

Note: Check with department for course availability.

**JPNS 3116 - DLI Bridge Course I**

- **Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem
- **Description:** Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): JPNS 2020 or AP exam with a score of 4 or better

**JPNS 3117 - DLI Bridge Course II**

- **Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem
- **Description:** Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): JPNS 2020 or AP exam with a score of 4 or better

**JPNS 3118 - DLI Bridge Course III**

- **Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem
- **Description:** Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): JPNS 2020 or AP exam with a score of 4 or better

**JPNS 3160 - Introduction to Literature**

- **Credits:** (3)
- **Course Fee:** $8.00
- **Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
- **Description:** (IL=Intermediate Low) Required of all majors and minors. 3160 may be taken concurrently with other literature courses. One sheltered section may be offered to students who have not had extensive in-country experience.

Note: Check with department for course availability.

**JPNS 3175 - Business Language II**

- **Credits:** (3)
- **Typically Taught Fall Semester:** Full Sem
- **Description:** (IM=Intermediate High) Advanced Business Language and Practices. Required of all commercial majors.

**JPNS 3220 - Phonetics and Phonology**

- **Credits:** (3)
- **Course Fee:** $8.00
- **Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
- **Description:** (IL=Intermediate Low) Analysis of the sounds of language and word formation: practice of native like speech patterns. Required of all teaching majors and minors.

Note: Check with department for course availability.

**JPNS 3270 - Special Topics in Linguistics**

- **Credits:** (3)
- **Variable Title**
- **Course Fee:** $8.00
- **Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
- **Description:** (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology (covered in FL 3220), will be studied. These may include lexical analysis,
semantics, morphology, syntax, linguistic change and dialectal variation.
Note: Check with department for course availability.

**JPNS 3320 - Applied Language Studies**

Credits: (1-3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Minimal proficiency level varies with content).
May be repeated up to 10 times under different titles.

**JPNS 3360 - Advanced Grammar**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IL=Intermediate Low) Analysis and application of syntactic principles and discourse structure.
Note: Check with department for course availability.

**JPNS 3550 - Cultural Heritage I**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.

**JPNS 3560 - Cultural Heritage II**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Med) Studies in culture, history, geography, social customs, fine arts, and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.

**JPNS 3570 - Special Topics in Culture**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.
May be repeated up to 7 times for credit and for other non-English speaking cultures.
Note: Check with Department for course availability.

**JPNS 3610 - Literature Survey I**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

**JPNS 3620 - Literature Survey II**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) A survey of the authors and works of a particular period or place. May be repeated under different titles.

**JPNS 3630 - Literature Poetry**

Credits: (3)
Variable Title
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM= Intermediate Mid) One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160. May be repeated under different titles.

**JPNS 3631 - Literature: Prose**
JPNS 3632 - Literature: Drama

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3650 - Literature Periods

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160.

JPNS 3670 - Literature Authors

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IN=Intermediate Mid) May be repeated under different titles. One literature course is required for regular and teaching majors. May be taken concurrently with JPNS 3160.

JPNS 3680 - Literature: Film

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions. May be taken 3 times up to 9 credits under different titles.

JPNS 3710 - Business Language I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

JPNS 3715 - Business Language II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

JPNS 3720 - Language for Specific Purposes I

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional terminology and cultural interactions on a variety of topics such as language for the medical professions, social workers, law enforcement or tourism.

JPNS 3730 - Language for Specific Purposes II

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) This course is content, vocabulary and culture-based. The course focuses on practical vocabulary, idiomatic expressions, professional
terminology and cultural interactions on a variety of topics, such as language for medical professions, social work, law enforcement or tourism.

**JPNS 3740 - Translation I**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IM=Intermediate Mid) Introduction to basic techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into English, and on the stylistic, syntactic, cultural, lexical, and terminological problems. Students are given ample opportunity to apply these techniques through a series of written translation assignments, which form the basis for class discussion.

**JPNS 3750 - Introduction to Interpreting**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: Introduction to basic techniques and skills needed for bilingual interpretation in a variety of professional settings. The course includes an overview and history of the interpreting industry and work of interpreters, certification and licensure, and the variety of consumers and modalities with which interpreters work. Ethical decision-making models and the Code of Ethics for interpreters are explored.

**JPNS 3850 - Study Abroad**

Credits: (1-6)
Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply. May be repeated up to 10 times for credit.

**JPNS 4620 - Survey of Literature I**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.
Pre-requisite(s): JPNS 3160.

**JPNS 4630 - Survey of Literature II**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) One literature course is required of regular and teaching majors.
Pre-requisite(s): JPNS 3160.

**JPNS 4690 - Special Topics in Literature**

Credits: (3)
Variable Title
Course Fee: $8.00
Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
Description: (IH=Intermediate High) Detailed analysis of a particular body of literature. For students whose proficiency in the target language is at least Intermediate High.
Pre-requisite(s): JPNS 3160.

**JPNS 4740 - Translation II**

Credits: (3)
Course Fee: $8.00
Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.
Description: (IH=Intermediate High) Development of techniques and skills needed for bilingual translation of non-fiction texts. Emphasis will be on the translation into the target language. Methods of contrastive linguistics to analyze pertinent aspects of language structure, involving syntax, vocabulary and style, as well as basic theoretical-historical concepts are employed. Students are given ample opportunity to apply these techniques and concepts through a series of written translation assignments, which form the basis for class discussion. Prerequisite/Co-requisite: FL 3740 is strongly advised, but not required.

**JPNS 4830 - Directed Readings**
Credits: (1-3)
**Description:** (IH=Intermediate High) Independent readings under the direction of a faculty member.
May be repeated up to 10 times.
Note: Check with Department for course availability.

**JPNS 4850 - Study Abroad**

Credits: (3)
**Description:** (A=Advanced) Language and culture studies for students whose language proficiency is Advanced or Superior. All tasks are performed in the target language. Prior travel experience does not apply.

**JPNS 4920 - Short Courses, Workshops, Institutes, and Special Programs**

Credits: (1-6)
**Workshop**
**Description:** (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Course not currently being offered.

**KOR 1010 - First Semester Korean**

Credits: (3)
**Typically Taught Fall Semester: Full Sem**
**Course Fee: $8.00**
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

**KOR 1020 - Second Semester Korean**

Credits: (3)
**Typically Taught Spring Semester: Full Sem**
**Course Fee: $8.00**
**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
**Description:** (NH=Novice High) Continuation of KOR 1010. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.
**Suggested Requisite(s):** KOR 1010.

**KOR 2010 - Third Semester Korean**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain technology in the FL lab, EH 408, and classroom technology.
**Description:** (NH=Novice High) Continuation of KOR 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.
**Suggested Requisite(s):** KOR 1020.

**KOR 2020 HU - Fourth Semester Korean**

Credits: (3)
**Typically Taught Spring Semester:** Full Sem
**Course Fee:** $8.00
**Course Fee Purpose:** Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.
**Description:** (NH=Novice High) Continuation of KOR 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.
**Suggested Requisite(s):** KOR 2010.

**KOR 3810 - First Semester Korean**

Experimental Course, Contact Department for More Information
**Description:** First Semester Korean is the first part of First Year Korean. This course is designed for beginning-level undergraduate and graduate students who have no or very little knowledge in Korean. This course will start from the Korean alphabet, basic greetings and basic conversational and grammatical patterns. The objective of this course is for the students to acquire a basic level of communication skills and to be able to communicate with Koreans. At the end of the semester, students will be able to listen, read, write and speak Korean at the elementary level. Students should be able to introduce themselves, describe their family, express simple ideas, and narrate their daily life, school activities and weekend activities in the present, past and future tenses. In addition, students will learn useful facts about Korean culture and daily life.
**KOR 4810 - Experimental Course**

Credits: (1-6)
Experimental
Description: Consult the schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

**KOR 4830 - Directed Readings**

Credits: (1-3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.
Note: Check with Department for course availability.

**LIBS 1704 - Information Navigator**

Credits: (1)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk, Online
Description: Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning.

**LIBS 2504 - Information Resources in History**

Credits: (1)
Typically Taught Spring Semester: Full Sem, Online
Description: Intended for students interested in history, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in history.

**LIBS 2604 - Information Resources in Education**

Credits: (1)
Typically Taught Summer Semester: 1st Blk, Online
Typically Taught Fall Semester: 1st Blk, 2nd Blk, Online
Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines. Cross-listed with EDUC 2604.

**LIBS 2704 - Information Resources in the Business Disciplines**

Credits: (1)
Typically Taught Fall Semester: 1st Blk, 2nd Blk, Online
Typically Taught Spring Semester: 1st Blk, 2nd Blk, Online
Description: Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines. Cross-listed with BSAD 2704.

**LIBS 2804 - Information Resources in the Social Sciences**

Credits: (1)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Intended for students interested in the social sciences, this one credit hour course will assist them in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with an emphasis on resources in the social sciences.

**LIBS 2904 - Information Resources in the Health Professions**

Credits: (1)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: *Full Sem, Online*

**Description:** Intended for students interested in the health professions, this one-credit hour course will assist in developing information literacy and research skills. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic and clinical success and lifelong learning. Emphasis is placed on resources in the health sciences. Cross-listed as HTHS 2904.

**LING 4830 - Directed Readings in Linguistics**

**Credits:** (1-3)

**Description:** Directed readings may be undertaken in the general area of linguistics, whether theoretical or applied. Specific topics are to be selected in consultation with the instructor and the linguistics minor program coordinator. The amount of material to be read, and any written assignments based on the reading, will be at the discretion of the instructor; it will be based on the level of the topic and the degree of difficulty of the reading, consistent with existing departmental or university guidelines.

**Pre-requisite(s):** ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

May be repeated twice with a maximum of 3 credit hours.

**Note:** This course is offered as needed.

**LING 4900 - Variable Topics in Linguistics**

**Credits:** (1-3)

**Variable Title**

**Typically Taught Spring Semester:** *Full Sem*

**Description:** This course will offer opportunities for classroom study beyond those available in the regular course offerings for the linguistics minor. Topics will vary according to the interests of students and the expertise of the instructor; for example, advanced syntax, sociolinguistics, language typology, language and the law, artificial intelligence, neurolinguistics, and language death. The course may be taken more than once with different content.

**Pre-requisite(s):** ENGL 3010 Introduction to Linguistics is a prerequisite for this course. The prerequisite may be waived or replaced by an equivalent at the discretion of the instructor in consultation with the linguistics minor program coordinator.

May be repeated twice with a maximum of 3 credit hours.

**Note:** This course is offered as needed.

**LING 4990 - Centering Experience**

**Credits:** (.5)

**Typically Taught Summer Semester:** *Full Sem*

**Typically Taught Fall Semester:** *Full Sem*

**Typically Taught Spring Semester:** *Full Sem*

**Description:** The Centering Experience is the final requirement for the minor in linguistics at Weber State. Students will assemble a portfolio of their work in linguistics and write a reflection paper.

