- **Program Description:** The Weber State University Physician Assistant (PA) Program is a two-year, full-time, intensive graduate level program that will train individuals with clinical experience and a strong academic background for careers as physician assistants and leaders in the field of medicine. Students who successfully complete each aspect of the program, including a master's project and summative competency exams (scheduled throughout the program), are eligible for graduation. Graduates from the program will receive a Master of Physician Assistant Studies (MPAS) degree from Weber State University and are eligible for certification by the National Commission on the Certification of Physician Assistants (NCCPA). Once certified, the PA is eligible to apply for a license to practice medicine in all 50 states and the District of Columbia.
- **Credit Hour Requirement:** A total of 92 graduate credit hours are required to complete the program.
- **Program Code:** 2080MPAS
- **CIPC:** 510912

Pre-requisites and Admissions

Applicants to the WSU PA Program must hold a bachelor's degree or higher and meet all program Prerequisites and Matriculation Requirements before they are eligible to apply to the program. Interested applicants must submit a formal application and all supporting documents to the Central Application Service for the Physician Assistant (CASPA) on or before the program's published deadline. No exceptions will be made for late applications.

Accreditation

Accreditation statement - The ARC-PA has granted Accreditation-Provisional status to the Weber State University Physician Assistant Program sponsored by Weber State University. Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA Standards or when a program holding Accreditation-Provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class.

The program's accreditation history can be viewed on the ARC-PA website at

<http://www.arc-pa.org/accreditation-history-weber-state/>.

Advisement

For questions, please contact the program's Admissions Coordinator at wsupaadmissions@weber.edu.

Curriculum

Only students who are admitted to the program are eligible to take courses within the department. The curriculum is "lock step", meaning that students must complete the program by passing each exam and each course before being eligible to progress and take classes in subsequent semesters.

Year 1

The first year of training consists of classroom instruction enhanced by simulated clinical experiences designed to provide students with a foundation in medical knowledge, skills, behaviors, and attitudes required for the practice of medicine. The curriculum builds on prerequisite coursework and clinical experiences students complete prior to matriculation and utilizes an integrated systems-based approach that eliminates compartmentalized knowledge and helps students achieve clinical acumen by creating meaningful application between biomedical science, clinical science, pharmacotherapy, and professional practice. Content synthesis is further enhanced by integrating a variety of teaching methods, including lectures, labs, team- and inquiring-based learning, and evidence-based practice.

Didactic Curriculum - Semester 1

- MPAS 6001 - Professional Development 1 **Credits: (1)**
- MPAS 6010 - Mechanisms of Health and Disease **Credits: (2)**
- MPAS 6020 - Introduction to History and Physical **Credits: (4)**
- MPAS 6030 - Introduction to Clinical Pharmacology **Credits: (1)**
- MPAS 6040 - Introduction to Medical Diagnostics **Credits: (3)**
- MPAS 6050 - Evidence-Based Practice 1 **Credits: (2)**
- MPAS 6060 - Eyes, Ears, Nose, and Throat **Credits: (2)**
- MPAS 6080 - Infectious Disease **Credits: (3)**
- MPAS 6101 - Clinical Integration 1 **Credits: (1)**

- MPAS 6110 - Pulmonology **Credits: (3)**
- *Summative 1*

Didactic Curriculum - Semester 2

- MPAS 6002 - Professional Development 2 **Credits: (1)**
- MPAS 6070 - Dermatology **Credits: (2)**
- MPAS 6100 - Hematology/Oncology **Credits: (2)**
- MPAS 6120 - Genitourinary (Nephrology/Urology) **Credits: (4)**
- MPAS 6130 - Endocrinology **Credits: (3)**
- MPAS 6180 - Cardiovascular Medicine **Credits: (5)**
- MPAS 6150 - Musculoskeletal Disorders 1 **Credits: (1)**
- MPAS 6102 - Clinical Integration 2 **Credits: (3)**
- *Summative 2*

Didactic Curriculum - Semester 3

- MPAS 6003 - Professional Development 3 **Credits: (1)**
- MPAS 6170 - Neurology **Credits: (4)**
- MPAS 6140 - Obstetrics and Gynecology **Credits: (3)**
- MPAS 6190 - Gastroenterology **Credits: (3)**
- MPAS 6200 - Musculoskeletal Disorders 2 **Credits: (2)**
- MPAS 6210 - Psychiatry **Credits: (3)**
- MPAS 6051 - Evidence-Based Practice 2 **Credits: (1)**
- MPAS 6103 - Clinical Integration 3 **Credits: (3)**
- *Summative 3*

Year 2

Following successful completion of the first year of training, students begin a year of supervised clinical practice experiences (SCPEs) in a variety of settings in multiple disciplines under the direct supervision of a clinical preceptor. In direct patient care environments, students expand and apply basic medical knowledge, practice clinical and technical skills, and participate in the team-based practice of medicine. During this clinical phase, students will return to campus periodically for testing as well as continued didactic training in medicine and professional development. The master's project will also be completed during the clinical year.

- MPAS 6004 - Professional Development 4 **Credits: (1)**
- MPAS 6005 - Professional Development 5 **Credits: (1)**
- MPAS 6006 - Professional Development 6 **Credits: (1)**
- MPAS 6500 - Preceptorship 1 **Credits: (12)**
- MPAS 6510 - Preceptorship 2 **Credits: (12)**
- MPAS 6520 - Preceptorship 3 **Credits: (12)**

Master's Project

In addition to the courses listed above, students are required to successfully complete a master's project.

Comprehensive Summative Exams

Students must undergo and pass comprehensive summative exams throughout the program used to evaluate competencies required to meet Entrustable Professional Activities, real-life, key tasks that a PA can be entrusted to perform in a given healthcare context once sufficient competence has been demonstrated.

Master of Science in Athletic Training Program

Director: Valerie W. Herzog, EdD, LAT, ATC

Location: Room 224, Swenson Building

Telephone Contact: Margarita Lopez, 801-626-8631

Faculty: Valerie W. Herzog, EdD, LAT, ATC; Conrad Gabler, PhD, LAT, ATC; Matthew Donahue, PhD, LAT, ATC; Alysia Cohen, PhD, MPH, LAT, ATC; Hannah Stedje, MS, LAT, ATC

The WSU Master of Science in Athletic Training (MSAT) degree is designed to enable students with a bachelor's degree in an area other than athletic training to obtain eligibility for the Board of Certification (BOC) examination. This program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Graduates of the MSAT are eligible for the Board of Certification (BOC) examination.

The program provides students with knowledge and skills in the prevention, evaluation, treatment, and rehabilitation of musculoskeletal injuries and general medical conditions. The Master of Science in Athletic Training program is specifically designed to prepare students for a career in health care as a certified athletic trainer. Athletic trainers are currently employed in colleges and universities, public and private high schools, corporations, rehabilitation clinics, professional sports organizations, the military, factories, and hospitals (www.nata.org - National Athletic Trainers' Association).

Master of Science

Master of Science in Athletic Training (MS)

- **Program Code:** 2057MS
- **CIPC:** 510913

Minimum Admissions Requirements

- Bachelor's degree
- Admission to Weber State University (Students apply only to the MSAT and will be admitted to WSU and the MSAT concurrently. Students do NOT need to apply through the WSU general admissions process)
- Minimum 3.0 GPA*
- Submit Graduate Athletic Training Student Application through ATCAS (found online at: <https://atcas.liaisoncas.com>)
- Submit Application Essay/Personal Statement (see online application in ATCAS for details)
- Two References - at least one reference must be a college-level instructor
- Grade of C or better in all prerequisite courses (all prerequisites must have been completed within the last 10 years prior to application)**
- Documentation of at least 50 observations hours with a Certified Athletic Trainer (or similar healthcare provider for international applicants)

- Program Interview - in person or over the phone
- Completed Technical Standards Form - can be completed after admission (Form can be found at: <https://www.weber.edu/msat/admission.html>)
- Official Transcripts from ALL other colleges/universities attended (send directly to ATCAS)
- Proof of immunizations (completed after admission)
- Hepatitis-B vaccination (can be completed in first semester if deficient)
- Pay Application fee (paid directly to ATCAS)

** Grade point averages between 2.75 and 2.99 will be considered.*

*** Students who are deficient in four or fewer prerequisite courses may be admitted on a conditional basis if the courses can be added to the schedule while still meeting the prerequisites prior to each graduate course.*

The priority application deadline is January 15 for the following fall semester. Applications received after the deadline will be considered on a rolling admissions basis if available slots still exist. Students are encouraged to apply by the January 15th deadline, as the program will likely reach capacity at that point. The online application may be accessed on-line at: <https://atcas.liasoncas.com>.

Post-Admission Requirements

After formal admission to the Athletic Training Master's degree program, students are required to complete an FBI background check and drug test. The WSU Master of Science in Athletic Training Program enters into Affiliation Agreements with multiple healthcare facilities and schools throughout the state. These agreements provide WSU MSAT students and faculty authorized access to facility resources and patients. In response to stipulations contained within one or more of these Agreements, the WSU MSAT requires students admitted to the program to submit to an FBI level criminal background check as well as a urine drug test. This screening process has been mandated by the WSU MSAT in an effort to more effectively protect the safety and well-being of the patients, clients, and residents of those facilities, and is fully supported by the Department of Athletic Training and the MSAT faculty.

Both the background check and the drug test will be completed during the student's first semester. The expenses (approximately \$80) will be paid for by the student.

Additional Admission Requirements for International Students

All international students and any applicants educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit an official score from the Test of English as a Foreign Language (TOEFL) which is not more than two years old and on which a minimum score of 563 (paper-based), or 85 (internet-based) with a minimum score of 17 in each section, has been earned. The MSAT Program also accepts the International English Language Testing System (IELTS) - applicants may have an official score report sent to the MSAT Program Director which is not more than two years old and on which a minimum score of 6.5 overall, with a minimum of 6.0 in each section, has been earned.

Students who have not earned the minimum required English proficiency scores may still be admitted conditionally. Student who have at least a score of 70 on the TOEFL exam (internet-based) would be required to begin ESL and other coursework at Weber State University one semester prior to beginning MSAT coursework. During this preparatory semester, students would be required to complete, with a grade of a C+ or better, approximately 8 credits of ESL courses and complete, with a grade of C or better, approximately 6 credits of MSAT prerequisite courses.

Students who have a 61-69 score on the TOEFL exam would be required to begin ESL and other coursework at Weber State University for two semesters prior to beginning MSAT coursework. During this preparatory semester, students would be required to complete, with a grade of a C+ or better, approximately 8 credits of ESL courses per semester and complete, with a grade of C or better, approximately 6 credits of MSAT prerequisite courses per semester.

The MSAT Program Director will determine which ESL and prerequisite courses are most appropriate based on the student's undergraduate coursework and English proficiency scores.

Minimum English Proficiency scores for conditional admissions:

TOEFL (internet-based) - 70 (one semester); 61 (two semesters)

TOEFL (paper-based) - 525 (one semester); 500 (two semesters)

IELTS - 6.0 (one semester); 5.5 (two semesters)

Selection Process

- A. All applications will be ranked by using a numerical scale to rate the elements of the application.
- B. Students receiving the highest scores in the rating process will be invited to enter the Master of Science in Athletic Training Program. The selection committee is comprised of the MSAT faculty. The number of students chosen to enter the program each year will vary, in compliance with accreditation guidelines related to professor and preceptor-to-student ratios. Selection into the MSAT is competitive and satisfaction of the minimum requirements does not guarantee admission.
- C. Applicants not invited to enter the MSAT may reapply the following year. All applicants who reapply must meet all requirements in effect at the time of reapplication. Students who choose to reapply must review the program website and/or catalog for current admission requirements at that time.
- D. All students selected for the MSAT must provide evidence of being able to meet the **Technical Standards for Admission of the program. Only those students who verify that they can meet those technical standards, with or without reasonable accommodations, will be allowed to enter the program.** The Technical Standards can be found on the program's website at: <https://www.weber.edu/msat/admission.html>

Retention Requirements

- A. After students are selected into the MSAT, retention in the program will be based on the following criteria:
 1. Grade "B-" or better in all required MSAT courses (*includes Graduate Practicum courses*).
 2. Maintain an overall Weber State University Graduate GPA of 3.0.
 3. Adhere to MSAT Athletic Training Student Handbook Policies.
- B. Students who fail to meet the retention criteria will be placed on probation in the MSAT program for one semester. If standards are not met by the end of the probationary period, the student will be dismissed from the program. Students who receive a grade lower than a "B-" in any required MSAT course must repeat that course and receive a grade of "B-" or higher to remain in the program. Failure to repeat the course (*when offered*) will result in dismissal from the program. Students who receive a grade lower than a "B-" in two or more MSAT courses will be dismissed from the program.

Early Admission for Weber State students

Students enrolled in any Bachelor's degree program at Weber State with 75 credits completed towards a degree may apply for early admissions consideration. Students applying for early admissions are still required to complete all Admissions requirements listed above. To be eligible for early admissions consideration, the following must be completed prior to application.

Students must have completed 17 credits of MSAT prerequisites as follows:

- 8 credits of Anatomy and Physiology
 - ZOOL 2320 - Human Anatomy (4) or HTHS 2110 LS - Integrated Human Anatomy and Physiology I (4); *AND*
 - ZOOL 2420 LS - Human Physiology (4) or HTHS 2111 - Integrated Human Anatomy and Physiology II (4)

- 9 additional credits from the MSAT prerequisite requirements (see below).
- Students must have a minimum of 3.0 GPA in their completed prerequisite courses.
- The required 50 observation hours with a Certified Athletic Trainer must be completed prior to application.
- Students will also need to complete a program interview during the early admission process.
- The early admission process will take place in March of each year. Please refer to the program website for specific deadlines: <https://weber.edu/msat>.

Advisement

Students enrolled in the MSAT program will be assigned a faculty advisor. Students will be encouraged to meet with their faculty advisor at least once a semester and to engage in dialogue when necessary regarding academic success, clinical assignments, and/or personal or professional issues.

Transfer Credits

In compliance with the Higher Education Act, Weber State University only accepts transfer credit from regionally accredited colleges and universities.

Students who have completed graduate athletic training coursework at another CAATE-accredited professional master's degree program in Athletic Training may apply for up to 9 transfer credits. The transfer of graduate credits from non-CAATE-accredited programs will be considered on a case-by-case basis. Approval of all transfer credits requires an official transcript, a copy of the course syllabus, and approval by the WSU MSAT Program Director.

Program Learning Outcomes

- Promoting health lifestyle behaviors with effective education and communication to enhance wellness and minimize the risk of injury and illness. (Injury and Illness Prevention and Wellness Promotion)
- Implementing systematic, evidence-based examinations and assessments to formulate valid clinical diagnoses and determine patients' plan of care. (Examination, Assessment, and Diagnosis)
- Integrating best practices in immediate and emergency care for optimal outcomes. (Immediate and Emergency Care)
- Rehabilitating and reconditioning injuries, illnesses and general medical conditions with the goal of achieving optimal activity level based on core concepts (i.e., knowledge and skillsets fundamental to all aspects of therapeutic interventions)
- Using the applications of therapeutic exercise, modality devices and manual techniques. (Therapeutic Intervention)
- Integrating best practices in policy construction and implementation, documentation and basic business practices to promote optimal patient care and employee well-being. (Healthcare Administration and Professional Responsibility)

Prerequisite Course Requirements for MS

Required Prerequisite Courses (32 credit hours)

(or equivalent courses - syllabi or catalog course description required)

- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- PUBH 3150 - Introduction to Public Health **Credits: (3)**
- ESS 3500 - Biomechanics **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**

- PSY 1010 SS - Introductory Psychology **Credits: (3)**
- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- CHEM 1010 PS - Introductory Chemistry **Credits: (3)**
- ZOOL 1010 LS - Animal Biology **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**

Course Requirements for MS

Required Courses (67-69 credit hours)

Didactic Courses

- MSAT 6080 - Research Methods I **Credits: (3)**
- MSAT 6085 - Research Methods II **Credits: (3)**
- MSAT 6090 - Research Methods III **Credits: (3)**
- MSAT 6100 - Advanced Emergency Care in AT **Credits: (3)**
- MSAT 6200 - Mental and Behavioral Health in Injury and Rehabilitation **Credits: (3)**
- MSAT 6300 - Orthopedic Assessment and Diagnosis I **Credits: (3)**
- MSAT 6301 - Orthopedic Assessment and Diagnosis II **Credits: (3)**
- MSAT 6350 - Assessment and Care of General Medical Conditions **Credits: (3)**
- MSAT 6390 - Foundations of Therapeutic Interventions **Credits: (2)**
- MSAT 6400 - Therapeutic Modalities for Musculoskeletal Injuries **Credits: (2)**
- MSAT 6401 - Innovations in Therapeutic Modalities **Credits: (2)**
- MSAT 6431 - Orthopedic Taping and Durable Medical Equipment **Credits: (1)**
- MSAT 6432 - Casting and Orthotic Fabrication **Credits: (1)**
- MSAT 6450 - Therapeutic Rehabilitation I **Credits: (3)**
- MSAT 6451 - Therapeutic Rehabilitation II **Credits: (3)**
- MSAT 6452 - Advanced Manual Therapy Techniques **Credits: (3)**
- MSAT 6480 - Advanced Principles of Evidence-Based Practice **Credits: (3)**
- MSAT 6500 INT - Foundations of Athletic Training **Credits: (3)**
- MSAT 6600 - Administration and Management in Athletic Training **Credits: (3)**
- MSAT 6700 - Advanced Diagnostic Imaging for the Athletic Training Profession **Credits: (1)**
- MSAT 6740 - Nutrition for Athletic Trainers **Credits: (1)**
- MSAT 6760 - Suturing, Joint Relocation and Advanced AT Skills **Credits: (1)**
- MSAT 6998 - Master's Board of Certification (BOC) Exam Preparation **Credits: (1)**
- MSAT 6999 - Special Topics in Athletic Training **Credits: (1-3)**

Clinical Courses

- MSAT 6501 INT - Graduate Practicum I **Credits: (3)**
- MSAT 6502 INT - Graduate Practicum II **Credits: (3)**
- MSAT 6503 INT - Graduate Practicum III **Credits: (3)**
- MSAT 6504 INT - Graduate Practicum IV **Credits: (3)**

Optional Electives

- MSAT 6095 - Research Methods IV **Credits: (1-3)**
- MSAT 6750 - Evidence-Based Evaluation and Treatment of the SI Joint and Spine **Credits: (2)**

Master of Science in Nursing Program

Chair: Rieneke Holman, PhD, RN

Director: Melissa Neville-Norton, DNP, APRN, CPNP-PC

Location: Marriott Allied Health Building, Rm 438

Program Secretary: Cheryll Hyatt (801) 626-7833

Enrollment Director: Rob Holt (801) 626-6753

The Weber State University Annie Taylor Dee School of Nursing Master of Science in Nursing (MSN) program is designed to prepare the graduate as a nurse executive and a nurse educator with knowledge and skills to lead change, promote health, and elevate care in various roles and settings. The emphases of nursing educator and nurse executive are specifically intended for individuals who want to advance their practice and careers in these areas.

The MSN Executive and Educator degree consists of 39 credit hours beyond the earned baccalaureate degree which includes core courses (15 credits) and emphasis of nurse administrator or nurse educator (20 credits per concentration) which includes 4 credits of project hours. The WSU executive and educator graduate nursing programs are completely online. There are limited face to face experiences during Residency courses.

Certificate courses may not be concurrently applied towards the WSU MSN degree. The School of Nursing programs are nationally accredited by the Accreditation Commission for Education in Nursing (ACEN) 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia, 30326. www.acenursing.org.

Post Master's Certificate

Nurse Educator Post Master's Certificate

The Nurse Educator Graduate Certificate is a stand-alone certificate.

- **Program Prerequisite:** Completion of an MSN degree.
- **Grade Requirements:** A minimum grade of "B-" is required in all courses and an overall program GPA of 3.0 or higher.
- **Credit Hour Requirements:** A minimum of 12 credit hours is required.
- **Program Code:** 2055PMC
- **CIPC:** 513203

The certificate can be completed in two (2) semesters based on course availability and optional residency. Students may choose to register for an optional 90-hour supervised residency in the area of focus. The certificate will be awarded upon completion of all required graduate-level courses. All courses are delivered in a 100% online except for the optional 90-hour residency.

Certificate courses may not be concurrently applied towards the WSU MSN degree.

Gainful Employment Disclosure

Course Requirements for Graduate Certificate

Courses Required

- NRS 6170 - Teaching Strategies **Credits: (3)**
- NRS 6520 - Curriculum Development for Nursing Educators **Credits: (3)**
- NRS 6540 - Measurement of Competence and Outcomes in Nursing Education **Credits: (3)**
- NRS 6150 - Advanced Pathophysiology, Pharmacology and Assessment for the Nurse Educator **Credits: (3)**
- NRS 6700 INT - Nurse Educator Residency **Credits: (2)**

Nurse Leadership & Management Post Master's Certificate

- **Program Prerequisite:** The Graduate Leadership & Management Certificate is a stand-alone certificate: completion of an MSN degree is a prerequisite to admission to the graduate certificate program.
- **Grade Requirements:** A minimum grade of "B-" is required in all courses and an overall program GPA of 3.0 or higher.
- **Credit Hour Requirements:** A minimum of 12 credit hours is required.
- **Program Code:** 2092PMC
- **CIPC:** 513802

The certificate will be awarded upon completion of all required graduate-level courses. The program can be completed in two to four semesters based on course availability. Students may choose to register for an optional 90 hour supervised residency in the area of focus. With the exception of the optional executive residency, all courses are delivered in a 100% online format. Enrollment will be capped at 5 students per track at the discretion of the MSN Program Director.

Certificate courses may not be concurrently applied towards the WSU MSN degree.

Gainful Employment Disclosure

Course Requirements for Graduate Certificate

Courses Required

- NRS 6300 - Quality Improvement, Patient Safety and Risk Issues in Patient Care Delivery **Credits: (3)**
- NRS 6380 - Retaining and Developing a Competent Workforce in Nursing **Credits: (2)**
- NRS 6324 - Financial Issues in Nursing Administration **Credits: (2)**
- MHA 6000 - Health Systems & the Healthcare Economy **Credits: (3)**
- NRS 6400 INT - Nurse Leadership & Management Residency **Credits: (2)**

Master of Science

Master of Science in Nursing (MSN)

The Weber State University Annie Taylor Dee School of Nursing (ATDSN) Master of Science in Nursing (MSN) program is designed for professional advancement and nursing leadership in academia and healthcare organizations. This accredited program offers specialties in nursing education and nursing leadership and management. During these programs of study, graduate students will experience diverse and evidence-based learning opportunities from highly qualified graduate faculty; culminating in a community-based residency experience in nursing clinical, academic, or administrative leadership. The accelerated MSN block format includes 100% online

coursework offered over three consecutive semesters of study. The program includes personalized advising and support from nursing faculty with years of educational, clinical, and leadership experience. The MSN Nurse Educator degree emphasis is 33 total credits. The 100% online course includes curriculum design, instructional strategies, student assessment, and program evaluation. The MSN Leadership and Management degree emphasis is 32 total credits. The 100% online coursework applies leadership principles such as developing and retaining a competent workforce, budgeting, staffing, and performance measurement.

For nurses who possess a current master's degree in nursing who would like to strengthen or expand their current roles, the ATDSN offers post-master's certificates in nursing education and administrative leadership. The Nurse Leadership and Management Certificate (12 credits) and the Nurse Educator Certificate (14 credits) can be completed in two semesters with an optional community-based residency experience in nursing clinical, academia, or administrative leadership.

- **Grade Requirements:** To earn the MSN degree, candidates must successfully complete all MSN program courses with a grade of "B-" or higher and maintain an overall program GPA of 3.0 or higher.
- **Program Code:** 2031MSN with Educator emphasis (2050) or Nurse Leadership and Management emphasis (2092)
- **CIPC:** 513802 with Educator emphasis (513203) or Nurse Leadership and Management emphasis (513802)

Accreditation

The MSN Program is accredited by:

Accreditation Commission for Education in Nursing (ACEN)
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326

F. 404.975.5020
www.acenursing.org

Admission Requirements

Enrollment Director (801) 626-6753

Criteria for admission to the WSU Annie Taylor Dee School of Nursing's MSN Program can be found on the MSN Program website (weber.edu/msn). Select the "Applications and Checklists" option. *Admission is competitive; therefore, the listed criteria for admission should be considered as minimum standards.* For more information, please contact the School of Nursing Enrollment Director (801) 626-6753.

Before beginning the admissions process, applicants must be currently matriculated students at Weber State University or apply for admission to the University.

The MSN Program application requirements may be requested through email to MSN@weber.edu or phone (801) 626-7774, option 6. Applications become available online at weber.edu/msn October 1 with a deadline date of March 1. Pending student enrollment, the MSN coursework begins each fall semester.

A \$60 application fee must be paid at the end of the online application process. Admission applications are reviewed and evaluated by the Nursing Program Admissions and Advancement Committee.

Program Learning Outcomes

- Patient Centered Care - Design level-appropriate contemporary program outcomes and curricula that prepare graduates to function effectively in the healthcare environment with a focus on the patient.

- Teamwork & Collaboration - Participates in interdisciplinary efforts to contribute to the professional standing of nursing and address the healthcare education needs in local, national and international arenas.
- Evidence-Based Practice (EBP) - Uses evidence to support best practices in teaching andragogy as well as the development of educational experiences.
- Quality Improvement - Incorporates quality improvement strategies in the development and evaluation of educational programs.
- Patient Safety - Incorporates national patient safety resources that promote patient and provider safety in the practice arena.
- Informatics - Utilizes information technology to support educational practice and incorporates the use of informatics to improve quality healthcare and innovative teaching.

Required MSN Core Courses (18 credit hours)

MSN students are required to take foundational, core courses that emphasize research, statistics, evidence-based practice, leadership, population health, and informatics.

- NRSG 6110 - Translating Research and Evidence into Practice **Credits: (3)**
- NRSG 6120 - Research and Statistics **Credits: (3)**
- NRSG 6180 - Improving Patient Care and Nursing Practice through Information Systems **Credits: (2)**
- NRSG 6190 - Professional Foundations for Graduate Nursing Students **Credits: (1)**
- NRSG 6255 - Leadership and Accountability in Advanced Nursing **Credits: (2)**
- NRSG 6801 - Integrating Scholarship into Practice **Credits: (2)**
- NRSG 6802 - Integrating Scholarship into Practice **Credits: (2)**
- NRSG 6140 SUS/CEL - Collaborative Approaches in Population Health **Credits: (3)**

Emphasis (Core) Courses Required

Select one of the following concentrations

Nurse Educator Emphasis (16 credit hours)

- NRSG 6150 - Advanced Pathophysiology, Pharmacology and Assessment for the Nurse Educator **Credits: (3)**
- NRSG 6170 - Teaching Strategies **Credits: (3)**
- NRSG 6520 - Curriculum Development for Nursing Educators **Credits: (3)**
- NRSG 6540 - Measurement of Competence and Outcomes in Nursing Education **Credits: (3)**
- NRSG 6560 - Socialization in the Role of Nursing Educator **Credits: (2)**
- NRSG 6700 INT - Nurse Educator Residency **Credits: (2)**

Nurse Leadership and Management Emphasis (14 credit hours)

- NRSG 6300 - Quality Improvement, Patient Safety and Risk Issues in Patient Care Delivery **Credits: (3)**
- NRSG 6324 - Financial Issues in Nursing Administration **Credits: (2)**
- NRSG 6360 - Scope and Practice of Nursing Administration **Credits: (2)**
- NRSG 6380 - Retaining and Developing a Competent Workforce in Nursing **Credits: (2)**
- NRSG 6400 INT - Nurse Leadership & Management Residency **Credits: (2)**
- MHA 6000 - Health Systems & the Healthcare Economy **Credits: (3)**

Note:

Please see Admission Advisors.

Master of Science in Radiologic Sciences Program

Department Chair: Tanya Nolan, EdD, RT(R) (ARRT), RDMS

Location: Marriott Health Building, Room 363F

Telephone Contact: MSRS Enrollment Manager, Cathy Wells, 801-626-8538

The Master of Science in Radiologic Sciences (MSRS) program allows you to build the program based on your educational and professional interests. Students can focus in areas of advanced practice, education, management, research, interventional cardiology, Radiology Assistant, musculoskeletal sonography, radiology nursing, and interprofessional education (IPE).

The following emphases are available:

Cardiac Specialist

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Cardiac Specialist prepares students with the knowledge and clinical skills necessary for a career in the cardiac cath lab. Students will develop analytical thinking skills and research capability while studying a wide range of disciplines including coronary and structural heart disease, multimodality cardiac imaging, and interventional cardiac catheterization. Students will learn alongside a multidisciplinary team of professionals while assisting with cath lab procedures such as angiography, hemodynamic assessment, coronary stenting, and valve implantation. Upon graduation, students will be qualified to sit for the Registered Cardiovascular Invasive Specialist (RCIS) and/or the Cardiac Interventional Radiography (CI) exam.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.

Innovation and Improvement

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Innovation and Improvement is focused on elevating the imaging professional and patient care by providing students with diverse and customized skills and knowledge necessary to connect their imaging practices with policy.

Imaging professions will broaden their clinical comprehension, develop their leadership and educational expertise, enhance their research ingenuity, and extend their professional versatility within the imaging industry.

Radiologist Assistant

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Radiologist Assistant prepares students to work as a Registered Radiologist Assistant (RA). The role of the RA provider is to improve efficiency and patient care in imaging services by providing advanced level support to radiologists. The curriculum incorporates the RRA certification requirements as published by the American Registry of Radiologic Technologists (ARRT). Students will learn advanced patient care, safety, and procedures through academic work and clinical experience.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of

competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.

Master of Science

Master of Science in Radiologic Sciences (MSRS)

- **Program Code:** 2037MSRS with an emphasis in Cardiac Specialist (2067), Innovation & Improvement (2065) or Radiologist Assistant (2066)
- **CIPC:** 510911

Areas of Emphasis

Master of Science in Radiologic Sciences (MSRS), Cardiac Specialist Emphasis: The student choosing the Cardiac Specialist emphasis will acquire the knowledge and clinical skills necessary for a career in the cardiac cath lab. The invasive cardiovascular technology student will develop analytical thinking skills and research capability while studying a wide range of disciplines, including coronary and structural heart disease, multimodality cardiac imaging, and interventional cardiac catheterization. Students will learn alongside cardiologists while assisting with cath lab procedures such as angiography, hemodynamic assessment, coronary stenting, and valve implantation. Upon graduation, students will be qualified to sit for the Registered Cardiovascular Invasive Specialist (RCIS) and/or the Cardiac - Interventional Radiography (CI) exam.

Master of Science in Radiologic Sciences (MSRS), Innovation and Improvement Emphasis: The Masters of Science of Radiologic Sciences with emphasis in Innovation and Improvement is focused on elevating the imaging professional and patient care by providing students with diverse and customized skills and knowledge necessary to connect their imaging practices with policy. Imaging professionals will broaden their clinical comprehension, develop their leadership and educational expertise, enhance their research ingenuity, and extend their professional versatility within the imaging industry.

Master of Science in Radiologic Sciences (MSRS), Radiologist Assistant Emphasis: The Masters of Science of Radiologic Sciences with emphasis on Radiologist Assistant is intended to prepare students to work as a Registered Radiologist Assistant (RA). The role of the RA provider is to improve efficiency and patient care in imaging services by providing advanced level support to radiologists. The curriculum incorporates the RRA certification requirements as published by the American Registry of Radiologic Technologists (ARRT). Students will learn advanced patient care, safety, and procedures through academic work and clinical experience.

The maximum time for completion of the degree, including thesis, will be three years if the maximum time is exceeded, the student must petition to the program for an extension.

Program Learning Outcomes

- Patient Care and Education
- Professional Development and Research
- Clinical Competency and Medical Ethics
- Procedures, Anatomy and Pathophysiology
- Instrumentation and Quality Control

Admission Requirements for All MSRS

Criteria to be considered for acceptance into the program include:

1. Admission to Weber State University and online application for the MSRS Program.
2. Payment of the MSRS program application fee.
3. Graduate of a regionally accredited baccalaureate academic program in health science (includes, but not limited to, cardiovascular technology, ultrasound, radiologic technology, respiratory therapy, or nursing)
4. Official transcripts from all institutions attended.
5. A cumulative undergraduate GPA of at least 3.0. If undergraduate GPA is below 3.0, consideration may be based on GPA calculation on the last 60 semester hours (90 quarter hours) of undergraduate work.
6. Recommendation forms (3).

Additional Requirements for International Students

- Please seek advisement/assistance from WSU's International Student and Scholar Center at 801-626-6853 or intladmissions@weber.edu.
- Submit an official score from the Test of English as a Foreign Language (TOEFL) of 75 overall, with a minimum of 17 in each category OR International English Language Testing System (IELTS) 6.5 overall, with a minimum of 6.0 in each category.
- Oral language proficiency assessment.
- Weber State University-accepted bachelor's degree.
 - Provide a professional transcript evaluation of course work completed outside the United States. For a list of approved agencies, click here: <https://www.weber.edu/issc/foreign-credentials-evaluation-services.html>. A translated transcript is not accepted. Transcripts must be evaluated on a course-by-course format, showing U.S. semester credit and grade equivalent for each course based on a 4.0 GPA scale.
- Evaluation of foreign health imaging professional certifications by MSRS faculty.
- Graduate students must first apply and be accepted by the MSRS graduate program before the admission can be processed for Weber State University.

Application

The application is available online at www.weber.edu/msrs. An application fee is required for the application to be considered complete.

- Application for Cardiac Specialist MSRS admission should be made by May 1 for fall semester admission, however, applications will be accepted beyond this date until we reach capacity.
- Application for Innovation and Improvement MSRS admission should be made by March 1 for summer semester admission, May 1 for fall semester admission, and November 1 for spring semester admission, however, applications will be accepted beyond these dates until we reach capacity. Preceptors must be identified by July 1 or enrollment may be deferred to the following academic year.
- Application for Radiologist Assistant MSRS admission should be made by May 1 for fall semester admission, however, applications will be accepted beyond this date until we reach capacity.

Student Advisement

A program advisor will be appointed by the School of Radiologic Sciences Chair from the graduate faculty in the program. All MSRS candidates must consult the program advisor at least once a semester. The School of Radiological Sciences Chair will serve as chair of the advisement committee, which will comprise all MSRS faculty. For issues regarding registration and scheduling, students should contact the MSRS Enrollment Manager at msrs@weber.edu.

Continued program evaluation and improvement will assure a high-quality program that meets the students' needs. The student's needs and success will be monitored continuously throughout the program.

The Master of Science in Radiologic Sciences (MSRS) program allows you to build the program based on your educational and professional interests. Students can focus in areas of advanced practice, education, management, research, interventional cardiology, musculoskeletal sonography, radiology nursing, and interprofessional education (IPE).

Master of Science in Radiologic Sciences Core (12 credit hours)

- MSRS 6100 - Research Methods **Credits: (3)**
- MSRS 6120 - Research and Statistics **Credits: (3)**
- MSRS 6900 INT - Capstone: Clinical Fellowship & Portfolio **Credits: (3)**
- MSRS 6999 - Master's Thesis in Radiologic Sciences **Credits: (3)**

Master of Science in Radiologic Sciences (MSRS), Cardiac Specialist Emphasis

- **Grade Requirements:** All required courses must be completed with a grade of "B" or higher.
- **Credit Hour Requirements:** A total of 59 credit hours are required.
- **Program Code:** 2037MSRS with Emphasis in 2067
- **CIPC:** 510911

The maximum time for completion of the degree, including thesis, will be three years; if the maximum time is exceeded, the student must petition to the program for an extension.

Master of Science in Respiratory Therapy

Director: Mich Oki

Location: Marriott Allied Health Building, Rm 309B

Telephone Contact: Irma Marroquin-Lewis (801) 626-7071

Enrollment Director: Alisa Kimball (801) 626-6840

Professor: Paul Eberle; **Associate Professor:** Mich Oki; **Assistant Professors:** Sharri Vasas, Sarah Allred;

Instructor: Laurel Duncan

The MSRT program is designed for post-professional career development and to prepare respiratory care practitioners as 1) department or clinical administrators, 2) college-level faculty and/or asthma educators, and 3) clinical researchers employed within a variety of healthcare institutions. Two of five post-professional practice credentials (Certified PFT [CPFT] or Registered PFT [RPFT], Sleep Disorders Specialist [SDS] or Registered Polysomnographic Technologist [RPsgT], Adult Critical Care Specialist [ACCS], Neonatal/Pediatric Specialist [NPS], and Asthma Educator [AE-C]) relative to practitioner expertise are required for completion of the degree. Additionally, specific concentrations/emphasis of practice will prepare students for advanced careers in respiratory care. These concentrations are specifically intended for individuals with clinical experience pursuing advanced career pathways in administration, as college faculty, or as clinical researchers or health care consultants. Master of Science in Respiratory Therapy graduates participate in the health care arena as post-professional leaders with roles as clinical respiratory therapists prepared to provide guidance and administrative leadership to departments and to undergraduates throughout the educational processes associated with providing, managing, coordinating, and consulting in respiratory care.

The MSRT degree consists of 36 credit hours beyond the earned baccalaureate degree. This includes core courses in medical writing, medical pathophysiology, and medical ethics and law (9 credits), and providing a mechanism for two post-professional practice credentials. Additionally, concentrations chosen by the student in areas of health administration, college-level faculty or asthma educator, or clinical research (9 credits per concentration) are required for emphasis. MSRT students are required to complete 6 credits as a capstone project incorporating research principles learned throughout the curriculum. The MSRT program is developed with "hybrid" educational courses. This means the majority of coursework will be online with a few scheduled classroom experiences dependent on the area of concentration/emphasis chosen.

School of Radiologic Sciences

- **Department Chair:** Robert Walker, PhD, RT(R)(MR)(CT)(QM), FASRT
- **Location:** Marriott Health Building, Room 363
- **Telephone Contacts:**
 - **AAS Radiography:** Beverly Figueroa, 801-626-6329
 - **BS Specialties:** Emily Darby, 801-626-6057
 - **Toll Free Telephone:** 1-800-848-7770, Option 1
 - **Independent Study Manager:** Pam Berg, 801-626-6619
 - **MSRS Enrollment Manager:** Cathy Wells, 801-626-8538
 - **Student Liaison:** Crysta Herman, 801-626-8537
 - **Admissions/Counseling:** Eric Neff, 801-626-6128

Professors: Tanya Nolan, Robert Walker; **Associate Professors:** Rex Christensen, Casey Neville; **Assistant Professors:** Victor Clampitt, Laurie Coburn, Robert Ferguson, Ambree Penrod, Christopher Steelman, Taylor Ward, Kimberly Parkinson; **Adjunct Faculty:** Daryn Ashby, Wynn Harrison, Julie Hawk, Ryan Hecox, Diane Kawamura, Christopher Marston, Cheryl Walczak

Radiologic Sciences is a medical field that uses ionizing radiation, sound waves and magnetic fields to produce medical images for diagnostic purposes or to treat diseases by combining medical procedures with technology.

Radiography

The Radiography program provides integrated didactic instruction with the utilization of on campus x-ray rooms and clinical experience in Radiology departments of the affiliated health facilities. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The student will participate in clinical education within the affiliate health facilities throughout the program.

The program is 5 continuous semesters. The student qualifies for an Associate of Applied Science degree upon completion of the general education requirements and the professional course work. Upper division elective courses completed during the program may be applied toward a baccalaureate degree.

Diagnostic Medical Sonography

The Diagnostic Medical Sonography program is designed as an advanced discipline of study for two-year graduates of radiography programs or equivalent as determined by the School of Radiologic Sciences. A student can complete the required courses and be eligible to sit for the national certification examination. The courses offered in Diagnostic Medical Sonography are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students who have been accepted into the Bachelor of Science program.

The program and support courses are four (4) semesters in length for the Cardiac Emphasis or the Medical Emphasis and three (3) semesters in length for the Vascular Emphasis. A competency-based evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to receive grades for the course. The clinical education courses require a minimum of 24 clock hours per calendar week in an affiliated health care facility.

Nuclear Medicine

The Nuclear Medicine program is designed as an advanced discipline of study for ARRT registered technologists or the acceptable equivalent. A student can complete the required courses, obtain a certificate of completion, and be eligible to sit for the national certification examination. The courses offered in the Nuclear Medicine program are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students who have been accepted into the Bachelor of Science program.

The program is three (3) full semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

Radiation Therapy

The Radiation Therapy program is designed as an advanced discipline of study for graduates of accredited programs. A student can complete the required courses, obtain a certificate of completion, and be eligible to sit for the national certification examination. The courses offered in the Radiation Therapy program are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students who have been accepted into the Bachelor of Science program.

The program is three (3) full semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

Advanced Radiologic Science

The Advanced Radiologic Sciences program is designed as an advanced discipline of study for ARRT registered technologists or equivalent as determined by the School of Radiologic Sciences. Students in the program must select an area or combination of areas of emphasis. These areas are designed to meet your career goals in medical imaging modalities and for technical management and educational positions. The courses offered in the Advanced Radiologic Sciences are upper-division and will be accepted as satisfying the requirements for a primary area emphasis for those students in the Bachelor of Science program.

The programs are either three (3) or four (4) semesters in length, depending on the emphasis, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and clinical courses in order to be eligible to sit for the national certification examinations. A minimum of 24 clock hours per week of clinical education must be completed in an affiliated health care facility.

The following emphases are available:

- Computed Tomography (CT)
- Interventional Radiology (IR)
- Magnetic Resonance Imaging (MRI)
- Women's Imaging

Master of Science in Radiologic Sciences

The Master of Science in Radiologic Sciences (MSRS) program allows you to build the program based on your educational and professional interests. Students can focus in areas of advanced practice, education, management, research, interventional cardiology, Radiology Assistant, musculoskeletal sonography, radiology nursing, and interprofessional education (IPE).

The following emphases are available:

Cardiac Specialist

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Cardiac Specialist prepares students with the knowledge and clinical skills necessary for a career in the cardiac cath lab. Students will develop analytical thinking

skills and research capability while studying a wide range of disciplines including coronary and structural heart disease, multimodality cardiac imaging, and interventional cardiac catheterization. Students will learn alongside a multidisciplinary team of professionals while assisting with cath lab procedures such as angiography, hemodynamic assessment, coronary stenting, and valve implantation. Upon graduation, students will be qualified to sit for the Registered Cardiovascular Invasive Specialist (RCIS) and/or the Cardiac Interventional Radiography (CI) exam.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.

Innovation and Improvement

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Innovation and Improvement is focused on elevating the imaging professional and patient care by providing students with diverse and customized skills and knowledge necessary to connect their imaging practices with policy. Imaging professions will broaden their clinical comprehension, develop their leadership and educational expertise, enhance their research ingenuity, and extend their professional versatility within the imaging industry.

Radiologist Assistant

The Master of Science in Radiologic Sciences (MSRS) with emphasis in Radiologist Assistant prepares students to work as a Registered Radiologist Assistant (RA). The role of the RA provider is to improve efficiency and patient care in imaging services by providing advanced level support to radiologists. The curriculum incorporates the RRA certification requirements as published by the American Registry of Radiologic Technologists (ARRT). Students will learn advanced patient care, safety, and procedures through academic work and clinical experience.

The program is four (4) semesters in length, which requires the student to attend in the summer. A competency-based clinical evaluation system is utilized throughout the program. A student must achieve a predetermined level of competency in the academic and preceptor courses in order to receive grades for the course. A minimum of 24 clock hours per week of clinic education must be completed in an affiliated health care facility.

Associate of Applied Science

Radiography (AAS)

Radiography is a program offered under School of Radiologic Sciences. The program provides integrated didactic instruction with the utilization of on campus x-ray rooms and clinical experience in Radiology departments of the affiliated health facilities. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The student will participate in clinical education within the affiliate health facilities throughout the program.

The program is 5 continuous semesters. The student qualifies for an associate of applied science degree upon completion of the general education requirements and the professional course work. Upper division elective courses completed during the program may be applied toward a baccalaureate degree.

- **Program Prerequisite:** Complete the prerequisite courses, make application and be accepted to the program. Please contact the DCHP Admissions Advisement Center at 801-626-7136/6136 for a list of specific prerequisite courses.
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.

- **Credit Hour Requirements:** The credit hours required for graduation with an AAS degree are 23-26 credit hours of prerequisite courses and 73 credit hours of didactic and clinical education courses.
- **Program Code:** 2013AAS
- **CIPC:** 510911

Advisement

Students accepted into the program should meet annually with assigned faculty advisor for course and program review.

Admission Requirements

- Be accepted to Weber State University and declare program of study as Radiography applicant.
- Apply to the Radiography Program for acceptance and follow the procedures as outlined on the program application, which is in addition to the Weber State Admissions Application. The deadline date for applications to be received is January 10 of each year. Student selection is made during Spring semester and those accepted into the program begin their professional phase of the curriculum the following fall semester.
- Pay the \$25 program application fee.
- Present a satisfactory high school and/or college(s) transcript(s).
- Complete the general education courses listed below.

General Education

Refer to Degree Requirements degree requirements.

The following are required:

English ENGL 1010 (3)
 English ENGL 2010 (3) or an oral or written Communication course
 Quantitative Literacy - MATH 1010 (4)
 Computer Literacy (demonstrate literacy) no credit
 Social Sciences (Introductory Psychology) Course (3)
 Humanities (Communication) Course (3)
 Life Science (3)
 or Health Sciences (Biomed) HTHS 2110 (4) and HTHS 2111 (4)

Program Learning Outcomes

- Identify the biological effects of radiation.
- Demonstrate proper radiation protection procedures during diagnostic procedures.
- Demonstrate proper use and understanding of radiation exposure monitors and diagnostic radiation equipment.
- Demonstrate, select, accurately explain and produce diagnostic quality radiographs.
- Demonstrate repeated competency in accurately explaining the proper radiographic film radiographic image production, image processing, and digital image formation'
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of radiographic positioning, technical factors, anatomy, physiology and pathology.
- Demonstrate legal and professional responsibility.
- Demonstrate appropriate patient education, safety and comfort skills.

- Demonstrate acceptable methods of infection control and prevention.
- Demonstrate proper patient monitoring during radiographic procedures.
- Demonstrate appropriate responses to diverse patient populations.
- Demonstrate a sense of professionalism and desire to learn.
- Demonstrate working knowledge of radiographic anatomy, structural relationship and pathology

Major Course Requirements for AAS Degree

Courses Required (73 credit hours)

- RADT 1022 - Introduction to Radiologic Technology **Credits: (2)**
- RADT 1303 - Principles of Radiographic Exposure I **Credits: (3)**
- RADT 1502 - Radiographic Anatomy and Positioning I **Credits: (2)**
- RADT 1601 - Clinical Simulation I **Credits: (1)**
- RADT 2821 - Directed Readings & Research I **Credits: (2)**
- RADT 2861 INT - Clinical Education **Credits: (3)**
- RADT 2042 - Community-Based Patient Care I **Credits: (1-2)**
- RADT 1512 - Radiographic Anatomy and Positioning II **Credits: (2)**
- RADT 1621 - Clinical Simulation II **Credits: (1)**
- RADT 2043 - Specialty Based Patient Care **Credits: (2)**
- RADT 2272 - Basic Sectional Anatomy **Credits: (2)**
- RADT 2403 - Principles of Radiographic Exposure II **Credits: (3)**
- RADT 2822 - Directed Readings & Research II **Credits: (2)**
- RADT 2862 INT - Clinical Education **Credits: (3)**
- RADT 1522 - Radiographic Anatomy and Positioning III **Credits: (2)**
- RADT 1641 - Clinical Simulation III **Credits: (1)**
- RADT 2803 - Independent Research **Credits: (1-3)**
- RADT 2823 - Directed Readings & Research III **Credits: (2)**
- RADT 2863 INT - Clinical Education **Credits: (3)**
- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3043 - Medical Ethics and Law **Credits: (3)**
- RADT 1532 - Radiographic Anatomy and Positioning IV **Credits: (2)**
- RADT 1661 - Clinical Simulation IV **Credits: (1)**
- RADT 2824 - Directed Readings & Research IV **Credits: (2)**
- RADT 2864 INT - Clinical Education **Credits: (3)**
- RADT 2942 - Transition to Clinical Practice **Credits: (2)**
- RADT 3403 - Radiobiology & Health Physics **Credits: (3)**
- RADT 3463 - Computerized Imaging **Credits: (3)**
- RADT 2865 INT - Clinical Education **Credits: (2)**
- RADT 2913 - Comprehensive Review **Credits: (2)**
- RADT 2825 - Directed Readings & Research V **Credits: (2)**
- RADT 3443 - Quality Assurance in Radiology **Credits: (3)**
- RADT 1542 - Radiographic Anatomy and Positioning V **Credits: (2)**
- RADT 1681 - Clinical Simulation V **Credits: (1)**

Institutional Certificate

Arizona Practical Technologist in Radiology Certificate of Proficiency

The Arizona Practical Technologist in Radiography (PTR) Certificate program will consist of 2 semesters that incorporate integrated didactic instruction and clinical experience in affiliated health facilities. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The student will participate in clinical education within the affiliate health facilities throughout the program.

Courses taken during the program may be applied towards the AAS Radiologic Technology degree. Upon successful completion of this certificate, students will be eligible for the State Limited Scope Licensing exam in the state of Arizona.

- **Program Prerequisites:** Acceptance to Weber State University, make application and be accepted to the program.
- **Advisement:** Students accepted into the program should meet annually with assigned faculty advisor for course and program review.
- **Admission Requirements:** Be accepted to Weber State University and declare program of study as Radiography applicant. Apply to the Radiography Program for acceptance and follow the procedures as outlined on the program application, which is in addition to the Weber State Admissions Application. The deadline date for applications to be received is March 1st of each year for AZ PTR Applicants. Student selection is made during Summer semester and those accepted into the program begin their professional phase of the curriculum the following fall semester. Present a satisfactory high school and/or college(s) transcript(s).
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.
- **Program Code:** 2089CP
- **CIPC Code:** 510911

Required Courses

- RADT 1022 - Introduction to Radiologic Technology **Credits: (2)**
- RADT 1303 - Principles of Radiographic Exposure I **Credits: (3)**
- RADT 1502 - Radiographic Anatomy and Positioning I **Credits: (2)**
- RADT 1512 - Radiographic Anatomy and Positioning II **Credits: (2)**
- RADT 1601 - Clinical Simulation I **Credits: (1)**
- RADT 1621 - Clinical Simulation II **Credits: (1)**
- RADT 2042 - Community-Based Patient Care I **Credits: (1-2)**
- RADT 2043 - Specialty Based Patient Care **Credits: (2)**
- RADT 2861 INT - Clinical Education **Credits: (3)**
- RADT 2862 INT - Clinical Education **Credits: (3)**
- RADT 2866 INT - Final Competency Evaluation **Credits: (2)**

Cardiology Technician Certificate of Proficiency

The Cardiology Technician Certificate of Proficiency is a program offered under School of Radiologic Sciences. This is a hybrid program offered Fall, Spring, and Summer semesters. During the program, students will gain understanding and skills appropriate to ECG procedures, rhythm analysis, heart anatomy and morphology, cardiac pathophysiology, cardiac imaging specialties, and patient care. At the conclusion of this program, students will be eligible for the

Cardiac Credentialing International (CCI) certification examinations for Cardiographic Technician and Rhythm Analysis.

- **Program Prerequisite:** None.
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.
- **Credit Hour Requirements:** The credit hours required for completion of the certificate will include the 10 credit hours (4 courses) within the Cardiology Technician program as well as the 8 credit hours of life science covering Anatomy and Physiology (HTHS 1110 LS - Integrated Human Anatomy and Physiology I (4) and HTHS 1111 - Integrated Human Anatomy and Physiology II (4)) or (ZOOL 2100 - Human Anatomy (4) and ZOOL 2200 LS - Human Physiology (4)).
- **Advisement:** Students enrolled in the Cardiology Technician Certificate program will receive continuous advisement from individual instructors throughout the duration of the program.
- **Admission Requirements:** Be accepted to Weber State University and register for Limited Radiography Program. Present a satisfactory high school and/or college(s) transcript(s).
- **Program Code:** 2087CP
- **CIPC Code:** 510901

Program Learning Outcomes

1. Incorporate appropriate professional ethics and patient care and use of ECG equipment.
2. Demonstrate knowledge of advanced cardiac pathologies.
3. Maintain cardiac monitoring support.
4. Critically determine rhythm changes based on pathology and patient medications.
5. Perform standard and modified ECG testing and monitoring.
6. Demonstrate knowledge of stress test equipment and protocols.
7. Verify the functionality of ambulatory monitoring supplies and equipment.

Required Courses

- RADT 1012 - Cardiographic Technician **Credits: (3)**
- RADT 1013 - Rhythm Analysis **Credits: (3)**
- RADT 1014 - Basic Cardiac Imaging **Credits: (3)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)**
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
- RADT 1015 - Patient Care in Cardiology **Credits: (2)**

Colorado Limited Scope Operator (LSO) Certificate of Proficiency

The Colorado Limited Scope Operator in Radiography (LSO) Certificate program will consist of 2 semesters that incorporate integrated didactic instruction and clinical experience in affiliated health facilities. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught. The student will participate in clinical education within the affiliate health facilities throughout the program. Courses taken during the program may be applied towards the AAS Radiologic Technology degree. Upon successful completion of this certificate, students will be eligible for the State Limited Scope Licensing exam in the state of Colorado.

- **Program Prerequisites:** Acceptance to Weber State University, make application and be accepted to the program.

- **Advisement:** Students accepted into the program should meet annually with assigned faculty advisor for course and program review.
- **Admission Requirements:** Be accepted to Weber State University and declare program of study as Radiography applicant. Apply to the Radiography Program for acceptance and follow the procedures as outlined on the program application, which is in addition to the Weber State Admissions Application. The deadline date for applications to be received is May 1st of each year for CO LSO Applicants. Student selection is made during Summer semester and those accepted into the program begin their professional phase of the curriculum the following fall semester. Present a satisfactory high school and/or college(s) transcript(s).
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.
- **Program Code:** 2094CP
- **CIPC Code:** 510911

Required Courses

- RADT 1022 - Introduction to Radiologic Technology **Credits: (2)**
- RADT 1303 - Principles of Radiographic Exposure I **Credits: (3)**
- RADT 1502 - Radiographic Anatomy and Positioning I **Credits: (2)**
- RADT 1601 - Clinical Simulation I **Credits: (1)**
- RADT 2042 - Community-Based Patient Care I **Credits: (1-2)**
- RADT 2861 INT - Clinical Education **Credits: (3)**
- RADT 1512 - Radiographic Anatomy and Positioning II **Credits: (2)**
- RADT 1522 - Radiographic Anatomy and Positioning III **Credits: (2)**
- RADT 1621 - Clinical Simulation II **Credits: (1)**
- RADT 1641 - Clinical Simulation III **Credits: (1)**
- RADT 2043 - Specialty Based Patient Care **Credits: (2)**
- RADT 2862 INT - Clinical Education **Credits: (3)**
- RADT 2866 INT - Final Competency Evaluation **Credits: (2)**

Limited Radiographer Certificate of Proficiency

The Limited Radiographer Certificate for Proficiency is a program offered under School of Radiologic Sciences. The program provides integrated didactic instruction with the utilization of clinical simulation. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught.

The program is one semester and is offered during fall, spring and summer semesters. The student qualifies for a certificate of proficiency upon completion of the program.

- **Program Prerequisite:** None.
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of C or better.
- **Credit Hour Requirements:** The credit hours required for completion of the certificate will include the 10 credit hours (5 courses) within the Limited Radiographer program as well as the 8 credit hours of life science covering Anatomy and Physiology (HTHS 2110 LS - Integrated Human Anatomy and Physiology I **(4)** and HTHS 2111 - Integrated Human Anatomy and Physiology II **(4)**) or (ZOOL 2320 - Human Anatomy **(4)** and ZOOL 2420 LS - Human Physiology **(4)**).
- **Program Code:** 2068CP
- **CIPC:** 51.0911

Advisement

Students enrolled in the Limited Radiographer program will receive continuous advisement from individual instructors throughout the duration of the program.

Use Grad MAPs to plan your degree

Admission Requirements

1. Be accepted to Weber State University and register for Limited Radiography Program.
2. Present a satisfactory high school and/or college(s) transcript(s).

Program Learning Outcomes

- Identify the fundamental concepts of biological effects of radiation.
- Demonstrate proper radiation protection procedures during diagnostic procedures.
- Demonstrate proper use and understanding of radiation exposure monitors and diagnostic radiation equipment.
- Demonstrate, select, accurately explain and produce diagnostic quality radiographs that fall within the scope of practice for radiology practical technicians in the state of Utah (Statute 58-54).
- Demonstrate repeated competency in accurately explaining the proper radiographic image production, image processing, and digital image formation
- Demonstrate proper evaluation and critique of radiographic positioning, technical factors, anatomy, physiology and pathology that fall within the scope of practice for radiology practical technicians in the state of Utah (Statute 58-54).
- Demonstrate legal and professional responsibility within the limited scope of practice for a radiology practical technician.
- Demonstrate appropriate patient education, safety and comfort skills.
- Demonstrate acceptable methods of infection control and prevention.
- Demonstrate proper patient monitoring during radiographic procedures.
- Demonstrate appropriate responses to diverse patient populations.
- Demonstrate a sense of professionalism and desire to learn.
- Understand the radiographic anatomy and positioning specific to the Limited Scope of Practice (Utah Statute 58-54) which only includes Chest, Extremities, Skull/Sinus, Spine, and Podiatric.

Required Courses

The program provides integrated didactic instruction with the utilization of clinical simulation. During the course of the program, radiologic physics, anatomy, radiographic procedures, positioning, and patient assessment are taught.

- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
OR
- ZOOL 2320 - Human Anatomy **Credits: (4)** and
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

- RADT 1021 - Limited Clinical Simulation **Credits: (1)**
- RADT 1022 - Introduction to Radiologic Technology **Credits: (2)**
- RADT 1023 - Limited Radiographic Anatomy & Positioning **Credits: (2)**
- RADT 1024 - Limited Principles of Radiographic Exposure **Credits: (3)**
- RADT 1025 - Limited Patient Care and Assessment **Credits: (2)**

Bachelor of Science

Advanced Radiologic Sciences (BS)

The Advanced Radiologic Sciences program is designed to fill the continuing education needs of registered technologists, to provide a career ladder for those who wish to obtain additional skills in a specialized area, and to provide an opportunity to earn a Bachelor of Science (BS) degree. Programs of study are designed to meet the career goals of students in medical imaging modalities and for technical, management and educational positions.

Areas of Emphasis

1. Advanced Radiologic Sciences (BS), Magnetic Resonance Imaging (MRI) Emphasis
 2. Advanced Radiologic Sciences (BS), Interventional Radiology (IR) Emphasis
 3. Advanced Radiologic Sciences (BS), Computed Tomography (CT) Emphasis
 4. Advanced Radiologic Sciences (BS), Women's Imaging Emphasis
 5. Advanced Radiologic Sciences (BS), Advanced Radiologic Sciences Emphasis
- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
 - **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
 - **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
 - **Credit Hours:** A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
 - **Program Code:** Advanced Radiologic Science (2016BS) with Advanced Radiologic Sciences Emphasis (2073), Magnetic Resonance Imaging Emphasis (2074), Interventional Radiology Emphasis (2075), Computed Tomography Emphasis (2076), or Women's Imaging Emphasis (2077)
 - **CIPC:** Advanced Radiologic Science (510911), CT (510999), MRI (510920), CIT (510901), Women's Imaging (510999), RA (510814)

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a \$25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)

Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.

- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**

Advanced Radiologic Sciences (BS), Advanced Radiologic Sciences Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2073
- **CIPC:** 510911

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a \$25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)

Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.

- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**

Advanced Radiologic Sciences Required Courses (10 credit hours)

- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3043 - Medical Ethics and Law **Credits: (3)**
- RADT 3423 - Federal Regulations **Credits: (2)**
- RADT 4203 - Patient Education in Radiology **Credits: (2)**

Electives (25-33 credit hours)

Select at least 25 credit hours from the following courses. Elective courses must have approval of a faculty advisor.

- RADT 3123 - Sectional Anatomy **Credits: (2)**
- RADT 3143 - Imaging Pathophysiology I **Credits: (2)**
- RADT 3144 - Imaging Pathophysiology II **Credits: (2)**
- RADT 3243 - Community-Based Patient Care II **Credits: (2)**
- RADT 3253 - Specialty-Based Patient Care II **Credits: (2)**
- RADT 3263 - Diagnostic Services Pharmacology **Credits: (2)**
- RADT 3403 - Radiobiology & Health Physics **Credits: (3)**
- RADT 3443 - Quality Assurance in Radiology **Credits: (3)**
- RADT 3463 - Computerized Imaging **Credits: (3)**
- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 3863 INT - Clinical Internship **Credits: (2-6)**
- RADT 4213 - Supervision and Staff Development **Credits: (3)**
- RADT 4223 - Promotional Strategies **Credits: (3)**
- RADT 4233 - Fiscal Analysis in Radiology **Credits: (3)**
- RADT 4243 - Quality Management in Radiology **Credits: (3)**
- RADT 4253 - Risk Management **Credits: (3)**
- RADT 4303 - Cardiology **Credits: (3)**
- RADT 4403 - Imaging Pathology **Credits: (3)**
- RADT 4413 - Forensic Radiology **Credits: (3)**
- RADT 4433 - PACS Administration **Credits: (3)**
- RADT 4443 - Imaging Informatics **Credits: (3)**
- RADT 4453 - Advanced Imaging: 3D Visualization and 3D Printing **Credits: (3)**
- RADT 4543 - Bone Densitometry **Credits: (3)**
- RADT 4572 - Advanced Breast Imaging **Credits: (3)**
- RADT 4573 - The Female Patient and Medical Imaging **Credits: (3)**
- RADT 4610 - Clinical Simulation I **Credits: (1)**
- RADT 4611 - Clinical Simulation II **Credits: (1)**
- RADT 4612 - Clinical Simulation III **Credits: (1)**

- RADT 4803 - Individual Research **Credits: (1-3)**
- RADT 4833 - Directed Readings and Research **Credits: (3)**
- RADT 4863 INT - Clinical Internship **Credits: (2-4)**
- RADT 4992 - Seminar **Credits: (1-2)**

Advanced Radiologic Sciences (BS), Computed Tomography (CT) Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).

- RADT 4943 - Baccalaureate Thesis **Credits: (2)**

Interventional Radiology Required Courses (9 credit hours)

- RADT 4313 - Visceral, Pelvic and Extremity Angiography **Credits: (3)**
- RADT 4333 - Head and Neck Angiography **Credits: (3)**
- RADT 4343 - Thoracic and Venous Procedures **Credits: (3)**

Support Courses for IR (32 credit hours)

- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3043 - Medical Ethics and Law **Credits: (3)**
- RADT 3123 - Sectional Anatomy **Credits: (2)**
- RADT 3143 - Imaging Pathophysiology I **Credits: (2)**
- RADT 3144 - Imaging Pathophysiology II **Credits: (2)**
- RADT 3253 - Specialty-Based Patient Care II **Credits: (2)**
- RADT 3263 - Diagnostic Services Pharmacology **Credits: (2)**
- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 3863 INT - Clinical Internship **Credits: (2-6)** (6 credit hours required)
- RADT 4203 - Patient Education in Radiology **Credits: (2)**
- RADT 4303 - Cardiology **Credits: (3)**
- RADT 4863 INT - Clinical Internship **Credits: (2-4)** (3 credit hours required)
- RADT 4942 - Transition to Specialty Practice **Credits: (2)**

Advanced Radiologic Sciences (BS), Magnetic Resonance Imaging (MRI) Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-49 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2074
- **CIPC:** 510920

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a \$25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;
6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)

Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.

- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**

Support Courses for MRI (31 credit hours)

- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3043 - Medical Ethics and Law **Credits: (3)**
- RADT 3123 - Sectional Anatomy **Credits: (2)**
- RADT 3143 - Imaging Pathophysiology I **Credits: (2)**
- RADT 3144 - Imaging Pathophysiology II **Credits: (2)**
- RADT 3253 - Specialty-Based Patient Care II **Credits: (2)**

- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 3863 INT - Clinical Internship **Credits: (2-6)** (6 credit hours required)
- RADT 4203 - Patient Education in Radiology **Credits: (2)**
- RADT 4303 - Cardiology **Credits: (3)**
- RADT 4863 INT - Clinical Internship **Credits: (2-4)** (3 credit hours required)
- RADT 4601 - MRI Entry Level-Patient Care and Safety **Credits: (2)**

Magnetic Resonance Imaging (MRI) Required Courses (17 credit hours)

- RADT 4603 - Magnetic Resonance Imaging Physics, Instrumentation & Safety **Credits: (3)**
- RADT 4623 - Advanced MRI Procedures **Credits: (3)**
- RADT 4633 - Magnetic Resonance Imaging of the Central Nervous System **Credits: (3)**
- RADT 4643 - Magnetic Resonance of the Torso and Limbs **Credits: (3)**
- RADT 4945 - Fundamentals in MRI Certification **Credits: (2)**
- RADT 4630 - MRI Simulation 1 **Credits: (1)**
- RADT 4631 - MRI Simulation 2 **Credits: (1)**
- RADT 4632 - MRI Simulation 3 **Credits: (1)**

Advanced Radiologic Sciences (BS), Women's Imaging Emphasis

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Requirements below).
- **Minor:** Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract.
- **Grade Requirements:** After admittance into the program of choice, a GPA of 2.0 is required in all professional courses.
- **Credit Hours:** A total of 120 credit hours are required for graduation; 30-48 of these must be within the major emphasis.
- **Program Code:** 2016BS with Emphasis 2077
- **CIPC:**

Advisement

Students must meet with a faculty advisor for the program of study selected and should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

1. Apply for admission to Weber State University;
2. Apply to the program of choice and submit a \$25.00 application fee;
3. Submit copy of active ARRT certification card or acceptable equivalent;
4. Submit transcripts from all colleges and universities attended;
5. Complete an academic contract in consultation with a faculty advisor;

6. The Program of Study within the Advanced Radiologic Sciences major will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Radiologic Sciences Core (4 credit hours)

Students must complete an upper division research course in either the major area of emphasis or in the minor emphasis. The course must be equivalent to RADT 4943 - Baccalaureate Thesis (2) and approved by a faculty advisor.

- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**

Required Courses (14 credit hours)

- RADT 4553 - Breast Anatomy, Physiology and Pathology **Credits: (3)**
- RADT 4563 - Mammographic Positioning/Imaging Techniques **Credits: (3)**
- RADT 4583 - Mammographic Equipment and Quality Assurance **Credits: (3)**
- RADT 4863 INT - Clinical Internship **Credits: (2-4)**
- RADT 4942 - Transition to Specialty Practice **Credits: (2)**

Support Courses (16 credit hours)

- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3043 - Medical Ethics and Law **Credits: (3)**
- RADT 3243 - Community-Based Patient Care II **Credits: (2)**
- RADT 3423 - Federal Regulations **Credits: (2)**
- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 4203 - Patient Education in Radiology **Credits: (2)**

Elective Courses (13 credit hours)

- RADT 3123 - Sectional Anatomy **Credits: (2)**
- RADT 3143 - Imaging Pathophysiology I **Credits: (2)**
- RADT 3144 - Imaging Pathophysiology II **Credits: (2)**
- RADT 3263 - Diagnostic Services Pharmacology **Credits: (2)**
- RADT 3403 - Radiobiology & Health Physics **Credits: (3)**
- RADT 3443 - Quality Assurance in Radiology **Credits: (3)**
- RADT 3463 - Computerized Imaging **Credits: (3)**
- RADT 4213 - Supervision and Staff Development **Credits: (3)**
- RADT 4223 - Promotional Strategies **Credits: (3)**
- RADT 4233 - Fiscal Analysis in Radiology **Credits: (3)**
- RADT 4243 - Quality Management in Radiology **Credits: (3)**
- RADT 4253 - Risk Management **Credits: (3)**

- RADT 4303 - Cardiology **Credits: (3)**
- RADT 4413 - Forensic Radiology **Credits: (3)**
- RADT 4433 - PACS Administration **Credits: (3)**
- RADT 4443 - Imaging Informatics **Credits: (3)**
- RADT 4543 - Bone Densitometry **Credits: (3)**
- RADT 4572 - Advanced Breast Imaging **Credits: (3)**
- RADT 4573 - The Female Patient and Medical Imaging **Credits: (3)**
- RADT 4803 - Individual Research **Credits: (1-3)**
- RADT 4833 - Directed Readings and Research **Credits: (3)**
- RADT 4922 - Workshop, Conferences and Telecourses **Credits: (2)**
- RADT 4992 - Seminar **Credits: (1-2)**

Diagnostic Medical Sonography (BS)

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to Admission Process below).
- **Minor:** The Advanced Radiologic Sciences minor is automatically satisfied by the requirements for the Diagnostic Medical Sonography major.
- **Grade Requirements:** After admittance to the program, a GPA of 2.0 or a grade of "C" is required in all professional courses.
- **Credit Hour Requirements:** Credit hours required will vary according to the chosen emphasis. Consult with a faculty member to complete an academic contract.
- **Program Code:** Major Diagnostic Medical Sonography (2069BS) with one or more of the following emphases: Cardiac (2070), Medical (2071), Cardiovascular(2090)
- **CIPC:** Major Diagnostic Medical Sonography (510910) with one or more of the following: Cardiac (510910), Medical (510910), Cardiovascular(510910)

Advisement

Students should meet with the admissions counselor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Process

To be eligible for admission to the Diagnostic Medical Sonography program, the following criteria must be met:

1. Application must be made to Weber State.
2. Demonstrate ability to achieve scholastically.
3. Complete an application to the desired program and pay the \$25 application fee.
4. Provide the following with the application
 - a. transcripts from hospital certificate program or colleges and universities;
 - b. high school transcripts if no previous college experience; and
 - c. copy of ARRT certification or equivalent.
5. Have all pertinent material on file January 10.
6. The Program of Study within the Diagnostic Medical Sonography emphasis area will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Demonstrate proper use of imaging equipment
- Demonstrate proper selection of technical factors to produce diagnostic images
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of diagnostic images for accuracy of technical factors, patient positioning, anatomy, contrast injection and pathology.

Major Course Requirements for BS Degree

DMS Courses Required (6 credit hours)

- DMS 4100 - Introduction to Sonography Principles and Instrumentation **Credits: (1)**
- DMS 4110 - Sonography Principles & Instrumentation **Credits: (3)**
- DMS 4120 - Quality Assurance **Credits: (1)**
- DMS 4820 - Orientation to Clinical Education **Credits: (1)**

Radiography Courses Required (22 credit hours)

- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3123 - Sectional Anatomy **Credits: (2)**
- RADT 3143 - Imaging Pathophysiology I **Credits: (2)**
- RADT 3144 - Imaging Pathophysiology II **Credits: (2)**
- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 3243 - Community-Based Patient Care II **Credits: (2)**
- RADT 3253 - Specialty-Based Patient Care II **Credits: (2)**
- RADT 4942 - Transition to Specialty Practice **Credits: (2)**
- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**

Emphasis Requirements

Complete the courses for one of the following three emphasis areas: Cardiac Emphasis (25 credit hours), Medical Emphasis (24 credit hours), or Vascular Emphasis (16 credit hours).

Cardiac Emphasis (28 credit hours)

- DMS 4210 - Cardiac Sonography I **Credits: (3)**
- DMS 4220 - Cardiac Sonography II **Credits: (3)**
- DMS 4230 - Cardiac Sonography III **Credits: (3)**
- DMS 4240 - Fundamentals for Cardiac Sonography Certification **Credits: (2)**
- DMS 4410 - Vascular Sonography I **Credits: (2)**

- DMS 4420 - Vascular Sonography II **Credits: (2)**
- DMS 4610 - Cardiac Sonography - Clinical Simulation I **Credits: (2)**
- DMS 4811 INT - Cardiac Clinical I **Credits: (3)**
- DMS 4812 INT - Cardiac Clinical II **Credits: (3)**
- DMS 4813 INT - Cardiac Clinical III **Credits: (3)**
- RADT 3263 - Diagnostic Services Pharmacology **Credits: (2)**

Medical Emphasis (31 credit hours)

- DMS 4310 - Abdominal Sonography **Credits: (3)**
- DMS 4320 - Superficial Structure and Special Study Sonography **Credits: (3)**
- DMS 4330 - Gynecologic Sonography **Credits: (1)**
- DMS 4340 - Obstetric Sonography **Credits: (3)**
- DMS 4350 - Fundamentals for Abdominal Sonography Certification **Credits: (2)**
- DMS 4360 - Fundamentals for OB/GYN Sonography Certification **Credits: (2)**
- DMS 4410 - Vascular Sonography I **Credits: (2)**
- DMS 4420 - Vascular Sonography II **Credits: (2)**
- DMS 4620 - Medical Sonography - Clinical Simulation I **Credits: (2)**
- DMS 4621 - Medical Sonography - Clinical Simulation II **Credits: (1)**
- DMS 4622 - Medical Sonography - Clinical Simulation III **Credits: (1)**
- DMS 4821 INT - Medical Clinical I **Credits: (3)**
- DMS 4822 INT - Medical Clinical II **Credits: (3)**
- DMS 4823 INT - Medical Clinical III **Credits: (3)**

Cardiovascular Emphasis (30 credit hours)

- DMS 4210 - Cardiac Sonography I **Credits: (3)**
- DMS 4220 - Cardiac Sonography II **Credits: (3)**
- DMS 4230 - Cardiac Sonography III **Credits: (3)**
- DMS 4240 - Fundamentals for Cardiac Sonography Certification **Credits: (2)**
- DMS 4410 - Vascular Sonography I **Credits: (2)**
- DMS 4420 - Vascular Sonography II **Credits: (2)**
- DMS 4430 - Fundamentals for Vascular Sonography Certification **Credits: (2)**
- DMS 4630 - Cardiovascular Sonography - Clinical Simulation I **Credits: (2)**
- DMS 4831 INT - Cardiovascular Clinical I **Credits: (3)**
- DMS 4832 INT - Cardiovascular Clinical II **Credits: (3)**
- DMS 4833 INT - Cardiovascular Clinical III **Credits: (3)**
- RADT 3263 - Diagnostic Services Pharmacology **Credits: (2)**

Nuclear Medicine (BS)

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Process below).
- **Minor:** The Advanced Radiologic Sciences minor is automatically satisfied by the requirements for the Nuclear Medicine major.
- **Grade Requirements:** After admittance to the program, a GPA of 2.0 is required in all professional courses.
- **Credit Hour Requirements:** A total of 52 credit hours in didactic courses and clinical education are required. The support courses or the equivalent must be completed to obtain the degree.
- **Program Code:** 2011BS
- **CIPC:** 510905

Advisement

Students should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Process

To be eligible for admission to the Nuclear Medicine program, the following criteria must be met:

1. Application and admission to Weber State University.
2. Demonstrate ability to achieve scholastically.
3. Complete an application to the desired program and pay the \$25 application fee.
4. Provide the following with the application:
 - a. transcripts from hospital certificate programs or colleges and universities;
 - b. high school transcripts, if no previous college experience; and
 - c. copy of ARRT certification or equivalent.
5. Have all pertinent material on file by January 10.
6. The Program of Study for Nuclear Medicine will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Demonstrate proper use of imaging equipment
- Demonstrate proper selection of radiopharmaceuticals and technical factors to produce diagnostic images
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of diagnostic images for accuracy of technical factors, patient positioning, anatomy, nuclide injection and pathology.

Major Course Requirements for BS Degree

Nuclear Medicine Courses Required (27 credit hours)

- NUCM 4103 - Radiopharmaceuticals and Dosages **Credits: (3)**
- NUCM 4203 - Scanning and Imaging Procedures I **Credits: (3)**
- NUCM 4213 - Scanning and Imaging Procedures II **Credits: (3)**
- NUCM 4223 - Nuclear Cardiology **Credits: (3)**
- NUCM 4303 - Radionuclide Physics & Instrumentation **Credits: (3)**
- NUCM 4333 SI - Quality Assurance **Credits: (3)**
- NUCM 4861 INT - Clinical Education **Credits: (3)**
- NUCM 4862 INT - Clinical Education **Credits: (3)**
- NUCM 4863 INT - Clinical Education **Credits: (3)**

Radiography Courses Required (25 credit hours)

- RADT 3003 - Psycho-Social Medicine **Credits: (3)**
- RADT 3263 - Diagnostic Services Pharmacology **Credits: (2)**
- RADT 3143 - Imaging Pathophysiology I **Credits: (2)**
- RADT 3144 - Imaging Pathophysiology II **Credits: (2)**
- RADT 3253 - Specialty-Based Patient Care II **Credits: (2)**
- RADT 3423 - Federal Regulations **Credits: (2)**
- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 4303 - Cardiology **Credits: (3)**
- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**
- RADT 4942 - Transition to Specialty Practice **Credits: (2)**

Radiation Therapy (BS)

- **Program Prerequisite:** Must be an ARRT registered technologist or acceptable equivalent as determined by the School of Radiologic Sciences, make application and be accepted to the program of choice (refer to the Admission Process below).
- **Minor:** The Advanced Radiologic Sciences minor is automatically satisfied by the requirements for the Radiation Therapy major.
- **Grade Requirements:** After admission to the program, a GPA of 2.0 or a "C" is required in the professional courses.
- **Credit Hour Requirements:** A total of 46 credit hours in didactic courses and clinical education are required. The support courses or the equivalent must be completed to obtain the degree.
- **Program Code:** 2018BS
- **CIPC:** 510907

Advisement

Students should meet with a faculty advisor at least annually for course and program review. Call 801-626-6057 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Process

To be eligible for admission to the Radiation Therapy program, the following criteria must be met:

1. Application and admission to Weber State University.

2. Demonstrate ability to achieve scholastically.
3. Complete an application to the desired program and pay the \$25 application fee.
4. Provide the following with the application:
 - a. transcripts from hospital certificate programs or colleges and universities;
 - b. high school transcripts, if no previous college experience; and
 - c. copy of ARRT certification or equivalent.
5. Have all pertinent material on file by January 10.
6. The Program of Study for Radiation Therapy will be declared upon acceptance into modality.

General Education

Refer to Degree Requirements for Bachelor of Science requirements.

Program Learning Outcomes

- Demonstrate proper use of treatment equipment
- Demonstrate proper interpretation of treatment prescriptions, treatment fields and procedures
- Demonstrate and accurately interpret quality assurance testing.
- Demonstrate proper evaluation and critique of treatment simulation and delivery, patient positioning and protection, anatomy, and pathology.

Major Course Requirements for BS Degree

Radiation Therapy Courses Required (33 credit hours)

- RATH 4330 - Radiation Therapy Physics **Credits: (3)**
- RATH 4342 - Introduction to Treatment Planning **Credits: (3)**
- RATH 4410 - Radiation Oncology I **Credits: (3)**
- RATH 4412 - Radiation Oncology II **Credits: (3)**
- RATH 4414 - Radiation Oncology III **Credits: (3)**
- RATH 4444 - Advanced Treatment Planning/Brachytherapy **Credits: (3)**
- RATH 4446 - Quality Assurance **Credits: (3)**
- RATH 4448 - New Technology in Radiation Therapy **Credits: (3)**
- RATH 4861 INT - Clinical Education I **Credits: (3)**
- RATH 4862 INT - Clinical Education II **Credits: (3)**
- RATH 4863 INT - Clinical Education III **Credits: (3)**

Radiography Courses Required (13 credit hours)

- RADT 3253 - Specialty-Based Patient Care II **Credits: (2)**
- RADT 3563 - Managing Clinical Information **Credits: (3)**
- RADT 4933 - Research Methods **Credits: (2)**
- RADT 4943 - Baccalaureate Thesis **Credits: (2)**
- RADT 4942 - Transition to Specialty Practice **Credits: (2)**
- RADT 4992 - Seminar **Credits: (1-2)**

Minor

Advanced Radiologic Sciences, Minor Emphasis

- **Grade Requirements:** A GPA of 2.0 in all courses used toward the minor.
- **Credit Hour Requirements:** 18-24 credit hours in Advanced Radiologic Sciences. An academic contract must be generated with a faculty advisor for a minimum of 18 credit hours from the RADT upper division courses. Courses required for certification cannot be used to fulfill minor requirements.
- **Program Code:** 2016
- **CIPC:** 510911

Students may select any approved minor in consultation with a faculty advisor and the completion of an academic contract. A minor is not required for the Radiology Assistant (RA) program.

Post Master's Certificate

Advanced Pediatric Imaging Post Master's Certificate

The Advanced Pediatric Imaging Post-Master's Certificate is a program offered by the School of Radiologic Sciences. The program provides integrated didactic instruction with the utilization of imaging simulation. During the course of the program, imaging of the pediatric GI system, GU system, respiratory system, musculoskeletal (MSK) system, and neurologic system will be taught. A simulation of imaging procedures relative to each pediatric body system will also be included. Pediatric sedation and physical exam relative to pediatric imaging procedures are also taught in this program.

The program is two (2) semesters and is offered during the fall and spring semesters. The student qualifies for a certificate of proficiency upon completion of the program.

- **Program Prerequisite:** Graduate of a regionally accredited master or doctorate program with the associated Radiologist Assistant (RA) and/or Radiology Practitioner Assistant (RPA) credentials.
- **Grade Requirements:** Demonstrate ability to achieve scholastically with grades of B or better.
- **Credit Hour Requirements:** The credit hours required for completion of the certificate will include the 24 credit hours (6 courses) within the Advanced Pediatric Imaging Post-Master's Certificate program
- **Program Code:** 2088PMC
- **CIPC:** 510911

Advisement

Students enrolled in the Advanced Pediatric Imaging Post-Master's Degree Certificate will receive continuous advisement from individual instructors throughout the duration of the program.

Admission Requirements

- Admission to Weber State University and online application for the MSRS Post-Master's Certificate Program.
- Graduate of a regionally accredited master or doctorate academic program in advanced imaging.
- Official transcripts from all institutions attended
- A cumulative graduate GPA of at least 3.0. If the graduate GPA is below 3.0, consideration may be based on GPA calculation on the last 60 semester hours (90 quarter hours) of graduate work.
- Recommendation forms (3).

Program Learning Outcomes

- Understanding the unique aspects of pediatric GI, GU, Respiratory, Musculoskeletal and Neurologic anatomy, and disease processes
- Evaluation of neonatal, infant, and pediatric fluoroscopic imaging studies
- Identification of normal and pathologic radiographic, ultrasonographic, and additional imaging appearance of pediatric body systems
- Understanding of the sedation continuum
- Assisting or performing various pediatric imaging studies that involve sedation
- Support the pre-sedation, procedural, and recovery assessment of patients
- Application of monitoring and care of pediatric patients receiving sedation
- Identification of various sedation medications
- Review of airway maneuvers and the use of airway adjuncts used in the management of airway obstruction
- Identification of common complications and adverse events associated with sedation
- Understanding of pediatric sedation guidelines and regulatory issues
- Constructive evaluation of pediatric imaging procedures
- Management of pediatric imaging emergencies

Required Courses

The program provides integrated didactic instruction with the utilization of imaging simulation. During the course of the program, imaging of the pediatric GI system, GU system, respiratory system, musculoskeletal system, and the neurologic system will be taught. A simulation of imaging procedures relative to each pediatric body system will also be included. Pediatric sedation and physical exam relative to pediatric imaging procedures are also taught in this program.

- MSRS 6507 - Pediatric GI and GU Imaging **Credits: (6)**
- MSRS 6508 - Pediatric Respiratory and Musculoskeletal Imaging **Credits: (6)**
- MSRS 6505 - Pediatric Simulation Imaging I **Credits: (3)**
- MSRS 6506 - Pediatric Simulation Imaging II **Credits: (3)**
- MSRS 6509 - Pediatric Neurologic Imaging **Credits: (3)**
- MSRS 6504 - Pediatric Sedation and Physical Exam **Credits: (3)**

Engaged Learning, Honors, and Interdisciplinary Programs

Weber State University has a long history of engaging students in learning both inside and outside the classroom. Engaged learning fosters intellectual and personal growth, critical thinking, problem solving, civic engagement, and professional and career development opportunities. Students engage with faculty members in small groups or one-on-one, for an intellectually challenging experience that is enhanced by professional and real world application of knowledge.

The Office of Undergraduate Research, the Center for Community Engaged Learning, the Sustainability Practices and Research Center, and Honors Program continue to facilitate the engaged learning of WSU students by collaborating with disciplines across colleges. These programs offer engaged learning opportunities in undergraduate research, community engaged learning, and classes that provide a stimulating, creative and supportive learning environment.

Interdisciplinary programs provide students the opportunity to expand their learning across different subject areas, and contribute to a well-rounded educational experience. Students who want to individualize or create a unique academic program resulting in an interdisciplinary degree can do so through the Bachelor of Integrated Studies program.

Location: Community Education Center, 115

Internet Address: weber.edu/OgdenCAN

The Office of Community Development at Weber State University acts as a catalyst for fostering collaboration and partnerships between anchor institutions and partner organizations that address social determinants of health in education, health, housing and financial stability. The mission includes engaging residents, community leaders, political leaders, students, faculty and staff to develop and implement evidence-based interventions and systemic adaptive changes. Through the evidence-based interventions opportunities are offered to faculty and students to advance their teaching, learning and research agendas in the community (weber.edu/OgdenCAN).

The Office is responsible for developing, facilitating and maintaining critical partnerships for the university with local, regional and national partners and their networks including: The Democracy Collaborative, Coalition of Urban and Metropolitan Universities, Anchor Learning Network, Promise Partnership Regional Council and the United Partnership Council. The Office also leads the university's anchor-mission committees and coordinates with multiple areas of campus including the development of core metrics and business practice improvements related to community wealth building in the areas of hiring, purchasing and investing.

The Ogden Civic Action Network (OgdenCAN) is a program within the Office of Community Development. OgdenCAN is a consortium of anchor institutions, partners, allies and residents that is determined to create comprehensive neighborhood revitalization in the East Central Neighborhood of Ogden, Utah. This initiative is designed to remove barriers, create opportunities, align available resources and provide funding for evidence-based interventions. A Board of Directors is responsible for setting priorities and allocating funds. Weber State University serves as the fiscal agent for OgdenCAN.

Location: Lindquist Hall, Room 252

Telephone: 801-626-6707

The Asian Studies Minor is an interdisciplinary program offered through several WSU Departments. The minor will cooperate with the BIS program to offer an emphasis in Asian Studies. Cooperating Departments and programs include Anthropology, Chinese, English, Foreign Languages, Geography, Health, History, Honors, Japanese, Philosophy, Political Sciences, Sociology, and Visual Arts.

- **Prerequisite Courses:** Completion of first and second-year courses in an Asian language, or equivalent proficiency.
- **Grade Requirements:** A grade of "C" or above in each course used toward the Asian Studies Minor (a grade of C- is not acceptable).
- **Credit Hour Requirements:** A minimum of 18 credit hours in addition to two years of college study of an Asian language, or the equivalent.
- **Program Code:** 7023
- **CIPC:** 050103

Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.

Learning Outcomes

- Students will demonstrate knowledge of diverse philosophical, communicative, linguistic, geographic, historic, or literary traditions in various regions in Asia, as well as of key themes, concepts, issues, and terminology in Asian Studies.
- Students will analyze cultural artifacts of various regions of Asia.
- Students will demonstrate the ability to effectively communicate their understandings of various regions of Asia in written, oral, or graphic forms.
- Students will describe how individual Asian nations influence and are influenced by social contexts, institutions, physical environments, history, and/or global processes.
- Students will apply basic concepts, theories, and/or methods of social science and/or humanities to a particular issue in various regions of Asia.

Course Requirements for Minor

In addition to the following requirements, two years of college study of an Asian language, or equivalent proficiency, must be demonstrated by the student.*

Course Requirements for Minor

Required Courses (18 credit hours)

Select 18 credit hours from at least three of the following departments. No more than 9 credit hours from one department may be applied to the minor.

- ARTH 2040 - Art and Architecture of Asia **Credits: (4)**
- ARTH 3060 - The Art and Architecture of India **Credits: (4)**
- ARTH 3070 - The Art and Architecture of China **Credits: (4)**
- ARTH 3080 - The Art and Architecture of Japan **Credits: (4)**
- ARTH 3100 - The Art and Architecture of the Byzantine and Islamic Worlds **Credits: (4)**
- CHNS 3000 - Proficiency Development **Credits: (3)**
- CHNS 3060 - Grammar & Composition **Credits: (3)**

- CHNS 3116 - DLI Bridge Course I **Credits: (3)**
- CHNS 3117 - DLI Bridge Course II **Credits: (3)**
- CHNS 3118 - DLI Bridge Course III **Credits: (3)**
- CHNS 3320 - Applied Language Studies **Credits: (1-3)**
- CHNS 3550 - Cultural Heritage I **Credits: (3)**
- CHNS 3631 - Literature: Prose **Credits: (3)**
- CHNS 3632 - Literature: Drama **Credits: (3)**
- CHNS 3680 - Literature: Film **Credits: (3)**
- CHNS 3710 - Business Language I **Credits: (3)**
- CHNS 3850 - Study Abroad **Credits: (1-6)**
- CHNS 4830 - Directed Readings **Credits: (1-3)**

- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)** **
- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)** **

- WLC 3420 GLB - Introduction to Translation **Credits: (3)**
- WLC 4860 INT - Foreign Language Internship **Credits: (1-3)**

- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment **Credits: (3)**
- GEOG 3780 - Geographic Area Studies **Credits: (1-3)** **
- GEOG 4800 - Individual Research **Credits: (1-3)** **

- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4550 - Southeast Asian History **Credits: (3)**
- HIST 4570 - Islamic Civilization **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- HIST 4730 - Special Issues and Topics in Global and Comparative History **Credits: (3)** **

- HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East **Credits: (3)**

- JPNS 3060 - Grammar & Composition **Credits: (3)**
- JPNS 3160 - Introduction to Literature **Credits: (3)**
- JPNS 3116 - DLI Bridge Course I **Credits: (3)**
- JPNS 3117 - DLI Bridge Course II **Credits: (3)**
- JPNS 3118 - DLI Bridge Course III **Credits: (3)**
- JPNS 3220 - Phonetics and Phonology **Credits: (3)**
- JPNS 3320 - Applied Language Studies **Credits: (1-3)**
- JPNS 3550 - Cultural Heritage I **Credits: (3)**
- JPNS 3560 - Cultural Heritage II **Credits: (3)**
- JPNS 3570 - Special Topics in Culture **Credits: (3)**
- JPNS 3610 - Literature Survey I **Credits: (3)**
- JPNS 3620 - Literature Survey II **Credits: (3)**
- JPNS 3630 - Literature Poetry **Credits: (3)**
- JPNS 3631 - Literature: Prose **Credits: (3)**
- JPNS 3632 - Literature: Drama **Credits: (3)**
- JPNS 3650 - Literature Periods **Credits: (3)**
- JPNS 3670 - Literature Authors **Credits: (3)**
- JPNS 3710 - Business Language I **Credits: (3)**

- JPNS 3715 - Business Language II **Credits: (3)**
- JPNS 3720 - Language for Specific Purposes I **Credits: (3)**
- JPNS 3730 - Language for Specific Purposes II **Credits: (3)**
- JPNS 3740 - Translation I **Credits: (3)**
- JPNS 3750 - Introduction to Interpreting **Credits: (3)**
- JPNS 3850 - Study Abroad **Credits: (1-6)**
- JPNS 4620 - Survey of Literature I **Credits: (3)**
- JPNS 4630 - Survey of Literature II **Credits: (3)**
- JPNS 4690 - Special Topics in Literature **Credits: (3)**
- JPNS 4740 - Translation II **Credits: (3)**
- JPNS 4830 - Directed Readings **Credits: (1-3)**
- JPNS 4850 - Study Abroad **Credits: (3)**
- KOR 4830 - Directed Readings **Credits: (1-3)**
- PHIL 3550 - Philosophy of Eastern Religion **Credits: (3)**
- SOC 4990 - Seminar in Sociology **Credits: (3)** **
- WGS 2900 - Topics in Women's Studies **Credits: (1-3)** **
- WGS 4900 - Topics in Women's Studies **Credits: (1-3)** **

Note:

*Language proficiency can be demonstrated by completing a fourth semester language course (i. e., CHNS 2020 or JPNS 2020), by taking an upper-division class in an Asian language and earning a "C" grade or better, or with an examination administered through the Foreign Language Department.

**Acceptable when the emphasis and/or content are basically Asian Studies/Language or Middle East Studies/Language.

Should other courses relating specifically to Asia or the Middle East, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as part of the Asian Studies Minor. To be a part of the Asian Studies curriculum, a course must have two-thirds Asian content.

Bachelor of Arts/Science in Interdisciplinary Studies (BIS)

Bachelor of Arts

Interdisciplinary Studies (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Coordinator:** Dr. Susan Matt
- **Location:** Stewart Library, Room 326
- **Telephone Contact:** Beth Thompson 801-626-7713

- **Website:** weber.edu/bis
- **Program Code:** 1016BA with three concentration codes
- **CIPC:** 30.0000

The Bachelor of Arts/Bachelor of Sciences in Interdisciplinary Studies (BIS) is an interdisciplinary degree program that serves the needs of students who want to create a specific academic program, obtain a broad liberal education, prepare for particular career goals, or go to graduate school. The program best suits students who have developed a sense of their educational and life goals, and who are looking for ways to express those values through an individualized university program.

To accomplish these general outcomes, BIS students complete course work in three different disciplines. As a culminating experience, students then synthesize the three areas in a capstone project. The BIS degree option is available to students in good standing at Weber State University with a GPA of 2.5 or above. Students must formally apply for admittance into the BIS program, and must take 15 credit hours in the program after they are accepted.

Program Requirements

- BIS applicants must earn and maintain a 2.5 GPA to graduate with a Bachelors of Arts/Bachelors of Science in Interdisciplinary Studies degree.
- The institution requires that every bachelor's degree candidate earn a total of 120 credit hours, 40 of which must be upper division hours.
- A BIS student can expect to take a minimum of 18 credit hours in each of three areas of emphasis, plus 1 hour for the Introduction to Interdisciplinary Studies and 5 hours for the capstone preparation and project, for a minimum of 60 credits in the BIS program.
- All contract and BIS courses must receive a minimum grade of "C" in order to count towards the BIS degree.
- Only graded classes can be included in the course contract (special exams, CLEP, or credit/no credit may not be included in the BIS contract).
- Courses which are used to satisfy General Education may not be used again in the BIS contract.

Advisement

All prospective students must meet with the BIS Coordinator to plan a course of study, and be admitted into the program. Call 801-626-7713 to schedule an appointment. For more information, see the BIS Web page (weber.edu/bis).

General Education

Refer to Degree Requirements for BA and BS degree requirements. Honors students may elect to fulfill this requirement through the Honors general education option.

Course Requirements for BIS Degree

- BIS 2800 - Foundations of Integrated Studies **Credits: (1)**

Contract of three areas of emphasis: (54 credit hours minimum)

Every BIS student will take a minimum of 18 credit hours in three different academic departments or institutionally recognized disciplines (two of which must offer upper division credit) as approved by the department and the BIS Coordinator. Any change in the course contract must be approved by the chair of the appropriate department and the BIS coordinator.

BIS Capstone and Graduation Preparation Class (3 credit hours)

This class will prepare students to successfully complete the BIS capstone thesis project, and to prepare themselves professionally for careers and graduate school. (Required prerequisite for capstone)

- BIS 3800 - BIS Capstone and Graduation Preparation **Credits: (2)**

BIS Capstone Project: (3 credit hours)

The BIS capstone project gives students the opportunity to integrate their three areas of emphasis into a single thesis. (Required for graduation)

- BIS 4800 - Bachelor of Integrated Studies Senior Capstone **Credits: (3)**

Internship Option

Elective - BIS Internship (1-3 credit hours)

The opportunity to earn 1 to 3 credits for an internship is available to students in the BIS program. Please contact the BIS coordinator for more information.

- BIS 3850 - BIS Internship **Credits: (1-3)**

BIS Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Bachelor of Science

Interdisciplinary Studies (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Coordinator:** Dr. Susan Matt
- **Location:** Stewart Library, Room 326
- **Telephone Contact:** Beth Thompson 801-626-7713
- **Website:** weber.edu/bis
- **Program Code:** 1016BS with three concentration codes
- **CIPC:** 30.0000

The Bachelor of Arts/Bachelor of Sciences in Interdisciplinary Studies (BIS) is an interdisciplinary degree program that serves the needs of students who want to create a specific academic program, obtain a broad liberal education, prepare for particular career goals, or go to graduate school. The program best suits students who have developed a sense of their educational and life goals, and who are looking for ways to express those values through an individualized university program.

To accomplish these general outcomes, BIS students complete course work in three different disciplines. As a culminating experience, students then synthesize the three areas in a capstone project. The BIS degree option is

available to students in good standing at Weber State University with a GPA of 2.5 or above. Students must formally apply for admittance into the BIS program, and must take 15 credit hours in the program after they are accepted.

BIS Departmental Honors

Please see weber.edu/honors/contracts.html for a list of current Departmental Honors contracts and Departmental Honors Advisors. For additional information about the Honors Program, please refer to the Honors Program section of the WSU Catalog.

Emphasis Option for Bachelor of Interdisciplinary Studies

Occupational and Environmental Health and Safety (BIS)

- **Grade Requirements:** C or better is required in the BIS-emphasis courses. Elected credit/no credit courses may not be counted toward BIS-emphasis hours
- **Credit Hour Requirements:** 18 Credits required
- **Program Code:** 1017
- **CIPC:** 15070

The Occupational and Environmental Health and Safety (OEHS) emphasis is the first part of a two part BIS to prepare the students for a professional career in Occupational Health and Safety. The emphasis will provide the student with basics in occupational safety and health, workplace hazard recognition, ergonomics and human factors, workplace health exposures, risk assessment, and management of OEHS programs.

Required Courses

- OEHS 3520 - Introduction to Occupational Safety and Health **Credits: (3)**
- OEHS 3530 - Workplace Hazard Recognition **Credits: (3)**
- OEHS 3540 - Ergonomics and Human Factors **Credits: (3)**
- OEHS 3550 - Workplace Health Exposures **Credits: (3)**
- OEHS 3560 - Managing Occupational Safety & Health Programs **Credits: (3)**
- OEHS 3570 - Risk Assessment and Management **Credits: (3)**

Occupational Safety (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** C or better is required
- **Credit Hour Requirements:** 18 Credits required
- **Program Code:** 1018
- **CIPC:** 15070

The Occupational Safety (SAFE) emphasis builds upon the Occupational and Environmental Health and Safety (OEHS) emphasis to prepare the student for a professional career in Occupational Health and Safety. The SAFE emphasis explores management topics in greater depth for students to become familiar with safety regulations in industry and construction, accident investigation and prevention, fire safety, hazardous materials management, product stewardship and safety, and environmental management.

Required Courses

- SAFE 3610 - Occupational Safety Regulatory and Legal Compliance **Credits: (3)**
- SAFE 3620 - Occupational Safety Incident Investigation and Analysis **Credits: (3)**
- SAFE 3630 - Environmental Management **Credits: (3)**
- SAFE 3640 - Construction Safety **Credits: (3)**
- SAFE 3650 - Fire Safety and Emergency Management **Credits: (3)**
- SAFE 3660 - Hazardous Materials Management **Credits: (3)**

Minor

Occupational and Environmental Health and Safety Minor

- **Grade Requirements:** The student must earn a grade of C or better
- **Credit Hour Requirements:** 21 (6 classes plus 3 hour internship for the OEHS minor).
- **Program Code:** 1017
- **CIPC:** 150701

The minor in OEHS is earned by taking 7 courses, 3 semester hours each for total of 21 hours. There are 6 didactic courses in addition to a practical internship in occupational health and safety. The courses are held at the University of Utah (UU), taught by instructors at the UU. Students will enroll at WSU and pay WSU tuition, with no requirement to be admitted to the University of Utah. Students from both institutions will attend. Courses are taught in blocks in evenings to accommodate student schedules and to make travel more efficient. Distance based attendance is possible for much of the program.

Students that complete the 6 didactic classes and internship will earn the minor in OEHS. This program is exactly the same courses and requirements for a minor in OEHS at the University of Utah. However, WSU students can complete another 6 didactic courses that are proposed separately for Fall 2024 start date to complete the BIS with OEHS emphasis. There is no equivalent pathway at the University of Utah, Utah State University or other public institution in Utah.

Required Courses

- OEHS 3520 - Introduction to Occupational Safety and Health **Credits: (3)**
- OEHS 3530 - Workplace Hazard Recognition **Credits: (3)**
- OEHS 3540 - Ergonomics and Human Factors **Credits: (3)**
- OEHS 3550 - Workplace Health Exposures **Credits: (3)**
- OEHS 3560 - Managing Occupational Safety & Health Programs **Credits: (3)**
- OEHS 3570 - Risk Assessment and Management **Credits: (3)**
- OEHS 3580 - Occupational and Environmental Health and Safety Internship **Credits: (1-3)**

Center for Community Engaged Learning (CCEL)

Executive Director: Dr. Becky Jo Gesteland

Telephone Contact: Ella Mitchell (801) 626-7737

Location: Center for Community Engaged Learning, Shepherd Union, 324

Website: weber.edu/CCEL

The Center for Community Engaged Learning at Weber State University facilitates both curricular and co-curricular community engaged learning experiences. The main mission of the center is to engage students, faculty and staff members in direct service, civic engagement, and community research to promote civic participation, build community capacity, and enhance the educational process. Community engagement describes the collaboration between Weber State University and our larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity (Carnegie Foundation). Courses designated with the Community Engaged Learning (CEL) attribute are designed to provide students with a structured approach to learning and teaching that connects meaningful community experience with intellectual development, personal growth, and active citizenship. CEL enriches coursework by encouraging students to apply the knowledge and analytic tools gained in the classroom to the pressing issues affecting local communities. Therefore CEL is defined as an activity that involves a collaborative, reciprocal relationship with the community that prepares our students, faculty, staff, and alumni to be engaged citizens by strengthening their democratic values and civic responsibility as they address community issues.

Community engaged learning can be facilitated through one of our three pathways: direct service, civic engagement and community research.

Direct Service experiences often involve working directly with community residents to meet an immediate need. Examples of direct service include, but are not limited to: volunteering to serve meals at a homeless shelter, using academic knowledge to develop an electronic food-monitoring database for a food pantry, serving as a mentor or tutor in a local school or youth development program, cleaning up the banks of the Ogden River, or coaching a city youth sport.

Civic engagement experiences often involve raising awareness about issues of public concern and working more systematically through both political and non-political processes to create change. Examples of civic engagement include, but are not limited to: attending organized discussions about pollution; community organizing; writing a letter to an elected official; engaging others in the process of deliberative democracy; or producing information about community issues.

Community research experiences often involve gathering information *with* and *for* community organizations to solve a pressing community problem or create change. Examples of community research include, but are not limited to: community needs assessment survey; water quality or scientific assessment; or program evaluation for non-profit organizations.

Regardless of the type of community engaged learning experience, students are expected to acquire four CEL outcomes through their experiences: civic knowledge, civic skills, civic values, and civic action. Student learning outcomes, definitions, and measurement rubrics can be found at www.weber.edu/CCEL.

Courses

Community engaged learning is not specific to any one discipline; in fact, CEL courses exist in many disciplines across campus. For example, an Athletic Training class incorporates a service component wherein students are utilizing their knowledge and skills gleaned from class to serve patrons at a local free medical clinic.

Community Engaged Learning courses are designated with the CEL attribute and are listed in the course schedule published online each semester.

Ethnic Studies Program

European Studies Minor Program

Minor

European Studies Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

Coordinator: Dr. Kacy Peckenpaugh

Location: Elizabeth Hall, Room 420

Telephone: 801-626-6345

The European Studies Minor is an interdisciplinary program offered through several WSU departments. Students wishing to minor in European Studies must have their course selection approved by the program coordinator.

- **Grade Requirements:** A grade of "C" or better in each course used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 18 credit hours in addition to two years of college study (or the equivalent) of a European language. Courses taken which are part of the student's major will not count as fulfillment of the minor requirement. Of the total 18 credit hours, only six may be taken in the same department.
- **Program Code:** 3036
- **CIPC:** 050106

Advisement

All students electing the minor are required to meet with the coordinator for approval of all courses to be counted toward fulfillment of the requirements. The coordinator will ascertain that the individual courses selected are eligible to be counted, and that together they form a coherent curriculum of sufficient breadth.

Course Requirements for Minor

The following are required in addition to two years of college study in a European language other than the student's native language, or equivalent proficiency to be demonstrated by the student.

Core requirements (6 credit hours)

Two courses (six credit hours) from the following; courses may not be from the same department:

- WLC 3320 - Applied Language Studies **Credits: (1-3)**
Approved titles offered under FL 3320 are: European Language & Society and European Culture & Community
- HIST 4220 - History of the Middle Ages 300-1300 **Credits: (3)**
- HIST 4230 - Renaissance and Reformation - Europe: 1300-1660 **Credits: (3)**
- HIST 4240 - Absolutism, Enlightenment and Revolution - Europe: 1660-1815 **Credits: (3)**
- HIST 4250 - Nineteenth-Century Europe **Credits: (3)**
- HIST 4260 - Europe in the Age of Total War **Credits: (3)**
- HIST 4280 - History of Christianity in Europe **Credits: (3)**
- GEOG 3590 - Geography of Europe: the Land and People who Built a World Power **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**

Elective requirements (12 credit hours)

Select twelve additional credit hours from the following programs and departments as approved by the program coordinator: Anthropology, Communication, English, Foreign Language, Performing Arts, Business & Economics, Geography, History, Political Science, Philosophy, Sociology, Honors. Courses selected and approved from these departments must have explicit European emphasis and content.

Environmental Studies Minor Program (see Geography)

Emphasis Option for Bachelor of Interdisciplinary Studies

Environmental Studies (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Code:** 3063
- **CIPC:** 030104

The Environmental Studies Minor is an interdisciplinary degree that focuses on the work of science in human activity. The curriculum is rooted in science to ground factual knowledge. However, its trunk is solidly comprised of social science and humanities courses because they teach the application of science in policy-making, business decisions and historical precedent even as they call upon the arts for their expression and upon ethics in consideration of health and social justice issues. The minor reaches across campus because all disciplines play an essential role in shaping environmental thought and action.

Honors Program

Director: (801) 626 6186
Honors Program Coordinator: (801) 626-7591
Administrative Specialist: (801) 626-6230
Location: Stewart Library, Room 324
Website: weber.edu/honors

Honors classes are not harder, just better! We hear this from students in the program all the time. The professors who teach in Honors come from every department and discipline on campus, but they design custom courses for Honors. All of our classes are small, discussion-based, and interdisciplinary. When you take an Honors class, you join faculty and students who think critically and creatively about big ideas and consequential issues. Your learning will be deep and expansive.

Beyond the classroom experience, the Honors Center offers a space to relax and recharge. You'll find that the staff know you and care genuinely about your success.

We don't have restrictions on who can join Honors. If you want to learn, you belong. If you want to be challenged intellectually and inspired, you belong. If you want a meaningful college experience, this program is for you

Mission Statement

The WSU Honors Program is a home to all for intellectually curious and academically adventurous inquisitive students, faculty, and staff. Honors Provides supportive, high-quality interdisciplinary experiences for intellectual and affective development, for academic and cultural expansion. We build habits of learning that support and sustain lifelong engagements with complex questions, issues, and ideas.

Entrance and Exit Requirements

Entrance:

A student may enroll in the Honors Program at any time after enrolling at formal acceptance by the Weber State University Admissions Office and before completion of their final semester. However, in order to take advantage of the many options available, early entrance is recommended. There is not a GPA requirement to join. There are no fees, dues, or pre-requisites.

Exit:

Students must notify their Honors advisor to finalize their Honors contract prior to the fall or spring break of anticipated graduation. Students may view Honors advisors and enroll via the Honors Portal accessible through the eWeber portal or at weber.edu/honors.

Honors Designations

The Honors Program offers three types of Honors designation: Foundation, University and Departmental Honors. Requirements for each are described below.

Foundation Honors

Foundation Honors is available to students earning an associate's or a bachelor's degree, with a GPA of 3.3 or above at time of graduation.

Students must successfully complete 10 credit hours of Honors classes. Check out weber.edu/honors/courses for upcoming classes and weber.edu/honors/requirements for requirements. Contact honors@weber.edu for questions.

University Honors

University Honors is available to students earning an associate's or bachelor's degree, with a GPA of 3.3 or above at time of graduation.

Students must successfully complete 15 credit hours of Honors classes. Check out weber.edu/honors/courses for upcoming classes weber.edu/honors/requirements for requirements. Contact honors@weber.edu for questions.

Departmental Honors

Departmental Honors is available to students majoring in departments with designated Departmental Honors contracts. Specific requirements for participating departments are found in these contracts. Please see the list of current Departmental Honors contracts and Departmental Honors Advisors.

Official recognition for the completion of an Honors designation is subject to timely finalization of the Honors contract as coordinated by the student and verified by the Departmental Honors advisor, and Honors Program Coordinator.

Recognition of the designation will be made on the graduating Honors student's transcript and diploma and will also be entered into the university's commencement program. In the event a student completes Departmental Honors in more than one department, notation of each will be made on the transcript, diploma, and commencement program.

Honors, University

Honors Program: Foundation Honors Requirements

Honors Program Course-Based Learning Outcomes

- Students will demonstrate critical thinking that is curious, open-minded, persistent, and interrogative.
- Students will analyze familiar cultural assumptions and views in context of the world's diverse values, traditions, and belief systems.
- Students will adapt and apply ideas, concepts, skills, methodologies, and/or theories across disciplines.
- Students will write and communicate in clear and compelling ways.

Foundation Honors Requirements

Select one of the following 3-credit intro-level courses:

- HNRS 1110 HU - Introduction to Honors **Credits: (3)**
- HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras **Credits: (3)**
- HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era **Credits: (3)**
- HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East **Credits: (3)**

Additional Required courses

Select one of the following 1-credit course required options:

- HNRS 2830 - Directed Readings, Projects, and Research **Credits: (1-3)**
- HNRS 2900 - Honors Colloquium **Credits: (1-3)**
- HNRS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

And finally, select a total of 6 credit hours from any of the following courses:

Please note that not every course listed is taught this semester. To find the current listing of courses offered in your desired semester, check out weber.edu/honors/courses to see offerings, descriptions, dates, times, and professors.

- HNRS 1110 HU - Introduction to Honors **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- HNRS 1520 SS - Perspectives in the Social Sciences **Credits: (3)**
- HNRS 1530 CA - Perspectives in the Creative Arts **Credits: (3)**
- HNRS 1540 HU - Perspectives in the Humanities **Credits: (3)**
- HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities **Credits: (3)**
- HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts **Credits: (3-6)**
- HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences **Credits: (3)**
- HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences **Credits: (3)**
- HNRS 2050 SS/CRE - Exploring Key Concepts in the Disciplines: Social Science **Credits: (3)**
- HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras **Credits: (3)**
- HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era **Credits: (3)**
- HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East **Credits: (3)**
- HNRS 2830 - Directed Readings, Projects, and Research **Credits: (1-3)**

- HNRS 4990 - Honors Senior Project **Credits: (1-3)**

Honors Program: University Honors Requirements

Honors Program Course-Based Learning Outcomes

- Students will demonstrate critical thinking that is curious, open-minded, persistent, and interrogative.
- Students will analyze familiar cultural assumptions and views in context of the world's diverse values, traditions, and belief systems.
- Students will adapt and apply ideas, concepts, skills, methodologies, and/or theories across disciplines.
- Students will write and communicate in clear and compelling ways.

University Honors Requirements

First, complete Foundation Honors.

- HNRS 1110 HU - Introduction to Honors **Credits: (3)**
- HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras **Credits: (3)**
- HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era **Credits: (3)**
- HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East **Credits: (3)**

Then, Complete the following requirements not already taken with Foundation Honors:

Select 3 credits of any course:

- HNRS 1110 HU - Introduction to Honors **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- HNRS 1520 SS - Perspectives in the Social Sciences **Credits: (3)**
- HNRS 1530 CA - Perspectives in the Creative Arts **Credits: (3)**
- HNRS 1540 HU - Perspectives in the Humanities **Credits: (3)**
- HNRS 2010 HU - Exploring Key Concepts in the Disciplines: Humanities **Credits: (3)**
- HNRS 2020 CA - Exploring Key Concepts in the Disciplines: Creative Arts **Credits: (3-6)**
- HNRS 2030 PS - Exploring Key Concepts in the Disciplines: Physical Sciences **Credits: (3)**
- HNRS 2040 LS - Exploring Key Concepts in the Disciplines: Life Sciences **Credits: (3)**
- HNRS 2050 SS/CRE - Exploring Key Concepts in the Disciplines: Social Science **Credits: (3)**
- HNRS 2110 HU/SS - Intellectual Traditions: Great Ideas of the West in the Classical and Medieval Eras **Credits: (3)**
- HNRS 2120 HU/SS - Intellectual Traditions: Great Ideas of the West in the Modern Era **Credits: (3)**
- HNRS 2130 HU/SS - Intellectual Traditions: Great Ideas of the East **Credits: (3)**
- HNRS 2830 - Directed Readings, Projects, and Research **Credits: (1-3)**
- HNRS 2900 - Honors Colloquium **Credits: (1-3)**
- HNRS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- HNRS 3110 - Great Books **Credits: (3)**
- HNRS 3900 - Honors Colloquium **Credits: (3)**
- HNRS 4830 - Directed Readings: Senior Project Research **Credits: (1-3)**
- HNRS 4990 - Honors Senior Project **Credits: (1-3)**

Take an additional 1-credit group discussion course:

- HNRS 2830 - Directed Readings, Projects, and Research **Credits: (1-3)**
- HNRS 2900 - Honors Colloquium **Credits: (1-3)**
- HNRS 2920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

Finish University Honors With:

Finish University Honors with HNRS 4990. This course is named "Trajectories" and is a reflective portfolio course.

- HNRS 4990 - Honors Senior Project **Credits: (1-3)**

Interdisciplinary Center for Applied Research

Latin American Studies Minor Program

Minor

Latin American Studies Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

Coordinator: Dr. Isabel Asensio

Location: Elizabeth Hall, 230

Telephone: 801-626-6777

The Latin American Studies Minor is an interdisciplinary program offered through a number of cooperating departments and programs including Foreign Languages, History, Geography, Political Science and Philosophy, Psychology, Sociology, Anthropology, Child and Family Studies, English, and Women Studies.

- **Grade Requirements:** A grade of "C" or better in each course used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 18 credit hours in addition to two years of college Portuguese or Spanish or their equivalent.
- **Program Code:** 3000
- **CIPC:** 050107

Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.

Course Requirements for Minor in Latin American Studies

The following are required in addition to two years of college study in Portuguese or Spanish or equivalent proficiency to be demonstrated by the student. Select 18 credit hours chosen from at least three of the following departments.

Child & Family Studies

- FAM 4300 - Latino Child and Family Development **Credits: (3)**

World Languages and Cultures

- SPAN 3060 - Grammar & Composition **Credits: (3)** or
- PTGS 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)** or
- PTGS 3160 - Introduction to Literature **Credits: (3)**
- SPAN 3320 - Applied Language Studies **Credits: (1-3)** or
- PTGS 3320 - Applied Language Studies **Credits: (1-3)**

- SPAN 3360 - Advanced Grammar **Credits: (3)** or
- PTGS 3360 - Advanced Grammar **Credits: (3)**
- SPAN 3540 - Latin American Environment and Cultures **Credits: (3)** or
- PTGS 3540 - Latin American Environment and Cultures **Credits: (3)**
- SPAN 3550 GLB - Cultural Heritage of Spain **Credits: (3)** or
- PTGS 3550 - Cultural Heritage I **Credits: (3)**
- SPAN 3560 - Cultural Heritage of Latin America **Credits: (3)** or
- PTGS 3560 - Cultural Heritage II **Credits: (3)**
- SPAN 3610 - Peninsular Literature I **Credits: (3)** or
- PTGS 3610 - Literature Survey I **Credits: (3)**
- PTGS 3620 - Literature Survey II **Credits: (3)** or
- SPAN 3620 - Peninsular Literature II **Credits: (3)**
- PTGS 3710 - Business Language I **Credits: (3)** or
- SPAN 3710 - Business Language I **Credits: (3)**
- PTGS 3720 - Language for Specific Purposes I **Credits: (3)** or
- SPAN 3720 CEL - Medical Spanish I **Credits: (3)**
- PTGS 3730 - Language for Specific Purposes II **Credits: (3)** or
- SPAN 3730 CEL - Spanish for Specific Purposes **Credits: (3)**
- PTGS 3740 - Translation I **Credits: (3)** or
- SPAN 3740 - Translation I **Credits: (3)**
- SPAN 4690 - Special Topics in Literature **Credits: (3)**
- PTGS 3715 - Business Language II **Credits: (3)** or
- SPAN 4710 - Business Language II **Credits: (3)**
- PTGS 4740 - Translation II **Credits: (3)** or
- SPAN 4740 - Translation II **Credits: (3)**
- PTGS 4850 - Study Abroad **Credits: (3)** or
- SPAN 4850 - Study Abroad **Credits: (3)**
- SPAN 3615 - Latin American Literature I **Credits: (3)**
- SPAN 3625 - Latin American Literature II **Credits: (3)**
- SPAN 3630 - Literature Poetry **Credits: (3)**
- SPAN 3650 - Literature Periods **Credits: (3)**
- SPAN 3670 - Literature Authors **Credits: (3)**
- SPAN 3690 - Special Topics in Literature **Credits: (1-3)**
- SPAN 4830 - Directed Readings **Credits: (1-3)**

- PTGS 3570 - Special Topics in Culture **Credits: (3)**
- PTGS 3850 - Study Abroad **Credits: (1-6)**

English

- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)** **

History

- HIST 3050 - History of U.S. Latinos **Credits: (3)**
- HIST 4410 - History of Spain and Portugal **Credits: (3)**
- HIST 4630 - Latin American History: Pre-Columbian to Independence **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**
- HIST 4670 - History of Mexico **Credits: (3)**
- HIST 4830 - Directed Readings **Credits: (1-3)** **

Geography

- GEOG 3540 - Geography of Latin America and the Caribbean **Credits: (3)**
- GEOG 4800 - Individual Research **Credits: (1-3)** **
- GEOG 4950 - Advanced Regional Field Studies or Field Trips **Credits: (1-3)** **

Political Science

- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)** **
- POLS 4830 - Directed Readings **Credits: (3)** **
- POLS 4990 - Senior Seminar/Senior Thesis **Credits: (3)** **

Anthropology

- ANTH 3600 - Culture Area Studies **Credits: (1-3)** **
- ANTH 4830 INT - Readings and/or Projects **Credits: (1-3)** **

Note:

*** Acceptable when the emphasis and content are basically Latin American.*

Should other courses relating specifically to Latin America, either of an experimental or of a permanent nature, be added to the curriculum, these courses will be accepted as part of the Latin American Studies Minor Program. Should such courses be part of an academic area not listed above, the new academic area will be added to those presently constituting the Latin American Studies Minor.

Legal Studies Minor Program

Minor

Legal Studies Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

Contact: Dr. Richard Price

Office: Lindquist Hall 146

Website: richardprice@weber.edu

Phone: 801-626-6694

The Legal Studies Minor Program introduces students to the study of law in society from a broad, interdisciplinary perspective.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" will not be accepted).
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** 7025
- **CIPC:** 229999

Course Requirement for Minor

Core Course Required (3 credit hours)

- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)**

Additional Courses Required (15 credit hours)

Students must take 15 additional hours with at least two courses from each area. No more than 6 hours (excluding the core requirement) may be lower division. No more than 6 hours (excluding the core requirement) may be taken in any one discipline.

Area I: Contextualizing the Law

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2270 - Argumentation and Debate **Credits: (3)**
- CJ 3270 - Theories of Crime and Delinquency **Credits: (3)** or
- SOC 3270 - Criminology **Credits: (3)**
- CJ 4000 - Critical Legal Studies **Credits: (3)**
- CJ 4065 - Law and Society **Credits: (3)** or
- SOC 4270 - Law and Society **Credits: (3)**
- ECON 1010 SS - Economics as a Social Science **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)** or
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**

- HIST 3210 - U.S. Constitutional History **Credits: (3)**
- PHIL 1250 HU - Critical Thinking **Credits: (3)** or
- PHIL 2200 - Deductive Logic **Credits: (3)**
- PHIL 3200 - Philosophy of Democracy **Credits: (3)**
- PHIL 4600 - Ethical Theory **Credits: (3)**
- POLS 1100 AI - American National Government **Credits: (3)**
- POLS 3330 - American Political Thought: Contemporary **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**
- POLS 4620 - The U.S. Supreme Court **Credits: (3)**
- POLS 4640 - American Presidency **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**
- PSY 3850 - Forensic Psychology **Credits: (3)**
- WGS 3050 - Introduction to Feminist Theories 1700 -- Present **Credits: (3)**
- HIST 3220 - History of the Bill of Rights **Credits: (3)**

Area 2: Law Courses

- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- FAM 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- CJ 1330 - Criminal Law and Courts **Credits: (3)**
- CJ 2350 - Laws of Evidence **Credits: (3)**
- CJ 4165 - Constitutional Rights **Credits: (3)**
- CJ 4700 - International Criminal Justice **Credits: (3)**
- PHIL 3250 - Philosophy of Law **Credits: (3)**
- POLS 3400 - LGBTQ Politics **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**
- POLS 4030 - Constitutional Law: Rights **Credits: (3)**
- POLS 4100 - Free Speech **Credits: (3)**
- POLS 4180 GLB - International Law and Organization **Credits: (3)**

Note:

Other courses may be approved by the program director on an individual basis.

Library Teaching & Information Services Department

- **Dean of the Library:** Wendy Holliday
- **Location:** Stewart Library, Room 108A
- **Telephone:** Cathy Christensen 801-626-6405
- **Head of Teaching and Information Services:** Nicole Beatty
- **Telephone:** 801-626-7034

Professors: Shaun Adamson, Wade Kotter; **Associate Professors:** Nicole Beatty, Jason Francis, Edward Hahn; **Assistant Professors:** Ernesto Hernandez, Miranda Kispert, Sarah Langsdon, Diana Meiser, Jamie Weeks

To be successful in a global information society, students must understand how to identify, locate, and critically evaluate information. The Library Teaching & Information Service Department provides instruction and assistance that enable students to effectively access and utilize digital and print information resources to meet their academic, professional and life-long learning needs.

Linguistics Minor Program

Minor

Linguistics Minor/BIS

This program has been suspended pending formal discontinuance and is no longer accepting new students.

Coordinator: John C. Trimble

Location: Elizabeth Hall, Room 422

Telephone: 801-626-6780

The Linguistics Minor is an interdisciplinary program that introduces students the scientific study of language as a complement to a broad range of majors.

- **Grade Requirements:** A grade of "C" or better is required for all courses used toward the minor (a grade of "C-" is not acceptable.)
- **Credit Hour Requirements:** A total of 18.5 credit hours is required for this minor.
- **Program Code:** 3057
- **CIPC:** 239999

Course Requirements for Minor

1. Foundation Course (3 credit hours)

- ENGL 3010 - Introduction to Linguistics **Credits: (3)**

2. Language Structures Course (3-4 credit hours)

Select one of the following

- CS 4110 - Concepts of Formal Languages and Algorithms for Computing **Credits: (4)**

- ENGL 3030 - Structure of English **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- PHIL 2200 - Deductive Logic **Credits: (3)**
- FRCH 3220 - Phonetics and Phonology **Credits: (3)** or
- GRMN 3220 - Phonetics and Phonology **Credits: (3)** or
- JPNS 3220 - Phonetics and Phonology **Credits: (3)** or
- PTGS 3220 - Phonetics and Phonology **Credits: (3)** or
- SPAN 3220 - Phonetics and Phonology **Credits: (3)**
- FRCH 3360 - Advanced Grammar **Credits: (3)** or
- GRMN 3360 - Advanced Grammar **Credits: (3)** or
- JPNS 3360 - Advanced Grammar **Credits: (3)** or
- PTGS 3360 - Advanced Grammar **Credits: (3)** or
- SPAN 3360 - Advanced Grammar **Credits: (3)**

3. Sub-Disciplines and Applications of Linguistics Courses (11-12 credit hours)

Select from the following

- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- CS 4500 - Introduction to Artificial Intelligence **Credits: (4)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- EDUC 4250 - Second Language Acquisition: Theories and Implementation **Credits: (3)**
- EDUC 4270 - Literacy Strategies for Teaching English Language Learners **Credits: (3)**
- ENGL 3040 - History of the English Language **Credits: (3)**
- ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual **Credits: (3)**
- ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers **Credits: (3)**
- ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)**
- WLC 3320 - Applied Language Studies **Credits: (1-3) ***
- PSY 3450 - Psychology of Language **Credits: (3)**
- LING 4830 - Directed Readings in Linguistics **Credits: (1-3)**
- LING 4900 - Variable Topics in Linguistics **Credits: (1-3)**

Note:

** "Applied Language Studies" shall be understood to include any version of WLC 3320 whose linguistic content is at least 50%. The coordinator of the minor will make that determination in consultation with the chair of Foreign Languages and the Linguistics Minor Committee.*

4. Senior Reflection (.5 credit hours)

- LING 4990 - Centering Experience **Credits: (.5)**

Note:

Students may take no more than eight hours with the same prefix (beyond the Foundations course).

Neuroscience Minor Program

Minor

Neuroscience Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

Neuroscience is the interdisciplinary scientific study of the central and peripheral nervous systems in an effort to understand the biological basis of behavior, thinking, emotion, memory, and perception.

- **Credit Hour Requirements:** A minimum of 18 credit hours as described below.
- **Grade Requirements:** A grade of "C" or better in courses used toward the Minor (a grade of "C-" is not acceptable). Two courses with the "NEUR" prefix must be completed. Courses cannot count for both your major and the Neuroscience minor if they are required for your major (the 18 credits for the Neuroscience minor must be unique with the exception of ZOOL 3300 - Genetics).
- **Program Code:** 7044
- **CIPC:** 261599

Advisement

For advisement, contact the Neuroscience Program Director who will help you select courses that will compliment your major.

- **Director:** Dr. Aminda O'Hare, 801-626-6729
- **Location:** Lindquist Hall 391
- **Telephone Contact:** Roe Schoof, 801-626-6293

Requirements

To complete the Neuroscience Minor, the student must complete a minimum of 18 credit hours as follows: a) Introduction to Neuroscience (NEUR 2950), b) one course each from the three content areas (Cognitive/Behavioral, Cellular/Molecular, and Clinical/Medical), c) 6 credits of electives, and d) one science lab course. Students are required to complete at least 2 NEUR-prefix courses (one is NEUR 2950).

With approval of the Neuroscience Program Director and the applicable Department Chair, students may apply credits from one of the required courses of either Area 3 or Area 5 towards both their minor and major to offset the number of prerequisites necessary for courses in these areas. Only one course total may be applied to the minor and major, and only after the appropriate approvals have been received.

1. Foundation Course

- NEUR 2950 - Introduction to Neuroscience **Credits: (3)**

2. Cognitive and Behavioral Area

Select one of the following courses:

- NEUR 3750 - Cognitive and Behavioral Neuroscience **Credits: (3)**
- PSY 3730 - Perception **Credits: (3)**

3. Cellular and Molecular Area

Select one of the following courses:

- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3075 - Biochemistry I Lab **Credits: (1)**
- NEUR 3950 - Cellular and Molecular Neuroscience **Credits: (3)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**

4. Clinical and Medical Area

Select one of the following courses:

- HTHS 2240 - Introduction to Pharmacology **Credits: (3)**
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**
- NEUR 3850 - Clinical Neuroscience **Credits: (3)**
- PSY 3740 - Neuropsychopharmacology **Credits: (3)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**

5. Electives

Select six (6) credit hours from the following options:

- BTNY 2600 - Laboratory Safety **Credits: (1)** or
- CHEM 2600 - Laboratory Safety **Credits: (1)** or
- GEO 2600 - Laboratory Safety **Credits: (1)** or
- PHYS 2600 - Laboratory Safety **Credits: (1)** or
- MICR 2600 - Laboratory Safety **Credits: (1)**
- ANTH 1020 LS/SUS - Biological Anthropology **Credits: (3)**
- ANTH 1040 HU/CC - Language and Culture **Credits: (3)**
- BTNY 2303 - Ethnobotany **Credits: (3)**
- CHEM 1120 - Elementary Organic Bio-Chemistry **Credits: (4)** and
- CHEM 1125 - Elementary Organic Bio-Chemistry Lab **Credits: (1)**
- CHEM 1130 PS - Introduction to General, Organic & Biochemistry **Credits: (4)** and
- CHEM 1135 - Introduction to General, Organic & Biochemistry Lab **Credits: (1)**
- CHEM 2310 - Organic Chemistry I **Credits: (4)** and

- CHEM 2315 - Organic Chemistry I Lab **Credits: (1)**
- CHEM 2320 - Organic Chemistry II **Credits: (4)** and
- CHEM 2325 - Organic Chemistry II Lab **Credits: (1)**
- CHEM 3070 - Biochemistry I **Credits: (3)**
- CHEM 3080 - Biochemistry II **Credits: (3)**
- CHEM 3090 - Biochemical Techniques **Credits: (1)**
- CHEM 4250 CRE - Medicinal Chemistry **Credits: (3)**
- CS 4500 - Introduction to Artificial Intelligence **Credits: (4)**
- EET 1110 - Basic Electronics **Credits: (2)**
- AVET 4040 - Signals and Systems **Credits: (4)**
- HLTH 3100 - Applications of Technology in Health Promotion **Credits: (3)**
- HLTH 3160 - Principles of Health Behavior **Credits: (3)**
- HLTH 4013 - Health Promotion Research and Assessment **Credits: (3)**
- HTHS 1101 - Medical Terminology **Credits: (2)**
- HTHS 2110 LS - Integrated Human Anatomy and Physiology I **Credits: (4)** and
- HTHS 2111 - Integrated Human Anatomy and Physiology II **Credits: (4)**
- HTHS 2230 - Introductory Pathophysiology **Credits: (3)**
- HTHS 2240 - Introduction to Pharmacology **Credits: (3)** or
- HTHS 3240 - Pharmacology Principles and Clinical Applications **Credits: (3)**
- MICR 3254 - Immunology **Credits: (4)**
- MICR 3305 - Medical Microbiology **Credits: (5)**
- MICR 4154 - Microbial Genetics **Credits: (4)**
- MICR 4253 - Cell Culture **Credits: (3)** (*crosslisted with BTNY*)
- MICR 4554 - Virology **Credits: (4)**
- MLS 1113 - Introduction to Medical Laboratory Practices **Credits: (4)**
- MLS 4803 CRE - Research Projects in Medical Laboratory Sciences I **Credits: (2)**
- MLS 4804 CRE - Research Projects in Medical Laboratory Sciences II **Credits: (2)**
- NEUR 4800 CRE - Projects and Research **Credits: (1-3)**
- NEUR 4830 - Directed Readings **Credits: (1-3)**
- NEUR 4900 - Topics in Neuroscience **Credits: (1-3)**
- NEUR 4949 - The Neuroscience of Sex, Romance, and Gender **Credits: (3)** (*Crosslisted with QS*)
- PHIL 3350 - Medical Ethics **Credits: (3)**
- PHYS 3190 CRE - Applied Optics **Credits: (3)**
- PHYS 3410 - Electronics for Scientists **Credits: (4)**
- PHYS 3420 - Data Analysis, Statistics, and Instrumentation **Credits: (3)**

- PSY 2710 - Biopsychology **Credits: (3)**
- PSY 2830 CRE - Directed Readings **Credits: (1-3)** (3 credit hours required)
- PSY 3240 - The Psychology of Drug Use and Abuse **Credits: (3)**
- PSY 3730 - Perception **Credits: (3)**
- PSY 3740 - Neuropsychopharmacology **Credits: (3)**
- PSY 4800 INT CRE - Projects and Research **Credits: (1-3) ‡**
- PSY 4830 INT CRE - Directed Readings **Credits: (1-3) ‡**
- PSY 4900 - Selected Topics in Psychology **Credits: (2-3) ‡**
- PSY 4910 - Senior Thesis **Credits: (3) ‡**

- ZOOL 2320 - Human Anatomy **Credits: (4)**
- ZOOL 2420 LS - Human Physiology **Credits: (4)**
- ZOOL 3200 - Cell Biology **Credits: (4)**
- ZOOL 3300 - Genetics **Credits: (4)**
- ZOOL 3600 - Comparative Physiology **Credits: (4)**
- ZOOL 4050 - Comparative Vertebrate Anatomy **Credits: (4)**
- ZOOL 4100 - Vertebrate Embryology **Credits: (4)**
- ZOOL 4120 - Histology **Credits: (4)**
- ZOOL 4220 - Endocrinology **Credits: (4)**
- ZOOL 4300 - Research Applications in Genetics **Credits: (4)**
- ZOOL 4350 - Animal Behavior **Credits: (4)**
- ZOOL 4800 - Research in Zoology **Credits: (1-4) ‡**
- ZOOL 4830 - Readings in Zoology **Credits: (1-4) ‡**
- ZOOL 4700 - Topics in Zoology **Credits: (1-4) ‡**
- NEUR 4444 - Human Neuroanatomy **Credits: (3)**

‡Note:

Courses denoted with ‡ must have a significant neuroscience focus in order to qualify as an elective towards the neuroscience minor. Approval by the Neuroscience Program Director is required in advance.

