University Profile

Overview

Weber State University is an exceptional comprehensive university providing associate, bachelor, masters, and doctoral degrees to meet the needs of the region. WSU graduates are broadly educated, capable and prepared for meaningful careers, graduate and professional schools, and civic engagement. The hallmark of the university is excellent teaching with extraordinary interactions between faculty and students. WSU offers a wide and diverse variety of degrees/programs (see Programs Sorted by Degree or Programs Sorted by Major/Minor). With a student body of over 30,000 drawn predominantly from Utah, but also including students from every other state, 1 territory and 71 foreign countries, WSU takes pride in its student-centered environment for learning and believes that quality education is founded upon close associations between faculty and students.

WSU is distinguished by outstanding academic programs that recruit motivated students to work with faculty to create and share knowledge. More than fifty academic departments and programs in seven colleges provide learning opportunities for a diverse spectrum of students, including grants and support for undergraduate research, community-based and service learning, an Honors program, and a Bachelor of Interdisciplinary Studies (BIS) program. The Office of Undergraduate Research (OUR) and the Center for Community Engaged Learning help to engage students in learning both inside and outside the classroom, and the Honors program provides small classes in a rich, supportive, and challenging academic setting. The BIS offers students the opportunity to design their own degrees with three areas of academic emphasis meant to prepare them for specific career paths or graduate study.

Academic studies are complemented by a wide range of extracurricular activities, including student government, intramural and intercollegiate athletics, and award-winning performing arts groups. In addition, the Student Success Center along with the First Year Experience program helps new students adjust to the university community, while a variety of support services and programs aid those with particular needs.

The WSU Ogden campus has about 70 buildings on 366 acres that house abundant classrooms and laboratories, excellent student computing facilities, outstanding performing arts auditoriums, a spacious library, and a well-equipped health and fitness center. An area of continued growth is WSU Davis, which provides instruction to students on a high-tech campus in Layton. In addition to its Ogden and Davis campuses, WSU offers courses throughout the state and Intermountain West and is a leader in online instruction.

Historical Perspective

Weber State University was founded in Ogden, Utah, as Weber Stake Academy on January 7, 1889, by the Weber Stake Board of Education of the Church of Jesus Christ of Latter-day Saints. The 1933 Utah Legislature established Weber College as a state junior college and placed it under the control of the Utah State Board of Education. Following World War II the college outgrew its downtown campus and moved to the present 400-acre site, spectacularly perched on the mountainside overlooking Ogden and the Great Salt Lake.

In 1959 the Utah Legislature authorized the addition of upper division courses, leading to award of the first baccalaureate degrees by Weber State College in 1964. The 1969 Legislature created the Utah System of Higher Education, comprising nine public institutions of higher learning, including Weber State College. The

system is governed by a State Board of Regents, and each institution has its own Board of Trustees; members of both boards are appointed by the governor.

In 1990 the state legislature renamed the institution Weber State University, effective New Year's Day 1991, appropriately symbolizing its role as Utah's premier public, undergraduate university.

Mission Statement

We transform lives and communities by educating students of all identities and backgrounds. We nurture student success through a supportive environment, individualized pathways, meaningful personal connections with faculty and staff, teaching and experiential learning, research, and civic engagement.

WSU Mission Core Themes Assessment

WSU has three core themes which highlight an aspect of the mission and collectively they encompass its mission. The core themes are:

.

ACCESS

- The access core theme reflects our commitment to providing an affordable, quality education to communities with significant socioeconomic and cultural differences.

LEARNING

- The learning core theme is central to our mission to provide transformative educational experiences and its commitment to support student success at every stage of the student life cycle.

COMMUNITY

- The community core theme reflects our role as an educational, cultural and economic steward for the region.

Accreditation

Weber State University is institutionally accredited by the Northwest Commission on Colleges and Universities. All applied technical education programs are accredited by the Utah State Office of Vocational Education. Teacher education programs are accredited by the National Association of State Directors of Teacher Education and Certification. In addition, specific professional agencies currently accredit or approve the following departments and programs:

College of Engineering, Applied Science & Technology

Automotive Service Technology [AAS programs] (*National Automotive Technicians Education Foundation [NATEF]*)

Computer Science (Computing Accreditation Commission of ABET, Inc.)

Cybersecurity and Network Management (Computing Accreditation Commission of ABET, Inc.)

Manufacturing Engineering Technology, Mechanical Engineering Technology, Product Design and Development (*Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.*)

Electrical Engineering (*Engineering Accreditation Committee [EAC] of ABET, Inc.*)

Interior Design (*Council for Interior Design Accreditation [CIDA]*)

Telitha E. Lindquist College of Arts & Humanities

Music (*National Association of Schools of Music [NASM]*)

John B. Goddard School of Business & Economics

All undergraduate and graduate programs in business (*Association to Advance Collegiate Schools of Business [AACSB]*)

School of Accounting & Taxation-all undergraduate and graduate programs in accounting (*Association to Advance Collegiate Schools of Business [AACSB]*)

Jerry and Vickie Moyes College of Education

Early Childhood and Early Childhood Education (*National Association for the Education of Young Children Teacher Education Standards [NAEYC], National Council for Accreditation of Teacher Education*)

Family Studies (*National Council on Family Relations Standards for the Certified Family Life Educator [NCFR]*)

Teacher Education (*Association for Advancing Quality Educator Preparation [AAQEP]*)

Dr. Ezekiel R. Dumke College of Health Professions

Athletic Training (*Commission on Accreditation of Athletic Training Education [CAATE]*)

Dental Hygiene (*Commission on Dental Accreditation of the American Dental Association [CODA]*)

Emergency Healthcare (*Commission on Accreditation of Allied Health Education Programs [CAAHEP], Committee on Accreditation of Educational Programs in the Emergency Medical Services Professions*)

Health Administrative Services (*Association of University Programs in Health Administration [AUPHA]*)

Health Information Management, Health Information Technology (*Commission on Accreditation for Health Informatics and Information Management Education [CAHIIM]*)

Master of Health Administration Program (*Commission on Accreditation of Healthcare Management Education [CAHME]*)

Medical Laboratory Sciences (*National Accrediting Agency for Clinical Laboratory Science [NAACLS]*)

Nursing (*Accreditation Commission for Education in Nursing [ACEN]*)

Physician Assistant (*Accreditation Review Commission on Education for the Physician Assistant [ARC-PA]*)

Respiratory Therapy (*Commission on Accreditation for Respiratory Care [CoARC]*)

College of Science

Chemistry (*American Chemical Society [ACS]*)

College of Social & Behavioral Sciences

Social Work (*Council on Social Work Education [CSWE]*)

Division of Student Affairs

Nontraditional Student Hourly Childcare Program (*National Association for the Education of Young Children*)

Catalog Information

The Weber State University catalog is maintained by the Registrar's Office based on approved curricula. Although some areas of information are covered in detail, much of the content is presented in a general way. The catalog is not to be considered a binding contract between Weber State and any student or other institution. Weber State reserves the right to change its regulations or course offerings as conditions require during the period of any student's attendance. Students should refer to the official schedule of classes online which is available before and during registration each semester.

Assessment at WSU

WSU routinely conducts campus-based studies of student attitudes, student achievement, student satisfaction, and personal, professional and career development. These studies are grouped under the heading of student outcomes assessment. Each WSU student is expected to participate in outcomes assessment. While every student is not selected for participation in every activity, it is likely that an individual student will be involved in one or more assessment activities during the college years. It is only through cooperative participation in the assessment process that WSU can better understand itself and better serve its students.

As well, every academic program assesses student learning for both formative and summative assessment purposes. This assessment is generally embedded in the curriculum, but may also utilize outside exams, internships, and portfolios.

For more information on outcomes assessment at WSU, contact the Office of Institutional Effectiveness, Annex 2, 801-626-8586 <http://www.weber.edu/ie>.

Campus Safety and Nondiscrimination Policy Statement

CAMPUS SAFETY

Your safety while attending WSU is extremely important to us. The university maintains a campus alert system called Code Purple that provides notices about significant emergency situations on campus such as snow closures, power outages, gas leaks, or other potentially dangerous threats. We encourage you to sign-up for campus alerts at weber.edu/codepurple.

To report any crime or emergency, call **911** or University police at **801-626-6460**, 3734 Dixon Parkway, Ogden, UT 84408.

The university also publishes an Annual Security Report and Fire Safety Report which provides information about crime statistics, crime prevention, alcohol and drug policies, fire statistics, etc. These reports can be

found online at <http://weber.edu/clery>. You may request a physical copy by calling **801-626-7440** or visiting the WSUPD at 3734 Dixon Parkway, Ogden, UT 84408.

NONDISCRIMINATION

Weber State University is committed to protecting the personal rights of all students, employees, and visitors by providing an environment free from harassment and other forms of discrimination based upon race, color, national origin, pregnancy or pregnancy-related conditions, genetics, age (over 40), disability, religion, sex, sexual orientation, gender identity/expression, veteran, active military status, and other classifications protected by law. Such an environment is a necessary part of a healthy learning and working atmosphere. Unlawful discrimination undermines human dignity and the sense of community WSU seeks to foster.

Discrimination and harassment are illegal and specifically prohibited by the constitutions, statutes, precedents and regulations of the United States and Utah. It is the policy of the University to vigorously enforce these laws among its students and employees.

Individuals who believe any of these rights have been violated should review information available at the Office of Equal Opportunity website and in PPM 3-32 Discrimination Harassment and Sexual Misconduct including Title IX.

Discrimination and harassment complaints or those who need assistance with reasonable accommodations may contact:

Executive Director of OEO
OEO@weber.edu
801-626-6239 or 801-626-6240
Miller Administration Building, Room 102,
3850 Dixon Parkway, DEPT. 1022,
Ogden, UT 84408-1022

Note that persons who participate in this grievance procedure in good faith are protected against retaliation for doing so.

Questions may also be directed to:

1) Utah Antidiscrimination and Labor Division
P.O. Box 146630
Salt Lake City, UT, 84114 6630
Street Address:
160 East 300 South, 3rd Floor,
Salt Lake City, UT 84111
Phone: 801-530-6801
Email: discrimination@utah.gov

2) Equal Employment Opportunity Commission
Phoenix District EEOC Office
3300 North Central Avenue, Ste. 690
Phoenix, AZ 85012-2504
Phone: 602-640-5000
Fax: 602-640-5071

3) Office for Civil Rights
Denver Office
U.S. Department of Education
Cesar E. Chavez Memorial Building
1244 Speer Boulevard, Suite 310

Denver, CO 80204 3582
Telephone: 303-844-5695
Facsimile: 303-844-4303
Email: OCR.Denver@ed.gov

Sexual harassment is a type of discriminatory harassment involving unwelcome conduct directed against persons based on their sex, sexual orientation or gender identity/expression which is prohibited by WSU. Sexual harassment includes unwelcome sexual advances, requests for sexual favors or other verbal or nonverbal conduct of a sexual nature, including potentially criminal conduct such as rape, sexual assault, sexual exploitation, dating violence, domestic violence and stalking. Sexual violence is a severe form of sexual harassment. Individuals who experience or become aware of any form of violence, sexual violence, or sexual harassment are encouraged to immediately report such behaviors. To report any emergency or to file a police report regarding these behaviors, call **911** or University police at **801-626-6460**, 3734 Dixon Parkway, Ogden, UT 84408. For help responding to non-emergency situations involving these behaviors, contact the Executive Director of OEO, OEO@weber.edu, Miller Administration Building, Room 102, 3850 Dixon Parkway, DEPT 1022, Ogden, UT 84408-1022, at **801-626-6239**, or a Survivor Advocate with the Women's Center at **801-626-6372**. For more information, including options, processes, and a list of on and off campus resources, go to: <http://www.weber.edu/safeatweber/>.

The university provides training materials regarding sexual assault, violence prevention, dating violence, domestic violence, stalking, alcohol abuse, and how to assist if you are a bystander. These materials are a helpful guide for safe practices on and off-campus. The university expects all students, faculty and staff to complete this training. Go to portalapps.weber.edu/everfiSSO/.

Exceptions to University Policy

All students at Weber State University have the right, with appropriate rationale, to request an exception to University policies or requirements. Help with preparing requests for exceptions can be obtained from the Registrar's Office, SC 101, 801-626-6061, or from the Assistant Dean of Students, Miller Administration Building, Room 317, 801-626-7256.

Student Code

Students attending the University are expected to adhere to certain standards as defined in the Weber State University Student Code, a copy of which is available from the Office of the Dean of Students (Miller Administration Building, Suite 317) or online at <http://weber.edu/ppm/6-22.html>.

Administration & Faculty

Jadelyn Abbott (2022) - Assistant Professor of Teacher Education. BA, Pacific University, 2013; MA, EdD, Boise State University, 2018, 2022.

Brenda Acor (2003) - Instructor of Mathematics. BA, Southern Utah University, 1990; MEd, Weber State University, 1999; MA, Brigham Young University, 2003.

Brock Adams (2017) - Assistant Professor of Professional Sales. BS, Dixie State University, 2009; MA, Southern Utah University, 2012; PhD, Louisiana State University, 2018.

Mark S. Adams (2014) - Associate Professor of Child & Family Studies. BS, Brigham Young University, 1996; MS, University of Arizona, 1999; PhD, Texas Tech University, 2005.

Shaun Adamson (2008) - Professor of Library Science. BA, MA, University of South Florida, 1994, 1996; PhD, Walden University, 2008.

Jude Yaw Agboada (2021) - Assistant Professor of Graphic Design. BA, Kwame Nkrumah University of Science and Technology, 2013; MFA, School of the Art Institute of Chicago, 2019.

Christina S. Aguilar (2017) - Instructor of Health and Physical Education. BS, MS, University of Connecticut, 2012, 2014.

David Aguilar-Alvarez (2015) - Department Chair of Exercise and Nutrition Sciences and Assistant Professor of Nutrition. BS, Technological Institute of Sonora, MS, PhD, University of Connecticut, 2012, 2014.

Nazneen Ahmad (2006) - Professor of Economics. BS, MS, Jahangirnagar University, 1994, 1996; MA, York University, 2000; MS, PhD, University of New Orleans, 2005.

Jishan Ahmed (2023) - Assistant Professor of Data Science and Applied Mathematics. BS, MS, University of Dhaka 2010, 2012; MA, Ball State University 2018; PhD, Bowling Green State University, 2023.

Jee Hae (Esther) Ahn (2022) - Assistant Professor of Piano. BM, MM, New England Conservatory, 2014, 2015; DMA, Eastman School of Music - University of Rochester, 2021.

Mahmud Akelbek (2010) - Associate Professor of Mathematics. BS, MS, Xinjiang University, 1996, 1999; PhD, University of Regina, 2008.

Melina Alexander (2005) - Professor of Teacher Education. BS, Weber State University, 1990; MS, Weber State University, 1996; PhD, Utah State University, 2005.

Abdulmalek Al-Gahmi (2017) - Assistant Professor of Computer Science. BS, Sana'a University, 1997; MS, PhD, New Mexico State University, 2002, 2008.

Anthony T. Allred (1996) - Professor Business Administration. BGS, Weber State University, 1984; PhD, Oklahoma State University, 1997.

Sarah C. Allred (2022) - Assistant Professor of Respiratory Therapy. BS, MS, Weber State University, 2019, 2021.

James Almeida (2023) - Assistant Professor of Latin American History. BBA, Boise State University, 2009; MA Florida International University, 2015; PhD, Harvard University, 2022.

Noël T. Alton (2020) - Assistant Professor of Web and User Experience, School of Computing. BS, MS, Brigham Young University, 2005, 2010; DS, University of Baltimore, 2019.

Clinton L. Amos (2013) - Associate Professor of Business Administration. BBA, Northeastern State University, 1999; MBA, Dallas Baptist University, 2002; PhD, University of North Texas, 2008.

Eric D. Amsel (1996) - Associate Provost: Academic Programs and Assessment; Brady Presidential Distinguished Professor and Professor of Psychology. BA, McGill University-Montreal Canada, 1979; MEd, Harvard Graduate-Cambridge, 1980; PhD, Columbia University, 1986.

Nicole A. Anderson (2020) - Assistant Professor of Computer Science. BS, MS, University of Iowa, 1998, 2000; PhD, University of Utah, 2007.

Jennifer S. Anderson (2014) - Department Chair and Associate Professor of Management. BA, MBA, University of Washington, 1990, 1999; PhD, University of Arizona, 2014.

Natalie M. Anderson (2021) - Instructor and Concurrent Enrollment Math Coordinator. BS, MS, University of Utah, 2014, 2017.

Sheila Anderson (2014) - Associate Professor of Child & Family Studies. BS, University of Utah, 1994; MEd, Weber State University, 2004; PhD, Utah State University, 2012.

Adrienne Andrews (2005) - Assistant Vice President for Diversity & Chief Diversity Officer. BA, University of Utah, 1993, 1996; MS, Minnesota State University, Mankato, 1997; MA, Rutgers, the State University of New Jersey, 2001.

Charlotte Andrus (2023)- Instructor Nursing. BSN, MSN, Weber State University, 2021, 2023.

Rachel E. Ardern (2017) - Assistant Professor of Nursing. BN, Queensland University of Technology, 1997; MN, University of Southern Queensland, 2007; DHS, Queensland University of Technology, 2022.

Tariq Mohammad Arif (2019) - Assistant Professor of Mechanical Engineering. BSc, Bangladesh University of Engineering and Technology, 2005; M.Sc., University of Tokushima, 2011; PhD, New Jersey Institute of Technology, 2017.

John C. Armstrong (2003) - Professor of Physics. BS, University of Iowa, 1998; MS, PhD, University of Washington, 2001, 2003.

Kristen J. Arnold (2010) - Associate Professor of Interior Design. BS, MEd, Weber State University, 2005, 2008.

Michelle L. Arnold (2002) - Associate Professor of Physics. BS, University of Winnipeg, 1996; PhD, McMaster University, 2000.

Tony J. Asay (2008) - Instructor of Developmental English. BA, Brigham Young University, 2004; MA, Weber State University, 2008.

Isabel Asensio (2006) - Department Chair of Foreign Languages and Professor of Spanish and Translation. BA, University of Extremadura, 1999; MA, University of Kentucky, 2001; MA, PhD, Vanderbilt University, 2004, 2006.

Aaron L. Ashley (2006) - Department Chair and Professor of Psychology. BA, University of North Carolina at Greensboro, 1995; MA, Ball State University, 2000; PhD, University of Memphis, 2004.

Michael K. Ault (2016) - Associate Professor of Communication. BS, MA, Southern Utah University, 2007, 2012; PhD, University of Oklahoma 2016.

Rachel M. Bachman (2013) - Associate Professor of Mathematics. BS, The Pennsylvania State University, 2007; MA, EdD, Binghamton University, 2009, 2013.

Ashley D. Badali (2020) - Instructor of Interior Design. BS, Weber State University, 2017; MEd, Western Governors University, 2018.

Elizabeth A. Balgord (2015) - Assistant Professor of Earth and Environmental Sciences. BS, University of Wisconsin, 2009; MS, Idaho State University, 2011; PhD, University of Arizona, 2015.

Robert G. Ball (2015) - Associate Professor of Computer Science. BS, MS, Brigham Young University, 2002, 2003; PhD, Virginia Polytechnic Institute and State University, 2006.

Suzanne H. Ballingham (2018) - Instructor of Nursing. BSN, University of Phoenix, 1996; MSN-FNP, Westminster College, 2001.

Andrea M. Baltazar (2017) - Assistant Professor of Communication. BA, University of California, 2008; MFA, Pepperdine University, 2017.

Mikelle Barberi-Weil (2015) - Instructor of Professional Sales. BS, Weber State University, 2014; MS, University of Southern California, 2018, PhD, Pepperdine University, 2023.

Evan T. Barlow (2016) - Assistant Professor of Supply Chain Management. BS, Brigham Young University, 2004; MS, University of Texas, 2007; PhD, Northwestern University, 2016.

Joyce Marie Barra (2010) - Instructor of Nursing. BS, Northern Illinois University, 1980; MS, PhD, University of Utah, 1992, 2005.

Steven B. Bateman (2017) - Executive in Residence and Instructor of Health Administration. BA, Weber State College, 1982; MBA, Utah State University, 1985.

Vincent C. Bates (2012) - Professor of Teacher Education. BM, MM, Brigham Young University, 1992, 1996; PhD, University of Arizona, 2005.

Diego Rey Batista (2011) - Professor of Spanish. BA, Brigham Young University, 2001; MA, California State University Fullerton, 2005; PhD, University of Oklahoma, 2011.

Micah J. Bauer (2016) - Assistant Professor of Visual Arts & Design. BFA, Brigham Young University, 2003; MFA, Utah State University, 2015.

Mark R. Baugh (2004) - Department Chair and Professor of Manufacturing and Systems Engineering. BS, University of Utah, 1990; MS, Utah State University, 1996.

Bruce K. Bayley (2007) - Professor of Criminal Justice. BS, MS, University of Utah, 1997, 1999; PhD, Utah State University, 2002.

Nicole A. Beatty (2012) - Associate Professor of Library Science and Arts and Humanities Librarian. BA, University of Northern Colorado, 1998; MA, University of Illinois, 2001; MLS, Indiana University, 2007.

Steven Kendal Beazer (2016) - Associate Professor of Medical Laboratory Sciences. BS, MHA, Weber State University, 2010, 2014.

Daniel Bedford (2002) - Brady Presidential Distinguished Professor and Professor of Geography. BA, University of Oxford, 1990; MS, PhD, University of Colorado, 1992, 1997.

Craig N. Bergeson (1999) - Professor of Spanish. BA, Weber State University, 1991; MA, University of Nevada, 1993; PhD, University of Colorado, 1998.

Henry Laine Berghout (2000) - Associate Dean of College of Science and Professor of Chemistry. AA, BS, Weber State University, 1991, 1992; PhD, University of Wisconsin-Madison, 1998.

Tamara P. Berghout (2013) - Associate Professor of Nursing. BS, MSN, Weber State University, 2007, 2011; EdD, Walden University, 2019.

Andressa Bertolazzo (2023) - Assistant Professor of Chemistry. B.Sc., MS, Universidade, Federal do Parana 2007, 2010; PhD, Universidade Federal do Rio Grande do Sul, 2014.

Javier Álvaro Berzal Rojo (2021) - Instructor of Spanish. MA, Universidad Rey Juan Carlos, Spain, 2007; MA, Universitat Oberta de Catalunya, Spain, 2011.

Anne M. Bialowas (2008) - Department Chair and Professor of Communication. BA, University of Puget Sound, 1998; MA, California State University Sacramento, 2002; PhD, University of Utah, 2009.

Mark O. Bigler (1999) - Professor of Social Work. BA, MSW, University of Utah, 1985, 1987; PhD, New York University, 1992.

Dustin S. Birch (2011) - Professor of Mechanical Engineering. BS, MS, University of Utah, 1997, 2000; PhD, Colorado State University, 2021.

Timothy E. Black (2021) - Assistant Professor of Psychology. BA, Drury University, 2013; MS, PhD, Oklahoma State University, 2019, 2021.

Barbara Blair (2023) - Assistant Professor of Organizational Behavior. BA, Brown University, 1983; MBA, Dartmouth College, 1989; PhD, Claremont Graduate University, 2016.

Joseph F. Blake (2019) - Assistant Professor of Dance. BFA, University of Utah, 2003; MFA, University of Washington, 2017.

Barrett A. T. Bonella (2013) - Associate Professor of Social Work. BS, Westminster College, MSW, MBA, PhD, University of Utah, 2006, 2008, 2011.

Timothy E. Border (2008) - Associate Professor of Professional Sales. BS, Weber State College, 1986; MS, Utah State University, 1988.

Kellie Bornhoft (2023) - Assistant Professor of Art. BFA, Watkins College of Arts, Design & Film, 2013; MFA, The Ohio State, 2019.

Eric W. Bottelberghe (2021) - Instructor of Nursing. BA, Utah State University, 2011; BS, MSN, Weber State University, 2015, 2018.

Monica Bottelberghe (2015) - Instructor of Nursing. BSN, Weber State University, 2012; MSN, Western Governors University, 2014.

Katherine Bowman (2023) - Assistant Professor of Chemistry. BS, Brigham Young University, 2015; PhD, University of Utah, 2020.

Randall J. Boyle (2015) - Professor of Management Information Systems. BS, MPA, Brigham Young University, 1998, 2000; PhD, Florida State University, 2003.

Rebecka Brasso (2018) - Associate Professor of Zoology. BS, University of North Carolina, 2004; MS, The College of William and Mary, 2007; PhD, University of North Carolina, 2014.

Ivy M. Brenneman (2022) - Instructor of Visual Arts. BFA, Brown University, 2015; MFA, Indiana University, 2022.

Delroy A. Brinkerhoff (1996) - Professor of Computer Science. BS, Brigham Young University, 1984; MS, PhD, Utah State University, 1996, 2010.

Mackenzie K. Bristow (2020) - Instructor of Computer Science. BS, Weber State University, 2019.

Shawn D. Broderick (2016) - Associate Professor of Math Education. BA, Arizona State University, 2003; MA, Brigham Young University, 2009; PhD, University of Georgia, 2013.

Brady M. Brower (2007) - Professor of History. BA, University of Idaho, 1993; MA, University of Colorado, 1996; PhD, Rutgers University, 2005.

Fon R. Brown (2010) - Department Chair and Professor of Electrical Engineering. BS, Utah State University, 1984; MS, Brigham Young University, 1989; PhD, Utah State University, 1998.

Karen Bruestle (2001) - Professor of Performing Arts. BM, MFA, University of Utah, 1985, 1990; DMA, Arizona State University, 1997.

Jeremy G. Bryson (2013) - Associate Professor of Geography. BS, Brigham Young University, 2004; MS, Montana State University, 2006; PhD, Syracuse University, 2010.

J. Samuel Bryson (2020) - Instructor of Music. BM, Utah State University, 2009; MM, Northern Arizona University, 2012.

Amy J. Buckway (2014) - Associate Professor of Nursing. BS, Weber State University, 1997; MSN, University of Phoenix, 2004; EdD, Walden University, 2019.

Brandon J. Burnett (2015) - Department Chair and Assistant Professor of Chemistry. BS, Weber State University, 2009; PhD, University of Nebraska, 2013.

Justin V. Burr (2020) - Assistant Professor of Health Sciences. BS, Weber State University, 2012; DPT, New York University, 2016.

J. Russell Burrows (1993) - Professor of English. BA, Weber State College, 1977; MA, Brigham Young University, 1982; PhD, Bowling Green State University, 1987.

Russell C. Butler (2016) - Instructor of Construction and Building Sciences. BS, Brigham Young University, 1994; MBA, Brigham Young University, 2001.

David R. Byrd (2008) - Professor of Teacher Education. BA, Brigham Young University, 1989; MA, University of Arizona, 1993; PhD, University of Iowa, 2007.

Kathleen E. P. Cadman (2013) - Associate Professor of Nursing. BS, MSN, Western Governors University, 2012, 2013; PhD, University of Nevada, 2018.

Chloe Cai (2008) - Professor of Mathematics. BS, Hebei Normal University, 1997; MS, PhD, West Virginia University, 2004, 2008.

Ryan F. Cain (2018) - Instructor of Teacher Education. BA, University of Buffalo, 2001; MAT, Queens College, 2006; PhD, Utah State University, 2019.

Kimberlee Caldwell (2014) - Assistant Professor of Dental Hygiene. BS, MEd, Weber State University, 2005, 2012.

Christy A. Call (2008) - Director of Honors and Assistant Professor of English. BA, MA, Weber State University, 1999, 2004; PhD, University of Utah, 2015.

Evan Call (2023) - Instructor of Microbiology. BS, MS, Utah State University, 1984, 1991.

Morgan Call (2023) - Instructor of Spanish. MA, Brigham Young University, 2008; BA, Weber State University, 2017.

Tracy L. Callahan (1995) - Professor of Performing Arts. BFA, Florida State University, 1982; MFA, University of Florida, 1987.

Carey L. Campbell (2008) - Associate Professor of Music. BM, Mars Hill College, 1996; MM, University of Texas-El Paso, 2001; MA, PhD, University of Minnesota, 2005, 2008.

Carol J. Campbell (2012) - Instructor of Chemistry. BS, Northern Arizona University; PhD, Utah State University, 1987,

Darcy Carter (2011) - Department Chair, Director of Master of Health Administration Program and Associate Professor of Health Administrative Services. BS, MHA, Weber State University, 2007, 2010; DHSc, A.T. Still University, 2016.

Lisa T. Carver (2022) - Instructor of Nursing. BS, Weber State University, 2003; MSN, University of Utah, 2017.

John F. Cavitt (1999) - Brady Presidential Distinguished Professor and Professor of Zoology and Director of Undergraduate Research. BS, MS, Illinois State University, 1990, 1993; PhD, Kansas State University, 1998.

Valerie Chambers (2017) - Assistant Professor of Accounting & Taxation. BPAcc, Oklahoma Baptist University, 2005; MACC, PhD, Arizona State University, 2010, 2017.

Julian D. Chan (2011) - Professor of Mathematics. BS, University of Washington, 2005; MS, PhD, University of Utah, 2007, 2011.

Rachel Child (2023) - Instructor of Business Administration. MBA, Weber State University, 2015.

Matthew P. Choberka (2005) - Professor of Art. BA, Columbia College, 1993; MFA, Indiana University, 2005.

Rex T. Christensen (2008) - Associate Professor of Radiologic Sciences. BS, MHA, Weber State University, 1993, 2008.

Arpit Christi (2019) - Assistant Professor of Computer Science. BE, Dharmsinh Desai University, 2004; MS, Sacramento State University, 2007; PhD, Oregon State University, 2019.

Matthew Christiansen (2023) - Instructor of Developmental Mathematics. BA, University of Northern Colorado, 2001; MA, University of Northern Colorado, 2005.

Brian M. Chung (2007) - Professor of Zoology. BA, PhD, University of Calgary, 1995, 2001.

Victor S. Clampitt (2017) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 1989, 2013.

Daniel N. Clark (2017) - Assistant Professor of Microbiology. BS, Weber State University, 2007; PhD, Brigham Young University, 2013.

Heather J. Clark (2011) - Associate Professor of Nursing. BSN, MSN, Weber State University, 2009, 2011, DNP, Grand Canyon University, 2021.

Jonathan B. Clark (1998) - Professor of Zoology. BS, Bowling Green State University, 1981; PhD, Ohio State University, 1990.

Juan Carlos Claudio (2022) - Instructor of Dance. BS, Utah State University, 1995; MFA, University of Utah, 2009.

Amie Chere Clawson (2022) - Instructor of Medical Laboratory Sciences. BS, Weber State University, 2007.

Jeffrey A. Clements (2015) - Assistant Professor of Management Information Systems. BS, MS, University of Utah, 2008, 2010; PhD, Florida State University, 2014.

Laurie S. Coburn (2018) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2013, 2016; EdD, A.T. Still University, 2019.

Mihail Cocos (2007) - Associate Professor of Mathematics. BS, University of Bucharest, 1994; MS, University of New Mexico, 1998; PhD, University of British Columbia, 2003.

Alysia Cohen (2018) - Assistant Professor of Athletic Training. BS, Oregon State University, 2002; MA, Boise State University, 2005; MPH, PhD, Oregon State University, 2015.

James I. Cohen (2020) - Assistant Professor, Plant Taxonomy. BS, University of Michigan, 2002; PhD, Cornell University, 2010.

Alex M. Collopy (2019) - Assistant Professor of Child & Family Studies. BS, PhD, The Pennsylvania State University, 2014, 2019.

George E. Comber (2000) - Professor of Manufacturing and Systems Engineering. BS, MS, Brigham Young University.

Nicola A. Corbin (2013) - Associate Professor of Communication. BA, Seton Hall University, 1999; MA, New York University, 2003; PhD, University of Georgia, 2013.

Jonathan M. Cornell (2020) - Assistant Professor of Physics. BS, MS, PhD, University of California, 2006, 2011, 2015.

Darcie M. Costello (2016) - Assistant Professor of Accounting and Taxation. BS, Xavier University, 2001; MT, University of Denver, 2002; PhD, Washington State University, 2014.

Shelly M. Costley (2005) - Associate Professor of Dental Hygiene. BS, MEd, Weber State University, 1989, 2006.

Brian M. Cottle (2015) - Instructor of Health Administrative Services. BS, MHA, Weber State University, 2004, 2008.

Tracy M. Covey (2014) - Associate Professor of Chemistry. BS, University of Dallas, 2001; PhD, University of Utah, 2007.

Ted Cowan (2009) - Instructor of Computer Science. BS, Weber State University, 1989; MBA, University of Phoenix, 1999.

Courtney L. Craggett (2018) - Assistant Professor of English. BS, BA, LeTourneau University, 2008; PhD, University of North Texas, 2016.

Hal Crimmel (2001) - Brady Presidential Distinguished Professor and Department Chair and Professor of English. AB, Colby College, 1988; MA, PhD, State University of New York at Albany, 1993, 1997.

Matthew B. Crook (2017) - Assistant Professor of Microbiology. BS, PhD, Brigham Young University, 2006, 2013.

Paul H. Crow (2011) - Department Chair of Visual Art and Design and Professor of Art. BA, University of Texas, 1988; MFA, University of Southern California, 2005.

Michele D. Culumber (2004) - Department Chair and Professor of Microbiology. BS, Eastern Illinois University, 1995; PhD, University of Wisconsin, 2002.

Rebekah L. Cumpsty (2017) - Assistant Professor of English. BA, MA, University of Cape Town, 2006, 2010; PhD, University of York, 2016.

Sara E. Dant (2001) - Brady Presidential Distinguished Professor and Department Chair and Professor of History. BS, Northern Arizona University, 1989; MA, PhD, Washington State University, 1991, 2000.

Charles F. Davidson (1997) - Professor of Chemistry. BS, Weber State University, 1973; PhD, University of Utah, 1977.

Don R. Davies (2001) - Professor of Chemistry. BS, Southern Utah University, 1993; PhD, University of Nebraska-Lincoln, 1998.

Jefferson T. Davis (1999) - Professor of Accounting & Taxation. BS, Utah State University; MS, Utah State University; PhD, University of Tennessee-Knoxville.

Shirley A. Dawson (2013) - Associate Professor of Teacher Education. BS, MEd, PhD, University of Utah.

Alan J. Dayley (1962) - Assistant Dean of Students, Davis Campus, and Professor of Psychology. BS, Brigham Young University, 1959; MA, PhD, University of Utah, 1961, 1964.

C. Francisco de Galvez (2013) - Professor of Music and Orchestra Director. MA, McGill University, 1993; PhD, Málaga University, 2012.

Vikki J. Deakin (2005) - Professor of History. BA, MA, PhD, University of Missouri-Columbia, 1993, 1996, 2002.

Nicholas E. Dean (2021) - Assistant Professor of Physician Assistant Studies. BS, Weber State University, 2010; MPAS, Oregon Health & Science University, 2016.

Mark W. Denniston (2013) - Associate Professor of Criminal Justice. BA, Simpson College, 1997; JD, University of Iowa, 2000; MA, PhD, University of Colorado, 2007, 2012.

Kathren L. Diamond (2020) - Instructor of Dental Hygiene. BS, Weber State University, 2001; MS, Idaho State University, 2017.

Shannon A. Dixon (2018) - Instructor of Mathematics. BA, Brigham Young University, 1992; BS, MS, Utah State University, 2014, 2017.

Matthew Donahue (2012) - Associate Professor of Athletic Training. BS, University of New Hampshire, 2006; MS, PhD, Indiana University, 2008; 2012

Bryan S. Dorsey (1997) - Professor of Geography and Coordinator of Urban and Regional Planning. BS, Utah State University, 1985; MA, PhD, University of Colorado, 1992, 1996.

Bryan T. Dowdell (2021) - Assistant Professor of Exercise and Sport Science. BS, MS, The University of Akron, 2013, 2015; PhD, Kent State University, 2020.

Andrew T. Drake (2014) - Instructor of Network Management Technology. BA, MBA, Weber State University, 2004, 2009.

London Draper (2000) - Professor of Nursing. BS, Weber State University, 1989; MSN, University of Texas at Austin, 1994; PhD, University of Northern Colorado, 2016.

Linda P. DuHadway (2016) - Associate Professor of Computer Science. BS, MS, Utah State University, 2000, 2002; PhD, University of Utah, 2016.

C, Ryan Dunn (2016) - Assistant Professor of Child and Family Studies. BS, PhD, Utah State University, 2001, 2016.

Christopher W. Dunn (2016) - Instructor of Developmental Math. BS, University of Utah, 1998; MA, Western Governors University, 2007.

Shellee D. Dyer (2020) - Assistant Professor of Engineering. BS, MS, PhD, University of Utah, 1990, 1994, 19956.

Andrea L. Easter-Pilcher (2018) - Dean of the College of Science and Professor of Zoology. BA, Bowdoin College; MS, University of Montana, 1987; PhD, Montana State University, 1993.

Paul G. Eberle (1987) - Professor of Respiratory Therapy. BS, MEd, Weber State University, 1984, 1993; PhD, University of Utah, 2008.

Chris A. Eisenbarth (2008) - Professor of Health and Physical Education. BA, Pacific University, 1994; MS, Boise State University, 1997; PhD, Oregon State University, 2003.

Ryan K. Evans (2021) - Instructor of English. BA, Brigham Young University, 2010; MA, Weber State University, 2012; MPhil, Lancaster University, 2019.

Eric C. Ewert (2001) - Department Chair and Professor of Geography. BS, Northern Arizona University, 1987; MA, University of Oregon, 1990; PhD, University of Idaho, 2003.

Nicole M. Falkenberg (2019) - Instructor of Manufacturing and Systems Engineering. BSE, MSE, University of Michigan, 2002, 2003.

Yuhong Fan (2005) - Professor of Finance. BE, ME, Xi'an University of Architecture and Technology, 1994, 1997; PhD, Old Dominion University, 2004.

Jeremy R. Farner (2008) - Associate Professor of Construction and Building Sciences. BS, Weber State University, 2003; MS, Purdue University, 2011.

David E. Feller (1989) - Professor of Performing Arts. BA, Brigham Young University, 1976; MA, DMA, Indiana University School of Music, 1979, 1983.

J. Mylynn Felt (2022) - Assistant Professor of Communication. BA, MEd, Weber State University, 1999, 2002; MA, University of Calgary, 2015; PhD, University of Calgary, 2022.

Belinda Fender (2023) - Instructor of Nursing. BSN, MSN, Weber State University, 2019, 2023.

Robert J. Ferguson (2018) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2010, 2019.

Luke O. Fernandez (2001) - Instructor of Computer Science. PhD, Cornell University, 1997.

David L. Ferro (2001) - Dean of the College of Engineering, Applied Science & Technology and Associate Professor of Computer Science. BS, University of Lowell, 1984; MS, PhD, Virginia Tech, 1995, 2001.

Sebastian Fischetti (2022) - Instructor of Physics. BS, University of Massachusetts, 2010; PhD, University of California, 2015.

Kyle D. Feuz (2014) - Department Chair and Associate Professor, School of Computing. BS, MS, Utah State University, 2010, 2011; PhD, Washington State University, 2014.

Maria Electra Gamón-Blanch Fielding (2011) - Associate Professor of Spanish. BA, Utah State University, 1996; MA, PhD, University of Utah, 1999, 2011.

Sandra A. Fital-Akelbek (2008) - Department Chair and Professor of Mathematics. MSc, Adam Mickiewicz University, 1995; PhD, University of Regina, 2007.

Jaylynn Fitzgerald (2016) - Instructor of Nursing. BSN, MSN, Western Governors University, 2014, 2015.

Nicole Flink (2018) - Department Chair and Assistant of Professional Sales. BS, Weber State University, 2000; MBA, University of Phoenix, 2005; PhD, Oklahoma State University, 2021.

Mary R. Foss (2016) - Associate Professor of Mechanical Engineering Technology. BSE, Arizona State University, MSE, Stevens Institute of Technology; PhD South Dakota State, 2022.

Amber Fowler (2021) - Instructor of Nursing. BS, MSN, Western Governors University, 2014, 2016.

Jason J. Francis (2012) - Associate Professor of Library Science. BS, Weber State University, 2001; MLS, University of North Texas, 2008.

Stephen S. Francis (2000) - Professor of History and Director of Social Science Education Center. BA, Weber State University, 1991; MA, PhD, Arizona State University, 1994, 1998.

Carie M. Frantz (2016) - Associate Professor of Earth and Environmental Sciences. BS, University of Washington, 2007; PhD, University of Southern California, 2013.

Ryan J. Frazier (2019) - Assistant Professor of Geospatial Science and Technology. BA, MA, Clark University, 2006, 2007; PhD, University of British Columbia, 2016.

Kristin M. Friederichs Champi (2022) - Instructor of English. BS, Wester State University, 2005; MEd, Seattle Pacific University, 2011.

Richard C. Fry (2001) - Professor of Computer Science. BS, Park University, 1998; MA, Troy State University, 2000; PhD, Northcentral University, 2011.

Robert S. Fudge (2005) - Professor of Philosophy. BA, MA, Colorado State University, 1991, 1994; PhD, Syracuse University, 2001.

Conrad M. Gabler (2016) - Associate Professor of Athletic Training. BS, University of Wisconsin-Eau Claire, 2010; MS, Ohio University, 2012; PhD, University of Kentucky, 2016.

Sara L. M. Gailey - (2021) - Assistant Professor of Teacher Education. BS, MEd, Weber State University, 2012, 2018; PhD, Utah State University, 2022.

Mark G. Galaviz (2019) - Instructor of Communication and Director of Speech. BA, MA, Boise State University, 2015, 2017.

Sandra Garcia (2023) - Instructor of Nursing. BS, MS, Weber State University, 2022, 2023.

Avery Tye Gardner (2020) - Assistant Professor Engineering. BS/MS, PhD, University of Utah, 2015, 2020.

Janelle Gardiner (2023) - Instructor of Respiratory Therapy. BS Weber State University, 1998; MS, Northeastern University, 2009; DHSc, A.T. Still University, 2015.

Lindsay B. Garr (2015) - Assistant Professor of Health Administrative Services. BS, MHA, Weber State University, 2001, 2012; DHS, A. T. Still University, 2020.

Azenett A. Garza (2002) - Professor of Psychology. BA, University of Texas at San Antonio, 1995; MA, PhD, University of Texas at El Paso, 2000, 2003.

Joanna R. Gautney (2018) - Assistant Professor Anthropology. BA, California State University, 2007; MA, PhD, Tulane University, 2012, 2016.

Becky Jo Gesteland (2000) - Professor of English. BA, University of Utah, 1984; MA, University of Wisconsin, 1989; PhD, University of Utah, 1996.

Afshin Ghoreishi (1992) - Professor of Mathematics. BS, Oregon State University, 1982; MS, Marshall University, 1984; PhD, Kansas State University, 1990.

Eric K. Gibbons (2019) - Assistant Professor Engineering. BS, University of Utah, 2011; MS, PhD, Stanford University, 2013, 2017.

Hailey G. Gillen (2014) - Associate Professor of Communication. BA, University of Washington, 2009; MA, DePaul University, 2011; PhD, University of West Virginia, 2014.

Francois C. Giraud-Carrier (2018) - MBA Director and Associate Professor of Supply Chain Management. MS, Paris Institute of Technology, 1994; PhD, University of Utah, 2014.

Henry (Pepper) G. Glass III (2011) - Professor of Sociology. BA, Saint Louis University, 1997; MA, University of Kansas, 2000; PhD, University of California, 2008.

Jennifer Gnagey (2023) - Instructor of Quantitative Methods. BS, Iowa State University, 2008; MA, PhD, The Ohio State University, 2012, 2014.

Matthew K. Gnagey (2014) - Associate Professor of Economics. BS, Eastern Mennonite University, 2005; MA, PhD, The Ohio State University, 2011, 2014.

Tamara D. Goldbogen (2013) - Beverley Taylor Sorenson Endowed Chair for Arts Learning and Associate Professor of Performing Arts. BA, College of Charleston, 1991; MFA, The University of Texas at Austin, 2000.

Youn Soo Kim Goldstein (2020) - Assistant Professor of Localization and Translation. BA, Arizona State University, 2011; MA, Yonsei University, 2014; PhD, State University of New York, 2019.

Maria del Mar Gonzalez (2020) - Assistant Professor of Art History. BA, University of Puerto Rico, 2001; MA, Indiana University, 2005; PhD, University of Illinois, 2013.

Amanda Musselman Gonzalez (2022) - Instructor of Dental Hygiene. BS, MEd, Weber State University, 2017, 2021.

Mosiah Gonzalez (2023) - Assistant Professor of Child and Family Studies. BS, Weber State University, 2018; MA, University of Southern Mississippi, 2020.

Valerie Gooder (2005) - Professor Nursing. BSN, University of Wyoming, 1981; MS, PhD, University of Utah, 1996, 2001.

Andrea L. Gouldman (2013) - Associate Professor of Accounting & Taxation. BS, University of Virginia, 2000; MAcc, PhD, Virginia Commonwealth University, 2009, 2013

Jessica M. Greenberg (2013) - Department Chair and Associate Professor of Performing Arts. BA, Hampshire College, 2005; MFA, University of Massachusetts, 2012.

Richard V. Greene (2001) - Professor of Philosophy. BS, California State University, Stanislaus, 1989; MA, San Francisco State University, 1992; MA, CPhil, PhD, University of California, Santa Barbara, 1995, 1995, 1998.

Lindsey Aponik Gremillion (2022) - Instructor of Health Sciences. BS, Brigham Young University, 2017; PhD, Baylor College of Medicine, 2022.

Sian B. Griffiths (2011) - Professor of English. BA, University of Idaho, 1995; MA, PhD, University of Georgia, 2002, 2006.

Therese A. Grijalva (2000) - Brady Presidential Distinguished Professor and Professor of Economics. BS, Florida State University, 1991; MBA, Cleveland State University, 1993; PhD, University of New Mexico, 2000.

Dustin M. Grote (2021) - Assistant Professor of Teacher Education. BA, University of Portland, 2009; MA, University of Northern Colorado, 2015; PhD, Virginia Tech, 2020.

Mariangelica Groves (2018) - Assistant Professor of Geography. BS, The Pennsylvania State University, 1997; MA, California State University, 2009; PhD, University of Utah, 2019.

Kasey L. Grubb (2019) - Instructor of Nursing. BS, MSN, Weber State University, 2014, 2018.

Carl L. Grunander (1977) - Professor of Professional Sales. BA, Brigham Young University, 1971; MS, Utah State University, 1978.

Sarah Grunnah (2023) - Assistant Professor of Theatre. BA, University of North Carolina Charlotte, 2008; MFA, University of Massachusetts Amherst, 2012; PhD, University of Oxford, UK, 2020;

Kristin M. Hadley (2005) - Dean of the Moyes College of Education and Professor of Teacher Education. BS, MS, PhD, Utah State University, 1982, 1984, 2005.

Scott M. Hadzik (2011) - Professor of Automotive Technology. BS, Weber State University, 2010; MS, Utah State University, 2011.

Robin L. Haislett (2014) - Assistant Professor of Communication. BS, Black Hill State University, 2007; MA, Eastern New Mexico University, 2010; PhD, Texas Tech University, 2019.

Natalie M. Hales (2022) - Instructor of Communication. BS, MPC, Weber State University, 2018, 2021.

Thomas A. Hales (2021) - Assistant Professor of Construction and Building Sciences. BS, Utah State University, 1993; BS, Weber State University, 2005; MS, PhD, University of Utah, 1998; 2015.

Clayton Halford (2023) - Assistant Professor of Physician Assistant Program. BS, Utah State University, 2012; MS, Touro University, 2015.

Jan L. Hamer (2009) - Instructor of English. BA, University of Missouri at Columbia, 1972; JD, University of Kansas, 1975.

Megan M. Hamilton (2022) - Assistant Professor of Teacher Education. BS, Weber State University, 2011; MEd, PhD, Utah State University, 2015, 2022.

Saori Hanaki (2017) - Assistant Professor of Exercise Science. BS, University of Montana, 2000; MS, Illinois State University, 2005; PhD, University of Kentucky, 2012.

Amber P. Hansen (2018) - Instructor of Mathematics. BS, MEd, Weber State University, 2011, 2016.

James C. Hansen (2013) - Department Chair and Associate Professor, School of Accounting & Taxation. BS, MS, Brigham Young University, 1999; PhD, University of Georgia, 2004.

Shaun D. Hansen (2012) - Associate Professor of Business Administration and Marketing. BA, Weber State University, 2000; MBA, Willamette University, 2005; PhD, Purdue University, 2010.

Suzanne M. Harley (1989) - Professor of Botany. BS, University of California, Riverside, 1979; PhD, University of California, Santa Cruz, 1983.

Catherine M. Harmston (2017) - Instructor of Nursing. BS, Weber State University, 2004; MSN, University of Utah, 2006; DNP, Weber State University, 2021.

Janelle L. Harvey (2020) - Instructor of Nursing. BS, MSN, Weber State University, 2012, 2017.

Kelly A. Harward (1987) - Professor of Manufacturing and Systems Engineering. BS, MS, Brigham Young University, 1976, 1991.

David W. Hartwig (2017) - Assistant Professor of English and Director of the Master of Arts in English Program. BA, University of Notre Dame, 2001; MA, University of Birmingham, 2005; PhD, University of Warwick, 2010.

Christian W. Hearn (2012) - Associate Professor of Electrical Engineering. BSME, Virginia Tech, 1989; BSEET, Old Dominion University, 1997; MSEE, PhD, Virginia Tech, 2001, 2012.

AJ Hepler (2017) - Instructor of Networking/Cybersecurity. BS, Weber State University, 2012; MS, Western Governor's University, 2021.

Mark A. Henderson (1985) - Professor of Performing Arts. BM, MM, University of Utah, 1979, 1981; DMA, University of Illinois at Urbana-Champaign, 1988.

Teresa M. Henke (2013) - Associate Professor of Child & Family Studies. BS, University of Tennessee, 1983; MEd, State University of West Georgia, 1987; PhD, University of Tennessee, 2012.

Steven R. Hendricks (2022) - Instructor of Music. BM, Utah State University, 1987; MME, Brigham Young University, 1990.

Sarah D. Herrmann (2017) - Assistant Professor of Psychology. BA, The University of Arizona, 2010; MA, PhD, Arizona State University, 2014, 2017.

Ernesto Hernandez, Jr. (2017) - Assistant Professor of Library Science and Reference Librarian. BS, Weber State University, 2009; MLS, San Jose State University, 2012.

Michael W. Hernandez (2003) - Brady Presidential Distinguished Professor and Professor of Earth and Environmental Sciences. BS, MS, Louisiana Tech University, 1984, 1990; PhD, University of Utah, 2004.

Timothy A. Herzog (2008) - Professor of Chemistry. BS, Gonzaga University, 1990; PhD, California Institute of Technology, 1996.

Valerie W. Herzog (2005) - Brady Presidential Distinguished Professor and Department Chair and Professor of Athletic Training. BS, Alderson-Broaddus College, 1993; MEd, University of Virginia, 1996; EdD, Marshall University, 2004.

Susan K. Heugly (2017) - Assistant Professor of Nursing. BSN, Western Governors University, 2013; FNP, University of Cincinnati, 2015.

Bridget E. Hilbig (2016) - Department Chair and Associate Professor of Botany. BS, Lafayette College, 2010; PhD, University of California, 2015.

Eddie Hill (2023) - Associate Professor of Outdoor and Community Recreation. BS, MEd, Old Dominion University, 1995, 1998; PhD, University of Utah, 2004.

Huiying Hill (1995) - Department Chair and Professor of Sociology. BA, Sichuan International Studies University, 1981; MA, MA, PhD, State University of New York-Stony Brook, 1986, 1988, 1994.

Samantha Hill (2023) - Instructor of Nutrition. BS, Southern Utah University, 2014; MSN, University of Pittsburgh, 2017.

An Ho (2023) - Assistant Professor of Mechanical Engineering. BS, Brigham Young University, 2019; MS, PhD, University of Utah, 2022, 2023.

Christopher Hoagstrom (2006) - Brady Presidential Distinguished Professor and Professor of Zoology. BS, Ohio Northern University, 1992; MS, Sul Ross State University, 1994; PhD, South Dakota State University, 2006.

Scott Holland (2015) - Instructor of Automotive Technology. AAS, Weber State University, 2005.

Wendy Holliday (2017) - Dean of the Stewart Library and Professor of Library Sciences. BA, University of Virginia, 1988; PhD, New York University, 1995; MLS, University of Illinois, 2002.

Rieneke Holman (2010) - Department Chair and Associate Professor of Nursing. BS, MSN, University of Utah, 1997, 2010; PhD, University of Nevada, 2018.

Tiffany L. Hood (2020) - Assistant Professor of Nursing. BS, MSN, Weber State University, 2003, 2016; PhD, University of Northern Colorado, 2020.

Lisa K. Hopkins (2013) - Instructor of Accounting. BA, University of California; MAcc, Weber State University, 2007.

Brent A. Horn (2005) - Associate Dean of the College of Social & Behavioral Sciences and Professor of Criminal Justice. BS, Brigham Young University, 1995; MS, California Institute of Technology, 1997; PhD, Brigham Young University, 2001.

Joseph J. Horvat, Jr. (1982) - Professor of Psychology. BA, Fort Lewis College, 1975; MA, PhD, University of Nebraska-Lincoln, 1976, 1979.

Leslie D. Howerton (2016) - Assistant Professor of Communication. BA, University of Alabama, 2010; MS, Colorado State University, 2013; PhD, University of Oregon, 2021.

Teh-yi Dori Huang (2022) - Chinese DLI Bridge Instructor. BA, National Chengchi University, 1992; MA, Columbia University, 1998; WLMA, University of Utah, 2011.

Daniel S. Hubler (2012) - Associate Professor of Child & Family Studies. BS, Weber State University, 2006; MS, PhD, Oklahoma State University, 2009, 2012.

Kyra Hudson (2004) - Instructor of English. BA, Tusculum College, 1981; MA, University of Tennessee, 1984.

Samual R. Hunter (2018) - Instructor of Manufacturing and Systems Engineering. BS, Weber State University, 2005.

Randy C. Hurd (2020) - Assistant Professor of Mechanical Engineering. BS, MS, Brigham Young University, 2012, 2015; PhD, Utah State University, 2017.

Mark Huson (2018) - Assistant Professor Computer Science. BS, University of Tulsa, 1985; MS, University of Southern California, 1988; MS, Air Force Institute of Technology, 1989; PhD, Arizona State University, 1995.

Jim Hutchins (2005) - Professor of Health Sciences. BA, University of Colorado, 1980; MA, University of Colorado, 1982; PhD, Baylor College of Medicine, 1985.

Dianna M. Huxhold (2016) - Associate Professor of Arts Education & Visual Arts. BFA, MS, PhD, Indiana University, 1993, 2002, 2016.

Alica R. Ingersoll (2020) - Assistant Professor Supply Chain Management. BS, University of Utah, 2004; MBA, Westminster College, 2011; PhD, Utah State University, 2019.

Colin E. Inglefield (1998) - Department Chair and Professor of Physics. BS, Rensselaer Polytechnic Institute, 1992; PhD, University of Utah, 1998.

Justin B. Jackson (2007) - Brady Presidential Distinguished Professor and Professor of Electrical and Computer Engineering. BA, MBA, Weber State University, 2000, 2003; MEEE, PhD, University of Utah, 2004, 2008.

Carrie W. Jeffrey (2017) - Instructor of Nursing. BSN, Minnesota State University, 2013; MSN, Weber State University, 2017.

Trishelle M. Jeffery (2022) - Instructor of Visual Arts. BFA, University of Utah, 2013; MFA, Wichita State University, 2018.

Michelle J. Jeffs (2021) - Assistant Professor of Criminal Justice. BS, Weber State University, 2009; JD, Brigham Young University, 2014.

Brooke E. Jenkins (2018) - Instructor of Chemistry. BA, Brigham Young University; MS, Arizona State University.

Christine L. Jennings (2013) - Instructor of Mathematics. BS, Weber State University, 1995; MA, Washington University, 2002.

Joshua N. Jensen (2011) - Instructor of Computer Science. BS, Weber State University, 2011, MS, Regis University, 2018.

Qi Jin (2023) - Assistant Professor of Nutrition. BS, Beijing University of Chemical Technology, 2012; MS, Ohio University, 2018
MS, University of New Mexico, 2018.

Clint R. Johnson (2020) - Instructor of English. BA, Excelsior College, 2014; MFA, National University, 2017.

Gary Alan Johnson (2006) - Professor of Political Science. BA, Northern Arizona University, 1993; MA, PhD, University of Kansas, 1998, 2001.

Kenneth L. Johnson (1998) - Associate Dean, Dr. Ezekiel R. Dumke College of Health Professions and Professor of Health Administrative Services. BA, Brigham Young University, 1982; MBA, University of Utah, 1988; PhD, University of Utah, 1998.

Kimball Johnson (2012) - Instructor Professor of Nursing. MSN, Brigham Young University, 1991.

Michael E. Johnson (2019) - Instructor of Nursing. BS, MSN, Weber State University, 1996, 2018.

Todd M. Johnson (1994) - Professor of Chemistry. BS, Weber State University, 1986; PhD, Utah State University, 1994.

Adam T. Johnston (1997) - Brady Presidential Distinguished Professor and Professor of Physics, Coordinator for Teaching and Learning Forum. BS, Lewis and Clark College, 1994; MS, PhD, University of Utah, 1996, 2001.

Daniel M. Jonas (2015) - Assistant Professor of Music. BM, University of New Mexico; MM, DePaul University, 2005; DM, University of Colorado, 2013.

Aubrey Jones Kubiak (2016) - Associate Professor of French. BA, Saint Bonaventure University, 2006; MA, PhD, University at Buffalo, 2008, 2014.

Charity A. Jones (2013) - Instructor of Mathematics. BS, MEd, Weber State University, 1998, 2013.

Cynthia A. Jones (2018) - Assistant Professor of French. BFA, BA, MA, PhD, State University of New York, 2002, 2006, 2010, 2018.

Laura K. Jones (2020) - Instructor of Nursing. BS, MSN, Weber State University, 1995, 2019.

Jo Ellen Jonsson (2008) - Associate Professor of Professional Sales. AAS, BS, Weber State University, 1993, 1994; MEd, Utah State University, 2004.

Sheree Josephson (1993) - Brady Presidential Distinguished Professor and Professor of Communication. BS, MS, Utah State University, 1980, 1985; PhD, University of Utah, 1992.

Damon Joyner (2018) - Assistant Professor of Nutrition. BS, University of Utah, 2014; PhD, Utah State University, 2018.

Abdulnaser Kaadan (2018) - International Visiting Professor. MD, MS, PhD, Aleppo University, 1981, 1989, 1993.

Justin Kani (2021) - Business and Economics Librarian and Assistant Professor of Library Science. BA, Pennsylvania State University, 2008; MLS, Clarion University of Pennsylvania.

Jean K. Kapenda (2015) - Instructor of Criminal Justice. BS, Pontificia Universidad Católica del Ecuador, 1998; MPA, Brigham Young University, 2009; MSCJ, Weber State University, 2012.

Louisanne G. Kattelman (1998) - Instructor of Accounting. BA, MPAcc, Weber State University, 1990, 1991.

Theresa S. Kay (2001) - Associate Professor of Psychology. BA, MA, PhD, Biola University, 1991, 1993, 1999.

Andrew C. Keinsley (2015) - Assistant Professor of Economics. BA, Franklin College, 2010; MA, PhD, University of Kansas, 2013, 2015.

Brooke Kelly (2006) - Instructor of English and Director of Developmental English. BS, Weber State University, 1999; MS, Utah State University, 2003.

John D. Kelly (1991) - Professor of Automotive Technology. AS, BS, MEd, Weber State University, 1991, 1993, 1998.

Jonny Kelly (2001) - Associate Professor of Nursing. AD, Weber State University, 1994; BA, Utah State University, 1992; MNA, Mayo Clinic, 1999.

Anne E. Kendrick (2019) - Assistant Professor of Nursing. BS, Weber State University, 2003; MSN, Western Governors University, 2013.

Kerry S. Kennedy-Pressey (2005) - Department Chair and Professor of Social Work. BA, Mount Union College, 1997; MSW, PhD, Ohio State University, 1999, 2005.

Randall W. Kent (2015) - Instructor of Mechanical Engineering. BS, MS, University of Minnesota, 1982, 1985.

Kent O. Kidman (1990) - Professor of Mathematics. BA, Weber State College, 1978; MA, PhD, University of California, Santa Barbara, 1980, 1983.

Stephanie Kimmey (2023) - Assistant Professor of Art History. BA, University of California Berkeley, 2007; MA, Florida State University, 2010; PhD, University of Missouri, 2017.

Mandy Kirkham King (2018) - Assistant Professor of Physical Education. BS, Brigham Young University, 2005; MA, Concordia University, 2013; PhD, University of Utah, 2018.

Skyler M. King (2016) - Associate Professor of Marketing. BS, MBA, Weber State University, 2007, 2011; PhD, Washington State University, 2016.

Miranda Orvis Kispert (2017) - Science Librarian and Assistant Professor of Library Science. BA, Bryn Mawr College, 2003; MLIS, University of Tennessee, 2013.

Joscha Klueppel (2023) - Instructor of German. BA, Eberhard Karls Universitat, 2017; PhD, University of Oregon, 2023.

Justin Knighton (2016) - Instructor of Manufacturing and Systems Engineering. BS, Weber State University, 2015; CMfgT

Sachini Kodithuwakku Arachchige (2022) - Assistant Professor of Exercise and Sport Science. MD, University of Peradeniya, 2012; MS, PhD, Mississippi State University, 2019, 2022.

Brandon C. Koford (2010) - Professor of Economics. BA, Weber State University, 2004; MS, PhD, University of Kentucky, 2005, 2008.

Wade R. Kotter (1994) - Professor of Library Science and Social Sciences Librarian. BS, Brigham Young University, 1978; MA, Andrews University, 1980; PhD, University of Arizona, 1986; MLS, University of Maryland, 1993.

Brenda Marsteller Kowalewski (1995) - Associate Provost: High Impact Programs and Faculty Development; Brady Presidential Distinguished Professor and Professor of Sociology. BA, Hofstra University, 1990; MA, PhD, University of Maryland, 1992, 1995.

Caid J. Kroeger (2022) - Instructor of Automotive Technology. BS, Weber State University, 2019.

Ravi Krovi (2020) - Provost and Professor of MIS. BE, University of Baroda, 1986; MS, PhD, The University of Memphis, 1988, 1993.

Benjamin Kruger-Robbins (2023) - Assistant Professor of Film Studies. BS, MA, University of Texas at Austin, 2011, 2014; PhD, University of California Irvine, 2019.

Thomas C. Kuehls (1993) - Professor of Political Science. BA, College of Wooster, 1986; MA, PhD, Johns Hopkins University, 1989, 1992.

Robert Kumar (2022) - Instructor, School of Computing. BS, Brigham Young University, 2001; MS, Cal State University, 2007.

George Kvernadze (1998) - Professor of Mathematics. BS, Tbilisi State University, 1984; MS, Georgian Polytech Institute, 1987; PhD, University of Mexico, 1993.

Álvaro La Parra-Pérez (2014) - Associate Professor of Economics. BA, MA, University of Valencia, 2007, 2008; PhD, University of Maryland, 2014.

Leah LaGrone (2021) - Assistant Professor of History. BA, Texas A&M, 2005; MEd, Lamar International University, 2012; MS, Texas A&M University, 2016; PhD, Texas Christian University, 2016.

Andrea M. Lalumia (2018) - Assistant Professor of Emergency Healthcare. BS, MEd, Weber State University, 2018, 2020.

Alexander L. Lancaster (2015) - Assistant Professor of Communication. BA, MA, California State University, 2010, 2012; PhD, West Virginia University, 2015.

Sarah C. Langsdon (2018) - Associate Professor of Library Science. BA, Weber State University, 1997; MA, Utah State University, 2000; MLS, San Jose State University, 2014.

Bailey Larsen (2023) - Instructor of Nursing. BSN, MSN, Weber State, 2020, 2021.

Alex C. Lawrence (2016) - Associate Professor of Professional Sales. BS, University of Utah, 1999; MBA, Weber State University, 2005; PhD, Oklahoma State University, 2016.

Taowen Le (1998) - Professor of Management Information Systems. BS, Wuhan University, 1983; MLS, Brigham Young University, 1985; PhD, Brigham Young University, 1991.

Stacie Leavitt (2021) - Instructor of Mathematics. BS, Weber State University, 2018.

Alees Lee (2020) - Assistant Professor of Mathematics Education. BS, Metropolitan State University of Denver, 2012; MA, PhD, University of Northern Colorado, 2015, 2020.

Heeukk "Dennis" Lee (2015) - Assistant Professor of Criminal Justice. BA, University of North Florida, 2005; MA, PhD, Washington State University, 2008, 2014.

Justin S. Lee (2021) - Assistant Professor of Social Work. BS, Brigham Young University, 2005; MSW, Eastern Washington University, 2007; PhD, Virginia Commonwealth University, 2012.

Mark S. LeTourneau (1987) - Professor of English. BA, University of Vermont, 1977; MA, PhD, Purdue University, 1979, 1986.

Andrew B. Lewis (2018) - Assistant Professor of Theatre: Musical Theatre. BA, Weber State University, 2008; MFA, University of Central Florida, 2010.

Cameron N. Lewis (2019) - Instructor of Construction and Building Sciences. BS, University of Utah, 2005; MArch, Southern California Institute of Architecture, 2007.

Gregory S. Lewis (1999) - Professor of History and Coordinator of Asian Studies Program. BS, MA, Arizona State University, 1977, 1986; PhD, Arizona State University, 1999.

Jose G. Limas, Jr. (2020) - Instructor Networking/Cybersecurity, School of Computing. BS, MS, Utah State University, 2012, 2015.

J. Andreas Lippert (1999) - Professor of Chemistry. BS, Weber State University, 1993; PhD, Brigham Young University, 1999.

Branden Little (2009) - Professor of History. BA, University of California at Davis, 1998; MA, US Naval Postgraduate School, 2002; PhD, University of California at Berkeley, 2009.

Barry A. Lloyd (1985) - Professor of Chemistry. BA, MS, PhD, University of Utah, 1975, 1977, 1985.

M. Cully Long (2019) - Assistant Professor of Theatre Arts Scenic Design. BFA, School of Visual Arts, 1998; MFA, University of Connecticut, 2004.

Abigail J. Mack (2022) - Assistant Professor of Anthropology. BA, MA, Indiana University, 2009, 2013; PhD, University of California, 2021.

Marrie K. Mack (2019) - Instructor of Computer Science. BS, Weber State University, 2011; MEd, Western Governor's University, 2017.

Madeline E. Mackie (2021) - Assistant Professor of Anthropology. BS, University of California, 2011; MA, PhD, University of Wyoming, 2014, 2019.

Daniel J. Magda (1998) - Department Chair and Professor of Mechanical Engineering. BS, University of New Hampshire, 1984; MS, PhD, University of Utah, 1990, 1995.

Jason Manley (2012) - Associate Professor of Visual Arts. BFA, University of Kansas, 1998; MFA, University of Arizona, 2004.

Becky J. Marchant (2007) - Instructor of English. BA, Weber State University, 1996; MA, St Cloud State University, 2005.

Jonathon C. Marshall (2008) - Professor of Zoology. BA, University of Utah, 1995; PhD, Brigham Young University, 2004.

Richard S. Martin (2021) - Instructor of Health Administrative Services. BS, Weber State University, 2012; MHA, Saint Joseph's University, 2015.

Andrea Martinez (2020) - Assistant Professor of Teacher Education. BA, University of California, 2007; MEd, PhD, University of Utah, 2009, 2018.

Susan J. Matt (1999) - Director Interdisciplinary Programs and Brady Presidential Distinguished Professor and Professor of History. BA, University of Chicago, 1989; MA, PhD, Cornell University, 1992, 1996.

Boyd Mattson (2023) - Instructor of Computing Science. BA, Weber State University, 1999.

Marek Matyjasik (1997) - Department Chair and Professor of Earth and Environmental Sciences. MS, Warsaw University, 1988; PhD, Kent State, 1997.

John Mukum Mbaku (1991) - Brady Presidential Distinguished Professor and Professor of Economics. BS, Berry College, 1977; MIBS, University of South Carolina, 1979; PhD, University of Georgia, 1985; Graduate Certificate in Environmental and Natural Resources Law, SJ Quinney College of Law, University of Utah, 2010; JD, SJ Quinney College of Law, University of Utah, 2010.

James Mcallister (2022) - Assistant Professor of Communication. BS, Utah Valley University, 2013; MFA, University of Utah, 2023.

Frances L. McConaughy (1984) - Professor and Department Chair of Dental Hygiene. BS, Weber State College, 1982; MS, University of Utah, 1987.

Megan McDonald Van Deventer (2018) - Assistant Professor of English Teaching. BS, University of Portland, 2008; MEd, University of Utah, 2013; PhD, University of Minnesota, 2018.

Shannon E. McGillivray (2013) - Associate Professor of Psychology. BA, MA, PhD, University of California, 2003, 2009, 2013.

Susan McKay (1989) - Associate Professor of English. BA, Weber State College, 1970; MA, PhD, University of Utah, 1974, 1975, 1989.

Deborah K. McKee (2010) - Instructor of Mathematics. BS, MEd, Weber State University, 1997, 2002.

Ryan McKeehan (2022) - Instructor of Professional Sales. BA, MOB, Brigham Young University, 1997, 1999.

Diana M. Meiser (2019) - Engineering, Applied Science, and Technology Librarian and Assistant Professor of Library Science. BA, Weber State University, 2004; MLS, University of North Texas, 2011.

Heather L. Merkley (2002) - Associate Professor of Health Administrative Services. BS, Weber State University, 1995; MEd, Weber State University, 2005; DHSc, A.T. Still University, 2018.

Constance L. Merrill (2017) - Assistant Professor of Nursing. BSN, Weber State University, 2012; MSN, Western Governors University, 2015.

Ron A. Meyers (1993) - Department Chair and Professor of Zoology. BA, University of Rochester, 1984; MS, Louisiana State University, 1987; PhD, Brown University, 1992.

Heidee Miller (2021) - Instructor and Director of Graduate Social Work Field Education. BS, Weber State University, 2014; MSW, University of Utah, 2016.

F. Ann Millner (1985) - Regents Professor and Former President and Professor of Health Administrative Services. BS, University of Tennessee, 1974; MS, S.W. Texas State University, 1981; EdD, Brigham Young University, 1986.

Francesca Mintowt-Czyz (2023) - Instructor of Theatre. BFA, University of Wyoming, 2012; MA, Royal Academy of Dramatic Art, 2016; MFA, Savannah College of Art and Design, 2023.

Alyssa L. Mock (2021) - Assistant Professor of Electrical and Computer Engineering. BS, PhD, University of Nebraska, 2011, 2017.

Kerri Mocko (2022) - Assistant Professor of Botany. BS, MS, PhD, University of Connecticut, 2007, 2014, 2017.

Kristina Moleni (2012) - Assistant Professor of Social Work. BS, Brigham Young University, 2004; MSW, University of Utah, 2009, PhD, University of Utah, 2021.

Karen Marguerite Moloney (1992) - Professor of English. BA, MLS, MA, Brigham Young University, 1973, 1975, 1979; PhD, University of California, Los Angeles, 1989.

Michael S. Moore (2017) - Assistant Professor of Medical Laboratory Sciences. BA, Weber State University, 2009; DO, Midwestern University, 2014.

Terrilyn B. Morgan (2001) - Instructor of Finance. BS, BS, MPA, Certificate in IST, Weber State University, 1992, 1998, 1999.

Kim M. Murphy (2018) - Instructor of Computer Science. BA, Weber State University, 1999; MS, Utah State University, 2010.

Cass A. Morgan (2013) - Associate Dean, Moyes College of Education, and Associate Professor of Recreation. BS, Montreat College, 2004; MS, East Carolina University, 2007; PhD, University of Utah, 2012.

Michele K. Morrill (2021) - Instructor of Nursing. BS, Weber State University, 2015; Western Governors University, 2018.

Robert C. Morris (2017) - Associate Professor of Sociology. BS, Weber State University, 2004; MS, PhD, Purdue University, 2008, 2014.

Shauna R. Morris (2001) - Instructor of Interior Design. BS, Weber State University, 1995.

Kenneth Mortensen (2023) - Instructor of Manufacturing Systems Technology. BS, Weber State University, 2012; MBA, Utah State University, 2018.

Cory W. Moss (2013) - Associate Professor of Health Administrative Services. BA, Brigham Young University, 1994; MBA, University of Phoenix, 2002; DHA, Central Michigan University, 2013.

Louise R. Moulding (2004) - Professor of Teacher Education. BS, MEd, Weber State University, 1989, 1995; PhD, Utah State University, 2001.

Matthew L. Mouritsen (2001) - Dean of the Goddard School of Business & Economics and Professor of Accounting & Taxation. BA, Weber State University, 1988; MBA, PhD, Utah State University, 1991, 1997.

DeAnna (DeeDee) Mower (2014) - Department Chair and Associate Professor of Teacher Education. BS, Weber State University; MA, PhD, University of Utah, 2002, 2013.

Atmadeep Mukherjee (2022) - Assistant Professor of Marketing. BPE, Jadavpur University, 2015; MBA, PhD, University of Arkansas, 2017, 2022.

Alice E. Mulder (2005) - Associate Professor of Geography. BA, Vassar College, 1990; MA, PhD, University of Colorado, Boulder, 1997, 2003.

John F. Mull (1997) - Brady Presidential Distinguished Professor and Professor of Zoology. BS, University of Pittsburgh, 1986; PhD, Utah State University, 1994.

Emily Murray (2023) - Instructor of Nursing. BSN, MSN, Weber State University, 2022, 2023.

Leah A. Murray (2002) - Brady Presidential Distinguished Professor and Professor of Political Science. BA, Syracuse University, 1996; MA, PhD, University at Albany, 2000, 2004.

Nils Murrugarra-Llerena (2022) - Assistant Professor of Computer Science. BS, National University of Trujillo, 2009; MS, University of São Paulo, 2011; DCS, University of Pittsburgh, 2019.

Amila Muthunayake (2022) - Assistant Professor of Mathematics. BSc, University of Peradeniya, 2015; MA, PhD, University of North Carolina, 2020, 2021.

Cora L. Neal (2015) - Associate Professor of Mathematics. BS, MS, Brigham Young University, 1992; PhD, Utah State University, 2001.

Kyra Neeley (2020) - Instructor of Nursing. BS, MSN, Weber State University, 2016, 2018.

Paul Neiman (2020) - Assistant Professor of Philosophy. BA, University of Wisconsin, 2001; MA, PhD, Marquette University, 2006, 2007.

Benjamin V. Neve (2021) - Assistant Professor of Supply Chain Management. BS, Southern Utah University, 2006; MS, PhD, University of Alabama, 2008, 2011.

Casey W. Neville (2011) - Associate Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2011, 2012.

Melissa Ann Neville-Norton (2010) - Nursing Graduate Programs Director and Associate Professor of Nursing. BS, MSN, DNP, University of Utah, 1998, 2001, 2009.

Sylvia Newman (1993) - Instructor of English. BA, Brigham Young University, 1987; MA, Utah State University, 2003.

Thi H. Nguyen (2021) - Assistant Professor of Visual Art and Design. BA, Texas A&M, 2015; MFA, Texas State University, 2020.

Matthew J. Nicholaou (2012) - Department Chair and Associate Professor of Medical Laboratory Sciences. BS, University of Delaware, 2002; DPH, University of Pittsburgh, 2011.

Blake E. Nielson (2015) - Department Chair and Associate Professor of Professional Sales. BS, Dixie State University, 2007; MBA, Southern Utah University, 2010; PhD, Jackson State University, 2013.

Jessie Nixon (2023) - Assistant Professor of Teacher Education. BA, Southern Illinois University Carbondale, 2002; MA, University of Alaska Anchorage, 2009; PhD, University of Wisconsin-Madison, 2020

David Noack (2014) - Assistant Professor of Business Administration. BS, Utah State University, 2007; MBA, University of Louisville, 2010; PhD, Washington State University, 2014

Tanya D. Nolan (2008) - Department Chair and Professor of Radiologic Sciences. AAS, BS, MEd, Weber State University, 2002, 2003, 2008; EdD, Northcentral University, 2016.

Jean R. Norman (2014) - Associate Professor of Communication. BS, Northwestern University, MA, PhD, University of Nevada, 2010, 2014.

Bharath Babu Nunna (2021) - Assistant Professor of Mechanical Engineering. B.Tech., Acharya Nagarjuna University, 2004; MS, University of Bridgeport, 2007; PhD, New Jersey Institute of Technology, 2018.

O'Hare, Aminda J. (2019) - Associate Professor of Neuropsychology/Neuroscience. BA, University of Wyoming, 2005; MA, PhD, University of Kansas, 2007, 2010.

Michell D. Oki (1993) - Department Chair and Associate Professor of Respiratory Therapy , Registered Respiratory Therapist (RRT). BS, MPAcc, Weber State University, 1987, 1988.

A. Marjukka Ollilainen (1999) - Department Chair of Sociology & Anthropology and Professor of Sociology. MSS, University of Tampere, Finland, 1991; MA, PhD, Virginia Tech, 1992, 1999.

Michael N. Olpin (2000) - Professor of Health and Physical Education. BS, MS, Brigham Young University, 1988, 1993; PhD, Southern Illinois University, 1996.

Matthew J. Ondrus (2007) - Professor of Mathematics. BA, Ripon College, 1999; PhD, University of Wisconsin, 2004.

Christine O'Neil (2017) - Assistant Professor of Emergency Healthcare. BS, Weber State University, 2010; MEd, Western Governors University, 2019.

Deon Openshaw (2017) - Instructor of Nursing. BS, MSN, Weber State University, 2007, 2011.

Keith V. Osai (2018) - Assistant Professor of Child & Family Studies. BS, Brigham Young University, 2008; MS, PhD, Utah State University, 2012, 2018.

Carrie Lou Ota (2011) - Professor of Child and Family Studies. BS, Montana State University, 1997; MS, Louisiana State University, 2005; PhD, Utah State University, 2010.

Ryan H. Pace (2004) - Professor of Accounting & Taxation and Director of Master's of Accounting and Master's of Taxation. BS, University of Utah, 1992; MTAX, Arizona State University, 1995; JD, Washburn University, 1998; LLM, New York University, 1999.

Colleen Packer Berg (1986) - Professor of Communication. BS, Weber State University, 1980; MEd, University of Central Oklahoma, 1983; PhD, University of Utah, 2005.

Angela C. Page (2017) - Instructor of Nursing. BS, MSN, Brigham Young University, 1985, 1990; DNP, Weber State University, 2021.

Demetrios J. Pagonis (2021) - Assistant Professor of Chemistry. BS, Davidson College, 2013; PhD, University of Colorado, 2018.

Miland N. Palmer (2014) - Instructor of Health Administrative Services. BS, Weber State University, 2004; MPH, University of Utah, 2008; PhD, Walden University, 2020.

Katarina Pantic (2020) - Assistant Professor of Teacher Education. BA, University of Belgrade, 2003; MS, North Carolina State University, 2012; PhD, Utah State University, 2020.

Kimberly J. Parkinson (2018) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2014, 2019.

Gennie Parkman (2023) - Assistant Professor of Human Anatomy and Physiology. BS, MA, University of Utah, 2016, 2022; PhD, University of Utah, 2022.

Daniel Paul (2023) - Instructor of English. BA, Columbia College, 2008; MFA, Southern Illinois University, 2013; PhD, University of Cincinnati, 2019.

Roger Paulman (2023) - Medical Director, Respiratory Therapy. BS, Nebraska Wesleyan University, 2001; MD University of Nebraska College of Medicine, 2005.

Matthew B. Paulson (2017) - Assistant Professor of Networking/Cybersecurity. BS, Weber State University, 1999; MS, Western Governors University, 2016; PhD, Colorado Technical University, 2021.

Michelle B. Paustenbaugh (2000) - Professor of Chemistry. BS, University of Texas at Austin, 1991; PhD, University of Utah, 1996.

Kacy M. Peckenpaugh (2013) - Associate Professor of Foreign Languages. BA, Bucknell University, 2004; MA, PhD, University of Arizona, 2008, 2013

Ambree L. Penrold (2021) - Assistant Professor of Radiologic Sciences. BS, Weber State University, 2007; MEd, Western Governors University, 2020.

Janette K. Penrod (2013) - Instructor of Mathematics. BS, MEd, Weber State University, 2005, 2013.

Tyandra Perez (2020) - Instructor of Nursing. BS, Brigham Young University, 2006; MSN, Weber State University, 2017.

Nicolas Perez Consuegra (2023) - Assistant Professor of Earth Surface Processes. B.Sc., Universidad de los Andes, 2016; PhD, Syracuse University, 2021.

Jeffrey Shane Perry (2006) - Associate Professor of Dental Hygiene, BS, MEd, Weber State University, 2002, 2009.

James E. Peters (1988) - Associate Professor of Mathematics. BS, MS, Michigan State University, 1979, 1982; PhD, Georgia Institute of Technology, 1988.

Emily J. Petersen (2017) - Assistant Professor of English. BA, Brigham Young University, 2001; MA, Weber State University, 2010; PhD, Utah State University, 2016.

Spencer J. Petersen (2016) - Assistant Professor of Mechanical Engineering. BS, MS, PhD, University of Utah, 2002, 2004, 2016.

Annita Peterson (2023) - Instructor of Botany and Plant Ecology. BA, Utah State University, 1998; PhD, Iowa State University, 2004.

Brad R. Peterson (2007) - Assistant Professor of Computer Science. BS, Weber State University, 2004; PhD, University of Utah, 2019.

Chelsea Pike (2020) - Instructor of Nursing. BSN, MSN, Western Governors University, 2018, 2019.

Brian K. Pilcher (2018) - Instructor of Zoology. BS, Oklahoma State University, 1976; MS, Louisiana State University, 1981.

Mitchell G. Pilkington (2022) - Assistant Professor for Crime Scene Investigation. BA, MS, Weber State University, 1999, 2004.

Kenneth W. Plain (2017) - Visiting Assistant Professor of Musical Theatre. BM, University of Utah, 1991.

William J. Pollett (2010) - Instructor of English. BIS, Weber State University, 1997; MS, Utah State University, 1999.

Darrell Poore (2002) - Instructor of Mathematics. BS, University of Utah, 2000.

Lance Powell (2023) - Instructor of Developmental Mathematics. BA, Brigham Young University; MA, University of Phoenix, 2003.

Richard S. Price (2012) - Associate Professor of Political Science. BA, Western Washington University, 2003; JD, Roger Williams University School of Law, 2006; MA, PhD, Syracuse University, 2007, 2012.

Travis M. Price (2003) - Department Chair and Associate Professor of Health Sciences. BS, Weber State University, 2003; MS, University of Utah, 2007; PhD, Utah State University, 2013

Thomas L. Priest (2001) - Professor of Music and Director of Music Education. BME, Indiana University, 1983; Orff-Schulwerk II, University of Northern Colorado, 1991; MM, University of Colorado, 1992; EdD, University of Illinois, 1997.

Daniel R. Pyle (2016) - Associate Professor of Teacher Education. BS, SUNY College at Buffalo, 1999; MS, Azusa Pacific University, 2004; PhD, Utah State University, 2015.

Wei Qiu (2008) - Department Chair and Professor of Child & Family Studies. BA, MA, Nanjing University, 1995, 1997; MS, PhD, University of Delaware, 1997, 2008.

Tressa Quayle (2014) - Instructor of Nursing. BS, MSN, Weber State University, 2010, 2013.

Carrie F. Quesnell (2004) - Instructor of Mathematics. BS, Utah State University, 1990; MEd, Weber State University, 2012.

Kristin G. Rabosky (2015) - Assistant Professor of Physics. BS, University of Maryland, 2005; MS, University of Colorado, 2007; PhD, Colorado School of Mines, 2011.

Brian W. Rague (2003) - Professor of Computer Science. BS, MS, MIT, 1984, 1987; PhD, University of Utah, 2010.

Sandeep K. Rangaraju (2015) Assistant Professor of Economics. B-Tech, Jawaharlal Nehru Technological University, 2006; MBA, MA, Central Michigan University, 2008, 2010; MS, PhD, University of Kentucky, 2011, 2015.

Clay L. Rasmussen (2012) - Associate Professor of Teacher Education. BS, University of Arizona, 2000; MEd, Northern Arizona University, 2005; PhD, Utah State University, 2008.

David W. Read (2012) - Associate Professor of Business Administration and Marketing. BA, University of Utah, 2004; MSc, London School of Economics and Political Science, 2004; JD, University of Houston, 1009.

Jordyn M. Redmond (2022) - Lab Instructor of Physics. BS, Weber State University, 2022.

Mary Anne Reynolds (2017) - Associate Professor of Nursing. BSN, University of Utah, 1979; MS, University of California, 1984; PhD, University of Utah, 1997.

Robert W. Reynolds (1993) - Associate Professor of Sociology. BS, MS, Brigham Young University, 1983, 1984; PhD, Washington State University, 1993.

Bradford W. Reynolds (2011) - Professor of Criminal Justice and Director of the Criminal Justice Master's program. BA, MS, Weber State University, 2001, 2004; PhD, University of Cincinnati, 2010.

Justin R. Rhees (2018) - Assistant Professor of Medical Laboratory Sciences. BA, Weber State University, 2006; MS, University of Utah, 2010.

Lance Rhodes (2023) - Instructor of Computer Science. BA, Weber State, 2008; MS, Utah State University, 2012; BS, Weber State, 2014; PhD, Grand Canyon University, 2021.

Andrew E. Rice (2021) - Instructor of Printmaking and Studio Manager. BFA, University of Colorado; MFA, University of Utah, 2013.

Michelle B. Rich (2020) - Instructor of Mathematics. BS, Utah State University, 1995, MBA, Weber State University, 2012.

Julie Rich (1984) - Dean of the College of Social & Behavioral Sciences and Professor of Geography. BS, Weber State College, 1981; MS, University of Utah, 1991, PhD, University of Oxford, 2003.

Ryan C. Ridge (2016) - Associate Professor of English/Fiction Writing. BA, University of Louisville, 2006; MFA, University of California, 2010.

Jason E. Riegert (2019) - Instructor of Health Administrative Services. BA, MHA, Weber State University, 2007, 2011.

Paul Rimmasch (2023) - Assistant Professor of Crime Scene Investigation. BA, MS, Weber State University, 1997, 2019.

Nathan S. Rives (2018) - Instructor of History. BA, Brigham Young University, 2001; PhD, Brandeis University, 2011.

Gavin E. Roberts (2017) - Department Chair and Associate Professor of Economics. BA, Metropolitan State University of Denver, 2011; PhD, University of Wyoming, 2017.

William E. Robertson (2013) - Department Chair and Associate Professor of Emergency Care & Rescue. BS, Bowling Green State University; MS, Florida Gulf Coast University, 2013; DHSc, Nova Southeastern University, 2016.

Jessica Robison (2023) - Instructor of Nursing. BS Utah State University, 2015; BS, Weber State University, 2018; MS, Weber State University, 2020.

Elizabeth D. Rocha (2016) - Associate Professor of Nursing. BSN, Texas Christian University, 1981; MSN, PhD, University of San Diego, 1995, 2014.

Nathan J. Rodriguez (2018) - Assistant Professor of Communication. BS, MS, PhD, University of Kansas, 2002, 2008, 2015.

Scott T. Rogers (2003) - Professor of English. BA, BS, University of Southern Mississippi, 1994; MA, PhD, Oklahoma State University, 1997, 2003.

Matthew P. Romaniello (2018) - Department Chair and Professor of History. BA, Brown University, 1995; MA, PhD, Ohio State University, 1998, 2003.

Heather T. Root (2014) - Associate Professor of Botany. BS, Cornell University, 2003; MS, State University of New York College, 2006; PhD, Oregon State University, 2011.

Rhonda Roth (2025) - Instructor of Occupational Therapy Assistant Program. BS, Colorado State University, 2004; MOT, Samuel Merritt University, 2007; OTD, University Of Utah, 2023.

Douglas Routh (2023) - Visiting Assistant Professor of Criminal Justice. BA, BS, MA, Washington State University, 2011, 2011, 2012; PhD Washington State University, 2018.

Thomas D. Roybal (2021) - Instructor of Mathematics. BS, Weber State University, 2001; MA, PhD, University of California, 2005, 2007.

Valentinas Rudys (2022) - Assistant Professor of Economics. BBA, Texas A&M University, 2015; MA, PhD, Fordham Univesrity, 2018, 2022.

Sheryl J. Rushton (2014) - Associate Professor of Teacher Education. BS, MEd, PhD, Utah State University, 1987, 2004, 2014.

Melinda Russell-Stamp (2007) - Assistant Professor of Psychology. BA, University of Utah, 1995; EdS, PhD, University of Kansas, 1997, 2006.

Stephen L. Salmon (2022) - Instructor of Communication. BS, St. John Fisher College, 2006; JD, Vermong Law School, 2014.

Lynette Sandoval (2022) - Instructor of Developmental Mathematics. BS, Southern Utah Unversity, 2002; MMath, Utah State University, 2012.

Elizabeth Sandquist (2018) - Assistant Professor of Zoology. BS, PhD, University of North Dakota, 2010, 2015.

Chris A. Scheidler (2020) - Assistant Professor of English. BA, Saginaw Valley State University, 2014; MA, PhD, University of Louisville, 2016, 2020.

Elaine Schnabel (2023) - Assistant Professor of Organizational Communication. BA, Calvin University, 2011; MA, Purdue University, 2015; MA, Fuller Theological Seminary, 2018; PhD, University of North Caroline at Chapel Hill, 2023.

Daniel V. Schroeder (1993) - Professor of Physics. BA, Carleton College, 1984; PhD, Stanford University, 1990.

James E. Schultz (2021) - Instructor of Communication and Director of Debate. BA, Idaho State University, 2013; MA, Wake Forest University, 2015.

Paul L. Schvaneveldt (2002) - Brady Presidential Distinguished Professor and Professor of Child and Family Studies. BA, MS, Utah State University, 1992, 1996; PhD, University of North Carolina at Greensboro, 1999.

Shane J. Schvaneveldt (1992) - Brady Presidential Distinguished Professor and Professor of Management. BS, Utah State University, 1985; MEngr, PhD, Tokyo Institute of Technology, 1989, 1992.

Andrea K. Schwartz (2021) - Instructor of Spanish. BA, Western Washington University, 2008; MA, University of Jaén, Jaén, Spain, 2012; MA, Institute of Linguistic and Translation Studies, Madrid, Spain, 2020.

John E. Schwiebert (1989) - Professor of English. BA, Carleton College, 1976; MA, PhD, University of Minnesota, Minneapolis, 1986, 1989.

Meher Talat Shaikh (2020) - Assistant Professor of Computer Science. MS, PhD, Brigham Young University, 1994; 2020.

Leigh A. Shaw (2003) - Brady Presidential Distinguished Professor and Professor of Psychology. BS, University of Wyoming, 1994; MS, PhD, University of Utah, 1997, 2002.

Deann Shepherd (2021) - Instructor of Communication. BS, Utah State University, 2000; MSC, Westminster College, 2020.

Deborah J. Sheridan (2002) - Instructor of English. MA, University of Aberdeen, 1996; PGCE, Northern College Aberdeen Scotland, 1997; Cert TESOL, Aberdeen College, 1999.

Sally Bishop Shigley (1992) - Brady Presidential Distinguished Professor and Professor of English. BA, University of Utah; MS, PhD, Oklahoma State University.

Pamela C. Silberman (2021) - Instructor of Health Sciences. BS, MSN, Western Governors University, 2017, 2019.

Yasmen Simonian (1981) - Dean, Dr. Ezekiel R. Dumke College of Health Professions and Brady Presidential Distinguished Professor and Professor of Medical Laboratory Sciences. BS, MS, PhD, University of Utah, 1975, 1981, 1998.

Kimber Simons (2023) - Instructor of Nursing. BSN, MSN, Weber State University, 2019, 2021.

Michele M. Skopec (2006) - Professor of Zoology. BS, Cornell University, 1999; PhD, University of Wisconsin - Madison, 2003.

Jessica A. Slater (2018) - Department Chair and Instructor of Automotive Technology. BS, Weber State University, 2015.

Trisha D. Small (2018) - Instructor of Nursing. BS, MSN, Weber State University, 2015, 2018.

Abraham E. Smith (2017) - Assistant Professor of English. BA, University of Wisconsin, 1996; MFA, University of Alabama, 2004.

Chad E. Smith (2012) - Associate Professor of Physical Education. BS, MS, Southern Utah University, 2008, 2009; PhD, University of Utah, 2012.

Eric S. Smith (2009) - Professor of Accounting & Taxation. BA, Weber State University, 2004; JD, University of Kentucky, 2008; LLM, Georgetown University, 2009.

Shannon W. Smith (2022) - Instructor of Dental Hygiene. BS, MEd, Weber State University, 2001, 2018.

Mason Snow (2023) - Visiting Assistant Professor of Accounting. BS, MACC, Brigham Young University, 2017; PhD, Arizona State University, 2022.

Ashkan Soltani-Stone (2019) - Assistant Professor Film and Digital Media. BA, MFA, University of Utah, 2004, 2008.

Seokwoo Song (2007) - Professor of Management Information Systems and Department Chair of Supply Chain and Information Management Systems. BA, Seoul National University, 1986; MBA, Syracuse University, 1991; PhD, University of Wisconsin, 2001.

Amanda L. Sowerby (2002) - Professor of Dance. BFA, California Institute of the Arts, 1980; MFA, University of Utah, 2001.

Holli Sowerby (2013) - Associate Professor of Nursing. BS, MSN, Weber State University, 2009, 2011; EdD, Walden University, 2015.

Stephanie L. Speicher (2017) - Assistant Professor of Teacher Education. BS, Towson University, 1993; MEd, University of Maine, 2002; PhD, Utah State University, 2016.

JoAnn L. Spencer (2019) - Instructor of Nursing. BS, Weber State University, 1999; MSN, Walden University, 2009.

Kathryn A. Sperry (2020) - Instructor of Psychology. BS, California Polytechnic State University, 2004; MA, PhD, Claremont Graduate University, 2006, 2009.

Jeffery Speth (2023) - Assistant Professor of Health Sciences. BS, Weber State University, 2011; Pharm.D. Pacific University, 2015.

Cody A. Squadroni (2017) - Instructor of Computer Science. BS, Weber State University, 2015; MS, Western Governor's University, 2019.

Mitchell C. Standing (2019) - Instructor of Nursing. BS, MSN, Weber State University, 2014, 2018.

Jeffrey W. Steagall (2011) - Professor of Economics. BA, 1985, St Norbert College; MS, PhD, University of Wisconsin, 1987, 1990.

Hannah L. Stedge (2016) - Instructor of Athletic Training. BS, Cedarville University, 2008; MS, Indiana University, 2010.

Timothy H. Steele (1994) - Professor of Mathematics. BS, United States Military Academy at West Point, 1986; MA, PhD, University of California-Santa Barbara, 1992, 1994.

Christopher Steelman (2019) - Assistant Professor of Radiologic Sciences. BS, West Chester University, 1984; MS, Saint Joseph's University, 2010.

Sarah J. Bourassa Steimel (2011) - Associate Dean, Professor of Communication. BBA, University of Oklahoma, 2005; MA, Kansas State University, 2007; PhD, University of Nebraska-Lincoln, 2011.

Jamie K. Stein (2021) - Instructor of Nutrition. BS, Louisiana State University, 2012; MSAT, Weber State University, 2018.

Sandra Stennett (2019) - Program Director and Instructor of Physician Assistant Studies. BFA, MS, MPAS, University of Utah, 1982, 1990, 2004.

Erik A. Stern (1993) - Professor of Dance. BA, University of California, Santa Cruz, 1982; MFA, California Institute of the Arts, 1989.

Michael J. Stevens (2008) - Brady Presidential Distinguished Professor and Professor of Business Administration. BA, University of Utah, 1984; PhD, Purdue University, 1993.

Brandon Stevenson (2021) - Assistant Professor of Automotive Technology. BS, Weber State University, 2013; MBA, University of Southern Indiana, 2020.

Doris Geide Stevenson (1996) - Professor of Economics. MA, Universitaet Wuerzburg-Germany, 1987; PhD, State University of New York-Buffalo, 1995.

Kathleen "K" Stevenson (2001) - Professor of Art. BA, College of St Benedict, 1974; MFA, University of Notre Dame, 1999.

Mark A. Stevenson (2015) - Assistant Professor of Anthropology. BA, State University of New York College, 1984; PhD, Temple University, 1996.

Pene'e W. Stewart (2000) - Professor of Teacher Education. BS, PhD, Brigham Young University, 1975, 1986.

Brandon Stoddard (2017) - Instructor of Business Administration. BS, University of Utah, 2007; MS, Case Western Reserve University, 2011.

Laura K. Stott (2013) - Instructor of English. BA, Brigham Young University, 2001; MFA, Eastern Washington University, 2004.

James Storey (2023) - Assistant Professor of Mechanical Engineering. BSME, MSME, University of Utah, 1989, 1992; PhD, Brigham Young University, 2003.

Janicke Stramer-Smith (2018) - Assistant Professor of Political Science. BA, University of Southern Denmark, 2000; MA, The American Graduate School of International Relations & Diplomacy, 2006; PhD, The University of Nevada, 2018.

Mahalingam Subbiah (1987) - Professor of English and Director of Master of Arts in English program. BS, Annamalai University-India, 1971; MA, Pachaiyappas College-India, 1978; PhD, Oklahoma State University, 1987.

I. Marlene Summers (2018) - Instructor of Nursing. BS, Weber State University, 1992; MS, US Army War College, 2005; MSN, Westminster College, 2007.

Alison A. Sunderland (2013) - Instructor of Computer Science. BS, MEd, Weber State University, 1991; 2011; MS, University of Illinois, 2015.

Eric G. Swedin (2001) - Professor of History. BS, Weber State University, 1988; MS, Utah State University, 1991; PhD, Case Western Reserve University, 1996.

Molly C. Sween (2011) - Department Chair and Professor of Criminal Justice. BS, MS, PhD, Iowa State University, 2005, 2008, 2011.

Corina D Segovia Tadehara (2002) - Associate Professor of Social Work. BS, Westminster College, 1991; MSW, PhD, University of Utah, 1993, 2001.

Marilyn Taft (2023) - Assistant Professor of Teacher Education. BA, MBA, Brigham Young University, 1976, 1978; EdD, University Of Utah, 2021.

Paul C. Talaga (1980) - Professor of Mathematics. BS, MA, PhD, University of Colorado, 1969, 1973, 1978.

Caitlin E. Tams (2019) - Assistant Professor Applied Climate Science. BA, Colorado College, 2008; PhD, University of Southern California, 2016.

Janice Thomas (2012) - Associate Professor of Medical Laboratory Sciences. BS, MEd, Weber State University, 2001, 2010; DHSc, A. T. Still University, 2020.

Shelley L. Thomas (2003) - Associate Professor of English. BA, Phillip's University, 1986; MA, St Mary's University, 1989; PhD, Oklahoma State University, 1997.

Bryant S. Thompson (2014) - Associate Professor of Management. BIS, Weber State University, 2002; PhD, University of South Carolina, 2012.

Matthew I. Thue (2018) - Instructor of Business Administration. BA, Utah State University, 2005; JD, University of Utah, 2008.

Samantha Tietjen (2023) - Instructor Nursing. BSN, MSN, Weber State University, 2020, 2023.

Kerry N. Tobin (1981) - Professor of Manufacturing and Systems Engineering. BS, Weber State College, 1975; MS, Brigham Young University, 1984.

JoAnn A. Tolman (2020) - Instructor of Nursing. BS, MSN, Weber State University, 2012, 2018.

Barbara C. Trask (2003) - Associate Dean of the College of Science and Professor of Zoology. BS, Southern Illinois University, 1988; PhD, Washington University, 1999.

Carla K. Trentelman (2008) - Professor of Sociology. BS, Weber State College, 1982; MS, PhD, Utah State University, 2004, 2009.

John C. Trimble (2013) - Associate Professor of Foreign Languages. BA, MA, Northern Arizona University, 2007, 2009; PhD, University of Minnesota, 2013.

Kelley R. Trump (2020) - Assistant Professor of Nursing. BS, MSN, Western Governors University, 2017; DNP, Samford University, 2019.

Garth E. Tuck (2011) - Instructor of Computer Science. BA, Weber State University, 1998; MSIT, Capella University, 2010.

Jennifer M. Turley (1997) - Brady Presidential Distinguished Professor and Professor of Nutrition. BS, Arizona State University, 1989; PhD, University of Texas, 1993.

James A. Turner (2005) - Associate Professor of Finance. BA, University of Utah, 1985; MA, University of Michigan, 1987; PhD, University of Utah, 2007.

Katrina I. Twing (2020) - Assistant Professor Applied Environmental Microbiology. BA, Clark University, 2007; MS, University of Delaware, 2009; PhD, Michigan State University, 2015.

Chimobi R. Ucha (2022) - Assistant Professor, Web and User Experience. BSc, The American University, 2011; MSc, The University of Manchester, 2014; PhD, Michigan State University, 2021.

Sage R. Ukena (2017) - Instructor of Nursing. BS, Weber State University, 2008; MSN, Indiana State University, 2012.

Deborah Uman - Dean, Telitha E. Lindquist College of Arts and Humanities, Professor of English. BA, Yale University, 1991; MA, PhD, University of Colorado at Boulder, 1994, 1999.

Megumi Usui (2009) - Associate Professor of Design Engineering Technology. BS, Weber State University, 2003; MS, Purdue University, 2005.

Viktor Uzur (2005) - Professor of Music. BA, MA, Moscow Conservatory Tchaikovsky, 1995; MM, University of Georgia, 1997; DMA, Michigan State University, 2004

Shernavaz Vakil (2020) - Professor of Teacher Education. BCom, LLB, Bombay University, 1984, 1987; MEd, EdD, The University of Memphis, 1990, 1994.

Hugo E. Valle (2013) - Associate Professor of Computer Science. BS, University of Texas-Pan American; MS, PhD, Vanderbilt University, 2006, 2008.

Ralph H. van der Beek (2006) - Associate Professor of Music. BM, Utah State University, 1990; MM, Indiana University, 1993; DMA, University of Southern California, 2005.

Pieter J. van der Have (2011) - Department Chair and Instructor of Construction and Building Sciences. MS, University of Utah.

Sherri Vasas (2018) - Assistant Professor of Respiratory Therapy. BS, MS, Weber State University, 2000, 2018.

Sarah Vause (2012) - Instructor of English. BS, Weber State University, 2000; MS, Utah State University, 2005.

Lizbeth Velazquez (2022) - Assistant Professor of Social Work. BS, Weber State University, 2006; MSW, PhD, University of Utah, 2010, 2021.

Steve C. Vigil (2005) - Assistant Professor of Social Work. BS, Brigham Young University, 1992; MS, University of Utah, 1994.

Jodi Waddoups (2023) - OHN Program Director and Instructor of Nursing. BSN, MSN, Western Governors University, 1994, 2014.

Ranganath Wahalathantrige Don (2023) - Instructor of Chemistry. BS, MS, M.Phil, University of Sri Jayewardenepura, 2009, 2014, 2017; PhD, Mississippi State University, 2022.

Edward B. Walker (1981) - Director, Utah Center of Excellence for Chemical Technology, and Brady Presidential Distinguished Professor and Professor of Chemistry. BA, Weber State College, 1976; PhD, Texas Tech University, 1980; PostDoc, Stanford University, 1981.

Robert J. Walker (1982) - Brady Presidential Distinguished Professor and Professor of Radiologic Sciences and Professor of Health Administrative Services. BS, Weber State College, 1982; MS, University of Utah, 1985; PhD, University of Utah, 1996.

C. David Walters (2017) - Assistant Professor of Mathematics. BS, MS, Miami University, 2004, 2008; MA, Columbia University, 2008; PhD, San Diego State University and University of California, 2017.

Shi-Hwa Wang (1990) - Brady Presidential Distinguished Professor and Professor of Music. BA, Soochow University, Taiwan, 1983; MM, DMA, University of Illinois at Urbana-Champaign, 1986, 1989.

WeiWei Wang (2017) - Assistant Professor of Accounting and Taxation. PhD., University of Texas, 2016; MBA, University of Chicago; BS, University of International Business and Economics.

Jamie Wankier (2012) - Associate Professor of Nursing. BSN, University of Utah, 2002; MSN, Weber State University, 2012.

Jeffery Kurt Ward (2021) - Instructor of Health Promotion. BS, Weber State University, 2013; MEd, PhD, Auburn University, 2015, 2018.

Taylor C. Ward (2017) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2014, 2016; PhD, Auburn University, 2021.

Brent W. Warnock (2014) - Instructor of Communication. BS, MS, University of Utah, 1992, 1995.

Vanessa Watts (2023) - Instructor of Psychology. BS, University of Utah, 2007; MA, San Diego State University, 2011; Ph.D. Miami University, Oxford, OH, 2016.

Jamie J. Weeks (2018) - Associate Professor of Library Science. BS, Weber State University, 2003; MLS, University of North Texas, 2006.

Drew A. Weidman (1999) - Professor of Computer Science. BS, Brigham Young University, 1985; MS, University of Wisconsin, 1986; MS, University of Maryland University College, 2009.

Kelcie Welch (2023) - Instructor of Interior Design. BS, Weber State University, 2019.

Glen O. West (2008) - Professor of Design Engineering Technology. BS, MS, PhD, University of Utah, 1997, 2003, 2017.

Jonathan West (2020) - Assistant Professor of Electrical and Computer Engineering. BS, MS, PhD, University of New Mexico, 1995, 2013, 2017.

Jordan M. West (2022) - Assistant Professor of Health Sciences. BIS, Weber State University, 2013; DPT, Rocky Mountain University, 2015.

Nancy T. Weston (2017) - Instructor of Nursing. BS, Weber State University, 2014; MSN, Western Governors University, 2017.

David K. Wetzel (2018) - Assistant Professor of Manufacturing and Systems Engineering. BS, The Ohio State University, 1984; MS, Rensselaer Polytech Institute, 1990; PhD, The Ohio State University, 1995.

Stephanie Wheatley (2021) - Instructor of Nursing. BS, MSN, Weber State University, 1994, 2018.

Sunni Wilkinson (2023) - Instructor of English. BA, Utah State University, 2001; MFA, Eastern Washington University, 2003.

Mary Beth Willard (2011) - Department Chair of Political Science & Philosophy and Professor of Philosophy. BA, University of Notre Dame, 2001; MPhil, PhD, Yale University, 2005, 2009.

Tim H. Willard (2020) - Instructor of Construction and Building Sciences. BS, MS, Brigham Young University, 1984, 1985.

Jeffrey M. Williams (2021) - Assistant Professor and Director of Didactic Education, Physician Assistant Medicine. BHS, University of Kentucky, 1999; MPAS, University of Nebraska, 2011.

Kristiann T. Williams (2004) - Associate Professor of Nursing. ADN, Weber State College, 1983; BSN, University of Utah, 1987; MSN, Brigham Young University, 1990; DNP, Chatham University, 2011.

Natalie Allen Williams (2005) - Professor of Teacher Education. BS, Utah State University, 1993; MS, University of Utah, 2002; PhD, Ohio State University, 2005.

Ariel Wilson (2023) - Visiting Assistant Professor of Visual Art and Design. BA, Willamette University, 2013; MFA, University of New Mexico, 2018.

Lisa B. Wiltbank (2020) - Assistant Professor Applied Environmental Microbiology. BS, Brigham Young University, 2007; PhD, Indiana University, 2015.

Joshua R. Winegar (2007) - Professor of Art. BFA, Weber State University, 2002; MFA, Columbia College Chicago, 2007.

Stacie L. Wing-Gaia (2019) - Assistant Professor of Exercise and Nutrition Sciences. BS, University of California, MS, PhD, University of Utah, 2001, 2006.

Stephanie A. Wolfe (2013) - Associate Professor of Political Science. BA, MS, University of Oklahoma, 2000, 2001; PhD, University of Kent, 2012.

Stephen J. Wolochowicz (2011) - Professor of Art. BFA, University of Delaware, 2000; MFA, Miami University, 2005.

Linnette Wong (2017) - Assistant Professor of Health and Physical Education. BS, Shanghai University, 2007; MS, Brandeis University, 2008; PhD, Indiana University, 2014.

McKenzie Wood (2020) - Assistant Professor of Criminal Justice. BS, MS, Weber State University, 2009, 2010; PhD, North Dakota State University, 2015.

Michael Wutz (1992) - Brady Presidential Distinguished Professor and Professor of English and Editor of *Weber: The Contemporary West*. BA, Universitaet Wuerzburg, Germany, 1983; MA, University of Montana, 1986; PhD, Emory University, 1991.

Yu-Jane Yang (1992) - Brady Presidential Distinguished Professor and Professor of Music. BA, National Taiwan Normal University, 1984; MS, MM, University of Illinois, 1986, 1988; PhD, University of Michigan, 1994.

Ezgi Yesilyurt (2020) - Assistant Professor of Life Sciences Education. BS, MS, Middle East Technical University, 2010, 2014; PhD, University of Nevada, 2020.

David T. Yoder (2017) - Associate Professor of Assistant Professor of Sociology. BS, Weber State University, 2003; MA, Brigham Young University, 2005; PhD, University of Nevada, 2009.

W. Adolph Yonkee (1991) - Brady Presidential Distinguished Professor and Professor of Earth and Environmental Sciences. BS, MS, University of Wyoming, 1980, 1983; PhD, University of Utah, 1990.

Kathleen Paige Young (2019) - Instructor of Professional Sales. BA, MS, Weber State University, 2016, 2023.

James A. Zagrodnik (2011) - Professor for Health, Physical Education and Recreation. BSA, University of Georgia, 2002, BSE, Augusta State University, 2005; MA, PhD, University of Georgia, 2007, 2011.

Lixuan (Grace) Zhang (2014) - Associate Professor of Management Information Systems. BA, Nankai University; MBA, MIS, University of Oklahoma; PhD, University of North Texas, 2006.

Fan Zhang (2023) - Assistant Professor of Costume Design. BA, Dalian Medical University China, 2010; MFA, University of Connecticut, 2014.

Yong Zhang (2012) - Assistant Professor of Computer Science. BE, ME, Harbin Institute of Technology, 1995, 1998; PhD, West Virginia University, 2006.

Xin Zhao (2022) - Assistant Professor of Clinical/Counseling Psychology. BS, Virginia Polytechnic Institute and State University, 2008; MS, PhD, Utah State University, 2012, 2016.

Ryan G. Zimmerman (2016) - Department Chair of Health, Physical Education and Recreation and Assistant Professor of Physical Education. BS, MEd, Utah State University, 2009, 2011; PhD, Springfield College, 2015.

Patrick Zwick (2023) - Assistant Professor of Computer Science. BS, MS, Stanford University, 2005; PhD, University of Utah, 2014.

Emeriti Faculty

Lowell S. Adams (1964) - Professor Emeritus of Microbiology. BS, MS, PhD, Oklahoma State University, 1961, 1964, 1973.

H. Lon Addams (1982) - Professor Emeritus of Management. BS, MBA, University of Utah, 1969, 1970; EdD, Brigham Young University, 1978.

Susan K. Alexander (2004) - Associate Professor Emerita of Dental Hygiene. BS, MEd, Weber State University, 2001, 2007.

Keith Allred (1978) - Associate Professor Emeritus of Design Engineering Technology. BS, MIE, Utah State University, 1967, 1980.

Richard M. Alston (1969) - Professor Emeritus of Economics. BA, University of Utah, 1966; MA, PhD, Cornell University, 1968, 1970.

Farhang Amiri (1984) - Professor Emeritus of Physics. BS, Tehran University, 1971; MS, Pars College, 1973; PhD, Florida State University, 1981.

Julianne K. Arbuckle (1993) - Professor Emerita of Psychology. BA, Weber State College, 1980; MEd, PhD, Brigham Young University, 1983, 1993.

Brooke S. Arkush (1990) - Brady Presidential Distinguished Professor and Professor Emeritus of Anthropology. BA, Humboldt State University, 1983; MA, PhD, University of California, Riverside, 1987, 1989.

Sidney R. Ash (1970) - Professor Emeritus of Earth and Environmental Sciences. BA, Midland Lutheran College, 1951; BA, MA, University of New Mexico, 1957, 1961; PhD, University of Reading, England, 1966.

Lee W. Badger (1981) - Professor Emeritus of Mathematics. BA, University of Missouri, 1968; MA, PhD, University of Colorado, 1970, 1975.

Naseem A. Banerji (1993) - Professor Emerita of Art History. BA, BEd, MA, University of Calcutta, 1968, 1970, 1981; PhD, University of Iowa, 1993.

Norris R. Bancroft (1969) - Professor Emeritus of Psychology. BA, MA, PhD, University of South Dakota, 1964, 1966, 1968.

Kristy A. Baron (2012) - Associate Professor Emerita of Nursing. BS, Weber State University, 1998; MFHD, Utah State University, 2004; PhD, Rocky Mountain University of Health Professions, 2014.

Diane C. Baughman (1972) - Professor Emerita of Nursing. BS, MS, University of Utah, 1972, 1979; EdD, Brigham Young University, 1985.

Michael A. Beard (1972) - Professor Emeritus and Program Director of Clinical Laboratory Technician Program. BS, Utah State University, 1963; MS, University of Utah, 1970; EdD, Brigham Young University, 1979. SBB.

Robert R. Beishline (1965) - Professor Emeritus of Chemistry. BS, MS, Brigham Young University, 1955, 1957; PhD, Penn State University, 1962.

Robert W. Belka (1970) - Associate Professor Emeritus of Foreign Languages. BA, Weber State College, 1966; MA, Tulane University, 1968; PhD, Brigham Young University, 1975.

F. A. (Bud) Belnap (1962) - Professor Emeritus of Health and Physical Education. BS, MS, Brigham Young University, 1961, 1962; PhD, University of New Mexico, 1983.

Nicole J. Berthelemy (2004) - Professor Emerita of Zoology. Maitrise, Doctorat de Troisieme Cycle, Universite d'Aix-Marseille, 1975, 1978; PhD, University of California, Davis, 1986.

Jewell (Judy) Bezoski (1985) - Instructor Specialist Emerita of Teacher Education. BS, Weber State College, 1972; MS, Utah State University, 1980.

Mark A. Biddle (1981) - Professor Emeritus of Visual Art and Design. BFA, MFA, Indiana State, 1977, 1981.

Georgine W. Bills (1987) - Professor Emerita of Health Sciences. BS, Weber State College, 1985; MBA, University of Utah, 1991; Registered Respiratory Therapist (RRT).

L. G. Bingham (1975) - Associate Professor Emeritus of Criminal Justice. BSL, University of Utah, 1951; JD, University of Utah, 1951.

James A. Bird (1978) - Professor Emeritus of Child and Family Studies. BS, MS, Brigham Young University, 1969, 1975; PhD, University of Utah, 1987.

Dixilee M. Blackinton (1987) - Instructor Specialist Emerita of Mathematics. BA, Brigham Young University, 1972; MEd, Weber State University, 1990.

Richard H. Blake (1974) - Professor Emeritus of Teacher Education. BS, Brigham Young University, 1967; MS, University of Oregon, 1969; PhD, University of Utah, 1974.

Stephanie J. Bossenberger (1991) - Professor Emerita of Dental Hygiene. BS, Weber State University, 1980; MS, University of Utah, 1987.

Eugene G. Bozniak (1969) - Professor Emeritus of Botany. BS, MS, University of Alberta, 1963, 1966; PhD, Washington University, 1969.

Sharen A. Brady (1995) - Associate Professor Emerita of Nursing. BSN, University of Washington, 1971; MSN, University of Utah, 1994.

Hayle Buchanan (1965) - Professor Emeritus of Botany. BA, MA, Brigham Young University, 1951, 1953; PhD, University of Utah, 1960.

John A. Burkes (1979) - Professor Emeritus of Sales Technology. BS, MEd, Mississippi State University, 1961, 1973.

Keith R. Burnett (1969) - Professor Emeritus of Secondary Education. BS, Montana State University, 1956; MS, EdD, University of Utah, 1966, 1969.

Lloyd R. Burton (2000) - Professor Emeritus of Health Administrative Services. BA, MEd, University of Nebraska-Kearney, 1969, 1971; MHA, Baylor University, 1982; DM, Colorado Technical University; 1998.

Thomas R. Burton (1963) - Professor Emeritus of English. BS, MA, Brigham Young University, 1959, 1960; PhD, University of Washington, 1967.

Frances M. Butler (1999) - Professor Emerita of Teacher Education. BA, University of California, Berkeley, 1968; MEd, University of Southern Mississippi, 1996; EdD, University of Nevada, Las Vegas, 1999.

Shannon K. Butler (1984) - Professor Emerita of English. BA, MEd, University of Utah, 1971, 1973; DA, University of Michigan, 1977.

Paul G. Butterfield (1959) - Professor Emeritus of Adult Education. BS, Utah State University, 1952; MEd, Colorado State University, 1960; PhD, University of Wisconsin, 1965.

S. Craig Campbell (1984) - Professor Emeritus of Child & Family Studies. BS, University of Washington, 1971; MA, Ball State University, 1974; PhD, Utah State University, 1979.

Robert L. Capener (1965) - Professor Emeritus of Computer Science. BS, University of Utah, 1955; PhD, Utah State University, 1968.

G. Arthur Carpenter (1970) - Associate Professor Emeritus of Library Science and Reference Instruction Librarian. BA, MLS, Brigham Young University, 1966, 1969.

Bradley W. Carroll (1985) - Brady Presidential Distinguished Professor and Professor Emeritus of Physics. BA, University of California-Irvine, 1971; MS, PhD, University of Colorado-Boulder, 1978, 1981.

Gary L. Carson (1965) - Professor Emeritus of Psychology. BA, MS, Brigham Young University, 1956, 1959; EdD, Utah State University, 1965.

Michael E. Cena (1994) - Professor Emeritus of Teacher Education. BS, MEd, Brigham Young University, 1975, 1980; PhD, Utah State University, 1995.

Kaylene Chalmers (2014) - Instructor Emerita of Nursing. BS, MSN, Weber State University, 2011, 2014.

Stella S. Chang (1970) - Associate Professor Emerita of Library Science and Bibliographic Services Librarian. BA, Tamkang College of Arts and Sciences, 1963; MLS, George Peabody College for Teachers, 1965.

Rosalind N. Charlesworth (1993) - Professor Emerita of Child and Family Studies. BA, Stanford University, 1956; MA, University of Iowa, 1958; PhD, University of Toledo, 1974.

Randy S. Chatelain (1982) - Associate Professor Emeritus of Child and Family Studies. BS, Weber State College, 1975; MS, PhD, Brigham Young University, 1982, 1983.

Merlin G. Cheney (1965) - Professor Emeritus of English. BS, MA, Brigham Young University, 1961, 1966; PhD, Bowling Green University, 1971.

Wan Fu Chi (1969) - Professor Emeritus of Economics. BA, Chung Hsing University, 1962; PhD, Southern Illinois University, 1969.

Bruce P. Christensen (1989) - Associate Professor Emeritus of Business Administration. BS, PhD, University of Utah, 1969, 1984; MS, USAF Institute of Technology, 1977.

Evan J. Christensen (1968) - Assistant Professor Emeritus of Library Science. BS, Utah State University, 1959; MSLS, University of Illinois, 1961.

James C. Christian (1988) - Brady Presidential Distinguished Professor and Professor Emeritus of Performing Arts. BFA, University of Utah, 1976; MFA, Illinois State University, 1978.

William G. Clapp (1984) - Professor Emeritus of Computer and Electronics Engineering Technology. BS, San Diego State, 1971; MA, San Diego State, 1978; MA, Naval War College, 1994; EdD, Brigham Young University, 1987.

Stephen L. Clark (1967) - Professor Emeritus of Botany. BS, Weber State College, 1964; MS, Utah State University, 1967; PhD, Brigham Young University, 1980.

Larry Clarkson (2005) - Associate Professor Emeritus of Art. BFA, University of Utah, 1976; MFA, University of Illinois, 1981.

Gerilynn Conlin (2004) - Associate Professor Emerita of Health Promotion and Human Performance. BA, MEd, Weber State University, 1976, 2002, PhD, University of Utah, 2010.

Rosemary Conover (1970) - Professor Emerita of Anthropology. BA, University of Utah, 1967; MA, Brandeis University, 1969; PhD, University of Utah, 1984.

Timothy R. Conrad (1983) - Associate Professor of Emeritus English and English as a Second Language. BA, MA, Utah State University, 1976, 1983, PhD, Indiana University of Pennsylvania, 2000.

Lynn G. Corbridge (1965) - Assistant Professor Emeritus of Health Promotion and Human Performance. BS, Weber State College, 1964; MS, University of Montana, 1965.

David N. Cox (1971) - Professor Emeritus of Visual Arts. BA, MA, San Jose State, 1960, 1971; MFA, Ohio State, 1974.

Forrest C. Crawford (1977) - Professor Emeritus of Teacher Education. BS, Weber State College, 1975; MS, University of Utah, 1977; EdD, Brigham Young University, 1990.

Charles M. Crittenden (1967) - Professor Emeritus of Computer Science. BS, MS, EdD, Utah State University, 1962, 1968, 1980.

Kathleen R. Culliton (1991) - Associate Professor Emerita of Nursing. AS, Hibbing Community College, 1976; BS, Moorhead State University, 1980; MSN, University of Utah, 1989.

Richard J. Dahlkemper (2002) - Associate Professor Emeritus of Health Administrative Services. BBA, University of Notre Dame; MBA, Indiana University, 1975; PhD, Walden University, 2008.

Tamara R. Dahlkemper (1985) - Associate Professor Emerita of Nursing. ADN, Weber State College, 1981; BSN, University of Utah, 1983; MSN, University of Phoenix, 2001.

Erika Daines (1989) - Professor Emerita of German. Diplom-Uebersetzer, University of Heidleberg, 1971.

Ron J. Deckert (2003) - Professor Emeritus of Botany. BSc, PhD, University of Guelph, 1995, 2000.

Richard K. DeMoss (1978) - Professor Emeritus of Automotive Technology. BS, MS, Utah State University, 1968, 1975.

E. Devon Deppe (1978) - Professor Emeritus of Accounting. BS, MACC, JD, Brigham Young University, 1967, 1970, 1978.

Karen Dewey (1993) - Associate Professor Emerita of Nursing. BS, Weber State University, 1989; MS, University of Utah, 1992.

W. Lee Dickson (1963) - Professor Emeritus of Electronics Engineering Technology. BS, MS, PhD, University of Utah, 1959, 1962, 1964.

Joseph M. Dixon (1964) - Professor Emeritus of History. BA, MA, PhD, Stanford University, 1953, 1959, 1966.

Gary R. Dohrer (1989) - Professor Emeritus of English. BA, Wichita State University, 1974; MA, St Louis University, 1979; PhD, University of Texas at Austin, 1989.

James A. Dolph (1969) - Professor Emeritus of History. BA, Knox College, 1961; MA, University of Denver, 1965; PhD, University of Massachusetts, 1975.

Larry W. Doman (1972) - Professor Emeritus of Foreign Languages. BA, University of Utah, 1964; PhD, St. Louis University, 1972.

Matthew J. Domek (2004) - Professor Emeritus of Microbiology. BS, Saint Mary's College, 1976; MA, California State University, 1980; PhD, Montana State University, 1985.

Rick L. Dove (1990) - Associate Professor Emeritus of Professional Sales. BS, MS, Utah State University, 1978.

Andrew M. Drake (1990) - Professor Emeritus of Manufacturing and Mechanical Engineering Technology. BS, Brigham Young University, 1980; MS, Florida Institute of Technology, 1985; PhD, Leeds Metropolitan University, 2008.

Evelyn N. Draper (1969) - Associate Professor Emerita of Emergency Care and Rescue. BS, University of Utah, 1959.

David A. Durkee (1991) - Professor Emeritus of Accounting. BA, Brigham Young University, 1965; MBA, University of Utah, 1972; PhD, Oklahoma State University, 1987.

Jeffrey G. Eaton (1995) - Professor Emeritus of Earth and Environmental Sciences. BM, Manhattan School of Music, 1971; MS, University of Wyoming, 1982; PhD, University of Colorado, 1987.

Linda B. Eaton (1992) - Professor Emerita of Anthropology. BA, Rice University, 1974; MA, PhD, Brown University, 1978, 1983.

Kathy J. Edwards (1989) - Associate Professor Emerita of Communication and Director of Master of Professional Communication program. BA, MA, University of Oklahoma, 1980, 1981; PhD, University of Utah, 1991.

Steven H. Eichmeier (1968) - Professor Emeritus of Professional Sales. BS, MS, Utah State University, 1967, 1968; EdD, Brigham Young University, 1976.

Claudia Eliason (1996) - Professor Emerita of Teacher Education. BS, Utah State University, 1966; MS, Utah State University, 1968; EdD, Brigham Young University, 1996.

Harold M. Elliott (1979) - Professor Emeritus of Geography. BA, MA, San Francisco State, 1964, 1970; PhD, University of Oklahoma, 1978.

Ann Larson Ellis (1990) - Associate Professor Emerita of Teacher Education. BA, Brigham Young University, 1975; MA, University of Connecticut, 1982; PhD, Purdue University, 1993.

Judith H. Elsley (1990) - Brady Presidential Distinguished Professor and Professor Emerita of English. BEd, Bristol University in England, 1974; MA, University of Nevada, Las Vegas, 1985; PhD, University of Arizona, 1990.

Rondo H. Erickson (1978) - Associate Professor Emeritus of Automotive Technology. BS, MIE, Utah State University, 1969, 1979.

Diane K. Leggett Fife (1999) - Associate Professor Emerita of Nursing. LPN, AS, Weber State College, 1973, 1974; BS, Weber State University, 1998; MSN, University of Phoenix, 2000; PhD, University of Utah, 2010.

Richard L. Ford (1996) - Professor Emeritus of Earth and Environmental Sciences. BS, Virginia Polytechnic Institute & State University, 1978; MS, University of New Mexico, 1986; PhD, University of California-Los Angeles, 1997.

Linda B. Forest (1989) - Associate Professor Emerita of Nursing. BS, Westminster College, 1985; MS, University of Utah, 1988.

Alfred S. Forsyth (1987) - Professor Emeritus of Teacher Education. BA, Brown University, 1967; MA, Columbia University, 1972; MA, Ohio State University, 1976; EdD, Utah State University, 1986.

James H. Foster (1975) - Professor Emeritus of Mathematics. BS, University of Notre Dame, 1964; MS, PhD, University of Wisconsin, 1969.

Wendy L. Fox-Kirk (2013) - Associate Professor Emerita of Business Administration and Marketing. Bsc, MSc, Aston University, Birmingham, 1996, 2005; PhD, University of Birmingham, 2014.

Dan A. Fuller (1981) - Professor Emeritus of Economics. BS, University of Utah, 1974; PhD, University of North Carolina, 1982.

James H. Gaskill (1970) Assistant Professor Emeritus of Criminal Justice. BS, MS, University of Utah, 1967, 1970.

Dawn M. Gatherum (1971) - Professor Emeritus of Botany. BS, MS, PhD, Utah State University, 1970, 1973, 1995.

L. Kay Gillespie (1974) - Professor Emeritus of Criminal Justice. BA, MS, Brigham Young University, 1965, 1969; PhD, University of Southern California, 1976.

Melba J. Glade (1962) - Professor Emerita of Elementary Education. BA, University of Utah, 1932; MS, University of Southern California, 1935; EdD, University of Utah, 1972.

Gary M. Godfrey (1985) - Professor Emeritus of Foreign Languages and Literature. BA, Weber State College, 1967; MA, PhD, University of Washington, 1969, 1974.

Linda P. Gowans (1990) - Professor Emerita of Teacher Education. BA, Utah State University, 1969; MS, University of Oregon, 1980; PhD, University of Utah, 1988.

Darrell J. Graff (1965) - Professor Emeritus of Zoology. BS, MS, Utah State University, 1958, 1960; PhD, University of California-Los Angeles, 1963.

Diana J. Green (1987) - Professor Emerita of Network Technology and Business Multimedia. BS, MS, Brigham Young University, 1974, 1976; EdD, Utah State University, 1987.

Deon Greer (1968) - Professor Emeritus of Geography. BA, MA, Brigham Young University, 1959, 1960; PhD, Indiana University, 1968.

Richard T. Grow (1976) - Professor Emeritus of Psychology. BS, Utah State University, 1964; MA, University of Utah, 1967; EdD, Utah State University, 1969.

Jeff Grunow (2002) - Associate Professor Emeritus of Emergency Care and Rescue. BSN, Widener University, 1976; MSN, University of Pennsylvania, 1980.

Nancy N. Haanstad (1987) - Associate Professor Emerita of Political Science. BA, Augustana College, 1966; MA, PhD, University of Utah, 1976, 1984.

JoAnn C. Hackley (1965) - Associate Professor Emerita of Nursing. BS, University of Utah, 1965; MS, Brigham Young University, 1983.

Susan Hafen (2003) - Professor Emerita of Communication. BS, MEd, Brigham Young University, 1974, 1978; PhD, Ohio University, 1995.

Kirk D. Hagen (1993) - Brady Presidential Distinguished Professor and Professor Emeritus of Mechanical Engineering and Coordinator of Pre-Engineering Program. BS, Weber State College, 1977; MS, Utah State University, 1980; PhD, University of Utah, 1989.

Edward J. Hahn (2005) - Associate Professor Emeritus of Library Instruction. BS, Strayer University, 1998; MS, University of Pittsburgh, 2004.

Richard D. Halley (1981) - Professor Emeritus of Communication. BS, MA, Bowling Green State University, 1964, 1965; PhD, Ohio University, 1972.

Carol Hannan (1980) - Professor Emerita of Nursing. BSN, University of Utah, 1979; MSN, Brigham Young University, 1984; PhD, University of Utah, 1994.

Cheryl M. Hansen (1990) - Professor Emerita of French. BA, Weber State College, 1983; PhD, University of Utah, 1997.

Carol Hansen (1986) - Professor Emerita of Library Science. BA, Johnston College, University of Redlands, 1973, MS; University of Southern California, 1975.

Norma J. Hansen (1965) - Professor Emerita of Nursing. BS, MS, PhD, University of Utah, 1963, 1965, 1970.

Rodney A. Hansen (2004) - Professor Emeritus of Nutrition. BS, Idaho State University, 1986; MS, PhD, Colorado State University, 1993, 2003.

Verne W. Hansen (1987) - Associate Professor Emeritus of Electronics Engineering Technology. BS, ME, Brigham Young University, 1972, 1976.

Vicky S. Hansen (2015) - Instructor Emerita of Nursing. MSN, University of Washington, 2004.

Alma F. Harris (1973) - Professor Emeritus of Business Administration. BS, MS, Utah State University, 1963, 1972; PhD, Purdue University, 1973.

Wynn J. Harrison (1975) - Professor Emeritus of Radiologic Sciences. BS, MEd, Weber State College, 1979, 1980.

David G. Hart (1972) - Associate Professor Emeritus of Computer Science. BA, University of Utah, 1967; MS, Rensselaer Polytechnic Institute, 1972.

W. Bruce Haslam (1967) - Professor Emeritus of Psychology. BA, MA, PhD, Brigham Young University, 1961, 1966, 1970.

David S. Havertz (1965) - Professor Emeritus of Zoology. BS, MS, PhD, University of Utah, 1956, 1957, 1962.

Patricia P. Henry (1967) - Professor Emerita of Mathematics. BS, MS, PhD, University of Utah, 1960, 1965, 1972.

Kathleen M. Herndon (1989) - Professor Emerita of English. BA, Willamette University, 1969; MAT, Oregon College of Education, 1973; EdD, Vanderbilt University, 1988.

Warren R. Hill (1990) - Dean Emeritus of the College of Engineering, Applied Science & Technology and Professor Emeritus of Electronics Engineering. BS, University of Nebraska, 1963; MS, Wayne State University, 1968; Doctor of Engineering, University of Detroit, 1975.

Richard G. Hills (1964) - Professor Emeritus of Physics. BS, PhD, University of Utah, 1958, 1965.

Robert B. Hilton (1999) - Associate Professor Emeritus of Computer Science. BA, Weber State University, 1983; MS, Regis University, 2005.

William E. Hoggan (1987) - Assistant Professor Emeritus of Computer Science. BS, MS, University of Utah, 1964, 1967.

Robert M. Hogge (1989) - Professor Emeritus of English. BA, MA, Brigham Young University, 1967, 1969; PhD, University of Arizona, 1980.

Jay Hollingsworth (1965) - Associate Professor Emeritus of Health, Physical Education, Recreation, and Dance. BS, University of Southern California, 1963; MS, University of Utah, 1970; EdD, University of Missouri, 1975.

Ronald L. Holt (1986) - Professor Emeritus of Anthropology. BA, MA, Texas Tech University, 1974, 1976; PhD, University of Utah, 1987.

Diane S. Horne (1981) - Professor Emerita of Microbiology. BS, Mundelein College, 1966; PhD, Northwestern University, 1974.

Glen W. Howard (1973) - Professor Emeritus of Criminal Justice. BS, MSW, PhD, University of Utah, 1960, 1963, 1972.

Debra Huber (2008) - Professor Emerita of Nursing. AS, Weber State College, 1973; BS, University of Utah, 1977; MSN, Brigham Young University, 1988; PhD, University of Utah, 1998.

Pamela E. Hugie (1989) - Associate Professor Emerita of Nursing. BS, MS, University of Utah, 1971, 1993.

Kendall H. Hyde (1969) - Professor Emeritus of Mathematics. BS, University of Wyoming, 1959; MS, PhD, University of Utah, 1962, 1969.

Robert W. Irvine (1968) - Assistant Professor Emeritus of Mathematics. BA, MA, University of Utah, 1962, 1966.

James C. Jacobs (1985) - Professor Emeritus of Art. BFA, Jacksonville University, 1978; MFA, East Carolina University, 1982.

Gordon B. James (1981) - Professor Emeritus of Health Education. BS, MEd, PhD, University of Utah, 1968, 1975, 1977.

Helen J. James (1971) - Professor Emerita of Chemistry. BS, PhD, University of Nebraska, 1965, 1970.

Rondo N. Jeffery (1980) - Professor Emeritus of Physics. BS, MS, Brigham Young University, 1963, 1965; PhD, University of Illinois-Champaign, 1970.

Richard M. Jenson (1960) - Professor Emeritus of English. BS, MEd, EdD, Utah State University, 1952, 1959, 1984.

Becky L. Johns (1991) - Professor Emerita of Communication. BS, Weber State College, 1974; MA, Brigham Young University, 1981; PhD, University of Utah, 2001.

Paul R. Joines (1978) - Professor Emeritus of Performing Arts. BM, Kansas State University, 1962; MM, University of Texas, 1965; DMA, University of Oregon, 1975.

Cecil L. Jorgensen (1964) - Professor Emeritus of English. BS, MS, EdD, Utah State University, 1949, 1958, 1975.

Deborah M. Judd (2004) - Professor Emerita of Nursing. ASN, Brigham Young University, 1976; BS, MSN-NP, Georgia State School of Nursing, 1992, 1994; DNP, University of Alabama - Tuscaloosa, 2013.

Roydon O. Julander (1960) - Professor Emeritus of Political Science and Coordinator of Legal Studies program. BS, MS, PhD. University of Utah, 1958, 1962, 1987.

Terri L. Jurkiewicz (2006) - Associate Professor Emerita of Radiologic Sciences. BS, Weber State University, 1978; MS, Utah State University, 2003.

John Z. Kartchner (1967) - Assistant Professor Emeritus of Foreign Languages. BA, MA, Brigham Young University, 1963, 1967.

Diane M. Kawamura (1979) - Brady Presidential Distinguished Professor and Professor Emerita of Radiologic Sciences. BS, MEd, Weber State College, 1980, 1981; PhD, University of Utah, 1992.

Donald K. Keipp (1985) - Professor Emeritus of Performing Arts. BA, University of Northern Iowa, 1972; MA, DMA, University of Iowa, 1974, 1985.

Julie Killebrew (2000) - Associate Professor Emerita of Nursing. ADS, Weber State University; BSN, MSN, University of Utah, 1995, 1999.

Marie L. Kotter (1973) - Professor Emerita of Health Sciences. BS, MS, PhD, University of Utah, 1968, 1973, 1979.

M. Diane Krantz (1995) - Professor Emerita of English. BS, St Louis University, 1966; MA, Fairfield University, 1973; MA, PhD, University of California, Davis, 1989, 1994.

Raj Kumar (1974) - Professor Emeritus of Communication. BS, MS, Agra University, 1951, 1953; MEd, Government Pedagogical Institute, Allahabad, India, 1955; MA, Kent State University, 1971; PhD, Ohio University, 1989.

Ronald V. Ladwig (1982) - Professor Emeritus of Theatre Arts. BA, University of Denver, 1960; MA, California State University, 1967; PhD, Bowling Green State University, 1978.

LaRae Larkin (1991) - Associate Professor Emerita of History. BS, Brigham Young University, 1963; MS, Utah State University, 1976; PhD, University of Utah, 1990.

Lael Larsen (1973) - Assistant Professor Emerita of Nursing. BS, University of Utah, 1953; MSN, Brigham Young University, 1983.

Joanne L. Lawrence (1990) - Professor Emerita of Performing Arts. BA, University of Akron, 1977; MFA, University of North Carolina, 1987.

Shirley A. Leali (1993) - Professor Emerita of Teacher Education. BA, PhD, University of Denver; MA, University of Colorado.

Larry W. Leavitt (1984) - Professor Emeritus of Design Engineering Technology. BS, MS, Brigham Young University, 1973, 1985.

Ruby A. Licon (2005) - Associate Professor Emerita of Library Science. BA, University of California at Berkeley, 1969; MLS, Louisiana State University, 1982.

C. Daniel Litchford (1970) - Professor Emeritus of Professional Sales. BS, MS, Utah State University, 1969, 1972; EdD, Virginia Polytechnic, 1977.

E. Jeffery Livingston (1980) - Professor Emeritus of Business Administration. BS, Brigham Young University, 1968; MBA, University of Utah, 1969; PhD, Arizona State, 1974.

Jim W. Lochner (1970) - Professor Emeritus of Health and Physical Education. BA, Colorado State College, 1962; MA, Adams State College, 1964; EdD, University of Northern Colorado, 1969.

Karen Lofgreen (1979) - Professor Emerita of Teacher Education. BS, Utah State University, 1956; MEd, EdD, Brigham Young University, 1972, 1988.

Marilyn A. Lofgreen (1994) - Instructor Specialist Emerita of Teacher Education and Teacher Assistant Path to Teaching (TAPT) Director. BS, MEd, Weber State University, 1980, 1991; Administrative Endorsement, Utah State University, 1993.

William H. Lorowitz (2000) - Professor Emeritus of Microbiology. BS, Lehigh University, 1980; MS, University of Illinois, 1983; PhD, University of Oklahoma, 1994.

Scott A. Loughton (1976) - Associate Professor Emeritus of English. BS, Weber State College, 1971; MA, PhD, Brigham Young University, 1974, 1986

S. Jack Loughton (1987) - Professor Emeritus of Health Promotion and Human Performance. BS, University of Utah, 1968; MA, Utah State University, 1972; PhD, University of Utah, 1974.

Kathleen M. Lukken (1975) - Professor Emerita of Dental Hygiene. BS, Marquette University, 1970; MS, University of Iowa, 1975; PhD, University of Utah, 1985.

David R. Lynch (1999) - Professor Emeritus of Criminal Justice. BA, Brigham Young University, 1981; JD, Brigham Young University Law School, 1984; MA, PhD, State University of New York at Albany, 1994, 1996.

James R. MacBeth (1965) - Professor Emeritus of Visual Arts. BS, MFA, University of Utah, 1958, 1965.

James E. Macdonald (1982) - Professor Emeritus of Business Administration. BS, Eastern Illinois University, 1972; PhD, MBA/JD, Indiana University, 1980, 1981.

Kathryn L. MacKay (1988) - Professor Emerita of History. BA, University of California at Los Angeles, 1968; MA, PhD, University of Utah, 1973, 1987.

Laura G. MacLeod (1998) - Associate Professor Emerita of Web and User Experience. BS, Emporia State University, 1978; MS, Southwest Missouri State University, 1983; PhD, Northern Illinois University, 1990.

Susan Makov (1977) - Professor Emerita of Art. BFA, Syracuse University, 1974; Diploma, University of Brighton, 1975; MFA, State University of New York at Buffalo, 1977.

J. David Malone (2007) - Professor Emeritus of Accounting & Taxation. BBA, MBA, Southwest Texas State University, 1979, 1981; PhD, University of Arkansas, 1987.

Ronald M. Mano (1985) - Professor Emeritus of Accounting. BS, MBA, University of Utah, 1968, 1970; PhD, University of Nebraska, 1978.

Thomas J. Mathews (1996) - Professor Emeritus of Spanish. BA, Weber State University, 1981; MA, Middlebury College, 1984; PhD, University of Delaware, 1992.

David J. Matty (2011) - Professor Emeritus of Earth and Environmental Sciences. BS, Central Michigan University, 1977; MA, Portland State University, 1980; PhD, Rice University, 1984.

John C. (Jack) Mayhew, Jr. (2001) - Professor Emeritus of Teacher Education. BS, Plymouth State College, 1976; MS, PhD, University of Utah, 1994, 2001.

A. Earl McCain (1969) - Professor Emeritus of Education. BS, Peru State College, 1958; MA, New Mexico Highlands University, 1959; EdD, University of Northern Colorado, 1972.

Donald C. McCormick (1970) - Associate Professor Emeritus of Anthropology. BS, Brigham Young University, 1961; PhD, University of California-Berkeley, 1973.

Julanne K. McCulley (2005) - Associate Professor Emerita of Electronics Engineering Technology. BS, Weber State University, 1989, 2005; ME, Arizona State University.

Richard E. McDermott (1989) - Professor Emeritus of Accounting & Taxation and Healthcare Administration. BS, Brigham Young University, 1969; MS, University of Colorado, 1971; PhD, Oklahoma State University, 1984.

Chloe D. Merrill (1979) - Professor Emerita of Child and Family Studies. AS, College of Eastern Utah, 1976; BS, MS, Utah State University, 1977, 1979; PhD, Colorado State University, 1984.

Jimmie D. Merrill (1968) - Professor Emeritus of Education. BS, MS, Brigham Young University, 1956, 1967; EdD, University of Oregon, 1968.

Robert S. Mikkelsen (1955-60, 1965) - Professor Emeritus of English. BA, MA, PhD, University of Utah, 1950, 1953, 1971.

Jean Andra Miller (1962) - Professor Emerita of French. BA, University of Utah, 1960; MA, Harvard University, 1964; PhD, University of Utah, 1983.

Richard R. Miller (1969) - Professor Emeritus of Mathematics. BS, PhD, University of Utah, 1963, 1969.

Robert S. Milner (1988) - Associate Professor Emeritus of Manufacturing and Mechanical Engineering Technology. AAS, BIS, Weber State University, 1985, 1990. MS, Utah State University, 1994.

Madonne M. Miner (2007) - Professor Emerita of English. BA, Macalaster College, 1975; MA, University of Minnesota, 1978; PhD, SUNY-Buffalo, 1982.

Judith P. Mitchell (1984) - Professor Emerita of Teacher Education. BA, Stanford University, 1953; BS, Weber State College, 1973; MEd, Utah State University, 1975; PhD, University of Utah, 1981.

Monica G. Mize (1994) - Professor Emerita of Physical Education. BS, Indiana State University, 1972; MS, Eastern Illinois University, 1973; PhD, Southern Illinois University, 1979.

Pamela A. Molen (1981) - Associate Professor Emerita of Nursing. BS, California State University-Sonoma, 1976; MSN, University of California-San Francisco, 1978.

Steven A. Moss (1964) - Associate Professor Emeritus of Mathematics. BS, MS, University of Utah, 1957, 1959; MA, University of Illinois, 1964.

C. Thomas Musgrave (1969) - Professor Emeritus of Psychology. BS, University of Utah, 1957; MS, Utah State University, 1965; EdD, Utah State University, 1976.

Karen G. Nakaoka (1997) - Professor Emerita of Microbiology. BS, Ohio University, 1976; PhD, Ohio State University, 1981.

Vicki S. Napper (1999) - Professor Emerita of Teacher Education. BA, Weber State College, 1982; MS, PhD, Utah State University, 1991, 1997.

Mark J. Nelson (1973) - Professor Emeritus of Business Administration. BS, Brigham Young University, 1962; MBA, PhD, University of Oregon, 1964, 1969.

LaPrele Neville (1953) - Assistant Professor Emerita of Nursing. BS, Brigham Young University, 1950.

Kathryn T. Newton (2008) - Professor Emerita of Health Sciences. BS, Utah State University, 1980; MS, PhD, University of Utah, 2001, 2008.

Leonard A. Nicholas (1963) - Associate Professor Emeritus of Information Systems & Technologies. BS, Weber State College, 1967; MS, Colorado State, 1970.

Roger C. Nichols (1973) - Professor Emeritus of Clinical Laboratory Sciences. BS, Rickard College, 1963; MS, University of Utah, 1977.

Leonard Gary Nielsen (1977) - Professor Emeritus of Medical Laboratory Sciences. BS, Metropolitan State College, 1972; MS, University of Utah, 1977.

Karen E. Nielsen (1976) - Professor Emerita of Secondary Education. BS. University of Utah, 1967; MEd, EdD, Brigham Young University, 1972, 1979.

Michael D. Norman (1981) - Professor Emeritus of Criminal Justice. BA, Western Washington University, 1969; MA, EdD, University of Northern Colorado, 1978, 1980.

Clifford Nowell (1988) - Professor Emeritus of Economics. BA, MA, PhD, University of Wyoming, 1978, 1980, 1988.

Craig J. Oberg (1982) - Brady Presidential Distinguished Professor and Professor Emeritus of Microbiology. BS, Weber State College, 1979; PhD, Utah State University, 1985.

Linda K. Oda (1989) - Professor Emerita of Teacher Education. BS, Weber State College, 1967; MEd, Utah State University, 1980; EdD, Brigham Young University, 1987.

Janet Oja (2008) - Associate Professor Emerita of Medical Laboratory Science. BS, MHA, Weber State University, 1987, 2011.

Robert K. Okazaki (1998) - Professor Emeritus of Zoology. BA, University of California-Berkeley, 1971; MA, San Francisco State University, 1976; PhD, University of California-Santa Barbara, 1988.

Rick W. Orr (2000) - Professor Emeritus of Manufacturing and Systems Engineering . BS, MA, University of Utah, 1978, 1980; MS, Massachusetts Institute of Technology, 1985.

Dale A. Ostlie (1984) - Professor of Emeritus Physics. BA, St Olaf College, 1977; PhD, Iowa State University, 1982.

Lloyd Ott (1972) - Professor Emeritus of Professional Sales. BS, Southern Utah State College, 1968; MS, Utah State University, 1972.

H. Wayne Overson (1971) - Associate Professor Emeritus of Criminal Justice. BS, Weber State College, 1970; MS, Eastern Kentucky University, 1971; PhD, Claremont Graduate School, 1991.

Angelika Pagel (1986) - Professor Emerita of Visual Arts. BA, MA, University of California-Los Angeles, 1979, 1981; PhD, University of California-Berkeley, 1987.

Stacy E. Palen (2002) - Brady Presidential Distinguished Professor and Professor Emerita of Physics and Director of the Ott Planetarium. BA, Rutgers University, 1993; MS, PhD, University of Iowa, 1996, 1998.

Michael A. Palumbo (1982) - Professor of Music. BME, MA, University of Denver, 1967, 1971; DA, Ball State University, 1981.

Clayton Parkinson (1986) - Professor Emeritus of Health Sciences. DDS, Northwestern University, 1958; PhD, Utah State University, 1974.

Sharon B. Parkinson (1986) - Associate Professor Emerita of Social Work. BA, Southern Utah State College, 1982; MSW, University of Utah, 1986; EdD, Brigham Young University, 1990.

Joel C. Passey (1980) - Associate Professor Emeritus of Communication. BA, Utah State University, 1961; MA, University of Washington, 1969; PhD, University of Illinois, 1975.

Kathryn L. Payne (2000) - Associate Professor Emerita of Library Science. BA, MA, Washington University, St Louis, 1974, 1979; MA, PhD, University of Missouri, 1985, 1990.

A. Cordell Perkes (1979) - Professor Emeritus of Teacher Education. BS, MA, Utah State University, 1966, 1969; PhD, Ohio State University, 1973.

Levi S. Peterson (1965) - Professor Emeritus of English. BA, MA, Brigham Young University, 1958, 1960; PhD, University of Utah.

Ronald D. Peterson (1980) - Associate Professor Emeritus of Computer Science. BA, Weber State College, 1971; PhD, Cornell University, 1980.

Steven J. Peterson (2000) - Professor Emeritus of Construction and Building Sciences. BS, MBA, University of Utah, 1986, 1988.

June K. Phillips (1993) - Dean Emerita of the College of Arts and Humanities and Professor Emerita of Foreign Languages. BA, University of Pittsburgh, 1960; PhD, Ohio State University, 1974.

Paul D. Pitts (2000) - Associate Professor Emeritus of Teacher Education. BS, University of Utah, 1969; MEd, Utah State University, 1988; EdD, Brigham Young University, 1998.

Richard W. Pontius (2003) - Associate Professor Emeritus of Teacher Education. BA, MS, University of Wyoming, 1975, 1989; PhD, Ohio State University, 1993.

Sandra P. Powell (1990) - Associate Professor Emerita of Business Administration. BS, JD, MBA, PhD, University of Utah, 1967, 1977, 1986, 1992.

Judith P. Pratt (1990) - Associate Professor Emerita of Nursing. BS, Idaho State University, 1964; MSN, Brigham Young University, 1990.

Valory Quick (1983) - Associate Professor Emerita of Emergency Care and Rescue. BS, California State University-Long Beach, 1973; MS, Utah State University, 1988.

Victoria A. Ramirez (1999) - Professor Emerita of English. BA, MA, SUNY at Stony Brook, 1973, 1976; Postgraduate Diploma, St Andrews, Scotland, 1978; PhD, Binghamton University, NY, 1997.

Jack L. Rasmussen (2002) - Professor Emeritus of Teacher Education. BEd, Dipl in Ed, University of Lethbridge, 1977, 1987; MA, Gonzaga University, 1987; PhD, Brigham Young University, 1989.

T. R. Reddy (1966) - Professor Emeritus of Political Science. BA Honors, MA, University of Mysore, 1958, 1959; PhD, University of Kentucky, 1966.

Pamela Ann Rice (1984) - Associate Professor Emerita of Nursing. BS, Whitworth College, 1972; MS, Brigham Young University, 1993.

Franklin B. Richards (1984) - Professor Emeritus of Mathematics. BS, Rensselaer Polytechnic Institute, 1963; MS, Michigan State University, 1964; PhD, University of Wisconsin-Madison, 1970; LLB, University of Alberta, 1981.

Dick R. Rogers (1960) - Professor Emeritus of Mathematics. BS, MS, Utah State University, 1954, 1963; EdD, Oklahoma State University, 1971.

Brad L. Roghaar (1984) - Instructor Specialist Emeritus of English. BA, MA, University of Utah, 1974, 1980.

Stephen H. Russell (1991) - Professor Emeritus of Business Administration. BS, Brigham Young University, 1967; MS, Air Force Institute of Technology, 1974; PhD, Arizona State University, 1978.

Richard W. Sadler (1969) - Professor Emeritus of History. BS, MS, PhD, University of Utah, 1964, 1965, 1969.

Ty Sanders (1991) - Associate Professor Emeritus of Communication. BA, California State University, 1976; MA, Central Missouri University, 1990; PhD, University of Oregon, 2008.

Leland B. Sather (1970) - Professor Emeritus of History. BA, Augustana College, 1964; MA, University of Nebraska, 1967; PhD, University of California-Santa Barbara, 1975.

Allyson D. Saunders (2000) - Associate Dean for the College of Engineering, Applied Science & Technology and Professor Emerita of Network Technology and Business Multimedia. BS, Brigham Young University, 1979; MS, PhD, Utah State University, 1983, 1997.

Peggy J. Saunders (2004) - Professor Emerita of Teacher Education. BA, MEd, Weber State University, 1977, 1993; PhD, University of Utah, 2002.

Randolph J. Scott (1978) - Associate Professor Emeritus of Communication. BS, Weber State College, 1973; MA, Northern Illinois University, 1975; PhD, University of Oregon, 1989.

Spencer L. Seager (1961) - Professor Emeritus of Chemistry. BS, PhD, University of Utah, 1957, 1962.

Gene A. Sessions (1976) - Brady Presidential Distinguished Professor and Professor Emeritus of History. BA, Utah State University, 1970; MA, PhD, Florida State University, 1972, 1974.

Sterling D. Sessions (1974) - Professor Emeritus of Business Administration. BA, Brigham Young University, 1949; MS, New York University, 1950; DBA, Harvard, 1962.

Donald K. Sharpes (1978) - Professor Emeritus of Education. BA, MA, Gonzaga University, 1959, 1961; MA, Stanford University, 1968; PhD, Arizona State University, 1969.

Patricia L. Shaw (1991) - Professor Emerita of Health Administrative Services. BS, College of St Scholastica, Duluth, MN, 1981; MEd, Weber State University, 1997; EdD, Northcentral University, 2016.

John R. Sillito (1977) - Professor Emeritus of Library Science. BS, MA, University of Utah, 1970, 1973, 1977.

Allen F. Simkins (1976) - Professor Emeritus of Accounting. BS, Utah State University, 1969; MACC, Brigham Young University, 1970; PhD, Arizona State University, 1976.

C. Jan Slabaugh (1975) - Professor Emerita of Interior Design Technology. BS, Utah State University, 1958; MS, Iowa State University, 1967.

Michael R. Slabaugh (1971) - Professor Emeritus of Chemistry. BS, Purdue, 1965; PhD, Iowa State University, 1970.

Richard W. Sline (1982) - Professor Emeritus of Communication. BA, Drake University, 1969; MS, Southern Illinois University, 1972; PhD, University of Utah, 1999.

John E. Sohl (1990) - Brady Presidential Distinguished Professor and Professor Emeritus of Physics. BS, University of West Florida, 1979; MS, PhD, Ohio State University, 1986, 1990.

Lyneer C. Smith (1964) - Assistant Professor Emeritus of Music. BA, MS, Brigham Young University, 1951, 1952.

Molly M. Smith (1989) - Professor Emerita of Health Promotion and Human Performance. BS, University of Missouri, 1974; MS, University of Arizona, 1978; PhD, University of New Mexico, 1988.

R. Michael Smith (1985) - Professor Emeritus of Teacher Education. BS, BS, Weber State College, 1976, 1977; M. Ed, Utah State University, 1978; EdD, Brigham Young University, 1984.

Robert B. Smith (1981) - Provost Emeritus. BS, Wheaton College, 1958; PhD, University of California Berkeley, 1962.

William E. Smith (1981) - Professor Emeritus of Health Administrative Services. BS, Westchester State University, 1956; MS, Indiana University, 1957; EdD, Arizona State University, 1970.

Chris V. Soelberg (2004) - Associate Professor Emeritus of Construction and Building Sciences. BA, MPA, University of Utah, 1989.

Mohammad Sondossi (1991) - Professor Emeritus of Microbiology. BS, University of Azarabadehgan, 1974; MS, University of Detroit, 1978; PhD, Wayne State University, 1988.

Douglas M. Spainhower (1967) - Associate Professor Emeritus of English. BS, Brigham Young University, 1956; MA, California State College-Fullerton, 1967; EdD, Brigham Young University, 1988.

Tony Spanos (1974) - Professor Emeritus of Foreign Languages. BA, Weber State College, 1968; MA, University of Nevada-Reno, 1973; PhD, University of Utah, 1988.

Walther N. Spjeldvik (1985) - Professor Emeritus of Physics. E Art, U Pihl, 1965; CMag, Universitetet i Bergen, 1969; MS, PhD, University of California-Los Angeles, 1971, 1974.

Stephen S. Stanford (1965) - Professor Emeritus of Sociology. BS, MS, Brigham Young University, 1950, 1951; PhD, University of Colorado, 1959.

Bud W. Stephenson (1967) - Associate Professor Emeritus of Psychology. BS, MS. Utah State University, 1962, 1973; PhD, University of Minnesota, 1982.

Morris R. Sterrett (1973) - Associate Professor Emeritus of Criminal Justice. BA, MS, Brigham Young University, 1967, 1969; MA, PhD, Claremont Graduate School, 1983, 1984.

Steven J. Peterson (2000) - Professor Emeritus of Construction and Building Sciences. BS, MBA, University of Utah, 1986, 1988.

Alan E. Stockland (1970) - Professor Emeritus of Microbiology. BS, University of Nebraska, 1961; MS, PhD, Michigan State University, 1967, 1970.

H. Stephen Stoker (1968) - Professor Emeritus of Chemistry. BA, University of Utah, 1963; PhD, University of Wisconsin, 1968.

Jeffery D. Stokes (1985) - Professor Emeritus of Spanish. BA, Weber State College, 1975; MA, University of Utah, 1977; PhD, Indiana University, 1981.

Jerald T. Storey (1964) - Professor Emeritus of Management. BS, Brigham Young University, 1957; MBA, PhD, University of Utah, 1964, 1972.

James G. Swearingen (1985) - Professor Emeritus of Accounting. BS, MBA, University of Utah, 1971, 1972; PhD, University of Washington, 1982.

Eva L. Szalay (1999) - Professor Emerita of German. BS, Virginia Polytechnic Institute and State University; MS, PhD, Georgetown University, 1998.

Alden A. Talbot (1975) - Professor Emeritus of Telecommunications. BS, Weber State College, 1967; MS, Utah State University, 1969; PhD, University of Iowa, 1976.

John S. Thaeler (1982) - Associate Professor Emeritus of Mathematics. BA, MAT, Duke University, 1960, 1961; BS, University of Utah, 1968; PhD, Florida State University, 1981.

Joan S. Thompson (1988) - Professor Emerita of Nutrition. BS, University of California-Berkeley, 1978; MS, PhD, University of Arizona, 1981, 1983.

Blaine R. Thornock (1970) - Associate Professor Emeritus of Mechanical Engineering Technology. BS, MIE, Utah State University, 1961, 1979.

Roy D. Thornock (1982) - Professor Emeritus of Manufacturing Engineering Technology. BS, Utah State University, 1964; MS, Colorado State University, 1974.

Susan B. Thornock (1998) - Professor Emerita of Nursing. BSN, Weber State University, 1993; MS, University of Utah, 1998, EdD, Northcentral University, 2013.

Van M. Tinkham (1993) - Professor Emeritus of Performing Arts. BA, MA, Indiana University, 1973, 1975; MFA, Indiana University, 2003.

Michael A. Toth (1975) - Professor Emeritus of Sociology. BS, MS, PhD, University of Utah, 1960, 1964, 1973.

E. K. Valentin (1984) - Professor Emeritus of Marketing and Business Administration. BS, MBA, PhD, University of Utah, 1970, 1971, 1979.

Richard Vandenberg (1987) - Professor Emeritus of Automotive Engineering Technology. BGS, Weber State College, 1977, MED, Utah State University, 1970.

W. Roy Van Orman (1977) - Associate Professor Emeritus of Gerontology. BS, Weber State College, 1964; MSW, University of Utah, 1967; MPA, University of Southern California, 1972; EdD, Brigham Young University, 1984.

Jane A. Van Valkenburg (1973) - Professor Emerita of Radiologic Sciences. BS, Weber State College, 1973; MEd, Weber State College, 1980; PhD, University of Utah, 1989.

Michael B. Vaughan (1981) - Brady Presidential Distinguished Professor and Professor Emeritus of Economics. BS, MBA, University of Arkansas, 1976, 1977; PhD, University of Nebraska, 1981.

L. Mikel Vause (1983) - Brady Presidential Distinguished Professor and Professor Emeritus of English. BS, Weber State College, 1981; MA, PhD, Bowling Green State University, 1982, 1986.

Peter J. Vernezze (1990) - Associate Professor Emeritus of Philosophy. BA, University of Wisconsin at Madison, 1982; MA, University of Illinois at Chicago, 1985; PhD, University of Washington, 1989.

Barbara A. Wachocki (1991) - Professor Emerita of Botany. BS, MS, PhD, Wayne State University, 1980, 1984, 1992.

Robert C. Wadman (1997) - Professor Emeritus of Criminal Justice. AA, Dan Diego City College, 1968; BS, MPA, Brigham Young University, 1970, 1975; DA, Idaho State University, 1998.

Wayne L. Wahlquist (1964) - Professor Emeritus of Geography. BA, MA, Brigham Young University, 1958, 1961; PhD, University of Nebraska, 1974.

Robert E. Wallentine (1963) - Professor Emeritus of Manufacturing Engineering Technology. BS, MS, Utah State University, 1959, 1970.

Leland A. Walser (1967) - Professor Emeritus of Foreign Languages. BA, MA, Brigham Young University, 1964, 1967; PhD, University of Utah, 1975.

R. Kenneth Walter (1982) - Professor Emeritus of Computer Science. BS, PhD, Brigham Young University, 1964, 1970.

Wangari wa Nyatetu-Waigwa (1990) - Professor Emerita of Foreign Languages. BA, Université de Dijon, 1974; MA, PhD, University of Utah, 1983, 1989.

Joyce E. Wanta (1969) - Associate Professor Emerita of Respiratory Therapy. BS, EdS, University of Utah, 1961, 1980.

Margaret T. Waterfall (1962) - Associate Professor Emerita of Health, Physical Education, Recreation, and Dance. BS, MFA, University of Utah, 1962, 1968.

Helena B. Watson (1967) - Assistant Professor Emerita of Elementary Education. BS, Utah State University, 1960; MS, Montana State University, 1961.

Garth L. Welch (1964) - Professor Emeritus of Chemistry. BS, PhD, University of Utah 1959, 1963.

Glen J. Wiese (1959) - Professor Emeritus of English. BA, MA, Brigham Young University, 1958, 1959; PhD, University of Utah, 1971.

Carla Wiggins (2013) - Professor Emerita of Health Administrative Services. BS, Ithaca College, 1985; PhD, University of Minnesota, 1994.

Floyd A. Wilkes (1982) - Associate Professor Emeritus of Information Systems & Technologies. BS, Brigham Young University, 1959; MS, PhD, University of Oregon, 1972, 1987.

Gary D. Willden (1977) - Professor Emeritus of Health Promotion and Human Performance. BS, MA, Brigham Young University, 1972, 1973; EdD, University of Utah, 1983 (CLP).

Benne D. Williams (1958) - Professor Emeritus of Psychology. BS, Utah State University, 1958; MS, Utah State University, 1959; EdD, Utah State University, 1965.

Deanna L. Williams (1979) - Associate Professor Emeritus of Nursing. BS, Brigham Young University, 1966; MS, Pittsburgh State University, 1976.

James R. Wilson (1982) - Professor Emeritus of Earth and Environmental Sciences. BS, Auburn University, 1967; MS, University Tennessee, 1973; PhD, University of Utah, 1976.

Lydia Wingate (1998) - Dean Emerita Dr. Ezekiel R. Dumke College of Health Professions. BS, University of Leeds, 1956; MS, Albany Medical College, Union University, 1978; PhD, State University of New York, 1984.

Joseph Wolfe (2007) - Associate Professor Emeritus of Construction and Building Sciences. BS, Auburn University, 1963; MBA, University of North Florida, 1982.

Ray E. Wong (1980) - Professor Emeritus of Teacher Education. BA, Temple University, 1970; MA, Northeast Missouri State University, 1974; PhD, Iowa State University, 1992.

Ronald L. Wooden (1967) - Professor Emeritus of Music. BS, MS, Utah State University, 1961, 1965; PhD, University of Utah, 1975.

Scott H. Wright (1998) - Professor Emeritus of Medical Laboratory Science. BS, Weber State College, 1978; MS, Idaho State University, 1980.

Gloria Z. Wurst (1978) - Professor Emerita of Zoology. BS, Juniata College, 1966; MS, PhD, University of Pittsburgh, 1970, 1974.

Samuel I. Zeveloff (1984) - Brady Presidential Distinguished Professor and Professor Emeritus of Zoology. BA, State University of New York-Binghamton, 1972; MEd, City College of New York; 1973 MS, North Carolina State University, 1976; PhD, University of Wyoming, 1982.

James E. Young (1988) - Professor Emeritus of English. BA, Tulane University, 1962; MA, PhD, Peabody College of Vanderbilt University, 1971, 1979.

Catherine A. Zublin (1986) - Professor Emerita of Theatre Arts. BA, University of Colorado-Boulder, 1977; MFA, Indiana University-Bloomington, 1986.

Jadelyn Abbott (2022) - Assistant Professor of Teacher Education. BA, Pacific University, 2013; MA, EdD, Boise State University, 2018, 2022.

Brenda Acor (2003) - Instructor of Mathematics. BA, Southern Utah University, 1990; MEd, Weber State University, 1999; MA, Brigham Young University, 2003.

Brock Adams (2017) - Assistant Professor of Professional Sales. BS, Dixie State University, 2009; MA, Southern Utah University, 2012; PhD, Louisiana State University, 2018.

Mark S. Adams (2014) - Associate Professor of Child & Family Studies. BS, Brigham Young University, 1996; MS, University of Arizona, 1999; PhD, Texas Tech University, 2005.

Shaun Adamson (2008) - Professor of Library Science. BA, MA, University of South Florida, 1994, 1996; PhD, Walden University, 2008.

Jude Yaw Agboada (2021) - Assistant Professor of Graphic Design. BA, Kwame Nkrumah University of Science and Technology, 2013; MFA, School of the Art Institute of Chicago, 2019.

Christina S. Aguilar (2017) - Instructor of Health and Physical Education. BS, MS, University of Connecticut, 2012, 2014.

David Aguilar-Alvarez (2015) - Department Chair of Exercise and Nutrition Sciences and Assistant Professor of Nutrition. BS, Technological Institute of Sonora, MS, PhD, University of Connecticut, 2012, 2014.

Nazneen Ahmad (2006) - Professor of Economics. BS, MS, Jahangirnagar University, 1994, 1996; MA, York University, 2000; MS, PhD, University of New Orleans, 2005.

Jee Hae (Esther) Ahn (2022) - Assistant Professor of Piano. BM, MM, New England Conservatory, 2014, 2015; DMA, Eastman School of Music - University of Rochester, 2021.

Mahmud Akelbek (2010) - Associate Professor of Mathematics. BS, MS, Xinjiang University, 1996, 1999; PhD, University of Regina, 2008.

Melina Alexander (2005) - Professor of Teacher Education. BS, Weber State University, 1990; MS, Weber State University, 1996; PhD, Utah State University, 2005.

Abdulmalek Al-Gahmi (2017) - Assistant Professor of Computer Science. BS, Sana'a University, 1997; MS, PhD, New Mexico State University, 2002, 2008.

Anthony T. Allred (1996) - Professor Business Administration. BGS, Weber State University, 1984; PhD, Oklahoma State University, 1997.

Sarah C. Allred (2022) - Assistant Professor of Respiratory Therapy. BS, MS, Weber State University, 2019, 2021.

Noël T. Alton (2020) - Assistant Professor of Web and User Experience, School of Computing. BS, MS, Brigham Young University, 2005, 2010; DS, University of Baltimore, 2019.

Clinton L. Amos (2013) - Associate Professor of Business Administration. BBA, Northeastern State University, 1999; MBA, Dallas Baptist University, 2002; PhD, University of North Texas, 2008.

Eric D. Amsel (1996) - Associate Provost: Academic Programs and Assessment; Brady Presidential Distinguished Professor and Professor of Psychology. BA, McGill University-Montreal Canada, 1979; MEd, Harvard Graduate-Cambridge, 1980; PhD, Columbia University, 1986.

Nicole A. Anderson (2020) - Assistant Professor of Computer Science. BS, MS, University of Iowa, 1998, 2000; PhD, University of Utah, 2007.

Jennifer S. Anderson (2014) - Associate Professor of Management. BA, MBA, University of Washington, 1990, 1999; PhD, University of Arizona, 2014.

Natalie M. Anderson (2021) - Instructor and Concurrent Enrollment Math Coordinator. BS, MS, University of Utah, 2014, 2017.

Sheila Anderson (2014) - Associate Professor of Child & Family Studies. BS, University of Utah, 1994; MEd, Weber State University, 2004; PhD, Utah State University, 2012.

Adrienne Andrews (2005) - Assistant Vice President for Diversity & Chief Diversity Officer. BA, University of Utah, 1993, 1996; MS, Minnesota State University, Mankato, 1997; MA, Rutgers, the State University of New Jersey, 2001.

Rachel E. Ardern (2017) - Assistant Professor of Nursing. BN, Queensland University of Technology, 1997; MN, University of Southern Queensland, 2007; DHS, Queensland University of Technology, 2022.

Tariq Mohammad Arif (2019) - Assistant Professor of Mechanical Engineering. BSc, Bangladesh University of Engineering and Technology, 2005; M.Sc., University of Tokushima, 2011; PhD., New Jersey Institute of Technology, 2017.

John C. Armstrong (2003) - Professor of Physics. BS, University of Iowa, 1998; MS, PhD, University of Washington, 2001, 2003.

Kristen J. Arnold (2010) - Associate Professor of Interior Design. BS, MEd, Weber State University, 2005, 2008.

Michelle L. Arnold (2002) - Associate Professor of Physics. BS, University of Winnipeg, 1996; PhD, McMaster University, 2000.

Tony J. Asay (2008) - Instructor of Developmental English. BA, Brigham Young University, 2004; MA, Weber State University, 2008.

Isabel Asensio (2006) - Department Chair of Foreign Languages and Professor of Spanish. BA, University of Extremadura, 1999; MA, University of Kentucky, 2001; MA, PhD, Vanderbilt University, 2004, 2006.

Aaron L. Ashley (2006) - Department Chair and Professor of Psychology. BA, University of North Carolina at Greensboro, 1995; MA, Ball State University, 2000; PhD, University of Memphis, 2004.

Michael K. Ault (2016) - Associate Professor of Communication. BS, MA, Southern Utah University, 2007, 2012; PhD, University of Oklahoma 2016.

Rachel M. Bachman (2013) - Associate Professor of Mathematics. BS, The Pennsylvania State University, 2007; MA, EdD, Binghamton University, 2009, 2013.

Ashley D. Badali (2020) - Instructor of Interior Design. BS, Weber State University, 2017; MEd, Western Governors University, 2018.

Elizabeth A. Balgord (2015) - Assistant Professor of Earth and Environmental Sciences. BS, University of Wisconsin, 2009; MS, Idaho State University, 2011; PhD, University of Arizona, 2015.

Robert G. Ball (2015) - Associate Professor of Computer Science. BS, MS, Brigham Young University, 2002, 2003; PhD, Virginia Polytechnic Institute and State University, 2006.

Suzanne H. Ballingham (2018) - Instructor of Nursing. BSN, University of Phoenix, 1996; MSN-FNP, Westminster College, 2001.

Andrea M. Baltazar (2017) - Assistant Professor of Communication. BA, University of California, 2008; MFA, Pepperdine University, 2017.

Mikelle Barberi-Weil (2015) - Instructor of Professional Sales. BS, Weber State University, 2014; MS, University of Southern California, 2018.

Evan T. Barlow (2016) - Assistant Professor of Supply Chain Management. BS, Brigham Young University, 2004; MS, University of Texas, 2007; PhD, Northwestern University, 2016.

Joyce Marie Barra (2010) - Instructor of Nursing. BS, Northern Illinois University, 1980; MS, PhD, University of Utah, 1992, 2005.

Jason E. Barrett-Fox (2016) - Assistant Professor of English and Director of Composition. BA, Bethel College, 2001; MA, PhD, University of Kansas, 2004, 2013.

Steven B. Bateman (2017) - Executive in Residence and Instructor of Health Administration. BA, Weber State College, 1982; MBA, Utah State University, 1985.

Vincent C. Bates (2012) - Professor of Teacher Education. BM, MM, Brigham Young University, 1992, 1996; PhD, University of Arizona, 2005.

Diego Rey Batista (2011) - Professor of Spanish. BA, Brigham Young University, 2001; MA, California State University Fullerton, 2005; PhD, University of Oklahoma, 2011.

Micah J. Bauer (2016) - Assistant Professor of Visual Arts & Design. BFA, Brigham Young University, 2003; MFA, Utah State University, 2015.

Mark R. Baugh (2004) - Professor of Manufacturing and Systems Engineering. BS, University of Utah, 1990; MS, Utah State University, 1996.

Bruce K. Bayley (2007) - Professor of Criminal Justice. BS, MS, University of Utah, 1997, 1999; PhD, Utah State University, 2002.

Nicole A. Beatty (2012) - Associate Professor of Library Science and Arts and Humanities Librarian. BA, University of Northern Colorado, 1998; MA, University of Illinois, 2001; MLS, Indiana University, 2007.

Steven Kendal Beazer (2016) - Associate Professor of Medical Laboratory Sciences. BS, MHA, Weber State University, 2010, 2014.

Daniel Bedford (2002) - Brady Presidential Distinguished Professor and Professor of Geography. BA, University of Oxford, 1990; MS, PhD, University of Colorado, 1992, 1997.

Craig N. Bergeson (1999) - Professor of Spanish. BA, Weber State University, 1991; MA, University of Nevada, 1993; PhD, University of Colorado, 1998.

Henry Laine Berghout (2000) - Associate Dean of College of Science and Professor of Chemistry. AA, BS, Weber State University, 1991, 1992; PhD, University of Wisconsin-Madison, 1998.

Tamara P. Berghout (2013) - Associate Professor of Nursing. BS, MSN, Weber State University, 2007, 2011; EdD, Walden University, 2019.

Javier Álvaro Berzal Rojo (2021) - Instructor of Spanish. MA, Universidad Rey Juan Carlos, Spain, 2007; MA, Universitat Oberta de Catalunya, Spain, 2011.

Cynthia K. Beynon (2015) - Instructor of Nursing. BS, MSN, Weber State University, 2012, 2015; PhD, University of Utah, 2020.

Anne M. Bialowas (2008) - Professor of Communication. BA, University of Puget Sound, 1998; MA, California State University Sacramento, 2002; PhD, University of Utah, 2009.

Mark O. Bigler (1999) - Department Chair of Social Work & Gerontology and Professor of Social Work. BA, MSW, University of Utah, 1985, 1987; PhD, New York University, 1992.

Dustin S. Birch (2011) - Professor of Mechanical Engineering. BS, MS, University of Utah, 1997, 2000; PhD, Colorado State University, 2021.

Timothy E. Black (2021) - Assistant Professor of Psychology. BA, Drury University, 2013; MS, PhD, Oklahoma State University, 2019, 2021.

Joseph F. Blake (2019) - Assistant Professor of Dance. BFA, University of Utah, 2003; MFA, University of Washington, 2017.

Barrett A. T. Bonella (2013) - Associate Professor of Social Work. BS, Westminster College, MSW, MBA, PhD, University of Utah, 2006, 2008, 2011.

Timothy E. Border (2008) - Associate Professor of Professional Sales. BS, Weber State College, 1986; MS, Utah State University, 1988.

Eric W. Bottelberghe (2021) - Instructor of Nursing. BA, Utah State University, 2011; BS, MSN, Weber State University, 2015, 2018.

Monica Bottelberghe (2015) - Instructor of Nursing. BSN, Weber State University, 2012; MSN, Western Governors University, 2014.

Randall J. Boyle (2015) - Professor of Management Information Systems. BS, MPA, Brigham Young University, 1998, 2000; PhD, Florida State University, 2003.

Rebecka Brasso (2018) - Associate Professor of Zoology. BS, University of North Carolina, 2004; MS, The College of William and Mary, 2007; PhD, University of North Carolina, 2014.

Ivy M. Brenneman (2022) - Instructor of Visual Arts. BFA, Brown University, 2015; MFA, Indiana University, 2022.

Delroy A. Brinkerhoff (1996) - Professor of Computer Science. BS, Brigham Young University, 1984; MS, PhD, Utah State University, 1996, 2010.

Mackenzie K. Bristow (2020) - Instructor of Computer Science. BS, Weber State University, 2019.

Shawn D. Broderick (2016) - Associate Professor of Math Education. BA, Arizona State University, 2003; MA, Brigham Young University, 2009; PhD, University of Georgia, 2013.

Brady M. Brower (2007) - Professor of History. BA, University of Idaho, 1993; MA, University of Colorado, 1996; PhD, Rutgers University, 2005.

Fon R. Brown (2010) - Department Chair and Professor of Electrical Engineering. BS, Utah State University, 1984; MS, Brigham Young University, 1989; PhD, Utah State University, 1998.

Karen Bruestle (2001) - Professor of Performing Arts. BM, MFA, University of Utah, 1985, 1990; DMA, Arizona State University, 1997.

Jeremy G. Bryson (2013) - Associate Professor of Geography. BS, Brigham Young University, 2004; MS, Montana State University, 2006; PhD, Syracuse University, 2010.

J. Samuel Bryson (2020) - Instructor of Music. BM, Utah State University, 2009; MM, Northern Arizona University, 2012.

Amy J. Buckway (2014) - Associate Professor of Nursing. BS, Weber State University, 1997; MSN, University of Phoenix, 2004; EdD, Walden University, 2019.

Brandon J. Burnett (2015) - Department Chair and Assistant Professor of Chemistry. BS, Weber State University, 2009; PhD, University of Nebraska, 2013.

Justin V. Burr (2020) - Assistant Professor of Health Sciences. BS, Weber State University, 2012; DPT, New York University, 2016.

J. Russell Burrows (1993) - Professor of English. BA, Weber State College, 1977; MA, Brigham Young University, 1982; PhD, Bowling Green State University, 1987.

Russell C. Butler (2016) - Instructor of Construction and Building Sciences. BS, Brigham Young University, 1994; MBA, Brigham Young University, 2001.

David R. Byrd (2008) - Professor of Teacher Education. BA, Brigham Young University, 1989; MA, University of Arizona, 1993; PhD, University of Iowa, 2007.

Kathleen E. P. Cadman (2013) - Associate Professor of Nursing. BS, MSN, Western Governors University, 2012, 2013; PhD, University of Nevada, 2018.

Chloe Cai (2008) - Professor of Mathematics. BS, Hebei Normal University, 1997; MS, PhD, West Virginia University, 2004, 2008.

Ryan F. Cain (2018) - Instructor of Teacher Education. BA, University of Buffalo, 2001; MAT, Queens College, 2006; PhD, Utah State University, 2019.

Kimberlee Caldwell (2014) - Assistant Professor of Dental Hygiene. BS, MEd, Weber State University, 2005, 2012.

Christy A. Call (2008) - Director of Honors and Assistant Professor of English. BA, MA, Weber State University, 1999, 2004; PhD, University of Utah, 2015.

Tracy L. Callahan (1995) - Professor of Performing Arts. BFA, Florida State University, 1982; MFA, University of Florida, 1987.

Carey L. Campbell (2008) - Associate Professor of Music. BM, Mars Hill College, 1996; MM, University of Texas-El Paso, 2001; MA, PhD, University of Minnesota, 2005, 2008.

Carol J. Campbell (2012) - Instructor of Chemistry. BS, Northern Arizona University; PhD, Utah State University, 1987,

Darcy Carter (2011) - Department Chair, Director of Master of Health Administration Program and Associate Professor of Health Administrative Services. BS, MHA, Weber State University, 2007, 2010; DHSc, A.T. Still University, 2016.

Lisa T. Carver (2022) - Instructor of Nursing. BS, Weber State University, 2003; MSN, University of Utah, 2017.

John F. Cavitt (1999) - Brady Presidential Distinguished Professor and Professor of Zoology and Director of Undergraduate Research. BS, MS, Illinois State University, 1990, 1993; PhD, Kansas State University, 1998.

Valerie Chambers (2017) - Assistant Professor of Accounting & Taxation. BPAcc, Oklahoma Baptist University, 2005; MACC, PhD, Arizona State University, 2010, 2017.

Julian D. Chan (2011) - Professor of Mathematics. BS, University of Washington, 2005; MS, PhD, University of Utah, 2007, 2011.