**Note:** This course is credit/no credit.

**MACC 6120 - Financial Accounting & Reporting**

**Credits:** (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:** In-depth coverage of financial accounting and reporting topics from a theoretical and practical standpoint through a combination of lectures, research projects, case studies, and other homework assignments. Topics include accounting for leases, income taxes, investments, consolidations, foreign currency transactions, FASB Accounting Standards Codification, etc.

**MACC 6130 - Governmental and Nonprofit Accounting**

**Credits:** (3)

**Typically Taught Fall Semester:** *Full Sem*

**Description:** A study of governmental and nonprofit accounting concepts including revenue and expense recognition; asset and liability valuation; and reporting, disclosure, and financial analysis. Includes in-depth discussion of the new GASB reporting model for governments and analysis of actual government financial statements produced using the new model.

**MACC 6160 - Financial Statement Analysis**

**Credits:** (3)

**Typically Taught Spring Semester:** *Full Sem*

**Description:** Comprehensive study of the analysis and interpretation of financial statements by external decision makers and the impact of accounting conventions and alternative standards on analytical measures.
MACC 6180 - Advanced Accounting Data Analytics

Credits: (3)
Description: Prepare students to apply data analytics in a systematic fashion to different domains of accounting and develop key skills required for an analytics mindset that are valued significantly by industry. The skills we will focus in developing are data preparation and understanding quality of data, performing descriptive data analysis, data manipulation, addressing business and accounting problems using statistical analysis, and creating visualizations that allow business users to see data with new insights.
Pre-requisite(s): QUAN 2600, QUAN 3610, and ACTG 3110 or instructor's permission.

MACC 6210 - Business Law and Legal Liability

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: A study of important business law topics accounting and taxation professionals should be familiar with including contracts, business organizations, securities, discrimination, banking, and property will be discussed. Legal liability of accounting and taxation professionals will also be addressed.

MACC 6310 - Advanced Cost Accounting

Credits: (3)
Description: Advanced cost accounting topics including cost accounting for non-manufacturing organizations, human information processing, activity resource usage, pricing, performance measurement, and non-routine decisions.
Note: This course is not currently offered.

MACC 6330 - Strategic Management Accounting

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A study and analysis of advanced managerial accounting subjects. Examines the impact of accounting information on managerial processes including planning, organizing, and controlling.

MACC 6560 - Advanced Auditing & Assurance Services

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Advanced topics of auditing and assurance services including professional and technical aspects of auditing practice, introduction to SEC, ethics and legal responsibilities, fraud, recent auditing developments, sampling techniques for decision making, internal control, and risk assessment.
Pre-requisite(s): ACTG 4510.

MACC 6570 - Information Systems Auditing

Credits: (3)
Description: Methods, techniques, controls, and procedures used in the audit of computerized accounting systems.
Note: This course is not currently offered.

MACC 6580 - Internal Auditing

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Internal audit profession, internal control, risk assessment, evidence gathering, audit management, internal/external auditor relations, environmental auditing and federal sentencing guidelines, and audit reporting.

MACC 6610 - Advanced Accounting Information Systems

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Description: An advanced study of accounting information systems including general ledger, principles, tools, and techniques for controls, database systems, management query, and data analysis tools and systems. Course integrates projects and case studies where applicable.

MACC 6695 INT - Graduate Accounting Internship

Credits: (1-3)
Typically Taught: Various
Description: A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc/MTax courses.
Pre-requisite(s): Admission to the MAcc or MTax
program; approval by department chair and program
director.
Can be repeated once up to 6 credit hours.

MACC 6700 - CPA Examination Review: FAR

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This is a directed self-study course designed
to help students prepare for the Financial Accounting and
Reporting (FAR) section of the CPA examination. This is a
review course and assumes that the student has already
taken a number of financial accounting courses. A faculty
member will monitor the student's progress and a grade will
be determined by the student's performance on weekly
quizzes and a final examination.

Pre-requisite(s): The student must be admitted to the
Master of Accounting (MAcc) or Master of Taxation (MTax) program.

MACC 6750 - Study Abroad

Credits: (3)
Variable Title

Description: This course integrates international travel and
site visits with the study of accounting and international
business practices. Through readings, assignments,
discussions, and visits to important business and cultural
sites, the course builds understanding and competence as it
relates to the history of accounting, the global accounting
profession, and the business and cultural environment in
the host countries.

Pre-requisite(s): The student must be admitted to the
MAcc or MTax program.

MACC 6801 - Individual Study

Credits: (1-3)

Description: Individual work or work in small groups, by
arrangement, on special topics not included in the
announced course offerings.

Pre-requisite(s): Approval of Graduate Coordinator and
Instructor.

MACC 6802 - Individual Study

Credits: (1-3)

Description: Individual work or work in small groups, by
arrangement, on special topics not included in the
announced course offerings.

Pre-requisite(s): Approval of Graduate Coordinator and
Instructor.

MACC 6803 - Individual Study

Credits: (1-3)

Description: Individual work or work in small groups, by
arrangement, on special topics not included in the
announced course offerings.

Pre-requisite(s): Approval of Graduate Coordinator and
Instructor.

MACC 6991 - Lecture Seminar

Credits: (1-3)

Description: Lecture and discussion of current accounting
topics by individuals from business and industry.

MACC 6992 - Lecture Seminar

Credits: (1-3)

Description: Lecture and discussion of current accounting
topics by individuals from business and industry.

MACC 6993 - Lecture Seminar

Credits: (1-3)

Description: Lecture and discussion of current accounting
topics by individuals from business and industry.

MATH 0810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the
current offering under this number. The specific title and
credit authorized will appear on the student transcript.

MATH 0950 ND - Pre-algebra

Credits: (4)

Typically Taught Summer Semester: Full Sem, 1st Blk,
2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online
Course Fee: $19.00

Course Fee Purpose: Course fee pays for academic
support services, such as math tutoring and testing services.
Description: An introduction to mathematical literacy including number sense, algebraic thinking, proportional reasoning, and math learning strategies. Topics include properties of and operations with whole numbers, integers, decimals, fractions and percent; introductory operations and applications with exponents, algebraic expressions, linear equations, and basic geometry. Course fees include math assistance from tutoring services. Does not count toward graduation. Prerequisite: none.

MATH 0970 ND - Pathway to Contemporary Mathematics

Credits: (5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course integrates geometry, numeracy, proportional reasoning, algebraic reasoning, and topics in statistics and functions (linear, quadratic, rational, radical, exponential and logarithmic) using modeling, problem solving, and critical thinking. The course fee for this course includes homework software and math assistance from tutoring services. This course may not be transferred to other USHE schools.

Pre-requisite(s): MATH 0950 or Level 2 placement.

MATH 0990 ND - Beginning Algebra

Credits: (4)
Typically Taught Summer Semester: Full Sem, 1st Blk, 2nd Blk, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Course Fee: $19.00

Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.

Description: An introduction to algebraic literacy using properties of real numbers, solving linear equations and inequalities, geometry, ratio and proportion, applications, graphing, solving linear systems, exponents, scientific notation, polynomials, factoring, and solving quadratic equations. Learning strategies for mathematics success, including development of a mathematical growth mindset are integrated into the course.

Pre-requisite(s): MATH 0950 or equivalent placement.

Note: Does not count toward graduation.

MATH 1010 - Intermediate Algebra

Credits: (4-5)
Typically Taught Summer Semester: Full Sem

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Course Fee: $19.00

Course Fee Purpose: Course fee pays for academic support services, such as math tutoring and testing services.

Description: Inequalities (including absolute value and systems), systems of equations, applications, functions (inverse, exponential, and logarithmic), variation, factoring, rational expressions, radicals, complex numbers, quadratic equations, parabolas, circles, quadratic formula, formulas, properties and applications of logarithms. The course fee for this course includes homework software and math assistance from tutoring services.

Pre-requisite(s): MATH 0990 or Level 3 placement.

MATH 1020 - Fundamentals of Geometry

Credits: (3)

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: An introduction to the definitions, methods, and logic of geometry.

Pre-requisite(s): MATH 0990 or placement test.

Note: This course is offered as needed.

MATH 1030 QL - Contemporary Mathematics

Credits: (3)

Typically Taught Summer Semester: Full Sem, Full Sem Online
Typically Taught Fall Semester: Full Sem, Full Sem Online
Typically Taught Spring Semester: Full Sem, Full Sem Online

Description: Topics from mathematics which convey to the student the beauty and utility of mathematics, and which illustrate its application to modern society. Topics include geometry, statistics, probability, and growth and form.

Pre-requisite(s): MATH 0970 or MATH 1010 or ACT Math score 21 or higher or placement test.

MATH 1035 QL - Contemporary Mathematics with Prerequisite Topics

Credits: (6)

Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course will center on topics including: proportional reasoning, financial mathematics, linear and exponential modeling, geometry, probability and statistics. Material will be introduced in the form of real-life problems. Pre-requisite material will be incorporated as
**MATH 1036 QL/EDI - Mathematics and Movement for the Whole Person**

Credits: (6)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course will center on topics including proportional reasoning, financial mathematics, linear and exponential modeling, geometry, and probability and statistics. Material will be introduced in the form of movement and choreographic tasks. The course also investigates how agency and creativity open access to learning for a diverse group of students. Prerequisite material will be incorporated as appropriate.

**MATH 1040 QL - Introduction to Statistics**

Credits: (3)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: Basic concepts of probability and statistics including data collection and analysis, correlation and regression, probability, discrete and continuous distributions (binomial, normal and t distributions), estimation and hypothesis testing, with an emphasis on applications and understanding of the main ideas.

**MATH 1050 QL - College Algebra**

Credits: (4)
Typically Taught Summer Semester: Full Sem, Online
Typically Taught Fall Semester: Full Sem, Online
Typically Taught Spring Semester: Full Sem, Online

Description: This course covers a survey of college mathematics and is also a preparatory course for calculus. Topics from continuous mathematics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems. Topics from discrete mathematics include matrices, matrix algebra and inverses, and determinants.

**MATH 1060 QL - Trigonometry**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This course is true to its Greek title root "triangle-measure" and is a preparatory course for calculus. Topics include trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. Complex numbers, polar coordinates and vectors are also introduced.

**MATH 1080 QL - Pre-calculus**

Credits: (5)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: This is an accelerated course that covers the main topics of College Algebra and Trigonometry. It is a single course prerequisite to calculus and is primarily for those students that need a review. Topics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems; matrices, matrix algebra and inverses, determinants, sequences and series; trigonometric functions and their graphs, trigonometric identities, inverse trigonometric functions, trigonometric equations, solving triangles, and applications of trigonometry. In addition, conics and polar coordinates are also covered.

**MATH 1090 QL - Business College Algebra**

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Concepts and applications of functions and graphs, polynomial and rational functions, matrices, Gaussian elimination, exponential and logarithmic functions, growth, periodic and continuously compounded
interest, arithmetic and geometric series, annuities and loans. Applications mainly to business and economic problems.