Area 6: Lab Requirement

Students must complete at least one science lab course (in any subject) to complete the neuroscience minor. This can be included as part of a course or as a separate lab course.

Area 7: Graduation Sign Off

Students must meet with the program director.

Office of Undergraduate Research (OUR)

Director: Therese Cavlovic

Telephone Contact: Erin Kendall (801) 626-8541

Location: Stewart Library, 318
Internet Address: weber.edu/OUR

Weber State University offers undergraduates the opportunity to work directly with faculty on projects that involve research, scholarly and creative activities. These projects are designed and implemented by students with the support and guidance of WSU faculty. Undergraduate research, and scholarly and creative activities must include:

- inquiry, study or investigation of a question or problem;
- methodology, including safety and ethical practices, appropriate to the discipline;
- relevant, meaningful, and engaging intellectual or creative contribution and/or application to the discipline which is of high-quality and which results in a tangible product (abstract, paper, performance, object) which can be shared or disseminated; and
- on-going supervision and mentoring by individuals with appropriate expertise.

Undergraduate research has long been an important part of the college experience at Weber State University. The Office of Undergraduate Research (OUR) supports students by offering grants for research and travel for dissemination of results; scholarships for a research fellowship program; and financial support for summer research opportunities for students and their mentors. OUR publishes *Ergo*, WSU's undergraduate research journal, sponsors the fall research and engagement symposium, and is a key stakeholder in the spring research and engagement symposium.

Students can enroll in courses with the CRE (curriculum based research experience) attribute. The CRE attribute will be included on the student's transcript along with their course credit. In addition, students can receive recognition on their transcripts (under non-credit course section) with the CRE attribute by participating in a co-curricular undergraduate research experiences.

Sustainability Practices for Research Center (SPARC)

Director: Dr. Alice Mulder
Telephone Contact: Bonnie Christiansen(801) 626-6326
Location: Stewart Library 147

Mission Statement

The mission of the Weber State University Sustainability Practices and Research Center is to inform and educate WSU students, faculty, staff and the local and statewide community in order to ensure the sustainability of our region and our world for future generations. The Center serves as a hub to connect campus activities, programs, departments and community partners in order to advance a commitment to sustainability on campus and in the region. It facilitates curricular and co-curricular learning experiences related to sustainability toward the goals of both understanding and working to address the sustainability challenges of our time.

Sustainability at WSU

Weber State is committed to sustainability education and to sustainability in its own operations and practices on its campuses. We are all global and local citizens, intricately interconnected to both natural and human systems.

"Sustainability" is considered at Weber State in an inclusive, holistic sense, recognizing that that environmental, social, and economic health are interdependent and interconnected in both simple and complex ways. Below is WSU's general curriculum-focused definition of sustainability (approved by the Environmental Initiatives Committee (EIC) in 2010):

At Weber State University the goal of sustainability education is for students to gain knowledge and understanding of the intricate linkages between human and natural systems. This includes a recognition that healthy human societies (physically, socially, culturally, politically, and economically) are fundamentally dependent on healthy ecosystems and the sustainable use of natural resources, such that they are available indefinitely for future generations to meet their needs. Included in this goal is for students to learn how to achieve sustainability across these areas.

Learning about the concepts, challenges and potential solutions for sustainability can occur in classes and departments across the university. Many disciplines consider and address issues pertinent to sustainability such as anthropology, automotive technology, botany, construction management, earth science, economics, electrical engineering technology, English, geography, graphic arts, history, interior design, nursing, nutrition, philosophy, political science, physics, sociology, zoology, and many others.

Sustainability Course Designation

The SUS designation on courses stands for "sustainability" and indicates that a course involves some sustainability components, which aim to both further students' understanding of and ability to address real world sustainability challenges. As noted above, sustainability is defined in a pluralistic and inclusive way, encompassing human and ecological health, social justice, secure livelihoods, and a better world for all generations. Learning about sustainability in an array of courses across the curriculum will increase students' awareness and comprehension that healthy human societies are fostered and supported through a complex web of interconnections between their physical, social and economic dimensions.

To see a list of courses that either focus on or include some component related to sustainability (e.g., a case study, module, readings) please visit <https://www.weber.edu/sustainability/courses>.

Urban and Regional Planning Emphasis

Emphasis Option for Bachelor of Interdisciplinary Studies

Urban and Regional Planning Emphasis (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

Coordinator: Dr. Bryan Dorsey

Location: Lindquist Hall 363

Telephone: 801-626-6944

This program provides a special emphasis in Urban and Regional Planning for majors in Botany, Sociology, Geography, Geosciences, Microbiology, Politics, Economics, Zoology, and related fields. The planning emphasis offers students a background in planning by adding a set of core courses to the major of their choice. This allows each student to pursue his discipline and still gain a general understanding of the field of planning.

- **Grade Requirements:** A grade of "C" or better is required for all courses in Urban and Regional Planning (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 18 credit hours.
- **Program Code:** 7037
- **CIPC:** 451201

Urban and Regional Planning Emphasis

Courses Required (6 credit hours)

- GEOG 4410 SUS - Sustainable Land Use Planning **Credits: (3)**
- GEOG 4420 - Advanced Urban and Regional Planning **Credits: (3)**

Electives (12 credit hours)

For students completing both a major and a minor, the requirements of the major field will be reduced by fifteen hours. They will be replaced by 12 hours of interdisciplinary courses selected outside the major field from the following.

- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)** (3 credit hours required)
- GEOG 4400 - Cartography and Map Design **Credits: (3)**
- GEOG 3210 - Urban Geography: The How and Why of Cities **Credits: (3)**
- GEOG 3360 - Economic Geography: Globalization, Development and Conflict **Credits: (3)**
- GEO 3710 - Introduction to Geographic Information Systems **Credits: (4)**
- MICR 1153 LS - Public Health: Sex, Travel, Food, & Drugs **Credits: (3)**
- POLS 3700 - Bureaucratic Politics **Credits: (3)**
- POLS 3750 - Urban Government and Politics **Credits: (3)**
- SOC 3840 - Cities and Urban Life **Credits: (3)**
- SOC 3850 - Race & Ethnicity **Credits: (3)**
- SOC 3300 SUS - Environment and Society **Credits: (3)**

Note:

And a basic statistics course taken in a department of the student's choice.

For students who wish to complete the Planning Emphasis Program in lieu of a minor, GEOG 4410 and GEOG 4420 will be required as well as 12 hours of interdisciplinary courses from the above list outside the major field.

Other courses related to land use planning not listed here are acceptable with approval of advisor. This includes courses transferred in from other colleges or universities and any directed reading or individual research courses in any department where the topic deals primarily with land use planning.

Goddard School of Business & Economics

Dr. Jeremy Oller, Dean

The John B. Goddard School of Business & Economics is a leader in preparing students for careers in business. The Goddard School attracts students from across the nation and around the world who desire a quality education.

Nearly 2000 students are enrolled in undergraduate programs in accounting, finance, business administration [with an emphasis in human resource management], marketing, economics, supply chain management, and management information systems; and more than 240 students pursue degrees in the Master of Accounting and Master of Taxation programs, as well as the Master of Business Administration program. Students should note that the Goddard School is accredited by the Association to Advance Collegiate Schools of Business (AACSB) International, the premier global accrediting agency in business and accounting education.

Courses are designed to reflect the rapidly changing business environment. Dedicated faculty use innovative teaching and learning methods throughout the curriculum. The consequences of the global economic environment and international competitive advantage are addressed at the onset of the curriculum and discussed throughout the program. The key issues of technology, analytics, quality management, ethics, and entrepreneurship are applied in many contexts.

A unique feature in the curriculum is the endowed Ralph Nye Lecture Series. In this Series, business leaders visit Weber State University campus to serve as guest lecturers. A wide variety of speakers include executives who have risen to the top of corporate worlds, entrepreneurs who have nurtured an idea into a viable business, and authors and opinion leaders with special insight into the business environment. These speakers make an invaluable contribution to our educational programs.

John B. Goddard School of Business & Economics Mission Statement

Mission

The John B. Goddard School of Business & Economics provides quality undergraduate and graduate education for developing professionals and career-oriented students. Degree programs are grounded in the university's liberal arts tradition and focused on synthesis of theory across disciplines, the application of theory to practice and the enhancement of professional skills. While we are primarily a regional institution, we seek to prepare our students to succeed in the global economy.

Three principles are central to our mission:

Learning

We champion continuous learning through excellent teaching, close student-faculty interaction, small class sizes, assurance of learning processes, and faculty scholarship designed to improve effective teaching.

Research

Our portfolio of faculty intellectual contributions is diverse including application of theory to practice, advancement within and across disciplines, and utilization of research outcomes to further learning.

Community

We enhance our community through the dissemination of best practices, the provision of economic information and analysis, the engagement in professional organizations and societies, and the creation of strategic relationships which expand life-long learning opportunities for our stakeholders.

Vision

We will be a leader among our peer institutions in providing undergraduate and masters level business and economics education. Through the educational experiences we create, our students will be able to transform themselves into leaders who grow their communities and positively impact the world. We will be known for our scholarship, our commitment to the communities we serve, and our ability to prepare capable graduates.

Graduation Requirements

1. **GPA Requirement:** Candidates for Goddard School minors, associate degrees, and bachelor of science degrees must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative Goddard School (major) GPA, must be 2.5 or higher. The WSU grade point average must meet university requirements. *[Students who completed required business or economics coursework before the summer semester of 2025 are allowed a C- as the minimum grade.]*
2. **Residency Requirement:** Any student wishing to attain a certificate, minor, associate's degree, or bachelor's degree from the Goddard School must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Any student pursuing a graduate degree from the Goddard School may apply a maximum of 6 credit hours of graduate credit taken at other AACSB International accredited institutions and completed with a grade of B- or better to the Goddard School's graduate degree requirements. Furthermore, the transferred credit must be approved prior to beginning the program of study. All candidates for degrees must be registered at WSU at least one semester following the last commencement prior to graduation.

Foundations Check

Students are admitted to the John B. Goddard School of Business & Economics upon declaring a degree of study within the school. To ensure progress towards the degree, students intending to pursue a Bachelor of Science, Associate of Science in Business & Economics or minors in Accounting, Economics or Finance must successfully complete BSAD 2899 or ECON 2899.

Criteria for completing BSAD 2899 or ECON 2899:

- Formal admission to Weber State University (WSU)
- Successful completion of ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 (or their equivalent) with a "C" grade or higher
- Successful completion ("C" grade or higher) of Business or Economics Foundations courses
- Declaration of business major, minor or emphasis

Process for completing the Foundations Check:

1. Register for BSAD 2899 or ECON 2899 (for non-business Economics majors only) concurrent with (same semester as) or after final required Business or Economics Foundations courses.
 - a. Complete assignments found in Canvas.

A grade of CR (credit) for 2899 equates to completing the Foundations Check.

2. If you do not meet the criteria to complete the Foundations Check, you will be notified by email on next steps to complete it in the following semester(s).

Advisement

John B. Goddard School of Business & Economics majors are strongly encouraged to pursue advising opportunities in the Goddard School. Receiving timely advisement at critical junctures in an academic program will assist students in choosing the appropriate classes, in the appropriate sequence, and in preparing for employment opportunities.

Advising for:

- Transfer credits, general education, business foundation courses, admission into the Goddard School, major selection, major requirements, minors, second degrees and certificates is provided by the Goddard School's Advising Team: Amanda Feld, WB 211A; Rachel Madden, WB 211B; Natalie Peterson, WB 211C; and Erik Hogge, WB 215. (801) 626-6534 or advisebusiness@weber.edu.

- Major declaration is provided by the Goddard School Advising Center online at <https://weber.edu/business/advising.html>
- Major selection, employment preparation, including internships and resumes, and business etiquette is provided by the Goddard School Career Center, Brett Merrell, WB 213, (801) 626-7914.

Credit Policy

1. **Obsolete Credit:** John B. Goddard School of Business & Economics credits and certain MATH courses (MATH 1050, 1080, 1090, or 1210) earned more than ten (10) years earlier than the proposed date of graduation will not be accepted toward University or major requirements unless validated through a challenge examination or approved by the appropriate academic department chair.
2. **Waiver Requests:** Any exceptions to the printed Goddard School graduation requirements must be approved by the appropriate academic department chair prior to waiving, substituting, or taking the course(s) in question.

Transfer Credit Policy

1. Transfer students should submit transcripts from all institutions of higher education to the Weber State University Admissions office. Student Recruitment at (801) 626-6050 will consult with Admissions to determine which general education credits will be accepted by Weber State. Most courses with a grade of "C" or higher are eligible for credit, including General Education MATH and ENGL Core requirements.
2. Students should establish transfer of general education work prior to meeting with the John B. Goddard School of Business & Economics Advisement Center. The Advising Center will consult with Goddard School academic departments to determine credit toward specific Goddard School requirements and address further transfer issues.
3. The Utah System of Higher Education (USHE) Transfer Credit Guide has been established to indicate articulation of equivalent courses between the in-state public colleges and universities. Credits from business courses transferred from institutions not covered by the USHE Transfer Credit Guide are accepted only if approved by the appropriate Goddard School academic departments. Documentation which allows the Advising Center and department chairs to assess the content of courses taken may be required. This documentation may include: catalogs or bulletins; course outlines or syllabi; and transcripts. In the majority of cases, course credit which is not obsolete (see above) taken at institutions accredited by AACSB International will be accepted and applied to the Goddard School's graduation requirements.
4. The Goddard School may require validation for courses taken at other institutions before credit is applied to Goddard School requirements. This validation may consist of either: passing a challenge exam; or completing the next course in a related sequence with a grade of "C" or better. Validation may be required where upper division credit is sought for lower division course work taken at another institution.
5. Students are reminded that the Weber State catalog states, "Acceptance of credit should not be confused with its application. Transfer credit may or may not apply to Weber State's graduation requirements, regardless of the number of credits transferred. Credit other than that intended wholly to meet general education requirements, will be applied to Weber State's specific degree program requirements upon the recommendation of the appropriate department chair." This means credit that is accepted by Weber State may, or may not, apply to specific requirements within the Goddard School.
6. Students transferring credits from institutions outside the U.S. should follow the guidelines for International Students. Transfer credits should appear on the student's WSU transcript before meeting with the Goddard School Advising Center or major department chair.

Jerry & Vickie Moyes Center for Supply Chain Excellence

The Jerry & Vickie Moyes Center for Supply Chain Excellence provides outstanding educational and professional development opportunities for the Weber State Community. For instance, the Center sponsors a broad range of experiential learning activities including case competitions, international study abroad tours, field consulting studies, and mentored-student-led research. The Center also works closely with the business community to advance supply

chain thinking and practice, offering development seminars on the "Whole-Brain Supply Chain". Finally, the Center funds research in the areas of supply chain collaboration, process improvement, risk, and sustainability. The Center is located in room 205 of the E.O. Wattis Business Building.

Center for Tax Education & Research

The primary mission of the Center for Tax Education & Research is to provide high quality tax education to WSU students, interested members of the community and business professionals. The Center also actively supports tax research efforts by tax faculty, works with employers to supply jobs to Master of Taxation graduates, fosters relationships with alumni, and supports student recruiting efforts. Additionally, the Center offers continuing education programs to tax professionals and engages in other tax-related activities such as providing tax return preparation assistance to qualifying members of the public at no cost through the Volunteer Income Tax Assistance (VITA) program, hosting student tax competitions, and organizing seminars to discuss contemporary issues in taxation.

Center for Leadership in Corporate Social Responsibility

The Center for Leadership in Corporate Social Responsibility is an action-research center within John B. Goddard School of Business & Economics. We work closely with academia, business, partner organizations, and students to understand and promote socially responsible decision-making and research across the 3Ps (People, Planet, Profit). The Center will inspire students and leaders to engage fully with all of the dimensions of socially responsible decision-making in the workplace.

Crossroads Economics Center

We foster an inclusive and dynamic environment where students and the community explore diverse perspectives. We are dedicated to providing complementary educational opportunities related to economic and social issues. We help the community navigate the crossroads of current discussions. We are a catalyst for critical thinking and informed debate, empowering students and the community to engage with nationally and regionally relevant economic, social, and cultural topics. We aim to support our students and the broader community in their pursuit of lifelong learning by offering balanced and diverse perspectives and providing the tools to make meaningful contributions.

Hall Global Entrepreneurship Center

The Hall Global Entrepreneurship Center offers a wide-range of opportunities to motivate, inspire, and provide unique resources to help students achieve their dream of starting a business, or increase their creativity and develop an entrepreneurial mindset, which is highly sought after by today's employers. Entrepreneurship students can qualify for up to \$15,000 in seed funding to help launch a new business. Each year, our center also offers several full-tuition scholarships and nearly \$40,000 in prize money from our various business competitions. Students can also attend our lecture series each semester and learn first-hand about the unique challenges and successes from inspirational, local entrepreneurs.

Bill Child Start-Up Center

The Bill Child Start-Up Center provides entrepreneurship students with a comfortable, collaborative space in which to work on their fledgling businesses. The Center also hosts activities for student clubs, such as the Weber Entrepreneurs Association (WEA), and the Young Subaru Entrepreneurship Lecture Series. Each week, Entrepreneurs-in-Residence hold office hours so that students can talk about their start-ups with entrepreneurs, angel investors, venture capitalists, startup lawyers and other key professionals. The Center is located in room 203 of the E.O. Wattis Building.

Crossroads Economics Center

We foster an inclusive and dynamic environment where students and the community explore diverse perspectives. We are dedicated to providing complementary educational opportunities related to economic and social issues. We help the community navigate the crossroads of current discussions. We are a catalyst for critical thinking and informed debate, empowering students and the community to engage with nationally and regionally relevant economic, social, and cultural topics. We aim to support our students and the broader community in their pursuit of lifelong learning by offering balanced and diverse perspectives and providing the tools to make meaningful contributions.

International Programs

The John B. Goddard School of Business & Economics offers a number of curricular programs and study opportunities designed to enhance the global expertise of our students.

- The Goddard School annually offers faculty-led study abroad programs to countries all over the world. Typical programs are 10 to 14 days in duration.
- The Goddard School is a member of the TransAtlantic Business School Alliance (TABSA), an alliance that unites four European and four U.S. business schools to enable students to have cultural and educational experiences across geographic boundaries. Students may study in a two-to-four-week summer program, in a semester or year-long exchange, or in a double-degree two-year program in which students earn a degree in Business Administration from Weber State University, and a second bachelor's degree from the foreign partner university in international business. The European partners are: KEDGE Business School (Marseille, France); Bremen University of Applied Sciences (Bremen, Germany); University of Hertfordshire (Hatfield, England); and University of Valencia (Valencia, Spain). With respect to tuition, Goddard students attend foreign partner universities as pure exchange students. This means that they pay normal Weber State tuition and fees without any additional tuition charge at the partner institution.
- In addition to TABSA partners, the Goddard School has signed cooperative agreements that allow for student exchanges with universities in the following countries: Austria (IMC University of Applied Science Krems); Belgium (Université Catholique de Louvain); China (Shanghai Normal University); Germany (Hof University of Applied Sciences); Japan (Konan University); South Korea (University of Seoul, Incheon National University, Sookmyung Women's University, Sangmyung University, Kyungpook National University); Poland (University of Warsaw); Spain (University of Alicante). As with TABSA partners, Goddard School students pay normal Weber State tuition without any additional tuition charge.
- The Goddard School offers an International Certificate which may be awarded with a baccalaureate degree offered by the School. This program description can be found under Institutional Certificate in the Degrees and/or Major Minor list.

Department of Business Administration and Marketing

Department Chair: Jennifer Anderson

Location: Wattis Business Building, Room 216

Telephone Contact: 801-626-6075

Email: bsad@weber.edu

Professors: Anthony Allred, Clinton Amos, Michael J. Stevens; **Associate Professors:** Alicia Ingersoll, Jennifer Anderson, Skyler King, David Noack, Bryant Thompson; **Assistant Professor:** Atmadeep Mukherjee, Benjamin Phifer; **Instructors:** Brandon Stoddard, Matthew Thue

Business Administration

The Business Administration (BSBA) degree is a general management degree. This major has been described as an undergraduate MBA because of its emphasis on breadth of education across all of the functional areas of business. This degree would be especially appropriate for students who wish to prepare for a generalist career in management rather than a focused career in a specialized area of business such as finance or marketing. It is also a very appropriate degree for the entrepreneurial students who aspire to start or run their own business one day.

Business Administration Human Resource Management (HRM) Emphasis

The student who concentrates in Human Resource Management prepares to apply the knowledge and skills needed to design, manage and deliver key organizational HRM functions. Through this, the HRM professional aids the effective alignment of people management objectives with organizational strategy for the purpose of increasing organizational efficiency and effectiveness. In addition to the John B. Goddard School of Business & Economics core requirements, the HRM student studies organizational behavior, leadership and teamwork skills, continuous improvement, effective communication, and information technology. HRM students will also take specialized courses in employment and labor law, employee training & development, recruitment & hiring decisions, and compensation & benefits.

Marketing

This is the only marketing program on WSU's campus. Students concentrating in marketing specialize in course work that deals with business activities involved in developing, communicating, delivering, and exchanging value for all stakeholders.

Courses provide students with traditional and digital marketing concepts and experience in applying them. These courses prepare students to assume responsible positions in industry. Those desiring careers in marketing research or higher levels of corporate management are well prepared to enter graduate programs of their choice.

Associate of Science

Entrepreneurship (AS)

The Hall Global Entrepreneurship Center in the Goddard School of Business and Economics at Weber State University offers an Associate of Science (AS) degree in Entrepreneurship that partners with various Departments and Colleges across campus to deliver a more effectual and compelling learning opportunity for students. In addition to a 16-credit entrepreneurial core, this new degree will allow learners the opportunity to select a predetermined nine-credit emphasis they are interested in studying (e.g. Business, Communications, Computing, Outdoor Recreation, and Product Design and Development). This along with the already required general education course load will fulfill AS expectations. The degree will give students the opportunity to explore a major study area, learn how to think and act more innovatively and encourage them to continue their education and work towards a Bachelor's Degree.

- **Program Prerequisites:** Acceptance into Weber State University.
- **Credit Hour Requirements:** A total of 60 credit hours is required; a minimum of 20 of these is required in residence (for transfer students).
- **Grade Requirements:** A minimum grade of "C" will be accepted in courses used to satisfy the associate's degree requirements, the WSU overall GPA requirements must also be met.
- **Program Code:** 4010AS with one of the following emphasis codes: 4058(Product Design and Development), 4059(Computer Science), 4060(Communications), 4061 (Outdoor & Community Recreation), 4062 (Psychological Science), 4063 (Business)
- **CIPC:** 520701

Advisement

- Students should contact advisors in the college of their emphasis area.
- Students interested in continuing studies in the in the Goddard School of Business and Economics beyond an Associate's Degree in Entrepreneurship should select the following General Education courses:
 1. General Education Core - Quantitative Literacy (QL) requirement: MATH 1050 College Algebra OR MATH 1090 Business College Algebra.
 2. General Education Breadth - Social Science (SS) 1 of 2 needed requirements: ECON 2010 Principles of Microeconomics OR ECON 2020 Principles of Macroeconomics.

Admission Requirements

- Students who plan to complete an A.S. in Entrepreneurship should meet with the relevant program advisor. Refer to Degree Requirements for Associate of Science requirements. The following courses required for the Entrepreneurship AS program will satisfy general education as we all required and optional entrepreneurship and specific track courses.
- Students should complete the AS program in two years.

Program Learning Outcomes

1. Satisfy student demand for Associate of Science-level programs that are supported by the Utah Department of Workforce Services.
2. Provide students with shorter-term goals or milestones along the way to a 4-year degree.
3. Contribute to Weber State University's vision in achieving transformative experiences for students as it looks to promote student achievement, equity and inclusion, as well as create transformative and experiential learning opportunities, and vibrant community relationships through this unique pathway.
4. Enable students to obtain positive labor market outcomes with respect to earnings and unemployment rates for associate's degrees compared to those with some college but no awarded degree.
5. Allow students to refine critical thinking and problem solving skills and improve creative and innovative thinking ability as they utilize an entrepreneurial mindset.

Entrepreneurship Core

- ENTR 1002 - Startup Innovation **Credits: (3)**
- ENTR 2002 - Marketing Strategy for Small Business **Credits: (1)**

- Product Design and Development Emphasis
- Psychological Science Emphasis

Bachelor of Science

Business Administration (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B. Goddard School of Business & Economics (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/business-administration-marketing.html>
- **Program Code:** 4011BS
- **CIPC:** 520201

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Business Administration major will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Graduates will be able to demonstrate proficient communication skills.

- Graduates will exhibit knowledge of theoretical concepts, ideas, and topics taught in the areas of Business Administration & Management, Human Resource Management, Management Information Systems, Marketing, Finance, and Supply Chain Management.
- Graduates will become proficient in interpersonal/human relation skills while acquiring the ability to effectively work in a team environment.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- ENGL 2015 EN2 - Intermediate College Writing & Research **Credits: (4)**

Complete one of the following Math courses:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area *before* completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C" or higher.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**

- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

3. Foundation Check (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate foundations check course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate foundations check course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **Credits: (0)** or
- ECON 2899 - Economics Foundations Check **Credits: (0)** (*for non-business Economics majors only*)

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization.

Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II **Credits: (3)**
- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- BSAD 4780 - Strategic Management **Credits: (3)** *

**BSAD 4780 should be taken near the conclusion of the program of study.*

One of the following Communication courses:

- MGMT 3200 - Managerial Communications **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**

- SCM 3200 - Supply Chain Relational Skills **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)** and
- ECON 4980 CRE - Research Methods **Credits: (3)**

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

Note

The International Core Course requirement may be fulfilled by a Study Abroad or Exchange Program. See the chair of the program for approval.

5. Major Course Requirements for BS Degree (27 credit hours)

Major Courses Required (12 credit hours)

- MGMT 3300 - Human Resource Management **Credits: (3)**
- MGMT 4300 - Leadership and Group Effectiveness **Credits: (3)**
- MGMT 4400 - Advanced Organizational Behavior **Credits: (3)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**

Major Electives (9 credit hours)

One Marketing course

- MKTG 3100 - Consumer Behavior **Credits: (3)**
- MKTG 3200 - Selling and Sales Management **Credits: (3)**
- MKTG 3450 - Promotion Management **Credits: (3)**
- MKTG 3500 - Services and Sports Marketing **Credits: (3)**
- MKTG 4400 - Marketing Strategy **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)** (if not used above as International course)
- MKTG 4200 - Digital Marketing **Credits: (3)**
- BSAD 3500 - Introduction to Business Research **Credits: (3)**

One Supply Chain Management Course

- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)**
- SCM 3400 - Quality Management and Process Improvement **Credits: (3)**

One other course from Accounting/Economics/Finance

- FIN 3350 - Financial Institutions **Credits: (3)**
- FIN 3500 - Capital Budgeting **Credits: (3)**
- FIN 4400 - Financial Problems - Corporate Finance **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ACTG 3750 - Accounting & Information Systems **Credits: (3)**

Two General Electives (6 credit hours) from list of approved courses

- MGMT 3350 - Employment and Labor Law **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)** (if not used above as International course)
- MGMT 3450 - Business Studies Abroad-International Management **Credits: (3)** (if not used above as International course)
- MGMT 3550 - The Cultural Environment of International Business **Credits: (3)** (if not used above as International course)
- MGMT 4310 - Compensation and Benefits **Credits: (3)**
- MGMT 4320 - Staffing Organizations **Credits: (3)**
- MGMT 4350 - Training **Credits: (3)**
- MGMT 4860 - Management Internship **Credits: (3)**
- MGMT 4865 INT - Human Resource Internship **Credits: (3)**
- MGMT 4650 - Negotiations **Credits: (3)**
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)** (if not used above as Supply Chain Management course)
- SCM 3400 - Quality Management and Process Improvement **Credits: (3)** (if not used above as Supply Chain Management course)
- BSAD 3500 - Introduction to Business Research **Credits: (3)** (if not used above as Marketing course)
- BSAD 3600 - [World Region] Business and Society **Credits: (3)** (if not used above as International course)
- BSAD 4210 - Survey of Business Law **Credits: (3)**
- BSAD 4500 - Entrepreneurship **Credits: (3)**

Business Administration (BS), Human Resource Management Emphasis

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B.

Goddard School of Business & Economics (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/business-administration-marketing.html>
- **Program Code:** 4009BS
- **CIPC:** 521001

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section in this catalog.

General Education

Refer to the University Degree Requirements for Bachelor of Science requirements. The following courses required for the Business Administration, Human Resource Management emphasis major (BS) will also satisfy general education requirements: ENGL 2010 EN2 or ENGL 2015 (English Composition); MATH 1050 QL or MATH 1090 (Quantitative Literacy); ECON 2010 SS or ECON 2020 SS (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Graduates will be able to demonstrate proficient communication skills.
- Graduates will exhibit knowledge of theoretical concepts, ideas, and topics taught in the areas of Business Administration & Management, Human Resource Management, Management Information Systems, Marketing, Finance, and Supply Chain Management.
- Graduates will become proficient in interpersonal/human relation skills while acquiring the ability to effectively work in a team environment.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- ENGL 2015 EN2 - Intermediate College Writing & Research **Credits: (4)**

Complete one of the following Math courses:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area *before* completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C" or higher.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

3. Foundation Check (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate foundations check course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate foundations check course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **Credits: (0)** or
- ECON 2899 - Economics Foundations Check **Credits: (0)** *(for non-business Economics majors only)*

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization.

Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II **Credits: (3)**
- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- BSAD 4780 - Strategic Management **Credits: (3)** *

**BSAD 4780 should be taken near the conclusion of the program of study.*

One of the following Communication courses:

- MGMT 3200 - Managerial Communications **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**
- SCM 3200 - Supply Chain Relational Skills **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)** and
- ECON 4980 CRE - Research Methods **Credits: (3)**

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

Note

The International Core Course requirement may be fulfilled by a Study Abroad or Exchange Program. See the chair of the program for approval.

5. Major Course Requirements for BS Degree (27 credit hours)

Major Courses Required (12 credit hours)

- MGMT 3300 - Human Resource Management **Credits: (3)**
- MGMT 4300 - Leadership and Group Effectiveness **Credits: (3)**
- MGMT 4400 - Advanced Organizational Behavior **Credits: (3)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**

Major Required for Emphasis (12 credit hours)

- MGMT 4310 - Compensation and Benefits **Credits: (3)**
- MGMT 4350 - Training **Credits: (3)**
- MGMT 3350 - Employment and Labor Law **Credits: (3)**
- MGMT 4320 - Staffing Organizations **Credits: (3)**

One General Elective (3 credit hours) from list of approved courses

- MGMT 3400 - International Business **Credits: (3)** (if not used above as International course)
- MGMT 3450 - Business Studies Abroad-International Management **Credits: (3)** (if not used above as International course)
- MGMT 3550 - The Cultural Environment of International Business **Credits: (3)** (if not used above as International course)
- MGMT 4860 - Management Internship **Credits: (3)** OR
- MGMT 4865 INT - Human Resource Internship **Credits: (3)**
- MGMT 4650 - Negotiations **Credits: (3)**
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)**
- SCM 3400 - Quality Management and Process Improvement **Credits: (3)**
- BSAD 3500 - Introduction to Business Research **Credits: (3)**
- BSAD 3600 - [World Region] Business and Society **Credits: (3)** (if not used above as International course)
- BSAD 4210 - Survey of Business Law **Credits: (3)**
- BSAD 4500 - Entrepreneurship **Credits: (3)**

Marketing (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Marketing major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Understand the contribution of marketing to the business enterprise
- Identify a marketing problem and key influences on that problem, to use appropriate qualitative and quantitative analysis and market research techniques to evaluate the marketing problem, and to evaluate alternative solutions
- Use marketing terminology correctly
- Understand how elements of the marketing mix are influenced by problem/opportunity
- Describe major bases for segmenting consumer and business markets; define and be able to apply the three steps of target marketing: market segmentation, target marketing, and market positioning; understand how different situations in the competitive environment will affect choices in target marketing
- Illustrate how the international trade system, economic, political-legal, and cultural environments in a foreign country affect a company's international marketing decisions
- Identify the major ethical and social concerns associated with marketing

Emphasis Option for Bachelor of Interdisciplinary Studies

Entrepreneurship (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** A total of 18 credit hours are required for all registered students.
- **Program Code:** 4038
- **CIPC:** 520701

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business is required.

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

Required Courses for BIS Entrepreneurship (18)

Students must choose a minimum of 18 credit hours from any of the following courses:

- BSAD 3000 - Small Business Management **Credits: (3)**
- ENTR 1002 - Startup Innovation **Credits: (3)**
- ENTR 2002 - Marketing Strategy for Small Business **Credits: (1)**
- ENTR 2003 - Marketing Execution for Small Business **Credits: (1)**
- ENTR 2004 - Branding for Small Business **Credits: (1)**
- ENTR 2005 - Product to Market **Credits: (1)**
- ENTR 2006 - E-Commerce for Small Business **Credits: (1)**
- ENTR 2007 - Product Design & Prototyping for Small Business **Credits: (1)**
- ENTR 2008 - Legal Foundations for Small Business **Credits: (1)**
- ENTR 2009 - Money Management for Small Business **Credits: (1)**
- ENTR 2010 - Funding For Small Business **Credits: (1)**
- ENTR 2011 - Results-Focused Leadership **Credits: (1)**
- ENTR 2012 - People Management for Small Business **Credits: (1)**
- ENTR 2550 - Scale & Exit **Credits: (3)**

Marketing (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The marketing BIS examines the process of creating, promoting, and delivering value that builds lasting relationships with customers and stakeholders. The minor offers students an education in the best practices of traditional and digital marketing. The minor is designed to meet the needs and expectations of employers and prepare WSU students for career opportunities in a rapidly expanding field of business.

- **Grade Requirements:** All classes must be passed with a C or higher.
- **Credit Hour Requirements:** A total of 18 credit hours are required for all registered students.

This program is available to all students. BSAD 2899 will be waived for all non-business majors. All courses subject to capacity limitations.

Required Courses for all majors (6 hours):

- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MKTG 3100 - Consumer Behavior **Credits: (3)**

Elective Courses for all majors (12 hours):

- MKTG 4200 - Digital Marketing **Credits: (3)**
- MKTG 4300 - Social Media Marketing & Strategy **Credits: (3)**
- MKTG 3450 - Promotion Management **Credits: (3)**
- MKTG 3200 - Selling and Sales Management **Credits: (3)**
- MKTG 3500 - Services and Sports Marketing **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- BSAD 3500 - Introduction to Business Research **Credits: (3)**

- MKTG 4400 - Marketing Strategy **Credits: (3)**

Minor

Business Administration for Non-Business Majors Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A cumulative GPA of 2.5 or higher in courses used toward the minor with no grade lower than a 'C' in any course used toward the minor.
- **Credit Hour Requirements:** Minimum of 19 credit hours in approved courses. See the John B. Goddard School of Business & Economics advisor for requirements.
- **Program Code:** 4011
- **CIPC:** 520201

Students pursuing this business administration minor must major in a nonbusiness field.

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

Courses Requirements for Minor

Required Courses (19 credit hours)

- BSAD 1010 - Introduction to Business **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

Students choose two from the following (6):

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- BSAD 3200 - Legal Environment of Business **Credits: (3)** or
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
Students choose either BSAD 3200 or BSAD 3330

Students choose three of the following (9):

- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**

Note:

All course prerequisites must also be completed.

Entrepreneurship Minor

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** A total of 15 credit hours are required for all registered students.
- **Program Code:** 4038
- **CIPC:** 520701

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

Required Courses for Entrepreneurship (15)

Student must choose a minimum of 15 credit hours from any of the following courses:

- BSAD 3000 - Small Business Management **Credits: (3)**
- ENTR 1002 - Startup Innovation **Credits: (3)**
- ENTR 2002 - Marketing Strategy for Small Business **Credits: (1)**
- ENTR 2003 - Marketing Execution for Small Business **Credits: (1)**
- ENTR 2004 - Branding for Small Business **Credits: (1)**
- ENTR 2005 - Product to Market **Credits: (1)**
- ENTR 2006 - E-Commerce for Small Business **Credits: (1)**
- ENTR 2007 - Product Design & Prototyping for Small Business **Credits: (1)**
- ENTR 2008 - Legal Foundations for Small Business **Credits: (1)**
- ENTR 2009 - Money Management for Small Business **Credits: (1)**
- ENTR 2010 - Funding For Small Business **Credits: (1)**
- ENTR 2011 - Results-Focused Leadership **Credits: (1)**
- ENTR 2012 - People Management for Small Business **Credits: (1)**
- ENTR 2550 - Scale & Exit **Credits: (3)**

Leadership Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** A total of 18 credit hours are required for all registered students.
- **Program Code:** 4043
- **CIPC:** 521003

Required Courses for all Business Administration Majors (18):

Core Courses (12):

- MGMT 4300 - Leadership and Group Effectiveness **Credits: (3)**
- MGMT 4400 - Advanced Organizational Behavior **Credits: (3)**
- MGMT 4410 - Leadership Through Character **Credits: (3)**

- MGMT 4420 - Critical Thinking for Leaders **Credits: (3)**

Elective Courses (6):

- Students select two leadership-related courses university wide. Approval of elective courses by the Business Administration department is required. Students are responsible for understanding any pre-requisites or conditions for chosen electives.

Required Courses for all Non-Business Administration Majors (18):

Pre-requisite (3):

- COMM 3550 - Organizational Communication **Credits: (3)** or
- HAS 3260 - Healthcare Leadership and Management **Credits: (3)** or
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**

Core Courses (12):

- MGMT 4300 - Leadership and Group Effectiveness **Credits: (3)**
- MGMT 4400 - Advanced Organizational Behavior **Credits: (3)**
- MGMT 4410 - Leadership Through Character **Credits: (3)**
- MGMT 4420 - Critical Thinking for Leaders **Credits: (3)**

Elective Courses (3):

- Students select one leadership-related course university wide. Approval of elective courses by the Business Administration department is required. Students are responsible for understanding any pre-requisites or conditions for chosen electives.

Note:

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business is required. Approval of elective courses by the Business Administration department is required.

Examples of pre-approved elective courses include:

- Business Administration: Human Resource Management (MGMT 3300); Business Ethics & Environmental Responsibility (BSAD 3330); Management Internship (MGMT 4860); Human Resource Internship (MGMT 4865)
- **Child and Family Studies**: Early Childhood Coaching (ECED 4201, 4202, 4203)
- **Communication**: Interpersonal Communication and Conflict Management (COMM 3050), Listening and Interviewing (COMM 3060), Small Group Facilitation and Leadership (COMM 3100), Advanced Public Speaking (COMM 3120), Organizational Communication (COMM 3550)
- Criminal Justice: Criminal Justice Management (CJ 3020)
- Health Administrative Services: Health Care Administrative and Supervisory Theory (HAS 3260)
- Honors: Great Ideas of the West (HNRS 2110, 2120); Great Ideas of the East (HNRS 2130)

- **Military Science:** Introduction to the Army and Critical Thinking (MILS 1010); Introduction to the Profession of Arm (MILS 1020); Leadership and Decision Making (MILS 2010); Army Doctrine and Team Development (MILS 2020); Leadership Under Fire (MILS 2600)
- **Political Science and Philosophy:** Leadership and the Political Life (POLS 1520); Lobbying: Theory and Practice (POLS 3780); American Presidency (POLS 4640); Classical Political Thought (POLS 4360)
- **Professional Sales:** Developing Team Leadership Skills (PS 3702); Sales Presentation Strategies (PS 3903)
- **Psychology:** Theories of Personality (PSY 3430); Social Psychology (PSY 3460); Psychology of Human Relationships (PSY 2000)
- **Sociology:** Self & Society (SOC 3000); Organizations in Society (SOC 3550); Sociology of Globalization (SOC 4410); Sociology of Work (SOC 4550)

Courses not appearing on the list of pre-approved courses may also be considered as electives pending approval by the Business Administration Department.

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

Marketing Minor

The marketing minor examines the process of creating, promoting, and delivering value that builds lasting relationships with customers and stakeholders. The minor offers students an education in the best practices of traditional and digital marketing. The minor is designed to meet the needs and expectations of employers and prepare WSU students for career opportunities in a rapidly expanding field of business.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** A total of 15 credit hours are required for all registered students.
- **Program Code:** 4044
- **CIPC:** 521401

Note: This minor is available to all students. BSAD 2899 will be waived for all non-business majors. Non-business majors please contact Amy Holmes for enrollment. All courses are subject to capacity limitations.

Required Courses for all Majors (6 credit hours)

- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MKTG 3100 - Consumer Behavior **Credits: (3)**

Elective Courses for all Majors (9 credit hours)

- MKTG 4200 - Digital Marketing **Credits: (3)**
- MKTG 4300 - Social Media Marketing & Strategy **Credits: (3)**
- MKTG 3450 - Promotion Management **Credits: (3)**
- MKTG 3200 - Selling and Sales Management **Credits: (3)**
- MKTG 3500 - Services and Sports Marketing **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- BSAD 3500 - Introduction to Business Research **Credits: (3)**
- MKTG 4400 - Marketing Strategy **Credits: (3)**

MBA Prerequisite Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** A total of 25 credit hours is required. Of the 25 hours, 21 hours are required classes and the remaining class of 4 hours is a support course.
- **Program Code:** 4047
- **CIPC:** 520101

Completion of this minor will satisfy the Prerequisite Courses required for Weber State's MBA program. This program will prepare undergraduate students to move directly into an MBA program; at WSU, this will allow students to enter the 39 credit Fast Track program in the Goddard School MBA degree. Note also that neither this minor nor any of the courses within it, guarantee any student admission to WSU's MBA program, or any other MBA program.

All math and Goddard School courses expire after 10 years from the date of completion.

For advising, please contact the Goddard School Advising Center at 801-626-6534 or email advisebusiness@weber.edu

Course Requirements for MBA Prerequisite Minor

Courses Required (21 credit hours)

- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- ACTG 2010 - Survey of Accounting I **Credits: (3) ***
- ACTG 2020 - Survey of Accounting II **Credits: (3) ***
- ECON 2010 SS - Principles of Microeconomics **Credits: (3) ***
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3) ***
- QUAN 2600 SUS - Business Statistics I **Credits: (3) ***
- QUAN 3610 - Business Statistics II **Credits: (3)**

Support Courses Required (4 credit hours)

- MATH 1050 QL - College Algebra **Credits: (4)** OR
- MATH 1090 QL - Business College Algebra **Credits: (3)**

Note:

*MATH 1050 or MATH 1090 can also be completed with a MATH ACT of 26 or higher, ALEKS score of 65-100, Math Accuplacer score of 70 or higher in College Level Math, or a score of 3 or higher on the MATH: Calc AB or BC AP exams.

Department of Economics

Department Chair: Gavin Roberts

Location: Wattis Business Building, Room 226

Telephone Contact: 801-626-6066

Professors: Nazneen Ahmad, Doris Geide-Stevenson, Therese Grijalva, Brandon Koford, John Mbaku, Jeff Steagall; **Associate Professors:** Matthew Gnagey, Andrew Keinsley, Álvaro La Parra-Pérez, Sandeep Rangaraju, Gavin Roberts; **Assistant Professor:** Valentinas Rudys

The Department of Economics offers six different degree programs. The career field selected will determine the educational goals a student must set and will be an important element in deciding which of the many avenues towards a bachelor's degree available in economics is best suited for you.

Economics provides general analysis of decision making where resource constraints are present. Within the area of business, the fields of economics and finance are perhaps the most rigorous in terms of the use and application of mathematical and statistical reasoning. Students with a bachelor's degree in Business Economics are generally prepared to start their careers in any area of business, but are particularly prepared for jobs that call for data analysis, pricing, purchasing, and report writing. Business economists are often employed in private business firms in the financial, retailing, and industrial sectors. A complete career guide is available from the department chairperson. A degree in Business Economics is also regarded by graduate business schools as excellent preparation for advanced work toward an MBA, as well as advanced degrees in other business related disciplines such as human resource management, public administration, finance, and international business. Students seeking an advanced degree in economics, law, other social and behavioral sciences, urban and regional planning, actuarial science, etc., should also investigate the Economics Major.

Center for Economic Education

The Department has established a Center for Economic Education. Its basic function is to help educators in secondary and elementary schools improve their understanding and knowledge of economics. This will assist them in providing their students with the fundamental economic tools needed to evaluate complex national and international events that are a part of their daily existence.

Associate of Science

Business and Economics (AS)

- **Program Description:** The Associate of Science (AS) degree in Business and Economics provides foundational skills and knowledge in accounting, economics, statistics, management information systems, as well as other functional business areas of the students' choice. This skill- and knowledge set will make students more effective business professionals as it introduces communication and analysis tools critical in a professional business environment.
- **Grade Requirements:** Even though a minimum grade of "C" will be accepted in courses used to satisfy the associate's degree requirements, the WSU overall GPA requirements must also be met.
- **Credit Hour Requirements:** A total of 60 credit hours is required; a minimum of 20 of these is required in residence (for transfer students).
- **Program Code:** 4041AS
- **CIPC:** 520601

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for all business majors, minors, emphases and certificates. To be admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534.

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the Business and Economics associates will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Be numerically literate.
- Be able to use the concepts of supply and demand to analyze current economic issues.
- Be able to use the aggregate demand/aggregate supply framework.
- Understand the professional role played by accountants in society
- Effectively utilize the accounting cycle

Major Course Requirements for AS Degree

Courses Required (26 credit hours)

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- BSAD 2899 - Business Foundations Check **Credits: (0)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- QUAN 2400 - Business Calculus **Credits: (3)** or
- MIS 2030 - Introduction to Business Analytics **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**
- **Elective Credits (3)**

Institutional Certificate

Basic Economic Analysis Certificate of Proficiency

- **Program pre-requisite:** MATH 1050, MATH 1080, MATH 1090, or MATH 1210 with a "C" or higher grade.
- **Grade Requirements:** Students must complete all certificate courses with a grade of "C" or higher.
- **Credit Hours Requirements:** 15 credit hours.

- **Program Code:** 4057CP
- **CIPC:** 450603

Students earning an Economics Analysis Certificate will understand the basic analytical and empirical tools that analysts apply to economic problems. Students will learn how to analyze the choices of firms and consumers in principles microeconomics, will learn how to interpret economy-wide trends in principles of macroeconomics, and will learn to analyze the theoretical economics predictions using data in the statistics classes. For the final class, students will choose an upper division economic course to advance their knowledge further.

The Economics Analysis Certificate is stackable with other credentials that can be earned in the Goddard School of Business & Economics. The certificate earns students credit toward the business core and business fundamentals required for most degrees in the Goddard School of Business & Economics. It also stacks to an Economics Minor. Students will earn 3 SS general education credits in the program, and can also earn 3 AI general education credits if they take ECON 1740.

All courses that make up the Economics Analysis Certificate are offered in Fall and Spring every year. Most of the courses are also offered during the Summer semester. Most course are also offered both face-to-face and virtually on a regular basis.

Advisement

- **Economics Department Chair:** Dr. Gavin Roberts, 801-648-9535
- **Economics Department Administrative Specialist:** Alexa Jones, 801-626-6066
- **Mailing Address:** 1337 Edvalson St., Dept. 3805, Ogden UT 84408
- **Campus Location:** Ogden Campus, Wattis Building, Room 226

Program Prerequisites (3 credit hours)

Complete one of the following courses:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1080 QL - Pre-calculus **Credits: (5)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**
- MATH 1210 - Calculus I **Credits: (4)**

Required Courses (15 credit hours)

- ECON 1010 SS - Economics as a Social Science **Credits: (3)** or
- ECON 1100 SS - Environmental Issues and Economic Policy **Credits: (3)** or
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)** Or
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- QUAN 3610 - Business Statistics II **Credits: (3)** Or
- MATH 3420 - Probability and Statistics II **Credits: (3)**
- Any ECON Upper Division Elective **Credits: (3)**

International Business & Economics Certificate of Proficiency

- **Program Code:** 4024CP
- **CIPC:** 520601

A student graduating with a Bachelor's Degree in Business or Economics may apply for a certificate of competency in International Business & Economics provided he or she has fulfilled the following criteria:

Program Learning Outcomes

- Recognize and Anticipate how sociocultural differences shape institutions and business decisions
- Recognize and Anticipate how political / economic forces shape institutions and Business Decisions
- Identify the Benefits and Costs of a global economy

Course Requirements for Institutional Certificate of Proficiency

Completion of a program of study approved by the International Program Advisor. This will entail a minimum of 12 credit hours of course work at a GPA of at least 2.5 from the following list of courses:

- ACTG 4801 - Individual Study **Credits: (1-3)**
- ACTG 4802 - Individual Study **Credits: (1-3)**
- ACTG 4803 - Individual Study **Credits: (1-3)**
- ACTG 4810 - Experimental Course **Credits: (1-6)**
- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- BSAD 3600 - [World Region] Business and Society **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MIS 4801 - Individual Projects **Credits: (1)**
- MIS 4802 - Individual Projects **Credits: (2)**
- MIS 4803 - Individual Projects **Credits: (3)**
- MIS 4810 - Experimental Course **Credits: (1-6)**
- MGMT 3400 - International Business **Credits: (3)**
- MGMT 3550 - The Cultural Environment of International Business **Credits: (3)**
- MGMT 4800 - Independent Research **Credits: (1-3)**
- MGMT 4810 - Experimental Course **Credits: (1-6)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

International Business & Economics Certificate of Proficiency Language Emphasis

A student graduating with a Bachelor's Degree in Business or Economics may apply for a certificate of proficiency in International Business & Economics (Language Emphasis) provided he or she has fulfilled the following criteria:

1. Satisfaction of the requirements for the Certificate in International Business (see International Business & Economics Certificate of Proficiency).
2. Testing at the "Intermediate High" level, or better, on the ACTFL (American Council on Teaching of Foreign Languages) exam, or the departmental language proficiency test, in the chosen language.
3. Completion of the appropriate language for business sequence (2 courses). If the chosen language has only one language for business course, completion of a substitute course approved by the Department of Foreign Languages.
4. Completion of CHNS 3550, FRCH 3550, GRMN 3550, JPNS 3550, PTGS 3550, or SPAN 3550.
 - **Program Code:** 4025CP
 - **CIPC:** 520601

Bachelor of Science

Economics (BS)

- **Program Prerequisite:** Not required.
- **Minor:** A minor taken from the College of Behavioral and Social Sciences, or other minor program approved in advance by the department chairperson is required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B. Goddard School of Business & Economics (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/department-of-economics.html>
- **Program Code:** 4022BS
- **CIPC:** 450603

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Economics majors will be numerically literate, and possess strong written and oral communication skills.
- All Economics majors should be able to use statistical methods for problem solving (e.g., hypothesis testing, regression analysis).
- All Economics majors should be able to use the concepts of supply and demand to analyze current economic issues.
- All Economics majors should be able to use the aggregate demand/aggregate supply framework.
- All Economics majors should be able to identify the benefits and costs of a global economy.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. Non business Economics degree programs within the Goddard School follow the same general pattern which is composed of four required elements: (1) Liberal Support Curriculum, (2) Economics Foundations Curriculum, (3) Admission and Major Declaration, and (4) Major Discipline.

1. Liberal Support Curriculum (7-8 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

- ECON 2010 SS - Principles of Microeconomics **(3)**
- MATH 1050 QL - College Algebra **(4)** or MATH 1090 QL - Business College Algebra **(3)**
- ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.
- MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

*NOTE: Students looking at Quantitative Economics should take MATH 1050 **NOT** MATH 1090 as MATH 1090 does not meet the prerequisite requirement for MATH 1210 Calculus I.*

2. Economics Foundations Curriculum (9 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the major course work required. Refer to department degree maps for assistance in course sequencing.

The Economics Foundations Curriculum provides the base for all economic degree programs and should be completed early in the student's academic studies. To satisfy the Economics Foundations requirement, courses must be completed with a grade of "C" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the three Economics Foundation courses.

- ECON 2010 SS - Principles of Microeconomics **(3)**
- ECON 2020 SS - Principles of Macroeconomics **(3)**
- QUAN 2600 SUS - Business Statistics I **(3)**

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **(0)** or
- ECON 2899 - Economics Foundations Check **(0)** *(for non-business Economics majors only)*

4. Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

Major Course Requirements for Economics BS Degree (31 credit hours)

Major Courses Required (16 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)**
- ECON 4980 CRE - Research Methods **Credits: (3)**
- QUAN 2400 - Business Calculus **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**
- QUAN 3610 - Business Statistics II **Credits: (3)**

Upper Division Elective Courses (15 credit hours)

Select from the following

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ECON 3300 - Environmental Economics **Credits: (3)**

- ECON 4330 - Game Theory **Credits: (3)**

Minor Required (credit hours vary by minor)

*A **minor** taken from the College of Behavioral and Social Sciences, or other minor program approved in advance by the department chairperson is required.*

Economics and Legal Studies (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Not required.
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C" or higher. In addition, major GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- Website: <https://weber.edu/business/department-of-economics.html>
- **Program Code:** 4049BS
- **CIPC:** 450601

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Use Grad MAPs to plan your degree

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Economics and Legal Studies major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. Non business Economics degree programs within the Goddard School follow the same general pattern which is composed of four required elements: (1) Liberal Support Curriculum, (2) Economics Foundations Curriculum, (3) Admission and Major Declaration, and (4) Major Discipline.

1. Liberal Support Curriculum (7-8 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

- ECON 2010 SS - Principles of Microeconomics **(3)**
- MATH 1050 QL - College Algebra **(4)** or MATH 1090 QL - Business College Algebra **(3)**
- ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.
- MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

*NOTE: Students looking at Quantitative Economics should take MATH 1050 **NOT** MATH 1090 as MATH 1090 does not meet the prerequisite requirement for MATH 1210 Calculus I.*

2. Economics Foundations Curriculum (9 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the major course work required. Refer to department degree maps for assistance in course sequencing.

The Economics Foundations Curriculum provides the base for all economic degree programs and should be completed early in the student's academic studies. To satisfy the Economics Foundations requirement, courses must be completed with a grade of "C" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the three Economics Foundation courses.

- ECON 2010 SS - Principles of Microeconomics **(3)**
- ECON 2020 SS - Principles of Macroeconomics **(3)**
- QUAN 2600 SUS - Business Statistics I **(3)**

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **(0)** or
- ECON 2899 - Economics Foundations Check **(0)** *(for non-business Economics majors only)*

4. Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

3. Major Course Requirements for BS Degree (58 credit hours)

Required Courses (31 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)**
- ECON 4980 CRE - Research Methods **Credits: (3)**
- QUAN 2400 - Business Calculus **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**
- QUAN 3610 - Business Statistics II **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)**

- PHIL 1250 HU - Critical Thinking **Credits: (3)** or
- PHIL 2200 - Deductive Logic **Credits: (3)**

- MGMT 3200 - Managerial Communications **Credits: (3)** or
- PS 3250 - Business Communication **Credits: (3)** or
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**

- CJ 4065 - Law and Society **Credits: (3)**
or
- SOC 4270 - Law and Society **Credits: (3)**
- POLS 2400 SS - Introduction to Law and Courts **Credits: (3)**

Upper Division Economics Elective Courses (6 credit hours)

Select from the following:

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ECON 3300 - Environmental Economics **Credits: (3)**
- ECON 4330 - Game Theory **Credits: (3)**

Law Courses (6 credit hours)

Select from the following:

- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- BSAD 4210 - Survey of Business Law **Credits: (3)**
- FAM 3150 - Consumer Rights and Responsibilities **Credits: (3)**
- CJ 1330 - Criminal Law and Courts **Credits: (3)**
- CJ 2350 - Laws of Evidence **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- POLS 4020 - Constitutional Law: Powers **Credits: (3)**

Law Electives (6 credit hours)

Select from the following:

- COMM 1270 - Analysis of Argument **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- CJ 3270 - Theories of Crime and Delinquency **Credits: (3)**
- HIST 3210 - U.S. Constitutional History **Credits: (3)**
- POLS 4380 - Modern Political Thought **Credits: (3)**
- POLS 4600 - American Congress **Credits: (3)**
- POLS 4750 - Public Policy Analysis **Credits: (3)**

Note:

Due to the cross-disciplinary nature of this program, no minor is required.

Economics, Business (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B. Goddard School of Business & Economics (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/departments-of-economics.html>
- **Program Code:** Business Economics (4017BS)
- **CIPC:** 450603

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Business Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Economics majors will be numerically literate, and possess strong written and oral communication skills.
- All Economics majors should be able to use statistical methods for problem solving (e.g., hypothesis testing, regression analysis).
- All Economics majors should be able to use the concepts of supply and demand to analyze current economic issues.
- All Economics majors should be able to use the aggregate demand/aggregate supply framework.
- All Economics majors should be able to identify the benefits and costs of a global economy.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- ENGL 2015 EN2 - Intermediate College Writing & Research **Credits: (4)**

Complete one of the following Math courses:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard

School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area *before* completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C" or higher.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

3. Foundation Check (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate foundations check course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate foundations check course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **Credits: (0)** or
- ECON 2899 - Economics Foundations Check **Credits: (0)** (*for non-business Economics majors only*)

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization.

Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II **Credits: (3)**

- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- BSAD 4780 - Strategic Management **Credits: (3) ***

**BSAD 4780 should be taken near the conclusion of the program of study.*

One of the following Communication courses:

- MGMT 3200 - Managerial Communications **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**
- SCM 3200 - Supply Chain Relational Skills **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)** and
- ECON 4980 CRE - Research Methods **Credits: (3)**

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

Note

The International Core Course requirement may be fulfilled by a Study Abroad or Exchange Program. See the chair of the program for approval.

5. Major Course Requirements for BS Degree (24-25 credit hours)

Major Courses Required (12-13 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
- QUAN 2400 - Business Calculus **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**

- ECON 4980 CRE - Research Methods **Credits: (3)** (Prerequisite ECON 4970 (Credits: (1)) * OR
- ECON 4860 INT - Economics Internship **Credits: (1-3)** (3 credit option must be used to fulfill requirement)

Note:

*ECON 4970 and 4980 will complete the communication requirement as part of the business core as well as the required business course for the Business Economics major.

Elective Courses (12 credit hours)

Select from the following:

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ECON 3300 - Environmental Economics **Credits: (3)**
- ECON 4330 - Game Theory **Credits: (3)**

International Business Economics (BS)

The International Business Economics program is intended for business and economics majors who are strongly interested in working for a multinational business organization or in employment outside of the United States. Apart from building strong foundations in all business disciplines, the program is designed to provide students with study abroad and professional experiences that are complemented with foreign language skills.

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations".
- **Minor:** None required.
- **Grade Requirements:** Candidates for the Bachelor of Science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B. Goddard School (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

5. Major Course Requirements for BS Degree

This program of study requires students to complete a study abroad experience (at least one semester of study at an accredited university outside of the United States or participation in a minimum of 6 credits of study abroad courses) AND completion of the (Foreign) Language Requirement as defined for the Bachelor of Arts Degree (can be up to 12 credits).

Major Courses Required (15-16 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)** OR
- ECON 3200 - Money and Banking **Credits: (3)** OR
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4980 CRE - Research Methods **Credits: (3)** (Prerequisite ECON 4970 **Credits: (1)**)* OR
- ECON 4860 INT - Economics Internship **Credits: (1-3)** (3 credit option must be used to fulfill requirement)
- MIS 2020 - Introduction to Information Systems **Credits: (3)** OR
- MIS 4850 - Information Systems & Technology Study Abroad **Credits: (1-3)**
- QUAN 2400 - Business Calculus **Credits: (3)** OR
- MATH 1210 - Calculus I **Credits: (4)**

Note:

*ECON 4970 and 4980 will complete the Communication requirement as part of the business core as well as the required business course for the International Business Economics major. MIS 2020 will complete the MIS 2020 requirement as part of the business core as well as the required business course of the International Business Economics major.

Economics Elective Courses (6 credit hours)

Select from the following:

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)** (if not chosen as an international elective)
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)** (if not chosen as a required business course or international elective)
- ECON 3200 - Money and Banking **Credits: (3)** (if not chosen as a required business course)
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**

- ECON 3300 - Environmental Economics **Credits: (3)**
- ECON 4330 - Game Theory **Credits: (3)**

International Elective Courses (6 credit hours)

Select from the following:

- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3) additional pre-requisites apply**
- ECON 3110 - International Trade **Credits: (3) (if not chosen as an economics elective)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3) OR**
- ECON 3150 - Business Studies Abroad-International Finance **Credits: (3) (if not chosen as a required business course or economics elective)**
- ECON 4170 - Economic Development **Credits: (3) (if not chosen as an economics elective)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3) OR**
- BSAD 4850 - Business Administration Study Abroad **Credits: (1-3) OR**
- MGMT 3450 - Business Studies Abroad-International Management **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3) OR**
- MKTG 3700 - Business Studies Abroad - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**
- ECON 4850 - Economics Study Abroad **Credits: (1-3)**
- FIN 4850 - Finance Study Abroad **Credits: (1-3)**
- MGMT 4850 - Management Study Abroad **Credits: (1-3)**

International Economics (BS)

- **Program Prerequisites:** Not required.
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C" or higher. In addition, major GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/departments-of-economics.html>
- **Program Code:** 4050BS

- **CIPC:** 450603

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Use Grad MAPs to plan your degree

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the International Economics major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for ECON 2010, QUAN 2400, and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

Course Requirements for International Business Economics BS Degree

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. Non business Economics degree programs within the Goddard School follow the same general pattern which is composed of four required elements: (1) Liberal Support Curriculum, (2) Economics Foundations Curriculum, (3) Admission and Major Declaration, and (4) Major Discipline.

1. Liberal Support Curriculum (7-8 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

- ECON 2010 SS - Principles of Microeconomics **(3)**
- MATH 1050 QL - College Algebra **(4)** or MATH 1090 QL - Business College Algebra **(3)**
- ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.
- MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

NOTE: Students looking at Quantitative Economics should take MATH 1050 NOT MATH 1090 as MATH 1090 does not meet the prerequisite requirement for MATH 1210 Calculus I.

2. Economics Foundations Curriculum (9 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the major course work required. Refer to department degree maps for assistance in course sequencing.

The Economics Foundations Curriculum provides the base for all economic degree programs and should be completed early in the student's academic studies. To satisfy the Economics Foundations requirement, courses must be completed with a grade of "C" or higher. However, admittance to the Goddard School requires a cumulative GPA of 2.5 or higher for the three Economics Foundation courses.

- ECON 2010 SS - Principles of Microeconomics **(3)**
- ECON 2020 SS - Principles of Macroeconomics **(3)**
- QUAN 2600 SUS - Business Statistics I **(3)**

3. Admissions Process (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate admissions course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate admissions course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **(0)** or
- ECON 2899 - Economics Foundations Check **(0)** *(for non-business Economics majors only)*

4. Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

3. Major Course Requirements for International Economics BS Degree (46 credit hours)

School of Business & Economics Courses Required (31)

- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
 - ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
 - ECON 2899 - Economics Foundations Check **Credits: (0)**
 - ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
 - ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
 - ECON 4970 - Introduction to Research Methods **Credits: (1)**
 - ECON 4980 CRE - Research Methods **Credits: (3)**
 - QUAN 2400 - Business Calculus **Credits: (3)** or
 - MATH 1210 - Calculus I **Credits: (4)**
 - QUAN 2600 SUS - Business Statistics I **Credits: (3)**
 - QUAN 3610 - Business Statistics II **Credits: (3)**
- and a minimum of two of the following:***
- ECON 3110 - International Trade **Credits: (3)**
 - ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
 - ECON 4170 - Economic Development **Credits: (3)**

Note: If all three courses are taken, the third course may fulfill the Economics elective.

Elective Courses (minimum of 15 credit hours)

Choose at least one class from each of the four groups

Economics (minimum of 3 credit hours)

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- ECON 3300 - Environmental Economics **Credits: (3)**
- ECON 4330 - Game Theory **Credits: (3)**

Political Science/Philosophy (minimum of 3 credit hours)

- POLS 2100 SS SUS GLB - International Politics, Organizations, and Society **Credits: (3)**
- POLS 2200 SS GLB - Global Governments, Politics, and Societies **Credits: (3)**
- POLS 2300 SS - Introduction to Political Theory **Credits: (3)**
- POLS 3210 GLB - Politics in the European Union **Credits: (3)**
- POLS 3290 GLB - Democratization and Political Transitions **Credits: (3)**
- POLS 4160 - Topics in Global Politics **Credits: (3)**
- POLS 4180 GLB - International Law and Organization **Credits: (3)**
- POLS 4190 GLB - Theories of International Politics **Credits: (3)**
- PHIL 3550 - Philosophy of Eastern Religion **Credits: (3)**

Geography (minimum of 3 credit hours)

- GEOG 3060 SUS - Environmental Issues: Local to Global Impacts and Solutions **Credits: (3)**
- GEOG 3540 - Geography of Latin America and the Caribbean **Credits: (3)**
- GEOG 3590 - Geography of Europe: the Land and People who Built a World Power **Credits: (3)**
- GEOG 3640 - Geography of Asia: Development, Geopolitics and Environment **Credits: (3)**
- GEOG 3740 - Geography of Africa: Culture, Colonialism, Crises and Change **Credits: (3)**

History (minimum of 3 credit hours)

- HIST 4260 - Europe in the Age of Total War **Credits: (3)**
- HIST 4320 CRE - Stalin and the Soviet Experiment **Credits: (3)**
- HIST 4340 - The British Empire **Credits: (3)**

- HIST 4350 - Germany and the Third Reich **Credits: (3)**
- HIST 4370 - History of Modern France 1789-present **Credits: (3)**
- HIST 4410 - History of Spain and Portugal **Credits: (3)**
- HIST 4450 - Cold War Europe **Credits: (3)**
- HIST 4510 GLB - Twentieth Century World **Credits: (3)**
- HIST 4530 - Far Eastern History **Credits: (3)**
- HIST 4550 - Southeast Asian History **Credits: (3)**
- HIST 4590 GLB - Middle Eastern History **Credits: (3)**
- HIST 4650 - Latin American History Since Independence **Credits: (3)**
- HIST 4670 - History of Mexico **Credits: (3)**

Note:

Given the broad international electives required, no minor is required.

Quantitative Economics (BS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Not required.
- **Minor:** None required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required economics courses with a grade of "C" or higher. In addition, major GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. A total of 40 upper division credit hours are required (courses numbered 3000 and above).
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

Major Course Requirements for Quantitative Economics BS Degree (55 credit hours)

Major Courses Required (19 credit hours)

- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)**
- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)**
- ECON 4550 - Introduction to Econometrics **Credits: (3)**
- ECON 4560 - Mathematical Economics **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)**
- ECON 4980 CRE - Research Methods **Credits: (3)**
- QUAN 3610 - Business Statistics II **Credits: (3)**

Note:

**MATH 3410 and *MATH 3420, Probability and Statistics (3 each) can substitute for QUAN 2600 & QUAN 3610.*

Required Math Courses (15 or 16 credit hours)

- MATH 1210 - Calculus I **Credits: (4)**
- MATH 1220 - Calculus II **Credits: (4)**
- MATH 2210 - Calculus III **Credits: (4)**
- MATH 2250 - Linear Algebra and Differential Equations **Credits: (4)** or
- MATH 2270 - Elementary Linear Algebra **Credits: (3)**

Electives (12 credit hours)

Select from the following

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- CS 1400 - Programming I **Credits: (4)**
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- CS 4580 - Data Science Algorithms **Credits: (4)**

- ECON 3090 - History of Economic Thought **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 3300 - Environmental Economics **Credits: (3)**
- ECON 3400 - Labor Economics **Credits: (3)**
- ECON 3410 - Women in the World Economy **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- ECON 4320 - Industrial Organization **Credits: (3)**
- ECON 4330 - Game Theory **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- ECON 4800 - Independent Research **Credits: (1-3)**
- ECON 4810 - Experimental Course **Credits: (1-6)**
- ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs **Credits: (1-6)**
- MATH 3120 - Foundations of Euclidean and Non-Euclidean Geometry **Credits: (3)**
- MATH 3270 - Linear Algebra **Credits: (3)**
- MATH 3410 - Probability and Statistics I **Credits: (3)**
- MATH 3420 - Probability and Statistics II **Credits: (3)**
- MATH 3450 - Advanced Statistical Methods **Credits: (4)**
- MATH 4110 - Modern Algebra I **Credits: (3)**

Note:

Due to the cross-disciplinary nature of this program, no minor is required.

Minor

Economics Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** Minimum of 21 credit hours.
- **Program Code:** 4022
- **CIPC:** 450603

Course Requirements for Minor

Required Courses (21 credit hours)

- ECON 2899 - Economics Foundations Check **Credits: (0)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**

- ECON 4010 - Intermediate Microeconomic Theory **Credits: (3)** or
- ECON 3110 - International Trade **Credits: (3)** or
- ECON 3300 - Environmental Economics **Credits: (3)** or
- ECON 3400 - Labor Economics **Credits: (3)**

- ECON 4020 - Intermediate Macroeconomic Theory **Credits: (3)** or
- ECON 3200 - Money and Banking **Credits: (3)**

- QUAN 2600 SUS - Business Statistics I **Credits: (3)** or
- CJ 3600 - Criminal Justice Statistics **Credits: (3)** or
- PSY 3600 - Statistics in Psychology **Credits: (3)** or
- GERT 3600 - Social Statistics **Credits: (3)** or
- SW 3600 - Social Statistics **Credits: (3)** or
- SOC 3600 - Social Statistics **Credits: (3)**

- Two upper-level ECON or QUAN electives **(6)**

Note:

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 with a grade of "C" or higher is a prerequisite for QUAN 2600.

Teaching Minor

Economics Teaching Minor

- **GPA Requirement:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 4019
- **CIPC:** 131303

Approval of a minor program by the Economics department chair is required. Students who select the Economics Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education). Advisement is required.

Course Requirements for Minor

Required Courses (18 credit hours)

- ECON 1010 SS - Economics as a Social Science **Credits: (3)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- ECON 1740 AI - Economic History of the United States **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- HIST 4500 - Teaching Social Studies in Grades 5-12 **Credits: (3)**

Department of Supply Chain & Management Information Systems

Department Chair: Seokwoo Song

Location: Wattis Business Building, Room 205

Telephone Contact: Nancy Tomon, 801-626-7368

Professors: Randy Boyle, Taowen Le, Shane Schvaneveldt, Seokwoo Song; **Associate Professors:** Jeffrey Clements, François Giraud-Carrier, Grace Zhang; **Assistant Professors:** Evan Barlow, Ben Neve

The Department of Supply Chain & Management Information Systems offers two Bachelor of Science degree programs. Supply Chain Management (SCM) provides students with the specialized skills to manage key value-added processes, inspire creative decision-making, and collaborate effectively with decision makers across the firm and around the world. The SCM program offers a whole-brain approach that incorporates relational and interpersonal skills with the technical side of logistics and operations management. Management Information Systems (MIS) prepares students to successfully navigate the business world by building technical, managerial and communication skills. The depth and breadth of technical know-how gained in the MIS program prepares students for a successful career as an Information Systems professional, helping organizations support business processes and solve business problems.

Supply Chain Management (SCM)

Supply Chain Management is "the value creation engine of every organization."

Everyone who participates in the creation and distribution of a product is part of a supply chain, and a Supply Chain Management major learns how to choreograph and manage this entire chain of activities from suppliers, manufacturers, service providers and distributors, to consumers.

With its origins dating back to 1969, Weber State University's Supply Chain Management program is one of the oldest programs in the United States. Our program covers the depth and breadth of SCM, giving our students the foundation for successful careers in logistics, purchasing, operations, and other areas of supply chain management.

Employers recognize our graduates as some of the best in the field, and the demand for Weber State University SCM graduates is strong. Traditionally, graduates from our SCM program enjoy the highest average starting salary of all business majors, and job opportunities exceed the number of graduates. Global and area companies hiring our SCM graduates include Kimberly Clark, Toyota, Ford Motor Company, Autoliv, Orbital ATK, Intermountain Healthcare, Wal-Mart, J.C. Penney Company, UPS, Northrop Grumman, and the U.S. Air Force.

The endowed Jerry & Vickie Moyes Center for Supply Chain Excellence supports opportunities in research, scholarship, and experiential learning for faculty and students. We are fortunate to enjoy an active relationship with our industry partner board which provides real-world insight for our program along with mentoring and internship opportunities for our students. In addition to many opportunities for internships, our Supply Chain Management majors frequently also receive several scholarships from professional associations and area companies as well as from the Moyes Center.

Management Information Systems (MIS)

A bachelor's degree in Management Information Systems provides students with a balanced education between business and information technologies. It provides students with a broad background in basic business knowledge, problem solving, and computer technology and skills. Graduates from this major are prepared to help organizations use computer technology to support their business processes and solve their business problems. Technologies that all MIS majors study include software development, computer architecture, database design, computer networks, and systems analysis and design. In addition, students may also elect to study advanced networks, web development and

management, data analytics, information security and computer forensics. The MIS lab provides hands-on experience in the latest technologies, including 3D printing, machine learning, and AI technologies.

Management Information Systems graduates may work for a large organization, specializing in one aspect of information technology, or as one of a few people supporting all areas of a smaller firm's computer technologies. The job will involve working with people to understand how they do their jobs and where computers can be most effective, implementing computer-based solutions, training people to use computer systems, installing and troubleshooting hardware, software, or networks, and helping management understand and plan for the best new technologies to integrate in the organization's business processes.

MIS graduates are well prepared for graduate school as well, frequently accepted to top graduate programs. The MIS Advisory Board maintains strong relationships with national and local employers, ensuring our program is developing graduates with skills to meet the current and future needs of business.

Associate of Science

Management Information Systems (AS)

- **Program Prerequisite:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ENGL 2010 or ENGL 2015, MATH 1090 or equivalent, ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These nine courses are referred to collectively as "Liberal Support" and "Business Foundations." All MIS courses numbered above 3000 require Business Foundations except MIS 3210 and MIS 3610. (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Grade Requirements:** Even though a minimum grade of "C" will be accepted in courses used to satisfy the associate's degree requirements, the WSU overall GPA requirements must also be met.
- **Credit Hour Requirements:** A total of 60 credit hours is required; a minimum of 25 of these is required within the AS program.
- **Program Code:** 4045AS
- **CIPC:** 110103

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for students pursuing a Bachelor of Science or Associates of Science as well as students pursuing minors in Accounting or Economics. To be admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534 or AdviseBusiness@weber.edu.

General Education

Refer to Degree Requirements for Associate of Science requirements. The following courses required for the Management Information Systems associates will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social

Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions. MIS 1100 SS - The Digital Society, is recommended to fulfill a general education requirement in Social Science.

Program Learning Outcomes

- Be able to use data to improve business decision making
- Be capable of developing and implementing information systems
- Be able to gather and organize relevant data and information to identify issues and problems to draw logical conclusions

Major Course Requirements for AS Degree

Courses Required (29 credit hours)

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- BSAD 2899 - Business Foundations Check **Credits: (0)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- MIS 2110 - Software Development I **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- MIS 3610 - Networks & Data Communications I **Credits: (3)**

Institutional Certificate

Data Analytics Essentials Certificate of Proficiency

- **Program Pre-requisite:** Applicants must have completed MATH 1040 or QUAN 2600.
- **Grade Requirements:** Students must complete all certificate courses with a grade of "C" or higher.
- **Credit Hours Requirements:** Six credits hours of program pre-requisites and ten credit hours of MIS courses.
- Gainful Employment Disclosure
- **Program Code:** 4056CP
- **CIPC:** 307101

The Data Analytics Essentials Certificate of Proficiency is designed to provide current and future business professionals with highly desired knowledge of Python, SQL and data visualization techniques using Tableau. In addition, students will learn data wrangling and machine learning techniques. This certificate will enable business professionals to improve decisions through improved analysis and visualization of data.

This certificate will prepare students for careers in high-demand jobs in Utah such as: Computer Systems Analysts, Management Analysts, Business Intelligence Analysts, Market Research Analysts, Financial Analysts, and Operation Research Analysts.

The Data Analytics Essentials Certificate is stackable with other credentials and can be completed as a stand-alone certificate or as part of the Data Analytics Minor program. All courses will earn credit toward several B.S. degrees from the Goddard School of Business & Economics, such as a B.S. in Management Information Systems. The certificate will be awarded upon completion of 16 credit hours.

These courses will be offered in a full-semester format. Courses will be offered in a face-to-face format at our Ogden campus, with the exception of MIS 2010, which will be offered in an online format.

Advisement

- MIS Department Chair: Dr. Seokwoo Song, 801-626-6462
- MIS Department Administrative Specialist: Nancy Tomon, 801-626-7368
- Mailing Address: 1337 Edvalson St., Dept. 3805, Ogden UT 84408
- Campus Location: Ogden Campus, Wattis Building, Room 205

Course Requirements for Data Analytics Essentials Certificate of Proficiency

Program Prerequisites (6 credit hours):

- MATH 1090 QL - Business College Algebra **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**

Courses Required (10 credit hours)

- MIS 2010 - Business Computer Skills **Credits: (1)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**
- MIS 2040 - Business Analytics with Python **Credits: (3)**
- MIS 3220 - Business Intelligence **Credits: (3)**

Bachelor of Science

Management Information Systems (BS)

- **Program Prerequisite:** MIS Associate of Science Degree, or equivalent degree or course work (which may be articulated for the MIS Associate) from an accredited AS/AA program.
Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and prior completion of ACTG 2010, ACTG 2020;BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative Goddard School (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/supply-chain-management-information-systems.html>
- **Program Code:** 4045BS
- **CIPC:** 110103

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for Bachelor of Science requirements. The following courses required for the Management Information Systems major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions. MIS 1100, The Digital Society, is recommended to fulfill a general education requirement in Social Science.

Program Learning Outcomes

- Know how to train people to use complex computer systems
- Be able to install and troubleshoot hardware
- Be capable of implementing software and networks
- Adept at helping management understand and plan for the best new technologies to integrate organization's business processes.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**

- ENGL 2015 EN2 - Intermediate College Writing & Research **Credits: (4)**

Complete one of the following Math courses:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area *before* completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C" or higher.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

3. Foundation Check (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate foundations check course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate foundations check course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **Credits: (0)** or
- ECON 2899 - Economics Foundations Check **Credits: (0)** *(for non-business Economics majors only)*

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization.

Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II **Credits: (3)**
- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- BSAD 4780 - Strategic Management **Credits: (3) ***

**BSAD 4780 should be taken near the conclusion of the program of study.*

One of the following Communication courses:

- MGMT 3200 - Managerial Communications **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**
- SCM 3200 - Supply Chain Relational Skills **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)** and
- ECON 4980 CRE - Research Methods **Credits: (3)**

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

Note

The International Core Course requirement may be fulfilled by a Study Abroad or Exchange Program. See the chair of the program for approval.

Major Course Requirements for BS Degree (27 credit hours)

Major Courses Required (18 credit hours)

- MIS 2110 - Software Development I **Credits: (3)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- MIS 3610 - Networks & Data Communications I **Credits: (3)**
- MIS 4600 - Information Security I **Credits: (3)**
- MIS 4730 - IT Project Management and Systems Design **Credits: (3)**

Concentration Elective Courses (9 credit hours)

Select 3 courses from the following:

- MIS 2040 - Business Analytics with Python **Credits: (3)**
- MIS 3220 - Business Intelligence **Credits: (3)**
- MIS 3230 - Data Mining for Business **Credits: (3)**
- MIS 3620 - Networks and Data Communications II **Credits: (3)**
- MIS 3700 - E-business Technologies & Web Development **Credits: (3)**
- MIS 3740 - Business Machine Learning **Credits: (3)**
- MIS 4700 - Information Security II **Credits: (3)**
- MIS 4710 - Enterprise Software Development **Credits: (3)**
- MIS 4720 - Emerging Information Technologies **Credits: (3)**
- MIS 4893 INT - Cooperative Work Experience **Credits: (3)**

Supply Chain Management (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B. Goddard School of Business & Economics (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.

- **CIPC:** 520203

Academic Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Supply Chain Management major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science), ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Be able to utilize data to improve business decision making
- Be able to communicate effectively (verbal and written)
- Be able to collaborate effectively with people
- Be capable of applying core supply chain functional skills

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

Note

The International Core Course requirement may be fulfilled by a Study Abroad or Exchange Program. See the chair of the program for approval.

5. Major Course Requirements for BS Degree (27 credit hours)

Business Courses Required (18 credit hours)

- MIS 2030 - Introduction to Business Analytics **Credits: (3)**
- SCM 3300 - Purchasing & Strategic Sourcing **Credits: (3)**
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)**
- SCM 3600 - Logistics & Transportation **Credits: (3)**
- SCM 3400 - Quality Management and Process Improvement **Credits: (3)**

- SCM 4400 GLB - Global Supply Chain Management **Credits: (3) ***
- SCM 3200 - Supply Chain Relational Skills **Credits: (3)**
- SCM 4550 - Strategic Supply Chain Management **Credits: (3) ****

Notes:

** SCM 4400 satisfies the International Course requirement under the Business Core as well as the Business Courses requirement.*

***SCM 3200 satisfies the Communication course requirement under the Business Core as well as the Business Courses requirement.*

Elective Courses (9 credit hours)

Select at least one course from Group A below and the remaining courses from either Group A or Group B (see an advisor for guidance in course selection).

- SCM 2400 - Fundamentals of Project Management **Credits: (3)**
- SCM 4700 - Supply Chain Case Analysis, Logic, and Presentation **Credits: (3)**
- SCM 4840 - Operations & Supply Chain Industry Projects **Credits: (3)**
- SCM 4850 - Supply Chain Management Study Abroad **Credits: (1-3)**
- SCM 4860 INT - Supply Chain Management Internship **Credits: (3)**

Elective Course - Group B

- MIS 3220 - Business Intelligence **Credits: (3)**
- MIS 2810 - Experimental Course **Credits: (1-6)**
- FIN 3500 - Capital Budgeting **Credits: (3)**
- ACTG 3300 - Cost Accounting **Credits: (3)**
- BSAD 3500 - Introduction to Business Research **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**

Completion of the Entrepreneurship Minor satisfies the Elective Course - Group B requirement.

Approved 3000 level course from the College of Engineering, Applied Science and Technology satisfies the Elective Course - Group B requirement.

Emphasis Option for Bachelor of Interdisciplinary Studies

Management Information Systems (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Refer to Bachelor of Integrated Studies (BIS) requirements.
- **Grade Requirements:** Each MIS class must be completed with a grade of C or better, and the overall GPA for MIS classes must be at least 2.5.

- **Credit Hour Requirements:** 19 hours of MIS courses selected in consultation with an MIS advisor.
- **Program Code:** 4045
- **CIPC:** 110103

Course Prerequisites, Advisement and Admission Requirements

All prerequisites must be completed before upper-division enrollment. For most classes this includes the business foundations and therefore can add up to 15 credits to your program of study.

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d)diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Suggested Courses (13 credit hours)

- MIS 2010 - Business Computer Skills **Credits: (1)**
- MIS 2110 - Software Development I **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- MIS 3610 - Networks & Data Communications I **Credits: (3)**

Elective Courses (6 credit hours)

Select two of the following

- MIS 3620 - Networks and Data Communications II **Credits: (3)**
- MIS 3700 - E-business Technologies & Web Development **Credits: (3)**
- MIS 4600 - Information Security I **Credits: (3)**
- MIS 4700 - Information Security II **Credits: (3)**
- MIS 4710 - Enterprise Software Development **Credits: (3)**
- MIS 4720 - Emerging Information Technologies **Credits: (3)**

Minor

Data Analytics Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** A total of a minimum 25 credit hours are required for all registered students.
- **Program Code:** 4048 and cohort DA_SC for Students in School of Computing or DA_GSBE for Students in Goddard School of Business and Economics.
- **CIPC:** 110102

Prerequisite Courses (6-10 credits)*

Students in School of Computing

- CS 1030 - Foundations of Computing **Credits: (4)** or
- CYBR 1300 - Networks and Emerging Technologies **Credits: (3)**
- MATH 1040 QL - Introduction to Statistics **Credits: (3)**

Students in Goddard School of Business and Economics

- MATH 1050 QL - College Algebra **Credits: (4)** or
- MATH 1090 QL - Business College Algebra **Credits: (3)**
- MIS 2110 - Software Development I **Credits: (3)** or
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**

Required Courses (a minimum of 19 credits)

Core Courses (a minimum of 13 credits)

- MIS 3210 - Database Design and Implementation **Credits: (3)** or
- CS 2550 - Introduction to Database Design and SQL **Credits: (4)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**
- CS 3550 - Advanced Database Programming **Credits: (4)** or
- MIS 3230 - Data Mining for Business **Credits: (3)**
- CS 4580 - Data Science Algorithms **Credits: (4)**

Elective Courses (a minimum of 6 credits)

- CS 2420 - Introduction to Data Structures and Algorithms **Credits: (4)**
- CS 4500 - Introduction to Artificial Intelligence **Credits: (4)**
- MIS 3740 - Business Machine Learning **Credits: (3)** or

- CS 5600 - Machine Learning **Credits: (3)**
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)**
- MIS 3220 - Business Intelligence **Credits: (3)**

Note:

This minor is available to all students. Approval of a minor program by the John B. Goddard School of Business and the College of Engineering, Applied Science and Technology is required. Approval of elective courses by the Business Administration department and School of Computing is required.

See the Goddard School Advising Center, WB 211, (801) 626-6534 for advisement.

**Students from other departments can choose either of the two paths. Students are responsible for understanding any pre-requisites or conditions for chosen electives.*

Management Information Systems Minor

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** 19 semester credit hours are required for non-business majors and 15 credits are required for business majors. Approval of a minor program by the Management Information Systems department is required.
- **Program Code:** 4045
- **CIPC:** 110103

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Course Requirements for Minor

Non-Business Majors (19 credit hours)

Courses Required (13 credit hours)

- MIS 2010 - Business Computer Skills **Credits: (1)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- MIS 2110 - Software Development I **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- MIS 3610 - Networks & Data Communications I **Credits: (3)**

Elective Courses (6 credit hours)

Select two of the following

- MIS 3620 - Networks and Data Communications II **Credits: (3)**
- MIS 3700 - E-business Technologies & Web Development **Credits: (3)**

- MIS 4600 - Information Security I **Credits: (3)**
- MIS 4700 - Information Security II **Credits: (3)**
- MIS 4710 - Enterprise Software Development **Credits: (3)**
- MIS 4720 - Emerging Information Technologies **Credits: (3)**

Business Majors (15 credit hours)

Courses Required (12 credit hours)

- MIS 2110 - Software Development I **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- MIS 3610 - Networks & Data Communications I **Credits: (3)**
- MIS 4600 - Information Security I **Credits: (3)**

Elective Courses (3 credit hours)

Select one of the following

- MIS 3620 - Networks and Data Communications II **Credits: (3)**
- MIS 3700 - E-business Technologies & Web Development **Credits: (3)**
- MIS 4700 - Information Security II **Credits: (3)**
- MIS 4710 - Enterprise Software Development **Credits: (3)**
- MIS 4720 - Emerging Information Technologies **Credits: (3)**

Supply Chain Management Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A minimum GPA of 2.5 in the minor courses. A course grade of "C" or higher is required for all business and economics courses.
- **Credit Hour Requirements:** 15-18 credit hours are required for the minor.
- **Program Code:** 4032
- **CIPC:** 520203

Academic Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Students may be admitted to this minor program without meeting other business school admission requirements if they meet the minor program prerequisites and receive approval from the Supply Chain Management Department. Students may obtain information regarding admissions to the minor from the Supply Chain Management Department, WB 205, (801) 626-7368.

Required Courses (15 credit hours)

- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- SCM 3300 - Purchasing & Strategic Sourcing **Credits: (3)**
- SCM 3400 - Quality Management and Process Improvement **Credits: (3)**
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)**
- SCM 3600 - Logistics & Transportation **Credits: (3)**

****Students majoring in Engineering Technology or Engineering may substitute the three courses MSE 3850, MSE 3910, and MSE 4590 in place of SCM 3400.***

Admission to SCM Minor in substitution for BSAD 2899.

Elective Course for SCM Minor (3 credit hours)

Select one course from the following (see an advisor for guidance in course selection)

- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**
- SCM 4700 - Supply Chain Case Analysis, Logic, and Presentation **Credits: (3)**
- SCM 4840 - Operations & Supply Chain Industry Projects **Credits: (3)**
- SCM 4850 - Supply Chain Management Study Abroad **Credits: (1-3)**
- MIS 2030 - Introduction to Business Analytics **Credits: (3)**
- MIS 3210 - Database Design and Implementation **Credits: (3)**
- MIS 4730 - IT Project Management and Systems Design **Credits: (3)**

Master of Business Administration Program (MBA)

MBA Program Director: Dr. François Giraud-Carrier

MBA Assistant Program Director/Enrollment Director: Andrew Wright, 801-395-3528

MBA Department Administrative Specialist: Ruth Preece, 801-395-3519

Location: WSU Davis- 2750 University Park Blvd., Layton

The Master of Business Administration program is intended for working adults who wish to advance in their careers. The MBA program is designed to enhance general management abilities and provides an opportunity to further develop functional business skills. Our general management graduate curriculum consists of "hybrid courses" that combine traditional classroom instruction with online educational tools.

In addition to the MBA, the following Graduate Certificates are offered:

- Aerospace Management
- Business Analytics
- Business Development
- Contract Management in Business
- Cyber Security
- Management Information Systems: Information Assurance
- Sustainability for Business

Post Baccalaureate Certificate

Aerospace Management Post Baccalaureate Certificate

Location: Davis Campus - 2750 University Park Blvd., Layton

Gainful Employment Disclosure

Students earning a Graduate Certificate in Aerospace Management will become knowledgeable about strategic management, continuous process improvement, program management, supply chain management, and contract management in an aerospace context.

This graduate certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The certificate will be awarded upon completion of four graduate-level elective courses (12 credit hours) in the MBA Program. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** Twelve credit hours of MBA courses. Some prerequisites may need to be completed prior to enrollment in MBA 6150 - Operations/Supply Chain Management.
- **Program Code:** 4036PBC
- **CIPC:** 520201

Courses Required for Graduate Certificate

Required Courses

- MBA 6150 - Operations/Supply Chain Management **Credits: (3)**
- MBA 6370 - CPI & Strategy in Aerospace Management **Credits: (3)**
- MBA 6360 - Aerospace Program Management **Credits: (3)**
- MBA 6740 - Principles of Contract Management **Credits: (3)**

Business Analytics Post Baccalaureate Certificate

The Graduate Certificate in Business Analytics is designed to provide business professionals with the knowledge and analytical tools needed to uncover novel patterns, trends, correlations, and strategic insights. This graduate certificate will help business professionals improve business decision making using analytical skills, models, and processes.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

Location: Davis Campus - 2750 University Park Blvd., Layton

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.

- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hours Requirements:** Fifteen credit hours of MBA courses.
- **Program Code:** 4054PBC
- **CIPC:** 110802

Required Courses

- MBA 6160 - Applications of Decision Models **Credits: (3)**
- MBA 6260 - Data Visualization Using Tableau **Credits: (3)**
- MBA 6620 - Data Mining for Business **Credits: (3)**
- MBA 6660 - Forecasting and Time Series **Credits: (3)**

Elective Courses

One of the following

- MBA 6310 - Information Technology in the Enterprise **Credits: (3)**
- MBA 6640 - Cyber Security **Credits: (3)**
- MBA 6670 - Cloud Computing **Credits: (3)**
- MBA 6680 - Graduate Consulting Project **Credits: (3)**
- MBA 6800 - Directed Study **Credits: (1-3)**

Business Development Post Baccalaureate Certificate

The Post-Baccalaureate Certificate in Business Development is designed to provide business professionals with the knowledge and skills needed to effectively start new businesses, market products and services, sell effectively, analyze data, and make strategic business decisions.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

Location: Davis Campus - 2750 University Park Blvd., Layton

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hours Requirements:** Twelve credit hours of MBA courses.
- **Program Code:** 4053PBC
- **CIPC:** 520701

Required Courses

- MBA 6560 - Business/Market Planning Using Online Resources **Credits: (3)**
- MBA 6850 - Business Development and Entrepreneurship **Credits: (3)**

Elective Courses

Two of the following

- MBA 6160 - Applications of Decision Models **Credits: (3)**
- MBA 6260 - Data Visualization Using Tableau **Credits: (3)**
- MBA 6320 - Strategic Procurement **Credits: (3)**
- MBA 6330 - Logistics **Credits: (3)**
- MBA 6430 - International Marketing **Credits: (3)**
- MBA 6540 - Negotiations **Credits: (3)**
- MBA 6550 - Managing and Improving Quality **Credits: (3)**
- MBA 6580 - Project Management **Credits: (3)**
- MBA 6660 - Forecasting and Time Series **Credits: (3)**
- MBA 6740 - Principles of Contract Management **Credits: (3)**
- MBA 6870 - Sales Strategy & Management **Credits: (3)**

Contract Management in Business Post Baccalaureate Certificate

Location: Davis Campus - 2750 University Park Blvd., Layton

Gainful Employment Disclosure

Students earning a Graduate Certificate in Contract Management in Business will become knowledgeable about the practice of contract management in the federal and commercial environment and gain experience in planning, organizing and managing contracts.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hours Requirements:** Twelve credit hours of MBA elective courses.
- **Program Code:** 4035PBC
- **CIPC:** 520202

Courses Required for Graduate Certificate

Required Courses

- MBA 6740 - Principles of Contract Management **Credits: (3)**
- MBA 6750 - Financial Aspects of Contract Management **Credits: (3)**
- MBA 6760 - Legal Aspects of Contract Management **Credits: (3)**

Elective Courses

Select one of the following:

- MBA 6540 - Negotiations **Credits: (3)**
or
- MBA 6580 - Project Management **Credits: (3)**
or
- MBA 6320 - Strategic Procurement **Credits: (3)**

Cybersecurity Post Baccalaureate Certificate

The Post-Baccalaureate Certificate in Cybersecurity focuses on the fundamentals of cybersecurity, security policies, penetration testing, enterprise IT management, and networking. Courses in this program emphasize how to improve information security within organizations. This program allows students to quickly increase their technical capabilities in the cybersecurity field with hands-on applied projects, expert instruction, and advanced training environments.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

Location: Davis Campus - 2750 University Park Blvd., Layton

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hours Requirements:** Twelve credit hours of MBA courses.
- **Program Code:** 4052PBC
- **CIPC:** 111003

Required Courses

- MBA 6310 - Information Technology in the Enterprise **Credits: (3)**
- MBA 6630 - Networking **Credits: (3)**
- MBA 6640 - Cyber Security **Credits: (3)**
- MBA 6650 - Penetration Testing **Credits: (3)**

Management Information Systems: Information Assurance Post Baccalaureate Certificate

MBA Program Director: Dr. Shaun Hansen, 425-231-9770

MBA Enrollment Director: Andrew Wright, 801-395-3528

MBA Department Administrative Specialist: Sally Taylor 801-395-3519

Location: Davis Campus - 2750 University Park Blvd., Layton

Gainful Employment Disclosure

The Graduate Certificate in Management Information Systems / Information Assurance is designed to provide business professionals with the conceptual tools and language to more effectively deploy information technology and enhance organizational performance.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Two of the following

- MBA 6160 - Applications of Decision Models **Credits: (3)**
- MBA 6530 - E-Business **Credits: (3)**
- MBA 6630 - Networking **Credits: (3)**
- MACC 6570 - Information Systems Auditing **Credits: (3)**

Supply Chain Management Post Baccalaureate Certificate

The Post-Baccalaureate Certificate in Supply Chain Management prepares students for leadership roles and decision-making responsibilities within supply chain operations across various industries. As industries grow increasingly dependent on effective supply chain management, this certificate will provide essential training for leadership positions in this critical field. Graduates will acquire skills to improve operational efficiency, optimize supply chains, and drive organizational growth. This certificate will cater to employees from various industries, including aerospace, defense, and transportation, helping them improve supply chain processes, implement continuous improvement methodologies, and manage purchasing and logistics.

The certificate can be completed as a part of the WSU MBA Program in the Goddard School of Business and Economics or as a stand-alone certificate. The courses will be offered in a hybrid delivery format with eight weeks of face-to-face interaction enhanced by online discussions and learning activities.

Location: Davis Campus - 2750 University Park Blvd., Layton

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.

- MBA 6320 - Strategic Procurement **Credits: (3)**
- MBA 6330 - Logistics **Credits: (3)**

Elective Course -- Choose 1

- MBA 6160 - Applications of Decision Models **Credits: (3)**
- MBA 6370 - CPI & Strategy in Aerospace Management **Credits: (3)**
- MBA 6550 - Managing and Improving Quality **Credits: (3)**
- MBA 6580 - Project Management **Credits: (3)**
- MBA 6700 SUS - Managing for Sustainability **Credits: (3)**
- MBA 6740 - Principles of Contract Management **Credits: (3)**

Sustainability for Business Post Baccalaureate Certificate

Location: Davis Campus - 2750 University Park Blvd., Layton
Gainful Employment Disclosure

The Graduate Certificate in Sustainability for Business is designed for graduate students to explore and evaluate how business organizations can address sustainability issues to meet societal needs and create competitive advantages. Students must complete four courses (minimum of 12 credit hours) of existing MBA elective courses in environmental sustainability in order to be awarded the Graduate Certificate in Sustainability for Business. The certificate can be completed along with the MBA Degree at the Goddard School of Business and Economics or as a stand-alone certificate.

- **Program Prerequisite:** Applicants must possess a bachelor's degree from a regionally accredited institution or be in the final stage of completing the undergraduate degree. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** Students must complete all MBA program courses with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** Twelve credit hours of existing MBA elective courses in environmental sustainability.
- **Program Code:** 4039PBC
- **CIPC:** 520101

Courses Required for Graduate Certificate

- MBA 6700 SUS - Managing for Sustainability **Credits: (3)**
- MBA 6715 - Sustainability Tools and Methods **Credits: (3)**
- MBA 6720 - Business, Economics, and the Environment **Credits: (3)**

Elective Courses for the Graduate Certificate

- MBA 6730 - Consulting Project in Sustainability **Credits: (3)** Or
- Any approved MBA course **Credits (3)** And
- MBA 6800 - Directed Study **Credits: (1-3)**
(The subject of the directed study should build upon sustainability topics related to the approved MBA class)

Master of Business Administration

Master of Business Administration (MBA)

- **Program Prerequisite:** Applicants must have earned a bachelor's degree from a regionally accredited institution (or international equivalent) or be in the final stage of completing the undergraduate degree. If proof of completion of the bachelor's degree has not been received prior to the start of an admitted student's first semester in the MBA Program, they will not be allowed to start classes in the program until an official transcript with the posted bachelor's degree has been received by the MBA Program office. Completion of a course in college algebra or equivalent is required to enroll in MBA courses. Basic computer competency is also required.
- **Grade Requirements:** To earn the MBA degree, candidates must complete all MBA program courses with a grade of "C" or higher. In addition, the overall cumulative MBA Program GPA must be 3.0 or higher, excluding transfer credits from other WSU graduate programs or other institutions. An elective course in which a grade lower than "C" is earned may be repeated or another elective may be taken in its place. Failure to maintain a 3.0 grade point average after two consecutive semesters, will result in academic probation in accordance with departmental policies. Students must meet with their academic advisor after notification of academic probation. Two consecutive semesters of academic probation will result in suspension from the program. A waiver of suspension will be considered according to due process.
- **Credit Hour Requirements:** The MBA degree ordinarily requires a minimum of 36 semester hours of graduate work for persons with a recent undergraduate business degree from an AACSB-accredited business school. Individuals with business undergraduate degrees from non-AACSB-accredited schools may be required to complete additional foundations course work contingent on departmental analysis of their undergraduate transcripts. For persons with a non-business undergraduate degree, the program typically requires 54 semester hours, including foundations or leveling courses. Exemptions from foundations courses may be made based on equivalent undergraduate coursework. Specific program and course requirements are shown below.
- **Program Code:** Business Undergrad (4026MBA1), Non-Business Undergrad (4026MBA2)
- **CIPC:** 52.0201

Major Field Exemption

Students with business-related undergraduate degrees are exempted from the required MBA course in their major field of study (e.g. accounting, finance, economics, information systems, marketing, management, supply chain management, human resources) and will take an additional elective MBA course in its place.

The MBA Program Office must approve each MBA student's plan of study. The plan of study will show all courses necessary to meet the degree requirements. A formal plan of study will be filed when a student is accepted into the program.

If students deviate from their program of study without PRIOR written and documented departmental approval, those courses will NOT be counted toward graduation. Taking unapproved courses will be a costly and time intensive mistake. If you are in doubt about a course, please call or email the office and make an appointment with your advisor BEFORE starting the class.

Non-MBA Electives

Qualified students may take up to two MACC (Master of Accounting), MHA (Master of Health Administration), or MTAX (Master of Taxation) courses as MBA electives, counting six credit hours toward their MBA elective requirements. Four MHA courses may be counted towards MBA elective requirements for dual MBA-MHA degree students. Please contact the department to assure you meet pre-requisites for your desired elective and for assistance in getting an over ride in order to add the class to your schedule.

Qualified graduate students currently accepted into other Weber State University grad programs may cross over and take classes from the MBA. Students must meet all pre-requisites for any MBA class they may choose. An email from your graduate advisor stating that they will accept the MBA class as an elective into your program is required. Have them email mba@weber.edu requesting the course with the student's W number. An over ride to register will be placed in Banner and the student notified that they can add the class to their schedule.

Transfer Credits/Residency Requirements

The minimum residency requirements for the Goddard School MBA Program is two-thirds of the required number of credit hours for undergraduate business majors (the 36-hour track) and for non-business majors (the 54-hour track). Students who have completed business-related graduate course work at another AACSB-accredited institution prior to admission to the program may apply for transfer of graduate credits to satisfy their Goddard School MBA program of study, the number of transfer credits not to exceed the minimum residency requirements for the 36-hour or 54-hour program tracks (see above). Once admitted to the program, students may transfer only elective credits into the program from another AACSB-accredited institution. Required course credits may be accepted in transfer from another institution after admission to the Goddard School MBA Program only in circumstances where the student is unable to complete all required courses in residence due to relocation. All transfers are subject to program approval.

Time to Degree Completion

MBA students have a maximum of six calendar years to complete their degree completion requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this requirement may submit a letter of appeal to the MBA Program Director to request that this requirement be waived. Students who fail to enroll in MBA courses for more than six years must apply for readmission to the program.

Admission Requirements

In addition to the program prerequisites specified above, the primary criteria in determining eligibility for admission to the Goddard School MBA Program are: previous academic achievement, work experience and career progression. The ideal applicant will present a strong overall previous academic record, and strong letters of recommendation. Moreover, under certain circumstances, the admissions committee may require the applicant to submit an official GMAT score before an admissions decision is made.

Applicants must submit a completed application form and current resume, as well as transcripts from every institution of higher education attended. Letters of recommendation from appropriate professional and/or academic references are also required. Each applicant is considered on an individual basis. The MBA program will have limited enrollment. Any applicant who is admitted while other courses or programs are still in process of completion is admitted conditionally.

Additional Admission Requirements for International Students:

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. For applicants for whom English is not their first language, a minimum English language proficiency score or equivalent is required. (TOEFL = 75 overall, or IELTS 6.5 overall, or equivalent demonstration of language proficiency as established through the Weber State International Student and Scholar Center.) Students with a bachelor's degree or higher from a regionally-accredited (or equivalent) university in which the language of instruction was English may be exempt from English-language proficiency testing.

In addition to a language proficiency score, all applicants educated outside the U.S. must submit transcripts that have been evaluated by a WSU approved foreign credentials evaluation service. For a list of approved agencies, click here: <https://weber.edu/issc/foreign-credentials-evaluation-services.html>

A translated transcript is not accepted. Transcripts must be evaluated on a course-by-course format, showing U.S. semester credit and grade equivalent for each course based on a 4.0 GPA scale.

Students participating in WSU approved "Exchange Programs" within the Goddard School of Business and Economics must meet the following requirements:

1. Partner school must nominate student
2. Provide evidence of English proficiency as indicated above
3. Meet all application and visa requirements as established by the International Students office. More information is available at this link: <http://www.weber.edu/issc>

Program Learning Outcomes

Goddard School MBA graduates will be:

- Effective business analysts.
 - MBA students will analyze and interpret financial data for decision making.
 - MBA students will evaluate business systems and make recommendations for improvement.
- Strategic thinkers.
 - MBA students will use the appropriate tools to identify, analyze and make suggestions to improve a company's competitive strategy.
- Globally informed.
 - MBA students will research and analyze current trends occurring in the global economy.
- Stakeholder-focused leaders.
 - MBA students will understand how to utilize the psychological science of trust through a focus on capability, character, and compassion.
 - MBA students will be able to compare/contrast prominent leadership theories, and to utilize these theories, along with their own introspection, to develop their own "theory of ethical leadership."

MBA Program Requirements for Students with a Non-Business Undergraduate Degree

Foundations (15 credit hours)

Prerequisites: Admission to MBA program and college algebra or equivalent.

- MBA 6010 - Legal and Regulatory Environment of Business **Credits: (3)**
- MBA 6020 - Financial and Managerial Accounting **Credits: (3)**
- MBA 6040 - Managerial Economics **Credits: (3)**
- MBA 6050 - Quantitative Methods I **Credits: (3)**
- MBA 6051 - Quantitative Methods II **Credits: (3)**

Other Required Courses (24 credit hours)

- MBA 6110 - Fundamentals of Ethical Leadership **Credits: (3)**
- MBA 6120 - Organizational Behavior **Credits: (3)**
- MBA 6130 - Financial Management **Credits: (3)**
- MBA 6140 - Marketing Management **Credits: (3)**

Capstone (3 credit hours)

- MBA 6180 - Strategic Management **Credits: (3)** or
- MBA 6560 - Business/Market Planning Using Online Resources **Credits: (3)**

Master of Accounting Program (MACC)

Program Director: Ryan Pace, 801-626-7562

Website: www.weber.edu/macc

An accounting professional in today's environment must possess a high level of technical competence, a sense of commitment to service, communication skills, analytical skills, and the ability to work well with people. To obtain the required body of knowledge and to develop the skills and abilities needed to be successful accounting professionals, serious consideration must be given to study beyond a four-year baccalaureate program. The Master of Accounting (MACC) Program provides an additional year of training for the professional accountant. In addition, the MACC satisfies the requirements of the Utah Certified Public Accountant Licensing Act for those wishing to sit for the Uniform CPA Examination. It gives the students an opportunity to increase the depth of their understanding in key areas and allows a broadening of perspective by providing course work in a variety of areas that cannot be considered in an undergraduate program due to time constraints.

Master of Accounting

Master of Accounting (MAcc)

- **Grade Requirements:** A Master of Accounting MAcc student must complete all MAcc program courses, including electives, and any leveling courses, with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in accounting.
- **Exit Survey Requirements:** The program requires all graduating students to satisfactorily complete all exit surveys as assigned by the department.
- **Program Code:** 4037MAcc
- **CIPC:** 521301

Admissions Requirements

- A four year Bachelor's degree from a regionally accredited university or equivalent. If the degree is not in Accounting, leveling courses may be required for acceptance into the program.
- Minimum grade point average of at least 3.0 (3.3 preferred) in each of the following three areas:
 - a. Overall GPA
 - b. The last 60 credit hours of undergraduate work
 - c. Accounting course work only

Applicants must submit an online application, current resume, and official transcripts from every institution of higher education attended. Two letters of recommendation are required. At least one of those letters should come from individuals who can evaluate the applicant's academic abilities. All letters should address the applicant's potential for successful graduate study. Each applicant is considered on an individual basis. Under certain circumstances, the admissions committee may require the applicant to submit an official GMAT score before an admissions decision is made.

Additional Admission Requirements for International Students:

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) which is not more than two years old. The TOEFL must have a minimum score of 80 (Internet-Based) and the IELTS must have a minimum of 6.5 with a minimum of 5.0 on each section. An alternative English language proficiency test (e.g., Duolingo) may also be used with prior approval from the Master of Accounting Program. International students will be required to have their foreign transcript evaluated for U.S. equivalency.

Application

Application for admission to the Master of Accounting Program should normally be made by August 1 (fall semester), December 1 (spring semester), and April 1 (summer semester) of the year during which admission is sought. Application for admission must include official GMAT results (if required), official undergraduate transcripts, resume, and two letters of recommendation.

It is expected that the Master of Accounting Program will entail a minimum of two semesters of full-time study for a student with a bachelor's degree in accounting. Students with other business-related degrees can expect to spend about two years in the program. Those with non-business related undergraduate degrees should plan to spend at least three years in the program.

Contact the School of Accounting & Taxation for a separate and detailed bulletin on the Master of Accounting Program.

Advisement

For questions concerning academic advisement, the primary source of contact will be the Master of Accounting Program Advisor or Director. For issues regarding registration and scheduling, students will contact the School of Accounting & Taxation Graduate Enrollment Manager. Career services are offered through the Goddard School of Business & Economics Career Center.

Program Learning Outcomes

- Be effective researchers and communicators
- Will understand and comply with tax laws and regulations
- Be ethically aware
- Be analytical thinkers
- Be globally informed

Course Requirements for Master of Accounting

Required

- MACC 6120 - Financial Accounting & Reporting **Credits: (3)**
- MACC 6160 - Financial Statement Analysis **Credits: (3)**
- MACC 6180 - Advanced Accounting Data Analytics **Credits: (3)**
- MACC 6610 - Advanced Accounting Information Systems **Credits: (3)**
- MACC 6590 - Risk Assessment, and Internal Controls **Credits: (3)**

Restricted MAcc Electives

At least one of the following (3 credit hours):

- MACC 6330 - Strategic Management Accounting **Credits: (3)**
- MACC 6560 - Advanced Auditing & Assurance Services **Credits: (3)**

Restricted MTax Electives

At least one of the following (3 credit hours):

- MTAX 6400 - Tax Research & Procedure **Credits: (3)**
- MTAX 6405 - Accounting for Income Taxes **Credits: (3)**
- MTAX 6430 - Advanced Individual Taxation **Credits: (3)**
- MTAX 6460 - Advanced Corporate Taxation **Credits: (3)**
- MTAX 6470 - Advanced Partnership Taxation **Credits: (3)**

Other Electives

In addition to the previously listed courses, MAcc students are required to complete 9 additional hours of electives. They may select any other MAcc or MTax courses. Select MBA courses approved by the MAcc Program Director may also be used up to a maximum of 6 credit hours. Also, other program opportunities such as internships, CPA exam preparation, and study abroad upon approval of the MAcc Program Director, may be used to satisfy elective requirements for up to 6 credit hours.

Master of Taxation (MTax)

Program Director: Ryan Pace, 801-626-7562

Website: www.weber.edu/mtax

The tax laws are vast, complex, and dynamic. Basic tax courses at the undergraduate level do not provide sufficient breadth or depth of coverage for future CPAs and tax consultants. Consequently, instruction at the graduate level is necessary. Tax law is a major branch of accounting. The Master of Taxation degree gives more recognition to a graduate as a tax specialist than does a Master of Accounting degree. The program is designed to provide students with the highly technical and demanding skills necessary to be effective tax and business consultants. Students will also acquire important tools necessary for effective research and communication in taxation.

Post Baccalaureate Certificate

Taxation Post Baccalaureate Certificate

- **Program Pre-requisites:** Bachelor's degree or higher.
- **Grade Requirements:** A student may earn the Taxation Graduate Certificate from the School of Accounting & Taxation by completing the following courses with an overall GPA of at least 3.0.
- **Credit Hour Requirements:** 15 credit hours total.
- **Program Code:** 4055PBC
- **CIPC:** 521601

Course Requirements (12 credit hours)

- MTAX 6400 - Tax Research & Procedure **Credits: (3)**
- MTAX 6430 - Advanced Individual Taxation **Credits: (3)**
- MTAX 6460 - Advanced Corporate Taxation **Credits: (3)**
- MTAX 6470 - Advanced Partnership Taxation **Credits: (3)**

Additionally, select one of the following (3 credit hours)

- MTAX 6210 - Business Law and Legal Liability **Credits: (3)**
- MTAX 6405 - Accounting for Income Taxes **Credits: (3)**
- MTAX 6803 - Individual Study **Credits: (3)**

Master of Taxation

Master of Taxation (MTax)

- **Grade Requirements:** A Master of Taxation (MTax) student must complete all MTax program courses, including electives, and any leveling courses, with a grade of "C" or higher. In addition, the overall program GPA must be 3.0 or higher.
- **Credit Hour Requirements:** The program requires a minimum of 30 semester hours beyond a bachelor's degree in accounting.
- **Exit Survey Requirements:** The program requires all graduating students to satisfactorily complete all exit surveys as assigned by the department.
- **Program Code:** 4033MTAX
- **CIPC:** 521601

Admissions Requirements

- A four year Bachelor's degree from a regionally accredited university or equivalent.
- Minimum overall GPA of at least 3.0 (3.3 preferred).
- Minimum GPA of at least 3.0 (3.3 preferred) in the last 60 credit hours of undergraduate work.

Applicants must submit an online application, current resume, and official transcripts from every institution of higher education attended. Two letters of recommendation are required. All letters should address the applicant's potential for successful graduate study. Each applicant is considered on an individual basis. If an applicant has had minimal exposure to tax or accounting concepts, the admissions committee may require that the applicant complete some leveling courses prior to admission or during the program. Moreover, under certain circumstances, the admissions committee may require the applicant to submit an official GMAT score before an admissions decision is made.

Additional Admission Requirements for International Students:

All international students and any applicant educated outside the U.S. must demonstrate proficiency in English. Those whose native language is not English, or whose language of instruction for their undergraduate degree was not English, will be required to submit a score from the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) or equivalent test which is not more than two years old. The TOEFL must have a minimum score of 80 (Internet-Based), and the IELTS must have a minimum of 6.5 with a minimum of 5.0 on each section. International students may be required to have their foreign transcripts evaluated for U.S. equivalency. Please contact the School of Accounting and Taxation to determine with a GMAT will be required.

Application

Application for admission to the Master of Taxation Program should normally be made by **August 1** (fall semester), **December 1** (spring semester), and **April 1** (summer semester) of the year during which admission is sought. Application for admission must include official GMAT results (if required), official undergraduate transcripts, resume, and two letters of recommendation.

It is expected that the Master of Taxation Program will entail a minimum of two semesters of full-time study for a student with a bachelor's degree in accounting. Students with other degrees should contact the program director to determine which leveling courses may be necessary.

Contact the School of Accounting & Taxation for a separate and detailed bulletin on the Master of Taxation Program.

Advisement

For questions concerning academic advisement, the primary source of contact will be the Master of Taxation Graduate Enrollment Manager or Director. For issues regarding registration and scheduling, students will contact the

School of Accounting & Taxation Graduate Enrollment Manager. Career services are offered through the Goddard School of Business & Economics Career Center.

Program Learning Outcomes

- Be effective researchers and communicators.
- Will understand and comply with tax laws and regulations.
- Be ethically aware.
- Be analytical thinkers.
- Be globally informed.

Course Requirements for Master of Taxation

Required

All MTax students are required to complete the following courses (15 credit hours):

- MTAX 6400 - Tax Research & Procedure **Credits: (3)**
- MTAX 6405 - Accounting for Income Taxes **Credits: (3)**
- MTAX 6430 - Advanced Individual Taxation **Credits: (3)**
- MTAX 6460 - Advanced Corporate Taxation **Credits: (3)**
- MTAX 6470 - Advanced Partnership Taxation **Credits: (3)**

Restricted Electives

At least one of the following (3 credit hours):

- MTAX 6410 - International Taxation **Credits: (3)**
- MTAX 6437 - State & Local Tax/Exempt Orgs **Credits: (3)**
- MTAX 6455 - Gifts, Estates, Trusts & Real Estate Taxation **Credits: (3)**
- MTAX 6487 - Retirement Plans **Credits: (3)**
- MTAX 6490 - Mergers, Acquisitions and Consolidations **Credits: (3)**

Other Electives

In addition to the previously listed courses, MTax students are required to complete 12 additional hours of electives. They may select any other MAcc or MTax courses. Select MBA courses approved by the MTax Program Director may also be used up to a maximum of 6 credit hours. Also, other program opportunities such as internships, CPA exam preparation, and study abroad, upon the approval of the MTax Program Director, may be used to satisfy elective requirements for up to 6 credit hours. If a student is part of the MTax Online Program, or does not have an undergraduate degree in accounting, class selections are typically restricted to MTax courses only.

School of Accounting, Finance & Taxation

Department Chair: Darcie Costello

Location: Wattis Business Building, Room 221

Telephone: 801-626-6072

Professors: Jefferson Davis, Yuhong Fan, James Hansen, Ryan Pace, Eric Smith; **Associate Professors:** David

Folsom, Andrea Gouldman, Jim Turner, Valerie Chambers, Darcie Costello, Weiwei Wang; **Instructors:** Lisa Hopkins, Loisanne Kattelman, Terrilyn Morgan

Accounting

The School of Accounting & Taxation creates a synergy between accounting, business, and economic theory and contemporary practice to prepare working professionals and full-time students for careers in a global, culturally diverse, information-driven economy. Three principles are central to our mission:

- **Education** - The first, and foremost, is fostering learning through excellent teaching, individual attention, and scholarship, which develops, assesses, and disseminates good practice.
- **Research** - The second is the application of theory to practice through applied research and scholarship, and the utilization of applied research to further learning in the classroom and through co-curricular activities.
- **Community** - The third is advancing contemporary practice and creating learning opportunities by contributing to the accounting profession and to business and the community.

Accounting is defined as the process of gathering, classifying, interpreting, and presenting financial and non-financial information for decision-making purposes to diversified user groups. The field of accounting encompasses the well-recognized profession of public accounting including auditing, management advisory services, and tax services; professional careers in industry such as management accounting (controllship), cost accounting, and internal auditing; careers in various governmental agencies and other accounting and business-related fields.

Certification in public accounting in Utah requires 30 semester hours beyond a baccalaureate degree. Students should take advantage of opportunities to prepare themselves to sit for one of the professional examinations (such as Certified Public Accountant, Certified Management Accountant, and/or Certified Internal Auditor) at the culmination of their accounting program.

Finance

After studying in the School's core courses about the various functions in organizations, the student who concentrates in finance learns how to efficiently acquire, allocate, and control a firm's financial resources.

A background in finance will prepare the student to: (1) conduct detailed financial analyses; (2) relate the financial environment of an organization to the policies that organization will need for optimum returns; and (3) select and analyze investment opportunities for both individuals and organizations.

Bachelor of Science

Accounting (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." All Accounting courses numbered above 3000 require admission to the Goddard School and Business Foundations except ACTG 3110 and ACTG 3400.
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B. Goddard School of Business & Economics (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Exit Survey Requirements:** The program requires all graduating students to satisfactorily complete all exit surveys as assigned by the department.
- **Website:** <https://weber.edu/business/school-accounting-taxation.html>
- **Program Code:** 4001BS
- **CIPC:** 521301

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Accounting major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); COMM 1020 or 2110 (Humanities); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Understand the professional role played by accountants in society.
- Effectively utilize the accounting cycle.
- Understand the audit processes.
- Be proficient with accounting information systems and controls.
- Understand tax law and compliance.
- Effectively use research tools.
- Be globally informed.

John B. Goddard School of Business & Economics Requirements

John B. Goddard School of Business & Economics Curriculum

The program of study within the John B. Goddard School of Business & Economics is designed to assist the students from admission to career placement. All degree programs within the Goddard School follow the same general pattern which is composed of five required elements: (1) Liberal Support Curriculum, (2) Business Foundations, (3) Admission and Major Declaration, (4) Business Core, and (5) Major Discipline.

1. Liberal Support Curriculum (6-7 credit hours)

The Liberal Support Curriculum consists of courses outside the John B. Goddard School of Business & Economics which provide critical skills and information useful to all business students. Students should complete the Liberal

Support Curriculum as soon as possible because the knowledge attained in these courses will be used throughout the business curriculum.

Complete one of the following English courses:

- ENGL 2010 EN2 - Intermediate College Writing **Credits: (3)**
- ENGL 2015 EN2 - Intermediate College Writing & Research **Credits: (4)**

Complete one of the following Math courses:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**

ENGL 2010 or ENGL 2015 and MATH 1050 or MATH 1090 must be completed with a grade of "C" or higher and may not be taken on a CR/NC basis. Courses required in the Liberal Support Curriculum for Goddard School majors may be used to satisfy specific university and general education requirements.

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2400 and QUAN 2600. Students seeking a degree within the Goddard School of Business & Economics should plan to take the necessary mathematics courses as early as possible in their program of study.

2. Business Foundations Curriculum (17 credit hours)

Each major discipline within the Goddard School designates different course work. Consult the Degrees/Programs listing for the Major course work required. Generally, students should begin taking courses within their major area *before* completing all of the courses in the Business Core. Refer to department degree maps for assistance in course sequencing.

The Business Foundations Curriculum provides the base for all business and economic degree programs and should be completed early in the student's academic studies. To satisfy the Business Foundations requirement, courses must be completed with a grade of "C" or higher.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

3. Foundation Check (0 credit hours)

Students intending to pursue a Bachelor of Science or Associate of Science from the John B. Goddard School of Business & Economics must take the appropriate foundations check course listed below. Students wishing to minor in Accounting or Economics must also take the appropriate foundations check course. Other minors and certificates do not require any admissions course. Students should register for this course concurrent with (same semester as) or after their last required Business Foundations Course.

- BSAD 2899 - Business Foundations Check **Credits: (0)** or
- ECON 2899 - Economics Foundations Check **Credits: (0)** *(for non-business Economics majors only)*

Admission and Major Declaration

Refer to the criteria and process for admittance to the Goddard School by visiting John B. Goddard School of Business & Economics.

4. Business Core (33-34 credit hours)

The Business Core exposes students to the traditional areas of business and provides the competencies needed to analyze problems and interact with individuals from different units of an organization.

Everyone working in business needs a knowledge of these areas. Students should take course work within the Business Core as they are completing the courses within the Major Discipline. Many of the courses in the Business Core are prerequisites for other classes. Keeping this in mind and using department degree maps will assist students in course sequencing.

Required Core Courses

- QUAN 3610 - Business Statistics II **Credits: (3)**
- BSAD 3200 - Legal Environment of Business **Credits: (3)**
- BSAD 3330 - Business Ethics & Environmental Responsibility **Credits: (3)**
- FIN 3200 - Financial Management **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- SCM 2050 - Introduction to Operations and Supply Chain Management **Credits: (3)**
- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**
- MIS 2020 - Introduction to Information Systems **Credits: (3)**
- BSAD 4780 - Strategic Management **Credits: (3) ***

**BSAD 4780 should be taken near the conclusion of the program of study.*

One of the following Communication courses:

- MGMT 3200 - Managerial Communications **Credits: (3)**
- PS 3250 - Business Communication **Credits: (3)**
- SCM 3200 - Supply Chain Relational Skills **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ECON 4970 - Introduction to Research Methods **Credits: (1)** and
- ECON 4980 CRE - Research Methods **Credits: (3)**

One of the following International courses:

- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- ECON 3110 - International Trade **Credits: (3)**
- ECON 3120 GLB - International Finance and Monetary Systems **Credits: (3)**
- ECON 4170 - Economic Development **Credits: (3)**
- MIS 3710 GLB - Global Issues in Information Technology **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MKTG 3600 GLB - International Marketing **Credits: (3)**
- SCM 4400 GLB - Global Supply Chain Management **Credits: (3)**

Note

The International Core Course requirement may be fulfilled by a Study Abroad or Exchange Program. See the chair of the program for approval.

5. Major Course Requirements for BS Degree (33 credit hours)

Required Major Courses (30 credit hours)

All course prerequisites must be met. Refer to the course descriptions for required prerequisites.

- ACTG 3110 - Intermediate Financial Accounting I **Credits: (3)**
- ACTG 3120 - Intermediate Financial Accounting II **Credits: (3)**
- ACTG 3130 - Accounting Data Analytics **Credits: (3)**
- ACTG 3300 - Cost Accounting **Credits: (3)**
- ACTG 3400 - Taxation of Individuals **Credits: (3)**
- ACTG 3750 - Accounting & Information Systems **Credits: (3)**
- ACTG 4510 - Auditing **Credits: (3)**
- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3) ***
- ACTG 4440 - Taxation of Business Entities **Credits: (3)**

- QUAN 2400 - Business Calculus **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**

**ACTG 4140 satisfies the International requirement under the Cross-Functional Core as well as the Required Major course requirement.*

Oral Communications Elective (3 credit hours)

Select one of the following:

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**

Finance (BS)

- **Program Prerequisites:** Most business and economics courses with numbers above 3000 require formal admission to the John B. Goddard School of Business & Economics and completion of ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010, and QUAN 2600. These seven courses are referred to collectively as "Business Foundations." (Refer to the John B. Goddard School of Business & Economics Requirements.)
- **Minor:** Not required.
- **Grade Requirements:** Candidates for the bachelor of science degree must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative John B.

Goddard School (major) GPA must be 2.5 or higher. The WSU grade point average must meet university requirements.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. The required 40 upper-division credit hours (courses numbered 3000 and above) are included in the School and major requirements.
- **Residency Requirement:** Students must satisfactorily complete 50 percent of the total required course work and 60 percent of the upper-division requirements from the Goddard School. Furthermore, any transferred credit must be approved prior to beginning the program of study. Refer to John B. Goddard School of Business & Economics for credit policy and transfer credit policy.
- **Website:** <https://weber.edu/business/school-accounting-taxation.html>
- **Program Code:** 4042BS
- **CIPC:** 520801

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

General Education

Refer to Degree Requirements for the University Bachelor of Science requirements. The following courses required for the Finance major (BS) will also satisfy general education requirements: ENGL 2010 or ENGL 2015 (English Composition); MATH 1050 or MATH 1090 (Quantitative Literacy); ECON 2010 or ECON 2020 (Social Science); ECON 1740 is recommended to fulfill the Senate Bill Requirement in American Institutions.

Program Learning Outcomes

- Understand the professional role played by finance and financial institutions in business and society.
- Graduates will exhibit knowledge of theoretical concepts, ideas, and topics of Financial Analysis, Corporate Finance, and Investments.
- Be able to perform financial analysis

- FIN 3500 - Capital Budgeting **Credits: (3)**
- FIN 4400 - Financial Problems - Corporate Finance **Credits: (3)**
- FIN 4410 - Financial Problems - Investments **Credits: (3)**

- QUAN 2400 - Business Calculus **Credits: (3)** or
- MATH 1210 - Calculus I **Credits: (4)**

**ECON 3120 or ACTG 4140 will satisfy the International Course requirement under the Business Core as well as the Major Course requirement.*

Elective Courses (9 credit hours)

Select three courses:

- ACTG 3110 - Intermediate Financial Accounting I **Credits: (3)**
- ACTG 3120 - Intermediate Financial Accounting II **Credits: (3)**
- ACTG 3400 - Taxation of Individuals **Credits: (3)**
- BSAD 3500 - Introduction to Business Research **Credits: (3)**
- BSAD 4210 - Survey of Business Law **Credits: (3)**
- BSAD 4500 - Entrepreneurship **Credits: (3)**
- ECON 3200 - Money and Banking **Credits: (3)**
- ECON 4520 - Public Finance **Credits: (3)**
- FIN 3400 - Real Estate Principles and Practices **Credits: (3)**
- FIN 4860 INT - Finance Internship **Credits: (1-3)**
- MKTG 3200 - Selling and Sales Management **Credits: (3)**
- SCM 3500 - Spreadsheet Modeling for Prescriptive Analytics **Credits: (3)**
- SCM 3400 - Quality Management and Process Improvement **Credits: (3)**
- One Additional International Course from Goddard School list

Minor

Accounting Minor/BIS

- **Grade Requirements:** Candidates for minors must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative Business Foundations GPA,

John B. Goddard School of Business & Economics (minor) GPA, and the overall university GPA must be 2.5 or higher.

- **Credit Hour Requirements:** A total of 30 credit hours is required. Of the 30 hours, 15 hours are accounting classes and the remaining classes are support courses.
- **Website:** <https://weber.edu/business/school-accounting-taxation.html>
- **Program Code:** 4001
- **CIPC:** 521301

For Goddard School majors other than finance, this minor includes up to nine credit hours of course work beyond requirements in major field, depending on the electives chosen. Finance majors can complete an accounting minor with no additional hours beyond the major requirements, depending on the electives chosen.

This minor is available to all students. Business students must complete the minor requirements in addition to all major requirements. All prerequisites for required courses must be satisfied.

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for students pursuing a Bachelor of Science or Associates of Science as well as students pursuing minors in Accounting, Finance, or Economics. To be admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534.

Required Support Course (3 or 4 hours)

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2600.