Matthew P. Choberka (2005) - Professor of Art. BA, Columbia College, 1993; MFA, Indiana University, 2005.

Rex T. Christensen (2008) - Associate Professor of Radiologic Sciences. BS, MHA, Weber State University, 1993, 2008.

Arpit Christy (2019) - Assistant Professor of Computer Science. BE, Dharmsinh Desai University, 2004; MS, Sacramento State University, 2007; PhD, Oregon State University, 2019.

Brian M. Chung (2007) - Professor of Zoology. BA, PhD, University of Calgary, 1995, 2001.

Victor S. Clampitt (2017) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 1989, 2013.

Daniel N. Clark (2017) - Assistant Professor of Microbiology. BS, Weber State University, 2007; PhD, Brigham Young University, 2013.

Heather J. Clark (2011) - Associate Professor of Nursing. BSN, MSN, Weber State University, 2009, 2011, DNP, Grand Canyon University, 2021.

Jonathan B. Clark (1998) - Professor of Zoology. BS, Bowling Green State University, 1981; PhD, Ohio State University, 1990.

Juan Carlos Claudio (2022) - Instructor of Dance. BS, Utah State University, 1995; MFA, University of Utah, 2009.

Amie Chere Clawson (2022) - Instructor of Medical Laboratory Sciences. BS, Weber State University, 2007.

Jeffrey A. Clements (2015) - Assistant Professor of Management Information Systems. BS, MS, University of Utah, 2008, 2010; PhD, Florida State University, 2014.

Laurie S. Coburn (2018) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2013, 2016; EdD, A.T. Still University, 2019.

Mihail Cocos (2007) - Associate Professor of Mathematics. BS, University of Bucharest, 1994; MS, University of New Mexico, 1998; PhD, University of British Columbia, 2003.

Alysia Cohen (2018) - Assistant Professor of Athletic Training. BS, Oregon State University, 2002; MA, Boise State University, 2005; MPH, PhD, Oregon State University, 2015.

James I. Cohen (2020) - Assistant Professor, Plant Taxonomy. BS, University of Michigan, 2002; PhD, Cornell University, 2010.

Alex M. Collopy (2019) - Assistant Professor of Child & Family Studies. BS, PhD, The Pennsylvania State University, 2014, 2019.

George E. Comber (2000) - Professor of Manufacturing and Systems Engineering. BS, MS, Brigham Young University.

Nicola A. Corbin (2013) - Associate Professor of Communication. BA, Seton Hall University, 1999; MA, New York University, 2003; PhD, University of Georgia, 2013.

Jonathan M. Cornell (2020) - Assistant Professor of Physics. BS, MS, PhD, University of California, 2006, 2011, 2015.

Darcie M. Costello (2016) - Assistant Professor of Accounting and Taxation. BS, Xavier University, 2001; MT, University of Denver, 2002; PhD, Washington State University, 2014.

Shelly M. Costley (2005) - Associate Professor of Dental Hygiene. BS, MEd, Weber State University, 1989, 2006.

Brian M. Cottle (2015) - Instructor of Health Administrative Services. BS, MHA, Weber State University, 2004, 2008.

Tracy M. Covey (2014) - Associate Professor of Chemistry. BS, University of Dallac, 2001; PhD, University of Utah, 2007.

Ted Cowan (2009) - Instructor of Computer Science. BS, Weber State University, 1989; MBA, University of Phoenix, 1999.

Courtney L. Craggett (2018) - Assistant Professor of English. BS, BA, LeTourneau University, 2008; PhD, University of North Texas, 2016.

Hal Crimmel (2001) - Brady Presidential Distinguished Professor and Department Chair and Professor of English. AB, Colby College, 1988; MA, PhD, State University of New York at Albany, 1993, 1997.

Matthew B. Crook (2017) - Assistant Professor of Microbiology. BS, PhD, Brigham Young University, 2006, 2013.

Paul H. Crow (2011) - Department Chair of Visual Art and Design and Professor of Art. BA, University of Texas, 1988; MFA, University of Southern California, 2005.

Michele D. Culumber (2004) - Department Chair and Professor of Microbiology. BS, Eastern Illinois University, 1995; PhD, University of Wisconsin, 2002.

Kenton J. E. Cummins (2013) - Director of Clinical Education and Instructor of Physician Assistant Studies. BS, MHA, Weber State University, 2013, 2017.

Rebekah L. Cumpsty (2017) - Assistant Professor of English. BA, MA, University of Cape Town, 2006, 2010; PhD, University of York, 2016.

Sara E. Dant (2001) - Brady Presidential Distinguished Professor and Department Chair and Professor of History. BS, Northern Arizona University, 1989; MA, PhD, Washington State University, 1991, 2000.

Charles F. Davidson (1997) - Professor of Chemistry. BS, Weber State University, 1973; PhD, University of Utah, 1977.

Don R. Davies (2001) - Professor of Chemistry. BS, Southern Utah University, 1993; PhD, University of Nebraska-Lincoln, 1998.

Jefferson T. Davis (1999) - Professor of Accounting & Taxation. BS, Utah State University; MS, Utah State University; PhD, University of Tennessee-Knoxville.

Shirley A. Dawson (2013) - Associate Professor of Teacher Education. BS, MEd, PhD, University of Utah.

Alan J. Dayley (1962) - Assistant Dean of Students, Davis Campus, and Professor of Psychology. BS, Brigham Young University, 1959; MA, PhD, University of Utah, 1961, 1964.

C. Francisco de Galvez (2013) - Professor of Music and Orchestra Director. MA, McGill University, 1993; PhD, Málaga University, 2012.

Vikki J. Deakin (2005) - Professor of History. BA, MA, PhD, University of Missouri-Columbia, 1993, 1996, 2002.

Nicholas E. Dean (2021) - Assistant Professor of Physician Assistant Studies. BS, Weber State University, 2010; MPAS, Oregon Health & Science University, 2016.

Nicole L. Defenbaugh (2021) - Associate Professor of Organizational Communication. BA, University of Wisconsin, 1998; MA, Northern Illinois University, 2000; PhD, Southern Illinois University, 2007.

Mark W. Denniston (2013) - Associate Professor of Criminal Justice. BA, Simpson College, 1997; JD, University of Iowa, 2000; MA, PhD, University of Colorado, 2007, 2012.

Kathren L. Diamond (2020) - Instructor of Dental Hygiene. BS, Weber State University, 2001; MS, Idaho State University, 2017.

Shannon A. Dixon (2018) - Instructor of Mathematics. BA, Brigham Young University, 1992; BS, MS, Utah State University, 2014, 2017.

Matthew Donahue (2012) - Associate Professor of Athletic Training. BS, University of New Hampshire, 2006; MS, PhD, Indiana University, 2008; 2012

Bryan S. Dorsey (1997) - Professor of Geography and Coordinator of Urban and Regional Planning. BS, Utah State University, 1985; MA, PhD, University of Colorado, 1992, 1996.

Bryan T. Dowdell (2021) - Assistant Professor of Exercise and Sport Science. BS, MS, The University of Akron, 2013, 2015; PhD, Kent State University, 2020.

Andrew T. Drake (2014) - Instructor of Network Management Technology. BA, MBA, Weber State University, 2004, 2009.

London Draper (2000) - Professor of Nursing. BS, Weber State University, 1989; MSN, University of Texas at Austin, 1994; PhD, University of Northern Colorado, 2016.

Linda P. DuHadway (2016) - Associate Professor of Computer Science. BS, MS, Utah State University, 2000, 2002; PhD, University of Utah, 2016.

Laurel K. Duncan (2022) - Instructor of Respiratory Therapy. BS, Weber State University, 2019.

Charles R. Dunn (2016) - Assistant Professor of Child and Family Studies. BS, PhD, Utah State University, 2001, 2016.

Christopher W. Dunn (2016) - Instructor of Developmental Math. BS, University of Utah, 1998; MA, Western Governors University, 2007.

Shellee D. Dyer (2020) - Assistant Professor of Engineering. BS, MS, PhD, University of Utah, 1990, 1994, 19956.

Jeremy S. Dyke (2022) - Assistant Professor of Medical Microbiology. BS, University of New Mexico, 2014; PhD, University of Georgia, 2020.

Andrea L. Easter-Pilcher (2018) - Dean of the College of Science and Professor of Zoology. BA, Bowdoin College; MS, University of Montana, 1987; PhD, Montana State University, 1993.

Paul G. Eberle (1987) - Professor of Respiratory Therapy. BS, MEd, Weber State University, 1984, 1993; PhD, University of Utah, 2008.

Chris A. Eisenbarth (2008) - Professor of Health and Physical Education. BA, Pacific University, 1994; MS, Boise State University, 1997; PhD, Oregon State University, 2003.

Ryan K. Evans (2021) - Instructor of English. BA, Brigham Young University, 2010; MA, Weber State University, 2012; MPhil, Lancaster University, 2019.

Eric C. Ewert (2001) - Department Chair and Professor of Geography. BS, Northern Arizona University, 1987; MA, University of Oregon, 1990; PhD, University of Idaho, 2003.

Nicole M. Falkenberg (2019) - Instructor of Manufacturing and Systems Engineering. BSE, MSE, University of Michigan, 2002, 2003.

Yuhong Fan (2005) - Professor of Finance. BE, ME, Xi'an University of Architecture and Technology, 1994, 1997; PhD, Old Dominion University, 2004.

Jeremy R. Farner (2008) - Associate Professor of Construction and Building Sciences. BS, Weber State University, 2003; MS, Purdue University, 2011.

David E. Feller (1989) - Professor of Performing Arts. BA, Brigham Young University, 1976; MA, DMA, Indiana University School of Music, 1979, 1983.

J. Mylynn Felt (2022) - Assistant Professor of Communication. BA, MEd, Weber State University, 1999, 2002; MA, University of Calgary, 2015; PhD, University of Calgary, 2022.

Eric Fenrich (2021) - Instructor of History. BA, MA, PhD, California State University, 1990, 2007, 2015.

Robert J. Ferguson (2018) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2010, 2019.

Luke O. Fernandez (2001) - Instructor of Computer Science. PhD, Cornell University, 1997.

David L. Ferro (2001) - Dean of the College of Engineering, Applied Science & Technology and Associate Professor of Computer Science. BS, University of Lowell, 1984; MS, PhD, Virginia Tech, 1995, 2001.

Sebastian Fischetti (2022) - Instructor of Physics. BS, University of Massachusetts, 2010; PhD, University of California, 2015.

Kyle D. Feuz (2014) - Department Chair and Associate Professor, School of Computing. BS, MS, Utah State University, 2010, 2011; PhD, Washington State University, 2014.

Maria Electra Gamón-Blanch Fielding (2011) - Associate Professor of Spanish. BA, Utah State University, 1996; MA, PhD, University of Utah, 1999, 2011.

Sandra A. Fital-Akelbek (2008) - Department Chair and Professor of Mathematics. MSc, Adam Mickiewicz University, 1995; PhD, University of Regina, 2007.

Jaylynn Fitzgerald (2016) - Instructor of Nursing. BSN, MSN, Western Governors University, 2014, 2015.

Nicole Flink (2018) - Assistant of Professional Sales. BS, Weber State University, 2000; MBA, University of Phoenix, 2005; PhD, Oklahoma State University, 2021.

Mary R. Foss (2016) - Associate Professor of Mechanical Engineering Technology. BSE, Arizona State University, MSE, Stevens Institute of Technology.

Amber Fowler (2021) - Instructor of Nursing. BS, MSN, Western Governors University, 2014, 2016.

Jason J. Francis (2012) - Associate Professor of Library Science. BS, Weber State University, 2001; MLS, University of North Texas, 2008.

Stephen S. Francis (2000) - Associate Professor of History. BA, Weber State University, 1991; MA, PhD, Arizona State University, 1994, 1998.

Carie M. Frantz (2016) - Associate Professor of Earth and Environmental Sciences. BS, University of Washington, 2007; PhD, University of Southern California, 2013.

Ryan J. Frazier (2019) - Assistant Professor of Geospatial Science and Technology. BA, MA, Clark University, 2006, 2007; PhD, University of British Columbia, 2016.

Kristin M. Friederichs Champi (2022) - Instructor of English. BS, Wester State University, 2005; MEd, Seattle Pacific University, 2011.

Richard C. Fry (2001) - Professor of Computer Science. BS, Park University, 1998; MA, Troy State University, 2000; PhD, Northcentral University, 2011.

Robert S. Fudge (2005) - Professor of Philosophy. BA, MA, Colorado State University, 1991, 1994; PhD, Syracuse University, 2001.

Conrad M. Gabler (2016) - Associate Professor of Athletic Training. BS, University of Wisconsin-Eau Claire, 2010; MS, Ohio University, 2012; PhD, University of Kentucky, 2016.

Sara L. M. Gailey - (2021) - Assistant Professor of Teacher Education. BS, MEd, Weber State University, 2012, 2018; PhD, Utah State University, 2022.

Mark G. Galaviz (2019) - Instructor of Communication and Director of Speech. BA, MA, Boise State University, 2015, 2017.

Avery Tye Gardner (2020) - Assistant Professor Engineering. BS/MS, PhD, University of Utah, 2015, 2020.

Lindsay B. Garr (2015) - Assistant Professor of Health Administrative Services. BS, MHA, Weber State University, 2001, 2012; DHS, A. T. Still Univerity, 2020.

Azenett A. Garza (2002) - Professor of Psychology. BA, University of Texas at San Antonio, 1995; MA, PhD, University of Texas at El Paso, 2000, 2003.

Joanna R. Gautney (2018) - Assistant Professor Anthropology. BA, California State University, 2007; MA, PhD, Tulane University, 2012, 2016.

Becky Jo Gesteland (2000) - Professor of English. BA, University of Utah, 1984; MA, University of Wisconsin, 1989; PhD, University of Utah, 1996.

Afshin Ghoreishi (1992) - Professor of Mathematics. BS, Oregon State University, 1982; MS, Marshall University, 1984; PhD, Kansas State University, 1990.

Eric K. Gibbons (2019) - Assistant Professor Engineering. BS, University of Utah, 2011; MS, PhD, Stanford University, 2013, 2017.

Hailey G. Gillen (2014) - Associate Professor of Communication. BA, University of Washington, 2009; MA, DePaul University, 2011; PhD, University of West Virginia, 2014.

Francois C. Giraud-Carrier (2018) - MBA Director and Associate Professor of Supply Chain Management. MS, Paris Institute of Technology, 1994; PhD, University of Utah, 2014.

Henry (Pepper) G. Glass III (2011) - Professor of Sociology. BA, Saint Louis University, 1997; MA, University of Kansas, 2000; PhD, University of California, 2008.

Matthew K. Gnagey (2014) - Associate Professor of Economics. BS, Eastern Mennonite University, 2005; MA, PhD, The Ohio State University, 2011, 2014.

Tamara D. Goldbogen (2013) - Beverley Taylor Sorenson Endowed Chair for Arts Learning and Associate Professor of Performing Arts. BA, College of Charleston, 1991; MFA, The University of Texas at Austin, 2000.

Youn Soo Kim Goldstein (2020) - Assistant Professor of Localization and Translation. BA, Arizona State University, 2011; MA, Yonsei University, 2014; PhD, State University of New York, 2019.

Maria del Mar Gonzalez (2020) - Assistant Professor of Art History. BA, University of Puerto Rico, 2001; MA, Indiana University, 2005; PhD, University of Illinois, 2013.

Amanda Musselman Gonzalez (2022) - Instructor of Dental Hygiene. BS, MEd, Weber State University, 2017, 2021.

Valerie Gooder (2005) - Professor Nursing. BSN, University of Wyoming, 1981; MS, PhD, University of Utah, 1996, 2001.

Andrea L. Gouldman (2013) - Associate Professor of Accounting & Taxation. BS, University of Virginia, 2000; MAcc, PhD, Virginia Commonwealth University, 2009, 2013

Jessica M. Greenberg (2013) - Associate Professor of Performing Arts. BA, Hampshire College, 2005; MFA, University of Massachusetts, 2012.

Richard V. Greene (2001) - Professor of Philosophy. BS, California State University, Stanislaus, 1989; MA, San Francisco State University, 1992; MA, CPhil, PhD, University of California, Santa Barbara, 1995, 1995, 1998.

Lindsey Aponik Gremillion (2022) - Instructor of Health Sciences. BS, Brigham Young University, 2017; PhD, Baylor College of Medicine, 2022.

Sian B. Griffiths (2011) - Professor of English. BA, University of Idaho, 1995; MA, PhD, University of Georgia, 2002, 2006.

Therese A. Grijalva (2000) - Brady Presidential Distinguished Professor and Professor of Economics. BS, Florida State University, 1991; MBA, Cleveland State University, 1993; PhD, University of New Mexico, 2000.

Dustin M. Grote (2021) - Assistant Professor of Teacher Education. BA, University of Portland, 2009; MA, University of Northern Colorado, 2015; PhD, Virginia Tech, 2020.

Mariangelica Groves (2018) - Assistant Professor of Geography. BS, The Pennsylvania State University, 1997; MA, California State University, 2009; PhD, University of Utah, 2019.

Kasey L. Grubb (2019) - Instructor of Nursing. BS, MSN, Weber State University, 2014, 2018.

Carl L. Grunander (1977) - Professor of Professional Sales. BA, Brigham Young University, 1971; MS, Utah State University, 1978.

Kristin M. Hadley (2005) - Dean of the Moyes College of Education and Professor of Teacher Education. BS, MS, PhD, Utah State University, 1982, 1984, 2005.

Scott M. Hadzik (2011) - Professor of Automotive Technology. BS, Weber State University, 2010; MS, Utah State University, 2011.

Robin L. Haislett (2014) - Assistant Professor of Communication. BS, Black Hill State University, 2007; MA, Eastern New Mexico University, 2010; PhD, Texas Tech University, 2019.

Natalie M. Hales (2022) - Instructor of Communication. BS, MPC, Weber State University, 2018, 2021.

Thomas A. Hales (2021) - Assistant Professor of Construction and Building Sciences. BS, Utah State University, 1993; BS, Weber State University, 2005; MS, PhD, University of Utah, 1998; 2015.

Jan L. Hamer (2009) - Instructor of English. BA, University of Missouri at Columbia, 1972; JD, University of Kansas, 1975.

Megan M. Hamilton (2022) - Assistant Professor of Teacher Education. BS, Weber State University, 2011; MEd, PhD, Utah State University, 2015, 2022.

Saori Hanaki (2017) - Assistant Professor of Exercise Science. BS, University of Montana, 2000; MS, Illinois State University, 2005; PhD, University of Kentucky, 2012.

Amber P. Hansen (2018) - Instructor of Mathematics. BS, MEd, Weber State University, 2011, 2016.

James C. Hansen (2013) - Department Chair and Associate Professor, School of Accounting & Taxation. BS, MS, Brigham Young University, 1999; PhD, University of Georgia, 2004.

Shaun D. Hansen (2012) - Associate Professor of Business Administration and Marketing. BA, Weber State University, 2000; MBA, Willamette University, 2005; PhD, Purdue University, 2010.

Suzanne M. Harley (1989) - Department Chair and Professor of Botany. BS, University of California, Riverside, 1979; PhD, University of California, Santa Cruz, 1983.

Catherine M. Harmston (2017) - Instructor of Nursing. BS, Weber State University, 2004; MSN, University of Utah, 2006; DNP, Weber State University, 2021.

Janelle L. Harvey (2020) - Instructor of Nursing. BS, MSN, Weber State University, 2012, 2017.

Kelly A. Harward (1987) - Professor of Manufacturing and Systems Engineering. BS, MS, Brigham Young University, 1976, 1991.

David W. Hartwig (2017) - Assistant Professor of English and Director of the Master of Arts in English Program. BA, University of Notre Dame, 2001; MA, University of Birmingham, 2005; PhD, University of Warwick, 2010.

Christian W. Hearn (2012) - Associate Professor of Electrical Engineering. BSME, Virginia Tech, 1989; BSEET, Old Dominion University, 1997; MSEE, PhD, Virginia Tech, 2001, 2012.

AJ Hepler (2017) - Instructor of Networking/Cybersecurity. BS, Weber State University, 2012; MS, Western Governor's University, 2021.

Mark A. Henderson (1985) - Professor of Performing Arts. BM, MM, University of Utah, 1979, 1981; DMA, University of Illinois at Urbana-Champaign, 1988.

Teresa M. Henke (2013) - Associate Professor of Child & Family Studies. BS, University of Tennessee, 1983; MEd, State University of West Georgia, 1987; PhD, University of Tennessee, 2012.

Steven R. Hendricks (2022) - Instructor of Music. BM, Utah State University, 1987; MME, Brigham Young University, 1990.

Sarah D. Herrmann (2017) - Assistant Professor of Psychology. BA, The University of Arizona, 2010; MA, PhD, Arizona State University, 2014, 2017.

Ernesto Hernandez, Jr. (2017) - Assistant Professor of Library Science and Reference Librarian. BS, Weber State University, 2009; MLS, San Jose State University, 2012.

Michael W. Hernandez (2003) - Brady Presidential Distinguished Professor and Professor of Earth and Environmental Sciences. BS, MS, Louisiana Tech University, 1984, 1990; PhD, University of Utah, 2004.

Timothy A. Herzog (2008) - Professor of Chemistry. BS, Gonzaga University, 1990; PhD, California Institute of Technology, 1996.

Valerie W. Herzog (2005) - Brady Presidential Distinguished Professor and Department Chair and Professor of Athletic Training. BS, Alderson-Broaddus College, 1993; MEd, University of Virginia, 1996; EdD, Marshall University, 2004.

Susan K. Heugly (2017) - Assistant Professor of Nursing. BSN, Western Governors University, 2013; FNP, University of Cincinnati, 2015.

Bridget E. Hilbig (2016) - Associate Professor of Botany. BS, Lafayette College, 2010; PhD, University of California, 2015.

Huiying Hill (1995) - Professor of Sociology. BA, Sichuan International Studies University, 1981; MA, MA, PhD, State University of New York-Stony Brook, 1986, 1988, 1994.

Christopher Hoagstrom (2006) - Brady Presidential Distinguished Professor and Professor of Zoology. BS, Ohio Northern University, 1992; MS, Sul Ross State University, 1994; PhD, South Dakota State University, 2006.

Scott Holland (2015) - Instructor of Automotive Technology. AAS, Weber State University, 2005.

Wendy Holliday (2017) - Dean of the Stewart Library and Professor of Library Sciences. BA, University of Virginia, 1988; PhD, New York University, 1995; MLS, University of Illinois, 2002.

Rieneke Holman (2010) - Department Chair and Associate Professor of Nursing. BS, MSN, University of Utah, 1997, 2010; PhD, University of Nevada, 2018.

Tiffany L. Hood (2020) - Assistant Professor of Nursing. BS, MSN, Weber State University, 2003, 2016; PhD, University of Northern Colorado, 2020.

Lisa K. Hopkins (2013) - Instructor of Accounting. BA, University of California; MAcc, Weber State University, 2007.

Brent A. Horn (2005) - Associate Dean of the College of Social & Behavioral Sciences and Professor of Criminal Justice. BS, Brigham Young University, 1995; MS, California Institute of Technology, 1997; PhD, Brigham Young University, 2001.

Joseph J. Horvat, Jr. (1982) - Professor of Psychology. BA, Fort Lewis College, 1975; MA, PhD, University of Nebraska-Lincoln, 1976, 1979.

Leslie D. Howerton (2016) - Assistant Professor of Communication. BA, University of Alabama, 2010; MS, Colorado State University, 2013; PhD, University of Oregon, 2021.

Teh-yi Dori Huang (2022) - Chinese DLI Bridge Instructor. BA, National Chengchi University, 1992; MA, Columbia University, 1998; WLMA, University of Utah, 2011.

Daniel S. Hubler (2012) - Associate Professor of Child & Family Studies. BS, Weber State University, 2006; MS, PhD, Oklahoma State University, 2009, 2012.

Kyra Hudson (2004) - Instructor of English. BA, Tusculum College, 1981; MA, University of Tennessee, 1984.

Samual R. Hunter (2018) - Instructor of Manufacturing and Systems Engineering. BS, Weber State University, 2005.

Randy C. Hurd (2020) - Assistant Professor of Mechanical Engineering. BS, MS, Brigham Young University, 2012, 2015; PhD, Utah State University, 2017.

Mark Huson (2018) - Assistant Professor Computer Science. BS, University of Tulsa, 1985; MS, University of Southern California, 1988; MS, Air Force Institute of Technology, 1989; PhD, Arizona State University, 1995.

Jim Hutchins (2005) - Professor of Health Sciences. BA, University of Colorado, 1980; MA, University of Colorado, 1982; PhD, Baylor College of Medicine, 1985.

Dianna M. Huxhold (2016) - Associate Professor of Arts Education & Visual Arts. BFA, MS, PhD, Indiana University, 1993, 2002, 2016.

Alica R. Ingersoll (2020) - Assistant Professor Supply Chain Management. BS, University of Utah, 2004; MBA, Westminster College, 2011; PhD, Utah State University, 2019.

Colin E. Inglefield (1998) - Department Chair and Professor of Physics. BS, Rensselaer Polytechnic Institute, 1992; PhD, University of Utah, 1998.

Vincente Iranzo (2020) - Assistant Professor of Translation and Spanish. BA, Universidad de Valencia, 2011; MA, Universidad Politécnica de Valencia, 2012; PhD, Texas Tech University, 2020.

Justin B. Jackson (2007) - Professor of Electrical and Computer Engineering. BA, MBA, Weber State University, 2000, 2003; MEEE, PhD, University of Utah, 2004, 2008.

Levi S. Jackson (2019) - Instructor of Art and Photography and Photography Lab Manager. BFA, Brigham Young University, 2011; MFA, Pratt Institute, 2013.

Carrie W. Jeffrey (2017) - Instructor of Nursing. BSN, Minnesota State University, 2013; MSN, Weber State University, 2017.

Trishelle M. Jeffery (2022) - Instructor of Visual Arts. BFA, University of Utah, 2013; MFA, Wichita State University, 2018.

Michelle J. Jeffs (2021) - Assistant Professor of Criminal Justice. BS, Weber State University, 2009; JD, Brigham Young University, 2014.

Brooke E. Jenkins (2018) - Instructor of Chemistry. BA, Brigham Young University; MS, Arizona State University.

Christine L. Jennings (2013) - Instructor of Mathematics. BS, Weber State University, 1995; MA, Washington University, 2002.

Joshua N. Jensen (2011) - Instructor of Computer Science. BS, Weber State University, 2011, MS, Regis University, 2018.

Benjamin A. Johnson (2015) - Instructor of Nursing. BS, University of Utah, 2008; MSN, Weber State University, 2011.

Clint R. Johnson (2020) - Instructor of English. BA, Excelsior College, 2014; MFA, National University, 2017.

Gary Alan Johnson (2006) - Professor of Political Science. BA, Northern Arizona University, 1993; MA, PhD, University of Kansas, 1998, 2001.

Kenneth L. Johnson (1998) - Associate Dean, Dr. Ezekiel R. Dumke College of Health Professions and Professor of Health Administrative Services. BA, Brigham Young University, 1982; MBA, University of Utah, 1988; PhD, University of Utah, 1998.

Kimball Johnson (2012) - Instructor Professor of Nursing. MSN, Brigham Young University, 1991.

Michael E. Johnson (2019) - Instructor of Nursing. BS, MSN, Weber State University, 1996, 2018.

Todd M. Johnson (1994) - Professor of Chemistry. BS, Weber State University, 1986; PhD, Utah State University, 1994.

Adam T. Johnston (1997) - Brady Presidential Distinguished Professor and Professor of Physics, Coordinator for Teaching and Learning Forum. BS, Lewis and Clark College, 1994; MS, PhD, University of Utah, 1996, 2001.

Daniel M. Jonas (2015) - Assistant Professor of Music. BM, University of New Mexico; MM, DePaul University, 2005; DM, University of Colorado, 2013.

Aubrey Jones Kubiak (2016) - Associate Professor of French. BA, Saint Bonaventure University, 2006; MA, PhD, University at Buffalo, 2008, 2014.

Charity A. Jones (2013) - Instructor of Mathematics. BS, MEd, Weber State University, 1998, 2013.

Cynthia A. Jones (2018) - Visiting Professor of French. BFA, BA, MA, PhD, State University of New York, 2002, 2006, 2010, 2018.

Laura K. Jones (2020) - Instructor of Nursing. BS, MSN, Weber State University, 1995, 2019.

Jo Ellen Jonsson (2008) - Associate Professor of Professional Sales. AAS, BS, Weber State University, 1993, 1994; MEd, Utah State University, 2004.

Sheree Josephson (1993) - Brady Presidential Distinguished Professor and Professor and Department Chair of Communication. BS, MS, Utah State University, 1980, 1985; PhD, University of Utah, 1992.

Damon Joyner (2018) - Assistant Professor of Nutrition. BS, University of Utah, 2014; PhD, Utah State University, 2018.

Abdulnaser Kaadan (2018) - International Visiting Professor. MD, MS, PhD, Aleppo University, 1981, 1989, 1993.

Justin Kani (2021) - Business and Economics Librarian and Assistant Professor of Library Science. BA, Pennsylvania State University, 2008; MLS, Clarion University of Pennsylvania.

Jean K. Kapenda (2015) - Instructor of Criminal Justice. BS, Pontificia Universidad Católica del Ecuador, 1998; MPA, Brigham Young University, 2009; MSCJ, Weber State University, 2012.

Louisanne G. Kattelman (1998) - Instructor of Accounting. BA, MPAcc, Weber State University, 1990, 1991.

Theresa S. Kay (2001) - Associate Professor of Psychology. BA, MA, PhD, Biola University, 1991, 1993, 1999.

Andrew C. Keinsley (2015) - Assistant Professor of Economics. BA, Franklin College, 2010; MA, PhD, University of Kansas, 2013, 2015.

Brooke Kelly (2006) - Instructor of English and Director of Developmental English. BS, Weber State University, 1999; MS, Utah State University, 2003.

John D. Kelly (1991) - Professor of Automotive Technology. AS, BS, MEd, Weber State University, 1991, 1993, 1998.

Jonny Kelly (2001) - Associate Professor of Nursing. AD, Weber State University, 1994; BA, Utah State University, 1992; MNA, Mayo Clinic, 1999.

Anne E. Kendrick (2019) - Assistant Professor of Nursing. BS, Weber State University, 2003; MSN, Western Governors University, 2013.

Kerry S. Kennedy-Pressey (2005) - Professor of Social Work. BA, Mount Union College, 1997; MSW, PhD, Ohio State University, 1999, 2005.

Randall W. Kent (2015) - Instructor of Mechanical Engineering. BS, MS, University of Minnesota, 1982, 1985.

Kent O. Kidman (1990) - Professor of Mathematics. BA, Weber State College, 1978; MA, PhD, University of California, Santa Barbara, 1980, 1983.

Jesse S. King (2015) - Associate Professor of Business Administration. BS, Montana State University, 2004; PhD, University of Oregon, 2011.

Mandy Kirkham King (2018) - Assistant Professor of Physical Education. BS, Brigham Young University, 2005; MA, Concordia University, 2013; PhD, University of Utah, 2018.

Skyler M. King (2016) - Associate Professor of Marketing. BS, MBA, Weber State University, 2007, 2011; PhD, Washington State University, 2016.

Miranda Orvis Kispert (2017) - Science Librarian and Assistant Professor of Library Science. BA, Bryn Mawr College, 2003; MLIS, University of Tennessee, 2013.

Justin Knighton (2016) - Instructor of Manufacturing and Systems Engineering. BS, Weber State University, 2015; CMfgT

Sachini Kodithuwakku Arachchige (2022) - Assistant Professor of Exercise and Sport Science. MD, University of Peradeniya, 2012; MS, PhD, Mississippi State University, 2019, 2022.

Brandon C. Koford (2010) - Professor of Economics. BA, Weber State University, 2004; MS, PhD, University of Kentucky, 2005, 2008.

Wade R. Kotter (1994) - Professor of Library Science and Social Sciences Librarian. BS, Brigham Young University, 1978; MA, Andrews University, 1980; PhD, University of Arizona, 1986; MLS, University of Maryland, 1993.

Brenda Marsteller Kowalewski (1995) - Associate Provost: High Impact Programs and Faculty Development; Brady Presidential Distinguished Professor and Professor of Sociology. BA, Hofstra University, 1990; MA, PhD, University of Maryland, 1992, 1995.

Caid J. Kroeger (2022) - Instructor of Automotive Technology. BS, Weber State University, 2019.

Ravi Krovi (2020) - Provost and Professor of MIS. BE, University of Baroda, 1986; MS, PhD, The University of Memphis, 1988, 1993.

Thomas C. Kuehls (1993) - Professor of Political Science. BA, College of Wooster, 1986; MA, PhD, Johns Hopkins University, 1989, 1992.

Robert Kumar (2022) - Instructor, School of Computing. BS, Brigham Young University, 2001; MS, Cal State University, 2007.

George Kvernadze (1998) - Professor of Mathematics. BS, Tbilisi State University, 1984; MS, Georgian Polytech Institute, 1987; PhD, University of Mexico, 1993.

Álvaro La Parra-Pérez (2014) - Associate Professor of Economics. BA, MA, University of Valencia, 2007, 2008; PhD, University of Maryland, 2014.

Leah LaGrone (2021) - Assistant Professor of History. BA, Texas A&M, 2005; MEd, Lamar International University, 2012; MS, Texas A&M University, 2016; PhD, Texas Christian University, 2016.

Andrea M. Lalumia (2018) - Assistant Professor of Emergency Healthcare. BS, MEd, Weber State University, 2018, 2020.

Alexander L. Lancaster (2015) - Assistant Professor of Communication. BA, MA, California State University, 2010, 2012; PhD, West Virginia University, 2015.

Sarah C. Langsdon (2018) - Associate Professor of Library Science. BA, Weber State University, 1997; MA, Utah State University, 2000; MLS, San Jose State University, 2014.

Alex C. Lawrence (2016) - Associate Professor of Professional Sales. BS, University of Utah, 1999; MBA, Weber State University, 2005; PhD, Oklahoma State University, 2016.

Taowen Le (1998) - Professor of Management Information Systems. BS, Wuhan University, 1983; MLS, Brigham Young University, 1985; PhD, Brigham Young University, 1991.

Stacie Leavitt (2021) - Instructor of Mathematics. BS, Weber State University, 2018.

Alees Lee (2020) - Assistant Professor of Mathematics Education. BS, Metropolitan State University of Denver, 2012; MA, PhD, University of Northern Colorado, 2015, 2020.

Heeukk "Dennis" Lee (2015) - Assistant Professor of Criminal Justice. BA, University of North Florida, 2005; MA, PhD, Washington State University, 2008, 2014.

Justin S. Lee (2021) - Assistant Professor of Social Work. BS, Brigham Young University, 2005; MSW, Eastern Washington University, 2007; PhD, Virginia Commonwealth University, 2012.

Mark S. LeTourneau (1987) - Professor of English. BA, University of Vermont, 1977; MA, PhD, Purdue University, 1979, 1986.

Andrew B. Lewis (2018) - Assistant Professor of Theatre: Musical Theatre. BA, Weber State University, 2008; MFA, University of Central Florida, 2010.

Cameron N. Lewis (2019) - Instructor of Construction and Building Sciences. BS, University of Utah, 2005; MAch, Southern California Institute of Architecture, 2007.

Gregory S. Lewis (1999) - Professor of History and Coordinator of Asian Studies Program. BS, MA, Arizona State University, 1977, 1986; PhD, Arizona State University, 1999.

Jose G. Limas, Jr. (2020) - Instructor Networking/Cybersecurity, School of Computing. BS, MS, Utah State University, 2012, 2015.

J. Andreas Lippert (1999) - Professor of Chemistry. BS, Weber State University, 1993; PhD, Brigham Young University, 1999.

Branden Little (2009) - Professor of History. BA, University of California at Davis, 1998; MA, US Naval Postgraduate School, 2002; PhD, University of California at Berkeley, 2009.

Barry A. Lloyd (1985) - Professor of Chemistry. BA, MS, PhD, University of Utah, 1975, 1977, 1985.

M. Cully Long (2019) - Assistant Professor of Theatre Arts Scenic Design. BFA, School of Visual Arts, 1998; MFA, University of Connecticut, 2004.

Abigail J. Mack (2022) - Assistant Professor of Anthropology. BA, MA, Indiana University, 2009, 2013; PhD, University of California, 2021.

Marrie K. Mack (2019) - Instructor of Computer Science. BS, Weber State University, 2011; MEd, Western Governor's University, 2017.

Madeline E. Mackie (2021) - Assistant Professor of Anthropology. BS, University of California, 2011; MA, PhD, University of Wyoming, 2014, 2019.

Daniel J. Magda (1998) - Department Chair and Professor of Mechanical Engineering. BS, University of New Hampshire, 1984; MS, PhD, University of Utah, 1990, 1995.

Jason Manley (2012) - Associate Professor of Visual Arts. BFA, University of Kansas, 1998; MFA, University of Arizona, 2004.

Cade D. Mansfield (2017) - Associate Professor of Psychology. BA, MS, Western Washington University; PhD, University of Utah, 2015.

Becky J. Marchant (2007) - Instructor of English. BA, Weber State University, 1996; MA, St Cloud State University, 2005.

Jonathon C. Marshall (2008) - Professor of Zoology. BA, University of Utah, 1995; PhD, Brigham Young University, 2004.

Richard S. Martin (2021) - Instructor of Health Administrative Services. BS, Weber State University, 2012; MHA, Saint Joseph's University, 2015.

Andrea Martinez (2020) - Assistant Professor of Teacher Education. BA, University of California, 2007; MEd, PhD, University of Utah, 2009, 2018.

Susan J. Matt (1999) - Director Interdisciplinary Programs and Brady Presidential Distinguished Professor and Professor of History. BA, University of Chicago, 1989; MA, PhD, Cornell University, 1992, 1996.

Marek Matyjasik (1997) - Department Chair and Professor of Earth and Environmental Sciences. MS, Warsaw University, 1988; PhD, Kent State, 1997.

John Mukum Mbaku (1991) - Brady Presidential Distinguished Professor and Professor of Economics. BS, Berry College, 1977; MIBS, University of South Carolina, 1979; PhD, University of Georgia, 1985; Graduate Certificate in Environmental and Natural Resources Law, SJ Quinney College of Law, University of Utah, 2010; JD, SJ Quinney College of Law, University of Utah, 2010.

Frances L. McConaughy (1984) - Professor and Department Chair of Dental Hygiene. BS, Weber State College, 1982; MS, University of Utah, 1987.

Megan McDonald Van Deventer (2018) - Assistant Professor of English Teaching. BS, University of Portland, 2008; MEd, University of Utah, 2013; PhD, University of Minnesota, 2018.

Shannon E. McGillivray (2013) - Associate Professor of Psychology. BA, MA, PhD, University of California, 2003, 2009, 2013.

Susan McKay (1989) - Associate Professor of English. BA, Weber State College, 1970; MA, PhD, University of Utah, 1974, 1975, 1989.

Deborah K. McKee (2010) - Instructor of Mathematics. BS, MEd, Weber State University, 1997, 2002.

Ryan McKeehan (2022) - Instructor of Professional Sales. BA, MOB, Brigham Young University, 1997, 1999.

Diana M. Meiser (2019) - Engineering, Applied Science, and Technology Librarian and Assistant Professor of Library Science. BA, Weber State University, 2004; MLS, University of North Texas, 2011.

Heather L. Merkley (2002) - Associate Professor of Health Administrative Services. BS, Weber State University, 1995; MEd, Weber State University, 2005; DHSc, A.T. Still University, 2018.

Constance L. Merrill (2017) - Assistant Professor of Nursing. BSN, Weber State University, 2012; MSN, Western Governors University, 2015.

Ron A. Meyers (1993) - Department Chair and Professor of Zoology. BA, University of Rochester, 1984; MS, Louisiana State University, 1987; PhD, Brown University, 1992.

Heidee Miller (2021) - Instructor and Director of Graduate Social Work Field Education. BS, Weber State University, 2014; MSW, University of Utah, 2016.

F. Ann Millner (1985) - Regents Professor and Former President and Professor of Health Administrative Services. BS, University of Tennessee, 1974; MS, S.W. Texas State University, 1981; EdD, Brigham Young University, 1986.

Alyssa L. Mock (2021) - Assistant Professor of Electrical and Computer Engineering. BS, PhD, University of Nebraska, 2011, 2017.

Kerri Mocko (2022) - Assistant Professor of Botany. BS, MS, PhD, University of Connecticut, 2007, 2014, 2017.

Kristina Moleni (2012) - Assistant Professor of Social Work. BS, Brigham Young University, 2004; MSW, University of Utah, 2009.

Karen Marguerite Moloney (1992) - Professor of English. BA, MLS, MA, Brigham Young University, 1973, 1975, 1979; PhD, University of California, Los Angeles, 1989.

Michael S. Moore (2017) - Assistant Professor of Medical Laboratory Sciences. BA, Weber State University, 2009; DO, Midwestern University, 2014.

Terrilyn B. Morgan (2001) - Instructor of Finance. BS, BS, MPA, Certificate in IST, Weber State University, 1992, 1998, 1999.

Kim M. Murphy (2018) - Instructor of Computer Science. BA, Weber State University, 1999; MS, Utah State University, 2010.

Cass A. Morgan (2013) - Associate Dean, Moyes College of Education, and Associate Professor of Recreation. BS, Montreat College, 2004; MS, East Carolina University, 2007; PhD, University of Utah, 2012.

Michele K. Morrill (2021) - Instructor of Nursing. BS, Weber State University, 2015; Western Governors University, 2018.

Robert C. Morris (2017) - Associate Professor of Sociology. BS, Weber State University, 2004; MS, PhD, Purdue University, 2008, 2014.

Shauna R. Morris (2001) - Instructor of Interior Design. BS, Weber State University, 1995.

Cory W. Moss (2013) - Associate Professor of Health Administrative Services. BA, Brigham Young University, 1994; MBA, University of Phoenix, 2002; DHA, Central Michigan University, 2013.

Louise R. Moulding (2004) - Professor of Teacher Education. BS, MEd, Weber State University, 1989, 1995; PhD, Utah State University, 2001.

Matthew L. Mouritsen (2001) - Dean of the Goddard School of Business & Economics and Professor of Accounting & Taxation. BA, Weber State University, 1988; MBA, PhD, Utah State University, 1991, 1997.

DeAnna (DeeDee) Mower (2014) - Department Chair and Associate Professor of Teacher Education. BS, Weber State University; MA, PhD, University of Utah, 2002, 2013.

Atmadeep Mukherjee (2022) - Assistant Professor of Marketing. BPE, Jadavpur University, 2015; MBA, PhD, University of Arkansas, 2017, 2022.

Alice E. Mulder (2005) - Associate Professor of Geography. BA, Vassar College, 1990; MA, PhD, University of Colorado, Boulder, 1997, 2003.

John F. Mull (1997) - Brady Presidential Distinguished Professor and Professor of Zoology. BS, University of Pittsburgh, 1986; PhD, Utah State University, 1994.

Leah A. Murray (2002) - Brady Presidential Distinguished Professor and Professor of Political Science. BA, Syracuse University, 1996; MA, PhD, University at Albany, 2000, 2004.

Nils Murrugarra-Llerena (2022) - Assistant Professor of Computer Science. BS, National University of Trujillo, 2009; MS, University of São Paulo, 2011; DCS, University of Pittsburgh, 2019.

Amila Muthunayake (2022) - Assistant Professor of Mathematics. BSc, University of Peradeniya, 2015; MA, PhD, University of North Carolina, 2020, 2021.

Cora L. Neal (2015) - Associate Professor of Mathematics. BS, MS, Brigham Young University, 1992; PhD, Utah State University, 2001.

Kyra Neeley (2020) - Instructor of Nursing. BS, MSN, Weber State University, 2016, 2018.

Paul Neiman (2020) - Assistant Professor of Philosophy. BA, University of Wisconsin, 2001; MA, PhD, Marquette University, 2006, 2007.

Benjamin V. Neve (2021) - Assistant Professor of Supply Chain Management. BS, Southern Utah University, 2006; MS, PhD, University of Alabama, 2008, 2011.

Casey W. Neville (2011) - Associate Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2011, 2012.

Melissa Ann Neville-Norton (2010) - Nursing Graduate Programs Director and Associate Professor of Nursing. BS, MSN, DNP, University of Utah, 1998, 2001, 2009.

Sylvia Newman (1993) - Instructor of English. BA, Brigham Young University, 1987; MA, Utah State University, 2003.

Thi H. Nguyen (2021) - Assistant Professor of Visual Art and Design. BA, Texas A&M, 2015; MFA, Texas State University, 2020.

Matthew J. Nicholaou (2012) - Department Chair and Associate Professor of Medical Laboratory Sciences. BS, University of Delaware, 2002; DPH, University of Pittsburgh, 2011.

Blake E. Nielson (2015) - Department Chair and Associate Professor of Professional Sales. BS, Dixie State University, 2007; MBA, Southern Utah University, 2010; PhD, Jackson State University, 2013.

David Noack (2014) - Assistant Professor of Business Administration. BS, Utah State University, 2007; MBA, University of Louisville, 2010; PhD, Washington State University, 2014

Tanya D. Nolan (2008) - Professor of Radiologic Sciences. AAS, BS, MEd, Weber State University, 2002, 2003, 2008; EdD, Northcentral University, 2016.

Jean R. Norman (2014) - Associate Professor of Communication. BS, Northwestern University, MA, PhD, University of Nevada, 2010, 2014.

Bharath Babu Nunna (2021) - Assistant Professor of Mechanical Engineering. B.Tech., Acharya Nagarjuna University, 2004; MS, University of Bridgeport, 2007; PhD, New Jersey Institute of Technology, 2018.

O'Hare, Aminda J. (2019) - Associate Professor of Neuropsychology/Neuroscience. BA, University of Wyoming, 2005; MA, PhD, University of Kansas, 2007, 2010.

Michell D. Oki (1993) - Department Chair and Associate Professor of Respiratory Therapy , Registered Respiratory Therapist (RRT). BS, MPAcc, Weber State University, 1987, 1988.

A. Marjukka Ollilainen (1999) - Department Chair of Sociology & Anthropology and Professor of Sociology. MSS, University of Tampere, Finland, 1991; MA, PhD, Virginia Tech, 1992, 1999.

Michael N. Olpin (2000) - Professor of Health and Physical Education. BS, MS, Brigham Young University, 1988, 1993; PhD, Southern Illinois University, 1996.

Matthew J. Ondrus (2007) - Professor of Mathematics. BA, Ripon College, 1999; PhD, University of Wisconsin, 2004.

Christine O'Neil (2017) - Assistant Professor of Emergency Healthcare. BS, Weber State University, 2010; MEd, Western Governors University, 2019.

Deon Openshaw (2017) - Instructor of Nursing. BS, MSN, Weber State University, 2007, 2011.

Marvin W. Orrock (2015) - Instructor of Health Sciences. BS, University of Utah, 1978; DP, Idaho State University, 1996.

Keith V. Osai (2018) - Assistant Professor of Child & Family Studies. BS, Brigham Young University, 2008; MS, PhD, Utah State University, 2012, 2018.

Carrie Lou Ota (2011) - Professor of Child and Family Studies. BS, Montana State University, 1997; MS, Louisiana State University, 2005; PhD, Utah State University, 2010.

Jose L. Otero (2013) - Instructor of English. BA, Mercyhurst College, 2001; MA, Gannon University, 2007.

Ryan H. Pace (2004) - Professor of Accounting & Taxation and Director of Master's of Accounting and Master's of Taxation. BS, University of Utah, 1992; MTAX, Arizona State University, 1995; JD, Washburn University, 1998; LLM, New York University, 1999.

Colleen Packer Berg (1986) - Professor of Communication. BS, Weber State University, 1980; MEd, University of Central Oklahoma, 1983; PhD, University of Utah, 2005.

Angela C. Page (2017) - Instructor of Nursing. BS, MSN, Brigham Young University, 1985, 1990; DNP, Weber State University, 2021.

Demetrios J. Pagonis (2021) - Assistant Professor of Chemistry. BS, Davidson College, 2013; PhD, University of Colorado, 2018.

Miland N. Palmer (2014) - Instructor of Health Administrative Services. BS, Weber State University, 2004; MPH, University of Utah, 2008; PhD, Walden University, 2020.

Julia L. Panko (2012) - Associate Professor of English. BA, Pomona College, 2001; MPhil, Trinity College, Dublin, 2004; PhD., University of California, 2014.

Katarina Pantic (2020) - Assistant Professor of Teacher Education. BA, University of Belgrade, 2003; MS, North Carolina State University, 2012; PhD, Utah State University, 2020.

Kimberly J. Parkinson (2018) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2014, 2019.

Matthew B. Paulson (2017) - Assistant Professor of Networking/Cybersecurity. BS, Weber State University, 1999; MS, Western Governors University, 2016; PhD, Colorado Technical University, 2021.

Michelle B. Paustenbaugh (2000) - Professor of Chemistry. BS, University of Texas at Austin, 1991; PhD, University of Utah, 1996.

Kacy M. Peckenpaugh (2013) - Associate Professor of Foreign Languages. BA, Bucknell University, 2004; MA, PhD, University of Arizona, 2008, 2013

Ambree L. Penrold (2021) - Assistant Professor of Radiologic Sciences. BS, Weber State University, 2007; MEd, Western Governors University, 2020.

Janette K. Penrod (2013) - Instructor of Mathematics. BS, MEd, Weber State University, 2005, 2013.

Tyandra Perez (2020) - Instructor of Nursing. BS, Brigham Young University, 2006; MSN, Weber State University, 2017.

Jeffrey Shane Perry (2006) - Associate Professor of Dental Hygiene, BS, MEd, Weber State University, 2002, 2009.

James E. Peters (1988) - Associate Professor of Mathematics. BS, MS, Michigan State University, 1979, 1982; PhD, Georgia Institute of Technology, 1988.

Emily J. Petersen (2017) - Assistant Professor of English. BA, Brigham Young University, 2001; MA, Weber State University, 2010; PhD, Utah State University, 2016.

Spencer J. Petersen (2016) - Assistant Professor of Mechanical Engineering. BS, MS, PhD, University of Utah, 2002, 2004, 2016.

Brad R. Peterson (2007) - Assistant Professor of Computer Science. BS, Weber State University, 2004; PhD, University of Utah, 2019.

Chelsea Pike (2020) - Instructor of Nursing. BSN, MSN, Western Governors University, 2018, 2019.

Brian K. Pilcher (2018) - Instructor of Zoology. BS, Oklahoma State University, 1976; MS, Louisiana State University, 1981.

Mitchell G. Pilkington (2022) - Visiting Assistant Professor for Crime Scene Investigation. BA, MS, Weber State University, 1999, 2004.

Kenneth W. Plain (2017) - Visiting Assistant Professor of Musical Theatre. BM, University of Utah, 1991.

William J. Pollett (2010) - Instructor of English. BIS, Weber State University, 1997; MS, Utah State University, 1999.

Darrell Poore (2002) - Instructor of Mathematics. BS, University of Utah, 2000.

Richard S. Price (2012) - Associate Professor of Political Science. BA, Western Washington University, 2003; JD, Roger Williams University School of Law, 2006; MA, PhD, Syracuse University, 2007, 2012.

Travis M. Price (2003) - Department Chair and Associate Professor of Health Sciences. BS, Weber State University, 2003; MS, University of Utah, 2007; PhD, Utah State University, 2013

Thomas L. Priest (2001) - Professor of Music and Director of Music Education. BME, Indiana University, 1983; Orff-Schulwerk II, University of Northern Colorado, 1991; MM, University of Colorado, 1992; EdD, University of Illinois, 1997.

Daniel R. Pyle (2016) - Associate Professor of Teacher Education. BS, SUNY College at Buffalo, 1999; MS, Azusa Pacific University, 2004; PhD, Utah State University, 2015.

Wei Qiu (2008) - Department Chair and Professor of Child & Family Studies. BA, MA, Nanjing University, 1995, 1997; MS, PhD, University of Delaware, 1997, 2008.

Tressa Quayle (2014) - Instructor of Nursing. BS, MSN, Weber State University, 2010, 2013.

Carrie F. Quesnell (2004) - Instructor of Mathematics. BS, Utah State University, 1990; MEd, Weber State University, 2012.

Kristin G. Rabosky (2015) - Assistant Professor of Physics. BS, University of Maryland, 2005; MS, University of Colorado, 2007; PhD, Colorado School of Mines, 2011.

Autumn D. Rafford (2022) - Instructor of Nursing. BS, Georgia Southern University, 2008; MSN, South University, 2018.

Brian W. Rague (2003) - Professor of Computer Science. BS, MS, MIT, 1984, 1987; PhD, University of Utah, 2010.

Sandeep K. Rangaraju (2015) Assistant Professor of Economics. B-Tech, Jawaharlal Nehru Technological University, 2006; MBA, MA, Central Michigan University, 2008, 2010; MS, PhD, University of Kentucky, 2011, 2015.

Clay L. Rasmussen (2012) - Associate Professor of Teacher Education. BS, University of Arizona, 2000; MEd, Northern Arizona University, 2005; PhD, Utah State University, 2008.

David W. Read (2012) - Associate Professor of Business Administration and Marketing. BA, University of Utah, 2004; MSc, London School of Economics and Political Science, 2004; JD, University of Houston, 1009.

Jordyn M. Redmond (2022) - Lab Instructor of Physics. BS, Weber State University, 2022.

Mary Anne Reynolds (2017) - Associate Professor of Nursing. BSN, University of Utah, 1979; MS, University of California, 1984; PhD, University of Utah, 1997.

Robert W. Reynolds (1993) - Associate Professor of Sociology. BS, MS, Brigham Young University, 1983, 1984; PhD, Washington State University, 1993.

Bradford W. Reynolds (2011) - Professor of Criminal Justice and Director of the Criminal Justice Master's program. BA, MS, Weber State University, 2001, 2004; PhD, University of Cincinnati, 2010.

Justin R. Rhees (2018) - Assistant Professor of Medical Laboratory Sciences. BA, Weber State University, 2006; MS, University of Utah, 2010.

Andrew E. Rice (2021) - Instructor of Printmaking and Studio Manager. BFA, University of Colorado; MFA, University of Utah, 2013.

Michelle B. Rich (2020) - Instructor of Mathematics. BS, Utah State University, 1995, MBA, Weber State University, 2012.

Julie Rich (1984) - Dean of the College of Social & Behavioral Sciences and Professor of Geography. BS, Weber State College, 1981; MS, University of Utah, 1991, PhD, University of Oxford, 2003.

Ryan C. Ridge (2016) - Associate Professor of English/Fiction Writing. BA, University of Louisville, 2006; MFA, University of California, 2010.

Jason E. Riegert (2019) - Instructor of Health Administrative Services. BA, MHA, Weber State University, 2007, 2011.

Nathan S. Rives (2018) - Instructor of History. BA, Brigham Young University, 2001; PhD, Brandeis University, 2011.

Gavin E. Roberts (2017) - Department Chair and Associate Professor of Economics. BA, Metropolitan State University of Denver, 2011; PhD, University of Wyoming, 2017.

William E. Robertson (2013) - Department Chair and Associate Professor of Emergency Care & Rescue. BS, Bowling Green State University; MS, Florida Gulf Coast University, 2013; DHSc, Nova Southeastern University, 2016.

Elizabeth D. Rocha (2016) - Associate Professor of Nursing. BSN, Texas Christian University, 1981; MSN, PhD, University of San Diego, 1995, 2014.

Nathan J. Rodriguez (2018) - Assistant Professor of Communication. BS, MS, PhD, University of Kansas, 2002, 2008, 2015.

Scott T. Rogers (2003) - Professor of English. BA, BS, University of Southern Mississippi, 1994; MA, PhD, Oklahoma State University, 1997, 2003.

Matthew P. Romaniello (2018) - Associate Professor of History. BA, Brown University, 1995; MA, PhD, Ohio State University, 1998, 2003.

Heather T. Root (2014) - Associate Professor of Botany. BS, Cornell University, 2003; MS, State University of New York College, 2006; PhD, Oregon State University, 2011.

Thomas D. Roybal (2021) - Instructor of Mathematics. BS, Weber State University, 2001; MA, PhD, University of California, 2005, 2007.

Valentinas Rudys (2022) - Assistant Professor of Economics. BBA, Texas A&M University, 2015; MA, PhD, Fordham University, 2018, 2022.

Sheryl J. Rushton (2014) - Associate Professor of Teacher Education. BS, MEd, PhD, Utah State University, 1987, 2004, 2014.

Melinda Russell-Stamp (2007) - Assistant Professor of Psychology. BA, University of Utah, 1995; EdS, PhD, University of Kansas, 1997, 2006.

Stephen L. Salmon (2022) - Instructor of Communication. BS, St. John Fisher College, 2006; JD, Vermont Law School, 2014.

Lynette Sandoval (2022) - Instructor of Developmental Mathematics. BS, Southern Utah University, 2002; MMath, Utah State University, 2012.

Elizabeth Sandquist (2018) - Assistant Professor of Zoology. BS, PhD, University of North Dakota, 2010, 2015.

Chris A. Scheidler (2020) - Assistant Professor of English. BA, Saginaw Valley State University, 2014; MA, PhD, University of Louisville, 2016, 2020.

Daniel V. Schroeder (1993) - Professor of Physics. BA, Carleton College, 1984; PhD, Stanford University, 1990.

James E. Schultz (2021) - Instructor of Communication and Director of Debate. BA, Idaho State University, 2013; MA, Wake Forest University, 2015.

Paul L. Schvaneveldt (2002) - Brady Presidential Distinguished Professor and Professor of Child and Family Studies. BA, MS, Utah State University, 1992, 1996; PhD, University of North Carolina at Greensboro, 1999.

Shane J. Schvaneveldt (1992) - Brady Presidential Distinguished Professor and Professor of Management. BS, Utah State University, 1985; MEng, PhD, Tokyo Institute of Technology, 1989, 1992.

Andrea K. Schwartz (2021) - Instructor of Spanish. BA, Western Washington University, 2008; MA, University of Jaén, Jaén, Spain, 2012; MA, Institute of Linguistic and Translation Studies, Madrid, Spain, 2020.

John E. Schwiebert (1989) - Professor of English. BA, Carleton College, 1976; MA, PhD, University of Minnesota, Minneapolis, 1986, 1989.

Meher Talat Shaikh (2020) - Assistant Professor of Computer Science. MS, PhD, Brigham Young University, 1994; 2020.

Leigh A. Shaw (2003) - Professor of Psychology. BS, University of Wyoming, 1994; MS, PhD, University of Utah, 1997, 2002.

Deann Shepherd (2021) - Instructor of Communication. BS, Utah State University, 2000; MSC, Westminster College, 2020.

Deborah J. Sheridan (2002) - Instructor of English as a Second Language and Chair of the Learning English for Academic Purposes Program. MA, University of Aberdeen, 1996; PGCE, Northern College Aberdeen Scotland, 1997; Cert TESOL, Aberdeen College, 1999.

Sally Bishop Shigley (1992) - Brady Presidential Distinguished Professor and Professor of English. BA, University of Utah; MS, PhD, Oklahoma State University.

Pamela C. Silberman (2021) - Instructor of Health Sciences. BS, MSN, Western Governors University, 2017, 2019.

Yasmen Simonian (1981) - Dean, Dr. Ezekiel R. Dumke College of Health Professions and Brady Presidential Distinguished Professor and Professor of Medical Laboratory Sciences. BS, MS, PhD, University of Utah, 1975, 1981, 1998.

Michele M. Skopec (2006) - Professor of Zoology. BS, Cornell University, 1999; PhD, University of Wisconsin - Madison, 2003.

Jessica A. Slater (2018) - Department Chair and Instructor of Automotive Technology. BS, Weber State University, 2015.

Trisha D. Small (2018) - Instructor of Nursing. BS, MSN, Weber State University, 2015, 2018.

Abraham E. Smith (2017) - Assistant Professor of English. BA, University of Wisconsin, 1996; MFA, University of Alabama, 2004.

Chad E. Smith (2012) - Associate Professor of Physical Education. BS, MS, Southern Utah University, 2008, 2009; PhD, University of Utah, 2012.

Eric S. Smith (2009) - Professor of Accounting & Taxation. BA, Weber State University, 2004; JD, University of Kentucky, 2008; LLM, Georgetown University, 2009.

Shannon W. Smith (2022) - Instructor of Dental Hygiene. BS, MEd, Weber State University, 2001, 2018.

Ashkan Soltani-Stone (2019) - Assistant Professor Film and Digital Media. BA, MFA, University of Utah, 2004, 2008.

Seokwoo Song (2007) - Professor of Management Information Systems and Department Chair of Supply Chain and Information Management Systems. BA, Seoul National University, 1986; MBA, Syracuse University, 1991; PhD, University of Wisconsin, 2001.

Amanda L. Sowerby (2002) - Interim Dean of College of Arts & Humanities and Professor of Dance. BFA, California Institute of the Arts, 1980; MFA, University of Utah, 2001.

Holli Sowerby (2013) - Associate Professor of Nursing. BS, MSN, Weber State University, 2009, 2011; EdD, Walden University, 2015.

Stephanie L. Speicher (2017) - Assistant Professor of Teacher Education. BS, Towson University, 1993; MEd, University of Maine, 2002; PhD, Utah State University, 2016.

JoAnn L. Spencer (2019) - Instructor of Nursing. BS, Weber State University, 1999; MSN, Walden University, 2009.

Kathryn A. Sperry (2020) - Instructor of Psychology. BS, California Polytechnic State University, 2004; MA, PhD, Claremont Graduate University, 2006, 2009.

Cody A. Squadroni (2017) - Instructor of Computer Science. BS, Weber State University, 2015.

Mitchell C. Standing (2019) - Instructor of Nursing. BS, MSN, Weber State University, 2014, 2018.

Jeffrey W. Steagall (2011) - Professor of Economics. BA, 1985, St Norbert College; MS, PhD, University of Wisconsin, 1987, 1990.

Hannah L. Stedje (2016) - Instructor of Athletic Training. BS, Cedarville University, 2008; MS, Indiana University, 2010.

Timothy H. Steele (1994) - Professor of Mathematics. BS, United States Military Academy at West Point, 1986; MA, PhD, University of California-Santa Barbara, 1992, 1994.

Christopher Steelman (2019) - Assistant Professor of Radiologic Sciences. BS, West Chester University, 1984; MS, Saint Joseph's University, 2010.

Sarah J. Bourassa Steimel (2011) - Professor of Communication. BBA, University of Oklahoma, 2005; MA, Kansas State University, 2007; PhD, University of Nebraska-Lincoln, 2011.

Jamie K. Stein (2021) - Instructor of Nutrition. BS, Louisiana State University, 2012; MSAT, Weber State University, 2018.

Sandra Stennett (2019) - Program Director and Instructor of Physician Assistant Studies. BFA, MS, MPAS, University of Utah, 1982, 1990, 2004.

Erik A. Stern (1993) - Professor of Dance. BA, University of California, Santa Cruz, 1982; MFA, California Institute of the Arts, 1989.

Michael J. Stevens (2008) - Brady Presidential Distinguished Professor and Professor of Business Administration. BA, University of Utah, 1984; PhD, Purdue University, 1993.

Brandon Stevenson (2021) - Assistant Professor of Automotive Technology. BS, Weber State University, 2013; MBA, University of Southern Indiana, 2020.

Doris Geide Stevenson (1996) - Professor of Economics. MA, Universitaet Wuerzburg-Germany, 1987; PhD, State University of New York-Buffalo, 1995.

Kathleen "K" Stevenson (2001) - Professor of Art. BA, College of St Benedict, 1974; MFA, University of Notre Dame, 1999.

Mark A. Stevenson (2015) - Assistant Professor of Anthropology. BA, State University of New York College, 1984; PhD, Temple University, 1996.

Pene'e W. Stewart (2000) - Professor of Teacher Education. BS, PhD, Brigham Young University, 1975, 1986.

Brandon Stoddard (2017) - Instructor of Business Administration. BS, University of Utah, 2007; MS, Case Western Reserve University, 2011.

Laura K. Stott (2013) - Instructor of English. BA, Brigham Young University, 2001; MFA, Eastern Washington University, 2004.

Janicke Stramer-Smith (2018) - Assistant Professor of Political Science. BA, University of Southern Denmark, 2000; MA, The American Graduate School of International Relations & Diplomacy, 2006; PhD, The University of Nevada, 2018.

Mahalingam Subbiah (1987) - Professor of English and Director of Master of Arts in English program. BS, Annamalai University-India, 1971; MA, Pachaiyappas College-India, 1978; PhD, Oklahoma State University, 1987.

I. Marlene Summers (2018) - Instructor of Nursing. BS, Weber State University, 1992; MS, US Army War College, 2005; MSN, Westminster College, 2007.

Alison A. Sunderland (2013) - Instructor of Computer Science. BS, MEd, Weber State University, 1991; 2011; MS, University of Illinois, 2015.

Eric G. Swedin (2001) - Professor of History. BS, Weber State University, 1988; MS, Utah State University, 1991; PhD, Case Western Reserve University, 1996.

Molly C. Sween (2011) - Department Chair and Professor of Criminal Justice. BS, MS, PhD, Iowa State University, 2005, 2008, 2011.

Kassidy S. Symonds (2018) - Instructor of Mathematics. BS, MEd, Weber State University, 2010, 2014.

Corina D Segovia Tadehara (2002) - Associate Professor of Social Work. BS, Westminster College, 1991; MSW, PhD, University of Utah, 1993, 2001.

Paul C. Talaga (1980) - Professor of Mathematics. BS, MA, PhD, University of Colorado, 1969, 1973, 1978.

Caitlin E. Tems (2019) - Assistant Professor Applied Climate Science. BA, Colorado College, 2008; PhD, University of Southern California, 2016.

Janice Thomas (2012) - Associate Professor of Medical Laboratory Sciences. BS, MEd, Weber State University, 2001, 2010; DHSc, A. T. Still University, 2020.

Shelley L. Thomas (2003) - Associate Professor of English. BA, Phillip's University, 1986; MA, St Mary's University, 1989; PhD, Oklahoma State University, 1997.

Bryant S. Thompson (2014) - Associate Professor of Management. BIS, Weber State University, 2002; PhD, University of South Carolina, 2012.

Julie C. Thompson (2022) - Instructor of Developmental Mathematics. BS, Southern Utah University, 2014.

Matthew I. Thue (2018) - Instructor of Business Administration. BA, Utah State University, 2005; JD, University of Utah, 2008.

Kerry N. Tobin (1981) - Professor of Manufacturing and Systems Engineering. BS, Weber State College, 1975; MS, Brigham Young University, 1984.

JoAnn A. Tolman (2020) - Instructor of Nursing. BS, MSN, Weber State University, 2012, 2018.

Barbara C. Trask (2003) - Associate Dean of the College of Science and Professor of Zoology. BS, Southern Illinois University, 1988; PhD, Washington University, 1999.

Carla K. Trentelman (2008) - Professor of Sociology. BS, Weber State College, 1982; MS, PhD, Utah State University, 2004, 2009.

John C. Trimble (2013) - Associate Professor of Foreign Languages. BA, MA, Northern Arizona University, 2007, 2009; PhD, University of Minnesota, 2013.

Kelley R. Trump (2020) - Assistant Professor of Nursing. BS, MSN, Western Governors University, 2017; DNP, Samford University, 2019.

Garth E. Tuck (2011) - Instructor of Computer Science. BA, Weber State University, 1998; MSIT, Capella University, 2010.

Jennifer M. Turley (1997) - Brady Presidential Distinguished Professor and Professor of Nutrition. BS, Arizona State University, 1989; PhD, University of Texas, 1993.

James A. Turner (2005) - Associate Professor of Finance. BA, University of Utah, 1985; MA, University of Michigan, 1987; PhD, University of Utah, 2007.

Katrina I. Twing (2020) - Assistant Professor Applied Environmental Microbiology. BA, Clark University, 2007; MS, University of Delaware, 2009; PhD, Michigan State University, 2015.

Chimobi R. Ucha (2022) - Assistant Professor, Web and User Experience. BSc, The American University, 2011; MSc, The University of Manchester, 2014; PhD, Michigan State University, 2021.

Sage R. Ukena (2017) - Instructor of Nursing. BS, Weber State University, 2008; MSN, Indiana State University, 2012.

Megumi Usui (2009) - Associate Professor of Design Engineering Technology. BS, Weber State University, 2003; MS, Purdue University, 2005.

Viktor Uzur (2005) - Professor of Music. BA, MA, Moscow Conservatory Tchaikovsky, 1995; MM, University of Georgia, 1997; DMA, Michigan State University, 2004

Shernavaz Vakil (2020) - Professor of Teacher Education. BCom, LLB, Bombay University, 1984, 1987; MEd, EdD, The University of Memphis, 1990, 1994.

Hugo E. Valle (2013) - Associate Professor of Computer Science. BS, University of Texas-Pan American; MS, PhD, Vanderbilt University, 2006, 2008.

Ralph H. van der Beek (2006) - Associate Professor of Music. BM, Utah State University, 1990; MM, Indiana University, 1993; DMA, University of Southern California, 2005.

Pieter J. van der Have (2011) - Department Chair and Instructor of Construction and Building Sciences. MS, University of Utah.

Sherri Vasas (2018) - Assistant Professor of Respiratory Therapy. BS, MS, Weber State University, 2000, 2018.

Sarah Vause (2012) - Instructor of English. BS, Weber State University, 2000; MS, Utah State University, 2005.

Lizbeth Velazquez (2022) - Assistant Professor of Social Work. BS, Weber State University, 2006; MSW, PhD, University of Utah, 2010, 2021.

Steve C. Vigil (2005) - Assistant Professor of Social Work. BS, Brigham Young University, 1992; MS, University of Utah, 1994.

Jodi Waddoups (2023) - OHN Program Director and Instructor of Nursing. BSN, MSN, Western Governors University, 1994, 2014.

Edward B. Walker (1981) - Director, Utah Center of Excellence for Chemical Technology, and Brady Presidential Distinguished Professor and Professor of Chemistry. BA, Weber State College, 1976; PhD, Texas Tech University, 1980; PostDoc, Stanford University, 1981.

Robert J. Walker (1982) - Department Chair and Professor of Radiologic Sciences and Professor of Health Administrative Services. BS, Weber State College, 1982; MS, University of Utah, 1985; PhD, University of Utah, 1996.

C. David Walters (2017) - Assistant Professor of Mathematics. BS, MS, Miami University, 2004, 2008; MA, Columbia University, 2008; PhD, San Diego State University and University of California, 2017.

Shi-Hwa Wang (1990) - Brady Presidential Distinguished Professor and Professor of Music. BA, Soochow University, Taiwan, 1983; MM, DMA, University of Illinois at Urbana-Champaign, 1986, 1989.

WeiWei Wang (2017) - Assistant Professor of Accounting and Taxation. PhD., University of Texas, 2016; MBA, University of Chicago; BS, University of International Business and Economics.

Jamie Wankier (2012) - Associate Professor of Nursing. BSN, University of Utah, 2002; MSN, Weber State University, 2012.

Jeffery Kurt Wart (2021) - Instructor of Health Promotion. BS, Weber State University, 2013; MEd, PhD, Auburn University, 2015, 2018.

Taylor C. Ward (2017) - Assistant Professor of Radiologic Sciences. BS, MSRS, Weber State University, 2014, 2016; PhD, Auburn University, 2021.

Brent W. Warnock (2014) - Instructor of Communication. BS, MS, University of Utah, 1992, 1995.

Jamie J. Weeks (2018) - Associate Professor of Library Science. BS, Weber State University, 2003; MLS, University of North Texas, 2006.

Drew A. Weidman (1999) - Professor of Computer Science. BS, Brigham Young University, 1985; MS, University of Wisconsin, 1986; MS, University of Maryland University College, 2009.

Glen O. West (2008) - Professor of Design Engineering Technology. BS, MS, PhD, University of Utah, 1997, 2003, 2017.

Jonathan West (2020) - Assistant Professor of Electrical and Computer Engineering. BS, MS, PhD, University of New Mexico, 1995, 2013, 2017.

Jordan M. West (2022) - Assistant Professor of Health Sciences. BIS, Weber State University, 2013; DPT, Rocky Mountain University, 2015.

Nancy T. Weston (2017) - Instructor of Nursing. BS, Weber State University, 2014; MSN, Western Governors University, 2017.

David K. Wetzel (2018) - Assistant Professor of Manufacturing and Systems Engineering. BS, The Ohio State University, 1984; MS, Rensselaer Polytech Institue, 1990; PhD, The Ohio State University, 1995.

Stephanie Wheatley (2021) - Instructor of Nursing. BS, MSN, Weber State University, 1994, 2018.

Mary Beth Willard (2011) - Department Chair of Political Science & Philosophy and Professor of Philosophy. BA, University of Notre Dame, 2001; MPhil, PhD, Yale University, 2005, 2009.

Tim H. Willard (2020) - Instructor of Construction and Building Sciences. BS, MS, Brigham Young University, 1984, 1985.

Jeffrey M. Williams (2021) - Assistant Professor and Director of Didactic Education, Physician Assistant Medicine. BHS, University of Kentucky, 1999; MPAS, University of Nebraska, 2011.

Kristiann T. Williams (2004) - Associate Professor of Nursing. ADN, Weber State College, 1983; BSN, University of Utah, 1987; MSN, Brigham Young University, 1990; DNP, Chatham University, 2011.

Natalie Allen Williams (2005) - Professor of Teacher Education. BS, Utah State University, 1993; MS, University of Utah, 2002; PhD, Ohio State University, 2005.

Lisa B. Wiltbank (2020) - Assistant Professor Applied Environmental Microbiology. BS, Brigham Young University, 2007; PhD, Indiana University, 2015.

Joshua R. Winegar (2007) - Professor of Art. BFA, Weber State University, 2002; MFA, Columbia College Chicago, 2007.

Stacie L. Wing-Gaia (2019) - Assistant Professor of Exercise and Nutrition Sciences. BS, University of California, MS, PhD, University of Utah, 2001, 2006.

Stephanie A. Wolfe (2013) - Associate Professor of Political Science. BA, MS, University of Oklahoma, 2000, 2001; PhD, University of Kent, 2012.

Stephen J. Wolochowicz (2011) - Professor of Art. BFA, University of Delaware, 2000; MFA, Miami University, 2005.

Linnette Wong (2017) - Assistant Professor of Health and Physical Education. BS, Shanghai University, 2007; MS, Brandeis University, 2008; PhD, Indiana University, 2014.

McKenzie Wood (2020) - Assistant Professor of Criminal Justice. BS, MS, Weber State University, 2009, 2010; PhD, North Dakota State University, 2015.

Michael Wutz (1992) - Brady Presidential Distinguished Professor and Professor of English and Editor of *Weber: The Contemporary West*. BA, Universitaet Wuerzburg, Germany, 1983; MA, University of Montana, 1986; PhD, Emory University, 1991.

Yu-Jane Yang (1992) - Brady Presidential Distinguished Professor and Professor of Music. BA, National Taiwan Normal University, 1984; MS, MM, University of Illinois, 1986, 1988; PhD, University of Michigan, 1994.

Ezgi Yesilyurt (2020) - Assistant Professor of Life Sciences Education. BS, MS, Middle East Technical University, 2010, 2014; PhD, University of Nevada, 2020.

David T. Yoder (2017) - Associate Professor of Assistant Professor of Sociology. BS, Weber State University, 2003; MA, Brigham Young University, 2005; PhD, University of Nevada, 2009.

W. Adolph Yonkee (1991) - Brady Presidential Distinguished Professor and Professor of Earth and Environmental Sciences. BS, MS, University of Wyoming, 1980, 1983; PhD, University of Utah, 1990.

Kathleen Paige Young (2019) - Instructor of Professional Sales. BA, Weber State University, 2016.

James A. Zagrodnik (2011) - Professor for Health, Physical Education and Recreation. BSA, University of Georgia, 2002, BSE, Augusta State University, 2005; MA, PhD, University of Georgia, 2007, 2011.

Lixuan (Grace) Zhang (2014) - Associate Professor of Management Information Systems. BA, Nankai University; MBA, MIS, University of Oklahoma; PhD, University of North Texas, 2006.

Yong Zhang (2012) - Assistant Professor of Computer Science. BE, ME, Harbin Institute of Technology, 1995, 1998; PhD, West Virginia University, 2006.

Xin Zhao (2022) - Assistant Professor of Clinical/Counseling Psychology. BS, Virginia Polytechnic Institute and State University, 2008; MS, PhD, Utah State University, 2012, 2016.

Ryan G. Zimmerman (2016) - Department Chair of Health, Physical Education and Recreation and Assistant Professor of Physical Education. BS, MEd, Utah State University, 2009, 2011; PhD, Springfield College, 2015.

Emeriti Faculty

Lowell S. Adams (1964) - Professor Emeritus of Microbiology. BS, MS, PhD, Oklahoma State University, 1961, 1964, 1973.

H. Lon Addams (1982) - Professor Emeritus of Management. BS, MBA, University of Utah, 1969, 1970; EdD, Brigham Young University, 1978.

Susan K. Alexander (2004) - Associate Professor Emerita of Dental Hygiene. BS, MEd, Weber State University, 2001, 2007.

Keith Allred (1978) - Associate Professor Emeritus of Design Engineering Technology. BS, MIE, Utah State University, 1967, 1980.

Richard M. Alston (1969) - Professor Emeritus of Economics. BA, University of Utah, 1966; MA, PhD, Cornell University, 1968, 1970.

Farhang Amiri (1984) - Professor Emeritus of Physics. BS, Tehran University, 1971; MS, Pars College, 1973; PhD, Florida State University, 1981.

Julianne K. Arbuckle (1993) - Professor Emerita of Psychology. BA, Weber State College, 1980; MEd, PhD, Brigham Young University, 1983, 1993.

Brooke S. Arkush (1990) - Brady Presidential Distinguished Professor and Professor Emeritus of Anthropology. BA, Humboldt State University, 1983; MA, PhD, University of California, Riverside, 1987, 1989.

Sidney R. Ash (1970) - Professor Emeritus of Earth and Environmental Sciences. BA, Midland Lutheran College, 1951; BA, MA, University of New Mexico, 1957, 1961; PhD, University of Reading, England, 1966.

Lee W. Badger (1981) - Professor Emeritus of Mathematics. BA, University of Missouri, 1968; MA, PhD, University of Colorado, 1970, 1975.

Naseem A. Banerji (1993) - Professor Emerita of Art History. BA, BEd, MA, University of Calcutta, 1968, 1970, 1981; PhD, University of Iowa, 1993.

Norris R. Bancroft (1969) - Professor Emeritus of Psychology. BA, MA, PhD, University of South Dakota, 1964, 1966, 1968.

Kristy A. Baron (2012) - Associate Professor Emerita of Nursing. BS, Weber State University, 1998; MFHD, Utah State University, 2004; PhD, Rocky Mountain University of Health Professions, 2014.

Diane C. Baughman (1972) - Professor Emerita of Nursing. BS, MS, University of Utah, 1972, 1979; EdD, Brigham Young University, 1985.

Michael A. Beard (1972) - Professor Emeritus and Program Director of Clinical Laboratory Technician Program. BS, Utah State University, 1963; MS, University of Utah, 1970; EdD, Brigham Young University, 1979. SBB.

Robert R. Beishline (1965) - Professor Emeritus of Chemistry. BS, MS, Brigham Young University, 1955, 1957; PhD, Penn State University, 1962.

Robert W. Belka (1970) - Associate Professor Emeritus of Foreign Languages. BA, Weber State College, 1966; MA, Tulane University, 1968; PhD, Brigham Young University, 1975.

F. A. (Bud) Belnap (1962) - Professor Emeritus of Health and Physical Education. BS, MS, Brigham Young University, 1961, 1962; PhD, University of New Mexico, 1983.

Nicole J. Berthelemy (2004) - Professor Emerita of Zoology. Maitrise, Doctorat de Troisieme Cycle, Universite d'Aix-Marseille, 1975, 1978; PhD, University of California, Davis, 1986.

Jewell (Judy) Bezoski (1985) - Instructor Specialist Emerita of Teacher Education. BS, Weber State College, 1972; MS, Utah State University, 1980.

Mark A. Biddle (1981) - Professor Emeritus of Visual Art and Design. BFA, MFA, Indiana State, 1977, 1981.

Georgine W. Bills (1987) - Professor Emerita of Health Sciences. BS, Weber State College, 1985; MBA, University of Utah, 1991; Registered Respiratory Therapist (RRT).

L. G. Bingham (1975) - Associate Professor Emeritus of Criminal Justice. BSL, University of Utah, 1951; JD, University of Utah, 1951.

James A. Bird (1978) - Professor Emeritus of Child and Family Studies. BS, MS, Brigham Young University, 1969, 1975; PhD, University of Utah, 1987.

Dixilee M. Blackinton (1987) - Instructor Specialist Emerita of Mathematics. BA, Brigham Young University, 1972; MEd, Weber State University, 1990.

Richard H. Blake (1974) - Professor Emeritus of Teacher Education. BS, Brigham Young University, 1967; MS, University of Oregon, 1969; PhD, University of Utah, 1974.

Stephanie J. Bossenberger (1991) - Professor Emerita of Dental Hygiene. BS, Weber State University, 1980; MS, University of Utah, 1987.

Eugene G. Bozniak (1969) - Professor Emeritus of Botany. BS, MS, University of Alberta, 1963, 1966; PhD, Washington University, 1969.

Sharen A. Brady (1995) - Associate Professor Emerita of Nursing. BSN, University of Washington, 1971; MSN, University of Utah, 1994.

Hayle Buchanan (1965) - Professor Emeritus of Botany. BA, MA, Brigham Young University, 1951, 1953; PhD, University of Utah, 1960.

John A. Burkes (1979) - Professor Emeritus of Sales Technology. BS, MEd, Mississippi State University, 1961, 1973.

Keith R. Burnett (1969) - Professor Emeritus of Secondary Education. BS, Montana State University, 1956; MS, EdD, University of Utah, 1966, 1969.

Lloyd R. Burton (2000) - Professor Emeritus of Health Administrative Services. BA, MEd, University of Nebraska-Kearney, 1969, 1971; MHA, Baylor University, 1982; DM, Colorado Technical University; 1998.

Thomas R. Burton (1963) - Professor Emeritus of English. BS, MA, Brigham Young University, 1959, 1960; PhD, University of Washington, 1967.

Frances M. Butler (1999) - Professor Emerita of Teacher Education. BA, University of California, Berkeley, 1968; MEd, University of Southern Mississippi, 1996; EdD, University of Nevada, Las Vegas, 1999.

Shannon K. Butler (1984) - Professor Emerita of English. BA, MEd, University of Utah, 1971, 1973; DA, University of Michigan, 1977.

Paul G. Butterfield (1959) - Professor Emeritus of Adult Education. BS, Utah State University, 1952; MEd, Colorado State University, 1960; PhD, University of Wisconsin, 1965.

S. Craig Campbell (1984) - Professor Emeritus of Child & Family Studies. BS, University of Washington, 1971; MA, Ball State University, 1974; PhD, Utah State University, 1979.

Robert L. Capener (1965) - Professor Emeritus of Computer Science. BS, University of Utah, 1955; PhD, Utah State University, 1968.

G. Arthur Carpenter (1970) - Associate Professor Emeritus of Library Science and Reference Instruction Librarian. BA, MLS, Brigham Young University, 1966, 1969.

Bradley W. Carroll (1985) - Brady Presidential Distinguished Professor and Professor Emeritus of Physics. BA, University of California-Irvine, 1971; MS, PhD, University of Colorado-Boulder, 1978, 1981.

Gary L. Carson (1965) - Professor Emeritus of Psychology. BA, MS, Brigham Young University, 1956, 1959; EdD, Utah State University, 1965.

Vel S. Casler (2001) - Professor Emeritus of Professional Sales. BA, North Texas State University, 1964; MBA, Franklin Pierce College, 1997.

Michael E. Cena (1994) - Professor Emeritus of Teacher Education. BS, MEd, Brigham Young University, 1975, 1980; PhD, Utah State University, 1995.

Kaylene Chalmers (2014) - Instructor Emerita of Nursing. BS, MSN, Weber State University, 2011, 2014.

Stella S. Chang (1970) - Associate Professor Emerita of Library Science and Bibliographic Services Librarian. BA, Tamkang College of Arts and Sciences, 1963; MLS, George Peabody College for Teachers, 1965.

Rosalind N. Charlesworth (1993) - Professor Emerita of Child and Family Studies. BA, Stanford University, 1956; MA, University of Iowa, 1958; PhD, University of Toledo, 1974.

Randy S. Chatelain (1982) - Associate Professor Emeritus of Child and Family Studies. BS, Weber State College, 1975; MS, PhD, Brigham Young University, 1982, 1983.

Merlin G. Cheney (1965) - Professor Emeritus of English. BS, MA, Brigham Young University, 1961, 1966; PhD, Bowling Green University, 1971.

Wan Fu Chi (1969) - Professor Emeritus of Economics. BA, Chung Hsing University, 1962; PhD, Southern Illinois University, 1969.

Bruce P. Christensen (1989) - Associate Professor Emeritus of Business Administration. BS, PhD, University of Utah, 1969, 1984; MS, USAF Institute of Technology, 1977.

Evan J. Christensen (1968) - Assistant Professor Emeritus of Library Science. BS, Utah State University, 1959; MSLS, University of Illinois, 1961.

James C. Christian (1988) - Brady Presidential Distinguished Professor and Professor Emeritus of Performing Arts. BFA, University of Utah, 1976; MFA, Illinois State University, 1978.

William G. Clapp (1984) - Professor Emeritus of Computer and Electronics Engineering Technology. BS, San Diego State, 1971; MA, San Diego State, 1978; MA, Naval War College, 1994; EdD, Brigham Young University, 1987.

Stephen L. Clark (1967) - Professor Emeritus of Botany. BS, Weber State College, 1964; MS, Utah State University, 1967; PhD, Brigham Young University, 1980.

Larry Clarkson (2005) - Associate Professor Emeritus of Art. BFA, University of Utah, 1976; MFA, University of Illinois, 1981.

Gerilynn Conlin (2004) - Associate Professor Emerita of Health Promotion and Human Performance. BA, MEd, Weber State University, 1976, 2002, PhD, University of Utah, 2010.

Rosemary Conover (1970) - Professor Emerita of Anthropology. BA, University of Utah, 1967; MA, Brandeis University, 1969; PhD, University of Utah, 1984.

Timothy R. Conrad (1983) - Associate Professor of Emeritus English and English as a Second Language. BA, MA, Utah State University, 1976, 1983, PhD, Indiana University of Pennsylvania, 2000.

Lynn G. Corbridge (1965) - Assistant Professor Emeritus of Health Promotion and Human Performance. BS, Weber State College, 1964; MS, University of Montana, 1965.

David N. Cox (1971) - Professor Emeritus of Visual Arts. BA, MA, San Jose State, 1960, 1971; MFA, Ohio State, 1974.

Forrest C. Crawford (1977) - Professor Emeritus of Teacher Education. BS, Weber State College, 1975; MS, University of Utah, 1977; EdD, Brigham Young University, 1990.

Charles M. Crittenden (1967) - Professor Emeritus of Computer Science. BS, MS, EdD, Utah State University, 1962, 1968, 1980.

Kathleen R. Culliton (1991) - Associate Professor Emerita of Nursing. AS, Hibbing Community College, 1976; BS, Moorhead State University, 1980; MSN, University of Utah, 1989.

Richard J. Dahlkemper (2002) - Associate Professor Emeritus of Health Administrative Services. BBA, University of Notre Dame; MBA, Indiana University, 1975; PhD, Walden University, 2008.

Tamara R. Dahlkemper (1985) - Associate Professor Emerita of Nursing. ADN, Weber State College, 1981; BSN, University of Utah, 1983; MSN, University of Phoenix, 2001.

Erika Daines (1989) - Professor Emerita of German. Diplom-Uebersetzer, University of Heidleberg, 1971.

Ron J. Deckert (2003) - Professor Emeritus of Botany. BSc, PhD, University of Guelph, 1995, 2000.

Richard K. DeMoss (1978) - Professor Emeritus of Automotive Technology. BS, MS, Utah State University, 1968, 1975.

E. Devon Deppe (1978) - Professor Emeritus of Accounting. BS, MACC, JD, Brigham Young University, 1967, 1970, 1978.

Karen Dewey (1993) - Associate Professor Emerita of Nursing. BS, Weber State University, 1989; MS, University of Utah, 1992.

W. Lee Dickson (1963) - Professor Emeritus of Electronics Engineering Technology. BS, MS, PhD, University of Utah, 1959, 1962, 1964.

Joseph M. Dixon (1964) - Professor Emeritus of History. BA, MA, PhD, Stanford University, 1953, 1959, 1966.

Gary R. Dohrer (1989) - Professor Emeritus of English. BA, Wichita State University, 1974; MA, St Louis University, 1979; PhD, University of Texas at Austin, 1989.

James A. Dolph (1969) - Professor Emeritus of History. BA, Knox College, 1961; MA, University of Denver, 1965; PhD, University of Massachusetts, 1975.

Larry W. Doman (1972) - Professor Emeritus of Foreign Languages. BA, University of Utah, 1964; PhD, St. Louis University, 1972.

Matthew J. Domek (2004) - Professor Emeritus of Microbiology. BS, Saint Mary's College, 1976; MA, California State University, 1980; PhD, Montana State University, 1985.

Rick L. Dove (1990) - Associate Professor Emeritus of Professional Sales. BS, MS, Utah State University, 1978.

Andrew M. Drake (1990) - Professor Emeritus of Manufacturing and Mechanical Engineering Technology. BS, Brigham Young University, 1980; MS, Florida Institute of Technology, 1985; PhD, Leeds Metropolitan University, 2008.

Evelyn N. Draper (1969) - Associate Professor Emerita of Emergency Care and Rescue. BS, University of Utah, 1959.

David A. Durkee (1991) - Professor Emeritus of Accounting. BA, Brigham Young University, 1965; MBA, University of Utah, 1972; PhD, Oklahoma State University, 1987.

Jeffrey G. Eaton (1995) - Professor Emeritus of Earth and Environmental Sciences. BM, Manhattan School of Music, 1971; MS, University of Wyoming, 1982; PhD, University of Colorado, 1987.

Linda B. Eaton (1992) - Professor Emerita of Anthropology. BA, Rice University, 1974; MA, PhD, Brown University, 1978, 1983.

Kathy J. Edwards (1989) - Associate Professor Emerita of Communication and Director of Master of Professional Communication program. BA, MA, University of Oklahoma, 1980, 1981; PhD, University of Utah, 1991.

Steven H. Eichmeier (1968) - Professor Emeritus of Professional Sales. BS, MS, Utah State University, 1967, 1968; EdD, Brigham Young University, 1976.

Claudia Eliason (1996) - Professor Emerita of Teacher Education. BS, Utah State University, 1966; MS, Utah State University, 1968; EdD, Brigham Young University, 1996.

Harold M. Elliott (1979) - Professor Emeritus of Geography. BA, MA, San Francisco State, 1964, 1970; PhD, University of Oklahoma, 1978.

Ann Larson Ellis (1990) - Associate Professor Emerita of Teacher Education. BA, Brigham Young University, 1975; MA, University of Connecticut, 1982; PhD, Purdue University, 1993.

Judith H. Elsley (1990) - Brady Presidential Distinguished Professor and Professor Emerita of English. BEd, Bristol University in England, 1974; MA, University of Nevada, Las Vegas, 1985; PhD, University of Arizona, 1990.

Rondo H. Erickson (1978) - Associate Professor Emeritus of Automotive Technology. BS, MIE, Utah State University, 1969, 1979.

Diane K. Leggett Fife (1999) - Associate Professor Emerita of Nursing. LPN, AS, Weber State College, 1973, 1974; BS, Weber State University, 1998; MSN, University of Phoenix, 2000; PhD, University of Utah, 2010.

Richard L. Ford (1996) - Professor Emeritus of Earth and Environmental Sciences. BS, Virginia Polytechnic Institute & State University, 1978; MS, University of New Mexico, 1986; PhD, University of California-Los Angeles, 1997.

Linda B. Forest (1989) - Associate Professor Emerita of Nursing. BS, Westminster College, 1985; MS, University of Utah, 1988.

Alfred S. Forsyth (1987) - Professor Emeritus of Teacher Education. BA, Brown University, 1967; MA, Columbia University, 1972; MA, Ohio State University, 1976; EdD, Utah State University, 1986.

James H. Foster (1975) - Professor Emeritus of Mathematics. BS, University of Notre Dame, 1964; MS, PhD, University of Wisconsin, 1969.

Wendy L. Fox-Kirk (2013) - Associate Professor Emerita of Business Administration and Marketing. Bsc, MSc, Aston University, Birmingham, 1996, 2005; PhD, University of Birmingham, 2014.

Dan A. Fuller (1981) - Professor Emeritus of Economics. BS, University of Utah, 1974; PhD, University of North Carolina, 1982.

James H. Gaskill (1970) Assistant Professor Emeritus of Criminal Justice. BS, MS, University of Utah, 1967, 1970.

Dawn M. Gatherum (1971) - Professor Emeritus of Botany. BS, MS, PhD, Utah State University, 1970, 1973, 1995.

L. Kay Gillespie (1974) - Professor Emeritus of Criminal Justice. BA, MS, Brigham Young University, 1965, 1969; PhD, University of Southern California, 1976.

Melba J. Glade (1962) - Professor Emerita of Elementary Education. BA, University of Utah, 1932; MS, University of Southern California, 1935; EdD, University of Utah, 1972.

Gary M. Godfrey (1985) - Professor Emeritus of Foreign Languages and Literature. BA, Weber State College, 1967; MA, PhD, University of Washington, 1969, 1974.

Linda P. Gowans (1990) - Professor Emerita of Teacher Education. BA, Utah State University, 1969; MS, University of Oregon, 1980; PhD, University of Utah, 1988.

Darrell J. Graff (1965) - Professor Emeritus of Zoology. BS, MS, Utah State University, 1958, 1960; PhD, University of California-Los Angeles, 1963.

Diana J. Green (1987) - Professor Emerita of Network Technology and Business Multimedia. BS, MS, Brigham Young University, 1974, 1976; EdD, Utah State University, 1987.

Deon Greer (1968) - Professor Emeritus of Geography. BA, MA, Brigham Young University, 1959, 1960; PhD, Indiana University, 1968.

Richard T. Grow (1976) - Professor Emeritus of Psychology. BS, Utah State University, 1964; MA, University of Utah, 1967; EdD, Utah State University, 1969.

Jeff Grunow (2002) - Associate Professor Emeritus of Emergency Care and Rescue. BSN, Widener University, 1976; MSN, University of Pennsylvania, 1980.

G. Craig Gundy (1981) - Professor Emeritus of Health Sciences. BS, MS, PhD, University of Pittsburgh, 1969, 1972, 1974.

Nancy N. Haanstad (1987) - Associate Professor Emerita of Political Science. BA, Augustana College, 1966; MA, PhD, University of Utah, 1976, 1984.

JoAnn C. Hackley (1965) - Associate Professor Emerita of Nursing. BS, University of Utah, 1965; MS, Brigham Young University, 1983.

Susan Hafen (2003) - Professor Emerita of Communication. BS, MEd, Brigham Young University, 1974, 1978; PhD, Ohio University, 1995.

Kirk D. Hagen (1993) - Brady Presidential Distinguished Professor and Professor Emeritus of Mechanical Engineering and Coordinator of Pre-Engineering Program. BS, Weber State College, 1977; MS, Utah State University, 1980; PhD, University of Utah, 1989.

Edward J. Hahn (2005) - Associate Professor Emeritus of Library Instruction. BS, Strayer University, 1998; MS, University of Pittsburgh, 2004.

Richard D. Halley (1981) - Professor Emeritus of Communication. BS, MA, Bowling Green State University, 1964, 1965; PhD, Ohio University, 1972.

Carol Hannan (1980) - Professor Emerita of Nursing. BSN, University of Utah, 1979; MSN, Brigham Young University, 1984; PhD, University of Utah, 1994.

Cheryl M. Hansen (1990) - Professor Emerita of French. BA, Weber State College, 1983; PhD, University of Utah, 1997.

Carol Hansen (1986) - Professor Emerita of Library Science. BA, Johnston College, University of Redlands, 1973, MS; University of Southern California, 1975.

Norma J. Hansen (1965) - Professor Emerita of Nursing. BS, MS, PhD, University of Utah, 1963, 1965, 1970.

Rodney A. Hansen (2004) - Professor Emeritus of Nutrition. BS, Idaho State University, 1986; MS, PhD, Colorado State University, 1993, 2003.

Verne W. Hansen (1987) - Associate Professor Emeritus of Electronics Engineering Technology. BS, ME, Brigham Young University, 1972, 1976.

Vicky S. Hansen (2015) - Instructor Emerita of Nursing. MSN, University of Washington, 2004.

Alma F. Harris (1973) - Professor Emeritus of Business Administration. BS, MS, Utah State University, 1963, 1972; PhD, Purdue University, 1973.

Wynn J. Harrison (1975) - Professor Emeritus of Radiologic Sciences. BS, MEd, Weber State College, 1979, 1980.

David G. Hart (1972) - Associate Professor Emeritus of Computer Science. BA, University of Utah, 1967; MS, Rensselaer Polytechnic Institute, 1972.

W. Bruce Haslam (1967) - Professor Emeritus of Psychology. BA, MA, PhD, Brigham Young University, 1961, 1966, 1970.

David S. Havertz (1965) - Professor Emeritus of Zoology. BS, MS, PhD, University of Utah, 1956, 1957, 1962.

Patricia P. Henry (1967) - Professor Emerita of Mathematics. BS, MS, PhD, University of Utah, 1960, 1965, 1972.

Kathleen M. Herndon (1989) - Professor Emerita of English. BA, Willamette University, 1969; MAT, Oregon College of Education, 1973; EdD, Vanderbilt University, 1988.

Warren R. Hill (1990) - Dean Emeritus of the College of Engineering, Applied Science & Technology and Professor Emeritus of Electronics Engineering. BS, University of Nebraska, 1963; MS, Wayne State University, 1968; Doctor of Engineering, University of Detroit, 1975.

Richard G. Hills (1964) - Professor Emeritus of Physics. BS, PhD, University of Utah, 1958, 1965.

Robert B. Hilton (1999) - Associate Professor Emeritus of Computer Science. BA, Weber State University, 1983; MS, Regis University, 2005.

William E. Hoggan (1987) - Assistant Professor Emeritus of Computer Science. BS, MS, University of Utah, 1964, 1967.

Robert M. Hogge (1989) - Professor Emeritus of English. BA, MA, Brigham Young University, 1967, 1969; PhD, University of Arizona, 1980.

Jay Hollingsworth (1965) - Associate Professor Emeritus of Health, Physical Education, Recreation, and Dance. BS, University of Southern California, 1963; MS, University of Utah, 1970; EdD, University of Missouri, 1975.

Ronald L. Holt (1986) - Professor Emeritus of Anthropology. BA, MA, Texas Tech University, 1974, 1976; PhD, University of Utah, 1987.

Diane S. Horne (1981) - Professor Emerita of Microbiology. BS, Mundelein College, 1966; PhD, Northwestern University, 1974.

Glen W. Howard (1973) - Professor Emeritus of Criminal Justice. BS, MSW, PhD, University of Utah, 1960, 1963, 1972.

Debra Huber (2008) - Professor Emerita of Nursing. AS, Weber State College, 1973; BS, University of Utah, 1977; MSN, Brigham Young University, 1988; PhD, University of Utah, 1998.

Pamela E. Hugie (1989) - Associate Professor Emerita of Nursing. BS, MS, University of Utah, 1971, 1993.

Kendall H. Hyde (1969) - Professor Emeritus of Mathematics. BS, University of Wyoming, 1959; MS, PhD, University of Utah, 1962, 1969.

Robert W. Irvine (1968) - Assistant Professor Emeritus of Mathematics. BA, MA, University of Utah, 1962, 1966.

James C. Jacobs (1985) - Professor Emeritus of Art. BFA, Jacksonville University, 1978; MFA, East Carolina University, 1982.

Gordon B. James (1981) - Professor Emeritus of Health Education. BS, MEd, PhD, University of Utah, 1968, 1975, 1977.

Helen J. James (1971) - Professor Emerita of Chemistry. BS, PhD, University of Nebraska, 1965, 1970.

Rondo N. Jeffery (1980) - Professor Emeritus of Physics. BS, MS, Brigham Young University, 1963, 1965; PhD, University of Illinois-Champaign, 1970.

Richard M. Jenson (1960) - Professor Emeritus of English. BS, MEd, EdD, Utah State University, 1952, 1959, 1984.

Becky L. Johns (1991) - Professor Emerita of Communication. BS, Weber State College, 1974; MA, Brigham Young University, 1981; PhD, University of Utah, 2001.

Paul R. Joines (1978) - Professor Emeritus of Performing Arts. BM, Kansas State University, 1962; MM, University of Texas, 1965; DMA, University of Oregon, 1975.

Cecil L. Jorgensen (1964) - Professor Emeritus of English. BS, MS, EdD, Utah State University, 1949, 1958, 1975.

Deborah M. Judd (2004) - Professor Emerita of Nursing. ASN, Brigham Young University, 1976; BS, MSN-NP, Georgia State School of Nursing, 1992, 1994; DNP, University of Alabama - Tuscaloosa, 2013.

Roydon O. Julander (1960) - Professor Emeritus of Political Science and Coordinator of Legal Studies program. BS, MS, PhD. University of Utah, 1958, 1962, 1987.

Terri L. Jurkiewicz (2006) - Associate Professor Emerita of Radiologic Sciences. BS, Weber State University, 1978; MS, Utah State University, 2003.

John Z. Kartchner (1967) - Assistant Professor Emeritus of Foreign Languages. BA, MA, Brigham Young University, 1963, 1967.

Diane M. Kawamura (1979) - Brady Presidential Distinguished Professor and Professor Emerita of Radiologic Sciences. BS, MEd, Weber State College, 1980, 1981; PhD, University of Utah, 1992.

Donald K. Keipp (1985) - Professor Emeritus of Performing Arts. BA, University of Northern Iowa, 1972; MA, DMA, University of Iowa, 1974, 1985.

Julie Killebrew (2000) - Associate Professor Emerita of Nursing. ADS, Weber State University; BSN, MSN, University of Utah, 1995, 1999.

Marie L. Kotter (1973) - Professor Emerita of Health Sciences. BS, MS, PhD, University of Utah, 1968, 1973, 1979.

M. Diane Krantz (1995) - Professor Emerita of English. BS, St Louis University, 1966; MA, Fairfield University, 1973; MA, PhD, University of California, Davis, 1989, 1994.

Raj Kumar (1974) - Professor Emeritus of Communication. BS, MS, Agra University, 1951, 1953; MEd, Government Pedagogical Institute, Allahabad, India, 1955; MA, Kent State University, 1971; PhD, Ohio University, 1989.

Ronald V. Ladwig (1982) - Professor Emeritus of Theatre Arts. BA, University of Denver, 1960; MA, California State University, 1967; PhD, Bowling Green State University, 1978.

LaRae Larkin (1991) - Associate Professor Emerita of History. BS, Brigham Young University, 1963; MS, Utah State University, 1976; PhD, University of Utah, 1990.

Lael Larsen (1973) - Assistant Professor Emerita of Nursing. BS, University of Utah, 1953; MSN, Brigham Young University, 1983.

Joanne L. Lawrence (1990) - Professor Emerita of Performing Arts. BA, University of Akron, 1977; MFA, University of North Carolina, 1987.

Shirley A. Leali (1993) - Professor Emerita of Teacher Education. BA, PhD, University of Denver; MA, University of Colorado.

Larry W. Leavitt (1984) - Professor Emeritus of Design Engineering Technology. BS, MS, Brigham Young University, 1973, 1985.

Ruby A. Licon (2005) - Associate Professor Emerita of Library Science. BA, University of California at Berkeley, 1969; MLS, Louisiana State University, 1982.

C. Daniel Litchford (1970) - Professor Emeritus of Professional Sales. BS, MS, Utah State University, 1969, 1972; EdD, Virginia Polytechnic, 1977.

E. Jeffery Livingston (1980) - Professor Emeritus of Business Administration. BS, Brigham Young University, 1968; MBA, University of Utah, 1969; PhD, Arizona State, 1974.

Jim W. Lochner (1970) - Professor Emeritus of Health and Physical Education. BA, Colorado State College, 1962; MA, Adams State College, 1964; EdD, University of Northern Colorado, 1969.

Karen Lofgreen (1979) - Professor Emerita of Teacher Education. BS, Utah State University, 1956; MEd, EdD, Brigham Young University, 1972, 1988.

Marilyn A. Lofgreen (1994) - Instructor Specialist Emerita of Teacher Education and Teacher Assistant Path to Teaching (TAPT) Director. BS, MEd, Weber State University, 1980, 1991; Administrative Endorsement, Utah State University, 1993.

William H. Lorowitz (2000) - Professor Emeritus of Microbiology. BS, Lehigh University, 1980; MS, University of Illinois, 1983; PhD, University of Oklahoma, 1994.

Scott A. Loughton (1976) - Associate Professor Emeritus of English. BS, Weber State College, 1971; MA, PhD, Brigham Young University, 1974, 1986

S. Jack Loughton (1987) - Professor Emeritus of Health Promotion and Human Performance. BS, University of Utah, 1968; MA, Utah State University, 1972; PhD, University of Utah, 1974.

Kathleen M. Lukken (1975) - Professor Emerita of Dental Hygiene. BS, Marquette University, 1970; MS, University of Iowa, 1975; PhD, University of Utah, 1985.

David R. Lynch (1999) - Professor Emeritus of Criminal Justice. BA, Brigham Young University, 1981; JD, Brigham Young University Law School, 1984; MA, PhD, State University of New York at Albany, 1994, 1996.

James R. MacBeth (1965) - Professor Emeritus of Visual Arts. BS, MFA, University of Utah, 1958, 1965.

James E. Macdonald (1982) - Professor Emeritus of Business Administration. BS, Eastern Illinois University, 1972; PhD, MBA/JD, Indiana University, 1980, 1981.

Kathryn L. MacKay (1988) - Professor Emerita of History. BA, University of California at Los Angeles, 1968; MA, PhD, University of Utah, 1973, 1987.

Laura G. MacLeod (1998) - Associate Professor Emerita of Web and User Experience. BS, Emporia State University, 1978; MS, Southwest Missouri State University, 1983; PhD, Northern Illinois University, 1990.

Susan Makov (1977) - Professor Emerita of Art. BFA, Syracuse University, 1974; Diploma, University of Brighton, 1975; MFA, State University of New York at Buffalo, 1977.

J. David Malone (2007) - Professor Emeritus of Accounting & Taxation. BBA, MBA, Southwest Texas State University, 1979, 1981; PhD, University of Arkansas, 1987.

Ronald M. Mano (1985) - Professor Emeritus of Accounting. BS, MBA, University of Utah, 1968, 1970; PhD, University of Nebraska, 1978.

Thomas J. Mathews (1996) - Professor Emeritus of Spanish. BA, Weber State University, 1981; MA, Middlebury College, 1984; PhD, University of Delaware, 1992.

David J. Matty (2011) - Professor Emeritus of Earth and Environmental Sciences. BS, Central Michigan University, 1977; MA, Portland State University, 1980; PhD, Rice University, 1984.

John C. (Jack) Mayhew, Jr. (2001) - Professor Emeritus of Teacher Education. BS, Plymouth State College, 1976; MS, PhD, University of Utah, 1994, 2001.

A. Earl McCain (1969) - Professor Emeritus of Education. BS, Peru State College, 1958; MA, New Mexico Highlands University, 1959; EdD, University of Northern Colorado, 1972.

Donald C. McCormick (1970) - Associate Professor Emeritus of Anthropology. BS, Brigham Young University, 1961; PhD, University of California-Berkeley, 1973.

Julanne K. McCulley (2005) - Associate Professor Emerita of Electronics Engineering Technology. BS, Weber State University, 1989, 2005; ME, Arizona State University.

Richard E. McDermott (1989) - Professor Emeritus of Accounting & Taxation and Healthcare Administration. BS, Brigham Young University, 1969; MS, University of Colorado, 1971; PhD, Oklahoma State University, 1984.

Chloe D. Merrill (1979) - Professor Emerita of Child and Family Studies. AS, College of Eastern Utah, 1976; BS, MS, Utah State University, 1977, 1979; PhD, Colorado State University, 1984.

Jimmie D. Merrill (1968) - Professor Emeritus of Education. BS, MS, Brigham Young University, 1956, 1967; EdD, University of Oregon, 1968.

Robert S. Mikkelsen (1955-60, 1965) - Professor Emeritus of English. BA, MA, PhD, University of Utah, 1950, 1953, 1971.

Jean Andra Miller (1962) - Professor Emerita of French. BA, University of Utah, 1960; MA, Harvard University, 1964; PhD, University of Utah, 1983.

Richard R. Miller (1969) - Professor Emeritus of Mathematics. BS, PhD, University of Utah, 1963, 1969.

Robert S. Milner (1988) - Associate Professor Emeritus of Manufacturing and Mechanical Engineering Technology. AAS, BIS, Weber State University, 1985, 1990. MS, Utah State University, 1994.

Madonne M. Miner (2007) - Professor Emerita of English. BA, Macalaster College, 1975; MA, University of Minnesota, 1978; PhD, SUNY-Buffalo, 1982.

Judith P. Mitchell (1984) - Professor Emerita of Teacher Education. BA, Stanford University, 1953; BS, Weber State College, 1973; MEd, Utah State University, 1975; PhD, University of Utah, 1981.

Monica G. Mize (1994) - Professor Emerita of Physical Education. BS, Indiana State University, 1972; MS, Eastern Illinois University, 1973; PhD, Southern Illinois University, 1979.

Pamela A. Molen (1981) - Associate Professor Emerita of Nursing. BS, California State University-Sonoma, 1976; MSN, University of California-San Francisco, 1978.

Steven A. Moss (1964) - Associate Professor Emeritus of Mathematics. BS, MS, University of Utah, 1957, 1959; MA, University of Illinois, 1964.

C. Thomas Musgrave (1969) - Professor Emeritus of Psychology. BS, University of Utah, 1957; MS, Utah State University, 1965; EdD, Utah State University, 1976.

Karen G. Nakaoka (1997) - Professor Emerita of Microbiology. BS, Ohio University, 1976; PhD, Ohio State University, 1981.

Vicki S. Napper (1999) - Professor Emerita of Teacher Education. BA, Weber State College, 1982; MS, PhD, Utah State University, 1991, 1997.

Mark J. Nelson (1973) - Professor Emeritus of Business Administration. BS, Brigham Young University, 1962; MBA, PhD, University of Oregon, 1964, 1969.

LaPrele Neville (1953) - Assistant Professor Emerita of Nursing. BS, Brigham Young University, 1950.

Kathryn T. Newton (2008) - Professor Emerita of Health Sciences. BS, Utah State University, 1980; MS, PhD, University of Utah, 2001, 2008.

Leonard A. Nicholas (1963) - Associate Professor Emeritus of Information Systems & Technologies. BS, Weber State College, 1967; MS, Colorado State, 1970.

Roger C. Nichols (1973) - Professor Emeritus of Clinical Laboratory Sciences. BS, Rickard College, 1963; MS, University of Utah, 1977.

Leonard Gary Nielsen (1977) - Professor Emeritus of Medical Laboratory Sciences. BS, Metropolitan State College, 1972; MS, University of Utah, 1977.

Karen E. Nielsen (1976) - Professor Emerita of Secondary Education. BS. University of Utah, 1967; MEd, EdD, Brigham Young University, 1972, 1979.

Michael D. Norman (1981) - Professor Emeritus of Criminal Justice. BA, Western Washington University, 1969; MA, EdD, University of Northern Colorado, 1978, 1980.

Clifford Nowell (1988) - Professor Emeritus of Economics. BA, MA, PhD, University of Wyoming, 1978, 1980, 1988.

Craig J. Oberg (1982) - Brady Presidential Distinguished Professor and Professor Emeritus of Microbiology. BS, Weber State College, 1979; PhD, Utah State University, 1985.

Linda K. Oda (1989) - Professor Emerita of Teacher Education. BS. Weber State College, 1967; MEd, Utah State University, 1980; EdD, Brigham Young University, 1987.

Janet Oja (2008) - Associate Professor Emerita of Medical Laboratory Science. BS, MHA, Weber State University, 1987, 2011.

Robert K. Okazaki (1998) - Professor Emeritus of Zoology. BA, University of California-Berkeley, 1971; MA, San Francisco State University, 1976; PhD, University of California-Santa Barbara, 1988.

Rick W. Orr (2000) - Professor Emeritus of Manufacturing and Systems Engineering . BS, MA, University of Utah, 1978, 1980; MS, Massachusetts Institute of Technology, 1985.

Dale A. Ostlie (1984) - Professor of Emeritus Physics. BA, St Olaf College, 1977; PhD, Iowa State University, 1982.

Lloyd Ott (1972) - Professor Emeritus of Professional Sales. BS, Southern Utah State College, 1968; MS, Utah State University, 1972.

H. Wayne Overson (1971) - Associate Professor Emeritus of Criminal Justice. BS, Weber State College, 1970; MS, Eastern Kentucky University, 1971; PhD, Claremont Graduate School, 1991.

Angelika Pagel (1986) - Professor Emerita of Visual Arts. BA, MA, University of California-Los Angeles, 1979, 1981; PhD, University of California-Berkeley, 1987.

Stacy E. Palen (2002) - Brady Presidential Distinguished Professor and Professor Emerita of Physics and Director of the Ott Planetarium. BA, Rutgers University, 1993; MS, PhD, University of Iowa, 1996, 1998.

Michael A. Palumbo (1982) - Professor of Music. BME, MA, University of Denver, 1967, 1971; DA, Ball State University, 1981.

Clayton Parkinson (1986) - Professor Emeritus of Health Sciences. DDS, Northwestern University, 1958; PhD, Utah State University, 1974.

Sharon B. Parkinson (1986) - Associate Professor Emerita of Social Work. BA, Southern Utah State College, 1982; MSW, University of Utah, 1986; EdD, Brigham Young University, 1990.

Joel C. Passey (1980) - Associate Professor Emeritus of Communication. BA, Utah State University, 1961; MA, University of Washington, 1969; PhD, University of Illinois, 1975.

Kathryn L. Payne (2000) - Associate Professor Emerita of Library Science. BA, MA, Washington University, St Louis, 1974, 1979; MA, PhD, University of Missouri, 1985, 1990.

A. Cordell Perkes (1979) - Professor Emeritus of Teacher Education. BS, MA, Utah State University, 1966, 1969; PhD, Ohio State University, 1973.

Levi S. Peterson (1965) - Professor Emeritus of English. BA, MA, Brigham Young University, 1958, 1960; PhD, University of Utah.

Ronald D. Peterson (1980) - Associate Professor Emeritus of Computer Science. BA, Weber State College, 1971; PhD, Cornell University, 1980.

Steven J. Peterson (2000) - Professor Emeritus of Construction and Building Sciences. BS, MBA, University of Utah, 1986, 1988.

June K. Phillips (1993) - Dean Emerita of the College of Arts and Humanities and Professor Emerita of Foreign Languages. BA, University of Pittsburgh, 1960; PhD, Ohio State University, 1974.

Paul D. Pitts (2000) - Associate Professor Emeritus of Teacher Education. BS, University of Utah, 1969; MEd, Utah State University, 1988; EdD, Brigham Young University, 1998.

Richard W. Pontius (2003) - Associate Professor Emeritus of Teacher Education. BA, MS, University of Wyoming, 1975, 1989; PhD, Ohio State University, 1993.

Sandra P. Powell (1990) - Associate Professor Emerita of Business Administration. BS, JD, MBA, PhD, University of Utah, 1967, 1977, 1986, 1992.

Judith P. Pratt (1990) - Associate Professor Emerita of Nursing. BS, Idaho State University, 1964; MSN, Brigham Young University, 1990.

Valory Quick (1983) - Associate Professor Emerita of Emergency Care and Rescue. BS, California State University-Long Beach, 1973; MS, Utah State University, 1988.

Victoria A. Ramirez (1999) - Professor Emerita of English. BA, MA, SUNY at Stony Brook, 1973, 1976; Postgraduate Diploma, St Andrews, Scotland, 1978; PhD, Binghamton University, NY, 1997.

Jack L. Rasmussen (2002) - Professor Emeritus of Teacher Education. BEd, Dipl in Ed, University of Lethbridge, 1977, 1987; MA, Gonzaga University, 1987; PhD, Brigham Young University, 1989.

T. R. Reddy (1966) - Professor Emeritus of Political Science. BA Honors, MA, University of Mysore, 1958, 1959; PhD, University of Kentucky, 1966.

Pamela Ann Rice (1984) - Associate Professor Emerita of Nursing. BS, Whitworth College, 1972; MS, Brigham Young University, 1993.

Franklin B. Richards (1984) - Professor Emeritus of Mathematics. BS, Rensselaer Polytechnic Institute, 1963; MS, Michigan State University, 1964; PhD, University of Wisconsin-Madison, 1970; LLB, University of Alberta, 1981.

Dick R. Rogers (1960) - Professor Emeritus of Mathematics. BS, MS, Utah State University, 1954, 1963; EdD, Oklahoma State University, 1971.

Brad L. Roghaar (1984) - Instructor Specialist Emeritus of English. BA, MA, University of Utah, 1974, 1980.

Thomas R. Root (1984) - Emeritus Professor of Music. BS, MA, University of Minnesota, 1969, 1973; PhD, Michigan State University, 1986.

Stephen H. Russell (1991) - Professor Emeritus of Business Administration. BS, Brigham Young University, 1967; MS, Air Force Institute of Technology, 1974; PhD, Arizona State University, 1978.

Richard W. Sadler (1969) - Professor Emeritus of History. BS, MS, PhD, University of Utah, 1964, 1965, 1969.

Ty Sanders (1991) - Associate Professor Emeritus of Communication. BA, California State University, 1976; MA, Central Missouri University, 1990; PhD, University of Oregon, 2008.

Leland B. Sather (1970) - Professor Emeritus of History. BA, Augustana College, 1964; MA, University of Nebraska, 1967; PhD, University of California-Santa Barbara, 1975.

Allyson D. Saunders (2000) - Associate Dean for the College of Engineering, Applied Science & Technology and Professor Emerita of Network Technology and Business Multimedia. BS, Brigham Young University, 1979; MS, PhD, Utah State University, 1983, 1997.

Peggy J. Saunders (2004) - Professor Emerita of Teacher Education. BA, MEd, Weber State University, 1977, 1993; PhD, University of Utah, 2002.

Randolph J. Scott (1978) - Associate Professor Emeritus of Communication. BS, Weber State College, 1973; MA, Northern Illinois University, 1975; PhD, University of Oregon, 1989.

Spencer L. Seager (1961) - Professor Emeritus of Chemistry. BS, PhD, University of Utah, 1957, 1962.

Gene A. Sessions (1976) - Brady Presidential Distinguished Professor and Professor Emeritus of History. BA, Utah State University, 1970; MA, PhD, Florida State University, 1972, 1974.

Sterling D. Sessions (1974) - Professor Emeritus of Business Administration. BA, Brigham Young University, 1949; MS, New York University, 1950; DBA, Harvard, 1962.

Donald K. Sharpes (1978) - Professor Emeritus of Education. BA, MA, Gonzaga University, 1959, 1961; MA, Stanford University, 1968; PhD, Arizona State University, 1969.

Patricia L. Shaw (1991) - Professor Emerita of Health Administrative Services. BS, College of St Scholastica, Duluth, MN, 1981; MEd, Weber State University, 1997; EdD, Northcentral University, 2016.

John R. Sillito (1977) - Professor Emeritus of Library Science. BS, MA, University of Utah, 1970, 1973, 1977.

Allen F. Simkins (1976) - Professor Emeritus of Accounting. BS, Utah State University, 1969; MACC, Brigham Young University, 1970; PhD, Arizona State University, 1976.

C. Jan Slabaugh (1975) - Professor Emerita of Interior Design Technology. BS, Utah State University, 1958; MS, Iowa State University, 1967.

Michael R. Slabaugh (1971) - Professor Emeritus of Chemistry. BS, Purdue, 1965; PhD, Iowa State University, 1970.

Richard W. Sline (1982) - Professor Emeritus of Communication. BA, Drake University, 1969; MS, Southern Illinois University, 1972; PhD, University of Utah, 1999.

John E. Sohl (1990) - Brady Presidential Distinguished Professor and Professor Emeritus of Physics. BS, University of West Florida, 1979; MS, PhD, Ohio State University, 1986, 1990.

Lyneer C. Smith (1964) - Assistant Professor Emeritus of Music. BA, MS, Brigham Young University, 1951, 1952.

Molly M. Smith (1989) - Professor Emerita of Health Promotion and Human Performance. BS, University of Missouri, 1974; MS, University of Arizona, 1978; PhD, University of New Mexico, 1988.

R. Michael Smith (1985) - Professor Emeritus of Teacher Education. BS, BS, Weber State College, 1976, 1977; M. Ed, Utah State University, 1978; EdD, Brigham Young University, 1984.

Robert B. Smith (1981) Provost Emeritus. BS, Wheaton College, 1958; PhD, University of California Berkeley, 1962.

William E. Smith (1981) - Professor Emeritus of Health Administrative Services. BS, Westchester State University, 1956; MS, Indiana University, 1957; EdD, Arizona State University, 1970.

Chris V. Soelberg (2004) - Associate Professor Emeritus of Construction and Building Sciences. BA, MPA, University of Utah, 1989.

Mohammad Sondossi (1991) - Professor Emeritus of Microbiology. BS, University of Azarabadehgan, 1974; MS, University of Detroit, 1978; PhD, Wayne State University, 1988.

Douglas M. Spainhower (1967) - Associate Professor Emeritus of English. BS, Brigham Young University, 1956; MA, California State College-Fullerton, 1967; EdD, Brigham Young University, 1988.

Tony Spanos (1974) - Professor Emeritus of Foreign Languages. BA, Weber State College, 1968; MA, University of Nevada-Reno, 1973; PhD, University of Utah, 1988.

Walther N. Spjeldvik (1985) - Professor Emeritus of Physics. E Art, U Pihl, 1965; CMag, Universitetet i Bergen, 1969; MS, PhD, University of California-Los Angeles, 1971, 1974.

Stephen S. Stanford (1965) - Professor Emeritus of Sociology. BS, MS, Brigham Young University, 1950, 1951; PhD, University of Colorado, 1959.

Bud W. Stephenson (1967) - Associate Professor Emeritus of Psychology. BS, MS. Utah State University, 1962, 1973; PhD, University of Minnesota, 1982.

Morris R. Sterrett (1973) - Associate Professor Emeritus of Criminal Justice. BA, MS, Brigham Young University, 1967, 1969; MA, PhD, Claremont Graduate School, 1983, 1984.

Steven J. Peterson (2000) - Professor Emeritus of Construction and Building Sciences. BS, MBA, University of Utah, 1986, 1988.

Alan E. Stockland (1970) - Professor Emeritus of Microbiology. BS, University of Nebraska, 1961; MS, PhD, Michigan State University, 1967, 1970.

H. Stephen Stoker (1968) - Professor Emeritus of Chemistry. BA, University of Utah, 1963; PhD, University of Wisconsin, 1968.

Jeffery D. Stokes (1985) - Professor Emeritus of Spanish. BA, Weber State College, 1975; MA, University of Utah, 1977; PhD, Indiana University, 1981.

Jerald T. Storey (1964) - Professor Emeritus of Management. BS, Brigham Young University, 1957; MBA, PhD, University of Utah, 1964, 1972.

James G. Swearingen (1985) - Professor Emeritus of Accounting. BS, MBA, University of Utah, 1971, 1972; PhD, University of Washington, 1982.

Eva L. Szalay (1999) - Professor Emerita of German. BS, Virginia Polytechnic Institute and State University; MS, PhD, Georgetown University, 1998.

Alden A. Talbot (1975) - Professor Emeritus of Telecommunications. BS, Weber State College, 1967; MS, Utah State University, 1969; PhD, University of Iowa, 1976.

John S. Thaeler (1982) - Associate Professor Emeritus of Mathematics. BA, MAT, Duke University, 1960, 1961; BS, University of Utah, 1968; PhD, Florida State University, 1981.

Joan S. Thompson (1988) - Professor Emerita of Nutrition. BS, University of California-Berkeley, 1978; MS, PhD, University of Arizona, 1981, 1983.

Blaine R. Thornock (1970) - Associate Professor Emeritus of Mechanical Engineering Technology. BS, MIE, Utah State University, 1961, 1979.

Roy D. Thornock (1982) - Professor Emeritus of Manufacturing Engineering Technology. BS, Utah State University, 1964; MS, Colorado State University, 1974.

Susan B. Thornock (1998) - Professor Emerita of Nursing. BSN, Weber State University, 1993; MS, University of Utah, 1998, EdD, Northcentral University, 2013.

Van M. Tinkham (1993) - Professor Emeritus of Performing Arts. BA, MA, Indiana University, 1973, 1975; MFA, Indiana University, 2003.

Michael A. Toth (1975) - Professor Emeritus of Sociology. BS, MS, PhD, University of Utah, 1960, 1964, 1973.

E. K. Valentin (1984) - Professor Emeritus of Marketing and Business Administration. BS, MBA, PhD, University of Utah, 1970, 1971, 1979.

Richard Vandenberg (1987) - Professor Emeritus of Automotive Engineering Technology. BGS, Weber State College, 1977, MEd, Utah State University, 1970.

W. Roy Van Orman (1977) - Associate Professor Emeritus of Gerontology. BS, Weber State College, 1964; MSW, University of Utah, 1967; MPA, University of Southern California, 1972; EdD, Brigham Young University, 1984.

Jane A. Van Valkenburg (1973) - Professor Emerita of Radiologic Sciences. BS, Weber State College, 1973; MEd, Weber State College, 1980; PhD, University of Utah, 1989.

Michael B. Vaughan (1981) - Brady Presidential Distinguished Professor and Professor Emeritus of Economics. BS, MBA, University of Arkansas, 1976, 1977; PhD, University of Nebraska, 1981.

L. Mikel Vause (1983) - Brady Presidential Distinguished Professor and Professor Emeritus of English. BS, Weber State College, 1981; MA, PhD, Bowling Green State University, 1982, 1986.

Peter J. Vernezze (1990) - Associate Professor Emeritus of Philosophy. BA, University of Wisconsin at Madison, 1982; MA, University of Illinois at Chicago, 1985; PhD, University of Washington, 1989.

Barbara A. Wachocki (1991) - Professor Emerita of Botany. BS, MS, PhD, Wayne State University, 1980, 1984, 1992.

Robert C. Wadman (1997) - Professor Emeritus of Criminal Justice. AA, Dan Diego City College, 1968; BS, MPA, Brigham Young University, 1970, 1975; DA, Idaho State University, 1998.

Wayne L. Wahlquist (1964) - Professor Emeritus of Geography. BA, MA, Brigham Young University, 1958, 1961; PhD, University of Nebraska, 1974.

Robert E. Wallentine (1963) - Professor Emeritus of Manufacturing Engineering Technology. BS, MS, Utah State University, 1959, 1970.

Leland A. Walser (1967) - Professor Emeritus of Foreign Languages. BA, MA, Brigham Young University, 1964, 1967; PhD, University of Utah, 1975.

R. Kenneth Walter (1982) - Professor Emeritus of Computer Science. BS, PhD, Brigham Young University, 1964, 1970.

Wangari wa Nyatetu-Waigwa (1990) - Professor Emerita of Foreign Languages. BA, Université de Dijon, 1974; MA, PhD, University of Utah, 1983, 1989.

Joyce E. Wanta (1969) - Associate Professor Emerita of Respiratory Therapy. BS, EdS, University of Utah, 1961, 1980.

Margaret T. Waterfall (1962) - Associate Professor Emerita of Health, Physical Education, Recreation, and Dance. BS, MFA, University of Utah, 1962, 1968.

Helena B. Watson (1967) - Assistant Professor Emerita of Elementary Education. BS, Utah State University, 1960; MS, Montana State University, 1961.

Garth L. Welch (1964) - Professor Emeritus of Chemistry. BS, PhD, University of Utah 1959, 1963.

Glen J. Wiese (1959) - Professor Emeritus of English. BA, MA, Brigham Young University, 1958, 1959; PhD, University of Utah, 1971.

Carla Wiggins (2013) - Professor Emerita of Health Administrative Services. BS, Ithaca College, 1985; PhD, University of Minnesota, 1994.

Floyd A. Wilkes (1982) - Associate Professor Emeritus of Information Systems & Technologies. BS, Brigham Young University, 1959; MS, PhD, University of Oregon, 1972, 1987.

Gary D. Willden (1977) - Professor Emeritus of Health Promotion and Human Performance. BS, MA, Brigham Young University, 1972, 1973; EdD, University of Utah, 1983 (CLP).

Benne D. Williams (1958) - Professor Emeritus of Psychology. BS, Utah State University, 1958; MS. Utah State University, 1959; EdD, Utah State University, 1965.

Deanna L. Williams (1979) -Associate Professor Emeritus of Nursing. BS, Brigham Young University, 1966; MS, Pittsburgh State University, 1976.

James R. Wilson (1982) - Professor Emeritus of Earth and Environmental Sciences. BS, Auburn University, 1967; MS, University Tennessee, 1973; PhD, University of Utah, 1976.

Lydia Wingate (1998) - Dean Emerita Dr. Ezekiel R. Dumke College of Health Professions. BS, University of Leeds, 1956; MS, Albany Medical College, Union University, 1978; PhD, State University of New York, 1984.

Joseph Wolfe (2007) - Associate Professor Emeritus of Construction and Building Sciences. BS, Auburn University, 1963; MBA, University of North Florida, 1982.

Ray E. Wong (1980) - Professor Emeritus of Teacher Education. BA, Temple University, 1970; MA, Northeast Missouri State University, 1974; PhD, Iowa State University, 1992.

Ronald L. Wooden (1967) - Professor Emeritus of Music. BS, MS, Utah State University, 1961, 1965; PhD, University of Utah, 1975.

Scott H. Wright (1998) -Professor Emeritus of Medical Laboratory Science. BS, Weber State College, 1978; MS, Idaho State University, 1980.

Gloria Z. Wurst (1978) - Professor Emerita of Zoology. BS, Juniata College, 1966; MS, PhD, University of Pittsburgh, 1970, 1974.

Samuel I. Zeveloff (1984) - Brady Presidential Distinguished Professor and Professor Emeritus of Zoology. BA, State University of New York-Binghamton, 1972; MEd, City College of New York; 1973 MS, North Carolina State University, 1976; PhD, University of Wyoming, 1982.

James E. Young (1988) - Professor Emeritus of English. BA, Tulane University, 1962; MA, PhD, Peabody College of Vanderbilt University, 1971, 1979.

Catherine A. Zublin (1986) - Professor Emerita of Theatre Arts. BA, University of Colorado-Boulder, 1977; MFA, Indiana University-Bloomington, 1986.

Academic Info & Policies

Weber State University is committed to providing a quality undergraduate education for students. The role of the offices and services listed in this section of the catalog is to support students and help them achieve their educational goals.

Location: Student Services Center, Room 101
Telephone: 801-626-7791
Internet Address: weber.edu/records

Privacy Rights

The WSU Records Office maintains student records in accordance with the Family Educational Rights and Privacy Act (FERPA), which affords students the right to inspect and review their educational records, the right to seek to have the records amended, and the right to have some control over the disclosure of information from the records. The law generally requires that written consent of the student be received before personally identifiable data about the student is released. Institutions may release, without written consent, those items specified as public or directory information, provided the institution informs students of the data designated as public information and gives students prior opportunity to refuse disclosure of any or all categories of that information. Directory information at Weber State University is currently specified to include name, address, telephone number, major (program of study), dates of

attendance, degree(s) received, full-time/part-time status, videos used for educational purposes, and honors received. A student may have their public or directory information made confidential by submitting a written request to the Registrar's Office.

If a student feels that information other than directory information has been made public in violation of this act, they may contact the Registrar's Office to file a formal grievance. Copies of the entire policy or information about specific procedures may be obtained from the Office of the Registrar.

Transcripts

Students may obtain official copies of their academic transcripts from the Registrar's Solution Center. There is a \$7.50 charge for this service. For students who attended prior to Summer 2010, four fee-free transcripts will be provided if the request is made in person or by mail.

- Transcripts picked up in person require photo identification.
- Transcript requests may be made by mail or online at www.weber.edu/records (telephone requests cannot be accepted) and should include the student's name, social security number or WSU student ID number, birthdate, student's signature and complete address where the transcript should be sent.
- Transcript requests by anyone other than the student must be accompanied by a written release from the student that includes:
 - A sentence stating that you have given your consent to a friend or a relative to pick up your transcript, and for what purpose.
 - The date the release was written
 - Your full name and any prior names
 - Your Social Security Number or Student ID Number
 - Your date of birth
 - The name of your friend or relative that will be retrieving your transcript
 - Your signature

The person receiving the record will be asked to show photo identification.

A printable copy of a transcript request form is available via the WSU Web site at weber.edu/records. Requests should be mailed to: Weber State University, Records Office, 3885 West Campus Dr. DEPT 1102, Ogden, UT 84408-1102; or emailed as a pdf or jpeg attachment to records@weber.edu.

Record Holds

Transcripts and diplomas will not be issued for students who owe money to the University for financial aid, library fines, housing, traffic tickets, etc.

Students may access their grades on the Internet with a "Wildcat Username" and password. To obtain information about access to the eWeber student portal, contact the Computing Support Center Help Desk at 801-626-7777.

Grading

Grade System

The following grades and numeric point values are used to compute the cumulative grade point average (GPA).

A	Excellent	4.0
A-	Excellent	3.7
B+	Good	3.3
B	Good	3.0
B-	Good	2.7
C+	Standard	2.3
C	Standard	2.0
C-	Standard	1.7
D+	Sub-Standard	1.3
D	Sub-Standard	1.0
D-	Sub-Standard	0.7
E	Failure	0.0
UW	Unofficial Withdrawal	0.0

To calculate a cumulative GPA, the total number of grade points (the number of credit hours per course multiplied by the numeric points listed above for the grade) is divided by the total number of credit hours.

Courses coded with an R in front of the grade (indicating academic renewal), or an E in the far right column of the form (indicating exclusion due to a repeat), are not used in computing the GPA, the graduation hours or the total hours completed. Courses coded ND (non-degree) are not used in computing the GPA or the graduation hours completed, but they are included in computing the total hours attempted. Courses numbered below 1000-level (ex. MATH 0950) are considered developmental and are not used in computing the GPA and they do not count toward total hours completed.

Courses with the following notations in the grade column are not used in computing the GPA, the graduation hours, or the total hours completed (with the exception of CR-Credit courses which may be used toward graduation hours or total hours).

AU-Audit

- Indicates the student was allowed to sit in a class without earning credit or a grade.
- Audit students who fail to attend class without withdrawing may be issued a withdrawal (W).
- Developmental courses are not eligible to take in audit mode.
(See Registration section of the Student Access and Success page of this catalog.)

CE-Continuing Education Unit

- Students who enroll in a Continuing Education Unit through the Continuing Education Office will receive a CE grade. It is not counted in the WSU GPA or Total Hours, but can be listed on a transcript.

CR-Credit

- Indicates the student registered for a course on a pass/fail basis and earned a C- or better. (See Registration section of the Student Access and Success page of this catalog.)
- Certain courses are offered on a credit/no credit basis only and letter grades are not given.
- Credit/no credit courses may only be used as electives in a student graduation requirements. Classes taken on a credit/no credit basis will not satisfy major, minor, or general education requirements with exception of those courses or programs of study approved by the University Curriculum and General Education committees and those courses approved by academic departments for credit by special examination.
- A maximum of 20 hours of credit/no credit electives may be used for graduation.

I-Incomplete

- Indicates the student was unable to complete the course for a legitimate reason (such as accident or illness) after having completed a substantial portion (approximately 80%) of the required work.
- A written contract between the student and the instructor indicates the work still to be done and the deadline for its completion (within 12 months).
- The student must complete remaining work without re-registering or attending the class during a subsequent semester.
- Credit hours are not counted until a letter grade is posted.
- All incomplete (I) courses must be completed prior to graduation.

NC-No Credit

- Indicates the student registered for a course on a credit/no-credit basis and earned less than a C-.
- Students who stop attending a class for which they are registered on a credit/no-credit basis without officially withdrawing will receive an NC grade entry for that class.
- Certain courses are offered on a credit/no credit basis only and letter grades are not given.

NG-No Grade Reported

- The instructor has not reported a grade for the course.

SC-Special Credit

- The student has received credit through an examination, waiver, or substitution for which they are not eligible for a letter grade.
- These credits are counted toward the total number of credits required for graduation but are not used to calculate the cumulative grade point average.
- Special credits may be used for graduation requirements as determined by the academic departments.

T-Temporary Grade

- The course is being continued in the subsequent semester and a grade and credits will be calculated when the course is complete and a letter grade has been issued. The "T" grade is approved for specific courses only.

UW-Unofficial Withdrawal

- Indicates the student stopped attending the course without officially withdrawing. UWs are calculated as failing grades in the student's semester and cumulative grade point averages.

W-Withdrawal

- The student withdrew from the course in the interval comprising the 16th through the 50th business day of a semester or the 30th business day of a block. Withdrawals are not permitted after the 50th business day of a semester or 30th business day of a block.

Changing of Grades

- Grades may be changed only by the instructor who submitted the original grade.
- Students who feel their work has been evaluated unfairly should contact the instructor.
- Students who choose to complete a course on a credit/no credit basis may petition the Registrar's Office to have a CR grade replaced by the earned letter grade if they recently changed their major or minor and need the letter grade to meet graduation requirements for the new major or minor.

Repeat Courses

- Repeated courses will be automatically flagged as part of the grading process at the end of each term.
- Each course (unless specifically listed as repeatable for credit in the course description) may be used only once in cumulative hours and GPA.
- A course will appear on the transcript each time it is completed, but it will be counted only once in total hours and only the most recent letter grade received will be used to calculate the GPA (CR is not considered a letter grade and will not cause a previous grade to be discounted).
- Once a degree has been posted to a student's permanent record, courses used for that degree may not be repeated to improve the posted degree's GPA.

Academic Renewal Policy

1. The applicant for academic renewal must be a currently enrolled undergraduate student or must have been enrolled during the previous term. Students who are not currently enrolled and who cannot obtain financial aid until their GPA is recalculated using Academic Renewal should begin the process with Academic Records and take written evidence of the initiation of this process to the Financial Aid Office.
2. Academic renewal may be requested only once during a student's academic career.
3. Once a certificate, associate, or bachelor degree is awarded by Weber State University or received as a transfer credit, any Weber State course(s) completed prior to the completion of that certificate or degree will not qualify for academic renewal. However, WSU courses completed after receiving a certificate or associate degree, but before completion of a bachelor degree, are eligible for renewal if they meet the requirements.
4. The policy does not apply to graduate students or students pursuing a second bachelor's degree.
5. Grades of "D+" or less which were earned six years or more prior to the petition date will not be computed in the GPA.
6. Academic requirements may not be satisfied by courses to which academic renewal has been applied.
7. Hours not used for GPA purposes are not used to satisfy total and upper division credit hour requirements.
8. The Academic Renewal Policy will apply only to courses taken at Weber State University.
9. Only the calculation of a student's GPA will be affected by this policy.
10. This policy applies to WSU GPA calculation only. A student's GPA when transferring or applying for graduate/professional schools will be calculated according to the policy of that institution, i.e. the receiving institution may average the grades or use the original grades.
11. Students who are applying for academic renewal and graduating in the same semester must notify the Graduation Department.

Applications for academic renewal and detailed policy information are available at the Records Office or at www.weber.edu/records.

Credit by Examination or Petition

Contact: Records Office

Location: Student Services Center, Room 101

Telephone: 801-626-6100

Students may receive WSU degree credit by examination or petition under the following restrictions:

- The student must be a WSU-admitted student.
- The student must pay the appropriate recording fee in addition to specific test fees.
- Credit will not be given if it duplicates previous examinations, petitions, or course work for which a student previously received a grade (A-E) or notation UW, CR, I or T.
- Credit by examination or petition will not be considered part of the residency requirement.
- Credit by examination or petition, although graded with credit (SC), may be used to satisfy major, minor and general education requirements.

Advanced Placement Examination (AP)

- AP credit is earned by completing one or more high school AP courses and successfully completing the appropriate exam(s) while in high school.
- WSU credit hours may be earned with each AP examination score of 3, 4, or 5. Please see <http://www.weber.edu/admissions/aptests.html> for details.
- To have credit evaluated, a student must fill out an "Application for Test Credit" at this link <https://www.weber.edu/admissions/aptests.html>
 - Scores may be submitted to the Admissions Office as a part of the Admissions process, or
 - Scores may be submitted to the Admissions Office in person, along with a receipt for the \$10 recording fee payment.
- If a student submits AP, CLEP, and IB scores for evaluation, the IB scores will be awarded first. If the AP or CLEP credit duplicates the IB credit already awarded, the AP and CLEP credits will be reduced by the amount of credit awarded for the IB Higher-Level Subject in the specific area.

International Baccalaureate Credit (IB)

Admitted WSU students can earn college credit through the International Baccalaureate (IB) program.

- A student must be admitted and matriculated at WSU to have IB credit evaluated.
- Once test results have been received, students eligible for credit will receive an evaluation from the Admissions Office with instructions about how to have credits added to their transcript.
- IB Credit evaluations are available on the Prior Learning Assessment webpage.

College Level Examination Program (CLEP)

- CLEP is a way for students to earn college credit by completing one or more of the General or Subject Examinations administered by the Testing Center.
- Applications and further information on the procedure, fees, and testing schedule are available from the WSU Testing Center.
- A student's test scores will be considered if the student drops the same course within the first 3 weeks of the semester.
- Students must submit examination scores to the Admissions Office to initiate the evaluation process.

Special Examination

- Special examinations may be arranged to earn credit for some WSU courses not covered by CLEP testing. Each department determines which courses will qualify.
- Students must provide evidence of sufficient background in the area to be tested.
- Applications for Special Examinations and further information about requirements, limitations, and fees may be obtained from the academic departmental offices.

Foreign Language Credit for Prior Language Experience

- Students with prior language experience may be given foreign language credit by examination or by passing an upper division (3000-level or higher) course with a minimum grade of C. See the Department of World Languages & Cultures for applications and more information.

Credit for Military Training

- Students who have completed at least 24 months of active military service may be granted a maximum of 10 credit hours. These credits are awarded as social science general education course HLTH 1030 **(3)** and 7 elective credit hours.
- Students who have completed four or more years in the National Guard or a reserve unit may be granted social science general education course HLTH 1030 **(3)** and 7 elective credit hours.
- Additional credit may be granted for military schooling if specific requirements are met.
- To receive credit students should submit military form DD-214 and a receipt for the \$10 recording fee to the Records Office to start the process.
- Military credit will be evaluated only if it can be applied to a legitimate undergraduate degree program. Students who have already earned a bachelor's degree may have their credit evaluated upon request.
- Military credit is added to a student's total credit hours completed, and may reduce a student's eligibility for financial aid.
- More information can be found at: http://www.weber.edu/Records/Military_Credit.html

Credit for Courses from Non-accredited Schools and Colleges

- Students with credit from non-accredited schools may request transfer credit for certain courses which are equivalent to courses described in the catalog.
- Official transcripts with the Application for Transfer Credit form should be taken to the appropriate academic department for evaluation. Transfer credits from non-accredited schools may be accepted under the following guidelines.
- Credit may be accepted only if the course is deemed to be equivalent to a course in the WSU catalog.
- Specific course credit may be applied by the Records Office if recommended and approved by the appropriate department chair with the Application for Transfer Credit form which can be obtained from the Records Office.

Credit for Experiential Learning and Industrial or Commercial Training

- Credit for experiential learning shown to be equivalent to courses described in the catalog may be allowed by some departments according to specific guidelines.
- Application for Credit forms and further information are available from the major and minor department offices.
- Before credit for prior experiential learning becomes part of the student's permanent record, the student must have completed thirty credit hours with a GPA of 2.25 or better to establish evidence of a satisfactory learning pattern.

Academic Standards/Eligibility

University Registrar: Cori Horne

Location: Student Services Center, Room 101

Telephone: 801-626-6100

Assistant Registrar for NCAA Eligibility: Karen Hicks

Location: Student Services Center, Room 101

Telephone: 801-626-8881

Minimum GPA Standards

The minimum cumulative institutional grade point average (GPA) required at WSU is 2.00 or C. The minimum institutional GPA required by the University for graduation is 2.00; however, many majors and minors have a higher requirement. Students with a GPA below 2.00 will receive one of the following notices and should see an academic advisor immediately.

Academic Warning

- Students with a cumulative institutional GPA below 2.00 will be placed on academic warning. They must earn a semester GPA of at least 2.00 each semester until their cumulative WSU GPA reaches 2.00 to remain on academic warning and avoid academic probation. Students whose cumulative WSU GPA reaches 2.00 will be restored to good academic standing.

Academic Probation

- Students who earn a semester GPA below 2.00 while on academic warning will be placed on academic probation. They must earn a semester GPA of at least 2.00 each semester until their cumulative WSU GPA reaches 2.00 to remain on academic probation and avoid academic suspension. Students whose cumulative WSU GPA reaches 2.00 will be restored to good academic standing.

Academic Suspension

- Students who earn a semester GPA below 2.00 while on academic probation will be placed on a one-semester academic suspension. After serving the one-semester suspension, students will be returned to academic warning and will be eligible to re-enroll at the institution.

Appeal Procedure

- Students who have been placed on academic warning, probation, or suspension and feel their classification is in error should see the Associate Registrar to review their records and receive information regarding the process of appeal.
- Students who have received an academic suspension will be required to serve the full suspension length of one semester before re-enrolling at the University unless their classification was made in error.

Dean's List and Provost's List

Each semester, students who complete at least 12 credit hours with letter grades (CR/NC grades and Non-credit courses will not be counted) will qualify for recognition on the basis of their semester GPA as follows:

4.00 for the Provost's List Certificate
3.50 to 3.99 for the Dean's List Certificate

Student Activity Eligibility

Students participating in activities such as student government, university organizations, clubs, special awards, and intramural athletics should be matriculated students working toward a degree or certificate. Many individual programs and organizations have standards higher than this minimum.

Intercollegiate Athletics Eligibility

Students participating in NCAA sports must be enrolled as full-time students in a Bachelor's degree program, must remain in good academic standing, and must meet the satisfactory progress policies of the University, the Big Sky Conference, and the NCAA. Details of these requirements may be obtained from the Eligibility or Compliance Office.

Graduation

University Registrar: Cori Horne
Assistant Registrar for Graduation: Kelani Purvis
Location: Student Services Center, Room 101
Telephone: 801-626-6100
Website: www.weber.edu/graduation

Commencement and Convocation

Convocation ceremonies are held in April and December, While commencement ceremonies are held in April. Students who complete degree requirements during the fall semester may attend commencement ceremonies in December, or the following April. Students who complete requirements in the spring are eligible to attend the April commencement ceremonies. Students who complete degree requirements in the summer may attend ceremonies the prior April or the following December.

Graduation candidate names will appear in the commencement program according to the following:

- Fall applications received by the Fall deadline will appear in the December commencement program. All Fall graduates will also appear in the following April commencement program.
- Spring applications received by the Spring deadline will appear in the April commencement program.
- Summer applications received by the Spring deadline will appear in the April commencement program.
- Summer applications received after the Spring deadline will appear in the December commencement program.

Commencement information will be mailed to all candidates who apply for graduation by the application deadlines. This information may also be obtained from the Graduation website.

Graduation Application Deadlines and Verification Process

Graduation Application Schedule of Deadlines			
<i>Semester that all your degree requirements will be complete:</i>	<i>Graduation Application Deadline:</i>	<i>Commencement program that your name will be listed in:</i>	<i>Graduation Requirement Completion Deadline:</i>
Summer 2025	August 15, 2025	December 2025	October 6, 2025
Fall 2025	December 12, 2025	December 2025 and April 2026	February 2, 2026
Spring 2026	April 24, 2026	April 2026	June 16, 2026
Summer 2026	August 14, 2026	April* and December 2026	October 5, 2026

*NOTE: Summer graduation candidates who wish to participate in the Spring commencement ceremonies should apply for Summer, but follow the Spring semester deadline.

Students who are nearing completion of Graduation Requirements, should take the following steps:

1. Schedule an appointment and meet with your advisor(s) as required. Keep in mind that you may need to see a college advisor, a major advisor, and a minor advisor. NOTE: Students seeking an Associate of Science or Arts degree in General Studies should meet with an Academic Advisor in the General Studies and Exploratory Advising.
2. Review your CatTracks degree evaluation with your advisor(s). Make sure that your Program of Study is correctly listed in your CatTracks degree evaluation and then check for missing requirements with your advisor(s). Program of Study corrections must be completed with your advisor prior to submitting your graduation application.
3. Submit your application for the semester that all of your program requirements will be complete. Applications are online - log into your eWeber portal, search for "Graduation Application" in the search bar and then follow the instructions outlined in the graduation application.
4. Commencement Ceremony information will be sent to all candidates who apply by the application deadline, or it can be found on the Graduation website.

All possible care is taken in checking student records for graduation; however, it is the sole responsibility of the student to verify all requirements for a degree.

- The Graduation Office will confirm that the requirements defined in the student's degree evaluation are completed before posting their degree or certificate.
- Students who do not complete graduation requirements by the Graduation Requirement Completion Deadline or who change their graduation semester should notify the Graduation Office of their new anticipated semester graduation date. Complete policy information on Graduation Requirement Deadline is at http://www.weber.edu/ppm/Policies/4-1_GraduationStandards.html
- Diplomas will be sent and degrees will be posted to student transcripts the semester following completion.

Changes in Graduation/Catalog Requirements

Entering students, including first-time and transfer students, will be required to complete the degree and program requirements listed in the catalog in effect when they first enroll, with the following exceptions:

- When students change their program of study, they are then required to graduate under the catalog in effect when they declare the new program of study.
- Students must complete major and minor requirements under a catalog no older than 6 years for a bachelor's degree or 3 years for an associate's degree.

Requests for Exceptions to Graduation Requirements

Requests for exceptions to graduation requirements are considered only on the basis of substantial and reasonable grounds. Students should contact the academic department who has oversight for the major or minor requirements for more information about their exceptions process. For questions about General Education requirements, students should contact the Student Success Center or their college advisor. Questions about all other degree requirements can be brought to the Registrar's Office.

Completed Degree

Once a degree has been completed, the degree title and program name cannot be altered and a student cannot change factors related to that degree; courses cannot be repeated to improve the degree GPA and majors or minors cannot be added. If a student continues to earn a second bachelor's degree or a master's degree, credit hour and GPA calculations begin again. If a student continues on to earn a bachelor's degree after earning an associate's degree, the grades earned toward the associate's degree will be used in calculating cumulative GPA for the bachelor's degree. Academic renewal cannot be applied to courses taken prior to the posting of an associate's degree.

Awarding of Multiple Degrees

- Students may receive multiple degrees in the same academic year. However, students who first earn their degree in a specific academic area, with the exception of the AAS degrees and certificates, will not be awarded an Associate of General Studies degree or a Certificate of General Education in a subsequent term.
- Students must submit a graduation application for each degree requested.

Second Bachelor's Degree

A student may qualify for admission to a second baccalaureate degree following the completion of a first bachelor's degree at an accredited institution. To qualify for a second degree, a student must complete a minimum of 30 credit hours in residence at WSU with a GPA of at least 2.00 and fulfill all requirements for the programs declared. For students whose first baccalaureate degree is also from Weber State University, credits earned in conjunction with but beyond the minimum credits required for the first degree may be applied toward the second baccalaureate degree. However, a minimum of 30 new semester credit hours must be earned at WSU after the first degree is conferred. All candidates for a second bachelor's degree must satisfy the university's American Institutions (AI) requirement. Course work taken as part of the first degree that is comparable to the current list of approved diversity courses may be used to satisfy this requirement. Students pursuing a Bachelor of Arts, Bachelor of Music, Bachelor of Music Education, or Bachelor of Arts in Music must fulfill WSU's foreign language requirement. Policy governing the second bachelor's degree can be found in PPM 4-1.I.G. For additional information about a second baccalaureate policy please contact the academic department in which you plan to earn your second degree.

Honors at Graduation

Students who qualify for honors based on their cumulative institutional grade point average (GPA) will have the appropriate designation indicated on their transcripts and diplomas.

Bachelor's Degree Honors

Summa Cum Laude - WSU GPA of 3.90 or higher.

Magna Cum Laude - WSU GPA of 3.80 or higher.

Cum Laude - WSU GPA of 3.60 or higher.

Associate's Degree Honors

High Honors - WSU GPA of 3.85 or higher.

Honors - WSU GPA of 3.60 or higher.

Additional honors awarded at graduation are described under the Honors Program (see Honors Program).

Interruption or Changes in Instruction Due to Circumstances Beyond the Reasonable Control of the University

Each semester the University will endeavor to provide courses and services as it traditionally has including face-to-face or hybrid instruction for those courses for which all or a portion would normally occur on site. However, as recent experience has taught us, the traditional delivery of courses may be interrupted or changed due to circumstances beyond the reasonable control of the University. Such circumstances may be a health emergency, like the recent COVID-19 outbreak, closure of the University due to damage or destruction of the physical facilities, like an earthquake, or other events including but not limited to natural or person-made events such as civil unrest, strike, cyberattack, pandemic, directive of government or health authorities, etc. (hereinafter "Circumstances Beyond the Reasonable Control of the University"). In the event of the interruption of or changes in instruction caused by Circumstances Beyond the Reasonable Control of the University you recognize and agree that the University may deliver all or part of the courses and services in a virtual environment or in other non-traditional ways. This may occur at any time including prior to the start of or in the middle of a semester. Agreeing to the statement and registering for courses acknowledges your understanding and acceptance of this delivery method. In addition, you recognize and agree that in the event of Circumstances Beyond the Reasonable Control of the University that cause courses to be suspended or canceled that the University will make a good faith determination of when or if courses will be resumed and may determine that the courses are sufficiently complete for the awarding of credit without further instruction with or without final exams, projects, papers, etc. You agree that the University's decision in such cases is final and that you will be entitled only to a refund of a pro rata amount of tuition if courses are not finished and not resumed or rescheduled or no refund if courses are completed and you agree that this is your sole remedy. In addition, you agree to waive any right to seek damages, direct or indirect resulting from or related to Circumstances Beyond the Reasonable Control of the University. If the University determines to provide pro rata refunds, you agree that such refunds may be in the form of a tuition credit for future semesters.

Student Access and Success, Services and Information

The Division of Student Access and Success provides comprehensive support and resources to help all students succeed along their educational journey by cultivating equitable access, persistence, and personal and career development. The goals of Student Access and Success are to:

- Strengthen connections between and across the university and the community to increase student access, enrollment, and completion.
- Improve student retention and graduation rates through personalized academic advising, mentoring programs, and proactive intervention strategies.
- Facilitate seamless transitions for students by streamlining processes and creating clear pathways from admission to graduation across all divisions of the institution.
- Promote overall student wellbeing by offering a variety of accessible resources to support physical and mental health along with all aspects of wellness.
- Develop and implement programs to enhance students' interpersonal skills and personal/professional development, including leadership, critical thinking, and accountability.
- Foster a sense of community on campus by promoting and providing accessible services to meet the needs of our student populations.
- Emphasize student success beyond the classroom, preparing students for future career and life achievements.
- Continuously assess and adapt strategies based on best practices and data to meet the evolving needs of students.
- Improve and sustain professional development and learning opportunities for Student Access and Success focused on our divisional goals.

Wildcat and Email Account

All Weber State University students are provided a Wildcat account that includes email. Many professors communicate with their students by email, so it is important for students to activate their accounts early on. Students must also activate their Wildcat account prior to online registration. This can be done on the IT Help Desk website (visit any student computer lab to access the Internet).

Student ID (Wildcard)

Ogden Campus: 801-626-6367, Shepherd Union Lobby Information Center

Davis Campus: 801-395-3460, Bldg. D2, Suite 262

Website: weber.edu/wildcard

You need a Wildcard because it:

- is your library card
- allows you use of the physical education and campus recreation facilities
- gives you free admittance into athletic events and discounts to select club events
- is used for dining options
- allows you to print in the computer labs
- gives you access to campus health facilities
- is your I.D. to be used at the testing center and to get transcripts printed

You can upload your Wildcard on your phone! Find directions at weber.edu/wildcard.

Parking Services

Telephone: 801-626-6533

Location: Public Safety Building

Website: weber.edu/parking

Parking Services is responsible for issuing parking permits and regulating traffic, parking and related campus matters. Permits are required in all lots on campus Monday-Friday, 7 a.m. to 4 p.m. You can park at the Dee Events Center for free and take the shuttle to campus.

Academic Support Services

Academic Support Centers & Programs

Telephone: 801-626-7847

Website: weber.edu/ascp

Academic Support Centers and Programs (ASCP) offer an array of services designed to meet the individual needs of WSU students. These services include tutoring and testing centers.

Tutoring Services

Ogden Campus: Various locations, check website for current locations, times and how to make an appointment.

Davis Campus: Phone: 801-395-3569; Location: Bldg. D2, Room 214

Website: weber.edu/tutoring

Weber State Learning Support offers an array of peer tutoring and peer education services designed to meet the individual needs of WSU students. Tutoring focuses on developmental and general education courses. The program is

certified by the National Association for Developmental Education (NADE) and includes peer tutors certified through the College Reading and Learning Association (CRLA).

Supplemental Instruction

Ogden Campus: 801-626-6804, Tracy Hall, Suite 101

Davis Campus: 801-395-3539, Bldg. D2, Room 213

Website: www.weber.edu/tutoring/supplemental-instruction.html

Supplemental Instruction (SI) provides opportunities for students to participate in learning teams where they explore concepts and solve problems through group discussion and interaction as directed by a student team leader who has successfully completed the course. SI student leaders work in collaboration with the course professor and SI coordinator.

Student Support Services

Telephone: 801-626-7009

Location: Student Services, Suite 265

Website: weber.edu/sss, Check out STEM specific Student Support Services at weber.edu/sss-stem

Student Support Services (SSS) provides opportunities for academic development, assists students with basic college requirements, and motivates students toward completion of their college degree. The goal of SSS is to increase college retention and graduation rates of its participants and to help students make the transition from one level of higher education to the next. The program is only open to students who have been admitted to, or are enrolled at, Weber State University, and are low-income, first-generation college students or have a documented disability.

Computer Labs

Telephone: 801-626-7018

Website: weber.edu/computerlabs

WSU has nine open student computer labs. These computer labs are meant to serve the general needs of all enrolled WSU students. Lab hours vary from lab to lab and some labs are open seven days a week.

Locations:

- Davis Campus building D2, Room 205
- Davis Laptop Lounge building DSC, Lobby
- Elizabeth Hall (EH), Room 214
- Shepherd Union Computer Lab, SU Room 230
- Stewart Library, Second Floor
- Lindquist Hall (LH), Room 016
- Tracy Hall (TY), Rooms 126
- University Village, CC 108
- Wattis Business (WB), Room 118

Testing Centers

Telephone: 801-626-6803

Website: weber.edu/testingcenter

The testing center offers a variety of standardized tests for placement into appropriate courses and admission to academic programs. Tests are also administered for various academic departments on campus and Independent Study courses.

Locations:

- Student Services, Room 262
- Library, Room 110
- Tracy Hall, Room 101C
- Davis Campus, DSC Room 231
- Lindquist Hall, Room 024, Overflow room 017
- Morgan Testing

Career Services

Telephone: 801-626-6393

Ogden Campus Location: Student Services, Suite 230

Davis Campus Location: Bldg. D2, Suite 262

Website: weber.edu/careerservices

Career Services provides career counseling and employment advising to individuals and groups through interest, personality and ability assessments. A career development class is offered to students in a traditional classroom setting and online. Help is provided with resume and interview preparation and networking strategies. Career Center introduces students to employers through career and job fairs and through employer information sessions during the year. Students can find part-time jobs on campus and full and part-time jobs off campus through Handshake. Career Services works with employers to develop internships and jobs through employer outreach efforts. Counselors provide students with graduate school information and a graduate school fair is held annually.

Student Wellness Services**Student Health & Wellness**

Telephone: 801-626-7503

Location: Wildcat Center 210

Website: weber.edu/studentwellness

The Student Health & Wellness (SHW) department promotes optimal student health and wellbeing by providing evidence-based health education programming, services and resources to meet the health and wellness needs of Weber State students. Through the development of healthy habits in all eight dimensions of wellness, students are better prepared to be engaged in the classroom, in their personal lives and in their future careers. Students can also find healthcare services through Ogden Clinic-Professional North as part of the Student Health & Wellness program.

Counseling & Psychological Services Center

Telephone: 801-626-6406

Location: Student Services, Suite 280

Website: weber.edu/counselingcenter

The Counseling & Psychological Services Center provides professional mental health care, outreach and training to help individuals improve coping and achieve personal goals. The center promotes growth and development in an environment that welcomes and respects individuals of all backgrounds, belief systems and identities. Limited services may also be available at the Davis Campus.

Student Support & Resource Center

Ogden Campus: 801-626-7794, Shepherd Union, Room 322

Davis Campus: 801-395-3464, D2, Room 307

Website: weber.edu/support-resources

The Student Support & Resources Center has services meant to help students with basic needs and remove barriers so they can focus on their education. The center includes basic needs resources, Hourly Child Care, Weber Cares Pantry, Financial Literacy and emergency funding.

Services for Special Student Populations

State GEAR UP College Access Program

Telephone: 801-395-3547

Location: Davis Campus, DSC, Suite 308

Website: weber.edu/stategearup

GEAR UP (Gaining Early Awareness & Readiness for Undergraduate Programs) provides college readiness support for targeted students in the Weber and Davis school districts. First Year services are also provided for GEAR UP students pursuing post-secondary education. The GEAR UP program includes the following services:

- Financial Aid/Scholarship Advising
- FAFSA Completion
- ACT Preparation
- Academic Enrichment
- Campus Visits
- Family Outreach

GEAR UP Ogden School District

Telephone: 801-626-6211

Email: trenaroueche@weber.edu

Ogden School District's (OSD) GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs) is a federally funded college access & readiness program. This is a partnership grant in which Weber State partners with OSD to offer college experiences to their students. This grant will follow and provide services to this cohort through their first year of college. The goals of this grant are to help students:

- Successfully graduate from high school
- Establish a college-going culture within their homes
- Gain knowledge about postsecondary options, preparation, and financing
- Prepare to enter and succeed in postsecondary education.

Upward Bound (TRIO Program)

Telephone: 801-626-6798

Location: Annex 3

Website: weber.edu/upwardbound

The Upward Bound program is a federal project that assists low-income, first-generation students throughout high school in becoming academically prepared and mentally ready for entrance into post-secondary education to obtain a bachelor's degree.

Services include but are not limited to:

- Academic Advising and Counseling in preparation for college entrance
- Academic tutoring both individually and in group sessions
- College and University life skills and academic skills training
- Career Exploration Financial Aid, FAFSA, and Scholarship workshops and assistance
- Life Enrichment Activities
- College Tours
- Weekly College Preparation Sessions
- Six-Week Residential Campus Program

International Student & Scholar Center

Telephone: 801-626-6853

Fax: 801-626-7693

Location: Student Services, Suite 143

Website: weber.edu/issc

The International Student and Scholar Center advises and assists international students with their personal, cultural, and academic adjustment to WSU, and is responsible for the recruitment, admission, and retention of international students. An orientation program is provided for all new international students each semester. Advisement is available to assist students concerning immigration related questions and concerns. The ISSC assists students with the following:

- International Student Admissions
- Student Advocacy and Adjustment
- Student Clubs
- International Events
- International Exchange Programs
- Consultation & Outreach

Hourly Child Care Center

Telephone: 801-626-7798

Location: Shepherd Union Building, Room 322E

Website: weber.edu/childcare

The Hourly Child Care Center is designed to provide flexible, hourly, or back-up care for the children of WSU students. Back-up care is based on availability. Children ages two to the start of kindergarten may attend. A child may be at the center while parents are attending classes, using the computer lab, studying, or using other campus resources.

Disability Services

Ogden Campus: 801-626-6413, Student Services, Suite 181

Davis Campus: 801-395-3442, Bldg D2, Room 256

Website: weber.edu/disabilityservices

Email: disabilityadvisor@weber.edu

Students requesting accommodations due to disability should be referred to Disability Services. Based upon documentation of the disability, Disability Services will authorize appropriate accommodations. Disability Services works closely with faculty and staff to ensure that any approved accommodation is appropriate and necessary for the situation. Some examples of accommodations include the following: classroom interpreting for deaf students, alternative-format textbooks, Braille and large print materials for handouts and syllabi, test accommodations, adaptive technology, registration assistance and advisement. Disability Services advises students on issues related to disabilities and higher education and provides priority registration for qualified students.

Military Affiliated Student Center

Ogden Campus: 801-626-6039, Shepherd Union Building, Room 322

Davis Campus: 801-395-3460, Bldg D2, Suite 262

Website: weber.edu/military-affiliated

The Military Affiliated Student Center is the liaison between Weber State University and the U.S. Department of Veterans Affairs for educational benefits for veterans and dependents who are eligible for the GI Bill. In addition, Veterans Services provides a variety of support services to assist in making education a successful experience for veterans. The center also helps veterans and their dependents identify sources of support for their educational needs.

Veterans Upward Bound

Ogden Campus: 801-626-7173, Annex 12

Davis Campus: 801-395-3460, Bldg D2, Suite 262

Website: weber.edu/vetsupwardbound

Veterans Upward Bound is designed to motivate and assist veterans in the development of academic and other requisite skills necessary for acceptance and success in a program of postsecondary education. The program provides assessment and enhancement of basic skills through counseling, mentoring, tutoring and academic instruction in the core subject areas. Veterans Upward Bound provides instruction in mathematics, English, science, foreign language, composition and literature and computer use. The project also assists veterans in securing support services from other locally available resources such as the Veterans Administration, state veterans agencies, veteran associations, and other state and local agencies that serve veterans.

Safe@Weber

Telephone: 801-626-6090

Location: Shepherd Union 323

Website: www.weber.edu/SafeAtWeber/get-training.html

Email: safeatweber@weber.edu

Safety is foundational to the best educational experience for all. Safe@Weber provides comprehensive support and advocacy services to victims/survivors and imparts empowerment, dignity, and hope. We are committed to innovative violence prevention education and outreach to engage the next generation in creating a more resilient, safe, and compassionate campus community. Our values include advocacy, community and empowerment. Main initiatives include:

- **Safe@Weber Advocacy Services:** Trauma-informed and confidential advocacy services for survivors of discrimination, harassment and sexual misconduct (sexual assault/harassment, rape, domestic/dating violence and/or stalking). Services include: supportive measures such as petition support, civil protective order support, referrals to community resources, etc.; assistance reporting to Title IX and/or law enforcement; and safety planning.
- **Safe@Weber Violence Prevention Education:** Comprehensive education on consent, healthy relationships, bystander intervention, risk reduction and supporting survivors. Workshops can be requested at:

<https://weber.edu/SafeAtWeber/workshops.html> We additionally have a free resource pantry that is stocked with menstrual products, safe sex products and pregnancy tests.

- Leadership & Engagement: Safe@Weber Peer Educators, internships for Women & Gender Studies minors, and student volunteers. We have many scholarships available for students.

The Safe@Weber Violence Prevention and Advocacy Program supports a campus-wide response to issues of violence. It focuses on the prevention of violence by educating students on sexual assault, relationship violence, and stalking, and eliminating violence on campus. Safe@Weber provides free services and support to those affected by sexual and relationship violence, and stalking. Core services include safety planning, investigation advocacy, and supporting survivors in establishing educational accommodations. Leadership opportunities through Safe@Weber include the Safe@Weber Ambassador program, the Peer Educator program, internships and practicums. Contact us via phone (801-626-6090) or email (safeatweber@weber.edu) to schedule a Safe@Weber presentation for your class, club, or WSU community.

Housing & Residence Life

Telephone: 801-626-7275

Location: Wildcat Village

Website: weber.edu/housing

Housing serves students who choose to live on campus in a living/learning environment, which includes peer counseling, social education, academic support and planned activities. Housing is located in two distinct villages. University Village is comprised of a 4- person suite style with kitchens, private bedrooms, and 2 bathrooms. Wildcat Village offers single and double rooms in a suite-style with 4 people per suite. Housing includes high-speed internet, fully furnished, fitness centers, laundry and mail facilities. Wildcat Village also has a food service operation in the complex. With our Living/Learning Villages, Housing offers several opportunities for students to get involved. Resident Assistants (RA's), Residence Hall Association (RHA) and Office Assistants (OA's) work and/or volunteer in the housing community.

Student Life & Activities

Campus Recreation

Telephone: 801-626-7967

Location: Stromberg Wildcat Center for Health, Education and Wellness, Room 101

Website: weber.edu/campusrecreation

The Department of Campus Recreation offers a variety of recreational opportunities throughout the Ogden and Davis campuses for users with an active WSU Wildcard. Please check weber.edu/campusrecreation for facility hours, program information and schedules. Campus Recreation offers students opportunities to improve their personal health, well-being and overall fitness through the following programs/services:

- Aquatics & Safety (drop-in swim, swimming lessons, CPR/First Aid certifications)
- Fitness (drop-in strength and cardio, drop-in group exercise classes, personal fitness training) Competitive Sports (Intramural Sport leagues/tournaments and Sport Clubs)
- Outdoor Programs (Located in the Welcome Center; outdoor equipment rental center, outdoor trips/clinics, certifications, clinics climbing wall and challenge course activities)

Esports

Location: University Village Community Center Room 108 and Wattis Business Building Room 118

Website: weber.edu/esports

Weber State Esports offers casual and competitive play allowing engagement with fellow students and the community. Our varsity Esports teams compete collegiately and have won several tournaments. We have weekly get-togethers of casual play. This occurs within our weekly Super Smash Brothers events, Jr. Varsity teams and weekly match viewing for each game type. Weber varsity players also offer coaching to Weber students with a desire to compete at a higher level or simply learn one of our supported titles. Currently, the competitively played esports games include Super Smash Brothers, Valorant, Rocket League and League of Legends.

WSU Athletics

Telephone: 801-626-6817
Location: Stewart Stadium, second floor
Website: www.weberstatesports.com

The mission of the Department of Intercollegiate Athletics is to support the greater mission of Weber State University in meeting the educational needs of Utah by stimulating and improving athletics programs for students designed to develop and promote skills that assure an excellent chance of success in athletics participation, college and career.

Shepherd Union

Telephone: 801-626-6367
Location: Shepherd Union
Website: weber.edu/union

The Shepherd Union provides a focal point for the Weber State University community through an array of programs, services and operations including:

- Wildcard Office - Shepherd Union Information Center
- Wildcat Lanes & Games Center
- Wildcat Stores
- Scheduling Events and Conference Services
- Weber Dining

Student Involvement and Leadership

Telephone: 801-626-6349
Location: Shepherd Union, Suite 326
Website: weber.edu/studentinvolvement

Student Involvement and Leadership is committed to enhancing student life by providing inclusive programs and leadership opportunities that promote education, engagement and development. SIL is committed to providing opportunities for all students in clubs and organizations, leadership workshops and programs, events and campus activities and student government.

Center for Community Engaged Learning

Telephone: 801-626-7737
Location: Shepherd Union, Suite 327
Website: weber.edu/ccel

The Center for Community Engaged Learning at Weber State University facilitates both curricular and co-curricular community engaged learning experiences. The main mission of the center is to engage students, faculty and staff members in direct service, civic engagement and community research to promote civic participation, build community capacity and enhance the educational process.

Community engaged learning can be facilitated through one of our three pathways: direct service, civic engagement and community research. Student learning outcomes, definitions, and measurement rubrics can be found at weber.edu/ccel.

WSU Student Association (WSUSA)

Telephone: 801-626-6349

Location: Shepherd Union, Suite 326

Website: www.weber.edu/studentinvolvement/wsusa.html

WSU Student Association (WSUSA) includes:

- Legislative Branch (Student Senate)
- Judicial Branch
- Executive Branch
- Committee Involvement

Dean of Students

Telephone: 801-626-7256

Location: Miller Administration Building, Suite 317A

Website: weber.edu/deanofstudents

The Office of the Dean of Students (located in the Miller Administration Building, Suite 317A) is committed to assisting each student to become a successful member of the Weber State University community. As a means of supporting this mission, the Dean's office is responsible for Student Code of Conduct. The Student Conduct process is designed to assist in the development and education of students, promote mutual respect within the University community, contribute to maintaining a safe campus environment, and provide a process for tracking repeated incidents of student code violation. The WSU Student Code can be found online (weber.edu/ppm), WSU Policy and Procedures Manual section 6-22.

Student Success Center

Telephone: 801-626-7006

Location: Student Services Center, Room 150 & 160

Website: www.weber.edu/student-success-center

The Student Success Center offers individualized student coaching to focus on the needs of each student and creates events and programming to foster vibrant communities. The center cultivates an environment where students achieve academic, personal and professional excellence. Come here if you have any questions about college, need some support, or want to connect to Weber State but don't know how.

Admissions, Enrollment, and Financial Aid

Weber State University is continually working to make it easier for students to access information and receive the assistance they need. Students may apply for admission and access registration, transcripts, and a lot more online at weber.edu. Academic advisement, admissions, registration and other enrollment services are also provided at the Davis Campus. Class schedule information for specific semesters is available online at weber.edu.

Information on records, grading and transcripts; academic standards and eligibility; credit by examination or petition; and graduation requirements is provided in this catalog under the Academic Info & Policies.

The Office of Admissions

Director of Access Engagement and Activities: Andy Young

Location: Student Service Center, Room 201 and Room 210

Telephone: 801-626-6050

Website: weber.edu/admissions

The Office of Admissions encourages future students to reach their educational dreams by providing exceptional service and personal support through the exploration, application, acceptance, transfer, orientation and initial enrollment processes.

Recruitment Services

Director of Recruitment Outreach: Brant Brown

Location: Student Service Center, Room 210

Telephone: 801-626-6050

Website: weber.edu/getintoweber

Admissions Advisors and staff help future students navigate the admission process and provide general information on transferring from another institution, scholarships, programs and majors. Additionally, staff regularly visit high schools and community colleges to inform students, educators, and parents of the educational programs and opportunities available at Weber State University.

Members of the Office of Admissions, including Student Ambassadors, provide campus tours and regularly host campus visit opportunities. Campus visits may be scheduled through the Office of Admissions by calling 801-626-6050 or by visiting weber.edu/getintoweber.

Transfer Advisement: Student Success Center

Location: Shepherd Union Building, Room 322

Telephone/Appointments: 801-626-7794

Email: transitionadvising@weber.edu

Website: weber.edu/transfer

Transfer Guide: weber.edu/transferguide

Transfer students are strongly encouraged to contact the Office of Admissions for valuable information and assistance while making the transition to Weber State University. This office provides advisement on submitting official transcripts from other institutions, information on admission, scholarships and financial aid and more.

Admission Process

Before students may take classes at Weber State University, they must first be admitted. To apply for admission a student must submit a completed application for admission, a \$30 non-refundable processing fee and official high school/college transcripts to the WSU Admissions Office located in the Student Service Center, Room 201. This may also be done by mail:

Weber State University
Admissions Office
3885 West Campus Drive Dept. 1137
Ogden, UT 84408-1137

- Students can complete an online application by going to weber.edu/apply.
- For more information visit weber.edu/apply or call 801-626-6050.
- Refer to the Academic Calendar for semester dates.

- Specific guidelines for international students are described below.
- Acceptance letters are sent to students for the academic semester indicated on their application. A student must inform the Office of Admissions if they wish to begin school in a semester earlier than that listed on his/her acceptance letter.

Freshman Students

Students will be considered freshmen if they meet any of the following criteria:

- Students who have never attended any college or university.
- Students who graduated from high school or have a GED.
- Students with fewer than 30 semester credit hours from another university or college.

Application Steps for Freshman Admission

1. Submit an application for admission.
2. Pay the \$30 application fee (non-refundable processing fee).
3. Submit an official transcript from the high school of graduation. The transcript should be sent directly from the high school to the WSU Admissions Office or brought into the Admissions Office in an envelope sealed by the school.
4. Submit an official transcript for any college-level course work completed through another institution. The transcript should be sent directly from the institution to the WSU Admissions Office.

Transfer Students

Students who have attended another college or university after high school graduation, and have completed the equivalent of at least 30 semester credit hours, will be considered a transfer student.

Students who have completed fewer than 30 semester hours will be considered freshman (see above). These students will also receive transfer credit based on the guidelines below.

Application Steps for Transfer Students

1. Submit an application for admission.
2. Pay the \$30 application fee.
3. Submit an official transcript from EACH college or university previously attended. The transcript must be sent directly to the WSU Admissions Office.

Transfer Credit

Weber State University accepts transfer credit from regionally accredited colleges and universities.

- Higher Learning Commission
- Western Association of Schools and Colleges
- Southern Association of Colleges and Schools Commission on Colleges
- Middle State Commission on Higher Education
- New England Commission of Higher Education
- Northwest Commission on Colleges and Universities

Transfer Degrees

Completed Associate of Arts (AA) and Associate of Science (AS) degrees earned at another Utah institution as a part of the Utah System of Higher Education (USHE) will satisfy all WSU general education core and breadth requirements. Out-of-state AA and AS degrees from regionally accredited institutions are evaluated using NCAA standards and will fulfill WSU general education core and breadth requirements if the degree includes evidence of 6 credits of college-level English coursework, 3 credits of college-level math coursework, and 3 credits of college-level physical or life science coursework.

Students are required to complete the American Institutions (AI) requirement in addition to their accepted associate degree if that degree does not include 3-6 credits of coursework with the course learning outcomes that include a reasonable understanding of the history, principles, form of government, and economic system of the United States as required by state law.

Transfer credit for college courses that are remedial or developmental **will not** be transferred to WSU. Credit will be carried on the student's transcript by WSU but may not apply toward certain degree requirements. WSU Academic Departments will evaluate and determine whether the transfer credits will be acceptable toward their major or minors.

For students who are transferring from a non-regionally accredited institution, please refer to Credit by Examination or Petition in Academic Information.

International Students

International applicants with no prior college or university credit will be considered for admission by submitting evidence of the U.S. equivalent of a high school diploma. International applicants who have attended a U.S. college or university and have at least 30 semester hours will be considered a transfer student.

Application Steps for International Students

The following must be submitted at least 30 days prior to the start of the semester in which the applicant plans to enroll.

1. A completed international application for admission. (see www.weber.edu/issc)
2. A \$65 USD non-refundable application fee (check or money order payable to Weber State University).
3. A copy of the identification page of the passport.
4. A Financial Guarantee consisting of the following documents.

Bank Statement or Bank Letter: A bank statement or bank letter that shows the account holder's full name, the currency type, the balance of the account and a signature and stamp from a bank official on a bank letterhead. This must be in English. The amount in the bank account should be more than the cost estimate (equal to one year of tuition and all other expenses).

Financial Guarantee Form: Must be filled out by the sponsor, which is the person that provided the bank statement. The sponsor will need to fill out the form completely.

1. Official transcripts of student academic records and a diploma showing date of completion. Include certified translation into English, if necessary. Note: High School Transcripts are not required if students pass at least 30 degree-seeking credits at an accredited U.S. college or university. For West African Students Only: Include with your transcripts a WAEC Scratch Card as well as all the required documents or necessary information needed to verify your results.
2. International Transfer Students: Need to provide all items listed above and also the items listed below.
3. Copy of current I-20 from a U.S. educational institution and a copy of their visa.
4. Transfer Authorization form, which will be provided by WSU once all other application requirements have been met. Please inform the school you previously attended that you wish to transfer to WSU and submit the Transfer Authorization form to them to be complete and emailed back to WSU.

NOTE: If you are transferring from a school outside of the U.S., you will be considered a freshman until your credential evaluation report is received and entered into your student record by the WSU Admissions office. If you

wish to receive credit for college/university course work completed outside the U. S., you will need to send your transcripts to a credential evaluation company accepted by WSU. You may view a list of accepted credential evaluation companies at www.weber.edu/issc. Please request that the course by course evaluation be sent to the WSU International Student and Scholar Center.