**Pre-requisite(s):** MATH 1010 with a grade of C or better or ACT math score of at least 23, or placement test. Math prerequisites (courses and test scores) expire after 24 months (see www.weber.edu/placement/math-details.html).

**MATH 1110 QL - Calculus Concepts and Applications**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** A conceptual understanding of the fundamental notions of calculus (limits, continuity, differentiation and integration). Application of these ideas to economics, the social and life sciences, and natural resource modeling is central to the course.

**Pre-requisite(s):** MATH 1050 QL or MATH 1080 QL or placement test.

**MATH 1120 QL - Foundations of Data Science**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Students will acquire the knowledge and skills used in data science at an introductory level. The course will focus on interaction between statistical and mathematical reasoning and their application to the collection, preparation, and presentation of data and underlying data management skill for such analysis. Access to a computer is required.

**Pre-requisite(s):** MATH 1010, or ACT math score of 23 or higher, or a placement test.

**MATH 1200 - Mathematics Computer Laboratory**

**Credits:** (1)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Solving mathematics problems at the appropriate level for students' backgrounds using a computer algebra system.

**Pre-requisite(s):** MATH 1050 and MATH 1060, or MATH 1080, or
**Pre-requisite/Co-requisite:** MATH 1210.

**MATH 1210 - Calculus I**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Limits, continuity, differentiation, integration.

**Pre-requisite(s):** MATH 1050 and MATH 1060 or MATH 1080 or placement test.

**Co-Requisite(s):** The ability to use a computer algebra system.

**MATH 1216 - Integral Calculus**

**Credits:** (4)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Definite, indefinite, and improper integrals, transcendental functions, inverse functions, techniques of integration, applications of integration.

**Pre-requisite(s):** MATH 1210.

**MATH 1220 - Calculus II**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** Transcendental functions, techniques of integration, analytic geometry, infinite series.

**Pre-requisite(s):** MATH 1210.

**Co-Requisite(s):** The ability to use a computer algebra system.

**MATH 1630 - Discrete Mathematics Applied to Computing**

**Credits:** (4)
**Typically Taught Summer Semester:** Full Sem
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem
**Description:** An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include logic, proofs, sets, functions, counting, relations, graphs, trees, Boolean algebra, and models of computation. This course includes programming.

**Pre-requisite(s):** MATH 1050 or MATH 1080, and CS 1400 or ability to program in a contemporary computer language and the consent of the instructor.

**Note:** This course is offered as needed.

**MATH 1810 - Experimental Course**
Credits: (1-6)
Experimental
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

MATH 2010 - Arithmetic for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including arithmetic, number theory, and problem solving.
Pre-requisite(s): ACT score of 23 or better, Accuplacer CLM of 50 or better, MATH 1010 with a C or better, MATH 0970 with a C or better or completion of any math course MATH 1030 or above with a C or better.

MATH 2015 - Algebra for Elementary Teachers

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Prospective school teachers revisit mathematics topics from the K-8 school curriculum and examine them from an advanced perspective including arithmetic, number theory, and problem solving.
Pre-requisite(s): MATH 2010.

MATH 2020 QL - Geometry for Elementary Teachers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Prospective elementary school teachers revisit mathematics topics from the elementary school curriculum and examine them from an advanced perspective including probability, statistics, geometry and measurement.
Pre-requisite(s): MATH 2015

MATH 2120 - Euclidean Geometry

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Exploration of Euclidean geometry, from basic concepts to advanced theorems.
Pre-requisite(s): MATH 1210 or consent of instructor.

MATH 2210 - Calculus III

Credits: (4)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Vector algebra, vector valued functions, multivariable functions, partial derivatives, multiple integrals, line integrals, integration in vector fields.
Pre-requisite(s): MATH 1220.

MATH 2250 - Linear Algebra and Differential Equations

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: Introduction to Linear Algebra and Differential Equations. Systems of linear equations, matrices, vector spaces, eigenvalues. First and second order differential equations and models, higher order linear equations, linear systems.
Pre-requisite(s): MATH 1220.

MATH 2270 - Elementary Linear Algebra

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Systems of linear equations, matrices, vector spaces, eigenvalues linear transformations, orthogonality.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 2280 - Ordinary Differential Equations

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Methods of solution for ordinary differential equations. Exact equations, linear equations Laplace Transforms, series solutions.

Pre-requisite(s): MATH 1220.

MATH 2410 - Foundations of Probability and Statistics

Credits: (3)

Description: An introduction to probability and statistics with special emphasis on concepts in the K-12 school curriculum.

Pre-requisite(s): MATH 1210 or MATH 1050 and consent of instructor.

Note: This course is offered as needed.

MATH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript. May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

MATH 2925 - Mathematics Monday

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Description: A high impact mathematical educational experience through diverse topics and methods of learning. To form a mathematical community for appreciation and dissemination of mathematics. To develop skills of independent learning, critical thinking, effective verbal and written communication skills, and working within a group.

Learning Outcomes:
1. Exposure to a variety of mathematical topics.
2. Opportunity for mathematical and interpersonal growth.

Topics not typically covered in standard mathematics courses. Topics and activities are at the discretion of the instructor.

Pre-requisite(s): MATH 1220 Calculus II with a grade of C or better.

This course may be taken three times for a total of 3 credit hours.

MATH 2990 - Seminar in Mathematics

Credits: (1)

Typically Taught Fall Semester: Full Sem

Typically Taught Spring Semester: Full Sem

Description: Joint sessions of students and faculty dedicated to the discussion of topics in mathematics and mathematics education. Students will attend seminars, participate in discussions, and write reviews of the presentations.

Pre-requisite(s): MATH 1210 and ENGL 2010, or consent of instructor.

The course may be taken 5 times and up to 6 credits.

MATH 3050 - History of Mathematics

Credits: (3)

Description: A survey of the history of mathematics and its impact on world culture with emphasis on mathematical motivations, original methods and applications.

Pre-requisite(s): MATH 1220.

Note: Check with Department for course availability.

MATH 3110 - Foundations of Algebra

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: An introduction to Abstract Algebra, Number Theory and Logic with an emphasis on problem solving and proof writing.

Pre-requisite(s): MATH 1210.

MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: Axiomatic development of geometry; Euclidean and non-Euclidean.

Pre-requisite(s): MTHE 3117 or instructor consent.

MATH 3160 - Number Theory

Credits: (3)

Typically Taught Spring Semester: Full Sem

Description: An overview of beginning number theory including the integers, modulo arithmetic, congruencies, Fermat's theorem and Euler's theorem.

Pre-requisite(s): MATH 1210.

MATH 3270 - Linear Algebra
MATH 3280 - Dynamical Systems

Credits: (3)
Typically Taught Spring Semester: Full Sem, alternate even years
Description: Linear and nonlinear systems of differential equations, qualitative behavior and stability of solutions, applications.
Pre-requisite(s): MATH 2270 and MATH 2280.

MATH 3410 - Probability and Statistics I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Introductory probability theory and mathematical statistics, including applications.
Pre-requisite(s): MATH 1220.

MATH 3420 - Probability and Statistics II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: A continuation of MATH 3410-Introductory probability theory and mathematical statistics, including applications.
Pre-requisite(s): MATH 2210 and MATH 3410.

MATH 3450 - Advanced Statistical Methods

Credits: (4)
Typically Taught Spring Semester: Full Sem
Description: This applied statistics course discusses study design, data exploration and visualization, choosing among statistical techniques, and the interpretation of statistical results. Analyses, including T-tests, ANOVA, regression and their non-parametric versions, will be performed on real-world data sets using statistical software.
Pre-requisite(s): MATH 3410 or MATH 1040 and a three credit 3000 or 4000 level course with one of the following designations: MATH, BTNY, CHEM, PHYS, GEO, MICR, ZOOL, CS, ECE, ME, FIN, ECON. Students may also enroll with permission of instructor.

MATH 3550 - Introduction to Mathematical Modeling

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Formulation, solution and interpretation of mathematical models for problems occurring in areas of physical, biological and social science.
Pre-requisite(s): MATH 1200 and (MATH 2270 or MATH 2280).

MATH 3610 - Graph Theory

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Principles of Graph Theory including methods and models, special types of graphs, paths and circuits, coloring, networks, and other applications.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 3620 - Enumeration

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: Principles of Enumeration including counting principles, generating functions, recurrence relations, inclusion-exclusion, and applications.
Pre-requisite(s): MATH 1220 OR MATH 1210 and a choice of MATH 3110 or MATH 3160.

MATH 3710 - Boundary Value Problems

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Fourier series and the method of separation of variables. Heat, wave, and potential equations, Sturm-Liouville problems, orthogonal functions, special functions.
Pre-requisite(s): MATH 2210 and [ MATH 2250 or MATH 2280 ].

MATH 3810 - Complex Variables

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Analysis and applications of a function of a single complex variable. Analytic function theory, path integration, Taylor and Laurent series and elementary conformal mapping are studied.
Pre-requisite(s): MATH 2210. May be repeated for a total maximum of 6 credit hours.

MATH 4010 - Capstone Mathematics for High School Teachers

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Prospective high school teachers revisit mathematics topics from the secondary school curriculum and examine them from an advanced perspective. The major emphasis is on topics from algebra and geometry.
Pre-requisite(s): MATH 3110 and MATH 3210.

MATH 4110 - Modern Algebra I

Credits: (3)
Typically Taught Fall Semester: Full Sem, odd years
Description: Logic, sets, and the study of algebraic systems including groups, rings, and fields.
Pre-requisite(s): MATH 2270 and MATH 3110.

MATH 4120 - Modern Algebra II

Credits: (3)
Typically Taught Spring Semester: Full Sem, even years
Description: A continuation of MATH 4110: advanced topics from groups, rings, and fields including the Sylow theorems and Galois theory.
Pre-requisite(s): MATH 4110.

MATH 4160 - Introduction to Mathematical Cryptography

Credits: (3)
Description: An introduction to the mathematical concepts on which cryptography is based and an introduction to basic cryptographic systems. The course will typically be offered every other year.
Pre-requisite(s): (MATH 3110 or 3160 or 4110 or 3410 ) and CS 1400.
Note: This course is offered as needed.

MATH 4210 - Introductory Real Analysis I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier analysis.
Pre-requisite(s): MATH 2210, MATH 2270, and MATH 3110.

MATH 4220 - Introductory Real Analysis II

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A continuation of MATH 4210: Develop the analysis underlying calculus. In-depth study of limits, continuity, integration, differentiation, sequences and series. Other topics may include Lebesgue measure and integration and Fourier analysis.
Pre-requisite(s): MATH 4210.

MATH 4320 - Topology

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: Introduction to point-set topology, including metric and topological spaces, continuity, homeomorphisms, compact and connected spaces, and complete metric spaces. Other topics may include the Baire Category Theorem and Tietze Extension Theorem.
Pre-requisite(s): MATH 2210, MATH 2270 and MATH 3110.