Select One:

- MATH 1050 QL - College Algebra **Credits: (4)**
- MATH 1090 QL - Business College Algebra **Credits: (3)**

Business Foundations (17 Hours)

The Goddard School Business Foundations courses serve as prerequisites for the accounting minor required and elective classes. Although not every required or elective class has every Business Foundations class as a prerequisite, students cannot earn the accounting minor without completing all the Goddard School Business Foundations courses.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**

- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- BSAD 2899 - Business Foundations Check **Credits: (0)**

Required Minor Courses (6 Hours)

- ACTG 3110 - Intermediate Financial Accounting I **Credits: (3)**
- ACTG 3120 - Intermediate Financial Accounting II **Credits: (3)**

Elective Minor Courses (3 Hours)

Select One:

- ACTG 3300 - Cost Accounting **Credits: (3)**
- ACTG 3400 - Taxation of Individuals **Credits: (3)**
- ACTG 3750 - Accounting & Information Systems **Credits: (3)**
- ACTG 4140 - Accounting for Global and Complex Entities **Credits: (3)**
- ACTG 4510 - Auditing **Credits: (3)**

Finance Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** Candidates for minors must complete all prerequisite and required business and economics courses with a grade of "C" or higher. In addition, the cumulative Business Foundations GPA, John B. Goddard School of Business & Economics (minor) GPA, and the overall university GPA must be 2.5 or higher.
- **Credit Hour Requirements:** A total of 36 credit hours are required for all registered students to complete the minor, including hours earned in prerequisite classes.
- **Program Code:** 4042
- **CIPC:** 520801

For Goddard School majors other than Business Administration and Supply Chain Management, this minor includes nine credit hours of course work beyond requirements in the major field. Business Administration and Supply Chain Management majors can complete a finance minor with six additional hours beyond the major requirements, depending on the electives chosen.

This minor is available to all students. Business students must complete the minor requirements in addition to all major requirements. All prerequisites for required courses must be satisfied.

Advisement

Advisement is strongly encouraged for all Goddard School majors and minors. See more information on available advising resources in the John B. Goddard School of Business & Economics section of this catalog.

Admission Requirements

Acceptance to the John B. Goddard School of Business & Economics is required for students pursuing a Bachelor of Science or Associates of Science as well as students pursuing minors in Accounting, Finance, or Economics. To be

admitted, students must register for BSAD 2899. Students may obtain information regarding admissions from the Goddard School Advising Center, WB 211, (801) 626-6534.

Required Support Course (3 or 4 Hours)

MATH 1010 is a prerequisite for ECON 2010 and ECON 2020. MATH 1050 or MATH 1090 is a prerequisite for QUAN 2600.

- MATH 1050 QL - College Algebra **Credits: (4)** OR
- MATH 1090 QL - Business College Algebra **Credits: (3)**

Business Foundations (17 Hours)

The Goddard School Business Foundations courses serve as prerequisites for the finance minor required and elective classes. Although not every required or elective class has every Business Foundations class as a prerequisite, students cannot earn the finance minor without completing all the Goddard School Business Foundations courses.

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ACTG 2020 - Survey of Accounting II **Credits: (3)**
- BSAD 2620 - Executive Lectures/Career Development **Credits: (1)**
- ECON 2010 SS - Principles of Microeconomics **Credits: (3)**
- ECON 2020 SS - Principles of Macroeconomics **Credits: (3)**
- MIS 2010 - Business Computer Skills **Credits: (1)**
- QUAN 2600 SUS - Business Statistics I **Credits: (3)**
- BSAD 2899 - Business Foundations Check **Credits: (0)**

Prerequisite Course From Business Core (3 Hours)

QUAN 3610 is a prerequisite for FIN 3300 and FIN 4400.

- QUAN 3610 - Business Statistics II **Credits: (3)**

Required Minor Courses (9 Hours)

Students must complete the courses listed below:

- FIN 3200 - Financial Management **Credits: (3)**
- FIN 3300 - Investments **Credits: (3)**
- FIN 3500 - Capital Budgeting **Credits: (3)**

Elective Minor Courses (3 Hours)

Students must also complete one course from the list below:

- FIN 3350 - Financial Institutions **Credits: (3)**
- FIN 3400 - Real Estate Principles and Practices **Credits: (3)**
- FIN 4400 - Financial Problems - Corporate Finance **Credits: (3)**
- FIN 4410 - Financial Problems - Investments **Credits: (3)**

Telitha E. Lindquist College of Arts & Humanities

Deborah Uman, Dean

The Telitha E. Lindquist College of Arts & Humanities offers comprehensive programs encompassing the visual and performing arts, languages, literature, and communications. The programs of the College are designed to help students gain a thorough understanding of their cultural and aesthetic heritage and to prepare them for employment opportunities that will take advantage of the special skills developed through rigorous study of the arts and humanities. The educational and cultural programs of the departments are available to both major and non-major students.

The curriculum of the Telitha E. Lindquist College of Arts & Humanities is enriched by special lectures, exhibitions, dramatic and musical productions. Many nationally known artists perform each year before audiences drawn from the campus and the community.

Associate Dean: Sarah Steimel

Matthew S. Browning Center for Design

The Matthew S. Browning Center for Design draws on a number of different disciplines and strands of experience to imagine new design solutions for a variety of applications, including graphic design, data visualization, lighting design, product design, game design, service design, and much more. Students will engage with a broad range of media, interfaces, spaces and cultures to develop skills valuable for entry into graduate school programs, professional schools and/or the labor market.

Weber: The Contemporary West

Editor: Dr. Michael Wutz
Managing Editor: Alexandria Thompson
Telephone: 801-626-6473

Instituted in 1984 as *Weber Studies*, this interdisciplinary humanities journal is published under the auspices of the Telitha E. Lindquist College of Arts & Humanities. Indexed in leading indexes in the humanities and social sciences, the journal is peer-reviewed and has an international editorial board. For more information see weberjournal.weber.edu.

Wasatch Writers Center

Wasatch Writers Center fosters numerous programs for WSU students and the community, such as the Wasatch Range Writing Project, our robust visiting writer series, our writers in the schools program, Weber Book Links, our undergraduate literary journal *Metaphor*, and many others.

Department of Communication

Department Chair: Dr. Anne Bialowas
Location: Elizabeth Hall, Room 330
Telephone: 801-626-6426

Professors: Anne Bialowas, Rebecca Johns, Sheree Josephson, Colleen Packer Berg, Sarah Steimel; **Associate Professors:** Michael Ault, Nicola Corbin, Nicole Defenbaugh, Hailey Gillen Hoke, Alexander Lancaster, Jean Norman; **Assistant Professors:** Aaron Atkins, Andrea Baltazar, Li Chen, Mylynn Felt, Robin Haislett, Leslie Howerton, Nathan Rodriguez, Ashkan Soltani-Stone; **Instructors:** Mark Galaviz, Natalie Hales, Lauren Johnson, James McAllister, Stephen Salmon, Deann Shepherd, Brent Warnock

Communication is a dynamic process that plays a complex and profound role in shaping both individuals and society and is vital to the free exchange of ideas central to a democratic society. The Weber State University Department of Communication seeks to promote an understanding of this process and the effective and ethical practice of human communication by focusing on how people create and use messages to generate meanings within and across various contexts, cultures, channels and media, including those delivered through technology. WSU Communication Department curricula and programs are grounded within a liberal arts tradition and are designed to help students live vital and successful lives in an ever-changing global environment.

The curriculum for the major is designed to provide a liberal arts-based study of human communication combined with a course of study that prepares graduates for entry-level employment in Communication and Communication-related careers. The major also prepares students for graduate study in Communication and related disciplines. The Department is committed to enhancing student learning through required internships and through co-curricular opportunities afforded by our award-winning student-operated organizations, including The Signpost, KWCR Wildcat Radio, Ogden Peak Communications, Studio 76, and Weber State Debate and Speech Team.

Communication majors may select one of six emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. They may also select a Communication Teaching major with emphases in Communication Studies or Multimedia Journalism. Students may earn the Communication major as either a Bachelor of Arts or a Bachelor of Science degree.

The Communication minor and the Bachelor of Integrated Studies concentration in Communication (BIS) are designed to provide students with knowledge and skills in Communication that complement the major or other concentrations of study.

The interdisciplinary associate's degree in Workplace Communication & Writing is a career-oriented program designed to prepare students for entry-level careers in many fields while also preparing students for bachelor's

degrees in Communication. The Associate of Science in Communication is another two-year degree offered that benefits students from many professions where communication plays a critical role.

In addition to emphasizing knowledge, understanding, and demonstrated competence in the skills of human communication, curricular and co-curricular programs emphasize the development of character in students. Accordingly, department faculty discourage symbolic expression that demeans and degrades other human beings, and encourage symbolic expression that celebrates the fundamental dignity of all human beings.

Obsolete Credit

Credit earned more than 10 years earlier than the proposed date of graduation will not be accepted for the major, minor or BIS concentration in Communication unless validated through a challenge examination or department chair approval.

Co-curricular and Extra-curricular Activities

Scholarships, Fellowships, and Tuition Waivers

Scholarships and/or tuition waivers are available to WSU Policy Debate Speech Team competitors and to The Signpost, KWCR Wildcat Radio, Ogden Peak Communications, and Studio 76 staff members. Other academic scholarships are also available. Contact the department office at 801-626-6426 or visit the department website at weber.edu/communication for more information.

Professional and/or Honorary Organizations

Communication students are encouraged to join one or more of the professional and/or honorary organizations affiliated with the department. Memberships in these organizations provide students with opportunities to meet and network with Communication professionals, learn about employment opportunities in the field of Communication, and participate in practical experiences relevant to future employment. Professional organizations in Communication include:

Society of Professional Journalists (SPJ)

Public Relations Student Society of America (PRSSA)

Lambda Pi Eta Honor Society (LPH)

Weber State Debate and Speech Team

Participation in intercollegiate debate and speech team activities is conducted in conjunction with the instructional program in argument, public speaking, and civic advocacy. Students participate in debate and speech team tournaments under supervision of the program's directors. The Department of Communication hosts the annual Bob Mukai College Classic, the annual Val Browning Round Robin, and the state high school debate and speech championship. Policy debate is a two-on-two format, centering on a policy question derived from a resolution. Policy debate simultaneously challenges and improves student research, analytical, advocacy, and public speaking skills. Speech competition is a contest between individuals or teams in various argument and advocacy skills that can be used and applied across the educational spectrum. There are four main categories of competition: platform speaking, interpretive speaking, limited preparation, and individual debate.

Weber State Student Media

The Signpost

Multimedia Journalism students polish reporting, writing, and multimedia skills at The Signpost, Weber State University's student-run news organization. Content is disseminated online 24/7 and via newspaper two days a week.

KWCR Wildcat Radio

Students practice and develop their knowledge and resumes by joining Weber State's student-run, digital-streaming radio station KWCR Wildcat Radio. Student staffers gain experience in audio production, podcast creation, live broadcasting, public relations, live event planning, social campaigns, and seeking music promoters and sponsorship opportunities. KWCR streams music, local sports, news, and specialty programs on the MyWeberMedia app and the RadioFX app.

Studio 76

Studio 76 produces high-quality video content for campus and community organizations as well as creates multiple studio shows ranging from a weekly newscast produced for The Signpost to in-studio entertainment shows. Studio 76 also offers live-streaming services to many campus clubs and organizations. Content is shown online via MyWeberMedia.com or Studio 76's YouTube channel.

Ogden Peak Communications

Students run a public relations and advertising agency to apply the skills they have learned in the classroom. Ogden Peak Communications works with clients to develop content and campaigns. Students take on the same roles and responsibilities as PR professionals.

My Weber Media

Members of each student media co-curricular area collaborate through the My Weber Media Group and distribute media content on the converged media site MyWeberMedia.com. Students develop multimedia skills and learn about cross-promotion. The My Weber Media site contains news and views from The Signpost, video content from Studio 76, music and interviews from KWCR Wildcat Radio, as well as promotional material from Ogden Peak Communications. Additional content includes student films and live streaming of important events.

Interdisciplinary Associate's and Minor

The Communication Department participates in the interdisciplinary associate's degree in Workplace Communication and Writing (AA). Students who wish to enroll in this program should contact the Communication Department or one of the college advisors for the College of Arts & Humanities who will help them work out a schedule. The department also participates in the Linguistics Minor/BIS. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Associate of Arts

Digital Media Production (AA)

- **Grade Requirements:** Institutional grade-point average of 2.0 or better.
- **Credit Hour Requirements:** The Associate of Arts in Digital Media Production is a specialized associate's degree consisting of a minimum of 61 semester credit hours with a minimum of 15 in Digital Media

Production core with a cumulative grade-point average of 2.0 or better. The degree consists of a minimum of 37 credits of General Education classes paired with classes dedicated to professional and artistic expression via digital media, video or film, and 6 credits of Foreign Languages. This degree stacks with the bachelor's degree in Communication with a Digital Media emphasis OR with the interdisciplinary Film Studies bachelor's degree in the College of Arts & Humanities. In Communication classes, students obtain a theoretical perspective on digital media and go on to learn practical skills such as writing, producing audio and video content, performing on audio and video productions, and computer editing skills associated with content creation for the web, social media, film and other purposes. Students apply these skills in Communication classes associated with the converged media site, mywebermedia.com. Elective courses come from Art, Theater and Web. The culminating experience is a capstone course where students work on their resume, portfolio, and interviewing skills while becoming acquainted with the field of digital media and film production.

- **Program Code:** 3091AA
- **CIPC:** 090199

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts & Humanities at least annually for course and program advisement. Email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information).

General Education

Refer to Degree Requirements for Associate of Arts requirements, which include 6 credits of Foreign Language.

Digital Media Production Core (15 credits)

- COMM 1130 - Media Writing **Credits: (3)** or
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2890 - Cooperative Work Experience for The Signpost **Credits: (1-3)** or
- COMM 2999 - Capstone in Workplace Communication and Writing **Credits: (3)**

Digital Media Production Electives (3 credits)

- ART 1120 - Design Concepts **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
Whichever course not taken above:
- COMM 1130 - Media Writing **Credits: (3)** or
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**

- COMM 1130 - Media Writing **Credits: (3)** or
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 1500 - Introduction to Mass Communication **Credits: (3)** or
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2890 - Cooperative Work Experience for The Signpost **Credits: (1-3)** or
- COMM 2999 - Capstone in Workplace Communication and Writing **Credits: (3)**

Digital Media Production Electives (6 credits)

- ART 1120 - Design Concepts **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**

Whichever course not taken above:

- COMM 1130 - Media Writing **Credits: (3)** or
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**

Whichever course not taken above:

- COMM 1500 - Introduction to Mass Communication **Credits: (3)** or
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)**
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**
- COMM 2890 - Cooperative Work Experience for The Signpost **Credits: (1-3)** (if not taken above)
- COMM 2999 - Capstone in Workplace Communication and Writing **Credits: (3)** (if not taken above)
- THEA 1023 CA - Introduction to Film **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**

- THEA 2403 - Stage Management **Credits: (3)**
- WEB 1400 - Web Design and Usability **Credits: (3)**
- WEB 2200 - Image Editing **Credits: (3)**
- WEB 2410 - Web Animation I **Credits: (3)**
- WEB 2500 - User Experience Design **Credits: (3)**

Note

Only 6 credits of COMM 2730 and COMM 2890 can be counted toward AS degree.

Institutional Certificate

Social Media and Data Analytics Certificate of Proficiency

The Certificate of Proficiency in Social Media and Data Analytics enables students and professionals to validate their intermediate data analysis skills in social media research and strategic planning in communication. This validation provides a competitive advantage in current or future employment, broadens business opportunities, and strengthens the connections between academia and industry. This certificate equips individuals with a solid foundation in social media strategy and research, making them valuable assets to employers in the communication industry.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate Credit Hour Requirements: A total of 18 credit hours is required.
- **Program Code:** 3109CP
- **CIPC:** 090702

Advisement

Students are advised by faculty and the Academic Advisor for the Department of Communication.

Admission Requirements N/A Program Learning Outcomes

- Analyze social media data to inform effective communication strategies that support organizational goals.
- Utilize social media analytics to measure the impact of campaigns and optimize content strategies.
- Interpret and communicate data-driven insights to inform decision-making in social media marketing and strategic planning.
- Evaluate emerging social media trends and technologies and their potential implications for organizations.

Major Course Requirements

Required Courses (9 credit hours)

Complete the following (9 credit hours)

- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3880 - Audience Analysis **Credits: (3)**

Elective Courses (9 credit hours)

9 credit hours selected from the following courses.

- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 4880 - Social Media Metrics and Measurement **Credits: (3)**
- COMM 3894 - Advanced Cooperative Work Experience with Social Media and Data Analytics Lab **Credits: (1-3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)** <limited to the social media manager position>
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)** <limited to the social media manager position>
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)** <limited to the social media manager position>
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)** <limited to the social media manager position>
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**

Bachelor of Arts

Communication (BA)

Areas of Emphasis

Select one of the following areas of emphasis

- Communication (BA), Civic Advocacy Emphasis
- Communication Teaching (BA), Communication Studies Emphasis
- Communication (BA), Digital Media Emphasis
- Communication (BA), Interpersonal & Family Communication Emphasis
- Communication (BA), Multimedia Journalism Emphasis
- Communication Teaching (BA), Multimedia Journalism Emphasis
- Communication (BA), Organizational Communication Emphasis
- Communication (BA), Public Relations and Strategic Communication Emphasis
- Communication (BA), Social Media & Data Analytics

Communication (BA), Civic Advocacy Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family

Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.

- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123), Social Media & Data Analytics (3109).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.
- **Diversity:** Be sensitive to difference and discrimination in society and value diversity.
- **Career Readiness:** Be prepared to enter a professional career or graduate school.
- **Critical thinking:** Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- **Law/Ethics:** Understand communication law and ethics to enable legal and ethical communication.
- **Theory:** Understand how various communication theories have been developed, applied, and evaluated.
- **Research:** Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.

- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Civic Advocacy Emphasis (45 credit hours)

The mission of the Civic Advocacy emphasis is to educate students who wish to serve as advocates in the interest of the public good. Those who might benefit from this interdisciplinary emphasis include students who want to become attorneys, legislators, environmental advocates, animal rights activists, religious leaders, homeless advocates, politicians, children's advocates, advocates for minority and marginalized populations, etc.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Environmental Advocacy
- Ethnic Studies/Ethnic Advocacy
- Legal Advocacy
- Public Policy Advocacy
- Religion Advocacy
- Women's Advocacy

Required Courses (27 credit hours)

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2270 - Argumentation and Debate **Credits: (3)** or
- COMM 1270 - Analysis of Argument **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)** or
- COMM 3090 - Gender and Communication **Credits: (3)**

Three of the following courses (9 credit hours):

- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as "Political Communication"*

Elective Courses (18 credit hours)

See department advisor for an approved list of additional non-Communication Department courses for the tracks (18 credit hours).

Communication (BA), Digital Media Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123), Social Media & Data Analytics (3109).

- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Digital Media Emphasis (45 credit hours)

An emphasis in Digital Media will teach students about the importance of deadlines, budgets, and the impact their actions have on a production team. Advanced students will gain understanding about the art and power of communicating messages through video, audio, and the web.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- **Entertainment:** acquire skills in production, writing, and content development to prepare to pursue further graduate study and careers within the entertainment industry.
- **Digital Media Production:** acquire skills producing, writing, shooting, editing, directing, and distributing video content. Focused on creating and sharing institutional, educational, and commercial video productions.

Required Courses (30 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)**
- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3750 - Advanced Cinematography and Editing **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)** (3 semesters at 1 credit hour each)
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**

- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as digital media-related topic and with permission of instructor*
- COMM 4800 - Special Study and Individual Projects **Credits: (1-3)**

Elective Courses (15 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).

Communication (BA), Interpersonal & Family Communication Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division is required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101),

Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication course-work at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors - weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy general education requirements: COMM 1020, COMM 2010, and COMM 2110.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**

- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Interpersonal & Family Communication Emphasis (45 credit hours)

The Interpersonal & Family Communication emphasis is designed to help students understand, explain, and improve friendship, marriage, family, and other meaningful long- and short-term interpersonal relationships. Communication is the central enabling feature or framework through which we all function, create, and share meaning, sustain identities, and negotiate our relationships with each other and the rest of the world. This program of study will teach students to understand these complex, dynamic relationships.

Required Courses (24 credit hours)

- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**

- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3085 - Family Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

Required Outside the Department (6 credits)

- FAM 1400 - Marriage and Romantic Relationships **Credits: (3)** or
- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- WGS 1500 SS/CC - Introduction to Women, Gender, and Queer Studies **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1270 - Analysis of Argument **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**

- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**

Elective Courses (12 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (12 credit hours).

Communication (BA), Multimedia Journalism Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.

- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.
- **Diversity:** Be sensitive to difference and discrimination in society and value diversity.
- **Career Readiness:** Be prepared to enter a professional career or graduate school.
- **Critical thinking:** Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- **Law/Ethics:** Understand communication law and ethics to enable legal and ethical communication.
- **Theory:** Understand how various communication theories have been developed, applied, and evaluated.
- **Research:** Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- **History:** Know the history of the communication discipline and its societal and professional implications.
- **Media:** Use and produce media to communicate messages.
- **Interpersonal/Small Group:** Facilitate successful communication in interpersonal situations and small group settings.
- **Listening:** Listen actively to acquire and analyze information.

- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**

- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Multimedia Journalism Emphasis (45 credit hours)

The Multimedia Journalism emphasis teaches students how to collect and write information or produce video and audio content regarding current events-including trends, issues, and people-for publication in a website, newspaper, or magazine. The curriculum emphasizes writing skills and video/audio production skills, but students also learn about research, interviewing, editing, layout and design, and legal and ethical issues in journalism.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Technical Writing
- Web Publishing
- Literary Journalism
- General Reporting
- Sports Journalism

Required Courses (30 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3200 - Live Event Production **Credits: (1-3)** (*select 3 credit hours*) OR
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)** (*select 3 credit hours*)
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**

Three of the following courses (9 credit hours):

- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**

- COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)**
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4400 INT - Public Relations Media and Campaigns **Credits: (3)**
- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as journalism-related topic and with permission of instructor*

Elective Courses (15 credit hours)

See department advisor for an approved list of additional non-Communication Department courses for the tracks (15 credit hours).

Communication (BA), Organizational Communication Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division is required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).

- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication course-work at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors - weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy general education requirements: COMM 1020, COMM 2010, and COMM 2110.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR

- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Organizational Communication Emphasis (45 credit hours)

An Organizational Communication emphasis provides students with a foundation employers seek-effective professional communication in the workplace.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- **Generalist:** Does not specialize. The generalist has the communication skills and knowledge to lead groups and develop organizational strategies necessary for management. Rather than focus on the career areas of technical writing or training and development, the generalist combines organizational communication with expertise in a secondary subject of interest. Minors in disciplines such as Spanish, health administration,

political science, psychology, or economics are a valuable combination with an Organizational Communication Generalist emphasis.

- **Technical Writing:** Synthesizes technical information into messages easily understood by a given audience. Technical writers produce organizational policy and training manuals, employee newsletters, brochures, grant applications, and annual reports.
- **Training & Development:** Conducts training needs assessments for diverse groups, designs workshops, writes training manuals, evaluates classroom technology and equipment needs, and evaluates training.

Required Courses (27 credit hours)

- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)** or
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)** OR
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3085 - Family Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**

Required Courses outside the Department (18 credit hours)

Technical Writing track (18 credit hours):

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**

- ENGL 4110 - Content Management **Credits: (3)**
- WEB 1400 - Web Design and Usability **Credits: (3)**

Training & Development track (18 credit hours):

- BSAD 1010 - Introduction to Business **Credits: (3)**
- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MGMT 3200 - Managerial Communications **Credits: (3)**
- MGMT 3300 - Human Resource Management **Credits: (3)**
- MGMT 3350 - Employment and Labor Law **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MGMT 4320 - Staffing Organizations **Credits: (3)**
- MGMT 4350 - Training **Credits: (3)**
- WEB 3400 - LAMP Stack Web Development **Credits: (3)**

Communication (BA), Public Relations and Strategic Communication Emphasis

The Public Relations & Advertising emphasis provides students with theoretical and practical skills in writing, critical thinking, marketing, advertising, and communicating to influence public opinion across a range of media.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks (15 credits):

- Copywriting
- Health Care Public Relations
- International Public Relations
- Marketing
- Visual Communication

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia

Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123).

- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**

- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as public relations/advertising-related topic and with permission of instructor*

Elective Courses (15 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).

Communication (BA), Social Media & Data Analytics

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123), Social Media & Data Analytics (3109).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Social Media and Data Analytics Emphasis (45 credits)

An emphasis in Social Media and Data Analytics will provide students with an in-depth understanding of social media and how to strategically use it to communicate messages. Students will gain skills in creating social media content, analyzing social media data, and making data visualizations to communicate complex data to audiences.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Web Design: acquire skills in web design and web management
- Digital Strategy: acquire skills in digital strategy and advertising
- Audience Analytics: acquire skills in audience and consumer analysis and campaign analysis

Required for Social Media and Data Analytics Emphasis (30 credits)

- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 3880 - Audience Analysis **Credits: (3)**
- COMM 4880 - Social Media Metrics and Measurement **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3750 - Advanced Cinematography and Editing **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 3894 - Advanced Cooperative Work Experience with Social Media and Data Analytics Lab **Credits: (1-3)**

- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**

Elective Courses (15 credit hours)

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).

Communication Teaching (BA), Communication Studies Emphasis

Communication Teaching Major (BS or BA)

- **Program Prerequisite:** Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable).
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A minimum of 47-48 of these are required within the major, depending on the selected emphasis. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 24-36 of these are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media (3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media (090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

Advisement

Communication students are required to meet with a faculty advisor at least annually for course and program advisement. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements of this catalog for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. The following courses required for this

major will also fulfill general education requirements: COMM 1020 HU or COMM 2010 HU and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Requirements

The State of Utah endorses secondary teachers in two areas of Communication: Speech and Journalism. Accordingly, the Communication Teaching major is divided into two emphasis areas: Communication Studies (Speech) and Multimedia Journalism (Journalism). All Communication Teaching majors must complete one of these two emphasis areas.

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must also complete required and elective courses from non-Communication departments.

Communication Courses Required of all Communication Teaching Majors (21 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** *
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Note:

Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching major, whichever is **not used for Teacher Education admission requirements.*

Courses Required to Fulfill the BA (12 credit hours)

Complete either Option 1 or Option 2.

Option 1 - Foreign Language

- Select 4 courses (12 credit hours) in a foreign language.

Option 2 - Foreign Language with Language Arts

Select two courses (6 credit hours) from the following, plus two courses (6 credit hours) in a foreign language.

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4160 - Contemporary Rhetorical and Communication Theories **Credits: (3)**

Communication Studies Emphasis (27 credit hours)

Required Courses (18 credit hours)

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School **Credits: (3)**

Electives (9 credit hours)

Select 9 credit hours of electives from the following with approval from the department's Communication Education advisor for the Communication Studies emphasis.

- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

Communication Teaching (BA), Multimedia Journalism Emphasis

Bachelor of Science

Communication (BS)

Areas of Emphasis

Select one of the following areas of emphasis

- Communication (BS), Civic Advocacy Emphasis
- Communication Teaching (BS), Communication Studies Emphasis
- Communication (BS), Digital Media Emphasis
- Communication (BS), Interpersonal & Family Communication Emphasis
- Communication (BS), Multimedia Journalism Emphasis
- Communication Teaching (BS), Multimedia Journalism Emphasis
- Communication (BS), Organizational Communication Emphasis
- Communication (BS), Public Relations and Strategic Communication Emphasis
- Communication (BS), Social Media & Data Analytics

Communication (BS), Civic Advocacy Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.

- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123), Social Media & Data Analytics (3109).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.
- **Diversity:** Be sensitive to difference and discrimination in society and value diversity.
- **Career Readiness:** Be prepared to enter a professional career or graduate school.
- **Critical thinking:** Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- **Law/Ethics:** Understand communication law and ethics to enable legal and ethical communication.
- **Theory:** Understand how various communication theories have been developed, applied, and evaluated.
- **Research:** Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- **History:** Know the history of the communication discipline and its societal and professional implications.
- **Media:** Use and produce media to communicate messages.
- **Interpersonal/Small Group:** Facilitate successful communication in interpersonal situations and small group settings.

- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- CHEM 1360 PS - Principles of Physical Science **Credits: (3)**
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEO 1030 PS - Earthquakes and Volcanoes **Credits: (3)**
- GEO 1350 PS - Principles of Earth Science **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**

- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- BTNY 1370 LS - Principles of Life Science **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Civic Advocacy Emphasis (45 credit hours)

The mission of the Civic Advocacy emphasis is to educate students who wish to serve as advocates in the interest of the public good. Those who might benefit from this interdisciplinary emphasis include students who want to become attorneys, legislators, environmental advocates, animal rights activists, religious leaders, homeless advocates, politicians, children's advocates, advocates for minority and marginalized populations, etc.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Environmental Advocacy
- Ethnic Studies/Ethnic Advocacy
- Legal Advocacy
- Public Policy Advocacy
- Religion Advocacy
- Women's Advocacy

Required Courses (27 credit hours)

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2270 - Argumentation and Debate **Credits: (3)** or
- COMM 1270 - Analysis of Argument **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)** or
- COMM 3090 - Gender and Communication **Credits: (3)**

Three of the following courses (9 credit hours):

- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**

- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as "Political Communication"*

Elective Courses (18 credit hours)

See department advisor for an approved list of additional non-Communication Department courses for the tracks (18 credit hours).

Communication (BS), Digital Media Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123), Social Media & Data Analytics (3109).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- CHEM 1360 PS - Principles of Physical Science **Credits: (3)**
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEO 1030 PS - Earthquakes and Volcanoes **Credits: (3)**
- GEO 1350 PS - Principles of Earth Science **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- BTNY 1370 LS - Principles of Life Science **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Digital Media Emphasis (45 credit hours)

An emphasis in Digital Media will teach students about the importance of deadlines, budgets, and the impact their actions have on a production team. Advanced students will gain understanding about the art and power of communicating messages through video, audio, and the web.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- **Entertainment:** acquire skills in production, writing, and content development to prepare to pursue further graduate study and careers within the entertainment industry.

- **Digital Media Production:** acquire skills producing, writing, shooting, editing, directing, and distributing video content. Focused on creating and sharing institutional, educational, and commercial video productions.

Required Courses (30 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)**
- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3750 - Advanced Cinematography and Editing **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)** (3 semesters at 1 credit hour each)
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**
- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as digital media-related topic and with permission of instructor*
- COMM 4800 - Special Study and Individual Projects **Credits: (1-3)**

Elective Courses (15 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).

Communication (BS), Interpersonal & Family Communication Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.

- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Interpersonal & Family Communication Emphasis (45 credit hours)

The Interpersonal & Family Communication emphasis is designed to help students understand, explain, and improve friendship, marriage, family, and other meaningful long- and short-term interpersonal relationships. Communication is the central enabling feature or framework through which we all function, create, and share meaning, sustain identities, and negotiate our relationships with each other and the rest of the world. This program of study will teach students to understand these complex, dynamic relationships.

Required Courses (24 credit hours)

- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3085 - Family Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

Required Outside the Department (6 credits)

- FAM 1400 - Marriage and Romantic Relationships **Credits: (3)** or
- CHF 2400 SS/CC - Family Relations **Credits: (3)**
- WGS 1500 SS/CC - Introduction to Women, Gender, and Queer Studies **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1270 - Analysis of Argument **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**

Elective Courses (12 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (12 credit hours).

Communication (BS), Multimedia Journalism Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the

Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**

- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Multimedia Journalism Emphasis (45 credit hours)

The Multimedia Journalism emphasis teaches students how to collect and write information or produce video and audio content regarding current events-including trends, issues, and people-for publication in a website, newspaper, or magazine. The curriculum emphasizes writing skills and video/audio production skills, but students also learn about research, interviewing, editing, layout and design, and legal and ethical issues in journalism.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Technical Writing
- Web Publishing
- Literary Journalism
- General Reporting
- Sports Journalism

Required Courses (30 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3200 - Live Event Production **Credits: (1-3)** (select 3 credit hours) OR
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**

- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)** (*select 3 credit hours*)
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**

Three of the following courses (9 credit hours):

- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)**
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4400 INT - Public Relations Media and Campaigns **Credits: (3)**
- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as journalism-related topic and with permission of instructor*

Elective Courses (15 credit hours)

See department advisor for an approved list of additional non-Communication Department courses for the tracks (15 credit hours).

Communication (BS), Organizational Communication Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family

Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.

- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division is required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication course-work at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors - weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy general education requirements: COMM 1020, COMM 2010, and COMM 2110.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

Organizational Communication Emphasis (45 credit hours)

An Organizational Communication emphasis provides students with a foundation employers seek-effective professional communication in the workplace.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- **Generalist:** Does not specialize. The generalist has the communication skills and knowledge to lead groups and develop organizational strategies necessary for management. Rather than focus on the career areas of technical writing or training and development, the generalist combines organizational communication with expertise in a secondary subject of interest. Minors in disciplines such as Spanish, health administration,

political science, psychology, or economics are a valuable combination with an Organizational Communication Generalist emphasis.

- **Technical Writing:** Synthesizes technical information into messages easily understood by a given audience. Technical writers produce organizational policy and training manuals, employee newsletters, brochures, grant applications, and annual reports.
- **Training & Development:** Conducts training needs assessments for diverse groups, designs workshops, writes training manuals, evaluates classroom technology and equipment needs, and evaluates training.

Required Courses (27 credit hours)

- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**

- COMM 3080 GLB - Intercultural Communication **Credits: (3)** or
- COMM 3090 - Gender and Communication **Credits: (3)**

- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)** OR
- COMM 2010 HU - Mass Media and Society **Credits: (3)**

- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3085 - Family Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**

Required Courses outside the Department (18 credit hours)

Technical Writing track (18 credit hours):

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**

- ENGL 4110 - Content Management **Credits: (3)**
- WEB 1400 - Web Design and Usability **Credits: (3)**

Training & Development track (18 credit hours):

- BSAD 1010 - Introduction to Business **Credits: (3)**
- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- MGMT 3010 - Organizational Behavior and Management **Credits: (3)**
- MGMT 3200 - Managerial Communications **Credits: (3)**
- MGMT 3300 - Human Resource Management **Credits: (3)**
- MGMT 3350 - Employment and Labor Law **Credits: (3)**
- MGMT 3400 - International Business **Credits: (3)**
- MGMT 4320 - Staffing Organizations **Credits: (3)**
- MGMT 4350 - Training **Credits: (3)**
- WEB 3400 - LAMP Stack Web Development **Credits: (3)**

Communication (BS), Public Relations and Strategic Communication Emphasis

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, and Public Relations & Advertising. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4890 INT - Communication Internship **Credits: (1-3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- CHEM 1360 PS - Principles of Physical Science **Credits: (3)**
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEO 1030 PS - Earthquakes and Volcanoes **Credits: (3)**
- GEO 1350 PS - Principles of Earth Science **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- BTNY 1370 LS - Principles of Life Science **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Public Relations & Strategic Communication Emphasis (45 credit hours)

The Public Relations & Strategic Communication emphasis provides students with theoretical and practical skills in writing, critical thinking, marketing, advertising, and communicating to influence public opinion across a range of media.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks (15 credits):

- Copywriting
- Health Care Public Relations
- International Public Relations

- Marketing
- Visual Communication

Required Courses (21 credit hours)

- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)** (3 credits required)
OR
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 4400 INT - Public Relations Media and Campaigns **Credits: (3)** or
- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**

Non-Communication Requirement for Major (3 credits)

- MKTG 3010 - Marketing Concepts and Practices **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 2820 - Podcast Production **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**
- COMM 4500 - Topics in Communication **Credits: (3)** *only when taught as public relations/advertising-related topic and with permission of instructor*

Elective Courses (15 credit hours)

Note:

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).

Communication (BS), Social Media & Data Analytics

Communication Major

- **Program Prerequisite:** Not required.
- **Minor:** Students may complete a minor approved by their academic advisor OR one of the tracks associated with any of the six interdisciplinary emphasis areas: Civic Advocacy, Digital Media, Interpersonal & Family Communication, Multimedia Journalism, Organizational Communication, Public Relations & Advertising, and Social Media & Data Analytics. A student may not receive both a major and a minor from the Department of Communication.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable), in addition to an overall GPA of 2.00 or higher for all courses.
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A total of 40 upper-division credit hours is required (courses numbered 3000 and above). Between 27-35 credits of upper-division are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media(3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations and Strategic Communication (3123), Social Media & Data Analytics (3109).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media(090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations and Strategic Communication (090999), Social Media & Data Analytics (090702).

To enroll in upper-division Communication courses, a student must hold upper-division standing in the university. Students must complete at least 50 percent of their Communication coursework at Weber State University in order to receive a major or a minor in Communication.

Advisement

Students are encouraged to meet with the appropriate department advisor depending on their selected emphasis. Refer to the Communication Department website for a current list of department advisors: weber.edu/communication.

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for either Bachelor of Arts or Bachelor of Science requirements. See specific requirements for the BA and BS under the major course requirements. The following courses, required for the Communication major, will also satisfy General Education requirements: COMM 1020 HU, COMM 2010 HU, and COMM 2110 HU CEL.

Program Learning Outcomes

- **Writing:** Write at a level expected of a professional communicator in a selected emphasis area.

- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Areas

Select one of the following emphasis areas in Communication:

- Civic Advocacy
- Digital Media
- Interpersonal & Family Communication
- Multimedia Journalism
- Organizational Communication
- Public Relations & Advertising
- Social Media & Data Analytics

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must complete a minor approved by the department or the classes required in an interdisciplinary track.

Required Courses for Major (24 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**

- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Social Media and Data Analytics Emphasis (45 credits)

An emphasis in Social Media and Data Analytics will provide students with an in-depth understanding of social media and how to strategically use it to communicate messages. Students will gain skills in creating social media content, analyzing social media data, and making data visualizations to communicate complex data to audiences.

Students must complete a minor approved by their advisor or select one of the following interdisciplinary tracks:

- Web Design: acquire skills in web design and web management
- Digital Strategy: acquire skills in digital strategy and advertising
- Audience Analytics: acquire skills in audience and consumer analysis and campaign analysis

Required for Social Media and Data Analytics Emphasis (30 credits)

- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 2400 - Social Media for Communicators **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3460 GLB - Public Relations and Social Media **Credits: (3)**
- COMM 3840 - Data Visualization and Storytelling **Credits: (3)**
- COMM 3880 - Audience Analysis **Credits: (3)**
- COMM 4880 - Social Media Metrics and Measurement **Credits: (3)**

Three of the following courses (9 credit hours)

- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2820 - Podcast Production **Credits: (3)**

- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3400 - Introduction to Public Relations & Strategic Communication **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3750 - Advanced Cinematography and Editing **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 3850 - Advertising **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 3891 INT - Advanced Cooperative Work Experience with KWCR **Credits: (1-3)**
- COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations **Credits: (1-3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 3894 - Advanced Cooperative Work Experience with Social Media and Data Analytics Lab **Credits: (1-3)**
- COMM 4440 - Developing and Evaluating Health Communication Campaigns **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**

Elective Courses (15 credit hours)

See department advisor for an approved list of non-Communication Department courses for the tracks (15 credit hours).

Communication Teaching (BS), Communication Studies Emphasis

Communication Teaching Major (BS or BA)

- **Program Prerequisite:** Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses is required for this major (a grade of "C-" is not acceptable).
- **Credit-Hour Requirements:** A total of 120 credit hours is required for graduation. A minimum of 47-48 of these are required within the major, depending on the selected emphasis. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 24-36 of these are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media (3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).

- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media (090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

Advisement

Communication students are required to meet with a faculty advisor at least annually for course and program advisement. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements of this catalog for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. The following courses required for this major will also fulfill general education requirements: COMM 1020 HU or COMM 2010 HU and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Requirements

The State of Utah endorses secondary teachers in two areas of Communication: Speech and Journalism. Accordingly, the Communication Teaching major is divided into two emphasis areas: Communication Studies (Speech) and Multimedia Journalism (Journalism). All Communication Teaching majors must complete one of these two emphasis areas.

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must also complete required and elective courses from non-Communication departments.

Communication Courses Required of all Communication Teaching Majors (21 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** *
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Note:

Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching major, whichever is **not used for Teacher Education admission requirements.*

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- CHEM 1360 PS - Principles of Physical Science **Credits: (3)**
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEO 1030 PS - Earthquakes and Volcanoes **Credits: (3)**
- GEO 1350 PS - Principles of Earth Science **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- BTNY 1370 LS - Principles of Life Science **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Communication Studies Emphasis (27 credit hours)

Courses Required (18 credit hours)

- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**
- COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School **Credits: (3)**

Electives (9 credit hours)

Select 9 credit hours of electives from the following with approval from the department's communication education advisor for the Communication Studies emphasis.

- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**

Communication Teaching (BS), Multimedia Journalism Emphasis

A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 24-36 of these are required within the major, depending on the selected emphasis.
- **Program Code:** Communication (3017) with emphasis code Civic Advocacy (3051), Communication Studies/Communication Teaching (3016), Digital Media (3068), Interpersonal & Family (3053), Multimedia Journalism (3069), Multimedia Journalism/Communication Teaching (3070), Organizational Communication (3054), Public Relations & Advertising (3055).
- **CIPC:** Communication (090101) with emphasis code Civic Advocacy (090904), Communication Studies/Communication Teaching (131399), Digital Media (090199), Interpersonal & Family (090101), Multimedia Journalism (099999), Multimedia Journalism/Communication Teaching (131399), Organizational Communication (090901), Public Relations & Advertising (090999).

Advisement

Communication students are required to meet with a faculty advisor at least annually for course and program advisement. Teaching majors are encouraged to also consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study at the Communication Department office, Elizabeth Hall 330. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements of this catalog for either Bachelor of Science or Bachelor of Arts requirements. See specific requirements for the BA and BS under the major course requirements. The following courses required for this major will also fulfill general education requirements: COMM 1020 HU or COMM 2010 HU and COMM 2110 HU CEL.

Program Learning Outcomes

- Writing: Write at a level expected of a professional communicator in a selected emphasis area.
- Diversity: Be sensitive to difference and discrimination in society and value diversity.
- Career Readiness: Be prepared to enter a professional career or graduate school.
- Critical thinking: Use critical thinking to analyze information from a variety of perspectives for understanding, persuasive argument or problem solving.
- Law/Ethics: Understand communication law and ethics to enable legal and ethical communication.
- Theory: Understand how various communication theories have been developed, applied, and evaluated.
- Research: Find peer-reviewed or professional research studies, be familiar with a variety of research methods, and interpret and analyze research data.
- History: Know the history of the communication discipline and its societal and professional implications.
- Media: Use and produce media to communicate messages.
- Interpersonal/Small Group: Facilitate successful communication in interpersonal situations and small group settings.
- Listening: Listen actively to acquire and analyze information.
- Speaking: Speak clearly and persuasively in a one-on-one interpersonal interaction, and in front of small and large groups in a variety of contexts.

Emphasis Requirements

The State of Utah endorses secondary teachers in two areas of Communication: Speech and Journalism. Accordingly, the Communication Teaching major is divided into two emphasis areas: Communication Studies (Speech) and Multimedia Journalism (Journalism). All Communication Teaching majors must complete one of these two emphasis areas.

Major Course Requirements for BS or BA Degree

Students, regardless of their emphasis, must successfully complete required and elective Communication courses specified for each emphasis. Students must also complete required and elective courses from non-Communication departments.

Communication Courses Required of all Communication Teaching Majors (21 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** *

- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4990 - Senior Seminar **Credits: (3)**

Note:

Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching major, whichever is **not used for Teacher Education admission requirements.*

Courses Required to Fulfill the BS (12 credit hours)

Select 4 courses (12 credit hours) from the following. Pick 3 credit hours from Physical Sciences and 3 credit hours from Life Sciences.

- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3150 CRE - Communication Research Methods **Credits: (3)**
- CHEM 1360 PS - Principles of Physical Science **Credits: (3)**
- GEOG 1000 PS SUS - Planet Earth: Air, Water, Land and Life **Credits: (3)**
- GEO 1030 PS - Earthquakes and Volcanoes **Credits: (3)**
- GEO 1350 PS - Principles of Earth Science **Credits: (3)**
- HNRS 1500 PS - Perspectives in the Physical Sciences **Credits: (3)**
- PHYS 1010 PS - Elementary Physics **Credits: (3)**
- BTNY 1370 LS - Principles of Life Science **Credits: (3)**
- HNRS 1510 LS - Perspectives in the Life Sciences **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1020 LS - Science and Application of Human Nutrition **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**
- ZOOL 1030 LS - The Nature of Sex **Credits: (3)**

Multimedia Journalism Emphasis (26 credit hours)

Required Courses (18 credit hours)

- COMM 1500 - Introduction to Mass Communication **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)** OR
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School **Credits: (3)**

Electives (6 credit hours)

Select 6 credit hours of electives from the following with approval from the department's communication education advisor for the Multimedia Journalism emphasis.

- COMM 1560 - Audio Production and Performance **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3080 GLB - Intercultural Communication **Credits: (3)**
- COMM 3090 - Gender and Communication **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3440 - Public Relations Writing **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Communication (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Grade Requirements:** A grade of "C" or better in all courses.
- **Credit-Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3017
- **CIPC:** 090101

Course Requirements for BIS

Communication Courses Required (15 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** or
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 1500 - Introduction to Mass Communication **Credits: (3)** or
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**

Additional Electives (9 credit hours)

The required courses listed add up to 15 credits. The rest of your contract will consist of at least 3 elective courses you negotiate with an advisor.

Minor

Communication Minor

- **Grade Requirements:** A grade of "C" or better in all courses.
- **Credit-Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3017
- **CIPC:** 090101

Course Requirements for Minor

Communication Courses Required (15 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- COMM 1130 - Media Writing **Credits: (3)** or
- COMM 1140 - Writing for Workplace Communication **Credits: (3)**
- COMM 1500 - Introduction to Mass Communication **Credits: (3)** or
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**

Electives (9 credit hours, including at least 6 upper-division)

Select 3 courses (9 credit hours) in consultation with and approval by your department advisor, 2 (6 credit hours) of which must be upper-division.

Note:

A maximum of 3 credit hours total from the following Communication courses may be counted for the minor: COMM 2210, COMM 2730, COMM 3890, COMM 3891, COMM 3892, COMM 3893, COMM 4210.

Teaching Minor

Communication Teaching Minor, Communication Studies Emphasis

- **Grade Requirements:** A grade of "C" or better in minor courses.
- **Credit-Hour Requirements:** A minimum of 24 credit hours.

- **Program Code:** 3016
- **CIPC:** 131399

Students who select the Communication Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Course Requirements for Minor

Communication Studies Emphasis (24 credit hours)

Communication Courses Required (18 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** *
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 2270 - Argumentation and Debate **Credits: (3)**
- COMM 3000 - Communication Theory **Credits: (3)**
- COMM 3820 - Persuasive Communication **Credits: (3)**
- COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School **Credits: (3)**

Note:

** Students must take either COMM 1020 or COMM 2110 as a foundation course requirement for the Communication Teaching minor, whichever is **not** used for Teacher Education admission requirements.*

Electives (6 credit hours)

Select 6 credit hours from the following in consultation with and approved by the department's communication education advisor for the Communication Studies emphasis.

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 3050 - Conflict Management and Negotiation **Credits: (3)**
- COMM 3060 - Listening and Interviewing **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**
- COMM 3100 - Small Group Facilitation and Leadership **Credits: (3)**
- COMM 3120 - Advanced Public Speaking **Credits: (3)**
- COMM 3550 - Organizational Communication **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4150 - Rhetorical Theory and Criticism **Credits: (3)**

Communication Teaching Minor, Multimedia Journalism Emphasis

- **Grade Requirements:** A grade of "C" or better in minor courses.
- **Credit-Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3018
- **CIPC:** 131399

Students who select the Communication Teaching minor must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

Course Requirements for Minor

Multimedia Journalism Emphasis (24 credit hours)

Communication Courses Required (18 credit hours)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** *
- COMM 1130 - Media Writing **Credits: (3)**
- COMM 1500 - Introduction to Mass Communication **Credits: (3)** or
- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 3130 - News Reporting and Writing **Credits: (3)**
- COMM 3650 - Communication Law **Credits: (3)**
- COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School **Credits: (3)**

Note:

Students must take either COMM 1020 HU or COMM 2110 HU CEL as a foundation course requirement for the Communication Teaching Minor, whichever is **not used for Teacher Education Admission requirements.*

Electives (6 credit hours)

Select 6 credit hours from the following in consultation with and approved by the department's Communication Education advisor for the Multimedia Journalism emphasis.

- COMM 1560 - Audio Production and Performance **Credits: (3)**

- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- COMM 3220 - Editing **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3780 - Broadcast News Writing and Production **Credits: (3)**
- COMM 3890 INT - Advanced Cooperative Work Experience with Signpost **Credits: (1-3)**
- COMM 4130 - In-depth and Investigative Journalism **Credits: (3)**

Department of English Language and Literature

Department Chair: Becky Jo Gesteland

Location: Elizabeth Hall, Room 435

Telephone Contact: Emily Evensen 801-626-6251

Professors: James Russell Burrows, Hal Crimmel, Becky Jo Gesteland, Siân Griffiths, Mark LeTourneau, Karen Marguerite Moloney, Scott Rogers, Sally Bishop Shigley, Mahalingam Subbiah, Michael Wutz; **Associate Professors:** Christy Call, Courtney Craggett, Rebekah Cumpsty, David Hartwig, Emily January, Susan McKay, Ryan Ridge, Abraham Smith, Shelley Thomas, Megan McDonald Van Deventer; **Assistant Professors:** Jace Brown, Ashley Caranto Morford, Ukamaka Olisakwe, Chris Scheidler, Marisa Yerace; **Instructors:** Toni Asay, Ryan Evans, Kristin Friederichs Champi, Jan Hamer, Kyra Hudson, Clint Johnson, Brooke Kelly, Becky Marchant, Sylvia Newman, Daniel Paul, William Pollett, Laura Stott, Sarah Vause, Sunni Wilkinson

The Department of English Language and Literature offers a broad spectrum of language, literature, and writing courses. English majors and minors, English Teaching majors and minors, English majors with Professional and Technical writing emphasis and Professional and Technical writing minors, English majors with Creative Writing emphasis, and Literary Editing minors and Screenwriting minors, as well as Associate of Arts in English students, in consultation with English department advisors, can select programs individually designed to satisfy academic requirements. Furthermore, students preparing for careers in law, medicine, business, public relations and government service may find departmental courses highly beneficial. The English Department also offers courses for the general student in literature, creative writing, and introductory and intermediate writing.

Students transferring to Weber State as English majors, with most of their junior and senior status completed, are required to take a minimum of 9 upper division credit hours, minors a minimum of 6 upper division credit hours. This requirement also applies to transfer graduate students.

English Composition Requirement

Students seeking the Associate of Applied Science degree must pass ENGL 1010 or ENGL 1005 or ENGL 1006 and ENGL 1007 with a "C" grade (2.0) or better in order to satisfy the composition requirement. Students seeking any other degree must successfully complete ENGL 2010 or ENGL 2015 with a grade of "C" or higher. Students placed in developmental English courses ENGL 0900 must also pass that course with a grade of "C" or higher. Please note that English composition courses, whether developmental or not, are sequential and can not be taken out of numerical order.

Successful completion of ENGL 2015 or ENGL 2010 with a grade of C or better satisfies the University core requirement for Composition. Entrance into ENGL 2015 or ENGL 2010 can be accomplished in the following ways: 1) passing ENGL 1005 or ENGL 1010 or ENGL 1006 and ENGL 1007 with a grade of C or better, 2) passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, 3) achieving an ACT English and Reading score of 29 or better, 4) a CLEP with essay test with a score of 50 or better, or 5) articulated transfer credit from another regionally accredited college or university.

English Placement

Students are placed in the English developmental/composition sequence of courses either by ACT sub-scores or by Accuplacer scores. As of 2019, there is a new version. If you took the Accuplacer test prior to 2019, contact the Department of English for details.

ACT Sub-scores*	Accuplacer Scores	Course Placement
ACT English and Reading sub-score 29 or higher	Reading and Writing both 270-300	ENGL 2010 or ENGL 2015
ACT English and Reading sub-scores both 17 or above	Reading and Writing scores both 250-269 or above	ENGL 1010

Lowest ACT English or Reading score from 13-16	Lowest Reading or Writing score from 237-249	ENGL 1005 or ENGL 1006. (Students completing 1006 will need to complete 1007 before enrolling in ENGL 2010 or ENGL 2015).
Lowest ACT English or Reading score 12 or below	Both Reading and Writing score 236 or below	ENGL 0900

**ACT scores in English and Reading expire after 4 years. ACCUPLACER scores expire after 48 months.*

International students must provide ACT, SAT or Accuplacer scores for English placement. If scores are missing, students will be placed into ENGL 0900.

Pathways for Completing your Composition Requirement

Your placement shows where you need to begin in one of these course sequences to fulfill your English Composition requirement:

ENGL 0900 → ENGL 1005 → ENGL 2010 or

ENGL 0900 → ENGL 1005 → ENGL 2015 or

ENGL 0900 → ENGL 1006 → ENGL 1007 → ENGL 2010 or

ENGL 0900 → ENGL 1006 → ENGL 1007 → ENGL 2015 or

ENGL 1010 → ENGL 2010 or

ENGL 1010 → ENGL 2015

Interdisciplinary Minors

The English Department participates in the Asian Studies, Environmental Studies and Linguistics Minor/BIS Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Interdisciplinary Associate's

The English Language and Literature Department participates in the interdisciplinary associate's degree in Workplace Communication and Writing (AS). Students who wish to enroll in this program should contact the English Language and Literature Department or one of the college advisors for the College of Arts & Humanities who will help them work out a schedule.

The English Department offers **Face-to-Face (F2F)**, **Hybrid**, and **Online (OL)** classes.

The following definitions are intended to help faculty and students understand the differences between **Face-to-Face (F2F)**, **Hybrid**, and **Online (OL)** classes taught in the English Department.

1. If less than 15% of the class sessions are online, a course will be designated **Face-to-Face (F2F)**-the current default for courses.
2. If 30–70% of class sessions are conducted online, normally but not exclusively in Canvas, courses will be designated **Hybrid**. This is consistent with *WSU Online's* definition.

- Classes that are 100% online will be defined as **Online (OL)**.
- Classes will be designated as **F2F, Hybrid, or OL** prior to the time the department finalizes schedules for any given semester. The designation may not be changed once registration has opened or during the semester except in the event of extenuating circumstances such as injury, illness or university closure; Department Chair approval is required.
- Within the various categories (**F2F, Hybrid, Online**) the table below illustrates how many online class sessions students can expect in each category. This number is dependent on how often a class meets: once a week (mainly evening classes), twice a week (TR or MW), and three times a week (MWF):

Course Scheduled As:	How Many Sessions May Be Online?		
	F2F (up to 15% online)	Hybrid (30-70% online)	Online (100% online)
1x/week: (14-15 classes/semester)	2 sessions, maximum	Minimum 4 / Maximum 10 sessions	100%
2x/week: (TR or MW: 30 classes/semester)	4-5 sessions, maximum	Minimum 9 / Maximum 21 sessions	100%
3x/week: (MWF: 42 classes/semester)	6 sessions, maximum	Minimum 13 / Maximum 30 sessions	100%

Associate of Arts

English (AA)

The Associate of Arts Program in the Department of English is designed for students who are passionate about reading and writing, who like being creative, and who want to develop professional skills for their careers. This program lets students earn an Associate's degree with 60 credit hours. It also forms the foundation for pursuing a Bachelor's degree in English or related fields.

- **Program Prerequisite:** Not required.
- **Grade Requirements:** A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.
- **Credit Hour Requirements:** A total of 60 credit hours is required for graduation; a minimum of 18 of these must be from the program detailed below.
- **Program Code:** 3022AA
- **CIP:** 230101

Advisement

English students are required to meet with a faculty advisor at least annually for course and program advisement. Please contact Dr. Daniel Paul at danielpaul1@weber.edu for more information or to schedule an appointment.

For General Education advising, call 801-626-6631 or emailcahadvisor@weber.edu

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirement is needed for this program.

General Education

Refer to Degree Requirements for Associate of Arts requirements. See Foreign Language Courses Required below to fulfill the Associate of Arts degree.

Consult with a departmental or college advisor for detailed general education guidelines.

Program Learning Outcomes

- 1. Writing and Editing Skills, including the inclusion of multimedia components --Includes writing, presentations made using presentation software from Microsoft and Adobe, and Document Design.
- 2. Creativity --In the interpretation of written and multimedia texts; in document and web design; in writing analytical papers and creative texts
- 3. Ability to Communicate In Writing, Orally and Visually --Includes the ability to gather, analyze, and communicate information and insights creatively and critically; Understand and apply various theoretical perspectives and discipline-specific terminology to interpretations of texts and /or analysis of data; demonstrate knowledge of research practices and application.

Common Courses (9 credits)

Take each of the following classes:

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2501 HU/CC - Literature Today **Credits: (3)**
- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**

EXPLORING ENGLISH CAREER AREAS (6 credits)

Take **two** courses from the following:

Creative Writing

- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- ENGL 2260 CA/CC - CW: Introduction to Writing Short Fiction **Credits: (3)**
- ENGL 2270 CA/CC - CW: Introduction to Writing Poetry **Credits: (3)**

Professional and Technical Writing

- ENGL 2100 - Technical Writing **Credits: (3)**

English Education

- ENGL 2420 - Young Adult Literature **Credits: (3)**

Exploring Literary Genres and Perspectives

- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 2230 HU/CC - Introduction to Drama **Credits: (3)**
- ENGL 2240 HU/CC - Introduction to Poetry **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**
- ENGL 2750 HU - Topics and Ideas in the Humanities **Credits: (3)**

ELECTIVES (3 credits)

Choose **one** additional course from the following OR **one** course not previously taken from the options in EXPLORING ENGLISH CAREER AREAS listed above:

- ENGL 2120 - Introduction to Writing and Document Design **Credits: (3)**
- ENGL 2130 - Media and Technology in Texts **Credits: (3)**
- ENGL 2140 - Introduction to Professional and Technical Editing **Credits: (3)**
- ENGL 2150 - Gender and Culture in Workplace Writing **Credits: (3)**
- ENGL 2160 - Introduction to Web-Based Technical Writing **Credits: (3)**

Foreign Language: (TWO courses / total of 6 credits)

Complete **two semesters** of one of the following languages: French, German, Spanish, Italian, Portuguese, American Sign Language, Chinese, or Japanese.

Institutional Certificate

Professional and Technical Writing Certificate of Proficiency

- **Program Prerequisite:** None required. However, some of the individual course options have a prerequisite or corequisite, as shown below.
- **Grade Requirements:** A grade of "C" or better in each required course.
- **Credit Hour Requirements:** A total of 18 credit hours of upper division technical writing courses.
-

Program Learning Outcomes

- Apply theories of technical communication in a variety of genres
- Write a variety of documents that reflect application of cognition
- Perform substantive edits
- Rhetorical approach to document design
- Construct documentation projects
- Develop a portfolio

Course Requirements for Certificate of Proficiency

Professional and Technical Writing Courses Required (18 credit hours)

1. Four required courses - 12 credit hours

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- ENGL 4120 CEL/INT - Seminar and Practicum in Professional and Technical Writing **Credits: (3)**

2. Two of the following courses - 6 credit hours

- ENGL 3120 - Foundations in Professional & Technical Writing **Credits: (3)**
- ENGL 3130 - Digital Writing Technologies **Credits: (3)**
- ENGL 3160 CEL - Grant Writing **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**
- ENGL 4110 - Content Management **Credits: (3)**

Bachelor of Arts

English (BA)

- **Program Prerequisite:** Not required.
- **Minor:** Required.
- **Grade Requirements:** A 2.0 or better in all courses required for this major in addition to an overall GPA of 2.00 (C) or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 39 of these must be valid English courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 27 of these must be English courses.
- **Program Code:** 3022BA
- **CIPC:** 230101

Advisement

English majors are required to meet with a faculty advisor at least twice annually for course and program advisement. If this requirement is not met, students may not be allowed to register for classes within their major. Call 801-626-6251 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Consult with a departmental advisor for detailed general education guidelines.

Program Learning Outcomes

- Read, explicate & analyze texts within their cultural, historical, & critical contexts.
- Research using a variety of methods & sources & document sources.
- Apply relevant critical theories.
- Write effectively about texts for varied purposes & audiences.
- Demonstrate knowledge of writers, works, genres & periods.

Major Course Requirements for BA Degree

A minimum of 39 credit hours is required in English courses, of which at least 27 credit hours must be upper division (3000-4000 level courses). A Minor is also required.

Common courses - 9 credits

Take each of the following classes:

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2501 HU/CC - Literature Today **Credits: (3)**
- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**

Distribution- 21 credits

*Courses fulfill one distribution requirement may NOT be used to fulfill a second designation requirement

Geography Distribution- 9 credits

Take one class in each of the following three geographical categories: British, American, and Global/World Literature

British Literature- 3 credits

Take one class

- ENGL 3040 - History of the English Language **Credits: (3)**
- ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**
- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**
- ENGL 4610 - British Literature: Medieval **Credits: (3)**
- ENGL 4620 - British Literature: Renaissance **Credits: (3)**
- ENGL 4630 - British Literature: Neoclassical and Romantic **Credits: (3)**
- ENGL 4640 - British Literature: Victorian **Credits: (3)**
- ENGL 4650 - British Literature: Modern **Credits: (3)**
- ENGL 4655 - British Literature - World War II to 2001 **Credits: (3)**

- ENGL 4660 - British Literature: Contemporary **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

American Literature- 3 credits

Take one class

- ENGL 3040 - History of the English Language **Credits: (3)**
- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**
- ENGL 4520 - American Literature: Early and Romantic **Credits: (3)**
- ENGL 4530 - American Literature: Realism and Naturalism **Credits: (3)**
- ENGL 4540 - American Literature: Modern **Credits: (3)**
- ENGL 4545 - American Literature - World War II to 2001 **Credits: (3)**
- ENGL 4550 - American Literature: Contemporary **Credits: (3)**

Global/World Literature- 3 credits

Take one class

- ENGL 3010 - Introduction to Linguistics **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)**
- ENGL 3752 - Topics and Ideas in World Literature and Language **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**
- ENGL 4760 - Irish Literature **Credits: (3)**

Period Distribution- 6 credits

Take two classes, one dealing primarily with literature before 1800 and one after 1800

Literature before 1800- 3 credits

Take one class

- ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 4610 - British Literature: Medieval **Credits: (3)**
- ENGL 4620 - British Literature: Renaissance **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Literature from 1800 to the present- 3 credits

Take one class

- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3610 - American Literature I **Credits: (3)**

- ENGL 3620 - American Literature II **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**
- ENGL 3755 - Teaching Language in the Secondary Schools **Credits: (3)**
- ENGL 4520 - American Literature: Early and Romantic **Credits: (3)**
- ENGL 4530 - American Literature: Realism and Naturalism **Credits: (3)**
- ENGL 4540 - American Literature: Modern **Credits: (3)**
- ENGL 4545 - American Literature - World War II to 2001 **Credits: (3)**
- ENGL 4550 - American Literature: Contemporary **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**
- ENGL 4630 - British Literature: Neoclassical and Romantic **Credits: (3)**
- ENGL 4640 - British Literature: Victorian **Credits: (3)**
- ENGL 4650 - British Literature: Modern **Credits: (3)**
- ENGL 4655 - British Literature - World War II to 2001 **Credits: (3)**
- ENGL 4660 - British Literature: Contemporary **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**

Genre Distribution- 6 credits

Take one class in two of the following three categories: poetry, prose fiction/narrative, and drama/film/new media

Poetry- 3 credits

- ENGL 2240 HU/CC - Introduction to Poetry **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**

Prose Fiction/Narrative- 3 credits

- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3280 - Biographical Writing **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3375 - CW: Notebooks and Journals Forms and Craft **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**

Drama/Film/New Media- 3 credits

- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- ENGL 2230 HU/CC - Introduction to Drama **Credits: (3)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**
- ENGL 3540 - Adaptation Studies **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Electives- 6 credits

Take two elective classes

- ENGL 2420 - Young Adult Literature **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**
- ENGL 2750 HU - Topics and Ideas in the Humanities **Credits: (3)**
- ENGL 3030 - Structure of English **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3120 - Foundations in Professional & Technical Writing **Credits: (3)**
- ENGL 3130 - Digital Writing Technologies **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)**
- ENGL 3280 - Biographical Writing **Credits: (3)**
- ENGL 3300 - Children's Literature **Credits: (3)**
- ENGL 3350 - CW: Studies in Literary Genres **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- ENGL 3354 - Genres in Writing and Interdisciplinary Studies **Credits: (3)**
- ENGL 3520 HU - Literature of the Natural World **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ENGL 3540 - Adaptation Studies **Credits: (3)**
- ENGL 3551 - Queer Literature **Credits: (3)**
- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)**
- ENGL 3750 HU - Topics and Ideas in Literature **Credits: (3)**
- ENGL 3752 - Topics and Ideas in World Literature and Language **Credits: (3)**
- ENGL 3753 - Topics and Ideas in Cultural and Media Studies **Credits: (3)**
- ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies **Credits: (3)**
- ENGL 3880 - Philosophy and Literature **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**
- ENGL 4710 - Eminent Authors **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**
- ENGL 4713 - Eminent Authors in Cultural and Media Studies **Credits: (3)**
- ENGL 4760 - Irish Literature **Credits: (3)**
- ENGL 4900 INT - Internships in Literary and Textual Studies **Credits: (1-3)**
- ENGL 4990 - Senior Seminar **Credits: (3)**

Senior seminar or Internship- 3 credits

Take 1 senior seminar or internship class

- ENGL 4900 INT - Internships in Literary and Textual Studies **Credits: (1-3)**
- ENGL 4990 - Senior Seminar **Credits: (3)**

English (BA), Creative Writing Emphasis

- **Program Prerequisite:** Not required.
- **Minor:** Required.
- **Grade Requirements:** A 2.0 or better in all courses required for this major in addition to an overall GPA of 2.00 (C) or higher.

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 39 of these must be English courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 30 of these must be English courses.
- **Program Code:** 3020BA
- **CIPC:** 231302

Advisement

English Creative Writing Emphasis majors are expected to meet with a faculty advisor at least twice annually for course and program advisement. Please call 801-626-6251 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Consult with a departmental advisor for detailed general education guidelines.

For CA, students must take ENGL 2250 (Intro to Creative Writing. This course will be required before you may take upper division creative writing coursework.)

Program Learning Outcomes

- Experiment in writing and develop drafts into polished original work.
- Show critical self-awareness.
- Exhibit editorial proficiency.
- Understand the professional writing environment.
- Show knowledge of contemporary, canonical, and marginalized literature.

Major Course Requirements for BA Degree

A minimum of 39 credit hours is required in valid English courses, of which at least 30 credit hours must be upper division.

English Courses Required (39 credit hours)

The following courses are required. (ENGL 2200 , ENGL 2250 and ENGL 2700 should be taken early in the major; ENGL 4940 should be taken in the final year)

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**

- ENGL 4940 - CW: Senior Project **Credits: (3)**

Students choose two literature surveys from the five 3000-level courses

- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**
- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**

Language & Literature (one of the following)

- ENGL 3010 - Introduction to Linguistics **Credits: (3)**
- ENGL 3030 - Structure of English **Credits: (3)**
- ENGL 3040 - History of the English Language **Credits: (3)**
- Any 4000-level literature course **Credits: (3)**

Introductory Writing Courses (one of the following)

- ENGL 2260 CA/CC - CW: Introduction to Writing Short Fiction **Credits: (3)**
- ENGL 2270 CA/CC - CW: Introduction to Writing Poetry **Credits: (3)**
- ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction **Credits: (3)**
- ENGL 2295 - CW: Introduction to Screenwriting **Credits: (3)**

Advanced Writing Courses (6 credits of the following)

- ENGL 3240 - CW: Writing Creative Nonfiction **Credits: (3)**
- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**
- ENGL 3290 - CW: Advanced Screenwriting **Credits: (3)**
- ENGL 4930 - Visiting Writing Master Class **Credits: (1)** (repeatable four times)

Forms and Craft Courses (any one of the following)

- ENGL 3350 - CW: Studies in Literary Genres **Credits: (3)**
- ENGL 3355 - CW: Creative Nonfiction Forms and Craft **Credits: (3)**
- ENGL 3360 - CW: Short Story Forms and Craft **Credits: (3)**
- ENGL 3365 - CW: Novel Forms and Craft **Credits: (3)**
- ENGL 3370 - CW: Poetic Forms and Craft **Credits: (3)**
- ENGL 3375 - CW: Notebooks and Journals Forms and Craft **Credits: (3)**
- ENGL 3380 - CW: Screenwriting Forms and Craft **Credits: (3)**

Editing and Publication (3 credit hours)

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 4960 INT - Metaphor: Editing the Student Literary Journal **Credits: (3)**

Language Courses Required to fulfill the BA

English majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course, but **one** course (3 credits) with a primary emphasis on language or writing is strongly recommended. Courses chosen for the BA language requirement cannot also be counted toward the English Creative Writing major.

English (BA), Professional & Technical Writing Emphasis

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Not required.
- **Minor:** Required.
- **Grade Requirements:** A 2.0 or better in all courses required for this major in addition to an overall GPA of 2.00 (C) or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 39 of these must be English courses. A total of 40 upper division credit hours is required (courses numbered 3000 or above); a minimum of 36 must be English courses.
- **Program Code:** 3024BA
- **CIPC:** 231303

Advisement

English majors are required to meet with a faculty advisor at least twice annually for course and program advisement. If this requirement is not met, students may not be allowed to register for classes within their major. Call 801-626-6251 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study at the English department office, Elizabeth Hall 413. No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Consult with a departmental advisor for detailed general education guidelines.

Program Learning Outcomes

- Students should apply theories of technical communication in a variety of genres demonstrating theoretical and practical foundation of the Professional and Technical Writing minor and emphasis.
- Students should write a variety of documents that reflect application of sophisticated levels of cognition in addition to mastering basic concepts in the discipline.
- Students should perform substantive editing in both hard copy and electronic copy. Students should demonstrate a rhetorical approach to document design by thoroughly analyzing situational audience, purpose, and context.
- Students should construct documentation projects using single-sourcing and modular-writing principles.

- Students should develop a portfolio of their best work containing a variety of documents created throughout the entire program; the portfolio may be in hardcopy, online, or a combination of media.

Major Course Requirements for BA Degree

A minimum of 39 credit hours is required in English courses, of which at least 33 credit hours must be upper division (3000-4000 level courses). A minor is also required.

Required English Courses (39 credit hours)

Foundation - 6 credit hours

3 credit hours

Critical Approaches Course (to be taken early in the major).

- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**

3 credit hours

One 2000-level course (3 credits) excluding ENGL 2010 or ENGL 2015.

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 2230 HU/CC - Introduction to Drama **Credits: (3)**
- ENGL 2240 HU/CC - Introduction to Poetry **Credits: (3)**
- ENGL 2501 HU/CC - Literature Today **Credits: (3)**

Core - 6 credit hours

Choose two courses from the following areas.

American Literature Surveys

Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**

British Literature Surveys

Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**

World Literature

Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3510 HU/CC - World Literature **Credits: (3)**

Foundations in Professional and Technical Writing - 27 credit hours

Foundations in Professional and Technical Writing - 12 credit hours

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3120 - Foundations in Professional & Technical Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**
- ENGL 4120 CEL/INT - Seminar and Practicum in Professional and Technical Writing **Credits: (3)** (senior year; must have advisor approval)

Electives in Professional and Technical Writing - 15 credit hours

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3130 - Digital Writing Technologies **Credits: (3)**
- ENGL 3160 CEL - Grant Writing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**
- ENGL 4110 - Content Management **Credits: (3)**

Language Courses Required to Fulfill the BA

English majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course, but **one** course (3 credits) with a primary emphasis on language or writing is strongly recommended. Courses chosen as electives cannot also count as language arts courses.

English Teaching (BA)

- **Program Prerequisite:** Must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor: Optional.** According to their career paths, some students may choose to complete a minor or teaching minor in another discipline, but it is not required to complete their English Education BA degree.
- **Grade Requirements:** A 2.0 or better in all courses required for this major.
- **Credit Hour Requirements:** A minimum of 120 credit hours is required for graduation; at least 39 of these must be English courses. Of those 120 credits, 40 must be upper division courses (courses numbered 3000 and above), with 36 or more upper division credits in English.
- No minor is required.
- **Program Code:** 3023BA
- **CIPC:** 131305

Advisement

To expedite their program, English Teaching Majors should seek advisement before taking any upper division English courses. The English Teaching Methodology Block must be scheduled in coordination with both Secondary Teacher Education and Student Teaching. Call 801-626-6251 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study at the English department office, Elizabeth Hall 413. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

PSY SS1010, COMM HU1020 or COMM HU CEL2110 (take one), CHF SS/CC1500 and one 2000 level Humanities English Literature course are recommended. Consult with a departmental advisor for other detailed general education guidelines.

Student Teaching

Student Teaching takes place during Secondary Education Student Teaching, which generally takes place during students' last semester prior to graduation. Before student teaching, English majors must have completed all required English and Education courses and completed the language requirements for the Bachelor of Art degree. Students must apply for student teaching through Teacher Education according to deadlines set by that department.

Program Learning Outcomes

- Encourage Students to express their life experiences in writing a variety of genres such as journals, memoir, narrative, essay, and argument.
- Secondary Students read a wide range of literature from many periods in many genres to build an understanding of the many dimensions (e.g. philosophical, ethical, aesthetic) of human experience.
- Plan a coherent curriculum based on student needs that integrate reading, writing, and language instructions guided by the Utah State Core Standards.
- Demonstrate to their students how to apply knowledge of language structure, usage, and conventions to communicate effectively with a variety of audiences for different purposes.
- Use appropriate formal and informal assessments to inform instruction and verify student learning.
- Articulate a professional and coherent philosophy of language arts instruction based on current practices, the connections between reading and writing processes, and current research in the field of teaching English that promotes respect ofr physical, ethnic, gender, and cultural diversity.

Major Course Requirements for English Teaching BA Degree

Minimum of 40 credit hours in English courses of which at least 34 credit hours must be upper division (3000-4000 level courses). A minor field of study is no longer required.

Required English Courses (40 credit hours)

Foundation - 6 credit hours

1. One 2000-level course (3 credits) excluding ENGL 2010 and ENGL 2015.

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 2230 HU/CC - Introduction to Drama **Credits: (3)**
- ENGL 2240 HU/CC - Introduction to Poetry **Credits: (3)**
- ENGL 2501 HU/CC - Literature Today **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**

2. Critical Approaches Course (to be taken early in the major).

- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**

Core - 12 credit hours

1. American Literature Surveys: (both of the following) / Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**

2. British Literature Surveys: (both of the following) / Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**

Areas of Specialization - 6 credit hours

Choose **one** course each (3 credits) from **both** of the areas listed below:

World Literatures and Language

Courses in this area will focus on world literatures excluding British and American literature / Prerequisites as specified for individual courses in course catalog:

- ENGL 3010 - Introduction to Linguistics **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)** / Variable Title Course
- ENGL 3752 - Topics and Ideas in World Literature and Language **Credits: (3)** / Variable Title Course
- ENGL 4712 - Eminent World Authors **Credits: (3)** / Variable Title Course
- ENGL 4760 - Irish Literature **Credits: (3)**

Writing and Interdisciplinary Studies

Courses in this area will focus on writing and/or the study of other disciplines as they connect with literature, language, or the craft of writing / Prerequisites as specified for individual courses in course catalog:

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)**

- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**
- ENGL 3280 - Biographical Writing **Credits: (3)**
- ENGL 3375 - CW: Notebooks and Journals Forms and Craft **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**

Methodology - 13 credit hours

Take all of the following:

- ENGL 2420 - Young Adult Literature **Credits: (3)**
- ENGL 3020 - Teaching English/Language Arts **Credits: (3)**
- ENGL 3410 INT - The Teaching of Writing **Credits: (3)**
- ENGL 3755 - Teaching Language in the Secondary Schools **Credits: (3)**
- ENGL 4910 - Capstone in English Teaching **Credits: (1)**

Electives (minimum of 3 credit hours)

To complete the required 40 credit hours, English Teaching majors may choose as electives any 2000, 3000, or 4000 level English courses, excluding those they wish to count as language arts courses in partial fulfillment of the Bachelor of Arts requirement (see "Language Courses Required to fulfill the BA" below). / *Prerequisites as specified for individual courses in course catalog.*

English Teaching majors are encouraged to take either ENGL 3500 HU - Introduction to Shakespeare, or ENGL 4730 - Studies in Shakespeare.

Language Courses Required to Fulfill the BA

English Teaching majors must take either 12-credit hours of a foreign language or 6 hours of a foreign language and 6 hours of language arts. Any 3000 or 4000 level English class may be used as a language arts course. Courses chosen for the BA language requirement cannot also be counted toward the English major.

Emphasis Option for Bachelor of Interdisciplinary Studies

English (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The English Department participates in the BIS degree program. For an English concentration, students should take a minimum of 18 credit hours as approved by the English Department. Students may choose either a literature concentration or a writing concentration. BIS students must meet with the English Department Chair to design their English component.

The Bachelor of Integrated Studies (BIS) best suits the student who has developed a sense of his or her educational and life goals, and who is looking for ways to express those goals through an individualized university program. The BIS Program serves the needs of the student who wants to:

- create a specific academic program

- obtain a broad liberal education
- prepare for particular career goals and/or graduate school

To accomplish these general outcomes, the BIS student completes course work in three different disciplines. As a culminating experience, the student then synthesizes the three disciplines in a capstone project. For information about the requirements of the BIS Program, look at the BIS web site at weber.edu/bis/.

- **Program Prerequisite:** Enroll into the BIS Program with an interview with the BIS Program Coordinator. Call 626-7713 to talk with the BIS secretary and schedule an appointment.
- **Grade Requirements:** Receive a minimum grade of "C" (2.0) in each of the courses taken for the three emphases in addition to a minimum cumulative GPA of 2.5. Classes listed on the BIS contract must be taken for a letter grade; special exams, CLEP or credit/no credit are not allowed for contract classes.
- **Program Code:** 3022
- **CIPC:** 230101

Program Learning Outcomes

- Interdisciplinary Work-Made multiple connections across three academic disciplines.
- High Impact Educational Experience-Engaged in high impact practices through at least one of these: (a) collaborative learning projects, (b) undergraduate research, (c) public performances, (d) diversity/global learning, (e) community engaged learning, (f) internships, or (g) intensive writing.
- Capstone Signature Work -Synthesized and reported key research/skills/theories from academic disciplines.
- Analysis and Reflection-Provided analyses/results/conclusions/reflections from the Capstone experience.
- Academic speaking and writing-Used effective oral and written English-language skills
- Post-Graduate Planning-Planned for careers and/or graduate programs.

Minor

English Minor

- **Grade Requirements:** A grade of 2.0 or better in all courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 21 hours of English courses. ENGL 1005, ENGL 1006, ENGL 1007, ENGL 1010, ENGL 2010, and ENGL 2015 do not count toward an English minor, but ENGL 2010 or ENGL 2015 is a pre-requisite for some required courses and should be taken early.
- **Program Code:** 3022
- **CIPC:** 230101

Course Requirements for Minor

Take one class in each of the following three distributions: **Geography, Period, and Genre** for a total of 9 credit hours. Choose one additional course from the list of **Elective Courses** to complete the required 21 credits.

****Courses taken to fulfill one distribution requirement may NOT be used to fulfill a second designation requirement.****

Common Courses (9 credit hours)

Take each of the following classes:

- ENGL 2200 HU/CC - Introduction to Literature **Credits: (3)**
- ENGL 2501 HU/CC - Literature Today **Credits: (3)**
- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**

DISTRIBUTIONS (9 credits)

Take one class in each of the following three distributions: **Geography, Period, and Genre** for a total of 9 credit hours. Choose one additional course from any area to complete your required 21 credits

****Courses taken to fulfill one distribution requirement may NOT be used to fulfill a second designation requirement.

Geography Distribution (3 credits)

Choose **one** course from the following for 3 credits:

- ENGL 3010 - Introduction to Linguistics **Credits: (3)**
- ENGL 3040 - History of the English Language **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**
- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**
- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)**
- ENGL 3752 - Topics and Ideas in World Literature and Language **Credits: (3)**
- ENGL 4520 - American Literature: Early and Romantic **Credits: (3)**
- ENGL 4530 - American Literature: Realism and Naturalism **Credits: (3)**
- ENGL 4540 - American Literature: Modern **Credits: (3)**
- ENGL 4545 - American Literature - World War II to 2001 **Credits: (3)**
- ENGL 4550 - American Literature: Contemporary **Credits: (3)**
- ENGL 4610 - British Literature: Medieval **Credits: (3)**
- ENGL 4620 - British Literature: Renaissance **Credits: (3)**
- ENGL 4630 - British Literature: Neoclassical and Romantic **Credits: (3)**
- ENGL 4640 - British Literature: Victorian **Credits: (3)**
- ENGL 4650 - British Literature: Modern **Credits: (3)**
- ENGL 4655 - British Literature - World War II to 2001 **Credits: (3)**
- ENGL 4660 - British Literature: Contemporary **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**
- ENGL 4760 - Irish Literature **Credits: (3)**

Period Distribution (3 credits)

Choose **one** course from the following for 3 credits:

- ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**

- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**
- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**
- ENGL 3755 - Teaching Language in the Secondary Schools **Credits: (3)**
- ENGL 4520 - American Literature: Early and Romantic **Credits: (3)**
- ENGL 4530 - American Literature: Realism and Naturalism **Credits: (3)**
- ENGL 4540 - American Literature: Modern **Credits: (3)**
- ENGL 4545 - American Literature - World War II to 2001 **Credits: (3)**
- ENGL 4550 - American Literature: Contemporary **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**
- ENGL 4610 - British Literature: Medieval **Credits: (3)**
- ENGL 4620 - British Literature: Renaissance **Credits: (3)**
- ENGL 4630 - British Literature: Neoclassical and Romantic **Credits: (3)**
- ENGL 4640 - British Literature: Victorian **Credits: (3)**
- ENGL 4650 - British Literature: Modern **Credits: (3)**
- ENGL 4655 - British Literature - World War II to 2001 **Credits: (3)**
- ENGL 4660 - British Literature: Contemporary **Credits: (3)**
- ENGL 4710 - Eminent Authors **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Genre Distribution (3 credits)

Choose **one** course from the following for 3 credits:

- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- ENGL 2220 HU/CC - Introduction to Fiction **Credits: (3)**
- ENGL 2230 HU/CC - Introduction to Drama **Credits: (3)**
- ENGL 2240 HU/CC - Introduction to Poetry **Credits: (3)**
- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**
- ENGL 3280 - Biographical Writing **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- ENGL 3375 - CW: Notebooks and Journals Forms and Craft **Credits: (3)**
- ENGL 3500 HU - Introduction to Shakespeare **Credits: (3)**
- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 3540 - Adaptation Studies **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Elective Courses (3)

Choose **one** additional course from the following to complete the required 21 credit hours:

- ENGL 2240 HU/CC - Introduction to Poetry **Credits: (3)**
- ENGL 2710 HU/CC - Perspectives on Women's Literature **Credits: (3)**

- ENGL 2750 HU - Topics and Ideas in the Humanities **Credits: (3)**
- ENGL 3030 - Structure of English **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3120 - Foundations in Professional & Technical Writing **Credits: (3)**
- ENGL 3130 - Digital Writing Technologies **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)**
- ENGL 3280 - Biographical Writing **Credits: (3)**
- ENGL 3300 - Children's Literature **Credits: (3)**
- ENGL 3350 - CW: Studies in Literary Genres **Credits: (3)**
- ENGL 3352 - Studies in World Literary Genres **Credits: (3)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- ENGL 3354 - Genres in Writing and Interdisciplinary Studies **Credits: (3)**
- ENGL 3520 HU - Literature of the Natural World **Credits: (3)**
- ENGL 3530 - The Literature of Business and Economics **Credits: (3)**
- ENGL 3540 - Adaptation Studies **Credits: (3)**
- ENGL 3730 - Literatures of Cultures and Places **Credits: (3)**
- ENGL 3750 HU - Topics and Ideas in Literature **Credits: (3)**
- ENGL 3752 - Topics and Ideas in World Literature and Language **Credits: (3)**
- ENGL 3753 - Topics and Ideas in Cultural and Media Studies **Credits: (3)**
- ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies **Credits: (3)**
- ENGL 3755 - Teaching Language in the Secondary Schools **Credits: (3)**
- ENGL 3880 - Philosophy and Literature **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**
- ENGL 4710 - Eminent Authors **Credits: (3)**
- ENGL 4712 - Eminent World Authors **Credits: (3)**
- ENGL 4713 - Eminent Authors in Cultural and Media Studies **Credits: (3)**
- ENGL 4760 - Irish Literature **Credits: (3)**

Literary Editing Minor

The minor in Literary Editing introduces students to the knowledge base, skills, and practical experience needed to work in the literary publishing industry. It offers a good choice to anyone interested in literature, writing, visual design, communication, printing, or publishing, and it is an excellent complement to a variety of majors.

- **Program Prerequisite:** None required. However, some of the individual course options have a prerequisite or corequisite, as shown below.
- **Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.**
- **Grade Requirements:** A grade of 2.0 or better in all courses used toward the minor.
- **Credit Hour Requirements:** 18 credit hours, apportioned as directed below.
- **Program Code:** 3086
- **CIPC:** 231302

Course Requirements for Literary Editing Minor

Students will select a course/course combination from each of the 6 areas below.

Introductory Creative Writing

Students will choose **one 3-credit course** from the following:

- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- ENGL 2260 CA/CC - CW: Introduction to Writing Short Fiction **Credits: (3)**
- ENGL 2270 CA/CC - CW: Introduction to Writing Poetry **Credits: (3)**
- ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction **Credits: (3)**
- ENGL 2295 - CW: Introduction to Screenwriting **Credits: (3)**

Advanced Creative Writing

Students will choose **one 3-credit course** from the following:

- ENGL 3240 - CW: Writing Creative Nonfiction **Credits: (3)**
- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**
- ENGL 3290 - CW: Advanced Screenwriting **Credits: (3)**

Contemporary Creative Writing as Literature

Students will choose **one 3-credit course** from the following:

- ENGL 3510 HU/CC - World Literature **Credits: (3)**
- ENGL 4550 - American Literature: Contemporary **Credits: (3)**
- ENGL 4560 - Contemporary Literature for Creative Writers **Credits: (3)**
- ENGL 4660 - British Literature: Contemporary **Credits: (3)**

Grammar and Editing

Students will choose **one 3-credit course** from the following:

- ENGL 2140 - Introduction to Professional and Technical Editing **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**

Layout and Graphics

Students will choose **one 3-credit course or a 3-credit course combination** from the following:

- ART 2420A - Bitmap Imaging **Credits: (1)** and
- ART 2420B - Vector Drawing **Credits: (1)** and
- ART 2420C - Digital Page Composition **Credits: (1)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**

Practical Experience

Students will choose **one 3-credit course** from the following:

- ENGL 4900 INT - Internships in Literary and Textual Studies **Credits: (1-3)**
- ENGL 4960 INT - Metaphor: Editing the Student Literary Journal **Credits: (3)**

Professional and Technical Writing Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade point of 2.0 or better in all courses within the academic minor.
- **Credit Hour Requirements:** This minor consists of 18 credit hours of upper division technical writing courses.
- **Program Code:** 3024
- **CIPC:** 231303

Course Requirements for Minor

Professional and Technical Writing Courses Required (18 credit hours)

1. Four required courses - 12 credit hours

- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3140 - Professional and Technical Editing **Credits: (3)**
- ENGL 3190 CEL - Document Design **Credits: (3)**
- ENGL 4120 CEL/INT - Seminar and Practicum in Professional and Technical Writing **Credits: (3)**

2. Two of the following elective courses - 6 credit hours

- ENGL 3120 - Foundations in Professional & Technical Writing **Credits: (3)**
- ENGL 3130 - Digital Writing Technologies **Credits: (3)**
- ENGL 3160 CEL - Grant Writing **Credits: (3)**
- ENGL 4100 - Issues in Professional and Technical Writing **Credits: (3)**
- ENGL 4110 - Content Management **Credits: (3)**

Screenwriting Minor

The Screenwriting Minor introduces students to the concepts, skills, and practical experience needed to enter the growing screenwriting industries. It offers an attractive opportunity for students interested in creative writing of any kind, film studies, theater, video game design, genre adaptation (print or stage to film), and film design or production. As such, it would complement many majors, among them English, Creative Writing, Theatre, Visual Art and Design, Communication, or Film Studies.

- **Program Prerequisite:** None required. However, some of the individual course options have a prerequisite or corequisite.

- **Courses taken which are part of the student's major will not count as fulfillment of the minor requirement.**
- **Grade Requirements:** A grade of 2.0 or better in all courses used toward the minor.
- **Credit Hour Requirements:** 18 credit hours, apportioned as directed below.
- **Program Code:** 3104
- **CIPC:** 500504

Course Requirements for Screenwriting Minor

Core (12 credit hours)

Complete the following 3-credit courses:

- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- ENGL 2295 - CW: Introduction to Screenwriting **Credits: (3)** or
- COMM 3740 - Writing for Screen **Credits: (3)**
- ENGL 3290 - CW: Advanced Screenwriting **Credits: (3)**
- ENGL 3380 - CW: Screenwriting Forms and Craft **Credits: (3)**

Introductory (3 credit hours)

Choose one 3-credit course from the following:

- ENGL 2230 HU/CC - Introduction to Drama **Credits: (3)**
- ENGL 2250 CA/CC - CW: Introduction to Creative Writing **Credits: (3)**
- ENGL 2260 CA/CC - CW: Introduction to Writing Short Fiction **Credits: (3)**
- ENGL 2270 CA/CC - CW: Introduction to Writing Poetry **Credits: (3)**
- ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction **Credits: (3)**

Enhancement (3 credit hours)

Choose one 3-credit course from the following:

- ENGL 3240 - CW: Writing Creative Nonfiction **Credits: (3)**
- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**
- ENGL 3355 - CW: Creative Nonfiction Forms and Craft **Credits: (3)**
- ENGL 3360 - CW: Short Story Forms and Craft **Credits: (3)**
- ENGL 3365 - CW: Novel Forms and Craft **Credits: (3)**
- ENGL 3370 - CW: Poetic Forms and Craft **Credits: (3)**
- ENGL 3540 - Adaptation Studies **Credits: (3)**

Teaching Minor

English Teaching Minor

- **Grade Requirements:** A grade of 2.0 or better in all courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 25 credit hours of English courses. ENGL 1005, ENGL 1006, ENGL 1007, ENGL 1010, ENGL 2010, ENGL 2015 and lower division HU general education literature courses do not count toward an English teaching minor.
- **Program Code:** 3023
- **CIPC:** 131305

Students who select the English Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Student Teaching

Student Teaching takes place during Secondary Education Student Teaching, which generally takes place during students' last semester prior to graduation. Before student teaching, English majors must have completed all required English and Education courses and completed the language requirements for the Bachelor of Art degree. Students must apply for student teaching through Teacher Education according to deadlines set by that department.

Course Requirements for Minor

Required English Courses (25 credit hours)

Foundation - 3 credit hours

Critical Approaches Course (to be taken early in the minor).

- ENGL 2700 - Introduction to Critical Theory **Credits: (3)**

Core - 6 credit hours

1. American Literature Surveys: (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3610 - American Literature I **Credits: (3)**
- ENGL 3620 - American Literature II **Credits: (3)**

2. British Literature Surveys: (one of the following) / Prerequisite ENGL 2010 or ENGL 2015:

- ENGL 3650 - British Literature I **Credits: (3)**
- ENGL 3660 - British Literature II **Credits: (3)**

Methodology - 13 credit hours

Take all of the following:

- ENGL 2420 - Young Adult Literature **Credits: (3)**
- ENGL 3020 - Teaching English/Language Arts **Credits: (3)**
- ENGL 3410 INT - The Teaching of Writing **Credits: (3)**
- ENGL 3755 - Teaching Language in the Secondary Schools **Credits: (3)**
- ENGL 4910 - Capstone in English Teaching **Credits: (1)**

Areas of Specialization - 3 credit hours

Choose **one** course from the area listed below:

Writing and Interdisciplinary Studies

Courses in this area will focus on writing and/or the study of other disciplines as they connect with literature, language, or the craft of writing / Prerequisites as specified for individual courses in course catalog:

- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**
- ENGL 3210 - Advanced College Writing **Credits: (3)**
- ENGL 3250 - CW: Advanced Fiction Writing **Credits: (3)**
- ENGL 3260 - CW: Advanced Poetry Writing **Credits: (3)**
- ENGL 3280 - Biographical Writing **Credits: (3)**

Department of World Languages & Cultures

Department Chair: Isabel Asensio

Location: Elizabeth Hall, Room 434

Telephone Contact: Sandy Thomas 801-626-6183

Professors: Isabel Asensio, Diego Batista, Craig Bergeson, Thomas Mathews; **Associate Professors:** Electra Fielding, Aubrey Jones Kubiak, Kacy Peckenpaugh, John Trimble; **Assistant Professors:** Youn Soo Kim Goldstein, Cynthia Jones, Vicente Iranzo; **Instructors:** Tomono Adachi, Kate Batson, Javier Berzal Rojo, Dori Huang, Paul Rama, Andrea Schwartz

The Department of Foreign Languages promotes global awareness and intercultural understanding by providing instruction and study abroad opportunities in various languages. We prepare majors and minors to function effectively in a foreign language by offering courses in literature, culture, linguistics, pedagogy and language for professional purposes.

A bachelor of arts degree is offered. Students may select a regular major, a teaching major or a major with a commercial emphasis in French, German or Spanish. Regular and teaching minors are offered in these three languages as well. In addition, a Japanese minor is offered, and the department participates in Asian Studies, European Studies and Latin American Studies minors and in a departmental Honors Program. A language emphasis for the BIS degree requires a minimum of 18 hours, 15 of which must be upper-division course work. Courses in other languages may be offered as need and resources allow. The curriculum is based on the National Standards for measuring proficiency. Each course is designed to foster linguistic skills and to increase the student's ability to participate in the culture.

Foreign Language Requirement for the Bachelor of Arts Degree

The Bachelor of Arts degree includes a foreign language or ASL (American Sign Language) requirement which may be met by one of the following:

1. Documentation of a proficiency level of "Intermediate Low" or better through an examination administered by the WSU Foreign Language Department or through an examination by a recognized testing agency.
2. Completion of WSU foreign language course ASL 2020 or CHNS 2020 or FRCH 2020 or GRMN 2020 or ITLN 2020 or JPNS 2020 or PTGS 2020 or SPAN 2020 with a grade of "C" or higher, or comparable transfer credit.
3. Completion of any upper-division WSU foreign language course with a grade of "C" or higher, or comparable transfer credit.

4. Students for whom English is a second language may meet the BA foreign language requirement by verifying their proficiency in their native (non-English) language in cooperation with the Foreign Language Department and verifying their proficiency in English as a Second language by passing the ESL Special Examination.
5. Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at Salt Lake Community College (SLCC). The signer must "produce and maintain American Sign Language with continuity and precision."
6. Completion of SLCC's American Sign Language Course ASL 1050 with a grade of "C" or higher, or comparable transfer credit.
7. Completion of twelve semester-hours of foreign language.

Obtaining Foreign Language Credit for Prior Language Experience

Students with prior language experience may obtain lower-division foreign language credit by completing one of the following options:

1. Students may obtain credit for 1010, 1020, 2010 and 2020 by passing a higher numbered course with a minimum grade of "C"
2. Students may obtain credit for 1010, 1020, 2010 and 2021 through examination, but only in those languages in which the Department of Foreign Languages has expertise (usually limited to French, German, Japanese and Spanish). This examination is administered regularly by the department. Credit for Humanities General Education (2020) cannot be obtained through examination.

Upon payment of a nominal fee, hours earned through either option are recorded as "credit" on the transcript and do not affect the student's GPA. The department may accept results from other foreign language testing agencies as evidence of proficiency. Application for credit is to be made at the office of the Department of Foreign Languages.

Generally, students may not earn lower-division foreign language credit for proficiency in their native language. If a student's second language is English, then English may fill the BA foreign language requirement (see specific BA-major department advisors).

Interdisciplinary Minors

The Foreign Languages Department participates in the Asian Studies, European Studies, Linguistics, and Latin American Studies Minor Programs. Students who wish to enroll in one of these programs should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Engaged Learning, Honors, and Interdisciplinary Programs section of this catalog.)

Oral Proficiency Requirements

The American Council on the Teaching of Foreign Languages (ACTFL) has defined a scale for the evaluation of the language proficiency of students. The ACTFL Proficiency scale has four levels: Novice, Intermediate, Advanced and Superior. The Department of Foreign Languages requires that students achieve a determined proficiency level, depending on the students' goals. In addition, instructors assume that students entering any class have acquired the entry-level proficiency indicated for that class. (These levels are indicated in parentheses by the description of each course. N=Novice; NH=Novice High; IL=Intermediate Low; IM=Intermediate Mid; IH=Intermediate High; AL=Advanced Low.)

Novice (N)

Students at this level have no experience in the language they are studying. They begin by learning the sound and spelling system and by memorizing words and phrases. During the course, they will progress to the point of being able to create simple sentences, to ask some questions, and to initiate, sustain and conclude simple social tasks more than half of the time.

Novice High (NH)

At the Novice-High level student's progress from the ability to respond simply with learned utterances to the ability to create language face-to-face, to ask and answer simple questions, and to create sentence-level constructions.

Intermediate Low (IL)

At the Intermediate-Low level students continue to build mastery of personal social-oriented informational tasks and move to a higher level by practicing informational tasks beyond the immediate and personal. Students will move from simple-sentence to more complex sentence-level discourse. They will practice narration, description and comparison, but mastery is not expected.

Intermediate Mid (IM)

Students at this level build on an ability to perform informational tasks beyond immediate and personal needs while they continue to practice narration, description and comparison. In addition, students begin practice in supporting opinions and hypothesizing in the language. They move from complex sentence-level structures to paragraph-level discourse.

Intermediate High (IH)

At this level students can function at the Advanced level most of the time. They still need practice narrating, describing and comparing, and Linking sentences together smoothly. In addition, they encounter more tasks that require them to support opinion and to hypothesize. Student's progress from complex sentences to paragraphs to extended discourse.

Advanced Low (AL)

Students at this level function at the Advanced level all or almost all of the time. Students have no difficulty with extended discourse, narration in all tenses and explanation. They are able to and use language both oral and written in complex and sophisticated ways.

Associate of Arts

American Sign Language (ASL) (AA)

An Associate of Arts with an American Sign Language (ASL) major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in ASL. It will also indicate students are prepared to enroll in upper division ASL courses. The ending proficiency expectation is "Intermediate Low."

- **Grade Requirements:** A grade of C or better in courses used for this major (a grade of C- is not acceptable).
- **Program Code:** 3050AA
- **CIPC:** 161601

Advisement

American Sign Language (ASL) majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Describe and explain aspects of the culture(s) of the language being studied.

Required ASL Courses

- ASL 1010 - First Semester ASL **Credits: (3)**
- ASL 1020 - Second Semester ASL **Credits: (3)**
- ASL 2010 - Third Semester ASL **Credits: (3)**
- ASL 2020 HU - Fourth Semester ASL **Credits: (3)**
- ASL 2030 - Second Year Language Review **Credits: (3)**

Elective Courses

- ASL 3570 - Special Topics in Culture **Credits: (3)**

Chinese (AA)

An Associate of Arts with a Chinese major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in Chinese. It will also indicate students are prepared to enroll in upper division Chinese courses. The ending proficiency expectation is "Intermediate Low."

- **Grade Requirements:** A grade of C or better in courses used for this major (a grade of C- is not acceptable).
- **Program Code:** 3074AA
- **CIPC:** 160301

Advisement

Chinese majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Required Chinese Courses

- CHNS 1010 - First Semester Chinese **Credits: (3)**
- CHNS 1020 - Second Semester Chinese **Credits: (3)**
- CHNS 2010 - Third Semester Chinese **Credits: (3)**
- CHNS 2020 HU - Fourth Semester Chinese **Credits: (3)**

- CHNS 2030 - Second Year Language Review **Credits: (3)**
OR
- CHNS 1852 - Study Abroad **Credits: (1-3)**
OR
- CHNS 2851 - Study Abroad **Credits: (3)** or
- CHNS 2852 - Study Abroad **Credits: (1-3)**
OR
- CHNS 3000 - Proficiency Development **Credits: (3)**

French (AA)

An Associate of Arts with a French major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in French. It will also indicate students are prepared to enroll in upper division French courses. The ending proficiency expectation is "Intermediate Low."

- **Grade Requirements:** A grade of C or better in courses used for this major (a grade of C- is not acceptable).
- **Program Code:** 3026AA
- **CIPC:** 160901

Advisement

French majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Required French Courses

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

- FRCH 2030 - Second Year Language Review **Credits: (3)**
OR
- FRCH 1852 - Study Abroad **Credits: (1-3)**
OR
- FRCH 2851 HU - Study Abroad **Credits: (3)** or
- FRCH 2852 - Study Abroad **Credits: (1-3)**
OR
- FRCH 3000 - Proficiency Development **Credits: (3)**

German (AA)

An Associate of Arts with a German major will indicate that a student has completed all WSU AA degree requirements and the core curriculum required for the Bachelor of Arts in German. It will also indicate students are prepared to enroll in upper division German courses. The ending proficiency expectation is "Intermediate Low."

- **Grade Requirements:** A grade of C or better in courses used for this major (a grade of C- is not acceptable).
- **Program Code:** 3028AA
- **CIPC:** 160501

Advisement

German majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Required German Courses

- GRMN 1010 - First Semester German **Credits: (3)**
- GRMN 1020 - Second Semester German **Credits: (3)**
- GRMN 2010 - Third Semester German **Credits: (3)**
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**

- GRMN 2030 - Second Year Language Review **Credits: (3)**
OR
- GRMN 1852 - Study Abroad **Credits: (1-3)**
OR
- GRMN 2851 - Study Abroad **Credits: (3)** or
- GRMN 2852 - Study Abroad **Credits: (1-3)**
OR
- GRMN 3000 - Proficiency Development **Credits: (3)**

Japanese (AA)

WSU currently offers a minor in Japanese. Adding an Associate of Arts with a Japanese major will indicate that a student has completed all WSU AA degree requirements in addition to the core curriculum in Japanese. The ending proficiency expectation is "Intermediate Low."

- **Grade Requirements:** A grade of C or better in courses used for this major (a grade of C- is not acceptable).
- **Program Code:** 3032AA
- **CIPC:** 160302

Advisement

Japanese majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Required Japanese Courses

- JPNS 1010 - First Semester Japanese **Credits: (3)**
- JPNS 1020 - Second Semester Japanese **Credits: (3)**
- JPNS 2010 - Third Semester Japanese **Credits: (3)**
- JPNS 2020 HU - Fourth Semester Japanese **Credits: (3)**

- JPNS 2030 - Second Year Language Review **Credits: (3)**
OR
- JPNS 1852 - Study Abroad **Credits: (1-3)**
OR
- JPNS 2851 HU - Study Abroad **Credits: (3)** or
- JPNS 2852 - Study Abroad **Credits: (1-3)**
OR
- JPNS 3000 - Proficiency Development **Credits: (3)**

Localization (AA)

- **Grade requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Program Code:** 3082AA
- **CIPC:** 160103

Admissions

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

Advisement

Localization majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

General Education

Refer to Degree and General Education Requirements of this catalog for Associate of Arts requirements.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Explain the linguistic and cultural knowledge needed in adapting a product or service for specific locales associated with the language they are studying.
- Explain the application of localization in global technology (such as software engineering, web development, digital media, programming, etc.).
- Describe and explain aspects of the culture(s) of the language being studied.

Course Requirements

FL Courses (12 credit hours)

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- ASL 1010 - First Semester ASL **Credits: (3)**

- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 3050CP
- **CIPC:** 16.1601

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- ASL 1010 - First Semester ASL **Credits: (3)**
- ASL 1020 - Second Semester ASL **Credits: (3)**
- ASL 2010 - Third Semester ASL **Credits: (3)**
- ASL 2020 HU - Fourth Semester ASL **Credits: (3)**

Elective Courses

6 credit hours in ASL at the 3000 level or higher.

Chinese Certificate of Proficiency

The Certificate of Proficiency in Chinese will allow students and professionals to validate intermediate competency in oral and written Chinese, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate
- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 3074CP
- **CIPC:** 16.0301

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- CHNS 1010 - First Semester Chinese **Credits: (3)**
- CHNS 1020 - Second Semester Chinese **Credits: (3)**
- CHNS 2010 - Third Semester Chinese **Credits: (3)**
- CHNS 2020 HU - Fourth Semester Chinese **Credits: (3)**

Elective Courses

6 credit hours in Chinese at the 3000 level or higher.

French Certificate of Proficiency

The Certificate of Proficiency in French will allow students and professionals to validate intermediate competency in oral and written French, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate
- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 3026CP
- **CIPC:** 16.0901

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Elective Courses

6 credit hours in French at the 3000 level or higher.

German Certificate of Proficiency

The Certificate of Proficiency in German will allow students and professionals to validate intermediate competency in oral and written German, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate
- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 3028CP
- **CIPC:** 16.0501

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- GRMN 1010 - First Semester German **Credits: (3)**
- GRMN 1020 - Second Semester German **Credits: (3)**
- GRMN 2010 - Third Semester German **Credits: (3)**
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**

Elective Courses

6 credit hours in German at the 3000 level or higher.

Japanese Certificate of Proficiency

The Certificate of Proficiency in Japanese will allow students and professionals to validate intermediate competency in oral and written Japanese, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate
- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 3032CP

- **CIPC:** 16.0302

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

Complete the following (12 credit hours):

- JPNS 1010 - First Semester Japanese **Credits: (3)**
- JPNS 1020 - Second Semester Japanese **Credits: (3)**
- JPNS 2010 - Third Semester Japanese **Credits: (3)**
- JPNS 2020 HU - Fourth Semester Japanese **Credits: (3)**

Elective Courses

6 credit hours in Japanese at the 3000 level or higher.

Korean Certificate of Proficiency

The Certificate of Proficiency in Korean will allow students and professionals to validate intermediate competency in oral and written Korean, affording them an advantage in employment, broadening business opportunities, and enriching their cultural and social understanding of our community and of the Korean-speaking world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

- **Credit Hour Requirements:** A total of 18 credit hours is required.
- **Program Code:** 3124CP
- **CIPC:** 16.0303

Advisement

Students are advised by Korean faculty and the Academic Advisor for the College of Arts & Humanities.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000-level courses)
- Write an analysis of a literary or cultural work in the language. (3000-level courses)
- Describe and explain aspects of culture(s) of the language being studied.

Major Course Requirements

Required Courses (12 credit hours)

Complete the following (12 credit hours):

- KOR 1010 - First Semester Korean **Credits: (3)**
- KOR 1020 - Second Semester Korean **Credits: (3)**
- KOR 2010 - Third Semester Korean **Credits: (3)**
- KOR 2020 HU - Fourth Semester Korean **Credits: (3)**

Elective Courses (6 credit hours)

6 credit hours in Korean at the 3000 level or higher.

Spanish Certificate of Proficiency

The Certificate of Proficiency in Spanish will allow students and professionals to validate intermediate competency in oral and written Spanish, affording them an advantage in employment, broadening business opportunities and enriching their cultural and social understanding of our community and of the francophone world. This Certificate provides concrete evidence of speaking and writing skills for employers and associates.

- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate
- **Credit Hour Requirements:** A total of 18 credit hours is required.
-

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles. (3000 level courses)
- Write an analysis or a literary or cultural work in the language. (3000 level courses)
- Describe and explain aspects of the culture(s) of the language being studied.

Core Courses

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Elective Courses

6 credit hours in Spanish at the 3000 level or higher.

Spanish for Healthcare Certificate of Proficiency

The Certificate of Proficiency in Spanish for Healthcare will provide students with concrete evidence that they possess intermediate listening, speaking, reading, and writing proficiency in Spanish; intercultural awareness in a medical setting; and foundational knowledge of medical terminology in Spanish.

- **Program Prerequisite:** SPAN 1010, 1020, 2010, and 2020
- **Grade Requirements:** A grade of "C" or better in all courses used for this certificate.
- **Credit Hour Requirements:** A total of 21 credit hours is required.
- **Program Code:** 3128CP
- **CIPC:** 160905

Advisement

Students will be advised by faculty of the Spanish section, of the Department of World Languages and Cultures.

Admission Requirements

This program is for students who wish to provide potential employers with concrete evidence that they possess intermediate listening, speaking, reading, and writing proficiency in Spanish; intercultural awareness in a medical setting; and foundational knowledge of medical terminology in Spanish. Any student admitted to Weber State University may declare this program.

Program Learning Outcomes

- Demonstrate at least an intermediate level of listening, speaking, reading, and writing proficiency in Spanish.
- Demonstrate a foundational knowledge of medical vocabulary in Spanish.
- Demonstrate intercultural awareness in a medical setting.

Requirements

Prerequisite Courses (12 credit hours)

Complete the following 12 credit hours:

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Core Course (3 credit hours)

Complete the following course:

- SPAN 3060 - Grammar & Composition **Credits: (3)**

Spanish for Healthcare Courses (6 credit hours)

Select two of the following courses:

- SPAN 3720 CEL - Medical Spanish I **Credits: (3)**

- SPAN 4720 - Medical Spanish II **Credits: (3)**
- SPAN 3750 - Healthcare Interpreting **Credits: (3)**
- SPAN 4770 - Medical Translation **Credits: (3)**

Bachelor of Arts

French (BA)

- **Program Prerequisite:** Completion of first and second-year courses in French or equivalent preparation.
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 31.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
- **Program Code:** 3026BA
- **CIPC:** 160901

Advisement

French majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. FRCH 2020 HU will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division French course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Assessment

During their senior year, all French majors will complete WLC 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in WLC 4990.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Required Courses (7.5 credit hours)

- FRCH 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- FRCH 3060 - Grammar & Composition **Credits: (3)**
Or
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
Or
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3160 - Introduction to Literature **Credits: (3)**
Or
- FRCH 3610 - Literature Survey I **Credits: (3)**
Or
- FRCH 3690 - Special Topics in Literature **Credits: (3)**
- WLC 4990 - Senior Assessment **Credits: (.5)**

Literature Requirement (3 credit hours)

- FRCH 3160 - Introduction to Literature **Credits: (3)**
- FRCH 3610 - Literature Survey I **Credits: (3)**
- FRCH 3620 - Literature Survey II **Credits: (3)**
- FRCH 3630 - Literature Poetry **Credits: (3)**
- FRCH 3631 - Literature: Prose **Credits: (3)**
- FRCH 3632 - Literature: Drama **Credits: (3)**
- FRCH 3650 - Literature Periods **Credits: (3)**
- FRCH 3670 - Literature Authors **Credits: (3)**
- FRCH 3680 - Literature: Film **Credits: (3)**
- FRCH 3690 - Special Topics in Literature **Credits: (3)**
- FRCH 4620 - Survey of Literature I **Credits: (3)**
- FRCH 4630 - Survey of Literature II **Credits: (3)**
- FRCH 4690 - Special Topics in Literature **Credits: (3)**

Elective Courses

Select a minimum of 21 credit hours.

To complete the required 31.5 credit hours, majors in the French BA program may choose as electives any 3000 and 4000 level French courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**WLC 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a French major if course assignments are completed in French. Speak with the instructor before registering for this class.*

French for Translation and Global Industry (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Completion of first and second-year courses in French or equivalent preparation.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation -- 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 46.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
- **Program Code:** 3108BA
- **CIPC:** 160901

Advisement

French majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626- 6183 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. FRCH 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division French course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.

- Demonstrate the ability to write in different styles.
- Write an analysis of a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.
- Demonstrate proficiency with technological tools and methodologies used to perform tasks within the context of a specific professional field (translation, business, or international relations).

Assessment

During their senior year, all French majors will complete WLC 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in WLC 4990.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency).

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Language and Structure Courses (7 credit hours)

Complete FRCH 2960 and select two courses (a minimum of 7 credit hours) from the following

- FRCH 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- FRCH 3060 - Grammar & Composition **Credits: (3)**
- FRCH 3360 - Advanced Grammar **Credits: (3)**
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3560 - Cultural Heritage II **Credits: (3)**

Translation and Localization Requirements (12 credit hours)

- WLC 2410 GLB - Introduction to Localization **Credits: (3)**
- FRCH 3740 - Translation I **Credits: (3)**
- WLC 3430 GLB - Translation Technology **Credits: (3)**

Select one course from the following.

- FRCH 3760 - Special Topics in Translation **Credits: (3)**
- FRCH 4740 - Translation II **Credits: (3)**
- FRCH 3750 - Introduction to Interpreting **Credits: (3)**

Global Industry Requirements (6 credit hours)

Select two courses (a minimum of 6 credit hours) from the following.

- FRCH 3710 - Business Language I **Credits: (3)**
- FRCH 3715 - Business Language II **Credits: (3)**
- FRCH 3720 - Language for Specific Purposes I **Credits: (3)**
- FRCH 3730 - Language for Specific Purposes II **Credits: (3)**

Support and Application Courses

Technology Elective (6 credit hours)

Select two courses (a minimum of 6 credit hours) from the following.

- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- ART 3430 - Typography 1 **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- CS 1400 - Programming I **Credits: (4)**
- MIS 2110 - Software Development I **Credits: (3)**
- WEB 1400 - Web Design and Usability **Credits: (3)**

Writing Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following.

- ENGL 3030 - Structure of English **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**

Linguistics Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following.

- FRCH 3220 - Phonetics and Phonology **Credits: (3)**
- FRCH 3270 - Special Topics in Linguistics **Credits: (3)**
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
- ENGL 3010 - Introduction to Linguistics **Credits: (3)**

Internship

Complete at least 1 credit hour in an internship; it is recommended that this be completed during the senior year. An internship may, on occasion, earn up to three credit hours.

- WLC 4860 INT - Foreign Language Internship **Credits: (1-3)**

Senior Assessment

- WLC 4990 - Senior Assessment **Credits: (.5)**

Elective Courses (9 credit hours)

Select three courses (a minimum of 9 credit hours) from the following.

- FRCH 3000 - Proficiency Development **Credits: (3)**
- FRCH 3060 - Grammar & Composition **Credits: (3)**
- FRCH 3116 - DLI Bridge Course I **Credits: (3)**
- FRCH 3117 - DLI Bridge Course II **Credits: (3)**
- FRCH 3118 - DLI Bridge Course III **Credits: (3)**
- FRCH 3160 - Introduction to Literature **Credits: (3)**
- FRCH 3220 - Phonetics and Phonology **Credits: (3)**
- FRCH 3270 - Special Topics in Linguistics **Credits: (3)**
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
- FRCH 3360 - Advanced Grammar **Credits: (3)**
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3560 - Cultural Heritage II **Credits: (3)**
- FRCH 3570 GLB - Special Topics in Culture **Credits: (3)**
- FRCH 3630 - Literature Poetry **Credits: (3)**
- FRCH 3631 - Literature: Prose **Credits: (3)**
- FRCH 3632 - Literature: Drama **Credits: (3)**
- FRCH 3650 - Literature Periods **Credits: (3)**
- FRCH 3670 - Literature Authors **Credits: (3)**
- FRCH 3680 - Literature: Film **Credits: (3)**
- FRCH 3690 - Special Topics in Literature **Credits: (3)**

****Note: WLC 3320 - Applied Language Studies when taken as Language & Culture of Europe will only count towards a French major if course assignments are completed in French. Speak with the instructor before registering for this class.***

French Teaching (BA)

- **Program Prerequisite:** Completion of first and second-year courses in French or equivalent preparation. In addition, teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A total of 120 hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 36.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
- **Program Code:** 3027BA
- **CIPC:** 131325

Advisement

French Teaching majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. Teaching majors are also encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269).

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. FRCH 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division French course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Assessment

During their senior year, all French Teaching majors will complete WLC 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in WLC 4990.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Required Courses (12.5 credit hours)

- FRCH 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- FRCH 3060 - Grammar & Composition **Credits: (3)**
or
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
or
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3160 - Introduction to Literature **Credits: (3)**
or
- FRCH 3610 - Literature Survey I **Credits: (3)**
or
- FRCH 3690 - Special Topics in Literature **Credits: (3)**
- WLC 4400 - Methods for Teaching Languages **Credits: (5)**
- WLC 4990 - Senior Assessment **Credits: (.5)**

Literature Requirement (3 credit hours)

- FRCH 3610 - Literature Survey I **Credits: (3)**
- FRCH 3620 - Literature Survey II **Credits: (3)**
- FRCH 3630 - Literature Poetry **Credits: (3)**
- FRCH 3631 - Literature: Prose **Credits: (3)**
- FRCH 3632 - Literature: Drama **Credits: (3)**
- FRCH 3650 - Literature Periods **Credits: (3)**
- FRCH 3670 - Literature Authors **Credits: (3)**
- FRCH 3680 - Literature: Film **Credits: (3)**
- FRCH 3690 - Special Topics in Literature **Credits: (3)**
- FRCH 4620 - Survey of Literature I **Credits: (3)**
- FRCH 4630 - Survey of Literature II **Credits: (3)**

Elective Courses

To complete the required 36.5 credit hours, majors in the French Teaching BA program may choose as electives any 3000 and 4000 level French courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking WLC 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

German (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Completion of first and second-year courses in German or equivalent preparation.
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 31.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
- **Program Code:** 3028BA
- **CIPC:** 160501

Advisement

German majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. FL 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division German course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Assessment

During their senior year, all German majors will complete WLC 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in WLC 4990.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- GRMN 1010 - First Semester German **Credits: (3)**
- GRMN 1020 - Second Semester German **Credits: (3)**
- GRMN 2010 - Third Semester German **Credits: (3)**
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**

Required Courses (7.5 credit hours)

- GRMN 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- GRMN 3060 - Grammar & Composition **Credits: (3)**
or
- GRMN 3320 - Applied Language Studies **Credits: (1-3)**
or
- GRMN 3550 - Cultural Heritage I **Credits: (3)**
- GRMN 3160 - Introduction to Literature **Credits: (3)**
or
- GRMN 3610 - Literature Survey I **Credits: (3)**
or
- GRMN 3690 - Special Topics in Literature **Credits: (1-3)**
- WLC 4990 - Senior Assessment **Credits: (.5)**

Literature Requirement (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following

- GRMN 3160 - Introduction to Literature **Credits: (3)**
- GRMN 3610 - Literature Survey I **Credits: (3)**
- GRMN 3620 - Literature Survey II **Credits: (3)**
- GRMN 3630 - Literature Poetry **Credits: (3)**
- GRMN 3631 - Literature: Prose **Credits: (3)**
- GRMN 3632 - Literature: Drama **Credits: (3)**
- GRMN 3650 - Literature Periods **Credits: (3)**
- GRMN 3670 - Literature Authors **Credits: (3)**
- GRMN 3680 - Literature: Film **Credits: (3)**
- GRMN 3690 - Special Topics in Literature **Credits: (1-3)**
- GRMN 4620 - Survey of Literature I **Credits: (3)**
- GRMN 4630 - Survey of Literature II **Credits: (3)**
- GRMN 4690 - Special Topics in Literature **Credits: (3)**

Elective Courses

Select a minimum of 21 credit hours.

To complete the required 31.5 credit hours, majors in the German BA program may choose as electives any 3000 and 4000 level German courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**WLC 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a German major if course assignments are completed in German. Speak with the instructor before registering for this class.*

German for the Professions (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Required Courses (7.5 credit hours)

- SPAN 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**
- WLC 4990 - Senior Assessment **Credits: (.5)**

Linguistics Requirement (3 credit hours)

Take one of the following courses:

- SPAN 3220 - Phonetics and Phonology **Credits: (3)**
- SPAN 3360 - Advanced Grammar **Credits: (3)**
- SPAN 3270 - Special Topics in Linguistics **Credits: (3)**

Culture Requirement (3 credit hours)

Complete one of the following courses:

- SPAN 3550 GLB - Cultural Heritage of Spain **Credits: (3)**
- SPAN 3560 - Cultural Heritage of Latin America **Credits: (3)**
- SPAN 3570 GLB - Special Topics in Culture **Credits: (3)**

Literature Requirement (6 credit hours)

Complete two of the following courses:

- SPAN 3610 - Peninsular Literature I **Credits: (3)**
- SPAN 3615 - Latin American Literature I **Credits: (3)**
- SPAN 3620 - Peninsular Literature II **Credits: (3)**
- SPAN 3625 - Latin American Literature II **Credits: (3)**

- SPAN 3630 - Literature Poetry **Credits: (3)**
- SPAN 3631 - Literature: Prose **Credits: (3)**
- SPAN 3650 - Literature Periods **Credits: (3)**
- SPAN 3670 - Literature Authors **Credits: (3)**
- SPAN 3680 - Literature: Film **Credits: (3)**
- SPAN 3690 - Special Topics in Literature **Credits: (1-3)**

Senior-level courses (6 credit hours)

Take two of the following courses:

- SPAN 4570 - Special Topics in Culture **Credits: (3)**
- SPAN 4690 - Special Topics in Literature **Credits: (3)**
- SPAN 4720 - Medical Spanish II **Credits: (3)**
SPAN 3270 is a prerequisite for SPAN 4720.
- SPAN 4710 - Business Language II **Credits: (3)**
- SPAN 4740 - Translation II **Credits: (3)**
- SPAN 4770 - Medical Translation **Credits: (3)**

Elective Courses (6 credit hours)

To complete the required 31.5 credit hours, majors in the Spanish BA program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**WLC 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a Spanish major if course assignments are completed in Spanish. Speak with the instructor before registering for this class.*

Spanish for the Professions (BA)

- **Program Prerequisite:** Completion of first and second-year courses in Spanish or equivalent preparation.
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation -- 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 31.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
- **Program Code:** 3087BA
- **CIPC:** 160905

Advisement

Spanish majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. SPAN 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division Spanish course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

- **Credit Hour Requirements:** A total of 120 hours is required for graduation; 40 hours of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 36.5 upper division hours is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.
- **Program Code:** 3031BA
- **CIPC:** 131330

Advisement

Spanish Teaching majors are encouraged to meet with a faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment. Teaching majors are also encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269).

Admission Requirements

Declare your program of study (see Enrollment Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department).

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. SPAN 2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division Spanish course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Assessment

During their senior year, all Spanish Teaching majors will complete WLC 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in WLC 4990.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**

- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Required Courses (12.5 credit hours)

- SPAN 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**
- WLC 4400 - Methods for Teaching Languages **Credits: (5) ***
- WLC 4990 - Senior Assessment **Credits: (.5)**

Literature Requirement (3 credit hours)

- SPAN 3610 - Peninsular Literature I **Credits: (3)**
- SPAN 3615 - Latin American Literature I **Credits: (3)**
- SPAN 3620 - Peninsular Literature II **Credits: (3)**
- SPAN 3625 - Latin American Literature II **Credits: (3)**
- SPAN 3630 - Literature Poetry **Credits: (3)**
- SPAN 3631 - Literature: Prose **Credits: (3)**
- SPAN 3650 - Literature Periods **Credits: (3)**
- SPAN 3670 - Literature Authors **Credits: (3)**
- SPAN 3680 - Literature: Film **Credits: (3)**
- SPAN 3690 - Special Topics in Literature **Credits: (1-3)**
- SPAN 4690 - Special Topics in Literature **Credits: (3)**

Elective Courses

To complete the required 35.5 credit hours, majors in the Spanish Teaching BA program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking WLC 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

Spanish Translation (BA)

Program Prerequisite: Completion of first and second-year courses in Spanish or equivalent preparation.

Minor: Not Required.

Grade Requirements: A grade of "C" or better in courses used for this major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

Credit Hour Requirements: A total of 120 credit hours is required for graduation; 40 of these must be upper division (courses numbered 3000 and above). For the major, a minimum of 53.5 upper division courses is required beyond the prerequisite lower division courses (prerequisite courses, if needed, total 12 credit hours). At least 6 credit hours of major courses must be completed at WSU.

- **Program Code:** 3077BA
- **CIPC:** 160103

Advisement

Spanish Translation majors are encouraged to meet with Spanish faculty advisors and/or Academic Advisors for the College of Arts & Humanities at least annually for course and program advisement.

Use Grad MAPs to plan your degree

Admission Requirements

All students pursuing the Bachelor of Arts in Spanish Translation must follow the same application process for admittance to WSU. In addition, before students may declare the Spanish Translation major they will demonstrate at least Intermediate-Low proficiency in Spanish (following the ACTFL Proficiency Guidelines) by submitting:

1. a recording of an autobiographical statement in the candidate's non-native language (5 minutes).
2. an essay (in English or Spanish) on why the candidate wants to pursue a BA in Spanish Translation (250 words) to assess the candidate's formal language use.
3. a translation of the essay.

Outstanding bilingual students in Concurrent Enrollment, in the DLI Bridge Courses or in our prerequisite Spanish sequence will be identified and encouraged to submit documents 1, 2 and 3, before they take upper-division Spanish courses.

General Education

Refer to Bachelor of Arts requirements. SPAN HU2020 will fulfill the 3 credit hours for the Humanities General Education requirement. A student who completes an upper-division Spanish course with a "C" or better will also meet this requirement. Credit for Humanities General Education (HU2020) cannot be obtained through examination. The prerequisite courses listed under the major requirements will also fulfill the BA Language requirement.

Program Learning Outcomes

- Demonstrate speaking and listening proficiency in the language they are studying.
- Demonstrate writing ability, including a command of grammar and appropriate usage to express their ideas.
- Demonstrate the ability to write in different styles.
- Write an analysis or a literary or cultural work in the language.
- Describe and explain aspects of the culture(s) of the language being studied.

Assessment

During their senior year, all Spanish Translation majors will complete FL 4990 in order to help the department assess how well it has met its goals. Students are encouraged to keep copies of their best work from each course taken in the major. These samples will be used in FL 4990.

Major Course Requirements for BA Degree

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Language and Structure Courses (19 credit hours)

Complete the following courses

- WLC 2960 - Introduction to World Languages and Cultures **Credits: (1)**
- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**
- SPAN 3360 - Advanced Grammar **Credits: (3)**
- ENGL 3030 - Structure of English **Credits: (3)**
- ENGL 3050 - Grammar, Style, and Usage for Advanced Writing **Credits: (3)**
- ENGL 3100 - Professional and Technical Writing **Credits: (3)**

Translation Courses (9 credit hours)

Complete the following 9 credit hours; must be taken in sequence:

- SPAN 3750 - Healthcare Interpreting **Credits: (3)**
- SPAN 3740 - Translation I **Credits: (3)**
- SPAN 4740 - Translation II **Credits: (3)**

Internship (1 credit hour)

Complete at least 1 credit hour in an internship; it is recommended that this be completed during the senior year. An internship may, on occasion, earn up to three credit hours.

- WLC 4860 INT - Foreign Language Internship **Credits: (1-3)**

Support and Application Courses

1. Culture Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following

- SPAN 3550 GLB - Cultural Heritage of Spain **Credits: (3)**
- SPAN 3560 - Cultural Heritage of Latin America **Credits: (3)**
- SPAN 3570 GLB - Special Topics in Culture **Credits: (3)**

2. Linguistics Course (3 credit hours)

Select one course (a minimum of 3 credit hours) from the following

- SPAN 3320 - Applied Language Studies **Credits: (1-3)**
- SPAN 3270 - Special Topics in Linguistics **Credits: (3)**

3. Business Language (6 credit hours)

Complete the following 6 credit hours

- SPAN 3710 - Business Language I **Credits: (3)**
- SPAN 4710 - Business Language II **Credits: (3)**

4. Specific Purposes (3 credit hours)

Complete one course (a minimum of 3 credit hours) from the following

- SPAN 3720 CEL - Medical Spanish I **Credits: (3)**
- SPAN 3730 CEL - Spanish for Specific Purposes **Credits: (3)**

Elective Courses (9 credit hours)

Complete 9 credit hours from among all upper-division SPAN courses.

Senior Assessment (.5 credit hours)

Complete WLC 4990 - Senior Assessment (.5).

Emphasis Option for Bachelor of Interdisciplinary Studies

American Sign Language (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Department of Foreign Languages participates in the BIS degree program. For an American Sign Language emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their ASL component.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 3050

Chinese (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Department of Foreign Languages participates in the BIS degree program. For a Chinese emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their Chinese component.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.

- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 3074

French (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Department of Foreign Languages participates in the BIS degree program. For a French emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their French component.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 3026
- **CIPC:** 160901

German (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Department of Foreign Languages participates in the BIS degree program. For a German emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their German component.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 3028
- **CIPC:** 160501

Japanese (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Department of Foreign Languages participates in the BIS degree program. For a Japanese emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their Japanese component.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 3032
- **CIPC:** 160302

Spanish (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

The Department of Foreign Languages participates in the BIS degree program. For a Spanish emphasis, students should take a minimum of 18 credit hours as approved by their Foreign Language Advisor. BIS students must meet with the Foreign Language Advisor to design their Spanish component.

- **Grade Requirements:** Minimum grade of "C" in courses counted toward fulfilling the minor (a grade of "C-" is not acceptable) and an overall GPA of 2.00.
- **Credit Hour Requirements:** Minimum of 18 credit hours.
- **Program Code:** 3030
- **CIPC:** 160905

Minor

French for the Professions Minor

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Completion of first and second-year courses in French or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in French. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3089
- **CIPC:** 160901

Course Requirements for Minor

Prerequisite Courses

*Complete the following 12 credit hours
(or demonstrate equivalent proficiency)*

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Required Courses (12 credit hours)

- FRCH 3060 - Grammar & Composition **Credits: (3)**
or
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
or
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3160 - Introduction to Literature **Credits: (3)**
or
- FRCH 3610 - Literature Survey I **Credits: (3)**
or
- FRCH 3690 - Special Topics in Literature **Credits: (3)**

- FRCH 3710 - Business Language I **Credits: (3)**
- FRCH 3715 - Business Language II **Credits: (3)**

Elective Courses

Select 3 credit hours from the following

- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3560 - Cultural Heritage II **Credits: (3)**
- FRCH 3570 GLB - Special Topics in Culture **Credits: (3)**
- FRCH 3760 - Special Topics in Translation **Credits: (3)**

French Minor

- **Prerequisite Courses:** Completion of first and second-year courses in French or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in French. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3026
- **CIPC:** 160901

Course Requirements for Minor

Prerequisite Courses

*Complete the following 12 credit hours
(or demonstrate equivalent proficiency)*

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Required Courses (6 credit hours)

- FRCH 3060 - Grammar & Composition **Credits: (3)**
Or
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
Or
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3160 - Introduction to Literature **Credits: (3)**
Or
- FRCH 3610 - Literature Survey I **Credits: (3)**
Or
- FRCH 3690 - Special Topics in Literature **Credits: (3)**

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the French minor program may choose as electives any 3000 and 4000 level French courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**WLC 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a French minor if course assignments are completed in French. Speak with the instructor before registering for this class.*

German for the Professions Minor

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Completion of first and second-year courses in German or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in German. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3088
- **CIPC:** 160501

FL Courses

The following course descriptions are generic and apply to all languages. The acronym FL denotes foreign language courses. In the class schedule each semester courses will be language specific: FRCH for French, GRMN for German, JPNS for Japanese, and SPAN for Spanish, etc.