International Graduate Applicants

International applicants who wish to apply to graduate programs must satisfy all Weber State University (WSU), International Student Scholar Center admissions criteria, and graduate program requirements that apply to U.S. citizens, in addition to providing evidence of English language proficiency. WSU graduate programs require a minimum English language proficiency test score for admission. Minimum scores of 75 for the TOEFL (Test of English as a Foreign Language) or 6.5 for the IELTS (International English Language Testing System) have been set by the Office of Graduate Studies. Individual graduate programs may require higher English language proficiency test score minimums. Students may also take an alternative English language proficiency test (e.g., Duolingo) as the graduate program permits. The alternative English language proficiency test score must be equivalent to the TOEFL or IELTS minimum scores established through the Weber State International Student and Scholar Center or as specified by the graduate program.

International graduate student applicants who completed coursework and/or transferred from unfinished degree programs at institutions whose primary language of instruction was English, or completed a bachelor's degree (or higher) at an institution whose primary language of instruction was not English must present an English language proficiency test score to the graduate program.

Provide any additional documentation required by the International Student & Scholar Center

TOEFL or IELTS Requirements:

Minimum placement Scores:

- TOEFL Internet Based Score: 61 or higher.
- TOEFL Paper Based Score: 500 or higher.
- IELTS Score: 6.0 or higher, with a minimum of 5.0 on each subscale.
- SAT Critical Reading score of 420
- ACT English score of 17
- PTE Academic score of 46
- Completion of the International Baccalaureate Diploma at an accredited high school
- Attended a U.S. high school for at least 3 years
- Received a grade of "C" or better in a college-level English Composition Course (equal to WSU's English 1010) at an accredited U.S. college or university
- DUOLINGO English Test: Score of 105 or above (please request official results sent to WSU directly from Duolingo).
- Common European Framework of Reference for Languages (CEFR): B2

International Application Deposit**

After acceptance, new out-of-country international students must pay a non-refundable tuition deposit of \$250 before an I-20 document can be issued. This deposit will be applied to your first semester tuition. If you defer your admission to the next semester, the deposit will be carried forward accordingly for one semester only.

**U.S. transfer students are not required to pay this deposit.

Graduate Program Information

Weber State University has exceptional graduate degree programs and certificates. To learn more about these programs and their admission requirements, visit the Office of Graduate Studies website at weber.edu/graduateprograms.

- Taxation Post Baccalaureate Certificate

Post Master's Certificates

- Advanced Pediatric Imaging Post Master's Certificate
- Educational Leadership Post Masters Certificate
- Nurse Leadership & Management Post Master's Certificate
- Nurse Educator Post Master's Certificate

I. Application Procedures

To apply to a graduate program all individuals must contact the graduate program for specific admissions requirements. The following items must be provided to the specific graduate program office:

1. A completed online application accompanied by the nonrefundable application fee (as designated by the Graduate Council).
2. A bachelor's degree from a regionally accredited college or university is required for admission as a graduate student at Weber State University. An official transcript from each previously attended college and/or university (except WSU) must be sent directly from each institution to the graduate program. Transcripts must be submitted for all coursework above the high-school level and all prior degrees. For international students, transcripts must be accompanied by a professional degree and transcript evaluation, which must be sent directly to the graduate program by a WSU-approved foreign credentials evaluation service. See International Student Admissions website for further details. Transcripts submitted as application credentials become the property of the Weber State University and will not be returned to the applicant.
3. Admissions tests may be required by the specific graduate program (GRE, GMAT, Miller's Analogies Test, etc.), as well as proof of English language competency for international applicants. Applicants should request that their test score reports be sent directly to the graduate program to which they are applying, or to WSU if a specific institutional code is not available for the graduate program.

II. Admission Requirements

Admission to a graduate program at Weber State University is based on the applicant's academic ability, past performance and evidence of a reasonable chance of success within that program. Selection for admission is made without regard to race, color, ethnic background, national origin, religion, creed, age, lack of American citizenship, disability, status of veteran of the Vietnam era, sexual orientation or preference or gender.

Admission is competitive and solely at the discretion of the graduate program to which the applicant has applied: meeting minimum admission requirements does not guarantee admission. Minimum requirements for admission to a Weber State University graduate program are as follows:

- A bachelor's degree from a regionally accredited college or university that will be completed before matriculation into the graduate program (see the U.S. Department of Education website for a list of recognized regional accreditation agencies). A satisfactory GPA on all undergraduate work. Contact the graduate program for specific GPA requirements.
- Appropriate admissions test scores if required. (Contact graduate program for specific admissions test requirements.)
- A completed application, along with the submission of all required supporting materials (contact graduate program office for specific requirements).

Note: Individual graduate programs may have additional requirements. Information concerning admission to and requirements for these programs is located in the sections of this catalog for the colleges indicated above.

Departmental Admissions

Certain programs of study require an additional acceptance process into the major beyond admission to the institution. Upon successful completion of required prerequisites, students may apply for formal acceptance into the

program, which may include a competitive selection process. More detailed information is available in this catalog under the Acceptance Requirements listed for each program. Students should contact the academic department responsible for the program in which they are interested in more information about specific acceptance and/or prerequisite requirements.

Admission Requirements

Freshman Students

New freshmen students, and transfer students with fewer than 30 semester credit hours, will be admitted to the University on the basis of the following:

- Verification of high school graduation from an accredited high school or General Education Development test (GED) with scores established by the University. (See Applicants Without High School Diplomas.)
- Submission of official college or university transcripts if college credit has been earned.

Applicants Without High School Diplomas

Applicants who are not high school graduates must present evidence of high school equivalency to be considered for admission. High school equivalency may be satisfied in one of the following ways:

- Passing the General Education Development test (GED) with an overall score of 2250 or above with no individual score below 450. Applicants who plan to submit GED scores in lieu of a high school diploma are not eligible to take the test until they are 16 years old.
- Passing the American College Test (ACT) with a composite score of 21 or above (SAT score of 1030 or above).

Transfer Students

Transfer students will be admitted to the University on the basis of the following:

- More than 30 semester credit hours earned at an accredited institution with a cumulative college-level GPA of 2.00 or above.

Transfer students with a cumulative GPA below 2.00 will be referred to the Admissions Committee and may be considered for admission to WSU on warning or probation according to the current Academic Standards policy.

Admission Appeal Process

An information sheet highlighting grounds for appeals to admission decisions is available at the WSU Admissions Office.

Utah Residency

The Admissions Office classifies all applicants as either resident or non-resident based on information from the application for admission. Applicants whose credentials indicate out-of-state status are classified as non-residents. If there is doubt concerning resident status, an applicant is classified as a non-resident.

Non-residents who have reason to believe they can qualify for resident status should file a residency application with the Admissions Office. Applications are accepted only until the end of the third week of the current semester. Any application received after the third week will be considered for the following semester only.

Residency applications are available online at weber.edu/utahresident. Each application will be considered in accordance with the provisions of Utah Code Annotated 53B-8-102 and Utah State Board of Regents Policy and Procedures R-512 and WSU PPM 6-01.

Math and English Placement

Upon admission to Weber State University, Math and English course placement is determined based on students' prior academic performance and test results. Fees may be charged for assessment tests and/or tutoring. Students may enroll in courses for which they meet the prerequisites. For specific information about placement, visit weber.edu/placement.

Special Admission Programs

Concurrent Enrollment

High School Dual Enrollment at Weber State is the intersection of the Concurrent Enrollment and Early College programs. These programs allow students to earn college credit while they are enrolled in high school.

Our Mission

To provide equitable access to college credit and advising support for high school students of all identities and backgrounds. Our team advocates for students by empowering them with the knowledge and opportunities to achieve their academic dreams.

Our Vision

We will transform the lives of students and their communities by helping them embrace the value of college education, implementing innovative strategies to promote success in college, and empowering students to take ownership of their educational experience.

For updated information, visit weber.edu/dual-enrollment.

Early College

Location: Student Service Center, Room 140 and Davis Campus, Building D2, Suite 241

Telephone: 801-395-3480

Early College allows students to fulfill both high school and university graduation requirements at the same time by attending classes at the university while they are still in high school. University faculty teach classes, and the credits/grades from the Early College program become part of the student's permanent WSU transcript.

Although scholarships are available, students are responsible for the university tuition and fees. Utah colleges and most out-of-state and private universities will accept Early College credits.

For more information, visit weber.edu/dual-enrollment/early-college.html.

First Year Experience

Location: Student Service Center, Room 140

Telephone: 801-626-6752

Website: weber.edu/fye

The First Year Experience (FYE) Program is designed to help incoming students make a successful transition into the university community. The program assists students in making progress toward fulfilling the following educational and personal goals:

- Acquiring a sense of competence as a student and becoming successful in college.
- Mastering academic skills, such as note-taking, textbook reading, test-taking, writing and time management.
- Demonstrating knowledge and use of campus resources.
- Demonstrating effective interpersonal skills with a variety of people.
- Developing a sense of belonging to the WSU community through the connections with other students, teachers, mentors and WSU employees.
- Enhancing his or her mental, physical, spiritual and social health.

The FYE Program is further explained below.

Honors Program

Location: Stewart Library, Room 324

Telephone: 801-626-7591

The Honors Program is designed to offer students of superior ability and motivation opportunities to broaden and enrich their academic program and accelerate their preparation for graduate work.

The Honors Program is further explained on Engaged Learning, Honors, and Interdisciplinary Programs.

Senior Citizen

Location: Student Services Center, Room 201

Telephone: 801-626-6743

Utah residents age 62 and over are permitted to enroll on a tuition-free, audit basis. Senior citizens will be required to complete an application for admission and register at the Registration Office on or after the first day of class. Where applicable, senior citizens will be charged a fee for use of consumable materials. A \$10 per semester administrative fee will be charged and enrollment is limited to space availability.

Scholarships

Executive Director: Jed W. Spencer

Director: Bridget Jensen

Location: Student Services Center, Room 120

Telephone: 801-626-7569

Website: weber.edu/scholarships

WSU awards scholarships for academic excellence or specific activities as described below. Unless otherwise specified, all scholarships are for one year and are not renewable. New freshmen students are automatically considered for academic scholarships upon being admitted to the University. Students should complete the Weber State Scholarship Universe Application. It is important to apply early; the online application becomes available on October 1st each year.

An award may be canceled if the Award Offer is not accepted within the specified time period.

The Priority deadline for scholarships is:

- Priority date to submit the admissions application, high school transcripts and test scores to the Admissions Office: Feb. 1

- Priority date to accept academic scholarships: May 1
- Priority acceptance for Scholarship Universe Applications: July 1

Students may only have up to full tuition in academic and activity waiver combined.

Academic Awarding Categories

New Freshmen

Scholarships include the Presidential Scholarship (8 consecutive semesters of tuition waiver and general fees); Trustees, Deans, Merit, Success and Concurrent Enrollment Edge.

These scholarships are a four year award (8 semesters, or until graduation with a Bachelor's degree- whichever occurs first) and may consist of up to full tuition, and are generally based upon an index score (determined by the high school cumulative grade point average and the composite ACT/SAT score - see the Scholarship Index Score Chart). Sterling Scholar winners is a one year award.

Transfer Students

The Academic Distinction Scholarship is awarded based upon cumulative GPA and completion of 30 hours of college credit. This scholarship is a three year award (6 semesters, or until graduation with a Bachelor's degree- whichever occurs first).

Wildcat Activity Award Categories

General Requirements

- Must be registered full time (12 credit hours).

Activity scholarships are one-year awards waiving up to full tuition, and are based on the student's abilities or outstanding achievements. Activity scholarships (with the exception of leadership scholarships) may be renewed when the student meets the selection criteria established by the awarding department.

Scholarships for Specific Activities

With the exception of leadership, students are required to contact the activity area to get information about specific requirements and auditions. Scholarships are available in the following areas:

- Performing Arts - Band, Orchestra, Dance, Theatre Arts, Piano, Vocal. Advise contact prior to January 9, audition only, call 801-626-6437 for more information
- Debate - Contact WSU Communication Department, 801-626-8924
- Cheerleaders - Contact WSU Athletics, 801-626-6500
- Rodeo - Contact Club Sports, 801-626-6476
- Signpost - Student newspaper. Contact Signpost, 801-626-7974
- KWCR Radio - Contact KWCR, 801-626-6299
- Visual Arts - Contact WSU Visual Arts Department, 801-626-6455
- Club Sports - Contact Club Sports, 801-626-6476

Emerging Leaders Scholarships

These scholarships are available only to incoming freshmen and sophomores as well as transfer students. Students are not required to be student body officers to be considered. In addition to the scholarship application, students applying for a leadership scholarship must meet the following requirements:

1. Have a cumulative GPA of 3.0 or higher on a 4.0 scale.
2. Exhibit involvement in academic and community activities, with particular experience in leadership roles.
3. Be accepted to Weber State University and will be attending in the next fall and spring semesters
4. Successfully participate in the Emerging Leaders program as established by the Department of Student Involvement & Leadership. These expectations include:
 - Mandatory bi-weekly meetings on Thursdays from 2:30-4:00pm.
 - Mandatory attendance at Project LEAD Leadership Conference.
 - Only 2 absences per semester.

Students must apply for admissions/scholarships by the 2nd Monday in March. Emails may be directed to: Sheldon Cheshire (scheshire@weber.edu).

Donor Sponsored Departmental and Special Consideration Scholarships (Privately Funded)

Privately funded scholarships are awarded according to the donor's specifications, which can be major-specific (often referred to as departmental scholarships), need based or special conditions. To apply for private donor scholarships, complete the Weber State Scholarship Universe Application by the priority date of February 1.

General Requirements

- Maintain the minimum GPA specified by the scholarship (varies between 2.0 and 3.7).
- Register for the minimum number of credit hours specified by the scholarship (most scholarships require 12 credit hours).

Scholarships for Out-of-State Students

Out of state students are eligible for tuition incentive programs or academic waivers. Tuition incentive programs include: Alumni Legacy, the Western Undergraduate Exchange Program, and the 100 mile radius scholarship. Academic Waivers include Mt. Ogden, Golden Spike, and Waterfall Canyon for new freshmen and Ben Lomond, Skyline Trail, Antelope Island and Malan's Peak for transfer students. Nonresident waivers cannot be combined with tuition incentive programs. Current information for each program can be found on the WSU website at weber.edu/Scholarships.

Nonresident Academic Scholarships

Academic nonresident scholarships for new freshmen students are determined based on index score (high school GPA and ACT/SAT test scores). Academic nonresident scholarships for transfer students will be determined by cumulative transfer GPA.

Alumni Legacy

The Alumni Legacy Program allows children of non-resident Weber State alumni to pay in-state tuition. This scholarship pays the out-of-state portion of tuition. This scholarship is for one year and is not renewable.

100-Mile Tuition Reduction

Non-resident students living within 100 highway miles of WSU are eligible to apply for this tuition reduction. It will pay one-half of the difference between resident and nonresident tuition charges.

Western Undergraduate Exchange Program (WUE)

For full-time undergraduate students from Alaska, Arizona, California, Colorado, the Commonwealth of the Northern Marianas Islands, Guam, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Washington and Wyoming. This program offers a reduced tuition level to 150% of Weber's resident tuition. Time spent on the WUE cannot be used towards residency. The WUE cannot stack with other academic waivers.

International Students

New freshman International students who have not attended another Utah System of Higher Education may apply for a 4-year award (8 semesters, or until graduation with a bachelor's degree) and is dependent on a GPA or grade profile that is unique to each country - Transfer students with 30 or more college credits may apply for a 3 year award (6 semesters, or until graduation with a bachelor's degree) and will be determined by transfer GPA. International scholarships include Louis F Moench, H. Aldous Dixon, Aaron W. Tracy and William P. Miller.

Scholarship Deferment

Scholarship deferment requests must be submitted at weber.edu/returntoweber.

Nonresident index chart for incoming freshmen

Financial Aid

Executive Director: Jed W. Spencer

Director: Marc Gangwer

Location: Student Services Center, Room 120

Telephone: 801-626-7569

Website: weber.edu/financialaid

The Financial Aid Program was established to assist students in achieving their educational goals. The following sources of financial aid are available for eligible students:

- Grants - Funds that are considered gifts and do not have to be repaid if Satisfactory Academic Progress (SAP) is maintained.
- Student Loans - Funds that are loaned to students and must be repaid with interest.
- Work-Study - Employment opportunities that allow students to earn funds to help pay for school.

Each form of financial aid has different regulations. The following is only a brief summary of the financial aid process. Students desiring financial aid should contact the Financial Aid & Scholarship Office as early as possible for guidance and assistance. The priority deadline for financial aid is April 1.

General Eligibility Requirements

- Meet the admission requirements of WSU as described in the Admissions section of this catalog. Conditional admission does not qualify for federal aid.
- Be enrolled or accepted for enrollment in a program that leads to a degree or certificate at WSU.
- Be a U.S. citizen, permanent resident, or other eligible non-citizen.
- Be registered with the Selective Service, if required.
- Be in good standing (not in default) on any student loan, federal loan or grant.
- Maintain Satisfactory Academic Progress.

- Have a correct Social Security Number.

Types of Financial Aid Available at WSU

Grants/Gifts

Grants are funds that do not have to be repaid if Satisfactory Academic Progress is maintained. All grants require a minimum overall GPA of 2.00 by the end of a student's fourth semester. All grants require that the student demonstrate a financial need, as determined by the FAFSA. The types of grants available are:

Federal Pell Grant - Available to undergraduate students. For the 2025-2026 aid year, awards may range up to \$3,698 per semester.

Federal SEOG (Supplemental Educational Opportunity Grant) - Awarded to help undergraduates pay for their education after high school. Awards may range up to \$550 per semester.

Student Loans

Loans are aid that must be repaid with interest. The types of loan programs available are:

- Federal Direct Loan
 - Subsidized Stafford
 - Unsubsidized Stafford
 - Federal Parents Loan for Undergraduate Students (PLUS)
 - Federal Graduate Plus Loan for Students in Graduate Programs

Employment - Federal Work Study (FWS)

This program provides jobs for undergraduate and graduate students who meet the basic eligibility requirements for financial aid and demonstrate financial need. Jobs are available both on-campus and off-campus. To see a listing of all jobs available visit jobs.weber.edu, select "Search Jobs" in the left menu, then Position Type "Hourly." Work study jobs will be defined in the job description as federal work study or FWS.

Application Process

Students should first determine if they are eligible for financial aid. Refer to General Eligibility Requirements above. The priority application deadline is April 1; this does not guarantee receipt of any specific type(s) of grants. Applications received after the deadline will be processed as quickly as possible with no guarantee that the award will be ready to meet fall semester tuition and fees payment deadlines.

Application Steps

The WSU FINANCIAL AID CODE IS 003680. This code will be needed to complete your FAFSA application online at <https://studentaid.gov/h/apply-for-aid/afsa>. All other applications and forms are available online at www.weber.edu.

1. Complete the Free Application for Federal Student Aid (FAFSA) or the Renewal Application (for continuing students) at <https://studentaid.gov/h/apply-for-aid/afsa>.
2. Submit additional, required documents through Financial Aid Verify, located in the eWeber student portal.

The Review Process

Students are advised to apply online at <https://studentaid.gov/h/apply-for-aid/fafsa>. Applications will go through a Federal "needs analysis." The ability of a student and the student's family to contribute, as well as other resources, will determine the need for financial assistance. Students will receive a FAFSA Submission Summary (FSS) which will provide information on the student aid index and financial need.

Once a student's FAFSA is sent to Weber State University, it will be reviewed in the order it was received. As part of the review, our office may require additional information which may include, but is not limited to, official academic transcripts, tax return transcripts, marriage documentation, citizenship documentation, and/or emancipation documentation.

Students will be notified through their Wildcat Mail of additional requirements. If a student feels that their FAFSA does not accurately reflect their situation, they should contact a Financial Aid Advisor.

When a student's file is complete, an award notice will be emailed to the student, directing them to their student portal. Students can view/accept their award(s) through the eWeber student portal, under Award Information.

An award may be canceled if the Award Offer is not accepted within the specified time period.

Satisfactory Academic Progress

In order to receive financial aid, students must meet qualitative and quantitative academic standards.

Cumulative GPA (Qualitative)

In addition to the University's standards, all students who receive financial aid must maintain at least a "C" average overall GPA (2.00) by the end of their fourth semester. This includes transfer work. Students not meeting this requirement will be disqualified from financial aid until they bring their overall GPA to the minimum requirement.

Completion Rate & Maximum Time Frame (Quantitative)

Students who receive financial aid must satisfactorily complete (receive grades other than I, T, W, UW, NC, E, or AU) at least 67% of their attempted credits, on a semester-by-semester and overall basis.

Students who receive financial aid must also complete their program of study within 150% of their program length. For example, a student in a bachelor's program that requires 126 credits will need to complete their program within 189 attempted credit hours. A student in an associate's degree that requires 62 credits will need to complete their program within 94 attempted credits. A student in a certificate program that requires 30 credits will need to complete their program within 45 attempted credits.

Any exceptions to these requirements must be approved by the Financial Aid & Scholarship Petition Committee (see Petitions and Reinstatement of Aid).

Eligibility Status

Students who receive financial aid and complete less than the minimum number of credit hours required by their award level will be put on financial aid denial or warning.

Please be aware that any time a student drops a class, there will be financial aid consequences.

Credit hours transferred from other colleges/universities will be included in the total hour eligibility for Satisfactory Academic Progress whether or not financial aid was received at the other institution(s).

If students change their program of study, credit hours completed for the previous major or majors will still be included in the total number of hours for financial aid eligibility even though the credit hours may or may not satisfy

program requirements for the new major. If a student cannot complete their program within the maximum time frame for their program (150% of credits needed for graduation), their financial aid will be denied.

Petitions & Reinstatement of Aid

Students who are denied financial aid, but who experienced extenuating circumstances, may petition to have their denial removed. Petitions include 1) a letter from the student 2) documentation of their circumstance and 3) a graduation plan. All petitions are reviewed by the Financial Aid & Scholarship Petition Committee.

For students who do not have extenuating circumstances, or whose petition is denied, can regain financial aid eligibility by paying for their courses with other funding until they meet the completion rate and GPA Satisfactory Academic Progress requirements.

Programs must be completed within the maximum time frame.

Withdrawals and Return of Title IV Funds

Withdrawals will negatively affect your satisfactory academic progress calculation. If you completely withdraw from school, you may be required to return a portion, if not all, of the financial aid awarded for the semester.

If you are dropping some, but not all of your classes, make sure you know how this could affect your Pell Grant.

Return to Title IV Policy (R2T4)

Federal regulations require your eligibility for aid to be recalculated whenever you withdraw from the university, either officially or unofficially. The recalculation determines the amount of aid you have "earned" by prorating according to the percent of the term completed before withdrawing.

After the 60% point in the semester or period of enrollment, you are considered to have earned 100% of the Title IV funds you were scheduled to receive during that period.

The Financial Aid and Scholarship Office will use the withdraw date recorded in the Registrar's Office as your official withdrawal date from the university. In the case of unofficial withdraws (i.e. dropped courses, UW grades, and/or retroactive withdrawals), your last date of attendance is reported by the instructor. When such a date can't be determined, the midpoint of the semester is used as your last date of attendance.

A repayment of aid is required when the actual amount of aid disbursed is greater than the amount earned, as determined by the recalculation. The university will return funds to the Title IV Program on your behalf when you owe an overpayment, and the university will consider the returned funds as your debt to the institution.

If the overpayment is not repaid by the end of the semester:

- A hold is placed on future registration.
- Your account is referred to the Loan Servicing Department for collection.
- You will be put on financial aid denial and will not be eligible to receive any future federal financial aid funding until the overpayment is paid in full and satisfactory progress requirements have been met.

A post-withdrawal disbursement will be made if you had eligibility for the Title IV funds (essentially earning more aid than was disbursed.) If you are entitled to a post-withdrawal disbursement:

- You will be sent an email informing you that you are entitled to additional funding.
- You must respond within 14 days of the receipt of the notification confirming the receipt of loan funds.
- You will be informed what type of funds you are eligible to receive and reminded that if the funds are loans, you are responsible for the repayment.
- If you still have outstanding institutional balances, the funds will be applied to the balance first.

A school must return Title IV funds to the programs from which you received aid during the semester as soon as possible, but no later than 45 days after the date it determines you withdrew. Funds are returned in the following order, as applicable.

1. Unsubsidized Federal Stafford loans
2. Subsidized Federal Stafford loans
3. Federal PLUS loans
4. Federal Pell Grants
5. Federal Supplemental Educational Opportunity Grants (FSEOG)

Sample Calculations

Scenario 1

The semester is 110 days long prior to excluding Spring Break. Spring Break is nine days long. After removing the nine day break the semester is 101 days. 101 days will be used for the standard semester R2T4 calculation. If a student received \$2,309 in Direct Unsubsidized Loan and \$1,814 in Direct Subsidized Loan. You attended 29 days before you did a complete withdrawal. To find out the percentage earned you take 29 completed days divided by 101 calendar days. The percentage earned is 28.7%. The student earned \$2213 and the amount that needs to be repaid immediately is \$1910. Your revised award is \$399 in Direct Unsubsidized Loan and \$1814 in Direct Subsidized Loan.

Scenario 2

The 2nd block of the semester is 56 days long prior to excluding Spring Break. Spring Break is nine days. After removing the nine day break the semester is 47 days. 47 days will be used for the 2nd block R2T4 calculation. If a student received \$1,979 in Direct Unsubsidized Loan and \$1,724 in the Federal Pell Grant. You attended 12 days before you did a complete withdrawal. To find out the percentage earned you take 12 completed days divided by 47 calendar days. The percentage earned is 25.5%. The student earned \$2,284 and the amount that needs to be repaid immediately is \$1,419. Your revised award is \$560 in Direct Unsubsidized Loan and \$1724 in Federal Pell Grant.

Scenario 3

The semester is 110 days long prior to excluding Spring Break. Spring Break is nine days long. After removing the nine day break the semester is 101 days. 101 days will be used for the standard semester R2T4 calculation. If a student received \$1,484 in Direct Unsubsidized Loan, \$2,226 in Direct Subsidized Loan, and \$1,381. You attended 66 days before you did a complete withdrawal. To find out the percentage earned you take 66 completed days divided by 101 calendar days. The percentage earned is 65%. By attending more than 60% of the term, there is no repayment required. You are allowed to keep all the aid initially awarded.

Student Expense Budget (Cost of Attendance)

The cost of attending Weber State University includes direct educational costs such as tuition, fees, books and supplies, as well as living costs such as room and board. Below is a table that gives an approximate budget for students attending the 2018-2019 fall and spring semesters. Students should use this only as an estimate when planning their education expenses.

Sample Budget: 2024-2025 Undergraduate - 2 semesters at Full Time Attendance

	In-state On-Campus (Utah residents)*	Out-of state On-Campus (non-resident)*
Tuition and Fees	\$6,557	\$17,545

(2 semesters)

Misc. Expenses	\$3,000	\$3,000
Books (estimated)	\$1,400	\$1,400
Housing & Food ** (on-campus housing)	\$9,572	\$9,572

*Based on attending full time for 2 semesters. Graduate tuition and fees vary by program. Current tuition and fee amounts by credit hour load are published on the web at weber.edu/bursar/TuitionFee_Tables.html.

**Room and board can vary greatly depending on whether or not students live in the dorms and what meal plan they select.

General Studies & Exploratory Advising

Location: Student Services Center, Room 140

Telephone: 801-626-6752

Website: www.weber.edu/general-exploratory-advising/default.html

Email: studentpathways@weber.edu

Weber State University's General Studies & Exploratory Advising provides student-centered programs focused on retention and persistence to graduation. The center's dedicated staff provides academic advisement to students pursuing an Associate of Arts or Science in General Studies, and oversees programs on multiple WSU campuses supporting academic skills training, early college access and academic interventions. General Studies & Exploratory Advising programs support students throughout their academic journey from orientation to graduation as part of the University's mission to offer excellent educational experiences to all students. General Studies & Exploratory Advising is also responsible for the administration of the Starfish Early Alert, the Bounce Back Program, and the Academic Advising Referral Service.

Office hours at Ogden Campus (Student Services Center, Room 140):
8:00 a.m. - 5:00 p.m. Monday through Friday

New Student Orientation

Location: Student Service Center, Room 140

Telephone: 801-626-6752

Website: weber.edu/orientation

All students new to WSU are required to complete New Student Orientation (NSO). NSO includes modules and a Weber Welcome event. Both are required* for all new, first-time, Early College or degree-seeking undergraduate students before they can register for classes. Students complete modules through their eWeber portal and will become familiar with:

- Student services, student involvement and activities, and Weber State's campuses
- eWeber account and how to register for classes
- Procedures for obtaining parking permits, Wildcards, and purchasing textbooks
- Policies and procedures
- General Education requirements

- Program-specific degree information
- Dates and times for Weber Welcome events

The Weber Welcome experience will help connect students with student leaders, faculty and staff and resources, easing the transition into the WSU community.

*New Student Orientation modules/Weber Welcome events are not required for Concurrent Enrollment, Post-baccalaureate or Graduate Students.

First Year Experience Program

Location: Student Services Center, Room 140

Telephone: 801-626-6752

Email: fye@weber.edu

Website: weber.edu/fye

The First Year Experience (FYE) Program is designed to help incoming students make a successful transition into the university community. The program assists students in making progress toward fulfilling the following educational and personal goals:

- Acquiring a sense of competence as a student and becoming successful in college.
- Mastering academic skills, such as note taking, textbook reading, test taking, writing, and time management.
- Demonstrating knowledge and use of campus resources.
- Demonstrating effective interpersonal skills with a variety of people.
- Developing a sense of belonging to the WSU community through the connections with other students, teachers, mentors and WSU employees.
- Enhancing mental, physical, spiritual and social health.

Program Components

To aid students in achieving these goals, the FYE Program includes the following components:

- **FYE 1105 - Foundations of College Success (3)**
This course assists incoming students in making a successful transition to college. Topics include the purpose of higher education, goal setting, time management, study and test taking skills, critical thinking, stress management, academic advisement, career and major exploration, using campus resources, and understanding student responsibilities.
- **FYE 3170 - First Year Experience Mentor Leadership Seminar (2)**
In this seminar course, FYE Peer Mentors are taught to effectively help Foundations of College Success (FYE 1105) students in making a successful transition to college. FYE Mentor requirements are available at weber.edu/fye. Course enrollment limited to FYE Peer Mentors. May be repeated once for 2 more credits and additionally for zero credits.

Program Requirements

Any WSU student is welcome to participate in the program by taking FYE 1105.

Program of Study (Major/Minor) Declaration

Website: <https://portalapps.weber.edu/PrgStudyApp/Default.aspx>

All degree-seeking students must select a program of study. When students declare their program of study, they indicate their degree, major, (and minor if applicable), and catalog year. To declare or change a program of study, students should use Change My Major application to submit a declaration request for their chosen major and minor. Once submitted, requests will be reviewed and approved by the academic department. For students interested in a selective program, formal acceptance into the program is an additional step after they have been declared. Please contact the academic department of the selective program for more information.

Registration

University Registrar: Cori Horne

Assistant Registrar for Registration: Rylee Parker

Location: Student Services Center, Room 101

Telephone: 801-626-6100

Website: weber.edu/registration

Email Address: registration@weber.edu

The University offers classes during fall, spring, and summer semesters. Students must register each semester to attend classes. Class schedule information for specific semesters is available on the WSU home page (weber.edu). The web-based class schedule provides information about the dates and times classes are offered for the selected semester. See the Academic Calendar of this catalog for registration dates and beginning and ending dates for each semester.

Registration Process - New Students

To register for classes, new students should:

1. Complete the admissions process - new students who have applied for admission (available online at weber.edu/admissions), but have not received an acceptance notice by mail, should contact the Admissions Office at 801-626-6050.
2. Complete mandatory New Student Orientation Requirements. For more information, see weber.edu/orientation.
3. See the Academic Calendar in this catalog to determine when registration begins each semester; Log in to the eWeber portal *and access the "Registration Time - Check Status" app to find your registration time.
4. Plan a course schedule - some alternate classes should be selected in case first selections are closed.
5. Log in to the eWeber portal and access either "Register for Classes Add/Drop" or "Registration Schedule Builder" to register for classes.
6. Pay tuition and fees. Log in to the eWeber student portal* to pay tuition and fees online. Electronic statements and up-to-date balances are available in the student account at any time.

*To log in, go to weber.edu and enter your Wildcat Username and password.

A Wildcat ID and password are required before registering online in your eWeber student portal. You can sign up for a Wildcat ID online at weber.edu/eservices. For assistance contact Computing Support at 801-626-7777.

Registration Process - Continuing Students

To register for classes, continuing students should:

1. See the Academic Calendar to determine when registration begins each semester; Log in to the eWeber portal *and access the "Registration Time - Check Status" app to find your registration time.
2. Plan a course schedule - some alternate courses should be selected in case first selections are closed.
3. Log in to the eWeber portal and access either "Register for Classes Add/Drop" or "Registration Schedule Builder" to register for classes.
4. Pay tuition and fees - log in to the eWeber student portal* to pay tuition and fees online. Electronic statements and up-to-date balances are available in the student account at any time.

*To log in, go to weber.edu, and enter your Wildcat Username and password.

A Wildcat ID and password are required before registering online in your eWeber student portal. You can sign up for a Wildcat ID online at weber.edu/help/kb/wildcataccount.html. For assistance contact Help Desk Support at 801-626-7777.

Registration Times

- Registration appointments are issued to new and continuing students one week before registration beg. with "Priority registration is used in fall and spring semesters to ensure that students closer to complete.
- Registration times are based on a student's total earned hours (hours earned with a passing letter grade and hours earned through credit by examination). Current semester totals do not count toward earned hours.
- Students can check their registration time in the "Registration Time - Check Status" app by logging into the eWeber portal. Registration times are also sent to students by email and text prior to the opening of registration.

First Registration Phase - (Registration by Appointment)

- During this registration phase, students may register starting at 7 a.m. on their appointed day.
- On their assigned day, students should access the registration system on the Internet at weber.edu and enter their Wildcat Username and password.
- Tuition and fees may be paid by cash, check, VISA, DiscoverCard, or MasterCard. Log in to the eWeber student portal to pay tuition and fees online. Electronic statements and up-to-date balances are available in the student account at any time. A paper billing statement will be mailed at the student's request by sending an email to cashiers@weber.edu.
- Refer to Bursar's Office to obtain information about payment deadlines and tuition and fee amounts. It is the student's responsibility to understand the registration, payment, withdrawal, and refund schedule and to make sure account balances are paid in-full and on-time to avoid late fees or other charges.

Second Registration Phase - (Open Registration)

Once appointment registration is complete, "open registration" continues and all students are allowed access to register and/or make changes to their class schedules on a first-come-first-served basis.

- During the second phase of registration, all students may register or make changes by accessing the registration system on the Internet at weber.edu and entering their Wildcat Username and password.
- Tuition and fees may be paid by cash, check, VISA, DiscoverCard, or MasterCard. Log in to the eWeber student portal to pay tuition and fees online. Electronic statements and up-to-date balances are available in the student account at any time. A paper billing statement will be mailed at the student's request by sending an email to cashiers@weber.edu.

- Refer to the Bursar's Office to obtain information about payment deadlines and tuition and fee amounts. It is the student's responsibility to understand the registration, payment, withdrawal, and refund schedule and to make sure account balances are paid in-full and on-time to avoid late fees or other charges.

Changes in Registration

- Students may add classes online through the 5th business day of the semester or block. Instructor approval will be required to add a class beginning on the 6th business day of the semester or block. Students should contact their instructor to get this approval and will be able to add the course online.
- Students may drop classes online by emailing registration@weber.edu by the deadline dates (see the Academic Calendar online). There are different deadlines for refunds and grading when withdrawing from classes.
- If students need instructor or department permission to make a change in their registration, any required forms can be found on our website, or permission can be emailed to our office. For more information, please visit weber.edu/registration.
- Students are strongly encouraged to plan their class schedules in consultation with an advisor to avoid unnecessary changes and ensure efficient progress toward completion of degree requirements.
- Students receiving financial aid should be careful not to reduce their credit hour load below the minimum number of hours required by their award level.

Closed Classes

- Only academic departments and instructors have the authority to admit students to closed classes.
- Students may contact the individual department and/or the instructor for specific procedures regarding admission to closed classes.

Credit/No Credit (CR/NC) Registration

The basic objective of credit/no credit grading is to allow students the opportunity to enroll in classes outside their major or minor on a pass (CR)/ fail (NC) basis without affecting their GPA. The following rules apply:

- Freshmen students may take no more than one class per term on a credit/no credit basis.
- Students with 30 or more credit hours who have a cumulative GPA of 2.0 or above may register for no more than two classes per term on credit/no credit basis.
- A maximum of 20 hours of credit/no credit in elective courses may be used for graduation.
- Classes taken on a credit/no credit basis will not satisfy major, minor, general education, or specific course requirements. The University Curriculum and General Education Committee have designated a few exceptions to this rule. Please see the academic department for information on these course exceptions.
- Grades on the credit/no credit system are not included in computing the term or cumulative grade point average. A grade of credit is recorded only for letter grades of C- and above. Grades less than C-, including UW, will be recorded as no credit.
- Students who change their Program of Study must submit the appropriate form to the Records Office and request the grade be changed to the letter grade issued by the instructor if a credit/no credit course applies to the new Program of Study.
- If a student has previously taken a course for a letter grade, the same course may not be retaken for credit/no-credit.
- Choice of credit/no credit registration should be made at the beginning of the term, but a student may change classes to credit/no credit status until the CR/NC deadline. This date can be found in the University's Academic Calendar.

- The instructor is not notified when a student takes a class for a credit/no credit grade. The instructor will assign a letter grade on the Final Grade Report and then the Records Office will convert the letter grades to credit or no credit.
- For more information, please visit weber.edu/registration.

Audit Course Registration

The basic objective of taking a class as audit is to allow students the opportunity to attend a class without earning either a grade or credit for the class.

- Students registering to audit a class will pay tuition and fees per the current tuition and fee schedule.
- Students in regulated programs, i.e. Financial Aid and Athletics, are subject to the respective program guidelines for audit registration.
- Some courses may not be open to audit students because of classroom space limitations. Students must receive instructor permission to audit a class.
- Choice of audit registration should be made at the beginning of the term, but a student may change classes to audit status until the audit deadline. This date can be found in the University's Academic Calendar.
- Students auditing classes are expected to attend on a regular basis. Students may officially withdraw from the audited class according to the deadline. Audit students failing to attend class may be issued a "W" grade at the discretion of the instructor.
- Senior Citizens (Utah residents ages 62 and over) may audit a course as a Lifetime Learner for a \$10.00 fee per semester, on a space available basis, by applying at the Admissions Office. Lifetime Learner's selecting this option for courses do not have the option to receive a letter grade nor credit on their transcript for these courses.
- For more information, please visit weber.edu/registration.

Registration Credit Hour Loads

- It is recommended that undergraduate students planning to graduate with a bachelor's degree in four years register for at least 15 credit hours per semester.
- Undergraduate students are classified as full-time if they register for 12 or more credit hours, as three-quarter time with 9 credit hours, and as half-time with 6 credit hours.
- Graduate students are classified as full-time if they register for 9 or more credit hours, and as half-time if they register for 5 or more credit hours.

Overload Registration

- Students may register for a maximum of 20 credit hours without special permission.
- Students with a cumulative GPA of 3.50 or better may petition for a maximum of 24 credit hours, and students with a cumulative GPA of 3.75 or better may petition for additional credit hours. Petition forms are available at weber.edu/registration.
- For more information, please visit weber.edu/registration.

Withdrawal

- Students can withdraw from individual classes online according to the deadlines on the Academic Calendar.
- Students who want to completely withdraw from the semester or block may do so online according to the deadlines on the Academic Calendar. Students who need help may send an email request to registration@weber.edu from their Weber email account ending in @mail.weber.edu, or send a signed

written request via fax (801-626-6679) or mail (3885 West Campus Drive Dept. 1102, Ogden, UT 84408). Requests should always include the student name, W#, and a clear statement explaining the request. Go to the Cashier's Office page online (www.weber.edu/bursar/RefundDates) and check the Refund Policy and Deadlines before making a decision to drop classes. You will be accountable to the refund schedule for any tuition and fee costs associated with the time you spent registered for your classes.

- From the 16th to 50th business day of a semester, or 16th to 30th business day of a block, students may withdraw from classes online or by emailing registration@weber.edu from their Weber email account ending in @mail.weber.edu. Courses dropped during this period will appear on the transcript with a "W" notation.

State Authorization

WSU/Utah is a member of the National Council for State Authorization Reciprocity Agreement (NC-SARA) and Weber State University (WSU) is an approved SARA institution, which means we adhere to established standards for offering post-secondary e-learning programs in all member states.

All WSU fully online programs are currently authorized in all states; however there may be restrictions in certain non-SARA states regarding internships and practicums.

Per federal law, students who have petitions/complaints against the school relating to fraud, false advertising, or other deceptive practices can report their petitions/complaints to Weber State University by following the Student Petition/Complaint Process..

Class Standing

New Freshmen	Students with 0 earned credit hours
Advanced Freshmen	Students with 1-29 credit hours
Sophomores	Students with 30-59 credit hours
Juniors	Students with 60-89 credit hours
Seniors	Students with 90 credit hours or more
Graduates	Students who have previously received a bachelor's degree

Course Numbering System

0001-0999	Non-credit, Developmental (ND) (do not satisfy degree requirements and are non-transferable)
1000-2999	Lower division
3000-4999	Upper division
5000-5999	Post-baccalaureate

6000-6999 Graduate (Master's Degree)

7000-7999 Doctorate

Individual course descriptions are listed within each departmental section.

Davis Campus and Additional Locations

In addition to classes taught on the main campus, course work is also available at several off-campus locations including:

- WSU Davis Campus, 2750 University Park Blvd, Layton
- WSU Morgan Center, 241 E. Young St., Morgan
- Clearfield High School, 938 S. 1000 E., Clearfield
- Davis Area Technical College, 550 E. 300 S., Kaysville
- Kaysville Center at Davis High School, 325 South Main, Kaysville
- Roy High, 2150 W. 4800 S., Roy
- Salt Lake Community College, 4600 Redwood Rd., Salt Lake City

Tuition, Fees and Refunds

Bursar: Michael Richter

Location: Miller Administration, Room 204

Cashiers' Office: Student Services Center, second floor (SC 209)

Telephone: 801-626-8006

Website: weber.edu/bursar

Email: cashiers@weber.edu

Tuition and Fees

Weber State University reserves the right to assess tuition and fees as approved by the Board of Regents. Current policies, procedures, tuition and fee tables, payment deadlines, refund schedules and other important information are available at weber.edu/bursar (click on the link for Tuition and Fee Tables).

- Tuition is established by the Utah System of Higher Education and is subject to change without notice.
- Full-time students (12-18 credit hours) are assessed full tuition.
- Part-time students (less than 12 credit hours) are assessed tuition on a per credit hour basis.
- Students that enroll in more than 18 hours will be assessed tuition on a per credit hour basis for the additional hours.

Please also see Surcharge.

Tuition and Fee Schedule

Tuition and fees are established each year in late spring. Current tuition and fees will be posted on the Internet at weber.edu/bursar/TuitionFee_Tables.html.

HB248 Tuition Disclosure 2024-2025

Full-time undergraduate resident students at Weber State University paying a semester of tuition amount of \$3,053 contribute an estimated 53% of the full cost of instruction of \$5,722. The remaining support of \$2,669 is provided by

state tax or other funds. Full-time undergraduate resident students at Weber State University pay a semester of student fees in the amount of \$467.99 contribute 100% of the costs.

Tuition and Fee Assessment

Weber State University does not drop courses for non-payment or non-attendance. Students are responsible for dropping courses they do not plan to attend. Tuition and fees will not be waived for nonattendance. Once registered, each student is obligated to pay for their courses unless the student has dropped courses or the student completes a total withdraw from school during the 100% refund period. If a student drops or completely withdraws from school after the 100% refund period, the student is obligated to pay tuition and fees according to the current semester refund schedule. Also, a student must pay for or drop courses by the payment deadline to avoid late fees and interest. (See Withdrawal for further information.)

Tuition and Fees for Online and Independent Study Courses

Refer to continue.weber.edu/wsuoonline/tuition.aspx for tuition and fee information for WSU Online and Independent Study courses, or call 1-800-848-7770 and choose "Online & Independent Study Student Services" from the phone menu.

Course (Lab) Fees

Some courses require additional fees for materials and/or resources.

Rentals and Deposits

Rentals and/or deposits are required on certain items and are paid to the Cashier. Any applicable refunds must be obtained from the Cashier prior to June 30.

Surcharge

In 2003 the Utah System of Higher Education passed a policy designed to encourage students to make reasonable progress toward completion of degree requirements. The policy states that students who exceed 135% of the credits required for completion of their baccalaureate degree will be charged the full cost of instruction. For example, a student whose program of study requires 126 semester credit hours will be allowed a maximum of 170 semester hours in which to complete degree requirements ($126 \text{ credits} \times 1.35 = 170 \text{ credit hours}$). Any work beyond the allowed 135% will be charged at the full cost of instruction.

Credit hours that do not count toward the 170 hours are concurrent enrollment, advanced placement, and credit by examination. Individuals are also exempt from the surcharge if:

- the credits are necessary for the student to complete the student's program of study; and the excess credits are a result of circumstances where a substantial number of credits from a transferring institution could not be applied to the program of study;
- the excess credits are a result of a reasonable enhancement of the student's major by the addition of a minor or emphasis to the program of study; or
- the excess credits are the result of a re-entry into the educational system by a student who may have accumulated a large number of credits, or even completed degrees, but where employment requirements obligate his or her return to college.

More information is available by contacting the Cashier's Office at 801-626-8006 (SC 209).

Agreement to Pay Tuition Charges

When a student registers for courses at Weber State University the student agrees to the terms of the "Agreement to Pay Tuition Charges." The agreement states:

In consideration of the University's allowing me to register for courses, thus incurring the attendant costs to the University, both direct and indirect, I promise to pay Weber State University (WSU), Ogden, Utah, tuition and fees (principal) assessed to me for courses for which I have registered by the published payment due date for each semester. Also, I agree to pay for any additional fees and interest charges that are assessed to my account each semester. I hereby agree to pay a late payment fee of \$40 if my account balance is not paid by the published payment due date, together with interest at the rate of 12% per annum on the unpaid balance. In the event I default on this agreement and it becomes necessary to place this account for collection, I also agree to pay collection fees, not to exceed 50.00% of the original principal balance, plus any court and/or attorney fees resulting from the enforcement of this agreement. Any collection costs stated above are in addition to the principal, fees and interest due on my account. In the event of default of any of the terms of this agreement, I hereby give to the WSU Controller, or his/her designee, Power of Attorney to apply all monies due me from WSU to any delinquent portion of this note until the principal, fees, interest and costs are paid in full. I agree that WSU may repay my account balance from any TITLE IV funds due me. I understand that the principal amount is calculated based on my class-load each semester at WSU. All outstanding tuition account balances are considered qualified educational loans under I.R.C § 221 and are extended with the express understanding that future repayment shall be made to the university. I further understand that my acceptance of these terms represents my acknowledgement and acceptance of my tuition account balance qualifying as a qualified education loan under I.R.C. § 221, and as such, is exempt from discharge under federal bankruptcy code 11 U.S.C. § 523(a)(8).

Billing Statement

Tuition and fees statements are available on the eWeber student portal. Electronic statements and up-to-date balances are available in the student account at any time. Students are responsible for viewing up-to-date balance or e-statements in the student account. It is the student's responsibility to make sure account balances are paid in-full and on-time. A paper billing statement will only be mailed at the student's request by sending an email to cashiers@weber.edu.

Payment Schedule

- Payment deadlines are listed on the Internet at weber.edu/bursar.
- Tuition and fees may be paid by cash, check VISA, DiscoverCard, MasterCard or American Express.
- Monthly payment plans are available to help students who are not able to pay in full when tuition is due. (See Monthly Payment Plan Option below.)

Late Payment Fee

A late payment fee will be assessed to all students who have not paid their tuition and fees in-full or have not signed up for a monthly payment plan (see weber.edu/bursar/Late_fees.html for the amount and schedule for assessment of the fee.) If a student has an outstanding balance after their financial aid or scholarships have been applied, the student is responsible to pay this amount by the payment deadline to avoid the late payment fee and interest charges. The late payment fee and interest are nonrefundable and will not be waived.

If a student changes his/her schedule by adding classes, the student has until Friday at 4:00 p.m. of that week to pay the balance or the late payment fee will be assessed to the student account. Students should check their account balance each time a change is made to his/her schedule to determine the new balance due.

Interest Assessment

Interest will begin the fourth week of the semester on any unpaid balance. The annual rate is 12%. A student will not be assessed interest as long as the student is in a Monthly Payment Plan that covers all tuition and fees and current on all payments. Interest on unpaid balances will be assessed in addition to the late payment fee.

Monthly Payment Plan Option

The Monthly Payment Plan is a program intended to help students who are not able to pay their account in full by the tuition and fee deadline. Instead of one large payment, tuition and fees are broken down into equal monthly payments. Enrollment in a plan is available at the time of registration prior to the beginning of each semester. See weber.edu/bursar/available_plans.html for details about monthly payment plans.

Personal Checks or eChecks

Personal checks or eChecks returned by a financial institution for any reason are subject to a service charge and may result in the withholding of student records and/or dropping of courses.

Delinquent Accounts-Collection Fees

Students with unpaid tuition and fees, room and board, parking fines or other fees due to the University may have a hold placed on their records until such obligations are paid in full. The hold will prevent the student from registering for future semesters, viewing transcripts or grades, delay receiving a diploma and limit use of the Wildcard and certain student services.

Unpaid accounts will be processed by University collections. A collection fee of up to ten percent of the outstanding balance may be assessed to the student. Interest and monthly collection fees will also be assessed on any unpaid balance. In the event additional collection efforts become necessary, WSU may refer a past due account to an outside collection agency. All delinquent accounts are subject to collection fees, interest, plus all court costs and reasonable attorney fees. The collection agency and/or WSU will report delinquent accounts to a credit reporting agency.

Third Party/Sponsored Payments

Students are responsible for ensuring that appropriate documentation for third party/sponsored payments is submitted to the main cashier's office prior to the start of classes each semester. Students must comply with the terms of the agreement and verify that all tuition and fees changes are paid by the sponsor agreement. It is the student's responsibility to verify that any course or tuition and fee changes will be paid by the sponsor and that these changes are reported to the accounts receivable office for proper processing. If the sponsor does not provide funding by the end of the semester, the student will be responsible for payment of tuition and fees. The account will be considered delinquent if unpaid at the end of the semester. (See Delinquent Accounts above.) Contact 801-626-6263 for information on how to submit vouchers or contracts.

Administrative Withdrawals

The University reserves the right to administratively withdraw a student from a current semester if a student has an unpaid tuition and fee balance from a prior semester or if the student provides a dishonored check or other payment to pay for tuition and fees. The prior semester courses will not be dropped or withdrawn.

Financial Petitions

Tuition and fee assessment is based on the registration date of the course and date of withdrawal from the course. The withdrawal dates are published on the Academic Calendar each semester. If, due to extenuating or for other acceptable circumstances, the student must drop a course after the published deadline, the student must complete the "Exception to University Policy-Tuition and Fee Assessment Petition" weber.edu/bursar/Petition.html and submit supporting documentation.

Tuition and fees are assessed according to approved tuition and fee tables. The assessment is based on the number of registered credit hours or liable hours for each student. For example, if the student signs up for 12 credit hours, he or she is liable for paying for 12 hours according to the tuition and fee table.

Deadlines for Filing Petition

The deadline for filing a petition is the last day of the semester of enrollment. The burden of proof rests with the student to submit documentation of circumstances that prevented the student from adhering to the University policies and procedures. For more information and forms refer to: weber.edu/bursar/Petition.html

Refunds and Reimbursements

Student fees and course fees are refunded based on the University refund schedule (see weber.edu/bursar). Late fees and withdrawal fees are nonrefundable. In most cases, if a credit card is used to pay for tuition and fees, refunds and residual funds will be credited to the credit card. Students may opt to have any refund sent electronically to a bank account of their choice by setting up a refund profile at weber.edu/bursar/Refund_Dates.html. All other refunds will be mailed to the student. Admission fees and recording fees are nonrefundable.

Refunds for dropped courses will be processed after the third week of class.

Financial Aid Withdrawals and Return of Title IV Funds

See Withdrawals and Return of Title IV Funds in the Financial Aid section.

Division of Online & Continuing Education

The Division of Online & Continuing Education (DOCE) is the entrepreneurial and innovative arm of Weber State University. To empower students to achieve their personal, professional and educational goals, the division builds trusted partnerships with students, industry and other campus entities in order to create innovative programming.

Location: Hurst Center for Lifelong Learning - 1265 Village Dr. Dept 4006, Ogden UT 84408-4006

Telephone: 801-626-6600 or toll-free 800-848-7770, option 4

Website: weber.edu/doce

Programs

The Division of Online & Continuing Education offers both credit and noncredit programs. Credit programs focus on courses related to degree and certificate attainment while noncredit programs provide professional training, certification, credentialing and personal enrichment.

Staff members work to provide expanded educational options that bridge gaps and eliminate barriers in achieving each student's educational goals.

Credit Programs:

WSU Online

Independent Study

Non-Credit Offerings:

Rocky Mountain Center for Occupational & Environmental Health

Law Enforcement Academy

Professional Development

Microcredentials

Locations:

WSU Center for Continuing Education

WSU Davis

Telephone: 801-395-3555

Location: 2750 University Park Boulevard, Layton, UT 84041 (Directions) (Map)

Website: weber.edu/davis

The WSU Davis campus provides a wide range of higher educational opportunities to the residents of Davis County and surrounding areas. With a population of over 350,000 residents, Davis County is Utah's third largest county. It is also home to Hill Air Force Base, Utah's largest employer. Davis County residents comprise more than 40 percent of the student body at Weber State University. In addition to providing learning opportunities close to where these students live and work, WSU Davis is an integral part of the larger community, enriching the social, cultural and economic lives of the citizens of Davis County.

From its campus in Layton, WSU Davis offers a full range of general education courses and a wide range of associate's, bachelor's, and master's degrees. Information about degree and certificate programs available at WSU Davis can be found at weber.edu/davis. Students may take classes at both WSU Davis and the Ogden campus concurrently, depending upon their needs and schedule. One of the hallmarks of the Davis campus is the special attention given to meeting the needs of military, veteran, nontraditional, and working students.

WSU Davis provides a complete university experience for students, using both visiting and resident faculty to provide instruction and advisement. Extensive student services and support activities are also available, including computer classrooms, a computer laptop lounge with PC's and printing support, a computer lab including Macs and PC's with printers and scanners, a library, a bookstore, a testing center, enrollment services, academic advisement, academic support, financial aid, tutoring, student activities, counseling services, a fitness center, a stress-relief center, event spaces, and a wide range of other student services.

WSU Davis is also home to the Northern Utah Academy for Math, Engineering and Science (NUAMES), an early college charter high school that works in partnership with Weber State University.

- Tech accessories
- Local gifts
- Gift cards

- Classroom supplies
- Snacks and drinks

Student Health & Wellness

Telephone: 801-626-7503

Website: weber.edu/studentwellness

Student Wellness provides one-on-one consultations to help students reach their health and wellness goals. Staff are available at WSU Davis by appointment only.

Student Involvement & Leadership

Telephone: 801-395-3441

Location: DSC, Suite 221

Website: weber.edu/studentinvolvement

- Assists students in expanding and enriching their holistic student experience
- Provides an environment for students to learn and practice leadership skills
- Provides an environment for students to meet, organize and share common interests
- Through the Davis Student Council plans and implements social, service, cultural and educational programs
- Leadership opportunities include:
 - Leadership development programs
 - Student programming and events
 - Student organizations
 - Student volunteer opportunities

Wildcard & UTA Ed Pass

Telephone: 801-395-3460

Location: Bldg. D2, Suite 262 (Davis Student Services)

- The Wildcard desk provides new, replacement, and digital student ID cards.
- UTA Ed Passes allow transportation on all UTA buses, FrontRunner and TRAX.

Career Services

Telephone: 801-395-3460

Location: Bldg. D2, Suite 262 (Davis Student Services)

Career Services provides career counseling and employment advising to individuals through personality and career assessments. Help is also provided with resume and interview preparation and networking strategies.

Counseling & Psychological Services

Telephone: 801-626-6406

Location: Bldg. D2 Suite 262 (Davis Student Services)

Counseling and Psychological Services provides high-quality, culturally-sensitive, professional psychotherapy for students struggling with anxiety, depression, relationship problems, stress, grief, or other concerns.

Disability Services

Telephone: 80-626-6413

Location: Bldg. D2, Suite 262 (Davis Student Services)

Disability Services provides testing accommodations and determines appropriate accommodations based upon documentation of the disability and works closely with faculty and staff to ensure that any given accommodation is appropriate and necessary for the situation.

Military-Affiliated Student Center

Telephone: 801-626-6039

Location: Bldg. D2, Suite 262 (Davis Student Services)

The Military-Affiliated Student Center is the liaison between Weber State University and the U.S. Department of Veterans Affairs for educational benefits for veterans and dependents who are eligible for the G.I. Bill. In addition, the office assists veterans and their dependents in identifying sources of support for their educational needs and provide a variety of support services to assist in making education a successful experience for veterans.

Veterans Study Lounge & Veterans Upward Bound

Telephone: 801-395-3408

Location: Bldg. D2, Suite 231

The Veterans Study Lounge provides a quiet, dedicated space for veterans to study, print for free, get a snack, and get tutoring and academic support.

Veterans Upward Bound is designed to motivate and assist veterans in the development of academic skills by providing tutoring in English, writing, math and computer literacy.

Davis Tutoring & Writing Center

Telephone: 801-395-3569

Location: Bldg. D2, Room 214

Website: <https://weber.edu/tutoring/davis-tutoring-writing-center.html>

Tutoring:

- Peer tutoring is offered in a range of subjects
- Both drop-in hours and appointments are available
- Tutors are certified through the College Reading and Learning Association (CRLA)

Supplemental Instruction

- Supplemental Instruction (SI) provides study groups for historically difficult courses.
- Facilitators are trained student leaders who have successfully completed the course.
- SI stresses how to learn as well as what to learn.

Academic Peer Coaching

- Peers Coaches help students become academically successful.
- Coaches can help with skills like time management, textbook reading, test-taking, and note-taking.

Student Support & Resource Center

Telephone: 801-395-3464

Location: Bldg. D2, Room 307

Website: <https://weber.edu/support-resources>

The student support & Resource Center supports students who need a little extra assistance with food or completing FAFSA. Enjoy a private study space equipped with everything you need, from a private computer to printing services. Locations are available in both Ogden and Davis campuses. Child care is offered at the Ogden location.

Some of the services offered are:

- Lounge
- Kitchen
- Free hot chocolate, coffee, and tea
- Computer lab
- Free printing
- Study area
- Advisors and Peer mentors
- Scholarships
- Leadership opportunities
- Community pantry (available food items, varies by semester)

Financial Literacy

Telephone: 801-395-3464

Location: Bldg. D2, Room 307

Website: <http://weber.edu/support-resources/financial.html>

As part of the Student Support & Resource Center, Financial Literacy is available to help students with all things finance. From budgeting to savings, help with understanding loans and credit card debt and FAFSA application support, Financial Literacy has the student covered. Reach out for help with building wealth, understanding credit scores, tax resources and more. Schedule and appointment through the website.

Weber Cares Pantry

Telephone: 801-395-3460

Location: Bldg. D2, Suite 262 (Davis Student Services)

The Weber Cares Program, part of the Student Support & Resource Center, aims to combat food insecurity and support academic success by offering food at no cost through the Weber Cares Pantry. No appointment is required to

visit our pantry; walk-ins are welcome. Just check in at the Davis Student Services front desk. Pantry packs are also available.

Student Support Services & SSS-STEM

Telephone: 801-395-3568

Location: Building D2, Room 220

Student Support Services and SSS-STEM aids full-time, first-generation, low-income STEM students. Enjoy up to five hours of free weekly tutoring per class, access scholarships and grant aid, quiet and group study spaces, plus advising and success workshops.

Davis Testing Center

Telephone: 801-395-3495

Location: DSC, Room 231

Website: weber.edu/TestingCenter/davis.html

- Administers tests for WSU students through Canvas as well as paper exams.
- The Davis Testing Center provides testing for the English and Math placement tests (Accuplacer and ALEKS). This center also administers College Credit Exam tests CLEP, DSST, and BYU FLATS. The National Police Officer Test (NPOST) and exams for other institutions are offered at this location as well.

Computer Lab & Laptop Lounge

Telephone: 801-395-3492

D2 Location (Computer Lab): Bldg. D2, Room 205 (Information Commons)

Website: weber.edu/ComputerLabs/davis-d2.html

- Our D2 Info Commons Computer Lab features dual-monitor PCs and Mac stations with academic and design software already downloaded, color and black and white printers, scanners, and helpful lab assistants to support students with technology and digital access questions, especially with Adobe and ePortfolios.
- This location also supports our laptop checkout program where current WSU students can loan a PC laptop for one semester. For more information about our laptop checkout program, visit our website.

DSC Location (Laptop Lounge): DSC Atrium (1st Floor)

Website: <https://www.weber.edu/ComputerLabs/davis-d3.html>

- Our DSC Laptop Lounge features PC stations with academic and design software already downloaded, especially with Adobe and ePortfolios, color and black and white printers, and helpful lab assistants to support students with technology and digital access questions.

Northern Utah Academy for Math, Engineering, and Sciences (NUAMES)

Telephone: 801-395-3350

Location: Bldg. DSC, Suite 316

Website: NUAMES.org

NUAMES is an early college high school that offers students the opportunity for a rigorous and supportive early college experience on a university campus. NUAMES focuses on STEM education: science, technology, engineering and math. NUAMES is a public state charter school composed of grades 10-12, and is consistently ranked as one of the top performing high schools in the state of Utah.

- Fully accredited high school
- Partnership with Weber State University
- Early college scholarships available to qualified students
- Opportunity to earn associate's degree upon graduation from NUAMES

State GEAR UP

Telephone: 801-395-3547

Location: Bldg. D2, Room 308

Website: weber.edu/stategearup

GEAR UP (Gaining Early Awareness & Readiness for Undergraduate Programs) provides college readiness support for targeted students in the Weber and Davis school districts. First-year services are also provided for GEAR UP students pursuing post-secondary education. The GEAR UP program includes the following services:

- Financial aid/scholarship advising
- FAFSA completion
- ACT preparation
- Academic enrichment
- Campus visits
- Family outreach

Davis Fitness Center Campus Recreation

Telephone: 801-395-3422

Location: DSC, Room 150

Website: weber.edu/campusrecreation

The mission of WSU Campus Recreation is to encourage lifelong learning, develop healthy active lifestyles, foster leadership, build a diverse community, and enhance interpersonal relationships. This is accomplished by providing quality facilities and experiential education through dynamic programming that focuses on WSU students, faculty/staff, and the greater community. We create opportunities that inspire engagement in healthy, active lifestyles!

Program Areas:

- Aquatics & safety (drop-in swim, swimming lessons, CPR/AED/first aid certification classes)
- Fitness (drop-in strength and cardio equipment, drop-in group exercise classes, personal fitness training)
- Intramural sports (tournament and league play)
- Outdoor program (Equipment Rental Center, trips and clinics, Challenge Course, drop-in climbing wall activities)
- Sport clubs (student-led teams from archery to wrestling)
- Special events (Turkey Triathlon, Mt. Ogden Hike, Dive-in Movies, Ogden Climbing Festival)

Degree Requirements

General Requirements All Degrees

1. Students must earn a cumulative GPA of at least 2.00 for all WSU work.
2. Graduation credit hours must be earned after students have matriculated. Credit hours earned prior to matriculation must be approved by the Graduation Office.
3. All financial obligations to the university must be cleared.

Requirements for Minors

The term "minor" refers to a collection of related courses that are a student's secondary field of academic concentration or specialization while completing a bachelor degree. Minors may be completed with any bachelor degree. Many majors require the completion of a minor; this is designated under the requirements for each major.

Requirements for Graduate Degrees

WSU offers twenty graduate degree programs, including nineteen master's degree programs and one doctoral degree program. Information concerning admission to and requirements for these programs is located in the sections of this catalog for the colleges indicated below.

Also refer to the WSU Graduate Programs policy at weber.edu/ppm/Policies/11-1_GraduatePrograms.html.

- Master of Arts in English (MA), Literature Emphasis Telitha E. Lindquist College of Arts & Humanities
- Master of Professional Communication (MPC) Telitha E. Lindquist College of Arts & Humanities
- Master of Accounting (MAcc) John B. Goddard School of Business & Economics
- Master of Business Administration (MBA) John B. Goddard School of Business & Economics
- Master of Taxation (MTax) John B. Goddard School of Business & Economics
- Masters of Education (MEd) Jerry and Vickie Moyes College of Education
- Master of Science in Athletic Training (MS) Jerry and Vickie Moyes College of Education
- Master of Health Administration (MHA) Dr. Ezekiel R. Dumke College of Health Professions
- Master of Science in Nursing (MSN) Dr. Ezekiel R. Dumke College of Health Professions
- Master of Science in Radiologic Sciences (MSRS) Dr. Ezekiel R. Dumke College of Health Professions
- Master of Science in Criminal Justice (MCJ) College of Social & Behavioral Sciences
- Master of Science in Computer Engineering (MSCE) College of Engineering, Applied Science & Technology
- Master of Science in Electrical Engineering (MSEE) College of Engineering, Applied Science & Technology
- Master of Social Work (MSW), College of Social & Behavioral Sciences
- Doctor of Nursing Practice (DNP) Dr. Ezekiel R. Dumke College of Health Professions

Requirements for Bachelor's Degrees

1. A minimum of 120 credit hours.
2. A minimum of 40 upper-division credit hours (courses numbered 3000 and above).
3. A minimum of 30 hours in residency (WSU courses).
4. At least a 2.0 (C) WSU grade point average (GPA).
5. Completion of WSU general education, diversity, major and minor requirements.
6. One of the following bachelor's degrees must be specified and the WSU general education, major and minor requirements completed. Some departments may specify completion of specific general education courses.
 - Bachelor of Arts (BA)

- Bachelor of Fine Arts (BFA)
This degree may be earned only by Visual Arts majors; see the Visual Arts Department section for the application process.
- Bachelor of Music (BM)
Bachelor of Music Education (BME)
These degrees may only be earned by Music majors; contact the School of Performing Arts for more information.
- Bachelor of Science (BS)
- Bachelor of Integrated Studies (BIS)
See the Interdisciplinary Studies (BS) section of this catalog for information about program requirements and the application process.

Language Requirement

The **Bachelor of Arts** degree includes a language requirement which may be met by one of the following options:

- **Option 1 - World Language**

One of the following

- Documentation of a proficiency level of "Intermediate Low" or better through an examination administered by the WSU Department of World Languages & Cultures or through an examination by a recognized testing agency.
- Completion of WSU world language course 2020 with a grade of "C" or higher, or comparable transfer credit.
- Completion of any upper-division WSU world language course with a grade of "C" or higher, or comparable transfer credit.
- Students for whom English is a second language may meet the BA world language requirement by:
 - verifying their proficiency in their (non-English) native language in cooperation with the Department of World Languages & Cultures
and
 - verifying their proficiency in English as a Second language by passing the ESL Special Examination.
- Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting Program at Salt Lake Community College. The signer must produce and maintain American Sign Language with "continuity and precision."
- Completion of WSU American Sign Language course 2020 with a grade of "C" or higher, or comparable transfer credit.
- Completion of twelve semester-hours of one world language.

Refer to the World Languages & Cultures section of this catalog for additional information on obtaining world language credit.

- **Option 2 - World Language with Language Arts**

Note: This option is only available when specified by the major course requirements.

- Completion of at least six semester-hours of one world language with further course work up to six semester-hours in the language arts beyond the composition requirement in the general education core. Language arts course work may include literature, creative writing, rhetoric, music composition, etc. This option will include a total of 12 credit hours. Students should refer to the major for specific requirements.

The **Bachelor of Music** degree and **Bachelor of Music Education** degree requirement is for two semesters of world language chosen from French, German, Italian, and Spanish. The requirement may be satisfied by taking two semesters of the same language, or one semester each of two different languages.

Requirements for Associate's Degrees

AA/AS Degree Requirements

If you are earning an Associate's Degree in General Studies, contact the Student Success Center (see weber.edu/ssc).

1. A minimum of 60 credit hours.
2. A minimum of 20 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. Completion of WSU general education requirements.

The **Associate of Arts** Degree must include a world language or ASL (American Sign Language) requirement which may be met by one of the following:

- a. Documentation of a proficiency level of "Novice High" or better through an examination administered by the WSU Department of World Languages & Cultures or through an examination by a recognized testing agency.
- b. Completion of WSU world language course 1020 with a grade of "C" or higher, or comparable transfer credit.
- c. Completion of any WSU world language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.
- d. Documentation of three years of the same language completed in high school with a minimum grade of "B".
- e. Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at SLCC. The signer must "demonstrate proficiency in temporal aspect, spatial agreement and in describing things around her/him and the deaf culture."
- f. Completion of WSU American Sign Language course 1020 with a grade of "C" or higher, or comparable transfer credit.

AAS Degree Requirements

1. A minimum of 60 credit hours.
2. A minimum of 20 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. General education requirements are specified by each program and include at least the following:
 - a. **ENGL 1010** or **ENGL 2010** and one other course in oral or written communication (6 credit hours);
 - b. **Math** or discipline-specific statistics as designated by specific programs (3 credit hours);
 - c. One course in each of the three following areas (9 credit hours): **Creative Arts & Humanities** (CA or HU), **Life & Physical Sciences** (LS or PS), and **Social Sciences** (SS).

Requirements for Institutional Certificates

Students are awarded an Institutional Certificate when they complete a program of study fulfilling a 10 credit hour minimum in residence at Weber State. Course work for institutional certificates is designed in a specific area for career and technical education purposes or for professional development. Students enrolled in Institutional Certificate programs are awarded diplomas indicating they have completed an Institutional Certificate in a defined area. Institutional Certificates are designated as "Institutional Certificate" under the Degrees/Programs listing (see Programs Sorted by Degree). Refer to the listings under the academic department for specific requirements. At the discretion of the department credits earned as part of an Institutional Certificate may be applied to a degree. Students enrolled in Institutional Certificate programs may need to meet additional credit hour requirements in order to qualify for financial aid and should check with the Financial Aid Office.

Requirements for Graduate Certificates

A Graduate Certificate is a program of study, less than a year in length, made up of graduate-level course work, with a prerequisite of at least a Bachelor's degree. Students enrolled in Graduate Certificate programs are awarded diplomas

indicating they have completed a Graduate Certificate in a defined area. Institutional Certificates are designated as "Grad Cert" under the Degrees/Programs listing. Refer to the listings under the academic department for specific requirements.

Requirements for Certifications

Students are awarded departmental certifications for completing a course or series of courses in a specified area. Certifications are designated as "Certification" under the Degrees/Programs listing (see Programs Sorted by Degree). Refer to the listings under the academic department for specific requirements. Students enrolled in certification programs may need to meet additional credit hour requirements in order to qualify for financial aid and should check with the Financial Aid Office.

Course Attributes

Attributes are short acronyms embedded into course titles that identify specific elements of content and/or pedagogy within a course. Content refers to a focus on agreed-upon outcomes. Pedagogy refers to a focus on use of specific types of instructional approaches or strategies.

The purpose of the attributes is to support the organizational mission by increasing:

- Advising transparency for students
 - Identify required course work such as General Education courses.
 - Identify specific content and pedagogy that may inform appropriate course selection.
- Institutional identification by making visible engagement in specific learning outcomes and high impact practices, particularly for underrepresented students.
- Facilitation of interdisciplinary study and University curriculum initiatives.
- Third-party recognition of University accomplishments, such as Carnegie Foundation recognition of the Center for Community Engaged Learning (CEL) attribute.
- Leverage for graduates in applying to graduate school or for employment, by defining attributes on the back of transcripts and/or offering certificates or recognitions for completing a given number of courses. The scope of an attribute may be limited to courses within a specific department or college, or inclusive of courses across the University. A single course may not hold more than three attributes.

High Impact Educational Experiences

High Impact Educational Experiences promote student learning through curricular and co-curricular activities that are intentionally designed to foster active and integrative student engagement by utilizing multiple impact strategies.

Attribute	Abbreviation	Description
Community Engaged Learning	CEL	Students will engage in meaningful community engagement that is connected to their specific course's academic objectives. CEL Website
Course Based Research	CRE	Students will engage in a significant research, scholarly, or creative works experience as a major component of this course. CRE Website
Internship	INT	Students will spend the bulk of their time engaging with industry professionals in experiential learning. INT Website
Sustainability	SUS	Students will concentrate on sustainability, including its social, economic, and environmental dimensions, or examine an issue or topic using sustainability as a lens. SUS Website
Global Learning	GLB	Students will develop global knowledge, global skills or global attitude as one of the learning outcomes/goals of the course. GLB Website

General Education

The purpose of the Weber State University General Education program is to provide students with foundational knowledge and intellectual tools that enhance and transcend their academic program of study. The big questions posed by General Education courses address significant issues about the world. General Education courses help students apply their learning and develop personal and social responsibility, which is demonstrated through signature assignments. More information is available in the Catalog's General Education Requirements and the General Education website.

Attribute	Abbreviation	Description
Composition	EN1	Students will develop practices of successful academic writing that will serve as a foundation for continued writing experiences across the curriculum. Students will focus on the writing process, writing for specific audiences, collaboration with peers, and on the interrelationship between reading and writing.
Composition	EN2	Students will focus on writing arguments, conducting library research, and documenting sources, practices which serve as a foundation for continued writing experiences across the curriculum. Students will further develop practices of successful academic writing introduced in EN1 courses, including the writing process, writing for specific audiences, and collaboration with peers.
American Institutions	AI	Students will demonstrate reasonable understanding of the history, principles, form of government, and economic system of the United States. Students will use primary documents, engage in a diversity of viewpoints, as well as interpret, communicate and integrate information about historical, political, and economic systems.
Quantitative Literacy	QL	Students will demonstrate quantitative reasoning skills beyond those found within required high school Mathematics courses and at an appropriate introductory university level. Students will focus on interpretation, representation, calculation, application/analysis, assumption, communication, and creation of quantitative evidence.
Cultural Competence	CC	Students will engage with human diversity/multiculturalism that is directly relevant to present-day society in a course that is comparative in nature (multi-cultural or cross-population), treats multiple aspects of diversity and/or culture (such as race, gender, age, class, etc.) in a single area of study, or is specific to a particular group of people or culture that is not present or is under-represented in the general social-economic-political framework of the United States.
Humanities	HU	Students will derive evidence from primary sources regarding the complexities and changes in human experience through analytical reading and critical thought; describe how human experience is shaped by social, cultural, linguistic, and/or historical circumstances; demonstrate attentiveness to linguistic, visual, and/or audio texts when communicating meaning/ or use appropriate verbal, perceptual, or imaginative skills when organizing meanings, developing a sense of self, and balancing potentially disparate values.
Creative Arts	CA	Students will discuss the scope and variety of the fine arts; recognize the aesthetic standards used in making critical judgments in various artistic fields; analyze and articulate understanding of a range of artistic processes; participate in an introductory performance, production or design experience in the arts; or demonstrate how the creative process is informed and limited by social and historical contexts.
Social Sciences	SS	Students will demonstrate understanding of social and behavioral science methods, concepts, and theories; formulate basic questions about social behavior and phenomena through interpretive and systematic analyses; develop empirically-derived and theoretically-informed explanations of human behavior in both its individual and collective dimensions; or demonstrate a critically-reasoned understanding of social patterns and individual variation congruent with and divergent from those patterns.
Physical Sciences	PS	Students will demonstrate understanding of science as a way of knowing about the physical world, demonstrate understanding of forces in the physical world, discuss the flow of matter and energy through systems; develop evidence-based arguments

		regarding the effect of human activity on the Earth; or describe how the Physical Sciences have shaped and been shaped by historical, ethical, and social contexts.
Life Sciences	LS	Students will demonstrate understanding of science as a way of knowing about the natural world; demonstrate basic understanding of how organisms live, grow, respond to their environment, and reproduce; discuss the organization and flow of matter and energy through biological systems; explain from evidence patterns of inheritance, structural unity, adaptation, and diversity of life on Earth; or describe how the Life Sciences have shaped and been shaped by historical, ethical, and social contexts.

College of Engineering, Applied Science & Technology

Dr. David L. Ferro, Dean

College Mission Statement: The primary goal of the College of Engineering, Applied Science & Technology (EAST) is to implement the mission of Weber State University and to prepare students for employment upon graduation by ensuring that they are productive, accountable, and responsible individuals able to function effectively in today's workplace. This goal is achieved by developing in students a cohesive, solid theoretical foundation bolstered by practical, hands-on experiences. The learning environment is further enhanced by extensive contact between faculty and students both in and out of the classroom. In addition, the liberal education component present in all programs equips students for lifelong learning in a changing world.

College Vision Statement: The vision of the College of Engineering, Applied Science & Technology is to be the leader in the state in technology and technology related programs through service to our students and the businesses and industries in our region. The mission of the college is to serve the State of Utah by

- Preparing students for employment upon graduation and ensuring that they are productive, accountable, and responsible individuals able to function effectively in today's workplace.
- Engaging in scholarly activities that expand the technological education our students receive and providing a service to business and industry.
- Utilizing the college's resources and faculty expertise to benefit students, business, industry, education, government, and society in general.

The Alan E. Hall Center for Sales Excellence

Director: Brock Adams

Telephone: 801-626-6912 or 801-626-6970

The Alan E. Hall Center for Sales Excellence was established in 2013 through a grant funded by the Alan and Jeanne Hall Foundation to promote and explore sales excellence by collaboratively engaging academic and industry sales experts. The Center for Sales Excellence is the nexus of a community of learners and benefactors in sales expertise. It develops sales curricula and instruction for private and public institutions, creates online resources for sales, partners with industry to augment industry-specific sales skill-sets, promotes the development of improved sales technology and theory-based techniques, and links sales students with experienced sales professionals and organizations.

The National Center for Automotive Science and Technology

Director: Joe Thomas

Location: TE 201 **Telephone:** 801-626-7836

The Center for Automotive Science and Technology was established in 1997 to assist in developing a better understanding of vehicle emissions among academic, regulatory, and private sector entities, both locally and nationally. To do this, the Center provides training to automotive technicians, instructors, regulatory officials, field engineers, and consumer groups as well as doing applied research on vehicular emissions. Additionally, the Center gathers and disseminates information about the impact of emissions, design for emission abatement, and efficiency of vehicles. The Center is a cooperative endeavor of the University, the Utah Department of Environmental Quality, and multiple private companies.

Wadman Center for Excellence in Construction and Building Sciences

Location: WSU Davis, DSC-310 **Telephone:** 801-395-3427 **Email:** parsoncmt@weber.edu

Established in 2018, the Wadman Center for Excellence in Construction and Building Sciences supports department degree programs in Construction Management, Interior Design, Facilities Management, and Building Design & Construction. The Center, working with regional educational institutions, industry advisory boards, staff, faculty and alumni develops and implements student recruiting and marketing strategies for the Center's programs. The Center promotes and manages recruiting and marketing activities in coordination with WSU's existing EAST support services. These activities include fostering employer and alumni relations, supporting student recruiting, and hosting related student/program events. In addition, the Center promotes, sponsors, and hosts student-related activities each school year in support of department programs and student events. The Center will collaborate and coordinate critical continuing education programs with the WSU's Office of Continuing Education, providing industry training for licensing, industry continuing educational credit, and workshops and seminars relevant to construction and building science industries.

Computer Literacy Center

Director: Abdulmalek Al-Gahmi

Administrative Specialist: Angie Christensen

Location: EH 311 **Telephone:** 801-626-7384 **Web:** weber.edu/clc

The Computer Literacy Center is a university-wide student learning center established to ensure all students achieve the computational literacy necessary to succeed in university coursework, academic research, and the workplace of the future. Entering and continuing WSU students possess widely varying levels of experience and knowledge about computer applications and operation. The CLC is designed to support students from all backgrounds to attain levels of computer competency appropriate to their specific academic needs. The CLC also offers instructional support on advanced topics to prepare students for upper division courses and research investigations, and represents a key resource to ensure student competency in computer applications specifically defined by faculty to support university courses instructed by those faculty.

The Concept Center

Director: Taylor Foss

Location: TE 219 **Telephone:** 801-626-6670 **Web:** weber.edu/east/concept

The Concept Center is an innovative engineering research and design think tank that brings skilled students, experienced faculty, and local companies together on engineering research, product development, and design. The Concept Center at Weber State University is here to provide the engineering expertise needed to help established businesses improve production processes, assist small tech-based startups with a potentially valuable patent, and assist individuals to move great ideas forward. The Concept Center participants get low cost, creative, and effective solutions; and WSU students and faculty gain valuable experience.

Center for Technology Outreach

Director: Alicia Christensen & Luke Fernandez

Location: M3 **Telephone:** 801-626-7552 **Web:** weber.edu/eastoutreach

The College of Engineering, Applied Science & Technology values our role in providing a variety of engaging, fun, and instructive outreach programs. Through the Center for Technology Outreach we strive to reach out to students and community members of all ages through our Speaker Series and K-12 Programs.

The Speaker Series features interesting and informative voices from the expansive field of technology experts in Utah and around the US. Participants are intellectually enriched by the insight, understanding, and knowledge of people such as internet expert Radia Perlman, author Matt Richtel, and computer programmer and activist Richard Stallman. The Speaker Series is open to the public and all are welcome.

Encouraging, supporting and providing Science, Technology, Engineering and Math (STEM) opportunities to K-12 students is an important and valued component of our service to the community. The scope of our K-12 Outreach is multi-layered.

- *Introduction and Awareness:* Short-term events to build interest and awareness in technology such as Parent/Daughter Engineering Day, Family Engineering Day, and STEM Fests & Expo's.
- *Engage and Experience:* Programs designed to engage students in more committed STEM activities and increase their confidence and interest in pursuing STEM related majors and careers. These include, FIRST Tech Challenge Robotics, FIRST LEGO League, SeaPerch Underwater Robotics, Engineering and Technology Summer Camps, and more.
- *Educate and Support:* In-depth academic enrichment, designed with the goal of impacting the long-term education and career pathways of students. WSU PREP and Project Lead the Way both highlight the college's long-term investment in K-12 education and Utah's youth.

Noorda Interdisciplinary Center

Director: David Ferro

Location: ET 110 **Telephone:** 801-626-6303

The Noorda Interdisciplinary Center (NIC) for Engineering, Science & Society, created with the generous donations from the Noorda Foundation, and an element of the original agreement with that foundation, endeavours to find collaborations between various disciplines in science, engineering, technology, humanities, and social sciences; to allow for creating interdisciplinary programs; to engage in projects with the community examining social impacts and creating positive changes through engineering and science; to expose students to the social contexts within which they work and create; and to reignite passion and exploration with the larger community for an enlightened understanding of techno-scientific issues. The NIC is oriented towards outreach and teaching about and solving engineering grand challenges, that could correspond to Noorda Foundation goals like energy efficiency, generation, and storage, among others, that putting engineering into important social, historical, and economic contexts, including, for examples, the need to welcome sustainability, under-represented populations into engineering, promoting democracy, and cybersecurity.

Construction and Building Sciences Department

Department Chair: Thomas Hales

Location: WSU Davis DSC, Room 310

Telephone Contact: Liz Hill 801-395-3427

Email: Parsoncmt@weber.edu

Associate Professors: Kristen Arnold, Jeremy Farner; **Assistant Professor:** Thomas Hales; **Instructors:** Ashley Badali, Russell Butler, John Julander, Cameron Lewis, Shauna Morris, Pieter van der Have, Tim Willard

Construction and Building Science is a field of knowledge that draws upon physics, chemistry, engineering, architecture, construction and the life sciences. Construction and Building Science attempts to work with models of buildings and structures *as a system*, applying empirical techniques to the effective solution of design and construction problems. More specifically, contemporary construction and building science is a broad discipline that is concerned with the full life cycle of buildings and engineering projects, including: policy (codes and standards), planning, design, construction, commissioning, facilities management, restoration and retrofit, preservation and conservation, and demolition (deconstruction) and recycling.

The Construction and Building Sciences Department offer degrees in Building Design and Construction, Interior Design, Construction Management and Facilities Management.

Parson Construction Management

The Parson Construction Management program teaches the processes, procedures and management techniques necessary to function as a "Professional Constructor". It is designed to prepare students for immediate professional level employment or further study by developing a cohesive, solid technical foundation bolstered by practical, hands-on experiences, at the same time providing the education necessary for lifelong learning in a changing world. The process of learning is emphasized, as well as accumulation of knowledge. The multi-disciplinary curriculum is composed of courses in the areas of construction science, construction practice, business, and management as well as general education. The program is accredited by the Weber State University Accreditation.

The Parson Construction Management curriculum is a "2+2" design facilitating articulation with programs in architecture, commercial building construction, design graphics, facilities, interior design, and other building design and construction-related degrees.

Facilities Management-Emphasis

The Construction Management Program-Facilities Management Emphasis prepares graduates to manage and maintain the physical facilities for companies. Facilities managers may be responsible for leading activities in all or parts of the following: managing operations and maintenance of buildings, physical plant and utility distribution systems, grounds upkeep, road and parking lot maintenance, snow removal; recycling and waste management, energy conservation, sustainability; long range facility planning, remodeling of existing facilities and planning, design and construction of new facilities and systems; code compliance.

Building Design & Construction

The Building Design & Construction (BDC) degree prepares graduates to enter careers in the design, construction, operation or maintenance of the built environment. Graduates are prepared for careers in the building design, construction, testing, operation, and maintenance of building systems; they have the abilities to produce and utilize basic construction documents and to perform basic analysis and design of system components. Baccalaureate degree graduates will have the technical and managerial skills necessary for careers in which they will analyze and design systems, specify project methods and materials, perform cost estimates and analyses, and manage technical activities in support of building projects.

Interior Design

The four-year Interior Design degree provides student's academic preparation for employment in the design-build industry. Students develop skills in professional practice and sales, Auto CAD, Revit Architecture, drafting, sketching, rendering, space planning, specification of materials, building codes, history and theory. Drafting and technical skills are essential to the program of study. Students graduating with the Interior Design Professional Sales degree meet guidelines for the practice of residential and commercial interior design, are academically prepared to sit for the CKD (Certified Kitchen Design) exam, gain membership in professional organizations, become licensed, and after two years of experience in the field sit for the NCIDQ (National Council for Interior Design Qualification) exam. The Interior Design bachelor of science degree is accredited by the Council for Interior Design Accreditation (CIDA) and endorsed by the National Kitchen and Bath Association (NKBA).

Associate of Applied Science

Construction Apprenticeship (AAS)

- **Program Prerequisite:** Journeyman's License, Certificate of Completion from the Office of Apprenticeship (OA), or Certificate of Completion from the post-secondary institution offering an OA certified program.
- **Grade Requirements:** The student must earn an overall GPA of 2.00 (C) or better in all courses and must also earn a "C" or better in each of the core and elective courses (**a grade of "C-" is not acceptable**).
- **Credit Hour Requirements:** Students must complete a minimum total of 63 credit hours, which includes a minimum of 20 credit hours of WSU residency (WSU courses), and exactly 40 transfer credit hours granted for having completed a certified Office of Apprenticeship program.
- **Program Code:** 8113AAS
- **CIPC:** 460000

Advisement

All Construction Apprenticeship students are required to meet with an academic advisor in the WSU College of Engineering, Applied Science & Technology (EAST) to establish a program contract plan, *before* entering the program.

Admission Requirements

Regular university admission requirements apply and proof of a completed program prerequisite must be provided. Students will receive 40 hours of transfer elective credit toward an AAS in Construction Apprenticeship degree upon completion of all WSU graduation requirements.

Program Learning Outcomes

Upon completion of this program, the student:

- Will be able to explain the essential concepts of Construction Management.
- Will be able to communicate effectively, in both spoken and written formats.
- Will be able to explain the basics of construction contracts, along with the application of ethical principles in construction.
- Will possess basic computer skills used in construction.
- Will be able to demonstrate skills required in construction jobsite management.

Major Course Requirements for the AAS in Construction Apprenticeship Degree

NOTE: *Students must complete a minimum of 20 credit hours of WSU residency (WSU courses).*

Core General Education Requirements

See current catalog for requirements.

Breadth General Education Requirements

See current catalog for requirements.

Course Requirements

- CM 1220 - Construction Contracts **Credits: (3)**
- CM 2210 - Construction Jobsite Management **Credits: (3)**

Construction Management (AAS)

- **Grade Requirements:** A grade of "C" or better in all major courses, business courses, and support courses is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation under Degree Requirements .
- **Credit Hour Requirements:** 66 total credit hours are required. A minimum of 20 hours in residence at WSU is required. A student must also complete a minimum of 18 hours of CM major courses at WSU to obtain an AAS degree.

- **Program Code:** 8085AAS
- **CIPC:** 522001

Advisement

All Construction Management Technology students are encouraged to meet with a faculty advisor at the beginning of their freshman and sophomore years for course and program advisement. Call the CMT program secretary at 801-395-3427 to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this program. (Also refer to the Department Advisor Referral List.)

General Education

Refer to the Degree Requirements for Associate of Applied Science requirements. The following courses required for the Construction Management Technology AAS degree will also fulfill general education requirements: MATH 1080 (Quantitative Literacy).

Program Learning Outcomes

- **Planning, Organizing, Directing, and Controlling:** Students will learn planning, organizing, directing and controlling skills to ethically apply concepts that allow construction projects to be brought in safely on time, using scheduling concepts, within budget, by applying learned estimating skills, and to the owner/client's desired quality standard. These will be done while identifying and managing the inherent project and industry risks to keep the project and all entities involved free of legal issues via among other things a solid understanding of contracts and how they apply throughout the process.
- **Collaboration, Communication, Relationship Building, and Leadership:** Students will learn leadership skills and participate in multi-disciplinary teams. They will be part of presentation teams and learn to formulate business plans. Emphasis will be placed on relationship building and team building as well as all forms of effective communication and the thorough/comprehensive documentation necessary to succeed in the construction industry and manage risk.
- **Delivery Methods and the Design Process:** Students will learn various design principles, including sustainable and life-cycle concepts for both vertical and horizontal construction. They will apply layout principles and create basic designs. An understanding of building codes will be applied and all in the context of planning and delivering a project from program review to schematic design and design development to the final construction design documents.
- **Materials, Methods, Terminologies, and Applications:** Students will be exposed to how various computer applications are used within the industry but with emphasis on the broader concepts and not promotion of specific software programs. The most common materials, methods, and terminologies will be learned along with equipment uses and selection. Students will learn basic engineering principles and how they apply to these materials and methods.

Major Course Requirements for AAS Degree

Construction Management Technology Courses Required (33 credit hours)

- CM 1100 - Construction Management Orientation **Credits: (1)**
- CM 1150 - Construction Graphics **Credits: (3)**

- CM 1310 - Materials & Methods **Credits: (4)**
- CM 2990 - Construction Management Seminar **Credits: (1)**
- CM 1220 - Construction Contracts **Credits: (3)**
- CM 1550 - Construction Safety **Credits: (2)**
- CM 2260 - MEP **Credits: (3)**
- CM 2360 - Commercial Design and Codes **Credits: (3)**
- CM 2640 - Quantity Survey **Credits: (3)**
- CM 2210 - Construction Jobsite Management **Credits: (3)**
- CM 2340 - Civil Design and Layout **Credits: (3)**
- ENGR 1040 - Computer Aided Design **Credits: (3)**
- ENGR 2230 - Introduction to Land Surveying **Credits: (3)**

Support Courses Required (8 credit hours)

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**

Interior Design (AAS)

- **Grade Requirements:** A grade of "B" or better in courses required for this major (a grade of "B-" is not acceptable) in addition to an overall GPA of 3.0 or higher.
- **Credit Hour Requirements:** A total of 66 credit hours is required.
- **Assessment Requirements:** Students may be required to complete certain assessment instruments as part of the requirements for receiving the associate's degree.
- **Program Code:** 8087AAS
- **CIPC:** 500408

Advisement

All Interior Design students are required to meet with a faculty advisor each semester for course and program advisement. Call 801- 395-3427 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no admission or application requirements for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following required support courses will also be applied toward general education requirements: COMM 2110 **(3)**, and ART 1010 **(3)** or ART 1030 **(3)**. Students also need to complete ENGL 1010 **(3)**, Quantitative Literacy (3), Life Science or Physical Science (3), Social Science (3), and Computer and Information Literacy (minimum 2). A minimum of 20 hours in residence is required.

Transfer Credits

No courses older than 10 years will be accepted for credit toward a degree in this program.

Program Learning Outcomes

- Design theory and evidence based design. Students are exposed to or will apply theory and research to design projects and problem solving.
- Professional Practice, Presentation and Sales Techniques. Students will be exposed to ethics in professional practice and will utilize professional verbal and visual selling techniques to present interior design concepts.
- Design Process, Construction Drawings and Technical Skills. Students apply the 5-phase design process and utilize technical skills in producing working construction drawings as part of course projects.
- Health, Safety and Welfare, Sustainability, Accessibility. Students will produce design solutions that are sustainable, protect health, safety and welfare, and provide accessibility to all occupants. Student work will feature specification of sustainable products and materials and concepts that adhere to standards, codes and ethical building practices.
- Culture, Diversity, Historical Precedent. Students will be exposed to or will illustrate diversity through various design concepts that address diverse familial groups and cultures as well as historical precedent.

Major Course Requirements for AAS Degree

Interior Design Courses Required (33 credit hours)

- ID 1010 CA - Introduction to Interior Design **Credits: (3)**
- ID 1020 - Presentation Techniques **Credits: (3)**
- ID 2010 SUS - Sustainability I: Textiles and Soft Materials **Credits: (3)**
- ID 2020 - Design Documentation, Visualization & Modeling, II **Credits: (3)**
- ID 2035 - Design Process/Space Planning **Credits: (3)**
- ID 2040 - Architectural Detailing **Credits: (3)**
- ID 2050 - Codes **Credits: (2)**
- ID 2860 - Practicum **Credits: (1-2)**
- ID 2990 - Interior Design Seminar **Credits: (1)**
- ID 2820 - Historical Interiors **Credits: (3)**
- ID 3020 - American and Modern Interiors **Credits: (3)**
- ID 2060 SUS - Sustainability II: Materials, Hard Surfaces, and Specifications **Credits: (3)**

Support Courses Required (12 credit hours)

- ART 1010 CA - Introduction to the Visual Arts **Credits: (3)** or
- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- PS 1143 - Principles of Selling and Persuasion **Credits: (3)**
- PS 3103 - Sales Personalities and Profiles **Credits: (3)**

Note:

Information Literacy as defined in this catalog is also required.

Pre-Architecture (AAS)

The Pre-Architecture program will allow students to prepare for job opportunities working for residential design firms and builders, commercial architectural design firms and contractors; trade contractors and engineering firms such as mechanical, electrical, and plumbing; civil engineering firms; and various other firms related to the construction of the built environment. It provides an alternative pathway for those interested in continuing their graduate education in various disciplines relating to the built environment.

- **Program Prerequisite:** None
- **Minor:** Not required
- **Grade Requirements:** A grade of "C" or better in courses used toward the major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** 63 total credits
- **Program Code:** 8089AAS
- **CIPC:** 040901

Advisement

All program students should meet with a faculty advisor at least annually for course and program advisement. The department secretary can also assist students. Call 801-395-3427 for more information or to schedule an appointment. (Also, refer to the Department Advisor Referral List.)

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (Student Access and Success, Services and Information).

General Education

Refer to Degree Requirements for AAS general education requirements.

Program Learning Outcomes

- Experience residential and commercial Building Design in all phases of the design-build process. (building planning, site design, structural design, thermal & moisture protection, Mechanical-Electrical-Plumbing system design, building science & sustainability, and domestic architecture)
- Apply the Design Process during concept development, construction document development, and contract completion using the latest 2D and 3D software. (plans, elevations, sections, details, renderings, specifications)

Required Pre-Architecture Courses (45 Credits)

- ARCH 1040 CA - Introduction to Architecture **Credits: (3)**
- CM 1100 - Construction Management Orientation **Credits: (1)**
- CM 1310 - Materials & Methods **Credits: (4)**
- ID 1050 - Design Documentation, Visualization & Modeling I **Credits: (3)**
- ID 2990 - Interior Design Seminar **Credits: (1)**
- ARCH 1350 - Architectural Design Communications I **Credits: (3)**
- CM 1150 - Construction Graphics **Credits: (3)**
- ID 1020 - Presentation Techniques **Credits: (3)**

- ARCH 2000 - Architectural Communications II **Credits: (3)**
- CM 2340 - Civil Design and Layout **Credits: (3)**
- ID 2035 - Design Process/Space Planning **Credits: (3)**
- CM 1220 - Construction Contracts **Credits: (3)**
- CM 2360 - Commercial Design and Codes **Credits: (3)**
- CM 2640 - Quantity Survey **Credits: (3)**
- ID 2050 - Codes **Credits: (2)**
- ID 2820 - Historical Interiors **Credits: (3)**

Institutional Certificate

Design-Build Essentials Certificate of Proficiency

The Design-Build Certificate will allow students to prepare for job opportunities working for residential design firms and builders, commercial architectural design firms and contractors; trade contractors and firms such as civil, mechanical, electrical, and plumbing; various other firms related to the design and construction of the built environment. It provides a pathway for those interested in continuing their undergraduate education in Architecture, Construction Management, Interior Design, Sustainability, and various disciplines relating to the built environment.

- **Admission Requirements:** None
- **Grade Requirements:** Students must receive a grade of C or better in all courses. (A C- will require the course to be retaken)
- **Credit Hour Requirements:** A total of 17 credit hours is required.
- **Program Code:** 8107CP
- **CIPC:** 150101

Advisement

Call 801-395-3427 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Program Learning Outcomes

- Experience residential and commercial Building Design in all phases of the design-build process. (building planning, site design, structural design, thermal & moisture protection, Mechanical-Electrical-Plumbing system design, building science & sustainability, and domestic architecture)
- Apply the Design Process during concept development, construction document development, and contract completion using the latest 2D and 3D software. (plans, elevations, sections, details, renderings, specifications)

Course Requirements for Design-Build Certificate

Most courses can be taken online and this certificate could be completed in one semester if taken in Fall or Spring.

- ARCH 1350 - Architectural Design Communications I **Credits: (3)**
- ARCH 1040 CA - Introduction to Architecture **Credits: (3)**
- CM 1150 - Construction Graphics **Credits: (3)**
- CM 1100 - Construction Management Orientation **Credits: (1)**

- CM 1310 - Materials & Methods **Credits: (4)**
- ID 1050 - Design Documentation, Visualization & Modeling I **Credits: (3)**

Bachelor of Science

Architectural Design (BS)

The Architectural Design (BS) program prepares graduates to enter careers in the architectural design of the built environment. Graduates are prepared for careers in the architectural design and have the abilities to produce and utilize basic construction documents and to perform basic analysis and design of system components. Baccalaureate degree graduates will have the technical and managerial skills necessary for careers in which they will analyze and design systems, specify project methods and materials, perform cost estimates and analyses, and manage technical activities in support of architectural design projects.

The Architectural Design program will allow students to prepare for job opportunities working for residential design firms and builders, commercial architectural design firms and contractors; trade contractors and engineering firms such as mechanical, electrical, and plumbing; civil engineering firms; and various other firms related to the construction of the built environment. It provides an alternative pathway for those interested in continuing their graduate education in various disciplines relating to the built environment.

- **Program Prerequisites:** None
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses used toward the major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** 121 total credits.
- **Program Code:** 8108BS
- **CIPC:** 150101

Advisement

All program students should meet with a faculty advisor at least annually for course and program advisement. The department secretary can also assist students. Call 801-395-3427 for more information or to schedule an appointment.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (Enrollment Services and Information).

General Education

Refer to General Education Requirements for the University Bachelor of Science requirements.

Program Learning Outcomes

- Experience residential and commercial Building Design in all phases of the design-build process. (building planning, site design, structural design, thermal & moisture protection, Mechanical-Electrical-Plumbing system design, building science & sustainability, and domestic architecture)

- Apply the Design Process during concept development, construction document development, and contract completion using the latest 2D and 3D software. (plans, elevations, sections, details, renderings, specifications)
- Identify best architectural business practices for project management, programming & due diligence, and contracts.
- Understand Business Administration running a design firm (ethics, licensure, insurance, employment law, accounting, marketing)

Pre-Architecture AAS Required Courses

- ARCH 1040 CA - Introduction to Architecture **Credits: (3)**
- CM 1100 - Construction Management Orientation **Credits: (1)**
- CM 1310 - Materials & Methods **Credits: (4)**
- ID 1050 - Design Documentation, Visualization & Modeling I **Credits: (3)**
- ID 2990 - Interior Design Seminar **Credits: (1)**
- ARCH 1350 - Architectural Design Communications I **Credits: (3)**
- CM 1150 - Construction Graphics **Credits: (3)**
- ID 1020 - Presentation Techniques **Credits: (3)**
- ARCH 2000 - Architectural Communications II **Credits: (3)**
- CM 2340 - Civil Design and Layout **Credits: (3)**
- ID 2035 - Design Process/Space Planning **Credits: (3)**
- CM 1220 - Construction Contracts **Credits: (3)**
- CM 2360 - Commercial Design and Codes **Credits: (3)**
- CM 2640 - Quantity Survey **Credits: (3)**
- ID 2050 - Codes **Credits: (2)**
- ID 2820 - Historical Interiors **Credits: (3)**

Architectural Design BS Required Courses

- ARCH 3100 - Residential Design Studio **Credits: (3)**
- ARCH 3500 - Architectural Rendering & Animation Studio **Credits: (3)**
- ID 3025 - Professional Practice **Credits: (3)**
- ID 3020 - American and Modern Interiors **Credits: (3)**
- ARCH 3000 SUS - Sustainable Building Design & Codes **Credits: (3)**
- ARCH 3200 - Commercial Design Studio **Credits: (3)**
- ARCH 3660 - Structure for Architects & Construction Managers **Credits: (3)**
- CM 3115 - Construction Cost Estimating **Credits: (3)**
- ARCH 4350 - BIM Management & Coordination **Credits: (3)**
- ARCH 4600 SUS - Senior Project **Credits: (3)** (taken 2 times for a total of 6 credits)
- BSAD 3200 - Legal Environment of Business **Credits: (3)**

Construction Management (BS)

- **Program Prerequisite:** Declare a Program of Study in Construction Management
- **Minor:** Not required, Business minor is recommended.

- **Grade Requirements:** A grade of "C" or better in all major courses, business courses, and support courses is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation under Degree Requirements.
- **Credit Hour Requirements:** A total of 121 credit hours is required for graduation. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
- **Assessment Requirements:** The students will be required to take Associate Constructor (AC) exam administered by American Institute of Constructors (AIC). A minimum score of 192 out of 300 (64 percent) is required for graduation. The exam may be retaken if needed.
- **Program Code:** 8085BS
- **CIPC:** 522001

Advisement

All Construction Management students are encouraged to meet with a faculty advisor at the beginning of their freshman, junior, and senior years for course and program advisement. Call the CMT program secretary at 801-395-3427 to schedule an appointment. (Also refer to the Department Advisor Referral List).

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Consult with an academic advisor for specific general education guidelines. The following courses required for the Construction Management BS degree will also fulfill general education requirements: MATH 1080 (Quantitative Literacy) and PHYS 2010 (Physical Science).

Major Course Requirements for BS Degree

Course requirements are subject to change. Check with program advisor for current requirements.

Construction Management Courses Required

- CM 1100 - Construction Management Orientation **Credits: (1)**
- CM 1150 - Construction Graphics **Credits: (3)**
- CM 1220 - Construction Contracts **Credits: (3)**
- CM 1310 - Materials & Methods **Credits: (4)**
- CM 1550 - Construction Safety **Credits: (2)**
- CM 2210 - Construction Jobsite Management **Credits: (3)**
- CM 2260 - MEP **Credits: (3)**
- CM 2340 - Civil Design and Layout **Credits: (3)**
- CM 2360 - Commercial Design and Codes **Credits: (3)**
- CM 2640 - Quantity Survey **Credits: (3)**
- CM 2990 - Construction Management Seminar **Credits: (1)**
- CM 3115 - Construction Cost Estimating **Credits: (3)**
- CM 3130 - Construction Planning & Scheduling **Credits: (3)**
- CM 3310 - Leadership in the Construction Industry **Credits: (2)**

- CM 3330 - Civil Materials and Testing **Credits: (3)**
- CM 3370 - Preconstruction Services **Credits: (3)**
- CM 4120 - Construction Accounting and Finance **Credits: (3)**
- CM 4150 - Construction Equipment and Methods **Credits: (3)**
- CM 4330 - Applied Structures **Credits: (4)**
- CM 4350 - Temporary Structures **Credits: (2)**
- CM 4510 - Design Charrette/CM Challenge **Credits: (1)**
- CM 4520 - ASC Student Competition **Credits: (1)**
- CM 4570 - Approaches to Construction Contracting **Credits: (2)**
- CM 4620 - Senior Project **Credits: (2)**
- CM 4899 - BS Graduation Assessment and Signoff **Credits: (0)**
- ENGR 1040 - Computer Aided Design **Credits: (3)**
- ENGR 2230 - Introduction to Land Surveying **Credits: (3)**

Support Courses Required

The following Support Courses are Required:

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)**
- ARCH 3000 SUS - Sustainable Building Design & Codes **Credits: (3)**

Interior Design (BS)

The four-year Interior Design degree provides student's academic preparation for employment in the design-build industry.

Students develop skills in professional practice and sales, Auto CAD, Revit Architecture, drafting, sketching, rendering, space planning, specification of materials, building codes, history and theory. Drafting and technical skills are essential to the program of study.

In addition to classroom projects, students participate in various community service projects, interdisciplinary design charrettes, attend field trips, and participate locally in professional organizations such as ASID, IIDA and NKBA.

Students graduating with the Interior Design degree meet guidelines for the practice of residential and commercial interior design, are academically prepared to sit for the IDFX exam, gain membership in professional organizations, become licensed, and after two years of experience in the field sit for the NCIDQ (National Council for Interior Design Qualification) exam. The Interior Design is **accredited by the Council for Interior Design Accreditation (CIDA)** and is endorsed by the National Kitchen and Bath Association (NKBA).

Because the practice of interior design is complex, technical, and demanding, this program provides students with the technical skills, design and sales skills necessary to compete in the profession.

- **Program Prerequisite:** None.
- **Minor:** Not required.

- **Grade Requirements:** A grade of "B" or better in courses required for this major (a grade of "B-" is not acceptable) in addition to an overall GPA of 3.0 or higher.
- **Credit Hour Requirements:** A total of 124 hours is required for this program for graduation.
- **Program Code:** 8087BS
- **CIPC:** 500408

Transfer students and students coming into the program with an AAS, AA, or AS will take at least six semesters to complete the program.

Advisement

All Interior Design students are required to meet with a faculty advisor each semester for course and program advisement. Contact the department administrative assistant at 801.395.3427 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. MATH 1030 (3) is recommended to fulfill the Quantitative Literacy requirement. The following required support courses will also be applied toward general education requirements: ART 1010 (3) or ART 1030 (3) and COMM 2110 (3).

Transfer Credits:

No courses older than 10 years will be accepted for credit toward a degree in this program.

Program Learning Outcomes

- Design theory and evidence based design. Students are exposed to or will apply theory and research to design projects and problem solving.
- Professional Practice, Presentation and Sales Techniques. Students will be exposed to ethics in professional practice and will utilize professional verbal and visual selling techniques to present interior design concepts.
- Design Process, Construction Drawings and Technical Skills. Students apply the 5-phase design process and utilize technical skills in producing working construction drawings as part of course projects.
- Health, Safety and Welfare, Sustainability, Accessibility. Students will produce design solutions that are sustainable, protect health, safety and welfare, and provide accessibility to all occupants. Student work will feature specification of sustainable products and materials and concepts that adhere to standards, codes and ethical building practices.
- Culture, Diversity, Historical Precedent. Students will be exposed to or will illustrate diversity through various design concepts that address diverse familial groups and cultures as well as historical precedent.

Major Course Requirements for BS Degree

Interior Design Courses Required (65-66 credit hours)

- ID 1010 CA - Introduction to Interior Design **Credits: (3)**

- ID 1020 - Presentation Techniques **Credits: (3)**
- ID 1050 - Design Documentation, Visualization & Modeling I **Credits: (3)**
- ID 2010 SUS - Sustainability I: Textiles and Soft Materials **Credits: (3)**
- ID 2020 - Design Documentation, Visualization & Modeling, II **Credits: (3)**
- ID 2035 - Design Process/Space Planning **Credits: (3)**
- ID 2040 - Architectural Detailing **Credits: (3)**
- ID 2050 - Codes **Credits: (2)**
- ID 2860 - Practicum **Credits: (1-2)**
- ID 2990 - Interior Design Seminar **Credits: (1)**
- ID 3000 - Lighting Design **Credits: (3)**
- ID 2820 - Historical Interiors **Credits: (3)**
- ID 3020 - American and Modern Interiors **Credits: (3)**
- ID 3025 - Professional Practice **Credits: (3)**
- ID 2060 SUS - Sustainability II: Materials, Hard Surfaces, and Specifications **Credits: (3)**
- ID 3040 - Design Rendering **Credits: (2)**
- ID 3045 - Residential Design **Credits: (3)**
- ID 3060 - Kitchen & Bath **Credits: (3)**
- ID 2080 - Design Documentation, Visualization & Modeling, III **Credits: (3)**
- ID 4020 - Commercial Design **Credits: (3)**
- ID 4025 - Senior Program Development **Credits: (2)**
- ID 4030 - Senior Project **Credits: (3)**
- ID 4040 - Portfolio Design **Credits: (2)**
- ID 4830 - Directed Readings **Credits: (1-3)** 1 credit hour required
- ID 4860 INT - Internship for Interior Design **Credits: (3)**

Support Courses Required (26 credit hours)

- ART 1010 CA - Introduction to the Visual Arts **Credits: (3)** or
- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- ID 4010 - Commercial Studio **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- PS 1143 - Principles of Selling and Persuasion **Credits: (3)**
- PS 3103 - Sales Personalities and Profiles **Credits: (3)**
- PS 3203 - Customer Service Techniques **Credits: (3)**
- PS 3363 - Contract and Sales Negotiation Techniques **Credits: (3)**
- PS 3702 - Developing Team Leadership Skills **Credits: (2)**
- PS 3903 - Sales Presentation Strategies and Techniques **Credits: (3)**

Note:

Students are required to attend and participate in activities outside of the classroom and at least one workshop per year, for which a fee may be attached.

Emphasis Option for Bachelor of Interdisciplinary Studies

Architectural Design Emphasis (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Architectural Design Emphasis will allow students to prepare for job opportunities working for residential design firms and builders, commercial architectural design firms and contractors; trade contractors and engineering firms such as mechanical, electrical, and plumbing; civil engineering firms; and various other firms related to the construction of the built environment. It provides an alternative pathway for those interested in continuing their graduate education in various disciplines relating to the built environment.

- **Program Prerequisite:** Enroll in the BIS Program with an interview with the BIS Program Coordinator. Call 801-626-7713 to talk with the BIS secretary and schedule an appointment.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements:** 18 total BDC/ARCH credits.
- **Program Code:** 8106
- **CIPC:** 150101

Advisement

All program students should meet with a faculty advisor at least annually for course and program advisement. The department secretary can also assist students. Call 801-395-3427 for more information or to schedule an appointment. (Also, refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (Student Access and Success, Services and Information).

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements

Select 18 credits from the list below:

- ARCH 1040 CA - Introduction to Architecture **Credits: (3)**
- ARCH 1350 - Architectural Design Communications I **Credits: (3)**

- ARCH 2000 - Architectural Communications II **Credits: (3)**
- ARCH 2830 - Directed Studies **Credits: (3)**
- ARCH 3000 SUS - Sustainable Building Design & Codes **Credits: (3)**
- ARCH 3100 - Residential Design Studio **Credits: (3)**
- ARCH 3200 - Commercial Design Studio **Credits: (3)**
- ARCH 3500 - Architectural Rendering & Animation Studio **Credits: (3)**
- ARCH 3660 - Structure for Architects & Construction Managers **Credits: (3)**
- ARCH 4350 - BIM Management & Coordination **Credits: (3)**
- ARCH 4600 SUS - Senior Project **Credits: (3)**
- ARCH 4830 - Directed Studies **Credits: (1-3)**
- ARCH 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Interior Design Emphasis (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Interior Design Program participates in the BIS degree program. For an Interior Design emphasis, students will take a minimum of 24 credit hours as approved by the Interior Design BIS advisor.

- Program Prerequisite: Enroll in the BIS Program with an interview with the BIS Program Coordinator. Call 801-626-7713 to talk with the BIS secretary and schedule an appointment.
- Grade Requirements: Receive a minimum grade of "B" in each IDT course and also receive a minimum grade of "C" in each additional course taken for the three emphases in addition to a minimum cumulative GPA of 2.5. Classes listed on the BIS contract must be taken for a letter grade; special exams, CLEP or credit/no credit are not allowed for contract classes.
- **Program Code:** 8087
- **CIPC:** 521804

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Courses Required for the Interior Design BIS Emphasis

Required Courses (19 credit hours)

Note: The following are required courses for the BIS degree. No substitutions are allowed.

- ID 1010 CA - Introduction to Interior Design **Credits: (3)**
- ID 2020 - Design Documentation, Visualization & Modeling, II **Credits: (3)**
- ID 2035 - Design Process/Space Planning **Credits: (3)**

- ID 2050 - Codes **Credits: (2)**
- ID 3025 - Professional Practice **Credits: (3)**
- ID 2060 SUS - Sustainability II: Materials, Hard Surfaces, and Specifications **Credits: (3)**
- ID 4040 - Portfolio Design **Credits: (2)**

Elective Courses

Students should choose 5 hours from the following courses to compliment the required courses listed above.

- ID 1020 - Presentation Techniques **Credits: (3)**
- ID 2010 SUS - Sustainability I: Textiles and Soft Materials **Credits: (3)**
- ID 2040 - Architectural Detailing **Credits: (3)**
- ID 2860 - Practicum **Credits: (1-2)**
- ID 2990 - Interior Design Seminar **Credits: (1)**
- ID 3000 - Lighting Design **Credits: (3)**
- ID 2820 - Historical Interiors **Credits: (3)**
- ID 3060 - Kitchen & Bath **Credits: (3)**

Minor

Architectural Design Minor

The Architectural Design minor will allow students to prepare for job opportunities working for residential design firms and builders, commercial architectural design firms and contractors; trade contractors and engineering firms such as mechanical, electrical, and plumbing; civil engineering firms; and various other firms related to the construction of the built environment. It provides an alternative pathway for those interested in continuing their graduate education in various disciplines relating to the built environment.

Grade Requirements: A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).

Credit Hour Requirements: A minimum of 18 credit hours of BDC/ARCH courses.

- **Program Code:** 8106
- **CIPC:** 150101

This program offers students who major in another discipline the option to obtain a minor in Architectural Design.

Required Courses (18 credit hours)

Select the courses that will best augment your Architectural Design skills.

- ARCH 1040 CA - Introduction to Architecture **Credits: (3)**
- ARCH 1350 - Architectural Design Communications I **Credits: (3)**
- ARCH 2000 - Architectural Communications II **Credits: (3)**
- ARCH 3000 SUS - Sustainable Building Design & Codes **Credits: (3)**
- ARCH 3100 - Residential Design Studio **Credits: (3)**
- ARCH 3200 - Commercial Design Studio **Credits: (3)**
- ARCH 3500 - Architectural Rendering & Animation Studio **Credits: (3)**
- ARCH 3660 - Structure for Architects & Construction Managers **Credits: (3)**
- ARCH 4350 - BIM Management & Coordination **Credits: (3)**

- ARCH 4600 SUS - Senior Project **Credits: (3)** (can be taken twice for 6 credits total)
- ARCH 4830 - Directed Studies **Credits: (1-3)**

Construction Management Minor

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.0 or better in all CM courses.
- **Credit Hour Requirements:** 18 total credit hours are required as listed below. All prerequisites must be satisfied with courses taken.
- **Program Code:** 8085
- **CIPC:** 522001

Advisement

It is recommended to contact your academic advisor for advice and help to properly add this minor to your degree and to avoid misadvisement.

Course Requirements for Minor

Construction Management Courses Required (9 Credit Hours)

- CM 1150 - Construction Graphics **Credits: (3)**
- CM 1310 - Materials & Methods **Credits: (4)**
- CM 2640 - Quantity Survey **Credits: (3)**

Construction Management Courses Elective - (9 Credit Hours)

Complete 9 additional credit hours of any offered Construction Management (CM) courses with at least 6 of those being upper division (3000+). All prerequisites must be satisfied with courses taken.

Interior Design Minor

- **Grade Requirements:** A grade of "B" or better in all courses used toward the minor.
- **Credit Hour Requirements:** A total of 21 credit hours required.
- **Program Code:** 8087
- **CIPC:** 500408

This program offers students who major in another field the option to obtain a minor in Interior Design.

No courses older than 10 year will be accepted for credit towards the minor.

Course Requirements for Interior Design Minor

Courses Required (minimum of 21 credit hours)

- ID 1010 CA - Introduction to Interior Design **Credits: (3)**
- ID 2020 - Design Documentation, Visualization & Modeling, II **Credits: (3)**

- ID 2035 - Design Process/Space Planning **Credits: (3)**
- ID 2040 - Architectural Detailing **Credits: (3)**
- ID 3025 - Professional Practice **Credits: (3)**
- ID 2060 SUS - Sustainability II: Materials, Hard Surfaces, and Specifications **Credits: (3)**
- ID 4020 - Commercial Design **Credits: (3)**

Department of Automotive Technology

Department Chair: Jessica Slater

Location: WSU Davis, Computer & Automotive Engineering Building

Administrative Assistant: Christy Call, 801-395-3226

Advisor: Jessica Slater, jessicarees@weber.edu or jessicaslater.youcanbook.me

Outreach Coordinator: Jennifer Vesper, jennifervesper@weber.edu

Website: weber.edu/automotive

Professors: John Kelly; **Assistant Professor:** Brandon Stevenson, Caid Kroeger; **Instructors:** Scott Holland, Jessica Slater

The Automotive Technology Department curriculum is a "2 + 2" design leading to both an Associate of Applied Science degree and a Bachelor of Science degree. Stackable Certificates of Proficiency are available at the AAS and BS degree levels.

Automotive and Vehicle Engineering Technology

With an Automotive and Vehicle Engineering Technology degree emphasizing Electrical Engineering Technology, students develop expertise in vehicle electronics, electrical systems, and emerging technologies like electric and autonomous vehicles. This specialized degree blends automotive engineering principles with advanced electrical and electronic systems.

Automotive Service Technology

With an Automotive Service Technology AAS degree, students gain a broad range of skills and knowledge essential for diagnosing, repairing, and maintaining modern vehicles. Lab and classroom courses align with the ASE Education Foundation's Master Automotive Service Technician (MAST) standards.

The ASE Education Foundation accredits our AAS degree. Upon completion of the program and the required work experience as set by ASE, students may sit in on A1-A8 or T1-T8, G1, xEV Level 1 and 2, and L3 certifications provided by ASE.

The Automotive Technology BS degree prepares graduates for employment in various automotive-related industries such as field service operations, fleet management, and technical support. In addition to specific technical training, supporting courses foster the interpersonal, verbal, and written communication skills needed to advance in the automotive service industry. An AA/AS/AAS in automotive technology is a prerequisite to the BS degree.

Student Organization

The Auto Tech Club encompasses the Weber Racing team. Each year, Weber Racing designs, builds, races, and mock-sells a mini Baja vehicle. They compete in Baja SAE races across the country. All majors are welcome to join.

Associate of Applied Science

Automotive and Vehicle Engineering Technology (AAS)

Automotive and Vehicle Engineering Technology studies the diagnosis, service, and repair of electrical automotive and transportation systems. In addition to specific technical training, supporting courses foster the interpersonal, verbal, and written communication skills needed to advance in the automotive service industry.

- **Grade Requirements:** Minimum grade of "C " in courses required for this major in addition to an overall GPA of 2.00 or higher.
- **Credit Hour Requirements:** A total of 68 credit hours are required.
- **Assessment Requirements:** Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see the program advisor for specific information regarding the assessment.
- **Program Code:** 8117AAS
- **CIPC:** 150803

Advisement

Advisor: Jessica Slater; Schedule an Appointment

Automotive students should meet each semester with the program advisor.

Use Grad MAPs to plan your degree

Admission Requirements

Submit the online application to the program along with a copy of the applicants driving record. Submitting an application does not guarantee admission to the program. The advisor will contact the student if they qualify for admittance into the program.

General Education

1. A minimum of 63 credit hours.
2. A minimum of 20 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. General education requirements
 - ENGL 1010 or ENGL 2010 and one other course in oral or written communication (6 credit hours);
 - Math (3 credit hours);
 - Social Sciences (SS) (3 credit hours)

Program Learning Outcomes

- Students will demonstrate the proper use of safety equipment when performing any type of vehicle repair
- Students will locate and utilize vehicle electronic service information for all repair procedures
- Students will explain the theory of operation of vehicle systems and components
- Students will demonstrate the proper use of special service tools and hand tools when performing any type of vehicle repair
- Students will apply a proper diagnostic approach when analyzing a vehicle system fault
- Students will apply a proper repair procedure when repairing a vehicle fault
- Students will demonstrate a proper repair verification procedure when a vehicle has been prepared

Major Course Requirements for AAS Degree

Support Courses Required for All Tracks (13 credit hours)

- CHEM 1010 PS - Introductory Chemistry **Credits: (3)** or
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)**

Track Requirements

Select one of the following tracks (see the faculty advisor for suggested course sequence):

Automotive and Vehicle Engineering Technology Track

Required Automotive Service Courses (28 credit hours)

- AUSV 1000 - Introduction to Automotive Service **Credits: (2)**
- AUSV 1010 - Automotive Technology Orientation **Credits: (1)**
- AUSV 1021 - Automotive Braking Systems 1 **Credits: (2)**
- AUSV 1022 - Steering and Suspension Systems 1 **Credits: (2)**
- AUSV 1120 - Automotive Engines 1 **Credits: (2)**
- AUSV 1320 - Automotive Electronics 1 **Credits: (2)**
- AUSV 1323 - Automotive Electronics 2 **Credits: (2)**
- AUSV 1325 - Electrical Fundamentals 3 **Credits: (3)**
- AUSV 1600 - EV1 - Intro to Hybrid & EV Safety **Credits: (2)**
- AUSV 2100 - Vehicle Communications **Credits: (3)**
- AUSV 2120 - Automotive Electrical and Body Control Systems **Credits: (3)**
- AUSV 2520 - Automatic Transmissions **Credits: (4)**

Required Electrical Engineering Technology Courses (18 credit hours)

- AVET 2110 - Semiconductor Circuits **Credits: (4)**

- AVET 2120 - Power and Motors **Credits: (4)**
- AVET 2140 - Communications Systems **Credits: (4)**
- AVET 2160 - Troubleshooting **Credits: (3)**
- AVET 2170 - Industrial Controls **Credits: (3)**

Automotive Service Technology (AAS)

Automotive Service Technology studies the diagnosis, service, and repair of passenger vehicles and light trucks. In addition to specific technical training, supporting courses foster the interpersonal, verbal, and written communication skills needed to advance in the automotive service industry.

- **Grade Requirements:** Minimum grade of "C " in courses required for this major in addition to an overall GPA of 2.00 or higher.
- **Credit Hour Requirements:** A total of 68 credit hours are required.
- **Assessment Requirements:** Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see the program advisor for specific information regarding the assessment.
- **Program Code:** 8097AAS with one of the following cohorts: (ATEPS or ATEPF for Independent Shop ATEP) or HDTRUCK (Heavy Duty Truck)
- **CIPC:** 470600

Advisement

Advisor: Jessica Slater; Schedule an Appointment

Automotive students should meet each semester with the program advisor.

Admission Requirements

Submit the online application to the program along with a copy of the applicants driving record. Submitting an application does not guarantee admission to the program. The advisor will contact the student if they qualify for admittance into the program.

General Education

1. A minimum of 63 credit hours.
2. A minimum of 20 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. General education requirements
 - **ENGL 1010** or **ENGL 2010** and one other course in oral or written communication (6 credit hours);
 - **Math** (3 credit hours);
 - **Creative Arts & Humanities** (CA or HU) (3 credit hours);
 - **Social Sciences** (SS) (3 credit hours)

Program Learning Outcomes

- Students will demonstrate the proper use of safety equipment when performing any type of vehicle repair
- Students will locate and utilize vehicle electronic service information for all repair procedures
- Students will explain the theory of operation of vehicle systems and components

- Students will demonstrate the proper use of special service tools and hand tools when performing any type of vehicle repair
- Students will apply a proper diagnostic approach when analyzing a vehicle system fault
- Students will apply a proper repair procedure when repairing a vehicle fault
- Students will demonstrate a proper repair verification procedure when a vehicle has been prepared

Major Course Requirements for AAS Degree

Support Courses Required for All Tracks (9 credit hours)

- CHEM 1010 PS - Introductory Chemistry **Credits: (3)**
OR
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- WEB 1700 - Introduction to Computer Applications **Credits: (3)**

Track Requirements

Select one of the following tracks (see the faculty advisor for a suggested course sequence):

Independent Shop ATEP Track

Automotive Service Courses Required (44 credit hours)

- AUSV 1000 - Introduction to Automotive Service **Credits: (2)**
- AUSV 1010 - Automotive Technology Orientation **Credits: (1)**
- AUSV 1021 - Automotive Braking Systems 1 **Credits: (2)**
- AUSV 1023 - Automotive Braking Systems 2 **Credits: (2)**
- AUSV 1022 - Steering and Suspension Systems 1 **Credits: (2)**
- AUSV 1025 - Steering and Suspension Systems 2 **Credits: (2)**
- AUSV 1220 - Automotive Manual Drivetrain Systems **Credits: (3)**
- AUSV 1320 - Automotive Electronics 1 **Credits: (2)**
- AUSV 1323 - Automotive Electronics 2 **Credits: (2)**
- AUSV 1325 - Electrical Fundamentals 3 **Credits: (3)**
- AUSV 1600 - EV1 - Intro to Hybrid & EV Safety **Credits: (2)**
- AUSV 2520 - Automatic Transmissions **Credits: (4)**
- AUSV 1120 - Automotive Engines 1 **Credits: (2)**
- AUSV 2100 - Vehicle Communications **Credits: (3)**
- AUSV 2020 - Engine Performance **Credits: (4)**
- AUSV 2120 - Automotive Electrical and Body Control Systems **Credits: (3)**
- AUSV 2600 - EV2 - Intro to Hybrid & EV Systems **Credits: (2)**
- AUSV 2860 INT - Automotive Shop Practice **Credits: (3-8)**

Heavy Duty Truck Track

Automotive Service Courses Required (41 credit hours)

- AUSV 1000 - Introduction to Automotive Service **Credits: (2)**
- AUSV 1010 - Automotive Technology Orientation **Credits: (1)**
- AUSV 1325 - Electrical Fundamentals 3 **Credits: (3)**
- AUSV 2120 - Automotive Electrical and Body Control Systems **Credits: (3)**
- AUSV 1071 - H D Truck Brakes **Credits: (4)**
- AUSV 1072 - H D Truck Steering & Suspension **Credits: (4)**
- AUSV 1170 - H D Truck Engines 1 **Credits: (4)**
- AUSV 1270 - H D Truck Drivetrain **Credits: (4)**
- AUSV 2170 - H D Truck Electrical 1 **Credits: (4)**
- AUSV 2270 - H D Truck Engines II **Credits: (4)**
- AUSV 2370 - H D Truck Preventative Maintenance **Credits: (1)**
- AUSV 2860 INT - Automotive Shop Practice **Credits: (3-8)**
- AUSV 2171 - H D Truck Electrical II **Credits: (4)**

Institutional Certificate

Advanced Hybrid and Electric Vehicle Certificate of Proficiency

The Certificate of Proficiency provides students with advanced hybrid and electric vehicle training to meet industry demands.

- **Grade Requirements:** Students must receive a grade of C or better in every course.
- **Credit Hour Requirements:** 16 credit hours.
- **Program Code:** 8101CP
- **CIPC:** 150803

Advisement

Advisor: Jessica Slater, Schedule an Appointment.

Automotive students should meet each semester with the program advisor.

Admission Requirements

Submit the online application to the program along with a copy of the applicants driving record. Submitting an application does not guarantee admission to the program. The advisor will contact the student if they qualify for admittance into the program.

Learning Outcomes

- Students will demonstrate the proper use of high-voltage safety equipment when performing any hybrid or electric vehicle repair.
- Students will locate and utilize vehicle electronic service information for all repair procedures.
- Students will explain the theory of operation of hybrid and electric vehicle systems and components.

- Students demonstrate the proper use of special high-voltage service tools and hand tools when performing any hybrid or electric vehicle repair.
- Students will apply a proper diagnostic approach when analyzing a hybrid or electric vehicle system fault.
- Students will apply a proper repair procedure when repairing a hybrid or electric vehicle fault.
- Students will demonstrate a proper repair verification procedure when a hybrid or electric vehicle has been repaired.
- Students will be able to present and explain informations summarizing hybrid and electric vehicle systems.

Automotive Technology Courses Required (16 credit hours)

- ATTC 3000 - Introduction to Automotive Technology **Credits: (1)**
- ATTC 3260 - Advanced Electrical Systems **Credits: (3)**
- ATTC 3760 - Advanced Automotive Technologies **Credits: (3)**
- ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety **Credits: (3)**
- ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems **Credits: (3)**
- ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance **Credits: (3)**

Automotive Service Technology Certificate of Proficiency

The Certificate of Proficiency prepares students for entry-level automotive technician positions in dealerships or at independent shops.

- **Grade Requirements:** Students must receive a grade of C- or better in every course.
- **Credit Hour Requirements:** A total of 15 credit hours is required.
- **Program Code:** 8064CP
- **CIPC:** 150803

Advisement

- AUSV 2120 - Automotive Electrical and Body Control Systems **Credits: (3)**

Bachelor of Science

Automotive and Vehicle Engineering Technology (BS)

Transportation Engineering Technology studies the diagnosis, service, and repair of electrical automotive and transportation systems. In addition to specific technical training, supporting courses foster the interpersonal, verbal, and written communication skills needed to advance in the automotive service industry.

- **Program Prerequisites:** ENGL 1010 or placement into ENGL 2010; MATH 1050 plus 1060 or 1080, or placement into MATH 1210.
- **Minor:** Not required.
- **Grade Requirements:** Minimum grade of "C" in courses required for this major in addition to an overall GPA of 2.00 or higher.
- **Credit Hour Requirements:** A minimum of 125 to 126 credit hours is required depending upon the emphasis selected and what courses were taken as part of the associate degree. A minimum of 40 upper-division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 8117BS
- **CIPC:** 150803

Advisement

Advisor: Jessica Slater; Schedule an Appointment

Automotive students should meet each semester with the program advisor.

Use Grad MAPs to plan your degree

Admission Requirements

Submit the online application to the program along with a copy of the applicants driving record. Submitting an application does not guarantee admission to the program. The advisor will contact the student if they qualify for admittance into the program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. General education courses not taken as part of the associate degree may be taken during the bachelor's degree.

Program Learning Outcomes

- Students will demonstrate the proper use of safety equipment when performing any type of vehicle repair
- Students will locate and utilize vehicle electronic service information for all repair procedures
- Students will explain the theory of operation of vehicle systems and components
- Students will demonstrate the proper use of special service tools and hand tools when performing any type of vehicle repair
- Students will apply a proper diagnostic approach when analyzing a vehicle system fault
- Students will apply a proper repair procedure when repairing a vehicle fault
- Students will demonstrate a proper repair verification procedure when a vehicle has been prepared

Major Course Requirements for BS Degree

Required Automotive Technology Courses (24 credit hours)

- ATTC 3000 - Introduction to Automotive Technology **Credits: (1)**
- ATTC 3760 - Advanced Automotive Technologies **Credits: (3)**
- ATTC 3260 - Advanced Electrical Systems **Credits: (3)**
- ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety **Credits: (3)**
- ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems **Credits: (3)**
- ATTC 4540 - Automated Safety and Convenience Systems **Credits: (3)**
- ATTC 4710 - Capstone Research Methods **Credits: (2)**
- ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance **Credits: (3)**
- ATTC 4720 - Capstone Research and Development **Credits: (3)**

Required Electrical Engineering Technology Courses (12 credit hours)

- AVET 3010 - Circuit Analysis **Credits: (4)**
- AVET 4030 - Controls & Systems **Credits: (4)**
- AVET 4040 - Signals and Systems **Credits: (4)**

Required Support Courses

- ENGL 3100 - Professional and Technical Writing **Credits: (3)** Or
- PS 3250 - Business Communication **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**

Automotive Technology (BS)

The Automotive Technology program prepares graduates for employment in various automotive-related industries such as field service operations, fleet management, and technical support. In addition to specific technical training, supporting courses foster the interpersonal, verbal, and written communication skills needed to advance in the automotive industry.

- **Program Prerequisite:** The Automotive Technology bachelor's degree is a "2+2" program. An AA/AS/AAS in automotive technology is a prerequisite to the BS program.
- **Minor:** Not required.
- **Grade Requirements:** Minimum grade of "C " in courses required for this major in addition to an overall GPA of 2.00 or higher.
- **Credit Hour Requirements:** A minimum of 125 to 126 credit hours is required depending upon the emphasis selected and what courses were taken as part of the associate degree. A minimum of 40 upper-division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 8100BS
- **CIPC:** 150803

Advisement

Advisor: Jessica Slater; Schedule an Appointment.

Automotive students should meet each semester with the program advisor.

Use Grad MAPs to plan your degree

Admission Requirements

Submit the online application to the program along with a copy of the applicants driving record. Submitting an application does not guarantee admission to the program. The advisor will contact the student if they qualify for admittance into the program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. General education courses not taken as part of the associate degree may be taken during the bachelor's degree.

Program Learning Outcomes

- Students will explain the theory of operation of vehicle systems and components.
- Students will demonstrate the proper use of special service tools and hand tools when performing any type of vehicle repair.
- Students will apply a proper diagnostic approach when analyzing a vehicle system fault.
- Students will apply a proper repair procedures when repairing a vehicle fault.
- Students will demonstrate a proper repair verification procedure when a vehicle has been prepared.
- Students will be able to present and explain information summarizing advanced vehicle systems.

Major Course Requirements for BS Degree

Automotive Technology Courses Required (15credit hours)

- ATTC 3000 - Introduction to Automotive Technology **Credits: (1)**
- ATTC 3760 - Advanced Automotive Technologies **Credits: (3)**
- ATTC 3880 INT - Cooperative Practicum **Credits: (3)**
- ATTC 4710 - Capstone Research Methods **Credits: (2)**

- ATTC 4720 - Capstone Research and Development **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**

Automotive Electives (24 credit hours)

- ATTC 3020 - Introduction to Safety Management and Hazardous Materials **Credits: (3)**
- ATTC 3260 - Advanced Electrical Systems **Credits: (3)**
- ATTC 3520 - Fleet Management **Credits: (3)**
- ATTC 3620 - Automotive Business Practices **Credits: (3)**
- ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety **Credits: (3)**
- ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems **Credits: (3)**
- ATTC 4540 - Automated Safety and Convenience Systems **Credits: (3)**
- ATTC 4550 - Advanced Automotive Emissions **Credits: (3)**
- ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance **Credits: (3)**
- ATTC 4760 - Alternate Fuel Systems **Credits: (3)**
- ATTC 3860 - Automotive Standards, Laws, and Regulations **Credits: (3)**

Support Courses Required (6 credit hours)

- PS 3203 - Customer Service Techniques **Credits: (3)**
- PS 3503 - Sales Planning and Forecasting **Credits: (3)**
- PS 3563 - Principles of Sales Supervision **Credits: (3)**
- PS 3702 - Developing Team Leadership Skills **Credits: (2)**
- PS 3903 - Sales Presentation Strategies and Techniques **Credits: (3)**
- PS 4203 - Ethical Sales and Service **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Automotive Technology (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

BIS students that wish to include Automotive Technology as one of their emphasis areas should recognize that they should have a clear goal for their BIS program and capstone project. Students need to gain approval of courses for the emphasis from the Automotive Technology advisor. They will then work with a faculty mentor, in coordination with the other emphasis mentors, to develop the experiments, methods, and schedule for the project. The student is responsible for securing funding for the supplies needed for their project.

Grade Requirements: Minimum grade of "C" in courses required for this major in addition to an overall GPA of 2.00 or higher.

Credit Hour Requirements: A total of 19 credit hours is required.

Assessment Requirements: Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see the program advisor for specific information regarding the assessment.

- **Program Code:** 8004

Advisement

Advisor: Jessica Slater; Schedule an Appointment

Automotive Core Courses (10 credit hours)

- ATTC 3000 - Introduction to Automotive Technology **Credits: (1)**
- ATTC 3620 - Automotive Business Practices **Credits: (3)**
- ATTC 3760 - Advanced Automotive Technologies **Credits: (3)**
- ATTC 3860 - Automotive Standards, Laws, and Regulations **Credits: (3)**

Automotive Electives (9 credit hours)

Select 9 Credits From the Following List with Approval from the Advisor.

- ATTC 3020 - Introduction to Safety Management and Hazardous Materials **Credits: (3)**
- ATTC 3520 - Fleet Management **Credits: (3)**
- ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety **Credits: (3)**
- ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems **Credits: (3)**
- ATTC 4540 - Automated Safety and Convenience Systems **Credits: (3)**
- ATTC 4550 - Advanced Automotive Emissions **Credits: (3)**
- ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance **Credits: (3)**
- ATTC 4760 - Alternate Fuel Systems **Credits: (3)**

Department of Electrical & Computer Engineering

Department Chair: Fon Brown

Location: Noorda Engineering Building, Room 245

Telephone Contact: Judith Smith, 801-626-6898

Email: judithsmith@weber.edu

Website: weber.edu/ece

Professors: Fon Brown, Justin Jackson; **Associate Professor:** Christian Hearn; **Assistant Professors:** Shellee Dyer, Tye Gardner, Eric Gibbons, Alyssa Mock, Jonathan West

The Department of Electrical & Computer Engineering houses three academic programs- Computer Engineering, Electrical Engineering and Biomedical Engineering.

Computer Engineering is the branch of engineering that integrates the fields of electrical engineering and computer science. Computer engineers use computer hardware and software to solve engineering problems. They are trained in computer architecture, embedded systems, software design, data structures, hardware interfacing, and hardware/software integration. The Computer Engineering program offers courses in basic circuitry, microelectronics, embedded systems, algorithms, data structures, and signal processing. An internship, which gives students engineering work experience, is also part of the program. In the senior year, students complete a two-semester capstone project that integrates their course work. The program prepares graduates to enter engineering industry or pursue advanced studies in the discipline.

Electrical Engineering is the branch of engineering that deals with the design and development of electronic devices and systems such as computers, telecommunications and controls. The Electrical Engineering Program offers courses

in basic analog and digital circuits, microelectronic systems, electromagnetics, embedded systems, and signal processing. An internship, which gives students engineering work experience, is also part of the program. In the senior year, students complete a two-semester capstone project that integrates their course work. The program prepares graduates to enter engineering industry or pursue advanced studies in the discipline.

Biomedical engineers learn to engineer solutions to problems at the intersection of engineering and the life sciences through classes in engineering, chemistry, microbiology, neuroscience and more. The program features a strong core in electrical engineering and a diverse set of elective choices, allowing students to prepare for engineering careers such as biomedical device design, biomedical research, or graduate school.

The Electrical & Computer Engineering Department offers both Bachelor of Science (BS) and Master of Science (MS) degrees in Electrical Engineering and Computer Engineering. The department also offers a Bachelor of Science (BS) degree in Biomedical Engineering.

ECE and BME Courses

Bachelor of Science

Biomedical Engineering (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all BME and support courses is required for this major (a grade of "C-" is not acceptable). Students must have an overall GPA of 2.8 or higher to graduate.
- **Credit Hour Requirements:** A total of 111 credit hours is required for graduation.
- **Program Code:** 8105BS
- **CIPC:**140501

Program Educational Objectives

The Objectives of the ECE undergraduate programs in Biomedical Engineering are to educate graduates to become productive, accountable, and responsible professionals in engineering who will:

1. Apply their engineering skills, through theory and application, in industry, government, society, or in graduate school;
2. Practice high technical and ethical standards and communicate their work to colleagues, industry, and professional organizations;
3. Work effectively and contribute in interdisciplinary fields while encouraging expression and valuing diversity;
4. Understand the importance of lifelong learning and continuous professional growth in a changing world as shown through self-directed learning, specialized trainings, certifications, licensing, and graduate programs.

Accreditation

The Weber State University Biomedical Engineering program is pursuing accreditation by the Engineering Accreditation Commission (EAC) of ABET.

Advisement

All Biomedical Engineering students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6898 to schedule an appointment or schedule and appointment online.

Admission Requirements

See an academic advisor for the College of Engineering, Applied Science and Technology to declare your program of study (major). The program is split into two parts, a pre-professional program and a professional program.

Departmental Honors

For information on Departmental Honors, please see the Department of Electrical & Computer Engineering website or the Honors Program.

General Education

Refer to Degree Requirements for Bachelor of Science degrees. Consult with your advisor and refer to the major requirements below for specific general education courses required.

Major Course Requirements for BME (BS) Degree

The Biomedical Engineering program is comprised of three components: (1) Pre-professional Program, (2) Professional Program, and (3) Required Support Courses.

1. Pre-professional Program

Pre-professional Program Admission Requirements:

Students must have enrolled or have all the necessary prerequisites to enroll in MATH 1210, ENGL 2010, and CHEM 1210.

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**

- BME 1000 - Introduction to Biomedical Engineering **Credits: (2)** or
- ECE 1000 - Introduction to Electrical Engineering **Credits: (2)** or
- ENGR 1000 - Introduction to Engineering **Credits: (2)**

- ECE 1270 - Introduction to Electrical Circuits **Credits: (4)**

- ECE 1400 - Fundamentals of Engineering Computing **Credits: (4)**
- ECE 2260 - Circuits and Signals **Credits: (4)**
- ECE 2700 - Digital Circuits **Credits: (4)**
- BME 2000 - BME Sophomore Seminar **Credits: (1)**
- ENGR 2240 - Dynamic Systems Engineering **Credits: (4)**

2. Track Options

Biomedical Engineering Majors must satisfy the requirements for one of the following tracks. The Track selection allows students to prepare for electives tailored to their desired learning outcomes. Some electives may not be available without additional pre-requisite courses.

Traditional Track (20 Credits)

- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**

Select 5 courses from the electives list. At least 6 credits must be 4000-level and above. At least two courses must have an ECE or BME prefix, and at least one course must have a non-ECE prefix.

Neural Engineering Track (21 Credits)

- NEUR 2950 - Introduction to Neuroscience **Credits: (3)**
- NEUR 3950 - Cellular and Molecular Neuroscience **Credits: (3)**
- NEUR 3750 - Cognitive and Behavioral Neuroscience **Credits: (3)** or
- PSY 3730 - Perception **Credits: (3)**
- NEUR 3850 - Clinical Neuroscience **Credits: (3)** or
- PSY 3740 - Neuropsychopharmacology **Credits: (3)**

Select 3 courses from the electives list. At least 3 credits must be 4000-level or above. At least one course must have an ECE or BME prefix, and at least one course must have a NEUR or PSY prefix. Courses with an "OR" option may be taken as an elective if not chosen as a required course.

3. Professional Program

Professional Program Admission Requirements:

After completion of the pre-professional program, students are required to apply for admittance to the professional program. A minimum GPA of 2.8 in the Pre-Professional Required Courses listed above is required for application to the Professional Program.

- BME 3000 - Engineering Seminar **Credits: (1)**
- BME 3210 - Signals & Systems **Credits: (4)**
- BME 3600 - Biomedical Design and Standards **Credits: (4)**
- BME 3090 - Project Management **Credits: (3)**
- BME 3130 - Microelectronics and Instrumentation **Credits: (4)**
- ECE 3430 - Engineering Probability and Statistics **Credits: (3)**
- ECE 3610 - Digital Systems **Credits: (4)** or
- ECE 3710 - Embedded Systems **Credits: (4)**

- ECE 3890 INT - Internship **Credits: (1)**
- BME 4010 - Senior Project I **Credits: (2)**
- BME 4020 - Senior Project II **Credits: (2)**

4. Support Courses Required

- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- HTHS 1104 - Introductory Human Anatomy and Physiology **Credits: (3)** or
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- PUBH 3500 - Biomedical Research Support **Credits: (2)**

Biomedical Engineering Elective Courses

The following courses may be chosen as electives for any track. However, some electives are more suited to a specific track and thus students may not be able to take all listed electives without taking additional prerequisites. Each track has specific elective requirements.

- ECE 3310 - Electromagnetics **Credits: (4)**
- ECE 3610 - Digital Systems **Credits: (4) ***
- ECE 3710 - Embedded Systems **Credits: (4) ***
- ECE 5110 - Digital VLSI Design **Credits: (3)**
- ECE 5130 - Advanced Semiconductor Devices **Credits: (3)**
- ECE 5140 - Sensors and Instrumentation **Credits: (3)**
- ECE 5150 - Thin Film Engineering **Credits: (3)**
- ECE 5210 - Digital Signal Processing **Credits: (4)**
- ECE 5220 - Image Processing **Credits: (3)**
- ECE 5230 - Engineering Applications in Deep Learning **Credits: (3)**
- ECE 5310 - Radar Systems **Credits: (3)**
- ECE 5320 - Antennas and Wave Propagation **Credits: (3)**
- ECE 5410 - Communication Circuits and Systems **Credits: (3)**
- ECE 5420 - Digital Communication **Credits: (3)**
- ECE 5440 - Optical Communication Systems **Credits: (3)**
- ECE 5510 - Advanced Power Systems **Credits: (3)**
- ECE 5620 - Digital System Testing **Credits: (3)**
- ECE 5640 - Model-based Systems Engineering **Credits: (3)**
- ECE 5710 - Real-Time Systems **Credits: (4)**
- ECE 5730 - Robotics **Credits: (4)**
- ECE 5800 - Individual Studies **Credits: (1-4)**
- ECE 5900 - Special Topics **Credits: (1-4)**
- CS 5600 - Machine Learning **Credits: (3)**
- CS 5610 - Computer Architecture **Credits: (3)**
- CHEM 3070 - Biochemistry I **Credits: (3)**

- CHEM 3080 - Biochemistry II **Credits: (3)**
- NEUR 3750 - Cognitive and Behavioral Neuroscience **Credits: (3)**
- NEUR 3850 - Clinical Neuroscience **Credits: (3)**
- NEUR 3950 - Cellular and Molecular Neuroscience **Credits: (3)**
- NEUR 4444 - Human Neuroanatomy **Credits: (3)**
- PSY 3730 - Perception **Credits: (3)**
- PSY 3740 - Neuropsychopharmacology **Credits: (3)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 4354 - Industrial Microbiology and Biotechnology **Credits: (4)**

**At most one 3000-level course with an ECE prefix may be counted as an elective.*

Computer Engineering (BS)

Program Prerequisite: Not required.

Minor: Not required.

Grade Requirements: A grade of "C" or better in all ECE and support courses is required for this major (a grade of "C-" is not acceptable). Students must have an overall GPA of 2.5 or higher to graduate.

Credit Hour Requirements: A total of 124 credit hours is required for graduation.

Program Code: 8074BS

CIPC: 140901

Program Educational Objectives

The Objectives of the ECE undergraduate programs in Electrical and Computer Engineering are to educate graduates to become productive, accountable, and responsible professionals in engineering who will:

1. Apply their engineering skills, through theory and application, in industry, government, society, or in graduate school;
2. Practice high technical and ethical standards and communicate their work to colleagues, industry, and professional organizations;
3. Work effectively and contribute in interdisciplinary fields while encouraging expression and valuing diversity;
4. Understand the importance of lifelong learning and continuous professional growth in a changing world as shown through self-directed learning, specialized trainings, certifications, licensing, and graduate programs.

Accreditation

The Weber State University Computer Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET.

Advisement

All Computer Engineering students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6898 for the name of your advisor and to schedule an appointment. Individual student records are accessible through the WSU Home Page.

Admission Requirements

The Computer Engineering program is split into two parts, a pre-professional program and a professional program. Students who satisfy the pre-professional program admission requirements (below) should meet with an academic advisor to declare their major and be admitted into the pre-professional program.

Retake Policy

Students in the pre-professional and professional programs may be placed on probation if they withdraw (without justification) or earn a grade lower than C twice in any one ECE course. Students on probation require a department override to register for any ECE course. If a student fails to pass a course (with a grade of C or higher) a third time, he or she will be dismissed from the program.

Departmental Honors

For information on Departmental Honors, please see the Electrical & Computer Engineering website at weber.edu/ece or the Honors Program.

General Education

Refer to Degree Requirements for Bachelor of Science degrees. Consult with your advisor and refer to the major requirements below for specific general education courses required.

Program Learning Outcomes

- An ability to apply knowledge of mathematics, science and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context.
- A recognition of the need for, and an ability to engage in, life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills and modern engineering tools necessary for engineering practice.

Major Course Requirements for Computer Engineering BS Degree

The Computer Engineering program is comprised of three components: (1) Pre-professional Program, (2) Professional Program, and (3) Required Support Courses.

1. Pre-professional Program

Pre-Professional Program Admission Requirements

Students must have enrolled or have all the necessary prerequisites to enroll in MATH 1210 - Calculus I and ENGL 2010 EN2 - Intermediate College Writing.

Pre-Professional Required Courses

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- ENGR 2240 - Dynamic Systems Engineering **Credits: (4)** or both
- MATH 2270 - Elementary Linear Algebra **Credits: (3)** and
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- ECE 1000 - Introduction to Electrical Engineering **Credits: (2)** or
- ENGR 1000 - Introduction to Engineering **Credits: (2)**
- ECE 1270 - Introduction to Electrical Circuits **Credits: (4)**
- ECE 1400 - Fundamentals of Engineering Computing **Credits: (4)**
- ECE 2260 - Circuits and Signals **Credits: (4)**
- ECE 2700 - Digital Circuits **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**

2. Professional Program

Professional Program Admission Requirements

After completion of the pre-professional program, students are required to apply for admittance to the professional program. A minimum GPA of 2.8 in the Pre-Professional Required Courses listed above is required for application to the Professional Program.

- CS 3100 - Operating Systems **Credits: (4)**
- ECE 3000 - Engineering Seminar **Credits: (1)**
- ECE 3090 - Project Management **Credits: (3)**
- ECE 3110 - Microelectronics I **Credits: (4)** Or
- ECE 3130 - Microelectronics and Instrumentation **Credits: (4)**
- ECE 3210 - Signals and Systems **Credits: (4)**
- ECE 3430 - Engineering Probability and Statistics **Credits: (3)**
- ECE 3610 - Digital Systems **Credits: (4)**
- ECE 3620 - Microprocessor Architecture **Credits: (3)**
- ECE 3710 - Embedded Systems **Credits: (4)**
- ECE 3890 INT - Internship **Credits: (1)**
- ECE 4010 CEL - Senior Project I **Credits: (2)**
- ECE 4020 CEL - Senior Project II **Credits: (2)**

ECE and CS Elective Courses (Select Four Courses)

Select four courses totalling 12 or more credit hours from the following list.

- ECE 3120 - Microelectronics II **Credits: (4) ****
- ECE 3310 - Electromagnetics **Credits: (4) ****
- ECE 3510 - Power Systems **Credits: (4) ****
- ECE 3730 - Fundamentals of Robotics **Credits: (4) ****
- ECE 4100 - Control Systems **Credits: (4)**
- ECE 5110 - Digital VLSI Design **Credits: (3)**
- ECE 5130 - Advanced Semiconductor Devices **Credits: (3)**
- ECE 5140 - Sensors and Instrumentation **Credits: (3)**
- ECE 5160 - Power Electronics **Credits: (4)**
- ECE 5210 - Digital Signal Processing **Credits: (4)**
- ECE 5220 - Image Processing **Credits: (3)**
- ECE 5230 - Engineering Applications in Deep Learning **Credits: (3)**
- ECE 5410 - Communication Circuits and Systems **Credits: (3)**
- ECE 5420 - Digital Communication **Credits: (3)**
- ECE 5440 - Optical Communication Systems **Credits: (3) ***
- ECE 5620 - Digital System Testing **Credits: (3)**
- ECE 5640 - Model-based Systems Engineering **Credits: (3)**
- ECE 5710 - Real-Time Systems **Credits: (4)**
- ECE 5730 - Robotics **Credits: (4) ***
- ECE 5750 - Quantum Computer Engineering **Credits: (3)**
- ECE 5800 - Individual Studies **Credits: (1-4)**
- ECE 5900 - Special Topics **Credits: (1-4)**
- CS 4110 - Concepts of Formal Languages and Algorithms for Computing **Credits: (4)**
- CS 4280 - Computer Graphics **Credits: (4) ***
- CS 5100 - Distributed Operating Systems **Credits: (3)**
- CS 5200 - The Internet of Things **Credits: (3)**
- CS 5420 - Advanced Algorithms **Credits: (3)**
- CS 5500 - Introduction to Artificial Intelligence **Credits: (3)**
- CS 5600 - Machine Learning **Credits: (3)**
- CS 5610 - Computer Architecture **Credits: (3)**
- CS 5740 - Computer Systems Security **Credits: (3)**
- CS 5820 - Compiler Design **Credits: (3)**
- CS 5840 - Formal System Design **Credits: (3)**
- CS 5850 - Parallel Programming and Architecture **Credits: (3)**
- MATH 4160 - Introduction to Mathematical Cryptography **Credits: (3)**

** Course has prerequisites external to the Computer Engineering program.*

*** At most one 3000-level course may be counted as an Elective.*

3. Support Courses Required

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**

Electrical Engineering (BS)

Program Prerequisite: Not required.

Minor: Not required.

Grade Requirements: A grade of "C" or better in all ECE and support courses is required for this major (a grade of "C-" is not acceptable). Students must have an overall GPA of 2.5 or higher to graduate.

Credit Hour Requirements: A total of 125 credit hours is required for graduation.

Program Code: 8071BS

CIPC: 141001

Program Educational Objectives

The Objectives of the ECE undergraduate programs in Electrical and Computer Engineering are to educate graduates to become productive, accountable, and responsible professionals in engineering who will:

1. Apply their engineering skills, through theory and application, in industry, government, society, or in graduate school;
2. Practice high technical and ethical standards and communicate their work to colleagues, industry, and professional organizations;
3. Work effectively and contribute in interdisciplinary fields while encouraging expression and valuing diversity;
4. Understand the importance of lifelong learning and continuous professional growth in a changing world as shown through self-directed learning, specialized trainings, certifications, licensing, and graduate programs.

Accreditation

The Weber State University Electrical Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET.

Advisement

All Electrical Engineering students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6898 for the name of your advisor and to schedule an appointment. Individual student records are accessible through the WSU Home Page.

Admission Requirements

The Electrical Engineering program is split into two parts, a pre-professional program and a professional program. Students who satisfy the pre-professional program admission requirements (below) should meet with an academic advisor to declare their major and be admitted into the pre-professional program.

Retake Policy

Students in the pre-professional and professional programs may be placed on probation if they withdraw (without justification) or earn a grade lower than C twice in any one ECE course. Students on probation require a department override to register for any ECE course. If a student fails to pass a course (with a grade of C or higher) a third time, he or she will be dismissed from the program.

Departmental Honors

For information on Departmental Honors, please see the Department of Electrical & Computer Engineering website at weber.edu/ece or the Departmental Honors.

General Education

Refer to Degree Requirements for Bachelor of Science degrees. Consult with your advisor and refer to the major requirements below for specific general education courses required.

Program Learning Outcomes

- An ability to apply knowledge of mathematics, science and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context.
- A recognition of the need for, and an ability to engage in, life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills and modern engineering tools necessary for engineering practice.

Major Course Requirements for EE BS Degree

The Electrical Engineering program is comprised of three components: (1) Pre-professional Program, (2) Professional Program, and (3) Required Support Courses.

1. Pre-professional Program

Pre-professional Program Admission Requirements

Students must have enrolled or have all the necessary prerequisites to enroll in MATH 1210 - Calculus I and ENGL 2010 EN2 - Intermediate College Writing.

Pre-Professional Required Courses

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**

- ENGR 2240 - Dynamic Systems Engineering **Credits: (4)** or both
- MATH 2270 - Elementary Linear Algebra **Credits: (3)** and
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

- CHEM 1230 PS - Engineering Chemistry **Credits: (4)** or both
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

- ECE 1000 - Introduction to Electrical Engineering **Credits: (2)** or
- ENGR 1000 - Introduction to Engineering **Credits: (2)**
- ECE 1270 - Introduction to Electrical Circuits **Credits: (4)**
- ECE 1400 - Fundamentals of Engineering Computing **Credits: (4)**
- ECE 2260 - Circuits and Signals **Credits: (4)**
- ECE 2700 - Digital Circuits **Credits: (4)**

2. Professional Program

Professional Program Admission Requirements

After completion of the pre-professional program, students are required to apply for admittance to the professional program. A minimum GPA of 2.8 in the Pre-Professional Required Courses listed above is required for application to the Professional Program.

Professional Program Required Courses

- ECE 3000 - Engineering Seminar **Credits: (1)**
- ECE 3110 - Microelectronics I **Credits: (4)**
- ECE 3120 - Microelectronics II **Credits: (4)**
- ECE 3210 - Signals and Systems **Credits: (4)**
- ECE 3310 - Electromagnetics **Credits: (4)**
- ECE 3430 - Engineering Probability and Statistics **Credits: (3)**
- ECE 3510 - Power Systems **Credits: (4)** or
- ECE 3610 - Digital Systems **Credits: (4)**
- ECE 3710 - Embedded Systems **Credits: (4)**
- ECE 3890 INT - Internship **Credits: (1)**
- ECE 3090 - Project Management **Credits: (3)**
- ECE 4010 CEL - Senior Project I **Credits: (2)**
- ECE 4020 CEL - Senior Project II **Credits: (2)**
- ECE 4100 - Control Systems **Credits: (4)** or
- ECE 5210 - Digital Signal Processing **Credits: (4)**

Electrical Engineering Elective Courses (minimum of 12 credit hours)

Select four courses totalling at least 12 credit hours from the following options:

- ECE 3510 - Power Systems **Credits: (4)** *
- ECE 3610 - Digital Systems **Credits: (4)** *
- ECE 3620 - Microprocessor Architecture **Credits: (3)** *
- ECE 3730 - Fundamentals of Robotics **Credits: (4)** *
- ECE 4100 - Control Systems **Credits: (4)**
- ECE 5110 - Digital VLSI Design **Credits: (3)**
- ECE 5120 - Analog VLSI Design **Credits: (3)**
- ECE 5130 - Advanced Semiconductor Devices **Credits: (3)**

- ECE 5140 - Sensors and Instrumentation **Credits: (3)**
- ECE 5150 - Thin Film Engineering **Credits: (3)**
- ECE 5160 - Power Electronics **Credits: (4)**
- ECE 5210 - Digital Signal Processing **Credits: (4)**
- ECE 5220 - Image Processing **Credits: (3)**
- ECE 5230 - Engineering Applications in Deep Learning **Credits: (3)**
- ECE 5310 - Radar Systems **Credits: (3)**
- ECE 5320 - Antennas and Wave Propagation **Credits: (3)**
- ECE 5410 - Communication Circuits and Systems **Credits: (3)**
- ECE 5420 - Digital Communication **Credits: (3)**
- ECE 5440 - Optical Communication Systems **Credits: (3)**
- ECE 5510 - Advanced Power Systems **Credits: (3)**
- ECE 5620 - Digital System Testing **Credits: (3)**
- ECE 5640 - Model-based Systems Engineering **Credits: (3)**
- ECE 5710 - Real-Time Systems **Credits: (4)**
- ECE 5730 - Robotics **Credits: (4)**
- ECE 5750 - Quantum Computer Engineering **Credits: (3)**
- ECE 5800 - Individual Studies **Credits: (1-4)**
- ECE 5900 - Special Topics **Credits: (1-4)**
- CS 5610 - Computer Architecture **Credits: (3)**
- MATH 4160 - Introduction to Mathematical Cryptography **Credits: (3)**

**At most one 3000-level course may be counted as an elective.*

3. Support Courses Required

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**

Post Baccalaureate Certificate

Materials Science and Engineering Post Baccalaureate Certificate

The Materials Science and Engineering Post-graduate Certificate at Weber State University is designed to meet the growing demands of Utah's industries. With a focus on advanced materials and material properties, this program equips students with the specialized skills ensuring that the curriculum directly reflects industry needs. The certificate offers a stackable structure, allowing students to gain immediate employability while providing a clear pathway for further graduate studies. Through this program, students will develop expertise in materials science, preparing them for impactful careers in Utah's rapidly evolving technology sectors.

Grade Requirements: A Post-Baccalaureate Certificate in Materials Science and Engineering student must complete all program courses, including electives, with a grade of "B-" or higher. In addition, the overall program GPA must be 3.0 or higher.

Credit Hour Requirements: The program requires a minimum of 12 semester hours beyond a bachelor's degree in engineering or related field. Credits applied to graduation from another program are not accepted.

Program Code: 8120PBC

CIPC: 141801

Program Learning Outcomes

- Demonstrate an understanding of core graduate-level theoretical knowledge in materials science.
- Demonstrate the ability to design a system, component or process.
- Demonstrate the ability to identify, formulate and solve engineering problems in materials science applications.
- Demonstrate the ability to apply master's level knowledge to the specialized area of materials science and engineering.

Advisement

For questions concerning academic advisement, the primary source of contact is the program director. Students should meet with the director at least once a year while enrolled. For issues regarding registration and scheduling, students should contact the Administrative Specialist for the Department of Electrical & Computer Engineering

Admission Requirements

Applicants for admission into the Master of Science in Electrical Engineering program must possess a bachelor's degree or be in the final stage of completing the degree. An overall GPA of 3.0 is required from the undergraduate program in which the bachelor's degree is earned.

Applicants will submit:

- Completed application
- Current resume
- Official transcripts from every institution of higher education attended
- GRE scores are required for all applicants except those with an ABET-accredited engineering bachelor's degree or a 3.2 GPA or higher in a prior STEM degree. Scores will be used to make admission decisions but no specific minimum score is required.

Additional Admission Requirements for International Students

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) which is not more than two years old. Applicants are required to have an internet-based TOEFL score of 79 (with a minimum of 17 in each category) or a minimum IELTS score of 6.5.

Application

The application for admission to the Master of Science in Electrical Engineering program must be submitted online. Official transcripts from each institution of higher education attended and all test scores must be sent directly to the WSU Department of Engineering.

Application deadlines are posted at <https://www.weber.edu/east/ms-programs/>.

Major Course Requirements for Post-Baccalaureate Certificate in Materials Science and Engineering

Leveling Courses

After being accepted, students who have not graduated from an ABET accredited Electrical Engineering program must demonstrate the ability to pass the following Math courses and 3 of the 4 ECE courses:

- ECE 3110 - Microelectronics I **Credits: (4)**
- ECE 3210 - Signals and Systems **Credits: (4)**
- ECE 3310 - Electromagnetics **Credits: (4)**
- ECE 3610 - Digital Systems **Credits: (4)**

- MATH 3410 - Probability and Statistics I **Credits: (3)**

- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)** OR BOTH
- MATH 2270 - Elementary Linear Algebra **Credits: (3)** AND
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

Core Coursework

Required Courses

- ECE 6170 - Advanced Materials Science and Engineering **Credits: (3)**

Electives

Choose 3 of the following courses:

Professional Program Admission Requirements

- ECE 6110 - Digital VLSI Design **Credits: (3)**
- ECE 6130 - Advanced Semiconductor Devices **Credits: (3)**
- ECE 6140 - Sensors and Instrumentation **Credits: (3)**
- ECE 6150 - Thin Film Engineering **Credits: (3)**
- ECE 6170 - Advanced Materials Science and Engineering **Credits: (3)**
- ECE 6440 - Optical Communication Systems **Credits: (3)**
- ECE 6640 - Model-Based Systems Engineering **Credits: (3)**
- ECE 6750 - Quantum Computer Engineering **Credits: (3)**
- *Additional Electives and Special Topics Courses to be offered in collaboration with interdisciplinary departments and industrial partners (All will be 3 credits)*
- ECE 6900 - Special Topics **Credits: (1-4)**

Master of Science

Master of Science in Computer Engineering (MSCE)

- **Grade Requirements:** An MSCE student must complete all program courses, including electives, with a grade of "B-" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in computer engineering.
- **Program Code:** 8073MSCE
- **CIPC:** 140901

Once enrolled, a student must register for at least one MSCE course each semester, except summers, until graduation. Students who fail to do so must petition for readmission into the program.

Admissions Requirements

Applicants for admission into the Master of Science in Computer Engineering program must possess a bachelor's degree or be in the final stage of completing the degree. An overall GPA of 3.0 is required from the undergraduate program in which the bachelor's degree is earned.

Applicants will submit:

- Completed application
- Current resume
- Official transcripts (domestic applicants) or credential evaluation reports (international applicants) for all institutions of higher education (except Weber) that pertain to the bachelor's degree
- GRE scores are required for all applicants except those with an ABET-accredited engineering bachelor's degree or a 3.2 GPA or higher in a prior STEM degree. Scores will be used to make admission decisions but no specific minimum score is required.

Additional Admission Requirements for International Students

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit an official score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) which is not more than two years old. Applicants are required to have an internet-based TOEFL score of 79 (with a minimum of 17 in each category) or a minimum IELTS score of 6.5.

Application

The application for admission to the Master of Science in Computer Engineering program must be submitted online. Official transcripts from each institution of higher education attended and all test scores must be sent directly to the WSU Department of Engineering.

Application deadlines are posted at <https://weber.edu/msce>.

Advisement

For questions concerning academic advisement, the primary source of contact is the program director. Students should meet with the director at least once a year while enrolled. For issues regarding registration and scheduling, students should contact either the Administrative Specialist for the Department of Electrical & Computer Engineering.

Program Learning Outcomes

- Demonstrate the ability to apply knowledge of math, science and engineering.
- Demonstrate the ability to design a system, component or process.

- Demonstrate the ability to identify, formulate and solve engineering problems.
- Demonstrate the ability to apply master's level knowledge to the specialized area of computer engineering.

Leveling Courses

After being accepted, students who have not graduated from an ABET accredited Computer Engineering program must demonstrate the ability to pass the following Math courses and 5 of the 6 ECE or CS courses:

- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- CS 3100 - Operating Systems **Credits: (4)**
- ECE 3110 - Microelectronics I **Credits: (4)**
- ECE 3210 - Signals and Systems **Credits: (4)**
- ECE 3610 - Digital Systems **Credits: (4)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)** or both
- MATH 2270 - Elementary Linear Algebra **Credits: (3)** and
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

Course Requirements for MSCE

Seven of the following courses (minimum 21 credit hours) are required. At least two courses must have a CS prefix and at least two courses must have an ECE prefix.

- ECE 6110 - Digital VLSI Design **Credits: (3)**
- ECE 6130 - Advanced Semiconductor Devices **Credits: (3)**
- ECE 6140 - Sensors and Instrumentation **Credits: (3)**
- ECE 6160 - Power Electronics **Credits: (4)**
- ECE 6170 - Advanced Materials Science and Engineering **Credits: (3)**
- ECE 6210 - Digital Signal Processing **Credits: (4)**
- ECE 6220 - Image Processing **Credits: (3)**
- ECE 6230 - Engineering Applications in Deep Learning **Credits: (3)**
- ECE 6410 - Communication Circuits and Systems **Credits: (3)**
- ECE 6420 - Digital Communication **Credits: (3)**
- ECE 6440 - Optical Communication Systems **Credits: (3)**
- ECE 6620 - Digital System Testing **Credits: (3)**
- ECE 6640 - Model-Based Systems Engineering **Credits: (3)**
- ECE 6710 - Real-Time Systems **Credits: (4)**
- ECE 6730 - Robotics **Credits: (4)**
- ECE 6750 - Quantum Computer Engineering **Credits: (3)**
- ECE 6800 - Individual Studies **Credits: (1-3)**
- ECE 6900 - Special Topics **Credits: (1-4)**
- CS 6100 - Distributed Operating Systems **Credits: (3)**
- CS 6200 - The Internet of Things **Credits: (3)**
- CS 6420 - Advanced Algorithms **Credits: (3)**
- CS 6500 - Advanced Artificial Intelligence **Credits: (3)**

- CS 6600 - Machine Learning **Credits: (3)**
- CS 6610 - Computer Architecture **Credits: (3)**
- CS 6740 - Computer Systems Security **Credits: (3)**
- CS 6820 - Compiler Design **Credits: (3)**
- CS 6840 - Formal System Design **Credits: (3)**
- CS 6850 - Parallel Programming and Architecture **Credits: (3)**

Thesis or Design Project, or Additional Coursework (9 credit hours)

MSCE students are required to either (a) perform original research that results in a thesis, (b) complete a substantial engineering design project and complete 3 additional credits of approved coursework, or (c) take an additional 9 credits of approved coursework.

For students taking the thesis option, a total of 6 to 9 credits of ECE 6020 is required for a thesis. If a student enrolls in fewer than 9 credits of ECE 6020, then an additional 3 credits of coursework (see above) is required. Students must be enrolled in ECE 6020 at the time of their defense.

For students taking the project option, one additional course (see above) is required and a total of 6 or more credits of ECE 6010 is required for a project. Students must be enrolled ECE 6010 at the time of their final design review.

The thesis or project report must meet formatting requirements and be submitted to the Department of Electrical and Computer Engineering for approval prior to graduation.

For students taking the coursework option, a total of 9 or more credits of 6000-level coursework with an ECE prefix are required.

- ECE 6010 - Design Project **Credits: (2-6)**
- ECE 6020 - Thesis **Credits: (2-6)**

Master of Science in Electrical Engineering (MSEE)

- **Grade Requirements:** An MSEE student must complete all program courses, including electives, with a grade of "B-" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in electrical engineering. Credits applied to graduation from another program are not accepted.
- **Program Code:** 8084MS
- **CIPC:** 141001

Once enrolled, a student must register for at least one MSEE course each semester, excepting summers, until graduation. Students who fail to do so must petition for readmission into the program.

Admissions Requirements

Applicants for admission into the Master of Science in Electrical Engineering program must possess a bachelor's degree or be in the final stage of completing the degree. An overall GPA of 3.0 is required from the undergraduate program in which the bachelor's degree is earned.

Applicants will submit:

- Completed application

- Current resume
- Official transcripts from every institution of higher education attended
- GRE scores are required for all applicants except those with an ABET-accredited engineering bachelor's degree or a 3.2 GPA or higher in a prior STEM degree. Scores will be used to make admission decisions but no specific minimum score is required.

Additional Admission Requirements for International Students

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) which is not more than two years old. Applicants are required to have an internet-based TOEFL score of 79 (with a minimum of 17 in each category) or a minimum IELTS score of 6.5.

Application

The application for admission to the Master of Science in Electrical Engineering program must be submitted online. Official transcripts from each institution of higher education attended and all test scores must be sent directly to the WSU Department of Engineering.

Application deadlines are posted at <https://weber.edu/msee>.

Advisement

For questions concerning academic advisement, the primary source of contact is the program director. Students should meet with the director at least once a year while enrolled. For issues regarding registration and scheduling, students should contact the Administrative Specialist for the Department of Electrical & Computer Engineering

Program Learning Outcomes

- Demonstrate the ability to apply knowledge of math, science and engineering.
- Demonstrate the ability to design a system, component or process.
- Demonstrate the ability to identify, formulate and solve engineering problems.
- Demonstrate the ability to apply master's level knowledge to the specialized area of electrical engineering.

Leveling Courses

After being accepted, students who have not graduated from an ABET accredited Electrical Engineering program must demonstrate the ability to pass the following Math courses and 3 of the 4 ECE courses:

- ECE 3110 - Microelectronics I **Credits: (4)**
- ECE 3210 - Signals and Systems **Credits: (4)**
- ECE 3310 - Electromagnetics **Credits: (4)**
- ECE 3610 - Digital Systems **Credits: (4)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)** or both
- MATH 2270 - Elementary Linear Algebra **Credits: (3)** and
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

Course Requirements for MSEE

Seven of the following courses (minimum 21 credit hours) are required.

- ECE 6110 - Digital VLSI Design **Credits: (3)**
- ECE 6120 - Analog VLSI Design **Credits: (3)**
- ECE 6130 - Advanced Semiconductor Devices **Credits: (3)**
- ECE 6140 - Sensors and Instrumentation **Credits: (3)**
- ECE 6150 - Thin Film Engineering **Credits: (3)**
- ECE 6170 - Advanced Materials Science and Engineering **Credits: (3)**
- ECE 6210 - Digital Signal Processing **Credits: (4)**
- ECE 6220 - Image Processing **Credits: (3)**
- ECE 6230 - Engineering Applications in Deep Learning **Credits: (3)**
- ECE 6310 - Electromagnetics II **Credits: (3)**
- ECE 6320 - Antennas and Wave Propagation **Credits: (3)**
- ECE 6410 - Communication Circuits and Systems **Credits: (3)**
- ECE 6420 - Digital Communication **Credits: (3)**
- ECE 6440 - Optical Communication Systems **Credits: (3)**
- ECE 6510 - Advanced Power Systems **Credits: (3)**
- ECE 6620 - Digital System Testing **Credits: (3)**
- ECE 6640 - Model-Based Systems Engineering **Credits: (3)**
- ECE 6710 - Real-Time Systems **Credits: (4)**
- ECE 6730 - Robotics **Credits: (4)**
- ECE 6750 - Quantum Computer Engineering **Credits: (3)**
- ECE 6800 - Individual Studies **Credits: (1-3)**
- ECE 6900 - Special Topics **Credits: (1-4)**
- CS 6610 - Computer Architecture **Credits: (3)**

Thesis, Design Project, or Additional Coursework (9 credit hours)

MSEE students are required to either (a) perform original research that results in a thesis, (b) complete a substantial engineering design project and complete 3 additional credits of approved coursework, or (c) take an additional 9 credits of approved coursework.

For students taking the thesis option, a total of 6 to 9 or more credits of ECE 6020 is required for a thesis. If a student enrolls in less than 9 credits of ECE 6020, three additional credits of coursework (see above) is required. Students must be enrolled in ECE 6020 at the time of their defense.

For students taking the project option, one additional course (see above) is required and a total of 6 or more credits of ECE 6010 is required for a project. Students must be enrolled ECE 6010 at the time of their final design review.

The thesis or project report must meet formatting requirements and be submitted to the Department of Electrical and Computer Engineering for approval prior to graduation.

For students taking the coursework option, a total of 9 or more credits of 6000-level coursework with an ECE prefix are required.

- ECE 6010 - Design Project **Credits: (2-6)**
- ECE 6020 - Thesis **Credits: (2-6)**

Department of Manufacturing and Systems Engineering

- Manufacturing Systems Engineering
- Manufacturing Engineering Technology
- Product Design and Development: An Engineering Technology
- Programs
- Courses

Department Chair: Mark Baugh

Location: Engineering Technology Building, Room 214

Telephone Contact: Sheri Eddington, 801-626-6305

Professors: Mark Baugh, George Comber, Kelly Harward, Kerry Tobin, Glen West; **Associate Professors:** Megumi Usui; **Assistant Professor:** David Wetzel; **Instructors:** Nicole Falkenberg, Taylor Foss, Samuel Hunter, Justin Knighton

Department of Manufacturing and System Engineering (M&SE) education focuses primarily on the aspects of science and engineering aimed at preparing graduates for practice in that portion of the technological spectrum closest to product improvement, industrial processes, and operational functions. The M&SE programs at Weber State prepare individuals for a wide variety of positions in industrial, manufacturing, production, product design and development businesses and industries. The study of engineering and engineering technology requires a knowledge of mathematical, scientific, and engineering principles in combination with a strong applications-orientation in support of engineering activities. The M&SE department offers a variety of AAS and BS degrees in the following engineering and engineering technology programs:

- Manufacturing Systems Engineering (BS) Manufacturing Engineering Technology (AAS, BS)
 - Concentration:
 - Production Operations and Control
 - Welding
 - Plastics and Composites
- Product Design and Development: An Engineering Technology (AAS, BS)
- Controls Technology (AAS)

The BS degrees in these programs are accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

Manufacturing Systems Engineering

Program Coordinator: Mary Foss

Location: Engineering Technology Building, Room 214

Telephone Contact: Sheri Eddington, 801-626-6305

Manufacturing Systems (process) Engineering is the branch of Industrial and Systems engineering that addresses the analysis and design of systems involving the human interaction with machines or nature. Such systems are highly complex and require modeling of the variability introduced by the human element. Operations are optimized and made more robust by incorporating these models into the overall system design. The focus of the Bachelor of Science in Manufacturing Systems Engineering (MSE) is on the training of students in facility design and modeling / simulations, including material handling.

The Manufacturing Systems (process) Engineers is an eclectic professional that turn ideas into reality. They play key roles in the creation of almost every single product that you see or use, from biomedical to computers, from sport equipment to aerospace. The challenges of creating new processes and using new materials to meet future needs, relieving human drudgery by automating dangerous and onerous production processes, and forming and leading teams of engineering experts are all examples of a few of the numerous opportunities for which the Manufacturing Systems Engineering Program prepares its students.

Manufacturing Engineering Technology

Program Coordinator: Mark Baugh

Location: Engineering Technology Building, Room 214

Telephone Contact: Sheri Eddington, 801-626-6305

The Weber State Manufacturing Engineering Technology (MFET) program has long been recognized as one of the outstanding manufacturing technology programs in the country. Students may choose among three concentration areas; Production Operations and Controls, Welding, or Plastics and Composites. The Production Operations and Controls Concentration is designed to prepare the student for professional employment in industry by giving them fundamental knowledge and skills in a broad range of manufacturing disciplines, manufacturing processes and automation. These include process selection and planning, tool and machine design, material selection and treatment, programmable logic controllers, mechatronics, robotics, Six Sigma, and lean manufacturing. State-of-the-art laboratories give students hands-on experiences with CNC machine tools, robotics, programmable logic controllers, systems integration and the latest in a variety of CAD/ CAM systems. Yearlong required senior projects have included industrial equipment, drones, crash simulators for the Utah Highway Patrol, electric vehicles, innovative products, computer integrated manufacturing cells and many fun projects that help students gain confidence in their abilities while gaining additional insight and skills in both teamwork and human relations.

The Manufacturing Engineering Technology Welding Concentration is designed to produce welding engineering technology graduates that are involved in the concept, design, engineering, and metallurgy of weldments and implementation of welding processes in any manufacturing or technical industry. The MFET Welding Concentration has six main areas of study: welding and manufacturing, design and structural, metallurgical, quality assurance, electrical, and management. Courses are designed to give students the background to solve welding related issues in a variety of industry settings. Students will learn how to set up welding quality systems with procedures and qualifications. Most classes have labs where students receive hands on training to complement the classroom instruction. Students complete a senior project with a team that brings together their experience and education.

The Manufacturing Engineering Technology Plastics and Composite Concentration prepares students for professional employment in the plastic/composite industry. Students will learn firsthand about the complex interdependence between plastic/composite process, materials, tooling, and part design. The design portion of the concentration will provide the knowledge and skills required to fulfill a number of career roles that focus on the product development process, which includes plastic part design. Another phase of this education delves into the differences between the many types of plastics as well as the properties which differentiate plastics from other materials. This emphasis will also expose the students to a wide variety of tooling from the many plastic disciplines. This includes injection, thermoforming, blow molding, extrusion dies and high/low tech composite molds. This exposure provides the students with a keen understanding of the function, construction, and multi-component interactions involved in well-constructed plastics tooling.