MATH 4400 - Statistical Analysis of Big and Small Data

Credits: (3)
Description: This course combines and develops the knowledge and skills used in big and small data using both theory and application. The course deals with methods to analyze data with varying volume, velocity, and variety and their associated challenges. Topics such as data mining, predictive analytics, heteroskedasticity of data, and data visualization will be explored.
Pre-requisite(s): MATH 3410 or (MATH 1220 and MATH 1040).
Pre-requisite/Co-requisite: CS 1400 or CS 2550.
Note: This course is offered as needed.

MATH 4610 - Numerical Analysis I

Credits: (3)
Typically Taught Fall Semester: Full Sem, even years
Description: Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MATH 2270 and an ability to use a programming language

**MATH 4620 - Numerical Analysis II**

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: A continuation of MATH 4610-Introduction to numerical methods. Use of the digital computer in solving otherwise intractable problems.
Pre-requisite(s): MATH 4610

**MATH 4710 - Partial Differential Equations**

Credits: (3)
Typically Taught Spring Semester: Full Sem, odd years
Description: Partial differential equations. First and second order equations, characteristics and classifications, methods of solution, applications.
Pre-requisite(s): MATH 3710.

**MATH 4750 - Topics in Mathematics**

Credits: (2-4)
Variable Title
Description: This course will vary with the demand.
Pre-requisite(s): Consent of the instructor.
May be taken more than once for a maximum of 8 credit hours.
Note: This course is offered as needed.

**MATH 4910 - Senior Research Project**

Credits: (3)
Description: Mathematical research project for seniors. Students may not register for this course the last semester before they intend to graduate.
Pre-requisite(s): Instructor approval.
Note: This course is offered as needed.

**MATH 4920 - Short Courses, Workshops, Institutes and Special Programs**

Credits: (1-4)
Variable Title
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Note: This course is offered as needed.

**MATH 4925 - Problems, Journals, and Research in Mathematics**

Credits: (1)
Typically Taught Fall Semester: Full Sem, 2nd Blk
Typically Taught Spring Semester: Full Sem, 2nd Blk
Description: Development and demonstration of independent learning and communication skills through advanced problems solving, presenting journal articles, or undergraduate research under guidance of an advisor.
Pre-requisite/Co-requisite: MATH 2925
This course may be repeated once for a total of 2 credit hours.

**MATH 6400 - Advanced Statistical Learning**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Students will learn about Statistical Learning and Data Science which are so widely used in the technology sector and beyond. You will learn about common statistical methods and algorithms used by Amazon, Facebook, and Google to make predictive models for data. This course will have an emphasis on modeling (numeric and non-numeric) data, model selection, and neural networks.
Pre-requisite(s): Admission to the Masters of Data Science program or permission of instructor.

**MATH 6450 - Applied Statistics & Regression**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Students learn the knowledge and skills necessary for applied statistical analysis. These methods allow focus typically on a selection of advanced regression analysis, missing data, categorical data analysis, time series in relation to regression, colinear data, and model and variable selection. This course also focuses on Applied Statistics & Regression in the context of both a statistical and data scientist viewpoint as this course is part of the Masters of Data Science.
Pre-requisite(s): Admission to the MSDS, permission of instructor, or one of following courses: MATH 3450 or MATH 3410 or MATH 4400 or CS 3580.

**MATH 6500 - Factor and Cluster Analysis**
Credits: (3)  
Typically Taught Spring Semester: Full Sem  
Description: Students learn the methodology used in big data applications, learn how to make sense out of large data, understand how to analyze survey data with factor analysis, determine distinct groups with the data using cluster analysis, and understand relationships within data. The course will make use of statistical analysis software, and students will be expected to understand both the results of the output and theoretical considerations of the analysis.  
Pre-requisite(s): Admission to the MSDS or [MATH 2270 and (MATH 3450 or MATH 3410 or MATH 4400 or CS 3580)] or permission of instructor.

MATH 6900 - Capstone in Statistics and Data Science  
Credits: (1-3)  
Typically Taught Summer Semester: Full Sem  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Students are required to complete a substantial statistical or data science project. Students must demonstrate proficiency in data analysis, presentation, solving an applied data problem. Students receive T (temporary) grades until successful completion of the project and dissemination, after which the course grade will be changed retroactively.  
Pre-requisite(s): Admission to the MSDS and permission of instructor.

MATH 6920 - Short Courses, Workshops, Institutes, and Special Programs  
Credits: (1-6)  
Workshop  
Typically Taught Summer Semester: Full Sem  
Typically Taught Fall Semester: Full Sem  
Typically Taught Spring Semester: Full Sem  
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.  
Pre-requisite(s): Admission to the Mater of Data Science and permission of instructor.  
May be repeated for a total maximum of 6 credit hours.

MBA 6010 - Legal and Regulatory Environment of Business  
Credits: (3)  
Typically Taught Spring Semester: 2nd Blk  
Description: This course is an introduction to business law, emphasizing basic legal principles and the broad application of domestic and international public and private law. Its overriding objective is to provide a working understanding of the legal environment of business for MBA students. Its focus is on regulatory law, business organizations, and other legal topics of special importance to managers of businesses.  
Note: Course offerings are subject to change.

MBA 6020 - Financial and Managerial Accounting  
Credits: (3)  
Typically Taught Summer Semester: 2nd Blk  
Description: A general study of the use of accounting information by internal and external decision makers with emphasis on the use of accounting information by managers of an entity. Topics covered include the accounting cycle, the basic financial statements, inventories, long-term liabilities, cost concepts and behaviors, cost-volume-profit analysis, and financial statement analysis.  
Note: Course offerings are subject to change.

MBA 6040 - Managerial Economics  
Credits: (3)  
Typically Taught Summer Semester: 2nd Blk  
Description: This course develops the basic concepts and analytical tools of economics which include opportunity cost, marginal analysis, constraints, and optimizing behavior. Applications include theories of the firm, its organizational architecture, transactions costs, markets, pricing, and other managerial issues.  
Note: Course offerings are subject to change.

MBA 6050 - Quantitative Methods I  
Credits: (3)  
Typically Taught Fall Semester: 1st Blk-Online  
Course Fee: $40.00  
Course Fee Purpose: The course fees collected from students enrolled in this class are used for student-related expenditures such as tutoring for statistics (MBA 6050/6051) courses and paper/toner and small repairs in the MBA computer lab.  
Description: This class will give students the opportunity to learn how to write, read, and analyze statistical data as it pertains to business and society. The basic premise of this course is to provide the student with an understanding of statistics as it is used in business and economics. This course will give special emphasis to understanding,
interpreting and communicating statistics. Topics covered include descriptive statistics, probability, probability distributions, sampling distributions and hypothesis testing. 

**Pre-requisite(s):** Additional course work in College Algebra may be required prior to course registration as per department advisement and student's program of study requirements.

**Note:** Course offerings subject to change.

**MBA 6051 - Quantitative Methods II**

**Credits:** (3)  
**Typically Taught Fall Semester:** 2nd Blk  
**Course Fee:** $40.00  
**Course Fee Purpose:** The course fees collected from students enrolled in this class are used for student-related expenditures such as tutoring for statistics (MBA 6050/6051) courses and paper/toner and small repairs in the MBA computer lab.  

**Description:** This course will build on the first foundation course on descriptive statistics by emphasizing inferential statistics. This course will be application oriented and will focus on hypothesis testing and regression analysis. Students will learn how to design a survey and evaluate the data in order to test theories learned in other MBA classes. Students will also learn basic concepts and methods of optimization using elementary concepts in differential calculus. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.  

**Pre-requisite(s):** MBA 6050, or equivalent course in statistics.  

**Note:** Course offerings are subject to change.

**MBA 6110 - Fundamentals of Ethical Leadership**

**Credits:** (3)  
**Typically Taught Summer Semester:** 2nd Blk  
**Typically Taught Fall Semester:** 2nd Blk  
**Typically Taught Spring Semester:** 1st Blk  
**Course Fee:** $84.00  

**Course Fee Purpose:** The course fees collected from students enrolled in this class are used for student-related expenditures. Examples of such expenditures are for periodic technology upgrades in the MBA conference room, MBA student computer lab, and hybrid/virtual classrooms, guest speaker costs, software licenses, and program assessment materials.  

**Description:** This course is designed to be taken at the beginning of formal course work in the MBA program. Students will explore various aspects of moral reasoning and apply these concepts to common ethical issues faced in business. Students will work individually and in groups to explore issues of personal values, self-awareness, teamwork, communication, managing differences, and career management. Students in this course will be introduced to analytical, communication, and technological tools used throughout the program.  

**Note:** Course offerings are subject to change.

**MBA 6130 - Financial Management**

**Credits:** (3)  
**Typically Taught Fall Semester:** 1st Blk  
**Typically Taught Spring Semester:** 1st Blk  

**Description:** Financial Management is a detailed presentation of the practices, techniques, and applications of theory in corporate finance. The focus is an understanding of how companies operate and acquire the tools necessary to analyze and evaluate corporate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues. The purpose of the course is to assist current and prospective managers in making better investment and financing decisions. The course addresses (1) the investment decision (capital budgeting) as well as (2) the financing decision. Class discussion and cases will focus on capital budgeting and specifically on the establishment of goals, development of strategy, identification of investment opportunities, evaluation of projects, implementation of projects, and the monitoring processes. Shareholder wealth maximization is the standard for determining why one decision is "better" than another. The ethical considerations of wealth
maximization will also be addressed. Additional foundation course work in accounting and statistics may be required prior to course registration as per department advisement and student's program of study requirements.

**Pre-requisite(s):** MBA 6020 and MBA 6050 and MBA 6051, or equivalent courses in accounting and statistics.

**Note:** Course offerings are subject to change.

**MBA 6140 - Marketing Management**

**Credits:** (3)
**Typically Taught Fall Semester:** 1st Blk
**Typically Taught Spring Semester:** 2nd Blk

**Description:** This course centers on creating customer value profitability in competitive markets. In an integrative fashion, it covers analyzing customer needs and preferences; estimating market potential; assessing market opportunities and threats in view of the focal company's and its competitors' resources and capabilities; developing market and marketing strategies; making astute product, pricing, distribution, and promotion decisions; and measuring marketing performance.

Pedagogical vehicles include lectures, reading assignments, and case-based discussions and reports.

**Note:** Course offerings are subject to change.

**MBA 6150 - Operations/Supply Chain Management**

**Credits:** (3)
**Typically Taught Fall Semester:** 1st Blk
**Typically Taught Spring Semester:** 1st Blk

**Description:** "Manufacturing of the future will be required to meet customer-driven demand instantaneously." The future is now! The requirements for faster response, more customer input, and greater product variety have not diminished, but instead have escalated. This course builds upon basic production and operations management knowledge to meet the needs of customers generated in today's global market. It is designed to enhance the student's understanding of how to analyze problems related to design, planning, control, and improvement of manufacturing and service operations. Topics include, but are not limited to, supply chain management, materials management, production planning and control, scheduling, capacity and facilities planning, manufacturing strategy, and global operations. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.