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- GRMN 1010 - First Semester German **Credits: (3)**
- GRMN 1020 - Second Semester German **Credits: (3)**
- GRMN 2010 - Third Semester German **Credits: (3)**
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**

Required Courses (9 credit hours)

- GRMN 3060 - Grammar & Composition **Credits: (3)**
or
- GRMN 3320 - Applied Language Studies **Credits: (1-3)**
or
- GRMN 3550 - Cultural Heritage I **Credits: (3)**

- GRMN 3160 - Introduction to Literature **Credits: (3)**
or
- GRMN 3610 - Literature Survey I **Credits: (3)**
or
- GRMN 3690 - Special Topics in Literature **Credits: (1-3)**
- GRMN 3710 - Business Language I **Credits: (3)**

Elective Courses

Select 6 credit hours from the following

- GRMN 3550 - Cultural Heritage I **Credits: (3)**
- GRMN 3560 - Cultural Heritage II **Credits: (3)**
- GRMN 3570 GLB - Special Topics in Culture **Credits: (3)**

German Minor

- **Prerequisite Courses:** Completion of first and second-year courses in German or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in German. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3028
- **CIPC:** 160501

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- GRMN 1010 - First Semester German **Credits: (3)**
- GRMN 1020 - Second Semester German **Credits: (3)**
- GRMN 2010 - Third Semester German **Credits: (3)**
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**

Required Courses (6 credit hours)

- GRMN 3060 - Grammar & Composition **Credits: (3)**
or
- GRMN 3320 - Applied Language Studies **Credits: (1-3)**
or
- GRMN 3550 - Cultural Heritage I **Credits: (3)**
- GRMN 3160 - Introduction to Literature **Credits: (3)**
or
- GRMN 3610 - Literature Survey I **Credits: (3)**
or
- GRMN 3690 - Special Topics in Literature **Credits: (1-3)**

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the German minor program may choose as electives any 3000 and 4000 level German courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**WLC 3320 - Applied Language Studies (variable title course) when taken as Language & Culture of Europe will only count towards a German minor if course assignments are completed in German. Speak with the instructor before registering for this class.*

Japanese Minor

- **Prerequisite Courses:** Completion of first and second-year courses in Japanese or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in Japanese. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3032
- **CIPC:** 160302

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- JPNS 1010 - First Semester Japanese **Credits: (3)**
- JPNS 1020 - Second Semester Japanese **Credits: (3)**
- JPNS 2010 - Third Semester Japanese **Credits: (3)**
- JPNS 2020 HU - Fourth Semester Japanese **Credits: (3)**

Required Courses (6 credit hours)

- JPNS 3060 - Grammar & Composition **Credits: (3)**
- JPNS 3160 - Introduction to Literature **Credits: (3)**

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the Japanese minor program may choose as electives any 3000 and 4000 level courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Localization Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Program Prerequisite:** Completion of first and second-year courses in a Foreign Language or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used for this minor (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A minimum of 18 credit hours. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3082
- **CIPC:** 160103

Advisement

Localization minors are encouraged to meet with faculty advisors in the Department of Foreign Languages with expertise in Localization and/or Academic Advisors for the College of Arts & Humanities at least annually for course and program advisement.

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- ASL 1010 - First Semester ASL **Credits: (3)**
- ASL 1020 - Second Semester ASL **Credits: (3)**
- ASL 2010 - Third Semester ASL **Credits: (3)**
- ASL 2020 HU - Fourth Semester ASL **Credits: (3)**

OR

- CHNS 1010 - First Semester Chinese **Credits: (3)**
- CHNS 1020 - Second Semester Chinese **Credits: (3)**

Spanish for the Professions Minor

This program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Prerequisite:** Completion of first and second-year courses in Spanish or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3087
- **CIPC:** 160905

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Required Courses (12 credit hours)

- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**
- SPAN 3710 - Business Language I **Credits: (3)** and
- SPAN 4710 - Business Language II **Credits: (3)**
OR
- SPAN 3720 CEL - Medical Spanish I **Credits: (3)** and
- SPAN 4720 - Medical Spanish II **Credits: (3)**
OR
- SPAN 3740 - Translation I **Credits: (3)** and
- SPAN 4740 - Translation II **Credits: (3)**

Elective Courses

Select one course (a minimum of 3 credit hours) from the following:

- SPAN 3540 - Latin American Environment and Cultures **Credits: (3)**
- SPAN 3550 GLB - Cultural Heritage of Spain **Credits: (3)**
- SPAN 3560 - Cultural Heritage of Latin America **Credits: (3)**
- SPAN 3570 GLB - Special Topics in Culture **Credits: (3)**
- SPAN 3750 - Healthcare Interpreting **Credits: (3)**
- SPAN 3760 - Special Topics in Translation **Credits: (3)**
- SPAN 3730 CEL - Spanish for Specific Purposes **Credits: (3)**
- SPAN 4770 - Medical Translation **Credits: (3)**

Spanish Minor

- **Prerequisite Courses:** Completion of first and second-year courses in Spanish or equivalent preparation.
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 15 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3030
- **CIPC:** 160905

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Required Courses (6 credit hours)

- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**

Elective Courses (select a minimum of 9 credit hours)

To complete the required 15 credit hours, minors in the Spanish minor program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**WLC 3320 (Applied Language Studies variable title course) when taken as Language & Culture of Europe will only count towards a Spanish minor if course assignments are completed in Spanish. Speak with the instructor before registering for this class.*

Teaching Minor

French Teaching Minor

- **Program Prerequisite:** Completion of first and second-year courses in French or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 20 upper division hours in French. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3027
- **CIPC:** 131325

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- FRCH 1010 - First Semester French **Credits: (3)**
- FRCH 1020 - Second Semester French **Credits: (3)**
- FRCH 2010 - Third Semester French **Credits: (3)**
- FRCH 2020 HU - Fourth Semester French **Credits: (3)**

Required Courses (11 credit hours)

- FRCH 3060 - Grammar & Composition **Credits: (3)**
or
- FRCH 3320 - Applied Language Studies **Credits: (1-3)**
or
- FRCH 3550 - Cultural Heritage I **Credits: (3)**
- FRCH 3160 - Introduction to Literature **Credits: (3)**

- or**
- FRCH 3610 - Literature Survey I **Credits: (3)**
- or**
- FRCH 3690 - Special Topics in Literature **Credits: (3)**
- WLC 4400 - Methods for Teaching Languages **Credits: (5)**

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking WLC 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

Elective Courses (select a minimum of 6 credit hours)

To complete the required 20 credit hours, minors in the French Teaching minor program may choose as electives any 3000 and 4000 level French courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

German Teaching Minor

- **Program Prerequisite:** Completion of first and second-year courses in German or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 20 upper division hours in German. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3029
- **CIPC:** 131326

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- GRMN 1010 - First Semester German **Credits: (3)**
- GRMN 1020 - Second Semester German **Credits: (3)**
- GRMN 2010 - Third Semester German **Credits: (3)**
- GRMN 2020 HU - Fourth Semester German **Credits: (3)**

Required Courses (11 credit hours)

- GRMN 3060 - Grammar & Composition **Credits: (3)**
- or**
- GRMN 3320 - Applied Language Studies **Credits: (1-3)**
- or**
- GRMN 3550 - Cultural Heritage I **Credits: (3)**
- GRMN 3160 - Introduction to Literature **Credits: (3)**

or

- GRMN 3610 - Literature Survey I **Credits: (3)**

or

- GRMN 3690 - Special Topics in Literature **Credits: (1-3)**
- WLC 4400 - Methods for Teaching Languages **Credits: (5) ***

Elective Courses (select a minimum of 6 credit hours)

To complete the required 20 credit hours, minors in the German Teaching minor program may choose as electives any 3000 and 4000 level German courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking WLC 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

Spanish Teaching Minor

- **Program Prerequisite:** Completion of first and second-year courses in Spanish or equivalent preparation. Must satisfy the Education Licensure Program (see the Department of Teacher Education).
- **Grade Requirements:** A grade of "C" or better in courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 20 upper division hours in Spanish. At least 3 credit hours of minor courses must be completed at WSU.
- **Program Code:** 3031
- **CIPC:** 131330

Course Requirements for Minor

Prerequisite Courses

Complete the following 12 credit hours (or demonstrate equivalent proficiency)

- SPAN 1010 - First Semester Spanish **Credits: (3)**
- SPAN 1020 - Second Semester Spanish **Credits: (3)**
- SPAN 2010 - Third Semester Spanish **Credits: (3)**
- SPAN 2020 HU - Fourth Semester Spanish **Credits: (3)**

Required Courses (11 credit hours)

- SPAN 3060 - Grammar & Composition **Credits: (3)**
- SPAN 3160 - Introduction to Literature **Credits: (3)**
- WLC 4400 - Methods for Teaching Languages **Credits: (5) ***

Elective Courses (select a minimum of 9 credit hours)

To complete the required 20 credit hours, minors in the Spanish Teaching minor program may choose as electives any 3000 and 4000 level Spanish courses, including those listed above. *Prerequisites may be specified for individual courses in the course catalog.*

Note:

**Students must take an ACTFL Oral Proficiency Examination prior to taking WLC 4400 and student teaching. The department standard for Proficiency is the Advanced-Low level. Students must also complete the Praxis II Content Knowledge Exam in their language prior to student teaching. (Please see the foreign language advisor.)*

Post Baccalaureate Certificate

Spanish Translation and Interpretation Post Baccalaureate Certificate

This Post-Baccalaureate Certificate will provide students with advanced training in Spanish translation and interpretation and will help them meet the increasing regional, national, and international demand for certified Spanish translators and interpreters. Students will study the theory, ethics, and practice of English-Spanish-English translation and interpretation and will develop into multilingual, interculturally competent professionals prepared to serve Utah and the world.

The Post-Baccalaureate Certificate is open to students who possess a BA or BS degree in any discipline, at least an advanced-mid level of proficiency in Spanish, and excellent command in English. Knowledge of a third language is desirable.

- **Grade Requirements:** Students must receive a grade of B or better in every course.
- **Credit Hour Requirement:** The program of study consists of 12 credit hours. This includes 9 credit hours of required courses and a minimum of 3 credit hours of electives.
- **Program Code:** 3126PBC
- **CIPC:** 160103

Advisement

Students are encouraged to meet with the designated faculty advisor at least annually for course and program advisement. Call 801-626-6183 for more information or to schedule an appointment.

Admission Requirements

Admission to the program requires a bachelor's degree in any field from an accredited institution (Spanish degree preferred).

Applicants must complete an online application. Criteria for acceptance into the program include:

- Bachelor's degree with a minimum GPA of 3.25 in the major (preferred).
- Submission of writing sample (4-8 pages).
- Transcripts from all institutions of higher education attended.
- Two letters of recommendation from educational or professional references.
- Interview with the program director for an assessment language interview.

Program Learning Outcomes

Upon the completion of the Post-Baccalaureate Certificate in Spanish Translation and Interpretation, students will:

- Identify, explain, and critically discuss theoretical and practical approaches to translation and interpretation, both as academic disciplines and as professional activities.
- Develop and enhance the linguistic, cultural, and technical skills necessary to effectively produce high-quality translations and interpretations in various professional settings.
- Demonstrate a deep understanding of the intercultural dimension of translation and interpretation and the ethical implications and responsibilities of professional translators and interpreters.
- Critically analyze and evaluate diverse technological tools and resources to successfully apply them to the practice of translation and interpretation.

Required Courses

Complete the following three (3) courses.

- SPAN 5750 - Advanced Healthcare Interpreting **Credits: (3)**
- WLC 5430 - Advanced Translation Technology **Credits: (3)**
- SPAN 5740 - Advanced Principles of Translation Theory and Practice **Credits: (3)**

Elective Courses

Choose at least one (1) of the following courses.

- MENG 6140 - Foundations of Professional and Technical Writing **Credits: (3)**
 - SPAN 5760 - Advanced Topics in Translation **Credits: (3)**
 - SPAN 5920 - Advanced Translation Workshop **Credits: (3)**
 - WLC 5860 - Advanced World Language Internship **Credits: (1-3)**
- Electives should be chosen in consultation with a faculty advisor.*

School of Performing Arts

Chair: Jessica Greenberg

Location: BC 331

Telephone: 801-626-6437

Professors: Karen Bruestle, Tracy Callahan, Carey Campbell, Francisco de Galvez, David Feller, Mark Henderson, Thomas Priest, Amanda Sowerby, Erik Stern, Viktor Uzur, Shi-Hwa Wang, Yu-Jane Yang, Catherine Zublin;

Associate Professors: Tamara Goldbogen, Jessica Greenberg, Daniel Jonas; **Assistant Professors:** Esther Ahn, Joseph Blake, Andrew Lewis, Cully Long; **Visiting Assistant Professor:** Kenneth Plain; **Instructors:** Samuel Bryson, Juan Carlos Claudio, Steven Henricks

The Department of Performing Arts at Weber State is based on five primary purposes: 1) to develop aesthetically aware and artistically discriminating citizens; 2) to provide opportunities for all students to participate in creative, artistic experiences and to encourage community members to participate in the performing arts; 3) to develop artistic competence and sensitivity; 4) to provide for career development in the arts through the preparation of teachers, performing artists, scholars, and technical specialists; and 5) to expose students and community to classic and contemporary works in all genres of the performing arts and to continue to provide the finest possible performances in the arts.

The department's degree programs prepare students for professional careers in teaching and performance as well as in technical specialties while providing the liberal arts background necessary for graduate study. In the department's Performing Arts Series, students and faculty participate in professionally produced dance, musical, and theatrical events.

Dance Area

The primary goals of the Dance area of the Department of Performing Arts are:

1. To develop aesthetically aware and artistically discriminating citizens;
2. To promote cultural understanding of ourselves and others through the study of dance;
3. To encourage appreciation of dance through critical thinking;
4. To engage the community in a range of dance experiences;
5. To foster an understanding of and engagement in the creative process through dance performance, improvisation, choreography, pedagogical studies, technology, and collaborative endeavors;
6. To provide the guidance, class work, and experience necessary to prepare teachers, performing artists, and scholars;
7. To prepare students for careers or advanced study that require creativity, collaboration, and an understanding of the human experience as explored in the study of dance;
8. To provide rigorous dance training.

Two majors are offered: 1) a Bachelor of Arts in Dance, with a focus on creativity in performance and choreography; and 2) a Bachelor of Arts or Bachelor of Science in Dance Education, with a focus on education and pedagogy. Dance majors follow a program based on growth beginning with foundational theory courses, technique courses appropriate to each dancer's ability, and a culminating senior project.

Dance Education majors follow a program based in the knowledge and understanding of dance education in relation to secondary education and/or studio teaching, focusing on pedagogy, choreography, history, and performance. The Dance Education major prepares students to be teachers of dance in the public sector, private sector, and non-profit environments. In addition, Education majors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program).

Two minors are offered: 1) Dance, with a focus on performance and choreography; and 2) Dance Teaching. Dance minors follow a program that provides for study in technique, creative and theoretical coursework. A minimum of eighteen (18) credit hours (GPA of 2.25 or better) must be completed in the Dance Area courses.

Dance Teaching minors must complete a minimum of eighteen (17-18) credit hours (GPA of 2.25 or better) from the Dance Area courses. This program is comprised of a dance teaching core (7-8 hours), dance history, technique in ballet and modern dance, additional dance forms and creative work. In addition, teaching minors seeking secondary certification must satisfy all requirements for the Licensure Program as outlined by the Jerry and Vickie Moyes College of Education (including a minimum GPA of 3.0 for admission to the Education Program). Dance teaching minors are strongly encouraged to select teaching majors in subject areas that are needed in Utah secondary schools.

Performance Opportunities

Orchesis Dance Theatre provides performance and production opportunities for qualified students who demonstrate technical abilities in dance. The company's activities include on-campus and dance festival concerts. Its repertoire consists of traditional and experimental modern dances, contemporary ballets, and theatrical and performance works choreographed/directed by dance faculty, students, and well-known artists. Auditions are required for performances sponsored by Orchesis. WSU Moving Company is the Dance Area's outreach program, which provides further performance, production and teaching opportunities. Significant dance works and lecture demonstrations are performed; teaching residencies are implemented in the public schools and for campus and community organizations.

School of Music

The School of Music is an accredited member of the National Association of Schools of Music. Programs leading to the Bachelor of Music degree are offered for students seeking emphases in performance, keyboard pedagogy, stringed instrument pedagogy, vocal pedagogy, or music education. Additional programs include the Bachelor of Arts in music, Bachelor of Integrated Studies, Minor in Music Performance, Music Studies Minor, Sound Production/Recording Minor, Certificate of Proficiency in Jazz Studies and Certificate of Proficiency in Music Entrepreneurship.

The primary goals of the School of Music are: 1) To develop individuals who are aware, artistically discriminating, and devoted to a lifelong association with music; 2) To provide opportunities for students and community members to participate in creative musical experiences; 3) To develop musical competence, sensitivity, and purpose; 4) To expose students and community to classic and contemporary musical works, and to provide the finest possible performances; 5) To provide for career development in music through the preparation of teachers, performers, and scholars.

Policies and Procedures

The following policies are subject to change. For current information, see the latest Performing Arts | School of Music student handbook and make an appointment with a music area advisor.

Freshman Registration and the Music Core

All freshman music majors and minors entering WSU as full-time students should register for the following courses: MUSC 1006, MUSC 1110, MUSC 1130, MUSC 1150, MUSC 1901, MUSC 1681 or MUSC 1682, and large ensemble. Piano Pedagogy and Piano Performance majors do not register for MUSC 1150.

General Policies and Performance Requirements

- A. All entering music majors and minors, including transfer students, must audition with the respective program faculty for admittance to that program.
- B. A \$445 Applied Music Fee is charged to music majors and minors for instrumental or vocal lessons. These lessons are 45 minutes in length and require attendance at a weekly master class. These lessons may be taken for one or two credit hours. There is also an option for two 45 minute lessons each week for two credit hours plus master class attendance and a research paper or project. The fee is \$890.
- C. A \$320 Applied Music Fee is charged to students registering as non-music majors or minors. These lessons are 30 minutes in length and may not be used as credit for music majors or minors in their primary performance area. A limited number of slots are available for students registering in this category.
- D. All music education, vocal, keyboard and string pedagogy majors should consult with the latest student handbook, and their major advisor.

Schedule for Performance Evaluations (Juries)

- A. Performance evaluations will be regularly conducted and scheduled:
 - 1. At the end of Fall and Spring semesters.
 - 2. By special request for evaluation during the year upon agreement of the student, the teacher and the committee. All special requests must be scheduled through the area head.
- B. All music majors and minors must take performance evaluations each semester. Performance evaluations are required until completion of the student's final recital as stipulated by the degree program.
- C. Students completing a junior or senior recital are excused from that performance area's performance evaluation the semester in which the recital is completed.

Procedures for Performance Evaluation (Juries)

- A. All incoming music majors and minors and all transfer students and current students who change their major or minor to music subsequent to their initial enrollment at Weber State University will enroll at the 1000 level of private instruction.
- B. A student may be placed in a higher competency level at the completion of any evaluation. A student will not be permitted to progress to the 3000 level until they have met with their major advisor. The advisor will review the student's graduation progress and determine whether it is in the student's best interest to move to the 3000 level.
- C. Student admittance to each competency level is granted only by general consent of the area faculty upon satisfactory completion of a performance level evaluation appropriate to that level.
- D. Refusal by the appropriate area faculty to allow admittance to the next level may be appealed by the student provided there is consent of the private teacher.
 - 1. This appeal should be made directly to the area head, who will in turn consult with the faculty regarding a repeat performance evaluation.
 - 2. Only one appeal will be accepted at each performance evaluation.
- E. More than three (3) semesters of study at any one competency level due to lack of improvement on the part of the student will be cause for a recommendation from the appropriate faculty that the student not continue as a music major or minor.
- F. Failure to attend proficiency evaluations will result in a grade of "E" being given for the private lesson during that semester.

Recital Performance

- A. All Bachelor of Music and Bachelor of Music Education students must participate in at least one general student recital or master class per semester. This should normally be a solo appearance, but this determination is left to the discretion of the applied music teacher.
- B. All music majors except those in the Bachelor of Arts and pedagogy programs, must present a half-hour formal junior recital upon reaching the 3000 competency level. All music performance minors must present a half-hour formal junior recital upon reaching the 3000 competency level. The student must register for MUSC 3991 during the semester the recital will be presented.
- C. All Bachelor of Music students must present a one-hour senior recital while at the 4000 competency level. The student must register for MUSC 4991 during the semester the recital will be presented.
- D. Repertoire for the senior recital must not contain music performed on the junior recital. Completion of a senior recital will exempt a student from further proficiency level evaluations.
- E. All students presenting a senior recital must perform that recital before a faculty review committee not less than two weeks prior to the recital date. The review committee will consist of the student's applied teacher, the appropriate area head, and one other music faculty member of the student's choice.
- F. The review committee will be present at the public performance of the senior recital and will recommend pass/fail for the recital.
- G. All students must complete a recital approval form for junior or senior recitals. The recital form must be completed and signed by the area head and applied teacher prior to scheduling any required faculty preview performance.
- H. Failure to complete a junior or senior recital in the semester in which the student is registered for the recital will result in a grade of "E" for the recital.

Recital/Concert Attendance

All music majors and minors must attend 24 music area recitals, concerts, and/or community concert events per year while enrolled in applied music at the 1000 and 2000 level. Attendance reports are required for two years and are maintained in the music office. To receive credit for graduation, students enroll in MUSC 1006 for their first two semesters attending 12 recitals or concerts each semester and MUSC 2006 for their third and fourth semesters attending 12 recital or concerts each semester.

Music Major Foreign Language Requirement

The Bachelor of Music degree requirement is for two semesters of foreign language chosen from French, German, Italian, and Spanish. The requirement may be satisfied by taking two semesters of the same language, or one semester each of two different languages. The Bachelor of Music Education degree with a Choral Emphasis requirement is one semester of foreign language chosen from French, German, Italian, and Spanish.

For the Bachelor of Arts in Music, please see Language Courses Required to fulfill the BA listed under the major requirements.

Bachelor of Integrated Studies

Students declaring an emphasis in music as one of their three BIS concentrations must abide by all guidelines and stipulations detailed in the BIS student handbook.

Courses taken in fulfillment of the music area emphasis must total a minimum of 18 credit hours and will be determined in consultation with the music BIS. These courses should directly and demonstratively contribute to the goals set forth by the student in his/her approved BIS application.

The following courses, however, are required for all music BIS students:

MUSC 1010 CA - Introduction to Music **(3)** *

MUSC 1110 - Music Theory I **(2)**

MUSC 1130 - Sight-Singing & Aural Skills I **(2)**

MUSC 1120 - Music Theory II **(2)**

MUSC 1140 - Sight-Singing & Aural Skills II **(2)**

Additionally, music BIS students must take at least one of the following:

MUSC 1030 CA - Introduction to Jazz **(3)** *

MUSC 1033 CA - Introduction to American Music **(3)** *

MUSC 1035 CA - History of Rock and Roll **(3)** *

MUSC 1040 CA - Music of World Cultures **(3)** *

MUSC 1043 HU - Music, the Arts & Civilizations **(3)** *

MUSC 1063 CA - Music in Religion **(3)** *

THEA 1043 CA - Introduction to American Musical Theatre **(3)** *

** Please note that according to the BIS student handbook, courses taken in completion of the university General Education requirements will not count toward a BIS emphasis. In other words, "double-dipping" is not allowed.*

School of Music Advisors

Bachelor of Music in Performance & Pedagogy Advisors

Keyboard Area: Dr. Yu-Jane Yang

Keyboard Area: Dr. Ralph Van der Beek

Choral Area: Dr. Mark Henderson

Winds & Percussion Area: Dr. Thomas Priest

String Area: Dr. Thomas Priest

Keyboard Area: Dr. Thomas Priest

Music Minors Advisor

Dr. Viktor Uzur

Theatre Arts Area

The Theatre Arts area of the Department of Performing Arts provides scholarly, creative, collaborative and practical theatre experience for students.

The objectives of the program are to: 1) Encourage participation in and appreciation of theatre and drama; 2) Foster creativity and develop technical skills in acting, directing, costuming, scenic design, script writing and theatre management; 3) Prepare students for careers or professional schooling in those fields that require strong presentational skills, creative problem solving, effective collaboration, and an understanding of human experience.

Theatre students must complete a sequence of formal course work that includes University general education, core theatre courses, and focus or specialty courses. Formal course work is complemented by a sequence of experiential learning opportunities in the theatre. Students and faculty develop individualized programs of course work and practical experience, including a junior seminar, annual juries, portfolio preparation, various practica, and opportunities for individual theatre projects.

Study of theatre provides students with useful tools to contribute to and make positive changes in society. Theatre students learn about diverse historical eras, communities and technologies. Theatre challenges students to be creative and to translate that creativity into applied processes - to think precisely, speak confidently in public, work productively with others, visualize abstract concepts and represent those concepts concretely. Theatre skills are useful in a variety of professions including, but not limited to, business, government, law, journalism, and public relations.

Major Requirements

The department offers a Bachelor of Arts (BA) degree in Musical Theatre, Theatre Arts, and Theatre Arts Teaching. A minimum of 62 course units (2.0 or better GPA) or courses in the combined areas of Dance, Music, and Theatre are required to qualify for the Musical Theatre Major. A minimum of 45 course units (2.0 or better) of Theatre Arts courses must be completed to qualify for either the Theatre Arts or Theatre Arts Teaching programs.

Teaching majors must also satisfy all requirements for the Licensure Program as outlined by the Department of Teacher Education.

A \$350 Applied Music Fee is charged to Theatre Arts Area majors and minors enrolled in Individual Training in Stage Voice (THEA 4651). These lessons are 45 minutes in length. A limited number of slots are available for students registering for these lessons.

Performance Opportunities

Involvement in theatre productions is an important part of the Theatre program. The Weber State Theatre produces a full season of plays in the Austad, Allred and Eccles theatres of the state-of-the-art Val A. Browning Center for the Performing Arts. Theatre facilities include a variety of proscenium and flexible staging situations. Students are given first priority in all department productions.

The theatre season is offered by the Department of Performing Arts as part of the Performing Arts Series. Because the season is generously supported by the Associated Students of Weber State through student fees, students receive substantial discounts for performances.

In addition to performance opportunities at Weber State, theatre majors are encouraged to seek summer employment in stock or repertory companies relating to their interests.

Associate of Arts

Dance (AA)

An Associate of Arts with a Dance major will indicate that a student has completed all WSU AA degree requirements and the introductory classes required for the Bachelor of Arts in Dance. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA.

- **Grade Requirements:** A grade of "C" or better in all courses (a grade of "C-" is not acceptable).
- **Program Code:** 3045AA
- **CIPC:** 500301

Advisement

Dance majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this major.

Degree Requirements

1. A minimum of 60 credit hours.
2. A minimum of 25 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. Completion of WSU general education requirements.
The Associate of Arts Degree must include a world language or ASL (American Sign Language) requirement which may be met by one of the following:
 1. Documentation of a proficiency level of "Novice High" or better through an examination administered by the WSU World Languages & Cultures Department or through an examination by a recognized testing agency.
 2. Completion of WSU world language course 1020 with a grade of "C" or higher, or comparable transfer credit.
 3. Completion of any WSU world language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.
 4. Documentation of three years of the same language completed in high school with a minimum grade of "B".

5. Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at SLCC. The signer must "demonstrate proficiency in temporal aspect, spatial agreement and in describing things around her/him and the deaf culture."
6. Completion of ASL 1020 - Second Semester ASL with a grade of "C" or higher, or comparable transfer credit.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Dance (AA) Major: DANC 1010 CA/CC - Introduction to Dance **(3)** and NUTR 1020 LS SUS - Science and Application of Human Nutrition **(3)**.

Program Learning Outcomes

- Students will be introduced to dance technique and kinesiology principles in order to improve as dancers and performers
- Students will be introduced to the principles of dance theory and criticism in a variety of settings
- Students will begin to encounter the creative process in a variety of settings
- Students will begin to discover, express, and gain ownership of their own point of view about dance.

Dance Courses (19 credit hours)

Appropriate level technique courses in ballet and modern dance (initially to be determined by placement class) are required every semester of residence-2 courses in Ballet and 2 courses in Contemporary Modern (total of 8 credit hours).

- DANC 1100 - Ballet I **Credits: (2) 2**
- DANC 1200 - Contemporary/Modern I **Credits: (2) 2**
- DANC 1310 - Music for Dance **Credits: (2) 2**
- DANC 1500 - Jazz I **Credits: (2) 2**
- DANC 1580 - Rhythm Tap I **Credits: (2) 2**
- DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1) 1**
- DANC 2410 - Improvisation **Credits: (2) 2**
- DANC 2470 - Ballet II **Credits: (2) 2**
- DANC 2490 - Contemporary/Modern II **Credits: (2) 2**
- DANC 2610 - Dance and Digital Technology **Credits: (2) 2**

Technical Theatre (AA)

An Associate of Arts with a Technical Theatre major will indicate that a student has completed all WSU AA degree requirements and the introductory classes required for the Bachelor of Arts in Theatre with the Design/Technology/Management track. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA.

- **Grade Requirements:** A grade of "C" or better in all courses (a grade of "C-" is not acceptable).
- **Program Code:** 3084AA
- **CIPC:** 500502

Advisement

Theatre majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this major.

AA Degree Requirements

1. A minimum of 60 credit hours.
2. A minimum of 20 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. Completion of WSU general education requirements.
The Associate of Arts Degree must include a world language or ASL (American Sign Language) requirement which may be met by one of the following:
 - a. Documentation of a proficiency level of "Novice High" or better through an examination administered by the WSU World Languages & Cultures Department or through an examination by a recognized testing agency.
 - b. Completion of WSU world language course 1020 with a grade of "C" or higher, or comparable transfer credit.
 - c. Completion of any WSU world language course at a level beyond the first year with a grade of "C" or higher, or comparable transfer credit.
 - d. Documentation of three years of the same language completed in high school with a minimum grade of "B".
 - e. Documentation of a minimum proficiency level in American Sign Language through an examination administered by the American Sign Language/Interpreting program at SLCC. The signer must "demonstrate proficiency in temporal aspect, spatial agreement and in describing things around her/him and the deaf culture."
 - f. Completion of WSU American Sign Language course 1020 with a grade of "C" or higher, or comparable transfer credit.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Technical Theatre Major: THEA 1013 CA - Introduction to Theatre **(3)** and COMM 1020 HU - Principles of Public Speaking **(3)**.

Program Learning Outcomes

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Technical Theatre Courses (23 credit hours)

Theatre Courses Required for an AA in Technical Theatre (15 credit hours)

- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**

Select a minimum of three of the following technical theatre classes (please note that some of these classes are prerequisites for UD classes, plan accordingly)

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**

Theatre Practicum (2 credit hours)

Select 2 credit hours from the following options

- THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit
- THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)** may be repeated for credit

Focus Area Electives (6 credit hours)

Select at least 6 credit hours from the following, see individual course descriptions for prerequisites.

- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 3100 - Projection Design **Credits: (3)**
- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3232 - Scenic Art and Painting **Credits: (3)**
- THEA 3243 - Costume History **Credits: (3)**

- THEA 3340 - Theatre Management **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 4120 - Collaboration in the Theatre **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**
- THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 1820 - The Art and Science of Recording I **Credits: (3)**
- MUSC 1821 - The Art and Science of Recording II **Credits: (3)**
- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4823 - Pro Tools 110 **Credits: (2)**

Associate of Science

Sound Production/Recording (AS)

Sound Production/Recording is the art and science of capturing and editing music, sound, and dialog. The Associate of Science in Sound Production/Recording is a specialized two-year degree which offers students practical knowledge, training, and experience in a variety of production, recording, and performance applications.

In classes emphasizing hands-on learning with state-of-the-art equipment, students learn the skills needed to succeed as a music producer, recording technician, post-production designer, or other similar fields. Thus, students completing the degree will be well positioned to pursue a rewarding career in the vibrant and growing fields of recording, live sound, and music/post production.

Additionally, this Associate degree pairs well with a variety of majors, such as Music, Theatre, Film Studies, Communication, Creative Writing, Computer Science, and others, and serves as a valuable first degree for students continuing on to complete a Bachelor degree, as well as supporting students' own personal performance and production interests

- **Credit Hour Requirements:** The degree consists of a minimum of 37 credits of General Education classes and 25 hours of required sound technology courses.
- **Grade Requirements:** A grade of C or better (grades of C- are not acceptable) is required in all courses in the Sound Production/Recording program.
- **Program Code:** 3092AS
- **CIPC:** 150307

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts & Humanities at least annually for course and program advisement. Email cahadvisor@weber.edu for more information or to schedule an appointment.

Students should also meet regularly with advisors in the Sound Production/Recording program as they progress through the requirements for their Associate of Science degree.

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). A brief informal interview is required for acceptance into the program.

General Education

Refer to Degree Requirements for Associate of Science requirements.

Sound Production and Recording Courses (25 Credits)

The following 12 courses are required:

It is recommended that courses be taken in roughly the order in which they are listed below. Check with your advisor in the Sound Production/Recording program for questions on best sequencing.

- MUSC 2820 - Pro Tools 101 **Credits: (2)**
- MUSC 2823 - Pro Tools 110 **Credits: (2)** *Pre-requisite: MUSC 2820*
- MUSC 1820 - The Art and Science of Recording I **Credits: (3)**
- MUSC 1821 - The Art and Science of Recording II **Credits: (3)**
- MUSC 1720 - Analog Audio **Credits: (3)**
- MUSC 1721 - Live Sound in the 21st Century **Credits: (3)**
- MUSC 1722 - History of Recording **Credits: (2)**

- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 1723 - Field Recording/Sound for Picture **Credits: (2)**
- MUSC 1724 - Studio Construction **Credits: (1)**
- MUSC 1725 - Alternative Digital Audio Workstations **Credits: (2)**
- MUSC 1726 - Creative Lab **Credits: (1)** *(May be repeated)*

Technical Theatre (AS)

An Associate of Science with a Technical Theatre major will indicate that a student has completed all WSU AS degree requirements and the introductory classes required for the Bachelor of Arts in Theatre within the Design/Technology/Management track. Students who have completed the AS degree may continue with intermediate and advanced coursework for the BA.

- **Grade Requirements:** A grade of "C" or better in all courses (a grade of "C-" is not acceptable).
- **Program Code:** 3084AS
- **CIPC:** 500502

Advisement

Theatre majors are encouraged to meet with an advisor at least annually for course and program advisement.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission or application requirements for this major.

Degree Requirements

1. A minimum of 60 credit hours.
2. A minimum of 20 hours in residency (WSU courses).
3. At least a 2.0 (C) WSU grade point average (GPA).
4. Completion of WSU general education requirements.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements. The following general education courses are required for the Technical Theatre Major: COMM 1020 HU - Principles of Public Speaking **(3)**.

Program Learning Outcomes

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Technical Theatre Courses (23 credit hours)

Theatre Courses Required for an AS in Technical Theatre (15 credit hours)

- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**

Select a minimum of three of the following technical theatre classes (please note that some of these classes are prerequisites for UD classes, plan accordingly)

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**

- MUSC 1821 - The Art and Science of Recording II **Credits: (3)**
- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4823 - Pro Tools 110 **Credits: (2)**

Institutional Certificate

Jazz Studies Certificate of Proficiency

This program has been suspended pending formal discontinuance and is no longer accepting new students.

The Certificate of Proficiency in Jazz Studies is a course of study for music majors or minors that focuses on all aspects of the performance of jazz music. Students will learn improvisation, arranging, pedagogical practices, and performance practices. For more information on program requirements, please contact the School of Performing Arts.

- **Grade Requirements:** A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.
- **Credit Hour Requirements:** A minimum of 16 credits are required.
- **Program Code:** 3080CP
- **CIPC:** 50.0910

Complete the Following Courses (16 credits)

- MUSC 3801 - Jazz Improvisation I **Credits: (2)**
- MUSC 3802 - Jazz Improvisation II **Credits: (2)**
- MUSC 3803 - Jazz and Commercial Arranging **Credits: (2)**
- MUSC 3804 - Jazz Pedagogy **Credits: (2)**
- MUSC 3805 - Jazz Keyboard Skills **Credits: (2)**
- MUSC 1030 CA - Introduction to Jazz **Credits: (3)**

Minimum 2 semesters required:

- MUSC 1753 - Jazz Ensemble **Credits: (1)** or
- MUSC 3753 - Jazz Ensemble **Credits: (1)**

Minimum 2 semesters required:

- MUSC 1755 - Instrumental Chamber Ensemble **Credits: (1)** or
- MUSC 3755 - Instrumental Chamber Ensemble **Credits: (1)**

Music Entrepreneurship Certificate of Proficiency

This program has been suspended pending formal discontinuance and is no longer accepting new students.

The Certificate of Proficiency in Music Entrepreneurship prepares music students for the complex labor market and economy of the 21st Century. Courses in this program will teach students how to market themselves, manage their finances, start their own businesses (including teaching studios), and seek funding for their projects.

Grade Requirements: A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.

Credit Hour Requirements: A minimum of 18 credits are required.

Admission Requirements: Music major or minor.

Program: 3081CP

CIPC: 501003

Required Courses

- ACTG 2010 - Survey of Accounting I **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- ENTR 1002 - Startup Innovation **Credits: (3)**

- ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model **Credits: (3)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**
- MUSC 4701 - Grant Writing & Non-Profits **Credits: (3)**

Therapeutic Dance Certificate of Proficiency

The Certificate of Proficiency in Therapeutic Dance prepares students for employment as dance movement practitioners in adolescent residential centers, elderly care facilities, detention centers, and day programs for adults with disabilities (in long-term care or rehabilitation care facilities). Therapeutic Dance has been demonstrated to increase physical and mental health through stress reduction, social engagement, improved coordination, balance, flexibility, and creative expression.

- **Grade Requirements:** A minimum grade of "C" in all courses for the certificate and a minimum overall GPA of 2.0.
- **Credit Hour Requirements:** A minimum of 27 credits are required.
- **Program Code:** 3120CP
- **CIPC:** 51.2302

Program Learning Outcomes

- Demonstrate a basic understanding of physiology and biomechanical principles of dance.
- Demonstrate a baseline understanding of psychology and psychological theory.
- Complete minimum hour requirements at supervised practicum sites.
- Demonstrate and explain aspects of how dance can assist people of all ages and abilities through the experience of embodiment by employing a passion for creative movement in a therapeutic context.

Required Courses (27 credit hours)

- GERT 1010 SS - Introduction to Gerontology **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- HLTH 1030 SS - Healthy Lifestyles **Credits: (3)**
- DANC 1200 - Contemporary/Modern I **Credits: (2)**
- DANC 2300 - Dance Kinesiology **Credits: (3)**
- DANC 2350 - Dance for Aging Populations **Credits: (2)**
- DANC 2410 - Improvisation **Credits: (2)**
- PSY 2710 - Biopsychology **Credits: (3)**
- RHS 3505 - Standardized Patient Training **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**

Bachelor of Arts

Dance (BA)

The BA degree in Dance provides an awareness of the possibilities of dance: performance, choreography, community outreach and involvement, education, creative technology, social and cultural roles, and research/scholarly endeavors. The degree prepares enthusiastic and energetic graduates who will use their passion for the art form to guide their career interests and advanced study choices.

- **Language Requirement:** Option 1 or 2
- **Minor:** Not Required
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of 2.50 or "C+." In addition, a grade of "B" or higher is in the 3000-level major course Contemporary Modern Dance.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation-a minimum of 60 of these must be Dance classes. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 3045BA
- **CIPC:** 500301

Advisement

Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email josephblake@weber.edu for more information or to schedule an appointment (also refer to the Department Advisor Referral List).

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). There are no special admission requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. DANC 1010 CA/CC and NUTR 1020 LS SUS are prerequisites for required dance courses.

Program Learning Outcomes

- Technique/Performance - Students will apply dance technique and kinesiology principles to improve as dancers and performers.
- Theory/Criticism - Students will apply and communicate principles of dance theory and criticism in many settings.
- Creative Process - Students will engage in the evolving nature of the creative process in many settings.
- Meaning/Self-discovery - Students will discover, express and gain ownership of their own point of view about dance, to speak the language of dance

Course Requirements for BA Degree: 59 Credit Hours

Required Dance Forms (minumum of 22 credit hours)

- DANC 1100 - Ballet I **Credits: (2)**
- DANC 1200 - Contemporary/Modern I **Credits: (2)**
- DANC 1560 - African Dance and Culture I **Credits: (2)**
- DANC 1580 - Rhythm Tap I **Credits: (2)**
- DANC 2470 - Ballet II **Credits: (2)**
- DANC 2490 - Contemporary/Modern II **Credits: (2)**

- DANC 2500 - Jazz II **Credits: (2)**
- DANC 3450 - Special Topic: World Dance Experiences II **Credits: (2)**
- DANC 3490 - Contemporary/Modern III **Credits: (2)**
- DANC 3560 - African Dance and Culture II **Credits: (2)**

Creative Process and Performance (16 credit hours)

Note: The first three (3) courses must be taken in sequence.

- DANC 2410 - Improvisation **Credits: (2)**
- DANC 3500 - Choreographic Process **Credits: (3)**
- DANC 3520 INT - Choreography Practicum **Credits: (3)**
- DANC 3910 INT/CEL - Moving Company: Rehearsal & Development **Credits: (3)**
- DANC 3911 INT/CEL - Moving Company: Performance **Credits: (3)**
- DANC 4910 INT - Rehearsal and Performance **Credits: (1)** (take twice for a total of two credits)

Theory & Practice (16 credit hours)

- DANC 3015 - Dance History **Credits: (3)**
- DANC 1520 - Dance in World Cultures **Credits: (2)**
- DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1)**
- DANC 2300 - Dance Kinesiology **Credits: (3)**
- DANC 2350 - Dance for Aging Populations **Credits: (2)**
- DANC 3320 INT - Secondary Dance Pedagogy **Credits: (3)** or
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- DANC 4700 INT - Creative Synthesis in Dance **Credits: (3)**

Dance Production (7 credit hours)

- DANC 1310 - Music for Dance **Credits: (2)**
- *Choose one of the following below:*
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- FILM 2200 CA - Fundamentals of Film **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**
- DANC 2610 - Dance and Digital Technology **Credits: (2)**

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Dance Majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) **OR** Option 2 - Foreign Language and Language Arts (**6 credit hours of a**

foreign language and 6 hours of language arts)--the required language arts course is: DANC 4800 - Individual Study Credits: (3) **taken 2 times for a total of (6) credit hours.**

Dance Education (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

Dance Education Major K-12

The objective of this program is to help guide and prepare students for teaching dance in public school settings (grades K-12), private studios and non-profit organizations.

- **Program Prerequisites:** Students must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of at least 2.75.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 56 of these are within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 3058BA or 3058BS
- **CIPC:** 131324

Based within the disciplinary core of the Dance program, the BA and BS Dance Education K-12 degree offerings help to guide and prepare students for teaching dance in public school settings (grades K-12), private studios, and/or non-profit environments. In addition to the core dance requirements, secondary licensure requirements are mandatory for all teaching degrees leading to eligibility for Utah State Board of Education licensure.

Advisement

Students must consult with the Dance Program advisor at least once each term. Email Joseph Blake or Amanda Sowerby for more information or to schedule an appointment. Students seeking secondary certification are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to General Requirements of this catalog for Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements.

Program Learning Outcomes

- **Technique/Performance** - Students will apply dance technique and kinesiology principles to improve as dancers and performers.

- Theory/Criticism - Students will apply and communicate principles of dance theory and criticism in many settings.
- Creative Process - Students will engage in the evolving nature of the creative process in many settings.
- Meaning/Self-discovery - Students will discover, express, and gain ownership of their own point of view about dance, to speak the language of dance.

Course Requirements for BS or BA Degree in Dance Education

Required Dance Forms (minimum of 18 credit hours)

- DANC 1100 - Ballet I **Credits: (2)**
- DANC 1200 - Contemporary/Modern I **Credits: (2)**
- DANC 1450 - Special Topic: World Dance Experiences I **Credits: (2)**
- DANC 1520 - Dance in World Cultures **Credits: (2)**
- DANC 1580 - Rhythm Tap I **Credits: (2)**
- DANC 2490 - Contemporary/Modern II **Credits: (2)**
- DANC 2500 - Jazz II **Credits: (2)**
- DANC 3490 - Contemporary/Modern III **Credits: (2)**
- DANC 3560 - African Dance and Culture II **Credits: (2)**

Creative Process and Performance (9 credit hours)

- DANC 2410 - Improvisation **Credits: (2)**
- DANC 3500 - Choreographic Process **Credits: (3)**
- DANC 3520 INT - Choreography Practicum **Credits: (3)**
- DANC 4910 INT - Rehearsal and Performance **Credits: (1)**

Dance Studies (10 credit hours)

- DANC 1010 CA/CC - Introduction to Dance **Credits: (3)**
- DANC 2300 - Dance Kinesiology **Credits: (3)**
- DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1)**
- DANC 3015 - Dance History **Credits: (3)**

Teaching Methods (10 credit hours)

- DANC 3320 INT - Secondary Dance Pedagogy **Credits: (3)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- DANC 3860 INT - Field Experience **Credits: (1-3)**

Dance and Production (7 credit hours)

- DANC 1310 - Music for Dance **Credits: (2)**
- DANC 2610 - Dance and Digital Technology **Credits: (2)**

Choose one from the following below:

- THEA 2022 - Costume Fundamentals **Credits: (3)**

- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- FILM 2200 CA - Fundamentals of Film **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

Language Courses Required to fulfill the BA in Dance Education

Refer to Degree Requirements in this catalog. Dance majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) **OR** Option 2 - Foreign Language and Language Arts **(6 credit hours of a foreign language and 6 hours of language arts)**--the required language arts course is: DANC 4800 - Individual Study Credits: (3) **taken 2 times for a total of (6) credit hours.**

Music (BA)

- **Program Prerequisite:** Audition required for admission to program.
- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 49 credit hours is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 15 of these are required within the major.
- **Program Code:** 3037BA
- **CIPC:** 500901

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Admission Requirements

Declare your program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Refer to the Department of Performing Arts policies and procedures.

Program Learning Outcomes

- Employ writing and research skills to examine and communicate ideas about music.
- Demonstrate competency as performers through the preparation of repertoire and technical studies.
- Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Required Core Courses (29 credit hours)

- MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.
- MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**
- MUSC 1901 - Music: The Successful Musician **Credits: (1)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2120 - Music Theory IV **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (2)**
- MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (2)**
- MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
- MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
- MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Advanced Concepts in Music Theory **Credits: (2)**

Additional Courses for the BA Music

- MUSC 1150 - Class Piano I **Credits: (2)**
- MUSC 1160 - Class Piano II **Credits: (2)**
- MUSC 4830 - Directed Readings **Credits: (1-3)**
- MUSC 4900 - Senior Project--BA in Music **Credits: (3)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

A total of four classes in one-credit private instruction in appropriate area.

- MUSC 1681 - Private Instruction **Credits: (1)** (To be taken twice for credit)
- MUSC 2681 - Private Instruction **Credits: (1)** (To be taken twice for credit)

***A total of two classes in one-credit Large Ensemble:
(courses may be repeated for credit)***

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**
- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1763 - Guitar Ensemble **Credits: (1)**
- MUSC 1726 - Creative Lab **Credits: (1)**
- MUSC 3763 - Guitar Ensemble **Credits: (1)**

An additional two classes in any ensemble, small or large.

(Courses may be repeated for credit, and may also include the large ensembles listed above).

- MUSC 1730 - Keyboard Ensemble **Credits: (1)**

- MUSC 1741 - Chamber Choir **Credits: (1)**
- MUSC 1743 - Vocal Chamber Ensemble **Credits: (1)**
- MUSC 1752 - Marching Band **Credits: (2)**
- MUSC 1753 - Jazz Ensemble **Credits: (1)**
- MUSC 1754 - Percussion Ensemble **Credits: (1)**
- MUSC 1755 - Instrumental Chamber Ensemble **Credits: (1)**
- MUSC 1756 - Pep Band **Credits: (1)**
- MUSC 1761 - Chamber Orchestra **Credits: (1)**
- MUSC 3730 - Keyboard Ensemble **Credits: (1)**
- MUSC 3741 - Chamber Choir **Credits: (1)**
- MUSC 3743 - Vocal Chamber Ensemble **Credits: (1)**
- MUSC 3752 - Marching Band **Credits: (2)**
- MUSC 3754 - Percussion Ensemble **Credits: (1)**
- MUSC 3755 - Instrumental Chamber Ensemble **Credits: (1)**
- MUSC 3756 - Pep Band **Credits: (1)**
- MUSC 3761 - Chamber Orchestra **Credits: (1)**

Music Electives (8 credits)

Music electives must have the MUSC designation and are in addition to the courses in the Music Core and Required Courses.

Free Electives (26 credits)

Language Courses Required to fulfill the BA

Six semester-hours of foreign language is required. This requirement may be satisfied by taking two semesters of the same language or one semester each of two different languages.

An additional six semester hours of foreign language or language arts is required.

Musical Theatre (BA)

- **Program Prerequisite:** Completion of the required pre-major core courses listed under the following Course Requirements with a grade of "C" or better and an audition are required for admission to this program.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or better.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; 68-69 of these are required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.
- **Program Code:** 3049BA with cohort MTPERF (Performance Track) or MTDIRECT (Music Direction Track)
- **CIPC:** 500509

Advisement

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment.

Admission Requirements

An audition is required for admission to this program after completing the pre-major core courses. Auditions will be scheduled in spring semester each year.

General Education

Refer to General Requirements for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements. The following courses required for this major may also be applied to fill general education requirements: DANC 1010 CA/CC - Introduction to Dance (3), THEA 1033 CA - Introduction to Acting (3) and THEA 1043 CA - Introduction to American Musical Theatre (3).

Program Learning Outcomes

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Major Course Requirements for BA Degree

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Musical Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, *refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit*) **OR** Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 3343 - History & Literature of Musical Theatre and either THEA 3303 - History and Literature of Theatre I **(3)** or THEA 3313 - History and Literature of Theatre II **(3)**).

Required Courses for Musical Theatre, Performance Track (65 credit hours)

Dance (8 credit hours)

- THEA 3440 - Dance for Musical Theatre I **Credits: (2)**
- THEA 3441 - Dance for Musical Theatre II **Credits: (2)**

- THEA 4144 - Choreography for Musical Theatre **Credits: (2)**
Select one of the following:
- DANC 1100 - Ballet I **Credits: (2)**
- DANC 1200 - Contemporary/Modern I **Credits: (2)**
- DANC 1450 - Special Topic: World Dance Experiences I **Credits: (2)**
- DANC 1500 - Jazz I **Credits: (2)**
- DANC 1520 - Dance in World Cultures **Credits: (2)**

Musicianship (11 credit hours)

- THEA 1143 - Musical Theatre Musicianship I **Credits: (2)**
- THEA 3143 - Musical Theatre Musicianship II **Credits: (3)**
- THEA 4651 - Individual Training in Stage Voice **Credits: (1)** (repeated 6 times)

Theatre (37 credit hours)

The Theatre component includes 3 credit hours of Creative Arts General Education.

- THEA 1030 - Voice and Movement for the Actor **Credits: (3)**
- THEA 1043 CA - Introduction to American Musical Theatre **Credits: (3)**
- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1075 - Class Voice for Musical Theatre **Credits: (1)** (repeated twice)
- THEA 1220 - Acting I **Credits: (3)**
- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2033 - Acting II **Credits: (3)**
- THEA 2443 - Acting for Musical Theatre **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**
- THEA 3651 - Musical Theatre Repertoire **Credits: (1)** (repeated twice)
- THEA 3443 - Scene Study for Musical Theatre **Credits: (3)**
- THEA 3991 - Junior Seminar **Credits: (1)**
- THEA 4143 - Directing for Musical Theatre **Credits: (3)**

Select one of the following Theatre History classes

- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**

Technical Theatre (6 credits)

Select two courses from the following courses.

- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**

- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following Theatre Design classes, prerequisites may need to be met first.

- THEA 3100 - Projection Design **Credits: (3)**
- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**

Required Courses for Musical Theatre, Music Direction Track (57 credit hours)

Musicianship (24 credit hours)

- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (2)**
- THEA 3143 - Musical Theatre Musicianship II **Credits: (3)**
- THEA 4250 - Music Direction Seminar **Credits: (1-3)**
- THEA 4652 - Individual Training in Music Direction **Credits: (1)** (repeated 8 times)

Theatre (24 credit hours)

- THEA 1030 - Voice and Movement for the Actor **Credits: (3)**
- THEA 1043 CA - Introduction to American Musical Theatre **Credits: (3)**
- THEA 1075 - Class Voice for Musical Theatre **Credits: (1)** (repeated twice)
- THEA 1220 - Acting I **Credits: (3)**
- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2443 - Acting for Musical Theatre **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**
- THEA 3651 - Musical Theatre Repertoire **Credits: (1)** (repeated twice)
- THEA 3991 - Junior Seminar **Credits: (1)**
- THEA 4143 - Directing for Musical Theatre **Credits: (3)**

Select one of the following Theatre History classes

- THEA 3303 - History and Literature of Theatre I **Credits: (3)**

- THEA 3313 - History and Literature of Theatre II **Credits: (3)**

Technical Theatre (6 credits)

Select two courses from the following courses.

- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following Theatre Design classes, prerequisites may need to be met first.

- THEA 3100 - Projection Design **Credits: (3)**
- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**

Theatre Arts (BA)

Areas of Emphasis

Select one of the following areas of emphasis

- Theatre Arts (BA), Acting/Directing Emphasis
- Theatre Arts (BA), Design/Technical/Management Emphasis
- Theatre Arts (BA), Theatre Studies Emphasis

Program Learning Outcomes:

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Theatre Arts (BA), Acting/Directing Emphasis

Program Learning Outcomes:

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Acting/Directing Emphasis Requirements

Required Courses (28 credit hours)

- THEA 1030 - Voice and Movement for the Actor **Credits: (3)**
- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 1220 - Acting I **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3991 - Junior Seminar **Credits: (1)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Focus Area (6 credits)

Select 6 credits of the following courses.

- THEA 2033 - Acting II **Credits: (3)**
- THEA 3033 - Advanced Acting **Credits: (3)**
- THEA 3116 - Auditioning **Credits: (2)**
- THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
- THEA 4230 - Performance Seminar **Credits: (1-3)**
- THEA 4103 INT - Directing II **Credits: (3)**
- THEA 4143 - Directing for Musical Theatre **Credits: (3)**
- COMM 3070 - Performance Studies **Credits: (3)**

Technical Theatre (12 Credit Hours)

Select four of the following technical theatre courses.

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design courses.

- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 3100 - Projection Design **Credits: (3)**

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options. These courses may be repeated for credit.

- THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)**
- THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4861 INT - Performance Practicum **Credits: (1)**
- THEA 4862 INT - Performance Practicum **Credits: (1)**
- THEA 4862 INT - Performance Practicum **Credits: (1)**
- THEA 4863 INT - Performance Practicum **Credits: (1)**
- THEA 4864 INT - Performance Practicum **Credits: (1)**
- THEA 4865 INT - Performance Practicum **Credits: (1)**
- THEA 4866 INT - Performance Practicum **Credits: (1)**
- THEA 4867 INT - Performance Practicum **Credits: (1)**
- THEA 4868 INT - Performance Practicum **Credits: (1)**
- THEA 4869 INT - Performance Practicum **Credits: (1)**

Theatre Arts (BA), Design/Technical/Management Emphasis

Program Learning Outcomes:

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Design/Technical/Management Emphasis Requirements (52-53 credit hours)

Required Courses (25 credit hours)

- THEA 1033 CA - Introduction to Acting **Credits: (3)** or
- THEA 1220 - Acting I **Credits: (3)**
- THEA 1030 - Voice and Movement for the Actor **Credits: (3)** or
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)**
- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3991 - Junior Seminar **Credits: (1)**

Technical Theatre Courses (9 credit hours)

Select three of the following technical theatre courses.

Note: Some of these courses are pre-requisites for UD classes. Plan accordingly.

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**

- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design courses.

- THEA 3100 - Projection Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**

Design/Technical/Management Focus Area Requirements (9 credit hours)

Select at least 9 credit hours from the following courses to supplement your course of study. To propose another option, consult your academic advisor. Courses listed below as options for more than one requirement may be used to fulfill only one requirement.

- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**
- THEA 3100 - Projection Design **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3203 - Costume Technology II **Credits: (3)**
- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3232 - Scenic Art and Painting **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 3243 - Costume History **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**
- THEA 3350 - Marketing and Communication for the Arts **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 4120 - Collaboration in the Theatre **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**
- THEA 4220 - Design Seminar **Credits: (1-3)**
- THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
- THEA 4900 INT - Senior Project **Credits: (1)**

***Additional classes from other departments include but are not limited to:
(See individual course descriptions for pre-requisites)***

- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 3120 - Figure Drawing **Credits: (3)**
- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**

- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ID 1020 - Presentation Techniques **Credits: (3)**
- ID 2010 SUS - Sustainability I: Textiles and Soft Materials **Credits: (3)**
- ID 3040 - Design Rendering **Credits: (2)**
- ID 2820 - Historical Interiors **Credits: (3)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 1820 - The Art and Science of Recording I **Credits: (3)**
- MUSC 1821 - The Art and Science of Recording II **Credits: (3)**
- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4823 - Pro Tools 110 **Credits: (2)**
- WEB 2200 - Image Editing **Credits: (3)**
- WEB 2300 - Video Editing **Credits: (3)**

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options. These courses may be repeated for credit.

- THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)**
- THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**

- THEA 4862 INT - Performance Practicum **Credits: (1)**
- THEA 4863 INT - Performance Practicum **Credits: (1)**
- THEA 4864 INT - Performance Practicum **Credits: (1)**
- THEA 4865 INT - Performance Practicum **Credits: (1)**
- THEA 4866 INT - Performance Practicum **Credits: (1)**
- THEA 4867 INT - Performance Practicum **Credits: (1)**
- THEA 4868 INT - Performance Practicum **Credits: (1)**
- THEA 4869 INT - Performance Practicum **Credits: (1)**

Required General Education Courses (3-4 credit hours)

The following general education courses are required for the Theatre Major:

- THEA 2821 HU - Period Styles in Design **Credits: (3)** or
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**

Theatre Arts (BA), Theatre Studies Emphasis

Theatre Arts (BA)

- **Program Prerequisite:** Not Required.
- **Minor:** Not Required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.00 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 43-47 credit hours must be earned in Theatre Arts courses. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major.
- **Program Code:** 3046BA with one of the following emphasis codes 3127 (Studies), 3106 (Acting/Directing), 3107 (Design/Technical/Management)
- **CIPC:** 500501

Advisement

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program.

Language Courses Required to Fulfill the BA

Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit) **OR** Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 1033 CA - Introduction to Acting, and THEA 3313 - History and Literature of Theatre II).

Program Learning Outcomes

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Theatre Arts Studies Emphasis Requirements

Required Courses (23 credit hours)

- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2330 - Dramaturgy and Criticism **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3991 - Junior Seminar **Credits: (1)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**
- THEA 4900 INT - Senior Project **Credits: (1)**

Select 21 credits from the following courses (21 credit hours)

Note: Pre-requisites may need to be met first.

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**
- THEA 3203 - Costume Technology II **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**
- THEA 3505 - Playwriting **Credits: (3)**
- THEA 4103 INT - Directing II **Credits: (3)**
- THEA 4120 - Collaboration in the Theatre **Credits: (3)**
- THEA 4230 - Performance Seminar **Credits: (1-3)**
- THEA 4270 - Dramatic Theory and Analysis **Credits: (3)**
- THEA 4860 - Advanced Playwriting **Credits: (3)**
- THEA 4890 INT - Cooperative Work Experience or Internship **Credits: (1-3)**
- COMM 3070 - Performance Studies **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design courses.

- THEA 3100 - Projection Design **Credits: (3)**
- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options. These courses may be repeated for credit.

- THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)**
- THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4861 INT - Performance Practicum **Credits: (1)**
- THEA 4862 INT - Performance Practicum **Credits: (1)**
- THEA 4863 INT - Performance Practicum **Credits: (1)**
- THEA 4864 INT - Performance Practicum **Credits: (1)**
- THEA 4865 INT - Performance Practicum **Credits: (1)**
- THEA 4866 INT - Performance Practicum **Credits: (1)**
- THEA 4867 INT - Performance Practicum **Credits: (1)**
- THEA 4868 INT - Performance Practicum **Credits: (1)**
- THEA 4869 INT - Performance Practicum **Credits: (1)**

Theatre Arts Teaching (BA)

- **Program Prerequisite:** Not Required.
- **Minor:** Required
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) in addition to an overall GPA of 2.75 or higher.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 50 credit hours must be earned in Theatre Arts courses. A total of 40 upper division credit hours is required (courses numbered 3000 and above); a minimum of 19 of these is required within the major. 24 Credits of Education Department Classes
- **Program Code:** Theatre Arts Teaching (3047BA)
- **CIPC:** Theatre Arts Teaching (131324)

Advisement

Students should meet annually with a faculty advisor for course and program advisement. Call 801-626-6437 for more information and referrals for an appointment. The faculty advisor must approve courses taken in focus areas. (Also refer to the Department Advisor Referral List which includes email addresses for faculty advisors.)

Use Grad MAPs to plan your degree

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). No special admission or application requirements are needed for this program.

General Education

Refer to Degree Requirements of this catalog for Bachelor of Arts requirements. See Language Courses Required to fulfill the BA listed under the major course requirements.

Program Learning Outcomes

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Major Course Requirements for BA Degree

50 Credit Hours (exclusive of required general education courses)

Theatre Courses Required (52 credit hours)

- THEA 1030 - Voice and Movement for the Actor **Credits: (3)**
- THEA 1063 - Theatre Foundations **Credits: (3)**
- THEA 1220 - Acting I **Credits: (3)**
- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2330 - Dramaturgy and Criticism **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 2713 INT - Teaching Theatre in the Secondary School **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3505 - Playwriting **Credits: (3)**
- THEA 3991 - Junior Seminar **Credits: (1)**
- THEA 4143 - Directing for Musical Theatre **Credits: (3)**
- ENGL 4730 - Studies in Shakespeare **Credits: (3)**

Theatre Design (3 credit hours)

Select one of the following theatre design classes

- THEA 3100 - Projection Design **Credits: (3)**

- THEA 3212 - Scenic Design **Credits: (3)**
- THEA 3222 - Lighting Design **Credits: (3)**
- THEA 3233 - Prop Design **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- THEA 4203 - Costume Design **Credits: (3)**

Theatre Practicum (3 credit hours)

Select 3 credit hours from the following options, may be repeated for credit

- THEA 4851 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4852 INT - Design/Tech Management Practicum **Credits: (1)**
- THEA 4853 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4854 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4855 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4856 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4857 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4858 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4859 INT - Design/Tech/Management Practicum **Credits: (1)**
- THEA 4861 INT - Performance Practicum **Credits: (1)**
- THEA 4862 INT - Performance Practicum **Credits: (1)**
- THEA 4863 INT - Performance Practicum **Credits: (1)**
- THEA 4864 INT - Performance Practicum **Credits: (1)**
- THEA 4865 INT - Performance Practicum **Credits: (1)**
- THEA 4866 INT - Performance Practicum **Credits: (1)**
- THEA 4867 INT - Performance Practicum **Credits: (1)**
- THEA 4868 INT - Performance Practicum **Credits: (1)**
- THEA 4869 INT - Performance Practicum **Credits: (1)**

General Education Courses Required (3 credit hours)

The following general education courses are required for the Theatre Major:

- THEA 1043 CA - Introduction to American Musical Theatre **Credits: (3)**

Language Courses Required to fulfill the BA

Refer to Degree Requirements in this catalog. Theatre majors must complete Option 1 - Foreign Language (12 credit hours of a foreign language, *refer to the Foreign Language section of this catalog for additional information on obtaining foreign language credit*) **OR** Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 hours of language arts-the required language arts courses are: THEA 3303 - History and Literature of Theatre I, and THEA 3313 - History and Literature of Theatre II).

Note:

Theatre teaching majors must also satisfy the Teacher Education admissions and licensure requirements.

Bachelor of Music

Music (BM)

Music (BM)

- **Program Prerequisite:** Audition required for admission to program.
- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.
- **Program Code: Music (3122BM)** with one of the following emphases: **Keyboard Performance** (3097), **Vocal Performance** (3098), **Instrumental Performance** (3099), **Keyboard Pedagogy** (3100), **Stringed Instrument Pedagogy** (3101), **Vocal Pedagogy** (3102)
- **CIPC: Music** (500903), **Keyboard Performance** (500903), **Vocal Performance** (500903), **Instrumental Performance** (500903), **Keyboard Pedagogy** (500912), **Stringed Instrument Pedagogy** (500912), **Vocal Pedagogy** (500912)

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Performing Arts.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). All students in these Bachelor of Music programs must audition with the appropriate area head prior to admission to the program.

General Education

Refer to Degree Requirements for Bachelor of Music requirements.

Program Learning Outcomes

- Employ writing and research skills to examine and communicate ideas about music.
- Demonstrate competency as performers through the preparation of repertoire and technical studies.
- Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Policies and Procedures

Refer to the School of Music Policies and Procedures in this catalog.

School of Music Required Core Courses (29 credit hours)

- MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.

- MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**
- MUSC 1901 - Music: The Successful Musician **Credits: (1)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2120 - Music Theory IV **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (2)**
- MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (2)**
- MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
- MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
- MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Advanced Concepts in Music Theory **Credits: (2)**

Areas of Emphasis

Select one of the following areas of emphasis:

- Music (BM), Instrumental Performance Emphasis
- Music (BM), Keyboard Pedagogy Emphasis
- Music (BM), Keyboard Performance Emphasis
- Music (BM), Stringed Instrument Pedagogy Emphasis
- Music (BM), Vocal Pedagogy Emphasis
- Music (BM), Vocal Performance Emphasis

Music (BM), Instrumental Performance Emphasis

Music (BM)

- **Program Prerequisite:** Audition required for admission to program.
- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. - MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Advanced Concepts in Music Theory **Credits: (2)**

Additional Courses Required (41-46 credit hours)

- MUSC 1150 - Class Piano I **Credits: (2)**

- MUSC 1160 - Class Piano II **Credits: (2)**
- MUSC 3822 - Instrumental Conducting I **Credits: (2)**
- MUSC 3991 - Junior Recital **Credits: (0)**
- MUSC 4991 - Senior Recital **Credits: (0)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

Choose courses from the following group that are most closely related to the student's major performance area:

- MUSC 2821 - Percussion Methods **Credits: (2)** or
- MUSC 2841 - Brass Methods **Credits: (2)** or
- MUSC 2851 - Woodwind Methods **Credits: (2)** or
- MUSC 2871 - String Methods **Credits: (2)** and
- MUSC 3851 - Stringed Instrument Pedagogy I **Credits: (2)** and
- MUSC 3852 - Stringed Instrument Pedagogy II **Credits: (2)**
- MUSC 4771 - Stringed Instrument Literature I **Credits: (2)** and
- MUSC 4772 - Stringed Instrument Literature II **Credits: (2)**
or
- MUSC 3202 - Winds/Percussion Literature **Credits: (2)**

Applied Lessons (8 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**
- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

Large Ensemble (16 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**
- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1763 - Guitar Ensemble **Credits: (1)**
- MUSC 3763 - Guitar Ensemble **Credits: (1)**

Chamber Ensembles (4 credit hours)

Minimum of 4 classes required. Courses may be repeated for credit.

- MUSC 1755 - Instrumental Chamber Ensemble **Credits: (1)**
- MUSC 3755 - Instrumental Chamber Ensemble **Credits: (1)**

Music (BM), Keyboard Pedagogy Emphasis

Music (BM)

- **Program Prerequisite:** Audition required for admission to program.
- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.

- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**
- MUSC 3872 - Choral Conducting I **Credits: (2)** or
- MUSC 3822 - Instrumental Conducting I **Credits: (2)**
- MUSC 4302 - Keyboard Pedagogy I **Credits: (2)**
- MUSC 4312 - Keyboard Pedagogy II **Credits: (2)**
- MUSC 4322 - Keyboard Pedagogy III **Credits: (2)**
- MUSC 4332 - Keyboard Pedagogy IV **Credits: (2)**
- MUSC 4860 INT - Internship in Music **Credits: (1-3)** (to be repeated twice for credit)
- MUSC 4991 - Senior Recital **Credits: (0)**

Large Ensemble (2 credit hours)

Choose two courses from the following to be taken over two semesters:

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**

Applied Lessons (8 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**
- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

Other Required Support Courses (10 credit hours)

- THEA 1033 CA - Introduction to Acting **Credits: (3)**
- FIN 1010 - Personal Finance **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- DANC 1200 - Contemporary/Modern I **Credits: (2)** or
- DANC 1100 - Ballet I **Credits: (2)**

Elective Courses (6 credit hours)

Choose 6 credits from the following:

- 1 Foreign Language Course
- MUSC 1755 - Instrumental Chamber Ensemble **Credits: (1)** or (may be repeated twice for credit) OR
- MUSC 3755 - Instrumental Chamber Ensemble **Credits: (1)** (may be repeated twice for credit)
- ENTR 1002 - Startup Innovation **Credits: (3)**
- MUSC 1753 - Jazz Ensemble **Credits: (1)** (may be repeated twice for credit)
- MUSC 1601 - Private Instruction **Credits: (1)** in Jazz Piano (may be repeated twice for credit) OR
- MUSC 3601 - Private Instruction **Credits: (1)** in Jazz Piano (may be repeated twice for credit)

One of the following courses may be used toward the 6 elective credits:

- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 1820 - The Art and Science of Recording I **Credits: (3)**
- MUSC 1720 - Analog Audio **Credits: (3)**
- MUSC 1721 - Live Sound in the 21st Century **Credits: (3)**
- MUSC 1722 - History of Recording **Credits: (2)**

Music (BM), Keyboard Performance Emphasis

Music (BM)

- **Program Prerequisite:** Audition required for admission to program.
- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 52 credit hours is required within the major for the Bachelor of Music in Performance and a minimum of 58 credit hours is required within the major for the Bachelor of Music in Keyboard Pedagogy, Stringed

Instrument Pedagogy, or Vocal Pedagogy. A total of 40 upper-division credit hours is required (courses numbered 3000 and above); 18-28 of these are required within the major.

- **Program Code: Music (3122BM)** with one of the following emphases: **Keyboard Performance** (3097), **Vocal Performance** (3098), **Instrumental Performance** (3099), **Keyboard Pedagogy** (3100), **Stringed Instrument Pedagogy** (3101), **Vocal Pedagogy** (3102)
- **CIPC: Music** (500903), **Keyboard Performance** (500903), **Vocal Performance** (500903), **Instrumental Performance** (500903), **Keyboard Pedagogy** (500912), **Stringed Instrument Pedagogy** (500912), **Vocal Pedagogy** (500912)

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Performing Arts.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). All students in these Bachelor of Music programs must audition with the appropriate area head prior to admission to the program.

General Education

Refer to Degree Requirements for Bachelor of Music requirements.

Program Learning Outcomes

- Employ writing and research skills to examine and communicate ideas about music.
- Demonstrate competency as performers through the preparation of repertoire and technical studies.
- Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Policies and Procedures

Refer to the School of Music Policies and Procedures in this catalog.

School of Music Required Core Courses (29 credit hours)

- MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.
- MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**
- MUSC 1901 - Music: The Successful Musician **Credits: (1)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2120 - Music Theory IV **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (2)**
- MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (2)**

- MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
- MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
- MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Advanced Concepts in Music Theory **Credits: (2)**

Additional Required Music Courses (46 credit hours)

- MUSC 2170 - Functional Piano Skills for Piano Majors/Minors **Credits: (2)**
- MUSC 2321 - The Principles of Collaborative Piano I **Credits: (1)**
- MUSC 2331 - The Principles of Collaborative Piano II **Credits: (1)**
- MUSC 3302 - Keyboard Literature I **Credits: (2)**
- MUSC 3312 - Keyboard Literature II **Credits: (2)**
- MUSC 3872 - Choral Conducting I **Credits: (2)** or
- MUSC 3822 - Instrumental Conducting I **Credits: (2)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**
- MUSC 4302 - Keyboard Pedagogy I **Credits: (2)**
- MUSC 4312 - Keyboard Pedagogy II **Credits: (2)**
- MUSC 3991 - Junior Recital **Credits: (0)**
- MUSC 4991 - Senior Recital **Credits: (0)**

Large Ensemble (2 credit hours)

Choose two courses from the following to be taken over two semesters:

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**
- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1753 - Jazz Ensemble **Credits: (1)**
- MUSC 3753 - Jazz Ensemble **Credits: (1)**

Chamber Lessons (2 credit hours)

To be taken over two semesters for a total of 2 credits:

- MUSC 1755 - Instrumental Chamber Ensemble **Credits: (1)**
- MUSC 3755 - Instrumental Chamber Ensemble **Credits: (1)**

Applied Lessons (8 credit hours)

Minimum of 8 classes required. Courses may be repeated for credit.

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**

- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

Other Required Support Courses (10 credit hours)

- THEA 1033 CA - Introduction to Acting **Credits: (3)**
- FIN 1010 - Personal Finance **Credits: (3)**
- HLTH 2400 - Mind/Body Wellness **Credits: (3)**
- DANC 1100 - Ballet I **Credits: (2)** or
- DANC 1200 - Contemporary/Modern I **Credits: (2)**

Elective Courses (6 credit hours)

Choose 6 credits from the following:

- MUSC 4322 - Keyboard Pedagogy III **Credits: (2)**
- MUSC 4332 - Keyboard Pedagogy IV **Credits: (2)**
- MUSC 4860 INT - Internship in Music **Credits: (1-3)**
- MUSC 1601 - Private Instruction **Credits: (1)** in Jazz Piano (may be repeated twice for credit)
- MUSC 3601 - Private Instruction **Credits: (1)** in Jazz Piano (may be repeated twice for credit)

One of the following courses may be used toward the 6 elective credits:

- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 1820 - The Art and Science of Recording I **Credits: (3)**
- MUSC 1720 - Analog Audio **Credits: (3)**
- MUSC 1721 - Live Sound in the 21st Century **Credits: (3)**
- MUSC 1722 - History of Recording **Credits: (2)**

Foreign Language

See Foreign Language Requirements in the Music Area procedures and policies.

Music (BM), Stringed Instrument Pedagogy Emphasis

Music (BM)

- **Program Prerequisite:** Audition required for admission to program.
- **Minor:** Not required.
- **Grade Requirement:** A grade of "C" or better in courses required for these majors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.

A total of 40 upper division credit hours is required (courses numbered 3000 and above); 23-28 of these are required within the major.
- **Program Code:** Music Education Teaching (3093BME) with Choral (3094)
- **CIPC:** 131312

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Performing Arts.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information). Teaching majors must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to Degree Requirements for Bachelor of Music requirements. LIBS 1704 will fulfill the Computer Literacy general education requirement. PSY 1010 is recommended.

Program Learning Outcomes

- Employ writing and research skills to examine and communicate ideas about music.
- Demonstrate competency as performers through the preparation of repertoire and technical studies.
- Synthesize skills of performance, aural analysis, score analysis, technology, musicology, improvisation and composition.

School of Music Policies and Procedures

Refer to the Department of Performing Arts Policies and Procedures in this catalog.

School of Music Required Core Courses (29 credit hours)

- MUSC 1006 - Concert Attendance I **Credits: (0)** Students must take this course twice.
- MUSC 2006 - Concert Attendance II **Credits: (0)** Students must take this course twice.
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**
- MUSC 1901 - Music: The Successful Musician **Credits: (1)**
- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 2110 - Music Theory III **Credits: (2)**
- MUSC 2120 - Music Theory IV **Credits: (2)**
- MUSC 2130 - Sight Singing & Aural Skills III **Credits: (2)**
- MUSC 2140 - Sight Singing & Aural Skills IV **Credits: (2)**
- MUSC 3205 - Music History I: Music before 1800 **Credits: (3)**
- MUSC 3206 - Music History II: Music after 1800 **Credits: (3)**
- MUSC 3208 - World Music **Credits: (3)**
- MUSC 3840 - Advanced Concepts in Music Theory **Credits: (2)**

Required Courses for BME

- MUSC 1150 - Class Piano I **Credits: (2)**
- MUSC 1160 - Class Piano II **Credits: (2)**
- MUSC 2150 - Class Piano III **Credits: (2)**
- MUSC 2321 - The Principles of Collaborative Piano I **Credits: (1)**
- MUSC 3924 - Music Teaching and Learning in the Elementary School **Credits: (3)**
- MUSC 3991 - Junior Recital **Credits: (0)**
- MUSC 4822 - Secondary Music Methods **Credits: (3)**
- MUSC 4860 INT - Internship in Music **Credits: (1-3)** (must be taken twice for credit)

Applied Lessons

Select classes in the appropriate area. Minimum of 6 classes required, for a total of 6 credits. Courses may be repeated for credit.

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**
- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

Large Ensemble

Select classes in the appropriate area. Minimum of 6 classes required, for a total of 6 credits. Courses may be repeated for credit.

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**
- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1763 - Guitar Ensemble **Credits: (1)**
- MUSC 3763 - Guitar Ensemble **Credits: (1)**

Course Requirements for Licensure

Minimum of 33 credits required.

COMM 1020, COMM 2110, and CHF 1500 also fulfill University General Education requirements.

- EDUC 1010 CEL - Exploring Teaching **Credits: (3)**
- CHF 1500 SS/CC - Human Development **Credits: (3)** or
- PSY 3140 - Adolescent Psychology **Credits: (3)**
- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** or
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)**
- EDUC 3220 - Foundations of Diversity **Credits: (2)**
- EDUC 3265 - The Exceptional Student **Credits: (2)**

- EDUC 3315 - Media Integration in the Secondary School Setting **Credits: (2)**
- EDUC 3900 - Preparing, Teaching, and Assessing Instruction **Credits: (2)**
- EDUC 3910 INT - Secondary Education Practicum **Credits: (2)**
- EDUC 3935 - Reading and Writing Across the Secondary Curriculum **Credits: (2)**
- EDUC 4940A INT - Student Teaching in Secondary Education **Credits: (8)**
- EDUC 4950 - Integrated Secondary Student Teaching Seminar **Credits: (4)**

Foreign Language

Three credits of Foreign Language courses. See Foreign Language Requirements in the Music Area procedures and policies.

Choral Emphasis Required Courses

- MUSC 2821 - Percussion Methods **Credits: (2)**
- MUSC 2841 - Brass Methods **Credits: (2)**
- MUSC 2851 - Woodwind Methods **Credits: (2)**
- MUSC 2871 - String Methods **Credits: (2)**
- MUSC 3122 - Choral Arranging **Credits: (2)**
- MUSC 3872 - Choral Conducting I **Credits: (2)**
- MUSC 4402 - Vocal Pedagogy I **Credits: (2)**

Music Education Teaching (BME), Instrumental Emphasis

- **Program Prerequisites:** Audition required for admission to program. Must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A total of 123 credit hours is required for either the Choral or Instrumental Emphasis; a minimum of 64 credit hours is required within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above); 23-28 of these are required within the major.
- **Program Code:** Music Education Teaching (3093BME) with Instrumental (3095)
- **CIPC:**131312

Advisement

Music majors should meet with an advisor prior to registration. For current advisor listing please refer to School of Performing Arts.

Bachelor of Science

Dance Education (BS)

Dance Education Major K-12

The objective of this program is to help guide and prepare students for teaching dance in public school settings (grades K-12), private studios and non-profit organizations.

- **Program Prerequisites:** Students must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for this major (a grade of "C-" is not acceptable) and an overall GPA of at least 2.75.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation; a minimum of 56 of these are within the major. A total of 40 upper division credit hours is required (courses numbered 3000 and above).
- **Program Code:** 3058BA or 3058BS
- **CIPC:** 131324

Based within the disciplinary core of the Dance program, the BA and BS Dance Education K-12 degree offerings help to guide and prepare students for teaching dance in public school settings (grades K-12), private studios, and/or non-profit environments. In addition to the core dance requirements, secondary licensure requirements are mandatory for all teaching degrees leading to eligibility for Utah State Board of Education licensure.

Advisement

Students must consult with the Dance Program advisor at least once each term. Email Joseph Blake or Amanda Sowerby for more information or to schedule an appointment. Students seeking secondary certification are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269). (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study. Teaching majors must meet the Teacher Education admission and licensure requirements (see Teacher Education Department in this catalog).

General Education

Refer to General Requirements of this catalog for Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements.

Program Learning Outcomes

- Technique/Performance - Students will apply dance technique and kinesiology principles to improve as dancers and performers.
- Theory/Criticism - Students will apply and communicate principles of dance theory and criticism in many settings.
- Creative Process - Students will engage in the evolving nature of the creative process in many settings.
- Meaning/Self-discovery - Students will discover, express, and gain ownership of their own point of view about dance, to speak the language of dance.

Course Requirements for BS or BA Degree in Dance Education

Required Dance Forms (minimum of 18 credit hours)

- DANC 1100 - Ballet I **Credits: (2)**
- DANC 1200 - Contemporary/Modern I **Credits: (2)**
- DANC 1450 - Special Topic: World Dance Experiences I **Credits: (2)**
- DANC 1520 - Dance in World Cultures **Credits: (2)**
- DANC 1580 - Rhythm Tap I **Credits: (2)**
- DANC 2490 - Contemporary/Modern II **Credits: (2)**
- DANC 2500 - Jazz II **Credits: (2)**
- DANC 3490 - Contemporary/Modern III **Credits: (2)**
- DANC 3560 - African Dance and Culture II **Credits: (2)**

Creative Process and Performance (9 credit hours)

- DANC 2410 - Improvisation **Credits: (2)**
- DANC 3500 - Choreographic Process **Credits: (3)**
- DANC 3520 INT - Choreography Practicum **Credits: (3)**
- DANC 4910 INT - Rehearsal and Performance **Credits: (1)**

Dance Studies (10 credit hours)

- DANC 1010 CA/CC - Introduction to Dance **Credits: (3)**
- DANC 2300 - Dance Kinesiology **Credits: (3)**
- DANC 2250 - Alignment and Conditioning for Dance/Pilates **Credits: (1)**
- DANC 3015 - Dance History **Credits: (3)**

Teaching Methods (10 credit hours)

- DANC 3320 INT - Secondary Dance Pedagogy **Credits: (3)**
- EDUC 3430 - Creative Processes in the Elementary School **Credits: (3)**
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)**
- DANC 3860 INT - Field Experience **Credits: (1-3)**

Dance and Production (7 credit hours)

- DANC 1310 - Music for Dance **Credits: (2)**
- DANC 2610 - Dance and Digital Technology **Credits: (2)**

Choose one from the following below:

- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- FILM 2200 CA - Fundamentals of Film **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- MUSC 3701 - Music Entrepreneurship and You **Credits: (3)**

Health and Science Courses Required to fulfill the BS in Dance Education (12 credit hours)

- ZOOL 1020 LS - Human Biology **Credits: (3)**
- NUTR 1020 LS SUS - Science and Application of Human Nutrition **Credits: (3)**
- ESS 3510 - Exercise Physiology **Credits: (3)**
- ZOOL 3570 - Foundations of Science Education **Credits: (3)**

Emphasis Option for Bachelor of Interdisciplinary Studies

Music (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Code: 3037**
- **CIPC: 500901**

Students declaring an emphasis in music as one of their three BIS concentrations must abide by all guidelines and stipulations detailed in the BIS student handbook.

Courses taken in fulfillment of the music area emphasis must total a minimum of 18 credit hours and will be determined in consultation with the music BIS advisor and approved by the department chair (or dean, if the advisor and chair are the same person). These courses should directly and demonstratively contribute to the goals set forth by the student in his/her approved BIS application.

Required Courses

- MUSC 1010 CA - Introduction to Music **Credits: (3)**
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**

Select three of the following:

- MUSC 1025 CA - History of Country Music **Credits: (3)**
- MUSC 1030 CA - Introduction to Jazz **Credits: (3)**
- MUSC 1033 CA - Introduction to American Music **Credits: (3)**
- MUSC 1035 CA - History of Rock and Roll **Credits: (3)**
- MUSC 1040 CA - Music of World Cultures **Credits: (3)**
- MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**
- MUSC 1063 CA - Music in Religion **Credits: (3)**

Note:

Please note that according to the BIS student handbook, courses taken in completion of the university General Education requirements will not count toward a BIS emphasis. In other words, "double-dipping" is not allowed.

Theatre Arts (BIS)

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students.

- **Program Code: 3046**
- **CIPC: 500501**

The Theatre Area participates in the BIS degree program. For a Theatre emphasis, students should take a minimum of 18 credit hours as approved by their Theatre Arts Advisor. BIS students must meet with a Theatre Arts Advisor to design their Theatre component.

Minor

Dance Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

A dance minor is available for students not wishing to specialize but who have an interest in dance and want a concentration of study in the area to complement an affiliated program of study. Coursework is individualized, with selections to be made from the following areas.

- **Grade Requirements:** A GPA of 2.25 or better in courses used toward the minor.
- **Advisement:** Students should meet annually, if not more often, with the faculty advisor for the course and program advisement. Email Joseph Blake (josephblake@weber.edu) for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List).
- **Credit Hour Requirements:** Minimum of 18 credit hours, with no fewer than 3 nor more than 9 in any one of the following three areas listed.
- **Program Code:** 3045
- **CIPC:** 500301

Course Requirements for Minor

Select 18 credit hours from the following three areas, with no fewer than 3 or more than 9 credit hours in any one of the three areas listed. Additional coursework to total 18 credit hours may be chosen, with advisor's written approval, from remaining dance electives or in approved related areas.

Courses Required (18 credit hours)

Select 18 credit hours from each of the following, with no fewer than 3 nor more than 9 in any one of the three areas listed. Additional coursework to total 18 credit hours may be chosen, with advisor's written approval, from remaining dance electives or in approved related areas.

Area 1, Technique

Select the appropriate level from the following

Any course may be repeated once

- DANC 1100 - Ballet I **Credits: (2) 2**
- DANC 1200 - Contemporary/Modern I **Credits: (2) 2**
- DANC 1450 - Special Topic: World Dance Experiences I **Credits: (2) 2**
- DANC 1500 - Jazz I **Credits: (2) 2**
- DANC 1520 - Dance in World Cultures **Credits: (2) 2**
- DANC 1560 - African Dance and Culture I **Credits: (2) 2**
- DANC 1580 - Rhythm Tap I **Credits: (2) 2**
- DANC 2470 - Ballet II **Credits: (2) 2**
- DANC 2490 - Contemporary/Modern II **Credits: (2) 2**
- DANC 2500 - Jazz II **Credits: (2) 2**
- DANC 3470 - Ballet III **Credits: (2) 2**
- DANC 3490 - Contemporary/Modern III **Credits: (2) 2**

Area 2, Creative Work

- DANC 2410 - Improvisation **Credits: (2) 2**
- DANC 2610 - Dance and Digital Technology **Credits: (2) 2**
- DANC 3500 - Choreographic Process **Credits: (3)**
- DANC 3910 INT/CEL - Moving Company: Rehearsal & Development **Credits: (3) CEL**
- DANC 3911 INT/CEL - Moving Company: Performance **Credits: (3) CEL**
- DANC 4610 - Dance and Digital Technology **Credits: (2) 2**
- DANC 4620 - Dance and Digital Technology Seminar **Credits: (1) 1**
- DANC 4910 INT - Rehearsal and Performance **Credits: (1) 1**
- DANC 4890 INT - Cooperative Work Experience **Credits: (1-6) CEL (1-6)**

Area 3, Theoretical Aspects

- DANC 3015 - Dance History **Credits: (3) 3**
- DANC 2300 - Dance Kinesiology **Credits: (3) 3**
- DANC 2350 - Dance for Aging Populations **Credits: (2) 2**
- DANC 1010 CA/CC - Introduction to Dance **Credits: (3) 3**

Minor in Music Performance

The Minor in Music Performance is a course of study for students who desire more intensive performance opportunities while experiencing music courses related to interpretation.

- **Program Prerequisite:** Audition required for admission to the program.
- **Grade Requirements:** A grade of C (2.00) or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 23 credit hours.
- **Program Code:** 3079
- **CIPC:** 500901

Advisement

Music minors should meet with an advisor prior to registration. For current advisor listing please refer to School of Music Advisors.

Course Requirements for Minor in Music Performance

Music Courses Required

- MUSC 1006 - Concert Attendance I **Credits: (0)** (must complete two terms)
- MUSC 2006 - Concert Attendance II **Credits: (0)** (must complete two terms)
- MUSC 1110 - Music Theory I **Credits: (2)**
- MUSC 1120 - Music Theory II **Credits: (2)**
- MUSC 1130 - Sight-Singing & Aural Skills I **Credits: (2)**
- MUSC 1140 - Sight-Singing & Aural Skills II **Credits: (2)**
- MUSC 1150 - Class Piano I **Credits: (2)**
- MUSC 1160 - Class Piano II **Credits: (2)**
- MUSC 1901 - Music: The Successful Musician **Credits: (1)**
- MUSC 3991 - Junior Recital **Credits: (0)**

Applied Music Requirement

4 credit hours minimum or until completion of the Junior Recital

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**
- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

Major Ensemble Requirement

4 credit hours minimum or until completion of the music minor requirements

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**
- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**

- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1763 - Guitar Ensemble **Credits: (1)**
- MUSC 3763 - Guitar Ensemble **Credits: (1)**

One of the following Elective courses:

- MUSC 1010 CA - Introduction to Music **Credits: (3)**
- MUSC 1025 CA - History of Country Music **Credits: (3)**
- MUSC 1030 CA - Introduction to Jazz **Credits: (3)**
- MUSC 1033 CA - Introduction to American Music **Credits: (3)**
- MUSC 1035 CA - History of Rock and Roll **Credits: (3)**
- MUSC 1040 CA - Music of World Cultures **Credits: (3)**
- MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**
- MUSC 1063 CA - Music in Religion **Credits: (3)**

Music Studies Minor

The Minor in Music Studies is a course of study for students who wish to experience a broad survey of music courses while also continuing to be engaged in making music. For more information on program requirement, please contact the Department of Performing Arts.

- **Program Prerequisite:** Audition required for admission to the program.
- **Grade Requirements:** A grade of C (2.00) or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 23 credit hours.
- **Program Code:** 3083
- **CIPC:** 500903

Courses Required (23 credit hours minimum)

Required Core Courses

- MUSC 1010 CA - Introduction to Music **Credits: (3)**
- MUSC 1100 - Fundamentals of Music **Credits: (2)**
- MUSC 1901 - Music: The Successful Musician **Credits: (1)**
- MUSC 1006 - Concert Attendance I **Credits: (0)** (must complete two terms)
- MUSC 2006 - Concert Attendance II **Credits: (0)** (must complete two terms)

4 credits of Applied Lessons (courses may be repeated for credit)

- MUSC 1681 - Private Instruction **Credits: (1)**
- MUSC 2681 - Private Instruction **Credits: (1)**
- MUSC 3681 - Private Instruction **Credits: (1)**
- MUSC 4681 - Private Instruction **Credits: (1)**

4 credits of Large Ensemble (courses may be repeated for credit)

- MUSC 1740 - Weber State Concert Choir **Credits: (1)**

- MUSC 3740 - Weber State Concert Choir **Credits: (1)**
- MUSC 1750 - Symphonic Band **Credits: (1-2)**
- MUSC 3750 - Symphonic Band **Credits: (1-2)**
- MUSC 1760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 3760 - Weber State Symphony Orchestra **Credits: (1-2)**
- MUSC 1763 - Guitar Ensemble **Credits: (1)**
- MUSC 3763 - Guitar Ensemble **Credits: (1)**

Electives (9 credits)

Choose three courses from the following list:

- MUSC 1030 CA - Introduction to Jazz **Credits: (3)**
- MUSC 1033 CA - Introduction to American Music **Credits: (3)**
- MUSC 1035 CA - History of Rock and Roll **Credits: (3)**
- MUSC 1040 CA - Music of World Cultures **Credits: (3)**
- MUSC 1043 HU - Music, the Arts & Civilizations **Credits: (3)**
- MUSC 1063 CA - Music in Religion **Credits: (3)**
- MUSC 1025 CA - History of Country Music **Credits: (3)**

Sound Production/Recording Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

Sound Production/Recording is the art and science of capturing and editing music, sound, and dialog. This course of study will prepare the student to succeed as a music producer, recording technician, post-production designer, or other similar fields. The program emphasizes hands-on learning on state-of-the-art equipment.

- **Program Prerequisite:** Successful interview with the program advisor
- **Grade Requirements:** A grade of C (2.00) or better in courses used toward the minor
- **Credit Hour Requirements:** Minimum of 26 credit hours
- **Program Code:** 3076
- **CIPC:** 100203

Advisement

Sound Production/Recording minors should meet with the program advisor at least once an academic year.

Course Requirements for Sound Production/Recording Minor

Required Courses (21 credit hours)

- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4823 - Pro Tools 110 **Credits: (2)**
- MUSC 1820 - The Art and Science of Recording I **Credits: (3)**
- MUSC 1821 - The Art and Science of Recording II **Credits: (3)**
- MUSC 1720 - Analog Audio **Credits: (3)**

- MUSC 1721 - Live Sound in the 21st Century **Credits: (3)**
- MUSC 4995 INT - Capstone Project **Credits: (3)**
- MUSC 1722 - History of Recording **Credits: (2)**

Electives (5 credit hours minimum)

Select a minimum of 5 credit hours from the following

- MUSC 1911 - Introduction to Music Technology **Credits: (1)**
- MUSC 1723 - Field Recording/Sound for Picture **Credits: (2)**
- MUSC 1724 - Studio Construction **Credits: (1)**
- MUSC 1725 - Alternative Digital Audio Workstations **Credits: (2)**
- MUSC 1726 - Creative Lab **Credits: (1)**
 - *Creative Lab may be repeated but only counts toward elective fulfillment once*

Theatre Arts Minor

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor.
- **Credit Hour Requirements:** A minimum of 21 credit hours in Theatre Arts classes.
- **Program Code:** 3046
- **CIPC:** 500501

Program Learning Outcomes:

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Course Requirements for Minor

Theatre Courses Required (21 credit hours)

- THEA 1013 CA - Introduction to Theatre **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 1033 CA - Introduction to Acting **Credits: (3)** or
- THEA 1220 - Acting I **Credits: (3)**

Select two of the following technical theatre classes (be advised that some of these classes are pre-requisites for UD classes, plan accordingly)

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**
- THEA 2203 - Costume Technology **Credits: (3)**
- THEA 2403 - Stage Management **Credits: (3)**
- THEA 2515 - Rendering and Modeling **Credits: (3)**
- THEA 2574 - Drafting for Theatre **Credits: (3)**
- THEA 2580 - Creative Computing for Theatre Design **Credits: (3)**
- THEA 2581 - Adobe Suite for Theatre Design **Credits: (3)**
- THEA 2821 HU - Period Styles in Design **Credits: (3)**

Select one of the following theatre history classes (3 credit hours)

- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**
- THEA 3343 - History & Literature of Musical Theatre **Credits: (3)**

Complete 3 credit hours of upper division Theatre Arts course work. (3 credit hours)

Teaching Minor

Dance Teaching Minor

A dance teaching minor is available for students seeking a concentration of study in dance teaching to complement an affiliated program. Students wishing the minor program must register with the Dance Program advisor.

- **Grade Requirements:** A GPA of 2.25 or better in courses used toward the minor.
- **Credit Hour Requirements:** Minimum of 27 credit hours.
- **Advisement:** Students should meet annually, if not more often, with the faculty advisor for course and program advisement. Email Amanda Sowerby (asowerby@weber.edu) for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List).
- **Program Code:** 3048
- **CIPC:** 131324

Students who select the Dance Teaching Minor and are seeking teacher certification for the state of Utah must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Course Requirements for Minor

Dance Teaching Courses Required (27) credit hours

- DANC 1100 - Ballet I **Credits: (2)** (2)
- DANC 1200 - Contemporary/Modern I **Credits: (2)** (2)

- DANC 1500 - Jazz I **Credits: (2)** (2)
- DANC 1520 - Dance in World Cultures **Credits: (2)** (2)
- DANC 1560 - African Dance and Culture I **Credits: (2)** (2)
- DANC 2350 - Dance for Aging Populations **Credits: (2)** (2)
- DANC 2410 - Improvisation **Credits: (2)** (2)
- DANC 3015 - Dance History **Credits: (3)** (3)
- DANC 3320 INT - Secondary Dance Pedagogy **Credits: (3)** (3)
- DANC 3500 - Choreographic Process **Credits: (3)** (3)
- DANC 3640 INT - Elementary Dance Pedagogy **Credits: (3)** (3)
- DANC 4910 INT - Rehearsal and Performance **Credits: (1)** (1)

Theatre Arts Teaching Minor

- **Grade Requirements:** A grade of "C" or better in courses used toward the minor.
- **Credit Hour Requirements:** A minimum of 27 credit hours in Theatre Arts classes.
- **Program Code:** 3047
- **CIPC:** 131324

Students who select the Theatre Arts Teaching Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education in this catalog).

Program Learning Outcomes:

Scholarship

Students will analyze and articulate the social, historical, and cultural context of theatrical methods and technologies through research, writing, and discussion, connecting past and present influences on contemporary performance.

Professionalism

Students will demonstrate practical knowledge of production, including individual and collaborative skills essential to staging a theatrical event. They will integrate design, performance, and technical elements, and do so with responsibility, integrity, and accountability.

Artistry

Students will develop and apply skills in creating, analyzing, and evaluating theatrical works, while demonstrating proficiency in at least one specialization within theatre (design, directing, dramaturgy, management, performance, playwriting, teaching, criticism or technology).

Course Requirements for Teaching Minor

Required Courses (27 credit hours)

- THEA 1030 - Voice and Movement for the Actor **Credits: (3)**
- THEA 1220 - Acting I **Credits: (3)**
- THEA 1713 - Script Analysis **Credits: (3)**
- THEA 2330 - Dramaturgy and Criticism **Credits: (3)**
- THEA 2713 INT - Teaching Theatre in the Secondary School **Credits: (3)**
- THEA 3103 INT - Directing I **Credits: (3)**
- THEA 3505 - Playwriting **Credits: (3)**

Select one of the following technical theatre classes (3 credit hours)

- THEA 1223 - Stage Makeup **Credits: (3)**
- THEA 1513 - Stagecraft **Credits: (3)**
- THEA 2022 - Costume Fundamentals **Credits: (3)**
- THEA 2450 - Lighting Fundamentals **Credits: (3)**

Select one of the following theatre history classes (3 credit hours)

- THEA 3303 - History and Literature of Theatre I **Credits: (3)**
- THEA 3313 - History and Literature of Theatre II **Credits: (3)**

Department of Visual Art and Design

Department Chair: Paul Crow

Location: Ethel Wattis Kimball Visual Arts Center

Telephone Contact: Cynthia Kurien 801-626-6455

Professors: Matthew Choberka, Paul Crow, K Stevenson, Joshua Winegar, Stephen Wolochowicz; **Associate**

Professors: Dianna Huxhold, Jason Manley; **Assistant Professors:** Jude Agboada, Micah Bauer, Maria del Mar Gonzalez, Trishelle Jeffery, Thi Nguyen; **Instructors:** Ivy Brenneman, Levi Jackson, Andrew Rice

Our world is partially understood through smell, taste, sound, and touch. But perhaps most of all we make sense of our environment through what we see. The art, architecture, mass media and even the furniture in our spaces bear distinct messages that influence our decisions and enrich life.

Creative processes are exciting. Students of art and design contribute new expression to the vitality of our visual environment and learn to interpret what is seen through trained observation. Innovative thinking is absolutely necessary for success and must be balanced against research and critical judgment. Emphasis is placed on writing and the critical evaluation of artistic products. Students gain experience at preparing exhibits and portfolios for eventual professional activity.

Studies in art and art history offer windows of understanding to other cultures, both past and present. This is one of our primary concerns in preparing citizens for productive relations in an increasingly multicultural society.

Seventy-eight different courses are offered by the Department of Visual Arts. These span traditional areas such as art history, art education, ceramics, drawing, small metals/jewelry, painting, photography, printmaking, sculpture, and visual communication. The department is continually expanding into emerging modes of expression involving digital video, digital photography, animation, interactive design, and sound. Classes are enhanced by public lectures, seminars, workshops and special sessions by critics, historians, and visiting artists.

Weber State University supports three Bachelor's degrees in the visual arts with specializations in most of the areas mentioned above. The Bachelor of Arts and Bachelor of Science degrees provide a broad liberal arts background, a solid base for many careers or further study. The Bachelor of Fine Arts degree is more professionally focused with high concentrations of studio art and art history. The BFA is for students who wish to move directly into professional work in art or design, or those who intend to pursue graduate study in the visual arts. Senior exhibitions are required for most Bachelor of Fine Arts majors.

The Elizabeth Dee Shaw Gallery exhibits art that exemplifies the ideas and values of the curriculum. This serves our students and the public interest as well. Exhibitions involving regional, national, and internationally recognized artists serve a vital role in the cultural life of the community. The Gallery organizes at least six exhibitions each year. All are free and open to the public.

Transfer of Credits

Transfer students must present an official transcript and a portfolio to petition course substitutions for visual arts program requirements. A minimum number of departmental residency hours is required for completion of degree programs: 19 credit hours for the BFA, 12 hours for BS and BA programs, 6 hours for minors.

The University requires students seeking a second baccalaureate degree to complete a full year in residence and a minimum of 30 total credit hours.

Studio Fees

Studio fees are required in most visual arts classes. Check the current course schedule for exact amounts.

Asian Studies Minor

The Department of Visual Arts participates in the Asian Studies Minor Program. Students who wish to enroll in this program should indicate their desire to do so with the program coordinator who will help them work out a proper combination of courses to fit their particular needs. (See the Interdisciplinary Programs section of this catalog.)

Associate of Arts

Art (AA)

An Associate of Arts with an Art major will indicate that a student has completed all WSU AA degree requirements and the Studio Foundations curriculum required for the Bachelor of Arts in Art. Students who have completed the AA degree may continue with intermediate and advanced coursework for the BA, and are eligible to apply for admission to the Bachelor of Fine Arts degree program (Graphic Design, Photography, Art Education, 2-dimensional Media, or 3-dimensional Media).

Grade Requirements: A grade of "C" or better in all courses (a grade of "C-" is not acceptable).

- **Program Code:** 3075AA
- **CIPC:** 500701

Advisement

Art majors are encouraged to meet with a departmental advisor at least annually for course and program advisement. Call 801-626-6762 for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information). There are no special admission or application requirements for this major.

General Education

Refer to Degree Requirements of this catalog for Associate of Arts requirements.

Studio Foundation Courses

All Art pre-majors are required to take the five Studio Foundations courses:

- ART 1040 - Orientation to Visual Studies **Credits: (3)**
- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)**

Studio Electives

In addition, choose two studio elective courses at the 2000-level, for which the Studio Foundations courses serve as prerequisites. Suggested courses include:

- ART 2200 - Introduction to Printmaking **Credits: (3)**
- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)**
- ART 2350 - Small Metals/Jewelry I **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 2600 - Painting I **Credits: (3)**
- ART 2700 - Sculpture I **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**

Bachelor of Arts

Art (BA)

- **Program Prerequisite:** Not required.
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. Of this total, 48 credit hours in Visual Arts are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).
- **Program Code:** 3001BA
- **CIPC:** 500701

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with the department secretary. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. Either one of the following Foundation courses will also fulfill 3 credit hours of the General Education requirement in the Creative Arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Foundation Courses (15 credit hours)

The following are required courses for Art BA majors and should be completed by the end of sophomore year.

- ART 1040 - Orientation to Visual Studies **Credits: (3)**
- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)**

Lower Division Art History Courses (8 credit hours)

Choose two of the following courses

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4)**

Upper Division Art History Requirement (4 credit hours)

Art BA majors are required to take one upper division (3000/4000-level) Art History (ARTH) course.

Required Studio Distribution (9 credit hours)

Select one of the following:

- ART 2200 - Introduction to Printmaking **Credits: (3)**
- ART 2600 - Painting I **Credits: (3)**

Select one of the following:

- ART 2310 - Ceramics I **Credits: (3)**
- ART 2700 - Sculpture I **Credits: (3)**
- ART 2850 - Furniture Design **Credits: (3)**

Select one of the following:

- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**
- ART 3430 - Typography 1 **Credits: (3)**

Studio Electives (12 credit hours)

Select 12 credit hours of studio art coursework.

Language Courses Required to fulfill the BA

General Art majors must complete *Option 1*: Foreign Language (12 credit hours of a foreign language, refer to the Department of World Languages & Cultures section of this catalog for additional information on obtaining foreign language credit)

OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 credit hours of language arts). With this option students **MUST** take ENGL 3080 Critical Approaches to Literature **AND** one of the following: ART 1040, ARTH 3451, ART 3085, ARTH CA 1090, ARTH CA/GLB 1100, ARTH 2040, ARTH 3030, ARTH 3040, ARTH 3045, ARTH 3050, ARTH 3060, ARTH 3070, ARTH 3080, ARTH 3100, ARTH 3451, ARTH 3950. This language arts requirement is in addition to other discipline specific courses required for the BA. No double dipping.

Art Education (BA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

Art Education majors are encouraged to consult with advisors in the Jerry and Vickie Moyes College of Education (call 801-626-6269) and in the Visual Arts Department (call 801-626-7273).

- **Program Prerequisite:** Not required.
- **Minor:** Required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable).

- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 48 credit hours in Visual Arts are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).
- **Program Code:** 3062BA
- **CIPC:** 131302

Students who select the Art Education Major must satisfy the Teacher Education admission and licensure requirements (see Teacher Education Department).

Advisement

All Art Education majors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

Admission Requirements

All Art Education majors must first declare a Major (program of study - see Student Access and Success, Services and Information) with the department secretary and must meet the Teacher Education admission and licensure requirements (see Department of Teacher Education).

General Education

Refer to Degree Requirements for either Bachelor of Science or Bachelor of Arts requirements. See also specific requirements for the BS or BA listed under the major course requirements. The following Foundation courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Foundation Courses (15 credit hours)

The following are required courses for Art Education BA majors and should be completed by the end of sophomore year.

- ART 1040 - Orientation to Visual Studies **Credits: (3)**

- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)**

Lower Division Art History Courses (8 credit hours)

Choose two of the following:

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4)**

Art Education Upper Division Art History Requirement (4 credit hours)

Choose one of the following:

- ARTH 3050 - Contemporary Art **Credits: (4)**
- ARTH 3040 - Global Modernisms **Credits: (4)**

Studio Distribution (9 credit hours)

Select one of the following

- ART 2200 - Introduction to Printmaking **Credits: (3)**
- ART 2600 - Painting I **Credits: (3)**

Select one of the following

- ART 2310 - Ceramics I **Credits: (3)**
- ART 2700 - Sculpture I **Credits: (3)**
- ART 2850 - Furniture Design **Credits: (3)**

Select one of the following

- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**
- ART 3430 - Typography 1 **Credits: (3)**

Required Courses (6 credit hours)

- ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] **Credits: (3)**
- ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] **Credits: (3)**

Studio Electives (6 credit hours)

Select six credit hours of studio art coursework.

Language Courses Required to fulfill the BA

Refer to Degree and General Education Requirements in this catalog and complete Option 1 - Foreign Language listed under Requirements for Bachelor's Degrees, or Option 2 - 6 credit hours of Foreign Language, plus ENGL 3080 and ARTH 3050.

Bachelor of Fine Arts

Art (BFA)

The Bachelor of Fine Arts (BFA) degree is the professional studio-focused undergraduate degree in visual art and graphic design. The degree does not require a Minor, instead focusing on additional studio, art history, and capstone course requirements, making the BFA the preferred preparation for graduate study, and for students planning on careers as independent studio artists and designers. Select from the areas of emphasis listed below for detailed information on BFA admissions and additional program requirements.

Areas of Emphasis

Select one of the following areas of emphasis:

Four-year degree:

Art (BFA), 2D Media Emphasis (drawing, painting, printmaking)

Art (BFA), 3D Media Emphasis (ceramics, sculpture)

Art (BFA), Photo/Video Emphasis

Art (BFA), Graphic Design Emphasis (graphic design in print/interactive media)

Five-year degree:

Art (BFA), Art Education Emphasis

Art (BFA), 2D Media Emphasis

- **Program Prerequisite:** Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).
- **Program Code:** 3118BFA with 3113 (Two Dimensional Media)
- **CIPC:** 500702 with 500706 (Two Dimensional Media)

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA

Foundation (15 credit hours)

The following are required for all BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

- ART 1040 - Orientation to Visual Studies **Credits: (3) F, Sp**

- ART 1110 CA - Drawing I **Credits: (3)** *F, Sp*
- ART 1120 - Design Concepts **Credits: (3)** *F, Sp*
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)** *F*
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)** *Sp*

Studio Distribution (9 credit hours)

Photo/Video students must take ART 2430.

- ART 2200 - Introduction to Printmaking **Credits: (3)** or
- ART 2600 - Painting I **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)** or
- ART 2700 - Sculpture I **Credits: (3)** or
- ART 2850 - Furniture Design **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)** or
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)** or
- ART 2750 - Foundations of Video Art **Credits: (3)**

Art History Lower Division (8 credit hours)

Choose two of the following courses.

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)** *F*
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)** *Sp*
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4)** *Sp*

Art History Upper Division (8 credit hours)

Choose two upper division (3000/4000-level) Art History (ARTH) courses.

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

Note: Graphic Design majors must select ARTH 3451.

BFA Capstone

Graphic Design emphasis (6 credit hours) must take ART 3410 and ART 4410

2D, 3D, Art Education, Photo/Video emphasis (9 credit hours) must take ART 3085, ART 3995, and ART 4990.

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)**
- ART 3410 - Design Seminar for Juniors **Credits: (3)**
- ART 4410 - Design Seminar **Credits: (3)**

Studio Focus Courses

Choose 26 credit hours in consultation with your faculty adviser.

Recommended Courses

- ART 3120 - Figure Drawing **Credits: (3)**
- ART 3200 - Intermediate Printmaking **Credits: (3)**
- ART 3210 - Relief Printmaking **Credits: (3)**
- ART 3215 - Etching Printmaking **Credits: (3)**
- ART 3600 - Painting II **Credits: (3)**
- ART 4110 - Advanced Drawing **Credits: (3)**
- ART 4120 - Advanced Figure Drawing **Credits: (3)**
- ART 4200 - Advanced Printmaking **Credits: (3)**
- ART 4600 - Painting III **Credits: (3)**

Notes:

Visual arts courses that are not being used to fulfill the major requirements (studio distribution, art-history) may fulfill electives credits.

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Art (BFA), 3D Media Emphasis

- **Program Prerequisite:** Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).
- **Program Code:** 3118BFA with 3114 (Three Dimensional Media)
- **CIPC:** 500702 with 500706 (Three Dimensional Media)

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum

grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA

Foundation (15 credit hours)

The following are required for all BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

- ART 1040 - Orientation to Visual Studies **Credits: (3)** F, Sp
- ART 1110 CA - Drawing I **Credits: (3)** F, Sp
- ART 1120 - Design Concepts **Credits: (3)** F, Sp
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)** F
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)** Sp

Studio Distribution (9 credit hours)

Photo/Video students must take ART 2430.

- ART 2200 - Introduction to Printmaking **Credits: (3)** or
- ART 2600 - Painting I **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)** or
- ART 2700 - Sculpture I **Credits: (3)** or
- ART 2850 - Furniture Design **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)** or
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)** or
- ART 2750 - Foundations of Video Art **Credits: (3)**

Art History Lower Division (8 credit hours)

Choose two of the following courses.

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4) F**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4) Sp**
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4) Sp**

Art History Upper Division (8 credit hours)

Choose two upper division (3000/4000-level) Art History (ARTH) courses.

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

Note: Graphic Design majors must select ARTH 3451.

BFA Capstone

Graphic Design emphasis (6 credit hours) must take ART 3410 and ART 4410

2D, 3D, Art Education, Photo/Video emphasis (9 credit hours) must take ART 3085, ART 3995, and ART 4990.

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)**
- ART 3410 - Design Seminar for Juniors **Credits: (3)**
- ART 4410 - Design Seminar **Credits: (3)**

Studio Focus Courses:

Choose 26 credit hours in consultation with your faculty adviser.

Recommended Courses

- ART 2310 - Ceramics I **Credits: (3)**
- ART 2700 - Sculpture I **Credits: (3)**
- ART 2850 - Furniture Design **Credits: (3)**
- ART 3310 - Ceramics II **Credits: (3)**

- ART 3320 - Ceramic Processes **Credits: (3)**
- ART 3700 - Sculpture II **Credits: (3)**
- ART 3720 - Public Art **Credits: (3)**
- ART 4310 - Ceramics III: Intermediate **Credits: (3)**
- ART 4320 - Ceramics IV: Advanced **Credits: (3)**
- ART 4700 - Sculpture III **Credits: (3)**

Notes:

Visual arts courses that are not being used to fulfill the major requirements (studio distribution, art-history) may fulfill electives credits.

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Art (BFA), Art Education Emphasis

- **Program Prerequisite:** Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).
- **Program Code:** 3118BFA with 3117 (Art Education)
- **CIPC:** 500702 with 131302 (Art Education)

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA

Foundation (15 credit hours)

The following are required for all BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

- ART 1040 - Orientation to Visual Studies **Credits: (3)** *F, Sp*
- ART 1110 CA - Drawing I **Credits: (3)** *F, Sp*
- ART 1120 - Design Concepts **Credits: (3)** *F, Sp*
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)** *F*
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)** *Sp*

Studio Distribution (9 credit hours)

Photo/Video students must take ART 2430.

- ART 2200 - Introduction to Printmaking **Credits: (3)** or
- ART 2600 - Painting I **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)** or
- ART 2700 - Sculpture I **Credits: (3)** or
- ART 2850 - Furniture Design **Credits: (3)**

- ART 2430 - Introduction to Graphic Design **Credits: (3)** or
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)** or
- ART 2750 - Foundations of Video Art **Credits: (3)**

Art History Lower Division (8 credit hours)

Choose two of the following courses.

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)** *F*
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)** *Sp*
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4)** *Sp*

Art History Upper Division (8 credit hours)

Choose two upper division (3000/4000-level) Art History (ARTH) courses.

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

Note: Graphic Design majors must select ARTH 3451.

BFA Capstone

Graphic Design emphasis (6 credit hours) must take ART 3410 and ART 4410

2D, 3D, Art Education, Photo/Video emphasis (9 credit hours) must take ART 3085, ART 3995, and ART 4990.

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)**
- ART 3410 - Design Seminar for Juniors **Credits: (3)**
- ART 4410 - Design Seminar **Credits: (3)**

Required Studio Distribution (9 credit hours)

- ART 2200 - Introduction to Printmaking **Credits: (3)** or
- ART 2600 - Painting I **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)** or
- ART 2700 - Sculpture I **Credits: (3)** or
- ART 2850 - Furniture Design **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)** or
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)** or
- ART 2750 - Foundations of Video Art **Credits: (3)**

Studio Focus Courses:

Required (6 credits)

- ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] **Credits: (3)** (see note under emphasis section)
- ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] **Credits: (3)**

Note: Prerequisites for Art Methods I (ART 3515) include ARTH 1100 CA/GLB and either ARTH 3040 or ARTH 3050.

Electives (20 credits)

Choose 20 credit hours in consultation with your faculty adviser. Courses will depend on area of emphasis.

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Art (BFA), Graphic Design Emphasis

- **Program Prerequisite:** Completion of Foundation courses with minimum grade requirements followed by mandatory advising (refer to the BFA Admission Requirements below).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).
- **Program Code:** 3118BFA with 3116 (Graphic Design)
- **CIPC:** 500702 with 500409 (Graphic Design)

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.

- ART 3410 - Design Seminar for Juniors **Credits: (3)**
- ART 4410 - Design Seminar **Credits: (3)**

Studio Focus Courses (45 credit hours)

Required Courses (25 credit hours)

- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- ART 2435 - Graphic Design Practice **Credits: (3)**
- ART 3410 - Design Seminar for Juniors **Credits: (3)**
- ART 3430 - Typography 1 **Credits: (3)**
- ART 3435 - Typography 2 **Credits: (3)**
- ART 3445 - Interaction Design 1 **Credits: (3)**
- ART 4400 - Advanced Graphic Design **Credits: (3)**
- ARTH 3451 - Design History and Theory **Credits: (4)**

Elective Courses (20 credit hours)

- ART 2200 - Introduction to Printmaking **Credits: (3)**

- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 3200 - Intermediate Printmaking **Credits: (3)**
- ART 3460 - Illustration **Credits: (3)**
- ART 3465 - Motion Design **Credits: (3)**
- ART 4200 - Advanced Printmaking **Credits: (3)**
- ART 4400 - Advanced Graphic Design **Credits: (3)**
- ART 4415 - Design Production **Credits: (3)**
- ART 4420 - Advanced Digital Media **Credits: (3)**
- ART 4440 - Interaction Design 2 **Credits: (3)**
- ART 4460 - Advanced Illustration **Credits: (3)**
- ART 4890 INT - Cooperative Work Experience **Credits: (1-2)** (by arrangement only for (1) credit)
- ART 4500 - Special Topics in Graphic Design **Credits: (3)**

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Art (BFA), Photo/Video Emphasis

- **Program Prerequisite:** Completion of Foundation courses with minimum grade requirements followed by mandatory advisement (refer to the BFA Admission Requirements below).
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for all majors and minors (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours is required for graduation. Of this total, 75 credit hours are required for the BFA degree. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above).
- **Program Code:** 3118BFA with 3115 (Photo/Video)
- **CIPC:** 500702 with 500605 (Photo/Video)

Advisement

All Art majors and minors should interview with the department chair/advisor early in their course of study. Call the Department of Visual Arts at 801-626-6455 for more information or to schedule an appointment. (Also refer to the Department Advisor Referral List.)

BFA Admission Requirements

All Art majors must first declare a Major in General Art (program of study - see Enrollment Services and Information) with the department secretary. Once the five Foundation courses have been completed with a minimum grade of B- in each, students schedule a mandatory advising meeting with the department chair to declare their BFA major in one of the five studio areas of emphasis. After admittance, students plan their studio elective classes in consultation with the department chair and a faculty advisor from the chosen emphasis area.

Students who select the Art Education emphasis must satisfy the Teacher Education admission and licensure requirements (see Teacher Education department).

General Education

Refer to Degree Requirements for Bachelor of Fine Arts requirements. The following Foundation/elective courses will also fulfill general education requirements in the creative arts category: ARTH 1090 and ARTH 1100.

Program Learning Outcomes

- Technical Proficiency - Produce technically proficient visual work.
- Conceptual, Ethical, Critical - Utilize conceptual frameworks, ethical reasoning, and critical thinking skills in the making of visual media.
- Learn, Adapt, Apply - Demonstrate the ability to learn, adapt, and apply new techniques, tools, processes, and ideas.
- Assess, Analyze, Synthesize - Assess, analyze, and synthesize historical and contemporary information regarding visual art and design.
- Writing and Oral Communication - Communicate effectively and ethically about visual media through written or oral means.
- Recognize and Identify - Recognize and identify historically influential styles, movements, periods, theories, and practitioners of art and design in a global context.
- Contemporary Professional Practices - Implement contemporary professional practices in the field.
- Cooperation With Peers - Demonstrate the ability to work cooperatively, ethically, and effectively with peers.
- Profession, Practice, Community - Explain visual art and design as a profession, practice, and global community.

Course Requirements for the BFA

Foundation (15 credit hours)

The following are required for all BFA majors and should be completed by the end of the sophomore year.

Studio Foundation courses are offered Fall and Spring semesters. Look for an "F" or a "Sp" at the end of Art History and advanced studio course titles to see when they are usually offered. An "e" or an "o" indicates that the course is offered only in even or odd years. Course offering schedules may change. Consult the current course schedule for the latest information. The 1000 level courses should be taken during the freshman year.

- ART 1040 - Orientation to Visual Studies **Credits: (3)** *F, Sp*
- ART 1110 CA - Drawing I **Credits: (3)** *F, Sp*
- ART 1120 - Design Concepts **Credits: (3)** *F, Sp*
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)** *F*
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)** *Sp*

Studio Distribution (9 credit hours)

Photo/Video students must take ART 2430.

- ART 2200 - Introduction to Printmaking **Credits: (3)** or
- ART 2600 - Painting I **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)** or
- ART 2700 - Sculpture I **Credits: (3)** or

- ART 2850 - Furniture Design **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)** or
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)** or
- ART 2750 - Foundations of Video Art **Credits: (3)**

Art History Lower Division (8 credit hours)

Choose two of the following courses.

- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4) F**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4) Sp**
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4) Sp**

Art History Upper Division (8 credit hours)

Choose two upper division (3000/4000-level) Art History (ARTH) courses.

Note: Art Education majors must select either ARTH 3040 or ARTH 3050.

Note: Graphic Design majors must select ARTH 3451.

BFA Capstone

Graphic Design emphasis (6 credit hours) must take ART 3410 and ART 4410

2D, 3D, Art Education, Photo/Video emphasis (9 credit hours) must take ART 3085, ART 3995, and ART 4990.

- ART 3085 - Critical Issues in Art **Credits: (3)**
- ART 3995 - BFA Seminar **Credits: (3)**
- ART 4990 - BFA Thesis **Credits: (3)**
- ART 3410 - Design Seminar for Juniors **Credits: (3)**
- ART 4410 - Design Seminar **Credits: (3)**

Studio Focus Courses:

Required (12 credit hours)

- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**
- ART 3150 - Intermediate Photography: Seminar **Credits: (3)**

Electives (minimum of 14 credit hours)

Choose 14 credit hours in consultation with your faculty adviser. Other courses may be considered.

- ART 3500 - Advanced Time-Based Media/Video Art **Credits: (3)**
- ART 3550 - Advanced Photography: View Camera **Credits: (3)**

- ART 4550 - Advanced Photography: Lighting for Photo & Video **Credits: (3)**
- ART 4660 - Advanced Photography: Special Topics **Credits: (3)**
- ART 4750 - Advanced Photography: Experimental Strategies **Credits: (3)**
- ART 4910 INT - Advanced Photography: Internship **Credits: (1-3)**
- ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

Note:

All undergraduate degrees include a requirement of a minimum 40 credits of Upper Division (3000- and 4000-level) coursework. When choosing Studio Focus electives, it is strongly recommended that students meet with an academic advisor to make sure they are on track to meet this requirement.

Minor

Art History Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 23 credit hours.
- **Program Code:** 3011
- **CIPC:** 500703

Course Requirements for Minor

Required Courses (15 credit hours)

- ART 1040 - Orientation to Visual Studies **Credits: (3)**
- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2050 GLB - Visual Art in a Global Context **Credits: (4)**

Elective Course (8 credit hours)

Select two upper division art history (ARTH) courses for elective credit.

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Art History. Consult with the Department of Visual Arts Chair.

Art Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3003
- **CIPC:** 500701

Course Requirements for Minor

Required Courses (15 credit hours)

- ART 1040 - Orientation to Visual Studies **Credits: (3)**
- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 1135 - Approaches to Materials, Space and Time **Credits: (3)**

Electives Courses (9 credit hours)

Choose nine credit hours of art courses in consultation with the Department of Visual Arts Chair.

Note:

General Art, Art Education and BFA majors cannot declare an Art minor. Art History, Art Education, and Photography are the only departmental minor options for the art major. Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made. Consult with the Department of Visual Arts Chair.

Design for Digital Media Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3064
- **CIPC:** 090702

Course Requirements for Minor

Core Courses Required (12 credit hours)

- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**

- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**

Track Courses Required (12 credit hours)

Complete the courses for one of the following tracks

Web Design Track

- ART 2435 - Graphic Design Practice **Credits: (3)**
- ART 3430 - Typography 1 **Credits: (3)**
- ART 3445 - Interaction Design 1 **Credits: (3)**
- ART 4440 - Interaction Design 2 **Credits: (3)**

Gaming Track

- ART 3460 - Illustration **Credits: (3)**
- ART 4420 - Advanced Digital Media **Credits: (3)**
- ART 4440 - Interaction Design 2 **Credits: (3)**
- ART 4460 - Advanced Illustration **Credits: (3)**

Photography Minor/BIS

The BIS program has been suspended pending formal discontinuance and is no longer accepting new students. The minor program is still accepting students.

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3007
- **CIPC:** 500605

Course Requirements for Minor

Required Courses (12 credit hours)

- ART 1040 - Orientation to Visual Studies **Credits: (3)**
- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 3150 - Intermediate Photography: Seminar **Credits: (3)**

Electives (12 credit hours minimum)

Select a minimum of 12 credit hours from the following

- ART 2750 - Foundations of Video Art **Credits: (3)**
- ART 3550 - Advanced Photography: View Camera **Credits: (3)**

- ART 4550 - Advanced Photography: Lighting for Photo & Video **Credits: (3)**
- ART 4660 - Advanced Photography: Special Topics **Credits: (3)**
- ART 4750 - Advanced Photography: Experimental Strategies **Credits: (3)**
- ARTH 3950 - Photography: History, Theory and Criticism **Credits: (4)**

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Photography. Consult with the Department of Visual Arts Chair.

Teaching Minor

Art Education Minor

- **Grade Requirements:** A grade of "C" or better in all courses used toward the minor (a grade of "C-" is not acceptable).
- **Credit Hour Requirements:** A minimum of 24 credit hours.
- **Program Code:** 3062
- **CIPC:** 131302

Students who select the Art Education Minor must satisfy the Teacher Education admission and licensure requirements (see Department of Teacher Education).

Course Requirements for Minor

Required Courses (18 credit hours)

- ART 1010 CA - Introduction to the Visual Arts **Credits: (3)**
- ART 1110 CA - Drawing I **Credits: (3)**
- ART 1120 - Design Concepts **Credits: (3)**
- ART 1130 - Approaches to Surface, Shape and Form **Credits: (3)**
- ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I] **Credits: (3)**
- ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II] **Credits: (3)**

Elective Course (6 credit hours)

Select two courses from the following

- ART 2200 - Introduction to Printmaking **Credits: (3)**
- ART 2250 - Foundations of Photography: Black & White/Analog **Credits: (3)**
- ART 2310 - Ceramics I **Credits: (3)**
- ART 2350 - Small Metals/Jewelry I **Credits: (3)**
- ART 2600 - Painting I **Credits: (3)**
- ART 2700 - Sculpture I **Credits: (3)**
- ART 3430 - Typography 1 **Credits: (3)**
- ART 2430 - Introduction to Graphic Design **Credits: (3)**
- ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000 **Credits: (4)**

- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- ARTH 2040 - Art and Architecture of Asia **Credits: (4)**

Note:

Courses which satisfy major requirements cannot also satisfy minor requirements. Substitutions must be made for the Art Major student minoring in Art Education. Consult with the Department of Visual Arts Chair.

Master of Arts in English Program

English Department Chair: Hal Crimmel

Program Director: David Hartwig, 801-626-7461

Location: Elizabeth Hall, Room 443

Telephone Contact: Miranda McPherson, 801-626-7179

The Master of Arts in English program offers traditional graduate students and working adults advanced preparation in the study of English language and literature.

The curriculum is composed of 2 and 3 credit hour classes that fall into the following broad categories:

- American Literature
- British Literature
- Teacher Education
- World Literature
- Linguistics

Post Baccalaureate Certificate

Rhetoric and Writing Studies Post Baccalaureate Certificate

This certificate will provide students with advanced training in Rhetoric and Writing Studies with an emphasis on the teaching of college-level composition.

- **Grade Requirements:** Students must receive a grade of B- or better in every course.
- **Credit Hour Requirements:** The program of study consists of 12 credit hours. This includes 9 credit hours of required courses and a minimum of 3 credit hours of electives.
- **Program Code:** 3090PBC
- **CIPC:** 231304

Gainful Employment Disclosure

Admission Requirements

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)
- Submission of writing sample (4-8 pages)
- Transcripts from all institutions of higher education attended
- Three letters of recommendation from educational or professional references
- Interview with the program director or option coordinator

Additional Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 108 overall, or an IELTS score of 7.5 OR provide equivalent demonstration of language proficiency as established through the Weber State International Student and Scholar Center. The score may not be more than two years old.

Students with bachelor's degrees from institutions outside the United States will be required to submit professional transcript evaluations.

Program Learning Outcomes

Students will demonstrate...

1. The ability to identify and apply the ways rhetoric and writing studies creates knowledge, solves problems, and/or generates meaningful pedagogies.
2. Informed research practices related to the major ideas and movements of rhetoric and writing studies.
3. An understanding of how differences in language and everyday lived realities are intellectually generative and fundamental to contemporary ethical practices.

Required Courses

- MENG 6130 - Theories of Rhetoric and Writing Studies **Credits: (3)**
- MENG 6140 - Foundations of Professional and Technical Writing **Credits: (3)**
- MENG 6822 - Teaching College Writing **Credits: (2)**
- MENG 6823 - Teaching Practicum **Credits: (1)**

Elective Courses

Choose one (1) of the following courses.

- MENG 6110 - Writing for Teachers **Credits: (3)**
- MENG 6330 - Literary and Rhetorical Stylistics **Credits: (3)**
- MENG 6730 - Prose Forms and Crafts **Credits: (3)**
- MENG 6150 - Grant Writing **Credits: (3)**
- MENG 6230 - Wasatch Range Writing Project Summer Institute **Credits: (1-6)**
- MENG 6231 - Wasatch Range Writing Project Advanced Institute **Credits: (1-6)**

Master of Arts

Master of Arts in English (MA)

Areas of Emphasis

Select one of the following areas of emphasis:

- Master of Arts in English (MA), Creative Writing Emphasis
- Master of Arts in English (MA), Literature Emphasis
- Master of Arts in English (MA), English Education Emphasis
- Master of Arts in English (MA), English Studies Emphasis

Master of Arts in English (MA), Creative Writing Emphasis

- **Program Code:** 3056MENG with an emphasis in Creative Writing (3110), Literature (3111), English Education (3119) or English Studies (3125)
- **CIPC:** Master of English (230101), Creative Writing (231302), Literature (231401), English Education (131305) or English Studies (230101)

Admission Requirements

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)
- Submission of writing sample (6-8 pages)
- Transcripts from all institutions of higher education attended
- Three letters of recommendation from educational or professional references
- Interview with the program director or option coordinator

Additional Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 108 overall, or an IELTS score of 7.5 OR provide equivalent demonstration of language proficiency as established through the Weber State International Student and Scholar Center. The score may not be more than two years old.

Students with bachelor's degrees from institutions outside the United States will be required to submit professional transcript evaluations.

Transfer Credits

- Transfer credit must be approved by the program director and cannot exceed 11 credit hours. Transfer classes must be at appropriate levels and fulfill the objectives of the Master of Arts in English degree at WSU. No courses for which credit was used to fulfill requirements of another degree may be used toward the Master of Arts in English degree.

Obsolete Credits

- Credit earned more than ten (10) years earlier than the proposed date of graduation will not be accepted for the MA degree unless approved by the program director.

Graduation Requirements

- Credit hour requirements are determined within the option. A minimum of 24 credit hours at the 6000-level and a minimum of 33 total credit hours are required in the program. Students must complete all requirements in one of the emphasis options.
- Grades of B- or better in all courses counting toward the degree.
- Students with a BS degree must show foreign language competency either by completing six hours of a foreign language class with a grade of C (or better) or by passing a prescribed foreign language reading test.
- Students not completing a thesis will be required to submit a portfolio of their work to the program for assessment purposes.

Time for Degree Completion

- MENG students must receive approval from the program director to register for more than nine (9) credit hours in a semester.
- MENG students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this time limit may submit a letter of appeal to the program director to request an extension.
- Students who fail to enroll in program classes for three consecutive semesters (not including summers) must apply for readmission to the program.
- In order to ensure timely progress through the program, students are encouraged to consult with an advisor at least once a year.

Program Learning Outcomes

- Students will demonstrate...
 1. The ability to gather, analyze, and communicate information and insights critically.
 2. The ability to closely read and analyze texts within historical contexts and critical frameworks.
 3. A developed and honed voice, as evident in polished creative works.
 4. An awareness of their own aesthetic practices in the continuum of literary traditions and genres.
 5. Sophisticated revision and editing tactics

Master of Arts in English (MA)

Course Requirements for Master of Arts in English

All MENG students will be required to complete the Core Requirements as part of their degree. In addition to the Core, a student needs to complete one of the emphasis areas.