Product Design and Development: An Engineering Technology

Program Coordinator: Megumi Usui

Location: Engineering Technology Building, Room 214

Telephone Contact: Sheri Eddington, 801-626-6305

The Product Design and Development program prepares students to develop product design and development drawings. 3D models, reports, presentations, technical illustrations, interactive multimedia, and animations for industry. Students will develop their graphical skills, techniques, concepts, and management skills through exercises and projects. They will work in mechanical, electrical, and structural disciplines. Students will use calculators, computers, handbooks, and engineering reference materials while applying various mathematical concepts from geometry, algebra, and trigonometry.

Courses

Associate of Applied Science

Controls Technology (AAS)

Grade Requirements: A grade of "C" or better in all required and support courses (a grade of "C-" is acceptable). Students must have an overall GPA of 2.5 or higher to graduate.

Credit Hour Requirements: A minimum of 69 credit hours is required with a minimum of 23 credit hours in the major with a block of 25 credit hours for the Applied Technology College (ATC) Industrial Automation Maintenance Technician (IAMT) certification. Transfer students are required to take a minimum of 20 credit hours at Weber State University.

- **Program Code:** 8079AAS
- **CIPC:** 150406

Advisement

All Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 to schedule an appointment.

Admission Requirements

See the department secretary to declare your program of study (major - see Enrollment Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. Consult with your advisor for specific general education guidelines.

Course Requirements for Controls Technology AAS Degree

Required Engineering Technology Courses (23 credit hours)

- EET 1130 - Digital Systems **Credits: (4)**
- EET 1140 - DC Circuits **Credits: (3)**
- EET 2010 - AC Circuits **Credits: (3)**
- AVET 2120 - Power and Motors **Credits: (4)**
- AVET 2170 - Industrial Controls **Credits: (3)**
- MFET 2410 - Quality Concepts and Statistical Applications **Credits: (3)**
- MFET 4580 - Process Automation II & Robotics **Credits: (1)**
- MFET 4585 - Process Automation II Lab **Credits: (2)**

Required Support Course (25 credit hours)

Students must complete the Industrial Automation Maintenance certification consisting of at least 900 hours at the collaborating ATCs: DATC, OWATC, BATC. The certificate will transfer as a block of 25 credit hours toward the Controls Technology degree.

Required General Education Courses (21 credit hours)

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ECON 1010 SS - Economics as a Social Science **Credits: (3)**
- ENGL 1010 EN1 - Introductory College Writing **Credits: (3)**
- MATH 1010 - Intermediate Algebra **Credits: (4-5)**
- MATH 1060 QL - Trigonometry **Credits: (3)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- WEB 1701 - Document Creation **Credits: (1)**
- WEB 1703 - Data Manipulation, Visualization, and Presentation **Credits: (1)**

Manufacturing Engineering Technology (AAS)

Areas of Concentration

Select one of the following areas of concentration

- Manufacturing Engineering Technology (AAS), Plastics and Composites Concentration
- Manufacturing Engineering Technology (AAS), Production Operations and Control Concentration
- Manufacturing Engineering Technology (AAS), Welding Engineering Technology Emphasis

Manufacturing Engineering Technology (AAS), Plastics and Composites Concentration

Manufacturing Engineering Technology

- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements.
- **Credit Hour Requirements:** Credit hours vary as shown for different concentration areas: the AAS in Manufacturing Engineering Technology with a Production Operations and Control Concentration requires 66-68 credit hours, the AAS in Manufacturing Engineering Technology with a Welding Concentration requires 63-65 credit hours, and the AAS in Manufacturing Engineering Technology with a Plastics and Composites Concentration requires 63-65 credit hours. Transfer students are required to take a minimum of 20 credit hours at Weber State University.
- **Assessment Requirements:** Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see your advisor or your department for specific information regarding assessment.
- **Program Code:** Manufacturing (8037AAS), with Concentration in Plastics & Composites (8058), Production Ops & Control (8059), or Welding Engineering Technology (8118).
- **CIPC:** Manufacturing (150613), with Concentration in Plastics & Composites (150607), Production Ops & Controls (150613), or Welding (150614).

Advisement

All Manufacturing Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. Information Literacy as defined in this catalog is also required for the AAS degree. Consult with your advisor for specific general education guidelines.

Course Requirements for the AAS Degree

Core Courses (44-48 credit hours)

AAS Degree requirements for an AAS Degree in Manufacturing Engineering Technology, Production Operations and Controls Concentration, an AAS Degree in Manufacturing Engineering Technology with a Welding Concentration, or an AAS Degree in Manufacturing Engineering Technology with a Plastics and Composites Concentration will be met by completing the first two years of the respective BS Degree. All AAS Degrees will have the following core courses in common.

Please see your academic advisor for additional general education requirements.

Manufacturing Engineering Technology Courses Required (15 credit hours)

- MFET 1000 - Manufacturing Engineering Technology Fundamentals **Credits: (3)**
- MFET 1210 - Machining Principles Lecture/Lab I **Credits: (3)**
- MFET 2310 - Statics for Engineering Technology **Credits: (3)**
- MFET 2410 - Quality Concepts and Statistical Applications **Credits: (3)**
- MFET 2500 - Process Automation I **Credits: (1)**
- MFET 2510 - Process Automation I Lab **Credits: (2)**

Technical Courses Required (10 credit hours)

- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD **Credits: (3)**
- EET 1850 - Industrial Electronics **Credits: (4)** or
- MFET 1820 - Manufacturing Electricity and Electronics **Credits: (4)** (recommended for Welding Concentration)

Support Courses Required (19-22 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
* **Note: COMM 1020 or 2110 count towards Gen Ed as Humanities (HU) credits.**
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- PHYS 2010 PS - College Physics I **Credits: (5)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- MATH 1060 QL - Trigonometry **Credits: (3)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- MATH 1110 QL - Calculus Concepts and Applications **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**

Other Courses Required (4 credit hours)

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
(prerequisite is ENGL 1010 EN1 - Introductory College Writing **(3)** or equivalent)
- **Computer Information Literacy Credits: (1)**
- LIBS 1704 - Information Navigator **Credits: (1)**

Additional Courses Required by Concentration Area

Plastics and Composites Concentration (9 credit hours)

- MFET 2320 - Mechanics of Materials **Credits: (3)**
- MFET 2850 - CNC/CAM for Plastics and Composites Lecture/Lab **Credits: (3)**
- MFET 2860 - Plastics/Composites Materials & Properties **Credits: (3)**

Note:

* These courses will also fulfill general education requirements.

Manufacturing Engineering Technology (AAS), Production Operations and Control Concentration

Manufacturing Engineering Technology

- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements.
- **Credit Hour Requirements:** Credit hours vary as shown for different concentration areas: the AAS in Manufacturing Engineering Technology with a Production Operations and Control Concentration requires 66-68 credit hours, the AAS in Manufacturing Engineering Technology with a Welding Concentration requires 63-65 credit hours, and the AAS in Manufacturing Engineering Technology with a Plastics and

Composites Concentration requires 63-65 credit hours. Transfer students are required to take a minimum of 20 credit hours at Weber State University.

- **Assessment Requirements:** Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see your advisor or your department for specific information regarding assessment.
- **Program Code:** Manufacturing (8037AAS), with Concentration in Plastics & Composites (8058), Production Ops & Control (8059), or Welding Engineering Technology (8118).
- **CIPC:** Manufacturing (150613), with Concentration in Plastics & Composites (150607), Production Ops & Controls (150613), or Welding (150614).

Advisement

Additional Courses Required by Concentration Area

Welding Engineering Technology (9 credit hours)

- MFET 2150 - Metal Forming, Casting and Welding **Credits: (2)** and
- MFET 2150L - Metal Forming, Casting & Welding Lab **Credits: (1)**
- PDD 2460 - Product Design Fundamentals Using 3D CAD **Credits: (3)**
- MFET 2670 - GMA, FCA and GTA Welding **Credits: (1)** and
- MFET 2670L - GMA, FCA and GTA Welding Lab **Credits: (2)**

Note:

** These courses will also fulfill general education requirements.*

Product Design and Development (AAS)

- **Grade Requirements:** A grade of "C" or better in all required technical courses, and support courses (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher.
- **Credit Hour Requirements:** 64-66 total hours (depending on which math option is chosen) are required (24) of which are required within the program. A minimum of 20 hours in residency (WSU courses).
- **Product Code:** 8080AAS
- **CIPC:** 151399

Advisement

Students are required to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6305 for more information or to schedule an appointment. Advisement may also be obtained in Engineering Technology, room 214.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to the Degree Requirements for Associate of Applied Science requirements.

Program Learning Outcomes

- An ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly defined engineering problems in Product Design and Development Engineering Technology related to applied mechanical design using advanced software tools and techniques.
- An ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems in Product Design and Development Engineering Technology.

- An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes
- An ability to function effectively as a member as well as a leader on technical teams
- An ability to apply written, oral, and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.
- ABET Outcomes
 - (a) engineering materials, applied mechanics, and manufacturing methods.
 - (b) applied drafting practice emphasizing mechanical components and systems, as well as fundamentals of descriptive geometry, orthographic projection, sectioning, tolerancing and dimensioning, and basic computer aided drafting and design with technical depth in at least one of these areas.
 - (c) the application of physics and engineering materials having an emphasis in applied mechanics, or in-depth application of physics having emphasis in mechanical components and design.

Major Course Requirements for AAS Degree

Product Design and Development Courses Required (15 credit hours)

- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- PDD 1030 - Introduction to Product Design and Development **Credits: (3)**
- PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD **Credits: (3)**
- PDD 2460 - Product Design Fundamentals Using 3D CAD **Credits: (3)**
- PDD 2650 - Product Design & Development **Credits: (3)**

Technical Support Courses Required (12 credit hours)

- MFET 1210 - Machining Principles Lecture/Lab I **Credits: (3)**
- MFET 2150 - Metal Forming, Casting and Welding **Credits: (2)**
- MFET 2150L - Metal Forming, Casting & Welding Lab **Credits: (1)**
- MFET 2410 - Quality Concepts and Statistical Applications **Credits: (3)**
- MFET 2440 - Computer Numeric Control (CNC) in Manufacturing **Credits: (2)**
- MFET 2440L - CNC in Manufacturing Lab **Credits: (1)**

Technical Electives (2 credit hours minimum)

A minimum of 2 credit hours of technical electives chosen from the following list or approved by the program coordinator are required.

- PDD 2830 - Directed Readings **Credits: (1-3)**
- MFET 1000 - Manufacturing Engineering Technology Fundamentals **Credits: (3)**
- MFET 1820 - Manufacturing Electricity and Electronics **Credits: (4)**
- MFET 2670 - GMA, FCA and GTA Welding **Credits: (1)** and
- MFET 2670L - GMA, FCA and GTA Welding Lab **Credits: (2)**
- MFET 2860 - Plastics/Composites Materials & Properties **Credits: (3)**
- MFET 2870 - Design of Plastics/Composites Products **Credits: (3)**

Support Courses Required (16-18 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

- MATH 1080 QL - Pre-calculus **Credits: (5)**
OR
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**

- CHEM 1010 PS - Introductory Chemistry **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)**

Institutional Certificate

Product Design and Development Certificate of Proficiency

- **Grade Requirements:** A grade of "C" or better must be earned in all required PDD courses (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** 18 credit hours.
- **Program Code:** 8111CP
- **CIPC Code:** 151399

Advisement

Students are required to meet with an academic advisor at least annually for course and program advisement. Call 801-626-6305 for more information or to schedule an appointment. Advisement may also be obtained in Engineering Technology, room 214.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

Program Learning Outcomes

- An ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly defined engineering problems in Product Design and Development Engineering Technology related to applied mechanical design using advanced software tools and techniques.
- An ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems in Product Design and Development Engineering Technology.
- An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes
- An ability to function effectively as a member as well as a leader on technical teams
- An ability to apply written, oral, and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.

Course Requirements

Required Courses (15 credit hours)

- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- PDD 1030 - Introduction to Product Design and Development **Credits: (3)**
- PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD **Credits: (3)**
- PDD 2460 - Product Design Fundamentals Using 3D CAD **Credits: (3)**
- PDD 2650 - Product Design & Development **Credits: (3)**

Elective Courses (3 credit hours)

Select one from the following courses:

- PDD 3100 - Tool Design **Credits: (3)**
- PDD 3210 - Machines and Mechanisms **Credits: (3)**
- PDD 3300 - Applied Kinematic Analysis **Credits: (3)**
- PDD 3460 - Parametric Design Graphics **Credits: (3)**
- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**

Bachelor of Science

Design Engineering Technology (BS)

This major has been renamed Product Design and Development (BS).

Manufacturing Engineering Technology (BS)

Areas of Concentration

Select one of the following areas of concentration

- Manufacturing Engineering Technology (BS), Plastics and Composites Concentration
- Manufacturing Engineering Technology (BS), Production Operations and Controls Concentration
- Manufacturing Engineering Technology (BS), Welding Concentration

Manufacturing Engineering Technology (BS), Plastics and Composites Concentration

Manufacturing Engineering Technology

- **Program Prerequisite:** Not required.
- **Minor:** Not required.

- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements section of this catalog. Seniors may petition to have one C- allowed in major and support courses. Approval from the Program Coordinator and Department Chair is required.
- **Credit Hour Requirements:** Credit hours vary as shown for different concentration areas: the BS in Manufacturing Engineering Technology with a Production Operations and Control Concentration requires 126.5 credit hours, the BS in Manufacturing Engineering Technology with a Welding Concentration requires 123.5 credit hours, and the BS in Manufacturing Engineering Technology with a Plastics and Composites Concentration requires 125.5 credit hours. A total of 40 upper division credit hours is also required (courses numbered 3000 and above). Transfer students are required to take a minimum of 30 credit hours at Weber State University.
- **Program Code:** Manufacturing (8037BS), with Concentration in Plastics & Composites (8058), Production Ops & Controls (8059), or Welding (8060).
- **CIPC:** Manufacturing (150613), with Concentration in Plastics & Composites (150607), Production Ops & Controls (150613), or Welding (150614).

Advisement

All Manufacturing Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Refer to the Program Prerequisite listed above. There are no additional special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Consult with your advisor for specific general education guidelines.

Program Learning Outcomes

- An ability to apply knowledge, techniques, skills, and modern tools of mathematics, science, engineering, or technology related to materials, manufacturing processes, tooling, automation, production operations, maintenance, quality, industrial organization and management, and statistics. To solve broadly defined engineering problems. (Also addresses MFET Program Criteria).
- An ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems.
- Conduct, analyze, and interpret experiments and apply experimental results to improve processes in a realistic, sustainable, and cost-effective manner.
- An ability to function effectively as a member or leader on a technical team.
- An ability to apply written, oral, and graphical communication in both technical, nontechnical, and relevant financial environments; and an ability to identify and use appropriate technical literature.

Major Course Requirements for BS Degree

Plastics and Composites Concentration

To be taken in addition to the courses required for the AAS Degree in Manufacturing Engineering Technology with a Plastics and Composites Concentration.

Manufacturing Engineering Technology Courses Required (48.5 credit hours)

- MFET 2870 - Design of Plastics/Composites Products **Credits: (3)**
- MFET 3340 - Applied Fluid Power **Credits: (2)** and
- MFET 3340L - Applied Fluid Power Lab **Credits: (1)**
- MFET 3350 - Plastic and Composite Manufacturing **Credits: (2)** and
- MFET 3350L - Plastic and Composite Manufacturing Lab **Credits: (2)**
- MFET 3550 - Manufacturing Supervision **Credits: (3)**
- MFET 3620 - Senior Capstone Project Planning **Credits: (.5)**
- MFET 3830 - Reinforced Plastics/Advanced Composite Lecture/Lab **Credits: (3)**
- MFET 3870 - Mold Design and Process Strategies Lecture/Lab **Credits: (3)**
- MFET 4580 - Process Automation II & Robotics **Credits: (1)** and
- MFET 4585 - Process Automation II Lab **Credits: (2)**
- MSE 4590 - Lean Manufacturing Systems **Credits: (3)**
- MFET 4610 - Senior Project Management & Cost Estimating **Credits: (3)**
- MFET 4610L - Senior Project Lab **Credits: (2)**
- MFET 4620L - Senior Project Lab **Credits: (2)**
- MFET 4995 - Certified Manufacturing Technologist (CMfgT) Exam Review **Credits: (1)**
- MET 3150 - Engineering Technology Materials **Credits: (3)**
- MET 4650 - Thermal Science **Credits: (3)**
- MSE 3700 - Manufacturing Systems I **Credits: (3)**
- MSE 3850 - Statistical Process Control and Reliability **Credits: (3)**
- MSE 3910 - Six Sigma Methods and Tools in Manufacturing **Credits: (3)**

Technical Electives (2 credit hours minimum)

A minimum of 2 credit hours of technical electives chosen from the following list are required.

- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**
- MFET 3460 - Engineering Design using Solid Modeling **Credits: (2)** and
- MFET 3460L - Engineering Design using Solid Modeling Lab **Credits: (1)**
- MFET 3710 - Computer Aided Manufacturing and Rapid Prototyping **Credits: (2)** and
- MFET 3710L - Computer Aided Manufacturing and Rapid Prototyping Lab **Credits: (1)**
- MFET 3890 INT - Cooperative Work Experience **Credits: (1-3)** or
- MFET 4890 INT - Cooperative Work Experience **Credits: (1-3)**
- PS 3702 - Developing Team Leadership Skills **Credits: (2)**
- Other classes approved by your MFET advisor

Manufacturing Engineering Technology (BS), Production Operations and Controls Concentration

Manufacturing Engineering Technology

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements section of this catalog. Seniors may petition to have one C- allowed in major and support courses. Approval from the Program Coordinator and Department Chair is required.
- **Credit Hour Requirements:** Credit hours vary as shown for different concentration areas: the BS in Manufacturing Engineering Technology with a Production Operations and Control Concentration requires 126.5 credit hours, the BS in Manufacturing Engineering Technology with a Welding Concentration requires 123.5 credit hours, and the BS in Manufacturing Engineering Technology with a Plastics and Composites Concentration requires 125.5 credit hours. A total of 40 upper division credit hours is also required (courses numbered 3000 and above). Transfer students are required to take a minimum of 30 credit hours at Weber State University.
- **Program Code:** Manufacturing (8037BS), with Concentration in Plastics & Composites (8058), Production Ops & Controls (8059), or Welding (8060).
- **CIPC:** Manufacturing (150613), with Concentration in Plastics & Composites (150607), Production Ops & Controls (150613), or Welding (150614).

Advisement

All Manufacturing Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Refer to the Program Prerequisite listed above. There are no additional special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Consult with your advisor for specific general education guidelines.

Program Learning Outcomes

- An ability to apply knowledge, techniques, skills, and modern tools of mathematics, science, engineering, or technology related to materials, manufacturing processes, tooling, automation, production operations, maintenance, quality, industrial organization and management, and statistics. To solve broadly defined engineering problems. (Also addresses MFET Program Criteria).
- An ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems.

- Conduct, analyze, and interpret experiments and apply experimental results to improve processes in a realistic, sustainable, and cost-effective manner.
- An ability to function effectively as a member or leader on a technical team.
- An ability to apply written, oral, and graphical communication in both technical, nontechnical, and relevant financial environments; and an ability to identify and use appropriate technical literature.

Major Course Requirements for BS Degree

Production Operations and Control Concentration

To be taken in addition to the courses required for the AAS Degree in Manufacturing Engineering Technology with a Production Operations and Control Concentration.

Required Courses for Major (45.5 credit hours)

- MFET 3340 - Applied Fluid Power **Credits: (2)** and
- MFET 3340L - Applied Fluid Power Lab **Credits: (1)**
- MFET 3350 - Plastic and Composite Manufacturing **Credits: (2)** and
- MFET 3350L - Plastic and Composite Manufacturing Lab **Credits: (2)**
- MFET 3550 - Manufacturing Supervision **Credits: (3)**
- MFET 3620 - Senior Capstone Project Planning **Credits: (.5)**
- MFET 3710 - Computer Aided Manufacturing and Rapid Prototyping **Credits: (2)** and
- MFET 3710L - Computer Aided Manufacturing and Rapid Prototyping Lab **Credits: (1)**
- MFET 4580 - Process Automation II & Robotics **Credits: (1)** and
- MFET 4585 - Process Automation II Lab **Credits: (2)**
- MFET 4610 - Senior Project Management & Cost Estimating **Credits: (3)**
- MFET 4610L - Senior Project Lab **Credits: (2)**
- MFET 4620L - Senior Project Lab **Credits: (2)**
- MFET 4995 - Certified Manufacturing Technologist (CMfgT) Exam Review **Credits: (1)**
- MET 3150 - Engineering Technology Materials **Credits: (3)**
- MET 3400 - Machine Design for Engineering Technology **Credits: (3)** Or
- PDD 3210 - Machines and Mechanisms **Credits: (3)**
- MSE 3700 - Manufacturing Systems I **Credits: (3)**
- MSE 3850 - Statistical Process Control and Reliability **Credits: (3)**
- MSE 3910 - Six Sigma Methods and Tools in Manufacturing **Credits: (3)**
- MSE 4590 - Lean Manufacturing Systems **Credits: (3)**
- PDD 3100 - Tool Design **Credits: (3)**

Technical Electives (3 credit hours)

A minimum of 3 credit hours of technical electives chosen from the following list are required.

- PDD 3460 - Parametric Design Graphics **Credits: (3)**

- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**
- MFET 2850 - CNC/CAM for Plastics and Composites Lecture/Lab **Credits: (3)**
- MFET 2860 - Plastics/Composites Materials & Properties **Credits: (3)**
- MFET 2870 - Design of Plastics/Composites Products **Credits: (3)**
- MFET 3460 - Engineering Design using Solid Modeling **Credits: (2)** and
- MFET 3460L - Engineering Design using Solid Modeling Lab **Credits: (1)**
- MFET 3830 - Reinforced Plastics/Advanced Composite Lecture/Lab **Credits: (3)**
- MFET 3890 INT - Cooperative Work Experience **Credits: (1-3)** or
- MFET 4890 INT - Cooperative Work Experience **Credits: (1-3)**
- MFET 4850 - Integration of Automated Systems **Credits: (3)**
- PS 3103 - Sales Personalities and Profiles **Credits: (3)**
- PS 4203 - Ethical Sales and Service **Credits: (3)**
- Other classes approved by your MFET advisor

Note:

Please note that there are additional General Education requirements to complete the degree.

Manufacturing Engineering Technology (BS), Welding Concentration

Manufacturing Engineering Technology

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements section of this catalog. Seniors may petition to have one C- allowed in major and support courses. Approval from the Program Coordinator and Department Chair is required.
- **Credit Hour Requirements:** Credit hours vary as shown for different concentration areas: the BS in Manufacturing Engineering Technology with a Production Operations and Control Concentration requires 126.5 credit hours, the BS in Manufacturing Engineering Technology with a Welding Concentration requires 123.5 credit hours, and the BS in Manufacturing Engineering Technology with a Plastics and Composites Concentration requires 125.5 credit hours. A total of 40 upper division credit hours is also required (courses numbered 3000 and above). Transfer students are required to take a minimum of 30 credit hours at Weber State University.
- **Program Code:** Manufacturing (8037BS), with Concentration in Plastics & Composites (8058), Production Ops & Controls (8059), or Welding (8060).
- **CIPC:** Manufacturing (150613), with Concentration in Plastics & Composites (150607), Production Ops & Controls (150613), or Welding (150614).

Advisement

All Manufacturing Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Refer to the Program Prerequisite listed above. There are no additional special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Consult with your advisor for specific general education guidelines.

Program Learning Outcomes

- An ability to apply knowledge, techniques, skills, and modern tools of mathematics, science, engineering, or technology related to materials, manufacturing processes, tooling, automation, production operations, maintenance, quality, industrial organization and management, and statistics. To solve broadly defined engineering problems. (Also addresses MFET Program Criteria).
- An ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems.
- Conduct, analyze, and interpret experiments and apply experimental results to improve processes in a realistic, sustainable, and cost-effective manner.
- An ability to function effectively as a member or leader on a technical team.
- An ability to apply written, oral, and graphical communication in both technical, nontechnical, and relevant financial environments; and an ability to identify and use appropriate technical literature.

Major Course Requirements for BS Degree

Welding Concentration

To be taken in addition to the courses required for the AAS Degree in Manufacturing Engineering Technology with a Welding Concentration.

Manufacturing Engineering Technology Courses Required (42.5 credit hours)

- MFET 2320 - Mechanics of Materials **Credits: (3)**
- MFET 3060 - Codes, Weld Inspection, and Quality Assurance **Credits: (3)**
- MFET 3550 - Manufacturing Supervision **Credits: (3)**
- MFET 3620 - Senior Capstone Project Planning **Credits: (.5)**
- MFET 3630 - Fusion Joining and Brazing Processes **Credits: (2)** and
- MFET 3630L - Fusion Joining and Brazing Processes **Credits: (1)**
- MFET 3750 - Welding Metallurgy I **Credits: (2)** and
- MFET 3750L - Welding Metallurgy I Lab **Credits: (1)**
- MFET 3760 - Welding Metallurgy II **Credits: (2)** and

- MFET 3760L - Welding Metallurgy II Lab **Credits: (1)**
- MFET 3820 - Nondestructive Testing **Credits: (3)**
- MFET 4090 - Welding Power Sources **Credits: (2)**
- MFET 4315 - Welding Robotics **Credits: (2)**
- MFET 4610 - Senior Project Management & Cost Estimating **Credits: (3)**
- MFET 4610L - Senior Project Lab **Credits: (2)**
- MFET 4620L - Senior Project Lab **Credits: (2)**
- MFET 4995 - Certified Manufacturing Technologist (CMfgT) Exam Review **Credits: (1)**
- MSE 3850 - Statistical Process Control and Reliability **Credits: (3)**
- MSE 3910 - Six Sigma Methods and Tools in Manufacturing **Credits: (3)**
- MSE 4590 - Lean Manufacturing Systems **Credits: (3)**

Technical Electives (6 credit hours minimum)

A minimum of 6 credit hours of technical electives chosen from the following list are required.

- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**
- MFET 3350 - Plastic and Composite Manufacturing **Credits: (2)** and
- MFET 3350L - Plastic and Composite Manufacturing Lab **Credits: (2)**
- MFET 3460 - Engineering Design using Solid Modeling **Credits: (2)** and
- MFET 3460L - Engineering Design using Solid Modeling Lab **Credits: (1)**
- MFET 3890 INT - Cooperative Work Experience **Credits: (1-3)** or
- MFET 4890 INT - Cooperative Work Experience **Credits: (1-3)**
- PS 3702 - Developing Team Leadership Skills **Credits: (2)**
- Other classes approved by your MFET advisor

Manufacturing Systems Engineering (BS)

- **Program Prerequisite:** Not required, but a strong math background is suggested.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.50 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements section of this catalog.
- **Credit Hour Requirements:** Credit hours vary as shown for different emphasis areas: the BS in Manufacturing Systems Engineering requires 125.5 - 126 credit hours. A total of 40 upper division credit hours is also required (courses numbered 3000 and above). Transfer students are required to take a minimum of 30 credit hours at Weber State University.
- **Program Code:** 8083BS
- **CIPC:** 142701

Accreditation

The Weber State University Manufacturing Systems Engineering program will seek accreditation by the Engineering Accreditation Commission (EAC) of ABET upon first graduate.

Advisement

All Manufacturing Systems Engineering students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Refer to the Program Prerequisite on the previous page. There are no additional special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Consult with your advisor for specific general education guidelines.

Program Learning Outcomes

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Major Course Requirements for MSE BS Degree

Manufacturing Systems Engineering Required Courses (44 credit hours)

- MSE 1210 - Metal Processing and Joining for Engineers **Credits: (3)**
- MSE 3040 - Cost Estimating and Engineering Economic Analysis **Credits: (3)**
- MSE 3360 - Manufacturing Process and Materials Lab **Credits: (3)**
- MSE 3460 - Product Design and Development **Credits: (3)**
- MSE 3700 - Manufacturing Systems I **Credits: (3)**
- MSE 3710 - Computer Aided Manufacturing and Additive Manufacturing/Lab **Credits: (3)**
- MSE 3850 - Statistical Process Control and Reliability **Credits: (3)**
- MSE 3910 - Six Sigma Methods and Tools in Manufacturing **Credits: (3)**
- MSE 4010 - Facility Design and Material Handling **Credits: (3)**
- MSE 4590 - Lean Manufacturing Systems **Credits: (3)**

- MSE 4600 - Production Systems Modeling and Analysis/Lab **Credits: (3)**
- MSE 4610 - Project Management for Engineers **Credits: (3)**
- MSE 4615 - Lab: Senior Project Design I **Credits: (2)**
- MSE 4620 - Lab: Senior Project Design II **Credits: (3)**
- MSE 4700 - Manufacturing Systems Engineering II **Credits: (3)**

Technical Elective Course (Minimum 3 credit hours)

- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**

Pre-Engineering Required Courses (19 credits)

- ENGR 1000 - Introduction to Engineering **Credits: (2)**
- ENGR 2010 - Statics **Credits: (3)**
- ENGR 2030 - Dynamics **Credits: (3)**
- ENGR 2140 - Mechanics of Materials **Credits: (3)**
- ENGR 2160 - Materials Science and Engineering **Credits: (3)**
- ECE 2210 - Electrical Engineering for Non-majors **Credits: (4)**

Required Technical Courses (9 credit hours)

- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD **Credits: (3)**
- MFET 3550 - Manufacturing Supervision **Credits: (3)**

Additional Manufacturing Systems Engineering Courses (required department approval)

- MSE 4800 - Individual Research Problems **Credits: (1-3)**
- MSE 4830 - Directed Readings for Manufacturing Systems Engineering **Credits: (1-3)**
- MSE 4890 INT - Cooperative Work Experience **Credits: (1-3)**
- MSE 4900 - Special Topics **Credits: (1-3)**
- MSE 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- MSE 5010 - Foundation of Systems Engineering **Credits: (3)**
- MSE 5020 - Engineering Project and Program Management **Credits: (3)**
- MSE 5140 - Design for Operational Feasibility **Credits: (3)**

Required Support Courses (minimum of 12 credit hours)

- MATH 1220 - Calculus II **Credits: (4)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)** (and Lab)

Suggested for continuing for a Master's degree in Industrial/Systems Engineering:

- MATH 2210 - Calculus III **Credits: (4)**

- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)**

Required General Education Courses (38.5-39 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)** (*prerequisite is ENGL 1010 or equivalent*)
- MATH 1210 - Calculus I **Credits: (4)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- American Institutions (AI) **Credits: (3)**
- Information Literacy **Credits: (.5-1)**
- Humanities and Creative Arts (HU/CA) **Credits: (6)**
- Social Science and Diversity (SS/DV) **Credits: (3)**
- Life Science (LS) **Credits: (3)**

Product Design and Development (BS)

- **Program Prerequisite:** Complete AAS degree in Product Design and Development (formerly DET): An Engineering Technology from Weber State University or equivalent degree or coursework from an accredited AAS program.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all required technical courses, and support courses is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements section of this catalog.
- **Credit Hour Requirements:** A total of 124-126 credit hours (depending on which math option is chosen) is required for graduation. A total of 40 upper division credit hours is required (courses numbered 3000 and above.) A minimum of 30 hours in residency (WSU courses).
- **Program Code:** 8080BS
- **CIPC:** 151399

Advisement

All four-year design engineering technology students are required to meet at least annually with a faculty advisor for course and program advisement. Call 801-626-6305 for more information or to schedule an appointment. Advisement may also be obtained in Engineering Technology, room 214.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Refer to the Program Prerequisite in the previous column. There are no additional special admissions or application requirements for this program.

General Education

Refer to the Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Effective technical communication skills, including written, oral and graphical
- Have obtained the requisite knowledge and have acquired the technical skills to be successful in the discipline.
- The ability to function as a member of a project team.
- Problem solving skills related to the discipline.
- Knowledge of the national standards used in the discipline and the ability to apply national standards in the development of design documentation and graphics presentations.

Major Course Requirements for BS Degree

To be taken in addition to the requirements for the Product Design and Development (AAS).

Product Design and Development Courses Required (24 credit hours)

- PDD 3100 - Tool Design **Credits: (3)**
- PDD 3210 - Machines and Mechanisms **Credits: (3)**
- PDD 3300 - Applied Kinematic Analysis **Credits: (3)**
- PDD 3460 - Parametric Design Graphics **Credits: (3)**
- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**
- PDD 4200 - Advanced Mechanical Design **Credits: (3)**
- PDD 4470 - Advanced CATIA V5 **Credits: (3)**
- PDD 4500 - Hydraulic and Pneumatic Applications **Credits: (3)**

Technical Support Courses Required (23.5 credit hours)

- MET 3150 - Engineering Technology Materials **Credits: (3)**
- MFET 2310 - Statics for Engineering Technology **Credits: (3)**
- MFET 2320 - Mechanics of Materials **Credits: (3)**
- MFET 3550 - Manufacturing Supervision **Credits: (3)**
- MFET 3620 - Senior Capstone Project Planning **Credits: (.5)**
- MFET 3710 - Computer Aided Manufacturing and Rapid Prototyping **Credits: (2)**
- MFET 3710L - Computer Aided Manufacturing and Rapid Prototyping Lab **Credits: (1)**
- MFET 4610 - Senior Project Management & Cost Estimating **Credits: (3)**
- MFET 4610L - Senior Project Lab **Credits: (2)**
- MFET 4620L - Senior Project Lab **Credits: (2)**
- MFET 4995 - Certified Manufacturing Technologist (CMfgT) Exam Review **Credits: (1)**

Technical Electives (6 credit hours minimum)

A minimum of 6 credit hours of upper division technical electives chosen from the following list or approved by the program coordinator are required.

- PDD 4830 - Directed Readings **Credits: (1-3)**

- PDD 4890 INT - Cooperative Work Experience **Credits: (1-3)**
- MET 3500 - Mechanical Measurements and Instrumentation **Credits: (3)**
- MFET 3340 - Applied Fluid Power **Credits: (2)**
- MFET 3340L - Applied Fluid Power Lab **Credits: (1)**
- MFET 3350 - Plastic and Composite Manufacturing **Credits: (2)**
- MFET 3350L - Plastic and Composite Manufacturing Lab **Credits: (2)**
- MFET 3460 - Engineering Design using Solid Modeling **Credits: (2)**
This course is recommended for PDD students.
- MFET 3460L - Engineering Design using Solid Modeling Lab **Credits: (1)**
This course is recommended for PDD students.
- MSE 3850 - Statistical Process Control and Reliability **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**

Support Courses Required (6 credit hours)

- Humanities Electives (3)*
- Life Science Elective (3)*

**These courses will also fulfill general education requirements.*

Emphasis Option for Bachelor of Interdisciplinary Studies

Production and Inventory Control (APICS) Concentration (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Refer to the Bachelor of Integrated Studies Program for the general and specific requirements for the BIS degree.
- **Credit Hour Requirements:** A total of 18 credit hours of courses is required for the APICS concentration portion of this degree.
- **Program Code:** 8041
- **CIPC:** 520203

BIS Option in Production and Inventory Control

The Manufacturing Engineering Technology department offers those courses required by APICS The Association for Operations Management for a continuing education certificate in Production and Inventory Control Technology. The following courses indicated with an asterisk (*) prepare one to take the APICS Certification Exam as well as receive the above certificate. In addition, if these courses are taken in conjunction with the other courses listed below or other courses approved by the department chair, all of these may then be used to fill one of the three areas required for a Bachelor of Integrated Studies degree. The courses must be taken for credit and the area of emphasis will be in Production and Inventory Control (not Manufacturing Engineering Technology).

The course of study described below must be approved by the MFET department chair.

Course Requirements for BIS Emphasis

Manufacturing Engineering Technology Courses Required (18 credit hours)

- MFET 3510 - Basics of Supply Chain Management **Credits: (2) ***
- MFET 3550 - Manufacturing Supervision **Credits: (3)**
- MFET 4050 - Detailed Scheduling and Planning I **Credits: (2) ***
- MFET 4150 - Execution and Control of Operations **Credits: (2) ***
- MFET 4250 - Detailed Scheduling and Planning **Credits: (2) ***
- MFET 4750 - Master Planning of Resources **Credits: (2) ***
- MFET 4770 - Strategic Management of Resources **Credits: (2) ***
- Electives to be determined by an MFET Advisor **(3)**

Note:

** Online course*

Minor

Product Design and Development Minor

- **Grade Requirements:** A grade of "C" or better must be earned in all required PDD courses (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** 18 credit hours for the Minor.
- **Program Code:** 8112
- **CIPC Code:** 151399

Advisement

Students are required to meet with an academic advisor at least annually for course and program advisement. Call 801-626-6305 for more information or to schedule an appointment. Advisement may also be obtained in Engineering Technology, room 214.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

Program Learning Outcomes

1. An ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly defined engineering problems in Product Design and Development Engineering Technology related to applied mechanical design using advanced software tools and techniques.
2. An ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems in Product Design and Development Engineering Technology.
3. An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes

4. An ability to function effectively as a member as well as a leader on technical teams
5. An ability to apply written, oral, and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.

Course Requirements

Required Courses (15 credit hours)

- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- PDD 1030 - Introduction to Product Design and Development **Credits: (3)**
- PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD **Credits: (3)**
- PDD 2460 - Product Design Fundamentals Using 3D CAD **Credits: (3)**
- PDD 2650 - Product Design & Development **Credits: (3)**

Elective Courses (3 credit hours)

Select one from the following courses:

- PDD 3100 - Tool Design **Credits: (3)**
- PDD 3210 - Machines and Mechanisms **Credits: (3)**
- PDD 3300 - Applied Kinematic Analysis **Credits: (3)**
- PDD 3460 - Parametric Design Graphics **Credits: (3)**
- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**

Post Baccalaureate Certificate

Model-based Systems Engineering (MBSE) Systems Architect Post Baccalaureate Certificate

The Industry-based Post-Bachelor's Certificate in Model-based Systems Engineering (MBSE) is a launching point for enhancing systems engineering skills in the systems engineering workplace and modern systems community, and continuing education toward a Master of Science in Systems Engineering.

This Certificate will prepare students and current industry Systems Engineering practitioners with current and emerging knowledge, skills, and abilities in model-based systems engineering (MBSE). At completion, students will be proficient with Magic Systems of Systems Architect, which is the current preferred MBSE software tool for the local industry partners. Additionally, students will gain valuable skills in implementing architecting complex systems using best practices, methods, and frameworks. This Certificate will give students a significant competitive advantage in the marketplace.

The Certificate will consist of four courses, totally 10 credit hours, and can be completed in one year (two semesters).

- **Program Prerequisite:** SE 6010 or equivalent from another university
- **Credit Hour Requirements:** 10
- **Program Code:** 8119PBC
- **CIPC:** 142701

Grade Requirements:

- A student's GPA for the cumulative Graduate Certificate coursework must be a minimum of 3.0.
- A student must earn a minimum of "B-" in courses included within the Certificate while meeting the cumulative 3.0 GPA minimum.
- Note: If the student wishes to transfer to the MSSE program, then a grade of "B" or higher is required.

Time Limit: A student is expected to complete all work within four semesters from the date of first enrollment in the certificate program. A student who fails to complete requirements within four semesters may be withdrawn and required to apply for readmission. Students exceeding this limit must submit a petition to the program requesting additional time to complete the certificate. Petitions must describe why they were unable to complete their certificate during the requisite time frame, the amount of work remaining, timeline for completion, and the term in which they expect to complete the certificate.

The program will place a notation of "below minimum academic requirements" on the academic record at the end of the term in which a student's cumulative GPA falls below a 2.0. The program may decide whether unsatisfactory academic standing may be a basis for placing a student on academic probation. A student with unsatisfactory academic standing will not be advanced and will not be awarded a graduate certificate.

Upon the recommendation of the program director, a student will be given an opportunity to correct the academic deficiency and return to satisfactory academic standing. A student with unsatisfactory academic standing must provide documentation including: reasons for the poor academic record; explain how conditions that produced this performance have changed; and present specific plans for improvement. A student whose cumulative GPA falls below a 2.0, is not making satisfactory progress toward the degree, and is failing to succeed in the plan of studies, may be denied permission to register, required to withdraw, or dismissed from the program.

Repeating a Course

A student may repeat a course with permission of the program and course instructor. A student may repeat a single course once and is granted only 2 total repeat opportunities.

Advisement

Contact program.

Admission Requirements

Minimum Qualifications

Applicants for admission into the MBSE Certificate program should have completed SE 6010 with a minimum of a "B" or have least 5 years of professional Systems Engineering experience.

SE 6010 taken prior to Fall 2024 is not eligible for transfer to meet the SE 6010 pre-requisite.

Preferred Qualifications

Preferred applicants have at least 7 years of professional Systems Engineering experience, possess a current INCOSE Systems Engineering certification, and possess a B.Sc. in engineering (EAC), engineering-technology (ETAC), or computing (CAC) from an ABET accredited program with a minimum of Calculus I and STEM Statistics. B.Sc. in any other related subject is on a case-by-case basis only. A minimum overall GPA of 3.0 is required from the undergraduate program in which the bachelor's degree is earned; a 3.3 is preferred. The program reviews the student portfolio, including bachelors program, calculus and statistics grades, rigor of courses taken (upper division), work experience, professional certifications, and participation in the systems community). Each application is reviewed on a case-by-case basis and acceptance and leveling courses are determined at the time of application review.

Applicants will submit:

- Official transcripts from every institution of higher education attended
- 3.0 GPA min to apply, 3.3+ preferred

- Academic Statement of Purpose
- 3 letters of recommendation:
 - Immediate supervisor
 - Another person within student's work organization whom is charge or intimately familiar with the student's responsibilities, future responsibilities, or individual development plan
 - Student's choosing

(The above letters need to clearly indicate experience in systems engineering and current or future need of digital engineering, MBSE, digital twins, digital threads, CAMEO No Magic, SysML etc)

Transfer of Credit

Course transfers into this Certificate will not be available.

Availability

Available seats in this Certificate will go to matriculated Systems Program students first

Program Learning Outcomes

- Demonstrate knowledge of identifying, developing, reading, and interpreting SysML diagrams, agnostic of software tool
- Demonstrate applied use of a framework for architecting
- Demonstrate knowledge of MBSE governance
- Demonstrate applied use of the architecting software tool selected by the program

Major Course Requirements

SE 6380 - MBSE and SysML will cover fundamental concepts of Model-based Systems Engineering (MBSE) practices and principles and will cover the basics of the system modeling language (SysML®) managed by the Object Management Group (OMG). The MSOSA software tool will be introduced and students will be familiarized with it by completing simple tutorials. Student learning outcomes above will be assessed using assignments, exams, and Canvas discussions. This course prepares students to take the OMG-Certified SysML® Professional (OCSMP™) test if they wish.

SE 6385 - Architecting Proposal will be a 1 credit hour course for the students to prepare their proposal for the system they want to architect in SE 6390 and 6400. The instructor will work with them on appropriately scoping their projects during the semester.

SE 6390 - MBSE II builds upon the basics from the MBSE 1 course by architecting a complex system using MSOSA and SysML. This course will predominantly be driven by a course project, where students will architect their systems in their approved proposals. Students will be introduced to the MagicGrid framework for completing their architecting projects. This framework was developed by the vendor of MSOSA in collaboration with industry and government practitioners. The course project will culminate with a final update to their system architecture model, a written lessons learned report, and a presentation. Student learning outcomes above will be assessed using project assignments and Canvas discussions.

SE 6400 - MBSE III explores more advanced capabilities of the MSOSA tool. Students use their project artifacts from MBSE 2 and create additional features and details to their system architecture model, and explore simulation and integration with other tools (e.g., Matlab Simulink and Python). These additional features, while considered more advanced modeling, can be performed concurrently with the development of their system architecture models. Additionally, this course will cover the importance of governing a system architecture model and MBSE project. Students will develop a governance plan and have an opportunity to explore modeling the plan using MSOSA. Like in the MBSE 2 course, the course project will culminate with a final update to their system architecture model, a written lessons learned report, and a presentation.

Required Courses (10 credit hours)

- SE 6380 - Model Based Systems Engineering (MBSE) and SysML **Credits: (3)**
- SE 6385 - Architecting Proposal **Credits: (1)**
- SE 6390 - Model Based Systems Engineering (MBSE) II **Credits: (3)**
- SE 6400 - Model-based Systems Engineering III **Credits: (3)**

Quality and Lean Manufacturing Post Baccalaureate Certificate

The Graduate Institutional Certificate in Quality and Lean Manufacturing prepares students to take the ASQ green belt certification exam or to go on in the MSETM program at Oklahoma State University. Contact the Department for more information.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution in an appropriate field and be working in industry.
- **Grade Requirements:** Students must receive a grade of B or better in every course.
- **Credit Hour Requirements:** 12 credit hours as specified below.
- **Program Code:** 8046PBC
- **CIPC:** 150702

Course Requirements for Graduate Certificate

Required Courses (12 credit hours)

- ETM 5913G - Six Sigma Tools I **Credits: (3)**
- ETM 5923G - Six Sigma Tools II **Credits: (3)**
- ETM 5933G - Lean Tools **Credits: (3)**
- ETM 5943G - Lean-Sigma Implementation **Credits: (3)**

Systems Engineering and Sustainable Engineering Post Baccalaureate Certificate

- **Credit Hour Requirements:** 12 credit hours as specified below.
- **Program Code:** 8096PBC
- **CIPC:** 142701

The Industry-based Post-Bachelor's Certificate in Systems Engineering and Sustainable Engineering is a launching point for gainful employment in the aerospace/manufacturing workplace, professional certification within the International Council of Systems Engineering (INCOSE), and continuing education toward a Master of Science in Systems Engineering.

Grade Requirements:

- A student's GPA for the cumulative Graduate Certificate coursework must be a minimum of 3.0.
- A student must earn a minimum of "C" in courses included within the Certificate while meeting the 3.0 GPA minimum.

Time Limit: A student is expected to complete all work within five semesters from the date of first enrollment in the certificate program. A student who fails to complete requirements within five semesters may be withdrawn and required to apply for readmission. Students exceeding this limit must submit a petition to the program requesting additional time to complete the certificate. Petitions must describe why they were unable to complete their certificate during the requisite time frame, the amount of work remaining, timeline for completion, and the term in which they expect to complete the certificate.

Admissions Requirements

Preferred Qualifications

Applicants for admission into the Master of Science in Systems Engineering program should possess a B.Sc. in engineering (EAC), engineering-technology (ETAC), or computing (CAC) from an ABET accredited program with a minimum of Calculus I and STEM Statistics. B.Sc. in any other related subject is on a case-by-case basis only. A minimum overall GPA of 3.0 is required from the undergraduate program in which the bachelor's degree is earned; a 3.3 is preferred. The program reviews the student portfolio, including bachelors program, calculus and statistics grades, rigor of courses taken (upper division), work experience, professional certifications, and participation in the systems community). Each application is reviewed on a case-by-case basis and acceptance and leveling courses are determined at the time of application review.

Leveling Courses

After being provisionally accepted, leveling courses are determined on a case-by-case basis after the student portfolio is reviewed. These leveling courses would be primarily meeting minimum math, physics, and computer science recommendations of the Systems Engineering program.

Good Academic Standing

A student in good academic standing:

- is demonstrating systems thinking and professionalism during the semester
- is taking personal responsibility and setting themselves up for success
- is making satisfactory progress toward the completion of degree requirements and is within the time limits of the program, including approved extensions
- is demonstrating an ability to succeed in the program; and
- has a cumulative grade point average of 3.0 (B) or better

Unsatisfactory Academic Standing

The program will place a notation of "below minimum academic requirements" on the academic record at the end of the term in which a student's cumulative GPA falls below a 2.0. The program may decide whether unsatisfactory academic standing may be a basis for placing a student on academic probation. A student with unsatisfactory academic standing will not be advanced and will not be awarded a graduate certificate.

Upon the recommendation of the program director, a student will be given an opportunity to correct the academic deficiency and return to satisfactory academic standing.

A student with unsatisfactory academic standing must provide documentation including: reasons for the poor academic record; explain how conditions that produced this performance have changed; and present specific plans for improvement. A student whose cumulative GPA falls below a 2.0, is not making satisfactory progress toward the degree, and is failing to succeed in the plan of studies, may be denied permission to register, required to withdraw, or dismissed from the program.

Repeating a Course

A student may repeat a course with permission of the program and course instructor. Credits for the course may not be earned beyond the limit set by guidelines of the graduate program. A student may repeat a single course once and is granted only 2 total repeat opportunities.

Courses Required (12 credit hours)

- SE 6010 - Foundation of Systems Engineering **Credits: (3)**
- SE 6370 - Requirement Engineering **Credits: (3)**
- SE 6380 - Model Based Systems Engineering (MBSE) and SysML **Credits: (3)**
- SE 6130 - Overview of Systems Engineering Processes **Credits: (3)** or
- SE 6260 - Reliability Engineering and Risk Analysis **Credits: (3)**

Master of Science

Masters of Science in Systems Engineering (MSSE)

- **Grade Requirements:** An MSSE student must complete all program courses, including electives, with a grade of "B-" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 31 semester hours of graduate coursework.
- **Program Code:** 8103MS
- **CIPC:** 142701

Once enrolled, a student must register for at least one MSSE course each semester, except summers, until graduation. Students who fail to do so must petition for readmission into the program.

Admissions Requirements

The MSSE is competitive admission, therefore the program has a limited number of spaces. The program reviews the student portfolio, including bachelors' program, calculus and statistics grades, rigor of courses taken (upper division), work experience, professional certifications, and participation in the systems community).

Preferred Qualifications

Applicants for admission into the Master of Science in Systems Engineering program should possess a B.Sc. in engineering (EAC) or computing (CAC) from an ABET accredited program with Calculus I, Calculus II, and calculus-based statistics as a minimum. B.Sc. in any other related subject is on a case-by-case basis only. A minimum overall GPA of 3.0 is required from the undergraduate program in which the bachelor's degree is earned; a 3.3 is preferred.

Note,

- Preference given to students that have completed calculus III or equivalent (i.e., Multivariable calculus).
- Preference given to students that have completed a professional or technical writing course.
- Preference given to students that have completed an introductory course to procedural or object-oriented programming.
- Preference given to graduates of the hard sciences (Mathematics, physics, and chemistry).
- Specific industry or military experience is also considered and evaluated toward potential acceptance into the program.

- Specific Systems Engineering professional certifications are also considered and evaluated toward potential acceptance into the program

Applicants will submit:

- Completed application
- Current resume
- Academic Statement of Purpose (ASOP)
- Official transcripts from every institution of higher education attended
 - 3.0 or better in each is required
 - Equivalent course of MATH 1210 - Calculus I and MATH 1220-Calculus II or higher
 - Calculus based statistics (math or engineering), MATH 3410-Probability and Statistics I is preferred
 - B.Sc. degree from a regionally accredited institution in engineering, engineering technology, computer or a science discipline with a GPA of 3.0.
- GRE test scores are required if all previous degrees were conferred by an institution outside of the U.S.

Additional Admission Requirements for International Students

- All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. For applicants for whom English is not their first language a minimum English language proficiency score is required. (TOEFL (Test of English as a Foreign Language)= 75 overall, with a minimum of 17 in each category: OR IELTS (International English Language Testing System) 6.5 overall, with a minimum of 6.0 in each category. Students with a bachelor's degree or higher from a regionally accredited (or equivalent) university in which the language of instruction was English may be exempt from English-language proficiency testing.
- All international students must complete the GRE.

Application

The application for admission to the Master of Science in Systems Engineering program must be submitted online. Official transcripts from each institution of higher education attended and all test scores must be sent directly to the WSU Department of Manufacturing & Systems Engineering. Visit MSSE website for application deadlines.

Leveling Courses

After being provisionally accepted, students who have not graduated from an ABET accredited program or have not completed college Calculus I, II, and Calculus-based statistics, must demonstrate the ability to pass the following courses

- MATH 3410 - Probability and Statistics I **(3)**
- MATH 1210 - Calculus I **(4)**
- MATH 1220-Calculus II
- Leveling courses must be completed from a regional accrediting association recognized by the U.S. Department of Education.
 - Higher Learning Commission
 - Western Association of Schools and Colleges
 - Southern Association of Colleges and School Commission on Colleges
 - Middle State Commission on Higher Education
 - New England Commission on Higher Education
 - Northwest Commission on Colleges and Universities

General Requirements

The online Master of Systems Engineering is a course-based degree with a design project.

- Minimum of 31 credits of graduate work in approved program of study
- Up to six credits may be transferred from any combination as listed in the "Transfer of Credit" section below
- Electives or course substitutions must be approved by an academic advisor
- Requirements for course-based degree:
 - 18 credits must be the foundation of Systems Engineering courses,
 - 9 credits of technical electives,
 - 4 credits of design project. SE 6500 and SE 6510

Transfer of Credit Information

The program differentiates between two types of course credit that may be transferred:

1. Graduate credits completed at another accredited institution (that is, not at Weber State University)
2. Graduate credits completed at Weber State University in another school, college, or department (i.e., School of Business or the College of Science)

Outside Institution/ Transfer of Credit Policy: No more than two 6000-level or higher graduate courses, may be transferred from another accredited university, professional society, or certification program.

Student may submit a petition for exceptions.

Weber State University Transfer of Credit Policy: No more than six credits at the 6000-level taken at Weber State University are permitted. Exception includes the Systems Foundations & Practice Certificate at Weber State University, which is approved by petition after the completion. Student may submit a petition for exceptions.

Conditions That Must Be Met to Transfer Credit:

1. Student must be fully matriculated into master's degree program (not a conditional/provisional student)
2. Student must submit formal documentation of courses, credits, syllabus, and grade.
3. All transfer credits must be approved by the graduate program which may impose minimum grade requirements and/or age limits on each credits. Student may submit a petition for exceptions.

Courses Cannot Be Transferred for Credit If:

1. A grade below 3.0 was earned.
2. Extension or continuing education courses.

Weber State University accepts transfer credit from regionally accredited colleges and universities. Listed below are the six regional accrediting associations recognized by the U.S. Department of Education.

- Higher Learning Commission
- Western Association of Schools and Colleges
- Southern Association of Colleges and School Commission on Colleges
- Middle State Commission on Higher Education
- New England Commission on Higher Education
- Northwest Commission on Colleges and Universities

Time Limit

A student is expected to complete all work within five years from the date of first enrollment in the master's program. A student who fails to complete requirements within five years may be withdrawn and required to apply for readmission. Students exceeding this limit must submit a petition to the program requesting additional time to complete the program. Petitions must describe why they were unable to complete their degree during the requisite

time frame, the amount of work remaining, timeline for completion, and the term in which they expect to complete the degree.

Students may request a leave of absence for up to two consecutive terms (fall, spring, summer), when certain life events prevent continued active participation in their degree program. Examples of leave include illness, injury, or to provide care for family or dependents.

Repeating a Course

A student may repeat a course with permission of the program and course instructor. A student may repeat a single course once and is granted only 2 total repeat opportunities.

Course Requirements for MSSE

Foundation Courses (6 courses required, minimum 18 credit hours):

- SE 6010 - Foundation of Systems Engineering **Credits: (3)**
- SE 6370 - Requirement Engineering **Credits: (3)**
- SE 6130 - Overview of Systems Engineering Processes **Credits: (3)**
- SE 6380 - Model Based Systems Engineering (MBSE) and SysML **Credits: (3)**
- SE 6020 - Engineering Project and Program Management **Credits: (3)**
- SE 6140 - Design for Operational Feasibility **Credits: (3)**

Elective Courses (3 courses required, minimum 9 credit hours):

- SE 6260 - Reliability Engineering and Risk Analysis **Credits: (3)**
- SE 6320 - Simulation Modeling and Engineering Optimization: Methods/Applications **Credits: (3)**
- SE 6330 - Weapon Engineering and Weapon Effectiveness **Credits: (3)**
- SE 6340 - Systems Thinking and Dynamics **Credits: (3)**
- SE 6350 - Organizational Systems **Credits: (3)**
- SE 6360 - System Logistics: Ensuring a System of Systems Approach **Credits: (3)**
- SE 6390 - Model Based Systems Engineering (MBSE) II **Credits: (3)**
- SE 6400 - Model-based Systems Engineering III **Credits: (3)**
- SE 6520 - System Design and Operational Analysis **Credits: (3)**
- SE 6900 - Special Topics **Credits: (1-4)**
- CS 6610 - Computer Architecture **Credits: (3)**

Note: The above list consists of suggested electives. This list is not exhaustive. If you find a graduate-level technical course that pertains to your professional goals and/or the systems engineering field, please contact the MSSE Program Director to check if it may apply as an elective. All requests for non-MSEE elective courses must be submitted 30 days before the First Day of class (S) as listed on the academic calendar. Approval to register for a non-MSEE graduate course is determined by the department offering the course.

Design Project (4 credit hours)

MSSE Students are required to complete a system engineering design project that demonstrates proficiency in research, design, analysis, implementation, testing and documentation.

SE 6500 and SE 6510 is required for a project. SE 6500 is a pre-req for SE 6510. Students must be enrolled SE 6510 at the time of their final design review.

- SE 6500 - Systems Engineering Project Overview **Credits: (1)**
And
- SE 6510 - Design Project **Credits: (3)**

Department of Mechanical Engineering

Department Chair: Dr. Daniel J. Magda

Location: Noorda Engineering Building, Room 142

Telephone Contact: Sheri Eddington 801-626-6305

Website: weber.edu/mechanical/engineering

Professors: Daniel J. Magda, Dustin Birch; **Associate Professor:** Tariq Arif; **Assistant Professors:** Randy Hurd, Bharath Babu Nunna, An Ho, Kirk Stoery; **Instuctor:** Randall Kent, Spencer Petersen

Advisor: Tanya Scott, 801-626-6877, Angela Payan, 801-626-6369

Mechanical Engineering Courses

Associate of Applied Science

Mechanical Engineering Technology (AAS)

- **Grade Requirements:** A grade of "C" or better in all major courses and support courses is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements.
- **Credit Hour Requirements:** A total of 63 credits is required, 20 of which are within the Manufacturing and Mechanical Engineering Technology Department. Transfer students are required to take a minimum of 20 credit hours at Weber State University.
- **Program Code:** 8002AAS
- **CIPC:** 150805

Advisement

All Mechanical Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. Computer & Information Literacy as defined in this catalog is also required for the AAS degree. Consult with your advisor for specific general education guidelines.

Course Requirements for the AAS Degree

MET Core and Support Courses Required (47 credit hours)

- MET 1000 - Introduction to Mechanical Engineering Technology **Credits: (3)**
- MFET 2310 - Statics for Engineering Technology **Credits: (3)**
- MFET 2320 - Mechanics of Materials **Credits: (3)**
- MFET 2360 - Manufacturing Processes and Materials **Credits: (3)**
- EET 1850 - Industrial Electronics **Credits: (4)**
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)**
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- MATH 1040 QL - Introduction to Statistics **Credits: (3)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- MATH 1210 - Calculus I **Credits: (4)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- ENGR 2300 - Thermodynamics **Credits: (3)**
- PDD 1160 - Geometric Dimensioning & Tolerancing Using 3D CAD **Credits: (3)**

Other General Education Support Courses Required (6 credit hours)

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ECON 1010 SS - Economics as a Social Science **Credits: (3)**

Associate of Pre-Engineering

Pre-Engineering (APE)

- **Grade Requirements:** A minimum overall GPA of 2.00 is required.
- **Credit Hour Requirements:** A minimum of 57 credit hours is required. A minimum of 20 hours in residence (for transfer students).
- **Program Code:** 8042APE
- **CIPC:** 140101

The Associate of Pre-Engineering (APE) degree at Weber State University offers the first two years of a professional engineering curriculum. The degree is designed to prepare students for transfer into an engineering program at other universities in Utah, or throughout the United States, that offer four-year engineering degrees. Because many pre-engineering graduates will transfer to the University of Utah or Utah State University, the WSU Pre-Engineering program has official transfer agreements with these two schools.

In planning a program of study, students should be aware that most pre-engineering courses have mathematics and science prerequisites and that improper scheduling of courses can lengthen the time required to complete the degree. Students should also be aware that requirements may vary according to the university to which the student wishes to

transfer. Students are therefore strongly encouraged to meet with the Pre-Engineering coordinator prior to beginning their program.

The Associate of Pre-Engineering degree has fewer general education credit hours than the Associate of Science (AS) degree. Therefore, in order for a student to obtain a Bachelor of Science (BS) degree in engineering, he or she will have to take additional general education courses at WSU and/or the receiving university. Alternatively, a student may earn the AS degree, but this degree may take longer than the APE degree because it contains not only pre-engineering courses but also a full complement of general education courses. The AS degree has the potential benefit, however, of satisfying all the general education requirements at either the University of Utah or Utah State University.

Advisement

All Pre-Engineering students are strongly encouraged to meet with the Pre-Engineering coordinator at the beginning of the program and at least once annually for course and program advisement. Pre-Engineering students are also encouraged to obtain advisement from the applicable engineering department at the receiving university.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program. However, students entering the Pre-Engineering program are expected to have taken college preparatory mathematics and physical science courses in high school. The standard entry level mathematics course for pre-engineering majors is MATH 1210 - Calculus I. The prerequisite for MATH 1210 is MATH 1080 QL - Pre-calculus, or MATH 1050 QL - College Algebra plus MATH 1060 QL - Trigonometry, or placement through examination. Students who are not ready to take MATH 1210 upon entering the Pre-Engineering program should consult with the Pre-Engineering coordinator, who will recommend remedial courses that will prepare the student for calculus, physics and engineering courses.

Major Course Requirements for APE Degree

General Education Core Requirements (15 credit hours)

1. Composition (3 credit hours)

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**

2. American Institutions (3 credit hours)

- POLS 1100 AI - American National Government **Credits: (3)** or
- HIST 1700 AI - American History **Credits: (3)** or
- ECON 1740 AI - Economic History of the United States **Credits: (3)**

3. Information Literacy (.5 to 1 credit hours)

Refer to the Information Literacy requirements listed under the General Requirements section of this catalog. The credit hours for this requirement do not count toward the 57 credit hour total for this degree.

4. General Education Breadth Requirements (9 credit hours)

Select 9 credit hours – 3 credit hours from Humanities (HU), 3 credit hours from Creative Arts (CA) and 3 credit hours from Social Sciences (SS) (a list of courses for each area appears under the General Education section of this catalog).

Pre-Engineering Core Requirements (20 credit hours)

- ENGR 1000 - Introduction to Engineering **Credits: (2)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** (w lab)
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)** (w lab)

Engineering Specialty Courses (22 credit hours minimum)

Engineering specialty courses are those that are required for specific engineering disciplines at the receiving universities. With the assistance of the Pre-Engineering coordinator, students should take courses that apply to their particular engineering major at the university to which they plan to transfer. The specialty courses listed below apply generally, but do not constitute a list of specific course requirements for any particular receiving university. Engineering specialty course requirements for the University of Utah and Utah State University may be obtained from the Pre-Engineering coordinator or the applicable engineering department at these institutions.

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)**
- CHEM 3070 - Biochemistry I **Credits: (3)**

- CS 1023 - Selected Programming Language **Credits: (4)**
- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 2250 - Structured Computing in a Selected Language **Credits: (4)**

- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**

- ENGR 1040 - Computer Aided Design **Credits: (3)**
- ENGR 2010 - Statics **Credits: (3)**
- ENGR 2030 - Dynamics **Credits: (3)**
- ENGR 2140 - Mechanics of Materials **Credits: (3)**
- ENGR 2160 - Materials Science and Engineering **Credits: (3)**
- ENGR 2165 - Materials Science and Engineering Laboratory **Credits: (1)**
- ECE 2210 - Electrical Engineering for Non-majors **Credits: (4)**
- ENGR 2230 - Introduction to Land Surveying **Credits: (3)**
- ENGR 2300 - Thermodynamics **Credits: (3)**

- ECE 1270 - Introduction to Electrical Circuits **Credits: (4)**
- ECE 1400 - Fundamentals of Engineering Computing **Credits: (4)**
- ECE 2260 - Circuits and Signals **Credits: (4)**
- ECE 2700 - Digital Circuits **Credits: (4)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** and
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- EEN 1200 - Introduction to Energy Engineering **Credits: (2)**
- EEN 2600 - Engineering Economics **Credits: (3)**

Bachelor of Science

Energy Engineering (BS)

- **Program Prerequisites:** ENGL 1010 or placement into ENGL 2010; MATH 1050 plus 1060 or 1080, or placement into MATH 1210; CHEM 1200 or permission from the Chemistry Department to take CHEM 1210.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all EEN and support courses is required for this major (a grade of "C-" is not acceptable). Students must have a minimum cumulative GPA of 2.5 to graduate.
- **Credit Hour Requirements:** A total of 127 credit hours is required for graduation.
- **Program Code:** 8095BS
- **CIPC:**149999

Energy Engineering is the branch of engineering that deals with energy efficiency, power generation, energy services, facility management, environmental compliance, sustainable energy and renewable energy. One of the more recent engineering fields to emerge, energy engineering combines the fields of mechanical engineering, electrical engineering, environmental science and economics. The main responsibility of energy engineers is to find the most efficient, sustainable and cost-effective ways to operate buildings, power plants and manufacturing processes. The Energy Engineering Program consists primarily of courses in the Mechanical Engineering Program, bolstered by courses in Electrical Engineering. Some new courses in energy related topics are also an integral part of the program. In the senior year, students complete a two-semester capstone project that integrates their course work. The program prepares graduates to enter the energy engineering industry or to pursue graduate studies in the discipline.

Program Educational Objectives

Educational objectives are the accomplishments that the program prepares graduates to achieve. The educational objectives of the Energy Engineering Program are to produce graduates who are able to:

1. Be employed in an engineering or other physical science/technology field in a position that utilizes the curriculum knowledge and skills developed in the Energy Engineering Program.

2. Use their Energy Engineering education as a stimulus for personal and professional growth to pursue advanced degrees in engineering or other fields.
3. Communicate with and work effectively and ethically with people of diverse backgrounds.
4. Be independent and critical thinkers who identify problems and develop effective solutions through creativity and the application of knowledge.

Accreditation

The Weber State University Energy Engineering Program will apply for accreditation by the Engineering Accreditation Commission (EAC) of ABET in October 2025.

Enrollment and Graduation

The current student enrollment is 20, with the program graduating 4 students so far.

Advisement

All Energy Engineering students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department administrative assistant at 801-626-6305 for the name of your advisor and to schedule an appointment.

Use Grad MAPs to plan your degree

Admission Requirements

Refer to "Program Prerequisites" above. See the department administrative assistant to declare the major.

General Education

Refer to Degree Requirements in the WSU catalog for BS degrees. Consult with your advisor and refer to the major requirements below for specific general education courses required.

Program Learning Outcomes

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental, and social contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Required Mechanical Engineering and Energy Engineering Courses (43 credit hours)

- ENGR 1000 - Introduction to Engineering **Credits: (2)**
- ENGR 2010 - Statics **Credits: (3)**
- ENGR 2030 - Dynamics **Credits: (3)**
- ENGR 2140 - Mechanics of Materials **Credits: (3)**
- ENGR 2160 - Materials Science and Engineering **Credits: (3)**
- ENGR 2165 - Materials Science and Engineering Laboratory **Credits: (1)**
- ECE 2210 - Electrical Engineering for Non-majors **Credits: (4)**
- ENGR 2300 - Thermodynamics **Credits: (3)**
- ME 3040 - Dynamic System Modeling **Credits: (3)**
- ME 3050 - Machine Design **Credits: (3)**
- ME 3060 - Control Systems **Credits: (3)**
- ME 3300 - Fluid Mechanics **Credits: (3)**
- ME 4000 - Heat Transfer **Credits: (3)**
- ME 4050 - Thermal-Fluid Laboratory **Credits: (1)**
- ME 4990 - Seminar in Mechanical Engineering **Credits: (1)**
- ECE 3510 - Power Systems **Credits: (4)**

Required Energy Engineering Courses (19 credit hours)

- EEN 1200 - Introduction to Energy Engineering **Credits: (2)**
- EEN 2600 - Engineering Economics **Credits: (3)**
- EEN 3000 - Design, Ethics & Entrepreneurship **Credits: (3)**
- EEN 3200 - Sustainable Energy **Credits: (3)**
- EEN 4300 - Energy Auditing **Credits: (2)**
- EEN 4100 - Senior Project I **Credits: (3)**
- EEN 4200 - Senior Project II **Credits: (3)**

Elective Energy Engineering Courses (6 credit hours)

Select 6 credit hours from the following 4000 level courses:

- EEN 4420 - Renewable Energy Systems Design I **Credits: (3)**
- EEN 4430 SUS - Renewable Energy Systems Design II **Credits: (3)**
- EEN 4440 - Introduction to Energy Systems **Credits: (3)**
- EEN 4450 - Electric Vehicles Engineering **Credits: (3)**
- EEN 4460 - Energy Management **Credits: (3)**
- EEN 4470 SUS - Energy and Environmental Issues **Credits: (3)**
- EEN 4480 - Energy and Legal Issues **Credits: (3)**
- ME 4500 - Heating, Ventilating and Air-Conditioning **Credits: (3)**
- ECE 5510 - Advanced Power Systems **Credits: (3)**

Required Support Courses (24 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)**

- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- MFET 2500 - Process Automation I **Credits: (1)** and
- MFET 2510 - Process Automation I Lab **Credits: (2)**

Required General Education Courses (35 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- LIBS 1704 - Information Navigator **Credits: (1)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- Additionally, select three credits of (AI) American Institutions, six credits of (SS/DV) Social Science/Diversity, and three credits of (LS/DV) Life Science/Diversity.

Mechanical Engineering (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in all ME and support courses is required for this major (a grade of "C-" is not acceptable). Students must have a minimum cumulative WSU GPA of 2.5 to graduate.
- **Credit Hour Requirements:** A total of 127 credit hours is required for graduation.
- **Program Code:** 8082BS
- **CIPC:** 141901

Mechanical Engineering is the branch of engineering that deals with the design and development of mechanical devices and systems across a wide spectrum of industries such as transportation, aerospace, biotechnology, electronics, robotics, power generation, renewable energy, environmental control and manufacturing. The Mechanical Engineering Program offers courses in engineering mechanics, materials, thermal-fluid sciences, instrumentation and measurements and manufacturing. In the senior year, students complete a two-semester capstone project that integrates their course work. The program prepares graduates to enter engineering industry or to pursue graduate studies in the discipline.

Mission Statement:

Educate and prepare Mechanical Engineering students for successful careers. This is accomplished by the program educational objectives.

Program Educational Objectives

1. Be employed in an engineering or other physical science/technology field in a position that utilizes the curriculum knowledge and skills developed in the Mechanical Engineering program.
2. Use their mechanical engineering education as a stimulus for personal and professional growth to pursue advanced degrees in engineering or other fields.
3. Engage students in activities to produce graduates who communicate and work effectively and ethically with people of diverse backgrounds.
4. Be independent and critical thinkers who identify problems and develop effective solutions through creativity, and the application of knowledge.

ABET ME Student Learning Outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Enrollment and Graduation

The current student enrollment is 464 with the program graduating 144 students so far.

Accreditation

The Weber State University Mechanical Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET.

Advisement

All Mechanical Engineering students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626-6898 for the name of your advisor and to schedule an appointment. Individual student records are accessible through the WSU Home Page.

Admission Requirements

See an academic advisor for the College of Engineering, Applied Science and Technology to declare your program of study (major). The program consists of two parts, a pre-professional program and a professional program.

Pre-professional Program

To enter the pre-professional program, students must have enrolled or have all the necessary prerequisites to enroll in MATH 1210 - Calculus I, ENGL 1010 EN1 - Introductory College Writing, and CHEM 1230 PS - Engineering Chemistry.

The pre-professional program consists of the following courses:

ENGR 1000, ENGR 2010, ENGR 2030, ENGR 2140, ENGR 2160, ECE 2210, ENGR 2300, MATH 1210, MATH 1220, MATH 2210, MATH 2250, PHYS 2210, PHYS 2220, CHEM 1230.

Professional Program

Students will be allowed to continue in the mechanical engineering professional program, which consists of junior and senior courses, if they have achieved a minimum cumulative GPA of 2.80 in the pre-professional program.

Students who have not achieved this GPA standard should consult with the mechanical engineering program coordinator about which pre-professional courses to repeat.

General Education

Refer to Degree Requirements or Bachelor of Science degrees. Consult with your advisor and refer to the major requirements below for specific general education courses required.

Major Course Requirements for ME BS Degree

Mechanical Engineering Required Courses (50 credit hours)

- ENGR 1000 - Introduction to Engineering **Credits: (2)**
- ENGR 2010 - Statics **Credits: (3)**
- ENGR 2030 - Dynamics **Credits: (3)**
- ENGR 2140 - Mechanics of Materials **Credits: (3)**
- ENGR 2160 - Materials Science and Engineering **Credits: (3)**
- ENGR 2165 - Materials Science and Engineering Laboratory **Credits: (1)**
- ECE 2210 - Electrical Engineering for Non-majors **Credits: (4)**
- ENGR 2300 - Thermodynamics **Credits: (3)**
- ME 3040 - Dynamic System Modeling **Credits: (3)**
- ME 3050 - Machine Design **Credits: (3)**
- ME 3060 - Control Systems **Credits: (3)**
- ME 3300 - Fluid Mechanics **Credits: (3)**
- ME 3350 - Engineering Computing **Credits: (2)**
- ME 3500 - Numerical Methods for Engineering **Credits: (3)**
- ME 4000 - Heat Transfer **Credits: (3)**
- ME 4050 - Thermal-Fluid Laboratory **Credits: (1)**
- ME 4100 SUS - Senior Project I **Credits: (3)**
- ME 4200 SUS - Senior Project II **Credits: (3)**
- ME 4990 - Seminar in Mechanical Engineering **Credits: (1)**

Mechanical Engineering Elective Courses (9 credit hours)

Select credit hours from the following 3000 and 4000 level courses:

- ME 4150 - Vibrations **Credits: (3)**
- ME 4250 - Finite Element Analysis **Credits: (3)**
- ME 4300 - Material Failure Analysis **Credits: (3)**
- ME 4350 - Intermediate Mechanics of Materials **Credits: (3)**
- ME 4400 - Aerodynamics **Credits: (3)**
- ME 4440 - Compressible Fluid Flow **Credits: (3)**
- ME 4450 - Aerospace Propulsion **Credits: (3)**
- ME 4500 - Heating, Ventilating and Air-Conditioning **Credits: (3)**
- ME 4550 - Robotics **Credits: (3)**
- ME 4600 - Intermediate Thermal-Fluids **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**

Required Support Course (minimum of 33 credit hours)

- PDD 1010 - Introduction to Engineering & Technical Design (Solidworks) **Credits: (3)**
- MSE 1210 - Metal Processing and Joining for Engineers **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)** or
- PS 3250 - Business Communication **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**

- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)**
or both
- MATH 2270 - Elementary Linear Algebra **Credits: (3)** and
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Required General Education Courses (34 credit hours)

- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
prerequisite is ENGL 1010 Introductory College Writing (3) or placement.
- American Institutions (AI) **Credits: (3)**
- Information Literacy **Credits: (.5-1)***
- Humanities and Creative Arts (HU/CA) **Credits: (9)**
- Social Science/Diversity (SS/DV) **Credits: (3)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- Life Science (LS) **Credits: (3)**
****Information Literacy not included in 34 credit hour total***

- CHEM 1230 PS - Engineering Chemistry **Credits: (4)**

- CHEM 1235 - Engineering Chemistry Lab **Credits: (1)**

Additional Mechanical Engineering courses (not required however these need departmental approval)

- ME 4800 - Individual Research Problems **Credits: (1-3)**
- ME 4830 - Readings in Mechanical Engineering **Credits: (1-3)**
- ME 4890 - Cooperative Work Experience **Credits: (1-3)**
- ME 4900 - Special Topics **Credits: (1-3)**
- ME 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Mechanical Engineering Technology (BS)

- **Program Prerequisite:** Complete the requirements for the Mechanical Engineering Technology (AAS).

- **Minor:** Not Required.
- **Grade Requirements:** A grade of "C" or better in all major courses, support courses, and technical electives is required (a grade of "C-" is not acceptable) in addition to an overall GPA for all courses of 2.00 or higher. Also refer to the general grade requirements for graduation in the Degree Requirements section of this catalog.
- **Credit Hour Requirements:** A total of 124 credit hours is required for graduation. A total of 40 upper division credits is also required (courses numbered 3000 and above). Transfer students are required to take a minimum of 30 credit hours at Weber State University.
- **Program Code:** 8002BS
- **CIPC:** 150805

Advisement

All Mechanical Engineering Technology students are required to meet with their faculty advisor at least annually for course and program advisement. Please call the department secretary at 801-626- 6305 for the name of your advisor and to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Refer to the Program Prerequisite listed above. There are no additional special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Consult with your advisor for specific general education guidelines.

Program Learning Outcomes

- Demonstrate appropriate mastery of knowledge, skills and modern tools in the discipline
- Apply current knowledge of managing engineering and technology
- Conduct, analyze and interpret experiments and apply experimental results to improve processes
- Apply creativity to design of systems, components and processes
- Function effectively on teams
- Identify, analyze and solve technical problems
- Communicate effectively
- Recognize the needs for and possess the ability to pursue life long learning
- Understand professional, ethical and social responsibilities
- Respect diversity and recognize professional, societal and global issues
- Have a commitment to quality, timelines and continuous improvement

Major Course Requirements for BS Degree

To be taken in addition to the courses required for the Mechanical Engineering Technology (AAS)

Mechanical Engineering Technology Courses Required (31 credit hours)

- MET 3050 - Dynamics for Engineering Technology **Credits: (3)**

- MET 3150 - Engineering Technology Materials **Credits: (3)**
- MET 3300 - Computer Programming Applications of Mechanical Engineering Technology **Credits: (3)**
- MET 3400 - Machine Design for Engineering Technology **Credits: (3)**
- MET 3500 - Mechanical Measurements and Instrumentation **Credits: (3)**
- MET 3700 - Testing and Failure Analysis **Credits: (3)**
- MET 4200 - Mechanical Design with FEA **Credits: (3)**
- MET 4500 SUS - Senior Project I **Credits: (3)**
- MET 4510 SUS - Senior Project II **Credits: (3)**
- MET 4650 - Thermal Science **Credits: (3)**
- MET 4990 - Seminar in Mechanical Engineering Technology **Credits: (1)**

Support Courses Required (9 credit hours)

- MFET 1210 - Machining Principles Lecture/Lab I **Credits: (3)**
- MFET 3340 - Applied Fluid Power **Credits: (2)** and
- MFET 3340L - Applied Fluid Power Lab **Credits: (1)**
- PS 3250 - Business Communication **Credits: (3)** or
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**

Technical Electives (9 credit hours)

A minimum of 9 credit hours of technical electives chosen from the following list are required. At least 3 credit hours must be upper division.

- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- MET 4300 - Heating, Ventilating & Air Conditioning **Credits: (3)**
- MET 4800 - Individual Research in Mechanical Engineering Technology **Credits: (1-3)**
- MET 4890 INT - Cooperative Work Experience **Credits: (1-3)**
- MFET 2410 - Quality Concepts and Statistical Applications **Credits: (3)**
- MFET 2440 - Computer Numeric Control (CNC) in Manufacturing **Credits: (2)** and
- MFET 2440L - CNC in Manufacturing Lab **Credits: (1)**
- MFET 2500 - Process Automation I **Credits: (1)** and
- MFET 2510 - Process Automation I Lab **Credits: (2)**
- MFET 2860 - Plastics/Composites Materials & Properties **Credits: (3)**
- MFET 3010 - Tool Design **Credits: (3)**
- MFET 3350 - Plastic and Composite Manufacturing **Credits: (2)** and
- MFET 3350L - Plastic and Composite Manufacturing Lab **Credits: (2)**
- MFET 3460 - Engineering Design using Solid Modeling **Credits: (2)** and

- MFET 3460L - Engineering Design using Solid Modeling Lab **Credits: (1)**
- MFET 3750 - Welding Metallurgy I **Credits: (2)**
- MFET 3820 - Nondestructive Testing **Credits: (3)**
- MFET 3830 - Reinforced Plastics/Advanced Composite Lecture/Lab **Credits: (3)**
- MFET 4310 - Corrosion and Corrosion Control **Credits: (2)**
- MFET 4580 - Process Automation II & Robotics **Credits: (1)** and
- MFET 4585 - Process Automation II Lab **Credits: (2)**
- MSE 3700 - Manufacturing Systems I **Credits: (3)**
- MSE 3850 - Statistical Process Control and Reliability **Credits: (3)**
- MSE 3910 - Six Sigma Methods and Tools in Manufacturing **Credits: (3)**
- PDD 2460 - Product Design Fundamentals Using 3D CAD **Credits: (3)**
- PDD 2650 - Product Design & Development **Credits: (3)**
- PDD 3470 - Introduction to CATIA V5 **Credits: (3)**
- PDD 4470 - Advanced CATIA V5 **Credits: (3)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Note:

The following courses require pre-requisites that are not covered in the MET Core Requirements: MATH 2210, MATH 2270, MATH 2280, MFET 3010, MFET 4580 and MFET 4585, MSE 3910, PDD 2650, PDD 3470, PDD 4470.

Other Required Courses (12 credit hours)

- Gen Ed Humanities Elective **(3)**
- Gen Ed Social Science Diversity Elective **(3)**
- Gen Ed Life Science Elective **(3)**
- Gen Ed American Institutions Elective **(3)**

Department of Professional Sales

Department Chair: Nicole Flink

Location: Technical Education Building, Room 101

Telephone Contact: Wendi Birch 801-626-6913

Professors: Tim Border, Jo Ellen Jonsson; **Associate Professors:** Alex Lawrence, Blake Nielson; **Assistant**

Professors: Brock Adams, Nicole Flink; **Instructor:** Mikelle Barberi-Weil, Ryan McKeehan, Paige Young

The Department of Professional Sales offers associate of applied science degrees in the areas of Sales & Merchandising Technology and bachelor's degrees in Professional Sales.

Sales and Merchandising

The sales and merchandising program is designed to prepare people for employment in selling at all levels of distribution and merchandising and middle management areas of retailing. Occupational opportunities include positions as salespeople (auto, insurance, real estate, etc.), middle management areas of sales managers and wholesale managers, retail salespeople, departmental managers, fashion coordinators, buyers, sales promotion

managers, personnel directors, and display people. Students supplement their course work with practical on-the-job training in local business establishments, receiving college credit for their work experience.

Professional Sales

This program prepares individuals to serve as agents or sales representatives in selling products/services to other businesses, plants, professionals, and public and private institutions. This program offers a professional sales emphasis tailored toward specific fields such as:

Manufacturing Rep	Communication System Rep
Pharmaceutical Rep	Medical Equipment Rep
Financial Planning	Real Estate
Technology Sales	Financial Services Marketing
Wholesale Rep	Broker
Electronic Rep	Small Business Owner

Associate of Applied Science

Sales and Merchandising (AAS)

- **Program Prerequisite:** An interview with the program advisor is necessary prior to acceptance into the program.
- **Grade Requirements:** An overall GPA of 2.00 or "C."
- **Credit Hour Requirements:** A total of 63 credit hours is required.
- **Assessment Requirements:** Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see your advisor or your department for specific information regarding assessment.
- **Program Code:** 8025AAS
- **CIPC:** 521803

Advisement

All Sales and Merchandising students are required to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6913 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. COMM 2110 is a required support course and will also be applied toward general education requirements. Computer and Information Literacy as defined in this catalog is also required for the AAS degree.

Program Learning Outcomes

- Basic Selling Techniques: Demonstrate effective selling skills.
- Contract and Sales Negotiations: Apply negotiation techniques to selling situations.
- Customer Profiling: Identify and profile the various selling styles.
- Sales Proposal Writing: Apply the principles of proposal writing.
- Team Building Skills: Development of the interpersonal and leadership skills to work effectively in teams.
- Customer Service Skills: Identify successful techniques for working with customers in business situations.
- Supervision Skills: Practical application of supervisory skills including choosing, organizing, training and evaluating.
- Sales Presentation Skills: Identifying and using the principles and practices of professional sales consultants.
- Interpersonal Relationship Skills: Identifying and demonstrating interpersonal relationship skills.
- Legal Compliance and Sales Ethics: Applying the principles, techniques and analysis of ethics and the law in the sales and service profession.
- Planning and organization skills: Apply the principles of organization and planning to all facets of the sales and service profession.
- Technology Skills

Major Course Requirements for AAS Degree

Courses Required (15 credit hours)

- PS 1143 - Principles of Selling and Persuasion **Credits: (3)**
- PS 1303 - Sales Channels **Credits: (3)**
- PS 2603 - Advanced Selling Techniques **Credits: (3)**
- PS 3203 - Customer Service Techniques **Credits: (3)**
- PS 3563 - Principles of Sales Supervision **Credits: (3)**

Support Courses (30 credit hours)

- Select 30 credit hours from any of the PS Department courses.

Note:

Computer and Information Literacy as defined in this catalog is also required.

Bachelor of Science

Professional Sales (BS)

- **Program Prerequisite:** An interview with a faculty member is necessary prior to acceptance into the program.

- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or higher.
- **Credit Hour Requirements:** A total of 120 hours is required for graduation; a minimum of 51 of these is required within the major. A total of 40 upper division credit hours is required (courses number 3000 and above); a minimum of 32 of these is required within the major.
- **Program Code:** 8065BS
- **CIPC:** 521804

Advisement

All Professional Sales students are required to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6913 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- **Basic Selling Techniques:** Demonstrate effective selling skills.
- **Contract and Sales Negotiations:** Apply negotiation techniques to selling situations.
- **Customer Profiling:** Identify and profile the various selling styles.
- **Sales Proposal Writing:** Apply the principles of proposal writing.
- **Team Building Skills:** Development of the interpersonal and leadership skills to work effectively in teams.
- **Customer Service Skills:** Identify successful techniques for working with customers in business situations.
- **Business Math Skills:** Apply the basic principles of business math: markup, cost of goods sold, profit and loss statement, merchandise plans, pricing techniques, etc.
- **Supervision Skills:** Practical application of supervisory skills including choosing, organizing, training and evaluating.
- **Supervised Sales Experience:** The practical use of program skills and applying them to the workplace.
- **Sales Presentation Skills:** Identifying and using the principles and practices of professional sales consultants.
- **Interpersonal Relationship Skills:** Identifying and demonstrating interpersonal relationship skills.
- **Legal Compliance and Sales Ethics:** Applying the principles, techniques and analysis of ethics and the law in the sales and service profession.
- **Planning and organization skills:** Apply the principles of organization and planning to all facets of the sales and service profession.

Major Course Requirements for BS Degree

Courses Required (51 credit hours)

- PS 1143 - Principles of Selling and Persuasion **Credits: (3)**
- PS 1303 - Sales Channels **Credits: (3)**
- PS 1401 - Introduction to Sales and Service Technology **Credits: (1)**
- PS 2603 - Advanced Selling Techniques **Credits: (3)**
- PS 3103 - Sales Personalities and Profiles **Credits: (3)**
- PS 3203 - Customer Service Techniques **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**
- PS 3303 - Technology in Sales **Credits: (3)**
- PS 3363 - Contract and Sales Negotiation Techniques **Credits: (3)**
- PS 3503 - Sales Planning and Forecasting **Credits: (3)**
- PS 3563 - Principles of Sales Supervision **Credits: (3)**
- PS 3702 - Developing Team Leadership Skills **Credits: (2)**
- PS 3803 - Sales Proposals **Credits: (3)**
- PS 3903 - Sales Presentation Strategies and Techniques **Credits: (3)**
- PS 4203 - Ethical Sales and Service **Credits: (3)**
- PS 4610 INT - Senior Project I **Credits: (3)**
- PS 4620 INT - Senior Project II **Credits: (3)**
- PS 4993 - Sales Career Seminar **Credits: (3)**

Support Course Electives (minimum 24 credit hours)

Select from the following or other classes approved by the department adviser.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- ATTC 3520 - Fleet Management **Credits: (3)**
- ATTC 3620 - Automotive Business Practices **Credits: (3)**
- BSAD 1010 - Introduction to Business **Credits: (3)**
- BSAD 3000 - Small Business Management **Credits: (3)**
- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- FAM 2100 - Family Resource Management **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- FAM 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- FAM 4400 - The Family in Stress **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)**
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)**
- ID 1010 CA - Introduction to Interior Design **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- PS 1403 - Introduction to Customer Care **Credits: (3)**

- PS 1503 - Introduction to Fashion Merchandising **Credits: (3)**
- PS 1890 INT - Work Experience **Credits: (1-3)**
- PS 2182 - Credit and Collection Methods **Credits: (2)**
- PS 2383 - Retail Merchandising and Buying Methods **Credits: (3)**
- PS 2443 - Advertising Methods **Credits: (3)**
- PS 2703 - Internet Sales and Service **Credits: (3)**
- PS 2890 INT - Work Experience II **Credits: (1-3)**
- PS 2903 - Professional Selling Methodologies **Credits: (3)**
- PS 2991 - Sales/Service Technology Seminar **Credits: (1-3)**
- PS 3003 - Sales Development **Credits: (3)**
- PS 3703 - Professional Sales Simulations **Credits: (3)**
- PS 4830 - Directed Readings **Credits: (1-3)**
- PS 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- PSY 2000 SS/CC - The Psychology of Human Relationships **Credits: (3)**
- PSY 3000 - Child Psychology **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**
- PSY 3460 - Social Psychology **Credits: (3)**
- PSY 3510 - Industrial and Organizational Behavior **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- SOC 2600 - Families in Society **Credits: (3)**
- WEB 2080 - Database Applications **Credits: (1)**
- WEB 3070 - Advanced Spreadsheet Applications **Credits: (1)**
- WEB 3090 - Digital Presentations **Credits: (2)**
- WEB 2220 - Digital Publishing **Credits: (3)**
- WEB 3400 - LAMP Stack Web Development **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Professional Sales (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better in all courses.
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** 8065
- **CIPC:** 521804

Course Requirements for BIS

Professional Sales Courses Required (6 credit hours)

- PS 1143 - Principles of Selling and Persuasion **Credits: (3)**
- PS 2603 - Advanced Selling Techniques **Credits: (3)**

Additional Professional Sales Electives (12 credit hours)

Choose any 4 of the following courses

- PS 3103 - Sales Personalities and Profiles **Credits: (3)**
- PS 3203 - Customer Service Techniques **Credits: (3)**
- PS 3303 - Technology in Sales **Credits: (3)**
- PS 3363 - Contract and Sales Negotiation Techniques **Credits: (3)**
- PS 3563 - Principles of Sales Supervision **Credits: (3)**
- PS 3803 - Sales Proposals **Credits: (3)**
- PS 3903 - Sales Presentation Strategies and Techniques **Credits: (3)**

Minor

Sales Minor

Professional Sales (Minor)

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor.
- **Credit Hour Requirements:** A total of 15 credit hours required.
- **Program Code:** Professional Sales (8065)
- **CIPC:** Professional Sales (521804)

This program offers students who major in another field the option to obtain a minor in one of the areas in Professional Sales. Course options are available for substitution or addition to the recommended courses should the student feel a need for a more specific or concentrated minor emphasis. Check with the PS Department for approval of substitute courses.

Course Requirements for Professional Sales Minor (minimum of 15 credit hours)

- PS 1143 - Principles of Selling and Persuasion **Credits: (3)**
- PS 1303 - Sales Channels **Credits: (3)**
- PS 2603 - Advanced Selling Techniques **Credits: (3)**
- PS 3203 - Customer Service Techniques **Credits: (3)**
- PS 3563 - Principles of Sales Supervision **Credits: (3)**

Noorda Interdisciplinary Center

Director: David Ferro

Location: ET 110

Telephone: 801-626-6303

The Noorda Interdisciplinary Center (NIC) for Engineering, Science & Society, created with the generous donations from the Noorda Foundation, and an element of the original agreement with that foundation, endeavoursendeavors to find collaborations between various disciplines in science, engineering, technology, humanities, and social

sciences; to allow for creating interdisciplinary programs; to engage in projects with the community examining social impacts and creating positive changes through engineering and science; to expose students to the social contexts within which they work and create; and to reignite passion and exploration with the larger community for an enlightened understanding of techno-scientific issues. The NIC is oriented towards outreach and teaching about and solving engineering grand challenges, that could correspond to Noorda Foundation goals like energy efficiency, generation, and storage, among others, that putting engineering into important social, historical, and economic contexts, including, for examples, the need to welcome sustainability, under-represented populations into engineering, promoting democracy, and cybersecurity.

Institutional Certificate

Solar Photovoltaic Systems Certificate of Proficiency

- **Grade Requirements:** A grade of "C" or better in all the following five EET courses is required for this institutional certificate (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 18 credit hours of EET courses list below (EET 1140 or EET 1850, EET 2180, EET 2190, EET 3100, and EET 3180). No minimum GPA is required for this certificate.
- **Program Code:** 8076CP
- **CIPC:** 151703

Program Learning Outcomes

- Expertise in the siting, design, analysis and performance of PV systems from site specific information
- Verify system design, manage project, install electrical and mechanical components, complete system installation, and conduct maintenance and troubleshooting of Solar PV sites.

Required Courses (minimum 18 credit hours)

- EET 1140 - DC Circuits **Credits: (3)** or
- EET 1850 - Industrial Electronics **Credits: (4)**
- EET 2180 - Solar PV Systems **Credits: (4)**
- EET 2190 - Solar PV Technical Assessments **Credits: (4)**
- EET 3100 - Renewable Energy **Credits: (3)**
- EET 3180 - Advanced Solar PV Systems **Credits: (4)**

School of Computing

Department Chair: Dr. Kyle Feuz

Location: WSU Davis, Computer and Automotive Engineering (CAE), 161

Telephone Contact: Isabelle Vivier, 801-626-7929

The School of Computing provides exceptional educational opportunities to students in the growing area of computing and computational systems. Students can explore diverse areas such as software engineering, mobile applications, programming languages, virtual reality, simulation science, game development, network technologies, network security, database development, multimedia applications, user interface/user experience, and web design and development. The College of Engineering, Applied Science & Technology offers AAS and BS degrees in the following computing programs:

- Computer Science
- Network Management Technology
- Web and User Experience

The BS degree in Computer Science is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>

Students must provide evidence of completion of an Associate of Applied Science AAS or Associate of Science AS degree in computing or other related degree prior to entering advanced upper division curriculum.

Computer Science

Program Coordinator: Linda DuHadway

Location: Technical Education Building, Room 110K

Telephone Contact: 801-626-6906

CS Program Advisor: Pat DeJong, 801-626-6318

Salt Lake Program Coordinator & Advisor: Ted Cowan, 801-957-4769

Davis Program Coordinator & Advisor: Brad Peterson, 801-395-3465

Professors: Richard Fry, Brian Rague, Drew Weidman; **Associate Professors:** Robert Ball, Linda DuHadway, Kyle Feuz, Hugo Valle, Yong Zhang; **Assistant Professors:** Abdulmalek Al-Gahmi, Noel Alton, Nicole Anderson, Arpit Christi, Luke Fernandez, Mark Huson, Joshua Jensen, Nils Murrugarra-Llerena, Brad Peterson, Meher Shaikh, Patrick Zwick; **Instructors:** Mackenzie Bristow, Ted Cowan, Robert Kumar, Jose Limas, Marrie Mack, Kim Murphy, Cody Squadroni, Alison Sunderland, Garth Tuck

The Computer Science program offers an Associate of Applied Science Degree and a Bachelor of Science Degree in Computer Science. The nature of the curricula offers flexibility as a student may tailor their program of study to their interests and professional aspirations. The curricula is based on ABET suggested program outcomes and also provides a Customized Option for students seeking a second bachelor's degree or a minor in a different academic area. The program also offers a minor, a teaching minor, and a BIS concentration. A Game Development Certificate is also offered that consists of 15-16 credits that focus on game development and math and also requires a bachelor's degree in Computer Science to be completed as a pre or co-requisite.

The Computer Science program is a technical, scientific approach requiring a solid foundation in mathematics and physics. The program blends scientific and engineering principles implemented through actual, practical, and applications-oriented experience as well as the intellectual study of computing. It is designed to provide a sound fundamental understanding of logic and of digital computer organization as well as the interaction between hardware, software and the interconnection of system components. Also emphasized is software engineering which includes understanding operating systems and other software systems design including implementation of the theory of computing, analysis of algorithms, simulation, and knowledge-based systems. The objectives of the Computer Science program are to provide students with an education that will meet their academic and career goals as well as meeting the needs of local industries.

Network Management Technology

Program Coordinator: Kyle Feuz

Location: Elizabeth Hall, Room 301

Telephone Contact: 801-626-6059

NMT Program Advisors: Kyle Feuz, Andy Drake

Professor: Allyson Saunders; **Assistant Professor:** Matthew Paulson; **Instructors:** Andy Drake, AJ Helper, Jose Limas

The Network Management Technology program offers an Associate of Applied Science (AAS) Degree and a Bachelor of Science (BS) Degree in Network Management Technology, as well as a minor in Network Management Technology. Also offered are a Network Security Technology Certificate and a Network Technologies Certificate.

The program offers courses in network management technology, telecommunications, local area networks, wireless technologies, operating systems, network certification, and other related areas.

Network Management Technology students study both the data side and the voice side of the discipline. On the data side, students learn about computer networks, network operating systems, security, and computer application programs. On the voice side, students learn about designing, installing, and managing phone systems, and making decisions regarding the purchase and operation of hardware and software.

Web & User Experience

Program Coordinator: Cody Squadroni

Location: Elizabeth Hall, Room 368

Telephone Contact: 801-626-6571

WEB Program Advisor: Pat DeJong, 801-626-6318

Assistant Professors: Noel Alton, Chimobi Ucha

The Web and User Experience program offers an Associate of Applied Science (AAS) Degree and a Bachelor of Science (BS) Degree in Web and User Experience. Minors are offered in Web Technology, and User Experience Design.

The program offers courses in web design, user experience design, database management, graphic production, and other related areas.

Graduates of this program will be prepared for employment in web design, development, and user experience. Students will gain an understanding of best practices in each of these fields.

Credit Policy

1. **Obsolete Credit:** School of Computing credits earned more than seven (7) years earlier than the proposed date of graduation will not be accepted toward University or major requirements unless validated through a challenge examination or approved by the appropriate academic department chair or department advisor.
2. **Waiver Requests:** Any exceptions to the printed School of Computing program graduation requirements must be approved by the appropriate academic department chair or department advisor prior to waiving, substituting, or taking the course(s) in question.

Associate of Applied Science

Computer Science (AAS)

- **Grade Requirements:** A grade of "C" or better must be earned in all required CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** This degree requires a minimum 66 credit hours.
- **Assessment Requirements:** Students will be required to complete certain assessment instruments as part of the overall requirements for receiving their associate's degree. Please see your advisor or your department for specific information regarding assessment.
- **Program Code:** 8023AAS
- **CIPC:** 110701

Advisement

It is strongly suggested that Computer Science students see the departmental advisor on a regular basis. Call the department administrative specialist at 801-626-7929 for an appointment with the advisor. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (refer to Enrollment Services and Information) as Associate of Applied Science in Computer Science. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for the AAS general education requirements (core and breadth). The following required support courses will also be applied toward general education requirements: COMM 2110, ENGL 2010, CHEM 1110 (or CHEM 1130 or CHEM 1210 or (GEO 1060 and GEO 1065) or (GEO 1110 and GEO 1115) or (PHYS 2210 and PHYS 2215) or (PHYS 2010 and PHYS 2015) or BTNY 1403 or HTHS 2110 or MICR 2054 or ZOOL 1610 or ZOOL 2420), and MATH 1040 (or MATH 1210 or MATH 1120 or MATH 3410), CS 1030, LIBS 1704, and ETC 2001.

Program Learning Outcomes

- Apply knowledge of computing and mathematics
- Analyze problems, identify, and define requirements
- Design, implement, & evaluate computer-based systems
- Function in teams
- Professional, ethical, security, and social behavior
- Communicate Effectively
- Analyze local and global impact of computing
- Engage in continuing professional development
- Use current techniques, skills, and tools
- Apply mathematics, algorithms, and computer theory
- Apply design and development principles

Major Course Requirements for AAS Degree

Computer Science Courses Required (38 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- CS 2899 - Associate Degree Assessment **Credits: (0)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- WEB 1430 - Client Side Programming **Credits: (3)**

Support Courses Required (21-22 credit hours)

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)** or
- ENGL 2015 EN2 - Intermediate College Writing & Research **Credits: (4)**
- MATH 1040 QL - Introduction to Statistics **Credits: (3)** Or
- MATH 1120 QL - Foundations of Data Science **Credits: (3)** or
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**
OR
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**
- ETC 2001 SS/CC - Engineering Culture **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

Natural Science Support Courses (4-5 credit hours)

Select one course below.

Natural science course must include lab.

- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)** (4hrs required)
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)** and
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEO 1060 PS - Environmental Geosciences **Credits: (3)** and

- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** and
- GEO 1115 - Physical Geology Lab
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**
- PHYS 2010 PS - College Physics I **Credits: (5)** and
- PHYS 2019 - College Physics I Lab **Credits: (0)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2219 - Physics for Scientists and Engineers I Lab **Credits: (0)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Writing Support Courses (3 credit hours)

Select one course below.

- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- PHIL 1250 HU - Critical Thinking **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**

Cybersecurity and Network Management (AAS)

- **Grade Requirements:** A grade of "C" or better in courses required for this program in addition to an overall GPA of 2.50 or higher for all required specific major courses and a minimum cumulative GPA for all courses of 2.00.
- **Credit Hour Requirements:** A total of 63 credit hours is required within the program. Recommendation: If additional elective hours are needed to meet the 63 credit hours required for the AAS degree, students are encouraged to take courses to be counted toward the Cybersecurity and Network Management bachelor's degree.
- **Program Code:** 8109AAS
- **CIPC:** 110901

Advisement

All students should meet with an advisor for course and program advisement. For more information or to schedule an appointment visit <https://weber.edu/cyber/advising.html>.

Admission Requirements

Declare a program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements.

Program Learning Outcomes

- Possess an ability to analyze a problem, and to identify and define the computing requirements appropriate to its solution
- Possess an ability to design, implement, and evaluate a computer-based solution to meet a given set of computing requirements in the context of network technology
- Possess an ability to communicate effectively with a range of audiences about technical information
- Possess an ability to make informed judgments in computing based upon legal and ethical principles
- Possess an ability to function effectively on teams to establish goals, plan tasks, meet deadlines, manage risk, and produce deliverables
- Possess an ability to support the delivery, use, and management of information systems within an information systems environment.

Major Course Requirements for AAS Degree

Core Courses Required (9-10 credit hours)

- ENGL 1010 EN1 - Introductory College Writing **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- MATH 1040 QL - Introduction to Statistics **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)**

Specific Major Courses Required (45 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**
- CYBR 1400 - Introduction to Cyber Defense and Ethics **Credits: (3)**
- CYBR 2200 - Cybersecurity and System Fundamentals **Credits: (3)**
- CYBR 2210 - Linux Systems Administration **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CYBR 2310 - Network Server Administration **Credits: (3)**
- CYBR 2415 - Routing and Switching **Credits: (4)**
- CYBR 2500 - Practical Cybersecurity Infrastructure **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- WEB 1400 - Web Design and Usability **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**

Support Courses Required (6 credit hours)

- ECON 1010 SS - Economics as a Social Science **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

Web and User Experience (AAS)

- **Grade Requirements:** A grade of "C" or better must be earned in all required WEB and CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** A total of 63 credit hours is required.
- **Program Code:** 8075AAS
- **CIPC:** 110801

Advisement

Web and User Experience major students should meet with a School of Computing advisor for course and program advisement. Refer to the Department Advisor Referral List for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information) with the department secretary (Elizabeth Hall 301). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. COMM 2110 will be applied to fill both program and general education requirements.

Program Learning Outcomes

- Possess effective business communication skills.
- Possess knowledge and skills of technology.
- Implement effective decision-making and problem-solving skills.
- Possess knowledge of ethics and professionalism.
- Produce industry-standard websites and multimedia projects
- Applying knowledge of computing and mathematics
- Analyze problems, identify, and define requirements
- Design, implement, & evaluate computer-based systems
- Professional, ethical, security, and social behavior
- Analyze local and global impact of computing

Major Course Requirements for AAS Degree

Core Courses Required (10 credit hours)

- ENGL 1010 EN1 - Introductory College Writing **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)**

General Education Courses Required (6 credit hours)

Refer to Degree Requirements for Associate of Applied Science requirements.

Specific Major Courses Required (19 credit hours)

- WEB 1400 - Web Design and Usability **Credits: (3)**
- WEB 1430 - Client Side Programming **Credits: (3)**
- WEB 2500 - User Experience Design **Credits: (3)**
- WEB 2620 - Advanced CSS **Credits: (3)**
- WEB 2700 - Web Accessibility 1 **Credits: (4)**
- WEB 2890 - Client-Side Portfolio **Credits: (3)**

Support Courses Required (19 credit hours)

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**

Specific Major Electives (9 credit hours)

These 9 credits can be fulfilled with any CS or WEB 1xxx or 2xxx course which has not already been applied above.

- CS 1xxx Any CS 1xxx Course Not Slotted Elsewhere
- CS 2xxx Any CS 2xxx Course Not Slotted Elsewhere
- WEB 2xxx Any WEB 2xxx Course Not Slotted Elsewhere

Institutional Certificate

Cloud Computing Security Certificate of Proficiency

- **Program Admission and Prerequisites:** Application for admission to Weber State University and/or current degree-seeking status.
- **Credit Hour Requirements:** A total of 18 credit hours is required (at least 9 of which must be residence hours taken from WSU).
- **Grade Requirements:** Completion of the following required courses with a grade of "C" or better. These courses may also be slotted appropriately for degree requirements.
- **Program Code:** 8116CP
- **CIPC:** 110902

Courses Required-(18 credit hours)

- CYBR 2200 - Cybersecurity and System Fundamentals **Credits: (3)**
- CYBR 2210 - Linux Systems Administration **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CYBR 2310 - Network Server Administration **Credits: (3)**
- CYBR 3210 - Cloud Architecture and Security **Credits: (3)**

- CYBR 3300 - Advanced LAN Security Management **Credits: (3)**

Cybersecurity Essentials Certificate of Proficiency

- **Program Admission and Prerequisites:** Application for admission to Weber State University and/or current degree-seeking status..
- **Grade Requirements:** Completion of the following required courses with a grade of "C" or better. These courses may also be slotted appropriately for degree requirements.
- **Program Code: 8090CP**
- **CIPC: 111003**

Courses Required (17 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CYBR 1400 - Introduction to Cyber Defense and Ethics **Credits: (3)**
- CYBR 2200 - Cybersecurity and System Fundamentals **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**

Cybersecurity Policy and Management Certificate of Proficiency

- **Grade Requirements:** A minimum overall GPA of 2.00 or "C".
- **Credit Hour Requirements:** A total of 23 credit hours is required (at least 10 of which must be residence hours taken from WSU).
- **Program Code: 8115CP**
- **CIPC: 430404**

Program Learning Outcomes

- Possess an ability to apply knowledge of computing and mathematics appropriate to the program's student outcomes and to the discipline
- Possess an ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- Possess an ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- Possess an understanding of professional, ethical, legal, security and social issues and responsibilities
- Possess an ability to communicate effectively with a range of audiences
- Possess an ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognize the need for an ability to engage in continuing professional development
- Possess an ability to use current techniques, skills, and tools necessary for computing practice

Course Requirements for Certificate of Proficiency

Courses Required (21 credit hours)

- CYBR 1400 - Introduction to Cyber Defense and Ethics **Credits: (3)**
- CYBR 2200 - Cybersecurity and System Fundamentals **Credits: (3)**
- CYBR 2210 - Linux Systems Administration **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CYBR 3300 - Advanced LAN Security Management **Credits: (3)**
- CYBR 3550 - Supervising Information Technology **Credits: (3)**
- CYBR 3730 - Survey of Information Security Policies **Credits: (3)**

Game Development Certificate of Proficiency

A student may apply for a certificate of proficiency in Game Development provided he or she has fulfilled the following requirements:

1. Concurrent or previous completion of a Bachelor's Degree in Computer Science from the WSU College of Engineering, Applied Science, and Technology or any other accredited institution.
2. Completion of the following required courses with a grade of C or better. (These courses may also be slotted as electives for degree requirements)
 - **Program Code:** 8049CP
 - **CIPC:** 110299

Program Learning Outcomes

- Apply knowledge of computing and mathematics
- Analyze problems, identify, and define requirements
- Design, implement, & evaluate computer-based systems
- Function in teams
- Professional, ethical, security, and social behavior
- Communicate Effectively
- Analyze local and global impact of computing
- Engage in continuing professional development
- Use current techniques, skills, and tools
- Apply mathematics, algorithms, and computer theory
- Apply design and development principles

(15 credit hours):

- CS 1010 CA - Introduction to Interactive Entertainment **Credits: (3)**
- CS 3280 - Object Oriented Windows Application Development **Credits: (4)**
- CS 4640 - Foundations of Game Development **Credits: (4)**
- CS 4650 - Advanced Game Development **Credits: (4)**

Network Technologies Certificate of Proficiency

- **Grade Requirements:** A minimum overall GPA of 2.00 or "C".

- **Credit Hour Requirements:** A total of 18 credit hours is required (at least 10 of which must be residence hours taken from WSU).
- **Program Code:** 8067CP
- **CIPC:** 110901

Program Learning Outcomes

- Possess an ability to apply knowledge of computing and mathematics appropriate to the program's student outcomes and to the discipline
- Possess an ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- Possess an ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- Possess an understanding of professional, ethical, legal, security and social issues and responsibilities
- Possess an ability to communicate effectively with a range of audiences
- Possess an ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognize the need for an ability to engage in continuing professional development
- Possess an ability to use current techniques, skills, and tools necessary for computing practice

Course Requirements for Certificate of Proficiency

Courses Required (18 credit hours)

- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CYBR 2310 - Network Server Administration **Credits: (3)**
- CYBR 2415 - Routing and Switching **Credits: (4)**
- CYBR 3710 - Switching and Transmission Network Systems Management **Credits: (4)**
- CS 3705 - Protocol Analysis **Credits: (4)**

Programming Essentials Certificate of Proficiency

A student may apply for an Institutional Certificate of Proficiency in Programming Essentials provided he or she has fulfilled the following requirements:

1. Application for admission to Weber State University and/or current degree-seeking status.
2. Completion of the following required courses with a grade of "C" or better. These courses may also be slotted appropriately for degree requirements.

Program Learning Outcomes

- Apply knowledge of computing and mathematics
- Analyze problems, identify, and define requirements
- Design, implement, & evaluate computer-based systems
- Professional, ethical, security, and social behavior
- Analyze local and global impact of computing
- Engage in continuing professional development
- Use current techniques, skills, and tools

- Apply mathematics, algorithms, and computer theory

(16 credit hours):

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**

User Experience Design Certificate of Proficiency

User experience (UX) design is a growing interdisciplinary field focusing on the interaction between humans and technology and the design of meaningful and transformative user experiences. It focuses on having a deep understanding of users and their needs and using that understanding to guide the design of new sites, apps, products, and services.

This certificate provides students with the high-quality training in the main areas of UX including design, prototyping, accessibility, and user research methods. Students receiving this certificate will possess a level of competency that will prepare them to work as UX designers and/or researchers.

A student may apply for an Institutional Certificate of Proficiency in User Experience provided the following requirements have been fulfilled:

- Application for admission to Weber State University and/or current degree-seeking status
- Completion of the following required courses with a grade of "C" or better (a grade of "C-" is not acceptable).
These courses may also be slotted appropriately for degree requirements.

Program Code: 8094CP

CIPC: 303101

Program Learning Outcomes

- Possess effective business communication skills.
- Possess knowledge and skills of technology.
- Implement effective decision-making and problem-solving skills.
- Possess knowledge of ethics and professionalism.
- Produce industry-standard websites and multimedia projects

Required Courses (16 credit hours)

- WEB 1400 - Web Design and Usability **Credits: (3)**
- WEB 2500 - User Experience Design **Credits: (3)**
- WEB 2620 - Advanced CSS **Credits: (3)**
- WEB 3500 - User Interface Prototyping & Design **Credits: (3)**
- WEB 3600 - User Research Methods **Credits: (4)**

Web Essentials Certificate of Proficiency

The Institutional Certificate of Proficiency in Web Essentials provides a measured, proven, and effective introduction to user interface design concepts and best practices in web development. This Institutional Certificate emphasizes hands-on programming techniques, development of solid design principles, and exposure to the most widely used multimedia creation and editing tools. A student receiving this certificate will possess a level of competency that will prepare them to successfully design and develop client side web pages.

A student may apply for an Institutional Certificate of Proficiency in Web Essentials provided he or she has fulfilled the following requirements:

1. Application for admission to Weber State University and/or current degree-seeking status
2. Completion of the following required courses with a grade of "C" or better. These courses may also be slotted appropriately for degree requirements.
 - **Program:** 8086CP
 - **CIPC:** 110801

Program Learning Outcomes

- Possess effective business communication skills.
- Possess knowledge and skills of technology.
- Implement effective decision-making and problem-solving skills.
- Possess knowledge of ethics and professionalism.
- Produce industry-standard websites and multimedia projects
- Applying knowledge of computing and mathematics
- Analyze problems, identify, and define requirements
- Design, implement, & evaluate computer-based systems
- Professional, ethical, security, and social behavior
- Analyze local and global impact of computing

(17 credit hours):

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- WEB 1400 - Web Design and Usability **Credits: (3)**
- WEB 2210 - Computer Illustrations **Credits: (3)**
- WEB 2200 - Image Editing **Credits: (3)**

Bachelor of Science

Computer Science (BS)

- **Program Prerequisite:** Completion or equivalent of a Weber State AAS degree in Computer Science and acceptance into the baccalaureate degree program.
- **Minor:** Required for the Customized Option.
- **Grade Requirements:** A grade of "C" or better must be earned in all required CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation. The actual number of credit hours required for graduation with the customized option varies.

- **Program Code:** 8023BS, 8022BS(Customized Post-Bac)
- **CIPC:** 110701, Customized(110101)

Advisement

It is strongly suggested that Computer Science students see an advisor on a regular basis. Call the department administrative specialist at 801-626-7929 for an appointment with the advisor. (Also refer to the Department Advisor Referral List.)

Admission Requirements into the Bachelor Program

1. Complete an AAS degree in Computer Science or equivalent.
2. Formally declare and be accepted to baccalaureate status through the Department of Computer Science. Specific requirements and details may be obtained from a department advisor.

General Education

Refer to Degree Requirements. The MATH 1040, or MATH 1080, or MATH 1120 course in the Computer Science AAS degree, which is a pre-requisite to the BS major, also satisfies the WSU core general education Quantitative Literacy requirement. Computer Science majors must complete COMM 2110 as part of the Humanities general education requirement. Computer Science majors must complete ETC 2001 as part of the Social Science and Cultural Competence general education requirement. It is recommended that Computer Science majors take CS 1010 for the CA general education requirements.

Students who pass the Computer Science Advanced Placement A exam with a score of 3 receive 4 hours of credit for CS 1022 (4). Students who pass the Computer Science Advanced Placement A exam with a score of 4 or 5 receive a total of 8 hours of credit consisting of CS Elective credit (4) plus specific credit for either CS 1400 (4) or CS 1023 (4). Students who pass the Advanced Placement Computer Science Principles exam with a score of 3, 4, or 5 receive 4 hours of credit for CS 1030 (4).

Program Learning Outcomes

- An ability to apply knowledge of computing and mathematics appropriate to the program's student outcomes and to the discipline
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues and responsibilities
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice.
- An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
- An ability to apply design and development principles in the construction of software systems of varying complexity.

Major Course Requirements for BS Degree

*To be taken in addition to the requirements for the AAS degree in Computer Science.
Course Descriptions-CS, ETC, NET, WEB*

Required Courses (26 credit hours)

- CS 3100 - Operating Systems **Credits: (4)**
- CS 3230 - Object Oriented User Interface Development with Java **Credits: (4)** or
- CS 3280 - Object Oriented Windows Application Development **Credits: (4)**
- CS 3550 - Advanced Database Programming **Credits: (4)**
- CS 3750 CEL - Software Engineering II **Credits: (4)**
- CS 4110 - Concepts of Formal Languages and Algorithms for Computing **Credits: (4)**
- CS 4760 - CS Capstone **Credits: (4)**
- CS 4890 INT - Cooperative Work Experience **Credits: (1-4)** (2 credits)
- CS 4899 - Bachelor's Degree Assessment **Credits: (0)**

Support Courses Required (3-4 credit hours)

- MATH 1220 - Calculus II **Credits: (4)** or
- MATH 3110 - Foundations of Algebra **Credits: (3)** or
- MATH 3160 - Number Theory **Credits: (3)** or
- MATH 1216 - Integral Calculus **Credits: (4)**

CS Upper Division Electives (6-8 credit hours)

Choose 2 upper division computer science courses (see list of suggested electives). You may not use CS 4800 or CS 4850 or CS 4890 for these electives.

Other Upper Division Electives (4 credit hours)

Choose 4 credits of any approved upper division courses from CS, NET, WEB, ECE, EET, MIS, PHYS, AND MATH. This may include up to 4 credits maximum in any one of the following courses: CS 4800, CS 4850, or an additional 2 credits from the required CS 4890 (max 4 credits total).

Suggested Upper Division CS Electives

The following suggested electives are provided in order to assist students wishing to specialize in different areas:

Recommended electives for students desiring to pursue a Master's Degree in Computer Science

- CS 4280 - Computer Graphics **Credits: (4)**
- CS 4500 - Introduction to Artificial Intelligence **Credits: (4)**
- CS 4820 - Compiler Design **Credits: (4)**

Recommended electives for students desiring to specialize in Web Development

- CS 4230 - Java Application Development **Credits: (4)**
- CS 4350 - Advanced Internet Programming **Credits: (4)**
- CS 4790 - .NET Web Application Development **Credits: (4)**
- CS 3620 - Server-Side Web Architecture **Credits: (4)**
- CS 3630 - Rich Internet Application Development **Credits: (4)**

Recommended electives for students desiring to specialize in Mobile Development

- CS 3230 - Object Oriented User Interface Development with Java **Credits: (4)**
- CS 3260 - Mobile Development for the iPhone **Credits: (4)**
- CS 3270 - Mobile Development for Android **Credits: (4)**

Recommended electives for students desiring to specialize in Network Security

- CS 3030 - Scripting Languages **Credits: (4)**
- CS 3705 - Protocol Analysis **Credits: (4)**
- CS 3805 - Computer and Network Security **Credits: (4)**
- CS 3840 - Computer Forensics for Security Assurance **Credits: (4)**
- CYBR 4740 - Security Vulnerabilities and Intrusion Mitigation **Credits: (4)**

Alternative Customized Option (33-35 credit hours) plus a minor or first bachelor's degree

Required Courses (30-32 credit hours)

- CS 3100 - Operating Systems **Credits: (4)**
- CS 3230 - Object Oriented User Interface Development with Java **Credits: (4)** or
• CS 3280 - Object Oriented Windows Application Development **Credits: (4)**
- CS 3550 - Advanced Database Programming **Credits: (4)**
- CS 3750 CEL - Software Engineering II **Credits: (4)**
- CS 4110 - Concepts of Formal Languages and Algorithms for Computing **Credits: (4)**
- CS 4760 - CS Capstone **Credits: (4)**
- Any two computer science upper division electives (6-8 credit hours). CS 4800, CS 4850, and CS 4890 may not be used for these electives.
- Complete a minor in any academic area or a concurrent second bachelor's degree, or have completed a first bachelor's degree.

Note:

Additional hours of upper division computer science courses may be taken to satisfy the University upper division requirement of 40 hours (CS 4890 is recommended).

Suggested Course Sequence

Computer Science Teaching (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Not required for Computer Science and Computer Science Customized majors. Computer Science Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).
- **Minor:** Not required.
- **Grade Requirements:** An overall GPA of 2.90 is required in courses required for this major. Also refer to the general grade requirements for graduation under Degree Requirements.
- **Credit Hour Requirements:** A total of 126 semester credit hours is required for graduation; 60 hours are required within the major, plus the credits required by the Department of Teacher Education. Forty-four upper-division credit hours are required (courses numbered 3000 and above).
- **Program Code:** 8091BS
- **CIPC:** 131321

Advisement

Computer Science Teaching majors are strongly encouraged to meet with the advisor at least annually for course and program advisement. Call 801-626-7929 for more information or to schedule an appointment. Computer Science Teaching majors are also encouraged to meet with a College of Social Sciences & Education advisor (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to pages Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- An ability to apply knowledge of computing and mathematics appropriate to the program's student outcomes and to the discipline
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues and responsibilities
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice.
- An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.

- An ability to apply design and development principles in the construction of software systems of varying complexity.

Computer Science Teaching Major Course Requirements for BS Degree

Computer Science Courses Required (60 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- WEB 1430 - Client Side Programming **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CS 3230 - Object Oriented User Interface Development with Java **Credits: (4)**
- CS 3280 - Object Oriented Windows Application Development **Credits: (4)**
- CS 3550 - Advanced Database Programming **Credits: (4)**
- CS 4840 - Computer Science Teaching Methods **Credits: (3)**

Select two of the following:

- CS 3030 - Scripting Languages **Credits: (4)**
- CS 3100 - Operating Systems **Credits: (4)**
- CS 3260 - Mobile Development for the iPhone **Credits: (4)**
- CS 3270 - Mobile Development for Android **Credits: (4)**
- CS 3705 - Protocol Analysis **Credits: (4)**

Support Courses Required (16 credit hours)

- CHF 1500 SS/CC - Human Development **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)**

Note:

Students must also complete the Teacher Education Licensure Program.

Cybersecurity and Network Management (BS)

- **Program Prerequisite:** Completion or equivalent of a Weber State AAS Degree in Cybersecurity and Network Management.

- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major in addition to an overall GPA of 2.50 or higher for all required specific major courses and a minimum cumulative GPA for all courses of 2.00.
- **Credit Hour Requirements:** A total of 120-126 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); 38 of these credit hours are required within the major.
- **Program Code:** 8109BS
- **CIPC:** 110901

Advisement

All students should meet with an advisor for course and program advisement. For more information or to schedule an appointment visit <https://weber.edu/cyber/advising.html>.

Use Grad MAPs to plan your degree

Admission Requirements

Complete an AAS Degree in Cybersecurity and Network Management or equivalent. Declare a program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for the Bachelor of Science requirements. COMM 2110 and ECON 1010 will be applied to fill 6 credits of both program and general education requirements. (These courses are taken as part of the AAS).

Program Learning Outcomes

- An ability to analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- An ability to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- An ability to communicate effectively in a variety of professional contexts.
- An ability to recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- An ability to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- An ability to support the delivery, use, and management of information systems within an information systems environment.

Major Course Requirements for BS Degree

To be taken in addition to the requirements for the Cybersecurity and Network Management (AAS).

Specific Major Courses Required (41 credit hours)

- CYBR 3210 - Cloud Architecture and Security **Credits: (3)**

- CYBR 3300 - Advanced LAN Security Management **Credits: (3)**
- CYBR 3550 - Supervising Information Technology **Credits: (3)**
- CYBR 3710 - Switching and Transmission Network Systems Management **Credits: (4)**
- CYBR 3730 - Survey of Information Security Policies **Credits: (3)**
- CYBR 3720 - Wireless Networking and Security **Credits: (3)**
- CYBR 4700 - Data and Voice Network Design **Credits: (4)**
- CYBR 4740 - Security Vulnerabilities and Intrusion Mitigation **Credits: (4)**
- CYBR 4760 INT - Cybersecurity and Network Management Internship **Credits: (3)** or
- CYBR 4790 INT - Cybersecurity and Network Management Senior Project **Credits: (3)**
- CS 3030 - Scripting Languages **Credits: (4)**
- CS 3705 - Protocol Analysis **Credits: (4)**

Upper Division Elective (3 credit hours)

Web and User Experience (BS)

- **Program Prerequisite:** Completion or equivalent of a Weber State AAS Degree in Web and User Experience.
- **Emphasis Selection:** Full Stack Web Development Emphasis or User Experience Design Emphasis
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better must be earned in all required WEB and CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** A minimum of 123 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 8075BS with one of the following emphasis codes: 8093 (Full-Stack) or 8094 (User Experience Design)
- **CIPC:** Web and User Experience(110801) with the following: Full Stack(110801) or User Experience Design (303101)

Advisement

Web and User Experience major students should meet with a School of Computing advisor for course and program advisement. Refer to the Department Advisor Referral List for more information or to schedule an appointment.

Admission Requirements

Complete the AAS Degree in Web and User Experience or equivalent. Declare a program of study (see Enrollment Services and Information) with the department secretary (Elizabeth Hall 301). An application is needed to select an emphasis.

General Education

Refer to Degree Requirements for the Bachelor of Science requirements. The COMM HU CEL 2110 course required for the Web and User Experience major (taken as part of the AAS) will also be applied to fill general education requirements.

Program Learning Outcomes

- Possess effective business communication skills.
- Possess knowledge and skills of technology.
- Implement effective decision-making and problem-solving skills.
- Possess knowledge of ethics and professionalism.
- Produce industry-standard websites and multimedia projects

Major Course Requirements for BS Degree

In addition to the requirements for the Web and User Experience (AAS), select one of the following emphases:

- Web and User Experience (BS), Full Stack Web Development Emphasis
- Web and User Experience (BS), User Experience Design Emphasis

Web and User Experience (BS), Full Stack Web Development Emphasis

Students of this emphasis will learn to build functional web applications end to end using languages like JavaScript, PHP, Python, Java, and ASP.Net, and tools like MySQL, Oracle, MS SQL Server, and NoSQL databases to find, save, or change data and serve it back to the user.

- **Program Prerequisite:** Completion or equivalent of a Weber State AAS Degree in Web and User Experience.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better must be earned in all required WEB and CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** A minimum of 123 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 8075BS with 8093 emphasis code
- **CIPC:** Web and User Experience(110801) with Full Stack(110801)

Advisement

Web and User Experience major students should meet with a School of Computing advisor for course and program advisement. Refer to the Department Advisor Referral List for more information or to schedule an appointment.

Admission Requirements

Complete the Web and User Experience (AAS) or equivalent. Declare a program of study (see Enrollment Services and Information) with the department admin (Elizabeth Hall 301). An application is needed to select this emphasis

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The COMM 2110 HU CEL course required for the Web and User Experience major (taken as part of the AAS) will also be applied to fill general education requirements.

Program Learning Outcomes

- Possess effective business communication skills.
- Possess knowledge and skills of technology.
- Implement effective decision-making and problem-solving skills.
- Possess knowledge of ethics and professionalism.
- Produce industry-standard websites and multimedia projects

Major Course Requirements for BS Degree with an emphasis on User Experience Design

To be taken in addition to the requirements for the Web and User Experience (AAS).

Specific Major Courses Required (17 credit hours)

- WEB 3200 - Dynamic Languages for Web Development **Credits: (3)**
- WEB 3350 - Client Side Frameworks **Credits: (4)**
- WEB 3400 - LAMP Stack Web Development **Credits: (3)** or
- WEB 3430 - Full Stack JavaScript Development **Credits: (3)**
- WEB 3500 - User Interface Prototyping & Design **Credits: (3)**
- WEB 4350 - Web Development Capstone **Credits: (4)**

Support Courses Required (10 credit hours)

- BSAD 3000 - Small Business Management **Credits: (3)** or
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)** or
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- CS 3550 - Advanced Database Programming **Credits: (4)**

Electives (15 credit hours)

These 15 credits can be fulfilled with any CS 3xxx, CS 4xxx (excluding CS 4800, CS 4860, and CS 4890), NET 3550, WEB 3xxx, WEB 4xxx courses.

- Any CS 3xxx Course Not Slotted Elsewhere
- Any CS 4xxx Course (excluding CS 4800, CS 4860, and CS 4890) Not Slotted Elsewhere
- Any WEB 3xxx Course Not Slotted Elsewhere
- Any WEB 4xxx Course Not Slotted Elsewhere

Web and User Experience (BS), User Experience Design Emphasis

User Experience (UX) design is a growing interdisciplinary field focusing on the interaction between humans and technology and the design of meaningful and transformative user experiences. It focuses on having a deep understanding of users and their needs and using that understanding to guide the design of new sites, apps, products, and services.

This emphasis takes place during the last two years of the WEB/UX (BS) program. It covers the main areas of UX design including user research methods, accessibility, and information architecture. As an interdisciplinary emphasis, it lists required support courses from departments such as Psychology, Professional Sales, Communications, English, and Sociology and Anthropology. A student graduating with this emphasis will have the UX Design training and background needed to work as UX designers and/or researchers.

- **Program Prerequisite:** Completion or equivalent of a Weber State AAS Degree in Web and User Experience.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better must be earned in all required WEB and CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** A minimum of 123 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 8075BS with 8094 emphasis code
- **CIPC:** Web and User Experience(110801) with User Experience Design (303101)

Advisement

Web and User Experience major students should meet with a School of Computing advisor for course and program advisement. Refer to the Department Advisor Referral List for more information or to schedule an appointment.

Admission Requirements

Complete the Web and User Experience (AAS) or equivalent. Declare a program of study (see Enrollment Services and Information) with the department admin (Elizabeth Hall 301). An application is needed to select this emphasis

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The COMM 2110 HU CEL course required for the Web and User Experience major (taken as part of the AAS) will also be applied to fill general education requirements.

Program Learning Outcomes

- Possess effective business communication skills.
- Possess knowledge and skills of technology.
- Implement effective decision-making and problem-solving skills.
- Possess knowledge of ethics and professionalism.
- Produce industry-standard websites and multimedia projects

Major Course Requirements for BS Degree with an emphasis on User Experience Design

To be taken in addition to the requirements for the Web and User Experience (AAS).

Specific Major Courses Required (17 credit hours)

- WEB 3130 - Web Accessibility 2 **Credits: (3)**
- WEB 3500 - User Interface Prototyping & Design **Credits: (3)**
- WEB 3530 - Information Architecture **Credits: (3)**
- WEB 3600 - User Research Methods **Credits: (4)**
- WEB 4350 - Web Development Capstone **Credits: (4)**

Support Courses Required (13 credit hours)

- PS 3250 - Business Communication **Credits: (3)**
- PSY 3500 - Cognition **Credits: (3)**
- CS 3650 - Human-Computer Interaction **Credits: (4)**
- SOC 4220 - Life in a Consumer Society **Credits: (3)**

Electives (12 credit hours)

- WEB 3XXX or 4XXX not already slotted anywhere else
- CS 3XXX or 4XXX not already slotted anywhere else
- Other upper-level courses from other departments

Emphasis Option for Bachelor of Interdisciplinary Studies

Computer Science (BIS)

Computer Science (Minor or BIS Concentration)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better must be earned in all required CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** 28 hours for the Minor and BIS Concentration.
- **Program Code:** 8023
- **CIPC:** 110701

Course Requirements for Minor or BIS Concentration (28 credit hours)

Required Courses (16 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**

- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**

Electives (12 credit hours)

Select two of the following courses (8 credit hours)

- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- WEB 1430 - Client Side Programming **Credits: (3)**

Select one additional course (4 credit hours total)

An approved upper division Computer Science course (CS courses numbered 3000 or higher) other than CS 4800, CS 4850, or CS 4890. An upper division programming language course (CS 3230, CS 3280, CS 3620, CS 3550, or CS 3030) is recommended.

Cybersecurity and Network Management (BIS)

Cybersecurity and Network Management (Minor or BIS Emphasis)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

For the BIS emphasis, refer to Bachelor of Arts/Science in Interdisciplinary Studies (BIS) in the Interdisciplinary Programs section of this catalog.

- **Grade Requirements:** The following required curriculum used for this minor must be completed with a grade of "C" or better and with a GPA of 2.50 or higher for all required specific major courses and a minimum cumulative GPA for all courses of 2.00.
- **Credit Hour Requirements:** Minimum of 24 credit hours in NET courses as listed below.
- **Program Code:** 8109
- **CIPC:** 110901

Advisement

All students should meet with an advisor for course and program advisement. For more information or to schedule an appointment visit <https://weber.edu/computing/advising.html>.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.

- High Impact Educational Experience-Engaged in high-impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community-engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing. Used effective oral and written English-language skills
- Post-Graduate Planning. Planned for careers and/or graduate programs.

Courses Required for Minor/BIS Emphasis

Courses Required (25 credit hours)

- CYBR 1400 - Introduction to Cyber Defense and Ethics **Credits: (3)**
- CYBR 2200 - Cybersecurity and System Fundamentals **Credits: (3)**
- CYBR 2210 - Linux Systems Administration **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CYBR 2310 - Network Server Administration **Credits: (3)**
- CYBR 3210 - Cloud Architecture and Security **Credits: (3)**
- CYBR 3300 - Advanced LAN Security Management **Credits: (3)**
- CYBR 3710 - Switching and Transmission Network Systems Management **Credits: (4)**

Web Development (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better must be earned in all required WEB courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** 23 hours for the Minor and BIS Concentration.
- **Program Code:** 8110
- **CIPC:** 110801

Web Development (Minor or BIS Emphasis)

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Web Development (Minor or BIS Emphasis)

- WEB 1400 - Web Design and Usability **Credits: (3)** and
- WEB 1430 - Client Side Programming **Credits: (3)**
- or**
- CS 2350 - Client Side Web Development **Credits: (4)**
- WEB 2620 - Advanced CSS **Credits: (3)**
- WEB 3200 - Dynamic Languages for Web Development **Credits: (3)**
- WEB 3350 - Client Side Frameworks **Credits: (4)**
- WEB 3400 - LAMP Stack Web Development **Credits: (3)** or
- WEB 3430 - Full Stack JavaScript Development **Credits: (3)**
- CS 3620 - Server-Side Web Architecture **Credits: (4)**

Minor

Computer Science Minor

Computer Science (Minor or BIS Concentration)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better must be earned in all required CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** 28 hours for the Minor and BIS Concentration.
- **Program Code:** 8023
- **CIPC:** 110701

Course Requirements for Minor or BIS Concentration (28 credit hours)

Required Courses (16 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**

Electives (12 credit hours)

Select two of the following courses (8 credit hours)

- CS 2450 - Software Engineering I **Credits: (4)**

- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- WEB 1430 - Client Side Programming **Credits: (3)**

Select one additional course (4 credit hours total)

An approved upper division Computer Science course (CS courses numbered 3000 or higher) other than CS 4800, CS 4850, or CS 4890. An upper division programming language course (CS 3230, CS 3280, CS 3620, CS 3550, or CS 3030) is recommended.

Cybersecurity and Network Management Minor

Cybersecurity and Network Management (Minor or BIS Emphasis)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

For the BIS emphasis, refer to Bachelor of Arts/Science in Interdisciplinary Studies (BIS) in the Interdisciplinary Programs section of this catalog.

- **Grade Requirements:** The following required curriculum used for this minor must be completed with a grade of "C" or better and with a GPA of 2.50 or higher for all required specific major courses and a minimum cumulative GPA for all courses of 2.00.
- **Credit Hour Requirements:** Minimum of 24 credit hours in NET courses as listed below.
- **Program Code:** 8109
- **CIPC:** 110901

Advisement

All students should meet with an advisor for course and program advisement. For more information or to schedule an appointment visit <https://weber.edu/computing/advising.html>.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high-impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community-engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing. Used effective oral and written English-language skills
- Post-Graduate Planning. Planned for careers and/or graduate programs.

Courses Required for Minor/BIS Emphasis

Courses Required (25 credit hours)

- CYBR 1400 - Introduction to Cyber Defense and Ethics **Credits: (3)**
- CYBR 2200 - Cybersecurity and System Fundamentals **Credits: (3)**
- CYBR 2210 - Linux Systems Administration **Credits: (3)**
- CYBR 2300 - Introduction to Networking and Cybersecurity **Credits: (3)**
- CYBR 2310 - Network Server Administration **Credits: (3)**
- CYBR 3210 - Cloud Architecture and Security **Credits: (3)**
- CYBR 3300 - Advanced LAN Security Management **Credits: (3)**
- CYBR 3710 - Switching and Transmission Network Systems Management **Credits: (4)**

User Experience Design Minor

User experience is a critical component of software and web design. User-centric design has allowed software engineers and front-end web developers to create user experiences that are more sophisticated. This minor will address user experience best practices in several courses using current tools and technologies. The courses in this minor will complement major course offerings.

- **Grade Requirements:** The following required curriculum used for this minor must be completed with a grade of "C" or better and with a minimum cumulative GPA for all courses of 2.70.
- **Credit Hour Requirements:** Minimum of 24 credit hours.
- **Program Code:** 8069
- **CIPC:** 110801

Advisement

Web and User Experience major students should meet with a School of Computing advisor for course and program advisement. Refer to the Department Advisor Referral List for more information or to schedule an appointment.

Required Courses

- WEB 1400 - Web Design and Usability **Credits: (3)**
- WEB 2210 - Computer Illustrations **Credits: (3)**
- WEB 1430 - Client Side Programming **Credits: (3)** or
- WEB 2410 - Web Animation I **Credits: (3)**
- WEB 2500 - User Experience Design **Credits: (3)**
- WEB 2620 - Advanced CSS **Credits: (3)**
- WEB 3500 - User Interface Prototyping & Design **Credits: (3)** or
- WEB 3530 - Information Architecture **Credits: (3)**
- WEB 3600 - User Research Methods **Credits: (4)**

Web Development Minor

- **Grade Requirements:** A grade of "C" or better must be earned in all required WEB courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** 23 hours for the Minor and BIS Concentration.
- **Program Code:** 8110
- **CIPC:** 110801

Web Development (Minor or BIS Emphasis)

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Web Development (Minor or BIS Emphasis)

- WEB 1400 - Web Design and Usability **Credits: (3)** and
- WEB 1430 - Client Side Programming **Credits: (3)**
- **or**
- CS 2350 - Client Side Web Development **Credits: (4)**
- WEB 2620 - Advanced CSS **Credits: (3)**
- WEB 3200 - Dynamic Languages for Web Development **Credits: (3)**
- WEB 3350 - Client Side Frameworks **Credits: (4)**
- WEB 3400 - LAMP Stack Web Development **Credits: (3)** or
- WEB 3430 - Full Stack JavaScript Development **Credits: (3)**
- CS 3620 - Server-Side Web Architecture **Credits: (4)**

Teaching Minor

Computer Science Teaching Minor

- **Grade Requirements:** A grade of "C" or better must be earned in all required CS courses (a grade of "C-" is not acceptable). A grade of "C-" or better must be earned in all required support courses. In addition, an overall GPA of 2.70 or higher must be attained for all required courses.
- **Credit Hour Requirements:** 26 hours for the Teaching Minor.
- **Program Code:** 8020
- **CIPC:** 131321

Students who select the Computer Science Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education) and have a teaching major.

Course Requirements for Teaching Minor (26 credit hours)

Required Courses (18 credit hours)

- CS 1030 - Foundations of Computing **Credits: (4)**
- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- EDUC 3370 - Advanced Instructional Technology **Credits: (2)**

Electives (8 credit hours)

Select one of the following

- CS 2250 - Structured Computing in a Selected Language **Credits: (4)**
- CS 2350 - Client Side Web Development **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**

Select one additional course (4 credit hours)

An approved upper division Computer Science course (CS courses numbered 3000 or higher) other than CS 4800, CS 4850, or CS 4890. An upper division programming language course (CS 3230, CS 3280, CS 3620, CS 3550, or CS 3030) is recommended.

Post Baccalaureate Certificate

Autonomous Vehicle Software Post Baccalaureate Certificate

The Post Baccalaureate Certificate in Autonomous Vehicle Software prepares individuals to write software for autonomous vehicles. Students will be trained in advanced software theory and practical application involving machine learning, advanced artificial intelligence, routing, and navigation of autonomous vehicles.

- **Grade Requirements:** A minimum grade of "B-" and GPA of 3.0.
- **Program Code:** 8114PBC and one of the following cohorts for tracks: Computer Science Track (AUTO_CS) or Computer Engineering Track (AUTO_CE)
- **CIPC:** 15.0407

Admissions Requirements

Candidate must be a current student in one of the following programs:

- Master of Science in Computer Engineering (MSCE)
- Master of Science in Computer Science (MS)
- Master of Science in Computer Electrical Engineering (MSEE)

Required Core Courses (6 credits)

- CS 6500 - Advanced Artificial Intelligence **Credits: (3)**
- CS 6600 - Machine Learning **Credits: (3)**

Select a Track:

Computer Science Track (6 credits)

- CS 6300 - Route Planning and Navigation **Credits: (3)**

Select one from the following:

- CS 6200 - The Internet of Things **Credits: (3)**
- CS 6420 - Advanced Algorithms **Credits: (3)**
- CS 6700 - Deep Learning Theory **Credits: (3)**
- CS 6705 - Applied Cloud Computing **Credits: (3)**
- CS 6740 - Computer Systems Security **Credits: (3)**

Computer Engineering Track (6 credits)

- ECE 6220 - Image Processing **Credits: (3)**
- ECE 6730 - Robotics **Credits: (4)**

Computational Data Science and Machine Learning Post Baccalaureate Certificate

- **Grade Requirements:** A minimum of a B- must be received in all courses in order to receive the graduate certificate.
- **Credit Hour Requirements:** 12 credit hours as specified below.
- **Program Code:** 8098PBC
- **CIPC:** 307101

Graduate Certificate Requirements

- CS 5580 - Data Science Algorithms **Credits: (3)**
- CS 6580 - Data Science Algorithms II **Credits: (3)**
- CS 6600 - Machine Learning **Credits: (3)**
- CS 6700 - Deep Learning Theory **Credits: (3)** or

- CS 6705 - Applied Cloud Computing **Credits: (3)**

Master of Science

Master of Science in Computer Science (MS)

- **Grade Requirements:** An MSCS student must complete all program courses, including electives, with a grade of "B-" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in computer science.
- **Program Code:** 8023MS
- **CIPC:** 110701

Once enrolled, a student must register for at least one MSCS course each semester, except summers, until graduation. Students who fail to do so must petition for readmission into the program.

Admissions Requirements

Applicants for admission into the Master of Science in Computer Science program must possess a bachelor's degree or be in the final stage of completing the degree. An overall GPA of 3.25 is required from the undergraduate program in which the bachelor's degree is earned.

Applicants will submit:

- Completed application.
- Current resume.
- Official transcripts from every institution of higher education attended.
- GRE Scores are required for International Applicants.

Additional Admission Requirements for International Students

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. For applicants for whom English is not their first language, a minimum English language proficiency score is required. (TOEFL (Test of English as a Foreign Language) = 75 overall, with a minimum of 17 in each category: OR IELTS (International English Language Testing System) 6.5 overall, with a minimum of 6.0 in each category).

The application for admission to the Master of Science in Computer Science program must be submitted online. Official transcripts from each institution of higher education attended and all test scores must be sent directly to the WSU School of Computing.

Deadlines for application are October 15, for students enrolling in spring semester and March 15, for students enrolling in fall semester. Completed applications are considered by the Admissions Committee after each application deadline

Advisement

For issues regarding admissions, registration, and scheduling, students should contact the Graduate Enrollment Director. For questions concerning academic advisement, the primary source of contact is the MSCS Program Director. Students should meet with the director at least once a year while enrolled.

Program Learning Outcomes

- Demonstrate the ability to apply knowledge of math, science and engineering.
- Demonstrate the ability to design a system, component or process.
- Demonstrate the ability to identify, formulate and solve computer science problems.
- Demonstrate the ability to apply master's level knowledge to the specialized area of computer science.

Leveling Courses

As determined on a case-by-case basis, students with non-computer science degrees may be required to take leveling courses in technology-related areas that will adequately prepare them for the MS core courses. The minimum leveling courses for non-computer science degrees are the following:

- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- CS 3100 - Operating Systems **Credits: (4)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**

Course Requirement for MSCS

Required Core MSCS course (1 credit):

- CS 6000 - Fundamentals of Graduate Studies **Credits: (1)**

Required Thesis Research, Design Project, or Course-Work Only Option (6 credits):

MSCS students are required to complete original research resulting in a thesis (CS 6011), a substantial project (CS 6010), or a course-work option (two additional CS graduate electives). The student must declare to the department their intent to do a thesis, project or course-work only option. It is presumed that students will do a research thesis unless the program director is otherwise notified.

Generally, CS 6011 is taken by students who are interested in being introduced to research and development and are considering the possibility of pursuing their doctorate (Ph.D.).

Alternatively, CS 6010 is taken by students with an industry-minded perspective.

The course-work only option is for students seeking to increase their technical depth in Computer Science.

A total of 6 or more credits is required for each of the three tracks.

Select a Track (6 credits):

Thesis Option (6 credits)

- CS 6011 - Thesis Research **Credits: (2-6)**

Project Option (6 credits)

- CS 6010 - Design Project **Credits: (2-6)**

Course-Work Option (6 credits)

Two other CS 6000-Level Courses (except CS 6011 and CS 6010) that do not meet the previous requirements.

Computer Science Graduate Electives (18 credits)

MSCS students are required to complete 18 hours of Computer Science (CS) graduate electives. For these 18 credits, students may select any CS 6000-level courses that do not meet the previous requirements. For a list of scheduled and recently scheduled CS graduate courses, see the following: <https://weber.edu/mscs/course-schedule.html>.

Additional Graduate Electives (6 credits):

In addition, MSCS students are required to complete 6 additional graduate electives. These additional graduate electives can be any CS 6000-level course not previously applied to another requirement, any graduate course that is approved by the MSCS graduate director, or one of the approved courses from the following list:

- Any MATH 6000-level course
- Any ECE 6000-level course
- Any CS 6000-level course
- Any CS 5000-level course
- Any ECON 6000-level course
- Any MPC 6000-level course
- MBA 6160 - Applications of Decision Models **Credits: (3)**
- MBA 6310 - Information Technology in the Enterprise **Credits: (3)**
- MBA 6530 - E-Business **Credits: (3)**
- MBA 6630 - Networking **Credits: (3)**
- MBA 6640 - Cyber Security **Credits: (3)**

Master of Science in Data Science (MS)

- **Grade Requirements:** An MSDS student must complete all program courses, including electives, with a grade of "B-" or higher. In addition, the overall program GPA must be 3.0 or higher. Failure to maintain a 3.0 grade point average, or two consecutive course sessions where a grade lower than B- has been earned, will result in academic probation in accordance with departmental policies.
- **Credit Hour Requirements:** 33 credit hours total required.
- **Program Code:** 8104MS
- **CIPC:** 307001

Admission Requirements

Applicants for admission into the Master of Science in Data Science program must possess a bachelor's degree or be in the final stage of completing the degree. An overall GPA of 3.25 is required from the undergraduate program in which the bachelor's degree is earned.

Applicants will submit:

- Completed application.

- Current resume.
- Official transcripts from every institution of higher education attended.

Additional Admission Requirements for International Students

Scores from the GRE.

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. For applicants for whom English is not their first language, a minimum English language proficiency score is required. (TOEFL (Test of English as a Foreign Language) = 75 overall, with a minimum of 17 in each category: OR IELTS (International English Language Testing System) 6.5 overall, with a minimum of 6.0 in each category).

Application

The application for admission to the Master of Science in Data Science program must be submitted online. Official transcripts from each institution of higher education attended and all test scores must be sent directly to the WSU School of Computing.

Deadlines for application are October 15, for students enrolling in spring semester and March 15, for students enrolling in fall semester. Completed applications are considered by the Admissions Committee after each application deadline.

Leveling Courses

As determined on a case-by-case basis, students with non-computer science degrees may be required to take leveling courses in technology-related areas that will adequately prepare them for the MS core courses. The minimum leveling courses for non-computer science degrees are the following:

- Integral calculus: MATH 1216 or MATH 1220 or QUAN 2400.
- Descriptive and inferential statistics: MATH 3410 or MATH 3450 or QUAN 3610 or COMM 3150 or PSY 3600.
- Linear algebra: MATH 2270.
- Programming basics: CS 2420.
- Database basics: CS 2550 or MIS 3210.

Core Course Requirements

- CS 5580 - Data Science Algorithms **Credits: (3)**
- CS 6580 - Data Science Algorithms II **Credits: (3)**
- CS 6550 - Advanced Database Management Systems **Credits: (3)**
- ECON 6550 - Econometrics **Credits: (3)**
- MATH 6400 - Advanced Statistical Learning **Credits: (3)**
- MATH 6450 - Applied Statistics & Regression **Credits: (3)**
- MATH 6500 - Factor and Cluster Analysis **Credits: (3)**
- MPC 6840 - Data Visualization & Storytelling **Credits: (3)**
- CS 6705 - Applied Cloud Computing **Credits: (3)** or
- MATH 6900 - Capstone in Statistics and Data Science **Credits: (1-3)** (3 credits required)

Electives

Select six credits of the following courses not already used from above:

- Any MATH 6000-level course
- Any ECE 6000-level course
- Any CS 6000-level course
- Any CS 5000-level course
- Any ECON 6000-level course
- Any MPC 6000-level course
- MBA 6160 - Applications of Decision Models **Credits: (3)**
- MBA 6620 - Data Mining for Business **Credits: (3)**
- MBA 6660 - Forecasting and Time Series **Credits: (3)**
- MHA 6200 - Population Health and Data Analytics **Credits: (3)**
- MHA 6450 - Health Informatics **Credits: (3)**

Certification

Mobile Application Development Certificate

A student may apply for a certificate in Mobile Application Development provided he or she has fulfilled the following requirements:

1. Concurrent or previous completion of a Bachelor's Degree in Computer Science from the WSU College of Applied Science and Technology or any other accredited institution.
2. Completion of the following required courses with a grade of C or better. These courses may also be slotted as electives for degree requirements.

Program Learning Outcomes

- Apply knowledge of computing and mathematics
- Analyze problems, identify, and define requirements
- Design, implement, & evaluate computer-based systems
- Function in teams
- Professional, ethical, security, and social behavior
- Communicate Effectively
- Analyze local and global impact of computing
- Engage in continuing professional development
- Use current techniques, skills, and tools
- Apply mathematics, algorithms, and computer theory
- Apply design and development principles

(12 credit hours):

- CS 3260 - Mobile Development for the iPhone **Credits: (4)**
- CS 3270 - Mobile Development for Android **Credits: (4)**
- CS 3630 - Rich Internet Application Development **Credits: (4)**

College of Science

Dr. Andrea Easter-Pilcher, Dean

The College of Science provides quality education in the natural sciences and mathematics. The college offers majors and minors in seven departments (Botany, Chemistry, Earth and Environmental Science, Mathematics, Microbiology, Physics, and Zoology). The college also supports students through its Developmental Mathematics Program. The departments and programs of the College of Science support professional and graduate school preparatory programs, and contribute significantly to the general education of students by improving scientific understanding of the natural world and quantitative literacy. Education is provided through formal classes, laboratory and field experiences, and undergraduate research projects. Student learning is also supported by departmental clubs and professional preparatory organizations. The college promotes science and mathematics teaching through the Center for Science and Mathematics Education, and community outreach through such facilities as the Layton P. Ott Planetarium and Museum of Natural Science.

Associate Dean: Dr. Barb Trask

Associate Dean: Dr. Laine Berghout

Location: Tracy Hall Science Center, Room 470

Telephone Contact: Donna Wollman 801-626-6159

Department Chairs/Directors

Botany and Plant Ecology: Dr. Bridget Hilbig	801-626-6176
Chemistry and Biochemistry: Dr. Brandon Burnett	801-626-6221
Developmental Mathematics Program: Dr. Kathryn Van Wagoner	801-626-7478
Earth and Environmental Sciences: Dr. Marek Matyjasik	801-626-7726
Mathematics: Dr. Sandra Fital-Akelbek	801-626-6095
Microbiology: Dr. Michele Culumber	801-626-6949
Physics and Astronomy: Dr. Colin Inglefield	801-626-6163
Zoology: Dr. Ron Myers	801-626-6170

Science and Mathematics Programs, offered as both majors and minors allow students to pursue in-depth study in the science discipline of one's choice. They also allow one to experience a more diverse education through broader study outside of the sciences. Graduates in the sciences and mathematics are able to find employment in a variety of entry-level positions directly related to their major discipline. They are also able to move into graduate school or professional programs. Our graduates possess the broad liberal arts educational background and depth of expertise for significant career ladder movement in their discipline fields. They also have the breadth of knowledge and skills to exercise unique job mobility to become entrepreneurs and pioneer new career directions.

Pre-professional Programs are designed for students interested in specific professional careers requiring additional education at professional schools elsewhere. Weber State University has an excellent record of graduates being admitted into a wide range of professional school programs.

Professional Teacher Preparation Programs are designed to meet the needs of students seeking certification to teach in elementary and secondary schools. The Center for Science & Mathematics Education coordinates with the Jerry and Vickie Moyes College of Education to provide opportunities for students to investigate science teaching careers. There are many excellent career opportunities for graduates with teaching majors or minors in science or mathematics.

Technical Education Programs are offered to meet the needs of individuals seeking vocational and technical preparation required for skilled job-entry or reentry employment, as well as for career updating and occupational enhancement. Currently Associate of Science and Associate of Applied Science degrees are offered for Biotechnician training and Chemical Technician training, respectively, and Institutional Certificates are offered for Biotechnician training, Chemical Technician training, and Geomatics.

Students planning to major or minor in the College of Science should contact the appropriate department for assistance in planning their program. The details of the requirements for all majors and minors are listed within the respective departments. Students completing the teaching majors, minors, or emphases will also work closely with the Center for Science & Mathematics Education and the Jerry and Vickie Moyes College of Education.

Center for Science & Mathematics Education

Director: Dr. Adam Johnston

Location: Tracy Hall Science Center, Room 204

<https://www.weber.edu/csme>

csme@weber.edu

801-626-6160

Effective science and mathematics education of the citizenry requires rich and active experiences with the concepts and methods of science and math throughout life. To this end the Center for Science & Mathematics Education seeks to share the resources and expertise of the faculties at Weber State University with the surrounding schools and community.

The mission of the Center for Science and Math Education is to:

- To provide training and advisement for pre-service secondary education science and mathematics teaching majors.
- To provide coordination for science and mathematics education at Weber State University, liaison with the WSU Department of Teacher Education, the Utah State Office of Education and the local school districts.
- To provide in-service training and support for science and mathematics teachers.
- To provide opportunities and support for K-12 students related to science and mathematics.

The Center for Science & Mathematics Education also administers and advises students in the Biology Composite Teaching (BS) and the Biology Teaching Minor.

See Mathematics Education (MTHE) under Course Descriptions.

Science Education courses are listed following Master of Education (GSE) under Course Descriptions.

Chemical Technology Center

Director: Dr. Edward B. Walker

Location: Tracy Hall Science Center, Room 255P

Telephone: 801-626-6162

Email: ewalker@weber.edu

The mission of the Chemical Technology Center is to enhance the learning environment at Weber State University. The Center involves students and faculty in applied research activities that concomitantly provide extra-curricular learning opportunities, service to the community, and productive relationships with local and regional industries.

Layton P. Ott Planetarium

Director: Dr. John Armstrong, planetarium@weber.edu, 801-626-6215

Web Site: weber.edu/ottplanetarium

The Planetarium, featuring a 30-foot hemispherical dome, is used for instruction in undergraduate astronomy classes. It is also a science education facility featuring programs of interest to elementary students, secondary students, and the general public. For the general public, a program featuring some topic of current interest in astronomy is given one evening a week. Any teacher wishing instructional materials or wanting to set up an appointment for a class visit should contact the Director of the Planetarium, 801-626-6871.

Pre-Professional Programs

For information see weber.edu/premedicalprofessionalprograms or call the Pre-Medical Professional Programs office 801-626-7755.

Students pursuing one of the following programs should satisfy the pre-professional requirements while completing a bachelor's degree. Students should work closely with both their pre-professional advisor and their academic major advisor. Since course loads are typically heavy, and requirements and application procedures vary among post-graduate programs, students should plan their academic strategies early and with full information.

Advisement

Students should be familiar with requirements in the Weber State catalog and consult with the pre-professional advisor and an advisor in their major department.

<u>Emphasis</u>	<u>Advisor</u>	<u>Room</u>	<u>Telephone</u>
Pre-Chiropractic	Mr. James Moore	TY 358	801-626-7813
Pre-Dentistry	Mr. James Moore	TY 358	801-626-7813
Pre-Medical	Mr. James Moore	TY 358	801-626-7813
Pre-Optometry	Mr. James Moore	TY 358	801-626-7813
Pre-Pharmacy	Dr. Don Davies	TY 255K	801-626-6224
Pre-Occupational Therapy	Ms. Brittni Strickland	SW 102L	801-626-7425
Pre-Physical Therapy	Ms. Rachel Brock	SW 323	801-626-6696
Pre-Physician Assistant	Mr. Kenton Cummins	MH 215	801-626-7509
Pre-Podiatry	Mr. James Moore	TY 358	801-626-7813
Pre-Veterinary Medicine	Dr. Ron A. Meyers	TY 407	801-626-6170

Pre-Professional

Pre-Medical Programs

Choosing a career in the medical field is an important decision. Weber State students feel confident in this decision knowing their desire is well supported through the Dr. Ezekiel R. Dumke Family Pre-Medical Program and student resources. The journey starts by understanding that there is not a "pre-medical major;" rather, you select a major in any discipline and include the courses that schools providing professional training in your area of interest require. Regular communication with pre-medical advisors is encouraged as you plan and carry out your pre-medical preparation.

Pre-Med General Office

Monday - Friday, 8:00 a.m. - 5:00 p.m.
Tracy Hall Science Center, 201
801-626-7755, Email

Advisement

Pre-Medical Program Advisor: James K. More

Students pursuing pre-med programs should satisfy the pre-professional requirements while completing a bachelor's degree within the College of Science. Students should work closely with both their pre-professional advisor and their academic major advisor. Since course loads are typically heavy, and requirements and application procedures vary among post-graduate programs, students should plan their academic strategies early and with full information.

Programs

- Pre Dentistry
- Pre Medicine
- Pre Pharmacy
- Pre Physical Assistant
- Pre Physical & Occupational Therapy
- Pre Veterinary Medicine

Recommended Courses

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and

- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)** or
- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**
OR
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- MATH 1210 - Calculus I **Credits: (4)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**

Department of Botany and Plant Ecology

Department Chair: Sue Harley

Location: Tracy Hall Science Center, Room 416

Telephone: 801-626-6174

Professors: Sue Harley, Barbara Wachocki; **Associate Professor:** Bridget Hilbig, Heather Root; **Assistant Professors:** James Cohen

While plants have intrigued and delighted people for thousands of years, they still remain undervalued and too little appreciated. We see a faint connection between plants and our basic needs for food, shelter, clothing, and energy, but only in a rather limited way. Remote connections are made, if at all, between the history of exploration; present-day social, economic, and political conditions; and access to plants and plant products. Interest and understanding of plants is becoming much more intense. During the last few decades we have seen an unprecedented increase in the variety of plants and plant products available in our markets as the popularity of ethnic cuisines has grown. Also, worldwide, people are becoming increasingly aware of sound nutrition and the role plants play in our general health. We now appreciate plants as reservoirs of untold numbers of pharmaceuticals important in our war on diseases. These interests are stimulating our collective concerns about understanding the past, present, and future uses of plants. Recently we have begun to address our most serious problems, such as the loss of ecosystem integrity and habitats for animals dependent upon vegetation. This we have done through increased understanding of plants. We now know how valuable plants are in maintaining the health and stability of the global environment and that in its survival is the survival of the human species.

Botany is the study of all aspects of plants, including systematics, morphology, diversity, metabolism, and ecology. Through a study of plants, students gain an understanding and an appreciation of life at the cellular, organismal, population, and community levels of organization. The study of Botany can lead to a variety of professional careers, including soil science, forestry, range management, biotechnology, plant breeding, horticulture, environmental science, natural medicine, and teaching.

The Botany Department at Weber State University offers undergraduate training in all areas of botany. Students who are interested in specializing in a particular area are encouraged to meet with an advisor. Students who are interested in Field Botany can earn a certificate of proficiency in field botany while working on their Botany (BS) or as a stackable credential with a Biology (AS).

The Botany Department cooperates with the departments of Microbiology and Zoology in offering a Biology Composite Teaching (BS) Major for individuals who are interested in teaching Biology at the secondary school level and a Biology (AS).

The Botany Minor provides valuable support for students majoring in a variety of other fields, including anthropology, geosciences, and zoology.

Herbarium

The Herbarium of Weber State University is housed in the Tracy Hall Science Center, room TY345. It contains more than 28,000 preserved plant specimens, primarily collected from Utah and the Western United States. This collection serves as an important reference for students, faculty, biologists, and all others who need to know the identity of plants or learn something about their geographic distributions and ecological associations.

Interdisciplinary Programs

The Botany Department participates in the interdisciplinary Urban and Regional Planning Emphasis Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of the catalog.) The Department of Botany also contributes courses and faculty expertise to the interdisciplinary Environmental Science major (BS) sponsored by the College of Science.

Institutional Certificate

Field Botany Certificate of Proficiency

This program has been suspended pending formal discontinuance and is no longer accepting new students.

The Certificate of Proficiency in Field Botany provides 24 semester credit hours in botany, the minimal botany course work needed for federal job code 0430, botanist. This certificate can be earned as a stand alone certificate, as a +1 with the Biology AS, or while working on a Botany BS. An additional 5 credit hours in botany and an appropriate mathematics course are required beyond the requirements for the botany minor.

- **Program Prerequisite:** Not required.
- **Grade Requirements:** Students completing a certificate in Field Botany must have a minimum grade of "C" in all courses used toward the certificate (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 27-28 credit hours is required for the certificate.
- **Program Code:** 6045CP
- **CIPC:** 260301

Advisement

Advisor: Dr. Barbara Wachocki, 801-626-7223, bwachocki@weber.edu

Program Learning Outcomes

- The chemical and molecular machinations operating within all biological processes.
- The centrality of genetic systems' governance of life's actions from the cellular to the phyletic

- The coordinated regulation of integrated cellular systems and their effect on the physiological functioning of organisms
- The dynamic interaction of living systems with each other and their environments
- The transforming role of evolution in changing life forms and how evolution explains both the unity and diversity of life.
- The Process of Science: Students will use observational strategies to test hypotheses and critically evaluate experimental evidence.
- Quantitative Reasoning: Students will represent diverse experimental data sets graphically and apply statistical methods to them.
- Communication: Students will disseminate results of experiments in a variety of presentation formats to a wide variety of audiences.
- Sustainability: Students will use their knowledge of biology to address environmental issues and solutions.
- Basic Lab Techniques (For example: pipetting, light microscopy)
- Lab Safety (For example: chemical hygiene, sharps waste management)
- Navigation (For example: GPS, mapping, remote sensing)
- Plant Identification (For example: Dichotomous keying, common Utah flora, curating specimens)
- Plant Community Sampling (For example: plot selection and design, sampling strategies, vegetation sampling methods)
- Field Safety (For example: minimizing risk from field hazards in remote areas such as weather, travel, wild animals, and terrain)
- Record Keeping (For example: field notebook)

Course Requirements

Required courses (22-23 credit hours)

- BTNY 2104 - Plant Form and Function **Credits: (4)** *or equivalent as approved by Botany department chair*
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)** *or equivalent as approved by Botany department chair*
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**
- BTNY 4950 - Advanced Field Botany **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** *or*
- Equivalent math course as approved by Botany department chair

Botany Electives (Minimum 5 credit hours)

Select courses from the list below to reach a minimum of 24 total BTNY credit hours for the certificate.

- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3224 - Plant Morphology **Credits: (4)**
- BTNY 3303 - Plant Genetics **Credits: (4)**
- BTNY 3420 - Wildland Fire Ecology **Credits: (3)**

- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3504 - Mycology **Credits: (4)**
- BTNY 3643 - Intermountain Flora **Credits: (3)**
- BTNY 4750 - Topics in Botany **Credits: (1-5)** * (*variable title and credit*)
- BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** * (*variable title and credit*)

**with approval of the Botany department chair or Field Botany advisor*

Bachelor of Science

Botany (BS)

- **Program Prerequisite:** Not required.
- **Minor:** A minor is required.
- **Grade Requirements:** An overall GPA of 2.00 in all courses required for this major. Also refer to the general grade requirements for graduation under Degree Requirements.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 66 of these is required within the major. A total of 40 upper division credit hours is required (courses number 3000 and above) with a minimum of 21 required within the major.
- **Program Code:** 6067BS
- **CIPC:** 260301

Advisement

Majors are encouraged to consult with their advisor each semester. Contact the Botany department (801-626-6174).

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to pages Degree Requirements for Bachelor of Science requirements. The following courses required for the Botany major will also satisfy general education requirements:

All Botany majors are required to complete a Botany Capstone Seminar. The requirements for the Capstone are explained in detail when a student takes BTNY 2121. The final evaluation of the capstone seminar takes place in BTNY 4990.

Program Learning Outcomes

- The chemical and molecular machinations operating within all biological processes
- The centrality of genetic systems' governance of life's actions from the cellular to the phyletic
- The coordinated regulation of integrated cellular systems and their effect on the physiological functioning of organisms
- The dynamic interaction of living systems with each other and their environments

- The transforming role of evolution in changing life forms and how evolution explains both the unity and diversity of life.
- The dynamic interaction of living systems with each other and their environments
- The transforming role of evolution in changing life forms and how evolution explains both the unity and diversity of life.
- The Process of Science: Students will use observational strategies to test hypotheses and critically evaluate experimental evidence.
- Quantitative Reasoning: Students will represent diverse experimental data sets graphically and apply statistical methods to them.
- Communication: Students will disseminate results of experiments in a variety of presentation formats to a wide variety of audiences
- Sustainability: Students will use their knowledge of biology to address environmental issues and solutions.
- Basic Lab Techniques (For Example: pipetting, light microscopy, chromatography, aseptic technique, microbial culture and plating techniques, cell culture)
- Molecular (For Example: DNA extractions, PCR, Gel electrophoresis)
- Microscopy Techniques (For Example: Sectioning, Sample Infiltration and Embedding, Phase contrast, Confocal)
- Safety (For Example: Chemical hygiene, Sharps, Waste management)
- Navigation (For Example: GPS, Mapping, Remote Sensing, problem solving)
- Plant Identification (For Example: Dichotomous keying, common Utah flora, curating specimen)
- Plant Community Sampling (For example: plot selection and design, sampling strategies, vegetation sampling methods)
- Safety (For example: minimizing risk from field hazards in remote areas such as weather, travel, wild animals, terrain)
- Record Keeping (For example: lab notebook, field notebook)
- Software Applications (For example: FLOUVIEW, ARCGIS, R, MATLAB, Spreadsheets, Databases, 4Peaks)

Major Course Requirements for BS Degree

- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 2121 - Career Planning for Botanists **Credits: (1)**
- BTNY 2600 - Laboratory Safety **Credits: (1)**
- BTNY 2750 - Topics in Science and Society **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**
- BTNY 4990 - Botany Capstone Seminar **Credits: (2)**

Botany Elective Courses (Minimum of 21 Credit Hours)

A minimum of 21 additional credits is required within the major. Of these, a minimum of 3 credit hours in each of the three categories (A, B, and C) is required. A maximum of 6 lower division credits can count towards the major course requirements.

Category A: Genetics, Cell, and Molecular (3 credit minimum)

- BTNY 3153 - Biology of the Plant Cell **Credits: (3)**
- BTNY 3303 - Plant Genetics **Credits: (4)**

Category B: Physiology and Organismal (3 credit minimum)

- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3224 - Plant Morphology **Credits: (4)**
- BTNY 3504 - Mycology **Credits: (4)**
- BTNY 3583 - Medicinal Plants-Chemistry and Use **Credits: (4)**

Category C: Evolution, Ecology, and Environmental (3 credit minimum)

- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3420 - Wildland Fire Ecology **Credits: (3)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3643 - Intermountain Flora **Credits: (3)**
- BTNY 4113 - Plant Evolution **Credits: (3)**
- BTNY 4950 - Advanced Field Botany **Credits: (3)**

Additional Botany Elective Courses

BTNY 4750 - Topics in Botany, BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs, and other variable title courses may count towards one of the three categories with approval from the Botany Department chair.

- BTNY 2203 - Home and Garden Plants **Credits: (3)**
- BTNY 2303 - Ethnobotany **Credits: (3)**
- BTNY 2890 INT - Cooperative Work Experience **Credits: (1-3)**
- BTNY 4750 - Topics in Botany **Credits: (1-5)**
- BTNY 4800 - Individual Research **Credits: (2)**
- BTNY 4830 - Readings in Botany **Credits: (1-3)**
- BTNY 4840 - Thesis Readings **Credits: (2)**
- BTNY 4850 - Thesis Research **Credits: (1-4)**
- BTNY 4890 INT - Cooperative Work Experience **Credits: (1-6)**
- BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- BTNY 4970 - Botany Thesis **Credits: (2)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**

Required Support Courses (23-36 credit hours)

For each of the following categories in the College of Science you must choose one of the course groupings to satisfy your required support courses.

Chemistry (10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Mathematics (3-5 credit hours)

- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)** or
- MATH 1210 - Calculus I **Credits: (4)**

Physical Sciences (7-10 credit hours)

- PHYS 1010 PS - Elementary Physics **Credits: (3)** and
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** and
- GEO 1115 - Physical Geology Lab **Credits: (1)**
or
- PHYS 2010 PS - College Physics I **Credits: (5)** and
- PHYS 2020 - College Physics II **Credits: (5)**
or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Other Life Sciences (6 credit minimum)

- MICR 1113 LS - Introductory Microbiology **Credits: (3)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3203 - The Immune System in Health & Disease **Credits: (3)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3753 - Geomicrobiology **Credits: (3)**
- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 4554 - Virology **Credits: (4)**
- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3720 - Evolution **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**

- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Botany (BIS)

Botany (Minor/BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** An overall GPA of 2.00 in all courses used toward the minor.
- **Credit Hour Requirements:** Minimum 19 credit hours in Botany courses.
- **Program Code:** 6000
- **CIPC:** 260301

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for Minor/BIS

Botany Courses Required (9 credit hours)

- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 2600 - Laboratory Safety **Credits: (1)**

Electives

Select at least three courses from the list below for a minimum of 10 credit hours (3 lower division credit hours maximum).

- BTNY 2203 - Home and Garden Plants **Credits: (3)**
- BTNY 2303 - Ethnobotany **Credits: (3)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- BTNY 2750 - Topics in Science and Society **Credits: (3)**
- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3153 - Biology of the Plant Cell **Credits: (3)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3303 - Plant Genetics **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3504 - Mycology **Credits: (4)**
- BTNY 3514 - Algology **Credits: (4)**
- BTNY 3523 - Marine Biology **Credits: (3)**
- BTNY 3583 - Medicinal Plants-Chemistry and Use **Credits: (4)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**
- BTNY 3643 - Intermountain Flora **Credits: (3)**
- BTNY 4113 - Plant Evolution **Credits: (3)**
- BTNY 4252 - Cell Culture **Credits: (2)**
- BTNY 4750 - Topics in Botany **Credits: (1-5)**
- BTNY 4890 INT - Cooperative Work Experience **Credits: (1-6)**
- BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- BTNY 4950 - Advanced Field Botany **Credits: (3)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**
- BTNY 3420 - Wildland Fire Ecology **Credits: (3)**
- BTNY 3224 - Plant Morphology **Credits: (4)**

Minor

Botany Minor

Botany (Minor/BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** An overall GPA of 2.00 in all courses used toward the minor.

Department of Chemistry and Biochemistry

Department Chair: Brandon Burnett

Location: Tracy Hall Science Center, Room 255H

Telephone Contact: Colleen Boam 801-626-6952

Professors: H. Laine Berghout, Charles Davidson, Don Davies, Timothy Herzog, Todd M. Johnson, Andreas Lippert, Barry A. Lloyd, Michelle Paustenbaugh, Edward Walker; **Associate Professors:** Brandon Burnett, Tracy Covey; **Assistant Professor:** Andressa Antonini Bertolazzo, Katherine Bowman, Demetrios Pagonis **Instructors:** Carol Campbell, Brooke Jenkins, Ranga Don Wahalathantrige

The Department of Chemistry and Biochemistry is approved by the American Chemical Society (ACS). Chemistry and Biochemistry- ACS Certified Bachelor of Science degrees meets all the requirements of the ACS. Both Chemistry BS or Biochemistry BS programs provide good foundations in chemistry and biochemistry that prepares students to enter the work force directly, or enter graduate research programs. They also provide our students excellent preparation for Pre-Medical, Pre-Dental, Pre-Pharmacy, other Pre-Medical Professional students and who need a sound chemical background. The Chemistry Teaching Major leads to a Bachelor of Science Degree with secondary education licensure. A Chemistry Minor and a Chemistry Teaching Minor are also available. The two-year Chemical Technician Program, leading to an Associate of Applied Science Degree or a Certificate of Skill Proficiency, is designed to emphasize skills required for employment as a technician in chemical laboratories.

Interdisciplinary Programs

The Department of Chemistry and Biochemistry contributes courses and faculty expertise to the Interdisciplinary Environmental Science major (BS) sponsored by the College of Science. In addition, the department participates in A.A.S. Physical Science.

Associate of Applied Science

Chemical Technician (AAS)

- **Grade Requirements:** Minimum overall GPA of 2.00 or "C".
- **Credit Hour Requirements:** A total of 63 credit hours are required for graduation; 35 of these are required within the program.
- **Program Code:** 6004AAS
- **CIPC:** 410301

Advisement

It is recommended that a student consult with a chemistry advisor annually. Call 801-626-6952 for information and to arrange an appointment.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following course required for the Chemical Technician program will also satisfy part of the general education requirement for physical sciences: CHEM 1210.

Major Course Requirements for AAS Degree

Courses Required

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2990 - Chemical Technician Seminar **Credits: (1)**

Foundation Courses

Students are required to take 2 of the following foundation courses:

Please note the combined CHEM 2310 and CHEM 2315 and CHEM 3070 and CHEM 3075 count as one foundation course. CHEM 2310 and CHEM 2315 must be taken concurrently.

- CHEM 2310 - Organic Chemistry I **Credits: (4)**
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3410 - Foundations in Physical Chemistry **Credits: (4)**
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**

Support Course Required (4 credit hours)

- MATH 1050 QL - College Algebra **Credits: (4)**

Institutional Certificate

Chemical Technician Certificate of Completion

- **Grade Requirements:** Minimum overall GPA of 2.00 or "C".
- **Credit Hour Requirements:** A total of 41 credit hours are required.
- **Program Code:** 6004CC
- **CIPC:** 410301
-

Course Requirements for Institutional Certificate of Completion

Courses Required (21 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2600 - Laboratory Safety **Credits: (1)**
- CHEM 2990 - Chemical Technician Seminar **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3020 - Computer Applications in Chemistry **Credits: (1)**
- CHEM 3050 - Instrumental Analysis **Credits: (4)**

Support Courses Required (10 credit hours)

- ENGL 1010 EN1 - Introductory College Writing **Credits: (3)**
- One additional course in oral or written communications **(3)**
- *Minimum* MATH 1010 - Intermediate Algebra **Credits: (4-5)** or *equivalent*

Elective Courses (Select 10 credit hours; at least 4 credit hours must be 2000-level or higher)

- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)** and
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- CHEM 2890 INT - Cooperative Work Experience **Credits: (1-6)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3080 - Biochemistry II **Credits: (3)**
- CHEM 3090 - Biochemical Techniques **Credits: (1)**
- CHEM 4540 - Spectrometric and Separation Methods **Credits: (4)**
- CHEM 4890 INT - Cooperative Work Experience **Credits: (1-6)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 4253 - Cell Culture **Credits: (3)**
- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 3153 - Biology of the Plant Cell **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 2050 - Earth Materials **Credits: (4)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2020 - College Physics II **Credits: (5)** or
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- CJ 1350 - Introduction to Forensic Science **Credits: (3)**
- CJ 4110 - Physical Methods in Forensic Science **Credits: (4)**
- CJ 4115 - Friction Ridge Analysis **Credits: (4)**
- CJ 4125 - Research Methods in Forensic Science **Credits: (4)**

Note:

Other courses may be used to fill these 10 hours of electives if approved by the Chemistry Department Chair.

Bachelor of Science

Biochemistry - ACS Certified (BS)

- **Program Prerequisite:** Students are eligible for admission to the Biochemistry (BS) Program upon completion of the requirements for the Chemical Technician (AAS) degree, the requirements of which are a subset of the Biochemistry (BS) requirements.
- **Minor:** Not required.
- **Grade Requirements:** Average GPA of 2.00 or better in courses within the major.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A minimum of 56 credit hours of chemistry and chemistry related course work are required with a further 18 credits in required cognate courses outside of chemistry. A total of 40 upper division credit hours (in courses numbered 3000 and above) are required for all Biochemistry majors to fulfill University graduation requirements; 36 upper division credit hours are earned while completing the Biochemistry program requirements.
- **Program Code:** 6036BS
- **CIPC:** 260202

Advisement

All Biochemistry majors should meet with their assigned faculty advisor at least annually for course and program advisement. Initial advisement is with the Chemistry Department Chair. Call 801-626-6952 for information and to arrange an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Students are eligible for admission to the Biochemistry (BS) program upon completion of the requirements for the Chemical Technician (AAS) degree, the requirements of which are a subset of the in Biochemistry (BS) requirements.

General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Biochemistry major also satisfy general education requirements for the physical sciences: CHEM 1210 and PHYS 2210 or PHYS 2010.

Biochemistry-ACS Certified (BS)

Students applying for the Biochemistry Major will first complete the requirements for the Chemical Technician AAS. Courses for the AAS are included here for completeness.

Program Learning Outcomes

- Problem-solving skills. Chemistry majors should be competent problem-solvers. They should be able to identify the essential parts of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of chemistry.
- Laboratory skills. Chemistry majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, interpret their result and connect it to related areas of chemistry.
- Presentation skills. Chemistry majors should be able to express (orally and in writing) their understanding of core chemical principles, the results of experiments, the analysis of problems and their conclusions.
- Computer skills. Chemistry majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. Strong presentation and organizing skills are complimented with computer knowledge in graphing and spreadsheets.

Required Introductory and Foundation Courses (32 credit hours)

The following are introductory and foundation level courses that are required for the Biochemistry major.

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2990 - Chemical Technician Seminar **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)**
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3410 - Foundations in Physical Chemistry **Credits: (4)**
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**

Required In-Depth Courses (16 credit hours)

The following are required courses beyond the foundation and include either ZOOL 3200 - Cell Biology, or MICR 4154 - Microbial Genetics.

- CHEM 2320 - Organic Chemistry II **Credits: (4)**
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- CHEM 3080 - Biochemistry II **Credits: (3)**
- CHEM 3090 - Biochemical Techniques **Credits: (1)**
- CHEM 4250 CRE - Medicinal Chemistry **Credits: (3)** and

- MICR 4154 - Microbial Genetics **Credits: (4)** or
- ZOOL 3200 - Cell Biology **Credits: (4)**

Elective In-Depth Courses (select at least 8 credit hours)

Students will complete 8 hours of elective credits from the list below including courses from the chemistry, botany, microbiology or zoology departments. At least two hours of CHEM Laboratory are required. One hour of laboratory credit is embedded in most in-depth CHEM courses. Please consult the course description for more details.

- BTNY 3153 - Biology of the Plant Cell **Credits: (3)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3303 - Plant Genetics **Credits: (4)**
- BTNY 3583 - Medicinal Plants-Chemistry and Use **Credits: (4)**
- CHEM 3050 - Instrumental Analysis **Credits: (4)**
- CHEM 4150 - Nuclear Magnetic Resonance Spectroscopy **Credits: (3)**
- CHEM 4420 CRE - Quantum Chemistry **Credits: (4)**
- CHEM 4540 - Spectrometric and Separation Methods **Credits: (4)**
- CHEM 4620 - Advanced Inorganic Chemistry **Credits: (4)**
- CHEM 4630 - Materials Chemistry **Credits: (4)**
- CHEM 4700 - Special Topics in Chemistry **Credits: (1-3)**
- CHEM 4800 - Research and Independent Study in Chemistry **Credits: (1-3)**
- CHEM 4990 CRE - Senior Seminar **Credits: (1)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 4253 - Cell Culture **Credits: (3)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**

Note:

CHEM 2600 - Laboratory Safety recommended.

Students planning to attend graduate school should take PHYS 2210/2220 and CHEM 4420.

Additional courses should be chosen to support career plans.