**Pre-requisite(s):** MBA 6050 and MBA 6051, or equivalent courses in statistics.

**Note:** Course offerings are subject to change.

**MBA 6160 - Applications of Decision Models**

**Credits:** (3)
**Typically Taught Fall Semester:** 2nd Blk

**Description:** This course presents a rigorous treatment of quantitative decision-making with emphasis on data collection, analysis, and model building. This course emphasizes experience in structuring realistic business problems, collecting data, developing an appropriate model for analysis, and interpreting and defending results. A number of cases are employed. Additional foundation course work in statistics may be required prior to course registration as per department advisement and student's program of study requirements.

**Pre-requisite(s):** MBA 6050 and MBA 6051, or equivalent courses in statistics.

**Note:** Course offerings are subject to change.

**MBA 6170 - Corporate Communications**

**Credits:** (3)

**Description:** The focus of this course is to develop an integrated corporate communications program in organizations which will provide effective communication both to internal and external stakeholders. Among the topics to be discussed are corporate image and identity, corporate advertising and advocacy, media relations, marketing, communication, financial communication, community relations, corporate philanthropy, government affairs and crisis communication. Attention will also be given to effective communication internally through various methods, such as meetings, programs and publications.

**Note:** This course is not currently offered.

**MBA 6180 - Strategic Management**

**Credits:** (3)
**Typically Taught Summer Semester:** 1st Blk
**Typically Taught Fall Semester:** 2nd Blk
**Typically Taught Spring Semester:** 2nd Blk

**Description:** This course takes a broad view of the entire organization. In some instances, the organization will have one line of business. In other cases, the organization may be a large diversified corporation with many lines of business. We will examine the strategic issues facing diversified corporations including: vertical integration, diversification into related and unrelated businesses, and operating synergies.

**Pre-requisite(s):** MBA 6130, MBA 6140, MBA 6150,
MBA 6110.  
Note: Course offerings are subject to change.

**MBA 6210 - Management Accounting and Control**

**Credits:** (3)  
**Typically Taught Fall Semester:** 2nd Blk  
**Typically Taught Spring Semester:** 2nd Blk  
**Description:** This course is designed to introduce the student to the concepts and procedures of managerial accounting through readings and case studies. The course emphasizes the use of accounting data in the decision-making process by internal decision-makers (e.g., management), rather than external decision-makers (e.g., stockholders, investors, creditors, and regulatory bodies). The course topics include cost terms and concepts, job-order costing, activity-based costing, quality management, cost behavior, cost-volume-profit analysis, profit planning, relevant costs, capital budgeting, cost allocation, and pricing. Additional foundation course work in accounting may be required prior to course registration as per department advisement and student's program of study requirements.  
**Pre-requisite(s):** MBA 6020, or equivalent courses in accounting.  
Note: Course offerings are subject to change.

**MBA 6260 - Data Visualization Using Tableau**

**Credits:** (3)  
**Typically Taught Summer Semester:** 1st Blk, 2nd Blk  
**Typically Taught Fall Semester:** 1st Blk, 2nd Blk  
**Typically Taught Spring Semester:** 1st Blk, 2nd Blk  
**Description:** This course will provide a solid foundational understanding of data visualization with plenty of opportunities to practice and develop visualization skills. This course aims to provide students with a foundational understanding of data visualization and enable them to think through and interact with big data. The overall goal of the course is to teach problem-solving and analysis skills that can be applied to any type of data with any of the numerous tools available.  
Note: Course offerings are subject to change.

**MBA 6310 - Information Technology in the Enterprise**

**Credits:** (3)  
**Typically Taught Summer Semester:** 1st Blk  
**Typically Taught Fall Semester:** 2nd Blk  
**Description:** Information technology from an enterprise perspective with an orientation toward the management of technology for competitive/strategic advantage. Managers will be increasingly responsible for making decisions with respect to implementing new technology. This course will provide the background knowledge to enable managers in traditional business units to function as full participants in decisions involving the purchase and application of technology to create a business advantage.  
Note: Course offerings are subject to change.

**MBA 6360 - Aerospace Program Management**

**Credits:** (3)  
**Typically Taught Summer Semester:** 1st Blk  
**Description:** Within the context of the aerospace industry, students will be taught how to manage change across multiple projects using program management techniques. In organizations in which multiple strategic initiatives as well as continuous improvement projects are ongoing, understanding how to successfully plan and execute is vital.  
Note: Course offerings are subject to change.

**MBA 6370 - CPI & Strategy in Aerospace Management**

**Credits:** (3)  
**Typically Taught Spring Semester:** 2nd Blk  
**Description:** This management course is designed to teach aerospace business managers how to use the tools in Continuous Process Improvement (CPI) to attain and maintain operational excellence. The course includes relevant CPI tools such as Lean, Six Sigma, Theory of Constraints and Benchmarking. The course will also show managers how to conduct a strategic planning session with senior leadership and strategically align their organizations to maximize the use of CPI tools.  
**Pre-requisite(s):** Admission to the MBA Program or approval to seek the stand-alone Graduate Certificate in Aerospace Management. This course is an elective for all MBA students, but is a required course for students seeking the Graduate Certificate in Aerospace Management. Students must complete prerequisites of MBA 6050, 6051 and MBA 6150 prior to registering for this course.  
Note: Course offerings are subject to change.

**MBA 6410 - Global Macroeconomic Conditions**

**Credits:** (3)  
**Typically Taught Fall Semester:** 1st Blk  
**Typically Taught Spring Semester:** 1st Blk
Description: This course will focus on the impact of global macroeconomic conditions on firm decision-making. To review and analyze current macroeconomic topics, a theoretical framework is developed, from the start showing the linkages among national economies. This framework is used to analyze and forecast business cycles, exchange rates, causes of trade deficits, short- and long-term consequences of fiscal and monetary policy decisions, and the globalization of financial markets. Examples from different countries are used to enhance knowledge of the world economy. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6040, or equivalent course in economics.

Note: Course offerings are subject to change.

MBA 6420 - The Economics of Industry

Credits: (3)
Description: This course will focus on the behavior of the individual firm in different market settings, competitive and imperfectly competitive. We are concerned with the strategic behavior of firms under different industry structures as they struggle with the pressures of competition. Students will study how differing levels of the firm's market power impacts pricing and output policies, product differentiation, and barriers to entry. In addition, the student will learn the basics of game theory and use it to analyze the strategic behavior of firms. Topics will include different types of pricing strategies including price discrimination, pricing of product lines, predatory pricing, peak load pricing, and entry deterrence. Issues of non-price competition such as research and development, information, externalities, moral hazard, and firm structure will also be discussed. The course includes both supplemental readings designed to illustrate real-world applications of the theoretical principles developed as well as in-class experiments in strategic behavior designed to illustrate certain theoretical conclusions. Additional foundation course work in economics may be required prior to course registration as per department advisement and student's program of study requirements.

Pre-requisite(s): MBA 6040, or equivalent course in economics.

Note: This course is not currently offered.

MBA 6430 - International Marketing

Credits: (3)
Typically Taught Spring Semester: 1st Blk
Description: The course provides foundational knowledge and practical application of international marketing principles and practices so as to prepare participants for entry-level marketing positions in the global context. Note: Course offerings are subject to change.

MBA 6440 - Strategic Leadership

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Description: This course will expose students to the strategic nature of leadership. Students will evaluate and discuss key principles and frameworks of leadership through the case method. Students will study leadership styles, situational leadership, personal leadership, and power & influence, as they relate to strategy. Note: Course offerings are subject to change.

MBA 6450 - Leadership Through People Skills

Credits: (3)
Typically Taught Fall Semester: 1st Blk
Typically Taught Spring Semester: 1st Blk
Description: This course will provide a highly applied introduction to the interpersonal dynamics of leading and motivating others. Emphasis will be placed on the development and acquisition of key behaviors, skills, techniques and mental models for influencing others through sound people skills. By means of hands-on application, role-playing and "learning-by-doing" activities, students will learn to listen for understanding and insight; gain commitment rather than compliance; manage conflict; adapt their style to different people; apply influence skills in all directions; and develop insights into their impact on others. Note: Course offerings are subject to change.

MBA 6460 - Leadership Through Character

Credits: (3)
Typically Taught Spring Semester: 1st Blk Online, 2 Blk Online
Description: This course takes a character and values-based focus to developing students' understanding of and capacity for effective leadership. Covered concepts include: identifying and understanding one's own core values and capabilities; a deeper understanding of leadership as it pertains to power, influence and motivation; and the socio-psychological aspects of successfully leading and interacting with others. The course also includes a deeply immersive experiential component whereby students are
coached through a self-guided development planning and application process focused on improving on a leadership competency that is mutually selected by the student and instructor. An in-depth personal exploration of each student's unique leadership capabilities and growth opportunities is central to the learning objectives for this course.

MBA 6510 - Investment Analysis and Portfolio Management

Credits: (3)
Description: This course engages class participants in a detailed study of the practices, techniques, policies and applications of theory in investments. Emphasis will be on an understanding of security markets, analysis, asset allocation, portfolio management and evaluation. Students will examine and apply investment tools and evaluate financial policies. Cases and applied research in the form of outside readings will assist students to focus on key issues and current topics. Course work in finance may be required prior to course registration as per department advisement and student's program of study requirements.
Pre-requisite(s): MBA 6130.
Note: This course is not currently offered.

MBA 6520 - International Business Field Studies

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Description: This course integrates international travel and site visits with the study of international business topics. Through readings, assignments, discussions, and visits to important business and cultural sites in the destination countries, the course builds understanding and competence in international business practices and managing across cultures. This course entails travel expenses beyond regular tuition and may be repeated when offered to a different world region.
May be repeated 3 times with a maximum of 9 credit hours.
Note: Course offerings are subject to change.

MBA 6530 - E-Business

Credits: (3)
Typically Taught Spring Semester: 2nd Blk
Description: The Internet has become an important influence in the world. Business on the internet, in terms of operations, marketing, security, etc., has increased concomitantly in influence. This course will provide a foundation for understanding the possibilities and potential pitfalls for doing e-business.
Note: Course offerings are subject to change.

MBA 6540 - Negotiations

Credits: (3)
Typically Taught Summer Semester: 1st Blk
Description: The purpose of this course is to provide opportunities for class participants to develop their negotiating abilities for use in organizational and other settings. The course is premised on the assumption that negotiating concepts are best learned through practice which is grounded in rigorous analysis and reflection. While theoretical principles and concepts from various reference disciplines (such as social psychology, sociology, and economics) will be presented through lectures and readings, this course will focus primarily on improving practical skills. Class participants will not only learn to enhance their individual abilities in dyadic and group situations, but also to analyze contexts for the most effective application of these skills.
Note: Course offerings are subject to change.