Core Requirements

Core Research Methods

Required in the first full semester (Fall/Spring) of enrollment.

- MENG 6010 - Introduction to Graduate Studies **Credits: (3)**

Core Literary Studies

Select one course from the following:

(Note: These courses may be repeated for credit with different content).

- MENG 6510 - Seminar in Eminent Writers: **Credits: (2-3)**
- MENG 6240 - Seminar in American Literature **Credits: (3)**
- MENG 6250 - Seminar in British Literature **Credits: (3)**
- MENG 6260 - Seminar in World Literature **Credits: (3)**

Creative Writing Emphasis Requirements

Forms and Crafts

Select one course from the following options (3 credit hours):

- MENG 6730 - Prose Forms and Crafts **Credits: (3)**
- MENG 6731 - Verse Forms and Craft **Credits: (3)**

Creative Writing Workshops

Select two courses from the following repeatable seminars (6 credit hours):

- MENG 6740 - Creative Nonfiction Writing **Credits: (3)**
- MENG 6750 - Fiction Writing **Credits: (3)**
- MENG 6760 - Poetry Writing **Credits: (3)**
- MENG 6770 - Screenwriting **Credits: (3)**

Thesis Option (3-6 credit hours)

Students interested in pursuing further study after the MA are encouraged to complete a thesis. The semester before the thesis, students are required to submit a detailed proposal with approval from a faculty thesis committee. This proposal must demonstrate an original contribution to the field that approaches publication quality. Thesis proposals must indicate workload consistent with a 3-6 credit hour graduate course.

- MENG 6950 - Creative Writing Thesis: Fiction, Nonfiction, Poetry **Credits: (1-6)**

Electives

Elective courses must be taken to fulfill the remaining credit hours to achieve the minimum 33 credit hours required to graduate. This will be 15 credits for students who choose the Thesis Option, and 18 credits for students who opt not to complete a thesis. Any MENG course will count as an elective, and graduate-level courses from other programs may be counted upon consultation with the program director.

Master of Arts in English (MA), English Education Emphasis

- **Program Code:** 3056MENG with an emphasis in Creative Writing (3110), Literature (3111), English Education (3119) or English Studies (3125)
- **CIPC:** Master of English (230101), Creative Writing (231302), Literature (231401), English Education (131305) or English Studies (230101)

Admission Requirements

Admission to the MA program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation. Applicants must complete an online application. Criteria for acceptance into the program include: Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred) Submission of writing sample (6-8 pages) Transcripts from all institutions of higher education attended Three letters of recommendation from educational or professional references Interview with the program director or option coordinator

Additional Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 108 overall, or an IELTS score of 7.5 OR provide equivalent demonstration of language proficiency as established through the Weber State International Student and Scholar Center. The score may not be more than two years old.

Students with bachelor's degrees from institutions outside the United States will be required to submit professional transcript evaluations.

Transfer Credits

Transfer credit must be approved by the program director and cannot exceed 11 credit hours. Transfer classes must be at appropriate levels and fulfill the objectives of the Master of Arts in English degree at WSU. No courses for which credit was used to fulfill requirements of another degree may be used toward the Master of Arts in English degree.

Obsolete Credits

Credit earned more than ten (10) years earlier than the proposed date of graduation will not be accepted for the MA degree unless approved by the program director.

Graduation Requirements

Credit hour requirements are determined within the option. A minimum of 24 credit hours at the 6000-level and a minimum of 33 total credit hours are required in the program. Students must complete all requirements in one of the options. Grades of B- or better in all courses counting toward the degree. Students with a BS degree must show foreign language competency either by completing six hours of a foreign language class with a grade of C (or better) or by passing a prescribed foreign language reading test. Students not completing a thesis will be required to submit a portfolio of their work to the program for assessment purposes.

Time for Degree Completion

MENG students must receive approval from the program director to register for more than nine (9) credit hours in a semester. MENG students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this time limit may submit a letter of appeal to the program director to request an extension. Students who fail to enroll in program classes for three consecutive semesters (not including summers) must apply for readmission to the

program. In order to ensure timely progress through the program, students are encouraged to consult with an advisor at least once a year.

Program Learning Outcomes

Students will demonstrate...

1. The ability to gather, analyze, and communicate information and insights critically.
2. The ability to closely read and analyze texts within historical contexts and critical frameworks.
3. The ability to apply theory and research to pragmatic and practical pedagogical processes.
4. A commitment to equitable pedagogical practices articulated through a research-based rationale consistent with Utah State Core Standards, the ELA Endorsement Competencies, and the Utah Effective Teaching Standards.

Course Requirements for Master of Arts in English

All MENG students will be required to complete the Core Requirements as part of their degree. In addition to the Core, a student needs to complete one of the emphasis areas.

Core Requirements

Core Research Methods

Required in the first full semester (Fall/Spring) of enrollment.

- MENG 6010 - Introduction to Graduate Studies **Credits: (3)**

Core Literary Studies

Select one course from the following: (Note: These courses may be repeated for credit with different content).

- MENG 6510 - Seminar in Eminent Writers: **Credits: (2-3)**
- MENG 6240 - Seminar in American Literature **Credits: (3)**
- MENG 6250 - Seminar in British Literature **Credits: (3)**
- MENG 6260 - Seminar in World Literature **Credits: (3)**

English Education Emphasis Requirements

Creating Texts

Select one course from the following:

- MENG 6230 - Wasatch Range Writing Project Summer Institute **Credits: (1-6)**
- MENG 6231 - Wasatch Range Writing Project Advanced Institute **Credits: (1-6)**
- MENG 6822 - Teaching College Writing **Credits: (2)**
- MENG 6823 - Teaching Practicum **Credits: (1)**
- MENG 6110 - Writing for Teachers **Credits: (3)**

Adolescent Literacy Development

- MENG 6120 - Young Adult Literature **Credits: (3)**

Language and Sociolinguistics

Select one course from the following:

- MENG 6310 - Language and Sociolinguistics for Teachers **Credits: (3)**
- MENG 6210 - Teaching Literature, Literacy, and Language in the Secondary Schools **Credits: (3)**

Selecting and Teaching Texts, Speaking and Listening

- MENG 6100 - Literary Curriculum Design **Credits: (3)**

Thesis Option (3-6 credit hours)

Students interested in pursuing further study after the MA are encouraged to complete a thesis. The semester before the thesis, students are required to submit a detailed proposal with approval from a faculty thesis committee. This proposal must demonstrate an original contribution to the field that approaches publication quality. Thesis proposals must indicate workload consistent with a 3-6 credit hour graduate course.

- MENG 6940 - Masters Project **Credits: (2-6)**

Electives

Elective courses must be taken to fulfill the remaining credit hours to achieve the minimum 33 credit hours required to graduate. Students pursuing the Thesis Option will take an additional 15 credits, and students choosing the not to pursue a thesis will take an additional 18 credits. Any MENG course will count as an elective, and graduate-level courses from other programs may be counted upon consultation with the program director.

Students pursuing the English Education emphasis who are seeking ELA Endorsement and do NOT have undergraduate credits which will fulfill USBE competency standards must take the following elective courses... MENG 6240/50 - Seminar in American/British Literature OR MENG 6260 - Seminar in World Literature (this must NOT be the same course that fulfilled the Core Literature Seminar requirement). An additional writing course that was NOT taken to fulfill the Creating Texts requirement (this could be a course from that list, or it could be any of our Creative Writing workshops: MENG 6730 - Creative Nonfiction Writing, MENG 6740 - Fiction Writing, MENG 6750 - Poetry Writing, MENG 6770 - Screenwriting). Students pursuing the English Education emphasis who are seeking ELA Endorsement should consider the following preferred elective for teaching multi-language learners... MENG 6410 - Strategies and Methodology of Teaching ESL/Bilingual Students

Students pursuing the English Education emphasis who are seeking teaching licensure from the State of Utah should enroll in the Post-Baccalaureate Certificate of Teaching through the Moyes College of Education. You will need to apply for that program separately from the MA program, but the courses taken in that program will count as electives toward your degree.

Master of Arts in English (MA), English Studies Emphasis

- **Program Code:** 3056MENG with an emphasis in Creative Writing (3110), Literature (3111), English Education (3119) or English Studies (3125)
- **CIPC:** Master of English (230101), Creative Writing (231302), Literature (231401), English Education (131305) or English Studies (230101)

Admission Requirements

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)
- Submission of writing sample (6-8 pages)
- Transcripts from all institutions of higher education attended
- Three letters of recommendation from educational or professional references
- Interview with the program director or option coordinator

Additional Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 108 overall, or an IELTS score of 7.5 OR provide equivalent demonstration of language proficiency as established through the Weber State International Student and Scholar Center. The score may not be more than two years old.

Transfer Credits

- Transfer credit must be approved by the program director and cannot exceed 11 credit hours. Transfer classes must be at appropriate levels and fulfill the objectives of the Master of Arts in English degree at WSU. No courses for which credit was used to fulfill requirements of another degree may be used toward the Master of Arts in English degree.

Obsolete Credits

- Credit earned more than ten (10) years earlier than the proposed date of graduation will not be accepted for the MA degree unless approved by the program director.

Graduation Requirements

- Credit hour requirements are determined within the option. A minimum of 24 credit hours at the 6000-level and a minimum of 33 total credit hours are required in the program. Students must complete all requirements in one of the options.
- Grades of B- or better in all courses counting toward the degree.
- Students with a BS degree must show foreign language competency either by completing six hours of a foreign language class with a grade of C (or better) or by passing a prescribed foreign language reading test.
- Students not completing a thesis will be required to submit a portfolio of their work to the program for assessment purposes.

Time for Degree Completion

- MENG students must receive approval from the program director to register for more than nine (9) credit hours in a semester.

- MENG students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this time limit may submit a letter of appeal to the program director to request an extension.
- Students who fail to enroll in program classes for three consecutive semesters (not including summers) must apply for readmission to the program.
- In order to ensure timely progress through the program, students are encouraged to consult with an advisor at least once a year.

Program Learning Outcomes

- Students will demonstrate the ability to...
- Gather, analyze, and communicate information and insights critically.
- Closely read and analyze texts within historical contexts and critical frameworks.
- Apply current scholarship and practice in their own writings.
- Employ discipline-specific terminology and conventions in their written, oral, and/or multimodal presentations.

Course Requirements for Master of Arts in English

All MENG students will be required to complete the Core Requirements as part of their degree. In addition to the Core, a student needs to complete one of the emphasis areas.

Core Requirements (6 credits)

Core Research Methods

Required in the first full semester (Summer) of enrollment.

- MENG 6010 - Introduction to Graduate Studies **Credits: (3)**

Core Literary Studies

Select one course from the following:

(Note: These courses may be repeated for credit with different content).

- MENG 6510 - Seminar in Eminent Writers: **Credits: (2-3)**
- MENG 6240 - Seminar in American Literature **Credits: (3)**
- MENG 6250 - Seminar in British Literature **Credits: (3)**
- MENG 6260 - Seminar in World Literature **Credits: (3)**

English Studies Emphasis Requirements

Seminars in Literature (3 credits)

Select one (1) course from the following list (3 credit hours):

(Note: Students who take one of these courses to fulfill the Core Literary Studies requirement must select a different course to fulfill this requirement).

- MENG 6240 - Seminar in American Literature **Credits: (3)**
- MENG 6250 - Seminar in British Literature **Credits: (3)**
- MENG 6260 - Seminar in World Literature **Credits: (3)**
- MENG 6510 - Seminar in Eminent Writers: **Credits: (2-3)**
- MENG 6710 - Variable Topics **Credits: (2-3)**

Rhetoric and Writing Studies (3 credits)

Select one (1) course from the following list (3 credit hours):

- MENG 6130 - Theories of Rhetoric and Writing Studies **Credits: (3)**
- MENG 6140 - Foundations of Professional and Technical Writing **Credits: (3)**
- MENG 6150 - Grant Writing **Credits: (3)**
- MENG 6330 - Literary and Rhetorical Stylistics **Credits: (3)**

Teaching English (3 credits)

Select one (1) course from the following list (3 credit hours):

- MENG 6120 - Young Adult Literature **Credits: (3)**
- MENG 6410 - Strategies and Methodology of Teaching ESL/Bilingual **Credits: (3)**
- MENG 6450 - ESL/Bilingual Assessment: Theory, Methods, and Practices **Credits: (3)**

Creative Writing (3 Credits)

Select one (1) course from the following list (3 credit hours):

- MENG 6730 - Prose Forms and Crafts **Credits: (3)**
- MENG 6750 - Fiction Writing **Credits: (3)**

Thesis/Capstone Project (3 credits)

Students on this emphasis must complete a thesis or professional project using one of the following courses (3 credit hours):

- MENG 6940 - Masters Project **Credits: (2-6)**
- MENG 6950 - Creative Writing Thesis: Fiction, Nonfiction, Poetry **Credits: (1-6)**
- MENG 6960 - Thesis **Credits: (1-6)**

Electives (12 credits)

Elective courses may be taken to fulfill the minimum 33 credit hours required to graduate. Electives can include any 6000-level course, in MENG or another discipline, and courses can be taken a second time for credit as long as they have a different area of focus.

Master of Arts in English (MA), Literature Emphasis

- **Program Code:** 3056MENG with an emphasis in Creative Writing (3110), Literature (3111), English Education (3119) or English Studies (3125)
- **CIPC:** Master of English (230101), Creative Writing (231302), Literature (231401), English Education (131305) or English Studies (230101)

Admission Requirements

Admission to the MENG program requires a bachelor's degree in English. Students with less English preparation may petition for conditional admission which may require that they take additional classes at the 5000-level for full matriculation.

Applicants must complete an online application. Criteria for acceptance into the program include:

- Undergraduate degree in English with a minimum GPA of 3.25 in the major (preferred)
- Submission of writing sample (6-8 pages)
- Transcripts from all institutions of higher education attended
- Three letters of recommendation from educational or professional references
- Interview with the program director or option coordinator

Additional Requirements for International Students

All international students and any applicants educated outside the United States must demonstrate proficiency in English. Those whose native language is not English must submit an official score from the Test of English as a Foreign Language (TOEFL) of 108 overall, or an IELTS score of 7.5 OR provide equivalent demonstration of language proficiency as established through the Weber State International Student and Scholar Center. The score may not be more than two years old.

Students with bachelor's degrees from institutions outside the United States will be required to submit professional transcript evaluations.

Transfer Credits

- Transfer credit must be approved by the program director and cannot exceed 11 credit hours. Transfer classes must be at appropriate levels and fulfill the objectives of the Master of Arts in English degree at WSU. No courses for which credit was used to fulfill requirements of another degree may be used toward the Master of Arts in English degree.

Obsolete Credits

- Credit earned more than ten (10) years earlier than the proposed date of graduation will not be accepted for the MA degree unless approved by the program director.

Graduation Requirements

- Credit hour requirements are determined within the option. A minimum of 24 credit hours at the 6000-level and a minimum of 33 total credit hours are required in the program. Students must complete all requirements in one of the options.
- Grades of B- or better in all courses counting toward the degree.
- Students with a BS degree must show foreign language competency either by completing six hours of a foreign language class with a grade of C (or better) or by passing a prescribed foreign language reading test.

- Students not completing a thesis will be required to submit a portfolio of their work to the program for assessment purposes.

Time for Degree Completion

- MENG students must receive approval from the program director to register for more than nine (9) credit hours in a semester.
- MENG students have a maximum of six calendar years to complete their degree requirements, starting from the first semester during which the student has registered for and begun taking classes. Students who exceed this time limit may submit a letter of appeal to the program director to request an extension.
- Students who fail to enroll in program classes for three consecutive semesters (not including summers) must apply for readmission to the program.
- In order to ensure timely progress through the program, students are encouraged to consult with an advisor at least once a year.

Program Learning Outcomes

- Students will demonstrate the ability to...
- 1. Gather, analyze, and communicate information and insights critically.
- 2. Closely read and analyze texts within historical contexts and critical frameworks.
- 3. Apply current scholarship, practices, and/or theoretical perspectives in their own writings.
- 4. Use discipline-specific terminology and conventions in their written, oral, and/or multimodal presentations.

Master of Arts in English (MA)

Course Requirements for Master of Arts in English

All MENG students will be required to complete the Core Requirements as part of their degree. In addition to the Core, a student needs to complete one of the emphasis areas.

Core Requirements

Core Research Methods

Required in the first full semester (Fall/Spring) of enrollment.

- MENG 6010 - Introduction to Graduate Studies **Credits: (3)**

Core Literary Studies

Select one course from the following:

(Note: These courses may be repeated for credit with different content).

- MENG 6510 - Seminar in Eminent Writers: **Credits: (2-3)**
- MENG 6240 - Seminar in American Literature **Credits: (3)**
- MENG 6250 - Seminar in British Literature **Credits: (3)**
- MENG 6260 - Seminar in World Literature **Credits: (3)**

Literature Emphasis Requirements

Literature Theory and Criticism

- MENG 6030 - Studies in Literary Theory and Criticism **Credits: (3)**

Seminars in Literature

Complete three courses from the following repeatable seminars (9 credit hours):

(Note: Students who take one of these courses to fulfill the Core Literary Studies requirement will also fulfill the requirement in this area).

- MENG 6240 - Seminar in American Literature **Credits: (3)**
- MENG 6250 - Seminar in British Literature **Credits: (3)**
- MENG 6260 - Seminar in World Literature **Credits: (3)**

Thesis Option (3-6)

Students interested in pursuing further study after the MA are encouraged to complete a thesis. The semester before the thesis, students are required to submit a detailed proposal with approval from a faculty thesis committee. This proposal must demonstrate an original contribution to the field that approaches publication quality. Thesis proposals must indicate workload consistent with a 3-6 credit hour graduate course.

- MENG 6960 - Thesis **Credits: (1-6)**

Electives

Elective courses must be taken to fulfill the remaining credit hours to achieve the minimum 33 credit hours required to graduate. Students pursuing the Thesis Option will typically have an additional 12 credits to complete, and students pursuing the non-thesis option will typically have an additional 15 credits to complete, though any student who uses a 62XX literature seminar to fulfill the Core Literature requirement will have an additional 3 elective credits to complete. Any MENG course will count as an elective, and graduate-level courses from other programs may be counted upon consultation with the program director.

Master of Professional Communication Program

Program Director: Dr. Sarah Steimel, 801-626-6535

Telephone Contact: Jennifer Greenlee 801-626-7499

E-mail Contact: mpc@weber.edu

Location: Elizabeth Hall, north end of third floor

Department Chair: Dr. Anne Bialowas

The Master of Professional Communication (MPC) degree emphasizes advanced communication knowledge and skills necessary to produce effective leaders, managers, and organizational members in for-profit, government or non-profit organizations. Students develop a plan of study tailored to their personal career goals through a combination of required and elective courses within the field of communication and in related fields such as business, education, and health professions. Courses in the two-year program blend classroom instruction with online educational tools to accommodate the educational needs of working professionals.

Master of Professional Communication

Master of Professional Communication (MPC)

- **Program Code:** 3066MPC
- **CIPC:** 090101

Admission Requirements

Applicants for admission into the WSU Master of Professional Communication program must possess a bachelor's degree from an accredited institution or be in the final stage of completing the degree and have a minimum GPA of 3.0. Applicants must have completed a bachelor's degree before beginning the Master of Professional Communication. Each applicant is evaluated holistically based on program admission requirements. Ideal applicants will present a strong overall academic record, positive letters of recommendation, and/or a record of professional accomplishment. An ideal class will consist of students with a wide variety of backgrounds.

Applicants must complete an online application, including the following submissions:

- Two essay question responses
- Current resume
- Official transcripts from every institution of higher education attended (transcript must show that the bachelor's degree has been completed).
- Three letters of academic and/or professional recommendation

Additional Admission Requirements for International Students

Applicants who are not United States (U.S.) citizens or have not received permanent residency from the U.S. Immigration and Naturalization Service are considered International Students.

All international students must demonstrate proficiency in English. However, U.S. citizenship or permanent residency does not automatically exempt students from taking an English proficiency test if their first language is not English. Students whose bachelor's degree (or higher) was awarded from an institution whose primary language of instruction was English may be exempt from taking an English Language proficiency test. In order to fulfill this requirement, students must submit an official score, not more than two years old, from one of the following tests:

- TOEFL (internet-based) 75 with a minimum of a 17 in each category
- IELTS: 6.5 overall with a minimum score of 6.0 on each section.
- DUOLINGO English Test: 105 or above

All international students must also provide an official course-by-course transcript evaluation using a University-approved foreign credentials evaluation service. This must be done for all college degrees and coursework completed outside the United States. The official transcripts and evaluation must be sent by the evaluation service and must be sent to the program prior to registration.

Transfer Credit

Related graduate-level courses from other universities may be accepted with permission of the MPC program director.

Transfer classes must be at an appropriate level and fulfill the objectives of the MPC and cannot exceed 12 hours. No courses for which credit was used to fulfill requirements of another graduate degree may be used toward the MPC degree.

Graduation Requirements

- **Grade Requirements:** For classes to count toward the MPC degree, courses must be completed with a grade of a B- or higher. Students must also maintain an overall GPA of at least 3.0.
- 33 credit hours, at least 30 at the 6000-level.
- Complete all Course Requirements.

Time for Degree Completion

MPC students have a maximum of six (6) calendar years to complete their degree requirements, starting from the first semester during which the student has registered and begun taking classes. Students who exceed this requirement may submit a letter of appeal to the MPC director to request that this requirement be waived.

In order to ensure timely progress through the program, students are encouraged to consult with the MPC director at least once per year. Students must receive approval from the program director to register for more than nine (9) credit hours in a semester.

Students on the thesis/project track who, for any reason, do not finish their thesis or project or program of courses within the two-year framework suggested in this program must be registered for at least one (1) graduate credit during the semester of the final thesis defense or the last semester of coursework required on the student's program of study.

Program Learning Outcomes

- Write and edit at a level commensurate with a communication leader or manager in applied communication contexts.
- Present information orally and in visual form at a level commensurate with a communication leader or manager in an applied communication context.
- Demonstrate critical thinking in applied communication contexts.
- Conduct academic or applied research in communication contexts, report findings clearly and accurately, and interpret the meaning of research data.
- Demonstrate knowledge in one or more cognate areas - strategic organizational leadership, interpersonal communication and team building, new media.

Course Requirements for MPC

Foundational Courses (9 credit hours)

- MPC 6010 - Introduction to Graduate Study and Communication Theory **Credits: (3)**
- MPC 6150 - Writing for Professional Communicators **Credits: (3)**
- MPC 6210 - Presentational Speaking in the Workplace **Credits: (3)**

Research Methods Requirement (3 credit hours)

Choose one of the two research courses in consultation with the MPC program director.

- MPC 6700 - Qualitative Communication Research & Analysis **Credits: (3)**
- MPC 6710 - Communication Survey Design and Analysis **Credits: (3)**

Core Courses (12 credit hours)

Choose four of the six courses in consultation with the MPC program director.

- MPC 6100 - Team Building and Facilitation **Credits: (3)**
- MPC 6300 - New Media in Professional Communication **Credits: (3)**
- MPC 6350 - Visual Communication in the Workplace **Credits: (3)**
- MPC 6400 - Leadership Communication **Credits: (3)**
- MPC 6450 - Advanced Organizational Communication **Credits: (3)**
- MPC 6600 - Strategic Communication **Credits: (3)**

Electives (9 credit hours)

Students may choose the thesis track, project track, OR the coursework track.

Thesis

- MPC 6900 - Thesis/Project I **Credits: (3)**
- MPC 6950 - Thesis/Project II **Credits: (3)**
- 3 credit hours of master's level electives, chosen in consultation with the MPC program director.

Project Track

- MPC 6900 - Thesis/Project I **Credits: (3)**
- 6 credit hours of master's level electives, chosen in consultation with the MPC program director.

Coursework Track

Choose nine credit hours of electives in consultation with the MPC program director and submit a portfolio as evidence of this work.

Exit Portfolio Requirement: The program requires all Coursework students to complete and submit a portfolio featuring their work from their three elective courses and a synthesis paper to complete this requirement.

- At least 6 credit hours must come from elective courses at the 6000 level.
- No more than 3 credit hours of dual designated MPC courses at the 5000 level.

Elective Master's-level Courses

6000-level Electives

- MPC 6250 - Interviewing **Credits: (3)**
- MPC 6500 - Topics in Professional Communication **Credits: (3)**
- MPC 6620 - Conflict Resolution and Mediation **Credits: (3)**
- MPC 6840 - Data Visualization & Storytelling **Credits: (3)**

Note: Students may also choose 6000-level courses from the list of core required courses above to count as electives.

Elective Interdisciplinary Courses

Students may select no more than two courses (or credit hours, whichever is reached first) from the following WSU master's program courses (with the permission of the appropriate MPC graduate program advisor and/or fulfillment of prerequisite courses). Interdisciplinary electives must be approved by the MPC program director.

- MBA 6140 - Marketing Management **Credits: (3)**
- MBA 6170 - Corporate Communications **Credits: (3)**
- MBA 6530 - E-Business **Credits: (3)**
- MBA 6540 - Negotiations **Credits: (3)**
- EDUC 6110 - Introduction to Classroom Management **Credits: (3)**
- MED 6120 - Advanced Classroom Management **Credits: (3)**
- MENG 6730 - Prose Forms and Crafts **Credits: (3)**
- MENG 6740 - Creative Nonfiction Writing **Credits: (3)**
- MBA 6110 - Fundamentals of Ethical Leadership **Credits: (3)**
- MBA 6120 - Organizational Behavior **Credits: (3)**
- MBA 6440 - Strategic Leadership **Credits: (3)**
- MBA 6450 - Leadership Through People Skills **Credits: (3)**
- MBA 6580 - Project Management **Credits: (3)**
- MBA 6850 - Business Development and Entrepreneurship **Credits: (3)**
- MED 6220 - Current Problems in Education **Credits: (3)**
- MED 6230 - Instructional Technology for Teachers **Credits: (3)**
- MED 6380 - Values Education **Credits: (3)**

Dual-Designation or "Swing" Courses

The following dual designation courses are designed to fill gaps in the undergraduate preparation of students who wish to command the broadest understanding of professional communication. While the courses are accessible to students who have not taken the corresponding undergraduate courses, the graduate courses differ from undergraduate counterparts in demanding greater depth and breadth in all major aspects of each course such as reading, writing, presentation, projects, etc. Of the 9 elective credit hours in the Master of Professional Communication degree, only 3 may be 5000-level courses and must be approved by the MPC program director before registration.

- MPC 5080G - Intercultural Communication **Credits: (3)**
- MPC 5090G - Gender and Communication **Credits: (3)**
- MPC 5220G - Editing **Credits: (3)**
- MPC 5400G - Public Relations Media and Campaigns **Credits: (3)**
- MPC 5500G - Topics in Communication **Credits: (1-3)**
- MPC 5650G - Communication Law **Credits: (3)**
- MPC 5820G - Persuasive Communication **Credits: (3)**
- MPC 5850G - Advertising **Credits: (3)**

Telitha E. Lindquist College of Arts & Humanities Interdisciplinary Programs

Associate of Arts

Workplace Communication and Writing (AA)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

By pursuing coursework in English and Communication, students may earn an Associate of Arts or Associate of Science degree in Workplace Communication and Writing. Students anticipating continuing on for a bachelor's degree in English are advised to pursue the Associate of Arts degree.

- **Program Prerequisite:** Not required.
- **Grade Requirements:** A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.
- **Credit Hour Requirements:** A total of 61 credit hours is required for graduation; a minimum of 24 of these must be from the programs detailed below.
- **Program Code:** 3078AA
- **CIPC:** 090101

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts and Humanities at least annually for course and program advisement. Call 801-626-6631 or email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements

There are no special admission or application requirements for this program.

General Education

Refer to Degree Requirements for Associate of Arts requirements and for Associate of Science Requirements. See Foreign Language Courses Required below to fulfill the Associate of Arts degree.

Consult with a college advisor for detailed General Education guidelines.

General Studies Requirement

- Humanities HU (3 credits): Students must take:
 - COMM 1020 HU - Principles of Public Speaking or
 - COMM 2110 HU CEL - Interpersonal and Small Group Communication
- Humanities HU or Creative Arts CA (3 credits): Students must take one ENGL class from the following list:
 - ENGL 2200 HU/CC - Introduction to Literature
 - ENGL 2220 HU/CC - Introduction to Fiction
 - ENGL 2230 HU/CC - Introduction to Drama
 - ENGL 2240 HU/CC - Introduction to Poetry
 - ENGL 2250 CA/CC - CW: Introduction to Creative Writing
 - ENGL 2260 CA/CC - CW: Introduction to Writing Short Fiction
 - ENGL 2270 CA/CC - CW: Introduction to Writing Poetry
 - ENGL 2710 HU/CC - Perspectives on Women's Literature
 - ENGL 2750 HU - Topics and Ideas in the Humanities

Required Courses: 24 credit hours from the following core areas:

Writing: 2 courses

New Technology & Digital Media: 1 course

Working in Organizations: 1 course

Workplace Skills: 1 course

Professionalizing Experience: 1 course

Foreign Language: 2 courses

Writing (Select TWO / for a total of 6 credits: one from Communication, one from English)

- COMM 1130 - Media Writing **Credits: (3)** OR
- COMM 1140 - Writing for Workplace Communication **Credits: (3)** OR
- WSU 2350 QL/HU - Perspectives in Quantitative Literacy and Humanities **Credits: (3-5)** (Writing with Numbers)
- ENGL 2100 - Technical Writing **Credits: (3)** Or
- ENGL 2120 - Introduction to Writing and Document Design **Credits: (3)**

New Technology and Digital Media (Select ONE / for a total of 3 credits)

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- ENGL 2130 - Media and Technology in Texts **Credits: (3)**

Working in Organizations (Select ONE / for a total of 3 credits)

- COMM 2550 - Communication in Professional Settings **Credits: (3)**
- ENGL 2150 - Gender and Culture in Workplace Writing **Credits: (3)**

Workplace Skills (Select ONE / for a total of 3 credits)

- COMM 1020 HU - Principles of Public Speaking **Credits: (3)** OR
- COMM 2110 HU CEL - Interpersonal and Small Group Communication **Credits: (3)** (whichever not counted toward General Studies requirement)
- COMM 1270 - Analysis of Argument **Credits: (3)**
- COMM 1500 - Introduction to Mass Communication **Credits: (3)** OR

- COMM 2010 HU - Mass Media and Society **Credits: (3)**
- COMM 1560 - Audio Production and Performance **Credits: (3)**
- ENGL 2140 - Introduction to Professional and Technical Editing **Credits: (3)**
- ENGL 2160 - Introduction to Web-Based Technical Writing **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**

Professionalizing Experience (Select ONE / for a total of 3 credits)

- COMM 2890 - Cooperative Work Experience for The Signpost **Credits: (1-3)**
- COMM 2730 - Digital Radio Production and Broadcast **Credits: (1-3)**
- ENGL 2890 - Cooperative Work Experience **Credits: (1-6)**
- ENGL 2999 INT - Capstone in Workplace Communication and Writing **Credits: (3)**
- COMM 2999 - Capstone in Workplace Communication and Writing **Credits: (3)**

Foreign Language: (TWO courses / total of 6 credits)

Complete two semesters of one of the following languages: French, German, Spanish, American Sign Language, Chinese, or Japanese.

Program Learning Outcomes

Writing: Students will demonstrate writing and editing skills appropriate for the workforce.

New Technologies and Digital Media: Students will demonstrate the principles and practices of new technologies and digital media.

Working in Organizations: Students will demonstrate knowledge of how organizations work.

Workplace Skills: Students will demonstrate the ability to effectively communicate their understanding of workplace skills in written, oral or visual format.

Internships: Students will apply workplace skills in a capstone class.

Associate of Science

Workplace Communication and Writing (AS)

This program has been suspended pending formal discontinuance and is no longer accepting new students.

By pursuing coursework in English and Communication, students may earn an Associate of Arts or Associate of Science degree in Workplace Communication and Writing. Students anticipating continuing on for a bachelor's degree in English are advised to pursue the Associate of Arts degree.

- **Program Prerequisite:** Not required.
- **Grade Requirements:** A 2.0 or better in all courses required for this degree in addition to an overall GPA of 2.00 (C) or higher.

- **Credit Hour Requirements:** A total of 61 credit hours is required for graduation; a minimum of 24 of these must be from the program detailed below.
- **Program Code:** 3078AS
- **CIPC:** 090101

Advisement

Students are encouraged to meet with the academic advisor for the College of Arts and Humanities at least annually for course and program advisement. Call 801-626-6631 or email cahadvisor@weber.edu for more information or to schedule an appointment.

Admission Requirements

Declare your program of study (see Enrollment Services and Information).

General Education

Refer to Degree Requirements of this catalog for Associate of Science and Associate of Arts requirements.

General Studies Requirement

- Humanities HU (3 credits): Students must take:
 - COMM 1020 HU - Principles of Public Speaking or
 - COMM 2110 HU CEL - Interpersonal and Small Group Communication
- Humanities HU or Creative Arts CA (3 credits): Students must take one ENGL class from the following list:

Program Learning Outcomes

Writing: Students will demonstrate writing and editing skills appropriate for the workforce.

New Technologies and Digital Media: Students will demonstrate the principles and practices of new technologies and digital media.

Working in Organizations: Students will demonstrate knowledge of how organizations work.

Workplace Skills: Students will demonstrate the ability to effectively communicate their understanding of workplace skills in written, oral or visual format.

Professionalizing Experience: Students will apply workplace skills in a capstone class.

Institutional Certificate

Environmental Science Filmmaking Certificate of Proficiency

The 18-credit hour certificate in Environmental Science Filmmaking provides opportunities for students interested in combining their love of science with a love of storytelling. Students will receive a background in science and in filmmaking that enables them to produce their own films.

- **Program Prerequisite:** None required. However, some of the individual course options have a prerequisite or corequisite, as shown below.
- **Grade Requirements:** A grade of 2.0 or better in all courses used toward the certificate.
- **Credit Hour Requirements:** 18 credit hours, apportioned as directed below.
- **Program:** 3121CP
- **CIPC:** 500601

Learning Outcomes

1. Introduce students to environmental issues from the perspective of science and introduce research principles.
2. Introduce students to the principles and practices of environmental filmmaking.
3. Produce students who can make films about environmental issues as told from the perspective of science.
4. Produce students with marketable skills sought by employers.

Filmmaking Courses (9 credits)

- FILM 2200 CA - Fundamentals of Film **Credits: (3)**
- FILM 2280 - Introduction to Film Production **Credits: (3)**
- FILM 2820 - Special Topics in Film Studies **Credits: (3)**

Science Courses (9 credits)

Students must take a minimum of 3 classes and a minimum of 9 credits. Courses taken for major and minor programs of study may also count toward the certificate.

- BTNY 1203 LS - Plant Biology **Credits: (3)**
- BTNY 1403 LS SUS - Principles of Environmental Science **Credits: (4)**

- BTNY 2413 - Introduction to Natural Resource Management **Credits: (3)**
- GEO 1060 PS - Environmental Geosciences **Credits: (3)**
- GEO 1110 PS - Dynamic Earth: Physical Geology **Credits: (3)**
- GEO 1115 - Physical Geology Lab **Credits: (1)**
- MICR 1353 LS - Microbes Rule the World - Power of Disease **Credits: (3)**
- MICR 2054 LS - Principles of Microbiology **Credits: (4)**
- MICR 3502 SUS - Environmental Health **Credits: (2)**
- PHYS 1040 PS - Elementary Astronomy **Credits: (3)**
- ZOOL 1020 LS - Human Biology **Credits: (3)**

Bachelor of Arts

Film Studies (BA)

- **Program Prerequisite:** Not required.
- **Minor:** Not required.
- **Grade Requirements:** A grade of "C" or better in courses required for the major (a grade of "C-" is not acceptable). Also refer to the general grade requirements for graduation.
- **Credit Hour Requirements:** A total of 120 credit hours are required for graduation. Of this total, 51 credit hours in the program are required. A total of 40 upper division credit hours is required by the university for graduation (courses numbered 3000 and above from any department).
- **Program Code:** 3085BA
- **CIPC:** 500602

Advisement

All Film Studies majors should meet with the program's director and an advisor in the College of Arts & Humanities advisors early in their course of study. Andrea Baltazar (Last initial A-M) can be reached at andreabaltazar@weber.edu or Benjamin Kruger-Robbins (Last initial N-Z) can be reached at bkrugerrobbins1@weber.edu or film@weber.edu. Students can also reach out to the Lindquist College Arts & Humanities Advising.

Admission Requirements

Declare your program of study (see Student Access and Success, Services and Information) with the college advisor. There are no special admission or application requirements.

General Education

Refer to Degree Requirements for Bachelor of Arts requirements. The following Film Studies courses will also fulfill 3 credit hours each of the General Education requirement in the Creative Arts (CA) and Humanities (HU) categories: FILM 2200 CA, THEA 1023 CA, THEA 1033 CA, COMM 2010 HU, COMM 2250 HU, ENGL 2210, ENGL 2230 HU/CC, and ENGL 2280 CA.

Language Courses Required to fulfill the BA

Film Studies majors must complete *Option 1*: Foreign Language (12 credit hours of a foreign language, refer to the Department of World Languages & Cultures section of this catalog for additional information on obtaining foreign language credit)

OR Option 2 - Foreign Language and Language Arts (6 credit hours of a foreign language and 6 credit hours of language arts). With this option students will fulfill the 6 credits of language arts by taking (ENGL 2295 - CW: Introduction to Screenwriting or COMM 3740 - Writing for Screen) and (ENGL 3290 - CW: Advanced Screenwriting or COMM 4740 - Advanced Writing for Screen). These language arts courses will **also** count toward major requirements (see below).

Program Learning Outcomes

Students are expected to be proficient in each of these areas upon graduation from the Film Studies Program:

- Create: Students will apply their technical and theoretical skills in producing films and creative works.
- Analyze: Students will apply interpretive methodologies to explore the social, ideological, and ethical values presented in media works.
- Collaborate: Students will work constructively to solve problems and collaborate in diverse teams to create impactful films.

Major Course Requirements for Film Studies BA Degree

Lower Division Required Core Courses (6 Credit Hours)

Students are required to take the required lower division courses listed.

- FILM 2200 CA - Fundamentals of Film **Credits: (3)**
or
- THEA 1023 CA - Introduction to Film **Credits: (3)**
or
- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- FILM 2280 - Introduction to Film Production **Credits: (3)**
or
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
or
- ART 2750 - Foundations of Video Art **Credits: (3)**

Upper Division Required Core Courses (12 Credit Hours)

Students are required to take the required upper division courses listed.

- FILM 3200 - History of Film **Credits: (3)**
- FILM 3500 - Advanced Film Theory and Criticism **Credits: (3)**
- COMM 3751 - Narrative Filmmaking **Credits: (3)**
or
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- FILM 4700 - Film Studies Capstone **Credits: (3)**

Film and Media Studies Courses (9 Credit Hours)

Choose 9 credit hours from the list of film and media studies courses below.

- FILM 2820 - Special Topics in Film Studies **Credits: (3)**
Can take up to 3 times; only 3 credits can count for Film & Media courses block
- FILM 3780 - Survey of Documentary Cinema **Credits: (3)**
- FILM 3820 - Advanced Special Topics-Variable **Credits: (3)**
Can take up to 3 times; only 3 credits can count for Film & Media courses block
- ARTH 3055 - Advanced Special Topics in Art History **Credits: (4)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- MUSC 1015 - Movie Music **Credits: (3)**
- WLC 3580 - Global Cinema **Credits: (3)**
- WLC 4580 - Special Topics in World Cinema **Credits: (3)**

Production Courses (9 Credit Hours)

Choose 9 credit hours from the list of production courses below.

- ENGL 2295 - CW: Introduction to Screenwriting **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
or
- ENGL 3380 - CW: Screenwriting Forms and Craft **Credits: (3)**
- ART 3250 - Experimental Filmmaking **Credits: (3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4751 - Advanced Narrative Filmmaking **Credits: (3)**
- COMM 4770 - Digital Documentary Filmmaking **Credits: (3)**
- FILM 3010 - Pre- To Post-Production **Credits: (3)**
- FILM 3280 - Directing for Film **Credits: (3)**
- FILM 3310 - Editing and Beyond **Credits: (3)**

Electives (15 Credit Hours)

Students can complete a minor approved by their academic advisor OR choose 15 Elective Credits from the list.

Suggested Minors: Screenwriting Minor, Sound Production& Recording Minor, Photography Minor, WLC Minor, Art History minor, Communication Minor Minor

NOTE: Classes taken to fill Film Major Requirements may not also be used to fill minor requirements

Lower Division Courses:

- ART 1120 - Design Concepts **Credits: (3)**
- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- ART 2750 - Foundations of Video Art **Credits: (3)**
or
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
- ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present **Credits: (4)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**

- ENGL 2295 - CW: Introduction to Screenwriting **Credits: (3)**
- FILM 2820 - Special Topics in Film Studies **Credits: (3)**
- MUSC 1015 - Movie Music **Credits: (3)**
- MUSC 1723 - Field Recording/Sound for Picture **Credits: (2)**
- **Upper Division Courses:**
- ART 3250 - Experimental Filmmaking **Credits: (3)**
- ART 3465 - Motion Design **Credits: (3)**
- ART 4550 - Advanced Photography: Lighting for Photo & Video **Credits: (3)**
- ARTH 3040 - Global Modernisms **Credits: (4)**
- ARTH 3050 - Contemporary Art **Credits: (4)**
- ARTH 3055 - Advanced Special Topics in Art History **Credits: (4)**
- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- ENGL 3380 - CW: Screenwriting Forms and Craft **Credits: (3)**
- HIST 3120 - American Society through Film **Credits: (3)**
- **or**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3750 - Advanced Cinematography and Editing **Credits: (3)**
- COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76 **Credits: (1-3)**
- COMM 4740 - Advanced Writing for Screen **Credits: (3)**
- COMM 4751 - Advanced Narrative Filmmaking **Credits: (3)**
- COMM 4760 - Media Management and Distribution **Credits: (3)**
- COMM 4770 - Digital Documentary Filmmaking **Credits: (3)**
- ENGL 3290 - CW: Advanced Screenwriting **Credits: (3)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- FILM 3010 - Pre- To Post-Production **Credits: (3)**
- FILM 3280 - Directing for Film **Credits: (3)**
- FILM 3820 - Advanced Special Topics-Variable **Credits: (3)**
- FILM 3310 - Editing and Beyond **Credits: (3)**
- COMM 3751 - Narrative Filmmaking **Credits: (3)**
- FILM 3780 - Survey of Documentary Cinema **Credits: (3)**
- FILM 3800 - Independent Study **Credits: (1-3)**
- FILM 3810 - Experimental Course **Credits: (1-6)**
- FILM 3900 - Sundance Film Festival Experience **Credits: (1-3)**
- FILM 4120 - Careers in Film and Entertainment Industry **Credits: (3)**
- FILM 4890 - Film Internship **Credits: (1-3)**
- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4823 - Pro Tools 110 **Credits: (2)**
- THEA 3113 - Acting for the Camera **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- WLC 3580 - Global Cinema **Credits: (3)**
- WLC 4580 - Special Topics in World Cinema **Credits: (3)**

Minor

Film Studies Minor

The Film Studies minor is an interdisciplinary program that analyzes film theory, history, practice, and cultural significance. Students will study a broad range of film texts and learn to appreciate a variety of aesthetic and filmmaking techniques. A minor in Film Studies will enable students to analyze, contextualize, and produce films within the broad context of humanistic studies. The Film Studies minor will provide students with a solid background in critical thinking, writing, and filmmaking skills. The film studies minor consists of a minimum of 18 credits distributed among required core courses (9 credits) and a choice of electives (9 credits) and can be integrated with any major or minor.

- **Program Prerequisite:** None required. However, some of the individual course options have a prerequisite or corequisite, as shown below.
- **Grade Requirements:** A grade of 2.0 or better in all courses used toward the minor.
- **Credit Hour Requirements:** 18 credit hours, apportioned as directed below.
- **Program Code:** 3085
- **CIPC:** 500602

Program Learning Outcomes:

- **Create:** Students will apply their technical and theoretical skills in producing films and creative works.
- **Analyze:** Students will apply interpretive methodologies to explore the social, ideological, and ethical values presented in media works.
- **Collaborate:** Students will work constructively to solve problems and collaborate in diverse teams to create impactful films.

Core Required Courses (9 Credit Hours)

Students are required to take these courses.

- FILM 2200 CA - Fundamentals of Film **Credits: (3)**
or
- THEA 1023 CA - Introduction to Film **Credits: (3)**
or
- ENGL 2210 - Introduction to Film Theory and Criticism **Credits: (3)**
- FILM 2280 - Introduction to Film Production **Credits: (3)**
or
- COMM 2250 HU - Essentials of Digital Media **Credits: (3)**
or
- ART 2750 - Foundations of Video Art **Credits: (3)**
- FILM 3200 - History of Film **Credits: (3)**

Elective Courses (9 Credit Hours)

Students will choose elective courses based on their interests in production, writing, directing, or film and media studies. At least two electives must be upper-division courses; no more than two courses from the same prefix/department (e. g., COMM, ENGL, FILM).

NOTE: Classes taken to fill Film Minor Requirements may not also be used to fill major requirements

Lower Division Elective (3 credit hours) - choose from these options

- ART 2450 CA - Foundations of Photography: Color/Digital **Credits: (3)**
- COMM 2200 - Multi-Camera Production and Performance **Credits: (3)**
- COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality **Credits: (3)**
- ENGL 2295 - CW: Introduction to Screenwriting **Credits: (3)**

- FILM 2820 - Special Topics in Film Studies **Credits: (3)**
- MUSC 1015 - Movie Music **Credits: (3)**
- MUSC 1723 - Field Recording/Sound for Picture **Credits: (2)**
- **Upper Division Electives (6 Credit Hours) - choose from these options**
- ART 3250 - Experimental Filmmaking **Credits: (3)**
- ART 4550 - Advanced Photography: Lighting for Photo & Video **Credits: (3)**
- ARTH 3055 - Advanced Special Topics in Art History **Credits: (4)**
- COMM 3200 - Live Event Production **Credits: (1-3)**
- COMM 3350 - Visual Communication **Credits: (3)**
- COMM 3740 - Writing for Screen **Credits: (3)**
- COMM 3750 - Advanced Cinematography and Editing **Credits: (3)**
- COMM 3751 - Narrative Filmmaking **Credits: (3)**
- COMM 4740 - Advanced Writing for Screen **Credits: (3)**
- COMM 4770 - Digital Documentary Filmmaking **Credits: (3)**
- ENGL 3290 - CW: Advanced Screenwriting **Credits: (3)**
- ENGL 3353 - Genres in Cultural and Media Studies **Credits: (3)**
- ENGL 3380 - CW: Screenwriting Forms and Craft **Credits: (3)**
- FILM 3010 - Pre- To Post-Production **Credits: (3)**
- FILM 3280 - Directing for Film **Credits: (3)**
- FILM 3310 - Editing and Beyond **Credits: (3)**
- FILM 3500 - Advanced Film Theory and Criticism **Credits: (3)**
- FILM 3780 - Survey of Documentary Cinema **Credits: (3)**
- FILM 3820 - Advanced Special Topics-Variable **Credits: (3)**
- FILM 3900 - Sundance Film Festival Experience **Credits: (1-3)**
- FILM 4120 - Careers in Film and Entertainment Industry **Credits: (3)**
- MUSC 4820 - Pro Tools 101 **Credits: (2)**
- MUSC 4823 - Pro Tools 110 **Credits: (2)**
- THEA 3113 - Acting for the Camera **Credits: (3)**
- THEA 3500 - Sound Design **Credits: (3)**
- WLC 3580 - Global Cinema **Credits: (3)**
- WLC 4580 - Special Topics in World Cinema **Credits: (3)**

Course Descriptions

ACTG 1010 - Practical Accounting & Taxes

Credits: (3)

Description: A pragmatic look at financial accounting and federal taxes as they relate to the individual's personal life. Designed for non-accounting majors.

Note: This course is not currently being offered.

ACTG 2010 - Survey of Accounting I

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem Online, 1st Blk*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$4.00

Course Fee Purpose: Course fees are designed to contribute to the cost of maintaining the Goddard School of Business and Economics Tutoring Lab. The costs of the lab include the cost of computer equipment, furniture and other fixtures, and the wages of the peer tutors. ACTG 2010 students can utilize the Tutoring Lab at no cost during the dates/times accounting tutors are available.

Description: Introduction to accounting information, the basic accounting cycle, and consideration of selected financial statement topics. The course emphasizes the uses and limitations of accounting information in economic decision-making, as well as problem-solving, oral and written communication skills, and computer skills.

ACTG 2020 - Survey of Accounting II

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 2nd Blk, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$4.00

Course Fee Purpose: Course fees are designed to contribute to the cost of maintaining the Goddard School of Business and Economics Tutoring Lab. The costs of the lab include the cost of computer equipment, furniture and other fixtures, and the wages of the peer tutors. ACTG 2020 students can utilize the Tutoring Lab at no cost during the dates/times accounting tutors are available.

Description: Further consideration of selected financial statement topics. Analysis of cost behavior and the uses and limitations of accounting information in planning, controlling, and decision-making processes. Emphasizes skills in problem-solving, oral and written communication, and computer skills.

Pre-requisite(s): ACTG 2010.

ACTG 2891 - Coop Work Experience

Credits: (1-3)

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 2892 - Coop Work Experience

Credits: (1-3)

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience.

Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 2893 - Coop Work Experience

Credits: (1-3)

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the-job experience.

Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 2921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 2923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 3110 - Intermediate Financial Accounting I

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Introduction to the accounting profession, standard-setting process, and financial accounting concepts. Thorough study of the balance sheet, income statement, and statement of retained earnings. Theory and application of the time value of money. Financial accounting and reporting considerations for selected balance sheet topics.

Pre-requisite(s): ACTG 2010.

ACTG 3120 - Intermediate Financial Accounting II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Thorough study of the statement of cash flows. Financial accounting and reporting considerations for selected balance sheet topics not considered in Intermediate Financial Accounting I.

Pre-requisite(s): BSAD 2899 and ACTG 3110.

ACTG 3130 - Accounting Data Analytics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to increase student's technical and analytical skills and at the same time provide a review of accounting topics so that as professional accountants, students will have the skills to manage data effectively in a variety of accounting positions. Software products like Microsoft Excel, Microsoft SQL, and Tableau will be utilized in this class. Specifically, this course will enhance understanding of AIS data elements and data structures, critical thinking skills, and technical skills through the use of software packages and a variety of accounting topics.

Pre-requisite(s): ACTG 3110.

ACTG 3300 - Cost Accounting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Cost determination for budgeting, product costing, process costing, cost assignment and allocation, standard costing, and decision making in manufacturing and service organizations.

Pre-requisite(s): BSAD 2899 and ACTG 2020.

ACTG 3400 - Taxation of Individuals

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Basic concepts of gross income, deductions, credits, special computations, and property transactions for individual taxpayers.

ACTG 3500 - International Accounting

Credits: (3)

Description: This course reviews major issues in international accounting, including historical, cultural, and environmental influences that impact various national accounting systems. Harmonization of standards is also examined.

Pre-requisite(s): ACTG 2020.

Note: Course not currently being offered.

ACTG 3750 - Accounting & Information Systems

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Course Fee: \$80.00

Course Fee Purpose: Online software training modules for Microsoft office and other pertinent software for class assignments. Currently provided in Percipio by Skillport.

Description: Analysis, design, and implementation of accounting information systems with special emphasis on an understanding of accounting cycles, internal control concepts, and data flows associated with basic economic entities of the organization.

Pre-requisite(s): BSAD 2899 and ACTG 3110.

ACTG 4130 - Advanced Accounting

Credits: (3)

Description: A study of business combination accounting. The course will also include an introduction to government and fund accounting.

Pre-requisite(s): BSAD 2899 and ACTG 3120.

Note: Course not currently being offered.

ACTG 4140 - Accounting for Global and Complex Entities

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Issues in international accounting not covered in Intermediate Accounting are covered in this course. The course also covers concepts related to accounting for complex entities, consolidated entities and partnerships.

Pre-requisite(s): ACTG 3120 and BSAD 2899.

ACTG 4440 - Taxation of Business Entities

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A study of the income taxation of corporations (including S corporations), limited liability companies, and partnerships.

Pre-requisite(s): BSAD 2899 and ACTG 3400.

ACTG 4510 - Auditing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Generally-accepted auditing standards, professional responsibilities, evidence, internal control, sampling, audit tests, and audit reports.

Pre-requisite(s): BSAD 2899 and (ACTG 3120 or concurrent enrollment in ACTG 3120).

ACTG 4801 - Individual Study

Credits: (1-3)

Description: Individual work or work in small groups by arrangement on special topics.

Pre-requisite(s): Instructor Approval.

ACTG 4802 - Individual Study

Credits: (1-3)

Description: Individual work or work in small groups by arrangement on special topics.

Pre-requisite(s): Instructor Approval.

ACTG 4803 - Individual Study

Credits: (1-3)

Description: Individual work or work in small groups by arrangement on special topics.

Pre-requisite(s): Instructor Approval.

ACTG 4810 - Experimental Course**Credits: (1-6)****Experimental**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ACTG 4850 - Accounting Study Abroad**Credits: (1-3)**

Description: This course is designed for students who wish to explore accounting theory and practice in countries other than the U.S. Students will study international accounting as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

Can be repeated once up to 6 credits.

ACTG 4891 - Accounting Internship**Credits: (1-3)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4892 - Accounting Internship**Credits: (1-3)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4893 INT - Accounting Internship**Credits: (1-3)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to students meeting criteria established from time to time by the department and on file either in the department or the cooperative education office. Provides academic credit for selected on-the job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): Instructor Approval.

ACTG 4921 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4922 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

ACTG 4923 - Short Courses, Workshops, Institutes, & Special Programs

Credits: (1-3)

Variable Title

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

AERO 1010 - Foundations of USAF I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Development, organization, and doctrine of the United States Air Force, emphasizing Strategic Force Requirements.

AERO 1010L - General Military Leadership Lab I

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1011 - Foundations of USAF II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Development and organization of United States Air Force Defensive Forces, General Purpose Forces and Tactical Air Forces.

AERO 1011L - General Military Leadership Lab II

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1110 - General Military Leadership Lab I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 1111 - General Military Leadership Lab II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Studies and experience in Air Force standards, customs and courtesies. Introduction to drill and ceremonies. Studies typical organizations and missions of Air Force Bases through field trips.

AERO 2010 - Airpower History I

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Development of various concepts of air power employment, emphasizing factors that have prompted research and technological change.

AERO 2010L - General Military Leadership Lab III

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Description: Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2011 - Airpower History II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Development of various concepts of air power employment, emphasizing factors that have prompted research and technological change.

AERO 2011L - General Military Leadership Lab IV

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Description: Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base. Professional Officer Courses

AERO 2110 - General Military Leadership Lab III

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2111 - General Military Leadership Lab IV

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Application of Air Force standards, customs and courtesies. Drill and ceremonies leadership, introduction to reviews and honors. First-hand exposure to various career opportunities within the Air Force and their application on a typical Air Force base.

AERO 2830 - Directed Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individual study with a professor from Aerospace Studies (Air Force ROTC). Allows increased responsibility for GMC in an academic setting providing leadership/management skill development opportunities. May be repeated twice with a maximum of 3 credit hours.

AERO 3000 - Field Training

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Description: Four to five weeks of field training conducted at United States Air Force bases as arranged by the Professor of Aerospace Studies. Course prepares AFROTC students for entry into upper division AFROTC classes, the Professional Officer Corps, and for later commissioning into the US Air Force. The course offers a minimum of 269 hours of education and training in the areas of Officership, Air Force Orientation, Leadership, and Physical/Survival Training.

May be repeated 3 times with a maximum of 4 credit hours.

AERO 3010 - Leadership Studies I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Writing, speaking, and listening as communication skills; management concepts; responsibilities and ethics for an Air Force junior officer.

AERO 3010L - POC Leadership Lab I

Credits: (0)

Typically Taught Fall Semester: *Full Sem*

Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3011 - Leadership Studies II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Principles of leadership, problem solving, decision, discipline, and human relations. Emphasis on career planning as an Air Force junior officer.

AERO 3011L - POC Leadership Lab II

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3110 - POC Leadership Lab I

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 3111 - POC Leadership Lab II

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management skills in leadership positions in a student-run organization. Study of general structure and progression patterns common to selected Air Force officer career fields. Application of personnel performance evaluation techniques.

AERO 4010 - National Security Affairs I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Examines the need for national security, analyzes the evolution and formulation of American defensive policy, strategy and joint doctrine. Investigates methods of managing conflict and touches on arms control and terrorism.

AERO 4010L - POC Leadership Lab III

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4011 - National Security Affairs II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Examines conflict management, arms control, military law and Air Force issues and policies.

AERO 4011L - POC Leadership Lab III

Credits: (0)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4110 - POC Leadership Lab III

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4111 - POC Leadership Lab IV

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Application of leadership and management techniques with individuals and groups. Introduction to operations and communications security. Introduction to advanced educational opportunities available to Air Force officers.

AERO 4830 - Directed Studies

Credits: (1-5)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individual study with a professor from Aerospace Studies. Provides added leadership/management skill development opportunities to develop more competitive officer candidates. May be repeated 4 times with a maximum of 5 credit hours.

ANTH 1000 SS/CC - Introduction to Anthropology

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: Anthropology is the study of humankind, past and present: our origins and the development of cultural behavior and biological attributes. This course examines what it means to be human, describing and explaining human differences and similarities throughout time and across the world.

ANTH 1020 LS/SUS - Biological Anthropology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Explores human origins, evolution, and contemporary biological diversity by examining genetics, the human fossil record, primatology, and human ecology from a biocultural perspective.

ANTH 1040 HU/CC - Language and Culture

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Explores the nature of human language and its role in sociocultural settings. Surveys a world sample of languages from the perspective of anthropological linguistics including language structure, social functions, geographical and historical variation, and cultural values.

ANTH 2010 SS/CC - Peoples and Cultures of the World

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 2nd Blk*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: A survey of cultures around the world, exploring their similarities and differences as observed by anthropologists.

ANTH 2030 SS/CC - Principles of Archaeology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Archaeology attempts to reconstruct prehistoric and early historic human life ways as well as long term cultural and biological evolutionary processes through the scientific study of material remains. This course focuses upon the history of archaeology, the ways in which archaeologists recover and analyze data, and the major theoretical perspectives used to interpret the past.

ANTH 2220 - Introduction to Forensic Anthropology

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This course is an introduction to the principles of forensic anthropology, a subdiscipline of biological anthropology concerned with the identification of human skeletal remains in medico-legal contexts. Topics covered include a survey of the history of the field and the techniques used to determine age, sex, and physical characteristics of an individual from skeletonized remains, as well as methods used for positive identification, estimating time since death, and determining cause and manner of death. This course is offered in lower division format (ANTH 2220) and upper division format (ANTH 4220). Students must choose either the upper division course or the lower division course and will not receive credits for taking both courses.

ANTH 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ANTH 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ANTH 2950 - Elementary Anthropological Field Trip

Credits: (1-3)

Typically Taught Summer Semester: *1st Blk*

Description: Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.

Pre-requisite(s): Consent of instructor.

A maximum of three credit hours of ANTH 2950 can be applied toward graduation.

ANTH 2990 - Special Topics in Anthropology

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A course allowing examination of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.

May be repeated 6 times with a maximum of 18 credit hours.

ANTH 3100 - North American Archaeology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A general survey course concerning the archaeology of North America and an interpretation of its prehistory. The course material spans the time of initial human occupation of the continent through the early historic period, and emphasizes the three major cultural stages (Paleo Indian, Archaic, and Formative) which characterize the archaeological record of North America.

ANTH 3150 - Archaeology of the Great Basin

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course introduces students to the archaeological and ethnographic peoples of the Great Basin while exploring how the environment and specific theoretical approaches have shaped how they are understood. A portion of the course also focuses on on-going archaeological debates and current research in the region.

ANTH 3200 - Archaeology of Early Civilizations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course is designed to survey the broad range of early civilizations worldwide as they are known archaeologically, including the variety of ways and places in which they have arisen and the great diversity of peoples who created them. It examines highly complex societies in sub-Saharan and North Africa, native North and South America, East and South Asia, the Middle East, the Aegean and Celtic Europe, discussing in detail the diverse ways of life in these civilizations and how they shaped cultural forms, practices and ideas in the modern life of these regions today.

ANTH 3250 - Human Osteology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is a detailed study of the anatomy of the human skeleton as a dynamic, living system. Consideration is given to the growth, structure, and function of bones, and to bioarchaeological and forensic skills such as the determination of ancestry, age, sex, stature, and pathology from skeletal remains. We will combine theory, its applications, and the limitation of osteological methods with laboratory analysis. Relevant techniques for the reconstruction of past populations and the assessment of human biological variation will be introduced.

ANTH 3300 - Archaeological Field Techniques

Credits: (3-6)

Typically Taught Summer Semester: *2nd Blk*

Description: Intensive field school involving archaeological excavation and/or survey, emphasizing modern field techniques, data recordation and recovery, map interpretation and production, and the proper conduct of problem-oriented archaeology.

Pre-requisite(s): ANTH 2030, one upper division archaeology course such as ANTH 3100, 3200, or 3400, and consent of instructor.

May be repeated up to 12 credit hours.

Note: Archaeology Track, Archaeological Technician Associate's Degree, and Archaeological Technician Certificate students must complete 6 credit hours.

ANTH 3400 CRE - Archaeological Laboratory Techniques

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Emphasizes student analysis and write-up of an artifact assemblage from an archaeological site.

Weekly lectures familiarize students with analyses of prehistoric and historic archaeological materials, as well as the production of text, figures, tables, maps, and bibliographies for technical reports.

Pre-requisite(s): ANTH 2030 or consent of instructor.

Suggested Requisite(s): Students are strongly encouraged to take ANTH 3300 before taking ANTH 3400.

ANTH 3500 - Advanced Cultural Anthropology

Credits: (3)

Description: The nature of culture, its structure and function in the variety of human activities.

Pre-requisite(s): ANTH 1000 or ANTH 2010 or consent of instructor.

ANTH 3600 - Culture Area Studies

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Surveys selected societies in ethnographically different cultural areas of the world, such as Africa, Asia, North American Indians, Latin America, the Middle East, the Pacific, or the modern United States. When the number is used, it will be accompanied by a descriptive title and the credit authorized, which will appear on the student transcript. Offerings of same title may not be repeated for credit toward graduation.

Pre-requisite(s): ANTH 1000 or ANTH 2010 or consent of instructor.

May be repeated 6 times with a maximum of 18 credit hours.

ANTH 3900 - Anthropology of Religion

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: How do spiritual, cosmological, and religious experiences shape our relationships with the world, each other, and ourselves? In this course, we will explore this and many other questions about the operation of faith, belief, spirituality and religion in the world from an anthropological perspective. That means, we will be examining religious and spiritual practice as culturally informed social action. Through a diverse range of literature, film, and podcasts, we will engage historical and contemporary theories on what religion may tell us about the project of being human.

ANTH 4100 - Archaeological Method, Theory, and Cultural Resource Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Explores means by which archaeological inferences are made to decipher the material record of past human behavior. Includes the history of recent archaeological thought from the beginnings of scientific archaeology (ca. 1960's) through the profession of cultural resource management.

Pre-requisite(s): ANTH 2030.

ANTH 4150 - Technical Skills in Anthropology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces students to visual and spatial data collection, management, and production skills through direct hands-on training and lecture. Topics include field and laboratory-based photography, manipulation and management of digital images, spatial data collection through Global Positioning Systems (GPS) and total stations, and digital map/image creation. While exercises used throughout the course focus on archaeological examples, the technical skills learned can easily be applied to all four subfields of anthropology.

ANTH 4200 - Anthropological Theory

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Historical and theoretical development of the major anthropological schools of thought including 19th century evolutionism, historical particularism, social anthropology, symbolic analysis, neoevolutionism, and cultural ecology.

Pre-requisite(s): ANTH 1000 or consent of instructor.

ANTH 4220 - Introduction to Forensic Anthropology

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Block, 1st Block Online, 2nd Block*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This upper division course is an introduction to forensic anthropology, a subdiscipline of physical anthropology concerned with the identification of human skeletal remains in medico-legal contexts. Topics covered in this course include a survey of the history of the field and the techniques used to determine age, sex, and physical characteristics of an individual from skeletonized remains, as well as methods used for positive identification, estimating time since death, and determining cause and manner of death. Special attention will be given to Human Osteology as it is relevant in forensic contexts. This course is offered in lower division format (ANTH 2220) and upper division format (ANTH 4220). Students must choose either the upper division course or the lower division course and will not receive credits for taking both courses.

Suggested Requisite(s): ANTH 3250 - Human Osteology.

ANTH 4300 CRE - Anthropological Research Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Students will learn and apply the scientific methods of inquiry used in anthropological research. Required for majors and recommended for minors.

Pre-requisite(s): ANTH 1000 or a 2000-level course; and SOC 3600, or consent of instructor.

ANTH 4810 - Experimental Course

Credits: (1-6)**Experimental**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ANTH 4830 INT - Readings and/or Projects**Credits: (1-3)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individual readings and/or projects for anthropology students.

Pre-requisite(s): ANTH 1000, permission of instructor and approval of program coordinator.

Maximum of 6 hours may be applied toward graduation.

ANTH 4890 INT - Internship in Anthropology**Credits: (1-3)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Anthropology majors may apply for internship opportunities that provide the student with both practical and research experiences.

Pre-requisite(s): 6 hours of upper-division anthropology courses, Anthropology major status, approval of Program Coordinator.

A student may complete a total up to 6 hours of internships for credit, with a maximum of 3 hours to be applied towards the Anthropology major.

ANTH 4900 CRE - Senior Capstone Seminar**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: This class is a one-semester three credit hour seminar whose main goal is integration of materials within the major (especially what you have learned in Methods and Theory). The Senior Thesis is a culminating experience focused on a theoretical issue, practical research or applied work, a historical period or theme within anthropology. Students will write an academic thesis paper which centers on a topic chosen by the student in consultation with the course instructor and, depending on the anthropological subfield, another faculty member in this department. The project requires approval of the course instructor and may include an applied or fieldwork component. Students will develop a research question, prepare a literature review, collect and analyze data, complete and present a substantial research writing project (the senior thesis) using the skills they have acquired throughout their academic career, drawing particularly upon the required theory and methods classes in crafting their research proposals. Students will be encouraged to engage deeply with a topic they care about as they produce a Senior Thesis based on original scholarship that displays a refined understanding of current literature and enduring analytical perspectives in Anthropology. In addition to the research project, this course also examines anthropology as a career through presentations, readings, and discussions that help students prepare for the process of applying to graduate programs and/or explore career opportunities in which an anthropology degree can be applied.

Pre-requisite(s): ANTH 4300.

ANTH 4920 - Short Courses, Workshops, Institutes, and Special Programs**Credits: (1-6)****Workshop**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ANTH 4950 - Advanced Anthropological Field Trip

Credits: (1-3)

Typically Taught Summer Semester: *1st Blk*

Description: Students will visit areas and events of anthropological interest. The course will include relevant lectures, readings, and exercises designed to maximize and evaluate the learning experience. Pre- and post-trip meetings for student preparation, feedback, and course evaluation will occur. When the course number is used, it will be accompanied by a specific title and authorized credit which will appear on the student's transcript.

Pre-requisite(s): ANTH 1000 or ANTH 2030 and consent of instructor.

A maximum of three credit hours of Anthropology 4950 can be applied toward graduation.

ANTH 4990 - Seminar in Anthropology

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An advanced course allowing in-depth study of selected topics and current issues in Anthropology. When the course number is used, it will be accompanied by a specific title with the credit authorized, which will appear on the student's transcript. Offerings of same title may not be repeated for credit toward graduation.

Pre-requisite(s): ANTH 1000 or consent of instructor.

May be repeated 6 times with a maximum of 18 credit hours.

APPE 1010 - Introduction to Applied Politics, Philosophy & Economics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This introductory course introduces core concepts of philosophy, political science, and economics, and applies these concepts and principles to contemporary topics. This course will establish a foundation for students in the Bachelor of Applied Philosophy, Politics, and Economics program.

APPE 4900 - Capstone in Politics, Philosophy and Economics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This capstone course is the culminating academic experience to help students synthesize and apply what they have learned throughout the APPE program. This course involves a capstone project or experience, allowing students to showcase their skills and knowledge. Students will also be expected to present a portfolio demonstrating their competencies.

Pre-requisite(s): APPE 1010.

ARCH 1040 CA - Introduction to Architecture

Credits: (3)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$50.00 for FTF sections; \$35 for ONL sections

Course Fee Purpose: Computer equipment, lab aid to assist in learning software, consumable paper.

Description: An introductory course to allow students to learn about the field of architectural design, and other associated careers in conjunction with Building Design & Construction. Students will research and explore the world of architecture around them, and see how they might find a place therein.

ARCH 1350 - Architectural Design Communications I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Computer, paper, lab aid, for the students to use in the classroom. The lab aids are available in person as well as on zoom or the phone.

Description: This will be a course to allow students to explore the field of Residential Design and Architecture. Students will research and present precedents of great residential design. Residential Design concepts will be taught and explored within the projects. Course content will include research-based assignments and presentations, along with studio design and work critiques. Students will create and present ideas and thoughts through the use of analog, digital and oral presentations. Students will begin to understand the difference between simply building houses, and creating a great piece of residential architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural design and construction documents.

Pre-requisite(s): ARCH 1040.

Pre-requisite/Co-requisite: CM 1310.

ARCH 2000 - Architectural Communications II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$60.00

Course Fee Purpose: Computer, paper, lab aid, Architectural Model products, Maintenance and replacement of lab equipment.

Description: This course will introduce students to the representation of architecture. Students will develop presentation skills by use of digital and analog means. They will gain the ability to show and represent their architectural work by use of drawing interpretation, creation and physical model building. Scale, forces of nature, and accurate representation will be part of this class. The course content will include hands on learning assignments, architectural reproductions, independent designs and presentations. At the end of the semester, students will create architecture with a final assignment where they will display the skills that they have learned during the semester.

Pre-requisite(s): ARCH 1350.

ARCH 2830 - Directed Studies

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Description: Directed readings in Building Design, & Construction.

Pre-requisite(s): Department approval.

Can be taken for 3 credit hours three times for a maximum of 9 credits.

ARCH 3000 SUS - Sustainable Building Design & Codes

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$15.00

Course Fee Purpose: For lab aid wages

Description: An analysis of sustainability in the green built environment including certifications such as LEED, Energy Star, RESNET, and the National Green Building Standard. Course discussions will include: What is Green Building and why does it make sense, Building Science fundamentals, planning for Green from the start, Green Building Economics, and Building performance analysis.

ARCH 3100 - Residential Design Studio

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$60.00

Course Fee Purpose: \$30 fee for computer lab access. \$15 fee for lab aid. \$5 fee to be able to print in any of the labs to 8.5x11 and 11x17 paper. \$15 to offset the costs to operate and maintain the digital fabrication lab equipment. \$10 fee for materials to build architectural models.

Description: This will be a course to allow students to explore the field of Residential Design and Architecture. Students will research and present precedents of great residential design. Residential Design concepts will be explored and employed within the explorations and projects. Course content will include research-based assignments and presentations, along with studio design and work critics. Students will create and present ideas and thoughts through the use of analog, and digital means. Students will begin to understand the difference between just building houses, and creating a great piece of residential architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural and construction documents.

Pre-requisite(s): ARCH 1040, ARCH 1350, and ARCH 2000.

ARCH 3200 - Commercial Design Studio

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$60.00

Course Fee Purpose: Computer, lab aid, able to print in any of the labs, lab equipment, materials to build your architectural models.

Description: This will be a course to allow students to explore the field of Commercial Design and Architecture. Students will research and present precedents of examples of architecture and methods of construction. Design concepts will be explored and employed within the explorations and projects. Course content will include research-based assignments and presentations, along with studio design and work critiques. Students will create and present ideas and thoughts through the use of analog, digital, and oral presentations. Students will begin to understand the difference between just building commercial square footage, and creating a great piece of architecture. The class will include architectural readings, interpretation thereof, and the design and production of architectural and construction documents.

Pre-requisite(s): ARCH 3100.

ARCH 3500 - Architectural Rendering & Animation Studio

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Computers, paper, lab aid.

Description: This course introduces students to the basic tools and concepts used to create photo realistic renderings and animations for the Architecture industry.

Pre-requisite/Co-requisite: ARCH 1350 or CM 2360 or ID 2080.

ARCH 3660 - Structure for Architects & Construction Managers

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Computer replacement, paper, lab aid.

Description: An introduction to the design implications of steel, reinforced concrete, and wood using a highly visual format and real-world examples to underline the key facets of structural principles that are necessary for collaborating confidently with design and construction team members. Emerging software tools will be used to size, specify, and analyze structural members.

Pre-requisite(s): Math QL.

ARCH 4350 - BIM Management & Coordination

Credits: (3)

Typically Taught Fall Semester: *Full Sem; Full Sem Online*

Typically Taught Spring Semester: *Full Sem; Full Sem Online*

Course Fee: \$50.00

Course Fee Purpose: Computer replacement, paper, lab aid.

Description: An advanced BIM course dealing with BIM project management, MEP modeling, clash detection, 4D scheduling, as well as emerging technology in the Building Design & Construction industry.

Pre-requisite(s): ARCH 2000 or CM 2360.

ARCH 4600 SUS - Senior Project

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a building design & construction problem. Emphasis placed on integrated project management including preparation of drawings, creation of presentations, project organization, control, and documentation.

This course may be taken twice for credit.

ARCH 4830 - Directed Studies

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Directed readings in Building Design and Construction. Must have department approval.

Can be taken for 3 credit hours three times for a maximum of 9 credits.

ARCH 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.

Pre-requisite(s): Consent of instructor.
May be repeated for a total maximum of 6 credit hours.

ART 1010 CA - Introduction to the Visual Arts

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Description: Introduction to all forms of visual art covering processes (such as demonstration of the lost-wax process of metal casting), language, responses (oral and written assignments that utilize art-related terminology), issues (such as patronage, feminism or orientalism), and ways of seeing and understanding works of art. A general education course for the non-art major.

ART 1030 CA - Studio Art for the Non-Art Major

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Course Fee: \$57.00

Course Fee Purpose: Studio materials; KA digital lab access, equipment, software, printing; Sculpture Lab fee supporting shop use.

Description: A general education course for non-art majors that primarily includes a series of hands-on art experiences (such as drawing and sculpture). Class discussion draws from the disciplines of art history, art criticism, and aesthetics as guides through visual presentations. For students desiring to broaden their academic background in the area of visual literacy and problem solving.

ART 1040 - Orientation to Visual Studies

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Course Fee: \$57.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, course/studio lab materials.

Description: Orientation to the visual world including how we perceive and interpret visual messages, the impact of the visual on human relations, political exploitation of the visual and aesthetic issues in the visual arts. Topics are explored through written and creative projects designed to establish a context for expanded study in the visual arts. Includes curriculum planning for art and design majors, introduction to programs and faculty, and professional opportunities.

ART 1110 CA - Drawing I

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$57.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, Studio lab materials & equipment.

Description: This is the foundation drawing class for art majors and minors (not a general education class). Perceptual and conceptual development stressed. Variety of materials and procedures investigated.

ART 1120 - Design Concepts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$57.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, Studio lab materials & equipment.

Description: An introduction to visual language, design principles, and compositional approaches in two and three dimensions. Basic approaches to sketching and modeling, improving compositional structures, and using form and color to communicate will be addressed.

ART 1130 - Approaches to Surface, Shape and Form

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$104.00

Course Fee Purpose: KA digital lab access, equipment, software, printing, studio lab clay materials, equipment, maintenance.

Description: An in-depth exploration of diverse approaches to communicating through form and color in two and three dimensions. In the course of the semester, students will complete three workshop-style segments across a range of media to include 3D fabrication, analog 2D composition, and digital color & composition.

ART 1135 - Approaches to Materials, Space and Time

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$104.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab materials, equipment, maintenance.

Description: An in-depth exploration of a range of approaches to communicating through material, spatial and time-based methods. In the course of the semester, students will complete three workshop-style segments across a range of media to include analog experimental media, art & design in space and time & interaction.

ART 2015 - Drawing on the Land

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Description: Introduction to visual arts media as a productive way to investigate and interpret the natural environment. Appropriate for the art major as well as the non-art major. Participants will build a practice of observation, inquiry, and discovery via drawing and/or other media as designated by faculty. A significant portion of each course will be conducted in the field. Media focus and field location will be announced in advance. Some travel is required. Camping may be required.

This course may be repeated twice with a maximum of 9 credit hours with different titles.

ART 2200 - Introduction to Printmaking

Credits: (3)**Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$164.00**Course Fee Purpose:** KA Sculpture Lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab printmaking materials, equipment, maintenance.**Description:** An introduction to all printmaking classes covering the processes of intaglio, screen-printing, relief, lithography, and monotype. Students are provided with the fundamentals of each process and experience with each one.

Note: This class is a prerequisite for all printmaking classes.

ART 2250 - Foundations of Photography: Black & White/Analog**Credits: (3)****Typically Taught Summer Semester:** *1st Blk***Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$132.00**Course Fee Purpose:** Studio lab photo materials, photographic and darkroom equipment, maintenance and printing. KA Sculpture Lab equipment, materials & assistance; KA Digital Lab access,**Description:** A highly disciplined craft and concept course to help develop technical and aesthetic skills in black and white photography. Students learn the use of the camera, zone system of exposure, film, and print processing, and gain an aesthetic sense of the medium.**ART 2310 - Ceramics I****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$194.00**Course Fee Purpose:** Studio lab clay materials, glazes, equipment and maintenance. KA Sculpture Lab equipment, materials & assistance; KA Digital Lab access, equipment, software, printing.**Description:** The first course of a two-part introduction to ceramic art. Projects in hand-building and wheel-thrown objects are emphasized. Multiple surfacing and firing techniques will be explored.**ART 2350 - Small Metals/Jewelry I****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$144.00**Course Fee Purpose:** KA digital lab access, equipment, software, printing, studio materials, printing, equipment, maintenance.**Description:** Introduction to tools, materials, and basic techniques of fabrication and casting, with an emphasis on design.**ART 2420A - Bitmap Imaging****Credits: (1)****Description:** Emphasis on the principle of bitmap imaging using industry-standard software. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in color photography, graphic design, illustration, web-based and other digital media. Primary software: Adobe

Photoshop.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420B - Vector Drawing

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Description: Emphasis on vector drawing as applied to problems in art and design. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in graphic design, animation, 3D modeling, and web design. Primary software: Adobe Illustrator.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420C - Digital Page Composition

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Description: Emphasis on the principles of layout using industry-standard software tools. This course builds on studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in typography and graphic design. Primary software: Quark Express.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2420D - Design for the Internet

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 2nd Blk*

Typically Taught Spring Semester: *1st Blk, 2nd Blk*

Description: Emphasis on the principles of web design using industry-standard software. This course builds in studies in basic two-dimensional design and provides the conceptual and technical foundation for more advanced work in digital media and web design. Primary software: Macromedia Dreamweaver.

Pre-requisite(s): ART 1120 or consent of instructor.

ART 2430 - Introduction to Graphic Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Studio materials, printing, KA Sculpture Lab equipment, materials & assistance; KA Digital Lab access, equipment, software; equipment maintenance.

Description: Introduction to the technical foundations of graphic design along with the elements and principles of visual language. Emphasis on the development of software skills, image and symbol development, graphic systems and design process.

Co-Requisite(s): ART 1120.

ART 2435 - Graphic Design Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Exploration of core elements and processes in the practice of graphic design. Includes project work in

basic typography, image generation, visual metaphor, word/picture communication, and information design.

Pre-requisite(s): ART 2430.

ART 2450 CA - Foundations of Photography: Color/Digital

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$162.00

Course Fee Purpose: Photographic studio lab cameras and printing equipment and supplies. KA Sculpture Lab equipment, materials & assistance; KA digital lab access, equipment, software.

Description: A highly disciplined craft and concept course to help develop technical and aesthetic skills in color photography. Students will learn and explore the theory, practice, and aesthetics of shooting and printing color photographic materials. Using digital media and new technology as a means for creative expression and investigation in color photography will also be a main concern in this course.

ART 2600 - Painting I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$92.00

Course Fee Purpose: Painting studio lab painting materials and equipment. KA Sculpture Lab equipment, materials & assistance, KA Digital Lab access, equipment, software and printing.

Description: Introduction to painting including the construction and design of paintings, investigations into the character and actions of various paints and techniques (traditional and contemporary) on a variety of surfaces.

ART 2700 - Sculpture I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Sculpture Studio Lab course materials, equipment and maintenance, plus KA Digital Lab access, equipment, software and printing.

Description: An introduction to the essential methods and materials of sculpture including modeling, carving, casting, and construction with emphasis on contemporary activity in sculpture and with projects designed to practice concept development.

ART 2750 - Foundations of Video Art

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Lens-based Studio lab video materials, equipment and maintenance. KA Sculpture Lab equipment, materials & assistance; KA digital lab access, equipment, software, printing.

Description: This course will provide students with an introductory-level investigation of the skills and concepts used in experimental digital video making. Students will learn video recording and editing in an art context and to incorporate video into their own creative practice. Students will also be introduced to historical and contemporary aesthetic and conceptual issues surrounding video as a form of creative expression.

ART 2810 - Experimental Course

Credits: (1-6)

Experimental

Course Fee: \$132.00

Course Fee Purpose: Topic and material-specific studio lab materials and equipment usage and fees. KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software and printing.

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ART 2830 - Directed Readings

Credits: (1-3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$37.00

Course Fee Purpose: KA digital lab access, equipment, software, scanning and printing.

Description: Individually chosen readings on specialized topics supervised by a faculty member.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

May be repeated twice with a maximum of 3 credit hours.

ART 2850 - Furniture Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Furniture Design explores the intersection of Sculpture and Design through furniture and object making. The course addresses emerging and historic approaches to furniture including both functional and sculptural approaches by contemporary artists and designers. Students will develop intermediate to advanced skills in woodworking and metalworking while studying design and sculpture concepts and gaining a broad understanding of materials. Students will be introduced to CNC fabrication technology and CAD software for designing and creating functional furniture and furniture as sculpture.

May be repeated three times with a maximum of nine credit hours.

ART 2890 INT - Cooperative Work Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.

Pre-requisite(s): Instructor approval (before enrollment) and previous or concurrent enrollment in art classes as specified by each area of emphasis.

May be repeated with a maximum of 6 credit hours.

ART 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ART 3085 - Critical Issues in Art

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces students to the history of ideas in art from the ancient Greeks to the most contemporary currents, with a focus on Modernism and Post-Modernism up to the present. The goal of this course is the creation of a critical and theoretical foundation that will allow student to locate themselves and their work within the context of critical dialogues in the contemporary art world. Class time will involve discussions of assigned readings, with images presented to supplement and inform the ideas under consideration.

Pre-requisite(s): ART 1040 or consent of instructor.

ART 3120 - Figure Drawing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$147.00

Course Fee Purpose: Studio lab materials and model fees. KA Sculpture Studio Lab equipment, materials & assistance; KA Digital Lab access, equipment, software and printing.

Description: Study of the anatomical structure of the human body. The student, by means of drawing from the model, explores literal and experimental interpretation of form.

Pre-requisite(s): ART 1110 and ART 1120; or consent of instructor.

ART 3150 - Intermediate Photography: Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$162.00

Course Fee Purpose: KA 3D studio lab equipment, materials & assistance, KA digital lab access, equipment, software, printing, studio lab photo materials, equipment, maintenance.

Description: This course is designed to introduce students early to the type of intense investigation and experimentation necessary to define and execute a semester long project in photography. Emphasis will be on development of ideas, fine-tuning technique, and improving ability in critical evaluation and writing. Other topics covered will be an introduction to professional medium-format cameras, and portfolio preparation.

Pre-requisite(s): ART 2250 and ART 2450.

May be repeated twice with a maximum of 6 credit hours.

ART 3200 - Intermediate Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$164.00

Course Fee Purpose: Printmaking studio lab materials, equipment, maintenance. KA Sculpture Studio Lab equipment, materials & assistance; KA Digital Lab access, equipment, software and printing.

Description: An intermediate level class with emphasis on screen-printing, relief, and intaglio with further exploration into print processes that include photographic stencils and multicolor printing.

Pre-requisite(s): ART 1120 and ART 2200; or consent of instructor.

ART 3210 - Relief Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$164.00

Course Fee Purpose: Printmaking studio lab materials, equipment, maintenance. KA Sculpture Studio Lab equipment, materials & assistance; KA Digital Lab access, equipment, software and printing.

Description: Students will learn the basic printmaking processes and traditional techniques of carving and printing both wood and linoleum relief blocks. Contemporary approaches to relief processes through digital media experimentation will be introduced. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. Safety issues will be addressed. Students will work from an introductory through an intermediate level, with a variety of progressive projects, each resulting in a small edition. The course will be administered through lecture, process demos, in class work time, and peer/individual critiques. Materials fee will cover most studio costs, excluding plates and paper. May be repeated once up to 6 credit hours.

ART 3215 - Etching Printmaking

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$164.00

Course Fee Purpose: Printmaking studio lab materials, equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Students learn basic platemaking and printing techniques used in etching while learning to incorporate their own drawing skills and points of view. Line work, aquatint, and ancillary techniques will be explored. Safety issues will be addressed. Historical and contemporary prints and printmakers are reviewed. Emphasis is on development of the student's own ideas through experimentation, using traditional and non-traditional forms and processes. The course will be administered through lecture, demos, in class work time, and formal and informal peer critiques. Materials fee to cover most supplies except for printing plates and paper. May be repeated once up to 6 credit hours.

ART 3250 - Experimental Filmmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course is an introduction to experimental and avant garde filmmaking and cinema. This hands-on production based course will expose students to alternative film and video history, diverse experiences, artistic practice, and experimental methods of filmmaking. Students will be encouraged to push the boundaries of conventional cinema and experiment with the material and conceptual possibilities of filmmaking to create their own film projects.

Pre-requisite(s): ART 2750 or FILM 2280 or COMM 2250.

ART 3310 - Ceramics II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$194.00

Course Fee Purpose: Ceramics Studio lab clay materials, equipment and maintenance. KA Sculpture Studio I Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: The second class in a two-part introductory ceramics series. This course expands upon hand-building and covers wheel-thrown techniques in greater depth. Additional approaches to clay surfacing are explored. Students learn clay mixing, glaze testing and principles of kiln firing.

Pre-requisite(s): ART 2310.

ART 3320 - Ceramic Processes

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$194.00

Course Fee Purpose: Ceramics Studio lab clay materials, equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This course focuses on specific ceramic processes, trends or concepts that are not normally taught in the regular ceramics classes. Consult department or instructor for course topic prior to enrollment.

Pre-requisite(s): ART 2310 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours.

ART 3350 - Small Metals/Jewelry II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Small Metals (Sculpture) studio lab materials and equipment. KA digital lab access, equipment, software and printing.

Description: Development of design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, surface enrichment.

Pre-requisite(s): ART 2350 or consent of instructor.

ART 3410 - Design Seminar for Juniors

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment and guest lecture fees. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Orientation to professional Graphic Design practice for the Junior Graphic Design student. Includes art direction and work situations, client relations, portfolio and resume preparation, self-promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.

Pre-requisite(s): ART 3445 and ARTH 3451 or consent of instructor.

ART 3430 - Typography 1

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment and guest lecture fees. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Orientation to typographic communications including methods and processes, aesthetics, readability, typographic systems, grids, layout, and digital page composition.

Pre-requisite(s): ART 2430 or consent of instructor.

ART 3435 - Typography 2

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment and guest lecture fees. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Investigation into experimental and expressive aspects of typographic communication. Emphasis is placed upon the historical development of letter design, letter and text as visual form, and typographical illustration.

Pre-requisite(s): ART 2430 and ART 3430 or consent of instructor.

ART 3445 - Interaction Design 1

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Introduction to designing for the internet. Emphasis on the graphic design techniques and theories as applied to the web. Students explore best practices in web-based graphic design which includes implementing principles of branding, typography, usability, interface design, and information architecture. Students create web interfaces and design systems, and assemble them into working prototypes in preparation for web development.

Pre-requisite(s): ART 3430 or consent of instructor.

May be repeated once for credit.

ART 3460 - Illustration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment; KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Introduction to theory, methods, tools and materials, and the professional practice of illustration. Emphasis is placed on concept development, media exploration and technique as applied to a variety of problems in pictorial communication.

Pre-requisite(s): ART 1110 and ART 1120 or consent of instructor.

ART 3465 - Motion Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment; KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This course is an introduction to Motion Design (in relation to Graphic Design) and will cover the history and aesthetics of motion design, ways to think in time and space, techniques and methods for planning motion sequences, ways to think about and design with typography in motion, and the use of motion-specific industry-standard software and tools (Apple Motion, Adobe Flash, Adobe After Effects). This course aims to: provide historic and current perspectives regarding motion graphics and design; introduce students to categories, styles, terminology and vocabulary used in motion graphics and design; introduce students to basic techniques, methods and concepts used in motion design; work with typography and image in terms of motion; reinforce graphic design tenets and practices, and show how they extend to motion design.

Pre-requisite(s): (ART 3430 and ART 2435); or consent of instructor.

May be repeated three times for a maximum of nine credit hours.

ART 3500 - Advanced Time-Based Media/Video Art

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$129.00

Course Fee Purpose: Lens-based Studio Lab video materials, equipment and maintenance. KA Sculpture Lab equipment, materials & assistance; KA digital lab access, equipment, software, printing.

Description: A project-oriented studio course providing a more in-depth exploration of time-based media as used by contemporary artists with an emphasis on video. We will explore installation, projection and the web as environments for video art, as well as other media which allows the employment of time as a central element.

Pre-requisite(s): ART 2750.

ART 3515 - Art Methods and Resources for Secondary Teachers I [Art Methods I]

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Art Methods course materials and equipment. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This class prepares the art education candidate for teaching in the classroom, grades 7-12 and adaptable to K- 6. Experiences will include art activities, processes, materials, tools and resources, with the development and preparation of the accompanying curricula materials, lesson plans and assessments by the candidate. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Content will focus on the foundations of art education programming, including the art elements and design principles. In addition, this class will examine classroom management strategies and practices for the beginning teacher in the contemporary classroom. Art Education majors should have completed 40 credit hours; minors must have completed 12 credit hours.

Suggested Requisite(s): Professional Core Level, College of Education, or permission of instructor. This course is required for secondary certification and is designed be taken prior to student teaching.

ART 3520 - Art Methods and Resources for Secondary Teachers II [Art Methods II]

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Art Methods course materials and equipment. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades 7-12, and adaptable to K- 6. Candidate will develop and prepare materials for advanced visual arts programming. Further investigation of classroom management practices appropriate to adolescents and young adults. Collaboration, mentorship and leadership will be emphasized. Curriculum aligns with State of Utah's core curriculum and national standards in the visual arts. Art education Majors should have completed 40 credit hours; minors must have completed 12 credit hours.

Pre-requisite(s): ART 3515 or consent of instructor.

Note: This course is required for secondary certification and is designed to be taken prior to student teaching.

ART 3525 - Practicum: WSU ArtsBridge Service-Learning

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This service-learning course provides the fine arts teacher candidate with academic credit for designing and teaching an integrated arts course in a grade K-12 classroom or equivalent community education

program. The candidate will work closely with a University faculty mentor, host school teacher and ArtsBridge director in implementing and assessing integrated arts curricula and producing a final project by K-12 classroom students. Course components include: curricula pre-planning and implementation, in-class teaching, student assessment, candidate self-assessment and ArtsBridge seminar components. By permission only. Fine arts education content area supervisor and successful interview with faculty mentor and/or ArtsBridge director. Content methodology course(s) complete or in progress.
May be repeated once with a maximum of 12 credit hours.

ART 3530 - Art Methods and Resources for Elementary Art Teachers K-6

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Art Methods course materials and equipment. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Examination of advanced approaches, methodologies, and curriculum appropriate to teaching visual arts in grades K-6. Candidate will develop and prepare materials for elementary visual arts programming, in alignment with state and national standards.

Pre-requisite(s): ART 3515.

ART 3550 - Advanced Photography: View Camera

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$175.00

Course Fee Purpose: Studio Lab materials, large format photography equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: The theory, aesthetics, and techniques of photographic image making with the view camera. Students will learn the operation of large format cameras, the Zone System method of negative exposure and development and methods for fine-tuning black and white photographic printing. The history of and contemporary trends in working with large format negatives will also be explored.

Pre-requisite(s): ART 3150 or consent of instructor.

May be repeated once with a maximum of 6 credit hours.

ART 3600 - Painting II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$92.00

Course Fee Purpose: Painting Studio Lab painting materials and equipment. KA Sculpture Lab equipment, materials & assistance, KA Digital Lab access, equipment, software and printing.

Description: Consolidates and further develops material covered in Painting I. Investigations include the figure, mixed media, and abstraction. Historical precedents are discussed through slide lecture as an aid to development.

Pre-requisite(s): ART 1120 and ART 2600; or consent of instructor.

ART 3700 - Sculpture II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Sculpture Studio Lab course materials, equipment and maintenance; KA Digital Lab access,

equipment, software and printing.

Description: An introduction to the form language of sculpture with projects designed to develop conceptual thinking skills, to learn technical skills, and to explore new areas of interest in the three-dimensional visual arts.

Pre-requisite(s): ART 1130 and ART 2700; or consent of instructor.

ART 3720 - Public Art

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 2nd Blk, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$137.00

Course Fee Purpose: Sculpture Studio Lab course materials, equipment and maintenance; KA Digital Lab access, equipment, software and printing.

Description: Public Art covers a broad range of historic and current approaches to working in the public realm, including: murals, monuments, community-based projects, ecologically-focused projects, site-specificity and environmental art. Students will learn to create 2D, 3D and/or digital renderings and models to develop public art concepts, while gaining knowledge of real-world opportunities for visual artists and designers. Students will learn professional practices, skill building for the discipline, and how to assemble a public art proposal. Students can repeat the course for additional credit a maximum for 2 times (6 credit hours total).

ART 3800 - Travel-Study Studio

Credits: (1-3)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Description: Studio projects will be based in response to the opportunities afforded by travel-study. These works may be a direct response to the country or region and its culture or they may be related to an event that takes place in that area while students are visiting. Instruction will be given in English.

Pre-requisite(s): ART 1040 or consent of instructor.

May be repeated up to 4 times and up to 12 credit hours.

ART 3810 - Experimental Course

Credits: (1-6)

Experimental

Course Fee: \$132.00

Course Fee Purpose: Topic and material-specific studio lab materials and equipment usage and fees. KA Sculpture Lab equipment, materials and assistance; KA digital lab access, equipment, software and printing.

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ART 3995 - BFA Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$37.00

Course Fee Purpose: KA Sculpture Lab equipment, materials and assistance, KA Digital Lab access, equipment, software and printing.

Description: This is a seminar/discussion and studio course that guides BFA students in the research, development, and articulation of a thematic body of work, within the context of contemporary art. Studio projects will be directed

toward bringing individual vision toward full expression.

Pre-requisite(s): BFA students who have completed second-level course in their studio area only.

ART 4010 - Museum Methods

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course explains and demonstrates the three main areas of emphasis within the museum studies field: collections management, curation and interpretation, and arts administration. The course meets two time a week for a three hour session.

Pre-requisite(s): Consent of instructor.

ART 4110 - Advanced Drawing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$62.00

Course Fee Purpose: Drawing studio supplies and materials; KA Sculpture Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Continued drawing exploration in various media with emphasis on focused personal direction, independent serial work, presentation of assigned research into related contemporary work, active participation in the critique process.

Pre-requisite(s): ART 3120 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4120 - Advanced Figure Drawing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$147.00

Course Fee Purpose: Studio lab materials and model fees. KA Sculpture Studio Lab equipment, materials & assistance; KA Digital Lab access, equipment, software and printing.

Description: Advanced study of the structure of the human body with a greater stress on draftsmanship, historical uses of the figure in art, and individual explorations.

Pre-requisite(s): ART 3120 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4200 - Advanced Printmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$164.00

Course Fee Purpose: Printmaking studio lab materials, equipment, maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: An advanced level class in printmaking with emphasis on screen-printing, relief, intaglio, and/or lithography. Emphasis on individual portfolio production.

Pre-requisite(s): ART 3200 or consent of instructor.

May be repeated twice with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4310 - Ceramics III: Intermediate

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$194.00

Course Fee Purpose: Ceramics Studio lab clay materials, equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This course addresses intermediate issues in craftsmanship, form and content through assignments and projects. Students will conduct directed research, draft proposals, fire kilns, make clay and mix glazes.

Pre-requisite(s): ART 3310 or consent of instructor.

ART 4320 - Ceramics IV: Advanced

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$194.00

Course Fee Purpose: Ceramics Studio lab clay materials, equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This course addresses advanced issues in craftsmanship and concepts through lecture and proposal based projects. Research assignments that explore ceramic processes and current trends in ceramic art are emphasized.

Pre-requisite(s): ART 4310 or consent of instructor.

May be repeated 4 times with a maximum of 12 credit hours.

ART 4350 - Small Metals/Jewelry III

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Small Metals/Jewelry (Sculpture) studio lab materials and equipment. KA digital lab access, equipment, software and printing.

Description: Development of advanced design concepts and procedures with emphasis on basic techniques and concept development in fabrication, casting, enameling, cold connectors, and surface enrichment.

Pre-requisite(s): ART 3350 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4400 - Advanced Graphic Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment plus guest lecture fees. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Application of design theory and process to complex problems in visual communication. Emphasis is placed on research, analysis, problem definition, and the development of individual design solutions. Studio projects vary each term and will generally involve visual identity, information design, environmental graphics, publication design, and design for interactive media.

Pre-requisite(s): ART 3435, ART 3445, ARTH 3451, and BFA program admission or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours-please consult a faculty advisor.

ART 4410 - Design Seminar

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio materials and equipment plus guest lecture fees. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Orientation to professional practice in visual communication including art direction and work situations, client relations, portfolio and resume preparation, self-promotion, and career advancement. Course contents will be explored through reading, writing, lecture, discussion, critique, simulation, guest presentations, studio visits, and project work tailored to individual portfolio development.

Pre-requisite(s): ART 3410 and BFA program admission, or consent of instructor.

May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4415 - Design Production

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Technical processes and procedures for Art Major, Visual Communication emphasis. Emphasis is placed on file preparation and technical procedures for electronic media and for offset printing including proofing methods, paper, binding and other finishing processes.

Pre-requisite(s): ART 3430 and ART 3435 or consent of instructor.

ART 4420 - Advanced Digital Media

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$82.00

Course Fee Purpose: Design Studio materials and equipment. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Students will further develop personal expression in the visual arts using computer media through aesthetic problem solving and further development of digital media skills. There will be an emphasis on strengthening the students' ability to work independently while supplying the necessary feedback from the interaction of a class.

Pre-requisite(s): ART 2420A, ART 2420B, ART 2420C, ART 2420D, or consent of instructor.

May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4440 - Interaction Design 2

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$82.00

Course Fee Purpose: Design Studio materials and equipment. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This course is an introduction to the principles of interaction design as it relates to physical and digital space, with a focus on designing user-centered artifacts like interactive publications and apps for hand-held devices. Theoretical concepts like ethnography, user-testing, and the use of mapping in design will be explored. We will also explore the landscape of technology as it relates to interaction, and the use of appropriate tools and software to create prototypes and functioning digital designs.

Pre-requisite(s): ART 3445 or consent of instructor.

May be repeated once for credit.

ART 4460 - Advanced Illustration

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$107.00

Course Fee Purpose: Design Studio and Illustration materials and equipment. KA Sculpture Studio lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Development of individual approaches to advanced problems in illustration. Emphasis is placed on the formulation of visual metaphor, articulation of form, and on professional practices. Studio projects vary each term and will generally involve editorial, reportorial, scientific, advertising, and instructional problems in pictorial communication.

Pre-requisite(s): ART 3460 or consent of instructor.

May be repeated twice with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4500 - Special Topics in Graphic Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A study of specific topics in the field of graphic design like Design for Social Impact, Conditional Design, Content to Cover: The Design of Books, Image and Meaning, Design for Healthcare: Understanding Health and Well Being and Global Topics in Graphic Design. The subject and faculty change each time this course is offered.

Pre-requisite(s): ART 3410 or consent from instructor

ART 4550 - Advanced Photography: Lighting for Photo & Video

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$162.00

Course Fee Purpose: Studio Lab materials, lighting equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This is a practical course that enables students to better control and use light and lighting in their work. Students will be introduced to a range of artificial light sources and lighting techniques to be used as a means of creative control. Work will center in the studio where controlled conditions and a directorial approach can yield the artist's intent.

Pre-requisite(s): ART 2450.

May be repeated once with a maximum of 6 credit hours.

ART 4600 - Painting III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$92.00

Course Fee Purpose: Painting studio lab painting materials and equipment. KA Sculpture Lab equipment, materials and assistance, KA Digital Lab access, equipment, software and printing.

Description: Emphasis on developing independence in the painting student and to provide an opportunity for them to pursue their own area of interest in painting while providing the necessary feedback from the interaction of a class.

Pre-requisite(s): ART 3600 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4660 - Advanced Photography: Special Topics

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$137.00

Course Fee Purpose: Studio Lab materials, photography equipment and maintenance. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: A study of specific topics in photography, the subject and faculty change each time this course is offered. Example topics include "Documentary Photography," "Visual Books," "The Portrait," and "Directed Visions."

Pre-requisite(s): ART 3150 or consent of instructor.

May be repeated 2 times for credit - consult with faculty advisor.

ART 4700 - Sculpture III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$132.00

Course Fee Purpose: Sculpture Studio Lab course materials, equipment and maintenance, plus KA Digital Lab access, equipment, software and printing.

Description: Advanced individual problems in selected areas of concentration; research and development of conceptual, technical, and methodological concerns.

Pre-requisite(s): ART 3700 or consent of instructor.

May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4750 - Advanced Photography: Experimental Strategies

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$162.00

Course Fee Purpose: Studio Lab materials and equipment. KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: This course explores experimental photographic alternatives to the traditional methods of photographic image making. Emphasis will be placed on using the camera, darkroom techniques and digital and emerging technology in ways that will give the students the mind-set and ability to push the limits of the medium.

Pre-requisite(s): ART 2450 or ART 2250.

May be repeated 3 times with a maximum of 9 credit hours. Please consult a faculty advisor.

ART 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ART 4810 - Experimental Course

Credits: (1-6)

Experimental

Course Fee: \$114.00

Course Fee Purpose: Topic-appropriate studio materials; KA Sculpture Studio Lab equipment, materials and assistance; KA Digital Lab access, equipment, software and printing.

Description: Consult the semester class schedule for the current offering under this number. The specific title and

credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ART 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individually chosen readings on specialized topic supervised by a faculty member.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

May be repeated twice with a maximum of 3 credit hours. Please consult a faculty advisor.

ART 4890 INT - Cooperative Work Experience

Credits: (1-2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An opportunity for students to receive academic credit for faculty approved on-the-job learning experiences within certain visual arts areas of emphasis. C/NC only.

Pre-requisite(s): By instructor approval only and previous or concurrent enrollment in art classes as specified by each area of emphasis.

May be repeated for a maximum of 6 credit hours. Please consult a faculty advisor.

ART 4900 - Individual Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$37.00

Course Fee Purpose: KA Digital lab access, equipment, software and printing.

Description: Individual studies in selected areas of emphasis. Open to juniors and seniors by instructor approval only.

May be repeated for a maximum of 6 credit hours. Please consult a faculty advisor.

ART 4910 INT - Advanced Photography: Internship

Credits: (1-3)

Description: Students have the opportunity to engage in a close learning relationship with professional photographers. These opportunities include workshops, seminars, professional assistantships, and residencies. Students will be responsible for researching and proposing mentorships. Area faculty will approve proposals, help place students with mentors and review the progress of mentorships.

Pre-requisite(s): ART 3150 or consent of instructor.

May be repeated for credit. Please consult a faculty advisor.

ART 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ART 4930 INT - Teaching Assistantship Experience

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Designed for students who wish to gain teaching experience for graduate school. By observation and participation with the instructor, students will learn how a basic art course is designed and taught.

Pre-requisite(s): Student must be in the BFA program and have instructor consent.

ART 4990 - BFA Thesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$37.00

Course Fee Purpose: KA Sculpture Lab equipment, materials and assistance, KA Digital Lab access, equipment, software and printing.

Description: Emphasis on portfolio preparation and professional writing skills pertinent to the completion of the BFA Thesis Exhibit and future career applications. Students work on the development and synthesis of ideas, and fine-tune relevant artistic and critical evaluation skills. During this course students will be required to produce new work for the BFA Thesis Exhibit.

Pre-requisite(s): Senior level BFA student. Completion of ART 3995 BFA Seminar. Registration by departmental approval only. Course cannot be taken during the semester immediately following BFA Seminar.

May be repeated for credit. Please consult a faculty advisor.

ARTH 1090 CA - Art and Architecture of the World: Paleolithic-AD 1000

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A global survey of the history of art and architecture from BC 15,000 to AD 1000. Visual art from the first artistic expressions on rocks to the art of emerging civilizations (such as Mesopotamia, Egypt, China, India, and Africa), and the monuments and small-scale artifacts of the Medieval Ages will be analyzed in its historical, social, political, and broader cultural contexts.

Pre-requisite(s): ENGL 1010 or with instructor consent.

ARTH 1100 CA/GLB - Art and Architecture of the World: AD 1000-Present

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A global survey of the history of art and architecture from AD 1000 to the present. Visual art from Gothic cathedrals and Islamic book art to Renaissance Europe and the Chinese Empire, from the Age of Enlightenment to contemporary art will be analyzed in its historical, social, political, and broader cultural contexts.

Pre-requisite(s): ENGL 1010 or with instructor consent.

ARTH 2010 - Art Culture of the Ancient Mediterranean

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: This course will explore the range of cultural interactions in the ancient Mediterranean world. From the Bronze Age (ca. 3000 BCE) to Medieval period (ca. 1300 CE), we will focus on specific moments when disparate cultures interact with one another resulting in multi-cultural art. As powers and empires rose and fell, we will use an

international perspective to see how trade and diplomacy impacted the creation of art and material culture.

Pre-requisite/Co-requisite: ENGL 1010 or with instructor consent.

Suggested Requisite(s): ARTH 1090 or ARTH 1100.

ARTH 2040 - Art and Architecture of Asia

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A historical account of the architecture, sculpture, and painting of Asia (India, Nepal, Tibet, Myanmar, Sri Lanka, Thailand, Cambodia, Indonesia, China, Korea, and Japan), including the political, religious, and intellectual history informing the arts of each country.

ARTH 2050 GLB - Visual Art in a Global Context

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces questions, debates, and developments in art history and visual studies within their broader thematic and global contexts. It provides students with critical frameworks for examining and comparing artistic production from different temporal, geographic, socio-political, and cultural perspectives.

ARTH 2055 - Intermediate Special Topics in Art History

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This intermediate-level (lower division) course will explore different topics and content related to the production of visual and material culture and art history; the content of the course will change as the main topic changes. Students will gain the benefit of an exploration into a specific time period, discourse, or exploration of media.

Pre-requisite(s): ENGL 1010.

Suggested Requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2050.

May be repeated 3 times for a max of 12 credits.

ARTH 3010 GLB - Art and Visual Cultures of Latin America

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: This course introduces students to the visual culture and architecture of 20th and 21st century Latin America. Students will analyze a wide range of material from disciplines like architecture, urban planning, printmaking, photography, and painting as they relate to real and imagined definitions of "Latin America," and corresponding notions of nation and state. The course pays particular attention to critical debates around the intersection of art and politics, and the construction of race and gender.

Suggested Requisite(s): ART 1040 or ARTH 1090 or ARTH 1100 or ARTH 2050.

ARTH 3015 - Latinx Visual Art and Culture

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: This course explores visual art and culture of U.S. Latinos/as/x from the 1960s to the present. It examines the history and context of artistic production related to critical debates about representation, identity, gender, sexuality, class, and politics. It analyzes a wide range of media including film, photography, performance,

muralism, and art exhibits as they relate to identity, feminism, collaboration, and the politics of aesthetics within Latinos/as/x in the U.S.

Suggested Requisite(s): ART 1040 or ARTH 1090 or ARTH 1100 or ARTH 2050.

ARTH 3030 - Native American Art of the Southwest: From the Anasazi to the Present

Credits: (4)

Typically Taught Fall Semester: *Full Sem odd years*

Description: Focuses on the arts of the Native Americans in the Southwest from their archaeological past to the present with occasional relevant explorations of Native American art in general. Study of traditional and contemporary modes of artistic expressions.

ARTH 3040 - Global Modernisms

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: This course focuses on the visual art and culture, architecture, and critical debates from 1850 to the 1960s. It explores the continuous evolution of Modernism, its roots, and dissemination across diverse global contexts. Students will explore a range of *-isms*-spanning Africa, Asia, Europe, Latin America, and the United States-and consider how each region contributed to and reshaped Modernism. Emphasis will be placed on the challenges facing Modernism with attention to the political, social, and intellectual histories that shaped these transformations. Cross-cultural influences and exchanges will frame our study of how artists around the world redefined Modernist practices to reflect their unique perspectives.

Pre-requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2050 or ANTH 1000 or ENGL 2010 or ENGL 2015 or HIST 1500 or HIST 1510 or with instructor consent.

ARTH 3045 - Global Modernisms: Early 20th Century to 1960

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: The history of visual art and culture from circa 1900 to the 1960s. This course explores the continuous evolution of Modernism. Areas of study will include Cubism to Vorticism, Colonialism and Modernism in Africa, Central European Avant-Gardes, International Dada and Surrealism, African-American Modernism and the crisis of Modernism in the post-colonial, post-war global community. The political, social, and intellectual histories that inform the arts as well as pertinent cross-cultural considerations will provide the context for exploring these global modernisms.

ARTH 3050 - Contemporary Art

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: Critical analysis of developments in the arts (including multimedia art, photography, performance art, installations, and feminist art) from 1960s to the present. Emphasis on post-modern currents and issues and their study in the context of broader cultural contexts.

Pre-requisite(s): ARTH 1100 or consent of instructor.

ARTH 3055 - Advanced Special Topics in Art History

Credits: (4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem odd years*

Description: This advanced-level (upper division) will explore different topics and content related to the production

visual and material culture and art history; the content of the course will change as the main topic changes. Students will gain the benefit of a deep dive into a specific time period, discourse, or exploration of media.

Pre-requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2050 or ANTH 1000 or ENGL 2010 or ENGL 2015 or HIST 1500 or HIST 1510 or with instructor consent.

May be repeated four times for a maximum of 12 credit hours.

ARTH 3060 - The Art and Architecture of India

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: An historical account of the architecture, sculpture, and painting of India, including the political, religious, and intellectual history informing the arts of various regions.

ARTH 3070 - The Art and Architecture of China

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: An historical account of the architecture, sculpture and painting of China including the political, religious, and intellectual history informing the arts of different regions.

May be repeated for a maximum of 4 credit hours. Please consult a faculty advisor.

ARTH 3080 - The Art and Architecture of Japan

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: An historical account of the architecture, sculpture and painting of Japan, including the political, religious, and intellectual history informing the arts of different regions.

May be repeated for a maximum of 4 credit hours. Please consult a faculty advisor.

ARTH 3100 - The Art and Architecture of the Byzantine and Islamic Worlds

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: This course will explore two major cultures in the Eastern European and Asian worlds: the Byzantine and Islamic. A historical survey of the architecture, sculpture, and painting of the Byzantine and Islamic worlds, including the political, religious, and intellectual history informing the arts of different countries.

Pre-requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2050 or ANTH 1000 or ENGL 2010 or ENGL 2015 or HIST 1500 or HIST 1510 or with instructor consent.

ARTH 3200 - The Art and Archaeology of Greece

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: This course will explore sites, like Mycenae, Athens, Olympia, and Delphi, and historical impacts, like the Persian War, spread of democracy, and Alexander the Great's campaigns, to study and understand the art and architecture created. We will approach these topics through the archaeology of the Greek world from the bronze age through the end of the hellenistic period (ca. 3000-30 BCE). This class will be centered around the objects to learn how Greek culture is studied through the places they built and the objects they made.

Suggested Requisite(s): ARTH 1090 or ARTH 1100 or ART 1040 or ANTH 2030.

ARTH 3451 - Design History and Theory

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An investigation of selected movements, figures and theories from the history of graphic design. Contents include intersections with art and related disciplines along with the social, political, and technical forces that have influenced visual culture over time. Topics are selected thematically according to their significance to the design profession in our current day and include the role of design research in contemporary practice.

Pre-requisite(s): (ART 3430 and ART 2435); or consent of instructor.

ARTH 3850 - Travel-Study Art History

Credits: (1-4)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Description: The study of the history of art and architecture will be in direct response to a country or region and its culture or it may be related to an event that takes place in that area while students are there. Instruction will be given in English.

Pre-requisite(s): ARTH 1090 or ARTH 1100 or ARTH 2040.

ARTH 3950 - Photography: History, Theory and Criticism

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: This is a reading, writing and discussion course, which addresses historical and contemporary issues of photographic art practices. Written projects and class discussions will focus on developing a critical understanding of the readings as they relate to the historical development and contemporary practice of photography as a fine art, to the influence photography has had on the history of art and to the broader cultural impact of photography and digital media.

Pre-requisite(s): ARTH 1100 or consent of instructor.

ASL 1010 - First Semester ASL

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

ASL 1020 - Second Semester ASL

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

Description: (N=Novice) Continuation of ASL 1010. Basic language skills including listening, speaking, reading, writing and culture.

ASL 2010 - Third Semester ASL

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

Description: (NH=Novice High) Continuation of ASL 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

ASL 2020 HU - Fourth Semester ASL

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

Description: (NH=Novice High) Continuation of ASL 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

ASL 2021 - Second Year II

Credits: (3)

Description: (NH=Novice High) Continuation of ASL 2010 without General Education Humanities credit. Offered through examination only.

Note: Only available through testing.

ASL 2030 - Second Year Language Review

Credits: (3)

Course Fee: \$8.00

Course Fee Purpose: Maintain and replace equipment in the WLC lab, EH 408, and classroom technology; support for student tutors and online instructional resources.

Description: (NH=Novice High) This course will prepare students who wish to continue language study. Emphasis on conversational skills and a review of language structure and usage.

Note: Check with department for course availability.

ASL 2920 - Short Courses, Workshops, Institutes and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ASL 3000 - Proficiency Development

Credits: (3)

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

ASL 3116 - DLI Bridge Course I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

ASL 3117 - DLI Bridge Course II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

ASL 3118 - DLI Bridge Course III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 4 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): ASL 2020 or AP exam with a score of 4 or better.

ASL 3270 - Special Topics in Linguistics

Credits: (3)

Variable Title

Description: (IM=Intermediate Mid) An introduction to linguistic structures and semantic elements. The course provides useful information and practice in the language, its structures and usage. The sub-disciplines of linguistics, other than phonetics and phonology, will be studied. These may include lexical analysis, semantics, morphology, syntax, linguistic change and dialectal variation.

Note: Check with department for course availability.

ASL 3550 GLB - Cultural Heritage I

Credits: (3)

Variable Title

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and

civilization.

May be repeated up to 7 times for credit and for other non-English speaking cultures.

ASL 3570 - Special Topics in Culture

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem - Online*

Course Fee: \$8.00

Course Fee Purpose: Course fees for World Languages & Cultures courses are designed to cover the costs of classroom equipment maintenance and replacement such as desktops, projectors, projector screens, and software, including the tutoring suite (EH 244) and the language lab (EH 408); consumable materials and supplies; and support for student tutors, and online instructional resources.

Description: (Intermediate Mid) In-depth studies in history, geography, social customs, fine arts, and civilization of ASL cultures. This is a variable title course; content and emphasis may vary from semester to semester.

Pre-requisite(s): ASL 2020 or ASL 2030 or Equivalent

ASL 4830 - Directed Readings

Credits: (1-3)

Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.

May be repeated up to 10 times.

Note: Check with Department for course availability.

ASL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: (Minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Course not currently being offered.

ASTR 1040 PS - Elementary Astronomy

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$10.00

Course Fee Purpose: Consumables and maintenance of equipment used for teaching demonstrations.

Description: A brief survey of the physical universe using the fundamental laws of physics. Topics include the history of astronomy, the solar system, the sun, the evolution of stars, pulsars, black holes, the Milky Way galaxy, galaxies, quasars, and the Big Bang.

Three hours of lecture per week.

Cross-listed with PHYS 1040.

ASTR 2040 PS - Principles of Observational Astronomy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: An introductory course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation.

Pre-requisite(s): MATH 1060 (minimum grade of C).
Cross-listed with PHYS 2040.

ASTR 2800 - Introductory Individual Research Problems

Credits: (1-3)

Description: Time and credit to be arranged. Intended for students working on a directed research project which includes physics/astronomy at the lower division level for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 2800.

May be repeated up to 10 times.

ASTR 2830 - Introductory Readings in Physics/Astronomy

Credits: (1-3)

Description: Time and credit to be arranged. Intended for students working on a directed reading project which includes physics/astronomy at the lower division level for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 2830.

May be repeated up to 10 times.

ASTR 3040 - Principles of Observational Astronomy, Advanced

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: An advanced course in observational astronomy. Topics will include planetary, stellar, and galactic astronomy, with a focus on modern observational techniques, including digital imagery, spectroscopy, and observing with science-grade astronomical instrumentation. This course also covers general scientific practice, data analysis, and error propagation.

Pre-requisite(s): PHYS 2710 and PHYS 3180.

ASTR 3160 - Stellar and Planetary Astrophysics

Credits: (3)

Typically Taught Spring Semester: *Full Sem Odd Years*

Description: Selected topics in astrophysics with a focus on stellar and planetary systems. Topics may include celestial mechanics, interaction of light and matter, stellar and planetary spectroscopy, stellar atmospheres and interiors, binary star systems, planets and planet formation, and extrasolar planets.

Pre-requisite(s): PHYS 2220.

Cross-listed with PHYS 3160.

ASTR 3170 - Galaxies and Cosmology

Credits: (3)

Typically Taught Spring Semester: *Full Sem Even Years*

Description: Selected topics in astrophysics, with a focus on galactic astronomy and cosmology. Topics may include gravitational dynamics, interaction of light and matter, galaxy classification, galaxy formation and evolution, the structure of the universe, cosmology, and the origin and fate of the universe.

Pre-requisite(s): PHYS 2220.

Cross-listed with PHYS 3170.

ASTR 4800 - Individual Research Problems

Credits: (1-3)

Description: Time and credit to be arranged. Open to qualified students for one or more semesters.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 4800.

May be repeated up to 10 times.

ASTR 4830 - Readings in Physics/Astronomy**Credits: (1-3)**

Description: Topics which can be studied include (but are not limited to): mechanics, thermodynamics, kinetic theory, statistical mechanics, electronics, electromagnetism, optics, solid-state physics, modern physics, nuclear physics, relativity, cosmology, and astrophysics. These courses may be taken at any time on a personalized basis. Time and credit to be arranged.

Pre-requisite(s): Consent of instructor.

Cross-listed with PHYS 4830.

May be repeated up to 10 times.

ATHL 1080 - Strength Training Level I**Credits: (1)**

Description: -For Club Hockey Players Only

May be repeated five times for credit.

ATHL 1081 - Strength Training Level II**Credits: (1)**

Description: -For Club Hockey Players Only

May be repeated five times for credit.

ATHL 1180 - Varsity Softball**Credits: (1)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of softball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1510 - Varsity Volleyball**Credits: (1)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of volleyball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1520 - Varsity Soccer

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of soccer at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1570 - Varsity Basketball

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of basketball at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1580 - Varsity Cross Country

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of cross country at the collegiate level. Students will learn techniques and participate in drills to assist with the development of competitive skills and prepare for varsity cross country meets.

May be repeated 7 times with up to 8 credit hours.

ATHL 1590 - Varsity Football

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of football at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1600 - Varsity Golf

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of golf at the collegiate level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1630 - Varsity Tennis

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of tennis at the collegiate

level. Students will learn techniques, drills, and games to assist with the development of skills and competitive game play.

May be repeated 7 times with up to 8 credit hours.

ATHL 1640 - Varsity Track, Field, and Cross Country

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of track and field at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition.

May be repeated 7 times with up to 8 credit hours.

ATHL 1680 - Varsity Indoor Track

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in the sport of indoor track at the collegiate level. Students will learn techniques and drills to assist with the development of skills for competition.

May be repeated 7 times with up to 8 credit hours.

ATHL 1760 - Spirit Squad

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This athletic activity course is intended to engage students in dance/cheer for the spirit squad at the collegiate level. Students will learn techniques to assist with the development of skills and performance.

May be repeated 7 times with up to 8 credit hours.

ATTC 3000 - Introduction to Automotive Technology

Credits: (1)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Course Fee: \$5.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An introduction to the Automotive Technology program. Degree requirements and options, internship preparation, employment opportunities, required professional publications, communication, and other topics. (This course is a prerequisite for most automotive technology courses.)

Pre-requisite(s): Proof of completion of an Associate of Applied Science AAS or Associate of Science AS degree in automotive service technology or a related degree.

ATTC 3020 - Introduction to Safety Management and Hazardous Materials

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$15.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An overview of the environmental issues related to the use and service of vehicles, with emphasis on

air quality topics. Environmental regulations, safe practices, disposal of hazardous substances, such as paints and solvents.

ATTC 3260 - Advanced Electrical Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$45.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: A study of the advanced electrical systems in today's vehicles. Vehicle communication networks, body control systems, chassis control systems, powertrain control, hybrid control, and battery control systems. Upon completion of this course and the required work experience as set by ASE, student can sit in on "L4 Advanced Driver Assistance Systems" certification provided by ASE.

ATTC 3280 - Advanced Painting and Refinishing

Credits: (3)

Description: Preparation for insurance industry employment. Includes advanced topics in surface preparation and application of contemporary and specialty paints. Matching, blending and complete vehicle refinishing. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.

Lab included.

Pre-requisite/Co-requisite: ATTC 3000.

Note: Course not currently being offered.

ATTC 3480 - Advanced Structural Analysis and Damage Repair

Credits: (3)

Description: Preparation for insurance industry employment. Includes advanced topics in frame and unibody repair. Replacement of major panels, measuring and corrective pulling, and occupant safety systems. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.

Lab included.

Pre-requisite(s): ATTC 3280.

Note: Course not currently being offered.

ATTC 3520 - Fleet Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Description: Study of fleet standards, fixed operations, inventory and personnel management, financial policies and procedures. Includes financial statement analysis.

ATTC 3620 - Automotive Business Practices

Credits: (3)

Typically Taught Spring Semester: *Full Sem Online*

Course Fee: \$15.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Study of independent shop and corporate dealership standards, fixed operations, inventory and personnel management, and industry report systems, financial policies and procedures. Includes financial statement analysis.

ATTC 3680 - Automotive Damage Analysis and Estimating

Credits: (3)

Description: Preparation for insurance industry employment. Includes an overview of vehicle damage analysis, restraint systems, mechanical and electrical systems. Topics also include industry standard terminology, procedures, and estimation software usage.

Lab included.

Pre-requisite(s): ATTC 3480.

Note: Course not currently being offered.

ATTC 3760 - Advanced Automotive Technologies

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Course Fee: \$10.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: A study of current events/trends in the automotive industry, industry standard professional publications, and the latest technologies used by the automotive industry to meet current emissions, fuel economy, and safety regulations.

ATTC 3860 - Automotive Standards, Laws, and Regulations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A study of automotive industry related Society of Automotive Engineers (SAE) standards, State Regulations, U.S. Environmental Protection Agency (EPA) emissions regulations, National Highway Traffic Safety Administration (NHTSA), Federal Motor Vehicle Safety Standards (FMVSS), Corporate Average Fuel Economy (CAFE) regulations, and others.

ATTC 3880 INT - Cooperative Practicum

Credits: (3)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: Supervised work experience with a sponsoring employer, designed to synthesize theory and practice. Full-time, upper division related employment and approval of faculty supervisor required.

ATTC 4380 - Advanced Non-Structural Analysis and Damage Repair

Credits: (3)

Description: Preparation for insurance industry employment. Includes advanced topics in safety, welding processes, panel repair and replacement, trim application, water and wind leakage. Inter-Industry Conference on Auto Collision Repair (I-CAR) training modules are included.

Lab included.

Pre-requisite(s): ATTC 3480.

Note: Course not currently being offered.

ATTC 4520 - EV3 - Hybrid & Electric Vehicle Safety

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$50.00

Course Fee Purpose: The course fees are established to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements.

Description: An in-depth look at the laws and regulations related to the high voltage safety systems used on hybrid and electric vehicles. Topics include 1. Personal protective equipment types use and care. 2. High voltage service tools and equipment. 3. Vehicle operation and characteristics. 4. Identify high voltage systems and components. 5. High voltage isolation and interlock systems. 6. Disabling and enabling the high voltage system. 7. Maintenance schedules and precautions. 8. Emergency rescue personnel information.

ATTC 4530 - EV4 - Hybrid and Electric Vehicle Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem- Online*

Course Fee: \$50.00

Course Fee Purpose: This course has a fee attached. Course fees are established to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers fees for high-voltage electric vehicle safety equipment.

Description: An in-depth look at the different classifications of Electrified Road Vehicles. 1. The three different types of Hybrid Electric Vehicles (HEV)s, 2. Multi-Mode Plug-in Hybrid Electric Vehicles (PHEV)s, 3. Battery Electric Vehicles (BEV)s, and 4. Hydrogen Fuel Cell Electric Vehicles (FCEV)s. Topics include the theory of operation of high voltage batteries, DC to AC inverters, DC to DC converters, electric motor types, plug-In charging systems, thermal management of the high voltage systems, battery, the passenger cabin, and braking/regenerative braking systems. In addition, preparation for the ASE L3 Light-Duty hybrid/electric vehicles exam is included.

ATTC 4540 - Automated Safety and Convenience Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem - Online*

Description: An in-depth look at the operation, diagnosis and service of the automated safety and convenience systems found on modern vehicles. Topics will include: AUTOMATED: vehicle system classifications (driver assisted, partial automated, conditional automated, high automated, and fully automated). SAFETY: advanced cruise systems, advanced steering systems, advanced suspension systems, advances parking systems. CONVENIENCE: In car WiFi, vehicle to vehicle communication, biometrics, active health monitoring, comprehensive vehicle tracking, advanced heads up displays.

ATTC 4550 - Advanced Automotive Emissions

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Description: The study and evaluation of vehicle and fuel technologies to meet current and future emissions standards. We will explore what automotive emissions are currently regulated, purpose and procedures associated with emissions testing, current and future emissions reduction technologies, and how sustainable manufacturing is being implemented in industry. The topics in this class will help you to prepare for the L1 Advanced Engine Performance test.

ATTC 4560 - EV5 - Hybrid & Electric Vehicle Service & Maintenance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An in-depth look at the service and maintenance procedures for 1. The three different types of Hybrid Electric Vehicles (HEV)s. 2. Multi-Mode Plug-In Hybrid Electric Vehicles (PHEV)s, 3. Battery Electric Vehicles (BEV)s, and 4. Hydrogen Fuel Cell Electric Vehicles (FCEV)s. Topics include high voltage batteries, DC to AC inverters, DC to DC converters, electric motor types, plug-In charging systems, thermal management of the high voltage systems, battery, the passenger cabin, braking/regenerative braking systems, and Atkinson cycle Internal Combustion Engines (ICE). Upon completion of this course, student can sit in on "xEV Technician Electrical Safety Certification - Level 2 Standards" certification provided by ASE. Upon completion of this course and the required work experience as set by ASE, student can sit in on "L3 Light Duty Hybrid/Electric Vehicle Specialist" certification provided by ASE.

ATTC 4710 - Capstone Research Methods

Credits: (2)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Description: This is the first course in the Capstone Project for seniors. This course will prepare students to complete the capstone project. Students will create the initial proposal and receive approval for the project. Students will start the research for the project using the standards established by the Society of Automotive Engineers (SAE).

ATTC 4720 - Capstone Research and Development

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$100.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: The use of sophisticated diagnostic tools and equipment. Emphasis is on diagnosis and the development of analytical thinking as it applies to technical problems.

Includes lab.

Pre-requisite(s): ATTC 4710.

ATTC 4760 - Alternate Fuel Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$45.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: A study of alternate fuel systems including bio fuels (ethanol and bio-diesel systems), advanced diesel systems, hybrid-electric vehicles, Compressed Natural Gas (CNG) systems, hydrogen fuel cell, and other existing or emerging technologies.

ATTC 4780 - Insurance Industry Business Practices

Credits: (3)

Description: An overview of the business practices used by the automotive insurance industry. Included is the use of industry standard software to determine insurance policy coverage, vehicle reparability (current value verses repair costs) and parts availability.

Pre-requisite/Co-requisite: ATTC 3680 and PS 3203.

Note: Course not currently being offered.

ATTC 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Description: Individual readings supervised by a faculty member.

Pre-requisite(s): Approval of instructor.

May be repeated twice up to 3 credit hours.

ATTC 5920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offerings under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

AUSV 1000 - Introduction to Automotive Service

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An introduction to automotive shop safety, pollution prevention, hazardous waste handling, Internet-based electronic service information, diagnostic scan tools, ASE certifications, safety inspection certifications, emissions inspection certifications, developing job interview skills, and resume writing.

Note: This course is a prerequisite for all automotive service courses.

AUSV 1001 - Collision Repair Fundamentals and Estimating

Credits: (2)

Description: This course is an introduction to the collision repair industry and the construction of the modern automobile as it applies to the collision repair industry. Emphasis will be placed on locating vehicle information, basic construction of vehicles, environmental concerns and issues, and writing collision repair estimates on damaged vehicles.

Note: Course not currently being offered.

AUSV 1010 - Automotive Technology Orientation

Credits: (1)

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Course Fee: \$70.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: An introduction to maintenance and light repair tasks including: lube oil and filter change, basic under vehicle inspection and maintenance, basic under hood inspection and maintenance, wheel and tire service, Internet-based electronic service information, and diagnostic scan tools.

Note: This course is a prerequisite for all automotive service courses.

AUSV 1020 - Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)

Description: Theory, operation, diagnosis and repair of braking, steering, and suspension systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000 and AUSV 1325.

Note: (AUSV 1020 is equivalent to AUSV 1021, AUSV 1022, and AUSV 2320.)

AUSV 1021 - Automotive Braking Systems 1**Credits: (2)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of braking systems. This is the first part of a two-part class.

Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1022 - Steering and Suspension Systems 1**Credits: (2)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class.

Note: (AUSV 1021, AUSV 1022, and AUSV 2320 are equivalent to AUSV 1000, AUSV 1020.)

AUSV 1023 - Automotive Braking Systems 2**Credits: (2)**

Typically Taught Fall Semester: *Full Sem, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Course Fee: \$71.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of automotive braking systems. This is the second part of a two-part class. Upon completion of this course, student can sit in on "A5 Brakes" certification provided by ASE

AUSV 1025 - Steering and Suspension Systems 2**Credits: (2)**

Typically Taught Fall Semester: *Full Sem, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Course Fee: \$71.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of steering and suspension systems. This is the first part of a two-part class. Upon completion of this course, student can sit in on "A4 Suspension and Steering" certification provided by ASE

AUSV 1030 - Honda Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)

Description: Theory, operation, diagnosis, and repair of Honda braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000 and AUSV 1335.