Required Cognate Courses (18 credit hours)

Students must complete a minimum of two semesters of calculus and two semesters of physics with laboratory.

- MATH 1210 - Calculus I **Credits: (4)** and
- MATH 1220 - Calculus II **Credits: (4)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and

- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)** or
- PHYS 2010 PS - College Physics I **Credits: (5)** and
- PHYS 2020 - College Physics II **Credits: (5)**

Chemistry - ACS Certified (BS)

- **Program Prerequisite:** Students are eligible for admission to the Chemistry (BS) Program upon completion of the requirements for the Chemical Technician (AAS) degree, the requirements of which are a subset of the in Chemistry (BS) requirements.
- **Minor:** Not required
- **Grade Requirements:** Average GPA of 2.00 or better in courses within the major.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A minimum of 51 credit hours of chemistry and chemistry related course work are required with a further 18 credits in required cognate courses outside of chemistry. A total of 40 upper division credit hours (in courses numbered 3000 and above) are required for all Chemistry majors to fulfill University graduation requirements; 29-34 upper division credit hours are earned while completing the Chemistry program requirements.
- **Program Code:** 6005BS
- **CIPC:** 400501

Advisement

All Chemistry majors should meet with their assigned faculty advisor at least annually for course and program advisement. Initial advisement is with the Chemistry Department Chair. Call 801-626-6952 for information and to arrange an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Students are eligible for admission to the Chemistry (BS) Program upon completion of the requirements for the Chemical Technician (AAS) degree, the requirements of which are a subset of the in Chemistry (BS) requirements.

General Education Requirements

Refer to Degree and General Education Requirements for Bachelor of Science requirements. The following courses required for the Chemistry major also satisfy general education requirements for the physical sciences: CHEM 1210 and PHYS 2210.

Chemistry-ACS Certified (BS)

Students applying for the Chemistry Major will first complete the requirements for the Chemical Technician AAS. Courses for the AAS are included here for completeness.

Program Learning Outcomes

- Problem-solving skills. Chemistry majors should be competent problem-solvers. They should be able to identify the essential parts of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of chemistry.

- Laboratory skills. Chemistry majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, interpret their result and connect it to related areas of chemistry.
- Presentation skills. Chemistry majors should be able to express (orally and in writing) their understanding of core chemical principles, the results of experiments, the analysis of problems and their conclusions.
- Computer skills. Chemistry majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. Strong presentation and organizing skills are complimented with computer knowledge in graphing and spreadsheets.

Required Introductory and Foundation Courses (32 credit hours)

The following are introductory and foundation level courses that are required for the Chemistry major.

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)**
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2990 - Chemical Technician Seminar **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3410 - Foundations in Physical Chemistry **Credits: (4)**
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**

Required In-Depth Courses (3 credit hours)

The following are required courses beyond the foundation.

- CHEM 4800 - Research and Independent Study in Chemistry **Credits: (1-3)**
Minimum of 2 credit hours of CHEM 4800 are required
- CHEM 4990 CRE - Senior Seminar **Credits: (1)**

Elective In-Depth Courses (minimum 16 credit hours)

Students must take a minimum of 16 credit hours of the following courses with a minimum of 12 hours in CHEM including a minimum of 4 hours of CHEM laboratory. One hour of laboratory credit is imbedded in most in-depth CHEM courses. Please consult the course description for more detail.

- CHEM 2320 - Organic Chemistry II **Credits: (4)**
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- CHEM 3020 - Computer Applications in Chemistry **Credits: (1)**
- CHEM 3050 - Instrumental Analysis **Credits: (4)**
- CHEM 3080 - Biochemistry II **Credits: (3)**
- CHEM 3090 - Biochemical Techniques **Credits: (1)**
- CHEM 4150 - Nuclear Magnetic Resonance Spectroscopy **Credits: (3)**

- CHEM 4250 CRE - Medicinal Chemistry **Credits: (3)**
- CHEM 4420 CRE - Quantum Chemistry **Credits: (4)**
- CHEM 4540 - Spectrometric and Separation Methods **Credits: (4)**
- CHEM 4550 - Geochemistry **Credits: (3)**
- CHEM 4620 - Advanced Inorganic Chemistry **Credits: (4)**
- CHEM 4630 - Materials Chemistry **Credits: (4)**
- CHEM 4700 - Special Topics in Chemistry **Credits: (1-3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 4110 - Modern Algebra I **Credits: (3)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- PHYS 3180 - Thermal Physics **Credits: (3)**
- PHYS 3190 CRE - Applied Optics **Credits: (3)**
- PHYS 3410 - Electronics for Scientists **Credits: (4)**
- PHYS 4200 - The Physics of Materials **Credits: (3)**
- PHYS 4410 CRE - Materials Characterization Laboratory **Credits: (2)**
- PHYS 4610 - Quantum Mechanics **Credits: (3)**
- ZOOL 3200 - Cell Biology **Credits: (4)**

Note:

CHEM 2600 - Laboratory Safety is recommended.

CHEM 2320/2325, CHEM 4420, and CHEM 4620 are strongly recommended for students planning to attend graduate school.

Additional upper division math courses (MATH 2210, MATH 2270, MATH 2280, MATH 3410, MATH 3710, MATH 4110) are recommended for students planning to attend graduate school and study physical chemistry or chemical engineering.

Additional courses should be chosen to support career plans.

Required Cognate Courses (18 credit hours)

Students must complete a minimum of two semesters of calculus and two semesters of physics with laboratory.

- MATH 1210 - Calculus I **Credits: (4)** and
- MATH 1220 - Calculus II **Credits: (4)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Chemistry Teaching (BS)

- **Program Prerequisite:** Chemistry Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).
- **Grade Requirements:** Average GPA of 2.00 or better in Chemistry courses. Also refer to the general grade requirements for graduation on Degree Requirements.

- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 43 are required within the teaching major, plus the credits required by the Teacher Education department. A total of 40 upper division credit hours (in courses numbered 3000 and above) are required for all Chemistry majors to fulfill University graduation requirements.
- **Program Code:** 6007BS
- **CIPC:** 131323

Advisement

All Chemistry Teaching majors should meet with the Chemistry Teaching major advisor at least annually for course and program advisement. Call 801-626-6952 for information and to arrange an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for the Chemistry Teaching major, however, teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Chemistry major also satisfies general education requirements: CHEM 1210 and CHEM 1215.

Program Learning Outcomes

- Problem-solving skills. Chemistry majors should be competent problem-solvers. They should be able to identify the essential parts of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of chemistry.
- Laboratory skills. Chemistry majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, interpret their result and connect it to related areas of chemistry.
- Presentation skills. Chemistry majors should be able to express (orally and in writing) their understanding of core chemical principles, the results of experiments, the analysis of problems and their conclusions.
- Computer skills. Chemistry majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. Strong presentation and organizing skills are complimented with computer knowledge in graphing and spreadsheets.

Required Introductory and Foundation Courses (15 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**

Additional Required Chemistry Courses (8 credit hours)

- CHEM 2600 - Laboratory Safety **Credits: (1)**
- CHEM 3570 - Foundations of Science Education **Credits: (3)**
- CHEM 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**
- CHEM 4800 - Research and Independent Study in Chemistry **Credits: (1-3)** (1 credit hour required) or
- CHEM 4890 INT - Cooperative Work Experience **Credits: (1-6)**

Electives (select at least 8 credit hours)

- CHEM 3000 - Quantitative Analysis **Credits: (4)** and
- CHEM 3020 - Computer Applications in Chemistry **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3410 - Foundations in Physical Chemistry **Credits: (4)** (note pre-requisites)
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**

Required Support Courses (7-8 credit hours)

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)**

Note:

Consult with an advisor early the in program to choose elective courses which will fulfill teaching endorsement requirements.

Student must also complete requirements for a secondary education license as determined by the Jerry and Vicki Moyes College of Education

Emphasis Option for Bachelor of Interdisciplinary Studies

Chemistry (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A minimum grade of "C" must be achieved in all coursework used to satisfy BIS emphasis requirements, consistent with the requirements for the BIS degree.
- **Credit Hours Requirements:** A minimum of 18 credit hours is required for the BIS emphasis.
- **Program Code:** 6006

- **CIPC:** 400501

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for BIS Emphasis

Required Introductory Courses (10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Elective Foundation Courses (8-10 credit hours)

Select two foundation courses and their associate labs or co/prerequisite (if not included with the course) from the list below:

- CHEM 2310 - Organic Chemistry I **Credits: (4)**
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3020 - Computer Applications in Chemistry **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3410 - Foundations in Physical Chemistry **Credits: (4)**
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**

Minor

Chemistry Minor

- **Grade Requirements:** A minimum passing grade of "D-" will be accepted in any course used toward the minor.
- **Credit Hours Requirements:** A minimum of 18 credit hours is required.
- **Program Code:** 6006
- **CIPC:** 400501

Required Introductory Courses (10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Elective Foundation Courses (8-10 credit hours)

Select two foundation courses and their associated labs or co/prerequisite (if not included with the course) from the list below:

- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)** and
- CHEM 3020 - Computer Applications in Chemistry **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3410 - Foundations in Physical Chemistry **Credits: (4)** (note prereqs)
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**

Teaching Minor

Chemistry Teaching Minor

- **Grade Requirements:** A minimum passing grade of "D-" will be accepted in any course used toward the minor.
- **Credit Hour Requirements:** A minimum of 26 credit hours is required.
- **Program Code:** 6007
- **CIPC:** 131323

Students who select the Chemistry Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Course Requirements for Teaching Minor

Courses Required (23 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and

- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)** and
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**

Approved chemistry elective, 3000 or above

Support Course Required (3 credit hours)

- HIST 3350 - History and Philosophy of Science **Credits: (3)**

If a student is not obtaining a Teaching Major in Sciences, the following courses are also required:

- CHEM 2600 - Laboratory Safety **Credits: (1)**
- CHEM 3570 - Foundations of Science Education **Credits: (3)**
- CHEM 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**

Department of Earth and Environmental Sciences

Department Chair: Dr. Marek Matyjasik

Location: Tracy Hall Science Center, Room 338

Telephone Contact: Anna Cich 801-626-7139

Professors: Michael Hernandez, Marek Matyjasik, Adolph Yonkee; **Associate Professor:** Elizabeth Balgord, Carie Frantz; **Assistant Professors:** Ryan Frazier, Caitlin Tems; **Lab Manager:** Sara Summers

Earth scientists (also called geoscientists) investigate Earth, our planetary home, including its origin, composition, dynamic processes, and evolution over geologic time. Earth science knowledge is vital to society, as we explore for natural resources, mitigate the impacts of natural disasters, and work to protect the quality of the environment for future generations. Environmental scientists are problem solvers; they use multi-science approaches to investigate and address a wide variety of environmental issues. Both Earth and environmental scientists rely heavily of geospatial technologies (GIS, remote sensing, drones) to study and model Earth processes and features. This is an important and exciting time to be involved in Earth, environmental, and geospatial science careers.

The Department of Earth and Environmental Sciences offers bachelor's degrees in Geology, Applied Environmental Geoscience, and Earth Science Teaching, and supports the Physical Science Composite Teaching degree. The department offers minors in Geology, Geospatial Studies, and Earth Science Teaching. A certificate of proficiency in Geospatial Analysis is also available.

Every citizen should have a basic knowledge of how our planet, including its climate system, works. Thus, the department offers a wide variety of physical science (PS) general education courses.

Interdisciplinary Programs

The Department of Earth and Environmental Sciences contributes courses and faculty expertise to the interdisciplinary Environmental Science major (BS) sponsored by the College of Science. In addition, the department participates in the interdisciplinary Environmental Studies Minor Program and the Urban and Regional Planning

Emphasis Program. Students who wish to enroll in one of these programs should contact the program coordinator, who will help them select a combination of courses to fit their particular educational goals. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of the catalog.)

The Department of Earth and Environmental Sciences uses the course prefix GEO because "geo", from the Greek, means Earth.

Emphasis Options for Bachelor of Integrated Studies

The Geology Minor and/or Geospatial Studies Minor may be used as a BIS emphasis.

Institutional Certificate

Geospatial Analysis Certificate of Proficiency

Advisor: Dr. Michael Hernandez, 801-626-8186, mhernandez@weber.edu, and Dr. Ryan Frazier, 801-626-7435, ryanfrazier@weber.edu

- **Grade Requirements:** A grade of "C" or better in all courses used toward the certificate (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 16 credit hours from the Department of Earth and Environmental Sciences, and 6 credit hours from the Department of Geography. The remaining 1-3 credit hours earned from completing either the Geospatial Internship (GEO 4840 /GEOG 4840) or Geospatial Capstone (GEO 4850 /GEOG 4850) courses will be taken in the department offering it that year
- Gainful Employment Disclosure
- **Program Code:** 6013CP
- **CIPC:** 450702

Additional information pertaining to the Northern Utah Geospatial Technology Education Program (NUGeoTec) may be found at <https://www.weber.edu/nugeotec> or <http://departments.weber.edu/geosciences>.

Program Learning Outcomes

- Students will demonstrate how to effectively create and communicate geospatial data/results to others through cartographically accurate maps/dynamic products, technical reports, and multimedia presentations.
- Students will demonstrate understanding of basic geospatial concepts, such as data models, spatial databases, data projections and coordinate systems, topology, digitizing spatial data, metadata, and quality control.
- Students will demonstrate understanding of geospatial analysis that can be performed on vector and raster data collected from various platforms such as satellites / drones (Remote Sensing), GPS instruments, field maps. They will demonstrate the ability to perform multiple types of analysis, including spatial overlay, raster processing, statistics, terrain and hydrologic analysis, transportation networks, modeling, and Python programming.
- Students will demonstrate the ability to work in a team environment to complete a set of geospatial tasks or a geospatial project that includes project objectives, methods, data collection, analysis and reporting results in a professional format through completion of a geospatial internship or capstone course.

Course Requirements for Certificate of Proficiency

Geospatial Courses Required (22 credit hours)

Required courses are offered in two departments: Earth and Environmental Sciences (GEO) and Geography (GEOG).

- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- GEO 3840 - Remote Sensing: Principles and Methods **Credits: (4)**
- GEO 4200 - Geospatial Data Acquisition **Credits: (4)**
- GEOG 4400 - Cartography and Map Design **Credits: (3)**
- GEOG 4600 - Geospatial Programming and Online Methods **Credits: (3)**

Elective Geospatial Courses (1-3 credit hours)

Select one elective course in the Earth and Environmental Sciences Department (GEO-even years) or the Geography Department (GEOG-odd years), depending on the year, from the following:

- GEO 4840 INT - Geospatial Internship **Credits: (1-3)** taught even years
- GEO 4850 - Geospatial Capstone **Credits: (3)** taught even years

Additional Information:

Other applicable geospatial and support courses (e. g., computer programming, applications development, relational database, and field-based courses) and co-curricular experiences (e. g., CCEL) may be considered at the discretion of the program advisor.

A sample of degree programs that this certificate complements include Applied Environmental Geosciences, Geology, Geography, Botany, Computer Science, Information Systems& Technologies, Archaeology, Anthropology, Epidemiology, Business, Criminal Justice, other social sciences, or a combination of three emphasis areas for a Bachelor of Integrated Studies (BIS) Degree. The Geospatial Analysis Certificate of Proficiency provides students with the essential skills necessary to analyze/model/solve today's applied geospatial problems.

Bachelor of Arts

Geology (BA)

- **Program Prerequisite:** None.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C-" or better in courses required for this major in addition to an overall GPA for all courses of 2.00 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 51-58 of these are required within the major. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Program Code:** 6010BA
- **CIPC:** 400601

* Students may benefit from having a minor in such fields as chemistry, physics, mathematics, computer science, geospatial analysis, a life science, or professional and technical writing and should consult with an advisor prior to choosing an option.

Advisement

Advisors: Dr. Adolph Yonkee, 801-626-7419, ayonkee@weber.edu, and Liz Balgord 801-626-6225, elizabethbalgord@weber.edu

All Geology students are required to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-7139 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. MATH 1050 or MATH 1080 or MATH 1210 is recommended for the Quantitative Literacy requirement. The following courses required for the Geology major will also satisfy general education requirements: BTNY 1203, CHEM 1210, GEO 1110, PHYS 2010, and PHYS 2210.

Program Learning Outcomes

- Be able to identify common minerals and rocks, describe rock characteristics, and interpret the environments/conditions (igneous, sedimentary, or metamorphic) in which rocks formed. {Earth Materials}
- Be able to identify major physical and biological events in Earth history and describe the methods used to interpret this history, including radiometric dating, fossil succession, and stratigraphic correlation. {Earth History}
- Be able to identify landforms from maps and imagery, construct topographic profiles, and interpret the development of landforms in terms of common surface processes. {Surface Processes}
- Be able to identify the different types of lithospheric plate boundaries based on types of activity, estimate rates of plate motion, describe the driving mechanisms for plate tectonics, and interpret geologic structures and construct cross sections from geologic map data. {Tectonic Processes}
- Be able to describe key geological cycles - including the hydrologic cycle, rock cycle, and carbon cycle. {Earth Systems}
- Have demonstrated an understanding of scientific methodology and the interdisciplinary nature of the geosciences, culminating in a capstone experience involving collection and analysis of multiple data sets to interpret Earth processes. {Capstone Experience}

Language Courses Required to fulfill the BA (12 credit hours)

- 6 semester hours of a foreign language

Select an additional 6 semester hours from the following:

- ENGL 3610 - American Literature I **Credits: (3)**

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- ENGL 3520 HU - Literature of the Natural World **Credits: (3)**
- Or additional foreign language

Major Course Requirements for BA Degree

Geology Courses Required (23 credit hours)

- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 2050 - Earth Materials **Credits: (4)**
- GEO 3000 - Geoscience Methods and Careers **Credits: (3)**
- GEO 3080 - Applied Hydrology **Credits: (3)** or
- GEO 3550 - Sedimentology and Stratigraphy **Credits: (4)**
- GEO 3150 - Geomorphology **Credits: (4)**

Electives Courses (15 credit hours)

- Select an additional 15 hours from GEO courses numbered 3000 and above and/or up to 6 hours from other Earth/environmentally related classes approved by the Earth and Environmental Sciences Department.

Support Courses Required (13-21 credit hours)

- BTNY 1203 LS - Plant Biology **Credits: (3)** or
- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)**
- CHEM 1010 PS - Introductory Chemistry **Credits: (3)**
OR
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
OR
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** ** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)** or
- PHYS 2010 PS - College Physics I **Credits: (5)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** **
- either**
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**
OR
- MATH 1080 QL - Pre-calculus **Credits: (5)**

OR

- MATH 1210 - Calculus I **Credits: (4)** **

Notes:

* Students should consider a minor or complementary set of elective classes that supports their career plans (please consult an advisor).

**Students planning to attend graduate school in science or engineering areas should take additional Chemistry, Physics, and Math classes (please consult an advisor).

Bachelor of Science

Applied Environmental Geosciences (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** None.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C-" or better in each courses required by this major in addition to a minimum cumulative GPA for all courses of 2.0.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 77 to 82 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 38 to 40 of these are required within the major.
- **Program Code:** 6012BS
- **CIPC:** 400601

Advisement

All Geoscience students are required to meet with a faculty advisor (see above) at least annually for course and program advisement. Call 801-626-7139 for more information or to schedule an appointment.

Advisor: Dr. Marek Matyjasik, 801-626-7726

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. MATH 1050 or MATH 1080 is recommended for the Quantitative Literacy requirement. The following courses required for the Applied Environmental Geoscience major will also satisfy general education requirements: CHEM 1210, GEO 1060, GEO 1110, PHYS 2010, and PHYS 2210.

Course Prefix GEO

The Department of Earth and Environmental Sciences uses the course prefix GEO because geo means "earth." The prefix GEO also aids in course articulation with other colleges and universities.

Program Learning Outcomes

- Be able to identify common minerals and rocks, describe rock characteristics, and interpret the environments/conditions (igneous, sedimentary, or metamorphic) in which rocks formed. {Earth Materials}
- Be able to identify major physical and biological events in Earth history and describe the methods used to interpret this history, including radiometric dating, fossil succession, and stratigraphic correlation. {Earth History}
- Be able to identify landforms from maps and imagery, construct topographic profiles, and interpret the development of landforms in terms of common surface processes. {Surface Processes}
- Be able to identify the different types of lithospheric plate boundaries based on types of activity, estimate rates of plate motion, describe the driving mechanisms for plate tectonics, and interpret geologic structures and construct cross sections from geologic map data. {Tectonic Processes}
- Be able to describe key geological cycles - including the hydrologic cycle, rock cycle, and carbon cycle. {Earth Systems}
- Have demonstrated an understanding of scientific methodology and the interdisciplinary nature of the geosciences, culminating in a capstone experience involving collection and analysis of multiple data sets to interpret Earth processes. {Capstone Experience}

Major Course Requirements for BS Degree

Earth Science Courses Required (39-40 credit hours)

- GEO 1060 PS - Environmental Geosciences **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 2050 - Earth Materials **Credits: (4)**
- GEO 3000 - Geoscience Methods and Careers **Credits: (3)**
- GEO 3080 - Applied Hydrology **Credits: (3)**
- GEO 3150 - Geomorphology **Credits: (4)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3753 - Geomicrobiology **Credits: (3)** or
- GEO 4560 - Environmental Geochemistry **Credits: (4)**
- GEO 4060 - Geoscience Field Methods **Credits: (4)**
- GEO 4990 - Earth Science and Society Seminar **Credits: (2)**

Applied Geoscience Electives Required (11-12 credit hours)

Complete three (3) of the following courses:

- GEO 3214 - Soils **Credits: (4)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- GEO 3840 - Remote Sensing: Principles and Methods **Credits: (4)**
- GEO 4080 - Groundwater and Environmental Assessment **Credits: (4)**

- GEO 4100 - Engineering Geology **Credits: (3)**
- GEO 4200 - Geospatial Data Acquisition **Credits: (4)**
- GEO 4560 - Environmental Geochemistry **Credits: (4)** or
- GEO 3753 - Geomicrobiology **Credits: (3)**

Additional Electives Required (3 credit hours minimum)

Complete a minimum of 3 credit hours in additional upper-division Earth Science (GEO) courses (numbered 3000 and above), which could include an additional applied geoscience course listed above or another approved environmental/sustainability science course.

Support Courses Required (24-27 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- PHYS 2010 PS - College Physics I **Credits: (5)** and
- PHYS 2020 - College Physics II **Credits: (5)**
or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)** *
- either**
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**
or
- MATH 1080 QL - Pre-calculus **Credits: (5)**
or
- MATH 1210 - Calculus I **Credits: (4)** **

Note:

**Students planning to attend graduate school in Geology or a related geotechnical area should take PHYS 2210-PHYS 2220, Physics for Scientists & Engineers, instead of the General Physics series (PHYS 2010-PHYS 2020).*

***Students planning to attend graduate school in Geology or a related geotechnical area should also take MATH 1210/MATH 1220, Calculus I and II (8).*

Students planning a career or advanced degree in geospatial science and technologies are encouraged to complete the Geospatial Analysis certificate program. Students planning a career or advanced degree in geotechnical applications are encouraged to take GEO 3060, GEO 4080, GEO 4100 and as electives. Course work in microbiology, especially Environmental Microbiology (MICR 3484), is recommended for students pursuing environmental or remediation-related careers.

Earth Science Teaching (BS)

- **Program Prerequisite:** Must satisfy Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C-" or better in courses required for this major.
- **Credit Hour Requirements:** A total of 125-126 credit hours is required for graduation; 70 to 72 of these are required within the major. Teacher Education Licensure requires 9 credit hours of support courses and 24 credit hours of professional education courses (see Teacher Education Department). This major requires a total of 44 upper division credit hours (courses numbered 3000 and above); 17 of these are required Geosciences courses and 24 are Teacher Education courses.
- **Program Code:** 6011BS
- **CIPC:** 131316

Advisement

All Earth Science Teaching students are required to meet with a faculty advisor (see previous column) at least annually for course and program advisement. Call 801-626-7139 for more information or to schedule an appointment. In addition, teaching majors are encouraged to consult with an advisor in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Advisor: Dr. Caitlin Tems, 801-626-7421.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Earth Science Teaching majors must satisfy Teacher Education admission and licensure requirements. (See Teacher Education Department.)

General Education

Refer to Degree Requirements for Bachelor of Science requirements. MATH 1050 or MATH 1080 is recommended for the Quantitative Literacy requirement. The following courses required for the Earth Science Teaching major will also satisfy general education requirements: BTNY 1203, CHEM 1210, GEO 1060, GEO 1110, GEO 1130, PHYS 1040, PHYS 2010, and PHYS 2210. The following required education support courses will also satisfy general education requirements: CHF 1500 and COMM 1020 or COMM 2110.

Program Learning Outcomes

- Be able to collect data, apply algebraic and graphical techniques to analyze data, and interpret results. {Problem-Solving Skills}
- Be able to clearly express geoscience concepts orally and in writing, present results from laboratory and field investigations, and effectively incorporate appropriate maps and graphs into presentations and reports. {Communication Skills}
- Be proficient in the use of appropriate technologies - including basic computer skills (word processing, spread sheets), geospatial skills (GPS, accessing geospatial databases), and information technology (search, compile, and evaluate information from scientific literature and web resources). {Technology Skills}

Major Course Requirements for BS Degree

Earth Science Courses Required (42 credit hours)

- GEO 1060 PS - Environmental Geosciences **Credits: (3)** or

- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1130 PS - Introduction to Meteorology **Credits: (3)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 2050 - Earth Materials **Credits: (4)**
- GEO 2600 - Laboratory Safety **Credits: (1)**
- GEO 3010 SUS - Oceans and Climate **Credits: (3)** or
- GEOG 3050 - Weather and Climate: from daily storms to decades of drought **Credits: (3)**
- GEO 3150 - Geomorphology **Credits: (4)**
- GEO 3570 - Foundations of Science Education **Credits: (3)**
- GEO 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**
- GEO 4800 CRE - Independent Research **Credits: (1-3)** (only 1 credit hour required)
- PHYS 1040 PS - Elementary Astronomy **Credits: (3)** or
- ASTR 1040 PS - Elementary Astronomy **Credits: (3)**
- BTNY 1203 LS - Plant Biology **Credits: (3)**

Select one or more of the following for a minimum of 3 credit hours:

- GEO 3060 - Structural Geology **Credits: (4)**
- GEO 3080 - Applied Hydrology **Credits: (3)**
- GEO 3180 - Paleontology **Credits: (4)**
- GEO 3214 - Soils **Credits: (4)**
- GEO 3250 - Geology of Utah **Credits: (3)**
- GEO 3550 - Sedimentology and Stratigraphy **Credits: (4)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3753 - Geomicrobiology **Credits: (3)**
- GEO 4750 - Special Topics in Geosciences **Credits: (1-4)**
- GEO 4950 - Advanced Geoscience Fieldtrips **Credits: (1-3)**

Required Support Courses (27-30 credit hours)

Note: CHEM 1210/1215 requires CHEM 1200 as a pre-requisite.

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- PHYS 2010 PS - College Physics I **Credits: (5)** and
- PHYS 2020 - College Physics II **Credits: (5)**
- or**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and

- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- HIST 3350 - History and Philosophy of Science **Credits: (3)**

either

- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**
- or*
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- or*
- MATH 1210 - Calculus I **Credits: (4)**

Recommended Support Courses

any additional upper division (numbered 3000 and above) GEO course

- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions **Credits: (3)**
- MATH 1040 QL - Introduction to Statistics **Credits: (3)**
- ZOOL 1010 LS - Animal Biology **Credits: (3)** *

Note:

*The Utah State Office of Education also requires Earth Science Teaching graduates to pass the Earth and Space Sciences Praxis exam to receive the Earth Science endorsement (9th grade). Earth Science Teaching graduates who pass the General Science Praxis exam may also receive the Middle Level Science endorsement (7th and 8th grades). Completion of ZOOL 1010 will help prepare students for the General Science Praxis exam.

Geology (BS)

- **Program Prerequisite:** None.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C-" or better in courses required for this major in addition to an overall GPA for all courses of 2.00 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 79-82 of these are required within the major. A total of 40 upper division credit hours is required; 40 of these are required within the major (courses numbered 3000 and above).
- **Program Code:** 6010BS
- **CIPC:** 400601

Students may benefit from having a minor in such fields as chemistry, physics, mathematics, computer science, geospatial analysis, or a life science, and should consult with an advisor prior to choosing an option.

Advisement

Advisors: Dr. Adolph Yonkee, 801-626-7419, ayonkee@weber.edu, and Liz Balgord 801-626-6225, elizabethbalgord@weber.edu

All Geology students are required to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-7139 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. MATH 1050 or MATH 1080 or MATH 1210 is recommended for the Quantitative Literacy requirement. The following courses required for the Geology major will also satisfy general education requirements: CHEM 1210, GEO 1110, PHYS 2010, and PHYS 2210.

Course Prefix GEO

The Department of Earth and Environmental Sciences uses the course prefix GEO because geo means "earth." The prefix GEO also aids in course articulation with other colleges and universities.

Program Learning Outcomes

- Be able to identify common minerals and rocks, describe rock characteristics, and interpret the environments/conditions (igneous, sedimentary, or metamorphic) in which rocks formed. {Earth Materials}
- Be able to identify major physical and biological events in Earth history and describe the methods used to interpret this history, including radiometric dating, fossil succession, and stratigraphic correlation. {Earth History}
- Be able to identify landforms from maps and imagery, construct topographic profiles, and interpret the development of landforms in terms of common surface processes. {Surface Processes}
- Be able to identify the different types of lithospheric plate boundaries based on types of activity, estimate rates of plate motion, describe the driving mechanisms for plate tectonics, and interpret geologic structures and construct cross sections from geologic map data. {Tectonic Processes}
- Be able to describe key geological cycles - including the hydrologic cycle, rock cycle, and carbon cycle. {Earth Systems}
- Have demonstrated an understanding of scientific methodology and the interdisciplinary nature of the geosciences, culminating in a capstone experience involving collection and analysis of multiple data sets to interpret Earth processes. {Capstone Experience}

Major Course Requirements for BS Degree

Earth Science Courses Required (49 credit hours)

- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 2050 - Earth Materials **Credits: (4)**
- GEO 3000 - Geoscience Methods and Careers **Credits: (3)**
- GEO 3060 - Structural Geology **Credits: (4)**
- GEO 3080 - Applied Hydrology **Credits: (3)**
- GEO 3150 - Geomorphology **Credits: (4)**
- GEO 3550 - Sedimentology and Stratigraphy **Credits: (4)**

- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 4060 - Geoscience Field Methods **Credits: (4)**
- GEO 4510 - Geology Field Camp **Credits: (4)**
- GEO 4560 - Environmental Geochemistry **Credits: (4)**
- GEO 4990 - Earth Science and Society Seminar **Credits: (2)**

Electives Courses (6 credit hours minimum)

Complete GEO 1060 PS - Environmental Geosciences **(3)** and/or additional upper-division geoscience Earth science (GEO) courses (numbered 3000 and complete above) for a minimum of 6 credit hours.

Support Courses Required (24-27 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- PHYS 2010 PS - College Physics I **Credits: (5)** and
- PHYS 2020 - College Physics II **Credits: (5)**
or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** * and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)** *
- either**
- MATH 1050 QL - College Algebra **Credits: (4)** and
- MATH 1060 QL - Trigonometry **Credits: (3)**
or
- MATH 1080 QL - Pre-calculus **Credits: (5)**
or
- MATH 1210 - Calculus I **Credits: (4)** **

Note:

* Students planning to attend graduate school should take PHYS 2210-PHYS 2220, Physics for Scientists & Engineers, instead of the General Physics series (PHYS 2010-PHYS 2020).

**Students planning to attend graduate school should also take MATH 1210/MATH 1220, Calculus I and II (8).

The physical chemistry sequence, CHEM 3410-CHEM 4420 (8), is recommended for students planning advanced study in geochemistry, mineralogy, or mineral deposits. Advanced course work in zoology, microbiology or botany is recommended for students planning advanced work in paleontology, stratigraphy, or related fields. Environmental Microbiology (MICR 3484) is recommended for students pursuing environmental or remediation-related careers.

Minor

Geology Minor

Advisors: Dr. Adolph Yonkee, 801-626-7419, ayonkee@weber.edu, and Liz Balgord 801-626-6225, elizabethbalgord@weber.edu

- **Grade Requirements:** A grade of "C-" or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 19 credit hours in Earth science (GEO) courses.
- **Program Code:** 6010
- **CIPC:** 400601

Course Requirements for Minor

Earth Science Courses Required (12 credit hours)

- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 3150 - Geomorphology **Credits: (4)**

Earth Science Electives (minimum 7 credit hours)

Complete GEO 2050 - Earth Materials (4) and/or additional upper-division Earth science (GEO) courses (numbered 3000 and above) for a minimum of 7 credit hours.

Geospatial Studies Minor

Advisor: Dr. Michael Hernandez, 801-626-8186, mhernandez@weber.edu, and Dr. Ryan Frazier, 801-626-7435, ryanfrazier@weber.edu

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 6040
- **CIPC:** 450702

Course Requirements for Minor

Geospatial Courses Required (15 credit hours)

Required courses are offered in two departments: Earth and Environmental Sciences (GEO) and Geography (GEOG).

- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- GEO 3840 - Remote Sensing: Principles and Methods **Credits: (4)**
- GEOG 4400 - Cartography and Map Design **Credits: (3)**

Note:

If any required courses for the Geospatial Studies Minor are also required in a student's major, then an elective of equivalent hours may need to be substituted.

Elective Geospatial Courses (3 credit hours)

Select one or more elective courses in the Earth and Environmental Sciences (GEO) and Geography (GEOG) Departments from the following list:

- GEO 4200 - Geospatial Data Acquisition **Credits: (4)**
- GEOG 4410 SUS - Sustainable Land Use Planning **Credits: (3)**
- GEOG 4600 - Geospatial Programming and Online Methods **Credits: (3)**
- GEO 4840 INT - Geospatial Internship **Credits: (1-3)** taught even years
- GEO 4850 - Geospatial Capstone **Credits: (3)** taught even years

Teaching Minor

Earth Science Teaching Minor

- **Grade Requirements:** A grade of "C-" or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 20 credit hours in Geosciences courses.
- **Program Code:** 6011
- **CIPC:** 131316

Students who select the Earth Science Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Advising

Advisor: Dr. Caitlin Tems, 801-626-7421.

Course Requirements for Minor

Earth Science Courses Required (20 credit hours)

- GEO 1060 PS - Environmental Geosciences **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1130 PS - Introduction to Meteorology **Credits: (3)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 3010 SUS - Oceans and Climate **Credits: (3)** or
- GEOG 3050 - Weather and Climate: from daily storms to decades of drought **Credits: (3)**
- PHYS 1040 PS - Elementary Astronomy **Credits: (3)** or
- ASTR 1040 PS - Elementary Astronomy **Credits: (3)**

If not taken as part of a student's major requirements, then the following courses are also required (up to 20 credit hours):

Note: CHEM 1210/1215 requires CHEM 1200 as a pre-requisite.

- GEO 3570 - Foundations of Science Education **Credits: (3)**
- GEO 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**

Note:

Any deviation from the above requirements must be approved by the department in advance.

This minor is best for students majoring in another area of science or science teaching, as one semester of chemistry, one semester of physics, and one semester of ecology are required to obtain Earth Science teaching certification in the state of Utah.

Department of Mathematics

Department Chair: Sandra Fital-Akelbek

Location: Tracy Hall Science Center, Room 381

Contact: June Thomas, 801-626-6095 or math@weber.edu

Department Website: weber.edu/mathematics

Professors: Mahmud Akelbek, Chloe Cai, Julian Chan, Sandra Fital-Akelbek, Afshin Ghoreishi, Kent Kidman, George Kvernadze, Matthew Ondrus, Timothy Steele, Paul Talaga; **Associate Professors:** Rachel Bachman, Shawn Broderick, Mihail Cocos, Cora Neal, James Peters; **Assistant Professors:** Alees Lee, Amila Muthunayake, C. David Walters; **Instructors:** Natalie Anderson, Shannon Dixon, Thomas Roybal

From data mining to forensics, mathematics is the language of choice for an ever-increasing number of disciplines. The scientist, the engineer, the actuary, the financial planner - all use algebra, geometry, calculus and statistics. But also, the voter needs to understand these concepts, albeit at a less advanced level, to reach informed decisions about a multitude of issues from utility rates and retirement saving to information security and global warming.

The Department of Mathematics offers a variety of courses (from general interest to advanced levels of applicability), two minors, departmental honors, and five majors. The Mathematics major may be the best choice for someone planning to go directly to graduate school; the Applied Mathematics major prepares one for a job that uses mathematics; the Mathematics Teaching major prepares students to be teachers of mathematics in elementary through high school, and the Computational Statistics and Data Science major is for students who can convert big data into actionable insight, improve decision making, and provide a competitive advantage for their employers. We also offer an Associate's of Science degree in Mathematics that complements all STEM degrees.

Prerequisites

Since each course in mathematics requires a working knowledge of principles from prerequisite courses, students are required to earn a "C" grade in each prerequisite course before registering for the next course. Math prerequisites for math courses up to MATH 2210 expire after 24 months.

Placement

Weber State University students will be placed into mathematics courses by the following procedure.

A. To enroll in mathematics courses MATH 1030 QL, MATH 1040, MATH 1120 QL, or MATH 2010 a student must have, **within the past 24 months**, either:

1. Completed the prerequisite course with a grade of "C" or higher; *OR*
2. Received a Math ACT score of 21 or above; *OR*
3. Scored sufficiently high on a placement exam at a WSU testing center

B. To enroll in mathematics courses MATH 1050 QL, MATH 1060 QL, MATH 1080 QL, or MATH 1090 QL a student must have, **within the past 24 months**, either:

1. Completed the prerequisite course with a grade of "C" or higher; *OR*
2. Received a Math ACT score of 23 or above; *OR*
3. Scored sufficiently high on a placement exam at a WSU testing center

C. To enroll in MATH 1035 QL - Contemporary Mathematics with Prerequisite Topics QL a student must have, **within the past 24 months**, either:

1. Completed MATH 0950 with a grade of "C" or higher; *OR*
2. Received a Math ACT score of 14 or above; *OR*
3. Scored sufficiently high on a placement exam at a WSU testing center

D. To enroll in MATH 2020 QL a student must have completed MATH 2010 and 2015 with a grade of "C" or better. Students may not use a placement exam to test into MATH 2020 QL.

E. To enroll in mathematics courses numbered 1210 through 2210, a student must have, **within the past 24 months**, either:

1. Completed the prerequisite course(s) with a grade of "C" or higher
2. Scored sufficiently high on a placement exam at a WSU testing center. (Placement scores only available up to MATH 1210 - Calculus I)
3. Obtained the appropriate AP Calculus score described below:
 - Three on the AB test places the student in MATH 1210
 - Four or five on the AB test places the student in MATH 1220
 - Three or four on the BC test places the student in MATH 1220
 - Five on the BC test places the student in MATH 2210 or higher

Students who score below 21 on the Math ACT may be placed into developmental courses. See the Math Placement Standards listed in the WSU Core General Education Requirements.

Failure to comply with this policy will normally result in the cancellation of the student's math course registration.

It is recommended that students have their programs (majors and minors) approved before registering for upper division courses.

Associate of Science

Mathematics (AS)

- **Program prerequisite:** None

- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 60 credit hours are required; a minimum of 18 credit hours are required in mathematics courses.
- **Program Code:** 6035AS
- **CIPC:** 270101

Advisement

All Mathematics AS students should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration) with your advisor. There are no special admission or application requirements for the AS degree.

General Education

Refer to Degree Requirements for Associate of Science degree.

Course Requirements for Mathematics AS Degree

Mathematics courses required (18 credit hours):

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**

One course chosen from:

- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- Any upper division MATH course (MATH 3xxx or MATH 4XXX)

Institutional Certificate

Data Science & Applied Statistics Certificate of Proficiency

The WSU Data Science and Computational Statistics Certificate of Proficiency will provide students the opportunity to study a variety of applications of data using statistics across a range of disciplines while providing a theoretical framework and tools for managing data. The rapidly evolving digital landscape has made data the cornerstone of decision-making across industries, amplifying the demand for skilled data professionals who can adeptly handle,

analyze, and interpret this data. This program is tailored to equip students with these very competencies. The program is designed to be a comprehensive blend of both theory and practice, with a focus on hands-on experience, collaborative learning, and ethical data usage. More broadly this will empower students to think critically with data while analyzing the world around them in their chosen discipline.

- **Program Prerequisite:** Application for admission to Weber State University and/or current degree-seeking status.
- **Grade Requirements:** Students must complete all certificate courses with a grade of "C" or higher.
- **Credit Hour Requirements:** 19-21
- **Program Code:** 6071CP
- **CIPC:** 307099

Advisement

Navigating the multidisciplinary landscape of Data Science and Applied Statistics requires a robust support system. Our advisement for this certificate program is carefully crafted to cater to this emerging field. Recognizing the interdisciplinary nature of Data Science and the specialized nuances of Applied Statistics, our advisement team provides tailored guidance. Students will receive one-on-one consultations to help them align their coursework with career aspirations or advanced study intentions. Please contact math@weber.edu to schedule advising appointment or visit the mathematics website.

Program Learning Outcomes

The program aims to roughly follow the guidelines put forth by the American Statistical Association (ASA) for data science. Additionally, the ASA states that, "Framing questions statistically allows us to leverage data resources to extract knowledge and obtain better answers." The learning outcomes based on these recommendations are as follows:

- Students will apply data analysis methods and critical thinking to understand data in the world around them or their fields of study.
- Students will use data management and statistical software to prepare data and perform data analysis.
- Students will learn mathematical and statistical foundations of data science and data analysis.

Students will effectively communicate the findings from data.

Major Course Requirements

Note: Courses marked with (*) may require additional prerequisites. Please check with the university catalog or click on the course link below and that will direct you to the university catalog.

Required Courses (13-15)

Required math & statistics classes (7 credits):

- MATH 3450 - Advanced Statistical Methods **Credits: (4)**
and
take one of the following courses:
- MATH 1040 QL - Introduction to Statistics **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 1120 QL - Foundations of Data Science **Credits: (3)**

Required Data Base (Take one of the following database courses) (3-4 credits):

- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**

- MIS 3210 - Database Design and Implementation **Credits: (3)**

Required programming (Take one of the following (intro) programming courses)(3-4 credits):

- CS 1400 - Programming I **Credits: (4)**
- MIS 2110 - Software Development I **Credits: (3)**
- PHYS 2300 - Scientific Computing for Physical Systems **Credits: (3)**

Elective Courses

Select two classes (minimum 6 credits) from the following list (they do not need to be from the same category).

Physical Sciences Computing & Statistics

- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- PHYS 3320 - Advanced Computational Physics **Credits: (3)**
- PHYS 3420 - Data Analysis, Statistics, and Instrumentation **Credits: (3)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3020 - Computer Applications in Chemistry **Credits: (1)**
- MLS 2003 - Applied Laboratory Mathematics and Operations **Credits: (3)**

Life Sciences & statistical applications

- BTNY 3303 - Plant Genetics **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- MICR 3813 CRE - Bioinformatics **Credits: (3)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 3154 - Microbial Ecology **Credits: (4)**

Applications in Health & Statistics

- HIM 2500 - Healthcare Data Management **Credits: (3)**
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- PUBH 3210 - Advanced Epidemiology & Population Health **Credits: (3)**
- HIM 3550 - Healthcare Data Analytics **Credits: (3)**
- ESS 3600 - Measurement and Statistics in Exercise Science **Credits: (3)**

Statistics & Data applications

- MATH 4400 - Statistical Learning **Credits: (3)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**
- QUAN 3610 - Business Statistics II **Credits: (3)**
- CS 4580 - Data Science Algorithms **Credits: (4)**
- PSY 3600 - Statistics in Psychology **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)**
- PSY 3615 - Psychological Statistics and Methods I **Credits: (4)**
- PSY 3616 - Psychological Statistics and Methods II **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**

Communications applications

- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- SOC 4300 - Qualitative Methods **Credits: (3)**

Data Ethics & applications

- PHIL 2050 HU - Practical Ethics **Credits: (3)**
- PHIL 4600 - Ethical Theory **Credits: (3)**
- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 4200 - Ethical Issues in Criminal Justice **Credits: (3)**
- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 3900 - Social Work Methods, Values, and Ethics **Credits: (3)**
- PS 3563 - Principles of Sales Supervision **Credits: (3)**
- PS 4203 - Ethical Sales and Service **Credits: (3)**
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
- BSAD 2899 - Business Foundations Check **Credits: (0)**
- BSAD 1010 - Introduction to Business **Credits: (3)**

Middle School Mathematics Endorsement Pathway Certificate of Proficiency

This certificate is designed to award students for completion of the required coursework outlined by the Utah State Board of Education for the Special Education Mathematics Teaching endorsement. It can only be earned upon completion of a bachelor's degree.

- **Program Prerequisite:** None
- **Grade Requirements:** C or better
- **Credit Hour Requirements:** 19
- **Program Code:** 6074CP
- **CIPC:** 131311

Advisement

Students should be advised that this certificate acknowledges that the coursework needed for the Utah State Board of Education Middle School Mathematics Teaching Endorsement has been satisfied. Until the student also satisfies the requirements for a teaching licensure through the Weber State University College of Education or through a local educational agency (LEA), the student cannot apply for this endorsement from the state.

While any major is invited to complete the courses required of this endorsement, students majoring in a mathematics or education related field would be more prepared for the courses required. Students should be advised of the prerequisite requirements for the course required in this certificate.

MATH 1210 prerequisite is MATH 1050 and MATH 1060

MTHE 3060 prerequisite is MATH 1210

MTHE 3070 prerequisite is MATH 2020 (preceded by MATH 2010 and MATH 2015)

MTHE 3117 prerequisite is MATH 3110 (preceded by MATH 1210)

MTHE 3015 prerequisite is MATH 2015 (preceded by MATH 2010)

MTHE 3115 prerequisite is MATH 1210

MTHE 4000 prerequisite is two MTHE courses

Admission Requirements

Any major is invited to complete this sets of courses, however, majors in Elementary Education, Special Education, mathematics, and physics would be most likely to have completed the prerequisite requirements of the required courses.

Program Learning Outcomes

Students completing this set of courses will have satisfied the coursework requirements by the state of Utah to earn the Middle School Teaching endorsement. These students will have acquired the mathematical content knowledge and pedagogical content knowledge needed to teach Grades 7-9 mathematics.

Major Course Requirements

Completing these courses satisfies the Utah State Board of Education requires to earn a Special Education Mathematics Teaching Certificate

Required Courses (19 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)**
Or MATH 3110 - Foundations of Algebra (3)
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MTHE 3015 - Middle School Algebra from a Teaching Perspective **Credits: (3)**
Or MTHE 3115 - Algebra from a Secondary Teaching Perspective (3)
- MTHE 3070 - Middle School Geometry from a Teaching Perspective **Credits: (3)**
Or MTHE 3117 - Geometry from a Secondary Teaching Perspective (3)
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**

Secondary Mathematics Endorsement Pathway Certificate of Proficiency

This certificate is designed to award students for completion of the required coursework outlined by the Utah State Board of Education for the Secondary Mathematics Teaching endorsement. It can only be earned upon completion of a bachelor's degree.

- **Program Prerequisite:** Major from Department of Mathematics or Department of Physics
- **Minor:** None
- **Grade Requirements:** C or better
- **Credit Hour Requirements:** 21
- **Program Code:** 6072CP
- **CIPC:** 131311

Advisement

Students should be advised that this certificate acknowledges that the coursework needed for the Utah State Board of Education Secondary Mathematics Teaching Endorsement has been satisfied. Until the student also satisfies the requirements for a teaching licensure through the Weber State University College of Education or through a local educational agency (LEA), the student cannot apply for this endorsement from the state.

Admission Requirements

To receive the certificate, the student must be a major in the Department of Mathematics or the Department of Physics. However, for students interested in completing this set of courses outside of those majors, the student may still declare intentions to pursue this certificate so that the required courses populate on CatTracks.

Program Learning Outcomes

Students completing this set of courses will have satisfied the coursework requirements by the state of Utah to earn the Secondary Mathematics Teaching endorsement. These students will have acquired the mathematical content knowledge and pedagogical content knowledge needed to teach Grades 7-12 mathematics.

Major Course Requirements

Completing these courses satisfies the Utah State Board of Education requires to earn a Secondary Mathematics Teaching Certificate

Required Courses (21 credit hours)

- MATH 3110 - Foundations of Algebra **Credits: (3)**
- MATH 4210 - Introductory Real Analysis I **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)** or
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MTHE 3115 - Algebra from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 3117 - Geometry from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**

Special Education Mathematics Endorsement Pathway Certificate of Proficiency

This certificate is designed to award students for completion of the required coursework outlined by the Utah State Board of Education for the Special Education Mathematics Teaching endorsement. It can only be earned upon completion of a bachelor's degree.

- **Program Prerequisite:** None
- **Grade Requirements:** C or better
- **Credit Hour Requirements:** 19
- **Program Code:** 6073CP

- **CIPC: 131311**

Advisement

Students should be advised that this certificate acknowledges that the coursework needed for the Utah State Board of Education Special Education Mathematics Teaching Endorsement has been satisfied. Until the student also satisfies the requirements for a teaching licensure through the Weber State University College of Education or through a local educational agency (LEA), the student cannot apply for this endorsement from the state.

While any major is invited to complete the courses required of this endorsement, students majoring in a mathematics or education related field would be more prepared for the courses required. Students should be advised of the prerequisite requirements for the course required in this certificate.

MATH 1210 prerequisite is MATH 1050 and MATH 1060

MTHE 3060 prerequisite is MATH 1210

MTHE 3070 prerequisite is MATH 2020 (preceded by MATH 2010 and MATH 2015)

MTHE 3117 prerequisite is MATH 3110 (preceded by MATH 1210)

MTHE 3015 prerequisite is MATH 2015 (preceded by MATH 2010)

MTHE 3115 prerequisite is MATH 1210

MTHE 4000 prerequisite is two MTHE courses

Admission Requirements

Any major is invited to complete this sets of courses, however, majors in Elementary Education, Special Education, mathematics, and physics would be most likely to have completed the prerequisite requirements of the required courses. Additionally, Special Education majors would be best positioned to use the certificate for employment as they would also have met the requirements to be a special education teacher.

Program Learning Outcomes

Students completing this set of courses will have satisfied the coursework requirements by the state of Utah to earn the Special Education Mathematics Teaching endorsement. These students will have acquired the mathematical content knowledge and pedagogical content knowledge needed to teach Grades 7-12 mathematics to special education students.

Major Course Requirements

Completing these courses satisfies the Utah State Board of Education requires to earn a Special Education Mathematics Teaching Certificate

Required Courses (19 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 3110 - Foundations of Algebra **Credits: (3)**
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MTHE 3115 - Algebra from a Secondary Teaching Perspective **Credits: (3)**

- MTHE 3117 - Geometry from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**

Bachelor of Arts

Mathematics (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

All Mathematics Majors

- **Program Prerequisite:** Not required for Mathematics and Applied Mathematics majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required only for the regular mathematics major.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 31-46 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); at least nine credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** Mathematics (6029BA or 6029BS), Mathematics Teaching (6030BA or 6030BS), Applied Mathematics (6031BA or 6031BS) with Regular Track (6022), Computing Track (6023), Physical Mathematics Track (6024), Engineering Mathematics Track (6025), Actuarial/Financial Mathematics Track (6026), Natural/Life Sciences Track (6028)
- **CIPC:** Mathematics (270101), Applied Mathematics (270301), Mathematics Teaching (131311)

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with your advisor. There are no special admission or application requirements for the Regular or Applied mathematics emphases. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. PHYS 2210 will fulfill requirements for both the major and general education. PSY 1010 (3) in the Social Sciences area is recommended for the Mathematics Teaching emphasis.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of and ability to prove results in analysis and algebra

Language Courses Required to fulfill the BA (14 credit hours)

• 6 credit hour of foreign language
and the following language arts courses

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**

Major Course Requirements for Mathematics BS or BA Degree

Mathematics Courses Required (33 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- MATH 3110 - Foundations of Algebra **Credits: (3)**
- MATH 4110 - Modern Algebra I **Credits: (3)**
- MATH 4120 - Modern Algebra II **Credits: (3)** or
- MATH 4320 - Topology **Credits: (3)**
- MATH 4210 - Introductory Real Analysis I **Credits: (3)** and
- MATH 4220 - Introductory Real Analysis II **Credits: (3)**

Mathematics Electives (at least 9 credit hours)

Complete any upper division Mathematics courses (not including any required courses) so that required mathematics courses and mathematics electives total at least 42 credit hours.

Minor

A minor is required or

- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**

and one course chosen from:

- CS 2130 - Computational Structures **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**

- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**

Support Courses Required (10 credit hours)

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Graduate School Preparation

It is highly recommended that students planning on graduate work in Mathematics take Linear Algebra (MATH 3270) and Topology (MATH 4320) in addition to the above. See the Mathematics Department for counseling.

Mathematics Teaching (BA)

All Mathematics Majors

- **Program Prerequisite:** Not required for Mathematics and Applied Mathematics majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required only for the regular mathematics major.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 31-46 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); at least nine credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** Mathematics (6029BA or 6029BS), Mathematics Teaching (6030BA or 6030BS), Applied Mathematics (6031BA or 6031BS) with Regular Track (6022), Computing Track (6023), Physical Mathematics Track (6024), Engineering Mathematics Track (6025), Actuarial/Financial Mathematics Track (6026), Natural/Life Sciences Track (6028)
- **CIPC:** Mathematics (270101), Applied Mathematics (270301), Mathematics Teaching (131311)

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with your advisor. There are no special admission or application requirements for the Regular or Applied mathematics emphases. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. PHYS 2210 will fulfill requirements for both the major and general education. PSY 1010 (3) in the Social Sciences area is recommended for the Mathematics Teaching emphasis.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of and ability to prove results in analysis and algebra

Language Courses Required to fulfill the BA (14 credit hours)

- 6 credit hour of foreign language
and the following language arts courses

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**

Major Course Requirements for Mathematics Teaching BS or BA Degree

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of basic probability and statistics, analysis, and number theory
- Knowledge of and ability to teach concepts of high school level mathematics

Mathematics Courses Required (48 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)** or
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3110 - Foundations of Algebra **Credits: (3)** or
- MATH 4110 - Modern Algebra I **Credits: (3)**
- MTHE 3117 - Geometry from a Secondary Teaching Perspective **Credits: (3)**
- MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry **Credits: (3)**

- MATH 3160 - Number Theory **Credits: (3)**
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MTHE 3115 - Algebra from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**
- MATH 4210 - Introductory Real Analysis I **Credits: (3)**
- One upper division MATH course not otherwise required **(3)**

Support Courses Required (5-10 credit hours)

Complete either

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
or
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
AND
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Note:

A student must also complete requirements for a secondary education licensure as determined by the Jerry and Vickie Moyes College of Education .

Mathematics, Applied (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

All Mathematics Majors

- **Program Prerequisite:** Not required for Mathematics and Applied Mathematics majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required only for the regular mathematics major.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 31-46 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); at least nine credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** Mathematics (6029BA or 6029BS), Mathematics Teaching (6030BA or 6030BS), Applied Mathematics (6031BA or 6031BS) with Regular Track (6022), Computing Track (6023), Physical Mathematics Track (6024), Engineering Mathematics Track (6025), Actuarial/Financial Mathematics Track (6026), Natural/Life Sciences Track (6028)
- **CIPC:** Mathematics (270101), Applied Mathematics (270301), Mathematics Teaching (131311)

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with your advisor. There are no special admission or application requirements for the Regular or Applied mathematics emphases. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. PHYS 2210 will fulfill requirements for both the major and general education. PSY 1010 (3) in the Social Sciences area is recommended for the Mathematics Teaching emphasis.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of and ability to prove results in analysis and algebra

Language Courses Required to fulfill the BA (14 credit hours)

- 6 credit hours of foreign language
- and the following language arts courses*

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**

Major Course Requirements for Applied Mathematics BS or BA Degree

The Applied Mathematics Program provides an opportunity for WSU students to apply mathematics to different fields. The program requires 19 credit hours of core lower division mathematics courses, a minimum of 12 credit hours of upper division applied mathematics courses and additional upper division courses in specified fields, including mathematics, so the total upper division credit hours reaches at least 40. To design a specific program different from the following tracks, students must get approval from a Mathematics Department advisor.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus

- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Knowledge and ability to apply concepts of several areas of applied mathematics (probability and stats, numerical analysis, etc.)
- Ability to comprehend and write correct mathematical arguments

Lower Division Mathematics Courses Required for All Tracks (19 credit hours)

- MATH 1200 - Mathematics Computer Laboratory **Credits: (1)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

1. Regular Track

A traditional diversified program in applied mathematics.

Required Upper Division Mathematics Courses (12 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)** or
- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**

Mathematics Electives (at least 12 credit hours)

Complete at least an additional 12 credit hours of upper division Mathematics courses.

Support Courses Required (6-10 credit hours)

Complete 2 calculus based courses outside the Mathematics Department, for example PHYS 2210 PS - Physics for Scientists and Engineers I (5), ECON 3030 - Managerial Economics (3), CHEM 3400 - Molecular Symmetry and Applied Math for Physical Chemistry (3), etc.

Graduate School Preparation

It is recommended that students planning on graduate work in Applied Mathematics take MATH 4210/MATH 4220 - Introductory Real Analysis II and all Mathematics courses in the future area of graduate study. See the Mathematics Department for counseling.

2. Computing Track

Additional Required Lower Division Courses (12 credit hours)

- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)** or
- MATH 1630 - Discrete Mathematics Applied to Computing **Credits: (4)**

Required Upper Division Mathematics Courses (15 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3610 - Graph Theory **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4620 - Numerical Analysis II **Credits: (3)** or
- MATH 3620 - Enumeration **Credits: (3)** or
- MATH 4160 - Introduction to Mathematical Cryptography **Credits: (3)** or
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**

Electives (at least 25 credit hours)

Complete at least an additional 25 credit hours of upper division courses in Computer Science or Mathematics. At least 6 of these credit hours must be in Computer Science.

3. Physical Mathematics Track

Required Upper Division Mathematics Courses (18 credit hours)

Complete 6 of the following courses

- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 3810 - Complex Variables **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4710 - Partial Differential Equations **Credits: (3)**

Electives (at least 22 credit hours)

Complete at least an additional 22 credit hours of upper division courses in Chemistry, Geosciences, Mathematics, or Physics. At least 6 of these credit hours must be outside Mathematics.

4. Engineering Mathematics Track

Required Upper Division Mathematics Courses (18 credit hours)

Complete 6 of the following courses

- MATH 3280 - Dynamical Systems **Credits: (3)**

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 3810 - Complex Variables **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4620 - Numerical Analysis II **Credits: (3)**
- MATH 4710 - Partial Differential Equations **Credits: (3)**

Electives (at least 22 credit hours)

Complete at least an additional 22 credit hours of upper division Mathematics or upper division courses from the Engineering Technology programs. At least 6 of these credit hours must be outside of Mathematics.

5. Actuarial/Financial Mathematics Track

Required Upper Division Mathematics Courses (15 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3420 - Probability and Statistics II **Credits: (3)**

And three of the following courses

- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4710 - Partial Differential Equations **Credits: (3)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**

Electives (at least 25 credit hours)

Complete at least an additional 25 credit hours of upper division Mathematics courses or courses from the list below offered by the John B. Goddard School of Business and Economics:

- ACTG 3110 - Intermediate Financial Accounting I **Credits: (3)**
- ACTG 3120 - Intermediate Financial Accounting II **Credits: (3)**
- ECON 3030 - Managerial Economics **Credits: (3)**
- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**
- FIN 3300 - Investments **Credits: (3)**
- FIN 4400 - Financial Problems - Corporate Finance **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- QUAN 3610 - Business Statistics II **Credits: (3)**

6. Natural/Life Sciences Track

Required Upper Division Mathematics Courses (12 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)** or
- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**

Electives (at least 28 credit hours)

Complete at least an additional 28 credit hours of upper division courses in Botany, Mathematics, Microbiology or Zoology. At least 6 of these credit hours must be outside of Mathematics.

Bachelor of Science

Computational Statistics and Data Science (BS)

Computational Statistics and Data Science (BS)

- **Program Prerequisite:** Not required for Computational Statistics and Data Science.
- **Minor:** No minor required
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics courses numbered 1210 or above.
- **Credit Hour Requirements:** A minimum total of 120 credit hours are required for graduation; 48 of these are required within the major. A total of 40 upper division credit hours are required (courses numbered 3000 and above); at least nine (9) credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** 6037BS
- **CIPC:** 27.9999

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or go to mathadvising.youcanbook.me to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Use Grad MAPs to plan your degree.

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration) with your major department. There are no special admission or application requirements for the Regular Mathematics, Applied Mathematics, or Computational Statistics and Data Science majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (See Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. COMM 1020 (HU), COMM 2110 (HU), ECON 2010 (SS), ECON 2020 (SS), and PHYS 2210 (PS) will fulfill requirements for both the major and general education.

Program Learning Outcomes

- Students will understand the theoretical, conceptual, and applied underpinnings of Statistics
- Students will understand the theoretical, conceptual, and applied underpinnings of Data Science
- Students will demonstrate fundamentals and fluency in computation.
- Students will effectively analyze and reason with data.
- Students will be able to effectively communicate their results

Major Course Requirements for Computational Statistics and Data Science BS Degree

Required Lower Division Mathematics Courses Required (15 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**

Required Computer Courses (20 credit hours)

- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- CS 4580 - Data Science Algorithms **Credits: (4)**

Required Upper Division Mathematics Courses (13 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3420 - Probability and Statistics II **Credits: (3)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**
- MATH 4400 - Statistical Learning **Credits: (3)**

Statistical Concepts Electives (3 credit hours)

Take 3 credit hours from the following:

- MATH 1040 QL - Introduction to Statistics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- PSY 3600 - Statistics in Psychology **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)**

Business Communication Electives (3 credit hours)

Take 3 credit hours from the following:

- PS 3250 - Business Communication **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- * COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- * COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

Math and Computing Electives (6 credit hours)

Take at least 6 credits from the following:

- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3610 - Graph Theory **Credits: (3)**
- MATH 3620 - Enumeration **Credits: (3)**
- MATH 4210 - Introductory Real Analysis I **Credits: (3)**
- MATH 4220 - Introductory Real Analysis II **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4620 - Numerical Analysis II **Credits: (3)**
- MATH 4160 - Introduction to Mathematical Cryptography **Credits: (3)**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 3550 - Advanced Database Programming **Credits: (4)**
- CS 4500 - Introduction to Artificial Intelligence **Credits: (4)**
- CS 5600 - Machine Learning **Credits: (3)**
- MATH 4075 - Time Series Data Analysis **Credits: (3)**
- MATH 3310 - Statistical Data Mining and Text Analytics **Credits: (3)**

Electives (9 credit hours)

Take at least 9 credit hours from the following:

Business Principles

- BSAD 1010 - Introduction to Business **Credits: (3)**
- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- ACTG 3110 - Intermediate Financial Accounting I **Credits: (3)**
- MKTG 3100 - Consumer Behavior **Credits: (3)**
- MKTG 3200 - Selling and Sales Management **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- QUAN 3610 - Business Statistics II **Credits: (3)**
- * ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- * ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**

Health Statistics

- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- PUBH 3210 - Advanced Epidemiology & Population Health **Credits: (3)**
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**
- PUBH 3500 - Biomedical Research Support **Credits: (2)**
- HIM 3550 - Healthcare Data Analytics **Credits: (3)**

Computing

- MIS 2010 - Business Computer Skills **Credits: (1)**
- MIS 2110 - Software Development I **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- ^ CS 1030 - Foundations of Computing **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2705 - Network Fundamentals and Design **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
^ (CS 1030 Foundations of Computing is recommended to apply for an Institutional Certificate of Proficiency in Programming Essentials provided student has completed CS 1030, CS 1400, CS 1410, and CS 2420).

Science and Mapping

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 3310 - Scientific Computing for Physical Systems **Credits: (3)**
- GEOG 4400 - Cartography and Map Design **Credits: (3)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- MATH 3040 - Applied Statistical Computing **Credits: (4)**
- MATH 4650 - Probabilistic Deep Learning **Credits: (4)**

Alternatively, 9 elective credits may be approved by the Department of Mathematics.

These courses are typically, but not limited to 3000 or 4000 level course, in the College of Science or in the College of Engineering, Applied Science and Technology, or in the Goddard School of Business and Economics.

Mathematics (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

All Mathematics Majors

- **Program Prerequisite:** Not required for Mathematics and Applied Mathematics majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required only for the regular mathematics major.

- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 31-46 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); at least nine credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** Mathematics (6029BA or 6029BS), Mathematics Teaching (6030BA or 6030BS), Applied Mathematics (6031BA or 6031BS) with Regular Track (6022), Computing Track (6023), Physical Mathematics Track (6024), Engineering Mathematics Track (6025), Actuarial/Financial Mathematics Track (6026), Natural/Life Sciences Track (6028)
- **CIPC:** Mathematics (270101), Applied Mathematics (270301), Mathematics Teaching (131311)

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with your advisor. There are no special admission or application requirements for the Regular or Applied mathematics emphases. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. PHYS 2210 will fulfill requirements for both the major and general education. PSY 1010 (3) in the Social Sciences area is recommended for the Mathematics Teaching emphasis.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of and ability to prove results in analysis and algebra

Major Course Requirements for Mathematics BS or BA Degree

Mathematics Courses Required (33 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

- MATH 3110 - Foundations of Algebra **Credits: (3)**
- MATH 4110 - Modern Algebra I **Credits: (3)**
- MATH 4120 - Modern Algebra II **Credits: (3)** or
- MATH 4320 - Topology **Credits: (3)**
- MATH 4210 - Introductory Real Analysis I **Credits: (3)** and
- MATH 4220 - Introductory Real Analysis II **Credits: (3)**

Mathematics Electives (at least 9 credit hours)

Complete any upper division Mathematics courses (not including any required courses) so that required mathematics courses and mathematics electives total at least 42 credit hours.

Minor

A minor is required or

- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- and one course chosen from:**
- CS 2130 - Computational Structures **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**

Support Courses Required (10 credit hours)

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Graduate School Preparation

It is highly recommended that students planning on graduate work in Mathematics take Linear Algebra (MATH 3270) and Topology (MATH 4320) in addition to the above. See the Mathematics Department for counseling.

Mathematics Teaching (BS)

All Mathematics Majors

- **Program Prerequisite:** Not required for Mathematics and Applied Mathematics majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required only for the regular mathematics major.

- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 31-46 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); at least nine credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** Mathematics (6029BA or 6029BS), Mathematics Teaching (6030BA or 6030BS), Applied Mathematics (6031BA or 6031BS) with Regular Track (6022), Computing Track (6023), Physical Mathematics Track (6024), Engineering Mathematics Track (6025), Actuarial/Financial Mathematics Track (6026), Natural/Life Sciences Track (6028)
- **CIPC:** Mathematics (270101), Applied Mathematics (270301), Mathematics Teaching (131311)

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with your advisor. There are no special admission or application requirements for the Regular or Applied mathematics emphases. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. PHYS 2210 will fulfill requirements for both the major and general education. PSY 1010 (3) in the Social Sciences area is recommended for the Mathematics Teaching emphasis.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of and ability to prove results in analysis and algebra

Major Course Requirements for Mathematics Teaching BS or BA Degree

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct

- Knowledge of basic probability and statistics, analysis, and number theory
- Knowledge of and ability to teach concepts of high school level mathematics

Mathematics Courses Required (48 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)** or
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3110 - Foundations of Algebra **Credits: (3)** or
- MATH 4110 - Modern Algebra I **Credits: (3)**
- MTHE 3117 - Geometry from a Secondary Teaching Perspective **Credits: (3)**
- MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry **Credits: (3)**
- MATH 3160 - Number Theory **Credits: (3)**
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MTHE 3115 - Algebra from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**
- MATH 4210 - Introductory Real Analysis I **Credits: (3)**
- One upper division MATH course not otherwise required **(3)**

Support Courses Required (5-10 credit hours)

Complete either

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
or
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
AND
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Note:

A student must also complete requirements for a secondary education licensure as determined by the Jerry and Vickie Moyes College of Education .

Mathematics, Applied (BS)

All Mathematics Majors

- **Program Prerequisite:** Not required for Mathematics and Applied Mathematics majors. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required only for the regular mathematics major.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable), in addition to an overall 2.0 GPA and a 2.0 GPA in mathematics classes numbered 1210 or above.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; 31-46 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); at least nine credit hours of upper division Mathematics must be completed at Weber State University.
- **Program Code:** Mathematics (6029BA or 6029BS), Mathematics Teaching (6030BA or 6030BS), Applied Mathematics (6031BA or 6031BS) with Regular Track (6022), Computing Track (6023), Physical Mathematics Track (6024), Engineering Mathematics Track (6025), Actuarial/Financial Mathematics Track (6026), Natural/Life Sciences Track (6028)
- **CIPC:** Mathematics (270101), Applied Mathematics (270301), Mathematics Teaching (131311)

Advisement

All Mathematics majors should see the Mathematics Department to be assigned an advisor. They should meet with their advisors at least once a year to help plan their programs and check on their progress. Call 801-626-6095 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with your advisor. There are no special admission or application requirements for the Regular or Applied mathematics emphases. Mathematics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. PHYS 2210 will fulfill requirements for both the major and general education. PSY 1010 (3) in the Social Sciences area is recommended for the Mathematics Teaching emphasis.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Ability to comprehend and write proofs that are logically, grammatically, and mathematically correct
- Knowledge of and ability to prove results in analysis and algebra

Major Course Requirements for Applied Mathematics BS or BA Degree

The Applied Mathematics Program provides an opportunity for WSU students to apply mathematics to different fields. The program requires 19 credit hours of core lower division mathematics courses, a minimum of 12 credit

hours of upper division applied mathematics courses and additional upper division courses in specified fields, including mathematics, so the total upper division credit hours reaches at least 40. To design a specific program different from the following tracks, students must get approval from a Mathematics Department advisor.

Program Learning Outcomes

- Knowledge of and the ability to apply the concepts of differentiable, integral, and multivariable calculus
- Knowledge of and ability to apply the concepts of matrices and Euclidean vector spaces, and ordinary differential equations
- Knowledge and ability to apply concepts of several areas of applied mathematics (probability and stats, numerical analysis, etc.)
- Ability to comprehend and write correct mathematical arguments

Lower Division Mathematics Courses Required for All Tracks (19 credit hours)

- MATH 1200 - Mathematics Computer Laboratory **Credits: (1)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

1. Regular Track

A traditional diversified program in applied mathematics.

Required Upper Division Mathematics Courses (12 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)** or
- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**

Mathematics Electives (at least 12 credit hours)

Complete at least an additional 12 credit hours of upper division Mathematics courses.

Support Courses Required (6-10 credit hours)

Complete 2 calculus based courses outside the Mathematics Department, for example PHYS 2210 PS - Physics for Scientists and Engineers I (5), ECON 3030 - Managerial Economics (3), CHEM 3400 - Molecular Symmetry and Applied Math for Physical Chemistry (3), etc.

Graduate School Preparation

It is recommended that students planning on graduate work in Applied Mathematics take MATH 4210/MATH 4220 - Introductory Real Analysis II and all Mathematics courses in the future area of graduate study. See the Mathematics Department for counseling.

2. Computing Track

Additional Required Lower Division Courses (12 credit hours)

- CS 1400 - Programming I **Credits: (4)**
- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)** or
- MATH 1630 - Discrete Mathematics Applied to Computing **Credits: (4)**

Required Upper Division Mathematics Courses (15 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3610 - Graph Theory **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4620 - Numerical Analysis II **Credits: (3)** or
- MATH 3620 - Enumeration **Credits: (3)** or
- MATH 4160 - Introduction to Mathematical Cryptography **Credits: (3)** or
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**

Electives (at least 25 credit hours)

Complete at least an additional 25 credit hours of upper division courses in Computer Science or Mathematics. At least 6 of these credit hours must be in Computer Science.

3. Physical Mathematics Track

Required Upper Division Mathematics Courses (18 credit hours)

Complete 6 of the following courses

- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 3810 - Complex Variables **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4710 - Partial Differential Equations **Credits: (3)**

Electives (at least 22 credit hours)

Complete at least an additional 22 credit hours of upper division courses in Chemistry, Geosciences, Mathematics, or Physics. At least 6 of these credit hours must be outside Mathematics.

4. Engineering Mathematics Track

Required Upper Division Mathematics Courses (18 credit hours)

Complete 6 of the following courses

- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 3810 - Complex Variables **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4620 - Numerical Analysis II **Credits: (3)**
- MATH 4710 - Partial Differential Equations **Credits: (3)**

Electives (at least 22 credit hours)

Complete at least an additional 22 credit hours of upper division Mathematics or upper division courses from the Engineering Technology programs. At least 6 of these credit hours must be outside of Mathematics.

5. Actuarial/Financial Mathematics Track

Required Upper Division Mathematics Courses (15 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3420 - Probability and Statistics II **Credits: (3)**

And three of the following courses

- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**
- MATH 4710 - Partial Differential Equations **Credits: (3)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**

Electives (at least 25 credit hours)

Complete at least an additional 25 credit hours of upper division Mathematics courses or courses from the list below offered by the John B. Goddard School of Business and Economics:

- ACTG 3110 - Intermediate Financial Accounting I **Credits: (3)**
- ACTG 3120 - Intermediate Financial Accounting II **Credits: (3)**
- ECON 3030 - Managerial Economics **Credits: (3)**
- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**

- FIN 3300 - Investments **Credits: (3)**
- FIN 4400 - Financial Problems - Corporate Finance **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- QUAN 3610 - Business Statistics II **Credits: (3)**

6. Natural/Life Sciences Track

Required Upper Division Mathematics Courses (12 credit hours)

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3550 - Introduction to Mathematical Modeling **Credits: (3)**
- MATH 3710 - Boundary Value Problems **Credits: (3)** or
- MATH 3280 - Dynamical Systems **Credits: (3)**
- MATH 4610 - Numerical Analysis I **Credits: (3)**

Electives (at least 28 credit hours)

Complete at least an additional 28 credit hours of upper division courses in Botany, Mathematics, Microbiology or Zoology. At least 6 of these credit hours must be outside of Mathematics.

Minor

Mathematics Minor/BIS

Mathematics

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 20 credit hours for regular emphasis and 26 credit hours for Mathematics Teaching minor. At least one upper-division mathematics course for three credit hours must be completed at Weber State University.
- **Program Code:** Mathematics (6029), Mathematics Teaching (6030)
- **CIPC:** Mathematics (270101), Mathematics Teaching (131311)

Students who select the Mathematics Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Course Requirements for Mathematics Minor (Regular Emphasis)

Mathematics Courses Required (11 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**

Electives (9-10 credit hours)

Take three courses chosen from the following:

- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- any upper division mathematics courses (courses numbered 3000 and higher)

Teaching Minor

Mathematics Teaching Minor

Mathematics

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 26 credit hours for Mathematics Teaching minor. At least one upper-division mathematics course for three credit hours must be completed at Weber State University.
- **Program Code:** Mathematics (6029), Mathematics Teaching (6030)
- **CIPC:** Mathematics (270101), Mathematics Teaching (131311)

Students who select the Mathematics Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

A student who is ready to take calculus is considered prepared for the Mathematics Teaching Minor.

Course Requirements for Mathematics Teaching Minor

Mathematics Courses Required (26 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MTHE 3117 - Geometry from a Secondary Teaching Perspective **Credits: (3)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 3110 - Foundations of Algebra **Credits: (3)** or
- MATH 4110 - Modern Algebra I **Credits: (3)**
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MTHE 3115 - Algebra from a Secondary Teaching Perspective **Credits: (3)**

Middle School Mathematics Teaching Minor/Endorsement

The courses required for this minor match the recommendations from the Utah State Board of Education for the Middle School Mathematics Teaching endorsement effective July 1, 2021. Students who select the Mathematics Teaching Minor must satisfy the Teacher Education admission and licensure requirements.

- **Program Prerequisite:** MATH 1010 or MATH 1050 placement.
- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor
- **Credit Hour Requirements:** Minimum of 23 credits for the Middle School Mathematics Teaching minor
- **Program Code:** 6070
- **CIPC:** 131311

Advisement

Students pursuing an undergraduate in elementary education or special education are encouraged to elect MTHE 3015 and MTHE 3070 since the major requirements of MATH 2010, 2015, and 2020 will satisfy the prerequisites for MTHE 3015 and MTHE 3070.

Students pursuing a secondary teaching major are encouraged to take MTHE 3115 and MTHE 3117. The prerequisites for these courses are MATH 1210 and MATH 3110, respectively. The prerequisite for MATH 3110 is MATH 1210.

Program Learning Outcomes

- Build procedural fluency from conceptual understanding related to the algebra, geometry, and probability and statistics standards for Grades 6 - 9.
- Develop effective teaching practices to foster student use of the standards of mathematical practice to learn the mathematics associated with Grade 6 - 9 standards.
- Grow as an educator in understanding of the psychological, emotional, social, and physiological needs of Grades 6 - 9 students.

Required Courses (23 credit hours)

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1060 QL - Trigonometry **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**
- MTHE 3060 - Probability and Statistics from a Teaching Perspective **Credits: (3)**
- MTHE 3070 - Middle School Geometry from a Teaching Perspective **Credits: (3)** Or
- MTHE 3117 - Geometry from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 3015 - Middle School Algebra from a Teaching Perspective **Credits: (3)** Or
- MTHE 3115 - Algebra from a Secondary Teaching Perspective **Credits: (3)**
- MTHE 4000 - Methods and Technology for Teaching Secondary Mathematics **Credits: (3)**

Developmental Mathematics Program

Director: Dr. Kathryn Van Wagoner

Advisor & Telephone Contact: Katrina Marriott, 801-626-7451

Admin Asst. & Telephone Contact: Shawnette Horton, 801-626-7585

Email Contact: devmath@weber.edu

Location: Tracy hall Science Center 207

Instructors: Brenda Acor, Christopher Dunn, Amber Hansen, Christine Jennings-Lewis, Charity Jones, Debi McKee, Janette Penrod, Darrell Poore, Carrie Quesnell, Michelle Rich, and Kassidy Symonds

The Developmental Mathematics Program prepares students to take the Quantitative Literacy courses offered by the Mathematics Department. See the Core Requirements listed under the General Education Requirements of this catalog.

For more information about our courses or assistance selecting the best course for your needs:
www.weber.edu/mathoptions

Placement in Mathematics Courses

To prevent delay of graduation, all students requiring developmental courses should begin those courses immediately and stay registered in mathematics until completing a Quantitative Literacy course. Developmental Math courses provide foundational skills necessary for most college level courses. See Math Placement for details on our placement options and Choose Your Math Path for course options.

Course Delivery Options

Individual students have individual learning needs. The Developmental Math Program offers three types of courses to meet student learning needs.

Inquiry & Exploration Learning (IEL) - Students explore and solve real-world problems collaboratively in class with instructor guidance. Homework is completed online. In-class workbook and tests are on paper. Classes taught in this format: MATH 0950, MATH 0970, and MATH 1010.

Mastery-Based Learning (MBL) - Students take notes from videos or the textbook before class and collaboratively work on homework in class with instructor guidance. The videos, textbook, homework, quizzes, and tests are all online. Classes taught in this format: MATH 0950, MATH 0990, and MATH 1010.

Online Learning (ONL) - Online classes are mastery-based learning and completed entirely online with no face-to-face class meetings. All materials are online. Computerized quizzes and tests must be proctored in an approved location. Classes taught in this format: MATH 0950, 0990, and 1010.

Get more information at www.weber.edu/mathoptions or email devmath@weber.edu

Department of Microbiology

Department Chair: Michele Culumber

Location: Tracy Hall Science Center, Room 450

Telephone: Katie Nelson, 801-626-6949

Professor: Michele Culumber; **Assistant Professors:** Daniel Clark, Matthew Crook, Jeremy Dyke, Katrina Twing, Lisa Wiltbank

Microbiology is the study of microorganisms (bacteria, viruses, algae, fungi, and protozoa) including their structure, metabolism, distribution, and ecological relationships. Knowledge gained by microbiologists leads to a better understanding of molecular-level life processes and to beneficial applications in agriculture, industry, and medicine. The field is expanding, with special emphasis being given to genetic engineering, biotechnology, cell culture, disease and the immune response, production and storage of food, research and development and quality assurance of industrial products, disposal and detoxification of wastes, and the monitoring of environmental quality.

Interdisciplinary Programs

The Department of Microbiology contributes courses and faculty expertise to the interdisciplinary Environmental Science major (BS) sponsored by the College of Science. In addition, the department participates in A.S. Biology.

Bachelor of Science

Microbiology (BS)

Areas of Emphasis

Select at least one of the following areas of emphasis:

- Microbiology (BS), Microbiology Major Emphasis
- Microbiology (BS), Industrial Microbiology and Biotechnology Emphasis
- Microbiology (BS), Medical Microbiology Emphasis
- Microbiology (BS), Public and Environmental Health Emphasis

Microbiology (BS), Industrial Microbiology and Biotechnology Emphasis

Microbiology majors pursuing this emphasis should consult the appropriate advisor. The courses listed below are for the Bachelors of Science (BS) Degree in Microbiology with an emphasis in Industrial Microbiology and Biotechnology. The total number of credits required for the emphasis are the same as those required for the Microbiology degree, but are more specifically defined. An emphasis is not a major. Your major will be Microbiology with an emphasis in Industrial Microbiology and Biotechnology.

- **Program Prerequisite:** Not required.
- **Minor:** Not required. However, Microbiology majors will meet the requirements for a minor in Chemistry. If desired for another program, a Microbiology Minor is offered. Please see Microbiology Minor for requirements.
- **Grade Requirements:** An overall GPA of 2.00 or higher in Microbiology courses is required for this major in addition to an overall GPA of 2.00 or higher. Also refer to the General Grade Requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 71 credits is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

- **Program Code:** 6015BS and emphasis code 6041 (Industrial Microbiology and Biotechnology).
- **CIPC:** 260502.

Advisement

All Microbiology students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6949 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.) Please note, careful planning is essential as most courses have prerequisites and some upper division courses are only offered in one semester.

Students interested in Graduate School should discuss their plans with the major advisor.

Use Grad MAPs to plan your degree.

Admission Requirements

Declare your program of study with the Microbiology Department. No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses are required for the Microbiology major and will also satisfy general education requirements: MICR 2054, CHEM 1210/1215, PHYS 1010 or PHYS 2010.

Program Learning Outcomes

- Describe how microorganisms are used as model systems to study basic biology, genetics, metabolism and ecology.
- Identify ways microorganisms play an integral role in disease, and microbial and immunological methodologies are used in disease treatment and prevention.
- Explain why microorganisms are ubiquitous in nature; inhabiting a multitude of habitats and occupying a wide range of ecological habitats.
- Cite examples of the vital role of microorganisms in biotechnology, fermentation, medicine, and other industries important to human well being.
- Demonstrate that microorganisms have an indispensable role in the environment, including elemental cycles, biodegradation, etc.
- Nature of Science and Scientific Inquiry: Microbiology majors should be able to discuss science and scientific methodology as a way of knowing. Microbiology majors should make observations, develop hypotheses, and design and execute experiments using appropriate methods. They should be able to explain how the nature of science is applied to every day problems.
- Laboratory Skills: Microbiology students should master the following laboratory skills: aseptic and pure culture techniques, preparation of and viewing samples for microscopy, use appropriate methods to identify microorganisms, estimate the number of microorganisms in a sample, and use common lab equipment. They should practice safe microbiology, using appropriate protective and emergency procedures.
- Data analysis skills: Microbiology majors should be able to systematically collect, record, and analyze data, identify sources of error, interpret the results, and reach logical conclusions. They should be able to appropriately format data into tables, graphs, and charts for presentation and publication.
- Critical Thinking Skills: Microbiology majors should be able to (1) differentiate between fact and opinion, (2) recognize and evaluate author bias and rhetoric, (3) develop inferential skills, (4) recognize logical fallacies and faulty reasoning, and (5) make decisions and judgments by drawing logical conclusions using sound quantitative and statistically-based reasoning.

- **Problem-Solving Skills:** Microbiology majors should be competent problem-solvers. They should be able to assess the elements of a problem and develop and test a solution based on logic and the best possible information. Microbiology students should be able to analyze and interpret results from a variety of microbiological methods, and apply these methods to analogous situations. They should use mathematical and graphing skills and reasoning to solve problems in microbiology.
- **Communication Skills:** Microbiology majors will demonstrate competence in written and oral communication.
- **Cooperation/Social Responsibility:** Microbiology majors should understand and appreciate the value of cooperating and working effectively with peers and be able to demonstrate a commitment to the process of developing such skills.
- **Values:** Microbiology majors should identify and discuss the ethical issues and responsibilities of doing science

Required Core Microbiology Major Courses (19 credit hours)

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3154 - Microbial Ecology **Credits: (4)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**

Foundational Industrial Microbiology and Biotechnology Courses (9 credit hours)

- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4253 - Cell Culture **Credits: (3)**
- MICR 4354 - Industrial Microbiology and Biotechnology **Credits: (4)**

Industrial Microbiology and Biotechnology Elective Courses (11 credit hours)

Select 11 credit hours from the following categories A-C (may not be counted twice except where noted in the course description):

Category A: Upper-division Microbiology Courses

- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- MICR 3753 - Geomicrobiology **Credits: (3)**
- MICR 3813 CRE - Bioinformatics **Credits: (3)**
- MICR 4554 - Virology **Credits: (4)**

Category B: Experience in Microbiology Courses

- MICR 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)**
- MICR 2920 - Short Courses, Workshop, Institutes, and Special Programs **Credits: (1-6)**
- MICR 4800 - Directed Research **Credits: (1-2)** *
- MICR 4830 - Directed Readings **Credits: (1-2)** *
- MICR 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- MICR 4991 - Microbiology Seminar **Credits: (1)**

**No more than 3 credit hours of MICR 4800 and no more than 2 credit hours of MICR 4830 may count toward the major.*

Category C: Other elective courses in the College of Science (maximum 4 credit hours)

- BTNY 3504 - Mycology **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**

Required Support Courses (26-29 credit hours)

A grade of D- or better is required in each support course.

Chemistry (19 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**

Math (minimum of 1 course from the following)

- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)** or
- MATH 1210 - Calculus I **Credits: (4)**

Physics (minimum of 1 course from the following)

- PHYS 1010 PS - Elementary Physics **Credits: (3)** or

- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2019 - College Physics I Lab **Credits: (0)** or
- PHYS 2020 - College Physics II **Credits: (5)**
- PHYS 2029 - College Physics II Lab **Credits: (0)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2219 - Physics for Scientists and Engineers I Lab **Credits: (0)** or
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 2229 - Physics for Scientists and Engineers II Lab **Credits: (0)**

Life Science Course Electives (6 credit hours)

Minimum of 6 credit hours from 2 Life Science courses in the following:

Botany

- BTNY 1203 LS - Plant Biology **Credits: (3)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**

Zoology

- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3720 - Evolution **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**

- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**

Microbiology (BS), Medical Microbiology Emphasis

Microbiology majors pursuing this emphasis should consult the appropriate advisor. The courses listed below are for the Bachelors of Science (BS) Degree in Microbiology with an emphasis in Medical Microbiology. The total number of credits required for the emphasis are the same as those required for the Microbiology degree, but are more specifically defined. An emphasis is not a major. Your major will be Microbiology with an emphasis in Medical Microbiology.

Students considering application to medical, dental, veterinary, physical therapy, optometry, and pharmacy schools should consult the beginning of the College of Science section of this catalog. Furthermore, they should meet with the advisors of these programs, each of whom is listed in that section. The Department of Microbiology offers lower and upper level courses that provide superb training for examinations such as the Medical College Admissions Test (MCAT), as well as medical school courses. Students should meet with the appropriate advisor for specific course suggestions. Medical schools do not accept AP or CELP credits in English, Math, or Science courses.

- **Program Prerequisite:** Not required.
- **Minor:** Not required. However, Microbiology majors will meet the requirements for a minor in Chemistry. If desired for another program, a Microbiology Minor is offered. Please see Microbiology Minor for requirements.
- **Grade Requirements:** An overall GPA of 2.00 or higher in Microbiology courses is required for this major in addition to an overall GPA of 2.00 or higher. Also refer to the General Grade Requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 71 credits is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 6015BS and emphasis 6042 (Medical Microbiology).
- **CIPC:** 260502.

Advisement

All Microbiology students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6949 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.) Please note, careful planning is essential as most courses have prerequisites and some upper division courses are only offered in one semester.

Students interested in Graduate School should discuss their plans with the major advisor.

Use Grad MAPs to plan your degree.

Admission Requirements

Declare your program of study with the Microbiology Department. No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses are required for the Microbiology major and will also satisfy general education requirements: MICR 2054, CHEM 1210/1215, PHYS 1010 or PHYS 2010 .

Program Learning Outcomes

- Describe how microorganisms are used as model systems to study basic biology, genetics, metabolism and ecology.
- Identify ways microorganisms play an integral role in disease, and microbial and immunological methodologies are used in disease treatment and prevention.
- Explain why microorganisms are ubiquitous in nature; inhabiting a multitude of habitats and occupying a wide range of ecological habitats.
- Cite examples of the vital role of microorganisms in biotechnology, fermentation, medicine, and other industries important to human well being.
- Demonstrate that microorganisms have an indispensable role in the environment, including elemental cycles, biodegradation, etc.
- Nature of Science and Scientific Inquiry: Microbiology majors should be able to discuss science and scientific methodology as a way of knowing. Microbiology majors should make observations, develop hypotheses, and design and execute experiments using appropriate methods. They should be able to explain how the nature of science is applied to every day problems.
- Laboratory Skills: Microbiology students should master the following laboratory skills: aseptic and pure culture techniques, preparation of and viewing samples for microscopy, use appropriate methods to identify microorganisms, estimate the number of microorganisms in a sample, and use common lab equipment. They should practice safe microbiology, using appropriate protective and emergency procedures.
- Data analysis skills: Microbiology majors should be able to systematically collect, record, and analyze data, identify sources of error, interpret the results, and reach logical conclusions. They should be able to appropriately format data into tables, graphs, and charts for presentation and publication.

- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 2229 - Physics for Scientists and Engineers II Lab **Credits: (0)**

Life Science Course Electives (6 credit hours)

Minimum of 6 credit hours from 2 Life Science courses in the following:

Botany

- BTNY 1203 LS - Plant Biology **Credits: (3)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**

- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**

Zoology

- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3720 - Evolution **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**

Microbiology (BS), Microbiology Major Emphasis

Microbiology majors should consult the appropriate advisor. The courses listed below are for the Bachelors of Science (BS) Degree in Microbiology with an emphasis in Microbiology. The total number of credits required for the emphasis are the same as those required for the Microbiology degree.

- **Program Prerequisite:** Not required.
- **Minor:** Not required. However, Microbiology majors will meet the requirements for a minor in Chemistry. If desired for another program, a Microbiology Minor is offered. Please see Microbiology Minor for requirements.
- **Grade Requirements:** An overall GPA of 2.00 or higher in Microbiology courses is required for this major in addition to an overall GPA of 2.00 or higher. Also refer to the General Grade Requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 71 credits is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).

- **Program Code:** 6015BS and emphasis 6044 (Microbiology).
- **CIPC:** 260502.

Advisement

All Microbiology students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6949 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.) Please note, careful planning is essential as most courses have prerequisites and some upper division courses are only offered in one semester.

Students interested in Graduate School should discuss their plans with the major advisor.

Use Grad MAPs to plan your degree.

Admission Requirements

Declare your program of study with the Microbiology Department. No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses are required for the Microbiology major and will also satisfy general education requirements: MICR 2054, CHEM 1210/CHEM 1215, PHYS 1010 or PHYS 2010.

Program Learning Outcomes

- Describe how microorganisms are used as model systems to study basic biology, genetics, metabolism and ecology.
- Identify ways microorganisms play an integral role in disease, and microbial and immunological methodologies are used in disease treatment and prevention.
- Explain why microorganisms are ubiquitous in nature; inhabiting a multitude of habitats and occupying a wide range of ecological habitats.
- Cite examples of the vital role of microorganisms in biotechnology, fermentation, medicine, and other industries important to human well being.
- Demonstrate that microorganisms have an indispensable role in the environment, including elemental cycles, biodegradation, etc.
- Nature of Science and Scientific Inquiry: Microbiology majors should be able to discuss science and scientific methodology as a way of knowing. Microbiology majors should make observations, develop hypotheses, and design and execute experiments using appropriate methods. They should be able to explain how the nature of science is applied to every day problems.
- Laboratory Skills: Microbiology students should master the following laboratory skills: aseptic and pure culture techniques, preparation of and viewing samples for microscopy, use appropriate methods to identify microorganisms, estimate the number of microorganisms in a sample, and use common lab equipment. They should practice safe microbiology, using appropriate protective and emergency procedures.
- Data analysis skills: Microbiology majors should be able to systematically collect, record, and analyze data, identify sources of error, interpret the results, and reach logical conclusions. They should be able to appropriately format data into tables, graphs, and charts for presentation and publication.
- Critical Thinking Skills: Microbiology majors should be able to (1) differentiate between fact and opinion, (2) recognize and evaluate author bias and rhetoric, (3) develop inferential skills, (4) recognize logical fallacies

and faulty reasoning, and (5) make decisions and judgments by drawing logical conclusions using sound quantitative and statistically-based reasoning.

- **Problem-Solving Skills:** Microbiology majors should be competent problem-solvers. They should be able to assess the elements of a problem and develop and test a solution based on logic and the best possible information. Microbiology students should be able to analyze and interpret results from a variety of microbiological methods, and apply these methods to analogous situations. They should use mathematical and graphing skills and reasoning to solve problems in microbiology.
- **Communication Skills:** Microbiology majors will demonstrate competence in written and oral communication.
- **Cooperation/Social Responsibility:** Microbiology majors should understand and appreciate the value of cooperating and working effectively with peers and be able to demonstrate a commitment to the process of developing such skills.
- **Values:** Microbiology majors should identify and discuss the ethical issues and responsibilities of doing science

Major Course Requirements for Microbiology BS Degree

Required Core Microbiology Major Courses (19 credit hours)

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3154 - Microbial Ecology **Credits: (4)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**

Microbiology Major Elective Courses (20 credit hours)

Select 20 credit hours from the following categories A-C:

Category A: Upper-division Microbiology Courses (minimum 8 credit hours)

- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- MICR 3753 - Geomicrobiology **Credits: (3)**
- MICR 3813 CRE - Bioinformatics **Credits: (3)**
- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4253 - Cell Culture **Credits: (3)**
- MICR 4354 - Industrial Microbiology and Biotechnology **Credits: (4)**
- MICR 4554 - Virology **Credits: (4)**

Category B: Experience in Microbiology Courses

- MICR 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)**

- MICR 2920 - Short Courses, Workshop, Institutes, and Special Programs **Credits: (1-6)**
- MICR 4800 - Directed Research **Credits: (1-2) ***
- MICR 4830 - Directed Readings **Credits: (1-2) ***
- MICR 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- MICR 4991 - Microbiology Seminar **Credits: (1)**

**No more than 3 credit hours of MICR 4800 and no more than 2 credit hours of MICR 4830 may count toward the major.*

Category C: Other elective courses in the College of Science (maximum 8 credit hours)

- BTNY 3303 - Plant Genetics **Credits: (4)**
- BTNY 3504 - Mycology **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**

Required Support Courses (26-29 credit hours)

A grade of D- or better is required in each support course.

Chemistry (19 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**

Math (minimum of 1 course from the following)

- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)** or
- MATH 1210 - Calculus I **Credits: (4)**

Physics (minimum of 1 course from the following)

- PHYS 1010 PS - Elementary Physics **Credits: (3)** or
- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2019 - College Physics I Lab **Credits: (0)** or
- PHYS 2020 - College Physics II **Credits: (5)**

- PHYS 2029 - College Physics II Lab **Credits: (0)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**
- PHYS 2219 - Physics for Scientists and Engineers I Lab **Credits: (0)** or
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 2229 - Physics for Scientists and Engineers II Lab **Credits: (0)**

Life Science Course Electives (6 credit hours)

Minimum of 6 credit hours from 2 Life Science courses in the following:

Botany

- BTNY 1203 LS - Plant Biology **Credits: (3)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**

Zoology

- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3720 - Evolution **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**

Microbiology Emphases

Microbiology majors pursuing emphases should consult the appropriate advisor and include the specified Foundational and Elective emphasis courses into their Microbiology Major. Regardless of the chosen emphasis, students must successfully complete the REQUIRED CORE MICROBIOLOGY MAJOR COURSES (19 credit hours), [20 credit hours through the specific emphasis] REQUIRED SUPPORT COURSES (26-29 credit hours), and LIFE SCIENCE COURSE ELECTIVES (6 credit hours). Please note that emphases are not a major. Your major will be Microbiology with a specific emphasis.

The emphasis areas are as follows:

- Microbiology (BS)
- Microbiology (BS), Industrial Microbiology and Biotechnology Emphasis
- Microbiology (BS), Medical Microbiology Emphasis
- Microbiology (BS), Public and Environmental Health Emphasis

Students must choose at least one of the four emphases that are offered in order to declare a Microbiology (BS) degree.

Microbiology (BS), Public and Environmental Health Emphasis

Microbiology majors pursuing this emphasis should consult the appropriate advisor. The courses listed below are for the Bachelors of Science (BS) Degree in Microbiology with an emphasis in Public and Environmental Health. The total number of credits required for the emphasis are the same as those required for the Microbiology degree, but are more specifically defined. An emphasis is not a major. Your major will be Microbiology with an emphasis in Public and Environmental Health.

- **Program Prerequisite:** Not required.
- **Minor:** Not required. However, Microbiology majors will meet the requirements for a minor in Chemistry. If desired for another program, a Microbiology Minor is offered. Please see Microbiology Minor for requirements.
- **Grade Requirements:** An overall GPA of 2.00 or higher in Microbiology courses is required for this major in addition to an overall GPA of 2.00 or higher. Also refer to the General Grade Requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 71 credits is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 6015BS and emphasis 6043 (Public and Environmental Health).
- **CIPC:** 260502.

Advisement

All Microbiology students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6949 for more information or to schedule an appointment. (Also refer to the Department

Advisor Referral List). Please note, careful planning is essential as most courses have prerequisites and some upper division courses are only offered in one semester.

Students interested in Graduate School should discuss their plans with the major advisor.

Use Grad MAPs to plan your degree.

Admission Requirements

Declare your program of study with the Microbiology Department. No special admission or application requirements are needed for this program. However, students should meet with an advisor to plan and declare their program of study.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses are required for the Microbiology major and will also satisfy general education requirements: MICR 2054, CHEM 1210/CHEM 1215, PHYS 1010 or PHYS 2010.

Program Learning Outcomes

- Describe how microorganisms are used as model systems to study basic biology, genetics, metabolism and ecology.
- Identify ways microorganisms play an integral role in disease, and microbial and immunological methodologies are used in disease treatment and prevention.
- Explain why microorganisms are ubiquitous in nature; inhabiting a multitude of habitats and occupying a wide range of ecological habitats. .
- Cite examples of the vital role of microorganisms in biotechnology, fermentation, medicine, and other industries important to human well being.
- Demonstrate that microorganisms have an indispensable role in the environment, including elemental cycles, biodegradation, etc.
- Nature of Science and Scientific Inquiry: Microbiology majors should be able to discuss science and scientific methodology as a way of knowing. Microbiology majors should make observations, develop hypotheses, and design and execute experiments using appropriate methods. They should be able to explain how the nature of science is applied to every day problems.
- Laboratory Skills: Microbiology students should master the following laboratory skills: aseptic and pure culture techniques, preparation of and viewing samples for microscopy, use appropriate methods to identify microorganisms, estimate the number of microorganisms in a sample, and use common lab equipment. They should practice safe microbiology, using appropriate protective and emergency procedures.
- Data analysis skills: Microbiology majors should be able to systematically collect, record, and analyze data, identify sources of error, interpret the results, and reach logical conclusions. They should be able to appropriately format data into tables, graphs, and charts for presentation and publication.
- Critical Thinking Skills: Microbiology majors should be able to (1) differentiate between fact and opinion, (2) recognize and evaluate author bias and rhetoric, (3) develop inferential skills, (4) recognize logical fallacies and faulty reasoning, and (5) make decisions and judgments by drawing logical conclusions using sound quantitative and statistically-based reasoning.
- Problem-Solving Skills: Microbiology majors should be competent problem-solvers. They should be able to assess the elements of a problem and develop and test a solution based on logic and the best possible information. Microbiology students should be able to analyze and interpret results from a variety of microbiological methods, and apply these methods to analogous situations. They should use mathematical and graphing skills and reasoning to solve problems in microbiology.

- Communication Skills: Microbiology majors will demonstrate competence in written and oral communication.
- Cooperation/Social Responsibility: Microbiology majors should understand and appreciate the value of cooperating and working effectively with peers and be able to demonstrate a commitment to the process of developing such skills.
- Values: Microbiology majors should identify and discuss the ethical issues and responsibilities of doing science

Required Core Microbiology Major Courses (19 credit hours)

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3154 - Microbial Ecology **Credits: (4)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**

Foundational Public and Environmental Health Courses (4 credit hours)

- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**

Public and Environmental Health Elective Courses (16 credit hours)

Select 16 credit hours from the following categories A-C: (may not be counted twice except where noted in the course description):

Category A: Upper-division Microbiology Courses (minimum 8 credit hours)

- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4554 - Virology **Credits: (4)**

Category B: Experience in Microbiology Courses

- MICR 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)**
- MICR 2920 - Short Courses, Workshop, Institutes, and Special Programs **Credits: (1-6)**
- MICR 4800 - Directed Research **Credits: (1-2)** *
- MICR 4830 - Directed Readings **Credits: (1-2)** *
- MICR 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

- MICR 4991 - Microbiology Seminar **Credits: (1)**

** No more than 3 credit hours of MICR 4800 and no more than 2 credit hours of MICR 4830 may count toward the major.*

Category C: Other elective courses in the College of Science (maximum 8 credit hours)

- BTNY 3504 - Mycology **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**

Required Support Courses (26-29 credit hours)

A grade of D- or better is required in each support course

Chemistry (19 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**

Math (minimum of 1 course from the following)

- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)** or
- MATH 1210 - Calculus I **Credits: (4)**

Physics (minimum of 1 course from the following)

- PHYS 1010 PS - Elementary Physics **Credits: (3)** or
- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2019 - College Physics I Lab **Credits: (0)** or
- PHYS 2020 - College Physics II **Credits: (5)**
- PHYS 2029 - College Physics II Lab **Credits: (0)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**

- PHYS 2219 - Physics for Scientists and Engineers I Lab **Credits: (0)** or
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 2229 - Physics for Scientists and Engineers II Lab **Credits: (0)**

Life Science Course Electives (6 credit hours)

Minimum of 6 credit hours from 2 Life Science courses in the following:

Botany

- BTNY 1203 LS - Plant Biology **Credits: (3)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**

Zoology

- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3720 - Evolution **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Microbiology (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

BIS students that wish to include Microbiology as one of their emphasis areas should recognize that they should have a clear goal for their BIS program and capstone project. Students need to gain approval of courses for the emphasis from a Microbiology advisor. Because Microbiology research often involves laboratory experiments, students should begin discussing their capstone project with a faculty member a year in advance. They will then work with that faculty mentor, in coordination with the other emphasis mentors, to develop the experiments, methods, and schedule for the project. The student is responsible for securing funding for the supplies needed for their project.

- **Program Prerequisite:** Students seeking a BIS with an emphasis in Microbiology must complete CHEM 1210/1215 and CHEM 1220/ 1225 as prerequisites for upper division Microbiology courses *in addition to* the credits required for Microbiology.
- **Grade Requirements:** A minimum grade of "C" must be achieved in all coursework to satisfy BIS degree requirements.
- **Credit Hours Requirements:** A minimum of 18 credit hours is required in Microbiology, at least one course should be at the 4000 level.
- **Program Code:** 6015
- **CIPC:** 260502

Course Requirements for BIS Emphasis

Required Chemistry Courses (10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Required Microbiology Courses (7-8 credit hours)

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3053 - Microbiological Procedures **Credits: (3)** or
- MICR 3154 - Microbial Ecology **Credits: (4)**

Microbiology BIS Emphasis Elective Courses

Choose 3 courses to total the remaining 10-11 credits in Microbiology courses. **1 of the 3 courses must be a 4000 level course.** Please be aware that some courses have additional prerequisites.

- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**

- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3154 - Microbial Ecology **Credits: (4)**
- MICR 3203 - The Immune System in Health & Disease **Credits: (3)** or
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)** or
- MICR 3603 - Advanced Microbiology for the Health Professions **Credits: (3)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- MICR 3753 - Geomicrobiology **Credits: (3)**
- MICR 3813 CRE - Bioinformatics **Credits: (3)**
- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 4253 - Cell Culture **Credits: (3)**
- MICR 4354 - Industrial Microbiology and Biotechnology **Credits: (4)**
- MICR 4554 - Virology **Credits: (4)**

The following courses will not be counted toward a BIS degree without the approval of a Microbiology advisor:

- MICR 2600 - Laboratory Safety **Credits: (1)**
- MICR 4800 - Directed Research **Credits: (1-2) ***
- MICR 4830 - Directed Readings **Credits: (1-2) ***
- MICR 4890 INT - Cooperative Work Experience **Credits: (1-5)**
- MICR 4991 - Microbiology Seminar **Credits: (1)**

****No more than 3 credit hours of MICR 4800 and only 1 credit hour of MICR 4830 may count toward the Microbiology BIS Emphasis.***

Minor

Microbiology Minor

- **Grade Requirements:** A grade of "C-" or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 18 credithours in Microbiology courses.
- **Program Code:** 6015
- **CIPC:** 260502

Course Requirements for Minor

Required Microbiology Course (4 credit hours)

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**

Microbiology Minor Elective Courses (14 credit hours)

Select 14 credit hours of Microbiology courses from the following:

- MICR 2600 - Laboratory Safety **Credits: (1)**
- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3154 - Microbial Ecology **Credits: (4)**

- MICR 3203 - The Immune System in Health & Disease **Credits: (3)** or
- MICR 3254 - Immunology **Credits: (4)**

- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- MICR 3753 - Geomicrobiology **Credits: (3)**
- MICR 3813 CRE - Bioinformatics **Credits: (3)**
- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 4253 - Cell Culture **Credits: (3)**
- MICR 4354 - Industrial Microbiology and Biotechnology **Credits: (4)**
- MICR 4554 - Virology **Credits: (4)**
- MICR 4800 - Directed Research **Credits: (1-2)**
- MICR 4830 - Directed Readings **Credits: (1-2)**
- MICR 4991 - Microbiology Seminar **Credits: (1)**

Department of Physics and Astronomy

Department Chair: Colin Inglefield

Location: Tracy Hall Science Center, Room 302

Telephone: Nereyda Hesterberg, 801-626-6163

Website: weber.edu/physics

Professors: John Armstrong, Michelle Arnold, Colin Inglefield, Adam Johnston, Stacy Palen, Daniel Schroeder, John Sohl; **Associate Professor:** Kristin Rabosky; **Assistant Professor:** Jonathan Cornell; **Instructors:** Sebastian Fischetti, Jordyn Redmond

Physics is the study and application of the fundamental laws of nature, including the laws of motion, gravity, electromagnetism, heat, and microscopic interactions. These laws govern the behavior of objects at all scales, from the smallest subatomic particles to the entire observable universe. In between, physicists study nuclear reactions, the interaction of atoms with light, properties of materials, the chaotic dynamics of fluids, and the evolution of stars and galaxies, among many other applications.

Our courses in physics introduce all of the most important fundamental laws and many of their applications. Equally valuable, however, are the skills that students develop in these courses, from analytical thinking and problem solving to experimental design and interpretation. Majoring in physics can thus prepare a student for a variety of careers in research, education, business, industry, and government.

The Department offers three major programs: Physics, Applied Physics, and Physics Teaching. The Physics major places emphasis on understanding nature at the deepest possible level, and offers options that emphasize fundamental theoretical physics, astrophysics, computational physics, and physics of materials. Each of these options provides a strong foundation for graduate work. The Applied Physics major places more emphasis on physical phenomena and hands-on experience. Thus, it is more suitable for those planning to go either directly into industrial employment or into graduate programs in certain applied fields. The Physics Teaching major is designed specifically for those planning to teach physics at the secondary school level.

Students who are majoring in other disciplines are encouraged to consider a minor in physics, which includes a year of introductory physics plus eight credit hours of additional physics courses. These electives may be chosen to emphasize basic theory, experimental techniques, or applied subfields such as optics and astrophysics.

Associate of Applied Science

Physical Science (AAS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** Minimum overall GPA of 2.00 or "C".
- **Credit Hour Requirements:** A total of 63 credit hours are required for graduation; 34-36 of these are required within the program.
- **Program Code:** 6068AAS
- **CIPC:** 400101

Advisement

It is recommended that a student consult with a departmental advisor annually. Call 801-626-6163 for information or to schedule an appointment.

Use Grad MAPs to plan your degree

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following courses required for the Physical Science program will also satisfy the general education requirement for physical sciences: CHEM 1210 PS; GEO 1110 PS; and PHYS 2210 PS (or PHYS 2010 PS).

Program Learning Outcomes

- Students can trace scientific understandings, theory, and models back to their sources in their primary discipline.
- Students demonstrate how scientific knowledge is derived, reviewed, and communicated.
- Nature of science. Scientific knowledge is based on evidence that is repeatedly examined, and can change with new information. Scientific explanations differ fundamentally from those that are not scientific.
- Integration of science. All natural phenomena are interrelated and share basic organizational principles. Scientific explanations obtained from different disciplines should be cohesive and integrated.
- Science and society. The study of science provides explanations that have significant impact on society, including technological advancements, improvement of human life, and better understanding of human and other influences on the earth's environment.

- Problem solving and data analysis. Science relies on empirical data, and such data must be analyzed, interpreted, and generalized in a rigorous manner.
- Organization of systems: The universe is scientifically understandable in terms of interconnected systems. The systems evolve over time according to basic physical laws.
- Matter: Matter comprises an important component of the universe, and has physical properties that can be described over a range of scales.
- Energy: Interactions within the universe can be described in terms of energy exchange and conservation.
- Forces: Equilibrium and change are determined by forces acting at all organizational levels.

Major Course Requirements for AAS Degree (34-39 credits)

Core Courses (26 credits):

- CHEM 1200 - Preparation for College Chemistry **Credits: (3)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** and
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** or
- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)** or
- GEO 2600 - Laboratory Safety **Credits: (1)**
- PHYS 2820 - Elements of Research in the Sciences **Credits: (3)** or
- CHEM 2820 - Elements of Research in the Sciences **Credits: (3)** or
- GEO 2820 - Elements of Research in the Sciences **Credits: (3)**

Foundational Courses for the Discipline (8-13 credits):

Complete one of the following groups of courses.

For Students most interested in chemistry (10 credits):

- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)** and
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**

Please note the combined CHEM 2310 and CHEM 2315, and CHEM 2320 and CHEM 2325, each count as one foundation course. CHEM 2310 and CHEM 2315 must be taken concurrently, same for CHEM 2315 and CHEM 2325

For students most interested in Earth/geological science (8 credits):

- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 2050 - Earth Materials **Credits: (4)**

For students most interested in physics (13 credits):

- MATH 1200 - Mathematics Computer Laboratory **Credits: (1)**
- MATH 1220 - Calculus II **Credits: (4)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 3310 - Scientific Computing for Physical Systems **Credits: (3)**
** Students should consult with a departmental advisor to determine the appropriate mathematics and physics sequences for their educational and/or career goals.*

Bachelor of Science

Physics (BS)

- **Program Prerequisite:** Not required.
- **Minor:** No minor is required. However, a math minor is automatically satisfied by the requirements.
- **Grade Requirements:** An overall GPA of 2.00 is required. Also refer to the general grade requirements for graduation on Degree Requirements.
- **Credit Hour Requirements:** A total of 120 semester credit hours is required for graduation; 71 to 73 of these (depending on the option chosen) are required within the Physics major. Forty upper-division credit hours are required (courses numbered 3000 and above); 22-28 of these (depending on the option chosen) are required within the Physics major.
- **Program Code:** 6018BS with one of the following options PHYSTRAD (**Traditional**), PHYSMATR (**Physics of Materials**), PHYSASTR (**Astrophysics**), or PHYSCOMP (**Computational Physics**)
- **CIPC:** 400801

Advisement

All Physics majors are strongly encouraged to meet with the chair at least annually for course and program advisement. Call 801-626-6163 for more information or to schedule an appointment. Note that because most courses have prerequisites and some advanced courses are offered only in alternate years, careful planning is essential.

Admissions Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for the Physics major.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Physics major will satisfy general education requirements: PHYS 2210 and MATH 1210.

Program Learning Outcomes

- Presentation skills. Physics majors should be able to express (orally and in writing) their understanding of core physical principles, the results of experiments, and their analysis of physical problems.
- Laboratory skills. Physics majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, and interpret their result and connect it to related areas of physics.
- Computer skills. Physics majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. They should also have an understanding of the fundamental aspects of a programming and/or computer algebra language (Fortran, C++, Mathematica, etc.).
- Problem-solving skills. Physics majors should be competent problem-solvers. They should be able to identify the essential aspects of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of physics.
- Physics majors should be adequately trained to apply their physics experience and knowledge to analyze new situations.
- All physics students (majors, minors, support, and Gen Ed students) should understand the nature of science, as assessed by questionnaires, interviews, and student focus groups.
- General Education students should understand several core concepts of physics.
- Physics Teaching majors and Elementary Teaching majors should have an appropriate knowledge of physics and a variety of teaching strategies to accommodate the multiple learning styles of their students.

Physics Major Course Requirements for BS Degree

Physics Courses Required (24 credit hours)

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 1300 - Scientific Data Processing and Visualization **Credits: (1)**
- PHYS 2710 - Introductory Modern Physics **Credits: (3)**
- PHYS 3310 - Scientific Computing for Physical Systems **Credits: (3)**
- PHYS 3500 - Analytical Mechanics **Credits: (3)**
- PHYS 3510 - Electromagnetic Theory **Credits: (3)**
- PHYS 4990 - Seminar in Physics **Credits: (1)**

Physics Electives (3 credit hours)

Select a minimum of three additional credit hours from Physics courses numbered 3000 and above. Courses in closely related disciplines may also satisfy this requirement when appropriate to the option chosen (see below). In all cases, elective courses must be approved by the department chair.

Support Courses Required (19 credit hours)

Students planning for graduate study in physics, engineering, or a related field should consider taking additional mathematics courses.

- MATH 1200 - Mathematics Computer Laboratory **Credits: (1)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**

OPTIONS

Physics Majors must also satisfy the requirements of at least one of the following four options.

1. Traditional Option

By including all of the core courses in theoretical physics, this option provides a strong foundation for graduate study in physics.

Additional Physics Courses Required (17 or 18 credit hours)

- PHYS 3180 - Thermal Physics **Credits: (3)**
- PHYS 3190 CRE - Applied Optics **Credits: (3)** or
- PHYS 3410 - Electronics for Scientists **Credits: (4)**
- PHYS 3540 - Mechanical and Electromagnetic Waves **Credits: (3)**
- PHYS 3710 - Nuclear and Particle Physics **Credits: (3)**
- PHYS 4400 CRE - Advanced Physics Laboratory **Credits: (2)**
- PHYS 4610 - Quantum Mechanics **Credits: (3)**

Additional Support Courses Required (10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

2. Physics of Materials Option

This option is intended for students who have an interest in the properties of materials and their study using advanced instrumentation.

Additional Physics Courses Required (18 credit hours)

- PHYS 3180 - Thermal Physics **Credits: (3)**
- PHYS 3410 - Electronics for Scientists **Credits: (4)**
- PHYS 3540 - Mechanical and Electromagnetic Waves **Credits: (3)**
- PHYS 4200 - The Physics of Materials **Credits: (3)**
- PHYS 4410 CRE - Materials Characterization Laboratory **Credits: (2)**

- PHYS 4610 - Quantum Mechanics **Credits: (3)**

Additional Support Courses Required (10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

3. Astrophysics Option

Supplementing a traditional physics program with several astronomy and astrophysics courses, this option is intended for students with a special interest in astronomy, including those intending to pursue graduate study in astrophysics.

Additional Physics Courses Required (17 or 18 credit hours)

- ASTR 3040 - Principles of Observational Astronomy, Advanced **Credits: (3)**
- ASTR 3160 - Stellar and Planetary Astrophysics **Credits: (3)**
- ASTR 3170 - Galaxies and Cosmology **Credits: (3)**
- PHYS 3180 - Thermal Physics **Credits: (3)**
- PHYS 3190 CRE - Applied Optics **Credits: (3)** or
- PHYS 3410 - Electronics for Scientists **Credits: (4)**
- ***Select a minimum of two additional credit hours from Physics courses numbered 3000 and above. Courses in closely related disciplines may also satisfy this requirement when appropriate. In all cases, elective courses must be approved by the department chair.***

Additional Support Courses Required (9 or 10 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

Select one of the following:

- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- OR**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- OR**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** and
- GEO 1115 - Physical Geology Lab **Credits: (1)**

4. Computational Physics Option

This option is intended for students with a special interest in computational techniques applied to the physical world.

Additional Physics Courses Required (12 credit hours)

- PHYS 3320 - Advanced Computational Physics **Credits: (3)**
- PHYS 3410 - Electronics for Scientists **Credits: (4)**

- ASTR 3040 - Principles of Observational Astronomy, Advanced **Credits: (3)** or
- PHYS 4400 CRE - Advanced Physics Laboratory **Credits: (2)** or
- PHYS 4410 CRE - Materials Characterization Laboratory **Credits: (2)**

Select one of the following:

- PHYS 3180 - Thermal Physics **Credits: (3)**
- PHYS 3540 - Mechanical and Electromagnetic Waves **Credits: (3)**
- PHYS 4610 - Quantum Mechanics **Credits: (3)**

Additional Support Courses Required (14 credit hours)

- MATH 4610 - Numerical Analysis I **Credits: (3)** and
- MATH 4620 - Numerical Analysis II **Credits: (3)**

Select two of the following:

- CS 1410 - Object-Oriented Programming **Credits: (4)**
- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 2450 - Software Engineering I **Credits: (4)**
- CS 2810 - Computer Architecture/Organization **Credits: (4)**

Physics Teaching (BS)

- **Program Prerequisite:** Physics Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Not Required.
- **Grade Requirements:** An overall GPA of 2.00 is required in courses required for this major. Also refer to the general grade requirements for graduation under General Requirements.
- **Credit Hour Requirements:** A total of 120 semester credit hours is required for graduation; 45 hours are required within the major, plus the credits required by the Teacher Education department. Forty upper-division credit hours are required (courses numbered 3000 and above).
- **Program Code:** 6020BS
- **CIPC:** 131329

Advisement

Physics Teaching majors are strongly encouraged to meet with the chair at least annually for course and program advisement. Call 801-626-6163 for more information or to schedule an appointment. Physics Teaching majors are also encouraged to meet with a Jerry and Vickie Moyes College of Education advisor (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admissions Requirements

Declare your program of study (see Student Access and Success, Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education.)

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Physics and Applied Physics majors will satisfy general education requirements: PHYS 1040 PS, PHYS 2210 PS, and MATH 1210.

Program Learning Outcomes

- Presentation skills. Physics majors should be able to express (orally and in writing) their understanding of core physical principles, the results of experiments, and their analysis of physical problems.
- Laboratory skills. Physics majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, and interpret their result and connect it to related areas of physics.
- Computer skills. Physics majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. They should also have an understanding of the fundamental aspects of a programming and/or computer algebra language (Fortran, C++, Mathematica, etc.).
- Problem-solving skills. Physics majors should be competent problem-solvers. They should be able to identify the essential aspects of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of physics.
- Physics majors should be adequately trained to apply their physics experience and knowledge to analyze new situations.
- All physics students (majors, minors, support, and Gen Ed students) should understand the nature of science, as assessed by questionnaires, interviews, and student focus groups.
- General Education students should understand several core concepts of physics.
- Physics Teaching majors and Elementary Teaching majors should have an appropriate knowledge of physics and a variety of teaching strategies to accommodate the multiple learning styles of their students.

Physics Teaching Major Course Requirements for BS Degree

Physics Courses Required (25 credit hours)

- PHYS 1040 PS - Elementary Astronomy **Credits: (3)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 2600 - Laboratory Safety **Credits: (1)**
- PHYS 2710 - Introductory Modern Physics **Credits: (3)**
- PHYS 3570 - Foundations of Science Education **Credits: (3)**
- PHYS 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**
- PHYS 4800 - Individual Research Problems **Credits: (1-3)** (1 credit hour required)
- PHYS 4990 - Seminar in Physics **Credits: (1)**

Physics Electives (9 credit hours)

Select nine credit hours in approved Physics classes (courses numbered 2300 and above, excluding other explicit course requirements).

Support Courses Required (11 credit hours)

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)** and
- MATH 1220 - Calculus II **Credits: (4)**

Note:

Students must also complete the Teacher Education Licensure Program.

Physics, Applied (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Not required.
- **Minor:** No minor is required. However, a math minor is automatically satisfied by taking one additional Math course (MATH 2270) beyond the Applied Physics major requirements.
- **Grade Requirements:** An overall GPA of 2.00 is required. Also refer to the general grade requirements for graduation under Degree Requirements.
- **Credit Hour Requirements:** A total of 120 semester credit hours is required for graduation; 75 to 76 of these (depending on choice of courses) are required within the Applied Physics major. Forty upper-division credit hours are required (courses numbered 3000 and above); 32 to 33 of these are required within the Applied Physics major.
- **Program Code:** 6019BS
- **CIPC:** 400801

Advisement

All Applied Physics majors are strongly encouraged to meet with the chair at least annually for course and program advisement. Call 801-626-6163 for more information or to schedule an appointment. Note that because most courses have prerequisites and some advanced courses are offered only in alternate years, careful planning is essential.

Admissions Requirements

Declare your program of study . There are no special admission or application requirements for the Applied Physics major.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Applied Physics major will satisfy general education requirements: PHYS 2210PS, CHEM 1210 PS, and MATH 1210.

Program Learning Outcomes

- Presentation skills. Physics majors should be able to express (orally and in writing) their understanding of core physical principles, the results of experiments, and their analysis of physical problems.

- Laboratory skills. Physics majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, and interpret their result and connect it to related areas of physics.
- Computer skills. Physics majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. They should also have an understanding of the fundamental aspects of a programming and/or computer algebra language (Fortran, C++, Mathematica, etc.).
- Problem-solving skills. Physics majors should be competent problem-solvers. They should be able to identify the essential aspects of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of physics.
- Physics majors should be adequately trained to apply their physics experience and knowledge to analyze new situations.
- All physics students (majors, minors, support, and Gen Ed students) should understand the nature of science, as assessed by questionnaires, interviews, and student focus groups.
- General Education students should understand several core concepts of physics.
- Physics Teaching majors and Elementary Teaching majors should have an appropriate knowledge of physics and a variety of teaching strategies to accommodate the multiple learning styles of their students.

Applied Physics Major Course Requirements for BS Degree

Physics Courses Required (35 or 36 credit hours)

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 1300 - Scientific Data Processing and Visualization **Credits: (1)**
- PHYS 2600 - Laboratory Safety **Credits: (1)**
- PHYS 2710 - Introductory Modern Physics **Credits: (3)**
- PHYS 3190 CRE - Applied Optics **Credits: (3)**
- PHYS 3310 - Scientific Computing for Physical Systems **Credits: (3)**
- PHYS 3500 - Analytical Mechanics **Credits: (3)**
- PHYS 3510 - Electromagnetic Theory **Credits: (3)**
- PHYS 3540 - Mechanical and Electromagnetic Waves **Credits: (3)**
- PHYS 4400 CRE - Advanced Physics Laboratory **Credits: (2)** or
- PHYS 4410 CRE - Materials Characterization Laboratory **Credits: (2)**
- PHYS 4800 - Individual Research Problems **Credits: (1-3)**
- PHYS 4990 - Seminar in Physics **Credits: (1)**

Electives (9 credit hours)

Select a minimum of nine additional credit hours from Physics courses numbered 3000 and above. Upper-division courses in closely related disciplines may also satisfy this requirement. In all cases, elective courses must be approved by the department chair.

Support Courses Required (32 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and

- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- MATH 1200 - Mathematics Computer Laboratory **Credits: (1)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2280 - Ordinary Differential Equations **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)** and
- MATH 3420 - Probability and Statistics II **Credits: (3)**

Minor

Physics Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 26 credit hours in Physics and support courses. Prior department approval is required.
- **Program Code:** 6018
- **CIPC:** 400801

Course Requirements for Minor

Physics Courses Required (10 credit hours)

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Elective Physics Courses (8 credit hours)

Select at least three Physics courses from the following

- PHYS 3310 - Scientific Computing for Physical Systems **Credits: (3)**
- PHYS 2710 - Introductory Modern Physics **Credits: (3)**
- PHYS 3160 - Stellar and Planetary Astrophysics **Credits: (3)**
- PHYS 3170 - Galaxies and Cosmology **Credits: (3)**
- PHYS 3180 - Thermal Physics **Credits: (3)**
- PHYS 3190 CRE - Applied Optics **Credits: (3)**
- PHYS 3320 - Advanced Computational Physics **Credits: (3)**
- PHYS 3410 - Electronics for Scientists **Credits: (4)**

- PHYS 3420 - Data Analysis, Statistics, and Instrumentation **Credits: (3)**
- PHYS 3500 - Analytical Mechanics **Credits: (3)**
- PHYS 3510 - Electromagnetic Theory **Credits: (3)**
- PHYS 3540 - Mechanical and Electromagnetic Waves **Credits: (3)**
- PHYS 4200 - The Physics of Materials **Credits: (3)**
- PHYS 4400 CRE - Advanced Physics Laboratory **Credits: (2)**
- PHYS 4410 CRE - Materials Characterization Laboratory **Credits: (2)**
- PHYS 4610 - Quantum Mechanics **Credits: (3)**

Support Courses Required (8 credit hours)

- MATH 1210 - Calculus I **Credits: (4)** and
- MATH 1220 - Calculus II **Credits: (4)**

Teaching Minor

Physics Teaching Minor

- **Grade Requirements:** A grade of C or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 25 credit hours in Physics and support courses. Prior department approval is required.
- **Program Code:** 6020
- **CIPC:** 131329

Students who select the Physics Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Course Requirements for Minor

Physics Courses Required (11 credit hours)

- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- PHYS 2600 - Laboratory Safety **Credits: (1)**

Elective Physics Courses (6 credit hours)

Select 6 credit hours in approved Physics courses (numbered 2300 and above)

Support Courses Required (11 credit hours)

- MATH 1210 - Calculus I **Credits: (4)** and
- MATH 1220 - Calculus II **Credits: (4)**
- HIST 3350 - History and Philosophy of Science **Credits: (3)**

If a student is not obtaining a Teaching Major in Physical or Life Science, the following courses are also required:

- PHYS 3570 - Foundations of Science Education **Credits: (3)**
- PHYS 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**

Department of Zoology

Department Chair: Ron Meyers

Location: Tracy Hall Science Center, Room 402

Website: www.weber.edu/zoology

Telephone Contact: Rochelle Fernandez 801-626-6165

Professors: John Cavitt, Brian Chung, Jonathan Clark, Christopher Hoagstrom, Jon Marshall, Ron Meyers, John Mull, Michele Skopec, Barbara Trask; **Associate Professors:** Rebecka Brasso, Elizabeth Sandquist; **Assistant Professor:** Ezgi Yesilyurt; **Instructor:** Brian Pilcher

Zoology is the study of animals. It includes a tremendous diversity of subdivisions and approaches. These range from using electron microscopy to study cells, to field examinations of natural populations. Some zoologists focus their studies on a specific group of animals; others specialize on problems or processes, such as those in physiology or genetics, which are common to many groups. Zoologists have made many important contributions to our understanding of the natural world. Furthermore, they benefit humankind through their work in areas such as medicine and environmental conservation.

Although our majors pursue several tracks, many are involved in pre-medical professional training. We have an excellent record of placing students in the finest medical, dental, veterinary, and physical therapy programs. The faculty strongly encourage majors to pursue guided research, particularly through the department's thesis program.

All students are urged to consult with the department early in their education. Arrangements can then be made for the student to be matched with an appropriate advisor who can offer course and career suggestions.

DNA Laboratory

The Department of Zoology maintains a DNA Laboratory on the first floor of the Science Laboratory building in the College of Science. It is a modern facility with state-of-the-art equipment for DNA isolation and analysis. The laboratory is used for student course work, faculty-supervised student research, and faculty research.

Interdisciplinary Programs

The Zoology Department participates in the interdisciplinary Neuroscience Minor and the Urban and Regional Planning Emphasis programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Bachelor of Science

Zoology (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** Zoology majors must have an average GPA of 2.00 or higher. Students are required to earn a grade of "C-" in each prerequisite course before taking the next course. Zoology majors must have a grade of "C-" or better in all courses that satisfy specific requirements for the major.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 73 of these is required within the major. A total of 40 upper division hours is required (courses number 3000 and above); a minimum of 34 is required within the major.
- **Program Code:** 6021BS
- **CIPC:** 260701

Advisement

All Zoology students should meet with a faculty advisor at least annually for course and program advisement. The department secretary can also assist students. Call 801-626-6165 for more information or to schedule an appointment. (Also, refer to the Department Advisor Referral List.)

Admissions Requirements

Declare your program of study (Enrollment Services and Information). No special admission or application requirements are needed for the Zoology BS.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Zoology BS will satisfy general education requirements: CHEM 1210, MATH 1040, MATH 1050, MATH 1080, PHYS 1010, PHYS 2010, PHYS 2210, ZOOL 1610 . The following courses that are electives for the Zoology BS will also satisfy general education requirement: BTNY 1203, BTNY 2303, MICR 2054, ZOOL 2420. Students are encouraged to take general education courses concurrently with required and elective courses in the major.

Program Learning Outcomes

- **The Process of Science:** Students will use observational strategies to test hypotheses and critically evaluate experimental evidence.
- **Quantitative Reasoning:** Students will represent diverse experimental data sets graphically and apply statistical methods to them.
- **Communication:** Students will explain scientific concepts to different audiences and work collaboratively to explore biological problems.
- **Science and Society:** Students will develop biological applications to evaluate and address societal problems.
- **Evolution:** The diversity of life is the result of mutation, adaptation, and selection pressure over time.
- **Cellular Organization:** All living things consist of one or more cells, the units of structure, function, and reproduction.
- **Genetics:** All living things share basic genetic mechanisms, which are responsible for the organization and continuity of life.
- **Ecosystems:** All organisms are interconnected, interacting with each other as well as with their dynamic environment.
- **Structure and Function:** There is a relationship between molecular and organismal structure and function.
- **System Regulation:** Biological systems are governed by chemical transformations and homeostasis.

Major Course Requirements for Zoology BS Degree

Required Zoology Courses

- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3600 - Comparative Physiology **Credits: (4)**
- ZOOL 3720 - Evolution **Credits: (3)**
- ZOOL 4990 - Seminar **Credits: (1)**

Upper-division Zoology Electives

Select a minimum of 4 courses from the following.

- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3820 - Biology of Cancer **Credits: (3)**
- ZOOL 3930 - Toxicology **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4350 - Animal Behavior **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**
- ZOOL 4700 - Topics in Zoology **Credits: (1-4)** 3 or 4 credits required

Experience in Zoology

Select a minimum of 2 credit hours from the following or select an additional 5th course from Upper Division Zoology electives listed above. Note: The two credit hours can be taken in the same or separate semesters.

- ZOOL 3099 - Teaching the Human Anatomy Laboratory **Credits: (3)**
- ZOOL 3100 - Advanced Human Anatomy **Credits: (3)**
- ZOOL 4800 - Research in Zoology **Credits: (1-4)**
- ZOOL 4820 - Human Physiology Laboratory Teaching Assistant **Credits: (1)**

- ZOOL 4830 - Readings in Zoology **Credits: (1-4)**
- ZOOL 4850 - Projects in Zoology **Credits: (1-4)**
- ZOOL 4890 INT - Cooperative Work Experience **Credits: (1-4)**
- ZOOL 4950 - Field Zoology **Credits: (1-3)**
- ZOOL 4960 - Techniques in Field Ornithology **Credits: (3)**
- ZOOL 4970 - Thesis **Credits: (2)**

Required Chemistry Courses

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** *with*
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** *with*
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Required Math Courses

Select a minimum of 1 course from the following.

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1060 QL - Trigonometry **Credits: (3)**

Required Statistics Courses

Select a minimum of 1 course from the following. Courses taken with separate labs count as 1 course.

- MATH 3410 - Probability and Statistics I **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)**
- PSY 3600 - Statistics in Psychology **Credits: (3)**

Required Physics Courses

Select a minimum of 1 course from the following.

- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**

Elective Support Courses

Select a minimum 4 courses from the following including at least 1 course in BTNY or MICR. Courses taken with separate labs count as 1 course.

Botany

- BTNY 1203 LS - Plant Biology **Credits: (3)**

- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 2303 - Ethnobotany **Credits: (3)**
- BTNY 3105 - Anatomy of Vascular Plants **Credits: (4)**
- BTNY 3204 - Plant Physiology **Credits: (4)**
- BTNY 3214 - Soils **Credits: (4)**
- BTNY 3454 - Plant Ecology **Credits: (4)**
- BTNY 3504 - Mycology **Credits: (4)**
- BTNY 3514 - Algology **Credits: (4)**
- BTNY 3523 - Marine Biology **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**
- BTNY 4113 - Plant Evolution **Credits: (3)**

Chemistry

- CHEM 2310 - Organic Chemistry I **Credits: (4)** *with*
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)** *with*
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)**

Earth and Environmental Sciences

- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEO 3840 - Remote Sensing: Principles and Methods **Credits: (4)**

Mathematics

- MATH 3450 - Advanced Statistical Methods **Credits: (4)**

Microbiology

- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3053 - Microbiological Procedures **Credits: (3)**
- MICR 3203 - The Immune System in Health & Disease **Credits: (3)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 3853 - Food Microbiology **Credits: (3)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- MICR 4554 - Virology **Credits: (4)**

Neuroscience

- NEUR 2950 - Introduction to Neuroscience **Credits: (3)**

Physics

- PHYS 2020 - College Physics II **Credits: (5)**
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**

Zoology

- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Special Emphases

Pre-Medical Professional Training

Students considering application to medical, dental, veterinary, physical therapy, optometry, and pharmacy schools should consult the beginning of the College of Science section of this catalog. Furthermore, they should meet with the advisors of these programs, each of whom is listed in that section. The Department of Zoology offers lower and upper level courses that provide superb training for examinations such as the Medical College Admissions Test, as well as medical school courses. Students should meet with the appropriate advisor for specific course suggestions.

Ecological/Environmental Training

Students interested in ecologically or environmentally oriented careers should follow the Zoology major and select courses to fill their elective requirements from the following:

Zoology Course Electives

- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**

Support Course Electives in Botany

- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**

Note:

Students desiring employment as a conservation officer should minor in Criminal Justice with a Law Enforcement concentration (see Department of Criminal Justice section of the catalog). Students desiring a career as a wildlife biologist or wildlife manager, or intending to pursue advanced studies in ecology or conservation biology following

graduation (MS or PhD degrees), should minor in Botany. (Consult with the department secretary at 801-626- 6165 for information about the advisor of this program.)

Emphasis Option for Bachelor of Interdisciplinary Studies

Zoology (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C -" or better in courses used toward the Zoology Emphasis in BIS.
- **Credit Hour Requirements:** A minimum of 18 credit hours in Zoology courses.
- **Program Code:** 6021
- **CIPC:** 260701

Advisement

Students must have their Zoology BIS Emphasis contract approved by the departmental advisor and the BIS program coordinator. Call 801-626-6165 for the departmental advisor's contact information. (Also refer to the Departmental Advisor Referral List.)

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for BIS Emphasis

Zoology Courses Required (11 credit hours)

- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 3720 - Evolution **Credits: (3)**

Zoology BIS Emphasis Electives (7 credit hours)

Select 7 credit hours of approved upper division Zoology courses (numbered 3000 and above).

Note:

ZOOL 2320 – Human Anatomy Credits: (4) and ZOOL 2420 – Human Physiology Credits: (4) may be used at half credit (2 credit hours per each) to fulfill elective credit hours in the Zoology BIS Emphasis.

Minor

Zoology Minor

- **Grade Requirements:** A grade of "C-" or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 19 credit hours in Zoology courses.
- **Program Code:** 6021
- **CIPC:** 260701

Course Requirements for Minor

Zoology Courses Required (11 Credit Hours)

- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 3720 - Evolution **Credits: (3)**

Zoology Minor Elective Courses (8 credit hours)

Select 8 credit hours of Zoology courses at or above the 2000 level.

- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3099 - Teaching the Human Anatomy Laboratory **Credits: (3)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3340 - Information Resources in the Life Sciences **Credits: (2)**
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 3600 - Comparative Physiology **Credits: (4)**
- ZOOL 3820 - Biology of Cancer **Credits: (3)**
- ZOOL 3930 - Toxicology **Credits: (3)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4210 - Advanced Human Physiology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4350 - Animal Behavior **Credits: (4)**
- ZOOL 4470 - Wildlife Ecology and Management **Credits: (4)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**

- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4650 - Ichthyology **Credits: (4)**
- ZOOL 4660 - Herpetology **Credits: (4)**
- ZOOL 4670 - Ornithology **Credits: (4)**
- ZOOL 4680 - Mammalogy **Credits: (4)**
- ZOOL 4700 - Topics in Zoology **Credits: (1-4)**
- ZOOL 4950 - Field Zoology **Credits: (1-3)**
- ZOOL 4990 - Seminar **Credits: (1)**

Maximum 2 credit hours from the following courses:

- ZOOL 4800 - Research in Zoology **Credits: (1-4)**
- ZOOL 4820 - Human Physiology Laboratory Teaching Assistant **Credits: (1)**
- ZOOL 4830 - Readings in Zoology **Credits: (1-4)**
- ZOOL 4850 - Projects in Zoology **Credits: (1-4)**
- ZOOL 4890 INT - Cooperative Work Experience **Credits: (1-4)**

College of Science Interdisciplinary Programs

Associate of Science

Biology (AS)

Location: College of Science (Department of Botany, Department of Microbiology, and Department of Zoology)

Telephone: Botany (801) 626-6174; Microbiology (801) 626-6949; Zoology (801) 626-6165

Grade Requirements: Cumulative GPA of 2.00 or higher for all WSU work. No more than 20 credit hours of "D" grade may be applied toward graduation.

Credit Hour Requirements: Total of 61 credit hours are required.

- **Program Code:** 6038AS
- **CIPC:** 26.0101

Advisement

Students should meet with the advisor listed below for advisement on Biology A.S. courses:

Advisor: Monica Lindford

Office: TY 201A (College of Science Advising Center)

Phone: 801-626-6578

To schedule an appointment: cosadvising.youcanbook.me or "My Success Network" in Starfish (see College of Science Academic Advisement)

General Education

Students who plan to complete a B.S. in Botany, Microbiology, or Zoology or who are fulfilling pre-professional requirements should meet with the relevant program advisor or the College of Science advisor for guidance selecting

CHEM, MATH, and electives. Refer to Degree Requirements for Associate of Science requirements. The following courses required for the Biology AS program will satisfy the quantitative core and life sciences portion of the general education requirements:

Students should complete the AS program in two years.

Program Learning Outcomes

- Students can articulate the fundamental similarities of life on earth.
- Students learn and practice fundamental lab skills in biology and chemistry.
- Students demonstrate how scientific knowledge is derived, reviewed, and communicated.
- Nature of Science. Scientific knowledge is based on evidence that is repeatedly examined, and can change with new information. Scientific explanations differ fundamentally from those that are not scientific.
- Integration of Science. All natural phenomena are interrelated and share basic organizational principles. Scientific explanations obtained from different disciplines should be cohesive and integrated.
- Science and Society. The study of science provides explanations that have significant impact on society, including technological advancements, improvement of human life, and better understanding of human and other influences on the earth's environment.
- Problem Solving & Data Analysis. Science relies on empirical data, and such data must be analyzed, interpreted, and generalized in a rigorous manner.
- Levels of Organization. All life shares an organization that is based on molecules and cells and extends to organisms and ecosystems
- Metabolism and homeostasis: Living things obtain and use energy, and maintain homeostasis via organized chemical reactions known as metabolism
- Genetics and evolution: Shared genetic processes and evolution by natural selection are universal features of all life
- Ecological interactions: All organisms, including humans, interact with their environment and other living organisms.

Requirements for AS Degree (61-63 credit hours)

Required Courses (26-28 credit hours)

One of the following Laboratory Safety Courses:

- BTNY 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)** or
- GEO 2600 - Laboratory Safety **Credits: (1)** or
- MICR 2600 - Laboratory Safety **Credits: (1)** or
- PHYS 2600 - Laboratory Safety **Credits: (1)**

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)**
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)**
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**

Additional General Education Requirements (22 credit hours)

Composition

Earn a "C" grade or better:

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**

American Institutions

Select 1 of the following options and earn a "C" grade or better:

- POLS 1100 AI - American National Government **Credits: (3)**
- HIST 1700 AI - American History **Credits: (3)**
- ECON 1740 AI - Economic History of the United States **Credits: (3)**

Social Sciences

Select 6 credits and earn a passing grade:

- ANTH 1000 SS/CC - Introduction to Anthropology **Credits: (3)**
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)**
- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3)**
- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- ECON 1100 SS - Environmental Issues and Economic Policy **Credits: (3)**
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- GERT 1010 SS - Introduction to Gerontology **Credits: (3)**
- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- MIS 1100 SS - The Digital Society **Credits: (3)**
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)**
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- WGS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**

Humanities & Creative Arts

Select 9 credits (with at least 3 credits from Humanities and at least 3 credits from Creative Arts) and earn a passing grade:

Humanities

- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3520 HU - Literature of the Natural World **Credits: (3)**
- PHIL 1000 HU/CC - Introduction to Philosophy **Credits: (3)**
- PHIL 2050 HU - Practical Ethics **Credits: (3)**
- PHIL 1250 HU - Critical Thinking **Credits: (3)**

Creative Arts

- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- CS 1010 CA - Introduction to Interactive Entertainment **Credits: (3)**
- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- ENGL 2270 CA/CC - CW: Introduction to Writing Poetry **Credits: (3)**
- MUSC 1040 CA - Music of World Cultures **Credits: (3)**
- THEA 1053 - Introduction to Technical Production **Credits: (3)**

Information Literacy

Complete an exam or course option (see table below) and earn a "C" grade or better for a course or a passing exam score:

- LIBS 1704 - Information Navigator **Credits: (1)**
- LIBS 2604 - Information Resources in Education **Credits: (1)**
- LIBS 2904 - Information Resources in the Health Professions **Credits: (1)**

Electives

Choose 13 or more credit hours from the following:

- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 2121 - Career Planning for Botanists **Credits: (1)**
- BTNY 2303 - Ethnobotany **Credits: (3)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- CHEM 1200 - Preparation for College Chemistry **Credits: (3)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)** and
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- ENGL 1010 EN1 - Introductory College Writing **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** or
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**

- MATH 1010 - Intermediate Algebra **Credits: (4-5)**
- MATH 1050 QL - College Algebra **Credits: (4)** (if not taken as required MATH course)
- MATH 1060 QL - Trigonometry **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**

Elective courses requiring advisor approval (career goals determine selection):

- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**

WSU courses are new interdisciplinary, variable credit (3-5), team taught, and limited enrollment courses that satisfy requirements in two General Education areas (Core or Breadth). Must earn a passing grade.*

Students may take as many WSU Courses as they wish, but only the non-overlapping General Education attributes from subsequent WSU Courses will count toward General Education requirements.

Counts toward these two General Education areas:

- WSU 1450 CA/HU - Perspectives in Creative Arts and Humanities **Credits: (3-5)**
- WSU 1560 SS/HU - Perspectives in Social Science and Humanities **Credits: (3-5)**

Bachelor of Science

Biology Composite Teaching (BS)

- **Program Prerequisite:** Must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** This major requires 120-124 credit hours. The student must also complete requirements for a secondary education license as determined by the Jerry and Vicki Moyes College of Education.
- **Program Code:** 6008BS
- **CIPC:** 131322

Advisement

Teaching majors are encouraged to consult with advisors in both the College of Science (call 801-626-6160) and the College of Education (call 801-626-6269).

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Biology Composite Teaching majors must satisfy Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Biology Composite Teaching major also will satisfy general education requirements: MICR 2054, GEO 1110, CHEM 1110 or CHEM 1210, PHYS 1010, CHF 1500, COMM 1020, and MATH 1050.

Program Learning Outcomes

- The Process of Science: Students will use observational strategies to test hypotheses and critically evaluate experimental evidence.
- Quantitative Reasoning: Students will represent diverse experimental data sets graphically and apply statistical methods to them.
- Communication: Students will explain scientific concepts to different audiences and work collaboratively to explore biological problems.
- Science and Society: Students will develop biological applications to evaluate and address societal problems.
- Evolution: The diversity of life is the result of mutation, adaptation, and selection pressure over time.
- Cellular Organization: All living things consist of one or more cells, the units of structure, function, and reproduction.
- Genetics: All living things share basic genetic mechanisms, which are responsible for the organization and continuity of life.
- Ecosystems: All organisms are interconnected, interacting with each other as well as with their dynamic environment.
- Structure and Function: There is a relationship between molecular and organismal structure and function.
- System Regulation: Biological systems are governed by chemical transformations and homeostasis.

Major Course Requirements for BS Degree

Biological Science Courses Required (46 credit hours)

- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)** or
- ZOOL 3600 - Comparative Physiology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3720 - Evolution **Credits: (3)** or
- BTNY 4113 - Plant Evolution **Credits: (3)**
- BTNY 3454 - Plant Ecology **Credits: (4)** or
- ZOOL 3450 CRE - Ecology **Credits: (4)** or
- MICR 3154 - Microbial Ecology **Credits: (4)**

- BTNY 2600 - Laboratory Safety **Credits: (1)** or
- MICR 2600 - Laboratory Safety **Credits: (1)** or
- BTNY 3000+ - Electives **(3)** or
- ZOOL 3000+ - Electives **(3)** or
- MICR 3000+ - Electives **(3)**
- BTNY 3570 - Foundations of Science Education **Credits: (3)** or
- MICR 3570 - Foundations of Science Education **Credits: (3)** or
- ZOOL 3570 - Foundations of Science Education **Credits: (3)**
- ZOOL 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)** or
- BTNY 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)** or
- MICR 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**
- BTNY 4800 - Individual Research **Credits: (2)** or
- MICR 4800 - Directed Research **Credits: (1-2)** or
- ZOOL 4800 - Research in Zoology **Credits: (1-4)**

Support Courses Required (23-25 credit hours)

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)**
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)**
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**
- OR**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)** or
- PHYS 2010 PS - College Physics I **Credits: (5)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)**
- HIST 3350 - History and Philosophy of Science **Credits: (3)**

Note:

It is recommended that more advanced courses in Mathematics, Physics and Chemistry be taken, especially if graduate studies are planned. These should be discussed in advance with the advisor.

Environmental Science (BS)

- **Program Prerequisite:** Not required.

- **Minor:** Though not required, students may benefit from completing a minor, especially one focused on developing workforce skills such as communication, data analytics, geospatial studies, or professional and technical writing. Students should consult with an advisor prior to adding a minor to their program of study.
- **Grade Requirements:** A grade of "C-" or better in courses required for the major (a grade of "D+" is not acceptable). A 2.00 institutional GPA is required by the university for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 58 credit hours in Environmental Science courses are required. Including the required support courses, 78-79 credit hours are required within the major. A total of 40 upper-division credit hours (courses numbered 3000 and above from any department) is required by the university for graduation.
- **Website:** <http://weber.edu/enviroscience>
- **Program Code:** 6066BS
- **CIP:** 030104

Advisement

All Environmental Science majors should meet with a faculty advisor at least annually for course and program advisement. New majors are strongly encouraged to meet with an advisor. Email enviroscience@weber.edu or call 801-626-6160 for more information or to schedule an appointment.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Enrollment Services and Information) with the program administrative specialist. Email enviroscience@weber.edu or call 801-626-6160. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The Quantitative Literacy (QL) requirement will be fulfilled by degree requirements (MATH 1050 QL or MATH 1080 QL or MATH 1210). The natural science breadth requirement (LS/PS) will be fulfilled by degree requirements. The required support course ECON 1100 SS will count towards the social science (SS) breadth requirement.

Program Learning Outcomes

- Demonstrate an interdisciplinary approach to complex problems using the basic tools from geoscience, biology, chemistry, mathematics, economics and social science.
- Be able to develop and test hypotheses through collecting data in the field and/or analyzing samples in the laboratory, including qualitative and quantitative analyses.
- Understand the human and natural environment in the Intermountain West in the context of the varying timescales at which Earth systems operate.
- Be able to work effectively as a member of a team and independently.
- Be able to effectively communicate complex problems, approaches, and solutions to both specialists and general audiences in written and oral formats.
- Demonstrate an understanding of interconnected Earth and human systems to reflect critically on their roles in the protection and management of our environment and climate.

Environmental Science Core Courses (59.5-60.5 credit hours)

- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)** or
- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1040 QL - Introduction to Statistics **Credits: (3)** or
- MATH 3410 - Probability and Statistics I **Credits: (3)** or
- SOC 3600 - Social Statistics **Credits: (3)** or
- PSY 3600 - Statistics in Psychology **Credits: (3)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- BTNY 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)** or
- GEO 2600 - Laboratory Safety **Credits: (1)** or
- MICR 2600 - Laboratory Safety **Credits: (1)** or
- PHYS 2600 - Laboratory Safety **Credits: (1)**
- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)** (4 hr course is required)
- ECON 1100 SS - Environmental Issues and Economic Policy **Credits: (3)**
- GEO 1060 PS - Environmental Geosciences **Credits: (3)** or
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- PHYS 2090 PS SUS - Energy and the Environment **Credits: (3)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- GEO 3010 SUS - Oceans and Climate **Credits: (3)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- CHEM 3510 - Environmental Chemistry **Credits: (4)**
- Either***
- BTNY 2104 - Plant Form and Function **Credits: (4)** and
- BTNY 3454 - Plant Ecology **Credits: (4)**
- or***
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)** and
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- GEO 4990 - Earth Science and Society Seminar **Credits: (2)**
- ENVS 4999 - Environmental Science ePortfolio **Credits: (.5)**

Environmental Science Electives (22 credit hours minimum)

Select 22 additional Environmental Science elective credits, in consultation with your advisor, with at least 3 credits from each elective category. The remaining 10 credits minimum will come from the elective pool. Some upper-division electives may have prerequisites not listed as an environmental science core or elective course. Those courses are marked with an asterisk (*) and students should consult with an academic advisor before adding them to their program of study.

Elective Category 1 - Natural Resources, Biodiversity, & Environmental Health

- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- BTNY 3420 - Wildland Fire Ecology **Credits: (3)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- MICR 3154 - Microbial Ecology **Credits: (4)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 4054 - Microbial Physiology **Credits: (4) ***
- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**
- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4700 - Topics in Zoology **Credits: (1-4) *** (must be taken as Animal Toxicology)

Elective Category 2 - Earth Systems & Water Science

- BTNY 3214 - Soils **Credits: (4)**
- GEO 3214 - Soils **Credits: (4)**
- GEO 3080 - Applied Hydrology **Credits: (3)**
- GEO 3150 - Geomorphology **Credits: (4)**
- GEO 3210 SUS - Paleoclimate **Credits: (3)**
- GEO 3753 - Geomicrobiology **Credits: (3)**
- MICR 3753 - Geomicrobiology **Credits: (3)**
- GEO 4560 - Environmental Geochemistry **Credits: (4)**
- CHEM 4560 - Environmental Geochemistry **Credits: (4)**
- GEOG 3050 - Weather and Climate: from daily storms to decades of drought **Credits: (3)**
- GEOG 3080 - Arid Lands: Resources, Landforms, and the Quest for Water **Credits: (3)**
- GEOG 3090 - Arctic and Alpine Environments **Credits: (3)**

Elective Category 3 - Laboratory, Data Analysis, & Workforce Skills

Choose one course of at least 3 credits.

- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**

- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- GEO 3840 - Remote Sensing: Principles and Methods **Credits: (4)**
- GEO 4200 - Geospatial Data Acquisition **Credits: (4)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**
- MATH 4400 - Statistical Learning **Credits: (3)**
- MATH 4910 - Senior Research Project **Credits: (3)**
- BTNY 4800 - Individual Research **Credits: (2)** or
- CHEM 4800 - Research and Independent Study in Chemistry **Credits: (1-3)** or
- GEO 4800 CRE - Independent Research **Credits: (1-3)** or
- MICR 4800 - Directed Research **Credits: (1-2)** or
- PHYS 4800 - Individual Research Problems **Credits: (1-3)** or
- ZOOL 4800 - Research in Zoology **Credits: (1-4)**
- ENVS 4890 - Environmental Science Internship **Credits: (1-6)**

Elective Category 4 - Sustainability

- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions **Credits: (3)**
- GEOG 3210 - Urban Geography: The How and Why of Cities **Credits: (3)**
- GEOG 4400 - Cartography and Map Design **Credits: (3)**
- GEOG 4410 SUS - Sustainable Land Use Planning **Credits: (3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**
- SOC 3300 SUS - Environment and Society **Credits: (3)**

Elective Pool

10 credits should come from the elective pool. Some upper-division electives may have prerequisites not listed as an environmental science core or elective course. Those courses are marked with an asterisk (*) and students should consult with an academic advisor before adding them to their program of study.

- BTNY 3214 - Soils **Credits: (4)** or
- GEO 3214 - Soils **Credits: (4)**
- BTNY 3473 - Plant Geography **Credits: (3)**
- BTNY 3624 - Taxonomy of Vascular Plants **Credits: (4)**
- BTNY 3643 - Intermountain Flora **Credits: (3)**
- BTNY 4950 - Advanced Field Botany **Credits: (3)**
- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
- MICR 3154 - Microbial Ecology **Credits: (4)**
- MICR 3403 GLB - Tropical Diseases **Credits: (3)**
- MICR 3484 - Environmental Microbiology **Credits: (4)**
- MICR 4054 - Microbial Physiology **Credits: (4)**
- ZOOL 3470 - Zoogeography **Credits: (3)**
- ZOOL 3500 - Conservation Biology **Credits: (3)**
- ZOOL 4480 - Freshwater Ecology **Credits: (4)**

- ZOOL 4490 - Marine Ecology **Credits: (4)**
- ZOOL 4640 - Entomology **Credits: (4)**
- ZOOL 4700 - Topics in Zoology **Credits: (1-4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**
- MATH 4400 - Statistical Learning **Credits: (3)**
- MATH 4910 - Senior Research Project **Credits: (3)**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**
- CHEM 3050 - Instrumental Analysis **Credits: (4)**
- CHEM 3070 - Biochemistry I **Credits: (3)** and
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- CHEM 3610 - Foundations in Inorganic Chemistry **Credits: (4)**
- GEO 3080 - Applied Hydrology **Credits: (3)**
- GEO 3150 - Geomorphology **Credits: (4)**
- GEO 3210 SUS - Paleoclimate **Credits: (3)**
- GEO 3720 - Geospatial Analysis **Credits: (4)**
- GEO 3753 - Geomicrobiology **Credits: (3)** or
- MICR 3753 - Geomicrobiology **Credits: (3)**
- GEO 3840 - Remote Sensing: Principles and Methods **Credits: (4)**
- GEO 4080 - Groundwater and Environmental Assessment **Credits: (4)**
- GEO 4200 - Geospatial Data Acquisition **Credits: (4)**
- GEO 4560 - Environmental Geochemistry **Credits: (4)** or
- CHEM 4560 - Environmental Geochemistry **Credits: (4)**
- GEOG 3050 - Weather and Climate: from daily storms to decades of drought **Credits: (3)** or
- GEOG 3080 - Arid Lands: Resources, Landforms, and the Quest for Water **Credits: (3)** or
- GEOG 3090 - Arctic and Alpine Environments **Credits: (3)**
- BTNY 4800 - Individual Research **Credits: (2)** or
- CHEM 4800 - Research and Independent Study in Chemistry **Credits: (1-3)** or
- GEO 4800 CRE - Independent Research **Credits: (1-3)** or
- MICR 4800 - Directed Research **Credits: (1-2)** or
- PHYS 4800 - Individual Research Problems **Credits: (1-3)** or
- ZOOL 4800 - Research in Zoology **Credits: (1-4)**
- ENVS 4890 - Environmental Science Internship **Credits: (1-6)**

Physical Science Composite Teaching (BS)

- **Program Prerequisite:** Composite Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Not required.

- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation on Degree Requirements.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation; a minimum of 69 of these is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 13 of these is required within the major.
- **Program Code:** 6009BS
- **CIPC:** 131399

Advisement

Teaching majors are encouraged to consult with advisors in both the College of Science (call 801-626-6160) and the College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.) Students in this program should work closely with their advisor to ensure their teaching endorsements in multiple subject areas within physical science.

Admission Requirements

Declare your program of study . Physical Science Composite Teaching majors must satisfy Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for this major will satisfy physical science general education requirements: CHEM 1210, GEO 1110 and PHYS 2210.

Program Learning Outcomes

- **Presentation skills.** Physics majors should be able to express (orally and in writing) their understanding of core physical principles, the results of experiments, and their analysis of physical problems.
- **Laboratory skills.** Physics majors should be competent experimentalists. They should be able to design and set up an experiment, collect and analyze data, identify sources of error, and interpret their result and connect it to related areas of physics.
- **Computer skills.** Physics majors should be competent users of basic software, such as word processing, spreadsheet, and graphing programs. They should also have an understanding of the fundamental aspects of a programming and/or computer algebra language (Fortran, C++, Mathematica, etc.).
- **Problem-solving skills.** Physics majors should be competent problem-solvers. They should be able to identify the essential aspects of a problem and formulate a strategy for solving the problem. They should be able to estimate the solution to a problem, apply appropriate techniques to arrive at a solution, test the correctness of their solution, interpret their result and connect it to related areas of physics.
- **Physics majors should be adequately trained to apply their physics experience and knowledge to analyze new situations.**
- **All physics students (majors, minors, support, and Gen Ed students) should understand the nature of science, as assessed by questionnaires, interviews, and student focus groups.**
- **General Education students should understand several core concepts of physics.**
- **Physics Teaching majors and Elementary Teaching majors should have an appropriate knowledge of physics and a variety of teaching strategies to accommodate the multiple learning styles of their students.**

Major Course Requirements for BS Degree

Required Courses (minimum of 69 credit hours)

Physics Courses (19 credit hours)

- PHYS 1040 PS - Elementary Astronomy **Credits: (3)**
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)** and
- PHYS 2220 - Physics for Scientists and Engineers II **Credits: (5)**
- Physics electives PHYS 3310 and above **(6)**

Geology Courses (17 credit hours)

- GEO 1060 PS - Environmental Geosciences **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- GEO 1130 PS - Introduction to Meteorology **Credits: (3)**
- GEO 1220 - Historical Geology **Credits: (4)**
- GEO 3010 SUS - Oceans and Climate **Credits: (3)** or
- GEO 3210 SUS - Paleoclimate **Credits: (3)**

Chemistry Courses (14-15 credit hours)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- **or**
- CHEM 3000 - Quantitative Analysis **Credits: (4)**

General Science Courses (8 credit hours)

- PHYS 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)** or
- GEO 2600 - Laboratory Safety **Credits: (1)**
- PHYS 3570 - Foundations of Science Education **Credits: (3)** or
- CHEM 3570 - Foundations of Science Education **Credits: (3)** or
- GEO 3570 - Foundations of Science Education **Credits: (3)**
- PHYS 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)** or
- CHEM 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)** or
- GEO 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**

- PHYS 4800 - Individual Research Problems **Credits: (1-3)** (1 credit hour required) or
- CHEM 4800 - Research and Independent Study in Chemistry **Credits: (1-3)** (1 credit hour required) or
- GEO 4800 CRE - Independent Research **Credits: (1-3)** (1 credit hour required)

Science Support Courses (11 credit hours)

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)** and
- MATH 1220 - Calculus II **Credits: (4)**

Note:

Students must also complete the Teacher Education Licensure Program.

Teaching Minor

Biology Teaching Minor

This minor replaces and is a consolidation of the Botany and Zoology Teaching Minors.

- **Grade Requirements:** A grade of "C-" or better in courses used towards the minor.
- **Credit Hour Requirements:** A minimum of 47 credit hours. Students who select the Biology Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Program Code:** 6002
- **CIPC:** 131322

Course Requirements for Biology Teaching Minor

Science Courses Required (39 credit hours)

- ZOOL 2220 - Diversity of Animals **Credits: (4)**
- BTNY 2104 - Plant Form and Function **Credits: (4)**
- BTNY 2114 - Evolutionary Survey of Plants **Credits: (4)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3600 - Comparative Physiology **Credits: (4)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- MICR 3154 - Microbial Ecology **Credits: (4)** or
- BTNY 3454 - Plant Ecology **Credits: (4)** or
- ZOOL 3450 CRE - Ecology **Credits: (4)**
- BTNY 3570 - Foundations of Science Education **Credits: (3)** or

- MICR 3570 - Foundations of Science Education **Credits: (3)** or
- ZOOL 3570 - Foundations of Science Education **Credits: (3)**
- BTNY 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)** or
- MICR 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)** or
- ZOOL 4570 CEL - Secondary School Science Teaching Methods **Credits: (3)**
- BTNY 2600 - Laboratory Safety **Credits: (1)** or
- MICR 2600 - Laboratory Safety **Credits: (1)**

Required Support Courses (8 credit hours)

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
OR
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

College of Social Sciences & Education

Dr. Julie Rich, Dean

The College of Social Sciences and Education is dedicated to studying behavior and thought in their individual, social, cultural, physical, and historical contexts, and to the beneficial application of this knowledge. The College prepares students for productive careers and engaged citizenship through general education instruction, and major, minor and interdisciplinary programs which emphasize critical and scientific thinking. Through teaching, scholarship, and service, the College's faculty aims to enhance social justice, environmental awareness, and the quality of life in northern Utah and beyond.

Dean: Dr. Julie Rich

Associate Dean: Dr. Brent Horn

Telephone Contact: Tracy Hicks 801-626-6232

Location: Lindquist Hall, Room 161

College Advisors: Nicholas Ferre, Christy Cottrell, Genesis Vasques Rivas, Victor Blocher

Telephone: 801-626-7809

Locations: Lindquist Hall, Rooms 107A, 107B, 151, 157

Department Chairs/Directors

Child & Family Studies: Dr. Ryan Dunn 385-244-0141

Criminal Justice: Dr. Molly Sween 801-626-7293

Geography, Environment and Sustainability: Dr. Eric Ewert 801-626-6197

Graduate Studies in Education: Dr. Wei Qiu 801-626-7386

History: Dr. Matthew Romaniello 801-626-6699

Political Science & Philosophy: Dr. Mary Beth Willard 801-626-6694

Post-Baccalaureate Certificate in Teaching: Dr. Sheryl Rushton

Psychological Science: Dr. Shannon McGillvray 801-626-8743

Military Science: Lieutenant Colonel Benjamin Gillespie

801-626-6938

Social Science Education Center

Director: Dr. Stephen Francis

Location: Lindquist Hall, Room 273

Telephone: 801-626-6781

The Social Science Education Center was initiated and organized in 1990 to promote, coordinate, and encourage social science education. The faculty of the College of Social & Behavioral Sciences, the College of Education, public and private schools and their respective districts collaborate in programs and activities designed to improve and enhance the teaching of the Social Sciences. This includes seminars for social science teachers in the area and presentations by Weber State University professors.

The Olene S. Walker Institute of Politics and Public Service

Directors: Leah Murray

Location: Lindquist Hall, Room 167

Telephone: 801-626-6252

Email: walkerinstitute@weber.edu

The non-partisan Walker Institute is committed to upholding the highest standards of American democracy and providing a visible and vibrant hub of political engagement for the Weber State University community. Through forums, workshops, seminars, symposiums and panel discussions, the Walker Institute strives to bring a better understanding of the political process to students and community members. The Walker Institute is dedicated to the training of future leaders by inspiring students to embrace public service and engaging them in internship opportunities at the local, state and national levels.

The Richard Richards Institute for Ethics

Director: Dr. Richard Greene

Location: Lindquist Hall, Room 132

Telephone: 801-626-6694

The Richard Richards Institute for Ethics was established in 2007 in order to promote ethical leadership in both private industry and government. It works to do so via outreach and education by offering scholarship opportunities to high school and college students, hosting workshops and ethics related activities for community members, and by acknowledging and honoring those leaders of our community who exemplify the highest ethical ideals and standards.

Aerospace Studies (Air Force ROTC)

Weber State provides a program in Aerospace Studies (Air Force) through an inter-campus agreement with the University of Utah. Students may minor in Aerospace Studies by satisfying requirements identified.

Chair: Lt Col Angelique P. Brown (SLC)

Location: Building 4, Room 421J

Telephone Contact: 801-626-7649 or 801-581-6236

Professor: Lt Col Michael Eliason

Assistant Professor: Capt Daniel Luczak

The Department of Aerospace Studies offers two, three, and four-year programs through the Air Force Reserve Officer Training Corps (AFROTC). These provide matriculated students an opportunity to earn commissions as officers in the U.S. Air Force in conjunction with completing bachelor's degree requirements in academic fields of the students' choice. AFROTC provides education that develops abilities and attitudes vital to the career of a professional Air Force officer and gives an understanding of the mission and the global responsibilities of the U.S. Air Force.

The Department of Aerospace Studies offers academic preparation in interdisciplinary areas including communication skills, Air Force history, leadership and management principles and practices, decision-making theory and policy formulation, ethics and values, socialization process within the armed services, national and international relations, national defense structure, national security policy, and military law. Entry into the General Military Course (GMC) during the first two years of AFROTC is open to all students. Entry into the Professional Officer Course (POC) during the final two years is selective and is normally initiated during the student's sophomore year. Potential candidate should contact the faculty for the most current information.

Undergraduate Program

General Requirements. Enrollment is open to men and women who:

1. Are U.S. citizens or applicants for naturalization. (Non-U.S. citizens may participate in the General Military Course for academic credit only.)
2. Are at least 14 years of age.
3. Are enrolled as full-time students in a program leading to an academic degree (bachelor's degree or higher).

Additional qualifications for admittance to the Professional Officer Course include:

4. Complete 1 through 3, above, plus the following:
 - The General Military Course (four-year program) and a four-week field training course, or a six-week field training course (two-year program).
5. Complete all commissioning requirements prior to the following:
 - Age 29 if a pilot or navigator candidate, or
 - Age 35 for all other categories. Waivers to extend the maximum age may be granted on a case-by-case basis.
6. Meet the physical standards for general military service.
7. Attain the current minimum scores on the Air Force Officer Qualifying Test.
8. Have a recommendation from a board of Air Force officers.
9. Are at least 17 years old and enlist in the Air Force Reserve prior to entering the POC.

Commissioning Requirements. The requirements for commissioning include successful completion of the Professional Officer Course and field training, completion of a bachelor's or higher degree, and acceptance of a commission in the U.S. Air Force.

Service Obligation. There is no military service commitment for students in the General Military Course unless the student has an AFROTC scholarship. Those entering the Professional Officer Course incur an active-duty service commitment of not less than four (4) years after receiving a commission. POC graduates who are navigator candidates agree to serve six (6) years of active duty after graduation from navigator training. POC graduates who are pilot candidates accept ten (10) years of active duty service after graduation from pilot training.

Financial Aid. All AFROTC contracted cadets receive a monthly tax free allowance depending on their student status (Freshman, Sophomore, Junior, or Senior).

Uniforms and Texts. All Air Force texts and uniforms are furnished at no expense to the student.

Scholarships. AFROTC scholarships are available to qualified applicants in two, three and four-year programs. Each scholarship provides full tuition*, laboratory and incidental fees, and limited reimbursement for curriculum-

required textbooks. In addition, scholarship cadets receive a nontaxable cash allowance each month during the academic year while on scholarship status. Scholarships are available on a competitive basis for two, two and one-half, three, or three and one-half years. Applications for scholarships should be made directly to the Professor of Aerospace Studies, 1901 E. South Campus Drive, Room 2009.

**to \$9,000*

AFROTC Programs

Two basic routes to an Air Force Commission are available to college students in the AFROTC. Entering students may enroll in the AFROTC four-year program, and those with at least two academic years remaining may apply for the two-year program. Students having an intermediate amount of school remaining (e.g., three years) may enroll in an adjusted four-year program.

Four-Year Program. Matriculated students may pursue the four-year program. Enrollment procedures for the first two years of AFROTC, known as the General Military Course, are the same as for any other college course. The GMC consists of one hour of course work and two hours of leadership laboratory each week.

During the sophomore year, cadets may apply for the last two years of the program, the Professional Officer Course. Requirements for entry into the POC are listed earlier under General Requirements. If selected for the POC, GMC cadets are scheduled to attend a four-week field training course at an Air Force base during the summer months.

Students enrolled in AFROTC may major in any field.

Two-Year Program. For entry into the two-year program, two academic years must remain at the undergraduate or graduate level, or a combination of the two. Two-year program applicants must qualify by meeting the same criteria as students in the General Military Course who are applying for POC entry. (See General Requirements.)

Each applicant must successfully complete a six-week field training course at an Air Force base during the summer months. This course provides academic and military preparation for entry into the POC. Those fulfilling all requirements, including the successful completion of field training, complete enrollment procedures upon return to campus. Application for the two-year program should be made early in the academic year (normally sophomore year) so that requirements may be completed in time for assignment to summer field training.

Note: Classes are held at the University of Utah.

Minor

Aerospace Studies (Air Force ROTC) Minor

- **Grade Requirements:** The cumulative grade-point average (GPA) for all courses used toward the minor must be 2.0 or greater, with no course grade lower than a C-.
- **Credit Hour Requirements:** A minimum of 16 hours credit hours in departmental classes, 12 of which must be upper division.
- **Program Code:** 7022
- **CIPC:** 280101

Advisement

All Aerospace Studies students are required to meet with a faculty advisor at least semi-annually for course and program advisement. Call (801) 581-6236 for more information or to schedule an appointment.

Admission Requirements

Enrollment in any of the upper division, directed studies, or leadership lab classes requires approval of the department. Contact (801) 581-6236 for more information.

Course Requirements for Minor

Basic Courses: (C- or better)

- AERO 1010 - Foundations of USAF I **Credits: (1)**
- AERO 1011 - Foundations of USAF II **Credits: (1)**
- AERO 2010 - Airpower History I **Credits: (1)**
- AERO 2011 - Airpower History II **Credits: (1)**

Upper division courses: (C- or better)

- AERO 3010 - Leadership Studies I **Credits: (3)**
- AERO 3011 - Leadership Studies II **Credits: (3)**
- AERO 4010 - National Security Affairs I **Credits: (3)**
- AERO 4011 - National Security Affairs II **Credits: (3)**

Note:

Completion of 6-week Field Training (AERO 3000) or two or more years active duty as an enlisted member in the United States Air Force may result in exemption from the basic courses.

Department of Criminal Justice

Department Chair: Molly Sween

Location: Social Science Building, Room 218

Telephone Contact: Shellie Weeks 801-626-6146

Professors: Bruce Bayley, Brent Horn, Bradford Reyns, Molly Sween; **Associate Professors:** Mark Denniston, Heeuk "Dennis" Lee; **Assistant Professors:** Michelle Jeffs, Mckenzie Wood; **Instructors:** Jean Kapenda;

Visiting Assistant Professor: Mitchell Pilkington

The Criminal Justice program provides students with a liberal education, while offering academic preparation through an expanded emphasis on criminal justice education. The program also offers a basis for graduate study and seeks to contribute significantly to the improvement of the quality of justice administration.

Criminal justice agencies in the recent past have established advanced academic standards. Education is becoming a more meaningful factor in selection of law enforcement, corrections, and security personnel for initial employment, promotion, and administrative roles.

Associate of Science

Criminal Justice (AS)

- **Grade Requirements:** A grade of "C" or better in courses required for an Associate's Degree in Criminal Justice in addition to an overall GPA for these courses of 2.50 or higher. Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** 60 total hours are required, including at least 21 Criminal Justice credits (CJ prefix).
- **Program Code:** 7004AS
- **CIPC:** 430104

Advisement

All Criminal Justice students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Visit the Criminal Justice Department web page or call 801-626-6146 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Associate's Degree requirements.

Program Learning Outcomes

- Recognize the key historical, theoretical, and practical components of contemporary corrections.
- Identify the fundamental concepts of criminal law as they are applied in the courts.
- Recognize the key historical, theoretical, and practical components of contemporary policing.

Major Course Requirements for AS Degree

Criminal Justice Required Courses (12 credit hours)

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 1300 - Corrections: History, Theory and Practice **Credits: (3)**
- CJ 1330 - Criminal Law and Courts **Credits: (3)**
- CJ 2300 - Policing: History, Theory and Practice **Credits: (3)**

Criminal Justice Elective Courses (9 credit hours)

Select 9 additional credit hours from Criminal Justice (CJ prefix) courses. Students may not use CJ 4830 Directed Readings or CJ 4950 Field Trips/Travel Study to fill this requirement.

Institutional Certificate

Forensic Science Fundamentals Certificate of Proficiency

This program has been suspended pending formal discontinuance and is no longer accepting new students.

The Certificate of Proficiency in Forensic Science Fundamentals provides a foundational basis to understand the interface between natural science and justice systems. This program is designed to augment physical, life and health science programs of study by providing theory and skills for graduates seeking employment in the governmental or commercial forensic science sector.

- **Program Admission and Prerequisites:** There are no special admission requirements. Students entering the certificate program must have fundamental college level math and science preparation completed prior to registering for CHEM 1210/1215.
- **Grade Requirements:** A minimum grade of "C" in all courses counted toward completion of the certificate (no "C-" grades allowed).
- **Credit Hour Requirements:** A total of 29 credit hours is required for completion of the certificate program. CJ 1010, COMM 1020, CHEM 1210/1215, MICR 2054, and ZOOL 1610 satisfy WSU General Education Requirements. A minimum of 14 credit hours in the program must be completed at Weber State University.
- **Program Code:** 7050CP
- **CIPC:** 430107

Advisement

All declared Forensic Science Fundamental students are assigned to the Director of Forensic Science Programs in the Department of Criminal Justice for advising. Courses should be completed in conjunction with your major program of study. Your science major advisor and the Director of Forensic Science Programs can assist you in planning completion of the certificate program. Questions about the program can be directed to the Director of Forensic Science Programs (Dr. Brent Horn, 801-626-8843) or the Department of Criminal Justice (801-626-6146).

Program Learning Outcomes

- Recognize the key elements of the criminal justice system
- Describe the interface between the forensic scientist, physical evidence, and the criminal justice system
- Orally communicate comfortably in front of an audience
- Understand fundamental concepts of chemistry and biology

Required Program Courses

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 1350 - Introduction to Forensic Science **Credits: (3)**
- CJ 2350 - Laws of Evidence **Credits: (3)**
- CJ 3120 - Professional Practice for the Forensic Expert **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

Either:

- MICR 2054 LS - Principles of Microbiology **Credits: (4)** ;or
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**

Juvenile Justice Certificate of Proficiency

The Certificate of Proficiency in Juvenile Justice provides a strong theoretical and applied foundation for those interested in the American juvenile justice system. This interdisciplinary program builds upon the basic elements of the American criminal justice system by incorporating coursework from allied social sciences disciplines relevant to juvenile delinquency, juvenile courts, and human dynamics.

- **Program Admission and Prerequisites:** The program is open to all majors and has no special admissions prerequisites or requirements.
- **Grade Requirements:** A minimum grade of "C" in all courses counted towards the completion of the certificate (no "C-" or lower grades allowed).
- **Credit Hour Requirements:** A total of 20-21 credit hours is required for completion of the certificate program.
- **Program Code:** 7052CP
- **CIPC:** 430110

Advisement

All advising for the Certificate of Proficiency in Juvenile Justice will be conducted by Criminal Justice Advisors working through the Department of Criminal Justice (801-626-6146).

Program Learning Outcomes

- Recognize the elements of juvenile criminal behavior
- Identify the differences in criminal procedures and proceedings between adult and juvenile court
- Demonstrate how other criminal justice and liberal arts fields intersect with the juvenile justice system

Required Program Courses (12 hours)

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 2330 - Juvenile Justice **Credits: (3)**
- CJ 2360 - Juvenile Law and Procedure **Credits: (3)**
- CJ 4860 INT - Criminal Justice Internship **Credits: (3)**

Elective Courses (8-9 hours)

Select three of the classes listed below:

- CJ 3620 - Essential Skills for Criminal Justice Professionals **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- FAM 3350 GLB - Diverse Families **Credits: (3)**

- FAM 4400 - The Family in Stress **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- PSY 3020 - Child and Adolescent Psychopathology **Credits: (3)**
- PSY 3140 - Adolescent Psychology **Credits: (3)**
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 2600 - Families in Society **Credits: (3)**
- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 2100 SS - Human Behavior and the Social Environment I **Credits: (3)**
- SW 3200 - Child and Family Welfare **Credits: (2)**

Victim Advocacy Certificate of Proficiency

The Certificate of Proficiency in Victim Advocacy provides a strong theoretical and applied foundation for those interested in assisting victims of crime. This interdisciplinary program builds upon the basic elements of the American criminal justice system by incorporating coursework from allied social sciences disciplines relevant to crime, courts, and human dynamics.

- **Program Admission and Prerequisites:** The program is open to all majors and has no special admissions prerequisites or requirements.
- **Grade Requirements:** A minimum grade of "C" in all courses counted towards the completion of the certificate (no "C-" or lower grades allowed).
- **Credit Hour Requirements:** A total of 21 credit hours is required for completion of the certificate program.
- **Program Code:** 7053CP
- **CIPC:** 430199

Advisement

All advising for the Certificate of Proficiency in Victim Advocacy will be conducted by Criminal Justice Advisors working through the Department of Criminal Justice (801-626-6146).

Program Learning Outcomes

- Identify the stages of a case through the criminal court process
- Describe the factors that influence, and the resulting consequences of, criminal victimization
- Demonstrate how the principles of criminal justice and social science apply to the assistance of crime victims

Required Program Courses (12 credits)

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 2400 - Criminal Court Process **Credits: (3)**
- CJ 3300 - Victimology **Credits: (3)**
- CJ 4860 INT - Criminal Justice Internship **Credits: (3)**

Elective Courses (9 credits)

Select nine credit hours from the following:

- CJ 1340 - Criminal Investigation **Credits: (3)**
- CJ 1350 - Introduction to Forensic Science **Credits: (3)**
- CJ 2350 - Laws of Evidence **Credits: (3)**
- CJ 3620 - Essential Skills for Criminal Justice Professionals **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- FAM 4400 - The Family in Stress **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- PSY 2020 - Mental Health Awareness **Credits: (3)**
- PSY 3850 - Forensic Psychology **Credits: (3)**
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 3000 - Self and Society **Credits: (3)**
- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 2100 SS - Human Behavior and the Social Environment I **Credits: (3)**
- SW 2200 SS/CC - Issues in Diversity **Credits: (3)**
- SW 4265 - Crisis Intervention and Trauma **Credits: (3)**

Bachelor of Science

Criminal Justice (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required. Students are encouraged to complete a minor that compliments their career goals.
- **Grade Requirements:** A grade of "C" or better in courses required for a Bachelor's Degree in addition to an overall GPA for these courses of 2.50 or higher. Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; of which 40 hours must be upper division credit hours (courses numbered 3000 and above). A minimum of 49 Criminal Justice credit hours are required for the Criminal Justice Concentration. A minimum of 79-82 credit hours (including 49 Criminal Justice credit hours) are required for the Crime Scene Investigation Concentration.
- **Program Code:** 7004BS with Concentration code Criminal Justice (7045), Crime Scene Investigation (7046).
- **CIPC:** 430104 with Concentration code Criminal Justice (430104), Crime Scene Investigation (430111).