MBA 6550 - Managing and Improving Quality

Credits: (3)
Description: This course examines how organizations can gain competitive advantage by improving the quality and productivity of their business processes, manufactured goods and service outputs. Customer-focused approaches for designing, controlling and improving processes are emphasized, together with other concepts and approaches of quality management. Specific topics include process analysis, problem-solving methods, variability and statistical process control, performance measurement, and quality management systems. Guest lectures from industry professionals, experiential learning exercises and cases from manufacturing and service industries will assist students in understanding key issues and current topics.
Pre-requisite(s): MBA 6050; MBA 6051, or equivalent courses in statistics.
Note: Courses offered as needed.

MBA 6560 - Business/Market Planning Using Online Resources

Credits: (3)
Description: In this hands-on project-oriented course, students learn to (1) develop and write effective business/marketing plans and (2) use online resources to gather pertinent market, competitor, and environmental
information. Students may develop a business/marketing plan for an existing business or for a potential start-up of interest to them. Alternatively, they may write a business/marketing plan and conduct requisite research and data analyses for a business suggested by the course instructor. Learning is facilitated primarily via practical discovery exercises, an extensive term project, and coaching. Although lectures and reading assignments serve to convey essential background knowledge, especially during the first half of the course, much class time is devoted to working on plans in teams under the instructor's guidance. Note: This course is not currently offered.

MBA 6580 - Project Management

Credits: (3)
Typically Taught Spring Semester: 1st Blk
Description: This course is a study of topics involved with managing projects. It examines the roles and skills of the project manager and the project office. Students will study the phases of the project life cycle, specifically the activities, requirements, methodologies, and tools common in project management.

Note: Course offerings are subject to change.

MBA 6590 - Strategic Business Tax Planning

Credits: (3)
Description: This course examines tax strategy and planning topics related to making important business decisions. The course addresses business formations, operations, terminations, reorganizations, acquisitions, and divisions. The course also covers tax issues related to multi-state and multi-national business transactions. Unique issues related to executive compensation, partnerships, limited liability companies, S corporations and C corporations are also addressed.

Pre-requisite(s): MBA 6010 or equivalent course in business law; MBA 6020 or equivalent courses in accounting.

Note: This course is not currently offered.

MBA 6620 - Data Mining for Business

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk
Description: The broad availability of data, either within organization or about market trends, has led to increasing interest in the methods for extracting useful information and knowledge from data. This course will change the way you think about data and its role in organization. We will examine how data mining technologies can be used to improve decision-making. We will study the principles and techniques of data mining, and we will examine real-world examples and cases to place data-mining techniques in context, to develop data-analytic thinking, and to illustrate that proper application is as much an art as it is a science.

Pre-requisite(s): MBA 6050 & MBA 6051 or equivalent courses in statistics or instructor approval.

MBA 6630 - Networking

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the role of networking technology in information systems. Through hands-on and conceptual knowledge, students will learn how data communications and networks are used to facilitate decentralized and distributed systems in support of decision making. Various aspects of networking including standards, media, network design and applications will be covered. Students will gain hands-on familiarity with a local area network and the Internet.

Pre-requisite(s): Admittance to MACC, MBA or MHA program.

Note: Course offerings are subject to change.

MBA 6640 - Cyber Security

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course covers the basic principles and concepts in information assurance. It examines the managerial, operational, and organizational issues of securing information systems. Topics include legal and ethical issues in computer security; privacy concerns; malware; security awareness at the executive, technical and user levels; physical security, personnel security issues; policies and procedures; the need for enterprise security awareness; and the need for an enterprise security organization. Case studies and exercises in the computer lab will be used to provide examples of the need for organizations to develop security procedures and policies.

Pre-requisite(s): Admittance to MACC, MBA or MHA program.

Note: Course offerings are subject to change.

MBA 6650 - Penetration Testing
Typically Taught Fall Semester: 1st Block
Typically Taught Spring Semester: 1st Block
Description: This course looks at how penetration testing can help improve information security within organizations. This course will discuss issues related to ethical hacking, scanning, enumeration, systems hacking, social engineering, malware, vulnerability analysis, session hijacking, denial of service attacks, Web attacks, ID, cryptographic attacks, and IoT vulnerabilities.
Pre-requisite(s): MBA 6630 and MBA 6640, or instructor approval.

MBA 6660 - Forecasting and Time Series

Credits: (3)
Typically Taught Spring Semester: Full Sem, 1st Blk, 2nd Blk
Description: This course is intended to provide students with applied interest with up to date techniques used in the forecasting of time series. These techniques will be motivated by specific practical problems and will be used in forecasting practices. Although the flavor of this course will be mainly applied, we will need to review and develop some technical background. The emphasis of the class is on practical application and computer implementation.
Pre-requisite(s): MBA 6050 & MBA 6051 or equivalent courses in statistics or instructor approval.

MBA 6670 - Cloud Computing

Credits: (3)
Typically Taught Fall Semester: Full Sem, 1st Blk, 2nd Blk
Description: Cloud computing is widely used by nearly all organizations to store and process data, host applications, and scale growth effectively. This course will look at how cloud providers (AWS) operate. It will also discuss issues related to security, maintenance, scalability, cost effectiveness, service models, architecture, and deployment models.

MBA 6680 - Graduate Consulting Project

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Graduate students are given the opportunity to consult with an existing organization, make recommendations for improvements, and assist in implementing changes in the organization. Students meet periodically with supervising faculty to review results.
Pre-requisite(s): Instructor approval.
Note: Course offerings are subject to change.

MBA 6700 SUS - Managing for Sustainability

Credits: (3)
Description: This course explores how business organizations can address environmental issues to meet societal needs and create competitive advantages. Emphasis is placed on understanding the impacts of businesses on the natural environment; identifying the opportunities for businesses to align their strategies and practices toward more sustainable business models; and using various methods and tools for measuring and improving the environmental performance of individual business organizations and the business system as a whole. Major topics include frameworks for understanding business and environmental sustainability; innovation, design and assessment of green products/services; green marketing issues; green purchasing; environmental management systems; operations and supply chain management issues for environmental sustainability.
Pre-requisite(s): Admission to MBA program; or graduate standing with permission of the MBA program.
Note: This course is not currently offered.

MBA 6710 - Accounting and Finance for Environmental Sustainability

Credits: (3)
Description: This course will expose MBA students to contemporary accounting and finance thought on environmental sustainability. The course will be divided into accounting and finance modules. The focus of the accounting module will include measurement and reporting of the environmental sustainability of business practices. The focus of the finance module will include capital budgeting for sustainability, financial assessment of sustainable business practices, and investing in environmental sustainability.
Note: This course is not currently offered.

MBA 6715 - Sustainability Tools and Methods

Credits: (3)
Description: This hybrid 8-week course consists of weekly modules, each of which addresses key aspects of sustainability-related business practices. Weekly topics are designed to explore in more depth specific sustainability-
related tools and methods as they relate and add value to various aspects of business operations, including finance, accounting, supply chain management, information technology, stakeholder relations, and strategic planning. Secondly, students will gain an overview of the tools, techniques and bodies of knowledge through which they may pursue sustainability-related projects or entrepreneurship within their organizations. The course will utilize sustainability practitioners and subject-matter experts from a variety of organizational backgrounds.

Pre-requisite(s): MBA 6700; Admission to the MBA Program or Graduate Certificate in Sustainability in Business.

Note: This course is not currently offered.

MBA 6720 - Business, Economics, and the Environment

Credits: (3)
Description: Environmental economics considers the efficient and equitable use of society's scarce environmental resources. Environmental resources include air, water, land, wildlife, biodiversity, and ecological systems. The allocation of environmental resources will be considered from different perspectives: (1) market allocations; (2) efficient allocations; (3) equitable allocations; and (4) government attempts to allocate these resources efficiently. Topics of the course include property rights, market failures, benefit-cost analysis, welfare economics, non-market valuation, environmental regulation, and sustainable development and business practices. Emphasis will be placed on the impacts on the firm resulting from environmental problems and regulations; and on sustainable business practices.

Pre-requisite(s): MBA 6040, MBA 6051 or equivalent.

Note: This course is not currently offered.

MBA 6740 - Principles of Contract Management

Typically Taught Summer Semester: 2nd Blk

Description: Students will gain an overview of the fundamentals of contract management from the development of acquisition requirements, solicitation/proposal, negotiation, contract formation, contract performance, and contract closeout. Learn the basics of what it takes to solicit, procure, negotiate and administer contracts and subcontracts while gaining a broad understanding of business principles to establish long-term relationships with customers, suppliers and other stakeholders. Explore an insider's view of the roles and responsibilities of contract administrators and the various interfaces with program management and other internal disciplines. Learn how to identify the basic differences between contract types and how they are selected to mitigate risk in a contractual environment, as well as exploring the key distinctions between commercial, government and international contracting processes.

Note: Course offerings are subject to change.

MBA 6750 - Financial Aspects of Contract Management

Typically Taught Fall Semester: 1st Blk

Description: Within the context of contract management, students will learn how to structure cash flow through financial methods that include invoice timing, pricing, overhead considerations, advance payments, letters of credit and other financial sources. Gain a comprehensive knowledge of accounting systems, budgeting, reporting, auditing and settlements. Enhance the profitability of your business through prudent contracting financial practices.

Note: Course offerings are subject to change.

MBA 6760 - Legal Aspects of Contract Management

Typically Taught Fall Semester: 2nd Blk

Description: Within the context of contract management, students will gain a working knowledge of stakeholder requirements, applicable common law, Federal Acquisition Regulations (FAR), Uniform Commercial Code (UCC) and other local, state and federal regulations and law that must be adhered to throughout the contract management process. Students will learn the legal aspects of contract management with an emphasis on real world, day-to-day
application. Students will explore all phases of managing an approved contract successfully through completion of performance including change management, communications, negotiations, contract types, terms and conditions, risks, defaults, terminations, claims and much more. Students will participate in projects and discussions to rapidly enhance knowledge and proficiency in contract management in order to apply classroom concepts in the workplace.

Note: Course offerings are subject to change.

**MBA 6800 - Directed Study**

**Credits:** (1-3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

**Description:** Directed individual study and research on special topics related to business.

**Pre-requisite(s):** Written approval of MBA program and instructor.

May be repeated for a cumulative total of three credits.

Note: Course offerings are subject to change.

**MBA 6810 - Experimental Course**

**Credits:** (1-6)

Experimental

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

**MBA 6850 - Business Development and Entrepreneurship**

**Credits:** (3)

Typically Taught Summer Semester: 2nd Blk

**Description:** Students will learn how to effectively come up with an idea, iterate around that idea, and validate customers around their final direction so that they can learn how to successfully launch an idea into a business with low risk, low capital, and higher degrees for success. In addition, if a student is interested in learning how to be a better "intrapreneur" this course will help them use some of these same skills in a corporate or employee environment.