Note: (AUSV 1030 is comprised of AUSV 1031, AUSV 1032 and AUSV 2330.) Course not currently being offered.

AUSV 1031 - Honda Braking Systems**Credits: (3)**

Description: Theory, operation, diagnosis, and repair of Honda braking systems.

Pre-requisite(s): AUSV 1000.

Note: (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032, and AUSV 2330). Course not currently being offered.

AUSV 1032 - Honda Steering and Suspension Systems**Credits: (2)**

Description: Theory, operation, diagnosis, and repair of Honda steering and suspension systems.

Note: (AUSV 1031, AUSV 1032, and AUSV 2330 are equivalent to AUSV 1000, AUSV 1030.) Course not currently being offered.

AUSV 1040 - General Motors Braking, Steering, Suspension and Climate Control Systems**Credits: (8)**

Description: Theory, operation, diagnosis, and repair of General Motors braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000 and AUSV 1345.

Note: (AUSV 1040 is comprised of AUSV 1041, AUSV 1042 and AUSV 2340.)

AUSV 1041 - General Motors Braking Systems**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: Theory, operation, diagnosis, and repair of General Motors braking systems.

Pre-requisite(s): AUSV 1000 and AUSV 1345.

Note: (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042, and AUSV 2340).

AUSV 1042 - General Motors Steering and Suspension Systems**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: Theory, operation, diagnosis, and repair of General Motors steering and suspension systems.

Pre-requisite(s): AUSV 1000.

Note: (AUSV 1041, AUSV 1042, and AUSV 2340 are equivalent to AUSV 1000, AUSV 1040.)

AUSV 1050 - Chrysler Braking, Steering, Suspension and Climate Control Systems**Credits: (8)**

Description: Theory, operation, diagnosis, and repair of Chrysler braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000 and AUSV 1355.

Note: (AUSV 1050 is comprised of AUSV 1051, AUSV 1052 and AUSV 2350.) Course not currently being offered.

AUSV 1051 - Chrysler Braking Systems

Credits: (3)

Description: Theory, operation, diagnosis, and repair of Chrysler braking systems.

Pre-requisite(s): AUSV 1000 and AUSV 1355.

Note: (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052, and AUSV 2350). Course not currently being offered.

AUSV 1052 - Chrysler Steering and Suspension Systems

Credits: (3)

Description: Theory, operation, diagnosis, and repair of Chrysler steering and suspension systems.

Pre-requisite(s): AUSV 1000.

Note: (AUSV 1051, AUSV 1052, and AUSV 2350 are equivalent to AUSV 1000, AUSV 1050.) Course not currently being offered.

AUSV 1060 - Toyota Braking, Steering, Suspension, and Climate Control Systems

Credits: (8)

Description: Theory, operation, diagnosis, and repair of Toyota braking, steering, suspension, and climate control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized.

Pre-requisite(s): AUSV 1000 and AUSV 1365.

Note: (AUSV 1060 is comprised of AUSV 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1061 - Toyota Braking Systems

Credits: (3)

Description: Theory, operation, diagnosis, and repair of Toyota braking systems.

Pre-requisite(s): AUSV 1000 and AUSV 1365.

Note: (AUSV 1060 is equivalent to 1061, AUSV 1062 and AUSV 2360.) Course not currently being offered.

AUSV 1062 - Toyota Steering and Suspension Systems

Credits: (3)

Description: Theory, operation, diagnosis, and repair of Toyota steering and suspension systems.

Pre-requisite/Co-requisite: AUSV 1000.

Note: (AUSV 1061, AUSV 1062, and AUSV 2360 are equivalent to AUSV 1000, AUSV 1060.) Course not currently being offered.

AUSV 1071 - H D Truck Brakes

Credits: (4)

Description: Brakes provides theory and hands-on instruction on heavy duty braking systems. Students will learn maintenance and repair of wheels and tires, hubs and wheel bearings, air brake systems, drum and rotor brakes, Anti-lock braking system (ABS), and hydraulic braking systems.

AUSV 1072 - H D Truck Steering & Suspension

Credits: (4)

Description: Course provides theory and hands-on instruction on the maintenance and repair of front axles, alignment, truck frames, steering and suspension systems, and coupling devices.

AUSV 1080 - Non-Structural Analysis and Damage Repair 1

Credits: (4)

Description: Safety, welding processes, panel repair and replacement, trim application, water leak and wind noise issues . Proper use of modern body fillers and repair techniques. I-CAR training modules are included.

Pre-requisite(s): AUSV 1001 or instructor approval.

Note: Course not currently being offered.

AUSV 1085 - Painting and Refinishing 1

Credits: (4)

Description: Introductory course on modern automotive paint application processes. Emphasis will be placed on Panel and part preparation as well as spray and application techniques.

Pre-requisite(s): AUSV 1001 or instructor approval.

Note: Course not currently being offered.

AUSV 1100 - Principles of Technology I

Credits: (2)

Description: Scientific concepts of force, work, rate, resistance and energy are applied to mechanical and fluid systems found in modern industry.

Laboratory activities featuring measurement and instrumentation are emphasized.

Note: Course not currently being offered.

AUSV 1120 - Automotive Engines 1

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, repair, and overhaul of automotive engines.

AUSV 1124 - Automotive Engines 2

Credits: (2)

Typically Taught Fall Semester: *Full Sem, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Course Fee: \$71.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, repair, and overhaul of automotive engines. This is the second part of a two-part class.

AUSV 1130 - Honda Engines

Credits: (3)

Description: Theory, operation, diagnosis, repair, and overhaul of Honda engines.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1140 - General Motors Engines**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: Theory, operation, diagnosis, repair, and overhaul of General Motors engines.

Pre-requisite(s): AUSV 1000.

AUSV 1150 - Chrysler Engines**Credits: (3)**

Description: Theory, operation, diagnosis, repair, and overhaul of Chrysler engines.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1160 - Toyota Engines**Credits: (4)**

Description: Theory, operation, diagnosis, repair, and overhaul of Toyota engines.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1170 - H D Truck Engines 1**Credits: (4)**

Description: Operational principles, diagnosis and complete overhaul of diesel engines. Students learn the removal, service, and repair of engines blocks, crankshafts, pistons, rings, connecting rods, camshafts, valvetrains, injection pumps, and accessories.

AUSV 1180 - Structural Analysis and Damage Repair 1**Credits: (4)**

Description: Frame and unibody repair will be explored. Replacement of major structural panels and introduction to measuring and corrective pulling will be covered. Occupant safety and restraint systems will be examined. I-Car training modules are included.

Pre-requisite(s): AUSV 1001 or instructor approval.

Note: Course not currently being offered.

AUSV 1200 - Principles of Technology II**Credits: (2)**

Description: Scientific concepts pertaining to electricity, heat, sound and light are applied to systems found in modern industry. Laboratory activities featuring measurement and instrumentation are emphasized.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1220 - Automotive Manual Drivetrain Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$81.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, maintenance, and overhaul of manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases. Upon completion of this course, student can sit in on "A3 Manual Transmission" certification provided by ASE

AUSV 1230 - Honda Manual Drivetrain Systems

Credits: (3)

Description: Theory, operation, diagnosis, maintenance, and overhaul of Honda manual transmissions and transaxles, drive axles and differentials, drivelines, and transfer units.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1240 - General Motors Manual Drivetrain Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Theory, operation, diagnosis, maintenance, and overhaul of General Motors manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

Pre-requisite(s): AUSV 1000.

AUSV 1250 - Chrysler Manual Drivetrain Systems

Credits: (3)

Description: Theory, operation, diagnosis, maintenance, and overhaul of Chrysler manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1260 - Toyota Manual Drivetrain Systems

Credits: (3)

Description: Theory, operation, diagnosis, maintenance, and overhaul of Toyota manual transmissions and transaxles, front and rear drive axles and differentials, drivelines, and transfer cases.

Pre-requisite(s): AUSV 1000.

Note: Course not currently being offered.

AUSV 1270 - H D Truck Drivetrain

Credits: (4)

Description: In this course, students receive theory and hands-on instruction on maintenance and repair of the heavy-duty drive train systems. Topic will include clutches, transmissions, drive lines, and differentials.

AUSV 1300 - Technical Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Measurements, common and decimal fractions, square roots, surfaces, columns, capacities. Principles of algebra and geometry.

AUSV 1320 - Automotive Electronics 1

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1323 - Automotive Electronics 2

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of computer inputs, outputs, and communication systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is a three-part class.

AUSV 1325 - Electrical Fundamentals 3

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$121.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Electrical fundamentals, use of meters and wiring diagrams, wiring repair. Theory, diagnosis, and repair of lighting, infotainment, electronic control modules. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized. This is the third part of a three-part class.

AUSV 1330 - Honda Automotive Electronics

Credits: (4)

Description: Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems. The use of Honda electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1335 - Honda Electronics, Electrical and Body Control Systems

Credits: (7)

Description: Electrical fundamentals, use of meters and Honda wiring diagrams, wiring repair. Theory, diagnosis, and repair of Honda computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Honda electronic service information, the

proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)

Note: Course not currently being offered.

AUSV 1340 - General Motors Automotive Electronics

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

AUSV 1345 - General Motors Electronics, Electrical and Body Control Systems

Credits: (7)

Description: Electrical fundamentals, use of meters and General Motors wiring diagrams, wiring repair. Theory, diagnosis, and repair of General Motors computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of General Motors electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

AUSV 1350 - Chrysler Automotive Electronics

Credits: (4)

Description: Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

Note: Course not currently being offered.

AUSV 1355 - Chrysler Electronics, Electrical and Body Control Systems

Credits: (7)

Description: Electrical fundamentals, use of meters and Chrysler wiring diagrams, wiring repair. Theory, diagnosis, and repair of Chrysler computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Chrysler electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

Note: Course not currently being offered.

AUSV 1360 - Toyota Automotive Electronics

Credits: (4)

Description: Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools are emphasized.

Pre-requisite(s): (Recommended) AUSV 1000.

Note: Course not currently being offered.

AUSV 1365 - Toyota Electronics, Electrical and Body Control Systems

Credits: (7)

Description: Electrical fundamentals, use of meters and Toyota wiring diagrams, wiring repair. Theory, diagnosis, and repair of Toyota computer inputs, outputs, and communication systems, starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of Toyota electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)

Note: Course not currently being offered.

AUSV 1400 - Automotive Fundamentals**Credits: (1)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Operation, diagnosis and repair of selected automotive systems, as well as general auto shop orientation for beginners and non-automotive majors.

AUSV 1600 - EV1 - Intro to Hybrid & EV Safety**Credits: (2)**

Typically Taught Spring Semester: *Full Sem - Online*

Course Fee: \$50.00

Course Fee Purpose: Course fees are established to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. The course fee expenditure for this specific course covers fees for high-voltage electric vehicle safety equipment.

Description: This course will introduce students to hybrid and electric vehicles, proper safety tools and procedures, and basic high voltage components. Basic electrical theory will be explained and showcased in this course. Diagnostic theory and operation will be covered as well as service disconnect procedures and component validation testing.

Upon completion of this course, student can sit in on "xEV Electrical Safety Awareness Certification - Level 1 Standard" certification provided by ASE

AUSV 1890 - Cooperative Work Experience**Credits: (1-6)**

Description: Open to all first year students in Automotive Service. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

AUSV 2020 - Engine Performance**Credits: (4)**

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$81.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. Including evaluation of engine condition. Upon completion of this course, student can sit in on "A1 Engine repair and A8 Engine Performance" certification provided by ASE. Upon completion of this course and AUSV 2100 Body Communication, student can sit in on "A7 Heating and Air Conditioning systems.

(Depending on which one is finished last in the degree path)" certification provided by ASE. Upon completion of this course and the required work experience as set by ASE, student can sit in on "L1 Advanced Engine performance" certification provided by ASE.

AUSV 2030 - Honda Engine Control Systems

Credits: (3)

Description: Theory, operation, diagnosis, and repair of Honda automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1130, AUSV 2030 are equivalent to AUSV 2635.)

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: Course not currently being offered.

AUSV 2040 - General Motors Engine Control Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Theory, operation, diagnosis, and repair of General Motors automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2050 - Chrysler Engine Control Systems

Credits: (3)

Description: Theory, operation, diagnosis, and repair of Chrysler automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: Course not currently being offered.

AUSV 2060 - Toyota Engine Control Systems

Credits: (6)

Description: Theory, operation, diagnosis, and repair of Toyota automotive fuel systems, OBD-II and Tier-2 emission control systems, and ignition systems. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: Course not currently being offered.

AUSV 2080 - Painting and Refinishing 2

Credits: (4)

Description: Advanced surface preparation and application of modern paint system. Color matching, blending and complete vehicle refinishing. I-CAR training modules are included.

Pre-requisite(s): AUSV 1085 or instructor approval.

Note: Course not currently being offered.

AUSV 2085 - Non-Structural Analysis and Damage Repair 2

Credits: (4)

Description: This is an advanced non-structural and welding course that expands on what has previously been learned. A great deal of time will be spent working on advanced non-structural techniques and processes. Full frame, unibody, space frames and other modern frame designs will be examined along with proper repair and replacement techniques.

Pre-requisite(s): AUSV 1080 or instructor approval.

Note: Course not currently being offered.

AUSV 2100 - Vehicle Communications

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 2nd Block*

Typically Taught Spring Semester: *Full Sem, 2nd Block*

Course Fee: \$30.00

Course Fee Purpose: Course fees are established to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements.

Description: Theory, diagnosis, and repair of vehicle communication systems and computer-controlled circuits. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. Upon completion of this course, student can sit in on "A6 Electrical" certification provided by ASE. Upon completion of this course and AUSV 2020 Engine Performance, student can sit in on "A7 Heating and Air Conditioning systems." certification provided by ASE.

AUSV 2120 - Automotive Electrical and Body Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 2nd Block*

Course Fee: \$81.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: The theory, diagnosis, and repair of automated Heating, Ventilation, and Air Conditioning electrical control systems, lighting systems, airbags and safety systems, body power motor accessories, and various body sensors and switches that operate on a modern vehicle. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized.

AUSV 2130 - Honda Electrical and Body Control Systems

Credits: (3)

Description: Theory, diagnosis, and repair of Honda starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1330, AUSV 2130 are equivalent to AUSV 1335.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1330.

Note: Course not currently being offered.

AUSV 2140 - General Motors Electrical and Body Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Theory, diagnosis, and repair of General Motors starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1340, AUSV 2140 are equivalent to AUSV 1345.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1340.

AUSV 2150 - Chrysler Electrical and Body Control Systems

Credits: (3)

Description: Theory, diagnosis, and repair of Chrysler starting, charging, lighting, air-bags, power accessories, and

various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1350, AUSV 2150 are equivalent to AUSV 1355.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1350.

Note: Course not currently being offered.

AUSV 2160 - Toyota Electrical and Body Control Systems

Credits: (3)

Description: Theory, diagnosis, and repair of Toyota starting, charging, lighting, air-bags, power accessories, and various body computer control systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic services tools are emphasized. (AUSV 1360, AUSV 2160 are equivalent to AUSV 1365.)

Pre-requisite(s): (Recommended) AUSV 1000. Prerequisite: AUSV 1360.

Note: Course not currently being offered.

AUSV 2170 - H D Truck Electrical 1

Credits: (4)

Description: Electrical I provides theory and hands-on instruction on the principals of electricity, basic components, sensors, circuits, wiring schematics, and multi-meters.

AUSV 2171 - H D Truck Electrical II

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: In the Electrical II course, students will learn advanced electrical theory and diagnostic procedures.

AUSV 2180 - Structural Analysis and Damage Repair 2

Credits: (3)

Description: Expands on techniques and skills learned in AUSV 1180. Emphasis will be placed on advanced frame and unibody repair techniques and methods.

Pre-requisite(s): AUSV 1180 or instructor approval.

Note: Course not currently being offered.

AUSV 2270 - H D Truck Engines II

Credits: (4)

Description: H D Truck Engines II provides the student with more advanced theory and hands-on instruction in diagnostics and operational systems of the internal combustion engine, including emissions, fuel, and after-treatment systems.

AUSV 2320 - Automotive Climate Control Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$81.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis and repair of vehicle climate control systems.

AUSV 2330 - Honda Climate Control Systems

Credits: (3)

Description: Theory, operation, diagnosis and repair of Honda climate control systems. (AUSV 1030 is equivalent to AUSV 1031, AUSV 1032 and AUSV 2330.)

Pre-requisite(s): AUSV 1000, AUSV 1330.

Note: Course not currently being offered.

AUSV 2340 - General Motors Climate Control Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Theory, operation, diagnosis and repair of General Motors climate control systems. (AUSV 1040 is equivalent to AUSV 1041, AUSV 1042 and AUSV 2340.)

Pre-requisite(s): AUSV 1000, AUSV 1340.

AUSV 2350 - Chrysler Climate Control Systems

Credits: (3)

Description: Theory, operation, diagnosis and repair of Chrysler climate control systems. (AUSV 1050 is equivalent to AUSV 1051, AUSV 1052 and AUSV 2350.)

Pre-requisite(s): AUSV 1000, AUSV 1350.

Note: Course not currently being offered.

AUSV 2360 - Toyota Climate Control Systems

Credits: (3)

Description: Theory, operation, diagnosis and repair of Toyota climate control systems. (AUSV 1060 is equivalent to AUSV 1061, AUSV 1062 and AUSV 2360.)

Pre-requisite(s): AUSV 1000, AUSV 1360.

Note: Course not currently being offered.

AUSV 2370 - H D Truck Preventative Maintenance

Credits: (1)

Description: The Preventative Maintenance course introduces students to the service and preventative maintenance practices found within the trucking industry. Instruction includes inspection and maintenance of truck and trailer systems, engine systems, electrical systems, frame, and steering components.

AUSV 2480 - Auto Body Business Practices

Credits: (2)

Description: Estimating, scheduling work, purchasing, inventory, insurance practices and applied customer relations.

Note: Course not currently being offered.

AUSV 2520 - Automatic Transmissions

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$91.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis and overhaul procedures of automatic transmissions. Upon completion of this course, student can sit in on "A2 Automatic Transmission" certification provided by ASE

AUSV 2530 - Honda Automatic Transmissions

Credits: (4)

Description: Theory, operation, diagnosis and overhaul procedures of Honda automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: Course not currently being offered.

AUSV 2540 - General Motors Automatic Transmissions

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: Theory, operation, diagnosis and overhaul procedures of General Motors automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2550 - Chrysler Automatic Transmissions

Credits: (4)

Description: Theory, operation, diagnosis and overhaul procedures of Chrysler automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: Course not currently being offered.

AUSV 2560 - Toyota Automatic Transmissions

Credits: (4)

Description: Theory, operation, diagnosis and overhaul procedures of Toyota automatic transmissions.

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: Course not currently being offered.

AUSV 2600 - EV2 - Intro to Hybrid & EV Systems

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: In-depth theory and operation the low voltage and high voltage systems within hybrid and electric vehicles will be covered. High voltage component inspection, removal, disassembly, and installation will be performed. Supporting cooling systems and low voltage electrical will also be diagnosed.

AUSV 2625 - Engine Mechanical and Engine Control Systems

Credits: (6)

Course Fee: \$143.00

Course Fee Purpose: Vehicle Online Service Information, Scan Tool Updates, Consumables, Lost or broken Tools and Equipment

Description: Theory, operation, diagnosis, and repair of automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1120, AUSV 2020 are equivalent to AUSV 2625.)

Pre-requisite(s): AUSV 1000, AUSV 1325.

AUSV 2635 - Honda Engine Mechanical and Engine Control Systems

Credits: (6)

Description: Theory, operation, diagnosis, and repair of Honda automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1130, AUSV 2030 are equivalent to AUSV 2635.)

Pre-requisite(s): AUSV 1000, AUSV 1335.

Note: Course not currently being offered.

AUSV 2645 - General Motors Engine Mechanical and Engine Control Systems

Credits: (6)

Description: Theory, operation, diagnosis, and repair of General Motors automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1140, AUSV 2040 are equivalent to AUSV 2645.)

Pre-requisite(s): AUSV 1000, AUSV 1345.

AUSV 2655 - Chrysler Engine Mechanical and Engine Control Systems

Credits: (6)

Description: Theory, operation, diagnosis, and repair of Chrysler automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1150, AUSV 2050 are equivalent to AUSV 2655.)

Pre-requisite(s): AUSV 1000, AUSV 1355.

Note: Course not currently being offered.

AUSV 2665 - Toyota Engine Mechanical and Engine Control Systems

Credits: (6)

Description: Theory, operation, diagnosis, and repair of Toyota automotive engines, fuel systems, OBD-II and Tier-2 emission control systems, ignition systems. The use of electronic service information, the proper diagnostic process, and proper diagnostic service tools is emphasized. (AUSV 1160, AUSV 2060 are equivalent to AUSV 2665.)

Pre-requisite(s): AUSV 1000, AUSV 1365.

Note: Course not currently being offered.

AUSV 2860 INT - Automotive Shop Practice

Credits: (3-8)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: Provides an opportunity to practice skills needed by Automotive Service technicians derived from classroom and shop experience. Simulates line mechanic work.

Pre-requisite(s): Instructor approval required.

May be taken 10 times up to 30 credit hours.

AUSV 2880 - Cooperative Practicum

Credits: (3-8)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Supervised work experience, at the sponsoring dealership, which applies directly to previous academic courses. Full-time employment and approval of faculty supervisor required.
May be taken 10 times up to 30 credit hours.

AUSV 2890 - Cooperative Work Experience

Credits: (1-6)

Description: Open to second year Automotive Service students. A continuation of AUSV 1890.

Note: AUSV 2890 may be taken in lieu of AUSV 2860 when appropriate work experience is available and the student obtains departmental approval.

AUSV 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

AVET 2110 - Semiconductor Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to the design and analysis of semiconductor circuits using diodes, transistors, op-amps, field effect devices, thyristors, and regulators.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.

Pre-requisite(s): EET 1130, EET 1140, MATH 1060 or higher.

AVET 2120 - Power and Motors

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to AC and DC motors, relays, transformers, power measurements, National Electrical Code, ladder logic, wiring, and programmable logic controllers (PLCs).

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of basic power circuits and machinery configurations.

Pre-requisite(s): EET 1140, MATH 1060 or higher.

AVET 2140 - Communications Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to digital and wireless communication circuits. Topics to include radio frequency circuits, modulation, detection, transmitters, receivers, transmission lines, antennas, and measurement instruments. Digital communications topics to include parallel and serial data transmission.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and

analysis of communication circuits.

Pre-requisite(s): AVET 2110.

AVET 2160 - Troubleshooting

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to troubleshooting techniques and skills. Topics include the use of diagnostic electronic test equipment such as multi-meters, power supplies, signal generators, digital storage oscilloscopes, and spectrum analyzers. Students will diagnose and repair electronic circuits and systems.

Lecture and laboratory combination.

Pre-requisite(s): AVET 2110, AVET 2120, AVET 2170.

AVET 2170 - Industrial Controls

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$100.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to industrial control systems for manufacturing and automated test applications. The course will focus on LabVIEW control systems and Programmable Logic Controllers (PLCs). Students will configure, program, and troubleshoot industrial control systems.

Lecture and lab combination.

Pre-requisite(s): EET 1130, EET 1140.

AVET 3010 - Circuit Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Advanced calculus-based topics related to electronic circuit analysis, Laplace transforms, differential equations, Fourier series, Fourier transforms, and applications. Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.

Pre-requisite(s): AVET 2110, AVET 2140, Credit for or Current Enrollment in in MATH 1210.

AVET 4030 - Controls & Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to automatic control theory, analysis, and testing, pole, zero, Bode plots, and frequency response. The design and application of programmable controllers using ladder logic, sequential functions charts, PID, and data highway.

Lecture and lab combination. Laboratory activities to include computer simulation, servo-system construction, and analysis.

Pre-requisite(s): AVET 3010, MATH 1210, PHYS 2210.

AVET 4040 - Signals and Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to digital signal processing, digital filters, discrete and fast Fourier transforms, quantization, introduction to adaptive filters, industrial applications, and DSP hardware.

Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of digital signal processing circuits.

Pre-requisite(s): AVET 3010, MATH 1210.

BIS 2800 - Foundations of Integrated Studies

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Foundations of Interdisciplinary Studies provide students with theories and methods used in interdisciplinary research. The course will introduce students to examples of interdisciplinary research, familiarize them with different disciplinary perspectives, and provide them with the intellectual tools to flourish in an interdisciplinary program of study.

BIS 3800 - BIS Capstone and Graduation Preparation

Credits: (2)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course guides students as they develop a capstone proposal, and begin preliminary research on it. The course also helps them consider future career options and graduate school paths.

Pre-requisite(s): BIS 2800.

BIS 3850 - BIS Internship

Credits: (1-3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Description: The Bachelor of Integrated Studies Program (BIS) offers BIS students the opportunity to earn 1 to 3 elective credits for a work internship.

Pre-requisite(s): For requirements and guidelines, contact the BIS office.

May be repeated three times for a maximum of three credit hours.

BIS 4800 - Bachelor of Integrated Studies Senior Capstone

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Description: The Senior Capstone serves as the culmination of the Bachelor of Integrated Studies (BIS) interdisciplinary degree. After completing course work in three different areas of emphasis, BIS student synthesize their three disciplines in this capstone project.

Pre-requisite(s): BIS 3800.

BME 1000 - Introduction to Biomedical Engineering

Credits: (2)**Typically Taught Fall Semester:** *Full Sem***Course Fee:** \$35.00**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.**Description:** An introductory course to Biomedical Engineering topics including electronic terms, numbering systems, software tools, and documentation practices.**Suggested Requisite(s):** MATH 1050 or MATH 1060 or MATH 1080.**BME 2000 - BME Sophomore Seminar****Credits: (1)****Typically Taught Spring Semester:** *Full Sem***Description:** An engineering seminar designed to help students plan their education and career trajectories by introducing modern topics in biomedical research and available careers. Students will be introduced to both academic and industry-oriented career fields, options for undergraduate research and the challenges of working in interdisciplinary career fields.**Pre-requisite(s):** BME 1000 or ECE 1000.**BME 3000 - Engineering Seminar****Credits: (1)****Typically Taught Fall Semester:** *Full Sem***Description:**

An engineering seminar course designed to prepare the student for professional engineering employment. Topics include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness and continuous improvement. Students will research related topics and write a paper.

Pre-requisite(s): BME 2000.**BME 3090 - Project Management****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management. Students should take this course the semester before taking BME 4010.**Pre-requisite/Co-requisite:** BME 3600 and PUBH 3500 and (BME 3210 or ECE 3210) and (BME 3130 or ECE 3110) and (ECE 3610 or ECE 3710) and (CHEM 2310 or NEUR 2950) and (ZOOL 2420 or HTHS 1104 or HTHS 2110 or NEUR 3950).**BME 3130 - Microelectronics and Instrumentation****Credits: (4)****Typically Taught Fall Semester:** *Full Sem***Course Fee:** \$35.00**Course Fee Purpose:** This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

Description: Topics covered are related to microelectronics including bipolar and field-effect transistors, frequency response, feedback systems, filters, signal generation, and applications of op-amp circuits. Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of filters and advanced circuits.

Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of filters and advanced circuits.

Pre-requisite(s): ECE 2260.

Note: Admittance into the Professional Program is required.

BME 3210 - Signals & Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

Description: Topics covered are related to the analysis of linear time-invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms. Lecture and lab combination. Laboratory activities include the computer simulation, analysis, and numerical modeling of biological signals and systems.

Pre-requisite(s): ECE 2260 and ENGR 2240.

BME 3600 - Biomedical Design and Standards

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$80.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

Description: Introduction to Computer-Aided Drafting (CAD) design and the engineering design cycle. Students will learn basic CAD skills and apply them to designing a simple biomedical device as a group. Important points on standards and considerations for devices that are used by and interface with humans will also be covered.

Pre-requisite(s): PHYS 2220 and BME 2000.

BME 4010 - Senior Project I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

Description: Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem-solving techniques will be emphasized. Topics include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.

Pre-requisite(s): Permission from the department. Before seeking departmental approval, students should be currently enrolled in BME 3090 and should have taken at least four 3000-level core ECE or BME courses, MATH 3410 or ECE 3430, and either ENGL 3100 or PS 3250. Exceptions to this rule are made only if a student's graduation would otherwise be delayed.

Suggested Requisite(s): BME 3090 and MATH 3410 and ENGL 3100.

BME 4020 - Senior Project II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, and consumable materials.

Description: A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.

Pre-requisite(s): BME 4010.

BSAD 1010 - Introduction to Business

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Relation of business managers and firms to contemporary society and the global economy. Topics include human values and ethics in the workplace, multiculturalism, social responsibilities of business, business functions, and general principles of effective business operation.

BSAD 2620 - Executive Lectures/Career Development

Credits: (1)

Typically Taught Summer Semester: *1st Block, 1st Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: The purpose of this class is to expose students to a variety of different business careers through a series of lectures presented by successful business executives. Through class discussions and assignments, students will also develop the skills required to find the job and career that fits them best. *Credit/No Credit*

BSAD 2704 - Information Resources in the Business Disciplines

Credits: (1)

Typically Taught Fall Semester: *1st Blk, Full Sem Online*

Typically Taught Spring Semester: *1st Blk, Full Sem Online*

Description: Information Resources in the Business Disciplines is a one credit hour course that will assist students in developing information literacy and basic research skills to support life-long learning. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in the business disciplines.
Cross listed with LIBS 2704.

BSAD 2899 - Business Foundations Check

Credits: (0)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: Completion of BSAD 2899 is required of all students pursuing any major, minor, or emphasis awarded by the John B. Goddard School of Business & Economics. The course checks if you have declared a major in GSBE, if you have passed ENGL 2010 or ENGL 2015, MATH 1050 or MATH 1090 (or their equivalent), and all Business

Foundations courses with a C or higher, and if you are in good academic standing. Credit/No credit.

Pre-requisite(s): Earn a "C" or better in MATH 1050 , MATH 1080 , MATH 1090 , or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

Pre-requisite/Co-requisite: ENGL 2010 or ENGL 2015 , ACTG 2010 , ACTG 2020 , BSAD 2620 , ECON 2010 , ECON 2020 , MIS 2010 , QUAN 2600 .

Suggested Requisite(s): Students should register for this course concurrent with (same semester as) their last Business Foundation course (ACTG 2010, ACTG 2020, BSAD 2620, ECON 2010, ECON 2020, MIS 2010 and QUAN 2600) or after the required Business Foundation courses have been completed.

BSAD 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

BSAD 3000 - Small Business Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Description: This course is designed for students majoring outside the John B. Goddard School of Business & Economics. It will not be counted for credit toward graduation for students majoring in the John B. Goddard School of Business & Economics. It covers the business management concepts involved in starting and/or managing a small business.

BSAD 3200 - Legal Environment of Business

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: Introduction to the legal and judicial system, emphasizing the application of regulatory law (e.g., antitrust, employment discrimination, etc.) and selected common law topics (e.g., contracts, agency, etc.).

BSAD 3330 - Business Ethics & Environmental Responsibility

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk*

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 2nd Blk*

Description: An introduction to the rudiments of moral reasoning, concepts and principles, and their application to common ethical issues faced in business. Special attention will be given to moral issues associated with the use of the natural environment by businesses.

Pre-requisite(s): BSAD 2899.

BSAD 3500 - Introduction to Business Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Introduces students to gathering and analyzing primary and secondary data for various business applications, such as assessing customer or employee satisfaction. The course covers acquisition techniques for secondary data; how to evaluate secondary data quality; exploratory, descriptive, and causal research designs; questionnaire and measurement development processes; basic data analysis and emerging trends; and research report writing.

Pre-requisite(s): BSAD 2899, QUAN 3610.

BSAD 3600 - [World Region] Business and Society

Credits: (3)

Description: The world region or country covered in this course varies and will be indicated in the specific course title and on the student's transcript (e.g., European Business and Society, Japanese Business and Society, etc.). For a specified world region or country, this course considers its historical and cultural roots, together with modern societal issues, as they relate to business; the role of business in society; economic development, industrial policy, and trade relations; and management and business practices, including sociocultural considerations, in the specified world region or country.

Pre-requisite(s): BSAD 2899.

Suggested Requisite(s): Prior course work in business or economics or the appropriate foreign language(s) or culture, or in-country experience.

BSAD 4210 - Survey of Business Law

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem*

Description: An overview of sales, negotiable instruments, property, and debtor/ creditor relations and other selected legal topics.

Pre-requisite(s): BSAD 2899, BSAD 3200.

BSAD 4401 - E-Commerce

Credits: (3)

Description: Technologies, strategies, and methods for an electronic approach to financial, purchasing, marketing, and order fulfillment processes. Emphasis is on creating successful business strategies to exploit Internet and Electronic Data Interchange (EDI) capabilities.

Pre-requisite(s): MKTG 3010 or concurrent enrollment in MKTG 3010.

Note: Course not currently being offered.

BSAD 4500 - Entrepreneurship

Credits: (3)

Description: Integration of various functional areas of business as they relate to evaluating, creating, planning, and managing new business ventures.

Pre-requisite(s): Business Foundations; BSAD 2899; MKTG 3010; MGMT 3010, MGMT 3200.

Note: Course not currently being offered.

BSAD 4620 - Executive Lectures

Credits: (1)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: This course is designed to acquaint the students with successful executives, their personal styles and philosophies as leaders, and the keys to their effectiveness. *Credit/No credit.*
The format is a series of weekly one-hour lectures delivered by guest executives.
The course may be repeated for credit to a maximum of two credit hours.

BSAD 4680 - Consulting Essentials

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required.
Cross-listed with ENTR 4680.

BSAD 4780 - Strategic Management

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A capstone course for seniors designed to facilitate integration of the knowledge gained in earlier courses. Focus of the course is on the total enterprise. Emphasis is on crafting well-conceived strategies and on successful strategy implementation.

Pre-requisite(s): BSAD 2899 and BSAD 3200 and SCM 2050 and FIN 3200 and MGMT 3010 and MKTG 3010 and (MGMT 3200 or PS 3250 or ENGL 3100 or ENGL 3530 or SCM 3200); senior standing.

BSAD 4800 - Independent Research

Credits: (1-3)

Description: Directed research and study on an individual basis.

Pre-requisite(s): BSAD 2899; Senior Standing; Written Instructor Approval.
May be repeated until a total of 4 hours credit is accumulated.

BSAD 4850 - Business Administration Study Abroad

Credits: (1-3)

Description: This course is designed for students who wish to explore business administration theory and practice in countries other than the U.S. Students will study international business as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): BSAD 2899.

May be repeated once up to 6 credits.

BSAD 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

BTNY 1010 LS - Plants: Apocalypse Prevention

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Plants are essential pieces in the puzzle of preventing and adapting to the environmental challenges of our time. Because plants are major players in carbon cycles, wildfire behavior, medicine, and food systems, understanding and managing plant communities is key to maintaining thriving human societies. We can learn from plant biology and use plants in strategic ways to solve the problems that our society faces and take care of ourselves in the face of turmoil.

BTNY 1203 LS - Plant Biology

Credits: (3)

Typically Taught Summer Semester: *1st Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: An introductory course for non-majors that emphasizes unique features of plant biology. Included are discussions on: the origins of life; important plants of the world and their habitats; plant diversity, structure, function, and reproduction; plants and environmental science; plants that changed history; practical botany; and botany as a science.

Three lecture/demonstration hours per week.

BTNY 1303 LS - Plants and People

Credits: (3)

Typically Taught Summer Semester: *Full Sem - Online, 1st Blk Online*

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This class provides a general introduction to the importance and function of plants in human affairs. It includes an overview of science as a way of knowing, plant forms and functions, plant reproduction, and use of economically and sociologically important plants. Flowering and non-flowering plants and products such as fruits, forages, grains, medicines, herbs and spices, textile fibers, lumber, algae, and foliage plants are studied. Ecological concepts as they relate to the growth and production of world food crops will also be included. The course has a strong emphasis on the historical development of exploitation of certain plants and the role plants played in exploration and international development. This class cannot be used to fulfill requirements for a Botany major or minor.

Three hours of lecture per week.

BTNY 1370 LS - Principles of Life Science

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A survey course for elementary education majors. Course content includes cells, cell chemistry, genetics, plant and animal anatomy, plant and animal classification, physiology, immune systems, evolution, and ecology. Unifying concepts of all living things will be emphasized. Recommended for students intending to major in elementary education. This class cannot be used to fulfill requirements for a Botany major or minor.

Two hours of lecture and one 3-hour laboratory per week.

BTNY 1403 LS SUS - Principles of Environmental Science

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: Development of awareness of the consequences of the impact of modern science through technology upon our environments and how we respond to issues related to threats to our biological life-support system. A definition of a quality environment is developed, with student input, and an analysis of the existing quality of our environment is made in light of this definition which challenges our collective wisdom to identify those things which we do well and to prescribe remedies for shortcomings. Three hours of lecture and one 2-hour lab per week. Three hours of lecture per week (3 credits) or three hours of lecture and one two-hour lab per week (4 credits).

BTNY 2104 - Plant Form and Function

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: An introduction to the anatomy, cell biology, physiology, and genetics of the seed plants. This course is designed for science majors and is a prerequisite for upper division Botany courses.

Two hours of lecture and two 2-hour labs per week.

Suggested Requisite(s): Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

BTNY 2114 - Evolutionary Survey of Plants

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are used to purchase consumables (seeds, greenhouse supplies, chemicals, microscope slides, etc.) and to provide a reserve fund to replace prepared slides and lab glassware and to repair or replace microscopes as needed.

Description: A study of the diversity, ecology, and reproduction of plants in the context of the evolution of life on earth. The role of plants in making life on earth possible is an important theme. This course is designed for science majors and is a prerequisite for selected upper division Botany courses.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 2104.

Suggested Requisite(s): Botany majors are advised to take BTNY 2121 prior to or concurrently with this course.

BTNY 2121 - Career Planning for Botanists

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A course designed for majors to introduce them to expected student learning outcomes, assessment of these expected outcomes, advisement and/or mentoring, keys to success in getting a job or into graduate school, career resources available, and how to start and develop the Botany Student Portfolio.

One lecture per week.

Pre-requisite/Co-requisite: BTNY 2104 or BTNY 2114.

BTNY 2203 - Home and Garden Plants

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are used to purchase consumables (seeds, soil, planting trays, etc.) and provide reserve funds to replace equipment (pruning shears, etc.) as needed.

Description: Basic principles of plant science with special reference to care of home and garden plants. Includes a general study of lighting, watering, soils, fertilizer, pruning and shaping, propagation, controlling pests, and planting designs.

Two hours of lecture and one 3-hour laboratory per week.

BTNY 2303 - Ethnobotany

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Description: A thorough study of the scientific methodology in ethnobotanical research with opportunities for practical applications. This class includes an introduction to how plants are used by people for food, fiber, shelter, and medicine. Students will learn fundamental botanical principles, how to conduct field work and how to collect plants and prepare them for use. Ethical questions concerning conservation, biodiversity and the continued loss of indigenous plants and cultures will also be discussed.

Three lecture/demonstrations per week.

BTNY 2413 - Introduction to Natural Resource Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem odd years*

Course Fee: \$10.00

Course Fee Purpose: The course fee is used for field trip transportation.

Description: Introduces students, especially those interested in forestry and range management, to concepts and ideologies in the utilization and preservation of forests, range, soils, wildlife, water and fisheries, and the human impact on these resources.

Three hours of lecture per week.

BTNY 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work. Class will meet once per week and will be taught in a lecture/demonstration format.

Cross-listed with BTNY, CHEM, GEO, and PHYS.

BTNY 2750 - Topics in Science and Society

Credits: (3)

Variable Title

Typically Taught Spring Semester: *Full Sem*

Description: An exploration of selected topics related to science and society. The specific title will appear on the student transcript.

BTNY 2810 - Experimental Course

Credits: (1-6)**Experimental**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

BTNY 2830 - Readings in Botany**Credits: (1)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Cannot be repeated.

BTNY 2890 INT - Cooperative Work Experience**Credits: (1-3)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to all students in Botany programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): BTNY 2104 and BTNY 2121, and instructor's permission.

Course may be repeated for a maximum of 3 credit hours.

BTNY 2920 - Short Courses, Workshops, Institutes, and Special Programs**Credits: (1-6)****Workshop**

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

BTNY 2950 - Elementary Field Botany**Credits: (3)**

Course Fee: \$100

Course Fee Purpose: The course fee is used to supply and maintain field equipment and cover the costs of transportation and lodging for a five day field trip.

Description: Fundamentals of Botany as observed during field trips. Trips will be preceded by lectures and exercises designed to prepare the student for maximizing the learning experience in the field. The course involves extensive pre- and post-trip exercises and evaluation.

May be repeated once for a maximum of 2 credit hours.

Note: This course is not currently offered.

BTNY 3105 - Anatomy of Vascular Plants**Credits: (4)**

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain

and replace lab equipment as needed.

Description: Anatomy of Vascular Plants explores the internal structures of higher plants. This course examines the structural organization of higher plants at all levels of organization -- from the subcellular, to cellular, to tissue, to organism level---and pays close attention to how structure begets function from the subcellular to the ecological level. Additionally, students will learn different technical methods and equipment used to study plants' internal structures. Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, & (BTNY 2600 OR GEO 2600 OR MICR 2600, OR PHYS 2600, OR CHEM 2600.)

BTNY 3153 - Biology of the Plant Cell

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A study of plant cell structure and function, including biogenesis and activities of organelles, signal transduction, cell-cell interactions, and the molecular processes involved in cellular development and specialization as well as cellular responses. Three hours of lecture per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114, CHEM 1120 or CHEM 2310.

BTNY 3204 - Plant Physiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: A study of the physiological processes of plants, including carbon metabolism, mineral assimilation, water relations, and plant hormones. Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2600 and BTNY 2104, CHEM 1120 or CHEM 2310, and MATH 1040 or MATH 1050 or MATH 1080.

BTNY 3214 - Soils

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed and field trip transportation.

Description: An introduction to the fundamental principles of soil science. Chemical, physical, geological, and biological properties of soils; Course will examine the role of soils as a fundamental ecological constraint through space and time on patterns and processes, such as plant distribution, nutrient cycling, and cycling of water between terrestrial ecosystems and the atmosphere. Course will also examine the human dimensions of soils as a natural resource, and the historical and current environmental impact of soil use and management. Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114 and BTNY 2121) or (GEO 1110) and (CHEM 1110 or CHEM 1210) and (BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600).

Course is cross listed with GEO 3214.

BTNY 3224 - Plant Morphology

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: Exploration and analysis of diversity in plant form using basic principles of plant construction and development. Topics covered include embryogenesis and germination, shoot ontogeny, phyllotaxis, symmetry,

branching and tree architecture, root and floral morphology, organ specializations, and comparative morphology. Principles learned in lecture are applied to the analysis of the development of a plant from seed through reproductive maturity. Structure is discussed in the contexts of adaptation and organismal development.

Pre-requisite(s): BTNY 2104 and BTNY 2114.

BTNY 3303 - Plant Genetics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: The principles of heredity, population genetics, and molecular genetics as applied to plants. Three lecture hours and one 3-hour lab per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114) or MICR 2054; MATH 1040 or MATH 1050 or MATH 1080; BTNY 2600 or CHEM 2600 or GEO 2600 or MICR 2600 or PHYS 2600.

BTNY 3420 - Wildland Fire Ecology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Wildfires are important processes in many ecosystems, affecting plants, animals, and physical processes. They also impact people's use of natural resources, recreation, safety, and property. This course provides an overview of principles in fire ecology, including fuels, fire regimes, fire histories, ecology, climate impacts, and socio-ecological systems with a focus on ecosystems of the Rocky Mountains. In addition to a theoretical understanding, students will apply their understanding to specific situations and conditions. They will develop conceptual tools in systems thinking and engage with the primary literature in fire ecology research.

Pre-requisite(s): MATH 1040, MATH 1050, or MATH 1080, or permission of instructor

BTNY 3454 - Plant Ecology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: The course fee is used to supply and maintain field equipment and support transportation for field trips.

Description: Nature and development of plant communities and their relations to the environmental factors controlling them.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and (MATH 1040 or MATH 1050 or MATH 1080) or permission of instructor.

BTNY 3473 - Plant Geography

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A study of global and regional distributions of major plant groups and communities as affected by past and present climates, biological, ecological and geomorphic factors. Three lectures per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114 or permission of instructor.

BTNY 3504 - Mycology

Credits: (4)

Typically Taught Fall Semester: *Full Sem odd years*

Course Fee: \$25.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed and offset the costs of DNA sequencing.

Description: Structure, taxonomy, biology, and physiology of the fungi.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): (BTNY 2104 and BTNY 2114 and BTNY 2121) or MICR 2054, and BTNY/CHEM/GEO/MICR/PHYS 2600.

BTNY 3514 - Algology**Credits: (4)**

Description: A study of the biology of algae, their morphology, cytology, development, taxonomy, ecology, economic and experimental uses.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 2104 and BTNY 2114, or MICR 2054, or ZOOL 4480.

Note: This course is not currently offered.

BTNY 3523 - Marine Biology**Credits: (3)**

Description: A study of marine biology and ecology, relating to the plant and animal populations of the sea to their various habitats, including the pelagic environment, the sea bottom, sea shores, and estuaries.

Two hours of lecture and one 2-hour lab per week.

Pre-requisite(s): BTNY 2114, or ZOOL 1610, or MICR 2054, or GEO 3010.

Note: This course is not currently offered.

BTNY 3570 - Foundations of Science Education**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

BTNY 3583 - Medicinal Plants-Chemistry and Use**Credits: (4)**

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: The course fee is used to purchase consumable supplies for hands-on labs and to maintain and replace lab equipment as needed.

Description: A study of plants and herbal preparations widely used in maintaining health and treating disease in traditional and modern societies. Active ingredients, modern use and side effects will be studied. In lab, students will learn to analyze plants, over-the-counter-drugs and herbal supplements for active ingredients. Students will also learn how to make extractions and preparations from plant materials. This course is especially useful for students interested in careers in Pharmacy, Ethnobotany, Natural Medicine, Nursing and Medicine.

Two hours of lecture and two 3 hour labs per week.

Pre-requisite(s): CHEM 1120 or (CHEM 2310 and CHEM 2315), and (MATH 1040 or MATH 1050 or MATH 1080).

BTNY 3624 - Taxonomy of Vascular Plants

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are used to purchase herbarium curation supplies and fresh plant materials that are representative of a wide variety of plant families and to repair or replace dissecting microscopes as needed.

Description: A study of the basic principles and concepts of vascular plant systematics with emphasis on the identification and classification of flowering plants.

Two hours of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 2104, BTNY 2114, and BTNY/CHEM/GEO/MICR/PHYS 2600.

BTNY 3643 - Intermountain Flora

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: A taxonomic study of plants that are of major importance to the management of wildland resources. Students will learn to identify 300 of the most important grasses, woody plants, and marsh-aquatic plants. Considers federal laws for the regulation of rare and endangered species and habitat designation.

One hour of lecture and two 2-hour labs per week.

Pre-requisite(s): BTNY 3624.

BTNY 3810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

BTNY 4113 - Plant Evolution

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: The Plant Evolution course focuses on two broad areas: 1) the patterns of evolution of plants from prokaryotes to seed plants and 2) current patterns and processes of evolution among plants. The first area will involve an examination of the evolutionary patterns of plants, with a focus on land plants, and will include tracing patterns of evolution from prokaryotes to eukaryotes to land plants to vascular plants to seed plants. This section of the course will explore patterns, evolutionary innovations, and notable taxa throughout the history of plants. The second area will involve an investigation of the current patterns and processes influencing plant evolution. This includes variation within and among populations, strategies for reproduction and breeding systems in plants, patterns of selection, speciation, macroevolution, etc. We will not only discuss these aspects of plant evolution but also delve into modern (and previous) methods for examining patterns and processes of evolution in plants.

Pre-requisite(s): BTNY 2104 and BTNY 2114.

Pre-requisite/Co-requisite: BTNY 2121.

Note: This course is not currently offered.

BTNY 4252 - Cell Culture

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: Basic methods and applications for culturing plant and animal cells in vitro.

Two 2-hour combined lecture and laboratory sessions per week.

Pre-requisite(s): BTNY 2104 or MICR 2054.

BTNY 4570 CEL - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

BTNY 4750 - Topics in Botany

Credits: (1-5)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An exploration of selected topics in the discipline. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): BTNY 2104 and BTNY 2114, and any specified courses selected by the instructor.

Course may be repeated up to 10 times for credit.

BTNY 4800 - Individual Research

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.

Course may be repeated up to 10 times for credit.

BTNY 4810 - Field Studies of the Utah Flora

Credits: (2)

Experimental

Course Fee: \$40.00

Course Fee Purpose: Course Fee Purpose: The course fee is used to support transportation for field trips and cover some of the cost of herbarium supplies.

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Note: May be repeated for a total maximum of 6 credit hours.

BTNY 4830 - Readings in Botany

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Independent readings in botany under the direction of a faculty member.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of instructor.

May be repeated up to four times for a maximum of 6 credit hours.

BTNY 4840 - Thesis Readings

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Literature search and evaluation, culminating in the writing of a thesis proposal.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121, two upper division Botany courses, and approval of thesis advisor.

Course may be repeated once for a maximum of 4 credit hours.

BTNY 4850 - Thesis Research

Credits: (1-4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Independent research related to a student's approved thesis proposal.

Pre-requisite(s): BTNY 2600 and BTNY 4840 and (MATH 1040 or MATH 1050 or MATH 1080) and approval of thesis advisor.

May be repeated for a maximum of 8 credit hours.

BTNY 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to all students in Botany Department programs of study who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): BTNY 2104, BTNY 2114, BTNY 2121, two upper-division Botany courses, and instructor approval. Course may be repeated 5 times for a maximum of 6 credit hours.

BTNY 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): BTNY 2104 and BTNY 2114 and BTNY 2121 and any specified courses selected by the instructor.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

BTNY 4950 - Advanced Field Botany

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$100

Course Fee Purpose: The course fee is used to supply and maintain field equipment and cover the costs of transportation and lodging for a five day field trip.

Description: A concentrated study of the flora and/or field methods for conducting surveys or ecological studies in a specific geographical region. This course generally involves an extended field trip conducting botanical fieldwork in addition to local fieldwork and/or study to prepare for and summarize trip results.

Pre-requisite(s): BTNY 2104, BTNY 2114, and consent of the instructor.

BTNY 4970 - Botany Thesis

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Written report of thesis research in the form of a scientific paper.

Pre-requisite(s): BTNY 4850 and approval of instructor (thesis advisor).

BTNY 4990 - Botany Capstone Seminar

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Oral presentation of an individual research, thesis research, library research, or internship project in which the student demonstrates understanding of science as a process. This course includes the final evaluation of the student's portfolio and should be taken the last semester of the senior year.

Pre-requisite(s): BTNY 2121 and Senior status.

BTNY 5030G - Botany for Teachers

Credits: (2-5)

Description: Science content course for teachers in MEd Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

Course may be repeated up to 10 times.

Note: This course is offered as needed.

CHEM 1010 PS - Introductory Chemistry

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: This is a lecture-demonstration class designed to introduce the subject of chemistry and requires no prior chemistry experience. This class is designed for students who will not be majoring in a discipline that requires any further chemistry coursework. This course is not intended to prepare students for any future chemistry coursework.

CHEM 1110 PS - Elementary Chemistry

Credits: (4)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: Fundamentals of inorganic chemistry and introduction to organic chemistry. The first course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.

Co-Requisite(s): CHEM 1115.

CHEM 1115 - Elementary Chemistry Lab

Credits: (1)**Typically Taught Summer Semester:** *Full Sem - Online***Typically Taught Fall Semester:** *Full Sem, Full Sem - Online***Typically Taught Spring Semester:** *Full Sem, Full Sem - Online***Course Fee:** \$35.00**Course Fee Purpose:** Lab related chemicals and consumables.

Description: CHEM 1115 is the lab course designed to accompany CHEM 1110. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry and introduction to organic chemistry. The first lab course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.

Co-Requisite(s): CHEM 1110.**CHEM 1120 - Elementary Organic Bio-Chemistry****Credits: (4)****Typically Taught Summer Semester:** *Full Sem Online***Typically Taught Fall Semester:** *Full Sem, Full Sem Online***Typically Taught Spring Semester:** *Full Sem, Full Sem Online*

Description: Elementary study of the compounds of carbon and chemical compounds and reactions of biological systems. The second course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry. Four hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 1110 and CHEM 1115.**Co-Requisite(s):** CHEM 1125.**CHEM 1125 - Elementary Organic Bio-Chemistry Lab****Credits: (1)****Typically Taught Summer Semester:** *Full Sem, Full Sem ONL***Typically Taught Fall Semester:** *Full Sem, Full Sem ONL***Typically Taught Spring Semester:** *Full Sem, Full Sem ONL***Course Fee:** \$35.00**Course Fee Purpose:** Lab related chemicals and consumables.

Description: Students will be introduced to lab techniques associated with organic chemistry and biochemistry. This is the second lab course in a two-semester sequence designed primarily for students of nursing, engineering technology and some other fields of science and health professions who require no more than one year of chemistry.

Pre-requisite(s): CHEM 1110 and CHEM 1115.**Co-Requisite(s):** CHEM 1120.**CHEM 1130 PS - Introduction to General, Organic & Biochemistry****Credits: (4)****Typically Taught Summer Semester:** *Full Sem Online***Typically Taught Fall Semester:** *Full Sem, Full Sem Online***Typically Taught Spring Semester:** *Full Sem, Full Sem Online*

Description: An introduction to general, organic and biochemistry designed primarily for students of nursing and other majors that require no more than one semester of chemistry. 4 hours of lecture per week.

Co-Requisite(s): CHEM 1135.**CHEM 1135 - Introduction to General, Organic & Biochemistry Lab****Credits: (1)****Course Fee:** \$35.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: CHEM 1135 is the lab course designed to accompany CHEM 1130. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry, organic chemistry, and biochemistry.

Co-Requisite(s): CHEM 1130.

CHEM 1200 - Preparation for College Chemistry

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: CHEM 1200 prepares students to take the CHEM 1210 -1220 chemistry series. No prior chemistry experience is necessary, however, mathematical and problem-solving competency at the level of intermediate algebra (MATH 1010) or above is expected. *Students who do not plan to take Chemistry 1210-1220 series should not take this class.* This course does not fulfill any general education requirements and does not apply towards hours in any major. Three hours of lecture per week.

Pre-requisite/Co-requisite: MATH 1010, MATH 1050, MATH 1080, MATH 1210, MATH 1220, or MATH 2210.

CHEM 1210 PS - Principles of Chemistry I

Credits: (4)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This is the first course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include components of matter, stoichiometry, major classes of reactions, gases and kinetic molecular theory, thermochemistry, quantum theory and atomic structure, models of chemical bonding, shapes of molecules, intermolecular forces, and properties of mixtures. The laboratory emphasizes qualitative and quantitative methods of analysis. Four hours of lecture per week.

Pre-requisite(s): CHEM 1200 or MATH 1050 or MATH 1080 or, MATH 1210 or, MATH 1220 or, MATH 2210.

Co-Requisite(s): CHEM 1215.

Note: If CHEM 1200 has been successfully completed MATH 1050 may be taken as a Co-requisite with Chem 1210 with departmental approval.

CHEM 1215 - Principles of Chemistry I Lab

Credits: (1)

Typically Taught Summer Semester: *1st Block*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: CHEM 1215 is the lab course designed to accompany CHEM 1210. This is the first laboratory course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. This laboratory emphasizes qualitative and quantitative methods of analysis.

Pre-requisite/Co-requisite: CHEM 1210.

CHEM 1220 - Principles of Chemistry II

Credits: (4)

Typically Taught Summer Semester: *2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This is the second course in a series designed primarily for science majors and others who will take more than one year of chemistry such as pre-medical students, clinical/medical laboratory scientists, and some engineering students. Course topics include kinetics, equilibrium including aqueous solution equilibrium, thermodynamics, electrochemistry, and an introduction to inorganic, nuclear, and organic chemistry.

Four hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 1210 and CHEM 1215, MATH 1050 or MATH 1080 or MATH 1210 or MATH 1220 or MATH 2210.

Co-Requisite(s): CHEM 1225.

CHEM 1225 - Principles of Chemistry II Lab

Credits: (1)

Typically Taught Summer Semester: *2nd Block*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: CHEM 1225 is the lab course designed to accompany CHEM 1220. Students will be introduced to lab safety and lab techniques associated with fundamentals of inorganic chemistry including kinetics, equilibrium, acids and bases, thermodynamics, electrochemistry, nuclear chemistry, and transition metal chemistry. The second lab course in a two-semester sequence designed primarily for science majors.

Pre-requisite(s): CHEM 1210 and CHEM 1215.

Co-Requisite(s): CHEM 1220.

CHEM 1230 PS - Engineering Chemistry

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: This course is designed primarily for engineering majors who will take one semester of introductory chemistry. This course will teach the fundamental principles of chemistry including introduction to atomic structure, chemical bonding, chemical reactions, stoichiometry, kinetics, equilibrium, thermodynamics, and materials. A 1-credit laboratory accompanies this class.

Pre-requisite/Co-requisite: MATH 1050.

CHEM 1235 - Engineering Chemistry Lab

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Defray the cost of chemicals and other expendable laboratory materials, as well as for the purchase, maintenance, and repair of laboratory equipment.

Description: The lab component to foundational chemistry for engineers. By the end of class, students will:

- Determine chemical hazards.
- Perform chemical reactions and analysis safely.
- Set up reaction procedures, and calculate yields.
- Use appropriate glassware correctly, and report their properties accurately and precisely.
- Have a basic knowledge of the following instrumentation: calorimeters, pressure sensors, spectrometers.

CHEM 1360 PS - Principles of Physical Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: A lecture/laboratory course designed to provide an introduction to the scientific method and its application to the study of selected topics in physics and chemistry.

Two hours of lecture and one 3-hour lab per week. Recommended for Elementary Education majors.

CHEM 2310 - Organic Chemistry I

Credits: (4)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Principles of organic chemistry, including structure and reactivity of carbon based molecules. Detailed study of mechanisms, synthesis, and reactions. Alkane, alkyl halide, alkyne, alcohol, and ether families are covered. Four hours of lecture a week.

Pre-requisite(s): CHEM 1220 and CHEM 1225.

Co-Requisite(s): CHEM 2315 lab.

CHEM 2315 - Organic Chemistry I Lab

Credits: (1)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Lab course designed to be taken with CHEM 2310. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.

Pre-requisite(s): CHEM 1220 and CHEM 1225.

Co-Requisite(s): CHEM 2310 lecture.

CHEM 2320 - Organic Chemistry II

Credits: (4)

Typically Taught Summer Semester: *2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Principles of organic chemistry, second semester. A continuation of structure and reactivity analysis, along with structure elucidation techniques, spectroscopy and synthetic reactions. Coverage includes aromatics, carbonyls, carboxylic acid derivatives, and sugars. Four hours of lecture a week.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

Co-Requisite(s): CHEM 2325 lab.

CHEM 2325 - Organic Chemistry II Lab

Credits: (1)

Typically Taught Summer Semester: *2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Lab course designed to be taken with CHEM 2320. Includes organic laboratory techniques, synthesis, product isolation, spectroscopy and analysis.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

Co-Requisite(s): CHEM 2320 lecture.

CHEM 2600 - Laboratory Safety

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An interdisciplinary, course that will be an overview of the major chemical, biological and physical safety issues related to science laboratories and field work.

Class will meet once per week and will be taught in a lecture/demonstration format.

Cross-listed with BTNY, CHEM, GEO, and PHYS.

CHEM 2820 - Elements of Research in the Sciences

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This interdisciplinary course provides concrete skills for productive entry-level scientific research. Students engage in a hands-on introduction to scientific research and methods, including an introduction to sample handling, data analysis, and dissemination of results through papers and presentations. Upon completion of the course, a student will be prepared for potential internships, summer research programs, and research assistantships both on and off campus.

Pre-requisite(s): MATH 1060 or MATH 1080 or MATH 1210; and CHEM 1210 or PHYS 2210 or PHYS 2010 or (GEO 1110 and GEO 1115).

Cross-listed with GEO 2820 and PHYS 2820.

CHEM 2890 INT - Cooperative Work Experience

Credits: (1-6)

Description: Open to all students in the Chemistry Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

CHEM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title with the credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

CHEM 2990 - Chemical Technician Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A course designed to provide the skills necessary to enter the job market as a Chemical Technician.

One hour of lecture/discussion a week.

Pre-requisite(s): CHEM 1220 and CHEM 1225.

CHEM 3000 - Quantitative Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Theory and methods of gravimetric and volumetric analysis and simple instrumentation. Includes statistical evaluation of results.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): CHEM 1220 and CHEM 1225.

Pre-requisite/Co-requisite: CHEM 3020 or permission of instructor.

CHEM 3005 - Quantitative Analysis Lab

Credits: (1)

Course Fee: \$30.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: CHEM 3005 is a stand-alone lab course designed to accommodate transfer students from other

Universities. CHEM 3005 registration will be allowed only by special permission from the Chair of Chemistry.

Transfer students who have taken the CHEM 3000 lecture without the lab should petition the Chair of the Chemistry Department for permission to take this course.

Pre-requisite(s): Must have completed or currently be enrolled in CHEM 3000 lecture.

Note: This course is offered as needed.

CHEM 3020 - Computer Applications in Chemistry

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A course designed to provide students computer skills for applications including computation and electronic data bases searches. It is required that this course be taken before or with CHEM 3000.

One hour of lecture/discussion a week.

Pre-requisite(s): CHEM 1210 and CHEM 1215.

Pre-requisite/Co-requisite: CHEM 3000

CHEM 3050 - Instrumental Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Theory and methods of modern instrumental analysis. Includes practical applications in electrochemical, spectrometric, and chromatographic techniques.

Three hours of lecture and one three hour laboratory per week.

Pre-requisite(s): CHEM 3000.

Note: This course is offered as needed.

CHEM 3060 - Applied Analysis

Credits: (1)

Description: Applied Analysis using modern methods of analysis with an emphasis on speed and accuracy.
One 3-hour lab per week.

Pre-requisite(s): CHEM 3000.

Pre-requisite/Co-requisite: CHEM 3050.

Note: This course is offered as needed.

CHEM 3070 - Biochemistry I**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Structure and function of biomolecules including proteins, nucleic acids, fats and carbohydrates. A focus on proteins as energy transforming and catalytic devices; their role in metabolism, defense and other biochemical processes. Three lectures a week.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

CHEM 3075 - Biochemistry I Lab**Credits: (1)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Biochemistry lab course designed to accompany Biochemistry I Lecture, CHEM 3070. Includes biochemical concept illustration using chemical and biological techniques and experimentation.

Pre-requisite(s): CHEM 2310 and CHEM 2315.

Co-Requisite(s): CHEM 3070.

CHEM 3080 - Biochemistry II**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: A detailed study of the molecular basis of life: nucleic acids, biosynthetic pathways, molecular aspects of disease and pharmacology.

Three lectures a week.

Pre-requisite(s): CHEM 2320, CHEM 2325, and CHEM 3070.

CHEM 3090 - Biochemical Techniques**Credits: (1)**

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$10.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Advanced techniques including instrumentation for biochemistry.
One 3-hour lab per week.

Pre-requisite(s): CHEM 2320, CHEM 2325, CHEM 3070, and CHEM 3075.

Pre-requisite/Co-requisite: CHEM 3080.

CHEM 3400 - Molecular Symmetry and Applied Math for Physical Chemistry**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Description: An introduction to molecular symmetry, experimental error analysis, and physical chemistry applications of algebra, linear algebra, and differential equations.

Pre-requisite(s): MATH 1220.

Co-Requisite(s): CHEM 3410.

CHEM 3410 - Foundations in Physical Chemistry

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: The one-semester foundation course in Physical Chemistry covering chemical thermodynamics, kinetics with an introduction to quantum mechanics. Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): MATH 1220, PHYS 2220, CHEM 3000, ENGL 2010.

CHEM 3510 - Environmental Chemistry

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Fees for this course are used to defray the cost of chemicals and other expendable laboratory materials, as well as for the purchase, maintenance, and repair of laboratory equipment. To help minimize lab fees, students are expected to exercise careful use of chemicals, glassware, and laboratory equipment.

Description: CHEM 3510 focuses on the chemical processes that determine how matter moves through environmental systems. The course emphasizes chemical equilibrium, mass transport, and the relative timescales of chemical, physical, and biological processes in the environment. The lab portion of this course develops students' benchtop chemistry and programming skills in the context of researching the fate of a chemical product in the environment. All laboratory data analysis and calculations will be carried out using the Python programming language.

CHEM 3570 - Foundations of Science Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A thorough investigation of research in science learning and curricular standards at the state and national levels. Foundations of the philosophy of science and scientific inquiry as applicable to science teaching at the secondary level. This course serves as a foundation to a preservice science teacher's education coursework.

CHEM 3610 - Foundations in Inorganic Chemistry

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: A foundation course for chemistry majors and minors. Topics include atomic properties, bonding, molecular symmetry, solid state structures, and transition metal complexes. This class will meet for 3 hours each week with one 3 hour laboratory per week.

Pre-requisite(s): CHEM 1220, CHEM 1225, and MATH 1060 or MATH 1080.

CHEM 4150 - Nuclear Magnetic Resonance Spectroscopy

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: NMR theory is investigated from a semi-classical standpoint and practiced on an NMR spectrometer. Pulse and Fourier transform NMR basics are developed and common one- and two-dimensional NMR experiments are described.

Pre-requisite(s): CHEM 2310, CHEM 2315, MATH 1220, and PHYS 2220 with lab.

CHEM 4250 CRE - Medicinal Chemistry

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Medicinal chemistry is a fast-paced and important field that has direct impacts on overall world health and quality of life. This 3-credit-hour course is designed for students with an interest in chemistry, biochemistry, pharmacology, and medicine. It will provide an in-depth look at how pharmacologically active molecules are designed, how they chemically interact with their targets, and how they work molecularly to treat human diseases. Selected case studies will be used to illustrate the concepts being covered. In line with our university mission, an overarching theme will be looking at how medicinal chemistry affects our worldwide community with emphasis on patents, drug development costs, risks, and ethics.

Pre-requisite(s): CHEM 3070.

CHEM 4420 CRE - Quantum Chemistry

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: The second semester course of Physical Chemistry covering quantum mechanics, statistical mechanics, and chemical reaction dynamics.

Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 3000 and CHEM 3410 and CHEM 3610.

CHEM 4540 - Spectrometric and Separation Methods

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Theory and practice of spectrometric and separation methods in the study of chemical systems.

Three hours of lecture and one 3-hour lab per week.

Pre-requisite(s): CHEM 3050.

CHEM 4550 - Geochemistry

Credits: (3)

Description: The chemistry of the earth and geochemical processes operating in the lithosphere, hydrosphere, and atmosphere with a synthesis of these ideas to account for the chemical evolution of the earth. Applications to mineral stability and chemical reactions, geochemical cycles, and isotope geochemistry.

Three hours of lecture a week.

Pre-requisite(s): CHEM 1220, CHEM 1225 and GEO 2050 or consent of instructor.

Note: This course is offered during even years.

CHEM 4560 - Environmental Geochemistry

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: Applications of chemistry to understanding Earth system cycles and assessing environmental health and safety. Course emphasizes modern surface geochemical cycles operating in the lithosphere, hydrosphere, atmosphere, and biosphere. Applications of aqueous chemistry, geomicrobiology, and isotope geochemistry. Laboratory introduces practical skills and real-world applications. Three hours of lecture and three hours of lab per week.

Pre-requisite(s): CHEM 1220, CHEM 1225 and GEO 3000; or consent of instructor.

CHEM 4570 CEL - Secondary School Science Teaching Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Acquaintance and practice with various teaching and assessment methods. Development of science curricula including lesson and unit plans. It is recommended that this course be completed immediately before student teaching.

Pre-requisite(s): Admission to the Teacher Education Program.

CHEM 4620 - Advanced Inorganic Chemistry

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Students will learn how to use symmetry and current bonding theories to explain and predict the structure, properties and reactivity of inorganic molecules. They will explore the breadth of inorganic chemistry including organometallic chemistry, bioinorganic chemistry, and catalysis. The research-based laboratory experience focuses on the synthesis, characterization, and testing of inorganic compounds using state of the art techniques and instrumentation.

Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 3610 or permission of instructor.

CHEM 4630 - Materials Chemistry

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Materials chemistry is the study of the synthesis, structure, properties, and applications of solid materials. Our technology-driven world is fueled by advances in materials chemistry with examples of application in areas such as nanomaterials, polymers, and energy technology. This survey course will focus on the synthesis of materials through gas, liquid, and solid phase reactions. Crystalline and molecular structure of materials will be related to electronic, optical, thermal, and mechanical properties. Some material characterization techniques including x-ray diffraction and microscopy will be covered. The accompanying lab focuses on synthesis of advanced crystalline and amorphous materials through traditional and new techniques. Analysis with scanning electron microscopy, x-ray diffraction, uv/vis spectroscopy, and IR spectroscopy is included.

Three hours of lecture and one 3-hour lab a week.

Pre-requisite(s): CHEM 3610.

CHEM 4700 - Special Topics in Chemistry

Credits: (1-3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Pre-requisite(s): CHEM 4420 or permission of instructor.

This course may be repeated twice for a maximum of 3 credit hours.

CHEM 4710 - Chemical Preparations

Credits: (1-3)

Course Fee: \$20.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Synthesis and determination of the properties of selected chemical compounds.

Three to nine hours of lab a week.

Pre-requisite(s): Permission of the instructor.

Note: This course is not currently being offered.

CHEM 4800 - Research and Independent Study in Chemistry

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$10.00

Course Fee Purpose: Lab related chemicals and consumables.

Description: Open to qualified students for one or more semesters.

May be repeated for credit up to 12 times with instructor approval.

CHEM 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A continuation of CHEM 2890. Open to all students.

May be repeated for credit up to 12 times with instructor approval.

CHEM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

CHEM 4990 CRE - Senior Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A seminar course where students will share their research results with fellow students and faculty in

written and oral formats.

Pre-requisite(s): CHEM 4800 or permission of instructor.

CHEM 5030G - Chemistry for Teachers

Credits: (3-5)

Description: Science content course for teachers in the M. Ed Science Emphasis Program. To register, select another departmental course and develop a contract detailing additional work required for graduate credit. Contract must be approved by instructor, department chair, and Director of the Master of Education Program.

May be repeated twice with a maximum of 5 credit hours.

CHEM 6110 - Master's Research I

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course is designed for students in the Master's of Applied Chemical Sciences. The student will be assigned to a project as negotiated by their WSU mentor and the mentor provided by their employer. This course is designed for the beginning portion of their project, up to 6 credit hours of their overall 18 credit hours of research within the program.

May be repeated 6 times for a max of 6 credits.

CHEM 6120 - Master's Research II

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course is designed for students in the Master's of Applied Chemical Sciences. The student will be assigned to a project as negotiated by their WSU mentor and the mentor provided by their employer. This course is designed for the intermediate portion of their project, up to 6 credit hours of their overall 18 credit hours of research within the program.

Pre-requisite(s): CHEM 6110.

May be repeated 6 times for a max of 6 credit hours.

CHEM 6130 - Master's Research III

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course is designed for students in the Master's of Applied Chemical Sciences. The student will be assigned to a project as negotiated by their WSU mentor and the mentor provided by their employer. This course is designed for the advanced portion of their project, up to 6 credit hours of their overall 18 credit hours of research within the program.

Pre-requisite(s): CHEM 6120.

May be repeated 6 times for a max of 6 credits.

CHEM 6200 - Published Literature Research

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: Students pursuing the Master of Applied Chemical Sciences develop a working knowledge of modern literature searching methods to extract information from published chemical literature. The primary focus of the course is on using the tools of chemical research in practical applications to problems. Students will distill information from multiple sources to develop actionable applications in industry.

CHEM 6310 - Regulatory Agency Compliance

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course provides an overview of key regulatory frameworks and compliance requirements relevant to industrial chemists working in fields such as nutritional supplements, medical supplies, defense manufacturing, state laboratories, and small molecule synthesis. Students will explore regulations enforced by agencies including the FDA, EPA, OSHA, and DOT, as well as international standards like ITAR/EAR and GHS. Emphasis is placed on understanding the practical application of compliance in areas such as good manufacturing practices, hazardous materials handling, chemical labeling, and safety protocols. By the end of the course, students will be equipped with the tools to navigate regulatory challenges, ensure workplace compliance, and prepare for industry audits.

CHEM 6330 - Quality Control and Materials Validation

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course is designed to help students develop an in-depth understanding of quality control (QC) practices and materials validation methods in the context of applied or industrial chemistry. It focuses on the principles and methodologies used to ensure the quality, reliability, and compliance of chemical products and materials with industry standards and regulatory requirements. Students will explore modern analytical techniques, statistical quality assurance tools, and the implementation of quality management systems in various industries. The course emphasizes practical applications, case studies, and the integration of QC protocols in production environments, preparing students for real-world problem-solving in quality assurance and validation.

CHEM 6340 - Statistical Design of Experiments

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: Planning, conducting, and analyzing scientific experiments are critical skills central to applying the scientific method. An introduction to an efficient and effective experimental design, known as Statistical Design of Experiments (DOE), is presented. The application of DOE principles is broken down into four main steps. (1) Identifying the most important variables in the study using Plackett-Burman screening. (2) Using two-level factorial designed experiments to determine the main and interaction effects on the system responses. (3) Mathematical models are developed based on these responses and used to predict results of further experiments. (4) Introduce students to commercially available DOE software. This course includes laboratory exercises for the student to test and apply the DOE concepts to an experimental study. During the laboratory investigation, students will evaluate both screening and factorial designs.

CHEM 6350 - Industrial Polymers

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course provides an introduction to industrial polymers, focusing on their commercial importance

and the properties that make them essential in various applications. Topics covered include polymer synthesis and nomenclature, molecular weight and molecular weight distribution, methods for polymer characterization and testing, polymer morphology, stereoregular polymers, and polymer blends. The course explores key polymerization techniques such as step-growth, chain-growth, and ring-opening polymerization, as well as an in-depth look at commercially significant addition and condensation polymers.

Students will gain a comprehensive understanding of industrial polymers, enabling them to analyze, characterize, and apply these materials in industrial contexts.

CHEM 6900 - Master's Seminar

Credits: (1)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This master's level course is an advanced, discussion-based class focused on current research topics and trends in the chemical sciences. Students actively engage with guest lecturers, professors and other students by presenting and critically analyzing primary literature, developing their oral communication skills, and fostering in-depth understanding of complex chemical concepts through facilitated group discussions and presentations in a small group setting.

May be repeated 3 times with a max of 3 credits.

CHEM 6990 - Capstone Project

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: The Capstone Project course serves as the culmination of an 18-credit hour graduate-level internship research experience. In this course, students synthesize their research findings into a comprehensive, dissertation-style report. The report includes a thorough literature review, detailed summaries of experimental methodologies, data analysis, and discussion of results. Students will also identify unresolved questions and propose directions for future research. Through this course, students demonstrate their ability to communicate complex research effectively while reflecting on their professional growth and contributions to the field. The course emphasizes scholarly rigor, critical thinking, and professional communication.

Pre-requisite/Co-requisite: CHEM 6130.

CHF 1500 SS/CC - Human Development

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: A survey course which addresses the developmental aspects of individuals across the lifespan. Course content encompasses the study of biological, cognitive, social, and emotional developmental changes of the healthy individual in the context of the family and society. It emphasizes and demonstrates the vital connections between theory, research, and application.

CHF 2400 SS/CC - Family Relations

Credits: (3)

Typically Taught Summer Semester: *1st Blk, 1st Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: Examines dynamics of the healthy family using family theory, individual life span development, research, and active learning experiences.

CHF 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

CHF 4810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

CHNS 1000 - Proficiency Development

Credits: (1-2)

Description: (N=Novice) (Cr/NCr) Non-graded courses for entry-level students to augment foreign language instruction in stress-free activities such as reading children's literature, learning and performing skits, folk dancing, singing, cooking, etc.

May be repeated for credit under different titles.

Note: Course not currently being offered.

CHNS 1010 - First Semester Chinese

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (N=Novice) Introductory course assuming no significant previous experience with the language. Beginners and students with less than two years of high school language should register for this class. Emphasis on everyday conversation and exposure to cultural perspectives.

CHNS 1020 - Second Semester Chinese

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (N=Novice) Continuation of CHNS 1010. Basic language skills including listening, speaking, reading, writing and culture.

CHNS 1852 - Study Abroad

Credits: (1-3)

Description: (N=Novice) Language and culture studies for students with no previous experience in the target language and culture. Most assignments are performed in English. Prior travel experience does not apply. May be repeated twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

CHNS 2000 - Proficiency Development**Credits: (1-2)**

Description: (NH=Novice High) (CR/NC) Non-graded courses for second-year students to augment foreign language instruction in stress-free activities appropriate to the linguistic level of second-year students. May be repeated under different titles. Note: Course not currently being offered.

CHNS 2010 - Third Semester Chinese**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (NH=Novice High) Continuation of CHNS 1020. Assumes completion of first-year or equivalent experience. Students learn to understand and express ideas about their community and the world. Includes listening, speaking, reading, writing and culture.

CHNS 2020 HU - Fourth Semester Chinese**Credits: (3)**

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (NH=Novice High) Continuation of CHNS 2010. The learning and application of strategies for acquiring a foreign language. Students also learn how cultural products and practices reflect a culture's attitudes, values, ideas and meaning. The process of language acquisition and the seeking of cross-cultural understanding provide insights into the commonalities of how the human family learns, thinks and communicates.

CHNS 2021 - Second Year II**Credits: (3)**

Description: (NH=Novice High) Continuation of CHNS 2010 without General Education Humanities credit. Offered through examination only.

Pre-requisite(s): Only available through testing.

CHNS 2030 - Second Year Language Review**Credits: (3)**

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

CHNS 2851 - Study Abroad

Credits: (3)

Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Note: Check with Department for course availability.

CHNS 2852 - Study Abroad**Credits: (1-3)**

Description: (NH=Novice High) Language and culture studies for students whose minimal proficiency is at Novice High. Language assignments at the Novice or Intermediate-Low levels are performed in the target language. All other assignments are performed in English. Prior travel experience does not apply.

Twice with a maximum of 3 credit hours.

Note: Check with Department for course availability.

CHNS 3000 - Proficiency Development**Credits: (3)**

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) This is a transition course to upper division. The course focuses on oral proficiency development. Students will learn a variety of techniques and strategies to increase their oral proficiency in a variety of social, educational and cultural settings. Native-speaking students or those who have acquired proficiency through residence in the target language community are not eligible to take this class.

Note: Check with department for course availability.

CHNS 3060 - Grammar & Composition**Credits: (3)**

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IL=Intermediate Low) Students will read examples of writing in various modes (such as description, narration, exposition, and argument), write short compositions in those modes, and review the necessary grammar to write correctly in those modes.

CHNS 3116 - DLI Bridge Course I**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3117 - DLI Bridge Course II**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3118 - DLI Bridge Course III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Taught in DLI High Schools for students who have passed the AP Exam with a 3 or higher. Although this is a three credit-hour class, it will meet over the course of a full academic year. Credit will count toward a major or minor in the language.

Pre-requisite(s): CHNS 2020 or AP exam with a score of 3 or better.

CHNS 3320 - Applied Language Studies

Credits: (1-3)

Variable Title

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (Minimal proficiency level varies with content).

May be repeated up to 10 times under different titles.

CHNS 3550 - Cultural Heritage I

Credits: (3)

Variable Title

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (Intermediate Mid) In-depth studies in culture, history, geography, social customs, fine arts and civilization.

May be repeated up to 7 times for credit and for other non-English speaking cultures.

CHNS 3631 - Literature: Prose

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of works in prose by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.

May be taken 3 times up to 9 credits under different titles.

CHNS 3632 - Literature: Drama

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of theater plays by one or various authors of a particular period or place, or spanning several literary movements and geographical regions.

May be taken 3 times up to 9 credits under different titles.

CHNS 3680 - Literature: Film

Credits: (3)

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid). A survey of film by one or various filmmakers of a particular period or place, or spanning several literary movements and geographical regions.
May be taken 3 times up to 9 credits under different titles.
Note: Check with department for course availability.

CHNS 3710 - Business Language I

Credits: (3)

Course Fee: \$8.00

Course Fee Purpose: Maintain technology in the FL lab, EH 408, and classroom technology.

Description: (IM=Intermediate Mid) Business Language and Practices. Required of all commercial majors.

Note: Check with department for course availability.

CHNS 3850 - Study Abroad

Credits: (1-6)

Description: (IM=Intermediate Mid) Language and culture studies for students whose language proficiency is Intermediate Low to Intermediate High. All Intermediate and Advanced tasks will be performed in the target language. All Superior tasks may be performed in English. Prior travel experience does not apply.
May be repeated up to 10 times for credit.

CHNS 4830 - Directed Readings

Credits: (1-3)

Description: (IH=Intermediate High) Independent readings under the direction of a faculty member.

May be repeated up to 10 times.

Note: Check with Department for course availability.

CHNS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: (minimal proficiency level; varies with content). Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Course not currently being offered.

CJ 1010 SS - Introduction to Criminal Justice

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Description: An introduction to the history, processes and functions of the American criminal justice system and its primary components, law enforcement, courts, and corrections.

CJ 1060 - POST Certification Credits, SFO Block

Credits: (6)

Description: Experiential credit for students completing a State of Utah authorized SFO block at POST Academy. Register through the Department of Criminal Justice. *Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.*

CJ 1070 - POST Certification Credits, BCO Block

Credits: (3)

Description: Experiential credit for students completing a State of Utah authorized BCO block at POST Academy. Register through the Department of Criminal Justice. *Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.*

CJ 1080 - POST Certification Credits, LEO Block

Credits: (9)

Description: Experiential credit for students completing a State of Utah authorized LEO block at POST Academy. Register through the Department of Criminal Justice. *Does not count for credit toward CJ major, CJ minor or BIS emphasis in CJ.*

CJ 1300 - Corrections: History, Theory and Practice

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Description: An introductory overview of the correctional system including: the historical development and societal context of corrections, contemporary correctional theory and law, jails and prisons, community corrections, treatment, juvenile corrections, and contemporary correctional issues.

CJ 1330 - Criminal Law and Courts

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Description: Surveys American criminal law and the criminal court system. Elements of crime, defenses, historical foundation, limits, purposes and functions of criminal law. History, theory and practice of criminal courts.

CJ 1340 - Criminal Investigation

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: This is an introduction to Criminal Investigation including the necessary functions of interviewing witnesses and suspects, techniques in the collection and preservation of evidence, crime scene processing including some post-crime scene processing of evidence, follow-up investigation and recent techniques of enhancing the criminal investigation function.

CJ 1350 - Introduction to Forensic Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: An introduction to the various types of physical evidence commonly encountered at crime scenes (e.g., fingerprints, hairs, fibers, drugs, glass, etc.), including discussion of comparison and identification techniques (i.e., optical examination/comparison, instrumental analysis, and many chemical processes) used in the analysis of such physical evidence.

CJ 2300 - Policing: History, Theory and Practice

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: This course will provide an overview of the history of policing and the role of police in modern society. Particular emphasis will be placed on problems and issues confronting police and solutions within an organizational framework.

CJ 2330 - Juvenile Justice

Credits: (3)

Typically Taught Summer Semester: *Online*

Description: Origin, philosophy, and development of the juvenile justice system, particularly the juvenile court. Emphasis placed upon laws, detention, adjudication, probation, after-care, foster homes, and other alternative correctional practices.

CJ 2340 - Crime Scene Investigation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to give students an understanding of the integration of the criminal investigative process with complex scientific application of modern technology in searching for and processing physical evidence in crime scenes. It will provide background into the theory behind Crime Scene Science and the ethical and legal challenges faced by Forensic Scientists and Crime Scene Investigators. Using modern instructional materials, students will learn of the complexity of processing and documentation of Crime Scenes with the ultimate goal of having a successful outcome in the court system.

Pre-requisite(s): CJ 1350.

CJ 2350 - Laws of Evidence

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Deals with the principles and rules of law emphasizing evidentiary problems related to criminal cases.

CJ 2360 - Juvenile Law and Procedure

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: An investigation of the juvenile justice system emphasizing Utah law and procedure. Studies differences between juvenile and adult systems, delinquent acts, juvenile treatment as adults and role and function of probation, youth corrections, family services and the community.

CJ 2400 - Criminal Court Process

Credits: (3)

Typically Taught Summer Semester: *Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: Introduction to American criminal case processing including instruction on how a case is processed, step-by-step, from beginning to end. The motivations, cultural norms and behaviors of attorneys, judges and jurors will also be studied.

CJ 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

CJ 2860 INT - Criminal Justice Field Experience

Credits: (3)

Description: Field experience in an internship with city, county, and state criminal justice agencies.

May be repeated once for 6 credit hours.

Note: This course is not currently offered (see CJ 4860).

CJ 2861 INT - Victim Advocacy Capstone

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Description: Capstone experience for students in the Victim Advocacy Certificate of Proficiency comprised of a volunteer experience with a victim advocacy agency/department; or victim advocacy training experience. Must be enrolled in the VA Certificate to register. Variable credit course (1-3 credit hours). Credit hours determined by type and length of experience in consultation with instructor prior to beginning course.

Pre-requisite(s): Completion of certificate required and elective courses; and instructor permission.

Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

May only be taken once for credit.

CJ 2862 INT - Juvenile Justice Capstone

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Description: Capstone experience for students in the Juvenile Justice Certificate of Proficiency comprised of a volunteer experience with a city, county or state juvenile justice agency/department. Must be enrolled in the JJ Certificate to register. Variable credit course (1-3 credit hours). Credit hours determined by length of experience in consultation with instructor prior to beginning course. May only be taken once for credit.

Pre-requisite(s): Completion of certificate required and elective courses.

Co-Requisite(s): Concurrent enrollment in no more than 9 hours of the remaining required and elective courses in the certificate; and instructor permission.

CJ 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript.
May be repeated for a total maximum of 6 credit hours.

CJ 3000 - Graduate School Prep

Credits: (1)

Typically Taught Fall Semester: *2nd Blk-Online*

Typically Taught Spring Semester: *2nd Blk-Online*

Description: This 1-credit hour course is designed to provide social science students with knowledge about applying for graduate school or a career in the criminal justice field. Additionally, it will help students strengthen their professional writing skills, recognize and identify ethical research strategies, and practice professional verbal communication. Beyond that, students will earn their CITI research training certificate and will hone their APA citation abilities. Students will leave the course with the knowledge and artifacts necessary to apply for a criminal justice position or become a graduate school candidate.

Pre-requisite(s): CJ 1010.

CJ 3005 - Law School Prep

Credits: (1)

Typically Taught Fall Semester: *2nd Blk-Online*

Typically Taught Spring Semester: *2nd Blk-Online*

Description: This 1-credit course is designed to equip students with essential knowledge and skills for advancing to law school and/or pursuing a career in the legal field. The course will compare different career options including lawyers, judges, judicial assistants, victim advocates, legal secretaries, and paralegals. It will then cover critical aspects of the law school application process, legal ethics, and basic communication skills necessary for legal careers. By the end of the course, students will have a clearer understanding of their career options in law and improved skills to help them achieve their goals.

Pre-requisite(s): CJ 1010.

CJ 3010 - CJ Careers Exploration

Credits: (1)

Typically Taught Fall Semester: *1st Blk-Online*

Typically Taught Spring Semester: *1st Blk-Online*

Description: This 1-credit course will provide a basic introduction to career opportunities in the American criminal justice system and pay particular attention to federal, state, and local law enforcement and correction careers. This class will also cover career opportunities in the adult and juvenile justice system as well as victim services and treatment/rehabilitation programs. Students will leave this class with a broad overview of career options in the American criminal justice system.

Pre-requisite(s): CJ 1010.

CJ 3020 - Criminal Justice Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Current command level problems and trends in criminal justice organizations and management including work environment, motivation, leadership, morale, discipline, evaluation, planning, and functioning of line and staff.

CJ 3040 - Community Policing

Credits: (3)**Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: Problem solving and the development of community trust are integral to community policing. The philosophy, concepts and methods in support of identifying the issues in a community that relate to crime are outlined and studied. The goal of creating healthy neighborhoods and sustaining the quality of neighborhood life are explained in detail. Crime is pervasive in American society, but victims and criminals have identified characteristics. These characteristics impact certain neighborhoods more than others. These characteristics and issues surrounding them are explored and researched.

CJ 3060 - Corrections in the Community**Credits: (3)****Typically Taught Summer Semester:** *Full Sem***Typically Taught Fall Semester:** *Full Sem*

Description: An overview of community based correctional programs focusing upon the historical origin, development, and current practices in probation, parole, the halfway house, work and educational release, as well as furlough programs.

CJ 3120 - Professional Practice for the Forensic Expert**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: An in-depth analysis of critical issues for forensic experts in all fields. Topics such as evidence preservation, report writing, expert testimony and ethics are investigated. The course will focus on theory and practice through lecture, writing and practical exercises.

Two-hour lecture, three-hour lab.

Pre-requisite(s): CJ 1350 or instructor approval.

CJ 3130 - Investigation of Computer Crime**Credits: (3)**

Description: Deals with the threats, vulnerabilities, and risks of unauthorized system access. Understanding the modus operandi of criminal acts associated with computer crime and how to investigate them. Cryptography and network security will be closely examined.

Note: This course is not currently offered.

CJ 3270 - Theories of Crime and Delinquency**Credits: (3)****Typically Taught Summer Semester:** *Full Sem, Full Sem Online***Typically Taught Fall Semester:** *Full Sem, Full Sem Online***Typically Taught Spring Semester:** *Full Sem, Full Sem Online*

Description: Study of the nature, extent, causes, and treatment of crime.

Pre-requisite(s): CJ 1010.

CJ 3300 - Victimology**Credits: (3)****Typically Taught Summer Semester:** *Full Sem, Full Sem Online***Typically Taught Fall Semester:** *Full Sem, Full Sem Online***Typically Taught Spring Semester:** *Full Sem, Full Sem Online*

Description: This course is designed to review key research areas in the field of victimology. Particular emphasis will be placed on theory, measurement, and empirical results related to different types, consequences, and prevention of victimization.

Pre-requisite(s): CJ 1010.

CJ 3340 - Crime Scene Photography

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques

Description: Theory and practice behind photographic documentation of crime scenes. Practice of proper documentation methodology, injury photography, evidence photography, special lighting considerations, etc. This hybrid course is a combination of lecture, laboratory, community workshops, and individual exercises.

Pre-requisite(s): CJ 2340 and ART 2450 and instructor approval.

Pre-requisite/Co-requisite: CJ 4115 or CJ 4125.

CJ 3344 - Advanced Forensic Photography

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Course Fee: \$40.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques

Description: This course addresses photography and imaging issues relevant to the forensic science laboratory including examination quality physical evidence imaging, alternative lighting and exposure techniques, digital camera calibration and maintenance, and courtroom presentation of image evidence.

Pre-requisite(s): CJ 3340.

CJ 3350 - The American Jail

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Spring Semester: *Full Sem*

Description: Course critically examines the American jail with particular emphasis on history, management, operations and contemporary issues.

CJ 3360 - Prisons - Contemporary Issues and Dilemmas

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A course which focuses upon the contemporary adult prison with a particular emphasis upon current problems, issues and dilemmas. Diversity issues such as integration of the prison work force by women and minorities as well as the problems of elderly, women, and minority inmates will be examined.

CJ 3370 - Death Penalty

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Online*

Description: Capital punishment is an interesting and pervasive topic within the field of criminal justice. This course will provide students with the opportunity to get acquainted with the history of capital punishment in the

United States, introduce the social and political perspectives that surround capital punishment, explore methods and costs of capital executions, and examine the implications of using the death penalty as a form of punishment.

CJ 3400 - Drugs and Crime

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The historic, economic, social and political roles of legal and illegal drugs; their contribution to crime of many kinds, accidents, and impacts on the criminal justice system; production and distribution systems; efforts to combat; decriminalization, prevention and treatment.

CJ 3600 - Criminal Justice Statistics

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: An introduction to descriptive and inferential statistics and data analysis for use in criminal justice and the social sciences.

Pre-requisite(s): CJ 1010 and (MATH 1030 or MATH 1040 or MATH 1050 or MATH 1080 or QL completion)

CJ 3610 - Research Methods in Criminal Justice

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Description: Addresses the social scientific methodology utilized in criminal justice and criminological research. The essentials of the scientific method will be studied such as research design, probability sampling, qualitative methods and the classic experimental design. The course will familiarize the student with the methods and problems of social science research as applied to the information needs of criminologists, criminal justice agencies, and criminal justice policy-makers. Students will acquire a better sense of criminology or criminal justice research and of exactly what it is that academic researchers do.

Pre-requisite(s): CJ 1010, or instructor approval.

CJ 3620 - Essential Skills for Criminal Justice Professionals

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem-Online*

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Description: This course is designed to equip individuals in the criminal justice profession with the necessary skills to effectively communicate in their field. It provides both a theoretical and practical study of communication's role in criminal justice practice. The course also covers communication technology and strategies for communicating with diverse ethnic groups. By the end of this course, criminal justice professionals will have developed enhanced communication skills necessary for success in their field.

CJ 3700 - Women & Criminal Justice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Course explores women within the American criminal justice system, focusing on females as the victim

and perpetrator of crime as well as the various positions that they hold within the criminal justice profession (i.e. law enforcement, courts, corrections). Additional attention will be paid to the social construction of gender and how it can shape the creation and application of social control within society.

CJ 3800 - White Collar Crime

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This is an advanced undergraduate course designed to provide an overview of white collar crime. The course emphasizes defining white collar crime, describing the nature of white collar crime, and applying criminological theories to explaining the perpetration of white collar crime.

CJ 3900 - Intelligence and National Security

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Exploration of the role and structure of intelligence collection and analysis in criminal justice and national security. Course focuses on skill building in the areas of critical thinking, organization and presentation of data, and problem analysis in the scope of intelligence and security driven problems.

CJ 4000 - Critical Legal Studies

Credits: (3)

Description: Critical Legal Studies comprehends the development and application of the criminal law and criminal justice institutions in the United States from a critical perspective. The course begins with a short review of slavery and race, civil rights and civil liberties, and the transformation of legal thought in America. Readings provide a perspective for how the criminal law and justice system are used to bolster the lives of the affluent classes while remaining oblivious or acting as a detriment to the lives of disadvantaged, under-represented and marginalized members of society. The course concludes with readings that provide an understanding for the meaning of justice, the role of the law in fostering a more just society, and the legal tools available to the advocate of social change to propose changes through legal reform.

Note: This course is not currently offered.

CJ 4065 - Law and Society

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course explores how law operates in society and how society influences the nature of the law. Topics may include the role of race in law, legal consciousness, efficacy of legal action, and the nature of the legal profession. Students may take either POLS 4065 or CJ 4065, but may not take both courses.

CJ 4080 - Criminal Justice Senior Thesis

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A writing intensive outcomes-assessment of the concepts, issues, methodologies, policies, and practices learned about the criminal justice system and processes.

Pre-requisite/Co-requisite: CJ 3270 and CJ 3610.
Suggested Requisite(s): CJ 3300 and CJ 4200.

CJ 4110 - Physical Methods in Forensic Science

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$55.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques

Description: Physical methods for evidence analysis including microscopy, pattern based physical evidence (firearms, footwear, etc.) pattern recovery and analysis and statistical foundations for pattern comparison.

Pre-requisite(s): CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

CJ 4115 - Friction Ridge Analysis

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$150.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques

Description: Legal and scientific methodology behind identification, analysis and comparison of finger and palm prints including computer database methodology. 3 hours lecture, 1 hour lab.

Pre-requisite(s): CJ 2340, CJ 3120 and either CHEM 1120 or CHEM 1220; or instructor approval.

CJ 4116 - Friction Ridge Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$55.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques

Description: Basic and applied scientific theory and practice behind the detection, development, recovery and preservation of latent finger and palm prints. 3 hours lecture, 3 hour lab.

Pre-requisite(s): CJ 4115.

CJ 4125 - Research Methods in Forensic Science

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques

Description: Selected topics in forensic instrumentation, trace evidence, pattern evidence, biological and chemical analysis, research methods and data analysis. 3 hours lecture, 3 hour lab.

Pre-requisite(s): CJ 4110, or instructor approval.

CJ 4165 - Constitutional Rights

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course critically examines Amendments to the United States Constitution related to criminal justice issues including the 4th, 5th, 6th, 8th, and 14th amendments. It examines citizen's rights and criminal justice agent's responsibility and liability in connection with those rights.

Pre-requisite(s): CJ 1010 and CJ 1330.

CJ 4167 - State Criminal Justice Rights

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course examines state supreme court decisions interpreting state constitutional provisions similar to the provisions in the U.S. Bill of Rights protecting criminal defendants. Emphasis is placed on discussing state constitutional decisions with broader constitutional interpretations than recognized by the U.S. Supreme Court. This course will focus upon state constitutional provisions analogous to the rights in the Fourth, Fifth, Sixth and Eighth Amendments, and the state supreme court decisions interpreting those state constitutional provisions.

Pre-requisite/Co-requisite: CJ 4165.

CJ 4200 - Ethical Issues in Criminal Justice

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Description: Critically examines selected criminal justice ethical issues such as capital punishment, official corruption, use of deadly force, discretion and deception by the police.

Pre-requisite(s): CJ 1010.

CJ 4300 - History of Law Enforcement

Credits: (3)

Description: An introduction to the history of America's law enforcement organizations, stressing the development, community issues, and organizational designs. The early leaders in policing and the early crime problems in America will be discussed and studied. From slave patrols prior to the Civil War to the U.S. Marshals of the old west, police development issues will be presented.

Note: This course is not currently offered.

CJ 4400 - Sex Crimes

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course examines sex crimes in the United States through the lens of the criminal justice system. Topics may include stereotypes and realities related to perpetrators and victims of sexual violence, how various actors in the criminal justice system respond to allegations of sexual abuse, and potential solutions to the problem of sexual violence in the United States.

CJ 4700 - International Criminal Justice

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Compares United States criminal justice system with other international systems from throughout the world, and reviews the nature and extent of international crime.

Pre-requisite(s): CJ 1010.

CJ 4710 - Race, Crime, and Justice

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Description: This course is designed to provide students with an overview of the contemporary response to race and crime. It will focus on policies, procedures, practices, and agents that make up the criminal justice system in the U.S. and how all of these factors affect race, ethnicity, and justice. Additionally, this course will explore the complex relationship that exists between the criminal justice system and the social construction of race. We will be exploring the origins, nature, structure, and functions of social capital and justice from a number of different perspectives.

CJ 4810 - Experimental Course

Credits: (1-6)

Experimental

Course Fee: \$55.00

Course Fee Purpose: Course fees are used to assist with the purchase of lab supplies and equipment needed to facilitate instruction of forensic science techniques.

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

CJ 4830 - Directed Readings and Special Projects

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Assigned reading or project with evaluation by faculty member. Requires approval of the Department Chair.

May be repeated for up to 6 credit hours cumulative course work.

Note: May not be used as an elective to complete CJ minor or A.S.

CJ 4860 INT - Criminal Justice Internship

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Volunteer experience with city, county, and state criminal justice agencies.

Pre-requisite(s): CJ 1010 and two of CJ 1300, CJ 1330, or CJ 2300; or instructor approval.

Students may take this course for a combined total of six (6) credit hours.

CJ 4861 INT - CSI Internship

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Volunteer experience with city, county, or state crime scene investigation units or related forensic science organizations. Students must complete a minimum level of course work, be selected by an agency, pass a background check, and have permission from the department to register for this course.

Pre-requisite(s): CJ 4110 or CJ 4115; and permission from the instructor.

CJ 4900 - Current Issues in Criminal Justice

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: In-depth study of current theoretical issues in criminal justice. Specific offering will be identified by name and will be listed on student's transcript with authorized credit.

May be repeated two additional times, for a total of three such classes with different titles.

CJ 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Fall Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title with the credit authorized will appear in the semester schedule and on the student transcript.

May be repeated for a total maximum of 6 credit hours.

CJ 4950 - Field Trips/Travel Study

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Designed to provide students with access to both national and international law enforcement agencies, prisons, detention centers, courts and institutions dealing with criminals and delinquents - male and female. Field trips include 2-3 weeks of intense instruction and then 3-5 days of on-site visits, interviews, and lectures by practitioners in the field.

Course may be repeated for a total of six (6) hours of criminal justice credit. Additional hours will be counted toward 120 elective hours of study.

Note: May not be used as an elective to complete CJ minor or A.S.

CJ 4995 - Criminal Justice Senior Assessment

Credits: (1)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: Program assessment for graduating seniors combined with an exploration of selected issues and dilemmas surrounding the criminal justice field. Credit/No credit.

Pre-requisite/Co-requisite: Criminal Justice major core course requirements completed (CJ 1010, 1300, 1330, 2300, 3270, 3300, 3610, 4165, and 4200) and senior standing; or department chair approval.

CM 1100 - Construction Management Orientation

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces students to careers in the construction industry and is designed to help students develop a clear focus on their educational and occupational goals.

CM 1150 - Construction Graphics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course covers graphical communications as they relate to the architectural, engineering, and construction industry. Includes print reading, interpretation of graphical symbols and line types, and understanding of construction terminology.

CM 1210 - Residential Construction Materials and Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course provides students with knowledge of residential building techniques and materials. The course will examine common construction materials, components, and systems as related to wood frame structures, including sustainable materials. The residential construction process will be analyzed from site planning to finish construction.

CM 1220 - Construction Contracts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course covers the interpretation of contract documents used in the various construction delivery methods. Includes contracts, bidding documents, bonding and insurance, conditions of the contract, general requirements, and technical specifications.

CM 1310 - Materials & Methods

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course covers the materials and construction methods used in buildings. Emphasis is placed on sustainable construction practices.

CM 1330 - Civil Materials

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Equipment maintenance and replacement, software, examinations, certifications, and supplies.

Description: This course covers the properties of concrete, asphalt, and soils. Emphasis is placed on quality control and testing of materials.

CM 1500 - Computer Applications in Construction

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Computer applications used in the construction field will be examined. Various software packages will be introduced and studied specifically to their application in the construction industry.

Pre-requisite(s): WEB 1700.

CM 1550 - Construction Safety

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: The fee covers the cost from the Occupational Safety and Health Administration to provide a "30-Hour" OSHA card to each student upon successful completion of the course.

Description: This course covers the Occupational Safety and Health Act (OSHA) and jobsite safety procedures and practices. Emphasis will be placed on ethics as it relates to safety.

CM 2210 - Construction Jobsite Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course covers the skills necessary to manage construction projects successfully. Emphasis is placed on construction communications and documentation.

CM 2260 - MEP

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to provide a basic knowledge of mechanical, electrical, and plumbing (MEP) systems used in commercial buildings. Emphasis is placed on sustainable MEP systems and analyzing life-cycle costs.

CM 2340 - Civil Design and Layout

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Survey equipment needed in order to learn the principles and also computers and software in the computer lab.

Description: This course is designed to provide a basic knowledge of road, utility, and site design necessary for real estate development. Emphasis is placed on project management required throughout the entire development process.

Pre-requisite(s): ENGR 1040.

CM 2360 - Commercial Design and Codes

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$80.00

Course Fee Purpose: Lab computers, and software used to teach this course

Description: This course is designed to provide a basic knowledge of processes used to design commercial buildings. Includes the use of building information modeling (BIM) in the design process for preparing drawings and coordinating the design of the different building trades. Emphasis is placed on how zoning regulation, building codes, and sustainability are integrated into the design.

Pre-requisite(s): CM 1150.

CM 2640 - Quantity Survey

Credits: (3)**Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** This course covers the processes and methods used to develop a quantity takeoff (list of required materials) for commercial construction projects. Emphasis is placed on using spreadsheets to prepare the quantity takeoff.**Pre-requisite(s):** MATH 1010 or QL, CM 1150, and CM 1310.**CM 2880 - Internship****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. Ethics as it relates to construction management will be discussed.**CM 2990 - Construction Management Seminar****Credits: (1)****Typically Taught Fall Semester:** *Full Sem***Description:** This course is designed to give students the opportunity to interact with professionals from the architecture, engineering, and construction industries and to learn of emerging trends within these industries. May be repeated twice with a max of two credits.**CM 3115 - Construction Cost Estimating****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$20.00**Course Fee Purpose:** Lab aid, paper.**Description:** This course covers the processes and methods for preparing estimates and bids for construction projects. Emphasis is placed on the use of computers in preparing estimates. Ethics as it relates to bidding will be discussed.**Pre-requisite(s):** CM 2640.**CM 3130 - Construction Planning & Scheduling****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$30.00**Course Fee Purpose:** Lab computers and software licenses.**Description:** This course covers the processes and methods of planning and scheduling of construction projects. Emphasis is placed on the use of computers in the planning and scheduling process.**Pre-requisite(s):** CM 2640.**CM 3310 - Leadership in the Construction Industry****Credits: (2)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** This course explores leadership as applied to the construction industry. Emphasis is placed on the

importance of professional relationships.

Pre-requisite(s): CM 2210.

CM 3330 - Civil Materials and Testing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: The cost of consumable materials used for testing and mixtures etc. throughout the semester so sand and gravel, Concrete Masonry Units, cement powder etc.

Description: This course covers the properties of concrete, asphalt, and soils. Emphasis is placed on quality control and testing of materials.

CM 3370 - Preconstruction Services

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$17.43

Course Fee Purpose: Pull-planning exercise used by industry partners.

Description: This course covers services provided by contractors during the design of projects constructed using alternative delivery methods (e.g., design-build, CM/CG). Emphasis is placed on reducing construction risks during the design process.

Pre-requisite(s): CM 2360 and CM 3115.

CM 4120 - Construction Accounting and Finance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course covers the fundamental principles of construction finance, accounting, and cost control.

Pre-requisite(s): ACTG 2010.

CM 4150 - Construction Equipment and Methods

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course covers the use of equipment used on heavy/civil construction projects. Emphasis is placed on equipment selection, production rates, and unit cost.

Pre-requisite(s): CM 3115.

CM 4330 - Applied Structures

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course covers the processes and methods used to analyze the behavior of engineered structures. Includes the application of the properties of materials and mechanics as they relate to the structural behavior of load resisting components.

Pre-requisite(s): PHYS 2010.

CM 4350 - Temporary Structures

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: This course covers basic design of temporary structures. Emphasis is placed on formwork, scaffolding, dewatering, and excavation shoring.

Pre-requisite(s): CM 4330.

CM 4510 - Design Charrette/CM Challenge

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Students will work in multi-disciplinary teams to solve real-world construction problems.

Pre-requisite(s): CM 3115 or CM 3130.

Students can take the course 2 times for a max of 2 credit hours.

CM 4520 - ASC Student Competition

Credits: (1)

Typically Taught Fall Semester: *2nd Blk*

Typically Taught Spring Semester: *1st Blk*

Description: Students will work in multi-disciplinary teams to solve real-world construction problems. This course requires students to participate in the ASC Region 6 Student competition.

Pre-requisite(s): CM 4510.

CM 4570 - Approaches to Construction Contracting

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course covers the development of a business plan for a small construction company.

Pre-requisite(s): PS 3250, ACTG 2010.

CM 4620 - Senior Project

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$185.00

Course Fee Purpose: AC exam, equipment maintenance and software, certifications and supplies.

Description: This course is a culminating experience for students from the program. Requires integration of concepts from a variety of coursework to prepare and present a solution to a construction problem.

Pre-requisite(s): PS 3250, CM 3130, CM 3370.

CM 4800 - Individual Projects and Research

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individual research or projects in Construction Management Technology. Credit and time determined by the student and faculty advisor.

Pre-requisite(s): Junior or Senior standing and consent of instructor.

May be repeated up to 9 credit hours.

CM 4830 - Directed Studies

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The student will receive credit for approved studies in an area not covered in the CMT program. Credit and time determined by the student and faculty advisor.

Pre-requisite(s): Junior or Senior standing and consent of instructor.

May be repeated up to 9 credit hours.

CM 4890 - Practicum

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Supervised work experience in the construction industry with placement and course objectives approved by the faculty supervisor. This course can be used to help the student satisfy the CMT program requirement of 800 hours of approved supervised work experience. Ethics as it related to construction management will be discussed.

Pre-requisite(s): CM 2880.

May be repeated up to 9 credit hours.

CM 4899 - BS Graduation Assessment and Signoff

Credits: (0)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the program. Contact your advisor during your last semester before graduation to complete this requirement. Credit/no credit.

CM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (.5-6)

Workshop

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized for the particular offering will appear on the student transcript.

Pre-requisite(s): Junior or Senior standing and consent of instructor.

May be repeated for a total maximum of 6 credit hours.

COMM 1020 HU - Principles of Public Speaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Course Fee: \$5.00

Course Fee Purpose: Cameras, microphones and other equipment for recording speeches, classroom equipment

maintenance

Description: Introduces theories and principles of effective speaking with emphasis on: audience analysis and adaptation, listening, organization, content development, use of language, and extemporaneous delivery. Designed to improve the student's ability to research, organize, develop and make presentations.

COMM 1040 - Convocations

Credits: (1)

Description: Features distinguished speakers and artists in broad fields of humanities, sciences, technology, education, national and world affairs, and specialized artists in the fine arts from specialties such as music, theatre, interpretation, ballet and art.

May be repeated 5 times up to 6 credits.

Note: Course not currently being offered.

COMM 1130 - Media Writing

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer lab for writing course

Description: Beginning instruction in information-gathering techniques and media writing styles that inform, entertain and/or persuade. Approach recognizes that new technology is blurring the distinctions among various media and that writers must have a broad base of knowledge and skills.

Pre-requisite(s): Proficiency in word processing.

COMM 1140 - Writing for Workplace Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Typically Taught Spring Semester: *Full Sem Online*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer lab for writing course

Description: This course is designed to teach communication appropriate to the workplace with an emphasis on written forms. It covers content, organization, tone, grammar and formatting across multiple contexts: presentations, professional biographies, email, executive summary, letters of commendation and complaint, press releases and business and training proposals. It uses verbal communication such as interviewing in addition to primary and secondary research to provide substance in professional communication.

COMM 1270 - Analysis of Argument

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Students will learn to analyze, evaluate, develop and refute arguments using formal argumentation methods and research based evidence. The course is designed to increase student competence and confidence in constructing, defending and critiquing a broad range of arguments found in public discourse.

COMM 1500 - Introduction to Mass Communication

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: Examines mass media development and impact upon society. Considers newspapers, magazines, film, radio, TV and multimedia. The role of media in providing information, opinion, entertainment and advertising support are considered along with the social political-economic controls which affect the media.

COMM 1560 - Audio Production and Performance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations

Description: An introductory course in audio production and performance. Training in audio console operation, use of recorders and microphones, and audio editing. Class includes basic announcing and formatting for radio stations. Course emphasizes hands-on projects.

COMM 2010 HU - Mass Media and Society

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: Media literacy course which examines the non-legal, but ethical and social problems of mass media. Discusses current media issues and explores constructive steps to improve media relationships.

COMM 2110 HU CEL - Interpersonal and Small Group Communication

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: Explores the dynamics of verbal and nonverbal communication in personal relationships and small groups. The emphasis is on practical application of course content to enhance interpersonal relationships and to achieve competence as group members.

COMM 2200 - Multi-Camera Production and Performance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations

Description: An introductory course in all aspects of in-studio video production. Skills include performing for video as well as the use of cameras, switching, lighting, electronic graphics and audio equipment. In-class projects emphasize directing, writing and performing for video.

COMM 2210 INT - Intercollegiate Debate

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Preparation and competition on the national debate resolutions and participation in individual events.

Pre-requisite(s): Permission of instructor.

May be repeated 7 times up to 8 credits. However, only 6 credits may be used toward the Communication major.

COMM 2220 INT - Intercollegiate Speech

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking.

May be repeated up to 10 times for credit.

COMM 2250 HU - Essentials of Digital Media

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations

Description: This course introduces the basic digital communication skills necessary to be successful in today's multimedia environment. Students will learn how to produce and edit audio, stills, and video. Students will also learn to upload content for presentation on the Web and will learn to use social media to disseminate information relative to your content. Concepts will first be discussed in two lecture periods, and then put into practice in a lab.

COMM 2270 - Argumentation and Debate

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: An examination of the theory and practice of argumentation with emphasis on parliamentary and policy debate formats. Emphasis also placed on making claims and inferences, research and the use of evidence, cross-examination, case construction, rebuttals and style of presentation.

COMM 2400 - Social Media for Communicators

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: This course needs to gather social media data to learn best practices.

Description: This course is designed for students who are interested in using social media professionally and strategically. Students will apply multiple communication perspectives to make sense of social media adoption and use. Upon completing this course, students will understand the implications of social media for a variety of social issues in personal, organizational, and societal contexts.

COMM 2550 - Communication in Professional Settings

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: This class is designed to acquaint students with many of the major theories, concepts, and research

findings related to the study of organizational communication and public relations. While this class will include a theoretical component, it is designed to be a more "hands on" or "practical skills" course. The information should be of practical value since individuals spend much of their lives in organizations and other professional settings.

COMM 2730 - Digital Radio Production and Broadcast

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Broadcast equipment, events, radio licensing and services.

Description: Students meet once a week and work as DJs for the Weber State radio station, KWCR. One studio shift of 2 hours per week is required. Specific shift hours will be arranged early in the semester. This is offered as a 1-, 2- and 3-credit course. For the 1-credit option, students are graded based on attendance and completing weekly shifts. For the 2- and 3- credit option students have additional work with events and assignments for the station as needed. May be repeated for a maximum of 12 credit hours, but returning students are encouraged to enroll in the upper-division version, COMM 3891.

May be taken up to 12 times.

COMM 2820 - Podcast Production

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are used to buy the equipment required to produce podcasts. Replacement equipment such as auxiliary and microphone (XLR) cables and headphones are needed.

Description: This course will acquaint students with all aspects of podcasting and help them become better storytellers. Students will learn the components of podcast production including interviewing, story development, scriptwriting, interview techniques, remote and digital audio recording, editing of sound, mixing, and final production for streaming.

Pre-requisite(s): COMM 1560 or permission of instructor.

COMM 2890 - Cooperative Work Experience for The Signpost

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Events with professional journalists and other activities, maintenance and updating of computers in work room

Description: Newspaper lab experience at The Signpost for those who want the experience of gathering and producing news. Students will learn facets of producing a print and/or on-line publication and promoting the content on social media. Skills include news reporting and writing, advertising, design and photography. 3 credits requires instructor approval. The 3-credit option will be used for those seeking an Associate in Workplace Communication. May be taken 12 times and up to 12 credits total.

COMM 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Course is offered as needed.

COMM 2980 - Introduction to Storytelling in Cinematic Virtual Reality

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Course fee to cover equipment, maintenance, and software needs.

Description: This course will introduce students to immersive, 360-degree cinematic virtual reality storytelling. It will present a foundational understanding of the conceptualization of constructing digital media content for head-mounted displays, and present theoretical and practical applications for 360VR content. It will allow the students to explore the audio and visual production process to create engaging, compelling 360VR content specifically for head-mounted displays (HMDs), including monoscopic and stereoscopic video and ambisonic audio production, stitching, and editing.

Pre-requisite(s): COMM 2250 or permission of instructor.

COMM 2999 - Capstone in Workplace Communication and Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Description: This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals.

Pre-requisite(s): Permission of Instructor.

Crosslisted with ENGL 2999.

COMM 3000 - Communication Theory

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: This course is intended to provide students with an overview of communication theory. It will give students a working knowledge of theories used to explain a wide range of communication phenomena, enabling them to build upon selected theories in other upper-division courses in their chosen communication major concentration.

COMM 3050 - Conflict Management and Negotiation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to provide students an opportunity to explore conflict management concepts in depth. Upon successful completion of this course, students will have a greater understanding of conflict across a variety of contexts, including interpersonal, organizational, group, and cultural. Students will be provided the analytical and communication tools to understand, evaluate, and respond effectively to conflicts.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3060 - Listening and Interviewing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course covers the purpose, structure, focus, and techniques employed in effective listening and interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing in a variety of interviewing settings. This course is designed to offer students insight into improved listening and interviewing practices. The theory and research concerning the process of listening and the practice of interviewing will form the basis for students' understanding about listening and interviewing behavior. This course then applies that knowledge to the development of listening and interviewing skills.

COMM 3070 - Performance Studies

Credits: (3)

Description: Study of aesthetic texts through performance featuring the view of text or literature as communicative event and textual meaning as response in readers and audience. A primary emphasis will be placed on the relationship between performative choices and textual understanding.

Pre-requisite(s): COMM 1020 or permission of instructor.

Note: Check with Department for course availability.

COMM 3080 GLB - Intercultural Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Explores theoretical perspectives in intercultural communication. Through analysis of various intercultural theories, students will become aware of cultural influences on communication in both international and domestic cultures.

COMM 3085 - Family Communication

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: No activity is more fundamental to emotional need fulfillment, overall personal satisfaction, and the maintenance of community-social systems than family communication. It is in the recursive cycle of family communication that we learn how to relate to others. This course examines current studies in family communication research and its implications. Students will add to the scholarship of family communication by completing a research project in conjunction with this course.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3090 - Gender and Communication

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Online*

Description: This course is designed to help students understand the influence that communication has upon the shaping of gender and the influence that gender has in shaping communication interactions. Students become aware of, sensitive to, and more experienced in the issues, implications and skills necessary to successfully and meaningfully communicate with males and females, and about males and females, in a wide range of communication contexts. Cross listed in WGS 3090.

COMM 3100 - Small Group Facilitation and Leadership

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Theories and practical communication processes are examined and applied to develop fundamental attitudes and skills for facilitating and leading effective groups.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3120 - Advanced Public Speaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Enhanced speaking skills across a range of situations such as the professional workplace and via social media. Increase understanding of audience, publics, and the overall definition of "speaking" as a result of our ever-changing society.

Pre-requisite(s): COMM 1020 or permission of instructor.

COMM 3130 - News Reporting and Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer lab for writing course

Description: Develops journalism skills relevant to newspapers and online news services. Emphasizes news gathering, interviewing and news writing.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3150 CRE - Communication Research Methods

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer lab for research purposes

Description: Explores methods of gathering, analyzing and interpreting data. Topics include: asking questions, observing and measuring communication variables; designing valid and reliable research; research ethics, experimental design and survey research. Emphasis is also placed on how to present research and how to read scholarly journal articles.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3200 - Live Event Production

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations

Description: Students will learn to operate field video cameras, switchers, instant-replay and other equipment while experiencing the pressures of live-sports production. Students will be part of a crew supplying the visuals for Weber State's football and basketball scoreboards. The crew will also provide visuals necessary to fulfill production commitments.

May be repeated up to 12 times for a maximum of 12 credit hours.

Note: (A maximum of 6 credit hours total may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3220 - Editing

Credits: (3)

Typically Taught Fall Semester: *Online*

Description: Develops editing knowledge and skills for print and online publications. Covers copy editing, content editing and page editing.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 3230 - Health Communication

Credits: (3)

Description: A broad examination of communication theory, application, and research in health care delivery and management. Examines many different levels and channels of communication including the development and application of interpersonal communication, small group communication and teamwork, organizational communication, communication ethics, leadership, and motivation skills in dealing with health care providers, staff, and consumers in a variety of health care environments.

Cross-listed with HAS 3230.

Note: Check with Department for course availability.

COMM 3350 - Visual Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer labs for design course.

Description: Visual messages have great power to inform, educate and persuade. In all fields of communication, visual presentation of the message helps determine the success of the message. This course is designed to help students become effective and ethical visual communicators on the page or the screen. In addition to creating design projects, students will learn how to critically analyze visual designs and to understand major visual communication theories.

Pre-requisite(s): COMM 1130.

COMM 3400 - Introduction to Public Relations & Strategic Communication

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Philosophy and practice of public relations in business, government, education and non-profit organizations. Case studies will be selected from a wide range of actual public relations concerns to foster decision-making skills and a mature understanding of public relations management.

COMM 3440 - Public Relations Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer lab for writing course

Description: Explores principles and practices of a variety of public relations writing formats ranging from news releases to websites.

Pre-requisite(s): COMM 1130.

COMM 3460 GLB - Public Relations and Social Media

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Course Fee: \$25.00

Course Fee Purpose: This course needs to gather social media data to learn best practices.

Description: This course will combine theory and practice in teaching the principles of the new "Social Media" or "PR 2.0." Students will learn how new web technologies have expanded the practice of Public Relations beyond the traditional arena and into the fast-moving and dynamic world of public communication on the web. They will learn how to communicate with the news media and directly with the public. The course will prepare them to use the newest technology and practices effectively as they represent their companies and their clients.

COMM 3550 - Organizational Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Study of communication in organizations from various theoretical perspectives with an emphasis on the organizational culture perspective. Includes topics such as communicating with external audiences, decision-making, conflict resolution, and power relationships.

Pre-requisite(s): COMM 2110 or permission of instructor.

COMM 3650 - Communication Law

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Blk, 2nd Blk, Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: First Amendment origins, interpretations and philosophy underlying regulation of the mass media.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3730 - Media Programming and Audiences

Credits: (3)

Description: This course focuses on principles, strategies and approaches for creating and scheduling content for radio, television and the World Wide Web. The course also provides an analytical framework for understanding industry trends in media programming, and how those trends are influenced by audience research. Students create and schedule programs, apply programming strategies and philosophies, and learn relevant terminology and audience measurement techniques.

Pre-requisite(s): Permission of instructor.

Note: Check with Department for course availability.

COMM 3740 - Writing for Screen

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer labs for writing course

Description: Specialized concepts and techniques required to write effectively for film, television, and other new media technologies.

COMM 3750 - Advanced Cinematography and Editing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Description: Capstone course for audio and video production. Emphasis is placed on combining production types to produce longer and more complex programs.

Pre-requisite(s): COMM 2250.

COMM 3751 - Narrative Filmmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Maintaining and repairing a/v equipment and computer editing stations

Description: On-location video production and performance. Skills include screenwriting, directing, producing, use of field cameras and post-production.

Pre-requisite(s): COMM 2250 or FILM 2280 and ART 2750.

COMM 3780 - Broadcast News Writing and Production

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Purchasing of required items on a yearly basis necessary to teaching digital media course, maintaining and repairing a/v equipment and computer editing stations

Description: Classroom instruction and practical experience in writing, reporting, performing, producing, and editing for television news. Students will produce newscasts for a local cable channel.

Pre-requisite(s): COMM 1130 and COMM 2250, or permission of instructor.

COMM 3820 - Persuasive Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Study of theories and principles of persuasion from classical to modern times. Examines persuasion as a means of influence in interpersonal communication, public speaking, public relations, advertising, politics, and other contexts.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 3840 - Data Visualization and Storytelling

Credits: (3)

Course Fee: \$15.00

Course Fee Purpose: Maintaining computer labs for design course.

Description: Students taking this course will study the fundamentals of compelling data-driven storytelling.

Students will learn how to detect and articulate the stories behind datasets and communicate data findings in visual, oral, and written contexts for various audiences and the public. Students will become familiar with associated tools.

COMM 3850 - Advertising

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A practical and theoretical study of advertising. Course is designed for students planning careers in advertising, as well as for those who are simply lifelong consumers of advertising and want to understand its role in the economic system.

COMM 3880 - Audience Analysis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: This course needs to gather social media data to learn best practices.

Description: Students will focus on consumer behavior, data analysis, and media audience research in this course. Students will learn how to identify trends and patterns in media audience and translate data into stories to help companies make better decisions.

COMM 3890 INT - Advanced Cooperative Work Experience with Signpost

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Events with professional journalists and other activities, maintenance and updating of computers in work room.

Description: Open to students who are Signpost editors and managers.

Pre-requisite(s): COMM 1130 or COMM 2890.

May be repeated 15 times for a maximum of 15 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3891 INT - Advanced Cooperative Work Experience with KWCR

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Events with radio professionals and other activities, equipment replacement and upgrades

Description: Open to students who are KWCR senior staff.

Pre-requisite(s): COMM 2730 or permission of instructor.

May be repeated 15 times for a maximum of 15 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3892 INT - Advanced Cooperative Work Experience with Public Relations

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$55.00

Course Fee Purpose: Events with PR professionals, printed materials and other activities, maintenance and updating of computers in work room, membership in PRSSA

Description: This is a nontraditional, CEL-designated course that functions as Ogden Peak Communications, Weber State's student-run public relations firm. Modeling the leadership and management roles of a real-world firm, students provide public relations services to community and campus partners.

Pre-requisite(s): COMM 3400 and permission of instructor.

May be repeated 15 times for a maximum of 15 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3893 INT - Advanced Cooperative Work Experience with Studio 76

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Events with TV and film professionals and other activities, maintenance and updating of camera and editing equipment

Description: This course gives hands-on experience with video production, in the studio and in the field, through writing, editing, videography, producing stories, team-building, organizational management and leadership, and other experiences. Students learn various technical production skills necessary to produce narrative stories for film, television and other media forms, social media, podcasts, live events, broadcasts, web based content production, and many others.

Pre-requisite(s): COMM 2250 or permission of instructor.

May be repeated 15 times for a maximum of 15 credit hours.

Note: (A maximum of 6 credit hours total from COMM 3890, COMM 3891, COMM 3892 and COMM 3893 may be counted for the major, however, 6 additional credit hours may be used as elective credit.)

COMM 3894 - Advanced Cooperative Work Experience with Social Media and Data Analytics Lab

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: COMM 3894 Advanced Cooperative Work Experiences with Social Media and Data Analytics Lab is designed for students who want hands-on practice in social media content creation and strategic planning. Students will model the leadership and management roles of a real-world social media strategy firm and provide social media services to the campus community and campus partners.

Pre-requisite(s): COMM 2400 or COMM 3460 and instructor permission

Suggested Requisite(s): Trying to say a student can have either COMM 2400 or COMM 3460, but instructor permission could be possible if the student does not have either of those two courses.

May be repeated 15 times for a total of 15 credits.

COMM 4130 - In-depth and Investigative Journalism

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Course Fee: \$15.00

Course Fee Purpose: Maintaining and updating of computer labs for writing and research

Description: Emphasizes finding and writing news stories that move from explanations of what happened to how and why something happened. Examines research techniques and discusses ways to use the law to access information.

Pre-requisite(s): COMM 1130 or permission of instructor.

COMM 4150 - Rhetorical Theory and Criticism

Credits: (3)

Description: Studies the origins of rhetorical theory in Greece and Rome in the works of Corax, Isocrates, Plato, Protagoras, Aristotle, Cicero and Quintilian. Tensions between rhetoric and philosophy. Study and application of neo-classical standards of rhetorical criticism.

Pre-requisite(s): COMM 3820.

Note: Check with Department for course availability.

COMM 4160 - Contemporary Rhetorical and Communication Theories

Credits: (3)

Description: Study of contemporary rhetorical and communication theories.

Pre-requisite(s): COMM 3000 and COMM 4150 or permission of instructor.

Note: Check with Department for course availability.

COMM 4210 INT - Intercollegiate Debate

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Preparation and competition on the national debate resolutions and participation in individual events.

Pre-requisite(s): COMM 2270 or permission of instructor.

May be repeated 7 times up to 8 credit hours. However, only 6 credits may be used toward the Communication major.

COMM 4220 INT - Advanced Intercollegiate Speech

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Preparation for and participation in intercollegiate speech competition and community speaking activities. Course teaches students to research, write, and deliver valuable messages and share their experience through reasoned discourse, presentation, and narrative speaking. This is designed as an advanced course for students in their third or fourth years participating in intercollegiate speech.

Up to 10 times for credit.

COMM 4400 INT - Public Relations Media and Campaigns

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Apply communication principles to internal and external publics; research, plan and evaluate social interrelationships; study of the controlled and uncontrolled media and their role in public relations; prepare a major public relations campaign for a selected client.

Pre-requisite(s): COMM 3150 and COMM 3440, or permission of instructor.

COMM 4440 - Developing and Evaluating Health Communication Campaigns

Credits: (3)

Description: This course prepares students to understand the planning, implementation, and refinement of communication campaigns that affect individual and group level behavior changes in relation to health care issues. It will thus address public health problems. Throughout the semester, students study, practice, and apply the various

stages of a health communication campaign based on real world conditions. The course content will draw from health behavior theory; formative (including pretesting), process, impact, and outcome research; and expert opinion.

Pre-requisite(s): COMM 3400 or permission of instructor.

Note: Check with Department for course availability.

COMM 4500 - Topics in Communication

Credits: (3)

Variable Title

Description: The study and application of Communication in contemporary society is dynamic and ever changing. This course will provide students with opportunities to explore specialized topics in contemporary journalism, electronic mediated communication, human communication studies, and public relations in a seminar format.

Pre-requisite(s): COMM 3000 or permission of instructor.

May be taken 2 times up to 6 credit hours with different designations.

Note: Course is offered as needed.

COMM 4740 - Advanced Writing for Screen

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Maintaining computer labs for writing course

Description: This class is a workshop for students who have a screenplay in progress (Act 1 Complete) and ready to workshop pages and complete Act 2 and Act 3 (90 to 110 pages). Students will develop the ability to analyze the various elements of a feature film, including concept, character arc, dialogue, and plot devices such as suspense, surprise, dramatic irony, planting and payoff.

Pre-requisite(s): COMM 3740.

COMM 4751 - Advanced Narrative Filmmaking

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Maintenance and updating of camera and editing equipment

Description: This class is designed to teach advanced concepts, theories and skills in digital narrative film production. Students develop these skills through group production, individual performance, and repetition of production tasks and procedures from pre-production, production, to post-production.

Pre-requisite(s): COMM 3751.

COMM 4760 - Media Management and Distribution

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Analysis of complex systems necessary to manage media companies. Students will develop a website and a distribution plan for a new media company.

COMM 4770 - Digital Documentary Filmmaking

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Maintenance and updating of camera and editing equipment

Description: This course will provide an introduction to the fundamental theory and craft of non-fictional visual

storytelling and familiarize students with concepts such as drama, structure, story development and visual style. Throughout the semester, students will screen and analyze various filmmaking techniques used by documentary filmmakers. Students will develop and create a short documentary from conceptualization through post production.
Pre-requisite(s): COMM 2250.

COMM 4800 - Special Study and Individual Projects

Credits: (1-3)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Work with an assigned faculty member on a project of special interest.

Pre-requisite(s): COMM 3000 and permission of instructor.

May be taken 3 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.

COMM 4801 - College of Arts & Humanities Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

COMM 4840 - Teaching Journalism and Advising Student Media in the Secondary School

Credits: (3)

Description: Prepares students to be teachers of journalism and advisors of student media in secondary schools. Designed to confront problems involved in organizing a staff, gathering material and publishing a newspaper, yearbook and literary magazine.

Pre-requisite(s): COMM 3000 or permission of instructor.

Note: This course is offered through Independent Study only.

COMM 4850 INT - Teaching Speech and Directing Speech Activities in the Secondary School

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Methods and techniques for teaching speech communication in secondary schools. Techniques and practices for coaching and supervising high school speech activities such as individual events, legislative forum, and debate.

Pre-requisite(s): COMM 3000 or permission of instructor.

COMM 4860 - Communication Co-curricular Leadership

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to teach leadership and management skills to students who have taken on leadership roles within the Communication Department co-curriculars: WSU Debate, The Signpost, KWCR, Studio 76 and Ogden Peak Communications. With instructor permission, student leaders take this class in lieu of the co-curricular course during the semester of enrollment and are expected to fulfill their co-curricular responsibilities as well as participate in monthly leadership seminars and one-on-one mentoring sessions with their advisers.