Advisement

All Criminal Justice students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Students are encouraged to take CJ 4860-Criminal Justice Internship, and complete a minor as a way to complete their upper division course requirement. Visit the Criminal Justice Department web page or call 801-626-6146 for more information or to find an advisor. (Also refer to the Department Advisor Referral List).

Students with an interest in forensic science lab work should consider the Forensic Science Fundamentals Certificate of Proficiency and meet with the Director of the Forensic Science Programs.

Admission Requirements

Declare your program of study . No special admission or application requirements are needed for this program. Students with a criminal history may be precluded from participating in certain forensic science courses and should see the Director of Forensic Science Programs for advisement prior to selecting this program of study.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following course required for the Criminal Justice major will also satisfy general education requirements: CJ 1010 SS. Students selecting the Crime Scene Investigation Concentration should complete general education requirements by taking the following support courses: CHEM 1110 PS, CHEM 1210 PS, PHYS 1010 PS, PHYS 2010 PS, PHYS 2210 PS, MATH 1040 , ZOOL 1020 LS, ANTH 1020 LS/SUS, HTHS 2110 LS, ART 2450 CA and/or COMM 1020 HU.

Program Learning Outcomes

- Describe key concepts, theories, or ideas related to the discipline of criminal justice.
- Explain the experiences, perspectives, or contributions of multiple groups in the criminal justice system.
- Apply theories and research findings to the operation of criminal justice systems.
- Effectively communicate.
- Analyze problems in criminal justice using critical thinking or problem-solving skills.
- Develop a personal framework for ethical decision-making.

Major Course Requirements for BS Degree

Criminal Justice Foundation (9 credit hours)

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 1330 - Criminal Law and Courts **Credits: (3)**
- CJ 4200 - Ethical Issues in Criminal Justice **Credits: (3)**

Select a Concentration:

Criminal Justice Concentration

Criminal Justice Depth (22 credit hours)

- CJ 1300 - Corrections: History, Theory and Practice **Credits: (3)**
- CJ 2300 - Policing: History, Theory and Practice **Credits: (3)**
- CJ 3270 - Theories of Crime and Delinquency **Credits: (3)**
- CJ 3300 - Victimology **Credits: (3)**
- CJ 3610 - Research Methods in Criminal Justice **Credits: (3)**
- CJ 4165 - Constitutional Rights **Credits: (3)** (to be taken after completion of foundation and depth courses)
Pick one of the following:
- CJ 3000 - Graduate School Prep **Credits: (1)**
- CJ 3005 - Law School Prep **Credits: (1)**
- CJ 3010 - CJ Careers Exploration **Credits: (1)**

Pick one of the following:

- CJ 4080 - Criminal Justice Senior Thesis **Credits: (3)**
- CJ 4860 INT - Criminal Justice Internship **Credits: (3)**

Criminal Justice Electives (18 credit hours)

- Select 18 credit hours from courses with a CJ prefix. Students may not use CJ 1070 or CJ 1080 to complete the elective requirements. Additionally, students may not use more than 6 credit hours of internship courses (CJ 2860, CJ 2861, CJ 2862, CJ 4860, or CJ 4861) for the CJ electives.

Crime Science Investigation Concentration

Graduation approval from the forensic science program director after completion of a program portfolio is required of students selecting this program of study.

Core Crime Scene Investigation (40 credit hours)

- CJ 1340 - Criminal Investigation **Credits: (3)**
- CJ 1350 - Introduction to Forensic Science **Credits: (3)**
- CJ 2340 - Crime Scene Investigation **Credits: (3)**
- CJ 2350 - Laws of Evidence **Credits: (3)**
- CJ 3120 - Professional Practice for the Forensic Expert **Credits: (3)**
- CJ 3340 - Crime Scene Photography **Credits: (3)**
- CJ 3344 - Advanced Forensic Photography **Credits: (3)**
- CJ 4110 - Physical Methods in Forensic Science **Credits: (4)**
- CJ 4115 - Friction Ridge Analysis **Credits: (4)**
- CJ 4116 - Friction Ridge Development **Credits: (4)**
- CJ 4125 - Research Methods in Forensic Science **Credits: (4)**
- CJ 4165 - Constitutional Rights **Credits: (3)**

CSI Support (30-33 credit hours)

- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**

Either

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**

or

- ZOOL 1020 LS - Human Biology **Credits: (3)** and
ZOOL 2320 - Human Anatomy Credits: (4)
- or***
- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)** and
ZOOL 2320 - Human Anatomy Credits: (4)

Either

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)**
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)**

- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**
or
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

One of

- PHYS 1010 PS - Elementary Physics **Credits: (3)** or
- PHYS 2010 PS - College Physics I **Credits: (5)** or
- PHYS 2210 PS - Physics for Scientists and Engineers I **Credits: (5)**

One of

- BTNY 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)** or
- GEO 2600 - Laboratory Safety **Credits: (1)** or
- MICR 2600 - Laboratory Safety **Credits: (1)** or
- PHYS 2600 - Laboratory Safety **Credits: (1)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Criminal Justice (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Refer to Interdisciplinary Studies (BS).
- **Credit Hour Requirements:** 18 hours of Criminal Justice courses (CJ prefix) selected in consultation with an advisor and approved by the department chair. Thesis completion pursuant to BIS requirements.
- **Program Code:** 7004
- **CIPC:** 430104

Minor

Criminal Justice Minor

- **Grade Requirements:** A grade of "C" or better in courses required for a Criminal Justice minor in addition to an overall GPA for these courses of 2.50 or higher. Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** Minimum of 18 credit hours in Criminal Justice courses (CJ prefix).
- **Program Code:** 7004
- **CIPC:** 430104

Course Requirements for Minor

Criminal Justice Required Courses (6 credit hours)

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 3270 - Theories of Crime and Delinquency **Credits: (3)**

Criminal Justice Breadth Courses (6 credit hours)

Select two of the following

- CJ 1300 - Corrections: History, Theory and Practice **Credits: (3)**
- CJ 1330 - Criminal Law and Courts **Credits: (3)**
- CJ 2300 - Policing: History, Theory and Practice **Credits: (3)**
- CJ 4200 - Ethical Issues in Criminal Justice **Credits: (3)**

Criminal Justice Elective Courses (6 credit hours)

Select 6 additional credit hours from Criminal Justice (CJ prefix) courses. An overall total of at least 9 credit hours must be upper division (numbered 3000 or higher). Any course of CJ 1300, 1330, 2300, or 4200 that was taken to fulfill the Breadth requirement may not be used again to fulfill the Elective requirement. Students may not use CJ 4830 Directed Readings or CJ 4950 Field Trips/Travel Study to fill this requirement.

Department of Geography, Environment and Sustainability

Department Chair: Dr. Eric C. Ewert

Location: Lindquist Hall, LH 350

Telephone Contact: Sarah Rivkind, 801-626-6207

Professors: Daniel Bedford, Bryan Dorsey, Eric C. Ewert, Julie Rich; **Associate Professors:** Jeremy Bryson, Alice Mulder; **Assistant Professors:** Ryan Frazier, Maria Groves

Geography is the study of the spatial organization, arrangement, function, movement, and interrelationships of phenomena on the surface of the earth. It is a science concerned with both physical and cultural phenomena and routinely interfaces with other disciplines in the natural sciences, social & behavioral sciences, humanities, business, and economics. With a global perspective and a robust geospatial toolkit (GIS, Satellite Imagery, Computer Mapping, GPS, and other Technologies.), the department prepares students to engage in the processes that create more sustainable environments and communities throughout the world.

Dr. Julie Rich with Geography students

Interdisciplinary Minors

The Department of Geography, Environment and Sustainability participates in the Asian Studies, Environmental Studies, Ethnic Studies, European Studies and Latin American Studies Minor Programs and the Urban and Regional Planning Emphasis Program. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Institutional Certificate

Geospatial Technology Certificate of Proficiency

Advisor: Dr. Eric C. Ewert, 801-626-6197, eewert@weber.edu

- **Grade Requirements:** A grade of "C" or better in all courses used toward the certificate (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 6 credit hours from the Department of Geography, and 12 credit hours from the Department of Earth and Environmental Sciences. The remaining 1-3 credit hours earned from completing either the Geospatial Internship (GEO/GEOG 2840) or the Geospatial Capstone (GEO/GEOG 2850) courses which will be taken in the department offering the course that particular year (alternates yearly).
- **Program Code:** 7060CP
- **CIPC:** 450702

Program Learning Outcomes

- Students will develop an understanding of and appreciation for the role of geography and geospatial technologies as well as acquire the basic technical skills used to address environmental and human spatial problem solving.
- Students will demonstrate how to effectively create and communicate geospatial data/results to others through cartographically accurate maps/dynamic products, technical reports, and multimedia presentations.
- Students will demonstrate understanding of basic geospatial concepts, such as data models, spatial databases, data projections and coordinate systems, topology, digitizing spatial data, metadata, and quality control.
- Students will demonstrate understanding of geospatial analysis that can be performed on vector and raster data collected from various platforms such as satellites / drones (Remote Sensing), GPS instruments, field maps. They will demonstrate the ability to perform multiple types of analysis, including spatial overlay, raster processing, statistics, terrain and hydrologic analysis, transportation networks, and modeling.
- Students will demonstrate the ability to work in a team environment to complete a set of geospatial tasks or a geospatial project that includes project objectives, methods, data collection, analysis and reporting results in a professional format through completion of a geospatial internship or capstone course.

Course Requirements for Certificate of Proficiency

Geography Courses Required (6 credit hours)

- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2400 - Cartography and Map Design **Credits: (3)**

Earth and Environmental Science Courses Required (12 credit hours)

- GEO 1710 - Introduction to Geographic Information Systems (GIS) **Credits: (4)**
- GEO 1720 - Geospatial Analysis **Credits: (4)**
- GEO 2200 - Geospatial Data Acquisition **Credits: (4)**

Select at least 1 hour from the following:

GEO 2840/ GEOG 2840 INT - Geospatial Internship **(1-3)**

GEO 2850/ GEOG 2850 - Geospatial Capstone **(3)**

Additional information pertaining to the Northern Utah Geospatial Technology Education Program (NUGeoTec) may be found at: <https://www.weber.edu/nugeotec> or <http://weber.edu/geography>.

Sustainable Land Use Planning Certificate of Proficiency

The Certificate in Sustainable Land Use Planning (CSLUP) is a 19-credit hour upper division program designed to prepare students to enter the workforce immediately with solid skills and experience required for a wide variety of entry-level land use planning positions.

- **Certificate requirements:** Students must complete the requirements similar to those for the Planning track in Sustainable Land Use Planning (see Appendix), with the main difference being that students must take a course in GIS and complete an internship. The 19-credit hour course completion requirement will include four required courses and two elective courses.
- **Grade Requirements:** A grade of "C" or better in all courses used toward the certificate (a grade of "C-" is not acceptable). An overall GPA of 2.75 is required for the four core courses in the Certificate Program
- **Program Code:** 7057CP
- **CIPC:** 030206

Upon completion of the requirements, students who may or may not be pursuing a major or minor in Geography, will receive a certificate showing completion of the program requirements.

Required Courses

- GEOG 4410 SUS - Sustainable Land Use Planning **Credits: (3)**
- GEOG 4420 - Advanced Urban and Regional Planning **Credits: (3)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- GEOG 4890 INT - Cooperative Work Experience **Credits: (1-6)**

Select Two Elective Courses (6 credit hours)

- CM 2360 - Commercial Design and Codes **Credits: (3)**
- ECON 1100 SS - Environmental Issues and Economic Policy **Credits: (3)**
- ECON 3300 - Environmental Economics **Credits: (3)**
- GEOG 3210 - Urban Geography: The How and Why of Cities **Credits: (3)**
- GEOG 3360 - Economic Geography: Globalization, Development and Conflict **Credits: (3)**
- GEOG 2400 - Cartography and Map Design **Credits: (3)** *Recommended*
- GEOG 4400 - Cartography and Map Design **Credits: (3)** *Recommended*
- GEOG 4600 - Geospatial Programming and Online Methods **Credits: (3)**
- GEOG 3500 - Geography of Utah and the American West **Credits: (3)**
- GEO 1710 - Introduction to Geographic Information Systems (GIS) **Credits: (4)**
- GEO 1720 - Geospatial Analysis **Credits: (4)**
- GEO 2840 INT - Geospatial Internship **Credits: (1-3)**

- GEO 4840 INT - Geospatial Internship **Credits: (1-3)**
 - GEO 2850 - Geospatial Capstone **Credits: (3)**
 - GEO 4850 - Geospatial Capstone **Credits: (3)**
 - GEO 3720 - Geospatial Analysis **Credits: (4)**
 - HIST 3130 - Cities in US History **Credits: (3)**
 - HIST 3500 - Historic Preservation **Credits: (3)**
 - MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs **Credits: (3)**
 - MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)**
 - MICR 3484 - Environmental Microbiology **Credits: (4)**
 - OCRE 3500 - Community Recreation and Park Planning **Credits: (3)**
 - POLS 2700 - Introduction to Public Administration **Credits: (3)** *Recommended*
 - POLS 3700 - Bureaucratic Politics **Credits: (3)**
 - POLS 3750 - Urban Government and Politics **Credits: (3)**
 - SOC 3300 SUS - Environment and Society **Credits: (3)**
 - SOC 3840 - Cities and Urban Life **Credits: (3)**
 - SOC 3850 - Race & Ethnicity **Credits: (3)**
- *Other elective courses related to planning issues may be accepted with approval from the program advisor.*

Bachelor of Arts

Geography (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major, and an overall GPA in the major of 2.00. Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 39 of these is required for the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 21 of these are required within the geography major.
- **Program Code:** 7031BA with one of the following cohort codes for tracks: GEOG_TEACH (General Geography), GEOG_EARTH (Earth Systems and Features), GEOG_CLIMS (Climate Science), GEOG_GLOBL (Global Studies, Development, and Diversity), GEOG_ENVIR (Environment and Sustainability), GEOG_PLANN (Sustainable Urban and Regional Planning), GEOG_GEOSP (Geospatial Technology)
- **CIPC:** 450701

Advisement

All Geography students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6207 for more information or to schedule an appointment.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program. (Also refer to the Department Advisor Referral List.)

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. Two of the following courses are required for the Geography major or Geography Teaching major: GEOG 1000, GEOG 1300, GEOG 1500 or GEOG 1520 (these courses will also satisfy general education requirements).

Program Learning Outcomes

- To provide students with knowledge about the earth's natural environment and its relationship to society.
- To provide students with knowledge about the world's peoples, nations, cultural environments, and spatial organization.
- To provide students with a good grounding in the modern technical skills of the discipline, including computer cartography, spatial analysis, spatially-oriented quantitative methods and techniques, and geographic information systems.
- To provide (some) students with training emphasizing the understanding of the planning profession and issues related to that field.
- To instill within each student an appreciation for the great variety of cultural forms and ways of thinking throughout the world, and to help students formulate a world view that uses this appreciation to become responsible citizens in America.

Major Course Requirements for BA Degree

The Geography BA requires 39 credit hours.

Required Geography Courses (18 credit hours)

All Geography majors take these 18 core required hours. Select an additional 18 hours from one of seven tracks listed below. Among those 18 hours, students are encouraged to select a course with a SUS designation and one with a CEL designation.

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)** or
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)** or
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability **Credits: (1)**
- GEOG 3790 CRE - Research Methods in Geography **Credits: (3)** (Spring semester only)
- GEOG 4990 CRE - Senior Seminar in Geography **Credits: (3)** (Fall semester only)

Select 2 credits from the following:

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- GEOG 1005 - Planet Earth: Local Field Studies **Credits: (1)**
- GEOG 2950 - Regional Field Studies or Field Trips **Credits: (1-3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**

Required Language Arts Courses (12 credit hours)

Students make take any combination of Foreign Language or Language Arts Courses to reach 12 credit hours. At least half of these must be upper division.

Required Regional Courses (3-9 credit hours)

Select at least 1 of the following.

- GEOG 3540 - Geography of Latin America and the Caribbean **Credits: (3)**
- GEOG 3590 - Geography of Europe: the Land and People who Built a World Power **Credits: (3)**
- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment **Credits: (3)**
- GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change **Credits: (3)**
- GEOG 3780 - Geographic Area Studies **Credits: (1-3)**

Elective Courses (6 credit hours)

Select any 2 upper division geography courses.

Bachelor of Science

Geography (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major, and an overall GPA in the major of 2.00. Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 36 of these is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 27 of these are required within the major.
- **Program Code:** 7031BS with one of the following cohort codes for tracks: GEOG_TEACH (General Geography), GEOG_EARTH (Earth Systems and Features), GEOG_CLIMS (Climate Science), GEOG_GLOBL (Global Studies, Development, and Diversity), GEOG_ENVIR (Environment and Sustainability), GEOG_PLANN (Sustainable Urban and Regional Planning), GEOG_GEOSP (Geospatial Technology)
- **CIPC:** 450701

Advisement

All Geography students are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6207 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). No special admission or application requirements are needed for this program. (Also refer to the Department Advisor Referral List.)

General Education

Refer to Degree Requirements for Bachelor of Science requirements. One of the following courses is required for the Geography major or Geography Teaching major: GEOG 1000, GEOG 1300, GEOG 1500, or GEOG 1520 (these courses will also satisfy general education requirements).

Program Learning Outcomes

- To provide students with knowledge about the earth's natural environment and its relationship to society.
- To provide students with knowledge about the world's peoples, nations, cultural environments, and spatial organization.
- To provide students with a good grounding in the modern technical skills of the discipline, including computer cartography, spatial analysis, spatially-oriented quantitative methods and techniques, and geographic information systems.
- To provide (some) students with training emphasizing the understanding of the planning profession and issues related to that field.
- To instill within each student an appreciation for the great variety of cultural forms and ways of thinking throughout the world, and to help students formulate a world view that uses this appreciation to become responsible citizens in America.

Required Geography Courses (18 credit hours)

All Geography majors take these 18 core required hours. Select an additional 18 hours from one of seven tracks listed below. Among those 18 hours, students are encouraged to select a course with a SUS designation and one with a CEL designation.

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)** or
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)** or
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability **Credits: (1)**
- GEOG 3790 CRE - Research Methods in Geography **Credits: (3)** (Spring semester only)
- GEOG 4990 CRE - Senior Seminar in Geography **Credits: (3)** (Fall semester only)

Select 2 credits from the following:

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- GEOG 1005 - Planet Earth: Local Field Studies **Credits: (1)**
- GEOG 2950 - Regional Field Studies or Field Trips **Credits: (1-3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**

Select a Track (18 credit hours)

- Track A: General Geography and Teaching (18 credit hours)
- Track B: Earth Systems and Features (18 credit hours)
- Track C: Climate Science (18 credit hours)
- Track D: Global Studies, Development, and Diversity (18 credit hours)

- Track E: Environment and Sustainability (18 credit hours)
- Track F: Sustainable Urban and Regional Planning (18 credit hours)
- Track G: Geospatial Technology (18 credit hours)

Geography Teaching (BS)

- **Program Prerequisite:** Must satisfy Teacher Education admission and licensure requirements (see Department of Teacher Education).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major and an overall GPA within the major of 2.00.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 36 of these is required for the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 21 of these are required within the Geography major.
- **Program Code:** 7032BS
- **CIPC:** 131332

Advisement

Teaching majors are encouraged to consult with advisors in both the College of Social and Behavioral Sciences (call 801-626-6207) and the College of Education (call 801-626-6269).

Admissions Requirements

Declare your program of study (see Enrollment Services and Information). Geography Teaching majors must satisfy Teacher Education admission and licensure requirements. (See Teacher Education Department.)

General Education

Refer to Degree Requirements of this catalog for Bachelor of Science requirements. The following general education course options for the Geography Teaching major also will satisfy general education requirements: GEOG 1000, GEOG 1300, GEOG 1500, and GEOG 1520.

Program Learning Outcomes

- To provide students with knowledge about the earth's natural environment and its relationship to society.
- To provide students with knowledge about the world's peoples, nations, cultural environments, and spatial organization.
- To provide students with a good grounding in the modern technical skills of the discipline, including computer cartography, spatial analysis, spatially-oriented quantitative methods and techniques, and geographic information systems.
- To provide (some) students with training emphasizing the understanding of the planning profession and issues related to that field.
- To instill within each student an appreciation for the great variety of cultural forms and ways of thinking throughout the world, and to help students formulate a world view that uses this appreciation to become responsible citizens in America.

Major Course Requirements for Geography Teaching BS Degree

Students completing the department's Track A (see Geography (BS)), GEOG 3500, and HIST 4500, in addition to the courses required by the Teacher Education program, will be recognized as having completed a program of study that is equivalent of the Geography Teaching major.

Required Geography Courses (18 credit hours)

All Geography majors take these 18 core required hours. Select an additional 18 hours from one of seven tracks listed below. Among those 18 hours, students are encouraged to select a course with a SUS designation and one with a CEL designation.

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)** or
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)** or
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability **Credits: (1)**
- GEOG 3790 CRE - Research Methods in Geography **Credits: (3)** (Spring semester only)
- GEOG 4990 CRE - Senior Seminar in Geography **Credits: (3)** (Fall semester only)

Select 2 credits from the following:

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- GEOG 1005 - Planet Earth: Local Field Studies **Credits: (1)**
- GEOG 2950 - Regional Field Studies or Field Trips **Credits: (1-3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**

Required Teaching Courses (6-9 credit hours)

GEOG 1500 is not required, but strongly suggested for teachers.

- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEOG 3500 - Geography of Utah and the American West **Credits: (3)**
- HIST 4500 - Teaching Social Studies in Grades 5-12 **Credits: (3)**

Elective Courses (9-12 credit hours)

Students must take 9-12 additional hours. These may be physical, cultural, regional, or technique courses in Geography, support courses in related majors, or courses in the Teacher Education program to reach 36 credit hours.

Emphasis Option for Bachelor of Interdisciplinary Studies

Geography (BIS)

Geography Minor, Teaching Minor, and BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs is still accepting students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor in addition to an overall GPA for these courses of 2.00 or higher.
- **Credit Hour Requirements:** Minimum of 21 credit hours in Geography courses for Geography and Teaching Minors. 18 credit hours for the Geography BIS.
- **Program Code:** Geography(7031), Geography Teaching(7032), Geography BIS (7031)
- **CIPC:** Geography(450701), Geography Teaching(131332), Geography BIS

Students who select the Geography Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for Minor or BIS

Geography Courses Required (12 credit hours)

- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability **Credits: (1)**

Choose one of the following courses

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**

Choose one of the following courses

- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)**
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**

Choose from the following courses to equal at least two credit hours

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- GEOG 2950 - Regional Field Studies or Field Trips **Credits: (1-3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**

Elective Geography Courses (6 credit hours)

Select 6 additional credit hours of upper division Geography courses.

Minor

Environmental Studies Minor

Coordinator: Dr. Alice Mulder

Location: SS 302

Telephone: 801-626-6198

The Environmental Studies Minor is an interdisciplinary degree that focuses on the work of science in human activity. The curriculum is rooted in science to ground factual knowledge. However, its trunk is solidly comprised of social science and humanities courses because they teach the application of science in policy-making, business decisions and historical precedent even as they call upon the arts for their expression and upon ethics in consideration of health and social justice issues. The minor reaches across campus because all disciplines play an essential role in shaping environmental thought.

Students will gain an appreciation for local, national and international environmental issues and problems as well as their potential solutions. They will develop a personal philosophy about the environment's role in their lives and their own ability to affect nature and their physical environment by making ethical choices.

- **Grade Requirements:** A grade of "C" or better is required for all courses.
- **Credit Hour Requirements:** A minimum of 25 credit hours is required, at least 15 of these must be upper division (numbered 3000 or higher).
- **Program Code:** 3063
- **CIPC:** 030104

Students must select courses from outside their major academic department whenever a choice is offered. Students are encouraged to consider diversity in curriculum selection.

Course Requirements for Minor

Core Courses (19 credit hours)

Select a minimum of 19 hours from the following list

- PHYS 2090 PS SUS - Energy and the Environment **Credits: (3)**
- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions **Credits: (3) ***

- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)** (4 credit hours required)
or
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)** and
- GEOG 1005 - Planet Earth: Local Field Studies **Credits: (1)**
or
- GEO 1060 PS - Environmental Geosciences **Credits: (3)** and
- GEO 1065 - Environmental Geosciences Lab **Credits: (1)**

- ECON 1100 SS - Environmental Issues and Economic Policy **Credits: (3)** or
- ENGL 3520 HU - Literature of the Natural World **Credits: (3)** or
- HIST 3270 SUS - American Environmental History **Credits: (3)**

- ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present **Credits: (4)** * or
- HNRS 3900 - Honors Colloquium **Credits: (3)**

Elective Courses (6 credit hours)

Select a minimum of 6 hours from the following list with no more than one class from each department

- BTNY 1303 LS - Plants and People **Credits: (3)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- BTNY 3454 - Plant Ecology **Credits: (4)** *
- CS 4830 - Advanced Topics in Computer Science **Credits: (1-4)** Social (and Environmental) Implications of Computing (1 credit hour required) *
- ENGL 3750 HU - Topics and Ideas in Literature **Credits: (3)**
- ENGL 4530 - American Literature: Realism and Naturalism **Credits: (3)**
- ENGL 4710 - Eminent Authors **Credits: (3)**
as approved by the Environmental Studies Advisor
- MENG 6030 - Studies in Literary Theory and Criticism **Credits: (3)**
- GEO 1130 PS - Introduction to Meteorology **Credits: (3)**
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEO 3010 SUS - Oceans and Climate **Credits: (3)** *
- GEOG 3050 - Weather and Climate: from daily storms to decades of drought **Credits: (3)** *
- GEOG 3070 - Wetland Environments **Credits: (3)** *
- GEOG 3080 - Arid Lands: Resources, Landforms, and the Quest for Water **Credits: (3)** *
- GEOG 3090 - Arctic and Alpine Environments **Credits: (3)** *
- PHIL 3700 - Environmental Philosophy **Credits: (3)**
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)** *
- HNRS 1540 HU - Perspectives in the Humanities **Credits: (3)**
- HNRS 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
as approved by the Environmental Studies Advisor
- MICR 3484 - Environmental Microbiology **Credits: (4)** *
- MICR 3502 SUS - Environmental Health **Credits: (2)** *
- PHYS 3570 - Foundations of Science Education **Credits: (3)**
- OCRE 4550 - Outdoor Education Philosophies & Principles **Credits: (3)**
- SOC 3300 SUS - Environment and Society **Credits: (3)**
- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 3450 CRE - Ecology **Credits: (4)** *
- ZOOL 3500 - Conservation Biology **Credits: (3)** *

Note:

** A prerequisite or consent of the instructor is required. Most prerequisites are in the core curriculum.*

Geography Minor

Geography Minor, Teaching Minor, and BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs is still accepting students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor in addition to an overall GPA for these courses of 2.00 or higher.
- **Credit Hour Requirements:** Minimum of 21 credit hours in Geography courses for Geography and Teaching Minors. 18 credit hours for the Geography BIS.
- **Program Code:** Geography(7031), Geography Teaching(7032), Geography BIS (7031)
- **CIPC:** Geography(450701), Geography Teaching(131332), Geography BIS

Students who select the Geography Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for Minor or BIS

Geography Courses Required (12 credit hours)

- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability **Credits: (1)**

Choose one of the following courses

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**

Choose one of the following courses

- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)**
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**

Choose from the following courses to equal at least two credit hours

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- GEOG 2950 - Regional Field Studies or Field Trips **Credits: (1-3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**

Elective Geography Courses (9 credit hours)

Select 9 additional credit hours of upper division Geography courses.

Geography Teaching minors must also take HIST 4500 - Teaching Social Studies in Grades 5-12 **(3)** and GEOG 3500 - Geography of Utah and the American West **(3)** in addition to the courses required by the Teacher Education program. GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **(3)** is recommended for teachers.

Teaching Minor

Geography Teaching Minor

Geography Minor, Teaching Minor, and BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs is still accepting students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor in addition to an overall GPA for these courses of 2.00 or higher.
- **Credit Hour Requirements:** Minimum of 21 credit hours in Geography courses for Geography and Teaching Minors. 18 credit hours for the Geography BIS.
- **Program Code:** Geography(7031), Geography Teaching(7032), Geography BIS (7031)
- **CIPC:** Geography(450701), Geography Teaching(131332), Geography BIS

Students who select the Geography Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for Minor or BIS

Geography Courses Required (12 credit hours)

- GEOG 1790 - Exploring Our World Through Geospatial Technology **Credits: (3)**
- GEOG 2790 - Pathways and Careers in Geography, Environment & Sustainability **Credits: (1)**

Choose one of the following courses

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**

Choose one of the following courses

- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)**
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**

Choose from the following courses to equal at least two credit hours

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- GEOG 2950 - Regional Field Studies or Field Trips **Credits: (1-3)**
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)**

Elective Geography Courses (9 credit hours)

Select 9 additional credit hours of upper division Geography courses.

Geography Teaching minors must also take HIST 4500 - Teaching Social Studies in Grades 5-12 **(3)** and GEOG 3500 - Geography of Utah and the American West **(3)** in addition to the courses required by the Teacher Education program. GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **(3)** is recommended for teachers.

Department of Child and Family Studies

Department Chair: Ryan Dunn, 385-244-0141

Location: McKay Education Building

Telephone Contact: Danielle Orozco 801-626-7151

Advisor: Darcy Gregg, 801-626-6411

Professors: Carrie Ota, Wei Qiu, Paul Schvaneveldt; **Associate Professors:** Mark Adams, Sheila Anderson, Teri Henke, Daniel Hubler; **Assistant Professors:** Charles Dunn, Keith Osai

The Department of Child and Family Studies offers a broad personal and professional education by providing majors in the following areas: Early Childhood (Bachelor's and Associate of Applied Science), Early Childhood Education, and Family Studies. The AAS Early Childhood and BS Family Studies are also fully online. Minors in Child Development and Family Studies are also offered. Child and Family Studies is also an area available for a Bachelor of Interdisciplinary Studies (BIS).

Learning is enhanced by the Melba S. Lehner Children's School where preschool laboratory experience is provided for practical application. Practical experience is built into all areas of study. Honors credit is available for students who desire greater depth. Preparation for graduate study can be pursued in any area represented in the department.

Child and Family Studies Department Policies

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

The Child and Family Studies Department will only accept two non-articulated transfer courses for the major/minor.

If a grade in a Child and Family Studies major/minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. The Retention & Referral Policy can be found at https://www.weber.edu/wsuiimages/chfam/CHF_Retention18.pdf.

All students with a major/minor in Child & Family Studies are strongly encouraged to contact the department academic advisor in McKay Education Building (801-626-6411) early in their academic career for advisement and declaration of a major and/or minor.

Students must undergo a background check and be fingerprinted for major and course requirements.

Early Childhood Laboratory

The Melba S. Lehner Children's School serves as an early childhood laboratory to give students practical experience in early childhood environments. Students must complete Child and Family Studies prerequisite major courses at a B-level or better and apply to the Director of the Melba S. Lehner Children's School one semester prior to student teaching. Other practical experience can be arranged with a faculty advisor.

Associate of Applied Science

Early Childhood (AAS)

The Department of Child and Family Studies offers an Associate of Applied Science (AAS) degree in Early Childhood (EC) that prepares students to support the development and learning of young children (birth to 8 years) in a variety of programs such as public schools, Head Start, child care, and early intervention. Graduates can become prekindergarten teachers or program administrators, classroom assistants, home visitors or program specialists in state agencies. This is an asynchronous online program with 150 hours of applied in-person field experiences. This degree is recommended as a foundation for our bachelor's degrees in Early Childhood Education to teach kindergarten to third grade, or Early Childhood for community services work with young children and families.

- **Program Prerequisite:** Before beginning this program, a student must see the department advisor in McKay Education Building (801-626-6411).
- **Grade Requirements:** A cumulative GPA of 2.50 and a grade at least a "C" in CHF 1500 and B- or better in ECED major courses. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood Education Program, to graduate with the lower grade.
- **Credit Hour Requirements:** A total of 60 credit hours is required for graduation; 26 of these are required within the major.
- **Program Code:** 5000AAS
- **CIPC:** 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Completed the program application. Meet with the department and faculty advisor. Declare your program of study (see Program of Study (Major/Minor) Declaration). With the Department of Child and Family Studies Academic Advisor. Contact the department advisor, 801-626-6411.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. CHF 1500 will fulfill both a major and general education requirement and is prerequisite to most Child and Family Studies Department major courses. To fulfill the Math requirement, any Quantitative Literacy approved course will complete the requirement.

Program Learning Outcomes

Successful candidates demonstrate the National Association for the Education of Young Children Professional Standards and Competencies for an Early Childhood Education II designation.

- 1. Child Development and Learning in Context
 - 1a. Understanding of the development period of early childhood from birth through age 8 across developmental domains.
 - 1b. Understand each child as an individual with unique developmental variations.
 - 1c. Understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
 - 1d. Use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities.
- 2. Family-Teacher Partnerships and Community Connections.
 - 2a. Know about, understand, and value the diversity of families.
 - 2b. Collaborate as partners in families in young children's development and learning through respectful, reciprocal relationships and engagement.
 - 2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.
- 3. Child Observation, Documentation, and Assessment.
 - 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
 - 3b. Use screening and assessment tools in ways that are ethically grounded and developmentally, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child.
 - 3c. Build assessment partnerships with families and professional colleagues.
- 4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices.
 - 4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
 - 4b. Understand use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
 - 4c. Use of a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.
- 5. Integration of Academic Content in the Early Childhood Curriculum
 - 5a. Understand content knowledge - the central concepts, methods and tools of inquiry, structure, and resources for the academic disciplines.
 - 5b. Understand pedagogical content knowledge - how young children learn in each discipline - and how to use the teacher knowledge and practices described in standards 1 through 4 to support young children's learning in each content area.
- 6. Professionalism as an Early Childhood Educator
 - 6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
 - 6b. Know about and uphold ethical and other early childhood professional guidelines.
 - 6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
 - 6d. Engage in continuous, collaborative learning to inform practice.
 - 6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements for AAS Degree

Child & Family Studies Courses Required (minimum of 26 credit hours)

- CHF 1500 SS/CC - Human Development **Credits: (3)**
- ECED 2110 - Self-Compassion for Sustaining Work with Children **Credits: (2)**
- ECED 2500 - Development of the Child **Credits: (3)**
- ECED 2600 - Introduction to Early Childhood Education & Care **Credits: (3)**
- ECED 2620 - Planning Creative Experiences for Young Children **Credits: (3)**
- ECED 2640 - Collaborating with Families of Young Children. **Credits: (3)**
- ECED 2670 - Early Childhood Integrated Curriculum and Assessment **Credits: (3)**
- ECED 2610 - Child Guidance **Credits: (3)**
- ECED 2860 INT - Practicum in Early Childhood **Credits: (1-6)**
- ECED 2990 - Seminar in Early Childhood Education **Credits: (1)**

Institutional Certificate

Early Childhood Educator I Certificate of Proficiency

The Early Childhood Educator I Certificate of Proficiency at Weber State University offers specialized training for teaching assistants to sustain high-quality environments for young children birth- 8 years in public and private schools, child care, and community service programs such as public schools, Head Start, home visiting, or early intervention. This is an online asynchronous program with 60 hours of applied in-person field experience. This certificate is the first step in becoming a lead teacher, obtaining a Kindergarten-3rd grade educator license, and program leadership through an AAS or BS in Early Childhood or the BS in Early Childhood Education.

- **Program Prerequisite:** Before beginning this program, a student must see the department advisor (801-626-6411).
- **Grade Requirements:** A grade of at least a "C" in CHF 1500 and 2400, and B- or better in ECED courses.
- **Credit Hour Requirements:** A total of 18 credit hours is required for completion of the certificate program.
- **Program Code:** 7066CP
- **CIPC:** 131501

Advisement

All advising for the Early Childhood Educator I Certificate of Proficiency will be conducted by the Department of Child and Family Studies Advisor (801-626-6411).

Admission Requirements

The program is open to all students and has no special admissions prerequisites or requirements.

Program Learning Outcomes

Successful candidates demonstrate the National Association for the Education of Young Children Early Childhood Education I competencies for the national professional standards.

- 1. Child Development and Learning in Context
 - 1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
 - 1b. Understand each child as an individual with unique developmental variations.
 - 1c. understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
 - 1d. use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities
- 2. Family-Teacher Partnerships and Community Connections.
 - 2a. Know about, understand, and value the diversity of families.
 - 2b. Collaborate as partners with families in young children's development and learning through respectful, reciprocal relationships and engagement.
 - 2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.
- 3. Child Observation, Documentation, and Assessment.
 - 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
 - 3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.
 - 3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child. 3d: Build assessment partnerships with families and professional colleagues.
- 4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices
 - 4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
 - 4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
 - 4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.
- 5. Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum
 - 5a. Understand content knowledge- the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
 - 5b. Understand pedagogical content knowledge-how young children learn in each discipline-and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
 - 5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.
- 6. Professionalism as an Early Childhood Educator
 - 6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
 - 6b. Know about and uphold ethical and other early childhood professional guidelines.
 - 6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
 - 6d. Engage in continuous, collaborative learning to inform practice.
 - 6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements

Required Course (18 credit hours)

Semester 1

- ECED 2600 - Introduction to Early Childhood Education & Care **Credits: (3)**
- ECED 2610 - Child Guidance **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**

Semester 2

- ECED 2500 - Development of the Child **Credits: (3)**
- ECED 2620 - Planning Creative Experiences for Young Children **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)** or an advisor approved substitution (EDUC 1010, NUTR 1020, PSY 1010, MUSC 1010, GEOG 1000, ENTR 1002, COMM 2110, ART 1010)

Bachelor of Science

Early Childhood (BS)

The Department of Child and Family Studies offers a Bachelor of Science (B.S) major in Early Childhood (EC) for preparation to teach in prekindergarten classrooms, early childhood program administration, and work in community agencies providing services for young children and families such as Head Start, home visiting, and early intervention. Students gain a strong foundation in child development and guidance, curriculum design for inclusion, partnering with families, and leadership. This is an online asynchronous program and 460 hours of applied in-person field experience.

Students who wish to obtain certification to teach in kindergarten through 3rd grade graduate with a major in Early Childhood Education.

- **Program Prerequisite:** Not required.
- **Minor:** Required. In lieu of a minor, a specialization of 15 credit hours may be substituted as approved by the advisor. Six of these hours must be upper division (courses numbered 3000 or above).
- **Grade Requirements:** Early Childhood students must meet minimum major course grade requirements and maintain a cumulative GPA of 2.50 or higher for all college courses. Students must receive at least a "C" in CHF 1500 & 2400, and a B- or better in each major course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood/Early Childhood Education Program to graduate with the lower grade.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation. The program requires the following: Early Childhood Major required and elective courses: 75 credits; Specialization or minor: 15-18 credits. A minimum of 40 credit hours must be upper division (courses numbered 3000 and above); 37-43 are required within the major core courses.
- **Program Code:** 5000BS
- **CIPC:** 190706

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in the McKay Education Building (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Families Studies Advising.

Admission Requirements

Contact the Child and Family Studies Department Academic Advisor located in the McKay Education Building (801-626-6411). Every student is assigned a Faculty Advisor. Also refer to the Child and Family Studies Advising.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Declaring Your Major or Minor under Child and Family Studies Admissions) with the Department of Child and Family Studies Academic Advisor. Contact the department advisor, 801-626-6411, Child and Family Studies Advising.

To complete ECED 4720 Early Childhood Education Student Teaching Pre-K in the Melba S. Lehner Children's School, students must submit an Early Childhood Student Teaching Application and obtain paperwork including clearance of criminal background and CPR/First Aid and Food Handling certifications. Look for more information on Early Childhood On-Campus Field Experience.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. CHF 1500 will satisfy a general education requirement and is prerequisite to most major courses.

Program Learning Outcomes

Successful candidates demonstrate the National Association for the Education of Young Children Professional Standards and Competencies for an Early Childhood Education III designation.

- 1. Child Development and Learning in Context
 - 1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
 - 1b. Understand each child as an individual with unique developmental variations.
 - 1c. understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
 - 1d. use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities
- 2. Family-Teacher Partnerships and Community Connections.
 - 2a. Know about, understand, and value the diversity of families.
 - 2b. Collaborate as partners with families in young children's development and learning through respectful, reciprocal relationships and engagement.
 - 2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.
- 3. Child Observation, Documentation, and Assessment.
 - 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
 - 3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.

- 3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child. 3d: Build assessment partnerships with families and professional colleagues.
- 4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices
 - 4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
 - 4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.
 - 4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.
- 5. Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum
 - 5a. Understand content knowledge- the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
 - 5b. Understand pedagogical content knowledge-how young children learn in each discipline-and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
 - 5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.
- 6. Professionalism as an Early Childhood Educator
 - 6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
 - 6b. Know about and uphold ethical and other early childhood professional guidelines.
 - 6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
 - 6d. Engage in continuous, collaborative learning to inform practice.
 - 6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Major Course Requirements for BS Degree

Pre Core Course Required (6 credits)

Students must receive at least a "C" in CHF 1500& 2400.

- CHF 1500 SS/CC - Human Development **Credits: (3)** (*Satisfies General Education Requirement.*)
- CHF 2400 SS/CC - Family Relations **Credits: (3)**

Core Courses Required (63 credits/37-43 upper division)

- ECED 2110 - Self-Compassion for Sustaining Work with Children **Credits: (2)** or
- ECED 4110 - Self-Compassion for Sustaining Work with Children **Credits: (2)**
- ECED 2500 - Development of the Child **Credits: (3)**
- ECED 2600 - Introduction to Early Childhood Education & Care **Credits: (3)**
- ECED 2610 - Child Guidance **Credits: (3)**
- ECED 2620 - Planning Creative Experiences for Young Children **Credits: (3)**

- ECED 2670 - Early Childhood Integrated Curriculum and Assessment **Credits: (3)**
 - ECED 2860 INT - Practicum in Early Childhood **Credits: (1-6)**
 - ECED 2990 - Seminar in Early Childhood Education **Credits: (1)**
 - ECED 3500 - Young Children: Adversity and Resilience **Credits: (3)**
 - ECED 3570 - Infants and Toddlers: Development and Practice **Credits: (3)**
 - ECED 3640 - Collaborating with Families of Young Children **Credits: (3)**
- OR**
- ECED 2640 - Collaborating with Families of Young Children. **Credits: (3)**
 - ECED 4130 - Language Development and Emergent Literacy in Early Childhood **Credits: (3)**
 - ECED 4230 - Observing and Assessing Children in Context **Credits: (3)**
 - ECED 4250 - Inclusive Early Childhood Intervention and Special Education **Credits: (3)**
 - ECED 4260 - Inclusive Early Childhood Curriculum **Credits: (3)**
 - ECED 4670 - STEM in Early Childhood **Credits: (3)**
 - ECED 4710 - Advanced Guidance and Planning for Early Childhood Education **Credits: (1-3) ***
 - ECED 4720 INT - Student Teaching Birth-5 **Credits: (6)** (6 credit hours required) *
 - ECED 4730 - Early Childhood/Early Childhood Education Program Development **Credits: (3)**
 - ECED 4820 - Child Observation Seminar **Credits: (1)**
 - ECED 4890 INT - Internship in Early Childhood **Credits: (1-6)**
 - ECED 4990 - Seminar in Early Childhood Education **Credits: (3)**
- * ECED 4710 and ECED 4720 are taken concurrently in fall or spring semester. Check for more information on Early Childhood On-Campus Field Experience.**

Major Elective Courses (6 credits)

You may take the following courses for a total of 6 credit hours required for this major degree.

- ECED 2910 - Children & Families: Variable Titles **Credits: (1-3)**
- ECED 4910 - Children & Families: Variable Titles **Credits: (1-3)**
- ECED 4220 - Understanding Children Beyond Behavior **Credits: (3)**
- FAM 4300 - Latino Child and Family Development **Credits: (3)**
- FAM 4450 - Children and Families in the Medical Setting **Credits: (3)**
- ECED 4260 - Inclusive Early Childhood Curriculum **Credits: (3)**
- ECED 4270 - Young Children's Play **Credits: (3)**
- ECED 4860 INT - Practicum in Early Childhood **Credits: (1-6)** (2 credits with ECED 4720)
- ECED 4861 INT - Practicum in K-3 **Credits: (1-3)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- MUSC 3824 - Music for Elementary Teachers **Credits: (3)**
- THEA 4603 - Creative Drama **Credits: (3)**

Early Childhood Education (BS)

The Department of Child and Family Studies offers a Bachelor of Science (B.S.) major in Early Childhood Education (ECE) teach Pre-Kindergarten through 3rd Grade. Students prepare to teach in a Pre-K-3rd grade public or private school classroom and Head Start. This is an online asynchronous program with over 500 hours of applied in-person field experience that includes 60 days of student teaching in public schools.

- **Program Prerequisite:** Provisional admission to the ECE Program (see the admission requirements described under Child and Family Studies Admissions).
- **Area of Specialization:** Required. ECE majors meet all requirements for a specialization area in "Early Childhood Education Birth-5 Teaching" upon completing the program.
- **Grade Requirements:** Early Childhood Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work and at least a "B-" grade in each ECE major required course to continue in the program. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. If the student retakes a course, the student will receive the grade earned in the second course attempt. In special circumstances, by the judgment of the department chair, the student may petition to the Early Childhood Education Program, as appropriate, to graduate with the lower grade. Early Childhood Education majors must also achieve at least a "C" grade in CHF 1500 SS/CC, MATH 2010, MATH 2015, and MATH 2020 QL.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for a bachelor's degree; 60 of these are required within the major.
- **Program Code:** 5002BS
- **CIPC:** 131210

Program Learning Outcomes

Successful candidates demonstrate competencies for the Utah Effective Teaching Standards and National Association for the Education of Young Children Early Childhood Education III professional designation.

- 1. Child Development and Learning in Context
 - 1a. Understanding of the developmental period of early childhood from birth through age 8 across developmental domains.
 - 1b. Understand each child as an individual with unique developmental variations.
 - 1c. understand that children learn and develop within relationships and within multiple contexts, including families, cultures, languages, communities, and society.
 - 1d. use this multidimensional knowledge to make evidence-based decisions about how to carry out their responsibilities
- 2. Family-Teacher Partnerships and Community Connections.
 - 2a. Know about, understand, and value the diversity of families.
 - 2b. Collaborate as partners with families in young children's development and learning through respectful, reciprocal relationships and engagement.
 - 2c. Use community resources to support young children's learning and development and to support families, and build partnerships between early learning settings, schools, and community organizations and agencies.
- 3. Child Observation, Documentation, and Assessment.
 - 3a. Understand that assessments (formal and informal, formative and summative) are conducted to make informed choices about instruction and for planning in early learning settings.
 - 3b. Know a wide range of types of assessments, their purposes, and their associated methods and tools.
 - 3c. Use screening and assessment tools in ways that are ethically grounded and developmentally, ability, culturally, and linguistically appropriate in order to document developmental progress and promote positive outcomes for each child. 3d: Build assessment partnerships with families and professional colleagues.
- 4. Developmentally, Culturally, and Linguistically Appropriate Teaching Practices
 - 4a. Understand and demonstrate positive, caring, supportive relationships and interactions as the foundation of early childhood educators' work with young children.
 - 4b. Understand and use teaching skills that are responsive to the learning trajectories of young children and to the needs of each child, recognizing that differentiating instruction, incorporating play as a core teaching practice, and supporting the development of executive function skills are critical for young children.

- 4c. Use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, evidence-based teaching skills and strategies that reflect the principles of universal design for learning.
- 5. Knowledge, Application, and Integration of Academic Content in the Early Childhood Curriculum
 - 5a. Understand content knowledge- the central concepts, methods and tools of inquiry, and structure-and resources for the academic disciplines in an early childhood curriculum.
 - 5b. Understand pedagogical content knowledge-how young children learn in each discipline-and how to use the teacher knowledge and practices described in Standards 1 through 4 to support young children's learning in each content area.
 - 5c. Modify teaching practices by applying, expanding, integrating, and updating their content knowledge in the disciplines, their knowledge of curriculum content resources, and their pedagogical content knowledge.
- 6. Professionalism as an Early Childhood Educator
 - 6a. Identify and involve themselves with the early childhood field and serve as informed advocates for young children, families, and the profession.
 - 6b. Know about and uphold ethical and other early childhood professional guidelines.
 - 6c. Use professional communication skills, including technology-mediated strategies, to effectively support young children's learning and development and to work with families and colleagues.
 - 6d. Engage in continuous, collaborative learning to inform practice.
 - 6e. Develop and sustain the habit of reflective and intentional practice in their daily work with young children and as members of the early childhood profession.

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). Early Childhood Education majors must meet the Early Childhood Education admission and licensure requirements (see the admission requirements under Child and Family Studies Admissions). The minimum GPA requirement is 2.75 or 3.0 in the last 30 credit hours (see Teacher Education Application).

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. Following the suggested guidelines below will ensure both University and General Education Requirements are met.

The following courses required for the Early Childhood Education major will also satisfy general education requirements: COMM 1020 HU or COMM 2110 HU CEL, MATH 2020 QL, and CHF 1500 SS/CC. Meeting the general education science requirements may not meet education science requirements.

Major Course Requirements for BS Degree resulting in a PreK-3 Utah Educator License

II. Support Courses Required (38-39 credit hours)

- CHF 1500 SS/CC - Human Development **Credits: (3) ***
- ECED 2600 - Introduction to Early Childhood Education & Care **Credits: (3)**
- ECED 2110 - Self-Compassion for Sustaining Work with Children **Credits: (2)**
- or**
- ECED 4110 - Self-Compassion for Sustaining Work with Children **Credits: (2)**

- ECED 2500 - Development of the Child **Credits: (3)**
- ECED 2610 - Child Guidance **Credits: (3)**
- ECED 2620 - Planning Creative Experiences for Young Children **Credits: (3)**
- ECED 2670 - Early Childhood Integrated Curriculum and Assessment **Credits: (3)**
- ECED 2860 INT - Practicum in Early Childhood **Credits: (1-6)**
- ECED 2990 - Seminar in Early Childhood Education **Credits: (1)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or *
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** *
- MATH 2010 - Arithmetic for Elementary Teachers **Credits: (3)**
- MATH 2015 - Algebra for Elementary Teachers **Credits: (3)**
- MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *

** Also fulfills the General Education requirements.*

At least one course from the following:

- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- MUSC 3824 - Music for Elementary Teachers **Credits: (3)**
- THEA 4603 - Creative Drama **Credits: (3)**

III. Major Core Courses Required (60 credit hours)

The course blocks suggested below are designed to include all ECED and Teacher Education levels courses required for the Early Childhood Education BS major without conflicting class schedules. Taking classes outside of the stated sequence might delay graduation.

Note: Apply to the WSU Teacher Education Program. Admission to the TED Program is required prior to enrollment in Teacher Education levels courses.

ECE Block 1 (15 credits)

- ECED 4250 - Inclusive Early Childhood Intervention and Special Education **Credits: (3)**
- ECED 4260 - Inclusive Early Childhood Curriculum **Credits: (3)**
- ECED 3500 - Young Children: Adversity and Resilience **Credits: (3)**
- EDUC 3270 - Addressing Differentiation, Collaboration and IEPs for Inclusive Teaching **Credits: (3)**
- EDUC 3565 - Elementary English Language Arts: Evaluation, Remediation and Supports **Credits: (2)**
- ECED 4861 INT - Practicum in K-3 **Credits: (1-3)**

ECE Block 2 (14 credits)

- ECED 4130 - Language Development and Emergent Literacy in Early Childhood **Credits: (3)**
- ECED 4670 - STEM in Early Childhood **Credits: (3)**
- PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers **Credits: (3)**
- EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
- ECED 4861 INT - Practicum in K-3 **Credits: (1-3)**

Note: Apply for Early Childhood Pre-K Student Teaching the semester prior to enrollment in ECED 4710 and ECED 4720.

ECE Block 3 (15 credits)

- ECED 4230 - Observing and Assessing Children in Context **Credits: (3)**
- ECED 3640 - Collaborating with Families of Young Children **Credits: (3)**
or
- ECED 2640 - Collaborating with Families of Young Children. **Credits: (3)**
- ECED 4260 - Inclusive Early Childhood Curriculum **Credits: (3)**
- ECED 4710 - Advanced Guidance and Planning for Early Childhood Education **Credits: (1-3)**
- ECED 4720 INT - Student Teaching Birth-5 **Credits: (6)**

**** Taken concurrently with ECED 4710.***

Note: Apply for K-3 Student Teaching the semester prior to enrollment in ECED 4721.

ECE Block 4 (16 credits)

- EDUC 4345 - Elementary Integrated Arts Methods **Credits: (3)**
- EDUC 4350 - Elementary Mathematics Pedagogy **Credits: (2)**
- ECED 4721 INT - Student Teaching K-3 **Credits: (3-6)**
- ECED 4990 - Seminar in Early Childhood Education **Credits: (3)**
- EDUC 3115 - Media Integration in Elementary Education Settings **Credits: (2)**

Family Studies (BS)

The Department of Child and Family Studies offers a Bachelor of Science (BS) degree in Family Studies. Students will learn to address the holistic needs of children and their families as a family life educator. The BS degree in family studies also qualifies you to apply to be a Certified Family Life Educator through the National Council on Family Relations, a national certification recognized in all 50 states. Students can earn the BS degree in person or *fully online (*in-person practicum experience required).

- **Program Prerequisite:** (1) Complete the Pre-professional Core courses (2) Declare your Family Studies major with the department academic advisor;(see Program of Study Major/minor Declaration); (3) Complete a background check and clearance (see Policy Notes).
- **Minor:** A minor is required.* **Optional:** In lieu of a minor, a specialization of 12-18 semester hours may be substituted as approved by the faculty advisor. Six of these hours must be upper division (courses numbered 3000 and above).
- **Grade Requirements:** A grade of C or better in courses required for this major (a grade of C- is not acceptable). Students will receive the final grade they have earned in each course. If a grade in a major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade. Also refer to the grade requirements for graduation under General Requirements.
- **Credit Hour Requirements:** A total of at least 120 credit hours is required for graduation; a minimum of 48 of these must be within the major. A total of 40 upper division credit hours is required by the University (courses numbered 3000 and above); 33 of these are required within the major.
- **Program Code:** 5003BS
- **CIPC:** 190704

Advisement

Students must follow the Department of Child and Family Studies Advisement procedures. Contact the department advisor located in McKay Education Building (801-626-6411). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Program of Study (Major/Minor) Declaration). To be eligible for acceptance into and graduation from the Family Studies Program a candidate must:

1. Complete all of the Pre-professional Core courses listed under Course Requirements.
2. Declare the Family Studies major and a minor or specialization.
3. Complete a background check and clearance (see Policy Notes).

Policy Notes

Since students majoring in Family Studies will be working with families and children, the State of Utah requires a background check and clearance. Applicants must be fingerprinted and complete a background check before being fully accepted into the program. (see Family Studies Fingerprinting Process). Background checks require up to eight weeks and should be completed, or in progress, at the time Family Studies Program courses are begun. Contact the department administrative specialist for further details.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

** Family Studies students may combine their major with either a minor or a dual major. Consult with an advisor when designing a dual major. Minors may be selected from department minor offerings across campus. Typical minors include Psychology, Sociology, Gerontology, Social Work, Communications, and/or Business. A minor should be designed to best support personal goals or career directions.*

The Family Studies program fulfills the requirements for provisional certification as a Family Life Educator, available by application and paid fee to the National Council on Family Relations. Full certification requires two years of paid professional experience in addition to the Family Studies degree. Provisional certification allows five years to complete the two-year requirement.

Program Learning Outcomes

- Families and Individuals in Societal Contexts: An understanding of families and their relationships to other institutions, such as the educational, governmental, religious, health care, and occupational institutions in society.
- Internal Dynamics of Families: An understanding of family strengths and weaknesses and how family members relate to and interact with each other.
- Human Growth and Development Across Lifespan: An understanding of the development changes (both typical and atypical) of individuals in families across the lifespan. Based in knowledge of physical, emotional, cognitive, social, moral, and personality aspects.
- Human Sexuality Across the Lifespan: An understanding of the physiological, psychological, and social aspects of sexual development across the lifespan, to achieve healthy sexual adjustment.
- Interpersonal Relationships: An understanding of the development, maintenance, and dissolution of interpersonal relationship among friends, roommates, coworkers, neighbors, as well as family members.

- Family Resource Management: An understanding of the decisions individuals and families make about developing and allocating resources including money, time, energy, space, material, and health assets, and networks of support to meet their goals.
- Parenting Education and Guidance: An understanding of how parents teach, guide, and influence children and adolescents, as well as the changing nature, dynamics and needs of the parent-child relationship across the lifespan.
- Family Law and Public Policy: An understanding of legal issues, policies, and laws influencing the well-being of families.
- Professional Ethics and Practice: An understanding of the character and quality of human social conduct, and the ability to critically examine ethical questions and issues as they relate to professional practice.
- Family Life Education Methodology: An understanding of the general philosophy and broad principles of Family Life Education in conjunction with the ability to plan, implement, assess, and evaluate such educational programs.

Major Course Requirements for BS Degree

Pre-professional Core Course Requirements (12 credit hours)

- FAM 1400 - Marriage and Romantic Relationships **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- FAM 2100 - Family Resource Management **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)**

Family Studies Professional Core Block Courses Required (36 semester hours)

The course sequence is designed to allow a Family Studies major to meet all program prerequisites and complete the program in three full-time semesters without conflicting class schedules. Taking classes outside of the stated semesters will delay graduation.

Block Courses Semester 1

- FAM 2990B - Seminar in Family Studies **Credits: (3)**
- FAM 3850 CRE - Current Research Methods in Child and Family Studies **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- FAM Elective Course 1--(Choose one of the electives listed below.) **Credits: (3)**

Block Courses Semester 2

- FAM 3350 GLB - Diverse Families **Credits: (3)**
- FAM 3550 - Parenting Education **Credits: (3)**
- FAM Elective Course 2--(Choose one of the electives listed below.) **Credits: (3)**
- FAM Elective Course 3--(Choose one of the electives listed below.) **Credits: (3)**

Block Courses Semester 3

- FAM 4650 - Family Life Education Methods **Credits: (3)**
- FAM 4860 INT - Practicum **Credits: (1-6)** (3 credit hours required)
- FAM 4990B - Senior Seminar in Family Studies **Credits: (3)**

- FAM Elective Course 4--(Choose one of the electives listed below.) **Credits: (3)**

Elective Courses (You may choose four of the following courses for a total of 12 credit hours required for this major degree)

- FAM 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- FAM 3400 - Development in Middle Adulthood **Credits: (3)**
- FAM 3450 - Development in Late Adulthood **Credits: (3)**
- FAM 3650 - Introduction to Marriage and Family Therapy **Credits: (3)**
- FAM 3660 - LGBTQ Families **Credits: (3)**
- FAM 3700 - Family Life Education and Sexuality **Credits: (3)**
- FAM 3820 - Organization and Leadership of Non-profit Family Services **Credits: (3)**
- FAM 4275 - Family Life Education Coaching **Credits: (3)**
- FAM 4300 - Latino Child and Family Development **Credits: (3)**
- FAM 4310 - Understanding the Modern United States Military Family **Credits: (3)**
- FAM 4350 - Religiosity and Family Life Education **Credits: (3)**
- FAM 4400 - The Family in Stress **Credits: (3)**
- FAM 4450 - Children and Families in the Medical Setting **Credits: (3)**
- FAM 4500 - Comparative Study of Childhood and Adolescent Development **Credits: (3)**
- FAM 4660 - Advanced Skills for Family Life Educators **Credits: (3)**

Note:

Students who are planning to apply to a graduate program are strongly encouraged to take a statistics course. See the Department of Child and Family Studies academic advisor for a list of appropriate classes.

Emphasis Option for Bachelor of Interdisciplinary Studies

Child and Family Studies (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Bachelor of Interdisciplinary Studies (BIS) is an interdisciplinary degree that allows students to combine three areas of study to create a unique major that matches their interests. An emphasis in child and family studies provides you with knowledge of family relations and child growth and development.

- **Grade Requirements:** An overall GPA of 2.00 or C in courses used toward the emphasis. Students will receive the final grade they have earned in each course. If a grade in a Child & Family Studies major course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.
- **Credit Hour Requirements:** A minimum of 18 credit hours from Child and Family Studies to include 6 hours of required courses and 12 hours of electives. Two courses (6 credits) must be upper division (3000 level or above).
- **Program Code:** 5054
- **CIPC:** 190704

All Child and Family Studies courses must have been taken within the last 10 years to count towards major/minor requirements.

Advisement

BIS students are encouraged to first meet with the BIS program and then seek advisement with the CHF Academic Advisor.

Required Courses (6 credit hours)

- CHF 1500 SS/CC - Human Development **Credits: (3)** *
- CHF 2400 SS/CC - Family Relations **Credits: (3)**

Note:

** If taken for Social Science general education credit, CHF course (3 credits) must be added.*

Electives (minimum 12 credit hours)

Elective courses to be determined in conference with a department advisor.

- *At least six credit hours must be upper-division (courses numbered 3000 and higher).*

Minor

Child Development Minor

- **Grade Requirements:** A grade of C or better in courses used toward the minor.
- **Credit Hour Requirements:** A minimum of 18 credit hours, of which at least 6 must be upper division courses (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies Program or the Early Childhood/Early Childhood Education Programs, as appropriate, to graduate with the lower grade.
- **Program Code:** 5001
- **CIPC:** 190706

Advisement

Child development minors are encouraged to meet with the CHF Academic Advisor.

Course Requirements for Minor

Required Courses (12 credit hours)

- ECED 2500 - Development of the Child **Credits: (3)**

- ECED 2610 - Child Guidance **Credits: (3)** *(lab required)*
- ECED 3570 - Infants and Toddlers: Development and Practice **Credits: (3)**
- ECED 3500 - Young Children: Adversity and Resilience **Credits: (3)**

Electives (6 credit hours)

Select at least two courses from the following

- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- ECED 2110 - Self-Compassion for Sustaining Work with Children **Credits: (2)**
- ECED 4110 - Self-Compassion for Sustaining Work with Children **Credits: (2)**
- ECED 2600 - Introduction to Early Childhood Education & Care **Credits: (3)**
- ECED 2620 - Planning Creative Experiences for Young Children **Credits: (3)** *(lab required)*
- ECED 3640 - Collaborating with Families of Young Children **Credits: (3)**
- ECED 2640 - Collaborating with Families of Young Children. **Credits: (3)**
- ECED 2670 - Early Childhood Integrated Curriculum and Assessment **Credits: (3)**
- ECED 4670 - STEM in Early Childhood **Credits: (3)**
- ECED 4130 - Language Development and Emergent Literacy in Early Childhood **Credits: (3)**
- ECED 4250 - Inclusive Early Childhood Intervention and Special Education **Credits: (3)**
- ECED 4260 - Inclusive Early Childhood Curriculum **Credits: (3)**
- ECED 4270 - Young Children's Play **Credits: (3)**
- ECED 4820 - Child Observation Seminar **Credits: (1)**
- FAM 3350 GLB - Diverse Families **Credits: (3)**
- FAM 3550 - Parenting Education **Credits: (3)**
- FAM 4300 - Latino Child and Family Development **Credits: (3)**
- FAM 4500 - Comparative Study of Childhood and Adolescent Development **Credits: (3)**

Family Studies Minor

- **Grade Requirements:** An overall GPA of 2.00 or C in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 18 credit hours, of which at least 6 must be upper division (courses numbered 3000 and above). Students will receive the final grade they have earned in each course. If a grade in a minor course does not meet the minimum requirement for graduation, the student may retake the course once. In special circumstances, by the judgment of the department chair, the student may petition to the Family Studies or Early Childhood Committee, as appropriate, to graduate with the lower grade.
- **Program Code:** 5003
- **CIPC:** 190704

Advisement

Family studies minors are encouraged to meet with the CHF Academic Advisor.

Course Requirements for Minor

Required Courses (9 credit hours)

- FAM 1400 - Marriage and Romantic Relationships **Credits: (3)**

- CHF 1500 SS/CC - Human Development **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)**

Faculty Advisor Approved Elective Courses (9 credit hours)

Select 9 credit hours from the following with at least 6 credit hours of upper-division (courses numbered 3000 and higher)

- FAM 2100 - Family Resource Management **Credits: (3)**
- ECED 2500 - Development of the Child **Credits: (3)**
- ECED 2610 - Child Guidance **Credits: (3)**
- FAM 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- FAM 3350 GLB - Diverse Families **Credits: (3)**
- FAM 3450 - Development in Late Adulthood **Credits: (3)**
- ECED 3500 - Young Children: Adversity and Resilience **Credits: (3)**
- FAM 3550 - Parenting Education **Credits: (3)**
- ECED 3640 - Collaborating with Families of Young Children **Credits: (3)**
- FAM 3650 - Introduction to Marriage and Family Therapy **Credits: (3)**
- FAM 3850 CRE - Current Research Methods in Child and Family Studies **Credits: (3)**
- FAM 4300 - Latino Child and Family Development **Credits: (3)**
- FAM 4400 - The Family in Stress **Credits: (3)**
- FAM 4500 - Comparative Study of Childhood and Adolescent Development **Credits: (3)**
- FAM 4650 - Family Life Education Methods **Credits: (3)**

Department of History

Department Chair: Sara Dant

Location: Lindquist Hall, Room 232

Telephone Contact: Jenna Daniels, 801-626-6706

Professors: Brady Brower, Sara Dant, Vikki Deakin, Gregory Lewis, Branden Little, Susan Matt, Eric Swedin, Stephen Francis; **Associate Professors:** Matthew Romaniello; **Assistant Professors:** Leah LaGrone;

Instructors: Eric Fenrich, Nathan Rives; **International Visiting Professor:** Abdalnaser Kaadan

History is a record of political, social and cultural events and achievements of humankind. Historians analyze and evaluate this record in an attempt to understand and interpret the present.

The history offerings are designed to: provide adequate programs to prepare teachers; prepare students who plan to do graduate work; and provide courses which contribute to the general education of all students.

Interdisciplinary Minors

The History Department participates in the Asian Studies, Environmental Studies, Ethnic Studies, European Studies and Latin American Studies Minor Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Bachelor of Arts

History (BA)

- **Program Prerequisite:** Not required.
- **Minor:** Required. The Public History and Asian Studies minors also eligible with a History Major.
- **Grade Requirements:** A grade of "C" or better in courses applied toward this major (a grade of "C-" is not acceptable) in addition to a GPA for these courses of 2.50 or higher. Also refer to the general grade requirements for graduation..
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 37 of these is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 24 of these are required within the major.
- **Program Code:** 7007BA
- **CIPC:** 540101

Advisement

History majors are required to meet with their faculty advisor at least annually for course and program advisement. They must also meet with their advisor or the department chair before registration for HIST 4990. Call 801-626-6706 for additional information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for the History major.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Program Learning Outcomes

- Historical Knowledge
- Pastness of Past
- International Perspectives
- Historical Complexity
- Critical Thinking
- Research Skills
- Historical Argumentation

Major Course Requirements for BA Degree

History Core Courses Required (13 credit hours)

- HIST 1000 - Introduction to the Craft of History **Credits: (1)**
- HIST 2700 - History of the United States to 1877 **Credits: (3)**
- HIST 2710 - History of the United States since 1877 **Credits: (3)**
Take one of the following early world courses:

- HIST 1100 - European History to 1500 **Credits: (3)**
- HIST 1300 - Latin American History to the 1820s **Credits: (3)**
- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)**
Take one of the following modern world courses:
- HIST 1110 - European History from 1500 **Credits: (3)**
- HIST 1310 - Latin American History since the 1820s **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**

Note:

All the above should be taken before upper-division course work (courses numbered 3000 and above).

Language Courses Required to fulfill the BA (12 credit hours)

6 credit hours of foreign language

and the following language arts courses

- HIST 4985 - Historical Research and Methods **Credits: (3)**
- HIST 4990 - Senior Seminar **Credits: (3)** *

Note:

** Should be taken during senior year. HIST 4985 is a prerequisite to HIST 4990.*

Upper Division Elective Courses (18 credit hours)

Select at least one course in each area.

North American History

- HIST 3010 - History of Indigenous America **Credits: (3)**
- HIST 3030 - African-American History **Credits: (3)**
- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**
- HIST 3090 - American Social History **Credits: (3)**
- HIST 3110 - American Ideas and Culture **Credits: (3)**
- HIST 3130 - Cities in US History **Credits: (3)**
- HIST 3120 - American Society through Film **Credits: (3)**
- HIST 3210 - U.S. Constitutional History **Credits: (3)**
- HIST 3220 - History of the Bill of Rights **Credits: (3)**
- HIST 3230 GLB - American Foreign Relations **Credits: (3)**
- HIST 3250 - Religion in American History **Credits: (3)**
- HIST 3270 SUS - American Environmental History **Credits: (3)**
- HIST 3280 GLB - American Military History from 1500 to 1890 **Credits: (3)**
- HIST 3290 GLB - American Military History from 1890 to the Present **Credits: (3)**
- HIST 4010 - Early North America to 1763 **Credits: (3)**
- HIST 4020 - Era of the American Revolution: 1763-1800 **Credits: (3)**

- HIST 4030 - New Nation: 1800-1840 **Credits: (3)**
- HIST 4040 - Era of the Civil War and Reconstruction: 1840-1877 **Credits: (3)**
- HIST 4050 - U.S. in the Gilded Age and Progressive Era: 1877-1919 **Credits: (3)**
- HIST 4060 - United States: 1919-1945 **Credits: (3)**
- HIST 4065 GLB - The United States in the Second World War **Credits: (3)**
- HIST 4070 - United States since 1945 **Credits: (3)**
- HIST 4110 - History of the American West to 1900 **Credits: (3)**
- HIST 4120 - The American West since 1900 **Credits: (3)**
- HIST 4130 - History of Utah **Credits: (3)**
- HIST 4710 - Special Issues and Topics in American History **Credits: (3)**

European History

- HIST 4210 - Ancient History **Credits: (3)**
- HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**
- HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 **Credits: (3)**
- HIST 4250 - Nineteenth-Century Europe **Credits: (3)**
- HIST 4260 - Europe in the Age of Total War **Credits: (3)**
- HIST 4280 - History of Christianity in Europe **Credits: (3)**
- HIST 4310 - Tsarist Russia **Credits: (3)**
- HIST 4320 CRE - Stalin and the Soviet Experiment **Credits: (3)**
- HIST 4330 - Medieval England **Credits: (3)**
- HIST 4335 - Tudor and Stuart England **Credits: (3)**
- HIST 4340 - The British Empire **Credits: (3)**
- HIST 4350 - Germany and the Third Reich **Credits: (3)**
- HIST 4370 - History of Modern France 1789-present **Credits: (3)**
- HIST 4410 - History of Spain and Portugal **Credits: (3)**
- HIST 4440 SUS - East European Empires **Credits: (3)**
- HIST 4450 - Cold War Europe **Credits: (3)**
- HIST 4720 - Special Issues and Topics in European History **Credits: (3)**

Global, Comparative, and General

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- HIST 4015 - History of the Atlantic World, 1400-1815 **Credits: (3)**
- HIST 4510 GLB - Twentieth Century World **Credits: (3)**
- HIST 4520 - History of Medicine **Credits: (3)**
- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4550 - Southeast Asian History **Credits: (3)**
- HIST 4570 - Islamic Civilization **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- HIST 4630 - Latin American History: Pre-Columbian to Independence **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**
- HIST 4670 - History of Mexico **Credits: (3)**
- HIST 4700 GLB - The U.S. and East Asia: War, Revolution, and Modernization **Credits: (3)**
- HIST 4730 - Special Issues and Topics in Global and Comparative History **Credits: (3)**

Other Electives

May be taken to meet credit hour requirements.

- HIST 3400 - Principles of Public History **Credits: (3)**
- HIST 3500 - Historic Preservation **Credits: (3)**
- HIST 3530 INT - History Editing **Credits: (3)**
- HIST 3550 - Archives: Principles, Practices & Preservation **Credits: (3)**
- HIST 3560 - Oral History: Connecting the Past to the Present **Credits: (3)**
- HIST 3570 - Digital History **Credits: (3)**
- HIST 4975 - Historiography **Credits: (3)**
- HIST 4810 - Experimental Course **Credits: (3)**
- HIST 4830 - Directed Readings **Credits: (1-3)** (*max 3 cr towards major/minor*)
- HIST 4860 INT - Internships in Historical Studies **Credits: (1-6)** (*max 6 cr towards major/minor*)
- HIST 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** (*max 6 cr towards major/minor*)

History Teaching (BA)

- **Program Prerequisite:** Not required. However, History Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Minor:** Required. Does not need to be in the teaching field.
- **Grade Requirements:** A grade of "C" or better in courses applied toward this major (a grade of "C-" is not acceptable) in addition to a GPA for these courses of 3.0 or higher. Also refer to the general grade requirements for graduation on Degree Requirements.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 40 of these is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 27 of these are required within the major.
- **Program Code:** 7008BA
- **CIPC:** 131328

Advisement

History Teaching majors are required to meet with their faculty advisor at least annually for course and program advisement. They must also meet with their advisor or the department chair before registration for HIST 4990. Call 801-626-6706 for additional information or to schedule an appointment. Teaching majors are also encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education.

Grad Map icon2Active-Hidden2022-05-27 16:48:022022-05-27 16:48:02 Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for the History Teaching major. However, Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department). (Also refer to the Department Advisor Referral List.)

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Program Learning Outcomes

- Historical Knowledge
- Pastness of Past
- International Perspectives
- Historical Complexity
- Critical Thinking
- Research Skills
- Historical Argumentation

Major Course Requirements for BA Degree

History Core Courses Required (22 credit hours)

- HIST 1000 - Introduction to the Craft of History **Credits: (1)**
- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**
- HIST 2700 - History of the United States to 1877 **Credits: (3)**
- HIST 2710 - History of the United States since 1877 **Credits: (3)**
- HIST 4130 - History of Utah **Credits: (3)**
- HIST 4975 - Historiography **Credits: (3)**
- HIST 4500 - Teaching Social Studies in Grades 5-12 **Credits: (3)**

Note:

It is preferable for students to take the above-listed lower-division courses before taking upper-division course work (courses numbered 3000 and above). HIST 4975 and HIST 4500 should be taken the year prior to entering the teacher education program.

Traditionally Underrepresented Communities (3 Credit Hours)

Select one of the following:

- HIST 3010 - History of Indigenous America **Credits: (3)**
- HIST 3030 - African-American History **Credits: (3)**
- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**
- HIST 3090 - American Social History **Credits: (3)**
- HIST 3110 - American Ideas and Culture **Credits: (3)**

Language Courses Required to fulfill the BA (12 credit hours)

- 6 credit hours of foreign language

and the following language arts courses

- HIST 4985 - Historical Research and Methods **Credits: (3)**
- HIST 4990 - Senior Seminar **Credits: (3)** *

Note:

** Should be taken during senior year. HIST 4985 is a prerequisite to HIST 4990.*

Upper Division Elective Courses (9 credit hours)

Select at least one course in the European section and one in the Global, Comparative, and General section.

North American History

- HIST 3010 - History of Indigenous America **Credits: (3)**
- HIST 3030 - African-American History **Credits: (3)**
- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**
- HIST 3090 - American Social History **Credits: (3)**
- HIST 3110 - American Ideas and Culture **Credits: (3)**
- HIST 3130 - Cities in US History **Credits: (3)**
- HIST 3210 - U.S. Constitutional History **Credits: (3)**

- HIST 4110 - History of the American West to 1900 **Credits: (3)**
- HIST 4120 - The American West since 1900 **Credits: (3)**
- HIST 4130 - History of Utah **Credits: (3)**
- HIST 4710 - Special Issues and Topics in American History **Credits: (3)**

European History

- HIST 4210 - Ancient History **Credits: (3)**
- HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**

- HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 **Credits: (3)**
- HIST 4250 - Nineteenth-Century Europe **Credits: (3)**
- HIST 4260 - Europe in the Age of Total War **Credits: (3)**
- HIST 4280 - History of Christianity in Europe **Credits: (3)**
- HIST 4310 - Tsarist Russia **Credits: (3)**
- HIST 4320 CRE - Stalin and the Soviet Experiment **Credits: (3)**
- HIST 4330 - Medieval England **Credits: (3)**
- HIST 4335 - Tudor and Stuart England **Credits: (3)**
- HIST 4340 - The British Empire **Credits: (3)**
- HIST 4350 - Germany and the Third Reich **Credits: (3)**
- HIST 4370 - History of Modern France 1789-present **Credits: (3)**
- HIST 4410 - History of Spain and Portugal **Credits: (3)**
- HIST 4440 SUS - East European Empires **Credits: (3)**
- HIST 4450 - Cold War Europe **Credits: (3)**
- HIST 4720 - Special Issues and Topics in European History **Credits: (3)**

Global, Comparative, and General

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- HIST 4015 - History of the Atlantic World, 1400-1815 **Credits: (3)**
- HIST 4510 GLB - Twentieth Century World **Credits: (3)**
- HIST 4520 - History of Medicine **Credits: (3)**
- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4550 - Southeast Asian History **Credits: (3)**
- HIST 4570 - Islamic Civilization **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- HIST 4630 - Latin American History: Pre-Columbian to Independence **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**
- HIST 4670 - History of Mexico **Credits: (3)**
- HIST 4700 GLB - The U.S. and East Asia: War, Revolution, and Modernization **Credits: (3)**
- HIST 4730 - Special Issues and Topics in Global and Comparative History **Credits: (3)**

Social Science Composite Teaching (BA)

- **Program Prerequisite:** Must satisfy Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses applied toward this major (a grade of "C-" is not acceptable) and a 3.0 GPA within the major. Also refer to the requirements of the Teacher Education Program.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation--a minimum of 70 of these is required within the Social Science Composite Teaching Major. A total of 40 upper-division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 7000BA
- **CIPC:** 131318

Advisement

Social Science Composite Teaching majors are required to meet with their faculty advisor at least annually for course and program advisement. They must also meet with their advisor or the department chair before registration for HIST 4990. Call 801-626-6706 for additional information or to schedule an appointment. Teaching majors are also encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Social Science Composite Teaching majors must satisfy Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Program Learning Outcomes

- Historical Knowledge
- Pastness of Past
- International Perspectives
- Historical Complexity
- Critical Thinking
- Research Skills
- Historical Argumentation

Major Course Requirements for BA

Required Major Courses (19 credit hours)

- HIST 1000 - Introduction to the Craft of History **Credits: (1)**
- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**
- HIST 2700 - History of the United States to 1877 **Credits: (3)**
- HIST 2710 - History of the United States since 1877 **Credits: (3)**
- HIST 4975 - Historiography **Credits: (3)**
- HIST 4500 - Teaching Social Studies in Grades 5-12 **Credits: (3)**

Note: HIST 4975 and HIST 4500 should be taken either junior or senior year prior to taking the Teacher Education core courses.

Language Courses Required to fulfill the BA (12 credit hours)

- 6 credit hours of foreign language
- HIST 4985 - Historical Research and Methods **Credits: (3)**
- HIST 4990 - Senior Seminar **Credits: (3)**

Note: HIST 4985 and HIST 4990 should be taken senior year prior to taking Teacher Education core courses. HIST 4985 is a prerequisite to HIST 4990.

Utah History (3 credit hours)

- HIST 4130 - History of Utah **Credits: (3)**

Traditionally Underrepresented Communities (3 credit hours)

Select one of the following courses.

- HIST 3010 - History of Indigenous America **Credits: (3)**
- HIST 3030 - African-American History **Credits: (3)**
- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**
- HIST 3090 - American Social History **Credits: (3)**
- HIST 3110 - American Ideas and Culture **Credits: (3)**

European History (3 credit hours)

Select one of the following courses.

- HIST 4210 - Ancient History **Credits: (3)**
- HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**
- HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 **Credits: (3)**
- HIST 4250 - Nineteenth-Century Europe **Credits: (3)**
- HIST 4260 - Europe in the Age of Total War **Credits: (3)**

World History (3 credit hours)

Select one of the following courses.

- HIST 4015 - History of the Atlantic World, 1400-1815 **Credits: (3)**
- HIST 4510 GLB - Twentieth Century World **Credits: (3)**
- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4630 - Latin American History: Pre-Columbian to Independence **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**

Geography Courses (9 credit hours)

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)**
- GEOG 3500 - Geography of Utah and the American West **Credits: (3)**

Political Science Courses (6 credit hours)

- POLS 1010 SS/CC - Politics, Power, and the State **Credits: (3)**
- POLS 1100 AI - American National Government **Credits: (3)**

Economics Courses (6 credit hours)

- ECON 1010 SS - Economics as a Social Science **Credits: (3)**
- ECON 1740 AI - Economic History of the United States **Credits: (3)**

Psychology Courses (6 credit hours)

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- PSY 2400 - Positive Psychology **Credits: (3)**

Students should take PSY 3140 to fulfill the required Teacher Education support course.

Sociology and Anthropology Courses (6 credit hours)

- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)**
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)**

Minor

History Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better in courses applied toward the minor (a grade of "C-" is not acceptable) in addition to a GPA for these courses of 2.50 or higher.
- **Credit Hour Requirements:** Minimum of 18 credit hours in History courses. Transferring students with History minors must take at least one approved History course at Weber State.
- **Program Code:** 7007
- **CIPC:** 540101

Course Requirements for Minor

History Courses Required (6 credit hours)

- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**

Upper-division History Electives (12 credit hours)

Select at least 12 credit hours from the upper-division History courses. These courses are listed under the History Program.

Public History Minor

Coordinator: Dr. Leah LaGrone
Location: Lindquist Hall, Room 261
Email: leahlagrone@weber.edu

- **Grade Requirements:** A grade of "C" or better in courses used toward this minor (a grade of "C-" is not acceptable) in addition to a GPA for these courses of 2.50 or higher.
- **Credit Hour Requirements:** A minimum of 18 credit hours is required.
- **Program Code:** 7009
- **CIPC:** 540101

This minor may be taken by all majors, including those majoring in History. Courses may not be counted for both the History major and this minor. This minor may be taken as a component of the Bachelor of Integrated Studies.

Course Requirements for Minor

Required Core Courses (9 credit hours)

- HIST 3400 - Principles of Public History **Credits: (3)**
- HIST 4860 INT - Internships in Historical Studies **Credits: (1-6)** (6 credit hours required)

Three of the following (9 credit hours)

- HIST 3500 - Historic Preservation **Credits: (3)**
 - HIST 3530 INT - History Editing **Credits: (3)**
 - HIST 3550 - Archives: Principles, Practices & Preservation **Credits: (3)**
 - HIST 3560 - Oral History: Connecting the Past to the Present **Credits: (3)**
 - HIST 3570 - Digital History **Credits: (3)**
- Other History or interdisciplinary courses may be substituted for the above courses, if approved by the advisor.***

Religious Studies Minor

The Religious Studies minor guides students in developing interdisciplinary skills to understand diverse religious traditions, interrogate personal and communal religious experience, and explain the intersections of religion with other fields of study and interest.

- **Grade Requirements:** A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable) in addition to a GPA for these courses of 2.50 or higher.
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** 7063
- **CIPC:** 380201

Courses taken as part of a student's major will not count as fulfillment of the minor requirements.

Core Course (3 credit hours)

- SBS 1550 HU/CC - Introduction to World Religions **Credits: (3)**

Elective Courses (15 credit hours)

Students must take 15 additional hours with at least 9 hours coming from three different disciplines. No more than 1 class (excluding the core requirement) may be lower division.

- ANTH 3900 - Anthropology of Religion **Credits: (3)**
- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- FAM 4350 - Religiosity and Family Life Education **Credits: (3)**
- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**
- HIST 3110 - American Ideas and Culture **Credits: (3)**
- HIST 3250 - Religion in American History **Credits: (3)**
- HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**
- HIST 4280 - History of Christianity in Europe **Credits: (3)**
- HIST 4335 - Tudor and Stuart England **Credits: (3)**
- HIST 4570 - Islamic Civilization **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- MUSC 1063 CA - Music in Religion **Credits: (3)**
- PHIL 3500 - Philosophy of Western Religion **Credits: (3)**
- PHIL 3550 - Philosophy of Eastern Religion **Credits: (3)**
- SOC 3410 - Sociology of Religion **Credits: (3)**

Note

Other experimental or variable title courses, whose content relates to the minor, may be approved by the program director to fulfill elective course requirements.

Teaching Minor

History Teaching Minor

History Teaching minors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department). You cannot declare a teaching minor without also having a Teaching major.

- **Grade Requirements:** A grade of "C" or better in courses applied toward the minor (a grade of "C-" is not acceptable) in addition to a GPA for these courses of 3.0 or higher.
- **Credit Hour Requirements:** Minimum of 27 credit hours in History courses.
- **Program Code:** 7008
- **CIPC:** 131328

Course Requirements for Teaching Minor

History Core Courses Required (18 credit hours)

- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**
- HIST 2700 - History of the United States to 1877 **Credits: (3)**

- HIST 2710 - History of the United States since 1877 **Credits: (3)**
- HIST 4130 - History of Utah **Credits: (3)**
- HIST 4500 - Teaching Social Studies in Grades 5-12 **Credits: (3)**

Traditionally Underrepresented Communities (3 credit hours)

Select one of the following.

- HIST 3010 - History of Indigenous America **Credits: (3)**
- HIST 3030 - African-American History **Credits: (3)**
- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**
- HIST 3090 - American Social History **Credits: (3)**
- HIST 3110 - American Ideas and Culture **Credits: (3)**

Upper-Division Electives (3 credit hours)

Select one of the following upper-division History courses.

- HIST 3350 - History and Philosophy of Science **Credits: (3)**
- HIST 4015 - History of the Atlantic World, 1400-1815 **Credits: (3)**
- HIST 4210 - Ancient History **Credits: (3)**
- HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**
- HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 **Credits: (3)**
- HIST 4250 - Nineteenth-Century Europe **Credits: (3)**
- HIST 4260 - Europe in the Age of Total War **Credits: (3)**
- HIST 4280 - History of Christianity in Europe **Credits: (3)**
- HIST 4310 - Tsarist Russia **Credits: (3)**
- HIST 4320 CRE - Stalin and the Soviet Experiment **Credits: (3)**
- HIST 4330 - Medieval England **Credits: (3)**
- HIST 4335 - Tudor and Stuart England **Credits: (3)**
- HIST 4340 - The British Empire **Credits: (3)**
- HIST 4350 - Germany and the Third Reich **Credits: (3)**
- HIST 4370 - History of Modern France 1789-present **Credits: (3)**
- HIST 4410 - History of Spain and Portugal **Credits: (3)**
- HIST 4440 SUS - East European Empires **Credits: (3)**
- HIST 4450 - Cold War Europe **Credits: (3)**
- HIST 4510 GLB - Twentieth Century World **Credits: (3)**
- HIST 4520 - History of Medicine **Credits: (3)**
- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4550 - Southeast Asian History **Credits: (3)**
- HIST 4570 - Islamic Civilization **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- HIST 4630 - Latin American History: Pre-Columbian to Independence **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**
- HIST 4670 - History of Mexico **Credits: (3)**
- HIST 4700 GLB - The U.S. and East Asia: War, Revolution, and Modernization **Credits: (3)**

- HIST 4720 - Special Issues and Topics in European History **Credits: (3)**
- HIST 4730 - Special Issues and Topics in Global and Comparative History **Credits: (3)**

Methodology Requirement (3 credit hours)

Select one of the following.

- HIST 4975 - Historiography **Credits: (3)**
- HIST 4985 - Historical Research and Methods **Credits: (3)**

Note:

HIST 4975 or HIST 4985 should be taken in the year prior to entering the Teacher Education program.

Department of Political Science and Philosophy

Department Chair: Mary Beth Willard

Location: Social Science Building, Room 280

Telephone Contact: Brieanna Spoo 801-626-6694

Professors: Robert Fudge, Richard Greene, Gary Johnson, Thomas Kuehls, Leah Murray, Mary Beth Willard;

Associate Professors: Richard Price, Stephanie Wolfe; **Assistant Professors:** Paul Neiman, Janicke Stramer-Smith

Political Science

Political Science, in the broadest sense, is the study of politics particularly as it relates to governments and people. Political scientists study governments: The origins and preconditions for governments, the growth and evolution of governments, and the decline and conflict among governments. Political scientists also are interested in how governments are structured, how governments make decisions, the policies that result from political decisions and the consequences of these policies, and how governments manage societal and international conflicts. Political scientists also study people: Their values and positions on issues, their preferences among candidates, their support for public officials, and their appraisals of their government. True to their oldest academic traditions, political scientists retain their concern with the fundamental questions of how governments ought to be constituted, and how they can best serve their citizens.

The study of political science has value in several different ways. First, it contributes to a solid liberal arts education and preparation for citizenship. The Greek word "idiot" was used to refer to one who took no interest in the affairs of state. Today, no less than twenty centuries later, it is incumbent upon all useful citizens to learn something about the political system in which they will spend their lives. Educated people ought to know something of the nature of government even if they have no professional interest in political science.

Second, a degree in political science furnishes an excellent background for graduate study in political science, law, administration, business, and international relations. Political science helps students develop reasoning and analytical skills and build competence in oral and written expression. In addition, the department of political science requires students to acquire basic skills in statistical analysis and computer competency.

Third, there are some careers for which an extensive training in political science can be most useful. This is true especially for those planning to seek careers in higher education, the legal profession, state and local government, urban planning, the federal bureaucracy, journalism, the military, law enforcement, teaching, the civil service, or in any of the proliferating organizations that seek to monitor the political processes to influence content of public policy. Further, the training students receive in political science will be useful to students no matter what their ultimate

career choices. The comprehensive career guide, *Careers and the study of Political Science*, is available from the department chair.

Internships

Internships are offered through the Political Science program and the Walker Institute of Politics and Public Service to provide students practical understanding of political processes in governmental organizations. Many students have received practical training and gained valuable knowledge by working with United States senators, members of Congress, and Utah State senators and representatives. Moreover, some students work as interns in City and County administrations and in the Utah Legal Services office in Ogden.

Pre-Law

The pre-law advisement program is designed to assist students in scheduling courses, in preparing for the law school admissions test, and in obtaining admission at one of the nationally recognized law schools. Data on the placement of graduates in law schools show the success and the immense value of the program to students. (Dr. Richard Price acts as the Pre-Law Advisor.)

Interdisciplinary Minors

The Political Science Department participates in the Asian Studies, Environmental Studies, European Studies, International Politics, Latin American Studies, Legal Studies, and Public Administration Minor Programs and the Urban and Regional Planning Emphasis Program. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Philosophy

The philosophy program offers courses that fall under three general categories: 1) Liberal Education: teaches the ideas of influential past and contemporary thinkers who have sought to understand the world and our experience of it. These ideas concern such topics as the nature of truth and reality, the limits of knowledge, standards of right and wrong, the experience of beauty, and world religions. 2) Methodology: emphasizes methods of sound practical reasoning, deductive logic, and language analysis. 3) Application: critically analyzes non-philosophical disciplines. For example, the philosophy of democracy analyzes the value assumptions behind democratic forms of government, while medical ethics seeks to identify and resolve dilemmas arising from conflicts between medical technology and the quality of life.

Institutional Certificate

Ethics Certificate of Proficiency

This program has been suspended pending formal discontinuance and is no longer accepting new students.

The WSU Ethics Certificate of Proficiency is designed to prepare students and working professionals to succeed in such careers and professional roles as consultant, ombudsperson, and compliance officer. More generally, it will also prepare them to think critically about and be able to address ethical problems that arise in their professional and personal lives.

Requirements

- **Grade Requirements:** A grade of "C" or better in courses used toward the certificate (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program:** 7061CP
- **CIPC:** 380103

Philosophy Required Course (6 credits)

- PHIL 2050 HU - Practical Ethics **Credits: (3)**
- PHIL 4600 - Ethical Theory **Credits: (3)**

Electives (12 credits)

Select a minimum of 12 credits from the following, at least 3 of which must be chosen from among PHIL 3250, PHIL 3800, PHIL 3350, and PHIL 3700.

- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)** *
- CJ 4200 - Ethical Issues in Criminal Justice **Credits: (3)** *
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)** *
- CYBR 2510 - Cyberethics **Credits: (1)** *
- CYBR 3730 - Survey of Information Security Policies **Credits: (3)** *
- OCRE 4300 - Trends and Ethical Issues in Recreation Services **Credits: (3)** *
- PHIL 3250 - Philosophy of Law **Credits: (3)**
- PHIL 3800 - Philosophy of Race, Gender, and Justice **Credits: (3)**
- PHIL 3350 - Medical Ethics **Credits: (3)**
- PHIL 3700 - Environmental Philosophy **Credits: (3)**
- PHIL 4400 - Great Issues in Philosophy **Credits: (3)** (with approval of the philosophy program director)
- PHIL 4830 - Directed Readings **Credits: (1-2)** (with approval of the philosophy program director)
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3340 - Environmental Political Theory **Credits: (3)**
- POLS 4210 GLB - Violence and Contestation **Credits: (3)**
- PS 4203 - Ethical Sales and Service **Credits: (3)** *
- RADT 3043 - Medical Ethics and Law **Credits: (3)**
- SW 3900 - Social Work Methods, Values, and Ethics **Credits: (3)** **

** Has prerequisites that the home department will waive for students enrolled in the certificate program.*

*** Has prerequisites that cannot be waived. Please consult the university catalog for details.*

Bachelor of Arts

Philosophy (BA)

- **Program Prerequisite:** Not required.
- **Minor:** Required
- **Grade Requirements:** A grade of "C" or better in courses counted toward fulfilling the major (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 40 upper division credit hours are required (courses numbered 3000 and above). Philosophy majors are required to take 36 credit hours within the major, of which at least 27 must be upper division.
- **Program Code:** 7011BA
- **CIPC:** 380101

Advisement

All Philosophy students are required to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6694 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements.

Core and General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. One of the following courses may be used to fulfill both general education (humanities) and program requirements: PHIL 1000, PHIL 1250, PHIL 2050.

Students majoring or minoring in Philosophy who transfer from another institution and who intend to graduate from WSU will be required to take, in the case of the minor, at least one class in PHIL, and in the case of the major, at least two classes in PHIL, including Senior Capstone Seminar.

Program Learning Outcomes

- Historical Knowledge
- Topical Knowledge
- Critical Thinking
- Reading Comprehension
- Writing Skills

Major Course Requirements for BA Degree

Core Courses Required (6 credit hours)

- PHIL 1000 HU/CC - Introduction to Philosophy **Credits: (3)**
- PHIL 4900 - Senior Capstone Seminar **Credits: (3)**

Electives (30 credit hours minimum)

Select a minimum of 30 credit hours from the following list, including one of either PHIL 1250 or PHIL 2200, one of either PHIL 3010 or PHIL 3020, one of either PHIL 3650 or PHIL 4600, and one of either PHIL 4510 or PHIL 4520. At least 24 elective credits must be upper division.

- PHIL 2050 HU - Practical Ethics **Credits: (3)**
- PHIL 1250 HU - Critical Thinking **Credits: (3)**
- PHIL 2200 - Deductive Logic **Credits: (3)**
- PHIL 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- PHIL 3010 - History of Philosophy: Classical & Medieval **Credits: (3)**
- PHIL 3020 - History of Philosophy: Modern **Credits: (3)**
- PHIL 3150 - Existentialism **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- PHIL 3250 - Philosophy of Law **Credits: (3)**
- PHIL 3800 - Philosophy of Race, Gender, and Justice **Credits: (3)**
- PHIL 3350 - Medical Ethics **Credits: (3)**
- PHIL 3500 - Philosophy of Western Religion **Credits: (3)**
- PHIL 3550 - Philosophy of Eastern Religion **Credits: (3)**
- PHIL 3650 - Aesthetics **Credits: (3)**
- PHIL 3700 - Environmental Philosophy **Credits: (3)**
- PHIL 4400 - Great Issues in Philosophy **Credits: (3)**
- PHIL 4450 - Great Thinkers of Philosophy **Credits: (3)**
- PHIL 4510 - Metaphysics **Credits: (3)**
- PHIL 4520 - Epistemology **Credits: (3)**
- PHIL 4530 - Philosophy of Mind **Credits: (3)**
- PHIL 4540 - Philosophy of Language **Credits: (3)**
- PHIL 4600 - Ethical Theory **Credits: (3)**
- PHIL 4810 - Experimental Course **Credits: (1-6)**
- PHIL 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- PHIL 4830 - Directed Readings **Credits: (1-2)**

Language Courses Required to fulfill the BA

Students completing a BA in philosophy must complete 6 hours of foreign language courses (these can be taken in more than one language) or demonstrate equivalent competency. Students must also complete 6 hours of language arts, which are automatically satisfied by completing the philosophy course requirements.

Political Science (BA)

- **Program Prerequisite:** Not required for Political Science major. Political Science Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education). Teaching Majors are also required to take HIST 4500 - Teaching Social Studies in Grades 5-12, for a total of 42 semester hours including HIST 4500.
- **Minor:** A minor or a double major is required.
- **Grade Requirements:** Political Science majors must have an overall GPA of 2.00 and a "C" or better grade in courses used toward the major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 40 upper division credit hours are required (courses numbered 3000 and above). Political Science majors are required to take

39 credit hours within the major; teaching majors must also take HIST 4500 - Teaching Social Studies in Grades 5-12, for a total of 42 credit hours.

- **Program Code:** 7012BA
- **CIPC:** 451001

Advisement

All Political Science students should meet with a Political Science faculty advisor once they have declared their major or minor to receive program advisement. Please get in touch with the department admin at 801-626-6694 to schedule an appointment.

Admission Requirements

There are no special admission or application requirements for the Political Science major. Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. Five Political Science courses can fulfill both general education and Political Science major or minor requirements: POLS 1100 fulfills the American Institutions requirement; POLS 2100, POLS 2200, POLS 2300, and POLS 2400 are all Social Science General Education courses, but students may only count one of these three courses towards the Social Science General Education requirement. Consult with a department advisor for specific general education guidelines. Political Science majors are encouraged to take MATH 1040 (Statistics) to fulfill their Quantitative Literacy Requirement and LIBS 2804 to fulfill of their Information Literacy requirement.

Students who transfer from another institution and who intend to graduate from WSU with a minor in Political Science or a Political Science Teaching minor will be required to take at least two classes in Political Science at WSU. Students who transfer from another institution and who intend to graduate from WSU with a major in Political Science or a Political Science Teaching major will be required to take at least three classes in POLS, plus POLS 4990 Senior Seminar at WSU. These classes must be taken during the calendar year immediately preceding graduation.

AP credit for high school American Government courses will be accepted for Political Science POLS 1100 and POLS 2200. It will count toward the total hours required for graduation and count toward the total of 39 credit hours required for a Political Science major. A score of 3 or higher on the AP U.S. Government and Politics course will count in place of POLS 1100. A score of 3 or higher on the AP Comparative Politics course will count in place of POLS 2200.

Program Learning Outcomes

- Political Science students will understand and model civic dispositions conducive to democratic involvement. Specifically, we recommend attention to fostering the civic attitudes of political efficacy, empathy, civic duty, civic confidence, and civic reflection, and an inclination to engage in dialogue across difference.
- Political Science students will demonstrate an ability to analyze political phenomena and critique arguments in a theoretically and empirically informed manner.
- Political Science students will demonstrate an ability to engage as global citizens through problem solving, collective action, and collaborative decision making.
- Political Science students will demonstrate an ability to identify, evaluate, properly use, and cite verifiable sources of evidence.

- Political Science students will demonstrate an ability to engage thoughtfully with competing values and perspectives.
- Political Science students will demonstrate an ability to use qualitative and quantitative methods effectively and appropriately.
- Political Science students will demonstrate an ability to communicate effectively in written and verbal modes to a variety of audiences.
- Political science students will be able to understand and apply key concepts used to study political institutions, processes, and actors in a variety of settings.
- Political science students will be able to understand and evaluate diverse theoretical and disciplinary approaches to the nature, ethical distribution, and uses of power.
- Political science students will be able to understand, apply, and evaluate approaches and theories that address political phenomena.
- Political science students will be able to understand the different ways individuals and groups engage in politics at the local, regional, national, and global levels, and evaluate the effectiveness and effects of different strategies of civic engagement.

Political Science Major Course Requirements for BA

Language Courses Required to fulfill the BA (12 credit hours)

Majors obtaining a Bachelor of Arts in Political Science must take either a minimum of twelve hours of foreign language, or six hours of foreign language and six hours of language arts coursework that are primarily intended to develop a student's ability to communicate ideas and concepts with others. The six hours of language arts coursework shall be met by taking any two of the following courses:

- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- PHIL 3020 - History of Philosophy: Modern **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**

Note:

Any of the Political Science courses taken to meet the BA requirements may also be used to meet the appropriate Political Science requirements listed below. Also, any of the above courses may have pre-requisites not listed here that will need to be met.

Core Courses Required for BA (15 credit hours)

- POLS 1010 SS/CC - Politics, Power, and the State **Credits: (3)**
- POLS 4990 - Senior Seminar/Senior Thesis **Credits: (3)** *Fall Only. POLS 1010 is a prerequisite for POLS 4990.*

And three of the following lower division area courses:

- POLS 1100 AI - American National Government **Credits: (3)**
- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)**
- POLS 2200 SS GLB - Global Governments, Politics, and Societies **Credits: (3)**
- POLS 2300 SS - Introduction to Political Theory **Credits: (3)**
- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)**
- POLS 2700 - Introduction to Public Administration **Credits: (3)**

Political Science Additional Upper Division Major Course Requirements for BA (18 Credits)

Take at least three courses in one of the following areas, at least two courses in a second area, and at least one course in the final area.

Area 1: American Government

- POLS 3400 - LGBTQ Politics **Credits: (3)**
- POLS 3600 - Political Parties **Credits: (3)**
- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3620 - Political Behavior **Credits: (3)**
- POLS 3640 - Media and Politics **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- POLS 3760 - State Government and Politics **Credits: (3)**
- POLS 3780 - Lobbying: Theory and Practice **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**
- CJ 4065 - Law and Society **Credits: (3)** or
- SOC 4270 - Law and Society **Credits: (3)**
- POLS 4100 - Free Speech **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**
- POLS 4620 - The U.S. Supreme Court **Credits: (3)**
- POLS 4640 - American Presidency **Credits: (3)**
- POLS 4050 - Institutional Presidency **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**

Area 2: Global Politics

- POLS 3140 GLB - Foreign Policy of the United States **Credits: (3)** or
- HIST 3230 GLB - American Foreign Relations **Credits: (3)**
- POLS 3200 GLB - Middle East and North Africa **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**
- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)**
- POLS 4160 - Topics in Global Politics **Credits: (3)**
- POLS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)**

- POLS 4180 GLB - International Law and Organization **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**
- POLS 4210 GLB - Violence and Contestation **Credits: (3)**
- POLS 4200 GLB - Dictatorships **Credits: (3)**
- POLS 4760 - Rwanda: Genocide and Aftermath **Credits: (3)**
- POLS 4770 GLB - Genocide, War, and Human Rights **Credits: (3)**

Area 3: Political Theory

- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3340 - Environmental Political Theory **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**

****Counts in this area when the topic is in Political Theory***

Other Elective Courses

An additional 6 credit hours will be needed to reach the required 39. You may get those additional 3 hours from any of the following classes or any of the courses in the above three areas which you have not already taken.

- POLS 1520 SS - Leadership and Political Life **Credits: (3)**
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- POLS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** or
- POLS 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- POLS 2930 - Peacebuilding in Rwanda **Credits: (3)**
- POLS 3150 GLB - Model United Nations **Credits: (3)**
- POLS 3990 - Political Analysis **Credits: (3)**
- POLS 4800 - Individual Projects and Research **Credits: (1-2)**
- POLS 4860 INT - Internships **Credits: (1-6)**
- POLS 4861 INT - International Internships **Credits: (1-6)**
- POLS 4865 INT - Utah State Legislature Internship **Credits: (1-6)**
- POLS 4870 INT - Internship in Perspective **Credits: (3)**
- POLS 4880 INT - Internship Research **Credits: (3)**
- POLS 4830 - Directed Readings **Credits: (3)**
- POLS 3070 - Moot Court **Credits: (3)**

Note:

All Political Science courses- as well as HIST 3230, PHIL 3200, CJ 4065, and WGS 3050-count toward the total hours required for the political science major and minor. However, none of these courses, if they are being counted for the political science major or minor, may count toward another major or minor. Similarly, if any of these courses are being counted for a major or minor that is not political science, they cannot be counted for the major or minor requirements of political science.

Bachelor of Science

Political Science (BS)

- **Program Prerequisite:** Not required for Political Science major. Political Science Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education). Teaching Majors are also required to take HIST 4500 - Teaching Social Studies in Grades 5-12, for a total of 42 semester hours including HIST 4500.
- **Minor:** A minor or a double major is required.
- **Grade Requirements:** Political Science majors must have an overall GPA of 2.00 and a "C" or better grade in courses used toward the major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 40 upper division credit hours are required (courses numbered 3000 and above). Political Science majors are required to take 39 credit hours within the major; teaching majors must also take HIST 4500 - Teaching Social Studies in Grades 5-12, for a total of 42 credit hours.
- **Program Code:** 7012BS
- **CIPC:** 451001

Advisement

All Political Science students should meet with a Political Science faculty advisor once they have declared their major or minor to receive program advisement. Please get in touch with the department admin at 801-626-6694 to schedule an appointment.

Admission Requirements

There are no special admission or application requirements for the Political Science major. Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. Four Political Science courses can fulfill both general education and Political Science major or minor requirements: POLS 1100 fulfills the American Institutions requirement; POLS 2100, POLS 2200, and POLS 2300 are all Social Science General Education courses, but students may only count one of these three courses towards the Social Science General Education requirement. Consult with a department advisor for specific general education guidelines. Political Science majors are encouraged to take MATH 1040 (Statistics) to fulfill their Quantitative Literacy Requirement and LIBS 2804 to fulfill of their Information Literacy requirement.

Students who transfer from another institution and who intend to graduate from WSU with a minor in Political Science or a Political Science Teaching minor will be required to take at least two classes in Political Science at WSU. Students who transfer from another institution and who intend to graduate from WSU with a major in Political Science or a Political Science Teaching major will be required to take at least three classes in POLS, plus POLS 4990 Senior Seminar at WSU. These classes must be taken during the calendar year immediately preceding graduation.

AP credit for high school American Government courses will be accepted for Political Science POLS 1100 and POLS 2200. It will count toward the total hours required for graduation and count toward the total of 39 credit hours required for a Political Science major. A score of 3 or higher on the AP U.S. Government and Politics course will

count in place of POLS 1100. A score of 3 or higher on the AP Comparative Politics course will count in place of POLS 2200.

Program Learning Outcomes

- Political Science students will understand and model civic dispositions conducive to democratic involvement. Specifically, we recommend attention to fostering the civic attitudes of political efficacy, empathy, civic duty, civic confidence, and civic reflection, and an inclination to engage in dialogue across difference.
- Political Science students will demonstrate an ability to analyze political phenomena and critique arguments in a theoretically and empirically informed manner.
- Political Science students will demonstrate an ability to engage as global citizens through problem solving, collective action, and collaborative decision making.
- Political Science students will demonstrate an ability to identify, evaluate, properly use, and cite verifiable sources of evidence.
- Political Science students will demonstrate an ability to engage thoughtfully with competing values and perspectives.
- Political Science students will demonstrate an ability to use qualitative and quantitative methods effectively and appropriately.
- Political Science students will demonstrate an ability to communicate effectively in written and verbal modes to a variety of audiences.
- Political science students will be able to understand and apply key concepts used to study political institutions, processes, and actors in a variety of settings.
- Political science students will be able to understand and evaluate diverse theoretical and disciplinary approaches to the nature, ethical distribution, and uses of power.
- Political science students will be able to understand, apply, and evaluate approaches and theories that address political phenomena.
- Political science students will be able to understand the different ways individuals and groups engage in politics at the local, regional, national, and global levels, and evaluate the effectiveness and effects of different strategies of civic engagement.

Political Science Major Course Requirements for BS

Majors obtaining a Bachelor of Science in Political Science must take a minimum of twelve hours of coursework that emphasizes analysis of data, application of evidence based investigation, formulation and testing of predictive models, or address quantitative methods at a level that requires quantitative literacy. These twelve hours must come from the following list of courses:

- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3620 - Political Behavior **Credits: (3)**
- POLS 3990 - Political Analysis **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)**
- ANTH 4300 CRE - Anthropological Research Methods **Credits: (3)**
- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions **Credits: (3)**
- GEOG 4410 SUS - Sustainable Land Use Planning **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- PSY 3600 - Statistics in Psychology **Credits: (3)**

- PSY 4760 - Tests and Measurements **Credits: (3)**
- SW 3600 - Social Statistics **Credits: (3)**

Note:

Any of the Political Science courses taken to meet the BS requirements may also be used to meet the appropriate Political Science requirements listed below. Also, any of the above courses may have pre-requisites not listed here that will need to be met.

Core Courses Required for BS (15 credit hours)

- POLS 1010 SS/CC - Politics, Power, and the State **Credits: (3)**
- POLS 4990 - Senior Seminar/Senior Thesis **Credits: (3)** *Fall Only. POLS 1010 is a prerequisite for POLS 4990*

And three of the following lower division area courses:

- POLS 1100 AI - American National Government **Credits: (3)**
- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)**
- POLS 2200 SS GLB - Global Governments, Politics, and Societies **Credits: (3)**
- POLS 2300 SS - Introduction to Political Theory **Credits: (3)**
- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)**
- POLS 2700 - Introduction to Public Administration **Credits: (3)**

Additional Upper Division Major Course Requirements (18 credit hours)

See Additional Upper Division Major Course Requirements below

Political Science Additional Upper Division Major Course Requirements for BS

Take at least three courses in one of the following areas, at least two courses in a second area, and at least one course in the final area.

Area 1: American Government

- POLS 3400 - LGBTQ Politics **Credits: (3)**
- POLS 3600 - Political Parties **Credits: (3)**
- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3620 - Political Behavior **Credits: (3)**
- POLS 3640 - Media and Politics **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- POLS 3760 - State Government and Politics **Credits: (3)**
- POLS 3780 - Lobbying: Theory and Practice **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**

- CJ 4065 - Law and Society **Credits: (3)** or
- SOC 4270 - Law and Society **Credits: (3)**
- POLS 4100 - Free Speech **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**
- POLS 4620 - The U.S. Supreme Court **Credits: (3)**
- POLS 4640 - American Presidency **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**
- POLS 4050 - Institutional Presidency **Credits: (3)**

Area 2: Global Politics

- POLS 3140 GLB - Foreign Policy of the United States **Credits: (3)** or
- HIST 3230 GLB - American Foreign Relations **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**
- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)**
- POLS 4160 - Topics in Global Politics **Credits: (3)**
- POLS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)**
- POLS 4180 GLB - International Law and Organization **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**
- POLS 4760 - Rwanda: Genocide and Aftermath **Credits: (3)**
- POLS 4200 GLB - Dictatorships **Credits: (3)**
- POLS 4210 GLB - Violence and Contestation **Credits: (3)**
- POLS 3200 GLB - Middle East and North Africa **Credits: (3)**
- POLS 4770 GLB - Genocide, War, and Human Rights **Credits: (3)**

Area 3: Political Theory

- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3340 - Environmental Political Theory **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**

****Counts in this area when the topic is in Political Theory***

Other Elective Courses

An additional 6 credit hours will be needed to reach the required 39. You may get those additional 6 hours from any of the following classes or any of the courses in the above three areas which you have not already taken.

- POLS 1520 SS - Leadership and Political Life **Credits: (3)**
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- POLS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** or

- POLS 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- POLS 2930 - Peacebuilding in Rwanda **Credits: (3)**
- POLS 3150 GLB - Model United Nations **Credits: (3)**
- POLS 4800 - Individual Projects and Research **Credits: (1-2)**
- POLS 4860 INT - Internships **Credits: (1-6)**
- POLS 4861 INT - International Internships **Credits: (1-6)**
- POLS 4865 INT - Utah State Legislature Internship **Credits: (1-6)**
- POLS 4870 INT - Internship in Perspective **Credits: (3)**
- POLS 4880 INT - Internship Research **Credits: (3)**
- POLS 4830 - Directed Readings **Credits: (3)**
- POLS 3070 - Moot Court **Credits: (3)**

Note:

All Political Science courses- as well as HIST 3230, PHIL 3200, CJ 4065, and WGS 3050-count toward the total hours required for the political science major and minor. However, none of these courses, if they are being counted for the political science major or minor, may count toward another major or minor. Similarly, if any of these courses are being counted for a major or minor that is not political science, they cannot be counted for the major or minor requirements of political science.

Emphasis Option for Bachelor of Interdisciplinary Studies

Political Science (BIS)

Political Science Minor/ Teaching Minor/ BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs are still accepting students.

- **Grade Requirements:** An overall GPA of 2.00 or higher is required and a grade of "C" or better in all Political Science courses used toward the minor/BIS (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 21 credit hours for Political Science minor/BIS and a minimum of 24 credit hours for the teaching minor, which includes HIST 4500 - Teaching Social Studies in Grades 5-12, a required course for Political Science Teaching Minors.
- **Program Code:** Political Science (7012), Political Science Teaching (7013), Political Science BIS (7012)
- **CIPC:** Political Science (451001), Political Science Teaching (131317), Political Science BIS (451001)

Students who select the Political Science Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.

- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements

Political Science Courses Required (6 credit hours)

Select two of the following courses

- POLS 1100 AI - American National Government **Credits: (3)**
- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)**
- POLS 2200 SS GLB - Global Governments, Politics, and Societies **Credits: (3)**
- POLS 2300 SS - Introduction to Political Theory **Credits: (3)**
- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)**
- POLS 2700 - Introduction to Public Administration **Credits: (3)**

Elective Requirements (15 credit hours)

Select at least four courses from the following upper division electives.

- POLS 3140 GLB - Foreign Policy of the United States **Credits: (3)** or
- HIST 3230 GLB - American Foreign Relations **Credits: (3)**
- POLS 3200 GLB - Middle East and North Africa **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**
- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)**
- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3340 - Environmental Political Theory **Credits: (3)**
- POLS 3400 - LGBTQ Politics **Credits: (3)**
- POLS 3600 - Political Parties **Credits: (3)**
- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3620 - Political Behavior **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- POLS 3760 - State Government and Politics **Credits: (3)**
- POLS 3780 - Lobbying: Theory and Practice **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**
- POLS 4050 - Institutional Presidency **Credits: (3)**
- CJ 4065 - Law and Society **Credits: (3)** or
- SOC 4270 - Law and Society **Credits: (3)**
- POLS 4100 - Free Speech **Credits: (3)**
- POLS 4160 - Topics in Global Politics **Credits: (3)**
- POLS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)**

- POLS 4180 GLB - International Law and Organization **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**
- POLS 4200 GLB - Dictatorships **Credits: (3)**
- POLS 4210 GLB - Violence and Contestation **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**
- POLS 4620 - The U.S. Supreme Court **Credits: (3)**
- POLS 4640 - American Presidency **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**
- POLS 4760 - Rwanda: Genocide and Aftermath **Credits: (3)**
- POLS 4770 GLB - Genocide, War, and Human Rights **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**
- POLS 3640 - Media and Politics **Credits: (3)**

Additional Electives

These courses may be used to complete the credit requirements.

- POLS 1010 SS/CC - Politics, Power, and the State **Credits: (3)**
- POLS 1520 SS - Leadership and Political Life **Credits: (3)**
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- POLS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** or
- POLS 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- POLS 2930 - Peacebuilding in Rwanda **Credits: (3)**
- POLS 3070 - Moot Court **Credits: (3)**
- POLS 3150 GLB - Model United Nations **Credits: (3)**
- POLS 3990 - Political Analysis **Credits: (3)**
- POLS 4800 - Individual Projects and Research **Credits: (1-2)**
- POLS 4830 - Directed Readings **Credits: (3)**
- POLS 4860 INT - Internships **Credits: (1-6)**
- POLS 4861 INT - International Internships **Credits: (1-6)**
- POLS 4865 INT - Utah State Legislature Internship **Credits: (1-6)**
- POLS 4870 INT - Internship in Perspective **Credits: (3)**
- POLS 4880 INT - Internship Research **Credits: (3)**

Note:

Students may count up to 3 hours of POLS 4830, 3 hours of POLS 4800, and 3 hours of POLS 4860 toward the total of 21 hours required for the minor, if needed.

All Political Science courses- as well as HIST 3230, PHIL 3200, CJ 4065, and WGS 3050-count toward the total hours required for the political science major and minor. However, none of these courses, if they are being counted for the political science major or minor, may count toward another major or minor. Similarly, if any of these courses are being counted for a major or minor that is not political science, they cannot be counted for the major or minor requirements of political science.

Minor

International Studies Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 21 credit hours required.
- **Program Code:** 7049
- **CIPC:** 450901

Course Requirements for Minor

Required Core Courses (3 credit hours)

- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)**

Additional Course Required (18 credit hours)

Students must take 18 additional hours with two courses from each area. No more than 6 hours (excluding the core requirement) may be lower division or from the same discipline. Courses may not be counted for both a major and this minor.

Area I: Contextualizing the International

- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)**
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)**
- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions **Credits: (3)**
- GEOG 3360 - Economic Geography: Globalization, Development and Conflict **Credits: (3)**
- GEOG 3540 - Geography of Latin America and the Caribbean **Credits: (3)**
- GEOG 3590 - Geography of Europe: the Land and People who Built a World Power **Credits: (3)**
- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment **Credits: (3)**
- GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change **Credits: (3)**
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**
- HIST 4260 - Europe in the Age of Total War **Credits: (3)**
- HIST 4320 CRE - Stalin and the Soviet Experiment **Credits: (3)**
- HIST 4450 - Cold War Europe **Credits: (3)**
- HIST 4510 GLB - Twentieth Century World **Credits: (3)**

- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4550 - Southeast Asian History **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**
- HIST 4720 - Special Issues and Topics in European History **Credits: (3)**
- HIST 4730 - Special Issues and Topics in Global and Comparative History **Credits: (3)**
- SOC 4410 SUS - Sociology of Globalization **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**

- SPAN 3550 GLB - Cultural Heritage of Spain **Credits: (3)** or
- JPNS 3550 - Cultural Heritage I **Credits: (3)** or
- PTGS 3550 - Cultural Heritage I **Credits: (3)** or
- CHNS 3550 - Cultural Heritage I **Credits: (3)** or
- FRCH 3550 - Cultural Heritage I **Credits: (3)** or
- GRMN 3550 - Cultural Heritage I **Credits: (3)**

- FRCH 3560 - Cultural Heritage II **Credits: (3)** or
- GRMN 3560 - Cultural Heritage II **Credits: (3)** or
- JPNS 3560 - Cultural Heritage II **Credits: (3)** or
- PTGS 3560 - Cultural Heritage II **Credits: (3)** or
- SPAN 3560 - Cultural Heritage of Latin America **Credits: (3)**

Area 2: Operationalizing the International

- CJ 4700 - International Criminal Justice **Credits: (3)** or
- POLS 4180 GLB - International Law and Organization **Credits: (3)**

- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)** or
- WGS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**

- HIST 3230 GLB - American Foreign Relations **Credits: (3)** or
- POLS 3140 GLB - Foreign Policy of the United States **Credits: (3)**

- POLS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)** or
- WGS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)**

- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- HIST 4720 - Special Issues and Topics in European History **Credits: (3)**
- HIST 4730 - Special Issues and Topics in Global and Comparative History **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- POLS 3200 GLB - Middle East and North Africa **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**
- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)**
- POLS 4160 - Topics in Global Politics **Credits: (3)**
- POLS 4210 GLB - Violence and Contestation **Credits: (3)**

- POLS 4200 GLB - Dictatorships **Credits: (3)**
- POLS 4760 - Rwanda: Genocide and Aftermath **Credits: (3)**
- POLS 4770 GLB - Genocide, War, and Human Rights **Credits: (3)**

Area 3: Applying the International

If the course is variable, or is allowed to be repeated, only 3 credits may apply to this minor. Field trips and/or study trips must have an international component to count for this area.

- FRCH 2020 HU - Fourth Semester French **Credits: (3)**
 - FRCH 3060 - Grammar & Composition **Credits: (3)**
 - FRCH 3160 - Introduction to Literature **Credits: (3)**
 - FRCH 3570 GLB - Special Topics in Culture **Credits: (3)**
 - FRCH 3610 - Literature Survey I **Credits: (3)**
 - FRCH 3620 - Literature Survey II **Credits: (3)**
 - FRCH 3630 - Literature Poetry **Credits: (3)**
 - FRCH 3631 - Literature: Prose **Credits: (3)**
 - FRCH 3680 - Literature: Film **Credits: (3)**
 - FRCH 3715 - Business Language II **Credits: (3)**
 - FRCH 3740 - Translation I **Credits: (3)**
 - FRCH 3850 - Study Abroad **Credits: (1-6)**
-
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**
 - GRMN 3060 - Grammar & Composition **Credits: (3)**
 - GRMN 3160 - Introduction to Literature **Credits: (3)**
 - GRMN 3570 GLB - Special Topics in Culture **Credits: (3)**
 - GRMN 3610 - Literature Survey I **Credits: (3)**
 - GRMN 3620 - Literature Survey II **Credits: (3)**
 - GRMN 3630 - Literature Poetry **Credits: (3)**
 - GRMN 3631 - Literature: Prose **Credits: (3)**
 - GRMN 3680 - Literature: Film **Credits: (3)**
 - GRMN 3715 - Business Language II **Credits: (3)**
 - GRMN 3740 - Translation I **Credits: (3)**
 - GRMN 3850 - Study Abroad **Credits: (1-6)**
-
- JPNS 2020 HU - Fourth Semester Japanese **Credits: (3)**
 - JPNS 3060 - Grammar & Composition **Credits: (3)**
 - JPNS 3160 - Introduction to Literature **Credits: (3)**
 - JPNS 3570 - Special Topics in Culture **Credits: (3)**
 - JPNS 3610 - Literature Survey I **Credits: (3)**
 - JPNS 3620 - Literature Survey II **Credits: (3)**
 - JPNS 3630 - Literature Poetry **Credits: (3)**
 - JPNS 3631 - Literature: Prose **Credits: (3)**
 - JPNS 3680 - Literature: Film **Credits: (3)**
 - JPNS 3715 - Business Language II **Credits: (3)**
 - JPNS 3740 - Translation I **Credits: (3)**
 - JPNS 3850 - Study Abroad **Credits: (1-6)**

- PTGS 2020 HU - Fourth Semester Portuguese **Credits: (3)**
 - PTGS 3060 - Grammar & Composition **Credits: (3)**
 - PTGS 3160 - Introduction to Literature **Credits: (3)**
 - PTGS 3570 - Special Topics in Culture **Credits: (3)**
 - PTGS 3610 - Literature Survey I **Credits: (3)**
 - PTGS 3850 - Study Abroad **Credits: (1-6)**
-
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**
 - SPAN 3060 - Grammar & Composition **Credits: (3)**

- PHIL 4810 - Experimental Course **Credits: (1-6)**
- PHIL 4830 - Directed Readings **Credits: (1-2)**
- PHIL 4900 - Senior Capstone Seminar **Credits: (3)**
- PHIL 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Political Science Minor/BIS

Political Science Minor/ Teaching Minor/ BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs are still accepting students.

- **Grade Requirements:** An overall GPA of 2.00 or higher is required and a grade of "C" or better in all Political Science courses used toward the minor/BIS (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 21 credit hours for Political Science minor/BIS and a minimum of 24 credit hours for the teaching minor, which includes HIST 4500 - Teaching Social Studies in Grades 5-12, a required course for Political Science Teaching Minors.
- **Program Code:** Political Science (7012), Political Science Teaching (7013), Political Science BIS (7012)
- **CIPC:** Political Science (451001), Political Science Teaching (131317), Political Science BIS (451001)

Students who select the Political Science Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements

Political Science Courses Required (6 credit hours)

Select two of the following courses

- POLS 1100 AI - American National Government **Credits: (3)**
- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)**
- POLS 2200 SS GLB - Global Governments, Politics, and Societies **Credits: (3)**
- POLS 2300 SS - Introduction to Political Theory **Credits: (3)**
- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)**
- POLS 2700 - Introduction to Public Administration **Credits: (3)**

Elective Requirements (15 credit hours)

Select at least four courses from the following upper division electives.

- POLS 3140 GLB - Foreign Policy of the United States **Credits: (3)** or
- HIST 3230 GLB - American Foreign Relations **Credits: (3)**
- POLS 3200 GLB - Middle East and North Africa **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**
- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)**

- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3340 - Environmental Political Theory **Credits: (3)**
- POLS 3400 - LGBTQ Politics **Credits: (3)**
- POLS 3600 - Political Parties **Credits: (3)**
- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3620 - Political Behavior **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- POLS 3760 - State Government and Politics **Credits: (3)**
- POLS 3780 - Lobbying: Theory and Practice **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**
- POLS 4050 - Institutional Presidency **Credits: (3)**
- CJ 4065 - Law and Society **Credits: (3)** or
- SOC 4270 - Law and Society **Credits: (3)**
- POLS 4100 - Free Speech **Credits: (3)**
- POLS 4160 - Topics in Global Politics **Credits: (3)**
- POLS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)**
- POLS 4180 GLB - International Law and Organization **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**
- POLS 4200 GLB - Dictatorships **Credits: (3)**
- POLS 4210 GLB - Violence and Contestation **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**
- POLS 4620 - The U.S. Supreme Court **Credits: (3)**
- POLS 4640 - American Presidency **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**
- POLS 4760 - Rwanda: Genocide and Aftermath **Credits: (3)**
- POLS 4770 GLB - Genocide, War, and Human Rights **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**
- POLS 3640 - Media and Politics **Credits: (3)**

Additional Electives

These courses may be used to complete the credit requirements.

- POLS 1010 SS/CC - Politics, Power, and the State **Credits: (3)**
- POLS 1520 SS - Leadership and Political Life **Credits: (3)**
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- POLS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** or
- POLS 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- POLS 2930 - Peacebuilding in Rwanda **Credits: (3)**
- POLS 3070 - Moot Court **Credits: (3)**

- POLS 3150 GLB - Model United Nations **Credits: (3)**
- POLS 3990 - Political Analysis **Credits: (3)**
- POLS 4800 - Individual Projects and Research **Credits: (1-2)**
- POLS 4830 - Directed Readings **Credits: (3)**
- POLS 4860 INT - Internships **Credits: (1-6)**
- POLS 4861 INT - International Internships **Credits: (1-6)**
- POLS 4865 INT - Utah State Legislature Internship **Credits: (1-6)**
- POLS 4870 INT - Internship in Perspective **Credits: (3)**
- POLS 4880 INT - Internship Research **Credits: (3)**

Note:

Students may count up to 3 hours of POLS 4830, 3 hours of POLS 4800, and 3 hours of POLS 4860 toward the total of 21 hours required for the minor, if needed.

All Political Science courses- as well as HIST 3230, PHIL 3200, CJ 4065, and WGS 3050-count toward the total hours required for the political science major and minor. However, none of these courses, if they are being counted for the political science major or minor, may count toward another major or minor. Similarly, if any of these courses are being counted for a major or minor that is not political science, they cannot be counted for the major or minor requirements of political science.

Public Administration Minor/BIS

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- POLS 4865 INT - Utah State Legislature Internship **Credits: (1-6)**
- POLS 4870 INT - Internship in Perspective **Credits: (3)**
- POLS 4880 INT - Internship Research **Credits: (3)**

Note:

Students may count up to 3 hours of POLS 4830, 3 hours of POLS 4800, and 3 hours of POLS 4860 toward the total of 21 hours required for the minor, if needed.

All Political Science courses- as well as HIST 3230, PHIL 3200, CJ 4065, and WGS 3050-count toward the total hours required for the political science major and minor. However, none of these courses, if they are being counted for the political science major or minor, may count toward another major or minor. Similarly, if any of these courses are being counted for a major or minor that is not political science, they cannot be counted for the major or minor requirements of political science.

Bachelor of Applied Studies

Applied Politics, Philosophy and Economics (BAP)

- Program Co-requisite: MATH 1050, 1080, or 1090.
- Minor: No minor is required.
- Grade Requirements: PPE majors must have an overall GPA of 2.00 and a "C" or better in courses used toward the major (a "C-" is not acceptable for major credit.)
- Credit Hour requirements: A total of 90 credit hours is required for graduation. Forty (40) upper-division credit hours are required (3000 and above)
- Program Code: 7067BAP with one of the following cohort codes for tracks: APPECLL (Campaigns, Legislative and Lobbying) or APPEPE (Political Economy)
- CIPC: 451002

Overview

All APPE students will take 75 credits of core courses, including PPE foundational courses and General Education Requirements. Students must declare either the Political Economy cohort or the Campaigns, Legislation, and Lobbying cohort, which will determine the requirements for the remaining 15 credits.

Program Learning Outcomes

1. Equip students with a robust understanding of political science, philosophy, and economics, and the ability to integrate these disciplines to analyze complex social, economic, and political issues.
2. Apply theoretical concepts to real-world challenges, particularly in areas like public policy, government, business, and community engagement.
3. Develop strong analytical and critical thinking skills, along with a deep commitment to ethical reasoning, to prepare graduates for responsible decision-making in their careers.
4. Prepare students with marketable skills (e.g., policy analysis, data interpretation, ethical decision-making) relevant to careers in government, public policy, business, and graduate studies.

Advisement

Students who are interested in APPE should meet with Dr. Mary Beth Willard, Dr. Leah Murray, or Dr. Gavin Roberts upon declaring the major. Students should meet with one of the above annually for course planning and to discuss progress toward graduation and professional goals.

Major Course Requirements for B.A.P.

- POLS 1100 AI - American National Government **Credits: (3)**
- APPE 1010 - Introduction to Applied Politics, Philosophy & Economics **Credits: (3)**
- PHIL 1000 HU/CC - Introduction to Philosophy **Credits: (3)**
- PHIL 1250 HU - Critical Thinking **Credits: (3)**
- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3780 - Lobbying: Theory and Practice **Credits: (3)**
- POLS 3640 - Media and Politics **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**

- APPE 4900 - Capstone in Politics, Philosophy and Economics **Credits: (3)**

Political Philosophy Distribution Requirement (Choose two of the following):

- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- PHIL 3250 - Philosophy of Law **Credits: (3)**
- POLS 3320 - American Political Thought: The Founding **Credits: (3)**
- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**

Government Requirement

- POLS 3750 - Urban Government and Politics **Credits: (3)** or
- POLS 3760 - State Government and Politics **Credits: (3)**

Students will choose one of two cohorts:

Campaigns, Legislative & Lobbying Cohort

- POLS 3620 - Political Behavior **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)** or
- POLS 3990 - Political Analysis **Credits: (3)** or
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- COMM 1140 - Writing for Workplace Communication **Credits: (3)** or
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)** or
- POLS 4020 - Constitutional Law: Powers **Credits: (3)** or
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**

Political Economy Cohort

- MATH 1210 - Calculus I **Credits: (4)** or
- QUAN 2400 - Business Calculus **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**

Choose two of the following:

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**

- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**

Choose one of the following:

- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- PHIL 3250 - Philosophy of Law **Credits: (3)**
- POLS 3320 - American Political Thought: The Founding **Credits: (3)**
- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3600 - Political Parties **Credits: (3)**
- POLS 3610 - Campaigns and Elections **Credits: (3)**
- POLS 3620 - Political Behavior **Credits: (3)**
- POLS 3640 - Media and Politics **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- POLS 3760 - State Government and Politics **Credits: (3)**
- POLS 3780 - Lobbying: Theory and Practice **Credits: (3)**
- POLS 3990 - Political Analysis **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**
- POLS 4100 - Free Speech **Credits: (3)**
- POLS 4640 - American Presidency **Credits: (3)**

Department of Psychological Science

Department Chair: Aaron Ashley

Location: Social Science Building, Room 370

Telephone Contact: Mickey Cole 801-626-6247

Professors: Aaron Ashley, Eric Amsel, Azenett Garza, Joseph Horvat, Theresa Kay, Leigh Shaw; **Associate**

Professor: Cade Mansfield, Shannon McGillivray, Aminda O'Hare; **Assistant Professors:** Timothy Black, Sarah Herrmann, Melinda Russell-Stamp, Xin Zhao; **Instructor:** Kathryn Sperry

The reasons for selecting a major, minor, or BIS emphasis in Psychological Science are to understand human behavior and to prepare for careers working or doing research with people. The program is designed for students to learn the core content of psychology and the foundational methods of psychological inquiry, as well as to have opportunities to integrate and apply psychological concepts.

Students majoring (including teaching majors) in Psychological Science have a program of study which provides training in the foundation in the field but allows for additional coursework in students' areas of interest. BIS students are trained in the conceptual and methodological foundation of the discipline while pursuing topics of interest in the field and related ones. Minors are free to pursue topics of interest to augment their major without the requirement that they acquire the discipline's foundational knowledge, skills, and abilities.

Psychological Science Curriculum, Requirements, and Policies

The Department of Psychological Science offers a 45 credit hour major, a 20 hour BIS emphasis, and an 18 credit hour minor. The curriculum provides classes addressing the conceptual, methodological, and statistical knowledge of the discipline (Core General Courses), the breadth of the discipline (Core Content Courses), and the integration and application of the discipline (Capstone Experience). Additional classes provide greater content area specialization (Elective Group A) and experiential or individualized instruction opportunities (Elective Group B).

All Psychological Science major (including teaching major) and minor students must meet with the designated Department Adviser as soon as they declare to plan their course of study. BIS students with an emphasis in psychological science must additionally have their psychology courses approved by the designated Department Adviser (Advising Policy).

To count towards students' degree in Psychological Science, psychological science courses must be passed with a grade of C or higher (Course Grade Policy).

Students declaring a Psychological Science major, minor, or BIS emphasis in a given catalog year can apply previously completed courses towards their degree (see Course Grade Policy) as long as the courses were taken no longer than 15 years prior to the date of declaration (Course Sunset Policy).

A student with a Psychological Science major, minor, or BIS emphasis must earn at least a 2.50 Psychology GPA for courses being used for graduation (Psychological Science GPA Policy).

Students may transfer undergraduate psychology credits from any other accredited institution of higher education toward their degree (see the Sunset Policy) by submitting a request through the University's Transfer Office. Courses taught in departments other than Psychology will not generally transfer as Psychology courses. Lower division (1000- or 2000-level) courses at another institution will not generally count as equivalent to upper division (3000- or 4000-level) WSU courses. To challenge a transfer articulation, please contact the Department Chair with documentation including the syllabi from the courses taken (Transfer Articulation Policy).

Students who are majoring in Psychological Science must complete at least 9 credit hours of Psychological Science courses (see Course Grade Policy) in residence at Weber State University; students who are minoring in Psychological Science must complete at least 6 credit hours of Psychological Science courses (see Course Grade Policy) in residence at Weber State University (Residency Requirement).

Degree Programs in Psychology

Bachelor of Science

- **Psychological Science Major (BS)**
 - 45 credit hours total, including 11 Core General Course credits, 18 Core Content Course credits, 4 Capstone Course credits, and 12 elective credits taken from any area (only 1 course from Area Group 3). However, only a maximum of 6 credits from Electives Group B will be allowed to apply toward the Psychological Science Major.
- **Psychological Science Teaching Major (BS)**
 - 45 credit hours total, including 11 Core General Course credits, 18 Core Content Course credits, 4 Capstone Course credits, PSY 4000 (taken as a capstone or elective), and 9 elective credits taken from any area. Only 6 credits from Electives Group B will be allowed to apply toward the Psychological Science Teaching Major.

Emphasis Option for Bachelor of Integrated Studies

- **Psychological Science (BIS)**
 - 20 credit hours total, including 11 Core General Course credits and 9 credits taken from any area with the approval of the designated Department Adviser.

Minor

- **Psychological Science Minor**
 - 18 credits, including PSY 1010 and 15 credits taken from any area. Only 3 credits from Electives Group B will be allowed to apply toward the Psychological Science Minor.

Honors, Departmental

- **Psychological Science Departmental Honors**
 - Department Honors is conferred on students who keep at least a 3.70 GPA in Psychological Science and 3.25 overall GPA. Students must complete PSY 4910 and 3 credits from the Honors Program. An application for department honors in Psychological Science is available from the Department Adviser.

Interdisciplinary Minors

The Psychological Science Department participates in the Latin American Studies, Linguistics, Neuroscience, and Women & Gender Studies minor programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the relevant program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Associate of Science

Psychological Science (AS)

- **Program Prerequisite:** None
- **Grade Requirements:** A grade of "C" or better is required in all courses used to fulfill requirements for the Psychological Science associate's, major, teaching major, minor, or BIS emphasis (a grade of "C-" is not acceptable). An overall GPA for Psychological Science courses of 2.50 or higher is required. Refer to the general grade requirements for graduation Degree Requirements.
- **Psychological Science Sunset Policy:** Students declaring a Psychological Science associate's, major, teaching major, minor, or BIS emphasis in a given catalog year can apply previously completed courses towards their degree (see Course Grade Policy) as long as the courses were taken no longer than 15 years prior to the date of declaration.
- **Credit Hour Requirements:** 60 total hours are required, including at least 15 Psychological Science credits (PSY prefix).
- **Program Code:** 7055AS
- **CIPC:** 420101
- **Students are responsible for applying for graduation:** Click here for more information.
- **Additional Information on the Psychological Science major:** Click here to go to the Department webpage.

Program Learning Outcomes

- Goal 1: Knowledge Base
- Goal 2: Scientific Inquiry and Critical Thinking
- Goal 3: Ethical and Social Responsibility in a Diverse World
- Goal 4: Communication
- Goal 5: Professional Development

Advisement

- After declaring the Associate's in Psychological Science, students should work with the College of Social Sciences and Education Advisers to plan their degree requirements.
- Use Grad MAPS to plan your degree

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for the Psychological Science major.

General Education

Refer to Degree Requirements for Associate's Degree requirements.

Foundational Courses (12 credits)

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- PSY 2000 SS/CC - The Psychology of Human Relationships **Credits: (3)**
- PSY 2010 - Science and Profession of Psychology **Credits: (3)**
- PSY 2710 - Biopsychology **Credits: (3)**

Elective Courses

At least 3 credits of electives (PSY prefix) are required from the following options.

- PSY 1540 - Designing Your Life **Credits: (3)**
- PSY 2020 - Mental Health Awareness **Credits: (3)**
- PSY 2250 - Learning and Memory **Credits: (3)**
- PSY 2370 - Psychology of Women and Gender **Credits: (3)**
- PSY 2400 - Positive Psychology **Credits: (3)**
- PSY 2800 INT CRE - Projects and Research **Credits: (1-3)**
- PSY 2830 CRE - Directed Readings **Credits: (1-3)**
- PSY 2860 - Practicum **Credits: (1-3)**
- PSY 2890 INT - Cooperative Work Experience **Credits: (1-2)**

Institutional Certificate

Behavioral Health Technician Certificate of Proficiency

The Behavioral Health Technician Certificate of Proficiency Program at Weber State University offers specialized training to individuals interested in pursuing careers as behavioral health technicians, providing them with the knowledge and skills needed to assist licensed mental health professionals in treating and supporting patients. This certificate is offered through a collaborative, interdisciplinary effort between Weber State University's College of Social and Behavioral Sciences (CSBS) and the Dumke College of Health Professions (DCHP).

- **Program Prerequisite:** The program is open to all students and has no special admissions prerequisites or requirements.
- **Grade Requirements:** A minimum grade of "C" in all courses counted towards the completion of the certificate (no "C-" or lower grades allowed).
- **Credit Hour Requirements:** A total of 24 credit hours is required for completion of the certificate program.
- **Program Code:** 7065CP
- **CIPC:** 511502

Advisement

All advising for the Behavioral Health Technician Certificate of Proficiency will be conducted by Psychological Science Advisors working through the Department of Psychological Science (801-626-8743).

Admission Requirements

The program is open to all students and has no special admissions prerequisites or requirements.

Program Learning Outcomes

The Behavioral Technician Certificate of Proficiency Learning Outcomes are directly taken from the Talent Ready Utah Behavioral Health Workforce Initiative Grant request for proposals (RFP) and reflect industry identified skills associated with the Behavioral Health Technician Scope of Practice.

Introduction to Mental Health

- Describe the role, function, and responsibilities of various mental health professions and community service agencies.
- Evaluate personal strengths, weaknesses, interests and values in potential alignment for a rewarding career in behavioral health and social sciences.
- Describe cognitive and behavioral strategies that support academic and career success.
- Explain the importance of whole health integration, strong support systems and self-care habits for stress management and resiliency as a successful student and valued employee.
- Define mental health and identify common mental health issues.
- Demonstrate first aid skills in a mental health emergency or in support of an individual with a common mental health disorder.
- Build job-seeking skills and a professional portfolio.
- Create professional and academic goals, including a concrete educational plan leading towards certificate(s) and/or degree(s) in behavioral health and social sciences.

Professional Resiliency and Well-Being

- Analyze historical contexts of resilience, burnout, traumatic stress, and compassion fatigue research.
- Describe factors that contribute to trauma, burnout, and compassion fatigue.
- Explain how work-related stress can compromise physical, cognitive, emotional, social, and spiritual well-being
- Develop mindfulness and self-relaxation strategies to promote mind-body awareness and equanimity.
- Practice skills to modify mindsets, explanatory styles, and core beliefs to bounce back from setbacks and adversity.
- Define meaning and purpose in work and life to enhance resilience.

- Explain elements of positive psychology and whole health integration to enhance happiness and well-being.
- Identify skills to build meaningful relationships and positive support systems to improve health and well-being.
- Explain ways to improve health-conscious practices, including healthy eating, activity, sleep, and self-compassion.
- Analyze structural factors within organizations that support resilience.
- Utilize key psychological and emotional resiliency skills to address symptoms and prevent future effects associated with traumatic stress and compassion fatigue.
- Create a six-point professional resiliency plan.

Ethical, Legal, and Professional Issues

- Identify the unlicensed and licensed professional regulating bodies, laws, and codes of ethics that govern the behavioral health fields.
- Identify governing bodies that oversee the practice of behavioral health
- Define the ethical, legal and professional responsibilities of helping professionals.
- Identify the role of supervision in the development of professional practice.
- Describe clients' rights to confidentiality and situations in which confidentiality cannot be assured, including minors and vulnerable adults.
- Explain ethical issues related to professional competence and scope of practice.
- Demonstrate accurate documentation of legal and ethical issues.
- Identify the role of attitudes, beliefs, assumptions, and personal and professional values that underlie ethical decision making.
- Demonstrate the ability to apply concepts of ethical decision making to address common issues in social and behavioral services.
- Predict ways to effectively manage and avoid boundary issues and dual relationships in behavioral health counseling.
- Explore diversity issues that are relevant within ethical decision making
- Describe the unique ethical issues in working with minor clients, including ages of consent in mental health and substance abuse treatment, consent vs. assent for minors, and the involvement of significant others in the treatment process.
- Demonstrate the ability to apply concepts of ethical decision making with specialized populations, including integrative care.

Applied Therapeutic Communication Skills

- Describe principles of interpersonal communication in the helping professions.
- Describe modes of non-verbal communications and their implications
- Describe nuances of paraverbal and verbal communications and their implications.
- Demonstrate the ability to use effective listening skills.
- Demonstrate the ability to observe and express emotions effectively and responsibly in a variety of situations.
- Explain the purpose, elements, risks, and impact of self-disclosure.
- Demonstrate proficiency with the following interpersonal communication skills: questioning, confronting, and self-disclosure.
- Describe the therapeutic alliance process and the stages of progression.
- Demonstrate necessary communication skills for establishing rapport and maintaining a helping relationship.
- Demonstrate techniques to deal with resistant clients.

- Describe elements of communication involved in family relationship development, maintenance, and repair.
- Explain effective conflict management and problem-solving strategies in a variety of interpersonal communication situations.
- Demonstrate the ability to provide appropriate feedback.
- Demonstrate the ability to receive and act upon feedback from peers.

Case Management and Clinical Documentation

- Describe the role and explain the function of case management in human services.
- Describe the methods of delivering case management services.
- Demonstrate the interpersonal skills necessary to establish and maintain rapport at all stages of case management.
- Demonstrate the process of assessment and relevant interviewing skills in case management.
- Describe whole health services delivered as part of case management.
- Explain the role of case managers in whole health service coordination.
- Describe the case management processes of outcome monitoring and reassessment.
- Apply the concepts of case management to the unique needs of multicultural clients and special populations.
- Describe the components of a whole health integrated delivery model of case management.
- Describe documentation required in a case report and client records and appropriate formats.
- Analyze examples of case reports from diverse clinical settings for completeness and correct formatting.
- Explain the legal and liability issues related to case management and report writing.

Child, Family, and Adult Advocacy

- Define advocacy and explain professional/ethical standards for advocacy.
- Practice using common advocacy strategies and tactics and discuss when each may be applicable/valuable.
- Describe the role of parental rights related to advocacy.
- Describe the procedures involved in due process, grievance and appeals in behavioral health systems
- Describe familial considerations involved in advocacy.
- Describe the importance of whole health integration in advocacy to ensure appropriate educational access and opportunity.
- Describe the role and importance of whole health integration in advocacy when working with the disability population.
- Describe the role and importance of whole health integration in advocacy when working with justice-involved persons.
- Identify several funding sources and whole health integrated related services that can help address the needs of individuals with behavioral health issues.
- Demonstrate how to navigate multiple systems to develop an advocacy plan relevant to a child and his/her family.
- Describe the importance of the wraparound process and how it relates to child and family advocacy.
- Identify integrated healthcare community support and resources for children and families that can be made available through advocacy.

Major Course Requirements

Required Courses (24 credit hours)

Semester 1

- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- PSY 2000 SS/CC - The Psychology of Human Relationships **Credits: (3)**
- PSY 2010 - Science and Profession of Psychology **Credits: (3)**
- HAS 3000 - The Healthcare System **Credits: (3)**

Semester 2

- PSY 2040 - Child, Family, and Adult Advocacy **Credits: (3)**
- PUBH 2050 - Case Management in Behavioral Health **Credits: (3)**
- NRSG 3440 - Resiliency in your Profession **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**

Bachelor of Science

Psychological Science (BS)

- **Program Prerequisite:** None
- **Minor:** Required, unless a student is a double major. Students cannot major and minor in Psychological Science.
- **Grade Requirements:** A grade of "C" or better is required in all courses used to fulfill requirements for the Psychological Science major, Teaching major, minor, or BIS emphasis (a grade of "C-" is not acceptable). An overall GPA for Psychological Science courses of 2.50 or higher is required. Refer to the general grade requirements for graduation Degree Requirements.
- **Psychological Science Sunset Policy:** Students declaring a Psychological Science major, Teaching major, minor, or BIS emphasis in a given catalog year can apply previously completed courses towards their degree (see Course Grade Policy) as long as the courses were taken no longer than 15 years prior to the date of declaration.
- **Credit Hour Requirements:** The University requires a total of 120 credit hours for graduation, of which at least 40 credits must be upper-division (courses numbered 3000 and above). For Psychological Science, a minimum of 48 credit hours are required within the major.
- **Website:** <http://www.weber.edu/psychology>
- **Program Code:** 7055BS
- **CIPC:** 420101

Program Learning Outcomes

- Goal 1: Knowledge Base
- Goal 2: Scientific Inquiry and Critical Thinking
- Goal 3: Ethical and Social Responsibility in a Diverse World
- Goal 4: Communication
- Goal 5: Professional Development

Advisement

- After declaring Psychological Science as a major, students should contact the department office to schedule their first advising appointment with the Department Advisor. Students should meet with the Department Advisor at least annually for course planning, and to discuss progress toward graduation and professional goals.
- Use Grad MAPS to plan your degree.

- It is the student's responsibility to apply for graduation.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for the Psychological Science major.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Two Psychological Science courses fulfill General Education requirements (PSY 1010, PSY 2000) in the Social Science breadth area and one course also in the Equity, Diversity, and Inclusion area (PSY 2000). Only PSY 1010 or PSY 2000 may be used to fulfill the Social Science requirement due to the "no duplication" policy in breadth requirements (i.e., courses selected to fulfill General Education requirements must each be from a different program). Students may take PSY 1010 to fulfill the Social Science requirement and PSY 2000 to fulfill the Equity, Diversity, and Inclusion requirement as well as major requirements.

Psychological Science Major Requirements

Foundational Courses (14 credits):

Introductory Psychology

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
Note: *PSY 1010 is required for all courses in the Psychological Science curriculum EXCEPT the following: PSY 1540, PSY 2000, PSY 2020, PSY 2710, PSY 3600, and PSY 3605.*
- PSY 2010 - Science and Profession of Psychology **Credits: (3)**

Statistics and Research Methods

There are two options to complete the required Statistics and Research Methods course sequence in Psychology. A student must complete one option or the other **and cannot** complete the sequence by a combination of courses in each option.

Option 1

This option is strongly encouraged for all Psychological Science majors. PSY 3615 / PSY 3616 is a two-semester course sequence offered annually: 3615 is offered in the Fall of a given academic year and 3616 is offered in the Spring. The required sequence must be completed in the same academic year and with the same faculty member. The course sequence is recommended to be taken in the junior year and has the prerequisite of PSY 1010 and MATH 1010 or QL with passing grades of C or better.

- PSY 3615 - Psychological Statistics and Methods I **Credits: (4)**
- PSY 3616 - Psychological Statistics and Methods II **Credits: (4)**

Option 2

This option is for students with schedules and graduation plans that cannot accommodate the traditional Fall-Spring sequence in Option 1.

- PSY 3600 - Statistics in Psychology **Credits: (3)** -- PSY 3600 has a prerequisite of MATH 1010 or QL with passing grade of C or better. Psychological Science majors may substitute SW 3600 or SOC 3600 for PSY 3600, but an additional 3 credits will be added to the graduation requirement (this addition is waived for dual majors).
- PSY 3605 - Psychology Statistics Lab **Credits: (1)** -- PSY 3605 has PSY 3600 or its equivalent as a prerequisite/co-requisite.
- PSY 3610 CRE - Research Methods in Psychology **Credits: (4)** -- PSY 3610 has a prerequisite of PSY 1010 and PSY 3600 (or equivalent with prior approval from the department chair). PSY 3605 is a required prerequisite or corequisite (or equivalent with prior approval from the department chair).

Core Courses (18 credits):

One course in each area must be taken to fulfill the core requirements. Students may opt to take other courses in each area as electives.

Area A: Biological Basis of Behavior

- PSY 2710 - Biopsychology **Credits: (3)**

Area B: Development Basis of Behavior

Select one course from the following:

- PSY 3000 - Child Psychology **Credits: (3)**
- PSY 3140 - Adolescent Psychology **Credits: (3)**

Area C: Psychopathology

- PSY 3010 - Psychopathology **Credits: (3)**

Area D: Cognitive Basis of Behavior

Select one course from the following:

- PSY 2250 - Learning and Memory **Credits: (3)**
- PSY 3255 - Conditioning, Learning, & Behavior Modification **Credits: (3)**
- PSY 3500 - Cognition **Credits: (3)**

Area E: Individual Differences and Social Processes

Select one course from the following:

- PSY 3430 - Theories of Personality **Credits: (3)**
- PSY 3460 - Social Psychology **Credits: (3)**

Area F: Diversity

Select one course from the following:

- PSY 2000 SS/CC - The Psychology of Human Relationships **Credits: (3)**
- PSY 2370 - Psychology of Women and Gender **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**

Capstone Courses (4 credits):

- 4 credit hours of capstone courses are required for Psychological Science Majors/Teaching Majors. Students must complete PSY 4950 (1 credit) and one capstone course (3 credits) listed below to fulfill the capstone requirement.
- Prerequisites: Students must complete 24 PSY credits, including PSY 3610 or PSY 3616. PSY 4950 should be taken in the final semester and requires a capstone course as a prerequisite or corequisite.
- Students may opt to take the other capstone courses as electives.
- PSY 4910 is a two-semester sequence. Students in semester one must complete and defend a research proposal. Students in semester two must complete and defend the research project.

Students Must Take:

- PSY 4950 - Capstone Experience: Promoting Psychological Literacy **Credits: (1)**

Choose 1 other course from this list:

- PSY 4000 - Advanced General **Credits: (3)**
- PSY 4050 - Evolutionary Psychology **Credits: (3)**
- PSY 4090 - History and Systems of Psychology **Credits: (3)**
- PSY 4100 - Psychology in the Media **Credits: (3)**
- PSY 4140 - Theories of Development **Credits: (3)**
- PSY 4200 - Environmental Psychology **Credits: (3)**
- PSY 4310 - Introduction to Counseling Theories **Credits: (3)**
- PSY 4760 - Tests and Measurements **Credits: (3)**
- PSY 4905 - Capstone Selected Topics in Psychology **Credits: (3)**
- PSY 4910 - Senior Thesis **Credits: (3)** (to be repeated twice for credit)
Note: Teaching majors may only select from PSY 4000 and PSY 4090.

Elective Courses (12 credits)

12 credit hours of electives are required for Psychological Science Majors. Select 12 credits of any PSY course not already taken in the major in consultation with the program advisor.

- PSY 2800, PSY 2830, and PSY 2860 are for students who have not yet completed Statistics and Research Methods sequence.
- PSY 4800, PSY 4830, and PSY 4860 are for students who have completed the Statistics and Research Methods sequence and require completion of at least 18 PSY credit hours.
- PSY 2890/PSY 4890 require students to have a current job in the field and PSY 4890 requires PSY major or minor status.

Psychological Science Teaching (BS)

- **Program Prerequisite:** None. Psychological Science Teaching majors must meet the Teacher Education admission and licensure requirements (see [Department of Teacher Education](#)).
- **Minor:** Required, unless a student is a double major. Students cannot major and minor in Psychological Science.
- **Grade Requirements:** A grade of "C" or better is required in all courses used to fulfill requirements for the Psychological Science major, Teaching major, minor, or BIS emphasis (a grade of "C-" is not acceptable). An overall GPA for Psychological Science courses of 2.50 or higher is required. Refer to the general grade requirements for graduation Degree Requirements.
- **Psychological Science Sunset Policy:** Students declaring a Psychological Science major, Teaching major, minor, or BIS emphasis in a given catalog year can apply previously completed courses towards their degree (see Course Grade Policy) as long as the courses were taken no longer than 15 years prior to the date of declaration.
- **Credit Hour Requirements:** The University requires a total of 120 credit hours for graduation, of which at least 40 credits must be upper-division (courses numbered 3000 and above). For Psychological Science, a minimum of 45 credit hours are required within the Teaching major.
- **Program Code:** 7056BS
- **CIPC:** 131335
- **Students are responsible for applying for graduation:** Click here for more information
- **Additional Information on the Psychological Science Teaching major:** Click here to go the Department webpage.

Program Learning Outcomes

- Goal 1: Knowledge Base
- Goal 2: Scientific Inquiry and Critical Thinking
- Goal 3: Ethical and Social Responsibility in a Diverse World
- Goal 4: Communication
- Goal 5: Professional Development

Advisement

- After declaring Psychological Science Teaching as a major, students should contact the department office to schedule their first advising appointment with the Department Advisor. Students should meet with the Department Advisor at least annually for course planning, and to discuss progress toward graduation and professional goals. Psychological Science Teaching majors also should regularly consult with an advisor in the Jerry and Vickie Moyes College of Education (call 801-626-6269, Teacher Education Department).(Also refer to the Department Advisor Referral List.)
- Use Grad MAPS to plan your degree

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Whereas there are no special admission or application requirements for the Psychological Science Teaching major, Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Two Psychological Science courses fulfill General Education requirements ([PSY 1010](#), [PSY 2000](#)) in the Social Science breadth area and one course also in the Equity, Diversity, and Inclusion area (PSY 2000). Only PSY 1010 or PSY 2000 may be used to fulfill the Social Science

requirement due to the "no duplication" policy in breadth requirements (i.e., courses selected to fulfill General Education requirements must each be from a different program). Students may take PSY 1010 to fulfill the Social Science requirement and PSY 2000 to fulfill the Equity, Diversity, and Inclusion requirement as well as teaching major requirements.

Teaching Major

Psychological Science Major Requirements

Foundational Courses (14 credits):

Introductory Psychology

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
Note: PSY 1010 is required for all courses in the Psychological Science curriculum EXCEPT the following: PSY 1540, PSY 2000, PSY 2020, PSY 2710, PSY 3600, and PSY 3605.
- PSY 2010 - Science and Profession of Psychology **Credits: (3)**

Statistics and Research Methods

There are two options to complete the required Statistics and Research Methods course sequence in Psychology. A student must complete one option or the other **and cannot** complete the sequence by a combination of courses in each option.

Option 1

This option is strongly encouraged for all Psychological Science majors. PSY 3615 / PSY 3616 is a two-semester course sequence offered annually: 3615 is offered in the Fall of a given academic year and 3616 is offered in the Spring. The required sequence must be completed in the same academic year and with the same faculty member. The course sequence is recommended to be taken in the junior year and has the prerequisite of PSY 1010 and MATH 1010 or QL with passing grades of C or better.

- PSY 3615 - Psychological Statistics and Methods I **Credits: (4)**
- PSY 3616 - Psychological Statistics and Methods II **Credits: (4)**

Option 2

This option is for students with schedules and graduation plans that cannot accommodate the traditional Fall-Spring sequence in Option 1.

- PSY 3600 - Statistics in Psychology **Credits: (3)** -- PSY 3600 has a prerequisite of MATH 1010 or QL with passing grade of C or better. Psychological Science majors may substitute SW 3600 or SOC 3600 for PSY 3600, but an additional 3 credits will be added to the graduation requirement (this addition is waived for dual majors).
- PSY 3605 - Psychology Statistics Lab **Credits: (1)** -- PSY 3605 has PSY 3600 or its equivalent as a prerequisite/co-requisite.
- PSY 3610 CRE - Research Methods in Psychology **Credits: (4)** -- PSY 3610 has a prerequisite of PSY 1010 and PSY 3600 (or equivalent with prior approval from the department chair). PSY 3605 is a required prerequisite or corequisite (or equivalent with prior approval from the department chair).

Core Courses (18 credits):

One course in each area must be taken to fulfill the core requirements. Students may opt to take other courses in each area as electives.

Area A: Biological Basis of Behavior

- PSY 2710 - Biopsychology **Credits: (3)**

Area B: Development Basis of Behavior

Select one course from the following:

- PSY 3000 - Child Psychology **Credits: (3)**
- PSY 3140 - Adolescent Psychology **Credits: (3)**

Area C: Psychopathology

- PSY 3010 - Psychopathology **Credits: (3)**

Area D: Cognitive Basis of Behavior

Select one course from the following:

- PSY 2250 - Learning and Memory **Credits: (3)**
- PSY 3255 - Conditioning, Learning, & Behavior Modification **Credits: (3)**
- PSY 3500 - Cognition **Credits: (3)**

Area E: Individual Differences and Social Processes

Select one course from the following:

- PSY 3430 - Theories of Personality **Credits: (3)**
- PSY 3460 - Social Psychology **Credits: (3)**

Area F: Diversity

Select one course from the following:

- PSY 2000 SS/CC - The Psychology of Human Relationships **Credits: (3)**
- PSY 2370 - Psychology of Women and Gender **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**

Capstone Courses (4 credits):

- 4 credit hours of capstone courses are required for Psychological Science Majors/Teaching Majors. Students must complete PSY 4950 (1 credit) and one capstone course (3 credits) listed below to fulfill the capstone requirement.

- Prerequisites: Students must complete 24 PSY credits, including PSY 3610 or PSY 3616. PSY 4950 should be taken in the final semester and requires a capstone course as a prerequisite or corequisite.
- Students may opt to take the other capstone courses as electives.
- PSY 4910 is a two-semester sequence. Students in semester one must complete and defend a research proposal. Students in semester two must complete and defend the research project.

Students Must Take:

- PSY 4950 - Capstone Experience: Promoting Psychological Literacy **Credits: (1)**

Choose 1 other course from this list:

- PSY 4000 - Advanced General **Credits: (3)**
- PSY 4050 - Evolutionary Psychology **Credits: (3)**
- PSY 4090 - History and Systems of Psychology **Credits: (3)**
- PSY 4100 - Psychology in the Media **Credits: (3)**
- PSY 4140 - Theories of Development **Credits: (3)**
- PSY 4200 - Environmental Psychology **Credits: (3)**
- PSY 4310 - Introduction to Counseling Theories **Credits: (3)**
- PSY 4760 - Tests and Measurements **Credits: (3)**
- PSY 4905 - Capstone Selected Topics in Psychology **Credits: (3)**
- PSY 4910 - Senior Thesis **Credits: (3)** (to be repeated twice for credit)
Note: Teaching majors may only select from PSY 4000 and PSY 4090.

Elective Courses (12 credits)

12 credit hours of electives are required for Psychological Science Majors. Select 12 credits of any PSY course not already taken in the major in consultation with the program advisor.

- PSY 2800, PSY 2830, and PSY 2860 are for students who have not yet completed Statistics and Research Methods sequence.
- PSY 4800, PSY 4830, and PSY 4860 are for students who have completed the Statistics and Research Methods sequence and require completion of at least 18 PSY credit hours.
- PSY 2890/PSY 4890 require students to have a current job in the field and PSY 4890 requires PSY major or minor status.

Emphasis Option for Bachelor of Interdisciplinary Studies

Psychological Science (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better is required in all courses used to fulfill requirements for the Psychological Science major, Teaching major, minor, or BIS emphasis (a grade of "C-" is not acceptable). In addition an overall GPA for Psychological Science courses of 2.50 or higher is required. Also refer to the general grade requirements for graduation Degree Requirements.

- **Psychological Science Sunset Policy:** Students declaring a Psychological Science major, Teaching major, minor, or BIS emphasis in a given catalog year can apply previously completed courses towards their degree (see Course Grade Policy) as long as the courses were taken no longer than 15 years prior to the date of declaration.
- **Credit Hour Requirements:** Minimum of 18 20 credit hours (includes PSY 1010)
- **Program Code:** 7055
- **CIPC:** 420101
- **Students are responsible for applying for graduation:** Click here for more information.
- **Additional Information on the BIS emphasis:** Click here to go to on the Psychological Science can be found at the Department of Psychological Science's webpage.

BIS Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses / results / conclusions / reflections from the Capstone experience
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Advisement

- Review information on BIS student requirements.
- Complete the BIS Application and Contract forms (contact the BIS office at bis@weber.edu). Next, contact the department chairperson who will help you select courses that complement your other two BIS areas and to complete your BIS contract or complement your major. Classes used for General Education requirements cannot be used on BIS contracts. For more information on the BIS application process, click here.
- Use Grad MAPS to plan your Degree

Psychological Science Major Requirements

Foundational Courses (14 credits):

Introductory Psychology

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
Note: PSY 1010 is required for all courses in the Psychological Science curriculum EXCEPT the following: PSY 1540, PSY 2000, PSY 2020, PSY 2710, PSY 3600, and PSY 3605.
- PSY 2010 - Science and Profession of Psychology **Credits: (3)**

Statistics and Research Methods

There are two options to complete the required Statistics and Research Methods course sequence in Psychology. A student must complete one option or the other **and cannot** complete the sequence by a combination of courses in each option.

Option 1

This option is strongly encouraged for all Psychological Science majors. PSY 3615 / PSY 3616 is a two-semester course sequence offered annually: 3615 is offered in the Fall of a given academic year and 3616 is offered in the Spring. The required sequence must be completed in the same academic year and with the same faculty member. The course sequence is recommended to be taken in the junior year and has the prerequisite of PSY 1010 and MATH 1010 or QL with passing grades of C or better.

- PSY 3615 - Psychological Statistics and Methods I **Credits: (4)**
- PSY 3616 - Psychological Statistics and Methods II **Credits: (4)**

Option 2

This option is for students with schedules and graduation plans that cannot accommodate the traditional Fall-Spring sequence in Option 1.

- PSY 3600 - Statistics in Psychology **Credits: (3)** -- PSY 3600 has a prerequisite of MATH 1010 or QL with passing grade of C or better. Psychological Science majors may substitute SW 3600 or SOC 3600 for PSY 3600, but an additional 3 credits will be added to the graduation requirement (this addition is waived for dual majors).
- PSY 3605 - Psychology Statistics Lab **Credits: (1)** -- PSY 3605 has PSY 3600 or its equivalent as a prerequisite/co-requisite.
- PSY 3610 CRE - Research Methods in Psychology **Credits: (4)** -- PSY 3610 has a prerequisite of PSY 1010 and PSY 3600 (or equivalent with prior approval from the department chair). PSY 3605 is a required prerequisite or corequisite (or equivalent with prior approval from the department chair).

Elective Courses (9 credits):

Select 9 credits of any PSY course not already taken in the major in consultation with the program advisor.

Minor

Psychological Science Minor

- **Grade Requirements:** A grade of "C" or better is required in all courses used to fulfill the Psychological Science major, Teaching major, minor, or BIS emphasis (a grade of "C-" is not acceptable). An overall GPA for Psychological Science courses of 2.50 or higher is required. Also refer to the general grade requirements for graduation Degree Requirements.
- **Psychological Science Sunset Policy:** Students declaring a Psychological Science major, Teaching major, minor, or BIS emphasis in a given catalog year can apply previously completed courses towards their degree (see Course Grade Policy) as long as the courses were taken no longer than 15 years prior to the date of declaration.
- **Credit Hour Requirements:** Minimum of 18 credit hours
- **Program Code:** 7055
- **CIPC:** 420101
- **Students are responsible for applying for graduation:** [Click here for more information.](#)
- **Additional Information on the Psychological Science minor:** [Click here to go to the Department webpage.](#)

Program Learning Outcomes

- **Goal 1:** Knowledge Base
- **Goal 2:** Scientific Inquiry and Critical Thinking
- **Goal 3:** Ethical and Social Responsibility in a Diverse World
- **Goal 4:** Communication
- **Goal 5:** Professional Development

Advisement

- After declaring Psychological Science as a minor, students should contact the department office to schedule their first advising appointment with the Department Advisor. Students should meet with the Department Advisor at least annually for course planning, and to discuss progress toward graduation and professional goals.
- Use Grad MAPS to plan your Degree

Foundational Course (3 credits)

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
Note: PSY 1010 is required for all courses in the Psychological Science curriculum EXCEPT the following: PSY 1540, PSY 2000, PSY 2020, PSY 2710, PSY 3600, and PSY 3605.

Elective Courses (15 credits)

- Select 15 credits of any PSY course not already taken in the minor in consultation with the program advisor.
- Minors may take PSY 2800, PSY 2830, and PSY 2860.
- PSY 2890/PSY 4890 require students to have a current job in the field.

Department of Social Work and Gerontology

Department Chair: Kerry Kennedy-Pressey

Location: Lindquist Hall, Room 327

Telephone Contact: Taryn Pearce 801-626-6157

Professor: Mark Bigler, Kerry Kennedy-Pressey, **Associate Professors:** Barrett Bonella, Corina Segovia

Tadehara; **Assistant Professors:** Justin Lee, Kristina Moleni, Lizbeth Velazquez, Steve Vigil; **Instructor:** Heidee Miller

Social Work

The goal of social work education at every level is for students to integrate the knowledge, skills, and values of the profession into a generalist practice framework. Social work education takes place in four year undergraduate and two-year graduate programs and leads to professional degrees at the baccalaureate and master's levels, respectively. These levels of education differ from each other in the level of knowledge and skill they expect students to synthesize in practice competence. These distinctions and the discretion provided by the tradition of academic freedom contribute to the desired uniqueness of each program. The Social Work program at Weber State University is accredited at the baccalaureate level by the Council on Social Work Education.

Social Work is a self-regulating profession with sanction from public, private and voluntary auspices. Through all its roles and functions and multiple settings, social work is based on knowledge and competence in evidence-based

practice skills, and is guided by professional values and ethics. With its central focus on the transactions between people and their environments, social work uses research and theory from social, behavioral, and biological sciences as well as from social work practice itself, developing a unique perspective on the human condition.

Sound curriculum designs give the educational program the integrated focus inherent in the profession's enduring philosophical base. This ensures historical continuity and provides a stable framework from which to assess and incorporate practice innovations, emerging knowledge, and interdisciplinary exchanges. This combination of curricular stability and flexibility is essential if the program is to respond effectively to changing social forces and provide leadership in the profession's ongoing quest for progressive social change.

It is, therefore, essential that all professional social workers have in common knowledge, skills, and values that are generally transferable from one setting, population group, geographic area, or problem to another.

The Social Work program is designed to: (1) prepare students for generalist entry-level social work practice; (2) prepare students for graduate social work education; (3) prepare students to take the Social Service Worker licensing examination; (4) provide a liberal, interdisciplinary learning experience to help students in their understanding of and adjustment to living in a democratic society; and (5) provide continuing educational opportunities for baccalaureate and paraprofessional social welfare providers.

Gerontology

Gerontology is the multi-disciplinary study of the processes of aging from conception to death with special focus on the later life cycle and the problems associated with aging and the aged in society. Individuals working in the field of aging need a broad range of knowledge that transcends a single academic discipline. The Gerontology Program at Weber State University is designed to: (1) provide preparation for employment in both the private and public sector including working with senior citizen centers, nutrition programs, housing projects, long-term care facilities, state and local aging programs, Hospice, research, senior volunteer programs, job services, retirement planning and other age-related employment; (2) provide continuing education for job enrichment and preparation for persons already in the aging employment sector through consultation, workshops and academic courses to enhance career opportunities; (3) provide general education courses designed to assist students in understanding and dealing with older persons within their family and society at large; (4) encourage students to go directly into aging employment and/or to seek graduate degrees in gerontology or related fields leading to positions in national, regional and local aging network sectors.

Note: No new majors are being accepted in this program at this time. However, the minor, BIS emphasis, and non-degree certificate programs are active and available.

Bachelor of Arts

Social Work (BA)

Social Work Major Bachelor's Degree (BS or BA)

- **Program Prerequisite:** Must be accepted to the program (see Admissions Requirements described later in this section).
- **Minor:** The Social Work Major requires either: (a) the completion of a minor; or (b) a minor alternative. Minor requirements are found in the University catalog under the specific programs that offer them. As an alternative to a minor, a Social Work Major may choose to complete 18 credits (generally the equivalent of six courses) from a set of approved elective enrichment courses listed below.

- **Grade Requirements:** A grade of "C" or better is required in all courses toward and included in this major (a grade of "C-" is not acceptable). In addition, an overall GPA for these courses of 2.5 must be maintained. Also refer to the general grade requirements Degree Requirements. Students not meeting the minimum grade requirements for an individual Social Work course may repeat that course one (1) time before being dropped from the Social Work program. In the rare event a student is unable to complete SW 4860 and SW 4861 in the field agency they are originally placed, at the discretion of the field placement advisor, the student may request a new placement one (1) time only. Students at any time failing to meet the overall GPA of 2.5 will be given a probationary semester to raise their GPA to the minimum standard. Failure to comply with this policy will result in being dropped from the Social Work program.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 41 of these is required within the major not counting the prerequisite courses totaling 18 semester hours. A total of 40 upper division credit hours is required for graduation from Weber State University (courses numbered 3000 and above).
- **Program Code:** 7017BA, 7017BS
- **CIPC:** 440701

Advisement

Students accepted into the program are assigned to a faculty advisor for academic and professional advising. The faculty advisor assists students with course scheduling, academic counseling, and professional self-assessment. Students are required to see their faculty advisor at least one time per semester prior to registration. Call the Social Work/Gerontology office number, 801-626-6157, or the Department Chair, 801-626-6156, for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare a program of study (see Enrollment Services and Information). Satisfactory completion of the following is required prior to formal acceptance into the program:

1. WSU Writing Competency (Composition)*
2. WSU Information Literacy*
3. 60-63 semester graduation hours (or equivalent) including the prerequisite courses listed below for the Behavioral and Social Sciences, Human Development, and Social Work prerequisites. These courses must be completed with a grade of "C" or better and with a total GPA of 2.5 or better.
4. Students agree to abide by the National Association of Social Workers Code of Ethics.

Note:

** Refer to General Requirements on Degree Requirements*

Program Learning Outcomes

- Identify as a professional social worker and conduct oneself accordingly
- Apply social work ethical principles to guide professional practice
- Apply critical thinking to inform & communicate professional judgements
- Engage diversity and difference in practice
- Advance human rights and social and economic justice
- Engage in research-informed practice and practice-informed research
- Apply knowledge of human behavior and the social environment
- Engage in policy practice to advance social and economic well-being and to deliver effective social work services

- Respond to contexts that shape practice
- Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities

Courses Required Prior to Formal Acceptance to the Social Work Program

Behavioral and Social Science Prerequisites (9 credit hours)

- ANTH 1000 SS/CC - Introduction to Anthropology **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)** or
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**

Human Development Prerequisite (3 credit hours)

- ZOOL 1020 LS - Human Biology **Credits: (3)**

Note:

Any transfer course in this area must contain only human biology content, courses with animal or plant content are not acceptable

Social Work Prerequisites (6 credit hours)

- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 2100 SS - Human Behavior and the Social Environment I **Credits: (3)**

Note:

ZOOL 1020 should be taken prior to or concurrently with SW 2100

Formal Admission to the Social Work Program

Formal applications for admission to the program will be considered during the semester the student is in the process of completing final prerequisites or anytime thereafter. Applications may be downloaded from the Department's website or obtained at the Social Work office (Lindquist Hall, Room 330). The Admissions and Retention Committee will consider all applications and make one of the following recommendations:

1. Full admission to the program;
2. Admission to the program with contingencies;
3. Denial of admission to the program.

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. The following courses for the Social Work prerequisite requirements will also fulfill general education requirements: SW 1010 SS CEL - Introduction to Generalist Social Work; ANTH 1000 SS/CC - Introduction to Anthropology; PSY 1010 SS - Introductory Psychology; SOC 1010 SS/CC - Introduction to Sociology; and ZOOL 1020 LS - Human Biology.

Major Course Requirements for BS or BA Degree

The following should be taken after completing the above prerequisites.

Required Social Work Core Courses (38 credit hours)

- SW 2200 SS/CC - Issues in Diversity **Credits: (3)**
- SW 3100 - Human Behavior and the Social Environment II **Credits: (2)**
- SW 3200 - Child and Family Welfare **Credits: (2)**
- SW 3500 - Social Welfare & Gerontological Policy Development and Service **Credits: (3)**
- SW 3600 - Social Statistics **Credits: (3)** (or equivalent)
(Prerequisite – Quantitative Literacy. Must be completed prior to SW 4861)
- SW 3700 - Social Work Research **Credits: (3)** *(It is recommended to take a Statistics course [SW 3600] prior to Research)*
- SW 3900 - Social Work Methods, Values, and Ethics **Credits: (3)**
- SW 3910 - Social Work Practice I **Credits: (3)** *(Make application for Social Service Field Experience prior to completing SW 3910)*
- SW 3920 - Social Work Practice II **Credits: (3)**
- SW 3930 - Social Work Practice III **Credits: (3)**
- SW 4500 - Interventions for Populations at Risk **Credits: (3)**
- SW 4860 INT - Social Service Field Experience I **Credits: (4)**
- SW 4861 INT - Social Service Field Experience II **Credits: (4)**
- SW 4990 - Social Work Senior Seminar **Credits: (2)**

Courses Required to fulfill the BA

The following must be taken to qualify for a Bachelor of Arts (BA) degree in Social Work

- 12 semester credits in any foreign language
OR
- 6 semester credits in any foreign language
and
- SW 3800 - Writing in Social Work **(3)**
and

Select one of the following

- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- PHIL 2050 HU - Practical Ethics **Credits: (3)**
- PHIL 1250 HU - Critical Thinking **Credits: (3)**

Note:

Courses taken to meet BA requirements may also be applied to fill general education requirements. SW 3800 Writing in Social Work may NOT be counted by BA candidates as credit toward the 18 credit hours approved as an alternative to a traditional minor.

Electives (Optional)

- SW 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- GERT 3000 - Death and Dying **Credits: (3)** or
- SW 3000 - Death and Dying **Credits: (3)**
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)** or
- SW 3120 - Aging: Adaptation and Behavior **Credits: (3)**
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)** or
- SW 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**
- SW 3800 - Writing in Social Work **Credits: (3)** (optional for BS in Social Work)
- SW 4140 - Perspectives on Drug Use and Substance Abuse **Credits: (3)**
- SW 4150 - DSM-5 **Credits: (3)** (optional for BA in Social Work)
- GERT 4220 - Societal Responses to Aging **Credits: (3)** or
- SW 4220 - Societal Responses to Aging **Credits: (3)**
- SW 4240 - Introduction to TeleMental-Health **Credits: (3)**
- SW 4250 - Medical Social Work **Credits: (3)**
- SW 4600 - Social Work in Special Settings **Credits: (2-4)**
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)** or
- SW 4650 - Retirement: Adjustment/Planning **Credits: (3)**
- SW 4265 - Crisis Intervention and Trauma **Credits: (3)**
- SW 4800 - Projects and Research **Credits: (1-3)**
- SW 4810 - Experimental Course **Credits: (1-6)**
- SW 4830 - Directed Readings **Credits: (1-3)**
- SW 4850 - Social Work Study Abroad **Credits: (1-4)**
- SW 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Courses Approved as an Alternative to a Traditional Minor

As an alternative to a minor, a Social Work Major may choose to complete a minimum of 18 credits (generally the equivalent of six courses) from the following list of elective enrichment courses. Other courses not on this list may be approved to meet this requirement at the discretion of a student's faculty advisor with the consent of the Social Work faculty. At least six of these credits must be taken in Social Work. No more than six credits may be taken within a single discipline. Students are strongly encouraged to consult with their faculty advisor in selecting one of these options. Courses used to meet the minor alternative MUST be pre-approved by a faculty advisor.

Social Work (6 credit hours)

- SW 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- SW 3000 - Death and Dying **Credits: (3) ***
- SW 3120 - Aging: Adaptation and Behavior **Credits: (3) ***
- SW 3320 - Ethnicity and Older Women in the American Society **Credits: (3) ***
- SW 3800 - Writing in Social Work **Credits: (3)** (optional for BS in Social Work)
- SW 4140 - Perspectives on Drug Use and Substance Abuse **Credits: (3)**
- SW 4150 - DSM-5 **Credits: (3)** (optional for BA in Social Work)
- SW 4250 - Medical Social Work **Credits: (3)**
- SW 4600 - Social Work in Special Settings **Credits: (2-4)**
- SW 4650 - Retirement: Adjustment/Planning **Credits: (3) ***
- SW 4800 - Projects and Research **Credits: (1-3)** (consent of department chair required)
- SW 4810 - Experimental Course **Credits: (1-6)**
- SW 4830 - Directed Readings **Credits: (1-3)** (consent of department chair required)
- SW 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Note:

**Cross-listed with Gerontology (GERT)*

Anthropology

- ANTH 3500 - Advanced Cultural Anthropology **Credits: (3)**
- ANTH 3900 - Anthropology of Religion **Credits: (3)**

Communication

- COMM 3080 GLB - Intercultural Communication **Credits: (3)** (prerequisite COMM 2110)

Child and Family Studies

- FAM 3350 GLB - Diverse Families **Credits: (3)**
- ECED 3500 - Young Children: Adversity and Resilience **Credits: (3)** (prerequisite CHF 1500)
- FAM 3550 - Parenting Education **Credits: (3)**
- FAM 3650 - Introduction to Marriage and Family Therapy **Credits: (3)** (prerequisite CHF 2400, FAM 3350)
- FAM 4400 - The Family in Stress **Credits: (3)**

Criminal Justice

- CJ 3040 - Community Policing **Credits: (3)**
- CJ 3060 - Corrections in the Community **Credits: (3)**
- CJ 3270 - Theories of Crime and Delinquency **Credits: (3)**
- CJ 3300 - Victimology **Credits: (3)**
- CJ 3400 - Drugs and Crime **Credits: (3)**

Economics

- ECON 3410 - Women in the World Economy **Credits: (3)** (prerequisite ECON 2010)

Gerontology

- GERT 3000 - Death and Dying **Credits: (3)** *
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)** *
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)** *
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)** *

Note:

** Cross-listed with Social Work (SW)*

Health

- HLTH 3000 - Foundations of Health Promotion **Credits: (3)** (prerequisite HLTH 1030)
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3420 - Multicultural Health and Nutrition **Credits: (3)** (same as NUTR 3420)
- HLTH 3500 - Human Sexuality **Credits: (3)**

Health Administrative Services

- HAS 3000 - The Healthcare System **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- HAS 3190 - Cultural Competency in Patient Education **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)** (prerequisite HAS 3000)
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)** (prerequisite HAS 3000 & HAS 3260)
- HAS 4520 - Long-Term Care Administration **Credits: (3)** (prerequisite HAS 3000 & HAS 4400)

Management

- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MGMT 4400 - Advanced Organizational Behavior **Credits: (3)** (prerequisite MGMT 3010)

Philosophy

- PHIL 3350 - Medical Ethics **Credits: (3)**

Political Science

- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**

- POLS 4750 - Public Policy Analysis **Credits: (3)**

Psychology

- PSY 3000 - Child Psychology **Credits: (3)**
- PSY 3010 - Psychopathology **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**
- PSY 3430 - Theories of Personality **Credits: (3)** (prerequisite PSY 1010)
- PSY 3460 - Social Psychology **Credits: (3)** (prerequisite PSY 1010)
- PSY 3500 - Cognition **Credits: (3)** (prerequisite PSY 1010)

Sociology

- SOC 2600 - Families in Society **Credits: (3)**
- SOC 3270 - Criminology **Credits: (3)** (prerequisite SOC 1010 or SOC 1020)
- SOC 3300 SUS - Environment and Society **Credits: (3)**
- SOC 3410 - Sociology of Religion **Credits: (3)**
- SOC 3420 - Sociology of Education **Credits: (3)**
- SOC 3430 - Medicine and Healthcare in Society **Credits: (3)**

Women's Studies

- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**

Bachelor of Science

Gerontology (BS)

Note: No new majors are being accepted in this program at this time. However, the minor, BIS emphasis, and non-degree certificate programs are active and available.