Being innovative and creative is always valuable.

Note: Course offerings are subject to change.

**MBA 6870 - Sales Strategy & Management**

**Credits:** (3)

Typically Taught Summer Semester: 1st Blk, 2nd Blk

**Description:** This course looks at advanced selling techniques or the skills that make a salesperson and/or business leader successful in large or complex sales. These sales differ from the simple sales because they involve high-value goods or services, a sophisticated customer or business executive, and there is a continuing relationship after the sale. This course will build managerial relationship-selling skills that can be used in many settings.

**MBA 6890 - MBA Internship**

**Credits:** (1-3)

Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online

**Description:** The Master's of Business Administration offers MBA students the opportunity to earn 1 to 3 elective credits for a work internship.

**Pre-requisite(s):**
For requirements and guidelines, contact the MBA office.

May be repeated three times for a maximum of three credit hours.

**MBA 6920 - Short Courses, Workshops, Institutes, and Special Programs**

**Credits:** (1-6)

**Workshop**

**Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

**MCJ 6000 - Criminal Justice Statistics**

**Credits:** (3)

Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online

**Description:** Criminal Justice Statistics is a focus on the role of data collection and analysis in formal, empirical research projects. The course begins with a review of statistical applications including measures of central tendency, dispersion, and hypothesis testing. The course concludes with an examination of more complex analytical tools such as MANOVA, Factor Analysis, Path Analysis, and Logistical Regression. Students will review various styles of multivariate analysis in peer-reviewed scholarly literature as well as use computing resources to conduct their own multivariate analysis of a criminal justice dataset.
MCJ 6060 - Private Security

Credits: (3)
Typically Taught Fall Semester: Full Sem - Online
Description: This course will examine the philosophical, practical, and legal basis of security. The role of security and the security of the individual in modern society, the concept of professionalism and the relationship to public law are reviewed. Personnel, physical, and administrative aspects to security are examined.

MCJ 6070 - Terrorism

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: Course provides an overview of key research areas into terrorism, including the nature and conceptualization of terrorism, the individuals and groups that perpetrate terrorism, and counterterrorism and homeland security as responses to terrorism.

MCJ 6080 - Media and Crime

Credits: (3)
Typically Taught Summer Semester: Full Sem - Online
Typically Taught Fall Semester: Full Sem - Online
Typically Taught Spring Semester: Full Sem - Online
Description: This class uses a combination of criminal justice, sociology, and cultural studies to guide students as they examine the relationship between broad media (including social, movies, television, and music), and crime. Students will become familiar with the theoretical lenses used to assess media effects and cultural criminology. Crime and media construction, image, moral panics, and the impact of the internet on crime and deviance will also be explored.

MCJ 6090 - Ethics in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: Full Sem - Online
Description: An advanced course in ethics as it relates to law enforcement, courts, and corrections.

MCJ 6100 - Contemporary Criminal Justice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Course provides an analysis of the policies and practices of agencies of the criminal justice system including the police, prosecution, courts and corrections. Additionally, the latest technology and developments in the field of criminal justice will be addressed.

MCJ 6110 - Research Methods in Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Description: Course teaches quantitative and qualitative research design, data collection and analysis techniques, and research presentation and dissemination methods. Descriptive and inferential statistics will be covered as well as basic computer applications in criminal justice.

MCJ 6120 - Theories of Crime and Delinquency

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Course focuses on a review of classical and current theories of criminology and delinquency and the underlying assumptions of each. Advancements in profiling and classification as well as other applications of theoretical models will be studied.

MCJ 6130 - Law and Social Control

Credits: (3)
Typically Taught Spring Semester: Full Sem-Online
Description: Course focuses on the nature of law and legal institutions and the relationships between law and social control. Concepts of law and justice from the perspectives of its effects on the American criminal justice system will be investigated as well as the public policy concerns of laws and their relationship to our society.

MCJ 6140 - Technology and Innovation in Criminal Justice

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Course explores the latest developments in technology and innovations in criminal justice. Included will be current developments in forensic science, i.e. DNA and the use of computer applications in criminal justice. Specific topics will be adjusted as new technologies arrive. Emphasis will be on impact and management rather than the strict science of the protocols.
MCJ 6150 - Race, Class, Gender, and Criminal Justice

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Course will sensitize and educate criminal justice professionals to issues of diversity and equity. It explores the cross-cultural contact that criminal justice professionals have with citizens, victims, suspects, and co-workers, and the influence of culture, class, race and gender in the criminal justice field.

MCJ 6160 - Criminal Justice Policy Analysis

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Course focuses on crime as a political issue and examines how conflicting political philosophies influence criminal justice policy. Emphasis will be placed on how decisions in politics affect criminal justice organizations and how these decisions can be influenced by executive managers.

MCJ 6170 - Juvenile Justice & Delinquency

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Course examines the origins and development of the juvenile justice system with particular emphasis on the current policies and practices of the agencies which process young offenders through the juvenile system. Course examines a variety of political initiatives designed to reduce the jurisdiction of the juvenile court, enhance the due process rights of juveniles, and create a more punitive approach in the juvenile justice system.

MCJ 6180 - Contemporary Legal Issues

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: This course exposes students to current law impacting criminal justice professionals. Topics will change depending upon current legal developments, but will include the general areas of corrections, law enforcement, employment, civil liability and criminal procedure.

MCJ 6190 - Legal Foundations of Criminal Justice

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Broad survey of foundational legal topics relevant to criminal justice, including: criminal law, search and seizure, bail, right to counsel, self-incrimination, lineups, responsibilities of courtroom legal actors, speedy trial, impartial jury, plea bargaining, double jeopardy, sentencing law, inmate rights, juvenile law, death penalty law, and basic rules of evidence.

MCJ 6200 - Advanced Victimology

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: This is a graduate-level seminar designed to provide an overview of key research areas in victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.

MCJ 6210 - American Criminal Courts

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online
Description: Course exposes students to the dynamics of the American criminal courthouse. Students will examine how defense attorneys, defendants, prosecutors, judges, juries and others interact and contribute to America's version of criminal case disposition. Course also examines the mechanics of criminal case processing, as well as how the court system is supposed to work, how it really does work, and the implications for American democracy.

MCJ 6220 - Contemporary Law Enforcement

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online

Description: From the response and investigation of crimes committed, to the theory and practice involved in crime prevention, this course studies the development, theory, history and contemporary organizational structure of America's law enforcement organizations.

MCJ 6230 - Contemporary Corrections

Credits: (3)
Typically Taught Summer Semester: Full Sem Online
Typically Taught Fall Semester: Full Sem Online
Typically Taught Spring Semester: Full Sem Online

Description: Course provides an analysis of critical problems confronting contemporary adult corrections agencies. Course examines the problems of institutions, the effect of judicial intervention in corrections, alternatives to incarceration, and the political milieu in which this occurs.

MCJ 6250 - Topics in Criminal Justice

Credits: (1-3)
Variable Title
Typically Taught Summer Semester: Online
Typically Taught Fall Semester: Online
Typically Taught Spring Semester: Online

Description: Course focuses on a special issue or topic in criminal justice. A new topic/issue will be selected each time the course is offered.

May be repeated with a maximum of 10 credit hours.

MCJ 6255 - Great Thoughts in Criminal Justice

Credits: (3)
Typically Taught Fall Semester: Full-Sem Online

Description: This course explores the broader context of criminal justice studies and concepts through the writings of significant authors and thinkers. Readings will focus on subjects such as justice, punishment, law and social control. Students will be expected to read extensively and participate in analysis and discussion.

MCJ 6260 - Graduate Readings

Credits: (3)
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem

Description: Course allows the student to examine the scholarly literature on a subject of special interest under the supervision of faculty. Reading list and accompanying assignments must be approved by the supervising faculty member. Periodic progress meetings will be scheduled throughout the semester.

May be repeated once with a maximum of 6 credit hours.

MCJ 6810 - Experimental Course

Credits: (1-6)
Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

MCJ 6920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)
Workshop
Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ME 3040 - Dynamic System Modeling

Credits: (3)
Typically Taught Fall Semester: Full Sem

Description: Fundamentals of analysis, design and control of physical engineering systems. Analytical and numerical modeling of mechanical, electrical, fluid and thermal systems with applications.

Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280) and ENGR 2030.

ME 3050 - Machine Design

Credits: (3)
Typically Taught Fall Semester: Full Sem

Description: Design and analysis of machine elements and machines. Material selection, connections and joints, shafts and bearings, fits and tolerances, fasteners, material failure and reliability.

Pre-requisite(s): ENGR 2030 and ENGR 2140.

ME 3060 - Sensors, Instrumentation and Control Systems
ME 3300 - Fluid Mechanics

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Fundamental principles of fluid statics and dynamics. Fluid properties, flow regimes, pressure, velocity, flow rate, internal and external flow, and dimensional analysis. Applications of fluid mechanics. Lecture plus laboratory.
Pre-requisite(s): MATH 1220, ENGR 2030 and ENGR 2300.

ME 3350 - Engineering Computing

Credits: (2)
Typically Taught Fall Semester: Full Sem
Description: Introduction to engineering computing with applications to the analysis and design of engineering systems using an industry-standard software platform.
Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280).

ME 3500 - Numerical Methods for Engineering

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Fundamental methods for the numerical solution of engineering problems. Topics include root finding, interpolation, curve fitting, differentiation, integration, differential equations and curve fitting.
Pre-requisite(s): ME 3040 and ME 3350.

ME 4000 - Heat Transfer

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Fundamental principles of conduction, convection and radiation. Heat transfer with phase change, heat exchangers, and applications of heat transfer. Lecture plus laboratory.
Pre-requisite(s): MATH 2250 or MATH 2280 and ME 3300.

ME 4100 SUS - Senior Project I

Credits: (3)
Typically Taught Fall Semester: Full Sem
Course Fee: $75.00
Course Fee Purpose: Maintenance of machine tools and hand tools. Replacement of mills, drills, reamers, bores, etc.
Description: A mechanical engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.
Pre-requisite(s): ME 3060, ME 3500, ME 4000.

Co-Requisite(s):

ME 4150 - Vibrations

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Fundamental principles of free and forced vibrations of discrete linear systems with and without damping. Multiple-degree-of-freedom systems, continuous systems, shock isolation and vibration control.
Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280) and ENGR 2030.

ME 4200 SUS - Senior Project II

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $75.00
Course Fee Purpose: Maintenance of machine tools and hand tools. Replacement of mills, drills, reamers, bores, etc.
Description: Continuation of ME 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and
verification that the final product meets all requirements.

Pre-requisite(s): ME 4100.

**ME 4250 - Finite Element Analysis**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Introduction to the finite element method. Survey of FEA theory, including element formulation, stiffness matrix operations, shape functions, etc. Application and use of commercial FEA software for engineering design and analysis.
Pre-requisite(s): MATH 2250 or (MATH 2270 and MATH 2280) and ME 3050.