Pre-requisite/Co-requisite: COMM 2210 , COMM 2220 , COMM 3890 , COMM 3891 , COMM 3892 ,COMM 3893 , and COMM 3894 .

May be repeated up to 6 credit hours.

COMM 4880 - Social Media Metrics and Measurement

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces social media analytics with the emphasis on metrics and measurement. The course aims to help students understand how to obtain, monitor, and evaluate digital traces on the online social platforms in a systematic way. The knowledge and skills learned in this course will help students use a data-driven approach to resolve future industry problems.

Pre-requisite(s): COMM 2400 and COMM 3150.

COMM 4890 INT - Communication Internship

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An opportunity for students to receive academic credit for faculty approved on-the job learning experiences within certain communication areas of emphasis.

Pre-requisite(s): COMM 1130 or COMM 1140 and COMM 3000.

May be repeated for 5 times up to 6 credit hours. A maximum of 3 credit hours may be counted for the major.

Note: *Credit/No credit only.*

COMM 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Course is offered as needed.

COMM 4990 - Senior Seminar

Credits: (3)

Typically Taught Summer Semester: *1st Blk Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A capstone course that prepares students to do a senior project and a portfolio to be used in job interviews or application to graduate school.

Pre-requisite(s): COMM 3000.

CS 1010 CA - Introduction to Interactive Entertainment

Credits: (3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement

including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course examines and analyzes the history, philosophy, and impact of digital entertainment (video and computer games along with simulations) on an individual and society. Students take a critical look at the artistic, but also the cultural, economic and social aspects of this expressive medium. Students imagine and articulate their own ideas and work through a series of projects helping them understand the creative challenges behind interactive entertainment design. Implications of certain values embedded in games will be discussed. Elements of the ethical code of conduct for a game creator will be formulated. The issue of balancing individual creativity vs. socio-cultural impact will also be discussed. Students will be required to play video games outside of the regularly scheduled class times. A lab fee is required for this class.

CS 1022 - Software Development

Credits: (4)

Description: Application of the most recent implementation of a selected programming language to the solution of technical and scientific problems.

Pre-requisite(s): CS 1030 and basic skills in Algebra.

CS 1023 - Selected Programming Language

Credits: (4)

Description: Introduction and application of the most recent implementation of a selected programming language to the solution of technical and scientific problems. The language for a particular instance of this course will be based upon demand.

Pre-requisite(s): CS 1030 and basic skills in Algebra.

CS 1030 - Foundations of Computing

Credits: (4)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Computers are an essential part of every occupation. Having a basic understanding of computers will help students become more confident users. This course is taught at an introductory level and presents a broad overview of topics in computing such as personal digital security, ethical behaviors in education and business, how computers work and communicate with one another, how data is stored and used in a computer, and how to create a website and write a computer program.

CS 1400 - Programming I

Credits: (4)

Variable Title

Typically Taught Summer Semester: *Full Sem, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: Most technology, such as airplanes, laptops, smartphones, and appliances, depends on computer programming to function. This course introduces students to computer programming using a modern programming language. Designed for students with little or no programming experience, it covers topics including logical problem solving, basic input/output, conditionals, loops, functions, arrays, classes, utilizing language libraries, development

environments, and program debugging. Students will gain a basic understanding of how to create software for all computing environments.

CS 1410 - Object-Oriented Programming

Credits: (4)

Typically Taught Summer Semester: *Full Sem, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An introduction to the C++ language. Topics will include data types, control structures, functions, pointers, arrays, I/O streams, classes, objects, encapsulation, overloading, inheritance and use of these concepts in problem solving.

Pre-requisite(s): (CS 1400 or ECE 1400 or CS 2250) and (ENGL 1010 or ENGL 2010).

CS 2130 - Computational Structures

Credits: (4)

Typically Taught Summer Semester: *Full Sem, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An overview of the fundamentals of algorithmic, discrete mathematics applied to computation using a contemporary programming language. Topics include sets, functions, logic, matrices, relations, graphs, trees, regular expressions, grammars, finite state machines, and data encoding.

Pre-requisite(s): CS 1400 or ECE 1400.

CS 2140 - Computer Systems Administration

Credits: (4)

Description: An introduction to managing computer operating systems. Covers installation of the operating system, network, and application software. The course will cover the UNIX operating system. Topics include working with disk drives, allocation of resources, security, administering user accounts, monitoring system performance, tuning concepts, remote mounting of file systems, and setting up systems on networks.

Pre-requisite(s): CS 1400.

Note: Course not currently being offered.

CS 2250 - Structured Computing in a Selected Language

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: Introduction to structured problem solving using objects, data enumeration and encapsulation in a selected language. The language for a particular instance of this course will be based upon demand.

Pre-requisite(s): Basic skills in fundamental Algebra.

CS 2335 - Introduction to User Experience Design for Web & Mobile

Credits: (3)**Typically Taught Fall Semester:** *Full Sem*

Description: This course is designed to introduce students to the elements of user experience design for the web and mobile. The following topics will be covered: history of user experience, user centric design, agile development, user interface best practices for web and mobile applications, and analytics. Using current technologies and tools, students will create a basic web or mobile application.

CS 2350 - Client Side Web Development**Credits: (4)****Typically Taught Summer Semester:** *Full Sem, Full Sem - Online***Typically Taught Fall Semester:** *Full Sem, Full Sem - Online***Typically Taught Spring Semester:** *Full Sem, Full Sem - Online***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides an introduction to client-side programming and Web page development. Subjects covered include responsive Web page design and dynamic Web page development. The course will explore various technologies such as HTML5, CSS3, JavaScript client-side programming, and an introduction to a JavaScript framework.

Pre-requisite(s): CS 1030 and CS 1400.

CS 2400 - Project Management**Credits: (3)**

Description: Strategies and techniques for managing a project from inception to completion to meet all schedule, cost, and technical objectives. Knowledge and skills learned in this course prepare students to perform successfully the role of a project manager in any construction, engineering, health, information technology, business, or research and development project, although emphasis will be on project management applied to Software Engineering. Topics include organizational structures, project planning and evaluation, cost estimating, quantitative methods in schedule and cost management, project information systems, communication skills, and conflict resolution.

CS 2420 - Introduction to Data Structures and Algorithms**Credits: (4)****Typically Taught Summer Semester:** *Full Sem, Full Sem - Online***Typically Taught Fall Semester:** *Full Sem, Full Sem - Online***Typically Taught Spring Semester:** *Full Sem, Full Sem - Online***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: General principles of common data structures and design of efficient algorithms. Topics include: arrays, linked-lists, stacks, queues, trees, graphs, tables, storage and retrieval structures, searching, sorting, hashing, and algorithmic analysis. Emphasis will be on abstraction, efficiency, re-usable code, and object-oriented implementation.

Pre-requisite(s): CS 1410.

Pre-requisite/Co-requisite: MATH 1050 or MATH 1080 or MATH 1210.

CS 2450 - Software Engineering I

Credits: (4)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem, Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An Object Oriented Analysis and Design course which provides practical guidance on the construction of object-oriented systems. Its specific goals are to provide a sound understanding of the fundamental concepts of the Software Development Life-Cycle, to teach quality design and development style through applications of object-oriented project development within a variety of problem domains, and provide coverage of current Software Engineering models and diagramming techniques.

Pre-requisite(s): CS 1410.

CS 2550 - Introduction to Database Design and SQL

Credits: (4)

Typically Taught Summer Semester: *Full Sem, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is an introduction to databases, specifically focusing on the relational database model, database design and modeling and the structured query language (SQL). Students will become proficient at formulating data query requests using SQL and will also gain experience in database normalization and entity-relationship modeling.

CS 2705 - Network Fundamentals and Design

Credits: (4)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Provide an understanding of the basic networking terminology. This will cover the theory of networking, types of network protocols, and wide and local area networks. The student should have a good understanding of network terminology at the completion of the course.

Pre-requisite(s): CS 1030 and CS 1400.

CS 2780 - Windows Application Programming

Credits: (4)

Description: This course provides participants with a working knowledge of the Windows Operating System. The students will develop applications to run under Windows, using the C/C++ languages. Concepts of Memory Management, DLLs, Resources, and Child Window development will be emphasized. The course also introduces the student to the use of OLE controls and MFC architecture.

Pre-requisite(s): CS 1410 and basic algebra skills.

Note: Course not currently being offered.

CS 2800 - Individual Projects & Research

Credits: (1-4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

Pre-requisite(s): CS 1410.

May be repeated 3 times up to 6 credits.

Note: Note: Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 2810 - Computer Architecture/Organization

Credits: (4)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem, Full Sem-Online*

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Computers are essential to modern life, yet most people use them with no understanding of how they accomplish everything they do. This course will explore how computers function from a technical perspective, allowing students to see why they work and are designed the way they are. The course will focus on Von Neumann computers, covering a variety of topics including logic gates, basic digital circuit concepts, number and data representation, the processor implementation, BIOS, buses, interrupts, addressing, memory management, and storage. The practical implementation of this knowledge will be examined by introducing assembly language code.

Pre-requisite(s): CS 1410 or (CS 1400 and (CYBR 2210 or NET 2210 or NET 3200)).

CS 2890 INT - Cooperative Work Experience

Credits: (1-4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.

Pre-requisite(s): CS 1410.

May be repeated 3 times up to 6 credits.

Note: Note: Only 4 credit hours of either CS 2800 or CS 2890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of both CS 2800 and CS 2890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 2899 - Associate Degree Assessment

Credits: (0)

Description: This course is to serve as an assessment tool whereby all AAS degree seeking students in the Department of Computer Science demonstrate core knowledge acquired from course studies in the discipline as specified in the AAS degree program.

May be repeated 11 times.

CS 2920 - Short Courses, Workshops, Institutes, and Special Programs**Credits: (1-6)****Workshop**

Typically Taught Summer Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

CS 3030 - Scripting Languages**Credits: (4)**

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course addresses the design of scripting languages and their applications. Scripting languages can be used to manipulate text and data using subtle and complex coding to automate many tasks. Students will learn to write simple scripts to automate system administration tasks using appropriate languages. This course explores the nature of scripting, the role of scripting languages, introduces some of the popular scripting languages and their applications, and provides skills in scripting language design.

Pre-requisite(s): CS 1400 and (CYBR 2300 or CS 2705).

CS 3040 - Windows/Unix/Linux Infrastructure and Administration**Credits: (4)**

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Description: This is the second course for understanding Windows operating systems and the first in the Unix/Linux operating system. It includes administration in a client/server directory services environment. Taught in a networking setting, it builds upon complex issues learned in previous courses. Provides the knowledge and skills necessary to install, configure, network and administer both operating systems.

Pre-requisite(s): CYBR 2300 or CS 2705.

CS 3050 - Enterprise Computing**Credits: (4)**

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides an integrated view of using enterprise computing systems. An overview on enterprise hardware concepts, enterprise operating systems concepts, and interactive facilities is covered. Batch applications will be developed, edited, compiled, linked, executed and debugged in enterprise operating systems environments. An introduction to emerging technologies in enterprise computing will be presented. Access to the

latest enterprise systems, hands-on exercises, and online support materials are important components of this course.

Pre-requisite(s): CS 2420 and CS 2810.

CS 3100 - Operating Systems

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An overview of computer operating system from the programmer's point of view. Input-output hardware, interrupt handling, properties of external storage devices, associative memories and virtual address translation techniques, optimizing programs for performance, concurrent programming with threads, and network programming.

Pre-requisite(s): CS 2420 and (CS 2810 or ECE 3620).

CS 3210 - UNIX System Programming and Internals

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides hands-on experience with writing programs using UNIX system calls and inter-process Communication mechanisms, from simple file I/O and I/O management subsystems to network client and server programs. The internal design and operation of the UNIX operating systems are studied. A detailed examination of the UNIX SVR4 source code will be included in the course.

Pre-requisite(s): CS 2420.

CS 3230 - Object Oriented User Interface Development with Java

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An intermediate programming course that covers the "core" features of the Java programming language with the goal of preparing students to focus on specialized uses of Java. Topics include object-oriented programming and polymorphism, graphics, event handling, building graphical user interfaces with Swing, multithreading and synchronization, and error handling.

Pre-requisite(s): CS 2420.

CS 3250 - Advanced Object Oriented Programming

Credits: (4)

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement

including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Develop and expand abilities in solving lengthy, advanced problems, multiple parallel tasks, generic packages, and other object-oriented techniques using selected languages.

Pre-requisite(s): CS 2420.

CS 3260 - Mobile Development for the iPhone

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course addresses the development of applications for mobile iOS devices, specifically the iPhone using Xcode and associated tools. Students will learn the basics of the Swift programming language and use it to create applications for the iPhone family of products.

Pre-requisite(s): CS 1410, CS 2350 and CS 2550.

CS 3270 - Mobile Development for Android

Credits: (4)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Mobile devices have become an essential part of many people's lives. This course will explore the development of applications using the Android SDK and modern Android development tools while applying industry best practices. Students will develop multiple apps from start to finish, and will be prepared to develop applications on their own.

Pre-requisite(s): CS 2350, CS 2550 and CS 3230.

CS 3280 - Object Oriented Windows Application Development

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is designed to teach students how to write Windows programs in C# using the .NET environment. The student will learn how to develop programs based on Windows Applications and the .NET Framework. They will also be introduced to APIs and MFC/AFX styles of Windows programming and to become familiar with various data sharing methods and .NET services.

Pre-requisite(s): CS 2420.

CS 3540 - Database Administration

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course describes the role of the Database Administrator in managing an organization's most valuable asset - its data. Topics covered include DBMS architecture, database layout, database development, data fragmentation, rollback segments, database tuning, database security, backup and recovery, database networking, and distributed databases. Special emphasis is given to working with current database management systems such as Oracle, SQL Server and DB2.

Pre-requisite(s): CS 2550.

CS 3550 - Advanced Database Programming

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students will build upon the basic database knowledge and skills gained in the introductory database course. Advanced database knowledge will be gained through the design and implementation of an enterprise-level database. Students will perform database programming techniques such as stored procedures, user-defined functions, cursors, triggers, and distributed queries. Various database paradigms will be used in the course including RDBMS and NoSQL.

Pre-requisite(s): CS 2550 and (CS 1410 or CS 3030 or WEB 3200).

CS 3610 - Introduction to Game Industry

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Description: This course is an introduction to the game industry and the skills and best practices needed in order to become a game developer. The course will evaluate different gaming hardware, genre, skills, tools, and roles.

Students will also understand the elements in creating a game including the game design document, story line, vision, virtual worlds, playfields, and the mathematics and physics that are involved with game development.

Pre-requisite(s): CS 1400.

CS 3620 - Server-Side Web Architecture

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: An introduction to server-side web architectures using current server-side technologies. General web development principles such as usability, reliability, maintainability, security, and scalability will be taught. Students will also learn how to architect and apply server-side technology to create both dynamic websites, and API's at scale using industry best practices.

Pre-requisite(s): CS 2550 and (CS 2350 or WEB 1430).

CS 3630 - Rich Internet Application Development

Credits: (4)

Description: An introduction to developing and deploying rich Internet applications (RIAs) using current technologies. Students will develop engaging websites by incorporating RIAs in the web application development process.

Pre-requisite(s): CS 2350 and CS 2550.

CS 3645 - Advanced User Interface Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Students will learn the elements of user interface design as it applies to front-end web development and software engineering. Students will identify best practices in user interface design. The following topics will be covered: wire-framing, color palettes, typography, information architecture, contrast, uniformity, and responsive design techniques. Using current technologies and tools, students will wireframe, design, and program effective interfaces.

Pre-requisite(s): WEB 2500 or CS 2335, WEB 1400 or CS 1400, or permission of instructor.

CS 3650 - Human-Computer Interaction

Credits: (4)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course introduces the skills and concepts of Human-Computer Interaction (HCI) that enable students to design systems that effectively meet human needs. A concrete illustration of the practice of HCI, this course covers usability, user experience, and modern diverse interfaces. This course includes both theoretical and practical best practices.

Pre-requisite(s): CS 2420, CS 2450 or WEB 3500.

Cross-listed with WEB 3650.

CS 3705 - Protocol Analysis

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides an in depth look at the fundamentals of what protocols do and how they work, how addresses and routing are used to move data through the network, and how information is exchanged over the Internet. In depth analysis of network traffic packets will include normal traffic as well as protocol attack patterns. Topics include: DNS, Apache, email, Samba, PPP, DHCP, TCP, IP, and UDP troubleshooting, and security.

Pre-requisite(s): CYBR 2300 or CS 2705 or CYBR 2435.

CS 3720 - Network Architectures and Protocols

Credits: (4)

Description: A practical applications course designed to teach the basic concepts associated with local and wide area networks and protocols. The course will concentrate on the TCP/IP and other protocols in the UNIX and

Windows NT environments. Covers TCP/IP extensively, NFS, Sockets, RPC and TLI interfaces. The course also covers the use of Domain Name Servers, remote system calls, ports, services, configuration, IP addressing, and UNIX and Windows NT monitoring commands.

Pre-requisite(s): CS 3705.

Note: Course not currently being offered.

CS 3730 - Client/Server Network Programming

Credits: (4)

Description: Covers client/server architecture and application development using TCP/IP and other protocols. The course covers client/server operations on a single machine and across an Ethernet network to multiple machines. The course will also cover distributed processing concepts and applications. Applications include the use of STREAMS, Sockets, TLI, network listener facility, drivers, RPC, and ONC. The course will concentrate mainly on UNIX but will cover some concepts and applications using Windows NT.

Pre-requisite(s): CS 2705 and CS 3210.

Note: Course not currently being offered.

CS 3750 CEL - Software Engineering II

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course emphasizes teamwork in small groups on a substantial software engineering project that will be performed for a real customer in the community. It is the intent of the course to provide a capstone experience that integrates the material contained in the CS curriculum through work on a software project that applies this material. Projects are chosen so as to provide an interdisciplinary service learning component with project proposals being solicited from the community at large. Projects that integrate students and faculty from other disciplines are also encouraged. Lectures will be directed towards the software development lifecycle, requirements gathering and design documentation, as well as software project management. Each team member will contribute to all phases of the project as well as the development of a project prototype.

Pre-requisite(s): CS 2899, CS 3550, and (CS 3230 or CS 3280).

CS 3805 - Computer and Network Security

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to provide students with a solid foundation in network security including a treatment of security issues related to computers and computer networking. The primary emphasis is on developing security policies, security auditing, security models and laws related to security.

Pre-requisite(s): CS 2705 and CS 2420.

CS 3810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and

credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

CS 3830 - Writing Secure Code

Credits: (4)

Description: This course focuses on how to develop software systems that are robust and can withstand repeated attacks from malicious intruders. The course coverage includes the need for secure systems, basic security principles and strategies, designing secure applications, secure coding techniques, dangerous APIs, data input issues, network security problems, testing secure applications, security code reviews, secure software installation, and writing security documentation.

Pre-requisite(s): CS 2420.

CS 3840 - Computer Forensics for Security Assurance

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: This course is a foundational course in file system analysis, digital forensics and computer media analysis. A combination of lectures and labs will give students a strong understanding of low-level file system knowledge to prepare them for involvement in digital forensic analysis, data recovery and other related tasks. Students will examine widely used file systems such as Windows NTFS and FAT32, UFS, EXT2 and UFS2. Students will also become familiar with software tools used in computer forensic work.

Pre-requisite(s): CS 2420.

CS 4110 - Concepts of Formal Languages and Algorithms for Computing

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Concepts of formal language definition, automata theory, Turing theory, and solvability, with an introduction of algorithms and computational methods used in advanced computer science courses.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4230 - Java Application Development

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is a continuation of CS 3230 and examines the development of Java applications intended for an enterprise environment. The course is programming intensive and concentrates on designing and implementing multi-tier and Web applications based on the Java Enterprise Edition (Java EE) specification. Topics include JavaBeans, Java Database Connectivity, client/server interactions, servlets, session tracking, JavaServer Pages, JavaServer Faces, Struts, the Model-View-Controller approach, remote method invocation, Enterprise JavaBeans, and application servers. Lab exercises will emphasize how Java Enterprise programming supports the

operation of robust, distributed object architectures.

Pre-requisite(s): CS 3230, CS 3750.

CS 4250 - Design Patterns

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles of software development using design patterns, including structural design patterns, behavioral design patterns, SOLID principles, and agile approach; Understand and program the basic concepts and techniques for building software in an adaptive way, including dependencies and layering, interfaces, unit testing, and refactoring.

Pre-requisite(s): CS 3230 or CS 3280.

CS 4280 - Computer Graphics

Credits: (4)

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course introduces and investigates the mathematical and programming basis for generating pictures and images using a computer. Fields impacted by visual rendering technologies include filmmaking, publishing, banking, engineering, and education. Students are introduced to the theory and practice of computer graphics, with an emphasis on designing and developing working applications using currently available graphics libraries. The course focuses on strategies for rendering geometric data (points, lines, and polygons), and the analysis of the processing stages and components of the graphics pipeline, including transformations, viewing volumes, and projections. Programming and mathematical techniques related to modeling, viewing, coordinate frames, and perspective will be primary topics for discussion and code development. The course covers the key processing steps and structures needed to appropriately map 3D geometric primitives to 2D screen positions while maintaining a realistic look, which involves hidden surface removal, proper lighting, and simulated material properties.

Pre-requisite(s): CS 2420.

CS 4350 - Advanced Internet Programming

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Capstone client/server web programming group project implemented using an advanced web framework (such as PHP (Laravel, Zend, Cake PHP) or Django, or Ruby on Rails). Includes implementation and concepts of an MVC web architecture, Web UI design and creation, data modeling and retrieval, input validation, security, and unit testing.

Pre-requisite(s): WEB 3620 or CS 3620.

CS 4450 - Advanced Software Engineering Methods

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course provides a capstone project experience for students interested in software engineering. While previous courses in the Computer Science curriculum provide students with the knowledge and skills necessary to begin a career as a software engineer, the end-to-end design and implementation experience offered in this course, done as part of a team, and addressing an open ended problem (as well as an open ended solution), comes much closer to the experience that software engineering professionals encounter in the workplace. The emphasis on documentation and presentation of designs and results is also valuable career preparation, and forces students to take ownership of their designs and systems as they present them to others.

Pre-requisite(s): CS 3750.

CS 4500 - Introduction to Artificial Intelligence

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course covers basic artificial intelligence principles from the perspective of implementing intelligent agents through software. Students will write intelligent software agents to solve a variety of problems from different application domains. Topics include search, search heuristics, adversarial search, constraint satisfaction problems, knowledge and reasoning, planning, and knowledge representation.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4580 - Data Science Algorithms

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.

Pre-requisite(s): ((CS 1400 and CS 2550) or CS 2420) and (MATH 1040 or MATH 1120 or MATH 3410 or QUAN 2600) and (at least 60 hours of completed credits).

CS 4640 - Foundations of Game Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course introduces students to 2D game development using a programming language, scripting, and a gaming engine. The work includes team work project, graphical programming, GUI, and all other aspects of creating a game program associated with a game design document.

Pre-requisite(s): CS 1010 and CS 3280.

CS 4650 - Advanced Game Development

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is a continuation of CS 4640 and covers intermediate to advanced level 3D game development using a commercial gaming engine authoring tool like Unity or Unreal. Students work in small teams and reference a game design document (which they've previously created themselves or which is selected from previously approved CS 1010 course documents) to program and fully develop a "medium-scoped" 3D video game. The game will be delivered over several iterations throughout the semester, each requiring peer review and play-test feedback. This course emphasizes several aspects of 3D game development, including but not limited to level, character, environment and world construction, scripting, 3D modeling and asset creation, user interface, scene transitions and cinematics, rudimentary AI, physics, graphical post-processing, as well as solid gameplay principles, core mechanics, scalability, and replayability. The course focuses heavily on game development and programming, assuming the game design has been previously scoped out.

Pre-requisite(s): CS 4640 and CS 3750

CS 4730 - Applied Cryptography

Credits: (4)

Description: This course provides an introduction to the principles of number theory and how they are applied to cryptographic algorithms. Different topics that will be examined are: several classic ciphers, modern cryptographic methods, symmetric encryption, public key cryptography, hash functions, key management, digital signatures, certificates, electronic mail security, steganography, and recent developments affecting security and privacy on the Internet. The focus will be on how cryptography and their application can maintain privacy and security in computer networks.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 4760 - CS Capstone

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This CS capstone course is designed to provide real-world software engineering project opportunities for students to apply previous knowledge from the Computer Science curriculum. Students will work together as a team, along with their instructor, to solve a problem by developing a small-scale software application. Relevant software engineering skills emphasized in this course include, but are not limited to, Agile software development principles, project management, software design patterns, repository version control, data integration, security, testing, and documentation. Additional emphasis will be placed on the end user experience, as well as validation of functional requirements defined by the client. The capstone prepares students for experiences that software engineering professionals encounter in the workplace.

Pre-requisite(s): CS 3750.

CS 4790 - .NET Web Application Development

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: In this course, students will work together as a team to develop advanced ASP.NET MVC applications using the latest .NET CORE Framework tools and technologies. The focus will be on coding activities that enhance the performance and scalability of a web application in a small to medium-sized development environment. Students will create websites that separate the user interface, data access, and application logic.

Pre-requisite(s): CS 3750.

CS 4800 - Individual Projects and Research

Credits: (1-4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The purpose of this course is to permit Computer Science majors to develop an individual project, program, system, or research paper, with coordination and approval of a faculty mentor. The final grade and amount of credit awarded will be determined by the department, depending on the complexity of the upper division work performed.

Pre-requisite(s): CS 2420 and instructor approval.

May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 4820 - Compiler Design

Credits: (4)

Description: A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420, CS 4110.

CS 4830 - Advanced Topics in Computer Science

Credits: (1-4)

Variable Title

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Advanced topics which are demanded by industry, are currently popular in this rapidly changing field, or which meet special needs of students in Computer Science will be offered. Individualized material will be taught on a one time basis as needed. Time and credit to be arranged.

Pre-requisite(s): Consent of instructor.

May be repeated 2 times up to 8 credit hours.

CS 4840 - Computer Science Teaching Methods

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course is meant to prepare students to become computer science teachers in secondary education, such as high school and middle schools. The course will prepare students with a general understanding and specific methods for teaching computer science. Students will study a variety of programming tools, virtual environments, and other resources to support teaching computer science, as well as effective pedagogical strategies for curriculum design, assessment, and classroom management.

Pre-requisite(s): CS 2420.

CS 4850 - Faculty Directed Research

Credits: (1-4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The purpose of this course is to permit Computer Science majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Computer Science. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed.

Pre-requisite(s): CS 2420.

May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850 and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status.

CS 4890 INT - Cooperative Work Experience

Credits: (1-4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to permit Computer Science majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed.

Pre-requisite(s): CS 2420 and instructor approval.

May be repeated 3 times up to 4 credit hours.

Note: Note: Only 4 credit hours of CS 4800 or CS 4850 or CS 4890 can apply to a CS degree as an elective course, and only a maximum of 6 hours of CS 4800, CS 4850, and CS 4890 may be taken to satisfy missing credits or to achieve full time academic status

CS 4899 - Bachelor's Degree Assessment

Credits: (0)

Description: This course is to serve as an assessment tool whereby all BS/BA degree seeking students in the Computer Science Department demonstrate their learned knowledge in at least three areas of computer science. At present, this knowledge will be demonstrated through the use of Chi Tester exams administered through the Campus

Testing Center. The course is taken during the last term prior to receiving the BS/BA degree.

Pre-requisite/Co-requisite: Successful completion of requirements for the Bachelor's Degree.

CS 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

CS 5100 - Distributed Operating Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications.

Pre-requisite(s): CS 3100.

CS 5200 - The Internet of Things

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The growth of the Internet of Things (IoT) is changing the way we interact with the world by saving time and resources and opening new opportunities for growth and innovation. This course explores the fundamentals of the world of IoT, including design considerations and constraints. It provides an overview of the networks and security issues related to IoT devices. Course participants will get hands-on experience using Arduino and/or Raspberry Pi hardware and software platforms, learn different communication protocols, how to harness the data from IoT devices, and review capabilities of cloud-based IoT platforms.

Pre-requisite(s): CS 2810 or ECE 3710.

CS 5300 - Route Planning and Navigation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: The course teaches advanced topics of perception, mapping, route planning and navigation concepts. In this course the students will create maps of the operational environment using SLAM. Given the map, the students would drive the vehicle autonomously to a specified destination. Topics that will be covered include camera calibration, advanced computer vision and path planning. The course will conclude with a capstone project with the expectation that the student can program the vehicle to navigate in a dynamic environment, follow road markings,

and reach a specified goal; latitude and longitude.

Suggested Requisite(s): ECE 3730

CS 5420 - Advanced Algorithms

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.

Pre-requisite(s): CS 2420.

CS 5450 - Software Evolution and Maintenance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or and re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

Pre-requisite(s): CS 3100.

CS 5500 - Introduction to Artificial Intelligence

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Dive into the world of Artificial Intelligence and explore how intelligent software agents can solve real-world problems across diverse domains. This course introduces modern AI tools, approaches, and algorithms, preparing students to tackle challenges in fields like natural language processing, autonomous systems, and more. Students will engage with key AI concepts such as heuristic search, machine learning, neural networks, reinforcement learning, knowledge representation, planning, and reasoning. Additionally, the course addresses ethical considerations in AI, ensuring students understand the broader impact of their work. Whether you're aiming to innovate or solve complex problems, this course equips you with the skills to harness AI's potential in today's dynamic landscape.

Pre-requisite(s): CS 2420 and either MATH 1630 or CS 2130.

CS 5550 - Advanced Database Management Systems

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The course covers design, management, implementation, and programming of relational database systems in a high-volume data environment. Database design principles like E-R modeling, schema design and refinement, normal forms and constraints are introduced. Data Definition Language queries and Data Manipulation Language queries are covered to implement and query a database. Other SQL implementation topics like stored procedures, functions, triggers, and indexes are covered. Advanced database topics like big data analytics, storage management principles, query processing and optimization, transaction management, concurrency control, parallel and distributed databases are covered. The course also introduces alternatives to relational databases.

Pre-requisite(s): CS 3550.

CS 5580 - Data Science Algorithms

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course offers a comprehensive introduction to algorithms widely used in data science, emphasizing both foundational principles and practical applications. Students will learn to analyze and interpret data through essential topics such as machine learning, data preprocessing, and optimization techniques. The curriculum combines theoretical insights with hands-on experience using real-world datasets, equipping students with the core skills required for entry-level roles in data science, including positions as a data scientist, data engineer, or data analyst.

Pre-requisite(s): CS 4580.

CS 5600 - Machine Learning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course focuses on understanding and implementing the machine learning algorithms.

Pre-requisite(s): CS 2420.

CS 5610 - Computer Architecture

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.

Pre-requisite(s): CS 2810 or ECE 3710.

CS 5650 - Interaction Design

Credits: (3)**Typically Taught Fall Semester:** *Full Sem, Full Sem - Online***Typically Taught Spring Semester:** *Full Sem, Full Sem - Online***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The most exciting technologies of today are immersive, interactive, solve big problems, and are even entertaining. In this course, we will study how, as software developers, we can understand our users and create innovative designs that best meet their needs and desires. Known tools and techniques from the field of human-computer interaction are reviewed. User center research and evaluation techniques will be presented and students will have the opportunity to undertake a study on user design where they apply these techniques.

Pre-requisite(s): CS 3100.

CS 5700 - Deep Learning Theory**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Deep learning is at the heart of many life-changing applications and areas of interests including language understanding, face recognition, speech synthesis and recognition, object detection, and robotics to name a few. This course introduces the fundamental principles of deep learning and its applications, including multilayer perceptrons, backpropagation, auto-differentiation, optimizers, convolutional networks (CNNs), recurrent networks (RNNs), autoencoders (AEs), and generative adversarial networks (GANs). This course focuses on both understanding deep learning algorithms (their strengths and limitations) and getting acquainted with the current deep learning research landscape.

Pre-requisite(s): CS 5600.

CS 5705 - Applied Cloud Computing**Credits: (3)****Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Current business demands often require an amount of data that cannot reasonably process on a single computer. Even companies that work with reasonably small datasets expect rapid growth, so they prefer to use data processing solutions that scale when needed. In this course, you will gain practical, hands-on experience with modern cloud computing resources through publicly available cloud infrastructures. This course will prepare students with practical, hands-on experience in modern cloud and distributed computing paradigms and tools.

Pre-requisite(s): CS 3100 and CS 4580.

CS 5720 - Program Debugging and Repair**Credits: (3)****Typically Taught Summer Semester:** *Full Sem***Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: Introduction to software testing as a precursor of debugging and repair. Understanding the cognitive process behind debugging and an introduction to scientific debugging. Introduction to automated debugging

techniques like Fault Localization and Delta Debugging. Understanding the intuition behind Automatic Program Repair (APR). Introduction to APR techniques and tools. Introduction to recent advances in program debugging and repair. Understanding challenges and opportunities associated with automated program debugging and repair.
Pre-requisite(s): CS 3280 or CS 3230 or Instructor Approval.

CS 5740 - Computer Systems Security

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

Pre-requisite(s): CS 2420 and CS 3100.

CS 5820 - Compiler Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420 and CS 2130.

CS 5830 - Special Topics in Computer Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.

Pre-requisite(s): CS 3100.

CS 5840 - Formal System Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

Pre-requisite(s): CS 2420.

CS 5850 - Parallel Programming and Architecture

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models, parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python).

Pre-requisite(s): CS 3100.

CS 6000 - Fundamentals of Graduate Studies

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to introduce students in the graduate programs in the College of Engineering, Applied Science, and Technology to the expectations of graduate study and the scholarly requirement options for their program. Students will learn the difference between a research thesis and a design project as well as how to select, narrow, and refocus a research topic. Students will explore academic electronic databases and Internet search engines, thus developing skills that allow them to critically evaluate published scholarly work. They will also be introduced to research methods and design and will develop skills in organization, effective editing, reviewing, and proofreading. This course should be taken within the first year of study to establish a program of study and support future work on a thesis or project.

CS 6010 - Design Project

Credits: (2-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students are required to complete a substantial computer science project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in CS 6010 at the time of their final design review. May be taken up to 10 times for credit.

CS 6011 - Thesis Research

Credits: (2-6)**Typically Taught Summer Semester:** *Full Sem***Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$7.50

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students are required to complete original computer science research resulting in a thesis. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in CS 6011 at the time of their final thesis defense.

May be taken up to 10 times for credit.

CS 6100 - Distributed Operating Systems**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Distributed systems or distributed computing deals with the issues encountered while running programs across a computer network. This course will cover key topics including: models of distributed systems, timing, synchronization, coordination and agreement, fault tolerance, naming, security, and middleware. Students will learn both the theoretical background of distributed systems as well as work on hands-on projects developing distributed systems applications.

Pre-requisite(s): CS 3100.

CS 6200 - The Internet of Things**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The growth of the Internet of Things (IoT) is changing the way we interact with the world by saving time and resources and opening new opportunities for growth and innovation. This course explores the fundamentals of the world of IoT, including design considerations and constraints. It provides an overview of the networks and security issues related to IoT devices. Course participants will get hands-on experience using Arduino and/or Raspberry Pi hardware and software platforms, learn different communication protocols, how to harness the data from IoT devices, and review capabilities of cloud-based IoT platforms.

Pre-requisite(s): CS 2810 or ECE 3710.

CS 6300 - Route Planning and Navigation**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Course Fee:** \$25.00

Course Fee Purpose: Course fees for the CS major are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors,

and online instructional resources.

Description: The course teaches advanced topics of perception, mapping, route planning and navigation concepts. In this course the students will create maps of the operational environment using SLAM. Given the map, the students would drive the vehicle autonomously to a specified destination. Topics that will be covered include camera calibration, advanced computer vision and path planning. The course will conclude with a capstone project with the expectation that the student can program the vehicle to navigate in a dynamic environment, follow road markings, and reach a specified goal; latitude and longitude.

Suggested Requisite(s): ECE 3730

CS 6420 - Advanced Algorithms

Credits: (3)

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles of advanced algorithm design, including asymptotic analysis; divide-and-conquer algorithms and recurrences; greedy algorithms; practical data structures (heaps, hash tables, search trees, graphs); dynamic programming; graph algorithms; and randomized algorithms.

Pre-requisite(s): CS 2420.

CS 6450 - Software Evolution and Maintenance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course aims to improve student awareness of standard software engineering tools and techniques and make them more capable team members/leaders in software development projects. In this course, students build on their software engineering knowledge by evaluating the Software Development Lifecycle (SDLC) of an existing undergraduate capstone project (or and re-engineering it with specific techniques for maintenance, scalability, dependability, reliability, safety, security, and resilience. Topics such as reverse engineering, design recovery, program analysis, program transformation, refactoring, traceability, and program understanding will be investigated. Accompanying lectures aim to provide timely concepts from the software engineering body of knowledge as they relate to the course work. There will also be class discussions and demonstrations around practical aspects of improving software-related skills that draw upon the students' collective experience and upon the research.

Pre-requisite(s): CS 3100.

CS 6500 - Advanced Artificial Intelligence

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Building on the foundational principles introduced in CS 5500, this course delves deeper into advanced AI techniques and applications. Students will explore cutting-edge topics such as advanced machine learning architectures, deep reinforcement learning, generative models, and AI-driven optimization. Emphasis is placed on the integration of theory with practical challenges, enabling students to solve complex problems and innovate across domains like large-scale data systems and real-time decision-making. The course also examines emerging trends and the broader implications of AI in society, ensuring graduates are equipped to lead in this rapidly evolving field.

Pre-requisite(s): CS 5500.

CS 6550 - Advanced Database Management Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The course covers design, management, implementation, and programming of relational database systems in a high-volume data environment. Database design principles like E-R modeling, schema design and refinement, normal forms, and constraints are introduced. Data Definition Language queries and Data Manipulation Language queries are covered to implement and query a database. Other SQL implementation topics like stored procedures, functions, triggers, and indexes are covered. Advanced database topics like big data analytics, storage management principles, query processing and optimization, transaction management, concurrency control, parallel and distributed databases are covered. The course also introduces alternatives to relational databases.

Pre-requisite(s): CS 2550 or equivalent.

CS 6570 - Data Science Algorithms I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course introduces students to the data management, storage and manipulation tools common in data science and has students apply those tools to real scenarios. Topics include, but are not limited to, the following: data reduction, scalable algorithms, modern distributed solutions, data visualization, applied statistical models, prediction algorithms, and forecasting.

CS 6580 - Data Science Algorithms II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course is the second in a two-course sequence that prepares students to apply practical solutions to modern data science problems as a professional data analyst. The intent of this course is to go further in-depth and reinforce the concepts taught in CS 6570. Students will investigate and analyze the topics of CS 6570 using advanced tools and techniques to better prepare them for the challenges associated with the data science discipline. The principles of visualization will also be emphasized as well as exposure to recommendation engines and time series forecasting and analysis.

Pre-requisite(s): CS 6570 or CS 4580.

CS 6600 - Machine Learning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles and practical techniques of machine learning and its applications, including parametric and non-parametric algorithms, support vector machines, kernels, neural networks, clustering algorithms, dimensionality reduction, recommender systems, and deep learning. This course

focuses on understanding and implementing the machine learning algorithms.

Pre-requisite(s): CS 3100.

CS 6610 - Computer Architecture

Credits: (3)

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Investigation of high-performance computer processing architectures, including concurrent, multicore platforms; memory hierarchy; static and dynamic scheduling; instruction-level parallelism, including branch prediction; graphics processing units; cache performance and analysis.

Pre-requisite(s): CS 2810 or ECE 3710.

CS 6650 - Interaction Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: The most exciting technologies of today are immersive, interactive, solve big problems, and are even entertaining. In this course, we will study how, as software developers, we can understand our users and create innovative designs that best meet their needs and desires. Known tools and techniques from the field of human-computer interaction are reviewed. User center research and evaluation techniques will be presented and students will have the opportunity to undertake a study on user design where they apply these techniques.

Pre-requisite(s): CS 3100.

CS 6700 - Deep Learning Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Deep learning is at the heart of many life-changing applications and areas of interests including language understanding, face recognition, speech synthesis and recognition, object detection, and robotics to name a few. This course introduces the fundamental principles of deep learning and its applications, including multilayer perceptrons, backpropagation, auto-differentiation, optimizers, convolutional networks (CNNs), recurrent networks (RNNs), autoencoders (AEs), and generative adversarial networks (GANs). This course focuses on both understanding deep learning algorithms (their strengths and limitations) and getting acquainted with the current deep learning research landscape.

Pre-requisite(s): CS 6600.

CS 6705 - Applied Cloud Computing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$300.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement

including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Current business demands often require an amount of data that cannot reasonably process on a single computer. Even companies that work with reasonably small datasets expect rapid growth, so they prefer to use data processing solutions that scale when needed. In this course, you will gain practical, hands-on experience with modern cloud computing resources through publicly available cloud infrastructures. This course will prepare students with practical, hands-on experience in modern cloud and distributed computing paradigms and tools.

Pre-requisite(s): CS 6570 or CS 4580.

CS 6710 - Software Testing

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to fundamental principles and processes of software testing, including testing throughout the software development lifecycle, static testing, testing techniques and management; develop and apply knowledge and skills in implementing testing techniques in software development projects; including black-box and white-box testing, desktop, web, and mobile testing, testing automation, and test metrics.

CS 6720 - Programming Debugging and Repair

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Introduction to software testing as a precursor of debugging and repair. Understanding the cognitive process behind debugging and an introduction to scientific debugging. Introduction to automated debugging techniques like Fault Localization and Delta Debugging. Understanding the intuition behind Automatic Program Repair (APR). Introduction to APR techniques and tools. Introduction to recent advances in program debugging and repair. Understanding challenges and opportunities associated with automated program debugging and repair.

Pre-requisite(s): Graduate standing in Master of Science in Computer Science (MS).

CS 6740 - Computer Systems Security

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Computer Systems Security studies the design and implementation of secure computer systems. Topics include threat models, operating system security, TCP/IP security issues, information flow control, language security, hardware security, security in web applications, and detecting/monitoring unauthorized activity. Assignments include readings from current articles, labs that involve implementing and compromising a secure computer system, and a team final project.

Pre-requisite(s): CS 2420 and CS 3100.

CS 6820 - Compiler Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: A study of compilers, grammars, finite-state and push down automata, scanning, parsing, error handling, semantic analysis and code generation.

Pre-requisite(s): CS 2420.

Suggested Requisite(s): CS 4110.

CS 6830 - Special Topics in Computer Science

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course explores new or otherwise relevant computer science topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on the student's transcript. May be repeated for credit under different titles. Lecture or Lecture/Lab combination.

Pre-requisite(s): Instructor permission.

May be taken twice up to 6 credits.

CS 6840 - Formal System Design

Credits: (3)

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Methods for developing high-quality hardware/software systems that are delivered on time, within budget, and according to requirements. Techniques for specifying programs and reasoning about them, including formal logical proofs, correct code synthesis, model checking, type theory specifications, and properly evaluating concurrent programs.

Pre-requisite(s): CS 2420.

CS 6850 - Parallel Programming and Architecture

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: In parallel programming you will learn how to utilize multiple CPU's/Cores/Nodes in parallel to increase the performance of your applications. Different architectures will be discussed along with the advantages and disadvantages of each. This course will cover key topics parallel programming including: memory models,

parallel programming architectures, Flynn's Taxonomy, synchronization, and performance analysis and tuning. In addition to learning the theoretical background of parallel programming, you will work on hands-on projects using multiple parallel programming languages and libraries including (CUDA, openMP, MPI, open CL, and python).

Pre-requisite(s): CS 3100.

CYBR 1030 - Foundations of Computing

Credits: (4)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: This course follows the core body of knowledge specified by the ACM which provides students with a broad overview of topics they might encounter within the major areas of computing. The course is taught at an introductory level and includes topics such as: history of computers, computer architecture, operating systems, web design and development, programming, database, software engineering, networking, and more. Cross-listed with CS 1030 and WEB 1030.

CYBR 1300 - Networks and Emerging Technologies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce the fundamentals of voice and data networking technologies. The course includes topics such as history of telecommunications, history of data networking, study of industry, transport media, common networking protocols, and emerging technologies.

CYBR 1400 - Introduction to Cyber Defense and Ethics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course will introduce the terminology, concepts, and defense techniques related to cyber defense. An overview of careers and professional organizations related to cybersecurity is also included. The ethics of working with information and cyber tools will be discussed.

CYBR 2010 - Business English Applications

Credits: (3)

Typically Taught Fall Semester: *Full Sem Online*

Description: Includes Business English essentials: grammar, punctuation, and proofreading. Keyboarding 40 wpm recommended.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501.

CYBR 2200 - Cybersecurity and System Fundamentals

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement

including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Students enrolling in this course will be exposed to current computer hardware and software technologies including computer processors, memory, storage, motherboards, graphical processing units, and other related hardware. Current operating systems will be installed, configured, and optimized following industry best practice. Cybersecurity topics such as password policies, patch management, and system hardening will be emphasized throughout the course.

CYBR 2210 - Linux Systems Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Description: This course gives students a solid foundation in the fundamentals of the Linux operating system. Students gain system-level experience through problem-solving exercises at the command line and in the graphical user interface (GUI). By the end of the course, students will have learned the major, essential, command-line commands necessary to be accomplished users of Linux.

Pre-requisite(s): CYBR 2200.

CYBR 2300 - Introduction to Networking and Cybersecurity

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides students with an introduction to the principles of computer networking and cybersecurity. Covered concepts include network topologies and design, network models, networking protocols, cybersecurity concepts, physical media, network addressing, equipment, basic cryptography, LAN management, network operations, troubleshooting, network attacks, and defense strategies.

Pre-requisite(s): CS 1030 or CYBR 2200.

Pre-requisite/Co-requisite: CYBR 2200.

CYBR 2310 - Network Server Administration

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students will learn how to install, configure, manage, and troubleshoot hardware and applications in a Server environment in different cloud ecosystems. With a specific focus on Server fundamentals, this course will teach students how to install servers, configure active directories, create and manage users, install server roles and features, perform diagnostics, and troubleshoot malfunctioning servers.

Pre-requisite(s): CYBR 2300 or CS 2705.

CYBR 2415 - Routing and Switching

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement

including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is designed to provide a practical understanding of the configuration, securing, and administration of routing and switching devices. Practical labs using Cisco equipment will be used to introduce, reinforce, and evaluate networking and security concepts. A detailed look into IP addressing, networking protocols, and security best practices is included.

Pre-requisite(s): CYBR 2300 or CS 2705.

CYBR 2435 - Cisco Advanced LAN and WAN Switching and Routing Theory and Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course is the second in a two-course series designed to prepare students to pass the examinations for Cisco Certified Network Associate (CCNA). This course covers advanced router configurations, LAN switching theory and VLANs, advanced LAN and LAN switched design, Novell IPX, WAN theory design and technology, PPP, frame relay, ISDN, network troubleshooting, network SCANs skills, and threaded case studies.

Pre-requisite(s): CYBR 2415.

CYBR 2500 - Practical Cybersecurity Infrastructure

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students enrolled in this course will be exposed to hands-on application of concepts and topics in the computer networking and cybersecurity fields. Topics covered in this course include exposure to current physical desktop and server hardware, configuration of networking devices such as switches, routers, access points, firewalls, copper and/or fiber optic cable installation, and applying theory and concepts from prior courses in a hands-on environment.

Pre-requisite(s): CYBR 2210 and CYBR 2310 and CYBR 2415.

CYBR 2510 - Cyberethics

Credits: (1)

Typically Taught Fall Semester: *1st Blk, 1st Blk - Online*

Typically Taught Spring Semester: *1st Blk, 1st Blk - Online*

Description: Explores how the structural, competitive, economic, environmental, and ethical forces affect the continuing transformation of the networking industry both domestically and internationally.

Pre-requisite(s): CS 1030.

CYBR 3210 - Cloud Architecture and Security

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Cover the costs of equipment maintenance and replacement of hardware, academy memberships, software licensing, consumable materials and supplies, and cloud fees.

Description: This course covers designing and securing complex environments in the cloud. A particular focus will be on LAMP stack development and support of business processes. Lab work in cloud environments will be used to

learn and reinforce key concepts.

Pre-requisite(s): CYBR 2210 and CYBR 2310.

CYBR 3300 - Advanced LAN Security Management

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course provides an in-depth look into the field of network security. Specific topics to be examined include networking protocols and threats, authentication models, cryptography, layer 2 security, application security, social engineering, access control lists, firewalls, risk management, and OS hardening.

Pre-requisite(s): CYBR 2300 or CS 2705.

CYBR 3415 - Cisco CCNPB-Advanced Router Configuration

Credits: (3)

Description: Building Scalable Cisco Networks (BSCN). Addresses tasks network managers and administrators need to perform when managing access and controlling overhead traffic in growing routed networks once basic connectivity has been established. Discusses router capabilities used to control traffic over LANs and WANs, as well as connecting corporate networks to an Internet Service Provider (ISP).

Pre-requisite(s): CYBR 2435 or CCNA Certification or CS 3705.

Note: This course is not currently offered.

CYBR 3425 - Cisco CCNP-Building Cisco Switched Networks

Credits: (3)

Description: Building Cisco Multilayer Switched Networks (BCMSN). Teaches network administrators how to build campus networks using multilayer switching technologies over high speed Ethernet. Teaches how routing and switching concepts and implementations technologies work together.

Pre-requisite(s): CYBR 2435 or CCNA Certification.

Note: This course is not currently offered.

CYBR 3435 - Cisco CCNP--Remote Access Networks

Credits: (3)

Description: Teaches how to build a remote access network to interconnect central sites to branch offices and home office/telecommuters. Further teaches students how to control access to the central site as well as maximizes bandwidth utilization over remote links.

Pre-requisite(s): CYBR 2435 or CCNA Certification.

Note: This course is not currently offered.

CYBR 3445 - Cisco CCNP--Internetwork Troubleshooting

Credits: (3)

Description: Hands-on lab exercises. Covers developments in Cisco IOS and Catalyst software. Teaches how to baseline and troubleshoot an environment using Cisco routers and switches for multiprotocol client hosts and servers connected with: Ethernet, Fast Ethernet, and Token Ring LANS; and Serial, Frame Relay and ISDN BRI WANs.

Pre-requisite(s): CYBR 2435 or CCNA Certification.

Note: This course is not currently offered.

CYBR 3550 - Supervising Information Technology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Application of supervisory functions in network management and multimedia settings including planning, structure, design, implementation, evaluation, problem-solving, and human resources.

Pre-requisite(s): CYBR 2300 or WEB 2300 or CS 2705.

CYBR 3600 - Principles of Business/Marketing Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course includes professionalism, curriculum, standards, counseling, tech prep, competency-based testing, research, and current issues and trends in Business/Marketing Education. Along with advanced electronic presentations, this course will include a review of other technologies used in teaching.

Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

CYBR 3610 - Methods of Teaching Marketing Education Subjects

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Analysis and research into methods of teaching business and marketing subjects with emphasis on teaching demonstrations and practices, objectives, outcome measurements, testing, and grading.

Pre-requisite(s): WEB 1700 or WEB 1701/WEB 1501 and WEB 1702/WEB 1502 and WEB 1703/WEB 1503.

CYBR 3710 - Switching and Transmission Network Systems Management

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This course covers management of switching and transport systems and their technologies from industry carrier systems to private business networks. Hands-on labs working with TDM lines and trunks, transport, IP routing, and SIP. Applications will be run on live LAN/WAN networks. Also, the course includes discussion of new technologies.

Pre-requisite(s): CYBR 2300 or CS 2705.

CYBR 3715 - Transmission Network Applications

Credits: (2)

Typically Taught Fall Semester: *Fall [Full Sem]*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Hands-on labs working with TDM lines and trunks, transport, IP routing, and SIP. Applications will

be run on live LAN/WAN networks. Also, the course includes discussion of new technologies.

Pre-requisite(s): CYBR 2300.

Co-Requisite(s): CYBR 3710.

CYBR 3720 - Wireless Networking and Security

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: A study of wireless networks and wireless security. Topics include: WLAN standards, RF technologies, WLAN network security, WLAN troubleshooting, wireless administration, and wireless equipment configuration.

Pre-requisite(s): CYBR 2415.

CYBR 3730 - Survey of Information Security Policies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Explores how the structural, competitive, economic, environmental, and ethical forces affect the continuing transformation of the networking industry both domestically and internationally. Discussion of the impact of contemporary issues on the provider and the consumer of telecommunication services including the legal and ethical requirements and ramifications of electronic privacy are included.

Pre-requisite(s): CYBR 3300.

CYBR 4700 - Data and Voice Network Design

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: As a capstone course, students will design data and voice networks using industry metrics and rationale. Architecture, technologies, and standards associated with the design and management of modern data and voice networks will be covered.

Pre-requisite(s): CYBR 3710 and CYBR 3720.

CYBR 4740 - Security Vulnerabilities and Intrusion Mitigation

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: A treatment of security issues related to computers and computer networking. This course is designed for advanced users, system administrators and network administrators. The course covers TCP/IP security issues,

security policies, packet filtering, Internet firewall architecture and theory, detecting and monitoring unauthorized activity, password authentication, intrusion detection and prevention and other security issues involving Linux, UNIX and Microsoft Windows operating systems. A team project is included.

Pre-requisite(s): CYBR 3300, PS 3250, and CS 3705.

CYBR 4760 INT - Cybersecurity and Network Management Internship

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$10.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Must be completed senior year in an information technology environment with company placement and outcomes approved by the department.

Pre-requisite/Co-requisite: CYBR 4700.

CYBR 4790 INT - Cybersecurity and Network Management Senior Project

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Capstone course applying the principles learned in the Cybersecurity and Network Management program to complete a student-designed project.

Pre-requisite/Co-requisite: CYBR 4700.

CYBR 4850 - Faculty Directed Research

Credits: (1-4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to permit Network Management Technology majors to work closely and consistently with a faculty mentor on specific research related to current, experimental topics in Network Management Technology. The final grade and amount of credit awarded will be determined by the faculty mentor, depending on the complexity of the advanced, upper division work performed. May be repeated 3 times up to 4 credit hours. Note: Only a maximum of 6 hours of NET 4800, NET 4850 and CYBR 4890 may be taken to satisfy missing credits or to achieve full time academic status.

Pre-requisite(s): CYBR 2300.

CYBR 4890 - Cooperative Work Experience

Credits: (1-4)

Description:

The purpose of this course is to permit Network Management Technology majors who are currently working in a computer related job or internship to receive academic credit for their work, with coordination and approval of a

faculty mentor and their supervisor. The amount of upper division credit awarded will be determined by the department, depending on the nature and quantity of work performed. May be repeated 3 times up to 4 credit hours. Note: Only a maximum of 6 hours of NET 4800, CYBR 4850, and NET 4890 may be taken to satisfy missing credits or to achieve full time academic status

Pre-requisite(s): CYBR 2300.

CYBR 4990 - Senior Project

Credits: (3)

Course Fee: \$10.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: Research, analysis, presentation, and discussion of topics relative to graduating majors and minors.

Pre-requisite(s): WEB 2860 or equivalent.

Note: This course is offered as needed.

CYBR 6600 - Principles of Business/Marketing Education

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This graduate-level course includes professionalism, curriculum, standards, counseling, tech prep, competency-based testing, research, and current issues and trends in Business/Marketing Education. Along with advanced electronic presentations, this course will include a review of other technologies used in teaching. NET 6600 may be substituted for CYBR 3600 in the undergraduate Business Education Composite Teaching major, Business Education Teaching minor, or Business/Marketing Teaching minor for those working on a second bachelor's degree.

Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501, WEB 1702/WEB 1502, and WEB 1703/WEB 1503 and a bachelor's degree.

CYBR 6610 - Methods of Teaching Business Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$10.00

Course Fee Purpose: Course fees are designed to cover the costs of lab equipment maintenance and replacement including desktop and server computer systems and software; consumable materials and supplies; and support for lab aides, student tutors, and online instructional resources.

Description: This graduate-level course includes an evaluation and application of the methods of teaching business and marketing subjects with emphasis on teaching demonstrations and practices, objectives, outcome measurements, testing, and grading. The students will write a unit-long Learning Activity Package (LAP) and will demonstrate teaching in a business/marketing course. NET 6610 may be substituted for CYBR 3610 in the undergraduate Business Education Composite Teaching major, Business Education Teaching minor, or Business/Marketing Teaching minor for those working on a second bachelor's degree.

Pre-requisite(s): WEB 1700; or WEB 1701/WEB 1501, WEB 1702/WEB 1502, and WEB 1703/WEB 1503; and a bachelor's degree.

DANC 1010 CA/CC - Introduction to Dance

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$11.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: An introduction to dance providing a knowledge base from which to experience dance from a variety of viewpoints: historically, culturally, aesthetically, critically, and creatively. This course takes a close-up look at the rules, messages, and meanings embodied in dance around the world. This is a writing intensive course. Students are expected to attend dance concerts and cultural dance experiences outside regularly scheduled class time. Open to all students.

DANC 1100 - Ballet I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Fees support dance technology and live accompaniment: Live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Introduction to the techniques of the classical ballet including alignment, positions, port de bras, and allegro combinations. Open to all students.

May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1200 - Contemporary/Modern I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Fees support dance technology and live accompaniment: Live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Introduction to the movement techniques of modern dance. Open to all students.

May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1310 - Music for Dance

Credits: (2)

Typically Taught Spring Semester: *Full Sem odd years*

Course Fee: \$4.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Study of the relationship between sound and movement, accompaniment and dance. Focus extends to creative and working relationship(s) between accompaniment/composer and teacher/choreographer with emphasis on practical applications of methods and understandings.

DANC 1450 - Special Topic: World Dance Experiences I

Credits: (2)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as a recreational activity. It allows for the study of changing series of dance forms, including, but not

limited to, African, Flamenco, Middle Eastern, Clogging, Ballroom, Hip Hop, Mexican Folklorico, and Aerial Dance. May be repeated for 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1500 - Jazz I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Introduction to the style, technique, and rhythmic structures of jazz dance with emphasis on increasing movement capabilities and personal expression. Open to all students.

May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 1520 - Dance in World Cultures

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Dance in World Cultures explores various dance forms practiced around the world. Open to all students.

May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 1560 - African Dance and Culture I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Dance and cultural studies of West and Central Africa with a focus on technique, style, and rhythmic acuity. The course will explore the cultural and historical significance of the various dances and rhythms.

DANC 1580 - Rhythm Tap I

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Special training in tap dance skills and techniques.

May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 2250 - Alignment and Conditioning for Dance/Pilates

Credits: (1)

Typically Taught Spring Semester: *Full Sem even years*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Strength and alignment for dancers, using Pilates mat exercises. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitates more ease and efficiency in movement. To repeat the class a student must have the permission of the instructor.

May be repeated twice for up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 2300 - Dance Kinesiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem even years*

Course Fee: \$4.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: This course provides a study of anatomy and dance kinesiology with a specific focus on anatomical analysis, conditioning principles and injury prevention, with special attention given to application of information to technique class, rehearsal, choreography and individual anomalies. The course prepares the student to understand basic kinesiological analysis and fundamental concepts of somatic inquiry.

Pre-requisite/Co-requisite: NUTR 1020.

DANC 2350 - Dance for Aging Populations

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: This course explores the latest applications of movement, dance, and creativity as a healing and somatic form of therapy. It includes lecture/discussion, student workshops in dance, laboratory experiences, and community-engaged service learning. Furthermore, it provides basic to intermediate-level mentored practices in senior centers, assisted living, and memory care communities. This course is appropriate for students of the arts and/or of health-related fields who are willing to access their creative potential and service to the community.

DANC 2410 - Improvisation

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$4.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Guided exploration in the elements of dance for the creative development of personal movement repertoire, spontaneous group interaction, and choreographic skills.

May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2470 - Ballet II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$37.00

Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Technique course designed to increase skill in classical ballet.

Pre-requisite(s): DANC 1100 (2 credit hours minimum), or by audition.

May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated 4 times for a maximum of 6 credit hours.

DANC 2490 - Contemporary/Modern II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$37.00

Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of

dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.

Pre-requisite(s): DANC 1200 (4 credit hours minimum), or by audition.

May be repeated for a maximum of 6 credit hours.

DANC 2500 - Jazz II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: Refinement of beginning skills, emphasis on development of technical abilities and performance qualities.

Pre-requisite(s): DANC 1500, or by audition.

Pre-requisite/Co-requisite: DANC 1500

May be repeated for credit, but use toward Major/Minor must be approved by program advisor. May be repeated for a maximum of 4 credit hours.

DANC 2610 - Dance and Digital Technology

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

Course Fee: \$10.00

Course Fee Purpose: Course fee: The assessed course fee is used for consumable and non-consumable items as used in class for hands-on activities and lab / studio space maintenance.

Description: This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 2610 will introduce students to dance-videography, video editing, dissemination of work through media such as the DVD format, YouTube, Vimeo and the creation/maintenance of on-line portfolios.

May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

DANC 2920 INT - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: In individual cases, this course might be considered as an elective in the Dance Major.

DANC 2950 INT - Dance Festival Participation

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Students attend the American College Dance Festival Association's regional gathering to study a variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.

Pre-requisite(s): Audition and permission.

May be repeated for up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3015 - Dance History

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Study of the history and philosophy of dance from lineage-based societies through the early decades of modern dance, ballet, vernacular forms and dance as public art. Areas covered will include pre-Christian civilizations, the Middle Ages, the Renaissance and the Golden Age of Ballet, the Age of Innovation in Ballet through the Contemporary Period of history.

Pre-requisite(s): DANC 1010.

DANC 3320 INT - Secondary Dance Pedagogy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$6.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Methods, teaching techniques, accompaniment, and practical experience in teaching modern dance. This is the secondary teaching methods class.

Pre-requisite(s): DANC 2490

DANC 3450 - Special Topic: World Dance Experiences II

Credits: (2)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: This course is designed to provide enrichment opportunities for those who undertake dance as a field of study or as a recreational activity. It allows for the study of changing series of dance forms, including, but not limited to, African, Flamenco, Middle Eastern, Clogging, Ballroom, Hip Hop, Folklórico, and Aerial Dance.

May be repeated up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3470 - Ballet III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$36.00

Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Coordinating course designed to increase skill in classical ballet technique.

Pre-requisite(s): DANC 2470 (4 credit hours minimum) or by audition.

May be repeated for a maximum of 6 credit hours.

DANC 3490 - Contemporary/Modern III

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$36.00

Course Fee Purpose: The fee supports dance forms master classes and/or dance concert tickets, screening of dancers for injury prevention, dance technology, and live accompaniment; live musicians, instruments, stereo components, video projection, Zoom monitor, and dance studio computers.

Description: Exercises and activities to develop strength, flexibility, endurance, and technical dance skill.

Pre-requisite(s): DANC 2490 (4 credit hours minimum), or by audition.

May be repeated for a maximum of 6 credit hours.

DANC 3500 - Choreographic Process

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$4.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Studies in the elements of time, space, and energy as they are artistically significant in the meaning of dance. Exploration of the time, space, and energetic design in related fields of music and art included as relevant to choreographic design and communication in dance.

Pre-requisite(s): DANC 2410.

May be repeated twice for up to six credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3520 INT - Choreography Practicum

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Supervised experience choreographing a dance for public performance. Arranged through cooperative effort of student and supervisor.

Pre-requisite(s): DANC 3500.

May be repeated three times for a maximum of six credit hours.

DANC 3525 - ArtsBridge

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: ArtsBridge is a course that provides undergraduate students with an internship and academic credit for designing and implementing a comprehensive, needs-based, integrated arts project with community organizations or area schools. The course will offer students a clear structure and process for navigating the complexities of community engagement. ArtsBridge students will work closely with a WSU faculty mentor, community/school stakeholder, peers, and the ArtsBridge program coordinator throughout the process culminating in the development of an arts integrated project.

Pre-requisite(s): Recommendation by education supervisor in fine arts content area faculty mentor. Content methodology course(s) completed or in progress.

Note: Following faculty recommendation, please contact the ArtsBridge coordinator for an interview.

DANC 3560 - African Dance and Culture II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Dance and cultural studies of West and Central Africa with a focus on technique, style, and rhythmic acuity. The course will provide an in-depth exploration of the cultural and historical significance of the various dances and rhythms.

Pre-requisite(s): DANC 1560 African Dance and Culture (lower division)

DANC 3580 - Rhythm Tap II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$2.00

Course Fee Purpose: Fees support dance technology: stereo, projection, Zoom monitor and computers.

Description: Intermediate/Advanced training in tap dance skills and techniques.

Pre-requisite(s): Lower Division Tap Dance (DANC 1580) and/or instructor approval.

May be repeated 2 times up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3640 INT - Elementary Dance Pedagogy

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$6.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Techniques for teaching creative dance and basic dance forms. Suggested for Elementary Education majors.

DANC 3860 INT - Field Experience

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A course designed to provide opportunities for students to gain practical experience in the field by assisting in the activities of community agencies, schools, and Weber State.

Pre-requisite(s): DANC 3320 for those who plan to teach in a middle or secondary school or DANC 3640 for those who plan to teach in an elementary school.

May be repeated twice, up to 3 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3910 INT/CEL - Moving Company: Rehearsal & Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: The Moving Company is designed to give students the opportunity to learn about the various aspects of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - 3910) and spring (performance - DANC 3911) semesters. This segment deals with preparation and rehearsal.

May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 3911 INT/CEL - Moving Company: Performance

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: The Moving Company is designed to give students the opportunity to learn about the various aspects

of creating, rehearsing, and implementing performances off-campus and to reach the community with our dance program. The commitment is for both fall (rehearsal - DANC 3910) and spring (performance - 3911) semesters. This segment deals with implementation and performance.

Pre-requisite(s): DANC 3910.

May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4250 - Alignment and Conditioning for Dance/Pilates

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

Course Fee: \$4.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Strength and alignment for dancers, using Pilates mat exercises and Reformer. The class addresses areas of strength essential for dancers, focuses on breathing techniques integral to the exercises, and uses the exercises as a means to better understand and improve alignment. The course also addresses how strength and alignment facilitate ease and efficiency of movement.

Co-Requisite(s): DANC 2250.

May be repeated once up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4610 - Dance and Digital Technology

Credits: (2)

Typically Taught Spring Semester: *Full Sem even years*

Description: This course will provide students with an opportunity to explore the integration of dance and technology, specifically the use of the digital video medium and the use of the internet for creative and professional distribution. DANC 4610 will introduce students to dance-videography, video editing, and dissemination of work through media such as the DVD format, You Tube, Vimeo and the creation/maintenance of on-line portfolios. May be repeated for credit, but use toward Major/Minor must be approved by program advisor.

DANC 4620 - Dance and Digital Technology Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: This seminar will provide students with individual and collaborative study and research in the field of dance and the digital video medium. The course will cover artistic and technical forms, including, but not limited to capturing dance on the digital/video medium, choreographic processes through non-linear digital editing, audio/visual editing for dance, lighting, dance theory and criticism in the context of dance in the digital age.

Pre-requisite(s): DANC 2610.

May be repeated once up to 2 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4700 INT - Creative Synthesis in Dance

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$4.00

Course Fee Purpose: Fee supports world dance forms master classes and/or dance concert tickets.

Description: Project oriented experience intended to coordinate student work. It will serve as guide in the synthesis of philosophy, experience, and understanding of dance as an art form and/or dance as education. This capstone course will include a portfolio and have an artistic or scholarly outcome.

Pre-requisite(s): Students Pursuing BA in Dance: DANC 2610, DANC 3520 and senior dance major standing.

DANC 4800 - Individual Study

Credits: (1-4)**Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** Individual work or work in small groups by arrangements in special topics not included in the announced course offerings.**Pre-requisite(s):** Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major.

May be repeated 3 times up to 8 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4801 - A&H Leadership Lecture Series**Credits: (1)****Typically Taught Spring Semester:** *Full Sem***Description:** This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.**DANC 4890 INT - Cooperative Work Experience****Credits: (1-6)****Description:** Individual work or work in small groups by arrangement; in special topics not included in the announced course offerings.**Pre-requisite(s):** Approval of instructor. In individual cases, this course might be considered as an elective in the Dance Major.

May be repeated 3 times up to 18 credit hours, but use toward Major/Minor must be approved by program advisor.

DANC 4910 INT - Rehearsal and Performance**Credits: (1)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$2.00**Course Fee Purpose:** Fee supports world dance forms master classes and/or dance concert tickets.**Description:** Preparation and rehearsal of dance composition to be presented in concert.**Pre-requisite(s):** consent of instructor. May be repeated for an unlimited number of credit hours.

May be repeated 11 times for credit, but use toward Major/Minor must be approved by program advisor.

DANC 4920 INT - Short Courses, Workshops, Institutes, and Special Programs**Credits: (1-6)****Workshop****Description:** Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed. This course might be considered as an elective in the Dance Major. Use toward Major/Minor must be approved by program advisor.

DANC 4950 INT - Dance Festival Participation**Credits: (1)****Typically Taught Spring Semester:** *Full Sem***Description:** Students attend the American College Dance Festival Association's regional gathering to study a

variety of dance forms with professionals from across the country. Students see the choreographies of peers and professionals. Students may be responsible for their own registration fees and transportation, lodging and meal costs.

Pre-requisite(s): Audition and permission.

May be repeated 3 times up to 4 credit hours, but use toward Major/Minor must be approved by program advisor.

DENT 2201 - Concepts of Community Dental Health

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: This course will present the basic concepts of planning and implementing community dental health programs. These principles include epidemiology, sociological concepts of health and illness, health behavior, public attitudes and principles of dental health education.

DENT 2205 - Head/Neck and Dental Anatomy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Course fee is used for supplies for dental anatomy and/or non-inventoried instructional materials.

Description: Identification of major anatomical landmarks of the head and neck, their innervation, blood supply and function. Also includes instruction in the histology and embryology of head and neck development and tooth morphology.

DENT 2206 - Clinical Dental Hygiene/Radiology

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$630.00

Course Fee Purpose: Course fees are used to purchase patient treatment items, such as infection control barriers, gloves, masks, etc., for equipment maintenance and replacement, and instructional software, such as a radiology simulation program.

Description: Clinical application of principles of DENT 2207 and DENT 2208. Must accompany DENT 2207 and DENT 2208.

Students participate in three four-hour labs each week.

DENT 2207 - Dental Hygiene I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Theory essential to performing clinical treatment, including, but not limited to armamentarium, client-operator positioning, aseptic technique, soft tissue exam, health history, principles of instrumentation and disease control therapies. Must accompany DENT 2206.

DENT 2208 - Radiology

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Preparatory skills for clinical dental radiology, including information on radiation safety and exposure techniques. Must accompany DENT 2206.

DENT 2211 - Oral Pathology

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: The study of manifestations and identification of disease processes in the oral cavity.

DENT 2215 - Periodontology

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$7.00

Course Fee Purpose: Course fee is used for supplies/services for periodontology and/or non-inventoried instructional materials.

Description: The study of basic periodontal structures and disease processes.

DENT 2216 INT - Clinical Dental Hygiene II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$228.00

Course Fee Purpose: Course fee is used for supplies/services for clinical lab and/or non-inventoried instructional materials.

Description: Clinical application of DENT 2217. Must accompany DENT 2217.

Two four-hour clinic lab sessions each week.

Pre-requisite(s): DENT 2206 and DENT 2207.

DENT 2217 - Dental Hygiene II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Continuation of DENT 2206. Didactic instruction for intermediate skills in dental hygiene treatment. Must accompany DENT 2216.

Pre-requisite(s): DENT 2207.

DENT 2219 - Dental Materials

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$85.00

Course Fee Purpose: Course fee is used for supplies/services for dental materials and/or non-inventoried instructional materials.

Description: Identification of and laboratory experiences with materials used in dentistry and dental hygiene.

DENT 2230 - Oral Health Research & Statistics

Credits: (2)

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Online*

Description: This course is designed to provide the student with research design and statistics principles as they apply to oral health settings and issues.

Pre-requisite(s): WSU Quantitative Literacy requirement.

DENT 2235 - Dental Medicine I

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: The study of common medical conditions and their treatment. Emphasis is placed on oral manifestations of systemic disease and related pharmacology.

DENT 2250 - Professional Ethics

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Professional Ethics is designed to provide dental hygiene students with a foundation in the professional standards governing the dental hygiene profession and the development of ethical decision-making skills, in the context of diversity and respect for others. Throughout the course the student will be guided to explore issues of diversity, prejudices, and their responsibility to provide culturally sensitive care.

DENT 2800 - Individual Research

Credits: (1-3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: Special project in a student's area of interest.

May be repeated twice for a maximum of 4 credit hours.

DENT 2830 - Directed Readings, Projects and Research

Credits: (1-3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: Limited to dental hygiene majors.

A maximum of nine hours may be accumulated with this course.

DENT 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

DENT 3130 - Independent Study

Credits: (1-3)

Typically Taught Summer Semester: *Online*

Typically Taught Fall Semester: *Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: Independent project in an area of interest; second year dental hygiene students only. Project approval by dental hygiene faculty.

A maximum of nine hours may be accumulated with this course.

DENT 3301 INT - Community Dental Health Service Learning Lab

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$34.00

Course Fee Purpose: Course fee is used for supplies/services for community lab and/or non-inventoried instructional materials.

Description: This course leads the student through on-campus and off-campus field projects with selected community agencies.

DENT 3305 - Pain Control

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$75.00

Course Fee Purpose: Course fee is used for clinical supplies/services for pain control, including labs and/or non-inventoried instructional materials.

Description: The study of local anesthesia with regard to pharmacology, administration techniques, methods of pain and apprehension control and nitrous oxide sedation. Includes laboratory experiences in the administration of local anesthesia and nitrous oxide sedation.

Pre-requisite(s): DENT 2235.

DENT 3336 INT - Clinical Dental Hygiene III

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$210.00

Course Fee Purpose: Course fee is used for clinical supplies/services for clinical lab and/or non-inventoried instructional materials.

Description: Clinical application of DENT 3337. Dental Hygiene clinical practices including: direct patient care, rotations, and labs.

Three four hour clinics each week.

Pre-requisite(s): DENT 2206 and DENT 2216.

DENT 3337 - Dental Hygiene III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Continuation of DENT 2207, DENT 2217. Emphasis on advanced instrumentation in the care of patients with periodontal disease. Must accompany DENT 3336.

Pre-requisite(s): DENT 2207 and DENT 2217.

DENT 3346 INT - Clinical Dental Hygiene IV

Credits: (5)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$195.61

Course Fee Purpose: Course fee is used for clinical supplies/services for clinical lab and/or non-inventoried instructional materials.

Description: Clinical application of DENT 3347. Dental Hygiene clinical practices including: direct patient care, rotations, and labs.

Twelve hours of clinic each week.

Pre-requisite(s): DENT 2206, DENT 2216, DENT 3336.

DENT 3347 - Dental Hygiene IV

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: Continuation of DENT 2207, DENT 2217, DENT 3337. Emphasis on expanded client care services and with client populations with special treatment needs. Must accompany DENT 3346.

Pre-requisite(s): DENT 2207, DENT 2217, DENT 3337.

DENT 4010 - Interdisciplinary Health Care Teams

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course provides an interdisciplinary experience with the team concept as a priority. The students learn the role of the health care team members, each with their different skills and objectives. The course teaches students to practice an interdisciplinary approach as they research, interact and learn in the interdisciplinary environment of a health care setting.

Cross-listed with HTHS 4010 and NRSB 4010.

DENT 4405 INT - Dental Hygiene Clinical Teaching Practice

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Supervised teaching in the Weber State Dental Hygiene program as an assistant to the supervising faculty.

Pre-requisite(s): Consent of the faculty member and acceptance into the BS/DH major program.

DENT 4410 - Dental Hygiene Needs of the Geriatric Client

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An overview of dental health needs of elderly clients.

Pre-requisite(s): Consent of instructor and acceptance into the BS/DH major program.

DENT 4530 INT CRE - Principles and Application of Evidence-Based Dental Hygiene Practice

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Emphasis is on the critical appraisal of scientific literature, the development of clinical problem statements and hypotheses and the formulation of a research proposal. Ethical issues inherent in the research process and the identification of appropriate hypothesis testing procedures will also be discussed.

Pre-requisite(s): Acceptance into the BS/DH program and completion of WSU Quantitative Literacy requirement.

DENT 4780 - Baccalaureate Thesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to give dental hygiene students an opportunity to complete a thesis project in partial fulfillment of the requirements for the BS/DH major.

Pre-requisite(s): Acceptance into the BS/DH program, completion of the WSU Quantitative Literacy requirement.

DENT 4800 - Individual Research

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Special project in a student's area of interest.

May be repeated twice for a maximum of 3 credit hours.

DENT 4810 - Summer Elective Clinic

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Summer intensive clinical course which allows the student to set personal achievement goals for clinical techniques and assists them through the process of skill development.

May be repeated six times for a maximum of six credit hours.

DENT 4830 - Directed Readings, Projects and Research

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Limited to dental hygiene majors.

A maximum of nine hours may be accumulated with this course.

DENT 4850 - Study Abroad

Credits: (1-6)

Variable Title

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to provide opportunities for students in health professions to experience a study abroad program that is designed to explore healthcare, culture, and clinical experience.

May be repeated 5 times with a maximum of 6 credit hours.

DENT 4890 INT - Advanced Community or Clinical Work Experience

Credits: (2)

Typically Taught Summer Semester: *Full Sem, Online*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: This course is designed to specifically meet the interests and career goals of the Dental Hygiene Degree-completion student or the student completing the Baccalaureate degree, Dental Hygiene major prior to initial licensure as a dental hygienist. The student who is completing this course as part of their BS degree, initial entry into the profession, will participate in an advanced community or clinical work experiences under the direct supervision of program faculty. The baccalaureate degree completion student must be licensed to practice dental hygiene at the site in which the work experience will take place, have successfully completed an accredited dental hygiene program, or have a work experience site that does not have direct patient care as its community role.

Pre-requisite(s): Acceptance into the BS/DH Program and consent of the instructor.

DENT 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

DENT 4990 - Seminar

Credits: (1-2)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Current concepts in dental hygiene for baccalaureate level dental hygiene students.

May be repeated once for a maximum of 2 credit hours.

DMS 4100 - Introduction to Sonography Principles and Instrumentation

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to introduce basic principles of sonographic physics and instrumentation including the production and reception of sound waves and transducers.

DMS 4110 - Sonography Principles & Instrumentation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Elementary principles, propagation through tissues, transducers, pulse echo principles and instruments, images, storage and display, Doppler, image features and artifacts, bioeffects, and safety.

DMS 4120 - Quality Assurance

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Course Fee: \$09.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Developing, analyzing and evaluating a quality assurance program.

DMS 4210 - Cardiac Sonography I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Concepts in cardiac sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4220 - Cardiac Sonography II

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Continuation of 4203.

DMS 4230 - Cardiac Sonography III

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Continuation of DMS 4220.

DMS 4240 - Fundamentals for Cardiac Sonography Certification

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS or CCI adult echocardiography certification.

DMS 4310 - Abdominal Sonography

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Concepts in abdominal intraperitoneal and retroperitoneal sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4320 - Superficial Structure and Special Study Sonography

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Concepts in superficial structure sonographic scanning technique and protocol to produce and evaluate diagnostic images in the clinical setting.

DMS 4330 - Gynecologic Sonography

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Concepts in gynecologic sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4340 - Obstetric Sonography

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Concepts in obstetric sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4350 - Fundamentals for Abdominal Sonography Certification

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS abdominal specialty certification.

DMS 4360 - Fundamentals for OB/GYN Sonography Certification

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS OB/GYN specialty certification.

DMS 4410 - Vascular Sonography I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Concepts in vascular sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4420 - Vascular Sonography II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$9.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment,

Software upgrades and Maintenance

Description: Continuation of DMS 4410.

DMS 4430 - Fundamentals for Vascular Sonography Certification

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to aid in the development of review skills and competency necessary for national certification. Faculty will act as facilitators to clarify, explain, and reiterate content specifications as standardized by certifying agencies. At the completion of this course, students will be eligible and prepared to sit for the ARDMS Vascular specialty certification.

DMS 4510 - Breast Sonography

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$3.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Concepts in breast sonographic scanning technique and protocol to produce and evaluate diagnostic images.

DMS 4610 - Cardiac Sonography - Clinical Simulation I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance.

Description: Clinical Simulation in Cardiac Sonography Labs.

DMS 4620 - Medical Sonography - Clinical Simulation I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Clinical Simulation in Medical Sonography Labs.

DMS 4621 - Medical Sonography - Clinical Simulation II

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Clinical Simulation in Medical Sonography Labs.

DMS 4622 - Medical Sonography - Clinical Simulation III

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Clinical Simulation in Medical Sonography Labs.

DMS 4630 - Cardiovascular Sonography - Clinical Simulation I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: Sonography lab supplies i.e.: table paper, transducer gel; Sonography Lab Equipment, Software upgrades and Maintenance

Description: Clinical Simulation in Vascular Sonography Labs.

DMS 4801 - Individualized Research

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Contract with faculty advisor required.

May be repeated twice with a maximum of 3 credit hours.

DMS 4811 INT - Cardiac Clinical I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A minimum of 24 hours per week in an active diagnostic cardiac sonography department.

DMS 4812 INT - Cardiac Clinical II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Description: Continuation of DMS 4811.

DMS 4813 INT - Cardiac Clinical III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Continuation of DMS 4812.

DMS 4820 - Orientation to Clinical Education

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: The purpose of this course is to provide new sonography students with an orientation to sonography in the clinical setting prior to beginning full time clinical work in the following semesters. Students will become familiar with their clinical sites, their clinical instructors and the staff with whom they will be working in future semesters. They will gain an introduction into the various sonographic exams that they will be expected to learn and perform at the completion of their program as well as an introduction to the sonographic equipment used at their assigned clinical sites.

DMS 4821 INT - Medical Clinical I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A minimum of 24 hours per week in an active diagnostic medical sonography department.

DMS 4822 INT - Medical Clinical II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Description: Continuation of DMS 4821.

DMS 4823 INT - Medical Clinical III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Continuation of DMS 4822.

DMS 4831 INT - Cardiovascular Clinical I

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A minimum of 24 hours per week in an active diagnostic cardiovascular sonography department.

DMS 4832 INT - Cardiovascular Clinical II

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Description: Continuation of DMS 4831.

DMS 4833 INT - Cardiovascular Clinical III

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Continuation of DMS 4832.

DMS 4841 INT - Breast Clinical

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: A minimum of 24 hours per week performing breast sonography examinations.

Pre-requisite(s): DMS 4510 Breast Sonography.

DMS 4911 - Cardiac Comprehensive Review

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: Review and requirements for advanced responsibilities of the cardiac sonographer.

DMS 4912 - Medical Comprehensive Review

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: Review and requirements for advanced responsibilities of the medical sonographer.

DMS 4913 - Vascular Comprehensive Review

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Description: Review and requirements for advanced responsibilities of the vascular sonographer.

DMS 4921 - Workshops, Conferences and Telecourses

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

May be repeated twice with a maximum of 3 credit hours.

ECE 1000 - Introduction to Electrical Engineering

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introductory course to Electrical & Computer Engineering topics including electronic terms, numbering systems, software tools, and documentation practices.

Pre-requisite/Co-requisite: MATH 1060 or MATH 1080 or MATH 1210 or equivalent.

Suggested Requisite(s): College algebra and trigonometry are strongly recommended.

ECE 1270 - Introduction to Electrical Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: The basics of analog circuits as an introduction to Electrical Engineering. Concepts of voltage, current, power, resistance capacitance and inductance. Circuit analysis techniques such as Kirchhoff's Laws, node voltages, and mesh currents. Thevenin's and Norton's equivalent circuits, sinusoidal steady state and phasors. (Concurrent enrollment with ENGR 1000 is not recommended.)

Lecture and lab combination.

Pre-requisite(s): MATH 1210

Pre-requisite/Co-requisite: MATH 1220 and either ECE 1000 or ENGR 1000.

ECE 1400 - Fundamentals of Engineering Computing

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Computer programming and computational tools applied to electrical and computer engineering problems. Topics include coding fundamentals, numeric libraries and debugging techniques. Lecture and lab combination.

Pre-requisite(s): MATH 1210 and either ECE 1000 or ENGR 1000.

ECE 2210 - Electrical Engineering for Non-majors

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Combined lecture/laboratory course as an introduction to electrical engineering for non-electrical engineers. Fundamentals of DC and AC circuits, digital circuits, and power circuits.

Pre-requisite(s): MATH 1210.

Pre-requisite/Co-requisite: ENGR 1000 or ECE 1000.

ECE 2260 - Circuits and Signals

Credits: (4)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Fundamental electric-circuit techniques including: time domain transient responses for 1st and 2nd order circuits, Laplace transforms, Fourier series, and filters.

Lecture and lab combination.

Pre-requisite(s): MATH 1220 and either ECE 1270 or ECE 2210.

Pre-requisite/Co-requisite: ECE 1400 and either ENGR 2240, MATH 2250 or MATH 2280.

ECE 2700 - Digital Circuits

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, and computer architecture. Introduction to hardware description language and programmable logic devices.

Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.

Pre-requisite/Co-requisite: ECE 1000 or ENGR 1000.

ECE 3000 - Engineering Seminar

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Description: An engineering seminar course designed to prepare the student for professional engineering employment. Topics to include resumes, hiring criteria, interviewing techniques, engineering ethics, professional and societal responsibilities, lifelong learning, diversity, creative problem solving, goals, quality, timeliness, and continuous improvement. The students will research related topics and write a paper.

Pre-requisite(s): ECE 1270.

Note: Admittance into the Professional Program required.

ECE 3090 - Project Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An introduction to project management. The course prepares students for Senior Projects. This course

will include 1) the writing of technical documents including project proposals, white papers, presentations and/or legal contracts. 2) Principles of project management including project scheduling, project life cycles, principles of engineering economics, quality, statistics and continuous improvement. 3) Project management skills including goal setting, team building and leadership, organization, and risk management. Students should take this course the semester before taking ECE 4010.

Pre-requisite/Co-requisite: ECE 3210 and (ECE 3110 or ECE 3130) and (ECE 3510 or ECE 3610) and (ECE 3710 or ECE 3730) and (ECE 3310 or CS 3100).

Note: Admittance into the Professional Program required.

ECE 3110 - Microelectronics I

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Fundamental semiconductor device characteristics including diodes, MOSFETs and bipolar transistors; small and large signal characteristics and design of linear circuits.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of semiconductor circuits, amplifiers and power supplies.

Pre-requisite(s): MATH 1220 and ECE 1400 and either ECE 1270 or ECE 2210.

Note: Admittance into the Professional Program required.

ECE 3120 - Microelectronics II

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Intermediate topics related to microelectronics including differential and multistage amplifiers, frequency response, feedback systems, power amplifiers, filters, and signal generation.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation, and analysis of filters and advanced circuits.

Pre-requisite(s): ECE 2260 and ECE 3110.

Note: Admittance into the Professional Program required.

ECE 3130 - Microelectronics and Instrumentation

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35

Description: Topics covered are related to microelectronics including bipolar and field-effect transistors, frequency response, feedback systems, filters, signal generation, and applications of op-amp circuits. Lecture and lab combination. Laboratory activities include the design, construction, computer simulation, and analysis of filters and advanced circuits.

Pre-requisite(s): ECE 2260.

Note: Admittance into the Professional Program is required.

ECE 3210 - Signals and Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Topics related to the analysis of linear time invariant continuous and discrete systems and signal transformations, convolution, frequency spectra, Laplace transforms, Z transforms, and fast Fourier transforms. Lecture and lab combination. Laboratory activities to include the computer simulation, analysis, and numerical modeling of signals and systems.

Pre-requisite(s): ECE 2260 and either ENGR 2240, MATH 2250 or both MATH 2270 and MATH 2280.

Note: Admittance into the Professional Program required.

ECE 3310 - Electromagnetics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: An introduction to electrostatics, magnetostatics and Maxwell's equations with specific applications to wave propagation and transmission line theory.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of RF radar subsystems.

Pre-requisite(s): MATH 2210, PHYS 2220, and either ECE 1270 or ECE 2210.

Note: Admittance into the Professional Program required.

ECE 3430 - Engineering Probability and Statistics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course covers basic concepts and techniques of probability theory with applications to statistics, machine learning, and signal processing. Topics include probabilistic modeling and analysis, confidence intervals, and statistical inference. Example problems are drawn from engineering applications and include both analytic and computational solutions.

Pre-requisite(s): ECE 1400 and MATH 1220 and either ENGR 2240 or ECE 2260.

ECE 3510 - Power Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: A study of AC and DC power systems and machines, including single and 3-phase power, power factor and correction, transformers, synchronous and induction machines, DC motors, power transmission lines, and analysis of power flow and faults. Lecture and Lab combination.

Pre-requisite(s): ECE 1270 or ECE 2210.

Note: Admittance into the Professional Program required.

ECE 3610 - Digital Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to microprocessor architecture, arithmetic logic units, memory systems, input/output interfaces, peripheral devices, and communication.

Lecture and lab combination. Laboratory activities to include the programming and operation of microprocessor

circuits.

Pre-requisite(s): ECE 2700 and (CS 2250 or CS 1410 or ECE 1400).

ECE 3620 - Microprocessor Architecture

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course focuses on the concepts of modern computer and microprocessor architecture including pipelining, caches and branch prediction. Students will gain an understanding of the key design concepts of modern computer architecture and its implications on software and hardware design.

Pre-requisite(s): ECE 3610.

Pre-requisite/Co-requisite: ECE 3710.

ECE 3710 - Embedded Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$70.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Design and implementation of a microcontroller or microprocessor embedded system including assembly language programming, interfacing to peripherals, interrupt handling and debugging techniques.

Lecture and Lab. Laboratory exercises build toward a final embedded systems project.

Pre-requisite(s): (ECE 2700 or CS 2810) and (ECE 1400 or CS 2250 or CS 1410).

Pre-requisite/Co-requisite: ENGL 2010 or ECE 3090.

ECE 3730 - Fundamentals of Robotics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Course fees are used to maintain robotic equipment and other laboratory instruments.

Description: Fundamentals of robotic systems. Introduction to the Robot Operating System and the Gazebo simulator. Topics include reading data from sensors, localization, mapping, navigation and task planning. Students will demonstrate the ability to program a provided robotic system to navigate to a position and perform a task in both simulated and real environments.

Pre-requisite(s): ECE 1400 or CS 1410.

ECE 3890 INT - Internship

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This is a core course that is required for the BS Engineering degree. The student will need department approval before being allowed to register.

Pre-requisite(s): Permission from the department.

ECE 3890 can be taken a maximum of three times for a total of three credits, but only one credit counts toward the

major.

Note: Admittance into the Professional Program required.

ECE 4010 CEL - Senior Project I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Students will be required to complete a 300-hour engineering project (over two semesters) in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations. Before seeking departmental approval, students should be **currently** enrolled in ECE 3090 and should have taken at least four 3000-level core ECE courses and either MATH 3410 or ECE 3430. Exceptions to this rule are made only if a student's graduation would otherwise be delayed.

Pre-requisite(s): Permission from the department.

Note: Admittance into the Professional Program required.

ECE 4020 CEL - Senior Project II

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: A continuation of Senior Project I. Students will be required to complete a significant engineering project in a team environment. Project management and problem solving techniques will be emphasized. Topics to include goal setting, developing milestone charts, writing contracts, conducting research, project design and construction, testing and analysis, project documentation, and design review presentations.

Pre-requisite(s): ECE 4010.

Note: Admittance into the Professional Program required.

ECE 4100 - Control Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Topics related to control theory, analysis, and testing of systems in the time domain, frequency domain and state space.

Lecture and lab combination.

Pre-requisite(s): ECE 3110 and ECE 3210.

Note: Admittance into the Professional Program required.

ECE 5110 - Digital VLSI Design

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Software licensing and maintenance of laboratory equipment.

Description: Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

Pre-requisite(s): ECE 3610 and either ECE 3110 and ECE 3130 or BME 3130.

Note: Admittance into the Professional Program required.

ECE 5120 - Analog VLSI Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: Software licensing and maintenance of laboratory equipment.

Description: Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

Pre-requisite(s): ECE 3120.

Note: Admittance into the Professional Program required.

ECE 5130 - Advanced Semiconductor Devices

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

Pre-requisite(s): PHYS 2220 and ECE 3110 and ECE 3130 or BME 3130.

Note: Admittance into the Professional Program required.

ECE 5140 - Sensors and Instrumentation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course introduces a host of sensor technologies from both theoretical and practical perspectives. A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, acoustic, and/or bio-medical. Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.

Pre-requisite(s): PHYS 2220 and ECE 3210 and either ECE 3110 or ECE 3130 or BME 3130.

ECE 5150 - Thin Film Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Thin films are shaping the future of electronic devices. Understanding how materials are grown and characterized is vital to understanding and mitigating limitations in device design. This course focuses on the

materials used to create state of the art ultra-thin device quality layers and coatings as well as how they are grown, characterized, and then used in fabrication processes for electronic devices such as transistors.

Pre-requisite(s): PHYS 2220 and (MATH 3410 or ECE 3430)

ECE 5160 - Power Electronics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: The fees associated with this course are used to provide electronic components and wire for students to build their circuits. Remaining funds, if any, are used to maintain the electronic equipment in the laboratory.

Description: Introduction to modern power conversion techniques and devices at a circuit level covering basic topologies of power converters and techniques of analyzing converter circuits. Students learn to analyze and design suitable circuits and subsystems for practical applications for AC/DC, DC/DC and DC/AC converters.

Pre-requisite(s): ECE 3120.

ECE 5170 - Advanced Materials Science and Engineering

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: The fee associated with this course is used to provide consumable materials for students and to maintain and periodically replace lab equipment.

Description: This course delves into the advanced properties, processing, and applications of advanced materials in the context of electrical engineering. Students will explore the latest developments in materials science, including nanomaterials, semiconductors, biomaterials, and smart materials. The course combines theoretical knowledge with practical applications and research methodologies.

Pre-requisite(s): ECE 3110.

ECE 5210 - Digital Signal Processing

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

Pre-requisite(s): ECE 3210.

Note: Admittance into the Professional Program required.

ECE 5220 - Image Processing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

Pre-requisite(s): ECE 3210.

Note: Admittance into the Professional Program required.

ECE 5230 - Engineering Applications in Deep Learning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.

Pre-requisite(s): ECE 3210, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270.

ECE 5310 - Radar Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Theory and practice of radar systems and signal processing used for detection, tracking, and location of targets. Topics include CW and pulsed-Doppler systems, EM wave propagation applied to the Radar Range equation. Hardware system characterization including noise, sensitivity, range resolution, ambiguity function, detection and false alarm probabilities.

Pre-requisite(s): ECE 3210, ECE 3310 and either ECE 3430 or MATH 3410.

Note: Admittance into the Professional Program required.

ECE 5320 - Antennas and Wave Propagation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

Pre-requisite(s): ECE 3310.

Note: Admittance into the Professional Program required.

ECE 5410 - Communication Circuits and Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

Note: Admittance into the Professional Program required.

ECE 5420 - Digital Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: This course provides an in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired, wireless data communication and the physical networking layer. Topics include PAM, QPSK and QAM. Spread spectrum concepts such as FHSS, DSSS, OFDM and/or MIMO may be included. Students will develop software models to emulate the concepts. The course would be beneficial particularly to students who are interested in doing work/research in fields related to communications, networks, and signal processing.

Pre-requisite(s): ECE 3210 and ECE 3430 or MATH 3410.

Note: Admittance into the Professional Program required.

ECE 5430 - Computer Networks

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course investigates the design and analysis of modern data networks using the framework of the five-layer Internet service model. Application layer services and protocols are introduced through a survey of various TCP/IP applications. The fundamentals of the transport, network and data link layers are investigated in conjunction with key network protocols. Various wired and wireless physical layers are also studied. Math models are developed and used to better understand performance issues and compare approaches.

Pre-requisite(s): ECE 3430 and ECE 3710.

ECE 5440 - Optical Communication Systems

Credits: (3)

Description: This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics, optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.

Pre-requisite(s): ECE 3310.

ECE 5510 - Advanced Power Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course will explore advanced power systems concepts.

Pre-requisite(s): ECE 3510.

Note: Admittance into the Professional Program required.

ECE 5620 - Digital System Testing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.

Pre-requisite(s): ECE 3610.

Note: Admittance into the Professional Program required.

ECE 5640 - Model-based Systems Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.

Pre-requisite(s): ECE 3610.

ECE 5710 - Real-Time Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.

Pre-requisite(s): ECE 3710.

Note: Admittance into the Professional Program required.

ECE 5730 - Robotics

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Robotic hardware design and control principles. Topics include selection and design of sensors, motor and actuator types and control, computer vision for navigation and tasks and hardware interfaces to sensors. Use of the Robot Operating System to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Use of the Gazebo simulation environment to validate designs before implementation.

Pre-requisite(s): ECE 3730 and ECE 4100.

ECE 5750 - Quantum Computer Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.

Pre-requisite(s): ECE 2700, PHYS 2220, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270 .

ECE 5800 - Individual Studies

Credits: (1-4)

Description: The students will receive credit for approved studies in the Electrical & Computer Engineering programs. A maximum of four credits can count as an elective course in the Electrical & Computer Engineering programs.

May be repeated four times for a maximum of four credit hours.

Note: Admittance into the Professional Program required.

ECE 5900 - Special Topics

Credits: (1-4)

Variable Title

Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs.

Lecture and lab combination. Laboratory activities support the selected course topic.

May be repeated three times for a maximum of nine credit hours.

Note: A maximum of four credits can be counted for the Electrical & Computer Engineering programs. Admittance into the Professional Program required.

ECE 6010 - Design Project

Credits: (2-6)

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Students are required to complete a substantial engineering design project. Students must demonstrate proficiency in research, design, analysis, project planning, implementation, testing, presentation and documentation. Students receive T (temporary) grades until their final design review, after which these grades are changed retroactively. Students must be enrolled in ECE 6010 at the time of their final design review. This course may be repeated.

Pre-requisite(s): Permission from the department.

May be repeated 11 times for a maximum of 20 credit hours.

ECE 6020 - Thesis

Credits: (2-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students are required to perform original research that results in a thesis under the direction of a faculty advisor. Students receive T (temporary) grades until their thesis defense, after which these grades are changed retroactively. Students must be enrolled in ECE 6020 at the time of their thesis defense.

Pre-requisite(s): Permission from the department.

This course may be taken 3 times and up to 9 credits.

ECE 6110 - Digital VLSI Design

Credits: (3)

Course Fee: \$100.00

Course Fee Purpose: Software licensing and maintenance of laboratory equipment.

Description: Introduction to Digital VLSI design. Includes the development of standard cell library of common CMOS circuits. Use of hardware description language and CAD tools for the design and simulation of custom large-scale digital systems. Students will understand the impacts and tradeoffs from speed, power consumption, and thermal properties of large-scale custom ICs.

Pre-requisite(s): ECE 3610 and either ECE 3110 and ECE 3130 or BME 3130.

ECE 6120 - Analog VLSI Design

Credits: (3)

Course Fee: \$100.00

Course Fee Purpose: Software licensing and maintenance of laboratory equipment.

Description:

Design of analog VLSI systems. Course includes design, modeling, and verification of analog circuits in large-scale systems. Students will develop custom analog system designs utilizing CAD programs.

Pre-requisite(s): ECE 3120.

ECE 6130 - Advanced Semiconductor Devices

Credits: (3)

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Introduction to advanced semiconductor physics and devices. Topics include carrier transport theory, energy band diagrams, PN junctions, metal-semiconductor junctions, BJTs and MOSFETs. Study of current semiconductor process technologies and discussion of off-roadmap technologies.

Pre-requisite(s): PHYS 2220 and either ECE 3110 and ECE 3130 or BME 3130.

ECE 6140 - Sensors and Instrumentation

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course introduces a host of sensor technologies from both theoretical and practical perspectives.

A study of the electronics for sensor signal conditioning will be complemented by lectures on the principles and operation of various sensor modalities including pressure, thermal, strain, displacement, inertial, magnetic field, optical, coustic, and/or bio-medical. Students will be introduced to precision analog circuit architectures, noise analysis, and signal processing algorithms commonly used in data acquisition systems.

Pre-requisite(s): ECE 3210 and either ECE 3110 or ECE 3130 or BME 3130.

ECE 6150 - Thin Film Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Thin films are shaping the future of electronic devices. Understanding how materials are grown and characterized is vital to understanding and mitigating limitations in device design. This course focuses on the materials used to create state of the art ultra-thin device quality layers and coatings as well as how they are grown, characterized, and then used in fabrication processes for electronic devices such as transistors.

Pre-requisite(s): PHYS 2220 and (MATH 3410 or ECE 3430)

ECE 6160 - Power Electronics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: The fees associated with this course are used to provide electronic components and wire for students to build their circuits. Remaining funds, if any, are used to maintain the electronic equipment in the laboratory.

Description: Introduction to modern power conversion techniques and devices at a circuit level covering basic topologies of power converters and techniques of analyzing converter circuits. Students learn to analyze and design suitable circuits and subsystems for practical applications for AC/DC, DC/DC and DC/AC converters.

ECE 6170 - Advanced Materials Science and Engineering

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: The fee associated with this course is used to provide consumable materials for students and to maintain and periodically replace lab equipment.

Description: This course delves into the advanced properties, processing, and applications of advanced materials in the context of electrical engineering. Students will explore the latest developments in materials science, including nanomaterials, semiconductors, biomaterials, and smart materials. The course combines theoretical knowledge with practical applications and research methodologies.

ECE 6210 - Digital Signal Processing

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Theory, application, and implementation of digital signal processing (DSP) concepts, from the design and implementation perspective. Topics include: Fast Fourier transforms, adaptive filters, state-space algorithms, random signals, and spectral estimation.

Pre-requisite(s): ECE 3210.

ECE 6220 - Image Processing

Credits: (3)

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: Advanced image processing theory and methods. Topics include digital image formation, transformation, filtering, enhancements, segmentation and morphological processing. Lectures, computer assignments and project (including term paper).

Pre-requisite(s): ECE 3210.

ECE 6230 - Engineering Applications in Deep Learning

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course covers deep learning architectures with a focus on learning end-to-end models for these tasks, particularly image and signal processing. Students will learn to implement, train and debug their own deep neural networks and gain a detailed understanding of cutting-edge research in this field. Strong emphasis will be placed on real-world applications for both solving engineering problems using these methods as well as practical techniques for training and fine-tuning the networks. Case studies will be drawn from medical imaging, semiconductors, and audio signal processing.

Pre-requisite(s): ECE 3210, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270.

ECE 6310 - Electromagnetics II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: A study of intermediate electromagnetic issues common to circuits, systems, and communication networks.

Pre-requisite(s): ECE 3310.

ECE 6320 - Antennas and Wave Propagation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Behavior of radiated electromagnetic waves in atmosphere, space, urban and indoor environments; path, frequency and antenna selection for practical communication systems; propagation prediction.

Pre-requisite(s): ECE 3310.

ECE 6410 - Communication Circuits and Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: A study of communication circuits, modulation and decoding theory, spectrum usage, networks, and protocols.

Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

ECE 6420 - Digital Communication

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: This course provides in-depth coverage of the theory, analysis, and design of digital communications systems with an emphasis on advanced topics related to wired and wireless data communication. Students will develop computer models to emulate the concepts. The course is particularly beneficial to students interested in doing work/research in fields related to communications and networking.

Pre-requisite(s): ECE 3210 and either ECE 3430 or MATH 3410.

ECE 6440 - Optical Communication Systems

Credits: (3)

Description: This course covers the fundamentals of optical communication. Topics include wave propagation in fiber optics, optical transmitters and receivers, system design and performance, multichannel lightwave systems, optical losses and loss management, fiber dispersion and dispersion management.

Pre-requisite(s): ECE 3310.

ECE 6510 - Advanced Power Systems

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course will explore advanced power systems concepts.

Pre-requisite(s): ECE 3510.

ECE 6620 - Digital System Testing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Fundamentals of testing digital circuits and memory devices, including fault modeling, test pattern generation, and test coverage. Introduction to design for test and built-in self-test. Laboratory activities include performing bench and automated testing of digital and memory chips, and generating test patterns for fault detection.
Pre-requisite(s): ECE 3610.

ECE 6640 - Model-Based Systems Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course is an introduction to the use of formal models to describe complex electrical systems. Topics include modeling tools, design, verification and testing of model-based systems, model validation and verification, and the use of state-machines in models.

Pre-requisite(s): ECE 3610.

ECE 6710 - Real-Time Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Maintenance of laboratory equipment.

Description: An advanced course on real-time system design. Topics include task concurrency, scheduling paradigms, synchronization, resource access control, and inter-process communication. Lecture and Lab combination.

Pre-requisite(s): ECE 3710 or CS 3100.

ECE 6730 - Robotics

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Robotic hardware design and control principles. Topics include selection and design of sensors, motor and actuator types and control, computer vision for navigation and tasks and hardware interfaces to sensors. Use of the Robot Operating System to interface and fuse data from various sensors such as LIDAR, Inertial measurement units, compass and physical and visual odometry for navigation and control. Use of the Gazebo simulation environment to validate designs before implementation.

Pre-requisite(s): ECE 3730 and ECE 4100.

ECE 6750 - Quantum Computer Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Overview of quantum computer engineering. How quantum computers are fundamentally different from classical computers. Key applications of quantum computers. Topics include qubits, entanglement, EPR paradox, Bell's theorem, Bloch sphere, single-qubit gates, multi-qubit gates, Shor's algorithm, Simon's algorithm. Also covers physical realizations of a quantum computer: photons, polarization, and decoherence.

Pre-requisite(s): ECE 3610, ECE 2700, PHYS 2220, either ECE 3430 or MATH 3410, and either ENGR 2240 or MATH 2250 or MATH 2270, MATH 3410.

ECE 6800 - Individual Studies

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students taking this course will receive credit for approved, mentored studies in the Master of Science in Electrical Engineering (MSEE) and Master of Science in Computer Engineering (MSCE) programs. A maximum of three credits may be counted toward graduation.

Pre-requisite(s): Permission from the department.

ECE 6900 - Special Topics

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the Electrical & Computer Engineering programs. Lecture or lecture and lab combination. Laboratory activities support the selected course topic.

May be repeated 10 times and up to 12 credit hours.

ECED 2110 - Self-Compassion for Sustaining Work with Children

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Description: This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing difficult circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

ECED 2500 - Development of the Child

Credits: (3)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course examines contemporary theory and research of growth and development from conception through childhood, studied in the context of family, gender, culture, language, disability, socioeconomics, and society.

ECED 2600 - Introduction to Early Childhood Education & Care

Credits: (3)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Course Fee: \$50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: This course examines the historical philosophical, ethical and cultural roots and contemporary early childhood education practice with children birth-8 years.

3 hours lecture per week and 12 hours field observation.

ECED 2610 - Child Guidance

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with

this course.

Description: This course focuses on the understanding and use of developmentally, culturally, and linguistically appropriate guidance practices to make evidence-based, data-informed decisions that support each child. Students complete a minimum of 24 hours of field experience observing and practicing in an early learning setting serving diverse populations of children 0-8 years.

Pre-requisite/Co-requisite: CHF 1500.

ECED 2620 - Planning Creative Experiences for Young Children

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: Development of attitudes, materials, and skills needed to plan and teach age, individually, and culturally appropriate curriculum for young children. Students complete a minimum of 24 hours practicum arranged by the instructor.

Pre-requisite(s): CHF 1500 and ECED 2610.

Pre-requisite/Co-requisite: ECED 2500, ECED 2600.

ECED 2640 - Collaborating with Families of Young Children.

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with families of young children birth to age 8.

Pre-requisite(s): CHF 1500.

ECED 2670 - Early Childhood Integrated Curriculum and Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Course Fee: \$50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content across content disciplines. Students will design meaningful curriculum content for children (birth through age 8) based on accepted learning standards in each content area.

Pre-requisite(s): ECED 2600.

ECED 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ECED 2830 - Directed Readings

Credits: (1-3)**Typically Taught Summer Semester:** *Full Sem***Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** Individually chosen readings on specialized topics supervised by a faculty member.**Pre-requisite(s):** Consent of faculty supervisor prior to registration.

May be repeated up to 3 credit hours.

ECED 2850 - Child Development Associate Training**Credits: (2)****Description:** Understanding child development concepts and applying them to teaching situations with young children. The Professional Resource File in preparation for National Child Development Associate Credential (CDA) is compiled during the course.

Note: This course is not currently offered.

ECED 2860 INT - Practicum in Early Childhood**Credits: (1-6)****Typically Taught Fall Semester:** *Full Sem-Online***Typically Taught Spring Semester:** *Full Sem-Online***Course Fee:** \$50.00**Course Fee Purpose:** This course fee will be used to provide coaching support for field experiences associated with this course.**Description:** Students apply professional knowledge, skills, and competencies needed to work with young children birth to 8 years old and their families. Students complete a minimum of 45 hours/credit supervised in an early childhood setting that must be approved by the instructor.**Pre-requisite(s):** For Early Childhood majors: CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620, or consent of faculty advisor prior to registration.**Co-Requisite(s):** ECED 2990.**Pre-requisite/Co-requisite:** ECED 2670, ECED 2640.

May be repeated up to 6 credit hours.

ECED 2890 INT - Internship in Early Childhood**Credits: (1-6)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$50.00**Course Fee Purpose:** This course fee will be used to provide coaching support for field experiences associated with this course.**Description:** Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation for progress are including in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings.**Pre-requisite(s):** Consent of faculty advisor.**ECED 2910 - Children & Families: Variable Titles****Credits: (1-3)****Variable Title**

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: An examination of the conceptual knowledge, research, theory and applied skills on specific topics for early childhood and family life educators such as, becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.

Suggested Requisite(s): ECED 2500, ECED 2600, ECED 2610, ECED 2620.

ECED 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is taught as needed.

ECED 2990 - Seminar in Early Childhood Education

Credits: (1)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: Students synthesize, document, and evaluate professional competencies in their career portfolio, create a resume, practice professional skill articulation, and complete career readiness professional development.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.

Pre-requisite/Co-requisite: ECED 2860.

ECED 3145 - Educational Psychology, Child Development, and Classroom Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course examines historical and contemporary perspectives in educational psychology, child development and guidance, and classroom management for kindergarten through 8th grade, with a focus on translating theory to practice within diverse communities of learners. It is part of Elementary Education Level I and includes an integrated field experience.

ECED 3500 - Young Children: Adversity and Resilience

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course examines varying perspectives on the contexts and systems that effect the potential advantages or adversities experienced by young children in a diverse society. Students develop an awareness of opportunities and resources for children and families that support well-being and nurture resilience. Students explore current topics of interest to find their passion and voice to advocate for children and families.

ECED 3570 - Infants and Toddlers: Development and Practice

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course provides an in-depth study of physical, cognitive, language, social, and emotional

development from prenatal period through toddlerhood. Practical application and assessment play an integral part of the course. Students will be introduced to observation, early intervention, and relationship-based care in diverse settings. Students complete a minimum of 24 hours practicum arranged by the instructor.

Pre-requisite(s): CHF 1500.

ECED 3620 - Curriculum Planning for Kindergarten

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An introduction to planning curriculum in kindergarten with an emphasis on design of learning environments and curriculum that are developmentally appropriate and evidence based. Students complete a minimum of 24 hours practicum. Student are required to complete a background check by the beginning of the semester.

Pre-requisite(s): CHF 1500; ECED 2500; ECED 2610.

ECED 3640 - Collaborating with Families of Young Children

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course explores culturally sustaining philosophies, processes, and methods of relational ethical practice for collaborating with diverse families of young children.

Pre-requisite(s): CHF 1500.

Suggested Requisite(s): Pre-requisite: ECED 2610 and ECED 3500. Co-requisite: ECED 4710 and ECED 4720.

ECED 3680 - Teaching Experience in the Preschool

Credits: (3)

Description: Provides students an opportunity to be an assistant teacher, to observe and interact with children on an individual and group basis; plan, develop, and implement activities for children.

Pre-requisite(s): CHF 1500, ECED 2610 and ECED 2620, or consent of instructor.

Note: This course is not currently offered.

ECED 4110 - Self-Compassion for Sustaining Work with Children

Credits: (2)

Typically Taught Fall Semester: *Full Sem-Online*

Description: This course examines ways to cultivate and sustain capacity for responding to the strengths and needs of all children, particularly those experiencing diverse circumstances and trauma, while attending to the physical, emotional, and mental stress professionals may be experiencing.

ECED 4130 - Language Development and Emergent Literacy in Early Childhood

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course explores current theory, research, and evidence based practices for promoting early language and emergent literacy development (birth 8 years) in home, child care, prekindergarten, and primary education environments through collaborative practices between early childhood professionals and parents.

Pre-requisite(s): CHF 1500.

ECED 4201 - Coaching EC/ECE Professionals: Foundation & Organization of Coaching Application: Organization & Self Reflection

Credits: (3)**Typically Taught Spring Semester:** *Full Sem odd years*

Description: Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources and program experiences. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include interpersonal communication skills and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Coaching skills will apply to any EC/ECE curriculum or model. This is course 1 in a three course series for the Utah Coaching Credential.

ECED 4202 - Coaching EC/ECE Professionals: Connecting Awareness with Application & Deepening of Practice**Credits: (3)****Typically Taught Summer Semester:** *Full Sem*

Description: Becoming an effective coach is a result of introspection, thoughtful planning, application of coaching skills and knowledge, and continuous self-improvement. This course will identify effective ongoing support strategies for individuals providing coaching. Participants will integrate skills with effective application in real life coaching experiences. Discussions will include self-reflective practices, self-directed action, planning and goal setting, and managing progress and accountability. Students will apply these strategies to case studies and real life experiences throughout the course. Students will be encouraged to engage in self-reflection and share ideas, successes, and challenges with other students in this course. This is course 2 in a three course series for the Utah Coaching Credential.

Pre-requisite(s): ECED 4201/GSE 6201 or instructor permission.

ECED 4203 - Coaching EC/ECE Professionals: Attuning for Personal and Organizational Change**Credits: (3)****Typically Taught Fall Semester:** *Full Sem*

Description: The success of the educator coaching relationship has been based on the trusting relationship between two peers, coach, and adult learner, through a collaborative process of co-learning. The opportunity for the adult learner to self-monitor, self-analyze, and self-modify enhances the adult learner's own resourcefulness and alters his/her own personal understanding. In addition, when the act of coaching is a collaborative process, the coach is also allowed the same opportunity to reflect on self as part of their learning. This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Participants will integrate skills from Course 1 and 2 with opportunities to engage in conducting and constructing ongoing support strategies the coach can apply, refine and alter based on the adult learners' needs, readiness, and values about practice. Using strategies and protocols, coaching for organizational change in diverse settings (home-based programming, early care settings, classrooms, and school districts, etc.), and identifying effective ongoing personal supports will also be addressed. Students will apply these strategies to case studies and real life experiences throughout the course. This is course 3 of a three course series for the Utah Coaching Credential.

Pre-requisite(s): ECED 4201/GSE 6201 and ECED 4202/GSE 6202 or instructor permission.

ECED 4220 - Understanding Children Beyond Behavior**Credits: (3)****Typically Taught Fall Semester:** *Full Sem*

Description: This course provides a foundation for understanding and engaging with children's behavior and needs in school, home, and community settings, toward new and relational understandings of children, child development, and difference. While studying theories and research from fields of neuroscience, psychoanalysis, Disability Studies in

Education, and critical perspectives in early childhood education, students will practice therapeutic techniques for observation and engagement with children and families.

ECED 4230 - Observing and Assessing Children in Context

Credits: (3)

Typically Taught Fall Semester: *Full Sem-Online*

Typically Taught Spring Semester: *Full Sem-Online*

Description: This course provides students with knowledge and skills to use observation, documentation, and assessment tools to inform instruction, planning, and intervention programs for young children birth through eight years. Special attention is given to contextualized assessment practices that are responsive to children's strengths, needs, cultures, races, languages, and family experiences.

Suggested Requisite(s): Prerequisite ECED 2500, ECED 2610, ECED 2620; Corequisite ECED 4710, ECED 4720.

ECED 4250 - Inclusive Early Childhood Intervention and Special Education

Credits: (3)

Typically Taught Summer Semester: *1st Block, 1st Block Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: Students will explore and apply current theory and practice in critical special education, Disability Studies in Education, and infant and child mental health for supporting young children (birth-age 8) with disabilities by supporting caregiver-child relationships in family, early childhood community and classroom environments. Students will gain an understanding of applicable history, laws and policies around inclusive education and special education service provision to effectively and equitably collaborate with children, families, and service providers in public and private settings in ways that sustain the rights and cultures of individual children and families, and of disability communities.

ECED 4260 - Inclusive Early Childhood Curriculum

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Critical issues, theories, research, and practice in curriculum for inclusive early childhood education. The goal of this course is to assist students in planning, implementing, and evaluating curriculum that is accessible and culturally sustaining for diverse children and families. Students will be challenged to develop and articulate their own philosophies on what should be taught to young children and why.

ECED 4270 - Young Children's Play

Credits: (3)

Typically Taught Summer Semester: *1st Block, 1st Block Online*

Description: This course focuses on the active joyful nature of young children's play, therapeutic and educational value, and how play may vary for children experiencing diverse abilities, circumstances and cultural backgrounds. Students will gain practical strategies for supporting the play of all children.

ECED 4510 - Contemporary Issues in Planning for Children

Credits: (1-3)

Variable Title

Description: An in-depth study of a contemporary issue in childhood. In some cases, this course may substitute for one of the minor requirements when it has received prior approval from a department advisor.

May be repeated up to 3 credit hours.

Note: This course is not currently offered.

ECED 4670 - STEM in Early Childhood

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: This course fee will be used to provide coaching support for field experiences associated with this course.

Description: The purpose of this course is to build on a foundation of knowledge of developmentally appropriate practice for teaching integrated content in the disciplines of science, technology, engineering, and math (STEM) in early childhood settings. Fundamental approaches to learning will be employed to integrate learning across these disciplines. Students will develop meaningful curriculum content through hands-on learning experiences designed for children (birth through age 8) based on accepted learning standards in each content area.

Pre-requisite(s): ECED 2600, ECED 2610.

Pre-requisite/Co-requisite: ECED 2620.

ECED 4710 - Advanced Guidance and Planning for Early Childhood Education

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A synthesis of guidance and planning with an emphasis on assessment, appropriate objectives and strategies for individual and specific groups of children. Requires both lecture and lab time.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.

Co-Requisite(s): Students majoring in EC, ECE, or taking an early childhood specialization with their K-6 license will register for the section that is offered the first 5 weeks of the semester, and take it concurrently with ECED 4720.

Pre-requisite/Co-requisite: ECED 3640.

ECED 4720 INT - Student Teaching Birth-5

Credits: (6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Student teaching provides a full-time 16-week, immersion experience. Students are placed in the Weber State University Melba S. Lehner Children's School or an approved off-campus pre-kindergarten classroom and spend the entire semester there. The focus is the study of developmentally appropriate practices using NAEYC professional standards for children birth to 5 years. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the pre-K early childhood classroom. Supervision is provided by university supervisor and field-based professionals.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, and ECED 2620.

Co-Requisite(s): To be taken concurrently with ECED 4710.

Pre-requisite/Co-requisite: ECED 3640.

Suggested Requisite(s): Search

May be repeated 2 times up to 9 credit hours.

ECED 4721 INT - Student Teaching K-3

Credits: (3-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Student teaching supervision stipend and mileage.

Description: Students are placed in a public school K-3 classroom to teach a minimum of 60 contract days. The focus is to meet expectations of the Utah Effective Teaching Standards (UETS) and the NAEYC Professional Standards and Competencies for Early Childhood Educators. During student teaching, students steadily increase their leadership in classroom responsibilities including curriculum development in math, science, language arts, and social studies; classroom design; child guidance; assessment; family involvement; health and safety; and the development of a professional role in the public school early childhood classroom. Supervision is provided by university supervisors and field-based professionals to support mastery of knowledge, skills, and dispositions required for Utah Educator License in Early Childhood Education (Pre-Kindergarten - Grade 3).

Pre-requisite(s): ECED 4720.

May be repeated two times for a total of 6 credits.

ECED 4730 - Early Childhood/Early Childhood Education Program Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course prepares students with skills specific to leadership roles in early childhood education programs including: professional ethics, ensuring the health and safety of children, ongoing quality improvement, program leadership, planning, and management. Content and skills focus on practices endorsed by the National Association for the Education of Young Children (NAEYC) and are aligned with the NAEYC Standards for Early Childhood Professional Preparation Programs.

Pre-requisite(s): ECED 2600, ECED 2610, ECED 2620, or consent of the instructor, and concurrent or prior enrollment in ECED 4710 and ECED 4720.

ECED 4800 - Individual Research

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Supervised projects and primary research in various areas of Child and Family Studies. Limited to advanced students upon consent of faculty supervisor.

May be repeated up to 6 credit hours.

ECED 4810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ECED 4820 - Child Observation Seminar

Credits: (1)

Typically Taught Summer Semester: *1st Block Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The Child Observation Seminar is a small group reflective practice seminar. Students meet weekly to view and discuss video clips from work with young children in school, home, or community settings. Groups are facilitated to support early childhood professionals in feeling and awareness in their subjective emotional present, toward new experiences of themselves with children, families, and fellow early childhood professionals that may transform their work.

ECED 4830 - Directed Readings

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individually chosen readings on specialized topics supervised by a faculty member. Credit for this course towards a Child and Family Studies major or minor will only be accepted when the course is completed with a grade of B- or better.

Pre-requisite(s): Consent of faculty supervisor prior to registration.

May be repeated up to 3 credit hours.

ECED 4850 - Integrated ECE K-3 Student Teaching Seminar and Sythesis

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: This course will provide preparation and support for your pedagogical practice. Collaborative and topical seminars will emphasize on-going discussions and support on the pedagogical practice assessment, as well as topics such as classroom management, student engagement, ethics, and preparing a professional career file.

Pre-requisite(s): EDUC 3240.

Co-Requisite(s): ECED 4721.

ECED 4860 INT - Practicum in Early Childhood

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students apply knowledge, skills, and competencies needed to plan and teach a culturally appropriate curriculum for young children. The practicum requires 45 field experience hours for each credit hour registered. A background check is required for all early childhood field experiences. Consent of instructor or faculty advisor is required prior to registration.

Pre-requisite(s): CHF 1500, ECED 2500, ECED 2600, ECED 2610, ECED 2620 and ECED 3640.

Suggested Requisite(s): Can be taken concurrently with ECED 4710 and ECED 4720.

May be repeated up to 6 credit hours.

ECED 4861 INT - Practicum in K-3

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: This course fee will be used to cover costs for providing coaching support for field experiences associated with this course including onsite classroom observations.

Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the early elementary grades (K-3) working with an experienced teacher. Students will focus on integrating pedagogical approaches and discipline specific content related to the courses taken concurrently with the practicum. *In ECE Block 1 students are required to complete 30 field experience/practicum hours in an early elementary classroom (K-3, preferably K or 1st) for 1 credit. In ECE Block 2 students are required to complete 60 field experience/practicum hours in an early elementary classroom (K-3, preferably 2nd or 3rd) for 2 credits.*

Pre-requisite(s): ECED 2620.

ECED 4890 INT - Internship in Early Childhood

Credits: (1-6)**Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$50.00**Course Fee Purpose:** This course fee will be used to provide coaching support for field experiences associated with this course.**Description:** Provides academic credit for on-the-job learning experience as a bridge to becoming a professional in the early childhood field. Ethical conduct related to working with children and families will be studied. Professional activities will include goal setting, strategies, and documentation of progress are included in a final Professional Development Integrated Statement. Students arrange their own field placement in a professional setting with the help of the instructor. 120 field experience hours are required for 3 credits (40 hours/credit). Prior consent of the faculty instructor is required. A background check will be required for work in most early childhood settings. 3-credits are required for Early Childhood BS majors.**Pre-requisite(s):** For Early Childhood BS majors: ECED 4710 and ECED 4720, or consent of faculty supervisor.**ECED 4900 - Career Strategy Seminar****Credits: (1)****Description:** Open to first semester Juniors through first semester Seniors in all academic schools. Course objectives are to help students develop a career strategy to meet expected career goals, i.e., acquire a career position or successfully prepare for graduate school acceptance.

Note: This course is not currently offered.

ECED 4910 - Children & Families: Variable Titles**Credits: (1-3)****Variable****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** An in-depth examination of the conceptual knowledge, research, theory and applied skills investigating specific topics for early childhood and family life educators such as becoming a teacher leader, observation and assessment, children's health and well-being, infant mental health, or trauma informed care and teaching.**ECED 4920 - Short Courses, Workshops, Institutes, and Special Programs****Credits: (1-6)****Workshop****Description:** Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is taught as needed.

ECED 4980 - Early Childhood Senior Synthesis Seminar**Credits: (1)****Description:** Synthesis of Early Childhood/Elementary Education program of study with specific emphasis on beginning a professional career in teaching. Senior project not required.**Suggested Requisite(s):** To be taken concurrently with student teaching.

Note: This course is not currently offered.

ECED 4990 - Seminar in Early Childhood Education

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This is an Early Childhood Education capstone course in which students synthesize and demonstrate learning outcomes expected for all ECE professional standards and competencies.

Pre-requisite(s): ECED 2500, ECED 2600, and ECED 3500 or instructor's consent.

Pre-requisite/Co-requisite: ECED 3640, ECED 4710, and ECED 4720.

ECON 1010 SS - Economics as a Social Science

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An introduction to basic economic institutions and principles of economics for non-business and non-economics majors. The primary objective of the course is to provide a framework of economic approaches useful in the analysis of social problems. Topics include poverty, economic systems, crime, pollution, health, discrimination, unemployment, inflation, and the role of government in the economy.

ECON 1100 SS - Environmental Issues and Economic Policy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: An analysis of policies which affect environmental resources. Emphasis on economic analysis of renewable and nonrenewable resources, pollution, and public policy. This course demonstrates economic solutions to environmental problems, and the role economics plays in designing environmental policy.

Note: Check with department for course availability.

ECON 1740 AI - Economic History of the United States

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A critical study of the history of the American Economy, significant events, fundamental principles of a market economy, interactions between government and the market economy, and the evolution of fundamental economic institutions.

ECON 2010 SS - Principles of Microeconomics

Credits: (3)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Course Fee: \$4.00

Course Fee Purpose: Helps fund the GSBE Peer Tutoring Center. Paying wages for tutors and replacement of equipment and furniture.

Description: The application of economic concepts to the analysis of scarcity of individual, firm, and organizational behavior. Topic coverage includes the theories of how consumers and firms make choices, and how various rules guide their respective decisions. The course also explores the theory of market structures, such as perfect and imperfect competition, as well as monopoly.

Pre-requisite(s): Earn a "C" or better in MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a

prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2020 SS - Principles of Macroeconomics

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$4.00

Course Fee Purpose: Help fund the GSBE Peer Tutoring Center, paying for wages for tutors and replacement of equipment and furniture.

Description: Analyzes human behavior and choices as they relate to the entire economy, with specific focus on national income measurement, unemployment, inflation, business cycles, global trade, and economic growth. Implications of different government policies, e.g., changes in taxation, government spending, money supply or interest rates for a stable economy and steady growth are explored.

Pre-requisite(s): Earn a "C" or better in ECON 1010, MATH 1010, MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1010, MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 23 or higher on Math ACT or; score of 55 or higher on ALEKS.

ECON 2899 - Economics Foundations Check

Credits: (0)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: Completion of ECON 2899 is required of all non-business Economics students pursuing any Bachelor of Science, Associate of Science, or minors awarded by the John B. Goddard School of Business & Economics. The course checks if you have declared a major in GSBE, if you have passed ENGL 2010 or ENGL 2015, MATH 1050 or MATH 1090 (or their equivalent), and all Business Foundations courses with a C or higher, and if you are in good academic standing. *Credit/No credit.*

Pre-requisite(s): Earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

Pre-requisite/Co-requisite: (ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600.

Suggested Requisite(s): Students should register for this course concurrent with (same semester as) their last Economics Foundation course(s) ((ENGL 2015 or ENGL 2015) and ECON 2010 and ECON 2020 and QUAN 2600) or after the required Economics Foundation courses have been completed.

ECON 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

ECON 3030 - Managerial Economics

Credits: (3)

Description: This course uses the tools of differential calculus and regression theory to analyze the managerial decisions of individual firms.

Pre-requisite(s): MATH 1050, QUAN 2600, QUAN 3610.

Note: Course not currently being offered.

ECON 3090 - History of Economic Thought**Credits: (3)**

Description: This course covers the major concepts and contributions of the scholars of the past in economic doctrine and interpretations.

Pre-requisite(s): ECON 2010, ECON 2020, and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 3110 - International Trade**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An introduction to the pure theory of trade, international trade agreements and negotiations (e.g., GATT, EU and NAFTA) and the institutions designed to encourage trade. Emphasis on the benefits of free trade as well as the reasons for the existence of trade barriers such as tariffs and quotas. Special topics include trade in agricultural products and international labor migration.

Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3120 GLB - International Finance and Monetary Systems**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Applications of the principle of economics to the international monetary system. Special emphasis on the way in which international monetary institutions can facilitate trade. Macroeconomic models of an open economy are used to examine the effect that international trade and financial ties have on the domestic economy. Special topics include institutions such as the World Bank and the IMF, along with regional monetary unification in Europe.

Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3150 - Business Studies Abroad-International Finance**Credits: (3)**

Description: This course studies the globalization of financial markets and the environment in which international finance takes place, e.g., the international monetary system. With this background, a global financial strategy design for corporations will be discussed. This course is taught at Fachhochschule Hof, Germany during each fall semester. Students enrolled in this course have to participate in the Study Abroad Program (Contact: Doris Geide-Stevenson, ext. 7634, dgsteven@weber.edu).

Note: Check with department for course availability.

ECON 3200 - Money and Banking

Credits: (3)**Typically Taught Spring Semester:** *Full Sem*

Description: This course presents a detailed description and economic analysis of the U.S. financial system which includes the banking industry, bond and stock markets, and the Federal Reserve system. This course serves as an extension to the material covered in an introductory macroeconomics course. The enhanced understanding of the workings of the financial system, including the determination of interest rates, will be used to trace out the channels of monetary policy as conducted by the Federal Reserve and the effect of monetary policy on financial markets, such as the stock market.

Pre-requisite(s): ECON 2010 and ECON 2020, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3300 - Environmental Economics**Credits: (3)****Typically Taught Spring Semester:** *-Every Other - Full Sem*

Description: Environmental Economics applies economic concepts to environmental and resource topics. We will use both standard economic and ecological analyses. Specific topics include externalities, public goods, environmental accounting, nonrenewable and renewable resource use, pollution, and climate change.

Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3400 - Labor Economics**Credits: (3)****Typically Taught Spring Semester:** *Full Sem*

Description: The study of labor economics explores choices made by the two sides of the labor market, employers and workers and how these choices interact in determining wage and employment levels. Hence, an important part of the course consists of a detailed analysis of labor demand and supply. This analysis is followed by a discussion of why the labor market often does not clear, i.e., why we observe unemployment. The analysis focuses on special features of the labor market such as minimum wage, labor unions and efficiency wages. Other topics include the effect of education and training on earnings, the optimal incentive structure of an employment contract and determinants of income inequality.

Pre-requisite(s): ECON 2010, and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 3410 - Women in the World Economy**Credits: (3)**

Description: Applications of the principles of economics to the analysis of the economic status of women in the U.S. and elsewhere. The focus is on labor markets, income differentials, the tax system and household work. Special consideration is given to women in developing economies.