- **Program Prerequisite:** Not required.
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better is required in all courses used toward the major (a grade of "C-" is not acceptable) in addition to an overall GPA for Gerontology courses of 2.5 or higher. Also refer to the general grade requirements for graduation on Degree Requirements.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 31 of these is required within the major. A total of 40 upper division credit hours is required for graduation from Weber State University (courses numbered 3000 and above); 19-28 of these are required within the major.
- **Program Code:** 7006BS
- **CIPC:** 301101

Advisement

Students are assigned to a faculty advisor for academic and professional advising. The faculty advisor assists students with course scheduling, academic counseling, and professional self-assessment. Students are required to see their faculty advisor at least one time per semester prior to registration. Call the Social Work/Gerontology office number,

801-626-6157, for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Students must file "Major/Minor Declaration" form with the department office.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. GERT 1010 will fill both a major/minor and general education requirement.

Major Course Requirements for BS Degree

Required Gerontology Courses (22 credit hours)

- GERT 1010 SS - Introduction to Gerontology **Credits: (3)**
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**
- GERT 3400 - Methods of Research: Social and Behavioral Research **Credits: (4)**
- GERT 3500 - Social Welfare & Gerontological Policy Development and Service **Credits: (3)**
- GERT 3600 - Social Statistics **Credits: (3)**
- GERT 4860 - Introductory Field Practicum **Credits: (2)**
- GERT 4861 - Advanced Field Practicum **Credits: (2)**
- GERT 4990 - Senior Seminar **Credits: (2)**

Gerontology Elective (3 credit hours)

Select 1 course from the following

- GERT 2220 - Introduction to Social Gerontology **Credits: (3)**
- GERT 3000 - Death and Dying **Credits: (3)**
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)**
- GERT 4220 - Societal Responses to Aging **Credits: (3)**
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)**

Area Course Electives (6 credit hours)

Select a minimum of six credit hours from one of the following five areas (all six credits MUST be from the same area): (1) Counseling, (2) Health and Leisure, (3) Administrative/Management, (4) Social Services, and (5) Nutrition. Students who complete a double major in a related approved field will satisfy this requirement. It should be noted that prerequisites for classes listed below must be satisfied.

1. Counseling

- PSY 3430 - Theories of Personality **Credits: (3)**
- PSY 4310 - Introduction to Counseling Theories **Credits: (3)**
- SOC 3000 - Self and Society **Credits: (3)**

- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- SW 3910 - Social Work Practice I **Credits: (3)**
- SW 3920 - Social Work Practice II **Credits: (3)**

2. Health and Leisure

- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 3328 - Pathophysiology of Cells and Tissues **Credits: (2)**
- PE 1098 - Fitness for Life **Credits: (1)**
- PEP 2480 - Fitness for Life Concepts **Credits: (1)**
- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**

3. Administrative/Management

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 3000 - Small Business Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**

4. Social Services (select from two academic areas)

- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 2100 SS - Human Behavior and the Social Environment I **Credits: (3)**
- SW 3900 - Social Work Methods, Values, and Ethics **Credits: (3)**
- ANTH 3500 - Advanced Cultural Anthropology **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- FAM 4400 - The Family in Stress **Credits: (3)**

5. Nutrition

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)** or
- HLTH 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- NUTR 3420 GLB - Multicultural Health & Nutrition **Credits: (3)** or
- HLTH 3420 - Multicultural Health and Nutrition **Credits: (3)**

Social Work (BS)

Social Work Major Bachelor's Degree (BS or BA)

- **Program Prerequisite:** Must be accepted to the program (see Admissions Requirements described later in this section).

- **Minor:** The Social Work Major requires either: (a) the completion of a minor; or (b) a minor alternative. Minor requirements are found in the University catalog under the specific programs that offer them. As an alternative to a minor, a Social Work Major may choose to complete 18 credits (generally the equivalent of six courses) from a set of approved elective enrichment courses listed below.
- **Grade Requirements:** A grade of "C" or better is required in all courses toward and included in this major (a grade of "C-" is not acceptable). In addition, an overall GPA for these courses of 2.5 must be maintained. Also refer to the general grade requirements Degree Requirements. Students not meeting the minimum grade requirements for an individual Social Work course may repeat that course one (1) time before being dropped from the Social Work program. In the rare event a student is unable to complete SW 4860 and SW 4861 in the field agency they are originally placed, at the discretion of the field placement advisor, the student may request a new placement one (1) time only. Students at any time failing to meet the overall GPA of 2.5 will be given a probationary semester to raise their GPA to the minimum standard. Failure to comply with this policy will result in being dropped from the Social Work program.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 41 of these is required within the major not counting the prerequisite courses totaling 18 semester hours. A total of 40 upper division credit hours is required for graduation from Weber State University (courses numbered 3000 and above).
- **Program Code:** 7017BA, 7017BS
- **CIPC:** 440701

Advisement

Students accepted into the program are assigned to a faculty advisor for academic and professional advising. The faculty advisor assists students with course scheduling, academic counseling, and professional self-assessment. Students are required to see their faculty advisor at least one time per semester prior to registration. Call the Social Work/Gerontology office number, 801-626-6157, or the Department Chair, 801-626-6156, for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare a program of study (see Enrollment Services and Information). Satisfactory completion of the following is required prior to formal acceptance into the program:

1. WSU Writing Competency (Composition)*
2. WSU Information Literacy*
3. 60-63 semester graduation hours (or equivalent) including the prerequisite courses listed below for the Behavioral and Social Sciences, Human Development, and Social Work prerequisites. These courses must be completed with a grade of "C" or better and with a total GPA of 2.5 or better.
4. Students agree to abide by the National Association of Social Workers Code of Ethics.

Note:

** Refer to General Requirements on Degree Requirements*

Program Learning Outcomes

- Identify as a professional social worker and conduct oneself accordingly
- Apply social work ethical principles to guide professional practice
- Apply critical thinking to inform & communicate professional judgements
- Engage diversity and difference in practice
- Advance human rights and social and economic justice

- Engage in research-informed practice and practice-informed research
- Apply knowledge of human behavior and the social environment
- Engage in policy practice to advance social and economic well-being and to deliver effective social work services
- Respond to contexts that shape practice
- Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities

Courses Required Prior to Formal Acceptance to the Social Work Program

Behavioral and Social Science Prerequisites (9 credit hours)

- ANTH 1000 SS/CC - Introduction to Anthropology **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)** or
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**

Human Development Prerequisite (3 credit hours)

- ZOOL 1020 LS - Human Biology **Credits: (3)**

Note:

Any transfer course in this area must contain only human biology content, courses with animal or plant content are not acceptable

Social Work Prerequisites (6 credit hours)

- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 2100 SS - Human Behavior and the Social Environment I **Credits: (3)**

Note:

ZOOL 1020 should be taken prior to or concurrently with SW 2100

Formal Admission to the Social Work Program

Formal applications for admission to the program will be considered during the semester the student is in the process of completing final prerequisites or anytime thereafter. Applications may be downloaded from the Department's website or obtained at the Social Work office (Lindquist Hall, Room 330). The Admissions and Retention Committee will consider all applications and make one of the following recommendations:

1. Full admission to the program;
2. Admission to the program with contingencies;
3. Denial of admission to the program.

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. The following courses for the Social Work prerequisite requirements will also fulfill general education requirements: SW 1010 SS CEL - Introduction to Generalist Social Work; ANTH 1000 SS/CC - Introduction to Anthropology; PSY 1010 SS - Introductory Psychology; SOC 1010 SS/CC - Introduction to Sociology; and ZOOL 1020 LS - Human Biology.

Major Course Requirements for BS or BA Degree

The following should be taken after completing the above prerequisites.

Required Social Work Core Courses (38 credit hours)

- SW 2200 SS/CC - Issues in Diversity **Credits: (3)**
- SW 3100 - Human Behavior and the Social Environment II **Credits: (2)**
- SW 3200 - Child and Family Welfare **Credits: (2)**
- SW 3500 - Social Welfare & Gerontological Policy Development and Service **Credits: (3)**
- SW 3600 - Social Statistics **Credits: (3)** (or equivalent)
(Prerequisite – Quantitative Literacy. Must be completed prior to SW 4861)
- SW 3700 - Social Work Research **Credits: (3)** *(It is recommended to take a Statistics course [SW 3600] prior to Research)*
- SW 3900 - Social Work Methods, Values, and Ethics **Credits: (3)**
- SW 3910 - Social Work Practice I **Credits: (3)** *(Make application for Social Service Field Experience prior to completing SW 3910)*
- SW 3920 - Social Work Practice II **Credits: (3)**
- SW 3930 - Social Work Practice III **Credits: (3)**
- SW 4500 - Interventions for Populations at Risk **Credits: (3)**
- SW 4860 INT - Social Service Field Experience I **Credits: (4)**
- SW 4861 INT - Social Service Field Experience II **Credits: (4)**
- SW 4990 - Social Work Senior Seminar **Credits: (2)**

Courses Required to fulfill the BS

The following must be taken to qualify for a Bachelor of Science (BS) degree in Social Work

- SW 3600 - Social Statistics **Credits: (3)**
- SW 3700 - Social Work Research **Credits: (3)**
- SW 4150 - DSM-5 **Credits: (3)**

And select one of the following

- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**

Note:

Courses taken to meet BS requirements may also be applied to fill general education requirements, program prerequisites and required Social Work core courses. SW 4150 - DSM-5 may NOT be counted by BS candidates as credit toward the 18 credit hours approved as an alternative to a traditional minor.

Additional science courses may be counted as electives or be applied to fill general education requirements.

Electives (Optional)

- SW 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- GERT 3000 - Death and Dying **Credits: (3)** or
- SW 3000 - Death and Dying **Credits: (3)**
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)** or
- SW 3120 - Aging: Adaptation and Behavior **Credits: (3)**
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)** or
- SW 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**
- SW 3800 - Writing in Social Work **Credits: (3)** (optional for BS in Social Work)
- SW 4140 - Perspectives on Drug Use and Substance Abuse **Credits: (3)**
- SW 4150 - DSM-5 **Credits: (3)** (optional for BA in Social Work)
- GERT 4220 - Societal Responses to Aging **Credits: (3)** or
- SW 4220 - Societal Responses to Aging **Credits: (3)**
- SW 4240 - Introduction to TeleMental-Health **Credits: (3)**
- SW 4250 - Medical Social Work **Credits: (3)**
- SW 4600 - Social Work in Special Settings **Credits: (2-4)**
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)** or
- SW 4650 - Retirement: Adjustment/Planning **Credits: (3)**
- SW 4265 - Crisis Intervention and Trauma **Credits: (3)**
- SW 4800 - Projects and Research **Credits: (1-3)**
- SW 4810 - Experimental Course **Credits: (1-6)**
- SW 4830 - Directed Readings **Credits: (1-3)**
- SW 4850 - Social Work Study Abroad **Credits: (1-4)**
- SW 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Courses Approved as an Alternative to a Traditional Minor

As an alternative to a minor, a Social Work Major may choose to complete a minimum of 18 credits (generally the equivalent of six courses) from the following list of elective enrichment courses. Other courses not on this list may be approved to meet this requirement at the discretion of a student's faculty advisor with the consent of the Social Work faculty. At least six of these credits must be taken in Social Work. No more than six credits may be taken within a single discipline. Students are strongly encouraged to consult with their faculty advisor in selecting one of these options. Courses used to meet the minor alternative MUST be pre-approved by a faculty advisor.

Social Work (6 credit hours)

- SW 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

- SW 3000 - Death and Dying **Credits: (3) ***
- SW 3120 - Aging: Adaptation and Behavior **Credits: (3) ***
- SW 3320 - Ethnicity and Older Women in the American Society **Credits: (3) ***
- SW 3800 - Writing in Social Work **Credits: (3)** (optional for BS in Social Work)
- SW 4140 - Perspectives on Drug Use and Substance Abuse **Credits: (3)**
- SW 4150 - DSM-5 **Credits: (3)** (optional for BA in Social Work)
- SW 4250 - Medical Social Work **Credits: (3)**
- SW 4600 - Social Work in Special Settings **Credits: (2-4)**
- SW 4650 - Retirement: Adjustment/Planning **Credits: (3) ***
- SW 4800 - Projects and Research **Credits: (1-3)** (consent of department chair required)
- SW 4810 - Experimental Course **Credits: (1-6)**
- SW 4830 - Directed Readings **Credits: (1-3)** (consent of department chair required)
- SW 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Note:

**Cross-listed with Gerontology (GERT)*

Anthropology

- ANTH 3500 - Advanced Cultural Anthropology **Credits: (3)**
- ANTH 3900 - Anthropology of Religion **Credits: (3)**

Communication

- COMM 3080 GLB - Intercultural Communication **Credits: (3)** (prerequisite COMM 2110)

Child and Family Studies

- FAM 3350 GLB - Diverse Families **Credits: (3)**
- ECED 3500 - Young Children: Adversity and Resilience **Credits: (3)** (prerequisite CHF 1500)
- FAM 3550 - Parenting Education **Credits: (3)**
- FAM 3650 - Introduction to Marriage and Family Therapy **Credits: (3)** (prerequisite CHF 2400, FAM 3350)
- FAM 4400 - The Family in Stress **Credits: (3)**

Criminal Justice

- CJ 3040 - Community Policing **Credits: (3)**
- CJ 3060 - Corrections in the Community **Credits: (3)**
- CJ 3270 - Theories of Crime and Delinquency **Credits: (3)**
- CJ 3300 - Victimology **Credits: (3)**
- CJ 3400 - Drugs and Crime **Credits: (3)**

Economics

- ECON 3410 - Women in the World Economy **Credits: (3)** (prerequisite ECON 2010)

Gerontology

- GERT 3000 - Death and Dying **Credits: (3) ***
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3) ***
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3) ***
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3) ***

Note:

** Cross-listed with Social Work (SW)*

Health

- HLTH 3000 - Foundations of Health Promotion **Credits: (3)** (prerequisite HLTH 1030)
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3420 - Multicultural Health and Nutrition **Credits: (3)** (same as NUTR 3420)
- HLTH 3500 - Human Sexuality **Credits: (3)**

Health Administrative Services

- HAS 3000 - The Healthcare System **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- HAS 3190 - Cultural Competency in Patient Education **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)** (prerequisite HAS 3000)
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)** (prerequisite HAS 3000 & HAS 3260)
- HAS 4520 - Long-Term Care Administration **Credits: (3)** (prerequisite HAS 3000 & HAS 4400)

Management

- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MGMT 4400 - Advanced Organizational Behavior **Credits: (3)** (prerequisite MGMT 3010)

Philosophy

- PHIL 3350 - Medical Ethics **Credits: (3)**

Political Science

- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**

- POLS 4750 - Public Policy Analysis **Credits: (3)**

Psychology

- PSY 3000 - Child Psychology **Credits: (3)**
- PSY 3010 - Psychopathology **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**
- PSY 3430 - Theories of Personality **Credits: (3)** (prerequisite PSY 1010)
- PSY 3460 - Social Psychology **Credits: (3)** (prerequisite PSY 1010)
- PSY 3500 - Cognition **Credits: (3)** (prerequisite PSY 1010)

Sociology

- SOC 2600 - Families in Society **Credits: (3)**
- SOC 3270 - Criminology **Credits: (3)** (prerequisite SOC 1010 or SOC 1020)
- SOC 3300 SUS - Environment and Society **Credits: (3)**
- SOC 3410 - Sociology of Religion **Credits: (3)**
- SOC 3420 - Sociology of Education **Credits: (3)**
- SOC 3430 - Medicine and Healthcare in Society **Credits: (3)**

Women's Studies

- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Gerontology (BIS)

Gerontology

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor/emphasis (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 17 credit hours.
- **Program Code:** 7006
- **CIPC:** 301101

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills

- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements

Gerontology Courses Required (11 credit hours)

- GERT 1010 SS - Introduction to Gerontology **Credits: (3)**
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**
- GERT 3500 - Social Welfare & Gerontological Policy Development and Service **Credits: (3)**
- GERT 4860 - Introductory Field Practicum **Credits: (2)**

Gerontology Electives (6 credit hours)

Select two courses from the following 5 courses

- GERT 2220 - Introduction to Social Gerontology **Credits: (3)**
- GERT 3000 - Death and Dying **Credits: (3)**
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)**
- GERT 4220 - Societal Responses to Aging **Credits: (3)**
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)**

Social Work (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

Refer to the Social Work (BIS) Bachelor of Integrated Studies section of this catalog for program requirements.

- **Grade Requirements:** Minimum grade of "C" is required in all courses toward and included in the Social Work emphasis (a grade of "C-" is not acceptable). In addition, an overall GPA for these courses of 2.50 must be maintained.
- **Credit Hour Requirements:** Minimum of 19 credit hours.
- **Program Code:** 7017
- **CIPC:** 440701

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.

- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements

Gerontology Courses Required (11 credit hours)

- GERT 1010 SS - Introduction to Gerontology **Credits: (3)**
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**
- GERT 3500 - Social Welfare & Gerontological Policy Development and Service **Credits: (3)**
- GERT 4860 - Introductory Field Practicum **Credits: (2)**

Gerontology Electives (6 credit hours)

Select two courses from the following 5 courses

- GERT 2220 - Introduction to Social Gerontology **Credits: (3)**
- GERT 3000 - Death and Dying **Credits: (3)**
- GERT 3120 - Aging: Adaptation and Behavior **Credits: (3)**
- GERT 4220 - Societal Responses to Aging **Credits: (3)**
- GERT 4650 - Retirement: Adjustment/Planning **Credits: (3)**

Certification

Gerontology Non-degree Certification

Gerontology

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor/emphasis (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 17 credit hours.
- **Program Code:** 7006
- **CIPC:** 301101

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Department of Sociology and Anthropology

Department Chair: Huiying Hill

Location: Lindquist Hall 241

Telephone Contact: Alexandria Monroe 801-626-6241

Professors: Pepper Glass, Huiying Hill, Brenda Marsteller Kowalewski, Marjukka Ollilainen, Carla Trentelman;

Associate Professors: Robert Morris, Robert Reynolds, David Yoder; **Assistant Professors:** Joanna Gautney, Abigail Mack, Madeline Mackie, Mark Stevenson,

Sociology

Sociology Coordinator: Dr. Huiying Hill, 801-626-6241

Sociology is the study of social life, social change, and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations, and societies, and how people interact within these contexts. Since all human behavior is social, the subject matter of sociology includes, but is not limited to, street crime and delinquency, corporate downsizing, how people express emotions, welfare or education reform, how families differ and flourish, divisions of ethnicity, gender and social class, religious cults, medicine, media, and other social phenomena. Because sociology addresses the most challenging issues of our time, it is a rapidly expanding field whose potential is increasingly tapped by those who craft policies and create programs. Few fields have such broad scope and relevance for research, theory, and application of knowledge. Sociology is a popular major for students planning futures in such professions as law, business, education, architecture, politics, public administration, urban planning and development, human services, and a myriad of other professions. It also provides a solid foundation for pursuing graduate degrees in related fields. Although a career as a sociologist requires a Master's Degree or PhD, an undergraduate education in sociology can be applied to almost any profession a student pursues.

Interdisciplinary Minors

The Sociology Department participates in the Asian Studies, Ethnic Studies, European Studies, Legal Studies and Women's Studies Minor Programs and the Urban and Regional Planning Emphasis Program. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Anthropology

Anthropology Coordinator: Dr. Mark Stevenson, 801-626-6244

Anthropology takes a holistic approach to describing and explaining human differences and similarities around the world and throughout time. It looks at humans both culturally and biologically within an ecological context. It examines contemporary humans as well as those of the historic and prehistoric past and searches for patterns of human existence. Specialized fields include archaeology, linguistics, ethnology, and biological anthropology. Students are taught to question and examine the significance of beliefs, attitudes and prejudices, and to understand the anthropological position of relativism and valuing cultural and biological variation. The program prepares students for a broad range of public and private sector employment in anthropology-related fields or to enter professional or graduate schools appropriate to their interests. Anthropology is an essential discipline in the 21st Century, contributing knowledge for successful living and working in our diverse human world.

Interdisciplinary Minors

The Anthropology Program participates in the Asian Studies, Ethnic Studies, Environmental Studies, European Studies, Latin American Studies, Linguistics, and Women's Studies Minor Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Bachelor of Arts

Anthropology (BA)

Anthropology

- **Program Prerequisite:** Not required.
- **Minor:** Required
- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the major (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation, of which 40 must be upper division credit hours (courses numbered 3000 and above). A minimum of 39 Anthropology credit hours is required within the Anthropology General Track. A minimum of 42 Anthropology credit hours is required within the Anthropology Archaeology Track.
- **Program Code:** 7018BA or 7018BS, with ARCH or ANTH cohort based on track choice.
- **CIPC:** Anthropology General Track (450201), Anthropology Archaeology Track (450201)

Transfer students who are majoring in Anthropology can transfer up to 18 hours from an acceptable Anthropology program. Only 9 of the transferred hours can be lower division.

Advisement

All Anthropology majors, minors, and BIS students should meet with a faculty advisor at least once a year. Undeclared students and those with general questions need to contact the current coordinator of Anthropology via the Sociology & Anthropology department office phone: (801) 626-6241.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for the major or minor. New freshmen and transfer students admitted to WSU in good standing qualify for admission to this major.

Core and General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. The following courses may be used to fulfill both general education and program requirements: ANTH SS/CC 1000, ANTH LS/SUS 1020, ANTH HU/CC 1040, ANTH SS/CC 2010, and ANTH SS/CC 2030. (See university policy on any limitations).

Program Learning Outcomes

Students will understand and/or be able to apply:

- the four-field approach of anthropology;
- anthropological theory and methods;
- critical thinking and communication skills;
- human cultural and biological diversity across time and space.

Major Course Requirements

Required Program Courses (15 credit hours)

- ANTH 1000 SS/CC - Introduction to Anthropology **Credits: (3)**
- ANTH 4200 - Anthropological Theory **Credits: (3)**
- ANTH 4300 CRE - Anthropological Research Methods **Credits: (3)**
- ANTH 4900 CRE - Senior Capstone Seminar **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)** *or equivalent as approved by the program coordinator*

Note:

In addition, students must select one of the following two tracks to pursue.

Language Courses Required to fulfill the BA

6 credit hours of foreign language and two of the following language arts courses:

- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- ANTH 4830 INT - Readings and/or Projects **Credits: (1-3)** (Must register for 3 credit hours)
or refer to the Degree Requirements section in this catalog and complete Option 1 - Foreign Language listed under Requirements for Bachelor's Degrees.
- ANTH 4900 CRE - Senior Capstone Seminar **Credits: (3)**

General Anthropology Track

Four-Field Fundamentals Courses (6 credit hours)

Select two courses from the following

- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)**
- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)**
- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3)**

Electives (18 credit hours)

Select a minimum of 18 additional credit hours from the following

- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)** *
- ANTH 1040 HU/CC - Language and Culture **Credits: (3)** *
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)** *

- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3) ***
- ANTH 2220 - Introduction to Forensic Anthropology **Credits: (3)**
- ANTH 2810 - Experimental Course **Credits: (1-6)**
- ANTH 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ANTH 2950 - Elementary Anthropological Field Trip **Credits: (1-3)**
- ANTH 2990 - Special Topics in Anthropology **Credits: (1-3)**
- ANTH 3100 - North American Archaeology **Credits: (3)**
- ANTH 3200 - Archaeology of Early Civilizations **Credits: (3)**
- ANTH 3250 - Human Osteology **Credits: (3)**
- ANTH 3300 - Archaeological Field Techniques **Credits: (3-6)**
- ANTH 3400 CRE - Archaeological Laboratory Techniques **Credits: (3)**
- ANTH 3500 - Advanced Cultural Anthropology **Credits: (3)**
- ANTH 3600 - Culture Area Studies **Credits: (1-3)**
- ANTH 3900 - Anthropology of Religion **Credits: (3)**
- ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management **Credits: (3)**
- ANTH 4150 - Technical Skills in Anthropology **Credits: (3)**
- ANTH 4220 - Introduction to Forensic Anthropology **Credits: (3)**
- ANTH 4810 - Experimental Course **Credits: (1-6)**
- ANTH 4830 INT - Readings and/or Projects **Credits: (1-3)**
- ANTH 4890 INT - Internship in Anthropology **Credits: (1-3)**
- ANTH 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ANTH 4950 - Advanced Anthropological Field Trip **Credits: (1-3)**
- ANTH 4990 - Seminar in Anthropology **Credits: (1-3)**

Note:

* Course may not be used to fulfill both elective and four-field fundamental course requirements.

Anthropology (BA), Archaeology Track

Anthropology

- **Program Prerequisite:** Not required.
- **Minor:** Required
- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the major (a grade of "C-" is not acceptable) and an overall GPA of 2.00.

- ANTH 4900 CRE - Senior Capstone Seminar **Credits: (3)**

Archaeology Track

Core Courses (21 credit hours)

- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)**
- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3)**
- ANTH 3100 - North American Archaeology **Credits: (3)**
- ANTH 3300 - Archaeological Field Techniques **Credits: (3-6)** (must complete 6 credit hours)
- ANTH 3400 CRE - Archaeological Laboratory Techniques **Credits: (3)**
- ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management **Credits: (3)**

Electives (must complete a minimum of 6 hours)

Must select two of the following.

- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)** and
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- ANTH 3200 - Archaeology of Early Civilizations **Credits: (3)**
- ANTH 3250 - Human Osteology **Credits: (3)**
- ANTH 4150 - Technical Skills in Anthropology **Credits: (3)**
- ANTH 4890 INT - Internship in Anthropology **Credits: (1-3)** (Must register for 3 credit hours)

Recommended

- ANTH 2990 - Special Topics in Anthropology **Credits: (1-3)**
- ANTH 4990 - Seminar in Anthropology **Credits: (1-3)**
- ANTH 3600 - Culture Area Studies **Credits: (1-3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)** (Prerequisite: ENGL 2010)
- GEO 3150 - Geomorphology **Credits: (4)**

Note:

Strongly recommended additional skills for all majors: foreign language & computer skills.

Suggested Course Sequence

Note:

Strongly recommended additional skills for all majors: foreign language & computer skills.

Suggested Course Sequence

Sociology (BS)

Sociology BS & Sociology Teaching BS

- **Program Prerequisite:** Not required for the Sociology major. Sociology Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).
- **Minor:** Required
- **Grade Requirements:** A minimum grade of "C" in courses counted toward the major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation, of which 40 must be upper division credit hours (courses numbered 3000 and above). A minimum of 36 Sociology credit hours are required for the major.
- **Program Code:** Sociology (7020BS), Sociology Teaching (7021BS)
- **CIPC:** Sociology (451101), Sociology Teaching (131317)

Transfer students who are majoring in Sociology can transfer up to 18 hours from an acceptable Sociology program. Only 9 of the transferred hours can be lower division.

Sociology Teaching Majors are also required to take SOC 3420, HIST 4500, and COMM 1020 in addition to the courses required by the Teacher Education Program.

Advisement

Sociology majors are assigned to a faculty advisor and are encouraged to meet with that advisor annually for course and program advisement. Call 801-626-6241 for additional information. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269).

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for the Sociology major. Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education). (Also refer to the Department Advisor Referral List.)

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following course will fulfill General Education, Diversity and program requirements: SOC 1010.

Program Learning Outcomes

- Conduct research and analyze data

- Communicate skillfully
- Identify and explain the terms, concepts, and theories of the discipline of sociology
- Practice critical thinking
- Apply historical, cultural, and global perspectives to the interaction of groups and societies
- Prepare a foundation for careers, graduate studies, and informed participation in a complex society

Major Course Requirements for BS Degree

Required Program Courses (15 credit hours)

- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)**
- SOC 3500 - Sociological Theories **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)**
- SOC 3660 - Sociological Research **Credits: (3)**
- SOC 4900 CRE - Senior Capstone Course **Credits: (3)** or
- SOC 4930 INT - Community Engaged Capstone **Credits: (3)**

Sociology Electives (21 credit hours, 9 credits can be lower division)

- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)**
- SOC 2400 SS/CC - Introduction to Ethnic Studies **Credits: (3)**
- SOC 2600 - Families in Society **Credits: (3)**
- SOC 2810 - Experimental Course **Credits: (1-6)**
- SOC 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- SOC 3000 - Self and Society **Credits: (3)**
- SOC 3010 - Social Inequality **Credits: (3)**
- SOC 3250 - Deviance and Social Control **Credits: (3)**
- SOC 3270 - Criminology **Credits: (3)**
- SOC 3300 SUS - Environment and Society **Credits: (3)**
- SOC 3400 - Social Change **Credits: (3)**
- SOC 3410 - Sociology of Religion **Credits: (3)**
- SOC 3420 - Sociology of Education **Credits: (3)**
- SOC 3430 - Medicine and Healthcare in Society **Credits: (3)**
- SOC 3840 - Cities and Urban Life **Credits: (3)**
- SOC 3850 - Race & Ethnicity **Credits: (3)**
- SOC 4050 - Sociology of Work and Organizations **Credits: (3)**
- SOC 4220 - Life in a Consumer Society **Credits: (3)**
- SOC 4270 - Law and Society **Credits: (3)**
- SOC 4410 SUS - Sociology of Globalization **Credits: (3)**
- SOC 4810 - Experimental Course **Credits: (1-6)**
- SOC 4830 INT - Readings and/or Projects **Credits: (1-3)**
- SOC 4890 INT - Internship **Credits: (1-6)**
- SOC 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- SOC 4990 - Seminar in Sociology **Credits: (3)**

Sociology Teaching (BS)

Sociology BS & Sociology Teaching BS

- **Program Prerequisite:** Not required for the Sociology major. Sociology Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).
- **Minor:** Required
- **Grade Requirements:** A minimum grade of "C" in courses counted toward the major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation, of which 40 must be upper division credit hours (courses numbered 3000 and above). A minimum of 36 Sociology credit hours are required for the major.
- **Program Code:** Sociology (7020BS), Sociology Teaching (7021BS)
- **CIPC:** Sociology (451101), Sociology Teaching (131317)

Transfer students who are majoring in Sociology can transfer up to 18 hours from an acceptable Sociology program. Only 9 of the transferred hours can be lower division.

Sociology Teaching Majors are also required to take SOC 3420, HIST 4500, and COMM 1020 in addition to the courses required by the Teacher Education Program.

Advisement

Sociology majors are assigned to a faculty advisor and are encouraged to meet with that advisor annually for course and program advisement. Call 801-626-6241 for additional information. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269).

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for the Sociology major. Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education). (Also refer to the Department Advisor Referral List.)

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following course will fulfill General Education, Diversity and program requirements: SOC 1010.

Program Learning Outcomes

- Conduct research and analyze data
- Communicate skillfully
- Identify and explain the terms, concepts, and theories of the discipline of sociology
- Practice critical thinking
- Apply historical, cultural, and global perspectives to the interaction of groups and societies
- Prepare a foundation for careers, graduate studies, and informed participation in a complex society

Major Course Requirements for BS Degree

Required Program Courses (15 credit hours)

- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)**
- SOC 3500 - Sociological Theories **Credits: (3)**
- SOC 3600 - Social Statistics **Credits: (3)**
- SOC 3660 - Sociological Research **Credits: (3)**
- SOC 4900 CRE - Senior Capstone Course **Credits: (3)** or
- SOC 4930 INT - Community Engaged Capstone **Credits: (3)**

Sociology Electives (21 credit hours, 9 credits can be lower division)

- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)**
- SOC 2400 SS/CC - Introduction to Ethnic Studies **Credits: (3)**
- SOC 2600 - Families in Society **Credits: (3)**
- SOC 2810 - Experimental Course **Credits: (1-6)**
- SOC 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- SOC 3000 - Self and Society **Credits: (3)**
- SOC 3010 - Social Inequality **Credits: (3)**
- SOC 3250 - Deviance and Social Control **Credits: (3)**
- SOC 3270 - Criminology **Credits: (3)**
- SOC 3300 SUS - Environment and Society **Credits: (3)**
- SOC 3400 - Social Change **Credits: (3)**
- SOC 3410 - Sociology of Religion **Credits: (3)**
- SOC 3420 - Sociology of Education **Credits: (3)**
- SOC 3430 - Medicine and Healthcare in Society **Credits: (3)**
- SOC 3840 - Cities and Urban Life **Credits: (3)**
- SOC 3850 - Race & Ethnicity **Credits: (3)**
- SOC 4050 - Sociology of Work and Organizations **Credits: (3)**
- SOC 4220 - Life in a Consumer Society **Credits: (3)**
- SOC 4270 - Law and Society **Credits: (3)**
- SOC 4410 SUS - Sociology of Globalization **Credits: (3)**
- SOC 4810 - Experimental Course **Credits: (1-6)**
- SOC 4830 INT - Readings and/or Projects **Credits: (1-3)**
- SOC 4890 INT - Internship **Credits: (1-6)**
- SOC 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- SOC 4990 - Seminar in Sociology **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Anthropology (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 7018
- **CIPC:** 450201

Transferring students with an Anthropology Minor can transfer 9 hours of credit from an acceptable Anthropology program.

Advisement

All Anthropology majors, minors, and BIS students should meet with a faculty advisor at least once a year. Undeclared students and those with general questions need to contact the current coordinator of Anthropology via the Sociology & Anthropology department office phone: (801) 626-6241.

Course Requirements

Required Program Courses (6 credit hours)

- ANTH 1000 SS/CC - Introduction to Anthropology **Credits: (3)**
- ANTH 4200 - Anthropological Theory **Credits: (3)**

Four-Field Fundamentals Courses (6 credit hours)

Select two from the following

- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)**
- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)**
- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3)**

Electives (6 credit hours)

Select a minimum of 6 additional credit hours from the following

- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3) ***
- ANTH 1040 HU/CC - Language and Culture **Credits: (3) ***
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3) ***
- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3) ***
- ANTH 2220 - Introduction to Forensic Anthropology **Credits: (3)**
- ANTH 2810 - Experimental Course **Credits: (1-6)**
- ANTH 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ANTH 2950 - Elementary Anthropological Field Trip **Credits: (1-3)**
- ANTH 2990 - Special Topics in Anthropology **Credits: (1-3)**
- ANTH 3100 - North American Archaeology **Credits: (3)**
- ANTH 3200 - Archaeology of Early Civilizations **Credits: (3)**
- ANTH 3250 - Human Osteology **Credits: (3)**
- ANTH 3300 - Archaeological Field Techniques **Credits: (3-6)**
- ANTH 3400 CRE - Archaeological Laboratory Techniques **Credits: (3)**

- ANTH 3500 - Advanced Cultural Anthropology **Credits: (3)**
- ANTH 3600 - Culture Area Studies **Credits: (1-3)**
- ANTH 3900 - Anthropology of Religion **Credits: (3)**
- ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management **Credits: (3)**
- ANTH 4150 - Technical Skills in Anthropology **Credits: (3)**
- ANTH 4220 - Introduction to Forensic Anthropology **Credits: (3)**
- ANTH 4300 CRE - Anthropological Research Methods **Credits: (3)**
- ANTH 4810 - Experimental Course **Credits: (1-6)**
- ANTH 4830 INT - Readings and/or Projects **Credits: (1-3)**
- ANTH 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ANTH 4990 - Seminar in Anthropology **Credits: (1-3)**

Note:

**Course may not be used to fulfill both elective and four-field fundamental course requirements.*

Strongly recommended skills for minors: foreign language, computer, and statistics.

Sociology (BIS)

Sociology

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs are still accepting students.

- **Grade Requirements:** A minimum grade of "C" in courses counted toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** Sociology (7020), Sociology Teaching (7021)
- **CIPC:** Sociology (451101), Sociology Teaching (131317)

Transferring students with a Sociology Minor can transfer 9 hours of credit from an acceptable Sociology program.

Students who select the Sociology Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Sociology Teaching Minors are also required to take SOC 3420 and HIST 4500 in addition to the courses required by the Teacher Education Program.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for Minor

Sociology Courses Required (9 credit hours)

- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)** or
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 3500 - Sociological Theories **Credits: (3)**
- SOC 3660 - Sociological Research **Credits: (3)**

Sociology Electives (9 credit hours, only three credit hours can be lower division)

- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)**
- SOC 2400 SS/CC - Introduction to Ethnic Studies **Credits: (3)**
- SOC 2600 - Families in Society **Credits: (3)**
- SOC 2810 - Experimental Course **Credits: (1-6)**
- SOC 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- SOC 3000 - Self and Society **Credits: (3)**
- SOC 3010 - Social Inequality **Credits: (3)**
- SOC 3250 - Deviance and Social Control **Credits: (3)**
- SOC 3270 - Criminology **Credits: (3)**
- SOC 3300 SUS - Environment and Society **Credits: (3)**
- SOC 3400 - Social Change **Credits: (3)**
- SOC 3410 - Sociology of Religion **Credits: (3)**
- SOC 3420 - Sociology of Education **Credits: (3)**
- SOC 3430 - Medicine and Healthcare in Society **Credits: (3)**

Note:

**Course may not be used to fulfill both elective and four-field fundamental course requirements.*

Strongly recommended skills for minors: foreign language, computer, and statistics.

Ethnic Studies Minor/BIS

This program has been suspended pending formal discontinuance and is no longer accepting new students.

Ethnic Studies considers the experiences of people of color in the United States, especially focusing on power relations and conflict between dominant and marginalized groups. Primary focus is on people of African, Asian, Latino, and Native American descent. An element of American identity that cuts across disciplinary categories, the study of ethnicity draws on the humanities, the social sciences, and other related fields. Researchers also consider the topic historically and comparatively, paying attention to the five centuries of North American minority experience and the perspectives of other New World societies and cultures. Above all, the program seeks to convey knowledge and understanding of racial difference and disparity in the United States, helping students learn about the opportunities and responsibilities they have as citizens in an increasingly multicultural nation.

- **Program Prerequisite:** None
- **Grade Requirements:** A grade of "C" or better is required for all courses in Ethnic Studies.
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** 7062
- **CIPC:** 050200

Advisement

All Ethnic Studies minors students should meet with a faculty advisor at least once a year. Undeclared students and those with general questions need to contact the current coordinator. Reach out to Pepper Glass at pepperglass@weber.edu.

Program Learning Outcomes

- Compare and contrast the history and experiences of ethnic and immigrant groups in the United States, especially people of African, Asian, Latino, and Native American descent.

- Identify and explain the interdisciplinary terms, concepts, and theories involved in Ethnic Studies.
- Practice critical thinking, especially by applying critical frameworks to understanding racial divisions and inequality.

Minor Course Requirements

Required Courses (6 credit hours)

- SOC 2400 SS/CC - Introduction to Ethnic Studies **Credits: (3)**
- SOC 3850 - Race & Ethnicity **Credits: (3)**

Elective Courses (12 credit hours)

- ANTH 3100 - North American Archaeology **Credits: (3)**
- ARTH 3015 - Latinx Visual Art and Culture **Credits: (4)**
- CJ 4710 - Race, Crime, and Justice **Credits: (3)**
- FAM 4300 - Latino Child and Family Development **Credits: (3)**
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- HIST 1600 AI/CC - The Black Experience **Credits: (3)**
- HIST 1610 AI - The Latinx Experience **Credits: (3)**
- HIST 3010 - History of Indigenous America **Credits: (3)**
- HIST 3030 - African-American History **Credits: (3)**
- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**
- SW 2200 SS/CC - Issues in Diversity **Credits: (3)**
- SW 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**

Sociology Minor

Sociology

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor programs are still accepting students.

- **Grade Requirements:** A minimum grade of "C" in courses counted toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** Sociology (7020), Sociology Teaching (7021)
- **CIPC:** Sociology (451101), Sociology Teaching (131317)

Transferring students with a Sociology Minor can transfer 9 hours of credit from an acceptable Sociology program.

Students who select the Sociology Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Sociology Teaching Minors are also required to take SOC 3420 and HIST 4500 in addition to the courses required by the Teacher Education Program.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for Minor

Sociology Courses Required (9 credit hours)

- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)** or
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 3500 - Sociological Theories **Credits: (3)**
- SOC 3660 - Sociological Research **Credits: (3)**

Sociology Electives (9 credit hours, only three credit hours can be lower division)

- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)**
- SOC 2400 SS/CC - Introduction to Ethnic Studies **Credits: (3)**

Department of Teacher Education

Department Chair: DeeDee Mower

Location: McKay Education Building, Room 234

Telephone Contact: Lisa Karle 801-626-7171

Advisement Contacts: Angie Collinwood 801-626-6309; Brogan Stampick 801-626-6636

Professors: Melina Alexander, Vincent Bates, David Byrd, Kristin Hadley, Louise Moulding, Pene'e Stewart, Shernavaz Vakil, Natalie Allen Williams; **Associate Professors:** Shirley Dawson, DeeDee Mower, Daniel Pyle, Clay Rasmussen, Sheryl Rushton; **Assistant Professors:** Jadelyn Abbott, Ryan Cain, Sara Gailey, Dustin Grote, Megan Hamilton, Andrea Martinez, Katarina Pantic, Stephanie Speicher

The major purpose of the professional education programs in teacher education is to prepare candidates for teaching in elementary and secondary schools. Preparation is also provided for teachers of students with mild to moderate disabilities with the special education mild/moderate license. The department prepares students for endorsements in Mathematics, ESL (English as a Second Language), Dual Language Immersion, Basic Reading (graduate level only), and Education of the Gifted (graduate level only). All programs are accredited through the Teacher Education Accreditation Council (TEAC).

The preparation for teaching falls academically within four major categories: University General Education, support courses, subject specialization, and professional education.

1. University General Education requirements -- In selecting courses to satisfy the general education requirements, candidates should note the general education courses recommended and/or required in their major and/or professional education requirement sheets available in the Teacher Education Advisement Center (ED 230).
2. Support courses
3. Specializations are required of all elementary candidates. Elementary education majors have two track options; K-6 and 1-8. The K-6 track requires one 9 credit specialization and a 9 credit early childhood specialization while the 1-8 track requires a 18 credit specialization or a teaching minor. The professional education program outlines acceptable subject specialization areas and requirements. Special Education majors choose one 9-hour specialization or a teaching minor. Secondary candidates completing a teaching major may be required to complete a teaching minor (refer to the teaching major program requirements). The teaching major and teaching minor must be in subjects taught in Utah public secondary schools.
4. Professional Education courses help the prospective teacher learn about children, the nature of the learning process, and how to provide desirable learning experiences. To meet licensure requirements, secondary school candidates are required to complete a minimum of 24 semester hours of professional course work; 55 semester hours are required of the prospective elementary school teacher.

Professional course work in the program is organized into sequential levels. As students move through the program, they are required to demonstrate in a variety of ways the knowledge, skills and dispositions that embody the department's organizing theme and program model.

It is important that interested students contact the Teacher Education Advisement Center (ED 230) as quickly as they decide to become a teacher. Specific program admission requirements, required courses, and recommended general education course work are available.

Admission to Teacher Education

Admission to the Teacher Education Programs is a separate process from general university admission. The Teacher Education programs maintain a competitive admissions process. **Applicants are provisionally admitted each semester after submitting their application materials and meeting the minimum admission criteria listed below.** Students are admitted two times per year: fall semester and spring semester. Applicants are evaluated by cumulative GPA and admission interview score.

Minimum Admission Requirements

1. Formal Application submitted online by the deadline date.
2. At least 40 semester hours of general education and relevant prerequisite courses.

Those intending to teach Special Education or teach at the elementary level, please note:

*The Professional Education component of the Special Education major and the Elementary Education major requires **four semesters** to complete. Therefore, it is **very important** that candidates have completed the General Education requirements and have taken most of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.*

Those intending to teach at the secondary level, please note:

*The Professional Education component of the Secondary Education program requires **two semesters** to complete. Therefore, it is **very important** that candidates have completed the General Education requirements and most of the teaching major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.*

3. **Passing the appropriate Praxis II Content test or passing the ACT with the composite score of 21 with a verbal/English score no less than 20 and a mathematics/quantitative score of no less than 19 is required for all programs.** The Utah State Office of Education specifies the passing

score for each test. **Students will not be considered for admission if they do not meet the state specified passing score on the Praxis II or ACT.**

4. Sign up for an interview in the Advisement Center when you turn in application materials (the schedule will be available approximately one (1) month prior to the interview dates).
 5. Composition general education requirement completed (grade "C" or above in ENGL 2010 EN2, or equivalent).
 - Quantitative Literacy requirement completed (see General Requirements in this catalog).
Note: MATH 2010, MATH 2015, MATH 2020 are required of all Elementary, Special Education, and Early Childhood Education majors.
 - Quantitative Literacy requirements for all *Elementary, Special Education, and Early Childhood Education majors* is fulfilled after completing MATH 2020 which follows MATH 2015 which follows MATH 2010 .
 - There are many prerequisite options to enter MATH 2010 though the most popular methods include earning a C or better MATH 0970 , MATH 1030 , ACT Math score of 23 or better, or ALEKS math score of 46 or higher.
 - Any *Elementary, Special Education, and Early Childhood Education major* pursuing the Middle School Mathematics Teaching minor is encouraged to take MATH 1050 and MATH 1060 or MATH 1080 as soon as possible as part of the requirements for that minor.
3. Communication competency completed (grade "B-" or above in COMM 1020 or COMM 2110 or equivalent).
 4. University Computer and Information Literacy competency completed (see General Requirements in this catalog).
 5. EDUC 1010 Exploring Teaching or approved equivalent course completed.
 6. Teacher Education also recognizes specific program and diversity needs of professional education and reserves the right to consider such factors in the admission of candidates.
 7. For teacher education applicants who are English language learners, an additional requirement of 6.5 on each of the four sections of the International English Language Testing System (IELTS) test is required for admission.

Additional Notes

- a. **Fingerprinting/background check must be completed immediately after being admitted.** Go to the following link for more information: <https://weber.edu/fingerprinting>
- b. Students are provisionally admitted to a specific teacher education program: (1) early childhood education; (2) elementary education; (3) special education; (4) secondary education.
- c. Provisional admission to a specific program is valid for a period of five years. If a student has not completed the program within the five-year period or desires to pursue a different program, he/she must seek readmission under the current admission standards and complete current course/program requirements. Changes in state licensure requirements may necessitate more immediate program changes.
- d. Professional education credits older than five years at the time of program admission generally will not be counted. However, students may revalidate outdated course work by following procedures available in the Teacher Education Advisement Center, ED 230.
- e. A Graduate Certificate in Teaching is also available through the Master of Education program.
- f. Applicants who hold Bachelor's degrees older than five years and who have not had more recent relevant course work or work experiences related to their major and minor must take at least two courses in their major and one course in their minor as designated by the academic department.
- g. Applicants with an earned graduate degree seeking initial licensure must satisfactorily complete requirements 1, 2, 4, and 5. They are then placed in the pool with others seeking provisional admission.
- h. Data are collected on students admitted to the Teacher Education program for the purposes of national accreditation and program improvement. No personal information is used in this process.

Early Childhood Education Major

The Departments of Child and Family Studies and Teacher Education offer a major in Early Childhood Education with licensure for teaching in programs which serve children from birth through eight years of age (Pre-K through 3rd grade). Requirements are listed under the Department of Child and Family Studies. See Room ED 248 for additional information.

Elementary Education Major

Students preparing to teach in elementary schools graduate with a major in Elementary Education. The elementary education major has a K-6 track and a 1-8 track.

The Teacher Education Advisement Center and faculty advisors from the Department of Teacher Education are available to advise prospective teachers. A program requirement sheet is available from the Teacher Education Advisement Center in Room 230 in the McKay Education Building. It is to the student's advantage to begin program planning early.

Interdisciplinary Minors

The Teacher Education Department participates in the interdisciplinary Linguistics Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Associate of Science

Education (AS)

The Associate of Science degree (AS) in Education is a two-year program designed to prepare students for the elementary or special education bachelors programs. Students completing this program will develop skills and get the hands-on experience necessary to be accepted into the professional courses offered at the university level. Course work will satisfy the General Education requirements for the first two years of a bachelor's degree in elementary or special education. Specific requirements for the bachelor's degrees in elementary education and special education can be found at Department of Teacher Education.

- **Credit Hour Requirements:** A total of 60 credit hours are required for graduation; 24 or these are required Education-related and support courses and 36 are required general education courses.
- **Program Code:** 5025AS
- **CIPC:** 130101

Advisement

All students should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-6309 for more information or to schedule an appointment. See <https://www.weber.edu/teachered/advisor.html>

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the AS in Education will also fulfill general education requirements: CHF SS/CC 1500, COMM HU 1020 or COMM HU CEL

2110, GEOG SS/SUS/CC 1300 or GEOG SS/CC/SUS 1520, MATH QL 2020. It is recommended that students fulfill the Computer and Information Literacy Part D requirement with LIBS 2604/EDUC 2604.

Major Course Requirements for AS Degree

Required Education-related Courses (30-31 credit hours)

- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- EDUC 2010 CEL - Human Exceptionality and Assistive Technology **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3) OR**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- ENGL 3300 - Children's Literature **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3) OR**
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- MATH 2010 - Arithmetic for Elementary Teachers **Credits: (3) grade of C or above**
- MATH 2015 - Algebra for Elementary Teachers **Credits: (3) grade of C or above**
- MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3) grade of C or above**

AND one of the following:

- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)** Can not double count as Gen Ed
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- MUSC 3824 - Music for Elementary Teachers **Credits: (3)**
- THEA 4603 - Creative Drama **Credits: (3)**

Required Support Courses (15 credit hours)

Select 6 credit hours from the following, *with at least 3 from Creative Arts (don't duplicate departments):*

Humanities

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**

Creative Arts

- ART 1010 CA - Introduction to the Visual Arts **Credits: (3)**
- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- DANC 1010 CA/CC - Introduction to Dance **Credits: (3)**
- MUSC 1040 CA - Music of World Cultures **Credits: (3)**
- THEA 1033 CA - Introduction to Acting **Credits: (3)**

Select 3 credit hours from the following to satisfy the science with a lab requirement (may not duplicate departments):

- GEO 1350 PS - Principles of Earth Science **Credits: (3) OR**
- CHEM 1360 PS - Principles of Physical Science **Credits: (3)** or PHYS PS 1360 **OR**
- BTNY 1370 LS - Principles of Life Science **Credits: (3)** or MICR LS 1370 or ZOOL LS 1370

Select 6 additional credit hours from the General Education Physical Science and Life Science requirements.

Required Track-Specific Support Courses (6 credit hours)

Elementary and Special Education: 6 credit hours towards an area of specialization.

Institutional Certificate

Paraeducator Certificate of Proficiency

The Paraeducator Certification Program is a one-year program designed for those seeking employment as a paraeducator, improving their skills as an experienced paraeducator, or earning stackable degrees towards a teaching license and bachelor degree. Students are able to earn the Paraeducator Certificate as a standalone achievement or part of a continuous career plan designed to connect to a teaching career and bachelor's degree. High school students may begin taking some courses in the Career Pathway for Education. Others can begin taking courses at any time. The courses in the Paraeducator Certificate can apply to an associate degree. Eventually students are able to apply some courses in the Paraeducator Certificate Program to a bachelor's degree and a Utah Teaching License in Elementary, Secondary, or Special Education.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate.
- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 5062CP
- **CIP Code:** 131501

Advisement

Students in the Paraeducator Certification Program should meet with the program advisor for course and program advisement. Call Kristin Radulovich at 801-626-6309 for more information or to schedule an appointment.

Required Courses

- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- EDUC 2010 CEL - Human Exceptionality and Assistive Technology **Credits: (3)**
- EDUC 2800 - Instruction, Technology, Assessment, and Planning **Credits: (3)**
- EDUC 2820 - Creating a Learning Environment **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

Bachelor of Science

Elementary and Special Education (BS)

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under Teacher Education).
- **Minor/Specialization:** One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected and an approved teaching minor must be completed.
- **Grade Requirements:** Elementary Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university courses. Each professional education course to continue in the program. Majors must also achieve at least a "C" grade in MATH 2010, MATH 2020, and MATH 2030.
- **Credit Hour Requirements:** A minimum of 123 credit hours is required for graduation; The following are required within the program: Program Courses: 42; Minor or Specialization Courses: 18; Elementary and Special Education Courses: 63.
- **Program Code:** 5068BS
- **CIPC:** 131202

Admission Requirements

Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined in the Teacher Education department.

Advisement

All Elementary and Special Education majors should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education at 801-626-7694 for more information or to schedule an appointment.

For Elementary and Special Education majors, there are III areas of course work that are required: I. General Education and Pre-Professional Education Courses; II. Professional Education Courses; and III. Specialization Courses. Details for each of these required areas follow.

Program Learning Outcomes

- Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;
- Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy;
- Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Elementary Education major are: COMM 1020 or COMM 2110, GEOG 1300 OR GEOG 1520, MATH 2020 and CHF 1500. Meeting the general education science requirements. Following the suggested guidelines below will assure that both University general education and elementary education science requirements are met.

Major Course Requirements for BS Degree resulting in a Elementary K-8 and Special Education K-12 License

II. Support Courses Required (or equivalent) (24 credit hours)

- CHF 1500 SS/CC - Human Development **Credits: (3)**

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- EDUC 2010 CEL - Human Exceptionality and Assistive Technology **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)** or
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- MATH 2010 - Arithmetic for Elementary Teachers **Credits: (3)** *Grade of C or above required*
- MATH 2015 - Algebra for Elementary Teachers **Credits: (3)** *Grade of C or above required*
- MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *Grade of C or above required*

At least one course from the following

- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- MUSC 3824 - Music for Elementary Teachers **Credits: (3)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- THEA 4603 - Creative Drama **Credits: (3)**

III. Required Area of Specialization (18 credit hours)

One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching specialization/minor must be completed. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center.

The Professional Education component of the Elementary and Special Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken at least some of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

IV. Professional Education Courses Required (63 credit hours)

Admission to teacher education is required prior to enrollment in Professional Education courses. Cohort codes required for these courses. During the first and second semesters students need to take a practicum course, and during the third and fourth semesters students are required to take a 3 credit hour student teaching course.

Level A (17)

- EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
- EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers **Credits: (2)**
- EDUC 3205 - Culturally and Linguistically Responsive Teaching **Credits: (3)**
- EDUC 3270 - Addressing Differentiation, Collaboration and IEPs for Inclusive Teaching **Credits: (3)**
- EDUC 3575 - Special Education Math Methods for students on IEPs **Credits: (2)**
- EDUC 3130 - Curriculum, Instructional Planning, and Assessment **Credits: (3)**
- EDUC 3860 - Practicum In Special Education **Credits: (1-3)**

Level B (17)

- EDUC 3240 - Reading Instruction in the Intermediate Grades **Credits: (3)**
- EDUC 3145 - Educational Psychology and Child and Adolescent Development **Credits: (3)**

- EDUC 4345 - Elementary Integrated Arts Methods **Credits: (3)**
- EDUC 3230 - Media and Data Science for Elementary Settings **Credits: (3)**
- EDUC 3280 - Elementary Social Studies Methods **Credits: (3)**
- EDUC 3210 INT - Practicum in Elementary Education **Credits: (2)**

Level C (15)

- EDUC 4530 - Principles of Assessment and IEP Development **Credits: (3)**
- EDUC 4330 - Elementary Science Methods **Credits: (3)**
- EDUC 4320 - Elementary Language Arts Methods **Credits: (3)**
- EDUC 4300 - Elementary Mathematics Methods **Credits: (3)**
- EDUC 4840A INT - Student Teaching in Elementary Education **Credits: (3-8)**

Level D (15)

- PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers **Credits: (3)**
- EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis **Credits: (3)**
- EDUC 3565 - Elementary English Language Arts: Evaluation, Remediation and Supports **Credits: (2)**
- EDUC 4515 - Special Education Law and Transition **Credits: (3)**
- EDUC 4680A INT - Special Education Student Teaching **Credits: (3-8)**

Elementary Education (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students. Elementary and Special Education (BS) will be one major moving forward and is accepting new students.

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Department of Teacher Education).
- **Minor/Specialization:** One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching minor must be completed.
- **Grade Requirements:** Elementary Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work and at least a "B-" grade in each professional education course to continue in the program. Elementary Education majors must also achieve at least a "C" grade in MATH 2010, MATH 2015 and MATH 2020.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation; a minimum of 46 of these is required within the Elementary Education major. A total of 40 upper division credit hours is required (courses number 3000 and above).
- **Program Code:** 5005BS
- **CIPC:** 131202

Admission Requirements

Declare a program of study (see Program of Study (Major/Minor) Declaration). Follow the provisional admission requirements outlined under the Teacher Education department.

Advisement

All Elementary Education majors should meet with an advisor in the Teacher Education Advisement Center and from the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment.

For Elementary Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Subject Area Specialization; and IV. Professional Education Courses. Details for each of these required areas follow.

Program Learning Outcomes

- Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;
- Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy; and
- Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Elementary Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, GEOG SS/SUS/CC 1300 OR GEOG SS/CC/SUS 1520, MATH QL 2020 and CHF 1500. Meeting the general education science requirements may not meet elementary education science requirements. Following the suggested guidelines below will assure that both University general education and Elementary Education requirements are met.

Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be PS1350 (Principles of Earth Science), PS1360 (Principles of Physical Science), or LS1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree resulting in a K-8 License

II. Support Courses Required (or equivalent) (27-29 credit hours)

- CHF 1500 SS/CC - Human Development **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- EDUC 2010 CEL - Human Exceptionality and Assistive Technology **Credits: (3)**
- ENGL 3300 - Children's Literature **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)** OR
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**
- MATH 2010 - Arithmetic for Elementary Teachers **Credits: (3)** *Grade of C or above required*
- MATH 2015 - Algebra for Elementary Teachers **Credits: (3)** *Grade of C or above required*
- MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *Grade of C or above required*

At least one course from the following

- ART 1030 CA - Studio Art for the Non-Art Major **Credits: (3)**
- MUSC 3824 - Music for Elementary Teachers **Credits: (3)**

- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- THEA 4603 - Creative Drama **Credits: (3)**

III. Required Area of Specialization (18 credit hours)

One or two subject area specializations (total of 18 credit hours) or a teaching minor must be selected. To teach up to 8th grade, an approved teaching minor must be completed. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

The Professional Education component of the Elementary Education major requires four semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and have taken at least some of the required Support Courses prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

IV. Professional Education Courses Required (56 credit hours)

Admission to teacher education is required prior to enrollment in Professional Education courses.

Level 1 (12 credit hours)

Note: Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
- EDUC 3145 - Educational Psychology and Child and Adolescent Development **Credits: (3)**
- EDUC 3205 - Culturally and Linguistically Responsive Teaching **Credits: (3)**
- EDUC 3270 - Addressing Differentiation, Collaboration and IEPs for Inclusive Teaching **Credits: (3)**

Level 2 (14 credit hours)

Note: K-6 majors take an area of specialization course (3) and 1-8 majors take an a minor/endorsement course (3). Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 3130 - Curriculum, Instructional Planning, and Assessment **Credits: (3)**
- EDUC 3210 INT - Practicum in Elementary Education **Credits: (2)**
- EDUC 3230 - Media and Data Science for Elementary Settings **Credits: (3)**
- EDUC 3240 - Reading Instruction in the Intermediate Grades **Credits: (3)**
- EDUC 4345 - Elementary Integrated Arts Methods **Credits: (3)**

Level 3 (18 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 3280 - Elementary Social Studies Methods **Credits: (3)**
- EDUC 4210 INT - Elementary Level III Practicum **Credits: (3)**
- EDUC 4320 - Elementary Language Arts Methods **Credits: (3)**
- EDUC 4330 - Elementary Science Methods **Credits: (3)**

- PEP 3620 - Methods of Teaching Physical Education and Health for Elementary Teachers **Credits: (3)**
- EDUC 4300 - Elementary Mathematics Methods **Credits: (3)**

Level 4 (12 credit hours)

Cohort codes required for these courses (ECE, ELEM, or DUAL). Program codes required for these courses: Early Childhood Education (5002BS), Elementary Education (5005BS), or both.

- EDUC 4840A INT - Student Teaching in Elementary Education **Credits: (3-8)**
- EDUC 4850 - Integrated Elementary Education Student Teaching Seminar and Synthesis **Credits: (4)**

Special Education (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students. Elementary and Special Education (BS) will be one major moving forward and is accepting new students.

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department).
- **Specialization:** Required (9 or more credit hours). Students may choose any academic teaching minor (refer to department listings for specific requirements). Or, choose a specialization area (see below).
- **Grade Requirements:** A "B-" or higher is required for any upper division EDUC or MED course, in addition, Special Education majors must maintain a cumulative GPA of 3.00 or higher in all college/university work.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation. The following are required within the program: Support Courses 21; Specialization 9; Professional Education 12; Special Education 44. A total of 40 upper division credit hours is required (courses number 3000 and above).
- **Program Code:** 5007BS
- **CIPC:** 131001

Admission Requirements

Declare a program of study (see Student Access and Success, Services and Information). Follow the provisional admission requirements outlined under the Teacher Education department. Also refer to the Department Advisor Referral List.)

Advisement

All Special Education majors should meet with an advisor in the Teacher Education Advisement Center and with an assigned advisor from the Special Education faculty. Call 801-626-7694 for more information or to schedule an appointment.

For Special Education majors, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Area of Specialization; and, IV. Professional Courses. Details for each of these required areas follow.

Program Learning Outcomes

- Claim/Outcome 1: Graduates meet the needs of diverse learners by creating a safe and equitable learning environment;

- Claim/Outcome 2: Graduates use effective instructional practices based on deep and flexible knowledge of content and pedagogy; and
- Claim/Outcome 3: Graduates engage in reflective practice, exhibit ethical behavior, and fulfill professional responsibilities.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Special Education major will also satisfy general education requirements: COMM 1020 or COMM 2110, MATH QL 2020, and CHF SS/CC 1500.

Students pursuing a BS degree must take 9 credit hours, at least one (1) course from a life science group and at least one (1) course from a physical science group. One of the courses must be GEO PS 1350 (Principles of Earth Science), CHEM 1360 PS/PHYS PS 1360 (Principles of Physical Science), or BTNY LS 1370 /MICR LS 1370/ZOOL LS 1370 (Principles of Life Science), or at least one science lab course.

Major Course Requirements for BS Degree

II. Support Courses Required (or equivalent) (21 credits)

- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- EDUC 2010 CEL - Human Exceptionality and Assistive Technology **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- MATH 2010 - Arithmetic for Elementary Teachers **Credits: (3)** *Grade of C or above required*
- MATH 2015 - Algebra for Elementary Teachers **Credits: (3)** *Grade of C or above required*
- MATH 2020 QL - Geometry for Elementary Teachers **Credits: (3)** *Grade of C or above required*

And at least 6 credit hours from the following

- ENGL 3300 - Children's Literature **Credits: (3)**
- EDUC 3390 - Literacy in the Primary Grades **Credits: (2)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)**
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)**
- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- ECED 2500 - Development of the Child **Credits: (3)**
- ECED 3640 - Collaborating with Families of Young Children **Credits: (3)**
- PSY 3000 - Child Psychology **Credits: (3)**
- PSY 3140 - Adolescent Psychology **Credits: (3)**
- PEP 3660 - Adapted Physical Education **Credits: (3)**

III. Area of Specialization options (9 credits)

In addition, complete a 9-hour specialization in one of the areas listed below. For further information concerning the courses involved in the areas of specialization, see the Teacher Advisement Center, ED230.

1. Mathematics
2. English as a Second Language
3. Early Childhood
4. Family Studies
5. Language Arts (Secondary)
6. International Education

IV. Courses Required for the Major (55 credits)

Level 1 - Foundation Education Courses (14 credits)

- EDUC 3115 - Media Integration in Elementary Education Settings **Credits: (2)**
- EDUC 3120 - Reading Instruction in the Primary Grades **Credits: (3)**
- EDUC 3145 - Educational Psychology and Child and Adolescent Development **Credits: (3)**
- EDUC 3205 - Culturally and Linguistically Responsive Teaching **Credits: (3)**
- EDUC 3270 - Addressing Differentiation, Collaboration and IEPs for Inclusive Teaching **Credits: (3)**

Level 2 - Inclusion Methods (15 credits)

- EDUC 3371 - Assistive Technology **Credits: (1)**
- EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers **Credits: (2)**
- EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings **Credits: (3)**
- EDUC 4521 - Practicum in Special Education A **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Education - Non-Teaching (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Code: 5025**
- **CIPC: 130101**

The Bachelor of Integrated Studies (BIS) is designed to meet the needs of students who have clear educational goals that they would like to meet through an individualized university program. The 18-credit education emphasis is for those who have prior coursework or special interest in teaching and learning. Specific courses are determined through advisement. This program does not lead to educator licensure.

Minor

ESL (English as a Second Language) Minor

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure.

These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

- **Grade Requirements:** A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.
- **Credit Hour Requirements:** 17 credit hours required.
- **Program Code: Minor 5009**
- **CIPC: 131401**

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

- EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)** (MED 6250)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)** (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families **Credits: (1)**
- EDUC 5770 INT - Field Experience in ESL/Bilingual Education **Credits: (2)** **
- ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual **Credits: (3)** * (MENG 6410)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)** (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)** (MENG 6450)

Note:

* WLC 4400, *Methods of Teaching a Foreign Language*, may be substituted for ENGL 4410.

** EDUC 5770 needs to be completed with Student Teaching.

Endorsement programs are also offered through the graduate program as electives.

Endorsement

Dual Language Immersion Endorsement

This program will meet the requirements for the Dual Language Immersion Endorsement to be added to the Elementary or Secondary Education licensure. Students must also demonstrate language proficiency at the Advanced Mid or higher Level, as determined by the Foreign Language Department.

These courses taken at the graduate level may also be used as electives for the MED degree. See the Department of Teacher Education or the Master of Education Office for more details.

Course Requirements for Endorsement

Required Courses (15 credit hours)

Graduate students should contact the MED director for approved substitutions.

- EDUC 3375 - Foundations of Dual Immersion or Immersion Education **Credits: (3)** (MED 6375)
- EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment **Credits: (3)** (MED 6415)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)** (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families **Credits: (1)**
- WLC 4400 - Methods for Teaching Languages **Credits: (5)**
- EDUC 5770 INT - Field Experience in ESL/Bilingual Education **Credits: (2)** *

Note:

** EDUC 5770 needs to be completed with Student Teaching.*

Endorsement programs are also offered through the graduate program as electives.

Note:

It is recommended that candidates for the Dual Language Immersion Endorsement also complete the ESL Endorsement with the following courses:

- EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)** (MED 6250)
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)** (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)** (MENG 6450)

ESL (English as a Second Language) Endorsement

ESL (English as a Second Language) Minor/Endorsement

This program will meet the requirements for the English as a Second Language (ESL) Endorsement to be added to the Early Childhood, Elementary, or Secondary Education licensure.

These courses taken at the graduate level may also be used as electives for the MEd degree. See the Department of Teacher Education or the Master of Education Office for more details.

- **Grade Requirements:** A GPA of 3.00 or better in courses used toward the minor in addition to an overall GPA of 3.00 or higher.
- **Credit Hour Requirements:** 17 credit hours required.
- **Program Code: Minor** 5009
- **CIPC:** 131401

Students must satisfy the Teacher Education admission and licensure requirements.

Course Requirements for Minor/Endorsement

Required Courses (18 credit hours)

- EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)** (MED 6250)
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)** (MED 6270)
- EDUC 4740 - Building School Partnerships with ESL/Bilingual Families **Credits: (1)**

- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)** (MENG 6420)
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)** (MENG 6450)

Note:

** WLC 4400, Methods of Teaching a Foreign Language, may be substituted for ENGL 4410.*

*** EDUC 5770 needs to be completed with Student Teaching.*

Endorsement programs are also offered through the graduate program as electives.

Licensure

Secondary Education Licensure

- **Program Prerequisite:** Provisional admission to a Teacher Education Program (see the admission requirements described under the Teacher Education Department). Select an academic teaching major and teaching minor or composite teaching major and teaching minor that WSU offers. In many departments the teaching major and minor are different from the departmental major and minor.
- **Minor:** A teaching minor is recommended and may be required with most teaching majors (please consult your content major advisor). A teaching minor is generally not required with a composite teaching major (refer to specific composite major program requirements).
- **Grade Requirements:** Secondary Education students must meet minimum major course grade requirements and maintain a cumulative GPA of 3.00 or higher in all college work and achieve at least a "B-" grade in each professional education course to continue in the program.
- **Credit Hour Requirements:** A total of 120 semester hours is required for graduation; a minimum of 24 of these is required within the Secondary Licensure program. A total of 40 upper division credit hours is required (courses number 3000 and above).

The academic teaching major and teaching minor must consist of not less than 30 and 16 semester hours respectively, or a composite major of a minimum of 46 semester hours. The teaching major and teaching minor

must be in subjects taught in Utah public secondary schools. *Either the major or minor must be a subject which Utah secondary schools are required to teach (those marked with asterisks do not satisfy this second requirement - see the list of teaching majors and minors below).*

Admission Requirements

Declare a program of study (see Enrollment Services and Information). Follow the provisional admission requirements outlined under the Teacher Education Department.

Advisement

All Secondary Education students should meet with an advisor in the Department of Teacher Education. Call 801-626-7694 for more information or to schedule an appointment. In addition, students should seek advisement from both their teaching major and their teaching minor program areas.

For Secondary Licensure candidates, there are 4 areas of course work that are required: I. University and General Education Requirements; II. Support Courses; III. Teaching Major and Teaching Minors (when required) that WSU offers; and IV. Professional Education Courses. Details for each of these required areas follow.

General Education

I. University and General Education Requirements

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. The following courses required for the Secondary Education Licensure Program will also satisfy general education requirements: COMM 1020 or COMM 2110 and CHF 1500.

Course Requirements for Licensure

II. Support Courses Required (or equivalent)

- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**

One course from the following

- CHF 1500 SS/CC - Human Development **Credits: (3)** or
- PSY 3140 - Adolescent Psychology **Credits: (3)**

One course from the following

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

III. Teaching Majors and Minors

Majors and Minors

Chemistry	Communication*
Dance	English
French	Geography
German	History
Mathematics	Physical Education
Physics	Political Science*
Psychology*	Sociology*
Spanish	Theatre Arts

** Subjects which Utah secondary schools are not required to teach*

Minors Only

Art
Biology
Business Education
Business/Marketing Education
Computer Science
Earth Science
Economics
ESL (English as a Second Language)
Health Promotion
Physical Education/Coaching Education Dual Teaching

Licensure Programs

Special Education (Mild/Moderate)

Composite Majors

In lieu of the major and minor, a candidate may elect a composite teaching major which consists of a minimum of forty-six (46) hours of subjects in closely related fields.

Art (<i>minor required</i>)	Biology
Business Education	Earth Science
Music Education	Physical Science
Social Science	

IV. Professional Education Courses Required (24 hours)

Secondary Teacher Education Core

- EDUC 3220 - Foundations of Diversity **Credits: (2)**
- EDUC 3265 - The Exceptional Student **Credits: (2)**
- EDUC 3315 - Media Integration in the Secondary School Setting **Credits: (2)**
- EDUC 3900 - Preparing, Teaching, and Assessing Instruction **Credits: (2)**
- EDUC 3910 INT - Secondary Education Practicum **Credits: (2)**
- EDUC 3935 - Reading and Writing Across the Secondary Curriculum **Credits: (2)**

Secondary Teacher Education Student Teaching

- EDUC 4940A INT - Student Teaching in Secondary Education **Credits: (8)**
- EDUC 4950 - Integrated Secondary Student Teaching Seminar **Credits: (4)**

Additional Information:

Provisional admission to teacher education is required prior to enrollment in 3000 level and above education classes.

*HIST 4500 is a **required course** for the Social & Behavioral Science Teaching Major/Teaching Minor.*

The Professional Education component of the Secondary Education program requires two semesters to complete. Therefore, it is very important that candidates have completed the General Education requirements and most of the major and minor requirements prior to entering the program. Because of possible scheduling difficulties, failure to do so could mean spending an extra semester (or more) in completing the program.

Graduate Studies in Education (MED)

Areas of Emphasis

Select one of the following areas of emphasis:

- Masters of Education, Educational Technology (MEd)
- Masters of Education, Family Life Education (MEd)
- Masters of Education, Higher Education Leadership (MEd)
- Masters of Education, Sport Coaching Leadership (MEd)
- Masters of Education, Curriculum & Instruction (MEd)
- Masters of Education, Educational Leadership (MEd)
- Educational Leadership Post Masters Certificate
- Masters of Education, Inclusive Early Childhood Education and Care (MEd)

Curriculum and Instruction: The Master of Education with an emphasis in Curriculum and Instruction is designed for candidates seeking more in-depth knowledge and skill for classroom instruction. In addition to foundation courses, students may select from a variety of electives including courses leading to license endorsements. Candidates will complete a classroom or school-based project as a culminating experience.

Educational Leadership: The Master of Education with an emphasis in Educational Leadership is designed for candidates seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for a School Leadership license.

Educational Technology: The Master of Education with an emphasis in Educational Technology is designed for candidates seeking in-depth knowledge and skill in the use of educational technology for enhancing instruction and student engagement. Candidates will complete a project or thesis as a culminating experience.

Family Life Education: This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life

education and family systems in general. Candidates will also integrate the best practices for theory-based program delivery, management, evaluation, and research.

Higher Education Leadership: The Master of Education with an emphasis in Higher Education Leadership is designed for candidates seeking to work in a higher education environment to gain a deep understanding of the roles, mechanisms, and policies that impact higher education. Candidates can select an intensive internship or a site-based research project as a culminating experience.

The Master of Education with an emphasis in Inclusive Early Childhood Education and Care is designed for all early childhood professionals to acquire knowledge and skills for working with diverse children, families, and communities. There is a focus on the change in systemic inequities by using emotionally responsive practices and creating learning communities in a relationship-based approach. Candidates will complete a thesis as a culminating experience.

The Master of Education with an emphasis in Sport Coaching Leadership is designed for sport coaches to acquire content knowledge, sport coaching methodologies, and enhance their individual coaching in the area of sport. Upon completion of the program, students may pursue jobs as an athletic coach, athlete development specialist, athletic director, or operations manager. Candidates will complete a project or thesis as a culminating experience.

Admission Requirements

The MEd program is selective with a limited number of openings available for qualified students. Admission deadline is March 15 for Fall semester. For additional information contact the Master of Education office, (801) 626-6278.

The following items are required:

1. Admission to Weber State University and application for the MEd Program.
2. Payment of the MEd program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.00 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate course work.
7. Writing proficiency assessment with a minimum score of 4 out of 6.
8. Interview with Graduate Studies in Education faculty members with a score of 4 out of 6.

Additional Requirements for Educational Leadership Emphasis/Graduate Certificate:

In addition to the above, those seeking admission to the Educational Leadership emphasis must also

1. Clear a USBE fingerprint background check;
2. Hold a Professional Educator License;
3. Be deemed effective or higher by: an evaluation system meeting the standards of R277-531; **or** the LEA's equivalent on the applicant's most recent evaluation;
4. Have a recommendation from: the individual's immediate administrative supervisor; or an LEA-level administrator with knowledge regarding the individual's potential as an education leader.

Additional Requirements for International Students

Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu

- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5 or Duolingo 120.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.

- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application **and** a Graduate Financial Guarantee form.

GPA Requirements for all GSE Students

Following admission to the Graduate Studies in Education program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

- **Program Code:** 5056MED with Emphasis in 5057 (Curriculum and Instruction) or 5058 (Educational Leadership) or 50XX (Educational Technology) or 5059 (Family Life Education) or 5060 (Higher Education Leadership) or 50XX (Inclusive Early Childhood Education and Care) or 50XX (Sport Coaching Leadership).
- **CIPC:** 130101

Program Learning Outcomes

1. Critical Analysis -- Critically analyze key theories, issues, trends, and/or concepts affecting the education/family system. Issues, theories, and/or concerns are critically considered, clearly stated, and comprehensively described. Information is incorporated with interpretation and/or evaluation to develop a comprehensive analysis or synthesis. Viewpoints of experts are thoroughly questioned and/or analyzed. Complex issues are analyzed in-depth. Limits of the analysis, perspective, and/or thesis are acknowledged.
2. Research -- Design and/or implement research or evaluation related to current issues. Specific research/evaluation question(s) and/or aims of the study are clearly stated and described in the context of previous studies relevant to education. Research/evaluation design and methods for data collection and analysis are clearly explained and analyzed for their strengths and weaknesses in relation to the research question. Results/outcomes/products are clearly and accurately discussed in the context of the research/evaluation question, and limits of the study's findings are identified and discussed in relation to the question and methods.
3. Writing -- Model professional-level writing skills in academic and non-academic settings. The written work includes an introduction and conclusion that clearly state and explain the thesis, position, or purpose of the work. Information is organized in a logical and easy to understand format that makes effective use of transitional statements between ideas. The writing is mostly free of errors relative to effectively communicating ideas. The tone and style of writing is appropriate to a professional/academic and/or non-academic audience.
4. Evaluation -- Create and/or defend an evidence-based argument regarding effective models within education contexts. Evaluation of arguments contains thorough and insightful explanation, reviews logic/reason, examines feasibility of solution(s), and weighs impacts of solution(s). Proposes one or more solutions/hypotheses that indicates a deep comprehension of the problem/issue. Solution/hypotheses are sensitive to contextual factors as well as ethical, logical, and cultural dimensions of the problem/issue. Studies/reports used are appropriate to the topic and are from current and professional sources.

Post Master's Certificate

Educational Leadership Post Masters Certificate

Educational Leadership Graduate Certificate: The Educational Leadership Graduate Certificate is designed for candidates who hold a master's degree in education or related field seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for an administrative/supervisory license.

- **Program Code:** 5058PMC
- **CIPC:** 130401

Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

Course Requirements

The 36 credit-hour program of study consists of 9 credit-hours foundation requirement, 12 credit-hours professional core requirement, 9 credit hours of graduate electives, and 6 credit-hours to complete a master's project/thesis.

Foundations (9)

- GSE 6000 - Fundamentals of Graduate Study **Credits: (3)**
- GSE 6020 - Creating Environments for Student Success **Credits: (3)**
- GSE 6080 - Conducting Educational Research **Credits: (3)**

Emphasis Specific Courses (12)

- GSE 6010 - History, Philosophy, and Policy in Education **Credits: (3)**
- GSE 6030 - Applied Learning Theory **Credits: (3)**
- GSE 6055 - Curriculum Theory and Development **Credits: (3)**
- GSE 6065 - Assessment and Informed Decision-Making **Credits: (3)**

Project (6)

- GSE 6910 - Project Development I **Credits: (1)**
- GSE 6920 - Project Development II **Credits: (1)**

- GSE 6930 - Project Development III **Credits: (1)**
- GSE 6970 - Master of Education Project/Thesis/Capstone **Credits: (3)**

Electives (9)

Electives must be graduate level (i.e. 6000 level credit) and may be selected from offerings in professional education, discipline areas, or specialized courses leading to endorsements.

Masters of Education, Educational Leadership (MEd)

Educational Leadership: The Master of Education with an emphasis in Educational Leadership is designed for candidates seeking administrative positions in P-12 schools and is focused on the Utah Educational Leadership Standards. After completion of an intensive administrative internship, candidates will be eligible to be recommended to the Utah State Board of Education for an administrative/supervisory license.

- **Program Code:** 5056MED with Emphasis in 5058 (Educational Leadership)
- **CIPC:** 131202 with 130401 (Educational Leadership)

Admission Requirements

The Graduate Studies in Education program is selective with a limited number of openings available for qualified students. Admission deadline is March 15 for Fall semester. For additional information contact the Graduate Studies in Education office, (801) 626-6278.

The following items are required:

1. Admission to Weber State University and application for the GSE Program.
2. Payment of the GSE program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.00 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate coursework.
7. Interview with Graduate Studies in Education faculty members with a score of 4 out of 6.

Additional Requirements for Educational Leadership Emphasis:

In addition to the above, those seeking admission to the Educational Leadership emphasis must also

1. Clear a USOE fingerprint background check;
2. Hold a Professional Educator License;
3. Be deemed effective or higher by:
an evaluation system meeting the standards of R277-531; or
the LEA's equivalent on the applicant's most recent evaluation;

Have a recommendation from:

the individual's immediate administrative supervisor; or
an LEA-level administrator with knowledge regarding the individual's potential as an education leader.

GPA Requirements for all MEd Students

Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

Course Requirements

The 36 credit-hour program of study consists of 9 credit-hours foundation requirement and 27 credit-hours of emphasis-specific courses including a field-based internship.

Foundations (9)

- GSE 6000 - Fundamentals of Graduate Study **Credits: (3)**
- GSE 6020 - Creating Environments for Student Success **Credits: (3)**
- GSE 6080 - Conducting Educational Research **Credits: (3)**

Emphasis Specific Courses (27)

- GSE 6100 - Educational Leadership and Management **Credits: (3)**
- GSE 6101 - Assessment and Data-Driven Decision Making **Credits: (3)**
- GSE 6102 - Education Finance and Resource Management **Credits: (3)**
- GSE 6210 - Education Law and Policy **Credits: (3)**
- GSE 6600 - Ethical and Collaborative Leadership **Credits: (3)**
- GSE 6601 - Community Engagement and Advocacy **Credits: (3)**
- GSE 6602 - Curriculum and Instructional Leadership **Credits: (3)**
- GSE 6603 - School Improvement through Strategic Student Support **Credits: (3)**
- GSE 6604 - Educational Leader Internship **Credits: (3)**

Masters of Education, Educational Technology (MEd)

Educational Technology: The Master of Education with an emphasis in Educational Technology is designed for candidates seeking in-depth knowledge and skill in the use of educational technology for enhancing instruction and student engagement. Candidates will complete a project or thesis as a culminating experience.

- **Program Code:** 5056MED with Emphasis in 5063 (Educational Technology)
- **CIPC:** 131202 with 130501 (Educational Technology)

Admission Requirements

The Graduate Studies in Education program is selective with a limited number of openings available for qualified students. Admission deadline is March 15 for Fall semester. For additional information contact the Graduate Studies in Education office, (801) 626-6278. The following items are required:

1. Admission to Weber State University and application for the GSE Program.
2. Payment of the GSE program application fee.
3. Verification of a bachelor's degree from an accredited institution.

4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.00 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate coursework.
7. Interview with Graduate Studies in Education faculty members with a score of 4 out of 6.

Additional Requirements for International Students:

- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or sis@weber.edu
- TOEFL score of 223 (computer-based) or 85 (internet-based) or IELTS 6.5 or Duolingo 120.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
- Courses evaluated into the equivalent of American credits and letter grades.
- Contact WSU International Student Services Office and submission of a WSU International Student Application and a Graduate Financial Guarantee form.

GPA Requirements for all MEd Students

Following admission to the MEd program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all foundation classes. Coursework in which Ds, Es, or UWs are earned is unacceptable and could result in removal from the program if the problem persists.

Course Requirements

The 36 credit-hour program of study consists of 9 credit-hours foundation requirement, 15 credit-hours professional core requirement, 3 credit hours of graduate electives, and 6 credit-hours to complete a master's project/thesis.

Foundations (9)

- GSE 6000 - Fundamentals of Graduate Study **Credits: (3)**
- GSE 6020 - Creating Environments for Student Success **Credits: (3)**
- GSE 6080 - Conducting Educational Research **Credits: (3)**

Emphasis Specific Courses (15)

- GSE 6030 - Applied Learning Theory **Credits: (3)**
- GSE 6501 - Introduction to K-12 Coding **Credits: (3)**
- GSE 6502 - Advanced Educational Technology **Credits: (3)**
- GSE 6504 - Analyzing Education Data with R **Credits: (3)**
- GSE 6505 - Educative Making in K-12 Settings **Credits: (3)**

Project (6)

- GSE 6910 - Project Development I **Credits: (1)**
- GSE 6920 - Project Development II **Credits: (1)**
- GSE 6930 - Project Development III **Credits: (1)**
- GSE 6970 - Master of Education Project/Thesis/Capstone **Credits: (3)**

Electives (6)

Electives must be graduate level (i.e., 6000 level credit) and may be selected from offerings in professional education, discipline areas, or specialized courses leading to endorsements. Students need to show proof of prior experience with technology (qualifying courses as EDUC 6229, EDUC 3315, EDUC 3115-7 or a corresponding course from a qualifying institution (e.g. EDUC 5500 from USU). If prior experience is not shown, then EDUC 6229 is required.

Masters of Education, Family Life Education (MEd)

This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life education and family systems in general. Candidates will also integrate the best practices for theory-based program delivery, management, evaluation, and research.

- **Program Code:** 5056MED with Emphasis in 5059 (Family Life Education)
- **CIPC:** 131202 with 190701 (Family Life Education)

Admission Requirements

Family Life Education: This Master of Education with an emphasis on Family Life Education is designed for candidates seeking careers in family life and community education, and those seeking a more in-depth study of the historical foundations, policies, and psychology of education and the theory, research, and structure of family life education and family systems in general. Candidates will complete a project or thesis as a culminating experience. The following items are required:

1. Admission to Weber State University and application for the GSE Program.
2. Payment of the GSE program application fee.
3. Verification of a bachelor's degree from an accredited institution.
4. Official transcripts from all institutions attended.
5. Recommendation forms (3).
6. Minimum GPA of 3.00 either cumulative or on the last 60 semester hours (90 quarter hours) of approved undergraduate/graduate coursework.
7. Interview with Graduate Studies in Education faculty members with a score of 4 out of 6.

Electives (3)

Electives must be graduate level (i.e. 6000 level credit) and may be selected from offerings in professional education, discipline areas, or specialized courses leading to endorsements.

Master of Criminal Justice Program

Program Director: Bradford Reyns

Telephone Contact: 801-626-6151

Who Should Apply

The program is designed for criminal justice and social service professionals who wish to continue their education.

Program Description

The Master of Science Degree in Criminal Justice is designed to provide post-baccalaureate education to criminal justice professionals and traditional students who have not yet begun a career in criminal justice. The primary goal of the program is to develop in graduates the ability to analyze, comprehend, and explore the complex problems confronting the criminal justice system. The program emphasizes theory, research and administration in the criminal justice system. Students will be able to conceptualize the problems of crime and justice from social, cultural, economic, and political perspectives. In addition, the successful graduate will understand research methods and design as well as statistical strategies used to analyze social science research. Course work will also provide a foundation for those students desiring to pursue doctoral studies.

About the Faculty

The graduate faculty brings diverse backgrounds both in terms of education and professional experience. Faculty graduate degrees include Public Administration, Sociology, Criminal Justice, Psychology, and the Law. Past professional experiences among the faculty include law enforcement administration, prosecuting attorney, criminal defense attorney, probation officer, corrections officer, and forensic investigator. Faculty research interests cross the full spectrum of the justice system and include issues related to the police, courts, criminal procedures, adult and youth corrections.

About the Program

The Master of Science Degree in Criminal Justice is a fully on-line degree program that allows students the opportunity to continue their education from anywhere with active Internet service. Applications are accepted on a continuous basis and courses are offered every semester (fall, spring, and summer). In general, students should be able to complete their degree in as few as 12-16 months.

Master of Science

Master of Science in Criminal Justice (MCJ)

- **Grade Requirements:** A minimum GPA of 3.0 for all courses is required. No "C" grade or lower is allowed in core courses. The remaining hours will be chosen from elective courses of interest to the student. More than one "C" grade in these courses will not count toward completion of the degree.
- **Program Code:** 7033MS
- **CIPC:** 430104

Admission Requirements

Admission to the master's program will be competitive and entrance restricted to a limited number of well qualified applicants. Applicants should possess an undergraduate degree from a regionally accredited university or college. Specific admissions criteria include:

- A completed application to the Master of Criminal Justice Program.
- A cumulative undergraduate GPA of at least 3.0; or if the cumulative undergraduate GPA is below 3.0, a 3.0 GPA calculated on the last undergraduate work comprising a minimum of 60 semester hours (90 quarter hours) of undergraduate work.*
- Official transcripts from all colleges/universities attended.
- A current resume or vita.
- A written personal statement explaining interest in the program.
- Three (3) Letters of Recommendation
- TOEFL (required for International students and may be required for students who do not use English as their primary language)

*Simply meeting the minimum overall GPA of 3.0 does not guarantee admission into the program

Students should familiarize themselves with the MCJ program policies found on the Criminal Justice Department website.

Graduation Requirements

The Master of Science Degree in Criminal Justice requires the completion of 36 semester hours. Five core courses totaling 15 semester hours are required.

Program Learning Outcomes

- Critically analyze key issues, ideas, and/or concepts affecting the criminal justice system. (Critical analysis)
- Design and/or implement empirically valid research related to criminal justice. (Research methods)

- Model professional-level writing skills in academic and/or non-academic settings. (Writing)
- Create and/or defend an evidence-based argument regarding criminal justice law, policies, or procedures. (Evaluation)

Master of Science Degree Criminal Justice Courses

Required Courses (15 credit hours)

- MCJ 6100 - Contemporary Criminal Justice **Credits: (3)**
- MCJ 6110 - Research Methods in Criminal Justice **Credits: (3)**
- MCJ 6210 - American Criminal Courts **Credits: (3)**
- MCJ 6220 - Contemporary Law Enforcement **Credits: (3)**
- MCJ 6230 - Contemporary Corrections **Credits: (3)**

Elective Courses (21 credit hours)

Select 21 credit hours of courses with an MCJ prefix.

Master of Social Work

Department Chair: Mark Bigler

Program Director: Corina Segovia Tadehara

Location: Lindquist Hall, Room 330

Telephone Contact: Taryn Pearce 801-626-6157

WSU Master of Social Work (MSW) Eligibility Requirements

To be eligible for admission to the Weber State University Master of Social Work (MSW) Program, applicants must meet the following minimum requirements:

1. Possession of a bachelor's degree or recognized equivalent from an accredited institution. NOTE: Individuals who have earned an undergraduate degree in social work from a CSWE-accredited program can apply for the MSW program with advanced standing status. The undergraduate social work degree must have been granted no more than five years prior the student's first semester in the WSU MSW program.
2. A satisfactory scholastic average, generally a minimum grade-point average of B or better (3.0 on a 4-point scale) in all coursework after the first two years (typically the first 60 semester units or 90 quarter units) of undergraduate study.
3. Significant undergraduate exposure to study in the social sciences. As a minimum this includes at least nine (9) semester credit hours of coursework in the social sciences, such as anthropology, criminal justice, political science, psychology, and sociology (courses in other disciplines a student believes are relevant may be approved by review of course syllabi).
4. A course in introductory statistics, research methods, or quantitative reasoning. This requirement must be satisfied prior to matriculation if you are offered admission.
5. Candidates for advanced standing must also have a course in mental health diagnostics.
6. The following courses are strongly recommended: Introduction to Psychology; Introduction to Sociology; Human Biology or any biology course covering anatomy and physiology that emphasizes the impact of organic, chemical, and body systems impairments on human behavior (NOT Introduction to Biology); social science courses that examine a macro context (e.g., Introduction to Political Science, Introduction to Economics, Introduction to Anthropology, etc.).

WSU Master of Social Work (MSW) Admissions Requirements

Application for admission to the Weber State University Master of Social Work (MSW) Program involves submission of the following:

1. The WSU MSW Program application form.
2. A \$30.00 application fee (non-refundable).
3. Official transcripts from all undergraduate institutions attended. Electronic transcripts from a college or university records office are acceptable. Official transcripts in hard copy can be mailed to the ATTN: MSW Admissions, Department of Social Work and Gerontology, Weber State University 1299 Edvalson Street, Ogden, UT, 84408.
4. A resume that outlines the student's employment history, specifically highlighting social work-related experience.
5. An original statement of purpose (three to four double-spaced pages in length, with one-inch margins, and 12-point Times New Roman font). This should include
 - A description of your understanding of the social work profession and its core values. How have you incorporated social work values in your human service experiences and interactions with others? What significant relationships and life experiences have you had in giving or receiving help that have motivated you to enter the field of social work? What personal qualities equip you for the social work profession? Discuss your experiences and feelings about working with populations different from your own.
 - A description of your areas of interest in social work practice, why you have this area of interest, what social problem(s) you expect to address with an MSW, and how the MSW will facilitate change in this or these areas.
 - A discussion of what you expect to be doing in five years and 10 years.
 - An explanation of why the WSU MSW Program is a good fit for your goals.
6. A minimum of three recommendations from academic instructors and/or professional colleagues who have supervised you in a social work-related position (paid, volunteer, or internship). Personal recommendations are not acceptable (i.e., recommendations from friends, family members, or religious leaders).

Grade Requirements

To receive a Master of Social Work (MSW) degree, the student must complete all course in the MSW program, including leveling and/or bridge courses (if applicable) with a grade of "C" or higher, and maintain an overall GPA of 3.0 or higher.

Master of Social Work

Master of Social Work (MSW)

- **Program Code:** 7017MSW
- **Cohort Code:** MSW_ADV (Advanced) or MSW_TRAD (Traditional)
- **CIPC:** 440701

WSU Master of Social Work (MSW) Eligibility Requirements

To be eligible for admission to the Weber State University Master of Social Work (MSW) Program, applicants must meet the following minimum requirements:

1. Possession of a bachelor's degree or recognized equivalent from an accredited institution. NOTE: Individuals who have earned an undergraduate degree in social work from a CSWE-accredited program can apply for the

MSW program with advanced standing status. The undergraduate social work degree must have been granted no more than five years prior the student's first semester in the WSU MSW program.

2. A satisfactory scholastic average, generally a minimum grade-point average of B or better (3.0 on a 4-point scale) in all coursework after the first two years (typically the first 60 semester units or 90 quarter units) of undergraduate study.
3. Significant undergraduate exposure to study in the social sciences. As a minimum this includes at least nine (9) semester credit hours of coursework in the social sciences, such as anthropology, criminal justice, political science, psychology, and sociology (courses in other disciplines a student believes are relevant may be approved by review of course syllabi).
4. A course in introductory statistics, research methods, or quantitative reasoning. This requirement must be satisfied prior to matriculation if you are offered admission.
5. Candidates for advanced standing must also have a course in mental health diagnostics.
6. The following courses are strongly recommended: Introduction to Psychology; Introduction to Sociology; Human Biology or any biology course covering anatomy and physiology that emphasizes the impact of organic, chemical, and body systems impairments on human behavior (NOT Introduction to Biology); social science courses that examine a macro context (e.g., Introduction to Political Science, Introduction to Economics, Introduction to Anthropology, etc.).

WSU Master of Social Work (MSW) Admissions Requirements

Application for admission to the Weber State University Master of Social Work (MSW) Program involves submission of the following:

1. The WSU MSW Program application form.
2. A \$30.00 application fee (non-refundable).
3. Official transcripts from all undergraduate institutions attended. Electronic transcripts from a college or university records office are acceptable. Official transcripts in hard copy can be mailed to the ATTN: MSW Admissions, Department of Social Work and Gerontology, Weber State University 1299 Edvalson Street, Ogden, UT, 84408.
4. A resume that outlines the student's employment history, specifically highlighting social work-related experience.
5. An original statement of purpose (three to four double-spaced pages in length, with one-inch margins, and 12-point Times New Roman font). This should include
 - A description of your understanding of the social work profession and its core values. How have you incorporated social work values in your human service experiences and interactions with others? What significant relationships and life experiences have you had in giving or receiving help that have motivated you to enter the field of social work? What personal qualities equip you for the social work profession? Discuss your experiences and feelings about working with populations different from your own.
 - A description of your areas of interest in social work practice, why you have this area of interest, what social problem(s) you expect to address with an MSW, and how the MSW will facilitate change in this or these areas.
 - A discussion of what you expect to be doing in five years and 10 years.
 - An explanation of why the WSU MSW Program is a good fit for your goals.
6. A minimum of three recommendations from academic instructors and/or professional colleagues who have supervised you in a social work-related position (paid, volunteer, or internship). Personal recommendations are not acceptable (i.e., recommendations from friends, family members, or religious leaders).

Grade Requirements

To receive a Master of Social Work (MSW) degree, the student must complete all course in the MSW program, including leveling and/or bridge courses (if applicable) with a grade of "C" or higher, and maintain an overall GPA of 3.0 or higher.

Program Learning Outcomes

- Competency 1: Demonstrate ethical and professional behavior;
- Competency 2: Engage diversity and difference in practice;
- Competency 3: Advance human rights and social, economic, and environmental justice;
- Competency 4: Engage in practice-informed research and research-informed practice;
- Competency 5: Engage in policy practice;
- Competency 6: Engage with individuals, families, groups, organizations, and communities;
- Competency 7: Assess individuals, families, groups, organizations, and communities;
- Competency 8: Intervene with individuals, families, groups, organizations, and communities;
- Competency 9: Evaluate practice with individuals, families, groups, organizations, and communities.

Required Summer Bridge Courses (6 credits)

- MSW 6300 - Ethics, Ethical Practice, Ethical Decision-Making **Credits: (3)**
- MSW 6910 - Clinical Practice II: Vulnerable and At-Risk Populations **Credits: (3)**

Required Core Courses (15 credits)

- MSW 6400 - Macro Aspects of Clinical Practice **Credits: (3)**
- MSW 6600 - Research I: Research Informed Practice **Credits: (3)**
- MSW 6700 - Research II: Practice-Informed Research **Credits: (3)**
- MSW 6930 - Clinical Practice III: Evidence-Based Practice **Credits: (3)**
- MSW 6940 - Clinical Practice IV: Group Work **Credits: (3)**

Required Field Courses (6 credits)

- MSW 6860 - Advanced Field I **Credits: (3)**
- MSW 6861 - Advanced Field II **Credits: (3)**

Electives (9 credits)

Select from the following courses:

- EDUC 6020 - Promoting Success for K-12 Learners **Credits: (2)**
- GSE 6030 - Applied Learning Theory **Credits: (3)**
- GSE 6100 - Educational Leadership and Management **Credits: (3)**
- GSE 6140 - Adolescent Development **Credits: (2)**
- GSE 6302 - Advanced Family Theories **Credits: (3)**
- GSE 6303 - Diverse Family Contexts **Credits: (3)**
- GSE 6306 - Parenting Education **Credits: (3)**
- MHA 6000 - Health Systems & the Healthcare Economy **Credits: (3)**
- MHA 6100 - Leading & Managing People in Healthcare **Credits: (3)**
- MHA 6320 - Health Policy and Economics **Credits: (3)**
NOTE: It is strongly recommended that MSW students take MHA 6000 or MHA 6100 prior to enrolling in this course.
- MHA 6350 - Decision Making for Healthcare Leaders **Credits: (3)**
NOTE: It is strongly recommended that MSW students take MHA 6000 or MHA 6100 prior to enrolling in this course.
- MHA 6440 - Health Ethics and Law **Credits: (3)**
- MSW 6235 - Loss Across the Lifespan **Credits: (3)**
- MSW 6245 - Aging Services **Credits: (3)**
- MSW 6255 - Sexuality in Social Work Practice **Credits: (3)**
- MSW 6265 - Crisis Intervention and Trauma **Credits: (3)**
- MSW 6275 - Harm Reduction in Practice **Credits: (3)**
- MSW 6285 - Dialectical Behavior Therapy **Credits: (3)**
- MSW 6850 - Graduate Social Work Study Abroad **Credits: (1-4)**

Military Science (Army ROTC)

Chair: Lieutenant Colonel Angelique A. Pifer

Location: Annex 11/Mail Code 4501

Telephone Contact: Jane Michels, 801-626-6518; Fax 801-626-7651

Military Science (Army ROTC) focuses on leadership development. Students pursue the major of their choice while studying Military Science, and graduate with the ability to function effectively as leaders. Upon completion of Army ROTC and graduation from college students become commissioned officers in the active Army, Army Reserve or National Guard.

Instructors, uniforms and equipment are provided at no cost to the student or the University. All contracted students receive \$300- \$500 per month (\$3,000-\$5,000 per academic year). Army ROTC also covers the cost of tuition and fees for Army ROTC scholarship students and provides a book allowance of \$1,200 per academic year.

The Margin of Difference. Army ROTC cadets learn to be leaders and receive hands-on experience in managing physical, financial, and human resources. They develop self-confidence and superior decision-making skills. Employers value these leadership qualities and recognize associated potential.

Four-Year Program. The traditional Army ROTC program covers four years consistent with normal undergraduate progression (freshman-senior). The four-year program is divided into two parts called the basic course and the advanced course. The basic course is usually taken during the first two years of college. It covers subjects such as land navigation, leadership development, small unit tactics, weapons marksmanship and military history. This program is designed for high performing students who wish to try Military Science without obligation, while enhancing their leadership skills and self-confidence. Upon successful completion of the basic course, students are eligible to enter the advanced course.

Advanced course requirements are normally completed during the junior and senior years. The advanced course further develops and refines leadership competencies, and qualifies the student for a commission in the United States Army. Advanced course students receive a \$450 (Junior year) - \$500 (Senior year) per month tax-free subsistence allowance [\$4,500 (Junior year) - \$5,000 (Senior year) per year].

Two-Year Program. This is a special program for junior and community college transfers or students who did not take Army ROTC during their first two years of college. To enter the two year program, a student first participates in a four-week leadership training course. This usually takes place between the sophomore and junior year. Students are paid for attending this instruction, have the opportunity to compete for two-year scholarships, and may receive academic credit.

Scholarships. Army ROTC provides numerous scholarship opportunities. All WSU contracted cadets receive some form of financial assistance, which can include up to 100% tuition, fees, books and other costs paid. High school seniors may qualify for the four-year Army ROTC scholarship. College students may qualify for four, three, or two-year scholarships. Students may choose from two different options. The first option pays the cost of tuition and fees and a flat rate for textbooks and classroom supplies. The second option pays the students up to \$10,000 for housing and the same flat rate for textbooks and classroom supplies. The Green to Gold scholarship allows Soldiers serving on active duty to leave the Army early and attend college/ROTC full-time while receiving scholarship benefits. Other scholarship opportunities include: room and book grants and the Western Undergraduate Exchange (WUE) program. Nursing students qualify for additional incentives. Call or visit the Department of Military Science for details.

Placement Credit For Veterans. Veterans may qualify for advanced course placement based on prior military experience. Concurrently, they can take full advantage of veteran's benefits and receive financial aid for Army ROTC participation.

Simultaneous Membership Program (SMP). This program is available to cadets who wish to serve in the Army Reserve or National Guard while attending college and pursuing a commission through Army ROTC. SMP students are eligible to receive Reserve drill pay, tuition assistance, other monetary incentives, and \$350-\$500 per month (\$3,000-\$5,000 per academic year) from Army ROTC. Call or visit the Department of Military Science for details.

Leave of Absence. Students, including scholarship recipients, who wish to take a leave of absence to serve a mission for their church can do so conveniently before the start of the Junior year.

Commission Requirements. In order to qualify for a commission as a Second Lieutenant in the United States Army, each student must:

1. Complete all required Military Science instruction while attending college as a full-time student, and obtain a baccalaureate or higher degree prior to age 31 (age waiver possible for qualified students).
2. Meet medical and physical fitness standards.
3. Be a U.S. citizen.
4. Successfully complete the Leadership Development and Assessment Course.
5. Be recommended by the Professor of Military Science.

Service Obligation. There is no military service obligation for basic course students, unless on scholarship.

Advanced course and scholarship (contracted) students incur an obligation to serve in the active Army, Army Reserve or National Guard.

Minor

Military Science Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Foundational Courses:** In order to enroll in courses leading to the Military Science minor, students should complete MILS 1010, MILS 1020, MILS 2010, MILS 2020 and MILS 2400. The department may award experiential credit for these courses for: prior military service, Advanced Individual Training (AIT), Leader's Training Course (LTC) or Accelerated Cadet Commissioning Training (ACCT).
- **Grade Requirements:** Obtain a grade of "C" or better in all courses used toward the minor, and a cumulative GPA of 2.5 for Military Science courses.
- **Credit Hour Requirements:** A minimum of 21 hours in Military Science courses as outlined below.
- **Program Code:** 7010
- **CIPC:** 280599

Required Courses (21 credit hours)

- MILS 3010 - Adaptive Team Leadership **Credits: (4)**
- MILS 3020 - Leadership in Changing Environments **Credits: (4)**
- MILS 4010 - Mission Command and the Army Profession, Part 1 **Credits: (4)**
- MILS 4020 - Mission Command and the Army Profession, Part 2 **Credits: (4)**
- MILS 4400 - Advanced Physical Readiness **Credits: (2)**
- MILS 3000 - Leadership in Military History **Credits: (3)** or
- HIST 3280 GLB - American Military History from 1500 to 1890 **Credits: (3)** or
- HIST 3290 GLB - American Military History from 1890 to the Present **Credits: (3)**

Post Baccalaureate Certificate in Teaching

Post Baccalaureate Certificate

Elementary Teaching Post Baccalaureate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

- **Program Code:** 5042PBC
- **CIPC:** 131202

GPA Requirements

Following admission to the PBCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements

The 33 credit hour program of study consists of:

- 25 hour credits hours in specific coursework.
- Practicum is a 2 credit hour which requires 60 clock hours in an elementary classroom.
- Student teaching is a 6 credit hour which requires 60 full teaching days in elementary classrooms.

Required Courses

- EDUC 6020 - Promoting Success for K-12 Learners **Credits: (2)**
- EDUC 6050 - Curriculum Design, Evaluation & Assessment **Credits: (3)**
- EDUC 6110 - Introduction to Classroom Management **Credits: (3)**
- EDUC 6229 - Instructional Technology for Pre-service Teachers **Credits: (2)**
- EDUC 6265 - Foundations of Inclusive Teaching **Credits: (2)**
- EDUC 6311 - Content Instruction in the Elementary School: Science **Credits: (2)**
- EDUC 6312 - Content Instruction in the Elementary School: Mathematics **Credits: (2)**
- EDUC 6313 - Content Instruction in the Elementary School: Social Studies **Credits: (2)**
- EDUC 6314 - Reading Instruction in Elementary Schools **Credits: (3)**
- EDUC 6316 - Language Arts Instruction in Elementary Schools **Credits: (2)**
- EDUC 6317 - Arts Integration for Elementary Teachers **Credits: (2)**
- EDUC 6860 INT - Practicum in Education **Credits: (2)** (2 credit hours required)
- EDUC 6870 INT - Student Teaching and Seminar in Elementary Education **Credits: (6)** (6 credit hours required)

Secondary Teaching Post Baccalaureate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

- **Program Code:** 5043PBC
- **CIPC:** 131205

GPA Requirements

Following admission to the PBCT program, students must maintain a 3.0 cumulative grade point average. Students must earn at least a B- in all licensure classes.

Course Requirements

The program of study consists of:

- 17 credit hours in specific coursework.
- Practicum is a 2 credit hour "course" which requires 60 clock hours in a secondary, subject-specific classroom.
- Student teaching is a 6 credit hour "course" which requires a minimum of 60 full teaching days in a secondary, subject-specific classroom.

Required Courses

- EDUC 6020 - Promoting Success for K-12 Learners **Credits: (2)**
- EDUC 6050 - Curriculum Design, Evaluation & Assessment **Credits: (3)**
- EDUC 6060 - Instructional Strategies **Credits: (2)**
- EDUC 6110 - Introduction to Classroom Management **Credits: (3)**
- EDUC 6229 - Instructional Technology for Pre-service Teachers **Credits: (2)**
- EDUC 6265 - Foundations of Inclusive Teaching **Credits: (2)**
- EDUC 6320 - Content Area Literacy Instruction **Credits: (3)**
- EDUC 6860 INT - Practicum in Education **Credits: (2)** (*2 credit hours required*)
- EDUC 6880 INT - Student Teaching and Seminar in Secondary Education **Credits: (6)** (*6 credit hours required*)

Some additional courses may be required for endorsement area.

Special Education Teaching Post Baccalaureate Certificate

Teacher licensure program for individuals who have already completed a bachelor's degree from an accredited college or university.

- **Program Code:** 5045PBC
- **CIPC:** 131001

Required Courses

- EDUC 6515 - Foundations in Special Education: Law and Practice **Credits: (3)**
- EDUC 6530 - Principles and Applications of Special Education Assessment **Credits: (3)**
- EDUC 6540 - Advanced Managing Student Behavior **Credits: (3)**
- EDUC 6580 - Advanced Learning Strategies and Transition for Special Education Students **Credits: (3)**
- EDUC 6565 - Advanced Instructional Methods and Practices: English Language Arts **Credits: (3)** concurrently with
- EDUC 6860 INT - Practicum in Education **Credits: (2)**
- EDUC 6575 - Advanced Instructional Methods and Practices: Mathematics **Credits: (3)** concurrently with
- EDUC 6860 INT - Practicum in Education **(2)**

- EDUC 6890 INT - Student Teaching and Seminar in Special Education **Credits: (6)**
- EDUC 6500 - Curriculum Planning and Evaluation for Special Education Students **Credits: (3)**
- EDUC 6529 - Assistive Technology **Credits: (2)**

Naval Science

Weber State provides a program in Naval Science (Navy and Marines Corps) through an inter-campus agreement with the University of Utah. Students may minor in Naval Science by satisfying requirements identified.

For information on this program contact the College of Social & Behavioral Sciences at 801-626-6232

Goals:

1. To help educate midshipmen in a major field of interest to the Navy or Marine Corps leading to a baccalaureate degree.
2. To provide midshipmen with fundamental concepts and principles of naval science and with the professional naval knowledge necessary to establish a sound basis for future growth as a Naval or Marine Corps officer.
3. To prepare midshipmen for service with the highest sense of honor and integrity as commissioned officers, to cultivate the essential elements of military leadership, and to foster the growth of a strong sense of loyalty and dedication to the service and the nation.
4. To prepare midshipmen to continue their education in a field of interest to naval science later in their careers.
5. To instill the values of civilian higher education into the naval service by utilizing the expertise of civilian faculty instruction.

Cross-town Enrollment Agreement

Weber State and the University of Utah have entered a Crosstown Enrollment Agreement effective Autumn Quarter, 1982. Interested Weber State students may attend for credit at the University of Utah Naval Science courses leading to active duty commission in the United States Navy or Marine Corps upon graduation.

Four-Year Scholarship Program

A four-year, government sponsored educational program to attract young men and women to a career as commissioned officers in the United States Navy or Marine Corps. Admission is obtained through national competition. The optimum time for application is during the fall school period in the senior year of high school. The program is open, however, to Weber State students who are freshmen or sophomores so long as they are within the age limitations.

The Navy provides uniforms and textbooks, pays tuition and fees, and provides a \$100.00 per month retainer pay for a period not to exceed four years. Students requiring more than four years to earn their degree are granted a leave of absence, equivalent to the excess over four years. Students in approved engineering majors may receive up to five (5) years of benefits. Upon completion of the Naval Science curriculum and the awarding of a college degree, the graduate is commissioned in the Regular Navy or Marine Corps and serves on active duty for a period of not less than four years.

Two-Year Scholarship Program

Similar to the program above, but only two years in length. The benefits (tuition, books, fees and \$100 per month) are the same, as is the four-year commitment upon graduation. Freshman/sophomore curriculum in Naval Science is taught in condensed form at Newport, Rhode Island, during the summer prior to the junior year.

Application for the two-year scholarship must be made by April of the sophomore year. Selection is on a national scale. Applicants must have completed at least two semesters of calculus and at least one semester of physics by the end of the sophomore year. You may apply at the Naval Science Department or at the Navy Recruiting Office.

NROTC College Program

NROTC College Program is a program which leads to a commission in the U.S. Naval Reserve or Marine Corps Reserve. Admission is obtained through application at the University Department of Naval Science. Selection is made on the basis of the predicted grade point average and an interview with two or more assistant professors in the Department of Naval Science. Final acceptance is contingent on meeting the mental, physical, and aptitude requirements.

NROTC College Program students are supplied with uniforms and Naval Science textbooks. They must pay their own tuition, fees and other educational expenses. On entering the upper division level (junior and senior years), they receive a \$100.00 per month retainer pay for a period not to exceed two years. On completion of the Naval Science curriculum which is identical to that for the NROTC Scholarship Program, and receipt of a college degree, the NROTC College Program graduate is commissioned in the Naval Reserve or Marine Corps Reserve and serves on active duty for a period of not less than three years.

Two-Year NROTC College Program

Students who are going to enter their junior year or the last two years of a five-year academic program leading to a BS/BA degree may apply for the Two-Year College Program during the winter before their junior year. Applicants must successfully complete a physical examination, have at least a C average, and have completed or agreed to complete course work in mathematics and science. The Two-Year College program midshipman attend a six week Naval Science institute prior to their junior year. They receive Naval Science books and uniforms, and \$100.00 a month during the junior and senior years. The program is identical with the College Program during the last two years. The Two-Year College Program midshipman serves a minimum of three-years on active duty upon graduation and commissioning.

Marine Option

A special upper division curriculum in the Department of Naval Science for NROTC students desiring a commission in the Marine Corps. The Marine Option is available to a limited number of applicants. See course listing for description of courses in Marine Option curriculum.

LDS Missions

Subject to approval by the Chief of Naval Personnel, NROTC students may be granted a two-year leave of absence to serve on a church mission.

Supplemental Workshops

One or two per year treating subjects of current interest, e.g., topics of Defense Management, International Security, Maritime Strategy, Ocean Resources/Exploration and the like.

Summer Training

NROTC Scholarship Program students are required to participate in three summer training periods termed "summer cruises." The periods are normally of eight weeks duration and are taken during the summer following the freshmen, sophomore and junior years, respectively. NROTC College Program students are required to participate in one summer training period of 6-8 weeks duration. The "cruise" occurs at the end of the junior year. Marine option

students are required to complete Officer Candidate School (Bulldog) training in summer between Junior and Senior year.

Minor

Naval Science Minor

- **Mission:** The Navy ROTC Program was established to develop midshipmen mentally, morally, and physically; to imbue them with the highest ideals of duty, loyalty, and with the core values of honor, courage, and commitment in order to commission college graduates as naval officers who possess a basic professional background, are motivated toward careers in the naval service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship and government.
- **Program Prerequisites:** Students must be enrolled in a program leading to a Bachelor's degree at Weber State University. Students must also be enrolled in the NROTC program with the Navy Detachment at the University of Utah. (<https://nrotc.utah.edu/>)
- **Grade Requirements:** There are no course grade requirements, however there are term GPA requirements to remain in good standing with NROTC program (see the current NROTC Battalion Handbook for GPA minimums).
- **Credit Hour Requirements:** A total of 23 credit hours is required for the Navy Option; or 17 credit hours is required for the Marine Option.
- **Program Code:** 7059
- **CIPC:** 280401

Advising

Students wishing to take NAVS courses must be enrolled in the NROTC program at the University of Utah. Student should speak with an academic advisor in the Division of Online & Continuing Education at Weber State University to demonstrate their enrollment in the program and receive the appropriate cohort tag in their program of study to be able to register for NAVS courses.

Completion of the minor program requires enrollment in the NROTC program through the Naval Detachment at the University of Utah. NROTC program enrollment leads to commissioning in the US Navy or Marine Corps. Students interested in completing this program should contact the Executive Secretary at the University of Utah Department of Naval Science (nrotc@navsci.utah.edu or <https://nrotc.utah.edu/>).

Program Requirements

In addition to the course requirements, students are expected to maintain the academic and programmatic standards as part of NROTC program enlistment. These standards are listed in the NROTC Battalion Handbook, found at the University of Utah NROTC website (<https://nrotc.utah.edu/>). These requirements include, but are not limited to:

- Attendance in lab sections each week during the Fall and Spring semesters associated with courses.
- Term GPA requirements
- Mandatory training cruises lasting 2-6 weeks during the summer
- Dress and grooming standards including wearing of uniforms
- Standards of personal conduct
- Physical fitness requirements

Course Requirements for Minor

Complete one of the following options listed below:

Navy Option (23 credit hours)

- NAVS 1010 - Introduction to Naval Science **Credits: (2)**
- NAVS 1020 - Seapower and Maritime Affairs **Credits: (3)**
- NAVS 2000 - Leadership and Management **Credits: (3)**
- NAVS 2020 - Naval Ship Systems II: Naval Engineering **Credits: (3)**
- NAVS 3010 - Navigation **Credits: (3)**
- NAVS 3020 - Naval Operations and Navigation II **Credits: (3)**
- NAVS 4000 - Naval Ship Systems I: Weapons **Credits: (3)**
- NAVS 4020 - Leadership and Ethics **Credits: (3)**

Marine Option (17 credit hours)

- NAVS 1010 - Introduction to Naval Science **Credits: (2)**
- NAVS 1020 - Seapower and Maritime Affairs **Credits: (3)**
- NAVS 2000 - Leadership and Management **Credits: (3)**
- NAVS 2110 - Evolution of Warfare **Credits: (3)**
- NAVS 3110 - Fundamentals of Maneuver Warfare **Credits: (3)**
- NAVS 4020 - Leadership and Ethics **Credits: (3)**

College of Social & Behavioral Sciences Interdisciplinary Programs

Associate of Science

Social & Behavioral Science (AS)

- **Program Prerequisite:** No special admission or application requirements are needed for this program.
- **Minor:** Not required
- **Grade Requirements:** A grade of "C" or better is required to fulfill the Major Course Requirements. A minimum WSU GPA of 2.00 is required.
- **Credit Hour Requirements:** A minimum of 60 total credit hours are required, including all General Education requirements and at least 22 credit hours from the Major Course Requirements for AS Degree. Students should complete elective courses outside of the program requirements to meet the 60-credit hour minimum.
- **Program Code:** 7064AS
- **CIPC:** 45.0101

Advisement

All Social & Behavioral Sciences (SBS) students are required to meet with a CSBS Advisor during their first semester in the program. Advising appointments can be arranged through www.weber.edu/socialscience.

Admission Requirements

No special admission or application requirements are needed for this program. Declare your Program of Study using the Program of Study app in the Wildcat Portal, and make an appointment with one of the College of Social & Behavioral Science Advisors.

General Education Breadth Requirements

Student may not duplicate department for General Education Breadth requirements (courses with HU, CA, SS, PS, LS designations). Courses taken as part of the Discipline Tracks may count for one (1) Breadth requirement at most. Courses in other departments must be taken to complete any remaining Breadth requirements. The CSBS Advisors can answer questions about General Education requirements.

Program Learning Outcomes

1. Identify how disciplines are connected using the lens of social and behavioral sciences methods and skills.
2. Compare the themes and theories used by SBS disciplines to study the realm of people, politics and society.
3. Describe how your SBS courses influenced your continuing education pathway and desired career choice.
4. Create an academic plan to achieve the desired educational credentials.

Major Course Requirements

Complete one (1) of the SBS Intro Courses OPTIONS, three (3) of the SBS Discipline TRACKS, and the SBS Capstone Course.

SBS Intro Courses (3-4 credit hours)

Complete one (1) of the following OPTIONS:

OPTION 1

- SBS 1050 - Introduction to Social & Behavioral Sciences Bridge **Credits: (3)**

OPTION 2

- SBS 1100 - Introduction to Social & Behavioral Sciences **Credits: (1)**
- FYE 1105 - Foundations of College Success **Credits: (3)**

Discipline Track Courses (18 credit hours)

Complete three (3) of the SBS Discipline TRACKS. Each TRACK is 2-3 courses.

Anthropology Track (6 hours)

- ANTH 1000 SS/CC - Introduction to Anthropology **Credits: (3)**
- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)** Or
- ANTH 1040 HU/CC - Language and Culture **Credits: (3)** Or
- ANTH 2010 SS/CC - Peoples and Cultures of the World **Credits: (3)** Or

- ANTH 2030 SS/CC - Principles of Archaeology **Credits: (3)**

Criminal Justice Track (6 hours)

- CJ 1010 SS - Introduction to Criminal Justice **Credits: (3)**
- CJ 1300 - Corrections: History, Theory and Practice **Credits: (3)** Or
- CJ 1330 - Criminal Law and Courts **Credits: (3)** Or
- CJ 2300 - Policing: History, Theory and Practice **Credits: (3)**

Geography Track (6 hours)

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEOG 1300 SS/SUS/CC - Exploring Global Geography: Places, People and the Planet **Credits: (3)** Or
- GEOG 1500 PS SUS - Climate Change: Science, Society and Solutions **Credits: (3)** Or
- GEOG 1520 SS/CC/SUS - United States and Canada: Geography, Diversity and Change **Credits: (3)**

History Track (6 hours)

- HIST 1600 AI/CC - The Black Experience **Credits: (3)** Or
- HIST 1610 AI - The Latinx Experience **Credits: (3)** Or
- HIST 1620 AI/CC - The LGBTQ Experience **Credits: (3)** Or
- HIST 1700 AI - American History **Credits: (3)**
- HIST 1500 SS/CC/GLB - World History to 1500 C.E. **Credits: (3)** Or
- HIST 1510 SS/CC/GLB - World History from 1500 C.E. to the Present **Credits: (3)**

Philosophy Track (6 hours)

- PHIL 1000 HU/CC - Introduction to Philosophy **Credits: (3)**
- PHIL 2050 HU - Practical Ethics **Credits: (3)** Or
- PHIL 1250 HU - Critical Thinking **Credits: (3)** Or
- PHIL 2200 - Deductive Logic **Credits: (3)**

Political Science Track (6 hours)

- POLS 1010 SS/CC - Politics, Power, and the State **Credits: (3)**
- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)** Or
- POLS 2200 SS GLB - Global Governments, Politics, and Societies **Credits: (3)** Or
- POLS 2300 SS - Introduction to Political Theory **Credits: (3)** Or
- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)** Or
- POLS 2700 - Introduction to Public Administration **Credits: (3)**

Psychology Track (6 hours)

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- PSY 2000 SS/CC - The Psychology of Human Relationships **Credits: (3)** Or
- PSY 2010 - Science and Profession of Psychology **Credits: (3)** Or
- PSY 2710 - Biopsychology **Credits: (3)**

Sociology Track (6 hours)

- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)** Or

- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)** Or
- SOC 2400 SS/CC - Introduction to Ethnic Studies **Credits: (3)** Or
- SOC 2600 - Families in Society **Credits: (3)**

Social Work Track (6 hours)

- SW 1010 SS CEL - Introduction to Generalist Social Work **Credits: (3)**
- SW 2100 SS - Human Behavior and the Social Environment I **Credits: (3)** Or
- SW 2200 SS/CC - Issues in Diversity **Credits: (3)**

SBS Capstone Course (1 credit hour)

Complete the following course.

- SBS 2950 - SBS Capstone: A Current Events View **Credits: (1)**

Minor

Queer Studies Minor/BIS

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisites:** A student's program of study for the Queer Studies Minor must be approved by the Queer Studies Coordinator.
- **Grade Requirements:** A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements:** A total of 18 credit hours is required for this minor, 9 credits from core courses and 9 from electives.
- **Program Code:** 7054
- **CIPC:** 050299

Queer Studies (QS) is a minor program, and Bachelor of Integrated Studies area of emphasis, which offers interdisciplinary, scholarly perspectives on the formation of sexuality and gender identity. Instead of conceptualizing these topics as unchangeable and only biologically driven, QS approaches these topics as they relate to the social construction of and their critical intersections with other relations of power such as race, ethnicity, class, nationality, religion, and age.

Faculty and students address questions within the context of a transnational world and from different disciplines, such as, but not limited to, history, literature, sociology, communication, psychology, social work, political science, and cultural studies.

Advisement

Use Grad MAPs to plan your degree

Core Courses (9 credit hours)

- WGS 1500 SS/CC - Introduction to Women, Gender, and Queer Studies **Credits: (3)**

- QS 3050 - Queer Theories **Credits: (3)**
- QS 4150 - Research Methods in Queer Studies **Credits: (3)** or
- QS 4860 - Internship in Queer Studies **Credits: (3)**

Elective Courses (9 credit hours)

- FAM 3660 - LGBTQ Families **Credits: (3)**
- HIST 1620 AI/CC - The LGBTQ Experience **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- NEUR 4949 - The Neuroscience of Sex, Romance, and Gender **Credits: (3)**
- POLS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- POLS 3400 - LGBTQ Politics **Credits: (3)**
- QS 2900 - Topics in Queer Studies **Credits: (3)**
- QS 3100 - LGBTQ America Since 1945 **Credits: (3)**
- QS 4830 - Directed Readings **Credits: (1-3)**
- QS 4900 - Topics in Queer Studies **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)**

If other courses relating specifically to Queer Studies, either of an experimental or permanent nature, are added to the curriculum, these courses will be accepted as electives for the QS Minor Program.

Women & Gender Studies Minor/BIS

This program has been suspended pending formal discontinuance and is no longer accepting new students.

Coordinator: Dr. Melina Alexander

Location: Lindquist Hall Room 336

Telephone Contact: Roe Schoof 801-626-7627

Women & Gender Studies is a minor program, and Bachelor of Integrated Studies area of emphasis, which offers interdisciplinary, scholarly perspectives on the formation of gender and its critical intersections with other relations of power such as sexuality, race, ethnicity, class, nationality, religion, and age.

Faculty and students address questions within the context of a transnational world and from different disciplines, such as, but not limited to, history, literature, sociology, communication, psychology, criminal justice, social work, political sciences, and cultural studies.

- **Program Prerequisite:** A student's program of study for the Women & Gender Studies Minor must be approved by the Women & Gender Studies Coordinator.
- **Grade Requirements:** A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements:** A total of 18 credit hours is required for this minor, 12 credits from core courses and 6 from electives.
- **Program Code:** 7048
- **CIPC:** 050207

Program Learning Outcomes

- Students will demonstrate knowledge of foundational and contemporary research and theoretical literature in the field of Women and Gender Studies.
 - Read, understand, and evaluate feminist theories and scholarship.
 - Identify, compare, and evaluate culturally and historically specific constructions of gender.
 - Articulate the ways in which systems of power, privilege, and oppression shape our experiences as individuals and members of communities.
- Students will apply their knowledge of women and gender studies.
 - Apply knowledge of women and gender studies by analyzing current social and political situations from those perspectives.

Course Requirements for Minor

Women and Gender Studies Courses Required (12 credit hours)

- WGS 1500 SS/CC - Introduction to Women, Gender, and Queer Studies **Credits: (3)**
- WGS 2500 SS/CC/GLB - Human Rights in the World **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**
- WGS 4150 - Research Methodologies **Credits: (3)** or
- WGS 4250 INT - Community-Based Research/Internship **Credits: (3)**

Electives (6 credit hours)

A total of 6 credit hours of electives chosen in consultation with the Women and Gender Studies Coordinator. Electives may include up to 3 credit hours of Directed Readings.

- COMM 3090 - Gender and Communication **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**
- GERT 3320 - Ethnicity and Older Women in the American Society **Credits: (3)**
- WGS 2000 - Risk, Resilience and Rock Climbing **Credits: (3)**
- HIST 3070 - Women in American History: 1600 to Present **Credits: (3)**
- PSY 2370 - Psychology of Women and Gender **Credits: (3)**
- PSY 3100 - Psychology of Diversity **Credits: (3)**
- WGS 4170 GLB - Gender, Power, and Global Politics **Credits: (3)**
- SOC 2370 - Gender and Society **Credits: (3)**
- WGS 2900 - Topics in Women's Studies **Credits: (1-3)** or
- WGS 4900 - Topics in Women's Studies **Credits: (1-3)**
- WGS 4830 - Directed Readings **Credits: (1-3)**

Note:

Should other courses relating specifically to Women or Gender Studies, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as electives for the Women and Gender Studies Minor Program.

Dumke College of Health Professions

Dr. Yasmen Simonian, Dean

The Weber State University Dr. Ezekiel R. Dumke College of Health Professions, in cooperation with affiliated clinical facilities and other departments on the campus, offers an expanding program for the education and training of health care professionals. The programs emphasize an integration of the sciences, discipline-specific skills and knowledge, clinical experiences, and liberal arts which enable the graduate to make a maximum contribution to patient care as a member of the health care team.

All of the health and medical science education programs in the Dumke College of Health Professions share a common core curriculum. Students have the unique opportunity to meet and work together in their semesters of study, learning to apply the biomedical sciences and foster the team concept of health care to patient needs.

Associate Dean: Dr. Ken Johnson

Location: Marriott Allied Health Bldg., Suite 401

Telephone Contact: Ann Gessel, 801-626-7117

Admissions and Advisement: 801-626-6128

Department Chairs

Athletic Training: Dr. Valerie Herzog	801-626-7656
Dental Hygiene: Frances McConaughy	801-626-6829
Emergency Healthcare: Dr. William Robertson	801-626-8705
Health Sciences: Dr. Travis Price	801-626-6505
Health Administrative Services: Dr. Darcy Carter	801-626-7242
Medical Laboratory Sciences: Dr. Matthew Nicholaou	801-626-6118
School of Nursing: Dr. Rieneke Holman	801-626-6134
Radiologic Sciences: Dr. Tanya Nolan	801-626-8172
Respiratory Therapy: Dr. Mich Oki	801-626-7071

Certifications are offered in Medical Laboratory Assistant, Diagnostic Medical Sonography, Emergency Medical Technician, Nuclear Medicine, Athletic Training, Radiation Therapy and Radiologic Sciences (including emphases listed under Advanced Radiography and other Emphases program.)

Program History

Founded in 1953, nursing at Weber State University offers students career progression from Associate RN Degree to Associate of Science (PN to RN) or Associate of Applied Science Degree Nursing (AAS) (PN to RN), to Baccalaureate Nursing (BSN), to Master of Science in Nursing via a ladder curriculum. The curriculum model enables student

progression through various preparation levels in accordance with individual ability, aspirations, career goals and changing life circumstances. The program ensures entry level practitioners by providing a foundation from the physical, biological, behavioral and nursing sciences for application in caring for clients in a variety of nursing environments.

The nursing program embraces three levels of preparation for nursing practice: Associate's Degree Nursing (ADN), RN to BSN (BS), and Master of Science in Nursing (MSN). Educational offerings provide distinctive purposes and expectations for each level of nursing preparation while recognizing common areas of achievement within each level. Competency standards define graduate characteristics at each preparation level.

Four entry options are available for students. Two of these lead to licensure by examination at AS/AAS levels. The third option leads to a baccalaureate degree in nursing. The fourth option leads to a master of science in nursing with either a concentration in nursing administration or nursing education.

Entry Options

Registered Nurse (RN) [AS]: Two years are required for students entering this option. Students selecting this option must complete nursing major credits plus fulfill university general education credits required for graduation with an associate of science degree. Students selected for an associate of science degree in nursing may take the NCLEX-PN through the equivalency clause in the Utah Nurse Practice Act at completion of the first year. An additional year of course work entitles graduates to take the National Examination for licensure as a registered nurse.

PN to RN Program (RN Completion) [AS/AAS]: This entry option is open to PN's and those eligible to take the NCLEX-PN. Students selecting this option must complete one additional year of nursing major credits plus fulfill university general education credits required for graduation with an associate of applied science / associate of science degree.

Registered Nurse to BSN (RN-to-BSN) [BS]: The BSN Option is available to registered nurses who have completed an AS degree in nursing. Potential students must have an active unencumbered Utah license or plan to successfully pass the NCLEX-RN exam within the first semester of the BSN program.

Previous graduates of an AAS degree will need to complete the WSU general education requirements for the AS Degree prior to requesting admission to the RN to BSN program.

Admission is dependent upon program space availability.

Master of Science in Nursing (MSN): The MSN program is designed to prepare 1) nurse administrators, 2) college-level nursing faculty, and 3) nurse educators employed within healthcare institutions. The concentrations of nursing educator and nurse administrator will prepare students for advanced careers in nursing. Both concentrations are specifically intended for individuals with nursing experience who want to advance their careers as nurse administrators or college faculty.

Please refer to Master of Science in Nursing (MSN) for requirements.

Licensure

Applicants who have been convicted of a felony, treated for serious mental illness or substance abuse should discuss their eligibility status with the Utah State Board of Nursing. Acceptance to the nursing program does not assure eligibility for a RN license. The Utah Board of Nursing makes final decisions on issuance of professional licensure.

Accreditation

The School of Nursing programs (AAS/AS, BSN, and MSN) are accredited by:

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326
P. 404.975.5000
F. 404.975.5020
www.acenursing.org

Admission Process For Entry Options

Admission is competitive; therefore, the listed criteria for admission should be considered as minimum standards.

Associate of Science Degree Nursing (RN)

DCHP Admission Office (801) 626-6136

Applicants for admission must first apply for admission to Weber State University. Applicants must also apply for admission to the Associate of Science Degree Nursing program. Dr. Ezekiel R. Dumke College of Health Professions Admissions Advisement Office in the Marriott Allied Heath Building (MAH108B) or complete application information and forms are available on the School of Nursing website at <http://weber.edu/nursing>. Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the School of Nursing Admissions and Advancement Committee. Applicants are notified of committee decision by mail.

All prerequisite courses must be successfully completed with a "C" grade or better in order to advance into the first semester of the nursing program. Admission requirements are outlined on the admissions application available at <http://weber.edu/nursing>.

Associate of Science/Associate of Applied Science Degree (PN-to-RN)

Enrollment Director (801) 626-7774, prompt 6

Applicants for admission must first apply for admission to Weber State University. Applicants must also apply for admission to the Associate Degree Nursing program. Applications are available on the School of Nursing website at <http://weber.edu/nursing>. Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the School of Nursing Admissions and Advancement Committee. Applicants are notified of committee decision by mail. Applicants to this program must have an LPN license or be eligible for testing for the NCLEX-PN exam.

All prerequisite courses must be successfully completed with a "C" grade or better in order to advance into fall the third semester of the nursing program. Admission requirements are outlined on the admissions application available at <http://weber.edu/nursing>.

Bachelor of Science Degree (RN-to-BSN)

School of Nursing Enrollment Director (801) 626-7774, prompt 6

Applicants must first apply for admission to, or be a current matriculated student of, Weber State University. Applicants must also apply for admission to the Bachelor of Science Degree Nursing program.

Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the School of Nursing Program Admissions and Advancement Committee. Applicants are notified of committee decision by mail. Admission requirements are outlined at <http://weber.edu/nursing>.

Master of Science in Nursing (MSN)

Enrollment Director (801) 626-7774, prompt 6

Minimum Admission Requirements:

Applicants should apply for admission to Weber State University or be a current matriculated student of Weber State University.

The online process for application to the MSN program becomes available in October of each year at weber.edu/MSN. The priority application deadline is March 1. *Admission is for fall each year. Applicants will need to make a choice between the Administrative or Education Concentration on their application.*

An application fee must be paid at the end of the online application process. Admission applications are reviewed and evaluated by the Nursing Program Admissions and Advancement Committee. For more information please contact School of Nursing Enrollment Director at (801) 626-7774, prompt 6.

Please refer to Master of Science in Nursing (MSN) for requirements.

Associate of Applied Science

Nursing, PN-to-RN [RN Completion] (AAS)

The AAS Degree is one of two options for RN Completion (PN-to-RN)

- **Grade Requirements:** A minimum grade of "B-" in all Nursing courses in addition to a grade of "C" in each prerequisite and support course.
- **Credit Hour Requirement:** A minimum of 63 credit hours is required for the AAS. This includes Practical Nursing Program nursing courses (18 hours), 20 credit hours of RN curriculum, and 25-29 credit hours of non-nursing, made up of pre-requisites, General Education, and required support courses.
- **Program Code:** 2009AAS
- **CIPC:** 513801

Advisement

Admission Requirements

School of Nursing Enrollment Director at (801) 626-7774, prompt 6.

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards.

Applicants for admission must first apply for admission to Weber State University. Applicants must also apply for admission to the Associate Degree Nursing Program. Applications may be obtained on the School of Nursing website. Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the School of Nursing Admissions and Advancement Committee. Applicants are notified of committee decision by mail. Applicants to this program must have an LPN license or be eligible for testing for the NCLEX-PN exam. Accepted applicants must have their PN license prior to the end of their third semester.

All prerequisite courses must be successfully completed with a "C" grade or better in order to advance into the third semester of the nursing program. Admission requirements are outlined on the admissions application.

Program Learning Outcomes

- Patient Centered Care: Use nursing knowledge to include the patient in all care processes and decisions. Design and implement care which is adapted and centered on the unique wholeness of the individual patient and their family.
- Teamwork and Collaboration: Promote collaborative clinical decision making with nursing and interdisciplinary colleagues through implementation of effective communication and team building skills.
- Evidence-based Practice: Make judgments in practice substantiated with evidence that integrates nursing science and knowledge to provide competent care to individuals and families.
- Quality Improvement: Monitor patient care outcomes to measure the effectiveness of patient care processes. Suggest and implement changes to improve the quality and safety of patient care.
- Patient Safety: Incorporate patient safety goals into the plan of care for all patients.
- Informatics: Use information and technology to communicate, manage knowledge, mitigate error, and support decision making when providing direct patient care.

Major Course Requirements for PN-to-RN (RN Completion) AAS Option

Nursing Courses Required

The following courses must be taken in sequence. PN to RN students start in the 3rd semester of the associate degree program.

Third Semester

- NRSG 2500 - Patient-Centered Nursing Care II **Credits: (3)**
- NRSG 2551 INT/CEL - Patient-Centered Nursing Care Experience II **Credits: (4.5)**
- NRSG 3100 - Pharmacology for Nurses III **Credits: (3)**

Fourth Semester

- NRSG 3200 - Complex Patient Centered Nursing Care **Credits: (3)**
- NRSG 3300 - Entry Into Nursing Professional Practice **Credits: (3.5)**
- NRSG 3350 INT/CEL - Entry Into Nursing Professional Practice Capstone **Credits: (3)**

Prerequisite/Support Courses Required

The following courses must be taken in sequence listed or earlier. Prerequisite and support courses must be completed and passed with a "C" or better prior to progression to the next semester.

Nursing Prerequisite

- ***Licensed as a Licensed Practical Nurse (LPN) or Utah PN-NCLEX eligible with passing LPN Boards during semester three.***

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
OR
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)** and
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**
- WSU Math QL Requirement
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
OR
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Additional Education Prerequisites

- CHF 1500 SS/CC - Human Development **Credits: (3)** or
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**

Third Semester

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**

Fourth Semester

- HU or CA Humanities or Creative Arts (3)

Associate of Science

Nursing (AS)

- **Grade Requirements:** A minimum grade of "B-" in all Nursing courses in addition to a grade of "C" in each support course.
- **Credit Hour Requirement:** The AS in Nursing is approximately 76-80 credit hours. This includes 38-42 credit hours of General Education and 38 Nursing credit hours. Twenty residency hours are also required.
- **Program Code:** 2009AS
- **CIPC:** 513801

Advisement

Contact the DCHP Admissions Office at (801) 626-6136 for admission advisement.

Admission Requirements

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards.

Applicants for admission must first apply for admission to Weber State University. Applicants must also apply for admission to the Associate of Science Degree Nursing Program. Dr. Ezekiel R. Dumke College of Health Professions Admissions Advisement Office in the Marriott Allied Health Building (MAH108B) or complete application information and forms are available on the School of Nursing website. Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the School of Nursing Admissions and Advancement Committee. Applicants are notified of committee decisions by mail. Applicants to this program must have a current CNA or EMT certificate in order to apply.

All prerequisite courses must be successfully completed with a "C" grade or better in order to advance into the first semester of the nursing program. Admission requirements are outlined on the admissions application.

Program Learning Outcomes

- Patient Centered Care: Use nursing knowledge to include the patient in all care processes and decisions. Design and implement care which is adapted and centered on the unique wholeness of the individual patient and their family.
- Teamwork and Collaboration: Promote collaborative clinical decision making with nursing and interdisciplinary colleagues through implementation of effective communication and team building skills.
- Evidence-based Practice: Make judgments in practice substantiated with evidence that integrates nursing science and knowledge to provide competent care to individuals and families.
- Quality Improvement: Monitor patient care outcomes to measure the effectiveness of patient care processes. Suggest and implement changes to improve the quality and safety of patient care.
- Patient Safety: Incorporate patient safety goals into the plan of care for all patients.
- Informatics: Use information and technology to communicate, manage knowledge, mitigate error, and support decision making when providing direct patient care.

Major Course Requirements for AS Degree

Nursing Courses Required

The following courses must be taken in sequence.

First Semester

- NRSG 2100 - Pharmacology for Nurses I **Credits: (1.5)**
- NRSG 2200 - Nursing Foundations **Credits: (3)**
- NRSG 2251 INT/CEL - Foundations of Nursing Lab and Clinical **Credits: (4.5)**

Second Semester

- NRSG 2300 - Patient-Centered Nursing Care I **Credits: (3)**
- NRSG 2351 INT/CEL - Patient-Centered Nursing Care Experience I **Credits: (4.5)**
- NRSG 2700 - Pharmacology for Nurses II **Credits: (1.5)**

Third Semester

- NRSG 2500 - Patient-Centered Nursing Care II **Credits: (3)**
- NRSG 2551 INT/CEL - Patient-Centered Nursing Care Experience II **Credits: (4.5)**
- NRSG 3100 - Pharmacology for Nurses III **Credits: (3)**

Fourth Semester

- NRSG 3200 - Complex Patient Centered Nursing Care **Credits: (3)**
- NRSG 3300 - Entry Into Nursing Professional Practice **Credits: (3.5)**
- NRSG 3350 INT/CEL - Entry Into Nursing Professional Practice Capstone **Credits: (3)**

Prerequisite/Support Courses Required

The following courses must be taken in the sequence listed or earlier. Prerequisite and support courses must be completed and passed with a "C" or better prior to progression to the next semester.

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
OR
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)** and
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**
- WSU Math QL Requirement
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
OR
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Additional General Education and Support Courses

American Institution (AI), Humanities (HU), and Social Science (SS) General Education Requirements must be completed before the third semester.

- CHF 1500 SS/CC - Human Development **Credits: (3)** or
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- Additional WSU Gen Ed Courses for Core, Breadth, and Degree Requirements for Associate of Science Degree

Nursing PN-to-RN [RN Completion] (AS)

The AS Degree is one of two options for PN-to-RN (RN Completion)

- **Grade Requirements:** A minimum grade of "B-" in all Nursing courses in addition to a grade of "C" in each support course.
- **Credit Hour Requirement:** The AS for RN Completion is approximately 76-80 credit hours. This includes Practical Nursing Program nursing courses (18 hours), 20 credit hours of RN curriculum, 38-42 credit hours required of non-nursing, made up of pre-requisites, General Education, and required support courses.

- **Program Code:** 2009AS
- **CIPC:** 513801

Advisement

Admission Requirements

Contact the School of Nursing Enrollment Director at (801) 626-7774, prompt 6, for admission advisement.

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards.

Applicants must first apply for admission to Weber State University. Applicants must also apply for admission to the PN to RN (RN Completion) Program. Admission times and deadlines vary according to campus location. For applications and deadline information, please contact the School of Nursing Enrollment Director. Admission applications are reviewed and evaluated by School of Nursing Admissions and Advancement Committee. Applicants are notified of committee decision by mail. Admission requirements are outlined on the admissions application. Applicants to this program must have an LPN license or be eligible for testing for the NCLEX-PN exam. Accepted applicants must have their PN license prior to the end of their third semester.

All prerequisite courses must be successfully completed with a "C" grade or better in order to advance into the third semester of the nursing program. Admission requirements are outlined on the admissions application.

Program Learning Outcomes

- **Patient Centered Care:** Use nursing knowledge to include the patient in all care processes and decisions. Design and implement care which is adapted and centered on the unique wholeness of the individual patient and their family.
- **Teamwork and Collaboration:** Promote collaborative clinical decision making with nursing and interdisciplinary colleagues through implementation of effective communication and team building skills.
- **Evidence-based Practice:** Make judgments in practice substantiated with evidence that integrates nursing science and knowledge to provide competent care to individuals and families.

- Gen Ed HU or CA Humanities or Creative Arts (3)
- Gen Ed IL Information Literacy (1)
- Gen Ed CA Creative Arts (3)

Bachelor of Science

Nursing, RN-to-BSN (BS)

- **Admission Requirements:** Graduate of an Accreditation Commission for Education in Nursing (ACEN) Program or equivalent program. A challenge examination may be required for those graduating from an equivalent program. Current licensure as a registered nurse in the State of Utah without restrictions is required.
- **Minor:** Not required.
- **Grade Requirements:** A minimum grade of "B-" or better is required in all upper division nursing courses, and a grade of "C" or better is required for all support courses.
- **Credit Hour Requirements:** A total of 120 credit hours is required for a Bachelor of Science Degree. Of the 120 hours, 40 must be upper division level. The BSN nursing curriculum provides 28 upper division hours.
- **Program Code:** 2009BS
- **CIPC:** 513801

Advisement

Admission Requirements

Contact the School of Nursing Enrollment Director at (801) 626-7774, prompt 6, for admission advisement.

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards.

Applicants must first apply for admission to, or be a current matriculated student of, Weber State University. Applicants must also apply for admission to the Bachelor of Science Degree Nursing program. Applications may be obtained through the School of Nursing Enrollment Director.

Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the School of Nursing Program Admissions and Advancement Committee. Applicants are notified of committee decision by mail. Admission requirements are outlined on the applicant website available at <http://weber.edu/nursing>.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- **Patient Centered Care:** Integrate nursing expertise to include the patient in all care processes and decisions. Collaborate with patients, families, and communities to design unique and dynamic patient centered care environments.
- **Teamwork and Collaboration:** Evaluate the ability to use effective communication and collaboration skills when working with patients, families, and colleagues. Adapt communication, leadership, and teambuilding skills, to promote quality, competent and successful decision-making by nursing and collaborative interdisciplinary teams.

- Evidence-based Practice: Make judgments in practice substantiated with evidence that synthesizes nursing science and knowledge and integrate in the provision of competent care to individuals, families, and communities.
- Quality Improvement: Monitor outcomes to apply evidence-based interventions to improve the quality of health care systems.
- Patient Safety: Generate patient safety plan based on patient safety goals.
- Informatics: Use information and technology to communicate, manage knowledge, mitigate error, and support decision making in a variety of patient care and community settings.

Prerequisites

Students must have completed the following courses or equivalents.

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
OR
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)** and
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**

Human Anatomy and Human Physiology (8 cr)*

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
**previous course numbers 111, 112, and 113 are acceptable equivalents.*

- PSY 1010 SS - Introductory Psychology **Credits: (3)** or
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**

WSU Quantitative Literacy Requirement

- MATH 1030 QL - Contemporary Mathematics **Credits: (3)** or
- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1080 QL - Pre-calculus **Credits: (5)**

Major Course Requirements for BS Degree (RN to BSN)

Nursing Courses Required (25 credit hours)

Complete the following courses:

- NRSG 4100 - Care Coordination and Interdisciplinary Collaboration for Safe Patient Outcomes **Credits: (3)**
- NRSG 4200 SUS - Scholarship for Evidence-Based Practice **Credits: (3)**
- NRSG 4300 - Healthcare Policy and Decision Making **Credits: (3)**
- NRSG 4400 SUS/CEL - Population Health in Nursing **Credits: (4)**
- NRSG 4500 - Nursing Management and Leadership **Credits: (3)**
- NRSG 4600 - Communication, Collaboration, and Information Management in Healthcare **Credits: (3)**

Select six (6) credit hours from the following courses:

- NRSG 4045 - ELNEC: End-of-Life Nursing Education Consortium **Credits: (3)**
- NRSG 4050 - Nursing Assessment Across the Life Span **Credits: (3)**
- NRSG 4060 - Oncology Nursing **Credits: (3)**
- NRSG 4070 - Disaster Nursing **Credits: (3)**
- NRSG 4080 - Adult Critical Care **Credits: (3)**
- NRSG 4090 - Nursing: High Risk OB/Pediatric Patient **Credits: (3)**
- NRSG 4700 - Forensic Nursing **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- NRSG 3400 - Mental Health: The Complex Role **Credits: (3)**
- NRSG 4022 - Nursing Care of the Trauma Patient **Credits: (3)**

Upper Division Elective (3 credit hours)

Complete 3 hours of upper division credits from any department.

Post Baccalaureate Certificate

Occupational Health Nursing Post Baccalaureate Certificate

The graduate certificate in Occupational Health Nursing (OHN) provides BSN level nurses to obtain education and training that will prepare the student for the certifying board examination and to enter and excel in the exciting world of occupational health. The graduate certificate will satisfy 2000 of the required 3000 hours of work experience to be eligible to take the certifying board examination. A Certified Occupational Health Nurse (COHN) is qualified to work in private companies, hospitals, clinics, labor organizations, consulting, academia, government, and many other settings. COHNs perform nursing, health promotion, health and safety assessments, safety program management, case management, counseling and crisis management, legal and regulatory compliance and nearly any activity related to managing the health of a workforce.

- **Grade Requirements:** All courses in the program must be completed with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or higher.
- **Program Code:** 2095PBC
- **CIPC:** 513815

Required Courses

- NRSG 6010 - Fundamentals of Occupational Health Nursing **Credits: (3)**
- NRSG 6020 - Occupational Health Nursing Role Development **Credits: (3)**
- OEHS 6370 - Occupational Epidemiology **Credits: (3)**
- OEHS 6750 - Fundamentals of Industrial Hygiene **Credits: (3)**
- OEHS 6760 - Management and Administration of Occupational Environmental and Safety Programs **Credits: (3)**

Department of Athletic Training and Occupational Therapy

Department Chair: Valerie Herzog, EdD, LAT, ATC

Location: Reed K. Swenson Building, Room 224

Telephone Contact: Margarita Lopez 801-626-8631 **Professor:** Valerie Herzog; **Associate Professor:** Matthew Donahue; **Assistant Professors:** Conrad Gabler, Robyn Thompson; **Instructor:** Rhonda Roth, Joshua Sponbeck, Hannah Stedje

The Department of Athletic Training (AT) in the Dr. Ezekiel R. Dumke College of Health Professions, offers programs that educate students in the prevention, evaluation, management, and rehabilitation of injuries and illnesses.

The variety of teaching environments and facilities are supported by faculty with diverse expertise and offer graduate and undergraduate students exceptional educational, clinical, and research experiences. The state-of-the-art facilities, including fully equipped laboratory classrooms, research labs, and hydrotherapy pool provide outstanding opportunities for student instruction and research. With curriculums designed to develop professional knowledge and skills, graduates from the department are prepared for careers in athletic training (via the MS in Athletic Training), or professional graduate programs in athletic training, physical therapy, occupational therapy, physician's assistant, and medicine (via the BS in Athletic Therapy).

The department of Athletic Training offers a Master of Science degree in athletic training, and Bachelor of Science degrees in athletic therapy and athletic training. *Note that the BS in Athletic Training is being phased out and is no longer accepting students.*

The department also supports the efforts of undergraduates seeking the bachelor of integrated studies degree, offering sports medicine as an emphasis for the BIS Program.

See also Master of Science in Athletic Training (MS).

Courses

Course Descriptions - RHS

Bachelor of Science

Occupational Therapy Assistant (BS)

The Occupational Therapy Assistant (OTA) program at Weber State University will prepare students to become certified, licensed OTAs equipped to assist occupational therapists in supporting individuals who face challenges in performing daily activities due to illness, injury, or disability. This program emphasizes both theoretical knowledge and practical skills, combining classroom instruction with hands-on fieldwork to ensure students are prepared to meet the diverse needs of clients across the lifespan—from pediatrics to geriatrics. OTAs work closely with occupational therapists to help clients acquire or regain essential daily living skills, such as dressing, eating, and meal preparation, using evidence-based practices to improve quality of life through meaningful and therapeutic activities.

Graduates of Weber State's OTA program will be qualified to sit for the National Board for Certification in Occupational Therapy (NBCOT) exam, enabling them to obtain licensure to practice in Utah and other states within the US. The program also lays a foundation for students interested in pursuing further education in occupational therapy, providing the essential skills and experience needed for graduate studies.

- **Grade Requirements:** Students must achieve a B- or higher in all prerequisite and major classes
- **Credit Hour Requirements:** Total Degree Credits: 122-125 Total Upper Division Credits: 61
- **Program Code:** 2099BS
- **CIPC:** 510803

Advisement

Students will receive advising from existing academic advisors in Dumke College of Health Professions and the Department of Athletic Training at Weber State University.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Most general education requirements for the BS degree are taken as prerequisites to the program. However, students must complete all Bachelor of Science general education requirements to earn the degree in Occupational Therapy Assistant.

Admission Requirements

Students must apply to and be accepted into the OTA program to be admitted into any of the courses offered by and required for a degree in Occupational Therapy Assistant. Occupational therapy assistant students will progress through the curriculum as a cohort. Students will apply to the OTA program the spring of their sophomore year. Students will begin the OTA program as a cohort in the fall of their junior year. The science and all prerequisite courses are listed below and must be completed with a minimum GPA of 2.5 prior to being admitted into the program. These basic science courses must have been taken within five years of the date of anticipated enrollment in the Occupational Therapy Assistant program.

Selective Admissions requirements will include:

1. Completion of OTA program prerequisites with a B- or above
2. Performance scores as measured by rubric on prompted questions on a proctored essay.

Program Learning Outcomes Program Learning Outcomes for the Occupational Therapy Assistant Program at Weber State University:

1. **Develop Foundational Knowledge and Competence:** Demonstrate a comprehensive understanding of occupational therapy principles and acquire entry-level competence to practice as a generalist in both emerging and traditional practice settings, addressing the diverse needs of individuals, groups, and communities.
2. **Apply the Occupational Therapy Process:** Integrate the core elements of the occupational therapy process, as defined by the Occupational Therapy Practice Framework (OTPF), to deliver client-centered, therapeutic interventions that enhance meaningful participation in daily life.
3. **Utilize Evidence-Based Practice:** Synthesize scientific evidence, theories, models, and frameworks to implement evidence-based, innovative, and effective occupational therapy interventions that advance health, well-being, and quality of life.
4. **Embrace Professional Ethics and Cultural Sensitivity:** Uphold the ethical standards, values, and attitudes of the occupational therapy profession by demonstrating sensitivity, equity, and responsiveness to the unique cultural and personal needs of clients.
5. **Commit to Lifelong Learning and Professional Growth:** Demonstrate a dedication to lifelong learning by actively engaging in professional development, scholarship, and reflective practice to enhance occupational therapy service delivery.
6. **Advocate for Collaborative Practice and Professional Roles:** Advocate for the distinct yet collaborative roles of occupational therapy assistants and occupational therapists, fostering intra and interprofessional partnerships to improve service delivery and contribute to the advancement of the profession.
7. **Foster Leadership and Community Impact:** Develop leadership skills to engage in advocacy, education, and community partnerships that promote health equity, inclusion, and participation for diverse populations.

Prerequisite Courses (42-45 credit hours)

- OTA 1010 - Introduction to Occupational Therapy **(3)**
- HTHS 1101 - Medical Terminology **(2)**
- RHS 1550 - Introduction to Rehabilitation Sciences **(2)**
- RHS 1300 - First Aid: Responding to Emergencies **(2)**
- PSY 1010 SS - Introductory Psychology **(3)**
- PSY 3010 - Psychopathology **(3)**
- ZOOL 1610 LS - Principles of Zoology **(4)**
- CHF 1500 SS/CC - Human Development **(3)**

Either

- ENGL 2010 EN2 - Intermediate College Writing **(3)**
- ENGL 2015 EN2 - Intermediate College Writing & Research **(4)**

Either

- MATH 1040 QL - Introduction to Statistics **(3)**
- MATH 1050-MATH 1080 Another Gen Ed Math Course (4-5)

Either

- COMM 1020 HU - Principles of Public Speaking **(3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **(3)**

Either

- SOC 1010 SS/CC - Introduction to Sociology **(3)**
- ANTH 1000 SS/CC - Introduction to Anthropology **(3)**

Either

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **(4)** and HTHS 2111 - Integrated Human Anatomy and Physiology II **(4)**
- ZOOL 2320 - Human Anatomy **(4)** and ZOOL 2420 LS - Human Physiology **(4)**

Major Course Requirements

Required Courses (61 credit hours)

- OTA 3000 - Foundations of Theory and Practice in Occupational Therapy **Credits: (2)**
- OTA 3100 - Occupational Therapy and Physical Dysfunction Lecture **Credits: (3)**
- OTA 3105 - Occupational Therapy and Physical Dysfunction Lab **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**
- OTA 3200 - Essential Components of Function and Movement for the Occupational Therapy Practitioner **Credits: (3)**
- OTA 3400 - Pediatric and Adolescent Occupational Therapy Practice Lecture **Credits: (3)**
- OTA 3405 - Pediatric/Adolescent Occupational Therapy Skills Lab **Credits: (3)**
- OTA 3500 - Pediatric Occupational Therapy Practicum/Fieldwork 1 **Credits: (2)**
- OTA 3600 - Research Methods in Occupational Therapy **Credits: (2)**
- OTA 3700 - Patient Interaction and Professional Issues I **Credits: (2)**
- OTA 3800 - Leadership and Management in Occupational Therapy **Credits: (3)**
- OTA 4000 - Psychosocial Issues and Occupational Therapy Practice Lecture **Credits: (3)**
- OTA 4005 - Psychosocial Issues and Occupational Therapy Practice Lab **Credits: (3)**
- OTA 4100 - Geriatric Practice in Occupational Therapy **Credits: (2)**

- OTA 4200 - Geriatric-Psychosocial Practicum-Fieldwork 1 **Credits: (2)**
- OTA 4300 - Patient Interaction and Professional Issues II **Credits: (2)**
- OTA 4500 - Fieldwork IIA **Credits: (6)**
- OTA 4600 - Fieldwork IIB **Credits: (6)**
- OTA 4800 - Baccalaureate Project I **Credits: (3)**
- OTA 4801 - Baccalaureate Project II **Credits: (3)**

Rehabilitation Sciences (BS)

The Department of Athletic Training (AT) offers an undergraduate program in Rehabilitation Sciences. This program is designed for students preparing to enter professional graduate programs in athletic training, physical therapy, occupational therapy, physician's assistant programs, and/or medicine. Students who graduate from this major only will NOT BE ELIGIBLE TO SIT FOR THE BOARD OF CERTIFICATION (BOC) EXAM TO BECOME A CERTIFIED ATHLETIC TRAINER OR ANY OTHER PROFESSIONAL MEDICAL CERTIFICATION EXAM.

- **Program Prerequisites:** Make application and be accepted to Weber State University. Formally declare Rehabilitation Sciences as an intended major with the College of Health Professions (CHP) advisement coordinator. (See Admission Requirements below.)
- **Minor:** Not required.
- **Grade Requirements:** Grade of "B-" or better in all Rehabilitation Sciences major courses and grade of "C" or better in all support courses and electives in addition to a Weber State University GPA of 3.00 or higher in all courses required for this major.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 40 of which must be upper division (courses numbered 3000 and above).
- **Program Code:** 2081BS
- **CIPC:** 511199

Advisement

Advisors are available to the student for counseling on grades and progress toward graduation. The CHP advisors serve as the academic advisors prior to admission to the program, and the AT department advisor will assume control of advisement after admission into the program. The Rehabilitation Sciences Program Director serves as the graduate school advisor to students. Rehabilitation Sciences majors are encouraged to meet with an advisor at least once within the first four weeks of each semester.

Admission Requirements

- A. Before a student can be considered for the Rehabilitation Sciences program, the following application requirements must be met:
 1. Admission to Weber State University.
 2. Declare Rehabilitation Sciences as a major
 3. Submit a Rehabilitation Sciences Student Application which demonstrates the following:
 - a. Completion of 25 credit hours with a minimum 3.00 Weber State University GPA. Of these 25 credits, the students must demonstrate completion of
 1. HTHS 2110 and HTHS 2111; or ZOOL 2320 and ZOOL 2420
 2. HTHS 1101
 3. RHS 1550
 4. RHS 2175
 5. RHS 2890
 6. RHS 1300; or RHS 2300; or PAR 1000 and PAR 1001 (lab)

- b. Grade "B-" or better in all courses and "C" or better in all support courses within the program.
- B. Applications may be obtained from the Rehabilitation Sciences Program website at <https://www.weber.edu/athletic-training/rehabsciadmission.html>.
- C. Students are accepted on a rolling basis, but they are encouraged to submit their application by the fourth week of the new semester (after the admission requirements have been completed and met). Students who fail to meet admission requirements will not be allowed to enroll in RHS 3080; RHS 3200; RHS 3301; RHS 4150; RHS 4250; RHS 4650; RHS 4800 or RHS 4890.

Retention Requirements

- A. After students are selected into the Rehabilitation Sciences program, retention in the program will be based on the following criteria:
 1. Grade "B-" or better in all core courses within the program.
 2. Grade "C" or better in all the support courses within the program.
 3. Students must maintain a Weber State University GPA of 3.0 or higher.
- B. Students who fail to meet the retention criteria will be placed on probation in the Rehabilitation Sciences program for one semester. If standards are not met by the end of the probationary period, the student may be dismissed from the program at the discretion of the program director.
 1. Students who receive any grade below a "B-" in a core course must repeat that course and receive a grade of "B-" or higher to remain in the major.
 2. Students who receive any grade below a "C" in a support course must repeat that course and receive a grade of "C" or higher to remain in the major.
 3. Failure to repeat the course (when offered) will result in dismissal from the program at the discretion of the program director.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. These courses also fulfill General Education or degree requirements: CHEM 1010, CHEM 1110, CHEM 1210, HTHS 2110, MICR 2054, NUTR 1020, PHYS 1010, PHYS 2010, PSY 1010, ZOOL 1010, ZOOL 1020, ZOOL 1610, ZOOL 2420.

Program Learning Outcomes

- Educating participants and managing risk for safe performance and function.
- Implementing standard evaluation techniques and formulating a clinical impression for the determination of a course of action.
- Employing standard care procedures and communicating outcomes for efficient and appropriate care of the injured.
- Reconditioning participants for optimal performance and function.
- Understanding and adhering to approved organizational and professional practices and guidelines to ensure individual and organizational well-being.

Major Course Requirements for BS Degree (57-66 credit hours)

It is the responsibility of the student and academic advisors to determine which courses to take when an "OR" option is noted. This is largely determined by the prerequisite coursework of the student's prospective graduate program(s).

Core Courses (26-30 credit hours)

- RHS 1550 - Introduction to Rehabilitation Sciences **Credits: (2)**
- RHS 2175 - Introduction to Sports Medicine **Credits: (3)**
- RHS 1300 - First Aid: Responding to Emergencies **Credits: (2)**
or
- RHS 2300 - Emergency Response **Credits: (3)**
or
- PAR 1000 INT - Emergency Medical Technician **Credits: (4)** and
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2)**
- RHS 2890 - Introduction to Cooperative Work Experience **Credits: (1)**
- RHS 3300 - Evaluation and Care of Musculoskeletal Injuries: Lower Extremities **Credits: (3)**
- RHS 3301 - Evaluation and Care of Musculoskeletal Injuries: Upper Extremities **Credits: (3)**
- RHS 4150 - Therapeutic Modalities for Rehabilitation Sciences majors **Credits: (3)**
- RHS 4250 - Rehabilitation for Rehabilitation Sciences majors **Credits: (3)**
- RHS 4650 - Management for Rehabilitation Sciences Majors **Credits: (3)**
- RHS 4890 INT - Cooperative Work Experience **Credits: (1-6)** Minimum of 3 credits required

Some students will be required to complete an FBI background check and drug test prior to completing the work experience (RHS 2890 and RHS 4890). The expenses will be paid for by the student. Some students may also be required to secure additional immunizations, including a hepatitis B vaccination, depending on the cooperative work experience site. The expenses will be paid by the students.

Support Courses (28-33 credit hours)

Chemistry (choose one of the following)

- CHEM 1010 PS - Introductory Chemistry **Credits: (3)**
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1200 - Preparation for College Chemistry **Credits: (3)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

Physics (choose one of the following):

- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)**

Biology (choose one of the following):

- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**

Human Anatomy & Physiology (choose one of the following series):

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Other support courses:

- HTHS 1101 - Medical Terminology **Credits: (2)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**

Program Electives (120 credits needed for BS degree, with 40 being upper-division credits)

Choose One of the Following:

Rehabilitation Sciences majors are required to take ONE of the following 3-credit RHS elective courses:

- RHS 3080 - Evidence Based Practice for Rehabilitation Sciences **Credits: (3)**
- RHS 3200 - Psychology of Sport, Injury & Rehabilitation **Credits: (3)**
- RHS 3505 - Standardized Patient Training **Credits: (3)**
- RHS 4999 - Special Topics in Rehabilitation Sciences **Credits: (3)**

It is recommended that a student's remaining elective coursework be based on the pre-requisite coursework of the graduate programs they plan to apply to. This coursework tends to vary somewhat from program to program, and it is the student's responsibility to ensure that their pre-professional (undergraduate) coursework fulfills the entrance requirements of the graduate programs that they are applying to. A list of suggested pre-professional pre-requisite courses can be found on the applicant checklist.

Optional RHS Elective Course:

- RHS 2431 - Taping, Wrapping, Bracing, Padding, and Splinting **Credits: (1)**
- RHS 4800 CRE - Individual Projects **Credits: (1-4)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Sports Medicine (BIS)

Bachelor of Integrated Studies

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
- **Credit Hour Requirements:** The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.
- **Program Code:** 2059
- **CIPC:** 510913

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion
Occupational Health Education
Clinical Health Education (*See School of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)
Family Life Health Promotion
Gerontological Health Promotion
Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis
Dietary Prescription
Nutrition Education
Weight Management
Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport
Corporate Fitness
Community Fitness
Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Sports Medicine Emphasis Option 1

This course of study is recommended for students who have chosen Exercise Science as one of their three areas of emphasis.

Suggested coursework (see AT Program Director to develop an individualized plan)

Course Requirements for emphasis: Upper Division 12, Total Hours 23

Recommended Courses

- ZOOL 2320 - Human Anatomy **Credits: (4)**
And
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
Or
- RHS 2175 - Introduction to Sports Medicine **Credits: (3)**
And
- RHS 3200 - Psychology of Sport, Injury & Rehabilitation **Credits: (3)**
- RHS 3300 - Evaluation and Care of Musculoskeletal Injuries: Lower Extremities **Credits: (3)**
- RHS 3301 - Evaluation and Care of Musculoskeletal Injuries: Upper Extremities **Credits: (3)**

Elective Courses

Sports Medicine Emphasis Option 2

This course of study is recommended for students who have NOT chosen Exercise Science as one of their three areas of emphasis.

Course Requirements for emphasis: Upper Division 18, Total Hours 23

Recommended Courses

- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

- RHS 2300 - Emergency Response **Credits: (3)**
- RHS 3300 - Evaluation and Care of Musculoskeletal Injuries: Lower Extremities **Credits: (3)**
- RHS 3301 - Evaluation and Care of Musculoskeletal Injuries: Upper Extremities **Credits: (3)**

Elective Courses

- ESS 3500 - Biomechanics **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**

Department of Emergency Healthcare

Department Chair: William Robertson, MEd, NRP

Location: Marriott Allied Health Building, Room 409

Telephone Contact: Ana McMurtry 801-626-6521

Associate Professor: William Robertson; **Assistant Professors:** Andrea Lalumia, Christine O'Neil

Medical Advisor: Jon Apfelbaum, M.D.

A paramedic is a person who usually renders advanced life support care to persons at the site of an illness or injury or en route to a hospital facility. They function under the direct supervision of an Emergency Physician or Registered Nurse and are certified for such functioning by a state Emergency Medical Services agency.

The institutional certificate and two-year applied science degree program in Paramedic Studies are based on a national curriculum designed to provide an academic background in science, health related fields, and communication using critical thinking and assessment based management. The program prerequisites provide the general requirements and foundation that prepares the student to meet the demands of the paramedic courses.

Satisfactory completion of the prerequisite requirements are required prior to starting the paramedic sequence and include:

1. a "C" or better in ENGL 1010, MATH 0990, Anatomy and Physiology classes, and Medical Terminology; and
2. an overall GPA of 2.7 or above; and
3. Current state EMT Certification; and
4. a score of 75% or better on the departmental EMT assessment exam on no more than two attempts

The longstanding Utah Bureau of EMS policy requiring one year of EMS experience or Advanced EMT has been relaxed. Eligible students may wish to consider PAR 1005 and PAR 1006 to gain EMS field experience prior to entering the paramedic program.

This program may require more than two years for completion depending upon the timing it takes for an individual to complete the prerequisite requirements.

Weber State contracts with authorized clinical and field agencies to precept students for EMT and paramedic certification. Background criminal investigation and drug testing of students is required prior to starting PAR 2000 in the fall semester.

"The WSU Emergency Healthcare Department's paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP)."

The paramedic program will "prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains," with or without exit points at the Emergency Medical Responder, Emergency Medical Technician, and Advanced Intermediate levels.

Acceptance to the paramedic program does not assure eligibility for a state or National Registry certification. Utah or a related state Office of EMS makes the final decisions on the issuance of professional licensure or certification. For

students that may have a disability or testing accommodation concerns you must contact the Utah Bureau of EMS or National Registry of EMT's. See health.utah.gov/ems and nremt.org.

Associate of Applied Science

Paramedic Studies (AAS)

- **Program Prerequisite:** Acceptance to the program via application process. See the Admission Requirements listed below.
- **Grade Requirements:** "C" or better in all prerequisite and support courses, with a minimum GPA of 2.7. All courses with the PAR prefix must be passed with a "B-" or better in order for a student to progress through the paramedic program sequence and be awarded an institutional certificate and/or the AAS degree.
- **Credit Hour Requirements:** A total of 60-63 credit hours is required for graduation; 36 of these are required within the program. Three upper division credit hours (HLTH 3400) are required within the program.
- **Program Code:** 2046AAS
- **CIPC:** 510904

Advisement

Paramedic Studies students must meet with the Dumke College of Health Professions academic advisor prior to application. Call 801-626-6136 for more information or to schedule an appointment.

Admission Requirements

Students are eligible to apply for admission to the Paramedic Studies program upon completion of the following:

1. Making application to Weber State University
2. Obtaining admissions counseling by a Dumke College of Health Professions advisor
3. Satisfactory completion of the prerequisite requirements
4. Completion of the Paramedic program application form by designated date:
 - a. Successful completion of the program EMT written assessment exam with a minimum score of 75% on no more than two attempts
 - b. Payment of the \$25 application fee
 - c. Entrance testing and application must be completed by May 15th for confirmed fall acceptance. Applications received between May 15 and August 1 will be approved on a "space available basis."
5. Current Utah or appropriate state EMT certification

General Education

Refer to Degree Requirements for Associate of Applied Science Degree requirements. The following courses required for this program will also fulfill general education requirements: Biomedical core courses (see below), COMM 2110, PSY 1010 and SOC 1020. MATH 1010 and ENGL 2010 are required.

Major Course Requirements for AAS Degree

Paramedic Courses Required

All courses with the PAR prefix must be passed with a "B-" or better in order for a student to progress through the paramedic program sequence and be awarded an institutional certificate and/or AAS degree.

- PAR 1000 INT - Emergency Medical Technician **Credits: (4)**
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2)**
- PAR 2000 - Introduction to Paramedic Practice **Credits: (4)**
- PAR 3010 - Cardiac and Medical Emergencies **Credits: (6)**
- PAR 2020 - Traumatic Emergencies **Credits: (3)**
- PAR 2030 - Special Populations in Paramedic Practice **Credits: (3)**
- PAR 2040 - Paramedic Skills and Simulation Lab **Credits: (4)**
- PAR 2100 - Capstone Course in Paramedic Practice **Credits: (4)**
- PAR 2110 INT - Paramedic Clinical Experience **Credits: (3)**
- PAR 2120 INT - Paramedic Field Internship **Credits: (9)**

Note:

For students that may have a disability or testing accommodation concerns you must contact the Utah Bureau of EMS or the National Registry of EMT. See health.utah.gov/ems and nremt.org

Biomedical core courses required (or acceptable equivalent)

- HTHS 1101 - Medical Terminology **Credits: (2)**

Must be taken in sequence

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**

Acceptable Equivalent to completing the anatomy and physiology requirement

- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

AAS Support Courses Required (15 credit hours)

All support courses must be passed with a "C" or better.

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**

Institutional Certificate

Paramedic Certificate of Completion

- **Program Prerequisite:** Applications for an institutional certificate of completion in Paramedic are open to all students prepared with the following prerequisites. See the Admission Requirements listed in the Paramedic Studies (AAS) program.
- **Grade Requirements:** "C" or better in all prerequisite courses, with a minimum GPA of 2.7. All courses with the PAR prefix must be passed with a "B-" or better in order for a student to progress through the paramedic program sequence and be awarded an institutional certificate and/or the AAS degree.
- **Credit Hour Requirements:** The Institutional Certificate of Completion in Paramedic requires a minimum of 36 core paramedic credits for completion. Dependent upon what method a student completes the required prerequisites, up to an additional 30 credit hours may be required.
- **Gainful Employment Disclosure**
- **Program Code:** 2045CC
- **CIPC:** 510904

Admission Requirements

Students are eligible to apply for admission to the Institutional Certificate of Completion in Paramedic program upon completion of the following:

1. Making application to Weber State University
2. Obtaining admissions counseling by a Dumke College of Health Professions advisor
3. Satisfactory completion of the prerequisite requirements
4. Completion of the Paramedic program application form by designated date:
 - a. Successful completion of the program EMT-B written assessment exam with a minimum score of 75% on no more than two attempts
 - b. Payment of the \$25 application fee
 - c. Entrance testing and application must be completed by May 15th for confirmed fall acceptance.
 - d. Applications received between May 15 and August 1 will be approved on a "space available basis."
5. Current Utah or appropriate state EMT certification

Courses Required for the Institutional Certificate of Completion in Paramedic

Prerequisite Courses

- HTHS 1101 - Medical Terminology **Credits: (2) ***
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4) *** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4) ***
or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ENGL 1010 EN1 - Introductory College Writing **Credits: (3) ***
- MATH 0990 ND - Beginning Algebra **Credits: (4)** or equivalent

Note:

** These classes can be taken through independent study. Call 801-626-6785.*

Paramedic Courses Required

All courses with the PAR prefix must be passed with a "B-" or better in order for a student to progress through the paramedic program sequence and be awarded an institutional certificate and/or AAS degree.

- PAR 1000 INT - Emergency Medical Technician **Credits: (4)**
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2)**
- PAR 2000 - Introduction to Paramedic Practice **Credits: (4)**
- PAR 3010 - Cardiac and Medical Emergencies **Credits: (6)**
- PAR 2020 - Traumatic Emergencies **Credits: (3)**
- PAR 2030 - Special Populations in Paramedic Practice **Credits: (3)**
- PAR 2040 - Paramedic Skills and Simulation Lab **Credits: (4)**
- PAR 2100 - Capstone Course in Paramedic Practice **Credits: (4)**
- PAR 2110 INT - Paramedic Clinical Experience **Credits: (3)**
- PAR 2120 INT - Paramedic Field Internship **Credits: (9)**

Note:

For students that may have disability or testing accommodation concerns you must contact the Utah Bureau of EMS or the National Registry of EMT. See health.utah.gov/ems and nremt.org

Bachelor of Science

Emergency Healthcare Sciences (BS)

This degree builds on the Institutional Certificate in Paramedic and AAS in Paramedic Studies using additional upper division program (PAR) courses, support and general education courses. A strong core of Health Administration Services (HAS) and Health Information Management (HIM) courses will be utilized to provide a more diverse healthcare background. The degree in Emergency Healthcare Sciences was designed to be broad enough to enhance those working in medical education, QA/QI, supervision, human resources, air medical services, public health and mobile integrated healthcare.

In response to the needs of working fire and EMS, with the exception of five on-campus days for PAR 3110, Critical Care Transport, the entire degree can be completed online. Curriculum maps will provide projected timelines and department recommended, online general education courses.

Admission Requirements: Minimum GPA accepted is 2.7. Also required is a current National Registry or State certification or license as a paramedic without restrictions. After formal degree advisement by the Dumke College of Health Professions, an departmental degree application process is initiated.

Minor: Not required.

Grade Requirements: A minimum grade of "C" or better is required in all program (PAR) courses, general education and support courses.

Credit Hour Requirements: A total of 120 credit hours is required for a Bachelor of Science Degree. Of the 120 hours, 40 must be upper division level. The BS in EHS curriculum provides 35 upper division hours with 6 credits coming from the Cardiac and Medical Emergency section in the Institutional Certificate. (Any General Education course may be utilized, however, courses below feature online delivery)

- **Program Code:** 2052BS
- **CIPC:** 519999

Advisement: Contact the Dumke College of Health Professions Advisor (801) 626-6136.

Program Learning Outcomes

- Demonstrate terminal competency by passing the National Registry paramedic certification exam
- Demonstrate predicted National Registry paramedic certification utilizing the HESI predictive exam with a minimum score of 650.
- Demonstrate clinical and field readiness by achieving the "3" competent score.
- Demonstrate affective domain employment traits by achieving Satisfactory in the 11 categories of professionalism as defined by the 2010 EMS Education Standards.
-

Prerequisites

The Institutional Certificate in Paramedic and AAS in Paramedic Studies (or equivalent) is needed to progress into the Bachelor's degree program.

- PAR 1000 INT - Emergency Medical Technician **Credits: (4) ***
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2) ***
- HTHS 1101 - Medical Terminology **Credits: (2) ***
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4) ***
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4) ***
- MATH 0990 ND - Beginning Algebra **Credits: (4) ***
- MATH 1010 - Intermediate Algebra **Credits: (4-5) ****
- MATH 1030 QL - Contemporary Mathematics **Credits: (3) ^**
- ENGL 1010 EN1 - Introductory College Writing **Credits: (3) ***
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3) ****
- PAR 2000 - Introduction to Paramedic Practice **Credits: (4) *, ****
- PAR 2040 - Paramedic Skills and Simulation Lab **Credits: (4) *, ****
- PAR 2110 INT - Paramedic Clinical Experience **Credits: (3) *, ****
- PAR 3010 - Cardiac and Medical Emergencies **Credits: (6) *, ****
- PAR 2020 - Traumatic Emergencies **Credits: (3) *, ****
- PAR 2030 - Special Populations in Paramedic Practice **Credits: (3) *, ****
- PAR 2120 INT - Paramedic Field Internship **Credits: (9) *, ****
- PAR 2100 - Capstone Course in Paramedic Practice **Credits: (4) *, ****
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- SOC 1020 SS/CC - Contemporary Social Issues **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
(Will accept COMM 1020 Public Speaking)

** Paramedic Certificate; **AAS Degree; ^QL for BS Degree*

Bachelor of Science in Emergency Healthcare Sciences

(Courses selected for online delivery)

- WEB 1701 - Document Creation
- QL 1030/1040/ or 1050 - QL Mathematics
- General Education - AI/PS/CA/SI
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)**
- HAS 3000 - The Healthcare System **Credits: (3)**
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- PUBH 3500 - Biomedical Research Support **Credits: (2)**

- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)** or
- HAS 3230 - Health Communication **Credits: (3)**

- HAS 3260 - Healthcare Leadership and Management **Credits: (3)** or
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)** or
- MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs **Credits: (3)**

- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- PAR 3110 - Critical Care Transport Course **Credits: (6)**
- PAR 3130 - Mobile Integrated Healthcare **Credits: (2)**
- PAR 4110 - Emergency Medical Services Management Topics **Credits: (3)**
- PAR 4120 - Emergency Medical Service Teaching Topics **Credits: (3)**
- PAR 4130 - Capstone Seminar in Emergency Medicine Research **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Emergency Healthcare Sciences (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Code: 2052**
- **CIPC: 519999**

18 hours of Emergency Healthcare courses selected in consultation with an advisor and approved by the department chair

Certification

Emergency Medical Technician EMT and Advanced Certification

Basic

Basic life support, patient assessment and treatment modalities comprise this EMT curriculum. US Department of Transportation (DOT) and Utah State Department of Health standards for certification are met. For students 18 years

or older, state certification is optional with an additional fee. For students that may have disability or testing accommodation concerns you must contact the Utah Bureau of EMS. See health.utah.gov/ems.