**ME 4300 - Material Failure Analysis**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: A survey of material failure modes, including fatigue, fracture, wear and corrosion. Introduction to damage tolerant design methodologies. Case studies in material failure.
Pre-requisite(s): ENGR 2160 and ME 3050.

**ME 4350 - Intermediate Mechanics of Materials**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Intermediate topics in mechanics of materials such as three-dimensional combined stress fields, stress concentrations, dynamic loads, torsion of non-circular members, plates and shells, stability and buckling of columns, and energy methods.
Pre-requisite(s): ENGR 2140.

**ME 4400 - Aerodynamics**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Airfoil theory, lifting bodies, boundary layers, lift and drag, compressible aerodynamics.
Pre-requisite(s): ME 3300.

**ME 4440 - Compressible Fluid Flow**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Pre-requisite(s): ME 3300 and ME 4000.

**ME 4450 - Aerospace Propulsion**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Design and analysis of gas turbine engines and rocket motors. Liquid and solid fuel propulsion systems. Thermodynamics of flow associated with aerospace propulsion systems. Introduction to fuel combustion processes.
Pre-requisite(s): ME 4440.

**ME 4500 - Heating, Ventilating and Air-Conditioning**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: Principles of heating, ventilating and air-conditioning (HVAC) of buildings. Refrigeration systems and indoor thermal environmental control system analysis and design.
Pre-requisite(s): ME 4000.

**ME 4550 - Robotics**

Credits: (3)
Typically Taught Spring Semester: Full Sem
Course Fee: $ 50.00
Course Fee Purpose: maintenance of equipment, software license and replacement of consumable parts.
Pre-requisite(s): ME 3040.

**ME 4600 - Intermediate Thermal-Fluids**

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: Intermediate topics in thermal-fluid sciences built upon knowledge from thermodynamics, fluid mechanics and heat transfer. Topics include thermodynamic cycles, psychrometrics, piping systems,
boundary layers, heat transfer with phase change, radiation, and thermal design.
Lecture plus laboratory.
Pre-requisite(s): ME 4000.
Co-Requisite(s): ME 4800 - Individual Research Problems
Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: With permission and under the direction of faculty, the student researches a specific problem in the mechanical engineering field.
Pre-requisite(s): Permission of department.

ME 4830 - Readings in Mechanical Engineering
Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: With permission and under the direction of faculty, the student studies a topic taken from the mechanical engineering literature.
Pre-requisite(s): Permission of department.

ME 4890 - Cooperative Work Experience
Credits: (1-3)
Typically Taught Spring Semester: Full Sem
Description: Provides academic credit for engineering work experience. Permission of department required.
Pre-requisite(s): Permission of department.

ME 4900 - Special Topics
Credits: (1-3)
Variable Title
Typically Taught Spring Semester: Full Sem
Description: A special topic in mechanical engineering is selected by the faculty to be taught on a one-time basis. With departmental approval, may substitute for a technical elective.
Pre-requisite(s): Permission of department.

ME 4920 - Short Courses, Workshops, Institutes, and Special Programs
Credits: (1-6)
Workshop

Typically Taught Summer Semester: Full Sem
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
Pre-requisite(s): Permission of department.
May be repeated for a total maximum of 6 credit hours.

ME 4990 - Seminar in Mechanical Engineering
Credits: (1)
Typically Taught Spring Semester: Full Sem
Course Fee: $25.00
Course Fee Purpose: Course fees in ME 4990 are used to cover the cost of class handouts, consumable materials in the labs, lab computing equipment, and related software.
Description: Seminar is designed to prepare the student for professional engineering employment. Topics include resumes, interviewing techniques, engineering ethics, professionalism, patent law, social issues, lifelong learning, diversity, communication, timeliness, and continuous improvement. Lectures and presentations by faculty, staff, and guests from local engineering industry.
Pre-requisite(s): ME 4100.

MENG 5010G - Introduction to Linguistics
Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course introduces students to the scientific study of language. It explores what languages have in common, as well as what distinguishes them. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be expanded and applied to other areas, such as language acquisition, language history, language and culture, language and thought, and language and literary expression. This course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

MENG 5050G - Grammar, Style, and Usage for Advanced Writing
Credits: (3)
Description: This course presents the concepts and nomenclature of traditional grammar as a context for
students wishing to increase their control of punctuation, style, and usage to become more proficient writers. Its offers practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is designed for students with bachelor's degrees who have no upper-division undergraduate coursework in linguistics.

**MENG 5080G - Critical Approaches to Literature**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective.

**MENG 5510G - World Literature**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Students in this course read texts from a variety of eras and of authors and regions outside the United States and Great Britain. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same period was applied toward an undergraduate degree.

**MENG 5570G - American Literature I**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

**MENG 5580G - American Literature II**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

**MENG 5670G - British Literature I**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem - Online  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

**MENG 5680G - British Literature II**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** This course will introduce students to the study of British Literature from the eighteenth century to the contemporary period. We will examine its history, major works, and literary concepts.

**MENG 5730G - Literature of Cultures and Places**

**Credits:** (3)
**Typically Taught Fall Semester:** Full Sem  
**Typically Taught Spring Semester:** Full Sem  
**Description:** Students in this course read texts focusing on a single national culture or works from various cultures. This course may not be applied to graduate degree requirements if an undergraduate survey covering the same time period was applied towards undergraduate degree.

**MENG 5920G - Short Courses, Workshops, Institutes and Special Programs**

**Credits:** (1-4)
**Variable Title**  
**Description:** In order to provide flexibility and to meet many different needs, a number of specific offerings are possible using this catalog number. When the number is used it will be accompanied by a brief and specific descriptive title. The specific title with the credit authorized for the particular offering will appear on the student transcript. May be repeated 5 times with a maximum of 6 credit hours.
MENG 6005 - Intercultural Classroom Discourse

Credits: (3)
Description: Students will read, discuss and experience interactive learning tools from the fields of sociolinguistics, intercultural communication, and TESOL pedagogy. Students will analyze dialects and personal/social conversational styles. Examples from literature and film will help provide a contextualized means of observing and understanding cultural identities.

MENG 6010 - Introduction to Graduate Studies

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: Students will learn research methods and methodologies that will allow them to produce publishable, sophisticated pieces of academic prose of the kind expected of professional academics. Students will compose abstracts, conference paper proposals, annotated bibliographies, and surveys of scholarship. Students will explore academic databases extensively and learn to evaluate rigorously other scholars' work. Students will be encouraged to submit their work in the class to journals, conferences, or collections of essays. Students should take this course within their first year of study and focus their research on topics that may support future work on a thesis or project. Required in first or second semester.

MENG 6030 - Studies in Literary Theory and Criticism

Credits: (3)
Variable Title
Description: Students will study influential works in literary theory--potentially ranging from Plato's REPUBLIC to Gayatri Spivak's groundbreaking feminist studies to Stephen Greenblatt's New Historicialist studies to Homi Bhabha's postcolonial analyses--paying specific attention to the influence of these theories on English studies. May be repeated 10 times for credit hours with different content.

MENG 6100 - Literary Curriculum Design

Credits: (3)
Typically Taught Fall Semester: Full Sem
Description: This course explores theory and research in curriculum design in the field of teaching literature and literacy. With the intention of preparing teachers to design intentional, equitable curricula that serves secondary students in grades 7 - 12 grade, this course also has pragmatic implications for teaching at the collegiate level. Through surveying multiple learning and educational theories related to curriculum design, this course promotes intellectual, well-paced, and purposeful teaching in the discipline of English.

MENG 6110 - Writing for Teachers

Credits: (3)
Description: Designed primarily for in-service teachers, this course explores the most current research and theory concerning the teaching of writing and applies it to issues in the secondary classroom. Permission of instructor required to register.

MENG 6120 - Young Adult Literature

Credits: (3)
Typically Taught Fall Semester: Full Sem
Typically Taught Spring Semester: Full Sem
Description: This course explores young adult literature through three critical lenses: authorship, readership, and pedagogy. This course examines theory, research, and practice in publishing, reading, and teaching young adult literature. With an explicit focus on diverse and inclusive books, this course prepares scholars to evaluate young adult literature across multiple genres, contexts, and purposes. Note: Permission of instructor required to register.

MENG 6130 - Theories of Rhetoric and Writing Studies

Credits: (3)
Typically Taught Spring Semester: Full Sem
Description: This course is an intensive study of rhetoric and writing theory. Selected works of major composition and rhetorical theorists will be examined and historicized within a survey of the teaching of academic writing from antiquity to the present.

MENG 6140 - Foundations of Professional and Technical Writing

Credits: (3)
Typically Taught Spring Semester: Full Sem
**Description:** This course will study the theoretical foundations and scholarly practices of professional and technical writing and communication. The course will examine the major ideas of those who practice professional and technical writing and the main values and practices of the field.

**MENG 6150 - Grant Writing**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem

**Description:** This class covers advanced studies in the grant writing process. Class will examine the processes of formulating legible questions and developing meaningful partnerships and move toward experience in taking action and member checking. Students in this class will master contemporary theories of audience and genre while learning action research theories of change.

**MENG 6210 - Teaching Literature, Literacy, and Language in the Secondary Schools**

Credits: (3)
**Typically Taught Fall Semester:** Full Sem
**Typically Taught Spring Semester:** Full Sem

**Description:** This course explores the most current research and theory in literature, literacy, and language as it applies to teaching in secondary English classrooms. This course explores culturally sustaining pedagogical practices that affirm adolescents' knowledge and use of language.

**MENG 6230 - Wasatch Range Writing Project Summer Institute**

Credits: (1-6)
**Typically Taught Summer Semester:** 1st Blk, 2nd Blk

**Description:** This course is designed to follow the National Writing Project model. The four-week Invitational Institute is for inservice teachers nominated by their school district or their peers. It is designed to develop leadership skills in those teachers to enable them to impact the quality of writing instruction in their individual schools and district. It is also designed to develop teacher leadership for the Wasatch Range Writing Project. The One Week Open Institute is open to any inservice teacher wishing to improve writing instruction in his/her classroom. Can be repeated once up to eight (8) credit hours total. Note: Permission of instructor required to register.

**MENG 6231 - Wasatch Range Writing Project Advanced Institute**

Credits: (1-6)
**Variable Title**

**Description:** This is a variable topics variable title course designed for Wasatch Range Writing Project Teacher Consultants, teachers who have taken the WRWP Summer Institute and work with WRWP providing professional development to local school districts. It allows those teachers to increase their effectiveness as teachers, add to their expertise for work with inservice teachers and research possible solutions to literacy issues facing elementary and secondary education in our region. Course titles may include: Developing Utah State Core Standards Workshops, Digital Writing, Developing Argument Writing Across the disciplines. Only six hours can be used for meeting elective requirements in the MENG program.

**Pre-requisite(s):** Six hours credit in MENG 6230. May be repeated 6 times and up to 18 credit hours.

**MENG 6240 - Seminar in American Literature**