Pre-requisite(s): ECON 2010 and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 4010 - Intermediate Microeconomic Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The application of economic concepts to individual and firm behavior, consumer behavior, demand analysis, economics of the firm, and price theory.

Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS.

ECON 4020 - Intermediate Macroeconomic Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The building of standard models to test theories of long-run economic performance and short-term fluctuations in closed and open economies. Emphasis is placed on how fiscal and monetary policies encourage long-run growth while mitigating the negative effects of short-term fluctuations.

Pre-requisite(s): ECON 2010 and ECON 2020 and (QUAN 2400 or MATH 1210) and (BSAD 2899 or ECON 2899).

ECON 4170 - Economic Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: The application of economic principles to the challenging problems of third world and developing nations including Africa, Asia, Latin America and the newly independent states of the Former Soviet Union and Eastern Europe.

Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4320 - Industrial Organization

Credits: (3)

Description: The theory and performance of firms and industries in the context of substantial market power and market regulation. Emphasis on oligopoly, game theory, and theory of markets within the context of global market competition.

Pre-requisite(s): QUAN 2400 or ECON 3030, ECON 2010.

Note: Course not currently being offered.

ECON 4330 - Game Theory

Credits: (3)

Typically Taught Fall Semester: *Every Other - Full Sem*

Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit.

Pre-requisite(s): ECON 2010 and ECON 2020 and earn a "C" or better in MATH 1050, MATH 1080, MATH 1090, or MATH 1210 or; earn a "C" or better in any math course for which either MATH 1050, MATH 1080, or MATH 1090 is a prerequisite or; score 3 or higher on AP Calculus exam or; score 70 or higher on ACCUPLACER College Level Math (CLM) or; score of 26 or higher on Math ACT or; score of 65 or higher on ALEKS*.

ECON 4520 - Public Finance

Credits: (3)

Description: This course covers the aspects of economic policy that arise in the operations of a public budget. Topics addressed include economic theories of bureaucracy, public expenditures, and taxation.

Pre-requisite(s): ECON 2010, ECON 2020 and MATH 1050 or MATH 1080 or MATH 1210.

Note: Course not currently being offered.

ECON 4550 - Introduction to Econometrics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Advanced Regression Analysis. Topics include ordinary least squares, generalized least squares, nonlinear regression, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively.

Pre-requisite(s): ECON 2010, ECON 2020, QUAN 2400, and QUAN 3610.

ECON 4560 - Mathematical Economics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Advanced application of mathematical modeling techniques to selected economic issues.

Pre-requisite(s): ECON 4010, ECON 4020, QUAN 2400 or MATH 1210, and QUAN 3610.

ECON 4800 - Independent Research

Credits: (1-3)

Description: Individual work or work in small groups, by arrangement, in special topics not included in the announced course offerings.

Pre-requisite(s): QUAN 3610 and approval of instructor.

May be repeated twice with a maximum of 3 credit hours.

Note: This course is offered as needed.

ECON 4810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

ECON 4850 - Economics Study Abroad

Credits: (1-3)

Description: This course is designed for students who will study economics at one of the international partner universities of the Goddard School of Business and Economics as part of an extended study abroad visit. Students

will explore the international economic institutions, business culture, and applications of economic theory to countries outside of the US. Students will study international economics as offered through a partner university (or other university with department chair approval).

Pre-requisite(s): ECON 2899 and BSAD 2899.

May be repeated once up to 6 credits.

Note: This course is offered as needed.

ECON 4860 INT - Economics Internship

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A structured professional-level field experience. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through the Business Economics or International Business Economics program courses.

Pre-requisite(s): BSAD 2899; Instructor approval.

ECON 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: This course is offered as needed.

ECON 4970 - Introduction to Research Methods

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course prepares students for ECON 4980 Research Methods. Students will study the research process and the scientific method as it applies to economics. Students will have an opportunity to explore various fields and literature in order to design a thesis project for ECON 4980.

Pre-requisite(s): ECON 2899 or BSAD 2899.

ECON 4980 CRE - Research Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: A course designed for senior economics majors which requires the completion of an extensive thesis project. This course will focus on the formulation of hypotheses, review of relevant literature, and either theoretical or empirical analysis.

Pre-requisite(s): ECON 4970, BSAD 2899 or ECON 2899, QUAN 3610, ECON 4010 or ECON 4020.

ECON 6330 - Game Theory

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course is an introduction to game theory, the study of strategic behavior among parties having opposed, mixed, or similar interests. This course will sharpen your understanding of strategic behavior in encounters

with other individuals. You will learn how to recognize and model strategic situations, to predict when and how your actions will influence the decisions of others and to exploit strategic situations for your own benefit. The graduate version of the course includes advanced readings from academic literature and other assignments for a more in-depth review of game theory concepts.

Pre-requisite(s): Admission to the MA in Peace, Development, and Social Transformation and the leveling requirements associated with admission to that program, and ECON 2010 Principles of Microeconomics

ECON 6550 - Econometrics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Regression Analysis. Topics include ordinary least squares, dummy variables, autocorrelation, heteroskedasticity, and serial correlation. Computers used extensively. By the end of the course, students will be able to: Develop a multiple regression model, understand the assumptions of multiple regression and recognize the consequences when they are not satisfied, test for statistical significance in a multiple regression setting, use dummy variables as independent and dependent variables, recognize endogenous regressors, and simulate key econometric principles.

Pre-requisite(s): Admission to the Master of Science in Data Science and the leveling courses associated with those requirements.

ECON 6900 - Special Topics in Economics

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course explores new or otherwise relevant economics topics that are not covered in a regularly offered course. Each offering will have a specific title and authorized credit that will appear on students' transcripts. Course may be repeated for credit under different titles. Lecture or Lecture/Lab combination. May be taken twice up to 6 credits.

Pre-requisite(s): Instructor Permission.

EDUC 1010 CEL - Exploring Teaching

Credits: (3)

Description: Students will explore the exciting world of teaching, examine what it means to be a teacher, and participate in field observations. This course is designed to introduce students to personal and professional experiences within the educational community.

Pre-requisite(s): This course or an equivalent approved course is a prerequisite to all licensure programs in the Department of Teacher Education.

EDUC 1210 - Learning and Engagement for Adult Learners

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Block*

Typically Taught Fall Semester: *Full Sem, 1st Block*

Typically Taught Spring Semester: *Full Sem, 1st Block*

Description: This course focuses on helping teachers of adult learners create an inclusive learning environment by incorporating effective learning strategies and skills in an engaging, well-managed classroom.

EDUC 1220 - Instructional Planning and Assessment for Adult Learners

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 2nd Block*

Typically Taught Fall Semester: *Full Sem, 2nd Block*

Typically Taught Spring Semester: *Full Sem, 2nd Block*

Description: This course focuses on the identification or creation of instructional learning objectives, selecting and/or designing aligned assessments, planning engaging instructional activities, and enactment and reflection of instruction to meet the needs of all adult learners.

Pre-requisite/Co-requisite: EDUC 1210.

EDUC 2000 - Social Studies Concepts for Elementary Teachers

Credits: (3)

Description: Fundamental concepts from the social sciences commonly found in elementary social studies curriculum.

Note: This course is not currently offered.

EDUC 2010 CEL - Human Exceptionality and Assistive Technology

Credits: (3)

Typically Taught Summer Semester: *2nd Blk*

Typically Taught Spring Semester: *Full Sem*

Description: This course will introduce students to the characteristics of exceptional children with emphasis on the educational and psychological and technology implications of disabilities to the development of the child. A minimum grade of C is required in this course.

EDUC 2210 - Designing Hybrid Courses for Adult Learners

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 1st Block*

Typically Taught Fall Semester: *Full Sem, 1st Block*

Typically Taught Spring Semester: *Full Sem, 1st Block*

Description: This course is on the design of hybrid courses for adult learners. Students will practice designing a course using a Learning Management System, graphic design and tools for designing instructional material. They will learn about basic principles for integrating technology and supporting interaction. Special emphasis in this course will be given to course accessibility.

EDUC 2220 - Program Planning and Evaluation

Credits: (3)

Typically Taught Summer Semester: *Full Sem, 2nd Block*

Typically Taught Fall Semester: *Full Sem, 2nd Block*

Typically Taught Spring Semester: *Full Sem, 2nd Block*

Description: This course focuses on the creation and evaluation of competency-based programs for adult learners including the development of program scope and sequence, program-level outcomes, program assessment plans, and program evaluation reporting.

Pre-requisite/Co-requisite: EDUC 1220.

EDUC 2300 GLB - Global Perspectives on Education and Learning

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course begins by introducing perspectives on globalization and how the globalization process impacts educational policies and practices. We will then discuss three major topics from an international and

comparative perspective. These three topics are: 1) educational policies and practices; 2) pedagogies and classroom practices; 3) individual experiences of learning. Case studies will be used to demonstrate different ways to examine how schools teach, as well as how students learn, in various social contexts. Towards the end of the course, students will learn to develop age appropriate pedagogical tools by incorporating global learning perspectives that can be used in K-12 classrooms.

EDUC 2604 - Information Resources in Education

Credits: (1)

Description: Intended for students interested in education, this one-credit hour course will assist in developing information literacy and academic research skills, and an understanding of academic integrity issues unique to the field of education. Students will develop skills in identifying, locating, retrieving, documenting, and critically evaluating both electronic and print resources that are appropriate for undergraduate research, with emphasis in education and related disciplines.

Cross-Listed with LIBS 2604.

EDUC 2800 - Instruction, Technology, Assessment, and Planning

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to prepare paraeducators with a foundation in supporting instructional planning, presenting instruction, using technology in the classroom, and using teacher selected assessment to determine student learning.

EDUC 2820 - Creating a Learning Environment

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course explores methods for designing positive K-12 learning environments. Students will be provided with a framework for supporting a positive learning environment including classroom spaces, and consider a wide range of strategies, techniques, and factors in supporting a positive learning environment for all learners.

EDUC 2890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: For students not yet accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/ background check must be completed prior to working in the schools.

May be repeated up to 6 credit hours.

EDUC 2900 - Career Planning and Exploration

Credits: (3)

Typically Taught Summer Semester: *Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This course provides a comprehensive approach to career development, planning, preparation, and selection. It is designed to assist students as they develop their future goals through assessment of personal strengths, values, interests, and abilities. Students will learn valuable decision-making skills required for choosing a major and career path. The course provides strategies for successfully entering the job market through resume creation, interview preparation, and exploration of labor market information. This class requires the completion of online career assessments for a total cost of \$10. To access online course materials, please go to your student portal, log into eWeber, and click on WSU Online-Canvas.

EDUC 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: May be taken on a Credit/No Credit basis.

EDUC 3100 - Instructional Planning & Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces the basic concepts of lesson and unit design, planning and assessment based on student needs. May include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): Completion of Elementary Education Level 1 courses with a grade of B- or better.

Suggested Requisite(s): This course should be taken with other courses in Elementary Education Level 2.

EDUC 3110 - Instructional Technology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course allows students to apply existing technology literacy into educational environments to promote enhanced learning. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-8 settings. The course focuses on providing teacher licensure candidates with basic technology proficiencies for teaching with technology.

Pre-requisite(s): Completion of the computer and information literacy requirements.

EDUC 3115 - Media Integration in Elementary Education Settings

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course focuses on how to create media to support and apply research-based principles for learning into educational environments. The course content is based on Utah core curriculum skills for students in the K-8 setting. The course provides students with technology proficiencies for integrating technology into teaching.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3117 - Media Integration in Elementary Education Settings 2

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course focuses on integrating media and technology to support and apply research-based principles for learning in educational environments for traditional, blended, and online instruction. Students will continue to develop their skills and knowledge about how to incorporate technology into the curriculum to support meaningful instruction. A variety of technologies will be utilized for designing digital curriculum and developing 21st century standards. The course content is based on Utah core curriculum skills for students in the K-8 setting. May include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): Successful completion (B- or better) of Elementary/Early Childhood Level 1.

EDUC 3120 - Reading Instruction in the Primary Grades

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to familiarize the teacher candidate with current knowledge and practices as they relate to teaching literacy (reading, writing, listening, and speaking) in the primary grades (K-2). The focus of this course will be how to apply current literacy research in a primary grade classroom.

Pre-requisite(s): Admission to Teacher Education.

Co-Requisite(s): EDUC 3210.

EDUC 3130 - Curriculum, Instructional Planning, and Assessment

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces the basic concepts of lesson and unit design, planning, and assessment based on student needs.

Pre-requisite(s): Elementary Level 1

Co-Requisite(s): Elementary Level 2

Note: Program of Study Code

EDUC 3140 - Educational Psychology, Interpersonal Skills and Classroom Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The focus of this course is the fundamental theories and philosophies, concepts, processes, and applications related to human behavior, teaching and learning, interpersonal relationships, and classroom management.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3205, EDUC 3270, EDUC 4550.

EDUC 3145 - Educational Psychology and Child and Adolescent Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course examines historical and contemporary perspectives in educational psychology, child and adolescent development and guidance, for kindergarten through 8th grade, with a focus on translating theory to

practice within diverse communities of learners. It is part of an integrated field experience.
Note: Program of Study Code

EDUC 3205 - Culturally and Linguistically Responsive Teaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Rationales, concepts, practices provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values are also explored. Experiences are provided intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3210 INT - Practicum in Elementary Education

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.

Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Students are required to spend at least 40 hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 2 and should be taken with EDUC 3100, EDUC 3240, EDUC 4345, PEP 3620.

EDUC 3220 - Foundations of Diversity

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Rationales, concepts, practice provide a scope of understanding and awareness regarding the role of cultural and language pluralism in school and society. Foundations and theories on the role of family and community influence on student values. Experiences intended to develop basic skills in personal interaction and adaptation to teaching diverse populations.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, and EDUC 3935.

EDUC 3230 - Media and Data Science for Elementary Settings

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course supports students to utilize a range of technology tools to present teaching content, analyze student achievement data, calculate basic statistics, develop personalized learning activities, and facilitate creative content creation.

The course builds upon and will use content learned in MATH 2010, MATH 2015, and MATH 2020. The course content is based on Utah core curriculum skills for students in the K-8 settings. and may include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): MATH 2015.

EDUC 3240 - Reading Instruction in the Intermediate Grades

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course will provide theories, methods, and assessments for reading in the elementary school, Grades 3-6. Students will understand reading instruction in relation to the wider processes of literacy and language development to guide elementary students to effectively communicate through oral and written languages for different contexts, which includes text-based and digital environments. The course will also include the contemporary issues on elementary reading instruction. May include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): EDUC 3120.

Co-Requisite(s): EDUC 4680A or EDUC 4840A.

EDUC 3265 - The Exceptional Student

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students will learn about the learning and social characteristics of young people with exceptionalities- that is, disabilities (physical, mental, learning) or giftedness-and about public policy and services available to them. As future teachers, they will learn about how such individuals are identified and served by the school system, what strategies are effective for instructing them, and roles and responsibilities of school personnel in providing appropriate educational experiences for all students in an inclusive classroom.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3900, EDUC 3315, EDUC 3935, EDUC 3910.

EDUC 3270 - Addressing Differentiation, Collaboration and IEPs for Inclusive Teaching

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The Individuals with Disabilities Education Improvement Act of 2004 (IDEA-04) mandates that students with disabilities be educated "to the maximum extent appropriate with children who are not disabled." The expectation is that students with disabilities will have access to, and make adequate progress in, the general curriculum. Therefore, it is essential for general educators and special educators to work collaboratively. This course is designed to provide preservice teachers with the knowledge and skills of effective inclusive teaching practices.

Pre-requisite(s): Admission to Teacher Education and EDUC 2010.

Suggested Requisite(s): Should be taken with other courses in Level 1.

EDUC 3280 - Elementary Social Studies Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course focuses on the place of social studies in the elementary school curriculum, the scope and rationale of the social studies curriculum, connections with other subject areas, teaching and assessment strategies,

and building classroom community.

Co-Requisite(s): EDUC 4680A or EDUC 4840A or EDUC 3210.

EDUC 3300 - Introduction to International Education: Case Studies

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course uses case studies of education systems and practices from Japan, China, South Korea, Finland, Cuba, Germany, Poland, and the U.S. to demonstrate the interactions of social-cultural contexts, school policies and practices, as well as the individuals' learning processes. Theories of and perspectives on examining educational policies and practices will be introduced throughout the class along with case studies covering a diverse range of contexts. The class will be a mix of lectures, discussions, and in-class demonstrations, so students will have many opportunities to actively engage with the material in multiple ways. Students will also have opportunities to discuss educational issues with college students from China, Japan, India and Singapore via a virtual platform.

EDUC 3315 - Media Integration in the Secondary School Setting

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course focuses on how to create media to support and apply research-based principles for learning into the educational environments. The curriculum is based on Core Curriculum skills for students in grades 9-12. The course content provides teacher licensure candidates with technology proficiencies for integrating technology into teaching.

Pre-requisite(s): Admission to Teacher Education. Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935.

EDUC 3370 - Advanced Instructional Technology

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course allows students to apply existing technology literacy into educational environments to promote advanced use of educational technology in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards for students in K-6 settings. The course focuses on providing teacher licensure candidates with advanced technology proficiencies for teaching with technology.

Pre-requisite(s): Verification of technology literacy training (through coursework or job experience) within the past five years. Completion of the computer and information literacy requirements.

EDUC 3371 - Assistive Technology

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course provides students with an understanding of the use of assistive technology for students with disabilities. Students will learn to assess student assistive technology needs, identify assistive technology used to provide students access to educational opportunities, and application of assistive technology in instructional programs, career tasks, and life skills for individuals with disabilities.

EDUC 3375 - Foundations of Dual Immersion or Immersion Education

Credits: (3)

Description: The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

EDUC 3390 - Literacy in the Primary Grades

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Analysis of developmental reading skills with emphasis on readiness for reading, phonic and structural analysis, word recognition, use of the basal reader, and reading for various purposes.

EDUC 3430 - Creative Processes in the Elementary School

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: A \$15 fee is associated with this course. A ukulele will be available for you to borrow during the semester. Art supplies for projects completed in the classroom will be supplied.

Description: This course focuses on the development of attitudes, methods, and skills in creative teaching, including an exploration of using music, art, dance, and drama in the elementary classroom. Graduate students will also explore philosophy, research, and theories that support arts integration, and development of teaching strategies and materials for use in the elementary classroom.

EDUC 3545 - Universal Positive Behavior Support Strategies for Teachers

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to teach teacher candidates validated classroom management strategies and level one behavioral intervention strategies. This course focuses on techniques and methods for preventative classroom student management. The course will assist candidates in writing effective classroom management plans. Candidates will be introduced to the process of Functional Behavior Assessments and Behavior Intervention Plans.

Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 3565 - Elementary English Language Arts: Evaluation, Remediation and Supports

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to teach teacher candidates validated evaluation and remediation strategies for K-5 students struggling in English Language Arts, focusing on techniques in elementary reading, writing, speaking, listening, and language. Candidates will be introduced to the process of identifying reading and writing difficulties, selecting evidence-based interventions, implementing instruction, and using the data-based instructional decision model to monitor students' ELA progress and intervention effectiveness.

Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 2 courses and should be taken with EDUC 3545, EDUC 4515, EDUC 4521, EDUC 4530.

EDUC 3575 - Special Education Math Methods for students on IEPs

Credits: (2)**Typically Taught Spring Semester:** *Full Sem*

Description: This course is designed to teach students validated evaluation and remediation strategies for K-12 students struggling in math. This course focuses on techniques in teaching mathematics. The course will assist students in designing evidence-based remediation plans for students struggling with math skills. Students will be introduced to the process of identifying math difficulties, selecting evidence-based interventions, implementing instruction, and using the data-based instructional decision model to monitor students' progress and intervention effectiveness.

Pre-requisite(s): MATH 2010. Completion of Education Level 1 courses with a grade of B- or better.

Co-Requisite(s): This course is part of Special Education Block 2 courses and should be taken with EDUC 3545, EDUC 3565, EDUC 4515, EDUC 4521, EDUC 4530.

EDUC 3585 - Working with Students with ELA or Math Disabilities in Inclusion Settings**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This course is designed to teach pre-service teachers validated accommodations and supports for K-12 students with disabilities struggling in English Language Arts (ELA) and/or Math in inclusive settings, specifically focusing on reading, writing, speaking, listening, language, and math.

Pre-requisite(s): MATH 2010, successful completion of Education Level 1.

EDUC 3590 - Working with Students with ELA or Math Disabilities in Resource Settings**Credits: (3)****Typically Taught Fall Semester:** *Full Sem*

Description: This course is designed to teach pre-service teachers validated evaluation and remediation strategies for K-12 students with disabilities in English Language Arts and/or math, focusing on identifying deficits and designing and disseminating evidence-based remediation plans.

Pre-requisite(s): MATH 2020, successful completion of Level 2.

EDUC 3860 - Practicum In Special Education**Credits: (1-3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:**

The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality inclusion strategies while working with students in special education. Teacher candidates are required to spend at least 30 (1cr)-60(3cr) (1cr), or 45(2 cr) or 60(3cr) hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education

Co-Requisite(s): EDUC 6565 and EDUC 3270.

EDUC 3900 - Preparing, Teaching, and Assessing Instruction**Credits: (2)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This integrated course will focus on lesson planning, teaching, and assessment through the application of the Teacher Work Sample (TWS) using lesson plan formats taught in the content areas. A variety of instructional strategies effective for use at the secondary level will be taught and modeled.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3315, EDUC 3265, EDUC 3910, and EDUC 3935.

EDUC 3910 INT - Secondary Education Practicum

Credits: (2)

Course Fee: \$50.00

Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.

Description: The purpose of this practicum is to provide students with opportunities to design and implement content-specific instruction at the secondary level. Students are required to spend at least 40 hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3935.

EDUC 3935 - Reading and Writing Across the Secondary Curriculum

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course will focus on assessment of reading comprehension of students, and decisions teachers make concerning methods, materials and procedures based on those assessments. Teacher candidates will integrate literacy skills (vocabulary, study skills, comprehension development and writing) within their respective content areas and teach sample lessons to secondary students.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of the professional core courses and should be taken with EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910.

EDUC 4210 INT - Elementary Level III Practicum

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Course fees are used to pay for mileage of supervisors.

Description: The purpose of this practicum is to provide students with opportunities to design and implement integrated instruction in the elementary grades. Instruction will focus on instruction of core subjects including language arts, mathematics, science, and social studies. Students are required to spend at least 60 hours in an assigned classroom.

Pre-requisite(s): Admission to Teacher Education. Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4300, EDUC 4320, EDUC 4330.

EDUC 4250 - Second Language Acquisition: Theories and Implementation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

EDUC 4270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)**Typically Taught Spring Semester:** *Full Sem*

Description: This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

EDUC 4300 - Elementary Mathematics Methods**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$3.00

Course Fee Purpose: Practicum fees are to cover our faculties mileage associated with the observation/supervision of the students.

Description: This course includes the study of mathematics methods appropriate for elementary school curriculum with specific emphasis on developmental strategies including the concrete-representational-abstract instructional model. Connections to other subject areas, problem solving, critical thinking skills and real-life situations are stressed.

Pre-requisite(s): Completion of Elementary Education Level 2 courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4320, EDUC 4330.

EDUC 4310 - Foundations of Cooperative Learning**Credits: (2)**

Description: This course examines the rational, principles, skills and interaction strategies necessary before implementing Cooperative Learning in the classroom. Emphasis will be upon the basic components of Cooperative Learning, team building, and simple teamwork. Methods and strategies will be demonstrated and will involve active student group participation.

EDUC 4320 - Elementary Language Arts Methods**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This course focuses on methods for language arts instruction in the elementary setting with specific emphasis on writing strategies. Particular emphasis is given to models of research-based instruction of core curriculum in language art.

Pre-requisite(s): EDUC 3120 and EDUC 3240.

Co-Requisite(s): EDUC 4680A or EDUC 4840A.

EDUC 4330 - Elementary Science Methods**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$3.00

Course Fee Purpose: Course fees are used to purchase items used in science demonstrations and labs.

Description: This course focuses on methods and materials for teaching hands-on guided discovery science with an emphasis on concepts included in the Utah core curriculum.

Co-Requisite(s): EDUC 4680A or EDUC 4840A.

Suggested Requisite(s): This course is part of Elementary Education Level 3 and should be taken with EDUC 3115, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320.

EDUC 4345 - Elementary Integrated Arts Methods

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$15.00

Course Fee Purpose: A fifteen dollar fee is associated with this course in order to replenish equipment and supplies. Art and other supplies are required for some assignments and meetings. If you are completing portions of the course remotely, you may need to purchase some supplies, or you can come to campus to pick up anything that is needed (by appointment).

Description: This course is designed to prepare students to successfully teach art and music in the elementary classroom. Students are expected to design, prepare and teach lessons to engage elementary students in art and music activities. May include field experiences that involve travel to local schools or other relevant destinations.

Pre-requisite(s): EDUC 3240 and EDUC 3120.

Co-Requisite(s): EDUC 4680A or EDUC 4840A.

EDUC 4350 - Elementary Mathematics Pedagogy

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$3.00

Course Fee Purpose: This course has a fee that covers the purchase and replacement of mathematics manipulatives used by students.

Description: This course will focus on the study of appropriate mathematics teaching methods for the Utah core curriculum. Emphasis will be on teaching mathematics for deep conceptual understanding and connections to other subject areas and real life situations. Students will practice teaching mathematics using content from the K-8 Utah Mathematics Core.

Pre-requisite(s): EDUC 3230.

Pre-requisite/Co-requisite: ECED 4670.

EDUC 4380A - Student Teaching in Elementary Education

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.

Pre-requisite(s): EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4380B - Student Teaching in Elementary Education

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Student teaching experience in elementary public school setting plus weekly seminar on campus. Offered CR/NC only. Can be repeated one time.

Pre-requisite(s): EDUC Level 3 (EDUC 3117, EDUC 3280, EDUC 4210, EDUC 4300, EDUC 4320, EDUC 4330) and permission of Field Experience Director.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4400 - International Education Experiences: Study Abroad

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This is a study abroad course led by two faculty members from Moyes College of Education. The class will visit various kinds of schools, interview teachers, students and parents, as well as study the socio-cultural contexts of a certain country or region. We expect the learning to occur during the lectures conducted by WSU faculty, the observations of the classes in the schools, visits to the schools and other educational/cultural sites, communications between students and school teachers and administrators in a certain country, as well as reflection sessions led by WSU faculty. The country covered by this course may change from year to year. Examples of countries include Nordic countries (Finland, Sweden, and Estonia) or selected South Asian countries (Singapore and Vietnam).

EDUC 4415 - Content-Based Second Language Curriculum, Instruction and Assessment

Credits: (3)

Description: Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

EDUC 4420 - Foundations of Education of the Gifted

Credits: (2)

Description: An overview of education for the gifted and talented; historical and philosophical background; characteristics, needs, and developmental patterns of the gifted; issues in identification, differentiating curriculum, and educational program options; special populations of gifted students.

Note: This course is not currently offered.

EDUC 4450 - Creativity and Applied Imagination in the K-12 Classroom

Credits: (2)

Description: Exploration and development of readily available personal and community resources to encourage creative thinking, classroom involvement, and transfer of learning.

Note: This course is not currently offered.

EDUC 4470 - Teaching for Thinking

Credits: (2)

Description: Theory and practice for teaching thinking skills in elementary, middle, and high school classrooms.

Pre-requisite(s): Admission to Teacher Education and EDUC 3140 or equivalent.

Note: This course is not currently offered.

EDUC 4480 - Differentiated Curriculum for the Gifted and Talented

Credits: (3)

Description: Curriculum theories and educational strategies for educating gifted and talented students. A practical course, with special attention to the development of instructional materials appropriate for use by gifted students in special programs as well as in the regular classroom.

Note: This course is not currently offered.

EDUC 4490 - Assessment and Evaluation in Education of the Gifted

Credits: (3)

Description: Principles of assessment applied to: identification of gifted and talented students including identification of gifted in minority populations, diagnosis of student learning needs, learning styles, evaluation of student progress, and evaluation of program effectiveness.

Note: This course is not currently offered.

EDUC 4510 - Foundations in Special Education Practice and Law

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course will introduce students to the philosophical, historical, legal and ethical foundations of special education. Students will examine in depth the characteristics of exceptional learners.

Pre-requisite(s): Admission to Teacher Education, EDUC 2010.

EDUC 4515 - Special Education Law and Transition

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course provides students with a broad knowledge and understanding of a wide range of legal issues concerning the provision of special education services to students with disabilities, including those in the transition process. A review of pertinent legislation concerning human and constitutional rights related to persons with disabilities will be addressed. Teachers' specific responsibilities and liabilities are described and related to current requirements for development of appropriate educational programs including transition plans and services.

EDUC 4520 - Collaboration, Consultation, and IEP Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Roles of the special educator and families. IEP development, Least Restrictive environment, managing multidisciplinary team activities and techniques of collaboration and consultation.

Pre-requisite(s): Admission to Teacher Education.

EDUC 4521 - Practicum in Special Education A

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality inclusion strategies while working with students in special education. Teacher candidates are required to spend at least 60 hours in an assigned classroom.

Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

EDUC 4530 - Principles of Assessment and IEP Development

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$20.00

Course Fee Purpose: This course is designed to provide students with knowledge of the basic terminology of test measurements, criterion referenced assessments, curriculum based assessments and data collection. The fees in this course are used for purchasing assessment instruments used in schools.

Description: This course is designed to provide students with knowledge of the basic terminology of statistics, tests,

measurements, criterion-referenced assessment, curriculum-based assessment, and data collection. Students will learn the basic processes of statistical applications for formal and informal assessment. Students will learn to develop, administer, and interpret assessment data for formal and informal assessments to determine eligibility develop appropriate IEPs.

Co-Requisite(s): EDUC 3210 or EDUC 4680A or EDUC 4840A.

EDUC 4535 - Strategic Plan for Disability

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description:

This course is designed to instruct students in methods to successfully facilitate the inclusion of students with disabilities in the general education classroom. Strategies will be given for how to initiate, grow, and sustain, effective collaborative educational environments, utilize specifically designed instruction, and develop targeted accommodations and modifications that can be efficiently delivered in general education environments to create meaningful access for students with disabilities.

Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 4540 - Managing Student Behavior

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Current issues, practices, and application of a variety of approaches for behavior change, discipline and management of the classroom environment, and the teaching of appropriate social skills.

Suggested Requisite(s): This course is part of Special Education Block 1 courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4550, EDUC 4560.

EDUC 4545 - Individualized Behavioral Strategies Using Applied Behavior Analysis

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course is designed to teach teacher candidates validated individual behavioral intervention strategies, particularly those designed to meet the needs of students with severe behavioral and social skill deficits. This course will address the needs of those candidates using Applied Behavior Analysis. Candidates will conduct functional assessments and write and implement a function-based behavior intervention plan.

Pre-requisite(s): EDUC 3545.

Co-Requisite(s): EDUC 4680A or EDUC 4840A.

EDUC 4550 - Instructional Planning and Learning Environments for Special Education Students

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.

Pre-requisite(s): Admission to Teacher Education.

Suggested Requisite(s): This course is part of Elementary Education Level 1 and should be taken with EDUC 3120, EDUC 3140, EDUC 3205, EDUC 3270.

EDUC 4555 - Validated Instructional Methods: Reading

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4570, EDUC 4580, EDUC 4581.

EDUC 4560 - Validated Instructional Methods: Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

Pre-requisite(s): Completion of Special Education Block 1 Foundation courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 2 Integrated Methods courses and should be taken with EDUC 4521, EDUC 4530, EDUC 4540, EDUC 4550.

EDUC 4570 - Validated Instructional Methods: Written Expression

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

Pre-requisite(s): EDUC 4530.

Co-Requisite(s): EDUC 4581.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4580, EDUC 4581.

EDUC 4580 - Instructional and Transition Planning for Special Education Students

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$7.00

Course Fee Purpose: The course fees in this course will be used to buy consumable assessment protocols and to purchase non-consumable assessment kits as new versions are made available.

Description: Instructional programming and modification of curriculum for students with disabilities served by teachers with Mild/Moderate Endorsements.

Pre-requisite(s): Completion of Education Level 1 courses with a grade of B- or better.

EDUC 4581 - Pre-Student Teaching in Special Education: Assessment, Behavior Management, Instruction

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of Pre-Student Teaching is to continue field experience in a supportive and professional

manner. The student will have the opportunity to experience teaching and the responsibilities that it entails under the direct guidance of the Cooperating Teacher and the Course Instructor. This course is designed to provide students with practical experiences in the areas of: a) literacy curriculum and instruction for students K-12, and (b) planning and developing post-secondary transition plans. Practical experience in assessment and behavior management are continued.

Pre-requisite(s): Completion of Special Education Block 2 Integrated Methods courses with a grade of B- or better.

Suggested Requisite(s): This course is part of Special Education Block 3 Advanced Methods courses and should be taken with EDUC 4555, EDUC 4570, EDUC 4580.

EDUC 4582 INT - Practicum in Special Education B

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: Mileage fee for supervision

Description: The purpose of this practicum is to provide teacher candidates with opportunities to implement content-specific instruction and demonstrate quality instruction while working in special education and/or general education classrooms.

Pre-requisite(s): Completion of Education Level 2 courses with a grade of B- or better.

EDUC 4640 - Validated Instructional Methods: Mathematics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and techniques for diagnosis and remediation of mathematics problems. The course will cover student characteristics and school setting demands that contribute to lack of success in mathematics classrooms.

EDUC 4650 - Validated Instructional Methods: Reading

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and validated strategies for teaching reading to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in reading.

EDUC 4660 - Validated Instructional Methods: Written Expression

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to introduce principles and validated strategies for teaching written expression to students with mild/moderate disabilities. The course will cover student characteristics and school setting demands that contribute to lack of success in written expression.

EDUC 4670A - Special Education Student Teaching

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: The course fee pays for student teaching supervisor visits.

Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.

Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.

Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4670B - Special Education Student Teaching

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: The course fee pays for student teaching supervisor visits.

Description: Supervised teaching in selected special education programs in an elementary or secondary school. Available on a CR/NC basis only.

Pre-requisite(s): Successful completion of mild/moderate licensure course work and permission of the Field Experience Director. Can be repeated one time.

Suggested Requisite(s): Should be taken concurrently with EDUC 4686 the first time.

EDUC 4680A INT - Special Education Student Teaching

Credits: (3-8)

Typically Taught Fall Semester: *Full Sem, 1st Blk, 2nd Blk*

Typically Taught Spring Semester: *Full Sem, 1st Blk, 2nd Blk*

Course Fee: \$200.00

Course Fee Purpose: Supervision stipend and mileage reimbursement.

Description: This course is designed to provide with multiple opportunities to practice implementing effective planning, instruction, management, and assessment techniques in real-world elementary, middle, or high school special education classroom settings under the supervision of a university supervisor and mentor teacher. Available on a CR/NC basis only.

Pre-requisite(s): EDUC 3210 with a B- or better.

EDUC 4680B INT - Special Education Student Teaching

Credits: (8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Supervisor stipend and mileage reimbursement (remote location).

Description: Supervised clinical practice in an elementary or secondary school at which candidates teach pupils with mild/moderate disabilities. Available on a CR/NC basis only.

Pre-requisite(s): Successful completion of Special Education levels 1-3 with B- or above.

Co-Requisite(s): Must be taken concurrently with EDUC 4686.

EDUC 4685 - Special Education Student Teaching Seminar and Synthesis

Credits: (1)

Description: The Seminar and Synthesis will support student teaching through regular meetings.

Pre-requisite(s): Successful completion of Special Education Licensure requirements.

Co-Requisite(s): Must be taken concurrently with EDUC 4670A.

Note: This course is available to non-majors.

EDUC 4686 - Special Education Student Teaching Seminar & Synthesis for Special Education Majors

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The Seminar and Synthesis will support student teaching through regular meetings on campus.

Pre-requisite(s): SPED Levels 1-3 and approval by student teaching director.

EDUC 4700 - Learning in the Schools

Credits: (2)

Description: Principles of learning and management and their application to the school situation.

Pre-requisite(s): Student teaching.

EDUC 4740 - Building School Partnerships with ESL/Bilingual Families

Credits: (1)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course prepares students to be advocates and practitioners of family involvement in education. Goals and benefits of family involvement will be explored along with specific strategies for developing a partnership within the education system. Components of family structure, economics, cultural diversity, second-language learners, communication skills and resources are integrated into the student experience.

EDUC 4820E - Managing Diverse Classrooms

Credits: (3)

Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.

Pre-requisite(s): Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).

Suggested Requisite(s): Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4840A, EDUC 4860).

Note: This course is not currently offered.

EDUC 4820S - Managing Diverse Classrooms

Credits: (3)

Description: Current issues, methodology and application of a variety of approaches for behavioral change, discipline and management of diverse learners in the context of classroom environments.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3900, and EDUC 3935).

Note: This course is not currently offered.

EDUC 4830 - Individually Prescribed Program

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Designed primarily for individual needs.

May be repeated up to 6 credit hours.

EDUC 4840A INT - Student Teaching in Elementary Education

Credits: (3-8)**Typically Taught Fall Semester:** *Full Sem, 1st Blk, 2nd Blk***Typically Taught Spring Semester:** *Full Sem, 1stBlk, 2nd Blk***Course Fee:** \$200.00**Course Fee Purpose:** Student teaching supervision stipend and mileage.**Description:** This course is designed to provide with multiple opportunities to practice implementing effective planning, instruction, management, and assessment techniques in real-world elementary classroom settings under the supervision of a university supervisor and mentor teacher. First, are weekly, 3-hour collaboration and topical seminars emphasizing on-going discussions and support on classroom management, preparing the TWS and INTASC portfolio, creating your career file, and other education issues. Second, is a two-day workshop to synthesize the semester and have your INTASC portfolio assessed.**Pre-requisite(s):** Satisfactory completion of Levels 1-3.**Suggested Requisite(s):** Should be taken concurrently with EDUC 4840A/B.**EDUC 4860 - Elementary Senior Synthesis Seminar****Credits: (1)****Description:** Synthesis of the TREC model for elementary programs with specific emphasis on beginning a professional career in teaching. Senior project is required. To be taken for CR/NC only.**Pre-requisite(s):** Teacher Education Level 3 Elementary (EDUC 4300, EDUC 4320 or EDUC 4350 if previously taken, EDUC 4330, EDUC 4345).**Suggested Requisite(s):** Should be taken concurrently with the other courses in Teacher Education Level 4 Elementary (EDUC 4820E , EDUC 4840A).

Note: This course is not currently offered.

EDUC 4870 - Directed Experiences with Students**Credits: (1)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Description:** Directed experiences with elementary and secondary school students in cooperating schools. Students may register for one unit of credit per semester for a maximum of three semester hours.

EDUC 4890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: For students accepted to the Teacher Education Program who meet the minimum cooperative work experience requirements of the department. Provides academic credit for on-the-job experience. Amount of credit will be determined by the department. Fingerprinting/background check must be completed prior to working in the schools.

May be repeated up to 6 credit hours.

EDUC 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

Note: Available on CR/NC basis.

EDUC 4930A - Student Teaching in Secondary Education

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4930B - Student Teaching in Secondary Education

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Stipend and mileage for instructor supervision.

Description: Student teaching experience in secondary public school setting plus weekly seminar on campus. Offered CR/NC only.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3900, EDUC 3910, EDUC 3935) and permission of the Field Experience Director. Can be repeated one time.

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 the first time.

EDUC 4940A INT - Student Teaching in Secondary Education

Credits: (8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Stipend and mileage for instructor supervision.

Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 Integrated Secondary Student Teaching Seminar.

EDUC 4940B INT - Student Teaching in Secondary Education

Credits: (8)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Stipend and mileage for instructor supervision (remote location).

Description: Student teaching experience in a public school to synthesize theory and practice. Support seminars held on campus. Available on a CR/NC basis only.

Pre-requisite(s): Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

Suggested Requisite(s): Should be taken concurrently with EDUC 4950 - Integrated Secondary Student Teaching Seminar.

EDUC 4950 - Integrated Secondary Student Teaching Seminar

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Preparation and support for secondary clinical practice. Collaborative and topical seminars will emphasize on-going discussions and support on classroom management, ethics, preparing the TWS and INTASC portfolio, creating a career file, and secondary school issues.

Pre-requisite(s): Completion of Secondary Teacher Education Core (EDUC 3220, EDUC 3265, EDUC 3315, EDUC 3900, EDUC 3910, EDUC 3935).

Suggested Requisite(s): Should be taken concurrently with Student Teaching in Secondary Education (EDUC 4930A or EDUC 4940A).

EDUC 4960 - Secondary Senior Synthesis Seminar

Credits: (1)

Description: Synthesis of the TREC Model for elementary and secondary programs with specific emphasis on beginning a professional career in teaching. Senior Project is required.

Suggested Requisite(s): Should be taken concurrently with EDUC 4820S and EDUC 4840A.

Note: This course is not currently offered.

EDUC 5050 - Action Research in the Classroom

Credits: (2)

Description: Students will explore effective classroom-based research techniques, complete a classroom-based case study, and promote the ongoing application of research to the improvement of teaching practice. This course is designed for cooperating teachers in the site-based teacher education program, and is graded CR/NC.

Note: This course is offered as needed.

EDUC 5060 - Effective Mentoring in the Classroom

Credits: (2)

Description: Course covers strategies for effectively mentoring student teachers and novice teachers by expert

teachers. Expectations for the course include journal keeping, writing assignments, and mentoring project.
Note: This course is offered as needed.

EDUC 5110 - Advanced Multicultural/Bilingual Education

Credits: (3)

Description: Provides a knowledge base concerning the curricular issues and need for multicultural education, and explores various curriculum models and approaches for successful implementation of multicultural education across the curriculum.

EDUC 5120 - Culture and Language

Credits: (3)

Description: Examines the effects and impact of historical, political, social, and economic issues which affect teaching and learning for students from diverse cultural and ethnic groups.

EDUC 5320 - Reading in the Content Areas

Credits: (3)

Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.

EDUC 5330 - Using Children's Literature in the Classroom

Credits: (2)

Description: This course will provide a broad basis for using children's literature for instructional purposes in elementary classrooms to enhance literacy development.

EDUC 5340 - Assessment and Corrective Procedures in Reading

Credits: (3)

Description: Assessment of reading problems and corrective procedures for remediation in elementary classrooms.

EDUC 5360 - Literacy in the Elementary School

Credits: (3)

Description: An exploration of current reading, oral and written language theories, and their applications for the improvement of literacy practices in schools.

EDUC 5770 INT - Field Experience in ESL/Bilingual Education

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students will gain experience in teaching and working with ESL/bilingual students and apply what they have learned from relevant courses.

EDUC 5920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offerings under this number. The specific title and

credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.
Note: Available on CR/NC basis.

EDUC 5920G - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated up to 18 credit hours.

Note: Available on CR/NC basis. For graduate students.

EDUC 6020 - Promoting Success for K-12 Learners

Credits: (2)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *1st Blk*

Typically Taught Spring Semester: *1st Blk*

Description: This course is designed to integrate classical and contemporary education theory and practice as a way to understand the nature and scope of how success manifests itself in an ever-changing society. Students will apply their understanding of promoting success in learners as they critically reflect, empirically investigate, and apply their knowledge as skillful transformative educational leaders.

EDUC 6050 - Curriculum Design, Evaluation & Assessment

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: An overview of the theories of curriculum development as well as a practical appraisal of curriculum design, implementation, evaluation and assessment.

EDUC 6060 - Instructional Strategies

Credits: (2)

Description: This methods course will include organizing and universal teaching strategies that can accommodate the variety of learning contexts and content that is taught to a diverse audience of learners.

EDUC 6110 - Introduction to Classroom Management

Credits: (3)

Description: The focus will be on current issues, methodology, and application of a variety of approaches for behavior change, discipline, and management of diverse learners in the context of classroom environments. Classroom management as a function of good teaching will be examined.

Note: This course or MED 6120 is required for licensure.

EDUC 6229 - Instructional Technology for Pre-service Teachers

Credits: (2)

Description: This course allows students to apply existing technology literacy into educational environments to promote use of technology for teaching and instructional support in learning environments. The curriculum is based on teacher skills required to teach Utah State Educational Technology Standards.

EDUC 6240 - Foundations of Teaching for Cultural and Language Differences

Credits: (2)

Description: This course will address the nature of pluralism in American Society, including but not limited to exploration of multiculturalism, bilingualism, first and second language acquisition and instructional strategies. Establishes the core foundations for valuing diversity.

EDUC 6250 - Second Language Acquisition: Theories and Implementation

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course explores second language acquisition processes, current theories, and effective strategies as a knowledge base in planning appropriate curriculum and instruction for English language learners.

EDUC 6265 - Foundations of Inclusive Teaching

Credits: (2)

Description: This course, designed for non-special education teacher candidates, will introduce candidates to the legal, philosophical, historical, and ethical foundations of special education. An emphasis is placed on strategies and methods for instructing students with exceptionalities in the general education setting and the expanded roles and responsibilities of school personnel for providing appropriate educational experiences for all students.

EDUC 6270 - Literacy Strategies for Teaching English Language Learners

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Spring Semester: *Full Sem*

Description: This course will examine literacy strategies for English Language Learners. Teacher candidates will learn how to apply literacy strategies to teach reading, writing, listening and speaking skills, while including culture, to scaffold language development in both the second language and mainstream classrooms.

EDUC 6311 - Content Instruction in the Elementary School: Science

Credits: (2)

Description: Explores new concepts in curriculum and methods of science instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6312 - Content Instruction in the Elementary School: Mathematics

Credits: (2)

Description: Explores new concepts in curriculum and methods of mathematics instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6313 - Content Instruction in the Elementary School: Social Studies

Credits: (2)

Description: Explores new concepts in curriculum and methods of social studies instruction in the elementary schools.
Note: This course is required for elementary licensure.

EDUC 6314 - Reading Instruction in Elementary Schools

Credits: (3)

Description: An exploration of current research theories and their pedagogical implications related to teaching vocabulary, reading comprehension, fluency, phonics, and phonemic awareness in elementary school classrooms. The course will focus on the science of reading as defined by the Utah State Board of Education.

Note: This course is required for elementary licensure.

EDUC 6316 - Language Arts Instruction in Elementary Schools**Credits: (2)**

Description: Students will explore theory, instructional methodology, and activities for supporting students in developing expertise in the essential skills of communication: listening, speaking, reading, writing, viewing, and visually representing.

Note: This course is required for elementary licensure.

EDUC 6317 - Arts Integration for Elementary Teachers**Credits: (2)**

Description: This course is designed to prepare students to successfully teach the arts in the elementary classroom. Students are expected to design, prepare, and teach lessons to engage elementary students in arts and music activities. State curriculum guidelines will be reviewed and discussed.

EDUC 6320 - Content Area Literacy Instruction**Credits: (3)**

Description: Use of reading as an effective means to help students comprehend their course material. Explores how to incorporate these skills into the curriculum of the content areas.

Note: This course is required for secondary licensure.

EDUC 6375 - Foundations of Dual Immersion and Immersion Education**Credits: (3)**

Description: The course examines the background, underlying theory, and research foundations that support dual language and immersion education practices. Issues for teachers and administrators will be addressed. Practices and principles that inform language attentive curriculum will be a focus of the course.

EDUC 6415 - Content-based Language Curriculum, Instruction and Assessment**Credits: (3)**

Description: Participants in this course learn to plan curriculum and instruction for dual language and immersion classrooms that combine language and content goals using standards-based and backwards design approaches. They also learn a range of classroom-based strategies for assessing language and content.

EDUC 6500 - Curriculum Planning and Evaluation for Special Education Students**Credits: (3)**

Description: Effective teaching methods, instructional programming and modification of curriculum for students with disabilities. A direct instruction model is emphasized.

EDUC 6515 - Foundations in Special Education: Law and Practice**Credits: (3)**

Description: This course will introduce students to the philosophical, historical, legal, and ethical foundations of

special education. Students will examine in depth the laws and practices related to special education and how those laws are influencing children with special needs today. Students will also learn about individuals with special needs as they are identified and served in our school system.

EDUC 6529 - Assistive Technology

Credits: (2)

Description: This course provides students with the knowledge and skills needed to successfully determine the assistive technology needs of students with disabilities. The curriculum is based on the Utah Effective Teaching standards addressing technology and CEC standards for teacher preparation.

EDUC 6530 - Principles and Applications of Special Education Assessment

Credits: (3)

Description: Administer, score, and interpret norm-referenced assessment instruments, analyze in combination with data from other assessment processes, and use to determine eligibility and develop educational programs.

EDUC 6540 - Advanced Managing Student Behavior

Credits: (3)

Description: This course will address current issues, practices, and application of a variety of approaches for behavior change. It is designed to teach students validated classroom management strategies, behavioral intervention strategies and techniques for use with students who have behavioral and social skill deficits. The primary goal of this course is for each student to conduct a functional assessment and implement and evaluate a behavior intervention plan.

EDUC 6565 - Advanced Instructional Methods and Practices: English Language Arts

Credits: (3)

Description: The purpose of this course is to prepare teacher candidates to teach English Language Arts to elementary and secondary students. Teacher candidates learn to identify reading and writing difficulties, using evidence-based interventions. They will also learn how to implement effective instruction, using data-based instructional decision model to monitor students' ELA progress.

EDUC 6575 - Advanced Instructional Methods and Practices: Mathematics

Credits: (3)

Description: The purpose of this course is to prepare teacher candidates to teach mathematics to Tier 2 and 3 students in elementary and secondary classrooms. Teacher candidates will acquire a set of skills that will enable them to determine what math concepts to teach to pupils and effective instructional methods to aid in the teaching of these concepts.

EDUC 6580 - Advanced Learning Strategies and Transition for Special Education Students

Credits: (3)

Description: Effective teaching methods, strategies, and practices for secondary age level students with disabilities. A cognitive learning strategies approach is emphasized.

EDUC 6860 INT - Practicum in Education

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: Mileage fees for supervision

Description: Practical synthesis and application of knowledge and skills gained in previous education courses. Students must have approval from the program director, and should follow specific post baccalaureate certificate in teaching program guidelines for prerequisites and other requirements.

EDUC 6870 INT - Student Teaching and Seminar in Elementary Education

Credits: (6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Stipend and mileage for instructor supervision

Description: The student teaching experience is the culminating learning experience for the elementary licensure graduate certificate. Students must apply for student teaching the semester prior to registration. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the GSE degree but is required for a teaching license in the state of Utah.

EDUC 6880 INT - Student Teaching and Seminar in Secondary Education

Credits: (6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Stipend and mileage for instructor supervision

Description: The student teaching experience is the culminating learning experience for the elementary licensure graduate certificate. Students must apply for student teaching the semester prior to registration. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the GSE degree but is required for a teaching license in the state of Utah.

EDUC 6890 INT - Student Teaching and Seminar in Special Education

Credits: (6)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$200.00

Course Fee Purpose: Supervision stipend and mileage fees

Description: The student teaching experience is the culminating learning experience for the special education licensure track. Student teaching is a time for developing one's classroom management style, instructional design, and collaborating with a mentor teacher. Student teaching is a rigorous experience, which is carefully planned, guided, assessed, and evaluated. It includes an orientation meeting and assignments to support key competencies. Offered CR/NC only; this course does not grant credit towards the MED degree but is required for a teaching license in the state of Utah.

Pre-requisite(s): EDUC 6860.

EEN 1200 - Introduction to Energy Engineering

Credits: (2)

Description: Introduction to the field of energy engineering. Energy sources, electrical power generation, renewable and non-renewable energy, environmental and economic issues, the energy future.

Pre-requisite(s): ENGR 1000 and PHYS 2210.

EEN 2600 - Engineering Economics**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Emphasizes the systematic evaluation of the costs and benefits of engineering solutions. Topics include equivalence, simple and compound interest, cash flow diagrams, present worth, equivalent uniform annual worth, rate of return, payback period, depreciation, income taxes, and inflation.

Pre-requisite(s): MATH 1050 or equivalent placement.

EEN 3000 - Design, Ethics & Entrepreneurship**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Fundamentals of the engineering design process. Design modeling, simulation, documentation and communication. Engineering ethics and entrepreneurship.

Pre-requisite(s): EEN 1200.

EEN 3200 - Sustainable Energy**Credits: (3)**

Description: Introduction to sustainable energy. Energy conservation and efficiency. Renewable energy systems and energy storage. Economic, societal and environmental aspects of sustainable energy.

Pre-requisite(s): EEN 1200.

EEN 4100 - Senior Project I**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: An energy engineering project will be selected for team participation. Team assignments will lead to the completion of a preliminary design phase which includes concept generation, engineering analysis and design, prototype testing, and preliminary economic analyses. Senior Project I culminates in a preliminary design review based on formal student presentations of documented engineering drawings of the proposed design.

Pre-requisite(s): Departmental permission.

EEN 4200 - Senior Project II**Credits: (3)**

Description: Continuation of EEN 4100. Team assignments will lead to the construction, testing and optimization of the design. This includes detailed engineering analysis and testing of prototypes, final parameter and tolerance design, and economic analysis of the project. Senior Project II culminates in a final design review based on formal student presentations of the documented final product and verification that the final product meets all requirements.

Pre-requisite(s): EEN 4100.

EEN 4300 - Energy Auditing

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Introduction to energy auditing of buildings and industrial processes. Energy assessment, conservation, efficiency, and cost analysis of energy systems.

Pre-requisite(s): EEN 2600 and ME 4000.

EEN 4420 - Renewable Energy Systems Design I

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Introduction to renewable energy systems. In-depth coverage of the analysis and design of solar and wind energy systems.

Pre-requisite(s): EEN 3200 and ME 4000.

EEN 4430 SUS - Renewable Energy Systems Design II

Credits: (3)

Description: Follow-on course to EEN 4420. Analysis and design of hydroelectric, geothermal, marine, and biomass energy systems. Environmental and economic impacts of these renewable energy technologies.

Pre-requisite(s): EEN 4420.

EEN 4440 - Introduction to Energy Systems

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Introduction to systems engineering as applied to the energy industry. Systems definition, attributes and properties. Command and control, mission modeling, verification and validation, documentation.

Pre-requisite(s): EEN 3000.

EEN 4450 - Electric Vehicles Engineering

Credits: (3)

Description: Introduction to electric and hybrid-electric vehicles. Alternative fuels, powertrains, battery technologies, vehicle dynamics, propulsion, energy management, braking and controls.

Pre-requisite(s): EEN 3200.

EEN 4460 - Energy Management

Credits: (3)

Description: Energy management design, utility rates, economic analyses, mechanical and electrical systems, safety, green technologies and sustainability.

Pre-requisite(s): EEN 3000.

EEN 4470 SUS - Energy and Environmental Issues

Credits: (3)

Description: Environmental impacts of energy systems, fossil fuels, renewable and green technologies, nuclear energy, energy conservation and climate change.

Pre-requisite(s): EEN 3200.

EEN 4480 - Energy and Legal Issues

Credits: (3)

Description: Legal issues of energy systems, regulations, case law pertaining to development and implementation of energy systems, climate change, political influences.

Pre-requisite(s): EEN 3000.

EET 1110 - Basic Electronics

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to the concepts and fundamentals of electronic devices, circuits and systems. An electronics overview course for technology majors. Topics include direct current electricity, alternating current electricity, transistors and integrated circuits, amplifiers and oscillators, transmitters and receivers, digital logic circuits, electronic memory, and computers.

Pre-requisite(s): Credit for or concurrent enrollment in MATH 1010 or higher.

EET 1130 - Digital Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Description: Introduction to digital electronics, integrated circuits, numbering systems, Boolean algebra, gates, flip-flops, multiplexers, sequential circuits, combinational circuits, programmable logic devices, and computer architecture.

Lecture and lab combination. Laboratory activities to include the design, construction, analysis, and measurement of basic digital systems.

Pre-requisite/Co-requisite: Prerequisite: Credit for or concurrent enrollment in MATH 1010 or equivalent or any higher math.

EET 1140 - DC Circuits

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Introduction to DC circuit fundamentals, analysis, theorems, laws, components, measuring devices, and equipment. The introduction and use of measuring instruments and power supplies. Lecture and lab combination. Laboratory activities to include circuit design, construction, and analysis of DC circuits.

Pre-requisite/Co-requisite: Prerequisite: EET 1110 and credit for or concurrent enrollment in MATH 1060 or MATH 1080 or any higher math.

EET 1850 - Industrial Electronics

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$35.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Industrial electronics course for Mechanical and Manufacturing Engineering Technology majors. Introduction to DC and AC circuits, machines, and power systems.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of DC/AC circuits and machinery.

Pre-requisite(s): MATH 1010 or equivalent or any higher math.

EET 2010 - AC Circuits

Credits: (3)

Description: The course serves as an extension of circuit analysis methods taught in EET 1140 to AC networks. The introduction of complex numbers and phasor notation at the beginning of the course is followed by AC circuit analysis techniques and the determination of the frequency response for passive AC networks. The course is a combination of lecture and laboratory formats. Laboratory activities will include the design, computer simulation, validation and analysis of passive AC networks.

Pre-requisite(s): EET 1140 and credit for MATH 1060 or MATH 1080.

EET 2130 - PC Board Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to the design of printed circuit boards and packaging with emphasis on the design, simulation, analysis and packaging of circuits.

Lecture and lab combination. Laboratory activities include the design, construction, and testing of prototype circuit boards. CAD programs will be used for the design and layout of circuit boards.

Pre-requisite(s): AVET 2110.

EET 2150 - Embedded Controllers

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: A study of microprocessors, embedded controllers, operational characteristics, computer architecture, machine code programming, memory devices, and interfacing.

Lecture and lab combination. Laboratory activities include the design, construction, and analysis of microprocessor based systems. Analysis techniques include the use of assemblers, cross-assemblers, and emulators.

Pre-requisite(s): Credit for or Current Enrollment in AVET 2110.

EET 2180 - Solar PV Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is for each student to learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. This course discusses the limitation and the impacts of using fossil fuel energy and its possible impact on global climate change. Solar energy can provide a long term solution and minimize climate change. This course will enable students to build an essential foundation towards how to design the solar PV systems for various applications. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 1140 or EET 1850.

EET 2190 - Solar PV Technical Assessments

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is to educate each student how to be a solar electric professional with demonstrated expertise in the siting, design, analysis and performance of PV systems from site specific information, analyzes customer needs and energy usage for the purpose of advising and providing customers with the most appropriate solution for their situation. Each student will also learn the fundamental knowledge and technology of solar PV (Photovoltaic) systems. The topics in this course include PV markets and applications, electricity basics, safety basics, the fundamentals of solar PV energy, PV system components and configurations, grid-tied and battery-based systems, load analysis, qualifying the customer, site analysis, conceptual PV system design, financial costs, incentives and savings, financial benefit analysis and financing, non-financial benefit analysis, performance analysis, prepare proposals, and professional sales skills. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 1140 or EET 1850.

EET 3020 - Active Filters

Credits: (4)

Description: Continuation of Circuit Analysis, AVET 3010. Topics include active and passive filters, Pole-zero analysis, stability, Bode diagrams, frequency response, and applications.

Lecture and lab combination. Laboratory activities include circuit design, construction, computer simulation, and analysis.

Pre-requisite(s): AVET 3010.

EET 3030 - FPGA and ASIC Design

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to field programmable gate arrays (FPGA) and application specific integrated circuit (ASIC) design.

Lecture and lab combination. Laboratory activities to include the use of computer design tools to design, model, simulate, and program gate arrays and application specific integrated circuits.

Pre-requisite(s): EET 2150.

EET 3040 - Instrumentation and Measurements

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to electronic data acquisition, data analysis, error analysis, signal measurement, and automatic testing techniques.

Lecture and lab combination. Laboratory activities to include the design, construction, and analysis of measurement circuits, data acquisition circuits, instrumentation devices, and automatic testing.

Pre-requisite(s): AVET 2110, AVET 2170.

EET 3050 - Microprocessor Systems

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Microprocessor system development using modern software design principles and high level programming languages. Topics include peripheral interfacing, real-time operating systems and debugging techniques.

Lecture and lab combination. Laboratory activities to include design, simulation, computer programming, analysis, and troubleshooting.

Pre-requisite(s): EET 2150 and either CS 1410 or CS 2250.

EET 3060 - Real-Time Embedded Controllers

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to real-time kernels and operating systems. Priority-based pre-emptive scheduling, intertask communication, and intertask synchronization will be studied. Other topics include priority inversions, semaphores, mutexes, context switches, rate monotonic analysis (RMA), various kernel services, finite state machines, and nested state machines.

Pre-requisite(s): EET 2150.

EET 3070 - Engineering Technology Research

Credits: (3)

Description: Engineering problem solving using the Internet, professional journals, and human networking. Three styles of writing emphasized; technical descriptions, historical perspectives of technology, and technical defensible arguments.

Pre-requisite(s): AAS degree in CET or EET.

EET 3080 - Embedded Networks

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: This course provides an in-depth study of several serial communication standards and how to implement them in embedded systems. The standards addressed in this class include RS232, RS485, Controller Area Network (CAN), and Ethernet. Emphasis will be placed on utilizing the stacks and protocols for each standard. The channel bandwidth, noise, and data error rate will be addressed. Wireless methods of serial communication will be surveyed.

Pre-requisite(s): EET 2150.

EET 3090 - Project Management

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: EET 3090 Project Management course is designed to prepare students for the senior capstone project. The course will include development of a contract, goal setting, time management, budgeting, project funding, project leadership and team building principles. Engineering economics, team work, quality statistics and continuous improvement will also be discussed. Other topics include project life cycles, organization and risk management.

Pre-requisite(s): EET 1110, and EET 1140, and EET 2010.

EET 3100 - Renewable Energy

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of the EET 3100 Renewable Energy course is for each student to learn the fundamental knowledge and technology of various types of renewable energy including solar energy, wind power, hydroelectric, geothermal energy, biomass and ocean energy. This course discusses the limitations and the impacts of using fossil fuel energy and its possible impact on global climate change. This course will enable students to build an essential foundation towards the specific applications of renewable energy such as solar PV (Photovoltaic) systems, wind turbine systems and micro-hydro systems. Incentives, rebates and policies from federal, state and local power companies will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in the area of renewable energy.

Pre-requisite(s): EET 1110 or EET 1850.

EET 3180 - Advanced Solar PV Systems

Credits: (4)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The purpose of this course is for each student to learn the advanced knowledge and technology of solar PV (Photovoltaic) systems. This course will enable students to verify system design, manage project, install electrical and mechanical components, complete system installation, and conduct maintenance and troubleshooting. The topics in this course includes PV markets and applications, safety requirements, the advanced technology of solar PV systems, PV system components, grid-tied and battery-based systems, load analysis and PV system sizing, PV system electrical and mechanical designs, National Electric Code (NEC) applied to PV systems, commissioning and decommissioning, performance analysis, maintenance and troubleshooting, and CAD software for PV system design. Incentives, rebates and policies from federal, state and local power company will also be addressed in the class. The students will learn how to acquire professional certifications if they are interested in developing a career in solar PV industry.

Pre-requisite(s): EET 2180.

EET 3810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

EET 4010 - Senior Project I

Credits: (2)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.

Pre-requisite(s): EET 3090.

EET 4020 - Senior Project II

Credits: (2)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: A continuation of EET 4010 Senior Project I. Students will work on teams to design, construct, test, and install a significant engineering project. The course includes selecting a team, selecting a project, writing a contract, maintaining a logbook, creating and following project milestones, setting and completing weekly goals, writing a manual, and making a final presentation to students, faculty, and industry advisers.

Pre-requisite(s): EET 4010.

EET 4060 - Advanced Communications

Credits: (4)

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: Introduction to satellite communications, spread spectrum techniques, digital satellite communications, antennas, small signal amplifiers, Smith charts, and "S" parameter analysis.

Lecture and lab combination. Laboratory activities to include the design, construction, computer simulation and analysis of wireless communications circuits and systems.

Pre-requisite(s): AVET 3010.

EET 4090 - Systems Design and Integration

Credits: (3)

Course Fee: \$5.00

Course Fee Purpose: Lab related consumables and maintenance of laboratory equipment.

Description: An introduction to the fundamentals of large-scale systems. The first part deals with systems analysis, design and integration with emphasis on input/output models, transfer functions, and interface issues. The second part discusses a variety of systems design and management approaches, particularly those concerned with system requirements, interface control, evaluation, quality assurance through configuration management, audits and reviews, and the human role in systems.

Pre-requisite(s): EET 3090.

EET 4800 - Individual Studies

Credits: (1-4)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Course fees are used for lab equipment replacement and maintenance, electronic components used in labs, lab computers, software licensing, and printer paper. Small purchases of equipment and components required for projects may be covered by course fees.

Description: The student will receive credit for approved studies in an area not covered in the EET program. A maximum of four credits can be counted as electives for EET majors.

EET 4890 INT - Cooperative Work Experience

Credits: (2)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The student will receive credit for approved electronics industrial experience. Professional development activities will include resume writing, goal setting, progress reports, and a supervisor's evaluation.

Pre-requisite(s): Permission from the department.

The course can be taken a maximum of three times for a total of 6 credits.

EET 4900 - Special Topics

Credits: (1-4)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$5.00

Course Fee Purpose: Course fees are used for lab equipment replacement and maintenance, electronic components used in labs, lab computers, software licensing, and printer paper. Small purchases of equipment and components required for projects may be covered by course fees.

Description: A one-time special study course designed to introduce a new relevant topic that is not covered in the EET program.

Lecture and lab combination. Laboratory activities to support the selected course topic.

May be repeated four times for a maximum of seven credit hours.

Note: A maximum of four credits can be counted for EET majors.

ENGL 0900 ND - Fundamentals of College Reading and Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to help students develop fundamental reading, writing, grammar, and thinking skills. Students in this course may work closely with Writing Center tutors in one-to-one settings. Students with ACT scores in either English or Reading of 12 and below are required to take ENGL 0900 ND. Students without ACT scores are also placed in this course unless they are otherwise placed by Accuplacer. Students must complete this course with a grade of C or better before enrolling in ENGL 1005 or ENGL 1006. For optimal learning, students are strongly encouraged to enroll in ENGL 1000 (College Reading) or ENGL 1001 (College Reading for Multilingual Learners) while taking ENGL 0900.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 0955 ND - Developmental College Reading and Writing

Credits: (6)

Typically Taught Summer Semester: *Full Sem, Full Sem Online*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: A course to help students develop reading, writing, and critical thinking skills prerequisite for entry-level college courses. Students in this course are supported by the Skills Enhancement Center. Students who pass ENGL 0900 with a grade of C or better, whose ACT scores in English or Reading run from 13 to 16, or who are placed by Accuplacer are placed in ENGL ND0955. Students must complete ENGL ND0955 with a grade of C or better before enrolling in ENGL 1010.

Note: ND (non-degree) do not count toward hours required for graduation.

ENGL 1000 - College Reading

Credits: (1-3)

Description: The objective of ENGL 1000 is to improve students' skills for successful college-level reading, emphasizing proven literacy strategies. This goal is accomplished by providing a variety of active reading and thinking approaches, as applied to college-level texts.

May be repeated 4 times up to 6 credit hours.

Note: Check with Department for course availability.

ENGL 1001 - College Reading for Multilingual Learners

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: English 1001 is primarily designed for bilingual or multilingual learners. This course focuses on support for language acquisition, focusing on reading, understanding, and engaging with academic topics. Through a guided approach, the students will improve reading comprehension and thereby improve writing, listening, and speaking skills. The course will also include exposure to university culture and language development.

ENGL 1002 - College Reading 2

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: The objective of ENGL 1002 is to deepen students' skills for successful college-level reading, emphasizing advanced literacy strategies. This goal is accomplished by building on the foundations of ENGL 1000/ENGL 1001 using active reading and thinking approaches as applied to college-level texts.

Pre-requisite(s): ENGL 1000 or ENGL 1001 with a grade of "C" or better.

Suggested Requisite(s): ENGL 1005 or ENGL 1007.

ENGL 1005 EN1 - College Reading and Introductory Writing

Credits: (6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: English 1005 introduces students to the habits and practices necessary for reading and writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, improving reading comprehension, and the interrelationship between reading and writing. Students who have placed into ENGL 0955 (Level 2) may choose to take this accelerated course, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete ENGL 1010 satisfactorily (a grade of "D-" or better) before enrolling in ENGL 2010 or ENGL 2015.

Pre-requisite(s): Level 2 placement or ENGL 0900 with a grade of C or better.

ENGL 1006 - College Reading and Introductory Writing, Part A

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: English 1006 introduces students to the habits and practices necessary for writing at the college level. Students will focus on the writing process, writing for specific audiences, collaboration with peers, grammatical and mechanical correctness, and reading comprehension. Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010. Students must complete both ENGL 1006 and ENGL 1007 satisfactorily (with a grade of C or better) before enrolling in ENGL 2010 or ENGL 2015.

Pre-requisite(s): Level 2 English placement or completion of ENGL 0900 with a grade of C or better.

Suggested Requisite(s): For optimal learning, students are strongly encouraged to take this course along with ENGL 1000 (College Reading) or ENGL 1001 (College Reading for Multilingual Learners) in the same semester.

ENGL 1007 - College Reading and Introductory Writing, Part B

Credits: (3)**Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: English 1007 builds upon the foundational habits and practices necessary for writing at the college level established in ENGL 1006. Students will learn practices of successful university-level writing across multiple genres, focusing on the writing process, writing for specific audiences, collaboration with peers, the interrelationship between reading and writing, and applying literacy techniques learned to college-level texts. The course applies advanced reading comprehension practices. Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010.

Pre-requisite(s): ENGL 1006 with a grade of "D-" or better.

Suggested Requisite(s): For optimal learning, students are strongly encouraged to take this course along with either ENGL 1001 (College Reading for Multilingual Learners) or ENGL 1002 (College Reading 2) in the same semester.

Note: Students who have placed into ENGL 0955 (Level 2) may choose to take the two-semester course sequence of ENGL 1006 and ENGL 1007, which will satisfy the requirements for ENGL 0955 and ENGL 1010.

ENGL 1010 EN1 - Introductory College Writing**Credits: (3)****Typically Taught Summer Semester:** *Full Sem, Full Sem - Online***Typically Taught Fall Semester:** *Full Sem, Full Sem - Online, 1st Block, 1st Blk Online, 2nd Block***Typically Taught Spring Semester:** *Full Sem, Full Sem - Online, 1st Block*

Description: Students will learn practices of successful university-level writing across multiple genres. Students will focus on the writing process, writing for specific audiences, collaboration with peers, and on the interrelationship between reading and writing.

Pre-requisite(s): To enter 1010 the student must have 17 or higher on both ACT English and Reading, or equivalent. Students must complete ENGL 1010 satisfactorily (a grade of "D-" or better) before enrolling in ENGL 2010 or ENGL 2015.

ENGL 2010 EN2 - Intermediate College Writing**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This course will focus on writing researched arguments, discerning, engaging with, and documenting sources, and writing with rhetorical awareness and persuasive force. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers.

Pre-requisite(s): Level 4 placement, passing ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 with "D-" grade or better, AP Language and Composition or Literature and Composition examination with a score of 3 or better, ACT English and Reading score of 29 or better, CLEP with essay test with a score of 50 or better, or articulated transfer credit from another regionally accredited college or university.

ENGL 2015 EN2 - Intermediate College Writing & Research**Credits: (4)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: Intermediate College Writing & Research focuses on combining writing and research skills. It will focus on writing arguments, conducting research, and documenting sources. Students will continue to learn practices of successful academic writing including the writing process, writing for specific audiences, and collaboration with peers. Students completing this course will be able to use an academic library and the Internet to successfully identify, access, evaluate and use information resources to support academic success and lifelong learning. This course will

fulfill both the English Composition and the Information Literacy General Education core requirements.

Pre-requisite(s): Level 4 placement, passing ENGL 1005 or ENGL 1010 or *both* ENGL 1006 and ENGL 1007, with a grade of "D-" or better, passing the AP Language and Composition or Literature and Composition examination with a score of 3 or better, achieving an ACT English and Reading score of 29 or better, a CLEP with essay test with a score of 50 or better, or an articulated transfer credit from another regionally accredited college or university.

ENGL 2100 - Technical Writing

Credits: (3)

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem, Online*

Typically Taught Spring Semester: *Full Sem, Online*

Description: This course prepares students for on-the-job writing and emphasizes the importance of audience analysis, graphics, and document design. Students study and practice writing and designing a variety of technical documents as they learn to write clearly, concisely, and persuasively to a specific audience for a specific purpose.

Pre-requisite/Co-requisite: ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2120 - Introduction to Writing and Document Design

Credits: (3)

Typically Taught Fall Semester: *Check with department*

Typically Taught Spring Semester: *Full Sem*

Description: Through literary texts, including fiction, non-fiction and poetry as well as film and other digital mediums, this course will introduce students to the ways writing fits into various types of organizations, which are increasingly focused around knowledge work, or work that analyzes and communicates rather than manufactures products. Within the framework of writing, students will learn how organizations are networked and situated, and how collaboration, systems of power, organizational structures, and various audiences and stakeholders function.

ENGL 2130 - Media and Technology in Texts

Credits: (3)

Typically Taught Fall Semester: *Check with department*

Typically Taught Spring Semester: *Full Sem*

Description: Through the study of literary texts such as fiction, poetry, nonfiction, and film, students will gain an understanding of key concepts in the study of media and technology, including historical and forward-looking perspectives. These might include such topics as the impact of technology on society and culture, how new technologies shape information and how new media forms affect reading, writing and analysis.

ENGL 2140 - Introduction to Professional and Technical Editing

Credits: (3)

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Description: This course focuses on basic editing in the workplace. We examine genres, electronic editing, version control, collaboration, synchronous and asynchronous writing/editing, and literature related to editing.

ENGL 2150 - Gender and Culture in Workplace Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

Description: Gender and culture affect professional and technical writing and an understanding of the many roles we encounter and play through gender and culture is essential for writers. This course will overview for students the

many ways gender and culture can be applied to and explored in professional and technical writing and provide practice identifying and analyzing such issues through literature.

ENGL 2160 - Introduction to Web-Based Technical Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

Description: This course will first cover how organizations create and share information on the web and social media, and how the differences in reader expectation and reading behavior between printed and online texts help shape the information. The course will then focus on characteristics of good online content, analysis of audience and purpose, and strategies for writing and designing content to meet the needs and expectations of the readers. Throughout the semester, students will practice, individually and collaboratively, good writing and designing skills in learning to become effective writers of a workplace.

ENGL 2200 HU/CC - Introduction to Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: This foundational course examines literary form and genre. Studying literature written by a diverse range of authors from various cultures and historical periods, students will be introduced to three major literary modes: fiction, drama and poetry. Students will learn how to read literary texts closely and critically. They will learn how forms adapt over time. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2210 - Introduction to Film Theory and Criticism

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces students to the theory and practice of critically analyzing film. We will survey the international development of film from its origins to the present. Our focus will be on the history and methods of narrative film, including the development of film and digital technology, and on the modern viewer's expected skill in "reading" film.

ENGL 2220 HU/CC - Introduction to Fiction

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: An introduction to short stories, novellas, and novels, selected from a diverse range of authors from various cultures and historical periods. Students will learn how to read fiction carefully and critically, and how fiction can have a meaningful part in their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2230 HU/CC - Introduction to Drama

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: An introduction to drama from around the globe, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to analyze

and appreciate plays and to recognize their contemporary relevance. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2240 HU/CC - Introduction to Poetry

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: An introduction to poetry written in English, selected from a diverse range of authors from various cultures and historical periods. Students will develop the critical and interpretive skills necessary to appreciate the craft of poetry as a valid and important way of talking about human experiences. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing.

ENGL 2250 CA/CC - CW: Introduction to Creative Writing

Credits: (3)

Typically Taught Summer Semester: *Full Sem-Online, 1st Block, 2nd Block*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: In this introductory course students will write original pieces in three genres that may include flash fiction, short stories, poetry, creative non-fiction, plays, and graphic novels. Students will read exemplary pieces from each genre in order to build a vocabulary base. Through writing exercises, students will generate original writing and refine oral and communicative skills. Students will critique and be critiqued in order to revise early drafts.

Pre-requisite(s): ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 or ENGL 2010 or ENGL 2015 with a grade of "C" or better.

ENGL 2260 CA/CC - CW: Introduction to Writing Short Fiction

Credits: (3)

Typically Taught Summer Semester: *1st Blk Online*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This intermediate course introduces students to short fiction writing in a workshop setting. This course is a writing laboratory where students will experiment with various types of short fictions. Students will read canonical and contemporary stories with an eye toward elements of craft as they discover, write, workshop, and revise.

Pre-requisite(s): ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 or ENGL 2010 or ENGL 2015 with a grade of "C" or better.

ENGL 2270 CA/CC - CW: Introduction to Writing Poetry

Credits: (3)

Typically Taught Summer Semester: *1st Block*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This intermediate course introduces students to poetry writing in a workshop setting. This course is a writing laboratory where students will experiment with various types of poetry. Students will read canonical and contemporary poems with an eye toward elements of craft as they discover, write, workshop, and revise.

Pre-requisite(s): ENGL 1005 or ENGL 1006 and ENGL 1007 or ENGL 1010 or ENGL 2010 or ENGL 2015 with a grade of "C" or better.

ENGL 2280 CA - CW: Introduction to Writing Creative Nonfiction

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem - Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: In this introductory course, students will learn the basics of writing creative nonfiction, including how to shape personal experiences into dynamic art through study, practice, and play. Students will be introduced to a variety of narrative strategies such as braided, hybrid, and lyric essays. Ultimately, students will deepen their self-understanding while refining and expanding their storytelling skillset.

Pre-requisite(s): ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2295 - CW: Introduction to Screenwriting

Credits: (3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: In this introductory course, students will learn the basics of screenwriting, including how to use action and dialogue to convey character and establish tension. Additionally, students will begin working with screenwriting software to develop an understanding of the formatting conventions of the genre.

Pre-requisite(s): ENGL 1005 or ENGL 1010 or ENGL 2010 or ENGL 2015.

ENGL 2420 - Young Adult Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Young Adult Literature will introduce students to a variety of literary works within this popular and compelling genre. Through close reading, we will examine various features, themes, and representations of adolescence and adulthood. We will also consider different pedagogical approaches to these texts to uncover broader literary and sociocultural dimensions.

Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 2501 HU/CC - Literature Today

Credits: (3)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem, Full Sem-ONL*

Typically Taught Spring Semester: *Full Sem, Full Sem-ONL*

Description: Why and how do writing and reading still matter? This course explores writing since the year 2000, by writers from around the world whose work - directly and indirectly - addresses the urgent issues of today, including but not limited to economic disruption, technological innovation, exclusionary and divisive politics, social alienation, racism, misogyny, colonialism. The course is geared towards students in their first and second year, and includes opportunities to learn more about the Department of English Language and Literature and its programs.

ENGL 2700 - Introduction to Critical Theory

Credits: (3)

Typically Taught Summer Semester: *Full Sem-Online*

Typically Taught Fall Semester: *Full Sem, Full Sem-ONL*

Typically Taught Spring Semester: *Full Sem, Full Sem-ONL*

Description: Students will study and practice critical approaches to literature. This course introduces theories,

interpretive frameworks, and central questions about literature and literary media. What do we mean by "literature" itself? How might we compare and evaluate literary interpretations? Why do we read? What assumptions do we take for granted when we read? How does the historical, social and cultural context of a text shape its meanings and its effects? Combining major critical and theoretical writings with literary works, the course investigates how textual production and interpretation are informed by philosophical and aesthetic traditions, gender and sexuality, race and ethnicity, national and postcolonial identities, and the material forms in which literature circulates. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective.

ENGL 2710 HU/CC - Perspectives on Women's Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Check with Department*

Description: The purpose of this class is to introduce students to the rich contributions of women to the field of literature. The course will cover a variety of women writers that may range from the medieval period to the present and will feature literary genres such as fiction, poetry, drama, non-fiction, and journals/diaries. In discussing and writing about these works, students will consider why women were excluded or marginalized in the canon for such a large part of literary history and how society, family, and politics impacted the way these women wrote.

ENGL 2750 HU - Topics and Ideas in the Humanities

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This variable topics course focuses on topics and ideas in the humanities. The course may consider social, political, artistic, environmental, or philosophical themes across disciplines. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion and to probe the various intentions of any act of writing.

May be taken twice for a total of 6 credits.

ENGL 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ENGL 2830 - Directed Readings

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individual readings supervised by a faculty member.

Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.

May be repeated twice up to 6 credit hours.

ENGL 2890 - Cooperative Work Experience

Credits: (1-6)

Description: Open to all students in the English Department who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.

May be repeated 5 times up to 6 credit hours.

Note: Check with department for current course offerings.

ENGL 2920 - Short Courses, Workshops, Institutes, and Special Programs**Credits: (1-6)****Workshop**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.

May be repeated for a total maximum of 6 credit hours.

Note: Check with department for current course offerings.

ENGL 2920S INT - Community Service**Credits: (3)**

Description: Students will receive an overview of community service and explore opportunities for service learning in the community. A weekly seminar with required readings and writings as necessary and 50 hours of community service.

Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.

Note: Check with department for current course offerings.

ENGL 2999 INT - Capstone in Workplace Communication and Writing**Credits: (3)**

Description: This class provides an opportunity for students to synthesize and demonstrate their learning in the Associate of Workplace Communication program. The primary purpose of this course is to help students transition from earning an associate's degree to pursuing a job and/or continued education toward a bachelor's degree. The course will include employment-related content such as interviewing skills, job shadows, career research, portfolios, resumes, and cover letters. The course will also include a section on workplace ethics to develop responsible and productive professionals. Cross-listed with COMM 2999.

Pre-requisite(s): Permission of Instructor Required.

Note: Check with Department for course availability.

ENGL 3010 - Introduction to Linguistics**Credits: (3)**

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces students to the scientific study of language. It looks across languages to explore what they have in common, as well as what distinguishes them from one another. Students learn basic analytic techniques in articulatory phonetics, phonology, morphology, syntax, and semantics and apply them to data drawn from various languages. These core concepts may be applied to other areas, such as language acquisition, language history, language and culture, language and society, language and thought, or language and literary expression.

Pre-requisite(s): ENGL 2010, ENGL 2015, or equivalent.

Note: Students in English, foreign languages, anthropology, philosophy, psychology, and history are encouraged to take this course.

ENGL 3020 - Teaching English/Language Arts

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course is designed for English teaching majors and minors. Students in the course will study a variety of literary works to better understand the ways that literature engages interest and promotes deep learning. Students in the course will study pedagogical practices that support the effective and equitable teaching of literature in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.

Pre-requisite(s): ENGL 2010, ENGL 2015 or equivalent and admitted to Secondary Education program.

Pre-requisite/Co-requisite: ENGL 2420.

ENGL 3030 - Structure of English

Credits: (3)

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course presents the major parts of speech, grammatical functions, and constructions of Standard English. Its purpose is to show that English, like any human language, is an intricate and rule-governed system. To this end, it draws on the terminology of traditional grammar and the analytical techniques of structural and transformational grammar, including contextual definitions and tree diagramming. The course is directed toward departmental English majors, teaching majors, advanced ESL students, and students majoring in foreign language teaching.

Pre-requisite(s): ENGL 2010 or ENGL 2015, or equivalent.

ENGL 3040 - History of the English Language

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course begins by introducing the elementary vocabulary and concepts of linguistic theory as these pertain to historical linguistics. It then traces the prehistory of English from its beginnings in Indo-European, through its place in the Germanic branch, to its historical phases of Old, Middle, and Early Modern English. Attention may also be given to national varieties of English and the development of English as a world language.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3050 - Grammar, Style, and Usage for Advanced Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage in order to become more proficient writers. Its purpose is to offer practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is offered to all English majors and minors as a means of fulfilling the language requirement for the major, especially those in technical writing or creative writing. Students in communication, pre-law, and criminal justice may also find the class meets requirements.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3080 - Critical Approaches to Literature

Credits: (3)

Typically Taught Summer Semester: *Check with Department*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: Students will study and practice critical approaches to literature. The course will begin with New Criticism and proceed to study more resistant reading strategies such as feminism, Marxism, and deconstruction. Students will not only learn the theoretical premises behind these theories, but also practice explicating various texts from a particular critical perspective. Primarily for English majors and minors. Recommended to take early in major.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

Suggested Requisite(s): ENGL 2200, ENGL 2220, ENGL 2230, or ENGL 2240.

ENGL 3100 - Professional and Technical Writing**Credits: (3)**

Typically Taught Summer Semester: *Full Sem Online, Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem, Full Sem Online*

Typically Taught Spring Semester: *Full Sem, Full Sem Online*

Description: This course introduces students to the basic theories and practices of technical communication. Using audience, purpose, and context as their guides, students create various professional and technical documents, such as formal and informal reports, instructions, proposals, job application materials, brochures, web media, and presentations. Working both individually, and in collaboration, students analyze their rhetorical situation as they create usable and appropriate professional documents. This course provides the practical and theoretical basis for the minor and emphasis in Professional and Technical Writing.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3120 - Foundations in Professional & Technical Writing**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Description: This course provides the theoretical and rhetorical knowledge that underpins the practice of technical and professional writing. Students will learn about rhetorical theories, research methods, social justice initiatives, technological theories, and ethics. The course will prepare students for understanding why technical and professional writers make the choices they do and empower students to explain the exigence of their field of study.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3130 - Digital Writing Technologies**Credits: (3)**

Typically Taught Fall Semester: *Full Sem*

Description: This course will introduce students to the tools/software that technical writers and other professionals use in the workplace. Topics include, but are not limited to, Advanced Features in MS Word (styles, macros), the Adobe Suite, Advanced Features of online collaborative tools (the Google Suite among others), the suite of Apple products. This instruction prepares students, not just English majors, for the necessary skills to enter into the workforce prepared to succeed.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3140 - Professional and Technical Editing**Credits: (3)**

Typically Taught Spring Semester: *Full Sem*

Description: Building on the knowledge of technical writing genres and the writing strengths developed in ENGL 3100, this course introduces students to copyediting, comprehensive editing, and the basics of collaborative editing and document management. Technical editing is designed to strengthen students' writing, editing, and visual design

skills through attention to detail and application of style, grammar, and usage principles. Additionally, this course focuses on hard copy and soft copy editing principles.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3160 CEL - Grant Writing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This class introduces you to the grant writing process and provides you with experience writing actual grant applications in collaboration with a local non-profit organization. By the end of the class you will know the basic elements of grant writing and be able to identify organizational needs; research appropriate funding sources; plan, develop, and write grant proposals.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3190 CEL - Document Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course teaches a rhetorical approach to document design. Using the rhetorical principles of audience, purpose, and context, students will discuss sample documents, analyze the layout of documents (both professional documents and ones students create in class), and articulate what makes an effective layout and design (regarding arrangement, emphasis, clarity, conciseness, tone, and ethos). Throughout the course, students will create (both individually and collaboratively) documents that meet client specifications thereby providing practical experience and generating material for their professional portfolios.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3210 - Advanced College Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Basic expository techniques combined with other forms of discourse. Emphasis on originality, clarity and practical application for other courses as well as vocation.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3240 - CW: Writing Creative Nonfiction

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This advanced course is designed for students who wish to increase their aptitude in the art of creative nonfiction writing, including lyric essay, personal essay, and memoir. Students will write, revise, and workshop in order to produce publishable material.

Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3250 - CW: Advanced Fiction Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: Students will learn advanced fiction writing skills. Whether they plan to write novels or short fiction, this class will develop their use of plot, character, point of view, narrative structure, setting, image, wordplay and syntax. Students will write, revise, and workshop in order to produce publishable material.

Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3260 - CW: Advanced Poetry Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This advanced course is designed for students who wish to increase their aptitude in the art of poetry writing. Students will read contemporary and canonical poems with an eye toward line, stanza breaks, imagery, sound, rhythm, and structure. Students will write, revise, and workshop in order to produce publishable material.

Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

Note: This course is taught every other Spring.

ENGL 3280 - Biographical Writing

Credits: (3)

Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*

Description: Includes autobiographical writing and is oriented strongly toward personal and familial interests. Written assignments include the personal narrative, character sketch, as told to, and conclude with a chapter or two on a projected book-length project. Extensive written and oral input on each assignment from professor and class. Strong emphasis is placed on techniques of research including interviewing, effective characterization, narration and description. Prior experience in imaginative writing and other areas of literature is recommended.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3290 - CW: Advanced Screenwriting

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: In this advanced course, students will enhance their understanding of screenwriting by studying produced films and workshoping their own original work. We will focus on developing complex characters through action and dialogue, studying and applying the movement of the three-act structure, and creating scenes driven by desire and the obstacles to those desires. In short, students will build on the basics that they have already begun to master and will apply those towards creating more sophisticated work.

Pre-requisite(s): ENGL 2240 or ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3300 - Children's Literature

Credits: (3)

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Students will study the principles of literature for children with special emphasis on evaluation and selection, classroom and library use, ethnic and cultural diversity, and the development of literacy. Designed to meet the needs of teachers, those preparing to teach and those who work with children in various settings.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3350 - CW: Studies in Literary Genres

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This variable topics course introduces students to the historical and cultural origins of literary genres,

their distinguishing features, and the dynamics of literary development. Genres may include the novel, drama, poetry, creative non-fiction, bildungsroman, the diary, biography, autobiography, satire, and others. It may be taken more than once with different designations.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

May be repeated once for a total of six credit hours.

ENGL 3352 - Studies in World Literary Genres

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This variable topics course introduces students to familiar and unfamiliar world literary genres, exploring their distinctive features and their interactions with the cultures and histories they represent. Genres might include poetry and prose, fiction and non-fiction, satire and fable, tragedy and ballad, biography and autobiography, and many others.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3353 - Genres in Cultural and Media Studies

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This variable topics course introduces students to genres in cultural and media studies, their distinguishing features, and the dynamics of their development. Genres may include the novel, digital novel, film, television, social media, advertising, music, and the internet.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3354 - Genres in Writing and Interdisciplinary Studies

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This variable topics course introduces students to interdisciplinary genres, new directions in transcending disciplinary boundaries, or issues in writing and rhetoric. Genres may include various forms of narrative as they intersect with the sciences, social sciences, arts and humanities, health professions, business and economics, applied science and technology, and others.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3355 - CW: Creative Nonfiction Forms and Craft

Credits: (3)

Description: This class asks students to experiment with form and structure within the genre of creative nonfiction writing to understand how narrative shape affects the reader's experience.

Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3360 - CW: Short Story Forms and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Online*

Description: This class asks students to experiment with form and story structure within the genre of fiction writing, to understand how narrative shape affects the reader's experience.

Pre-requisite(s): ENGL 2250, ENGL 2260, ENGL 2270, ENGL 2280, or ENGL 2295.

ENGL 3365 - CW: Novel Forms and Craft

Credits: (3)

Typically Taught Summer Semester: *Check with Department*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This class asks students to experiment with form and structure within the genre of novel writing to understand how narrative shape affects the reader's experience.

Pre-requisite(s): Any one of the following: ENGL 2250, ENGL 2260, or ENGL 2270.

ENGL 3370 - CW: Poetic Forms and Craft

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This class asks students to experiment with form and structure within the genre of poetry writing to understand how prosody affects the reader's experience.

Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3375 - CW: Notebooks and Journals Forms and Craft

Credits: (3)

Description: This class examines the writer's notebook, reading examples and studying possibilities. Students will keep a writer's notebook inspired by those examples.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3380 - CW: Screenwriting Forms and Craft

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem*

Description: This class asks students to experiment with form and structure within the genre of screenwriting to understand how dialogue and scene affects the reader's experience.

Pre-requisite(s): ENGL 2250 or ENGL 2260 or ENGL 2270 or ENGL 2280 or ENGL 2295.

ENGL 3410 INT - The Teaching of Writing

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course is designed for English Teaching majors and minors. Students in the course will study pedagogical practices that support the effective and equitable teaching of writing in diverse and inclusive classrooms. Students will develop curriculum that is aligned with the Utah State Core Standards and that is rationalized in current research.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent, and admitted to Secondary Education program.

Co-Requisite(s): ENGL 3020.

Pre-requisite/Co-requisite: ENGL 2420.

ENGL 3500 HU - Introduction to Shakespeare

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Even Years, Full Sem - Online Odd Years*

Description: This class is an introduction designed to foster a critical appreciation of the plays of Shakespeare. The class is intended for all who wish to gain a greater appreciation for Shakespeare and his work. Students can expect to study a varied selection of Shakespeare's plays and poems, as well as historical, cultural, critical, and performance contexts.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3510 HU/CC - World Literature

Credits: (3)

Typically Taught Summer Semester: *Check with Department*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This is a selection of masterworks from a variety of authors, regions, and eras - expressly to introduce diverse literatures other than British and American. The required readings may vary considerably from semester to semester, according to the instructors' expertise.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3520 HU - Literature of the Natural World

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with department for course availability.*

Description: This course engages literary texts that focus on humans in relation to their natural environment. Conceived as a survey course, it attempts to delineate the various traditions of environmental concern, from the ancient past to the present, and to draw attention to the ongoing relevance of such texts. Students will learn how to read closely and carefully, and how to make such literature meaningful for their own daily lives.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3530 - The Literature of Business and Economics

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This course examines historical and contemporary issues in the world of business and economics through literature, film, and essays. The course will explore concepts such as private property, commodities and natural resources, wage labor, capital, public lands, and globalization. Students will investigate pertinent moral and ethical questions connected with these concepts from both historical and contemporary perspectives, such as the distribution of wealth and poverty, consumption and resource management, competition and conflict, and social (in)stability. The course is designed to improve writing skills, specifically the ability to express complex ideas from a variety of perspectives and to improve critical and creative thinking skills while stressing the importance of learning through writing.

ENGL 3540 - Adaptation Studies

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course focuses on the process by which literary works and other texts are adapted into other forms and media, and on the product of that adaptive process. Works may include traditional text-to-film

adaptations, as well as more non-traditional forms such as graphic novels, music, television, the Internet, and more.
Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3551 - Queer Literature

Credits: (3)

Typically Taught Fall Semester: *Full Sem, Full Sem-Online*

Typically Taught Spring Semester: *Full Sem, Full Sem-Online*

Description: This course examines literature that centers queer perspectives—that is, the identities and experiences of people who are lesbian, gay, bisexual, pansexual, transgender, intersex, non-binary, two-spirit, asexual, or otherwise queer. We will study significant work by writers from diverse backgrounds and different historical periods. The class will cover themes that have been of central importance to queer literature. These include questions about identity and what it means to be queer; representations of love, from queer tragedy to queer joy; chosen family; political liberation; and how queerness intersects with class, race, and other identity categories. We will discuss how queer theory can illuminate this literature. No background in LGBTQIA+ literature, theory, or history is required to participate in this course.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3610 - American Literature I

Credits: (3)

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course will introduce students to the study of American Literature from its earliest known works to those produced prior to the American Civil War. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3620 - American Literature II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course will introduce students to the study of American Literature from the American Civil War to the contemporary period. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3650 - British Literature I

Credits: (3)

Typically Taught Summer Semester: *Check with Department*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online Even Years*

Typically Taught Spring Semester: *Full Sem*

Description: This course will introduce students to the study of British Literature from its earliest known works to those produced in the eighteenth century. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3660 - British Literature II

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course will introduce students to the study of British Literature from the eighteenth century to the

contemporary period. We will examine its history, major works, and literary concepts.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 3730 - Literatures of Cultures and Places

Credits: (3)

Variable Title

Description: This variable topics course examines literatures, cultures, and nations beyond England and America. Students will be introduced to the ways in which texts are closely tied to geographical place and cultural space as well as the historical movement from which they emerge. The course may focus on a single national culture or, alternately, offer representative works from various cultures.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be repeated 3 times with different designations.

ENGL 3750 HU - Topics and Ideas in Literature

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be repeated 3 times with different designations.

ENGL 3752 - Topics and Ideas in World Literature and Language

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Check with Department*

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This variable topics course focuses on the various social, philosophical, and political themes emerging in literary texts from around the world. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any act of writing.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Note: Check with Department for course availability.

ENGL 3753 - Topics and Ideas in Cultural and Media Studies

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Check with Department*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with Department*

Description: This variable topics course focuses on various themes in cultural and media studies. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text. It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3754 - Topics and Ideas in Writing and Interdisciplinary Studies

Credits: (3)

Variable Title

Typically Taught Summer Semester: *Check with department for course availability.*

Typically Taught Fall Semester: *Check with department for course availability.*

Typically Taught Spring Semester: *Full Sem*

Description: This variable topics course focuses on themes manifest in the field of writing and in interdisciplinary studies. This course may focus on issues in writing, rhetoric, and other disciplines as they intersect with English. Students will learn the critical skills necessary to identify the intellectual currents in the texts under consideration, to engage in focused discussion, and to probe the various intentions of any text.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 3755 - Teaching Language in the Secondary Schools

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Description: This course focuses on teaching language in the secondary schools. The course considers social, political, artistic, environmental, or philosophical themes in relationship to English teaching. Students in the class will learn to translate intellectual movements to pedagogical practices and approaches. May be taken twice for a total of 6 credits.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program.

ENGL 3810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ENGL 3840 - Methods and Practice in Tutoring Writers

Credits: (1-3)

Typically Taught Fall Semester: *Full Sem*

Description: Controlled experience in tutoring student writers in all disciplines. This course is only for people who are actually employed as a tutor.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 3850 INT - Methods and Practice in Tutoring and Mentoring ESL Students

Credits: (1-3)

Description: This course trains students who are native speakers of English or who are second language learners of English at native or near native levels of proficiency to work or volunteer in the ESL Program as tutors, classroom aides, mentors, and as language informants leading conversation groups.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

Note: Check with Department for course availability.

ENGL 3880 - Philosophy and Literature

Credits: (3)

Typically Taught Spring Semester: *Check with Department*

Description: A study of the interrelationships between ideas that shape the course of history and the poetry, prose, and/or drama of the periods that produce these ideas.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4010 - Topics in Language Study

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This variable topics course explores areas of study such as advanced grammar, sociolinguistics, language and the law, linguistics and composition, linguistics and language acquisition, or linguistics and literature, among others, as determined by the instructor. A previous language course or consultation with the instructor is recommended before enrolling.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

It may be taken more than once with different designations.

Note: Check with Department for course availability.

ENGL 4100 - Issues in Professional and Technical Writing

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Full Sem*

Description: This variable topics course focuses on specific issues in the ever-evolving field of professional and technical writing. Recent issues include indexing, professionalization, theoretical approaches, and discipline-specific emphases such as writing in the sciences and writing for the Web.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

It may be taken up to four times (for a total of 12 credit hours) with different designations to fulfill electives and must be pre-approved by an advisor.

ENGL 4110 - Content Management

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This class teaches the theory and application of content management. Students will learn how to evaluate content, divide content into reusable elements, label these elements, and then re-configure them into usable structures. Using the principles of single sourcing, modular writing, and structured authoring, students will map content for reuse, evaluate available authoring tools, implement state-of-the-art technologies, and develop project strategies.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

ENGL 4120 CEL/INT - Seminar and Practicum in Professional and Technical Writing

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course serves as a capstone for the minor and emphasis, preparing students for immediate job placement. In the seminar, students review issues and strategies of professional and technical writing and prepare portfolios for job interviews. The practicum is based on an internship or cooperative work experience in the community, with industry, or with an on-campus organization. The internship is the most time-intensive aspect of the course.

Pre-requisite(s): ENGL 2010 or ENGL 2015.

Suggested Requisite(s): ENGL 3100.

ENGL 4410 - Strategies and Methodology of Teaching ESL/Bilingual

Credits: (3)

Typically Taught Spring Semester: *Full Sem odd years*

Description: This course emphasizes practical strategies and methods of teaching ESL/Bilingual in the public school systems of this country.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4420 - English Phonology and Syntax for ESL/Bilingual Teachers

Credits: (3)

Typically Taught Summer Semester: *Odd-numbered years*

Typically Taught Spring Semester: *Full Sem*

Description: This course provides the essential foundation for ESL/Bilingual teachers in the workings of the English language: pronunciation and spelling systems, word-forming strategies and sentence structure patterns.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4450 - ESL/Bilingual Assessment: Theory, Methods, and Practices

Credits: (3)

Typically Taught Summer Semester: *Full Sem - even-numbered years*

Typically Taught Fall Semester: *Full Sem*

Description: This course explores how to effectively evaluate and implement assessment processes for ESL/Bilingual pupils in public schools. Students will gain experience with both standardized tests and authentic assessment.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

ENGL 4520 - American Literature: Early and Romantic

Credits: (3)

Description: This historical survey follows waves of European immigration and chronicles the effects of those on the American natives. The class then moves through the Revolutionary War and finishes with the relatively short but intense age of American Romanticism, which occurred in the decades just before the Civil War. The diverse writers in this period include such figures as Columbus, William Bradford, Anne Bradstreet, Benjamin Franklin, Washington Irving, Nathaniel Hawthorne, Edgar Allan Poe, Harriet Beecher Stowe, Henry David Thoreau, Frederick Douglass, Herman Melville, and Walt Whitman.

Pre-requisite/Co-requisite: ENGL 2700.

Note: Check with Department for course availability.

ENGL 4530 - American Literature: Realism and Naturalism

Credits: (3)

Description: This historical survey typically runs from the Civil War to WWI - emphasizing reconstruction, laissez-faire economics, growing imperialism, and universal suffrage. The diverse writers in this survey include such figures as Mark Twain, W. D. Howells, Sarah Orne Jewett, Henry James, Kate Chopin, Booker T. Washington, W. E. B. Du Bois, Stephen Crane, Jack London, Frank Norris, Theodore Dreiser, Mary Austin, and Henry Adams.

Pre-requisite/Co-requisite: ENGL 2700.

Note: Check with Department for course availability.

ENGL 4540 - American Literature: Modern

Credits: (3)**Typically Taught Fall Semester:** *Full Sem*

Description: This historical survey focuses on the first half of the 20th century, when the United States went through a series of profound political and social changes, such as its entry into World War I and II, Prohibition, The Red Scare, Suffrage, the advent of the mass media, and Progressivism. Drawing on a variety of genres and media (including painting and film), the course will study developments in the New Negro Renaissance, Greenwich Village bohemianism, the Provincetown Players, "high" modernism, and the Lost Generation. Representative writers of the period include: Langston Hughes, Zora Neale Hurston, Nella Larsen, Edna St. Vincent Millay, Mina Loy, Eugene O'Neill, Susan Glaspell, Ezra Pound, John Dos Passos, Amy Lowell, William Carlos Williams, Gertrude Stein, Ernest Hemingway, and e.e. cummings.

Pre-requisite/Co-requisite: ENGL 2700.

Note: Check with Department for course availability.

ENGL 4545 - American Literature - World War II to 2001**Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This course focuses on American literature from World War II to 2001 within the context of the dramatic political and cultural changes that have shaped contemporary American culture, such as the Cold War, Vietnam, the Civil Rights movement, feminism, and multiculturalism. Like its modernist predecessor, it ranges across genres and media to survey various emergent traditions and tendencies in contemporary and postmodern US letters.

Pre-requisite/Co-requisite: ENGL 2700.**ENGL 4550 - American Literature: Contemporary****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This course focuses on American literature from 2001 to the present. Like its predecessor, English 4545, it ranges across genres and media to survey traditions and tendencies in contemporary US letters that continue to emerge and evolve. The literature produced during this open-ended period is often less burdened by the legacies of Euro-American literature or the politics of the late 20th century, and hence still fluid in terms of defining period markers. Often written within the wider context of 9/11, U.S. foreign policy, and the changing world order, such work often complicates the aesthetic sensibilities of high postmodernism while providing American literature with a more global set of historical and geographic referents.

Pre-requisite/Co-requisite: ENGL 2700.**ENGL 4560 - Contemporary Literature for Creative Writers****Credits: (3)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem*

Description: This course introduces students to the work of contemporary writers through the study of literary journals and magazines, full-length books, collections, and individual pieces. Students will examine stylistic choices and the effects of those choices.

Pre-requisite/Co-requisite: ENGL 2700.**ENGL 4610 - British Literature: Medieval****Credits: (3)****Typically Taught Fall Semester:** *Check with Department***Typically Taught Spring Semester:** *Check with Department*

Description: This historical survey runs from the eighth century to the end of the fifteenth century - roughly from the reign of Alfred the Great to Henry VII. Some of the more recognizable works include Beowulf, The Wanderer, Geoffrey Chaucer's Canterbury Tales, early histories of King Arthur, Thomas Malory's Le Morte D'Arthur, Julian of Norwich's Showings, Everyman, and Gawain and the Green Knight. Works written in Anglo-Saxon English and northern medieval dialects will be read in modern translations.

Pre-requisite(s): ENGL 2700.

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4620 - British Literature: Renaissance

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This historical survey runs from just before the middle of the sixteenth century to just after the middle of the seventeenth - roughly from the reign of Henry VIII, through the reign of Elizabeth Tudor, to the restoration of Charles II. Some of the more recognizable figures of this study are Christopher Marlowe, John Donne, Ben Jonson, John Milton, Anne Askew, Aemilia Lanyer, Mary Wroth, and Robert Herrick.

Pre-requisite/Co-requisite: ENGL 2700.

Note: (Note: this survey does not typically try to do justice to its largest figure, Shakespeare - for whom the department has established ENGL 4730: Studies in Shakespeare.) Check with department for course availability.

ENGL 4630 - British Literature: Neoclassical and Romantic

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This historical survey links two periods: the first has frequently been referred to as the Enlightenment of the Eighteenth Century and includes such figures as Alexander Pope, Anne Finch, Mary Montagu, Jonathan Swift, and Samuel Johnson. The second period covers the relatively short but intense age of English Romanticism - popular because of such writers as William Blake, William Wordsworth, Samuel Coleridge, Lord Byron, Mary Shelley, Percy Bysshe Shelley, Mary Wollstonecraft, Sir Walter Scott, Thomas De Quincey, and John Keats.

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4640 - British Literature: Victorian

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This historical survey follows the long span of Queen Victoria's life: from about 1837 when she came to the throne to 1901 when her funeral widely symbolized the passing of the age. Not merely a placid time of Victorian propriety, this era was marked by such philosophical upheavals as that which followed Darwin's Origin of Species. Some of the notable writers are Elizabeth Gaskell, George Eliot, Lord Alfred Tennyson, Robert Browning, Emily Bronte, Charles Dickens, Matthew Arnold, and Thomas Carlyle. This era is marked by the Industrial Revolution, Utilitarianism (Mill), the rise of science and evolution theory (Darwin), socialism (Marx and Engels); Psychology (Freud), resurgence of art (the Pre-Raphaelites), and imperialism (Kipling). Notable writers include: Carlyle, Tennyson, the Brownings, Arnold, Wilde, Dickens, the Brontes, Eliot, and Hardy.

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4650 - British Literature: Modern

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Check with Department*

Description: This historical survey focuses on the first half of the twentieth century, a time of great social change for Great Britain and Ireland that led to a rich outpouring of traditional and experimental writing. A variety of writers will be studied in this course in connection with such key developments as the critique of Empire (Joseph Conrad, E.M. Forster); the Abbey Theatre and the Irish Literary Renaissance (Lady Gregory, W.B. Yeats); World War I (Siegfried Sassoon, Vera Brittain); High Modernism (T.S. Eliot, James Joyce, D.H. Lawrence, Virginia Woolf, Katherine Mansfield); divergent poetic world-views (W.H. Auden, Dylan Thomas); and World War II, the collapse of Empire, and dystopian visions (Evelyn Waugh and George Orwell).

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4655 - British Literature - World War II to 2001

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course examines British and Anglo-Irish literature from World War II to 2001 as Britain metamorphoses from world power to an integral member of the European Community. The course asks what it means to be a "British" writer in an era increasingly multicultural in outlook and studies a variety of British and Anglo-Irish writers in connection with such key developments as post-war disillusion. Absurdism and Postmodernism, neo-Romanticism, magical realism, innovative historical fiction, and legacies of Empire in a postcolonial world.

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4660 - British Literature: Contemporary

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course focuses on British literature from 2001 to the present. Like its predecessor, English 4655, it ranges across genres and media to survey traditions and tendencies in contemporary British and Anglo-Irish letters that continue to emerge and evolve as the UK attempts to define itself and Britishness in the wake of 9/11, a changing UK foreign and domestic policy, and Brexit.

Pre-requisite/Co-requisite: ENGL 2700.

Note: Check with Department for course availability.

ENGL 4710 - Eminent Authors

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This variable topics course features a single author or several authors. Students may study authors such as Sir Arthur Conan Doyle, Ralph Waldo Emerson, Emily Dickinson, Walt Whitman, Virginia Woolf, or Toni Morrison, in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite/Co-requisite: ENGL 2700.

May be taken up to 3 times with different designations.

Note: Check with Department for course availability.

ENGL 4712 - Eminent World Authors

Credits: (3)

Variable Title

Description: This variable topics course features a single author or several authors. Students may study global anglophone writers and/or works in translation, by authors such as Derek Walcott, Arundhati Roy, Chinua Achebe,

Gabriel García Márquez, Nadine Gordimer, Margaret Atwood, Mo Yan, Fyodor Dostoevsky, Naguib Mahfouz, and Umberto Eco in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite/Co-requisite: ENGL 2700.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

Note: Check with Department for course availability.

ENGL 4713 - Eminent Authors in Cultural and Media Studies

Credits: (3)

Variable Title

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This variable topics course features a single author or several authors. Students may study foundational and emerging authors in this dynamic and influential field in order to gain a greater understanding of the social, cultural, and aesthetic significance of their work.

Pre-requisite/Co-requisite: ENGL 2700.

It may be taken a total of 3 times (for a maximum of 9 credits) with different designations.

ENGL 4730 - Studies in Shakespeare

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Full Sem*

Description: This class is intended for English majors and minors seeking a deeper understanding of Shakespeare's work. Students can expect to do close readings of at least five plays and to study such secondary materials as literary criticism and historical background.

Pre-requisite/Co-requisite: ENGL 2700.

Note: Check with Department for course availability.

ENGL 4760 - Irish Literature

Credits: (3)

Typically Taught Fall Semester: *Check with Department*

Typically Taught Spring Semester: *Check with Department*

Description: This course examines the distinctive temperament and outlook of both the Gaelic and Anglo-Irish traditions in such writers as Aogán Ó Rathaille, Eibhlín Dubh Ní Chonaill, Jonathan Swift, Lady Gregory, Oscar Wilde, John Millington Synge, William Butler Yeats, James Joyce, George Bernard Shaw, Samuel Beckett, Seamus Heaney, Eavan Boland, and Nuala Ni Dhomhnaill. The first portion of the course studies the body of literature from the sixth century through 1900; the remainder of the course focuses on modern and contemporary texts. Key themes to be examined, always in the larger context of Irish history as a whole, include the Irish use of words as weapons, the place of gender in Irish writing, and the intriguing nature of Irish - particularly as opposed to English - identity.

Pre-requisite/Co-requisite: ENGL 2700.

ENGL 4801 - A&H Leadership Lecture Series

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: This one-credit elective course will give arts and humanities' majors the opportunity to interact with successful guest lecturers whose undergraduate backgrounds are in the arts and humanities. Lecturers will clarify how the talents and skills associated with their degrees have contributed to their pursuit of successful careers and lives.

ENGL 4830 - Directed Readings

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Individual readings supervised by a faculty member.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

Note: Check with Department for course availability.

ENGL 4890 - Cooperative Work Experience

Credits: (1-6)

Description: A continuation of ENGL 2890 Cooperative Work Experience. Open to all students.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent.

May be repeated 5 times with a maximum of 6 credit hours.

Note: Check with department for current course offerings.

ENGL 4900 INT - Internships in Literary and Textual Studies

Credits: (1-3)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course allows students to receive academic credit for on-the-job learning in approved work environments and for approved projects. A maximum of 3 credit hours may be counted toward the major. Credit/No-Credit only.

Pre-requisite(s): English major with a Junior or Senior standing; ENGL 2010 or ENGL 2015, and ENGL 3080.

May be repeated for up to 6 credit hours.

ENGL 4910 - Capstone in English Teaching

Credits: (1)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course is designed to synthesize a student's knowledge and training. The course will assist students in applying their content knowledge during the required teaching field experience. The course will also serve as a bridge to future employment by instructing students in portfolios, resumes, and recommendations. The class will underscore the acquisition of dispositional traits that produce responsible and effective teaching practices.

Pre-requisite(s): ENGL 2010 or ENGL 2015 or equivalent and admitted to Secondary Education program, ENGL 2420, ENGL 3410, ENGL 3020, and ENGL 3755.

ENGL 4920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

Pre-requisite(s): ENGL 1010 with a "C" grade or better or equivalent.

May be repeated for a total maximum of 6 credit hours.

Note: Check with Department for course availability.

ENGL 4930 - Visiting Writing Master Class

Credits: (1)**Typically Taught Fall Semester:** *1st Blk, 2nd Blk***Typically Taught Spring Semester:** *1st Blk, 2nd Blk***Description:** In this class, students will study the art and craft of creative writing, studying under the guidance of a nationally recognized visiting writer who will instruct them on writing theory and/or provide a short writing workshop of work from each student. Credit/No Credit grading.

May be repeated 3 times up to 4 credit hours.

ENGL 4940 - CW: Senior Project**Credits: (3)****Typically Taught Spring Semester:** *Full Sem***Description:** Students will assemble a capstone portfolio to prepare them for professional writing environments. Some of the many topics students will explore are revision strategies, publishing, literary citizenship, applying to graduate schools, community building, and learning to write daily without academic deadlines.**Pre-requisite(s):** ENGL 3250 or ENGL 3260 or ENGL 3280 or ENGL 3350.**ENGL 4960 INT - Metaphor: Editing the Student Literary Journal****Credits: (3)****Typically Taught Spring Semester:** *Full Sem***Description:** Designed for students selected as staff for Weber State's Literary Journal, Metaphor. Therefore, it is a hands-on workshop centering on all aspects of journal production: creating an editorial policy, advertisement, selection, layout, copy editing, preparing for print, marketing, distribution, etc. The journal itself is the final product. The staff supports writing and visual arts across campus through participation in several ancillary projects.**Pre-requisite(s):** ENGL 2010 or ENGL 2015 or equivalent.**ENGL 4990 - Senior Seminar****Credits: (3)****Typically Taught Spring Semester:** *Full Sem, Full Sem - Online***Description:** This course is about connecting your university education to your next steps, be they towards graduate school or a career. The course has three related components. First, it asks students to reflect on their academic career thus far. Second, it prompts students to consider where they might like to go next, and how they might get there. Third, the course offers guidance and training in career preparation. The course includes speakers, presentations and building a portfolio. It connects you with services on campus like Career Services. There is flexibility in this course for intellectual, professional and personal growth.**Pre-requisite(s):** ENGL 2010 or ENGL 2015 and ENGL 2700.**ENGR 1000 - Introduction to Engineering****Credits: (2)****Typically Taught Fall Semester:** *Full Sem***Typically Taught Spring Semester:** *Full Sem***Course Fee:** \$20.00**Course Fee Purpose:** Course fees are used to purchase design project parts**Description:** ENGR 1000 (2) Introduction to Engineering is a required course in the Pre-engineering and Mechanical Engineering programs. A major part of ENGR 1000 is a design project in which the students participate on a team basis. Costs for this design project fall into one category only, consumables, which are mechanical and electrical components for their projects. The project is called a Stop-Shoot Vehicle (SSV). The components and associated costs per student per semester are summarized below:**Pre-requisite/Co-requisite:** MATH 1060 or MATH 1080 or equivalent.

ENGR 1040 - Computer Aided Design

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: This course introduces fundamental technical engineering drawings, practices, and standards used by various engineering and construction disciplines for the depiction of 2- and 3-D model designs and topographic mapping. It is designed to provide students with basic competency in computer-aided drafting in support of engineering and construction career paths.

ENGR 2010 - Statics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Vector mechanics, force and moment systems, equilibrium of particles and rigid bodies, friction and moments of inertia.

Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2030 - Dynamics

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Fundamentals of position, velocity and acceleration. Kinematics and kinetics of particles. Newton's laws, conservation of momentum and energy. Dynamics of rigid bodies.

Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2140 - Mechanics of Materials

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Description: Fundamentals of stress and strain, Hooke's law, torsion, bending of beams, combined stresses and design of members.

Pre-requisite(s): ENGR 2010 with a grade of "C" or higher.

ENGR 2160 - Materials Science and Engineering

Credits: (3)

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$40.00

Course Fee Purpose: Course fee for replacement of lab equipment and consumable parts

Description: A lecture course that introduces the fundamentals of atomic and microscopic structure of metals, polymers, ceramics and composite materials, and how these structures affect mechanical, thermal, electrical and optical properties.

Pre-requisite(s): CHEM 1210.

Pre-requisite/Co-requisite: ENGR 2140.

ENGR 2165 - Materials Science and Engineering Laboratory

Credits: (1)

Typically Taught Spring Semester: *Full Sem*

Description: Laboratory course to accompany ENGR 2160 Materials Science and Engineering. Fundamental concepts of mechanical measurement, reporting technical data, procedures for measuring material properties and measurement standards.

Co-Requisite(s): ENGR 2160.

ENGR 2230 - Introduction to Land Surveying

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: This course introduces students to land surveying practices and techniques. It is designed to provide students with basic competency in land surveying in support of engineering and construction career paths.

Pre-requisite(s): MATH 1060 or MATH 1080.

Pre-requisite/Co-requisite: ENGR 1040.

ENGR 2240 - Dynamic Systems Engineering

Credits: (4)

Typically Taught Spring Semester: *Full Sem*

Description: An introduction to the modeling, analysis, and control of dynamic systems. Models of electrical, mechanical, electromechanical, and mass-transport systems in state-variable, input-output, and transfer function form. Topics include linear approximations of nonlinear systems, time domain and Laplace transform solutions, Block diagrams, feedback systems and large-scale linear systems analysis. Lecture and lab combination.

Pre-requisite(s): ECE 1400 and MATH 1210 and either ECE 1270 or ECE 2210.

ENGR 2300 - Thermodynamics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Description: Thermodynamic properties, equations of state, first and second laws of thermodynamics. Analysis of open and closed systems, availability and irreversibility, power and refrigeration cycles.

Pre-requisite(s): MATH 1210 and PHYS 2210.

ENGR 2920 - Short Courses, Workshops, Institutes, and Special Programs

Credits: (1-6)

Workshop

Description: Consult the class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ENTR 1001 - Principles of Entrepreneurship

Credits: (1)

Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.

Note: This course is not currently offered.

ENTR 1002 - Startup Innovation

Credits: (3)**Typically Taught Fall Semester:** *Full Sem - Online***Typically Taught Spring Semester:** *Full Sem - Online***Description:**

This course will present a broad overview of entrepreneurship and teach students how to identify and create valuable entrepreneurial opportunities. This is accomplished via proven process and theory designed to help ideation become customer needs driven instead of based on the instincts of the entrepreneur. Students will create, test and update a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Startup Owners Manual textbooks. This class will also have students spending time 'out of the classroom'-learning about what customers want and will pay for through in-person prototype testing, iteration and feedback.

ENTR 1003 - Ideation and Customer Development: Testing Ideas with Customers**Credits: (1.5)**

Description: This course explores the process and theory designed to help ideation become customer needs driven to buffer against startup failure. By the end of the course, students will have created, tested and updated a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Start-up Owner's Manual textbooks.

Pre-requisite(s): ENTR 1001, BSAD 2899 or ECON 2899.

Note: This course is not currently offered.

ENTR 1004 - Entrepreneurial Finance: Bootstrapping, Accounting & Survival Tactics**Credits: (3)****Typically Taught Fall Semester:** *1st Blk***Typically Taught Spring Semester:** *1st Blk*

Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business start-up. Students will explore the application of corporate finance tools to new venture and private equity transactions including forecast simulations and the application of real options. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business start-up purposes.

Pre-requisite(s): ENTR 1002.

ENTR 2001 - Sales and Marketing: Scaling a Successful Business Model**Credits: (3)****Typically Taught Fall Semester:** *2nd Blk***Typically Taught Spring Semester:** *2nd Blk*

Description: This course takes students who have successfully identified a start-up and teaches them the process of customer development, product development, business models and selling ideas to investors and customers. This includes examining a range of marketing techniques that are available for low to no cost. This course will look at alternatives to these traditional methods and students will, through hands on efforts, test these methods with real customers. By the end of the course students will be able to analyze business ideas for commercial viability.

Pre-requisite(s): ENTR 1004.

ENTR 2002 - Marketing Strategy for Small Business**Credits: (1)****Typically Taught Fall Semester:** *Full Sem - Online***Typically Taught Spring Semester:** *Full Sem - Online*

Description: This course introduces students to marketing methods used by startups and early-stage companies with a particular emphasis on pre-launch marketing strategies. This course seeks to develop the student's

understanding of delivering value, standing out from the competition, and having a compelling reason to exist. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, assignments and a final project based on the student's business idea.

ENTR 2003 - Marketing Execution for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course introduces students to marketing methods used by startups and early-stage companies. We will discuss differentiation, branding, targeting, and leveraging the power of collaborations (with existing brands, influencers and distribution partners) to gain instant traction in the marketplace. This course will use lectures, class discussions, and assignments to examine existing companies and how they executed various marketing tactics.

ENTR 2004 - Branding for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: Branding for Small Business takes you through the process of identifying an innovation opportunity to create a new product and/or service that can generate profitable revenue for an established organization (aka: corporate innovation or non-profit innovation). In this course, students take on the role of managers, both proposing an innovation project and evaluating other innovation projects on behalf of the organization. Managers use a disciplined approach to identify an important customer "job" that's not getting done well with existing solutions. Managers precisely and accurately define important and unsatisfied customer needs for this job and propose a new solution that can profitably satisfy those needs better than competing alternatives.

ENTR 2005 - Product to Market

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: Entering this course, you will move forward with validating in the market an opportunity you have identified that you believe is a high-potential demand creation opportunity. It is expected that you have already 1) verified the customers' job priorities, 2) verified that your value proposition is compelling to those customers, 3) designed a viable business model that you believe can profitably fulfill the value proposition, 4) ascertained an exhaustive set of value targets to inform solution design and 5) determined a demand creation strategy for commercializing the proposed solution (steps 1-5 in the AVID methodology). In this course, you'll continue through the AVID cycle, moving deeper into the discovery process.

ENTR 2006 - E-Commerce for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course will help you establish an e-commerce foundation for your business that can be built upon as you grow. We'll learn the steps needed to help your business start selling online. From which platform to use, to a growth strategy once a foundation is built, this course will aid your journey in becoming digitally mature entrepreneurs. I'm not a traditional professor, so this class probably won't follow traditional guidelines. Innovation, experiences gained, and execution of principles taught will be more important than papers written or assignments turned in.

ENTR 2007 - Product Design & Prototyping for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course presents the overall process of taking an idea through to a manufactured product ready for marketing and selling. Starting from the initial product idea, each lecture will cover a step in the process. Though specific skills and techniques will be covered, the goal is to understand primarily how to manage the process of design and development successfully. Students will learn to analytically vet ideas at the beginning and continually through the design and development cycle. They will also research successful products online and in-person, and understand what factors contributed to this effectiveness.

ENTR 2008 - Legal Foundations for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course is concerned with understanding and navigating some of the top legal issues facing business today. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective business owner, and (2) leader.

ENTR 2009 - Money Management for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course covers basic financial statements, creating pro-forma statements and analysis of financial statements. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup purposes.

ENTR 2010 - Funding For Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business startup. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business startup or expansion purposes.

ENTR 2011 - Results-Focused Leadership

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course is concerned with identifying, evaluating, and supporting metrics which promote outcomes which are important for your venture. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing your: (1) results-focused analytical abilities, and (2) leadership approach in directing/promoting employee growth. It is designed to give you insight into your own attitudes, beliefs, and leadership philosophy, to provide you with assessment tools that will help you diagnose, understand, and develop more effective and influential leadership programs for your business. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2012 - People Management for Small Business

Credits: (1)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description: This course is concerned with understanding and managing the human resources of a small business. It is designed specifically for individuals who are, or intend to become, small business owners. The course has a dual focus on developing you: (1) as a more analytical and effective manager, and (2) leader. It is designed to give you insight into your own attitudes, beliefs, and management philosophy, to provide you with analytical tools that will help you diagnose, understand, and develop solutions to management problems. It is also designed to provide skill development in important areas such as leadership, performance enhancement, teamwork, communication, and feedback-giving.

ENTR 2550 - Scale & Exit

Credits: (3)

Typically Taught Fall Semester: *Full Sem - Online*

Typically Taught Spring Semester: *Full Sem - Online*

Description:

The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business.

ENTR 2810 - Experimental Course

Credits: (1-6)

Experimental

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.
May be repeated for a total maximum of 6 credit hours.

ENTR 3003 - Growing the Business

Credits: (3)

Description: This course helps students take their start-ups business to the next level and accelerate the pace of customer validation and acquisition. This course will focus on launching the business from a student run start-up in a university setting, to a standalone company that can operate outside the confines of a college campus.

Pre-requisite(s): ENTR 2550

Note: This course is not currently offered.

ENTR 4680 - Consulting Essentials

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Diagnostic analysis of small business issues through the use of case studies and consultation opportunities with small businesses in the community. Students will work both individually and in teams to analyze the health of sample small businesses, identify issues and develop recommendations for remediation. Case issues will cover a broad spectrum of typical small business issues and require the student to evaluate based on all areas of business operations. Research, written reports and presentations are required. Cross-listed with BSAD 4680.

ENTR 6810 - Experimental Course

Credits: (1-6)**Experimental**

Description: Consult the semester class schedule for the current offering under this number. The specific title and credit authorized will appear on the student transcript.

May be repeated for a total maximum of 6 credit hours.

ENVS 4890 - Environmental Science Internship**Credits: (1-6)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to all Environmental Science majors who meet the minimum Internship requirements of the program. Provides academic credit for relevant on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated 5 times with a maximum of 6 credit hours.

Note: This course is offered as needed.

Pre-requisite(s): Instructor Approval

ENVS 4999 - Environmental Science ePortfolio**Credits: (.5)**

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: This course includes final assessment (e.g., exit interviews) and signoff needed for graduation with a BS degree from the Environmental Science program. Students assemble ePortfolios with artifacts demonstrating achievement of each of the six program learning outcomes in Environmental Science and complete a reflection essay. Contact your major advisor to complete this requirement once your portfolio is complete or, at the latest, at the beginning of your last semester before graduation. Credit/no credit.

ESS 2200 - Exploring Exercise Science Professions**Credits: (3)**

Typically Taught Summer Semester: *2nd Blk Online, 1st Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: Designed to orient and acquaint students with the goals, objectives, scope, professional preparation, career opportunities, and trends in exercise science professions.

ESS 2300 - Health/Fitness Evaluation and Exercise Prescription**Credits: (3)**

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include skinfold calipers, blood pressure cuffs, online blood pressure course access, cycle ergometer maintenance, heart rate monitors, sit and reach boxes, and sanitizing supplies.

Description: Skills and competencies for prospective health fitness instructors, personal fitness trainers, and nutrition educators to deliver preventive exercise programs.

Pre-requisite(s): HLTH 1030 and NUTR 1020.

ESS 2890 INT - Cooperative Work Experience

Credits: (1-6)

Typically Taught Summer Semester: *Full Sem*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Description: Open to all students in Human Performance Management and Physical Education who meet the minimum Cooperative Work Experience requirements of the department. Provides academic credit for on-the-job experience. Grade and amount of credit will be determined by the department.

May be repeated 5 times up to 6 credit hours.

ESS 3450 - Structural Kinesiology

Credits: (3)

Typically Taught Summer Semester: *1st Blk*

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include muscle and bone models, classroom computers, isokinetic Dynamometer, EMG equipment, goniometers, bone density tester, hand-grip dynamometers, and movement analysis tablets and apps.

Description: This course is a detailed study of muscles, nerves, bones, and joints as they are involved in the science of movement. It is designed for students to experience theoretical concepts and apply functional anatomy knowledge to the execution and improvement of human performance.

Pre-requisite(s): HTHS 2110 and Co-requisite: HTHS 2111, or Prerequisite: ZOOL 2320.

ESS 3500 - Biomechanics

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$25.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include force plates, isokinetic dynamometer, motion analysis devices and programs and EMG equipment.

Description: A study of the musculomechanical bases of human movement and experience in applying that knowledge to the execution and evaluation of human performance.

Pre-requisite(s): ESS 3450 and MATH 1050 QL or higher.

ESS 3510 - Exercise Physiology

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$50.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include body composition equipment, skinfold calipers, BodPod, blood pressure

cuffs, metabolic cart and equipment, ECG equipment, core temperature sensors, spirometry filters, ergometers, and lactate analyzer.

Description: A study of various physiological and environmental factors which affect performance of exercise and sport during acute exercise and physiological adaptations to chronic exercise.

Pre-requisite(s): HTHS 2110 or ZOOL 1020 or ZOOL 2420.

ESS 3540 - Physiological Aspects of Human Performance

Credits: (2)

Description: Examine, evaluate, and apply the latest physiological concepts and ideas in conditioning practices for improving human performance.

Pre-requisite(s): PEP 2000 or ESS 2200 and 3 hours of General Education Life Science (LS).

ESS 3600 - Measurement and Statistics in Exercise Science

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$10.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include computer lab use, body composition equipment, vertical leap device, and handgrip dynamometer.

Description: The selection, administration, and interpretation of measurement techniques and statistical procedures for the purpose of evaluation and research as related to exercise science and health promotion.

Pre-requisite(s): Meet WSU Quantitative Literacy requirement.

ESS 4280 - Advanced Strength and Conditioning

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Course Fee: \$6.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course. The course fee expenditures for this specific course include exam preparation materials for the Certified Strength & Conditioning Specialist (CSCS) certification exam.

Description: This course focuses on a more comprehensive/deeper understanding and applications of strength and conditioning concepts through in-depth discussions and practical application of strength and conditioning competencies. The emphasis is placed on performing evaluation of athletes and on program design under the guidance of Certified Strength and Conditioning Specialists (CSCS).

Pre-requisite(s): ESS 3510, PEP 3280, or permission of the instructor.

ESS 4320 - Special Topics

Credits: (3)

Typically Taught Summer Semester: *Full Sem, Full Sem - Online, 1st Blk, 1st Blk Online*

Typically Taught Fall Semester: *Full Sem, Full Sem - Online*

Typically Taught Spring Semester: *Full Sem, Full Sem - Online*

Description: This course will provide undergraduate students an opportunity to learn emerging and timely topics in the areas of exercise science by critically interpreting information from various sources. The course will also allow students to engage in discussions to appreciate different perspectives on certain exercise science topics.

Pre-requisite(s): ESS 2300, ESS 3450, ESS 3510 or Permission of the Instructor.

ESS 4370 - Exercise Physiology for Special Populations

Credits: (3)

Typically Taught Fall Semester: *Full Sem*

Typically Taught Spring Semester: *Full Sem*

Course Fee: \$30.00

Course Fee Purpose: This course has a fee attached. Course fees are established in order to benefit the students in this course and may, among other things, be used to cover the costs of equipment replacement and maintenance, consumable materials, licensure examinations, or to meet specific regulatory requirements. Examples of course fee expenditures for this specific course include laboratory equipment for blood cholesterol measurements, skinfold calipers, blood pressure cuffs, heart rate monitors, ECG supplies, treadmill and cycle ergometer maintenance.

Description: This course provides a comprehensive look at the clinical aspects of exercise physiology by thoroughly examining the relationship between exercise and chronic disease. It provides students with fundamental knowledge of disease-specific pathology and treatment guidelines. The guidelines and considerations for pregnancy and older population will be also discussed. Overview of each condition's unique physiology, effects of the condition on the exercise response, effects of exercise training on the condition, and recommendations for exercise testing and programming are presented in a selected topics format.