Required Course (no prerequisites are required)

- PAR 1000 INT - Emergency Medical Technician **Credits: (4)** and
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2)**

Advanced EMT (Formerly EMT-Intermediate)

Utah State Department of Health and Department of Transportation Standards for Advanced EMT certification are utilized to provide advanced life support to the sick and injured.

Required Courses

The following can be taken in addition to the above courses and are offered at the Davis Area Technology College.

Exercise and Nutrition Sciences Department

Department Chair: David Aguilar-Alvarez

Location: Reed K. Swenson Building, Room 302

Telephone Contact: Marrisela Lopez 801-626-6741

Professor: Jennifer Turley; **Associate Professor:** David Aguilar-Alvarez; **Assistant Professors:** Bryan Dowdell, Saori Hanaki, Damon Joyner, Sachini Kodithuwakku Arachchige, Stacie Wing-Gaia; **Instructors:** Samantha Hill, Jamie Stein

Exercise and Nutrition Sciences (ENS) in the Jerry & Vickie Moyes College of Education offers programs that teach skills and knowledge needed to maintain and enhance human performance and well-being through exercise, fitness, sport, and optimal nutrition. We offer undergraduate students exceptional educational experiences in a variety of teaching environments supported by faculty with diverse expertise. Our state-of-the-art facilities - including fully equipped laboratories (biomechanics, human performance, nutritional biochemistry, and foods), a networked computer lab, and ample indoor and outdoor fitness and activity arenas - provide outstanding areas for student instruction and research. With a curriculum designed to develop professional knowledge and skills, our graduates enter the workforce as fitness and nutrition professionals in a variety of educational, health and fitness settings, and are prepared to pursue graduate studies in their respective career fields.

Through instruction, scholarship and service, our department offers Bachelor of Science degrees in Exercise and Sport Science (Fitness Professional and Exercise Science emphases) and Nutrition Education (Integrative Nutrition and Sports Nutrition emphases) and a Nutrition Education minor. We also support the efforts of undergraduates seeking the Bachelor of Integrated Studies degree, offering Exercise Science and Nutrition Education and as emphases for the BIS Program.

Mission Statement

The Department of Exercise and Nutrition Sciences (ENS) supports and enhances the mission of the University through learning, access, and community partnerships in exercise and nutrition sciences. We provide effective instruction, exploratory research, and engaged service to prepare exercise, fitness, and nutrition professionals for the workforce and graduate studies and to promote optimal health, human performance, and overall well-being.

Bachelor of Science

Exercise and Sport Science (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Exercise and Sport Science with three emphasis options: Strength & Conditioning, Clinical Exercise Physiology, and Exercise Science. Students may declare one or more emphases. The Exercise and Sport Science major program prepares students for a variety of career options, several national certifications, and for entering graduate and professional schools.

Graduates will have demonstrated competence and knowledge in anatomy, physiology, fitness assessment, kinesiology, biomechanics, exercise physiology, exercise programming and implementation, exercise leadership and client education, nutrition, health, strength and conditioning, weight lifting, aerobic activities, and more.

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Eleven to 15 credit hours of required support courses maybe used as general education credit. A total of 40 upper division credit hours is required for graduation with 21 - 41 upper division hours possible within the required courses for this major.
- **Program Code:** 5049BS with one of the following emphasis codes Strength & Conditioning (5066), Clinical Exercise Physiology(5067), or Exercise Science(5051).
- **CIPC:** 310505

Advisement

All Exercise and Sport Science students are encouraged to meet with a faculty advisor or the department advisement coordinator each semester for course and program advisement. Call 801-626-6696 or email the ENS Department Advisor matthewsmith20@weber.edu for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Make application with the ENS Department and declare program of study (see Student Access and Success, Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

1. Reflective and empirical thinking

Students will problem solve and/or make decisions based on deep reflection and empirical, logical, thinking.

2. Quantitative literacy

Students will demonstrate the comprehension of quantitative data and the ability to reason using quantitative analysis.

3. Effective communication

Students will practice effective communication using scientific writing, active listening, and verbal and nonverbal communication.

4. Cultural competency

Students will describe the impact of values and cultures of their own and of others on health literacy, health risks, and physical activity and other lifestyle behaviors related to health and wellness.

5. Exercise physiology knowledge

Students will accurately apply exercise physiology concepts in conducting and evaluating health and fitness assessments, developing exercise programs, and prescribing exercise for health and performance improvement.

6. Kinesiology & biomechanics knowledge

Students will effectively use muscle mechanics and biomechanical concepts to evaluate musculoskeletal movements, thereby facilitating performance enhancement and mitigating potential injury risks.

7. Health & fitness assessment

Students will independently conduct health and fitness assessments and interpret results based on the standards established by American College of Sports Medicine, National Strength and Conditioning Association, and other relevant organizations.

8. Exercise program design

Students will design exercise prescription programs appropriate to the target populations using sound scientific principles and reasoning.

Major Course Requirements for BS Degree

Required Core Courses for all Emphases (22 credit hours, 13 UD)

- RHS 2300 - Emergency Response **Credits: (3)**
- ESS 2200 - Exploring Exercise Science Professions **Credits: (3)**
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**
- ESS 3500 - Biomechanics **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- ESS 3600 - Measurement and Statistics in Exercise Science **Credits: (3)**
- ESS 4990 - Senior Seminar **Credits: (1)**

Professional Areas of Emphasis

A student must complete the required and support courses in either the Strength & Conditioning, the Clinical Exercise Physiology, or the Exercise Science Emphasis.

Strength & Conditioning Emphasis (52-54 credit hours, at least 25 UD possible)

The Strength & Conditioning Emphasis Provides competencies needed for strength and conditioning and fitness professionals.

Required Emphasis Courses (32-33 credit hours, 26 UD possible)

- PE 1080 - Strength Training, Level I **Credits: (1)** Or
- PE 1081 - Strength Training, Level II **Credits: (1)** Or
- PE 1082 - Strength Training, Level III **Credits: (1)**

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**

- HLTH 3000 - Foundations of Health Promotion **Credits: (3)** Or
- HLTH 3200 - Methods in Health Education **Credits: (3)**

- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- OCRE 3700 - Recreation and Sports Facilities and Events Management **Credits: (3)**
- ESS 4890 INT - Cooperative Work Experience **Credits: (1-6)**
(5 credit hours Required)

- ESS 4280 - Advanced Strength and Conditioning **Credits: (3)** Or
- GSE 6402 - Strength & Conditioning/Injury Prevention **Credits: (3)**

Skill Development: Select any PE prefix Credits: (2 required)

Elective Courses (at least 9 credit hours, 0-9 UD possible)

- ESS 2890 INT - Cooperative Work Experience **Credits: (1-6)**
- ESS 4320 - Special Topics **Credits: (3)**
- ESS 4370 - Exercise Physiology for Special Populations **Credits: (3)**
- ESS 4800 CRE - Directed Undergraduate Exercise Science Research **Credits: (1-4)**
- ESS 4830 - Directed Readings in Exercise Science **Credits: (1-3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**

- BSAD 3000 - Small Business Management **Credits: (3)** Or
- PS 3203 - Customer Service Techniques **Credits: (3)** Or
- PS 3563 - Principles of Sales Supervision **Credits: (3)** Or

Select two from the following courses:

- ENTR 2002 - Marketing Strategy for Small Business **Credits: (1)**
- ENTR 2004 - Branding for Small Business **Credits: (1)**
- ENTR 2008 - Legal Foundations for Small Business **Credits: (1)**
- ENTR 2010 - Funding For Small Business **Credits: (1)**
- ENTR 2011 - Results-Focused Leadership **Credits: (1)**
- ENTR 2012 - People Management for Small Business **Credits: (1)**

Required Support Courses (18-20 credit hours, 0 UD possible)

Human Andatomy and Physiology. Select one of these pairs:

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** Or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** or higher-level math
- CHEM 1010 PS - Introductory Chemistry **Credits: (3)** Or
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)** Or
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

Clinical Exercise Physiology Emphasis (55-57 credit hours, 16-29 UD possible)

The Clinical Exercise Physiology Emphasis Provides competencies needed for exercise physiologist in the cardiac rehabilitation setting.

Required Emphasis Courses (22 credit hours, 11-14 UD possible)

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HLTH 3000 - Foundations of Health Promotion **Credits: (3)** Or
- HLTH 3200 - Methods in Health Education **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)** Or
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- ESS 4370 - Exercise Physiology for Special Populations **Credits: (3)**
- ESS 4470 - Electrocardiography and Cardiac Rehabilitation **Credits: (2)**
- ESS 2890 INT - Cooperative Work Experience **Credits: (1-6)** and/or
- ESS 4890 INT - Cooperative Work Experience **Credits: (1-6)**
(3credit hours required)

Skill Development: Select one from the list below and 1 additional PE prefix.

- PE 1080 - Strength Training, Level I **Credits: (1)**
- PE 1010 - Aerobics, Level I **Credits: (1)**
- PE 1040 - Walking for Fitness, Level I **Credits: (1)**
- PE 1043 - Jogging, Level I **Credits: (1)**
- PE 1070 - Cross Training For Fitness, Level I **Credits: (1)**
- PE 1098 - Fitness for Life **Credits: (1)**
- PE 1300 - Swimming, Level I **Credits: (1)**

- PE 1310 - Water Aerobics, Level I **Credits: (1)**

Elective Courses (at least 15 credit hours, 5-15 UD possible)

- ESS 4320 - Special Topics **Credits: (3)**
- ESS 4800 CRE - Directed Undergraduate Exercise Science Research **Credits: (1-4)**
- ESS 4830 - Directed Readings in Exercise Science **Credits: (1-3)**
- NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**
- NUTR 3040 - Nutrition Assessment **Credits: (3)**
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- HTHS 3328 - Pathophysiology of Cells and Tissues **Credits: (2)**
- HTHS 3329 - Pathophysiology of Organs and Systems **Credits: (2)**

Completing the following RADT courses and HTHS 2110 & HTHS 2111 will prepare for Limited Practical Technologist (LPT) in Radiologic Science.

- RADT 1012 - Cardiographic Technician **Credits: (3)**
- RADT 1013 - Rhythm Analysis **Credits: (3)**
- RADT 1014 - Basic Cardiac Imaging **Credits: (3)**
- RADT 1025 - Limited Patient Care and Assessment **Credits: (2)**

Required Support Courses (18-20 credit hours, 0 UD possible)

Human Anatomy and Physiology. Select one of these pairs:

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** or higher-level math
- CHEM 1010 PS - Introductory Chemistry **Credits: (3)** or
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)** or
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

Exercise Science Emphasis (27-39 credit hours, 3-24 UD possible)

The Exercise Science Emphasis provides the scientific foundation in exercise and sport science while allowing students a wide range of course options needed for graduate programs.

Required Emphasis Courses (22 credit hours, 11-14 UD possible)

- ESS 4370 - Exercise Physiology for Special Populations **Credits: (3)**
- ESS 4470 - Electrocardiography and Cardiac Rehabilitation **Credits: (2)**
- ESS 2890 INT - Cooperative Work Experience **Credits: (1-6)** and/or
- ESS 4890 INT - Cooperative Work Experience **Credits: (1-6)**
- ESS 4320 - Special Topics **Credits: (3)**
- ESS 4800 CRE - Directed Undergraduate Exercise Science Research **Credits: (1-4)**
- ESS 4830 - Directed Readings in Exercise Science **Credits: (1-3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)** or
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**

Elective Courses (3-15 credit hours, 0-15 UD possible)

- HTHS 1101 - Medical Terminology **Credits: (2)**
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)** and
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3203 - The Immune System in Health & Disease **Credits: (3)**
- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2020 - College Physics II **Credits: (5)**
- PSY 3010 - Psychopathology **Credits: (3)**
- ZOOL 1610 LS - Principles of Zoology **Credits: (4)**
- ZOOL 3099 - Teaching the Human Anatomy Laboratory **Credits: (3)**
- ZOOL 3100 - Advanced Human Anatomy **Credits: (3)**

- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**

Required Support Courses (15 credit hours, 0 UD)

Human Anatomy and Physiology. Select one of these pairs:

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)** or higher level math
- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**

Nutrition Education (BS)

The Department of Exercise and Nutrition Sciences within the Moyes College of Education offers an undergraduate program in Nutrition Education with two emphasis options: Sports Nutrition; and Integrative Nutrition. Students may declare one or both emphases. The Nutrition Education major program prepares students for a variety of career options and for graduate school to pursue advanced degrees.

The Sport's Nutrition Educator graduate will have demonstrated competence and knowledge in chemistry, anatomy, physiology, diet analysis and design, nutrition assessment, sports and fitness nutrition, diet therapy, lifespan nutrition, research, and related exercise science topics with cultural application and sensitivity for individuals and athletes. Information is provided for typical graduate Registered Dietitian Nutritionist (RDN) program pre-requisites. The prerequisites vary somewhat from one graduate program to another and it is the student's responsibility to ensure that all pre-professional courses fulfill entrance requirements.

Integrative nutrition includes nutrition as it intersects with other related fields to support health and wellbeing of individuals and groups. The Integrative Nutrition Educator graduate will have demonstrated competence and knowledge in diet analysis and design, fitness nutrition, lifespan nutrition, sustainable cooking, and related exercise science, health, child and family studies, botany, microbiology, physical education, recreation, and/or psychology topics with cultural application and sensitivity.

- **Program Prerequisites:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A GPA of 2.75 or higher in all courses required for this major. The overall GPA must be 2.00 or better. No more than one "D" is acceptable.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a total of 60 credit hours for this major. This includes 12-17 credit hours of required general education requirements. A total of 40 upper division credit hours are required for graduation with 29-30 upper division hours possible within the required courses for the major track options.
- **Program Code:** 5015BS with Integrative Nutrition Emphasis (5052) or Sports Nutrition Emphasis (5053)
- **CIPC:** 190504

Advisement

All Nutrition Education students are encouraged to meet the ENS department academic advisor at least twice a year. Call 801-626-6696 or send a message to matthewsmith20@weber.edu for more information or to schedule an appointment. Also refer to the Department Advisor Referral List.

Admissions Requirements

Make application with the ENS Department and declare the program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Knowledge & Skills to solve nutrition and health related problems.
- Integrated & Applied Expertise to educate and communicate for optimal health promotion and human performance.
- Personal and Community Responsibility to optimize healthful behaviors of individuals, families, and/or communities through the life cycle with networking, resources, and. Support.
- High Impact Experiences from assimilating or engaging in research, group projects, senior capstone work, and/or community-based fieldwork.
- Diet Analysis & Design by performing accurate diet analysis and design according to dietary guidelines for Americans, for health, fitness, and/or sport performance and with comprehensive evaluation, interpretation, and application.
- Nutrient Needs & Functions by gender and activity level for various age groups and health conditions using healthy and sustainable food preparation methods.
- Nutrition Issues & Assessment across cultures and the lifespan, for fitness and sport performance, in culinary science, and for the prevention and treatment of various medical conditions.
- Human Structure and Function by understanding how nutrition intersects with living and nonliving hierarchies within the human body.

Major Course Requirements for BS Degree (60 credit hours)

Complete the Nutrition Education required core, select the Integrative Nutrition emphasis and/or Sports Nutrition emphasis and complete the required, elective, and general education and support courses in the selected emphasis.

Nutrition Education Required Core Courses (15 credit hours, 9 Upper Division credits)

- NUTR 2020 - Nutrition in the Life Cycle **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)**
- NUTR 3420 GLB - Multicultural Health & Nutrition **Credits: (3)**
- NUTR 4320 - Current Issues in Nutrition **Credits: (2)**
- NUTR 4990 - Senior Seminar **Credits: (1)**

INTEGRATIVE NUTRITION Emphasis

Required General Education Courses (14-17 credit hours, 0 Upper Division, 17 General Education)

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
OR
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**

- PSY 1010 SS - Introductory Psychology **Credits: (3)** or
- CHF 1500 SS/CC - Human Development **Credits: (3)**

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 1500 - Introduction to Mass Communication **Credits: (3)** or
- COMM 2010 HU - Mass Media and Society **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

Required Courses (5 credit hours, 2 Upper Division credits)

- NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits: (3)**
- NUTR 4860 INT - Field Experience **Credits: (1-2)** (2 credits required)

Electives (23 credit hours required, 23 Upper Division credits possible, check requirements for Upper Division)

- RHS 3080 - Evidence Based Practice for Rehabilitation Sciences **Credits: (3)**
- BTNY 2303 - Ethnobotany **Credits: (3)**
- BTNY 3583 - Medicinal Plants-Chemistry and Use **Credits: (4)**
- FAM 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- FAM 4400 - The Family in Stress **Credits: (3)**

- COMM 3820 - Persuasive Communication **Credits: (3)** or
- PS 3250 - Business Communication **Credits: (3)** or
- MGMT 3200 - Managerial Communications **Credits: (3)**

- HLTH 1110 - Stress Management **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 4700 - Wellness Coaching **Credits: (3)**
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
- MICR 3203 - The Immune System in Health & Disease **Credits: (3)**
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- NUTR 4520 CRE - Directed Undergraduate Nutrition Research **Credits: (1-4)** (up to 6 credits allowed in degree)
- PE 1080 - Strength Training, Level I **Credits: (1)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**

- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**
- PSY 3000 - Child Psychology **Credits: (3)** or
- PSY 3140 - Adolescent Psychology **Credits: (3)** or
- PSY 3255 - Conditioning, Learning, & Behavior Modification **Credits: (3)**
- PS 3203 - Customer Service Techniques **Credits: (3)** or
- PS 3563 - Principles of Sales Supervision **Credits: (3)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- NUTR 3040 - Nutrition Assessment **Credits: (3)**
- NUTR 4830 CRE - Directed Readings **Credits: (1-3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**
- NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**
- NUTR 3070 - Advanced Food Science **Credits: (3)**

SPORTS NUTRITION Emphasis

Required General Education and Support Courses (16 credit hours, 12 General Education, 0 Upper Division)

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**

Required Courses (25 credit hours, 15 Upper Division credits)

- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)**
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- NUTR 3070 - Advanced Food Science **Credits: (3)**
- NUTR 3040 - Nutrition Assessment **Credits: (3)**
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**

Electives (4 credit hours required, 4 Upper Division credits possible)

- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**

- ESS 3500 - Biomechanics **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- ESS 3600 - Measurement and Statistics in Exercise Science **Credits: (3)**
- ESS 4370 - Exercise Physiology for Special Populations **Credits: (3)**
- NUTR 1120 - Nutrition for the Athlete **Credits: (2)**
- NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits: (3)**
- NUTR 4520 CRE - Directed Undergraduate Nutrition Research **Credits: (1-4)** (up to 6 credits allowed in degree)
- NUTR 4860 INT - Field Experience **Credits: (1-2)**
- PE 1080 - Strength Training, Level I **Credits: (1)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)** or
- PSY 3010 - Psychopathology **Credits: (3)** or
- RHS 3200 - Psychology of Sport, Injury & Rehabilitation **Credits: (3)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- NUTR 4830 CRE - Directed Readings **Credits: (1-3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**
- BTNY 3583 - Medicinal Plants-Chemistry and Use **Credits: (4)**

Additional Suggested Courses Needed for many Graduate Registered Dietitian programs (includes General Education)

- ECON 1010 SS - Economics as a Social Science **Credits: (3)** or
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)** or
- SOC 1010 SS/CC - Introduction to Sociology **Credits: (3)** or
- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- MATH 1050 QL - College Algebra **Credits: (4)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Exercise Science (BIS)

Bachelor of Integrated Studies

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.

- **Credit Hour Requirements:** The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.
- **Program Code:** 2059
- **CIPC:** 510913

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion
Occupational Health Education
Clinical Health Education (*See School of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)
Family Life Health Promotion
Gerontological Health Promotion
Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis
Dietary Prescription
Nutrition Education
Weight Management
Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport
Corporate Fitness
Community Fitness
Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Exercise Science Emphasis

Upper Division Hours 13, Total Hours Required 18

- HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)**
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**
- ESS 3500 - Biomechanics **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- ESS 4370 - Exercise Physiology for Special Populations **Credits: (3)**
- ESS 4990 - Senior Seminar **Credits: (1)**

Nutrition Education (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Prior departmental approval is required.
- **Grade Requirements:** A GPA of 2.5 or better in courses used toward the minor.
- **Credit Hour Requirements:** A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).
- **Program Code:** 5015
- **CIPC:** 190504

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Course Requirements for BIS Emphasis

Required Core Courses (7-9 credit hours)

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 4830 CRE - Directed Readings **Credits: (1-3)**

Elective Courses (9-11 credit hours)

- NUTR 1120 - Nutrition for the Athlete **Credits: (2)**
- NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- NUTR 3420 GLB - Multicultural Health & Nutrition **Credits: (3)**
- NUTR 4320 - Current Issues in Nutrition **Credits: (2)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**
- NUTR 4520 CRE - Directed Undergraduate Nutrition Research **Credits: (1-4)**
- NUTR 4860 INT - Field Experience **Credits: (1-2)**
- NUTR 2020 - Nutrition in the Life Cycle **Credits: (3)**
- NUTR 3040 - Nutrition Assessment **Credits: (3)**
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- NUTR 3070 - Advanced Food Science **Credits: (3)**
- NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**

Minor

Exercise and Sport Science Minor

- **Program Prerequisite:** Prior departmental approval is required.
- **Grade Requirements:** A GPA of 2.5 or better in courses used toward the minor.
- **Credit Hour Requirements:** Total of 16 credit hours are required with 13 upper division hours in required courses.
- **Program Code:** 5049
- **CIPC:** 310505

Course Required for Minor

Required Core Courses (7 credit hours)

- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**
- ESS 4990 - Senior Seminar **Credits: (1)**

Elective Courses (at least 9 credit hours, 0-9 UD possible)

Select three courses from the list below:

- ESS 3500 - Biomechanics **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**

- ESS 4370 - Exercise Physiology for Special Populations **Credits: (3)**
- ESS 4800 CRE - Directed Undergraduate Exercise Science Research **Credits: (1-4)**
- ESS 4830 - Directed Readings in Exercise Science **Credits: (1-3)**

Note

Please note that there are pre-requisites to the required and elective ESS courses.

Nutrition Education Minor

- **Program Prerequisite:** Prior departmental approval is required.
- **Grade Requirements:** A GPA of 2.5 or better in courses used toward the minor.
- **Credit Hour Requirements:** A total of 18 credit hours is required, of which a minimum of 7 credit hours must be upper division (courses numbered 3000 or higher).
- **Program Code:** 5015
- **CIPC:** 190504

Course Requirements for Minor

Required Core Courses (11 credit hours)

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 3420 GLB - Multicultural Health & Nutrition **Credits: (3)**
- NUTR 4320 - Current Issues in Nutrition **Credits: (2)**

Elective Courses (7 credit hours)

Select 7 credit hours from the following:

- NUTR 1120 - Nutrition for the Athlete **Credits: (2)**
- NUTR 1240 SUS - Nutrition and Sustainable Cooking **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)**
- NUTR 3220 - Foundations in Diet Therapy **Credits: (3)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**
- NUTR 4520 CRE - Directed Undergraduate Nutrition Research **Credits: (1-4)**
- NUTR 4860 INT - Field Experience **Credits: (1-2)**
- NUTR 2020 - Nutrition in the Life Cycle **Credits: (3)**
- NUTR 4440 - Advanced Human Nutrition **Credits: (3)**
- NUTR 3040 - Nutrition Assessment **Credits: (3)**
- NUTR 3070 - Advanced Food Science **Credits: (3)**

Department of Dental Hygiene

Department Chair: Frances McConaughy

Location: Allied Health, Room 475

Telephone: 801-626-6130

Professor: Frances McConaughy; **Associate Professors:** Susan Alexander, Shelly Costley, Shane Perry;

Assistant Professors: Kimberlee Caldwell, Joe Hopkin; **Instructor:** Kathren Diamond, Amanda Gonzalez, Shannon Smith

The dental hygienist is a health educator and clinician concerned with the prevention of dental disease. Dental hygienists perform their services in a variety of settings, and are members of the dental team who are licensed to provide services directly to the client. Dental hygienists provide oral health education, remove deposits from around the teeth and gums, expose dental radiographs and deliver other treatments to prevent and manage dental disease.

The dental hygiene curriculum is three years in length. The first year may be completed at any accredited college or university and consists of pre dental hygiene courses. These courses include: chemistry, anatomy, physiology, microbiology, English, public speaking, psychology, sociology and nutrition. This year of pre-dental hygiene courses is followed by two years of specialized study in dental hygiene.

The two year dental hygiene curriculum includes practical experience in the WSU Dental Hygiene Clinic. Students also rotate to off-campus sites for extended clinical experiences.

Students who successfully complete the three-year curriculum are awarded an Associate of Science degree from Weber State. A fourth year leading to a bachelor's degree is optional. To become a licensed dental hygienist, each student must successfully pass a written National Board Exam and a practical regional exam. The Dental Hygiene Program is accredited by the American Dental Association's Commission on Dental Accreditation, a specialized accrediting agency recognized by the Council on Post-secondary Accreditation and the United States Department of Education.

Associate of Science

Dental Hygiene (AS)

- **Program Prerequisite:** Completion of the prerequisite courses listed under the Admission Requirements below.
- **Grade Requirements:** Prerequisite course work must meet a standard of 2.5 GPA. All courses required for the major must be successfully completed with a grade of "C" or better (a "C-" grade is not acceptable).
- **Credit Hour Requirements:** A total of 44 credit hours of dental science course work is required for the Associate degree. Additionally, 35 hours of prerequisites are necessary. Students must also complete nine additional credit hours to meet WSU requirements for the Associate of Science Degree. Total credit hour requirements equal 88 hours.
- **Program Code:** 2002AS
- **CIPC:** 510602

Advisement

Prospective students are advised by the advisement counselors in the Dr. Ezekiel R. Dumke College of Health Professions Advisement office. The number of this office is: 1-801-626-6136. The Dr. Ezekiel R. Dumke College of Health Professions Advisement Office will send brochures and applications upon request. Individual counseling appointments can be made for direct assistance.

Admission Requirements

Students must apply to and be accepted into the program to be admitted into any of the courses offered by and required for a degree in Dental Hygiene. The science and all prerequisite courses are listed below and must be completed with a minimum GPA of 2.5 prior to being admitted into the program. These basic science courses must have been taken within seven years of the date of anticipated enrollment in the Dental Hygiene Program.

- ZOOL 2320 - Human Anatomy **(4)**
- ZOOL 2420 LS - Human Physiology **(4)**
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **(5)** **OR** CHEM 1110 PS - Elementary Chemistry **(5)**
- MICR 1113 LS - Introductory Microbiology **(3)**

Integrated Human Anatomy & Physiology I and II (HTHS 2110 and HTHS 2111) may be substituted for the four courses listed above. This core will award 4 credit hours to the General Education requirement of Life and Physical Sciences. Three more credit hours of approved Physical Science are needed to complete this category of the general education requirements.

Other prerequisite courses include:

- HTHS 2230 - Introductory Pathophysiology **(3)**
- ENGL 1010 EN1 - Introductory College Writing **(3)**
- ENGL 2010 EN2 - Intermediate College Writing **(3)**
- PSY 1010 SS - Introductory Psychology **(3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **(3)**
- Math QL - Intermediate Algebra **(4)**
- Information Literacy, part D

Either

- SOC 1010 SS/CC - Introduction to Sociology **(3)** or
- SOC 1020 SS/CC - Contemporary Social Issues **(3)**

Either

- COMM 1020 HU - Principles of Public Speaking **(3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **(3)**

Application Process

Applicants to the program must complete a specific Dental Hygiene Program application to be considered for admission into the Dental Hygiene Program. The application can be obtained online (available on the DHP website) and also requires that you submit current transcripts and verification of previous health-related work experience. The application deadline for Fall Semester enrollment is January 15 of each year. A \$25.00 application fee must be paid at the time the application is submitted.

General Education

Refer to Degree Requirements for Associate of Science requirements. The majority of general education requirements for the AS degree are taken as prerequisites to the program. However, students must complete all Associate of Science general education requirements to earn the degree in Dental Hygiene.

Major Course Requirements for Associate of Science Degree

Dental Science Courses Required

- DENT 2201 - Concepts of Community Dental Health **Credits: (1)**
- DENT 2205 - Head/Neck and Dental Anatomy **Credits: (2)**
- DENT 2206 - Clinical Dental Hygiene/Radiology **Credits: (4)**
- DENT 2207 - Dental Hygiene I **Credits: (3)**
- DENT 2208 - Radiology **Credits: (1)**
- DENT 2211 - Oral Pathology **Credits: (3)**
- DENT 2215 - Periodontology **Credits: (2)**
- DENT 2216 INT - Clinical Dental Hygiene II **Credits: (3)**
- DENT 2217 - Dental Hygiene II **Credits: (3)**
- DENT 2219 - Dental Materials **Credits: (1)**
- DENT 2235 - Dental Medicine I **Credits: (2)**
- DENT 2250 - Professional Ethics **Credits: (1)**
- DENT 3301 INT - Community Dental Health Service Learning Lab **Credits: (1)**
- DENT 3305 - Pain Control **Credits: (3)**
- DENT 3336 INT - Clinical Dental Hygiene III **Credits: (4)**
- DENT 3337 - Dental Hygiene III **Credits: (3)**
- DENT 3346 INT - Clinical Dental Hygiene IV **Credits: (5)**
- DENT 3347 - Dental Hygiene IV **Credits: (2)**

Dental Science Electives

- DENT 2800 - Individual Research **Credits: (1-3)**
- DENT 2830 - Directed Readings, Projects and Research **Credits: (1-3)**
- DENT 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- DENT 3130 - Independent Study **Credits: (1-3)**
- DENT 4405 INT - Dental Hygiene Clinical Teaching Practice **Credits: (4)**
- DENT 4410 - Dental Hygiene Needs of the Geriatric Client **Credits: (2)**
- DENT 4530 INT CRE - Principles and Application of Evidence-Based Dental Hygiene Practice **Credits: (2)**
- DENT 4780 - Baccalaureate Thesis **Credits: (3)**
- DENT 4800 - Individual Research **Credits: (1-3)**
- DENT 4810 - Summer Elective Clinic **Credits: (4)**
- DENT 4830 - Directed Readings, Projects and Research **Credits: (1-3)**
- DENT 4890 INT - Advanced Community or Clinical Work Experience **Credits: (2)**
- DENT 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- DENT 4990 - Seminar **Credits: (1-2)**

Bachelor of Science

Dental Hygiene (BS)

- **Program Prerequisite:** Successful completion of an Associate of Science Degree in Dental Hygiene, National Board Examination and a Regional or State Practical Exam. Maintenance of a current dental hygiene license
- **Minor:** Not Required.

- **Grade Requirements:** All courses required for the major must be successfully completed with a grade of "C" or better (a "C-" grade is not acceptable).
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 88 of these are taken for the AS degree and an additional 7 must be taken to complete the BS in Dental Hygiene degree. A prerequisite to the Baccalaureate Thesis course is an upper division Research and Statistics course (numbered 3000 or above, minimum of 3 cr hrs). Thirteen more upper division hours are selected by the student from a menu of elective courses. Transcripts of transfer students will be evaluated on an individual basis. Transfer students must also complete the residency requirement (30 credit hours of WSU course work).
- **Program Code:** 2002BS
- **CIPC:** 510602

Advisement

Bachelor of Science Dental Hygiene majors must complete a contract with the Dental Hygiene Department Chair. (Also refer to the Department Advisor Referral List.)

Admission Requirements

An Advanced Dental Hygiene major application and a program of study contract must be completed with the Dental Hygiene Department Chair prior to beginning any of the advanced courses.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Any general education requirements not taken as part of the Associate of Science program must be completed in order to graduate with a Bachelor of Science Degree.

Program Learning Outcomes

- Prepare qualified dental hygienists who meet professional and Department Competencies for Dental Hygiene Practice including, Professional Knowledge, Health Promotion & Disease Prevention, Professional Development & Practice, Dental Hygiene Process of Care, and Person-Centered Care.
- Maintain a curriculum that: provides relevant and current dental hygiene education, discipline knowledge, supports an inclusive learning environment, and provides skill development including technological advances for students.
- Maintain a curriculum that provides high-impact educational experiences, including but not limited to unique clinical and community health settings, education, research, and service.
- Serve as a resource of oral health knowledge and education for the community.
- Foster professional and leadership development through engagement in education, scholarship, and service to the University, our Professional Associations and our community.
- Maintain admissions standards and create an inclusive student body that reflects the community we serve.

Major Course Requirements for BS Degree

To be taken in addition to the courses required for an Dental Hygiene (AS).

Dental Science Courses Required (7 credit hours) **

- DENT 4530 INT CRE - Principles and Application of Evidence-Based Dental Hygiene Practice **Credits: (2)**
- DENT 4780 - Baccalaureate Thesis **Credits: (3)** *
- DENT 4890 INT - Advanced Community or Clinical Work Experience **Credits: (2)**

Note:

** A prerequisite to the Baccalaureate Thesis course is an upper division Research and Statistics course (numbered 3000 or above, minimum of 3 cr hrs).*

*** Each student must also select upper division course work bring the total of upper division hours to 40 credit hours.*

School of Health Administrative Services

Department Chair: Dr. Darcy Carter

Location: Interprofessional Education Building, Rm 210

Telephone Contact: Kristi Andersen 801-626-7242

Professors: Kenneth Johnson, Ann Millner; **Associate Professors:** Darcy Carter, Heather Merkley, Cory Moss;

Assistant Professors: Lindsay Garr, Miland Palmer; **Instructors:** Steven Bateman, Brian Cottle, Darin Day, Richard Martin, Jason Riegert

The Health Administrative Services Department (HAS) provides an opportunity for health practitioners, students in the health disciplines, and others to prepare themselves for healthcare management, healthcare information, and public health roles in both traditional and nontraditional health care settings. In addition, many students use the programs in the department to prepare themselves for graduate studies in health administration and other related disciplines. The curriculum is organized so that students may tailor their studies in any one of the following program options: Health Administration, Health Information Management (HIM), Public Health, and Health Information Technology. All study emphases lead to a Bachelor's Degree except for Health Information Technology, which leads to an Associate of Applied Science degree. Two Institutional Certificate programs are also housed within the HAS Department in both Healthcare Coding and Classification as well as a Post-Baccalaureate certificate program in Health Information Management. A Master's Degree (with two different formats) is also offered in Health Administration within the HAS Department. For more information on this program visit www.weber.edu/mha. The HAS Department was developed to better prepare health practitioners and others to take advantage of the challenges and opportunities facing them as vital members of the nation's health care team.

Bachelor Degrees

- **Health Administration:** Designed to provide health care practitioners and others with the skills and competencies to function as supervisors and managers in health care settings. In the changing health care environment, new and challenging demands are placed on health care personnel to expand their conventional roles to include increased administrative responsibilities. This curriculum provides a working foundation in management and interpersonal skills, while at the same time introducing the student to the health care delivery system and its many and varied issues and challenges. Graduates are not only better prepared to assume increased management responsibilities, but to do so with a better understanding of the complex system in which they work. The degree is certified by the Association of University Programs in Health Administration.
- **Health Information Management:** This profession focuses on health care data and the management of health care information resources. The profession addresses the nature and structure of health data and the translation of that data into usable forms of information which support the health care of individuals and populations. HIM professionals collect, integrate, and analyze primary and secondary collections of data and manage information resources related to the research, planning, provision, and evaluation of health care services. This emphasis provides students with the knowledge and skills necessary to become self-directed

learners who possess critical-thinking skills and problem-solving abilities, communication and interpersonal skills, a commitment to life-long learning, and important ethical values. The program fosters the acquisition of leadership abilities and systems thinking necessary for adapting careers within a changing health care environment. The HIM emphasis is accredited by the Commission on Accreditation for Health Informatics and Information Management Education, making students eligible to write the national certification exam of the AHIMA, the Registered Health Information Administrator.

Public Health

The Bachelor of Science in Public Health prepares graduates to take entry-level jobs in epidemiology and public health administration and local and state department of health. Graduates will also be prepared to fill positions supporting public health research at academic institutions, pharmaceutical companies, and private research organizations. Additionally, completion of the degree will prepare students to enter a graduate program in Public Health, Biomedical Informatics, or Health Administration.

Associate Degree

Health Information Technology: Health Information Technology is a program offered under Health Administrative Services.

Health Information Technicians perform the essential functions of maintaining health data and records in acute, long-term, and ambulatory health care settings. Opportunities also exist in related health care settings, e.g., insurance companies, medical clinics, computer software vendors, and health maintenance organizations. These functions include, but are not limited to, the coding of diseases and operations, maintaining statistics, transcribing medical reports, performing DRG and utilization review procedures, supervising employees.

In addition to classroom and laboratory course work, students participate in a supervised clinical experience in a hospital medical record department or other health information environment.

The Health Information Technology program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education.

Successful completion of the Health Information Technology two-year program leads to an associate of applied science degree and the student is then eligible to sit for the national certification exam. Students passing this national examination may use the professional designation Registered Health Information Technician.

Institutional Certificates

Healthcare Coding and Classification: This program develops the ability of students to use the International Classification of Diseases, version 10 (ICD-10-CM), and the International Classification of Diseases, version 10, Procedural Coding System (ICD-10-PCS) of the U.S. Department of Health and Human Services and the Common Procedural Terminology (CPT) of the American Medical Association. The program develops expertise for both outpatient/office practice and acute-care inpatient levels of proficiency. Students will also use and apply both coding schemes in the systems of reimbursement for healthcare services.

Associate of Applied Science

Health Information Technology (AAS)

- **Program Prerequisite:** HTHS 1101 - Medical Terminology and HTHS 2110 LS - Integrated Human Anatomy and Physiology I with a grade of "C" or better.

- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in required courses (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 63 credit hours is required for graduation.
- **Program Code:** 2025AAS
- **CIPC:** 510707

Advisement

After the student has completed all the prerequisites they should meet with a faculty advisor for course and program advisement. Call 801-626-7242 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Each student must complete a program application after successful completion (grade of C or better) of the program pre-requisites.

All students admitted to the WSU Health Administrative Services AAS and BS program may be required to comply with a departmental background check and drug screen test prior to internship or other professional practice experience. If the background check reveals a history of convicted criminal actions, or the drug test results are positive for controlled substances, the students may be dismissed from the program and will not be entitled to any refunds of tuition or other fees. Most Healthcare employers have this same requirement as a condition of employment.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements.

Program Learning Outcomes

- Unit 1: Applied Sciences
- Unit 2: Professionalism
- Unit 3: Health Law and Policy
- Unit 4: Data Management
- Unit 5: informatics and Data Analytics
- Unit 6: Clinical Coding
- Unit 7: Financial and Revenue Cycle Management
- Unit 8: Quality, Risk Management and Safety
- Unit 9: Operational Management
- Unit 10: Leadership

Major Course Requirements for AAS Degree

Program Prerequisites (6 credit hours)

- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)**

Health Information Courses Required (36 credit hours)

- HIM 2000 - Introduction to Health Information Systems and Settings **Credits: (3)**
- HIM 2250 - Health Care Privacy and Security **Credits: (3)**
- HIM 2300 - Diagnosis Coding **Credits: (3)**
- HIM 2320 - Ambulatory and Physician Office Coding **Credits: (3)**
- HIM 2330 - Healthcare Reimbursement **Credits: (2)**
- HIM 2410 - ICD-10-PCS Coding **Credits: (3)**
- HIM 2430 - Pathophysiology & Pharmacology **Credits: (3)**
- HIM 2500 - Healthcare Data Management **Credits: (3)**
- HIM 2861 INT - (2nd Year) Professional Practice Experiences **Credits: (2)**
- HIM 2862 - Professional Practice Management **Credits: (2)**
- HIM 2863 - Professional Practice Experience in Coding **Credits: (3)**
- HIM 3000 - Health Informatics **Credits: (3)**
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**

Support Courses Required (17.5-21 credit hours)

- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- HAS 3000 - The Healthcare System **Credits: (3)**
- WEB 1700 - Introduction to Computer Applications **Credits: (3)**
or
- WEB 1701 - Document Creation **Credits: (1)** and
- WEB 1702 - Content, Internet Identity, and Device Management **Credits: (1)** and
- WEB 1703 - Data Manipulation, Visualization, and Presentation **Credits: (1)**
or
- WEB 1501 - Document Creation Competency Exam **Credits: (.5)** and
- WEB 1502 - Content, Internet Identity, and Device Management Competency Exam **Credits: (.5)** and
- WEB 1503 - Data Manipulation, Visualization, and Presentation Competency Exam **Credits: (.5)**
- MATH 1030 QL - Contemporary Mathematics **Credits: (3)** or
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)** or
- MATH 1035 QL - Contemporary Mathematics with Prerequisite Topics **Credits: (6)**

Institutional Certificate

Healthcare Coding & Classification Certificate of Proficiency

- **Grade Requirements:** To receive a Healthcare Coding & Classification Certificate of Proficiency the student must complete all courses in the certificate program with a grade of "C" or higher (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** 27 credit hours as specified.

- **Gainful Employment Disclosure**
- **Program Code:** 2007CP
- **CIPC:** 510713

Program Description

This program provides training to candidates interested in the application of disease and operation codes to episodes of care in the U.S. healthcare system. There currently is a nationwide shortage of qualified healthcare coders. Qualified coders are needed at all levels of the healthcare system to provide coded clinical data for reimbursement and research purposes.

The program develops the ability of students to use the International Classification of Diseases, version 10 (ICD-10-CM), and the International Classification of Diseases, version 10, Procedural Coding System (ICD-10-PCS) of the U.S. Department of Health and Human Services and the Common Procedural Terminology (CPT) of the American Medical Association. The program develops expertise for both outpatient/office practice and acute-care inpatient levels of proficiency. Students will use and apply both coding schemes in the systems of reimbursement for healthcare services.

Completion of all courses earns the student a Healthcare Coding & Classification Certificate of Proficiency and prepares them to sit for the American Health Information Management Association's Certified Coding Associate (CCA) certification examination.

Program Learning Outcomes

- Unit 1: Applied Sciences
- Unit 2: Professionalism
- Unit 3: Health Law and Policy
- Unit 4: Data Management
- Unit 5: Informatics and Data Analytics
- Unit 6: Clinical Coding
- Unit 7: Financial and Revenue Cycle Management
- Unit 8: Quality, Risk Management and Safety
- Unit 9: Operational Management
- Unit 10: Leadership

Course Requirements for Institutional Certificate

Program Prerequisites (6 credit hours)

- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)**

Courses Required (21 credit hours)

- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

- HIM 2300 - Diagnosis Coding **Credits: (3)**
- HIM 2320 - Ambulatory and Physician Office Coding **Credits: (3)**
- HIM 2330 - Healthcare Reimbursement **Credits: (2)**
- HIM 2410 - ICD-10-PCS Coding **Credits: (3)**
- HIM 2863 - Professional Practice Experience in Coding **Credits: (3)**
- HIM 2430 - Pathophysiology & Pharmacology **Credits: (3)**

Bachelor of Science

Health Administration (BS)

Health administration is rapidly growing, as is the demand for qualified individuals. A bachelor's degree in our Health Administration program prepares you for a leadership role in hospitals, clinics, nursing homes, health departments, rehabilitation centers, skilled nursing facilities and a variety of other organizations within the healthcare industry. As a fully certified AUPHA program, our Health Administration degree provides the skills and competencies required for supervisors and managers in a healthcare setting.

- **Program Prerequisite:** Health Administration has a set of course prerequisites which are expected to be completed prior to declaration of cohort for this major. See the list of prerequisites in the course requirements discussed below. An application for this program is required upon completion of general education and prerequisites. A cohort designation for the major will be made upon receipt and processing of the program application. Students will not be allowed to register for classes in the major without designation of this cohort.

All students admitted to the Health Administration BS program may be required to comply with a departmental background check and drug screen test prior to internship or other professional practice experience. If the background check reveals a history of convicted criminal actions, or the drug test results are positive for controlled substances, then the students may be dismissed from the program and will not be entitled to any refunds of tuition or other fees. Most healthcare employers have this same requirement as a condition of employment.

- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for all emphases (a grade of "C-" is not acceptable), in addition to a minimum cumulative GPA of 2.75.
- **Credit Hour Requirements:** 120 credit hours are required for graduation. Forty-(40) upper division credit hours is required (courses numbered 3000 and above). Please see requirements under emphases as discussed below.
- **Program Code:** 2078BS
- **CIPC:** 510701

Advisement

Students are encouraged to meet with a faculty advisor annually for course and program advisement. For additional information, or to schedule an appointment, call 801-626-7242.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study. In addition, the following steps are required:

1. Schedule an appointment for academic advisement with a member of the Department of Health Administrative Services faculty.
2. Make application to the program and the Dr. Ezekiel R. Dumke College of Health Professions. Overall GPA of 2.75 is required.

General Education

All general education courses should be completed before applying to the Health Administration program. Refer to Degree Requirements for Bachelor of Science requirements. Some of the courses required by this program may also fulfill general education requirements. Check with a department advisor if you have questions.

Program Learning Outcomes

- Communication - Graduates will demonstrate professional level proficiency in written and oral communication, be able to communicate across health disciplines, prepare effective reports, and make business presentations.
- Collaboration and Teamwork - Graduates will be able to work effectively in teams and to collaborate and develop positive relationships with peers, subordinates and superiors.
- Critical and Creative Thinking - Graduates will be able to seek information using management tools to collect data and apply metrics, to analyze data, form conclusions and make recommendations even when dealing with ambiguities in the information.
- Professionalism - Graduates will have the ability to align personal and organizational conduct with ethical, legal, and professional standards and will be responsible for self direction.
- Leadership - Graduates will have an understanding of supervisory and management principles as well as the ability to effect change in teams and organizational units through positive influence on both peers and subordinates.
- Organizational Awareness and Governance - Graduates will understand the structure, governance, and functioning of health care entities and systems as well as the importance of integration across the health care spectrum.
- Community Awareness - Graduates will have the ability to investigate population health characteristics and assess population health needs in a local community. The graduate should demonstrate an awareness of the ecological and social factors that influence health behavior.
- Human Resources Management - Graduates will understand and be able to implement the human resource processes needed for staffing and operating a healthcare organization.
- Financial Management - Graduates will have the ability to examine and interpret financial and accounting documents, understand and utilize budgets, understand third party payment processes, apply variance analysis and other techniques to managerial accounting information in order to understand and improve operations.
- Information Technology Management - Graduates will have the ability to recognize critical elements of information technology and use information technology for decision support.
- Performance Improvement and Quality Management - Graduates will have the ability to use quality and systems tools to measure, promote and implement quality improvement and patient satisfaction initiatives in health service organizations while accepting shared accountability for outcomes.
- Marketing and Strategic Planning - Graduates will have the ability to conduct an external and internal environmental analysis for a health services organization, develop a marketing plan for a health services product, and understand the principles of strategy formulation.

Major Course Requirements

See department for recommended sequence of major courses.

Required Prerequisite Courses

The following prerequisite courses must be completed with a grade of "C" or higher (a grade of "C-" is not acceptable) prior to enrollment in required courses of the program.

- HAS 3000 - The Healthcare System **Credits: (3)**
- HTHS 1101 - Medical Terminology **Credits: (2)**

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
OR
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
OR
- ZOOL 1020 LS - Human Biology **Credits: (3)**

- ACTG 2010 - Survey of Accounting I **Credits: (3)**

- ECON 1010 SS - Economics as a Social Science **Credits: (3)** or
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**

Required Courses (50-53 credit hours)

- HAS 3010 - Professionalism in Healthcare **Credits: (3)**
- HAS 3020 - Healthcare Marketing **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- HAS 3230 - Health Communication **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**
- HAS 3750 - Healthcare Financial Administration **Credits: (3)**
- HAS 4320 - Healthcare Economics and Policy **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- HAS 4525 - Post-Acute Care Operations **Credits: (3)**
- HAS 4741 - Senior Seminar Capstone **Credits: (3)**
- HAS 4860 INT - Practicum/Internship **Credits: (2-6)** (3 or 6 credit hours required)
- HIM 2330 - Healthcare Reimbursement **Credits: (2)**
- HIM 3000 - Health Informatics **Credits: (3)**
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**
- HIM 3550 - Healthcare Data Analytics **Credits: (3)**

Elective Courses (6 credit hours required)

- HAS 3190 - Cultural Competency in Patient Education **Credits: (3)**
- HAS 4160 - Medical Practice Management **Credits: (3)**
- HAS 4410 - Clinical Instructional Design and Evaluation **Credits: (3)**
- HAS 4420 - Clinical Instructional Skills **Credits: (3)**
- HAS 4520 - Long-Term Care Administration **Credits: (3)**

- HAS 4620 - International Health and Healthcare **Credits: (3)**
- HAS 4800 - Individual Study **Credits: (1-3)**
- HAS 4850 - Study Abroad **Credits: (1-6)**
- HAS 4990 - Seminar **Credits: (1)**
- HIM 3610 - Advanced Principles of Revenue Cycle Management **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**

Health Information Management (BS)

Health Information Management (HIM) involves the organization, protection, and analysis of health information. HIM professionals work to ensure that patient data is accurate, complete, and accessible and that it is used to provide quality patient care. HIM professionals are vital parts of healthcare organizations of all sizes from private physician offices to large hospital complexes.

Program Prerequisite: Health Information Management (BS) degree requires the following prerequisites:

- HTHS 1101 - Medical Terminology **(2)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **(4)**

An application for this program is required upon completion of these prerequisite courses. A cohort designation for the major will be made upon receipt and processing of the program application. Students will not be allowed to register for classes in the major without designation of this cohort.

All students admitted to the Health Information Management (BS) degree program will be required to comply with a departmental background check, drug screen, provide proof of immunizations prior to internship or other professional practice experience. If the background check reveals a history of convicted criminal actions, or the drug test results are positive for controlled substances, then the students may be dismissed from the program and will not be entitled to any refunds of tuition or other fees. Most healthcare employers have this same requirement as a condition of employment.

- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for all emphases (a grade of "C-" is not acceptable), in addition to a minimum cumulative GPA of 2.75.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours is required (courses numbered 3000 and above). Please see requirements under emphases as discussed below.
- **Program Code:** 2079BS
- **CIPC:** 510706

Advisement

Students are encouraged to meet with a faculty advisor annually for course and program advisement. Call 801-626-7242 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study. In addition, the following steps are required:

1. Schedule an appointment for academic advisement with a member of the Department of Health Administrative Services faculty.

2. After completing the program prerequisites, make application to the program and the Dr. Ezekiel R. Dumke College of Health Professions. Applications will be processed two times each academic year.
3. Overall GPA of 2.75 is required.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Some of the courses required by this program may also fulfill general education requirements. Check with a department advisor if you have questions.

HIM Program Learning Outcomes

- Unit 1: Applied Sciences
- Unit 2: Professionalism
- Unit 3: Health Law and Policy
- Unit 4: Data Management
- Unit 5: informatics and Data Analytics
- Unit 6: Clinical Coding
- Unit 7: Financial and Revenue Cycle Management
- Unit 8: Quality, Risk Management and Safety
- Unit 9: Operational Management
- Unit 10: Leadership
- Unit 11: Research and Scholarly Activities

Major Course Requirements

See department for recommended sequence of major courses.

Required Prerequisite Courses

The following prerequisite courses must be completed with a grade of "C" or higher (a grade of "C-" is not acceptable) prior to enrollment in required courses of the program.

- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**

Required Courses (79 credit hours)

- HIM 2000 - Introduction to Health Information Systems and Settings **Credits: (3)**
- HIM 2250 - Health Care Privacy and Security **Credits: (3)**
- HIM 2300 - Diagnosis Coding **Credits: (3)**
- HIM 2320 - Ambulatory and Physician Office Coding **Credits: (3)**
- HIM 2330 - Healthcare Reimbursement **Credits: (2)**
- HIM 2410 - ICD-10-PCS Coding **Credits: (3)**
- HIM 2500 - Healthcare Data Management **Credits: (3)**
- HIM 2861 INT - (2nd Year) Professional Practice Experiences **Credits: (2)**
- HIM 2862 - Professional Practice Management **Credits: (2)**
- HIM 2863 - Professional Practice Experience in Coding **Credits: (3)**
- HIM 3000 - Health Informatics **Credits: (3)**

- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**
- HIM 3450 - Healthcare Systems Analysis and Design **Credits: (3)**
- PUBH 3500 - Biomedical Research Support **Credits: (2)**
- HIM 3550 - Healthcare Data Analytics **Credits: (3)**
- HIM 3610 - Advanced Principles of Revenue Cycle Management **Credits: (3)**
- HIM 4100 - Health Information Services Management **Credits: (3)**
- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- HAS 3000 - The Healthcare System **Credits: (3)**
- HAS 3230 - Health Communication **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**
- HAS 3750 - Healthcare Financial Administration **Credits: (3)**
- HAS 4860 INT - Practicum/Internship **Credits: (2-6)** (3 credits required)
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
- MIS 2010 - Business Computer Skills **Credits: (1)**
- HIM 2430 - Pathophysiology & Pharmacology **Credits: (3)**

Public Health (BSPH)

Program Prerequisite: Completion of general education requirements and prerequisite courses listed below. An application for the program is required upon completion of general education and prerequisites. A cohort designation for the major will be made upon receipt and processing of the program application. Students will not be allowed to register for classes in the major without designation of this cohort.

All students admitted within the WSU Health Administrative Services department may be required to comply with a departmental background check and drug screen test prior to internship or other professional practice experience. If the background check reveals a history of convicted criminal actions, or the drug test results are positive for controlled substances, then the students may be dismissed from the program and will not be entitled to any refunds of tuition or other fees. Most Health Care and Public Health employers have this same requirement as a condition of employment.

Minor: Not required.

Grade Requirement: A grade of "C" or better in courses required for all emphases (a grade of "C-" is not acceptable), in addition to a minimum cumulative GPA of 2.75.

Credit Hour Requirements: A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours is required (courses numbered 3000 and above). Please see requirements listed below.

- **Program Code:** 2053BS
- **CIPC:** 512201

Advisement

Students are encouraged to meet with a faculty advisor annually for course and program advisement. Call 801-626-7242 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. In addition, the following steps are required:

1. Schedule an appointment for academic advisement with a member of the Department of Health Administrative Services faculty.
2. Make application to the program and the Dr. Ezekiel R. Dumke College of Health Professions.
3. Overall GPA of 2.75 is required.

General Education

All general education courses should be completed before applying to the BSPH program. Refer to Degree and General Education Requirements for Bachelor of Science requirements. Some of the courses required by this program may also fulfill general education requirements. Check with a department advisor if you have questions.

Program Learning Outcomes

- Communicate public health information in both oral and written forms and through a variety of media, to diverse audiences
- Locate, use, evaluate, and synthesize public health information
- Describe public health application of quantitative and qualitative data
- Describe implications of policies, programs, and services and advocate for the implementation
- Explain the ways public health, healthcare, and other organizations can work together to assure the health of individuals and the population

Major Course Requirements for BS Degree

Public Health

Prerequisite Courses Required (20 credit hours)

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
- MICR 1113 LS - Introductory Microbiology **Credits: (3)**
- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ECON 1010 SS - Economics as a Social Science **Credits: (3)**

Courses Required (60 credit hours)

- HAS 3000 - The Healthcare System **Credits: (3)**
- HAS 3020 - Healthcare Marketing **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- HAS 3010 - Professionalism in Healthcare **Credits: (3)**
- HAS 3190 - Cultural Competency in Patient Education **Credits: (3)**
- HAS 3230 - Health Communication **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**

- HAS 3750 - Healthcare Financial Administration **Credits: (3)**
- HAS 4320 - Healthcare Economics and Policy **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- PUBH 4500 - Grant Writing **Credits: (2)**
- PUBH 4700 - Public Health Capstone **Credits: (3)**
- HAS 4860 INT - Practicum/Internship **Credits: (2-6)** (3 credit hours required)
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- PUBH 3210 - Advanced Epidemiology & Population Health **Credits: (3)**
- PUBH 3500 - Biomedical Research Support **Credits: (2)**
- HIM 3550 - Healthcare Data Analytics **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- MICR 3012 GLB - Microbiology and Global Public Health **Credits: (2)** or
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- HLTH 3000 - Foundations of Health Promotion **Credits: (3)**

Elective Courses (6 credit hours)

- RHS 3600 - Ergonomics for Health and Safety **Credits: (2)**
- HLTH 1110 - Stress Management **Credits: (3)**
- HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)**
- HLTH 2300 - Emergency Response **Credits: (3)**
- HLTH 3160 - Principles of Health Behavior **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)**
- HTHS 1101 - Medical Terminology **Credits: (2)**
- HAS 4620 - International Health and Healthcare **Credits: (3)**
- MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs **Credits: (3)**

Minor

Health Administrative Services Minor/BIS

Health Administrative Services Minor

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor.
- **Credit Hour Requirements:** Between 16 and 24 credit hours depending on emphasis. BIS students should only do the required courses for 18 credits.
- **Program Code:** 2004
- **CIPC:** 510701

Course Requirements for Health Services Administration Emphasis

Required Courses (18 credit hours)

- HAS 3000 - The Healthcare System **Credits: (3)**
- HAS 3020 - Healthcare Marketing **Credits: (3)**
- HAS 3230 - Health Communication **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**

Elective Courses (5 credit hours required)

- HAS 3010 - Professionalism in Healthcare **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- HAS 3190 - Cultural Competency in Patient Education **Credits: (3)**
- HAS 3750 - Healthcare Financial Administration **Credits: (3)**
- HAS 4320 - Healthcare Economics and Policy **Credits: (3)**
- HAS 4620 - International Health and Healthcare **Credits: (3)**
- HAS 4740 - Senior Seminar **Credits: (1)**
- HAS 4800 - Individual Study **Credits: (1-3)**
- HAS 4850 - Study Abroad **Credits: (1-6)**
- HAS 4990 - Seminar **Credits: (1)**
- HIM 3000 - Health Informatics **Credits: (3)**
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**
- HIM 3550 - Healthcare Data Analytics **Credits: (3)**
- HIM 3610 - Advanced Principles of Revenue Cycle Management **Credits: (3)**

Post Baccalaureate Certificate

Health Information Management Post Baccalaureate Certificate (PBC)

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution and be accepted into the certificate program.
- **Grade Requirements:** To receive a Health Information Management Certificate of Proficiency the student must complete all courses in the certificate program with a grade of "C" or higher (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** 30 credit hours as specified below.
- **Gainful Employment Disclosure**
- **Program Code:** 2006PBC
- **CIPC:** 510706

Program Description

This program focuses on the management of health care data and information resources. The program addresses the nature and structure of health data and the translation of that data into usable forms of information which support the health care of individuals and populations. HIM professionals collect, integrate, and analyze primary and secondary collections of data and manage information resources related to the research, planning, provision, and evaluation of health care services. This certificate provides students that already have a bachelor's degree the ability to build on previous education to develop the skills necessary to be an effective leader in health information management.

Course Requirements for Certificate of Proficiency

Courses Required (30 credit hours)

- HIM 5000 - Clinical Foundations in HIM **Credits: (3)**
- HIM 5010 - Health Data Management **Credits: (3)**
- HIM 5020 - Diagnosis and Procedure Coding **Credits: (3)**
- HIM 5030 - Clinical Data Management for Quality Care & Revenue Cycle Integrity **Credits: (3)**
- HIM 5040 - Privacy, Security and Confidentiality in Health Care **Credits: (3)**
- HIM 5050 - Health Information Systems & Technology **Credits: (3)**
- HIM 5080 - Health Information Management Issues **Credits: (3)**
- HIM 5090 INT - HIM Internship **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 3750 - Healthcare Financial Administration **Credits: (3)**

Regulatory Affairs Post Baccalaureate Certificate

The Post Baccalaureate Certificate in Regulatory Affairs program prepares individuals to manage the regulatory process for companies innovating and developing cutting-edge products in science, biotechnology, pharmaceuticals, and medicine. Such programs includes instruction in regulatory affairs, clinical documentation, human and animal subject protection, Food and Drug Administration (FDA) regulations, data management and analysis, good manufacturing practices, and quality management.

Admissions Requirements

- Completed application
- 3.0 GPA or higher
- Bachelor's degree (official transcripts)
- Resume/CV
- Essay
- Two letters of recommendation
- Healthcare experience preferred

Program Requirements

- **Grade Requirement:** To receive a Post Baccalaureate Certificate in Regulatory Affairs, the student must complete all courses in the program with a grade of "C" or higher, and maintain an overall program GPA of 3.0 or higher.

- **Program Code: 2083PBC**
- **CIPC: 510702**

Course Requirements

Required Courses

- MHA 6000 - Health Systems & the Healthcare Economy **Credits: (3)**
- MHA 6100 - Leading & Managing People in Healthcare **Credits: (3)**
- MENG 6140 - Foundations of Professional and Technical Writing **Credits: (3)**
- RGAF 6000 - Introduction to Regulatory Affairs **Credits: (3)**
- RGAF 6100 - Biostatistics Applied to Research **Credits: (3)**
- RGAF 6200 - Regulatory Drugs & Biologics **Credits: (2)**
- RGAF 6230 - Regulatory Devices and Diagnostics **Credits: (2)**
- RGAF 6250 - Regulatory Clinical Evidence **Credits: (2)**
- RGAF 6300 - Compliance in Regulatory Affairs **Credits: (3)**

Elective Course

- RGAF 6500 - Internship **Credits: (3)**

Department of Health, Physical Education, and Recreation

Department Chair: Dr. Ryan Zimmerman

Location: Reed K. Swenson Building, Room 307B

Telephone Contact: Marcia Kawa 801-626-6691

Professors: Chris Eisenbarth, Michael Olpin, James Zagrodnik; **Associate Professors:** Cass Griffith, Eddie Hill, Chad Smith, Ryan Zimmerman; **Assistant Professors:** Mandy King, Linnette Wong; **Instructors:** Christina Aguilar, Jonathan Griffith, Jeffery Kurt Ward

The Department of Health, Physical Education, and Recreation (HPER) in the Jerry and Vickie Moyes College of Education offers programs that promote lifelong wellness from a variety of disciplines. The teaching environment, supported by faculty with diverse expertise, creates quality learning communities that offer undergraduates exceptional educational experiences. The state-of-the-art facilities - including 6-lane swimming pool, ample indoor and outdoor recreational, fitness, sport and activity areas, and indoor climbing wall - provide an outstanding arena for student instruction. With a curriculum designed to develop professional knowledge and skills, graduates from the department are prepared to work in a variety of educational, health and recreational settings.

Through instruction, scholarship and service, the department of Health, Physical Education, and Recreation offers Bachelor of Science degrees in health promotion, outdoor and community recreation, and physical education. Minors include coaching sport, health promotion and health promotion teaching, physical education/coaching, and recreation. In addition, the department offers undergraduate and graduate programs for the department of teacher education, the master of education program, and supports Weber State University and community wellness related activities.

The department also supports the efforts of under graduates seeking the bachelor of integrated studies degree, offering health promotion, physical education/coaching, and recreation/leisure services as emphases for the BIS Program.

Mission Statement

The Department of Health, Physical Education, and Recreation inspires future professionals by providing high quality education through an innovative, engaged learning experience.

Associate of Applied Science

Outdoor Leadership (AAS)

The Outdoor & Community Recreation Education (OCRE) program at Weber State University offers students the opportunity to develop the skills, abilities, and knowledge necessary for a career in the outdoor recreation industry. The expressed goal of the OCRE program is to prepare students to effectively utilize and leverage the recreation industry to promote personal growth, health and wellness, and economic and environmental sustainability. Upon completion of the program, students may pursue front-line and leadership positions in: outdoor retail, outdoor education and/or adventure centers; guiding/outfitting companies; not-for-profit and private camps; resorts, spas and wellness centers; state and national parks; campus recreation; therapeutic programs; youth development programs; municipal parks and recreation departments; and public and private education.

- **Prerequisite:** Before beginning this program, a student must see the department advisor in Swenson.
- **Grade Requirements:** A cumulative OCRE (major) GPA of 2.75 or higher is required for this major. No more than one "D" is acceptable for OCRE-required courses. The overall university GPA must be 2.00 or higher.
- **Credit Hour Requirements:** A minimum of 63 credit hours is required for an associate of applied science degree; 45 of these credits are major requirements.
- **Program Code:** 5061AAS
- **CIPC:** 310601

Advisement

Students must follow the Department of Health, Physical Education and Recreation Advisement procedures. Contact the department advisor located in the Swenson building (also refer to the Department Advisor Referral List).

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Sign a Program of Study Contract with the Health, Physical Education and Recreation department. Contact the department advisor.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements.

Program Learning Outcomes

1. Students will identify how to effectively integrate educational components and situational variables to make and implement quality decisions in outdoor settings.

- 2. Students will demonstrate proficiency in specific outdoor skills that are essential to individual and group sustainability in the backcountry.
- 3. Students will demonstrate the knowledge, skills, and abilities to design, implement, and prepare outdoor expedition trips a minimum of 7 days long.
- 4. Students will demonstrate the ability to accurately self-assess as well as those essential skills concerning or involving relationships between people; the ability to effectively implement a decision.
- 5. Students will demonstrate a structured approach to managing actual risk, emotional risk, and perceived risk through risk assessment, utilization of management and instructional resources, and development and execution of emergency protocols.
- 6. Students will comprehend and identify foundational concepts that embody ecological and cultural literacy along with the cooperative planning and management skills needed to ensure the preservation of resources, through personal connections, for past, present, and future generations.
- 7. Students will identify foundational theories and practices related to teaching, processing, and transference in outdoor/adventure settings.

Required General Education Courses

- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)**
- ECON 1100 SS - Environmental Issues and Economic Policy **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

Major Course Requirements for AAS Degree (29 credits)

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- OCRE 2300 - Wilderness Medicine **Credits: (3)**
- OCRE 2500 - Introduction to Outdoor Adventure Recreation **Credits: (4)**
- OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits **Credits: (4)**
- OCRE 2860 - Outdoor Leadership Practicum **Credits: (2)** taken twice for 4 credits
- OCRE 2890 INT - Cooperative Work Experience **Credits: (1-9)** 2 credits are required
- PAR 1000 INT - Emergency Medical Technician **Credits: (4)**
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2)**
- REC 1241 - Mountain Biking, Level I **Credits: (1)**
- REC 1307 - Avalanche Level I **Credits: (1)**
- REC 1310 - Whitewater Paddling, Level I **Credits: (1)** or
- REC 1316 - Stand-Up Paddleboard **Credits: (1)**
- REC 1527 - Rock Climbing, Level I **Credits: (1)**
- REC 1535 - Leave No Trace Trainer **Credits: (1)**
- REC 1610 - Skiing, Level I **Credits: (1)** or
- REC 1620 - Snowboarding, Level I **Credits: (1)**

Select 5 Additional Elective credit hours from REC (5 credits)

Select 5 additional credit hours from courses with a REC prefix. Any REC courses that are not already required above will fulfill this requirement.

Suggested Electives (9 credits)

The following suggested electives are provided in order to assist students wishing to pursue an AAS degree with the Outdoor & Community Recreation Education program.

- BTNY 1203 LS - Plant Biology **Credits: (3)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)**
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**
- GEO 1130 PS - Introduction to Meteorology **Credits: (3)**

- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)** and
- GEOG 1005 - Planet Earth: Local Field Studies **Credits: (1)**

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HLTH 1110 - Stress Management **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- PSY 2400 - Positive Psychology **Credits: (3)**
- WSU 1560 SS/HU - Perspectives in Social Science and Humanities **Credits: (3-5)**

Bachelor of Science

Health Promotion (BS)

- **Program Prerequisite:** Acceptance into the program (see Admission Requirements below).
- **Minor:** Not Required.
- **Grade Requirement:** A grade of "C" or better in all major coursework, in addition to a minimum cumulative GPA of 2.50.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 53-55 of these are required within the major. A total of 40 upper division credit hours is required (courses number 3000 and above); a minimum of 37 of these is required within the major.
- **Program Code:** 5013BS
- **CIPC:** 512207

Advisement

The Academic Advisor for the Department of Health, Physical Education, and Recreation (HPER), Brittnei Strickland, assists HPER students with advisement prior to admission to the Health Promotion program, and through completion of their program of study. Brittnei can be contacted by phone (801-626-7425), email (BrittneiStrickland@weber.edu) or online (through the Department Advisor Referral List) for more information or to schedule an appointment. Students also are encouraged to meet with program faculty for additional course and program advisement.

Admission Requirements

Before a student can be considered for the Health Promotion program, the following application requirements must be met:

1. Admission to Weber State University.
2. Completion of 25 credit hours with a minimum 2.50 Weber State University GPA. Of these 25 credits, the students must demonstrate completion of: HLTH 1030, and, HTHS 2110 or ZOOL 1020.
3. Grade "C" or better in all major coursework.
4. Declare your program of study with the HPER Academic Advisor.

Retention Requirements

- A. After students are selected into the Health Promotion major, retention in the program will be based on the following criteria:
 1. Grade "C" or better in all major coursework.
 2. Students must maintain a GPA of 2.5 or higher in all courses required for this major.
- B. Students who fail to meet the retention criteria will be placed on probation in the Health Promotion major for one semester. If standards are not met by the end of the probationary period, the student may be dismissed from the major at the discretion of the Program Director.
 1. Students who receive any grade below a "C" in a course counting toward the Health Promotion major must repeat that course and receive a grade of "C" or higher to remain in the major.
 2. Failure to repeat the course (when offered) will result in dismissal from the program at the discretion of the Program Director.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Graduates of the program are eligible to sit for the Certified Health Education Specialist (CHES) examination with a minimum of 25 semester hours in health courses.

Program Learning Outcomes

- Responsibilities
 - Assess needs, resources, and capacity for health education/promotion
 - Plan health education/promotion
 - Implement health education promotion
 - Conduct evaluation and research related to health education/promotion
 - Administer and manage health education/promotion
 - Serve as a health education/promotion resource person
 - Communicate, promote, and advocate for health, health education/promotion, and the profession.
- Standards
 - Students will comprehend concepts related to health promotion and disease prevention to enhance health.
 - Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.
 - Students will demonstrate the ability to access valid information, products, and services to enhance health.
 - Students will demonstrate the ability to use interpersonal communication skills to enhance health or reduce health risks.
 - Students will demonstrate the ability to use decision-making skills to enhance health.
 - Students will demonstrate the ability to use goal-setting skills to enhance health.
 - Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.

- Students will demonstrate the ability to advocate for personal, family, and community health.

Major Course Requirements for BS Degree

Prerequisite Courses Required (6-7 credit hours)

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
- ZOOL 1020 LS - Human Biology **Credits: (3)**

Courses Required (35 credit hours)

- HLTH 3000 - Foundations of Health Promotion **Credits: (3)**
- HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**
- HLTH 3200 - Methods in Health Education **Credits: (3)** *
- HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)**
- HLTH 4860 INT - Field Experience **Credits: (1-6)** (3 credit hours required)
- HLTH 4990 - Senior Seminar **Credits: (1)**
- HAS 3000 - The Healthcare System **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- HAS 3190 - Cultural Competency in Patient Education **Credits: (3)** or
- NUTR 3420 GLB - Multicultural Health & Nutrition **Credits: (3)**
- HAS 3230 - Health Communication **Credits: (3)**
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**

Professional Block

Minimum of 9 credit hours, must be approved by advisor. These courses may also be used as electives.

- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 2700 - Consumer Health **Credits: (3)**
- HLTH 3160 - Principles of Health Behavior **Credits: (3)**
- HLTH 4700 - Wellness Coaching **Credits: (3)**
- HAS 3020 - Healthcare Marketing **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**
- HAS 4320 - Healthcare Economics and Policy **Credits: (3)**

Elective Courses (15 credit hours)

- RHS 3600 - Ergonomics for Health and Safety **Credits: (2)**
- HLTH 1110 - Stress Management **Credits: (3)**
- RHS 1300 - First Aid: Responding to Emergencies **Credits: (2)**
- RHS 2300 - Emergency Response **Credits: (3)**

- HLTH 3050 - School Health Program **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- HLTH 4220 - Women's Health Issues **Credits: (3)**
- HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)**
- NUTR 3320 - Health and Nutrition in the Older Adult **Credits: (3)**
- HLTH 4800 - Individual Projects **Credits: (1-3)**
- HLTH 4860 INT - Field Experience **Credits: (1-6)** (3 credit hours required)
- HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)** (1 credit hour required)
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HAS 3240 - Human Resource Development in Healthcare **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- HAS 4410 - Clinical Instructional Design and Evaluation **Credits: (3)** *
- HAS 4420 - Clinical Instructional Skills **Credits: (3)**
- PUBH 4500 - Grant Writing **Credits: (2)**
- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- GERT 3000 - Death and Dying **Credits: (3)**
- NUTR 2320 - Food Values, Diet Design and Health **Credits: (3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**
- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services **Credits: (3)**
- ESS 2300 - Health/Fitness Evaluation and Exercise Prescription **Credits: (3)**

Note:

**HAS 4410 may be substituted for HLTH 3200.*

Outdoor and Community Recreation Education (BS)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A cumulative OCRE (major) GPA of 2.75 or higher is required for this major. No more than one "D" is acceptable for OCRE-required courses. The overall university GPA must be 2.00 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a total of 62 credit hours for this major. Nine to 10 credit hours of required support courses may be used as general education credit. A total of 40 upper division credit hours is required with 36-39 upper division hours possible within the required courses for this major.
- **Program Code:** 5046BS with Emphasis 5069 (Adventure Recreation & Tourism) or 5070 (Youth Sports Administration) or 5055 (Outdoor Recreation Entrepreneurship)
- **CIPC:** 310601 with 310601 (Adventure Recreation & Tourism) or 310301 (Youth Sports Administration) or 310301 (Outdoor Recreation Entrepreneurship)

Advisement

All Outdoor and Community Recreation Education students are encouraged to meet with a faculty advisor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information) with the program advisor. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Outcome 1: Comprehend/Recognize the historical, philosophical, and theoretical foundations within recreation services.
- Outcome 2: Identify and analyze contemporary professional issues and trends impacting recreation programs and services
- Outcome 3: Assess elements of personal style, prejudices, projections, and habits of mind that both shape and impede opportunities for professional, personal and group growth.
- Outcome 4: Articulate a personal philosophy of recreation that defines how the student plans to provide recreation services.
- Outcome 5: Apply theory and field techniques to assess, design and evaluate outcome-based programs that address a range of relevant personal, social, economical, and/or environmental objectives.
- Outcome 6: Develop, practice and demonstrate effective technical, facilitation, teaching and risk management skills across a range of recreation experiences.
- Outcome 7: Investigate and practice essential administrative functions necessary to conduct effective and ethical recreation programs.
- Outcome 8: Identify and apply relevant local, state, and federal legislation and regulations, along with industry standards, to management practices necessary within recreation programs.

Major Requirements for BS Degree

Required Core Courses (42 credit hours)

- OCRE 2500 - Introduction to Outdoor Adventure Recreation **Credits: (4)**
- OCRE 2890 INT - Cooperative Work Experience **Credits: (1-9)** 2 credits are required
- OCRE 2050 - Recreation, Parks, and Wellness **Credits: (3)**
- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**
- OCRE 3300 - Inclusive and Adaptive Recreation **Credits: (3)**
- OCRE 3320 - Adventure Programming **Credits: (3)**
- OCRE 3520 - Risk Management and Legal Issues in Recreation Services **Credits: (3)**
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services **Credits: (3)**
- OCRE 4205 - Research and Program Evaluation in Parks& Recreation Services **Credits: (3)**
- OCRE 4500 - Grant and Proposal Writing for Recreation Professionals **Credits: (3)**
- OCRE 4890 INT - Cooperative Work Experience **Credits: (1-6)** 6 credits are required
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**

- MIS 2010 - Business Computer Skills **Credits: (1)**
- 2 Elective credit hours from REC
Select 2 credit hours from courses with a REC prefix. Any REC courses will fulfill this requirement.

Professional Areas of Emphasis

A student must complete the required and support courses in one of the three emphases: Adventure Recreation and Tourism, Youth Sports Administration, or Outdoor Recreation Entrepreneurship.

Adventure Recreation and Tourism Emphasis

Required Courses (15 credit hours)

- OCRE 2300 - Wilderness Medicine **Credits: (3)**
- OCRE 3400 - Outdoor Equipment Production and Retailing **Credits: (3)**
- OCRE 3450 - Adventure Travel and Sustainable Tourism **Credits: (3)**
- OCRE 3900 - Commercial Outdoor Recreation and Tourism **Credits: (3)**
- OCRE 4550 - Outdoor Education Philosophies & Principles **Credits: (3)**

Elective Courses (3 credit hours)

Choose 3 credits from any combination of OCRE courses and/or the list of specific REC courses below.

- OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits **Credits: (4)**
- OCRE 2860 - Outdoor Leadership Practicum **Credits: (2)**
- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- OCRE 3500 - Community Recreation and Park Planning **Credits: (3)**
- OCRE 4000 - Recreation Programming for Youth Development **Credits: (3)**
- OCRE 3700 - Recreation and Sports Facilities and Events Management **Credits: (3)**
- REC 1307 - Avalanche Level I **Credits: (1)**
- REC 1308 - Avalanche Rescue **Credits: (1)**
- REC 1309 - Avalanche Level 2 **Credits: (1)**
- REC 1313 - Swiftwater Rescue **Credits: (1)**
- REC 1530 - Rock Climbing for Instructors, Level I **Credits: (1)**
- REC 1531 - Rock Climbing for Instructors, Level II **Credits: (1)**
- REC 1535 - Leave No Trace Trainer **Credits: (1)**
- REC 1640 - Skiing for Instructors **Credits: (1)**
- REC 1641 - Skiing for Instructors II **Credits: (1)**
- REC 1642 - Skiing for Instructors III **Credits: (1)**
- REC 1650 - Snowboarding for Instructors, Level I **Credits: (1)**
- REC 1651 - Snowboarding for Instructors, Level II **Credits: (1)**
- REC 1652 - Snowboarding for Instructors, Level III **Credits: (1)**
- OCRE 2000 - Risk, Resilience and Rock Climbing **Credits: (3)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**

Youth Sports Administration Emphasis

Required Courses (15 credit hours)

- OCRE 3700 - Recreation and Sports Facilities and Events Management **Credits: (3)**
- OCRE 4000 - Recreation Programming for Youth Development **Credits: (3)**
- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**
- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**

Elective Courses (3 credit hours)

Choose 3 credits from any combination of OCRE courses and/or the list of specific REC courses below.

- REC 1307 - Avalanche Level I **Credits: (1)**
- REC 1308 - Avalanche Rescue **Credits: (1)**
- REC 1309 - Avalanche Level 2 **Credits: (1)**
- REC 1313 - Swiftwater Rescue **Credits: (1)**
- REC 1530 - Rock Climbing for Instructors, Level I **Credits: (1)**
- REC 1531 - Rock Climbing for Instructors, Level II **Credits: (1)**
- REC 1535 - Leave No Trace Trainer **Credits: (1)**
- REC 1640 - Skiing for Instructors **Credits: (1)**
- REC 1641 - Skiing for Instructors II **Credits: (1)**
- REC 1642 - Skiing for Instructors III **Credits: (1)**
- REC 1650 - Snowboarding for Instructors, Level I **Credits: (1)**
- REC 1651 - Snowboarding for Instructors, Level II **Credits: (1)**
- REC 1652 - Snowboarding for Instructors, Level III **Credits: (1)**
- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- OCRE 2000 - Risk, Resilience and Rock Climbing **Credits: (3)**
- OCRE 2300 - Wilderness Medicine **Credits: (3)**
- OCRE 2860 - Outdoor Leadership Practicum **Credits: (2)**
- OCRE 3400 - Outdoor Equipment Production and Retailing **Credits: (3)**
- OCRE 3450 - Adventure Travel and Sustainable Tourism **Credits: (3)**
- OCRE 3500 - Community Recreation and Park Planning **Credits: (3)**
- OCRE 3900 - Commercial Outdoor Recreation and Tourism **Credits: (3)**
- OCRE 4550 - Outdoor Education Philosophies & Principles **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 4860C INT - Field Experience Coaching **Credits: (3)**
- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**

Outdoor Recreation Entrepreneurship Emphasis

Required Courses (18 credit hours)

- OCRE 3400 - Outdoor Equipment Production and Retailing **Credits: (3)**

Select a minimum of 15 credit hours from any of the following courses:

- ENTR 1002 - Startup Innovation **Credits: (3)**
- ENTR 2003 - Marketing Execution for Small Business **Credits: (1)**
- ENTR 2002 - Marketing Strategy for Small Business **Credits: (1)**
- ENTR 2004 - Branding for Small Business **Credits: (1)**

- ENTR 2005 - Product to Market **Credits: (1)**
- ENTR 2006 - E-Commerce for Small Business **Credits: (1)**
- ENTR 2007 - Product Design & Prototyping for Small Business **Credits: (1)**
- ENTR 2008 - Legal Foundations for Small Business **Credits: (1)**
- ENTR 2009 - Money Management for Small Business **Credits: (1)**
- ENTR 2010 - Funding For Small Business **Credits: (1)**
- ENTR 2011 - Results-Focused Leadership **Credits: (1)**
- ENTR 2012 - People Management for Small Business **Credits: (1)**
- ENTR 4680 - Consulting Essentials **Credits: (3)**

Physical Education (BS)

The non-teaching track has been suspended pending formal discontinuance and is no longer accepting new students.

Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Teaching Track students must meet all requirements for the Physical Education Teaching Track and those requirements needed for Teacher Licensure (27).

Physical Education Non-teaching Track students must meet all requirements for the Physical Education Teaching Track except those needed for Teacher Licensure and an additional 12 credits listed below. *This program has been suspended pending formal discontinuance and is no longer accepting new students.*

- **Program Prerequisite:** Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Minor:** Physical Education Teaching Track requires a teaching minor.
- **Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.
- **Credit Hour Requirements:** Physical Education Non-teaching Track-Total minimum credit hours required in the Major (48). Physical Education Teaching Track-Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.
- **Program Code:** Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)
- **CIPC:** Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

Advisement

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

General Education courses required for the Physical Education major are:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 2110 BioMed Core

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

Program Learning Outcomes

- Know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
- Are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the SHAPE K - 12 Standards.
- Plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
- Use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
- Utilize assessments and reflection to foster student learning and inform instructional decisions.
- Practice dispositions essential to becoming effective professionals.

Major Course Requirements for BS Degree

Professional Knowledge (18 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**
- PEP 3660 - Adapted Physical Education **Credits: (3)**

Field Experience (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Methods of Teaching Courses (15 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**
- PEP 3630 - Methods of Teaching Elementary School Physical Education **Credits: (3)**
- PEP 4700 - Methods of Teaching Junior High School Physical Education **Credits: (3)**
- PEP 4710 - Methods of Teaching High School Physical Education **Credits: (3)**

Students choosing the Non-teaching Physical Education Track are required to take an additional 12 credits of the following courses:

- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**
- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- ESS 4620 - Leadership Concepts for Human Performance Management **Credits: (3)**
- PEP 4830 - Directed Readings **Credits: (1-3)**
- OCRE 2050 - Recreation, Parks, and Wellness **Credits: (3)**
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services **Credits: (3)**
- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**

Physical Education Teaching (BS)

Physical Education Major

The Department of Health, Physical Education, and Recreation offers an undergraduate degree in Physical Education. The Physical Education Non-teaching Track is designed to prepare students to work in a physical activity venue. The Physical Education Teaching Track is designed to prepare students to teach physical education in a K-12 school system. A teaching minor is to be selected in addition to the teaching major to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Teaching Track students must meet all requirements for the Physical Education Teaching Track and those requirements needed for Teacher Licensure (27).

Physical Education Non-teaching Track students must meet all requirements for the Physical Education Teaching Track except those needed for Teacher Licensure and an additional 12 credits listed below. *This program has been suspended pending formal discontinuance and is no longer accepting new students.*

- **Program Prerequisite:** Students selecting the Physical Education Teaching Track, must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Minor:** Physical Education Teaching Track requires a teaching minor.
- **Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the major. No grade lower than a "C" is acceptable.
- **Credit Hour Requirements:** Physical Education Non-teaching Track-Total minimum credit hours required in the Major (48). Physical Education Teaching Track-Total minimum credit hours required in the Major (36). Any Physical Education Professional course older than 8 years will not be accepted toward degree requirements.
- **Program Code:** Physical Education Non-Teaching (5017BS), Physical Education Teaching (5012BS)
- **CIPC:** Physical Education Non-Teaching (310599), Physical Education Teaching (131314)

Advisement

All Physical Education students are encouraged to meet with a faculty mentor or the department academic advisor each semester for course and program advisement. Call 801-626-7425 or send a message to BrittniStrickland@weber.edu for more information or to schedule an appointment. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

General Education courses required for the Physical Education major are:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 2110 BioMed Core

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education Teaching Track Majors.

Program Learning Outcomes

- Know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.
- Are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the SHAPE K - 12 Standards.
- Plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students.
- Use effective communication and pedagogical skills and strategies to enhance student engagement and learning.
- Utilize assessments and reflection to foster student learning and inform instructional decisions.
- Practice dispositions essential to becoming effective professionals.

Major Course Requirements for BS Degree

Professional Knowledge (18 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- ESS 3450 - Structural Kinesiology **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**
- PEP 3660 - Adapted Physical Education **Credits: (3)**

Field Experience (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Methods of Teaching Courses (15 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**

- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**
- NUTR 3020 - Sports Nutrition **Credits: (3)**
- NUTR 4420 - Nutrition and Fitness **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Health Promotion (BIS)

Bachelor of Integrated Studies

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
- **Credit Hour Requirements:** The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.
- **Program Code:** 2059
- **CIPC:** 510913

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion
Occupational Health Education
Clinical Health Education (*See School of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)
Family Life Health Promotion
Gerontological Health Promotion
Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis
Dietary Prescription
Nutrition Education
Weight Management
Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport
Corporate Fitness
Community Fitness
Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Health Promotion Emphasis

21 Credit Hours Total Required

Required Courses (13 credits)

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)** * OL
- HLTH 3000 - Foundations of Health Promotion **Credits: (3)** ** OL
- HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)** *** OL
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)** *** OL

Elective Courses (8-9 credits)

- HLTH 1110 - Stress Management **Credits: (3)** OL & IS
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 2700 - Consumer Health **Credits: (3)** OL
- HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)** IS
- HLTH 3160 - Principles of Health Behavior **Credits: (3)**
- HLTH 3200 - Methods in Health Education **Credits: (3)** ***
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)** OL
- HLTH 3500 - Human Sexuality **Credits: (3)** OL
- HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)** OL
- HLTH 4700 - Wellness Coaching **Credits: (3)**

Notes:

OL = Online option available some semesters

IS = Independent Study option available some semesters

**If this pre-requisite course is used to fulfill the Social Science General Education requirement, the three credit hours cannot be counted in the BIS Health Promotion emphasis 21 credit hour requirements.*

***This course can be taken after completing the HLTH 1030 pre-requisite.*

****This course can be taken after completing the HLTH 1030 and HLTH 3000 pre-requisite.*

Outdoor Leadership (BIS)

The Outdoor Leadership BIS provides students with basic foundational skills needed for living and leading others in the outdoors.

- **Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses used toward the BIS.
- **Credit Hour Requirements:** Complete a minimum of 18 credit hours selected and approved from among the below options.
- **Program Code:** 5061
- **CIPC:** 310601

Course Requirements for Minor

Required Core Courses (17 credit hours)

- OCRE 2500 - Introduction to Outdoor Adventure Recreation **Credits: (4)**
- OCRE 2050 - Recreation, Parks, and Wellness **Credits: (3)**
- OCRE 2300 - Wilderness Medicine **Credits: (3)**
- REC 1535 - Leave No Trace Trainer **Credits: (1)**
- OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits **Credits: (4)**
- OCRE 2860 - Outdoor Leadership Practicum **Credits: (2)**

Elective Courses

Minimum of one Credit from the following list of electives:

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- REC 1307 - Avalanche Level I **Credits: (1)**
- REC 1308 - Avalanche Rescue **Credits: (1)**
- REC 1309 - Avalanche Level 2 **Credits: (1)**
- REC 1313 - Swiftwater Rescue **Credits: (1)**
- REC 1530 - Rock Climbing for Instructors, Level I **Credits: (1)**
- REC 1531 - Rock Climbing for Instructors, Level II **Credits: (1)**
- REC 1640 - Skiing for Instructors **Credits: (1)**
- REC 1650 - Snowboarding for Instructors, Level I **Credits: (1)**
- REC 1641 - Skiing for Instructors II **Credits: (1)**
- REC 1651 - Snowboarding for Instructors, Level II **Credits: (1)**

Physical Education (BIS)

Bachelor of Integrated Studies

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum grade of "C" (2.0) in each of the courses taken for the three emphases.
- **Credit Hour Requirements:** The student must take a minimum of 18 credit hours each from at least three (3) different academic departments or recognized disciplines. A student has numerous possibilities in developing a BIS degree using the academic disciplines both in HPER and campus wide.
- **Program Code:** 2059
- **CIPC:** 510913

The course of study in each discipline must be approved by the appropriate program director.

BIS Possible Options

These are only recommendations; many combinations and options for potential careers are possible.

Health Education & Health Promotion Emphasis

Program Code: 5013

CIPC: 512207

Community Health Promotion
Occupational Health Education
Clinical Health Education (*See School of Health Administrative Services in the Dr. Ezekiel R. Dumke College of Health Professions*)
Family Life Health Promotion
Gerontological Health Promotion
Drug Abuse Prevention Education

Nutrition Emphasis

Dietary Analysis
Dietary Prescription
Nutrition Education
Weight Management
Nutritional Ergogenics

Exercise Science Emphasis

Program Code: 5019

CIPC: 310505

Coaching Sport
Corporate Fitness
Community Fitness
Sports Medicine
Sport Communication
Commercial/Facility Management
Sport Psychology

BIS Requirements

Also refer to individual minor programs.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Physical Education Emphasis

27 Credit Hours Total Required

Complete the following Required Courses (15 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**
- PEP 3520L - Curriculum and Assessment Lab **Credits: (1)**
- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3) ***

Note:

**May not be taken until all other requirements have been met.*

In addition, four of the following courses are required. (12 Credit hours)

- PEP 3630 - Methods of Teaching Elementary School Physical Education **Credits: (3)**
- PEP 3660 - Adapted Physical Education **Credits: (3)**
- PEP 4700 - Methods of Teaching Junior High School Physical Education **Credits: (3)**
- PEP 4710 - Methods of Teaching High School Physical Education **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**

Admission Requirements

Students must meet with Academic Advisor to review requirements for BIS in PEP. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.
5. Student must adhere to the Health, Physical Education, and Recreation Department 'Student Conduct Policy' available online at <http://www.weber.edu/wsuiimages/HPER/StudentCode/HPERStudentCode.pdf>

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 2.85.
2. Earned grade of C- or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

General Education

Refer to Degree and General Education Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 2110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements.

Sport Coaching Education (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Code:** 5040
- **CIPC:** 131314

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

20 credits/8 upper division

Contact-Dr. Brian McGladrey, SB 125C, 801-626-8578

- RHS 2175 - Introduction to Sports Medicine **Credits: (3)**
- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**
- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- PEP 4860C INT - Field Experience Coaching **Credits: (3)**

Note

PEP 5000 fulfills the eligibility requirements for the Registered Athletic Administrator (RAA) certification through the National Interscholastic Athletic Administrators Association (NIAAA) once a bachelor's degree has been earned. Students may enroll in the course during their undergraduate or graduate studies; however, certification eligibility is granted only after completing a bachelor's degree. This course is highly recommended for those interested in athletic administration careers.

Minor

Health Promotion: (Community, Worksite, Clinical, School) Minor

- **Grade Requirements:** A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.
- **Credit Hours Requirements:** Minimum of 22 credit hours.
- **Program Code:** 5013
- **CIPC:** 512207

Required Courses (13 credit hours)

- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HLTH 3000 - Foundations of Health Promotion **Credits: (3)**
- HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**
- HLTH 4150 - Needs Assessment & Planning Health Promotion Programs **Credits: (4)**

Electives

Select 9 credit hours from the following

- HLTH 1110 - Stress Management **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 2700 - Consumer Health **Credits: (3)**
- HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**
- HLTH 3160 - Principles of Health Behavior **Credits: (3)**
- HLTH 3200 - Methods in Health Education **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**
- HLTH 4220 - Women's Health Issues **Credits: (3)**
- HLTH 4250 - Contemporary Health Issues of Adolescents **Credits: (2)**
- HLTH 4800 - Individual Projects **Credits: (1-3)**
- HLTH 4860 INT - Field Experience **Credits: (1-6)**
- HLTH 2890 INT - Cooperative Work Experience **Credits: (1-6)**
- HLTH 4890 INT - Cooperative Work Experience **Credits: (1-6)**
- HLTH 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Courses Required for Minors Seeking Teaching Certification

Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HLTH 1110 - Stress Management **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 3000 - Foundations of Health Promotion **Credits: (3)**
- HLTH 3200 - Methods in Health Education **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**

Notes:

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking RHS 1300 - First Aid: Responding to Emergencies (2 credits), RHS 2175 - Introduction to Sports Medicine (through concurrent enrollment), or RHS 2300 - Emergency Response (3 credits).

Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course.

A teaching major and the Teaching Education Professional Knowledge courses are required for teacher certification.

Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. This minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.

Outdoor and Community Recreation Education Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A cumulative OCRE (major) GPA of 2.75 or higher is required for this major. No more than one "D" is acceptable for OCRE-required courses. The overall university GPA must be 2.00 or higher.
- **Credit Hour Requirements:** Complete a minimum of 18 credit hours selected and approved from among the following:
- **Program Code:** 5044
- **CIPC:** 310601

Course Requirements for Minor

Required Core Courses (12 credit hours)

- OCRE 2050 - Recreation, Parks, and Wellness **Credits: (3)**
- OCRE 3100 - Recreation Leadership and Group Facilitation **Credits: (3)**
- OCRE 3300 - Inclusive and Adaptive Recreation **Credits: (3)**
- OCRE 3320 - Adventure Programming **Credits: (3)**

Elective Courses (6 credit hours)

Select 6 credit hours from the following:

2 credit hours from courses with a REC or PE prefix are allowable elective credits. Any REC or PE courses will fulfill this requirement.

- OCRE 2300 - Wilderness Medicine **Credits: (3)**
- OCRE 2500 - Introduction to Outdoor Adventure Recreation **Credits: (4)**
- OCRE 2610 - Introduction to Outdoor Living Skills I **Credits: (2)**
- OCRE 2890 INT - Cooperative Work Experience **Credits: (1-9)**
- OCRE 3230 - Wilderness Nutrition & Backcountry Cooking **Credits: (4)**
- OCRE 3400 - Outdoor Equipment Production and Retailing **Credits: (3)**
- OCRE 3450 - Adventure Travel and Sustainable Tourism **Credits: (3)**

- OCRE 3500 - Community Recreation and Park Planning **Credits: (3)**
- OCRE 3520 - Risk Management and Legal Issues in Recreation Services **Credits: (3)**
- OCRE 3600 - Administration and Management of Outdoor and Community Recreations Services **Credits: (3)**
- OCRE 3700 - Recreation and Sports Facilities and Events Management **Credits: (3)**
- OCRE 3900 - Commercial Outdoor Recreation and Tourism **Credits: (3)**
- OCRE 4000 - Recreation Programming for Youth Development **Credits: (3)**
- OCRE 4020 - Nature Interpretation **Credits: (3)**
- OCRE 4300 - Trends and Ethical Issues in Recreation Services **Credits: (3)**
- OCRE 4500 - Grant and Proposal Writing for Recreation Professionals **Credits: (3)**
- OCRE 4550 - Outdoor Education Philosophies & Principles **Credits: (3)**
- OCRE 4800 - Individual Projects **Credits: (1-3)**
- OCRE 4890 INT - Cooperative Work Experience **Credits: (1-6)**
- OCRE 4930 - Outdoor Education Workshop **Credits: (2)**
- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**
- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3320 - Techniques for Teaching Lifeguarding **Credits: (2)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**

Outdoor Leadership Minor

The Outdoor Leadership minor provides students with basic foundational skills needed for living and leading others in the outdoors.

- Grade Requirements: A cumulative OCRE (major) GPA of 2.75 or higher is required for this major. No more than one "D" is acceptable for OCRE-required courses. The overall university GPA must be 2.00 or higher.
- Credit Hour Requirements: Complete a minimum of 18 credit hours selected and approved from among the following:
- Program Code: 5061
- CIPC: 310601

Course Requirements for Minor

Required Courses (17 credit hours)

- OCRE 2500 - Introduction to Outdoor Adventure Recreation **Credits: (4)**
- OCRE 2050 - Recreation, Parks, and Wellness **Credits: (3)**
- OCRE 2300 - Wilderness Medicine **Credits: (3)**
- REC 1535 - Leave No Trace Trainer **Credits: (1)**
- OCRE 2550 - Leadership and Safety Management for Outdoor Pursuits **Credits: (4)**
- OCRE 2860 - Outdoor Leadership Practicum **Credits: (2)**

Elective Courses (1 credit hour)

- GEOG 1002 - GPS, Map Reading and Navigation **Credits: (1)**
- REC 1307 - Avalanche Level I **Credits: (1)**

- REC 1308 - Avalanche Rescue **Credits: (1)**
- REC 1309 - Avalanche Level 2 **Credits: (1)**
- REC 1313 - Swiftwater Rescue **Credits: (1)**
- REC 1530 - Rock Climbing for Instructors, Level I **Credits: (1)**
- REC 1531 - Rock Climbing for Instructors, Level II **Credits: (1)**
- REC 1640 - Skiing for Instructors **Credits: (1)**
- REC 1650 - Snowboarding for Instructors, Level I **Credits: (1)**
- REC 1641 - Skiing for Instructors II **Credits: (1)**
- REC 1651 - Snowboarding for Instructors, Level II **Credits: (1)**

Physical Education Minor

The Department of Health, Physical Education, and Recreation offers three undergraduate minors in Physical Education. The 1) Physical Education Non-teaching Minor is designed to prepare students to work in a physical activity venue. A major must also be selected. The 2) Physical Education Minor is designed to prepare students to teach physical education in a K-12 school system. The 3) Physical Education/Coaching Education Teaching Dual Minor is designed to prepare students to teach physical education and to coach in a K-12 school system. A teaching major is to be selected in addition to either of the teaching minors to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Non-teaching Minor students must meet all requirements listed below.

Physical Education Minor and Physical Education/Coaching Education Dual Teaching Minor students must meet all requirements for the Physical Education Minor or the Physical Education/Coaching Education Teaching Dual Teaching Minor and those requirements needed for Teacher Licensure (27).

- **Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the minor. No grade lower than a "C" is acceptable.
- **Credit Hour Requirements:** Physical Education Non-teaching Minor - a total of 29-30 credit hours are required. Physical Education/Coaching Education Dual Teaching Minor - a total of 46-47 credit hours are required. Physical Education Minor - a total of 27 credit hours are required. In addition to the required credit hours, Physical Education/Coaching Education Dual Teaching Minor and Physical Education Minor students must meet the requirements of their selected teaching major and the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Program Code:** 5017
- **CIPC:** 310599

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 2110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education/Coaching Education Dual Teaching Minors and Physical Education Track Minors.

Admission Requirements

Students must apply for Physical Education program admittance by November 10 or March 10 of their **first** semester of taking Physical Education Professional [PEP] courses. Applications are available from the Physical Education Program Director. In addition, students applying for the Teaching Track must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog). In addition, students applying for the Physical Education Specialization grades 1-8 *must also meet the Teacher Education* admission and licensure requirements. Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4830, PEP 4860C, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.
4. Retention/improvement of sport specific and fitness skills.
5. Student Disposition score above 20 in each course.

Course Requirements for the Physical Education Minor

Professional Knowledge (15 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**
- PEP 3660 - Adapted Physical Education **Credits: (3)**

Field Experiences (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Methods of Teaching (9 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**
- PEP 4700 - Methods of Teaching Junior High School Physical Education **Credits: (3)**

Course Requirements for the Physical Education/Sport Coaching Education Dual Teaching Minor

Professional Knowledge (26 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**
- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**

Field Experiences (6 credit hours)

- PEP 4860C INT - Field Experience Coaching **Credits: (3)**
- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Skill Development and Methods of Teaching (6 credit hours)

- PEP 3240 - Skill Development and Methods of Field Sports **Credits: (2)**
- PEP 3242 - Skill Development and Methods of Court Sports **Credits: (2)**
- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**

Required Support Course (2-3 credit hours)

- HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)** or
- RHS 2175 - Introduction to Sports Medicine **Credits: (3)**

Sport Coaching Education Minor

This minor cannot be counted as a teaching minor.

- Grade Requirements: A minimum grade of "C" in each of the courses, and a minimum GPA of 3.0 for all program coursework.
- Credit Hour Requirements: A total of 19-20 semester hours are required for the Sport Coaching Education minor.
- **Program Code:** 5040
- **CIPC:** 131314

Course Requirements for Minor

Required Courses (19-20 credit hours)

- HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)** or
- RHS 2175 - Introduction to Sports Medicine **Credits: (3)**
- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**

- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- PEP 4860C INT - Field Experience Coaching **Credits: (3)**

Note

PEP 5000 fulfills the eligibility requirements for the Registered Athletic Administrator (RAA) certification through the National Interscholastic Athletic Administrators Association (NIAAA) once a bachelor's degree has been earned. Students may enroll in the course during their undergraduate or graduate studies; however, certification eligibility is granted only after completing a bachelor's degree. This course is highly recommended for those interested in athletic administration careers.

Teaching Minor

Health Promotion Teaching Minor

- **Grade Requirements:** A grade of "C" or better in all minor coursework, in addition to a minimum GPA of 2.50 in minor coursework.
- **Credit Hours Requirements:** Minimum of 21 credit hours.
- **Program Code:** 5016
- **CIPC:** 131307

Courses Required for Minors Seeking Teaching Certification

Selection/substitution of courses to meet the minimum 21 hours for minor must be approved by an advisor.

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- HLTH 1110 - Stress Management **Credits: (3)** or
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- HLTH 3000 - Foundations of Health Promotion **Credits: (3)**
- HLTH 3200 - Methods in Health Education **Credits: (3)**
- HLTH 3400 - Substance Abuse Prevention **Credits: (3)**
- HLTH 3500 - Human Sexuality **Credits: (3)**

Notes:

Students are required to have a current CPR/First Aid Card. This can be obtained through multiple mechanisms, including training through the Red Cross, or by taking RHS 1300 - First Aid: Responding to Emergencies **(2)**, RHS 2175 - Introduction to Sports Medicine **(3)** (through concurrent enrollment), or RHS 2300 - Emergency Response **(3)**.

Students must maintain a GPA of 3.0 or higher in minor coursework, and must obtain a "C" or higher in each course. A teaching major and the Teaching Education Professional knowledge courses are required for teacher certification. Students must complete 25 semester hours of health courses to qualify to take the Certified Health Education Specialist (CHES) examination. If you are interested in taking the CHES examination, please speak with an academic advisor to ensure that you are taking courses that will satisfy CHES examination eligibility requirements. The minor is designed to meet the standards associated with the Utah State Office of Education Health Education Endorsement and not CHES examination eligibility.

Physical Education Teaching Minor

Physical Education Minor

The Department of Health, Physical Education, and Recreation offers three undergraduate minors in Physical Education. The 1) Physical Education Non-teaching Minor is designed to prepare students to work in a physical activity venue. A major must also be selected. The 2) Physical Education Minor is designed to prepare students to teach physical education in a K-12 school system. The 3) Physical Education/Coaching Education Teaching Dual Minor is designed to prepare students to teach physical education and to coach in a K-12 school system. A teaching major is to be selected in addition to either of the teaching minors to prepare students to enter the Teacher Education program and to become licensed to teach in a K-12 school system.

Physical Education Non-teaching Minor students must meet all requirements listed below.

Physical Education Minor and Physical Education/Coaching Education Dual Teaching Minor students must meet all requirements for the Physical Education Minor or the Physical Education/Coaching Education Teaching Dual Teaching Minor and those requirements needed for Teacher Licensure (27).

- **Grade Requirements:** A combined GPA of 3.0 is required for all courses used toward the minor. No grade lower than a "C" is acceptable.
- **Credit Hour Requirements:** Physical Education Non-teaching Minor - a total of 29-30 credit hours are required. Physical Education/Coaching Education Dual Teaching Minor - a total of 46-47 credit hours are required. Physical Education Minor - a total of 27 credit hours are required. In addition to the required credit hours, Physical Education/Coaching Education Dual Teaching Minor and Physical Education Minor students must meet the requirements of their selected teaching major and the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).
- **Program Code:** Physical Education Non-Teaching (5017), Physical Education/Coaching Education Teaching Track I (5029), Physical Education/Licensure Coaching Track II (5030)
- **CIPC:** Physical Education Non-Teaching (310599), Physical Education/Coaching Education Teaching Track I (131314), Physical Education/Licensure Coaching Track II (131314)

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

A General Education course required for all Physical Education minors is:

NUTR LS SUS 1020 Science and Application of Human Nutrition (3)

HTHS LS 2110 BioMed Core (4)

See major and minor course prerequisites for additional General Education recommendation/requirements. Also see Teacher Education Requirements for recommended and required General Education courses for Physical Education/Coaching Education Dual Teaching Minors and Physical Education Track Minors.

Admission Requirements

Students must meet with Academic Advisor to declare PEP Major. In addition, students applying for the Teaching Track must also meet the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog). Students will not be allowed to register for PEP 3520, PEP 3520L, PEP 3630, PEP 3660, PEP 4700, PEP 4710, PEP 4860C, PEP 4830, or PEP 4990 until admission requirements have been met.

Admission requirements include:

1. Declared major or minor or BIS in a Physical Education or Coaching Education program.
2. Minimum cumulative GPA of 2.75.
3. Students may transfer a maximum of 12 physical education professional course credits from another institution per the Physical Education Program Director approval.
4. Fingerprinting/background check must be cleared prior to admission to the program.
5. Provisional admission is granted for one semester only until the check is completed.

Program Retention Requirements

After admission into the Physical Education major/minor programs, students will be retained based on the following:

1. Minimum cumulative GPA of 3.0.
2. Earned grade of "C" or above for each required course.
3. Clear fingerprinting/background check.

Course Requirements for the Physical Education Minor

Professional Knowledge (15 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**
- PEP 3660 - Adapted Physical Education **Credits: (3)**

Field Experiences (3 credit hours)

- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Methods of Teaching (9 credit hours)

- PEP 3280 - Methods of Teaching Strength and Conditioning **Credits: (3)**
- PEP 3290 - Methods of Teaching Fitness for Life **Credits: (3)**
- PEP 4700 - Methods of Teaching Junior High School Physical Education **Credits: (3)**

Course Requirements for the Physical Education/Sport Coaching Education Dual Teaching Minor

Professional Knowledge (26 credit hours)

- PEP 2000 - Foundations of Physical Education **Credits: (3)**
- PEP 2100 - Introduction to Coaching Sport **Credits: (3)**
- PEP 2500 - Sport Pedagogy **Credits: (3)**
- PEP 2700 SS - Sociohistorical Aspects of Sport **Credits: (3)**
- PEP 3100 - Principles of Motor Learning and Motor Development **Credits: (3)**
- PEP 3400 - Sport Psychology for Coaches **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- PEP 3520 - Curriculum and Assessment **Credits: (3)**

Field Experiences (6 credit hours)

- PEP 4860C INT - Field Experience Coaching **Credits: (3)**
- PEP 4990 INT - Field Experience/Senior Seminar **Credits: (3)**

Skill Development and Methods of Teaching (6 credit hours)

- PEP 3240 - Skill Development and Methods of Field Sports **Credits: (2)**
- PEP 3242 - Skill Development and Methods of Court Sports **Credits: (2)**

Required Support Course (2-3 credit hours)

- HLTH 1300 - First Aid: Responding to Emergencies **Credits: (2)** or
- RHS 2175 - Introduction to Sports Medicine **Credits: (3)**

Certification

Secondary Physical Education Teachers for Elementary School Dual Certification

For individuals holding a secondary physical education certificate who desire to work in the elementary schools, dual certification is available. See the director of physical education (see Department of Health, Physical Education, and Recreation) for more information.

Department of Health Sciences

Department Chair: Travis Price

Location: Marriott Allied Health Building, Rm 109

Telephone Contact: Chris Housley 801-626-6505

Professors: Jim Hutchins, Travis Price; **Assistant Professors:** Justin Burr, Jordan West; **Instructors:** Lyndsey Aponik Gremillion, Marvin Orrock, Pamela Silberman

The Associate of Science in Health Sciences (ASHS) prepares students for entrance into a wide variety of health professions programs currently housed in the Dumke College of Health Professions (DCHP) such as: Dental Hygiene, Emergency Care and Rescue, Nursing, Radiologic Sciences, Respiratory Therapy, Medical Laboratory Sciences, Health Information Management and Health Administrative Services. It also serves as a preparatory associate degree

for other Weber State University Bachelor of Science majors including: Anthropology, Gerontology, Athletic Training, Athletic Therapy, Health Promotion, Human Performance Management, Recreation, Sales and Service Technology, and the Bachelor of Integrated Studies (BIS).

Students can choose to complete an ASHS degree or a specific ASHS degree track to customize their academic program: Associate of Science in Health Sciences - Dental Hygiene Track, Associate of Science in Health Sciences - Nursing Track, Associate of Science in Health Sciences - Radiologic Sciences Track, Associate of Science in Health Sciences - Medical Laboratory Sciences Track, and the Associate of Science in Health Sciences - Respiratory Therapy Track. The ASHS degree tracks are designed to expose students to a health professions program as well as provide specific training for potential career opportunities.

Interdisciplinary Minors

The Health Sciences Department participates in the interdisciplinary Neuroscience Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Associate of Science

Health Sciences (AS)

- **Grade Requirements:** An overall GPA of 2.5 or higher is required. A course grade of "C" or higher is required for all Health Sciences and the health professions (DENT, NRSG, MLS, RADT, and REST) support courses.
- **Credit Hour Requirements:** A total of 60 credit hours is required for graduation.
- **Program Code:** Health Science (2029AS), Health Science Dental Hygiene Track (2029ASDENT), Health Science MLS Track (2029ASMLS), Health Science Nursing Track (2029ASNRSG), Health Science Respiratory Therapy Track (2029ASREST), Health Science Radiologic Science Track (2029ASRADT), Health Science Public Health (2029ASPUBH)
- **CIPC:** 510000

Advisement

Students may contact an advisor in the Dr. Ezekiel R. Dumke College of Health Professions Admissions Advisement Office (Marriott Allied Health Building, Room 108, Phone 801-626-6136, Email healthprofessions@weber.edu) for program information.

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses suggested for the AS Degree in Health Sciences will also fulfill general education requirements: CHEM 1110, CHEM 1130, COMM 1020 or COMM 2110, HTHS 2110, MICR 1113, NUTR 1020, PSY 1010, SOC 1010/SOC 1020.

Consult with Academic Advising or the Dr. Ezekiel R. Dumke College of Health Professions Admissions Advisement office regarding general education guidelines.

Program Learning Outcomes

- Students will demonstrate content knowledge of human body systems
- Students will demonstrate understanding of medical terminology and fluency in medical English
- Students will demonstrate understanding of the relationship between normal human physiology and disease
- Students will demonstrate scientific knowledge and skills in scientific reasoning
- LO1. Evaluate evidence and draw scientific conclusions about natural phenomena.
- LO2. Give examples of the integration of science across different disciplines.
- LO3. Explain specific interactions between science and society.
- LO4. Employ problem solving and data analysis tools.
- LO5. Classify levels of organization in humans.
- LO6. Diagram the ways in which human bodies obtain and use energy at the system, cellular, and molecular levels in an effort to maintain homeostasis.
- LO7. Give examples of ways in which genetic processes and evolution act on the human body.
- LO8. Cite the ecological interactions between humans and their environment, which affect human health.
- LO9. Correlate anatomical structures with their physiological functions.
- LO10. Explain how diseases disrupt anatomy and/or physiology.
- LO11. Evaluate probable causes of disease, given a case study.
- LO12. Recognize the meaning of medical words, whether written or spoken.
- LO13. Deconstruct the etymology of medical words.

Major Course Requirements for the Associate of Science in Health Sciences Degree and Degree Tracks

Health Sciences Core Courses Required (10 credit hours)

- HTHS 1101 - Medical Terminology **Credits: (2)** or
- HTHS 1104 - Introductory Human Anatomy and Physiology **Credits: (3)** and
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Associate of Science in Health Sciences (13 credits)

WSU General Education Requirements, Health Sciences Core Requirements, and the following support courses:

- HTHS 1103 - Introduction to Health Careers **Credits: (3)**
- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2231 - Introductory Pathophysiology Laboratory **Credits: (1)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

Associate of Science in Health Sciences-Dental Hygiene Track (10 credits)

WSU General Education Requirements, Health Sciences Core Requirements, and the following support courses:

- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2231 - Introductory Pathophysiology Laboratory **Credits: (1)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

Associate of Science in Health Sciences-Medical Laboratory Sciences (MLS) Track (11 credits)

WSU General Education Requirements, Health Sciences Core Requirements, and the following support courses:

- MLS 1113 - Introduction to Medical Laboratory Practices **Credits: (4) ***
 - MLS 1114 - Principles of Hematology and Hemostasis **Credits: (4) ***
 - HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- * Online MLS students must have a signed affiliation agreement prior to registering for these courses.***

Associate of Science in Health Sciences-Nursing Track (10 credits)

WSU General Education Requirements, Health Sciences Core Requirements, and the following support courses:

- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2231 - Introductory Pathophysiology Laboratory **Credits: (1)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

Associate of Science in Health Sciences-Respiratory Therapy Track (12 credits)

WSU General Education Requirements, Health Sciences Core Requirements, and the following support courses:

- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2231 - Introductory Pathophysiology Laboratory **Credits: (1)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**
- REST 1540 - Survey of Respiratory Therapy **Credits: (1)**
- REST 1560 - Multi-Skilled Health Care Worker **Credits: (1)**

Associate of Science in Health Sciences-Radiologic Sciences Track (10 credits)

WSU General Education Requirements, Health Sciences Core Requirements.

Choose one of the following:

Limited Radiographer Certificate (10 credits)

RADT 1021, RADT 1022, RADT 1023, RADT 1025

OR

Cardiographic Technician Certificate (10 credits)

RADT 1012, RADT 1013, RADT 1014, RADT 1025

- RADT 1021 - Limited Clinical Simulation **Credits: (1)**
- RADT 1022 - Introduction to Radiologic Technology **Credits: (2)**
- RADT 1023 - Limited Radiographic Anatomy & Positioning **Credits: (2)**
- RADT 1024 - Limited Principles of Radiographic Exposure **Credits: (3)**
- RADT 1025 - Limited Patient Care and Assessment **Credits: (2)**
- RADT 1012 - Cardiographic Technician **Credits: (3)**
- RADT 1014 - Basic Cardiac Imaging **Credits: (3)**
- RADT 1013 - Rhythm Analysis **Credits: (3)**

Associate of Science in Health Sciences-Public Health Track (15 credits)

WSU General Education Requirements, Health Sciences Core Requirements, and the following support courses:

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ECON 1010 SS - Economics as a Social Science **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- MICR 1113 LS - Introductory Microbiology **Credits: (3)**

Recommended Elective Courses to fulfill AS degree credit-hour requirement (60 credits), if necessary:

- HTHS 1103 - Introduction to Health Careers **Credits: (3)**
- HTHS 1108 - Biocalculations for Health Professions **Credits: (5)**
- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**
- HTHS 2830 - Health Sciences Directed Readings **Credits: (1-3)**
- HTHS 2904 - Information Resources in the Health Professions **Credits: (1)**
- HTHS 2990 - Health Sciences Seminar **Credits: (1)**
- NEUR 2950 - Introduction to Neuroscience **Credits: (3)**
- PAR 1000 INT - Emergency Medical Technician **Credits: (4)** and
- PAR 1001 - Emergency Medical Technician Lab **Credits: (2)**
- HIM 2250 - Health Care Privacy and Security **Credits: (3)**
- HIM 3000 - Health Informatics **Credits: (3)**

- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)**
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**
- HAS 3000 - The Healthcare System **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- MLS 4410 SUS - Interdisciplinary Health Care Teams **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Electroneurodiagnostics (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better in courses used toward the BIS emphasis (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** Minimum of 18 credit hours in Neuroscience; minimum of 23 credit hours in Health Sciences; minimum 30 credit hours in Electroneurodiagnostics (courses taken in collaboration with the University of Utah Electroneurodiagnostics Program).
- **Program Code:** Neuroscience (END) 7051, Health Science (END) 2063, Electroneurodiagnostics (END) 2064
- **CIPC:** 51.0903

Advisement

Contact the Department of Health Sciences or Department of Neuroscience END advisor who will help you select courses. This is a predefined set of Concentrations for the BIS degree. Students cannot combine these END concentrations with other BIS concentrations.

Neuroscience (END) Concentration Courses Required

Students must complete coursework in each of the following areas (cognitive/behavioral neuroscience; cellular/molecular neuroscience; clinical/medical neuroscience).

- NEUR 2950 - Introduction to Neuroscience **Credits: (3)**
- Cognitive/Behavioral Neuroscience Area*
- NEUR 3750 - Cognitive and Behavioral Neuroscience **Credits: (3)** or
 - PSY 2710 - Biopsychology **Credits: (3)** or
 - PSY 3730 - Perception **Credits: (3)**
- Cellular/Molecular Neuroscience Area*
- NEUR 3950 - Cellular and Molecular Neuroscience **Credits: (3)** or
 - ZOOL 3200 - Cell Biology **Credits: (4)** or
 - ZOOL 3300 - Genetics **Credits: (4)** or
 - ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- Clinical/Medical Neuroscience Area*
- NEUR 3850 - Clinical Neuroscience **Credits: (3)** or

- PSY 3740 - Neuropsychopharmacology **Credits: (3)** or
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)** or
- ZOOL 1020 LS - Human Biology **Credits: (3)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

Additionally, students will complete 6 credit hours of electives in consultation with their advisor.

Health Sciences (END) Concentration Courses Required

Before applying to the University of Utah Electroneurodiagnostic Program, students should complete the following required courses:

- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
or
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- HTHS 1103 - Introduction to Health Careers **Credits: (3)**
- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2231 - Introductory Pathophysiology Laboratory **Credits: (1)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

University of Utah Electroneurodiagnostics (END) Program Courses Required

Students will apply for admission to the University of Utah Electroneurodiagnostics (END) Program.

- HTHS 3410 - Foundations of Health Science Technology **Credits: (3)**
- HTHS 3412 - Health Science Technology Applications **Credits: (3)**
- HTHS 3997 - Digital EEG Concepts **Credits: (3)**
- HTHS 3998 - Normal Adult EEG **Credits: (3)**
- HTHS 3999 - Artifacts in EEG **Credits: (3)**
- HTHS 4010 - Interdisciplinary Health Care Teams **Credits: (3)**
- NEUR 3998 - EEG in Epilepsy **Credits: (3)**
- NEUR 3999 - EEG in Ped Patients & Neonates **Credits: (3)**
- BIS 3850 - BIS Internship **Credits: (1-3)** (3 credits required)

Health Sciences (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Credit hour requirements:** 18 credit hours.
- **Program Code:** 2029
- **CIPC:** 510000

The course contract as well as any substitutions must be approved by the chair of the appropriate department and the BIS coordinator. HTHS 3328, HTHS 3329, and PUBH 3200 may serve as possible substitutions with approval.

Required Courses

- HTHS 1101 - Medical Terminology **Credits: (2)** or
- HTHS 1103 - Introduction to Health Careers **Credits: (3)** or
- HTHS 1104 - Introductory Human Anatomy and Physiology **Credits: (3)**

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
- HTHS 2120 - Case Studies in Health Sciences **Credits: (3)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2231 - Introductory Pathophysiology Laboratory **Credits: (1)**

- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**

Department of Medical Laboratory Sciences

Department Chair: Matthew Nicholaou

Program Director: Janice Thomas (AAS/MLT) and Kendal Beazer (BS/MLS)

Online Program Coordinators: Cindi Kranek, Kandi Tait, Ashley Wilkinson

Practicum Coordinator: Christy Achter

Laboratory Manager: Kent Criddle

Location: Marriott Allied Health Building, Rm 208

Telephone Contact: Jaime Brown, 801-626-6118

Professor: Yas Simonian, Janice Thomas and Matthew Nicholaou; **Associate Professors:** S. Kendal Beazer, Scott Moore and Justin Rhees; **Instructor:** Chere Clawson

Medical Laboratory Scientists (MLS) and Medical Laboratory Technicians (MLT) - also known as Clinical Laboratory Scientists (CLS) and Clinical Laboratory Technicians (CLT) - perform laboratory tests on patient samples to provide information needed to diagnose or monitor treatment. These professionals do everything from providing cancer-testing results, to predicting the correct antibiotic to prescribe, to typing the correct blood for surgery. Examples of common laboratory tests include tests to detect anemia, diagnose diabetes and strep throat, and provide a transfusion to an accident victim. Doctors rely on laboratory test results to make informed patient diagnoses. Patient history along with physical signs and symptoms are vital, but most diagnoses need confirmation that only laboratory tests can provide. The laboratory professionals provide answers to life-and-death questions every day.

The MLS program follows a ladder approach from the Associates of Applied Science (AAS) degree through a Bachelor of Science (BS) degree. Students interested in applying to the campus associate level MLT program must first meet with an academic advisor and complete prerequisite courses. If accepted into the MLT program, successful completion of two academic semesters leads to an Associates of Applied Science degree, and allows graduates eligibility to national certification (ASCP MLT). Qualified students wishing to continue can apply for acceptance into the MLS BS program, which generally requires two years of study and provides eligibility to national certification (ASCP MT) upon successful completion of all academic requirements.

Students interested in the online MLS AAS Program must be employed, or have the support of, a clinical laboratory. Students will receive the didactic (lecture) portion of each course online, while completing specific laboratory competencies in the clinical laboratory under the supervision of qualified clinical laboratory mentors where they work. Please refer to the employer support information on the MLS Department web site: <http://www.weber.edu/mls> (online DEGREES/PROGRAMS).

Accreditation

*The Medical Laboratory Sciences Programs are nationally accredited by the National Accrediting Agency for Clinical Laboratory Science (NAACLS) 5600 N. River Rd. Suite 720, Rosemont, IL 60018-5119.
<http://www.naacls.org>.*

Associate of Applied Science

Medical Laboratory Sciences (AAS)

- **Program Prerequisite:** Completion of the support courses listed under the Admission Requirements.
- **Grade Requirements:** A grade of "B-" or better in all MLS courses, and a grade of "C" or better in all support courses.
- **Credit Hour Requirements:** A total of 67-68 credit hours is required for graduation, 34 of these are required MLS courses, 22 are required support courses, and 12 are required general education courses.
- **Program Code:** 2098AAS
- **CIPC:** 511004

Advisement

Students interested in the MLS program are required to meet with an MLS advisor. To schedule an advising appointment, contact the MLS office at 801-626-6118 or email mls@weber.edu to request an appointment.

Admission Requirements

Campus students:

1. Applicants must have a minimum cumulative GPA of 3.0 and meet with an advisor.
2. Complete MLS 1113 and MLS 1114 and most or all of the MLS support courses by April 1 of the year of application (student may be enrolled in those courses that spring semester). For the list of support courses, see Course Requirements for the AAS Degree.
3. Apply for the AAS program and include a non-refundable \$25 fee by April 1st for fall semester acceptance. Applications can be found online. For more information, call the MLS office at 801-626-6118.
4. Complete a federal background check and drug screen by the end of fall semester after acceptance into the program.
5. Students for whom English is not their native language need to submit documentation of proficiency in English. Please refer to the MLS website for more details.

Online students:

1. Applicants must have a minimum cumulative GPA of 2.7.

2. Must be currently employed by an accredited (TJC/CAP/COLA/CLIA) laboratory that can provide a multidisciplinary laboratory experience. Contact the AAS MLS online academic advisor, Ashley Wilkinson for advising.
3. Have employer read and sign a Statement of Support form.
4. Apply to WSU for general admissions.
5. Send all official transcripts from other institutions to the WSU admissions office.
6. Complete an MLS AAS online application. Submit a completed Statement of Support along with the application. A \$95 non-refundable departmental application fee is also required.
7. Complete a federal background check and drug screen, if required by employer.

Once supporting documents listed above are received and reviewed, students are notified of acceptance and enrolled the following semester.

For more information about the online application requirements and process contact Ashley Wilkinson at 801-626-6120 for advising.

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following required courses will fulfill both program requirements and general education requirements in the Life and Physical Sciences areas: CHEM 1110/1115, CHEM 1210/1215, HTHS 2110, MICR 1113, MICR 2054, and PHYS 1010. Remaining general education requirements can be fulfilled by taking the required 12 credit hours from each of the following areas:

- 6 credit hours Composition
- 3 credit hours Creative Arts & Humanities
- 3 credit hours Social Sciences

Some requirements may be met by ACT, CLEP, and/or AP scores as designated by the University (contact the Admissions Office for more information).

Credit Policy

MLS Obsolete Credit AAS: Medical Laboratory Sciences credits earned more than five (5) years prior to application or re-application to the AAS program (MLT) will not be accepted toward major requirement.

Program Learning Outcomes

- Knowledge Goal: Demonstrate knowledge of theory underlying laboratory testing using analytical, interpretive, and problem solving skills.
- Knowledge Goal: Apply mathematical calculations to laboratory situations.
- Laboratory Skill: Perform laboratory procedures from simple to complex, including specimen collection and processing, analysis, interpretation, and use of quality assurance procedures.
- Laboratory Skill: Correlate laboratory theory and terminology to practical laboratory work.
- Laboratory Skill: Gather additional laboratory data and apply problem solving skills to solve problems/discrepancies.
- Diagnostic Skill: Relate laboratory findings to common disease processes.
- Professionalism and Ethics: Demonstrate professional conduct and ethical behavior.
- Communication Skill: Demonstrate effective communication skills and behaviors with colleagues in the program and in a laboratory setting for the best new technologies to integrate organization's business processes.

Major Course Requirements for AAS Degree

MLS Courses Required (34 credit hours)

- MLS 1001 - Online Orientation for AAS Degree **Credits: (1)**
- MLS 1113 - Introduction to Medical Laboratory Practices **Credits: (4)**
- MLS 1114 - Principles of Hematology and Hemostasis **Credits: (4)**
- MLS 2210 - Principles of Immunohematology **Credits: (5)**
- MLS 2211 - Principles of Clinical Chemistry I **Credits: (4)**
- MLS 2212 - Principles of Clinical Microbiology I **Credits: (5)**
- MLS 2213 - Principles of Clinical Chemistry II **Credits: (4)**
- MLS 2214 - Principles of Clinical Microbiology II **Credits: (5)**
- MLS 2256 INT - Supervised Clinical Experience I **Credits: (1)**
- MLS 2257 INT - Supervised Clinical Experience II **Credits: (1)**

Support Courses Required (19-25 credit hours)

- CHEM 1110 PS - Elementary Chemistry **Credits: (4)**
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)**
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**
- **or**
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)**
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)**
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- **or**
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)**
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** * and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** *
- MATH 1010 - Intermediate Algebra **Credits: (4-5)** or
- MLS 2003 - Applied Laboratory Mathematics and Operations **Credits: (3)**
- MICR 1113 LS - Introductory Microbiology **Credits: (3)** or
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**

Note:

* *Equivalencies HTHS 2110 and HTHS 2111*

- ZOO 2420 LS - Human Physiology **(4)** and
- ZOO 2320 - Human Anatomy **(4)**
- *or*
- PHYS 1010 PS - Elementary Physics **(3)**

Bachelor of Science

Medical Laboratory Sciences (BS)

- **Program Prerequisite:** Completion of MLS AAS Degree requirements. Students transferring from another college or university must have an MLS/MLT AAS Degree and CLT/MLT certification.
- **Minor:** A minor is not required, but minors are available in chemistry and microbiology with successful completion of additional courses as specified by the department offering the minor.
- **Grade Requirements:** A grade of "B-" or better in all MLS courses, and a grade of "C" or better in all support courses.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation.
- **Program Code:** Medical Laboratory Professional (2039BS) with Lab Track (2040), or Pre-Professional Tracks (2041).
- **CIPC:** Medical Laboratory Professional (511005) with Lab Track (511005), or Pre-Professional Tracks (511102).

Advisement

All medical laboratory science students are required to meet with an advisor prior to application. Thereafter, advisement with a faculty each year is recommended. To schedule an advising appointment, call the MLS office at 801-626-6118 or email mls@weber.edu.

Admission Requirements

Campus students:

1. Must have a minimum cumulative GPA of 3.0.
2. Must have completed WSU MLS AAS Program. Transfer students must have a MLS/MLT AAS Degree and/or CLT/MLT ASCP certification.
3. Meet with an MLS faculty advisor.
4. Apply for the BS program and include non-refundable \$25 fee by April 1st for fall semester acceptance. Applications can be found online. For more information, call the MLS office at 801-626-6118.
5. Complete a federal background check and drug screen by the end of fall semester after being accepted into the program.
6. Students for whom English is not their native language need to submit documentation of proficiency in English. Please refer to the MLS website for more details.

Online students:

1. Must have a minimum cumulative GPA of 2.7.
2. Must be currently employed by an accredited (TJC/CAP/COLA/CLIA) laboratory that can provide a multidisciplinary laboratory experience.
3. Must have an MLS/MLT AAS Degree and CLT/MLT certification. (Note: acceptable certification; MLT(ASCP), MT(AMT), or MT(AAB).)
4. Contact the BS MLS online advisor, Christy Achter, at 801-626-6874 for advising.
5. Have employer read and sign Statement of Support form.
6. Apply to WSU for general admissions.
7. Send all official transcripts from other institutions to the WSU admissions office.
8. Complete a MLS BS online application. Submit a completed Statement of Support along with the application. A \$95 non-refundable departmental application fee is also required.
9. Complete a federal background check and drug screen, if required by employer.

For more information about the online application requirements process contact Christy Achter at 801-626-6874.

General Education Requirements

Refer to Degree Requirements for Bachelor of Science requirements. The following required courses will fulfill both program requirements and general education requirements in the Life and Physical Sciences areas: CHEM 1130/1135 CHEM 1110/ 1115, CHEM 1210/1215, HTHS 2110, MICR 1113, MICR 2054, PHYS 1010.

Some requirements may be met by ACT, CLEP, and/or AP scores as designated by the University (contact the Admissions Office for more information).

Credit Policy

MLS Obsolete Credit BS: Medical Laboratory Sciences credits earned more than five (5) years prior to application or re-application to the BS program (MLT) will not be accepted toward major requirement.

Program Learning Outcomes

- Knowledge Goal: Demonstrate knowledge of theory underlying laboratory testing using analytical, interpretive, and problem solving skills.
- Knowledge Goal: Apply mathematical calculations to laboratory situations.
- Laboratory Skill: Perform laboratory procedures from simple to complex, including specimen collection and processing, analysis, interpretation, and use of quality assurance procedures.
- Laboratory Skill: Correlate laboratory theory and terminology to practical laboratory work.
- Laboratory Skill: Gather additional laboratory data and apply problem solving skills to solve problems/discrepancies.
- Diagnostic Skill: Relate laboratory findings to common disease processes.
- Professionalism and Ethics: Demonstrate professional conduct and ethical behavior.
- Communication Skill: Demonstrate effective communication skills and behaviors with colleagues in the program and in a laboratory setting.
- Supervisory Skill: Demonstrate ability to oversee day-to-day operations to include hiring and technical supervision.
- Research Skill: Demonstrate proficiency in basic research skills and statistical analysis.
- Interprofessional Relations: Understand the role of other health care disciplines in patient diagnosis and successfully participate as part of the health care team.

Major Course Requirements for BS Degree

An AAS in MLS is required prior to enrollment in BS Degree (34 lower division core credit hours)

- MLS 1001 - Online Orientation for AAS Degree **Credits: (1)**
- MLS 1113 - Introduction to Medical Laboratory Practices **Credits: (4)**
- MLS 1114 - Principles of Hematology and Hemostasis **Credits: (4)**
- MLS 2210 - Principles of Immunohematology **Credits: (5)**
- MLS 2211 - Principles of Clinical Chemistry I **Credits: (4)**
- MLS 2212 - Principles of Clinical Microbiology I **Credits: (5)**
- MLS 2213 - Principles of Clinical Chemistry II **Credits: (4)**
- MLS 2214 - Principles of Clinical Microbiology II **Credits: (5)**
- MLS 2256 INT - Supervised Clinical Experience I **Credits: (1)**

- MLS 2257 INT - Supervised Clinical Experience II **Credits: (1)**

Note:

Transfer students must have completed a MLS/MLT program, be MLT certified, and must register for MLS 3301 to enter the BS program.

Courses Required for Junior and Senior Curriculum

Select one of the following tracks:

Track I (Laboratory professional) 62-76 credits required

Online and Campus students

MLS Courses Required- Track I (B- grade or better)

- MLS 1001 - Online Orientation for AAS Degree **Credits: (1)**
or
- MLS 3301 - Online Orientation for BS Degree **Credits: (2)**
- MLS 3302 - Biostatistics, Research Methods, and Laboratory Practices **Credits: (4)**
- MLS 3310 - Advanced Immunohematology **Credits: (4)**
- MLS 3312 - Clinical Laboratory Immunology and Virology **Credits: (4)**
- MLS 3313 - Advanced Hematology and Hemostasis **Credits: (4)**
- MLS 3314 - Advanced Clinical Chemistry **Credits: (4)**
- MLS 3316 - Advanced Clinical Microbiology and Molecular Diagnostics **Credits: (4)**
- MLS 3318 - Clinical Molecular Diagnostics **Credits: (3)**
- MLS 4409 - Clinical Correlation **Credits: (1)**
and
- MLS 4410 SUS - Interdisciplinary Health Care Teams **Credits: (3)**
or
- MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I **Credits: (2)**
and
- MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II **Credits: (2)**
- MLS 4411 - MLS Simulated Laboratory I **Credits: (3)**
- MLS 4412 - MLS Simulated Laboratory II **Credits: (3)**
- MLS 4415 - Laboratory Teaching and Supervision **Credits: (3)**
- MLS 4453 INT - Supervised Clinical Experience I **Credits: (1)**
- MLS 4454 INT - Supervised Clinical Experience II **Credits: (1)**

Support Courses Required- Track I (C grade or better)

- WSU Math QL Requirement
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)** and
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**
or
- CHEM 1110 PS - Elementary Chemistry **Credits: (4)** and
- CHEM 1115 - Elementary Chemistry Lab **Credits: (1)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)** and
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**

or

- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**
- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)** *

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** or
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)** or
- ZOOL 2320 - Human Anatomy **Credits: (4)** or
- PHYS 1010 PS - Elementary Physics **Credits: (3)** *

- MICR 2054 LS - Principles of Microbiology **Credits: (4)** or
- MICR 1113 LS - Introductory Microbiology **Credits: (3)** *

- MICR 3305 - Medical Microbiology **Credits: (5)** or
- MICR 3603 - Advanced Microbiology for the Health Professions **Credits: (3)** or
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)** or
- HAS 3010 - Professionalism in Healthcare **Credits: (3)**

Note:

** Students seeking a BS degree are required to complete a minimum of one semester of Organic or Bio Chemistry. This requirement can be satisfied through completion of CHEM 1130/1135 or CHEM 1120/1125 or CHEM 2310/2315.*

Track II (Pre-professional) (88-92 credits required)

Campus students only

MLS Courses Required- Track II (B- grade or better)

- MLS 1001 - Online Orientation for AAS Degree **Credits: (1)** *
- or**
- MLS 3301 - Online Orientation for BS Degree **Credits: (2)** *
 - MLS 3302 - Biostatistics, Research Methods, and Laboratory Practices **Credits: (4)**
 - MLS 3310 - Advanced Immunohematology **Credits: (4)**
 - MLS 3312 - Clinical Laboratory Immunology and Virology **Credits: (4)**
 - MLS 3313 - Advanced Hematology and Hemostasis **Credits: (4)**
 - MLS 3314 - Advanced Clinical Chemistry **Credits: (4)**
 - MLS 3316 - Advanced Clinical Microbiology and Molecular Diagnostics **Credits: (4)**
 - MLS 3318 - Clinical Molecular Diagnostics **Credits: (3)**

 - MLS 4409 - Clinical Correlation **Credits: (1)** and
 - MLS 4410 SUS - Interdisciplinary Health Care Teams **Credits: (3)**
- or**
- MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I **Credits: (2)** and
 - MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II **Credits: (2)**

- MLS 4411 - MLS Simulated Laboratory I **Credits: (3)**
- MLS 4453 INT - Supervised Clinical Experience I **Credits: (1)**
- MLS 4454 INT - Supervised Clinical Experience II **Credits: (1)**

Support Courses Required Track II (C grade or better)

- WSU Math QL Requirement
- CHEM 1210 PS - Principles of Chemistry I **Credits: (4)** and
- CHEM 1215 - Principles of Chemistry I Lab **Credits: (1)**

- CHEM 1220 - Principles of Chemistry II **Credits: (4)** and
- CHEM 1225 - Principles of Chemistry II Lab **Credits: (1)**

- CHEM 2310 - Organic Chemistry I **Credits: (4)** and
- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**

- CHEM 2320 - Organic Chemistry II **Credits: (4)** and
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- or**
- CHEM 3070 - Biochemistry I **Credits: (3)**

- MICR 2054 LS - Principles of Microbiology **Credits: (4)** or
- MICR 1113 LS - Introductory Microbiology **Credits: (3)**

- MICR 3305 - Medical Microbiology **Credits: (5)** or
- MICR 3603 - Advanced Microbiology for the Health Professions **Credits: (3)** or
- PUBH 3200 - Epidemiology and Biostatistics **Credits: (3)** or
- HAS 3010 - Professionalism in Healthcare **Credits: (3)**

- PHYS 2010 PS - College Physics I **Credits: (5)**
- PHYS 2020 - College Physics II **Credits: (5)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**

Note:

Equivalencies HTHS 2110 and HTHS 2111

- *ZOOL 2420 LS - Human Physiology (4)*
- and*
- *ZOOL 2320 - Human Anatomy (4) or*
- *PHYS 1010 PS - Elementary Physics (3)*

Post Baccalaureate Certificate

Technologist in Blood Banking Post Baccalaureate Certificate

This Post-Bachelor's Certificate program will prepare students who lack a formal degree or certification in medical laboratory sciences (MLS) to work in a clinical immunohematology (Blood Banking) laboratory. Students will progress through four online courses containing all of the immunohematology content included in a bachelor level MLS program, which also includes laboratory operations and an in-person clinical rotation of 160 hours minimum. After completion of this certificate program students will qualify to take the Technologist in Blood Banking BB(ASCP) certification exam from the American Society for Clinical Pathology (ASCP) via Route 3 (<https://www.ascp.org/content/board-of-certification/get-credentialed>).

- **Program Requirements:** Students must have a minimum GPA of 3.0 and have completed a baccalaureate degree from a regionally accredited college/university with a major in biological science or chemistry, or have completed a baccalaureate degree with a combination of 30 semester hours (45 quarter hours) in biology and chemistry.
- **Grade Requirements:** To receive a Technologist in Blood Banking Post Baccalaureate Certificate students will need to pass each certificate course with a minimum grade of a "B-" or higher.
- **Credit Hour Requirements:** 12 credit hours
- **Program Code:** 2100PBC
- **CIPC:** 511001

Courses Required (12 credit hours)

- MLS 5301 - Fundamentals of Immunohematology **Credits: (3)**
- MLS 5302 - Advanced Immunohematology and Transfusion Medicine **Credits: (3)**
- MLS 5203 - Technologist in Microbiology: Applied Laboratory Mathematics and Operations **Credits: (3)**
- MLS 5304 - Clinical Rotation in Immunohematology **Credits: (3)**

Technologist in Microbiology Post Baccalaureate Certificate (PBC)

This Post-Bachelor's Certificate program is a partnership with the American Society of Microbiology (ASM) to prepare students to work in a clinical microbiology laboratory who lack a formal degree or certification in medical laboratory sciences (MLS). Students will progress through four online courses containing all of the clinical microbiology content included in a bachelor level MLS program, which also includes laboratory operations and an in-person clinical rotation of 160 hours minimum. After completion of this certificate program students will qualify to take the Technologist in Microbiology M(ASCP) certification exam from the American Society for Clinical Pathology (ASCP) via Route 3.

- **Program Prerequisites:** None.
- **Program Requirements:** Students must have a minimum GPA of 2.7 and have completed a baccalaureate degree from a regionally accredited college/university with a major in biological science or chemistry, or have completed a baccalaureate degree with a combination of 30 semester hours (45 quarter hours) in biology and chemistry.
- **Grade Requirements:** to receive a Technologist in Microbiology Post Baccalaureate Certificate students will need to pass each certificate course with a minimum grade of a "B-" or higher.
- **Credit Hour Requirements:** 12 credit hours.
- **Program Code:** 2082PBC
- **CIPC:** 410101

Credit Policy

MLS Obsolete Credit ASM: Medical Laboratory Sciences credits earned more than five (5) years prior to application or re-application to the ASM program (MLT) will not be accepted toward major requirement.

Required Courses (12 credit hours)

- MLS 5201 - Technologist in Microbiology: Clinical Microbiology I **Credits: (3)**
- MLS 5202 - Technologist in Microbiology: Clinical Microbiology II **Credits: (3)**
- MLS 5203 - Technologist in Microbiology: Applied Laboratory Mathematics and Operations **Credits: (3)**
- MLS 5204 - Technologist in Microbiology: Supervised Clinical Experience **Credits: (3)**

Certification

Medical Laboratory Sciences Medical Laboratory Assistant (MLA) Certificate

The Medical Laboratory Assistant (MLA) certificate of completion is designed to teach core clinical laboratory skills to individuals from various health care professions. The curriculum will focus on basic laboratory methods in quality control, quality assurance, information recording and transfer, normal and abnormal laboratory values, and problem recognition. Students will receive basic technical instruction in laboratory safety, microscopy, phlebotomy, specimen collection and processing, and laboratory instrumentation in the areas of hematology, serology, urinalysis, clinical chemistry, and microbiology. Upon successful completion of the course, students will receive a Certificate from the Dumke College of Health Profession's Medical Laboratory Assistant (MLA) program and are designated as CLA level assistant IV by local industry.

For campus students, the MLA certificate is granted after successful completion of MLS 1113, Intro to Medical Laboratory Practices.

Online students must complete MLS 1010, Core Clinical Laboratory Skills, and have the support of a clinical laboratory to fulfill the laboratory requirement. The laboratory component will address applications with a focus on point-of-care-testing (POCT). Students will be required to spend a minimum of 64 unpaid hours during the semester working on laboratory competency. If students wish to continue to further their education, MLS 1113 will be waived upon enrollment into the MLS AAS Program at WSU. Contact the AAS/MLT online academic advisor, Christy Achter, at 801-626-6874 or christyachter@weber.edu for advising.

Program Learning Outcomes

- Knowledge Goal: Demonstrate knowledge of theory underlying laboratory testing using analytical, interpretive, and problem solving skills.
- Knowledge Goal: Apply mathematical calculations to laboratory situations.
- Laboratory Skill: Perform laboratory procedures from simple to complex, including specimen collection and processing, analysis, interpretation, and use of quality assurance procedures.
- Laboratory Skill: Correlate laboratory theory and terminology to practical laboratory work.
- Laboratory Skill: Gather additional laboratory data and apply problem solving skills to solve problems/discrepancies.
- Diagnostic Skill: Relate laboratory findings to common disease processes. Professionalism and Ethics:
- Demonstrate professional conduct and ethical behavior.

- **Communication Skill:** Demonstrate effective communication skills and behaviors with colleagues in the program and in a laboratory setting for the best new technologies to integrate organization's business processes.

Department of Respiratory Therapy

Department Chair: Mich Oki

Medical Director: Roger Paulman, M.D.

Location: Marriott Allied Health Building, Rm 309

Telephone Contact: Irma Marroquin-Lewis (801) 626-7071 **Professor:** Paul Eberle; **Associate Professor:** Mich Oki; **Assistant Professors:** Sarah Allred, Sharri Vasas; **Instructor:** Laurel Duncan

Respiratory care professionals are actively involved, as members of the health care team, in the diagnosis, treatment, management, education, and long-term care of patients with cardiopulmonary problems. These patients may be in the newborn nursery, surgical/medical/rehabilitation units, outpatient clinics, Emergency Room, or cardiac/shock-trauma/burn/neurologic intensive care units. Respiratory Care Practitioners [RCPs] are employed in both acute and long-term care hospitals, skilled nursing facilities, and home health agencies.

Licensed RCPs perform therapeutic and diagnostic procedures under the direction of a physician. Respiratory care practitioners are competent in basic patient care and assessment, medical gas administration, aerosol and humidity therapy, medication administration, hyperinflation techniques, bronchopulmonary drainage and percussion, mechanical ventilation, airway management, advanced cardiac life support, pulmonary function studies, and blood gas sampling and analysis. Patient education, smoking cessation/nicotine intervention, and health promotion are also included in the RCP scope of practice.

The respiratory therapy program follows a career-ladder approach from the pre-professional level through a Bachelor of Science degree. The pre-professional level requires two academic years, leads to an Associate of Applied Science degree, and qualifies the student for the Respiratory Therapy Bachelor of Science program providing eligibility to national credentialing and licensure to practice respiratory care (RCP). Acceptance to the pre-professional level requires program completion through the Bachelor of Science degree level.

Licensure

Applicants who have been convicted of a felony, treated for serious mental illness or substance abuse should discuss their eligibility status with the Utah Department of Professional Licensing. Acceptance to the respiratory therapy program does not assure eligibility for a RCP license. The Utah Department of Professional Licensing makes final decisions on issuance of professional licensure. Any student that is convicted of a felony will be dismissed from the program.

Accreditation

The Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), P.O. Box 54876 Hurst, Texas 76054-4876.

To fulfill its mission, the department sets the following goals for graduates of the program: 1) To prepare graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs) and,

2) to prepare leaders for the field of respiratory care by including curricular content that includes objectives related to acquisition of skills in one or more of the following: management, education, research, advanced clinical practice (which may include an area of clinical specialization). Program credentialing, attrition, and on-time graduation outcomes may be reviewed at the following site: <https://coarc.com/getattachment/Students/Programmatic-Outcome-Data/2017-RCS-Program-Outcomes.pdf.aspx?lang=en-US>

Associate of Applied Science

Respiratory Therapy, Pre-Professional (AAS)

- **Program Prerequisites:** Completion of all prerequisite courses with a grade of "C" or better ("C-" or CR are not acceptable in prerequisite courses). In addition, students must complete an application/selection process, which requires prior completion of current CPR certification at the BLS-C level (also see Admissions Requirements below).
- **Grade Requirements:** A grade of "C" or better in each course is required by this program (a "C-" is not acceptable). CR/NC courses in this program require a "C" or better to receive CR. A cumulative GPA of 2.5 is required to enter the program.
- **Credit Hour Requirements:** A total of 60-67 credit hours is required for graduation; 38 of these are required REST courses and 18 are required general education courses.
- **Program Code:** 2022AAS
- **CIPC:** 510908

Advisement

Students may contact an advisor in the Dr. Ezekiel R. Dumke College of Health Professions' Admissions & Advisement Office (Marriott Allied Health Building, room 108, phone 801-626-6136, email healthprofessions@weber.edu) for program information and an application.

Admissions Requirements

Declare your program of study (see Enrollment Services and Information). Meet with a Dumke College of Health Professions advisor and then file a Program Application (at the Dr. Ezekiel R. Dumke College of Health Professions Admissions Office, MH 108 on or before February 1). Program selection criteria includes cumulative GPA, prerequisite GPA, completion of application process, previous healthcare experience, and formal Selection Committee interview. Complete all prerequisite courses with "C" (2.0) or better.

Admission requirements include the following:

- Graduation from high school or equivalent program
- Cumulative grade point average of 2.5
- Complete FBI criminal background check or designated background check. Any student that is convicted of a felony will be dismissed from the program.
- Admission to Weber State University
- Completed application to Associate of Applied Science Degree and payment of the \$25 application fee

Prerequisite Courses

- REST 1540 - Survey of Respiratory Therapy **(1)**
- MATH 1010 - Intermediate Algebra **(4)** (*with a grade of "C" or better*) or 23 or above on the ACT
- ENGL 1010 EN1 - Introductory College Writing **(3)**
- COMM 1020 HU - Principles of Public Speaking **(3)** or

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **(3)**
- PSY 1010 SS - Introductory Psychology **(3)** or
- PSY 2000 SS/CC - The Psychology of Human Relationships **(3)**
- HTHS 2230 - Introductory Pathophysiology **(3)**
- REST 1560 - Multi-Skilled Health Care Worker **(1)** *or CNA, military medic, or EMT course either*
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **(4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **(4)** *or introductory level courses in the three basic sciences:*
- CHEM 1010 PS - Introductory Chemistry **(3)**
- MICR 1113 LS - Introductory Microbiology **(3)**
- ZOOL 2420 LS - Human Physiology **(4)**

General Education

Refer to Degree Requirements for Associate of Applied Science requirements. The following general education courses will fulfill both general education and program requirements: PSY 1010 or PSY SS2200, ENGL 1010, COMM 1020 or COMM 2110, and **either** HTHS 2110/HTHS 2111 **or** introductory-level courses in some of the basic sciences (human biology, chemistry and microbiology). One additional course in a physical or life science is required for students taking the HTHS option.

Consult with Academic Advising or Dr. Ezekiel R. Dumke College of Health Professions Admission Advisor regarding general education guidelines.

Program Learning Outcomes

- Cognitive skills (problem solving) are facts and concepts that respiratory therapist must know and apply in practice. In didactic courses, learning objectives are evaluated in traditional methods and through face-to-face interactions or in on-line formats using "virtual labs" and in clinical scenarios. Learning objectives include words like discuss or explain a particular patient care concept.
- Psychomotor skills (task competency) are performance based activities encountered in laboratory and/or clinical settings. Simple re-demonstration of skills is rarely sufficient as a learning outcome but repeatedly practiced in peer-to-peer practices, instructor pass-offs, and with clinical preceptors at the bedside. Learning objectives include action words like analyze, apply, or compute data presented in patient care pathologies.
- Affective skills (attitude) are measured in attitudes or motivations of students in exhibition of favorable behavioral traits and in developing empathy for patients. These behavioral traits are evaluated by clinical preceptors for arriving "on time," being prepared and/or showing interest in activities scheduled for the day. These can be viewed as employee characteristics that include statements like, "would you hire this student" at the conclusion of a clinical day. Clinical preceptors file daily evaluations (and students evaluate clinical preceptors for reciprocity) as feedback on these performances and in achieving the stated learning objectives. Graduation satisfaction surveys are completed at the conclusion of the curriculum by graduate surveys. Additionally, cognitive, psychomotor, and affective skills are annually measured by employer surveys completed within 6 months of program completion and reported to our accreditation commission (CoARC) which remain on-file for a period of three years.

Major Course Requirements for AAS Degree

Respiratory Therapy Courses Required (38 credit hours)

- REST 1540 - Survey of Respiratory Therapy **Credits: (1)**
- REST 1560 - Multi-Skilled Health Care Worker **Credits: (1)**
- REST 2140 - Introduction to Basic Therapeutic Modalities Lab **Credits: (3)**
- REST 2160 - Equipment Management Lab **Credits: (3)**
- REST 2210 - Elementary Cardiopulmonary Anatomy and Physiology **Credits: (3)**
- REST 2230 - Cardiopulmonary Pathophysiology **Credits: (2)**
- REST 2250 - Basic Patient Assessment **Credits: (2)**
- REST 2270 - Application of Cardiopulmonary Diagnostics **Credits: (3)**
- REST 2300 - Basic Modalities in Respiratory Care I **Credits: (3)**
- REST 2310 - Basic Modalities in Respiratory Care II **Credits: (3)**
- REST 2320 - Essentials of Mechanical Ventilation **Credits: (2)**
- REST 2330 - Entry Level Respiratory Therapy Review **Credits: (1)**
- REST 2520 - Principles of Pharmacology **Credits: (2)**
- REST 2700 INT - Clinical Applications **Credits: (4)**
- REST 2710 INT - Specialty Clinical Experiences **Credits: (1)**
- REST 2720 INT - Clinical Applications **Credits: (3)**

Bachelor of Science

Respiratory Therapy (BS)

- **Program Prerequisite:** Completion of Respiratory Therapy, Pre-Professional (AAS) degree or Certificate of Completion from an accredited, respiratory therapy program (R.R.T. eligible) or complete CRT SAE with cut score of 95/140 following pre-professional year.
- **Grade Requirements:** A grade of "C" or better in each course required by this program (a "C-" is not acceptable). CR/NC courses in this program require a "C" or better to receive CR. A GPA of 2.75 is required to enter the program.
- **Credit Hour Requirements:** A total of 120 credits are required for graduation (includes AAS degree requirements); 76 of these are REST credits. A total of 40 upper division credit hours are required (courses numbered 3000 and above); 38 of these are required REST credits. Departmental standards are applied to independent projects and directed readings.
- **Program Code:** 2022BS
- **CIPC:** 510908

Advisement

All respiratory therapy students are required to meet with a faculty advisor before beginning bachelor's degree courses, and at least annually after entering program, and complete an academic contract specifying major courses, approved electives, and graduation requirements. Call 801-626-7071 for more information or to schedule an appointment.

During June, July and August, students may contact an advisor in the Dr. Ezekiel R. Dumke College of Health Professions' Admissions & Advisement Office (Marriott Allied Health Building, room 108, phone 801-626-6136, email healthprofessions@weber.edu) for program information and an application, if a faculty member of the Respiratory Therapy Department is not available.

Admissions Requirements

Declare your program of study (see Enrollment Services and Information). Complete Respiratory Therapy, Pre-Professional (AAS) degree requirements (or provide Certificate of Completion from an accredited, respiratory therapy program). Meet with faculty advisor and establish an academic contract.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. Of the Quantitative Literacy courses [MATH 1030, MATH 1040, or MATH 1050], MATH 1030 QL - Contemporary Mathematics is the preferred course for program completion. The following general education courses will fulfill both general education and program requirements: PSY 1010 or PSY SS2200, ENGL 1010, COMM 1020 or COMM 2110, and either HTHS 2110/HTHS 2111 or introductory-level courses in some of the basic sciences (human biology, chemistry and microbiology).

Consult with department advisor or Dr. Ezekiel R. Dumke College of Health Professions Admission Advisor regarding general education guidelines.

Major Course Requirements for BS Degree

Complete the requirements for the AAS degree or equivalent in addition to the courses listed below.

Respiratory Therapy Courses Required (33 credit hours minimum)

- REST 3210 - Advanced Cardiopulmonary Anatomy and Physiology **Credits: (3)**
- REST 3220 - Advanced Cardiopulmonary Pathophysiology **Credits: (3)**
- REST 3230 - Advanced Cardiopulmonary Technology **Credits: (2)**
- REST 3260 - Neonatal/Pediatric Respiratory Care **Credits: (3)**
- REST 3270 - Adult Critical Care **Credits: (2)**
- REST 3280 - Patient Care Continuum/ Quality Management **Credits: (3)**
- REST 3760 INT - Clinical Applications of Neonatal/Pediatric Respiratory Care **Credits: (4)**
- REST 3770 INT - Clinical Applications of Adult Critical Care **Credits: (4)**
- REST 3800 - Respiratory Care Certifications **Credits: (3)**
- REST 3780 INT - Clinical Applications **Credits: (2)**
- REST 3900 - Clinical Simulation Seminar **Credits: (1)**
- REST 4610 - Advanced Patient Assessment **Credits: (1-2)**
- REST 4620 - Health Promotion **Credits: (1-2)**
- REST 4630 - Continuous Quality Improvement **Credits: (1-2)** or
- HIM 3300 - Introduction to Quality Improvement in Healthcare **Credits: (3)**

Upper Division Electives (7 credit hours minimum)

In addition to the 33 REST credit hours required above, a minimum of 7 credit hours must be selected from the following upper division electives. Departmental standards are developed which specify content of certain projects; remaining credits are "elective" with content approved by program advisor. Other upper division credits will be considered upon approval of program advisor. A total of 40 upper division credit hours is required.

- REST 3500 - Survey of Polysomnography **Credits: (1)**
- REST 3501 - Anatomy and Physiology of Sleep **Credits: (3)**
- REST 3502 - Introduction to Sleep Disorders **Credits: (2)**
- REST 3503 - Instrumentation and Computers in Polysomnography **Credits: (2)**

- REST 3505 - Therapeutics of Managing Sleep Apnea **Credits: (2)**
- REST 4800 - Independent Projects **Credits: (1-6)**
- REST 4830 - Directed Readings **Credits: (1-3)**
- REST 4850 - Study Abroad **Credits: (1-6)**
- REST 4990 - Senior Seminar **Credits: (2)**
- HAS 3000 - The Healthcare System **Credits: (3)**
- HAS 3230 - Health Communication **Credits: (3)**
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)**
- HAS 4400 - Legal and Ethical Aspects of Health Administration **Credits: (3)**
- REST 4600 - Patient Education and Disease Management **Credits: (3)**
(3)

Emphasis Option for Bachelor of Interdisciplinary Studies

Respiratory Therapy (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better in each course is required by this program (a "C-" is not acceptable). CR/NC courses in this program require a "C" or better to receive CR. A cumulative GPA of 2.57 is required for graduation.
- **Credit Hour Requirements:** A minimum of 18 credit hours, all upper division REST courses, are required.
- **Program Code:** 2022
- **CIPC:** 510908

Course Requirements for BIS Concentration

Select 18 credit hours of upper division REST courses in consultation with an advisor.

Refer to the Respiratory Therapy (BIS) Bachelor of Integrated Studies section of this catalog for BIS degree requirements.

Doctor of Nursing Practice

Chair: Dr. Rieneke Holman

Director: Melissa Neville-Norton, DNP, APRN, CPNP-PC

Location: Marriott Allied Health Building, Rm 438

Graduate Nursing Administrative Assistant: Cheryl Hyatt (801) 626-6137 or cherylhyatt@weber.edu

Enrollment Director: Robert Holt (801) 626-7774, prompt 6 or rholt@weber.edu

The Doctor of Nursing Practice (DNP) degree is a practice-focused terminal degree in nursing, designed for nurses who are seeking preparation and excellence at the highest level of clinical nursing practice. The DNP program of study has two emphases: a family nurse practitioner emphasis and a leadership emphasis. Both emphases focus on direct and indirect advanced nursing practice leadership and healthcare provision to influence the health outcomes of individuals and populations from a systems approach. The DNP-Family Nurse Practitioner (FNP) emphasis prepares

nurses with a Bachelor of Science in Nursing (BSN) to become eligible for national FNP certification, which is an advanced practice registered nurse (APRN) and future healthcare leadership. The DNP-Leadership emphasis prepares nurses who possess a BSN and a master's degree in one of the following-nursing, public health, business, or health administration for healthcare transformation and leadership.

Graduates of the DNP program are prepared to fully evaluate, translate, and implement science for improved healthcare outcomes and healthcare systems improvement. The practice-focused DNP degree is distinctly different from a Ph.D. or research doctoral degree program. The Annie Taylor Dee School of Nursing is responsive to national APRN academic and practice mandates recommendations and community workplace demands for leadership and access to primary care in our regional health care systems.

The DNP degree at WSU ensures optimally prepared nurse practitioners and nurse leaders who achieve the university's dual mission; integrating access, learning, and community in the service of high-quality health care and favorable outcomes for regional patients, families, and communities. Nationally, the DNP degree is replacing the Master of Science in Nursing (MSN) for all APRNs as this terminal degree in the field becomes the requirement by 2025. The DNP degree is the preferred degree for advanced nursing practice for the provision of direct and indirect care (executive leadership, health policy, informatics, and population health).

Admission

Admission is competitive; therefore, the criteria listed on the application form should be considered as minimum standards.

Applicants must apply for admission to the DNP-Leadership program. Applications may be obtained online on the Annie Taylor Dee School of Nursing website <http://weber.edu/nursing>.

Applications must be completed and on file by the admission cycle application deadline. An application fee must be paid at the time the application is submitted. Admission applications are reviewed by the Annie Taylor Dee School of Nursing Program Admissions and Advancement Committee. Applicants are notified of committee decision by email and/or US Postal Service mail. Admission requirements are outlined on the applicant website available at <http://weber.edu/nursing>.

Accreditation

Effective July 7, 2020, this nursing program is a candidate for initial accreditation by the Accreditation Commission for Education in Nursing. This candidacy status expires on July 1, 2022.

Accreditation Commission for Education in Nursing (ACEN)

3390 Peachtree Road NE, Suite 1400

Atlanta, GA 30326

(404) 975-5000

<http://www.acenursing.us/candidates/candidacy.asp>

Note: Upon granting of initial accreditation by the ACEN Board of Commissioners, the effective date of initial accreditation is the date on which the nursing program was approved by the ACEN as a candidate program that concluded in the Board of Commissioners granting initial accreditation

Doctor of Nursing

Doctor of Nursing Practice (DNP)

The Doctor of Nursing Practice (DNP) degree is a practice-focused terminal degree in nursing, designed for nurses who are seeking preparation and excellence at the highest level of advanced nursing practice.

The DNP program of study has two emphases: including a post-BSN to DNP Family Nurse Practitioner (FNP) emphasis and post-Masters to DNP Leadership emphasis. Both emphases focus on direct and indirect advanced nursing practice leadership and healthcare provision to influence the health outcomes of individuals and populations from a systems approach. The DNP-FNP emphasis prepares nurses with a Bachelor of Science in Nursing (BSN) for an advanced practice degree (APRN) who are eligible for national FNP certification upon successful graduation from the program.

The post-master's to DNP leadership emphasis prepares nurses with a BSN and a master's degree in one of the following areas (nursing, public health, business, or health administration) for translational science, healthcare transformation, and healthcare leadership.

Graduates of the DNP program are prepared to fully evaluate, translate, and implement science for improved healthcare outcomes and healthcare systems improvement. The practice-focused DNP degree is distinctly different from a Ph.D. or research doctoral degree program. By establishing a Doctor of Nursing Practice (DNP) program, the Annie Taylor Dee School of Nursing supports the national APRN practice mandates, leadership recommendations and community workplace demands for leadership and access to primary care in our regional health care systems.

The DNP graduate meets the university's dual mission of; integrating access, learning, and community service by providing high-quality health care and favorable outcomes for regional patients, families, and communities upon graduation.

- **Grade Requirements:** To earn the DNP degree, candidates must successfully complete all DNP program courses with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or higher.
- **Program Code:** Nursing Practice (2060DNP) with Concentration/Emphasis in Family Nurse Practitioner (2062), Executive Leadership (2091) or Psychiatric Mental Health Nurse Practitioner (2097).
- **CIPC:** 513818

Emphases

Select one of the following:

- Doctor of Nursing Practice (DNP), Family Nurse Practitioner Emphasis
- Doctor of Nursing Practice (DNP), Executive Leadership Program Emphasis

Doctor of Nursing Practice (DNP), Family Nurse Practitioner Emphasis

The Doctor of Nursing Practice (DNP) Family Nurse Practitioner (FNP) emphasis prepares the post-BSN student to complete the requirements for certification as an advanced practice registered nurse (APRN) in the role of an FNP. The DNP is a terminal nursing degree, which prepares graduates for translational science to influence direct and indirect health outcomes not only for individuals but for populations and healthcare systems.

The DNP-Family Nurse Practitioner (FNP) program is a 76.5 credit, full-time, hybrid program over 8 semesters. Didactic classes are online with occasional synchronous meetings. Students receive personalized attention and instruction on-campus for five lab courses in our state-of-the-art nurse practitioner suites. Students must complete a total of 750 clinical practice hours during the last four semesters to graduate from the program. A DNP project will be completed during the final three semesters with a focus on evidence-based practice and quality improvement to promote systems-level change related to healthcare outcomes.

- **Grade Requirements:** Graduates must successfully complete all DNP program courses with a grade of "B-" or higher
- **Program Code:** Nursing Practice (2060DNP) with Concentration/Emphasis in Family Nurse Practitioner (2062).
- **CIPC:** 513818

Admission

Applicants must apply for admission to the DNP-FNP Nursing program by the application deadline. Admission is competitive and the criteria listed in the application should be considered as minimum standards. Please see <https://www.weber.edu/Nursing/DNP.html> for application information.

Master of Health Administration Program

Health Administrative Services Department Chair: Dr. Darcy Carter

Enrollment Director: Lindsay Garr, 801-626-6228

Location: Interprofessional Education Building, Rm 210

Telephone Contact: Kristi Andersen, 801-626-7242

Website: weber.edu/mha and weber.edu/emha

The Master of Health Administration (MHA) program at Weber State University is designed to meet the needs of working healthcare professionals and to prepare them for executive leadership in the healthcare industry. Firmly grounded in the development of three overarching domains: Personal, Professional, and Applied Skills, the program fosters self-development, critical thinking and life-long learning.

Full-time students can complete the MHA or the eMHA in two academic years. All courses in the campus MHA are offered in a hybrid, face-to-face/online, eight-week format on Tuesday and Thursday evenings at our WSU Davis campus. eMHA students spend 1.5 days on campus each semester with the balance of the coursework completed online. MHA and eMHA courses are taught by an optimum blend of academic professors and working healthcare executives and culminate in a real-time final project resulting in a deliverable of importance and measurable value to one of their local healthcare organizations.

Master of Health Administration

Master of Health Administration (MHA)

- **Program Code:** 2030MHA
- **CIPC:** 512211

Minimum Admission Requirements

To be considered for the MHA program, students must meet the following prerequisites:

- Hold a Bachelor's degree from a regionally accredited school (must be completed by program start date)-no specific discipline required
- Meet a GPA requirement of 3.0 or higher on a 4.0 scale
- U.S. healthcare or supervisory experience (preferred, not required)
- GRE/GMAT not required

Grade Requirements

To receive a Master of Health Administration degree, the student must complete all courses in the MHA program with a grade of "C" or higher, and maintain an overall program GPA of 3.0 or higher.

Program Learning Outcomes

- **Communication:** The competency includes things such as executive proficiency in written and oral communication, the ability to communicate across disciplines, and to project a professional business presence both individually and as a representative of one's organization.
- **Relationship Management:** This competency includes things such as the ability to develop positive collaborative relationships with peers, subordinates, and superiors within and across organizations, and to lead and work with teams effectively. In addition it includes the demonstration of emotional intelligence.
- **Critical and Creative Thinking:** This competency includes things such as the ability to seek and use qualitative and quantitative information, developing insight, and using these to achieve the mission, vision, and goals of one's organization. In addition, it includes the ability to understand and lead transformational innovation.
- **Professionalism:** This competency includes things such as a sense of personal accountability and the ability to assume risk and responsibility. It also includes an orientation to the development of a life-long learning agenda and a commitment to ethical conduct and personal growth.
- **Healthcare Leadership:** This competency requires a deep and broad understanding of the industry; both its clinical and administrative aspects. It includes the masterful application of skills such as transparency, decision making, leading and managing change, being a role model, mentoring, and developing the talent of subordinates.
- **Law, Policy, and Governance:** This competency includes things such as the ability to accurately assess and work within the external political, legal, and regulatory environment. It requires an understanding of healthcare policy and its impact on the health of individuals and of populations. In addition, it includes the ability to navigate internal organizational dynamics, and to participate in governance of the organization.
- **Community Awareness and Population Health:** This competency requires the management of populations of peoples' health and includes things such as the ability to investigate population health characteristics and to participate in improving population health in the local community. It also includes attentiveness to the ecological and social factors that influence health behaviors.
- **Human Resources Management:** This competency includes things such as the ability to ethically lead and manage the human resources processes needed for effective staffing in the operation of a healthcare organization.
- **Financial Management:** This competency includes things such as the ability interpret financial and accounting documents, plan and execute budgets, make capital investment decisions, and to articulate and implement executive fiduciary responsibilities.
- **Information Technology:** This competency includes things such as the ability to recognize critical elements of information technology and to participate in the management of the acquisition and implementation of information systems and personnel. It also includes a working knowledge of the use of data, importance of quality data, and analysis of data within the healthcare industry to support all aspects of decision making and organizational performance.
- **Performance Improvement and Quality Management:** This competency requires a rudimentary understanding of the clinical environment and the use of an evidence based approach to care, management, and risk management. It includes things such as the ability to use quality and systems tools to measure, promote, and to implement quality improvement initiatives in clinical and administrative partnerships within healthcare organizations.
- **Strategic Management:** This competency includes things such as the ability to conduct external and internal environmental analyses, to apply the principles of strategy formulation, implementation, and control, and to develop corporate strategy, market research, and planning.

Course Requirements for MHA

Required Courses (39 credit hours)

- MHA 6000 - Health Systems & the Healthcare Economy **Credits: (3)**
- MHA 6100 - Leading & Managing People in Healthcare **Credits: (3)**
- MHA 6200 - Population Health and Data Analytics **Credits: (3)**
- MHA 6240 - Human Resources Management in Healthcare **Credits: (3)**
- MHA 6249 - Accounting and Finance Principles for Healthcare Managers **Credits: (3)**
- MHA 6250 - Healthcare Finance **Credits: (3)**
- MHA 6300 - Quality Improvement and Risk Management in Health Services Organizations **Credits: (3)**
- MHA 6320 - Health Policy and Economics **Credits: (3)**
- MHA 6350 - Decision Making for Healthcare Leaders **Credits: (3)**
- MHA 6400 - Strategic Health Planning and Marketing **Credits: (3)**
- MHA 6440 - Health Ethics and Law **Credits: (3)**
- MHA 6450 - Health Informatics **Credits: (3)**
- MHA 6500 INT - Field Work **Credits: (3)**

MHA Elective Courses

Select two of the following courses

- MHA 6140 - Post Acute Care Administration **Credits: (3)**
- MHA 6160 - Medical Group Management **Credits: (3)**
- MHA 6180 - Healthcare Entrepreneurship **Credits: (3)**
- MHA 6360 - Comparative International Health Systems **Credits: (3)**
- MHA 6370 - Executive Leadership Seminars in Healthcare **Credits: (3)**
- MHA 6830 - Directed Study **Credits: (1-3)** (3 credit hours required)
- MHA 6840 - Case Study Analysis **Credits: (3)**
- MHA 6850 GLB - MHA Study Abroad **Credits: (3)**

Master of Physician Assistant Studies

Department Chair: Sandra Stennett

Telephone Contract: Jessica Septon (801) 626-7282

Director of Clinical Education: Kenton Cummins

Clinical Coordinator: Jessica Bickley

Medical Director: Dr. Robert Bunnell

Assistant Professors: Nicholas Dean, Clayton Halford, Sandra Stennet

Master of Physician Assistant Studies

The Physician Assistant Program at Weber State University is a 24-month graduate level program awarding a Master of Physician Assistant Studies (MPAS) degree upon completion. One class of 20 students is enrolled in January of each year. Applications are accepted starting in April (date established by CASPA). The WSU PA program application cycle closes July 15th at 11:59 pm ET and must be verified through CASPA by August 15th at 11:59 ET.

To achieve our desired standard of quality, meet accreditation standards, and provide students with an educational experience of exceptional caliber, Weber State University Physician Assistant Program (WSUPAP) requires the highest standards for its applicants. Requirements for being considered as an applicant to the program are outlined below.

Degree and GPA Requirements

Applicants to the WSU PA program must have been awarded a baccalaureate degree (or higher) with a minimum cumulative GPA of 3.0 and a science GPA of 3.0 (on a 4.0 scale), from a regionally accredited U.S. institution of higher education prior to enrollment. College seniors are eligible to apply, provided they will receive their baccalaureate degree prior to the month start date, have the required number of clinical hours, and have met all other prerequisites required by the program.

Pre-requisite Coursework

All applicants must complete the following prerequisite coursework at a regionally accredited U.S. institution of higher learning with a grade of B- or higher, prior to application to the program. All specified prerequisite courses are required; no substitutions for prerequisite coursework will be accepted.

Science Courses	Description
Must be completed at a 4-year institution within 7 years of application. Students with prerequisite coursework taken more than seven years prior to application are required to take the PA-CAT (Physician Assistant College Admission Test). Scores must be reported directly from Exam Maxima. Online science courses not accepted.	
Human Anatomy with Lab - 4 credit hrs WSU Equivalents: HTHS 2110 or ZOOL 2320	• Must be "human" and encompass the complete study of anatomy of all major systems of the human body. A semester combined Human Anatomy & Physiology course sequences are acceptable if completed at a regionally accredited institution. • Comparative or Vertebrate Anatomy will not be accepted.
Human Physiology with Lab - 4 credit hrs WSU Equivalents: HTHS 2111 or ZOOL 2420	• Must be "human" and encompass the complete study of physiology of all major systems of the human body. A semester combined Human Anatomy & Physiology course sequences are acceptable if completed at a regionally accredited institution. • Comparative or Vertebrate Physiology will not be accepted. Exercise Physiology does not satisfy this requirement.
Microbiology with Lab - 4 credit hrs WSU equivalents: MICR 2054	• A general, medical, or clinical microbiology course is acceptable. • Individual courses in bacteriology, virology, mycology, or parasitology do not satisfy this requirement.
General Chemistry 1 & 2 with Lab - 8 credit hrs WSU equivalents: CHEM 1110, CHEM 1120, CHEM 1210, CHEM 1220	• Chemistry for pre-professional students

Non- Science Courses (Community college or online courses accepted)	Description
Statistics - 2 credit hrs	• Course directed towards an understanding of foundational statistics

Psychology - 3 credit hrs	Student choice of Introductory, Developmental, or Abnormal Psychology
Medical Terminology - 1 credit hr	Any course in Medical Terminology

Terms and Conditions for Prerequisite Coursework

- Coursework Completion:** All prerequisite coursework must be completed at a regionally accredited four-year U.S. institution of higher learning prior to application to the program.
- Expiration of Prerequisite Courses:** Students with prerequisite coursework taken more than seven years prior to the application deadline are required to take the PA-CAT (Physician Assistant College Admission Test). Additional information about the PA-CAT and reporting your scores is provided below.
- Transcripts:** Prerequisite coursework must be verifiable through official transcripts. Due to the number of applications received, we are unable to review transcript content for prospective applicants. All course requirements and prerequisites are published on this website.
- Pass/Fail, Online Courses:** Prerequisite courses must be taken for a letter grade. Online prerequisite science courses are not accepted.
Due to the COVID-19 pandemic, courses taken in the years 2020 and 2021 as pass/fail or online will be considered by the Admissions Committee on a case-by-case basis.
- Substitutions:** Students granted admission must fulfill all application requirements; no substitutions for prerequisite coursework will be accepted, including but not limited to the following: advanced placement, international baccalaureate (IB) courses, credit for experiential learning, courses completed as part of a professional degree, and/or college-level examination program (CLEP) test.

Recommended Coursework

Pharmacology	Pathophysiology	Organic Chemistry	Biochemistry	Technical Writing	Spanish	Genetics	Immunology
<i>WSU Equivalents</i>							
HTHS 3240 (preferred) or HTHS 2240	HTHS 2230	CHEM 2310, CHEM 2320	CHEM 3070	ENGL 2100	Any Spanish Language Course	ZOOL 3300	MICR 3254

Clinical Healthcare Experience

A minimum of 500 hours of clinical healthcare experience must be accrued at the time of application and recorded as part of the official CASPA application. Experiences in inpatient settings and/or those in positions requiring autonomous, high-level, medical decision-making (as listed below) are scored highest. Hours obtained observing or shadowing, or as part of an educational program will not be counted towards the 500 hours.

Healthcare hours and clinical experience are subject to verification, and the program reserves the right to contact supervisors to confirm reported hours.

Examples of acceptable clinical healthcare experience include, but are not limited to:

Limited Level	Moderate Level	High Level

• Phlebotomist • PT Assistant • Laboratory Technician • Pharmacy Tech • Medical Interpreter • Research Assistant • EKG Tech • Psych Tech • ED Tech • Medical Scribe	• CNA or CMA • Dental Hygienist • Licensed Clinical Social Worker • Speech Language Pathologist • EMT • LPN • Radiology Tech • Occupational Therapist • Ultrasonographer • Med Tech • Exercise Physiologist	• Paramedic • RN • Respiratory Therapist • International Medical Graduate • Medic/Corpsman • Pharmacist • Athletic Trainer • Dietician • Perfusionist • Midwife • Physical Therapist

PA-CAT

To ensure students matriculate into the program with equivalent academic preparation, students whose coursework is older than seven years must either retake prerequisite courses or score, at minimum, in the 3rd quintile on the PA-CAT to demonstrate readiness for the curriculum.

- To learn more about how and where to take the exam, go to the Exam Master PA-CAT website.
- PA-CAT scores are good for two years.
- To report scores, select Weber State University PA Program in your Candidate Score Portal.
- Applicants must complete the PA-CAT by the end of June in order for scores to be reported by the program's application deadline of July 15th.
- Scheduling the PA-CAT exam may take up to three weeks; please plan accordingly.
- The Admissions Committee considers both composite and quintile scores when evaluating performance.

Competitive Candidates

The program aims to select candidates whose background and interests align with our mission, goals, and values. Only those candidates who fulfill three or more of the following criteria will receive additional review and scoring by the Admissions Committee:

Criteria include:

- WSU students, alumni, faculty, and staff
- Science GPA >3.5
- >9 credit hours or more of recommended coursework
- Graduate degree from a regionally accredited U.S. institution of higher education
- PA-CAT composite scores in the top two quintiles
- Paid clinical healthcare experience in an inpatient or hospital setting
- >100 hours of community service
- Service in a leadership role for > 8 months
- Diverse backgrounds: underrepresented minorities in medicine (Black/African American, Native American, Latinx), economically disadvantaged (Pell Grant recipient), history of military service, first-generation college students

Each of the above criteria are evaluated and weighted individually. Completion of a graduate degree, academic strength, and quality and quantity of healthcare, leadership, and community service hours will be weighted at a higher level on an ascending scale during the application screening and review process. Candidates with higher scores are more likely to be invited for an interview.

International Students

Candidates are considered for admission to the Weber State University PA Program without regard to their country of origin. For purposes of admissions and financial aid, U.S. permanent residents are considered equivalent to U.S. citizens.

DACA (Deferred Action Childhood Arrivals)

Students with DACA status are currently eligible to apply for and obtain a license to practice as a physician assistant in Utah. Prospective applicants should consult the requirements of the licensing authority in any state in which they consider practicing to determine qualifications for licensure. Information concerning licensure in Utah can be found at the Utah Department of Professional Licensing. Information about other states can be found on the NCCPA website.

International Applicants

International applicants are welcome to apply if they meet our admissions requirements. Applicants with international medical degrees are ineligible to apply unless they also hold a qualifying degree (bachelor's or higher) from a regionally accredited U.S. institution of higher education prior to matriculation. We do not provide waivers or exemptions for applicants without a qualifying degree.

It is the responsibility of international applicants to maintain their F-1 student status while in the United States. For more information, please refer to the current section of the WSU International Student and Scholar Center (ISSC).

TOEFL (Test of English as a Foreign Language)

Applicants for whom English is a second language must submit their TOEFL scores with their application. The test must have been taken within the two years prior to the July 15th application deadline for an applicant to be considered for an interview.

Minimum required TOEFL iBT proficiency level scores must be "high-intermediate". Weber State University Educational Testing Services (ETS) code for submitting your TOEFL score to CASPA is 4941.

Master of Physician Assistant Studies

Master of Physician Assistant Studies (MPAS)
